Faculty of Science
Environmental Science Graduate Program
Per-Course Appointment

The Environmental Science Graduate Program invites applications from individuals interested in teaching the following graduate course in the Winter 2020 semester.

Subject to budgetary restrictions and sufficient enrolments, appointments will be made on a course by course basis and will not entail any obligation to conduct research or to perform any administrative service for Memorial University. Appointments will be made in accordance with the provisions in the MUN-LUMUN Collective Agreement. Course design and evaluation methods for all courses will be in accordance with the Environmental Science Graduate Program regulations and the Memorial University Calendar.

Course Title: Environmental Science 6003, Applied Ecology
Course Schedule: TBD, 3 h/week lectures; should be taught during the normal daytime teaching hours.
Campus Location: St. John’s Campus

Course Description: This is a three credit course. The objective of the course is to introduce graduate students in the Environmental Science Program to the basic concepts and principles of Applied Ecology. Topics may be drawn from any combination of marine, terrestrial, and/or freshwater environments.

For further information regarding this course please visit https://www.mun.ca/science/graduate/interdisciplinary/envs/

Qualifications: The successful applicant will have a PhD in Ecology, Environmental Science or related disciplines, and post-secondary instructional experience.

To apply for this position:
Please submit a letter of application, curriculum vitae, sample course outlines, and the names of three references, electronically or in writing to:

Dr. Evan Edinger
Chair, Environmental Science Program
Faculty of Science
