Interim Dean

Cunsolo, A., Ph.D. *Guelph*

1 The Memorial University of Newfoundland Code

The attention of all members of the University community is drawn to the section of the University Calendar titled **The Memorial University of Newfoundland Code**, which articulates the University's commitment to maintaining the highest standards of academic integrity.

2 Student Code of Conduct

Memorial University of Newfoundland expects that students will conduct themselves in compliance with University Regulations and Policies, Departmental Policies, and Federal, Provincial and Municipal laws, as well as codes of ethics that govern students who are members of regulated professions. The *Student Code of Conduct* outlines the behaviors which the University considers to be non-academic misconduct offences, and the range of remedies and/or penalties which may be imposed. Academic misconduct is outlined in **UNIVERSITY REGULATIONS - Academic Misconduct** in the University Calendar.

For more information about the *Student Code of Conduct*, see www.mun.ca/student.

3 Labrador Campus Description

The Labrador Campus is Memorial University of Newfoundland's newest location. Based in Labrador, the Labrador Campus is a leading centre of research, education, policy, and community partnerships by and for the North. Home to the School of Arctic and Subarctic Studies and the Pye Centre for Northern Boreal Food Systems, the Labrador Campus provides place-based, Northern-focused, and Indigenous-led education and research opportunities in Labrador and across the North.

The Labrador Campus was officially established in January 2022, building on the 42-year presence of the Labrador Institute in the region. The Labrador Campus is committed to Northern-led, Northern-focused, and Northern-inspired research and education, and works to support the educational aspirations, research priorities, and socio-cultural wellbeing of people in Labrador and throughout the North. Since the Labrador Campus is situated on the homelands of the Innu and Inuit, the Labrador Campus has a special obligation to the Indigenous Peoples of the region, and to working in partnership on Indigenous-driven research and education initiatives.

The School of Arctic and Subarctic Studies is Memorial University of Newfoundland's newest academic unit, and the first in Labrador. Its core mission is to develop and deliver place-based, Northern-focused, and Indigenous-led undergraduate, graduate, and post-graduate degrees, diplomas, certificates, and micro-credential opportunities, focused on meeting the needs and priorities of Labrador and the North. The School is currently offering the four-year Bachelor of Science in Nursing (Collaborative); the Diploma in Northern Peoples, Lands and Resources; and Engineering One, the first-year of the engineering program. Multiple undergraduate and graduate programs are under development.

The Pye Centre for Northern Boreal Food Systems was established in summer 2019 and is a hub for community-led and Northern-focused food systems research, education, community connections, production, and distribution in Labrador. The Pye Centre works with diverse farmers, researchers, food organizations, communities, and Indigenous, municipal, provincial, and federal government representatives to: conduct research that expands and enhances food security, agricultural production and practices, and biodiversity in boreal regions; provide undergraduate, graduate, post-graduate, and community education and learning opportunities around Northern farming, agricultural science, food security, and food sovereignty; support the agricultural industry in Labrador, both for established farmers and new entrants, through applied research and training; and create community gardens, wellness programming, and learning spaces.

Additional information regarding the Labrador Campus is available at www.mun.ca/labradorcampus.

Students must meet all regulations of the Labrador Campus in addition to those stated in the general regulations.

For information concerning fees and charges, admission/readmission to the University, and general academic regulations (undergraduate), refer to **UNIVERSITY REGULATIONS**.

For information concerning scholarships, bursaries and awards, see www.mun.ca/scholarships/scholarships.

4 Description of Programs

The School of Arctic and Subarctic Studies at the Labrador Campus offers rich and deep learning opportunities to facilitate knowledge promotion, protection, creation, and interpretation. These opportunities will enable learners to dream, aspire, and inspire diverse just futures, grounded in Indigenous lands and waters, cultures, practices, philosophies, life journeys, ethics, knowledges, learning pathways, responsibilities, and governances, led by Indigenous partnerships consistent with visions of self-determination. In some areas, programming will be developed uniquely for Labrador; in other areas, programming will be jointly created with other academic units throughout Memorial University of Newfoundland. Programs and courses currently in development include diplomas, certificates, and short courses; undergraduate programming; graduate programs and courses; joint programming with Nunavut Arctic College; and post-graduate certificates.

4.1 School of Arctic and Subarctic Studies

The School of Arctic and Subarctic Studies at the Labrador Campus offers the four-year **Bachelor of Science in Nursing (Collaborative)**; the **Diploma in Northern Peoples, Lands and Resources**; and **Engineering One**, the first-year of the engineering program.

The application for admission or readmission to the University is submitted online at www.mun.ca/undergrad/admissions. Applicants who are new to Memorial University of Newfoundland should follow the application instructions at www.mun.ca/undergrad/apply. Applicants seeking admission to a particular faculty or school may be required to submit additional documents beyond those required for general admission to the University. Applicants should refer to appropriate faculty or school regulations for procedures, deadlines, admission requirements and further information. Applications for admission/readmission should be submitted by the following deadline dates: March 1 for Fall, October 1 for Winter, and February 1 for Spring (14-week, Intersession and Summer session). Applications received later than the stated deadline dates will be processed as time and resources permit. For further information refer to **University Regulations, Admission/Readmission to the University (Undergraduate)**.

4.1.1 Bachelor of Science in Nursing

In cooperation with the Faculty of Nursing, the School of Arctic and Subarctic Studies is offering the four-year **Bachelor of Science in Nursing (Collaborative)** degree program in Happy Valley-Goose Bay at the Labrador Campus. Information regarding admission to the program is available at the Faculty of Nursing website and in the University Calendar at **Faculty of Nursing Admission/Readmission Regulations for the Bachelor of Science in Nursing (Collaborative) Program and Program Regulations**.

Students must meet all regulations of the Faculty of Nursing and Labrador Campus in addition to those stated in the general regulations. For information concerning admission/readmission to the University and general academic regulations (undergraduate), refer to **UNIVERSITY REGULATIONS**.

4.1.2 Diploma in Northern Peoples, Lands and Resources

The Diploma in Northern Peoples, Lands and Resources is administered by the School of Arctic and Subarctic Studies at the Labrador Campus in partnership with the **Faculty of Humanities and Social Sciences**.

The Diploma in Northern Peoples, Lands, and Resources provides a foundation in the understanding of issues relevant to the North, including Labrador, the provincial and territorial Norths in Canada, and the Circumpolar North. The program emphasizes content and approaches that are specifically relevant to understanding Northern and Indigenous societies, economies, and landscapes. Students take courses in multiple disciplines and develop a broad base of knowledge and skills relevant to Northern studies, careers, leadership, and community- and place-based relationships. Information regarding admission to the program is available at the Faculty of Humanities and Social Sciences website and in the University Calendar at **Faculty of Humanities and Social Sciences, Diploma Programs, Diploma in Northern Peoples, Lands and Resources**.

Students must meet all regulations of the Faculty of Humanities and Social Sciences and Labrador Campus in addition to those stated in the general regulations. For information concerning admission/readmission to the University and general academic regulations (undergraduate), refer to **UNIVERSITY REGULATIONS**.

4.1.3 Engineering One

The **Faculty of Engineering and Applied Science** and the School of Arctic and Subarctic Studies are offering **Engineering One**, the first-year of the engineering program, at the Labrador Campus. Information regarding admission to programs is available at the Faculty of Engineering and Applied Science website and in the University Calendar at **Faculty of Engineering and Applied Science, Description of Program**.

Students must meet all regulations of the Faculty of Engineering and Applied Science and Labrador Campus in addition to those stated in the general regulations. For information concerning admission/readmission to the University and general academic regulations (undergraduate), refer to **UNIVERSITY REGULATIONS**.

5 Graduation

Upon meeting the qualifications for the program, students must apply to graduate on the prescribed "Application for Graduation" form. This form may be obtained online at selfservice.mun.ca. The deadlines for application submission are July 15 for Fall (October) graduation, January 3 for Winter (February) in-absentia graduation, and January 15 for Spring (May) graduation. Applications received after these dates will be processed as time and resources permit. Additional information is available from the Office of the Registrar at www.mun.ca/regoff/graduation. Information regarding Convocation, including the dates of the ceremony, is available at www.mun.ca/convocation.

6 Waiver of Campus Regulations

A student has the right to request waiver of Campus regulations. The requirement for a specific course, or courses, may in special circumstances, and upon individual request, be waived by the Committee on Undergraduate Studies. Such waivers shall not reduce the total number of credits required for the Degree or Diploma.

A student wishing waiver of University academic regulations should refer to **UNIVERSITY REGULATIONS, Appeal of Decisions General Academic Regulations (Undergraduate) - Waiver of Regulations**.

7 Appeal of Decisions

Any student whose request for waiver of Campus regulations has been denied has the right to appeal. For further information refer to **UNIVERSITY REGULATIONS, Appeal of Decisions**.
