Graduate Research Assistant Position (Fall 2022 – Winter 2023)
The Leslie Harris Centre of Regional Policy and Development

The Harris Centre invites applications for a Graduate Assistant position for the Fall 2022 and possibly Winter 2023 semesters. The position will provide research support for a project under the Harris Centre’s MMSB Waste Management Applied Research Program to advance our understanding of organic waste volumes, qualities and locations in NL.

The RA will work closely with the Harris Centre and Regional Analytics Lab (RAnLab) project team, and an extended network of stakeholders, to identify data sources, assess data quality, and to support the gathering of available industry-specific data (fisheries, forestry, agriculture and aquaculture) on organic waste.

The qualifications for this position are:
- Must be a registered Memorial graduate student
- Familiarity with the following areas would be an asset:
  - data gathering, storage and analysis procedures; and
  - organic waste, waste management and/or waste-to-value (“circular economy”) processes.
- Ability to work independently and as part of a team.
- Strong written and interpersonal communications skills.
- Strong problem-solving skills and ability to adjust as new information becomes available that will affect the work plan.
- Strong organization and time management skills with attention to detail.
