## MEMORIAL UNIVERSITY INVENTORY OF SPONSORED PROJECTS

### INTRODUCTION

The Office of Research has been publishing an annual *Inventory of Sponsored Projects* since 1974 (prior to 1998-99 published under the title of *Research Inventory*). This volume, the 32nd in the series, lists the sponsored project activity that was carried out at Memorial for the fiscal year April 1, 2005 to March 31, 2006. This and previous versions of the *Inventory* dating back to 1995-1996 are available on the Office of Research Web site at [www.mun.ca/research](http://www.mun.ca/research).

The *Inventory* does not list all research activity being carried out at Memorial. It lists only the research that has received direct funding support. Another publication of the Office of Research, the *Research Directory*, covers the research interests and activity of current members of faculty. The *Research Directory* is maintained as an on-line database on the Office of Research Web site at [www.mun.ca/research](http://www.mun.ca/research).

In 2005-2006 external funding support amounted to just over \$90 million representing an increase of 10.4 per cent over the previous year.

Many grants and contracts are awarded for a single fiscal year; however, a substantial number bridge two or more years. For any research funding that spans more than one year, this *Inventory* includes only the portion awarded during the 2005-2006 fiscal year. The details were compiled from Office of Research records. Preliminary reports were sent to individual researchers for verification prior to publication. While every effort has been made to ensure accuracy and completeness, any errors or omissions should be reported to the Office of Research.

The *Inventory* continues to include grants and contracts for developmental and international projects, awards made for the organization of conferences at which research results are disseminated, research infrastructure grants and contracts, and fellowships that facilitate research. A number of grants and contracts providing support for innovative teaching techniques and course development, particularly for delivery by distance and via the Internet, are also included.

### ORGANIZATION OF THE INVENTORY

The listing is organized by campus, faculty or other unit, then by department where applicable, and finally alphabetically by principal investigator within each unit. Projects supported by funds from agencies and organizations outside the university are reported in the first section of the *Inventory*. Grants awarded internally from block funds and from faculty funds are listed in the next section. For both internal and external awards, each research project is individually listed, giving the name of the principal investigator(s), title of the project, funding agency or fund, and the amount awarded for 2005-2006. Some scholars have appointments in more than one faculty or department, or are cross-appointed with an institute; their projects are listed in detail only once but the additional affiliations are noted and cross-referencing is provided so that the details of all awards may be readily located.

### ACKNOWLEDGMENTS

The production of the *Inventory* was, as usual, owing to the efforts of a number of people. Elizabeth Williams was responsible for formatting and editing. Debbie Barnes, Eleanor Butler, Joy Carew, Ros Chafe, Jan Hopkins, Janice Peach and Elizabeth Williams assisted with data verification. Deborah Inkpen assisted with printing. Craig Perchard co-ordinated the effort. Outside of the Office of Research, special thanks are extended to Dr. Wade Bowers, Sir Wilfred Grenfell College, Fred Christian-Quinton, Stan Collins and Michael Beson, Marine Institute, Sheila Bartlett, C-CORE, Colleen Clarke, International Centre, and Gail Lamkin, School of Graduate Studies for assisting with their data. Thanks to Image Services of the Department of Marketing and Communications for the cover design. Finally, special thanks to all researchers and administrative personnel for contributing to the integrity of the data by taking the time to respond during the verification process.

## SPONSOR ABBREVIATIONS

### A

AAU	Association of Atlantic Universities, Halifax, Nova Scotia
ABBOTT LAB LTD	Abbott Laboratories Limited, Montreal, Québec
ABBOTT LABORATORIES	Abbott Laboratories, Columbus, Ohio

DUPRE, K. (STJ, BUSADMIN) & Arnold, K. (STJ, BUSADMIN)	20040866 - Supervisory leadership behaviours and employee outcomes: a longitudinal investigation with a training intervention	3,450
FABIJANCIC, T. (SWG, DIVARTS, ENGL)	20040867 - Our ghosts will walk through Vienna: in the footsteps of Gavrilo Princip	6,200
GUSTAFSON, D. (STJ, MED)	20040868 - Survey of Canadian Undergraduate Medical School admission procedures and equity policies	5,300
KLASSEN, D. (SWG, SOCSCI)	20040872 - A performance-centered approach to the study of ideophones and gesture in Shona storytelling in Zimbabwe	4,200
SNOOK, B. (STJ, SCI, PSYCHOLOGY)	20040869 - Psychological models of judges' bail decisions	5,850

**STATISTICAL TABLES**

**2005-2006**

## NOTES TO THE TABLES

1. **Operating grants** are awarded to individuals or teams to cover part or all of the direct costs of particular research projects. They often include provision for salaries paid to graduate students and other assistants, the university's share of fringe benefit costs, and the expenses of materials, technical services, field travel and computing.
2. **Operating contracts** are similar to operating grants but involve a contractual agreement that is more formal than the terms of a conventional grant. By means of a contract, the sponsor normally acquires an interest in the results of the research and can enforce strict time, scope and reporting requirements; university policy, however, is that investigators retain the right to publish, subject to a reasonable deferral period.
3. **Equipment grants** are awards given for the purchase of items of capital equipment and their maintenance.
4. **In-kind** support is assistance in other ways than cash transfers to the university. Among common types of such support are free supplies of material involved in experiments, use of off-campus computer or other facilities, loan of equipment, donations to the library, dedicated time of other organizations' personnel, ship-time and other logistical support.
5. Awards designated as **general support grants** are either grants to assist with general operating costs, including awards for infrastructure or library resources, or lump sums received from an outside source and then redistributed internally within the university.
6. In Table 3, the amounts reported for the Faculty of Science also include the research units of CERR (Centre for Earth Resources Research) and OSC (Ocean Sciences Centre). The amounts reported for the Faculty of Business Administration also includes the P.J. Gardiner Institute for Small Business Studies and the Centre for International Business Studies.
7. Further analysis of the University's research data can be found in the *Fact Book*, a publication of the Centre for Institutional Analysis and Planning. The *Fact Book* can be found on the Web at [www.mun.ca/ciap/](http://www.mun.ca/ciap/) or by contacting the Centre for Institutional Analysis and Planning.

**TABLE 1**

## EXTERNAL SUPPORT, 2005-2006

## SUMMARY BY TYPE OF AWARD

<b>TYPE</b>	<b>NUMBER</b>	<b>VALUE</b>
Chair Grants and Contracts	21	2,872,975
Conferences/Workshops & Symposia Grants and Contracts	5	47,500
Council Partnership Grants	14	1,110,466
Equipment Grants	13	750,704
General Support Grants	2	141,223
Infrastructure Grants and Contracts	66	17,940,297
In-kind support	(77)*	18,976,622
Operating Contracts	359	22,957,438
Operating Grants	510	22,171,962
Publication Grants	2	42,500
Research Personnel Grants and Contracts	97	3,000,008
Travel Grants	1	12,500
Other	1	92,595
<b>TOTALS</b>	<b>1,091</b>	<b>90,116,790</b>

\*There are 77 pieces of in-kind support which are already counted in the funding category numbers. eg. an in-kind operating grant is counted as one operating grant.
