B. Graduate Studies Committee:
   Report presented by J.C. Loredo-Osti, Chair, Graduate Studies Committee:
   
   a) Aquaculture Program, special topics course AQUA 6203, Applications of Transcriptome Analysis in Aquaculture, presented to council for information purposes only.
   
   b) Department of Biology, special topics course BIOL 7948, Lichens: Molecular Biology and Culturing, presented to council for information purposes only.

C. Nominating Committee: None

D. Library Committee: None

Report of Teaching Consultant: None

Reports of Delegates from Other Councils: None

Report of the Dean:
Dr. Courage informed Faculty Council members that the Faculty of Science will be absorbing a larger budget cut than was initially expected. The total funding
shortfall to the Academic Portfolio is $5.1 million, however, we do not know the amount that may be allocated to Science, but the 2018-19 cut will be more than was anticipated.

As an update for the five departments waiting to advertise approved faculty positions, the Vice-President (Research) has confirmed that some startup funds will be made available but the amount will be less than was received last year. Gina is working to confirm if we have all startup funds needed to proceed with advertising, and the Dean’s office will be in touch with the applicable departments once this information is finalised. Hiring will soon be completed for the approved positions from December 2016, plus two conversions and two new appointments were approved.

FSC 2610  Question Period:
There was some discussion regarding starting the faculty recruitment process before having startup confirmed. This had happened in the past and caused problems with recruitment. Dr. Courage confirmed that we will not proceed with hiring until the startup funds are in place.

FSC 2611  Adjournment
The meeting adjourned at 1:15 p.m.
