

Health Innovation:

Does it serve an aging population?

with special guest lecturer Dr. Anne Snowdon

Anne Snowdon, BScN, MSc, PhD
Academic Chair,
Ivey International Centre for Health
Innovation

A Meeting of the Research Exchange Group on Aging

Wednesday, December 11, 2013 | 12:30pm- 2:00pm

NLCAHR Boardroom | 95 Bonaventure Ave | Suite 300

The Newfoundland and Labrador Centre for Applied Health Research and our Research Exchange Group on Aging are pleased to welcome a leading Canadian expert in health innovation.

Dr. Anne Snowdon has dedicated much of her career to producing research and advancing innovation that will improve the health and well-being of Canadians. As Academic Chair of the International Centre for Health Innovation at the Richard Ivey School of Business, she leads the Centre's work to drive health system sustainability and productivity.

Dr. Snowdon has published more than 70 research articles, and received over \$7 million in research grants. She is a Fulbright Scholar and was awarded the Social Sciences and Humanities Research Council Doctoral Fellowship for her doctoral research.

Please join us for Dr. Snowdon's timely lecture about health system innovation and its potential impact on an aging population.

The Research Exchange Group on Aging meets monthly to bring together faculty, students, healthcare providers, government and community organizations to promote applied health research on aging.

Our focus is on:

- Building collaborations and partnerships
- Mentoring students and new researchers
- Communicating funding and research opportunities
- Identifying knowledge gaps and needs relevant to aging in NL

RSVP to attend in person or by teleconference, contact:
