

Science & Entrepreneurship

Keelin O'Leary
Genesis Centre
Memorial University

DATE: Wednesday, April 4, 2012

TIME: 1:00 pm

PLACE: C2045

ABSTRACT: The presentation will be focused on the stories of various Genesis Centre clients, to give multiple examples of how they came up with their business ideas, and how their businesses evolved. I will also speak briefly about the Genesis Centre, and how it helps companies like these.

The Genesis Centre is a support network developed to help Newfoundland and Labrador knowledge-based businesses/entrepreneurs create high-growth enterprises. It provides a wide range of resources and services for its clients with a long-term goal of preparing its clients to become "investor ready".
