Faculty of Science Scientific Computing Program

Per-Course Appointment

The Scientific Computing Graduate Program invites applications from individuals interested in teaching the following graduate course in the Intersession portion of the Spring 2019 semester.

Subject to budgetary restrictions and sufficient enrolments, appointments will be made on a course by course basis and will not entail any obligation to conduct research or to perform any administrative service for Memorial University. Appointments will be made in accordance with the provisions in the MUN-LUMUN Collective Agreement. Course design and evaluation methods for all courses will be in accordance with the Scientific Computing Program regulations and the Memorial University Calendar.

Course Title: CMSC6950 Computer Based Research Tools and Applications

Course Schedule: TBD, 6 h/week lectures

Campus Location: St. John's Campus

Course Description: Using computers in research computing requires a diverse set of skills and tools for the research to be effective and efficient. The goal of this practical six-week intersession course is to increase a student's level of proficiency with using computers to do research in science.

For further information regarding this course please visit <https://www.mun.ca/science/graduate/interdisciplinary/cmssc/>

Qualifications: The successful applicant will have a PhD in a relevant discipline and post-secondary instructional experience.

To apply for this position:

Please submit a letter of application, curriculum vitae and the names of referees, electronically or in writing to:

Dr. Ronald Haynes
Chair, Scientific Computing Program
Faculty of Science
Tel: (709) 964-3414 Fax: (709) 864-3316
Memorial University of Newfoundland
St. John's, NL, A1B 3X8
