National Conservancy Gifts Province

June 26, 2009

IT HAPPENS ONLY ONCE A YEAR; WHEN THE NATURE CONSERVANCY OF CANADA ANNOUNCES THEIR SELECTION FOR THE SAFEGUARDING OF AN ECOLOGICALLY IMPORTANT PARCEL OF LAND. TODAY, THIS PROVINCE HAS BEEN GIVEN A GIFT. AS THE CONSERVANCY ANNOUNCED THEIR PROMISE TO PROTECT BROOMS BROOK – IN THE GRAND CODROY ESTUARY. RECENTLY DR. MONTEVECCIO VISITED THE CODROY ESTUARY WITH SOME BIRD WATCHERS AND THE GROUP WAS AMAZED AT THE SPECIES RECORDED...IDENTIFYING CLOSE TO ONE HUNDRED BIRDS, SOME FROM AS FAR AWAY AS EUROPE AND EVEN HUMMINGBIRDS...NOT EXACTLY COMMON IN THIS PROVINCE. THE SELECTION BY THE NCC WILL SEE BROOMS BROOK PROTECTED FOR ITS 300 METERS OF SHORELINE AND OVER 100 METERS OF THE GRAND CODROY ESTUARY.
