B. Core Science Facility (CSF) Status Update

The Board received for information the Core Science Facility (CSF) status update. As reported at the July 2016 Board of Regents meeting, the CP-3 Tender for the Core Science Facility closed on June 23, 2016, with all bids being over budget. Since that time the team has endeavored to rework the tender through value engineering sessions with a view to re-tender the package as quickly as possible. A revised schedule has been drafted and the new CP-3 tender (CP-3R) was called on December 8, 2016 with an award no later than April 2017. It is anticipated the project will now achieve substantial completion in spring 2020, to be ready for a fall 2020 opening. Approval Timelines for the CSF were provided in the background documentation as Appendix A and Appendix B. In accordance with the Project Execution Plan, project scorecards were also included in the background documentation in order to provide an update on various aspects of the project (as provided in Appendix C of the background documentation).
Core Science Facility (CSF) Status Update (cont’d)

**Status**

**CP- (Construction Package) 1 Enabling Works**

Contract is complete. Details on the pre-tender estimates and the tender award amount were provided.

**CP-1A Foundations**

Work continued through the summer on schedule. All construction work pertaining to the contract was completed in August 2016. Details on the pre-tender estimates and the tender award amount were provided.

**CP-2 Structural Steel**

Approval was received on November 2, 2015 from the Provincial Government to issue a tender for CP-2. This tender was called on December 2, 2015 and was to close on March 1, 2016. It was subsequently cancelled and combined with CP-3. This change will enhance coordination of the work and reduce risk to the project.

**CP-3 Main Building (& Structural Steel)**

CP-3 now includes the scope of the former CP-2 (Structural Steel) and was issued for tender on April 15, 2016 after receiving approval to tender from the Provincial Government, as per the 4-stage approval process. The CP-3 tender closed on June 23, 2016 with all bids received being over budget. After consultation and approval from the Board of Regents and Government of Newfoundland and Labrador, it was decided the CP-3 tender would be cancelled, reworked and retendered to remain on budget. Accordingly, the team hosted a series of value engineering workshops over the course of summer 2016 and the tender package was reworked.

A complete set of revised drawings was received in November 2016 and was reviewed by the team over the following weeks. In early December, a pre-tender estimate was received from the cost consultants (Turner & Townsend) and a third party peer review of the pre-tender estimate was performed by A.W. Hooker. Both documents confirmed this phase of the project is within the global project budget so the tender was called on December 8, 2016, set to close on February 28, 2017.

In addition to reworking the tender package, the pre-qualification of all sub-trades has been removed, while the pre-qualification of the General Contractor (GC) will remain intact to ensure reputable and qualified firms are involved in the project. A Bidders’ Conference was held on December 14, 2016 at the Newfoundland and Labrador Construction Association offices for all pre-qualified GCs. During this session, the team highlighted important information regarding revisions to the CP-
Core Science Facility (CSF) Status Update (cont’d)

3R tender. All pre-qualified GCs were strongly encouraged to attend, with four pre-qualified GCs ultimately attending the session.

A draft contribution agreement has been received from the Government of Canada relating to their support of the project through the New Building Canada Fund. The agreement has been updated to reflect the new project schedule and cash flows and was submitted to the Federal Government in December 2016 for signature.

It was noted that the CSF audit heat map is reported on separately at the Audit and Risk Committee meeting.

C. Universal Transit Pass (UPass) for Memorial University update

The Board received for information an update on the University Transit Pass (UPASS) for Memorial University. At the December 1, 2016 meeting of the Board of Regents a presentation was made to provide information on a potential UPass for Memorial University and to request approval in principle to proceed with a UPass program. The Board informed administration at that time that further information and consultation was requested prior to making a decision on a UPass program for Memorial University. Accordingly, the following steps have been taken by administration since the December 2016 Board meeting:

1) Further information relating to other Canadian Post-Secondary institutions’ UPass programs is being prepared, with a summary expected for presentation at the March 2017 meeting of the Board of Regents.

2) The Memorial University Parking and Transit Solutions Committee has re-engaged its UPass sub-committee, which had concluded its work in Fall 2016, to further discuss and consult on a UPass for Memorial University. The sub-committee includes representation from the following groups:

- Memorial University Department of Facilities Management
- Memorial University Sustainability Office
- Memorial University Students’ Union
- Memorial University Graduate Students’ Union
- Marine Institute Students’ Union
- Memorial University of Newfoundland Faculty Association
- Metrobus Transit
Universal Transit Pass (UPass) for Memorial University update (cont’d)

The results of the efforts above are anticipated to provide further refinement to the proposed UPass program presented in December 2016 to ensure it meets the needs of the identified stakeholder groups and will provide the Board of Regents with further comparative information regarding UPass programs at other Canadian Post-Secondary institutions. The objective is to ensure that the best possible program is brought forward with further details, including cost/benefit analysis, thus allowing a decision to be made on whether MUN should enter into further negotiations with Metrobus.

FINANCE COMMITTEE

A. Update on the University’s 2016-17 Financial Position

The Board received for information an update on the University’s 2016-2017 financial position. On May 19, 2016, the Board of Regents approved the budget estimates for the fiscal year 2016-17. A review of actual revenue and expenditures has been completed as of November 30, 2016. At this time, total operating expenditures for 2016-17 are projected to be over budget by approximately $3,766,763 (as provided in Table 1 of the background documentation). The majority of this projected deficit is due to a $2,020,170 current year deficit projection for the Faculty of Medicine and a $965,100 current year deficit projection for the Grenfell Campus.

Budget 2016-17 included a $3.0 million permanent reduction for attrition. The full $3.0 million is expected to be identified by year end.

At this time, a $6.6 million surplus in Strategic Initiatives/Committed Funding is being projected. This $6.6 million surplus is mainly comprised of: a $4.2 cumulative surplus in faculty and staff turnover, a $1.4 million surplus for MUNFA professional development (PDTER), and $0.4 million for committed academic department projects.

Tuition Revenue - At this time, this source of operating revenue is forecasted to be $118,500 over budget. This forecast is based on actual tuition revenue for the spring and fall semesters and a projection for the winter semester.

Indirect Cost of Research Grant - This revenue source is projected to be on budget.

B. Finance Plan for the Animal Resource Centre – also on the Campus Planning and Development Committee agenda

This item was considered under the report of the Campus Planning and Development Committee as outlined in the Minute 6394.A. below.

CLOSED SESSION – DISCUSSION AGENDA

A. Parking fee rate increase - St. John’s Campus

The Board received and reviewed background information pertaining to the parking fee rate increase for the St. John’s Campus.
Parking fee rate increase - St. John's Campus (cont’d)

Board members were advised that parking fees at the University are low when compared to similar institutions, and are inadequate to cover maintenance/snow clearing costs for parking lots. Increases to parking fees are currently limited by the University’s collective agreements. There is a provision to allow a yearly increase in parking fees in the amount of the Consumer Price Index (CPI) increase. Therefore, a proposed general parking fee rate increase of 4 per cent is in line with the Newfoundland and Labrador CPI for a 12 month period (October 2015 to October 2016).

Revenue from permit sales from April 2016 – October 2016 is $225,939, therefore the 4 per cent extra should increase revenue for the same period in 2017 by approximately $9,038. The increased revenue will help fund operation and maintenance costs and allow further advancement and efficiency in parking management.

After a discussion, the following resolution was passed:

RESOLVED:

That the Board of Regents approve the Parking Fees Amendment [No. 8] as outlined in the background documentation, effective May 1, 2017.

Mr. Giraldo abstained from voting.

6391. EXECUTIVE COMMITTEE

B. Draft Statement of Purpose and Value Proposition

The Board received and reviewed background information pertaining to the draft “Statement of Purpose and Value Proposition”.

Board members were reminded that in discussions between the Board of Regents and the administration over the past several months, the Board of Regents asked the administration to develop a purpose statement and a value proposition to clearly and concisely explain why Memorial University exists and how it achieves its purpose.

Defining the purpose of the institution will help to drive the strategic response to current opportunities and challenges, as it will ground fundamental understanding around a common statement. The related institutional value position will allow for development of audience-specific value propositions that will guide planning and communications activities.

Prepared with input from the President and Vice-Presidents, the text as provided in the background documentation, has been approved by Vice-Presidents Council for consideration by the Board of Regents. A detailed communications plan to support the launch of the purpose and value proposition statements has been drafted and will be completed after the statements are finalized.

Following discussion and following a number of wording suggestions, it was agreed to receive the item as a draft document and to invite individual members of the Board to provide comments and suggestions to the Provost and Vice-President (Academic) as part of the consultation process before another version of the document is presented to the Board for further consideration.

The first of these recommendations reads as follows:

Specifically, the review should examine matters such as confidentiality requirements; a code of conduct; the interaction between governance and administration; mechanisms for regularly eliciting Board members’ feedback about Board governance and operations; orientation and professional development for Board members; and other matters that might contribute to inclusive Board culture. Additionally, the Board approved the appointment of Ms. Harriet Lewis as the Reviewer and agreed that Ms. Lewis be appointed as outlined in the background documentation.

D. Establishment of an ad hoc Committee to consider a Complaint from an Applicant for an Academic Position

The Board received and reviewed background information pertaining to the establishment of an ad hoc Committee to consider a complaint from an applicant for an academic position.

Board members were advised that at a meeting held on January 17, 2017, the Executive Committee agreed to recommend to the Board of Regents, the establishment of an ad hoc Committee to consider a complaint as outlined in the attached background documentation. The Executive Committee noted that Section 34(1)(j) of the MUN Act gives authority to the Board “to appoint committees that it considers necessary and to confer upon the committees power and authority to act for the board in and in relation to matters that the board considers expedient”.

Board members were advised that the Presidential Search, Appointment and Assessment Policy contains a number of procedures including the “Procedure for Annual Presidential Assessment”. The Governance Committee is recommending that the Procedure be updated to reflect the current practice of utilizing an external consulting firm to collect inputs from members of the Board regarding the Annual Presidential Assessment. It is also recommending that the Procedures be amended to provide an opportunity for all members of the Board (including members of the Executive Committee) to participate in the assessment of the performance of the President. The proposed amendments to the “Procedure for Annual Presidential Assessment” were provided in the background documentation.

In addition, incidental amendments to the “Procedure for Search, Selection and Appointment” and the “Procedure for Comprehensive Presidential Assessment” were proposed and were also outlined in the background documentation.

The Board received and reviewed background information pertaining to the 2016 Office of the Chief Risk Officer update.

Board members were advised that the Office of the Chief Risk Officer (OCRO) continues to provide Environmental Health and Safety, Security and Enterprise Risk Management services to Memorial. An update of work completed and ongoing by the OCRO during 2016 along with safety statistics, an update to the university risk profile, and an update to the university’s insurance premiums and guide was provided in the background documentation.

It was noted that at a meeting held on February 1, 2017, the Audit and Risk Committee received a presentation from Mr. Kris Parsons, Chief Risk Officer, entitled “Office of the Chief Risk Officer – Fall Update”.

During discussion, Mr. Bradbury advised that at the meeting of the Audit and Risk Committee, it noted the necessity of informing the Board of any items contained in the Risk/Opportunity category that have a residual risk rating of “Extreme”. At the meeting, it was also agreed that each of those items be categorized with a risk ranking showing the work being completed in order to bring the risk rating down to an acceptable level in a suitable timeframe.

This item was received for information and did not require a resolution of the Board.

6394. CAMPUS PLANNING AND DEVELOPMENT COMMITTEE

A. Financing Plan for the Animal Resource Centre – also on the Finance Committee agenda

The Board received and reviewed background information pertaining to the financial plan for the Animal Resource Centre.

Board members were advised that following from the approval provided by the Campus Planning and Development Committee at its meeting on October 5, 2016,
Financing Plan for the Animal Resource Centre (cont’d)

administration has continued to advance planning for the construction of the Animal Resource Centre and has received permission from the Government of Newfoundland and Labrador to borrow $15.6M towards the project. Accordingly, a Request for Proposals (RFP) for financing was issued for the project in December 2016, which closed in January 2017 and is currently under review.

The project has however continued to experience both budget and schedule challenges.

At the concept stage, the facility was envisaged to include only services currently being provided in the animal care area of the adjacent Health Sciences Centre. Due to the inadequacy of the environment in the Biotechnology Building and the negative impact on accreditation, the concept was changed to reflect incorporation of the services provided in the Biotechnology Building. While this was known when the budget was established, the impact was perhaps not fully appreciated. So while the need to meet budget has resulted in a “tight” footprint, the incorporation of the biotechnology services has meant that considerable effort has gone into making the space as flexible and multi-functional as possible.

The result is that despite efforts to provide cost control and make budget conscious design decisions, recent estimates place the global cost of the project higher than initially budgeted. In addition, the extended design period has resulted in a current construction schedule which places substantial completion of the project at mid-2019, which is beyond the Federal Government’s SIF program deadline of April 30, 2018. In response, the administration is working with both the provincial and federal governments to explore receiving an extension for the project under the SIF program to ensure its continued support.

With respect to the overall financing of the project, the administration outlined to the Board how it now intends to support the project

The administration anticipates calling tenders for this project in March 2017, and will report back to the Board of Regents prior to awarding the construction contract.

After a discussion, the following resolution was passed:
