3. Proposal for a revised Summer Bridging Program

The University Committee on Admissions was supportive of the proposal and provided the following feedback.

- Consider the proposed revisions a pilot and later evaluate.
- Clarify in the proposal how the students attending the St. John's campus will receive continued support through the Academic Advising Centre during the fall semester.
- Clarify in the proposal if the program is available to all Canadian applicants since a remote option is available. Will those attending in-person be given priority admission?
