

Guess that animal

Grades: K-5

Materials

- Photographs of animals
- Descriptions of animals

Topics: This exercise will help students develop their observational skills and help them learn about sea animals. Themed pictures can direct discussion towards adaptations of animals.

Description

Students are presented with a picture of part of an animal and have to guess what the animal is. On the back will be the full picture with a description of the animal. Pictures can have varying levels of difficulty. Pictures can also be organized into themes such as locomotion, feeding, and defense.

For example:

Front
