Postdoctoral Fellow
in Thrombosis Research
(Health Outcomes and Policy Research)

Position Summary
We are seeking an ambitious, highly motivated, organized, and results-driven person to join our research team. The primary purpose of this position is to support the expansion of our Thrombosis Research Program, with a focus on the province of Newfoundland and Labrador. The ideal candidate will be familiar with health outcomes and policy research, including health economic and clinical research design. This postdoctoral position presents an excellent opportunity for recent PhD graduates to sharpen their analytical skills and advance their research agendas in health economics, health policy and health services research through interdisciplinary training and collaborations with scientific and policy colleagues.

Required Skills and Qualifications:
- A PhD with a specialization in health outcomes, epidemiology, health economics, health services research, health policy, or a related quantitative discipline.
- Demonstrated experience in economic evaluation, and/or health services research.
- Experience with administrative health datasets and data linkage.
- Strong quantitative research skills, including experience and proficiency using STATA, SAS, SPSS, R, TreeAge or similar software packages.
- Superior critical thinking ability and problem solving skills.
- Excellent oral and written English communication skills.
- Strong potential for research productivity.
- Comfortable with working independently and in collaboration with others.
- Superior organizational and time management skills, with the ability to work under pressure to meet deadlines.
- Ability to learn and understand clinical issues.
- Strong attention to details.

Memorial University is one of the two largest universities in Atlantic Canada. As the province’s only university, Memorial University plays an integral role in the educational and cultural life of Newfoundland and Labrador. Offering diverse undergraduate and graduate programs to almost 18,000 students, Memorial University provides a distinctive and stimulating environment for working and learning. St. John’s is a very safe, friendly city with great historic charm, a vibrant cultural life, and easy access to a wide range of outdoor activities.

Salary: $50,000 (including benefits)/year.
Closing Date: Applications will be accepted until June 31, 2022 or until the position has been filled.
Start Date: September 12, 2022 or as negotiated
Term: Two years
Location and Supervisors: This position will be located in the School of Pharmacy at Memorial University. Primary Supervisors: Dr. Stephanie Young, School of Pharmacy and Eastern Health, Dr. Rufaro Chitsike, Faculty of Medicine and Eastern Health, co-Supervisors Dr. Hai Nguyen, School of Pharmacy, and Dr. Tiffany Lee, School of Pharmacy and Eastern Health.
To Apply: Please send a detailed CV, cover letter and names and contact information for at least three academic/professional references to Ann-Marie O'Keefe-Penney, e-mail ampennen@mun.ca Subject: 2022 Thrombosis Research Post-Doctoral application.

All qualified candidates are encouraged to apply; however, Canadian citizens and permanent residents will be given priority. Memorial University is strongly committed to employment equity and especially welcomes applications from all qualified candidates, including women, members of visible minorities, Aboriginal persons, members of sexual minorities and persons with disabilities.
