

Invitation to Participate in a Research Study

Exploring Access to Diabetes Care and Support in Atlantic Canada: The Intersection of Places, Perspectives, and Policies (3P Diabetes Access)

Who? Health care providers who provide care to individuals living with diabetes and are willing to share their perspectives regarding access to diabetes care and support.

What & Why? We are seeking health care providers in Atlantic Canada (e.g., endocrinologists, internists, family physicians, nurse practitioners, certified diabetes educators, nurses, dietitians, pharmacists, etc.) to share their perspectives on access to diabetes care and support.

The primary investigator is a researcher at Memorial University Faculty of Nursing. Your expertise is needed to understand the impact of diabetes care and support on diabetes management.

When & Where? Interviews will take place either virtually (e.g., via Webex) or by telephone. Interviews will last approximately 60 minutes. We will agree on when and how (virtually or by telephone) to talk when you contact us.

How? If you are interested or would like more information, please contact the primary investigator, Dr. Renee Crossman (crossman@mun.ca or phone (709) 864-4459 or (709) 597-0994) or Olivia Riley (research assistant) at oriley@mun.ca.

If you have questions regarding your rights as a research participant please contact the Health Research Ethics Authority at (709) 864-8871 or info@hrea.ca.
