Academics Without Borders (AWB) helps people in the world’s poorest countries by sending highly qualified volunteers to share their expertise and skills with these countries’ universities. AWB’s work relies on generous contributions of funds from its donors, as well as contributions of time, energy, and insight from its volunteers. All the programs in which AWB’s volunteers participate are initiated and supported by the local post-secondary institutions in which they take place. Our volunteers improve the education offered and the research performed by local academics, who in turn educate others to become doctors, nurses, teachers, engineers, researchers, and scientists, thus cascading the benefits of each program throughout the society. The presence of a cadre of trained local professionals helps mitigate the devastating effects of natural disasters and the processes that cause poverty, laying the foundation for a stronger future.

The Developing World Needs Your Help

We receive many requests from universities throughout the developing world. Each institution urgently needs help improving its administration, teaching, and research skills. With your kind help, we can send more volunteers to make a difference in the lives of people throughout the developing world. Please make a donation today.

**Impact of one volunteer**

**For AWB to help AKU continue its work and expand its Nursing Faculty, we need your help. Please make a generous donation to AWB in order to bring better health care to Tanzanians.**
