## <u>Chair of the Senate Committee on Undergraduate Studies</u> (Standing Invitation)

Dr. Shannon Sullivan

The President welcomed all Senators to this meeting of Senate.

#### Land acknowledgement:

We respectfully acknowledge the territory in which we gather as the ancestral homelands of the Beothuk, and the island of Newfoundland as the ancestral homelands of the Mi'kmaq and Beothuk. We would also like to recognize the Inuit of Nunatsiavut and NunatuKavut and the Innu of Nitassinan, and their ancestors, as the original people of Labrador. We strive for respectful partnerships with all the peoples of this province as we search for collective healing and true reconciliation and honour this beautiful land together.

The President noted that it would be appreciated if when you speak you use the microphone and introduce yourself and your constituency as Grenfell Campus Senators are joining by videoconferencing and otherwise will not be able to hear.

## 13. <u>APOLOGIES FOR ABSENCE</u>

Apologies were received from Dr. E. Bezzina, Professor A. Fisher, Dr. M. Woods.

# 14. <u>MINUTES</u>

It was moved by Dr. George, seconded by Dr. Peters, and carried that the Minutes of the regular meeting held on September 11, 2018, be taken as read and confirmed.

# CONSENT AGENDA

It was moved by Dr. George, seconded by Dr. Surprenant, and carried that the consent agenda, comprising the items listed in 15-17 below, be approved as follows.

15. <u>Report of the Senate Committee on Undergraduate Studies</u>

# 15.1 Faculty of Engineering and Applied Science

Page 119, 2018-2019 Calendar, under the heading <u>4.1 Program of</u> <u>Study</u>, amend the section as follows:

# **"4.1 Program of Study**

2. The Engineering Program consists of eight academic terms and four work terms. The first-year of the Engineering Program, known as Engineering One, forms a core that is common to all majors. All students must successfully complete the requirements of Engineering One prior to being promoted to Academic Term 3 as indicated under **Promotion Regulations, Promotion Status (Engineering One)**.

5. Upon entering Academic Term 3, students begin to specialize in their academic program, in one of the following six majors: Civil Engineering, Computer Engineering, Electrical Engineering, Mechanical Engineering, Ocean and Naval Architectural Engineering, or Process Engineering. All Engineering students who successfully complete the Engineering One requirements during their first year of Engineering will be guaranteed a place in Academic Term 3, although not necessarily in the preferred major, as indicated under **Promotion Regulations, Promotion Status (Engineering One)**.

7. Engineering courses in Academic Term 3 and beyond (i.e., those with numbers 3000 and greater) are restricted to students who have been admitted or promoted to the appropriate academic term and major (e.g., Academic Term 3 for 3000 level courses, restricted by major; Engineering One for 1000 level courses). Other students will be

#### Faculty of Engineering and Applied Science (cont'd)

admitted to these courses only with the approval of the Associate Dean (Undergraduate Studies) in consultation with (1) the Head of the appropriate Department for courses at the 3000 level and higher or (2) the Associate Dean (Undergraduate Studies) (or delegate) for 1000 level courses.

Some of the courses offered in academic terms 3 to 8 are taken by all Engineering students, others are offered for more than one major, but most technical courses in academic terms 3 to 8 are specific to the individual majors. Students should refer to the program descriptions for the detailed course requirements in each phase of their program."

#### 16.1 <u>Business Administration</u>

Page 693, 2018-2019 Calendar, under the heading <u>34.24.3.5 Ph.D.</u> <u>Thesis Regulations</u>, amend the section as follows:

#### **"34.24.3.5 Ph.D. Thesis Regulations**

1. The candidate <u>student</u> <u>must\_will</u> submit a thesis proposal to all members of the Supervisory Committee for evaluation and approval <u>normally</u> by the end of the eighth semester of the program. Within one month of submitting the proposal, the <u>Candidate student</u> will give a public oral presentation of the proposal, attended by the Committee. The presentation will provide the Committee and others in attendance with an opportunity to raise questions about the proposal research. Immediately following the presentation, the Supervisory Committee will meet to assess the proposal. Assessment will result in one of the following three outcomes: (1) accept; (2) accept with changes; or (3) reject. The results of this assessment will be provided to the student following the meeting. Assessments of accept with changes or reject will be accompanied by written comments within one week of the proposal presentation.

2. If the proposal is rejected, the <u>candidate student</u> will be permitted a second proposal. This proposal must be submitted and deemed acceptable by the Supervisory Committee within four months of the original proposal presentation. Failure to resubmit within this time period will lead to termination of the <u>candidate student</u>'s program.

3. The Ph.D. thesis will constitute an independent and original research contribution.

4. The Ph.D. thesis will be evaluated according to the process established in General Regulation **Theses and Reports, Evaluation of Ph.D. Theses** governing the School of Graduate Studies." 16.2 <u>Psychology</u>

Page 705, 2018-2019 Calendar, under the heading <u>35.3 Program of</u> <u>Study</u>, amend the section as follows:

### **"35.3 Program of Study**

Students are required to successfully complete at least  $72 \underline{63}$  credit hours in regulation graduate courses. These include:

a.  $9 \underline{6}$  credit hours in statistics and research design courses (6000, 6001, 6602);

<u>PR: admission to the Joint Degrees of Bachelor of Music and Bachelor of Business Administration program</u>

Abbreviated Course Title: Music Business in Practice"

- 19. Report of the Academic Council of the School of Graduate Studies
- 19.1 <u>Mathematics and Statistics</u>

It was moved by Dr. Surprenant, seconded by Dr. Abrahams, and carried that on page 572, 2018-2019 Calendar, under the heading <u>7</u> <u>Regulations Governing the Degree of Master of Applied Statistics</u>, amend the following sections as follows:

## **"7.1 Qualifications for Admission**

- 1. Admission is limited and competitive. To be considered for admission to the Master of Applied Statistics program, an applicant shall normally hold at least a high second class Honours Degree or its equivalent, both in achievement and depth of study, in statistics or cognate discipline from an institution recognized by the Senate.
- 2. In addition, an applicant shall normally have completed undergraduate courses in statistics which cover the material of Statistics <u>3411, 3520, 3521, 3585, 4530, 3530, 4410, 4520, 4560, 4561, 4590, 4591.</u> If necessary, an applicant may be required to demonstrate a satisfactory knowledge of the above courses in an examination administered by the Department of Mathematics and Statistics.
- 3. Applicants who do not meet these requirements should consult the Department of Mathematics and Statistics about a program of further undergraduate courses. Such a program is intended to provide the candidate with an adequate statistical background. Such courses may

not be used to fulfill the program course requirements of the Master of Applied Statistics Degree.

<u>3.</u>4. Admission to the program shall be upon acceptance by the Dean of Graduate Studies after recommendation by the Head of the Department of Mathematics and Statistics along with a proposed program of study and a proposed Supervisor.

# 7.2 Program of Study

The minimum requirements for the Degree of Master of Applied Statistics are completion of the following:

- 1. The three credit hours graduate courses STAT 6510 and STAT 6560 plus one from STAT 6530, STAT 6571 or STAT 6573 STAT 6509, STAT 6519 and STAT 6545, plus three additional 3 credit hour courses from the list of elective courses.
- 2. Nine additional credit hours selected from STAT 6500 6589. STAT 6590, which consists of a minimum of 20 hours of training in statistical consultancy to be arranged through the department's statistics consulting centre.
- 3. The series STAT 697A/B or the completion of an additional 3 credit hour graduate course from STAT 6500-6589.
- <u>3.4.</u> STAT <u>6591</u> <u>698A/B</u> and <u>an</u> <u>a final</u> applied statistics project <del>with its</del> associated report. The report must demonstrate a satisfactory general mastery of applied statistical knowledge.

# 7.3 Evaluation

- 1. In order to continue in graduate studies and in order to qualify for a Masters Degree, a candidate shall obtain an A or B for all regular program courses. In order to quality for a graduation the student shall pass STAT 697A/B and STAT 6591 STAT 6590 and STAT 698A/B, and complete successfully the practicum final project requirement.
- 2.STAT 6591698A/B will be evaluated by the student's consulting project advisor. progress after each semester will be evaluated by the student's supervisor while the final applied statistics project report will be evaluated by a faculty member other than the supervisor appointed by the Department's Head.
- 3. Evaluation of the practicum shall be carried out in accordance with Theses and Reports of the General Regulations governing all students in the School of Graduate Studies.

Note: Every candidate in graduate studies shall comply with the General Regulations, the Degree Regulations and any additional requirements of the Department of Mathematics and Statistics.

#### 7.4 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the Department will allow.
