Chair of the Senate Committee on Undergraduate Studies (Standing Invitation)

Dr. Shannon Sullivan

The President welcomed all Senators to this meeting of Senate.

Welcome:

New Dean of Pharmacy

Dr. Shawn Bugden

The President noted that it would be appreciated if when you speak you use the microphone and introduce yourself and your constituency as Grenfell Campus Senators are joining by videoconferencing and otherwise will not be able to hear.

92. APOLOGIES FOR ABSENCE

Apologies were received from Dr. I. Dostaler, Dr. M. Steele, Dr. J. Hawboldt, Dr. J. Leibel.
93. MINUTES

It was moved by Dr. Okshevsky, seconded by Dr. Sutherland, and carried that the Minutes of the regular meeting held on March 13, 2018, be taken as read and confirmed.

94. REPORT OF THE SENATE COMMITTEE ON HONORARY DEGREES AND CEREMONIAL

Senate moved into a closed session for this item of business in accordance with Section IV.E.2. SENATE MEETINGS AND PROCEDURES of the Handbook of Senate By-Laws and Procedures which reads:

*Matters of a confidential nature, including honorary degrees, shall be discussed in closed session; observers are not permitted to attend closed sessions.*

The names of six candidates recommended by the Committee on Honorary Degrees and Ceremonial were presented to the Senate for award of the title of Professor Emeritus for eventual consideration by the Board of Regents. Members were given the opportunity to discuss the merits of each of the candidates before voting. Upon voting by a show of hands, each candidate was approved by at least a two-thirds majority vote.

CONSENT AGENDA

It was moved by Professor Walsh, seconded by Dr. Surprenant, and carried that the consent agenda, comprising the items listed in 95-96 below, be approved as follows:

96. Report of the Academic Council of the School of Graduate Studies

96.1 Education

Page 641, 2017-2018 Calendar, under the heading 11.8.3 Counselling Psychology, amend the section as follows:

“11.8.3 Counselling Psychology
The mission of the program in Counselling Psychology is to prepare highly knowledgeable, skilled, dedicated, and ethical professional practitioners, who will endeavour to enhance human potential throughout the life span and who can effectively practice within a variety of settings.

The Counselling Psychology faculty promotes counselling as an effective, viable means of assisting individuals throughout the life span. The counselling practitioner, regardless of his or her theoretical stance or work setting, functions as a change agent who is sensitive to and knowledgeable about the range of human development reflected in individual differences and cultural and linguistic diversity. Effective and positive change is brought about by assisting clients to: examine and modify their behaviour for more effective living; cope with, adjust to, or otherwise negotiate the environments affecting their psychosocial well-being; and effect change in the larger society.

The practice of Counselling Psychology is based on theory and research, an understanding of ethical practices, and a set of professional and interpersonal skills. It is essential that graduate students study a variety of conceptual frameworks and research findings as preparation for collaborative work with other helping professionals, paraprofessionals, and a variety of self-help groups.
The Counselling Psychology faculty, while representing a range of views, agree that the uniqueness of the individual and his or her personal strengths must be acknowledged and respected. To fully explore professional issues and personal values, a trusting and open atmosphere must be present.

Individuals from a wide variety of personal, social, and educational backgrounds are encouraged to apply to the Counselling Psychology program. The program provides a broad-based sequence of studies and supervised experiences that will prepare graduate students to be knowledgeable and skilled practitioners who can function in a variety of settings. By the time they have completed this program, students will have acquired knowledge and competencies in the following general areas: individual and group counselling theory and techniques, legal and ethical aspects of counselling, human development and learning, social, cultural, and linguistic diversity, career education and counselling, program development and implementation, measurement and appraisal, research and program evaluation, and application of current technology service delivery in rural areas.

1. Admission Requirements

In addition to meeting the requirements in the School of Graduate Studies General Regulations, students:

   a. must have completed Education 3210, Introduction to Counselling.

   b. must have completed at least one undergraduate course on each of the following topics: Statistics (Education 2900), Assessment (Education 3280, 3951, 3952 or 4950), Introduction to Career Education (Education 3211), Introduction to Exceptionality (Education 4240 or 4242).

Note: Many of these courses are prerequisites to specific graduate courses and must be completed before taking those courses.

   c. must have at least one year of teaching (or related work) experience.

   d. must submit a resume that contains a concise rationale for the application (500 words or less) and three letters of recommendation (preferably one from each of the following: previous university instructors, supervisors, or employers).
Education (cont’d)

e. should note admission is selective and controlled by an admission committee of faculty members involved in the program. An interview may be required if deemed necessary.

f. should note the Graduate Record Examination may be required.

g. A criminal record check or other screening procedures are not required as a condition of admission to the Counselling Psychology program. A student should, however, be aware that such record checks or other screening procedures are required by school districts, schools, community agencies, or other agencies that host counselling psychology students. Such agencies will not accept a student without a clean criminal record and vulnerable sector check or other screening procedures, which would prevent the student from completing a required component of the program. As a result, such a student may not be eligible for promotion or graduation.

It is the responsibility of the student to have such procedures completed as required and at his/her own expense. The Faculty of Education’s Counselling Psychology program expects a student to provide evidence of a clean criminal record and vulnerable sector check before participating in any course or experience where direct contact with clients will occur.

The screening procedures of any given agency may change from time to time and are beyond the control of the University.

2. Program Requirements

a. all students in the Master of Education (Counselling Psychology) program shall be required to complete:

REGULAR AGENDA

97. Report of the Senate Committee on Undergraduate Studies

97.1 School of Arts and Social Sciences

Dr. Shannon Sullivan, Chair of the Senate Committee on Undergraduate Studies, presented the calendar changes noting the following amendments:

- On page 42 of the senate agenda, following the Special Topics course “4900-4910 Special topics in Tourism”, add the words “(Excluding 4902)”

- On page 51 of the senate agenda, Tourism 4902 is being regularized and should be added to the calendar changes.

It was moved by Professor Walsh, seconded by Dr. Okshevsky, and carried the following calendar changes along with the amendments to approved.

Page 179, 2017-2018 Calendar, under the heading 3 Grenfell Campus Description, amend the section as follows:

“3 Grenfell Campus Description
www.grenfell.mun.ca/Pages/Grenfell-Campus.aspx
Grenfell, a Campus of Memorial University of Newfoundland, was established in September 1975, and originally was called the Western Regional College. In 1979 it was named Sir Wilfred Grenfell College, honouring the memory of the medical missionary who pioneered medicine in northern Newfoundland and along the coast of Labrador. In 2010, it was renamed Grenfell Campus, Memorial University of Newfoundland.
Four-year undergraduate degree programs in Arts, Business Administration, Fine Arts, Nursing, Resource Management, and Science may be completed at Grenfell Campus, as well as fast-track options in Education and Nursing. The Bachelor of Arts degree is available in English, Environment and Sustainability, Historical Studies, Humanities, Psychology and Social/Cultural Studies, and Tourism Studies and the Bachelor of Arts (Honours) may be obtained in Psychology. The Bachelor of Business Administration is offered as general and honours degrees. The Bachelor of Science is offered in Computational Mathematics, Environmental Science, General Science, Physics, and Psychology and the Bachelor of Science (Honours) is offered in Environmental Science, and Psychology, and the University's four-year Bachelor of Nursing degree is offered in conjunction with the Western Regional School of Nursing in Corner Brook. Bachelor of Fine Arts degrees are conferred in Theatre and Visual Arts. These programs differ from those offered on the St. John's Campus and many are available only at the Grenfell Campus. Grenfell Campus also offers graduate programs. For information regarding graduate programs see the School of Graduate Studies at www.mun.ca/sgs.
Students at Grenfell Campus may also complete the first-year requirements of several programs offered at St. John's Campus including the requirements of the Engineering One Program. It is recommended that students meet with an academic adviser concerning course selection for specific programs.
Students have the option of completing distance and web-based credit courses offered by Memorial University of Newfoundland's Centre for Innovation in Teaching and Learning (CITL). As well, Grenfell’s Office of Engagement offers a wide variety of non-credit courses to students, the Campus community, and the general public.
Grenfell's physical location affords the Campus a spectacular view of the city of Corner Brook and the scenic Bay of Islands. All Campus

buildings are connected by a series of skywalks and tunnels. The Arts and Science Building houses administrative and academic units, a bookstore, an athletics and recreation wing, a student residence and the Grenfell Campus Student Union Student Centre. The recently added Arts and Science Extension houses the Grenfell Campus observatory and astronomical telescope. The Library and Computing Building includes Ferriss Hodgett Library, a computer lab and the largest lecture theatre on Campus. The Fine Arts Building contains facilities for visual arts and theatre students. It features a 160 seat theatre, dressing rooms, scenery, costume and properties workshops, as well as an actors' green room and a rehearsal hall. The Fine Arts Building also includes an art gallery, art storage vault, studios for drawing, painting, sculpture, multimedia and photography, darkrooms, and workshops for lithography, intaglio and serigraphy. The Forest Centre houses classroom, laboratory and research facilities for the Campus as well as the Atlantic Division of the Canadian Forestry Service, Natural Resources Canada. Adjacent to the Forest Centre is a brand new boreal ecosystem research facility, which supports research in agricultural, environmental and boreal sectors. Additional information regarding the Grenfell Campus is available at www.grenfell.mun.ca/Pages/Grenfell-Campus.aspx.”

Page 181, 2017-2018 Calendar, under the heading 5.1.1 Arts Degree, amend the section as follows:

“5.1.1 Arts Degree
Bachelor of Arts degree programs are offered under the School of Arts and Social Science and the School of Science and Environment. The School of Arts and Social Science offers the Bachelor of Arts Degree with Majors in English Language and Literature, Historical Studies, Humanities, Psychology and Social/Cultural Studies, and Tourism Studies. The School of Science and Environment offers the Bachelor of Arts with Major in Environment and Sustainability. The Bachelor of Arts degree program is comprised of 120 credit hours, 40 courses, and may be completed on a full or part-time basis. Students will examine culture, thought, prehistory and history, human interactions, and the social and natural forces that constantly transform our society. Students gain critical-thinking, analytical and communication skills needed to succeed and adapt in a changing world through the study of a Major and Minor. Students must complete a minimum of 120 credit hours made up of Core Program Requirements, an approved concentration of courses known as a Major, an approved concentration of courses known as a Minor, and elective courses. A Minor is not required for Interdisciplinary programs.
School of Arts and Social Sciences (cont’d)

However, students in such programs may choose to complete a Minor. A student may not use the same course to satisfy the requirements for both a Major and a Minor except as stated in the requirements for a Major in Computational Mathematics. Majors are available in English Language and Literature, Environment and Sustainability, Historical Studies, Humanities, Psychology, Social/Cultural Studies, and Tourism Studies. The requirements for a Major can be fulfilled in one of two ways:

1. a minimum of 36 credit hours in a single discipline. Students choosing a single discipline Major, with the with the exception of Bachelor of Science in Computational Mathematics and Psychology, must complete one of the following: a Minor or with the permission of the appropriate program chair(s), a second Major. Actual credit hours required for specific disciplines will vary. or
2. a minimum of 72 credit hours in an interdisciplinary area.

All Majors require a minimum of 12 credit hours in 3000-level courses, 6 credit hours in 4000-level courses and 3 credit hours in a 4000-level senior project. A candidate must follow the specific requirements for each Major program as set forth in the Grenfell Campus section of the University Calendar. Single discipline Majors are available in following areas: English, Historical Studies, Humanities, Psychology (B.A. and B.Sc.), and Tourism Studies. Interdisciplinary Majors are available in following areas: Environment and Sustainability, and Social/Cultural Studies.

A Minor requires a minimum of 24 credit hours which must be completed in a single discipline or interdisciplinary area other than that of the Major. Minors are available in the following areas: Art History, Business, Canadian Studies, Classics, Economics, English, Environmental Science, Environment and Sustainability, Folklore, French, Geography, Historical Studies, Humanities, Mathematics, Philosophy, Physics, Psychology, Religious Studies, Science, Social/Cultural Studies, Sociology; and Tourism Studies. A candidate must follow the requirements for the Minor program as set forth in the Grenfell Campus section of the University Calendar. As an alternative to a Minor, a second Major may be completed and students must meet all general and departmental or program regulations for both Majors. Elective courses to make up the total of 120 credit hours, other than those required for the core program and Major/Minor requirements, may be chosen according to the following guidelines: Any courses in arts, social science, science and fine arts, and up to 15 credit hours in other subject areas.

Faculty of Engineering and Applied Science

Dr. Shannon Sullivan, Chair of the Senate Committee on Undergraduate Studies, presented the calendar changes noting that a new minor in Applied Science - Electrical Engineering for Physics Majors and Honours was approved by Senate Committee on Undergraduate Studies on September 7th, 2017. The documentation approving this minor was not sent to Senate for final approval. As this is a minor that they would like to have included in the 2018-2019 University Calendar and was not an error on the part of Engineering, the Senate Committee on Undergraduate Studies is seeking Senate’s permission that these calendar changes be included in the 2018-2019 University Calendar.
Faculty of Engineering and Applied Science (cont’d)

It was moved by Professor Walsh, seconded by Dr. Peters, and carried that the following calendar changes be approved for inclusion in the 2018-2019 University Calendar.

Page 140, 2017-2018 Calendar, following section 6.3.1 Electrical Engineering, insert the following new section:

“6.3.2 Minor in Applied Science – Electrical Engineering for Physics Majors and Honours.

For Physics Majors and Honours students, a Minor in Applied Science – Electrical Engineering will consist of Physics 3000, ENGI 3821 (or Physics 3550), ENGI 4854, and 15 credit hours chosen from ENGI 3861, 4823, 4841, 4862, 5800, and 6813 (or Physics 4500), or other courses subject to approval by the Head of the Department of Physics and Physical Oceanography and the Head of the Department of Electrical and Computer Engineering.

Completion of the Minor in Applied Science – Electrical Engineering does not qualify persons to hold the designation "Professional Engineer" as defined by various provincial acts governing the Engineering Profession.”

Page 149, 2017-2018 Calendar, under the heading 11.3 Academic Term 3 Courses, amend the section as follows:

“3821 Circuit Analysis begins with a review of elementary circuits, then considers wye-delta transformation, bridge circuits; transient analysis of first- and second -order circuits; sinusoidal steady state analysis, phasor diagrams, maximum power transfer, frequency selective circuits (filters); and Laplace transforms in circuit analysis (transients, steady state, transfer function).
CO: ENGI 3424. Students completing a minor in Applied Science - Electrical Engineering may complete Mathematics 2260 as the corequisite instead of ENGI 3424.
CR: Physics 3550
LH: at least five 3-hour sessions per semester
OR: tutorial 1 hour per week

3861 Digital Logic includes number systems and Boolean algebra; minimization techniques for Boolean functions; basic combinational logic circuit analysis and design; flip-flops, state machine design and
implementation; decoders, multiplexors, registers, counters; simple arithmetic and logic unit (ALU) algorithms; introduction to hardware description languages (VHDL) for logic component and circuit modelling.

CR: the former Computer Science 3723
LH: at least six 3-hour sessions per semester
OR: up to eight tutorial sessions per semester
PR: ENGI 1040. Students completing a minor in Applied Science - Electrical Engineering may complete Physics 2055 as the prerequisite instead of ENGI 1040.”

Page 150, 2017-2018 Calendar, under the heading 11.4 Academic Term 4 Courses, amend the section as follows:

“4823 Introduction to Systems and Signals begins with an introduction to systems and signals, and includes mechanical and electrical analogues; principles of linear superposition and time-invariance; definitions, properties, and use of the delta function; applications of complex variables and functions; impulse and step responses; input-output relations of continuous-time systems in terms of convolution and transfer functions; frequency response plots; the Fourier transform and applications; applications of Laplace transforms to filtering, communications, and controls.

OR: tutorial 1 hour per week
PR: ENGI 3424, ENGI 3821. Students completing a minor in Applied Science - Electrical Engineering may complete Physics 3820 as a prerequisite instead of ENGI 3424 and may complete Physics 3550 as a prerequisite instead of ENGI 3821.

4841 Electromechanical Devices includes an introduction to fundamental principles of energy conversion; review of three-phase systems; magnetic fields and circuits; transformer models, performance and applications; basic concepts of rotating machines; performance and control of DC motors.

CR: the former ENGI 5842
LH: at least six 3-hour sessions per semester
OR: tutorial 1 hour per week
PR: ENGI 3424, ENGI 3821. Students completing a minor in Applied Science - Electrical Engineering may complete Physics 3820 as a prerequisite instead of ENGI 3424 and may complete Physics 3550 as a prerequisite instead of ENGI 3821.

4854 Electronic Circuits I provides an introduction to semiconductor electronic devices and circuits. Topics covered include internal structure of electronic devices; working principles, dc and small-signal
models and analysis of p-n junction diodes, bipolar junction transistors and field effect transistors; introduction to digital electronics; differential and multistage amplifier circuits; internal circuits of operational amplifiers; output stages; practical applications of the devices to the design of power supplies, amplifiers and switching circuits. CAD tools are used to illustrate the analysis and design of electronic circuits.

LH: at least ten 3-hour sessions per semester
OR: tutorial 1 hour per week
PR: ENGI 3821, Physics 3000. Students completing a minor in Applied Science - Electrical Engineering may complete Physics 3550 as a prerequisite instead of ENGI 3821.”

Page 152, 2017-2018 Calendar, under the heading 11.6 Academic Term 6 Courses, amend the section as follows:

“6813 Electromagnetic Fields is a continuation of the topics started in Engineering 5812, including a review of electrostatics and magnetostatics, Maxwell’s equations, Lorentz force, Poynting's theorem, plane waves, and applications including two-wire transmission lines.

CR: Physics 4500
LH: at least three 3-hour sessions per semester
OR: tutorial 1 hour per week
PR: ENGI 5812. Students completing a minor in Applied Science - Electrical Engineering may complete Physics 3500 as the prerequisite instead of ENGI 5812.”

Page 527, 2017-2018 Calendar, under the heading 10.10 Physics and Physical Oceanography, amend the section as follows:

“14. Minor in Physics
15. Minor in Applied Science – Electrical Engineering. The requirements for this minor are detailed under Faculty of Engineering and Applied Science, Minor in Applied Science - Electrical Engineering for Physics Majors and Honours.”

98. Senate Committee on Undergraduate Studies’ Membership

The Senate Committee on Elections and Committees considered a memorandum dated March 16, 2018, from Jennifer Porter, Deputy Registrar and Secretary, Senate Committee on Undergraduate Studies, regarding revisions to their Membership. The Senate Committee on Elections and Committees agreed to approve the revisions and is now forwarding to Senate for approval.
Dr. Sullivan noted the changes to the membership of Section G. of the Handbook of Senate By-Laws and Procedures as follows:

“1. Membership  
(a) Provost and Vice-President (Academic) or delegate  
(b) Registrar or delegate  
(c) Registrar, Grenfell Campus or delegate  
(d) Registrar, Marine Institute or delegate  
(e) Director, Centre for Innovation in Teaching and Learning or delegate  
(f) University Librarian or delegate  
(f) Chair, Academic Studies Committee, Grenfell Campus or delegate  
(g) Chair, Undergraduate Studies Committee, Marine Institute or delegate  
(h) Chairs of the Undergraduate Studies Committees of all Schools and Faculties or delegate  
(i) Four undergraduate students, Director of Advocacy (or designated alternate) and one other Undergraduate student appointed by the Memorial University Students' Union, one by the Marine Institute Student's Union and one by the Grenfell Campus Student Union  
(k) An appropriate number of academic staff members”

Please note that the original clause (f) has been deleted to reflect the introduction of the three schools at Grenfell Campus. Each school now has its own undergraduate studies committee therefore the corresponding Chairs are included under clause (h).

It was moved by Professor Walsh, seconded by Dr. McConnell, and carried that the changes to the membership be approved.

99. Newfoundland and Labrador Resident Definition Calendar Entry

This item is deferred until the May meeting of Senate.

100. Newfoundland and Labrador Resident Appeals Subcommittee Terms of Reference

This item is deferred until the May meeting of Senate.

101. REMARKS FROM THE CHAIR - QUESTIONS/COMMENTS FROM SENATORS / BUDGET UPDATE

The President commented on the following:

- Memorial selected to participate in the next round to partner with Nunavut Artic College
- Significant Infrastructure Planning
- Council of Education now active
- Budget came down

The President and Dr. Golfman gave an update on the Budget and responded to questions from the floor.

102. ADJOURNMENT

The meeting adjourned at 4:40 p.m.
