1. Within St. John’s: (hospitals under the Eastern Regional Health Authority)
2. Outside St. John’s: (hospital/community settings)
3. New Brunswick and other jurisdictions: (hospital/community settings)

5 Description of Medical Training Program

The Faculty of Medicine offers a four-year undergraduate medical program, comprising a minimum of 186 credit hours, leading to the degree of Doctor of Medicine (M.D.).

The Diversity Statement for the Faculty of Medicine is available on the Faculty of Medicine website at www.med.mun.ca/medicine/home.aspx.

The program consists of four phases; Phase one covers normal health and development, Phase two covers acute reversible or modifiable health issues, Phase three covers chronic disease, and Phase four involves integration into practice. The first three Phases employ a variety of teaching and learning experiences, including self-directed learning, to learn about all aspects of health (physical,
mental, social, and psychological), disruptions in health that can lead to frank disease, and all aspects of science, community health, ethics, and clinical skills related to identifying and describing disease and its diagnosis. During Phase 4, students take courses that will allow them to experience major disciplines in hospital and community settings throughout affiliated teaching sites in Newfoundland and Labrador and community and hospital settings in New Brunswick and other jurisdictions. They participate as members of the health care team, gaining the knowledge and experience necessary to assume the responsibilities associated with patient care.

Medical students are required to participate fully in medical education experiences which occur at various times and communities outside of the St. John’s metropolitan area throughout the undergraduate medical education program. Students in good academic standing are qualified to write Part I of the licensing examinations set by the Medical Council of Canada (MCC) at the appropriate time.

6 Continuing Medical Education

The Faculty of Medicine’s Office of Professional Development and Conferencing Services delivers accredited continuing medical education (CME) programs and plays a major role in meeting the professional development needs of health care professionals throughout Newfoundland and Labrador and across Canada. CME is offered through a variety of formats, including teleconferencing, video-conferencing, online and onsite. Faculty development programs are designed specifically to assist faculty members in their own unique educational requirements. Educational assessments and retraining experiences are available to physicians, international medical graduates and health care practitioners who meet the criteria. The Office of Professional Development and Conferencing Services is committed to assisting students, faculty members, and physicians in meeting their educational requirements.

7 Postgraduate Medical Training Programs

Postgraduate medical training is offered in programs leading to certification by either the College of Family Physicians of Canada (CFPC) or the Royal College of Physicians and Surgeons of Canada (RCPSC). These are full-time training programs comprised of hands-on-practical training complemented by formal teaching and academic study. The programs are completed in a structured learning environment consisting of hospital and community-based teaching units, supervised by faculty. The level of responsibility afforded the student is based on regular evaluation of abilities by faculty. The Postgraduate training programs are accredited by the CFPC or the RCPSC and the appropriate licensing authorities.

Postgraduate entry positions are available through the Canadian Residency Matching Service. For further information write to The CaRMS Office, Suite 802, 151 Slater Street, Ottawa, Ontario K1P 5H3, or by telephone to (613) 237-0075, or toll free to (800) 291-3727, or the website at www.carms.ca.

Medical students and residents are required to participate fully in medical education experiences which occur at various times and communities outside of the St. John’s metropolitan area throughout the medical education programs.

7.1 Family Medicine/Emergency Medicine

The University offers a two-year residency in Family Medicine. This leads to eligibility for certification by the College of Family Physicians of Canada. Emergency Medicine is a one-year program of specialty training. Successful completion of this program will lead to eligibility to sit the CCFP EM certification examination in emergency medicine.

7.2 Other Residency Training Programs

Memorial University of Newfoundland offers specialty training programs in Anesthesia, Internal Medicine (and subspecialty in Nephrology), Neurology, Obstetrics/Gynecology, Orthopedics, Anatomic Pathology, Pediatrics, Psychiatry, Radiology and General Surgery.

Internal Medicine and Pediatrics offer a straight program in the first year of the training program. The normal period of training in Internal Medicine or Pediatrics is four years post-M.D.

In the remaining specialty programs offered by Memorial University of Newfoundland, broad-based clinical training is offered as the first year of the training program. The total length of each of these programs is five years.

7.3 Clinical Fellowships

A sixth year of postgraduate study (Clinical Fellowship) may be available to residents who have completed specialty training requirements. These fellowships may be primarily directed to the clinical area, to teaching, or to research.

7.4 Registration

Postgraduate Trainees are registered each year as full-time students of Memorial University of Newfoundland.

7.5 Licensure in Newfoundland and Labrador

All trainees must be eligible and obtain an educational license from the College of Physicians and Surgeons of Newfoundland and Labrador (CPSNL). Advice will be provided by the Postgraduate Medical Education Office.

Information on requirements for International Medical Graduates is available through the website at www.med.mun.ca/pgme.

7.6 Evaluation

1. The planning of the residency programs, including the policy on evaluation, is the responsibility of the Postgraduate Medical Education Committee and is based on the accreditation requirements of the Royal College of Physicians and Surgeons of Canada and the College of Family Physicians of Canada. The Postgraduate Medical Education Committee reports to the Dean of Medicine through the Assistant Dean.

2. Each resident is expected to complete the work of the program as outlined by the program-specific Residency Training Committee for each year of the program and to meet the prescribed goals and objectives of the program. The Residency Training Committee is chaired by a Program Director who reports to both the Assistant Dean of Postgraduate Medical Education and the Chair of the clinical discipline.

3. For each rotation, evaluation of the resident’s performance is conducted by the supervisor responsible for the resident during the rotation. Evaluation is based on written assessments and performance-based direct observation. The results of the evaluation are expressed through an In-Training Evaluation Report (ITER), which records the competency level of the resident for each goal and objective of the rotation.
4. There are three possible outcomes for a resident's rotation, based on the results of the ITER: satisfactory, unsatisfactory, or incomplete. Residents learn the results of the ITER through online software (one45) administered by the Postgraduate Medical Education Office and the individual programs.

a. If a resident receives a satisfactory outcome in a rotation, he/she proceeds to the next rotation in the training schedule.

b. If a resident receives an unsatisfactory outcome in a rotation, the Residency Training Committee will design a remedial program to address the resident's area(s) of weakness. In some instances, the Committee may require the resident to repeat the entire rotation. Evaluation of the remedial program is adapted according to the goals and objectives to be achieved by the remedial program. If the resident receives an unsatisfactory evaluation in the associated remedial program, he/she will be placed on probation.

c. If a resident receives an incomplete outcome in a rotation, he/she will be required to complete the rotation.

5. If a resident receives an unsatisfactory evaluation for two rotations within one academic year, he/she will be placed on probation.

6. A resident has the right to appeal decisions leading to remediation and probation in accordance with the Postgraduate Medical Education’s Evaluation, Promotion and Appeals Policy.

### 7.7 Probation

1. The terms of the probationary period are outlined in a probation contract with the resident. The length of the probationary period is determined by the Residency Training Committee and excludes vacation time, sick leave, and leaves of absence.

2. Successful completion of a probationary period requires satisfactory evaluations for all portions of the probationary period.

### 7.8 Promotion

1. A resident’s progress is monitored in each year by the Residency Training Committee. During the academic year, the resident meets with the Program Director (or designate) to review his/her ITERs - at six months and again at the end of the academic year. Based on these meetings, the Program Director prepares a Mid-Year Progress Report and an End-of-Academic-Year Report.

2. To successfully complete a postgraduate program, a resident must be promoted through each year of his/her program. The Residency Training Committee meets every year to review a resident’s progress report(s). In some instances, the Committee may also review individual ITERs from the specific rotations. On the basis of this review, the Residency Training Committee decides which residents should be promoted to the next year and which residents are eligible to sit the national examinations of the Royal College of Physicians and Surgeons or the College of Family Physicians of Canada.

### 7.9 Dismissal

1. If a resident fails to successfully complete a probationary period, he/she will be dismissed from the program.

2. If a resident is recommended for probation twice during the program, he/she will be dismissed from the program.

3. The Faculty of Medicine reserves the right to require a resident to withdraw from a postgraduate program at any time with just cause. In such cases, the Dean, on behalf of the Faculty, recommends such withdrawal to the Registrar who will then take appropriate action. Any such action is subject to the right of appeal by the resident, in accordance with the Postgraduate Medical Education’s Evaluation, Promotion and Appeals Policy.

### 8 Graduate Studies

Interdisciplinary interaction and research among the divisions of BioMedical Sciences, Community Health and Humanities and the Clinical Disciplines is promoted.

Programs have been designed to attract students interested in a Graduate Diploma or a M.Sc., M.P.H., Ph.D. or M.D.-Ph.D. degree. Areas of strength include Applied Health Services Research, Cancer and Development, Cardiovascular and Renal Sciences, Clinical Epidemiology, Community Health, Human Genetics, Immunology and Infectious Diseases, Neurosciences, Nutrition/Dietetics, Population/Public Health, and Health Ethics. Details of the graduate programs are provided in the School of Graduate Studies section of this Calendar.

### 9 Regulations for the Degree of Doctor of Medicine

#### 9.1 Admission to the Faculty of Medicine

1. All applications for entry to the program of studies leading to the Doctor of Medicine (M.D.) degree are dealt with by the Admissions Office of the Faculty of Medicine and must be submitted to that office on or before the closing date (normally September 15th). No application received after this date will be considered. An application processing fee of $75.00 is required from all applicants.

2. Applications are reviewed after the closing date by the Admissions Committee of the Faculty of Medicine. This Committee has the delegated authority of the Faculty Council to admit or decline to admit students, following guidelines and procedures acceptable to that Council.

3. Admissions will normally be to the first year of medical studies. In exceptional circumstances, admission with advanced standing may be offered.

4. Entry to medical school is on the basis of competition for a fixed number of places. The Admissions Committee takes account of an applicant's academic background, performance on the Medical College Admissions Test (MCAT) and information on an applicant's personal characteristics and achievements as given by the applicant, by referees' reports and, in some cases, by personal interviews. Age by itself is not used as a basis for selection or rejection. Both age and the length of time away from full-time studies may be taken into consideration. The residency status of each applicant at the time of the closing date for application (normally September 15) will be determined by guidelines established by the Admissions Committee and approved by Faculty Council. For each candidate, the residency status determined at that time will apply throughout the admissions process and the period of undergraduate medical education. Priority is given to applicants who are bona fide residents of this province as well as applicants of Aboriginal descent. Further information is available on the Faculty of Medicine's website at www.mun.ca/Admissions/Aboriginal-Admissions-Program.aspx.

5. The Admissions Committee's decision to admit or decline to admit an applicant will be made on the basis of the competition for entry in the year of application and will be determined by the Committee's judgement of the likelihood of an applicant succeeding in the academic and professional studies leading to the award of the M.D. and in the eventual practice of medicine.

6. To be eligible for admission, an applicant shall have completed a bachelor's degree including the prerequisite subjects of 6 credit...
hours in English at a recognized university or university college before admission.

In exceptional circumstances an application may be considered from someone who does not expect to hold a bachelor’s degree at the time of admission. Such an applicant will have completed at least 60 credit hours including the prerequisite subjects of 6 credit hours in English at a recognized university or university college before admission and be a student who has work-related or other experience acceptable to the Admissions Committee.

No application will be considered from a candidate who cannot produce evidence that the above requirements have been met or will have been met by the time of entry to the Medical School.

In addition, all applicants must write the MCAT prior to the application deadline. The MCAT should be written within the preceding five years of the date of application.

7. Applicants need to be aware of the policy related to Essential Skills and Abilities Required for the Study of Medicine. This policy outlines essential skills and abilities needed to succeed in the M.D. program. It includes technical standards for students in the program and information for students with disability. This information is available on the Faculty of Medicine’s website at www.med.mun.ca/Admissions/Application-Overview/Application-Preparation.aspx.

8. Each applicant is responsible for ensuring that all the required information on the application form, e.g., transcripts, MCAT scores, referee’s reports, is supplied to the Admissions Committee, and for providing any further information required by this Committee. An application is not considered complete until these documents have been received.

9. The Admissions Committee may request that a candidate attend an interview.

10. Notification of the Committee's decision will be made to candidates by letter signed by, or on behalf of, the Chair of the Admissions Committee. No other form of notification can be considered to be official.

11. The letter of acceptance will give the successful applicant fourteen (14) days in which to confirm that he/she will accept the place offered. The signed intention to accept the offered place must be accompanied by a deposit of $200.00 which will be credited towards tuition fees. The deposit will be forfeited if the applicant subsequently declines the place.

If no reply to the offer of a place is received within fourteen days, the offer by the Faculty of Medicine will be withdrawn on the appropriate date, and the applicant will be informed of this by letter.

12. In order to register, applicants who have been accepted as international students will be required to sign a document indicating that they will pay differential fees throughout the undergraduate medical program and that they will have the status of non-Canadians in the postgraduate matching process.

13. The Admissions Committee, at its discretion, may grant deferral of admission for one year to a maximum of two successful applicants in the first round of offers for any one admission cycle. An applicant must request a deferred entry at the time of responding to an offer of admission. The first round of offers are normally confirmed by mid-May and requests for deferral are considered by mid-June.

14. Unsuccessful applicants who wish to reapply for admission are required to submit the application forms relevant to the year of re-application and will be required to enter the competition in that year. An unsuccessful applicant can meet with the Assistant Dean for Admissions or the Admissions Officer to discuss reapplying prior to the deadline for submission of a new application (normally September 15).

15. An unsuccessful applicant has the right to appeal against the decision of the Admissions Committee not to offer him/her a place, if it is felt by the applicant that the decision was reached on grounds other than those specified in Clauses 1-4 above. The appeal should be made in writing within fourteen days of the notification of the decision and should be directed to the Dean of Medicine. The letter should state clearly and fully the grounds for the appeal. If the Dean of Medicine, in consultation with the Registrar, judges the grounds to be sufficient, the formal appeals mechanism will be initiated.

9.2 Licensure in Newfoundland and Labrador and Other Approvals

All students are required to be on the Educational Register of the College of Physicians and Surgeons of Newfoundland and Labrador (CPSNL).

The Faculty of Medicine does not require criminal record checks or other screening procedures as a condition of admission to its program.

Students, however, should be aware that such record checks or other screening procedures may be required by agencies used by the University for professional registration, clinical experiences or academic course assignments necessary for graduation. Such agencies may refuse to accept students on the basis of information contained in the record check or other screening procedure thus preventing the student from completing a practice experience or other requirement. As a result, such students may not be eligible for promotion or graduation. The student is responsible for having such procedures completed as required at his or her own expense. The screening procedures of any given agency may change from time to time and are beyond the control of the University.

9.3 Evaluation

Subject to the approval of Senate, the overall policy of evaluation and the planning of the programs of studies leading to the M.D. degree are the responsibility of the Undergraduate Medical Studies Committee, which is a standing committee of the Council of the Faculty of Medicine.

9.4 Assessment

1. Each student is expected to complete the work of the class as described in the current regulations of the Faculty of Medicine for each Phase of the program and to pass the prescribed academic and professional assessments. In this context, the professional assessments will cover not only the skills expected of a student, but personal conduct and relationships with peers, patients, hospital personnel, faculty members and staff.

2. Course grades are recorded as pass or fail on a student’s University transcript. Within each Phase, there will be multiple prescribed assessments. For all Phases, assessment of an individual student’s performance is the responsibility of the appropriate Phase Lead. Grades for all Phases may be reported using an internal scale:
   a. The appropriate Phase Lead or designate is responsible for ensuring that each student is informed of the results of each assessment. The appropriate Phase Lead will notify the student, in writing, of any concerns that have arisen about performance. The Associate Dean, Undergraduate Medical Education will also be informed.
   b. It is the responsibility of the student to consult immediately with the appropriate Phase Lead regarding any assessment in which concerns about performance have been expressed. Within one week of receiving notification of the result of an assessment, a student may submit a written request to the appropriate Phase Lead for reconsideration of the assessment result or for a reread of an exam or paper.
c. The student is responsible for notifying the appropriate Phase Lead immediately of any new or pre-existing circumstances that could affect his or her individual performance in the work of the class.

d. Exemptions From Final Examinations and Procedures for Applying to Write Deferred Examinations - see UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate), Exemptions From Final Examinations and Procedures for Applying to Write Deferred Examinations.

3. A student’s progress is monitored in each Phase of the program by the appropriate Phase Management Team.

9.5 Promotion

1. The Student Promotions Committee is a standing committee of Faculty Council. The Student Promotions Committee reviews all assessments of all students in each Phase. On the basis of this review, this Committee decides which students should be promoted to the next Phase and which students are eligible to graduate. In reaching its decisions the Student Promotions Committee takes into account professional, as well as academic factors, and any special circumstances, duly authenticated, which warrant consideration.

2. Within each Phase, students may be required to be reassessed or to remediate with re-assessment in order to demonstrate competence and understanding of the required learning objectives. The amount and quality of remediation and reassessment required of a student is at the discretion of the appropriate Phase Management Team. Students with a Fail grade in any course cannot be promoted to the next Phase.

3. Even in the absence of any Fail grades, a student for whom substantial concerns about performance have been expressed may either be required to repeat the Phase or required to withdraw conditionally or unconditionally.

4. A student who is deemed by the Student Promotions Committee to be unsuitable for promotion or graduation is either required to repeat the Phase or required to withdraw either conditionally or unconditionally.

a. If a student is required to repeat a Phase with academic prejudice, his or her performance in the repeated Phase must be at a level at which no remediation or reassessment is required. If this standard is not met, the Student Promotions Committee requires the student to withdraw unconditionally. The option to repeat a Phase with academic prejudice can only be offered to a student once during his/her M.D. program.

b. A student may repeat a Phase without academic prejudice if it has been demonstrated that the student’s performance has been adversely affected by other factors acceptable to the Student Promotions Committee and duly authenticated.

c. If the Student Promotions Committee requires a student to withdraw conditionally, the Chair of the Student Promotions Committee informs the Dean and the appropriate Phase lead about the nature of the conditions to be met and the time period specified for meeting the conditions. The Dean then recommends to the Registrar that the student be required to withdraw from the program. Any student who has been required to withdraw conditionally may be readmitted once the conditions have been met. If the conditions are not met within the specified time limit, the student is required to withdraw unconditionally.

d. If the Student Promotions Committee requires a student to withdraw unconditionally, the Chair of the Student Promotions Committee will report the decision and the basis upon which it was reached to the Dean and the appropriate Phase Lead. The Dean then recommends to the Registrar that the student be required to withdraw unconditionally. If the student is required to withdraw unconditionally and who wishes to re-enter the Faculty must apply by the appropriate deadline date to the Admissions Committee in competition with all other applicants.

5. A student has the right to make a formal appeal against a decision of the Student Promotions Committee. However, this appeal cannot be made on the basis of the grades awarded in individual courses, as the student will normally have had the opportunity of contesting grades and assessment results immediately after notification. A formal appeal by a student against the decision of this Committee must be made on grounds other than the grades awarded, e.g. default of procedure. This appeal should be made in writing, clearly stating the basis for the appeal and should be directed in the first instance to the Registrar of the University. The Registrar, in consultation with the Dean, will determine whether or not the grounds stated are sufficient to warrant a formal hearing of the appeal.

6. In addition to the above clauses, the Faculty of Medicine reserves the right to require a student to withdraw from the program at any time when acceptable cause is demonstrated. In such cases, the Dean, on behalf of the Faculty, recommends such withdrawal to the Registrar who will then take appropriate action. Any such action is subject to the right of appeal by the student. An appeal should be made in writing clearly stating the basis for the appeal and should be directed in the first instance to the Registrar of the University. The Registrar, in consultation with the Dean, will determine whether or not the grounds stated are sufficient to warrant a formal hearing of the appeal.

7. Any student who enters the first Phase of the medical program but withdraws within the first seven weeks may be permitted re-entry only by re-application to the Admissions Committee in competition with all other applicants by the appropriate deadline date. Withdrawal at all other times is in accordance with UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate).

8. a. Upon completion of a Phase or after the completion of 8710 and 8720 in Phase four, a student in good academic standing may elect to withdraw temporarily from studies (e.g. to pursue graduate studies).

b. Any student may be permitted to withdraw in accordance with UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate), Withdrawing From The University. In all cases, the intent to withdraw voluntarily should be discussed the appropriate Phase Lead. The student must make a written request for voluntary withdrawal to the Dean who will then consult the appropriate Phase Lead. In the event that a student wishes to return to medical school, the Dean should ensure that sufficient revision and preparatory work are undertaken before the student is permitted to resume medical studies.

c. Students permitted to withdraw are advised of the date upon which they are required to resume medical studies. In the absence of good cause, any such student who does not resume studies on the specified date will be deemed to have left the program.

9.6 Curricular Requirements (M.D.)

Students entering the M.D. program will be governed by curricular requirements in effect at the time of their admission. In the event of readmission, students will be governed by curricular requirements in effect at the time of their readmission. The Student Promotions Committee recommends to Faculty Council those students to be awarded the M.D. degree.

10 Course Descriptions

The courses in all Phases form a continuum. Clerkship provides clinical experience in the affiliated teaching hospitals and community sites of Memorial University of Newfoundland. Each Phase provides blended and clinical learning experiences in the medical school, teaching hospitals and community sites. In Phase 4, the students become members of the patient care team and have graded and supervised responsibility. In any given course, multiple teaching and learning methods such as lectures, small group discussion, labs and self-directed learning will be used.
10.1 Courses in all Phases of Medical Studies

6600 Basic Science of Medicine II is a continuation of Basic Science of Medicine I.
CH: 8
UL: not applicable to the M.D. program for students admitted Fall 2013 or later

6610 Clinical Skills II is a continuation of Clinical Skills I.
AR: attendance is required
CH: 9
UL: not applicable to the M.D. program for students admitted Fall 2013 or later

6640 Community Health II is a continuation of Community Health I.
CH: 9
UL: not applicable to the M.D. program for students admitted Fall 2013 or later

6650 Integrated Study of Disease II is a continuation of Integrated Study of Disease I.
CH: 30
UL: not applicable to the M.D. program for students admitted Fall 2013 or later

6660 Family Medicine Pre-Clerkship Elective is offered to medical students interested in enhancing their patient interviewing and clinical examination skills. Each student will be paired with an experienced family physician in the community (rural and urban opportunities) for two to four weeks during the summer months at the end of the first and/or second year. Students gain practical experience of working at the primary care level in a variety of settings that could include office-based practice, home visits, emergency departments, labour and delivery and both long-term care facilities and in-hospital ward experiences. (This varies depending on the family physician’s practice profile.) Students applying for this course must be currently registered as a first or second year medical student in a Canadian medical school.
AR: attendance is required
CH: 0
UL: not applicable to the M.D. program for students admitted Fall 2013 or later

7000 Clerkship Preparation Course
AR: attendance is required
CH: 2
UL: not applicable to the M.D. program for students admitted Fall 2013 or later

7200 Internal Medicine
AR: attendance is required
CH: 15
UL: not applicable to the M.D. program for students admitted Fall 2013 or later

7210 Surgery
AR: attendance is required
CH: 10
UL: not applicable to the M.D. program for students admitted Fall 2013 or later

7220 Psychiatry
AR: attendance is required
CH: 10
UL: not applicable to the M.D. program for students admitted Fall 2013 or later

7230 Pediatrics
AR: attendance is required
CH: 10
UL: not applicable to the M.D. program for students admitted Fall 2013 or later

7240 Rural Family Practice
AR: attendance is required
CH: 5
UL: not applicable to the M.D. program for students admitted Fall 2013 or later

7250 Obstetrics/Gynecology
AR: attendance is required
CH: 10
UL: not applicable to the M.D. program for students admitted Fall 2013 or later

7260, 7261, 7263 Electives
AR: attendance is required
CH: 12 (4 each)
UL: not applicable to the M.D. program for students admitted Fall 2013 or later

10.1.1 Phase 1 - Health and Its Promotion

5710 The Healthy Person introduces students to the structure and function of healthy people in all age groups in an integrated way. Students will learn in the context of a person as part of a family in a community. Students will begin to examine their future roles as professionals in our health care system.
AR: attendance is required
CH: 19

5720 Clinical Skills I introduces students to the main elements of the medical interview and techniques of interviewing. Students will develop skills in examining healthy individuals within all age ranges. Communication and collaboration skills will be developed in the context of patient-centered care and working with other health care providers.
AR: attendance is required

5730 Special Projects I introduces students to concepts that encompass the non-medical expert CanMEDS roles of scholar, communicator, collaborator, advocate, manager and professional in the context of the healthy person, family and the physician within health care systems.
AR: attendance is required

5740 Community Engagement I places students in community sites for two weeks to experience a variety of aspects of the health care system with various health agencies, a family physician, and other health care providers.
AR: attendance is required

10.1.2 Phase 2 - Disease Prevention and Disruptions of Health

6710 The Patient: Acute or Episodic Health Problems has students build on their knowledge of the normal structure and function of the body and analyze disruptions in health by exploring the pathophysiology of illnesses, their risk factors and risk prevention strategies.
CH: 21

6720 Clinical Skills II has students develop clinical reasoning skills used in patient-centered care using focused interviewing, examination, and communication skills.
AR: attendance is required

6730 Special Projects II has students apply concepts that encompass the non-medical expert CanMEDS roles of scholar, communicator, collaborator, advocate, manager and professional in the context of patient’s change in health status management and prevention.
AR: attendance is required

6740 Community Engagement II places students in physicians’ practices for two weeks to further experience interactions among patients, their family physician and the health care system when presenting with a change in health status.
AR: attendance is required

10.1.3 Phase 3 - Diagnosis and Investigation of Illness and Disease

7710 The Patient: Chronic Conditions has students apply knowledge of reversible or modifiable health problems to chronic conditions for diagnosis and management of the patient.
CH: 36

7720 Clinical Skills III has students advance their assessment skills of patients who have chronic health issues. They will develop verbal and written communication skills required for patient-centered care.
AR: attendance is required

7730 Special Projects III continues to develop student competencies in the non-Medical Expert CanMEDS roles introduced in previous special project courses.

7740 Phase 4 Preparation introduces students to skills required to succeed in their clinical experiences to achieve a level of competency for Phase 4.
AR: attendance is required
10.1.4 Phase 4 - Integration Into Clinical Practice

Phase 4 begins with students taking the core courses 8710 and 8720. These courses will be followed by 12 weeks of elective experiences and 12 weeks of advanced practice.

8710 Core Experiences immerses students in the clinical environment through experiences in core disciplines including internal medicine, surgery, obstetrics and gynecology, rural family practice, paediatrics and psychiatry.
AR: attendance is required
CH: 56

8720 Advanced Procedural Competencies provides students with opportunities to advance their procedural and clinical skills to promote patient safety and work effectively in team settings.
AR: attendance is required
CH: 2

8730 Electives are offered in two - four week blocks in approved areas of study for a maximum of twelve weeks.
AR: attendance is required
CH: 12

8740 Advanced Practice Integration enables students to be assigned to a physician, physician group or discipline for experiences that focus on following patients as they interact with the health care system.
AR: attendance is required
CH: 12

8750 Practice Continuum will focus on the transition to postgraduate training as a part of the continuum of medical education.

10.2 Courses Offered By the Faculty of Medicine for Non-Medical Students

310A and 310B Human Physiology covers the properties of nerve and muscle cells, the special senses, blood and body fluids, and the nervous, cardiovascular, digestive, immune, respiratory, urinary, endocrine and reproductive systems. Integration of the body’s systems in maintaining homeostasis is emphasized. Priority for entry into this course is given to Biochemistry, Nutrition, Dietetics, and other students who are interested in experimental science.
CO: Biochemistry 2101
CR: Biochemistry 311A/B and Medicine 310A/B
LH: to be specified
PR: Biochemistry 2101

4300 Introduction to General and Autonomic Pharmacology deals with the general principles of pharmacology (dose-response relationship, drug-receptor interaction, absorption, distribution, metabolism, excretion of drugs), and drugs that affect neuromuscular and autonomic neurotransmission, the cardiovascular, gastrointestinal, and central nervous systems, and autacoids/prostanoids.
CO: Biochemistry 3106 or Pharmacy 3111
CR: Biochemistry 4220
LH: to be specified
PR: Medicine 310A/B or Biochemistry 311A/B, or Pharmacy 2002/2003 or the former Pharmacy 3201/3202.

Associate Professors

1 The Memorial University of Newfoundland Code
The attention of all members of the University Community is drawn to the section of the University Calendar titled The Memorial University of Newfoundland Code, which articulates the University’s commitment to maintaining the highest standards of academic integrity.

2 School Description
The school of Music at Memorial University of Newfoundland is the largest and most comprehensive university school of music in Atlantic Canada. Four-year undergraduate programs are offered in performance, musicologies and composition. Students interested in music education have two options: the conjoint degrees of Bachelor of Music/Bachelor of Music Education (B.Mus./B.Mus.Ed.), offered in collaboration with Memorial University of Newfoundland’s Faculty of Education, which can be completed in five years; and the four-year Comprehensive Major, which prepares them for admission to the Bachelor of Music Education as a second degree. For students not ready to specialize, a Bachelor of Music (B.Mus.) in General Musical Studies with or without a Minor provides a flexible degree option. The School of Music’s faculty comprise a diverse group of performers and scholars from across North America and Europe who are as dedicated to the highest standard of teaching as they are to their own professional careers. Access to professional applied studies instruction is a right of every student in each year of the program. With close to 200 degree-stream students, the School offers ensemble performance experience in choir, band, orchestra, opera, jazz, world music, contemporary and chamber music. While the focus of the School’s programs is on the classical music tradition, Newfoundland and Labrador’s rich musical legacy is also honored in its curriculum with a range of courses taught by tradition-bearers from the professional music community. The School’s undergraduate community is enriched by the presence of students pursuing Master of Music (M.Mus.) degrees in performance, performance/pedagogy and conducting, as well as Master of Arts (M.A.) and Doctor of Philosophy (Ph.D.) students in the area of ethnomusicology.

Additional information regarding the School of Music is available at www.mun.ca/music/.

2.1 Health Statement
Music study and music making are activities that demand great mental and physical energy and coordination. For this reason, students are strongly encouraged to maintain a healthy lifestyle, getting adequate rest, proper nutrition, and exercise, and avoiding practices that could be detrimental to good health and well-being.

3 Description of Programs
All courses in the School of Music are designated by the abbreviation MUS.

3.1 Bachelor of Music
The School offers a four-year Bachelor of Music with Majors in:

3.1.1 Composition
This Major is recommended for students who plan to compose or to teach composition.

3.1.2 Comprehensive
This major is recommended for students planning to apply for admission to the Bachelor of Music Education as a Second Degree.
3.1.3 General Musical Studies
This Major is recommended for students seeking a broad knowledge of music that will prepare them for a variety of career and advanced study options. Students have the option of including a Minor in a discipline other than Music.

3.1.4 Musicologies
This Major is recommended for students interested in research in music and/or media professions. A variety of approaches to music scholarship are addressed, including music history, ethnomusicology, and popular music studies.

3.1.5 Performance
This Major is recommended for students planning to pursue a career as a solo performer, orchestral or band player, university-based musician or private teacher.

3.1.6 Joint Major in Performance and Musicologies
This Major is recommended for students who have both advanced performance skills and an interest in music theory and composition. Students who are planning careers in specialized performance, music editing or as university-based musicians are encouraged to consider this program.

3.1.7 Major in Performance with a Minor in Composition
This Major is recommended for students who have both advanced performance skills and an interest in music theory and composition. Students who are planning careers in performance, music editing, conducting, arranging, composing or as university-based musicians are encouraged to consider this program.

3.2 Five Year Bachelor of Music Conjoint with Bachelor of Music Education
This degree program is offered jointly with the Faculty of Education, and is recommended for candidates planning to pursue a career in Music Education.

3.3 Interdisciplinary Minor in Music and Culture
This Minor is available to students in the Bachelor of Arts, Bachelor of Science, Bachelor of Business Administration, Bachelor of Commerce (Cooperative), Bachelor of Recreation, Bachelor of Recreation (Honours), Bachelor of Recreation (Cooperative), and Bachelor of Recreation (Cooperative) (Honours).

3.4 Minor in Music History
This Minor is available to students in the Bachelor of Arts, Bachelor of Science, Bachelor of Business Administration, Bachelor of Commerce (Cooperative), Bachelor of Recreation, Bachelor of Recreation (Honours), Bachelor of Recreation (Cooperative), and Bachelor of Recreation (Cooperative) (Honours).

3.5 Honours Degree
An honours degree signifies superior academic achievement. The Bachelor of Music (Honours) is available to candidates in the Performance, Composition, Musicologies, General Musical Studies, and Comprehensive Majors, candidates in the Joint Major in Performance and Musicologies, and candidates in the Major in Performance with a Minor in Composition. To be considered for an Honours Degree, the student must so indicate on the prescribed "Application for Graduation " form. This form may be obtained on-line at the Memorial Self Service at www3.mun.ca/admit/tbkwibis.P_WWLogin. Additional information is available from the Office of the Registrar at www.mun.ca/regoff/graduation/apply_grad.php. For further information on honours degrees see Bachelor of Music (Honours).

4 Admission/Readmission Regulations for the School of Music
In addition to meeting the UNIVERSITY REGULATIONS, students must meet the Admission/Readmission Regulations for the School of Music.

4.1 General Information
1. Entry to the School of Music is competitive and by audition only.
2. Admission or readmission to the University does not necessarily constitute admission or readmission to any program.

4.2 Application Forms and Deadlines
1. Admission to the Bachelor of Music degree is normally possible in the Fall semester only. The application deadline for admission to the Fall semester is January 15.
2. Transfer students may be considered for admission in the Winter semester if they have the prerequisites to enter a sufficient number of music courses in that semester. The application deadline for admission to the Winter semester is September 30.
3. Students who have withdrawn from the music degree program may apply to be readmitted in either the Fall or Winter semester.
4. School of Music application forms are available from the School’s General Office and the Office of the Registrar, through the School’s website at www.mun.ca/music/programs/undergrad/apply.php and through the Office of the Registrar’s website at www.mun.ca/regoff/forms.php. Applicants who have not previously attended Memorial University of Newfoundland or those who have not attended Memorial University of Newfoundland in the three preceding semesters must also submit the "Undergraduate Application for Admission/Readmission" which is available at www.mun.ca/regoff/forms.php. Application forms may also be obtained by writing to the School of Music, Memorial University of Newfoundland, St. John’s, NL A1C 5S7 or the Office of the Registrar, Admissions Office, Memorial University of Newfoundland, St. John’s, NL A1C 5S7.
5. All applications for admission or readmission must be submitted to the Office of the Registrar. A complete application includes an application to the University (for those who have not attended Memorial University of Newfoundland in the three preceding semesters), an application to the School, and a music teacher reference form. The School of Music application form and teacher reference form are available from the School of Music website at www.mun.ca/music. Application fees must be paid when the application forms are submitted.
4.3 Admission/Readmission Requirements to the Bachelor of Music Degree Program

1. All applicants are required to audition to the satisfaction of the School on the instrument that they have chosen as their Principal Applied Study in their degree program.
   a. The School offers instruction in voice, piano, organ, flute, clarinet, saxophone, oboe, bassoon, trumpet, horn, euphonium, trombone, tuba, percussion, guitar, violin, viola, cello and double bass. Audition requirements for each instrument may be obtained from the School of Music General Office or online at www.mun.ca/music.
   b. Auditions are normally held in early March. Dates and locations of upcoming auditions are available from the School of Music General Office or online at www.mun.ca/music/programs/
   c. Late auditions may be held if space is available. Students auditioning late are normally not eligible for School of Music entrance scholarships.
   d. Transfer students and students seeking readmission to the music degree program must audition to determine their placement in applied study courses. The level of audition should be equivalent to the jury requirements for the prerequisite of the course to which they are seeking admission. Jury requirements are available from the Office of the School of Music or through the School of Music website at www.mun.ca/music.

2. All applicants are also required to take the following admission and placement tests:
   a. Placement Test in Theory and Musicianship: This test in basic rudiments, aural perception, and simple four-part harmony will be administered during the entrance audition period.
   b. Sightsinging Test: This short test is administered individually.
   c. Piano Proficiency Test: Piano proficiency is a graduation requirement. Students are expected to meet this requirement within the first year of their program. Applicants whose level of attainment is not acceptable to the School will be required to repeat and pass the Piano Proficiency Test prior to registering for Music 2401. Students are advised to contact the School of Music regarding scheduling of the test and for information about private remedial piano instruction.
   d. Writing Test: This test is administered during the entrance audition period. It is intended to assess students' writing skills and their capacity to articulate ideas about music.

3. The School will notify applicants in writing when a decision has been made regarding admission.

4.3.1 Major

1. With the exception of the Comprehensive Major, candidates normally declare their intended Major area of study in their fourth semester in the Bachelor of Music program.

2. A candidate may not change his/her Major without the written permission of the Dean. In cases where permission is granted, the candidate shall be required to fulfill all requirements for the new Major. However, in the case where a student's Major changes from Performance to one of the other Majors, the Principal Applied Study courses successfully completed under the Performance Major may be used to satisfy the requirements for Principal Applied Study in the new Major, with any additional credit hours being used as Music electives in the new Major.

3. Candidates will choose one of the following areas for their Major:

4.3.1.1 Composition

Students interested in the Composition Major are strongly encouraged to take Music 3100 in their second year. Candidates for this Major must apply in writing to the Dean by February 15th in the semester during which they are registered for Music 2108, submitting up to three of their own compositions by the end of classes in that semester. Candidates will be interviewed by a panel of composition faculty. Admissions to this Major will be based on the candidate's: 1) submitted compositions, 2) interview, 3) achievement in Music 1107, 1108, 1700, 2107, 2108, 3100 and any other elective courses in music theory and composition, 4) general academic achievement, and 5) potential for a career and/or graduate work in composition.

4.3.1.2 Comprehensive

Candidates planning to apply for admission to the Conjoint degrees (Bachelor of Music/Bachelor of Music Education) should first declare the Comprehensive Major by the end of their second semester in the Bachelor of Music program in order to take the necessary prerequisite courses for admission to the Conjoint degrees program. Students planning to apply for admission to the Bachelor of Music Education as a second degree may wait until their fourth semester to declare this Major. Please note that completion of this degree does not guarantee admission to the Faculty of Education.

4.3.1.3 General Musical Studies

Candidates for the General Musical Studies Major need not submit an application. All candidates who have not been admitted to another Major by the end of their fourth semester in the Bachelor of Music program will automatically be admitted to the General Musical Studies Major. Students have the option of including a Minor in a discipline other than Music, in which case they must meet all prerequisites and requirements for the Minor. The subject of the candidate's Minor shall be that declared by the candidate on the Change of Academic Program Form, which is available at www.mun.ca/regoff/registration/Declare_Change_Academic_Program.pdf or in person at the Office of the Registrar.

4.3.1.4 Musicologies

Candidates for this Major must apply in writing to the Dean by February 15th in the semester during which they are registered for Music 2006, submitting up to three pieces of relevant work by the end of classes in that semester, including essays or analyses written either in the context of academic course work or independently. Candidates will be interviewed by a panel of faculty in this discipline. Admission to this Major will be based on the candidate's: 1) submitted work, 2) interview, 3) achievement in Music 1005, 1008, 2005, 2006 and any electives in musicologies, as well as English and research/writing courses, 4) general academic achievement, and 5) potential for a career and/or graduate work in musicology, ethnomusicology, journalism or a related field.

4.3.1.5 Performance

Candidates for this Major must apply in writing to the Dean by February 15th in the semester during which they are registered for Music 240B. Candidates are required to audition for this program. Where possible, the jury examination for Music 240B will be considered as the audition for admission to the Performance Major, although in some cases the audition may require repertoire beyond the level and amount prepared for the jury examination. Admission to this Major will be based on a candidate's: 1) performance on the audition and
achievement in Music 140A/B and 240A/B, 2) general academic achievement, and 3) potential for a career and/or graduate work in performance.

4.3.1.6 Joint Major in Music Performance and Musicologies
Candidates for the Joint Major must apply in writing to the Dean by February 15th in the semester during which they are registered for Music 240B. Candidates for admission to the Joint Major must fulfill the requirements for admission to both the Performance and Musicologies Majors.

4.3.1.7 Major in Music Performance with a Minor in Composition
Candidates for this Major must apply in writing to the Dean by February 15th in the semester during which they are registered for Music 240B. Candidates must fulfill the requirements for admission to both the Performance and Composition Majors.

4.3.1.8 Bachelor of Music Conjoint with Bachelor of Music Education
This program is offered with the Faculty of Education, and is recommended for candidates planning to pursue a career in Music Education. Candidates for the Conjoint Degrees program must meet the Faculty of Education's admission requirements for the Bachelor of Music Education Conjoint Degree program. Applications must be submitted to the Faculty of Education by January 15 for admission to the following Fall semester.

4.4 Admission Requirements to Minor Programs
1. The Interdisciplinary Minor in Music and Culture and Minor in Music History are available to students in the Bachelor of Arts, Bachelor of Science, Bachelor of Business Administration, Bachelor of Commerce (Cooperative), Bachelor of Recreation, Bachelor of Recreation (Honours), Bachelor of Recreation (Cooperative), and Bachelor of Recreation (Cooperative) (Honours). Students wishing to complete either of these minors must declare so on the Change of Academic Program Form, which is available at www.mun.ca/registroff/registration/Declare_Change_Academic_Program.pdf or in person at the Office of the Registrar.
2. Students wishing to be considered for admission to the Minor in Music History must also meet the prerequisites for Music 1107 and 1117.

5 Bachelor of Music Degree Regulations
Students admitted or readmitted to the School of Music before Fall 2012 must follow the regulations outlined in the 2012-2013 University Calendar under Bachelor of Music Degree Regulations, Transition to New Bachelor of Music Degree Program. In addition Table 1 Substitutions for Music Courses Required Under Previous Regulations lists the courses that students following the regulations of an earlier Calendar may substitute for required courses that are no longer offered. Table 2 Substitution of Former Courses For Courses In This Calendar lists the former courses that may be substituted for courses required under this Calendar which were not offered before Fall 2012. Both Table 1 and Table 2 may be found on the School of Music website at www.mun.ca/music/students/crse_sub.php.

5.1 Program Regulations
1. Students admitted to the Bachelor of Music program may register for a maximum of 17 credit hours per semester without written permission from the Dean.
2. A student may not repeat for credit a Principal Applied Study course that s/he has already successfully completed, unless the student has the written permission of the Dean.
3. Active participation in School of Music ensembles is an integral part of a music student's education. One must be present at rehearsals and performances to have participated in the learning experience. Furthermore, the success of the ensemble as a whole is dependent upon the regular attendance and participation of all of its members. Accordingly, attendance will be required in the following courses: Music 2611-2620, Music 263A/B, Music 265A/B, Music 3500, and Music 3511-3518.
4. The following Music courses may not be counted toward the Bachelor of Music degree: Music 1116, 1120, 2011, 2012, 2013 and 1117.

5.2 Core Program Requirements
All Bachelor of Music students, regardless of Major, must complete the following courses (55 credit hours) as outlined below:

1. Applied Music (8 credit hours): 140A/B, 240A/B
2. Musicologies (15 credit hours): 1107, 1108, 2107, 2108, 3105
3. Music Theory (19 credit hours):
   a. Written Theory: 1107, 1108, 2107, 2108, 3105
   b. Aural Skills: 1117, 1118, 2117, 2118
4. Music Technology (1 credit hour): Music 1700
5. Functional Keyboard (1 credit hour): 2401 or 2411, 2402 or 2412
6. Ensemble I: 1 credit hour from Music 3517 or 3518
7. Ensemble II: 10 credit hours according to Principal Applied Study below:
   a. Voice: Music 2700 and 2701, and 2 credit hours from Music 2611-2612, plus 6 additional credit hours from Music 2611, 2612, 2616, 2617. Students will be placed in one of these ensemble courses during each semester in which they are enrolled in Principal Applied Study. The assignment will be based on their ensemble audition, the appropriateness of the ensemble for the student’s musical development and program of study, and the need to create balanced ensembles.
   b. Piano, Organ, or Guitar: 2 credit hours of music electives chosen from courses beyond the 1000 level, and 2 credit hours from Music 2611-2620, plus 6 additional credit hours from Music 2611-2620. Students will be placed in one of these ensemble courses during each semester in which they are enrolled in Principal Applied Study. The assignment will be based on their ensemble audition, the appropriateness of the ensemble for the student’s musical development and program of study, and the need to create balanced ensembles.
   c. All other Principal Applied Study, i.e. percussion or a string or wind instrument: 2 credit hours from Music 2611-2612, plus 8 credit hours from Music 2613, 2614, 2615, 2619, 2620. Students will be placed in two of these ensemble courses during each semester in which they are enrolled in Music 140A/B and in one ensemble course during each subsequent semester of Principal
Applied Study. Ensemble assignments will be based on their ensemble auditions, the appropriateness of the ensemble for the student’s musical development and program of study, and the need to create balanced ensembles.

8. The remaining credit hours for the degree are determined according to the student’s Major, as below.

5.3 Composition Major
To be awarded the degree of Bachelor of Music in Composition, a candidate shall comply with the School’s regulations, and successfully complete a minimum of 123 credit hours, including 55 credit hours in the Core Program. The remaining 68 credit hours will be chosen as follows:

1. Music 340A/B, 440A/B.
2. Six credit hours of Music 3140 and 6 credit hours of Music 4140.
3. Music 3104, 3112, 4112 and one of Music 3106 and 3108.
4. Twelve additional credit hours chosen from Music courses beyond the 1000 level including:
   a. A maximum of 4 credit hours from Music 2611-2614, 2619, 2620, and 263A/B, in addition to those listed under the Core Program.
   b. A maximum of 5 credit hours from Music 2615, 2616, 2617, 265A/B, 3500, the former 3510, 3511-3518 in addition to those listed under the Core Program.
   c. No more than one of Music 2021, 2022 and 2023.
   d. Students interested in this Major are strongly encouraged to take Music 3100 in their second year.

5. Twenty-four credit hours chosen from disciplines other than Music and Music Education, including at least 6 credit hours from courses in English and/or designated research/writing courses.

5.4 Comprehensive Major
To be awarded the degree of Bachelor of Music with a Comprehensive Major, a candidate shall comply with the School’s regulations, and successfully complete a minimum of 123 credit hours, including 55 credit hours in the Core Program. The remaining 68 credit hours will be chosen as follows:

1. Music 340A/B, 440A/B.
2. Music 2311, 2312, 3211, 3212
3. Eight credit hours chosen from: Music 3221, 3222, 3231, 3232, 3233, 3241, 3242, 3261, 3261, 3282
4. Music 3401 or 3411, 3402 or 3412.
5. Fifteen additional credit hours chosen from Music courses beyond the 1000 level including:
   a. At least 3 credit hours chosen from courses beyond the 2000 level in Musicologies and Music Theory/Composition.
   b. A maximum of 4 credit hours from Music 2611-2614, 2619, 2620, and 263A/B, in addition to those listed under the Core Program.
   c. A maximum of 5 credit hours from Music 2615, 2616, 2617, 265A/B, 3500, the former 3510, 3511-3518 in addition to those listed under the Core Program.
   d. No more than 3 credit hours from Music 2021, 2022 and 2023.
   e. Three credit hours chosen from the following may be substituted for Music electives in the Comprehensive Major: Education 2500, 2515, 2520.
6. Twenty-four credit hours from disciplines other than Music and Music Education, including at least 6 credit hours from courses in English and/or designated research/writing courses. Students in the Comprehensive Major are encouraged to take at least 18 credit hours in a second teachable subject.

5.5 General Musical Studies Major
To be awarded the degree of Bachelor of Music in General Musical Studies, a candidate shall comply with the School’s regulations, and successfully complete a minimum of 123 credit hours, including 55 credit hours in the Core Program. The remaining 68 credit hours will be chosen as follows:

1. Music 340A/B, 440A/B.
2. An additional 60 credit hours to be chosen according to either Option A or Option B below:

5.5.1 Option A (With Minor)
1. An additional 21 credit hours chosen from Music courses beyond the 1000 level, including:
   a. At least 6 credit hours chosen from courses beyond the 2000 level in Musicologies and Music Theory/Composition.
   b. A maximum of 4 credit hours from Music 2611-2614, 2619, 2620, and 263A/B, in addition to those listed under the Core Program.
   c. A maximum of 5 credit hours from Music 2615, 2616, 2617, 265A/B, 3500, the former 3510, 3511-3518 in addition to those listed under the Core Program.
   d. No more than one of Music 2021, 2022 and 2023.
2. Six credit hours chosen from courses in English and/or designated research/writing courses.
3. A Minor of at least 24 credit hours in a subject other than Music. The candidate must follow the regulations for the Minor as set forth in the appropriate section of the Calendar.
4. Nine credit hours open electives which may be chosen from courses in Music, the Minor subject, and/or any other disciplines. However, no more than 3 credit hours in Music Education may be included.

5.5.2 Option B (No Minor)
1. An additional 36 credit hours chosen from music courses beyond the 1000 level including:
   a. At least 12 credit hours chosen from courses beyond the 2000 level in Musicologies and Music Theory/Composition.
   b. A maximum of 4 credit hours from Music 2611-2614, 2619, 2620, and 263A/B, in addition to those listed under the Core Program.
Program.
c. A maximum of 5 credit hours from Music 2615, 2616, 2617, 265A/B, 3500, the former 3510, 3511-3518 in addition to those listed under the Core Program.
d. No more than one of Music 2021, 2022 and 2023.
e. A maximum of 3 credit hours chosen from the following courses may be substituted for Music electives: Education 2500, 2515, 2520. Music Education Majors have priority in registering for these courses and spaces may not be available for General Musical Studies Majors

2. Twenty-four credit hours from disciplines other than Music and Music Education, including at least 6 credit hours from courses in English and/or designated research/writing courses.

5.6 Musicologies Major
To be awarded the degree of Bachelor of Music in Musicologies, a candidate shall comply with the School's regulations, and successfully complete a minimum of 123 credit hours, including 55 credit hours in the Core Program. The remaining 68 credit hours will be chosen as follows:

1. Music 340A/B, 440A/B
2. Music 4095
3. Fifteen additional credit hours beyond the 2000 level in Musicologies.
4. Six credit hours chosen from Anthropology, Canadian Studies, European Studies, Folklore, Gender Studies, History, Law and Society, Medieval Studies, Newfoundland and Labrador Studies, Philosophy, Political Science, Psychology, Religious Studies, and/or Sociology.
5. Twelve additional credit hours chosen from music courses beyond the 1000 level including:
   a. A maximum of 4 credit hours from Music 2611-2614, 2619, 2620, and 263A/B, in addition to those listed under the Core Program.
   b. A maximum of 5 credit hours from Music 2615, 2616, 2617, 265A/B, 3500, the former 3510, 3511-3518 in addition to those listed under the Core Program.
   c. No more than one of Music 2021, 2022 and 2023.
6. Twenty-four credit hours chosen from disciplines other than Music and Music Education, including at least 6 credit hours from courses in English and/or designated research/writing courses and at least 6-credit hours in a language or languages other than English.

5.7 Performance Major
To be awarded the degree of Bachelor of Music in Performance, a candidate shall comply with the School's regulations, and successfully complete a minimum of 123 credit hours, including 55 credit hours in the Core Program. The remaining 68 credit hours will be chosen as follows:

1. Music 345A/B, 445A/B.
2. Three credit hours chosen from Music 3704, 3722, 3732, 3742, 3751, 3764, 3774, 4701, 4702, 4703.
3. Six credit hours from Music 2615, 2616, 2617, 265A/B, 3500, the former 3510, 3511-3518.
4. Twenty additional credit hours from Music courses beyond the 1000 level, including:
   a. At least 6 credit hours chosen from courses beyond the 2000 level in Musicologies and Music Theory/Composition.
   b. A maximum of 4 credit hours from Music 2611-2614, 2619, 2620, and 263A/B, in addition to those outlined under the Core Program.
   c. No more than one of Music 2021, 2022 and 2023.
   d. A maximum of 3 credit hours chosen from the following courses may be substituted for Music electives: Education 2500, 2515, 2520. Music Education Majors have priority in registering for these courses and spaces may not be available for Performance Majors.
5. Twenty-four credit hours chosen from disciplines other than Music and Music Education, including at least 6 credit hours from courses in English and/or designated research/writing courses. Students whose Principal Applied Study is Voice must include at least 3 credit hours in each of Italian, German and French.

5.8 Joint Major in Performance and Musicologies
To be awarded the degree of Bachelor of Music with a Joint Major in Performance and Musicologies, a candidate shall comply with the School's regulations, and successfully complete a minimum of 127 credit hours, including 55 credit hours in the Core Program. The remaining 72 credit hours will be chosen as follows:

1. Music 345A/B, 445A/B.
2. Three credit hours chosen from Music 3704, 3722, 3732, 3742, 3751, 3764, 3774, 4701, 4702, 4703.
3. Six credit hours from Music 2615, 2616, 2617, 265A/B, 3500, the former 3510, 3511-3518.
5. Fifteen additional credit hours beyond the 2000 level in Musicologies.
6. An additional 3 credit hours chosen from music courses beyond the 1000 level.
7. Thirty credit hours chosen from disciplines other than Music, including:
   a. At least 6 credit hours chosen from courses in English and/or designated research/writing courses.
   b. 6 credit hours in Anthropology, Canadian Studies, European Studies, Folklore, Gender Studies, History, Law and Society, Medieval Studies, Newfoundland and Labrador Studies, Philosophy, Political Science, Psychology, Religious Studies, and/or Sociology.
   c. At least 6 credit hours in a language or languages other than English. Students whose Principal Applied Study is Voice must include at least 3 credit hours in each of Italian, German, and French.
5.9 Major in Performance with a Minor in Composition

To be awarded the degree of Bachelor of Music with a Major in Performance and a Minor in Composition, a candidate shall comply with the School's regulations, and successfully complete a minimum of 124 credit hours, including 55 credit hours in the Core Program. The remaining 69 credit hours will be chosen as follows:

1. Music 345A/B, 445A/B.
2. Music 3704 and 3 credit hours chosen from Music 3722, 3732, 3742, 3751, 3764, 3774, 4701, 4702, 4703.
3. Six credit hours from Music 2615, 2616, 2617, 265A/B, 3500, the former 3510, 3511-3518.
4. Six credit hours of Music 3140.
5. Music 3104, 3112 and one of Music 3106 or 3108.
6. Six credit hours chosen from Music courses beyond the 1000 level including:
   a. A maximum of 4 credit hours from Music 2611-2614, 2619, 2620, and 263A/B, in addition to those listed under the Core Program.
   b. A maximum of 5 credit hours from Music 2615, 2616, 2617, 265A/B, 3500, the former 3510, 3511-3518 in addition to those listed under the Core Program.
   c. No more than 3 credit hours from Music 2021, 2022 and 2023.
7. Twenty-four credit hours chosen from disciplines other than Music or Music Education, including at least 6 credit hours chosen from courses in English and/or designated research/writing courses. Students whose Principal Applied Study is Voice must include at least 3 credit hours in each of Italian, German, and French.

5.10 Bachelor of Music Conjoint With Bachelor of Music Education

To be awarded the Conjoint Degrees of Bachelor of Music and Bachelor of Music Education, a candidate shall comply with the School's regulations and successfully complete a minimum of 159 credit hours, including 55 credit hours in the Core Program. The remaining 104 credit hours will be chosen as follows:

1. Music 340A/B, 440A/B.
3. Eight credit hours chosen from: Music 3221, 3222, 3231, 3232, 3233, 3241, 3242, 3261, 3281, 3282.
4. Music 3401 or 3411, 3402 or 3412.
5. Six additional credit hours chosen from Music courses beyond the 1000 level including:
   a. A maximum of 4 credit hours from Music 2611-2614, 2619, 2620, and 263A/B, in addition to those listed under the Core Program.
   b. A maximum of 5 credit hours from Music 2615, 2616, 2617, 265A/B, 3500, the former 3510, 3511-3518 in addition to those listed under the Core Program.
   c. No more than 3 credit hours from Music 2021, 2022 and 2023.
6. Forty-five credit hours as prescribed by the Faculty of Education under the Regulations for the Conjoint Degrees of Bachelor of Music and Bachelor of Music Education.
7. Twenty-four credit hours chosen from disciplines other than Music and Music Education, including at least 6 credit hours from courses in English and/or designated research/writing courses. Conjoint degrees students are strongly encouraged to take at least 18 credit hours in a second teachable subject.

5.11 Bachelor of Music (Honours)

The Bachelor of Music (Honours) will be awarded to candidates in the Performance, Composition, Musicologies, General Musical Studies, and Comprehensive Majors, candidates in the Joint Major in Performance and Musicologies, and candidates in the Major in Performance with a Minor in Composition who:

1. are graduating with First Class standing;
2. meet all the graduation requirements in the Bachelor of Music Degree Regulations for their Major; and
3. have attained a minimum average of 82% in all Music courses included in the degree.

6 Academic Standards and Continuance in the Bachelor of Music

1. Students in the Performance Major must attain a minimum grade of 75% in each of the jury exam and the course work for Music 345A/B and Music 445A/B. Students who fail to do so will be required to withdraw from the Performance Major. In such cases, the student may apply in writing to the Dean for admission into a Major other than Performance.
2. With the exception of those who have completed Music 440B or 445B, students who are not registered for a Principal Applied Study course or Education 403X at the end of the regular registration period will be deemed to have withdrawn from the Bachelor of Music degree program.
3. A student who withdraws from a Principal Applied Study course at any time in the semester shall have his/her eligibility to continue in the degree program reviewed by the Committee on Undergraduate Studies. The Committee shall determine whether or not the student shall be deemed to have withdrawn.
4. A student whose average in Music courses falls below 65% in any semester will be placed on probation.
5. A student who is on probation will be returned to clear standing if s/he achieves an average above 65% in music courses taken during the probation semester.
6. A student will be required to withdraw from the Bachelor of Music degree program if a) the student's average in music courses falls below 65% in each of two consecutive semesters of registration in the program, or b) the student's average in music courses falls below 65% in any three semesters of registration in the program, or c) the student fails any music course more than once, or d) the student has been unable to complete two consecutive semesters or three non-consecutive semesters of applied music studies (Music 140A/B, 240A/B, 340A/B, 440A/B, 345A/B, 445A/B).
7. Students who have withdrawn from the Bachelor of Music degree program and wish to re-enter the program must re-apply in competition. A student re-entering the program may be readmitted on probation if the Admissions Committee so recommends.
8. Students who have been required to withdraw from the Bachelor of Music degree program may apply for readmission after a minimum of two semesters have elapsed following the withdrawal.
9. Students who have been required to withdraw from the Bachelor of Music degree program twice are ineligible for further readmission.
10. Students who have withdrawn from the Bachelor of Music degree program may apply to be readmitted in either the Fall or Winter semester.

7. Minor Program Regulations

Students admitted or readmitted to the School of Music before Fall 2012 must follow the regulations outlined in the 2012-2013 University Calendar under Minor Program Regulations, Transition to New Minor Programs. Table 1 Substitutions for Music Courses Required Under Previous Regulations lists the courses that students following the regulations of an earlier Calendar may substitute for required courses that are no longer offered. In addition, Table 2 Substitution of Former courses For Courses in this Calendar lists the former courses that may be substituted for courses required under the current Calendar which were not offered before Fall 2012. Both Table 1 and Table 2 may be found on the School of Music website at www.mun.ca/music/students/crse_subs.php.

7.1 Interdisciplinary Minor in Music and Culture

1. This Minor is available to students in the Bachelor of Arts, Bachelor of Science, Bachelor of Business Administration, Bachelor of Commerce (Cooperative), Bachelor of Recreation, Bachelor of Recreation (Honours), Bachelor of Recreation (Cooperative), and Bachelor of Recreation (Cooperative) (Honours). The Minor in Music and Culture is not applicable to the Bachelor of Music degree.
2. Students shall complete 25 credit hours for the Minor in Music and Culture, as follows:
   a. Music 1120 or Music 1107
   b. Music 1116 or Music 1117
   c. Music 4040 or Folklore 4440
   d. Music 2012 or 2013
   e. One of Music 2011, 2014, Music 3017 or Folklore 3200, Music 3018 or Folklore 3618
   f. One of Music 3014, 3015, 3016 and 3019
   g. One of Music 2021, 2022, and 2023
   h. Two additional courses chosen from Music 1108 or the courses listed in d., e., f., or g. above.
3. Please note that most Music courses are not offered every semester, and some are offered only in alternate years.

7.2 Minor in Music History

1. This Minor is available to students in the Bachelor of Arts, Bachelor of Science, Bachelor of Business Administration, Bachelor of Commerce (Cooperative), Bachelor of Recreation, Bachelor of Recreation (Honours), Bachelor of Recreation (Cooperative), and Bachelor of Recreation (Cooperative) (Honours). The Minor in Music History is not applicable to the Bachelor of Music degree.
2. To be admitted to the Minor in Music History, students must meet the prerequisites for Music 1107 and 1117.
3. Students shall complete the following requirements (29 credit hours) for the Minor in Music History.
   a. Music 1107, 1108, 1117, and 1118.
   c. An additional 6 credit hours chosen from Music 3004, 3005, 3006, 3007, 4001, 4002, 4003, 4004, 4005.
4. Course prerequisites stipulated in the course descriptions must be met. Please note that most Music courses are not offered every semester, and some are offered only in alternate years.

8. Graduation

Upon meeting the qualifications for any of the programs of the School of Music a student must apply by the appropriate deadline date to graduate on the prescribed “Application for Graduation” form. This form may be obtained on-line at the Memorial Self Service at www3.mun.ca/admit/hbwbi.P_WWWLogin. Additional information is available from the Office of the Registrar at www.mun.ca/regoff/graduation/apply_grad.php.

9. Waiver of School Regulations

Every student has the right to request waiver of School regulations. Students wishing waiver of University academic regulations should refer to UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate) - Waiver of Regulations.
1. The School reserves the right in special circumstances to modify, alter, or waive any School regulation in its application to individual students where merit and equity warrant in the judgement of the Committee on Undergraduate Studies of the School.
2. Waiver of a School course prerequisite or co-requisite may be granted by the Dean.
3. All other requests for waiver of a School regulation must be submitted in writing to the Chair of the Committee on Undergraduate Studies of the School for consideration. Medical and/or other documentation to substantiate the request must be provided.
4. Any waiver granted does not reduce the total number of credit hours required for the degree.

10. Appeal of Decisions

Any student whose request for waiver of School regulations has been denied has the right to appeal. For further information refer to UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate) - Appeal of Decisions.
11 Music Courses Available to Students not Enrolled in a Program Offered by the School

1. The following Music courses are available to students who have not been admitted to a program in the School of Music, and are appropriate for students with little or no musical background:

Music 1116 Basic Musicianship (1 credit hour)
Music 1120 Rudiments 1 (3 credit hours)
Music 2011 North American Popular Music (3 credit hours)
Music 2012 Understanding Classical Music (3 credit hours)
Music 2013 Twentieth-Century Musicals (3 credit hours)
Music 2014 Introduction to World Music (3 credit hours)

2. The following ensemble courses are available to non-music students with appropriate background, subject to the approval of the instructor:

Music 2611 Festival Choir (1 credit hour per semester)
Music 2614 Concert Band (1 credit hour per semester)

3. Non-Music students may also audition to participate in the following ensemble courses:

Music 2612 Chamber Choir (1 credit hour per semester)
Music 2613 Chamber Orchestra (1 credit hour per semester)
Music 2615 Jazz Ensemble (1 credit hour per semester)
Music 2616 Opera Workshop (1 credit hour per semester)
Music 2617 Opera Workshop (2 credit hours per semester)
Music 2619 Wind Ensemble (1 credit hour per semester)
Music 263A/B Chamber Orchestra (1 credit hour per two semesters)
Music 265A/B Jazz Ensemble (1 credit hour per two semesters)

4. Most courses in musicologies (course numbers with second digit "0") and music theory/composition (course numbers with second digit "1") are available to non-music Majors who have fulfilled the prerequisites.

12 Course Descriptions

In accordance with Senate’s Policy Regarding Inactive Courses, the course descriptions for courses which have not been offered in the previous three academic years and which are not scheduled to be offered in the current academic year have been removed from the following listing. For information about any of these inactive courses, please contact the Dean of the School.

All courses in the School of Music are designated by the abbreviation MUS.

12.1 Applied Music Courses

140A/B Principal Applied Study I requires one hour per week of individual instruction (vocal or instrumental).

AR: attendance is required at School of Music recitals
CH: 4
CO: in each semester for students whose applied study is voice, piano, organ, guitar, one of MUS 2611, 2612 and in each semester for all other applied studies, one of MUS 2611 or 2612, and one of MUS 2613, 2614, 2615, 2619, 2620
OR: one hour per week of individual instruction
PR: admission to the Bachelor of Music Degree program

1700 Introduction to Music Technology provides a practical introduction to useful computer tools for musicians, such as music notation software, basic digital audio editing, and new media.

CH: 1
CO: MUS 140A/B
LC: 1
PR: admission to the Bachelor of Music Degree program

2401 Functional Keyboard I is an introduction to practical keyboard skills for students whose Principal Applied Study is not piano or organ. Functional accompaniment, transposition and score reading are emphasized.

CH: 0
CR: the former MUS 1127
GC: 1
PR: MUS 1108, successful completion of the Piano Proficiency Test, and admission to the Bachelor of Music Degree program
UL: may not be taken for credit by students whose Principal Applied Study is a keyboard instrument.

2402 Functional Keyboard II is a continuation of MUS 2401.

CH: 1
CR: the former MUS 1128
GC: 1
PR: MUS 2401 and admission to the Bachelor of Music Degree program
UL: may not be taken for credit by students whose Principal Applied Study is a keyboard instrument.

2404A/B Principal Applied Study II is a continuation of MUS 140A/B.

AR: attendance is required at School of Music recitals
CH: 4
CO: one of MUS 2611-2620 in accordance with Ensemble II under the Core Program
OR: one hour per week of individual instruction
PR: MUS 140A/B and admission to the Bachelor of Music Degree program

2411 Advanced Functional Keyboard I is an introduction to practical keyboard skills for students whose Principal Applied Study is piano or organ. Functional accompaniment, transposition and score reading are emphasized.

CH: 0
CR: the former MUS 1137
LC: 1
PR: MUS 1108, permission of the instructor for students whose Principal Applied Study is a keyboard instrument, and admission to the Bachelor of Music Degree program

2412 Advanced Functional Keyboard II is a continuation of MUS 2411.

CH: 1
CR: the former MUS 1138
LC: 1
PR: MUS 2411, permission of the instructor for students whose Principal Applied Study is not a keyboard instrument, and admission to the Bachelor of Music Degree program

2611 Festival Choir requires three hours rehearsal per week.

AR: attendance is required
CH: 1
PR: approval of the instructor
UL: may only obtain a maximum of 10 credit hours; not applicable as an elective under the Bachelor of Arts program; students in the Faculty of Education should consult the Office of Student Services in the Faculty of Education regarding applicability of this course to their education degree program.

2612 Chamber Choir requires three hours rehearsal per week.

AR: attendance is required
CH: 1
PR: an audition. Contact the instructor or the School of Music office before the beginning of the semester regarding the audition.
UL: may only obtain a maximum of 8 credit hours; not applicable as an elective under the Bachelor of Arts program; students in the Faculty of Education should consult the Office of Student Services in the Faculty of Education regarding applicability of this course to their education degree program.

2613 Chamber Orchestra requires three hours rehearsal per week.

AR: attendance is required
CH: 1
PR: an audition. Contact the instructor or the School of Music office before the beginning of the semester regarding the audition.

AR = Attendance requirement; CH = Credit hours are 3 unless otherwise noted; CO = Co-requisite(s); CR = Credit can be retained for only one course from the set(s) consisting of the course being described and the course(s) listed; LC = Lecture hours per week are 3 unless otherwise noted; LH = Laboratory hours per week; OR = Other requirements of the course such as tutorials, practical sessions, or seminars; PR = Prerequisite(s); UL = Usage limitation(s).
2614 Concert Band - inactive course.

2615 Jazz Ensemble requires three hours rehearsal per week.
AR: attendance is required
CH: 1
PR: an audition. Contact the instructor or the School of Music office before the beginning of the semester regarding the audition.
UL: may only obtain a maximum of 8 credit hours; available for credit only to students who successfully audition for participation in the ensemble; not applicable as an elective under the Bachelor of Arts program; students in the Faculty of Education should consult the Office of Student Services in the Faculty of Education regarding applicability of this course to their education degree program.

2616 Opera Workshop requires three hours rehearsal per week.
AR: attendance is required
CH: 1
PR: an audition. Contact the instructor or the School of Music office before the beginning of the semester regarding the audition.
UL: may only obtain a maximum of 8 credit hours; available for credit only to students who successfully audition for participation in the ensemble; not applicable as an elective under the Bachelor of Arts program; students in the Faculty of Education should consult the Office of Student Services in the Faculty of Education regarding applicability of this course to their education degree program.

2617 Wind Ensemble requires three hours rehearsal per week.
AR: attendance is required
CH: 1
PR: an audition. Contact the instructor or the School of Music office before the beginning of the semester regarding the audition.
UL: may only obtain a maximum of 16 credit hours; available for credit only to students who successfully audition for participation in the ensemble; not applicable as an elective under the Bachelor of Arts program; students in the Faculty of Education should consult the Office of Student Services in the Faculty of Education regarding applicability of this course to their education degree program.

2620 Instrumental Ensemble requires three hours rehearsal per week.
AR: attendance is required
CH: 1
PR: an audition. Contact the instructor or the School of Music office before the beginning of the semester regarding the audition.
UL: may only obtain a maximum of 8 credits in 2619 or a combination of 2614 and 2619; not applicable as an elective under the Bachelor of Arts program; students in the Faculty of Education should consult the Office of Student Services in the Faculty of Education regarding applicability of this course to their education degree program.

2631/B Chamber Orchestra requires 15 hours of rehearsal per semester.
AR: attendance is required
CH: 1 credit hour per two semesters
PR: an audition. Contact the instructor or the School of Music office before the beginning of the semester regarding the audition.
UL: may only obtain a maximum of 4 credit hours; available for credit only to students who successfully audition for participation in the ensemble; not applicable as an elective under the Bachelor of Arts program; students in the Faculty of Education should consult the Office of Student Services in the Faculty of Education regarding applicability of this course to their education degree program.

2635A/B Jazz Ensemble requires 15 hours of rehearsal per semester.
AR: attendance is required
CH: 1 credit hour per two semesters
PR: an audition. Contact the instructor or the School of Music office before the beginning of the semester regarding the audition.
UL: may only obtain a maximum of 4 credit hours; available for credit only to students who successfully audition for participation in the ensemble; not applicable as an elective under the Bachelor of Arts program; students in the Faculty of Education should consult the Office of Student Services in the Faculty of Education regarding applicability of this course to their education degree program.

2700 Lyric Diction I is a study of English, German, French and Italian lyric diction. The International Phonetic Alphabet will be introduced and applied to singing in these four languages.
CH: 1
3512 Chamber Music requires the ensemble to prepare and perform a recital of 18-22 minutes of music. Each ensemble receives nine hours of coaching in preparation for the performance.
AR: attendance is required at all coachings and masterclasses
CH: 2 per semester
CO: MUS 3500 for first registration in MUS 3511 or 3512
PR: permission of the instructor and admission to the Bachelor of Music Degree program; repertoire to be performed must be approved prior to registration
UL: may only obtain a maximum of 12 credit hours

3513 Chamber Music requires the ensemble to prepare and perform a recital of 25-30 minutes of music. Each ensemble receives twelve hours of coaching in preparation for the performance.
AR: attendance is required at all coachings and masterclasses
CH: 3 per semester
PR: permission of the instructor and admission to the Bachelor of Music Degree program; repertoire to be performed must be approved prior to registration
UL: may only obtain a maximum of 18 credit hours

3514 Small Ensemble is a conducted ensemble requiring two hours per week of rehearsal.
CH: 1 per semester
PR: permission of the Dean and admission to the Bachelor of Music Degree program
UL: may only obtain a maximum of 6 credit hours

3515 Accompaniment requires the students to meet for one hour per week in a masterclass. Coaching will be given to prepare for performance of a 15- to 20-minute program with a singer or instrumentalist.
AR: attendance is required
CH: 1 per semester
PR: admission to the Bachelor of Music Degree program; open only to students whose Principal Applied Study is a keyboard instrument; others by permission of the Dean; repertoire to be performed must be approved prior to registration
UL: may only obtain a maximum of 4 credit hours

3516 Accompaniment requires students to meet for one hour per week in a masterclass. Coaching will be given to prepare for performance of a half-hour program with a singer or instrumentalist.
AR: attendance is required
CH: 2 per semester
PR: admission to the Bachelor of Music Degree program; open only to students whose Principal Applied Study is a keyboard instrument; others by permission of the Dean; repertoire to be performed must be approved prior to registration
UL: may only obtain a maximum of 8 credit hours

3517 World Music Ensemble is a coached activity exploring one or more world music repertoires. This ensemble requires 2 hours of rehearsal per week.
AR: attendance is required
CH: 1 per semester
PR: admission to the Bachelor of Music Degree program
UL: may only obtain a maximum of 6 credit hours

3518 Contemporary Music/Improvisation Ensemble is a coached activity exploring improvisation and/or contemporary repertoire for mixed ensembles. This ensemble requires 2 hours of rehearsal per week.
AR: attendance is required
CH: 1 per semester
PR: admission to the Bachelor of Music Degree program
UL: may only obtain a maximum of 6 credit hours

3605 Music Theatre Workshop - inactive course.

3704 Career Skills for Musicians is an exploration of careers in music. Topics may include preparation of CVs, resumes, cover letters, business plans, grant applications, web sites, press kits and other promotional materials, tax, legal and business issues in the arts, and the study of successful arts enterprises.
CR: the former MUS 3703
PR: MUS 140B or permission of the instructor
UL: may only obtain a maximum of 4 credit hours

3711 Jazz Styles and Improvisation is an applied course for singers and instrumentalists, which aims to integrate the theory and practice of jazz. Jazz styles and improvisation will be explored through listening (recordings and live performance), imitation, and improvisation of selected jazz standards.
PR: MUS 240B or permission of the instructor, and admission to the Bachelor of Music Degree program

3712 Improvisation is an introduction to the art and practice of improvisation through guided ensemble exploration and performance, score study and the application of contemporary performance practice.
PR: MUS 240A/B and admission to the Bachelor of Music Degree program
12.2 Ensemble Techniques Courses

All courses in ensemble techniques are available only to candidates for the degree of Bachelor of Music except where specified.

2311 Voice/Choral Materials I is a practical study, in a class situation, of vocal production, choral conducting and rehearsal techniques. This course is open to Bachelor of Music degree students and in the Music Concentration Program for the Bachelor of Education (Primary or Elementary) degree.

2312 Voice/Choral Materials II is a continuation of MUS 2311.

2321 Brass Techniques I meets one hour per week. Practical study, in a class situation, of the basic techniques of playing brass instruments.

2322 Brass Techniques II meets one hour per week. A continuation of MUS 3221. Students whose Principal Applied Study is a brass instrument must have the permission of the instructor to take this course.

2331 Flute Techniques meets one hour per week. Practical study, in a class situation, of the basic techniques of playing the flute.

2332 Single Reed Techniques meets one hour per week. Practical study, in a class situation, of the basic techniques of playing the clarinet and/or saxophone.

2333 Double Reed Techniques meets one hour per week. Practical study, in a class situation, of the basic techniques of playing the oboe and/or bassoon.

2341 Upper String Techniques meets one hour per week. Practical study, in a class situation, of the basic techniques of playing the violin and viola.

2342 Lower String Techniques meets one hour per week. Practical study, in a class situation, of the basic techniques of playing the cello and string bass.

3261 Guitar Techniques meets one hour per week. Practical study, in a class situation, of the basic techniques of playing the guitar.

12.3 Music Theory and Composition Courses

1107 Materials and Techniques of Music I is the study of the basic materials of tonal music; introduction to harmonic and phrasing structures; introduction to voice leading with emphasis on choral style; analysis and composition of smaller formal elements.

CO: MUS 1117

CR: the former MUS 110A, the former MUS 1113

PR: MUS 1120 with a minimum mark of 75% or successful completion of the Theory Placement Test.

1108 Materials and Techniques of Music II is a continuation of MUS 1107. Harmonic vocabulary is expanded to include all diatonic triads and seventh chords, with an introduction to chromatic harmony; phrase expansions and contractions; analysis and composition of binary and ternary forms.

CR: the former MUS 110B, the former MUS 1114

PR: MUS 1107

1116 Basic Musicianship is an introduction to sightsinging and dictation for students whose level of preparation is not adequate for MUS 1117.

AR: attendance is required

CR: the former MUS 110B, the former MUS 1114

PR: MUS 1107

1117 Aural Skills I is a course on sightsinging and dictation.

CO: MUS 1107

CR: the former MUS 110A, the former MUS 1113

PR: a minimum grade of 75% in MUS 1116 or successful completion of the Theory Placement Test.

1118 Aural Skills II is a continuation of MUS 1117.

CR: the former MUS 110B, the former MUS 1114

PR: MUS 1107

1200 Rudiments I is an introductory course in music rudiments and theory. Development of aural skills is emphasized.

UL: not applicable to the Bachelor of Music degree.

2107 Materials and Techniques of Music III is a study of chromatic harmony with emphasis on both writing and analysis. Introduction to sonata form.

CR: the former MUS 210A, the former MUS 2113
2108 Materials and Techniques of Music IV is a continuing study of chromatic harmony with an emphasis on enharmonic modulation and other advanced chromatic techniques. Continued study of sonata form, rondo, sonata rondo and variation forms. Written work will include both analysis and composition exercises in the styles studied.

PR: MUS 2107

2117 Aural Skills III is a continuation of MUS 2116.

CH: 1

LC: 2

PR: MUS 2108, 2117

2118 Aural Skills IV is a continuation of MUS 2117.

CH: 1

PR: MUS 2107, 2117

3100 Composition I introduces students to a variety of compositional concepts such as selected post-1900 techniques, developments in rhythm and metre, texture, phrase structures, song forms, short forms, and motivic development. The emphasis will be on composing short works employing the compositional devices studied. Students planning to apply for the Major in Composition are strongly encouraged to take this course.

PR: MUS 2108

3104 Electronic Music Studio Techniques I is a course designed to give basic instruction in the theory, technique, and philosophy of electronic music composition. Students obtain the skills necessary to operate the equipment of an electronic music studio (including mixers, synthesizers, and samplers) and to use them in appropriate and creative ways. Objectives of the course are achieved through lecture, lab experiences, listening and practical application.

PR: MUS 2108

3105 Materials and Techniques of Post-Tonal Music is a study of compositional devices used in the twentieth century. Topics include minimalism, new tonality, aleatorism, atonality, set theory, serial techniques, and electronic music.

PR: MUS 2108

3106 Sixteenth-Century Counterpoint is a course combining the analytical study of 16th-century sacred polyphony with an emphasis on the development of compositional skills in this style. Students will be required to write two- and three-part counterpoint exercises and a motet. The principal composers studied will be Palestrina, Lassus and Victoria. Some listening and singing assignments are required.

PR: MUS 3106

3108 Eighteenth-Century Counterpoint is a study of form and polyphony in eighteenth-century music, including the fugue and the Baroque suite. Assignments include analysis, composition, and written exercises in counterpoint.

PR: MUS 2110, the former MUS 3113

3109 Jazz Theory and Arranging is an introduction to jazz theory and the principles of arranging for jazz ensembles.

PR: MUS 2108

3112 Orchestration I is an introduction to the principles of orchestration with an emphasis on instrumentation.

PR: the former MUS 3102

PR: MUS 2108 or permission of the instructor

3140 Composition Seminar provides intensive composition study for students whose Major or Minor is Composition. CR: MUS 2108, 2118, and admission to the Composition Major or Minor: UL: may only obtain a maximum of 6 credit hours

PR: MUS 3104

4105 Special Topics in Music Theory will have topics to be studied announced by the School of Music.

UL: may only obtain a maximum of 3 credit hours

4106 Special Topics in Music Theory will have topics to be studied announced by the School of Music.

UL: may only obtain a maximum of 4 credit hours

4107 Special Topics in Music Theory will have topics to be studied announced by the School of Music.

UL: may only obtain a maximum of 6 credit hours

4112 Orchestration II is a continuation of MUS 3112, and examines the technique of orchestration as it relates to the symphonic orchestra and other large ensembles.

CR: the former MUS 4102

PR: MUS 3112, or the former MUS 3102, or permission of the instructor.

4140 Advanced Composition Seminar provides advanced composition study for students whose Major or Minor is Composition. Students will prepare a recital of original works and/or a portfolio of their compositions.

PR: 6 credit hours of MUS 3140, and admission to the Composition Major

UL: may only obtain a maximum of 6 credit hours

12.4 Musicologies Courses

1005 Thinking and Writing About Music I is designed to develop listening, critical thinking, research and writing skills through selected cross-disciplinary topics and themes exploring the relationship between music and society. The course will introduce the student to the terminology of music history and the concepts of genre, musical style and style periods. This course has strong listening and writing components.

CR: MUS 2012, the former MUS 1002

PR: MUS 1120 or successful completion of theory placement test or admission to the Bachelor of Music degree program. The ability to read music is required.

1006 Thinking and Writing about Music II is a continuation of MUS 1005.

PR: MUS 1005

2005 History of Western Art Music I is an intensive survey, through selected compositions, of the development of musical style to 1700. This course has strong listening and writing components and continues to develop research skills.

CO: MUS 1107

CR: the former MUS 1003

PR: MUS 1006

2006 History of Western Art Music II is a continuation of MUS 2005. An intensive survey, through selected compositions, of the development of musical styles in the Western world from 1700 to 1900. This course has strong listening and writing components and continues to develop research skills.

CR: the former MUS 2002

PR: MUS 2005

2011 North American Popular Music is a survey of the major genres of North American popular music. The course has three organizing themes: 1) the influence of Euro-American musics, African-American musics, and Latin American musics on popular music, 2) the relationship between popular music, capitalism, and technology, and 3) popular music as a medium for the portrayal of identity. This course has a strong listening component. The ability to read music is not required.

UL: not applicable to the Bachelor of Music Degree.

2012 Understanding Classical Music: Introduction Through Guided Listening is a course designed to enhance and develop listening skills and an understanding of the basic elements of music. Form and musical style in Western classical music will be explored within a cultural and historical context. Through guided listening, the student will be exposed to a variety of musical styles and traditions. This course has a strong listening component. The ability to read music is not required.

CR: MUS 1005, 1006, 2005, 2006 or the former MUS 1000, 1001, 1002, 1003, 1010, 1020 or 1021

UL: not applicable to the Bachelor of Music Degree.

2013 Twentieth-Century Musicals (same as English 2013) is a survey of twentieth-century musical theatre. Selected works, presenting different styles and periods, will be examined in detail. There will be a strong, required listening/viewing component to this course. The ability to read music is not required.

CR: MUS 3007, English 2013

UL: not applicable to the Bachelor of Music Degree.

2014 Introduction to World Music provides an introduction to the musics of selected cultures and contemporary intercultural communities. Drawing on topics and issues in ethnomusicology, it focuses on musical practices, beliefs, and techniques. It is intended to develop listening skills, broaden musical horizons, as well as to enable a deeper understanding of the way music functions in relation to social groups and individual lives.

UL: not applicable to the Bachelor of Music Degree.

2021 Newfoundland and Labrador Folksinging is an introduction to the sociocultural contexts, functions, and meanings of folksong in Newfoundland and Labrador. Proceeding from this contextual base drawn from oral and scholarly histories, the course offers practical instruction by a tradition-bearer in the singing of traditional Newfoundland and Labrador tunes and texts, using the techniques of aural transmission and assisted by the written medium where appropriate.

UL: no more than 3 credit hours from the 2021-2023 series may be applied toward the Bachelor of Music Degree
2022 Newfoundland and Labrador Fiddling is an introduction to the sociocultural contexts, functions, and meanings of fiddling in Newfoundland and Labrador. Proceeding from this contextual base drawn from oral histories, the course offers practical instruction by a tradition-bearer on the fiddle, using the techniques of aural transmission and assisted by the written medium where appropriate.

UL: no more than 3 credit hours from the 2021-2023 series may be applied toward the Bachelor of Music Degree.

2023 Newfoundland and Labrador Accordion is an introduction to the sociocultural contexts, functions, and meanings of accordion music in Newfoundland and Labrador. Proceeding from this contextual base drawn from oral histories, the course offers practical instruction by a tradition-bearer on the button accordion, using the techniques of aural transmission and assisted by the written medium where appropriate.

UL: no more than 3 credit hours from the 2021-2023 series may be applied toward the Bachelor of Music Degree.

3004 The Development of Symphonic Music (formerly MUS 3020) is a study of the development of symphonic literature from the late Baroque era to the present day. Selected compositions, representing different periods and styles, will be examined in detail. This course has a strong listening component.

CR: the former MUS 3020
PR: MUS 2005

3005 The Development of Opera is a study of the development of opera from the beginnings to the present day. Selected operas, representing different periods and styles, will be examined in detail. This course has a strong listening component.

PR: MUS 2005

3006 The History of the Concerto is a study of the development of the concerto from the late Baroque era to the present day. Selected compositions, representing different styles and periods, will be examined in detail. This course has a strong listening component.

PR: MUS 2005

3007 A History of Popular Music in Drama is a survey of popular music styles in drama from the rise of the Singspiel to the musicals of Andrew Lloyd Weber. Selected works, representing different styles and periods, will be examined in detail. This course has a strong listening component.

PR: MUS 2005

3009 Music in the Modern World is an intensive study of music in the 20th and 21st centuries. Focused themes address a wide range of genres and styles with particular attention to music's interaction with the arts and with society. This course has strong listening and writing components and continues to develop research skills.

CR: the former MUS 2003
PR: MUS 2006

3014 World Music: Musics of Asia and Oceania is an examination of musical theatre, genres, instruments, aesthetics, and functions of music in Asia and Oceania, including the classical music of the Indian subcontinent, traditional music of East Asia, jing-chime ensembles of Southeast Asia, and traditional musics of Polynesia and Australia. This course has a strong listening component.

PR: MUS 1120 with a minimum mark of 75% or equivalent and completion of at least 24 credit hours of university course work.

3015 World Music: Music of Africa and the Americas is an examination of musical theatre, genres, instruments, aesthetics, and functions of music in Africa and the Americas, including traditional African music, neo-African musics of the Americas, Native American musics, and traditional South American musics. This course has a strong listening component.

PR: MUS 1120 with a minimum mark of 75% or equivalent and completion of at least 24 credit hours of university course work.

3016 Canadian Musical Traditions is a survey of musical streams in Canadian music history from colonial times to the present, including indigenous and transplanted musical traditions, and Canadian art music. This course has a strong listening component.

PR: MUS 1120 with a minimum mark of 75% or equivalent and completion of at least 24 credit hours of university course work.

3017 Music, Song and Tradition (same as Folklore 3200) introduces students to a wide range of traditional song. Students will hear and discuss local, regional and international examples. Ability to read music or familiarity with music theory not required.

CR: 3

3019 Popular Music Studies will explore a number of genres in the historical development of world popular music and dance, along some of the following themes: the roles of race, class, gender, sexuality, age, and ability in popular music production and reception; processes and effects of mass media and technology in shaping genres and consumers’ experience of them; and cross-cultural influences within and across national borders.

PR: MUS 1120 with a minimum mark of 75% or equivalent and completion of at least 24 credit hours of university course work

3020 Popular Music Literature and Performance Practice is a survey of selected solo vocal repertoire from the Renaissance to the present day. Stylistic development and performance practices will be emphasized.

PR: MUS 140B in voice or permission of the instructor

3070 Piano Literature and Performance Practice is a survey of piano repertoire from the Baroque era to the present day. Stylistic development and performance practices will be emphasized.

PR: MUS 140B in piano or permission of the instructor

4001 The First Viennese School is a study of the music composed in the Austro-Hungarian Empire from 1770 to 1860. The works of Haydn, Mozart and the young Beethoven will be investigated with particular emphasis on musical style, performance practices and cultural context. Listening will focus on complete works or extended excerpts.

PR: MUS 2006

4002 Studies in Baroque Music is an examination of aspects of musical style and performance practices in the baroque period through the study of selected topics and specific musical examples. The course includes reading assignments, listening, score reading, and taking part in class demonstrations.

PR: MUS 2006

4003 Special Topics in Musicologies will be announced by the School of Music.

CH: 1 per semester
UL: may only obtain a maximum of 3 credit hours

4004 Special Topics in Musicologies will be announced by the School of Music.

CH: 2 per semester
UL: may only obtain a maximum of 4 credit hours

4005 Special Topics in Musicologies will be announced by the School of Music.

UL: may only obtain a maximum of 6 credit hours

4040 Music and Culture (same as Folklore 4440, the former Anthropology 4440, the former MUS 4440) examines traditional music as an aspect of life, more than music as an art form. Behaviour in Western and non-European cultures, Examination of the functions and uses of music; folk- popular-art music distinctions; and the relation of style to content. Outside reading, class exercises and individual reports will be required.

CR: Folklore 4440, the former Anthropology 4440, the former MUS 4440

4094 Introduction to Music Research is a study of bibliography and various aspects of research methods appropriate to the study of music. Students will participate in group and individual projects, and give a seminar presentation in class. This course will not be offered after the 2013-2014 academic year.

PR: the former MUS 2003

4095 Graduating Essay is directed study which will result in the production of an original paper dealing with a topic in musicology (including but not limited to music history, ethnomusicology, and popular music studies). This course is restricted to Musicologies Majors. A one-page research proposal and sample bibliography of at least ten items must be submitted to the Dean by the end of the seventh week of classes in the previous semester.

PR: admission to the Musicologies Major.

1 The Memorial University of Newfoundland Code

The attention of all members of the University Community is drawn to the section of the University Calendar titled The Memorial University of Newfoundland Code, which articulates the University's commitment to maintaining the highest standards of academic integrity.

2 School Description

The origin of Memorial University of Newfoundland School of Nursing dates back to August 1963 when the Association of Registered Nurses of Newfoundland submitted a brief to the University calling for the establishment of a baccalaureate program in nursing. In September 1966, the first students were admitted to the undergraduate degree program. Over its 42 year history, the School has remained responsive to the changing needs of nursing within the province and in Canada and consequently has developed and changed over time.

The educational, research and scholarly activities of the School and its faculty draw upon knowledge from the arts and sciences and from nursing and other health professions. The School and its faculty are also involved in many community outreach and professional service activities. While being responsive to national and international needs, the School acknowledges its primary responsibility to the people of Newfoundland and Labrador.

The School offers undergraduate degree programs on campus to prepare entry-level nurses for practice, and by distance for registered nurses with a diploma in nursing. A graduate degree, the Master of Nursing, is offered by the School of Graduate Studies. Students must meet all regulations of the School in addition to those stated in the general regulations. For information concerning fees and charges, admission/readmission to the University, and general academic regulations (undergraduate), refer to UNIVERSITY REGULATIONS.

Further information regarding the School of Nursing is available at www.mun.ca/nursing/about_us/.

2.1 Vision Statement

The School of Nursing provides innovative leaders in nursing education and research provincially, nationally and internationally by developing quality learning and scholarship environments. Graduates of the School of Nursing will be prepared to embrace the challenges of providing health care and will be responsive to human diversity while improving health for all.

2.2 Mission Statement

The School of Nursing's mission provides leadership and advances knowledge in nursing education, practice and research with the goal of promoting health and well-being.

2.3 Accreditation Status and Approval Status

2.3.1 Accreditation Status

The School of Nursing's Bachelor of Nursing (Collaborative) and the Bachelor of Nursing (Post-RN) programs are accredited to 2015 by the Canadian Association of Schools of Nursing (CASN). This seven year award is the highest award given to Schools of Nursing in Canada.

2.3.2 Approval Status

The School of Nursing's Bachelor of Nursing (Collaborative) and the Bachelor of Nursing (Post-RN) programs are approved to 2015 by the Association of Registered Nurses of Newfoundland and Labrador (ARNNL). The ARNNL approval designation assures both the public and our students that these programs prepare ethical entry-level practitioners who provide safe quality health care. These program graduates meet the requirements for licensure and professional practice as registered nurses in Newfoundland and Labrador.
3 Description of Programs

All courses of the School are designated by the abbreviation NURS.

3.1 General

The School of Nursing offers an undergraduate program leading to a Bachelor of Nursing to prepare entry-level nurses. To meet the licensing requirements for practising nursing in Canada, students must write the Canadian Registered Nurse Exam (CRNE). To be eligible to write the CRNE, candidates must graduate from an approved program offered by a School of Nursing and be recommended by the School of Nursing. In order to be recommended for the CRNE, a student must complete a comprehensive examination set by the Bachelor of Nursing (Collaborative) Program. All costs associated with these exams are the responsibility of the student.

The School of Nursing also offers an undergraduate program leading to a Bachelor of Nursing for nurses with a diploma in nursing. Students in the Bachelor of Nursing (Post-RN) Nurse Practitioner Primary Health Care Option program must meet the licensing requirements for practising as a Nurse Practitioner in Newfoundland and Labrador by writing the Canadian Nurse Practitioner Family All Ages Examination. To be eligible to write the examination, candidates must graduate from an approved School of Nursing and be recommended by the School of Nursing. In order to be recommended for the Nurse Practitioner licensure examination students must complete a comprehensive examination set by the School of Nursing. All costs associated with these exams are the responsibility of the student.

3.1.1 Bachelor of Nursing (Collaborative) Program

This four year program is designed to prepare competent entry-level nurses who will function within a variety of health care settings. The graduate is prepared to assume the roles of direct care giver, educator, counsellor, advocate, facilitator, co-ordinator of care, researcher, leader, and member of the nursing profession. This full-time program is comprised of 130 credit hours. Please note, the last semester of the fourth year extends beyond the normal University semester end date.

The School of Nursing depends on the cooperation and involvement of a large number of organizations and professional personnel in providing quality clinical placements and instruction to its students. These agencies often have a range of requirements, some of which include, a Certificate of Conduct, a Child Protection Record Check, immunizations, a First Aid Certificate, and a CPR certificate. Students unable to meet these agency requirements may be delayed in their program or prevented from completing their program of studies. All students are required to complete these requirements in a timely fashion and at their own expense. Many of these requirements must be updated annually. In order to satisfy clinical practice requirements for the Bachelor of Nursing (Collaborative) program, clinical agencies may be used 24 hours a day, seven days a week. Students may be required to attend during any of these times.

This program is offered at Memorial University of Newfoundland School of Nursing, the Centre for Nursing Studies, and the Western Regional School of Nursing. Information regarding the Centre for Nursing Studies is available at www.cns.nl.ca, and information regarding the Western Regional School of Nursing is available at www.swgc.mun.ca/nursing.

3.1.2 Bachelor of Nursing (Collaborative) Fast-Track Option

The Fast-Track Option is also designed to prepare competent entry-level nurses, however it is geared to students with well-developed university-level study skills. This full-time Option is for current degree holders or those with advanced standing and is comprised of 94 credit hours. This Option is taken over six consecutive semesters, i.e. two calendar years. Please note, the last semester of the second year ends later than the scheduled date on which the semester ends.

The School of Nursing depends on the cooperation and involvement of a large number of organizations and professional personnel in providing quality clinical placements and instruction to its students. These agencies often have a range of requirements, some of which include, a Certificate of Conduct, a Child Protection Record Check, immunizations, a First Aid Certificate and a CPR certificate. Students unable to meet these agency requirements may be delayed in their program or prevented from completing their program of studies. All students are required to complete these requirements in a timely fashion and at their own expense. Many of these requirements must be updated annually.

This Option is offered at Memorial University of Newfoundland School of Nursing and Western Regional School of Nursing. Information regarding the Western Regional School of Nursing is available at www.swgc.mun.ca/nursing.

3.1.3 Bachelor of Nursing (Collaborative) LPN Bridging Option

This Option provides a career ladder for Licensed Practical Nurses (LPN's). This Option offers students a combination of 25 unspecified transfer nursing credit hours for the successful completion of a nursing bridging course taken during the Bridging Semester and the recognition of prior nursing knowledge and clinical experience obtained through previous LPN education and work experiences. The Nursing Bridging course will prepare students to enter the second year of the degree program, thereby decreasing the length of the program and its inherent costs.

The School of Nursing depends on the cooperation and involvement of a large number of organizations and professional personnel in providing quality clinical placements and instruction to its students. These agencies often have a range of requirements, some of which include, a Certificate of Conduct, a Child Protection Record Check, immunizations, a First Aid Certificate, and a CPR certificate. Students unable to meet these agency requirements, may be delayed in their program or prevented from completing their program of studies. All students are required to complete these requirements in a timely fashion and at their own expense. Many of these requirements must be updated annually. In order to satisfy clinical practice requirements for the Bachelor of Nursing (Collaborative) program, clinical agencies may be used 24 hours a day, seven days a week. Students may be required to attend during any of these times.

This program is offered at the Centre for Nursing Studies. Information regarding the Centre for Nursing Studies is available at www.cns.nl.ca.

3.1.4 Bachelor of Nursing (Post-RN) Program

The Bachelor of Nursing (Post-RN) Program is currently under review and is not available for admission at this time.

This program is designed to build on the knowledge and competencies that registered nurses acquire in their diploma program. The program content and learning activities are intended to broaden students' theoretical base within the context of health promotion and to provide opportunities for students to enhance skills such as critical thinking and research application. The program is offered entirely by distance education. The program is designed for the convenience of registered nurses who wish to continue their education but cannot attend a university campus. The full-time or part-time program is comprised of 108 credit hours.
3.1.5 Bachelor of Nursing (Post-RN) Nurse Practitioner Primary Health Care Option

This Option is a time-limited transitional offering consisting of six semesters full time or eleven semesters part-time. This Option is primarily through distance delivery but there is a residency requirement in each semester. The full or part-time Option is comprised of 111 credit hours. Maximum enrolment is sixteen per full-time and part-time options.

4 Admission/Readmission Regulations for the School of Nursing

Applicants requiring additional information may e-mail nursingadmissions@mun.ca.

In addition to meeting the UNIVERSITY REGULATIONS students must meet the admission/readmission regulations for the School of Nursing.

4.1 General Information

1. Entry to the Bachelor of Nursing (Collaborative) four year and Fast-Track Option, the LPN Bridging Option, and to the Bachelor of Nursing (Post-RN) Nurse Practitioner Primary Health Care Option are competitive for a limited number of placements. Meeting the minimum requirements for admission does not guarantee acceptance into the selected program. The final decision on admission rests with the relevant Admissions Committee of the School.

2. Admission or readmission to the University does not necessarily constitute admission or readmission to any program.

3. Selection of candidates for Bachelor of Nursing (Collaborative) four year and Fast-Track two year Option, and to the Bachelor of Nursing (Post-RN) Nurse Practitioner Primary Health Care Option is based on academic performance, relevant work and volunteer experience, references and personal statements.

4. Admission to the Bachelor of Nursing (Collaborative) Fast-Track Option is competitive for a limited number of places. Selection of candidates is based on:
   - a minimum grade point average of 3.0 on a 4 point scale in their degree program for applicants who have completed a bachelor degree;
   - a minimum overall grade point average of 3.0 on a 4 point scale in the twelve courses, 36 credit hours required for admission for applicants for advanced standing;
   - evidence of ability to successfully maintain a full course load; and
   - other criteria considered suitable for professional practice in nursing.

5. Admission to the Bachelor of Nursing (Collaborative) LPN Bridging Option is on the basis of competition for a limited number of seats. Selection of candidates will be based on:
   - academic performance in the practical nursing program and in any university courses taken to date;
   - evidence of ability to successfully maintain a full course load; and
   - other criteria considered suitable for professional practice in nursing.

   Admission to the program is denied to any student if, in the judgment of the Joint Admissions Committee, s/he is deemed unsuitable for admission.

   Applicants must provide two letters of reference (one reference regarding academic performance and one from a current employer regarding clinical performance).

6. For all programs, other than the Bachelor of Nursing (Post-RN), priority is given to applicants who are residents of Newfoundland and Labrador.

7. In addition to the regular quota positions, up to three additional positions per year are available in the Bachelor of Nursing (Collaborative) four year Option program for applicants of aboriginal ancestry who have met the admission requirements. Applicants must send a letter of request at the time of application and provide documentation of aboriginal ancestry.

8. Applicants are required to submit a health assessment and a complete record of current immunizations at the beginning of all programs except for the Bachelor of Nursing (Post-RN) when they must be submitted prior to commencing any Nursing course with a clinical component.

9. Bachelor of Nursing (Collaborative) Fast-Track, Bachelor of Nursing (Collaborative) LPN Bridging Option, and Bachelor of Nursing (Post-RN) Nurse Practitioner Primary Health Care applicants may be requested to attend an interview.

10. Evidence of certification in Standard First Aid and Basic Life Support (CPR) level HCP, offered by The Canadian Red Cross or St. John Ambulance is required by applicants to all programs except the Bachelor of Nursing (Post-RN). Certification obtained from other organizations will be accepted if deemed equivalent by the School of Nursing.

4.2 Application Forms and Deadlines

1. All programs and their options, other than the Bachelor of Nursing (Post-RN) program, commence in the Fall semester. The deadline for application to the Bachelor of Nursing (Collaborative) Program, four year and Fast-Track two year Option and Bachelor of Nursing (Collaborative) LPN Bridging Option is March 1st. The Bachelor of Nursing (Post-RN) Option program is under review and is not currently available for admission.

2. Students applying for admission to Bachelor of Nursing degree programs must submit the appropriate supplementary Undergraduate Application for Admission/Readmission to the University and supporting documents as specified on the application. The applications for admission to the four year and Fast Track Options of the Bachelor of Nursing (Collaborative) are available online through the University’s Online General Undergraduate Application for Admission/Readmission which can be found at www.mun.ca/become. The Bachelor of Nursing (Collaborative) LPN Bridging Option application for admission is available at www.mun.ca/nursing/undergrad. Application forms and other information may also be obtained by contacting the University in writing to the Admissions Office, Office of the Registrar, Memorial University of Newfoundland, St. John’s, NL, A1C 5S7, or by e-mail at admissions@mun.ca or through the website at www.mun.ca/regoff/home/.

4.3 Admission Requirements to School Programs

These regulations apply to the Bachelor of Nursing (Collaborative) program 4 year Option, Fast-Track 2 year Option and LPN Bridging Option.

Applicants may apply for admission to School programs under the Categories Of Applicants, Admission Criteria and Other Information outlined under UNIVERSITY REGULATIONS - Admission/Readmission to the University (Undergraduate). In addition to meeting these regulations, applicants in the following categories, must meet the additional requirements as indicated below.
4.3.1 High School Applicants
Applicants from High School may apply for admission only to the Bachelor of Nursing (Collaborative) four year program.

1. High School applicants to the Bachelor of Nursing (Collaborative) program must have completed a high school diploma, or its equivalent, as certified by the Department of Education of Newfoundland and Labrador and meet the general Admission/Readmission requirements of Memorial University of Newfoundland. High school courses must include the following or their equivalents:
   - Biology 2201
   - Biology 3201
   - Chemistry 3202
   - English 3201
   - Math 3204 or Advanced Math 3205
   - Social Science or Modern Language (2 credits at 3000)

4.3.2 Memorial University of Newfoundland Applicants
Memorial University of Newfoundland applicants may apply for admission to the Bachelor of Nursing (Collaborative) program four year Option, the Fast-Track two year Option, and the LPN Bridging Option.

1. Bachelor of Nursing (Collaborative) four year Option applicants must have a high school diploma, or its equivalent, as certified by the Department of Education of Newfoundland and Labrador. High School Math is preferred and science courses must include:
   - Biology 2201 and 3201 or their equivalents
   - Chemistry 3202 or equivalent

2. Bachelor of Nursing (Collaborative) Fast-Track two year Option applicants must have successfully completed an undergraduate degree from a recognized university and the following courses prior to admission:
   - Statistics 2500 or equivalent, or Education 2900
   - Biochemistry 1430 or equivalent
   - Biology 3053 or equivalent
   or qualify for advanced standing. An applicant who has successfully completed all the non-nursing course requirements of the Bachelor of Nursing (Collaborative) program, and who is in good standing, may qualify for advanced standing. Applicants must demonstrate successful completion of the following 12 courses, 36 credit hours prior to admission:
   - 6 courses, 18 credit hours as follows: 6 credit hours from English, Biochemistry 1430 or equivalent, Biology 3053 or equivalent, Psychology 1000 or equivalent, Statistics 2500 or equivalent or Education 2900;
   - 4 courses, 12 credit hours as follows: 3 credit hours from each of the following: Business, Philosophy 2500-2599 or Religious Studies 2610, Political Science, and Sociology, Anthropology, or Archaeology; and
   - 2 courses, 6 additional elective credit hours selected from any credit courses offered by this University.

4.3.3 LPN Bridging Applicants
Applicants with a Licensed Practical Nurse designation may apply for admission to the Bachelor of Nursing (Collaborative) LPN Bridging Option.

1. To be considered for admission to the Bachelor of Nursing (Collaborative) LPN Bridging Option applicants must:
   - be a graduate (2002 or later) of an approved Practical Nursing Program, Province of Newfoundland and Labrador;
   - be a Licensed Practical Nurse (copy of certification required);
   - meet the admission requirements for the Bachelor of Nursing (Collaborative) Program listed under Admission/Readmission Regulations for the School of Nursing; and
   - have completed the following high school courses: Biology 2201 and 3201 or their equivalents and Chemistry 3202 or equivalent.

2. Admission into the second year of the Bachelor of Nursing (Collaborative) program will be conditional and based on successful completion of the Bridging Semester, which includes the following:
   - Biochemistry 1430 (Fall and Spring Offerings)
   - Psychology 1000
   - English (3 credit hours)
   - A score of 50% on a Mathematics Placement Test or Mathematics 102FN or 3 credit hours in Mathematics.

4.3.4 Registered Nurse Designation Applicants
Applicants with a Registered Nurse designation may apply for admission to the Bachelor of Nursing (Post-RN) Distance Option or the Bachelor of Nursing (Post-RN) Nurse Practitioner Primary Health Care Option.

1. Bachelor of Nursing (Post-RN) Distance Option program applicants are accepted on an ongoing basis and must provide:
   - proof of practising Registered Nurse (RN) license. For the purposes of admission a RN is a Nurse who is currently registered in Newfoundland and Labrador or eligible to register in Newfoundland and Labrador, or is currently registered or eligible for registration in the province/country in which the applicant resides. Applicants must have a current, practising licence in the jurisdiction in which they plan to complete courses with a clinical component; and
   - one letter of reference from a current supervisor of nursing position.

2. Bachelor of Nursing (Post-RN) Nurse Practitioner Primary Health Care Option applicants must provide:
   - proof of practising Registered Nurse (RN) license. For the purposes of admission a RN is a Nurse who is currently registered in Newfoundland and Labrador or eligible to register in Newfoundland and Labrador, or is currently registered or eligible for registration in the province/country in which the applicant resides. Applicants must have a current, practising licence in the jurisdiction in which they plan to complete courses with a clinical component; and
   - a complete application package which includes:
     - an application to the University for those who have not attended Memorial University of Newfoundland in the three preceding
4.3.5 Transfer Applicants

Transfer applicants may apply for admission to any of the School of Nursing programs.

1. Bachelor of Nursing (Collaborative) four year Option applicants must have a high school diploma, or its equivalent, as certified by the Department of Education of Newfoundland and Labrador. High School Math is preferred and science courses must include:
   - Biology 2201 and 3201 or their equivalents
   - Chemistry 3202 or equivalent

2. Bachelor of Nursing (Collaborative) Program Fast-Track Option applicants must have successfully completed an undergraduate degree from a recognized university and the following courses prior to admission:
   - Statistics 2500 or equivalent, or Education 2900
   - Biochemistry 1430 or equivalent
   - Biology 3053 or equivalent
   or qualify for advanced standing. An applicant who has successfully completed all the non-nursing course requirements of the Bachelor of Nursing (Collaborative) program, and who is in good standing, may qualify for advanced standing. Applicants must demonstrate successful completion of the following 12 courses, 36 credit hours prior to admission:
     - 6 courses, 18 credit hours as follows: 6 credit hours from English, Biochemistry 1430 or equivalent; Biology 3053 or equivalent, Psychology 1000 or equivalent, Statistics 2500 or equivalent or Education 2900;
     - 4 courses, 12 credit hours as follows: 3 credit hours from each of the following: Business, Philosophy 2500-2599 or Religious Studies 2610, Political Science, and Sociology, Anthropology, or Archaeology; and
     - 2 courses, 6 additional elective credit hours selected from any credit courses offered by this University.

3. Bachelor of Nursing (Post-RN) program applicants must provide:
   - proof of practising Registered Nurse (RN) license. For the purposes of admission a RN is a Nurse who is currently registered in Newfoundland and Labrador or eligible to register in Newfoundland and Labrador, or is currently registered or eligible for registration in the province/country in which the applicant resides; and
   - one letter of reference from a current supervisor of nursing position.

4. Bachelor of Nursing (Post-RN) Nurse Practitioner Primary Health Care Option applicants must provide:
   - proof of practising Registered Nurse (RN) license. For the purposes of admission a RN is a Nurse who is currently registered in Newfoundland and Labrador or eligible to register in Newfoundland and Labrador, or is currently registered or eligible for registration in the province/country in which the applicant resides. Applicants must have a current, practising licence in the jurisdiction in which they plan to complete courses with a clinical component.
   - a complete application package which includes:
     - an application to the University for those who have not attended Memorial University of Newfoundland in the three preceding semesters;
     - an application to the Bachelor of Nursing (Post-RN) Nurse Practitioner Primary Health Care Option that includes a personal statement and description of relevant work experiences;
     - proof of current practising RN license;
     - two letters of reference, one of which must be from the current nursing supervisor or employer;
     - evidence of two years of recent acute care nursing experience;
     - completed health assessment;
     - completed record of current immunization as outlined on the appropriate School of Nursing form; and
     - a letter from a primary health care physician or a primary health care nurse practitioner and a health care agency guaranteeing the applicant a preceptored clinical placement throughout the program.

4.4 Other Information

1. Applicants seeking clinical placements outside of Canada must satisfy the clinical agency’s immunization requirements submitting documentation of its requirements to that agency at least one month in advance of the start of the semester in which the course will be taken.

2. Applicants seeking clinical placements within Canada must satisfy the School of Nursing immunization requirements outlined on the School of Nursing Immunization Requirements form. This documentation must be submitted to the Office of the Registrar in advance of the start of registration for the semester in which the course will be taken.
5 Program Regulations - General Degrees

5.1 Bachelor of Nursing (Collaborative) Program

1. The four year, 130 credit hour Bachelor of Nursing (Collaborative) program requires 94 NURS credit hours and 36 non-NURS credit hours.

2. The 130 credit hours are recommended to be taken in the academic terms in the sequence as set out in Table 1, 2, or 3 Bachelor of Nursing (Collaborative) Program. These courses will be offered during the same year at all sites, but the semester of course offering may vary with each site.

3. Clinical course hours may occur at any time during the semester. Clinical courses may be offered in whole or in part outside the normal start and end dates of a semester.

4. Selected nursing courses which are designed for the Bachelor of Nursing (Post-RN) program may be used as electives in the Bachelor of Nursing (Collaborative) program with permission of the Committee on Undergraduate Studies and the course instructor.

5.2 Bachelor of Nursing (Collaborative) Fast-Track Option

1. The Bachelor of Nursing (Collaborative) Fast-Track Option is offered at Memorial University of Newfoundland School of Nursing and the Western Regional School of Nursing.

2. The 94 credit hours may be taken in the academic terms as set out in Table 4 Bachelor of Nursing (Collaborative) Fast-Track Option. Nursing 2002 and 2502 run over the first six weeks and Nursing 3012 and 3512 run over the second six weeks. Nursing 2514 and 3514 run consecutively for 6 weeks each.

3. Clinical Courses may be offered in whole or in part outside the normal start and end dates of a semester. In the last semester of the Fast Track Option, the last clinical course will finish outside of the end date of Summer semester and may finish as late as the 3rd week in September. Students will be informed of the pertinent dates of clinical courses two semesters in advance.

5.3 Bachelor of Nursing (Collaborative) LPN Bridging Option

1. The Bachelor of Nursing (Collaborative) LPN Bridging Option is only offered at the Centre for Nursing Studies.
2. The three year and one semester 130 credit hour Bachelor of Nursing (Collaborative) LPN Bridging Option requires 69 NURS credit hours, one Bridging semester and 36 non-NURS credit hours.
3. The 130 credit hours are recommended to be taken in the academic terms in the sequence as set out in Table 1, 2, or 3 Bachelor of Nursing (Collaborative) LPN Bridging Option.
4. Selected nursing courses which are designed for the Bachelor of Nursing (Post-RN) program may be used as electives in the Bachelor of Nursing (Collaborative) program with permission of the Committee on Undergraduate Studies and the course instructor.
5. The Nursing Bridging Course is offered at the Centre for Nursing Studies prior to entering the second year of the Bachelor of Nursing (Collaborative) Program. The remaining courses are those regularly scheduled in the Bachelor of Nursing (Collaborative) Program.

5.4 Bachelor of Nursing (Post-RN) Program

The Bachelor of Nursing (Post-RN) Program is currently under review and is not available for admission at this time.

1. The 108 credit hour Bachelor of Nursing (Post-RN) program requires 42 credit hours in NURS, 21 non-NURS credit hours, and 45 unspecified transfer NURS credit hours awarded on the basis of successful completion of a diploma program in Nursing.

2. The Committee on Undergraduate Studies, School of Nursing, may recommend that a maximum of 6 transfer credits be awarded for certain post basic nursing courses/programs or for current Canadian Nurses Association certification.

3. Students are required to have a current, practising licence in the jurisdiction in which they plan to complete courses with a clinical component.

5.5 Bachelor of Nursing (Post-RN) Nurse Practitioner Primary Health Care Option

1. The 111 credit hour Bachelor of Nursing (Post-RN) Nurse Practitioner Primary Health Care Option requires 57 NURS credit hours, 45 unspecified transfer credits in NURS, and 9 non-NURS credit hours.

2. The 111 credit hours shall be taken in the academic terms in the sequence as set out in Table 7 Bachelor of Nursing (Post-RN) Nurse Practitioner Primary Health Care Option Two Year Plan (Full-Time) or Table 8, Bachelor of Nursing (Post-RN) Nurse Practitioner Primary Health Care Option Four Year Plan (Part-Time).

3. Nurse Practitioner courses may be offered in whole or in part outside the normal start and end dates of a semester.

4. 9 elective credit hours comprised of 3 credit hours in English, Statistics 2500 or equivalent of Education 2900 and 3 credit hours from Philosophy 2500-2599 or Religious Studies 2610 are recommended to be completed prior to required courses in both full-time and part-time options as indicated in Table 7 Bachelor of Nursing (Post-RN) Nurse Practitioner Primary Health Care Option Two Year Plan (Full-Time) and Table 8, Bachelor of Nursing (Post-RN) Nurse Practitioner Primary Health Care Option Four Year Plan (Part-Time).

### 6 Promotion Regulations

These regulations apply to all programs except as noted below.

1. The Memorial University of Newfoundland School of Nursing constitutes the examining body for all School of Nursing examinations. The standing of every student will be assessed at the end of each academic semester by the Committee on Undergraduate Studies, and a grade report will be issued by the University Registrar to the individual student.

2. Students are required to achieve a grade of at least 65% or a grade of PAS as appropriate in each of the required nursing courses.

3. Except in the Bachelor of Nursing Fast-Track Option, students failing to achieve the requirements outlined above are permitted to repeat the given nursing course only once. A second failure in a given nursing course will result in withdrawal from the program. A student in the Fast-Track Option who fails a course is required to withdraw from the Fast-Track Option. In the Bachelor of Nursing (Collaborative) Program Fast-Track Option students may be permitted, with special permission from the Directors, to resume studies within the regular stream of the Bachelor of Nursing (Collaborative) Program and are subject to all its academic standards. Accordingly, invoking this clause carries over to the Bachelor of Nursing (Collaborative) Program as a first failure in the relevant course(s).

4. Failure in excess of two nursing courses during the program will result in withdrawal from the Bachelor of Nursing (Collaborative) four year program, the Bachelor of Nursing (Collaborative) LPN Bridging Option, the Bachelor of Nursing (Post-RN), or the Bachelor of Nursing (Post-RN) Nurse Practitioner Primary Health Care Option.

5. Students who are required to withdraw from the Bachelor of Nursing (Collaborative) four year program, the Bachelor of Nursing (Collaborative) LPN Bridging Option, or the Bachelor of Nursing (Post-RN) program, as outlined above in the two preceding clauses, may appeal for readmission after a lapse of two semesters by writing to the Chair, Committee on Undergraduate Studies. Students who are required to withdraw from the program a second time will not be eligible for future admission/readmission to the program.

6. A student may be required to withdraw from a nursing course with a clinical component or from the program at any time, on the recommendation of the Committee on Undergraduate Studies, if the student is deemed unlikely to profit from continued attendance in the nursing course or program and/or is deemed unsafe in a clinical setting. Students who are required to withdraw from the program for any of these reasons will not be eligible for future admission/readmission to the program or the School of Nursing.

7. Students who fail to complete a nursing course in any program, other than the Bachelor of Nursing (Post-RN) program, for a period of three consecutive semesters will be considered to have withdrawn from the program. Students who have not completed a course in the Bachelor of Nursing (Post-RN) program within the last 6 consecutive semesters will be considered to have withdrawn from the program and must apply for re-admission. Students in the Bachelor of Nursing (Post-RN) Nurse Practitioner Primary Health Care Option who fail to complete a nursing course will be considered to have withdrawn from the program and must apply for re-admission.

8. Students in the Bachelor of Nursing (Collaborative) Program, the Bachelor of Nursing (Collaborative) Program Fast-Track Option or the Bachelor of Nursing (Collaborative) LPN Bridging Option who wish to take a leave of absence from the program may do so only with the written permission of the Dean or delegate. A leave will be granted for a maximum period of three consecutive semesters. Students on leave who plan to resume their studies must notify the Dean in writing one semester prior to registration.

9. Students in the Bachelor of Nursing (Collaborative) Program and the Bachelor of Nursing (Collaborative) Program Fast-Track Option who voluntarily withdraw from the program prior to the conclusion of the first semester of the first year and who wish to return to the program must re-apply in competition as a new applicant.

10. Students in the Bachelor of Nursing (Collaborative) Program, the Bachelor of Nursing (Collaborative) Fast-Track Option, the Bachelor of Nursing (Collaborative) LPN Bridging Option or the Bachelor of Nursing (Post-RN) Nurse Practitioner Primary Health Care Option who voluntarily withdraw from the program, at the conclusion of the first semester of the program, or later, and who wish...
to return to the program, must appeal for readmission. The letter of appeal must be directed to the Chair, Committee on Undergraduate Studies.

11. Students in the Bachelor of Nursing (Collaborative) Program four year and two year Bachelor of Nursing (Collaborative) Program Fast-Track Option who are readmitted to either Option following a period of absence, either as a result of a leave of absence or a withdrawal from the program, upon the recommendation of the Committee on Undergraduate Studies may be required to do remedial work, which can include repeating clinical, laboratory, or classroom courses, or repeating one or more terms of the program. Students will be advised of their remedial program at the time of readmission. All remedial work must be successfully completed before a student will be permitted to proceed in the program.

7 Graduation

Upon meeting the qualifications for any of the programs noted above a student must apply to graduate on the prescribed "Application for Graduation " form. This form may be obtained on-line at the Memorial Self Service at www3.mun.ca/admit/twbkwbis_P_WWWLogin. Additional information is available from the Office of the Registrar at www.mun.ca/regoff/graduation/apply_grad.php.

8 Waiver of School Regulations

Any student whose request for waiver of School regulations has been denied has the right to appeal. For further information refer to UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate) - Appeal of Decisions.

8.1 General Information

1. The School reserves the right in special circumstances to modify, alter, or waive any School regulation in its application to individual students whose merit and equity warrant it in the judgment of the Committee on Undergraduate Studies of the School.

2. All requests must be submitted to the Committee on Undergraduate Studies of the School for consideration. A student requesting a waiver of a School regulation must submit the request in writing to the Chair of the Committee on Undergraduate Studies. Medical and/or other documentation to substantiate the request must be provided.

3. Any waiver granted does not reduce the total number of credit hours required for the degree.

9 Supplementary Examinations

Any student receiving a grade of 60% in a Nursing course is eligible to write a supplementary examination in that course. Only three supplementary examinations in Nursing courses can be written during the program. In addition to meeting UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate), upon successful completion of the supplementary examination, a student must also meet the promotion regulations of the School. For further information refer to Promotion Regulations.

1. Supplementary examinations are permitted only in Nursing courses that have a written final examination.
2. Supplementary examinations will have the same weight as final examinations for the course in determining whether the student achieves a passing grade for the course.
3. Any student writing a supplementary examination can obtain only a maximum grade of 65% in the course.
4. Supplementary examinations will be written no later than the first week of the semester immediately following the one in which the course was failed. Normally they should coincide with the writing of deferred examinations in courses where deferred examinations are granted for the semester in question. Grades for supplementary examinations must be received by the Office of the Registrar within one week following the completion of the examination.
5. A student may write a supplementary examination for any one course only once.
6. If it is mathematically impossible to achieve a passing grade in a course the student will not be granted a supplementary examination.
7. Supplementary exams are not available for the Nursing Bridging Course offered at the Centre for Nursing Studies prior to entering the second year of the Bachelor of Nursing (Collaborative) Program. Students who are unsuccessful in the Bridging Course and who wish to enter the Bachelor of Nursing (Collaborative) Program must apply in competition to enter into the first year of the program.

10 Appeal of Regulations

1. An applicant who has been denied admission has the right to appeal this decision of the Admissions Committee if it is felt by the applicant that the decision was reached on grounds other than those outlined under Admission/Readmission Regulations for the School of Nursing. The appeal should be made in writing within fourteen days of the notification of the decision and should be directed to the Chair, Memorial University of Newfoundland School of Nursing, Committee on Undergraduate Studies. The letter should state clearly and fully the grounds for the appeal.

2. Any student whose request for waiver of School regulations has been denied has the right to appeal. For further information refer to UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate) - Appeal of Decisions.

11 Course Descriptions

In accordance with Senate's Policy Regarding Inactive Courses, course descriptions for courses which have not been offered in the previous three academic years and which are not scheduled to be offered in the current academic year have been removed from the following listing. For information about any of these inactive courses, please contact the Dean of the School.

All courses of the School are designated by NURS.

1002 Anatomy and Physiology I presents a survey of human anatomy and physiology throughout the lifespan. It includes aspects of cytology and histology that form a foundation for the practice of nursing. Special emphasis is given to the skeletal, muscular, nervous and endocrine systems.

CR: Pharmacy 2002 or the former Pharmacy 3201
LH: 2

1003 Developing Therapeutic Relationships focuses on the application of caring theory to interpersonal communications. It emphasizes the development of the role of communicator in individual and group experiences and in professional relationships. Utilizing an experiential model, laboratory experiences focus on self-awareness and group dynamics.

CO: NURS 1004

AR = Attendance requirement; CH = Credit hours are 3 unless otherwise noted; CO = Co-requisite(s); CR = Credit can be retained for only one course from the set(s) consisting of the course being described and the course(s) listed; LG = Lecture hours per week are 3 unless otherwise noted; LH = Laboratory hours per week; OR = Other requirements of the course such as tutorials, practical sessions, or seminars; PR = Prerequisite(s); UL = Usage limitation(s).
1004 Introduction to Nursing introduces the major concepts and theories related to the paradigm of person, health, society, nursing, environment, and nursing education in relation to the philosophy, conceptual framework and objectives of the program. Emphasis is placed on the concept of caring as the essence of nursing practice.

CR: the former NURS 1001

1012 Anatomy and Physiology II presents a survey of anatomy and physiology throughout the lifespan. It includes aspects of cytology, histology and embryology that form a foundation for the practice of nursing. Special emphasis is given to the circulatory, respiratory, urinary, digestive, and reproductive systems, including pregnancy and delivery.

CR: Pharmacy 2003 or the former Pharmacy 3202

1014 Health Assessment focuses on the development of competencies needed to assess the health status of individuals throughout the lifespan using a systematic approach. Content includes the nurse's responsibilities for health history, physical examination, interpretation of findings, and documentation.

CO: NURS 1012
CR: NURS 2040
LH: 2

1015 Health Promotion throughout the Lifespan explores nursing concepts and theories pertaining to health promotion/protective measures throughout the lifespan. Content includes principles of teaching/learning, introduction to community health and primary health care concepts and the determinants of health.

CO: NURS 1004 or the former NURS 1001, NURS 1003 and Psychology 1000; or admission to the Fast-Track Option
CR: the former NURS 1011
OR: 24 clinical or lab hours during the semester
PR: NURS 1004 or the former NURS 1001, NURS 1003 and Psychology 1000; or admission to the Fast-Track Option

1016 Healthy Aging will explore, in-depth, concepts and issues applicable to the well older adult (65+). Selected theories, physical changes, and psychosocial, ethical, and legal issues associated with aging will be presented.

CO: NURS 1012, 1014, and 1015; or admission to the Fast-Track Option
PR: NURS 1002, 1003, and 1004; or admission to the Fast-Track Option

1017 Fundamental Psychomotor Competencies will provide the student an opportunity to acquire beginning psychomotor competencies that are related to the provision of client comfort and safety in a variety of settings. As well, this course provides the opportunity for the student to integrate the conceptual framework of the Bachelor of Nursing (Collaborative) program into the development of psychomotor competencies.

CH: 1
CO: NURS 1003 and 1004
LC: 0
LH: 2
PR: NURS 1003 and 1004

1520 Extended Practice I provides the student with the opportunity to integrate the knowledge and practise the competencies acquired to date. The focus is the promotion, protection and maintenance of health for individuals within the context of the family. This course is normally taught at the end of the Winter semester, usually beginning during the final week of the examination period.

CO: NURS 1012, 1014, 1015 or the former 1011, 1016; and 1017
OR: 96 clinical hours over three weeks; or 96 clinical hours during the semester
PR: NURS 1012, 1014, 1015 or the former 1011, 1016; and 1017

2002 Nursing Concepts for the Care of Women and the Child-bearing Family covers major concepts in women's reproductive health. The two major foci are women and their families through all phases of childbirth and the neonatal period, and nursing care of women experiencing alterations in reproductive health.

CO: NURS 2003, 2004, and 2502
CR: the former NURS 2001
PR: NURS 1520, 2003, and 2004

2003 Pathophysiology presents general concepts of disease processes and their impact on health. The course focuses on major pathophysiologic changes, including associated etiology, pathogenesis and clinical manifestations. Common illnesses are studied to illustrate these disease processes.

CO: NURS 1012
OR: tutorial 1.5 hours per week
PR: NURS 1012, Biochemistry 1430 or admission to the Fast-Track Option

2004 Pharmacology and Nutritional Therapies explores principles and concepts of pharmacological, nutritional and complementary therapies and management of common health problems across the lifespan. Nursing considerations and psychomotor competencies pertinent to these therapies are addressed.

CO: NURS 1012 and NURS 1014
LH: 2
PR: NURS 1012, NURS 1014, NURS 1017, Biochemistry 1430, and a score of 50 on the Mathematics Placement Test or Math 102N or 3 credit hours in Mathematics excluding Statistics 2500.

2014 Community Health Nursing Theory focuses on the knowledge required to practise nursing in the community with a variety of clients including individuals, families, groups and communities. It further examines the principles of primary health care, population health, and their application in community health nursing. It also focuses on the multidimensional role of the nurse.

CO: NURS 2003 and 2004, 2514
CR: NURS 4101
OR: seminar or labs 2 hours per week
PR: NURS 1520, 2003, and 2004

2017 Intermediate Psychomotor Competencies will provide the student an opportunity to acquire intermediate psychomotor competencies that are related to the provision of client comfort and safety in a variety of settings. As well, this course provides the opportunity for the student to integrate the conceptual framework of the Bachelor of Nursing (Collaborative) program into the development of psychomotor competencies.

CH: 0
CO: NURS 2004
LC: 0
LH: 24 hours during the semester
PR: NURS 1520 and 2004

2040 Health Assessment focuses on the development of competencies needed to assess the health status of individuals. A systematic approach will be used for the collection and analysis of data related to the health status of the client. Interpretation of the health assessment findings and of the results of diagnostic tests will be discussed in the context of nurses' responsibilities.

OR: NURS 1014
PR: proof of current practising license as a Registered Nurse

2230 Teaching/Learning is designed to familiarize the student with theories, principles and methods of learning and teaching and to allow the student to apply them in client teaching situations.

PR: proof of current practising license as a Registered Nurse or admission to the Bachelor of Nursing (Post-RN) Primary Health Care Nurse Practitioner Option

2502 Nursing Practice for the Care of Women and the Child-bearing Family provides the student with opportunities to apply knowledge and practice competencies acquired in NURS 2002. Selected experiences are offered in a variety of institutional and community-based settings related to the provision of nursing care for women and their families.

CO: NURS 2002
CR: the former NURS 2501
OR: 80 clinical hours during the semester

2514 Community Health Nursing Practice I provides the student with the opportunity to apply knowledge and practise competencies for beginning community health nursing practice acquired in Community Health Nursing Theory.

CO: NURS 2014 or NURS 4101
OR: 96 clinical hours during the semester
PR: NURS 1520

2520 Extended Practice II provides the student with the opportunity to integrate the knowledge and practise the competencies acquired to date. The focus is on caring for adults in stable health situations and on the application of community health concepts. This course is normally taught at the end of the Winter Semester, usually beginning during the final week of the examination period.

CO: NURS 2002 and 2502 or 2014 and 2514
OR: 96 clinical hours over three weeks
PR: NURS 2002, 2014, 2017, 2502, and 2514; or admission to the Fast-Track Option

2700 Nursing Theories in Practice is designed to introduce the students to the key concepts, conceptual models and selected theories of nursing. This is a required course for the Bachelor of Nursing (Post-RN) program and may be used as an elective in the Bachelor of Nursing (Collaborative) program.

PR: proof of current practising license as a Registered Nurse or admission to the Bachelor of Nursing (Post-RN) Primary Health Care Nurse Practitioner Option

2740 Current Concepts in Human Physiology is a comprehensive review of the physiology of the cell and major body systems. It assumes a basic understanding of physiology and provides the basis for concepts developed in NURS 4701 and NURS 4702.
Practitioner Option

2990 Spiritual Dimension of Nursing Practice will focus on the spiritual dimension of nursing practice. Students will explore their own personal spiritual philosophy and development. Key concepts of the spiritual dimension of nursing will be examined, such as spiritual well being, spiritual needs, spiritual distress and spiritual care. Distinction will be made between religion and expressions of spirituality.

PR: NURS 1004 or the former NURS 1001, and 1014 or be a Registered Nurse

2991 Complementary and Alternative Health Care provides an overview of the philosophy and practice of complementary and alternative health care (CAHC). It introduces students to key terminology and theoretical perspectives foundational to selected CAHC modalities. Using a holistic approach and research principles, they will examine some commonly used CAHC approaches. They will also explore where situations integrative health care incorporates biomedical, complementary and alternative modalities.

3001 Nursing Concepts for Mental Health focuses on individuals, families and small groups experiencing psychiatric/mental health problems across the lifespan. The meaning of mental health and illness to the individual, family and vulnerable populations is explored. Course content includes counselling, psychopathology, interdisciplinary psychiatric care, community mental health concepts and analysis of sociopolitical factors/issues affecting mental health.

CO: NURS 3501 or NURS 4502
CR: the former NURS 2011
PR: NURS 2520; or admission to the Fast-Track Option

3012 Nursing Concepts for Children, Adolescents and Young Adults uses a conceptual approach to focus on the nursing care of individuals and families from infancy to young adulthood. The emphasis is on assisting persons experiencing health related needs to achieve health and well-being.

CO: NURS 3512 or NURS 3513
CR: the former NURS 2011
PR: NURS 2520;

3023 Counselling focuses on the counselling role of the nurse, building on the communication skills needed for a therapeutic relationship. Gerard Egan’s model of helping is integral to the course. In the lab component of the course and in the opportunity to practice counselling skills to enhance their ability to counsel clients in a variety of nursing contexts.

LH: 14 hours during the semester
PR: acceptance into the Bachelor of Nursing (Post-RN) program, NURS 2230 or NURS 2700 or admission to the Bachelor of Technology Program or admission to the Bachelor of Nursing (Post-RN) Primary Health Care Nurse Practitioner Option

3070 Health Assessment Across the Lifespan focuses on the development of competencies and assessment skills necessary for the completion and documentation of a comprehensive health assessment. Common physical alterations and developmental issues that may impact on client status and findings across the lifespan will be incorporated. Students are required to attend St. John’s Campus for laboratory sessions.

CO: NURS 3380
CR: NURS 2540
PR: proof of a current practising license as a Registered Nurse.
UL: applicable only to the Bachelor of Nursing (Post-RN) Primary Health Care Nurse Practitioner Option

3104 Nursing Research builds on previously introduced research concepts. It explores the research process and its inherent ethical and legal implications. The course focuses on the acquisition of concepts used to critically appraise nursing research studies and examines the relevance of these studies for nursing practice.

CO: Statistics 1510 or 2500 or equivalent, or Education 2900
CR: NURS 4002 and the former NURS 4104
PR: Statistics 1510 or 2500 or equivalent, or Education 2900

3113 Nursing Leadership and Management is designed to promote an understanding of the theories and principles of leadership and management in relation to the Co-ordinator of Care nursing role. Emphasis is placed on concepts of organizational structure and function, management of client care, professional development, and application of nursing theories to practice. Current issues and trends are explored.

CO: NURS 3501 or NURS 4502, NURS 3512 or NURS 3513, and NURS 3514
PR: NURS 3501, 3512 or 3513, and 3514

3200 Transcultural Nursing - inactive course.

3380 Health Assessment Clinical Practice I focuses on the clinical application of knowledge and skills obtained in NURS 3070. Students are preceptored by either a nurse practitioner or physician in a primary health care setting to complete comprehensive health histories and physical examinations on clients across the lifespan. Students are required to attend St. John’s Campus for clinical testing.

CO: NURS 3070
CR: NURS 2040
OR: 8 clinical hours per week
PR: proof of a current practising license as a Registered Nurse.
UL: applicable only to the Bachelor of Nursing (Post-RN) Primary Health Care Nurse Practitioner Option

3410 Roles of Nurse Practitioners in Primary Health Care examines the role of the nurse practitioner in the delivery of primary health care. Factors affecting role implementation and its impact on health care delivery will be discussed. The historical development and future trends of nurse practitioner practice in a changing health care system will be examined.

CO: NURS 4002
PR: NURS 2700 and NURS 4002

3430 Concepts in Pharmacology Across the Lifespan focuses on the principles of pharmacology, and nutritional therapies across the lifespan. Pharmacotherapeutic and nutritional management of common health problems within each body system will be discussed. Emphasis will be placed on the application of knowledge required to prescribe and monitor medication and nutritional therapies within the scope of practice for the Primary Health Care Nurse Practitioner.

CR: NURS 4702
PR: NURS 2740 and NURS 4701

3501 Nursing Practice for Mental Health provides the student with opportunities to apply theoretical knowledge and to practise competencies acquired in NURS 3001 and related courses. Selected experiences related to the provision of nursing care for individuals, families, and small groups are offered in a variety of institutional and community based mental health settings.

CO: NURS 3001
OR: 96 clinical hours during the semester

3512 Nursing Practice with Children, Adolescents and Young Adults provides the student with opportunities to apply knowledge and practise competencies acquired in NURS 3012. Selected experiences are offered in a variety of institutional and community based settings related to the provision of nursing care for children, adolescents, young adults and their families.

CO: NURS 3012
CR: the former NURS 2511
OR: 64 clinical hours during the semester
PR: NURS 2520; or admission to the Fast-Track Option

3513 Nursing Practice with Children, Adolescents, and Young Adults provides the student with opportunities to apply knowledge and practise competencies acquired in NURS 2017 and 3012. Selected experiences are offered in a variety of institutional and community based settings related to the provision of nursing care for children, adolescents, young adults and their families.

CH: 2
CO: NURS 3012
CR: the former NURS 2511 and NURS 3512
OR: 64 clinical hours during the semester
PR: NURS 2520

3514 Nursing Practice with Middle and Older Adults provides the student with the opportunity to practise competencies acquired in NURS 3014 and related courses. Selected experiences related to the provision of nursing care for middle and older adults, and their families are offered in a variety of institutional and community based settings.

CO: NURS 3014
CR: the former NURS 3511
OR: 64 clinical hours during the semester
PR: NURS 2017 and NURS 2520

3523 Extended Practice III provides the students with the opportunity to apply leadership and management principles in coordinating care for groups of clients in institutions and community care settings. Students also have the opportunity to further develop clinical competencies acquired in previous courses.

CH: 6
OR: the former NURS 3520 and the former NURS 3521
OR: 40 clinical hours per week for eight weeks
PR: NURS 3001 and 3501 or 4502, NURS 3014 and 3514, NURS 3012 and 3512 or 3513, NURS 3113 and clinical placement approval from

AR = Attendance requirement; CH = Credit hours are 3 unless otherwise noted; CO = Co-requisite(s); CR = Credit can be retained for only one course from the set(s) consisting of the course being described and the course(s) listed; LC = Lecture hours per week are 3 unless otherwise noted; LH = Laboratory hours per week; OR = Other requirements of the course such as tutorials, practical sessions, or seminars; PR = Prerequisite(s); UL = Usage limitation(s).
4002 Introduction to Nursing and Health Research introduces students to the key terminology, elements, and processes of research. The focus will be on understanding the components of the research process, interpreting and critically analysing nursing and health-related research studies, and understanding the importance of utilizing research for evidence-based practice. Students will have the opportunity to explore methodologies in both quantitative and qualitative research.

PR: Statistics 1510 or 2500, or equivalent, or Education 2900, and acceptance into the Bachelor of Nursing (Post-RN) program or admission to the Bachelor of Technology Program

4010 Community Health Nursing I introduces the student to the field of community health nursing. It focuses on the nursing care of individuals, families, and the community. Core concepts include theoretic approaches to families, epidemiology, health promotion and the community as client.

CR: the former NURS 4311 or 4312

PR: NURS 2040, 2230, 2700, 3023 or the former 3022, 4002, and proof of current practising license as a Registered Nurse or admission to the Bachelor of Nursing (Post-RN) Primary Health Care Nurse Practitioner Option

4101 Community Health Nursing focuses on the knowledge required to practise nursing at the aggregate and community levels. It further examines the principles of primary health care, their application in community health and the multidimensional role of the nurse. Core concepts include: community development, epidemiology, program development, and the theoretical bases of community health nursing.

CO: NURS 2514 or admission to the Fast-Track Option

OR: tutorial 2 hours per week

4103 Issues in Nursing and Health Care focuses on the development of a personal framework for nursing practice, nursing organizations at the international level and nursing’s role and development within health care systems. Current trends and issues in health policy and health care are examined.

PR: NURS 3113 or admission to the Fast-Tack Option

4310 Community Health Nursing II allows the student to apply the knowledge and practise the competencies acquired in NURS 4010. Clinical experiences will focus on the nursing of selected families and population groups within the community, using a primary health care framework.

OR: 8 clinical hours per week

PR: NURS 4010 and proof of current practising license as a Registered Nurse or admission to the Bachelor of Nursing (Post-RN) Primary Health Care Nurse Practitioner Option

4370 Health Assessment Clinical Practice II provides clinical opportunities for students to complete focussed histories and physical examinations on clients across the lifespan. The integration and consolidation of knowledge and skills obtained in NURS 3070 and NURS 3380 is required. Students are preceptored in a primary health care setting by either a nurse practitioner or physician. Students are required to attend St. John’s Campus for clinical testing.

CR: NURS 2040

OR: 8 clinical hours per week

PR: proof of a current practising license, NURS 3070, and NURS 3380

UL: applicable only to the Bachelor of Nursing (Post-RN) Primary Health Care Nurse Practitioner Option

4501 Community Health Nursing Practice II provides the student with opportunities to apply knowledge acquired in Community Health Nursing Theory and other related courses. It also further develops competencies in community health nursing practice. In the clinical experiences, students work with selected aggregates (including individuals and families) in the community.

CO: NURS 4103

CR: NURS 4502

OR: 96 hours during the semester

PR: NURS 2014, NURS 2514, and NURS 3523

4502 Nursing Care in Community and Mental Health Settings provides opportunities for practice in acute care psychiatric/mental health and community settings with individuals, families, and groups/aggregates. The application of community health and mental health knowledge and competencies, with a particular focus on the concepts of vulnerability/resilience, will be emphasized.

CH: 6

CR: NURS 3001

CR: NURS 3501 and NURS 4501

OR: 168 hours during the semester

PR: admission to the Fast-track Option and NURS 2014 or 4101, NURS 2514, NURS 3014, NURS 3514

4512 Community Health Practice provides students with the opportunity to integrate and consolidate knowledge and competencies acquired throughout the program and apply them to community health nursing practice. Using a primary health care framework, the student participates in strategies which facilitate the mobilization of communities toward health. Online discussions will be included.

OR: 40 clinical hours per week for four weeks

PR: NURS 2014, 2514, 4501 and 4103 or 4101 and admission to the Fast-Track Option

4515 Nursing Concepts & Practice for Complex Care provides students the opportunity to work with individuals and their families who are experiencing multiple health challenges. Students are expected to synthesize concepts and theories of nursing, science and humanities, and participate in interprofessional collaborative practice in a variety of settings to facilitate the achievement of health and well-being for clients and their families.

OR: seminars 1 hour per week

OR: 144 clinical hours during the semester

PR: NURS 3523 or admission to the Fast-Track Option

4516 Consolidated Practicum provides students with the opportunity to apply knowledge from nursing and related disciplines in this selected clinical setting. The course also enables students to further develop their professional roles. Online discussions will be included.

CR: the former NURS 4514 or the former NURS 3522, and the former NURS 4513

OR: 40 clinical hours per week for ten weeks

PR: NURS 4103, NURS 4501, or 4502 and NURS 4515

4701 Current Concepts in Pathophysiology reviews the most recent theories on pathophysiology, current trends in diagnosis and treatment and their nursing implications. This course assumes a basic understanding of physiology.

PR: acceptance into the Bachelor of Nursing (Post-RN) program and NURS 2740, or admission to the Bachelor of Technology Program and NURS 2740, or admission to the Bachelor of Nursing (Post-RN) Primary Health Care Nurse Practitioner Option

4702 Current Concepts in Pharmacology and Nutrition explores current principles of nutrition and pharmacology in a variety of disease states. The course will be built upon previous nutrition and pharmacology knowledge. This course assumes a basic understanding of physiology.

PR: acceptance into the Bachelor of Nursing (Post-RN) program and NURS 2740.

4754 Clinical Dimensions of Professional Nursing Practice allows students to explore in depth, concepts and practices that are relevant to all populations across a variety of practice settings. Emphasis will be placed on enhancing knowledge, attitudes and skills for nursing assessment, interventions and measurement of nursing-sensitive outcomes. Students will be required to apply the knowledge gained to client situations in clinical practice.

CR: the former NURS 4714, 4720 or 4723, 4734, and 4744

OR: 72 clinical hours during the semester

PR: NURS 2040, 2230, 2700, 3023 or the former 3022, 4002, 4701, 4702 and proof of current, practising license

5210 Health Care Systems focuses on the philosophical bases and practical considerations in the organization and administration of Health Care Delivery Systems. The planning, management and evaluation of the Canadian health care system will be compared with those of other countries. Future trends in the delivery of health care to Canadians will be discussed.

PR: admission to the Bachelor of Nursing (Post-RN) program and 3 credit hours in English and NURS 2230; or admission to the Bachelor of Technology Program and 3 credit hours in English.

5220 Professional Issues reviews the historical development of the nursing profession and facilitates discussion of factors influencing its evolution. Content will focus on the current status of nursing, ethical issues and the profession's impact on health care delivery. Selected categories of nursing theory, their impact on practice and education will be analyzed in relation to major issues and future trends in nursing.

PR: Admission to the Bachelor of Nursing (Post-RN) program and 3 credit hours in English and NURS 2230.

5327 Interdisciplinary Course on Family Violence - inactive course.

5360 Advanced Clinical Decision Making – Clinical Practice focuses on the application of diagnostic reasoning and clinical decision-making skills learned in N5600. Opportunities to acquire advanced skills to assist in the diagnosis and management of common health problems will be provided. Preceptored clinical experiences will be provided in primary health care practice settings. Students are required to attend St. John’s Campus for demonstrations and clinical testing.

CO: NURS 5600

PR: 16 clinical hours per week

PR: proof of a current practising license as a Registered Nurse, NURS 4701, NURS 4310, and NURS 4737

UL: applicable only to the Bachelor of Nursing (Post-RN) Primary Health Care Nurse Practitioner Option
5370 Integrated Clinical Practicum provides opportunities for learners, under the mentorship of nurse practitioners and physicians, to gain experience in managing the health and illness needs of clients across the life span. Clinical learning experiences are selected to develop learner competence and confidence for the transition to the role of a Primary Health Care Nurse Practitioner. Students are required to attend St. John’s Campus for clinical testing.

**OR:** 5 days of clinical per week

**PR:** proof of a current practising license as a Registered Nurse, NURS 5600 and NURS 5360

**UL:** applicable only to the Bachelor of Nursing (Post-RN) Primary Health Care Nurse Practitioner Option

5600 Advanced Clinical Decision Making focuses on the development of diagnostic reasoning and clinical decision making skills within the scope of practice of a primary care nurse practitioner. A systematic approach to patient assessment and management of health problems will be discussed. This course integrates knowledge acquired in previous courses. Students are required to attend St. John’s campus for some onsite lectures.

**CO:** 5360

**PR:** proof of a current, practising license as a Registered Nurse, NURS 4310, 4370, and 4701

**UL:** applicable only to the Bachelor of Nursing (Post-RN) Primary Health Care Nurse Practitioner Option

5700 Nursing Management is designed to promote an understanding of theories and principles of management of nursing practice. Process, methods and issues are considered with emphasis on practical nursing examples.

**PR:** admission to the Bachelor of Nursing (Post-RN) program or admission to Bachelor of Nursing (Post-RN) Primary Health Care Nurse Practitioner Option and 3 credit hours in English and NURS 2230

**UL:** applicable only to the Bachelor of Nursing (Post-RN) program

AR = Attendance requirement; CH = Credit hours are 3 unless otherwise noted; CO = Co-requisite(s); CR = Credit can be retained for only one course from the set(s) consisting of the course being described and the course(s) listed; LC = Lecture hours per week are 3 unless otherwise noted; LH = Laboratory hours per week; OR = Other requirements of the course such as tutorials, practical sessions, or seminars; PR = Prerequisite(s); UL = Usage limitation(s).

Spurrell, W., B.Sc.(Pharm.) Memorial

Laboratory Instructor
Ryan, P., B.Sc., M.Sc.(Med.) Memorial

Pharmacy Skills Laboratory Co-ordinator
Parsons, J., B.Sc.(Pharm.) Memorial

1 The Memorial University of Newfoundland Code

The attention of all members of the University Community is drawn to the section of the University Calendar titled The Memorial University of Newfoundland Code, which articulates the University’s commitment to maintaining the highest standards of academic integrity.

2 School Description

The School of Pharmacy offers an undergraduate degree in pharmacy and graduate degrees in pharmaceutical sciences. The School is committed to providing an undergraduate program of quality and excellence that will prepare individuals who will contribute significantly in all settings of pharmacy practice. The experiential learning component of the program ensures students have the opportunity to integrate academic learning with professional practice and to develop the necessary knowledge, skills and attitudes required of practising pharmacists. The School encourages a close working relationship among students, faculty, and staff, and prides itself on its strong association with and support of the pharmacy community at both the provincial and national level.

Additional information regarding the School of Pharmacy is available at www.mun.ca/pharmacy.

Students must meet all regulations of the School in addition to those stated in the general regulations. For information concerning fees and charges, admission/readmission to the University, and general academic regulations (Undergraduate), refer to UNIVERSITY REGULATIONS.

2.1 Vision Statement

Working together towards a healthy tomorrow; Become....the future of pharmacy.

2.2 Mission Statement

As a School of Pharmacy with a strong sense of community, we are dedicated to:

• expanding the School of Pharmacy and developing the School as a Centre of Excellence for Comprehensive Pharmacy Studies;
• preparing pharmacy professionals committed to collaborative patient-centered care;
• fostering excellence and innovation in research and graduate studies;
• advancing the scope of pharmacy practice; and
• building upon a learning environment in which every student is valued.

2.3 Accreditation Status

The School of Pharmacy is accredited by the Canadian Council for Accreditation of Pharmacy Programs (CCAPP) to June 2016.
3 Description of Program

The School of Pharmacy offers an undergraduate program leading to the degree of Bachelor of Science (Pharmacy). This degree is designed to prepare graduates for careers primarily in community and hospital settings but also in the pharmaceutical industry, pharmacy organizations, health sciences research, government, and educational environments. After successful completion of national examinations, a graduate of the program is eligible to apply to be licensed as a pharmacist in Newfoundland and Labrador and other provinces in Canada.

The program of study leading to the Bachelor of Science (Pharmacy) degree has two phases and requires at least five years to complete. Prior to entry to the program students will acquire a background in the mathematical and physical sciences. Once in the program students will take courses in the basic health sciences, pharmacy sub-specialties and social/administrative sciences. At the end of each year students will have an opportunity to apply the academic knowledge acquired and to develop and practice patient care skills by participating in experiential learning within community and hospital settings. During the program students will develop an understanding of the professional and societal responsibilities of a pharmacist, and will recognize the need for lifelong learning.

All courses in the School of Pharmacy are designated by the abbreviation PHAR.

3.1 Structured Practice Experience

Students are required to successfully complete all experiential components of the program, including the Structured Practice Experience (SPE). During SPE’s students are placed in a variety of pharmacy practice settings and are brought into direct contact with patients, pharmacists and other health professionals. Students become involved in the practice of pharmaceutical care and are expected to assume increasing responsibility as their education advances. Such practice experiences ensure students are exposed to situations which cannot be provided in the classroom.

1. The Joint Committee on Structured Practice Experience, consisting of representatives from both the School of Pharmacy and the Newfoundland and Labrador Pharmacy Board, is responsible for providing the overall direction for the program and recommending policies and procedures for its operation.

2. Students will be placed at sites by the School. The Structured Practice Experience Co-ordinator liaises with students to determine placements.

3. While every effort will be made to accommodate a student’s request to complete SPEs in a specific location, a student may be assigned to any participating site within the province of Newfoundland and Labrador.

4. Students are responsible for all travel and accommodation costs associated with the SPE.

5. Students who conduct themselves in such a manner as to cause their termination from the SPE site, including breaches in confidentiality, violation of policies and professional misconduct will be assigned a grade of FAL (fail) for that SPE.

6. Students are required to provide evidence of a valid certificate, normally, in St. John Ambulance or Canadian Red Cross Standard First Aid Level C that is valid for the duration of the SPE. Equivalent certificates will be considered and assessed on an individual basis for acceptability.

7. Students are required to complete three SPEs, each of four weeks duration, and one SPE of twelve weeks duration. The first three SPEs are completed at the end of the Winter semester in the first, second, and third years of the program. The final SPE is completed in the Winter semester of the final year of the program.

8. The number of hours per week of the SPE program will be as required by CCAPP standards.

9. Students will be evaluated on their performance during the SPE and on written assignments including workbooks, pharmaceutical care case work-ups and drug information requests. Students may have workbooks audited or they may be formally examined on material learned during the SPE period. The overall evaluation of SPEs will result in the assignment of one of the following grades: PWD (pass with distinction), PAS (pass), or FAL (fail).

3.2 Registration as a Pharmacy Student

A student must be registered as a “Pharmacy Student” with the Newfoundland and Labrador Pharmacy Board. A student must be registered by September 30th of each academic year. As well, a student must be registered as a “Pharmacy Student” with the respective provincial or territorial licensing body prior to the commencement of Structured Practice Experiences. A student who fails to meet the requirements for licensing may be required to withdraw from the program.

4 Admission Regulations for the School of Pharmacy

In addition to meeting UNIVERSITY REGULATIONS students applying for admission for the program must meet the admission regulations of the School.

4.1 General Information

1. Admissions will be to the first year of pharmacy studies.

2. Entry to the School is competitive for a limited number of placements. Priority is given to applicants who are bona fide residents of Newfoundland and Labrador. The final decision on admission rests with the Admissions Committee of the School.

3. The Admissions Committee considers each applicant’s academic background and information on the applicant’s personal characteristics and achievements as given by the applicant. Personal interviews, which may include both a written and oral component, may be required. Reports from referees may also be considered.

4. The School of Pharmacy does not require criminal record checks or other screening procedures as a condition of admission to its program. However, students should be aware that such record checks or other screening procedures may be required by agencies used by the University for clinical or structured practice experiences related to academic course assignments necessary for graduation. Such agencies may refuse to accept students on the basis of information contained in the record check or other screening procedure thus preventing the student from completing a practice experience or other clinical requirement. As a result, such students may not be eligible for promotion or graduation.

It is the students’ responsibility to have such procedures completed as required and at their own expense.

The screening procedures of any given agency may change from time to time and are beyond the control of the University.

4.2 Application Forms and Deadlines

1. Application forms are available in person from the School and the Office of the Registrar or through the School’s website at
www.mun.ca/pharmacy. Application forms may also be obtained by writing the School of Pharmacy, Memorial University of Newfoundland, St. John's, NL A1B 3V6 or the Office of the Registrar, Admissions Office, Memorial University of Newfoundland, St. John’s, NL A1C 5S7.

2. All application forms and fees for admission to the program for the Bachelor of Science (Pharmacy) must be submitted to the Office of the Registrar of the University on or before the deadline of March 1 in any year. The program commences in the Fall semester.

3. Applications will be reviewed after the closing date by the Admissions Committee of the School. This Committee has the delegated authority of the School’s Academic Council to admit or decline to admit applicants, following guidelines and procedures acceptable to that Council.

4. Each applicant is responsible for ensuring that all the required information for application is supplied to the Admissions Committee, and for providing any further information required by the Committee. An application will not be considered to be complete until all documentation has been received and appropriate fees paid.

4.3 Admission Requirements to the School

Applicants who are not currently students at Memorial University of Newfoundland must apply for admission to the University under the Categories of Applicants, Admission Criteria and Other Information outlined under UNIVERSITY REGULATIONS - Admission/Readmission to the University (Undergraduate). In addition to meeting these regulations, applicants to the School must meet requirements as indicated below.

1. To be eligible for consideration an applicant shall have completed a minimum of 30 credit hours which have been taken or accepted for credit at a recognized university or university college.

2. An applicant is normally required to have completed each of the following courses or their equivalents. In the case of transfer students, the course equivalencies relate to courses taught at Memorial University of Newfoundland, St. John’s campus.
   - Biology 1001 and 1002
   - Chemistry 1050 and 1051 or equivalent
   - Six credit hours at the 1000-level in English
   - Mathematics 1000 and 1001
   - Physics 1020 and 1021 or Physics 1050 and 1051

3. For students attending Grenfell Campus, the following course offerings are acceptable for admission to the School:
   - Biology 1001 and 1002
   - Chemistry 1200 and 1001
   - Six credit hours at the 1000-level in English
   - Mathematics 1000 and 1001
   - Physics 1020 and 1021, or Physics 1050 and 1051

4. Normally an application will not be considered from an applicant who cannot produce evidence that the above requirements have been met or will have been met by end of the Winter semester of the year in which admission is being sought.

5. An unsuccessful applicant who wishes to reapply for admission is required to submit the application forms relevant to the year of reapplication and will be required to enter into the competition for that year.

4.4 Acceptance Procedures

1. Notification of the decision of the Admissions Committee of the School will be made to applicants by the Dean of the School by letter. No other form of notification will be considered official.

2. The letter of acceptance will give the successful applicant 14 days from the date of the letter of notification in which to confirm acceptance of the placement offer. The signed intention to accept the offer must be accompanied by a deposit of $100, which will be credited toward tuition fees. The deposit will be forfeited if the applicant subsequently declines the offer or fails to register. If no reply is received within 14 days, the offer by the School will be withdrawn and the applicant will be informed of this by letter.
5 Program Regulations - General Degree

5.1 Bachelor of Science (Pharmacy)

1. The 176 credit hour Bachelor of Science (Pharmacy) degree requires 30 credit hours before admission to the program and 146 credit hours after admission to the program. The program includes four structured practice experiences, three of which are non-credit, with the other having 18 credit hours.

- The program courses shall normally be taken in the academic terms in the sequence and course load as set out in Table 1 Bachelor of Science (Pharmacy). Students wishing to change the sequence and/or reduce the course load required in the academic terms must obtain permission from the School’s Committee on Undergraduate Studies.
- Elective courses may be taken from any academic unit.

6 Promotion Regulations

6.1 General Information

- The Committee on Undergraduate Studies will determine each student’s promotion status at the end of each academic year.
- In addition to meeting the promotion regulations for the School students must meet the general academic regulations (undergraduate). For further information refer to UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate).
- Success in the program depends on meeting the requirements of all terms.

6.2 Promotion Status

A student’s promotion status at the end of each academic year will be in one of the following two categories:

6.2.1 Clear Promotion

Clear Promotion means a student can proceed to the next academic year without restrictions.

- Students will receive a Clear Promotion from an academic year by obtaining an average of 65% and having obtained at least a pass in each course. A weighted average based on credit hours in the Bachelor of Science (Pharmacy) program courses will be calculated for determining eligibility for promotion. Neither promotion nor graduation will be permitted if a student has a numeric grade below 50% in any course in the program.
- Students completing PHAR 2102 must obtain a numeric grade of at least 70%.
- Students completing PHAR 201W, 302W, 403W, or 500X must obtain a grade of PAS or PWD in each course.
- Students must attain a passing grade in each elective, but these courses will not be included in calculating the student’s average grade for the purposes of promotion, graduation, or academic awards.

6.2.2 Promotion Denied

Promotion Denied indicates Clear Promotion is not achieved at the end of each academic year.

- A student with Promotion Denied status will normally be required to withdraw from the School.
  - A student who does not obtain a clear promotion may be permitted to repeat all or part of the academic year. If a student is required to repeat a year on the grounds of unsatisfactory performance, his or her performance in the repeated year must meet the conditions for Clear Promotion. If this standard is not met, the Committee on Undergraduate Studies may require the student to withdraw from the program.
  - Normally, the option to repeat a year on the grounds of academic difficulties can be offered only once during the student’s Bachelor of Science (Pharmacy) program. This restriction may be waived if it has been demonstrated that the student’s academic performance has been adversely affected by factors duly authenticated and acceptable to the Committee on Undergraduate Studies.
- A student with Promotion Denied status at the end of the final academic term will not be recommended for graduation until the student’s status is changed to Clear Promotion.

6.3 Other Information

- Students may be required to withdraw from their program at any time, if, in the opinion of the School, they are unlikely to benefit from continued attendance.
- The Committee on Undergraduate Studies may require a student who is deemed unlikely to benefit from continued attendance in his/her course of study to withdraw conditionally. The Chair of the committee will advise the Dean of the School of the circumstances precipitating this action, the duration of the withdrawal, and any conditions the student must fulfill during the withdrawal. The Dean may then recommend to the Registrar that the student is on conditional withdrawal. Upon completing the conditions, the student may be permitted re-entry to the program. If the conditions are not met, the student may be required to withdraw from the program.
- The School reserves the right to require a student to withdraw from the program at any time when acceptable cause is demonstrated. In such cases, the Dean, on behalf of the School, shall recommend such withdrawal to the Registrar who will then take appropriate action. Any such action is subject to the right of appeal by the student. An appeal should be made in writing clearly stating the basis for the appeal and should be directed in the first instance to the Registrar of the University. The Registrar, in consultation with the Dean, will determine whether or not the grounds stated are sufficient to warrant a formal hearing of the appeal.

6.4 Leave of Absence

- Upon completion of an academic year, a student in good standing may elect to withdraw temporarily from studies. Voluntary withdrawal at other times and for other reasons may be permitted in accordance with UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate) - Registration. In all cases, the intent to withdraw voluntarily should be discussed with the Dean. The Dean may then recommend to the Registrar that a student be permitted to withdraw for a stated period of time. At the end of this period, the student, in consultation with the Committee on Undergraduate Studies, should ensure that sufficient revision and preparatory work is undertaken to allow studies to be resumed readily. In the absence of good cause, any such student who does not resume studies on the specified date may be deemed to have left the program.

7 Supplementary and Deferred Examination Regulations

- Supplementary examinations may be permitted in some courses offered by the School of Pharmacy. Students seeking to write a supplementary midterm or final examination shall apply in writing by completing the “Application for Supplementary Examination” form which is available from the School’s website at www.mun.ca/pharmacy/undergrad/Policies_and_Procedures.php.
- This form must be submitted within seven days following release of midterm marks in the case of supplementary midterm examinations or within seven days following release of the final grades in the case of supplementary final examinations. The completed form should be submitted to the Dean's office for consideration.
- The transcript will indicate that the final grade was earned as a result of a supplementary examination. Course coordinators shall advise students in the course outline that such a notation will be made on the transcript.
- Students shall be permitted to write a maximum number of one supplementary examination (excluding Pharmacy Skills & Structured
Practice Experience (SPE courses) during each academic year of the pharmacy program. For any one registration in a course, a student shall be permitted to write a final supplementary examination only once.

- For further details please refer to the School's Supplementary Examination Policy which is available at www.mun.ca/pharmacy/undergrad/Policies_and_Procedures.php or contact the Associate Dean of Undergraduate Studies.
- Memorial University of Newfoundland has official regulations regarding deferred final examinations, available at UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate) - Exemptions From Final Examinations and Procedures for Applying to Write Deferred Examinations. Deferred midterm examinations may be permitted in some courses offered by the School of Pharmacy. For details, please refer to the School's Deferred Examination Policy which is available at www.mun.ca/pharmacy/undergrad/Policies_and_Procedures.php or contact the Associate Dean of Undergraduate Studies.

8 Graduation

Upon meeting the qualifications for the program a student must apply to graduate on the prescribed “Application for Graduation” form. This form may be obtained on-line at the Memorial Self Service at www3.mun.ca/admit/tbwkwibs.P_WWWLogin. Additional information is available from the Office of the Registrar at www.mun.ca/regoff/graduation/apply_grad.php.

9 Waiver of School Regulations

A student has the right to request waiver of School regulations. A student wishing waiver of University academic regulations should refer to UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate) - Waiver of Regulations.

9.1 General Information

- The School reserves the right in special circumstances to modify, alter, or waive any School regulation in its application to individual students where merit and equity so warrant in the judgment of the Committee on Undergraduate Studies of the School.
- All requests must be submitted to the Committee on Undergraduate Studies of the School for consideration. A student requesting a waiver of School regulation must submit the request in writing to the Chair of the Committee on Undergraduate Studies. Medical and/or other documentation to substantiate the request must be provided.
- Any waiver granted does not reduce the total number of credit hours required for the degree.

10 Appeal of Regulations

Any student whose request for waiver of School regulations has been denied has the right to appeal. For further information refer to UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate) - Appeal of Decisions.

- An applicant who has been denied admission has the right to appeal this decision of the Admissions Committee if it is felt by the applicant that the decision was reached on grounds other than those outlined in Admission Regulations for the School of Pharmacy. The appeal should be made in writing within fourteen days of the notification of the decision and should be directed to the Dean of the School. The letter should state clearly and fully the grounds for the appeal. If the Dean of the School, in consultation with the Registrar, judges the grounds to be sufficient, the formal appeals mechanism will be initiated.
- A student has the right to make a formal appeal against a decision of the Committee on Undergraduate Studies. However, this appeal cannot be made on the basis of grades awarded in individual courses, as the student will normally have had the opportunity of contesting grades immediately after notification. A formal appeal by a student against the decision of the Committee must be made on grounds other than the grades awarded, e.g., default of procedure. This appeal should be made in writing, clearly stating the basis for the appeal and should be directed in the first instance to the Registrar of the University. The Registrar, in consultation with the Dean, will determine whether or not the grounds stated are sufficient to warrant a formal hearing of the appeal.

11 Course Descriptions

In accordance with Senate’s Policy Regarding Inactive Courses, the course descriptions for courses which have not been offered in the previous three academic years and which are not scheduled to be offered in the current academic year have been removed from the following listing. For information about any of these inactive courses, please contact the Dean of the School.

All courses of the School are designated by PHAR and are restricted to students in the School of Pharmacy.

2002 Anatomy and Physiology I presents a survey of human anatomy and physiology throughout the lifespan. It includes aspects of cytology and histology and is a foundation for the practice of pharmacy. Special emphasis is given to the skeletal, muscular, nervous and endocrine systems. The course will include both the vocabulary and concepts of anatomy and physiology with the overall goal being the understanding of the interrelationships and integration of all systems from the cell to whole organism.

CR: Nursing 1002
LH: 2; attendance is required

2003 Anatomy and Physiology II presents a survey of human anatomy and physiology throughout the lifespan. It includes aspects of cytology and histology and is a foundation for the practice of pharmacy. Special emphasis is given to the endocrine, circulatory, respiratory, urinary, digestive and reproductive systems. The course will include both the vocabulary and concepts of anatomy and physiology with the overall goal being the understanding of the interrelationships and integration of all systems from the cell to whole organism.

CR: Nursing 1012

2004 Introduction to Biochemistry is an introduction to the major organic substances of living organisms, proteins, carbohydrates and lipids: their structure, analysis and biochemical function. Enzymes, Biochemistry of membranes: plasma membrane and specialized intracellular membranes, Biochemistry of selected differentiated cells.

CR: Biochemistry 2101
OR: tutorials as required
PR: Chemistry 2400 and 2401 or Chemistry 2440

201W Structured Practice Experience I is a structured practice experience in community pharmacy after completion of the first year which will provide an opportunity for students to apply their technical skills and introduce themselves to patient care activities. The structured practice experience is normally comprised of four weeks during May/June.

AR: attendance is required
CH: 0
LC: 0
PR: successful completion of all courses in Academic Terms 1 & 2 of the program

2101 Pharmacy Practice I provides an introduction to the legal and professional framework of the practice of pharmacy. Pharmacy regulations in the dispensing of medications and provincial legislation that governs the practice of pharmacy will be the focus. Students will be introduced to core competencies of the profession including professionalism, interprofessionalism, pharmaceutical calculations, drug information and effective communication strategies for the provision of pharmacist care. Application of course content will occur in the concurrent course PHAR 2650, CO: PHAR 2650

PR = Prerequisite(s);
UL = Usage limitation(s).

AR = Attendance requirement; CH = Credit hours are 3 unless otherwise noted; CO = Co-requisite(s); CR = Credit can be retained for only one course from the set(s) consisting of the course being described and the course(s) listed; LC = Lecture hours per week are 3 unless otherwise noted; LH = Laboratory hours per week; OR = Other requirements of the course such as tutorials, practical sessions, or seminars; PR = Prerequisite(s);
2102 Pharmacy Practice II continues the introduction to the legal and professional framework of the practice of pharmacy. The course will focus on federal legislation that governs the practice of pharmacy, drug information, patient education and methods to deal with challenging patient behaviours. Students will be introduced to pharmaceutical care and begin to develop a pharmacist care plan. Students will participate in interprofessional education (IPE) modules with students from other health related programs when such modules are available. The passing grade in this course is 70%, failing which the student may be required to withdraw from the program.

CH: 2
CO: PHAR 2651
LC: 2
OR: tutorials 2 hours per week; attendance is required

2201 Pharmaceutics I provides an insight into a number of physicochemical basics and explains them within a pharmaceutical context. The course provides the basic foundation necessary for the study of pharmaceutical dosage forms, pharmokinetics and bio-pharmaceutics.

LH: 3; attendance is required
PR: Mathematics 1000 and 1001; and Chemistry 1050 and 1051, or Chemistry 1200 and 1001, or equivalent

2202 Pharmaceutics II is designed to provide the student with an understanding of pharmaceutical dosage forms and their applications. It applies the principles taught in Pharmaceutics I to understand the design and components of the different pharmaceutical preparations.

LH: 3; attendance is required
PR: PHAR 2201

2203 Pharmaceutical Analysis is designed to introduce some important techniques and methods of analysis in pharmaceutical sciences. The laboratory exercises consist of both non-instrumental and instrumental analytical techniques that are widely employed in the analysis of pharmaceuticals.

CH: 2
LC: 2
LH: 3 hours every other week; attendance is required
PR: Chemistry 1550 and 1051 or Chemistry 1200 and 1001 or equivalent

2650 Pharmacy Skills provides an introduction to the skills necessary for pharmacy practice in order to meet the educational outcomes for the first year of the pharmacy program. This course is the first in a series of Pharmacy Skills courses, all of which require students to acquire and apply the knowledge, attitudes and skills necessary for the effective practice of the profession. Students will begin to develop abilities in communication, professionalism, critical thinking, problem-solving, teamwork and self-directed learning. Students will apply basic knowledge and skills in drug information, patient education and methods to deal with challenging patient situations. Students will develop public communication skills through the completion of a professional communication program. Activities in this course will complement material covered in the concurrent course PHAR 2101.

CO: all Academic Term 1 Pharmacy courses
CR: the former PHAR 2150
LC: 0
OR: practical sessions 3 hours per week; tutorials 1 hour per week; attendance is required
UL: not applicable to the Bachelor of Science (Pharmacy) program for students admitted prior to Fall 2011

2651 Pharmacy Skills provides an introduction to the skills necessary for pharmacy practice in order to meet the educational outcomes for the first year of the pharmacy program. Students will continue to develop abilities in communication, professionalism, critical thinking, problem-solving, teamwork and self-directed learning. Pharmacy practice in the community pharmacy setting will be a focus. Students will develop dispensing, drug information and pharmaceutical calculation skills relevant to community pharmacy practice. Students will begin developing their patient-interaction and patient education skills. Activities in this course will complement material covered in the concurrent PHAR 2102. Students will participate in interprofessional education (IPE) modules with students from other health related programs when such modules are available.

CO: all Academic Term 2 Pharmacy courses
CR: the former PHAR 2151
LC: 0
OR: practical sessions 3 hours per week; tutorials 1 hour per week; attendance is required
PR: PHAR 2101 and 2650
UL: not applicable to the Bachelor of Science (Pharmacy) program for students admitted prior to Fall 2011

3003 Pathophysiology examines the nature of disease, causes and effects, and alteration in structure and function of cells, inflammation, neoplasia, genetic and chromosomal diseases, healing and repair, stress and disease.

PR: PHAR 2003 or equivalent

3006 Immunology is an introduction to the molecular and cellular basis of immunity and hypersensitivity. Manipulation of the immune system in the management and treatment of disease is discussed.

AR = Attendance requirement; CH = Credit hours are 3 unless otherwise noted; CO = Co-requisite(s); CR = Credit can be retained for only one course from the set(s) consisting of the course being described and the course(s) listed; LC = Lecture hours per week are 3 unless otherwise noted; LH = Laboratory hours per week; OR = Other requirements of the course such as tutorials, practical sessions, or seminars; PR = Prerequisite(s); UL = Usage limitation(s).

CR: Biochemistry 4105 and the former PHAR 4105
PR: PHAR 2003
UL: not applicable to the Bachelor of Science (Pharmacy) program for students admitted prior to Fall 2011

3009 Pharmacology explores topics in general pharmacology including drugs used in the treatment of inflammatory diseases, renal pharmacology, anticoagulant and antithrombotic drugs, antihyperlipidemics, drugs used in the treatment of anemia, and endocrine pharmacology.

PR: Medicine 4300 or equivalent

302W Structured Practice Experience II is a structured practice experience in hospital pharmacy after completion of the second year which will provide an opportunity for students to apply their technical skills and introduce them to patient care activities. The practical experience is normally comprised of four weeks during May/June.

AR: attendance is required

3103 Microbiology of Infectious Diseases examines the various types of micro-organisms (bacterial, viral, parasitic and fungal), the environment in which they are able to multiply and their relationship to human diseases. The classifications of their morphology, mode of reproduction and the metabolic process, the physiological and epidemiological principles of infectious diseases and their manifestations are discussed including the principles of immunization.

3111 General Biochemistry covers the catabolism of carbohydrates, lipids and amino acids, Mitochondria, chloroplasts and ATP synthesis, Biosynthesis of carbohydrates and lipids, Metabolic specialization of differentiated cells and tissues, Integration of metabolism.

CR: Biochemistry 3106
OR: tutorials as required
PR: PHAR 2004 or Biochemistry 2101

3203 Medicinal Chemistry I presents topics covering the molecular basis of action, metabolism, and toxicity of drugs. It provides an orientation to the importance of these concepts in the understanding of drug delivery and development. The relationship between molecular structure and biological action of drugs together with the molecular aspects of drug interactions and animal metabolism are covered. Concepts of drug metabolism and the relevant metabolic pathways in relationship to drug inactivation and toxicity, along with the toxicity of drug metabolism and the development of drug resistance.

CR: Pharmacy 3203
OR: tutorials 1 hour per week; attendance is required
PR: Chemistry 2440 or Chemistry 2400 and 2401

3204 Medicinal Chemistry II is a continuation of Pharmacy 3203 and focuses on the structures, selected physicochemical properties, mechanism of action of drugs, structure-activity relationships, toxic effects at molecular level, and metabolism of different pharmacological classes of drugs including cholinergic agents, analgetic and anti-inflammatory agents, insulin and oral antidiabetic drugs, steroids and related compounds, antihyperlipidemics, histamine and histamine antagonists, diuretic agents, angiotensin converting enzyme inhibitors and antagonists, and calcium channel blockers.

CR: CO: PHAR 3009
OR: tutorials 1 hour per week; attendance is required
PR: PHAR 3203

3205 Pharmaceutics II consists of several units. The standards of good manufacturing practice will be introduced. Characteristics, preparation, quality assurance and delivery systems for sterile products will be covered. The basic principles governing the control of radiation and radioactive compounds in medical diagnosis and therapy will be discussed. The status of current biotechnology-based pharmaceuticals and biotechnology related matters will be addressed.

CR: PHAR 2202

3301 Patient Care I is an introductory course in patient care, especially in the areas of self-care and self-treatment and the role of the pharmacist. The regulatory environment of non-prescription products and the prevention and treatment of health conditions amenable to self-care will be discussed. Students will participate in sterile product preparation and practice
424 School of Pharmacy 2013-2014

drug information and pharmaceutical calculation skills relevant to hospital practice. Students will develop pharmacist care plans and will further develop their patient education skills. Scenarios will relate to the courses of study in the second year and draw on material studied in earlier years of the program. Students will participate in interprofessional education (IPE) modules with students from other health related programs when such modules are available.

CR: the former PHAR 3315
LC: 0
OR: practical sessions 3 hours per week; tutorials 1 hour per week; attendance is required
UL: not applicable to the Bachelor of Science (Pharmacy) program for students admitted prior to Fall 2011

4351 Pharmacy Skills continues the development of the skills necessary for pharmacy practice and in order to meet the educational outcomes for the second year of the pharmacy program. Students will continue to develop abilities in communication, professionalism, critical thinking, problem-solving, teamwork and self-directed learning. Students will participate in practice sessions necessary to develop an understanding of and skills required in patient assessment and patient education related to patient self-care. Students will build on their pharmacist care skills to meet patients' drug-related needs in unstructured patient scenarios and drug information skills to assess information needs. Scenarios will relate to the courses of study in the second year and draw on material studied in earlier years of the program. Students will participate in interprofessional education (IPE) modules with students from other health related programs when such modules are available.

CO: all Academic Term 3 Pharmacy courses
CR: the former PHAR 3315
LC: 0
OR: practical sessions 3 hours per week; tutorials 1 hour per week; attendance is required
PR: PHAR 3650
UL: not applicable to the Bachelor of Science (Pharmacy) program for students admitted prior to Fall 2011

4008 Chemotherapy presents the principles of infectious diseases and cancer chemotherapy. Topics to be explored include molecular structure profiles in relation to mechanism of action, drug resistance, and toxicity of antiviral, antimalarial, and antimicrobial agents. Antimicrobial activity spectrum of activity of antibacterials, antifungals, antimalarial, antituberculosis, and antiviral/antiretroviral agents will be discussed. The classification/mechanism of action of cancer chemotherapeutic agents will be presented. Pharmacokinetic considerations, adverse effects/toxicity, and drug interactions will be explored for these agents.

CH: 2
CO: PHAR 4401
LC: 0
OR: tutorials 1 hour per week
PR: Medicine 4300, PHAR 3006, 3009, 3103, 3203 and 3204.

403W Structured Practice Experience III is a structured practice experience in pharmacy after completion of the third year which will provide an opportunity for students to apply their technical skills and practice and participate in patient care activities. The practical experience is normally comprised of four weeks during May/June.

AR: attendance is required
CH: 0
LC: 0
PR: successful completion of all courses in Academic Terms 5 & 6 of the program

4201 Applied Pharmacokinetics (same as the former PHAR 3206) is an introduction to biopharmaceutical and pharmacokinetic principles used in the selection, dosing, monitoring and evaluation of drug therapy. Application of these principles in evaluating drug literature and developing drug dosage regimens of selected classes of drugs for individual patients will be discussed.

CR: the former PHAR 3206
PR: Medicine 4300, PHAR 2202 and 3008
UL: not applicable to the Bachelor of Science (Pharmacy) program for students admitted prior to Fall 2011

4302 Patient Care II discusses the principal roles of health systems and health policy with a special emphasis on pharmacoeconomic policy and its impact on the profession, the public and on the delivery of pharmaceutical care. The principles of health promotion and the role of the pharmacist will be discussed. Students will gain knowledge about health challenges facing society, how education affects health, the roles of the pharmacist in educating and promoting health to patients.

CH: 1
CR: the former PHAR 4301 and the former 3501
PR: PHAR 2101, 2102, and 3301
UL: not applicable to the Bachelor of Science (Pharmacy) program for students admitted prior to Fall 2011

4401 Therapeutics I is a part of a series that looks at the therapeutic management of common diseases. Topics may include but are not restricted to infectious diseases, hematology/oncology, and dermatology. For each disease state discussion will centre around several key issues including: the establishment of desired therapeutic outcomes; development of appropriate pharmacological and non-pharmacological therapeutic alternatives; factors to be considered in the selection of an individualized therapeutic regimen, and the development of a monitoring plan to evaluate efficacy and safety.

CH: 6
CO: PHAR 4008 and 4201
LC: 6
OR: tutorials 2 hours per week; attendance is required
PR: Medicine 4300, PHAR 3006 and 3009

4402 Therapeutics II is a part in a series that looks at the therapeutic management of common diseases. Topics may include but are not restricted to infectious diseases, hematology/oncology, and dermatology. For each disease state discussion will centre around several key issues including: the establishment of desired therapeutic outcomes; development of appropriate pharmacological and non-pharmacological therapeutic alternatives; factors to be considered in the selection of an individualized therapeutic regimen, and the development of a monitoring plan to evaluate efficacy and safety.

CH: 6
CO: PHAR 4008 and 4201
LC: 6
OR: tutorials 2 hours per week; attendance is required
PR: PHAR 4401

4503 Pharmacy Administration introduces students to the basic principles of management as they relate to pharmacy practice. Topics will include human resources and financial management, marketing, strategic planning and the principles and issues associated with safe and appropriate drug distribution. These will be discussed from both a community and an institutional practice perspective.

4504 Pharmacy Research and Evaluation I introduces the biostatistical, pharmacoepidemiologic and pharmaceutical concepts and develops the skills necessary to the practice of research and evaluation methods in applied pharmacy. The understanding of such methods is an important prerequisite in the critical appraisal of the health literature and the undertaking of evidence-based clinical practice.

CR: the former PHAR 4501
UL: not applicable to the Bachelor of Science (Pharmacy) program for students admitted prior to Fall 2011

4505 Pharmacy Research and Evaluation II introduces students to principles of critical appraisal and provides opportunities to apply these principles to critique and evaluate current medical literature. Students will be assigned to a tutorial group, which will meet twice during the semester to critically appraise at least two recently published studies (journal club). Emphasis will be placed on appropriate application of critical appraisal skills and group discussion of impact of study findings on clinical practice. In addition, this course will also discuss drug utilization reviews and evaluations and the role of the pharmacist, as well as adverse drug event reporting and the role of the pharmacist.

CH: 0
CO: the former PHAR 4502
LC: 1
OR: tutorials 1 hour per week; attendance is required
PR: PHAR 4504 or equivalent
UL: not applicable to the Bachelor of Science (Pharmacy) program for students admitted prior to Fall 2011

4650 Pharmacy Skills continues the development of the skills necessary for pharmacy practice in order to meet the educational outcomes for the third year of the pharmacy program. Students will continue to develop abilities in communication, professionalism, critical thinking, problem-solving, teamwork and self-directed learning. Students will participate in practice sessions necessary to develop an understanding of and skills required in patient assessment. Students will build on their pharmacist care skills to meet patients' drug-related needs in more complex patient scenarios. Information skills to assess information needs, and medication preparation and dispensing skills to optimize safe and accurate medication delivery. Scenarios will relate to the courses of study in the third year and draw on material studied in earlier years of the program. Students will participate in interprofessional education (IPE) modules with students from other health related programs when such modules are available.

CO: all Academic Term 5 Pharmacy courses
CR: the former PHAR 4150
LC: 0
OR: practical sessions 3 hours per week; tutorials 1 hour per week; attendance is required
UL: not applicable to the Bachelor of Science (Pharmacy) program for students admitted prior to Fall 2011

4651 Pharmacy Skills continues the development of the skills necessary for pharmacy practice in order to meet the educational outcomes for the third year of the pharmacy program. Students will continue to develop abilities in...
communication, professionalism, critical thinking, problem-solving, teamwork and self-directed learning. Students will participate in sessions that focus on ethical issues in pharmacy practice and communication with health care providers. Students will build on their patient assessment and pharmacist care skills to meet patients’ drug-related needs in more complex patient scenarios and will use critical appraisal skills to respond to clinical questions. Scenarios will relate to the courses of study in the third year and draw on material studied in earlier years of the program. Students will participate in interprofessional education (IPE) modules with students from other health related programs when such modules are available.

CO: all Academic Term 6 Pharmacy courses
CR: the former PHAR 4151
LC: 0
OR: practical sessions 3 hours per week; tutorials 1 hour per week; attendance is required
PR: PHAR 4650
UL: not applicable to the Bachelor of Science (Pharmacy) program for students admitted prior to Fall 2011

500X Structured Practice Experience IV provides experience in clinical practice. Students will participate as members of the health care team. They will be responsible for providing pharmaceutical care to patients. Activities will include attending patient care rounds, providing in-services and drug information, and participating in case presentations. The structured practice experience is comprised of two six week modules.

AF: attendance is required
CH: 18
LC: 0
PR: successful completion of all course requirements for the degree and
Clear Promotion

5011 Pharmaceutical Biotechnology - inactive course.

5012 Pharmaceutical Analysis - inactive course.

5013 Hospital Pharmacy Administration - inactive course.

501A/B Pharmaceutical Research - inactive course.

5150 Pharmacy Skills (same as PHAR 5650) continues the development of the skills necessary for pharmacy practice in order to meet the educational outcomes for the fourth year of the pharmacy program. Students will continue to develop abilities in communication, professionalism, critical thinking, problem-solving, teamwork and self-directed learning. Students will build on their pharmacist care skills to meet patients’ drug-related needs in patients with multiple drug related problems. Refinement of verbal and written communication skills will be a focus. Scenarios will relate to the courses of study in the fourth year and draw on material studied in earlier years of the program. Students will participate in interprofessional education (IPE) modules with students from other health related programs when such modules are available.

CH: 1
CO: all Academic Term 7 Pharmacy courses
CR: PHAR 5650
LC: 0
OR: practical sessions 3 hours per week; tutorials 1 hour per week; attendance is required
UL: not applicable to the Bachelor of Science (Pharmacy) program for students admitted Fall 2011 or later

5301 Clinical Toxicology covers the toxicology and clinical management of toxicity associated with common medications.

CH: 2
CO: PHAR 5401
LC: 2

5302 Patient Care III focuses on pharmaceutical care considerations in special patient populations (e.g., geriatrics, neonates, pediatrics, pregnancy and lactation, critically ill, etc.), Implementation of pharmaceutical care in hospital, ambulatory and community practice settings will be discussed.

CO: PHAR 5401
OR: tutorials 1 hour per week; attendance is required

5303 Patient Care IV provides the student with a basic understanding of supplements natural health products and will focus on pharmaceutical care considerations in using these products for the therapeutic management of common diseases.

CH: 2
OR: tutorials 2 hours per week; attendance is required
UL: not applicable to the Bachelor of Science (Pharmacy) program for students admitted Fall 2011 or later

5401 Therapeutics III is part in a series that looks at the therapeutic management of common diseases. Topics may include but are not restricted to endocrine, psychiatric, renal and cardiovascular disorders. For each disease state discussion will centre around several key issues including: the establishment of desired therapeutic outcomes; development of appropriate pharmacological and non-pharmacological therapeutic alternatives; factors to be considered to aid in the selection of an individualized therapeutic regimen; and the development of a monitoring plan to evaluate efficacy and safety.

CH: 6
LC: 6
OR: tutorials 2 hours per week
PR: PHAR 4402

5501 Pharmacy Research and Evaluation IV (same as PHAR 5506) discusses the principles of critical appraisal and provides opportunities to apply these principles to critique and evaluate current medical literature. Students will be assigned to a tutorial group, which will meet twice during the semester to critically appraise at least two recently published studies. Emphasis will be placed on appropriate application of critical appraisal skills and group discussion of impact of study findings on clinical practice.

CH: 1
OR: PHAR 5506
LC: 0
OR: tutorials 1 hour per week
PR: the former PHAR 4502
UL: not applicable to the Bachelor of Science (Pharmacy) program for students admitted Fall 2011 or later

5506 Pharmacy Research and Evaluation III (same as PHAR 5501) discusses the principles of critical appraisal and provides opportunities to apply these principles to critique and evaluate current medical literature. Students will be assigned to a tutorial group, which will meet twice during the semester to critically appraise at least two recently published studies. Emphasis will be placed on appropriate application of critical appraisal skills and group discussion of impact of study findings on clinical practice.

CH: 1
OR: PHAR 5501
LC: 0
OR: tutorials 1 hour per week
PR: PHAR 4505 or equivalent
UL: not applicable to the Bachelor of Science (Pharmacy) program for students admitted prior to Fall 2011

5650 Pharmacy Skills (same as PHAR 5150) continues the development of the skills necessary for pharmacy practice in order to meet the educational outcomes for the fourth year of the pharmacy program. Students will continue to develop abilities in communication, professionalism, critical thinking, problem-solving, teamwork and self-directed learning. Students will build on their pharmacist care skills to meet patients’ drug-related needs in patients with multiple drug related problems. Refinement of verbal and written communication skills will be focus. Scenarios will relate to the courses of study in the fourth year and draw on material studies in earlier years of the program. Students will participate in interprofessional education (IPE) modules with students from other health related programs when such modules are available.

CO: all Academic Term 7 Pharmacy courses
CR: PHAR 5150
LC: 0
OR: practical sessions 3 hours per week; tutorials 1 hour per week; attendance is required
UL: not applicable to the Bachelor of Science (Pharmacy) program for students admitted prior to Fall 2011

Acting Head
Davis, P.J., B.Sc., Ph.D. Memorial; Professor

Professor Emeritus
Keough, K.M.W., B.Sc.(Hons.), M.Sc., Ph.D. Toronto

Professors
Brosnan, J.T., B.Sc.(Hons.), M.Sc., D.Sc. National University of Ireland, D.Phil. Oxford; University Research Professor, Awarded 1990; Cross appointment with Faculty of Medicine
Brosnan, M.E., B.A.(Hons.), M.Sc., Ph.D. Toronto; Cross appointment with Faculty of Medicine
Cheema, S.K., B.Sc. Punjab, M.Sc. Punjab Agricultural, Ph.D. Post Graduate Institute of Medical Education and Research; Deputy Head (Graduate Studies); Cross appointment with Faculty of Medicine
Healey, D.H., B.Sc.(Hons.), Ph.D. Birmingham
Herzberg, G.R., B.S., Ph.D. Maine
Hoover, R., B.Sc.(Hons.) Coylin, M.Sc. Leeds, Ph.D. Alberta
McGowan, R.A., B.Sc.(Hons.) Brock, Ph.D. SUNY, Buffalo; Joint appointment with Department of Biology
Mulligan, M.E., B.Sc.(Hons.) National University of Ireland, Ph.D. Harvard; Recipient of the President’s Award for Distinguished Teaching, 1999
Robinson, J.J., B.Sc.(Hons.) University College Dublin, M.Sc. Trinity College Dublin, Ph.D. Alberta
Shahidi, F., B.Sc. Shiraz, Ph.D. McGill, University Research Professor, Awarded 1998; Cross appointment with Departments of Biology and Ocean Sciences

Associate Professors
Bertolo, R.F.P., B.A.Sc. (Hons.) McMaster, M.Sc., Ph.D., Guelph; Canada Research Chair in Human Nutrition
Booth, V.K., B.Sc.(Hons.) Victoria, M.Sc. Waterloo, Ph.D. Toronto; Canada Research Chair in Proteomics; Deputy Head (Undergraduate); Cross appointment with Department of Physics and Physical Oceanography
Brunton, J.A., B.A.Sc. Guelph, Ph.D. McMaster
Randall, E.W., B.Sc.(Hons.), Ph.D. Memorial; Cross appointment from Faculty of Medicine
Volff, H., B.Sc. Pierre and Marie Curie University, M.Sc. University of Aix-Marseille III, Ph.D. Clemson University; Joint appointment with Department of Biology

Assistant Professors
Brown, R.J., B.Sc.(Hons.), Ph.D. Ottawa
Christian, S.L., B.Sc.(Hons.) Alberta, Ph.D. University of British Columbia; Cross appointment with Faculty of Medicine

Adjunct Professors
Banoub, J., B.Sc.(Hons.) Alexandria, Ph.D. Montreal
Hayley, M.J., B.Sc.(Hons.), B.Ed., M.Sc., Ph.D. Memorial

Administrative Assistant
Sinnott, A.L., B.Comm., M.B.A. Memorial
Department of Chemistry

www.chem.mun.ca/

Head
Pickup, P.G., B.A., D.Phil. Oxford; University Research Professor, Awarded 2005; Professor

Professores Emeriti
Gogan, N.J., B.Sc. (Hons.), Ph.D. National University of Ireland, Dublin, F.C.I.C.; Professor
Machin, W.D., B.Sc. Carleton, Ph.D. Rensselaer; University Research Professor, Awarded 1995

Professors
Bodwell, G.W., B.Sc., M.Sc., Victoria, Dr rer. nat. Tech. Univ. Braunschweig; Deputy Head (Graduate Studies and Research); Recipient of the President's Award for Outstanding Research, 1998-1999; Winner of the Petro Canada Young Innovator Award, 1999-2000; Winner of the 2011 Distinguished Scholar Medal
Georgiou, P., B.Sc. (Hons.) Witwatersrand, Ph.D. McGill, F.C.I.C.

Associate Professors
Bottaro, C.S., B.Sc. (Hons.) St. Mary's, Ph.D. Dalhousie; University Research Professor; Awarded 2012

Assistant Professors
Rowley, C.N., B.Sc. (Hons.) Carleton, Ph.D. Ottawa
Young, C.J.L., B.Sc. (Hons.), Ph.D. Toronto

Assistant Professors (term)
Hattenuhauer, K.M., B.Sc. Winnipeg, Ph.D. Manitoba
Warburton, B.P., B.Sc. (Hons.), M.Sc., Ph.D. University of Saskatchewan

Cross-Appointments
Poduska, K., B.A. Carleton College, Ph.D. Cornell; Cross appointment from Department of Physics and Physical Oceanography

Adjunct Professors
Bancou, J.H., B.Sc. (Hons.) University of Alexandria, Egypt, Ph.D. University of Montreal
Keefe, D., B.Sc. (Hons.) Memorial, Ph.D. University of Alberta

Undergraduate Laboratory Supervisor
Vanasse, N.

Department of Computer Science

www.mun.ca/computerscience/

Acting Head
Banzhaf, W., Dipl. Phys. Ludwig-Maximilian, Munich, Dr rer. nat Fredericiana, Karlsruhe; University Research Professor, Awarded 2010; Professor
Professors
Bartha, M., M.Sc., Ph.D. József Attila University, Hungary
Gillard, P., B.Sc., M.Sc., Ph.D. Memorial
Miminis, G., Dipl. Greek Center of Productivity, B.Sc. Univ. of Ioanna (Greece); M.Sc., Ph.D. McGill
Tang, J., M.Sc. Iowa, Ph.D. Penn. State

Associate Professors
Brown, E., B.Sc.(Hons.), Memorial, M.Sc., Ph.D. Toronto, LL.B. Victoria
Bungay, S., B.Sc., M.Sc. Memorial, Ph.D. Guelph
Byrne, R., B.Sc.(Hons.), B.Eng. Memorial, M.Sc., Ph.D. Victoria
Chen, Y.P., B.Sc. Beijing, Ph.D. Simon Fraser
Deb, A., M.Tech. Calcutta, Ph.D. Iowa
Fiech, A., Dipl. Inf. Dortmund, Ph.D. Kansas State
Shieh, J., B.Sc. Beijing, M.Sc., Ph.D. Simon Fraser
Vardy, A., B.Eng. Memorial, M.Sc. Sussex, Ph.D. Carleton; Joint appointment with Electrical and Computer Engineering, Faculty of Engineering and Applied Science
Wareham, T., B.Sc.(Hons.). B.A., M.Sc. Memorial, Ph.D. Victoria

Assistant Professors
Kolokolova, A., B.Sc.(Hons.) Arizona, M.Sc., Ph.D. Toronto
Peña-Castillo, L., B.Sc. ITESM, Veracruz, Mexico, M.Sc. Alberta, Ph.D. Otto-von-Guericke, Magdeburg; Joint appointment with Department of Bioly

Adjunct Professor
Hoeber, O., B.Sc., M.Sc. Saskatchewan, Ph.D. Regina

Lecturers
Batten, D.L., B.Sc.(Hons.) Memorial, M.Sc. Queen's
Gupta, R., B.A. Agra Univ., B.A. Memorial, M.S. Georgia Tech.

Cross-Appointments
Evermann, J., Dipl.Wirt.Inf. Muenster, Ph.D. University of British Columbia; Cross appointment from Faculty of Business Administration
Meruvia, Pastor, O., B.Eng. ITESM, Monterrey, M.Sc. Alberta, Dr. Eng. Otto-von-Guericke, Magdeburg; Cross appointment from Faculty of Science
Norvell, T.S., B.Sc.(Hons.) Dalhousie, M.Sc., Ph.D. Toronto; Cross appointment from Faculty of Engineering and Applied Science
Parsons, J., B.Comm.(Hons.), Memorial, Ph.D. University of British Columbia; Cross appointment from Faculty of Business Administration
Pike, D., B.Math. Waterloo, MAM, Ph.D. Auburn, FTICA; Cross appointment from Department of Mathematics and Statistics
Samet, S., M.Sc., Ph.D. Ottawa; Cross appointment from Faculty of Medicine

Systems Manager
Rayment, M., B.Sc. Memorial, MS M.I.U.

Pike, D., B.Math. Waterloo, MAM, Ph.D., Auburn, FTICA; Cross appointment to Department of Computer Science Science
Shalaby, N.A.J., M.A. York, Ph.D. McMaster
Xiao, J., M.Sc. Hunan, Ph.D. Peking; University Research Professor, Awarded 2011
Yuan, Y., B.Sc. Wuhan, M.Sc. Central South Univ. of Tech., Ph.D. Western Ontario; UFA 2004
Zhao, X., B.S., M.S. Northwest, Ph.D. Academia Sinica; University Research Professor, Awarded 2008

Associate Professors
Booth, I., B.Sc. Memorial, M.Sc., Ph.D. Waterloo; Cross appointment to Department of Physics and Physical Oceanography
Foster, A., B.Sc., Ph.D. Dalhousie, M.Math Waterloo; Associate Dean (Administration and Undergraduate)
Haynes, R.D., B.Sc. Memorial, M.Sc., Ph.D. Simon Fraser
Kondratieva, M., M.Sc. Moscow Inst. of Electronics & Math, Ph.D. Tomsk State; Joint appointment with Faculty of Education
Kochetov, M., M.Sc. Moscow State (Lomonosov), Ph.D. Memorial, Cand. Sci. Moscow State

Mantu, S., B.A., M.B.A. Sask, M.Math., Ph.D. Waterloo
Merkl, M., Diploma in Theoretical Physics, EPF Lausanne, Ph.D. Toronto; Recipient of the President’s Award for Outstanding Research 2010-2011
Ou, C.H., B.A. Peking, Ph.D. Hong Kong
Suvak, J.A., B.S. St. Martin’s College, M.S., Ph.D. Arizona

Assistant Professors
Alam, J., B.Sc., M.Sc. Chittagong, M.Sc., Alberta, Ph.D., McMaster
Baird, T.J., B.Sc. Queen’s, Ph.D. Toronto
Dyer, T.D., B.Sc.(Hon.) Memorial, M.Sc., Ph.D. Simon Fraser
Hurford, A., B.Sc. Fairfield, M.Sc. Alberta, Ph.D. Queen’s; Joint appointment with Department of Biology
Kunduri, H., B.Sc.(Hons.) Toronto, M.Math., Ph.D. Cambridge
Martinez-Pedroza, E., Dipl. Math. Los Andes, M.Sc., Ph.D. Oklahoma
Niu, Z., B.Sc., M.Sc. Wuhan, Ph.D. Toronto
Usef, H., B.Sc. AmirKabir, M.Sc. IASBS, Ph.D. Western Ontario
Ye, D., B.Sc. Shandong, M.Sc. Zhejiang, Ph.D. Case Western Reserve

Visiting Assistant Professor
Sullivan, S.P., B.Sc., Ph.D. Memorial

Adjunct Professor
Sadov, S., M.Sc. Moscow Institute of Electronics and Mathematics, Ph.D. Keldysh Institute for Applied Math

Cross-Appointments
Finnis, J., B.Sc. Guelph, Ph.D. Colorado; Assistant Professor; Cross appointment from Department of Geography

Laboratory Instructor
O’Rielly, G., B.Sc. Memorial

Statistics
Professor
Sutradhar, B.C., B.Sc. Daacca, M.Sc. Daacca and Western Ontario, Ph.D. Western Ontario; University Research Professor, Awarded 2004

Associate Professors
Fan, Z., B.Sc., M.Sc. Shandong, Ph.D. Gottingen
Loreo-Ostal, J.C., B.Sc., M.Sc. Universidad Autonoma, Ph.D. Dalhousie, Graduate Officer
Wang, H., B.Sc. Beijing Normal, Ph.D. Regina

Assistant Professor
Abarin, T., B.Sc., M.Sc. Shiraz, Ph.D. Manitoba
Varyath, A., B.Sc., Calicut, M.Sc. Kerala Agricultural, Post Graduate Diploma Indian Statistical Institute, Ph.D. Waterloo

Adjunct Professor
Sneddon, G., B.Sc.(Hon.) Acadia, M.Sc., Ph.D. Dalhousie

Cross-Appointments
Cagigal, N., B.Sc., MAS Memorial, Ph.D. Waterloo; Cross appointment from Marine Institute
Gadag, V., B.Sc., M.Sc. Kannatak, M.Phil., Ph.D. Poona; Professor of Biostatistics, Cross appointment from Department of Health Statistics and Health Information Systems
Yi, B., B.Sc., Hunan Normal, M.Sc., Changsha College, M.Sc., Ph.D. Manitoba; Assistant Professor of Biostatistics; Cross appointment from Division of Community Health and Humanities

Consultants for Master of Applied Statistics Program
Cagigal, N., B.Sc., M.A.S. Memorial, Ph.D. Waterloo; Department of Fisheries and Oceans, St. John’s
Lye, L.M., B.Sc.(Hons.) Bolton Inst., Ph.D. Manitoba, P.Eng.; Faculty of Engineering and Applied Science, Memorial University of Newfoundland
Schneider, D.C., B.Sc. Duke, Ph.D. SUNY, Stony Brook; Ocean Sciences Centre, NICOS; Recipient of the President’s Award for Outstanding Graduate Student Supervision, 2012-2013

Undergraduate Officer
Johnson, H., B.Sc.(Hons.), B.Ed. Memorial

Administrative Staff Specialist

1. **The Memorial University of Newfoundland Code**

   The attention of all members of the University Community is drawn to the section of the University Calendar titled *The Memorial University of Newfoundland Code*, which articulates the University's commitment to maintaining the highest standards of academic integrity.

2. **Faculty Description**

   The Faculty of Science encompasses nine academic departments: Biochemistry, Biology, Chemistry, Computer Science, Earth Sciences, Mathematics and Statistics, Ocean Sciences, Physics and Physical Oceanography, and Psychology. Each offers programs leading to either a general or honours degree. A number of specialized and joint (double major) programs are also offered, as well as Bachelor of Science degree programs delivered by the Departments of Geography and Economics. Selected students can complete the first two years of Acadia University's Bachelor of Science in Nutrition (Dietetics option) at Memorial University of Newfoundland. In
addition to educational programs, research is a most important aspect of the Faculty of Science. As such, the Faculty is in a position to
generate new knowledge by the pursuit of high quality research and to foster economic development through cooperative research and
technology transfer with the private sector. The Faculty of Science is the scientific training ground for all undergraduates at the
University. Memorial University of Newfoundland’s science graduates are in demand by science-based industries throughout the
country. Our Faculty excels in research and in its commitment to effective teaching and delivery of quality educational programs.

Information regarding the Faculty of Science is available at www.mun.ca/science/.

Information regarding the Centre for Earth Resources Research (CERR) and the Ocean Sciences Centre (OSC) is available under
General Information, Centre for Earth Resources Research (CERR), and General Information, Ocean Sciences Centre, respectively.

3 Bachelor of Science in Nutrition (Dietetics Option), Memorandum of Understanding (MOU) between Memorial University of
Newfoundland and Acadia University

Program Coordinator: B. Walters, Department of Biochemistry

3.1 General Information

Under the terms of a Memorandum of Understanding (MOU) between Memorial University of Newfoundland and Acadia University,
selected students are able to complete the first two years of Acadia University’s Bachelor of Science in Nutrition (Dietetics option) at
Memorial University of Newfoundland and complete the final two years of the program at Acadia University. Selection for this program is
competitive and is limited to ten qualified students each year. Upon successful completion of all degree requirements students will
graduate with the degree of Bachelor of Science in Nutrition (Dietetics option) from Acadia University.

For detailed information about the Memorial University of Newfoundland component of the program, and for information about the
selection process and deadlines, contact the Office of the Dean of Science by e-mail at science@mun.ca or by telephone at (709) 864-
8153 or (709) 864-8154.

For detailed information about the Acadia University program, contact Acadia University in writing to the School of Nutrition and
Dietetics, Acadia University, P.O. Box 68, 12 University Avenue, Wolfville, Nova Scotia, Canada B4P 2R6, or by telephone at (902) 585-
1366, or by e-mail at nutr@acadiau.ca, or through the website at nutrition.acadiau.ca/.

3.2 Admission Regulations

1. Students who are interested in pursuing this program must first complete 30 credit hours from the prescribed courses from the
Memorial University of Newfoundland Courses list below.

2. In the Winter semester, normally at the end of a student’s first year at Memorial University of Newfoundland, a selection competition
will be held. Only those students who are selected will be eligible to continue into the second year of the program at Memorial
University of Newfoundland.

3. The selection process will be jointly administered by Memorial University of Newfoundland and by Acadia University.

4. Academic achievement will be a significant criterion used for selection and students may be asked to attend an interview.

5. The letter of acceptance will give the selected applicant 14 days from the date of the letter in which to confirm acceptance of their
place in the program.

6. To continue on to Acadia University, the selected students must successfully complete the 17 courses, 51 credit hours from the
Memorial University of Newfoundland Courses and the 3 courses, 9 credit hours from the Acadia University Courses lists
below required by the MOU with a minimum 60% overall average. A grade of 60% (Acadia University equivalent grade of C-) is
required in each of the three individual Nutrition courses taken through Open Acadia at www.openacadia.ca, the distance education
unit of Acadia University.

3.3 Continuance Regulations

Students who successfully complete the first two years of the program at Memorial University of Newfoundland as described below will
transfer to Acadia University where the final two years will be completed.

3.3.1 Memorial University of Newfoundland Courses

Under the terms of the MOU, the following 17 courses, 51 credit hours at Memorial University of Newfoundland must be completed with
a minimum 60% overall average before being admitted to the third year of Acadia University’s program:

1. Biology 1001
2. Chemistry 1010, 1011 (or Chemistry 1200, 1001)
3. Chemistry 2440
4. English 1080, 1110 (or equivalent)
5. Mathematics 1090 and 1000 (or Mathematics 1000 and one elective)
6. Pharmacy 2002, 2003, and 2004 or Biochemistry 2101 (only students who are selected for this program will be permitted to register
for these Pharmacy courses)
7. Psychology 1000, 1001
8. Statistics 2500, 2501
9. Two Arts electives

3.3.2 Acadia University Courses

To continue to the third year of Acadia University’s program, the selected students must successfully complete 20 courses, 60 credit
hours comprised of the 17 courses, 51 credit hours from the Memorial University of Newfoundland Courses list above and the 3
courses, 9 credit hours from the Acadia University Courses list below. This is required by the MOU and students must obtain a
minimum 60% overall average. A grade of 60% (Acadia University equivalent grade of C-) is required in each of the three individual
Nutrition courses taken through Open Acadia at www.openacadia.ca, the distance education unit of Acadia University.
3.3.3 Internship

In order to be eligible to apply for internship placements administered by the Acadia Dietetic Internship Program, students must obtain a grade of at least B- (70-72) in the two courses Nutrition 2503 and 2513. This requirement does not apply for other non-Acadia internships for which all students are eligible to apply.

3.3.4 Programs Tables

The following tables present a schedule for completing the course requirements at Memorial University of Newfoundland.

### For Students Who Complete Mathematics 1090 in Their First Semester

</tbody>
</table>

Notes:
1. Statistics 2501 is offered on campus in the Fall semester and normally is offered only by distance education in the Winter semester.
2. While students are strongly encouraged to complete Nutrition 1513 in the first year, they can substitute an Arts elective for Nutrition 1513 in the first year but must then complete Nutrition 1513 in the second year.
3. All three Open Acadia courses must be completed prior to starting courses at Acadia.

4 Joint Programs

Course descriptions are found at the end of the Faculty of Science section under Course Descriptions.

The following joint programs are offered by Departments in the Faculty of Science, and the regulations for each program are joint Departmental Regulations. For convenience of reference the joint programs are listed below in alphabetical sequence: Joint Honours, Joint Majors, and Joint Options.

4.1 Joint Honours

A student who wishes to be admitted to any of the Honours programs must submit an "Application for Admission to Honours Program"
4.1.1 Applied Mathematics and Chemistry Joint Honours (B.Sc. Only)
The following courses are required:
1. English 1080 and English 1110 (or equivalent).
2. A computing course. Computer Science 1510 is recommended.
4. Physics 1050 (or 1020) and 1051.
5. Mathematics 1000, 1001, 2000, 2050, 2051, 2130, 2260 (or 3260), 3000, 3001, 3132, 3161, 3202, 3210, 4160.
6. Chemistry 1050 and 1051 (or 1010, 1011 and 1031), 2100, 2210, 2301, 2302, 2400, 2401, 3110, 3210 or 3211, 3303, 3500.
7. Six additional credit hours chosen from courses numbered 3000 or higher that are offered by the Department of Chemistry.
8. Mathematics 419A/B or Chemistry 490A/B.
9. A sufficient number of elective courses to bring the degree up to a total of 120 credit hours.

4.1.2 Applied Mathematics and Physics Joint Honours
The following courses are required:
1. English 1080 and English 1110 (or equivalent).
2. A computing course. Computer Science 1510 is recommended.
3. Six credit hours in a science other than Mathematics or Physics (if Computer Science is chosen then Computer Science 1510 may be counted as three of these hours).
4. Mathematics 1000, 1001, 2000, 2050, 2051, 2260 (or 3260), 3000, 3001, 3132, 3202, 3210.,
5. At least one of Mathematics 2130 or Mathematics 2320.
6. Physics 1050 (or 1020), 1051, 2053, 2055, 2750 (or 2056), 2820, 3220, 3230, 3400, 3500, 3750.
7. Three additional credit hours chosen from courses numbered 3000 or higher that are offered by the Department of Physics and Physical Oceanography.
8. Mathematics 3161 and Mathematics 4160, or Physics 3820 and Physics 4820.
9. Physics 490A/B or Mathematics 419A/B.
10. Twelve additional credit hours chosen from courses numbered 4000 or higher that are offered by the Department of Mathematics and Statistics or the Department of Physics and Physical Oceanography. At least 3 credit hours must be selected in each of Applied Mathematics and Physics.
11. A sufficient number of elective courses to bring the degree up to a total of 120 credit hours.
The topic for the Honours project or thesis, Mathematics 419A/B or Physics 490A/B must be chosen with the prior approval of both departments.

4.1.3 Biochemistry and Cell Biology Joint Honours
Students must have at least an overall average of 65% in English 1080 and 1110 (or equivalent), Mathematics 1000 and 1001, Biology 1001 and 1002, Chemistry 1050 and 1051 (or equivalent), Physics 1050 (or 1020) and 1051.
The following courses, including prerequisites where applicable, will be required.
1. Biochemistry 2101, 3105, 3106, 3107, 3108, either 4210 or 4211, 12 credit hours chosen from 4002, 4101, 4102, 4103, 4104, 4105, 4200, 4201, 4230-4249.
2. Biology 2060, 2250, 2600, 2900, 3050 and 9 credit hours chosen from 3500, 3530, 3620, 4000, 4200, 4241. In addition, further Biology courses at the 2000, 3000, or 4000 level must be selected by the student to make up a minimum of 42 credit hours in Biology including Biology 1001 and 1002 but not including Biology 499A or 499B.
3. Either Medicine 310A/B, or Biology 3401 plus one of Biology 3402, 4245 or 4404.
4. Chemistry 2100, 2300 or 2301, 2400, 2401; either 3410 or 3411.
5. Statistics 2550 or equivalent.
7. Other courses to complete the prescribed minimum of 135 credit hours in courses for the Joint Honours Degree.
Note: Students may count only one of the two courses, Biochemistry 4105 or Biology 4200, for credit in this program.
The topic of the Honours dissertation must be chosen with the approval of both Departments. A faculty member of either Department may act as supervisor.
Seventy-eight credit hours in Biology, Biochemistry and Chemistry courses beyond the first-year level from those listed in the program shall contribute to those in which a grade of "B" or an average of 75 or higher is required. Medicine 310A/B counts as Biochemistry for these seventy-eight credit hours.

4.1.4 Biochemistry and Chemistry Joint Honours
The following courses (or their equivalents) are required:
1. Chemistry 1050 and 1051 (or Chemistry 1010, 1011 and 1031) or their equivalents, Mathematics 1000 and 1001, Physics 1050 and 1051, 8 credit hours in first year English courses. Biology 1001 and 1002 are highly recommended.
3. Chemistry 2100, 2210, 2300 or 2301, 2302, 2400, 2401, 3110, 3211, 3303, 3410, 3411, 3500, and 6 further credit hours in Chemistry courses at the 4000 level.
4. Biochemistry 2100, 2101, 3105, 3106, 3107, 3108, Medicine 310A/B, either Biochemistry 4210 or 4211, 9 credit hours chosen from Biochemistry 4002, 4101, 4102, 4103, 4104, 4105, 4200, 4201, 4220, 4230-4249.
Note: Only one of Biochemistry 4105, 4220 may be chosen.
5. Either Chemistry 490A/B or Biochemistry 499A/B.
6. Other courses to complete the prescribed minimum of 135 credit hours in courses for the Joint Honours Degree. Physics 2820 and/or Physics 2750 are recommended.

4.1.5 Biochemistry and Physics Joint Honours
The following courses are required:
1. English 1080 and 1110 (or equivalent), Chemistry 1050 and 1051 (or Chemistry 1010, 1011, and 1031), Mathematics 1000 and 1001, Physics 1050 (or 1020) and 1051
2. Chemistry 2400, 2401.
3. Chemistry 2300 or 2301, or Physics 2053
4. Mathematics 2000, 2050, 2260 (or 3260), either Mathematics 3202 or Physics 3810.
5. Biochemistry 2100, 2101, 3105, 3106, 3107, 3108, Medicine 310A/B; plus 9 credit hours in courses to be selected from Biochemistry 4002, 4101, 4102, 4103, 4104, 4200, 4201, and 4230-4249; plus a 3 credit hour course to be selected from Biochemistry 4210 or 4211.
6. Physics 2055, 2750 or 2056, 2820, 3220, 3400, 3500, 3750, 3820, 3900, 4820; plus one 4000 level Physics course.
7. One course to be selected from Physics 3150, 3300, 3751, 4400. Physics 3751 is recommended.
8. Either Physics 490A/B or Biochemistry 499A/B.
9. Other courses to complete the prescribed minimum of 135 credit hours in courses for the Joint Honours degree.

4.1.6 Biochemistry and Psychology (Behavioural Neuroscience) Joint Honours
Note: Students completing this program cannot receive credit for Psychology 2920.
The following courses (or equivalent) are required to complete the 120 credit hours in courses required for the degree:
1. Chemistry 1050 and 1051 (or equivalent), Biology 1001 and 1002, Mathematics 1000 and 1001, Physics 1050 (or 1020) and 1051, English 1080 and 1110.
2. Biochemistry 2100, 2101, 3105, 3106, 3107, 3108, Medicine 310A/B, either 4210 or 4211, 9 credit hours chosen from Biochemistry 4002, 4101, 4102, 4103, 4104, 4105, 4200, 4201, 4220, 4230-4249.
Note: Only one of 4105 and 4220 may be chosen.
3. Psychology 1000, 1001, 2520, 2570, 2910, 2911, 3800, 3801, 3900, two further courses in Psychology chosen from the following: 3050, 3100, 3250, 3350, 3450, 3620, 3650, 3750; two 4000 level courses in Psychology of which one must be a research experience course.
4. Either Biochemistry 499A/B or Psychology 499A/B.
5. Chemistry 2300 or 2301, 2400, 2401.
Notes:
1. In accordance with Clause 6.a. of the Regulations for the Honours Degree of Bachelor of Science, Honours candidates must obtain a grade of "B" or better, or an average of 75% or higher in all the required courses listed in Clauses 2., 3. and 4. above, except those at the 1000 level.
2. Students in first year intending to follow this program should note the regulations for admission to Major programs in Psychology and that the deadline for submission of a completed application form to the Psychology Department is June 1 for the Fall semester and October 1 for the Winter semester.

4.1.7 Biochemistry (Nutrition) and Psychology (Behavioural Neuroscience) Joint Honours
Note: Students completing this program cannot receive credit for Psychology 2920.
The following courses (or equivalent) are required:
1. Chemistry 1010 and 1011 (or 1050, 1051), Biology 1001 and 1002, Mathematics 1000, Physics 1020 or 1050, and 1021 (or 1051), English 1080 and 1110.
2. Biochemistry 2100, 2101, 2600, 3106, 3203, 4002, 4300, 4301, 4502, Medicine 310A/B; one course chosen from: Biochemistry 3105, 3107, 3108, 3202, 3402, 3600, 4101, 4103, 4104, 4105, 4200, 4201, 4210, 4220, 4230-4249, Biology 3050.
3. Psychology 1000, 1001, 2520, 2570, 2910, 2911, 3800, 3801, 3900, two further courses in Psychology chosen from the following: 3050, 3100, 3250, 3350, 3450, 3620, 3650, 3750; two 4000 level courses in Psychology of which one must be a research experience course.
4. Either Biochemistry 499A/B or Psychology 499A/B.
5. Chemistry 2300 or 2301, 2400, or Chemistry 2440.
6. Other courses to complete at least the prescribed minimum of 120 credit hours in courses for the Joint Honours degree.
Notes:
1. In accordance with Clause 6.a. of the Regulations for the Honours Degree of Bachelor of Science, Honours candidates must obtain a grade of "B" or better, or an average of 75% or higher in all the required courses listed in Clauses 2., 3. and 4. above, except those at the 1000 level.
2. Students in first year intending to follow this program should note the regulations as outlined for admission to Major programs in Psychology and that the deadline for submission of a completed application form to the Psychology Department is June 1 for the Fall semester and October 1 for the Winter semester.

4.1.8 Biology and Earth Sciences Joint Honours
The following courses, including prerequisites where applicable, will be required:
1. English 1080 and 1110 (or equivalent), Mathematics 1000 and 1001, Biology 1001 and 1002, Earth Sciences 1000 and 1002, Chemistry 1010 and 1011 (or 1050 and 1051), Physics 1020 and 1021 (or 1050 and 1051).
2. Chemistry 2440, Biochemistry 2101, Biochemistry 3106, one of Statistics 2550 or 2560.
3. Biology 2060, 2250, 2600, 2900, one of 3401, 3402, 4245 or 4404; plus Biology 3710, 3711, and 4505. In addition, further Biology courses at the 2000, 3000, or 4000 level must be selected by the student in consultation with the supervisor to make up a minimum of 42 credit hours in Biology not including Biology 499A or 499B.
4. Earth Sciences 2030, 2031, 2502, 2905; plus a minimum of 24 credit hours in other Earth Science courses from 2000 to 4000 level, at least 3 credit hours of which must be at 4000 level. Earth Sciences 2150, 2914, 2915, 2916, 2917, 2918, 4310, and 4950 cannot be used to fulfill this requirement. Career-related streams outlined in the departmental Student Handbook should be used as a guide to course selection so as to achieve a concentration in one facet of Earth Sciences.
5. An Honours dissertation (Biology 499A/B or Earth Sciences 499A/B). The topic of the Honours dissertation must be chosen with the
approval of both Department Heads. A faculty member of either Department may act as supervisor.

6. Other courses to complete the prescribed minimum of 135 credit hours in courses for the Honours degree, with at least 84 credit hours in courses in Biology and Earth Sciences combined.

Any change in the program of study must have the prior approval of the Heads of the two Departments concerned.

### 4.1.9 Biology and Psychology Joint Honours

**Note:** Students completing this program cannot receive credit for Psychology 2920.

The following forty courses (or equivalent) are required:

1. Biology 1001, 1002, 2060, 2250, 2600, 2900; one of 3401, 3402, 4245, 4404; four Biology electives at the 2000, 3000 or 4000 level not including Biology 499A or 499B.
2. Psychology 1000, 1001, 2520, 2570, 2910, 2911, 3250, 3800 or 3801; 3900, 4910; one of the following: 3050, 3100, 3350, 3450, 3620, 3650; one further 4000 level Psychology research experience course.
3. Biology or Psychology 3750, 4701, 499A/B.
4. English 1080 and 1110; Mathematics 1000; Chemistry 1010 and 1011 (or 1050 and 1051), and 2440; Physics 1020 (or 1050) and 1021 (or 1051); Biochemistry 2101 and 3106.
5. Other courses, if necessary, to complete at least 120 credit hours of courses.

### 4.1.10 Biology and Psychology (Behavioural Neuroscience) Joint Honours

**Note:** Students completing this program cannot receive credit for Psychology 2920.

The following forty courses (or equivalent) are required:

1. Biology 1001, 1002, 2060, 2250, 2600, 2900; one of 3401, 3402, 4245, 4404; five Biology electives at the 2000, 3000 or 4000 level not including Biology 499A or 499B.
2. Psychology 1000, 1001, 2520, 2570, 2910, 2911, 3800, 3801, 3900; two further courses in Psychology chosen from the following:
   - 3050, 3100, 3250, 3350, 3450, 3620, 3650, 3750; two 4000 level courses in Psychology of which one must be a research experience course.
3. Biology or Psychology 499A/B.
5. English 1080 and 1110; Mathematics 1000 and 1001; Physics 1020 (or 1050) and 1021 (or 1051); Chemistry 1010 and 1011 (or 1050 and 1051), and 2440 (or 2400 and 2401);
6. Other courses, if necessary, to complete at least 120 credit hours of courses.

**Note:** In accordance with Clause 6.a. of the Regulations for the Honours Degree of Bachelor of Science, Honours candidates must obtain a grade of "B" or better, OR average of 75% or higher in all the required courses listed in Clauses 1, 2, 3, and 4 above, except those at the 1000 level.

### 4.1.11 Biology and Statistics Joint Honours (B.Sc. Only)

See **Regulations for the Honours Degree of Bachelor of Science**, Students shall complete the following requirements:

1. Mathematics 1000 and 1001, Biology 1001 and 1002, English 1080 and 1110, Chemistry 1010 and 1011 (or 1050 and 1051), Physics 1020 and 1021, or equivalent;
2. Mathematics 2000, 2050, 2051, Statistics 2500, 2501, or 2560, 3520, 3521, 4530, and 4581;
3. nine further credit hours in Statistics courses (excluding those with second digit 0) including at least 6 credit hours in courses at the 4000 level or higher but not including Statistics 4599;
4. Chemistry 2440 (or 2400 and 2401), Biochemistry 2101 and 3106,
5. Biology 2060, 2250, 2600, 2900, one of 3401, 3402, 4245, or 4404. In addition, further Biology courses at the 2000, 3000 or 4000 level must be selected by the student in consultation with the supervisor to make up a minimum of 42 credit hours in Biology but not including Biology 499A or 499B.
7. A computing course. Computer Science 1510 is recommended.

### 4.1.12 Chemistry and Earth Sciences Joint Honours

The following courses, including prerequisites, where applicable, will be required:

1. **English 1080 and 1110 (or equivalents), Mathematics 1000 and 1001, Earth Sciences 1000 and 1002, Chemistry 1050 and 1051 (or 1010, 1011 and 1031) or their equivalents, Physics 1050 (or 1020) and 1051.**
2. Earth Sciences 2030, 2031, 2041, 2502, 2702, 2905, 3420, 3620, plus 6 additional credit hours in 3000-level Earth Sciences courses, and 9 additional credit hours in 4000-level Earth Sciences courses.
3. Chemistry 2100, 2210, 2301 (or 2300), 2302, 2400, 2401, 3500; plus 3211, 3303, 3410, and 3411 with the option of substituting up to 6 credit hours of these 3000-level courses with 4000-level Chemistry courses; and at least 3 additional credit hours in 4000-level Chemistry courses.
5. Biology 2120 (or Biology 1001 and 1002) or Biochemistry 2101.
6. An Honours Dissertation (Earth Sciences 499A/B or Chemistry 490A/B). The topic of the Honours Dissertation must have the prior approval of the Heads of the two Departments. A faculty member of either Department may act as supervisor.
7. Other courses to complete the prescribed minimum of 120 credit hours.

Any change in the program of study must have the prior approval of the Heads of the two Departments concerned.

### 4.1.13 Chemistry and Physics Joint Honours

The following courses are prescribed:

1. Mathematics 1000, 1001, 2000, 2050, 3202, and 2260 (or 3260).
2. Physics 1050 (or 1020) and 1051, 2055, 2750 or 2056, 2820, 3220, 3500, 3750, 3820, 3900, 4820, 3 additional credit hours in a
3. Chemistry 1050 and 1051 (or Chemistry 1010, 1011 and 1031; or Chemistry 1200 and 1001), 2100, 2102, 2300, 2300, 2401, 3210 or 3211, 3303, 3410, 3500, and 6 additional credit hours in Chemistry courses numbered 3000 or higher.

4. Either Chemistry 490A/B or Physics 490A/B.

5. 2 elective courses to bring the degree total to 120 credit hours.

6. English 1080 and English 1110 (or equivalent).

4.1.14 Computer Science and Geography Joint Honours (B.Sc. Only)

1. Computer Science Requirements

   See Regulations for the Honours Degree of Bachelor of Science.

   Forty-eight credit hours in Computer Science courses are required for the Joint Honours:
   a. 1710, 2710, 2711, 2742, 2760, 3715, 3716, 3719, 3724, 3725, 3754, 4751, 4770.
   b. Six additional credit hours in courses at the 4000 level not including 4780.
   c. Three additional credit hours in courses at the 3000 level or beyond.

2. Geography Requirements

   Forty-eight credit hours in Geography courses are required for the Joint Honours: 1050, 2001, 2102, 2195, 2226, 2302, 2425, 3202, 3222, 3226, 3250, 3260, 3303, 4202, 4250, 4261, and the former 4291.

3. Additional Requirements

   b. An Honours Dissertation (either Computer Science 4780 or Geography 4999). The topic for dissertation must be chosen with the prior approval of the Heads of both Departments.

4.1.15 Computer Science and Physics Joint Honours

The following courses are prescribed:

1. Chemistry 1050 and 1051 (or Chemistry 1010, 1011, and 1031).
   a. Computer Science 1710, 2710, 2711, 2742, 2760, 3715, 3716, 3719, 3724, 3725, 3731, 3754, 4770.
   b. Nine additional credit hours in Computer Science courses numbered 3000 or higher, including at least 6 credit hours in courses numbered 4000 or higher.
   a. Physics 1050 (or 1020) and 1051.
   b. Physics 2053, 2055, 2750 or 2056, 2820, 3220, 3400, 3500, 3750, 3820, 4500, 4820 and 3230 or 3900.

4. Physics 490A/B or Computer Science 4780.

5. Physics 3810 or Mathematics 3202.

   b. Mathematics 2000, 2050, 2260 (or 3260) and 2320.

Statistics 2550 is recommended.

The topic for the Honours project or thesis, Computer Science 4780 or Physics 490A/B, must be chosen with the prior approval of both Departments.

4.1.16 Computer Science and Pure Mathematics Joint Honours (B.Sc. Only)

See Regulations for the Honours Degree of Bachelor of Science. Students shall complete the following:

At least 51 credit hours in Computer Science courses are required including the following:

1. Computer Science 1710, 2710, 2711, 2742, 2760, 3715, 3716, 3719, 3724, 3725, 3731, 3754, 4770.

2. Excluding 4780, 15 additional credit hours from courses numbered 3000 or higher, at least 9 credit hours of which must be in courses at the 4000 level.

The following courses in Mathematics and Statistics are required:

2. Either Mathematics 4000 or 4001;
3. Excluding Mathematics 3330 and 4399, 15 additional credit hours in courses offered by the Department of Mathematics and Statistics numbered 3000 or higher including at least 9 credit hours from courses numbered 4000 or higher and at least 9 credit hours in Pure Mathematics courses;
4. An Honours Dissertation in one of the departments, with the topic chosen in consultation with both departments.

Note: There is an Undergraduate Advisor in each Department. These advisors should be consulted on all academic matters.

4.1.17 Computer Science and Statistics Joint Honours (B.Sc. Only)

See Regulations for the Honours Degree of Bachelor of Science. The following courses are required:

1. Mathematics 1000, 1001, 2000, 2050, 2051, 2320, 3340, Statistics 1510 or 2500 or 2550, 2501 or 2560, 3410, 3411, 3520, 3521, 3540, 4530, 4599;
2. Eighteen further credit hours in Statistics courses including at least 12 credit hours in courses numbered 4000 or higher, but not including Statistics 4581 and 4599;
3. Computer Science 1710, 2710, 2711, 2742, 2760, 3715, 3716, 3719, 3724, 3725, 3754, 4734, 4770.
4. Six additional credit hours in Computer Science courses at the 4000 level, not including 4780.
5. Either Computer Science 4780 or Statistics 4599.

4.1.18 Earth Sciences and Geography Joint Honours (B.Sc. Only)

The following courses will be required. A few prerequisites are not met by this list of courses, and students are advised to obtain advice
from instructors in such cases to be sure that they are prepared for course material. Both departmental Heads can advise students on a workable sequencing of courses to complete the degree in a timely manner, and students should view a student handbook that describes thematic streams within the program and offers specific guidance about course selection.

1. English 1080 or equivalent, English 1110 or equivalent, Geography 1050, Mathematics 1000 and 1001, Earth Sciences 1000 and 1002, one of Chemistry 1010 or 1050 (or equivalent) and one of Chemistry 1011 or 1051 (or equivalent), Physics 1050 and 1051, or Physics 1020 and 1021.

2. Geography 2001 or 2302, and Geography 2102, 2195, 2226, 2425 and 3226, Earth Sciences 2401 or 2502, and Earth Sciences 2030, 2031, 2702 and 2905.

3. Mathematics 2000 or Statistics 2550 or Geography 3222, Biology 1001 and 1002, or Biology 2120 or Physics 2055.

4. Either Earth Sciences 499A and 499B, or Geography 4990 and Geography 4999.

5. At least an additional 40 credit hours from Earth Sciences and Geography, with a minimum of 16 credit hours from Earth Sciences and 18 credit hours from Geography; and a minimum of 9 credit hours at the 4000-level in each discipline. Earth Sciences 2150, 2914, 2915, 2916, 2917, 2918, 4310, and 4950 cannot be used to fulfill this requirement. Geography 2105, 2290, 2405, 2460 and 2495 cannot be used to fulfill this requirement.

6. Additional credit hours selected to conform to the Regulations for the Honours Degree of Bachelor of Science so as to achieve a total of 120 credit hours.

Notes:
1. The topic of the Honours dissertation must be chosen with the approval of both Departments. A faculty member of either Department may act as supervisor.
2. Any change in the program of study must have the prior approval of the Heads of both Departments concerned.
3. The number of specified courses means that English 1110 will be taken normally in the second or third year of the program.
4. Students who do not satisfy the Regulations for the Honours Degree of Bachelor of Science - Academic Standing, but who successfully complete all the courses, with the exception of the Honours dissertation, and who satisfy all other requirements for the Bachelor of Science, will be eligible to receive a Bachelor of Science with a joint major in Geography and Earth Science.

4.1.19 Earth Sciences and Physics Joint Honours
This program was formerly in the Earth Sciences section of the calendar as an Honours B.Sc. Degree in Geophysics. The following courses will be required:

1. English 1080 and 1110 (or equivalent), Mathematics 1000 and 1001, Earth Sciences 1000 and 1002, Chemistry 1010 and 1011 (or equivalent), Physics 1050 (or 1020) and 1051.
2. Earth Sciences 2030, 2401, 2502, 2702, 2905, 3170, 3172, 3420, 3905, 4171, 4173, 4179.
3. Physics 2055, 2750 or 2056, 2820, 3220, 3230, 3500, 3820, 4820; plus 9 other credit hours in Physics courses at 3000 level or higher.
4. Mathematics 2000, 2050, 2260 (or 3260) and 3202.
5. Either Earth Sciences 499A/B or Physics 490A/B.
6. Other courses to complete at least a minimum of 120 credit hours.

Any change in the program of study must have the prior approval of the Heads of the two Departments concerned.

4.1.20 Geophysics and Physical Oceanography Joint Honours

The program requires the following courses:

1. English 1080 and 1110 (or equivalent), Chemistry 1050 and 1051 (or Chemistry 1010, 1011, and 1031), Mathematics 1000 and 1001, Earth Sciences 1000 and 1002, Physics 1050 (or 1020) and 1051.
2. Earth Sciences 2905, 3170, 3172, 4105, 4171, 4173, 4179 and 10 credit hours at the 2000 level or higher with at least 3 credit hours at the 3000 level.
3. Physics 2053, 2055, 2820, 3220, 3300, 3500, 3820, 4205, 4300, 4330, 4820 plus one of Physics 3600, 3150, 3400, 3550 or 3900.
4. Mathematics 2000, 2050, 2051, 2260 (or 3260) and 3202.
5. Either Earth Sciences 499A/B or Physics 490A/B.
6. Other courses to complete the prescribed minimum of 120 credit hours.

4.1.21 Pure Mathematics and Statistics Joint Honours

See Regulations for the Honours Degree of Bachelor of Science. The following courses are required:

1. Mathematics 1000, 1001, 2000, 2050, 2051, 2130, 2320, 3000, 3001, 3202, 3210, 3260, 4000, Statistics 1510 or 2500 or 2550, 2501 or 2560, 3410, 3411, 3520, 3521, 4402, 4410, 4530;
2. A computing course early in the program is required. Computer Science 1510 is highly recommended;
3. either Mathematics 4399 or Statistics 4599;
4. one of: Mathematics 3331 or 3340;
5. Eighteen further credit hours in Pure Mathematics and/or Statistics courses numbered 3000 or higher, excluding Mathematics 3330, of which at least 12 credit hours must be from courses numbered 4000 or higher excluding Statistics 4581.

4.2 Joint Majors

4.2.1 Applied Mathematics and Computer Science Joint Major (B.Sc. Only)

The following courses are required:

1. Computer Science 1710, 2710, 2711, 2742, 2760, 3715, 3716, 3719, 3724, 3725, 3754, 4770, plus 6 further credit hours in Computer Science courses numbered 3000 or higher.
2. Mathematics 1000, 1001, 2000, 2050, 2051, 2130, 2260 (or 3260), 2320, 3000, 3100, 3132, 3161, 3202, 4160, 4190, plus one of Mathematics 3210, 4131, 4132, 4162.

In addition, Statistics 2550 is highly recommended.
4.2.2 Applied Mathematics and Economics Joint Major (B.Sc. Only)
2. Either Mathematics 3132 and 4131 or 3161 and 4160.
3. A computing course early in the program is required. Computer Science 1510 is highly recommended.
5. Eighteen further credit hours chosen from among the various Economics courses in consultation with the Head of the Department or delegate, including at least 9 credit hours at the 4000 level.

4.2.3 Applied Mathematics and Physics Joint Major (B.Sc. Only)
Required course for this degree are:
1. English 1080 and English 1110 (or equivalent).
2. A computing course. Computer Science 1510 is recommended.
3. Six credit hours in science other than Mathematics or Physics (if Computer Science is chosen then Computer Science 1510 may be counted as 3 of these hours).
4. Mathematics 1000, 1001, 2000, 2050, 2051, 2260 (or 3260), 3000, 3001, 3132, 3202.
5. At least one of Mathematics 2130 or Mathematics 2320.
6. Physics 1050 (or 1020), 1051, 2053, 2055, 2750 (or 2056), 2820, 3220, 3400, 3500, 3750.
7. Mathematics 3161 or Physics 3820.
8. At least 15 additional credit hours chosen from Applied Mathematics and Physics courses numbered 3000 or above. At least 3 hours are required from Applied Mathematics and 6 hours are required from Physics.
9. A writing course. Any one of Mathematics 2130, Physics 3900, Mathematics 419A/B, or Physics 490A/B is acceptable.
The last requirement does not have to be met independently of the other regulations. For example, it can be satisfied either by choosing Mathematics 2130 from clause 5. above or choosing Physics 3900 as a 3000+ elective in clause 8. above.

4.2.4 Computer Science and Economics Joint Major (B.Sc. Only)
1. Computer Science Requirements
   Forty-two credit hours in Computer Science courses are required: 1710, 2710, 2711, 2742, 2760, 3715, 3716, 3719, 3724, 3725, 3731, 3753, 3754, and 4770.
2. Economics requirements
   A total of 42 credit hours in Economics courses are required: 2010, 2020, 2550, 3000, 3001, 3010, and 6 credit hours from either 3550 and 3551, or 4550 and 4551 are obligatory.
   The remaining 18 credit hours shall be chosen from among the various Economics courses in consultation with the Head of the Department or delegate, and will include at least 9 credit hours in courses at the 4000 level.

4.2.5 Computer Science and Geography Joint Major (B.Sc. Only)
1. Computer Science Requirements
   Thirty-nine credit hours in Computer Science courses are required: 1710, 2710, 2711, 2742, 2760, 3715, 3716, 3719, 3724, 3725, 3731, 3753, 3754, and 4770.
2. Geography Requirements
   Thirty-nine credit hours in Geography courses are required: 1050, 2001, 2102, 2195, 2302, 2425, 3202, 3222, 3250, 3260, 4202, 4250, 4261.

4.2.6 Computer Science and Physics Joint Major
1. Chemistry 1050 and 1051 (or Chemistry 1010, 1011, and 1031).
2. Thirty-nine credit hours in Computer Science are required for the Joint Major: 1710, 2710, 2711, 2742, 2760, 3715, 3716, 3719, 3724, 3725, 3731, 3754, 4751, and 4770.
3. Physics 1050 (or 1020) and 1051 plus at least 30 additional credit hours in Physics including 2053, 2055, 2750 (or 2056), 2820, 3220, 3400, 3500, 3550, 3750, 3900.
   c. Physics 3810 or Mathematics 3202.

4.2.7 Computer Science and Pure Mathematics Joint Major (B.Sc. Only)
In addition to Mathematics 1000, 1001, and Computer Science 1710, the following courses numbered 2000 or higher are required:
1. Computer Science 2710, 2711, 2742, 2760, 3715, 3716, 3719, 3724, 3725, 3754, 4770.
2. Six additional credit hours in Computer Science courses numbered 3000 or higher.
4. Nine additional credit hours in courses numbered 3000 or higher offered by the Department of Mathematics and Statistics, excluding Mathematics 3330.

4.2.8 Computer Science and Statistics Joint Major (B.Sc. Only)
The following courses are required:
1. Computer Science 1710, 2710, 2711, 2742, 2760, 3715, 3716, 3719, 3724, 3725, 3754, 4734, 4770.
2. Statistics 1510 or 2500 or 2550, and 2501 or 2560.
4. nine further credit hours in Statistics courses numbered 3000 or higher including at least a 3 credit hour course numbered 4000 or higher excluding Statistics 4581.

4.2.9 Earth Sciences and Physics Joint Major
This program was formerly in the Earth Sciences section of the calendar as a General B.Sc. Degree in Geophysics. The following courses will be required:
1. English 1080 and 1110 (or equivalent), Mathematics 1000 and 1001, Earth Sciences 1000 and 1002, Chemistry 1010 and 1011 (or equivalent), Physics 1050 (or 1020) and 1051.
2. Earth Sciences 2030, 2401, 2502, 2702, 2905, 3170, 3172, 3420, 3905; plus a 3 credit hour course in Earth Sciences 4100 series.
3. at least 30 credit hours in Physics courses at the 2000 level or higher, including Physics 2055, 2056 or 2750, 2820, 3220, 3500.
5. Other courses to complete at least a minimum requirement of 120 credit hours in courses for the General Degree.
Any change in the program of study must have the prior approval of the Heads of the two Departments concerned.

4.2.10 Economics and Pure Mathematics Joint Major (B.Sc. Only)
2. A computing course early in the program is required. Computer Science 1510 is highly recommended.
3. Economics: 2010, 2020, 2550, 3000, 3001, 3010, and 6 credit hours from either 3550 and 3551, or 4550 and 4551.
4. Eighteen further credit hours chosen from among the various Economics courses in consultation with the Head of the Department or delegate, including at least 9 credit hours at the 4000 level.

4.2.11 Economics and Statistics Joint Major (B.Sc. Only)
2. Six further credit hours in Statistics courses numbered 3000 or higher, at least 3 credit hours of which must be numbered 4000 or higher, excluding Statistics 3521 and 4581.
4. Eighteen further credit hours chosen from among the various Economics courses in consultation with the Head of the Department or delegate, including at least 9 credit hours at the 4000 level.

4.2.12 Economics (Co-operative) and Statistics Joint Major (B.Sc. Only)
The Joint Major in Economics (Co-operative) and Statistics Option is available to full-time Economics and Statistics majors (B. Sc.) only. The program is available under the Economics Co-operative Education Option (ECEO). The ECEO provides an excellent mutual opportunity for students and employers. Qualified students will obtain rewarding employment experience in fields related to Economics for several months of continuous duration. Students will learn valuable practical skills in an employment situation during their course of study. Furthermore, paid employment will help to defray the cost of their education. The timing of the Work Terms and the structure of the ECEO generally are such that employers stand to gain from the acquired employable skills of economists and statisticians in training. The objectives of the Work Term component of the ECEO are embodied in the Work Term descriptions below. The descriptions serve to guide the student and the employer toward achieving these objectives.

1. Admission Requirements
   a. Admission is competitive and selective. Therefore, prospective students are encouraged to consider an alternate degree program in the event that they are not accepted into the Joint Co-operative program.
   b. Applicants should note that it is possible to enter Term 1 only in the Fall semester commencing in September of each academic year. Application forms are available in the Department of Economics and the Department of Mathematics and Statistics. The deadline for applications for admission to Term 1 is March 1.
   c. The primary criterion used in reaching decisions on applications for admission is overall academic achievement. Students with weak overall academic records are unlikely to be admitted.
   d. To be eligible for admission to Term 1 an applicant must have successfully completed a minimum of 30 credit hours with an overall average of at least 65%; as follows: All applicants must have completed Economics 2010 and 2020; at least 6 credit hours in English; Mathematics 1000 and 1011; and 12 credit hours chosen from courses in the Faculties of Arts or Science. It is recommended that students complete English 1110. Critical Reading and Writing II (Context, Substance, Style) as one of these English courses.
   e. Students may apply for admission to Advanced Standing.
   f. Transfer students from other universities will be placed in that term of the program judged to be appropriate considering equivalent credits, as determined by the Departments.
2. Program of Study
   a. Promotion from each of Terms 1 through 6 requires a passing grade in all specified required courses and an overall average of at least 60% in all courses including electives. A student who fails a required course or fails to maintain an overall average of 60% will not be promoted to the next term and will be required to withdraw from the program. The student in question may apply for readmission in a subsequent year after passing the specified required course(s) previously failed, or re-establishing the 60% average.
   b. In addition to the 30 credit hours required for admission, students are required to complete the six academic terms in the ECEO program for a total of 120 credit hours. Students must complete three Work Terms which follow Academic Terms 2, 4, and 5.
   c. Courses shall normally be taken in academic terms or “blocks” in the sequenced course load and order set out in the Academic Course Program - Economics (Co-operative) and Statistics Joint Major (B.Sc. Only) Table. Unspecified credits may be used to fulfill elective requirements only.
   d. UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate) - Classification of Students
notwithstanding, students do not require special permission to register for courses while on work terms if the courses are in addition to the prescribed program.

3. Work Term Placement
See Regulations in Economics for the Major in Economics (Co-operative), in the Faculty of Arts section of the Calendar.

4. Registration and Evaluation of Performance
See Regulations in Economics for the Major in Economics (Co-operative), in the Faculty of Arts section of the Calendar.

Notes:
1. Another 1000-level Computer Science course may be substituted for Computer Science 1700 with the Heads' approvals.
2. Elective courses should be chosen with reference to the Regulations for the General Degree of Bachelor of Science, since courses specified for admission to and completion of the program only partially satisfy these regulations. In particular note that in addition to the 78 credit hours (26 courses) in Science subjects required, at least 3 credit hours in a Science subject other than Mathematics/Statistics, Economics and Computer Science must be completed.

4.3 Option Programs

4.3.1 Physics and Chemistry Option Programs
Students who follow the Physics/Chemistry Joint Honours Program of courses outlined above either as Honours students or otherwise and who satisfy all relevant course regulations except those on Academic Standing for the Honours Degree of Bachelor of Science shall receive on their University records a notation that they followed the “Physics/Chemistry” Option Programs.

Students who intend to follow a joint degree program are strongly recommended to consult the Head of the Department or delegate at their earliest opportunity to ensure proper planning of their course sequence.

5 Degree Regulations
Students must meet all regulations of the Faculty of Science in addition to those stated in the general regulations. For information concerning fees and charges, admission/readmission to the University, and general academic regulations (undergraduate), refer to UNIVERSITY REGULATIONS.

Upon meeting the qualifications for any of the programs of the Faculty of Science a student must apply by the appropriate deadline date to graduate on the prescribed "Application for Graduation " form. This form may be obtained on-line at the Memorial Self Service at www3.mun.ca/admit/twbkwbis.P_WWWLogin. Additional information is available from the Office of the Registrar at www.mun.ca/regoff/graduation/apply_grad.php.

5.1 Admission to the Department of Subject of Major

Admission to certain major programs within the Faculty is limited and competitive.

Admission to all major programs within the Faculty is upon formal application to the department of the subject of major after completion of the admission requirements.

Unless otherwise indicated by the Departmental Admission Regulations as published in the University Calendar under departmental regulations, students upon formal application by Change of Academic Program Form, are normally admitted to the department of major program upon successful completion of 30 credit hours which must include:
1. 6 credit hours in English courses
2. 6 credit hours in Mathematics courses
3. 6 credit hours in courses from each of two Sciences other than Mathematics

Students seeking admission to departments with Departmental Admission Regulations as indicated above must apply for admission on the appropriate Departmental Application for Admission Form upon completion of the specified admission requirements.

5.2 Limited Enrolment Courses

Certain course offerings in the Faculty of Science will be identified as being Limited Enrolment Courses and will be clearly identified as such in the University Timetable. Students who have registered for a Limited Enrolment Course must confirm their registration either (1) by attending at least one of the first three hours of lecture in the course and the first meeting of any laboratory section of the course; or (2) by notifying the department in writing within the first five university working days of the semester. Students who do not confirm their
5.3 Regulations to Govern Supplementary Examinations in the Departments of Biochemistry, Computer Science, Mathematics and Statistics, and Physics and Physical Oceanography

1. Supplementary examinations will be allowed in certain of the Biochemistry, Computer Science, and Physics and Physical Oceanography courses, and all Mathematics and Statistics courses which have written final examinations. In each course, students will be informed as to the possibility of a supplementary examination during the first week of classes. This information will be provided in writing, as part of the evaluation scheme for the course.

2. Supplementary examinations will be similar in length and degree of difficulty as the original final examination.

3. Students who wish to write supplementary examinations must apply in writing to the department within one week of release of grades.

4. A student who has clear or conditional standing may write a supplementary examination in a course if the final grade obtained is 45-49F and if his or her term mark is at least 50%.

5. To pass the course, the student, must pass the supplementary examination. If the student passes the supplementary examination, then a new grade will be calculated using the same weighting scheme as used in the course, but with the result of the supplementary examination replacing that of the original final examination. Any additional course requirements, including a requirement to pass the laboratory component of a course, will continue to apply.

6. If the new course grade is higher than the original, it will replace the original grade on the student's transcript, subject to the condition that the final mark will not exceed the student's term mark. The student's transcript will indicate that the course result was earned as the result of a supplementary examination.

7. Supplementary examinations will be written no later than the first week of the semester immediately following the one in which the course was failed. Normally they will coincide with the writing of deferred examinations. Grades for supplementary examinations will be submitted to the Office of the Registrar within one week following the commencement of classes for that semester.

8. A student may write a supplementary examination for any one registration in a course only once; if the course result following the supplementary examination is a fail then the course must be repeated in order to obtain credit.

5.4 Regulations for the General Degree of Bachelor of Science

1. For the General Degree of Bachelor of Science a candidate will be required to complete, subject to the following Regulations, 120 credit hours applicable to the degree which shall include:
   a. Six credit hours in English courses
   b. Six credit hours in Mathematics courses
   c. Six credit hours in courses from each of two Sciences other than Mathematics

2. a. Courses shall be chosen so that a candidate shall have completed an approved concentration of courses in one subject to be known as the candidate's Major. For the purposes of these regulations, candidates may complete only one major from departments which offer more than one. In selecting courses in their Major, candidates must comply with the Departmental Regulations approved by the Senate and printed in the Calendar. The Departmental Regulations shall require not fewer than 36 nor more than 45 credit hours in courses from the subject of the Major (including the courses in that subject completed at the first year level). (See also Notes 1. and 2.).
   b. The subject of the candidate's major shall be that declared by the candidate on the appropriate admission form and approved by the department at the time of admission.
   c. The 36 or more credit hours in courses from one subject referred to in a. above, may be chosen from the following subjects, and may include courses in that subject which were completed at first-year level: Biology (see Note 4.), Biochemistry (see Note 6.), Chemistry, Computer Science, Earth Sciences, Economics, Geography, Mathematics (except the former 1150 and 1151) and Statistics, Physics, Psychology.
   d. A candidate may change the subject of the Major during any Regular Registration Period provided he or she has first applied for and received acceptance by the department to which application is being made.
   e. In those Departments which offer programs leading to both a degree of Bachelor of Arts and a degree of Bachelor of Science, students are free to choose the degree program they wish to follow and may change from one to the other; however, they may not obtain both degrees in the same Major subject at this University.

3. Further courses may be chosen from any of the subjects listed in Clause 2. above, or from other courses approved by the Committee on Undergraduate Studies of the Faculty of Science (see Note 5.), provided that, of the 120 credit hours required:
   a. candidate shall have completed at least 78 credit hours in courses from the subjects listed in Clause 2. above, including the Major courses and the courses required for admission; See Notes 3. and 5.
   b. there shall be not fewer than five subjects in which a candidate shall have completed courses. At least four of these subjects shall be chosen from the subjects listed in Clause 2. above. In the case of unspecified transfer credits awarded in a subject area not taught at Memorial University of Newfoundland any number of such transfer credits in the aggregate shall count as one subject area.
   c. not more than 15 unspecified transfer credit hours awarded in a subject area not taught at Memorial University of Newfoundland shall be used to satisfy the requirements of the degree.

4. Before a candidate registers, the Head of the Department of his or her Major, or delegate, shall approve a candidate's program which is in accordance with the above regulations. The Head of the Department or delegate shall advise each candidate of programs not obtainable both degrees in the same Major subject at this University.

5. To obtain a general degree of Bachelor of Science a candidate shall have:
   a. satisfied the conditions of UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate), Graduation - Application for Graduation - Degrees, Diplomas and Certificates;
   b. obtained an average of at least 2.0 points per credit hour in the 78 credit hours in Science required for the degree;
   c. obtained an average of at least 2.0 points per credit hour in the minimum number of credit hours in the major subject (or, in the case of joint majors, subjects) required for the major program (or, in the case of joint majors, programs).

6. Where a student satisfies the separate departmental regulations for a major in two or more subjects for which a specific joint
program does not exist, such subjects shall be recognized as the major subjects for the general degree of Bachelor of Science.

7. A candidate may complete a minor of at least 24 credit hours in courses from a subject area other than that of the Major chosen from Clause 2. c. above or from minors available in the Faculty of Arts, the Faculty of Business Administration, and the School of Music. (It should be noted that because of departmental regulations for the Major, not every candidate may be able to fit a minor into his or her 120 credit hour program).

a. The subject of the candidate’s minor shall be that declared by the candidate on the Change of Academic Program Form which must then be signed by the Head of the Department of the Minor.

b. A candidate must follow the departmental regulations for the Minor as set forth in the appropriate section of the Calendar.

c. The Head of the Department of the Minor will advise the candidate on the selection of courses in the Minor.

d. Students who have taken courses appropriate to their Minor at another university are required to complete at least 6 credit hours in courses from that subject at this University. These courses must be chosen in consultation with the Head of the Department of the Minor program.

e. A candidate must obtain a grade point average of at least 2.0 in the credit hours prescribed for the minor program.

Notes:
1. Departmental regulations are not intended to debar students from taking more than the required courses in the subject of their Major.
2. Students who have taken courses in the subject of their Major at another university are required to complete at least 12 credit hours in courses from that subject at this University.
3. The former Science 2010/2011 may be used to fulfill part the requirement of 78 credit hours in Science.
4. Biology 2120 may not be used for credit by Biology Majors.
5. When Science course equivalents have been established by Department Heads for Engineering courses, credit may not be obtained for both the Engineering course and the established equivalent course offered by the Faculty of Science.
6. In the case of Biochemistry the courses for the Biochemistry program shall include Chemistry 2400 and 2401.

5.5 Regulations for the Honours Degree of Bachelor of Science

A program is offered leading to the Honours Degree of Bachelor of Science. An Honours degree offers greater specialization in a given field of knowledge than a General degree, and requires higher than average academic achievement. Possession of this degree will be of great advantage to all students planning more advanced work in their chosen field. In many cases, an Honours degree is a prerequisite for admission to a graduate program.

5.5.1 Admission and Registration

1. A student who wishes to be admitted to any of the Honours programs must submit an “Application for Admission to Honours Program Faculties of Arts or Science”. This form is available at www.mun.ca/regoff/Application_for_Admission_to_Honours.pdf. This form shall be submitted to his (her) Department(s) of specialization and to the Registrar not earlier than the beginning of his (her) fifth semester, or the equivalent, at University, and not later than the final date set for the application for a degree. A candidate for an Honours degree must have completed all courses listed under Admission to the Department of Subject of Major before declaring his (her) intent to pursue an Honours degree, regardless of whether these courses had been completed at the time of admission to his (her) Department of specialization.

Note: An otherwise qualified student who fails to declare his (her) intention to obtain an Honours degree on or before the last day of the period outlined above shall be awarded a General degree even if he (she) fulfills all other requirements for an Honours degree. The University cannot undertake to notify him (her) that he (she) may be eligible for an Honours degree.

2. At the beginning of each registration period the Head(s), or delegate(s), of the Department(s) in which a candidate is taking Honours, shall advise the candidate of the requirements for his (her) program. The Head(s) of the Department(s), or delegate(s), shall advise each candidate of programs suitable for his or her particular needs.

3. Students who have been awarded a Bachelor of Science (General) degree may convert it to a Bachelor of Science (Honours) degree by declaring their intention and by completing the requirements for the Honours degree as outlined in these regulations.

4. To graduate, a candidate for an Honours degree must have completed all courses listed under Admission to the Department of Subject of Major in addition to those courses required by individual departmental regulations.

5.5.2 Course Requirements

1. a. For the Honours Degree of Bachelor of Science with a single subject major a candidate will be required to have completed 120 prescribed credit hours in courses. For the Joint Honours Degree of Bachelor of Science a candidate will be required to have completed either 120 or 135 credit hours as prescribed by the specific program. In either case, those courses must include the courses specified in Clause 1. of the Regulations for the General Degree of Bachelor of Science.

b. Clause 1.a. notwithstanding, certain Departmental regulations preclude the possibility of completing a single subject Honours degree in 120 credit hours and may require the completion of 123, 126 or 129 credit hours in courses. (See Note below). In such cases all courses required to satisfy requirements of the degree will be used to determine Academic Standing, 2. below.

Note: The requirements for an Honours Degree of Bachelor of Science cannot be completed in 120 credit hours if any of the following three statements is true: (1) the student is a major in Chemistry, or Physics and has completed the former Mathematics 1080; (2) the student is a major in Chemistry or Physics and has completed the former Chemistry 1800; (3) the student is a candidate for the Honours B.Sc degree in Chemistry or Physics and has completed Physics 1021. Such students will only meet the degree requirements after completing 123, 126 or 129 credit hours in courses.

2. Courses shall be chosen so that a candidate shall have completed:

Either, (1) at least 60 credit hours from courses in one of the following subjects, including the courses in that subject completed at the first year level: Biology, Biochemistry, Chemistry, Computer Science (See Note 2.), Earth Sciences, Economics, Geography, Mathematics and Statistics, Physics and Psychology.

Notes: 1. For options in the Biochemistry and Nutrition programs the courses shall be those specified in the respective programs.
2. For the Behavioural Neuroscience Program, the courses shall be those specified in the program.
3. For the Environmental Physics Program, the courses shall be those specified in the program.

or, (2) at least 84 credit hours in courses from two subjects listed in (1) above, including the courses in these subjects completed at the first year level, with no fewer than 36 credit hours in either subject approved by the Committee on Undergraduate Studies of the Faculty of Science on the recommendation of the respective Heads of Departments.

or, (3) in special circumstances, a program of at least 90 credit hours in courses from two or more subjects, including the courses in these subjects completed at the first year level, one of which need not be taken from those listed in (1) above, as recommended by the Heads of the Departments concerned and approved by the Committee on Undergraduate Studies of the Faculty of Science.

3. Further courses may be chosen from any of the subjects listed in Clause 2. above, or from other courses recognized for this purpose.
by the Committee on Undergraduate Studies of the Faculty of Science (see Note 5 of the Bachelor of Science General Degree) provided that, of the 120 or more credit hours required:

1. a candidate shall have completed at least 90 credit hours in courses from the subjects listed in Clause 2. above, including those completed at the first-year level, and
2. there shall be no fewer than four subjects in which a candidate shall have completed courses. In the case of unspecified transfer credits awarded in a subject area not taught at Memorial University of Newfoundland, any number of such transfer credits in the aggregate shall count as one subject area.
3. Not more than 15 unspecified transfer credit hours in courses awarded from a subject area not taught at Memorial University of Newfoundland shall be used to satisfy the requirements of the degree.

5.5.3 Comprehensive Examination and Dissertation

1. In addition to the regular examinations, a candidate in an Honours program shall pass a general comprehensive examination in his (her) Major subject or subjects. Alternatively, a candidate may be required to submit a dissertation, which at the discretion of the Head(s) of the Department(s) of specialization may be followed by an oral examination thereon.
2. If a candidate is required to submit a dissertation, such dissertation must be submitted to the University Library before the degree is conferred. All Honours dissertations in the University Library shall be available for unrestricted consultation by students and faculty except under very exceptional circumstances which must be approved by the head of the academic unit of the student’s program. Copyright remains with the author. A release form, signed by both the student and the head of the academic unit of the student’s program, must accompany an essay or a dissertation when it is submitted to the University Library.
3. The deadline for the submission of Honours dissertations shall be no later than three weeks before the end of the final semester of the candidate’s program.
4. The Honours dissertation shall be equivalent to either a 3 credit hour course or a 6 credit hour linked course as specified in the course offerings of each Department.

5.5.4 Departmental Regulations

Candidates for Honours Degrees shall also comply with such additional requirements of the appropriate Department(s) as are approved by the Senate and printed in the Calendar.

5.5.5 Residence Requirements

1. To qualify for an Honours Degree in Science, a candidate shall attend a recognized university or an equivalent institution for at least seven semesters as a full-time student. Honours candidates transferring credits to Memorial University of Newfoundland from other universities or equivalent institutions shall either spend a minimum of four of the seven semesters as full-time students at Memorial University of Newfoundland, and take a minimum of 24 credit hours in courses from their Honours discipline or take a minimum of 36 credit hours in courses from their Honours discipline as full-time students at Memorial University of Newfoundland (whichever is to their advantage), provided that the total number of semesters spent as full-time students at this and other recognized universities or equivalent institutions will not be less than seven.
2. To qualify for an Honours Degree in Science and additionally a second degree, a candidate shall attend this University for at least ten semesters as a full-time student, except with the special permission of the Faculty Committee on Undergraduate Studies.

5.5.6 Academic Standing

In order to graduate with an Honours degree, a candidate shall obtain:

1. a grade of “B” or better, OR an average of 75% or higher (whichever is to the candidate’s advantage) in the minimum number of courses in the Honours subject (or subjects) prescribed by the Department (or, in the case of joint Honours, Departments) concerned, excluding the 1000-level courses, and
2. an average of at least 2.75 points on the total number of courses required for the degree (see UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate), Grading for explanation of the point system).

Note: A student may, with the approval of the Head of the Department and the Committee on Undergraduate Studies, repeat or substitute up to three courses in order to meet the requirements of Clause 1. above. In counting repeats, each attempt at the same course will count as one course towards the maximum. That is, the same course, repeated three times, would place a student at the maximum and no additional repeats or substitutions would be allowed.

5.5.7 Classification of Degrees

1. If the candidate’s general average is 3.25 or better per required course, and his (her) average for the courses in his (her) Honours subject (excluding 1000-level courses) is 3.50 or better, he (she) shall be awarded an Honours degree with First Class standing.
2. If the candidate fulfills the conditions outlined under Academic Standing but not of Clause 1. above., he (she) shall be awarded an Honours degree with Second Class standing.
3. No classification will be given to the degree awarded a candidate who has completed (1) fewer than one half of the courses required for the degree at this University, or (2) who has completed fewer than one half of the courses required for the degree at this University since 1959. All candidates for such degrees shall, however, fulfill the conditions outlined under Academic Standing on the courses taken at the University since September, 1959, in order to qualify for the degree.
4. A declared candidate for an Honours degree who fails to attain the academic standing specified under Academic Standing but fulfills the academic requirements for a General Degree shall be awarded a General Degree, the classification of which shall be determined in accordance with the UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate), Graduation.

6 Waiver of Regulations for Undergraduate Students

Where circumstances warrant, any prerequisite or prerequisites listed in Departmental Regulations may be waived by the Head of the Department. Any Department Regulations may be waived by the appropriate Committee on Undergraduate Studies upon request of the Head of the Department concerned.

Students wishing waiver of University academic regulations should refer to UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate) - Waiver of Regulations.
7 Appeal of Decisions

Any student whose request for waiver of Faculty regulations has been denied has the right to appeal. For further information refer to UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate) - Appeal of Decisions.

8 Program Regulations

8.1 Biochemistry

www.mun.ca/biochem/about_us/
The following undergraduate programs are available in the Department:
1. Biochemistry and Cell Biology/Microbiology Joint Honours
2. Biochemistry and Chemistry Joint Honours
3. Biochemistry and Physics Joint Honours
4. Biochemistry and Psychology (Behavioural Neuroscience Joint Honours)
5. Biochemistry (Nutrition) and Psychology (Behavioural Neuroscience) Joint Honours
6. Major or Honours in Biochemistry
7. Major or Honours in Nutrition
8. Minor in Biochemistry

Students who wish to enrol in any of these programs should plan their program well in advance so that they will have taken the appropriate prerequisites. Entry to a number of required courses is limited and will be determined by academic performance. Required courses should be taken in the year indicated by the course numbers so as to avoid timetable clashes and missing prerequisites which could prolong the time necessary to complete the program. Students are advised to consult with the Department at the earliest opportunity.

Candidates for the general and honours degrees in the programs above should refer to the Faculty of Science Degree Regulations for the General and Honours degrees of Bachelor of Science.

Candidates for a minor in Biochemistry should refer to the Regulations for the General Degree of Bachelor of Science, Clause 7.

Students who intend to pursue graduate studies should take the courses leading to the honours degree.

Biochemistry course descriptions are found at the end of the Faculty of Science section under Course Descriptions, Biochemistry.

Note: Supplementary examinations will be allowed in certain Biochemistry courses which have written final examinations. Students should refer to the Faculty of Science Degree Regulations for details.

8.1.1 Admission to Programs

Students who wish to declare a Major in Biochemistry or Biochemistry (Nutrition) or who wish to apply for Honours standing in any of our programs are strongly recommended to do so by May 31 in any year. Failure to apply by the recommended date may result in your application not being processed before your registration time. In addition, students who do not declare by this date may not be considered for departmental scholarships or other awards.

8.1.2 Major in Biochemistry

Entry to the Biochemistry Majors program is based on academic standing.

1. To be considered for admission to the program, students must have at least 30 credit hours in courses and have successfully completed the following courses (or their equivalents) with a minimum overall average of 60%. In addition, students must be eligible for entry to Chemistry 2400.
   a. English 1080, 1110 (or equivalent)
   b. Chemistry 1050, 1051 (or Chemistry 1010, 1011 or 1200, 1001)
   c. Mathematics 1000, 1001 (or Mathematics 1090, 1000)
   d. Physics 1050, 1051 (or Physics 1020, 1021), or Biology 1001, 1002

2. Required courses to complete the major:
   a. Biochemistry 2100, 2101, 3105, 3106, 3107, 3108.
   b. At least 12 credit hours in courses from Biochemistry 2600, 3203, 4002, 4101, 4103, 4104, 4200, 4201, 4230-4239.
   c. Medicine 310A/B or 6 credit hours from Biochemistry 4240-4249, Biology 2060, 3050, 3401, 3402, 3530, 4200, 4245, 4404, Chemistry 4201.
   d. Biology 1001 and 1002, Mathematics 1001; and Physics 1020 or 1050, and 1051 for those students who did not complete them in first year. Students may also need to complete Physics 1021 in order to fulfill this requirement.
   e. Chemistry 1031 is required for students who complete Chemistry 1010 and 1011. It is strongly recommended that these students complete Chemistry 1031 prior to second year. See Note 2 below.
   f. Chemistry 2300 or 2301, or Physics 2053; Chemistry 2400, 2401
   g. One of Chemistry 2100, Environmental Sciences 3210, Environmental Sciences 3211.

Notes: 1. Students are required to complete at least 78 credit hours in Science courses for the General Degree.
   2. Majors who take Chemistry 1010/1011 but not Chemistry 1031 as part of their first year sequence risk waiting a whole year before they can continue taking Biochemistry program courses.
   3. For the purposes of a Biochemistry degree, Medicine 310A/B count as Biochemistry courses.

3. Students are encouraged to choose a minor.

8.1.2.1 Honours Degree in Biochemistry

Students normally should apply for an Honours program at the completion of their third year of studies. Honours students would normally follow the Biochemistry Majors program before applying to honours, and must meet its admissions requirements as follows:

1. To be considered for admission to the majors program prior to admission to honours, students must have at least 30 credit hours in courses and have successfully completed the following courses (or their equivalents) with a minimum overall average of 60%. In
addition, students must be eligible for entry to Chemistry 2400.

a. English 1080, 1110 (or equivalent)
b. Chemistry 1050, 1051 (or Chemistry 1010, 1011, or 1200, 1001)
c. Mathematics 1000, 1001 (or Mathematics 1090, 1000)
d. Physics 1050, 1051 (or Physics 1020, 1021) or Biology 1001, 1002

2. To be eligible for admission, students must be in Honours standing. To be considered for early admission to an Honours program in Biochemistry at the end of second year, students must have achieved at least 70% in each of Biochemistry 2100 and 2101 and Chemistry 2400, 2401.

3. Required courses:

   a. Biochemistry 2100, 2101, 3105, 3106, 3107, 3108, 4102, 499A, 499B, Medicine 310A/B.
   b. Biochemistry 4210 or 4211.
   c. Twelve credit hours in courses from Biochemistry 4002, 4101, 4103, 4104, 4200, 4201, 4230-4239.
   d. At least 6 credit hours in courses from Biochemistry 2600, 3203, 4105, 4220, 4240-4249, Biology 2060, 3050, 3530, 4200, 4245, 4404, Chemistry 4201.
   e. Biology 1001 and 1002; Mathematics 1001; and Physics 1020 or 1050, and 1051 for those students who did not complete them in first year. Students may also need to complete Physics 1021 in order to fulfill this requirement.
   f. Chemistry 1031 is required for students who complete Chemistry 1010 and 1011. It is strongly recommended that these students complete Chemistry 1031 prior to second year. (see Notes below).
   g. Chemistry 2300 or 2301 or Physics 2053, Chemistry 2400, 2401, one of Chemistry 3410 or 3411.
   h. One of Biochemistry 2100, Chemistry 3500, Environmental Sciences 3210, Environmental Sciences 3211.
   i. Statistics 2550 or equivalent.

   Notes: 1. Majors who take Chemistry 1010/1011 but not Chemistry 1031 as part of their first year sequence risk waiting a whole year before they can continue taking Biochemistry program courses.
   2. For the purposes of a Honours Degree in Biochemistry, Medicine 310A/B count as Biochemistry courses.

4. Students are encouraged to choose a minor.

Those courses in which a grade “B” or an average of 75% or higher are required, as specified under Academic Standing, clause 1. of the Regulations for the Honours Degree of Bachelor of Science, are 45 credit hours in Biochemistry courses and 15 credit hours in other courses (beyond the 1000-level) chosen from Biochemistry, Biology, or Chemistry. Biology 2040, 2041 and the former Chemistry 2600, the former Chemistry 2601 may not be used to meet this requirement. Medicine 310A/B counts as Biochemistry for these 60 credit hours.

8.1.2.2 Minor in Biochemistry

Students who take a minor in Biochemistry will complete:

1. Biochemistry 2101, 3106
2. One of Biochemistry 2100, 2600, Biology 2250.
3. Nine credit hours in Biochemistry at the third or fourth year level; or 6 credit hours in Biochemistry at the third or fourth year level and Biology 3050.
4. Either Chemistry 2400, 2401 or Chemistry 2440 and 3 additional credit hours from the Biochemistry courses listed in 3. above.

Course prerequisites stipulated in the course descriptions shall apply to a minor in Biochemistry.

Note: For the purposes of a Biochemistry minor, Medicine 310A/B count as Biochemistry courses.

8.1.3 Nutrition Program

8.1.3.1 Major in Nutrition

Entry to the Nutrition majors program is based on academic standing.

1. To be considered for admission to the program students must have at least 30 credit hours in courses and have successfully completed the following courses (or their equivalents) with a minimum overall average of 60%.
   a. English 1080, 1110 (or equivalent)
   b. Chemistry 1050, 1051 (or Chemistry 1010, 1011 or 1200, 1001)
   c. Mathematics 1090, 1000 (or Mathematics 1000 and one elective)
   d. Biology 1001, 1002 or Physics 1020, 1021 (or equivalent)
2. Required courses to complete the major:
   a. Biochemistry 2000 or 2005, 2100, 2101, 2600, 3106, 3203, 3402, 4300, 4301, Medicine 310A/B
   b. Six credit hours in courses from Biochemistry 3052, 3107, 3108, 3202, 3600, 4002, 4101, 4103, 4104, 4200, 4201, 4230-4249, Biology 3050.
   c. Biology 1001 and 1002; and Physics 1020 and 1021 (or equivalent), for those students who did not complete them in first year
   d. Chemistry 2440 (or Chemistry 2400, 2401)
   e. Statistics 2550 or equivalent
3. Students are encouraged to choose a minor.

Notes: 1. Students are required to complete at least 78 credit hours in Science courses for the General Degree.
   2. Students who choose to complete Chemistry 2400/2401 are advised to take the appropriate prerequisites for those courses.
   3. For the purposes of a Biochemistry (Nutrition) degree, Medicine 310A/B count as Biochemistry courses.

8.1.3.2 Honours Degree in Nutrition

Students normally should apply for an Honours program at the completion of their third year of studies. Honours students would normally follow the Biochemistry (Nutrition) Majors program before applying to honours, and must meet its admissions requirements as follows:

1. To be considered for admission to the majors program prior to admission to honours, students must have at least 30 credit hours in
courses and have successfully completed the following courses (or their equivalents) with a minimum overall average of 60%:

a. English 1080, 1110 (or equivalent)
b. Chemistry 1050, 1051 (or Chemistry 1010, 1011, or 1200, 1001)
c. Mathematics 1090, 1000 (or Mathematics 1000 and one elective)
d. Biology 1001, 1002 or Physics 1020, 1021 (or equivalent)

To be eligible for admission to the honours program, students must be in Honours standing. To be considered for early admission to an Honours program in Nutrition at the end of second year, students must have achieved at least 70% in each of their required 2000 level Biochemistry and Chemistry courses.

3. Required courses:
   b. Twelve additional credit hours chosen from Biochemistry 3052, 3105, 3108, 3202, 4101, 4103, 4104, 4105, 4200, 4201, 4210, 4211, 4220, 4230-4249, Biology 3050.
   c. Biology 1001 and 1002; and Physics 1020 and 1021 (or equivalent), for those students who did not complete them in first year.
   d. Chemistry 2440 (or Chemistry 2400, 2401).
   e. Statistics 2550 or equivalent.

4. Students are encouraged to choose a minor.

5. Those courses in which the grades specified under Academic Standing, clause 1 of the Regulations for the Honours Degree of Bachelor of Science are 60 credit hours chosen from Biochemistry courses and Biology 3050.

8.2 Biology
www.mun.ca/biology/Home/
The following undergraduate programs are available in the Department:
   1. Biochemistry and Cell Biology Joint Honours
   2. Biology and Earth Sciences (Geology) Joint Honours
   3. Biology and Psychology Joint Honours
   4. Biology and Psychology (Behavioural Neuroscience) Joint Honours
   5. Biology and Statistics Joint Honours
   6. Major or Honours in Biology
   7. Major or Honours in Biology (Cell and Molecular)
   8. Major or Honours in Biology (Ecology and Conservation)
   9. Major or Honours in Biology (Marine)
   10. Minor in Biology

Details of joint programs are given after the Regulations for the Honours Degree of Bachelor of Science.

Biology course descriptions are found at the end of the Faculty of Science section under Course Descriptions, Biology.

8.2.1 Entrance Requirements
Entry to the Biology Majors Program is competitive and based on academic standing.

To be considered for admission to the program students must have completed Biology 1001/1002 with an average of at least 65%. In addition, applicants will normally have completed the following courses (or their equivalents) and must have a minimum overall average of 60% in these courses.

1. English 1080, 1110 or equivalent
2. Mathematics 1090 and Mathematics 1000 (or Mathematics 1000 only)
3. Chemistry 1010/1011 (or equivalent) or Physics 1020/1021 (or equivalent)
4. If Mathematics 1000 taken, any one other first year course.

Chemistry 1010/1011 (or 1050/1051) should be taken in the first year, as it is a prerequisite for other required courses in the programs, and delaying chemistry until second year may make it difficult to complete the program in the normal eight semesters.

8.2.2 Minor in Biology
A minor in Biology will consist of 24 credit hours in Biology courses: 1001 and 1002 (or equivalent) plus any 18 credit hours chosen from the list of Biology courses except Biology 2040, 2041, 2120, and 3053. The choice of courses must be made in consultation with the Head of Biology or delegate and it is recommended (but not required) that students take at least two Biology courses at the 3000 level or above.

8.2.3 General Degrees
Each Major is assigned a faculty advisor who should be consulted on academic problems, including course selection.

8.2.3.1 Major in Biology
All students majoring in Biology are required to complete a minimum of 45 credit hours in courses from the Department of Biology offering. Those 45 credit hours must include: Biology 1001 and 1002 or their equivalents; the 15 credit hours in core courses listed below; and 24 credit hours in Biology electives at the 2000, 3000 or 4000 level.

Biology Core (15 credit hours): Biology 2060, 2250, 2600, 2900, plus one of Biology 3401, 3402, 4245 and 4404.

A maximum of 9 credit hours can be in Biology courses with no associated laboratory/seminar.

All majors must also successfully complete the following courses or their equivalents:
1. English 1080 and 1110 (or equivalent)
2. Physics 1020 and 1021 (or equivalent)
3. Mathematics 1000
4. Chemistry 1010 and 1011 (or equivalent), Chemistry 2440
5. Statistics 2550
6. Biochemistry 2101 and 3106
7. Extra Science courses as necessary to fulfill the requirement for 78 credit hours in Science as stipulated in Clause 3.a. of the Regulations for the General Degree of Bachelor of Science.

It is recommended, but not required, that a Computer Science course be included and the Department of Biology strongly recommends Computer Science 2650.

Note: To minimize timetabling problems, students on the St. John's campus are advised to take Biology 2250 and 2600 in their third semester (Fall), and 2060 and 2900 in their fourth semester (Winter).

8.2.3.2 Major in Biology (Cell and Molecular)

All students majoring in Biology (Cell and Molecular) are required to complete a minimum of 45 credit hours in courses from the Department of Biology offering. Those 45 credit hours must include: Biology 1001 and 1002 or their equivalents; the 15 credit hours in core courses listed below; Biology 2650 and 4651; 6 credit hours from the recommended Biology courses for Biology (Cell and Molecular) listed below; and 12 credit hours from Biology electives at the 2000, 3000 or 4000 level.

Biology Core (15 credit hours): Biology 2060, 2250, 2600, 2900, plus one of Biology 3401, 3402, 4245 and 4404.

Recommended Biology courses for Biology (Cell and Molecular) are 3050, 3052, 3401, 3402, 3500, 3620, 3950, 3951, 4010, 4040, 4050, 4200, 4245, 4250, 4251, 4255, 4404, 4505, and 4605.

A maximum of 9 credit hours can be in Biology courses with no associated laboratory/seminar.

All majors must also successfully complete the following courses or their equivalents:

1. English 1080 and 1110 (or equivalent)
2. Physics 1020 and 1021 (or equivalent)
3. Mathematics 1000
4. Chemistry 1010 and 1011 (or equivalent), Chemistry 2440
5. Statistics 2550
6. Biochemistry 2101 and 3106
7. Extra Science courses as necessary to fulfill the requirement for 78 credit hours in Science as stipulated in Clause 3.a. of the Regulations for the General Degree of Bachelor of Science.

It is recommended, but not required, that a Computer Science course be included and the Department of Biology strongly recommends Computer Science 2650.

Note: To minimize timetabling problems, students on the St. John's campus are advised to take Biology 2250 and 2600 in their third semester (Fall), and 2060 and 2900 in their fourth semester (Winter).

8.2.3.3 Major in Biology (Ecology and Conservation)

All students majoring in Biology (Ecology and Conservation) are required to complete a minimum of 45 credit hours in courses from the Department of Biology offering. Those 45 credit hours must include: Biology 1001 and 1002 or their equivalents; the 15 credit hours in core courses listed below; Biology 2650 and 4651; 6 credit hours from the recommended Biology courses for Biology (Ecology and Conservation) listed below; and 12 credit hours from Biology electives at the 2000, 3000 or 4000 level.

Biology Core (15 credit hours): Biology 2060, 2250, 2600, 2900, plus one of Biology 3401, 3402, 4245 and 4404.

Recommended Biology courses for Biology (Ecology and Conservation) are 3041, 3050, 3295, 3300, 3610, 3620, 3640, 3709, 3710, 3711, 3714, 3715, 3750, 4040, 4141, 4182, 4250, 4306, 4307, 4360, 4405, 4505, 4605, 4620, 4630, 4701, 4710, 4750, and 4820.

A maximum of 9 credit hours can be in Biology courses with no associated laboratory/seminar.

All majors must also successfully complete the following courses or their equivalents:

1. English 1080 and 1110 (or equivalent)
2. Physics 1020 and 1021 (or equivalent)
3. Mathematics 1000
4. Chemistry 1010 and 1011 (or equivalent), Chemistry 2440
5. Statistics 2550
6. Biochemistry 2101 and 3106
7. Extra Science courses as necessary to fulfill the requirement for 78 credit hours in Science as stipulated in Clause 3.a. of the Regulations for the General Degree of Bachelor of Science.

It is recommended, but not required, that a Computer Science course be included and the Department of Biology strongly recommends Computer Science 2650.

Note: To minimize timetabling problems, students on the St. John's campus are advised to take Biology 2250 and 2600 in their third semester (Fall), and 2060 and 2900 in their fourth semester (Winter).

8.2.3.4 Major in Biology (Marine)

All students majoring in Biology (Marine) are required to complete a minimum of 45 credit hours in courses from the Department of Biology offering. Those 45 credit hours must include: Biology 1001 and 1002 or their equivalents; the 15 credit hours in core courses listed below; Biology 3710 and 3711; 6 credit hours from the recommended Biology courses for Biology (Marine) listed below; and 12 credit hours from Biology electives at the 2000, 3000 or 4000 level.

Biology Core (15 credit hours): Biology 2060, 2250, 2600, 2900, plus one of Biology 3401, 3402, 4245 and 4404.

Recommended Biology courses for Biology (Marine) are 3014, 3050, 3295, 3620, 3640, 3709, 3712, 3714, 3715, 3951, 4122, 4141, 4182, 4360, 4601, 4605, 4620, 4630, 4710, 4750, 4810, 4912.

A maximum of 9 credit hours can be in Biology courses with no associated laboratory/seminar.
All majors must also successfully complete the following courses or their equivalents:

1. English 1080 and 1110 (or equivalent)
2. Mathematics 1000
3. Chemistry 1010 and 1011 (or equivalent), Chemistry 2440
4. Statistics 2550
5. Biochemistry 2101 and 3106
6. Extra Science courses as necessary to fulfill the requirement for 78 credit hours in Science as stipulated in Clause 3.a. of the Regulations for the General Degree of Bachelor of Science.

It is recommended, but not required, that a Computer Science course be included and the Department of Biology strongly recommends Computer Science 2650.

Note: To minimize time-tableing problems, students on the St. John’s campus are advised to take Biology 2250 and 2600 in their third semester (Fall), and 2600 and 2900 in their fourth semester (Winter).

8.2.4 Honours Degrees

The attention of students wishing to take Honours is called to those sections of the Calendar dealing with Regulations for the Degree of Bachelor of Science (Honours).

Sixty-nine credit hours in courses, including the 6 first year credit hours and the 15 required core credit hours outlined in the regulations for the General Degree, and the Honours Dissertation (Biology 499A/499B), shall be taken from the Department of Biology offering. Students may elect to complete an Honours Program in Biology or in one of the joint Honours Programs listed under the heading “Programs in Biology”. Programs of students taking Honours shall be drawn up in consultation with the student's supervisor, and must be approved by the Head of the Department (or his/her delegate) in accordance with Admission and Registration, clause 2. of the Regulations for the Honours Degree of Bachelor of Science.

A dissertation (6 credit hours) is to be presented on some original piece of work undertaken by the candidate, under the guidance of a faculty member of the department, as appointed by the Head of Department. For students electing to take one of the Joint Honours Programs, the dissertation shall be on a topic representative of the selected program. The Department of Biology considers the dissertation to be an important part of the Honours Program.

The dissertation will be based on a 6 credit hours course (Biology 499A/499B). It will involve directed reading relevant to the dissertation topic, preparation of a dissertation outline, supervised research, data synthesis and interpretation, and preparation and defence of the dissertation.

Two typed copies of the dissertation, complete with figures and tables, are to be submitted not less than two weeks before the end of lectures in the semester in which the candidate is registered for Biology 499B. These copies must be submitted to the Head of Department, and must have met the prior approval of the candidate’s Honours supervisor.

Before the last day for examinations in the semester, the candidate will be examined orally on the contents of the dissertation. The examining committee shall consist of the Head of the Department, or delegate, the candidate's supervisor, and an examiner appointed by the Head of the Department in consultation with the candidate's supervisor.

8.2.5 Honours in Biology

An Honours degree in Biology may comprise a broadly based selection of courses according to the student's interests, or it may be more narrowly focussed. An Honours student may focus on any area of Biology where an appropriate supervisor can be found. All Honours students should choose courses in consultation with their supervisors, but it is particularly important that students wishing to focus within the Honours degree should discuss course selection with an Honours supervisor within their area of interest.

8.2.5.1 Biology Course Requirements

Students seeking an honours degree in Biology are required to successfully complete a minimum of 69 credit hours in courses from the Department of Biology offering. These 69 credit hours must include:

1. Biology 1001 and 1002 or their equivalents;
2. 15 credit hours in the following core courses: Biology 2060, 2250, 2600, 2900, plus one of Biology 3401, 3402, 4245 or 4404; and
3. 42 credit hours from Biology electives at the 2000, 3000 or 4000 level (except Biology 2040, 2041, 2120, and 3053) and Biology 499A and 499B.
4. A maximum of 9 credit hours can be in Biology courses with no associated laboratory/seminar.

8.2.5.2 Core Course Requirements

All honors students must also successfully complete the following courses or their equivalents:

1. English 1080 and 1110 (or equivalent)
2. Physics 1020 and 1021 (or equivalent)
3. Mathematics 1000
4. Chemistry 1010 and 1011 (or equivalent), Chemistry 2440
5. Statistics 2550
6. Biochemistry 2101 and 3106
7. Electives to make up 120 credit hours

To minimize time-tableing problems, students on the St. John’s Campus are advised to take Biology 2250 and 2600 in their third semester (Fall), and Biology 2060 and 2900 in their fourth semester (Winter).
8.2.6 Honours in Cell and Molecular Biology

8.2.6.1 Cell and Molecular Biology Course Requirements
Students seeking an honours degree in Cell and Molecular Biology are required to complete a minimum of 69 credit hours in courses from the Department of Biology offering. Those 69 credit hours must include:
1. Biology 1001 and 1002 or their equivalents;
2. 15 credit hours in the following core courses: Biology 2060, 2250, 2600, 2900, plus one of Biology 3401, 3402, 4245 or 4404;
3. Biology 3530 and Biology 4241;
4. 12 credit hours from the following recommended Biology courses for Cell and Molecular Biology: Biology 3050, 3052, 3401, 3402, 3500, 3620, 3950, 3951, 4010, 4040, 4050, 4200, 4245, 4250, 4251, 4255, 4404, 4550, 4605; and
5. 24 credit hours in Biology electives at the 2000, 3000 or 4000 level (except Biology 2040, 2041, 2120, and 3053) and Biology 499A and 499B.
6. A maximum of 9 credit hours can be in Biology courses with no associated laboratory/seminar.

8.2.6.2 Core Course Requirements
All honours students must also successfully complete the following courses or their equivalents:
1. English 1080 and 1110 (or equivalent)
2. Physics 1020 and 1021 (or equivalent)
3. Mathematics 1000
4. Chemistry 1010 and 1011 (or equivalent), Chemistry 2440
5. Statistics 2550
6. Biochemistry 2101 and 3106
7. Electives to make up 120 credit hours
To minimize timetabling problems, students on the St. John’s Campus are advised to take Biology 2250 and 2600 in their third semester (Fall), and Biology 2060 and 2900 in their fourth semester (Winter).

8.2.7 Honours in Ecology and Conservation Biology

8.2.7.1 Ecology and Conservation Biology Course Requirements
Students seeking an honours degree in Ecology and Conservation Biology are required to complete a minimum of 69 credit hours in courses from the Department of Biology offering. Those 69 credit hours must include:
1. Biology 1001 and 1002 or their equivalents;
2. 15 credit hours in the following core courses: Biology 2060, 2250, 2600, 2900, plus one of Biology 3401, 3402, 4245 or 4404;
3. Biology 4650 and 4651;
4. 12 credit hours from the following recommended biology courses for Ecology and Conservation Biology: Biology 3041, 3050, 3295, 3300, 3610, 3620, 3640, 3709, 3710, 3711, 3714, 3715, 3750, 4040, 4141, 4180, 4182, 4250, 4306, 4307, 4360, 4405, 4505, 4605, 4620, 4630, 4701, 4710, 4750, 4820; and
5. 24 credit hours in Biology electives at the 2000, 3000 or 4000 level (except Biology 2040, 2041, 2120, and 3053) and Biology 499A and 499B.
6. A maximum of 9 credit hours can be in Biology courses with no associated laboratory/seminar.

8.2.7.2 Core Course Requirements
All honours students must also successfully complete the following courses or their equivalents:
1. English 1080 and 1110 (or equivalent)
2. Physics 1020 and 1021 (or equivalent)
3. Mathematics 1000
4. Chemistry 1010 and 1011 (or equivalent), Chemistry 2440
5. Statistics 2550
6. Biochemistry 2101 and 3106
7. Electives to make up 120 credit hours
To minimize timetabling problems, students on the St. John’s Campus are advised to take Biology 2250 and 2600 in their third semester (Fall), and Biology 2060 and 2900 in their fourth semester (Winter).

8.2.8 Honours in Marine Biology

8.2.8.1 Marine Biology Course Requirements
Students seeking an honours degree in Marine Biology are required to complete a minimum of 69 credit hours in courses from the Department of Biology offering. Those 69 credit hours must include:
1. Biology 1001 and 1002 or their equivalents;
2. 15 credit hours in the following core courses: Biology 2060, 2250, 2600, 2900, plus one of Biology 3401, 3402, 4245 or 4404;
3. Biology 3710 and 3711;
4. 12 credit hours from the following recommended biology courses for Marine Biology: Biology 3014, 3050, 3295, 3620, 3640, 3709, 3712, 3714, 3715, 3951, 4122, 4141, 4182, 4360, 4601, 4605, 4620, 4630, 4710, 4750, 4810, 4912; and
5. 24 credit hours in Biology electives at the 2000, 3000 or 4000 level (except Biology 2040, 2041, 2120, and 3053) and Biology 499A and 499B.
6. A maximum of 9 credit hours can be in Biology courses with no associated laboratory/seminar.
8.2.8.2 Core Course Requirements
All honours students must also successfully complete the following courses or their equivalents:
1. English 1080 and 1110 (or equivalent)
2. Physics 1020 and 1021 (or equivalent)
3. Mathematics 1000
4. Chemistry 1010 and 1011 (or equivalent), Chemistry 2440
5. Statistics 2550
6. Biochemistry 2101 and 3106
7. Electives to make up 120 credit hours

To minimize timetabling problems, students on the St. John’s Campus are advised to take Biology 2250 and 2600 in their third semester (Fall), and Biology 2060 and 2900 in their fourth semester (Winter).

8.3 Chemistry

www.chem.mun.ca/

The following undergraduate programs are available in the Department:
1. Applied Mathematics and Chemistry Joint Honours
2. Biochemistry and Chemistry Joint Honours
3. Chemistry and Earth Sciences Joint Honours
4. Chemistry and Physics Joint Honours
5. Major or Honours in Chemistry
6. Minor in Chemistry
7. Major or Honours in Computational Chemistry

The Major, Honours, and Joint Honours with Applied Mathematics, Biochemistry and Physics are accredited by the Canadian Society for Chemistry.
Details of joint programs are given under Joint Programs.
Chemistry course descriptions are found at the end of the Faculty of Science section under Course Descriptions, Chemistry.

8.3.1 Undergraduate Handbook
Additional information about the undergraduate program, individual courses and suggested timetables can be found in the Department of Chemistry Undergraduate Handbook which is available on the web at www.chem.mun.ca.

8.3.2 Faculty Advisors
Each student majoring in Chemistry will be assigned a Faculty Advisor who should be consulted on all academic matters. Individual programs must be drawn up in consultation with the advisor.

Note: Students who have obtained a grade of 3 or better on the Advanced Placement courses in Chemistry will normally be eligible for direct entry into Chemistry 1031 or second year courses. Such students must consult the Department before registration.

8.3.3 Minor in Chemistry
Candidates who take a minor in Chemistry will complete Chemistry 1050 and 1051 (or 1010, 1011 and 1031) or equivalent, Chemistry 2100, 2210, 2301 (or 2300), 2302, 2400, and 2401.

8.3.4 General Degree - Major in Chemistry
The courses required for a Major in Chemistry are:
1. Chemistry 1050 and 1051 (or 1010, 1011 and 1031) or equivalent, 2100, 2210, 2301 (or 2300), 2302, 2400, 2401, 3110, 3210, 3211, 3303, 3410, 3411, and 3500.
2. Physics 1050 (or 1020 and 1021) and 1051.
4. Biochemistry 2101

Recommended courses: Mathematics 2051, Physics 2820 and/or 2750, and 6 credit hours in one of the following languages: French, German, or Russian.

Students considering declaring Chemistry as their Major are encouraged to contact either the Department Head or the Deputy Head (Undergraduate Studies).

8.3.5 Honours Degree in Chemistry
Students wishing to take Honours should consult those sections of the Calendar dealing with Regulations for the Honours Degree of Bachelor of Science. The Honours program in Chemistry consists of at least 63 credit hours in Chemistry courses. It is recommended that candidates also take groups of 18 or more credit hours in each of two other science subjects, normally Biochemistry, Biology, Earth Sciences, Physics, or Mathematics.

8.3.5.1 Required Courses
1. Chemistry 1050 and 1051 (or 1010, 1011 and 1031) or equivalent, 2100, 2210, 2301 (or 2300), 2302, 2400, 2401, 3110, 3210, 3211, 3303, 3410, 3411, 3500, 490A/B and 12 credit hours selected from the remaining 4000-level Chemistry courses.
2. Physics 1050 (or 1020 and 1021) and 1051.
4. Biochemistry 2101
8.3.5.2 Other Information

1. Those courses in which a grade of B or an average of 75% or higher are required, as specified in Regulations for the Honours Degree of Bachelor of Science, Academic Standing, clause a., are the courses beyond first year used to satisfy clause 1. under Required Courses above, and Biochemistry 2101.

2. Recommended courses: Biochemistry 2100, Mathematics 2051, Physics 2820 and/or 2750.

3. A thesis based on a selected research topic carried out under the supervision of a member of the Department is to be submitted in the final year.

4. Chemistry 490A/B will normally require the equivalent of nine hours per week for two semesters. Registration in Chemistry 490A/B is restricted to those students who have honours standing. The Honours dissertation will be assessed by a committee comprising the supervisor and two other faculty members.

5. With approval of the Heads of the Chemistry and Biochemistry Departments prior to registration, a number of courses in Biochemistry may be substituted for a like number of Chemistry courses.

6. Six credit hours in one language are recommended: French, German or Russian should be selected in consultation with the Department Head.

7. Prospective Honours students in Chemistry in their first year should take
   a. Six credit hours in English.
   b. Chemistry 1050 and 1051 (or 1010, 1011 and 1031) or their equivalents.
   c. Physics 1050 and 1051 or 1020 and 1021.
   d. Mathematics 1000 and 1001.
   e. Six credit hours in other courses.

8. Given appropriate circumstances the Honours Chemistry program may be completed in four years. Students should consult the Undergraduate Student Handbook for timetabling details.

9. Students completing first year requirements for any of Chemistry, Mathematics or Physics via the three course options (i.e. Chemistry 1010, 1011, 1031 (or the former 1800, 1200, 1001), Mathematics 1090, 1000, 1001, Physics 1020, 1021, 1051) instead of the two course options (Chemistry 1050, 1051, Mathematics 1000, 1001, Physics 1050, 1051) will require the corresponding number of extra credits to obtain an Honours degree.

10. Arrangements for subsequent years will depend on the other science subjects being studied and should be made in consultation with the Faculty Advisor.

11. Certain advanced courses may only be offered in alternate years. Candidates therefore should consult the Head of the Department before registration

12. Certain of the Graduate courses may be taken in the final year of the Honours Program with the permission of the Head of the Department.

13. Details of Joint Honours programs with Biochemistry, Earth Sciences, Mathematics and Physics are outlined under Joint Programs.

8.3.6 General Degree - Major in Computational Chemistry

Students wishing to take a Major in Computational Chemistry should consult those regulations of the Calendar dealing with Regulations for the General Degree of Bachelor of Science.

8.3.6.1 Required Courses

1. Chemistry 1050 and 1051 (or 1010, 1011 and 1031) or equivalent, 2100, 2210, 2301 (or 2300), 2302, 2400, 2401, 3211, 3303, 4304, and a 3 credit hour chemistry course at the 4th year level.

2. Physics 1050 (or 1020 and 1021), 1051, and 2820.

3. Mathematics 1000, 1001, 2000, 2050, 2051, 2260 (or 3260), 2320, and 3202.

4. Computer Science 1510, 1710, 2710, 2711, 3719, and 3731.

5. English 1080 and English 1110 or equivalent.

6. A sufficient number of elective courses to bring the degree up to a total of 120 credit hours must also be completed.

Recommended courses: Mathematics 3161, 3240, Chemistry 3110, 3210, 3410, 3411, Computer Science 2500, 3550, 4XXX.

Recommended electives: Biochemistry 2101, Physics 3800.

8.3.6.2 Suggested Program of Study

Given appropriate circumstances the Major in Computational Chemistry program can be completed in four years. While students should consult the Undergraduate Handbook for further timetabling details, to complete the program in four years generally will require that students take the following courses in their first year:

1. English 1080 and English 1110 or equivalent.
2. Chemistry 1050 and 1051 (or 1010, 1011 and 1031) or their equivalents.
3. Physics 1050 (or 1020 and 1021), and 1051.
4. Mathematics 1000 and 1001
5. Computer Science 1510 and 1710

8.3.7 Honours Degree in Computational Chemistry

Students wishing to take Honours in Computational Chemistry should consult those sections of the Calendar dealing with Regulations for the Honours Degree of Bachelor of Science. The Honours program in Computational Chemistry consists of a minimum of 42 credit hours in Chemistry, a minimum of 24 credit hours in Mathematics, and a minimum of 18 credit hours in Computer Science. An additional 6 credit hours in recommended Chemistry, Mathematics or Computer Science courses are also required in addition to the minimum credit hour requirements.

8.3.7.1 Required Courses

1. Chemistry 1050 and 1051 (or 1010, 1011 and 1031) or equivalent, 2100, 2210, 2301 (or 2300), 2302, 2400, 2401, 3211, 3303, 4304,
and a 3 credit hour chemistry course at the 4th year level.

2. Physics 1050 (or 1020 and 1021), 1051, and 2820.

3. Mathematics 1000, 1001, 2000, 2050, 2051, 2260 (or 3260), 2320, and 3202.

4. Computer Science 1510, 1710, 2710, 2711, 3719, and 3731.

5. Chemistry 490A/B.

6. English 1080 and English 1110 or equivalent.

7. Two of the recommended courses.

8. A sufficient number of elective courses to bring the degree up to a total of 120 credit hours must also be completed.

Recommended courses: Mathematics 3161, 3240, Chemistry 3110, 3210, 3410, 3411, Computer Science 2500, 3550, 4XXX. Recommended electives: Biochemistry 2101, Physics 3800.

8.3.7.2 Suggested Program of Study

Given appropriate circumstances the Honours in Computational Chemistry program can be completed in four years. While students should consult the Undergraduate Handbook for further timetabling details, to complete the program in four years generally will require that students take the following courses in their first year:

1. English 1080 and English 1110 or equivalent.

2. Chemistry 1050 and 1051 (or 1010, 1011 and 1031) or their equivalents.

3. Physics 1050 (or 1020 and 1021), and 1051.

4. Mathematics 1000 and 1001

5. Computer Science 1510 and 1710

8.3.7.3 Other Information

1. Those courses in which a grade of B or an average of 75% or higher are required, as specified in Regulations for the Honours Degree of Bachelor of Science, Academic Standing, are the courses beyond first year used to satisfy the required course list.

2. A thesis based on a selected research topic carried out under the supervision of a member of the Department is to be submitted in the final year.

3. Chemistry 490A/B will normally require the equivalent of nine hours per week for two semesters. Registration in Chemistry 490A/B is restricted to those students who have Honours standing. The Honours dissertation will be assessed by a committee comprising the supervisor and two other faculty members.

4. Students completing first year requirements for any of Chemistry, Mathematics or Physics via the three course options (i.e. Chemistry 1010, 1011, 1031 (or the former 1800, 1200, 1001), Mathematics 1090, 1000, 1001, Physics 1020, 1021, 1051) instead of the two course options (Chemistry 1050, 1051, Mathematics 1000, 1001, Physics 1050, 1051) will require the corresponding number of extra credits to obtain an Honours degree.

5. Arrangements for subsequent years will depend on the other science subjects being studied and should be made in consultation with the Faculty Advisor.

6. Certain advanced courses may only be offered in alternate years. Candidates therefore should consult the Head of the Department before registration.

7. Certain of the Graduate courses may be taken in the final year of the Honours Program with the permission of the Head of the Department.

8.3.8 Course Restrictions

Students should be aware of a number of credit restrictions. For further information see the Chemistry course descriptions section found at the end of the Faculty of Science section under Course Descriptions, Chemistry.

8.4 Computer Science

www.mun.ca/computerscience/

The following undergraduate programs are available in the Department:

1. Applied Mathematics and Computer Science Joint Major (B.Sc. only)

2. Computer Internship Option (ClIO) (B.Sc. and B.Sc. Honours only)

3. Computer Science Honours (B.A., B.Sc.)

4. Computer Science and Economics Joint Major (B.Sc. Only)

5. Computer Science and Geography Joint Honours (B.Sc. only)

6. Computer Science and Geography Joint Major (B.Sc. only)

7. Computer Science and Physics Joint Honours

8. Computer Science and Physics Joint Major

9. Computer Science and Pure Mathematics Joint Honours (B.Sc. only)

10. Computer Science and Pure Mathematics Joint Major (B.Sc. only)

11. Computer Science and Statistics Joint Honours

12. Computer Science and Statistics Joint Major (B.Sc. only)

13. Computer Science (Software Engineering) Honours (B.Sc. only)

14. Major in Computer Science (B.A., B.Sc.)

15. Minor in Computer Science (B.A., B.Sc.)

Details of our joint program offerings in the Faculties of Arts and Science may be found under the heading Joint Programs following the heading Regulations for the Honours Degree of Bachelor of Science. Computer Science course descriptions are found at the end of the Faculty of Science section under Course Descriptions, Computer Science.
8.4.1 Major in Computer Science

1. Forty-five credit hours in Computer Science courses are required for a major in Computer Science:
   a. Computer Science 1710, 2710, 2711, 2742, 2760, 3715, 3716, 3719, 3724, 3725, 3754, and 4770.
   b. At least 6 additional credit hours at the 4000 level in Computer Science courses.
   c. Three additional credit hours in Computer Science courses at the 3000 level or beyond.

2. Additional courses required of the Majors are: Mathematics 2000, 2050, 2320, and Statistics 1510 or 2550.

Note: Students are encouraged to take Business 2000, Mathematics 3000, and Statistics 2560.

8.4.2 Honours in Computer Science

1. See Regulations for the Honours Degree of Bachelor of Arts or Regulations for the Honours Degree of Bachelor of Science (as appropriate).

2. Sixty-three credit hours in Computer Science courses are required for the Honours Degree in Computer Science, including:
   a. Computer Science 1710, 2710, 2711, 2742, 2760, 3715, 3716, 3719, 3724, 3725, 3754, 4770, and 4780.
   b. Eighteen additional credit hours in Computer Science at the 4000 level.
   c. Six additional credit hours in Computer Science courses at the 3000 level or beyond.

3. Additional courses required are: Mathematics 2000, 2050, 2320, and Statistics 1510 or 2550.

Note: Students are encouraged to take Business 2000, Mathematics 3000, and Statistics 2560.

8.4.3 Honours in Computer Science (Software Engineering) (B.Sc. Only)

Completion of the Honours in Computer Science (Software Engineering) Program does not qualify persons to hold the designation "Professional Engineer" as defined by various Provincial Acts governing the Engineering Profession.

1. See Regulations for the Honours Degree of Bachelor of Science.

2. Sixty-three credit hours in Computer Science courses are required for the Honours Degree in Computer Science (Software Engineering), including:
   a. Computer Science 1710, 2710, 2711, 2742, 2760, 3715, 3716, 3718, 3719, 3724, 3725, 3754, 4719, 4759, 4770, and 4780.
   b. Twelve additional credit hours in Computer Science courses at the 4000 level.
   c. Three additional credit hours in Computer Science courses at the 3000 level or beyond.

3. Additional courses required are: Mathematics 2000, 2050, 2320, and Statistics 1510 or 2550.

Note: The Honours project (4780) must be in the area of Software Engineering.

8.4.4 Computer Industry Internship Option (CIIIO):

The Computer Industry Internship Option (CIIIO) provides an opportunity for qualified students to obtain rewarding placements that help them develop practical skills in a real work setting before graduation. The CIIIO is available to Computer Science Majors (B.Sc. and B.Sc. Honours only) who will typically apply between their third and fourth year of studies.

8.4.4.1 Admission Requirements

In order to be considered for admission to the CIIIO, an applicant must:

1. be a declared Computer Science Major;

2. have successfully completed Computer Science 1710, 2710, 2711, 2742, 2760, 3716, and any two other core 3000-level computer science courses; and

3. have at least one computer science course left to complete after the internship.

In addition to meeting the above applicants are also subject to academic performance.

8.4.4.2 Internship Duration:

Subject to the availability of job openings, a student may choose either an 8, 12 or 16 consecutive month internship period.

8.4.4.3 Internship Guidelines:

1. Internship employment is normally organized by the Co-op Education Co-ordinator (hereafter referred to as the Co-ordinator); however, students who have been accepted to the CIIIO may also obtain their own internship placements. All placements are subject to the approval of the Co-ordinator and of the Head of the Department of Computer Science.

2. Students who have applied to the internship program give permission to the Co-ordinator to supply prospective employers with copies of their resume and transcript.

3. After being placed with an employer, students are not permitted to drop their internship without prior approval from the Co-ordinator and the Head of the Department of Computer Science. Students who drop an internship without permission, who fail to honour an agreement to work with an employer, or who conduct themselves in such a manner as to cause their discharge from the placements, will normally be awarded a fail grade for the internship period and may not be permitted to reapply.

Note: Students should also refer to the UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate).

8.4.4.4 Expectation of Work

Within a month of starting the internship, students are required to submit a list of their work term objectives. They are also required to submit a progress report due the last day of classes of each semester in which they are working. The work term objectives and progress reports are to be submitted to the Co-ordinator.

At the end of the internship period, students are required to submit a final report which will include a description of their internship projects and activities as well as their original objectives and accomplishments. The final report is to be submitted to the Co-ordinator by the last day of classes of the semester in question. A completed Employer Evaluation Form should be submitted to the Co-ordinator at the end of the internship period.
8.4.4.5 Registration, Assessment of Performance, and Assignment of Grades:

Students must register for the course Computer Science 3700 every semester during their internship. Computer Science 3700 is a non-credit course open only to students who have been accepted into the Internship Program. During the internship, the employer and intern will complete student performance evaluations every four months and will submit them to the Co-ordinator. The final assessment of total work performed is the responsibility of the Co-ordinator, and will be based upon both input from the employer and the intern’s final report. At the end of the internship, each intern will be assigned one of the following grades after the final assessment of their performance:

1. Pass with Distinction (PWD): Indicates excellent performance in both the work report and work performance.
2. Pass (PAS): Indicates that performance meets expectations in both the work report and the work performance.
3. Fail (FAL): Indicates failing performance in the work report or the work performance.

Also, the following will be noted in the transcript of the intern:

1. Requirements for the Computer Industry Internship Option have been completed. Internship Duration: - months.
2. A grade of NC (No Credit) for Computer Science 3700 will be awarded in all semesters of the Internship Option prior to the final Semester.

8.4.4.6 CIIO and Honours Program:

In case a student is enrolled in both the Honours program and the CIIO, the requirements of both must be met. Upon approval from the honours project supervisor, within the Department, the employer and the Head of the Department of Computer Science, an internship project may be submitted as a component of an honours project. These arrangements must be made within the first semester of the Internship placement.

8.4.5 Minor in Computer Science

For a Minor in Computer Science, a student must complete at least 24 credit hours in Computer Science courses, including:

1. Computer Science 1710, 2710, 2711.
2. At least 6 credit hours selected from Computer Science 3715, 3716, 3719, 3724, 3725, and 3754.
3. Three additional credit hours at the 3000 level or above.

8.4.6 Course Numbering Scheme

There are five areas of Computer Science offered in the 3000- and 4000-level courses. The meaning of the third digit of a course number is as follows:

1. Programming Languages
2. Computer Systems
3. Numerical Computations
4. Theoretical Aspects
5-6. Applications (e.g. Artificial Intelligence, Computer Graphics, Data Base, Robotics, Computational Geometry, Image Processing, Computer Networking, Computer Aided Design)
7. - Project Course
8. - Honours Project
9. - Directed Readings

8.4.7 Supplementary Examinations

Supplementary examinations will be allowed in certain Computer Science courses which have written final examinations. Students should refer to the Faculty of Science degree regulations for details.

8.4.8 Faculty Advisors

The Department has an Undergraduate Advisor for Computer Science majors to consult with on academic matters.

8.4.9 Undergraduate Handbook

Additional information about the undergraduate Computer Science programs and courses can be found in the Computer Science Undergraduate Handbook available from the General Office, Department of Computer Science or from www.mun.ca/computerscience/.

8.5 Earth Sciences

www.mun.ca/earthsciences/

The following undergraduate programs are available:

120 credit hour programs
1. Chemistry and Earth Sciences Joint Honours
2. Earth Sciences and Geography Joint Honours
3. Earth Sciences and Physics Joint Honours
4. Earth Sciences and Physics Joint Major
5. General or Honours degrees in Earth Sciences
6. Geophysics and Physical Oceanography Joint Honours

135 credit hour program
1. Biology and Earth Sciences Joint Honours

24 credit hour program
1. Minor in Earth Sciences
Although Honours programs can be completed in 120 credit hours, students who do not select the prescribed Common Block of Required Courses will normally need more than 120 credit hours to satisfy degree requirements.

Earth Sciences course descriptions are found at the end of the Faculty of Science section under Course Descriptions, Earth Sciences.

8.5.1 Undergraduate Handbook
Additional information about the undergraduate program, individual courses and suggested timetables can be found in the Department of Earth Sciences Undergraduate Handbook which is available on the web at www.mun.ca/earthsciences.

8.5.2 Entrance Requirements
In order to be formally admitted to major programs in Earth Sciences, students must have successfully completed 3 first-year credit hours in each of the following departments: English, Mathematics, Earth Sciences, Chemistry and Physics; these courses must be selected from the list of required courses for degree programs in Earth Sciences. Students are encouraged to declare their major in their first year of study at the university.

Most of the 2000 level Earth Sciences courses that are required for major and minor programs in Earth Sciences have Physics and Chemistry prerequisites, and students are advised to complete these prerequisites in their first year of study.

Students will not normally be permitted entry to 3000 level (or above) Earth Sciences courses without having completed all 1000-level courses listed in the Common Block of Required Courses specified in Clause 1. in the Major Programs in Earth Sciences.

8.5.3 Minor in Earth Sciences
A Minor in Earth Sciences will consist of the following:
1. Earth Sciences 1000 and 1002.
2. Eighteen credit hours chosen from Earth Sciences courses at the 2000 level or higher with at least 5 credit hours from courses at the 2000 level. Credit hours from Earth Sciences 2150, 2311, 2914, 2915, 2916, 2917, 2918, 4310 and 4950 cannot be used to fulfill this requirement.

Due to the prerequisite structure, availability of courses at the 3000 level and higher depends on courses taken at the 2000 level (see Undergraduate Handbook for some options).

8.5.4 Major Programs in Earth Sciences
Programs in Earth Sciences consist of a Common Block of Required Courses (below), and additional courses that depend on the degree being sought.

8.5.4.1 Common Block of Required Courses
All majors in Earth Sciences must complete those courses specified in Clauses 1. through 4. Students should examine prerequisites of 3000 level courses in order to decide which course to select under Clauses 3. and 4.

1. English 1080 and 1110 (or equivalent), Mathematics 1000 and 1001, Earth Sciences 1000 and 1002, one of Chemistry 1010 or 1050 (or equivalent) and one of Chemistry 1011 or 1051 (or equivalent), Physics 1020 and 1021. Students are advised to consult the Department of Physics Course Descriptions section for credit restrictions.

Students who intend or are required to complete higher level Physics courses must complete Physics 1051 as well, since it is a prerequisite for higher level Physics courses. Students should review the Department of Physics Calendar entry for these courses.

2. Earth Sciences 2030, 2031, 2401, 2502, 2702, 2905, 3420, 3905.
4. Either Biology 2120 (or Biology 1001 and 1002); or both Physics 2055 and Physics 2820.

Students must ensure that the prerequisites for Earth Sciences courses are fulfilled. Great difficulties in timetabling may be encountered if the required first-year courses are not completed before the beginning of second year.

8.5.5 Honours B.Sc. Degree in Earth Sciences
Geoscientific careers vary widely in required background. The Honours B.Sc. program is designed with considerable choice in order that students may personalize their programs based on career goals. Note that the flexibility afforded by this program is not without limits. Some courses have prerequisites, and it is ultimately the student's responsibility to ensure that these prerequisites are satisfied. Students should consult faculty members and the departmental Student Handbook for guidance in selecting courses appropriate to particular career paths.

In addition to the Common Block of Required Courses listed under Major Programs in Earth Sciences, the following requirements must be completed to qualify for the Honours B.Sc. degree in Earth Sciences:

1. Earth Sciences 499A and 499B.
2. At least 27 additional credit hours from Earth Sciences courses at 3000 and/or 4000 levels with a minimum of 12 credit hours from courses at the 4000 level. Credit hours from Earth Sciences 4310 and 4950 cannot be used to fulfill this requirement.
3. Six credit hours from the Faculty of Science courses numbered 2000 or higher. Credit hours from Earth Sciences courses, Biology 3811 and the former Physics 2050 are excluded. However, Physics 2820 is permitted.
4. Additional credit hours selected to conform with regulations for the Honours Degree of Bachelor Science so as to achieve a total of 120 credit hours. Students are encouraged to complete a minor in another department.
5. Three of the credit hours used to fulfill either requirement 3. or 4. above must be from Biology, Chemistry, Computer Science, Statistics or Physics. They may be from Mathematics only if Mathematics 2000 has not been taken as part of the Common Block of Required Courses.

8.5.6 General B.Sc. Degree in Earth Sciences
In addition to the Common Block of Required Courses listed under Major Programs in Earth Sciences, the following requirements must be completed to qualify for the General B.Sc. degree in Earth Sciences:

1. Eighteen additional credit hours from Earth Sciences courses at 3000 and/or 4000 levels with a minimum of 9 credit hours from courses at 4000 level. Credit hours from Earth Sciences 4310, 4950 and 499A/B cannot be used to fulfill this requirement.
2. Six credit hours from Science Faculty courses numbered 2000 or higher. Credit hours from Earth Sciences courses, Biology 3811 and the former Physics 2050 are excluded. However, Physics 2820 is permitted.

3. Additional credit hours selected to conform with regulations for the General Degree of Bachelor Science so as to achieve a total of 120 credit hours. Students are encouraged to complete a minor in another department.

Students are advised that this is the minimum requirement for the General B.Sc. in Earth Sciences. Many provinces, including Newfoundland and Labrador, have legislation requiring registration of professional geoscientists. A basic requirement for registration is, in most cases, the course equivalent of an Honours B.Sc. degree. Students intending to make a career in Earth Sciences should consider taking the Honours Degree program of courses, regardless of whether honours standing is maintained.

8.5.7 Credit Restrictions for Present Earth Sciences (EASC) Courses with Former Courses

Notes: 1. Students wishing to pursue study within the programs offered by Earth Sciences are strongly advised to keep in close contact with the Department to discuss course programs before registration in order to maintain proper sequencing.

2. Students wishing to take some Earth Sciences courses without intending to major in Earth Sciences should consult with the Head of Department (or delegate) to determine the courses most suitable to their needs and capabilities. Earth Sciences 2914, 2915, 2916, 2917, 2918, and 2150 are especially suitable for such students and have no Earth Sciences prerequisites.

3. Most courses comprise six hours of instruction per week, usually three hours of lectures or seminars and a three-hour laboratory period; however, at an advanced level other methods of instruction may be adopted.

4. The field courses 2905, 3705, 3905 and 4905 require payment of a participation fee to cover costs for logistics and equipment. Registration for these courses will be by application only and may be competitive.

5. The prerequisites for courses 4302, 4902 and 4903 refer to core courses in the Faculty of Science. For the purposes of these prerequisite statements, core courses are defined as those courses that are specified by each department as mandatory to fulfill the course requirements for their General or Honours programs.

6. Certain of the 4000 level courses may not be offered every year.

7. At most 6 credit hours in courses at the 1000-level can be used towards the course requirements in Earth Sciences for the Major, Minor, Joint Major, Honours or Joint Honours.

8.6 Economics

The following programs are available in the Department of Economics:

1. Honours in Economics (B.A. or B.Sc.)
2. Honours in Economics (Co-operative), (B.A. or B.Sc.)
3. Joint Programs (B.Sc. Only)
4. Joint Program (Co-operative) (B.Sc. Only)
5. Major in Economics (B.A. or B.Sc.)
6. Major in Economics (Co-operative) (B.A. or B.Sc.)
7. Minor in Economics

For Departmental Regulations and Course Descriptions, see Faculty of Arts section of the Calendar.

8.7 Geography

The following undergraduate programs are available in the Department of Geography:

1. Diploma in Geographic Information Sciences
2. Focus Area in Geography
3. Honours in Geography (B.A., B.Sc)
4. Joint Programs
5. Major in Geography (B.A., B.Sc)
6. Minor in Geography (B.A., B.Sc)

For Departmental Regulations and Course Descriptions, see Faculty of Arts section of the Calendar.

8.8 Mathematics and Statistics

www.mun.ca/math/

From the point of view of degree regulations, Applied Mathematics, Pure Mathematics, and Statistics are considered to be one subject area.

The following undergraduate programs are available in the Department:
1. Applied Mathematics and Chemistry Joint Honours (B.Sc. only)
2. Applied Mathematics and Computer Science Joint Major (B.Sc. only)
3. Applied Mathematics and Economics Joint Major (B.Sc. only)
4. Applied Mathematics and Physics Joint Honours (B.Sc. only)
5. Applied Mathematics and Physics Joint Major (B.Sc. only)
6. Biology and Statistics Joint Honours (B.Sc. only)
7. Computer Science and Pure Mathematics Joint Honours (B.Sc. only)
8. Computer Science and Pure Mathematics Joint Major (B.Sc. only)
9. Computer Science and Statistics Joint Honours (B.Sc. only)
10. Computer Science and Statistics Joint Major (B.Sc. only)
11. Economics and Pure Mathematics Joint Major (B.Sc. only)
12. Economics and Statistics Joint Major (B.Sc. only)
13. Economics and Statistics (Co-operative) Joint Major (B.Sc. only)
14. Honours in Applied Mathematics (B.Sc. only)
15. Honours in Pure Mathematics
16. Honours in Statistics
17. Major in Applied Mathematics (B.Sc. only)
18. Major in Pure Mathematics
19. Major in Statistics
20. Minor in Mathematics
21. Minor in Statistics
22. Pure Mathematics and Statistics Joint Honours

Details of these programs are given after the Regulations for the Honours Degree of Bachelor of Science.

Mathematics and Statistics course descriptions are found at the end of the Faculty of Science section under Course Descriptions, Mathematics and Statistics.

8.8.1 Regulations

1. At most 9 credit hours in Mathematics will be given for courses completed from the following list subject to normal credit restrictions: Mathematics 1000, 1031, 1050, 1051, the former 1080, the former 1081, 1090, the former 1150 and 1151.
2. Students with credits in Mathematics or Statistics not listed in this Calendar must consult the Department for equivalency before taking any course listed below.
3. Placement in Mathematics 1000, 1050, 1051 and 1090, and Statistics 1510, shall be determined by the Department of Mathematics and Statistics on the basis of the student’s score on the Mathematics Placement Test (MPT), SAT Subject Test in Mathematics Level 1, or other acceptable criteria-based test.

8.8.2 Faculty Advisors

Normally, the Undergraduate Officer will be the advisor for each student who has undertaken a major in Applied or Pure Mathematics, and the Deputy Head (Statistics) will be the advisor for any student involved in a major in Statistics. Students should consult with their advisor at least once each semester to ensure that their choice of courses is appropriate.

Note: The Department of Mathematics and Statistics will endeavour to give appropriate advice to students registered in its programs. However, the Department points out that it is the responsibility of the student to see that his or her academic program meets the University’s Regulations in all respects. Students are referred to the UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate), Registration, Student Responsibility. The Department accepts no responsibility for any matter arising from an inappropriate and/or improperly recorded registration.

8.8.3 Course Numbering System

The subject area of all courses offered by the Department of Mathematics and Statistics is identified by the second digit of the course number:
Second Digit
0 – Common Core Mathematics courses
1 – Applied Mathematics courses
2 – Applied Mathematics and Pure Mathematics courses
3 – Pure Mathematics courses
4 – Pure Mathematics and Statistics courses
5 – Statistics Courses

Where a regulation makes reference to Applied Mathematics courses, this shall include all courses with second digit 1 or 2. Where a regulation makes reference to Pure Mathematics courses, this shall include all courses with second digit 2, 3 or 4. Where a regulation makes reference to Statistics courses, this shall include all courses with second digit 4 or 5.

8.8.4 Major in Applied Mathematics (B.Sc. Only)
Students shall complete the following requirements:
1. Mathematics 1000, 1001, 2000, 2050, 2051, 2260 (or 3260), 3000, 3001, 3100, 3132, 3161, 3202, 4160, 4190.
2. Three credit hours in Applied Mathematics courses numbered 3000 or higher.
3. A computing course, early in your program. Computer Science 1510 is highly recommended.
4. A designated technical writing course offered by a Science department. Mathematics 2130 is recommended. The technical writing course is prerequisite to some 3000-level courses.
5. Physics 1050 (or 1020) and 1051.
6. A statistics course. Statistics 3410 is recommended.

8.8.5 Major in Pure Mathematics
Students shall complete the following requirements:
1. Mathematics 1000, 1001, 2000, 2050, 2051, 2320, 3000, 3001, 3320;
2. One of Mathematics 2260 (or 3260), 3202, 3210;
3. One of Mathematics 3331, 3370;
4. Twelve further credit hours in Pure Mathematics courses numbered 3000 or higher, excluding Mathematics 3260 and 3330, at least 6 credit hours of which must be in courses numbered 4000 or higher;
5. A computing course. Computer Science 1510 is recommended.
6. A designated technical writing course offered by a Science department. Mathematics 2130 is recommended.
7. A statistics course. Statistics 3410 is recommended.

8.8.6 Major in Statistics
Students shall complete the following requirements:
1. Mathematics 1000, 1001, 2000, 2050, 2051, Statistics 2560, 3410, 3411, 3520, 3521, 4530;
2. One of Statistics 2550, or 2550;
3. Nine further credit hours in Statistics courses numbered 3000 or higher, at least 6 credit hours of which must be in courses numbered 4000 or higher excluding Statistics 4581;
4. A computing course. Computer Science 1510 is recommended.
5. Mathematics 3000 and 3001 are recommended.

8.8.7 Honours in Applied Mathematics (B.Sc. Only)
See Regulations for the Honours Degree of Bachelor of Science. Students shall complete the following:
1. Mathematics 1000, 1001, 2000, 2050, 2051, 2130, 2260 (or 3260), 3000, 3001, 3100, 3111, 3132, 3161, 3202, 3210, 4160, 4180, 4190, 419A/B;
2. At least one of Mathematics 4162 or 4170;
3. Statistics 3410;
4. Nine further credit hours in courses numbered 3000 or higher that are offered by the Department of Mathematics and Statistics, excluding Mathematics 3330, at least 3 of which must be in courses numbered 4000 or higher;
5. A computing course early in the program is required. Computer Science 1510 is recommended.
6. Physics 1050 (or 1020), 1051, 2820, 3220.

8.8.8 Honours in Pure Mathematics
See Regulations for the Honours Degree of Bachelor of Science. Students shall complete the following requirements:
1. Mathematics 1000, 1001, 2000, 2050, 2051, 2130, 2260 (or 3260), 2320, 3000, 3001, 3202, 3210, 3300, 3320, 3331, 4300, 4310, 4399, Statistics 2550;
2. Either Mathematics 3340 or 3370;
3. Either Mathematics 4000 or 4001;
4. Either Mathematics 4320 or 4321;
5. Twelve further credit hours in Pure Mathematics courses numbered 3000 or higher, excluding Mathematics 3330, at least 9 credit hours of which must be in courses numbered 4000 or higher;
6. A computing course early in the program is required. Computer Science 1510 is recommended.

8.8.9 Honours in Statistics
See Regulations for the Honours Degree of Bachelor of Science. Students shall complete the following requirements:
1. Mathematics 1000, 1001, 2000, 2050, 2051, 3000, 3001, 3132, 3202, 3210, Statistics 2560, 3410, 3411, 3520, 3521, 4410, 4530, 4590, 4599;
2. One of Statistics 1510, 2500, or 2550;
3. Eighteen further credit hours in Statistics courses including at least 12 credit hours in courses numbered 4000 or higher excluding Statistics 4581;
4. A computing course. Computer Science 1510 is recommended.
5. Mathematics 4000 is recommended.

8.8.10 Minor in Mathematics
A total of 24 credit hours in courses offered by the Department of Mathematics and Statistics is required of which only 6 credit hours shall be in courses at the 1000 level and at least 6 credit hours shall be in courses numbered 3000 or higher.

8.8.11 Minor in Statistics
The courses required for a minor in Statistics are:
1. Mathematics 1000, 1001; Statistics 1510 or 2500 or 2550, Statistics 2501 or 2560.
2. Twelve further credit hours in Statistics courses numbered 3000 or higher excluding Statistics 4581.
It is recommended that Mathematics 2000 and Mathematics 2050 be taken since they are prerequisite to several further Statistics courses.

8.9 Ocean Sciences
www.mun.ca/osc/
The Department of Ocean Sciences is a newly formed Department within the Faculty of Science. The faculty within this Department are the former faculty of the Ocean Sciences Centre, a research unit and facility that was first opened in 1967.
The Department’s mandate as an interdisciplinary unit is to focus on increasing our understanding of biological and chemical processes within the oceans, and with those associated with aquaculture.
The Department aims to offer both undergraduate and graduate programs in Ocean Sciences. Immediate plans are underway to offer two undergraduate Minors in Oceans and in Aquaculture. It is expected that the first course offerings will be available in 2013-2014.
Ocean Sciences course descriptions are found at the end of the Faculty of Science section under Course Descriptions, Ocean Sciences.

8.10 Physics and Physical Oceanography
www.mun.ca/physics/main/
The following undergraduate programs are available in the Department:
1. Applied Mathematics and Physics Joint Honours
2. Applied Mathematics and Physics Joint Major
3. Biochemistry and Physics Joint Honours
4. Chemistry and Physics Joint Honours
5. Computer Science and Physics Joint Honours
6. Computer Science and Physics Joint Major
7. Earth Sciences and Physics Joint Honours
8. Earth Sciences and Physics Joint Major
9. Geophysics and Physical Oceanography Joint Honours
10. Honours in Environmental Physics
11. Honours in Physics
12. Major in Environmental Physics
13. Major in Physics
14. Minor in Physics
Details of these joint programs are given after the Regulations for the Honours Degree of Bachelor of Science. Other joint programs may be arranged in consultation with the departments concerned.
Physics and Physical Oceanography course descriptions are found at the end of the Faculty of Science section under Course Descriptions, Physics and Physical Oceanography.

Notes:
1. The attention of students intending to follow any one of the programs listed above is drawn to the UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate), governing the appropriate degree. Additional Departmental requirements are given below.
2. Faculty advisors are available to provide advice to students who are registered in, or who are considering registering in, any of the programs. Students are urged to consult with these advisors at their earliest opportunity in order to ensure that they select appropriate courses and programs. Students with credits in Physics courses which are not listed in this calendar should consult with the Department.
3. The six course stream consisting of Physics 1020, 1021, 1051, 2053, 2055, 2750, and 2820 or alternatively the seven course stream of Physics 1020, 1050, 1051, 2053, 2055, 2750, and 2820 is intended to provide a cohesive overview of Physics for potential Physics majors.
4. Physics 1050 is open to and recommended for students who have completed Level II Physics, Level III Physics and Level III Advanced Mathematics. Mathematics 1000 must be taken at the same time as, or be completed prior to, taking Physics 1050. Students who have completed Mathematics 1090 and Physics 1050 are required to complete Mathematics 1000 before registering for Physics 1051.
5. Physics 1020 is intended for students who do not qualify for Physics 1050, and while it may be taken by students who have no background in Physics it is recommended that students wishing to take Physics 1020 should have completed at least one of Level II and Level III Physics. Students who complete Physics 1020 and Mathematics 1000 are eligible for admission to Physics 1051. Students may receive credit for only one of Physics 1050 and 1020.
6. Students who have successfully completed Advanced Placement courses in both Physics and Mathematics will normally be eligible for direct entry into Physics 1051, 2053 and 2750, all of which are offered in the Fall semester. Such students are advised to consult the Department.
7. Supplementary examinations will be allowed in certain Physics courses which have written final examinations. Students should refer to the Faculty of Science Degree Regulations for details.
8.10.1 Minor in Physics
A minor in Physics will consist of 24 credit hours in Physics courses which must include Physics 1050 (or 1020), 1051, 2053, 2055, 2750, 2820. Only 6 credit hours at the 1000 level can be used to fulfill the 24 credit hours. For those students whose major is Chemistry or Biochemistry, the 24 credit hours in Physics will not include 2053.

For Electrical Engineering students, 24 credit hours in Physics which must include Physics 1050 (or 1020), 1051, 2750, 3000, and 3550 with an additional 9 credit hours selected from Physics 2820, 3600, 3750, 3751, 3800, 4000, 4220, 4600 or other 3000 or 4000 level courses subject to approval by the Head of Physics and Physical Oceanography and the Chair of Electrical and Computer Engineering.

8.10.2 Major in Physics
1. English 1080 and English 1110 (or equivalent).
2. Chemistry 1050 and 1051 (or Chemistry 1010, 1011, and 1031).
5. Physics 1050 (or 1020) and 1051.
6. Physics 2053, 2055, 2750, 2820, 3220, 3400, 3500, 3750 and 3900.
7. An additional 12 credit hours in physics courses numbered 3000 or higher which shall include at least 6 credit hours selected from the courses numbered Physics 3000, 3150, 3300, the former 3410, 3550, 3600, 3751.
8. Physics 3810 or Mathematics 3202.

Mathematics 1001, 2000 and 2050 are prerequisites to many Physics courses and should be completed by the end of second year. Mathematics 2260 is co-requisite to Physics 3220 and should be completed before the Winter of the third year. Those who intend to make a career in Physics should note that additional Physics courses are strongly recommended. Mathematics 2051 and Computer Science 1510 or 2602 are also recommended.

8.10.3 Honours in Physics
1. English 1080 and English 1110 (or equivalent).
2. Chemistry 1050 and 1051 (or Chemistry 1010, 1011, and 1031).
4. Computer Science 1510.
5. Mathematics 2000, 2050 and 2260 (or 3260).
6. Physics 1050 (or 1020) and 1051.
7. Physics 2053, 2055, 2750, 2820, 3220, 3400, 3500, 3600, 3750, 3820, 3900, 4400, 4500, 4820, 4850, 4900, 490A/B.
8. Physics 3810 or Mathematics 3202.
9. An additional 12 credit hours in physics courses numbered 3000 or higher which shall include at least 6 credit hours selected from physics courses numbered 4000 or higher.
10. Fifteen credit hours in applicable elective courses

Note: Certain of the graduate courses may be taken in the final year of the Honours Program with the permission of the Head of the Department.

Only 6 credit hours at the 1000 level in each of Physics, Chemistry and Mathematics can be used to fulfill the 120 credit hours required for the Honours program. The inclusion of Mathematics 1090, the sequence of Physics 1020, 1021, and 1051 or the substitution of Chemistry 1010, 1011 and 1031 for Chemistry 1050 and 1051 will each increase the number of credit hours required for the Honours Physics program by three.

An Honours thesis is to be presented on work undertaken by the candidate under the guidance of a Department of Physics and Physical Oceanography faculty member. The thesis comprises the 6 credit hour course Physics 490A/B. Students should seek departmental advice regarding a thesis project no later than the winter preceding the semester in which the project will be started.

The Honours Physics program in and beyond the third year requires a familiarity with computer programming and numerical analysis. In choosing electives for this program, the Department recommends that students supplement the prescribed program with the following courses Computer Science 2602 and 3731 (or Mathematics 2130 and 3132). Mathematics 2051 and 3000 are also suitable electives. For specific courses and recommendations about electives, consultation with a faculty advisor in the Department is suggested.

The Department recommends that students wishing to complete the Honours Physics program in 120 credit hours follow the schedule given below. This schedule is intended for students who qualify for Physics 1050 and 1051. Other suggested course schedules are available from the Head of the Department.
### Recommended Course Schedule - Honours Physics Program

#### 8.10.4 Major in Environmental Physics

1. English 1080 and English 1110 (or equivalent)
2. Chemistry 1050 and 1051 (or Chemistry 1010, 1011, and 1031)
3. Mathematics 1000 and 1001
4. Mathematics 2000, Mathematics 2050, Mathematics 2260 (or 3260), Mathematics 3202
5. Physics 1050 (or 1020) and 1051
6. Physics 2053, 2055, 2750, 2820, 3220, 3820, 3300, 3340, 4340
7. Physics 3400 or 3500
8. Earth Sciences 1000, 1002, 2502, 3170, 3172
9. Geography 2102, 2195, 3120
10. Biology 2120, 2600

The Major degree offers students a fair degree of latitude in choosing electives, students are encouraged to take electives from Geography and Earth Sciences: of particular merit would be any of Earth Sciences 3600, 3611 or 4105.

#### 8.10.5 Honours in Environmental Physics

1. English 1080 and English 1110 (or equivalent)
2. Chemistry 1050 and 1051 (or Chemistry 1010, 1011, and 1031)
3. Mathematics 1000 and 1001
4. Mathematics 2000, Mathematics 2050, Mathematics 2260 (or 3260), Mathematics 3202
5. Physics 1050 (or 1020) and 1051
6. Physics 2053, 2055, 2750, 2820, 3220, 3300, 3340, 3820, 4205, 4300, 4340, 4820, 490A/B
7. Physics 3400 or 3500
8. Earth Sciences 1000, 1002, 2502, 3170 and 3172
9. Geography 2102, 2195, 3120
10. Biology 2120, 2600

An honours thesis is to be presented on work undertaken by the candidate under the guidance of a Department of Physics and Physical Oceanography faculty member. The thesis comprises the 8 credit hour course Physics 490A/B. Students should seek departmental advice regarding a thesis project no later than the winter preceding the semester in which the project will be started.

The Department recommends that students wishing to complete the Honours Environmental Physics program in 120 credit hours follow the schedule given below. This schedule is intended for students who qualify for Physics 1050 and 1051. Other suggested course schedules are available from the Head of the Department.

Those courses in which a grade of “B” or better or an average of 75% or higher are required, as specified under Academic Standing, clause 1 of the Regulations for the Honours Degree of Bachelor of Science, are 45 credit hours in Physics courses, and 15 credit hours in other courses (beyond the 1000 level) selected from the specified program courses in Earth Sciences, Geography and Biology.

Physics 1021 and the former Physics 1201 will be considered equivalent for prerequisite purposes. Physics 1051 and 2820 will be considered equivalent to the former Physics 1054 and 2054 for prerequisite purposes. Physics 1051 and the former Physics 1052 and 2050 will be considered equivalent for prerequisite purposes.

Not all courses are offered every year. Students should check with the Department prior to registration to plan programs.

8.11 Psychology

www.mun.ca/psychology/index.php

The following undergraduate programs are available in the Department.

1. Biochemistry and Psychology (Behavioural Neuroscience) Joint Honours (B.Sc. Hons. only)
2. Biochemistry (Nutrition) and Psychology (Behavioural Neuroscience) Joint Honours (B.Sc. Hons. only)
3. Biology and Psychology (Behavioural Neuroscience) Joint Honours (B.Sc. Hons. only)
4. Biology and Psychology Joint Honours (B.Sc. Hons. only)
5. Major and Honours in Behavioural Neuroscience (B.Sc. only)
6. Major and Honours in Behavioural Neuroscience (Co-operative) (B.Sc. Hons. only)
7. Major and Honours in Psychology (B.A. or B.Sc.)
8. Major and Honours in Psychology (Co-operative) (B.A. or B.Sc.)
9. Minor in Psychology (B.A. or B.Sc.)

Details of the joint honours programs are given under the Degree Regulations of the Faculty of Science.

Psychology course descriptions are found at the end of the Faculty of Science section under Course Descriptions, Psychology.

8.11.1 Admission to Major Programs

Admission to the Major programs in the Department of Psychology is competitive and selective. Students who wish to enter these programs must submit a completed application form to the Psychology Department by June 1 for Fall semester registration. To be eligible for admission, students must have completed the 24 credit hours as listed below with an average of at least 65% in Psychology 1000/1001 and an overall average of at least 60% in Psychology, English, and Mathematics:

1. Psychology 1000, 1001
2. English 1080 and one of 1101, 1102, 1103, or 1110, or equivalent.
3. Mathematics 1000, or two of 1090, 1050, 1051 (or equivalent).
4. Six credit hours of electives (9 if only Mathematics 1000 is completed).

Students who fulfill the eligibility requirements compete for a limited number of available spaces. Selection is based on academic performance, normally cumulative average and performance in recent courses.

8.11.2 Admission to Honours Programs

The Honours programs in the Department of Psychology are designed for students who would like to concentrate their studies or pursue graduate work. Students who wish to be admitted to these programs must submit an "Application for Admission to Honours Program" to the Department of Psychology by June 1 for Fall semester registration. This form is available at mun.ca/regoff/Application_for_Admission_to_Honours.pdf. To be eligible for admission, students must have completed Psychology 2910, 2911, 2520, and 2570 and obtained in these courses a grade of "B" or better, or an average of 75% or higher. Students who fulfill the eligibility requirements compete for a limited number of available spaces. Selection is based on academic performance in the required courses. In special circumstances, students may be admitted to Honours Programs at times other than June.

Note: Students are advised to consult the general regulations for Honours in the Faculty of Arts or the Faculty of Science, as appropriate.

8.11.3 Requirements for a Major in Psychology

Students completing this program cannot receive credit for Psychology 2920. Students who intend to pursue graduate studies should take courses leading to the Honours degree.

1. Students may Major in Psychology as part of either a B.A. or a B.Sc. program. All Majors are required to complete a minimum of 42 credit hours of Psychology as listed below:
   a. Psychology 1000, 1001, 2520, 2570, 2910, 2911
   b. Twelve credit hours in Psychology chosen from the following: 3050, 3100, 3250, 3350, 3450, 3620, 3650, 3750, 3800 or 3801.
   c. Twelve credit hours of 4000-level courses in Psychology, of which at least one must be a research experience course and one must be a selected topics course.

2. Psychology Majors following the B.Sc. program are also required to complete the following:
   a. Mathematics 1000 (or equivalent).
   b. Biology 1001 and 1002
   c. Either Chemistry 1010 and 1011 (or 1050 and 1051); OR Physics 1020 (or 1050) and 1021 (or 1051)
   Note: First year students should think carefully about whether Chemistry or Physics best suits their future program needs. Students should examine the prerequisites for upper-level science courses and attempt to take them in their first year.
   d. Six credit hours of laboratory courses at the 2000 level or above in one of Biology, Chemistry, or Physics.
   Note: Psychology/Psychology 4701 cannot be used to satisfy the requirement of 6 laboratory credit hours at the 2000 level or above in either Biology, Chemistry, or Physics.

3. Psychology Majors following the B.A. program are also required to complete Mathematics 1000 or two of 1090, 1050, 1051 (or equivalent), and are encouraged to complete at least 6 credit hours in Biology.

8.11.4 Requirements for Honours in Psychology

Students completing this program cannot receive credit for Psychology 2920.

1. Honours students in Psychology are required to complete the 60 credit hours of Psychology as listed below:
   a. Psychology 1000, 1001, 2520, 2570, 2910, 2911, 3900, 4910, 499A/B
   b. Eighteen credit hours chosen from the alternatives listed in Clause 1. b. of the requirements for a Major in Psychology
   c. Twelve credit hours of 4000-level courses in Psychology, of which at least one must be a research experience course and one must be a selected topics course.

2. Honours students must also complete the requirements listed in either Clause 2. or Clause 3., as applicable, of the requirements for a Major in Psychology.

3. Honours students will be required to submit in their graduating year, an undergraduate thesis (Psychology 499A/B) which demonstrates their competence in Experimental Psychology.

8.11.5 Requirements for a Major in Behavioural Neuroscience (B.Sc. Only)

Students completing this program cannot receive credit for Psychology 2920.

A program is offered in the Psychology Department to provide an education in Behavioural Neuroscience. Students planning to enroll in the program are advised to consult with the Head of the Department at the earliest opportunity because certain course choices may restrict later options. Students who intend to pursue graduate studies should take courses leading to the Honours degree.

The program for a Major in Behavioural Neuroscience shall include:

1. a. Psychology 1000, 1001, 2520, 2570, 2910, 2911, 3800, 3801
   b. Six credit hours in Psychology chosen from the following: 3050, 3100, 3250, 3350, 3450, 3620, 3650, 3750.
   c. Six credit hours of 4000 level courses in Psychology, of which one must be a research experience course.

2. a. Mathematics 1000 (or equivalent) and 1001
   b. Chemistry 1010 and 1011 (or 1050 and 1051), and 2440 (or 2400/2401)
   c. Physics 1020 (or 1050) and 1021 (or 1051).
   d. Biology 1001 and 1002
   e. English 1080 and one of 1101, 1102, 1103, or 1110, or equivalent

3. Eighteen credit hours from the following courses chosen from at least two different sciences:
   a. Biochemistry: Any 2000-, 3000-, or 4000-level course except 2000, 2005, the former 2010, the former 2111, 3202, 3402, or 4502
   b. Biology: 2060, 2210, 2250, 2900, 3050, 3160, 3202, 3295, 3401, 3500, 3530, 3540, 3750, 4200, 4241, 4245, 4250, 4402, the former 4450, 4601, 4605, 4701, the former 4900 (see note below)
Students completing this program cannot receive credit for Psychology 2920.
1. Honours students in Behavioural Neuroscience are required to complete the following Psychology courses: 1000, 1001, 2520, 2570, 2910, 2911, 3800, 3801, 3900, 499A/B, two further courses in Psychology chosen from the following: 3050, 3100, 3250, 3350, 3450, 3620, 3650, 3750; two 4000 level courses in Psychology of which one must be a research experience course.
2. Honours students in Behavioural Neuroscience must also complete the requirements listed in Clauses 2. and 3. of the requirements for a Major in Behavioural Neuroscience.
3. In accordance with Academic Standing, clause 1 of the Regulations for the Honours Degree of Bachelor of Science, Honours candidates must obtain a grade of "B" or better, OR an average of 75% or higher in all the required courses listed in Clauses 1. and 3. of the requirements for a major in Behavioural Neuroscience and Clause 1 of the requirements for honours in Behavioural Neuroscience, except those at the 1000 level.

8.11.7 Requirements for a Minor in Psychology
Students who Minor in Psychology are required to complete a minimum of 24 credit hours of Psychology as follows:
- Psychology 1000, 1001, and 2920 (or 2910 or 2925)
- Fifteen other credit hours of Psychology.

8.11.8 Requirements for Major and Honours in Psychology (Co-operative) (B.A. or B.Sc.), and Major and Honours in Behavioural Neuroscience (Co-operative) (B.Sc. only)

Psychology Co-op Program (PCOP)
The Psychology Co-op Program (PCOP) is available to full-time Psychology (B.A. and B.Sc.) and Behavioural Neuroscience Majors and Honours students only.
The PCOP provides an opportunity for students to learn valuable practical skills while working in fields related to Psychology. Students complete three Work Terms, which consist of full-time paid employment. The timing of the Work Terms is such that employers stand to gain from the acquired skills of psychology majors in training. The objectives of the Work Term component of the PCOP are embodied in the Work Term Descriptions.

8.11.8.1 Admission Requirements
1. Admission is limited, competitive, and selective.
2. The primary criterion used in reaching decisions on applications for admission is overall academic achievement. Students with average overall academic records are unlikely to be admitted.
3. Students must first be admitted to the Psychology (B.A. or B.Sc.) or Behavioural Neuroscience Major.
4. To be eligible for admission, students must have completed a minimum of 30 credit hours with an overall average of at least 65%, and an average of at least 65% in all Psychology courses. Students must have a passing grade in all required courses, and must be registered for 15 additional credit hours in the semester in which they apply.
5. The deadline date for application is December 15.

8.11.8.2 Program of Study
1. In addition to the requirements below students must fulfill all requirements for either a Major in Psychology (B.A.), a Major in Psychology (B.Sc.), Major in Behavioural Neuroscience, Honours in Psychology (B.A.), Honours in Psychology (B.Sc.), or Honours in Behavioural Neuroscience. Courses in each program are normally taken in blocks as shown in the appropriate program table. Students should consult with a faculty advisor each semester regarding course selection.
2. Students’ status in the program is assessed at the end of each semester. To remain in PCOP, students must receive a passing grade in all required courses, and must maintain an average of at least 65% in all Psychology courses and a cumulative average of at least 65%. A student who fails a required course, fails to maintain an average of 65% in Psychology courses, or fails to maintain a cumulative average of 65%, will be required to withdraw from PCOP. The student in question may apply for readmission in a subsequent year after passing the specified required course(s) previously failed, or re-establishing the required average.
3. Students are required to complete three work terms at the prescribed times.

8.11.8.3 Work Term Placement
1. General management of the work terms in PCOP is the responsibility of the Division of Co-operative Education (DCE). It is responsible for assisting potential employers to become involved in the program, organizing competitions for Work Term employment, arranging student-employer interviews and facilities, data base management, and for the continual development of employment opportunities. A program co-ordinator from the DCE will work with the department to counsel students, visit students on their work assignments and evaluate the work term.
2. Work placement is not guaranteed but every effort is made to ensure that appropriate employment is made available. In the case of students who are required to withdraw from the program, the DCE has no responsibility for placement until they have been readmitted to the program.
3. A student who applies for admission to the co-op program gives permission to the University to provide a copy of the applicant’s resume, university transcript and work term evaluations to potential employers.
4. A student who has been accepted to PCOP may obtain his/her own work term placement outside the competition. Such employment positions must be confirmed by the employer, and must be approved by the Co-ordinator.
5. Students are expected to submit to the Co-ordinator, within a month from starting a Work Term, a plan of the intended work that
6. Salaries paid to co-operative students are determined by employers based on their internal wage structures. However, students should not expect the income from work terms to make them completely self-supporting.

8.11.8.4 Registration and Evaluation of Performance

1. In Work Terms I, II, and III, students must register for Psychology 199W, 299W, and 399W respectively.

2. Student performance evaluations are to be completed by the employer and returned to the Co-ordinator. The Work Term evaluations shall consist of two components:
   a. On-the-job Student Performance: Job performance shall be assessed by the Co-ordinator in consultation with the Department using information gathered during the Work Term and input from the employer towards the end of the Work Term. Formal written documentation from the employer shall be sought. Evaluation of the job performance will result in one of the following classifications: OUTSTANDING, EXCEEDS EXPECTATIONS, SATISFACTORY, OR FAIL
   b. The Work Report
      i. Students are required to submit a Work Term report to the Co-ordinator on the first day of final exams.
      ii. Work Term reports shall be evaluated by a faculty member and the Co-ordinator.
      iii. If an employer designates a report to be of a confidential nature, both employer and the Co-ordinator must agree as to the methods to protect the confidentiality of such a report before the report may be accepted for evaluation.
      iv. Reports must contain original work related to the Work Term placement. The topic must relate to the work experience and will be chosen by the student in consultation with the employer. The topic must be approved by the Co-ordinator or a faculty member of the Department of Psychology.

   Evaluation of the work term report will result in one of the following classifications: OUTSTANDING, EXCEEDS EXPECTATIONS, SATISFACTORY, OR FAIL.

3. If a student fails to achieve the Work Term standards specified above, the student will be required to withdraw from PCOP. Such a student may reapply to the program, at which time the student will be required to repeat the Work Term with satisfactory performance. Only one Work Term may be repeated in the entire program.

4. In order to be considered for readmission, students must formally apply for readmission to the program not later than the deadline date specified in Admission Requirements.

5. A student who withdraws from a Work Term without acceptable cause subsequent to a job placement will be required to withdraw permanently from PCOP.

6. Students who drop a Work Term without prior approval from both the Co-ordinator and the Head of the Department of Psychology, or who fail to honour an agreement to work with an employer, or conduct themselves in such a manner as to cause their discharge from the job, will be awarded an overall grade of FAL for the Work Term in question and will be required to withdraw permanently from PCOP.

7. Permission to drop a Work Term does not constitute a waiver of degree requirements, and students who have obtained such permission must complete an approved Work Term in lieu of the one dropped.
### 8.11.9 Suggested Course Sequences

The tables below show suggested course sequences for the B.A. in Psychology (Co-operative), the B.Sc. in Psychology (Co-operative), the B.A. Honours in Psychology (Co-operative), the B.Sc. Honours in Psychology (Co-operative), the B.Sc. in Behavioural Neuroscience (Co-operative), and the B.Sc. Honours in Behavioural Neuroscience (Co-operative).

8.12 Science

Science course descriptions are found at the end of the Faculty of Science section under Course Descriptions, Science.

9 Course Descriptions

In accordance with Senate’s Policy Regarding Inactive Courses, the course descriptions for courses which have not been offered in the previous three academic years and which are not scheduled to be offered in the current academic year have been removed from the following listing. For information about any of these inactive courses, please contact the Head of the Department.

9.1 Biochemistry

Biochemistry courses are designated by BIOC.

1430 Biochemistry for Nurses is an introduction to the chemistry and structure-function relationships of carbohydrates, lipids and proteins. It will examine the basic metabolism of carbohydrates and fats, with emphasis on the biochemical fluctuations that occur in human health and disease, and will include a brief introduction to molecular genetics. Prospective fast-track program students should consult with the School of Nursing concerning
admission to this course.
CR: the former BIOC 2430
LC: 4
PR: Level 3 Chemistry or Chemistry 1010 or Chemistry 1810 or equivalent, and acceptance to Bachelor of Nursing (Collaborative)
UL: may not be used for credit to fulfill the requirements for a major in the Department of Biochemistry

2000 Principles of Food Science - inactive course.

2005 Food, Food Safety, and Health introduces the concepts of the composition of foods, and how the processing of food affects sensory appeal, shelf life, and nutrient composition. Common food and water-borne illnesses (risks and prevention) are covered in the course content. Students will also be introduced to food biotechnologies, including genetically modified organisms, nutraceuticals and the development of functional foods.
CO: Chemistry 2440 or 2440

2100 Introduction to Molecular Biology and Genetics will cover the heritability of simple traits from phenotype to genotype; the discovery of DNA as the molecule of heredity; the structure and function of RNA; the elucidation of the genetic code; and the manipulation of DNA for recombinant DNA technology and biotechnology.
CO: BIOC 2101, Chemistry 2401, Physics 1021 or 1051. Students may replace the co-requisite Chemistry 2401 with Chemistry 2440 as a prerequisite. Chemistry 2440 may not be taken as a co-requisite of 2100
CR: Biology 2250
LC: up to four hours on alternate weeks which will normally consist of one three-hour laboratory period plus one additional hour on the following day
PR: BIOC 2101, Chemistry 2401, Physics 1021 or 1051. Students may replace the co-requisite Chemistry 2401 with Chemistry 2440 as a prerequisite. Chemistry 2440 may not be taken as a co-requisite of 2100

2101 Introduction to Biochemistry is an introduction to the major organic substances of living organisms, proteins, carbohydrates and lipids: their structure, analysis and biochemical function. Other topics will include: enzymology of biocatalysts, including the plasma membrane and specialized intracellular membranes; and the biochemistry of selected differentiated cells.
CR: Pharmacy 2004, or the former Pharmacy 3110
PR: one three-hour laboratory period on alternate weeks
LC: three hours per week
PR: Chemistry 2440 and 2441, or Chemistry 2440; and Physics 1020 or 1050, and 1021 (or 1051); Chemistry 2401 and Physics 1021 or 1051 can be done concurrently

2600 Introduction to Human Nutrition (same as Human Kinetics 2600) gives an overview of human nutrition with an emphasis on topics of current interest. Students will gain an understanding of nutrition in the context of health maintenance across the life span. Topics covered will include nutrition during pregnancy, nutrition for infants, Canadian Recommended Nutrient Intakes and Dietary Reference Intakes, weight loss and weight gain, nutraceuticals and ergogenic aids.
CR: Human Kinetics 2600 or the former Kinesiology 2600

3052 Food Microbiology (same as Biology 3052) is the study of the microbiology of water and food with regard to the beneficial and detrimental roles of microorganisms in interaction with these systems. Emphasis will be on the microbiology of food, fermentations, food spoilage and food borne vectors of human disease.
CR: Biology 3052, and the former BIOC 3054, BIOC 3401
LC: three hours per week
PR: Biology 3050

3105 Physical Biochemistry examines topics such as: types of intermolecular forces in biomolecules; the folding of biomolecules and the role of water; pH, buffers, and ionisation of biomolecules; thermodynamics; equilibria, control reactions, transport across membranes and redox reactions; and ligand binding. Other topics will include: size and shape of biomolecules; isotypes in biochemistry, and, spectroscopy of biomolecules.
CR: a two-year problem-solving class
PR: BIOC 2101; and Chemistry 2300 or 2301 or Physics 2053

3106 Biochemistry examines the catalysis of carbohydrates, lipids and amino acids. Other topics will be: mitochondria, chloroplasts and ATP synthesis, biosynthesis of carbohydrates and lipids; metabolic specialization of differentiated cells and tissues; and, integration of metabolism.
CR: the former BIOC 3102 or Pharmacy 3111
PR: three-hour laboratory or one-hour tutorial per week
OR: one-hour tutorial or one-three hour laboratory per week
PR: BIOC 2101

3107 Nucleic Acid Biochemistry and Molecular Biology examines the structure and biochemistry of DNA and RNA and the biochemical processes in the flow of information from the gene to protein. These will include: DNA replication, recombination and repair processes; transcription of RNA and RNA splicing; and protein synthesis. The regulation of gene expression will also be covered at an introductory level. The course will also include an introduction to cloning methodology.
LC: up to four hours per week which will normally consist of one three-hour laboratory period plus one additional hour on the following day.
PR: BIOC 2101; and BIOC 2100 or Biology 2250

3108 Molecular Biochemistry of the Cell focuses on the molecular biochemistry of intracellular regulation, including advances in topics such as signal transduction, apoptosis and cancer. Other topics will include protein processing and sorting, cycles, G-protein structure, function and regulation, cell adhesion molecules and the structure of the extracellular matrix.
PR: BIOC 2100 or Biology 2250; and BIOC 2101

311A Human Physiology - inactive course.

3202 Community Nutrition - inactive course.

3203 Fundamentals of Human Nutrition is the cornerstone course for the study of nutrition. The sources, uptake and physiologic roles of essential nutrients will be discussed in the context of growth, maintenance, reproduction and overall health in humans.
CO: BIOC 3106
CR: the former BIOC 3201
PR: BIOC 2101, 2600

3402 Food Chemistry examines the following topics: water structure and the role of water in chemical reactions and mechanical properties of foods; chemistry and physical properties of carbohydrates, proteins and lipids; food dispersions; pigments and natural colorants; food flavour; enzyme purification and applications; vitamins and minerals; chemistry of enzymic and non-enzymic browning; characteristics of: muscle tissue, milk, eggs, bread and edible plant tissue; food additives; and, chemical changes in foods during processing.
LC: one three-hour per week, together with assigned reading and case studies
PR: BIOC 2600 or 2005; BIOC 2101; Chemistry 2440 or Chemistry 2401

3600 Sports and Exercise Nutrition deals with the specific roles of nutrients in sport and exercise, and the application of nutrition to sport and exercise.
CR: the former BIOC 4241
PR: BIOC 2600 or HKR 2600 or the former BIOC 3200/3201; and one of BIOC 3118, MED 310B, HKR 3200

4002 Biochemical Regulation examines metabolic regulation at the cellular and multicellular level. Topics will include: control theory; hormones; their biosynthesis and mechanism of action; signal transduction; coordination of metabolic processes. Principles will be illustrated by the use of case studies from the medical and veterinary literature.
LC: two to three hours per week, together with assigned reading and case studies
PR: BIOC 2100 or Biology 2250; BIOC 3106

4101 Proteins will review the history of protein research and the general properties of proteins and include other topics such as: strategy and methods for purification; chemical structure, properties, modification and degradation of the protein backbone; sequencing strategies and applications; vitamins and minerals; chemistry of enzymic and non-enzymic browning; characteristics of: muscle tissue, milk, eggs, bread and edible plant tissue; food additives; and, chemical changes in foods during processing.
LC: two to three hours per week, together with assigned reading
PR: BIOC 3105

4102 Current Topics in Biochemistry is a seminar course in which faculty and students will discuss topics of current interest in the biochemical literature. Students will be responsible for reading and critically assessing recent literature.
PR: Honours Biochemistry students in their final year or permission of the Head

4103 Prokaryotic Gene Regulation is a detailed and up-to-date treatment of the mechanisms of genetic regulation found in bacteria. The course will develop topics based on the evidence of bacterial genetics and modern molecular biological experiments. Topics may include: theory of mutations, gene transcription, positive and negative regulation of transcription, regulation of protein synthesis; control of DNA replication; bacterial operons and regulons; developmental molecular biology in bacterial systems; and evolution and molecular biology of organelles.
PR: BIOC 3107

4104 Eukaryotic Gene Regulation and Developmental Biology details the cellular and molecular aspects of eukaryotic gene regulation and development. Topics to be covered will include the DNA content and organization of eukaryotes, mechanisms controlling the expression of eukaryotic genetic information in the transcriptional and post-transcriptional levels, and the methodologies used to define these mechanisms. Detailed consideration will be given to the cell-surface events which regulate nuclear gene expression and cell lineage specification. Developmental mechanisms operating in a number of model systems will be discussed.

AR = Attendance requirement; CH = Credit hours are 3 unless otherwise noted; CO = Co-requisite(s); CR = Credit can be retained for only one course from the set(s) consisting of the course being described and the course(s) listed; LC = Lecture hours per week are 3 unless otherwise noted; LH = Laboratory hours per week; OR = Other requirements of the course such as tutorials, practical sessions, or seminars; PR = Prerequisite(s); UL = Usage limitation(s).
4105 Immunology (same as the former Pharmacy 4105) is taught and administered by the School of Pharmacy. The course is an introduction to the molecular and cellular basis of immunity and hypersensitivity, and will include a discussion of the manipulation of the immune system in the management and treatment of disease.
CO: BIOC 2101, and either BIOC 311B or Medicine 310B
CR: the former Pharmacy 3105 and the former Pharmacy 4105
OR: lectures
PR: BIOC 2101, and either BIOC 311B or Medicine 310B

4200 Bioenergetics and Biological Oxidation examines topics such as: respiration and electron transport; the functional organization of energy transducing membranes; the structure and function of flavoenzymes, cytochromes, iron-sulfur proteins and quinones; enzyme reduction of oxygen; and, free radicals in biological systems.
LC: two to three hours per week and assigned reading
PR: BIOC 3106

4201 Membranes - Structure and Function examines the structure of model and biological membranes, the molecular interactions between membrane components and the effects of these interactions on the biophysical and functional properties of membranes. Other topics will include the structure-function of specialized membranous systems, such as isoprotein, lung surfactant, and lipid rafts; membrane lipid composition in biochemical adaptation and function; and the role of membrane proteins in intracellular trafficking, receptor function, enzymatic activity and membrane-related diseases.
PR: BIOC 3105

4210 Biochemical Research Techniques I examines the proteome and the geneome and is designed to familiarize students with current methodology employed in the analyses of the complements of proteins and genes resident in eukaryotic cells. Emphasis will be placed on techniques that facilitate the simultaneous functional analyses of large numbers of proteins or genes. A variety of techniques, used in the study of expression and functional proteomics, will be described, including 2D PAGE, tagged proteins, fluorophores, mass spectrometry and protein microarrays. Techniques in the study of gene expression and functional genomics will also be described, including the use of reporter gene constructs, analysis of protein-DNA interactions, expressions of cloned genes and several experimental approaches used to define the eukaryotic transcriptome.
AR: attendance is required
PR: BIOC 3105

4211 Biochemical Research Techniques II is designed to familiarize students with methods used for the study of cellular and subcellular metabolism. This course may include a research project.
AR: attendance is required
LC: times as arranged
LH: times as arranged
PR: BIOC 3105

4220 Introduction to General and Autonomic Pharmacology (same as Medicine 3201/3202) deals with the general principles of pharmacology (dosage-response relationship, drug-receptor interaction, absorption, distribution, metabolism, excretion of drugs), and drugs that affect neuromuscular and autonomic neurotransmission, the cardiovascular, gastrointestinal, and central nervous systems, and antidepressant/antipsychotics.
CO: BIOC 3106 or Pharmacy 3111
CR: Medicine 4300
LH: 3
PR: BIOC 311A/B or Medicine 310A/B or Pharmacy 2002/2003 (or the former Pharmacy 3201/3202)

4230-4239 Special Topics in Biochemistry will be given for senior undergraduates, and will cover a range of topics in specialized fields in Biochemistry. They may be taught by visiting specialists when available.
PR: to be determined at the time of offering

4240 Nutrigenetics and Nutrigenomics is designed to familiarize students with emerging issues in the area of diet-gene interaction and to further their understanding of the relationships between the genome and diet as well as the potential to design personalized diets for better health. Students will develop an appreciation for the role of nutrients in the prevention and/or development of disease.
PR: BIOC 2100 or Biology 2250; BIOC 3106; and one of BIOC 3203 or the former BICO 3200

4242-4249 Special Topics in Nutrition will be given for senior undergraduates, and will cover a range of topics in specialized fields in Nutrition. They may be taught by visiting specialists when available.
PR: to be determined at the time of offering

4300 Advanced Nutrition is a course in which current controversies and trends in human nutrition are presented and discussed using the scientific literature.
PR: BIOC 3203 or the former BIOC 3200/3201, and either BIOC 311B or Medicine 310B

4301 Nutrition and Disease is a course which addresses the scientific basis for nutritional intervention in chronic human disease.
PR: BIOC 3203 or the former BIOC 3200/3201, and either BIOC 311B or Medicine 310B

4502 Techniques in Nutrition Research is a seminar course in which faculty and students will discuss concepts and methods used in the study of nutrition. Students will be responsible for reading and critically assessing recent literature.
PR: BIOC 4301

499A and 499B Dissertation is a two-semester linked course based on independent study of a problem in Biochemistry. The subject of study will be decided in consultation with Faculty advisors and must be approved in advance by the Department. This dissertation is obligatory for Honours students in Biochemistry. The dissertation will be submitted as a formal written report accompanied by appropriate illustration before the end of the tenth week of the second semester. Before the end of his/her final semester the student will give an oral presentation of his/her research.
PR: Honours students in their final year or permission of the Head

9.2 Biology

According to the nature of particular courses, the specified number of laboratory hours may consist of combination of laboratory work, seminars or directed independent study relevant to the practical aspects of the subject matter.

Biology courses are designated by BIOC.

1001 Principles of Biology is an introduction to the science of Biology, including a discussion of the unity, diversity and evolution of living organisms.
LH: 3
UL: credit may be obtained for only 6 1000-level credit hours in Biology

1002 Principles of Biology is an introduction to the science of Biology, including a discussion of the unity, diversity and evolution of living organisms.
LH: 3
PR: BIOC 1001
UL: credit may be obtained for only 6 1000-level credit hours in Biology

2010 Biology of Plants is a study of the structure, function and reproductive biology of plants, with emphasis on the vascular plants, and on their relationship to environment and human activities.
LH: 3
PR: BIOC 1001 and 1002; Chemistry 1010 or 1050 (or the former Chemistry 1000)

2040 Modern Biology and Human Society I examines various aspects of the human body, and the implications of modern biological research for human beings. Topics include cancer; diet and nutrition and associated diseases, circulatory disease, immunity, human genetics, birth defects, new diseases, genetic engineering and reproductive engineering.
OR: seminars
UL: not acceptable as one of the required courses for the Minor, Major or Honours programs in Biology

2041 Modern Biology and Human Society II examines the origins and consequences of the environmental crisis of the 20th century. Topics include the population explosion, energy, material cycles, air and water and land pollution, global food supplies, the fisheries, wildlands, renewable and non-renewable resources, environmental ethics.
OR: seminars
UL: not acceptable as one of the required courses for the Minor, Major or Honours programs in Biology

2060 Principles of Cell Biology is a modern view of the biology of eukaryotic cells, organelles and molecules and their interactions in the functioning of living organisms.
CO: Physics 1021 or 1051; Biochemistry 2101
CR: the former BIOL 3060
LH: 3
PR: Physics 1021 or 1051; Biochemistry 2101
PR: BIOL 1001, 1002 and 2250; Chemistry 2440 or 2400

2120 Biology for Students of Earth Sciences is an introduction of the principles of Biology for students in Earth Sciences. Topics will include principles of classification, levels of biological organization, fundamental characteristics of living organisms and basic concepts in ecology.
CR: BIOL 1001 or 1002
LH: 3
PR: Earth Science major; Earth Sciences 1001 or 1002 or permission of the Head of Department.

AR = Attendance requirement; CH = Credit hours are 3 unless otherwise noted; CO = Co-requisite(s); CR = Credit can be retained for only one course from the set(s) consisting of the course being described and the course(s) listed; LC = Lecture hours per week are 3 unless otherwise noted; LH = Laboratory hours per week; OR = Other requirements of the course such as tutorials, practical sessions, or seminars; PR = Prerequisite(s); UL = Usage limitation(s).
2122 Biology of Invertebrates is a study of the invertebrates with emphasis on structure and function, adaptations and life histories. The laboratories will present a broad survey of the major invertebrate groups.
CR: the former BIOL 3122
LH: 3
PR: BIOL 1001 and 1002

2210 Biology of Vertebrates is a study of the vertebrates, with emphasis on structure and function, adaptations and life histories.
CR: the former BIOL 3210
LH: 3
PR: BIOL 1001 and 1002

2250 Principles of Genetics is an introduction to Mendelian and molecular genetics. Phenotype and genotype, behaviour of alleles in genetic crosses, chromosome theory of inheritance, molecular biology of DNA, RNA and protein, molecular basis of mutation, recombinant DNA, applications of genetic biotechnology.
CO: Chemistry 2440 or 2400
CR: Biochemistry 2100 the former BIOL 3250
LH: 3
PR: BIOL 1001 and 1002; Chemistry 1010 and 1011 (or 1050/1051)
PR: Chemistry 2440 or 2400

2600 Principles of Ecology is a conceptual course introducing the principles of ecology, including theoretical, functional and empirical approaches.
CR: the former BIOL 3600
LH: 3
PR: BIOL 1001 and 1002

2900 Principles of Evolution and Systematics is an introduction to the processes and patterns of evolution, and the principles of classification. Natural selection and other microevolutionary processes, variation and adaptation, species and speciation, phylogenetic systematics, reconstruction of phylogeny, macro-evolutionary patterns in the fossil record and their interpretation.
CO: Statistics 2550 (or equivalent)
CR: the former BIOL 3900
LH: 3
PR: BIOL 1001, 1002 and 2250
PR: Statistics 2550 (or equivalent)

3014 Biology and Ecology of Boreal and Arctic Seaweeds is a field course examination of seaweed biology and ecology, with special study of living specimens in estuarine, fjordic and exposed coastal sites, demonstrating their physiological and ecological adaptations to cold-water habitats.
CR: the former BIOL 4014
OR: this course is offered at the Bonne Bay Marine Station during the Summer semester with two weeks of instruction followed by a week to complete course requirements.
PR: BIOL 2600 or equivalent

3041 Boreal Flora - inactive course.

3050 Introduction to Microbiology is a course in which the basic principles underlying microbial life are studied. Aspects include structure, function, bioenergetics and growth with an emphasis on prokaryotes. Also studied are viruses, microbial diseases, introductory principles of immunology and the control of microorganisms. The laboratory sessions provide training in culture and determinative techniques using microorganisms.
LH: 3
PR: BIOL 1001 and 1002; Biochemistry 2101

3052 Food Microbiology (same as Biochemistry 3052) is the study of the microbiology of water and food with regard to the beneficial and detrimental roles of microorganisms on interaction with these systems. Emphasis will be on the microbiology of food, fermentations, food spoilage and food borne vectors of human disease.
CR: Biochemistry 3052 and the former Biochemistry 3054, Biochemistry 3401
LC: three hours per week
LH: three hours per week
PR: BIOL 3050

3053 Microbiology for Nurses examines the fundamentals of microbiology with an emphasis on medical microbiology. The course will include topics such as: host responses to infections, human diseases caused by microorganisms, and the control and exploitation of microorganisms.
LH: 2
PR: students admitted to the Bachelor of Nursing (Collaborative) program
UL: not acceptable as one of the required courses for the Minor, Major or Honours programs in Biology, nor is it acceptable for any of the joint programs between Biology and other disciplines

3160 Insect Morphology and Physiology - inactive course.

3202 Comparative Vertebrate Anatomy examines the phylogenetic development and comparative anatomy of the vertebrates.
CR: the former BIOL 3200 or the former BIOL 3201
LH: 3
PR: BIOL 1001 and 1002

3295 Population and Evolutionary Ecology is an introduction to the theory and principles of evolutionary ecology and population dynamics.
CR: the former BIOL 4290
LH: 3
PR: BIOL 2600; at least one of BIOL 2010, 2122 or 2210

3300 Introductory Entomology is a study of the classification and ecology of insects within an evolutionary framework. Topics will include molecular biological and classical morphological issues surrounding insect taxonomy, evolutionary based higher systematics, and the ecological roles of insects in a variety of ecosystems.
CR: BIOL 4150 and the former BIOL 4140
LH: 3
PR: BIOL 2600; it is recommended that students have completed BIOL 2900.

3401 Comparative Animal Physiology is a comparative study of the basic physiological processes, with special attention paid to those strategies invoked by animals which enable them to adapt to environmental changes.
CO: Biochemistry 3106
CR: the former BIOL 4403
LH: 3
PR: BIOL 2600 and 2210
PR: Biochemistry 3106

3402 Principles of Plant Physiology is a consideration of the principles of plant physiology, including water relations, nutrition, metabolism, growth and development.
CO: Biochemistry 3106
CR: the former BIOL 4403
LH: 3
PR: BIOL 2600 and 2060
PR: Biochemistry 3106

3500 Histology is a study of microstructure and ultrastructure of tissues and organ systems in vertebrates, particularly mammals, with emphasis on correlating structure and function.
LH: 3
PR: BIOL 2600 and 2210

3530 Molecular and Developmental Biology is a study of developmental model systems with a focus on the underlying principles and molecular mechanisms involved in embryogenesis, organogenesis, morphogenesis, cellular differentiation, growth and regeneration in animals (vertebrates and invertebrates) and plants. Current cellular and molecular biology techniques and the implications of developmental biology in modern biological and health research will be emphasized.
LH: 3
PR: BIOL 2600 and BIOL 2250 or Biochemistry 2100

3540 Histotechnique - inactive course.

3610 Boreal Ecology is a study of the principal features of terrestrial ecosystems, with emphasis on the boreal region. This course may be offered in a usual 13 week semester or as a two-week field course.
CR: Environmental Science 3131
LC: either three hours of lecture and three hours of laboratory per week or a two week field course that embodies equivalent instructional time
LH: either three hours of lecture and three hours of laboratory per week or a two week field course that embodies equivalent instructional time
PR: BIOL 2010, 2250, 2600 and 2900; Statistics 2550 or equivalent

3620 Aquatic Microbial Ecology is a study of the nature, distribution and activities of microorganisms in the freshwater and marine environments. Field and laboratory work illustrate some of the investigative techniques used in this area of study.
CR: the former BIOL 3603
LH: 3
PR: BIOL 2600 and 3050; Statistics 2550 or equivalent

3640 Environmental Physiology of Animals covers physiological adaptations of animals facilitating their survival in natural environments with emphasis on physiological and biochemical responses of animals to extreme environments. Starting with the fundamental basis of physiological mechanisms, the course explores various aspects and the integration of major physiological processes (metabolism, respiration, osmoregulation) and how these relate to ecological niche.
CR: the former BIOL 3403 or the former BIOL 4455
PR: BIOL 2060 and 2010; Biochemistry 3106
UL: may not be used to fulfill the physiology course requirement for a Biology major, honours or joint honours program.

3709 Field Course in Marine Principles and Techniques begins with a two-week field school immediately prior to the beginning of the Fall
Faculty of Science 2013-2014

 Semester. In the Fall Semester there are follow-up lectures, readings and submission of reports. The course is designed to introduce the principal marine environments, organisms and techniques. It is recommended that this course be taken before either BIOL 3710, 3711 or 4810. PR: BIOL 2600; Statistics 2550 or equivalent and permission of the Head of Department

3710 Biological Oceanography is an introductory course in biotic and abiotic processes controlling marine biota and prime producers, emphasizing plankton and fishes. It introduces students to major groups of marine phytoplankton, zooplankton, and fishes, emphasizing how the physical, chemical, and geological environments interact with biology to define processes in marine ecosystems. LC: either three hours of lecture and three hours of laboratory per week or a two-week field course that embodies equivalent instructional time. LH: either three hours of lecture and three hours of laboratory per week or a two-week field course that embodies equivalent instructional time. PR: BIOL 2122 and 2600

3711 Principles of Marine Biology is an introductory course in biology of the oceans. Introduces students to marine habitats and the organisms that inhabit them, emphasizing functional morphology, physiology, biodiversity, phylogeny and ecology. Also includes introduction to marine biogeography, conservation, fisheries and pollution. LC: either three hours of lecture and three hours of laboratory per week or a two-week field course that embodies equivalent instructional time. LH: either three hours of lecture and three hours of laboratory per week or a two-week field course that embodies equivalent instructional time. PR: BIOL 2122, BIOL 2600

3712 Benthic Biology examines the biology of the aquatic benthos (bottom-dwelling organisms); their origins, adaptations, life histories and ecological roles. This course may be offered in a usual 13 week semester or as a two-week field course. CR: the former Biology 3630 LC: either three hours of lecture and three hours of laboratory per week or a two-week field course that embodies equivalent instructional time. LH: either three hours of lecture and three hours of laboratory per week or a two-week field course that embodies equivalent instructional time. PR: Biology 2122, 2600 and 3710

3713 Estuarine Fish Ecology Field Course examines community structure, function and distribution of coastal fishes in estuaries and estuarine environments. Emphasis on sampling, field techniques, taxonomy, quantitative characterization, adaptations and habitat relationships. A comparative approach will contrast fish communities from different areas. To be held as a two week field course. PR: BIOL 2600

3715 Ecology and Evolution of Fishes (same as the former BIOL 4600) examines the evolutionary history and ecology of the world’s fishes, with particular emphasis on those of ecological, economical and cultural importance in Canada. Topics covered include taxonomy, evolution, ecology, conservation biology, comparative anatomy and physiology, zoogeography, evolutionary ecology, population biology, contemporary evolution, and conservation biology. CR: the former BIOL 4600. LH: 3 SPR: BIOL 2210, 2600 and 2900

3750 Animal Behaviour I (same as Psychology 3750) is an introduction to the mechanisms, development, function and evolution of behaviour in animals. Topics include the history of ethology and comparative psychology, and the evolution of thought; methods of animal behaviour study, behaviour of animals in relation to physiology, learning, communication, mating systems, and other areas in Biology and Psychology. CR: Psychology 3750 PR: BIOL 1001 and 1002; Statistics 2550 or equivalent

3811 Paleobotany (same as Earth Sciences 3811) is taught and administered by the Department of Earth Sciences. CR: Earth Sciences 3811, the former BIOL 3800, and the former Earth Sciences 3801 PR: either Earth Sciences 1002 and BIOL 2120 (or BIOL 1001 and 1002); or BIOL 2122 and 2210

3950 Research Methods in Genetic Biotechnology (same as the former BIOL 4900) will include DNA extraction, DNA amplification by the Polymerase Chain Reaction (PCR), DNA cloning, DNA sequence analysis and Bioinformatics. Additional modules in gene expression and re-sequencing chip technologies may be included. Theory and methods will be introduced in a research framework. CR: the former BIOL 4900 LH: Three hours of lecture and three hours of laboratory per week or a three-week on-campus course that embodies equivalent instructor time. PR: BIOL 2060 and 2250

3951 Introduction to Bioinformatics (same as Computer Science 3550) deals with the development and application of computational methods to address biological problems. The course will focus on the fundamental concepts, ideas and related biological applications of existing bioinformatics tools. This course will provide hands-on experience in applying bioinformatics software tools and online databases to analyze experimental biological data, and it will also introduce scripting language tools typically used to automate some biological data analysis tasks. CR: Computer Science 3550 or equivalent. LH: 3 PR: BIOL 2060 or Biochemistry 2101, and one Computer Science course at the 1000-level or above excluding Computer Science 1600 and Computer Science 2000; or Computer Science 2600 or Computer Science 2710, and one Biology course at the 1000-level or above excluding BIOL 2040 and BIOL 2041; or permission of the course instructor

4000 Bacterial Systematics - inactive course.

4010 Virology will examine topics about viruses infecting all forms of life including humans as other animals, plants and bacteria. The scope within the course ranges from the molecular biology of virus replication to virus evolution and ecology. Current issues concerning viruses and society are incorporated into the course including the practical applications of viruses, vaccines, and emerging viruses. LH: Three hours of laboratory/seminar/discussion per week. PR: BIOL 2900 and 3050

4012 Physiology - inactive course.

4040 Mycology is a study of the physiology, morphogenesis, nature of plant and animal parasitism, ecology and taxonomy of terrestrial and freshwater fungi. CR: the former BIOL 3020. LH: 3 PR: BIOL 2060 and 3050

4050 Advanced Topics in Microbiology examines the beneficial and harmful properties of microbes, including topics on industrial microbiology and the discovery of new antimicrobial agents. The scope within the course ranges from the genetic manipulation of microbes for useful purposes to the isolation of bacteria for applications in various fields. Current issues concerning microbiology and society will also be discussed including the practical applications of microbes and bacterial diseases affecting society. CR: the former BIOL 3050. LH: 3

4122 Advanced Topics in Marine Invertebrates provides an in-depth examination of physiological, ecological and behavioural adaptations in marine invertebrates. Lectures will be combined with discussions of selected papers from the primary literature on topics of current interest, which may relate to functional morphology, ecology, evolution and natural history. Students will also gain practical research experience through the study of live and preserved animals. LH: 3 PR: BIOL 2122, 2600 and 2900

4141 Nematology is a study of plant parasitic, insect parasitic and free-living marine, freshwater and terrestrial nematodes, with emphasis on taxonomy, biology, economic importance, control methodologies and environmental applications. LH: 3 PR: BIOL 2120, 2122 and 2600

4150 Insect Systematics and Ecology - inactive course.

4180 General Parasitology is an examination of parasitism as a way of life, with emphasis on classification, structural adaptation, life cycles and ecology. LH: 3 PR: BIOL 2122, 2210 and 2600

4182 Fisheries and Wildlife Parasitology is a study of the important parasites of fish and other wildlife and their impact on both individuals and populations. LH: 3 PR: BIOL 4180

4200 Immunology is a study of vertebrate and invertebrate immune systems including antigens and antibodies and their reactions. LH: 3 PR: BIOL 2060 and BIOL 3050

4241 Advanced Genetics has advanced topics in modern genetic analysis, including regulation of gene expression, developmental genetics, molecular basis of inherited disease, genomics, immunogenetics, behavioural genetics, and molecular evolution. LH: 3 PR: BIOL 2250 and Biochemistry 2101

4245 Biophysics is an examination of the physical properties involved in diffusion, membrane properties, electrochemistry, potentials and the processes of bioenergetics within cells and organelles. Selected topics in
4250 Evolutionary Genetics has advanced topics in the study of micro and macro-evolutionary phenomena. Genetic variation in natural populations; theory of genetic drift, mutation, migration, inbreeding, and natural selection; neutral theory of molecular evolution, patterns of nucleotide substitution, heritability and quantitative genetics.

LH: 3
PR: BIOL 2250 and 2900

4251 Genomics will have lecture, seminar, and laboratory components. Topics covered will include Technical Foundations of Genomics, Global Gene Expression Profiling, Bioinformatics, Comparative Genomics, Microarray Genomics and Medicine, Genomics and Agriculture, Environmental Genomics, and Ethical Issues of Genomics. Each topic will involve a lecture component, in which theory and methods will be taught using the textbook and journal articles. Some lecture and lab times will be devoted to seminars on methods and papers related to lecture or laboratory components of the course. In the lab component, students will have the opportunity to use state-of-the-art genomics techniques to address a research question.

LH: 3
OR: seminar
PR: BIOL 2060, 2250

4255 Proteomics is the study of the proteome, the complete set of proteins produced by a species, using the technologies of large-scale protein separation and identification. Proteomics describes how proteins are modified, when and where they are expressed, how they are involved in metabolic pathways and how they interact with one another. Topics covered will include Technical Foundations of Proteomics, Global Functional Protein Expression Profiling, Experimental Bioinformatics, Comparative Proteomics, Posttranslational Modification-Specific Proteomics, Proteomics in Medicine, Agriculture, Environmental Proteomics and Proteomics for Quality and Safety of Food.

LH: 3
PR: BIOL 2060, 2250; Biochemistry 3106

4270 History of Biology is a consideration of the development of biological concepts as interactions between observations, philosophical systems and cultural environment. This course will normally require students to make oral presentations of the course. This course is intended to provide a base for understanding and critical evaluation of scientific knowledge. Having two sections, the first will involve the development of biological knowledge and concepts in the context of ancient world views and the second will focus on the development of biological knowledge and concepts from the Renaissance to the modern period.

LH: 3
PR: BIOL 2060, 2250, 2900 and one of BIOL 2010, 2122, 2210 and 2600 including a minimum of 9 credit hours from any of BIOL 2010, 2122, 2210, 2600 and including a minimum of 6 credit hours in Biology at the 3000 level or above, plus the permission of the instructor

4300 Applied Biology is an examination of how biological and other sciences are applied to the problems of management and utilization of organisms at both the individual and systems level to meet human needs. CR: the former BIOL 4303 or the former BIOL 4304

PR: BIOL 2060, 2250, 2900 and one of BIOL 2010, 2122 or 2210

4307 Global Change Biology examines the evolution of biosphere, global role of photosynthesis in oxygen and carbon dioxide balance, global-integrative Genomes; carbon sources and sinks in modern biosphere, greenhouse gases emissions, population dynamics, origin and global impact of agriculture, global changes in Holocene and Anthropocene.

LH: 3
PR: BIOL 2600; BIOL 2900 or permission of the instructor

4360 Community and Ecosystem Ecology is a study of the basic principles, patterns and processes of ecological communities and ecosystems.

OR: a seminar/discussion group each week
PR: BIOL 2250, 2600 and 2900 and one of BIOL 2010, 2122 or 2210; Statistics 2550 or equivalent

4402 Electron Microscopy in Life Sciences - inactive course.

4404 Microbial Physiology is a study of the structure and growth of microorganisms. Themes covered in this course include the structure, function and regulation of the microbial cellular machinery, the hierarchical regulation of cellular activities, and communication between cells. Quantitative experimental methodology relating to microbial physiology is studied in the laboratory.

LH: 3
PR: BIOL 2250 and BIOL 3050

4405 Landscape Ecology is an introduction to the theory and principles of landscape pattern and processes, including issues related to scale, networks, genetics, Genomics and Medicine, Genomics and Agriculture, Environmental Genomics, and Ethical Issues of Genomics. Each topic will involve a lecture component, in which theory and methods will be taught using the textbook and journal articles. Some lecture and lab times will be devoted to seminars on methods and papers related to lecture or laboratory components of the course. In the lab component, students will have the opportunity to use state-of-the-art genomics techniques to address a research question.

LH: 3
CO: Statistics 2550 or equivalent

4406 Bioinformatics: Biological Data Analysis (same as Computer Science 4550) provides students with the basis to analyse a variety of biological data within an integrated programming environment for data manipulation, calculation and graphical display. Students will learn to extract meaningful information from data generated by high-throughput experimentation. The course will introduce one such integrated programming environment and will explore the computational and statistical foundations of the most commonly used biological data analysis procedures.

PR: Computer Science 4550
LH: 3
PR: BIOL 2210 and 2600

4462 Ornithology examines structure, classification, evolution, ecology and behaviour of birds, with particular reference to those of economic importance. Identification of the birds of Eastern Canada.

LH: 3
PR: BIOL 2210 and 2600

4463 Mammalogy examines evolution, systematics, life histories and distribution of mammals, with particular emphasis on eastern North American forms.

LH: 3
PR: BIOL 2210 and 2600

4465 Conservation Biology I: Conservation in Biology and Geography is an examination of how biological and geographical principles can be applied to conserving biological diversity in the natural world under conditions of exploitation and habitat loss. Special emphasis will be given to relevant provincial examples.

CR: Environmental Science 4133
OR: 3 hours of seminar/discussion group each week
PR: 30 credit hours in either Biology or Geography

4461 Conservation Biology II: Conservation in Practice examines issues relevant to global conservation science. Topics will be covered through a series of modules, including conservation genetics, costs and consequences of small populations, effects of anthropogenic activity on biodiversity, spatial dynamics, and the interface between science and society.

PR: BIOL 2900, 3295 and 4650

4701 Animal Behaviour II (same as Psychology 4701) is an examination of the behaviour of animals with particular emphasis on evolution and ecology. Topics include behavioural genetics and evolution, reproductive strategies, social behaviour, habitat selection, territoriality, foraging behaviour, and other topics in biology and psychology.

CR: Psychology 4701
LH: 3
PR: BIOL 3750 or Psychology 3750
4710 Experimental Marine Ecology of Newfoundland Waters is a two-week field course examines the ecology of cold ocean environments, focusing on energy flux through marine pelagic and benthic flora and fauna of Newfoundland waters, and how the dynamics of this environment influence linkages among organisms in different habitats. The course will be field intensive with some lecture component and a strong hands-on field component. Students will identify local organisms and study how and why they vary in time and space. This course will be offered during two weeks of the Spring semester. 
PR: BIOL 2600

4750 Fisheries Ecology is the application of ecological principles to the problem of managing exploited fish populations. Laboratory exercises will be based on an experimentation approach to fisheries problems using computer and animal models.
LH: 3
PR: BIOL 2600

4800 Advanced Paleontology (same as Earth Sciences 4800) is a field, lecture, laboratory and seminar course dealing with selected topics in general and applied paleontology. Topics include measuring evolution and extinction, population paleontology, functional morphology, paleoecology, statistical methods for palaeontological studies, and applications in petroleum, mining, and environmental studies. This course is taught and administered by the Department of Earth Sciences.
CR: Earth Sciences 4800
LH: 3
PR: Earth Sciences/BIOL 3811, and one of Statistics 2550, the former Statistics 2510 or Mathematics 2000

4810 Research Field Course in Marine Biology will consist of an intensive two-week field school designed to acquaint students with marine field research, experimental design, methodology and data analysis. Emphasis will be placed on individual projects. Projects must be designed and approved prior to the commencement of the course and will involve a written report. At the discretion of the Head of Department, another recognized field course may be substituted for BIOL 4810.
PR: BIOL 3710 and any two of BIOL 2010, 2122 or 2210 and permission of the Head of the Department. It is strongly recommended that students take BIOL 3709 before 4810.

4820 Field Course in Terrestrial Biology will begin with a three-week field school immediately prior to the beginning of the Fall Semester. It is designed to acquaint students with terrestrial organisms and environments, and emphasis will be placed on survey and sampling techniques. In the Fall Semester the material and data collected in the field will be used in lecture and laboratory periods dealing with identification, analytical methods, and report compilation.
PR: BIOL 2010, 2122, 2210, 2600 and permission of the Head of Department. It is recommended that students complete BIOL 4805.

4822 Internship in Biology - inactive course.

4910-4920 Special Topics in Biology will be offered for senior undergraduates and will be in a two-week format which will involve equivalent instruction time as a course on campus. These courses will cover a range of topics in specialized fields in Biology and may be offered at the Bonne Bay Field Station, at the Harlow campus or elsewhere as appropriate. They may be taught by visiting specialists when available.

499A and 499B Honours Dissertation is available only to students in the Honours Program. Requirements for the Dissertation are outlined under Honours Degrees.
PR: admission to the Honours Program

9.3 Chemistry
Credit will be given for no more than one of the former Chemistry 1000, Chemistry 1010, 1050, 1200, the former 150A/B, no more than one of Chemistry 1001, 1031, 1051, the former 150A/B, and no more than one of Chemistry 1001, 1011, 1051, the former 150A/B. Credit will only be given for one of the following pairs of courses, Chemistry 2301 and Chemistry 2302 (offered at Grenfell Campus), Chemistry 2302 and the former Chemistry 3301, and Chemistry 3303 and the former Chemistry 3300. Students may obtain credit for only one of CHEM 2100 or the former CHEM 3100. Students may obtain credit for only one of CHEM 3110 or the former CHEM 4110, the former CHEM 4100 or the former CHEM 4101.

Chemistry courses are designated by CHEM.

1010 Introductory Chemistry I examines descriptive chemistry; measurements; atoms; molecules; the mole; mole calculations and reaction stoichiometry; the intermolecular forces; chemical kinetics; atomic structure; periodic properties; the physical properties of matter.
AR: attendance is required in the laboratory component of this course.
Failure to attend may result in a failing grade or deregistration from the course.
PR: CHEM 1010 and Mathematics 1001 which may be taken concurrently with CHEM 1010
LH: 3
OR: 1 hour tutorial per week
UL: only 6 science credit hours will be awarded for a major or honours in Chemistry from the following course groups: CHEM 1010/1011/1031, or CHEM 1010/1050/1051, or CHEM 1810/1200/1001 (Grenfell Campus)

1011 Introductory Chemistry II examines chemical bonding including VSEPR shapes and polarity; introduction to valence bond theory and hybridization; liquids and intermolecular forces; chemical kinetics; thermodynamics; gases; thermochemistry; the balancing of redox reactions; acid-base theory; acids and bases; stoichiometry; solubility and solubility equilibrium; electrochemistry.
AR: attendance is required in the laboratory component of this course.
Failure to attend may result in a failing grade or deregistration from the course.
PR: CHEM 1010
LH: 1.5
OR: 1.5 hour tutorial per week
UL: only 6 science credit hours will be awarded for a major or honours in Chemistry from the following course groups: CHEM 1010/1011/1031, or CHEM 1010/1050/1051, or CHEM 1810/1200/1001 (Grenfell Campus)

1031 Introductory Chemistry III prepares students who have completed CHEM 1010 and 1011 for CHEM 2100, 2210, 2301, 2302 and 2400. It augments the topics covered in CHEM 1010 and 1011 with the greater depth and problem solving emphasis of CHEM 1050 and 1051.
AR: attendance is required in the laboratory component of this course.
Failure to attend may result in a failing grade or deregistration from the course.
PR: CHEM 1011 and Mathematics 1001 which may be taken concurrently with CHEM 1031
LH: 3
OR: 1.5 hour tutorial per week
UL: only 6 science credit hours will be awarded for a major or honours in Chemistry from the following course groups: CHEM 1010/1011/1031, or CHEM 1010/1050/1051, or CHEM 1810/1200/1001 (Grenfell Campus)

1050 General Chemistry I builds on basic chemistry concepts from high school. Topics include gases; thermochemistry; atomic structure; periodic properties; chemical bonding including valence bond theory; hybridization and molecular orbital theory; properties of liquids, solids and solutions.
AR: attendance is required in the laboratory component of this course.
Failure to attend may result in a failing grade or deregistration from the course.
PR: CHEM 1010 with a grade of at least 60% or high school CHEM 3202
LH: 3
OR: 1.5 hour tutorial per week
PR: CHEM 1010 with a grade of at least 60% or high school CHEM 3202
UL: only 6 science credit hours will be awarded for a major or honours in Chemistry from the following course groups: CHEM 1010/1011/1031, or CHEM 1010/1050/1051, or CHEM 1810/1200/1001 (Grenfell Campus)

1051 General Chemistry II builds on CHEM 1050 and on basic chemistry concepts from high school. Topics include kinetics, chemical equilibrium, equilibria involving acids and bases including polyprotic acids, buffers, acid-base indicators, titration curves, solubility and complex ion equilibrium, thermodynamics, electrochemistry and descriptive chemistry.
AR: attendance is required in the laboratory component of this course.
 Failure to attend may result in a failing grade or deregistration from the course.
PR: CHEM 1050 and Mathematics 1001 which may be taken concurrently with CHEM 1050
LH: 3
OR: 1.5 hour tutorial per week
UL: only 6 science credit hours will be awarded for a major or honours in Chemistry from the following course groups: CHEM 1010/1011/1031, or CHEM 1010/1050/1051, or CHEM 1810/1200/1001 (Grenfell Campus)

2100 Analytical Chemistry I (same as the former CHEM 3100) is an introduction to analytical chemistry and includes preparation of samples and standards, calibration methods, statistical treatment of data, spectrophotometric trace analysis, gravimetric analysis and volumetric analysis including acid-based titrations, precipitation titrations, oxidation-reduction titrations, complexometric titrations and titrations in non-aqueous systems. Also introduced are liquid-liquid and other types of extraction, and chromatography with key methods of detection. Theoretical, practical and problem-solving aspects are covered.
2120  
Introduction to Instrumental Analysis  
This course covers the fundamental principles of instrument design and their applications in chemical analysis. Topics include general introduction to instrumental analysis, spectrometric techniques, chromatography, and electroanalytical methods. AR: attendance is required in the laboratory component of this course. Failure to attend may result in a failing grade or deregistration from the course.

CR: CHEM 2300 (offered at Grenfell Campus)
LH: 3
PR: CHEM 1051 (or CHEM 1001 or CHEM 1031), Mathematics 1001

2301 Thermodynamics and Kinetics  
This course covers the fundamental principles of thermodynamics and kinetics, including the laws of thermodynamics, statistical mechanics, and reaction rates. AR: attendance is required in the laboratory component of this course. Failure to attend may result in a failing grade or deregistration from the course.

CO: Mathematics 2000 is recommended
CR: CHEM 2300
LH: 3
PR: CHEM 1051 (or CHEM 1001 or CHEM 1031), Mathematics 1001 and Physics 1051 or Physics 1021

2302 Quantum Chemistry and Spectroscopy  
This course covers the fundamentals of quantum mechanics and its applications to chemical spectroscopy. AR: attendance is required in the laboratory component of this course. Failure to attend may result in a failing grade or deregistration from the course.

CO: Mathematics 2000 is recommended
CR: the former CHEM 3301
LH: 3
PR: minimum 60% in CHEM 1051 (or CHEM 1001 or CHEM 1031), Mathematics 1001 and Physics 1051 or Physics 1021

2400 Introductory Organic Chemistry I  
This course covers the fundamentals of organic chemistry, including structures, reactions, and properties of organic compounds. AR: attendance is required in the laboratory component of this course. Failure to attend may result in a failing grade or deregistration from the course.

CR: the former CHEM 2420, 2440, and the former 2400B
LH: 3
PR: CHEM 1051 or 1031; or CHEM 1010 and 1011 with a grade of at least 80% in each; or CHEM 1011 with a grade of at least 85%; or CHEM 1001 with a grade of at least 65%

2401 Introductory Organic Chemistry II  
This course covers the interpretation of infrared, R and C-13 NMR spectra, polarimetry, and reactions of functional groups. AR: attendance is required in the laboratory component of this course. Failure to attend may result in a failing grade or deregistration from the course.

CR: the former CHEM 2420, 2440, and the former 2400B
LH: 3
PR: CHEM 1051 or 1031; or CHEM 1010 and 1011 with a grade of at least 80% in each; or CHEM 1011 with a grade of at least 85%; or CHEM 1001 with a grade of at least 65%

2440 Organic Chemistry for Biologists  
This course covers the fundamentals of organic chemistry, with an emphasis on principles relevant to biological molecules. AR: attendance is required in the laboratory component of this course. Failure to attend may result in a failing grade or deregistration from the course.

CR: CHEM 2420, the former 2420, the former 2400B
LH: 3
PR: CHEM 1051 (or 1001 or 1051)
UL: may not be used for credit by Chemistry or Biochemistry Majors and is not a prerequisite for any other Chemistry course.

3110 Analytical Chemistry II  
This course covers the principles of instrumental analysis, with an emphasis on spectroscopic methods. AR: attendance is required in the laboratory component of this course. Failure to attend may result in a failing grade or deregistration from the course.

CR: CHEM 2420, the former 2420, the former 2400B
LH: 3
PR: CHEM 1011 (or 1001 or 1051)
UL: may not be used for credit by Chemistry or Biochemistry Majors and is not a prerequisite for any other Chemistry course.

3500 Spectroscopic Analysis: Spectroscopy and Structure  
This course covers the fundamentals of spectroscopy and its applications in molecular structure. Emphasis will be placed on electronic, vibrational, and rotational spectroscopy. AR: attendance is required in the laboratory component of this course. Failure to attend may result in a failing grade or deregistration from the course.

CR: CHEM 2210, CHEM 2300 (or 2300), and CHEM 2401
LH: 3
PR: CHEM 2100 or the former CHEM 3100

3600 Marine Chemistry  
This course covers the principles of marine chemistry, with an emphasis on applications to environmental and biological systems. AR: attendance is required in the laboratory component of this course. Failure to attend may result in a failing grade or deregistration from the course.

CR: CHEM 2210, CHEM 2300 (or 2300), and CHEM 2401
LH: 3
PR: BIO 1010 and 1011, or all of CHEM 2401, Biochemistry 2100 and Biochemistry 2101

4150 Advanced Spectrometric Techniques  
This course covers advanced spectroscopic methods and their applications in molecular structure. Emphasis will be placed on modern spectroscopic techniques, including infrared, Raman, and NMR spectroscopy. AR: attendance is required in the laboratory component of this course. Failure to attend may result in a failing grade or deregistration from the course.

LH: 3
PR: CHEM 2210, CHEM 2300 (or 2300) and CHEM 2401
UL: may not be used for credit by Chemistry or Biochemistry Majors and is not a prerequisite for any other Chemistry course.

AR = Attendance requirement; CR = Credit hours = 3 unless otherwise noted; CO = Co-requisite(s); CR = Credit can be retained for only one course from the set(s) consisting of the course being described and the course(s) listed; LH = Lecture hours per week are 3 unless otherwise noted; LH = Laboratory hours per week; OR = Other requirements of the course such as tutorials, practical sessions, or seminars; PR = Prerequisite(s); UL = Usage limitation(s).
Course 4152 Electroanalytical Techniques examines the principles and theory of dynamic electrochemistry, voltammetry, stripping analysis, electro-chemical sensors and detectors.
PR: CHEM 3110 (or the former CHEM 4100 or the former CHEM 4101 or the former CHEM 4110)

Course 4155 Introduction to Multimedia Application Development offers an overview from keyboard and mouse, and import sounds and videos to produce multimedia applications which can be directly deployed on the Internet.
PR: CHEM 3110

9.4 Computer Science

Computer Science courses are designated by COMP.

9.4.1 First Year Courses

Course 1510 An Introduction to Programming for Scientific Computing introduces students to basic programming in the context of numerical methods with the goal of providing the foundation necessary to handle larger scientific programming projects. Numerical methods to solve selected problems from Physics, Chemistry, and Mathematics will be covered.
CR: COMP 2602, the former Mathematics 2120
LH: 3
PR: Mathematics 1000

Course 1550 Introduction to Multimedia Application Development is an introduction to programming and computer science with an emphasis on the development of multimedia applications. The course introduces the fundamental principles of programming, including object-oriented and event-driven programming, how to use and create classes and methods and combine them with multimedia libraries to produce animations, handle input from keyboard and mouse, and import sounds and videos to produce multimedia applications which can be directly deployed on the Internet.
CR: COMP 2650 or COMP 2801
LH: 3

Course 1700 Introduction to Computer Science lays the foundation for the art and technology of computing. The course contains fundamental and topical issues in computers, languages, programming and applications. This course is designed for potential Computer Science majors without a background in programming, but is also available for non-majors.

Course 1710 Object-Oriented Programming I is an introduction to fundamental programming techniques, primitive data types and operations, program control structures and the use of objects, classes and methods.
CR: if previously completed or currently registered for COMP 2710
LH: 3

9.4.2 Second Year Courses

Course 2000 Collaborative and Emergent Behaviour is a survey of computation as a means of understanding, modelling, and describing artificial and natural systems. The emergence of complex behaviour from the interaction of simple rules governing individual components is illustrated and discussed, as well as the role of communication between system components. Selected systems to be studied will be drawn from different topic areas which may include the worldwide web, the mind (cognitive science), formal logic, autonomous robotics, chaos and fractals, and bioinformatics. Each topic will incorporate an associated laboratory experience.
LH: 3 hours bi-weekly

Course 2500 Data Analysis with Scripting Languages introduces the use of scripting languages to solve common data analysis tasks. The control structures and expressions of the language are first discussed. Script solution to storing/retrieving data sets, searching data sets, and performing numerical and statistical calculation are covered. Plotting and visualization for data sets are also presented.
2602 Computer Programming in FORTRAN is a study of algorithmic problem solving and structured programming techniques; the Fortran programming language and its application to computer solutions of scientific problems; numeric and non-numeric problems are examined with emphasis on code modularity and reusability of the components.

2650 Problem-Solving with Personal Computers is an overview of tools and techniques that current computer technology offers in a PC-based networked environment. The emphasis is on conceptual understanding of the software, from exploring capabilities of the existing software tools to learning methods of extending these capabilities. The key topics include problem-solving strategies, visual programming, macro-language operations, object linking and embedding, digital communication, and developing interactive web pages. The course has a practical flavour. In structured laboratory sessions, students gain proficiency in using personal computers for solving common problems.

2710 Object-Oriented Programming II continues from Object-Oriented Programming I, and studies object-oriented and event-driven programming. Additional topics include: recursion, logic analysis of fundamental data structures such as simple linked structures and stacks, and fundamental computing algorithms such as binary search and quadratic time sorting. A brief overview of programming languages, virtual machines and language translations is also provided.

2711 Introduction to Algorithms and Data Structures includes the study of standard ways of organizing and manipulating data in computer storage. Fundamental concepts in the design and analysis of algorithms are also discussed.

2716 Development Tools, Work Flows and Concepts covers tools, workflow concepts used in software development, and structured software development in a concentrated introductory set of topics. The essential work flows (with their underlying concepts) used to edit, build, test, combine with existing software and find existing software are introduced. The tools covered include text editors, programming and compiler translators, file management tools, debuggers, scripting tools, source control tools, and building, testing and deployment tools. The architecture and use of an integrated Development Environment are discussed.

2742 Logic for Computer Science is an introduction to propositional and predicate logic with applications. The use of the system of boolean logic in reasoning and circuit design, as well as basic proof techniques and the resolution principle, for both propositional and predicate logic, will be covered. Concepts involving sets will be used to illustrate different types of proof techniques. The probable intractability of boolean logic and Goedel's incompleteness theorem will be presented.

2752 Introduction to Business Data Processing - inactive course.

2760 Encountering the Computer: Society and the Individual examines social, ethical, legal and cultural issues surrounding the use of computers in modern society. These broader social issues are followed by an examination of the use of social and individual psychology in user interface design. Students are expected to demonstrate an understanding of these issues both directly (through verbal and written discourse) and practically, as applied to the creation of actual software artifacts.

9.4.3 Third Year Courses

3550 Introduction to Bioinformatics (same as Biology 3951) deals with the development and application of computational methods to address biological problems. The course will focus on the fundamental concepts, ideas and related biological applications of existing bioinformatics tools. This course will provide hands-on experience in applying bioinformatics software tools and online databases to analyze experimental biological data, and it will also introduce scripting language tools typically used to automate some bioinformatics data analysis tasks.

3700 Industrial Experience is a course for students who are admitted to CIIO. Students are required to register for this non-credit course every semester during their internship. This course is open only to students who have been accepted into the Internship Program and provides an opportunity for qualified students to obtain rewarding job experience of 8, 12 or 16 months of continuous duration, during the course of their studies.

3710 Vocational Languages is a study of several programming languages of vocational significance (e.g. a selection from C, C++, Prolog, Perl, Python and LISP). The use of appropriate programming paradigms to solve some significant problems.

3715 Network Computing with WEB Applications studies how distributed applications (e.g., client/server Web applications) are constructed using the Internet. Topics covered include: the socket interface for inter-process communication, client/server applications, browser scripting using Javascript, content generation for web applications (e.g., jsp, php), html/css documents, and the use of cryptography to handle security.

3716 Software Methodology studies the development of software by gathering the requirements of the software program, analysing the requirements to create a development model, and creating the software and documents for the software product. This course studies techniques for all three software development activities.

3717 Symbolic Computation and Recursion - inactive course.

3718 Programming in the Small demonstrates the tools and techniques used in the construction of small software systems. The software tools and techniques to be covered include analysis and design of software components, software construction tools (e.g. linkers, builders, debuggers), software library use and design, and system integration.

3719 Theory of Computation and Algorithms is an introduction to formal algorithmic problem solving. Various algorithm design techniques that sometimes yield efficient solutions are studied. Deterministic and nondeterministic machines (finite state automata, pushdown automata and Turing machines) are discussed. The context-free languages and the concept of context-free grammars are covered. The famous halting problem is undecidable and basic issues related to parallelization are discussed as well.

3723 Logic Design - inactive course.

3724 Computer Organization can be studied at the digital logic implementation level, the instruction set architecture level, and the transition of programming languages to the underlying machine instruction level. This course studies computer organization at these levels.

AR = Attendance/registration requirement; CH = Credit hours are 3 unless otherwise noted; CO = Co-requisite(s); CR = Credit can be retained for only one course from the set(s) consisting of the course being described and the course(s) listed; LG = Lecture hours per week are 3 unless otherwise noted; LH = Laboratory hours per week; OR = Other requirements of the course such as tutorials, practical sessions, or seminars; PR = Prerequisite(s); UL = Usage limitation(s).
4723 Introduction to Microprocessors examines the architecture and instruction sets for several microprocessors. The use of microprocessors as device controllers; comparisons of hardware and programmed techniques; microprocessor interfacing with external devices; methods of I/O; bus structures; modern microprocessor support devices are discussed.

4725 Introduction to LSI Design - inactive course.

4726-4729 Special Topics in Computer Systems

4734 Matrix Computations and Applications is an introduction to linear algebra; solution to linear systems; scaling, improving and estimating accuracy; the linear least squares problem; the eigenvalue problem; singular value decomposition of a matrix; the generalized eigenvalue problem.

4737 Formal Languages and Computability is an in-depth study of various types of formal machines and their associated languages. Effective computability and other formalisms, such as lambda calculus will be studied as well.

4741 Formal Languages and Computability covers system design considerations; syntactic and semantic structure; survey of typical features and operations; analysis of facilities for control and data structuring; language extensibility; execution models; formal specification of programming languages.

4742 Computational Complexity is an in-depth discussion of computational complexity theory. Topics covered in the course include: models of computation (for both serial and parallel computations); complexity measures; reducibility; complexity classes (NP, PSPACE, NC, LOGSPACE and P); and randomized computations.

4743 Graph Algorithms and Combinatorial Optimization discusses classical problems in combinatorial optimization and graph algorithms, including matching, colorability, independent sets, isomorphism, network flows and scheduling. Special families of graphs are discussed and algorithms that would otherwise be NP-hard or complete are shown to be polynomial time when restricted to such families.

4744-4749 Special Topics in Theoretical Aspects

4748 Introduction to the Science of Complexity is an exploration of the use of computers in the simulation of complex systems. Some theories and models, such as cellular automata, artificial life, fractals, genetic algorithms, chaos, and evolution will be discussed and will be used in the modelling of "real-life" systems. The approach in this course is practical. Students have to write a number of programs of different levels of sophistication including a final project.

4751 Computer Graphics examines display devices, display processors, display file compilers, display transformations, structured display files, graphical input devices, perspective, hidden line elimination, languages and graphics systems.

4752 Introduction to Computational Intelligence provides an introduction to four of the fundamental computational intelligence methods: artificial neural networks, evolutionary computation, swarm intelligence and fuzzy systems. The integration of these techniques for problem solving will also be introduced.

4753 Artificial Intelligence has selected topics from AI programming languages; heuristic searching; problem solving; game-playing; knowledge representations; knowledge-based systems; reasoning in uncertainty situations; planning; natural language understanding; pattern recognition; computer vision; and machine learning.

4754 Database Systems introduces students to database processing, database management systems and database design considerations. It will cover the theory and methodologies essential for the relational database
4756 Image Processing will centre on the key analytical and algorithmic tools and concepts of digital image processing. Topics will include transformations, enhancement, encoding, data bases, segmentation, and description.

4759 Computer Networks looks at how the operation of computer networks requires the following: a) communication between two computers, b) information transfer between two computers not directly connected, and c) services that need computer communication. This course focuses on the standard solutions and services used to fulfill the previous requirements. These include: physical transmission of signals, reliable communication based on unreliable communication channels, the routing of messages between connected computers to reach computers that are not directly connected, e-mail, file transfer, name servers, remote terminal access and the World Wide Web. Particular attention will be placed on the workings of the Internet.

4761 Human-Computer Interaction - inactive course.

4762 Introduction to Computational Molecular Biology will give an overview of computational problems and algorithms for these problems associated with a variety of analyses of biological molecular data.

4766 Introduction to Autonomous Robotics examines the fundamental constraints, technologies, and algorithms of autonomous robotics. The focus of this course will be on computational aspects of autonomous wheeled mobile robots. The following topics will be covered: major paradigms in robotics, methods of locomotion, kinematics, simple control systems, sensor technologies, stereo vision, feature extraction, modelling uncertainty of sensors and positional information, localization, SLAM, obstacle avoidance, and 2-D path planning.

4767 Information Visualization and Applications focuses on the design and implementation of interactive visualization techniques for the analysis, comprehension, exploration, and explanation of large collections of abstract information. Topics to be covered include principles of visual perception, information data types, visual encodings of data, representation of relationships, interaction methods, understanding user goals and tasks, and evaluation techniques. Case studies of accepted techniques and the current state-of-the-art in information visualization will be presented.

4768 Software Development for Mobile Devices focuses on the design and implementation of software in a mobile networking environment. The primary topics to be covered in this course include software engineering, network computing, graphics programming, and human-computer interaction for mobile devices. A modern mobile device with advanced networking and graphic features, including multi-touch interaction and motion sensors will be used as the primary platform for development in this course.

4770 Team Project has as its main objective to develop a working prototype of a software system as a team effort. A group of students will work on a project for a term, experiencing the advantages and difficulties of team projects.

4780 Honours Project introduces computer science honours students to research activities, familiarizes them with a special problem in computer science, and provides independent study on an advanced topic under the direct supervision of a member of the computer science faculty. The topic is decided in consultation with the supervisor. The student is required to produce a written report on the project, to include the literature search on the topic, and to present this work at a departmental seminar prior to the last week of the semester.

9.5 Earth Sciences

The first digit of each course number designates the level (year) of the course. The second digit indicates the area of Earth Sciences into which the course best fits, as follows:

Second Digit
0 - mineralogy and petrology
1 - geophysics
2 - economic geology
3 - stratigraphy and marine geology
4 - structural geology and tectonics
5 - geochemistry
6 - technical fields and petroleum geology
7 - sedimentation, geomorphology
8 - paleontology
9 - general and dissertation

Earth Sciences courses are designated by EASC.

9.5.1 First Year

1000 Earth Systems is a survey of the structure, function and interrelations of Earth's lithosphere, hydrosphere, atmosphere and biosphere. Topics include an exploration of the physical and chemical properties of planetary materials, forces driving and sustaining Earth systems, and biological modifiers (including humankind) on the Earth today.

LH: 3

1001 Evolution of Earth Systems - inactive course.

1002 Concepts and Methods in Earth Sciences provides an introduction to a broad range of concepts concerning the development of the geological record and the Earth; practical methods for collection of field based data; topics in map interpretation and geometric analysis, stratigraphy, palaeontology, structure and petrology. The course is presented with an emphasis on the development of practical skills needed to pursue a career in Earth Sciences.

LH: 3

PR: EASC 1000

9.5.2 Second Year

2030 Mineralogy provides an introduction to crystallography and the structure of minerals; introduction to crystal optics; study of the rock forming minerals and minerals of economic significance. Laboratory work comprises study of the structures and symmetries of minerals, chemistry of rock forming minerals, introduction to transmitted light microscopy of rocks, hand specimen recognition of common rocks and minerals.

CO: EASC 2502

CR: the former EASC 203A/B

LH: 3

PR: EASC 1000, Chemistry 1011 or 1051 or equivalent), Physics 1051 (or 1021 or 1054), and Mathematics 1000

2031 Mineralogy and Petrography examines the optical and chemical properties of rock-forming minerals, the petrography and classification of igneous and metamorphic rocks and applications of relevant phase equilibria to the study of minerals. Laboratory work comprises optical mineralogy and petrography of igneous and metamorphic rocks.

CO: Mathematics 1001

CR: the former EASC 203A/B

LH: 3

PR: EASC 2030, 2502, Mathematics 1001

2150 The Solar System describes the basic astronomy of the Solar System, tracing the search to understand motion of the Sun, Moon and planets in the sky; modern observations of planets, moons, comets, asteroids, comets, etc.

AR = Attendance requirement; CH = Credit hours are 3 unless otherwise noted; CO = Co-requisite(s); CR = Credit can be retained for only one course from the set(s) consisting of the course being described and the course(s) listed; LC = Lecture hours per week are 3 unless otherwise noted; LH = Laboratory hours per week; OR = Other requirements of the course such as tutorials, practical sessions, or seminars; PR = Prerequisite(s); UL = Usage limitation(s).
asteroids and meteorites and what they tell us about the origin and evolution of the Solar System.

UL: not acceptable as one of the required courses for the Minor, Major or Honours programs in Earth Sciences.

2311 Geoscience Communication is an introduction to the fundamentals of preparation of written and oral geoscience reports, emphasizing organization, correct use of terminology, concise description, preparation of abstracts and introductions, integration of numerical data and publication-quality graphs and oral presentation skills. Topics for reports will be selected from the subject matter of other 2000 level Earth Sciences courses.

LC: 2
CR: Tutorials three hours per week
PR: Earth Sciences 2905 and 6 credit hours in English

2401 Structural Geology provides an introduction to basic concepts; the physics of rock deformation, the classification and descriptive geometry of major and minor structures and their relationship to stress and strain. Laboratory work will concentrate on analysis of structural orientation data, and the analysis of structures in geological maps and cross-sections. Earth Sciences majors are advised to complete field course, EASC 3905, immediately following completion of this course.

CR: the former Geology 3120 or the former EASC 3120 or the former EASC 3400

2502 Introduction to Geochemistry provides an overview of both low- and high-temperature geochemistry. Topics include: origin and classification of the elements; chemical differentiation of the solar system and solid Earth; aqueous geochemistry and the stability of minerals; radiogenic and stable isotopes. Geochemical concepts are illustrated using data and processes drawn from Earth system systems. The laboratory component emphasizes the development of numerical skills needed in geochemistry.

CO: Mathematics 1001
LH: 3
PR: EASC 1000, Chemistry 1011 (or 1051 or equivalent)

2702 Sedimentology and Stratigraphy is a study of the origin and composition of sediments with a focus on depositional processes and resulting sedimentary structures. Study of environments of deposition and the stratigraphic framework of sedimentary successions. Laboratories involve local field trips, petrographic analysis, and the study of hand samples of sedimentary rocks.

CR: the former Geology 3070 or the former EASC 3070 or the former EASC 3701
LH: 3
PR: EASC 1002

2905 Introduction to Geological Mapping is based on approximately six days of geological mapping in Precambrian rocks near St. John's, and two days of in-class work preparing a digital map and written report. Emphasis is placed on the recognition and description of sedimentary and igneous rocks in the field, and techniques of geological mapping and the taking of field notes. This course will be given during a special session immediately preceding the fall semester.

AR: attendance is required
CH: 2
CR: the former EASC 2510 or the former EASC 2500
OR: field based course
PR: EASC 1002 and an application to the Head of the Department

2914 The Earth's Energy Resources: Past, Present and Future (formerly Geology 2414 and EASC 2414) provides a scientific analysis of the Earth's energy resources. The history of human exploitation of them; consequences for quality of life, and political and economic power; scenarios for the future. This course is designed for students taking Earth Sciences as an elective subject. This course complements traditional disciplines such as history, economics, and political science and should be of particular interest to teachers.

CR: the former Geology 2414 and the former EASC 2414
UL: not acceptable as one of the required courses for the Minor, Major or Honours programs in Earth Sciences.

2915 The Earth's Material Resources: Past, Present and Future - inactive course.

2916 Natural Hazards on a Dynamic Earth describes the surface of the Earth being in a constant state of change, thereby posing risks and challenges. An understanding of geoscience such as history in the past and present provides context for evaluating risks related to earthquakes, volcanic activity and mass movements, challenges related to water resources, land-use planning and waste disposal, and the background to interconnection and consequence of climate change. The course will provide a broad perspective on contemporary issues facing society. This course is designed for students taking Earth Sciences as an elective subject. This course complements traditional disciplines such as history, economics, and political science and should be of particular interest to teachers.

9.5.3 Third Year

3030 Mineralogy and Materials Science provides a review of elementary crystallography, introduction to space groups and crystal structures, and the properties of minerals and rocks; structural and crystallographic aspects of order-disorder, solid solution and mixing. Crystal growth, chemical zoning and diffusion. Phase changes in the solid state (exsolution, polymorphism and polytypism). Students will be introduced to the use of tools used in mineralogy (X-ray diffraction, electron probe microanalysis, transmission electron microscopy, electron-microprobe analysis, luminescence, and computer simulation). Laboratory work will emphasize practical skills using these techniques. Examples will be chosen from among minerals, ceramics, semiconductors, metals and glass.

CR: EASC 3031 or permission of the instructor

3054 High-Temperature Geochemistry and Igneous Petrology is an integrated course dealing with the geochemistry of igneous rocks. Topics include trace element geochemistry; physical properties of magmas; physical and chemical processes in magma chambers (fractional crystallization, differentiation, assimilation and partial melting); phase equilibria and application to magmas, petrology of the mantle, and igneous rocks of specific tectonic settings (oceanic lithosphere, continental margins, continental lithosphere). Laboratories include geochemical calculations and examination of rock samples and thin sections.

CR: the former EASC 3053 in combination with the former 2503
LH: 3
PR: EASC 2031 and 2502

3055 Thermodynamics and Metamorphic Petrology is an integrated course dealing with the geochemistry, origin and classification of metamorphic rocks. Topics include thermodynamic background and kinetics (transfer of mass and energy in geochemical systems of the Earth's interior, including economic processes), solid-solid reactions, reaction rates, mineral assemblages and textures of common metamorphic rocks. Laboratories include thermodynamic and phase diagram problems, hand specimen and thin section studies.

CR: the former EASC 3053 in combination with the former 2503
LH: 3
PR: EASC 2031 and 2502, Mathematics 1001

3170 Seismic and Potential Fields Methods in Geophysics examines fundamentals of seismic energy transmission in the Earth; basic methods in seismic exploration - data acquisition, processing and interpretation for refraction and reflection surveys; fundamentals of gravity and magnetic data acquisition, processing and interpretation; introduction to gravity and magnetic modelling.

LH: 3
PR: Physics 1051 (or 1021 or the former 1054); Mathematics 1001; Geomatics 2000 or Statistics 2500 or the former Statistics 2510; EASC 2905 or permission of the Head of the Department for students following a Minor in Earth Sciences or a Major in Environmental Physics.

3172 Electric and Electromagnetic Methods in Geophysics is an introduction to electrical and electromagnetic methods in geophysics applied to mineral exploration; basic principles and methods of electrical, electromagnetic and gravitational surveys; and principles of application of various techniques; use of data processing

AR = Attendance requirement; CH = Credit hours are 3 unless otherwise noted; CO = Co-requisite(s); CR = Credit can be retained for only one course from the set(s) consisting of the course being described and the course(s) listed; LC = Lecture hours per week are 3 unless otherwise noted; LH = Laboratory hours per week; OR = Other requirements of the course such as tutorials, practical sessions, or seminars; PR = Prerequisite(s); UL = Usage limitation(s).
and modelling techniques in interpretation; introduction to radiometric methods used in mineral and petroleum exploration. The laboratory component involves outdoor surveys using geophysical equipment, and computer-based presentation and analysis of collected data using modern geophysical software.

CO: EASC 2905 or permission of the Head of the Department

LH: 3

PR: Physics 1051 (or 1021 or the former 1054); Mathematics 1001; Mathematics 2000 or Statistics 2550 or the former Statistics 2510; EASC 2905 or permission of the Head of the Department for students following a Minor in Earth Sciences or a Major in Environmental Physics

3179 Mathematical Methods for Geophysics covers subjects required for quantitative analysis of geophysical phenomena. Vector calculus with emphasis on integral theorems is covered in the context of Maxwell's equations; Determinants and solutions of ordinary and partial differential equations with emphasis on hyperbolic, parabolic and elliptic equations in the context of the wave, heat, and potential-field equations, respectively; tensor algebra and analysis in the context of theory of elasticity and electromagnetism; Fourier analysis as a tool for solution of differential equations and signal analysis. The course may also include such topics as the calculus of variations, curvilinear coordinates on differentiable manifolds, differentiation in the sense of distributions.

LH: 3

PR: Mathematics 2000, Physics 2055 and 2820

3210 Economic Mineral Deposits is an introduction to the study of mineral deposits and definition of the basic physio-chemical parameters of ore deposit formation. The course involves a systematic review of genetic models for the principal hydrothermal, magmatic, and sedimentary deposits and links these models to a common theme of the relationship between lithosphere- hydrosphere-biosphere interactions and metallogeny. Laboratory exercises involve examination of representative suites of samples from different types of metallic mineral deposits and provide an introduction to the use of reflected light microscopy.

LH: 3

PR: either EASC 2031, 2502 and 2905; or EASC 2031 and Chemistry 3211; or Engineering 3610 and the former Engineering 3205

3420 Global Tectonic Processes examines how horizontal and vertical motions of the Earth's surface are influenced by heat and mass transfer within its interior. Surface motions are described qualitatively and quantitatively within the framework of plate tectonics, and uses major tectonic processes to the igneous, metamorphic and sedimentary rock record. Laboratory exercises emphasize geologic and geophysical applications of the material developed in lectures.

CR: the former EASC 2070, 2161, 2400 and 4901

LH: 3

PR: EASC 2031, 2401, 2502, 2702, Mathematics 1000 and 1001, Physics 1021 or 1051

3600 Environmental Geology examines the application of basic concepts and fundamental principles of geochemistry in evaluating natural and human-induced changes through time on the Earth's lithosphere, hydrosphere, atmosphere and biosphere. It includes the effects of contaminants on global change. Laboratory time will be used for short field-based studies and for exercises examining the effects of contaminants on global change.

LH: 3

PR: either EASC 2502; or EASC 1000, Chemistry 2210 and Chemistry 2300

3611 Engineering Geology - inactive course.

3702 Lithification, Diagenesis and Sedimentary Rock Properties provides a conceptual and practical overview of the transformation of sediments into sedimentary rocks through compaction, cementation and mineral reactions, and the resultant modifications of rock composition, rock fabric, and associated porous media characteristics (e.g. porosity). Both descriptive and analytical methods are integrated in laboratories that include carbonate and sandstone petrology (hand samples and thin sections), geological analysis of selected wireline logs, and the analysis of fluid flow properties.

LH: 3

PR: EASC 2031, 2702 and 2905

3705 Field Course in Sedimentology, Reservoir Architecture and Sequence Stratigraphy is a ten day field and lecture based course normally offered in the first two weeks of the Spring semester that aims to teach students to use sedimentological and palaeontological data for palaeoenvironmental and palaeotectonic analysis. The course will discuss the use of sedimentary facies models and facies architectural studies in reservoir geology, particularly when coupled with the principles of sequence stratigraphy. Students will be taught to create sedimentary logs and facies architectural panels.

CO: EASC 3811, 3905

CR: the former EASC 4700 or the former Geology 4700

OR: field-based course

PR: EASC 2702, 3811, 3905

3811 Paleontology outlines the major changes in life forms from Archean times through the Phanerzoic to the present day, including details of invertebrate and vertebrate faunas and major floral groups; mechanisms and effects of macro- and micro-evolution in the fossil record; biology and classification of organisms and summaries of their geological significance in biostratigraphy, paleoecology and rock-building; relationships between major cycles of evolution and extinction to global processes.

CR: EASC 3812 or either the former EASC 3801 or the former Biology 3800

LH: 3

PR: either Biology 2120 (or Biology 1001 and 1002) and EASC 1002; or Biology 2122 and 2210

3905 Field Methods in Structural Geology and Stratigraphy is based on approximately 5 days of geological mapping in Precambrian rocks near St. John's. Emphasis is placed on application of techniques of structural analysis. Evening's will be dedicated to data analysis and preparation of structural maps and sections. Students are advised to complete this course immediately following EASC 2401. This course will be offered during a special session immediately following the examination period in a given semester.

AR: attendance for all of the field school days is required. Failure to attend may result in a failing grade or withdrawal from the course.

CH: field based course

PR: EASC 2401 and 2905 and an application to the Head of the Department

9.5.4 Fourth Year

4053 Petrogenesis of Igneous Rocks investigates the origin of topical and important groups of igneous rocks based on experimental petrology, phase equilibria and application of geochemical tools. It further investigates the classification of igneous rocks on the basis of micro-textural and aspects of physical volcanology. The laboratory component of the course emphasizes practical aspects of igneous petrology including geochemical characterization and use of hand-sample and field criteria.

LH: 3

PR: EASC 3054 and 3420

4054 Metamorphic Petrology examines relationships between metamorphism and tectonics, representation and interpretation of metamorphic mineral assemblages using compositional phase diagrams and petrographic grids, equilibrium thermodynamics and thermobarometric determination of P-T-t paths. Laboratories include use of the electron microprobe to collect data for use in calculations of the conditions of formation of metamorphic assemblages, and various types of software applicable to metamorphic petrology.

LH: 3

PR: EASC 2401, 3055 and 3420

4105 Field Course in Applied Geophysics is a field based course with an emphasis on environmental and mineral exploration applications. It consists of a data collection module normally offered during a special session immediately before the Fall semester, followed by a processing and interpretation module during the first part of the Fall semester. Field techniques used may include ground probing radar, reflection seismology, magnetic surveying, gravimetry, electrical and electro-magnetic methods. For computer based processing, students make use of modern mapping and geophysical software.

AR: attendance required

OR: field-based course

PR: EASC 3170, 3172 and 3179

4171 Advanced Seismology examines techniques involved in the acquisition, processing and interpretation of multichannel seismic reflection data. Introduction to elastic properties of rocks. Introduction to advanced processing and interpretation techniques as applied to qualitative and quantitative evaluation of hydrocarbon reservoir characteristics. This course has a laboratory component designed to provide hands-on experience with data processing and interpretation.

LH: 3

PR: EASC 3170 and 4179

4173 Advanced Electrical, Electromagnetic and Potential Fields Methods examines advanced techniques in electrical and electromagnetic exploration methods including advanced IP, airborne EM surveys, EM and IP modeling, and inversion techniques; advanced methods in gravity and magnetic field exploration techniques including 2-D and 3-D modelling and inversion, map processing techniques, and excess mass determination.

LH: 3

PR: EASC 3170, 3172, and 4179

4179 Digital Signal Processing is an introduction to the theory and basic computational techniques of digital signal processing in geophysics. Topics covered include: sampling, Fourier transformation, design and application of digital filters, deconvolution, spectral analysis, two dimensional signal...
processing, with emphasis on geophysical applications.

LH: 3
PR: EASC 3170 or 3172; and EASC 4179

4211 Economic Geology provides a detailed look at the methodologies and techniques used in the study of mineral deposits and their applications in case histories. Laboratory exercises involve solving problem sets using the various types of data from selected case studies.

LH: 3
PR: EASC 3054 or 3055; and EASC 3210

4302 Advanced Marine Geology examines the geology and geophysics of ocean basins; discussion of methods of oceanic exploration, the history and development of ocean basins, interrelationships between ocean water, marine organisms, sedimentary and igneous processes.
PR: EASC 1001 or 1002 and completion of any 15 credit hours in core courses at 2000 and/or 4000 levels (see General Note 5) in Biology, Biochemistry, Chemistry, Earth Sciences, Physics, or Geography.

4310 Earth Science Concepts, Materials and Techniques for Archaeologists - inactive course.

4400 Advanced Techniques in Structural Geology examines modern techniques of structural analysis applied to folded and faulted systems including progressive deformation and strain analysis, fold mechanisms, fold morphology and classification, fold sections and profiles, superposed folding, fault geometry and morphology, brittle and ductile shear zones, and construction of balanced cross-sections.

LH: 3
PR: EASC 2401 and 3905 and a minimum of 6 credit hours in Earth Sciences at the 3000 level

4420 Tectonics and Crustal Evolution is a lecture and seminar course covering secular change and tectonic evolution in Earth history from the Archean to Mesozoic, featuring examples from the North American and geologic record. The course will draw on and link concepts from a variety of Earth Science disciplines and provide an overview of the geological evolution of North America in a tectonic context.
CR: the former EASC 4901
OR: seminar
PR: EASC 3420

4502 Advanced Geochemistry focuses primarily on the application of trace, radiogenic and stable isotope geochemistry to constrain the origin, mass balance and chemical fluxes within the Earth's lithosphere and atmosphere. The course permits students to write term papers and assignments in areas of geochemistry that reflect their career interests.

LH: 3
PR: EASC 2031 and 2502 and a minimum of 6 credit hours in Earth Sciences at the 3000 level

4503 Mineral Exploration Geochemistry is an examination of the application of geochemistry to mineral exploration, covering: the lithogeochemical characteristics of ore deposits, their host rocks, and element dispersion from them; the principles of sampling and analysis in exploration geochemistry; approaches to the statistical analyses, graphical presentation, and interpretation of survey results; and the design of effective geochemical surveys. Particular emphasis will be placed on case studies relevant to exploration in Newfoundland and Labrador. Laboratory/seminar sessions involve working with exemplary data sets, using computer-based software for statistical analysis and software for searching large databases and viewing the spatial relationships of different types of map data relevant to the mineral exploration industry.

LH: 3
OR: seminar
PR: EASC 3210

4601 Petroleum Origin and Occurrence - inactive course.

4602 Sedimentary Basins and Hydrocarbon Exploration provides a review of sedimentary basin types and associated petroleum systems including concepts applicable to petroleum generation, migration and accumulation. Regional-scale stratigraphic and structural concepts/models are presented as a framework for hydrocarbon fluid flow and entrapment. Laboratories include description and analysis of data typical of basin- and regionally focused basin appraisal and exploration of hydrocarbon resources using a variety of integrated, interdisciplinary techniques (geological, geophysical and geochemical).
CR: EASC 4601
LH: 3
PR: EASC 2401, 2702, 3170 and 3420

4603 Reservoir Characterization provides a review of the sedimentary, stratigraphic and structural setting of hydrocarbon reservoirs and the geological controls on reservoir quality. Reservoir types and methods of study are presented to evaluate their key properties for the development and production of hydrocarbons. Laboratories include detailed subsurface correlation and mapping, log analysis, interpretation of reservoir data (e.g. capillary pressure, porosity, permeability and production data).

AR = Attendance requirement; CH = Credit hours are 3 unless otherwise noted; CO = Co-requisite(s); CR = Credit can be retained for only one course from the set(s) consisting of the course being described and the course(s) listed; LC = Lecture hours per week are 3 unless otherwise noted; LH = Laboratory hours per week; OR = Other requirements of the course such as tutorials, practical sessions, or seminars; PR = Prerequisite(s); UL = Usage limitation(s).

4605 Environmental Geoscience Field School is a field-based course normally offered during a special session immediately before the Fall semester followed by laboratory analytical work during the Fall semester. The aim of this course is to investigate anthropogenic impacts on the environment using geochemical, hydrological, and microbial methods. Emphasis is placed on site investigation, sample collection and preparation techniques, instrumental analysis, and data analyses.
AR: attendance required
OR: field-based course
CR: EASC 2502, EASC 3600, Mathematics 1001, and one of Mathematics 2000, Statistics 2550, or the former Statistics 2510

4610 Hydrogeology examines geology and its relationship to groundwater occurrence and exploitation: basic theory, groundwater flow systems, surface-groundwater interactions and changes in water quality, field and laboratory techniques, hydrogeological aspects of waste disposal and resource development.
LH: 3
PR: Physics 1051 (or 1021); Mathematics 2000 or Statistics 2550 or the former Statistics 2510; EASC 2502 and a minimum of 6 credit hours in Earth Sciences at the 3000 level

4720 Carbonate Depositional Environments and Diagenesis examines carbonate environments and their facies models with examples from modern and ancient settings. Diagenetic environments and diagenetic controls on rock properties, particularly porosity, are examined, as well as their application in the reconstruction of the diagenetic history of a sedimentary basin and in the characterization of hydrocarbon reservoirs. The application of chemostratigraphy to correlation is discussed. The laboratory exercises employ analysis and specimen, thin section, geochemical, and other methods to investigate carbonates from different depositional settings and a wide spectrum of diagenetic environments covered in lectures.
CR: EASC 3811
LH: 3
PR: EASC 2031, 2702, and 3811

4800 Advanced Paleontology (same as Biology 4800) is a field, lecture, laboratory, and seminar course dealing with selected topics in general and applied paleontology. Topics include measuring evolution and extinction, paleoecology, functional morphology, paleoecology, statistical methods for paleontological studies, and applications in petroleum, mining, and environmental studies.
CR: Biology 4800
LH: 3
PR: EASC 3811, and Statistics 2550 or the former Statistics 2510 or Mathematics 2000

4902 Early Evolution of the Earth - inactive course.

4903 Global Change is a lecture and seminar course that studies the interaction of the atmosphere, biosphere and lithosphere; topics covered include the evolution of the biosphere, fluid circulation, global geochronological history, global environmental changes, and chemical evolution of the hydrosphere.
CR: seminar
PR: EASC 1001 or 1002, and Biology 2120 (or Biology 1001 and 1002); and completion of any 15 credit hours in core courses at the 3000 and/or 4000 levels (see General Note 5) in Biology, Biochemistry, Chemistry, Earth Sciences, or Physics; or permission of the instructor.

4905 Field Course in Geologic Mapping and Regional Tectonics is a two-week field school designed to allow application of techniques introduced in the third year, and to provide an introduction to the Appalachian geology of western and central Newfoundland. Reports must be submitted for grading during the fall semester.
CR: field-based course
PR: EASC 2401, 3005, 3420, and 3905; and permission of the Head of the Department

4912 Planetary Geology is a classroom- and laboratory-based course that provides students with a basic knowledge of the geology of the Moon, Mars, asteroids and the moons of the outer solar system; the geology and geochemistry of meteorites, and a basic understanding of the origin of the planets; impact cratering processes and rock products including those on Earth; and instrumentation for planetary exploration. The course combines lectures and laboratory exercises that examine data sets from planetary missions and specimens of extraterrestrial materials. Students learn how geological processes that have shaped Earth also have operated on other planets, moons and asteroids in our solar system.
CR: EASC 2031, 2702, 2905, and 3420

4910-4920 (Excluding 4912) Special Topics in Earth Sciences are lecture and seminar courses given for undergraduates in their fourth or fifth year who wish to gain more specialized knowledge in a particular field of Earth Sciences than is possible through the standard course offerings. The
Department will consider suggestions by students for Special Topics courses, but it must be borne in mind that such a course should normally be approved at least three months before the start of the semester in which it is to be taken.

PR: permission of the Head of Department

4950 Technical Report on Geoscience Employment requires the preparation of a publication-quality technical report, about 50 pages in length, based on a study undertaken during geoscience employment. The topic and scope of the study must be approved by the Head of Department prior to its commencement. Students will present a seminar or seminars on results of the project, and will be closely advised on proper organization and writing of scientific reports. Some directed reading will be required.

PR: completion of credit hours in Earth Sciences at 3000 level, and permission of the Head of Department
UL: can only be used as an "additional course" under point 3. of the regulations for General degrees, and under point 4. of the regulations for Honours degrees. The same student cannot be used as the basis of a dissertation completed for course EASC 499A/B.

9.6 Economics

For course descriptions, see Faculty of Arts section of the Calendar.

9.7 Geography

For course descriptions, see Faculty of Arts section of the Calendar.

9.8 Mathematics and Statistics

Students are encouraged to consult the Department regularly for specific planned offerings, semester by semester.

9.8.1 Foundation Courses

102F Mathematics Skills Program is a non-credit course intended for students who either have a weak background in mathematics or are returning to the subject after some years. The course enables students to master mathematical operations such as those involving whole numbers, fractions, decimals, percents, units of measurement, ratios and proportions.

CH: 0

102N Mathematics Skills Program for the B.N. (Collaborative) Program is a non-credit course intended for students of the B.N. (Collaborative) Program who have a weak background in mathematics and/or have not done mathematics in some years. The course enables students to master mathematical operations such as those involving whole numbers, fractions, decimals, percents, units of measurement, ratios and proportions.

CH: 0

103F Mathematics Skills Program is a non-credit course intended for students who either have a weak background in mathematics or are returning to the subject after some years. The course enables students to master mathematical operations such as those involving rational expressions and equations, units of measurement, ratios and proportions, formulas, graphs of linear equations, systems of equations, basic geometry and trigonometry and number systems.

CH: 0

PR: Mathematics 102F

104F Mathematics Skills Program is a non-credit course intended for students who either have a weak background in mathematics or are returning to the subject after some years. The course enables students to master mathematical operations such as those involving rational expressions and equations, units of measurement, ratios and proportions, formulas, graphs of linear equations, systems of equations, basic geometry and trigonometry and number systems.

CH: 0

PR: Mathematics 103F

9.8.2 Accelerated M103F/M1051 Mathematics Skills Program/Finite Mathematics II

103F Mathematics Skills Program/Finite Mathematics II is a non-credit course enabling students to master mathematics operations such as those involving algebraic and rational expressions, formulas, graphs, systems of linear equations, basic trigonometry and number systems. Mathematics 103F is a credit course with topics including elementary matrices, linear programming, elementary number theory, mathematical systems and geometry.

CH: 0

CO: Mathematics 102F and a recommendation by an MLC instructor resulting in approval by the MLC Director

LH: three 50 minute classes and two 75 minute classes per week

PR: Mathematics 102F and a recommendation by an MLC instructor resulting in approval by the MLC Director

9.8.3 Mathematics Courses

Mathematics courses are designated by MATH. Where the 4 digit course number is the same, students can receive credit for only one course with subject names MATH, AMAT, PMAT, STAT.

1000 Calculus I is an introduction to differential calculus, including algebraic, trigonometric, exponential, logarithmic, inverse trigonometric and hyperbolic functions. Applications include kinematics, related rates problems, curve sketching and optimization.

CR: the former MATH 1081

PR: MATH 1090 or a combination of placement test and high school Mathematics scores acceptable to the Department
UL: at most 9 credit hours in Mathematics will be given for courses completed from the following list subject to normal credit restrictions: Mathematics 1000, 1031, 1050, 1051, the former 1080, the former 1081, 1090, the former 1150 and 1151

1001 Calculus II is an introduction to integral calculus, including Riemann sums, techniques of integration and improper integrals. Applications include exponential growth and decay, areas between curves and volumes of solids of revolution.

CR: the former Engineering 1411 or the former Engineering 2413

PR: MATH 1000 or the former MATH 1081

1031 Mathematical Problem Solving - inactive course.

1050 Finite Mathematics I covers topics which include sets, logic, permutations, combinations and elementary probability.

CR: the former MATH 1150

LC: 4

PR: a combination of placement test and high school mathematics scores acceptable to the department or MATH 103F
UL: at most 9 credit hours in Mathematics will be given for courses completed from the following list subject to normal credit restrictions: Mathematics 1000, 1031, 1050, 1051, the former 1080, the former 1081, 1090, the former 1150 and 1151. With the exception of those already admitted at the time of registration in this course to a Bachelor of Education program that requires this course, students who already have obtained credit for 6 or more Mathematics credit hours numbered 2000 or above are not permitted to register for this course nor can they receive credit for it.

1051 Finite Mathematics II covers topics which include elementary matrices, linear programming, first semester number theory, mathematical systems, and geometry.

CR: the former MATH 1151

LC: 4

PR: a combination of placement test and high school mathematics scores acceptable to the department or MATH 103F
UL: at most 9 credit hours in Mathematics will be given for courses completed from the following list subject to normal credit restrictions: Mathematics 1000, 1031, 1050, 1051, the former 1080, the former 1081, 1090, the former 1150 and 1151. With the exception of those already admitted at the time of registration in this course to a Bachelor of Education program that requires this course, students who already have obtained credit for 6 or more Mathematics credit hours numbered 2000 or above are not permitted to register for this course nor can they receive credit for it.

AR = Attendance requirement; CH = Credit hours are 3 unless otherwise noted; CO = Co-requisite(s); CR = Credit can be retained for only one course in the set(s) consisting of the course being described and the course(s) listed; LC = Lecture hours per week are 3 unless otherwise noted; LH = Laboratory hours per week; OR = Other requirements of the course such as tutorials, practical sessions, or seminars; PR = Prerequisite(s); UL = Usage limitation(s).
1900 Algebra and Trigonometry provides students with the essential prerequisite elements for the study of an introductory course in calculus. Topics include algebra, functions and their graphs, exponential and logarithmic functions, trigonometry, polynomials, and rational functions.

PR: if previously completed or currently registered for MATH 1000, 1001, the former 1080, or the former 1081
UL: qualifies as a Research/Writing course in the Faculty of Arts
CR: the former AMAT 3190

2050 Linear Algebra I includes the topics: Euclidean n-space, vector operations in 2- and 3-space, complex numbers, linear transformations on n-space, matrices, determinants, and systems of linear equations.

PR: the former Engineering 2402
UL: at most 3 credit hours in Mathematics will be given for courses completed from the following list subject to normal credit restrictions: Mathematics 1000, 1031, 1050, 1051, the former 1080, the former 1081, 1090, the former 1150 and 1151

2000 Calculus III is a study of the differential calculus of functions of two variables, an introduction to convergence of infinite sequences and series.

CR: the former Engineering 1411, the former Engineering 1412, the former Engineering 2412, or the former Engineering 2413
UL: at most 3 credit hours in Mathematics will be given for courses completed from the following list subject to normal credit restrictions: Mathematics 1000, 1031, 1050, 1051, the former 1080, the former 1081, 1090, the former 1150 and 1151

3000 Real Analysis I covers proof techniques, structure of the real numbers, sequences, limits, continuity, uniform continuity, differentiation.

CR: the former MATH 2001
UL: 1
PR: MATH 2000

3001 Real Analysis II examines infinite series of constants, sequences and series of functions, uniform convergence and its consequences, power series, Taylor series, Weierstrass Approximation Theorem.

CR: the former MATH 3201
UL: 1
PR: MATH 3000

3100 Introduction to Dynamical Systems examines flows, stability, phase plane analysis, limit cycles, bifurcations, chaos, attractors, maps, fractals. Applications throughout.

CR: the former AMAT 3190
PR: MATH 2260 (or 3260)

3111 Applied Complex Analysis examines mapping by elementary functions, conformal mapping, applications of conformal mapping, Schwarz-Christoffel transformation, Poisson integral formula, poles and zeros, Laplace transforms and stability of systems, analytic continuation.

CR: MATH 3210

3132 Numerical Analysis I includes a discussion of round-off error, the solution of linear systems, iterative methods for nonlinear equations, interpolation and polynomial approximation, least squares approximation, fast Fourier transform, numerical differentiation and integration.

CR: Computer Science 3731
UL: 1.5
PR: MATH 2000, MATH 2050, and a computing course (Computer Science 1510 is recommended)

3161 Ordinary Differential Equations I examines power series solutions, method of Frobenius, Bessel functions, Legendre polynomials and others from classical Physics, systems of linear first order equations, fundamental matrix solution, numerical methods for initial value problems, existence and uniqueness of solutions.

PR: MATH 2260 (or 3260) and 3202

3202 Vector Calculus deals with functions of several variables, Lagrange multipliers, vector valued functions, directional derivatives, gradient, divergence, curl, transformations, Jacobians, inverse and implicit function theorems, multiple integration including change of variables using polar, cylindrical and spherical co-ordinates, Green’s theorem, Stokes’ theorem, divergence theorem, line integrals, arc-length.

CR: Physics 3810
PR: MATH 2000 and 2050

3210 Introduction to Complex Analysis examines complex numbers, analytic functions of a complex variable, differentiation of complex functions and the Cauchy-Riemann equations, complex integration, Cauchy’s theorem, Taylor and Laurent series, residue theory and applications.

CR: MATH 3000

3240 Applied Graph Theory examines algorithms and complexity, definitions and basic properties of graphs, Eulerian and Hamiltonian chains, shortest path problems, graph colouring, planarity, trees, network flows, with emphasis on applications including scheduling problems, tournaments, and facilities design.

CR: the former Computer Science 2741
PR: MATH 2260

3300 Set Theory is an introduction to Mathematical Logic, functions, equivalence relations and partial orders as illustrated through the notions of congruence and divisibility of integers, mathematical induction, principles of counting, permutations, combinations and the Binomial Theorem.

CR: the former Computer Science 2740 or the former Engineering 4424
PR: MATH 1001 or 2050

3320 Discrete Mathematics covers basic concepts of mathematical reasoning, sets and set operations, functions, relations including equivalence relations and partial orders as illustrated through the notions of congruence and divisibility of integers, mathematical induction, principles of counting, permutations, combinations and the Binomial Theorem.

CR: the former Computer Science 3422 or Engineering 4424
PR: MATH 1001 or 2050

3323 Euclidean Geometry is classical Euclidean geometry of the triangle and circle, inversion transformation, including the theorem of Feuerbach, Elliptic and hyperbolic geometries.

CR: MATH 2330
PR: MATH 2051 or 2320

3330 Real Analysis I covers proof techniques, structure of the real numbers, sequences, limits, continuity, uniform continuity, differentiation.

CR: the former MATH 2001
UL: 1
PR: MATH 2000

3331 Projective Geometry includes course topics: projective space, the principle of duality, mappings in projective space, conics and quadrics.

PR: MATH 2051

3340 Introductory Combinatorics includes topics: distributions, the binomial and multinomial theorems, Stirling numbers, recurrence relations, generating functions and the inclusion-exclusion principle. Emphasis will be on applications.

PR: MATH 2320

3370 Introductory Number Theory examines perfect numbers and primes, divisibility, Euclidean algorithm, greatest common divisors, primes and the unique factorization theorem, congruences, cryptography (secret ciphers), Euler-Fermat theorems, power residues, primitive roots, arithmetic functions, Diophantine equations, topics above in the setting of the Gaussian integers.

PR: MATH 2320

AR = Attendance requirement; CH = Credit hours are 3 unless otherwise noted; CO = Co-requisite(s); CR = Credit can be retained for only one course from the set(s) consisting of the course being described and the course(s) listed; LH = Lecture hours per week are 3 unless otherwise noted; LH = Laboratory hours per week; OR = Other requirements of the course such as tutorials, practical sessions, or seminars; PR = Prerequisite(s); UL = Usage limitation(s).
4000 Lebesgue Integration includes a review of the Riemann integral, functions of bounded variation, null sets and Lebesgue measure, the Cantor set, measurable sets and functions, the Lebesgue integral in R1 and R2, Fatou’s lemma, Monotone and Dominated Convergence Theorems, Fubini’s Theorem, an introduction to Lebesgue-Stieltjes measure and integration.

CR: the former Pure Mathematics 4400

PR: MATH 3001

4001 Functional Analysis includes metric and normed spaces, completeness of Banach spaces and convexity of examples of Banach spaces, bounded linear operators and their spectra, bounded linear functionals and conjugate spaces, the fundamental theorems for Banach spaces including the Hahn–Banach Theorem, topology including weak and weak* topologies, introduction to Hilbert spaces.

CR: the former Pure Mathematics 4302

PR: MATH 3001

4100 Applied Functional Analysis - inactive course.

4102 Stochastic Methods in Applied Mathematics - inactive course.

4130 Introduction to General Relativity (same as Physics 4220) studies both the mathematical structure and physical content of Einstein’s theory of gravity. Topics include the geometric formulation of special relativity, curved spacetimes, metrics, geodesics, causal structure, gravity as spacetime curvature, the weak field outside a rotating star, Schwarzschild and Kerr black holes, Robertson-Walker cosmologies, gravitational waves, an instruction to tensor calculus, Einstein’s equations, and the stress-energy tensor.

CO: MATH 4240

CR: Physics 4220

PR: MATH 3202 and one of Physics 3220 or MATH 4230 or permission of the Head of the Department.

4131 Numerical Linear Algebra - inactive course.

4132 Introduction to Optimization - inactive course.

4133 Numerical Optimization - inactive course.

4140 Introduction to Mathematical Control Theory - inactive course.

PR: MATH 2260 (or 3260) and 3202

4161 Integral Equations - inactive course.

4162 Numerical Methods for Differential Equations covers numerical solution of initial value problems for ordinary differential equations by single and multi-step methods, Runge-Kutta methods, predictor-corrector, shooting methods, solution of boundary value problems for ordinary differential equations by shooting methods, finite differences and spectral methods, numerical solution of partial differential equations by the method of lines, finite volumes and finite elements.

PR: MATH 3132 and 4160

4170 Partial Differential Equations II covers first order equations, Cauchy problems, Cauchy-Kowalew ska theorem, second order equations, canonical forms, wave equations in higher dimensions, method of spherical means, Duhamel’s principle, potential equation, Dirichlet and Neumann problems, Green’s function and fundamental solution, potential theory, heat equation, Riemann’s method of integration, method of plane and Riemann waves for systems of PDEs of the first order.

PR: MATH 4160

4180 Introduction to Fluid Dynamics (same as Physics 4265) covers basic observations, mass conservation, vorticity, stress, hydrostatics, rate of strain, momentum conservation (Navier-Stokes equation), simple viscous and inviscid flows, Reynolds number, boundary layers, Bernoulli’s and Kelvin’s theorems, potential flows, water waves, thermodynamics.

CR: Physics 4265

PR: Physics 3220 and either MATH 4160 or the former Physics 3821

4190 Mathematical Modelling is intended to develop students’ skills in mathematical modelling and competence in oral and written presentations. Case studies in modelling will be analysed. Students will develop a mathematical model and present it in both oral and report form.

PR: MATH 3100, 3161, 4160, and a technical writing course offered by a Science department (MATH 2130 is recommended).

419A and 419B Applied Mathematics Honours Project is a two-semester course that requires the student, with supervision by a member of the Department, to prepare a dissertation in an area of Applied Mathematics. In addition to a written project, a one hour presentation will be given by the student at the end of the second semester.

CH: 6

CR: the former AMAT 4199

PR: registration in an Honours or Joint Honours program in Applied Mathematics.

4230 Differential Geometry covers theory of curves, Frenet relations, curvature and torsion, singular points of curves, first and second quadratic forms, classification of points on a surface, Gaussian curvature, Gauss-Weingarten theorem, Christoffel’s symbols, theorema Egregium, Gauss-Codazzi-Mainardi theorem, internal geometry of surfaces, isometric and conformal mappings, geodesic curvature and torsion, parallel displacement, Gauss-Bonnet theorem.

PR: MATH 3202

4240 Differential and Integral Calculus on Manifolds - inactive course.

4260-4290 Special Topics in Pure and Applied Mathematics will have the topics to be studied announced by the Department. Consult the Department for a list of titles and information regarding availability.

PR: permission of the Head of the Department

PR: MATH 3300 or both MATH 3000 and 3303

4301 Algebraic Topology - inactive course.

4310 Complex Function Theory examines topology of C, analytic functions, Cauchy’s theorem with proof, Cauchy integral formula, singularities, argument principle, Rouché’s theorem, maximum modulus principle, Schwarz’s lemma, harmonic functions, Poisson integral formula, analytic continuation, entire functions, gamma function, Riemann-Zeta function, conformal mapping.

PR: MATH 3210

4320 Ring Theory examines factorization in integral domains, structure of finitely generated modules over a principal ideal domain with application to Abelian groups, nilpotent ideals and idempotents, chain conditions, the Wedderburn-Artin theorem.

PR: MATH 3320

4321 Group Theory examines permutation groups, Sylow theorems, normal series, solvable groups, solvability of polynomials by radicals, introduction to group representations.

PR: MATH 3320

4331 Galois Theory - inactive course.

4340 Combinatorial Analysis continues most of the topics started in 3340 with further work on distributions, recurrence relations and generating functions. Generating functions are used to solve recurrence relations in two variables. Also included is a study of Pólya’s theorem with applications.

PR: MATH 2000 and 3340

4341 Combinatorial Designs includes the study of finite fields, Latin squares, finite projective planes and balanced incomplete block designs.

PR: MATH 3320 or 3340

4370 Number Theory is continued fractions, an introduction to Diophantine approximations, selected Diophantine equations, the Dirichlet product of arithmetic functions, the quadratic reciprocity law, and factorization in quadratic domains.

PR: MATH 3370

4375 History of Mathematics - inactive course.

4399 Pure Mathematics Dissertation requires the student, with supervision by a member of the Department, to prepare a dissertation in an area of Pure Mathematics. Although original research by the student will not normally be expected, the student must show an ability and interest to learn and organize material independently. A one hour presentation at the end of the semester will be given by the student.

PR: registration in an Honours or Joint Honours program in Pure Mathematics

9.8.4 Statistics Courses

Statistics courses are designated by STAT. Where the 4 digit course number is the same, students can receive credit for only one course with subject names MATH, AMAT, PMAT, STAT. Where the 4 digit course number is different, students can receive credit for both courses.

9.8.4.1 Field courses are designated by STAT. Where a course number is the same, students can receive credit for only one course with subject names MATH, AMAT, PMAT, STAT. Where the 4 digit course number is different, students can receive credit for both courses.

9.8.4.2 Statistics courses are designated by STAT. Where the 4 digit course number is the same, students can receive credit for only one course with subject names MATH, AMAT, PMAT, STAT. Where the 4 digit course number is different, students can receive credit for both courses.
concepts of confidence intervals and testing of hypotheses. Statistical software will be used to demonstrate each technique.

CR: credit 3 or 4; credit for STAT 1510 if completed with, or subsequent to, STAT 2500, 2550 or the former 2510

LH: one 90 minute lab per week

PR: Mathematics 1090 or a combination of placement test and high school Mathematics scores acceptable to the Department.

2500 Statistics for Business and Arts Students covers descriptive statistics, including histograms, stem-and-leaf plots and box plots, elementary probability, random variables, the binomial distribution, the normal distribution, sampling distribution, estimation and hypothesis testing including both one and two sample tests, paired comparisons, correlation and regression applications.

CR: STAT 2500, the former 2510, Psychology 2910, 2925 and the former 2901

LH: one 90 minute lab per week. Statistical computer package will be used in the laboratory, but no prior computing experience is assumed.

PR: Mathematics 1000 or 6 credit hours in first year courses in Mathematics or registration in at least semester three of a Bachelor of Nursing program with permission of the Head of Department.

2501 Further Statistics for Business and Arts Students covers power calculation and sample size determination, analysis of variance, multiple regression, nonparametric statistics, time series analysis, introduction to sampling techniques.

CR: STAT 2560, the former 2511, Psychology 2911, 2950, and the former 2901

LH: one 90 minute lab per week. Statistical computer package will be used in the laboratory, but no prior computing experience is assumed.

PR: STAT 2500 or the former 2510

2550 Statistics for Science Students is an introduction to basic statistics methods with an emphasis on applications to the sciences. Material includes descriptive statistics, elementary probability, binomial distribution, Poisson distribution, normal distribution, sampling distribution, estimation and hypothesis testing (both one and two sample cases), chi-square test, one way analysis of variance and nonparametric tests including sign test, Wilcoxon signed rank test and Wilcoxon rank test.

CR: STAT 2501, the former 2511, Psychology 2910, 2950, and the former Psychology 2900

LH: one 90 minute lab per week. Statistical computer package will be used in the laboratory, but no prior computing experience is assumed.

PR: STAT 1510 or 2500 or 2550 or the former 2510, Mathematics 1000 or the former 1081

3410 Probability and Statistics covers basic probability concepts, combinatorial analysis, conditional probability, independence, random variables, distribution function, mathematical expectation, Chebyshev’s inequality and variance, analysis of covariance, two and three-dimensional parameters, binomial and related distributions, Poisson, gamma, normal, multivariate normal, stationary and independent, uniform, exponential, normal, and F distributions, transformations of random variables, convergence in probability, convergence in distribution, delta-method, moment-generating function, central limit theorem.

OR: one and a half hour tutorial periodic weekly

PR: Mathematics 1001

3411 Statistical Inference I examines sampling distributions, order statistics, confidence interval, hypothesis testing, chi-square tests, maximum likelihood estimation, maximum likelihood estimation, Rao-Cramér inequality and efficiency, maximum likelihood tests, sufficiency, completeness and uniqueness, exponential class of distributions, likelihood ratio test and Neyman-Pearson lemma.

OR: one and a half hour tutorial periodic weekly

PR: STAT 3410

3520 Experimental Design I is an introduction to basic concepts in experimental design, including principles of experimentation; single factor designs such as completely randomized designs; randomized block designs; Latin square designs; Graeco Latin square designs; multiple comparison tests concerning variance; balanced incomplete block designs; factorial designs; fixed, random and mixed effects models.

CR: Psychology 3900 and 3950

PR: Mathematics 2560 and either STAT 3411 or both Mathematics 1001 and one of STAT 2501 or 2560 or the former 2511

3521 Regression covers inferences in linear regression analysis including estimation, confidence and prediction intervals, hypothesis testing and simultaneous inference; matrix approach to regression analysis, multiple linear regression, multicollinearity, model building and selection, polynomial regression, qualitative predictors variables.

PR: Mathematics 2560 and either STAT 3411 or both Mathematics 1001 and one of STAT 2501 or 2560 or the former 2511

3540 Time Series I is an introduction to basic concepts of time series analysis such as stationary and nonstationary, components of time series, transformation of nonstationary series using regression, decomposition methods, stationary and non-stationary series, seasonal, autocovariance and autocorrelation functions, moving average (MA), autoregressive (AR), and ARMA representation of stationary time series including stationarity and invertibility conditions; partial autocorrelation function; properties of MA(q), AR(p) and ARMA(p,q) models, model identification, parameter estimation, model diagnostics and selection, forecasting, integrated ARMA process. Applications to real time series.

PR: either STAT 3411 or both Mathematics 1001 and one of STAT 2501 or 2560 or the former 2511

3570 Reliability and Quality Control covers an introduction to reliability, parallel and series systems, standard parametric models, estimation of reliability, quality management systems, introduction to statistical process control, simple quality control tools, process control charts for variables and attributes, process capability, cumulative sum chart, exponentially weighted moving average chart, acceptance sampling plans, measurement system analysis, continuous improvement and six sigma methodology.

PR: either STAT 3411 or both Mathematics 1001 and one of STAT 2501 or 2560 or the former 2511

3585 Computational Statistics is an introduction to modern computational statistics using a programming language which implements a variety of statistical methods. An overview of fundamental statistical principles will be placed on the development of programs for numerical and graphical exploratory data analysis and for implementing specialized statistical procedures.

PR: Mathematics 2000, STAT 2560

4402 Stochastic Processes covers the Poisson process, renewal theory, continuous and discrete time Markov chains, and some continuous state models including Brownian motion. Applications are included in queuing, reliability, and inventory theory. Emphasis is on model building and probabilistic reasoning.

CR: Mathematics 4102

PR: STAT 3410

PR: Mathematics 2021; STAT 3411

4520 Experimental Design II is an introduction to factorial experiments for the mean vector, connection between likelihood ratio and Hotelling’s T-squared statistic, connection between likelihood ratio and Hotelling’s T-squared statistic, distributions of order statistics, distributions of the Poisson process, renewal theory, association analysis, and some continuous state models including Brownian motion. Applications are included in queuing, reliability, and inventory theory. Emphasis is on model building and probabilistic reasoning.

CR: Mathematics 4102

PR: STAT 3410

4530 Survey Sampling covers basic concepts, simple random sampling, unequal probability sampling and the Horvitz-Thompson principle, sufficiency, design and modelling in sampling, ratio and regression estimators, stratified and cluster sampling, methods for elusive and/or hard-to-detect populations.

PR: Mathematics 2000 and the former STAT 3530

4540 Time Series examines the analysis of time series in the time domain and is an introduction to frequency domain analysis. Topics covered include spectral analysis, spectral analysis, computational tools, and applications to time series analysis.

PR: STAT 3411 and 3540

4550 Non-parametric Statistics covers inferences concerning location based on one sample, paired samples or two samples, inferences concerning scale parameters, goodness-of-fit tests, association analysis, and randomness.

PR: one of STAT 3520 or 3521 or STAT 3411

4560 Continuous Multivariate Analysis examines the multivariate normal distribution and its marginal and conditional distributions, distributions of non-singular and singular linear combinations, outline of the Wishart distribution and its application, in particular, to Hotelling’s T-squared statistic for the mean vector, connection between likelihood ratio and Hotelling’s T-squared statistic, a selection of techniques chosen from among MANOVA, multivariate regression, principal components, factor analysis, discrimination and classification, clustering.

PR: Mathematics 2541, STAT 3410 and one of STAT 3411, 3520, or 3521

4561 Categorical Data Analysis is an analysis of cross-classified

AR = Attendance requirement; CH = Credit hours are 3 unless otherwise noted; CO = Co-requirement(s); CR = Credit can be retained for only one course from the set(s) consisting of the course being described and the course(s) listed; LG = Lecture hours per week are 3 unless otherwise noted; LH = Laboratory hours per week; OR = Other requirements of the course such as tutorials, practical sessions, or seminars; PR = Prerequisite(s); UL = Usage limitation(s).
categorical data with or without explanatory variables, chi-square test, measures of association, multidimensional contingency tables, hypotheses of partial and conditional independence, log-linear models for Poisson, multinomial and product-multinomial sampling schemes, concept of ordinal categorical models, logit models, likelihood estimation, selection of suitable log-linear and logit models. 
PR: STAT 3520 or 3521

4581 Quantitative Methods in Biology (same as Biology 4685 and the former Statistics 4605) is quantitative reasoning using verbal, graphical and statistical models of scaled quantities (units and dimensions). Exploratory and confirmatory analysis of field and laboratory data. Hypothesis testing, including randomization tests. Topics include the general linear model (t-tests, analysis of variance, regression, ANOVA, ANCOVA, correlation, autocorrelation, time series methods, life tables, autoregressive moving average models and forecasting or quality control methods may be introduced depending on the nature of the data. 
LH: one 90 minute lab per week 
PR: one of STAT 3411, 3520, or 3521

4590 Statistical Analysis of Data I examines the statistical analysis of real life univariate data using computational and statistical methods including descriptive statistics, chi-square tests, non-parametric tests, analysis of variance, linear, logistic and log-linear regressions. Other statistical techniques such as integrated autoregressive moving average modelling and forecasting or quality control methods may be introduced depending on the nature of the data. 
LH: 3
PR: STAT 2550

4599 Honours Comprehensive with Directed Readings is a directed reading course with Comprehensive examination. 
PR: registration in an Honours or Joint Honours program in Statistics

9.9 Ocean Sciences
Ocean Sciences courses are designated by OCSC.

1000 Exploration of the World Ocean is an introductory course covering the major ocean sciences (biology, chemistry, geology, physics) at a level sufficient for science majors but accessible to non-science majors. It explores phenomena occurring from the shoreline to the abyss and from equatorial to polar regions. It also examines principles of marine ecology as well as how the marine environment affects humans and vice versa. The course is offered in a blended format that combines face-to-face lectures and online interactive activities in the form of virtual oceanographic expeditions. 
LC: 1.5 hours per week 
OR: 1.5 hours per week (online interactive activities)

9.10 Physics and Physical Oceanography
Physics courses are designated by PHYS.

1020 Introductory Physics I is a non-calculus based introduction to mechanics. This course may be completed by someone who has no physics background provided some extra effort is made. 
CO: Mathematics 1090
CR: PHYS 1050 
LH: 3; six laboratory sessions per semester 
OR: tutorial sessions may be held on weeks when no laboratory is scheduled 
PR: Level III Advanced Mathematics or Mathematics 1090. It is recommended that students have completed at least one of level I and level III high school physics courses

1021 Introductory Physics II is a non-calculus based introduction to fluids, wave motion, light, optics, electricity and magnetism. 
CO: Mathematics 1000 
CR: PHYS 1050 
LH: 3; normally there will be six laboratory sessions per semester 
OR: tutorial sessions may be held on weeks when no laboratory is scheduled 
PR: PHYS 1020 or 1050 and Mathematics 1090 or 1000

1050 General Physics I: Mechanics is a calculus based introduction to mechanics. The course will emphasize problem solving. For more details regarding PHYS 1050, see Note 4 under Physics and Physical Oceanography. 
CO: Mathematics 1000 
CR: PHYS 1020 
LH: 3; normally there will be six laboratory sessions per semester 
OR: tutorial sessions may be held on weeks when no laboratory is scheduled 
PR: Mathematics 1000

1051 General Physics II: Oscillations, Waves, Electromagnetism is a calculus based introduction to oscillations, wave motion, physical optics and electromagnetism. 
CO: Mathematics 1001 
LH: 3; normally there will be six laboratory sessions per semester 
OR: tutorial sessions may be held on weeks when no laboratory is scheduled 
PR: PHYS 1050, or 1021, or 1020 (with a minimum grade of 65%) and Mathematics 1001

2053 Fluids and Thermal Physics examines elasticity, fluid mechanics, thermodynamics, kinetic theory and statistical mechanics. 
CO: Mathematics 1001 and PHYS 1051 
LH: 3 
PR: Mathematics 1001 and PHYS 1051

2055 Electricity and Magnetism examines Gauss’ Law, the electrostatic potential, capacitance, magnetic forces and the magnetic field, electromagnetic induction, magnetic materials, ac circuits, superconductivity, the displacement current and Maxwell’s equations. 
CO: Mathematics 2000 
LH: 3 
PR: Mathematics 2000 and PHYS 1051

PR: 6 credit hours in Mathematics courses at the first year level

2280 Computational Mechanics covers newtonian dynamics and celestial mechanics, numerical differentiation and integration, numerical solutions to mechanics problems, data and spectral analysis, Fourier series and normal modes, oscillations and vibrations, linear and non-linear oscillators, nonlinear dynamics and chaos. 
CO: Mathematics 2000 
LH: 5 
PR: Mathematics 2000 and PHYS 1051

2500 Physics of Device Materials is structures of crystalline and amorphous solids. Excitations and transport in metals, semiconductors, and dielectrics; electronic band structures. Physics of multi-material devices including photodetectors, solid state lasers, and field-effect transistors. 
PR: PHYS 2055 or registration in Academic Term 3 of the Electrical Engineering Program

3150 Astrophysics I is a review of macroscopic and microscopic physics. 
The sun: luminosity, mass, spectrum, photosphere, corona, interior. Principles of stellar structure; radiation and convective transport of energy. 
PR: registration in an Honours or Joint Honours program in Statistics 
CR: PHYS 2056 
PR: Mathematics 1001 and PHYS 1051

3151 Astrophysics II covers stellar spectra and classification of stars. Hertzsprung-Russell diagram; relationships among luminosity, mass, and effective temperature for main sequence dwarfs. Evolution of main sequence stars. 
PR: PHYS 2053, 2760 (or 2656), and 2920

3220 Classical Mechanics I covers kinematics and dynamics of a particle. 
PR: PHYS 2820 and Mathematics 2260 (or 3260) 
CR: Mathematics 2260 (or 3260)

PR: PHYS 3220 and 3810 (or Mathematics 3202) and Mathematics 2260 (or 3260)

3300 Introduction to Physical Oceanography deals with the physics of processes in the ocean, but provides an integrated view of the whole field of oceanography. The importance of physical processes to other aspects of oceanography is treated. 
PR: PHYS 2053 and Mathematics 2000
3340 Principles of Environmental Physics will explore the basic physical principles of light, heat, energy and sound in the natural environment. Several key aspects of physics in the environment will be covered including climate and the physical evolution of the planet and the present role of the atmosphere and ocean spectroscopy in the atmosphere and measurement and observation of the atmosphere; principles of energy generation and pollution transport in the atmosphere and ocean.

PR: Mathematics 2000 and PHYS 2053

PR: Mathematics 2000, PHYS 2053 and PHYS 2750 or 2056

3500 Electromagnetic Fields I examines electrostatic Field: field, potential, Poisson's equation. Laplace's equation, capacitance, dielectrics, polarization, electric displacement, boundary conditions. Magnetic Field: electric current and magnetic field, vector potential, Lorentz force and relativity, changing magnetic field, inductance, magnetic materials, magnetization, Maxwell's equations.

PR: PHYS 2055 and 3810 (or Mathematics 3202)

CO: Mathematics 2260 or (3260)
CR: Engineering 3821
LG: 6
LH: 6
PR: Mathematics 2050, Mathematics 2260 or (3260), PHYS 2055

3551 Analogue Electronics - inactive course.

PR: Mathematics 2000 and PHYS 2055

CO: PHYS 3200 and 3810 or Mathematics 3202.
PR: PHYS 2750 (or 2056), 3220 and 3810 (or Mathematics 3202)

PR: PHYS 3750

3800 Computational Physics is a project-based course intended to train students to become functional in computational methods, by writing and compiling computer code (C/Fortran) in a Unix environment to solve problems drawn from different areas of physics. Students will complete several projects selected from different areas of physics. Projects will introduce the students to a particular class of numerical methods. Lectures and tutorials will cover the theory that underlies the computational methods and background for code development and the application of the required numerical techniques.

CO: Any two 2000-level Physics course plus at least one other 3000-level Physics course
LG: 5
LH: 5
PR: Computer Science 1510, PHYS 2820, Mathematics 2260 or (3260), Mathematics 3202

3810 Mathematical Analysis - inactive course.

PR: Mathematics 2260 or (3260) and PHYS 3810 (or Mathematics 3202)

3900 Physics Laboratory I is a selection of experiments based primarily on material covered in the third year courses.

LG: 6
PR: at least two of PHYS 2055, 2820, 2055, and PHYS 2750 (or 2056)

4000 Solid State Physics covers crystal structure and binding, phonons and lattice vibrations, thermal properties of solids, Electrons in solids, energy bands, semi-conductors, superconductivity, dielectric properties. Magnetic properties of solids.

PR: PHYS 3400 and 3750 or waived approved by the instructor

4200 Classical Mechanics III - inactive course.

4205 Introduction to Fluid Dynamics (same as Mathematics 4180) covers basic observations, mass conservation, vorticity, stress, hydrostatics, rate of strain, momentum conservation (Navier-Stokes equation), simple viscous and inviscid flows, Reynolds number, boundary layers, Bernoulli's and Kelvin's theorems, potential flows, water waves, thermodynamics.

CR: Mathematics 4180
PR: PHYS 3220 and either Mathematics 4160 or the former PHYS 3821 or waived approved by the instructor

4210 Continuum Mechanics - inactive course.

4220 Introduction to general Relativity (Mathematics 4130) studies both the mathematical structure and physical content of Einstein's theory of gravity. Topics include the geometric formulation of special relativity, curved spacetimes, metrics, geodesics, causal structure, gravi-

4300 Advanced Physical Oceanography covers fundamental properties of seawater and techniques of oceanographic measurement. The dynamical equations of oceanography are derived and solutions explored by computer with ocean-observing properties. Wave propagation and non-linear wave theory are developed.

PR: PHYS 3300 and 3820 or registration in Academic term 6 of the Ocean and Naval Architectural Engineering program, or waiver approved by the instructor

4330 Topics in Physical Oceanography - inactive course.

4340 Modelling in Environmental Physics covers the basic principles underlying environmental modelling will be developed and techniques for model development will be presented and applied. Techniques for numerical modelling will be developed and simple numerical models will be developed for use in terrestrial, atmospheric and oceanic environments. Free and forced systems will be discussed and the transition to chaos and some aspects of chaotic dynamics.

PR: PHYS 3340 and PHYS 3820 or waiver approved by the instructor

CO: PHYS 3750
PR: PHYS 3400 and 3750

PR: PHYS 3500 and 3820 or waiver approved by the instructor

4600 Optics and Photonics II is a review of basic topics in wave optics. Phase sensitive imaging. Electromagnetic waves in anisotropic media. Scattering of electromagnetic waves. The physics of light sources and applications. Non-linear optics and applications.

CO: PHYS 3751
PR: PHYS 3500, 3600, and PHYS 3751 or waiver approved by the instructor

7000 Atomic and Molecular Physics - inactive course.

4710 Nuclear Physics - inactive course.

4820 Mathematical Physics III covers further topics on partial differential equations of Mathematical Physics and boundary value problems; Sturm- Liouville theory, Fourier series, generalized Fourier series, introduction to the theory of distributions, Dirac delta function, Green's functions, Bessel functions, Legendre functions, spherical harmonics.

PR: PHYS 3820

9.11 Psychology

Psychology courses are designated by PSYC.

9.11.1 Non-Restricted Courses

These courses are open to all students who have the appropriate prerequisites. Students who intend to major in Psychology should note the credit restrictions for PSYC 2010, 2100, 2440, 2610, 2810, 2920, and 3640 as taking any of these courses will reduce options in the Majors program.

1000 Introduction to Psychology is the first half of a two-semester introduction to Psychology as a biological and social science. Topics may include history, research methodology, behavioural neuroscience, sensation and perception, consciousness, learning, and memory.

1001 Introduction to Psychology is the second half of a two-semester introduction to Psychology as a biological and social science. Topics may include emotion, motivation, stress and health; personality and individuality, psychological disorders and treatment, and social psychology.

PR: PSYC 1000

2010 The Psychology of Human Development I is a survey of principles underlying human development from the prenatal stage to adolescence. Topics covered will include sensorimotor, linguistic, perceptual, cognitive and motivational changes.

CR: PSYC 2025, PSYC 3050
PR: PSYC 1000 and 1001
UL: cannot be used towards the Psychology major

2011 The Psychology of Human Development II is an examination of relevant research on socialization and personality development with special emphasis on attachment, imitation, sex role and moral development in childhood and adolescence.

CR: PSYC 2025
PR: PSYC 1000 and 1001
UL: cannot be used towards the Psychology major

2012 Adult Development from Young Adulthood to Old Age examines physical and psychological changes from early adulthood until the end of the lifespan. Topics include career choices, love partnerships, parenting and grandparenting, cognitive changes, intergenerational changes, and healthy aging.

CR: the former PSYC 3052
PR: PSYC 1000 and 1001
UL: cannot be used towards the Psychology major

2100 Attitudes and Social Cognition - inactive course.

2120 Interpersonal and Group Processes - inactive course.

2150 Introduction to Forensic Psychology will provide an in-depth overview of the relationship between psychology and the law. A variety of topics will be discussed and critically evaluated, including the use and misuse of psychology-based investigative methods such as offender and geographic profiling, detection of deception, investigative interviewing, eyewitness testimony, jury decision-making, corrections and treatment, risk assessment, and criminal responsibility.

PR: PSYC 1000 and 1001
UL: cannot be used towards the Psychology major

2151 Health Psychology will explore the history, aims and future of health psychology. Topics covered will consider the contributions of a wide range of psychological theory within the context of psychosocial risk factors for illness, illness prevention, health promotion, and the health care system itself. These theories extend from rather individualistic notions of health and wellness (e.g., personality, attitudes, and behaviour) to concepts associated with characteristics of the broader social environment (e.g., social support, economic challenges, and organizational factors). An overall bio-psycho-social approach to health and wellness is explored.

PR: PSYC 1000 and 1001
UL: cannot be used towards the Psychology major

2240 Survey of Learning is a survey of learning phenomena and learning theories. Topics to be studied will include a selection of the following: the evolutionary context of learning, habituation and sensitization, Pavlovian conditioning, instrumental learning, and generalization and discrimination in learning. Applications of learning principles to topics such as child rearing, education, drug use and rehabilitation, as well as other topics of contemporary interest, will also be discussed.

CR: PSYC 3250, the former PSYC 2225, the former PSYC 2250
PR: PSYC 1000 and 1001
UL: cannot be used towards the Psychology major

2440 Human Memory and Cognition is an introduction to the basic principles of human memory and information processing. Topics covered will include the organization, representation and retrieval of information in memory, attention, pattern recognition, language processing, mental imagery, reasoning, problem solving, and decision making. There will be an emphasis on the application of basic principles to real life situations.

CR: PSYC 3450, PSYC 2425
PR: PSYC 1000 and 1001
UL: cannot be used towards the Psychology major

2540 Psychology of Gender is an examination of the influence of gender on development and socialization, attitude formation, cognition, personality and mental health.

PR: PSYC 1000 and 1001
UL: cannot be used towards the Psychology major

2560 Intelligence - inactive course.

2610 Personality is a review of the research and theory pertaining to a psychological understanding of human personality.

CR: the former PSYC 2820, PSYC 2825, PSYC 3620
PR: PSYC 1000 and 1001
UL: cannot be used towards the Psychology major

2800 Drugs and Behaviour is an examination of the neurophysiology of drug action, the measurable effect of drugs on experientially controlled behaviour, and a survey of information available on common self-administered drugs and their immediate and long-term effects.

PR: PSYC 1000 and 1001
UL: cannot be used towards the Psychology major

2810 Brain and Behaviour is a broad survey of physiological psychology at an elementary level. Topics will include the following: structure of the nervous system, nerve conduction, sensory and motor systems, behavioural biology of reproduction, aggression, feeding and drinking, sleep and arousal, pleasure and pain, learning and memory.

CR: PSYC 2825, the former PSYC 2850, PSYC 3801
PR: PSYC 1000 and 1001
UL: cannot be used towards the Psychology major

2920 Research Methods in Psychology for Non-Majors provides an introduction to the design, understanding, and application of psychological research. Topics covered include understanding and applying scientific method, creating and testing hypotheses, constructing reliable and valid experiments, and the proper use of controls. An emphasis will be placed on thinking critically about psychology and common errors of judgment.

PR: PSYC 1000 and 1001
UL: cannot be used towards the Psychology major or any Psychology honours or joint honours programs

3430 The Psychology of Thinking - inactive course.

3501 Industrial Psychology - inactive course.

3533 Sexual Behaviour covers the most important aspects of human sexuality with a psychology theory and research framework. The course will examine the biological, behavioural and socio-cultural bases of the human sexual response. Topics include sexual interaction and communication, contraception, sexually transmitted infections, reproduction, sexual orientation, transgender and intersex, variations in sexual behaviour, sex and gender, sexual dysfunction and therapy, and sexual coercion.

AR = Attendance requirement; CH = Credit hours are 3 unless otherwise noted; CO = Co-requisite(s); CR = Credit can be retained for only one course from the set(s) consisting of the course being described and the course(s) listed; LC = Lecture hours per week are 3 unless otherwise noted; LH = Laboratory hours per week; OR = Other requirements of the course such as tutorials, practical sessions, or seminars; PR = Prerequisite(s); UL = Usage limitation(s).
PR: PSYC 1000 and 1001
UL: cannot be used towards the Psychology major prof. 1377

3577 Program Evaluation - inactive course.

3640 The Psychology of Abnormal Behaviour covers problems of definition, the history of beliefs about abnormal behaviour and the implication of a behavioural model for the understanding and control of behaviour problems.
CR: PSYC 3650, PSYC 3626
PR: any 2000 level course in Psychology
UL: cannot be used towards the Psychology major prof. 4810 Human Neuropsychology - inactive course.

9.11.2 Majors Courses

These courses are restricted to Majors in Psychology and Behavioural Neuroscience.

2520 Mind and Brain is based on the idea that psychological and neuroscience research efforts are synergistic. Neuroscience research can reveal mechanisms that help explain the mind and behavior, while concepts developed by psychological research often define the topics that neuroscience investigates. Topics such as memory, emotion, mental illness, and sleep will illustrate the utility of multiple research perspectives for developing a more complete understanding of psychological issues.
PR: PSYC 1000 and 1001 and admission to a Major in Psychology or Behavioural Neuroscience; minors may be permitted to take this course if space permits

2570 Understanding Individual Differences uses current conceptualizations of personality and ability as a focus. The course will review scaling to the measurement of individual differences, including test characteristics and ethics. Research from a variety of perspectives will be used to illustrate the contributions of different areas of psychology to our understanding of individual differences.
PR: PSYC 1000 and 1001 and admission to a Major in Psychology or Behavioural Neuroscience; minors may be permitted to take this course if space permits

2910 Research Methods in Psychology I is an introduction to the design and application of psychological research with particular concentration on data collection and applying scientific method, creating and testing hypotheses, constructing reliable and valid experiments, managing and analysing data sets, using statistical software, and scientific writing. Specific topics include descriptive statistics including measures of central tendency, variance, correlation and inferential statistics such as t tests for one and two sample designs, correlation and regression, and non-parametric tests.
CR: Statistics 2500, 2550, the former 2510, the former PSYC 2900, 2925
LH: one laboratory period weekly
PR: PSYC 1000 and 1001; Mathematics 1000 or two of 1050, 1050 and 1051 (or equivalent) and admission to a Major in Psychology or Behavioural Neuroscience

2911 Research Methods in Psychology II covers research methods in psychology with a focus on more complex research designs and statistical approaches, within the realm of experimentation and beyond the laboratory. Specific topics include controlling participant variables, using between and repeated measurements within the context of Analysis of Variance (ANOVA). Particular ANOVA approaches include one-way and factorial designs, within subject design, and two-way mixed designs.
CR: Statistics 2501, 2560, the former PSYC 2901, 2950
LH: one laboratory period weekly
PR: PSYC 2910 and admission to a Major in Psychology or Behavioural Neuroscience

3050 Developmental Psychology is an examination of the methods of study and an evaluation of current findings and theoretical issues of importance to an understanding of development. Topics will be drawn from perception, learning, cognition, social learning, memory and language development.
CR: PSYC 2100, PSYC 2205
PR: PSYC 2820, 2570 and 2911 and admission to a Major in Psychology or Behavioural Neuroscience

3100 Social Psychology is an examination of the concepts and principles involved in social behaviour. Topics covered will include attitudes, social cognition, interpersonal relations, and group processes.
CR: PSYC 2100, PSYC 2125
PR: PSYC 2520, 2570, and 2911 and admission to a Major in Psychology or Behavioural Neuroscience

3250 Learning (formerly PSYC 2250) examines how organisms adjust their behaviour to regularities in the environment as a result of experience.
CR: PSYC 2240, the former PSYC 2225, the former PSYC 2250
PR: PSYC 2520, 2570, and 2911, and admission to a Major in Psychology or Behavioural Neuroscience

3350 Perception (formerly PSYC 2360) is a broad survey of theory and research in sensation and perception.
CR: the former PSYC 2360
PR: PSYC 2520, 2570 and 2911 and admission to a Major in Psychology or Behavioural Neuroscience

3450 Human Cognition is an introduction to the experimental study of the mental representations and processes involved in human cognition. Topics such as attention, perception and pattern recognition, concepts and the organization of knowledge, language processes, mental imagery, reasoning, problem solving, decision making and skilled performance will be covered with an emphasis on experimental analysis and techniques.
CR: PSYC 2440, PSYC 2425
PR: PSYC 2520, 2570 and 2911 and admission to a Major in Psychology or Behavioural Neuroscience

3620 Personality Theory and Research - inactive course.

3650 Abnormal Psychology is an examination of the nature, explanation and treatment of psychological disorders with an emphasis on research methods and current findings.
CR: PSYC 3640, PSYC 3626
PR: PSYC 2520, 2570 and 2911 and admission to a Major in Psychology or Behavioural Neuroscience

3750 Animal Behaviour I (same as Biology 3750) is an introduction to the mechanisms, development, function and evolution of behaviour in animals. Topics include the history of ethology and comparative psychology, and behavioural ecology; methods of animal study, behaviour of animals in relation to physiology, learning, communication, mating systems, and other areas in biology and psychology.
CR: Biology 3750
PR: Biology 1001, 1002 and PSYC 2520, 2570 and 2911 and admission to a Major in Psychology or Behavioural Neuroscience

3800 Neuroscience addresses the structure and function of neurons and neural circuits and examines principles of electrochemical neural communication at the microscopic, microscopic and molecular level. The relevance of this knowledge to understanding brain mechanisms of normal and abnormal brain functions will be touched upon. The molecular basis of the formation of some types of memories will be explored.
PR: PSYC 2520, 2570 and 2911 and admission to a Major in Psychology or Behavioural Neuroscience

3801 Behavioural Neuroscience is a survey of knowledge about brain mechanisms of behaviour. Topics will include the following: basic neuroanatomy and neurophysiology, somatosensory systems, systems of reward, mental illness, sleep and arousal, developmental neurobiology, sexual development and behaviour, regulation of eating and body weight, learning and memory, and cortical function, including cortical mediation of language.
CR: PSYC 2810, PSYC 2825, the former PSYC 2850
PR: PSYC 2520, 2570 and 2911 and admission to a Major in Psychology or Behavioural Neuroscience

3900 Design and Analysis III is a course on complex and specialized research design in Psychology. Multifactor research designs that employ both between- and within-subjects independent variables. Advantages and disadvantages of using multifactor research designs to test psychological hypotheses. Hierarchical designs and incomplete factorials. The use of covariates and blocking to increase experimental precision. Problems created by missing data. Single subject designs. How to answer specific psychological questions in the context of complex designs. The design and analysis of non-experimental psychological research, applications of such techniques as the analysis of variance and multiple linear regression to the data obtained with these research designs, with special attention to procedures inherent in psychological research.
CR: PSYC 3950, Statistics 3520
LH: one laboratory period weekly
PR: PSYC 2911 and admission to a Major in Psychology or Behavioural Neuroscience

4050 Selected Topics in Developmental Psychology I is an intensive examination of a specific topic in developmental psychology.
PR: PSYC 3050 and admission to a Major in Psychology or Behavioural Neuroscience

4051 Selected Topics in Developmental Psychology II is an intensive examination of a specific topic in developmental psychology.
PR: PSYC 3050 and admission to a Major in Psychology or Behavioural Neuroscience

4070 Research Experience in Developmental Psychology allows students to gain research experience in selected areas of developmental psychology. PR: PSYC 2520, 2570, 2911, and 3050 and admission to a Major in Psychology or Behavioural Neuroscience

4150 Selected Topics in Social Psychology I is an intensive examination of a specific topic in social psychology.
PR: PSYC 3100 and admission to a Major in Psychology or Behavioural Neuroscience

AR = Attendance requirement; CH = Credit hours are 3 unless otherwise noted; CO = Co-requisite(s); CR = Credit can be retained for only one course from the set(s) consisting of the course being described and the course(s) listed; LC = Lecture hours per week are 3 unless otherwise noted; LH = Laboratory hours per week; OR = Other requirements of the course such as tutorials, practical sessions, or seminars; PR = Prerequisite(s); UL = Usage limitation(s).
4151 Selected Topics in Social Psychology II is an intensive examination of a specific topic in social psychology.
PR: PSYC 3100 and admission to a Major in Psychology or Behavioural Neuroscience

4152 Selected Topics in Applied Social Psychology is an intensive examination of a specific topic in applied social psychology.
PR: PSYC 3100 and admission to a Major in Psychology or Behavioural Neuroscience

4160 Psychology and the Law - inactive course.

4170 Research Experience in Social Psychology will provide research experience in a selection of areas typically studied by social psychologists such as attitudes, prejudice, groups and social cognition. Students will acquire experience with research methods that are used to advance the body of knowledge in social psychology.
PR: PSYC 2520, 2570, 2911, and 3100 and admission to a Major in Psychology or Behavioural Neuroscience

4250 Selected Topics in Learning and Motivation I is an intensive examination of a specific topic in learning and motivation.
PR: PSYC 3250 or the former PSYC 2250 and admission to a Major in Psychology or Behavioural Neuroscience

4251 Selected Topics in Learning and Motivation II is an intensive examination of a specific topic in learning and motivation.
PR: PSYC 3250 or the former PSYC 2250 and admission to a Major in Psychology or Behavioural Neuroscience

4260 Learning Processes and Drug Effects - inactive course.

4270 Research Experience in Learning allows students to gain research experience in selected areas of learning.
PR: PSYC 2520, 2570, 2911 and 3250 and admission to a Major in Psychology or Behavioural Neuroscience

4350 Selected Topics in Perception I - inactive course.

4351 Selected Topics in Perception II is an intensive examination of a specific topic in perception.
PR: PSYC 3350 or the former PSYC 2360 and admission to a Major in Psychology or Behavioural Neuroscience

4370 Research Experience in Perception allows students to gain research experience in selected areas of perception.
PR: PSYC 2520, 2570, 2911 and 3350 and admission to a Major in Psychology or Behavioural Neuroscience

4450 Selected Topics in Cognition I (same as the former PSYC 4400) is an intensive examination of a specific topic in cognition.
PR: the former PSYC 4400

4451 Selected Topics in Cognition II (same as the former PSYC 4401) is an intensive examination of a specific topic in cognition.
PR: the former PSYC 4401

4452 Selected Topics in Cognition: Reading - inactive course.

4453 Selected Topics in Cognitive Science (same as the former PSYC 4402) is an intensive examination of a specific topic in cognitive science from a psychological perspective.
PR: two courses chosen from PSYC 3050, 3250, 3350, 3450, 3801 and admission to a Major in Psychology or Behavioural Neuroscience

4461 Psycholinguistics - inactive course.

4462 Human Memory surveys theories and research about how humans remember information and why they forget. Topics include research on sensory memory, short-term working memory, amnesia, forgetting, memory development, and semantic memory as well as practical issues such as how to improve memory.
PR: PSYC 3450 and admission to a Major in Psychology or Behavioural Neuroscience

4470 Research Experience in Cognition allows students to gain research experience in selected areas of cognition.
PR: PSYC 2520, 2570, 2911, and 3450 and admission to a Major in Psychology or Behavioural Neuroscience

4500 Selected Topics in Psychology I is an intensive examination of a specific topic in psychology that crosses traditional subdisciplines.
PR: two 3000-level majors courses (other than 3900) and admission to a Major in Psychology or Behavioural Neuroscience

4501 Selected Topics in Psychology II is an intensive examination of a specific topic in psychology that crosses traditional subdisciplines.
PR: two 3000-level majors courses (other than 3900) and admission to a Major in Psychology or Behavioural Neuroscience

4610 Selected Topics in Personality I - inactive course.

4620 Selected Topics in Personality II is an intensive examination of a specific topic in personality.
PR: PSYC 3620 or the former PSYC 2620 and admission to a Major in Psychology or Behavioural Neuroscience

4650 Selected Topics in Abnormal Behaviour I is an intensive examination of a specific topic in abnormal behaviour.
PR: PSYC 3650 and admission to a Major in Psychology or Behavioural Neuroscience

4651 Selected Topics in Abnormal Behaviour II - inactive course.

4660 Developmental Psychopathology - inactive course.

4661 Family Psychology is a study of the reciprocal relationship between family processes and abnormal behaviour. The course will focus on the role of family dynamics in the etiology of abnormal behaviour, the impact of psychological disorders on family functioning and the application of family therapy to create therapeutic change.
PR: PSYC 3650, or all of 2520, 2570, 2911 and 3640 and admission to a Major in Psychology or Behavioural Neuroscience

4662 Clinical Psychology and Theories of Psychotherapy - inactive course.

4670 Research Experience in Abnormal Psychology allows students to gain research experience in selected areas of clinical psychology.
PR: PSYC 2520, 2570, 2911 and 3650 and admission to a Major in Psychology or Behavioural Neuroscience

4671 Research Experience in Personality - inactive course.

4701 Animal Behaviour II - inactive course.

4750 Selected Topics in Animal Behaviour I is an intensive examination of a specific topic in animal behaviour.
PR: PSYC 3750 or Biology 3750 and admission to a Major in Psychology or Behavioural Neuroscience

4751 Selected Topics in Animal Behaviour II is an intensive examination of a specific topic in animal behaviour.
PR: PSYC 3750 or Biology 3750 and admission to a Major in Psychology or Behavioural Neuroscience

4770 Research Experience in Animal Behaviour allows students to gain research experience in selected areas of animal behaviour.
PR: PSYC 2520, 2570, 2911 and PSYC 3750 or BIOL 3750, and admission to a Major in Psychology or Behavioural Neuroscience

4850 Selected Topics in Behavioural Neuroscience I is an intensive examination of a specific topic in behavioural neuroscience.
PR: PSYC 2810; or 3800 or 3801 and admission to a Major in Psychology or Behavioural Neuroscience

4851 Selected Topics in Behavioural Neuroscience II - inactive course.

4870 Research Experience in Neuroscience allows students to gain research experience in selected areas of neuroscience.
PR: PSYC 2520, 2570, 2911, and either 3800 or 3801 and admission to a Major in Psychology or Behavioural Neuroscience

4910 Systems in Contemporary Psychology is a study of paradigms and explanations in contemporary psychology in the context of their historical antecedents.
PR: at the St. John’s campus, 30 credit hours in Psychology courses required in the majors program and admission to a Major in Psychology or Behavioural Neuroscience or, at the Grenfell campus, 30 credit hours in Psychology courses including Psychology 3950

499A and 499B Honours Dissertation is a linked course, based on independent study of an approved problem in Psychology. The topic will be chosen in consultation with the Faculty Advisor. The first semester will normally involve directed reading in this area, and preparation of a dissertation proposal. The second semester will be devoted to conducting the study, gathering data, data analysis and preparation of a formal written report. The dissertation must be submitted for grading before the end of the tenth week of the semester in which the student is registered for 499B.
CH: 6
PR: admission to the Honours Program

9.11.3 Psychology Work Term Descriptions
The Following Work Terms are a requirement of the Psychology Co-op Program only.

AR = Attendance requirement; CH = Credit hours are 3 unless otherwise noted; CO = Co-requisite(s); CR = Credit can be retained for only one course from the set(s) consisting of the course being described and the course(s) listed; LC = Lecture hours per week are 3 unless otherwise noted; LH = Laboratory hours per week; OR = Other requirements of the course such as tutorials, practical sessions, or seminars; PR = Prerequisite(s); UL = Usage limitation(s).
199W Work Term I follows the successful completion of Semester 4. Students are expected to learn, develop and practice the high standards of behaviour and performance normally expected in the work environment. (A detailed description of each job is normally posted during the job competition.) As one component of the Work Term, the student is required to complete a work report. The work report, as a minimum requirement should:

1. analyse an issue/problem related to the student’s work environment.
2. demonstrate an understanding of the structure of a professional report, and show reasonable competence in written communication and presentation skills. (Students should consult the evaluation form provided in the placement package.)

Late reports will be graded as FAL unless prior permission for a late report has been given by the co-ordinator.

Seminars on professional development, conducted by the Division of Co-operative Education, are presented during Semester 4 to introduce and prepare the student for participation in the subsequent work terms. Topics may include among others, work term evaluation, work report writing, career planning, employment seeking skills, resume preparation, self employment, ethics and professional concepts, behavioural requirements in the work place, assertiveness in the work place and industrial safety.

299W Work Term II follows the successful completion of Semester 6. Students are expected to further develop and expand their knowledge and work-related skills and should be able to accept increased responsibility and challenge. In addition, students are expected to demonstrate an ability to deal with increasingly complex work-related concepts and problems. The work report, as a minimum requirement, should:

1. analyse an issue/problem related to the student’s work environment and demonstrate an understanding of practical application of concepts relative to the student’s academic background
2. demonstrate competence in creating a professional report, and
3. show competence in written communication and presentation skills

Late reports will be graded as FAL unless prior permission for a late report has been given by the co-ordinator.

399W Work Term III follows the successful completion of Semester 7. Students should have sufficient academic grounding and work experience to contribute in a positive manner to the problem-solving and management processes needed and practiced in the work environment. Students should become better acquainted with their discipline of study, should observe and appreciate the attitudes, responsibilities, and ethics normally expected of professionals and should exercise greater independence and responsibility in their assigned work functions. The work report should reflect the growing professional development of the student and, as a minimum requirement, will:

1. demonstrate an increased ability to analyse a significant issue/problem related to the student’s experience in the work environment
2. demonstrate a high level of competence in producing a professional report, and
3. show a high level of competence in written communication and presentation skills

Late reports will be graded as FAL unless prior permission for a late report has been given by the co-ordinator.

9.12 Science

1000 Introduction to Science I is a liberal science course for Arts students, which reflects the way scientists think and work through historical, philosophical and social considerations of the environment we live in. Typical course content includes: the concepts of matter, motion and energy; the chemical basis for life and the interdependence of organisms; and the abundance and distribution of the Earth’s natural resources.

UL: may not be used to fulfill any of the Science course requirements for the Honours and General Degrees in Science

1001 Introduction to Science II is continuation of Science 1000.

PR: Science 1000

UL: may not be used to fulfill any of the Science course requirements for the Honours and General Degrees in Science

1150 Introduction to Physical and Life Sciences (formerly Science 115A) is an introduction to some concepts in the Physical and Life Sciences. This course is primarily intended for the non-science major (Bachelor of Arts; Bachelor of Education (Primary/Elementary)).

CR: the former Science 115A

LH: 3

UL: not acceptable as a prerequisite for 2000 level courses in Physics, Chemistry, Biology, Geography or Earth Sciences

1151 Introduction to Physical and Life Sciences (formerly Science 115B) is an introduction to some concepts in the Physical and Life Sciences. This course is primarily intended for the non-science major (Bachelor of Arts; Bachelor of Education (Primary/Elementary)).

CR: the former Science 115B

LH: 3

UL: not acceptable as a prerequisite for 2000 level courses in Physics, Chemistry, Biology, Geography or Earth Sciences

5998 Exchange Programs in Science will be available only to students attending Memorial University of Newfoundland as part of a formal exchange agreement, memorandum of understanding, or other special arrangement. This course will normally be offered twice a year, from March to August and September to February.

CH: 3 – 15, to be determined for each offering by the Dean in consultation with the appropriate Head of Department or Co-ordinator

PR: permission of the Dean of Science

UL: may be repeated for credit once

1 The Memorial University of Newfoundland Code

The attention of all members of the University Community is drawn to the section of the University Calendar titled The Memorial University of Newfoundland Code, which articulates the University's commitment to maintaining the highest standards of academic integrity.

2 School Description

A social work program at Memorial University of Newfoundland commenced in 1963 with the offering of a two-year diploma in public welfare. In 1965 the Bachelor of Arts (Social Welfare) degree was initiated, continuing until 1970 when the Bachelor of Social Work was established. The Bachelor of Social Work program is accredited by the Canadian Association of Social Work Education (CASSWE). The program is currently accredited to 2014. The School also offers an undergraduate diploma and graduate degrees at the master and doctoral level.

Social Work courses are designed for delivery on a philosophical base of humanism and social justice. This is accomplished in an empowering teaching and learning environment, through the practice of anti-oppression principles, within the context of critical thinking. The curriculum in social work draws upon the substance and analytical processes of the social and behavioural sciences and of the humanities. It reflects Memorial University of Newfoundland and the School of Social Work's traditional commitments to serve the people of Newfoundland and Labrador within a global context.

Additional information regarding the School of Social Work is available at www.mun.ca/socwrk/home/.

Students must meet all regulations of the School of Social Work in addition to those stated in the general regulations. For information concerning fees and charges, admission/readmission to the University, and general academic regulations (undergraduate), refer to UNIVERSITY REGULATIONS.

2.1 Vision

The School of Social Work strives to strengthen human relationships and promote social justice through academic excellence.

2.2 Mission

The School of Social Work promotes social justice by providing social work education, conducting scholarly inquiry, disseminating knowledge and contributing to public policy and practice thereby addressing the needs and aspirations of the local and global communities with whom we collaborate and interact.
3 Description of Programs

All courses of the School are designated by the abbreviation SCWK.

3.1 Bachelor of Social Work

The Bachelor of Social Work is a full-time program that is offered as a first or a second degree program and is comprised of course work and two internships. The degree qualifies graduates for beginning professional practice in social work settings. The objectives of the liberal education aspect of the undergraduate program includes the achievement of: general knowledge of people and nature, analytical and critical thinking and communication skills and knowledge of social, political and economic impacts in society. The objectives of the undergraduate program are to prepare students to: promote social justice and social well being and creatively challenge oppression; acquire and apply knowledge, skills, values, professional ethics and critical thinking abilities; recognize limitations and strengths as a beginning social work practitioner; integrate reflexively critical self-awareness; assume leadership in collaboration and interdisciplinary practice; utilize and participate in innovative and traditional inquiry and research models; creatively practice with diverse individuals and collectives; promote and critique the social work profession on, regional, provincial, national and global levels; commit to the process of lifelong learning; participate collaboratively and respectfully in innovative teaching and learning processes; and address issues of transition and crisis in diverse contexts (individuals, families, groups, communities, formal organizations and society).

The aim of the program is to develop social workers with generically based skills for working with individuals, families, communities, and groups. Students receive an education which prepares them to work in urban centres and rural settings. A special emphasis is placed on the importance of identifying local needs and developing the means of meeting these needs in the context of available resources.

There is a Program Residency Requirement for both the First and Second Degree programs requiring students to take specific courses on the St. John's campus. Although the majority of courses are taught on-campus, selected courses are occasionally taught by distance format.

3.1.1 Social Work Internships

- In addition to their course work, students are required to complete two supervised 350 hour internships which normally occur in Fall and Winter semesters. Students are expected to be available to engage in the internship for 28 hours each week during the semester in which the internship is scheduled.
- Students will be placed at internship sites throughout the Province as selected by the Field Education Coordinators.
- Although consideration will be given to all factors affecting the location and type of internship, the final decision regarding placement rests with the School. The School cannot guarantee availability of sites in all communities at all times.
- In extenuating circumstances, internships may be offered in whole or in part outside the normal start and end dates of a semester.
- Students are responsible for all costs associated with internships including travel and accommodation.

3.2 Diploma in Social Work

Pending availability of resources, a program leading to the Diploma in Social Work may be designed for groups of students with particular needs. This program is only offered to cohorts and not individual students. Admission of individual students to a diploma program is competitive and selective. Information about diploma programs can be obtained by contacting the Dean of the School of Social Work.

4 Admission/Readmission Regulations for the Bachelor of Social Work

In addition to meeting the UNIVERSITY REGULATIONS students must meet the admission/readmission regulations for the School of Social Work.

4.1 General Information

1. Entry to programs is competitive.
2. Selection of candidates will be based on academic standing, relevant work/volunteer experience, and personal suitability for a career in social work.
3. The School of Social Work depends on the cooperation of community agencies external to the University to provide field internships and instruction to its students. Many of these agencies have a range of requirements, such as a Certificate of Conduct or a Child Protection Records Check, which must be completed before starting the internship. Students unable to meet these agencies’ requirements may be delayed in their program or prevented from completing their program of study. Students are required to complete and update these requirements in a timely fashion and at their own expense. The procedures of any given agency may change from time to time and are beyond the control of the University.
4. As part of the regular quota up to three seats per year are available in the Bachelor of Social Work as a First Degree program for applicants of First Nations/Aboriginal ancestry who have met the minimum numeric grade and course requirements for admission to the program. Applicants must send a letter of request at the time of application and provide documentation of First Nations/Aboriginal ancestry.
5. The School may, at its discretion, give preference to applicants who self-identify as a member of an equity group.
6. Students applying for readmission must meet all admission and promotion requirements of the School of Social Work in effect for the year in which re-admission is being sought.

4.2 Application Forms and Deadlines

1. The Bachelor of Social Work as a First Degree program commences in the Fall semester. The Bachelor of Social Work as a Second Degree program will normally commence in the Winter semester. The deadline for application for admission is March 1. Students are encouraged to submit their applications as early as possible.
2. Applications received after the deadline, and incomplete applications will not be considered.
3. Application forms are available online at www.mun.ca/socwrk/undergraduate/apply.php or in person from the School and the Office of the Registrar. Application forms may also be obtained by writing the School of Social Work, Memorial University of Newfoundland, St. John's, NL, A1C 5S7 or the Office of the Registrar, Admissions Office, Memorial University of Newfoundland, St. John's, NL, A1C 5S7.
4. Applicants for readmission to the School of Social Work must submit a School of Social Work application to the Office of the Registrar by March 1 for Fall semester readmission, February 1 for Spring semester readmission, and October 1 for Winter semester readmission. Applications received after these deadlines will be considered only if a place is available in the School of Social Work.

5. All applications for admission or readmission must be submitted to the Office of the Registrar. A complete application package includes an application to the University (for those who have not attended Memorial University of Newfoundland in the three preceding semesters), an application to the School and any other required documentation.

4.3 Admission Requirements

4.3.1 First Degree Program
1. To be considered for admission to the Bachelor of Social Work program, applicants must have completed the 30 credit hours outlined below by the end of the Winter semester for the year in which admission is being sought and must achieve an overall average of at least 65% in these courses and a grade of at least 65% in Social Work courses. These courses and credits must have been taken at Memorial University of Newfoundland or accepted for transfer credit from a recognized university or university college. The 30 credit hours are:
   - six credit hours in English
   - Psychology 1000 and 1001
   - Sociology 1000
   - Social Work 1710
   - 12 credit hours in non-social work elective courses. No more than 6 of these credit hours can be taken from areas other than arts and science.
2. In addition, applicants must have achieved an average of at least 65% in the courses comprising the last 30 credit hours attempted by the end of the Winter semester for the year in which admission is being sought and for which a numeric grade has been assigned.
3. In addition to other criteria used in the selection process, applicants for admission will be ranked according to their academic performance, which will be based on the cumulative average, together with the average on the last 30 credit hours for which a numeric grade was given and the overall average on the 30 prerequisite credit hours noted above.
4. During the period between the date of application and the commencement of year 2, successful candidates will be required to meet the Academic Requirements and Promotion Regulations of the School of Social Work.
5. A student will not be considered for admission if he/she has attempted and failed to receive a grade of 65% or higher in two or more SCWK courses or has failed to receive a grade of 65% or higher in the same social work course twice.

4.3.2 Second Degree Program
The Bachelor of Social Work as Second Degree is a 60 credit hour program intended for candidates who have completed the required courses, meet the academic performance requirements, and have extensive employment and/or formal volunteer experience. Priority is given to applicants who are bona fide residents of the province of Newfoundland and Labrador.

1. To be considered for admission to the Bachelor of Social Work as a Second Degree, individuals must have:
   - been awarded a Bachelor’s Degree, or approved (by the end of the Winter semester preceding the academic year in which admission is being sought) for the award of a Bachelor’s Degree from a university recognized by Memorial University of Newfoundland;
   - achieved a minimum average of at least 70% in the last 60 credit hours of undergraduate study attempted by the end of the Winter semester preceding the academic year in which admission is being sought and for which a numeric grade has been assigned;
   - completed the 30 credit hours outlined below by the end of the Winter semester preceding the academic year in which admission is being sought and achieved an overall average of at least 70% in these courses and a grade of at least 65% in Social Work courses. These courses and credits must have been taken at Memorial University of Newfoundland or accepted for transfer credit from a recognized university or university college. The 30 credit hours are:
     - Social Work 1710
     - Six credit hours in English
     - Psychology 2010 and 2011 or (2025 and 3 credit hours in Psychology at the 2000 level or above)
     - Six credit hours in Sociology of which 3 must be at the 2000 level or above
     - Nine credit hours at the 2000 level or above selected from the following: Anthropology, Economics, Folklore, Gender Studies (1000 level will be acceptable for Gender Studies only), Geography, History, Linguistics, Philosophy, Political Science, Psychology, or Sociology.
   - completed 300 hours of verified formal work/volunteer experience in human services
2. In addition to other criteria used in the selection process, applicants for admission will be ranked according to their academic performance.
3. A student will not be considered for admission if he/she has attempted and failed to receive a grade of 65% or higher in two or more SCWK courses or has failed to receive a grade of 65% or higher in the same social work course twice.
4. Successful candidates completing courses during the Spring and/or Fall semester(s) that precede the program commencement semester will be required to meet the Academic Requirements and Promotion Regulations of the School of Social Work.

4.3.3 Acceptance Procedures for Admission
1. Applicants for the First Degree program will normally be notified of admission decisions by early June. Approved applicants for this program option will be admitted in Fall semester only.
2. Applicants for the Second Degree program will normally be notified of admission decisions by early June. Approved applicants for this program option will normally be admitted in the Winter semester only.
3. The School of Social Work will not defer any admissions to the first or second degree programs.
4.3.4 Readmission Requirements
In addition to requirements specified in Admission/Readmission Regulations for the Bachelor of Social Work, applicants for readmission to the Bachelor of Social Work will be assessed for eligibility in accordance with Academic Requirements and Promotion Regulations, in effect for the year in which readmission is being sought, and contingent upon availability of a seat in the semester for which readmission is sought. Students who are readmitted to the program following a five-year absence will be required to do remedial work upon the recommendation of the Committee on Undergraduate Studies. Remedial work may include the repetition of classroom and/or internship courses.

5 Program Regulations

5.1 Bachelor of Social Work (as a First Degree)
1. The 120 credit hour Bachelor of Social Work (as a First Degree) requires, 48 non-SCWK credit hours and 72 SCWK credit hours that include two internships as defined in Table 1 Bachelor of Social Work (as a First Degree).
2. Following admission to Year 2, credit hours shall normally be taken in the sequence as set out in Table 1 Bachelor of Social Work (as a First Degree). Students wishing to change the sequence and/or reduce the course load specified for Years 2 - 4 must receive written approval from the Dean of the School. A change in course sequence may result in an extension to the length of time normally required to complete the program.
3. Students must complete the application for Social Work internship in January for Fall semester and in April for Winter semester.

5.2.1 Program Residency Requirements

Students shall be required to successfully complete all Social Work courses on the St. John’s campus except for: SCWK 3300, 3311, 3521, and 4302.

6 Academic Requirements and Promotion Regulations

6.1 General Information

1. The Committee on Undergraduate Studies will determine a student's promotion status at the end of each academic term.

2. These regulations shall apply from the date of the application for admission/re-admission to the program to the completion of the program.

3. In addition to meeting the academic requirements and promotion regulations for the School all students must meet the general academic regulations (undergraduate). For further information refer to UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate).

6.2 Promotion Status

A student's promotion status at the end of each term will be in one of the following three categories:

6.2.1 Clear Promotion

Clear Promotion means that a student can proceed to the next term without restrictions. Clear Promotion will be given to a student who has completed the academic term with an overall average of at least 65% and with a numeric grade of at least 65% in each SCWK course.

6.2.2 Probationary Promotion

Probationary Promotion means that a student has not received a Clear Promotion and must meet certain conditions to obtain Clear Promotion. Probationary Promotion will be given to a student who has not obtained an overall term average of at least 65%. The student will be issued a letter of warning and must obtain an overall average of at least 65% in the subsequent academic term.

who has not obtained a numeric grade of at least 65% in each required SCWK course. The student must repeat the course(s) within three academic terms from the unsuccessful completion and obtain a numeric grade of at least 65%. The student will not be permitted to repeat more than two SCWK courses in the program and will subsequently be denied promotion should she/he receive less than 65% in the same social work course twice.

who has not obtained a numeric grade of at least 65% in each elective SCWK course. The student must successfully complete this course or another appropriate SCWK elective with a numeric grade of at least 65% before completion of the program. The student will not be permitted to repeat more than two SCWK courses in the program and will subsequently be denied promotion should she/he receive less than 65% in the same social work course twice.

who has voluntarily withdrawn from an internship before its completion with the prior approval of the Field Administrator and the Committee on Undergraduate Studies. In addition to the designation Probationary Promotion, the student will also receive a letter
grade of DR (drop) for that internship. The student will be required to successfully complete another internship before continuing in

- who behaves in a manner that breaches the current Code of Ethics of the Canadian Association of Social Workers which is available
- who has received a numeric grade of less than 65% in more than two SCWK courses.
- who has received a numeric grade of less than 65% in the same social work course twice.
- who has withdrawn from an internship without the prior approval of the Field Administrator and the Committee on Undergraduate
- who has received a letter grade of FAL (fail) in an internship.
- who behaves in a manner that breaches the current Code of Ethics of the Canadian Association of Social Workers which is available

6.2.3 Promotion Denied
Promotion Denied means that a student has not received either a Clear Promotion or a Probationary Promotion and must withdraw

who has not met the conditions of his/her probation.
who has received a numeric grade of less than 65% in more than two SCWK courses.
who has received a numeric grade of less than 65% in the same social work course twice.
who has withdrawn from an internship without the prior approval of the Field Administrator and the Committee on Undergraduate
who has received a letter grade of FAL (fail) in an internship.
who behaves in a manner that breaches the current Code of Ethics of the Canadian Association of Social Workers which is available

6.2.4 Other Information
1. A student will not be eligible for consideration for admission or readmission to the School if he/she has:

- received a numeric grade of less than 65% in more than two SCWK courses in the entire program, or received a numeric grade of less than 65% in the same SCWK course twice;
- received a letter grade of FAL (fail) in more than one internship; or
- behaved in a manner that breaches the current Code of Ethics of the Canadian Association of Social Workers which is available

2. A student who has been denied promotion and has had to withdraw from the School but is eligible for consideration of readmission to the School

- must withdraw from the School for two academic terms before being considered for readmission;
- must meet readmission deadlines as per Application Forms and Deadlines; and
- will be permitted only one readmission to the School.

6.3 Leave of Absence
1. Any student who wishes to withdraw from the program and to retain his/her status in the program may do so only with the written

- received a numeric grade of less than 65% in more than two SCWK courses in the entire program, or received a numeric grade of less than 65% in the same SCWK course twice;
- received a letter grade of FAL (fail) in more than one internship; or
- behaved in a manner that breaches the current Code of Ethics of the Canadian Association of Social Workers which is available

2. A student may be required to withdraw from the program at any time, on the recommendation of the Committee on Undergraduate

- who behaves in a manner that breaches the current Code of Ethics of the Canadian Association of Social Workers which is available

3. In the case of a permanent withdrawal, the student will not be eligible for future admission/readmission to the Bachelor of Social

7 Graduation
Upon meeting the qualifications for the Bachelor of Social Work program a student must apply by the appropriate deadline date to

graduate on the prescribed "Application for Graduation " form. This form may be obtained on-line at the Memorial Self Service at

8 Waiver of School Regulations
Every student has the right to request waiver of School regulations. A student wishing waiver of University academic regulations should refer to UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate) - Waiver of Regulations.

8.1 General Information
1. The School reserves the right in special circumstances to modify, alter, or waive any School regulation in its application to individual

students where merit and equity so warrant in the judgment of the Committee on Undergraduate Studies of the School.
2. All requests must be submitted to the Committee on Undergraduate Studies of the School for consideration.
3. A student requesting a waiver of a School regulation must submit the request in writing to the Chair of the Committee on Undergraduate Studies. Medical and/or other documentation to substantiate the request must be provided.
4. Any waiver granted does not reduce the total number of credit hours required for the degree.

9 Appeal of Regulations

1. Any student whose request for waiver of School regulations has been denied has the right to appeal. For further information refer to UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate) - Appeal of Decisions.
2. An applicant who has been denied admission has the right to appeal this decision of the Admissions Committee if it is felt by the applicant that the decision was reached on grounds other than those outlined in Admission/Readmission Regulations for the Bachelor of Social Work. The appeal should be made in writing within fourteen days of the notification of the decision and should be directed to the Dean of the School. The letter should state clearly and fully the grounds for the appeal. If the Dean of the School, in consultation with the Registrar, judges the grounds to be sufficient, the formal appeals mechanism will be initiated.

10 Course Descriptions

In accordance with Senate's Policy Regarding Inactive Courses, the course descriptions for courses which have not been offered in the previous three academic years and which are not scheduled to be offered in the current academic year have been removed from the following listing. For information about any of these inactive courses, please contact the Dean of the School.

All courses of the School are designated by SCWK.

2110 Social Work Philosophy and Practice provides an overview of the historical development, basic values, principles and knowledge base, and fields of practice of the profession. The course will examine critical social problems that impact societies with an emphasis on the quest for social justice at local, national and global levels.
CR: the former SCWK 2700

2211 Diverse Theories for Social Work Practice provides an overview of critical and practice theories that explain problems and guide the change process. The course will involve students in a critical analysis of a broad range of theories including: Critical theories such as structural, feminist, Marxist, anti-racist, aboriginal, queer, & anti-oppressive practice; modern theories such as interactional, systems, ecological cognitive & crisis theory/ intervention; postmodern theories such as solution focussed and narrative; and Macro practice, social action, and community organization.
CO: SCWK 2320 and 2711
PR: SCWK 1710 or the former SCWK 2700

2320 Social Work Knowledge and Skills for Assessment and Intervention introduces beginning skills for social work practice. The relevance of relationship based approach, a strengths perspective and an anti-oppressive stance will be considered as students acquire biopsychosocial assessment and interviewing skills. Attention is given to self-awareness, professional identity and a wide range of beginning counselling skills with diverse populations and situations such as: Aboriginal people, involuntary clients, suicide risk, domestic violence, clients in crisis and children at risk.
CO: SCWK 2211 and 2711
CR: the former SCWK 3220, the former 3321 and the former 4310
PR: SCWK 1710 or the former SCWK 2700

2321 Social Work Knowledge and Skills for Personal and Social Change addresses knowledge, skills and competencies that enable the social worker to facilitate positive change within the middle and end stages of intervention. Emphasis will be given to a range of current best known practices within the context of clinical and community applications, promotion of social justice, strengths and critical thinking. General practice approaches that may be applied with individuals, families and communities will be emphasized.
CR: the former SCWK 3421
PR: SCWK 2211, 2320 and 2711

2520 Social Work: Critical Analysis of Social and Health Policy engages students in critical analysis of local and national social and health policy development from a social work perspective. The course explores topics that are related to direct service provision such as: the influence of historical context on policy, policy development, interactions among federal, provincial and local governments that influence policy and leadership and advocates roles of social workers in program development in a diverse and changing environment.
CR: the former SCWK 2510 and 2710
PR: SCWK 2211, 2320 and 2711 or admission to the second degree program option

2711 Social Justice and Social Work Practice explores human rights from a global perspective and examines social responsibility, the nature of oppression and marginalization and strategies to promote social justice and prevent injustice. Reflective practice principles and experiential activities will form the basis for examining use of self and the relevance of social location, and the application of: critical theoretical perspectives, critical empathy and ethical evaluation for anti-oppressive practice at the individual and structural organizational level.
CO: SCWK 2211 and 2320
PR: SCWK 1710 or the former SCWK 2700

3221 Social Impacts on Human Development addresses how theories, concepts and information on human development must be considered in the context of social issues and impacts in order to inform social work practice with vulnerable populations. The impact of issues such as violence, addictions, poverty, trauma and oppression are examined as well as the rights and resilience of human beings. Strategies to address social impacts on human development are explored.
CO: SCWK 3521 and 3720
CR: the former SCWK 3211 and the former 3220
PR: SCWK 3300 and 3311

3230 Cultural Camp - inactive course

3300 Social Work Internship I is a 350 hour supervised field experience that provides students with opportunities to apply social work principles, theories and skills to work with clients and communities. The field experience is designed to develop professional use of self, beginning ability to implement planned interventions with diverse populations and an appreciation for social justice activities.
CH: 12
CO: SCWK 3311
CR: the former SCWK 4315, 4316, 4390, 4325 and 4326
PR: successful completion of all designated Year 2 courses for the first degree program option; or admission to the second degree program option and successful completion of SCWK 2321, 3720, 4312, 4313, and 4314

3311 Social Work Knowledge and Skills for Integration of Theory and Practice focuses on application of selected modern and methods of practice. The course explores links between theory and practice through critical consideration of: the influence of agency and community, the value of theory and knowledge, the role of self awareness, social location and practice skills, topics to be explored include: documentation, support/resourcing, counselling, advocacy, self care, vicarious trauma, professional identity, community work, interdisciplinary practice, group work, ethics and consultation.
CO: SCWK 3300
CR: the former SCWK 4310 and 4311
PR: successful completion of all designated Year 2 courses for the first degree program option; or admission to the second degree program option

3511 Aboriginal People and Social Policy - inactive course

3521 Social Work Organizational Development for Community Services examines policy development and change in human services organizations and their administration. Management and organizational concepts suitable for the administration of social policies and programs are addressed as are ethical and ideological issues for social workers on human service teams. A focus on beginning skills in administration is included for the social worker within a management and leadership context in human services organizations.
CO: SCWK 3221 and 3720; or SCWK 4302
CR: the former SCWK 3110, the former 3510 and 4111
PR: SCWK 3300 and 3311

3530 Aboriginal Social Development - inactive course

3720 Ethical and Legal Issues in Social Work Practice examines ethical theories, decision - making models and key legislation in a variety of areas including child welfare, youth justice, privacy, health, human rights to resolve dilemmas in practice. Components of legislation and the Social Work Code of Ethics are analysed to determine approaches to practice dilemmas. Consideration and critical analysis of frameworks for decision making will lead to a personal model for practice choices.
4302 Social Work Internship 2 is a 350 hour supervised field experience that provides students with opportunities to apply social work principles, knowledge and skills that demonstrates the capacity for independent practice at micro and macro levels. Emphasis is on developing strong analytical abilities, applying enhanced practice skills, mastering a variety of social work roles, implementing strategies that impact social justice and making professional judgments in increasingly complex situations.

PR: SCWK 3301, 3521 and 3720 or admission to the second degree program option

4312 Social Work Knowledge and Skills for Community Development emphasizes theory and practice of community organizing and community development within the context of social justice. Frameworks for community practice are critically analysed through examination of ethical dilemmas, accountability issues, practice skills, leadership and other roles. Urban, rural and cultural differences are considered in relation to their influence on effective community organizing and development work.

CO: SCWK 4312, 4313 and 4410; or SCWK 2321, 3720, 4312 and 4314
CR: the former SCWK 3522
PR: SCWK 3301, 3521 and 3720 or admission to the second degree program option

4313 Social Work Knowledge and Skills for Group and Team Work introduces students to social work methods and skills in group practice and team work. The design and implementation of diverse group types, evaluative models and the parallels between group and team functions are explored. The characteristics and challenges of interdisciplinary team work are considered as well as effective strategies and unique roles that social workers can contribute for effective team collaboration.

CO: SCWK 4312, 4313 and 4410; or SCWK 2321, 3720, 4312 and 4314
CR: the former SCWK 4320
PR: SCWK 3301, 3521 and 3720 or admission to the second degree program option

4314 Social Work Knowledge and Skills for Practice with Families prepares students to offer direct services to families through increasing their knowledge of family functioning and their competence in family assessment and intervention. Critical analysis of models of family intervention and exploration of ethical issues form the basis for application of selected approaches to family work including: structural therapy, solution focussed approach and crisis intervention.

CO: SCWK 4312, 4313 and 4410; or SCWK 2321, 3720, 4312 and 4313
CR: the former SCWK 3523
PR: SCWK 3301, 3521 and 3720 or admission to the second degree program option

4317 Field of Practice: Child Welfare Prevention, Crisis Intervention and Protection examines legislation that protects the rights of children, best practice in child welfare and care and protection of children within a community context. Social work intervention with complex issues such as: family violence, poverty, cultural influences, addictions and mental health impacts are explored through feminist, aboriginal, empowerment and anti-oppressive perspectives. Continuity of care, permanency planning and the impact of separation are addressed through critical analysis of child welfare programs, and care giving models.

CO: SCWK 4312, 4313, 4314 and 4410
CR: the former SCWK 4614

4321 Field of Practice: Social Work in Child Abuse and Protection is aimed at developing knowledge and social work skills necessary for intake, crisis intervention, assessment, family support, removal, community placement, family reunification, and amelioration, within the context of social justice and the best interest of those most vulnerable for maltreatment and oppression. It addresses child-youth neglect, physical abuse, sexual abuse, emotional abuse, exploitation, problems, risks, needs and harm and includes trauma and developmental impacts.

CO: SCWK 4302
CR: the former SCWK 5328
PR: SCWK 4312, 4313, 4314 and 4410

4322 Field of Practice: Social Work in Gerontology reviews aging from a biopsychosocial perspective with an emphasis on the strengths of seniors and the impact of oppression on the lives of the elderly. The course will explore legislation, policies, societal trends and elder abuse, and consider the social work role in developing strategies for healthy aging and service provision for seniors.

CO: SCWK 4302
CR: the former SCWK 4615 and 5615
PR: SCWK 4312, 4313, 4314 and 4410

4323 Field of Practice: Social Work in Addictions is aimed at developing knowledge skills, and beginning competence, necessary for assessment and intervention with populations experiencing problems and risks associated with the use and abuse of chemicals and non-chemical addictions throughout the lifespan. Themes addressed include: the oppression of addictions; social determinants of addictions, the social worker’s role in the continuum of care; strengths; the special needs of women, aboriginal, and GLBT populations.

CO: SCWK 4302
CR: the former SCWK 4616
PR: SCWK 4312, 4313, 4314 and 4410

4410 Applied Research and Evaluation for Social Work Practice teaches theories, concepts and methods of systematic inquiry and its relationship to professional social work judgment and action. The contribution of applied research to social justice, community based inquiry and accountability and evidence based practice is emphasized. Topics to be explored include: quantitative, qualitative, action and evaluative approaches to systematic inquiry for social work practice; ethical considerations in social work research.

CO: SCWK 4312, 4313 and 4410; or SCWK 2211, 2320, 2520, and 2711
CR: the former SCWK 4420 and 4421
PR: SCWK 3301, 3521 and 3720 or admission to the second degree program option

4620 Field of Practice: Social Work in Interdisciplinary Mental Health and Health Services provides an overview of mental health and illness, the impact on people and communities and social work interventions within an interdisciplinary community context. The oppression of illness, disability and mental health problems across the lifespan is considered as well as the role of social work in the continuum of care. Topics include: mental health, health, mental illness, disability, social determinants of health, social movements and advocacy.

CO: SCWK 4312, 4313, 4314 and 4410
CR: the former SCWK 4610, 5610 and 5613
PR: SCWK 3301, 3521 and 3720

4820-4829 Selected Topics in Social Work may be offered by the School. Students should consult the School for selected topics being offered in a given semester.

CO: SCWK 4302

1 The Memorial University of Newfoundland Code

The attention of all members of the University Community is drawn to the section of the University Calendar titled The Memorial University of Newfoundland Code, which articulates the University’s commitment to maintaining the highest standards of academic integrity.

2 General Information and Regulations Governing All Graduate Students

2.1 School Description

Memorial University of Newfoundland's School of Graduate Studies (SGS) is home to over 3,000 graduate students enrolled in over 100 graduate diploma, and master’s and doctoral degree programs. The School is a central agency responsible for the collection, maintenance, and distribution of materials on graduate students. It maintains graduate files and administers graduate applications, admissions, comprehensive examinations, thesis examinations, and doctoral defences. SGS is also responsible for registrarial functions, graduate enrolment management, and recruitment, and administers graduate student funding including assistantships, external and internal scholarships, baseline fellowships, supervisor support, and Tricouncil global payments.

The School assists academic units in developing new program proposals and administers their approval. Through its Academic Council, SGS also provides a forum for representatives from all faculties, schools, and the Graduate Students' Union to discuss matters pertaining to graduate education. The Council ensures maintenance of standards across all graduate programs by considering policies relating to graduate studies, approving regulation changes and appeals, receiving reports from standing and ad hoc committees, and making recommendations on matters affecting graduate studies.

Additional information regarding the School of Graduate Studies is available at www.mun.ca/sgs/.

Students must meet all regulations of the School in addition to the General Regulations, the Degree Regulations and any additional requirements of the appropriate Department. For information concerning fees and charges refer to Fees and Charges, UNIVERSITY REGULATIONS.

2.2 Programs

The following graduate diploma and degree programs are offered by Memorial University of Newfoundland. Interdisciplinary study is encouraged by the University, and prospective applicants should make enquiries about their interests from all the areas of study concerned.

2.2.1 Graduate Diplomas

Clinical Epidemiology
Community Health and Humanities
Fisheries Resource Management
Post-Secondary Studies (Health Professional Education)
Post Masters Nurse Practitioner
Safety and Risk Engineering

2.2.2 Graduate Degrees

Master of Applied Science
Master of Applied Social Psychology (Co-operative)
Master of Applied Statistics
Master of Arts
Master of Arts and Education (Education and Francophone Literatures and Cultures)
Master of Business Administration
Master of Education
Master of Employment Relations
Master of Engineering
Master of Engineering Management
Master of Environmental Science
Master of Gender Studies
Master of Health Ethics
Master of Marine Studies (Fisheries Resource Management)
Master of Maritime Management
Master of Music
Master of Nursing
Master of Philosophy
Master of Physical Education
Master of Public Health
Master of Science
Master of Science in Kinesiology
Master of Science in Medicine
Master of Science in Pharmacy
Master of Social Work
2.3 Definition and Explanation of Terms Used in this Calendar

2.3.1 Special/Selected Topics Courses
Where a block of courses has been approved under a general heading such as selected topics, special areas, directed readings or like heading, each new course offered from that block of courses shall be approved in advance by the Faculty/School Council (or delegated Graduate Studies Committee). To ensure an orderly use of the courses and non-duplication between course numbers, titles and contents, the Council (or Committee) shall require the same quality and type of information as is needed for the approval of a regular course. (Consult the School of Graduate Studies or Deputy Registrar for administrative procedures.)

2.3.2 Dean of Graduate Studies
In all regulations following, reference to "the Dean" refers specifically to the Dean of Graduate Studies.

2.3.3 Credit Hour
A credit hour is the measure used to reflect the relative weight of a given course towards the fulfillment of appropriate degree, diploma, certificate, major, minor, or other program requirements. Normally, a course has a credit value of 3 credit hours. A weight of one credit hour normally means that the course meets for lectures one hour per week for the duration of a semester or two hours per week for the duration of a session. The number of hours of required instruction, outside of lecture time, such as laboratory instruction, tutorials, etc. may or may not impact on the number of credit hours assigned to a particular course and academic units may recommend to the Senate a greater or lesser whole number of credit hours for a particular course.

2.3.4 Graduate Course
1. A graduate course comprises a unit/units of work in a particular subject normally extending through one semester, the completion of which carries credit toward the fulfillment of the requirements for a postbaccalaureate degree, diploma, or certificate.
2. Accelerated courses are not normally permissible in graduate programs.
3. Courses required as part of a graduate student's program are known as program courses. Tuition for such courses is covered by the semester fee.
4. Courses which are not required as part of a graduate student's program are known as non-program courses. Students registering for such courses will be required to pay the appropriate per course fee.

2.3.5 Policy Governing the Auditing of Courses
1. In order to audit any course, an individual must receive permission from the instructor in that course, the Supervisor/advisor and the administrative Head of the unit in which the course is offered. Matters to be considered shall include class size, impact on students registered for credit and other factors judged relevant by the academic unit; and permission cannot be given until the number of registrations for credit is known.
2. Individuals auditing courses shall limit their participation to that deemed appropriate by the instructor; auditors are not permitted to write formal examinations, nor to have their work formally assessed.
3. Students who require a testamur of audition may request the same from the instructor of the course. Students will not register for audit courses nor will a record of audit courses appear on students' transcripts.

2.3.6 Semester
A semester means a period of approximately 14 consecutive weeks during which the University is in regular session and in which period there are at least 12 teaching weeks as defined by the Senate. Normally the Fall semester commences in early September, the Winter semester in early January, and the Spring semester in early May.

2.3.7 Academic Year
The academic year is from September 1 of one year to August 31 of the following year.

2.3.8 Graduate Student
A graduate student is one who has been admitted to a graduate degree or a graduate diploma program.
A full-time graduate student is one who registers as such, devotes full time to his or her academic program and may not commit more than 24 hours a week working time, including teaching assistant or research assistant duties, to matters other than the degree program.
A part-time graduate student is one who is registered for the duration of a semester and is not classified as full-time.

2.3.9 Visiting Research Student
1. A student who is registered in good standing in a graduate program at another recognized institution who comes to Memorial University of Newfoundland to conduct research under the supervision of Memorial University of Newfoundland faculty members is considered to be a visiting research student. In order to obtain access to University resources, and where applicable, a study permit, such a student will be required to register each semester of their visit for GRAD 9900 using a Course Change Form.
2. To be eligible to register, a visiting research student must submit an Application for Admission form to the School of Graduate Studies, accompanied by: a) a letter from their home institution verifying graduate student status, and b) a letter from the host faculty member confirming the duration of the visit. The student will then be admitted to the School of Graduate Studies to a "non-degree" program.
3. Visiting research students will be exempt from tuition fees. However, all visiting research students will be required, as a condition of registration, to purchase health insurance (international students should contact the International Student Advisor, whereas Canadian citizens or permanent residents of Canada should contact the Graduate Students' Union for more information). If a visiting research student wishes to register for a course while at Memorial University of Newfoundland, s/he must meet the University admission requirements and pay the undergraduate per course fee as indicated under the UNIVERSITY REGULATIONS - Fees
and Charges in the University Calendar.

Note: A student enrolled in a graduate program at another university who wishes to complete courses at Memorial University of Newfoundland for transfer of credit to his/her home institution is not considered to be a visiting research student under this definition. Such students should apply to the Office of the Registrar for admission to the University, and if admitted, will be governed by GENERAL ACADEMIC REGULATIONS. Fees will be assessed in accordance with the fee schedule for undergraduate courses as indicated under the UNIVERSITY REGULATIONS - Fees and Charges in the University Calendar.

2.3.10 Program

1. A program, whether it comprises courses only, courses and comprehensive examination, or courses, internship, project, thesis research, paper folio is defined for each graduate student in accordance with Departmental and University Regulations. Each program of study is recommended by the appropriate academic unit, and must be approved in writing by the Dean of Graduate Studies before the beginning of the graduate student's second year of study.

2. Responsibility for the administration of the program shall rest with the Dean acting on behalf of the School.

Note: The following general statements concerning admission and Degree requirements should be supplemented by the detailed regulations governing each program.

2.3.11 Collaborative Program Agreements

2.3.11.1 Integrated Pathway Agreements

1. Memorial University of Newfoundland supports the establishment of agreements with partner institutions that may lead to the completion of multiple degree programs through an integrated pathway.

2. Examples of such agreements include but are not exclusive to 3+1+1 and 3+1+2 arrangements whereby an undergraduate degree is awarded by the partner institution and the graduate degree is awarded by Memorial University of Newfoundland.

3. In the 3+1+1 arrangement, a student would complete 3 years of the undergraduate studies at the partner institution, finish the 4th year at Memorial University of Newfoundland, and earn the bachelor's degree at the partner institution. The student would then enroll in and complete a 1-year master's program and earn a master's degree at Memorial University of Newfoundland.

4. In the 3+1+2 arrangement, a student would complete 3 years of undergraduate studies at the partner institution, finish the 4th year at Memorial University of Newfoundland, and earn the bachelor's degree at the partner institution. The student would then enroll in and complete a 2-year master's program and earn a master's degree at Memorial University of Newfoundland.

5. All such agreements must comply with the general regulations governing undergraduate and graduate programs at Memorial University of Newfoundland.

6. Memorial University of Newfoundland’s Guidelines for Integrated Pathway Agreements provides details on the method of establishing such an agreement. The Guidelines are available from the School of Graduate Studies.

2.3.11.2 Cotutelle Agreements

1. Memorial University of Newfoundland offers graduate students the opportunity to carry out a joint research project through a cotutelle agreement between Memorial University of Newfoundland and another recognized institution. The student would be expected to participate in research and fulfill degree requirements at both institutions. Students who successfully complete all program requirements would earn doctoral degrees from both institutions. Memorial University of Newfoundland’s Guidelines for Cotutelle Agreements, approved by the Academic Council of the School of Graduate Studies, provides information on the details on the method of establishing such an agreement and program. The Guidelines are available from the School of Graduate Studies.

2. Upon successful completion of the program, Memorial University of Newfoundland and the cooperating institution will each issue its own doctoral degree certificate. On the certificate and subsequently on the university transcript, the following notation will be added: “This Ph.D. was awarded within a cotutelle agreement. The student was jointly enrolled at University XYZ and Memorial University of Newfoundland and successfully completed the degree requirements of both institutions.”

3. Graduate students interested in this type of program should contact the School of Graduate Studies for further information.

3 General Regulations

3.1 Qualifications for Admission

3.1.1 Graduate Diploma Programs

To be considered for admission to a Graduate Diploma program the minimum requirements will normally be a second-class degree in an appropriate area of study from a university of recognized standing.

A candidate admitted to a Graduate Diploma program, who has demonstrated to the satisfaction of the appropriate Faculty/School/Department an ability to pursue research at the master's level, may be permitted subsequently to transfer his/her candidature to that of a master's in the affiliated program area and will thereafter be awarded only the master's at the end of his/her candidature.

3.1.2 Master's Programs

To be considered for admission to a Master's program, the minimum requirements will normally be a second-class degree in an appropriate area of study from a university of recognized standing.

In exceptional cases, and upon the recommendation of the appropriate academic unit, students who apply for admission and do not meet the minimum admission requirements to a Master's program described above may be considered for a qualifying year. Academic units will make recommendations for the qualifying year, including the appropriate courses to take during this period, to the School of Graduate Studies at the time of admission assessment.

3.1.3 Ph.D. and Psy.D. Programs

1. To be considered for admission to a Ph.D. program, the minimum requirements will normally be a Master's degree from a university of recognized standing, in an appropriate area of study. Other students may be considered for admission to a Ph.D. program provided that:

   a. they have been registered in a Master's program for a minimum of 12 months, and have demonstrated to the satisfaction of the Faculty/School/Department concerned their ability to pursue research at the Doctoral level. Such transfer should take place no
later than the 5th semester of the student's Master's program as indicated under UNIVERSITY REGULATIONS - Fees and Charges in the University Calendar; or
b. they hold a Bachelor's Degree with Honours, or equivalent, from a university of recognized standing, and that the Faculty/ School/Department is satisfied of the students' ability to pursue research at the Doctoral level.
2. To be considered for admission to the Psy.D. program, the minimum requirements will normally be an undergraduate honours degree in Psychology that includes senior courses as indicated under the Regulations Governing the Degree of Doctor of Psychology.

3.1.4 Applicants Not Meeting Qualifications
Only in exceptional circumstances, and only upon the recommendation of the Faculty/School/Department concerned, will the Dean consider applicants who do not meet the requirements outlined in Qualifications for Admission, Master's Programs or Ph.D. and Psy.D. Programs.

3.1.5 English Proficiency Requirements
Since English is the primary language of instruction at this University, all applicants seeking admission to the School of Graduate Studies must possess an adequate knowledge of written and spoken English as a prerequisite to admission. Regardless of country of origin or of citizenship status, applicants will be required to demonstrate proficiency in the English language. This demonstration may take one of the following forms:
1. Successful completion of the equivalent of three years of full-time instruction in an English language secondary institution as recognized by Memorial University of Newfoundland including successful completion of at least two courses in English Language and/or Literature at the Grade XII (or equivalent) level. Please note that these courses must be other than English as a Second Language (E.S.L.)
courses.
2. Successful completion of a baccalaureate degree from a recognized University where English is the language of instruction and from which transfer of credit may be allowed by Memorial University of Newfoundland.
3. Successful completion of a post-graduate degree program at a recognized University where English is the language of instruction and from which transfer of credit may be allowed by Memorial University of Newfoundland.
4. Submission of official results of the Test of English as a Foreign Language (TOEFL) with a paper-based score of 550 (or higher)/computer-based score of 213 (or higher) or Internet-based with a score of 80 (or higher) and the Test of Written English (TWE) with a score of 4 (or higher).
5. Submission of the official results of the Michigan Test of English Proficiency with a score of 85% (or higher).
6. Submission of the official results of the English Language Testing Service (ELTS) Test with an average band score of 6.5 or higher.
7. Submission of official results of the Carleton Academic English Language (CAEL) Assessment with a minimum score of between 50 and 60 in each of four bands, with at least 2 band scores of 60.
8. Submission of official results of the Canadian Test of English for Scholars and Trainees (CanTEST) with a Band Level 4.5 in the listening comprehension and reading comprehension sub-tests and a score of 4 in writing.
9. Only in exceptional circumstances and only upon the recommendation of the Department/Faculty/School concerned, will the Dean consider applicants who do not meet one of the requirements listed in 1-8 above.

3.1.6 Additional Requirements
Particular Departments/Faculties/Schools may require greater strength in English communicative skills than is indicated by the achievement of minimum scores outlined in 4., 5., 6., 7., and 8. above. Any such additional requirements are detailed in the appropriate section of the Calendar.

3.1.7 English Language Requirements Subsequent to Admission
1. Students who have been admitted under English Proficiency Requirements, Clauses 4. - 8. above, will be required to take an English language placement test on arrival at Memorial University of Newfoundland. On the basis of the test results, students may be required to complete successfully a course of language study designed to bring their English, in any or all of listening, speaking, reading, and writing, to a level required for graduate studies. A final assessment of the students' proficiency in these areas will normally be made no later than the end of the third semester following their first registration in the School of Graduate Studies. As a result of this assessment, and in consultation with the student's academic unit and the Department of English Language and Literature, there may be a recommendation for termination of the student's program.
2. Notwithstanding Additional Requirements above, if a student's Department is not satisfied with the student's ability to communicate in English, then the student may be required to complete successfully the relevant component(s) of the course of study referred to in Additional Requirements. The Department will be required to take this action within three semesters of the student's admission to a graduate program. At the end of this period the Department may recommend, but not require this procedure.

Note: Information regarding the TOEFL program is available on-line at www.toeflgoanywhere.org/. Information regarding the Michigan Test of English is available on-line at www.michigan-test.com. Information regarding the ELTS Test is available on-line at www.ielts.org.

3.1.8 Foreign Degree Transcripts
Students who have completed undergraduate programs at universities which issue documents in languages other than English or French shall submit notarized English translations of all supporting documentation, including, but not limited to, transcripts, degrees, and diplomas.

3.2 Procedure for Admission
1. Application for admission to graduate studies must be made online to the School of Graduate Studies at www.mun.ca/become/graduate/apply/. The application must be supported by an official transcript of the applicant's university record. If the applicant is a graduate of another university or college, a copy of the Calendar of that institution must be included upon request.
Most graduate programs have September start dates; however, some programs accept students for January and/or May admission. Deadlines for submission of applications can be as early as November for the following September; therefore, applicants should inquire about program start dates and application deadlines of the academic program of interest (see www.mun.ca/become/graduate). Non-Canadian applicants should allow four to six months for processing of official documents with Immigration authorities.
2. Admission to graduate studies shall be upon acceptance by the Dean after assessment of the qualifications of the applicant but no candidate will be admitted unless the academic unit of specialization recommends acceptance along with a proposed program of study and a proposed Supervisor or advisor or, where appropriate, a tutor. Successful applicants will be notified by the Dean of Graduate Studies.

3. The applicant may be required to appear for an interview before a final offer of admission is made.

4. It is recommended that the applicant refer to the appropriate section of this Calendar to ascertain if additional testing information or documentation is required when making initial application.

5. The University reserves the right to refuse admission to any applicant.

### 3.3 Registration

#### 3.3.1 Program Registration

1. All graduate students must be registered in each semester for the graduate program registration appropriate to their discipline (see note) until all academic requirements for the degree have been met, except during periods for which leaves of absence have been granted (see Leases of Absence).

   Note: e.g., Linguistics 9000, Chemistry 9000 or, in the case of Medicine, Medicine 9900.

2. A student registered in a graduate diploma, Master’s, Ph.D., or Psy.D. program may not concurrently pursue studies leading to any other degree without the prior approval of the Dean.

#### 3.3.2 Program Withdrawal

Students intending to withdraw from their program must inform the Dean of Graduate Studies in writing. The period of withdrawal from a program without incurring liability for that semester’s fees is three weeks after the first day of lectures in the semester in question, as stated in the University Diary. Requests received after the end of the regular registration period, and approved, will be charged an administration fee (see Fees and Charges).

#### 3.3.3 Course Registration

Note: For interdisciplinary programs, the Head of the academic unit is the Dean or Director of the Faculty/School administering the program.

1. Students will register for courses at the times indicated in the University Diary.

2. Students not admitted to a graduate program may enroll in graduate courses with the permission of the Head of the appropriate academic unit.

#### 3.3.4 Changes in Course Registrations

Note: For interdisciplinary programs, the Head of the academic unit is the Dean or Director of the Faculty/School administering the program.

1. Within two weeks following the first day of lectures in any semester, as stated in the University Diary, a graduate student may, upon the approval of the appropriate Head of academic unit, add a course or courses to his or her registration for that semester.

2. Within seven weeks after the first day of lectures in any semester, as stated in the University Diary, a graduate student may, upon the approval of the appropriate Head of academic unit, drop a course or courses from his or her registration for that semester without prejudice.

3. After the period described in 2. above has expired, and up until the last day of lectures, any student who is prevented from completing a course by illness, bereavement or other acceptable cause, duly authenticated in writing may, upon the recommendation of the Head of the appropriate academic unit, drop that course without academic prejudice.

Note: A course cannot be dropped after the last day of lectures without the approval of the Dean of Graduate Studies.

#### 3.3.5 Period of Study

1. Each student in graduate studies shall spend such time in the program as decided by the academic unit of specialization and approved by the Dean, and be subject to the following minimum residency.

   a. Except where provided for elsewhere in this calendar, each student for a Master’s Degree shall normally spend at least two semesters in residence as a graduate student at this University.

   b. Except where provided for elsewhere in this calendar, each student for a Ph.D. or Psy.D. shall normally spend at least three semesters in residence as a graduate student at this University.

   To be resident as a graduate student of this university a student must be registered as a graduate student at Memorial University of Newfoundland and participate in a community of learners and instructors (formally or informally) who are joined together by the practices and standards of a profession or an academic discipline. For most students this will involve taking courses or engaging in research while resident on campus. These attributes may, however, be found elsewhere and it is possible therefore that the residency requirement may be satisfied in an off campus location. In such cases the Dean of Graduate Studies must be satisfied that the attributes are met.

   c. Except where provided for elsewhere in this Calendar, each student for a graduate diploma shall normally spend at least one semester in residence as a graduate student at this University.

2. The maximum period of a graduate program shall be seven years beyond first registration.

#### 3.3.6 Leaves of Absence

##### 3.3.6.1 General

1. A leave of absence is a period of time during which a student is not required to register; no fees are assessed; and the time granted is not counted in the maximum time period permitted for a graduate program (see Period of Study).

2. In the event that circumstances prevent a student from pursuing his/her program, the student may apply to the Dean of Graduate Studies for a leave of absence.

3. A student may normally apply for only one leave of absence during his/her program. The maximum leave of absence shall normally not exceed 12 months.

4. An application for leave will normally be made before the end of the registration period in the first semester for which leave is
3.3.6.2 Parental
A student may apply for a leave of absence in the case of pregnancy/birth/adoption of a child. (Such leave will be considered separately from 3. above.)

3.4 Program Requirements
Note: Every candidate shall complete a program of study as recommended by the Head of the academic unit, in consultation with the Supervisory Committee and approved by the Dean of Graduate Studies. See Procedure For Admission, Clause 2.

3.4.1 Graduate Diploma and Master's Programs
1. Candidates should consult the appropriate Degree and Department/Faculty/School regulations for information concerning the specific program requirements.
2. Graduate diploma programs shall not normally comprise more than 50% of the master's in the same area.

3.4.2 Ph.D. and Psy.D. Programs
1. Each candidate is required to pass a comprehensive examination (see Comprehensive Examinations, Ph.D. and Psy.D. Comprehensive Examination).
2. Each candidate shall present a thesis embodying the results of original research.
3. Candidates should consult the appropriate Department/Faculty/School regulations for information concerning the number and specific credit hours that may be required for a program.
4. Candidates may pursue a specified part of their research elsewhere provided that prior permission has been obtained from the Dean on the recommendation of the Head of the academic unit in consultation with the Supervisory Committee.

3.4.3 English Writing Requirement
Given the analytical and scholarly demands of study at the graduate level, graduate students are expected to demonstrate an advanced facility with written English in meeting the demands of their coursework and, where applicable, in the writing of any end-of-program research report, folio, comprehensive examination, or thesis.

3.4.4 Changes in Programs
Any changes in the candidate's program of studies must be approved by the Dean of Graduate Studies on the recommendation of the appropriate academic unit.

3.4.5 Research Involving Animals
The Animal Care Service Department offers a seminar in animal care at least once annually. The seminar is administered by the School of Graduate Studies. All graduate students whose degree requirements involve experimentation on living vertebrate animals are required to attend this seminar normally at the first offering following commencement of their program.

3.4.6 Graduate Student Conduct
All graduate students shall adhere to Memorial University's policies and guidelines relating to academic scholarship, integrity and ethical conduct informing the design, conduct, and reporting of responsible research.

3.4.7 Year of Degree and Departmental Regulations
1. A student completing a graduate degree program in the School of Graduate Studies will follow the degree and Faculty/School/Department regulations in effect in the year in which the student first registers for his/her current program. However, students may elect to follow regulations introduced subsequent to their initial registration.
   Note: The foregoing notwithstanding, in the case of students who have submitted a thesis/report/folio, or students in a non-thesis program who have taken a comprehensive examination, the option of changing regulations is no longer available.
2. When there is doubt as to which degree or Departmental regulations may be followed, the Academic Council of the School of Graduate Studies will decide which are the appropriate regulations.
3. Notwithstanding these guidelines, the University may place limits on the time permitted to complete a program under any given set of regulations. In addition, detailed scheduling of courses and/or work periods may be changed as the University deems appropriate or necessary.

3.4.8 Transfer of Course Credits
All such transfers require the approval of the Dean of Graduate Studies, on the recommendation of the Head of the appropriate academic unit.
1. A student who has successfully completed graduate courses at Memorial University of Newfoundland prior to admission to a graduate program may apply to transfer appropriate courses to that program, provided such courses have not been used to satisfy other Degree requirements.
2. A student who has successfully completed graduate courses as part of one graduate program at Memorial University of Newfoundland, and who is subsequently admitted to another program, may apply to transfer appropriate courses to the current program, provided such courses have not been used to satisfy other Degree requirements.
3. A student who has successfully completed graduate courses at another institution recognized by Senate may, on admission to a graduate program at Memorial University of Newfoundland, apply to transfer appropriate courses to the current program, provided such courses have not been used to satisfy other Degree requirements.
4. Students who successfully complete a graduate diploma program may transfer the course credits earned in that program towards a master's degree if these credits meet the requirements of the master's in the affiliated area in which the graduate diploma was granted.
   Affiliated Master's programs for graduate diploma programs currently offered by the School of Graduate Studies are as follows:
5. In programs requiring a minimum of 12 credit hours or more, transfer of credit hours in graduate courses referred to in 1., 2., and 3. above shall not exceed 30% of the total number of credit hours required. In programs requiring fewer than 12 credit hours, a maximum of 3 credit hours in graduate courses referred to in 1., 2., and 3. above shall be considered eligible for transfer.

6. Graduate courses referred to in 1., 2., 3., and 4. above shall not be considered eligible for transfer if they have been completed more than seven years prior to the date of admission into the current program.

3.5 Provision for Waiver of Regulations

Academic regulations notwithstanding, the University reserves the right in special circumstances, to modify, alter or waive any regulation in its application to individual students where, in the judgement of the appropriate University Officer or Committee, there is sufficient justification for doing so.

1. Waivers of course prerequisites/co-requisites may be granted by the Head of an academic unit.

2. Waivers of Departmental regulations may be granted by the Dean of Graduate Studies on the recommendation of the Head of an academic unit.

3. Requests for waiver of a degree or general regulation must be submitted to the Academic Council of the School of Graduate Studies.

3.6 Appeal of Decisions

3.6.1 General Information

1. Every graduate student has the right to appeal decisions resulting from the application of University regulations.

2. Appeals will be considered in the case of health issues, bereavement and/or other acceptable cause, duly authenticated.

3. For assistance in the appeals process, a student is advised to consult the School of Graduate Studies.

4. In preparing an appeal a student may consult advisors or facilitators. Such advisors or facilitators may include an international advisor, a faculty advisor, a counsellor, a representative from the Memorial University of Newfoundland Graduate Students’ Union (GSU) or a faculty member who is familiar with the appeals process and who is willing to undertake the role of student advisor or facilitator.

5. Appeals are made before specific committees that exist at the University to provide an objective review of cases. The appeals process is designed to assist students at critical points in their graduate program and to provide an accessible and transparent process for students. Refer also to Routes of Appeal of Academic Regulations for information concerning where appeals should be directed.

6. The principles of natural justice shall be applied to the appeals processes and decisions. These principles include, but are not limited to, such practices as all parties to the appeal receiving timely and adequate notice, all parties to the appeal having the opportunity to submit arguments and supporting documentation and all parties to the appeal being made aware of the evidence considered by the committee. No person will sit in judgment on an appeal if that person has been previously involved in a decision-making process related to the matter under appeal or if that person has any conflict of interest, bias or reasonable apprehension of bias.

7. While the University makes provision for students to appeal decisions made under University regulations, the academic, financial or other consequences of the appeal process rests with the student.

8. When an appeal is denied, the student will be advised in writing of the reasons for the decision and if there are further steps that can be taken in the appeals process.

9. A student whose appeal is denied by the Appeals Committee of the School of Graduate Studies may appeal to the Senate Committee on Academic Appeals. Academic units whose decisions are overturned by the Appeals Committee of the School of Graduate Studies may appeal to the Senate Committee on Academic Appeals. Decisions of the Senate Committee on Academic Appeals are final and within the University there is no further appeal.

10. Unless the student bringing the appeal requests otherwise, student appeals are heard anonymously by all committees except the Senate Committee on Academic Appeals.

3.6.2 Routes of Appeal of Academic Regulations

1. Normally, the responsibility for making an appeal before the appropriate committee of the University rests with the student.

2. A student who is ineligible to officially register for courses but who wishes to attend classes, laboratories or other educational activities while an appeal is in progress can do so only with the written permission of the head of the academic unit concerned. Such permission will not unnecessarily be withheld.

3. A student whose request for waiver of regulations has been denied may direct the appeal as described below.

   • Appeals against decisions of the Head of an Academic Unit will be made directly to the Dean of Graduate Studies.

   • Appeals against decisions of the Dean may be made to the Appeals Committee, School of Graduate Studies. Letters of appeal should be directed to the Chair of the Appeals Committee, c/o School of Graduate Studies.

   • Appeals against decisions of the Executive Committee of the Academic Council may be made to the Appeals Committee, School of Graduate Studies. Letters of appeal should be directed to the Chair of the Appeals Committee, c/o School of Graduate Studies.

   • Appeals against decisions of the Appeals Committee, School of Graduate Studies, may be made to the Senate Committee on
3.6.3 Route for Questioning Grades

1. Appeals cannot be made on the basis of the grades awarded in individual courses. Dissatisfaction with grades is not sufficient grounds for an appeal.

2. Notwithstanding the above, and recognizing that the awarding of grades is an academic matter within the purview of experts in a discipline or subject area, a student who wishes to question the award of grades in individual courses is encouraged to consult with the following in the order given:
   - the course instructor
   - the Head of the appropriate academic unit
   - the Dean of the appropriate Faculty/School, Associate Vice-President (Academic) of the Grenfell Campus or Vice-President of the Marine Institute.

3.6.4 Appeals to the School of Graduate Studies

1. All appeals must be made in writing, clearly stating the basis for the appeal, and must be directed to the Dean or the Chair of the Appeals Committee of the School of Graduate Studies in accordance with Routes of Appeal of Academic Regulations.

2. In the Letter of Appeal, the student must clearly and fully provide:
   - name,
   - current address and telephone number,
   - Memorial University of Newfoundland e-mail address,
   - student ID number,
   - the decision being appealed,
   - the grounds for the appeal, and
   - the resolution being sought.

3. When providing grounds for the appeal, including health issues, bereavement and/or other acceptable cause, a student must present independent evidence to corroborate statements made in the Letter of Appeal. Preferably, this evidence will come from a professional, such as a health professional, a counsellor, or a professor. However, letters from other knowledgeable parties may be acceptable.

4. A student shall include with the letter of appeal any submissions the student wishes to make in support of the appeal.

5. In cases where an appeal is made on health issues, the student must provide an original certificate from a health professional in the form of a note or a letter. Such a certificate must be sufficiently specific to allow appropriate consideration of the student's case. The certificate must also clearly state that, in the opinion of the health professional, the problem was serious enough to have interfered with the student's work. Students should refer to the policy respecting Information Required for Certificates from Health Professionals for more complete information.

6. A student claiming bereavement as grounds must provide an obituary notice or death certificate, together with evidence of a close personal relationship between the student and the deceased.

7. Privacy and Confidentiality: The committees to which appeals are made do require substantial information about the reasons for the appeal in order to make their decisions. However, the committees also recognize each student's right to privacy and their obligations, under the Access to Information and Protection of Privacy Act, to safeguard students' personal information.

3.6.5 Appeals to the Senate Committee on Academic Appeals

1. Appeals shall be initiated by submitting a written Notice of Appeal, c/o The Office of the Registrar, containing the following:
   - name
   - current address and telephone number,
   - Memorial University of Newfoundland e-mail address,
   - student ID number,
   - a copy of the decision giving rise to the appeal,
   - supporting documentation,
   - a description of the matter under appeal,
   - the grounds of appeal, and
   - the resolution being sought.

2. The Notice of Appeal should include, in writing, relevant information in support of the appeal.

3. Except with the approval of the Executive Committee of Senate, notices of appeal shall be submitted no later than the last day of classes in the semester following the semester in which the decision under appeal was sent to the student.

4. In accordance with the principles of natural justice, students and academic units are entitled to make an oral presentation.

5. Appeals shall be heard either through written submissions only or through an oral hearing, as requested. No inferences will be drawn from the choice.
6. When appeal is heard by an oral presentation, a student may be accompanied by an advisor (see Appeal of Decisions, General Information, 4.). A student may participate in person, by way of teleconference, or by such other means approved in advance by the Committee; however, expenses incurred by the student are the responsibility of the student.

7. When providing the grounds for the appeal, including health issues, bereavement and/or other acceptable cause, a student must present independent evidence to corroborate statements made in the Notice of Appeal. Preferably, this evidence will come from a professional, such as a health professional, a counsellor, or a professor. However letters from other knowledgeable parties may be acceptable.

8. A student may include with the Notice of Appeal any submissions the student wishes to make in support of the appeal.

9. In cases where an appeal is made on health issues, the student must provide an original certificate from a health professional in the form of a note or a letter. Such a certificate must be sufficiently specific to allow appropriate consideration of the student's case. The certificate must also clearly state that, in the opinion of the health professional, the problem was serious enough to have interfered with the student's work. A student should refer to the policy respecting Information Required for Certificates from Health Professionals for more complete information.

10. A student claiming bereavement as grounds must provide an obituary notice or death certificate, together with evidence of a close personal relationship between the student and the deceased.

11. Privacy and Confidentiality: The committees to which appeals are made do require substantial information about the reasons for the appeal in order to make their decisions. However, the committees also recognize each student's right to privacy and their obligations, under the Access to Information and Protection of Privacy Act, to safeguard a student's personal information.

12. Decisions of the Senate Committee on Academic Appeals are final and within the University there is no further appeal.

3.6.6 Information Required for Certificates from Health Professionals

1. A student who requests permission to drop courses, to withdraw from University studies, to have examinations deferred or to obtain other waivers of University, departmental or course regulations based on health issues is required by the University to provide, in support of the request, a certificate from a health professional in the form of a note or letter. Such certificates must be sufficiently specific to allow a proper consideration of a student's case. The University requires that all such certificates must be on letterhead, must be signed by the health professional, must confirm the specific dates on which the student visited the health professional and should include details on the following:

- the degree to which the health issue (or treatment, in the case of medication, for example) is likely to have affected the student's ability to study, attend classes, sit examinations, or continue with research;
- the length of time over which the student's abilities were likely hampered by the condition (e.g., recurring and severe back pain over a two-month period would likely have a more adverse effect on studies than a single episode of back pain requiring bed rest for a week); and
- the fitness of the student to resume studies (it is in the student's best interest not to return to studies prematurely).

2. The University respects the privacy of students and will keep confidential all such certificates. A student should request that the health professional retain a copy of such a certificate in case the certificate needs to be verified or reissued at a later date.

3.7 Evaluation

Note: For interdisciplinary programs, the Head of the academic unit is the Dean or Director of the Faculty/School administering the program.

3.7.1 Evaluation Methods and Grading

1. Students shall write their examinations in graduate courses at a time to be determined by the Head of the academic unit on the recommendation of the Faculty member(s) concerned.

2. A written copy of the course outline, including method of evaluation in the course, shall be provided to each student in the course as early as possible, and in any case not later than two weeks after the start of the course.

3. The final evaluation submitted to the Registrar shall consist of one of the following letter grades with the appropriate numerical equivalent:

<table>
<thead>
<tr>
<th>Letter Grades</th>
<th>Numeric Grades</th>
<th>Points Per Credit Hour</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>80-100%</td>
<td>4</td>
</tr>
<tr>
<td>B</td>
<td>65-79%</td>
<td>3</td>
</tr>
<tr>
<td>C</td>
<td>55-64%</td>
<td>2</td>
</tr>
<tr>
<td>D</td>
<td>50-54%</td>
<td>1</td>
</tr>
<tr>
<td>F</td>
<td>below 50%</td>
<td>0</td>
</tr>
<tr>
<td>PWD (pass with distinction) - indicates excellent performance</td>
<td>no numeric grade</td>
<td>not applicable</td>
</tr>
<tr>
<td>PAS (pass) - indicates performance meets expectations</td>
<td>no numeric grade</td>
<td>not applicable</td>
</tr>
<tr>
<td>FAL (fail) - indicates failing performance</td>
<td>no numeric grade</td>
<td>not applicable</td>
</tr>
<tr>
<td>DR (drop) - drop without academic prejudice</td>
<td>no numeric grade</td>
<td>not applicable</td>
</tr>
<tr>
<td>DRF (drop fail) - drop with academic prejudice</td>
<td>0%</td>
<td>0</td>
</tr>
<tr>
<td>ABS (absent) - absent for acceptable cause</td>
<td>no numeric grade</td>
<td>not applicable</td>
</tr>
<tr>
<td>INC (incomplete) - incomplete pending final grade</td>
<td>no numeric grade</td>
<td>not applicable</td>
</tr>
</tbody>
</table>

4. Supplementary examinations are not permitted.

3.7.2 Evaluation of Graduate Students

1. Failure to attain a final passing grade of A or B in a program course shall lead to termination of a student's program unless:
   a. the regulations for a particular degree allow the student to repeat the course. Only one such repeat will be permitted in a
student's program. Failure to obtain a grade of A or B in the repeated course shall lead to termination of the student's program.

b. the Dean of Graduate Studies approves a repeat of the course, upon the recommendation of the Supervisor and the Supervisory Committee supported by the Head of the Academic Unit, where 1.a. above does not apply. Such recommendations must provide sufficient grounds for a repeat. Only one such repeat will be permitted in a student's program. Failure to obtain a grade of A or B in the repeated course shall lead to termination of the student's program.

Note: In exceptional circumstances, the Dean of Graduate Studies may approve a substitute course in place of the repeat upon the recommendation of the Supervisory Committee and Supervisor supported by the Head of the Academic Unit. Failure to obtain a grade of A or B in the substituted course shall lead to termination of the student's program.

2. Failure in a non-program course will not normally result in termination of a student's program.

3. The Supervisor and the Supervisory Committee may recommend that a candidate be required to withdraw from the program, if after consultation with the candidate, the candidate's non-course work is deemed to have fallen below a satisfactory level.

4. When Departmental requirements for a degree require an examination of a candidate's reading knowledge of a language(s) other than English, the examination shall be set and marked by the appropriate language Department, or by an authority as determined by the Head of the academic unit and Dean. The results of the examination will be transmitted to the candidate by the Dean.

3.7.3 Deferral of Examinations

1. Graduate students who are prevented by illness, bereavement or other acceptable cause, duly authenticated, from writing final examinations may apply, with supporting documents within one week of the original examination date to the appropriate Head of the academic unit to have their examinations deferred.

2. The Department's decision, including information on the appeals route open to the student in the case of a negative decision, must be communicated in writing to the student and to the Dean of Graduate Studies within one week of the receipt of the student's complete application.

3. In those cases where the Department accepts the extenuating circumstances the student may be permitted to write a deferred examination, with the consent of both the Department and the student, the grade submitted may be based on term work alone.

4. An interim grade of 'ABS' will be assigned by the academic unit in the case of a student granted a deferred examination. This grade will be replaced by the final grade which must be received by the Office of the Registrar within one week following the commencement of classes in the next academic semester or session.

5. Students who are prevented by illness or bereavement or other acceptable cause, duly authenticated, from writing a deferred examination, may apply, in writing, with supporting documents within one week of the scheduled date of the deferred examination to the appropriate Department Head to have the examination postponed to a time not later than the last date for examinations in the semester following that in which the student was enrolled in the course.

6. The Department's decision, including information on the appeals route open to the student in the case of a negative decision, must be communicated to the Registrar, to the student and to the Dean of Graduate Studies within one week of the receipt of the student's complete application.

3.7.4 Incomplete Grades/Change of Grade

1. For good cause a grade of 'Incomplete' may, with the approval of the appropriate Department or academic unit, be submitted. This 'Incomplete' grade shall, however, be valid only for one week following the commencement of classes in the next academic session as stated in the University Diary. In the event that a mark has not been received by the Registrar within the prescribed deadline, the 'Incomplete' grade shall be changed to 'O F'.

2. Clause 1. notwithstanding, for acceptable cause including an extension of time not exceeding the end of the semester following that in which the 'Incomplete' was given may be permitted by the Head of the academic unit. "Acceptable cause" in these cases must be duly authenticated and will be illness, bereavement, serious problems of a personal nature or the like.

3. Changes in grades for graduate courses must be submitted on the appropriate form, which must be signed by the course instructor and approved by the Head of the appropriate academic unit who will submit such changes to the Registrar.

Note: A grade of less than 65% cannot be changed without the approval of the Dean of Graduate Studies.

3.7.5 Re-Reading of Examination Papers

1. Students may apply to have a final examination paper re-read whether or not they have obtained a passing grade in that course.

2. Students who wish to have a final examination paper re-read must make written application to the Registrar enclosing a fee of $50.00 per paper within one month of the release by the University of the grade reports. If the mark is raised after re-reading, the fee is refunded. If the mark is unchanged or lowered, the fee is forfeited.

3.8 Comprehensive Examinations

3.8.1 Master's Comprehensive Examination

1. The composition of the Comprehensive Examination Committee is specified in the Degree and Departmental regulations, and the Committee is appointed by the Dean. The Dean of Graduate Studies or delegate may exercise the right to attend. All members of the Committee including the Chairperson, but excluding the Dean of Graduate Studies, shall be voting members.

2. In this examination the candidates must demonstrate an advanced knowledge of the academic discipline as defined by the academic unit in which they are students. Therefore, in order to be eligible to sit the examination, all course requirements must be completed.

3. Members of the Comprehensive Examination Committee shall decide the results of the comprehensive examination as indicated in a.-d. below:

a. The category of 'pass with distinction' will be awarded to candidates who demonstrate superior knowledge of their chosen field. This category requires unanimous support of the Comprehensive Examination Committee.

b. The category of 'pass' will be awarded to candidates who demonstrate an acceptable knowledge of their chosen area and requires a simple majority vote.

c. The category of 're-examination' selects those candidates with an understanding of their research area that lacks sufficient depth and scope as indicated by a simple majority of the Comprehensive Examination Committee. Only one such re-examination is possible and students in this category are not eligible for the award of 'pass with distinction'. If a re-examination is to be held, it must be conducted not less than one month and not more than six months after the first examination. The decision of the voting members of the Committee following this re-examination can only be 'pass' or 'fail' decided by simple majority. Failure will lead to
1. At least annually, the Supervisor, Supervisory Committee or the Department shall make evaluations of a student's progress in a program. Recommendations concerning continuation, amendment, or termination (see Termination of a Graduate Program) of a program. Recommendations concerning continuation, amendment, or termination of a student's program. There is no option for further re-examination.

d. Students awarded a 'fail' are deemed, by unanimous vote of the Comprehensive Examination Committee, to be unable to demonstrate an adequate understanding of their research area. The candidate's program is terminated. A simple majority vote will default to the award of 're-examination'.

4. The Chairperson of the Comprehensive Examination Committee shall report to the Head of the academic unit who shall report to the Dean. The result of the comprehensive examination(s) shall be reported to the candidate by the Dean.

3.8.2 Ph.D. and Psy.D. Comprehensive Examination

1. The candidate shall submit to a comprehensive examination, which may be written or oral or both as determined by the academic unit. Candidates shall normally take the examination no later than the end of the seventh semester in the doctoral program. Unless an extension is approved by the Dean of Graduate Studies, failure to take the examination at this time will result in the termination of the candidate's program.

2. This examination, whether written or oral, shall be conducted by a Committee appointed by the Dean of Graduate Studies on the recommendation of the academic unit. It shall consist of the Head of the academic unit (or delegate) who shall be the Chairperson, the candidate's Supervisor [or, where a Supervisor has not yet been appointed, the Graduate Officer or Chair of the Graduate Studies (or equivalent) Committee], the Dean of Graduate Studies (or delegate), and at least three other members, the total voting members to be an odd number. All members of the Committee including the Chairperson, but excluding the Dean of Graduate Studies, shall be voting members.

3. In this examination, the candidate must demonstrate a mastery of those sub-disciplines appropriate to his/her research area, as defined by the academic unit in which he or she is a student. Those sub-disciplines upon which the candidate will be examined should be made known to the candidate no later than three months prior to the examination. The candidate must further be able to relate the specialization of his/her research to the larger context of these sub-disciplines.

4. Members of the Comprehensive Examination Committee shall decide the results of the comprehensive examination as indicated in a.-d. below:

a. The category of 'pass with distinction' will be awarded to candidates who demonstrate superior knowledge of their chosen field. This category requires unanimous support of the Comprehensive Examination Committee.

b. The category of 'pass' will be awarded to candidates who demonstrate an acceptable knowledge of their chosen area and requires a simple majority vote.

c. The category of 're-examination' selects those candidates with an understanding of their research area that lacks sufficient depth and scope as indicated by a simple majority of the Comprehensive Examination Committee. Only one such re-examination is possible and students in this category are not eligible for the award of 'pass with distinction'. If a re-examination is to be held, it must be conducted not less than one month and not more than six months after the first examination. The decision of the voting members of the Committee following this re-examination can only be 'pass' or 'fail' decided by simple majority. Failure will lead to immediate termination of the candidate's program. There is no option for further re-examination.

d. Students awarded a 'fail' are deemed, by unanimous vote of the Comprehensive Examination Committee, to be unable to demonstrate an adequate understanding of their research area. The candidate's program is terminated. A simple majority vote will default to the award of 're-examination'.

5. The Chairperson of the Comprehensive Examination Committee shall report to the Head of the academic unit who shall report to the Dean. The result of the comprehensive examination(s) shall be reported to the candidate by the Dean.

3.9 Supervision

3.9.1 Master's Candidates

Each Master's candidate shall be assigned a Supervisor by the Dean, on the recommendation of the Head of the academic unit, or the Dean of the faculty concerned.

3.9.2 Ph.D. and Psy.D. Candidates

1. Each candidate shall be assigned a Supervisor by the Dean, on the recommendation of the Head of the academic unit or the Dean of the faculty concerned.

2. A Supervisory Committee shall be appointed for each candidate by the Dean. The Supervisory Committee shall consist of the Supervisor (co-supervisors) who shall act as Chair, and normally at least two other members. In no circumstances may the Committee membership be fewer than two members. The membership of the Committee shall be nominated, after consultation with the Supervisor and the candidate.

3. The Supervisory Committee shall forward its reports and recommendations to the Dean via the Head of the Department or the Dean of the faculty concerned.

4. The functions of the Supervisory Committee shall be, inter alia,

a. to decide, in consultation with candidates, the program of study, the subject of research, and the title of the thesis, and to recommend these for approval to the Dean;

b. to monitor the candidate's progress in their course programs and their research;

c. to report at least annually to the Dean on the candidates' progress and, at the same time, to advise on their continuation in the program; and to make such other reports and recommendations about the candidates to the Dean as it may deem necessary.

d. to recommend to the Dean, after consultation with the candidates, necessary changes in the program of study, the subject of research, or the title of the thesis;

e. to recommend to the Head of the academic unit or Dean of the faculty the timing of the comprehensive examination;

f. to report to the Dean that the thesis is ready for examination by completing a Supervisor Approval Form, which is to accompany the thesis upon its submission to the School of Graduate Studies; and

g. to recommend to the Dean suitable persons to act as members of the Thesis Examining Board.

3.9.3 Supervisory Reports

1. At least annually, the Supervisor, Supervisory Committee or the Department shall make evaluations of a student's progress in a program. Recommendations concerning continuation, amendment, or termination (see Termination of a Graduate Program) of a program. Recommendations concerning continuation, amendment, or termination of a student's program. There is no option for further re-examination.

d. Students awarded a 'fail' are deemed, by unanimous vote of the Comprehensive Examination Committee, to be unable to demonstrate an adequate understanding of their research area. The candidate's program is terminated. A simple majority vote will default to the award of 're-examination'.

The Chairperson of the Comprehensive Examination Committee shall report to the Head of the academic unit who shall report to the Dean. The result of the comprehensive examination(s) shall be reported to the candidate by the Dean.
candidate’s program, are sent to the Dean, who shall take appropriate action. Students shall be advised of the contents of this evaluation and the subsequent recommendation(s).

2. The Supervisor, Supervisory Committee or the Department, shall forward its reports and recommendations to the Dean via the Head of the academic unit or the Dean of the faculty concerned.

3.10 Theses and Reports

3.10.1 Thesis/Report Guide Supplement

The Thesis/Report Guide Supplement (www.mun.ca/sgs/go/guid_policies/guidelines_intro.php), approved by the Academic Council of the School of Graduate Studies, provides the details for the examination process, general form and style of the thesis/report, required forms, number of copies, etc., required under this regulation.

3.10.2 Submission

1. Candidates must submit the thesis/report at least four months before the University Convocation at which the award of the Degree is expected (see University Diary in current edition of University Calendar for exact date). The School of Graduate Studies does not accept any responsibility for completing the prescribed procedure in time for the nearest Convocation unless theses or reports are submitted by the prescribed dates in any current academic year.

2. A thesis/report may not be submitted until the candidate has fulfilled:
   a. All course requirements, if any
   b. All language requirements, if any
   c. The comprehensive examination, if required, and
   d. All other academic requirements of the academic unit concerned.

3.10.3 Evaluation of Master’s Theses and Reports

1. Final examiners for the thesis/report will be appointed by the Dean on the recommendation of the academic unit. There will be two examiners for a Master’s thesis. Examiners shall normally be those who have completed a graduate degree at the doctoral level, including a thesis, in the discipline or cognate area. Those serving as examiners shall not have been involved in the preparation of the thesis/report.

2. Examination of the thesis/report will result in one of the following recommendations by each examiner. The thesis/report is:
   a. acceptable without modifications; or
   b. acceptable, modifications are required but the thesis does not have to be re-examined**; or
   c. unacceptable, the thesis/report requires modification and re-examination***; or
   d. totally unacceptable, the thesis/report is failed.***

*Modifications may include corrections of typographical errors and errors in nomenclature, improvement in phrasing, or rewriting of sections of the thesis/report. Modifications may be indicated in the text or listed separately.

**Modifications might include (but are not limited to) the rectification of one or more of the following deficiencies: (1) misinterpretation and/or misuse of the matter covered, omission of relevant materials, unfounded conclusions, illogicality of argument, improper analysis of data and the like, (2) bad writing, (3) unacceptable physical presentation. A detailed list of problems should be included with the report;

***A detailed list of the reason(s) for failure must be included in the report.

3. If all examiners recommend that the thesis/report is totally unacceptable, then the thesis will be failed, and shall not be re-examined.

4. If an examiner recommends that the thesis/report is unacceptable, and this recommendation is accepted by the Dean, then the following recommendations may be made by the Dean:
   a. to submit a modified thesis/report to the original examiners.
   b. to submit a modified thesis/report to new examiners.
   c. to submit the original thesis/report to an Examination Board to be appointed by the Dean.

5. If a thesis/report is re-examined, the candidate will not be awarded a pass unless all examiners find the thesis acceptable.

6. Under no circumstances may a thesis/report be re-examined more than once.

3.10.4 Evaluation of Ph.D. and Psy.D. Theses

Candidates for the Degree of Doctor of Philosophy and the Degree of Doctor of Psychology must submit a written dissertation deemed acceptable by the University, and demonstrate their ability to defend their work in a public oral examination. For this reason, the final decision on whether a candidate will be recommended for the award of the degree is made only at the conclusion of the oral examination (see The Examination Process).

1. Responsibilities of the Thesis Examining Board

The work of each candidate will be assessed by a Thesis Examining Board. Its first responsibility is to determine whether the thesis successfully demonstrates the candidate’s competence to undertake independent research work. The Board must be satisfied that the work contributes significantly to knowledge in the field of study; that the contribution is of high scholarly merit; that the candidate successfully demonstrates the candidate’s competence to undertake independent research work. The Board must be satisfied that the work contributes significantly to knowledge in the field of study; that the contribution is of high scholarly merit; that the candidate

2. Composition of the Thesis Examining Board

The members of the Thesis Examining Board will be appointed by the Dean on the recommendation of the Head of the academic unit who will have consulted with the supervisory committee. The Board shall consist of four members. Normally these will be the candidate’s Supervisor (who serves on the Board in a non-voting capacity), two examiners from within the University, and one from outside the University. However, when circumstances warrant, a second external examiner may be substituted for one of the internal examiners with permission of the Dean. Examiners shall normally be those who have completed a graduate degree at the doctoral level, including a thesis, in the discipline or cognate area. Members of the supervisory committee other than the Supervisor are ineligible for appointment to the Board. Those serving as examiners shall not have been involved in the preparation of the thesis/report.
3. The Examination Process

a. The voting members of the Board shall submit written reports on the thesis containing an assessment of the quality of the written work and a recommendation as to whether the candidate should be permitted to proceed to an oral examination and defence of the work. An examiner may recommend:
   i. that the candidate be allowed to proceed to the oral defence of the thesis*, or
   ii. that the candidate not be allowed to proceed to the oral defence at this time**; or
   iii. that the candidate should be failed.

*Any suggested corrections or revisions should be outlined in the examiner's report. It is understood that it will be the responsibility of the Supervisory Committee to discuss the suggested changes with the candidate, to determine which should be incorporated in the thesis before its final submission.

**This recommendation reflects the examiner's opinion that further research, re-analysis of data, or thorough rewriting of the material is required. The thesis may, however, be re-submitted for examination.

b. If all examiners recommend that the candidate should be failed, then the thesis shall not be re-examined.

c. If an examiner recommends that the candidate not be allowed to proceed to the oral defence, and this recommendation is accepted by the Dean, then the student may apply to the Dean for permission to resubmit the thesis for re-examination in one of the following ways:
   i. To submit a modified thesis to the original examiners,
   ii. To submit a modified thesis to new examiners,
   iii. To submit the original thesis to an Examination Board to be appointed by the Dean.

d. No candidate will be permitted to re-submit a thesis more than once. In case of a re-submitted thesis an examiner may recommend only:
   i. that the candidate be allowed to proceed to the oral defence of the thesis; or
   ii. that the candidate should be failed.

e. After receiving the reports from all three voting members of the Board the Dean will consider the recommendations and determine whether an oral defence of the thesis will be scheduled.

f. The Final Oral Examination and Defence of Thesis will take place at a time and place to be determined by the Dean of Graduate Studies and will be chaired by the Dean or his/her delegate. The presence of all members of the Examining Board is normally required.

g. Following the defence, the Board will meet in camera to render a final assessment of the thesis and the candidate's ability to defend his/her work. The Board may recommend one of the following outcomes:
   i. Passed with distinction (Awarded to candidates who demonstrate superior knowledge of their chosen field; this category requires unanimous support of the Board. A simple majority vote will result in a recommendation of 'passed'.)
   ii. Passed
   iii. Passed Subject to Conditions
   iv. Re-examination required
   v. Failed

*This recommendation may have attached to it the requirement that the candidate complete certain specified revisions to the satisfaction of the Supervisory Committee, the Head of the academic unit and the Dean. These revisions must have been specified in the written appraisal submitted prior to the Oral Examination.

**This recommendation is made if there are revisions beyond those specified in the written appraisal submitted prior to the Oral Examination. This recommendation must have the conditions attached and cannot include the option of re-examination.

***The members of the Thesis Examination Board may attach to this recommendation a list of any requirements which they feel are appropriate.

****Re-examination not permitted.

h. If the members of the Board are unanimous in their recommendation, the Chair of the Examination may accept this recommendation and inform the candidate of the decision. In any other case, however, the delivering of any final decision shall be deferred pending further consultation within the School of Graduate Studies.

   i. No candidate shall be permitted more than two Oral Examinations.

3.10.5 Time Limit for Revision

The final version of Master's, Ph.D., and Psy.D. theses/reports found acceptable with or without corrections shall be submitted to the School of Graduate Studies within 6 months of the date on which the thesis/report and the student's examiners' reports are returned to the student's academic unit. If a corrected thesis/report is not submitted within 6 months the student is considered to have withdrawn from the program. After this time, the student must apply to be readmitted.

Master's, Ph.D., and Psy.D. theses/reports requiring re-examination shall be resubmitted to the School of Graduate Studies within 12 months of the date on which the thesis/report and the examiner's reports are returned to the student. Students requiring resubmission and re-examination of theses/reports must maintain their registration during this period. Failure to resubmit the revised thesis/report within 12 months will result in termination of the student's program.

Note: Please refer to Registration for regulations governing program registration.

3.10.6 Prepublication

Publication of material before submission of the thesis/report for examination is permitted. The School of Graduate Studies and Supervisor should be informed of such publication.

3.11 Graduation Procedure

Candidates expecting to graduate at any particular Convocation must apply on-line on the prescribed "Application for Graduation" form to the Office of the Registrar at least by the time of the submission of the Thesis, Project Report or Internship Report required by their program, or, if applicable, by the date of the final comprehensive examination. This form may be obtained on-line at the Memorial Self Service at www3.mun.ca/admit/twbkwbis.P_WWWLogin. Additional information is available from the Office of the Registrar at
3.12 Academic Misconduct

3.12.1 Principles
In the course of a graduate degree program a student is expected to adhere to those principles which constitute proper academic conduct. Within the University Community there is a collective responsibility to maintain a high level of scholarly integrity. Dishonesty has no place in the academic community. Academic misconduct cannot be condoned or even appear to be condoned. A student has the responsibility to ascertain those actions which could be construed as dishonest or improper. Certain flagrant violations are listed below under Academic Offences. A student is reminded that for guidance on proper scholarly behaviour he/she should seek assistance from his/her instructors and supervisors. The Graduate Students’ Union will provide a student with information on his/her legal rights and the information that advice about acceptable writing standards is available through the Writing Centre.

3.12.2 General Information
1. These procedures shall apply to all academic offences relating to graduate studies involving, but not limited to, those students who either have been or who are enrolled at Memorial University of Newfoundland. Notification of an allegation of academic misconduct will be forwarded to the last known mailing address of the student as noted on the files at the Office of the Registrar, and to the official University email address of the student. The University reserves the right to implement action under these procedures where an allegation has been made against a student but where reasonable efforts to contact the student are unsuccessful.
2. Meetings and interviews stipulated in this regulation will be held in person, or at a distance using telephone or other interactive technologies.
3. A student who wishes to pursue research, or to attend classes, laboratories or other educational activities while an investigation under these procedures is being carried out, can normally do so with the understanding that if the allegation of academic misconduct is proven and the penalty involves either suspension or expulsion, credit will not be granted for work completed prior to a finding of guilt. This provision excludes a student charged with an offence under the Code of Student Conduct. For information regarding the Code of Student Conduct contact the Office of Student Affairs and Services.
4. Although a student can continue in a program of studies, if eligible, while an investigation under these procedures is being carried out, the University does not accept liability for any consequences to the student's progress. However, the University may take these consequences into account, as appropriate and to the extent feasible, in cases where charges are dropped or the student is not found guilty. The consequences arising from an investigation and any negative decision rendered may include retroactive effects on grades, examination results or promotion within a program.
5. A student accused of academic misconduct may consult advisors or facilitators. Such advisors may include a representative from the Graduate Students’ Union, an international student advisor, a faculty advisor, a University counselor or a faculty member who is familiar with these Regulations and who is willing to undertake the role of advisor whether resolution is sought through Procedures for Resolution of Alleged Academic Offences at the Unit Level or Procedures for Resolution of Alleged Academic Offences by the School of Graduate Studies.

3.12.3 General Procedure
1. When a member of the University community (faculty, staff, student) has grounds for belief that an academic offence has been committed there should be an attempt between the parties concerned to resolve allegations of minor offences. If the alleged offence is not deemed to be minor by the accuser, or resolution proves impossible, or one party is dissatisfied with the resolution, the matter shall be reported, without delay, to the head (or other appropriate officer) of the academic or administrative unit. If resolution is achieved and it is agreed that an academic offence has been committed, then the offence, together with the penalty applied, shall be reported to the head of the academic or administrative unit.
2. Where resolution is not achieved, and if in the judgment of the head of the academic or administrative unit, the alleged offence warrants resolution at the unit level, the individuals involved will be advised to attempt to resolve the matter through Procedures for Resolution of Alleged Academic Offences at the Unit Level. In the event that no resolution is possible through these procedures between the individual parties, the head of the academic or administrative unit will institute proceedings through the School of Graduate Studies.
3. If, in the judgment of the head of the academic or administrative unit, the alleged offence against University regulations is such as to warrant resolution through the School of Graduate Studies, the head of the academic or administrative unit will refer the matter to the Dean, and Procedures for Resolution of Alleged Academic Offences by the School of Graduate Studies will be implemented.
4. Cases involving alleged offences on comprehensive examinations, examination of theses, allegations of impersonation or allegations of submission of forged documents will be governed by the Procedures for Resolution of Alleged Academic Offences by the School of Graduate Studies. Such cases may be initiated by the head of the academic or administrative unit, or by the School of Graduate Studies.
5. In all cases, it is the responsibility of the academic or administrative unit to ensure that fairness and impartiality are achieved in the treatment of students.
6. Where an allegation of academic misconduct relates to research and the Tri-Agency Framework: Responsible Conduct of Research, as amended from time to time, (the Framework) applies, these procedures shall be applied in a manner consistent with the minimal requirements of the Framework.

3.12.4 Academic Offences
In the following section the plural shall be deemed to include the singular. Academic offences shall be deemed to include, but shall not be limited to, the following:
1. Cheating: This includes copying from another student's work or allowing another student to copy from one's own work; consulting with any unauthorized person during an examination or test, or using unauthorized aids; or knowingly recording or reporting false empirical or statistical data. The work referred to includes presentations, examinations, theses, assignments, work term reports, projects, laboratory assignments, laboratory reports, internship reports, or any other tests or evaluations which are to be used in judging the student's performance in a course or program of study, or any special tests which the University may offer; or in any presentations or publications related to academic work.
2. Impersonation: Impersonating another student or allowing oneself to be impersonated. By impersonation is meant the imitation of a student or entrance into an arrangement with another person to be impersonated for purposes of taking examinations or tests or carrying out laboratory or other assignments.
3. **Plagiarism:** Plagiarism is the act of presenting the ideas or works of another as one's own. This applies to all material such as theses, essays, laboratory assignments, laboratory reports, work term reports, design projects, seminar presentations, statistical data, computer programs, and research results. The properly acknowledged use of sources is an accepted and important part of scholarship. Use of such material without acknowledgment, however, is contrary to accepted norms of academic behavior. Information regarding acceptable writing practices is available through the Writing Centre at www.mun.ca/writingcentre/about/.

4. **Theft of examination papers or other material:** By theft is meant obtaining by improper means examination papers, tests, or any other such material.

5. **Use and/or distribution of stolen material:** The use of material which the student knows to have been improperly obtained and/or the distribution of such material is considered to be an academic offense.

6. **Submitting false information:** This offense includes falsifying, submitting or causing to submit false academic transcripts, forms or records, credentials, medical or other certificates, or making a false or incomplete declaration to the University.

7. **Submitting work for one course, project or publication which has been or is being submitted to another course, project or publication without express permission to do so:** This includes the presentation of an essay, report, or assignment to satisfy some or all of the requirements of a course when that essay, report, or assignment has been previously submitted or is concurrently being submitted for another course without the express permission of the professor(s) involved.

8. **Ethical Practice:** Failure to follow relevant University/Faculty/School guidelines on ethics, including but not limited to, ethical practice in research.

9. **Failure to follow the Memorial University of Newfoundland Code.**

### 3.12.5 Procedures for Resolution of Alleged Academic Offences at the Unit Level

#### 3.12.5.1 General Information

These procedures will not be applied to cases involving alleged offences on comprehensive examinations, examination of theses, allegations of impersonation or allegations of submission of forged documents. Such alleged offences are governed by the Procedures for Resolution of Alleged Academic Offences by the School of Graduate Studies.

The principle that a resolution should be mutually satisfactory to both the accuser and the accused should be upheld throughout the attempt for resolution at the unit level.

#### 3.12.5.2 Explanation of Procedures

If, upon receiving a report of an alleged academic offence, the head of the academic or administrative unit decides that an attempt should be made to resolve that matter at the unit level the following procedures shall apply:

1. Normally within one week of notification, the head of the academic or administrative unit shall request a meeting with the accuser and the accused and at the meeting the head of the academic or administrative unit shall state the allegation, review the Procedures for Resolution of Alleged Academic Offences at the Unit Level including the range of applicable penalties, and arrange a second meeting between the accuser and the accused only.

2. At the second meeting the accuser and accused shall endeavour to obtain a mutually satisfactory resolution of the matter.

3. The accuser and accused shall report jointly to the head of the academic or administrative unit on the result of their second meeting.

4. If the report is of a resolution which the head of the academic or administrative unit considers to be fair and equitable the matter shall be considered closed. If the head of the academic or administrative unit considers the reported resolution to be unfair and/or inequitable he or she will endeavour to obtain an alternative satisfactory resolution directly with the parties.

5. Should all reasonable efforts to obtain a mutually satisfactory resolution at the unit level fail, the head of the academic or administrative unit will refer the case to the Dean of the School of Graduate Studies and shall inform the accuser and the accused accordingly. From this stage onward by the Procedures for Resolution of Alleged Academic Offences by the School of Graduate Studies will apply.

6. At any stage of the Procedures for Resolution of Alleged Academic Offences at the Unit Level, the student or the accuser may ask that the case be referred to the Dean, and thereafter the Procedures for Resolution of Alleged Academic Offences by the School of Graduate Studies will apply.

7. Should the accused be found guilty, a brief description of the offence and the penalty(ies) applied shall be forwarded by the head of the academic or administrative unit to the School of Graduate Studies.

#### 3.12.5.3 Failure to Appear or Respond

1. If at any stage of the Procedures for Resolution of Alleged Academic Offences at the Unit Level, the accused fails to respond to a charge, without reasonable cause, within two weeks of notification of an allegation, action may be taken on the charge in the absence of the accused.

2. If at any stage of the Procedures for Resolution of Alleged Academic Offences at the Unit Level, the accuser fails to appear at a scheduled meeting to defend an allegation, without reasonable cause, the action will be dismissed.

#### 3.12.5.4 Penalties in the Case of Resolution at the Unit Level

A student who has been found guilty of an academic offence will be subject to a penalty or penalties commensurate with the offence. Some cases may warrant more than one penalty for the same offence, and previous academic misconduct will be taken into account in determining the severity of penalties. The range of penalties and their determination is:

1. **Resubmission** of work with appropriate reduction in grade: will allow a student to complete and submit the work a second time.

2. **Reprimand:** This shall be in the nature of a warning in writing by the head of the academic or administrative unit to the student that his/her conduct has been unacceptable to the University.

3. **Reduction of grade:** A reduction of grade will apply to an examination, test, or assignment to which an offence is relevant, or to the entire course, and will be decided by the head of the academic or administrative unit. Since graduate students must obtain a grade of B or PASS in required courses a reduction of grade could lead to termination of program.
3.12.6 Procedures for Resolution of Alleged Academic Offences by the School of Graduate Studies

3.12.6.1 General Procedure

If the matter cannot be resolved following the Procedures for Resolution of Alleged Academic Offences at the Unit Level, or if, in the opinion of the head of the academic or administrative unit, the allegation involves a major breach of University regulations, or in cases involving alleged offences on comprehensive examinations, thesis examinations, allegations of impersonation or allegations of submission of forged or falsified documents, the following Procedures for Resolution of Alleged Academic Offences by the School of Graduate Studies shall apply.

3.12.6.2 Explanation of Procedures

1. If the head of the academic or administrative unit (in consultation with the Dean of his or her faculty or school) is satisfied that the student has a serious case to answer, that person shall inform the student in writing of the nature of the case against him or her. In addition, the head of the academic or administrative unit shall report to the Dean of Graduate Studies who will, normally within one week, appoint as an investigator a member of the Academic Misconduct Investigations Board of the School of Graduate Studies (Investigations Board). The investigator will interview separately the accuser, accused and relevant witnesses. At these interviews, the investigator, the accuser, the accused, and relevant witnesses all have the right to be accompanied by a registered student or a member of the Faculty or Staff of the University.

2. Upon completion of these interviews, the investigator shall submit a written report of all findings to the Dean of Graduate Studies. The Dean of Graduate Studies shall present this report to both the accuser and accused for personal and comment. Once in receipt of this report, the accuser and accused shall have two weeks in which to submit to the Dean of Graduate Studies any additional comments on the report that the person wishes to be considered. The investigator will be given the opportunity to correct any errors of fact should they arise from the comments of the accused and accuser prior to consideration of the allegation by the Investigations Board.

3. Upon receipt of all information from the investigator as well as comments from the accuser and accused, the Dean of Graduate Studies shall present the documents to the Chair of the Investigations Board.

4. The report shall be reviewed by a panel of five members of the Investigations Board for a decision.

5. Once a vote is taken, should the accused be found guilty, the Investigations Board shall take appropriate action in accordance with Penalties in the Case of Resolution by the School of Graduate Studies.

3.12.6.3 Failure to Appear or Respond

1. If at any stage of the Procedures for Resolution of Alleged Academic Offences by the School of Graduate Studies, the accused fails to respond to a charge, without reasonable cause, within two weeks of notification of an allegation, action may be taken on the charge in the absence of the accused.

2. If at any stage of the Procedures for Resolution of Alleged Academic Offences by the School of Graduate Studies, the accused fails to appear at a scheduled interview to defend an allegation, without reasonable cause, the action will normally be dismissed; however, the investigation may proceed at the discretion of the Dean in consultation with the Investigations Board if the allegation or evidence warrants such action.

3.12.6.4 Penalties in the Case of Resolution by the School of Graduate Studies

A student who has been found guilty of an academic offence will be subject to a penalty or penalties commensurate with the offence. Enforcement of penalties resulting from Procedures for Resolution of Alleged Academic Offences by the School of Graduate Studies will be overseen by the Registrar. Some cases may warrant more than one penalty for the same offence, and previous academic misconduct will be taken into account in determining penalties. Penalties shall be imposed on the basis of the student's status at the time of the offence. The range of penalties and their determination is:

1. Reprimand: This shall be in the nature of a warning in writing by the Investigations Board to the student that his/her conduct has been unacceptable to the University.

2. Reduction of Grade: A reduction of grade will apply to an examination, test, or assignment to which an offence is relevant, or to the entire course, and will be decided by the Investigations Board. Since a passing grade for graduate students is at least a grade of B or Pass, a reduction of grade could lead to termination of program.

3. Change in Outcome of an Examination: This will apply to Comprehensive Examinations and the examination of Theses and Reports and could lead to termination of program.

4. Probation: This is a trial period the length of which will be determined by the Investigations Board. The Investigations Board will inform the student that the finding of any further academic offence during the period of probation may lead to suspension or expulsion.

5. Suspension: Suspension will apply to a course, department, faculty, school, or the University. The period of suspension will be determined by the Investigations Board and shall not exceed three consecutive semesters, and shall be part of the allowable time for a graduate program.

6. Expulsion: The recommendation for expulsion from the University will be made by the Investigations Board to the President for his/her final decision. Prior to the President's decision, the Investigations Board will notify the accused, in writing, of the recommendation for expulsion from the University. The accused will be allowed a period of two weeks following the date of release of such notification to lodge an appeal before the President's final decision concerning expulsion from the University. Any such appeal should be made in writing by email to the Senate Committee on Academic Appeals, c/o the Office of the Registrar.

7. Rescinding of Degree: The recommendation for rescinding of a degree previously awarded by the University will be made by the Investigations Board of the School of Graduate Studies to Senate for a final decision. Prior to Senate's decision, the Investigations Board of the School of Graduate Studies will notify the accused, in writing, of the recommendation for rescinding of the degree. The accused will be allowed a period of two weeks following the date of release of such notification to lodge an appeal before the Senate's final decision concerning the rescinding of the degree. Any such appeal should be made in writing to the Senate Committee on Academic Appeals, c/o the Office of the Registrar.
3.12.7 Transcript Entries Related to Penalties
Transcript entries shall relate to the penalty(ies) imposed as follows:

<table>
<thead>
<tr>
<th>Penalty</th>
<th>Transcript Entry</th>
</tr>
</thead>
<tbody>
<tr>
<td>Reprimand</td>
<td>No transcript entry</td>
</tr>
<tr>
<td>Reduction of Grade</td>
<td>Entry of final grade for course</td>

</table>

* The transcript entries for ‘probation’ or ‘suspension’ will be removed entirely upon the expiration of the penalty.

3.12.8 Disposition of Documentation
The disposition of documents relating to allegations under these procedures shall be as follows:
1. The cases where the allegation was either found “not proven” or “unfounded” no documentation shall be retained in the student files.
2. In the case of a resolution effected through Academic Misconduct - General Procedure or Procedures for Resolution of Alleged Academic Offences at the Unit Level, a brief description of the offence and the penalty(ies) applied shall be forwarded by the head of the academic or administrative unit to and retained by the School of Graduate Studies, separate from the student files.
3. In the case of a resolution effected through the Procedures for Resolution of Alleged Academic Offences by the School of Graduate Studies, all documentation shall be retained in the School of Graduate Studies, separate from the student files.

3.12.9 Right of Appeal
Appeals against decisions of the Investigations Board of the School of Graduate Studies made under Procedures for Resolution of Alleged Academic Offences by the School of Graduate Studies shall be directed to the Senate Committee on Academic Appeals, c/o the Office of the Registrar.

3.13 Termination of a Graduate Program
Grounds for termination of a graduate program are as follows:
1. a. Failure to comply with the conditions of admission into a program, unless the conditions of admission have been changed with approval of the academic unit and the School of Graduate Studies;
   b. Failure to register in any semester by the final date for adding courses (see Registration, Program Registration 1);
   c. Failure to obtain the required grades in courses as stated in the appropriate degree regulations (see Evaluation);
   d. Failure in comprehensive examinations (see Comprehensive Examinations);
   e. Demonstrated lack of progress in a program supported by written documentation;
   f. Recommendation of the Supervisory Committee (see Supervision);
   g. Failure of Thesis, Project or Internship (see Theses and Reports);
   h. Academic misconduct as outlined under General Regulations, Academic Behaviour governing the School of Graduate Studies.
2. The foregoing notwithstanding the University reserves the right to require students to discontinue their program or to deny them admission where, in the opinion of the Academic Council of the School of Graduate Studies, following appropriate professional consultation, there is a reasonable likelihood that a student’s health or conduct could result in endangering the lives, health or safety of others on campus or in settings related to the student’s university studies.
3. The foregoing notwithstanding, the School of Graduate Studies reserves the right to require students to discontinue their studies, or to deny them re-admission, where a student has been determined to have engaged in unprofessional conduct. The code of ethics of each profession will serve as the guideline as to what constitutes unprofessional conduct. However, should there not be any statements of what constitutes unprofessional conduct, the following standard will apply:
   Unprofessional Conduct: That conduct which involves a breach of the duties required by professional ethics.

Notes:
1. If the University or a School or Faculty requires a student to discontinue his/her studies under any of the above clauses, that student must be advised in writing of the nature of the case against him/her and must be advised of the right to appeal before the penalty imposed takes effect.
2. Appeals against actions taken under Clause 2. should be directed to the Senate of the University. Any such appeal should be made in writing clearly stating the basis for the appeal and should be directed to the Secretary of Senate, c/o the Office of the Registrar.
3. Appeals against actions taken under Clause 3. should be directed to the Appeals Committee, School of Graduate Studies.

3.14 Provision for Reapplication
1. A student whose program of studies has been terminated for any of the reasons outlined under Termination of a Graduate Program may apply for admission to a new program of studies leading to the same degree.
2. Notwithstanding the above, a student whose program of studies has been terminated under Termination of a Graduate Program, 1.b., shall be readmitted to the existing program only under the following conditions:
   a. on the recommendation of the appropriate academic unit;
   b. on the payment to the University of those registration fees which would have been payable had the student remained in continuous registration during the period since the termination of the program;
   c. on the understanding that the time period during which the student was not registered shall be considered as part of the
4 Regulations Governing the Degree of Master of Applied Science

The Degree of Master of Applied Science (M.A.Sc.) is a course-based Degree offered in three areas: Computer Engineering, Environmental Systems Engineering and Management, and Oil and Gas Engineering. For information on the research-focused Master of Engineering program, refer to the regulations governing the Degree of Master of Engineering.

4.1 Industrial Internship Option

The Faculty permits graduate students to undertake internships of work in industry. These internships will allow students to either (a) enhance the application of their knowledge and skills within industry, or (b) complete a research project defined by the industry. Encouragement to undertake an internship will be given only where it is clear that one of these expectations can be met.

Students registered in the M.A.Sc. program may, with the permission of their Board of Studies, the Dean of the Faculty of Engineering and Applied Science, and the Dean of Graduate Studies, select the Industrial Internship Option. Students pursuing this option must satisfy the degree regulations for an M.A.Sc. program. In addition, students in the Industrial Internship Option:

1. shall normally complete at least 18 credit hours of the courses required for their program with an average of 75% or higher prior to the internship; the remaining required courses may be taken on campus or by distance
2. shall normally spend at least two continuous semesters on campus on a full-time basis as a graduate student at this University
3. shall normally spend 4 to 8 months of their program at an internship in industry
4. shall submit monthly reports to a university supervisor appointed by their Board of Studies, and shall submit a concise progress report to their Board of Studies no later than the end of each semester while on an internship
5. shall normally not opt out once the internship starts.

Successful completion of an internship will be indicated by a descriptive notation on the student transcript.

4.2 Computer Engineering

4.2.1 Program of Study

1. The Faculty of Engineering and Applied Science offers a course-based program in Computer Engineering leading to the Degree of Master of Applied Science (M.A.Sc.) in Computer Engineering. The program is available only on a full-time basis.
2. The program is offered by the Faculty of Engineering and Applied Science and will be administered by a Board of Studies appointed by the Dean of Engineering and Applied Science.

4.2.2 Qualifications for Admission

1. Admission to the program is limited and competitive.
2. To be eligible for consideration for admission, applicants will have at least a second class engineering degree in computer engineering, computer science or electrical engineering; they will have background in many of the following areas: object-oriented programming, data structures, digital logic, computer organization, circuits and electronics, systems and signals, communications, discrete mathematics, probability and statistics and engineering design.
3. To be eligible for consideration for admission, applicants will meet the English Proficiency Requirements described under English Proficiency Requirements.

4.2.3 Degree Requirements

1. The degree program requires the completion of 36 credit hours, 6 of which comprise a project course.
   a. Students are required to complete 9801, 9859, 9861, 9865, 9867, 9871, 9874 and 9876.
   b. Three elective courses must be selected; each term the Board of Studies for the program will provide a selection of eligible courses, which may include ENGI 9821, ENGI 9822, ENGI 9868, ENGI 9869, ENGI 9872, ENGI 9875, ENGI 9877, ENGI 9878, ENGI 9879, ENGI 9880/83, ENGI 9888/91, CS 6752, CS 6756, PHYS 6102, and others designated by the Board of Studies for the program.
2. Normally students will take courses as shown in Table I. Students wishing to take courses in another sequence must request approval from the Board of Studies for the program.

4.2.4 Evaluation

Students must obtain a grade of at least 65% in all program courses to receive credit for the course towards their program requirements.

Any student, who fails to receive 65% or more in a course, must repeat the course in the case of core courses, or must either repeat or replace the course with another program course in the case of elective courses. Any student who receives a grade of less than 65% in two courses or in a repeated course will be required to withdraw from the program.

4.2.5 Courses

980A/B Computer Engineering Project
9802/05 (excluding 9804) Special Topics in Computer Engineering
9806/09 Special Topics in Communications Engineering
9821 Digital Signal Processing
4.3 Environmental Systems Engineering and Management

4.3.1 Program of Study
1. The Faculty of Engineering and Applied Science offers a program in Environmental Systems Engineering and Management (ESEM) leading to the Degree of Master of Applied Science. The program is available on a full-time or part-time basis.
2. The program is offered by the Faculty of Engineering and Applied Science and will be administered by a Board of Studies appointed by the Dean of Engineering and Applied Science.

4.3.2 Qualifications for Admission
1. Admission is limited and competitive.
2. To be considered for admission, applicants shall normally hold a minimum second class Bachelor’s Degree in engineering preferably in civil, environment, chemical, processing, or petroleum engineering, or in a related discipline from a university of recognized standing.
3. To be eligible for consideration for admission, applicants will meet the English Proficiency Requirements described under General Regulations, English Proficiency Requirements.

4.3.3 Degree Requirements
1. The Degree program requires the completion of 30 credit hours.
   a. 6 credit hours comprising a project course 960A/B.
   b. 15 credit hours comprised of 9601, 9609, 9626, 9627, and 9628.
   c. 9 credit hours (three courses) to be selected from 9603, 9605, 9610-9615, 9621, 9622, 9624, 9625, 9629, 9630, ENVE/ENVS 6001, ENVE/ENVS 6002, ENVE/ENVS 6003, and Geography 6250.

4.3.4 Evaluation
Students must obtain a grade of at least 65% in all program courses to receive credit for the course towards their program requirements. Any student who fails to receive 65% or more in a course, must repeat the course in the case of core courses, or must either repeat or replace the course with another program course in the case of elective courses. Any student who receives a grade of less than 65% in two courses or in a repeated course will be required to withdraw from the program.

4.3.5 Courses
960A Environmental Engineering Project (0 credit-hours)
960B Environmental Engineering Project (6 credit-hours)
9601 Environmental Pollution and Mitigation (cross-listed as ENVS 6004)
9603 Environmental Sampling and Pollutant Analysis (cross-listed as ENVS 6005)
9605 Water and Wastewater Treatment
9609 Environmental Risk Assessment (cross-listed as ENVS 6007)
9610-9615 Special Topics in Environmental Science and Engineering
9621 Soil Remediation Engineering
9622 Environmental Statistics
9624 Air Pollution (cross-listed as ENVS 6008)
9626 Environmental Impacts of Offshore Oil and Gas Operations
9626 Environmental Management System
9627 Environmental Systems Engineering
9628 Environmental Laboratory
9629 Environmental Policy and Regulations
9630 Pollution Prevention
ENVE/ENVS 6001 Earth and Ocean Systems
ENVE/ENVS 6002 Environmental Chemistry and Toxicology
ENVE/ENVS 6003 Applied Ecology
Geography 6250 Conservation of Natural Resources
4.4 Oil and Gas Engineering

4.4.1 Program of Study
1. The Faculty of Engineering and Applied Science offers a program in Oil and Gas Engineering leading to the degree of Master of Applied Science in Oil and Gas Engineering (M.A.Sc.(OGE)). The program is available on a full-time basis.
2. The program is offered by the Faculty of Engineering and Applied Science and will be administered by a Board of Studies appointed by the Dean of Engineering and Applied Science.

4.4.2 Qualifications for Admission
1. Admission is limited and competitive.
2. To be considered for admission, applicants shall normally hold a minimum second class Bachelor’s Degree in engineering preferably in mechanical, chemical/process, civil, environmental, mining/mineral, or petroleum engineering, or in a related discipline from a university of recognized standing.
3. To be eligible for consideration for admission applicants will meet the English Proficiency Requirements described under General Regulations, English Proficiency Requirements.

4.4.3 Degree Requirements
1. The degree program requires the completion of 30 credit hours.
   a. 6 credit hours comprising a project course Engineering 910A/910B.
   b. 15 credit hours by completing Engineering 9110, 9113, 9114, 9118 and 9121.
   c. 9 credit hours (three courses) to be selected from Engineering 9002, 9015, 9111, 9112, 9116, 9117, 9119, 9120, 9420, 9609, 9624, 9625, 9901, 9902, 9989. Engineering 9117 is a recommended elective course for students without adequate background in petroleum engineering.

4.4.4 Evaluation
Students must obtain a grade of at least 65% in all program courses to receive credit for the course towards their program requirements. Any student who fails to receive 65% or more in a course must repeat the course in the case of core courses, or must either repeat or replace the course with another program course in the case of elective courses. Any student who receives a grade of less than 65% in two courses or in a repeated course will be required to withdraw from the program.

4.4.5 Courses
9002 Ocean Engineering Structures
9015 Ocean Engineering Hydrodynamics
910A OGE Project Course (0 credit hours)
910B OGE Project Course (6 credit hours)
9110 Advanced Petroleum Production Engineering
9111 Well Testing
9112 Multiphase Flow
9113 Phase Behaviour of Petroleum Reservoir Fluids
9114 Advanced Reservoir Engineering
9116 Reliability Engineering
9117 Offshore Petroleum Geology and Technology
9118 Advanced Drilling Engineering
9119 Compact Process Equipment Design
9120 Advanced Natural Gas Engineering
9121 Advanced Safety, Risk and Reliability Modeling
9420 Engineering Analysis
9609 Environmental Risk Assessment
9624 Air Pollution
9625 Environmental Impacts of Offshore Oil and Gas Operations
9901 Fundamentals of Fluid Dynamics
9902 Advanced Transport Phenomena
9989 Special Topics Course - Corrosion Principles, Prevention and Control

5 Regulations Governing the Degree of Master of Applied Social Psychology (Co-operative)

This program is designed to meet the needs of both students and employers. Students will gain the skills and knowledge necessary to ask appropriate questions and conduct research in a variety of applied settings (e.g., business, government, health care, etc.). Students completing the program will be qualified for either immediate employment or further education. Students’ and employers’ needs will be met by a program that combines training in basic scientific methods and social psychological theory with practical experience in a variety of work settings. The training in methods and theory will be provided by the academic component of the program and the practical experience will be provided by the cooperative, work term component.

5.1 Qualifications for Admission
1. Admission to the program is competitive and selective. To be considered for admission to the Master of Applied Social Psychology (Cooperative) an applicant shall normally hold at least a high second class Honours degree or its equivalent, both in achievement and depth of study, from an institution recognized by the Senate.
2. Applications
   a. All applicants are required to submit results from the General section of the Graduate Record Examinations.
   b. Applicants are required to submit with their applications an example of their academic writing. This could include, but is not limited to, papers submitted in class, honour's thesis, etc.
c. At least one letter of reference should come from someone who is familiar with the applicant's research capability.

3. Election will be based on an applicant's overall academic performance, scores on the Graduate Record Examination and letters of reference.

4. Admission to the program shall be upon acceptance by the Dean of Graduate Studies after recommendation by the Head of the Department of Psychology which will include a proposed program of study and a proposed Supervisor.

5.2 Program of Study

1. Students should note that it is possible to enter Academic Term 1 only in the Fall semester commencing in September of each year.

2. Every candidate shall complete four Academic Terms in the Cooperative Program and shall normally be required to complete two Work Terms.

3. Courses shall be taken in Academic Terms of "blocks" in the sequence, order, and course load as follows:
   - Fall: 6000, 6400,
   - Winter: 6001, 6401,
   - Spring: Work term 1,
   - Fall: 6402, 6403,
   - Winter: Work term 2,
   - Spring: 6404

5.3 Evaluation and Advancement

1. In order to continue in good standing in the program and in order to qualify for the Master's Degree, a candidate shall obtain a grade of A or B for program courses, and complete two Work Terms.

2. The dates for starting and finishing each Work Term are shown in the University Diary. Successful completion of the Work Term requirements is a prerequisite to graduation.

3. A competition for Work Term employment is organized by the Division of Co-operative Education. Students may also obtain their own Work Term jobs outside the competition. Such jobs must be confirmed by letter from the employer and approved by the Head of Psychology and by the Division of Co-operative Education on or before the first day of the Work Term.

4. The overall evaluation of the Work Term is the responsibility of the Division of Co-operative Education. The Work Term evaluation shall consist of two components:
   a. On-the-job Student Performance:
      - Job performance shall be assessed by a co-ordinator using information gathered during the Work Term and input from the employer towards the end of the Work Term. Formal written documentation from the employer shall be sought.
   b. The Work Report:
      i. Work term reports shall be evaluated by a member of the Division of Co-operative Education or a member of faculty in the Department of Psychology. If an employer designates a report to be of a confidential nature, both employer and co-ordinator must agree as to the methods to protect the confidentiality of such a report before the report may be accepted for evaluation.
      ii. Reports must be prepared according to American Psychological Association specifications and contain original work related to the Work Term placement. The topic must relate to the work experience and will be chosen by the student in consultation with the employer. For promotion from the Work Term, a student must obtain at least 65% in each component.

5. If a student fails to achieve the Work Term standards specified above the student will be required to withdraw from the program. Such a student may reapply to the program after lapse of two semesters, at which time the student will be required to complete a further Work Term with satisfactory performance before being admitted to any further academic term in the Faculty. A Work Term may be repeated once.

6. Students are not permitted to drop Work Terms without prior approval of the Graduate Studies Committee of the Department of Psychology, upon the recommendation of the Division of Co-operative Education. The Graduate Studies Committee will make a recommendation to the Head of Department who will make the final decision. Students who drop a Work Term without permission, or who fail to honour an agreement to work with an employer, or who conduct themselves in such a manner as to cause their discharge from the job, will normally be awarded a failed grade for the Work Term. Permission to drop a Work Term does not constitute a waiver of degree requirements, and students who have obtained such permission must complete an approved Work Term in lieu of the one dropped.

5.4 Courses

6000 Advanced Statistics in Psychology
6001 Research Design
601W Work Term 1
602W Work Term 2
6400 Theory and Methods in Social Psychology
6401 Social Cognition
6402 Group Processes
6403 Program Evaluation and Applied Research
6404 Project in Applied Social Psychology

6 Regulations Governing the Degree of Master of Applied Statistics

The Degree of Master of Applied Statistics (M.A.S.) is a highly structured program incorporating 18 credit hours in program courses and a practicum in applied statistics. The Degree is offered in the Department of Mathematics and Statistics by full-time or part-time study.

6.1 Qualifications for Admission

1. Admission is limited and competitive. To be considered for admission to the Master of Applied Statistics program, an applicant shall normally hold at least a high second class Honours Degree or its equivalent, both in achievement and depth of study, from an institution recognized by the Senate.

2. In addition, an applicant shall normally have completed undergraduate courses in statistics which cover the material of Statistics 3521, 3530, 4410, 4520, 4560, 4561, 4590, 4591. If necessary, an applicant may be required to demonstrate a satisfactory
knowledge of the above courses in an examination administered by the Department of Mathematics and Statistics.

3. Applicants who do not meet these requirements should consult the Department of Mathematics and Statistics about a program of further undergraduate courses. Such a program is intended to provide the candidate with an adequate statistical background. Such courses may not be used to fulfill the program course requirements of the Master of Applied Statistics Degree.

4. Admission to the program shall be upon acceptance by the Dean of Graduate Studies after recommendation by the Head of the Department of Mathematics and Statistics along with a proposed program of study and a proposed Supervisor.

6.2 Program of Study

The minimum requirements for the Degree of Master of Applied Statistics are completion of the following:

1. The courses: STAT 6510, STAT 6560 and STAT 6590.
2. Nine additional credit hours selected from STAT 6500-6589.
3. The series STAT 697A/B or the completion of an additional 3 credit hour graduate course from STAT 6500-6589.
4. A practicum: An applied statistics project and an associated report. The report must demonstrate a satisfactory general mastery of statistical knowledge.

6.3 Evaluation

1. In order to continue in graduate studies and in order to qualify for a Master's Degree, a candidate shall obtain an A or B for program courses and complete successfully the practicum requirement.
2. STAT 6590 will be evaluated by the course co-ordinator in consultation with associated statistical consultants.
3. Evaluation of the practicum shall be carried out in accordance with Theses and Reports of the General Regulations governing all students in the School of Graduate Studies.

Note: Every candidate in graduate studies shall comply with the General Regulations, the Degree Regulations and any additional requirements of the Department of Mathematics and Statistics.

6.4 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the Department will allow:

Applied Statistics

6500 Probability (credit restricted with former 6586)
6503 Stochastic Processes
6505 Survival Analysis
6510 Mathematical Statistics
6520 Linear Models
6530 Generalized Linear Longitudinal Mixed Models
6540 Time Series Analysis
6545 Statistical Computing
6550 Nonparametric Statistics
6560 Continuous Multivariate Analysis
6561 Categorical Data Analysis
6563 Sampling Theory
6570-6589 Selected Topics in Statistics and Probability (excluding 6586)
6590 A Course in Statistical Consulting
697A/B Graduate Seminar Series in Statistics

7 Regulations Governing the Degree of Master of Arts

Professor and Dean of Arts
L. Phillips

Associate Professor and Associate Dean (Graduate and Research)
C. Dyck

The Degree of Master of Arts (M.A.) is offered in Anthropology, Archaeology, Classics, Economics, English Language and Literature, Environmental Policy, Ethnomusicology, Folklore, French Studies, Geography, German Language and Literature, History, Linguistics, Philosophy, Political Science, Religious Studies and Sociology.

Applicants are advised to consult, in addition to the regulations governing the Degree of Master of Arts, both the General Regulations and the particular regulations of the appropriate Departments.

7.1 Qualifications for Admission

1. Admission is limited and competitive. To be considered for admission an applicant shall hold a Bachelor's Degree or its equivalent from an institution recognized by the Senate and shall have a knowledge of the proposed field of specialization satisfactory to the Department concerned (or Departments, when interdisciplinary study is intended) and to the Dean.
2. Preference will normally be given to applicants who hold an appropriate Honours Degree, either from Memorial University of Newfoundland, or from another university whose Honours Degree is of comparable standing. Any other applicant who holds a Bachelor's Degree or its equivalent will be considered for admission provided that:
   a. the applicant's undergraduate record after the first year shows an average of at least grade B in courses in the proposed field of specialization.
   b. the applicant's overall undergraduate record after the first year shows an average of at least grade B in all courses taken, and
   c. the Department concerned satisfies the Dean that the applicant's work exhibits evidence of academic excellence.

   Only in exceptional circumstances, and only on the recommendation of the Department concerned, will the Dean consider applicants who do not meet the requirements in a. and b. Such applicants, however, must meet the requirements in c.
3. An applicant may be required to demonstrate a satisfactory knowledge of the proposed field of study in an examination administered by the Department or Departments.
4. In most cases instruction is in English, and examinations and theses are to be written in English. (Language Departments, however, give instruction in the pertinent language and often require examinations and theses to be written in the language. In addition, other Departments may permit or even require examinations and/or theses to be written in a language other than English.)

7.2 Program of Study and Research

1. The program of study for the Master of Arts Degree shall consist of the successful completion of a program of courses and, in accordance with Departmental regulations, either of a thesis embodying systematic research or of a Comprehensive Examination. For programs requiring 24 credit hours or more, the academic unit may choose not to require a thesis or comprehensive examination.

2. Every candidate shall read at least 12 credit hours in program courses at the graduate level in one subject or in closely related subjects. Departmental regulations may require more courses than the minimum and this higher number is listed where applicable in the regulations of the Department.

3. Students may, with the approval of the Dean, augment their program with a limited number of other courses of their choice. Passing grades are not required in these non-program courses in order to continue in graduate studies or obtain a Master's Degree. However, the final grades in these courses will be recorded on the student's transcripts. The grading system in non-program courses shall be that appropriate to the particular course.

4. Candidates submitting a thesis on an approved topic shall conduct systematic research under the direction of a Supervisor recommended by the appropriate Department or Departments and approved by the Dean. The candidate may be required to take an oral examination.

5. Changes in either the program of courses or the topic of the thesis require the approval of the Dean.

6. On the recommendation of the Department, the Dean may waive, in part, the course requirements for a Master's Degree.

7. Application for transfer from the Master of Arts to the Master of Philosophy is to be made to the Dean before the end of the second semester in the case of full-time students, and in the case of part-time students before 18 graduate credit hours have been completed.

8. The Dean may approve an application to transfer from the M.A. to the M.Phil. only when a new integrated program, acceptable to the Dean, is submitted.

7.3 Evaluation

1. In order to continue in the School of Graduate Studies and in order to qualify for a Master's Degree, a candidate shall obtain an A or B grade in each regulation course. Some candidates may be required to read a specified number of additional graduate or undergraduate courses for which a passing grade must be achieved.

2. Students registered for credit shall write their examinations in their graduate courses at a time to be determined by the Dean on the recommendation of the Department.

3. Students registered in undergraduate courses shall satisfy examination requirements in these courses.

4. When, on a basis of consultation with the candidate, the instructors in graduate courses, and the thesis Supervisor, the Head of a Department has determined that the candidate's work has fallen below a satisfactory level, the Head may recommend to the Dean that the candidate be required to withdraw from the program.

7.4 Thesis or Report

See General Regulation, Theses and Reports.

7.5 Anthropology

Associate Professor and Head of the Department
M. Tate

The Degree of Master of Arts (M.A.) is offered in Anthropology by either full-time or part-time study.

1. Candidates will specialize in social and cultural anthropology.

2. When candidates are accepted into the program, they will be assigned one or more Supervisors. Candidates’ programs shall be the responsibility of their Supervisor(s), the graduate co-ordinator(s), and the Head of the Department.

3. If candidates’ records suggest a deficiency in some area(s), the Department reserves the right to require that they complete additional undergraduate courses before beginning program courses.

4. Candidates may choose between a thesis and a non-thesis option.

7.5.1 M.A. With Thesis

1. Normally, the M.A. program should take two academic years to complete, of which the first year will be spent in (a) completing course work, (b) writing and orally defending a thesis proposal before members of the faculty, and (c) beginning to carry out research. The second academic year will be spent in (d) completing research, (e) presenting an oral research report to the Department, and (f) completing a thesis.

2. Candidates for the Degree of a Master of Arts in Anthropology will be required to complete not fewer than 12 credit hours, nor more than 18 credit hours of courses at the graduate level.

3. Most Department graduate courses are taught in either a seminar or tutorial framework; all courses require intensive reading, regular oral communication of ideas to faculty and other students, and preparation of written research papers and other assignments.

4. Normally, during the second semester of the first year of study in the program, a written thesis proposal which has been approved by the student's Supervisor(s) will be circulated to all members of the Department. The written thesis proposal should be made available to faculty members at least two weeks prior to the scheduled date of a student's oral presentation and defence of the proposal.

5. Shortly following the completion of their research, candidates will be required to present an oral research report on their findings to the Department.

6. A final draft of the thesis will be evaluated in accordance with the requirements of the School of Graduate Studies.
7.5.2 M.A. Without Thesis

Normally, the M.A. program without thesis should take one academic year to complete. Candidates who choose to do the M.A. without thesis must normally complete 24 credit hours in graduate program courses; 15 of which will normally be from ANTH 6440, ANTH 6890 and ANTH 6300. Nine additional credit hours are to be selected from the graduate courses offered by the Department.

Note: ANTH 6440 will be worth 9 credit hours. This course will normally be based on secondary literature and will be supervised by a faculty member.

7.5.3 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the Department will allow.

- 6010 Cultural Ecology
- 6071 Health and Illness: Cultural Contexts and Constructions
- 6081 Anthropology of Gender
- 6089 Anthropology of Underclass Life
- 6100 Social Organization
- 6110 Culture and Personality
- 6140 The Community
- 6210 Language and Culture
- 6240 Atlantic Regional Studies
- 6260 Social and Economic Development
- 6280 Newfoundland Ethnography
- 6281 Labrador Ethnography
- 6282 Ethnography of a Single Region
- 6300 Fieldwork and Interpretation of Culture
- 6400 Current Themes in Cultural Anthropology
- 6410 History of Anthropology
- 6412 Anthropological Theory
- 6413 Applied Anthropology
- 6430 Audiovisual Anthropology
- 6440 Master’s Research Paper (9 credit hours)
- 6580-6599 Special Areas in Anthropology
- 6600 Graduate Seminar

7.6 Archaeology

Associate Professor and Head of the Department
L. Rankin

7.6.1 Program of Study

The Degree of Master of Arts is offered in Archaeology by either full-time or part-time study.

1. Candidates may specialize in either archaeology or bioarchaeology.
2. The choice of specialty will govern the selection of Supervisor(s), courses, and thesis or research paper topics. When candidates are accepted into the program, they will be assigned one or more Supervisors. Candidates' programs shall be the responsibility of their Supervisor(s), the graduate co-ordinator, and the Head of the Department.
3. If candidates' records suggest a deficiency in some area(s), the Department reserves the right to require that they complete additional undergraduate courses before beginning program courses.
4. Normally, the M.A. program should take six academic semesters to complete, of which the first three semesters will be spent in (a) completing course work, (b) writing and orally defending a thesis proposal before members of the faculty, and (c) beginning to carry out research. The following semesters will be spent in (d) completing research, (e) presenting an oral research report to the Department, and (f) completing a thesis.
5. Candidates for the Degree of a Master of Arts in Archaeology will be required to complete not fewer than 12 credit hours, nor more than 18 credit hours of courses at the graduate level.
6. Most Department graduate courses are taught in either a seminar or tutorial framework; all courses require intensive reading, regular oral communication of ideas to faculty and other students, and preparation of written research papers and other assignments.
7. Normally, during the second semester of the first year of study in the program, a written thesis proposal which has been approved by the student’s Supervisor(s) will be circulated to all members of the Department. The written thesis proposal should be made available to faculty members at least two weeks prior to the scheduled date of a student’s oral presentation and defence of the proposal.
8. Shortly following the completion of their research, candidates will be required to present an oral research report on their findings to the Department.
9. A final draft of the thesis will be evaluated in accordance with the requirements of the School of Graduate Studies.

7.6.2 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the Department will allow.

- 6020 Bioarchaeology
- 6040 Human Osteology
- 6095 Advanced Studies in Ethnohistory (same as History 6095)
- 6151 Palaeoethnobotany
- 6181 Palaeoeskimo Cultures of the Eastern Arctic
- 6182 Advances in Material Culture Analysis
- 6187 Readings in Maritime Provinces Prehistory
- 6189 Palaeopathology
- 6191 Approaches to Early Modern Material Culture
7.7 Classics

Associate Professor and Head of the Department
T.J. Allen

7.7.1 Program of Study

The Department of Classics offers an M.A. in Classics, with an emphasis on classical texts and research methods, which suitably prepared students may complete in 1 year of full-time study, normally beginning in September.

1. Applicants should have an Honours Degree in Classics or a related field, including at least two years study in both Greek and Latin. Students expecting to complete the M.A. Degree within 12 months must have at least 24 undergraduate credit hours in one language (Greek or Latin) and 18 undergraduate credit hours in the other. Other applicants may be required to take 3 or more credit hours at the undergraduate level, in addition to their graduate course work.

2. Students will complete 18 credit hours in courses at the 6000 level (including 6100 and 6101) plus any additional courses the Department may deem necessary. The required courses 6100 and 6101 involve the intensive reading of ancient texts and also introduce students systematically to the most important research methods in Classics, including palaeography, textual criticism, bibliography, and historiography. Texts and methods chosen may vary according to the availability of instructors.

3. Students are also required to complete one of the following:
   a. Research Essay
      Students will complete a research essay (approximately 15,000 words), normally in the third semester of their program of study. The essay will be graded by two members of faculty and will be assigned a PASS/FAIL grade.
   b. Translation Examination
      Students will be required to pass two exams based on a reading list of Greek and Roman authors. One exam will be on Greek authors and one on Latin authors. The exams test students' ability to translate from Greek and Latin texts into English and will also require some commentary on the set texts. Students are expected to write these exams in the third semester of their program of study. The exam will be graded by two members of faculty and will be assigned a PASS/FAIL grade.

4. Students are required to complete an examination testing their competence in German, Italian or French, as early as possible in their program of study. This examination will be assigned a PASS/FAIL grade. (See Evaluation, Evaluation of Graduate Students, 4.)

7.7.2 Courses

6010 Greek Literature: Prose
6020 Latin Literature: Prose
6030 Greek Literature: Poetry
6040 Latin Literature: Poetry
6050 Greek History
6060 Roman History
6080 Ancient Philosophical Authors
6100 Greek Literature/Research Methods
6101 Latin Literature/Research Methods

Note: The prerequisite of all 6000-level courses is at least three courses numbered 3000 and above (or equivalent) in the appropriate language.

7.8 Economics

Professor and Head of the Department
W. Locke

The Degree of Master of Arts is offered in Economics. The focus of the program is applied economics. The non-thesis option is designed so that suitably qualified full-time students can complete it in one year. The thesis option normally takes more than one year.

7.8.1 Qualifications for Admission

To be considered for admission, an applicant must normally have completed an undergraduate Degree in Economics at a Canadian university with at least second-class Honours standing, or its equivalent. Satisfaction of this criterion does not guarantee admission and, if admitted, students may be required to complete specified undergraduate courses as deemed necessary by the Department.

7.8.2 Programs of Study

1. Non-Thesis Option
   a. The program of study requires, in addition to any specified undergraduate courses, completion of 26 credit hours in graduate Economics courses, including a master's essay course. The maximum time normally permitted for students to satisfy these requirements is three years.
   b. The 26 credit hours in graduate courses consist of the following:
      i. 11 credit hours in core courses, which shall normally be completed in the first term of the program: Economics 6000, 6001, 6002, and 6009:
ii. 12 credit hours in other courses selected from those offered by the Department;
iii. Masters Essay course: Economics 6999. Normally, all other required graduate courses must be completed before the essay.

c. The master's essay, Economics 6999, must be in the area relating to the courses taken by the student. Students will be assigned a Supervisor, who will approve the topic; the essay will be graded by the Supervisor and one other member of the Department. The essay must be completed during the semester in which the student is registered in Economics 6999. During that time, students may be required to give a Departmental seminar on their essays.

2. Thesis Option
   a. The thesis option consists of 20 credit hours and a thesis. The thesis will consist of a comprehensive study in the area of the student's field courses. The thesis must embody systematic research and demonstrate a mastery of economic principles and their application. Thesis work will be completed under a Supervisor from the Department.
   b. The thesis must normally be completed within the two years following completion of 20 required credit hours, which must include Economics 6000, 6001, 6002 and 6009.
   c. The thesis will normally be evaluated internally and in accordance with the requirements of the School of Graduate Studies.

7.8.3 Courses
The following courses will be offered to meet the requirements of candidates, as far as resources of the Department will allow.

Core Courses
6000 Advanced Micro-economic Theory
6001 Advanced Macro-economic Theory
6002 Econometrics
6009 Graduate Seminar (2 credit hours)

Elective Courses
6010 Taxation
6011 Expenditure
6012 Cost-benefit Analysis
6013 Fiscal Federalism
6014 Topics in Public Sector Economics
6020 Economics of Nonrenewable Natural Resources
6021 Economics of Renewable Natural Resources
6022 Environmental Economics
6023 Advanced Fisheries Economics
6024 Topics in Resource Economics
6040 Industrial Economics

Master's Essay Course
6999 Master's Essay

Note: Additional courses may be arranged, so far as the exigencies of the Department allow, to meet the particular needs of candidates.

7.9 English Language and Literature
Associate Professor and Head of the Department
D. Walsh

The degrees of Master of Arts and Doctor of Philosophy are offered in English Language and Literature.
Candidates for the M.A. in English may complete the program as either part-time or full-time students. Candidates for the Ph.D. in English must be in attendance as full-time students for at least three semesters of the program.

7.9.1 Admission
1. Admission to the M.A. in English is limited and competitive. Applicants should have an Honours B.A. in English (or the equivalent, 60 credit hours in English with an appropriate range of courses) and a strong academic record.
2. Strong candidates who have come close to achieving Honours equivalency may be admitted on the condition that they complete such undergraduate courses as the Department may deem necessary, in addition to the required graduate courses.
3. Candidates who have not completed English 4900 or an equivalent course will be required to complete English 5900 which will not count as one of the required courses for the M.A. The course will be graded ‘pass’ or ‘fail’. As in other graduate courses a grade of 65 or above is considered a pass.

7.9.2 Program of Study
1. Thesis Option
   a. Candidates completing the M.A. with thesis will complete a minimum of 15 credit hours in graduate courses, which will normally include English 7003, and a thesis.
   b. Candidates must submit a thesis proposal which includes a statement of topic, a working title, a plan of research, and a preliminary bibliography. The proposal should be approved by the Supervisor or Supervisors and submitted to the Departmental Graduate Studies Committee for its approval by the end of the candidate’s third semester. The Departmental Graduate Studies Committee shall return the thesis proposal to the candidate no later than one month after receiving it.
   c. Full-time students who choose the thesis option will usually complete their degree in two years.
2. Non-Thesis Option
   a. Candidates completing the M.A. without thesis will complete a minimum of 24 credit hours in graduate courses, which will normally include English 7003.
   b. Full-time students who choose the non-thesis option will usually complete their degree in one year.

7.9.3 Courses
A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the Department will allow.
School of Graduate Studies 2013-2014

Notes: 1. Since it is impossible to list in detail the many topics that may from time to time be offered, the titles below refer only to the major periods and general subject areas in which specific courses may be available. The content and approach in specific courses will vary according to the research interests of students and faculty involved in the course. Students should consult the Department's annual Graduate Student Guide (or the Graduate Co-ordinator) for detailed descriptions of specific course offerings. Normally, no fewer than ten graduate courses are offered in any given academic year.

2. English 5900 cannot be counted as one of the required graduate courses in any program.

3. All students will normally take English 7003 - Trends in Contemporary Critical Theory, usually in their first semester.

4. Students who took graduate courses in English at Memorial University of Newfoundland before 1997 should consult with the Department before selecting further courses.

5900 Bibliography and Research Methods
6403 Etymology *(same as Linguistics 6403)*
6420 English Dialectology I
6421 English Dialectology II
6999 Master's Essay *(for non-thesis students)*
7003 Trends in Contemporary Critical Theory
7004 English Phonology and Morphology
7005 The Syntactic Structure of English
7020-25 Special Topics in English
7032 Studies in Old English I
7033 Studies in Old English II

7086 Special Readings in English II
7087 Special Readings in English III

7.10 Environmental Policy

The M.A. in Environmental Policy is a rigorous, interdisciplinary study of environmental policy in terms of its theory, application, methodology and approaches with reference to central contemporary debates. It is also an applied program that equips students with practical skills in the field making links to the labour market through a required internship program.

The M.A. in Environmental Policy is offered by full-time study or part-time study and by completion of either a thesis or research paper. The Thesis Option involves completion of 15 credit hours of course work, an internship and a thesis, and is normally completed in two
academic years of full-time study and in three academic years of part-time study. The Research Paper Option involves completion of 18 credit hours of course work, an internship and a research paper, and is normally completed in one academic year of full-time study and up to three academic years of part-time study.

The following regulations must be read in conjunction with the General Regulations of the School of Graduate Studies of Memorial University of Newfoundland.

7.10.1 Administration

1. The program shall be administered by a Graduate Officer, who reports to the Dean of Graduate Studies. The Graduate Officer shall be appointed by the Dean of Graduate Studies on the recommendation of the Head of Social Science, Grenfell Campus and the Vice-President, Grenfell Campus. In making this recommendation, the Head of Social Science, Grenfell Campus and the Vice-President, Grenfell Campus may consult with the environmental policy community both within and outside the University.

2. An Executive Committee consisting of the Graduate Officer and the Head of Social Science, Grenfell Campus and the Vice-President, Grenfell Campus will be established to review administrative, resource and strategic planning issues related to the program. This committee shall be chaired by the Dean of Graduate Studies.

3. The Graduate Officer shall consult with the Graduate Committee in Environmental Policy (GCEP) for the purposes of administering the academic elements of the program. The GCEP shall normally consist of seven members appointed by the Dean of Graduate Studies on the recommendation of the Graduate Officer. The GCEP will include the Graduate Officer, who shall chair the committee, approximately four faculty members from the Division of Social Science, Grenfell Campus who teach core courses, the Head of Social Science, Grenfell Campus and one student representative, Grenfell Campus.

4. An Advisory Board in Environmental Policy (ABEP) shall be established for the purposes of consulting with and obtaining feedback from the environmental policy community. The ABEP will consist of a broad cross-section of members from the environmental policy community both within and outside the University who shall be appointed by the Dean of Graduate Studies on the recommendation of the Graduate Officer.

7.10.2 Qualifications for Admission

1. Admission is limited and competitive.

2. To be considered for admission, applicants shall have an undergraduate degree, with a minimum B standing, from an institution recognized by Senate.

3. In exceptional cases, applicants who have not completed an undergraduate degree may be considered for admission. Preference will be given to those who have a minimum of 10 years of full-time professional experience, including demonstrated success in environmental policy, and who have successfully completed substantial university course work including several courses at an advanced undergraduate level from an institution recognized by Senate. Applicants without an undergraduate degree must have completed one or more undergraduate courses in public policy, public administration or political science and one or more undergraduate courses in geography, biology or chemistry from an institution recognized by Senate, with a minimum B standing in each course. Applicants may also be required to successfully complete the Graduate Management Admission Test (GMAT) or the Graduate Record Examination (GRE) with an acceptable score and/or additional undergraduate courses before being considered for admission.

4. To be eligible for consideration for admission, applicants shall meet the English Proficiency Requirements described under General Regulation - Qualifications for Admission, English Proficiency Requirements.

5. Applicants will be assessed for admission to the M.A. in Environmental Policy based on their interests, their potential to produce meaningful research in the field of environmental policy and the availability of supervisors in the area of the applicant’s interest.

6. Interdisciplinary study in the program is encouraged by the University. Applicants with an interdisciplinary background or whose background combines two or more fields of study (e.g., political science, public policy, environmental studies, geography, resource management, environmental science, public administration) would be an excellent fit for this program.

7.10.3 Deadlines for Applications

1. Applicants seeking full-time enrollment will normally only be admitted to the program in the Fall (September) semester.

2. Applications must be postmarked no later than February 15 for applicants wishing to enter full-time or part-time studies in the Fall (September) semester.

3. Applications must be postmarked no later than August 15 for applicants wishing to enter part-time studies in the Winter (January) semester.

4. Individuals submitting applications later than the above dates are not assured of consideration for admission to the program in the semester desired; their applications will be processed only if time and resources permit.

7.10.4 Procedure for Admission

1. Applications for admission to the M.A. in Environmental Policy program must be made on the appropriate form and submitted to the School of Graduate Studies.

2. The following documents must be submitted in support of the official application form:

   a. Letter of appraisal from three referees, at least one of whom is capable of appraising the applicant’s academic potential as a graduate student, and at least one of whom is capable of appraising the applicant’s professional experience and/or actual or likely success in a career in environmental policy.

   b. Two official transcripts from each university or other post-secondary institution previously attended, to be sent directly by its Registrar (or equivalent officer) to the School of Graduate Studies. If not recorded on the transcript, official evidence of completion of undergraduate degree must also be submitted.

   c. All applicants must submit a one page statement outlining their research interests and are strongly encouraged to identify a supervisor.

   d. Application files are normally evaluated after the deadline dates for application noted above and only when all required documentation has been received.

   e. Admission shall be by the Dean of Graduate Studies on the recommendation of the GCEP. Upon notification from the Dean of the School of Graduate Studies of acceptance into the M.A. in Environmental Policy program, applicants must give written notice to the School of Graduate Studies of their intention to register.
7.10.5 Program of Study

1. **Thesis Option:** Students in the thesis-based program must complete 15 credit hours in graduate program as specified in **Table I**, an internship (ENVP 6030) and a thesis. There are four required courses (representing 12 credit hours) as specified in **Table II**. One elective, representing 3 credit hours, related to the student’s research specialty is to be completed and may be chosen from **Table III** in consultation with the student’s thesis supervisor.

2. **Research Paper Option:** Students in the research paper-based program must successfully complete 18 credit hours in graduate program courses as specified in **Table I**, an internship (ENVP 6030) and a Research Paper (ENVP 6999). There are four required courses (representing 12 credit hours) as specified in **Table II**. Two electives, representing 6 credit hours, are to be completed, of which at least one is to be from **Table II**. The second elective, related to the student’s research specialty, may be chosen from **Table II** or **Table III** in consultation with the student’s research paper supervisor.

3. Further courses beyond the minimum number may be required, depending on the background and needs of the student.

4. Students are responsible for fulfilling all pre-requisites.

5. All students are required to attend two Workshops:
   a. **Policy and Science Orientation Workshop**
      This workshop is held the first week of September each year. Its intent is to provide students with a limited policy or biophysical background with conceptual tools to frame each discipline in order to orient students to the program. The workshop is taught and is three full days in length.
   b. **Pre-Internship Workshop**
      This two day workshop reviews the internship requirements, aids students in writing resumes and cover letters, discusses interviewing practices and examines student/employer relationships. It is held during the first week after classes end in December of each year.

6. **Internship Requirements**
   a. All students are required to complete an environmental policy internship (ENVP 6030) with a relevant government office, non-governmental organization, community group or business. Internships are normally selected from a list of approved organizations that is maintained by the Internship Officer and Graduate Officer. Internship placements may be outside the Corner Brook area and possibly outside Newfoundland and Labrador. Final decisions for internship placements rest with the Graduate Officer in consultation with the Internship Officer.
   b. Internships are usually completed in the Spring semester of each year.
   c. Internships are for full-time employment hours for the duration of the semester (12 weeks). Part-time internships over longer periods may be considered and will require approval from the Internship Officer and the Graduate Officer.
   d. A competition for internships is organized by the Internship Officer. By entering the competition, students give permission for the Internship Officer to supply their university transcripts to potential employers. Students who do not wish to accept an internship arranged by the Internship Officer shall be responsible for finding an alternative acceptable to the Internship Officer in consultation with the Graduate Officer.
   e. Students must attend scheduled pre-internship orientation workshop, professional development and exit meeting.
   f. Each Internship placement is supervised and evaluated by the Internship Officer, the on-site Supervisor assigned by the employer and the Graduate Program Coordinator. The internship shall consist of two components:
      i. On-Site Student Performance as evaluated by the Internship Officer in consultation with the on-site Supervisor assigned by the employer.
      ii. An Internship Report graded by the Internship Officer or the Graduate Officer in consultation with the on-site Supervisor assigned by the employer.
   g. Evaluation of the Internship shall result in one of the following final grades: Pass, or Fail.
      A student must obtain a Pass in both the On-Site Student Performance and the Internship Report to obtain a final grade of Pass. If a student fails to achieve the internship standards specified above, the student may be required to withdraw from the program. Such a student may reapply to the program after a lapse of two semesters, at which time the student will be required to complete a further internship with satisfactory performance before being admitted to any further academic term in the Faculty. An internship may only be repeated once.
   h. Students who voluntarily withdraw from the internship without prior approval from the Internship Officer and the Graduate Officer, or who conduct themselves in such a manner as to cause the host organization and the Internship Officer to terminate the placement, will normally be awarded a grade of FAIL in the internship.
      i. Students are not permitted to drop internships without prior approval of the Internship Officer in consultation with the Graduate Officer. The Internship Officer will make a recommendation to the Graduate Officer who will make the final decision. Students who drop an internship without permission, who fail to honour an agreement to work with a host organization, or who conduct themselves in such a manner as to cause their discharge from the internship position will normally be awarded a failed grade for the internship. Permission to drop an internship does not constitute a waiver of degree requirements, and students who have obtained such permission must complete an approved internship in lieu of the one dropped.
   i. All students are required to complete the Graduate Research Integrity Program (GRIP) - GRAD 9991.
7. Students in the M.A. in Environmental Policy shall meet the minimum residency of at least two semesters required under **General Regulation, Registration - Period of Study** of the University Calendar. Students are encouraged to meet this residency requirement in the first two semesters of their program.
8. All students will be required to present a seminar on their thesis or research paper in the final semester of their program as part of their thesis or research paper requirements. For applicable students, the thesis will be examined in accordance with the **General Regulations - Theses and Reports** of the School of Graduate Studies.

7.10.6 Evaluation

1. Candidates for the Master of Arts in Environmental Policy degree must obtain a grade of B or better in all program courses.
2. Candidates who receive a grade of less than B in a program course will be permitted to remain in the program, provided the course is repeated and passed with a grade of B or better. Alternatively, the candidate may, on the recommendation of the GCEP, and with the approval of the Dean of Graduate Studies, substitute another graduate course. Only one course repetition or substitution will be permitted during the candidate’s program after which the candidate shall be required to withdraw from the program.
### 7.10.7 Courses

The schedule of courses for the Master of Arts in Environmental Policy is as follows:

### 7.11 Ethnomusicology

**Professor and Dean**

E. Waterman

**Professor and Associate Dean**

M. Volk

The Master of Arts program in Ethnomusicology is administered by the School of Music in consultation with the Department of Folklore, and generally in response to recommendations from an Interdisciplinary Advisory Committee with representation from both academic units, chaired by the Program Co-ordinator.

The Degree of Master of Arts in Ethnomusicology is offered by part-time and full-time study. While it is normally a course work degree, a thesis option is available upon application. Fieldwork is often a requirement both for independent research and course work. The resources of the Memorial University of Newfoundland Folklore and Language Archive are available to graduate students in Ethnomusicology.
7.11.1 Qualifications for Admission

Applicants may be admitted to the program if they have at least a B+ average with a B.Mus. Degree and/or other Degree in the Humanities or Social Sciences with evidence of specialization in music. Applicants whose professional music training took place outside the university system are also encouraged to apply, provided they have the academic equivalent of the qualifications described above. Applicants from a discipline other than Music will be expected to demonstrate the following skills:

- Competent performance in any musical tradition, as judged by a musician knowledgeable about that tradition.
- Knowledge of culturally appropriate language for discussion of performance techniques in that tradition.
- Ability to discuss musical details on the basis of aural and/or written sources, as appropriate to that tradition.

Candidates for admission may, at the discretion of the Interdisciplinary Advisory Committee, be required to write diagnostic examinations measuring skills and knowledge in music literacy, theory, or aural perception. Candidates with deficiencies in any of these areas may be required to take remedial course work prior to or in addition to the required program.

7.11.2 Program of Study

The M.A. program will normally be completed within five consecutive semesters of full-time study. The degree is normally taken by completing course work and a major research paper. In special circumstances, a student may apply to complete the degree by completing course work and a thesis. Demonstration of competence in a language other than English may be required if warranted by the research proposed by the student.

1. Course Work M.A.

   a. Students must normally complete a minimum of 24 credit hours plus a major research paper (Music 7002). Further courses beyond the minimum number may be required, depending on the background of the student. The required courses are:

   i. Music 7001; Folklore 6030.
   ii. One of Folklore 6100 or Music 6002.
   iii. One area or genre studies course (3 credit hours) relevant to the research of the student.
   iv. Twelve credit hours to be selected from the Music and Folklore courses listed below (with the approval of the Interdisciplinary Advisory Committee); one elective (3 credit hours) may be a relevant course offered in another discipline (with the approval of the Interdisciplinary Advisory Committee).

   b. Research paper (Music 7002) on a topic chosen by the student with his/her supervisor's approval. Proposals for topics and supervisors will be vetted by the Interdisciplinary Advisory Committee no later than the beginning of the third term of study. The paper will normally demonstrate the student's ability to apply methodologies and theoretical constructs, learned in the courses taken, to a specific repertory, or performance context.

2. Thesis M.A. (available by special application to the Interdisciplinary Advisory Committee)

   a. Students must normally complete a minimum of 21 credit hours plus a thesis. The required courses are:

   i. Music 7001; Folklore 6030.
   ii. One of Folklore 6100 or Music 6002.
   iii. One area or genre studies course (3 credit hours) relevant to the research of the student.
   iv. Nine credit hours to be selected from the Music and Folklore courses listed below (with the approval of the Interdisciplinary Advisory Committee); one elective (3 credit hours) may be a relevant course offered in another discipline (with the approval of the Interdisciplinary Advisory Committee).

   b. Thesis submitted in accordance with General Regulation Theses and Reports of the School of Graduate Studies. A thesis proposal, consisting of a statement of topic, working title, plan of research, and preliminary bibliography, with the name of the preferred Supervisor, shall be submitted by the candidate to the Interdisciplinary Advisory Committee no later than the beginning of the third term of study.

7.11.3 Courses

Theories and Methods:

- Music 6001 Research Methods
- Music 6002 Graduate Seminar
- Music 6807 Video Documentary Production (credit may be received for only one of Music 6807 and Music 7803)
- Music 7001 Research Problems and Methods in Ethnomusicology
- Music 7002 Research Paper
- Music 7803 Radio Documentary Production (credit may be received for only one of Music 6807 and Music 7803)
- Folklore 6010 Survey of Folklore Genres and Processes
- Folklore 6020 Field and Research Methods
- Folklore 6030 Folklore Theories
- Folklore 6040 Feminist Theories: Perspectives and Issues
- Folklore 6080 Vernacular Theories
- Folklore 6090 Ethnology
- Folklore 7100 Advanced Folkloristics II: Research and Ethnography

Form and Performance:

- Music 7005 Performance Option
- Folklore 6100 Song and Music
- Folklore 6120 Ballad
- Folklore 6130 Folk Music Canons and Documentary Sound Recordings
- Folklore 6200 Folktale
- Folklore 6210 Legend
- Folklore 6220 Personal Experience Narrative
- Folklore 6250 Language and Play
- Folklore 6260 Ethnography of Communications
- Folklore 6300 Ethnography of Belief
- Folklore 6310 Health Systems
- Folklore 6350 Custom
- Folklore 6360 Traditional Drama
- Folklore 6400 Material Culture
Folklore 6410 Vernacular Architecture  
Folklore 6420 Art and the Artifact  
Folklore 6430 Food and Culture  
Folklore 6720 Folklore and Literature  

**Area and Genre Studies:**  
Music 7010 World Music: Music of Asia and Oceania  
Music 7011 World Music: Music of Africa and the Americas  
Music 7012 Canadian Musical Traditions  
Music 7013 Music and Culture  
Music 7017 Folksong  
Music 7018 Jazz and Blues: The Roots of Popular Music  
Folklore 6120 Ballad  
Folklore 6600 Folklore of Newfoundland  
Folklore 6610 Folklore of Canada  
Folklore 6620 Folklore of the United States  
Folklore 6630 Folklore of the British Isles  
Folklore 6770 The Global and the Local  

**Social Identities:**  
Music 7006 Urban Ethnomusicology  
Music 7007 Music in the Study of Gender, Race and Class  
Music 7009 Music and Place  
Music 7802 Music and Intercultural Processes  
Folklore 6510 Occupational Folklore  
Folklore 6551 Indigenous Expressive Cultures in Cross-cultural Encounter  
Folklore 6730 Folklore and Gender  
Folklore 6780 Ethnicities  

**Public and Applied Ethnomusicology and Folklore:**  
Music 6700 Career Skills for Musicians  
Music 6750 Music Industries Internship (2 credit hours)  
Folklore 6740 Public Sector Folklore  
Folklore 6760 Archiving  
Folklore 6790 Museums: Perspectives and Practices  
Folklore 6800 Applied Folklore  

**Interdisciplinary Perspectives:**  
Music 7008 Media Studies  
Folklore 6700 Folklore and Culture  
Folklore 6710 Oral Tradition and Oral History  
Folklore 6750 Popular Culture: Theory and Debate  

**Independent Study:**  
Music 7026-29 Directed Reading in Ethnomusicology  
Folklore 6570-79 Reading Courses in Folklore  

**Special Topics:**  
Music 6800-09 Special Topics in Music (excluding Music 6807)  
Music 7800-09 Special Topics in Music (excluding Music 7802 and 7803)  
Folklore 6511-29 Special Topics in Folklore  
Folklore 6570-79 Reading Course in Folklore  

---

### 7.12 Folklore

**Associate Professor and Head of the Department**

D. Tye

The Degree of Master of Arts in Folklore is offered by part-time and full-time study. The program normally requires extensive fieldwork research in Newfoundland and/or the Maritimes.

Integral to the teaching of the Department of Folklore is work of the Memorial University of Newfoundland Folklore and Language Archive.

#### 7.12.1 Program of Study

1. Applicants may be admitted to the graduate program if they have an average of at least grade ‘B’ in no fewer than 36 credit hours in Folklore or in any other discipline in the Humanities or Social Sciences.

2. The M.A. program will normally be completed within six consecutive semesters (i.e., a two-year period). The Degree of Master of Arts in Folklore may be taken by course work and comprehensive examination, course work and thesis, or course work and cooperative education work terms. All options are available to full-time and part-time students. However, the work term component of option C cannot be completed on a part-time basis.

   a. **M.A. With Thesis:**
      
      i. Students choosing to do the M.A. with thesis must normally complete a minimum of 24 credit hours plus a thesis. Normally, the required courses are:
         
         - 6010, 6020, and 6030, normally taken as an integrated foundation in the Fall semester.
         - At least one of the following: 6060, 6100, 6120, 6130, 6200, 6210, 6220, 6250, 6260, 6360, 6720.
         - At least one of the following: 6070, 6300, 6310, 6350, 6370, 6400, 6410, 6420, 6430.
         - Nine additional credit hours to be selected from courses in the groups listed above or from the other courses offered by the Department.

      ii. A brief thesis pre-proposal, including a statement of topic, working title, plan of research, ethics statement, preliminary bibliography, and the name of a preferred Supervisor, shall be submitted no later than the end of the candidate’s second semester. A full proposal shall normally be submitted to the Department of Folklore and orally presented before members of
b. M.A. With Comprehensive Examination:
   i. Students choosing to do the M.A. with comprehensive examination must normally complete a minimum of 30 credit hours plus comprehensive examination. Normally, the required courses are:
      • 6010, 6020, and 6030, normally taken as an integrated foundation in the Fall semester.
      • At least one of the following: 6060, 6100, 6120, 6130, 6200, 6210, 6220, 6250, 6260, 6360, 6720.
      • At least one of the following: 6070, 6300, 6310, 6350, 6370, 6400, 6410, 6420, 6430.
      • Fifteen additional credit hours to be selected from courses in the groups listed above or from the other courses offered by the Department.
   ii. Each candidate selecting the M.A. with comprehensive examination option shall normally submit, by the end of the candidate's second semester, written notification of intention to take comprehensives.
   iii. Each candidate selecting this option shall normally write the comprehensive examination at the end of the candidate's fifth semester in the program. The comprehensive examination will be graded by a comprehensive examination committee appointed by the Dean of Graduate Studies on the recommendation of the Head of the Department, in accordance with General Regulations governing the School of Graduate Studies.

c. M.A. With Public and Applied Folklore Co-operative Education Work Terms:
   i. Students choosing to do the M.A. with Public and Applied Folklore Co-operative Education option must normally complete a minimum of 24 credit hours plus two co-operative education work terms. The required courses are:
      • 6010, 6020, and 6030, normally taken as an integrated foundation in the Fall semester.
      • 6740 or 6800 and at least one additional course selected from the following: 6551, 6740, 6760, 6790, 6800.
      • At least one of the following: 6100, 6120, 6130, 6200, 6210, 6220, 6250, 6260, 6360, 6720.
      • At least one of the following 6300, 6310, 6350, 6370, 6400, 6410, 6420, 6430.
      • Three additional credit hours to be selected from courses in the groups listed above or from the other courses offered by the Department.
      • 601W and 602W.
   ii. The dates for starting and finishing each work term are shown in the University Diary.
   iii. A competition for work term employment is organized by the Division of Co-operative Education (DCE) in cooperation with the Department of Folklore. Students may also obtain their own work term jobs outside the competition. Such jobs must be confirmed by letter from the employer and approved by the Head of Folklore and by the DCE on or before the first day of the work term. Work term jobs may be outside St. John’s and possibly outside Newfoundland and Labrador. Students who do not wish to accept a work term job arranged by DCE shall be responsible for finding an alternative acceptable to the Head of Folklore and the DCE. By entering the competition, students give permission for the DCE to supply their Memorial University of Newfoundland transcripts to potential employers.
   iv. Each work term placement will be supervised by the candidate’s program Supervisor, the on-site Supervisor assigned by the employer and the DCE Co-ordinator. The overall evaluation of the work term is the responsibility of the program Supervisor, on-site Supervisor and DCE Co-ordinator. The work term shall consist of two components:
      • On-the-job Student Performance as evaluated by the on-site Supervisor and DCE Co-ordinator, in consultation with the program Supervisor.
      • A Work Report graded by the program Supervisor in consultation with the on-site Supervisor.
   v. Evaluation of the work term will result in the assignment of one of the following final grades:
      • Pass with Distinction: Indicates EXCELLENT PERFORMANCE in both the work report and work performance.
      • Pass: Indicates that PERFORMANCE MEETS EXPECTATIONS in both the work report and work performance.
      • Fail: Indicates FAILING PERFORMANCE in the work report and/or the work performance.

   If a student fails to achieve a final grade of Pass or Pass with Distinction, and provided the student has not failed to achieve a grade of ‘B’ or better in any program course, the student may request to repeat the work term component. The request will be considered by the Department Head in consultation with the program Supervisor and must include a proposal for a new work term placement. Only one work term repeat will be permitted in the student’s program. Alternatively, the student may apply for a change of route to the thesis or comprehensive examination program option.

7.12.2 Courses
A selection of the following graduate courses will be offered to meet the requirements of candidates, normally after consultation with the Head of the Department or the Graduate Studies Administrator, and as far as the resources of the Department will allow. Courses are structured according to the categories of: Theories and Methods, Issues, Form and Performance, Special Topics, Regional, National and International Heritage, Social Identities, Public and Applied Folklore, Interdisciplinary Perspectives, and Required (Ph.D.).
Form and Performance
6100 Song and Music
6120 Ballad
6130 Folk Music Canons and Documentary Sound Recordings
6200 Folktales
6210 Legend
6220 Personal Experience Narrative
6250 Ritual, Festival and Public Display
6400 Vernacular Architecture
6410 Art and the Artifact
6430 Food and Culture
6720 Folklore and Literature

Special Topics
6511-29 Special Topics in Folklore
6550 Special Research in Folklore
6620 Special Research in Folklore
6570-79 Reading Course in Folklife

Regional, National and International Heritage
6600 Folklore of Newfoundland
6610 Folklore of Canada
6620 Folklore of the United States
6630 Folklore of the British Isles
6640 Traditional Culture of Scotland
6650 Culture and Traditions of Ireland
6660 Folklore of the Francophone Regions
6690 International Folklore

Social Identities
6510 Occupational Folklife
6730 Folklore and Gender
6770 The Global and the Local
6780 Ethnicities

Public and Applied Folklore
6740 Public Sector Folklore
6750 Museums: Perspectives and Practices
6800 Applied Folklore

Interdisciplinary Perspectives
6760 Archiving
6790 Applied Folkloristics

Required (Ph.D.)
7000 Advanced Folkloristics I
7100 Advanced Folkloristics II Research and Ethnography

Note: Credit may not be obtained for both 6010 and the former 6110; 6020 and the former 6111; 6030 and the former 6112; 6100 and the former 6430; 6120 and the former 6445; 6300 and the former 6230; 6350 and the former 6230; 6400 and the former 6501; 6720 and the former 6450.

7.13 French

Associate Professor and Head of the Department
A. Thareau

7.13.1 Program of Study

1. The Degree of Master of Arts in French Studies may be completed by full-time or part-time study. "French Studies" may take the form of the study of the French language or of francophone literature, including the study of literary history, criticism or theory. It may also include the study of French-language cinema or of other aspects of francophone civilization

2. Candidates who are practicing teachers of French and wish to pursue French studies in conjunction with studies of the teaching of French may opt to pursue the Master of Arts and Education (Education and Francophone Literatures and Cultures) degree jointly offered by the Faculty of Arts, Department of French and Spanish and the Faculty of Education.

3. Applicants for the M.A. program in French Studies are normally expected to have completed the Honours Degree with a second-class standing or better. An applicant who does not hold an Honours Degree or its equivalent may be required to complete such additional undergraduate courses as the Department considers necessary, prior to admission or as part of the program.

4. The M.A. program in French Studies will consist of 15 credit hours in graduate courses (normally requiring 2 or 3 semesters of full-time study), plus research activities and a thesis of approximately 80 pages. The 15 credit hours shall include 6008 and 6009, normally completed in consecutive semesters. The remaining 9 credit hours shall be obtained by completion of three courses chosen from those in three of the five groups listed in the Courses section below. The language of the thesis will be French. The thesis proposal, after being approved by the Supervisor, will be submitted by the candidate, normally before the end of the third semester of studies, to the Departmental Graduate Studies Committee, who will decide whether or not to grant its approval.

5. Each candidate’s program of study must be approved by the Departmental Graduate Studies Committee.
6. A paper drawn from the thesis will be presented at a Departmental seminar or in another forum approved by the Departmental Graduate Studies Committee. Normally, this presentation will take place at some time between submission of the final draft thesis to the Supervisor and the submission of the thesis to the School of Graduate Studies.

7. The approval of the Departmental Graduate Studies Committee must be obtained before the thesis is forwarded to the School of Graduate Studies for examination.

8. In the final version of the M.A. thesis and other written assignments for M.A. courses, the quality of written French must be of a standard acceptable to the Department as represented by the Graduate Studies Committee. Normally, this will mean that the final version of such assignments will be free of spelling, lexical, and grammatical errors, and of improper use of stylistic conventions. In the case of the M.A. thesis, this requirement applies to the version submitted for examination.

7.13.2 Courses
A selection of the following graduate courses will be offered to meet candidates' requirements, as far as the resources of the Department will allow:

- 6008* Literary Methodology and Theory I
- 6009* Literary Methodology and Theory II
- Historiographical, Genetic, Thematic, Hermeneutical or other historical or critical approaches to French Studies
- 6032 Genetic Criticism and Exegesis
- 6102 History of the French Language
- Psychoanalytical, Ethnological or Anthropological approaches to French Studies
- 6020 Literature and Psychoanalysis
- 6021 Mythocriticism
- 6130-39 Personal/Intimate Literature
- Sociological or Socio-historical approaches to French Studies
- 6022 History, Society, Ideology and Texts
- 6101 The Female Voice: Women's Writing and its Contribution to the Development of French and Francophone Texts
- 6110-19 Paraliterature and Traditional Culture
- Linguistic, Semiotic, Poetic, Rhetorical or Pragmatic approaches to French Studies
- 6011 General Theory of the French Language
- 6030 Grammar of the Text
- 6031 Narratology
- 6140-49 Genres and Discursive Forms
- Other approaches to French Studies
- 6120-29 Texts/Images/Sounds
- 6150-59 Special Topics
- French and Spanish Courses for Students in Other Disciplines
- French 6900 Reading in French
- Spanish 6900 Reading in Spanish

Note: *Credit may not be obtained for both French 6008 and the former French 6006; or for both French 6009 and the former French 6006.

Français

Professeur Agrégée et Directrice du Département
A. Thareau

1. Le diplôme de Maîtrise en Études françaises sanctionne des études à temps plein ou à temps partiel. Les études françaises comprennent l'étude de la langue et de la littérature et l'étude de l'histoire, de la critique ou de théorie littéraire, ainsi que l'étude du cinéma et d'autres aspects des civilisations françaises.

2. Les enseignants et enseignantes de français qui veulent poursuivre leurs études en français et en didactique du français peuvent choisir le programme de Maîtrise en Arts et Education (Enseignement des littératures et cultures francophones) offerte par la Faculté des Arts, le Département d'études françaises et hispaniques et la Faculté d'Education.

3. Pour être admis au programme de Maîtrise en Études françaises, l'étudiant doit normalement détenir un diplôme de baccalauréat avec une spécialisation en Études françaises et une note moyenne d'au moins B. Le département pourra obliger toute personne ne détenant pas ce diplôme ou son équivalent à suivre certains cours du premier cycle avant d'être admis au programme de deuxième cycle ou pendant ses études de maîtrise.

4. L'option en Études littéraires comprend quinze crédits de cours, ce qui exigera normalement 2 ou 3 trimestres d'études à temps plein et un mémoire d'environ 80 pages rédigé en français. Tous les candidats compléteront et le Fr.6008 et le Fr.6009. Normalement, ces deux cours devront être complétés en deux trimestres consécutifs. En plus, il faudra compléter 3 cours choisis parmi ceux qui font partie de 3 des 5 groupes identifiés dans la section COURS. Le projet de mémoire, qui est approuvé par son directeur, doit être officiellement présenté par le candidat au Comité des Études de deuxième cycle, avant la fin du troisième trimestre, pour son approbation.

5. Le programme d'études du candidat doit être approuvé par le Comité des Études de deuxième cycle.

6. Une communication tirée du mémoire sera présentée dans le cadre des séminaires départementaux ou dans une autre réunion approuvée par le Comité des Études de deuxième cycle. Normalement, cette présentation se fera entre la soumission à son directeur et sa soumission définitive à l'Ecole des Études supérieures.

7. Avant d'être soumis à l'Ecole des Études supérieures, le mémoire doit être proposé au Comité des Études de deuxième cycle, qui doit en autoriser le dépôt.

8. Dans la version finale du mémoire et des autres travaux préparés pour les cours de maîtrise, la qualité du français écrit doit être d'un niveau acceptable au département, qui est représenté par le Comité des Études de deuxième cycle. Ainsi, la version finale de ces travaux devra être conforme à ce niveau, et en conformité avec les règles orthographiques, lexicales, grammaticales, stylistiques et protocoles. Pour le mémoire, cette exigence s'appliquera à la version remise aux examinateurs.

Cours
Un choix des cours de deuxième cycle suivants sera offert afin de répondre aux besoins des étudiants inscrits au programme de maîtrise selon les ressources disponibles au département:

- 6008* Méthodologie et théorie de la littérature I
6009* Méthodologie et théorie de la littérature II

**Approche historiographique, génétique, thématique, herméneutique ou autrement historique ou critique:**
6032 Génétique et critique
6102 Histoire de la langue française

**Approche psychanalytique, ethnologique ou anthropologique:**
6020 Psychanalyse et littérature
6021 Mythocritique
6130-39 Littérature personnelle/intime

**Approche sociologique ou socio-historique:**
6022 Histoire, société, idéologie et textes
6101 La voix féminine et le féminisme
6110-19 Parallélité culturels et cultures traditionnelles

**Approche linguistique, sémiotique, poétique, rhétorique ou pragmatique:**
6011 Théorie générale de la langue française
6030 Grammaire du texte
6031 Narratologie
6140-49 Discours et genres

**Autres approches aux Études françaises:**
6120-29 Textes/Images/Sons
6150-59 Sujets spéciaux

*Cours de français et d’espagnol pour étudiants d’autres disciplines*
Français 6900 Lecture en français
Espagnol 6900 Lecture en espagnol

*Nota / Note: Les étudiants ne peuvent obtenir de crédit pour le Français 6008 et le Français 6006 (désormais supprimé) ni pour le Français 6009 et le Français 6006.*

### 7.14 Geography

**Professor and Head of the Department**
C. Mather

#### 7.14.1 Program of Study

1. The degrees of Master of Arts and Master of Science are offered in Geography by full-time or part-time study.
2. Admission requirements are set forth in the *General Regulations* of the School of Graduate Studies and Degree Regulations for *Master of Arts* and *Master of Science*.
3. The deadline for submission of applications for admission is January 15. Candidates will normally commence their programs in the Fall semester.
4. An applicant will be admitted to a graduate program only if a faculty member agrees to act as Supervisor. A supervisory committee will be established after admission, normally consisting of the Supervisor and two other individuals, one of whom will normally be a member of the Department.
5. Major research areas for graduate study at the master’s level are cultural, political, historical, economic, urban, resource management, community and regional development, geomorphology, Quaternary environments, climatology and geographic information sciences.
6. Candidates will register for the M.A. program if their fields of interest lie in an area of Human Geography or for the M.Sc. if their fields of interest are in Physical Geography or Geographic Information Sciences.
7. It is expected that the program of study and research for the M.A. or M.Sc. will normally be completed in a maximum of two years of full-time work, or three years of part-time work.
8. Candidates must successfully complete a minimum of 12 credit hours of graduate program courses with a minimum grade of B in each.
   Geography 6000 and 6001 will be required courses for all candidates who have not already completed equivalent courses at the Honours or post-graduate level.
9. Candidates whose undergraduate degree is not in geography will normally be required to complete some additional undergraduate program courses during their first year of study, in addition to the required graduate program courses. Normally four such undergraduate courses will be required, and a minimum grade of 70% must be obtained in each.
10. Each candidate will be required to present a seminar on his or her research to the Department.
11. Each candidate must submit a thesis based on his or her own original research. This thesis will be examined in accordance with the *General Regulations* of the School of Graduate Studies.

#### 7.14.2 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates as far as the resources of the Department will allow:

- 6000 Development of Geographical Thought and Practice I
- 6001 Development of Geographical Thought and Practice II
- 6002 Directed Readings in Geography
- 6100 Research Techniques in A Selected Field of Geography I
- 6101 Research Techniques in A Selected Field of Geography II
- 6120 Geospatial Modelling and Analysis
- 6150 Environmental Remote Sensing and Image Analysis
- 6200 Economic Geography I
- 6201 Economic Geography II
- 6204 Sustainable Community and Regional Development
- 6250 Conservation and Sustainability of Natural Resources
- 6251 Survey Design, Questionnaire Development and Techniques of Data Collection
- 6300 Problems in Fisheries Geography
7.15 German

Associate Professor and Acting Head of the Department

J. Buffinga

7.15.1 Program of Study

The degree of Master of Arts (M.A.) is offered in German Language and Literature and may be taken by full-time or part-time study.

1. Candidates for the M.A. degree in German are normally expected to have completed an Honours degree with a minimum of second-class standing. In addition to the general requirements, candidates will be expected to have acquired a superior knowledge of the spoken and written language as determined by the Department prior to admission.

2. Students will be required to demonstrate superior German language skills as determined by the Department prior to admission to the program.

3. As part of the admissions process, prospective students must submit a non-binding outline of the area in which they would like to write their thesis.

4. Students may choose from two modes of completing the M.A. program, in accordance with the Graduate Studies Regulations Governing the Degree of Master of Arts:
   a. Candidates complete at least 18 credit hours of course work and submit a thesis. The entire program of study and research will normally take one year of full-time study. The M.A. thesis will be based on research conducted by the student.
      i. The thesis will be examined in accordance with General Regulation, Thesis and Reports.
      ii. Normally, one of the assigned examiners of the thesis will be external to the Department.
   b. Candidates complete at least 18 credit hours of course work and write a comprehensive examination. The entire program of study and research will normally take one year of full-time study.
      i. The comprehensive examination shall be examined in accordance with the General Regulations, Comprehensive Examinations.
      ii. Material to be covered on the M.A. comprehensive exam is normally determined by consultation between the student and the Head of the Department (or designate). The exam is written in two sittings: one exam will cover the student’s chosen area and the other will cover the student’s reading list and literary terminology. A final component of the comprehensive exam is an oral examination on the eras or issues covered in the written portion of the exam.

5. All students, regardless of the mode of completing the requirements for the M.A., will be required to complete German 6103.

7.15.2 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the Department will allow:

6000 Issues in Modern Technology, Literature and Culture

6001 Issues in Literature on the Edges of Society

6100 Issues in the History of the German Language

6103 Bibliography and Research Methods

6200 Issues in Early German Literature and Culture I

6201 Issues in Early German Literature and Culture II

6300 Issues in Early Modern German Literature and Culture I

6301 Issues in Early Modern German Literature and Culture II

6800 Issues in Modern German Literature and Culture I

6801 Issues in Modern German Literature and Culture II

6900 Issues in Contemporary German Literature and Culture I

6901 Issues in Contemporary German Literature and Culture II

6903 Issues in Propaganda and Censorship

7000 Special Subject or Author I

7001 Special Subject or Author II

7002-7020 Special Topics in German Studies

7.16 History

Professor and Head of the Department

S. Cadigan

The degrees of Doctor of Philosophy and Master of Arts are offered in History by full-time or part-time study.

7.16.1 Program of Study

1. The Department of History offers M.A. programs in a broad range of geographical and thematic areas. Students in the M.A. program will choose a thesis or non-thesis option.

2. M.A. candidates who choose the non-thesis option shall complete a minimum of 24 credit hours, 18 of which shall normally be 6190,
6200 and 6999.

3. M.A. candidates who choose the thesis option shall complete 9 credit hours, 6 of which shall normally be 6190 and 6200, plus a thesis.

4. Where a student’s major research project requires him or her to read a language other than English, he or she must demonstrate a reading knowledge of this language through an exam or other method subject to the approval of the Graduate Committee.

7.16.2 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates as far as the resources of the Department will allow:

- 6000 Advanced Studies in Newfoundland History
- 6010 Advanced Studies in Canadian History
- 6020 Advanced Studies in the History of the United States
- 6030 Advanced Studies in French History
- 6040 Advanced Studies in British History
- 6050 Advanced Studies in German History
- 6060 Advanced Studies in North Atlantic History
- 6070 Advanced Studies in Social History
- 6075 Advanced Studies in Labour and Working-Class History
- 6090 Advanced Studies in Women’s History
- 6095 Advanced Studies in Ethnography
- 6100 Advanced Studies in Military History
- 6105 Advanced Studies in Diplomatic History
- 6110 Advanced Studies in Maritime History
- 6120 Advanced Studies in Economic and Business History
- 6125 Medical Science and Social Responsibility in Health Care: Aspects of Medical History (cross-listed as Medicine 6420)
- 6130 Quantification and Measurement in History
- 6140-59 Research in Special Topics
- 6160-79 Reading Courses (Special Topics)
- 6190 Theory and Method
- 6200 Masters Seminar I
- 6999 Masters Research Paper (12 credit hours)

7.17 Linguistics

Professor and Head of the Department
M. MacKenzie

The degrees of Master of Arts and Doctor of Philosophy are offered in Linguistics.

7.17.1 Program of Study

1. The Linguistics Department offers the M.A. program with both a thesis and a non-thesis option. The M.A. with thesis option is intended for those who have completed an undergraduate major in Linguistics with satisfactory standing (a B+ average in Linguistics courses). Students interested in the thesis option who have an excellent undergraduate record and a well-defined research plan, yet who do not possess the equivalent of an undergraduate major, will be required to take additional undergraduate and/or graduate courses in Linguistics. Other students are encouraged to apply for the M.A. without thesis option.

2. The M.A. with thesis option is normally a two-year program consisting of at least 15 credit hours of graduate courses (including Linguistics 7000 and 7001), plus a thesis.

3. The M.A. without thesis option is normally a two-year program consisting of at least 21 credit hours of graduate courses (including Linguistics 7000 and 7001), plus a research project (Linguistics 6999), which consists of a major research paper in an approved area followed by an oral examination.

4. The M.A. in Linguistics requires proficiency in a language other than the candidate's first language, as demonstrated by a minimum B grade in a second-year undergraduate language course, or performance satisfactory to the Department in an arranged reading proficiency test. A working or structural knowledge of other languages may also be required for particular programs (e.g., Latin, Greek or Sanskrit for historical Indo-European linguistics, or courses in the series Linguistics 6050-59 or the former 6010-6041).

5. All M.A. students are advised to consult the Linguistics department's Graduate Handbook for details on program requirements and for general information relating to the graduate program.

7.17.2 Courses

A selection of the following graduate courses will be offered to meet the requirements of students, as far as the resources of the Department will allow. Full information is to be found in the Department's Graduate Handbook.

- 6050-54 Structure of an Uncommonly-Taught Language
- 6050 Advanced Studies in German History
- 6055-59 Structure of a North American Aboriginal Language
- 6060 Advanced Studies in North Atlantic History
- 6070 Advanced Studies in Social History
- 6075 Advanced Studies in Labour and Working-Class History
- 6080 Advanced Studies in Intellectual History
- 6090 Advanced Studies in Women's History
- 6095 Advanced Studies in Ethnography
- 6100 Advanced Studies in Military History
- 6105 Advanced Studies in Diplomatic History
- 6110 Advanced Studies in Maritime History
- 6120 Advanced Studies in Economic and Business History
- 6125 Medical Science and Social Responsibility in Health Care: Aspects of Medical History (cross-listed as Medicine 6420)
- 6130 Quantification and Measurement in History
- 6140-59 Research in Special Topics
- 6160-79 Reading Courses (Special Topics)
- 6190 Theory and Method
- 6200 Masters Seminar I
- 6999 Masters Research Paper (12 credit hours)

School of Graduate Studies 2013-2014

7000 Seminar in Research Methods
7001 Analytical Issues in Linguistics
7100 Topics in North American Native Languages (Prerequisites: a course from series 6050-6054 or the former 6011, 6031, 6041)
7200 Advanced Topics in Syntax (Prerequisites: 6111, plus either 6001 or 6115)
7400 Seminar in Comparative and Historical Linguistics (Prerequisite: 6400 or 6410)
7430 Seminar in Linguistic Variation (Prerequisite: 6430)
7800 Seminar in Morpho-semantics (Prerequisite: 6800)
7900-03 Special Topics in Linguistics

Note: Appropriate equivalent credits may be given for courses taken at the Summer Institute of the Linguistic Society of America, or a similar institute. Students are encouraged to attend these institutes. They should, however, consult the Head of the Department as to what courses may be appropriate for credit.

7.18 Philosophy
Associate Professor and Interim Head of the Department
A. Sullivan

7.18.1 Program of Study
The Degree of Master of Arts is offered in Philosophy by full-time or part-time study. The program is designed so that it may be completed in one academic year (three semesters) of full-time study.

The candidate must complete 18 credit hours - 3 credit hours from 6000, 12 credit hours from 6011-6016, any 3 credit hours from 6101-6102 - and a thesis.

Normally, a full-time candidate will complete all the 18 credit hours and submit a thesis proposal by the end of the second semester of study. A minimum of one additional semester will be spent in completing the balance of the program.

7.18.2 Courses
6000 Graduate Seminar
Author Seminars
6011 Ancient and Medieval Philosophy
6012 Modern Philosophy
6013 Contemporary Philosophy
Area Seminars
6014 Metaphysics
6015 Theory of Knowledge
6016 Ethical and Political Theory
Tutorials
6040-6099 Special Topics
6101 Selected Texts
6102 Current Issues

7.19 Political Science
Associate Professor and Head of the Department
L. Ashworth

7.19.1 Program of Study
The Degree of Master of Arts is offered in Political Science by full-time and part-time study. The degree of Master of Arts (M.A.) in Political Science may be taken by course work and thesis, course work and internship, or course work and research paper. The thesis, internship, and research paper options are available to full-time students. The M.A. with thesis is a two year program. The internship and research paper options are one year programs for full-time students. The thesis and research paper options are open to part-time students.

1. M.A. with Thesis:
   a. Students choosing the M.A. with thesis must normally complete a minimum of 12 credit hours in graduate program courses. These 12 credit hours are from required courses: 6000, 6010, and 2 subfield surveys (two of 6100, 6200, 6300, 6400, 6500, 6600, or 6700). Further courses beyond the minimum number may be required, depending on the background and needs of the student.
   b. Each student choosing the thesis option will submit a thesis on a subject that has been approved by the supervisory committee of the Department.
   c. Students applying for the thesis option must submit a brief (one page maximum) statement of their research interest with their
2. **M.A. with Internship:**
   a. Students choosing the M.A. with internship must normally complete a minimum of 24 credit hours in graduate program courses. Twenty-one credit hours are from required courses: 6000, 6010, 6030, 6031, 6790, and a subfield survey (one of 6100, 6200, 6300, 6400, 6500, 6600, or 6700). Further courses beyond the minimum number may be required, depending on the background and needs of the student.
   b. Each student choosing this option will complete, normally in the Spring semester, a one-semester, full-time internship, 6030, with a political organization, government agency, or voluntary agency. Students registering for 6030 must also register for its co-requisite, 6031. The placement must normally be selected from a list of approved organizations that is maintained by the Department.

3. **M.A. with Research Paper:**
   a. Students who choose the M.A. with research paper option shall complete a minimum of 24 credit hours, fifteen of which shall normally be 6000, 6010, and 6999.
   b. The selection of a topic for the research paper must be approved by a faculty supervisor who will be chosen in consultation with the Department Head. The paper will be graded by the supervisor and one other member of the faculty, either from within the Department or the Department of a cognate discipline.

### 7.19.2 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the Department will allow.

- **6000** Political Science Concepts
- **6010** Political Science Methods
- **6020** Research Design
- **6030** Internship
- **6031** Applied Political Research (6 credit hours)
- **6100** Political Philosophy
- **6200** International Politics
- **6300** Comparative Politics
- **6301** European Politics and Public Policy
- **6350** Political Economy
- **6400** Political Development
- **6430** Latin American Politics
- **6500** Political Behaviour
- **6600** Newfoundland Politics
- **6700** Canadian Politics
- **6710** Intergovernmental Relations
- **6720** Local Politics
- **6740** Public Administration
- **6770** Canadian Provincial Politics
- **6780** Politics of the Atlantic Provinces
- **6790** Public Policy Process
- **6900-10** Special Topics
- **6999** Master's Essay (9 credit hours)

### 7.20 Religious Studies

**Professor and Head of the Department**

K.I. Parker

#### 7.20.1 General Information

The degree of Master of Arts (M.A.) is offered in Religious Studies and may be taken by full-time or part-time study. Candidates for the M.A. in Religious Studies may choose between the M.A. with Thesis option and the M.A. with a Project option. Candidates must specify which M.A. stream they wish to pursue upon entry into the program.

1. Admission requirements are set forth in the Regulations Governing the Degree of Master of Arts. An applicant should have completed a minimum of 45 credit hours in Religious Studies courses at the undergraduate level with at least the grade of B in each. An applicant should have completed a minimum of 45 credit hours in Religious Studies courses at the undergraduate level with at least the grade of B in each. An applicant's overall undergraduate program must represent, to the satisfaction of the Department, a solid groundwork for graduate studies.

2. A candidate who does not hold an Honours Degree or its equivalent shall be required to complete such additional undergraduate courses as the Department may deem necessary. These courses may be required as prerequisites to admission to the program, or as an additional constituent part of the program, at the discretion of the Department.

3. Upon acceptance into the program, each candidate will be assigned a Supervisor, whose duty it shall be to assist the candidate.

4. Students will be required to satisfy the Department as to proficiency in any language or technical facility deemed necessary by the Graduate Studies Committee of the Department for successful completion of the thesis or project.

#### 7.20.2 Program of Study

1. **Thesis Option**
   a. Normally, the Master of Arts program with thesis option should take two years to complete, the first of which is to be spent primarily on course work and preparation of a thesis proposal. A student accepted on a part-time basis would normally be expected to take three to five years to complete the program.
   b. Students in the M.A. program with Thesis option shall normally complete a thesis and a minimum of 12 credit hours in course work.
   c. Students may write a thesis in one of the following areas: Hinduism, classical Confucianism, philosophical Daoism, Chinese and North American Buddhism, Buddhism and psychology, Judaism, Christianity, Hebrew Bible, New Testament, religious history of...
Canada, religious history of Newfoundland and Labrador, medieval religious thought, religion and culture (including pop culture),
New Age religious movements, ethics and social justice, philosophy of religion.

d. Before a student begins writing his or her thesis, he/she should submit a research proposal to the Graduate Studies Committee
of the Department for approval.

e. Students in the M.A. with Thesis Option must complete three required courses and at least one other from the course list. The
three required courses are: RS 6100 Methods and Theories in Religious Studies; RS 6120 Studies in Religious Texts; and RS
6130 Religious Contexts.

2. Course-based M.A. with a Project Option

a. Normally, the Master of Arts program with a Project option should take one year (three semesters) to complete, the first two
semesters spent on course work and the third semester on completing the project.

b. Before a student begins writing his or her project, he/she should submit a research proposal to the Graduate Studies Committee
of the Department for approval.

c. Students in the M.A. with a Project option must complete four required courses and at least two others, one of which may be
from a cognate discipline (upon approval). The four required courses are: RS 6100 Methods and Theories in Religious Studies; RS
6120 Studies in Religious Texts; RS 6130 Religious Contexts; and RS 699A/B Advanced Research in Religious Studies.

7.20.3 Courses

6100 Methods and Theories in Religious Studies (Note: Credit may not be obtained for both Religious Studies 6100 and the former
Religious Studies 6000)
6120 Studies in Religious Texts
6130 Religious Contexts
6220 Selected Topics in New Testament
6230 Selected Topics in Hebrew Bible/Old Testament
6330 Selected Topics in Judaism
6340 Selected Topics in East Asian Religious Traditions
6350 Selected Topics in South Asian Religious Traditions
6720 Selected Topics in the History of Christianity
6730 Selected Topics in the Religious History of Canada
6740 Selected Topics in the Religious History of Newfoundland and Labrador
6750 Selected Topics in Medieval Religious Thought
6820 Selected Topics in Christian Ethics
6830 Selected Topics in Religion and Culture
6840 Selected Topics in the Philosophy of Religion
6850 Selected Topics in New Age Religious Movements
6900-6910 Special Topics in the Study of Religion
699A/B Advanced Research in Religious Studies (9 credit hours)

7.21 Sociology

Associate Professor and Head of the Department
K. Stanbridge

The Degrees of Master of Arts and Doctor of Philosophy can be earned through full-time or part-time study. Area of department
specialization include: Social Theory; Sociology of Culture; Criminology; Environmental Sociology; Social Inequality; Sociology of
Gender; Sexuality; Health, including Occupational Health; Development; Work; Political Sociology; and Maritime Sociology. Graduate
courses are taught as tutorials or small seminars.

7.21.1 Program of Study

1. Minimum admission requirements are a B average in undergraduate studies with a good undergraduate background in Sociology.

2. The M.A. Degree with thesis requires the completion of 12 credit hours in graduate courses, normally including the Graduate
Seminar (6880) and Methods of Sociological Research (6040), and a thesis. In the case of full-time students, the M.A. with thesis is
normally completed in two years. The first year is devoted to the completion of the required courses and the definition of the thesis
research topic. The second year is devoted to the completion of the thesis.

3. The M.A. Degree by course work requires the completion of 24 credit hours, normally including the Graduate Seminar (6880),
Methods of Sociological Research (6040), Social Theory (6150), Master's Research Paper (6900) and three electives. These
courses should be taken during the first two semesters of full-time study. The research paper (Sociology 6900) will be supervised by
a faculty member and must be presented at a Departmental seminar. The Supervisor and one other member of Department will
grade the paper. The research paper should be written in the third semester of full-time study.

7.21.2 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the
Department will allow:

6040 Methods of Sociological Research
6041-6049 Special Topics in Advanced Sociology
6090-94 Special Area in Sociology
6120 Social Organization
6130 Social Stratification
6140 The Community
6150 Social Theory
6160 Theory Construction and Explanation in Sociology
6240 Sociology in Medicine
6280 Social and Economic Development
6300 Maritime Sociology
6310 Political Sociology
6320 Gender and Society
6330 Science and Technology
6340 Comparative North Atlantic Societies

Archived Previous Calendar available at
mun.ca/university-calendar
6350 Environmental Sociology
6360 Sociology of Work
6370 Feminist Theory and Methods
6380 Women, Nature, Science and Technology (cross-listed as Gender Studies 6380)
6390 Sociology of Culture
6610 Socialization
6620 Current Topics in Social Behaviour
6880 Sociology Graduate Seminar
6900 Master’s Research Paper (6 credit hours)

8 Regulations Governing the Degree of Master of Arts and Education (Education and Francophone Literatures and Cultures)

Professor and Dean of Arts
L. Phillips

Associate Professor and Dean of Education
K. Anderson

Associate Professor and Associate Dean of Arts (Graduate and Research)
C. Dyck

Associate Professor and Associate Dean of Education
T. Seifert

The degree of Master of Arts and Education (Education and Francophone Literatures and Cultures) is jointly offered by the Faculty of Arts and the Faculty of Education, and is offered by full-time or part-time study.

These regulations should be read in conjunction with the General Regulations of the School of Graduate Studies of Memorial University of Newfoundland.

The Administrative Committee is responsible for the program. The Committee shall be comprised of the Associate Dean, Graduate Programs in the Faculty of Education (or delegate), the Head of the Department of French and Spanish (or delegate) and one appointed faculty member. The faculty member shall come from either the Faculty of Education or the Department of French and Spanish in alternating years. The Administrative Committee is responsible for admissions and advising students on course selection when appropriate.

8.1 Qualifications for Admission

To be considered for admission to the Master of Arts and Education (Education and Francophone Literatures and Cultures), an applicant shall normally hold a Bachelor of Education degree, with a concentration in French, from an institution recognized by Senate. Applicants should have a minimum ‘B’ standing or an average of 70% in the last 30 courses attempted and two years of experience teaching French. An appropriate level of proficiency in French is required, and the applicant’s level of competence will be evaluated by the Administrative Committee.

8.2 Program of Study

1. Candidates for the Master of Arts and Education (Education and Francophone Literatures and Cultures) may choose one of two program options:
   - Option I. Project Route
   - Option II. Comprehensive Course Route

2. All candidates shall be required to complete:
   - French 6800 Littératures francophones: Théorie et pratique/Francophone literatures: Theory and practice
   - French 6810 Cultures francophones: Théorie et pratique/Francophone Cultures: Theory and practice
   - Education 6100 Research Designs and Methods in Education
   - Six credit hours from Memorial University of Newfoundland, Department of French and Spanish graduate course offerings as deemed appropriate by the Administrative Committee.
   - Nine credit hours selected from:
     - Education 6668 Current Issues in Second Language Education
     - Education 6669 Graduate Seminar in Second Language Teaching and Learning
     - Education 6673 Second Language Teaching, Learning and Curriculum
   - Three credit hours from other Memorial University of Newfoundland, Faculty of Education graduate course offerings as deemed appropriate by the Administrative Committee.

3. Students choosing Option I must also complete:
   - Education 6392 Project in Curriculum, Teaching and Learning Studies

4. Students choosing Option II must also complete:
   - Three credit hours from Memorial University of Newfoundland, Department of French and Spanish graduate course offerings as deemed appropriate for each candidate’s program by the Administrative Committee.
   - Education 6390 Research and Development Seminar in Curriculum, Teaching and Learning Studies

8.3 Evaluation

1. In order to continue as a candidate for the degree of Master of Arts and Education (Education and Francophone Literatures and Cultures), a candidate shall obtain an A or B grade in each required course. A candidate who receives a grade of C in any required course must repeat that course and obtain a minimum grade of B. In the case of an elective course, a suitable replacement course acceptable to the Administrative Committee may be substituted for the failed course. Only one such repetition/replacement shall be permitted on the candidate’s graduate program. Should a grade of less than B be obtained in the repeated/replacement course, or
any other program course, the candidate shall be required to withdraw from the program.

2. When the Administrative Committee has determined, through consultation with the candidate, graduate course instructors, and the project supervisor, if applicable, that the candidate’s work has fallen below satisfactory level, they may request the Dean of the Faculty of Education and the Head of the Department of French and Spanish recommend to the Dean of Graduate Studies that the candidate’s program be terminated.

8.4 Courses

French 6800 Littératures francophones: Théorie et pratique/ Francophone literatures: Theory and practice
French 6810 Cultures francophones: Théorie et pratique/ Francophone Cultures: Theory and practice
Education 6100 Research Designs and Methods in Education
Education 6390 Research and Development Seminar in Curriculum, Teaching and Learning Studies
Education 6392 Project in Curriculum, Teaching and Learning Studies (6 credit hours)
Education 6668 Current Issues in Second Language Education
Education 6669 Graduate Seminar in Second Language Teaching and Learning
Education 6673 Second Language Teaching, Learning and Curriculum (credit may not be obtained for both Education 6673 and the former 6665 or 6667)

Other courses offered for the Master of Education program and the Master of Arts in French Studies program as deemed appropriate by the Administrative Committee

Règlements de la Maîtrise ès Arts et Éducation (Enseignement des littératures et cultures francophones)

Professeure et Doyenne des Arts
L. Phillips

Professeure Agrégée et Doyen d’Éducation
K. Anderson

Professeure Agrégée et Doyenne Adjointe aux Études Supérieures et à la Recherche
C. Dyck

Professeur Agrégé et Doyen adjoint d’Éducation
T. Seifert

La Maîtrise ès Arts et Éducation (Enseignement des littératures et cultures francophones) est offerte conjointement par la Faculté des Arts et la Faculté d’Éducation et cautionne des études à temps partiel ou à temps plein.

Il est recommandé de lire ces règlements en conjonction avec les Règlements généraux de l’École des Études supérieures.

Le Comité administratif est responsable du programme. Le Comité sera composé du Doyen adjoint aux programmes supérieurs de la Faculté d’Éducation (ou son représentant), le Directeur du Département d’études françaises et hispaniques (ou son représentant), et un autre membre. Ce dernier viendra alternativement (une année sur deux) d’une des deux unités. Le Comité administratif décidera de l’admission et conseillera à l’occasion les étudiants sur leur choix de cours.

Admission

Pour être admis au programme de Maîtrise ès Arts et Éducation (Enseignement des littératures et cultures francophones), il faut normalement détenir un Baccalauréat en Éducation, avec concentration en français, provenant d’une institution reconnue par le Sénat. Il faut une note moyenne minimale de ‘B’ ou une moyenne de 70% dans les trente derniers cours et deux ans d’expérience dans l’enseignement du français. Un niveau adéquat de français est nécessaire et la compétence des candidats (le masculin est utilisé à tire épiciène) sera évaluée par le comité d’admission.

Programme d’études

1. Les candidats à la Maîtrise ès Arts et Éducation (Enseignement des littératures et cultures francophones) choisiront l’une ou l’autre des deux options suivantes:
   • 1re option Programme menant au projet terminal
   • 2e option Programme entièrement composé de cours

2. Tous les candidats devront compléter:
   • Six heures crédits de cours de deuxième cycle du Département d’études françaises et hispaniques jugés appropriés par le Comité administratif.
   • Neuf heures crédits parmi:
     - Education 6667 Second Language Teaching, Learning and Curriculum
     - Education 6668 Current Issues in Second Language Education
     - Education 6669 Graduate Seminar in Second Language Education
   • Trois heures crédits de cours de la Faculté d’Éducation jugés appropriés par le Comité administratif.

3. L’étudiant ayant choisi la 1re option devra compléter:
   • Education 6392: Project in Curriculum, Teaching and Learning Studies

4. L’étudiant ayant choisi la 2e option devra compléter:
   • Trois heures crédits de cours de deuxième cycle du Département d’études françaises et hispaniques jugés appropriés pour le programme de l’étudiant.
   • Education 6390 Research and Development in Teaching and Learning Studies

Évaluation

1. Afin de continuer son inscription au programme de Maîtrise ès Arts et Éducation (Enseignement des littératures et cultures francophones), le candidat doit obtenir un note de A ou B dans chaque cours obligatoire. Le candidat qui reçoit une note de C dans un cours obligatoire doit répéter ce cours et obtenir au moins B. Dans le cas d’un cours facultatif, un cours jugé approprié par le Comité administratif peut être substitué à un cours qui n’a pas été réussi. Une telle répétition ou un tel remplacement ne sera permis qu’une seule fois dans le programme de l’étudiant. Si une note moindre que B est obtenue dans un cours répété ou dans un cours...
9 Regulations Governing the Degree of Master of Business Administration

Professor and Dean
W. Zerbe

Assistant Professor and Director of Graduate Programs (Business)
P.A. Coady

The Degree of Master of Business Administration (M.B.A.) is offered by full-time or part-time study. These regulations must be read in conjunction with the General Regulations of the School of Graduate Studies of Memorial University of Newfoundland.

9.1 Qualifications for Admission

1. Admission is limited and competitive. To be considered for admission to the Master of Business Administration program, an applicant shall normally hold at least a Bachelor’s Degree, with a minimum B standing, from an institution recognized by Senate. Qualified applicants with relevant employment experience will normally receive preference during the evaluation of applications. Applicants must achieve a satisfactory total score on the Graduate Management Admission Test (GMAT), as well as an appropriate balance of verbal and quantitative GMAT score components. Specific information regarding test centres, dates, registration procedure and deadlines can be obtained by contacting the Graduate Management Admission Council at www.mba.com. Qualified applicants with relevant employment experience will normally receive preference during the evaluation of applications.

2. In exceptional cases, applicants who have not completed an undergraduate degree, but who meet all other requirements, may be considered for admission. Preference will be given to those who present a high GMAT score, have a minimum of 10 years of full-time managerial and executive experience, and have completed several years of university studies. The Faculty may also take into account relevant professional credentials. Applicants who do not meet normal admission requirements may be required to complete, with a high level of achievement, certain undergraduate courses before being considered for admission.

3. When circumstances warrant, and only on the strong recommendation of the Faculty of Business Administration, consideration may be given to candidates who do not meet some of the above requirements.

4. Applicants who did not complete a four-year baccalaureate degree at a recognized university where English is the primary language of instruction must normally complete either the:
   a. Test of English as a Foreign Language (TOEFL) and achieve a paper-based score of 580 (or higher), computer-based score of 237 (or higher), or Internet based score of 92-93 (or higher); or
   b. International English Language Testing System (IELTS) and achieve a score of 7 (or higher).

Information regarding the TOEFL is available from the Educational Testing Service at www.ets.org. IELTS information is available at www.ielts.org. It is noted that other equivalent tests acceptable to the School of Graduate Studies will also be considered.

9.2 Deadlines for Applications

Applications and all supporting documents must be received no later than May 1 from Canadian applicants wishing to enter full-time or part-time studies in the Fall semester. Full-time and international applicants are normally considered for entry in the Fall semester. International applicants must submit complete documentation by March 1. Part-time applicants planning to enter in the Winter (January) or Spring (May) semester must apply prior to October 15 and January 15 respectively. Individuals submitting applications later than the above dates are not assured of consideration for admission to the program in the semester desired; their applications will be processed only if time and resources permit.

9.3 Procedure for Admission

1. Applications for admission to the M.B.A. program must be made on the appropriate form to the School of Graduate Studies.

2. The following documents must be submitted in support of the official application form:
   a. Letters of appraisal from two referees, at least one of whom has had close professional contact with the applicant within the last two years, and at least one of whom is capable of appraising the applicant's academic potential as a graduate student.
   b. Two official transcripts from each university or other post-secondary institution previously attended, to be sent directly by its Registrar (or equivalent officer) to the School of Graduate Studies. If not recorded on the transcript, official evidence of completion of undergraduate degree must also be submitted.
   c. The official GMAT score report, to be sent directly by the Graduate Management Admission Council. The code number for Memorial University of Newfoundland is LTT-6W-51.
   d. Where applicable, an official TOEFL or IELTS score report (or another equivalent test acceptable to the School of Graduate Studies), to be forwarded directly by the educational testing service.
   e. Application files are evaluated only when all required items have been received.
3. Admission shall be by the Dean of the School of Graduate Studies on the recommendation of the Faculty of Business Administration. Upon notification from the Dean of the School of Graduate Studies of acceptance into the M.B.A. program, applicants must give written notice to the School of Graduate Studies of their intention to register. Such notice must be received by the Office of the Dean within 30 days of notification of acceptance, or three weeks prior to semester registration.

9.4 Direct Entry and Advanced Standing

1. Students who have an undergraduate degree in business with significantly high academic standing will be considered for direct entry into the second year of the M.B.A. Program. Their course load will be 8107, 8209, 8208; 3 credit hours chosen from 9005, 9020, 9306, 9325, or 9326 or another approved International course; plus 18-credit hours in electives from the schedule of M.B.A. electives listed in Table III. Direct entry will normally be considered if the undergraduate business degree with significantly high academic standing was awarded within seven years of the year for which admission to the M.B.A. program is being sought. The Faculty’s Committee on Course Based Master’s Programs reserves the right to require additional courses where there are noted deficiencies in a student’s undergraduate record.

2. The Faculty’s committee on Course Based Masters Programs may recommend advanced standing for students who do not qualify for direct entry at the time of admission to the M.B.A. program. Advanced standing for any 8000 level M.B.A. course would normally require that the student had achieved a grade of 75% or better at Memorial University of Newfoundland in undergraduate courses required for advanced standing. Courses will normally be considered for advanced standing if they are part of a degree that has been awarded within seven years of the year in which admission to the M.B.A. program is being sought. Advanced standing will not be granted for 8001, 8107, 8208, 8209 and 8203.

3. The following information must be submitted to the M.B.A. Program Office, Faculty of Business Administration, for evaluation by the Committee:
   a. a detailed course outline for each course to be considered in the application for advanced standing;
   b. a description of the method of evaluation used in each such course, the grades received, and the completion dates.

4. Students who enter the M.B.A. program with previous graduate degrees may be granted transfer credit for two non-business, non-specified elective courses by the Faculty’s Committee on Course Based Masters Programs. The remaining electives will be chosen from courses offered by the Faculty of Business Administration. This does not apply to students with degrees such as the LLB and Medical Doctor degrees that are not master’s degrees. Courses will normally be considered for advanced standing if they are part of a degree that has been awarded within seven years of the year for which admission is being sought.

9.5 Programs of Study

1. The programs of study include:
   a. a 60 credit hour all-course program for candidates entering with an undergraduate degree in any area other than business. Thirty-six credit hours in program courses are required courses and are specified in Table I; the remaining 24 credit hours in program courses are electives chosen in accordance with the electives noted below. It is noted that of the 24 credit hours in electives candidates are required to complete 3 credit hours in the area of international business chosen from 9005, 9020, 9306, 9325, 9326 or another approved International course.
   b. a 48 credit hour thesis option program for candidates entering with an undergraduate degree in any area other than business. Thirty-six credit hours in program courses are compulsory and are specified in Table I; the remaining 12 credit hours in program courses shall consist of 9103, 9 credit hours in courses agreed upon by the student and his or her Supervisor, plus a thesis. Additional courses, which may enhance the research area of the candidate, may be recommended by the Supervisor to the Graduate Research Programs Committee.
   c. a 30 credit hour all-course program for direct entry candidates. Twelve credit hours of the program courses are required and are specified in Table II; the remaining 18 credit hours for candidates in the all-course program are electives chosen in accordance with the electives noted below.
   d. a 18 credit hour thesis option program for direct entry candidates. Courses shall normally consist of the following 12 credit hours: 8107, 8208, 8209 and 9103, and 6 credit hours in courses agreed upon by the student and his or her Supervisor, plus a thesis. Additional courses, which may enhance the research area of the candidate, may be recommended by the Supervisor to the Graduate Research Programs Committee.

2. Electives in the all-course programs may be chosen from the following:
   a. approved business electives as listed in Table III;
   b. up to 6 credit hours in courses from other graduate programs within the School of Graduate Studies, as approved by the Dean of Graduate Studies on the recommendation of the Faculty of Business Administration;
   c. a Research Project or projects, which may be assigned up to 9 credit hours, as approved by the Dean of Graduate Studies on the recommendation of the Faculty of Business Administration;
   d. any other course or project deemed to be of satisfactory content and rigour as approved by the Dean of Graduate Studies on the recommendation of the Faculty of Business Administration.

3. The Faculty’s Committee on Course Based Masters Programs reserves the right to restrict candidates from taking particular M.B.A. courses if it is deemed that those courses do not add sufficient value beyond courses that the candidate has completed at the undergraduate level.

4. Students are required to observe certain approved co- or prerequisites in scheduling their courses. These are indicated in Table V.

5. Students shall successfully complete the requirements of Business 8103 as part of the first 36 credit hours of their programs.

6. Changes to a student’s prescribed program, including the specified course load, may have the prior approval of the Dean of Graduate Studies on the recommendation of the Faculty of Business Administration.

9.6 Evaluation

1. The Faculty Council of the Faculty of Business Administration constitutes the examining body for all examinations in Business courses. In addition, the standing of every student will be assessed by the Committee on Course Based Masters Programs in accordance with the requirements outlined in all the clauses below.

2. Credit toward the M.B.A. Degree will be granted only for those courses which have been approved as constituting part of the student’s program of study and in which the candidate has obtained a mark of 65% or higher.

3. A candidate is required to withdraw from the M.B.A. program if a final grade of ‘F’ is obtained in any course.

4. To remain in the program, a candidate who obtains a final grade of ‘C’ or ‘D’ in any course must repeat that course when next
offered, and obtain a minimum grade of ‘B’. In the case of an elective course, a replacement course approved by the Committee on Course Based Masters Programs may be substituted for the course. Only two such repetitions/replacements shall be permitted in the candidate’s graduate program. Should a grade of less than ‘B’ be obtained in a repeated or replacement course, the candidate shall be required to withdraw from the program.

Note: All 9000-level courses require the prior completion of nine courses, including any specific prerequisites or co-requisites unless otherwise specified.

10 Regulations Governing the Degree of Master of Education

Associate Professor and Dean
K. Anderson

Associate Professor and Associate Dean
T. Seifert

The Master of Education (M.Ed.) is offered in the following areas: Educational Leadership Studies, Curriculum, Teaching and Learning Studies, Counselling Psychology, Post-Secondary Studies and Information Technology.

In addition, a Master of Arts and Education (Education and Francophone Literatures and Cultures), jointly offered by the Faculty of Education and the Faculty of Arts, Department of French and Spanish, is available for candidates who wish to specialize in the study and teaching of French.

In the case of the following general program regulations and the specific program regulations, which govern all Master of Education Degree programs, Dean refers to the Dean of Graduate Studies, Dean of Education refers to the Office of the Dean, Faculty of Education, and Faculty refers to the Faculty of Education, through its various operating committees.

Students taking any of the Master of Education Degree programs are advised that a Bachelor of Education Degree is required for employment in the K - 12 system.

10.1 Qualifications for Admission
1. Admission to the Master of Education is limited and competitive. To be considered for admission to a graduate program in
Education, an applicant shall:

a. have from a recognized institution, either (1) an undergraduate degree with at least second class standing, or (2) an undergraduate degree and an average of at least 70% in the last 90 attempted undergraduate credit hours.
b. meet the requirements set forth in the specific program regulations.

2. Only in exceptional circumstances, and only on the recommendation of the Dean of Education, shall the Dean consider applicants who do not meet the requirements in 1.

3. Please refer to Specific Programs regulations for additional admission requirements.

10.2 Program of Study

1. Candidates for the Master of Education (Educational Leadership Studies, Curriculum, Teaching and Learning Studies) shall be required to complete a minimum of:
   a. 18 credit hours plus a thesis; or
   b. 24 credit hours plus an internship report, a project report or a paper folio; or
   c. 30 credit hours on the comprehensive-course route.
Candidates for the Master of Education (Post-Secondary Studies) shall be required to complete a minimum of:
   a. 18 credit hours plus a thesis; or
   b. 24 credit hours plus an internship; or
   c. 30 credit hours on the comprehensive-course route.
Candidates for the Master of Education (Counselling Psychology) shall be required to complete a minimum of:
   a. 30 credit hours (which include an internship) plus a thesis; or
   b. 36 credit hours (which include an internship) on the comprehensive-course route.
Candidates for the Master of Education (Information Technology) shall be required to complete a minimum of:
   a. 18 credit hours plus a thesis; or
   b. 30 credit hours on the comprehensive-course route.

2. Candidates may apply for transfer of course credits. All course transfers require the approval of the Dean, on the recommendation of the Dean of Education, and are subject to General Regulation, Program Requirements, Transfer of Course Credits of the School of Graduate Studies.

3. A candidate with full-time status may register for a maximum of 12 credit hours in any regular semester and a maximum of 6 credit hours in intersession or summer session.
   a. A candidate with part-time status may register for a maximum of 3 credit hours in any semester or session, excluding summer session, when 6 credit hours are permitted.
   b. Candidates may register for additional courses in a semester or session with the permission of the Office of the Associate Dean of Graduate Programs in Education.

4. Before submission of the proposal for thesis, project, internship, or paper folio, a Supervisory Committee shall be recommended by the Dean of Education, in consultation with the candidate, and approved by the Dean. The Supervisory Committee shall consist of the Supervisor and at least one other member.
   The function of the Supervisory Committee shall be to approve the proposal for the thesis, project, internship, or paper folio, and to exercise supervision in the conduct of the study on behalf of the Faculty, subject to the final approval of the Dean.

10.3 Period of Study

The period of the study for a graduate program shall not normally exceed six years beyond first registration. Completion of some program components may require full-time study on the University campus.

10.4 Evaluation

1. In order to continue as a candidate for the Master of Education Degree, a candidate who receives a final grade of ‘C’ in any program course must repeat that course and obtain a minimum grade of ‘B’. In the case of an elective course a suitable replacement course, acceptable to the Faculty, may be substituted for the failed course. Only one such repetition/replacement shall be permitted on the candidate’s graduate program. Should a grade of less than ‘B’ be obtained in the repeated course, replacement course, or any other program course, the candidate shall be required to withdraw from the program.

2. When the Faculty has determined, through consultation with the candidate, the instructors of graduate courses, and the program advisor or thesis Supervisor that the candidate's work has fallen below satisfactory level, it may request that the Dean of Education recommend to the Dean that the candidate's program be terminated.

10.5 Thesis

See School of Graduate Studies General Regulation, Theses and Reports.

10.6 Program Regulations

Every candidate in graduate studies shall comply with the School of Graduate Studies General Regulations, the Degree Regulations Program of Study, and the specific program regulations as outlined in Specific Programs.

10.7 Appeals and Waivers Procedures

Candidates are advised that appeals and waivers of any regulations governing the Degree of Master of Education are governed by School of Graduate Studies General Regulations Provision For Waiver of Regulations and Appeal Procedures.
10.8 Specific Programs

10.8.1 Educational Leadership Studies

Educational Leadership Studies is designed to prepare candidates for leadership in Education.

1. Admission Requirements

In addition to meeting the requirements in the School of Graduate Studies General Regulations,

a. students must have completed a range and number of courses in Education deemed appropriate by the Faculty and Dean of Education.

b. a minimum of two years of teaching/leadership experience is recommended.

2. Program Requirements

a. all students in the Master of Education Program (Educational Leadership Studies) must complete:

- 6100 Research Designs and Methods in Education
- 6204 Educational Administration: Theory and Practice
- 6205 Educational Policy: Theory and Practice and one of the following:
- 6 credit hours (thesis route) within closed electives as listed in e. below
- 9 credit hours (internship, paper folio, project, comprehensive course route) within closed electives as listed in e. below

b. students on the thesis route must complete at least one of the research courses listed below (6100 is prerequisite):

- 6466 Qualitative Research Methods
- 6467 Quantitative Research Methods
- 6468 Critical Approaches to Educational Research
- 6469 Theoretical and Methodological Foundations of Action Research

c. students on the comprehensive-course route must complete 6290 Research and Development Seminar in Educational Leadership Studies. Normally students would be permitted to register for this course only after all other course requirements have been met, or during the student's last semester of studies.

d. to meet total credit hour requirements students may choose electives from any university graduate offering provided that those chosen are appropriate to the student's program:

- students on the thesis route must complete a total of at least 18 credit hours
- students on the internship, paper folio, or project route must complete a total of at least 24 credit hours and the appropriate course option 6291 Internship in Educational Leadership Studies (6 credit hours), 6292 Project in Educational Leadership Studies (6 credit hours), or 6293 Paper Folio in Educational Leadership Studies (6 credit hours)
- students on the comprehensive-course route must complete a total of at least 30 credit hours

e. students choosing the Mathematics Education specialization within Curriculum, Teaching and Learning Studies must complete 6630 Critical Issues in Mathematics Education prior to completing other Mathematics Education specialty courses.

f. Closed electives are those listed below:

- 6202 Social Context of Educational Leadership
- 6203 Leadership: Theory and Practice
- 6321 Supervisory Processes in Education
- 6330 Educational Finance
- 6335 Legal Foundations of Educational Administration
- 6410 Seminar on Philosophical Issues in Educational Policy and Leadership
- 6420 Ethical Issues and Perspectives in Educational Practice and Policy
- 6425 Comparative Perspectives in Public Education, Reform, and Leadership
- 6426 Computer Applications in Educational Administration
- 6427 School Community Partnerships
- 6440 Family-School Relations; Leadership and Policy Implications
- 6445 School Violence: Leadership and Policy Implications
- 6446 Seminar in School Improvement
- 6710 Issues in Development and Implementation of Special Education Policy and Practices

Courses must be appropriate to the student's program:

- students on the internship, paper folio, or project route must complete a total of at least 24 credit hours

f. To meet total credit hour requirements, students may choose electives from any university graduate offering provided that those chosen are appropriate to the student's program:

- students on the comprehensive-course route must complete a total of at least 30 credit hours

10.8.2 Curriculum, Teaching and Learning Studies

The Master of Education in Curriculum, Teaching and Learning Studies provides opportunities for students to investigate pertinent issues in these interrelated areas from a variety of perspectives: philosophical, historical, social, cultural, cognitive, and technological. The conceptual bases of curriculum, teaching, and learning are explored and analyzed along with related examples of historical and current policies and practices. The program encourages the development of broad-based insights into issues related to these areas through an emphasis on critical inquiry and reflective practice. It supports students in the development and enhancement of research capabilities and professional expertise and practice.

Students may choose between two program options in Curriculum, Teaching and Learning Studies:

Option One

Option Two

In consultation with a faculty advisor, students may choose to design a program specialty which addresses their research interests. Specialty foci within Curriculum, Teaching, and Learning Studies are numerous and may include technology and web-based education, arts education, rural and multi-age education. Students may alternatively select appropriate courses from other Master of Education program offerings to develop a program to meet their learning goals. Students interested in this option are strongly encouraged to explore and to focus their research and study interests and to discuss these interests with a faculty advisor.
1. Admission Requirements
   In addition to meeting the requirements in the School of Graduate Studies General Regulations,
   a. students must have completed a range and number of courses in Education deemed appropriate by the Faculty and Dean of
      Education.
   b. a minimum of two years of teaching or related experience is recommended.
   c. for a specialization in special education, a completed Bachelor of Special Education Degree or equivalent is required and
      enrolment will be limited to applicants articulating a research focus for which appropriate thesis supervision is available.

2. Program Requirements
   a. all students in the Master of Education Program (Curriculum, Teaching and Learning Studies) shall be required to complete:
      - 6100 Research Designs and Methods in Education
      - 6300 Teaching and Learning
      - 6602 Curriculum Studies
   b. students on the thesis route must complete at least one of the research courses listed below (6100 is prerequisite):
      - 6466 Qualitative Research Methods
      - 6467 Quantitative Research Methods
      - 6468 Critical Approaches to Educational Research
      - 6469 Theoretical and Methodological Foundations of Action Research
      - 6909 Narrative Approaches to Teaching, Learning and Research
      and at least 2 courses from any university graduate offering provided that those chosen are appropriate to the student's program
   c. students choosing Option One on the internship, paper folio, project route, and comprehensive-course route must complete at
      least 2 courses within one particular specialty area from the list in Core speciality courses in the study of curriculum,
      teaching and learning areas below.
   d. students choosing Option Two must choose courses that have been designated through consultation with faculty advisor during
      the first semester of studies in this program.
   e. students choosing the Mathematics Education specialization within Curriculum, Teaching and Learning Studies must complete
      6630 Critical Issues in Mathematics Education prior to completing other Mathematics Education specialty courses.
   f. students choosing the Special Education specialization within Curriculum, Teaching and Learning Studies must complete a
      thesis and at least two of the required Special Education speciality courses.
   g. students on the comprehensive-course route must complete one of the following courses: E6390 Research and Development
      Seminar in Curriculum, Teaching and Learning Studies or E6394 Biographical Explorations of Teaching and Learning or E6913
      Putting Action Research Methodologies into Practice (prereq. E6469): Normally students would be permitted to register for one
      of these courses only after all other course requirements have been met, or during the student's last semester of studies.
   h. to meet total credit hour requirements students may choose electives from any university graduate offering provided that those
      chosen are appropriate to the student's program:
      - students on the thesis route must complete a total of at least 18 credit hours
      - students on the internship, paper folio, or project route must complete a total of at least 24 credit hours and the appropriate
        course option E6391 Internship in Curriculum, Teaching and Learning Studies (6 credit hours), E6392 Project in Curriculum,
        Teaching and Learning Studies (6 credit hours), or E6393 Paper Folio in Curriculum, Teaching and Learning Studies (6 credit
        hours)
      - students on the comprehensive-course route must complete a total of at least 30 credit hours
   i. Core speciality courses in the study of curriculum, teaching and learning areas:
      - Computers in Education
        - 6610 Research on Computers in the Curriculum
        - 6620 Issues and Trends in Educational Computing
      - Language and Literacy Studies
        - 6106 Popular Culture and Literacy Education
        - 6108 Literacy and Language Education: Sociocultural Perspectives
        - 6641 Writing in the Primary, Elementary and Secondary Schools
        - 6642 Developmental Reading (K-8)
        - 6643 Contemporary Issues in Intermediate and Secondary English
        - 6645 Literature for Children and Adolescents
        - 6647 Diagnosis and Remediation of Reading and Writing Difficulties
        - 6649 Exploring Multiple Literacies
        - 6693 Literacy for the Young Child in Home and School
      - Mathematics Education
        - 6630 Critical Issues in Mathematics Education
        - 6634 Teaching and Learning to Solve Mathematics Problems (prerequisite E6630)
        - 6639 Technology and the Teaching and Learning of Mathematics (prerequisite E6630)
      - Music Education
        - 6502 Contexts of Music Education
        - 6503 Teaching Music from the Podium
        - 6504 Musicianship, Pedagogy, and Learning
      - Science Education
        - 6653 Contemporary Issues in Science Education I
        - 6655 The Nature of Science and Science Education
        - 6658 Teaching and Learning Scientific Concepts, Laws, and Theories
      - Second Language Education
        - 6668 Current Issues in Second Language Education
        - 6669 Graduate Seminar in Second Language Teaching and Learning
10.8.3 Counselling Psychology

The mission of the program in Counselling Psychology is to prepare highly knowledgeable, skilled, dedicated, and ethical professional practitioners, who will endeavour to enhance human potential throughout the life span and who can effectively practice within a variety of settings.

The Counselling Psychology faculty promotes counselling as an effective, viable means of assisting individuals throughout the life span. The counselling psychologist, regardless of his or her theoretical stance or work setting, functions as a change agent who is sensitive to and knowledgeable about the range of human development reflected in individual differences and cultural and linguistic diversity. Effective and positive change is brought about by assisting clients to: examine and modify their behaviour for more effective living; cope with, adjust to, or otherwise negotiate the environments affecting their psychosocial well-being; and effect change in the larger society.

The practice of Counselling Psychology is based on theory and research, an understanding of ethical practices, and a set of professional and interpersonal skills. It is essential that graduate students study a variety of conceptual frameworks and research findings as preparation for collaborative work with other helping professionals, paraprofessionals, and a variety of self-help groups.

The Counselling Psychology faculty, while representing a range of views, agree that the uniqueness of the individual and his or her personal strengths must be acknowledged and respected. To fully explore professional issues and personal values, a trusting and open atmosphere must be present.

Individuals from a wide variety of personal, social, and educational backgrounds are encouraged to apply to the Counselling Psychology program. The program provides a broad-based sequence of studies and supervised experiences that will prepare graduate students to be knowledgeable and skilled practitioners who can function in a variety of settings. By the time they have completed this program, students will have acquired knowledge and competencies in the following general areas: individual and group counselling theory and techniques, legal and ethical aspects of counselling, human development and learning, social, cultural, and linguistic diversity, career education and career counselling, program development and implementation, measurement and appraisal, research and program evaluation, and application of current technology service delivery in rural areas.

1. Admission Requirements

In addition to meeting the requirements in the School of Graduate Studies General Regulations, students:

a. must have completed Education 3210, Introduction to Counselling.

b. should have completed at least one undergraduate course on each of the following topics: statistics (Education 2900), assessment (Education 3280, 3290, 3950, 3955 or 4950), introduction to career education (Education 3211), introduction to exceptionality (Education 3220 or 3230). (Or their equivalent)

Note: Many of these courses are prerequisites to specific graduate courses and must be completed before taking those courses.

c. should normally have at least one year of teaching (or related work) experience.

d. must submit a resume that contains a concise rationale for the application (500 words or less) and three letters of recommendation (preferably one from each of the following: previous university instructors, supervisors, or employers).

e. should note admission is selective and controlled by an admission committee of faculty members involved in the program. An interview may be required if deemed necessary.

f. should note the Graduate Record Examination may be required.

2. Program Requirements

a. all students in the Master of Education (Counselling Psychology) program shall be required to complete:

   6100 Research Designs and Methods in Education (Prerequisite: Education 2900)
   6702 Counselling: Theory and Practice (Prerequisite: Education 3210)
   6706 Career Education and Career Counselling (Prerequisite: Education 3211)
   6708 Group Counselling: Theory and Practice (Prerequisite: Education 6702)
   6709 Narrative Approaches to Teaching, Learning and Research
   6913 Putting Action Research Methodologies into Practice (Prerequisite: 6469 Theoretical and Methodological Foundations of Action Research)

Social Studies Education

6670 Teaching and Learning Social Studies
6671 Research in Social Studies Education
6672 Issues and Trends in Social Studies

Special Education

6710 Issues in Development and Implementation of Special Education Policy and Practices
6712 The Nature and Assessment of Behaviour Disorders in Children and Adolescents
6714 Principles and Practices in Exceptionality
6755 Nature and Assessment of Learning Disabilities

Teacher-Librarianship

6662 Seminar in Teacher-Librarianship
6664 Seminar on School Improvement

Additional courses in the speciality areas are available.
chosen are appropriate to the student’s program for a total of 36 credit hours.

d. All students in the Counselling Psychology program must complete 6720. The Internship may be fulfilled full-time or part-time
and must comprise 600 clock hours with 240 hours of direct service with clients. It cannot be completed as part of your regular
employment. It is strongly recommended that students take no other course during the full-time internship.

e. Closed electives are those listed below:

- 6703 Personal and Professional Development Group
- 6705 Nature and Development of School Counselling Services
- 6707 Assessment for Counsellors
- 6709 Assessment of Intelligence and Learning Skills (Prerequisite: 3600 or its graduate equivalent 6707. Normally, students in
  Counselling Psychology will not enroll in this course until the latter part of their program). Candidates intending to pursue a
career in the K-12 school system in Newfoundland and Labrador are urged to take this course and the prerequisite.
- 6710 Issues in Development and Implementation of Special Education Policy and Practices
- 6712 The Nature and Assessment of Behaviour Disorders in Children and Adolescents
- 6713 Educational Applications of Contemporary Cognitive Psychology
- 6714 Principles and Practices in Exceptionality
- 6716 Working with Families and Parents
- 6717 Counselling Adolescents
- 6718 Elementary School Counselling
- 6719 Cultural Issues in Counselling
- 6802 Adult Learning and Development

Notes:
1. Student membership in the Canadian Counselling Association (CCA) or other appropriate professional organizations is strongly recommended
for all students in the program.
2. Students who plan to work in the school system should be aware of the Department of Education regulations to be eligible to work as a school
counsellor.
3. Students who plan to become registered psychologists in Newfoundland and Labrador should review the requirements of the Newfoundland
and Labrador Board of Examiners in Psychology.

10.8.4 Post-Secondary Studies

The graduate programs in Post-Secondary Studies are designed to prepare candidates to function in a variety of roles in informal and
formal post-secondary learning environments (including academic, technical, professional, adult education, health professional
education, and student services/development). These programs facilitate a study of the post-secondary educational systems through an
examination of their foundations, directions, organization and administration; and through curriculum and instructional development
options for occupational preparation and adult education.

1. Admission Requirements

In addition to meeting the requirements in the School of Graduate Studies General Regulations,

a. Candidates must have completed an undergraduate course in statistics (Education 2900), and post-secondary education
   (Education 2720), or have accumulated the equivalent experiences in each of the above two areas as approved by the Head of
   the Academic Unit;

b. two years of successful experience in working with adult learners is recommended;

c. and for the Graduate Diploma in Post-Secondary Studies (Health Professional Education) program, candidates must have
   appropriate academic qualifications and work experience in a health-related field.

2. Program Requirements (M.Ed.)

a. Candidates for the Master of Education (Post-Secondary Studies) are required to complete courses that form the program core.
   i. 6100 Research Designs and Methods in Education
   ii. 6801 Foundations of Post-Secondary Programs
   iii. 6802 Adult Learning and Development
   iv. 6803 Research in Post-Secondary Education
   v. and not fewer than 6 credit hours from closed electives in g. below.

b. Students holding the Graduate Diploma in Post-Secondary Studies (Health Professional Education) and accepted in the Master
   of Education (Post-Secondary Studies) will complete up to 12 fewer credit hours dependent upon the chosen program route and
   the completion date of the Graduate Diploma.

c. Students on the comprehensive-course route must complete 6890 Research and Development Seminar in Post-Secondary
   Studies.

d. Students on the internship route must complete 6891 Internship in Post-Secondary Studies (6 credit hours).

e. Normally, students will be permitted to register for 6890 and 6891 only after all other course requirements have been met.

f. To meet total credit hour requirements students may choose courses from other graduate offerings within the Faculty, the
   University, or other universities provided the courses chosen are appropriate to the student's program. Students on the thesis
   route must complete a total of at least 18 credit hours; and those on the internship or comprehensive-course route a total of at
   least 30 credit hours.

g. Closed electives are those listed below:

- 6804 Leadership and Human Resource Development in Post-Secondary Education
- 6805 Advanced Human Resource Communications
- 6806 Interprofessional Education in the Health Professions
- 6807 Economics and Finance of Post-Secondary Education
- 6822 Foundations of Instructional Design in Post-Secondary Education
- 6823 Principles of Program Design and Development
- 6832 Issues and Trends in the Administration of Post-Secondary Education
- 6841 Student Development Theory, Services and Programs in Post-Secondary Education
- 6940 Administration of Student Services in Post-Secondary Education

3. Program Requirements for Graduate Diploma in Post-Secondary Studies (Health Professional Education)

The Graduate Diploma in post-secondary studies, specialization in health professional education, which was created in collaboration
with the Centre for Collaborative Health Professional Education, is designed to enhance health professionals' abilities as educators
and leaders in educational program design, development, evaluation and administration. The Graduate Diploma is intended for
10.8.5 Information Technology

The graduate program in Information Technology is offered in partnership with Cape Breton University (CBU). It is designed to facilitate the educational use of information technology in a wide variety of settings. The program will be of interest to educators at all levels including K-12 teachers, school administrators, those in the post-secondary system, business and industry, as well as those in most other adult learning situations.

Information technology in this Master of Education program encompasses computer, communications, networking and multi-media applications. The overall intent of the program is to:
- provide educators with skill sets and pedagogical expertise that will enable them to address computer and related information technology in a teaching/learning situation;
- develop potential information technology leaders for the educational system;
- develop instructional designers, for a variety of educational settings, who are able to combine information technology with learning theory to enhance curriculum development and delivery;
- provide a basis for the continued professional development of educators in the area of information technology;
- develop an awareness of the applications of information technology in a wide variety of educational contexts; and
- develop research expertise and potential in the use and application of information technology for teaching and learning purposes.

Candidates for the program will have attained, prior to acceptance, some fundamental knowledge and skills with respect to information technology through pre-requisite experiences, and have attained a recognized undergraduate degree in an appropriate discipline with at least a second class standing (see specific regulations for details). The program components are designed to enable candidates to build on their prior experience through the development of pedagogical links and information technology applications. It is intended that the program be offered primarily as a part-time program through distance delivered courses, with other delivery formats to be considered/ utilised where feasible. Access to specific computer hardware, software, and the Internet is required and will be the responsibility of each candidate.

A steering committee comprised of three members from each of the Faculty of Education at Memorial University of Newfoundland and the Institute for Education at CBU is responsible to the Associate Dean of Graduate Programs and Research, Faculty of Education, for selected aspects of the program. The latter include assessing student applications, recommending approval of instructors who are not regular faculty members at either CBU or Memorial University of Newfoundland, and recommending course or program changes. This committee is to be co-chaired by the Associate Dean of Graduate Programs and Research, Faculty of Education, Memorial University of Newfoundland and the Director of the Institute for Education at CBU, or their designate(s).

CBU courses offered as part of this program are indicated by the prefix “CBU EDU” followed by the specific course number.

1. Admission Requirements

Admission to the program is competitive and selective. In addition to meeting the requirements in the School of Graduate Studies General Regulations, Faculty of Education, Memorial University of Newfoundland, candidates must have successfully completed:
- one of a diploma or certificate in information technology from an accredited institution; CBU EDU 530; Memorial University of Newfoundland E2751 and E3751; or equivalent as determined by the program steering committee.

Selection into the program is determined by an applicant’s profile which would normally include such criteria as previous academic performance, related work experience, and relevant information technology experience. More detailed information may be found at www.mun.ca/educ/grad/infotech.php.

2. Program Requirements

a. all candidates for the Master of Education (Information Technology) must complete E6100 Research Designs and Methods in Education.

b. candidates on the thesis route must complete:
   - three credit hours from:
     - 6610 Research on Computers in the Curriculum
     - 6615 Educational Software Prototyping and Evaluation
     - 6620 Issues and Trends in Educational Computing

   - nine credit hours selected from the core elective CBU courses approved for this program:
     - CBU EDU 5101 Assessment of Software and Information Technology Applications for Education
     - CBU EDU 5103 Integration of Instructional Design and Information Technology
     - CBU EDU 5104 Applications of Learning Theory in Educational Multi-media Design
     - CBU EDU 5105 Designing Web-based Learning
     - CBU EDU 5106 Technology Planning for Educational Environments
     - CBU EDU 5107 Information Management for Educational Environments
three credit hours from: 6822, 6823, 6802, E6426, or from other Memorial University of Newfoundland, Faculty of Education graduate course offerings as deemed appropriate for each candidate's program and approved by the program steering committee.

c. candidates on the comprehensive-course route must complete:
   i. six credit hours selected from E6610, E6615, E6620
   ii. twelve credit hours selected from CBU EDU 5101, EDU 5103, EDU 5104, EDU 5105, EDU 5106, EDU 5107
   iii. E6590 Research and Development Seminar in Information Technology in Education
   iv. three credit hours from E6822, E6823, E6802, E6426, or from other Memorial University of Newfoundland, Faculty of Education graduate course offerings as deemed appropriate for each candidate's program and approved by the program steering committee
   v. additional credit hours appropriate to a candidate's program, and approved by the program steering committee, to be chosen from graduate course offerings at Memorial University of Newfoundland, CBU, or any other university to complete the required 30 credit hours for the comprehensive-course route

d. normally, candidates will be permitted to register for E6590 only after all other course requirements have been met.

e. candidates who have successfully completed the CBU graduate level Certificate in Education (Technology) will be given advanced standing credit for the 9 CBU EDU course credit requirements for the thesis route or 12 CBU EDU course credit requirements for the comprehensive-course route on this program.

f. candidates who have successfully completed the former CBU EDU 534 and/or EDU 543 with at least a CBU grade of B (70%) toward the CBU graduate level Certificate in Education (Technology) prior to September 2000, will receive up to 12 advanced standing credit hours appropriate to their Degree option (EDU 534 will be considered equivalent to EDU 5101 and EDU 5103, and EDU 543 equivalent to EDU 5104 and EDU 5105).

g. thesis-route candidates will be subject to Theses and Reports of the School of Graduate Studies, Memorial University of Newfoundland, supervised by a faculty member at Memorial University of Newfoundland, and where feasible co-supervised by a CBU faculty member.

10.9 Courses

A selection of the following graduate courses shall be offered to meet the requirements of candidates, as far as the resources of the Faculty allow:

- 6100 Research Designs and Methods in Education
- 6105 Social and Cultural Difference and Education
- 6106 Popular Culture and Literacy Education
- 6107 Arts Education: Creativity in the Classroom
- 6108 Literacy and Language Education: Sociocultural Perspectives
- 6202 Social Context of Educational Leadership
- 6203 Leadership: Theory and Practice
- 6204 Educational Administration: Theory and Practice
- 6205 Educational Policy: Theory and Practice
- 6290 Research and Development Seminar in Educational Leadership Studies
- 6291 Internship in Educational Leadership Studies (6 credit hours)
- 6292 Project in Educational Leadership Studies (6 credit hours)
- 6293 Paper Folio in Educational Leadership Studies (6 credit hours)
- 6300 Teaching and Learning
- 6321 Supervisory Processes in Education
- 6330 Educational Finance
- 6335 Legal Foundations of Educational Administration
- 6390 Research and Development Seminar in Curriculum, Teaching and Learning Studies
- 6391 Internship in Curriculum, Teaching and Learning Studies (6 credit hours)
- 6392 Project in Curriculum, Teaching and Learning Studies (6 credit hours)
- 6393 Paper Folio in Curriculum, Teaching and Learning Studies (6 credit hours)
- 6394 Biographical Explorations of Teaching and Learning
- 6410 Seminar on Philosophical Issues in Educational Policy and Leadership
- 6420 Ethical Issues and Perspectives in Educational Practice and Policy
- 6425 Comparative Perspectives in Public Education, Reform, and Leadership
- 6426 Computer Applications in Educational Administration
- 6427 School Community Partnerships
- 6440 Family-School Relations: Leadership and Policy Implications
- 6465 School Violence: Leadership and Policy Implications
- 6466 Qualitative Research Methods
- 6467 Quantitative Research Methods
- 6468 Critical Approaches to Educational Research
- 6469 Theoretical and Methodological Foundations of Action Research
- 6502 Contexts of Music Education
- 6503 Teaching Music from the Podium
- 6504 Musicianship, Pedagogy, and Learning
- 6590 Research and Development Seminar in Information Technology in Education
- 6600 Learning and Motivation
- 6602 Curriculum Studies
- 6603 Place, Ecology and Education
- 6610 Research on Computers in the Curriculum (Prerequisite: 6620)
- 6615 Educational Software Prototyping and Evaluation
- 6620 Issues and Trends in Educational Computing
- 6630 Critical Issues in Mathematics Education
- 6632 Current Research in Teaching and Learning of Elementary School Mathematics (Prerequisite: 6630)
- 6634 Teaching and Learning to Solve Mathematics Problems (Prerequisite: 6630)
- 6635 Teaching and Learning Geometry
- 6636 Teaching and Learning the Concept of Number and Operations
- 6639 Technology and the Teaching and Learning of Mathematics (Prerequisite: 6630)
School of Graduate Studies 2013-2014

6641 Writing in the Primary, Elementary and Secondary Schools
6642 Developmental Reading (K-8)
6643 Contemporary Issues in Intermediate and Secondary English
6644 Drama in Education
6645 Literature for Children and Adolescents
6646 Literature in the Secondary School
6647 Diagnosis and Remediation of Reading and Writing Difficulties
6649 Exploring Multiple Literacies
6653 Contemporary Issues in Science Education I
6655 The Nature of Science and Science Education
6658 Teaching and Learning Scientific Concepts, Laws, and Theories
6660 Information Technology
6661 Applications of Media in Education
6662 Research Seminar in Teacher-Librarianship
6663 The Organization of Learning Resources
6664 Seminar in School Improvement
6668 Current Issues in Second Language Education
6669 Graduate Seminar in Second Language Teaching and Learning
6670 Teaching and Learning Social Studies
6671 Research in Social Studies Education
6672 Issues and Trends in Social Studies
6673 Second Language Teaching, Learning and Curriculum (credit may be obtained for only one of Education 6673, the former 6665 or 6667)
6674 Research in Second Language Writing Education
6675 Current Issues in Rural Education
6676 Literacy for the Young Child in Home and School
6700 The Role of Differentiation in Education
6701 Issues and Methodologies in Learning and Developmental Research
6702 Counselling: Theory and Practice
6703 Personal and Professional Development Group (non-credit)
6705 Nature and Development of School Counselling Services
6706 Career Education and Career Counselling
6707 Assessment for Counsellors
6708 Group Counselling: Theory and Practice
6709 Assessment of Intelligence and Learning Skills
6710 Issues in Development and Implementation of Special Education Policy and Practices
6711 Behaviour Modification in the Educational Setting
6712 The Nature and Assessment of Behaviour Disorders in Children and Adolescents
6713 Educational Applications of Contemporary Cognitive Psychology
6714 Principles and Practices in Exceptionality
6715 The Theory and Practice of Peer Helping Programs
6716 Working with Families and Parents
6717 Counselling Adolescents
6718 Elementary School Counselling
6719 Research in Counselling
6720 Internship in Counselling Psychology (9 credit hours)
6755 Nature and Assessment of Learning Disabilities
6801 Foundations of Post-Secondary Programs
6802 Adult Learning and Development
6803 Research in Post-Secondary Education
6804 Leadership and Human Resource Development in Post-Secondary Education
6805 Advanced Human Resource Communications
6806 Interprofessional Education in the Health Professions
6807 Economics and Finance of Post-Secondary Education
6822 Foundations of Instructional Design in Post-Secondary Education
6823 Principles of Program Design and Development
6831 Organization and Administration of Student Services for the Adult Learner
6832 Issues and Trends in the Administration of Post-Secondary Education
6841 Student Development Theory, Services and Programs in Post-Secondary Education
6890 Research and Development Seminar in Post-Secondary Studies
6891 Internship in Post-Secondary Studies (6 credit hours)
6900-6910 Special Topics (excluding 6909)
6909 Narrative Approaches to Teaching, Learning and Research
6911 Multicultural Education: An Introduction
6912-6950 Special Topics
6913 Putting Action Research Methodologies into Practice (Prerequisite: 6469 Theoretical and Methodological Foundations of Action Research)
6940 Administration of Student Services in Post-Secondary Education

11 Regulations Governing the Degree of Master of Employment Relations

Professor and Director
T. Brown

The Master of Employment Relations (M.E.R.) is a multi-disciplinary program providing advanced level study of all aspects of the employment relationship.

The M.E.R. program is offered by full-time or part-time study and involves 36 credit hours of course work. Candidates registered on a full-time basis will normally complete the program in one academic year. The following regulations must be read in conjunction with the General Regulations of the School of Graduate Studies of Memorial University of Newfoundland.
11.1 Administration

1. The program shall be administered by a Director, who reports to the Dean of Graduate Studies. The Director shall be appointed by the Dean of Graduate Studies on the recommendation of the Deans of Arts and Business Administration. In making this recommendation, the Deans of Arts and Business Administration shall consult with the employment relations community both within and outside the University.

2. An Executive Committee consisting of the Director and Deans of Arts, Business Administration, and Graduate Studies will be established to review administrative, resource, and strategic planning issues related to the program. This committee shall be chaired by the Dean of Graduate Studies.

3. The Director shall consult with the Graduate Committee in Employment Relations (GCER) for the purposes of administering the academic elements of the program. The GCER shall normally consist of 11 members appointed by the Dean of Graduate Studies on the recommendation of the Director. The GCER will include the Director, who shall Chair the committee, approximately six faculty members from the Faculties of Arts and Business Administration who teach core courses, the Associate Deans or Directors of Graduate Studies from Arts and Business Administration, as well as one full-time and one part-time student representative.

4. An Advisory Board in Employment Relations (ABER) shall be established for the purposes of consulting with obtaining feedback from the employment relations community. The ABER will consist of a broad cross-section of members from the employment relations community both within and outside the University who shall be appointed by the Dean of Graduate Studies on the recommendation of the Director.

11.2 Qualifications for Admission

1. Admission is limited and competitive.

2. To be considered for admission to the M.E.R. program, an applicant shall have:
   a. An undergraduate degree, with a minimum B standing, from an institution recognized by Senate; and
   b. An undergraduate course in organizational behaviour, statistics, and microeconomics, from an institution recognized by Senate, with a minimum B standing in each course.

3. In exceptional cases, applicants who have not completed an undergraduate degree, but who meet all other requirements, may be considered for admission. Preference will be given to those who have a minimum of 10 years of full-time professional experience, including demonstrated success in employment relations, and who have successfully completed substantial university course work including several courses at an advanced undergraduate level from an institution recognized by Senate. Applicants without an undergraduate degree must have completed one or more undergraduate courses in organizational behaviour, statistics, and microeconomics, from an institution recognized by Senate, with a minimum B standing in each course. Any applicants who do not meet normal admission requirements, may also be required to successfully complete the GMAT or the GRE with an acceptable score and/or additional undergraduate courses before being considered for admission.

4. Applicants who did not complete a four-year baccalaureate degree at a recognized university where English is the primary language of instruction must normally complete either the:
   a. Test of English as a Foreign Language (TOEFL) and achieve a paper-based score of 580 (or higher), computer-based score of 237 (or higher), or Internet based score of 92-93 (or higher); or
   b. International English Language Testing System (IELTS) and achieve a score of 7 (or higher).

   c. Information regarding the TOEFL is available from the Educational Testing Service at www.ets.org. IELTS information is available at www.ielts.org. It is noted that other equivalent tests acceptable to the School of Graduate Studies will also be considered.

11.3 Deadlines for Applications

1. Applicants seeking full-time enrolment will normally only be admitted to the program in the Fall (September) semester.

2. Applications must be postmarked no later than February 15 for applicants wishing to enter full-time or part-time studies in the Fall (September) semester.

3. Applications must be postmarked no later than August 15 for applicants wishing to enter part-time studies in the Winter (January) semester.

4. Individuals submitting applications later than the above dates are not assured of consideration for admission to the program in the semester desired; their applications will be processed only if time and resources permit.

11.4 Procedure for Admission

1. Applications for admission to the M.E.R. program must be made on the appropriate form and submitted to the School of Graduate Studies.

2. The following documents must be submitted in support of the official application form:

   a. Letter of appraisal from two referees, one of whom is capable of appraising the applicant's academic potential as a graduate student, and of whom is capable of appraising the applicant's professional experience and/or actual or likely success in a career in employment relations.

   b. Two copies of the M.E.R. Employment Experience Information Form.

   c. Two official transcripts from each university or other post-secondary institution previously attended, to be sent directly by its Registrar (or equivalent officer) to the School of Graduate Studies. If not recorded on the transcript, official evidence of completion of undergraduate degree must also be submitted.

3. Application files are normally evaluated after the deadline dates for application noted above and only when all required documentation has been received.

4. Admission shall be by the Dean of Graduate Studies on the recommendation of the GCER. Upon notification from the Dean of the School of Graduate Studies of acceptance into the M.E.R. program, applicants must give written notice to the School of Graduate Studies of their intention to register.

11.5 Program of Study

1. The M.E.R. program consists of 36 credit hours of course work as specified in Table I. These include 30 credit hours of compulsory courses and 6 credit hours of elective courses. The compulsory courses are comprised of 21 credit hours of core courses specified...
2. The compulsory core courses introduce students to the three main areas of study in the program: labour-management relations; human resources management; and labour market and social policy analysis.

3. Electives allow students to specialize in one or more of the three main areas of study. Electives must be chosen from the list of approved electives specified in Table III. Other courses may be approved and added to Table III from time to time by the GCER.

4. Candidates are responsible for fulfilling all pre-requisites and may require special permission from the Department offering an elective to enrol in the course.

5. The Research Seminar in Employment Relations provides students with both quantitative and qualitative research skills and requires the identification of a research problem, the development and execution of a methodology appropriate to addressing the problem, analysis of results, and completion of final report. The Research Seminar involves 3 credit hours of course work in each of the Fall, Winter and Spring semesters.

6. The prerequisites for EMRE 6030 and EMRE 6040 are EMRE 6010 and EMRE 6020. In addition, students will normally complete six M.E.R. courses before registering for EMRE 6030 or EMRE 6040. There are no prerequisites for EMRE 6010 and EMRE 6020 but students are advised to take these courses late in their programs, just before taking EMRE 6030 or EMRE 6040. For the core courses, the prerequisite for BUS1 9329 is BUS1 8210. For the remaining core courses, there are no prerequisites. For the elective courses, Departmental regulations that specify particular courses as prerequisites will apply but the Departmental requirement to have completed a number of courses will not apply.

7. A waiver of a core course may be granted by the Dean of Graduate Studies on the recommendation of the Director if the candidate can demonstrate that the material in the course has been substantially covered by other courses taken at this or another recognized university. In such cases, the course must be replaced by another course offered by Memorial University of Newfoundland in consultation with the candidate, and approved by the Director. The maximum number of core courses that can be waived is 3 and all replacement courses must be taken during the candidate's period of enrollment in the program.

8. Each student's program of study must be approved by the Director. The Director reserves the right to restrict candidates from taking particular courses if it is deemed that those courses do not add sufficient value beyond courses that the candidate has completed at the undergraduate level.

11.6 Evaluation

1. Candidates for the M.E.R. Degree must obtain a grade of B or better in all program courses.

2. Candidates who receive a grade of less than B in a program course will be permitted to remain in the program, provided the course is repeated and passed with a grade of B or better. Alternatively, the candidate may, on the recommendation of the Director and with the approval of the Dean of Graduate Studies, substitute another graduate course. Only one course repetition or substitution will be permitted during the candidate's program after which the candidate shall be required to withdraw from the program.

11.7 Courses

The schedule of courses for the M.E.R. program is normally as follows:

<table>
<thead>
<tr>
<th>Table I - Master of Employment Relations Schedule of Courses</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Term I (Fall)</strong></td>
</tr>
<tr>
<td>Four core courses from Table II</td>
</tr>

12 Regulations Governing the Degree of Master of Engineering

Professor and Dean
G. Naterer
Professor and Associate Dean (Graduate Studies)
L. Lye

The degree of Master of Engineering (M.Eng.) is a research-focused degree and may be obtained either through full-time or part-time studies. The M.Eng. degree can be obtained through programs in Civil Engineering, Computer Engineering, Electrical Engineering, Mechanical Engineering, Ocean and Naval Architectural Engineering, and Oil and Gas Engineering.

In addition to the Master of Applied Science and Master of Engineering programs offered by the Faculty of Engineering and Applied Science, the Faculty also offers a course-based graduate diploma in Safety and Risk Engineering. For further information on this program refer to the regulations governing the Graduate Diploma in Safety and Risk Engineering.

12.1 Qualifications for Admission

To be considered for admission, an applicant shall meet the requirements set out in General Regulation, Qualification for Admission, or shall have qualifications and/or engineering experience that is acceptable to the Dean of Graduate Studies and to the Faculty of Engineering and Applied Science.

Admission to the M.Eng. program is limited and competitive. All applicants must meet the minimum qualifications set out in the above paragraph. Decisions on admission, however, will also take into account such things as the applicant's rank in class, referees' assessments, general performance throughout the applicant's undergraduate academic program and the availability of supervisors in the area of the applicant's interest.

Normally applicants will be considered in January for admission to the following September. In special cases applicants may also be considered in April and August. Applications should be made sufficiently far in advance to permit the University to obtain all relevant documents and review the application.

Students who have successfully completed the requirements for the Graduate Diploma in Safety and Risk Engineering may receive transfer credits towards the M.Eng. degree in an affiliated area.

12.2 Program of Study and Research

1. Students enrolled in the Master of Engineering program will work in one of the following areas: Civil Engineering; Computer Engineering; Electrical Engineering; Mechanical Engineering; Ocean and Naval Architectural Engineering; and Oil and Gas Engineering.

2. A program shall normally consist of:
   a. a thesis related to the area of study
   b. 12 credit hours from graduate courses with at least 6 credit hours taken from the list of Core Courses below
   c. Seminar course 9100
   d. such other courses as may be required in an individual's program.

3. The thesis is to contain the results of a systematic investigation which has been conducted by the candidate under the direction of the Supervisor.

4. With the approval of the Dean of Graduate Studies and on the recommendation of the Faculty of Engineering and Applied Science, credit towards the course requirements may be considered for graduate courses previously taken by the student in accordance with the General Regulations for course credit transfers.

12.3 Supervision

1. Each student shall be assigned to a Supervisor approved by the Dean of Graduate Studies on the recommendation of the Faculty of Engineering and Applied Science.

2. The Supervisor shall propose a tentative program of study and topic of investigation which must be approved by the Dean of Graduate Studies acting on the recommendation of the Faculty of Engineering and Applied Science, before the acceptance of a student in the program.

3. At the end of each semester, the Supervisor shall report on the student's progress to the Dean of Engineering and Applied Science.
4. A temporary or permanent change of Supervisor for a student already in a program shall be permitted only with the approval of the Dean of Graduate Studies and the Dean of Engineering and Applied Science.

5. The Supervisor shall advise the student in the preparation and presentation of a seminar on the student's topic of investigation as described in Thesis, 2. below.

12.4 Industrial Internship Option

The Faculty encourages graduate students to undertake internships of work in industry. Internships in industry will permit students either (a) to focus on the practicalities of research projects which have been well defined before the student enters an internship, or (b) to develop and define a research project from problems experienced during the internship. Encouragement to undertake an internship will be given only where it is clear that one of these expectations can be met.

Students registered in the Master of Engineering Program may, with the permission of their Supervisor, the Dean of the Faculty of Engineering and Applied Science, and the Dean of Graduate Studies select the Industrial Internship Option. Students approved to pursue this option must satisfy the degree regulations for a Master of Engineering Program. In addition, students in the Industrial Internship Option:

- must take at least 9 credit hours of the courses required for their program on campus; the remaining required courses may be taken on or away from campus; those taken at other universities require pre-approval by the Dean of the School of Graduate Studies on the recommendation of the Faculty of Engineering and Applied Science
- shall normally spend 8 to 12 months of their program at an internship in industry
- shall normally spend at least two semesters on campus on a full-time basis as a graduate student at this university
- shall submit a concise progress report to their supervisors, no later than the end of each semester while on an internship

Successful completion of an internship will be indicated by a descriptive notation on the student transcript.

12.5 Fast-Track Option

Students registered in academic term 7 of a Memorial University of Newfoundland undergraduate engineering program are eligible to apply for admission to an M.Eng. fast-track option. The purpose of the option is to encourage students interested in pursuing graduate studies to begin their research-related activities while still registered as an undergraduate student. Normally, to be considered for admission to the option, students must have achieved at least a 70% average over academic terms 1 to 5 of their undergraduate engineering program. While enrolled in the option, a student may complete some of the M.Eng. Degree requirements and, hence, potentially be able to graduate earlier from the M.Eng. program.

Students shall enroll in the M.Eng. fast-track option concurrently with their undergraduate program during the Fall semester prior to academic term 8. Prior to entering the fast-track option, students must apply for and receive an exemption from work term 6. While enrolled in the option a student must be registered in full-time graduate studies during the Fall semester prior to academic term 8; during academic term 8, the student must take a leave of absence from the graduate program. A student enrolled in the fast-track option shall undertake research related to their field of study and shall normally complete at least 3 credit hours from the courses listed for their M.Eng. program in the Fall semester prior to academic term 8.

In the Fall semester following academic term 7, fast-track option students will pay only the graduate fees appropriate to graduate students following plan A of Fees and Charges (i.e., the 6 semester plan). In the succeeding Winter semester, while completing academic term 8 of their undergraduate program, fast-track option students will pay only the appropriate undergraduate fees.

Upon completion of their undergraduate program, students may register in the M.Eng. program on a full-time basis. All courses taken as part of their graduate program while enrolled in the M.Eng. fast-track option are credited towards the M.Eng. Degree course credit hour requirements. Courses taken as credit towards a student's undergraduate degree may not be credited towards a student's graduate degree: courses credited towards a student's undergraduate degree may not be credited towards a student's graduate degree. Students who do not complete their undergraduate degree within one year of entering the fast-track option will normally be required to withdraw from their M.Eng. program.

12.6 Course Evaluation

1. In order to continue in the program, a student shall obtain an A or B grade in each course taken for credit.

2. The student's achievement in the program must be to the satisfaction of the Dean of Graduate Studies and the Faculty of Engineering and Applied Science. When it has been determined on the basis of consultations with the student, the course instructors and the Supervisor, that a student's work has fallen below satisfactory level, he/she may be required to withdraw from the program.

12.7 Thesis

1. A student who expects to graduate must inform the Dean of Graduate Studies of this intention at least three months before the University Convocation at which the award of the degree is expected.

2. Before the thesis is submitted, the student shall present an open seminar on the topic of investigation to the Faculty of Engineering and Applied Science. Any serious deficiencies noticed at this stage should be carefully considered, in consultation with the Supervisor, for rectification.

3. Three copies of the thesis shall be submitted to the School of Graduate Studies through the Faculty of Engineering and Applied Science, in a form and format as specified in the Thesis Guide issued by the School of Graduate Studies and the Presentation of Theses Guide issued by the Faculty of Engineering and Applied Science. A submission which does not meet the specifications will be returned to the candidate.

4. Examiners shall be appointed by the Dean of Graduate Studies on the recommendation of the Faculty of Engineering and Applied Science soon after the student has expressed an intention to submit the thesis.

12.8 Evaluation of Theses

Theses evaluation shall be carried out in accordance with Theses and Reports of the General Regulations governing all students in the School of Graduate Studies.

12.9 Recommendation for Awarding Degree

When a student has completed all the requirements for the Master of Engineering (M.Eng.) Degree, the Faculty of Engineering and Applied Science shall forward a recommendation to the Dean of Graduate Studies for the award of the Degree.
12.10 Graduate Diploma in Safety and Risk Engineering
The Faculty of Engineering and Applied Science offers a course-based Graduate Diploma in Safety and Risk Engineering to provide an opportunity for engineers in a variety of engineering disciplines to obtain or upgrade their training in Safety and Risk Engineering. The program is available on a full-time or part-time basis.

12.10.1 Qualifications for Admission
1. Admission to the program is limited and competitive.
2. To be eligible for consideration for admission, an applicant shall meet the requirements described under General Regulations, Qualification for Admission, or shall have qualifications and/or engineering experience that is acceptable to the Dean of Graduate Studies and to the Faculty of Engineering and Applied Science.
3. To be eligible for consideration for admission, applicants will meet the English Proficiency requirements described under General Regulations, English Proficiency Requirements.

12.10.2 Program of Study
1. The Diploma program requires the completion of 18 credit hours as follows:
   a. Engineering 9115, 9116, 9121, and 9411; and
   b. two courses selected from Engineering 9396, 9516, 9609, 9622.

12.11 Master of Applied Science Programs
The Faculty of Engineering and Applied Science offers the following course-based programs:

12.11.1 Computer Engineering
In addition to the research-focused M.Eng. Degree in Computer Engineering, the Faculty of Engineering and Applied Science offers a course-based program in Computer Engineering leading to a Master of Applied Science Degree in Computer Engineering. For details of program requirements for the M.A.Sc. Degree in Computer Engineering, refer to the regulations governing the Degree of Master of Applied Science.

12.11.2 Environmental Systems Engineering and Management
The Faculty of Engineering and Applied Science offers a course-based program in Environmental Systems Engineering and Management. For the details of the program requirements for the M.A.Sc. Degree in Environmental Systems Engineering and Management refer to the regulations governing the Degree of Master of Applied Science in Environmental Systems Engineering and Management.

12.11.3 Oil and Gas Engineering
The Faculty of Engineering and Applied Science offers a course-based program in Oil and Gas Engineering. For the details of the program requirements for the M.A.Sc. degree in Oil and Gas Engineering refer to the regulations governing the Degree of Master of Applied Science in Oil and Gas Engineering.

12.12 Master of Engineering Management
12.12.1 Engineering Management
See regulations governing the Degree of Master of Engineering Management.

12.13 Courses
A selection of the following graduate courses will be offered to meet the requirements of the candidates, as far as the resources of the Faculty will allow.

12.13.1 Required Courses
9100 Engineering Graduate Seminar (1 credit hour)

12.13.2 Core Courses
9002 Ocean Engineering Structures
9015 Ocean Engineering Hydrodynamics
9110 Advanced Petroleum Production Engineering
9113 Phase Behaviour of Petroleum Reservoir Fluids
9114 Advanced Reservoir Engineering
9115 Safety and Risk Engineering
9118 Advanced Drilling Engineering
9121 Advanced Safety, Risk and Reliability Modeling
9211 Experimental Methods
9411 Probabilistic Methods in Engineering
9420 Engineering Analysis
9496 Modeling and Simulation of Dynamic Systems
9501 Finite Element Analysis with Engineering Applications
9505 Structural Dynamics and Vibrations
9516 Similitude, Modelling and Experimental Data Analysis
9520 Solid and Structural Mechanics
9550 Fatigue, Fracture and Corrosion
9609 Environmental Risk Assessment
9627 Environmental Systems Engineering
9816 Antenna Theory
12.13.3 Other Courses

9022 Marine Geotechnical Engineering
9052 Ice Properties and Mechanics
9090/99 Special Topics in Ocean Engineering (excluding 9096)
9096 Marine and Offshore Ice Engineering
9111 Well Testing
9112 Multiphase Flow
9116 Reliability Engineering
9117 Offshore Petroleum Geology and Technology
9119 Compact Process Equipment Design
9120 Advanced Natural Gas Engineering
9150-59 Special Topics in Oil and Gas Engineering
9210 Advanced Engineering Materials
9390/94 Special Topics in Engineering Management
9440 Optimization Principles in Engineering
9495/99 Special Topics in Engineering Analysis (excluding 9496)
9540/49 Special Topics in Mechanics, Structures and Materials
9560 Applied Remote Sensing
9601 Environmental Pollution and Mitigation (cross-listed as ENVS 6004)
9603 Environmental Sampling and Pollutant Analysis (cross-listed as ENVS 6005)
9605 Water and Wastewater Treatment
9610/15 Special Topics in Environmental Engineering and Applied Science
9621 Soil Remediation Engineering
9622 Environmental Statistics
9625 Environmental Impacts of Offshore Oil and Gas Operations
9626 Environmental Management System
9628 Environmental Laboratory
9629 Environmental Policy and Regulations
9630 Pollution Prevention
9713 Stochastic Hydrology
9723 Soil Properties and Behaviour (formerly 9720)
9730 Advanced Topics in Analysis and Design of Reinforced Concrete (formerly 9701)
9755 Advanced Topics in Precast and Prestressed Concrete (formerly 9702)
9760/64 Special Topics in Geotechnical Engineering
9790 Subsea Pipeline Engineering
9791/99 Special Topics in Civil Engineering
9802/05 (excluding 9804) Special Topics in Computer Engineering
9804 Industrial Machine Vision
9806/09 Special Topics in Communications Engineering
9815 Electromagnetic Propagation
9822 Nonlinear Digital Image Processing and Analysis
9825 Random Signals (formerly 9830)
9835 Advanced Electric Machines
9848 Power System Stability (formerly 9812)
9849 Power System Protection
9850/53 Special Topics in Power Systems and Controls
9866 Fault-Tolerant Computing (formerly 9846)
9868 ASIC Design
9869 Advanced Concurrent Programming
9872 Digital Communications
9873 Image Communications
9875 Embedded and Real-Time Systems Design
9877 Computer and Communications Security
9878 Wireless and Mobile Communications
9879 Formal Specification and Development
9880/83 Special Topics in Computer Engineering
9884/87 Special Topics in Signal Processing
9888/91 Special Topics in Communications Engineering
9892/95 Special Topics in Power Systems and Controls
9896 Renewable Energy Systems
9897/99 Special Topics in Applied Electromagnetics
9910 Advanced Manufacturing
9920 Advanced Concepts in Mechanical Design
9925 Theory and Design of Mechanical Components and Structures
9975/99 Special Topics in Mechanical Engineering (excluding 9977)
Students must meet all regulations below in addition to the General Regulations of the School of Graduate Studies of Memorial University of Newfoundland.

13.1 Program of Study
1. The Faculty of Engineering and Applied Science in collaboration with the Faculty of Business Administration offers a program in Engineering Management leading to the degree of Master of Engineering Management (M.E.M.). The program is available on a full-time or part-time basis.
2. The program is offered by the Faculty of Engineering and Applied Science and the Faculty of Business Administration and will be administered by a Board of Studies appointed jointly by the Dean of Engineering and Applied Science and the Dean of Business Administration.

13.2 Deadlines for Applications
Applications are normally considered for Fall (September) entry only. Applications and all supporting documents must be received no later than May 1 for Canadian applicants and no later than April 1 for international applicants. Individuals submitting applications and/or supporting documents later than the relevant deadline will be processed only if time and resources permit.

13.3 Qualifications for Admission
1. Admission to the program is limited and competitive.
2. To be eligible for consideration for admission, an applicant shall normally hold at least a Bachelor's Degree in an engineering discipline, with a minimum 'B' standing, from a university recognized by Senate.
3. To be eligible for consideration for admission, applicants who did not complete a four-year baccalaureate degree at a recognized university where English is the primary language of instruction must normally complete the Test of English as a Foreign Language (TOEFL) and achieve a paper based score of 580 (or higher), computer-based score of 237 (or higher) or Internet based score of 92 (or higher). Information regarding this test is available from the Educational Testing Service at www.ets.org. It is noted that other equivalent tests acceptable to the School of Graduate Studies may also be considered.
4. Applicants will normally be interviewed by representatives of the Board of Studies as part of the admission process.

13.4 Degree Requirements
The degree program requires the completion of 36 credit hours, 6 of which comprise a project course.
1. Students are normally required to complete 21 credit hours in Engineering courses including 930A/B, 9396, 9397 and 9 additional credit hours selected from the Master of Engineering, Core Courses or the Master of Engineering, Other Courses offered for the Master of Engineering program. Up to 3 credit hours may be taken from undergraduate courses approved for the student's program by the Dean of Graduate Studies on the recommendation of the Faculty of Engineering and Applied Science.
2. Students are normally required to complete 15 credit hours in Business courses, including 8104, 8106, 8109 and 6 additional credit hours selected from the Elective Courses from the Faculty of Business Administration listing below.
3. Students who have not successfully completed a baccalaureate degree from a recognized university where English is the language of instruction will be required to complete an 8-week English as Second Language course prior to the start of the first regular academic semester.

13.5 Evaluation
Students must obtain a grade of at least 65% in all program courses to receive credit for the course towards their program requirements. Any student who fails to receive 65% or more in a course must repeat the course in the case of required courses, or must either repeat or replace the course with another program course in the case of elective courses. Any student who receives a grade of less than 65% in two courses or in a repeated course will be required to withdraw from the program.

13.6 Courses
13.6.1 Required Core Courses
Business 8104 Organizations: Behaviour and Structure
Business 8106 Marketing
Business 8109 Accounting for Management
Engineering 9396 Engineering Management Topics
Engineering 9397 Advanced Modelling and Quality Management
Engineering 930A/B Engineering Management Project (6 credit hours) (formerly Engineering 9395)

13.6.2 Elective Courses from the Faculty of Business Administration
In addition to the courses noted below, and upon individual request, the Board of Studies may also consider particular 9000-level Business courses provided that the course is deemed by the Board to be of satisfactory content relevant to the M.E.M. program and the
student has satisfied the applicable pre-requisites requirements for the course.
Business 8103 Statistical Applications in Management
Business 8107 Managing Ethics and Responsibility
Business 8108 Economics for Business
Business 8204 Human Resource Management
Business 8205 Information Systems
Business 8206 Managerial Finance
Business 8207 Operations Management
Business 8209 Leadership and Interpersonal Skills for Managers

13.6.3 Elective Courses from the Faculty of Engineering and Applied Science

See Core Courses and Other Courses under Master of Engineering.

13.7 Industrial Internship Option

The Faculty permits graduates students to undertake internships of work in industry. These internships will allow students to either (a) enhance the application of their knowledge and skills within industry, or (b) complete a research project defined by the industry. Encouragement to undertake an internship will be given only where it is clear that one of these expectations can be met.

Students registered in the M.E.M. program may, with the permission of their Board of Studies, the Dean of the Faculty of Engineering and Applied Science, and the Dean of Graduate Studies, select the Industrial Internship Option. Students pursuing this option must satisfy the degree regulations for an M.E.M. program. In addition, students in the Industrial Internship Option:

1. shall normally complete at least 18 credit hours of the courses required for their program with an average of 75% or higher prior to the internship; the remaining required courses may be taken on campus or by distance
2. shall normally spend at least two continuous semesters on campus on a full-time basis as a graduate student at this university
3. shall normally spend 4 to 8 months of their program at an internship in industry
4. shall submit monthly reports to a university supervisor appointed by their Board of Studies, and shall submit a concise progress report to their Board of Studies no later than the end of each semester while on an internship
5. shall normally not opt out once the internship starts.

Successful completion of an internship will be indicated by a descriptive notation on the student transcript.

14 Regulations Governing the Degree of Master of Environmental Science

(see also Master of Science in Environmental Science)

Board of Studies
Dr. N. Catto, Department of Geography - Chair
Dr. C. Campbell, Division of Science, Grenfell Campus, ex-officio
Dr. B. Chen, Faculty of Engineering and Applied Science
Dr. P. Marino, Head, Department of Biology
Dr. W. Montevvecchi, Department of Psychology
Dr. L. Tarasov, Department of Physics and Physical Oceanography
Dr. J. Wroblewski, Department of Ocean Sciences
Dr. S. Ziegler, Department of Earth Sciences

14.1 Program of Study

1. The Environmental Science Program is an interdisciplinary graduate program involving the departments of the Faculty of Science, the Faculty of Arts, the Faculty of Medicine, and the Faculty of Engineering and Applied Science. There are three Environmental Science Graduate Degree streams: the Master of Science (M.Sc., Environmental Science), Master of Environmental Science (M.Env.Sc.), and the Doctor of Philosophy (Ph.D., Environmental Science). The program is available on a full or part-time basis.

2. The program is administered by a Board of Studies appointed by the Dean of Science. Supervisors of graduate students in the program include faculty from the Faculty of Science, the Faculty of Arts, the Faculty of Engineering and Applied Science, the Faculty of Medicine, and the Environmental Science Program at the Grenfell Campus, as well as adjunct appointees to the program (as a co-supervisor).

14.2 Qualifications for Admission

Admission is limited and competitive. To be considered for admission applicants shall normally hold a Bachelor’s (Honours) degree in Science, Geography or Environmental Science with at least second class standing, or equivalent, or a Bachelor’s degree in Engineering from an institution recognized by the Senate or shall have qualifications and/or environmental experience acceptable to the Dean of Graduate Studies and the Board of Studies. The Board of Studies will make recommendations on admission to the Dean of Graduate Studies.

14.3 Degree Requirements

To the extent that resources permit, individual programs will be developed to suit students’ interests and needs. However all programs must be approved by the Board of Studies and by the Dean of Graduate Studies. All General Regulations of the School of Graduate Studies shall apply to these degrees

1. The Master of Environmental Science (M.Env.Sc.) is a multidisciplinary course-based degree, focussed on environmental issues. The Degree program provides for both multidisciplinary courses and for courses focussed on the student’s specific area of interest.

2. The Degree program requires completion of 24 credit hours of either Option A or Option B and a project report. The project report will be evaluated according to procedures outlined in General Regulations, Theses and Reports.

Option A
Students will be required to take a minimum of 15 credit hours in program courses, 9 credit hours of which must be ENVE/ENVS 6000, ENVS 6009 and ENVS 6010 and 6 credit hours from ENVE/ENVS 6001, 6002 and 6003. Students will also be required to take
a minimum of 9 credit hours in elective courses approved by the Board of Studies, 6 credit hours of which will normally be selected from graduate courses offered by the Faculty of Science and the Faculty of Engineering and Applied Science. Students are advised to consult with instructors and Faculties regarding necessary prerequisites and availability.

**Option B**

Students will be required to take a minimum of 15 credit hours in program courses, 9 credit hours of which must be ENVE/ENVS 6000, ENVS 6009, and ENVS 6010 and 6 credit hours from ENVE/ENVS 6001, 6002 and 6003. Students will also be required to take a minimum of 6 credit hours in elective courses approved by the Board of Studies, normally selected from graduate courses offered by the Faculty of Science and Faculty of Engineering and Applied Science. In addition, students will be required to complete the 3 credit hours course ENVS 601W (work term).

ENVS 601W is a work term of one semester duration. Work term placements are arranged by the Division of Co-operative Education in consultation with the Program Chair and the student’s Supervisor. The on-site employment supervisor and the Memorial University of Newfoundland Co-op Coordinator evaluate the work term based on the student’s performance on the job and on a written work term report submitted by the student. The topic of the work term report must be related to the work experience and will be chosen by the student in consultation with the on-site employment supervisor and the Memorial University of Newfoundland Co-op Coordinator. The student will be permitted to submit a work term report only after the on-site employment supervisor and the Memorial University of Newfoundland Co-op Coordinator determine that the work term has been successfully completed. The work term report may become the basis for the project report for ENVS 6009 (Project) which is required for the M.Env.Sci. Degree. The Program Chair, on the advice of the Memorial University of Newfoundland Co-op Coordinator with input from the on-site employment supervisor, will recommend to the Dean of Graduate Studies a grade of Pass with Distinction, Pass or Fail. In cases where the Memorial University of Newfoundland Co-op Coordinator and the on-site employment supervisor are unable to reach agreement concerning the grade, the final decision lies with the Program Chair. Should a student fail to complete a work term successfully, the graduate student’s M.Env.Sci. Supervisor and the Program Chair may submit to the Memorial University of Newfoundland Division of Co-operative Education a proposal for a different work term placement (only once). Or the student may apply to the Board of Studies for a change to the course-based M.Env.Sci. Option A, or to the thesis-based M.Sc. (Environmental Science).

### 15 Regulations Governing the Degree of Master of Gender Studies

Associate Professor and Head of the Department
K. Side

#### 15.1 General Information

The Master of Gender Studies degree allows students to examine critically - at an advanced level - how gender shapes our identities, our social interactions and our world. Students will incorporate, into their study, frameworks for thinking about power relations and the ways those relations are shaped and challenged by intersecting constructions of gender, race, class, sexuality, age, ability and nationality.

Faculty members in the Department of Gender Studies bring research expertise and interests in a range of fields, including: citizenship and human rights; corporeal feminism; reproductive rights, auto-biography and life writing; postcolonial and transnational feminisms; and First Nations studies. This master’s program offers a thriving environment that draws on the expertise of scholars from a wide range of academic disciplines.

The program is administered by the Department of Gender Studies and the Graduate Studies Advisory Committee. The Graduate Co-ordinator, on behalf of the Department of Gender Studies, Graduate Studies Advisory Committee, makes recommendations to the Dean of Graduate Studies concerning admission, and financial support for students, and administers all other matters pertaining to the graduate program.

The Master of Gender Studies Degree offers, by full or part-time study, three degree options: thesis, project or internship.

#### 15.2 Qualifications for Admission

1. Admission is limited and competitive. To be considered for admission, an applicant will normally hold an Honours Degree or equivalent, and will have a breadth of knowledge in Gender Studies satisfactory to the Graduate Studies Advisory Committee.
2. Applicants who do not have an adequate background in Gender Studies may be required to complete Gender Studies 3005 or Gender Studies 3025 or equivalent normally with a grade of 75% or higher.

#### 15.3 Program of Study

1. Upon admission, each graduate student in the thesis program will be assigned an academic advisor for one year. The supervisory committee, formed prior to the development of the thesis project proposal, will include two supervisors. For students selecting the non-thesis option, one Supervisor will be selected.
2. All candidates are required to complete Gender Studies 6000, 6100, and 6200.
3. Three to 9 additional elective credit hours approved by the Graduate Studies Advisory Committee and the student's supervisor(s) will be required. These elective credit hours will comprise courses selected from graduate courses in cognate academic units, and/or Gender Studies 6300 and/or from the block of special topics courses in Gender Studies 6400-6420.
4. Each student will be required to give a public seminar on her/his thesis research, project or internship after the thesis proposal has been approved and before submission of her/his final thesis/project/internship report.
15.4 Thesis
1. Candidates for the Degree of Master of Gender Studies (thesis option) will be required to complete a minimum of 18 credit hours. Candidates will also be required to complete a thesis.
2. The Master's project must be interdisciplinary in nature and aimed at linking theoretical and practical knowledge by recognizing and articulating a problem relevant to Gender Studies and by developing and justifying theoretical and practical approaches. The project report should consist of the project (e.g. a film or video; a computer project; a website; a manual or guidebook; a kit of learning resources; photographs; audio or videotape, etc.) as well as a literature-based rationale, theoretical basis and justification for its use. The length of the written portion of the project should be 40-60 pages. Regardless of the form that the project takes (e.g. a film or video; a computer project; a website; a manual or guidebook; a kit of learning resources; photographs; audio or videotape, etc.), there must be a written project report.
3. A project proposal, approved by the student's supervisor, will be presented to the Graduate Studies Advisory Committee for its approval. The project proposal must normally be approved by the Graduate Studies Advisory Committee no later than the end of the candidate's third semester in the program.
4. The project will be evaluated in accordance with procedures outlined in General Regulation Theses and Reports of the School of Graduate Studies.

15.5 Project
1. Candidates for the Degree of Master of Gender Studies (project option) will be required to complete a minimum of 18 credit hours. Candidates will also be required to complete a project.
2. The project must be interdisciplinary in nature and aimed at linking theoretical and practical knowledge by recognizing and articulating a problem relevant to Gender Studies and by developing and justifying theoretical and practical approaches. The project report should consist of the project (e.g. a film or video; a computer project; a website; a manual or guidebook; a kit of learning resources; photographs; audio or videotape, etc.) as well as a literature-based rationale, theoretical basis and justification for its use. The length of the written portion of the project should be 40-60 pages. Regardless of the form that the project takes (e.g. a film or video; a computer project; a website; a manual or guidebook; a kit of learning resources; photographs; audio or videotape, etc.), there must be a written project report.
3. The Master's project must be interdisciplinary in nature and aimed at linking theoretical and practical knowledge by recognizing and articulating a problem relevant to Gender Studies and by developing and justifying theoretical and practical approaches. The project report should consist of the project (e.g. a film or video; a computer project; a website; a manual or guidebook; a kit of learning resources; photographs; audio or videotape, etc.) as well as a literature-based rationale, theoretical basis and justification for its use. The length of the written portion of the project should be 40-60 pages. Regardless of the form that the project takes (e.g. a film or video; a computer project; a website; a manual or guidebook; a kit of learning resources; photographs; audio or videotape, etc.), there must be a written project report.
4. The project will be evaluated in accordance with procedures outlined in General Regulation Theses and Reports of the School of Graduate Studies.

15.6 Internship
1. Candidates for the Degree of Master of Gender Studies (internship option) will complete a minimum of 18 credit hours. Candidates will also be required to complete an internship.
2. Internship placement shall be for one semester. Part-time internships of two semesters will require approval from the proposed agency or institution and the Graduate Studies Advisory Committee.
3. Students, in consultation with their supervisor and the Gender Studies Graduate Co-ordinator, will explore internship options and locate an eligible person to provide field instruction during their internship. Although consideration will be given to all factors affecting the location and type of all Gender Studies internships, the final decision regarding internship rests with the Head, Department of Gender Studies and the Dean of Graduate Studies.
4. Factors affecting the type and location of the internship include: the number of immersion hours per week; the extent to which the intern takes up a trainee, supervisory and/or research role and whether the intern would be working directly or indirectly with clients of the agency or institution.
5. Each internship shall be supervised by a Supervisory Committee of at least three members, including the candidate's supervisor, the field supervisor and Gender Studies Graduate Co-ordinator or her/his delegate.
6. The Supervisory Committee will meet with the intern and field supervisor at least once during the internship period to make an assessment of the nature and quality of the intern's progress, and to approve any modifications to the internship.
7. The internship proposal, approved by the student's supervisor, will be presented to the Graduate Studies Advisory Committee for its approval. The proposal must normally be approved by the Graduate Studies Advisory Committee no later than the end of the candidate's third semester in the program.
8. Regardless of the form that the internship takes, there must be a written internship report (40-60 pages). When the candidate completes the internship report, the Supervisory Committee will recommend to the Dean of Graduate Studies a grade of pass or fail. A candidate will be permitted to submit an internship report only after the Supervisory Committee has determined that the internship placement has been fully completed.
9. Should the Head, Department of Gender Studies, on the recommendation of the Supervisory Committee, terminate the internship prior to its completion, it may recommend to the Dean of Graduate Studies one of the following:
   a. submission of a new internship proposal for a different field setting (once only);
   b. selection of the thesis or project option;
   c. termination of the student's program.

15.7 Courses
6000 Feminist Theory
6100 Feminist Epistemologies and Methodologies
6200 Graduate Seminar in Gender Studies
6300 Feminism as Community
6400-6420 Special Topics in Women’s Studies

16 Regulations Governing the Degree of Master of Health Ethics
Professor and Dean
J. Rourke
Professor and Associate Dean
R. Tabrizchi
Associate Professor and Acting Assistant Dean
J. Doré

The degree of Master of Health Ethics is offered by the Faculty of Medicine, delivering an advanced program of study for students from
various academic fields who are interested in a flexible graduate degree designed to prepare them for a career in ethics within health care organizations or, for those students completing the research option, further study in health ethics at the Ph.D. level. The General Regulations of the School of Graduate Studies and the regulations outlined below will apply.

16.1 Qualifications for Admission

Admission to the Master of Health Ethics is limited and competitive. The regulations and procedures for admission are as given under the General Regulations of the School of Graduate Studies governing Master’s degrees. In addition, to be considered for admission applicants must have successfully completed a minimum of one senior level undergraduate course in Philosophy with substantial ethics content.

16.2 Program of Study

1. The Master of Health Ethics degree is offered by full or part-time study. Candidates may choose one of three program options: (1) Thesis option, (2) Non-thesis, Capstone Project option, (3) Non-thesis, Research Papers option. It is anticipated that full-time students will complete the program in four semesters in accordance with Table I - Master of Health Ethics Recommended Course Sequence for Full-Time Students.

2. The program of study is the responsibility of the Supervisor composed of a Supervisor and at least two other faculty members. It is the responsibility of the Supervisory Committee to meet regularly (at least annually) with the student and to provide guidance at all stages of the candidate’s program. An annual report prepared by the Supervisor and signed by the student and all members of the Committee is required to be submitted to the Assistant Dean of Research and Graduate Studies (Medicine).

3. All candidates must complete the following course requirements:
   a. MED 6800, MED 6801, and MED 6808
   b. 3 elective courses (9 credit hours) chosen in consultation with the Supervisor. Elective courses may be selected from the elective courses listing below (excluding MED 6820, 6821, 6822 and 6825) or from other courses approved by the Supervisor.

4. In addition, all candidates must complete a Health Ethics Practicum (MED 6815). The practicum will include three placements during the semester in which it is taken, one in each of the following areas of health ethics: clinical ethics, research ethics and health ethics policy. Each placement will be approximately four weeks in length and students will be required to devote a minimum of 40 hours in overall placement activities. All course work identified above must be completed prior to initiation of the practicum.

5. Students must also complete one of the following in accordance with the program option to which they have been admitted:
   b. Three Health Ethics Research Papers (represented as MED 6820). Research topics will be chosen in consultation with, and approved by, the Supervisor. Students must register for the course MED 6820 in every semester during which they are completing one or more of the Research Papers necessary to satisfy this requirement. A grade of NC (No Credit) will be awarded if the performance does not meet the minimum standards for the Research Papers. A grade of ‘B’ or better is required in each of the three required Research Papers in order to successfully complete this requirement and receive a grade of ‘Pass’ in the final semester. Each paper will be evaluated by the supervising faculty member and another faculty member qualified to evaluate the work.
   c. A Health Ethics Capstone Project (MED 6825). The Capstone Project will be completed in consultation with, and approved by, the Supervisor. Students must register for the course MED 6825 in every semester during which they are completing the Capstone Project. A grade of NC (No Credit) will be awarded in all semesters prior to the final semester. The completed Capstone Project will be evaluated by the supervising faculty member along with a representative of the external organization for which the project was undertaken.

16.3 Courses

A selection of the following graduate courses shall be offered to meet the requirements of students, as far as the resources of the Faculty allow:

MED 6800 Health Ethics Theory
MED 6801 Important Cases in Health Ethics
MED 6803 Research Ethics
MED 6804 Public Health Ethics
MED 6807-6814 Special Topics in Health Ethics (excluding MED 6808)

17 Regulations Governing the Degree of Master of Marine Studies (Fisheries Resource Management)

Vice-President (Marine Institute)
G. Blackwood

Associate Vice-President (Marine Institute) Academic and Student Affairs
Shea, R.J., B.A., B.S.W., M.Ed. Memorial, Ph.D. Calgary

17.1 Administration
The programs will be administered by an Academic Director appointed by the Vice-President (Marine Institute), together with an Academic Advisory Committee.

An Academic Advisory committee will be appointed by the Dean of Graduate Studies on recommendation of the Vice-President (Marine Institute). This committee will consist of the Academic Director as Chair, three members from the Marine Institute and two members from other academic units of the University. Normally, all appointments will be for a period of three (3) years.

A Technical Advisory Committee consisting of a cross-section of members with professional expertise related to the fishery, will provide regular feedback on program content, instruction, and future direction of the Program. Members of this Committee will be appointed by the Dean of Graduate Studies on recommendation of the Vice-President (Marine Institute). The Academic Director will be an ex officio member and Chair of the Technical Advisory Committee. Normally all appointments will be for a period of three (3) years.

17.2 Programs
There are two graduate programs in Fisheries Resource Management: the Graduate Diploma and the Master of Marine Studies.

17.3 Graduate Diploma
The Graduate Diploma in Fisheries Resource Management provides an opportunity for fisheries professionals to enhance their perspective on fishery issues from a variety of disciplines.

17.3.1 Admission Requirements
To be admitted to the Graduate Diploma in Fisheries Resource Management, a student must be eligible to register in the Master of Marine Studies program (see Master of Marine Studies, Admission Requirements below).

17.3.2 Program of Study
The program is offered online and requires successful completion of 18 credit hours of course work selected from the Courses section below:

1. 5 core courses (15 credit hours)
2. 1 elective course (3 credit hours) from either Category A or Category B Electives.

17.3.3 Evaluation
Candidates for the Graduate Diploma in Fisheries Resource Management must obtain a grade of B or better in all program courses.

17.4 Master of Marine Studies
The Master of Marine Studies (Fisheries Resource Management) (M.M.S.) is a multi-disciplinary program of study that will provide the candidate with exposure to all dimensions of modern fisheries resource management in an international context. The program is aimed at professionals working in or intending to enter careers in fisheries management. The program is offered online and requires successful completion of either (a) 24 credit hours of course work and a Major Report, or (b) 30 credit hours of course work. Students who have successfully completed the requirements for the Graduate Diploma may elect to continue their program of study in order to earn the Degree.

17.4.1 Admission Requirements
1. Admission to the program is on a competitive basis. To be considered for admission to the program an applicant must normally have an undergraduate degree with a minimum of a high second class standing from an institution recognized by the Senate.
2. In addition to the academic requirements in 1. above applicants will normally have a demonstrated commitment to fisheries through employment or experience in a sector of the fishery, in a regulatory agency or government Department connected to fisheries, in a non-governmental agency, or through self-employment or consulting activities related to fisheries.
3. The deadlines for submission of applications for candidates wishing to enter studies are as follows:
   Fall (September) semester: June 15
   Winter (January) semester: October 15
   Spring (May): semester: February 15
   Applications received after listed deadlines will be considered as time and resources permit.

17.4.2 Program of Study
1. Candidates for the Master of Marine Studies (Fisheries Resource Management) shall be required to complete a minimum of either:
   a. 24 credit hours of course work plus a Major Report on the Course Work Plus a Major Report Route completed in accordance with General Regulation, Theses and Reports of the School of Graduate Studies. Course work must include the following course selections from the Courses section below:
      1. 5 core courses (15 credit hours)
      2. 1 elective course (3 credit hours) from Category A Electives
      3. 1 elective course (3 credit hours) from Category B Electives
      4. 1 elective course (3 credit hours) from either Category A or Category B Electives
b. 30 credit hours on a Comprehensive Course Route which must include the following course selections from the Courses section below:
   - 5 core courses (15 credit hours)
   - 2 elective courses (6 credit hours) from Category A Electives
   - 1 elective course (3 credit hours) from Category B Electives
   - 2 elective courses (6 credit hours) from either Category A or Category B

2. Dependent upon the applicant’s academic background, other courses may be required by the Academic Advisory Committee.

3. Transfer of credit for graduate courses completed in other programs at the University or at other institutions recognized by Senate will be considered in accordance with School of Graduate Studies General Regulations, Transfer of Course Credits.

4. Those having partially completed the requirements for the degree under 2011-2012 Calendar Regulations may apply to transfer to one of the above program options and will be considered in accordance with the following:
   a. Those having previously completed all coursework required for the degree, but who have not submitted the Major Report, may satisfy the Comprehensive Course Route requirements by successfully completing an additional 6 credit hours of courses as follows:
      - MSTM 6005 (for students who completed the former FRM 6009 to satisfy the 24 credit hours of courses required under previous program regulations, an additional elective course chosen from Category A or B must be selected in place of this course)
      - One further elective course (3 credit hours) from Category A or B electives
   b. Those having previously completed all coursework required for the degree may satisfy the Major Report requirements by successfully completing:
      - MSTM 6001 (or the former FRM 6001)
      - MSTM 6002 (or the former FRM 6002)
      - MSTM 6003 (or the former FRM 6003)
      - MSTM 6004 (or either of the former FRM 6004 or FRM 6005)
      - MSTM 6005 (or the former FRM 6009)
      - a Major Report completed in accordance with General Regulations, Theses and Reports of the School of Graduate Studies together with the following course selections from the Courses section below:
        - 1 elective course (3 credit hours) from Category A Electives
        - 1 elective course (3 credit hours) from Category B Electives
        - 1 elective course (3 credit hours) from either Category A or Category B. The former FRM 6007 and/or FRM 6008 may be used to partially satisfy the elective requirement.
   c. Those having previously partially completed the coursework required for the degree may satisfy the Comprehensive Course Route requirements by successfully completing:
      - MSTM 6001 (or the former FRM 6001)
      - MSTM 6002 (or the former FRM 6002)
      - MSTM 6003 (or the former FRM 6003)
      - MSTM 6004 (or either of the former FRM 6004 or FRM 6005)
      - MSTM 6005 (or the former FRM 6009) together with the following course selections from the Courses section below:
        - 1 elective course (3 credit hours) from Category A Electives
        - 1 elective course (3 credit hours) from Category B Electives
        - 3 elective courses (9 credit hours) from either Category A or Category B. The former FRM 6007 and/or FRM 6008 may be used to partially satisfy the elective requirement.

17.4.2.1 Course Work Plus a Major Report Route
24 credit hours of course work plus a Major Report completed in accordance with General Regulations, Theses and Reports of the School of Graduate Studies. Course work must include the following course selections from the Courses section below:
1. 5 core courses (15 credit hours)
2. 1 elective course (3 credit hours) from Category A Electives
3. 1 elective course (3 credit hours) from Category B Electives
4. 1 elective course (3 credit hours) from either Category A or Category B

17.4.2.2 Comprehensive Course Route
30 credit hours on the Comprehensive Course Route which must include the following course selections from the Courses section below:
1. 5 core courses (15 credit hours)
2. 2 elective courses (6 credit hours) from Category A Electives
3. 1 elective course (3 credit hours) from Category B Electives
4. 2 elective courses (6 credit hours) from either Category A or Category B

17.4.3 Evaluation
1. Candidates for the Master’s Degree must obtain a grade of B or better in all program courses.
2. Candidates who have received a grade less than a B in a program course will be permitted to remain in the program, provided the course is retaken and passed with a grade of B or better. Alternatively the candidate may, on the recommendation of the Academic Advisory Committee, substitute another graduate course. Only one such repeat or substitution will be permitted in the program.
3. The Major Report will normally be undertaken towards the end of the program. The topic of the report and a faculty Supervisor will be chosen by the candidate in consultation with the Academic Advisory Committee. The report provides an opportunity to synthesise an original perspective on a selected fisheries issue through the examination of appropriate literature and other sources of
information. Normally the report will be multi-disciplinary in nature and will result in a document equivalent to a publishable periodical journal article or a consultant’s report on a particular issue. It will be assessed in accordance with General Regulations, Theses and Reports of the School of Graduate Studies.

17.5 Courses

17.5.1 Core Courses
MSTM 6001 Fisheries Ecology (Credit restriction: credit may be obtained for only one of MSTM 6001 and the former FRM 6001)
MSTM 6002 Fisheries Resource Assessment Strategies (Credit restriction: credit may be obtained for only one of MSTM 6002 and the former FRM 6002)
MSTM 6003 Fisheries Economics (Credit restriction: credit may be obtained for only one of MSTM 6003 and the former FRM 6003)
MSTM 6004 Fisheries Policy and Planning (Credit restriction: credit may be obtained for only one of MSTM 6004, the former FRM 6004, and the former FRM 6005)
MSTM 6005 Overview of World Fisheries (Credit restriction: credit may be obtained for only one of MSTM 6005 and the former FRM 6009)

17.5.2 Category A Electives
MSTM 6006 Business Management for Fisheries (Credit restriction: credit may be obtained for only one of MSTM 6006 and the former FRM 6006)
MSTM 6007 Fisheries Technology
MSTM 6008 Social and Philosophical Issues of Fisheries Management
MSTM 6009 Current Issues for Sustainable Fisheries
MSTM 6010 Legal Aspects of Fisheries Resource Management

17.5.3 Category B Electives
MSTM 6022 Communication and Conflict Resolution in a Technical Environment
MSTM 6023 Strategic Planning, Policy, Participation and Management in Technical Operations
MSTM 6033 Quality Systems
MSTM 6034 Project Management in the Offshore, Health, Fisheries and Engineering Technology Environments
MSTM 6039 Sustainability and Environmental Responsibility
MSTM 6044 Marine Environment Law and Pollution Control
MSTM 6056 Management for International Development
MSTM 6071 Management of Aquaculture Technology

18 Regulations Governing the Degree of Master of Maritime Management

Vice-President (Marine Institute)
G. Blackwood

Academic Director
J. Parsons

18.1 Administration
The Master of Maritime Management (M.M.M.) program will be administered by an Academic Director appointed by the Vice-President (Marine Institute), together with an Academic Advisory Committee.

An Academic Advisory Committee will be appointed by the Dean of Graduate Studies on recommendation of the Vice-President (Marine Institute). This committee will consist of the Academic Director as Chair, three members from the Marine Institute, one member from the Faculty of Business Administration and one member from another unit of the University. Normally, all appointments will be for a period of three (3) years.

A Technical Advisory Committee, consisting of a cross-section of members with professional expertise related to the maritime sector, will provide regular feedback on program content, instruction, and future direction of the Program. Members of this Committee will be appointed by the Dean of Graduate Studies on recommendation of the Vice-President (Marine Institute). The Academic Director will be an ex officio member and Chair of the Technical Advisory Committee. Normally all appointments will be for a period of three (3) years.

18.2 Program
The Master of Maritime Management (M.M.M.) is a comprehensive academic program that provides a broad understanding of the structure and operation of organizations and the factors that influence business decisions in the context of maritime-based organizations. It provides a maritime management focus through the development of knowledge and understanding of the nature of technical operations and the factors that have an impact on their success, as well as the ability to apply these concepts within their organizations.

The program is offered online and requires successful completion of either 1) 24 credit hours of course work and a comprehensive project and report (6 credit hours), or 2) 30 credit hours of course work. Candidates will typically register on a part-time basis.

18.2.1 Admission Requirements
1. Admission to the program is on a competitive basis. To be considered for admission to the program an applicant will normally possess a second class or better undergraduate degree from a university of recognized standing and will normally have:
   a. a Memorial University of Newfoundland Bachelor of Maritime Studies or Bachelor of Technology, or a comparable undergraduate degree with appropriate maritime sector and business management course work; and
   b. an appropriate technical knowledge and relevant marine sector employment experience.
2. The deadlines for submission of applications for candidates wishing to enter studies are as follows:
   Fall (September) semester: May 15
   Winter (January) semester: September 15
18.2.2 Program of Study

1. Candidates for the Master of Maritime Management shall be required to complete a minimum of either:

   a. Twenty-four credit hours of course work and a major project and report (6 credit hours). Course work includes two compulsory core courses (6 credit hours); and six elective courses (18 credit hours). Students on the project route will complete MSTM 6101 Project in Maritime Management (6 credit hours).

      i. **Core Courses (Two to be completed):**
         - MSTM 6041 Marine Policy
         - MSTM 6042 Business of Shipping/Transportation of Goods

      ii. **Elective Courses (Six to be completed: a minimum of one from Category A and three from Category B):**
         **Category A**
         - MSTM 6022 Communication and Conflict Resolution in a Technical Environment
         - MSTM 6023 Strategic Planning, Policy, Participation and Management in Technical Operations
         - MSTM 6030 Principles of Management for Engineering Technology Enterprises
         - MSTM 6034 Project Management in the Offshore, Health, Fisheries and Engineering Technology Environments
         - MSTM 6039 Sustainability and Environmental Responsibility
         - MSTM 6052 Management of Intellectual Property
         - MSTM 6054 Technology Assessment

         **Category B**
         - MSTM 6027 Coastal and Ocean Environmental Policies
         - MSTM 6043 Marine Law
         - MSTM 6044 Marine Environment Law and Pollution Control
         - MSTM 6045 Port Operations and Management
         - MSTM 6046 Information Systems in the Marine Environment
         - MSTM 6047 Maritime Security and Event Investigation
         - MSTM 6048 Emerging Issues in International Marine Transportation
         - MSTM 6049 Maritime Risk Analysis and Management
         - MSTM 6050 Maritime Health, Safety, Environment and Quality
         - MSTM 6051 International Maritime Compliance & Business Continuity Planning

      iii. **Project in Maritime Management**
         - MSTM 6101 Project in Maritime Management (6 credit hours)
         Students will choose a topic in consultation with the Academic Director and will work independently to carry out an in-depth study of a problem or application within the area of maritime management and fully document and present their findings. Preferably the problem will be directly related to a workplace situation.

   b. Thirty credit hours on a course-based route. Course work includes two compulsory core courses (6 credit hours); and eight elective courses (24 credit hours).

      i. **Core Courses (Two to be completed):**
         - MSTM 6041 Marine Policy
         - MSTM 6042 Business of Shipping/Transportation of Goods

      ii. **Elective Courses (Eight to be completed: a minimum of two from Category A and four from Category B):**
         **Category A**
         - MSTM 6022 Communication and Conflict Resolution in a Technical Environment
         - MSTM 6023 Strategic Planning, Policy, Participation and Management in Technical Operations
         - MSTM 6030 Principles of Management for Engineering Technology Enterprises
         - MSTM 6034 Project Management in the Offshore, Health, Fisheries and Engineering Technology Environments
         - MSTM 6039 Sustainability and Environmental Responsibility
         - MSTM 6052 Management of Intellectual Property
         - MSTM 6054 Technology Assessment

         **Category B**
         - MSTM 6027 Coastal and Ocean Environmental Policies
         - MSTM 6043 Marine Law
         - MSTM 6044 Marine Environment Law and Pollution Control
         - MSTM 6045 Port Operations and Management
         - MSTM 6046 Information Systems in the Marine Environment
         - MSTM 6047 Maritime Security and Event Investigation
         - MSTM 6048 Emerging Issues in International Marine Transportation
         - MSTM 6049 Maritime Risk Analysis and Management
         - MSTM 6050 Maritime Health, Safety, Environment and Quality
         - MSTM 6051 International Maritime Compliance & Business Continuity Planning

   Up to three relevant elective courses (9 credit hours) may be transferred from other graduate programs within the School of Graduate Studies or from other post-secondary institutions recognized by Senate, subject to the approval of the Dean of Graduate Studies on the recommendation of the Academic Director.

18.2.3 Evaluation

1. Candidates for the Master of Maritime Management degree must obtain a grade of B or better in all program courses.

2. Candidates who receive a grade of less than B in any course will be permitted to remain in the program provided the course is repeated and passed with a grade of B or better. Alternatively, the candidate may, on the recommendation of the Academic Director, and with the approval of the Dean of Graduate Studies, substitute another graduate course. Only one course repetition or substitution will be permitted during the candidate’s program after which the candidate shall be required to withdraw from the program.
19 Regulations Governing the Degree of Master of Music

Professor and Dean
E. Waterman

Professor and Associate Dean
M. Volk

The Master of Music (M.Mus.) program provides the environment for accelerated advances in comprehension, skills and abilities as a performing musician, music pedagogue or conductor while offering experience in the metier of the contemporary musician. To that end, the School of Music has forged active partnerships with many of the professional music organizations and institutions within the arts community in the greater St. John’s region which afford an exceptional range of professional experiences to its graduate students. Included among these partners are the Newfoundland Symphony Orchestra, the Canadian Broadcasting Company, Heritage Canada, the Newfoundland and Labrador Arts Council and many others. Within the areas of specialization offered for the M.Mus., there is considerable flexibility available to further focus the program to meet specific interests and needs.

19.1 Program of Study

The Degree of Master of Music (M.Mus.) is offered by full-time study, normally commencing in the Fall semester. Three areas of specialization are offered:

1. Conducting. Students may focus in choral conducting, instrumental conducting, or a combination of choral and instrumental conducting.
2. Performance. Instruction is offered in voice, piano, organ, flute, clarinet, saxophone, oboe, trumpet, euphonium, trombone, tuba, guitar, violin, viola and cello.
3. Performance/Pedagogy. Instruction is offered in voice, piano, organ, flute, clarinet, saxophone, oboe, trumpet, euphonium, trombone, tuba, guitar, violin, viola and cello.

The specialization of Ethnomusicology is available through the degrees Master of Arts and Doctor of Philosophy. For further information see the section Regulations Governing the Degree of Master of Arts and the section Regulations Governing the Degree of Doctor of Philosophy, respectively.

19.2 Qualifications for Admission

1. Admission to the program is limited and competitive. The application deadline is December 15 for admission to the following Fall semester. Under special circumstances, applicants may be considered for admission to the Winter semester. For further information, contact the School of Music.
2. To be eligible for consideration for admission, applicants shall meet the requirements set out in General Regulations for Admission, Master’s Program. Applicants to the M.Mus. will normally hold a Bachelor of Music or equivalent from a recognized university or conservatory. Preference will be given to applicants who hold first class standing in their undergraduate program.
3. In addition to the requirements above, admission is further determined by audition and diagnostic examinations.
   a. Auditions for September entry are normally held in late February or early March of each year. Check the School of Music website at www.mun.ca/music for dates and locations.
   b. Applicants to the M.Mus. in Performance or Performance/Pedagogy may submit the audition as a professional quality video recording if they are unable to attend the live auditions. An unedited live performance is preferred. The audition program should display a range of performance styles and repertoire. Applicants should consult the School of Music website at www.mun.ca/music for details on length of audition and appropriate repertoire.
   c. Applicants to the M.Mus. in Conducting should submit professional quality video recordings of their work with a minimum of two different types of ensembles. These video recordings should include both rehearsals and performances.
   d. Applicants to all M.Mus. programs will be required to write diagnostic examinations measuring their skills and knowledge in the standard areas of musical literacy. These include music theory and analysis, aural skills, and music history and literature which includes repertoire knowledge in the performance area. Applicants who display deficiencies in any of these areas may still be considered for admission. Once admitted, however, they will be required to take remedial course work in addition to the required program.
   e. Voice and choral conducting applicants will have language competency assessed during the audition. Students admitted in voice and in choral conducting who lack sufficient background in English, German, French and Italian diction and basic comprehension will be required to take remedial undergraduate course work.
   f. Further information about the audition requirements, the diagnostic exams and language competency requirements is available at www.mun.ca/music/programs/graduate/admission.php or from the Associate Dean, School of Music.

19.3 Degree Requirements

1. The Degree of Master of Music is normally completed in two years of full-time study. Comprehensive examinations are not administered. The normal residency period may, in some instances, be reduced through Summer and Intersession study.
2. All candidates for the M.Mus. must complete at least 31 credit hours. Further courses may be required depending on the background of the individual student.
3. All candidates must complete:
   a. Music Research Methods: Music 6000 (1 credit hour)
   b. Music Seminar: Music 6002
   c. Career Skills for Musicians: Music 6700
   d. Further courses may be required depending on the background of the individual student.
4. Candidates in Conducting must complete an additional 24 credit hours according to their area of focus:
   a. Choral Conducting
      i. Choral Conducting: Music 6310, 6311, 7310
      ii. Instrumental Conducting: Music 6210
      iii. Score Study and Analysis: Music 6100
iv. Choral Repertoire: Music 6007
v. Electives: Six credit hours. With the approval of the School of Music. 3 credit hours may be from related disciplines.

b. Instrumental Conducting
i. Instrumental Conducting: Music 6210, 6211, 7210
ii. Choral Conducting: Music 6310
iii. Score Study and Analysis: Music 6100
iv. Orchestral or Instrumental Ensemble Repertoire: Music 6006 or 6008
v. Electives: Six credit hours. With the approval of the School of Music. 3 credit hours may be from related disciplines.

c. Combined Choral/Instrumental Conducting
i. Instrumental Conducting: Music 6210, 6211
ii. Choral Conducting: Music 6310, 6311
iii. Score Study and Analysis: Music 6100
iv. Ensemble Repertoire: One of Music 6006, 6007, or 6008
v. Electives: Six credit hours. With the approval of the School of Music. 3 credit hours may be from related disciplines.

5. Candidates in Performance must complete an additional 24 credit hours as follows:
a. Principal Applied Study: Music 645A/B, 745A/B
b. Other Applied Study: 3 credit hours from Music 6500-6506, 646A/B
c. Music Pedagogy: Music 6400 or Music 6600
d. Electives: Six credit hours. With the approval of the School of Music. 3 credit hours may be from related disciplines.

6. Candidates in Performance/Pedagogy must complete an additional 24 credit hours as follows:
a. Principal Applied Study: Music 647A/B, 747A/B
b. Music Pedagogy: Music 6400 and 6600
c. Pedagogy Internship: Music 6610
d. Electives: 3 credit hours

### 19.4 Evaluation

1. Candidates must meet all requirements of the General Regulations of the School of Graduate Studies.

2. Candidates must obtain a grade of at least 65% in all program courses to receive credit for the course toward their program requirements. Candidates who fail to receive 65% or more in a required course must repeat the course. Candidates who fail to receive 65% or more in an elective course must either repeat the course or replace it with another program course. Any student who receives a grade of less than 65% in two courses or in a repeated course will be required to withdraw from the program.

3. In addition, failure to receive a grade of 75% or higher in any of Music 645A/B, Music 745A/B, Music 647A/B, Music 747A/B, Music 6210, Music 6211, Music 6310, Music 6311, Music 7210 or Music 7310 will lead to termination of the student’s program.

### 19.5 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the School will allow. All courses are 3 credit hours unless otherwise indicated.

- 6000 Music Research Methods (1 credit hour)
- 6002 Graduate Seminar
- 6005 Performance Practice
- 6006 Instrumental Ensemble Repertoire
- 6007 Choral Repertoire
- 6008 Orchestral Repertoire
- 6009 Music Literature
- 6015 Historical Contexts and Modern Users/Viewers (Harlow, England)
- 6100 Score Study and Analysis
- 6210 Instrumental Conducting I

20 Regulations Governing the Degree of Master of Nursing

Professor and Dean
J. McFetridge-Durdle

Professor and Associate Dean (Graduate Program and Research)
S. Solberg

20.1 Program
1. The responsibility for the administration of all graduate programs shall reside with the Dean of Graduate Studies.
2. Applicants for the program shall be required to apply for admission to the Dean of the School of Graduate Studies and shall be expected to follow the regulations, policies and practices required of the School. Deadline for receipt of applications should be no later than February 15. If space is available, students who apply after the deadline date may be accepted.
3. The School of Nursing offers a Master of Nursing (M.N.) program with three options: (thesis, non-thesis and nurse practitioner) as well as a Post Masters Nurse Practitioner Graduate Diploma.

20.2 Qualifications for Admission
1. Applicants to the Master of Nursing program in any of the three options listed above must have a baccalaureate Degree in nursing, or an equivalent from an institution recognized by the University and a knowledge of nursing satisfactory to the School of Nursing.
2. Admission to the program is limited and competitive. To be considered for admission, the applicant must have maintained at least a grade B standing in the baccalaureate program.
3. Applicants are also required to have a minimum of one year's experience in nursing practice, and to have completed an undergraduate nursing research course, and a statistics course normally within the last 5 years such as Statistics 2500 or Education 2900 or their equivalents.
4. Applicants must hold a practising licence from the Association of Registered Nurses of Newfoundland and Labrador or must be currently registered as a practising nurse in another Canadian jurisdiction. Applicants from other countries who do not meet the above criteria will be assessed on an individual basis. However, they must submit proof of registration as a practising nurse (or an equivalency) from their country or jurisdiction.
5. In addition to the above requirements, candidates seeking admission to the MN-Nurse Practitioner Degree option must have two years of clinical experience preferably in their chosen specialty area. As well, candidates must have a letter from a health care agency and a clinical preceptor guaranteeing the candidate a preceptored clinical placement for the final semester of their program.
6. In addition to requirements 1 and 4, candidates seeking admission to the Post Masters Nurse Practitioner Graduate Diploma program must have completed a Masters Degree in Nursing or an equivalent degree with a nursing focus and have two years of clinical nursing experience preferably in their chosen specialty area. As well, candidates must have a letter from a health care agency and clinical preceptor guaranteeing the candidate a preceptored clinical placement for the final semester of their program.
7. Only in exceptional circumstances and only on the recommendation of the School of Nursing shall the Dean of Graduate Studies consider applicants who do not meet admission requirements listed above.
20.3 Registration
See School of Graduate Studies General Regulations, Registration.

20.4 Programs of Study
There are three routes offered that lead to a Master of Nursing Degree: 1. Thesis option, 2. Non-thesis option, and 3. Nurse Practitioner option. Normally the program will require two years to complete when taken on a full-time basis.

In addition to the M.N. Degree program, the School of Nursing also offers a Post Masters Nurse Practitioner Graduate Diploma.

20.4.1 Thesis Option
1. Candidates must complete an approved program of study consisting of a minimum of 19 credit hours in graduate program courses and a thesis.
   Required courses:
   - 6010 Research in Nursing I: Quantitative Methods
   - 6011 Philosophical and Theoretical Foundations of Nursing
   - 6100 Research in Nursing II: Qualitative Methods
   - Either 6200 Nursing Individuals and Families through Life Transitions, and N6210 Nursing Therapeutics for Individuals and Families
     OR 6220 Concepts for Population-based Nursing, and 6230 Interventions for Population-based Nursing
   - One nursing elective
2. Candidates shall submit a thesis on an approved subject in which systematic research has been conducted under the direction of a Supervisor recommended by the Dean of the School of Nursing and approved by the Dean of Graduate Studies.
3. The program of each candidate shall be approved by the Dean of Graduate Studies on the recommendation of the Dean of the School of Nursing.

20.4.2 Non-Thesis Option
1. Candidates must complete an approved program of study consisting of a minimum of 28 credit hours in graduate program courses and 6 credit hours in a consolidated practicum.
   Required courses:
   - 6010 Research in Nursing I: Quantitative Methods
   - 6011 Philosophical and Theoretical Foundations of Nursing
   - 6100 Research in Nursing II: Qualitative Methods
   - 6040 Nursing Informatics
   - Either 6200 Nursing Individuals and Families through Life Transitions and 6210 Nursing Therapeutics for Individuals and Families
     OR 6220 Concepts for Population-based Nursing, and 6230 Interventions for Population-based Nursing
   Three of the following courses:
   - 6020 Program Development in Nursing
   - 6031 Education in Nursing
   - 6050 Leadership in Nursing
   - 6060 Policy and Politics in Nursing and Health Care
   - Other approved electives
   One of the following consolidated practicums:
   - 6610, 6611 Practicum in Advanced Clinical Practice
   - 6620, 6621 Practicum in Nursing Administration
   - 6630, 6631 Practicum in Nursing Research/Research Utilization
   - 6640, 6641 Practicum in Health Policy
   - 6650, 6651 Practicum in Nursing Education
   The consolidated practicum will normally consist of 300 hours of field experience.
2. The program of each candidate shall be approved by the Dean of Graduate Studies on the recommendation of the Dean of the School of Nursing.

20.4.3 Nurse Practitioner Option
1. Candidates must complete an approved program of studies consisting of a minimum of 36 credit hours in graduate program courses and an integrated clinical practice experience, comprising 12 credit hours.
   Required courses:
   - 6010 Research in Nursing I: Quantitative Methods (4 credit hours)
   - 6011 Philosophical and Theoretical Foundations of Nursing (3 credit hours)
   - 6100 Research in Nursing II: Qualitative Methods (3 credit hours)
   - 6020 Program Development in Nursing (3 credit hours)
   - 6200 Nursing Individuals and Families through Life Transitions (3 credit hours)
   - 6210 Nursing Therapeutics for Individuals and Families (3 credit hours)
   - 6701 Advanced Practice Issues and Role Development (2 credit hours)
   - 6703 Advanced Health Assessment and Clinical Practicum I (4 credit hours)
   - 6704 Applied Pathophysiology and Clinical Practicum II (4 credit hours)
   - 6705 Pharmacotherapy and Therapeutics (3 credit hours)
   - Either one of: 6800 Adult Advanced Clinical Decision Making (4 credit hours), 6802 Family/All Ages Clinical Decision Making (4 credit hours) or, one of: 6803 to 6809 Nursing Specialty Option Courses (4 credit hours)
   - 690X Advanced Clinical Practicum II (The integrated practice component will normally consist of a minimum of 400 hours of preceptorship specialty clinical practice and biweekly seminars) (12 credit hours)
2. The program of each candidate shall be approved by the Dean of Graduate Studies on the recommendation of the Dean of the School of Nursing.

20.4.4 Post Masters Nurse Practitioner Graduate Diploma
1. Candidates with a Master's Degree in Nursing or an equivalent Degree with a nursing focus must complete an approved program of
study consisting of a minimum of 21 credit hours in graduate program courses and integrated clinical practice experience, comprising 12 credit hours.

**Required courses:**
- 6701 Advanced Practice Issues and Role Development (2 credit hours)
- 6703 Advanced Health Assessment and Clinical Practicum I (4 credit hours)
- 6704 Applied Pathophysiology and Clinical Practicum II (4 credit hours)
- 6705 Pharmacotherapy and Therapeutics (3 credit hours)

Either one of:
- 6800 Adult Advanced Clinical Decision Making (4 credit hours)
- 6802 Family/All Ages Clinical Decision Making (4 credit hours)
- 6900 Adult Advanced Clinical Decision Making (4 credit hours)

- 6801 Family/All Ages Clinical Decision Making (4 credit hours)
- 6802 Family/All Ages Clinical Decision Making (4 credit hours)
- 6803 Advanced Clinical Decision Making (4 credit hours)

- 6705 Pharmacotherapy and Therapeutics (3 credit hours)
- 6703 Advanced Health Assessment and Clinical Practicum I (4 credit hours)
- 6704 Applied Pathophysiology and Clinical Practicum II (4 credit hours)
- 6705 Pharmacotherapy and Therapeutics (3 credit hours)

2. Programs for some candidates may exceed the above minimum requirements.
3. The program for each candidate shall be approved by the Dean of Graduate Studies on the recommendation of the Dean of the School of Nursing.

**20.5 Evaluation**
1. In order to continue in graduate studies and in order to qualify for a Master's Degree, a candidate shall obtain an A or B grade in each program course.
2. If the candidate is in the Non-thesis Option, the candidate must obtain a Pass grade for the practicum component of the program.
3. When the Dean of the School of Nursing has determined on the basis of consultation with the candidate, the Associate Dean, Graduate Program and Research, and the thesis or practicum Supervisor, that a candidate has fallen below a satisfactory level, the Dean of the School of Nursing may recommend to the Dean of Graduate Studies that such a candidate be required to withdraw from the program.
4. To remain in good standing candidates are required to maintain professional behaviour consistent with the current Code of Ethics of the Canadian Nurses Association and, when applicable, the Tri-Council Policy Statement; Ethical Conduct for Research Involving Humans. Candidates who fail to meet this requirement will be required to withdraw from the School of Nursing upon recommendation of the Graduate Studies Committee.

**20.6 Thesis**
See School of Graduate Studies General Regulations, Theses and Reports.

**20.7 Courses**
A selection of the following graduate courses will be offered to meet the requirements of candidates as far as the resources of the School of Nursing will allow:

- 6010 Research in Nursing I: Quantitative Methods (4 credit hours)
- 6011 Philosophical and Theoretical Foundations of Nursing (3 credit hours)
- 6020 Program Development in Nursing (3 credits hours) (Pre or co-requisite: 6011)
- 6031 Education in Nursing (3 credit hours) (Not required by students who have completed 6030. Credit may not be obtained for both 6030 and 6031)
- 6040 Nursing Informatics (3 credit hours)
- 6050 Leadership in Nursing (3 credit hours)
- 6060 Policy and Politics in Nursing and Health Care (3 credit hours)
- 6100 Research in Nursing II: Qualitative Methods (3 credit hours)
- 6200 Nursing Individuals and Families through Life Transitions (3 credit hours) Pre or co-requisite: 6011 (Not required by students who have completed 6400)
- 6210 Nursing Therapeutics for Individuals and Families (3 credit hours) Pre or co-requisite: 6200 (Not required by students who have completed 6400)
- 6220 Concepts for Population-based Nursing (3 credit hours) Prerequisites: 6011 (Not required by students who have completed 6410)
- 6230 Interventions for Population-based Nursing (3 credit hours) Pre or co-requisite: 6220 (Not required by students who have completed 6410)
- 6310-6350 Special Topics in Nursing (electives)
- 6501-10 Individual Readings and Research in Special Areas
- 6610-6611 Practicum in Advanced Clinical Practice (6 credit hours) (Prerequisites: All required and elective courses including 6020 and 6050)
- 6620-6621 Practicum in Nursing Administration (6 credit hours) (Prerequisites: All required and elective courses including 6050 and 6060)
- 6630-6631 Practicum in Nursing Research/Research Utilization (6 credit hours) (Prerequisites: All required and elective courses including 6060)
- 6640-6641 Practicum in Health Policy (6 credit hours) (Prerequisites: All required and elective courses including 6050 and 6060)
- 6650-6651 Practicum in Nursing Education (6 credit hours) (Prerequisites: All required and elective courses including 6020 and 6031)
- 6701 Advanced Practice Issues and Role Development (2 credit hours)
- 6703 Advanced Health Assessment and Clinical Practicum I (4 credit hours)
- 6704 Applied Pathophysiology and Clinical Practicum II (4 credit hours)
- 6705 Pharmacotherapy and Therapeutics (3 credit hours)
- 6800 Adult Advanced Clinical Decision Making (4 credit hours)
- 6801 Family/All Ages Clinical Decision Making (4 credit hours)

One of:
- 6803 to 6809 Nursing Specialty Option Courses (4 credit hours)
- 690X Advanced Clinical Practicum II (The integrated practice component will normally consist of a minimum of 400 hours of preceptored specialty clinical practice and biweekly seminars) (12 credit hours)
21 Regulations Governing the Degree of Master of Philosophy

Programs leading to the Degree of Master of Philosophy (M.Phil.) are offered at present in German Language and Literature, and in the Humanities.

21.1 Qualifications for Admission
1. Admission is limited and competitive. To be considered for admission an applicant shall hold a Bachelor's Degree or its equivalent from an institution recognized by the Senate and shall have a knowledge of his or her proposed field of specialization satisfactory to the Department(s) concerned when interdisciplinary study is intended or to the Board of Studies in the case of the program in Humanities, and to the Dean.
2. Preference will normally be given to applicants who hold an appropriate Honours Degree either from Memorial University of Newfoundland, or from another university whose Honours Degree is of comparable standing. Any other applicant who holds a Bachelor's Degree or its equivalent will be considered for admission provided that:
   a. the applicant's undergraduate record after the first year shows an average of at least grade B in courses in the proposed field of specialization.
   b. the applicant's overall undergraduate record after the first year shows an average of at least grade B in all courses taken, and
   c. the Department or Board of Studies satisfies the Dean that the applicant's work exhibits evidence of academic excellence.

Only in exceptional circumstances, and only on the recommendation of the Department or the Board of Studies, will the Dean consider applicants who do not meet the requirements a. and b. Such applicants, however, must meet the requirement c.
3. An applicant may be required to demonstrate a satisfactory knowledge of the proposed field of study in an examination administered by the Department(s), or Board of Studies.
4. Applicants whose mother tongue is not English are reminded that a high degree of literacy in English is required of students at the University. In most cases instruction is in English, and examinations are to be written in English. (Language departments, however, give instruction in the pertinent language and often require examinations to be written in that language. In addition, other departments may permit and even require examinations to be written in a language other than English).
5. An applicant may be required to pass a qualifying examination.

Note: Some Departments have particular regulations in addition to these, and applicants are advised to turn to the relevant parts of this Calendar and acquaint themselves with both the General Regulations and the regulations of the program in which they are interested.

21.2 Program of Study
1. Every candidate shall read at least 30 credit hours in program courses in one subject or in a combination of closely related subjects as recommended by the Department(s) or Board of Studies, and approved by the Dean.
2. A candidate may be required also to take additional credit hours in program courses, which must be recommended by the Department(s) or Board of Studies, and approved by the Dean.
3. Students registered in the program in Humanities will be required to maintain and submit for evaluation a program Journal (See Program of Study, 3. of the Regulations for the Degree of Master of Philosophy in Humanities).
4. No candidate while classified as a part-time student may take more than 6 credit hours in any one semester.
5. A candidate may take more than 9 credit hours in graduate courses in a single semester, nor any credit hours in undergraduate courses at the same time as 9 credit hours in graduate courses; in no case may graduate and undergraduate credit hours combined exceed 12 in any one semester.
6. The course program will culminate in a general comprehensive examination (see Evaluation - General Comprehensive Examination below).
7. Every candidate shall be assigned to a tutor recommended by the Department(s) or Board of Studies, and approved by the Dean.
8. The Dean may approve an application to transfer from the M.Phil. to the M.A. only when a new integrated program, acceptable to the Dean, is submitted.

21.3 Period of Study
The period of study for the Master of Philosophy Degree shall not normally exceed three years, during which time the candidate shall spend at least two semesters in full-time attendance as a graduate student at this University.

21.4 Evaluation
See also Evaluation under General Regulations.
1. Students registered in undergraduate courses shall satisfy examination requirements in these courses.
2. The academic requirements for the Degree of Master of Philosophy shall be met when the candidate has successfully completed all course requirements of the program and has passed a general examination which consists of both written and oral parts. The Dean, on the recommendation of the Department(s) or Board of Studies, shall determine the times and places for general examinations; and, on the recommendation of the Department(s) or Board of Studies, shall appoint examiners, one of whom shall be from outside the Department(s) concerned. In the M.Phil. in Humanities, a program Journal is also required.

21.5 Evaluation - General Comprehensive Examination
1. Each candidate must pass a general comprehensive examination.
2. The examination committee shall be appointed by the Dean on the recommendation of the Department(s) or Board of Studies. The committee shall consist of either three or five members, at least one of whom must come from outside the Department(s) concerned. The candidate shall be informed of the names of the committee well before the examination.
3. The candidate and the tutor will normally agree when the candidate may sit the general comprehensive examination. However, the Department(s) or Board of Studies must accede to the candidate's request to sit a comprehensive examination, except that in no circumstances may a candidate attempt the general comprehensive examination before his or her course program is completed.
4. The schedule for the examination shall be agreed by the candidate, the tutor, and the examining committee, and shall be promulgated by the Dean.
5. The examination shall consist of a written part and an oral part. The time between the written and the oral parts shall normally be
from one to four weeks.
6. The oral examination shall be from one to three hours in length, and shall be conducted by the examining committee, and shall be
open to the examination committee and to members of the Department(s) or Board of Studies only.
7. A candidate must satisfy the examining committee in both parts of the examination to obtain a pass.
8. The successful completion of the comprehensive examination is the final academic requirement for the Master of Philosophy
Degree.

21.6 Departmental Regulations
Every candidate in a graduate program shall comply with any additional program requirements and with the General Regulations.

21.7 German
Associate Professor and Acting Head of the Department
J. Buffinga

21.7.1 Program of Study
The degrees of Master of Arts and Master of Philosophy are offered in German Language and Literature and may be taken by full-time
or part-time study. No graduate work is offered in Russian at this time.
1. In addition to the general requirements, candidates will be expected to have acquired a superior knowledge of the spoken and
written language and may, depending on their academic background and field of specialization, be asked to take advanced
undergraduate courses.
2. All candidates will complete at least 15 credit hours and a thesis for the M.A. and at least 30 credit hours for the M.Phil., and the
entire program of study and research will normally be of two-years’ duration.

21.7.2 Courses
A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the
Department will allow:
6000 German Civilization I
6001 German Civilization II
6100 History of the German Language I
6101 History of the German Language II
6200 Medieval German Literature I
6201 Medieval German Literature II
6300 German Literature, 1500-1700 I
6301 German Literature, 1500-1700 II
6400 German Literature of the Enlightenment and Sturm and Stress I
6401 German Literature of the Enlightenment and Sturm and Stress II
6500 German Classicism I
6501 German Classicism II
6600 German Romanticism I
6601 German Romanticism II
6700 German Realism I
6701 German Realism II
6800 German Literature, 1880-1933 I
6801 German Literature, 1880-1933 II
6900 Contemporary German Literature I
6901 Contemporary German Literature II
7000 Special Subject or Author I
7001 Special Subject or Author II
7002-7020 Special Topics in German Studies

Deutsch
Ausserordentlicher Professor und stellvertretender Leiter der Abteilung
J. Buffinga

Auf dem Gebiet der Germanistik werden die Grade Master of Arts (Magister Artium) und Master of Philosophy (Magister Philosophiae)
kein weiterführendes Studium geboten.
1. Ausser den allgemeinen Zulassungsbestimmungen wird von den Kandidaten überdurchschnittliche Kenntnis des Deutschen in
Sprache und Schrift erwartet. Ihrer akademischen Vorbildung und ihrem Fachgebet entsprechend, kann ihnen eventuell geraten
werden, gleichzeitig fortgeschrittene Kurse der Unterstufe zu belegen.
2. Für den Master of Arts sind mindestens 15 Kreditstunden zu absolvieren und eine wissenschaftliche Arbeit in Überein-stimmung mit
den allgemeinen Zulassungsbestimmungen einzureichen, für den Master of Philosophy sind mindestens 30 Kreditstunden
vorgeschrieben. Das ganze Studien program dauert normalerweise zwei Jahre.

Kurse
Von den hier aufgeführten Kursen für Graduierte wird jeweils eine Auswahl angeboten, die sowohl den Anforderungen des Studierenden
wie den Möglichkeiten der Abteilung gerecht wird.
6000 Deutsche Kulturkunde I
6001 Deutsche Kulturkunde II
6100 Geschichte der deutschen Sprache I
6101 Geschichte der deutschen Sprache II
6200 Mittelhochdeutsche Literatur I
6201 Mittelhochdeutsche Literatur II
6300 Deutsche Literatur 1500-1700 I
6301 Deutsche Literatur 1500-1700 II
6400 Deutsche Literatur der Aufklärung und des Sturm und Drang I
21.8 Humanities
Assistant Professor and Director, Board of Studies
J. Dyer

The Master of Philosophy in Humanities has been designed for students from any discipline. It is directed to students who hold an Honours bachelor’s Degree or its equivalent. The object of the M.Phil. in Humanities program is to provide students with an opportunity to see the historical and logical context of their own disciplinary points of view. The program is based on the interaction of a group of students of varying backgrounds and interests studying a common core of texts in a shared set of courses.

The program draws scholarly participation from faculty members in a range of academic disciplines within the School of Graduate Studies. The program is administered by a Board of Studies with membership appointed by the Dean of Arts, chosen from the participating faculty.

Master of Philosophy
In addition to meeting these regulations students must also meet the General Regulations Governing the Degree of Master of Philosophy.

This program is offered by the Faculty of Arts, and will draw scholarly participation chosen from those appropriately qualified faculty members wishing to participate, regardless of Department or Faculty affiliation.

21.8.1 Qualifications for Admission

1. Admission is limited and competitive. The number of students admitted to the program will be strictly limited to ensure small classes of maximum student-faculty contact. To be considered for admission an applicant will normally hold an Honours Bachelor's Degree (or equivalent) from an institution recognized by the Senate, and will have a breadth of knowledge in one or more of the Humanities disciplines satisfactory to the Board of Studies, and to the Dean.

2. Applicants who do not hold an Honours Degree (or equivalent) will be required to complete, prior to admission, a number of undergraduate courses, the nature and number of which will be determined on the basis of the applicants’ undergraduate record by the Director of Studies in consultation with the Board of Studies. Candidates will be required to complete such designated pre-admission courses with a minimum overall average of 70%.

21.8.2 Administration

1. The program will be administered by a Board of Studies, the members of which will be appointed by the Dean of Arts chosen from the participating faculty.

2. There will be a Director of Studies who will be an ex officio member of the Board of Studies and will make recommendations to the Dean concerning admission, financial support for students, and all other matters pertaining to the program.

3. Responsibility for the allocation of teaching and the support of related research will be managed by agreement between the Deans of the participating Faculties, the Heads of Departments of participating faculty members, and the Director of Studies, in consultation with the Dean of Graduate Studies.

4. The Board of Studies will be empowered to see the historical and logical context of their own disciplinary points of view. The program is based on the interaction of a group of students of varying backgrounds and interests studying a common core of texts in a shared set of courses.

21.8.3 Program of Study

1. Every candidate shall normally read 30 credit hours in the 10 regulation courses listed below.

2. With permission of the Director of Studies, a candidate may elect to substitute up to two of these courses with courses from other graduate programs in this University. Attendance in other programs requires the permission of the departments involved. (See also School of Graduate Studies General Regulation Program Requirements, Transfer of Course Credits which allows for further transfer of credits already taken but not yet applied to a graduate degree.)

3. Every candidate shall be required to maintain and submit a program Journal which will be monitored and evaluated by the Board of Studies. The Journal will comprise the candidate’s critical reflections arising out of analyses of designated key themes common to the several disciplines which constitute the program.

21.8.4 Comprehensive Examination

1. Each candidate must pass a general comprehensive examination.

2. The Examination Committee shall be appointed by the Dean of Graduate Studies on the recommendation of the Board of Studies. The Committee shall normally consist of three members. One member of the Committee is normally the tutor. The candidate shall be informed of the names of the committee well before the examination.

3. The candidate and the tutor will normally agree when the candidate may sit the general comprehensive examination. However, the Board of Studies must accede to the candidate’s request to sit a comprehensive examination, except that in no circumstances may a candidate attempt the general comprehensive examination before his or her course program is completed.

4. The schedule for the examination shall be agreed by the candidate, the tutor, and the Examinining Committee, and shall be promulgated by the Dean.
5. The examination shall consist of a written part and an oral part. The time between the written and the oral parts shall normally be from one to four weeks.

6. The program journal is an extended paper or series of linked papers which analyses and reflects critically on issues encountered by the candidate during the course of the program. Papers and/or projects completed during courses may be incorporated into the program journal, but shall not, of themselves, constitute the entire journal.

7. The oral examination shall be from one to three hours in length, shall be conducted by the Examinining Committee, and shall be open only to the Examination Committee, members of the Board of Studies and members of the Departments concerned.

8. A candidate must satisfy the Examinining Committee in both parts of the examination to obtain a pass.

9. The successful completion of the comprehensive examination is the final academic requirement for the Master of Philosophy Degree.

21.8.5 Courses

6000 Speaking and Writing I
6001 Speaking and Writing II
6010 Readings in History I
6011 Readings in History II
6015 Historical Contexts and Modern Users/Viewers (Harlow, England)
6020 Readings in Western Literature I
6021 Readings in Western Literature II
6030 Readings in Philosophy I
6031 Readings in Philosophy II
6040 Readings in Science and Technology
6041 Seminar in Humanities

22 Regulations Governing the Degree of Master of Physical Education

Professor and Dean
H. Carnahan

Professor and Associate Dean
D. Behm

The Degree of Master of Physical Education (M.P.E.) is offered by full-time and part-time study. Part-time study is available through Internet-based distance education technology.

22.1 Qualifications for Admission

1. Admission is limited and competitive. The deadline for receipt of applications is March 1 for admission into the subsequent Fall semester. To be considered for admission an applicant shall normally hold a Bachelor's Degree in Physical Education, Recreation and Leisure Studies or a related discipline, with at least second class standing, from an institution recognized by Senate. In addition to the above, preference will be given to applicants with work experience, obtained either through Cooperative Education programs or through employment deemed appropriate.

2. Any other applicant who holds a Bachelor of Physical Education or Recreation and Leisure Studies Degree or its equivalent may be considered for admission provided that:
   a. the applicant's undergraduate record after the first year shows an average of at least grade B in physical education and/or recreation and leisure studies courses, OR
   b. the applicant has raised his/her overall academic standing to second class following the completion of the undergraduate degree, through the successful completion of an approved pattern of undergraduate courses.

3. Only in exceptional circumstances and only on the recommendation of the School of Human Kinetics and Recreation shall the Dean of Graduate Studies consider applicants who do not meet these admission requirements.

22.2 Program of Study and Research

1. The Degree of Master of Physical Education is offered under three options:
   - Option I. The program shall consist of a minimum of 15 credit hours in graduate courses plus a thesis. The thesis shall be on an approved subject in which systematic research has been conducted by the candidate under the direction of the Supervisor.
   - Option II. The program shall consist of a minimum of 15 credit hours in graduate courses plus a project report. The project shall be on an approved subject in which action-research has been conducted by the candidate under the direction of the Supervisor.
   - Option III. The program shall consist of a minimum of 24 credit hours in graduate courses plus a comprehensive examination in the candidate's major area of study.

2. The candidate's major area of study shall be Administration, Curriculum and Supervision in Physical Education.

In conjunction and collaboration with other Faculties and Schools of Memorial University of Newfoundland, students may pursue their special interests through an interdisciplinary course of study. The student's interests may be accommodated through individual reading and research in these special areas.

3. The required courses for the degree shall normally include:
   - Option I: HKR 6500, one of 6000 or 6001, 6120, plus two of 6003, 6111, 6121, 6122, 6123, 6124, 6125, 6610-6615 (plus thesis)
   - Option II: HKR 6500, one of 6000 or 6001, 6120, plus 3 of 6003, 6111, 6121, 6122, 6123, 6124, 6125, 6610-6615 (plus project)
   - Option III: HKR 6500, one of 6000 or 6001, 6120, plus 5 of 6003, 6111, 6121, 6122, 6123, 6124, 6125, 6610-6615 (plus comprehensive examination)

Equivalent courses may be substituted from other Faculties or Schools subject to the approval of the School of Human Kinetics and Recreation Graduate Studies Committee. In addition, all on-campus candidates shall be required to complete four semester-length seminar courses (HKR 6510-6513). Off-campus or part-time candidates who cannot attend the on-campus seminar series can substitute 24 hours of participation (over their two year tenure) and present once at national, provincial or regional conferences, workshops, professional development seminars or equivalent activities.
22.3 Evaluation
1. Candidates must obtain an A or B grade in each program course. In accordance with General Regulation Evaluation, Evaluation of Graduate Students only one course may be repeated.
2. When the Dean has determined, on the basis of consultation with the candidate and the instructors, that a candidate's work has fallen below a satisfactory level, he or she may recommend to the Dean of Graduate Studies that the candidate be required to withdraw from the program.

22.4 Thesis and Project Report
1. A student completing a Master of Physical Education thesis option will be required to present a thesis proposal for his or her proposed thesis normally by the end of the third semester. The thesis proposal shall normally consist of a full written proposal (including literature review) submitted to the Supervisory Committee, a summary to be distributed to graduate students and faculty one week prior to the presentation and a formal presentation normally at the seminar series. The candidate may be questioned on his/her proposal by the Supervisory Committee and seminar audience. Any deficiencies noted during the presentation should be carefully considered by the student and the Supervisory Committee prior to proceeding with the thesis.
2. Evaluation of the thesis or project report shall be governed by School of Graduate Studies General Regulations, Theses and Reports. The thesis or project report shall normally be evaluated by two examiners approved by the Dean.
3. When the thesis or project report has been completed to the satisfaction of the Dean, the Dean shall recommend that the candidate be awarded the degree.

22.5 Comprehensive Examinations
1. Candidates electing to qualify for the Degree under Option iii must write a comprehensive examination. The comprehensive examination shall examine the candidate's ability to integrate and apply material from all course work completed during study for the Degree. The candidate may be required to appear for an oral examination.
2. The comprehensive examination shall normally be constructed and evaluated by an examining committee of three examiners, at least two of whom shall be faculty members of the School of Human Kinetics and Recreation appointed by the Dean on the recommendation of the Dean of the School.
3. A candidate may not write the examination before completing the course work for the Degree.

Note: Every candidate in graduate studies shall comply with the General Regulations, the Degree Regulations and any additional requirements of the Department.

22.6 Courses
6000 Quantitative Methods in Physical Education
6001 Qualitative Research Methods in Physical Education
6002 Scientific and Cultural Foundations of Physical Education
6003 Physical Education, Culture and Society
6110 Physical Education, Recreation and Sport Management
6111 Canadian Delivery Systems in Physical Education, Recreation and Sport
6120 Curriculum Development in Physical Education
6121 Physical Education Leadership
6122 Comprehensive School Health
6123 Coaching and Long-term Athlete Development in the Education System
6124 Adapted Physical Activity for Persons with Physical and Intellectual Disabilities
6125 Evaluation and Testing in Physical Education
6130 Computer Applications in Physical Education
6410 Sport and Society
6420 History of Physical Education and Sport
6500 Introduction to Research in Physical Education
6500 Contemporary Issues and Trends in Physical Education
6510-6513 Graduate Seminar Series (non-credit)
6610-15 Individual Reading and Research in Special Areas

23 Regulations Governing the Degree of Master of Public Health
Professor and Dean
J. Rourke
Professor and Associate Dean
R. Tabrizchi
Associate Professor and Acting Assistant Dean
J. Dore

The degree of Master of Public Health (M.P.H.) is offered by the Faculty of Medicine, with specializations in Population and Public Health and Nutrition and Dietetics. The Population and Public Health specialization delivers an advanced program of study for students from various academic fields who are interested in a professional degree that will prepare them for practical work in a variety of public health practice settings. The program is available for full-time and part-time study noting that full-time attendance is required during the Public Health Practicum (or Public Health Capstone Research Project) portion of the program. It is anticipated that full-time students will complete the program in 12 months in accordance with Table I - Master of Public Health Recommended Course Sequence for Full-Time Students in the Population and Public Health Specialization.

The Nutrition and Dietetics specialization provides a research enriched program of study for full-time students who wish to pursue a career in dietetics or community nutrition. This specialization offers an opportunity for advanced academic study in the field of public health. Upon completion of the program, which includes a dietetics internship, students will be eligible to write the qualifying exam of Dietitians of Canada. It is anticipated that full-time students will complete the program in 24 months in accordance with Table II - Master of Public Health Recommended Course Sequence for Full-Time Students in the Nutrition and Dietetics Specialization. Graduate students of the Division of Community Health and Humanities may be required to participate in education experiences which
occur outside of the St. John's metropolitan area. Students may be responsible for their own associated transportation and accommodation.

The General Regulations of the School of Graduate Studies and the Degree Regulations outlined below will apply.

23.1 Qualifications for Admission

Admission to the Master of Public Health is limited and competitive. The regulations and procedures for admission are as given under the General Regulations of the School of Graduate Studies governing Master's degrees. In addition, to be considered for admission to the Nutrition and Dietetics specialization applicants must have successfully completed an undergraduate dietetics program accredited by Dietitians of Canada as indicated at www.dietitians.ca.

23.2 Program of Study

23.2.1 Population and Public Health

1. Minimum requirements for the M.P.H. degree in Population and Public Health will include the successful completion of 42 credit hours as follows:

   a. Eight core courses: Biostatistics I (MED 6200), Epidemiology I (MED 6270), Policy and Decision Making (MED 6288), Disease and Injury Prevention (MED 6721), Environmental Health (MED 6722), Health Promotion (MED 6723), Communicable Disease Prevention and Control (MED 6724), and Public Health Leadership and Management (MED 6725).

   b. Six additional credit hours in elective courses chosen from the Courses listing below, or other courses as approved by the M.P.H. program coordinator.

   c. The Public Health Seminar Series courses (MED 6700 - 6701).

   d. Either, the Public Health Practicum (MED 6710) or the Public Health Capstone Research Project (MED 6711) as determined by the Graduate Program Committee depending on the professional background and experience of the candidate.

   The Public Health Practicum is a full-time practice experience conducted in a work setting and following the guidelines set forth by the Public Health Agency of Canada (PHAC) at www.phac-aspc.gc.ca/index-eng.php.

   All course work must be completed prior to the initiation of either the Public Health Practicum or the Public Health Capstone Research Project.

MED 6711 Public Health Capstone Project |

23.2.2 Nutrition and Dietetics

1. Minimum requirements for the M.P.H. degree in Nutrition and Dietetics will include the successful completion of the following:

   a. Six core courses: Public Health Leadership and Management (MED 6725), Epidemiology I (MED 6270), Community Health Research Methods (MED 6280), Biostatistics I (MED 6200), Community Nutrition (MED 6731), Professional Practice (MED 6730)

   b. The Public Health Seminar Series courses (MED 6700 - 6701)

   c. The Dietetics Research Project (MED 671A/B)

   d. The Dietetics Internship (MED 6733 - 6736). The Dietetics Internship is a practice experience conducted in a work setting and following the guidelines set forth by the Dietitians of Canada.

   Dietetics Internship I & II (MED 6733 & 6734) are non-credit, mandatory, part-time internship components completed during the first and second academic semesters of the program in accordance with Table II - Master of Public Health Recommended Course Sequence for Full-Time Students in the Nutrition and Dietetics Specialization. A grade of NC (No credit) will be awarded for these two internship components.

   Building on the components of Dietetics Internship I & II, Dietetics Internship III & IV (MED 6735 & 6736) are full-time internship blocks each of which will normally extend beyond the regular semester timeframe. Evaluation of the internship blocks will be on a PASS/FAIL basis.

   All core courses and seminars must be completed prior to the initiation of the Dietetics Internship III (MED 6735) and/or the Dietetics Research Project (MED 671A/B).

6733 Dietetics Internship I (non-credit component)  
6734 Dietetics Internship II (non-credit component)  
6735 Dietetics Internship III (17 week Internship block - 10 credit hours)  
6736 Dietetics Internship IV (16 week Internship block - 10 credit hours)  

24 Regulations Governing the Degree of Master of Science

Professor and Dean  
M. Abrahams

Professor and Associate Dean (Graduate and Research)  
L. Zedel

The degree of Master of Science (M.Sc.) is offered at present in Aquaculture, Biochemistry, Biology, Chemistry, Cognitive and Behavioural Ecology, Computational Science, Computational Science (Co-operative), Computer Science, Earth Sciences (Geology), Earth Sciences (Geophysics), Environmental Science, Experimental Psychology, Food Science, Geography, Marine Biology, Mathematics, Physical Oceanography, Physics, Statistics. Interdisciplinary studies are encouraged; applicants should consult the academic unit concerned.

24.1 Qualifications for Admission
1. Admission is limited and competitive. To be considered for admission an applicant will normally hold at least a high second class Honours Degree, or an M.D. Degree, or the equivalent of either, both in achievement and depth of study, from an institution recognized by the Senate, and shall have knowledge of the proposed field of specialization satisfactory to the Dean.

2. Any other applicant may be considered for admission provided that:
   a. the applicant's undergraduate record after the first year shows an average of at least Grade B in courses in the proposed field of specialization.
24.2 Program of Study and Research

1. The program of study for the Master of Science Degree shall consist of the successful completion of a program of courses and, in accordance with the specific program regulations, either of a thesis embodying original research or of a project and report.

2. Every candidate shall read at least 6 credit hours in graduate program courses in one subject or in closely related subjects, and such other courses as may be required in an individual program. Undergraduate courses may, if necessary, be included as additional courses.

3. Where Departmental regulations require more than the minimum number of credit hours, the Dean, on the recommendation of the appropriate academic unit, may waive in part the credit hour requirements for a Master's Degree, provided that no student may take less than the 6 required credit hours in graduate program courses.

4. Students may, with the approval of the Dean, augment their studies with 6 credit hours in other courses of their choice. Such a program will be intended to raise their qualifications to a level considered academically equivalent to Honours. Such courses may not be used to fulfill the regulation course requirements of the M.Sc. Degree.

5. A high degree of literacy in English is required of all graduate students in the University.

Note: Some Departments have specific regulations in addition to those outlined above, and prospective applicants are advised to turn to the relevant part of this Calendar and acquaint themselves with the regulations of the Department or appropriate academic unit in which they are interested.

24.3 Evaluation

1. In order to continue in the School of Graduate Studies and in order to qualify for a Master's Degree, a candidate shall obtain an A or B grade in each program course. (See General Regulation Evaluation, Evaluation of Graduate Students).

2. When it has been determined, on the basis of consultation with the candidate, the instructors in graduate courses, and the thesis or report Supervisor, that a candidate's work has fallen below a satisfactory level, the Supervisor or the Head of the appropriate academic unit may recommend to the Dean that such a candidate be required to withdraw from the program.

24.4 Thesis

See General Regulation Theses and Reports

Note: Every candidate in graduate studies shall comply with the General Regulations, the Degree Regulations and any additional requirements of the appropriate academic unit.

24.5 Aquaculture

Administrative Committee
Mr. C. Couturier, Fisheries and Marine Institute - Chair
Dr. K. Gamperl, Department of Ocean Sciences
Dr. L. Halfyard, Fisheries and Marine Institute
Dr. I. McGaw, Department of Ocean Sciences
Dr. C. Parrish, Department of Ocean Sciences
Dr. F. Shahidi, Department of Biochemistry

The program of study leading to the Master of Science in Aquaculture is designed to instruct students in research using scientific principles derived from a wide range of disciplines including Behaviour, Biochemistry, Biology, Ecology, Food Science, Genomics, Nutrition and Physiology. It is an interdisciplinary program and often involves several fields of study. Research problems may include field and laboratory studies of one or more species of marine or freshwater flora and fauna. The Aquaculture group consists of faculty members from the Fisheries and Marine Institute of Memorial University of Newfoundland and the Departments of Biology, Biochemistry, and Ocean Sciences of Memorial University of Newfoundland. Research scientists at other institutions, e.g., Fisheries and Oceans Canada, complement the group in offering advice, facilities and expertise to students in the program.

The Aquaculture Administrative Committee is responsible for the program. This Committee is composed of seven members appointed by the Dean of Science including two to three members from the Department of Ocean Sciences, two to three members from the Fisheries and Marine Institute of Memorial University of Newfoundland, and two members from appropriate academic units at Memorial University of Newfoundland. In addition, the Heads of the Departments of Biochemistry, Biology, and Ocean Sciences, and the Head of the School of Fisheries of the Fisheries and Marine Institute of Memorial University of Newfoundland are ex-officio members. The Committee makes recommendations to the Dean of the School of Graduate Studies concerning the academic requirements of the program: admission, course programs of individual students, financial support, composition of supervisory committees, and theses examiners. The Chair of the Committee will also ensure that a supervisory report form for each student in the program is submitted annually to the Dean.

24.5.1 Qualifications for Admission

To be considered for admission to the Master of Science in Aquaculture, an applicant shall normally hold one of the following: at least a second class Honours degree, or an equivalent both in achievement and depth of study, from an institution recognized by the Senate, or successful completion of the Advanced Diploma in Sustainable Aquaculture offered by the Fisheries and Marine Institute of Memorial University of Newfoundland, with academic standing deemed appropriate by the Committee.
24.5.2 Program of Study

1. The Master of Science Degree requires the successful completion of a program of courses and of a thesis embodying original research.

2. All candidates will be required to take 6 credit hours in graduate courses which will normally include at least one of the following: AQUA 6000 - Shellfish Culture and Enhancement, AQUA 6100 - Finfish Aquaculture, or AQUA 6200 - Aquaculture and the Environment.

3. Candidates who do not hold the Advanced Diploma in Sustainable Aquaculture may be required to successfully complete a selection of its component courses.

4. Further courses may be required depending on the background of the individual student.

5. Before the thesis is submitted, the student shall present an open seminar on the topic of investigation to the appropriate academic units, as recommended by the Administrative Committee. Any serious deficiencies in the thesis noticed at this stage should be carefully considered, in consultation with the Supervisor, for rectification.

6. The student will be required to comply with all other regulations governing the graduate Degree of Master of Science.

24.5.3 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates as far as the resources of the Department will allow:

**Aquaculture**
- AQUA 6000 - Shellfish Culture and Enhancement
- AQUA 6100 - Finfish Aquaculture
- AQUA 6200 - Aquaculture and the Environment
- AQUA 6201-6209 - Special Topics in Aquaculture (Prerequisite: Permission of Chair of Program)

**Biochemistry**
- BIOC 6670 - Biological Waste Treatment

**Biology**
- BIOL 6000 - Research Topics in Microbiology
- BIOL 6710 - Marine Benthic Biology
- BIOL 7101 - Topics in Marine Biology
- BIOL 7220 - Quantitative Methods in Biology
- BIOL 7533 - Advanced Topics in Marine Invertebrates
- BIOL 7538 - Genomics
- BIOL 7531 - Biological Oceanography
- BIOL 7535 - Research Methods in Marine Science
- BIOL 7550 - Fishery Biology
- BIOL 7551 - Fisheries Resource Management
- BIOL 7560 - Physiology of Marine Invertebrates
- BIOL 7561 - Physiology of Marine Vertebrates
- BIOL 7570 - Marine Benthic Biology
- BIOL 7910 - Community and Ecosystem Ecology

**Cognitive and Behavioural Ecology**
- CABE 6351 - Behavioural Ecology and Sociobiology

**Engineering**
- ENGI 9603 - Environmental Sampling and Pollutant Analysis (Cross listed as ENVS 6005)
- ENGI 9605 - Advanced Waste Water Treatment
- ENGI 9622 - Environmental Statistics

**Environmental Science**
- ENVS 6000 - Environmental Science and Technology
- ENVS 6001 - Earth and Ocean Systems
- ENVS 6002 - Environmental Chemistry and Toxicology
- ENVS 6003 - Applied Ecology
- ENVS 6007 - Environmental Risk Assessment (same as Engineering 9609)

**Geography**
- GEOG 6250 - Conservation of Natural Resources
- GEOG 6410 - Climatology

**Marine Studies (Fisheries Resource Management) Program Courses**
- MSTM 6001 - Fisheries Ecology
- MSTM 6005 - Overview of World Fisheries
- MSTM 6009 - Current Issues for Sustainable Fisheries

**Physics**
- PHYS 6316 - Ocean Data Analysis
- PHYS 6320 - Ocean Turbulence and Mixing

**Technology Management (Aquaculture Technology Option) Program Courses**
- MSTM 6056 - Management of International Development
- MSTM 6071 - Management of Aquaculture Technology
- MSTM 6072 - Animal Husbandry Management
- MSTM 6073 - Aquaculture Environmental Management
- MSTM 6074 - Aquaculture Site and Operational Assessment
- MSTM 6075 - Aquaculture Engineering Technology Management

Note: Consult the Program for a list of titles and information regarding availability.
24.6 Biochemistry
Professor and Acting Head of the Department
P.J. Davis

24.6.1 Program of Study
The Degree of Master of Science is offered in Biochemistry or Food Science to full-time and part-time students.
The admission requirements for the graduate programs in Biochemistry and Food Science are as given under Regulations Governing Master of Science Degrees. Depending on the background and/or area of specialization, a candidate's program may include additional courses taken for credit in Biochemistry, Food Science or related subjects.
The program of a candidate for the M.Sc. Degree shall be the responsibility of the supervisory committee, composed of the Supervisor and at least two other faculty members recommended with the concurrence of the Supervisor by the Head of the Department or delegate.

7. The candidate must present a thesis seminar of 30-40 minutes duration to the Department prior to submission of the thesis to the

6. The student will present a research seminar to the Department, normally by the end of the second semester following admission, to

5. The candidate will present a tentative outline of the proposed research to the Supervisory Committee, with a copy to the Department

4. It is the function of a Supervisory Committee to have regular meetings, at least annually, with its graduate student. A meeting report,

3. A student will be required to take a minimum of 6 credit hours and Biology 7000 (Graduate Core Seminar).

2. The Supervisory Committee shall interview the student normally within a month of first registration, to discuss the student's program

1. The program of a candidate shall be the responsibility of a Supervisory Committee composed of the Supervisor and at least two other appropriate members recommended to the Dean by the Head (or delegate) of the Department with the concurrence of the Supervisor.

24.6.2 Courses
A series of advanced courses in the areas outlined below will be offered. Normally only one course will be offered per semester.

6000-6009 Special Topics in Biochemistry
6010-6019 Special Topics in Nutrition and Metabolism
6020-6029 Special Topics in Food Science
6400 Control of Intermediary Metabolism
6460 Structural Biochemistry
6520 Nutritional Biochemistry
6530 Food Biochemistry
6590 Cellular, Molecular and Developmental Biology (Credit restricted with Biology 6590 and Medicine 6590)
6630 Marine Biochemistry
6680 Processing and Quality of Foods

24.7 Biology
Associate Professor and Head of the Department
P. Marino

The Degree of Master of Science is offered in Biology to full-time and part-time students. Students interested in animal behaviour should also consult the section in the Calendar describing the Master of Science in Cognitive and Behavioural Ecology program. In addition, a Master of Science Degree is offered in Aquaculture and in Marine Biology. See appropriate sections of this Calendar.

24.7.1 Biology
1. The program of a candidate shall be the responsibility of a Supervisory Committee composed of the Supervisor and at least two other appropriate members recommended to the Dean by the Head (or delegate) of the Department with the concurrence of the Supervisor.

2. The Supervisory Committee shall interview the student normally within a month of first registration, to discuss the student's program and to explore any areas of weakness in the candidate's biological knowledge, especially where these relate to the intended areas of research.

3. A student will be required to take a minimum of 6 credit hours and Biology 7000 (Graduate Core Seminar).

4. It is the function of a Supervisory Committee to have regular meetings, at least annually, with its graduate student. A meeting report, signed by all members of the Supervisory Committee and student, must be given to the Department. A copy will be sent to the graduate student and to the Dean of Studies.

5. The candidate will present a tentative outline of the proposed research to the Supervisory Committee, with a copy to the Department by the end of the second semester, and preferably prior to commencement of the research.

6. The student will present a research seminar to the Department, normally by the end of the second semester following admission, to describe the research topic being investigated and the methodologies to be employed. This seminar provides an opportunity for the student to receive constructive input from the broad biological community.

7. The candidate must present a thesis seminar of 30-40 minutes duration to the Department prior to submission of the thesis to the School of Graduate Studies. The candidate will be questioned by a panel approved by the Departmental Graduate Studies Committee, in consultation with the student's Supervisory Committee. All others in attendance will be invited to question the candidate before adjournment. Deficiencies noted at this stage should be carefully considered by the student and the Supervisory Committee prior to submission of the thesis for final examination.

Under exceptional circumstances, this requirement may be waived by the Head of the Department (or delegate).

8. Each Master's candidate shall spend at least one semester in residence as a full-time student within the Department during the program. It is recommended that this semester be at the beginning of the program.

Under exceptional circumstances, this requirement may be waived by the Head of the Department (or delegate).

9. If candidates, in the opinion of the Supervisor, Committee and Department, are not making satisfactory progress, they will be required to withdraw from the program.

10. Theses shall conform to Theses and Reports of the General Regulations of the School of Graduate Studies and to the regulations in the Departmental Guidelines.
24.7.2 Courses
A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the Department will allow:

6000 Research Topics in Microbiology
6351 Behavioural Ecology and Sociobiology (Cross-listed as Psychology 6351) credit cannot be obtained if already received for Biology 4701
6590 Molecular Biology I (Cross-listed as Medicine 6590 and credit-restricted with Biochemistry 6590) Prerequisites: Biology 4241 (or equivalent)
6591 Molecular Biology II (Cross-listed as Medicine 6591 and credit-restricted with the former Biochemistry 6591) Prerequisites: Biology 4241 (or equivalent)
6592 Bacterial Genetics (Credit-restricted with the former Biochemistry 6592) Prerequisite: Biology 4241 (or equivalent)
6593 Selected Readings in Molecular Biology (Credit-restricted with the former Biochemistry 6593) Prerequisites or Co-requisites: one of Biology, Biochemistry or Medicine 6590, and one of Biology 6591, Medicine 6591, or the former Biochemistry 6591 (or equivalent)
6710 Marine Benthic Biology
7000 Graduate Core Seminar (Cross-listed as Ocean Science 7000)
7101 Topics in Marine Biology
7201 Topics in Cellular and Molecular Biology and Physiology
7220 Quantitative Methods in Biology (credit cannot be obtained if already received for Biology 4605)
7300 Ornithology (credit cannot be obtained if already received for Biology 4620)
7301 Topics in Ecology and Conservation Biology
7530 The Molecular Biology of Development
7535 Research Methods in Marine Science
7920-7960 Special Topics in Biology (excluding Biology 7931)
7931 Research Methods in Genetic Biotechnology (Note: Biology 7931 may be delivered in an accelerated format outside of the regular semester timeframe)

24.8 Chemistry
Professor and Head of the Department
P. Pickup

24.8.1 Program of Study
1. The Degree of Master of Science in Chemistry is offered as full-time or part-time study.
   a. Preference for admission will be given to students with a B.Sc. (Honours) Degree in Chemistry from a recognized university.
   b. Students holding a B.Sc. Degree in Chemistry from a university of recognized standing with a minimum overall average of 65% and minimum average of 65% in all Chemistry courses taken after the first year will be considered for admission to the Chemistry M.Sc. program. Students not admitted under 1.a. may, on the advice of the Supervisory Committee, be required to pass qualifying exams and/or supplementary undergraduate courses with a minimum B grade.
   c. Students with a first class B.Sc. in an area other than Chemistry will also be considered for admission. Students not acceptable under 1.a. or 1.b. who have a strong background in an appropriate area of specialization may, on the advice of the Supervisory Committee, be required to pass qualifying exams and/or supplementary undergraduate courses with a minimum B grade.
   d. Candidates are normally required to write American Chemical Society (ACS) placement test(s) in the first two weeks of the initial semester of registration in order to determine an appropriate course program.
2. Candidates will be assigned a Supervisory Committee consisting of the Supervisor and at least two other appropriate faculty members appointed by the Dean on the recommendation of the Chemistry Deputy Head (Graduate Studies).
3. The program of a candidate must be arranged by the Dean before the second semester of registration in consultation with the Supervisory Committee and the student. It is the responsibility of the Supervisory Committee to meet at least annually with the student, to provide guidance at all stages of the candidate’s program, and, in consultation with the student, to prepare written annual progress reports for submission to the Dean of Graduate Studies.
4. Candidates are normally required to successfully complete Chemistry 6001 (Master’s Seminar) and a minimum of 6 credit hours of graduate Chemistry courses with a minimum B grade. Additional program courses may be assigned by the Supervisory Committee.
5. Candidates are required to attend Departmental seminars.
6. Candidates must submit a thesis deemed acceptable to two examiners as described under Regulations Governing Master of Science Degrees. An oral defence is not required.

24.8.2 Courses
6001 Master’s Seminar
6004 Project Seminar
6110 Analytical Chemistry II
6150 Advanced Spectroscopic Techniques
6151 Analytical Separations and Organic Mass Spectrometry
6152 Electroanalytical Techniques
6153 Techniques in Sampling, Trace Analysis and Chemometrics
6154 Business Management and Good Laboratory Practice
6155 Computers in Instrumental Analysis and Basic Electronics (same as Med 6070)
6160 Laboratory Projects in Sampling, Electroanalysis and Trace Analysis
6161 Laboratory Projects in Analytical Separations and Spectroscopic Techniques
6190-9 Selected Topics in Analytical Chemistry
6201 Bioinorganic Chemistry
6202 Main Group Chemistry
6204 Mechanisms in Catalysis
6205 Photochemistry of Transition Metal Complexes
6206 Green Chemistry
6210 Organometallic Chemistry
6290-9 Selected Topics in Inorganic Chemistry
6300 Quantum Chemistry I
24.9 Cognitive and Behavioural Ecology

24.9.1 General Information
1. The Cognitive and Behavioural Ecology Program is interdisciplinary and designed to train students in research that integrates cognitive and behavioural studies at the ecological level. Molecular, developmental and evolutionary aspects of cognition and behaviour are also studies. Supervisors include faculty from the Departments of Biology, Ocean Sciences, Psychology, the Faculty of Medicine and the Environmental Science Program at Grenfell Campus, as well as adjunct faculty from the Canadian Wildlife Service, Department of Fisheries and Oceans, the Newfoundland and Labrador Forestry and Wildlife Divisions and Parks Canada. The Departments of Biology and Psychology jointly offer the Master of Science and the Doctor of Philosophy degrees in Cognitive and Behavioural Ecology.

2. The Administrative Committee is responsible for the Program. Committee members are appointed by the Dean of Science, on the recommendation of the Chair of the Committee and of the Heads of Biology and Psychology. The Committee Chair is elected by the committee members and appointed by the Dean of Science. The Committee makes recommendations to the Dean of Graduate Studies concerning admissions and academic requirements. In consultation with supervisors, recommendations are made concerning course programs, financial support, thesis committees, comprehensive and thesis topics, examiners and students’ annual progress. Upon program completion, the Committee certifies that all requirements for the appropriate degree have been met. The Department of the Supervisor ensures that adequate facilities are provided for each candidate. Students in the Cognitive and Behavioural Ecology Program are considered for teaching assistantships in the Psychology or Biology Departments.

24.9.2 Program of Study
1. Students normally take four courses (12 credit hours) in the first year. Students will be required to take Quantitative Methods in Biology (BIOL 7220) or Advanced Statistics in Psychology (6000) unless they have already passed an equivalent graduate or Honours course, Behavioural Ecology and Sociobiology (CABE 6351), Field and Lab Methods in Animal Behaviour and Behavioural Ecology (CABE 7000) and one elective, in consultation with the Supervisor.

2. Upon completion but before submission of the thesis, the student is required to give a formal thesis presentation.

3. The student will be required to comply with all other regulations governing the graduate degree of Master of Science.

Table of Credit Restrictions - Master of Science in Cognitive and Behavioural Ecology
(Credit may be obtained for only one course from each of the pairs of courses listed in this table.)

24.9.3 Courses
Biology 7220 Quantitative Methods in Biology
Cognitive and Behavioural Ecology 6240 Special Topics
Cognitive and Behavioural Ecology 6350 Behavioural Ontogeny
Cognitive and Behavioural Ecology 6351 Behavioural Ecology and Sociobiology
Cognitive and Behavioural Ecology 7000 Field and Lab Methods in Animal Behaviour and Behavioural Ecology
24.10 Computational Science
Professor and Program Chair
M. Plumer

24.10.1 Administrative Committee
The Administrative Committee, appointed by the Dean of the School of Graduate Studies on the recommendation of the Dean of the Faculty of Science, consists of at least one representative of each participating academic unit, and one member external to the University.

24.10.2 Participating Departments and Organizations
This interdisciplinary program offers the Master of Science Degree in both Computational Science and Computational Science (Co-operative). The departments of Biochemistry, Chemistry, Computer Science, Earth Sciences, Mathematics and Statistics, Physics and Physical Oceanography and the Faculty of Engineering and Applied Science are participants in this program. Other departments and faculties may be involved, depending on the nature of the thesis or project. External organizations may provide placements for co-op students, jointly supervise students, share computing resources and participate in teaching courses.

24.10.3 Admission Criteria and Procedures
1. The criteria for acceptance of an applicant are: his or her anticipated successful and timely completion of the program, and the willingness of a participating faculty member in science to supervise the applicant.
2. Students will be expected to hold a B.Sc. (Honours) or B.Eng. Degree with honours standing, or equivalent, with a strong computational orientation. At the time of application, the student is expected to provide evidence (for example, transcripts of completed courses) of his or her knowledge of a modern computer language such as Fortran, and/or C and/or C++, and/or Matlab, and/or Python. Evidence of knowledge of differential equations; and/or linear algebra and/or computer graphics would be an asset. Students with an inadequate background may be encouraged to take certain undergraduate courses.
3. Admission decisions will be made by the School of Graduate Studies on the recommendation of the Chair of the Administrative Committee.

24.10.4 Program of Study
1. The goal of Computational Science is to solve technical problems, in science and engineering, using computers and computational methods. Our program is designed to educate students to apply computational, numerical and programming concepts and tools to solve and model complex problems in science and engineering.
2. The Program is offered in thesis and project (non-thesis) versions, with the option of a co-operative education program. It is intended that the overall level of student effort and performance required in each version will be comparable. The normal length of time to complete each option is 24 months.
3. The work for the thesis or project will be carried out under the guidance of a supervisor (or joint supervisors). The home department of the student will be the same as that of the Supervisor. Upon completion of the work for the thesis or project, to be submitted to the School of Graduate Studies for examination, each student is required to present a seminar suitable for the interdisciplinary audience of Computational Science program students.
4. All students are required to complete a minimum of 3 core courses (9 credit hours) selected from the list of Core Courses listing below. All students are also recommended to complete CMSC 6950. Additional courses are required in accordance with the program options as outlined below and will normally be selected from the student’s discipline of specialization. The course requirements for each student are approved by the Program Chair on the recommendation of the student’s supervisor(s), and should reflect the interdisciplinary nature of the program. Students are expected to attend research seminars in their home department as well as those relevant to Computational Science, when advertised.
   a. The thesis option requires the completion of a minimum of four graduate courses (12 credit hours) numbered 6000 or higher, which must include three courses (9 credit hours) from the Core Courses listing below. Equivalent courses may be considered for substitution with approval of the Program Chair. CMSC 6950 is also recommended. The additional course(s) will normally be chosen from the Additional Courses listing below in the same discipline as the thesis work. The submission of an acceptable thesis is required. The thesis is to contain an original scholarly contribution which must be submitted to the School of Graduate Studies for final examination. Each student is also required to present a seminar on their thesis research topic that demonstrates their use of computational techniques to solve a problem in science or engineering.
   b. The project option requires the completion of a minimum of seven graduate courses (21 credit hours) numbered 6000 or higher, which must include at least three courses (9 credit hours) from the Core Courses listing below. Equivalent courses may be considered for substitution with approval of the Program Chair. CMSC 6950 is also recommended. An acceptable project report is also required which must be submitted to the School of Graduate Studies for final examination. The additional courses will normally be chosen from the Additional Courses listing below in the same discipline as the project work. The project, which will include an in-depth written report, shall require the equivalent of at least one and no more than two semesters of full time work.

24.10.5 Co-operative Education Option
1. A co-operative education option will be available to students who are accepted into the M.Sc. program. Students in this option may follow the thesis or non-thesis version of the program. It is expected to take up to 24 months to complete.
2. Students will normally declare their intention to complete the co-operative education option at the start of the second semester of their academic program.
3. Students will complete two work terms consecutively, normally following the successful completion of two academic semesters.
4. The dates for starting and finishing each work term are shown in the University Diary.
5. A competition for work term employment is organized by the Division of Co-operative Education (DCE) in cooperation with a designated faculty member from Computational Science. Students may also obtain their own work term jobs outside the competition. Such jobs must be confirmed by letter from the employer and approved by the Chair of Computational Science and by the DCE on or before the first day of the work term. Work term jobs may be outside St. John’s and possibly outside Newfoundland and Labrador. Students who do not wish to accept a work term job arranged by DCE shall be responsible for finding an acceptable alternative. By entering the competition, students give permission for the DCE to supply their Memorial University of Newfoundland transcripts and...
6. Each work term placement will be supervised by the student's program supervisor, the on-site supervisor assigned by the employer and the DCE Coordinator. The overall evaluation of the work term is the responsibility of the program Supervisor, on-site Supervisor and DCE Coordinator. The work term shall consist of two components:

- On-the-job Student Performance as evaluated by the on-site supervisor and DCE Coordinator, in consultation with the program supervisor.
- A Work Report graded by the DCE Coordinator and the program supervisor in consultation with the on-site supervisor.

7. Evaluation of the work term will result in the assignment of one of the following final grades:

- **Pass with Distinction**: Indicates OUTSTANDING PERFORMANCE in both the work report and work performance.
- **Pass**: Indicates that PERFORMANCE MEETS EXPECTATIONS in both the work report and work performance.
- **Fail**: Indicates FAILING PERFORMANCE in the work report and/or the work performance. If a student fails to achieve a final grade of Pass or Pass with Distinction, and provided the student has not failed to achieve a grade of 'B' or better in any program course, the student may request to repeat the work term component. The request will be considered by the Chair of Computational Science in consultation with the program supervisor and the DCE Coordinator. Only one repetition of a work term will be permitted in the student's program.

8. Following the completion of the two work terms, each student must complete any remaining course requirements and project report or thesis. Assuming that prior written authorization of the employer and the supervisory committee was obtained and submitted to the School of Graduate Studies, students may include material from the work terms in their reports or theses. For students following the non-thesis version of the program, the two work-term reports may be combined into a single, integrated report for this purpose. All other students must write a thesis on a research project which may be based on research completed during the work terms.

9. Students who are accepted into the co-op option are not guaranteed placements. In the event that a student fails to obtain two semesters of placements, but successfully completes all other requirements of the Degree, he or she will still be eligible for graduation, but without the designation of a co-op degree.

24.10.6 Courses

**Core Courses**
- Mathematics 6210 Numerical Solutions of Differential Equations
- Computational Science 6910 Matrix Computations and Applications
- Computational Science 6920 Scientific Computing
- Computational Science 6930 Algorithms for Distributed and Shared Memory Computers
- Computer Science 6731 Topics in Numerical Methods
- Computational Science 6900-6909 Special Topics

**Additional Courses**
The following courses are identified as suitable for students in this program. Other courses may be permitted with the approval of the Program Chair.

**Biochemistry**
- 6420 DNA: The Structure and Function of Genes
- 6421 RNA: Structure, Function and Synthesis
- 6422 Regulation of Protein Synthesis
- 6430 Bioenergetics
- 6440 Membranes
- 6450 Proteins

**Chemistry**
- 6201 Bioinorganic Chemistry
- 6204 Mechanisms in Catalysis
- 6205 Photochemistry of Transition Metal Complexes
- 6210 Organometallic Chemistry
- 6300 Quantum Chemistry I
- 6301 Quantum Chemistry II
- 6302 Molecular Spectroscopy
- 6304 Computational Chemistry I
- 6310 Electronic Structure Theory
- 6323 Chemical Thermodynamics I
- 6324 Chemical Thermodynamics II
- 6340 Biophysical Chemistry
- 6350 Electrochemical Kinetics
- 6360 Solid State Chemistry
- 6380 Adsorption on Surfaces
- 6381 Surface and Interface Science
- 6382-6389 Selected Topics in Physical Chemistry
- 6390-6398 Selected Topics in Physical Chemistry
- 6399 Chemical Kinetics and Dynamics
- 6401 Organic Spectroscopic Analysis I
- 6402 Organic Spectroscopic Analysis II
- 6470 Physical Organic Chemistry
- 6590-6599 Selected Topics in Theoretical and Computational Chemistry
- 6600 Applications of Inorganic and Organometallic Chemistry to Toxicology

**Computational Science (CMSC)**
- 601W Work Term 1
- 602W Work Term 2
- 6900-6909 Special Topics
- 6910 Matrix Computations and Applications
- 6920 Scientific Programming
- 6925 Tools of the Trade for Programming High Performance Computers (2 credit hours)
- 6930 Algorithms for Distributed and Shared Memory Computers
- 6950 Computer Based Research Tools and Applications (credit may be obtained for only one of CMSC 6950 and the former CMSC...
6940

Computer Science
6713 Software Engineering
6722 Advanced Computer Architectures
6728-6729 Special Topics in Computer Systems - Computer Networks
6731 Topics in Numerical Methods
6738-6739 Special Topics in Numerical Methods
6752 Applications of Computer Graphics
6756 Digital Image Processing

Earth Sciences
6141 Rotation of the Earth
6142 Theory of Global Geodynamics
6171 Advanced Exploration Seismology
6172 Borehole Seismic
6175 Gravity and Magnetic Methods
6177 Mathematical Formulations of Seismic Wave Phenomena
6918 Airborne and Borehole Electromagnetic Methods
6994 Special Topics in Earth Sciences - Geophysical Inversion and Applications
7110 Physics of the Solid Earth
7120 Crustal Geophysics

Mathematics and Statistics
6102-6119 Special Topics in Applied Mathematics
6201 Numerical Methods for Partial Differential Equations
6210 Numerical Solution of Differential Equations (required course for Computational Science)
6212 Numerical Methods for Initial Value Problems
6588 Selected Topics in Statistics and Probability - Generalized Additive Models with Applications in Scientific Visualization

Physics and Physical Oceanography
6000 Condensed Matter Physics I
6200 Nonlinear Dynamics
6308 Ocean Dynamics I
6309 Ocean Dynamics II
6310 Physical Oceanography
6316 Ocean Measurements and Data Analysis
6317 Ocean Acoustics
6318 Numerical Modelling
6320 Turbulence
6321 Coastal Oceanography
6323 Stability Theory
6400 Statistical Mechanics
6402 Theory of Phase Transitions
6800 Group Theory
6850 Quantum Mechanics I

Engineering and Applied Science
9015 Ocean Engineering Hydromechanics
9052 Ice Properties and Mechanics
9501 Finite Element Analysis
9713 Stochastic Hydrology
9815 Electromagnetic Propagation
9821 Digital Signal Processing
9826 Advanced Control Systems
9861 High-Performance Computer Architecture
9865 Advanced Digital Systems
9869 Advanced Concurrent Programming
9871 Information Theory and Coding

24.11 Computer Science
Professor and Acting Head of the Department
W. Banzhaf

The degrees of Master of Science and Doctor of Philosophy are offered in Computer Science.

24.11.1 Admission Requirements

Admission into a Master's program in Computer Science is restricted to candidates holding at least a Bachelor degree (major in Computer Science or Computer Engineering) with a minimum average of 75% overall. When circumstances warrant, this requirement may be waived on the recommendation of the Head of the Department. Applicants should also refer to the Qualifications for Admission given under the Regulations Governing the Degree of Master of Science within the School of Graduate Studies section of the current Calendar. International applicants are strongly encouraged to submit results of the (general) Graduate Record Examination (GRE) test.

24.11.2 Programs

24.11.2.1 Option 1 - Thesis Route

1. Candidates are required to complete a minimum of 15 credit hours in graduate program courses, 9 of which must be in Computer Science (excluding COMP 601W and COMP 6999).

2. Full-time students are expected to complete their course work within their first year of studies. Part-time students are expected to complete their course work by the end of the seventh semester in program.
3. Each candidate is required to submit an acceptable thesis. The thesis project may involve a theoretical investigation and/or the development of an original, practical system. Each candidate is required to present a tentative outline of his/her proposed research to the Supervisor, with a copy to the Department Committee on Graduate Studies, by the end of his/her third semester in the program (sixth semester for part-time students). A fifteen minute oral presentation of the proposal is to be scheduled and given within four weeks of the submission date.

4. Prior to submission of a thesis, normally in the last semester of the program, candidates are required to present a seminar on the thesis topic, methods employed and research results.

24.11.2.2 Option 2 - Course/Project Route with Work Term
1. Candidates are required to complete a minimum of 24 credit hours in graduate program courses, of which at least 18 credit hours must be in Computer Science.
2. Within this credit requirement, a student must take the following courses:
   - COMP 6999 (Master's Project)
   - One course in Software Engineering (COMP 6713)
   - One course in Algorithms (COMP 6743 or COMP 6783)
   - One course in Information Systems (COMP 6742 or COMP 6751)
3. Additionally students must complete one co-operative education work term (COMP 601W). Under normal circumstances, students will undertake their work term in the Spring semester.
4. The dates for starting and finishing each work term are shown in the University Diary.
5. Students must successfully complete at least 12 credit hours (four courses) prior to beginning their work term.
6. Students will conduct job searches through the Division of Co-operative Education in cooperation with the Department of Computer Science. Students who do not wish to accept a work term job arranged by the Division shall be responsible for finding an alternative. Such jobs must be confirmed by letter from the employer and approved by the Head of Computer Science and by the Division on or before the first day of the work term. Work term jobs may be outside St. John's and possibly outside Newfoundland and Labrador.
7. Each work term placement will be supervised by the candidate's program Supervisor, the on-site Supervisor assigned by the employer and the Division of Co-operative Education Co-ordinator. The overall evaluation of the work term is the responsibility of the program Supervisor, on-site Supervisor and the Division of Co-operative Education Co-ordinator. The work term shall consist of two components:
   a. On-the-job Student Performance as evaluated by the on-site Supervisor and the Division of Co-operative Education Co-ordinator, in consultation with the program Supervisor.
   b. A Work Report graded by the program Supervisor in consultation with the on-site Supervisor.
8. Evaluation of the work term will result in the assignment of one of the following final grades:
   a. Pass: Indicates that PERFORMANCE MEETS EXPECTATIONS in both the work report and work performance.
   b. Fail: Indicates FAILING PERFORMANCE in the work report and/or the work performance. If a failing grade is assigned, the student’s Masters program will be terminated.

24.11.3 Other Regulations
1. Students from either Option 1 - Thesis Route or Option 2 - Course/Project Route with Work Term may request to transfer between both options once during their studies. The transfer requires an approval from the Head of Department.
2. All candidates are expected to take an active part in seminars and other aspects of the academic life of the Department of Computer Science.
3. The Department of Computer Science Graduate Student Research Forum takes place in the Winter semester of the academic year. All M.Sc. students must present at the Research Forum at least once during their program.
4. Full-time students are expected to complete all program requirements in two years. Part-time students are expected to complete all program requirements in four years.

24.11.4 Courses
A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the Department will allow. Normally, students will be expected to complete their course work during the fall and winter semesters. Courses might not be offered in the spring semester.

- 601W Work Term
- 6711 Syntax and Semantics of Programming Languages
- 6712 Compiling Techniques
- 6713 Software Engineering
- 6714 Functional Programming
- 6715 Logic Programming
- 6716 Concurrent Programming
- 6718-6719 Special Topics in Programming Languages
- 6720 Distributed and Parallel Computing
- 6721 Operating Systems Design
- 6722 Advanced Computer Architectures
- 6723 Microprocessor Systems
- 6724 VLSI Design (same as Engineering 9863)
- 6725 Computational Aspects of VLSI (same as Engineering 9864)
- 6726 Modelling and Analysis of Computing Systems
- 6727 Introduction to High Performance Computer Systems
- 6728-6729 Special Topics in Computer Systems - Computer Networks
- 6731 Topics in Numerical Methods
- 6732 Matrix Computations
- 6738-6739 Special Topics in Numerical Methods
- 6741 Advanced Automata Theory
- 6742 Theory of Databases
- 6743 Complexity of Computational Problems
24.12 Earth Sciences

Professor and Head of the Department

J. Hanchar

The degrees of Master of Science and Doctor of Philosophy are offered in Earth Sciences (Geology) and Earth Sciences (Geophysics) by full-time and part-time study.

24.12.1 Program of Study

1. Admission into a Master's Degree program in Earth Sciences (Geology) and Earth Sciences (Geophysics) is restricted to candidates holding at least a B.Sc. Degree with second class Honours. When circumstances warrant, this requirement may be waived by the School of Graduate Studies on the recommendation of the Head of the Department.

2. Each candidate will be assigned a multi-member supervisory committee. This committee shall consist of the Supervisor and at least one other member. Within two weeks of the first registration in the M.Sc. Degree program, a candidate will meet with his/her supervisory committee. Within six months, the student and the supervisory committee will agree on a written thesis proposal outlining the objectives, methods, timetable and funding for the project, and provide the proposal (signed by the student and supervisory committee) to the Head for inclusion in the student's file.

3. A candidate for the M.Sc. Degree must complete a minimum of 6 credit hours in program courses. The courses must be selected from the overview and general courses below or with the approval of the supervisory committee and Head of the Department, other graduate level courses including those offered by other departments. Depending on background and/or area of specialization, a candidate also may be required to complete additional courses in earth sciences or related subjects.

4. All course requirements should be completed within one year from the date of first registration in the M.Sc. Degree program.

5. A candidate is required to give an oral presentation to the Department on the results of his/her research. This presentation must be given during the second year of the program.

6. The M.Sc. Degree program will conclude with a thesis examination as prescribed in the Regulations Governing the Degree of Master of Science.

7. The Supervisor and the Head of the Department may recommend to the Dean of Graduate Studies that a candidate who is not making satisfactory progress be required to withdraw from the program.

24.12.2 Courses

A selection of courses will be offered to meet the requirements of candidates as far as the resources of the Department will allow.

Overview Courses
7110 Physics of the Solid Earth
7120 Crustal Geophysics
7300 Changes in Global Paleoenvironment
7400 Tectonic Regimes
7410 Engineering and Environmental Geology
7500 Chemical Fluxes in the Earth
7810 Paleoeology (same as the former 6810. Credit may be obtained for only one of 7810 or 6810)

General Courses
6070 Quantitative Techniques in Mineralogy and Metamorphic Petrology
6141 Rotation of the Earth
6142 Theory of Global Geodynamics
6152 Paleomagnetism
6171 Advanced Exploration Seismology
6172 Borehole Seismic
6175 Gravity and Magnetic Methods
6177 Mathematical Formulations of Seismic Wave Phenomena
6210 Genesis of Mineral Deposits
6320 Marine Geology
6400 Flow and Transport in Fractured Rock
6410 Advanced Engineering and Environmental Geology
6420 Deformation Mechanisms
6500 Stable Isotope Geochemistry
6510 Trace Element Geochemistry
6520 Methods in Advanced Research in Geochemistry
6540 Radiogenic Isotope Geochemistry
6550 Biogeochemistry
6600 Petroleum Geology
6740 Modern and Ancient Sedimentary Environments
6750 Sequence Stratigraphy
6820 Palynology and Paleobotany
6900-6999 Special Topics in Earth Sciences
24.13 Environmental Science
(see also Master of Environmental Science)

Board of Studies
Dr. N. Catto, Department of Geography - Chair
Dr. C. Campbell, Division of Science, Grenfell Campus, ex-officio
Dr. B. Chen, Faculty of Engineering and Applied Science
Dr. P. Marino, Head, Department of Biology
Dr. W. Montevecchi, Department of Psychology
Dr. L. Tarasov, Department of Physics and Physical Oceanography
Dr. J. Wroblewski, Department of Ocean Sciences
Dr. S. Ziegler, Department of Earth Sciences

24.13.1 Program of Study
1. The Environmental Science Program is an interdisciplinary graduate program involving the departments of the Faculty of Science, the Faculty of Arts, the Faculty of Medicine, and the Faculty of Engineering and Applied Science. There are three Environmental Science Graduate Degree streams: the Master of Science (M.Sc., Environmental Science), Master of Environmental Science (M.Env.Sci.), and the Doctor of Philosophy (Ph.D., Environmental Science). The program is available on a full or part-time basis.
2. The program is administered by a Board of Studies appointed by the Dean of Science. Supervisors of graduate students in the program include faculty from the Faculty of Science, the Faculty of Arts, the Faculty of Engineering and Applied Science, the Faculty of Medicine, and the Environmental Science Program at the Grenfell Campus, as well as adjunct appointees to the program (as a co-supervisor).

24.13.2 Qualifications for Admission
Admission is limited and competitive. To be considered for admission applicants shall normally hold a Bachelor’s (Honours) degree in Science, Geography, or Environmental Science with at least second class standing, or equivalent, or a Bachelor’s degree in Engineering from an institution recognized by the Senate or shall have qualifications and/or experience in environmental science acceptable to the Dean of Graduate Studies and the Board of Studies. The Board of Studies make recommendations on admission to the Dean of Graduate Studies.

24.13.3 Degree Requirements
1. To the extent that resources permit, individual programs will be developed to suit students' interests and needs. However all programs must be approved by the Board of Studies and by the Dean of Graduate Studies. All General Regulations of the School of Graduate Studies shall apply to these degrees.
2. The Master of Science (Environmental Science) is a research Degree which includes a thesis and course work. The thesis research will focus on environmental topics relevant to the student's background. The course component has two aims: to broaden the student’s understanding of environmental issues; and to provide further training in areas of research specialization for the thesis.
3. Each student will have a Supervisory Committee normally consisting of a Supervisor and two others. The Supervisory Committee will be appointed by the Dean of Graduate Studies on the recommendation of the Board of Studies for Environmental Science.
4. The program of each student will consist of a minimum of 12 credit hours in program courses which will include ENVE/ENVS 6000 and ENVS 6010. Of the 6 credit hours remaining in program courses, 3 credit hours will be from ENVE/ENVS 6001, 6002 and 6003 and the other 3 credit hours will be related to the student's specialty and will normally be chosen from graduate courses offered by the Faculties of Science, Arts, Medicine and Engineering and Applied Science.
5. All students will be required to submit a thesis embodying the results of systematic research on an approved topic. The thesis will be evaluated according to procedures outlined in General Regulations, Theses and Reports.

24.13.4 Courses
ENVE/ENVS 6000 Environmental Science and Technology
ENVE/ENVS 6001 Earth and Ocean Systems
ENVE/ENVS 6002 Environmental Chemistry and Toxicology
ENVE/ENVS 6003 Applied Ecology
ENVS 6004 Environmental Pollution and Mitigation (cross-listed as ENGI 9601)
ENVS 6007 Environmental Risk Assessment (cross-listed as ENGI 9609)
ENVS 6008 Air Pollution (same as ENGI 9624)
ENVS 6009 Environmental Science Project
ENVS 6010 Environmental Seminar
ENVS 6201-6210 Special Topics in Environmental Science

24.14 Food Science
See Biochemistry.

24.15 Geography
Professor and Head of the Department
C. Mather

24.15.1 General Information
1. The degrees of Master of Arts and Master of Science are offered in Geography by full-time or part-time study.
2. Admission requirements are set forth in the General Regulations of the School of Graduate Studies and Degree Regulations for Master of Arts and Master of Science.
3. The deadline for submission of applications for admission is January 15. Candidates will normally commence their programs in the Fall semester.
4. An applicant will be admitted to a graduate program only if a faculty member agrees to act as Supervisor. A supervisory committee
will be established after admission, normally consisting of the Supervisor and two other individuals, one of whom will normally be a member of the Department.

5. Major research areas for graduate study at the master's level are cultural, political, historical, economic, urban, resource management, community and regional development, geomorphology, Quaternary environments, climatology and geographic information sciences.

6. Candidates will register for the M.A. program if their fields of interest lie in an area of Human Geography or for the M.Sc. if their fields of interest are in Physical Geography or Geographic Information Sciences.

7. It is expected that the program of study and research for the M.A. or M.Sc. will normally be completed in a maximum of two years of full-time work, or three years of part-time work.

8. Candidates must successfully complete a minimum of 12 credit hours of graduate program courses with a minimum grade of B in each. Geography 6000 and 6001 will be required courses for all candidates who have not already completed equivalent courses at the Honours or post-graduate level.

9. Candidates whose undergraduate Degree is not in geography will normally be required to complete some additional undergraduate program courses during their first year of study, in addition to the required graduate program courses. Normally four such undergraduate courses will be required, and a minimum grade of 70% must be obtained in each.

10. Each candidate will be required to present a seminar on their research to the Department.

11. Each candidate must submit a thesis based on their own original research. This thesis will be examined in accordance with the General Regulations of the School of Graduate Studies.

24.15.2 Courses
A selection of the following graduate courses will be offered to meet the requirements of candidates as far as the resources of the Department will allow:

6000 Development of Geographical Thought and Practice I
6001 Development of Geographical Thought and Practice II
6002 Directed Readings in Geography
6100 Research Techniques in A Selected Field of Geography I
6101 Research Techniques in A Selected Field of Geography II
6120 Geospatial Modelling and Analysis
6150 Environmental Remote Sensing and Image Analysis
6200 Economic Geography I
6201 Economic Geography II
6204 Sustainable Community and Regional Development
6250 Conservation and Sustainability of Natural Resources
6251 Survey Design, Questionnaire Development and Techniques of Data Collection
6300 Problems in Fisheries Geography
6400 Fluvial Geomorphology
6401 Glacial Geomorphology

24.16 Geology
See Earth Sciences

24.17 Geophysics
See Earth Sciences

24.18 Marine Biology
Professor Emeritus and Head of the Department
G.L. Fletcher

The degree of Master of Science (M.Sc.) is offered in Marine Biology by full-time and part-time study through the Department of Ocean Sciences. Areas of concentration include: Ocean Ecology, Functional Biology of Marine Organisms, Fisheries and Aquaculture, and Oceans and Environment.

24.18.1 Admission and Program of Study
1. Admission into the Master's degree program in Marine Biology is normally restricted to candidates holding at least a B.Sc. degree with second class Honours. When circumstances warrant, this requirement may be waived by the School of Graduate Studies on the recommendation of the Head of the Department.

2. Each candidate will be assigned a Supervisory Committee consisting of the Supervisor and at least one other member. Within one month of the first registration in the M.Sc. degree program, a candidate will meet with his/her Supervisory Committee. Within six months, the student and the Supervisory Committee will agree on a written thesis proposal outlining the objectives, methods, timetable and funding for the project, and provide the proposal (signed by the student and the supervisory committee) to the Head for inclusion in the student's file.

3. Candidates are required to complete a minimum of 12 credit hours of graduate program courses as follows:
   - Ocean Sciences 7000
School of Graduate Studies 2013-2014

- One of Ocean Sciences 7531 or 7561
- 6 additional credit hours selected from other Ocean Sciences graduate courses or relevant courses in other Departments as approved by the Supervisory Committee

4. All course requirements should be completed within four semesters from the date of first registration in the M.Sc. degree program.
5. A candidate is required to give an oral presentation to the Department on the results of his/her research. This presentation should be given during the second year of the program.
6. The M.Sc. degree program will conclude with a thesis examination as prescribed in the School of Graduate Studies General Regulations. Theses and Reports.

24.18.2 Courses
A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the Department will allow:
- OCSC 7000 Graduate Core Seminar (Cross-listed as Biology 7000)
- OCSC 7531 Biological Oceanography (Same as the former Biology 7531)
- OCSC 7540 Plankton Dynamics (Same as the former Biology 7540)
- OCSC 7551 Fisheries Resource Management (Same as the former Biology 7551)
- OCSC 7561 Physiology of Marine Vertebrates (Same as the former Biology 7561)

24.19 Mathematics and Statistics
Professor and Head of the Department
C. Radford
The degrees of Master of Applied Statistics (see appropriate calendar entry), Master of Science and Doctor of Philosophy are offered in the Department of Mathematics and Statistics. The Masters’ degrees are offered by full-time and part-time studies.

24.19.1 Specific Requirements for the M.Sc. in Mathematics
Every candidate for the M.Sc. in Mathematics is required to complete one of two options.
1. Option 1: MATH 6310, 6351 and 696A/B, a minimum of 9 further credit hours in courses chosen from the departmental course offerings, excluding MATH 6299, and a thesis as per General Regulations, Theses and Reports.
2. Option 2: MATH 6299, 6310, 6351, 696A/B, and a minimum of 12 further credit hours in courses chosen from the departmental course offerings.
   - Algebra: 6320, 6321
   - Analysis: 6310, 6311, 6312
   - Applied Mathematics: 6100, 6201 or 6212, 6120
   - Combinatorics: 6340, 6341, 6342
   - Topology: 6300 or 6301, 6332

24.19.2 Specific Requirements for the M.Sc. in Statistics
Every candidate for the M.Sc. in Statistics is required to complete STAT 6510 and STAT 6560 plus at least 12 credit hours in graduate courses as well as the series STAT 697A/B or the completion of an additional 3 credit hour graduate course. A thesis is required as per General Regulations, Theses and Reports.

24.19.3 Courses
A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the Department will allow:

Mathematics
- 6100 Dynamical Systems
- 6101 Modern Perturbation Theory
- 6102 Mathematical Biology
- 6104 Infinite Dimensional Dynamical Systems
- 6110 Advanced General Relativity
- 6111 Calculus in Manifolds
- 6112-6119 Special Topics in Applied Mathematics
- 6120 Theoretical Fluid Dynamics
- 6121 Functional Differential Equations
- 6130 Introduction to General Relativity
- 6160 Partial Differential Equations
24.20 Physics and Physical Oceanography

Professor and Head of the Department
B. de Young

Programs leading to the Degree of Master of Science in Physics and in Physical Oceanography are offered to both full and part-time students. Because Oceanography is multidisciplinary in nature, undergraduate students who plan to undertake Physical Oceanography studies are urged to consult the faculty member in charge of Physical Oceanography programs at their earliest opportunity, in order to ensure the appropriateness of their undergraduate course selections. The Degree of Doctor of Philosophy in Physics is offered through both full-time and part-time study in Atomic and Molecular Physics, Condensed Matter Physics, and Physical Oceanography. The following Departmental Regulations are supplementary to the General Regulations governing the M.Sc. and Ph.D. degrees. A thorough familiarity with the latter Regulations should be regarded as the prerequisite to further reading in this section.

The Department of Physics and Physical Oceanography compiles, and regularly reviews, a brochure which contains reasonably detailed descriptions of currently active research projects, as well as a comprehensive listing of recent research publications, and other material which may be of interest to prospective graduate students.

24.20.1 Program of Study
1. Admission to a M.Sc. program in the Department of Physics and Physical Oceanography is normally restricted to candidates holding an Honours B.Sc. Degree in Physics. However, depending on background and area of specialization and with particular reference to Physical Oceanography, other Baccalaureate degrees in science, applied science or mathematics, may be accepted.
2. A program of study for the M.Sc. Degree in Physics or Physical Oceanography shall normally include a minimum of 12 graduate credit hours. However, depending on the student's background and area of specialization, more or fewer graduate and/or undergraduate courses may be required.
3. Except with the special permission of the Department and the approval of the Dean of Graduate Studies, a candidate may not take any courses in addition to those approved for his/her M.Sc. program.
4. Before submission of the thesis to the School of Graduate Studies for examination, the student must present a seminar on the topic of his/her thesis research.

24.20.2 Courses
A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the Department will allow:

6000 Condensed Matter Physics I
6001 Condensed Matter Physics II
6002 Superconductivity
6003 Path Integral Techniques in Condensed Matter Physics
6010-19 Special Topics in Condensed Matter Physics
6040 Biophysics
6060-69 Special Topics in Interdisciplinary Areas
6200 Nonlinear Dynamics
6308 Ocean Dynamics I
6309 Ocean Dynamics II
6310 Physical Oceanography
6313 Physical Fluid Dynamics
6314 Field Oceanography
6315 Polar Oceanography
6316 Ocean Measurements and Data Analysis
6317 Ocean Acoustics
6318 Numerical Modelling
6319 Climate Dynamics
6320 Turbulence
6321 Coastal Oceanography
6322 Stratified Flows
6323 Stability Theory
6324 Models in Ocean Ecology
6360-69 (excluding 6363) Special Topics in Physical Oceanography
6363 Laboratory Experiments in Geophysical Fluid Dynamics
6400 Statistical Mechanics
6402 Theory of Phase Transitions
6403 Stochastic Processes, Time-Dependent and Non-equilibrium Statistical Mechanics
6502 Electrodynamics
6720 Theory of Molecules
6721 Molecular Spectroscopy
6722 Light Scattering Spectroscopy
6730 Molecular Theory of Liquids and Compressed Gases
6740 Physics of Atomic Collisions
6760-69 Special Topics in Atomic and Molecular Physics
6800 Group Theory
6810-19 Special Topics in Theoretical and Mathematical Physics
6850 Quantum Mechanics I
6851 Quantum Mechanics II
6900 Techniques in Experimental Condensed Matter Physics
6910-19 Special Topics in Experimental and Applied Physics

Table of Credit Restrictions - Physics and Physical Oceanography

Members of the Department carry out research in several areas of experimental and theoretical physics, including atomic and molecular physics, condensed matter physics, physical oceanography, theoretical geophysics and applied nuclear physics. In atomic and molecular physics, there are experimental programs in collision-induced infrared absorption spectroscopy, electron emission spectroscopy of simple molecules, molecular ions and free radicals, laser-induced fluorescence spectroscopy, and Raman spectroscopy, and theoretical work on atomic and molecular collisions. The work in condensed matter physics includes experimental programs in solid state nuclear magnetic resonance on systems of biophysical interest, Raman spectroscopy of lipid bilayers and membranes, studies of phase transitions using Brillouin and Raman spectroscopy, studies of instabilities and pattern formation in simple fluid dynamical systems, and spectroscopic studies of molecular crystals. Theoretical condensed matter physics research involves studies of magnetism, superconductivity, and the statistical mechanics of polymers and lipid bilayers. The physical oceanography group carries out field and laboratory research on several projects which take advantage of Newfoundland's unique oceanographic environment, using acoustic and other remote sensing techniques. These include studies of circulation on the Newfoundland and Labrador shelves, Labrador current dynamics, fjord dynamics, submarine canyons and sediment transport dynamics in the nearshore zone and on the shelf. Theoretical oceanographic studies involve the modelling of ocean circulation, gravity wave phenomena and other aspects of ocean dynamics. Research in theoretical geophysics is concentrated on whole-Earth dynamics, with special emphasis on the physics of the liquid core (the Earth's "third ocean") as inferred from its wave spectrum and the associated momentum transfer to the deformable solid parts of the Earth. In nuclear physics, research is done on the atmospheric concentrations of radioactive elements and on dosimetry for medical applications.

Note: For Geophysics, see Earth Sciences
24.21 Psychology
Professor and Head of the Department
G. Martin

The Degree of Master of Science is offered in Experimental Psychology. The Degree of Doctor of Philosophy is offered in Experimental Psychology. Interested students may wish to consult the sections in the Calendar describing the Master of Applied Social Psychology (Cooperative) and the Master of Science and Doctor of Philosophy in Cognitive and Behavioural Ecology programs.

Applications
All applicants are required to submit results from the General section of the Graduate Record Examinations.
At least one letter of reference should come from someone who is familiar with the applicant's research capability.

24.21.1 Program of Study
A candidate may be accepted into a program leading to the M.Sc. in Experimental Psychology.

Experimental Psychology
1. The areas of specialization offered are: Animal Behaviour (see Cognitive and Behavioural Ecology Program). Behavioural Neuroscience and Clinical, Cognitive, Developmental and Social Psychology.
2. Candidates shall normally complete 15 credit hours, including: Advanced Statistics in Psychology (6000), Research Design (6001), and 6 credit hours related to their area of specialization. Candidates will also register for the Colloquium Series in Psychology (6010) each Fall and Winter semester of their program for a maximum of four registrations.
3. Every candidate shall submit an original thesis based upon an approved experimental research topic.

24.21.2 Courses
A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the Department will allow:
6000 Advanced Statistics in Psychology
6001 Research Design
6010 Colloquium Series in Psychology (repeatable, non-credit)
6100-6130 Special Topics in Experimental Psychology
6200 Learning I
6201 Learning II
6203 Behavioural Pharmacology
6210 Behavioural Analysis of Toxins
6351 Behavioural Ecology and Sociobiology (Cross-listed as CABE 6351)
6400 Theory and Methods in Social Psychology
6401 Social Cognition
6402 Group Processes
6403 Program Evaluation and Applied Research
6404 Project in Applied Social Psychology (Note: This course is open only to students in the Master of Applied Social Psychology)
6500 Developmental Psychology I
6501 Developmental Psychology II
6502 Developmental Changes During Old Age
6700 Perception
6710 Human Information Processing
6720 Human Memory
6800 Behavioural Neuroscience I
6801 Behavioural Neuroscience II
6810 Psychometrics
6910 Personality
699A/B Core Graduate Seminar in Psychology (3 credit hours).

25 Regulations Governing the Degree of Master of Science in Kinesiology
Professor and Dean
H. Carnahan
Professor and Associate Dean
D. Behm

The Degree of Master of Science in Kinesiology (M.Sc. (Kinesiology)) is offered to qualified full-time and part-time students by the School of Human Kinetics and Recreation. The General Regulations of the School of Graduate Studies of Memorial University of Newfoundland outlined in the current Calendar, and the Degree Regulations of the School of Human Kinetics and Recreation outlined below will apply to the Master of Science in Kinesiology program.

25.1 Qualifications for Admission
1. The admission requirements for the Master of Science in Kinesiology are as given under the General Regulations of the School of Graduate Studies. Admission is limited and competitive. Preference for admission may be given to students with undergraduate degrees in relevant disciplines, with a minimum overall B average. Applications submitted through the School of Graduate Studies will be evaluated by the Graduate Studies Committee of the School of Human Kinetics and Recreation. Admission of a candidate to the program shall be made by the Dean of Graduate Studies.
2. Only in exceptional circumstances, and only on the recommendation of the Dean of the School of Human Kinetics and Recreation, shall the Dean of Graduate Studies consider applicants who do not meet the requirements above.
25.2 Program and Degree Requirements

1. The Degree of Master of Science in Kinesiology is offered in the areas of Biomechanics/Ergonomics, Exercise and Work Physiology, Psychology of Sport, Exercise and Recreation, and Socio-cultural Studies of Physical Activity and Health.

2. The program of a candidate for the Master of Science in Kinesiology shall be the responsibility of the Supervisory Committee, composed of the Supervisor and at least one other faculty member recommended with the concurrence of the Supervisor by the Dean of the School, or delegate.

3. Candidates for the Master of Science in Kinesiology shall be required to complete a minimum of 15 credit hours plus a thesis. Either HKR 6000 or HKR 6001 is normally required for all candidates. In addition, all on-campus candidates shall be required to complete four semester-length seminar courses (HKR 6510-6513). Off-campus or part-time candidates who cannot attend the on-campus seminar series can substitute 24 hours of participation in (over their two year tenure) and one presentation at national, provincial or regional conferences, workshops, professional development seminars or equivalent activities. The remaining course requirements will be selected, in agreement with the Supervisory Committee, to reflect the kinesiology areas of specializations offered with the School.

4. It is the responsibility of the student to arrange regular meetings with their supervisory committee. An annual report, prepared by the Supervisor and signed by all members of the Supervisory Committee and the student, is submitted to the Dean of the School of Human Kinetics and Recreation (or delegate) as required by the School of Graduate Studies.

5. Depending on the background of the candidate or his/her area of intended specialization, a candidate's program may be modified. Such modifications may include a reduction in course requirements where a student demonstrates that he or she brings graduate level competency to their program in specific areas, or may include additional graduate or undergraduate courses, as specified by the student's Supervisory Committee. A minimum of three courses or 9 credit hours completed in the School of Human Kinetics and Recreation is mandatory.

6. A student completing a Master of Science in Kinesiology will be required to present a thesis proposal for his or her proposed thesis normally by the end of the third semester of study. The thesis proposal shall normally consist of a full written proposal (including literature review) submitted to the Supervisory Committee, a summary to be distributed to graduate students and faculty one week prior to the presentation and a formal presentation normally at the seminar series. The candidate may be questioned on his/her proposal by the Supervisory Committee and seminar audience. Any deficiencies noted during the presentation should be carefully considered by the student and the Supervisory Committee prior to proceeding with the thesis.

7. All graduate students are expected to attend and participate in the School of Human Kinetics and Recreation seminars and thesis proposal presentations.

8. In conjunction and collaboration with other Faculties and Schools of Memorial University of Newfoundland, students may pursue their special interests through electives from departments/schools outside the School of Human Kinetics and Recreation. These courses must be approved by the Graduate Studies Committee and the Dean of Graduate Studies in the preceding semester.

9. Candidates may apply for transfer course credits. All course transfers require the approval of the Dean of Graduate Studies, on the recommendation of the Dean of the School of Human Kinetics and Recreation, and are subject to General Regulation Program Requirements, Transfer of Course Credits of the School of Graduate Studies.

25.3 Evaluation

1. In order to continue as a candidate for a Master of Science in Kinesiology Degree, a candidate who receives a final grade of 'C' or less in a program course must repeat that course and obtain a minimum grade of 'B'. In the case of an elective course a suitable replacement course, acceptable to the Graduate Studies Committee of the School of Human Kinetics and Recreation, may be substituted for the failed course. Only one such repetition/replacement shall be permitted in the candidate's graduate program. Should a grade of lower than 'B' be obtained in the repeated course/replacement course, or any other program course, the candidate shall be required to withdraw from the program.

2. When the Graduate Studies Committee of the School of Human Kinetics and Recreation has determined, through consultation with the candidate, the instructors of graduate courses and the program advisor or thesis Supervisor that the candidate's work has fallen below satisfactory level, it may request that the Dean of the School of Human Kinetics and Recreation recommend to the Dean of Graduate Studies that the candidate's program be terminated.

25.4 Period of Study

The period of study for a graduate program shall not normally exceed seven years beyond first registration.

1. A candidate in full-time attendance may register for a maximum of 12 credit hours in any regular semester and a maximum of 6 credit hours in intersession or summer session.

2. A candidate in part-time attendance may register for a maximum of 3 credit hours in any semester, including intersession or summer session.

25.5 Thesis

The School of Graduate Studies General Regulation describes the requirements in Theses and Reports.

25.6 Courses

HKR 6000 Quantitative Methods in Physical Education
HKR 6001 Qualitative Research Methods in Physical Education
HKR 6003 Physical Education, Culture and Society
HKR 6111 Canadian Delivery Systems in Physical Education, Recreation and Sport
HKR 6120 Curriculum Development in Physical Education
HKR 6121 Physical Education Leadership
HKR 6122 Comprehensive School Health
HKR 6123 Coaching and Long-term Athlete Development
HKR 6124 Adapted Physical Activity for Persons with Physical and Intellectual Disabilities
HKR 6130 Computer Applications in Physical Education
HKR 6201 Foundations of Sport Psychology and Mental Training Techniques
HKR 6202 Intervention and Enhancement Techniques in Mental Training Consultation
HKR 6203 Sport Psychology Consulting
HKR 6310 Exercise Physiology I
HKR 6320 Exercise Physiology II
The Faculty of Medicine offers the degree of Master of Science in Medicine in eight program areas: Applied Health Services Research, Cancer and Development, Cardiovascular and Renal Sciences, Clinical Epidemiology, Community Health, Human Genetics, Immunology and Infectious Diseases, and Neurosciences. The Faculty of Medicine also offers the degrees of Master of Health Ethics and Master of Public Health. Each program area has a Co-ordinator/Principal who is responsible for communicating the interests of the programs to the Faculty of Medicine Graduate Studies Committee and participates in the admission of graduate students into the program in Medicine.

The Degree of Master of Science in Medicine (in all of the programs excluding the Applied Health Services Research Program) is offered in the Faculty of Medicine to full-time and part-time students. The Applied Health Services Research program is offered by full-time study only. The graduate diploma programs in Community Health and Clinical Epidemiology are offered to full-time and part-time students.

The following regulations will apply in conjunction with the General Regulations of the School of Graduate Studies.

### 26 Regulations Governing the Degree of Master of Science in Medicine

#### 26.1 Master of Science in Medicine

##### 26.1.1 Qualification for Admission

The admission requirements for each of the M.Sc. Program areas in Medicine are described under Programs of Study.

##### 26.1.2 General Program Requirements

1. The program of study for the M.Sc. in Medicine Degree is the responsibility of the Supervisory Committee composed of a Supervisor and at least two other faculty members.
2. It is the responsibility of the supervisory committee to meet regularly (at least annually) with the student and to provide guidance at all stages of the candidate’s program. An annual report prepared by the Supervisor and signed by the student and all members of the committee is required to be submitted to the Assistant Dean of Research and Graduate Studies (Medicine).
3. Course requirements are set by each of the program areas and are described under Programs of Study. In addition, all students will be required to complete GRAD 9991 (Graduate Research Integrity Program).
4. In addition to courses and research, graduate students are expected to participate in Faculty of Medicine seminars and journal clubs.
5. The M.Sc. in Medicine requires the successful completion of a research project and a written thesis.

##### 26.1.3 Program Areas

#### 26.1.3.1 Applied Health Services Research

The Applied Health Services Research program is jointly offered by the University of New Brunswick (UNB), Memorial University of Newfoundland (MUN), Dalhousie University (Dal), and the University of Prince Edward Island (UPEI). Students will be educated in an interdisciplinary environment and will develop a substantive understanding of: the Canadian health system, the conduct of ethical research, critical appraisal, appropriateness of research design for particular policy questions and determinants of health models. They will also gain first-hand exposure in a decision-making/policy environment and learn how to conduct research through completion of a thesis. Access to specific computer software and the Internet is required and will be the responsibility of each student.

1. **Administration**
   a. An Advisory Board, consisting of the Deans of Graduate Studies, the Principals from each site, plus student representation as well as health care decision makers and stakeholders from the Atlantic Region will oversee the academic program across the Universities and ensure program integrity.
   b. A Program Management Committee, consisting of the Principals and Site Co-ordinators from UNB, Memorial University of Newfoundland, Dal and UPEI will oversee the operation of the program.
   c. At Memorial University of Newfoundland, the program shall be administered through the Office of Research and Graduate Studies (Faculty of Medicine) by a Principal who shall be appointed by the Dean of Graduate Studies on the recommendation of the Dean, Faculty of Medicine.

2. **Qualifications for Admission**
   a. Admission is limited and competitive. To be considered for admission to the program, an applicant shall normally have a bachelor's degree with a minimum 75% average (or equivalent) from an institution recognized by the Senate. Normally, students should have completed an undergraduate course in statistics.
   b. Students are normally admitted to the Fall semester (September). The deadline for receipt of applications is March 1. Late applications will only be considered if admissions decisions have not yet been made.

3. **Program Requirements**
   a. All students will be required to successfully complete eight core courses, the Graduate Research Integrity Program, a four-month residency placement and a thesis. In addition, candidates must participate in five conference workshops each of one week duration.
   b. Prior to submission of the thesis to the School of Graduate Studies for examination (see General Regulation Thesis and

26.1.3.2 Cancer and Development
The graduate program in Cancer and Development offers study in fundamental cell and molecular biological areas including viral oncogenesis, growth factors and oncogenes in developmental models, programmed cell death and drug resistance.

1. Qualifications for Admission
   The admission requirements are as given under the General Regulations governing Master's degrees. All courses in the program have as a prerequisite, successful completion of an advanced, upper-level biochemistry, biology or medical course, with an emphasis on molecular biology or medicine.

2. Program Requirements
   All students are required to attend, for credit, and participate in the Cancer and Development Journal Club (Cancer, Seminars, MED 6400-6403). One other graduate course (chosen from MED 6580, 6590, 6591, 6340, 6341 or 6342) is required for M.Sc. Medicine students although other courses may be required in individual cases.

26.1.3.3 Cardiovascular and Renal Science
The graduate program in Cardiovascular and Renal Sciences enables students to pursue research and academic studies in selected topics including hypertension and stroke, neural and endothelial control of vasculature and blood pressure as well as physiological mechanisms promoting heart failure. The faculty participating in the program consists of basic cardiovascular scientists and renal clinicians. Teaching within the program is integrated with the M.D. program.

1. Qualifications for Admission
   The admission requirements are as given under the General Regulations governing Master's degrees.

2. Program Requirements
   Students will be required to take a minimum of two graduate courses. Basic Cardiovascular and Renal Physiology (MED 6140) is required and must be taken within 1.5 years after entry into the program. Students will choose a second course from MED 6141, 6142, 6143, 6144 or 6194 or any other graduate course approved by the student’s supervisory committee.

26.1.3.4 Clinical Epidemiology
The program in Clinical Epidemiology is aimed at university graduates intending a career in health services, faculty members seeking advanced training in clinical epidemiology, medical doctors and health care professionals interested in health care delivery research.

1. Qualifications for Admission
   The admission requirements are as given under the General Regulations governing Master's degrees. In exceptional circumstances, a professional equivalent qualification will be considered for admission.

2. Program Requirements
   a. Students are required to take: MED 6262 or MED 6200, MED 6250, MED 6255 and MED 6260, plus one or more additional course(s) as recommended by the supervisory committee. In addition students are required to take the Seminar Series (MED 6400-6403).
   b. Students are expected to give an oral presentation of their thesis research.
26.1.3.5 Community Health
The graduate program in Community Health enables students to pursue research and academic studies in selected topics including community health, epidemiology, socio-behavioural health, biostatistics, health services utilization, health policy and health promotion.

1. Qualifications for Admission
The admission requirements are as given under the General Regulations governing Master’s degrees. In exceptional circumstances, a professional equivalent qualification will be considered. Students are expected to have successfully completed at least one basic university-level statistics course.

2. Program Requirements
Students are required to take three core courses: MED 6220, MED 6270 and MED 6280; 2 core stream courses: either the quantitative stream, consisting of MED 6200 and MED 6275 or the qualitative stream, consisting of MED 6294 and MED 6102; and 1 elective; and to attend, for credit, and participate in four semester-length seminar courses (MED 6400-6403).

Graduate students of the Division of Community Health and Humanities may be required to participate in education experiences which occur outside of the St. John’s metropolitan area. Students may be responsible for their own associated transportation and accommodation.

26.1.3.6 Human Genetics
The graduate program in human genetics will enable students to pursue academic studies and research in a number of areas of genetics including cancer genetics, genetic epidemiology, gene mapping, medical genetics, birth defects and population genetics. Faculty members from all three divisions of the Faculty of Medicine (Basic Sciences, Community Health and Clinical Sciences) participate in the program.

1. Qualifications for Admission
The admission requirements are as given under the General Regulations governing Master’s degrees. Applicants with backgrounds in the fields of genetics, biochemistry and biology are preferred.

2. Program Requirements
a. Students will be required to complete a minimum of two graduate courses. Within the Human Genetics program the following courses are offered: Human Molecular Genetics (MED 6393), Human Population Genetics (MED 6390), Applied Human Genetics (MED 6392) and Selected Topics in Human Genetics (MED 6391). In addition, there are a number of courses in other graduate programs which could be suitable for some students in this program, including Epidemiology I (MED 6270), Molecular Biology of Cancer (MED 6580), Molecular Biology I (MED 6590) and Molecular Biology II (MED 6591). Course selection for each student is determined by the supervisory committee in consultation with the student and is based on the area of study and past course credits.

b. Students are expected to participate in the activities of the genetics group. These include the weekly Journal Club/Research Discussion Group and the Genetics Seminar Series (MED 6400-6403).

26.1.3.7 Immunology and Infectious Diseases
The Immunology and Infectious Diseases group has an interdisciplinary character and consists of faculty from biomedical science oncology research. The graduate programs are designed to provide individualized training oriented towards basic research and a solid and scientific background in the discipline of immunology and infectious diseases.

1. Qualifications for Admission
The admission requirements are as given under the General Regulations governing Master’s degrees. A Bachelor of Science Degree or equivalent is required.

2. Program Requirements
Students in the program are required to take a minimum of two courses. MED 6127 is required and the students will choose a second course from: MED 6119, MED 6128, MED 6580 or any other graduate course approved by the student’s supervisory committee. Some students may be required to take additional courses depending upon their thesis topic. All students are required to attend, for credit, and participate in the Immunology and Infectious Diseases Seminar Series (MED 6400-6403).

26.1.3.8 Neurosciences
The Neuroscience Program offers graduate studies in an interdisciplinary setting including faculty from biomedical science within the Faculty of Medicine and Department of Psychology in the Faculty of Science. Graduate students may pursue research in a number of specialty areas including the physiological basis of learning and memory, stroke and neuroplasticity, neuroregeneration, signal transduction mechanisms, neuronal circuitry and membrane physiology. The Neuroscience Program is a Chapter of the Society for Neuroscience.

1. Qualifications for Admission
The admission requirements are as given under the General Regulations governing Master’s degrees. It is expected that the students will have had courses in biochemistry, biology and/or psychology with some exposure to basic university-level statistics.

2. Program Requirements
a. Students in the program are required to take Systems Neuroscience (MED 6196) and one other graduate level course. Additional courses may be required based on the recommendation of the supervisory committee.

b. Students are expected to attend and participate in the activities of the neuroscience group including the weekly seminar and journal club.

26.2 Graduate Diploma
The Faculty of Medicine offers a Graduate Diploma providing an opportunity for professionals and individuals within the health sector to obtain or upgrade their training in Community Health and Humanities or Clinical Epidemiology.

26.2.1 Qualifications for Admission
To be admitted to the graduate diploma program a student must be eligible to register as a graduate student, as given under the General Regulations governing M.Sc. degrees. In special circumstances, and upon the recommendation of the Community Health and Humanities, or Clinical Epidemiology Co-ordinator, a suitable combination of training and professional experience relevant to the program may be acceptable for admission.
26.2.2 Program Requirements

A graduate diploma in Community Health requires successful completion of MED 6220, MED 6270, 3 electives, and 2 semester-length seminar courses (MED 6400-6401).

A graduate diploma in Clinical Epidemiology requires successful completion of MED 6262 or MED 6200, 6250 and 6255 and the completion of a minimum of two of the Clinical Epidemiology seminar courses: Medicine 6400-6403 Research Seminars for M.Sc. Student I-IV.

26.2.3 Graduate Courses

6070 Seminars in Physiological Instrumentation
6075 Human Physiology, Performance and Safety in Extreme Environments (HSPE)
6090-6101 Special Topics
6102 Critical Theory in Health and Society
6103-6119 Special Topics
6127 Immunology I
6128 Immunology II (Prerequisite: Medicine 6127)
613A/B Advanced Immunological Methods (same as the former 6130)
6131-6139 Special Topics
6140 Basic Cardiovascular and Renal Physiology
6141 Cardiovascular/Renal Techniques
6142 Selected Topics in Cardiovascular and Renal Physiology
6143 Cardiovascular Anatomy
6144 Current Concepts in Cardiovascular and Renal Pathophysiology
6180 Structure, Function and Pharmacology of Muscle
6190 General Pharmacology
6192 Pharmacology of Receptors and Receptor Effector Coupling Processes
6193 Advanced Topics in Neuroscience
6194 Advanced Topics in Physiology
6195 Neurobiology of Nervous System Diseases
6196 Systems Neuroscience
6197 Cellular Neuroscience
6198 Neuroanatomy for Graduate Students (accelerated format)
6199 Health Sciences: Writing and Grantsmanship
6200 Biostatistics I (credit may be obtained for only one of MED 6200 or MED 6262)
6220 Introduction to Community Health
6230 Basic Clinical Epidemiology
6255 Clinical Research Design
6260 Applied Data Analysis for Clinical Epidemiology
6262 Biostatistics in Clinical Medicine (credit may be obtained for only one of MED 6200 or MED 6262)
6265 Genetics and Clinical Epidemiology
6270 Epidemiology I
6274 Chronic Disease Epidemiology
6275 Epidemiology II
6276 Current Topics in Canada's Health Care System
6277 Issues in Northern, Rural and Remote Health in Canada
6278 Advanced Biostatistics for Health Research
6279 Quantitative Methods for Applied Health Research
6280 Community Health Research Methods
6281 Theory and Approaches to Medical Publication
6282 Canadian Health Care System
6284 Research and Evaluation Design and Methods
6286 Ethical Foundations of Applied Health Research
6288 Policy and Decision Making
6290 Determinants of Health: Healthy Public Policy
6292 Qualitative and Quantitative Methods for Health Services Research
6293 Knowledge Transfer and Research Uptake
6294 Advanced Qualitative Methods
6295 Advanced Quantitative Methods
6296 Residency
6297 Theories of Social Justice in Health
6340 Research Topics in Cancer I
6341 Research Topics in Cancer II
6342 Basic Principles of the Pathology of Cancer
6390 Human Population Genetics
6391 Selected Topics in Human Genetics
6392 Applied Human Genetics
6393 Human Molecular Genetics
6394 Cancer Genetics
6400 Research Seminars for M.Sc. Students I (one-credit hour)
6401 Research Seminars for M.Sc. Students II (one-credit hour)
6402 Research Seminars for M.Sc. Students III (one-credit hour)
6403 Research Seminars for M.Sc. Students IV (one-credit hour)
6410 Research Seminars for Ph.D. Students I (one-credit hour)
6411 Research Seminars for Ph.D. Students II (one-credit hour)
6412 Research Seminars for Ph.D. Students III (one-credit hour)
6413 Research Seminars for Ph.D. Students IV (one-credit hour)
6420 Medical Science/Social Responsibility in Health Care: Aspects of Medical History (same as History 6125)
6580 Molecular Biology of Cancer (Prerequisites: Biology 4241, Biochemistry 4100 [or equivalent])
6590 Molecular Biology I (cross-listed as Biology 6590 and credit-restricted with Biochemistry 6590) Prerequisites: Biology 4241 (or equivalent)
6591 Molecular Biology II (cross-listed as Biology 6591 and credit-restricted with the former Biochemistry 6591) Prerequisites: Biology
27 Regulations Governing the Degree of Master of Science in Pharmacy

Associate Professor and Dean
L.R. Hensman

The Degree of Master of Science in Pharmacy (M.Sc. (Pharm.)) is offered to qualified full-time and part-time students by the School of Pharmacy. The General Regulations of the School of Graduate Studies of Memorial University of Newfoundland outlined in the current Calendar, and the Degree Regulations of the School of Pharmacy outlined below will apply to the M.Sc. (Pharm.) program. Every candidate in graduate studies shall comply with the General Regulations, the Degree Regulations and all additional requirements of the School of Pharmacy.

27.1 Qualifications for Admission

Admission to the M.Sc. (Pharm.) program will be offered on the basis of academic excellence. The basic requirements for admission are those established by the School of Graduate Studies of Memorial University of Newfoundland. The minimum qualification for admission is a recognized four-year undergraduate degree in Pharmacy, or a recognized four-year undergraduate degree in physical, chemical or biological science, or equivalent, with an overall B average.

Applications submitted through the School of Graduate Studies will be evaluated by the Graduate Studies Committee of the School of Pharmacy. No candidate will be admitted to the program without a recommendation of acceptance by the Graduate Studies Committee. Admission of a candidate to the M.Sc. (Pharm.) program shall be made by the Dean of Graduate Studies.

27.2 Formulation of Program of Study

Upon acceptance to the program, the Supervisor will assess the student's research interests, background, strengths and weaknesses. The Supervisor will formulate a program of study (see below) and select a supervisory committee for the student. The program of study will be selected on the basis of the thesis research, the background of the student, and the perceived need for specific graduate courses that will complement the student's working knowledge in his/her area of research. The supervisory committee will include the Supervisor, one other academic staff person from the School of Pharmacy, and one external academic staff person from Memorial University of Newfoundland. This committee will advise the student about his/her thesis research. Accordingly, they will meet with the student within two months of his/her initial registration, at the end of the second semester (8th month of study), at the end of the fourth semester (16th month), and immediately before the student begins to write the thesis. Both the program of study and the supervisory committee must be approved by the Graduate Studies Committee.

27.3 Program of Study

1. Minimum requirements for the M.Sc. (Pharm.) Degree will be the successful completion of:
   a. Six credit hours in program graduate courses chosen from those available in Pharmacy, Medicine or Biochemistry.
   b. Pharmacy Seminar
   c. A thesis embodying original research

2. Graduate courses will be chosen based on the academic background of the student and the area of his/her thesis research.

   Note: Qualified students accepted into the program who are considered to have an insufficient background for their thesis research may be required to successfully complete additional courses as selected by their Supervisor.

3. Pharmacy Seminar. All candidates for the Degree of M.Sc. (Pharm.) will be required to participate in the Pharmacy Seminar during the first two years of their program. Selected topics in pharmaceutical sciences will be presented and discussed by faculty, students and visiting speakers. Graduate students will be required to present one seminar each year. In the second year of study, the graduate student will present a progress report of his/her research in the seminar. Upon successful completion of the seminar the Chair of the Graduate Studies Committee will so notify the Dean of Graduate Studies.

27.4 M.Sc. (Pharm.) Thesis

Every candidate shall submit a thesis to the School of Graduate Studies. The thesis shall contain original research conducted by the candidate and approved by the supervisory committee.

In preparation for the thesis examination, the candidate will provide a copy of the thesis to each member of the supervisory committee. Each member of this committee will submit a written report to the Chairman of the Graduate Studies Committee.

Before the thesis is submitted, the student shall present an open seminar on the topic of investigation to the School of Pharmacy. Any serious deficiencies noticed at this stage should be carefully considered, in consultation with the supervisory committee, for revision.

Three copies of the thesis shall be submitted to the School of Graduate Studies through the School of Pharmacy, in a form and format as specified by the School of Graduate Studies.

As specified in General Regulation Theses and Reports of the School of Graduate Studies, the written thesis will be reviewed by examiners appointed by the Dean of Graduate Studies on the recommendation of the Dean of the School of Pharmacy or the Chairman of the Graduate Studies Committee.

27.5 Courses

Permission of the instructor and the Graduate Studies Committee of the School of Pharmacy is required for admission to any of the graduate Pharmacy courses.

6000 Medicinal Chemistry
6001 Advanced Physical Pharmacy
6002 Dosage Form Design and Novel Drug Delivery Systems
6003 Pharmacokinetic Modelling
6004 Principles of General Pharmacology
6005 Toxicology of Therapeutic Agents and Chemicals
6100-6108 Special Topics in Pharmacy
28 Regulations Governing the Degree of Master of Social Work

Professor and Dean Pro Tempore
D. Hardy-Cox

The degrees of Master of Social Work and Doctor of Philosophy are offered in social work. The Master of Social Work (M.S.W.) may be completed by part-time or full-time study. All program components, with the exception of on-campus institutes, are offered by distance format and not in a regular classroom format.

The focus of the M.S.W. program is creative approaches to critical thinking for leadership in diverse social work practice. The program allows professionally qualified social workers holding the Degree of B.S.W. or an equivalent professional undergraduate degree in Social Work to undertake intensive advanced work in a specialized area of social work knowledge and practice.

The program is designed to be accessible to students in remote and rural areas, and assumes that: (1) students will have a computer and Internet access; and (2) can travel to St. John’s for the institute portion of the three practice courses. Students will be expected to incur charges for Internet services, long distance telephone charges, and travel and accommodation expenses.

Entrance into all courses and the offering of any course in an academic year is by approval of the School, consistent with the student’s program. Students are admitted only into a designated program of studies.

The School of Social Work may deliver special offerings of the M.S.W. and/or other programs of the School to identified groups of out-of-province students where numbers warrant. These offerings will be self-supporting, and therefore subject to an additional one-time non-refundable tuition fee as approved by the Board of Regents and payable on first registration following formal admission to the program. Students will also pay appropriate tuition fees for each semester during their tenure in the program.

Admission to the special offerings of these programs will be competitive, using the same procedures and standards that are in place for students applying to the St. John’s campus program(s).

Subject to approval by the Graduate Studies Committee of the School of Social Work, students admitted to an out-of-province program offering may apply to transfer to the equivalent program on the St. John’s campus. In such instances, the fee structure under which the student was admitted will not change. Subject to approval by the Graduate Studies Committee of the School of Social Work, students admitted to a St. John’s based program may apply to transfer to the equivalent out-of-province program. In these instances, students transferring from the St. John’s based program offerings to an equivalent out-of-province offering will be required to pay a pro-rated one-time fee upon formal transfer to the special offering.

28.1 Qualifications for Admission

1. Admission to the M.S.W. program is limited, selective, and competitive. Meeting the minimum criteria for admission does not guarantee acceptance to the program.

2. To be considered for admission, an applicant shall hold a Bachelor of Social Work (B.S.W.) degree (or an equivalent professional undergraduate degree in social work approved by the Graduate Studies Committee of the School of Social Work for recommendation to the Dean) from an institution recognized by the Senate, with at least second class standing, and an average of at least 70% in the last 60 undergraduate credit hours.

3. In addition to the stated academic requirements, the applicant must have completed, subsequent to obtaining the B.S.W. degree, at least two years employment in professional social work practice or in a comparable human service discipline or activity. Extensive relevant experience prior to undergraduate degree work may be recognized in full or partial fulfillment of this requirement.

4. For ten percent of seats per year, priority is given to applicants of First Nations/Aboriginal ancestry who meet the minimum criteria for admission. When the number of eligible applicants wishing to be considered under this clause exceeds the number of seats available, priority will normally be given to bona fide residents of Newfoundland and Labrador (see Qualifications for Admission). Applicants wishing to be considered under this clause shall complete the Educational Equity section of the Supplementary Information form at the time of application.

5. For an additional ten percent of seats per year, priority is given to applicants from other equity groups, based on a person’s sexual orientation, gender identity, race, ethnicity, disability and/or being disadvantaged by their economic position/background and who meet the minimum criteria for admission. When the number of eligible applicants wishing to be considered under this clause exceeds the number of seats available, priority will normally be given to bona fide residents of Newfoundland and Labrador (see Qualifications for Admission). Applicants wishing to be considered under this clause shall complete the Educational Equity section of the Supplementary Information form at the time of application.

6. Notwithstanding the above, and in keeping with the School’s commitment to achieving equitable representation in the student body, the Graduate Studies Committee of the School of Social Work, at its discretion, may give preference to additional applicants of First Nations/Aboriginal ancestry and/or members of other equity groups who meet the minimum criteria for admission.

7. Notwithstanding the above, and in keeping with the University’s special obligation to educate the citizens of Newfoundland and Labrador, when the number of eligible applicants exceeds the number of seats available, priority will normally be given to bona fide residents of Newfoundland and Labrador (see Qualifications for Admission).

8. Applicants will be deemed bona fide residents of Newfoundland and Labrador if at the time of application they are currently residing or have a permanent address in the province.

28.2 Procedure for Admission

1. Applicants must submit an application for admission with supporting documentation to the School of Graduate Studies, which approves recommendations for admission made by the Graduate Studies Committee of the School of Social Work. The supporting documentation will consist of: an official transcript of the applicant’s previous academic record submitted directly from the institution(s) attended; a statement of previous professional employment; a list of any published or unpublished works, a declaration of program emphasis and educational objectives; and two letters of appraisal, to be submitted by two referees, one assessing the applicant’s previous academic performance and one assessing the applicants previous practice performance. Letters of appraisal are to be submitted directly to the School of Graduate Studies by the referees.

Note: Independent of admission to the program, agencies providing the mandatory field internship may have a range of additional requirements such as Criminal Record Check, Child Protection Records Check, or Health Check.

2. The deadline date for receipt of applications for admission in September of each year is January 15 of the same year. All application forms and supporting documentation for admission to the program must be submitted to the School of Graduate Studies on or before the deadline of January 15. Under special circumstances, late applications and admissions in other semesters may be considered.

3. The Graduate Studies Committee of the School of Social Work may require the applicant to appear for a personal interview with one or more faculty members.
4. A person who meets the basic admission requirements under **Qualifications for Admission**, may, space permitting, take SCWK 6012 without applying for and being admitted to the M.S.W. program. Persons wishing to take a course under this provision must contact the M.S.W. Student Services Coordinator at least two months prior to the semester in which the course is scheduled. If there are available seats in the course, the applicant will need to submit to the School of Social Work the appropriate form requesting permission to register in a graduate course with evidence of B.S.W. graduation, academic transcripts, and a brief professional resume, and apply or reapply for admission to Memorial University of Newfoundland as an undergraduate.

5. A person who has completed an M.S.W. degree is eligible to register in any M.S.W. course offering, space permitting.

### 28.3 Plan of Study

1. A student's plan of study will be developed cooperatively by the student and the M.S.W. Student Services Coordinator.
2. Specified supplementary studies may be required to ensure requisite knowledge pertinent to the requirements for the degree.
3. A student electing a thesis program shall be assigned a Supervisor by the Dean of the School in consultation with the student. It is recommended that a thesis Supervisor be assigned as early in the program as possible. The thesis supervisor, when assigned, shall normally assume the duties of faculty advisor and Pathway mentor.
4. a. Students who choose the thesis route must complete a thesis, and a minimum of 21 credit hours consisting of SCWK 6012 (or the former 6011), 6013, 6014, 6413, 6917, and at least two of SCWK 6313, 6314, and 6315. Course route students must complete a minimum of 27 credit hours consisting of SCWK 6012 (or the former 6011), 6013, 6014, 6313, 6314, 6315, 6413, 6417 and 6917. Students in either route may be required to take additional courses.
   b. In addition to the above, students will be required to register for SCWK 6000 during each of the relevant semesters as prescribed below, in accordance with their plan of study. This course comprises the academic mentorship component of the revised program and is designed to provide students with the opportunity to integrate curriculum with their individual academic and practice interests throughout their time in the program. For course route students, SCWK 6000 serves as a foundation for SCWK 6417. For thesis route students, SCWK 6000 serves as a foundation for their thesis.
   i. Full-time students will register for SCWK 6000 beginning in the Fall of their first year and in each subsequent semester in which they are actively completing course work in the M.S.W. program.
   ii. Part-time students completing the program in 6 semesters will register for SCWK 6000 beginning in the Fall of their first year and in each subsequent semester in which they are actively completing course work in the M.S.W. program.
   iii. Part-time students completing the program in 9 semesters will register for SCWK 6000 beginning in the Fall of their second year and in each subsequent semester in which they are actively completing course work in the M.S.W. program.
   iv. By the end of the sixth week of the first semester in which students are registered in SCWK 6000, they are required to submit a paper to their mentor, which, once agreed upon, will serve as an individual learning contract. The paper will outline: particular areas of interest, research, or study concentration; proposed goals, objectives, outcomes, and time frame; proposed list of readings; plan of study demonstrating how work in the various courses might be integrated or connected to their area of interest; and expectations of the mentor.
   Students are also required to submit a written progress report due the last day of classes of each semester, beginning with the first semester in which they are registered in SCWK 6000. Students are also required to submit a written final report summarizing their experiences and accomplishments as per the initial learning contact. This report is due the last day of classes of the final semester in which students are registered in 6000.
   v. A grade of NC (No Grade Expected) will be awarded in all semesters of the course prior to the final Semester. The final grade in this non-credit course will be either Pas or Fal.

### 28.4 Field Internship SCWK 6917

Each M.S.W. student is required to complete a 500 hour field internship that is to be conducted in a setting and supervised by a qualified field instructor approved by the School of Social Work. Field Instructors must have as a minimum qualification a M.S.W. Degree and a minimum of two years post-M.S.W. social work employment.

Field internships may be offered in whole or in part outside the normal start and end dates of a semester. Part-time field internships of two semesters will require approval from the proposed agency, field instructor, and the M.S.W. Field Education Coordinator.

The M.S.W. Field Education Coordinator is responsible for facilitating appropriate matches among the student, field instructor, and field internship setting. Although consideration will be given to all factors affecting the location and type of social work field internships, final approval of field internship rests with the School of Social Work. The School cannot guarantee the availability of M.S.W. field instruction in all communities and at all times. Students are responsible for their own financial support during the field internship.

At least four months prior to the commencement of the semester in which they intend to begin SCWK 6917, all students shall submit a completed Intent to Register in M.S.W. Field Internship form and a current resume to the M.S.W. Field Education Coordinator. At least six weeks before the internship commences, students shall submit an M.S.W. Field Internship Proposal to the Coordinator. The School of Social Work depends on the cooperation of community agencies external to the University to provide field internships and instruction to its students. Many of these agencies have a range of requirements, such as Criminal Record Check, Child Protection Records Check, or Health Check, which must be completed before starting the internship. Students unable to meet the agency's requirements may be delayed in their program or prevented from completing their program of study. Students are required to complete and update these requirements in a timely fashion and at their own expense. The procedures of any given agency may change from time to time and are beyond the control of the University.

Evaluation of the field internship will be on a PAS/FAIL basis. Students who voluntarily withdraw from the field internship without prior approval of the M.S.W. Field Education Coordinator and the Graduate Officer, or who conduct themselves in such a manner as to cause the agency and the M.S.W. Field Education Coordinator to terminate the placement, will normally be awarded a grade of FAIL in the field internship.

Students who voluntarily withdraw from the field internship with the prior approval of the M.S.W. Field Education Coordinator and the Graduate Officer cannot be guaranteed a second internship during that semester. In this case, the student will be awarded a grade of INC for the field internship. The student shall normally complete a field internship the following semester.

### 28.5 Course Format

To increase accessibility for students in remote and rural areas, we offer courses in the following formats:

1. SCWK 6012, 6013, 6014, and 6413 will be offered by distance delivery; that is, not in a regular classroom format.
2. SCWK 6313, 6314, and 6315 are distance courses with a mandatory on-campus institute component consisting of 36 hours of classroom instruction. Course materials and activities for the pre-institute and post-institute components of the courses are provided.
to students through distance format. Students must be available on a full-time basis to attend classes and complete assignments and group projects during the Institute portion of these courses. It is recommended that students take leave from their employment for the duration of an on-campus Institute, which may be scheduled in a combination of weekday, evening, and weekend hours within a two-week time period. The final decision regarding the on-campus institute schedule rests with the School of Social Work.

3. SCWK 6917 can be completed in St. John's or in a student's home community, where appropriate supervision is available.

4. SCWK 6000 and 6417 can be completed in St. John's or in a student's home community.

5. In exceptional circumstances, and contingent upon student numbers and school resources, additional course sections may be offered in a regular classroom format.

28.6 Period of Study

For students admitted to the program under Plan of Study above:

1. For part-time students, the program is designed to permit completion of all degree requirements within three academic years (nine semesters) or two academic years (six semesters). The following is a sample program of study for nine semesters:

   **Fall Semester:**
   - SCWK 6012 in Year 1;
   - SCWK 6000, 6313, 6315, or 6413 in Year 2;
   - SCWK 6000; SCWK 6313, 6315, or 6413 in Year 3

   **Winter Semester:**
   - SCWK 6013 in Year 1;
   - SCWK 6000; SCWK 6313, 6314, or 6413 in Year 2

   **Spring Semester:**
   - SCWK 6014 in Year 1; SCWK 6000; SCWK 6314 or 6315 in Year 2
   - SCWK 6917 (Field Internship) may be completed in Fall/Winter/Spring of Year 3
   - SCWK 6417 (Pathway Scholarship) is the final requirement to be completed and may be completed in the same semester as SCWK 6917 (Field Internship). Students are required to register for SCWK 6000 concurrently with SCWK 6917 and 6417.

2. For full-time students, course route, the program is designed to permit completion of all degree requirements within one academic year (three semesters), as follows:

   **Fall Semester:**
   - SCWK 6000, 6012, 6013, and 6313 (institute)

   **Winter Semester:**
   - SCWK 6000, 6014, 6314 (institute) and 6413

   **Spring Semester:**
   - SCWK 6000, 6315 (institute), 6417 (pathway scholarship), and 6917 (field internship)

3. For full-time students, thesis route, the program is designed to permit completion of all degree requirements within one academic year (three semesters), as follows:

   **Fall Semester:**
   - SCWK 6000, 6012, 6013, and 6313* (institute)

   **Winter Semester:**
   - SCWK 6000, 6014, 6314* (institute), and 6413

   **Spring Semester:**
   - SCWK 6000, 6315* (institute), 6917 (field internship). Thesis

   * Thesis students are required to complete only two of the three institute courses.

28.7 Evaluation

1. Failure to attain a final passing grade of A or B in a program course, or PAS in a PASS/FAIL course, shall lead to termination of the student’s program, unless a re-read has been requested. Failure to obtain the required grades in the re-read shall lead to termination of the student’s program.

2. To remain in good standing students are required to maintain professional behaviour consistent with the current Code of Ethics of the Canadian Association of Social Workers ([www.casw-acts.ca/en/what-social-work/casw-code-ethics](http://www.casw-acts.ca/en/what-social-work/casw-code-ethics)). Students who are registered in their home province are required to comply with the current Code of Ethics of their provincial association of social workers. Students who are not registered in their home province are required to comply with the current Code of Ethics of the Canadian Association of Social Workers ([www.casw-acts.ca/en/what-social-work/casw-code-ethics](http://www.casw-acts.ca/en/what-social-work/casw-code-ethics)). Students who fail to meet this requirement will be required to withdraw from the School upon the recommendation of the Graduate Studies Committee.

28.8 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the School will allow.

**Program Courses**

6000 Pathway (mandatory repeatable non-credit course)

6012 Critical Thinking and Reflection (credit may not be obtained for both 6012 and the former 6011)

6013 Leadership for Social Justice (Prerequisite/Co-requisite 6012) (credit may not be obtained for both 6013 and the former 6540)

6014 Leadership in Social Policy and Programs (Prerequisite/Co-requisite 6012) (credit may not be obtained for both 6014 and the former 6542 or 6429)

6313 Perspectives with Individuals and Families (Prerequisite/Co-requisite 6012) (credit may not be obtained for both 6313 and the former 6312 or 6322)

6314 Perspectives with Diverse Communities (Prerequisite 6012) (credit may not be obtained for both 6314 and the former 6230)

6315 Perspectives with Groups (Prerequisite 6012) (credit may not be obtained for both 6315 and the former 6332)

6413 Research Theory, Design, and Analysis (Prerequisite/Co-requisite 6012) (credit may not be obtained for both 6413 and the former 6412 or 6429)

6417 Pathway Scholarship (following completion of all other program components) (credit may not be obtained for both 6417 and the former 6432 or 6442)

6917 Field Internship (Prerequisites 6012; 6013; 6014; and 6413 and Prerequisite/Co-requisite 6314 and 6315) (credit may not be obtained for both 6917 and the former 6912)
Program Core Courses for Students Admitted Prior to Fall 2011
6011 Critical Thinking and Ethical Evaluation for Assessment and Intervention
6312 Crisis Intervention, Brief and Integrated Therapies for Diverse Individuals (Prerequisite/Co-requisite 6011) (credit may not be obtained for both 6312 and 6313)
6322 Family Therapy: Promotion of Strengths and Prevention of Violence in Diverse Families (Prerequisite 6011) (credit may not be obtained for both 6322 and 6313)
6332 Social Work Perspectives in Interdisciplinary Team Development and Group Therapy (Prerequisite 6011) (credit may not be obtained for both 6332 and 6315)
6412 Research Design for Social Work Assessment and Evaluation (Prerequisite/Co-requisite 6011) (credit may not be obtained for both 6412 and 6413)
6422 Data Analysis for Social Work Assessment and Evaluation (Prerequisite 6011 and 6412) (credit may not be obtained for both 6422 and 6413)
6432 Research Internship (2 credit hours) (Prerequisite 6011, 6412 and 6422)
6442 Colloquium Presentation Integrating Theory and Research in Advanced Clinical Practice (1 credit hour) (following completion of all other program components)
6912 Advanced Clinical Practice Internship (Prerequisites 6011, 6312, 6322 and Prerequisite/Co-requisite 6332) (credit may not be obtained for both 6912 and 6917)

Program Elective Courses for Students Admitted Prior to Fall 2011
6230 Seminar in Community Development (credit may not be obtained for both 6230 and 6314)
6530 Seminar in Social Administration: Evaluation of Policies and Programs (credit may not be obtained for both 6530 and 6014)
6540 Supervision in Professional and Clinical Practice (credit may not be obtained for both 6540 and 6013)
6550 Feminist Therapy in Social Work Practice

Although the School does not currently offer a program in Social Policy and Administration, it has faculty expertise in these areas and, in the future, may offer the following courses:
6210 Seminar in Social Planning and Social Development
6220 Seminar in Organization Development
6510 Seminar in Social Administration: Social Policy Analysis, Development and Administration
6520 Seminar in Social Administration: Program Design and Development
6820-29 Individual Reading and Research in Special Areas

Thesis
See General Regulations, Theses and Reports.
Note: Every candidate shall comply with the General Regulations governing the School of Graduate Studies and the M.S.W. Degree Regulations.

29 Regulations Governing the Degree of Master of Technology Management

Vice-President (Marine Institute)
G. Blackwood

Academic Director
C. Coronado

29.1 Administration
The Program will be administered by an Academic Director appointed by the Vice-President (Marine Institute), together with an Academic Advisory Committee.

An Academic Advisory Committee will be appointed by the Dean of Graduate Studies on recommendation of the Vice-President (Marine Institute). This committee will consist of the Academic Director as Chair, three members from the Marine Institute and one member from each of the Faculty of Business Administration and the Faculty of Engineering and Applied Science. Normally, all appointments will be for a period of three (3) years.

A Technical Advisory Committee consisting of a cross-section of members with professional expertise related to the technology sector, will provide regular feedback on program content, instruction, and future direction of the Program. Members of this Committee will be appointed by the Dean of Graduate Studies on recommendation of the Vice-President (Marine Institute). The Academic Director will be an ex officio member and Chair of the Technical Advisory Committee. Normally all appointments will be for a period of three (3) years.

29.2 Program
The Master of Technology Management (MTM) is a comprehensive academic program that provides a broad understanding of the structure and operation of organizations and the factors that influence business decisions in the context of technology-based organizations. It provides a technology management focus through the development of knowledge and understanding of the nature of technical operations and the factors that have an impact on their success, as well as the ability to apply these concepts within their organizations.

The program consists of two Options:
- Engineering and Applied Science Technology Option
- Aquaculture Technology Option

The program is offered online and requires successful completion of either 1) 24 credit hours of course work and a comprehensive project and report (6 credit hours), or 2) 30 credit hours of comprehensive course work. Candidates will typically register on a part-time basis.

29.2.1 Admission Requirements
Admission to the program is on a competitive basis.

1. The deadlines for submission of applications are as follows:
- Fall (September) semester: May 15
- Winter (January) semester: September 15

Applications received after listed deadlines will be considered as time and resources permit.
2. To be considered for admission to the Engineering and Applied Science Technology Option an applicant will normally possess a second class or better undergraduate degree from a university of recognized standing and will normally have:
   - a Memorial University of Newfoundland Bachelor of Technology, Bachelor of Maritime Studies, or a comparable undergraduate degree with appropriate technology sector and business management course work; and
   - a minimum of two (2) years relevant employment experience.
3. To be considered for admission to the Aquaculture Technology Option an applicant will normally possess a second class or better undergraduate degree from a university of recognized standing and will normally have:
   - a post-graduate aquaculture credential or an aquaculture focus in their undergraduate degree; or significant professional experience in the aquaculture industry; and
   - a minimum of two (2) years relevant employment experience.
4. Upon acceptance into the program, students will be admitted to one of the two Options: the Engineering and Applied Science Technology Option or the Aquaculture Technology Option.

### 29.2.2 Program of Study

#### 29.2.2.1 Master of Technology Management - Engineering and Applied Science Technology Option

1. Candidates for the Master of Technology Management (Engineering and Applied Science Technology Option) shall be required to complete a minimum of either:
   a. 24 credit hours of course work and a major project and report (6 credit hours). Course work includes two compulsory core courses (6 credit hours); and six elective courses (18 credit hours). Students on the project route will complete MSTM 6100: Project in Engineering and Applied Science Technology Management (6 credit hours).
      i. **Core Courses (Two to be completed):**
         - MSTM 6031 Overview of Technical Operations
         - MSTM 6032 Managing Technological Innovation
      ii. **Elective courses (Six to be completed):**
         - MSTM 6022 Communication and Conflict Resolution in a Technical Environment
         - MSTM 6023 Strategic Planning, Policy, Participation and Management in Technical Operations
         - MSTM 6030 Principles of Management for Engineering Technology Enterprises
         - MSTM 6033 Quality Systems
         - MSTM 6034 Project Management in the Offshore, Health, Fisheries and Engineering Technology Environments
         - MSTM 6035 Information Technology Applications in the Health and Engineering Technology Environments
         - MSTM 6036 Supply Chain Management and Advanced Engineering Technology Operations
         - MSTM 6037 Risk Analysis and Operations in the Engineering Technology Sector
         - MSTM 6038 Manufacturing and Engineering Technology Management
         - MSTM 6039 Sustainability and Environmental Responsibility
         - MSTM 6052 Management of Intellectual Property
         - MSTM 6054 Technology Assessment
         - MSTM 6056 Management of International Development

   Project in Engineering and Applied Science Technology Management
   MSTM 6100 Project in Engineering and Applied Science Technology Management (6 credit hours). Students will choose a topic in consultation with the Academic Director and will work independently to carry out an in-depth study of a problem or application within the area of technology management and fully document and present their findings. Preferably the problem will be directly related to a workplace situation.
   b. 30 credit hours on a comprehensive-course route. Course work includes two compulsory core courses (6 credit hours); and eight elective courses (24 credit hours).
      i. **Core Courses (Two to be completed):**
         - MSTM 6031 Overview of Technical Operations
         - MSTM 6032 Managing Technological Innovation
      ii. **Elective Courses (Eight to be completed):**
         - MSTM 6022 Communication and Conflict Resolution in a Technical Environment
         - MSTM 6023 Strategic Planning, Policy, Participation and Management in Technical Operations
         - MSTM 6030 Principles of Management for Engineering Technology Enterprises
         - MSTM 6033 Quality Systems
         - MSTM 6034 Project Management in the Offshore, Health, Fisheries and Engineering Technology Environments
         - MSTM 6035 Information Technology Applications in the Health and Engineering Technology Environments
         - MSTM 6036 Supply Chain Management and Advanced Engineering Technology Operations
         - MSTM 6037 Risk Analysis and Operations in the Engineering Technology Sector
         - MSTM 6038 Manufacturing and Engineering Technology Management
         - MSTM 6039 Sustainability and Environmental Responsibility
         - MSTM 6052 Management of Intellectual Property
         - MSTM 6054 Technology Assessment
         - MSTM 6056 Management of International Development

2. Up to three relevant elective courses (9 credit hours) may be transferred from other graduate programs within the School of Graduate Studies or from other post-secondary institutions recognized by Senate, subject to the approval of the Dean of Graduate Studies on the recommendation of the Academic Director.

#### 29.2.2.2 Master of Technology Management - Aquaculture Technology Option

1. Candidates for the Master of Technology Management (Aquaculture Technology Option) shall be required to complete a minimum of either:
   a. 24 credit hours of course work and a major project and report (6 credit hours). Course work includes two compulsory core courses (6 credit hours); and six elective courses (18 credit hours). Students on the project route will complete MSTM 6102: Project in Aquaculture Technology Management (6 credit hours).
      i. **Core Courses (Two to be completed):**
         - MSTM 6031 Overview of Technical Operations
ii. Elective Courses (six to be completed including at least three from Category B):

Category A
MSTM 6022 Communication and Conflict Resolution in a Technical Environment
MSTM 6023 Strategic Planning, Policy, Participation and Management in Technical Operations
MSTM 6033 Quality Systems
MSTM 6034 Project Management in the Offshore, Health, Fisheries and Engineering Technology Environments
MSTM 6037 Risk Analysis and Operations in the Engineering Technology Sector
MSTM 6039 Sustainability and Environmental Responsibility
MSTM 6052 Management of Intellectual Property
MSTM 6056 Management of International Development

Category B
MSTM 6071 Management of Aquaculture Technology
MSTM 6072 Animal Husbandry Management
MSTM 6073 Aquaculture Environmental Management
MSTM 6074 Aquaculture Site and Operational Assessment
MSTM 6075 Aquaculture Engineering Technology Management

Project in Aquaculture Technology Management
MSTM 6102 Project in Aquaculture Technology Management (6 credit hours). Students will choose a topic in consultation with the Academic Director or designate and will work independently to carry out an in-depth study of a problem or application within the area of aquaculture technology management and fully document and present their findings. Preferably the problem will be directly related to a workplace situation.

b. 30 credit hours on a comprehensive-course route. Course work includes two compulsory core courses (6 credit hours); and eight elective courses (24 credit hours).

i. Core Courses (Two to be completed):
MSTM 6031 Overview of Technical Operations
MSTM 6032 Managing Technological Innovation

ii. Elective courses (Eight to be completed including at least three from Category B):

Category A
MSTM 6022 Communication and Conflict Resolution in a Technical Environment
MSTM 6023 Strategic Planning, Policy, Participation and Management in Technical Operations
MSTM 6033 Quality Systems
MSTM 6034 Project Management in the Offshore, Health, Fisheries and Engineering Technology Environments
MSTM 6037 Risk Analysis and Operations in the Engineering Technology Sector
MSTM 6039 Sustainability and Environmental Responsibility
MSTM 6052 Management of Intellectual Property
MSTM 6056 Management of International Development

Category B
MSTM 6071 Management of Aquaculture Technology
MSTM 6072 Animal Husbandry Management
MSTM 6073 Aquaculture Environmental Management
MSTM 6074 Aquaculture Site and Operational Assessment
MSTM 6075 Aquaculture Engineering Technology Management

2. Up to three relevant elective courses (9 credit hours) may be transferred from other graduate programs within the School of Graduate Studies or from other post-secondary institutions recognized by Senate, subject to the approval of the Dean of Graduate Studies on the recommendation of the Academic Director.

29.2.3 Evaluation

1. Candidates for the Master of Technology Management Degree must obtain a grade of B or better in all program courses.

2. Candidates who receive a grade of less than B in any course will be permitted to remain in the program provided the course is repeated and passed with a grade of B or better. Alternatively, the candidate may, on the recommendation of the Academic Director, and with the approval of the Dean of Graduate Studies, substitute another graduate course. Only one course repetition or substitution will be permitted during the candidate’s program after which the candidate shall be required to withdraw from the program.

30 Regulations Governing the Degree of Doctor of Philosophy

In this and following regulations and notes, “Head” and “Department” shall be understood to mean “Dean or Director” and “Faculty or School” respectively, applying the regulations to a Faculty or School in which there are no Departmental divisions.

Students should consult the General Information and Regulations Governing All Graduate Students for information concerning the Degree of Doctor of Philosophy. For information concerning the number of courses required for specific programs, students should consult the following listing for the appropriate Department.

The degree of Doctor of Philosophy (Ph.D.) is offered in selected areas in Anthropology, Archaeology, Atomic and Molecular Physics, Biochemistry, Biology, Chemistry, Cognitive and Behavioural Ecology, Computer Science, Condensed Matter Physics, Earth Sciences (Geology), Earth Sciences (Geophysics), Education, Engineering, English Language and Literature, Environmental Science, Ethnomusicology, Experimental Psychology, Folklore, Food Science, Geography, History, Interdisciplinary, Linguistics, Management, Marine Biology, Mathematics, Medicine, Pharmacy, Philosophy, Physical Oceanography, Social Work, Sociology, Statistics and Theoretical Physics.
30.1 Anthropology

Associate Professor and Head of the Department
M. Tate

30.1.1 Program of Study

1. The Ph.D. in Anthropology is offered in historic anthropology and ethnography of Newfoundland and Labrador, and Western Europe.

2. An applicant must normally hold a Master’s Degree with a specialization in social and cultural anthropology. In exceptional circumstances, a student who has spent three semesters in the M.A. program may be recommended for transfer into the Ph.D. stream.

3. Residency: the Department requires a minimum residency of two years for Ph.D. students.

4. A supervisory committee will be established for each student as per General Regulations, Supervision, Ph.D. and Psy.D. Candidates.

5. Students will normally be required to successfully complete two courses during their first three semesters in the program: Anthropology 6300 and 6890. The supervisory committee may require the candidates to complete additional graduate courses.

6. All candidates must demonstrate a reading knowledge of a second language to be determined in consultation with the supervisory committee. This language will normally be a language in which there is a substantial body of literature in Social and Cultural Anthropology. It could also be a field language pertinent to the candidate’s project. The exam will be set and marked by an authority determined by the Head of the Department and the Dean of Graduate Studies as per General Regulations, Evaluation, Evaluation of Graduate Students, 4., and will normally be completed before the Comprehensive Examination is undertaken.

7. The Ph.D. Comprehensive Examination shall be administered in accordance with General Regulations, Comprehensive Examinations. The examination may be oral, written or both, and shall consist normally of three sessions, each of up to three hours duration, within a one week period, or three (3) one week take home examinations. Candidates will prepare for these examinations by undertaking supervised readings in three fields prescribed by the three members of the comprehensive exam committee. The examination will deal with specified areas of social/cultural anthropology. The examination will normally be scheduled in the third week of November each year in the second year of the candidate’s program.

8. The candidate must submit a written thesis proposal for presentation to the Department two months following completion of his/her comprehensive examination.

9. As stated in the General Regulations for Graduate Studies, the time limit for completion of the Degree is 7 years.

30.1.2 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the Department will allow.

6010 Cultural Ecology
6071 Health and Illness: Cultural Contexts and Constructions
6081 Anthropology of Gender
6089 Anthropology of Underclass Life
6100 Social Organization
6110 Culture and Personality
6140 The Community
6210 Language and Culture
6240 Atlantic Regional Studies
6260 Social and Economic Development
6280 Newfoundland Ethnography
6281 Labrador Ethnography
6282 Ethnography of a Single Region
6300 Fieldwork and Interpretation of Culture
6400 Current Themes in Cultural Anthropology
6410 History of Anthropology
6412 Anthropological Theory
6413 Applied Anthropology
6430 Audiovisual Anthropology
6440 Master’s Research Paper (9 credit hours)
6580-6599 Special Areas in Anthropology
6600 Contemporary Debates in Anthropology
6890 Graduate Seminar

30.2 Archaeology

Associate Professor and Head of the Department
L. Rankin

30.2.1 Program of Study

1. The Ph.D. in Archaeology is offered in prehistoric and historic archaeology of Northeastern North America and the Arctic.

2. An applicant must normally hold a Master's Degree with a specialization in archaeology.

3. The Department requires a minimum residency of six semesters for Ph.D. students.

4. A supervisory committee will be established for each student as per General Regulations, Supervision, Ph.D. and Psy.D. Candidates, 2.

5. Students will normally be required to successfully complete two courses during their first three semesters in the program: Archaeology 6700 and 6411. The supervisory committee may require the candidates to complete additional graduate courses.

6. All candidates must demonstrate a reading knowledge of a second language to be determined in consultation with the supervisory committee. This language will normally be a language in which there is a substantial body of literature in Archaeology. The exam will
be set and marked by an authority determined by the Head of the Department and the Dean of Graduate Studies (see General Regulations, Evaluation, Evaluation of Graduate Students, 4.) and will normally be completed before the Comprehensive Examination is undertaken.

7. The Ph.D. Comprehensive Examination shall be administered in accordance with General Regulations, Comprehensive Examinations. The examination may be oral, written or both, and shall consist normally of three sessions, each of up to three hours duration, within a one week period, or three (3) one week take home examinations. Candidates will prepare for these examinations by undertaking supervised readings in three fields prescribed by the three members of the comprehensive exam committee. The examination will deal with specified areas of archaeology. The examination will normally be scheduled in the third week of November each year in the second year of the candidate’s program.

8. The candidate must submit a written thesis proposal for presentation to the Department two months following completion of his/her comprehensive examination.

9. As stated in the General Regulations for Graduate Studies, the time limit for completion of the Degree is 7 years.

30.2.2 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the Department will allow:

- 6020 Bioarchaeology
- 6040 Human Osteology
- 6095 Advanced Studies in Ethnohistory (same as History 6095)
- 6151 Palaeoethnobotany
- 6181 Palaeoeskimo Cultures of the Eastern Arctic
- 6182 Advances in Material Culture Analysis
- 6187 Readings in Maritime Provinces Prehistory
- 6189 Palaeopathology
- 6191 Approaches to Early Modern Material Culture
- 6192 Conservation Method and Theory
- 6290 Newfoundland and Labrador Prehistory
- 6310 Economic Analyses in Archaeology
- 6320 Ethnoarchaeology
- 6330 Archaeological Field Conservation
- 6409 History of Archaeology
- 6411 Approaches to Early Modern Material Culture
- 6420 Ethnoarchaeology
- 6430 Advanced Studies in Ethnohistory (same as History 6095)
- 6460 Structural Biochemistry
- 6500 Special Topics in Historical Archaeology (Prerequisite 6191)
- 6520 Nutritional Biochemistry
- 6530 Food Biochemistry
- 6559 Cellular, Molecular and Developmental Biology (Credit restricted with Biology 6590 and Medicine 6590)
- 6680 Processing and Quality of Foods

30.3 Biochemistry

Professor and Acting Head of the Department
P.J. Davis

30.3.1 Program of Study

1. The Degree of Doctor of Philosophy is offered in Biochemistry or Food Science to full-time and part-time students.

2. The admission requirements for the graduate programs in Biochemistry and Food Science are as given under General Regulations. Depending on the background and/or area of specialization, a candidate’s program may include additional courses taken for credit in Biochemistry, Food Science or related subjects.

3. The program of a candidate for the Ph.D. Degree shall be the responsibility of the supervisory committee, composed of the Supervisor and at least two other faculty members recommended with the concurrence of the Supervisor by the Head.

4. It is the responsibility of the student to arrange regular meetings with his or her graduate supervisory committee. A semi-annual report, prepared by the Supervisor and signed by all members of the supervisory committee, is required to be given to the Head of the Department or delegate.

5. All candidates for the Ph.D. Degree shall be required to attend and participate in Departmental seminars.

6. A candidate for the Ph.D. will be required to present a seminar on his/her research area within 18 months of starting the program and again immediately prior to the submission of thesis.

7. A candidate for the Ph.D. degree shall normally take the Comprehensive Examination within the first seven semesters of his or her program. The examination will have two components: the preparation of a grant proposal on a topic related to the student’s research specialization followed by an oral examination of the proposal. Failure of this examination will result in the termination of the candidate’s program.

30.3.2 Courses

A series of advanced courses in the areas outlined below will be offered. Normally only one course will be offered per semester.

- 6000-6009 Special Topics in Biochemistry
- 6010-6019 Special Topics in Nutrition and Metabolism
- 6020-6029 Special Topics in Food Science
- 6400 Control of Intermediary Metabolism
- 6460 Structural Biochemistry
- 6520 Nutritional Biochemistry
- 6530 Food Biochemistry
- 6590 Cellular, Molecular and Developmental Biology (Credit restricted with Biology 6590 and Medicine 6590)
- 6630 Marine Biochemistry
- 6680 Processing and Quality of Foods
30.4 Biology

Associate Professor and Head of the Department
P. Marino

The Degree of Doctor of Philosophy is offered in Biology to full-time and part-time students. Students interested in animal behaviour should also consult the section in the Calendar describing the Doctoral programs Cognitive and Behavioural Ecology. Students interested in Marine Biology should consult the section of the Calendar specific to the Doctoral program in that area of study.

30.4.1 Program of Study - Biology

1. A student will be required to take Biology 7000 (Graduate Core Seminar).
2. Admission to a Ph.D. program in Biology shall not normally take place until after the completion of the course requirements and the submission of the thesis for the M.Sc. Degree. However, on the recommendation of the Department, this requirement may be waived by the Dean of Graduate Studies.
3. The program of a candidate shall be the responsibility of a Supervisory Committee composed of the Supervisor and at least two other appropriate members recommended to the Dean by the Head (or delegate) of the Department with the concurrence of the Supervisor.
4. The Supervisory Committee shall interview the student normally within a month of first registration, to discuss the student’s program and to explore any areas of weakness in the candidate’s biological knowledge, especially where these relate to the intended areas of research. The Supervisory Committee will recommend a student’s subdiscipline within Biology to the Department in writing after this meeting.
5. It is the function of a Supervisory Committee to have regular meetings, at least annually, with its graduate student. A meeting report, signed by all members of the Supervisory Committee and student, must be given to the Department. A copy will be sent to the graduate student and to the Dean of Graduate Studies.
6. The candidate will present a tentative outline of the proposed research to the Supervisory Committee, with a copy to the Department by the end of the second semester, and preferably prior to commencement of the research.
7. The student will present a research seminar to the Department, normally by the end of the second semester following admission, to describe the research topic being investigated and the methodologies to be employed. This seminar provides an opportunity for the student to receive constructive input from the broad biological community.
8. When the Supervisory Committee deems it necessary, a working knowledge of a language other than English may be required.
9. Comprehensive Examination
   a. Timing of Examination
      i. Timing of the comprehensive examination shall follow General Regulation 1. under Comprehensive Examination, Ph.D.
      ii. The procedure shall be initiated by the candidate’s Supervisor who will notify the Department of Biology, in writing, of the candidate’s readiness. Failure to meet the above requirement can result in the candidate being required to withdraw from the program.
   b. Examination Committee
      The Examination Committee shall be appointed by the Dean of Graduate Studies on the recommendation of the Department of Biology according to Regulation Comprehensive Examinations, Ph.D. Comprehensive Examination, 2. of the General Regulations of the School of Graduate Studies. No more than two members of the Examination Committee may be members of the candidate’s Supervisory Committee. The committee shall meet and recommend to the Department in writing an examination seminar topic within the student’s previously determined subdiscipline.
   c. Examination Procedure
      The Department shall provide the student the examination date and the seminar topic in writing not more than six nor less than four weeks prior to the examination. The student shall provide each member of the Examination Committee a written paper on the seminar topic one week prior to the examination. The Examination Committee shall evaluate the candidate’s presentation and response to questions put to him/her during the Oral Examination both on the seminar and within the student’s subdiscipline of Biology.
   d. Subsequent Action
      The Examination Committee will meet in camera to arrive at its conclusions. The Chair shall report the results of the Examination to the Head and the Dean of Graduate Studies for transmission to the candidate. The report will include one of the following decisions: a) the student passed with distinction, passed or failed. b) if failed and it is the first examination whether the student may be re-examined.
   e. Re-examination
      Comprehensive Re-examination if permitted will occur not sooner than one month and not more than six months after the first. The candidate and his or her Supervisory Committee shall be informed of the deficiencies found. The format for the second examination will be determined by the Examination Committee with the approval of the Biology Graduate Studies Committee. The candidate will be informed of the topic and format four to six weeks prior to the examination. The examination will follow the procedure outlined in 8.c and d. above. A failure will require the student to withdraw from the program.
10. Theses shall conform to Theses and Reports of the General Regulations of the School of Graduate Studies and the Departmental Guidelines.

30.4.2 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the Department will allow:

- 6000 Research Topics in Microbiology
- 6351 Behavioural Ecology and Sociobiology (Cross-listed as Psychology 6351) credit cannot be obtained if already received for Biology 4701
- 6590 Molecular Biology I (Cross-listed as Medicine 6590 and credit-restricted with Biochemistry 6590) Prerequisites: Biology 4241 (or equivalent)
30.5 Chemistry

Professor and Head of the Department

P. Pickup

30.5.1 Program of Study

The Degree of Doctor of Philosophy in Chemistry is offered as full-time or part-time study. A Master's Degree in Chemistry or related area from a recognized university is normally required for entry into the Ph.D. program. Students holding a Bachelor's Degree (Honours or equivalent) in Chemistry may be considered for direct admission into the Ph.D. program. Students currently registered in the Memorial University of Newfoundland's Chemistry M.Sc. program for a minimum of three semesters may request transfer into a Ph.D. program. The transfer should be supported by the Supervisor and the Supervisory Committee and subsequent to satisfactory presentation of a written progress report and Ph.D. research proposal.

1. Candidates are normally required to write American Chemical Society (ACS) placement test(s) in the first two weeks of the initial semester of registration in order to determine an appropriate course program.

2. Candidates will be assigned a Supervisory Committee consisting of the Supervisor and at least two other appropriate faculty members appointed by the Dean on recommendation of the Chemistry Deputy Head (Graduate Studies).

3. The program of a candidate must be arranged by the Supervisor in consultation with the Supervisory Committee and the student before the second semester of registration. It is the responsibility of the Supervisory Committee to meet at least annually with the student, to provide guidance at all stages of the candidate's program, and, in consultation with the student, to prepare annual written progress reports for submission to the Dean of Graduate Studies.

4. Candidates holding a Master's Degree from a recognized university are normally required to successfully complete a minimum of 6 credit hours of graduate Chemistry courses with a minimum grade of B and to present a Departmental seminar on a topic not directly related to the candidate's research (Chemistry 6002) as well as a seminar describing the candidate's research (Chemistry 6003). Courses taken towards a Master's Degree may not be repeated. Candidates not holding a Master's Degree must successfully complete at least 12 credit hours of graduate Chemistry courses with a minimum grade of B in addition to Chemistry 6002 and 6003.

5. Candidates are required to attend Departmental seminars.

6. Candidates must pass a comprehensive examination, as described in the General Regulations, according to one of the following descriptions:
   a. A 3 hour written part covering topics in Organic Chemistry, and, subsequent to the written examination at the discretion of the comprehensive examination committee, an oral exam designed to explore areas of perceived deficiency.
   b. A 1.5 hour written part covering topics in Inorganic Chemistry, and, subsequent to the written exam, an oral examination designed to further explore areas of Inorganic Chemistry.
   c. A paper on a research topic selected by the student in consultation with his/her supervisor and the examination committee, and subsequently, an oral examination designed to explore general areas of Analytical and/or Physical Chemistry and areas of chemistry related to the research topic.

7. Candidates must submit and successfully defend a thesis deemed acceptable by two internal and one external examiner as outlined in the General Regulations.

30.5.2 Courses

6002 Doctoral Seminar
6003 Doctoral Research Seminar
6110 Analytical Chemistry II
6150 Advanced Spectroscopic Techniques
6151 Analytical Separations and Organic Mass Spectrometry
6152 Electroanalytical Techniques
6153 Techniques in Sampling, Trace Analysis and Chemometrics
6154 Business Management and Good Laboratory Practice
6155 Computers in Instrumental Analysis and Basic Electronics (same as Med 6070)
6160 Laboratory Projects in Sampling, Electroanalysis and Trace Analysis
6161 Laboratory Projects in Analytical Separations and Spectroscopic Techniques
6190-9 Selected Topics in Analytical Chemistry
6201 Bioinorganic Chemistry
6202 Main Group Chemistry
6204 Mechanisms in Catalysis
6205 Photochemistry of Transition Metal Complexes
6206 Green Chemistry
6210 Organometallic Chemistry
6290-9 Selected Topics in Inorganic Chemistry
30.6 Cognitive and Behavioural Ecology

Administrative Committee
Dr. I. Fleming, Department of Ocean Sciences - Co-Chair
Dr. C. Walsh, Department of Psychology - Co-Chair
Dr. T. Chapman, Department of Biology
Dr. W. Montevoci, Department of Psychology
Mr. P. Regular, Graduate Student Representative
Dr. A. Storey, Department of Psychology
Dr. I. Warkentin, Grenfell Campus

30.6.1 Program of Study
1. The Cognitive and Behavioural Ecology Graduate Program focuses on interdisciplinary animal behaviour research. Research integrates mechanistic, developmental, evolutionary and ecological perspectives on behaviour through molecular, individual and population levels of analysis. Supervisors include faculty from the Departments of Biology, Ocean Sciences, Psychology, the Faculty of Medicine and the Environmental Science Program at Grenfell Campus, as well as adjunct faculty from the Canadian Wildlife Service, Department of Fisheries and Oceans, the Newfoundland and Labrador Forestry and Wildlife Divisions and Parks Canada. The Departments of Biology and Psychology jointly offer the Master of Science and the Doctor of Philosophy degrees in Cognitive and Behavioural Ecology.

2. The Administrative Committee is responsible for the Program. Committee members are appointed by the Dean of Science, on the recommendation of the Chair of the Committee and of the Heads of Biology and Psychology. The Committee Chair is elected by the committee members and appointed by the Dean of Science. The Committee makes recommendations to the Dean of Graduate Studies concerning admissions and academic requirements. In consultation with supervisors, recommendations are made concerning course programs, financial support, thesis committees, comprehensive and thesis topics, examiners and students' annual progress. Upon program completion, the Committee certifies that all requirements for the appropriate degree have been met.

The Department of the Supervisor ensures that adequate facilities are provided for each candidate. Students in Cognitive and Behavioural Ecology are considered for teaching assistantships in the Psychology or Biology Departments.

30.6.2 Regulations
1. There are no required courses for the doctoral program. However, the Doctoral Seminar (CABE 6992) and/or other courses tailored for individual students may be included in the student's program by the Dean of Graduate Studies on the recommendation of the Chair of the Committee.

2. The comprehensive examination shall normally be taken within the first 5 semesters of the program. An Examination Committee will be struck in accordance with General Regulations. At least one member of either the Department of Biology or of the Department of Psychology (other than the Supervisor) must be on the Examination Committee, along with one other representative from among the faculty members currently associated with Cognitive and Behavioural Ecology and an additional representative from either within or outside of Cognitive and Behavioural Ecology. The candidate's Supervisor will be on the Examination Committee and will be the only examiner from the candidate's Thesis Supervisory Committee. The Examination Committee is chaired by the Chair of the Cognitive and Behavioural Ecology Committee. The examination will include a comprehensive, integrative review and critical evaluation of novel ideas with regard to a topic in Animal Behaviour or Behavioural Ecology. The review topic is assigned by the Examination Committee, which also determines the submission date for the paper, and the date of the examination. Normally, the student will write the paper in 10 weeks, and the oral examination will occur within two to three weeks of the paper's submission. This paper will form the basis of a public seminar. The Examination Committee will question the candidate about the paper, the topic and its broader relationship with Cognitive and Behavioural Ecology.

30.6.3 Courses
Biology 7220 Quantitative Methods in Biology
Cognitive and Behavioural Ecology 6240 Special Topics
Cognitive and Behavioural Ecology 6350 Behavioural Ontogeny
Cognitive and Behavioural Ecology 6351 Behavioural Ecology and Sociobiology
Cognitive and Behavioural Ecology 6992 Doctoral Seminar
Cognitive and Behavioural Ecology 7000 Field and Lab Methods in Animal Behaviour and Behavioural Ecology
Psychology 6000 Advanced Statistics in Psychology
Table of Credit Restrictions - Doctor of Philosophy in Cognitive and Behavioural Ecology
(Credit may be obtained for only one course from each of the pairs of courses listed in this table.)

30.7 Computer Science
Professor and Acting Head of the Department
W. Banzhaf

The degrees of Master of Science and Doctor of Philosophy are offered in Computer Science.

30.7.1 Program of Study
1. Admission into the Ph.D. program in Computer Science is normally restricted to candidates holding a Master's Degree (or equivalent) in Computer Science or a closely related area. Others may be considered for admission. See Qualifications for Admission of the General Regulations. International applicants are strongly encouraged to submit results of the (general) Graduate Record Examination (GRE) Test.
2. Each candidate for the Ph.D. shall complete a program of graduate courses prescribed by the supervisory committee. The normal minimum will be 9 credit hours.
3. The candidate shall take the Comprehensive Examination within the time limits specified in Comprehensive Examinations of the General Regulations. Students should consult the Departmental guidelines for a detailed description of the content of the Comprehensive Examination.
4. The Ph.D. Degree program will conclude with an oral defence of the thesis as described in Theses and Reports of the General Regulations.

30.7.2 Courses
A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the Department will allow:

**Programming Languages**
- 6711 Syntax and Semantics of Programming Languages
- 6712 Compiling Techniques
- 6713 Software Engineering
- 6714 Functional Programming
- 6715 Logic Programming
- 6716 Concurrent Programming
- 6718-6719 Special Topics in Programming Languages

**Computer Systems**
- 6720 Distributed and Parallel Computing
- 6721 Operating Systems Design
- 6722 Advanced Computer Architectures
- 6723 Microprocessor Systems
- 6724 VLSI Design (same as Engineering 9863)
- 6725 Computational Aspects of VLSI (same as Engineering 9864)
- 6726 Modelling and Analysis of Computing Systems
- 6727 Introduction to High Performance Computer Systems
- 6728-6729 Special Topics in Computer Systems - Computer Networks

**Numerical Computations**
- 6731 Topics in Numerical Methods
- 6732 Matrix Computations
- 6738-6739 Special Topics in Numerical Methods

**Theoretical Aspects**
- 6741 Advanced Automata Theory
- 6742 Theory of Databases
- 6743 Complexity of Computational Problems
- 6745 Special Topics - Advanced Computational Geometry
- 6748-6749 Special Topics in Theoretical Computer Science

**Applications**
- 6751 Database Technology and Information Retrieval
- 6752 Applications of Computer Graphics
- 6753 Artificial Intelligence
- 6754 Post-Genomic Computational Biology
- 6755 Knowledge-Based Systems
- 6756 Digital Image Processing
- 6758-6789 Special Topics in Computer Applications
- 6770-6790 Special Topics in Computer Science
30.8 Earth Sciences
Professor and Head of the Department
J. Hanchar

The degrees of Master of Science and Doctor of Philosophy are offered in Earth Sciences (Geology) and Earth Sciences (Geophysics) by full-time and part-time study.

30.8.1 Program of Study
1. Admission into a Ph.D. program in Earth Sciences (Geology) and Earth Sciences (Geophysics) is normally restricted to candidates holding a Master's Degree or its equivalent. Candidates holding B.Sc. (Honours) degrees who show evidence of exceptional ability may be considered for a direct entry to a Ph.D. program. In exceptional circumstances, a candidate with a B.Sc. (Honours) Degree who has spent not less than 12 months in an M.Sc. Degree program may be recommended for transfer into a Ph.D. program, provided that the candidate can demonstrate, to the satisfaction of the Department of Earth Sciences, his/her ability to pursue research at the doctoral level.

2. A candidate for the Ph.D. Degree is normally required to complete 6 credit hours in addition to the credit hours required for the M.Sc. Degree. The courses must be selected from the overview and general courses below or with the approval of the supervisory committee and Head of Department, other graduate level courses including those offered by other departments. Depending on background and/or area of specialization, a candidate also may be required to complete additional courses in earth sciences or related subjects. All course requirements should be completed within 12 months from the date of the first registration in the Ph.D. program.

3. The Ph.D. Comprehensive Examination shall normally be taken in the first semester of registration in the Ph.D. program.

4. The Ph.D. Thesis Proposal Examination shall normally be taken in the second semester of registration in the Ph.D. program.

5. The Ph.D. Degree program will conclude with a thesis examination and an oral defense of thesis as prescribed in the General Regulations, Theses and Reports.

6. The Supervisor and the Head of the Department may recommend to the Dean of Graduate Studies that the program of a candidate who is not making satisfactory progress be terminated, in accordance with General Regulation, Termination of a Graduate Program.

7. A candidate is required to give an oral presentation to the Department on the results of his/her research. The presentation must be given during the second or third year of the program.

30.8.2 Courses
A selection of courses will be offered to meet the requirements of candidates as far as the resources of the Department will allow.

Overview Courses
7110 Physics of the Solid Earth
7120 Crustal Geophysics
7300 Changes in Global Paleoenvironment
7400 Tectonic Regimes
7410 Engineering and Environmental Geology
7500 Chemical Fluxes in the Earth
7810 Paleoecology (same as former 6810. Credit may be obtained for only one of 7810 or 6810)

General Courses
6070 Quantitative Techniques in Mineralogy and Metamorphic Petrology
6141 Rotation of the Earth
6142 Theory of Global Geodynamics
6152 Paleomagnetism
6171 Advanced Exploration Seismology
6172 Borehole Seismic
6173 Gravity and Magnetic Methods
6177 Mathematical Formulations of Seismic Wave Phenomena
6210 Genesis of Mineral Deposits
6320 Marine Geology
6400 Flow and Transport in Fractured Rock
6410 Advanced Engineering and Environmental Geology
6420 Deformation Mechanisms
6500 Stable Isotope Geochemistry
6510 Trace Element Geochemistry
6520 Methods in Advanced Research in Geochemistry
6540 Radiogenic Isotope Geochemistry
6550 Biogeochemistry
6690 Petroleum Geology
6740 Modern and Ancient Sedimentary Environments
6750 Sequence Stratigraphy
6820 Palynology and Paleobotany
6900-6999 Special Topics in Earth Sciences
30.9 Education
Associate Professor and Dean
K. Anderson

Associate Professor and Associate Dean
T. Selbert

The degrees of Master of Education and Doctor of Philosophy are offered in Education.

The Degree of Doctor of Philosophy in Education is offered to qualified candidates, normally by full-time study. The General Regulations of the School of Graduate Studies of Memorial University of Newfoundland outlined in the current Calendar, and the Degree Regulations of the Faculty of Education outlined below will apply.

30.9.1 Admission to the Ph.D. Program

General qualifications for admission to the Ph.D. Programs at Memorial University of Newfoundland are set out in the University Calendar under School of Graduate Studies, General Regulation Qualifications for Admission, Ph.D. Program.

In addition, the following admission requirements apply:

1. an ‘A’ standing in a Master’s Degree in Education or in an equivalent Master’s Degree from an accredited university;
2. evidence of scholarly work, such as a master’s thesis, directed research project, or qualifying research paper;
3. normally, completion of two years of professional experience in an educational setting.

30.9.2 Supervisory Committee

Each candidate will have a supervisory committee comprised of a minimum of three members, at least two of whom shall be members of the Faculty of Education. The thesis Supervisor shall be a faculty member in the Faculty of Education, Memorial University of Newfoundland.

30.9.3 Program of Study

1. Courses
   a. Students are required to successfully complete two courses on the doctoral program.
      Education 7001 - Doctoral Seminar in Education: Area of Specialization
      Education 7002 - Advanced Educational Research
   b. Based on a consideration of educational background and research interest, students may be required to complete (or have completed at the masters level) as many as two (2) additional courses in research related to their program focus and specialty.
   c. Normally, no more than four courses may be undertaken on a candidate’s program.
   d. Education 7003-30 - Special Topics (offered as required)

2. Comprehensive Examination

   The candidate shall undertake a written and an oral comprehensive examination, which will follow General Regulation Comprehensive Examinations, Ph.D. Comprehensive Examination which sets out the procedures for the comprehensive examination.

   a. A candidate in a Ph.D. program in Education shall normally take the written Comprehensive Examination prior to the seventh semester of the program. The candidate will have completed required courses prior to taking the Comprehensive Examination. In preparation for the Comprehensive Examination, the doctoral candidate, with the guidance of the candidate's Supervisor, will undertake study of the sub-disciplines/areas of concentration identified by the candidate and supervisory committee and approved by the Doctoral Committee. Normally, these will include the candidate's area of concentration and two additional sub-disciplines/areas of concentration.

   b. Such study of sub-disciplines will normally include but not be limited to developing a reading list of important historical and current publications within the sub-disciplines, identifying emerging research emphases within the sub-disciplines, and writing scholarly review papers of these publications.

   c. In preparation for the written comprehensive examination, the doctoral candidate and the supervisory committee will agree on the topics to be examined. The examination will be written over a two day period.

   d. Normally, the oral comprehensive examination will occur within six weeks of the written examination, which if judged to be successful by the Comprehensive Examination Committee, will form the basis of an oral comprehensive examination.

   e. The procedure for scheduling the Comprehensive Examination shall be initiated by the candidate’s Supervisor who will notify, in writing, the Dean of Education of the candidate’s readiness. The date of both the written examination and the oral examination will be determined by the Dean of Education. The candidate will receive a written notice of the scheduled date for both examinations from the Dean of Education.

   f. The Comprehensive Examination Committee shall be appointed by the Dean of Graduate Studies in accordance with School of Graduate Studies General Regulation Comprehensive Examination, Ph.D. Comprehensive Examination on the recommendation of the Dean, Faculty of Education. There will be six members of the Comprehensive Examination Committee as follows:
      - Dean of Education or delegate (Chair)
      - Chair of the Doctoral Committee of the Faculty Council of Education
      - Candidate’s Supervisor
      - Second member of candidate’s supervisory committee
      - Dean of School of Graduate Studies or delegate (non-voting)
      - Member of the Faculty of Education or educational community selected by the Dean of Education.

      In the event that the Chair of the Doctoral Committee is the candidate’s Supervisor, the Dean of Education shall appoint an additional member.

3. Ph.D. Thesis Regulations

   a. The candidate must submit a thesis proposal based on his/her own research interest to all members of the Supervisory Committee for critical evaluation. Normally, the proposal must be approved prior to the eighth semester of the program. The Chairperson of the Supervisory Committee will inform the candidate within one month of its acceptance, rejection or acceptance
with recommended changes.

b. If the proposal is not acceptable, the candidate will normally be permitted a second attempt. The revised proposal must be submitted and deemed acceptable by the Supervisory Committee within a semester. Failure to resubmit within this time period will lead to termination of the candidate’s program.

c. The thesis shall give evidence of the candidate’s ability to carry out independent and original research, develop the necessary theoretical and methodological framework and analyses, and present the findings in a scholarly manner.

d. Each candidate will be required to present a seminar on her/his thesis research to the Faculty.

e. Ph.D. program will conclude with the examination and oral defence of the completed thesis in accordance with the appropriate sections of the General Regulation Theses and Reports, Evaluation of Ph.D. Theses governing the School of Graduate Studies.

30.9.4 Courses
7001 Doctoral Seminar in Education: Area of Specialization
7002 Advanced Educational Research
7003-30 Special Topics

30.10 Engineering and Applied Science
Professor and Dean
G. Naterer

Professor and Associate Dean (Graduate Studies)
L. Lye

The degree of Doctor of Philosophy (Ph.D.) is offered in the Faculty of Engineering and Applied Science and may be obtained either through full-time or part-time studies. The Ph.D. degree can be obtained through programs in Civil Engineering, Computer Engineering, Electrical Engineering, Mechanical Engineering, Ocean and Naval Architectural Engineering, and Oil and Gas Engineering.

30.10.1 Qualifications for Admission

Admission to the Ph.D. program is limited and competitive. All applicants must meet the minimum qualifications described in the General Regulations for the School of Graduate Studies. Admission is normally restricted to candidates holding a Master's Degree in Engineering or a related area. Decisions on admission, however, will also take into account such things as the applicant's rank in class, referees' assessments, general performance throughout the applicant's previous academic programs, and the availability of supervisors in the area of the applicant's interest. In cases of demonstrated ability, a student enrolled in the M.Eng. program may be allowed to transfer to the Ph.D. program without the completion of all of the M.Eng. Degree requirements. As well, in exceptional cases, direct entry to the Ph.D. program, after completion of a Bachelor's Degree in Engineering or a related area, is possible.

Normally, applicants will be considered in January for admission for the following September. In special cases, applicants may also be considered in April and August. Applications should be made sufficiently far in advance to permit the University to obtain all relevant documents and review the application.

30.10.2 Program of Study and Research

A Ph.D. program shall normally consist of three components:

1. a minimum of 6 credit hours consisting of graduate courses recommended by the student's supervisory committee
2. a comprehensive examination as detailed in Regulations for Ph.D. Comprehensive Examination.
3. a thesis satisfying the requirements of the General Regulations for the School of Graduate Studies.

In cases of direct entry after a Bachelor's Degree or promotion from a Master's program before fulfilment of the Master's course requirements, it is likely that the student will be required to take more credit hours than the normally required minimum. In such cases, the requirements for the course component of the student's program will be reviewed on an individual basis by the student's supervisory committee and the Dean of the Faculty of Engineering and Applied Science.

30.10.3 Regulations for Ph.D. Comprehensive Examination

Timing

The Comprehensive Examination for Ph.D. candidates in the Faculty of Engineering and Applied Science shall be conducted in two parts: I) General Examination and II) Examination of the Research Proposal. A candidate registered full-time in the Ph.D. Program shall normally take Part I of the exam within four semesters of the start of their program and Part II within six semesters. Part-time students will normally take Part I of the exam within four semesters of the start of their program and Part II within seven semesters. Students transferring from a Master of Engineering program will normally complete both parts within seven semesters of the start of their Master of Engineering program.

The Examination Committee shall be appointed by the Dean of Graduate Studies on the recommendation of the Dean of Engineering and Applied Science, normally within three semesters of the start of the student's program.

Examination Procedure

Part I General Examination is an oral examination of the candidate’s mastery of selected sub-disciplines of Engineering and Applied Science related to their area of research. The candidate will be apprised of the sub-disciplines in writing no later than three months prior to the examination. The examination is open to the University community; however, only members of the Committee are permitted to ask questions. The Committee may make four recommendations following this examination: 1) the candidate may proceed to Part II of the Comprehensive Examination, 2) the candidate may proceed to Part II but will be assigned additional course work to their program of study, 3) the candidate will be assigned additional study materials and redo Part I in 2 to 8 weeks, 4) the candidate fails. Part I may only be redone once and failing Part I means that the Comprehensive Examination is failed without proceeding to Part II.

Part II Examination of the Research Proposal shall consist of 1) a research proposal, normally of no more than 10,000 words, that should clearly define the research problem, survey literature, present the research method or experimental design, and may include a summary of results already obtained, and 2) a 20 to 30 minute presentation. The candidate should submit the written proposal at least one month prior to the presentation which is open to the University community and will be followed by questions from the Committee and the audience.
Committee Recommendations
Following Part II, the Examination Committee will meet in camera to decide a final recommendation for the Committee Chair to forward to the Dean of Graduate Studies. The possible recommendations in accordance with General Regulation Comprehensive Examinations, Ph.D. Comprehensive Examination are “pass with distinction”, “pass”, “re-examination” or “fail”.

30.10.4 Courses
For a list of graduate courses offered by the Faculty of Engineering and Applied Science refer to the list of "Core Courses" and the list of "Other Courses" offered for the Master of Engineering program.

30.11 English Language and Literature
Associate Professor and Head of the Department
D. Walsh

The degrees of Master of Arts and Doctor of Philosophy are offered in English Language and Literature.

Candidates for the M.A. in English may complete the program as either part-time or full-time students. Candidates for the Ph.D. in English must be in attendance as full-time students for at least three semesters of the program.

30.11.1 Program of Study
1. Admission to the Ph.D. in English is limited and competitive. Applicants should have a Master’s Degree in English or its equivalent from a recognized university and should have an outstanding academic record.

2. All candidates will be required to complete 15 credit hours in graduate courses. These courses will be selected by the candidate in consultation with the candidate’s Supervisory Committee.

While candidates will normally be free to choose graduate courses of interest to them, it will be a primary responsibility of their Supervisory Committees to ensure that any serious deficiencies in their record of previous courses, graduate and undergraduate, are remedied, particularly in the area of proposed thesis research.

3. Candidates who have not previously taken English 7003 or its equivalent will take English 7003, which will count as one of the required courses for the Ph.D. Students who have taken English 7003 or its equivalent before entering the Ph.D. program must still complete 15 credit hours.

4. Candidates who have not completed English 4900 or English 5900 or an equivalent course will be required to complete English 5900, which will not count as one of the required courses for the Ph.D. The course will be graded “pass” or “fail”. As in other graduate courses a grade of 65B or above is considered a pass.

5. Candidates must submit a thesis proposal which includes a statement of topic, a working title, a plan of research and a preliminary bibliography. The thesis proposal should be approved by the Supervisory Committee and submitted to the Departmental Graduate Studies Committee for its approval before the Comprehensive Examination and before the end of the fifth semester. The Departmental Graduate Studies Committee shall return the thesis proposal to the candidate no later than one month after receiving it.

6. Reading knowledge of a second language will be required of all candidates. Reading knowledge is defined as a minimum B grade in a second-year language course taken within the previous five years, a passing grade in an approved second-language course for graduate students, or performance satisfactory to the Department in an arranged reading proficiency test (in which a dictionary may be used).

The language requirement should be completed before the Comprehensive Examination is taken.

The second language will normally be French. In exceptional circumstances, and on the recommendation of the Supervisory Committee and the Departmental Graduate Studies Committee, a language other than French may be substituted.

The Supervisory Committee may also require a demonstrated reading knowledge of an additional language (other than French or the substituted language) if such knowledge is deemed necessary for the student’s research interests.

7. The Ph.D. Comprehensive Examination in English is a written examination prepared by the candidate’s Comprehensive Examination Committee.

In accordance with General Regulation Comprehensive Examinations, Ph.D. Comprehensive Examination, the candidate’s Comprehensive Examination Committee will include the Head (or the Head’s delegate, usually the Graduate Co-ordinator), the candidate’s Supervisor, and three other members of the Department.

The written examination shall consist of three parts: a four-hour examination in the student’s area of concentration and two three-hour examinations in two other specified areas. In accordance with General Regulation Comprehensive Examinations, Ph.D. Comprehensive Examination, the examination shall take place before the end of the seventh semester.

Candidates will be graded “pass with distinction”, “pass”, “re-examination”, or “fail”, in accordance with General Regulation Comprehensive Examinations, Ph.D. Comprehensive Examination. Candidates who are marked for “re-examination” will be re-examined in the area(s) or area(s) in which the Comprehensive Examination Committee has determined that the candidate’s performance is deficient. The nature of this re-examination (and whether it will be written or oral) is left to the discretion of the Comprehensive Examination Committee.

30.11.2 Courses
A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the Department will allow.

Notes:
1. Since it is impossible to list in detail the many topics that may from time to time be offered, the titles below refer only to the major periods and general subject areas in which specific courses may be available. The content and approach in specific courses will vary according to the research interests of students and faculty involved in the course. Students should consult the Department's annual Graduate Student Guide (or the Graduate Co-ordinator) for detailed descriptions of specific course offerings. Normally, no fewer than 30 credit hours in graduate courses are offered in any given academic year.

2. English 5900 cannot be counted as one of the required graduate courses in any program.

3. All students will normally take English 7003 - Trends in Contemporary Literary Theory, usually in their first semester.

4. Students who took graduate courses in English at Memorial University of Newfoundland before 1997 should consult with the Department before selecting further courses.

5900 Bibliography and Research Methods
6403 Etymology (same as Linguistics 6403)
6420 English Dialectology I
6421 English Dialectology II
6999 Master's Essay (for non-thesis students)
7003 Trends in Contemporary Critical Theory
7004 English Phonology and Morphology
7005 The Syntactic Structure of English
7020-25 Special Topics in English
7032 Studies in Old English I
7033 Studies in Old English II
7034 Studies in Middle English I
7035 Studies in Middle English II
7036 Studies in Middle English III
7037 Studies in 16th-Century Literature I
7038 Studies in 16th-Century Literature II
7039 Studies in 16th-Century Literature III
7040 Studies in 16th-Century Literature IV
7041 Studies in 17th-Century British Literature I
7042 Studies in 17th-Century British Literature II
7043 Studies in 17th-Century British Literature III
7044 Studies in 17th-Century British Literature IV
7045 Studies in 18th-Century British Literature I
7046 Studies in 18th-Century British Literature II
7047 Studies in 18th-Century British Literature III
7048 Studies in 18th-Century British Literature IV
7049 Studies in 19th-Century British Literature I
7050 Studies in 19th-Century British Literature II
7051 Studies in 19th-Century British Literature III
7052 Studies in 19th-Century British Literature IV
7053 Studies in 20th-Century British Literature I
7054 Studies in 20th-Century British Literature II
7055 Studies in 20th-Century British Literature III
7056 Studies in 20th-Century British Literature IV
7057 Studies in Pre-19th Century American Literature
7058 Studies in 19th Century American Literature I
7059 Studies in 19th Century American Literature II
7060 Studies in 19th Century American Literature III
7061 Studies in 20th Century American Literature I
7062 Studies in 20th Century American Literature II
7063 Studies in 20th Century American Literature III
7064 Studies in 20th Century American Literature IV
7065 Studies in Pre-19th Century Canadian Literature
7066 Studies in 19th Century Canadian Literature I
7067 Studies in 19th Century Canadian Literature II
7068 Studies in 19th Century Canadian Literature III
7069 Studies in 20th Century Canadian Literature I
7070 Studies in 20th Century Canadian Literature II
7071 Studies in 20th Century Canadian Literature III
7072 Studies in 20th Century Canadian Literature IV
7073 Studies in Newfoundland Literature I
7074 Studies in Newfoundland Literature II
7075 Studies in Newfoundland Literature III
7076 Studies in Anglo-Irish Literature I

30.12 Environmental Science

Board of Study
Dr. N. Catto, Department of Geography - Chair
Dr. C. Campbell, Division of Science, Grenfell Campus, ex-officio
Dr. B. Chen, Faculty of Engineering and Applied Science
Dr. P. Marino, Head, Department of Biology
Dr. W. Montevecchi, Department of Psychology
Dr. L. Tarasov, Department of Physics and Physical Oceanography
Dr. J. Wroblewski, Department of Ocean Sciences
Dr. S. Ziegler, Department of Earth Sciences

30.12.1 General Information
1. The Environmental Science Program is an interdisciplinary graduate program involving the departments of the Faculty of Science, the Faculty of Arts, the Faculty of Medicine and the Faculty of Engineering and Applied Science. There are three Environmental Science Graduate Degree streams: the Master of Science (M.Sc., Environmental Science), Master of Environmental Science (M.Env.Sci.), and the Doctor of Philosophy (Ph.D., Environmental Science). The program is available on a full or part-time basis.
2. The program is administered by a Board of Studies appointed by the Dean of Science. Supervisors of graduate students in the program include faculty from the Faculty of Science, the Faculty of Arts, the Faculty of Engineering and Applied Science, the Faculty of Medicine, and the Environmental Science Program at the Grenfell Campus, as well as adjunct appointees to the program (as a co-supervisor).

30.12.2 Program of Study

1. The Doctor of Philosophy (Ph.D., Environmental Science) is a research degree which includes a doctoral dissertation and course work. Normally, students entering the Ph.D. program in Environmental Science will have a M.Sc. degree from an institution recognized by the Senate. Students in the Master of Science (Environmental Science) program, after a minimum of 12 months in their program of studies, may request a transfer to the Ph.D. program. Final decision for transfer from the M.Sc. program to the Ph.D. program rests with the Dean of the School of Graduate Studies. There are two courses (6 credit hours) required for the doctoral program. All students take ENVS 6010 and those with a disciplinary M.Sc. degree in Science from a recognized university also take ENVS 6000. Other courses tailored for individual students are included in the student’s program by the Dean of Graduate Studies on the recommendation of the Chair of the Board of Studies.

2. The comprehensive examination should be taken on completion of all course work. An Examination Committee will be struck in accordance with the General Regulations. At least two members of the Board of Studies must be on the Examination Committee. The candidate's Supervisor will be on the Examination Committee and will be the only examiner from the candidate’s Thesis Supervisory Committee. The Head of the Department of the Supervisor or his/her delegate is invited to serve on the Comprehensive Examination Committee. The Examination Committee is chaired by the Chair of the Environmental Science Program. The examination will be both written and oral. The topic is assigned by the Examination Committee, which also determines the submission date for the paper, and the date of the examination. Normally, the student will write the paper within four months, and the oral examination will occur within six weeks of the paper’s submission. This paper will form the basis of a public seminar. The Examination Committee will question the candidate about the paper, the topic and its broader relationship with Environmental Science.

3. The doctoral thesis is based on the results of systematic, independent research on an approved scientific topic. To ensure the research is interdisciplinary, the supervisory committee must be made up of members from at least two different departments. The candidate will be required to present a Ph.D. research proposal to the supervisory committee. The completed thesis will be evaluated according to the General Regulations of the School of Graduate Studies. It must contribute significantly to knowledge in the field of Environmental Science.

30.12.3 Courses

ENVE/ENVS 6000 Environmental Science and Technology
ENVE/ENVS 6001 Earth and Ocean Systems
ENVE/ENVS 6002 Environmental Chemistry and Toxicology
ENVE/ENVS 6003 Applied Ecology
ENVS 6004 Environmental Pollution and Mitigation (cross-listed as ENGI 9601)
ENVS 6007 Environmental Risk Assessment (cross-listed as ENGI 9609)
ENVS 6008 Air Pollution (cross-listed as ENGI 9624)
ENVS 6010 Environmental Seminar
ENVS 6201-6210 Selected Topics in Environmental Science

30.13 Ethnomusicology

Professor and Dean
E. Waterman

Professor and Associate Dean
M. Volk

The Doctor of Philosophy program in Ethnomusicology is administered by the School of Music in consultation with the Department of Folklore, and generally in response to recommendations from an Interdisciplinary Advisory Committee with representation from both academic units, chaired by the Program Coordinator.

The Degree of Ph.D. in Ethnomusicology is offered by part-time and full-time study. This program is a research Degree, generally involving extended fieldwork. The resources of the Memorial University of Newfoundland Folklore and Language Archive are available to graduate students in Ethnomusicology.

30.13.1 Qualifications for Admission

Applicants may be admitted to the program if they have at least a B+ average in a M.A. Degree in Ethnomusicology, another field of Music, or other relevant discipline in the Humanities or Social Sciences with evidence of specialization in music. Applicants from a discipline other than Music will be expected to demonstrate the following skills:

- Competent performance in any musical tradition, as judged by a musician knowledgeable about that tradition.
- Knowledge of culturally appropriate language for discussion of performance techniques in that tradition.
- Ability to discuss musical details on the basis of aural and/or written sources, as appropriate to that tradition.

Candidates for admission may, at the discretion of the Interdisciplinary Advisory Committee, be required to write diagnostic examinations measuring skills and knowledge in music literacy, theory, or aural perception. Candidates with deficiencies in any of these areas may be required to take remedial course work prior or in addition to the required program.

Upon completion of M.A. course work, students who have attained an A average may wish to be considered for transfer to the Ph.D. program. Students who seek this option must apply to the Interdisciplinary Advisory Committee to be considered for transfer one month prior to the completion of their M.A. courses or by the end of the 5th semester (see General Regulation Qualifications for Admission, Master's Program).

30.13.2 Program of Study

The Ph.D. program may be completed within twelve to fifteen consecutive semesters of full-time study, depending on fieldwork requirements. The Degree is normally taken by completing course work, comprehensive examinations, a language proficiency requirement, and a Ph.D. thesis, defended in accordance with General Regulation Theses and Reports of the School of Graduate Studies.

1. Students must complete a minimum of 21 credit hours of course work. If required courses have been completed at the M.A. level,
electives may be substituted (with approval of the Interdisciplinary Advisory Committee). The required courses are:

a. Music 8001; Folklore 6030.
b. ONE of Music 6002 or Folklore 7100.
c. Twelve credit hours of electives selected from courses listed below or from relevant courses offered in another discipline (with the approval of the Interdisciplinary Advisory Committee). Ph.D. students may take up to two courses (6 credit hours) in a cognate discipline.
d. Reading proficiency in one language other than English, relevant to the research area, demonstrated to the satisfaction of the Interdisciplinary Advisory Committee. The choice of language must be approved by the Interdisciplinary Advisory Committee. The language exam should normally be completed before the comprehensive exams.
e. Further courses beyond the minimum number may be required, depending on the background and needs of the student.

2. Comprehensive examinations will be administered in a major area, minor area, and theoretical/interdisciplinary area; a component of the comprehensive examination will test audio-visual skills. Bibliographies and discographies for several focussed topics will be developed by the student in consultation with his/her supervisory committee and will be the basis of examination questions. The written portion of the examination will be scheduled over a one-week period. The Comprehensive Examination Committee will normally schedule a consultation with the student to discuss the written essays within one month following the completion of the written examination. For further information see General Regulation Comprehensive Examinations, Ph.D. Comprehensive Examination.

3. Students must complete a thesis, examined and defended in accordance with General Regulation Theses and Reports of the School of Graduate Studies. A thesis proposal, including a working title, statement of purpose and research scope, outline of theoretical and methodological approach, working plan, and preliminary bibliography, together with proposed membership of the supervisory committee, must be submitted to the Interdisciplinary Advisory Committee no later than the fifth semester of study. The thesis shall demonstrate the candidate's ability to carry out original and independent research, develop the necessary theoretical and methodological framework, and present the findings in a scholarly manner.

30.13.3 Courses

Theories and Methods:
Music 6001 Research Methods
Music 6002 Graduate Seminar
Music 6807 Video Documentary Production (credit may be received for only one of Music 6807 and Music 7803)
Music 7001 Research Problems and Methods in Ethnomusicology
Music 7803 Radio Documentary Production (credit may be received for only one of Music 6807 and Music 7803)
Music 8001 Theoretical Issues in the Study of Music
Folklore 6010 Survey of Folklore Genres and Processes
Folklore 6020 Field and Research Methods
Folklore 6030 Folklore Theories
Folklore 6040 Feminist Theories: Perspectives and Issues
Folklore 6080 Vernacular Theories
Folklore 6090 Ethnology
Folklore 7100 Advanced Folkloristics II: Research and Ethnography

Form and Performance:
Music 7005 Performance Option
Folklore 6100 Song and Music
Folklore 6120 Ballad
Folklore 6130 Folk Music Canons and Documentary Sound Recordings
Folklore 6200 Folktales
Folklore 6210 Legend
Folklore 6220 Personal Experience Narrative
Folklore 6250 Language and Play
Folklore 6260 Ethnography of Communications
Folklore 6300 Ethnography of Belief
Folklore 6310 Health Systems
Folklore 6350 Custom
Folklore 6360 Traditional Drama
Folklore 6400 Material Culture
Folklore 6410 Vernacular Architecture
Folklore 6420 Art and the Artifact
Folklore 6430 Food and Culture
Folklore 6720 Folklore and Literature

Area and Genre Studies:
Folklore 6120 Ballad
Folklore 6600 Folklore of Newfoundland
Folklore 6610 Folklore of Canada
Folklore 6620 Folklore of the United States
Folklore 6630 Folklore of the British Isles
Folklore 6770 The Global and the Local

Social Identities:
Music 7006 Urban Ethnomusicology
Music 7007 Music in the Study of Gender, Race and Class
Music 7009 Music and Place
Music 7001 Research Problems and Methods in Ethnomusicology
Music 7802 Music and Intercultural Processes
Folklore 6510 Occupational Folklore
Folklore 6551 Indigenous Expressive Cultures in Cross-cultural Encounter
Folklore 6730 Folklore and Gender
Folklore 6780 Ethnicities

Independent Study:
Music 7026-29 Directed Reading in Ethnomusicology
Folklore 6570-79 Reading Course in Folklore

Special Topics:
Music 6800-09 Special Topics in Music (excluding Music 6807)
Music 7800-09 Special Topics in Music (excluding Music 7802 and 7803)
Folklore 6511-29 Special Topics in Folklore
Folklore 6570-79 Reading Course in Folklore

Public and Applied Ethnomusicology and Folklore:
Music 6750 Music Industries Internship (2 credit hours)
Folklore 6740 Public Sector Folklore
Folklore 6760 Archiving
Folklore 6790 Museums: Perspectives and Practices
Folklore 6800 Applied Folklore

Interdisciplinary Perspectives:
Music 7008 Media Studies
Folklore 6700 Folklore and Culture
Folklore 6710 Oral Tradition and Oral History
Folklore 6750 Popular Culture: Theory and Debate

30.14 Folklore
Associate Professor and Head of the Department
D. Tye

The Degree of Doctor of Philosophy in Folklore is offered by part-time and full-time study and is primarily a research degree. The program normally requires extensive fieldwork research in Newfoundland and/or the Maritimes.

Integral to the teaching of the Department of Folklore is the work of the Memorial University of Newfoundland Folklore and Language Archive; see section under Master of Arts, Folklore.

30.14.1 Program of Study

1. An applicant for admission to the Ph.D. program in Folklore must hold an M.A. Degree in Folklore, or its equivalent as determined by the Head of the Department and the Dean, with an average grade in M.A. courses of not less than 80%.

2. All Ph.D. students in the Folklore program must complete at least 18 credit hours in program graduate courses which shall include Folklore 7000 and 7100. Candidates will normally be free to choose graduate courses of interest to them in Folklore or related disciplines, though it will be a primary responsibility of their committees to ensure that any serious deficiencies are made good. At the end of the second semester the program and further status of the candidate will be reviewed.

3. Second Language Requirements:
   a. All Ph.D. candidates are required to demonstrate an adequate reading knowledge of a second language - normally a common, modern language.
   b. Reading knowledge is defined as a minimum B grade in a second-year language course taken within the previous five years, or performance satisfactory to the Department in an arranged reading proficiency test.
   c. The selection of a second language can be based on the student's research requirements.
   d. The selection of a second language must be made in consultation with the student's faculty advisor or Supervisor. Confirmation that the choice is acceptable must be obtained from the Department.
   e. The language requirement must normally be fulfilled before a student takes the Ph.D. Comprehensive Examination.

4. Comprehensive Examination for the Ph.D.:
   a. The Ph.D. Comprehensive Examination shall be administered in accordance with General Regulations, Comprehensive Examinations. Candidates will prepare for three examinations by undertaking supervised readings in three fields decided by the Comprehensive Examinations Committee. The basic principle is to integrate knowledge within specific areas of folklore and folkloric scholarship. The examination normally will be written with the format to be determined by the Comprehensive Examination Committee in consultation with the student. Assessment will be based on the examination of three papers each of one week duration or three closed book examinations each of eight hours duration. The Committee will recommend to the Dean of Graduate Studies a grade of PASS (pass), FAIL (fail), or PWD (pass with distinction).

5. Ph.D. Thesis:
   a. The candidate will normally submit a thesis proposal based on his/her own interests no later than the end of the semester following the completion of comprehensive examinations. The thesis proposal will include a working title, names of preferred Supervisor and two other Committee members, statement of topic, plan of research, statement of methodological and theoretical approach, a brief review of the literature and a preliminary bibliography. The proposal will be circulated to the Department for critical evaluation on the basis of which the candidate will be informed, within one month, by the Supervisor, of its acceptance, rejection, or acceptance with recommended changes.
   b. The thesis shall give evidence of the candidate's ability to carry out independent and original research, develop the necessary theoretical and methodological framework and present the findings in a scholarly manner.

30.14.2 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates, normally after consultation with the Head of the Department or the Graduate Studies Administrator, and as far as the resources of the Department will allow. Courses are structured according to the categories of: Theories and Methods, Issues, Form and Performance, Special Topics, Regional, National and International Heritage, Social Identities, Public and Applied Folklore, Interdisciplinary Perspectives and Required (Ph.D.):

Theories and Methods
6010 Survey of Folklore Genres and Processes
6020 Field and Research Methods
6030 Folklore Theories
School of Graduate Studies 2013-2014

6040 Feminist Theories: Perspectives and Issues
6080 Vernacular Theories
6090 Ethnology

Issues
6050 Issues in Folkloristics
6060 Issues in Folk Literature
6070 Issues in Folklife

Form and Performance
6100 Song and Music
6120 Ballad
6130 Folk Music Canons and Documentary Sound Recordings
6200 Folktales
6210 Legend
6220 Personal Experience Narrative
6250 Language and Play
6260 Ethnography of Communications
6300 Ethnography of Belief
6310 Health Systems
6350 Custom
6400 Ritual, Festival and Public Display
6410 Vernacular Architecture
6420 Art and the Artifact
6430 Food and Culture
6720 Folklore and Literature

Special Topics
6511-29 Special Topics in Folklore
6550 Special Research in Folkloristics
6551 Indigenous Expressive Cultures in Cross-Cultural Encounter
6552-69 Special Research in Folklore
6570-79 Reading Course in Folklore

Regional, National and International Heritage
6600 Folklore of Newfoundland
6610 Folklore of Canada
6620 Folklore of the United States
6630 Folklore of the British Isles
6640 Traditional Culture of Scotland
6650 Culture and Traditions of Ireland
6660 Folklore of the Francophone Regions
6690 International Folklore

Social Identities
6510 Occupational Folklife
6730 Folklore and Gender
6770 The Global and the Local
6780 Ethnicities

Public and Applied Folklore
6740 Public Sector Folklore
6760 Archiving
6790 Museums: Perspectives and Practices
6800 Applied Folklore

Interdisciplinary Perspectives
6700 Folklore and Culture
6710 Oral Tradition and Oral History
6750 Popular Culture: Theory and Debate

Required (Ph.D.)
7000 Advanced Folkloristics I
7100 Advanced Folkloristics II Research and Ethnography

Credit may not be obtained for both 6010 and the former 6110; 6020 and the former 6111; 6030 and the former 6112; 6100 and the former 6430; 6120 and the former 6445; 6300 and the former 6230; 6350 and the former 6230; 6400 and the former 6501; 6720 and the former 6460.

30.15 Food Science
See Biochemistry.

30.16 Geography
Professor and Head of the Department
C. Mather

30.16.1 Program of Study
1. To be admitted to the program, an applicant must have completed either a Master of Arts or a Master of Science Degree, or its equivalent, in Geography or a related discipline. In exceptional circumstances, a candidate who has completed either a B.A. (Honours) or B.Sc. (Honours) Degree, and who has spent not less than 12 months in a M.A. or M.Sc. Degree program may apply for transfer into a Ph.D. program. A successful application for transfer will require that the candidate demonstrate to the satisfaction of the Department an ability to pursue research at the doctoral level.
2. The deadline for submission of applications for admission is January 15. Candidates will normally commence their programs in the Fall semester.

3. Research areas for graduate study at the Doctoral level are cultural, political and historical geography, economic geography, resource management, community and regional development, physical geography and geographic information sciences.

4. An applicant will be admitted to a doctoral program only if a faculty member agrees to act as Supervisor, and at least two other individuals are willing to serve on the supervisory committee.

5. All candidates must successfully complete Geography 6000 and 6001 if these courses, or equivalent courses, have not been included in their Master's program. In addition, all candidates are required to successfully complete a minimum of 3 credit hours in graduate program courses.

6. The supervisory committee may decide that a candidate successfully completes an examination for reading or speaking a language other than English.

7. After the successful completion of all required courses, candidates must take a comprehensive examination which will have both a written and an oral component.

8. Following successful completion of the comprehensive examination the candidate will submit a written research proposal to the supervisory committee. The proposal must then be approved by the Committee prior to the commencement of research by the candidate.

9. Each candidate will be required to present a seminar on their research to the Department.

10. The Ph.D. program will conclude with the examination and oral defence of the completed thesis in accordance with the appropriate sections of the General Regulations governing the School of Graduate Studies.

### 30.16.2 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates as far as the resources of the Department will allow:

- 6000 Development of Geographical Thought and Practice I
- 6001 Development of Geographical Thought and Practice II
- 6002 Directed Readings in Geography
- 6100 Research Techniques in A Selected Field of Geography I
- 6101 Research Techniques in A Selected Field of Geography II
- 6120 Geospatial Modelling and Analysis
- 6150 Environmental Remote Sensing and Image Analysis
- 6200 Economic Geography I
- 6201 Economic Geography II
- 6204 Sustainable Community and Regional Development
- 6250 Conservation and Sustainability of Natural Resources
- 6251 Survey Design, Questionnaire Development and Techniques of Data Collection
- 6300 Problems in Fisheries Geography
- 6400 Fluvial Geomorphology
- 6401 Glacial Geomorphology
- 6402 Coastal Geomorphology
- 6410 Climatology
- 6420 Quaternary Geography
- 6430 Biogeography
- 6500 Cultural Geography
- 6600 Historical Geography
- 6700 Political Geography
- 6800 Urban Geography
- 6821 Advanced Computer Mapping
- 6900 Graduate Seminar in Regional Geography
- 6990-95 Special Topics in Geography

### 30.17 Geology

See Earth Sciences.

### 30.18 Geophysics

See Earth Sciences.

### 30.19 History

**Professor and Head of the Department**

S. Cadigan

The degrees of Doctor of Philosophy and Master of Arts are offered in History by full-time or part-time study.

#### 30.19.1 Program of Study

1. The Ph.D. Degree in History is offered in the following areas:
   a. Canadian History
   b. Maritime History
   c. Newfoundland History

2. An applicant must hold either a Master's Degree in History or a Bachelor's Degree in History with first-class Honours or their equivalents as determined by the Head of the Department and the Dean.

3. All candidates must successfully complete History 7000 and 7001 in the first year of the program. The Supervisory Committee may require the candidate to complete additional graduate courses.

4. All candidates must demonstrate in accordance with regulations established by the School of Graduate Studies a reading knowledge of French before taking the comprehensive examination. On the recommendation of the Supervisory Committee a modern language
other than French may be substituted. In addition, the Supervisory Committee may require a demonstrated reading knowledge of a second language other than French or English (or the substitute language).

5. Candidates will undertake supervised reading in fields prescribed by the Department. The Supervisors of these programs of reading, along with the thesis Supervisor, will comprise the student's Supervisory Committee. This reading will prepare the student for the comprehensive oral examination.

6. Candidates must submit a thesis proposal, deemed acceptable by the Supervisory Committee, to the Department before sitting the comprehensive examination.

7. Candidates will normally sit the comprehensive oral examination in the second year of the program.

8. Interested applicants are urged to consult with the Head of the Department on these prerequisites and other requirements before filing an application for admission.

30.19.2 Courses
A selection of the following graduate courses will be offered to meet the requirements of candidates as far as the resources of the Department will allow:

6000 Advanced Studies in Newfoundland History
6010 Advanced Studies in Canadian History
6020 Advanced Studies in the History of the United States
6030 Advanced Studies in French History
6040 Advanced Studies in British History
6050 Advanced Studies in German History
6060 Advanced Studies in North Atlantic History
6070 Advanced Studies in Social History
6075 Advanced Studies in Labour and Working Class History
6080 Advanced Studies in Intellectual History
6090 Advanced Studies in Women's History
6095 Advanced Studies in Ethnohistory
6100 Advanced Studies in Military History
6105 Advanced Studies in Diplomatic History
6110 Advanced Studies in Maritime History
6120 Advanced Studies in Economic and Business History
6125 Medical Science and Social Responsibility in Health Care: Aspects of Medical History (Cross-listed as Medicine 6420)
6130 Quantification and Measurement in History
6140-59 Research in Special Topics
6160-79 Reading Courses (Special Topics)
6190 Theory and Method
6200 Masters Seminar I
6999 Masters Research Paper (12 credit hours)
7000 Ph.D. Seminar I
7001 Ph.D. Seminar II

30.20 Interdisciplinary
Professor and Interim Director
J. Dyer

The Degree of Doctor of Philosophy (Interdisciplinary) is offered by part-time and full-time study.

The General Regulations of the School of Graduate Studies and the regulations outlined below will apply.

30.20.1 Administration
1. The program shall be administered by a Director, together with the School of Graduate Studies Interdisciplinary Ph.D. Committee (ID Ph.D. Committee).

2. The program of study of each student will be guided for the duration of the program by a Supervisory Committee of either three (3) or five (5) faculty members, appointed by the Dean of Graduate Studies on the recommendation of the ID Ph.D. Committee at the time of admission.

   In addition, the Director shall be an ex officio member of each Interdisciplinary Ph.D. Supervisory Committee.

   Duties of this Committee shall involve supervising the overall program of study, including the recommendation of appropriate courses, the setting and scheduling of comprehensive examinations, the development of a research proposal, and the thesis-writing and final examination.

   The Supervisory Committee is also responsible for recommending fellowship support to the ID Ph.D. Committee and to the Dean of Graduate Studies at the time of admission and throughout the student's program.

3. Normally, the "academic home" for the student is in the Department or faculty/school of the primary Supervisor.

30.20.2 Deadlines for Applications
1. The deadline for Fall admission is March 1 for commencement in September, October 1 for commencement in January, and February 1 for commencement in May. Students seeking admission to the program should start preparing their admission file well in advance of the application deadline.

   Admissions shall be considered by the ID Ph.D. Committee and recommendations shall be made to the Dean of Graduate Studies.

30.20.3 Admission
1. Prospective students should normally hold a Master's Degree and have an excellent academic record. Applications for admission must include:

   a. Three letters of reference
   b. A detailed research proposal
   c. Letters expressing a commitment to the research project and to supervisory duties from three Memorial University faculty
members, one of whom is prepared to assume the role of academic Supervisor or co-supervisor and at least one whose unit of primary responsibility is a Ph.D. granting Department.

d. Letters of endorsement from the administrative heads of each of the units involved in the proposed program.
e. A statement from the University Librarian indicating the adequacy of Library resources to satisfy the demands of the research program.

30.20.4 Program of Study

1. a. Students will normally be required to take 12-18 credit hours of courses to be determined by the Supervisory Committee. These must include at least one course from each participating discipline. Directed reading courses may be included to support the development of the thesis work.

b. Where appropriate, extra language and/or methodology courses may be prescribed. See Evaluation, Evaluation of Graduate Students, 4. concerning language(s) requirement.

2. Comprehensives

The scope, format, and number of required comprehensive examinations shall be determined by the Supervisory Committee in consultation with the student and in accordance with the needs of his/her particular program of study. Students will be required to take a comprehensive examination after the completion of all required course work, which can be no later than the end of the seventh semester of study. Comprehensive examinations shall follow procedures in accordance with General Regulation, Comprehensive Examinations, Ph.D. Comprehensive Examination, with the exception of 2.

3. Thesis

a. A thesis proposal, including a working title, statement of purpose and research scope, outline of theoretical and methodological approach, working plan and preliminary bibliography must be submitted to the Supervisory Committee no later than the end of the fifth semester of study. If approved by the Committee, the proposal shall be recommended to the ID Ph.D. Committee for final approval.

b. Students must complete a thesis, examined and defended in accordance with General Regulation, Theses and Reports of the School of Graduate Studies. The thesis shall give evidence of the candidate’s ability to develop independent and original research.

30.21 Linguistics

Professor and Head of the Department
M. MacKenzie

The degrees of Master of Arts and Doctor of Philosophy are offered in Linguistics.

30.21.1 Program of Study

1. The Degree of Doctor of Philosophy is offered in the following areas:

a. Languages in which the Department has demonstrated expertise, especially languages of the Newfoundland and Labrador Area.

b. Historical and Comparative Linguistics.

c. Language Variation and Language Contact.

2. In order to be admitted to the Ph.D. in Linguistics, a student shall normally hold a Master's Degree in Linguistics. In the case of a student who does not meet the above requirement but who holds a language-oriented Master's Degree, a program of additional linguistics courses, supplementary to those normally considered to be required in the Ph.D. program, may be required.

3. The program of each candidate must be approved by the Dean of Graduate Studies upon the recommendation of the Supervisory Committee in consultation with the Head of the Department.

4. Candidates who fulfill the requirement in Clause 2 and who otherwise possess the qualifications of Ph.D. candidates will embark on a program approved on an individual basis. This will normally include not less than 18 credit hours in graduate courses, at least 6 credit hours of which must be at the 7000-level.

5. Where needed, each program will include appropriate courses to ensure that the student will have completed 9 credit hours from graduate courses in each of two required fields selected from the following:

a. Phonetics and Phonology.

b. Morphology and Syntax.

c. Comparative and Historical Linguistics.

d. Dialectology and Sociolinguistics.

6. The comprehensive examination (see Regulation Comprehensive Examinations, Ph.D. Comprehensive Examination of the General Regulations) includes two written and two oral examinations. Students must meet all language requirements prior to undertaking their comprehensive examination.

a. The written examinations consist of two separate research papers. These papers will be submitted to the Examination Committee. At least one of the papers must be in one of the core areas of phonetics/phonology, morphology, syntax or semantics. The topic selected for each paper must obtain the prior approval of the Graduate Studies Committee of the Department. In each of these papers, candidates must demonstrate knowledge of the literature on the topic selected, general mastery of the discipline of linguistics and ability to undertake independent research.

b. The Examination Committee will examine the candidate orally, on each paper, within one month of submission. Questioning can be as wide-ranging as the Committee deems necessary to ensure that the student displays a thorough and comprehensive knowledge of the area in question.

c. The Examination Committee shall consist of the Head of Department (or delegate) who shall Chair the Committee, the Supervisor, the Dean of Graduate Studies (or delegate), and other members necessary to satisfy General Regulation Comprehensive Examinations, Ph.D. Comprehensive Examination, 2., who may normally include the members of the Supervisory Committee. If the Head of Department is also a member of the Supervisory Committee, an additional representative of the Department shall be appointed to chair the Examination Committee.

7. Initially, candidates must obtain approval for their Ph.D. thesis topics from the Graduate Studies Committee of the Department, in consultation with the Supervisory Committee. The thesis topic is normally selected before the end of the second full year in the program. Once the topic is approved, a more detailed thesis proposal must be presented to the Department in both written and oral
format, and must receive formal Departmental approval prior to the writing of the thesis.

8. Proficiency in a language other than the candidate's first language will be required, as demonstrated by a minimum B grade in a second-year language course, or performance satisfactory to the Department in an arranged reading proficiency test. A structural knowledge of a non-Indo-European language is also required, as demonstrated by a minimum B grade in a field methods/language structure course or other performance satisfactory to the Department. Depending on the program, a reading knowledge of one or more additional languages may be required. Students must meet all language requirements before undertaking their comprehensive examinations.

9. All Ph.D. students are advised to consult the Linguistics department's Graduate Handbook for details on program requirements and for general information relating to the graduate program.

30.21.2 Courses

A selection of the following graduate courses will be offered to meet the requirements of students, as far as the resources of the Department will allow. Full information is to be found in the Department's Graduate Brochure.

6050-54 Structure of a North American Aboriginal Language (Credit restriction: Except where an exemption is supplied by the Head of the Department, a student may not obtain credit for more than one course in the 6050-54 series. Students may not obtain credit for any of the previously offered 6010, 6011, 6020, 6021, 6030, 6031, 6040, 6041 in addition to a course in the 6050-54 series.)

6055-59 Structure of an Uncommonly-Taught Language (Credit restriction: Except where an exemption is supplied by the Head of the Department, a student may not obtain credit for more than one course in the 6055-59 series.)

6100 Issues in Morphosyntax (Credit may not be obtained for both Linguistics 6100 and the former 6001)

6110 Selected Topics in Transformational Grammar

6115 Topics in the Syntax of A Selected Language (Prerequisite: 6001 or 6110)

6150 Principles of Language Acquisition

6151 Selected Topics in Language Acquisition (Prerequisite: 6150)

6200 Generative Phonology

6201 Selected Topics in Phonology (Prerequisite: 6200)

6210 Sociolinguistics (Credit restriction: A student may not obtain credit for both 6210 or the former 6211)

6212 Selected Topics in Language and Gender

6220 Areal and Temporal Variations in Language

6300-09 Special Subjects

6350 General Romance Linguistics

6390 Franco-Canadian

6400 Comparative and Historical Linguistics

6401 Morphosyntactic Change (Prerequisite: 6400)

6403 Etymology (cross-listed as English 6403)

6410 Comparative Structure of a Selected Language Family (Prerequisite: 6011 or 6031 or 6403)

6420 English Dialectology I

6421 English Dialectology II

6430 Selected Topics in Linguistic Variation (Prerequisite: 6220 or the former 6211)

6500 Field Methods

6601 Modern Linguistic Theories

6700 Experimental Phonetics

6701 Selected Topics in Experimental Phonetics (Prerequisites: 6200, 6700)

6800 Selected Topics in Morphology

6880 Selected Topics in Semantics

7000 Seminar in Research Methods

7001 Analytical issues in Linguistics

7100 Topics in North American Native Languages (Prerequisites: a course from series 6050-6054 or the former 6011, 6031, 6041)

7200 Advanced Topics in Syntax (Prerequisites: 6110, plus either 6001 or 6115)

7202 Seminar in Comparative and Historical Linguistics (Prerequisite: 6400 or 6410)

7300 Seminar in Linguistic Variation (Prerequisite: 6430)

7800 Seminar in Morpho-semantics (Prerequisite: 6800)

7900-03 Special Topics in Linguistics

Note: Appropriate equivalent credits may be given for courses taken at the Summer Institute of the Linguistic Society of America, or a similar institute. Students are encouraged to attend these institutes. They should, however, consult the Head of the Department as to what courses may be appropriate for credit.

30.22 M.D.-Ph.D.

1. The M.D.-Ph.D. program is offered by full-time study to highly motivated students with an excellent academic record who wish to obtain an M.D. and a Ph.D., and whose academic excellence, research potential, and the suitability of the proposed research training environment is acceptable to the Program Admissions and Advisory Committee.

2. The purpose of the M.D.-Ph.D. program is to provide medical education, including clinical skills and training in health research.

3. The M.D.-Ph.D. program will be overseen by the Program Admissions and Advisory Committee (P.A.A.C.). The P.A.A.C. will be responsible for the recruitment and oversight of the program of highly qualified trainees.

4. The P.A.A.C. is composed of the M.D.-Ph.D. Program Director(s), a representative from the Faculty of Medicine, one or more faculty members representing the School of Graduate Studies and a senior M.D.-Ph.D student.

5. M.D.-Ph.D students are jointly enrolled in the M.D. program and the Ph.D. program. The student’s Ph.D. program is overseen by the administrative head of the appropriate academic unit in which the student is enrolled. The M.D. program is overseen by the Assistant Dean, Undergraduate Medical Education, Faculty of Medicine.

30.22.1 Qualifications for Admission

1. To be admitted into the M.D.-Ph.D. program, applicants must first meet the admission requirements of both the M.D. and Ph.D. programs. Admission to the Ph.D. program shall be by the Dean of Graduate Studies on the recommendations of the head of the appropriate academic unit. Admission to the M.D. program is by the Dean of Medicine on the recommendation of the Assistant Dean, Admissions, Faculty of Medicine.

2. Normally, students will enter the M.D.-Ph.D. program from the M.D. program after successful completion of the pre-clerkship phase or from the Ph.D. program after one or two years of the graduate program and acceptance into the M.D. program.
30.22.2 Program of Study and Research
1. The program of study for the Ph.D. is described in the University Calendar entry for the student’s chosen discipline. For the purposes of timing of the comprehensive examination, only the semesters in the Ph.D. component of the program will be counted.
2. The program of study for the M.D. follows the General Regulations governing the M.D. Degree.
3. During the Ph.D. component, students are expected to maintain clinical skills by arrangement with the Assistant Dean, Undergraduate Medical Education, Faculty of Medicine, and will be required to demonstrate competency in clinical skills before resuming full-time studies in the clerkship phase of the M.D. component.
4. During the M.D. component (including the clerkship phase), students, where required, are expected to participate in seminars and journals clubs in their area of research specialization.
5. The Ph.D. will be awarded to students in the M.D.-Ph.D. program on completion of all academic requirements appropriate to the Ph.D. Degree. The M.D. will be awarded to students in the M.D.-Ph.D. program on completion of all academic requirements appropriate to the M.D. Degree.

30.22.3 Evaluation
Failure to maintain academic standing in either the Ph.D. or M.D. components will lead to termination of the M.D.-Ph.D. program which will be annotated on the student’s transcript. On failure of the M.D. component, the Dean of Graduate Studies may approve transfer to a Ph.D. program on the recommendation of the administrative head of the appropriate academic unit. On failure of the Ph.D. component, the Dean of Medicine may approve transfer to a M.D. program on the recommendation of the Assistant Dean of Undergraduate Medical Education.

30.22.4 Courses
See course listing under the regulations for the relevant Ph.D. program and also for the M.D. program in the General Regulations governing the M.D. degree.

30.23 Management
Professor and Dean
W. Zerbe
Associate Professor and Associate Dean (Academic Programs)
L. Bauer
Associate Professor and Associate Dean (Research)
K. Arnold

The Degree of Doctor of Philosophy in Management is offered in the Faculty of Business Administration. The designation refers to management in the broad context. The Degree will offer specializations corresponding to functional areas in management. The Degree currently is offered with specializations in: (1) operations and information management, and (2) organizational behaviour and human resources management.

The Degree of Doctor of Philosophy in Management is offered by full-time study to qualified candidates. The General Regulations of the School of Graduate Studies and the Degree Regulations of the Faculty of Business Administration outlined below, will apply.

30.23.1 Admission to the Ph.D. Program
Admission is limited and competitive. General qualifications for admission to the Ph.D. Programs at Memorial University of Newfoundland are set out under General Regulations, Qualifications for Admission. Applicants from all disciplines will be considered. In addition, applicants must have completed the GMAT with a minimum score of 600 (or GRE with a combined score of 1100).

30.23.2 Supervisory Committee
Until a supervisory committee has been formed, the Ph.D. Program Director will be the designated advisor of each Ph.D. student. Each candidate will have a supervisory committee consisting of three or more members, at least two of whom shall be members of the Faculty of Business Administration. The thesis Supervisor shall be a doctorally qualified faculty member in the Faculty of Business Administration, Memorial University of Newfoundland, having a recent (past five years) research track record suitable to provide research supervision at the Ph.D. level. The supervisory committee will be appointed no later than the end of the first year of studies.

Students are encouraged to find a Supervisor within the first year of the program and, together with the Supervisor, find the remaining committee members by the time all required courses are completed.

30.23.3 Components of Study
30.23.3.1 Courses
Students are required to complete successfully a program of courses, normally over the first two years of the program. Students without an adequate background in the functional areas of business may be required to take additional breadth courses. Such determination will be made by the Ph.D. Admission Committee when a student is accepted into the program.

1. Required for all Specializations
   Philosophy 6015 Theory of Knowledge
   Business 9901 Approaches to Management Research

2. One of
   Business 9902 Modelling Methods in Management Research
   Business 9903 Quantitative Methods in Management Research*
   Business 9904 Qualitative Methods in Management Research**
   Business 9901 is to be completed before any of Business 9902, 9903, 9904 is attempted.

3. Graduate Research Integrity Program (non-credit)*

*Alternatively, students may elect to take Education 6467 if Business 9903 is not offered in a particular year, on the approval of the Ph.D. Program Director.
**Alternatively, students may elect to take Education 6466 if Business 9904 is not offered in a particular year, on the approval of the Ph.D. Program Director.**

### Operations and Information Management (OIM) Specialization Courses

In addition to the above-noted courses required for all specializations, the following courses are required for the Operations and Information Management specialization:

- Business 9910 Optimization
- Business 9911 Data and Process Models in Information Systems Development
- Business 9912 Probabilistic Models
- Business 9913 Human-Computer Interaction and Decision Support Systems
- Business 9914 Supply Chains: Models and Management
- Business 9915 Electronic Commerce
- Business 991A/B Seminar in Operations and Information Management Research A/B
- Business 9917 Special Topics in Operations Management
- Business 9918 Special Topics in Information Systems

### Organizational Behaviour and Human Resources Management Specialization Courses

In addition to the above-noted courses required for all specializations, the following courses are required for the Organizational Behaviour and Human Resources Management specialization.

1. **Required courses:**
   - Business 9920 Foundations in Organizational Behaviour
   - Business 9921 Foundations in Human Resources Management
   - Business 9924 Current Issues in Organizational Behaviour
   - Business 9925 Current Issues in Human Resources Management

   **Note:** Waivers shall not be granted in the Ph.D. program for previously completed course work at either the undergraduate or master’s level.

2. **Four of:**
   - Business 9922 Foundations in Industrial Relations
   - Business 9923 Foundations in Organizational Theory
   - Business 9926 Current Issues in Industrial Relations
   - Business 9927 Current Issues in Organizational Theory
   - Business 9928-9939 Special Topics in Organizational Behaviour/Human Resources Management

   Any other graduate course subject to the approval of the Supervisor

30.23.3.2 Summer Research Project
During the first summer in the program, students will complete a research project under the supervision of a qualified faculty member in the area of specialization. Projects must be presented in the course BUSI 991B Seminar in Operations and Information Management Research during the second year of the program or an equivalent course in other specializations.

30.23.3.3 Comprehensive Examination
Students shall undertake a mandatory written comprehensive examination, following General Regulation Comprehensive Examinations, Ph.D. Comprehensive Examination, which sets out the procedures for the comprehensive examination.

In addition:
1. A candidate in the Ph.D. Program in Management shall normally take the written Comprehensive Examination by the end of the seventh semester of the program. The candidate must have successfully completed all required courses prior to writing the Comprehensive Examination. The scope of the Comprehensive Examination will be determined by the Examining Committee (as defined in General Regulation Comprehensive Examinations, Ph.D. Comprehensive Examination) under the guidance of the Supervisory Committee.
2. A list of topics/areas for the Comprehensive Examination will be provided to the student no later than three months prior to the date of the examination.
3. The written examination will take place in three phases over a one-week period.
4. Based on the results of the written examination, the Examining Committee may schedule a supplementary oral examination on any topics covered on the written examination. The oral examination request must be made to the Dean within two weeks of completion of the written examination. The oral examination, if any, must take place within six weeks of completion of the written examination.
5. The scheduling of the Comprehensive Examination will be initiated by the student’s Supervisor who will notify the Dean of the Faculty of Business Administration. The date of the written examination will be determined by the Dean of the School of Graduate Studies. The student will be provided with written notice of the scheduled dates of the written examinations. In the case of oral examinations, requests will be initiated by the Examining Committee or the student (as described above in 4.) through the School of Graduate Studies.

30.23.3.4 Ph.D. Thesis Regulations
1. The candidate must submit a thesis proposal to all members of the Supervisory Committee for evaluation and approval by the end of the eighth semester of the program. Within one month of submitting the proposal, the Candidate will give a public oral presentation of the proposal, attended by the Committee. The presentation will provide the Committee and others in attendance with an opportunity to raise questions about the proposal research. Immediately following the presentation, the Supervisory Committee will meet to assess the proposal. Assessment will result in one of the following three outcomes: (1) accept; (2) accept with changes; or (3) reject. The results of this assessment will be provided to the student following the meeting. Assessments of accept with changes or reject will be accompanied by written comments within one week of the proposal presentation.
2. If the proposal is rejected, the candidate will be permitted a second proposal. This proposal must be submitted and deemed acceptable by the Supervisory Committee within four months of the original proposal presentation. Failure to resubmit within this time period will lead to termination of the candidate’s program.
3. The Ph.D. thesis will constitute an independent and original research contribution.
4. The Ph.D. thesis will be evaluated according to the process established in General Regulation Theses and Reports, Evaluation of Ph.D. Theses governing the School of Graduate Studies.

30.24 Marine Biology
Professor Emeritus and Head of the Department
G.L. Fletcher
The Degree or Doctor of Philosophy (Ph.D) is offered in Marine Biology by full-time and part-time study through the Department of Ocean Sciences. Areas of concentration include: Ocean Ecology, Functional Biology of Marine Organisms, Fisheries and Aquaculture, and Oceans and Environment.

30.24.1 Admission and Program of Study
1. Admission into a Ph.D. program in Marine Biology is normally restricted to candidates holding a Master’s Degree or its equivalent. In exceptional circumstances, a candidate with a B.Sc. (Honours) Degree who has spent not less than 12 months in an M.Sc. Degree program may be recommended for transfer into a Ph.D. program, provided that the candidate can demonstrate, to the satisfaction of the Department of Ocean Sciences, his/her ability to pursue research at the doctoral level.
2. Each candidate will be assigned a Supervisory Committee consisting of the Supervisor and at least one other member. Within one month of the first registration in the Ph.D. degree program, a candidate will meet with his/her Supervisory Committee. Within six months of the first registration, the student and the Supervisory Committee will agree on a written thesis proposal outlining the objectives, methods, timetable and funding for the project, and provide the proposal (signed by the student and the supervisory committee) to the Head for inclusion in the student’s file.
3. Candidates are normally required to complete a minimum of 9 credit hours of graduate program courses as follows:
   - Ocean Sciences 7000
   - One of Ocean Sciences 7531 or 7581
   - 3 additional credit hours selected from other Ocean Sciences graduate courses or relevant courses in other Departments as approved by the Supervisory Committee
4. All course requirements should be completed within five semesters from the date of first registration in the Ph.D. program.
5. Upon completion of required course work the candidate shall undertake a mandatory comprehensive examination, following the General Regulations, Comprehensive Examinations, Ph.D. and Psy.D. Comprehensive Examination. The comprehensive examination will be both written and oral. Students should consult the Departmental guidelines for further information and a detailed description of the content of the Comprehensive Examination.
6. The Ph.D. program will conclude with the examination and oral defense of the completed thesis in accordance with the School of Graduate Studies General Regulations, Theses and Reports.
30.24.2 Courses
A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the Department will allow:

OCSC 7000 Graduate Core Seminar (Cross-listed as Biology 7000)
OCSC 7531 Biological Oceanography (Same as the former Biology 7531)
OCSC 7540 Plankton Dynamics (Same as the former Biology 7540)
OCSC 7551 Fisheries Resource Management (Same as the former Biology 7551)
OCSC 7561 Physiology of Marine Vertebrates (Same as the former Biology 7561)

30.25 Mathematics and Statistics
Professor and Head of the Department
C. Radford

The degrees of Master of Applied Statistics (see appropriate calendar entry), Master of Science and Doctor of Philosophy are offered in the Department of Mathematics and Statistics. The Masters' degrees are offered by full-time and part-time studies. The Department also participates in the interdisciplinary Ph.D. Program in Theoretical Physics.

30.25.1 Program of Study
The following regulations should be read in conjunction with the General Regulations of the School of Graduate Studies.

1. Candidates shall be assigned a supervisory committee consisting of the Supervisor (or Co-Supervisors) and at least two other members of faculty appointed by the Dean on the recommendation of the Head.

2. A candidate shall complete at least 6 credit hours in graduate courses in the area of specialization. Candidates not holding a Masters Degree shall, in addition, complete, or have already completed successfully, the course requirements for a Memorial University of Newfoundland Master's Degree in mathematics or in statistics, as appropriate. Any candidate may be required to take additional courses.

3. The Comprehensive Examination consists of two parts, called the “qualifying review” and the “intermediate review”. Successful completion of both the qualifying and intermediate reviews constitutes successful completion of the Comprehensive Examination in the sense of General Regulation Comprehensive Examinations.
   a. The qualifying review consists of written examinations and takes place as soon as the Supervisory Committee deems appropriate, but not later than the end of the candidate's third semester in the doctoral program. Its main purpose is to ensure that the candidate has a reasonably broad general knowledge of mathematics or of statistics, as appropriate.
   b. The intermediate review consists of an oral presentation on the candidate's thesis topic followed by an oral examination based on the presentation although questions of a general nature relating to the field of specialization are also permitted. It must take place no later than the end of the candidate's seventh semester in the doctoral program. Its purpose is to ensure that the candidate has specialized knowledge in his/her chosen area sufficient to do original research of a high level.

More details concerning the Department's comprehensive examinations can be obtained from the Department.

30.25.2 Specific Regulations for the Ph.D. in Mathematics
A Master's Degree in mathematics or related area from a recognized university is normally required for entry into the Ph.D. program. Students holding a Bachelor's Degree (Honours or equivalent) in mathematics may be considered for direct admission into the Ph.D. program. Students currently registered in Memorial University of Newfoundland Master's Degree program in mathematics or in statistics, as appropriate. Any candidate may be required to take additional courses.

30.25.3 Specific Regulations for the Ph.D. in Statistics
A Master's Degree in statistics from a recognized university is normally required for entry into the Ph.D. program. Students currently registered in Memorial University of Newfoundland's M.Sc. program in statistics may request a transfer into a Ph.D. program. Such transfer must be supported by the intended Ph.D. supervisory committee and the Graduate Studies Committee.

In addition to general Departmental requirements, each candidate for the Ph.D. in statistics will be required to present at least one paper at a graduate seminar on a topic to be approved by his or her Supervisor.

30.25.4 Courses
A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the Department will allow:

Mathematics
6100 Dynamical Systems
6101 Modern Perturbation Theory
6102 Mathematical Biology
6104 Infinite Dimensional Dynamical Systems
6110 Advanced General Relativity
6111 Calculus in Manifolds
6112-6119 Special Topics in Applied Mathematics
6120 Theoretical Fluid Dynamics
6121 Functional Differential Equations
6130 Introduction to General Relativity
6160 Partial Differential Equations
6201 Numerical Methods for Partial Differential Equations
6202-6209 Special Topics in Numerical Analysis
6210 Numerical Solution of Differential Equations (for Computational Science students only - required core course)
6212 Numerical Methods for Initial Value Problems
6230 Differentiable Manifolds and Riemannian Geometry
6300 Homology Theory
6301 Homotopy Theory
6302 Theory of Fibre Bundles
6304-6309 Special Topics in Topology
6310 Functional Analysis
6311 Complex Analysis
6312 Measure Theory
6313 Functional Analysis II
6315-6319 Special Topics in Analysis
6320 Group Theory
6321 Ring Theory
6322 Nonassociative Algebra
6323 Homological Algebra
6324-6329 Special Topics in Algebra
6330 Analytic Number Theory
6331 Algebraic Number Theory
6332 Point Set Topology
6340 Graph Theory
6341 Combinatorial Design Theory
6342 Advanced Enumeration
6343-6349 Special Topics in Combinatorics
6351 Advanced Linear Algebra

Statistics
6500 Probability (credit restricted with former 6586)
6503 Stochastic Processes
6505 Survival Analysis
6510 Mathematical Statistics
6520 Linear Models
6530 Generalized Linear Longitudinal Mixed Models
6540 Time Series Analysis
6545 Statistical Computing
6550 Nonparametric Statistics
6560 Continuous Multivariate Analysis
6561 Categorical Data Analysis
6563 Sampling Theory
6570-6589 Selected Topics in Statistics and Probability (excluding 6586)

30.25.5 Specific Regulations for the Ph.D. in Theoretical Physics

The Ph.D. in Theoretical Physics is an interdisciplinary program offered jointly with the Department of Physics and Physical Oceanography. The regulations for this program are described under the Regulations Governing the Degree of Doctor of Philosophy - Theoretical Physics

30.26 Medicine

Professor and Dean
J. Rourke

Professor and Associate Dean
R. Tabrizchi

Associate Professor and Acting Assistant Dean
J. Doré

The Faculty of Medicine offers the degree of Doctor of Philosophy in seven program areas: Cancer and Development, Cardiovascular and Renal Sciences, Clinical Epidemiology, Community Health, Human Genetics, Immunology and Infectious Diseases and Neurosciences. Each program area has a Co-ordinator who is responsible for communicating the interests of the program to the Faculty of Medicine Graduate Studies Committee and participate in the admission of graduate students into the graduate program in Medicine. The Faculty of Medicine also offers the opportunity for students registered in the Doctor of Medicine (M.D.) program to obtain a Ph.D. in a combined and integrated M.D.-Ph.D. program.

30.26.1 Qualifications for Admission

The admission requirements for the Ph.D. are as given under the General Regulations governing Ph.D. degrees.

30.26.2 Program of Study and Research

1. The program of study for a Ph.D. Degree is the responsibility of the supervisory committee composed of a Supervisor and at least two other faculty members.
2. It is the responsibility of the supervisory committee to meet regularly (at least annually) with the student and to provide guidance at all stages of the candidate's program. An annual report prepared by the Supervisor and signed by the student and all members of the committee is required to be submitted to the Assistant Dean of Research and Graduate Studies (Medicine).

3. Graduate Students are expected to participate in Faculty of Medicine seminars and journal clubs, for some of the program areas these are available as required courses.

4. Course requirements are set by each of the program areas and are described under Program Requirements. Some supervisory committees may require some students to successfully complete specified course work.

5. Graduate Students in the Ph.D. degree are required to successfully complete the comprehensive examination before the end of the seventh semester. The comprehensive examination consists of both written and oral components and is in accordance with the General Regulations governing Ph.D. degrees.

6. Graduate students in the Ph.D. degree must complete an original piece of research, a written dissertation which must be successfully defended in an oral examination in accordance with the General Regulations governing Ph.D. degrees.

30.26.2.1 Program Areas
1. Cancer and Development
   a. The graduate program in Cancer and Development offers study in fundamental cell and molecular biological areas including viral oncosynthesis, growth factors and oncogenes in developmental models, programmed cell death and drug resistance.
   b. Program Requirements: Students are required to participate in the Seminar Series (MED 6410-6413).

2. Cardiovascular and Renal Sciences
   a. The graduate program in Cardiovascular and Renal Sciences enables students to pursue research and academic studies in selected topics including hypertension and stroke, neural and endothelial control of vasculature and blood pressure as well as physiological mechanisms promoting heart failure. The faculty participating in the program consists of basic cardiovascular scientists and renal clinicians. Teaching within the program is integrated with the M.D. program.
   b. Program Requirements: Students are required to successfully complete MED 6140 if this course has not been previously taken. Students are required to present their thesis research to the Cardiovascular and Renal Sciences group.

3. Clinical Epidemiology
   a. The program in Clinical Epidemiology is aimed at university graduates intending a career in health services, faculty members seeking advanced training in clinical epidemiology, medical doctors and health professionals interested in health care delivery research.
   b. Program Requirements: Students are required to successfully complete all of the following courses if they have not been previously completed: MED 6095, MED 6262 or MED 6200, MED 6255, MED 6255 and MED 6260. Students are required to take the Ph.D. Seminar Series (MED 6410-6413).

4. Community Health
   a. The graduate program in Community Health enables students to pursue research and academic studies in selected topics. Students may specialize in one of the following three streams: epidemiology and biostatistics; health services and policy research; or social justice and equity in health.
   b. Program Requirements: Coursework as defined by the Supervisory Committee and this would normally include the Ph.D. Seminar Series (MED 6410-6413).

5. Human Genetics
   a. The graduate program in Human Genetics will enable students to pursue academic studies and research in a number of areas of genetics including cancer genetics, genetic epidemiology, genome mapping, medical genetics, birth defects and population genetics. Faculty members from all three divisions of the Faculty of Medicine (Biomedical Sciences, Community Health and Clinical Sciences) participate in the program.
   b. Program Requirements: Students are required to take the Genetics Seminar Series (MED 6410-6413).

6. Immunology and Infectious Diseases
   a. The Immunology and Infectious Diseases group has an interdisciplinary character and consists of faculty from biomedical science. The graduate programs are designed to provide individualized training oriented towards basic research and a solid scientific background in the discipline of immunology and infectious diseases.
   b. Students are required to successfully complete two courses if they have not been previously completed: MED 6127 is required and the students will choose one course from MED 6114, MED 6119, MED 6128, MED 6580 or any other graduate course approved by the student's supervisory committee. Some students may be required to take additional courses depending upon their thesis topic. Students are required to attend, for credit, and participate in the Immunology and Infectious Diseases Seminar Program (MED 6410-6413).

7. Neurosciences
   a. The Neuroscience Program offers graduate studies in an interdisciplinary setting with the core faculty in the Division of BioMedical Sciences but also including faculty from the Department of Psychology in the Faculty of Science. Graduate students may pursue research in a number of specialty areas including the physiological basis of learning and memory, stroke and neuroplasticity, neuroregeneration, signal transduction mechanisms, neuronal circuitry and membrane physiology. The Neuroscience Program is a chapter of the Society for Neuroscience.
   b. Program Requirements: Normally students in the Ph.D. program are required to complete two graduate level courses in Neuroscience, one of which is to be Systems Neuroscience (MED 6196). Course selection is made on the recommendation and advice of the supervisory committee. Students are expected to attend and participate in the activities of the neuroscience group including the weekly seminar and journal club.

30.26.2.2 Courses
For a list of courses offered by the Faculty of Medicine refer to Courses offered for the Master of Science in Medicine.
30.27 Nursing

Professor and Dean
J. McFetridge-Durdle

Professor and Associate Dean
S.M. Solberg

The degree of Doctor of Philosophy (Ph.D.) is offered in Nursing in areas reflective of the strength and expertise of current faculty members in the School of Nursing. All candidates will be required to attend as full-time students during the first six semesters (two academic years) of the program.

The following regulations must be read in conjunction with the General Regulations of the School of Graduate Studies.

30.27.1 Qualifications for Admission

1. Admission to the program is limited and competitive.
2. To be considered for admission an applicant must normally hold a Master of Nursing degree or equivalent from a recognized university and have a strong academic record.
3. Applicants must have completed either a graduate level course(s) in research that included both qualitative and quantitative approaches with some advanced statistical analysis in the quantitative work, or a graduate level statistics course.
4. Applicants must hold an active practicing license from the Association of Registered Nurses of Newfoundland or must be currently registered as a practicing nurse in another Canadian jurisdiction. Applicants from other countries who do not meet the above criteria will be assessed on an individual basis and must submit proof of registration as a practicing nurse (or an equivalency) from their country or jurisdiction.
5. Applicants must submit a statement about a research focus that is compatible with expertise within the current faculty of the School of Nursing.

30.27.2 Program of Study

1. A Supervisory Committee shall be appointed for each candidate in accordance with General Regulations, Supervision of the School of Graduate Studies.
2. Candidates normally be required to successfully complete a minimum of 18-credit hours of program courses as follows: Nursing 7011, Nursing 7012, Nursing 7100, Nursing 7101, one of Nursing 7200-7210 (or another approved research course at the doctoral level), and one of Nursing 7300-7310 (or another approved course at the doctoral level in the area of the student’s research interest). All courses will normally be completed within the first two semesters of the program.
3. Candidates will normally be required to complete a minimum of two mandatory, non-credit internships/institutes during the first two years of the program. The internships/institutes are designed to provide an opportunity for students to gain substantive knowledge of, and engage in, collaborative research and/or teaching. An internship/institute will be selected based on the student’s area of interest and learning needs and will have a set or negotiated time limit during a semester depending on the nature and scope of the work.
4. Candidates will be required to participate in graduate seminars of 2 hours per week in the Fall and Winter semesters in each of the first two academic years of the program.
5. Candidates must develop and maintain a professional portfolio that includes experience in research, teaching, and academic and professional service.
6. Candidates shall submit to a comprehensive examination in accordance with General Regulations, Comprehensive Examinations of the School of Graduate Studies. The Comprehensive Examination will consist of a written component and an oral component. The examination will normally be scheduled in the first semester of the second year of the program, but no later than the end of the student’s seventh semester in the program.
7. Candidates must submit a written thesis proposal for presentation to the School, normally within six weeks of completion of the comprehensive examinations, but no later than the end of the fifth semester of the program.
8. Candidates must submit a thesis, examined and defended in accordance with General Regulations, Theses and Reports of the School of Graduate Studies.
9. Candidates are required to spend a minimum of six semesters (two academic years) of full-time study in residence.
10. In keeping with the General Regulations, Period of Study for the School of Graduate Studies, the time limit to complete the degree is seven years.

30.27.3 Courses

A selection of the following courses will be offered to meet the requirements of candidates, as far as the resources of the School of Nursing will allow:

- 7011 Nursing: The Science
- 7012 Nursing: The Profession
- 7100 Nursing Research I: Conceptualizing Research
- 7101 Nursing Research II: Conducting Research
- 7200-7210 Reading Courses in Research Methodology
- 7300-7310 Reading Courses in a Substantive Area for Research
30.28 Pharmacy

Associate Professor and Dean
L.R. Hensman

The Degree of Doctor of Philosophy in Pharmacy is offered to qualified candidates normally by full-time study. The General Regulations of the School of Graduate Studies of Memorial University of Newfoundland outlined in the current Calendar, and the Degree Regulations of the School of Pharmacy outlined below will apply. Every candidate in graduate studies shall comply with the General Regulations, Degree Regulations and all additional requirements of the School of Pharmacy.

30.28.1 Qualifications For Admission

1. Admission to the Ph.D. program is limited and competitive. Applicants must have completed an M.Sc. Degree in Pharmacy, or its equivalent in a related discipline, from a university of recognized standing.
2. Other students may be considered for admission to a Ph.D. provided that they have been registered in a M.Sc. Pharmacy program for a minimum of 12 months, and have demonstrated to the satisfaction of the Graduate Studies Committee of the School of Pharmacy an ability to pursue research at the doctoral level. Students wishing to transfer from the M.Sc. to the Ph.D. will have completed 6 credit hours. Prior to admittance to the Ph.D. program, a written thesis proposal will be submitted for assessment by the Supervisor Committee plus one additional faculty member. The recommendation of this Committee will be forwarded to the Graduate Studies Committee of the School of Pharmacy.
3. On admission to the program, a Supervisor Committee shall be appointed in accordance with General Regulation Supervision governing the School of Graduate Studies.

30.28.2 Program of Study and Research

1. As a minimum, each candidate shall successfully complete 6 credit hours as well as Pharmacy 6999 (Pharmacy Research Seminar). A minimum grade of 65% will be required in each course. Candidates shall complete additional undergraduate courses in Pharmacy or other related areas where the Supervisor Committee considers there to be a deficiency in the academic record. Candidates may select these courses in consultation with the Supervisor Committee. However, it will be the primary responsibility of the Supervisor Committee to ensure that deficiencies in the academic record are rectified.
2. All candidates must submit a thesis proposal to the Supervisor Committee for approval no later than the second semester of study after admission to the program.
3. All candidates must complete a comprehensive examination on or before the end of the sixth semester of study after admission to the program. The comprehensive examination will consist of two components: a written examination and an oral examination. The oral examination will normally be held no later than two weeks after successful completion of the written examination.
4. A Comprehensive Examination Committee shall be appointed in accordance with General Regulation Comprehensive Examination. The Committee will be responsible for preparing the questions for the written and oral examinations and evaluating the candidate's performance in the subject area. The Committee will consist of the Dean of Graduate Studies (or delegate), the Supervisor, and three other members, one of whom may be a member of the Supervisor Committee. All shall be voting members of the Committee except the Dean of Graduate Studies (or delegate).
5. Successful completion of the Ph.D. program will require a formal examination of the written thesis and an oral defence of the research, as prescribed in the General Regulation Theses and Reports. Final approval of the thesis shall be the responsibility of the School of Graduate Studies.

30.28.3 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates as far as the resources of the School will allow. Permission of the instructor and the Graduate Studies Committee of the School of Pharmacy is required for admission to any graduate Pharmacy course.

6000 Medicinal Chemistry
6001 Advanced Physical Pharmacy
6002 Dosage Form Design and Novel Drug Delivery Systems
6003 Pharmacokinetic Modelling
6004 Principles of General Pharmacology
6005 Toxicology of Therapeutic Agents and Chemicals
6100-6108 Special Topics in Pharmacy
6999 Pharmacy Research Seminar

30.29 Philosophy

The degree of Doctor of Philosophy (Ph.D.) is offered in Philosophy by full-time study only. Graduate courses are taught as small seminars and directed reading courses. Program candidates must spend a minimum of two years in residence at this institution.

30.29.1 Program of Study

1. The Ph.D. in Philosophy is offered in accordance with the General Regulations of the School of Graduate Studies. Doctoral candidates will specialize in one or more of three departmental research clusters:
   - Metaphysics and its History
   - Kant and Continental Philosophy
   - Ethics, Social and Political Philosophy
2. To be considered for admission to the program an applicant must have completed a Master of Arts Degree in Philosophy or hold an equivalent qualification.
3. All candidates are required to complete 15 credit hours in graduate courses selected from the Courses listed below and including the following:
   - Philosophy 6000
   - Four additional courses (12 credit hours) only one of which (3 credit hours) may be a directed reading courses. Courses will be selected by the candidate in consultation with the candidate’s Supervisor Committee.
4. Proficiency in a second language is required since it is necessary for the purpose of the proposed doctoral research. The selection
of a second language is based upon the student’s research requirements, and the selection is to be made in consultation with the student’s faculty advisor or supervisor. Confirmation that the choice is acceptable must be obtained from the department. Demonstration of proficiency will be determined in accordance with the governing general regulation of the School of Graduate Studies (General Regulations, Evaluation, Evaluation of Graduate Students). If a student is working in recent Anglo American philosophy, then the student can opt, with the permission of the Graduate Studies Committee, to complete an examination in philosophical logic. The language requirement must normally be fulfilled before a student takes the Ph.D. comprehensive examination.

5. The Ph.D. Comprehensive Examination shall be administered and evaluated in accordance with General Regulations, Comprehensive Examinations. The examination shall consist of three written parts: a four-hour examination in the student’s area of concentration and two three-hour examinations in two of the Department’s research clusters (Metaphysics and its History, Kant and Continental Philosophy, and Ethics and Social and Political Philosophy).

6. No more than seven semesters after having been admitted to the program the candidate must submit a thesis proposal that is considered satisfactory by the supervisory committee.

7. Students must submit and successfully defend a thesis in accordance with the School of Graduate Studies general regulations governing Theses and Reports.

30.29.2 Courses
A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the Department will allow:

6000 Graduate Seminar

History of Philosophy Seminars
6011 Ancient and Medieval Philosophy
6012 Modern Philosophy
6013 Contemporary Philosophy

Area Seminars
6014 Metaphysics
6015 Theory of Knowledge
6016 Ethical and Political Theory

Tutorials
6040-6099 Special Topics
6101 Selected Texts
6102 Current Issues

30.30 Physics and Physical Oceanography
Professor and Head of the Department
B. de Young

The following Departmental Regulations are supplementary to the General Regulations governing the M.Sc. and Ph.D. degrees. A thorough familiarity with the latter Regulations should be regarded as the prerequisite to further reading in this section.

The Department of Physics and Physical Oceanography compiles, and regularly reviews, a brochure which contains reasonably detailed descriptions of currently active research projects, as well as a comprehensive listing of recent research publications, and other material which may be of interest to prospective graduate students.

30.30.1 Program of Study
The Degree of Doctor of Philosophy (Ph.D.) is offered in Atomic and Molecular Physics, in Physical Oceanography, in Condensed Matter Physics and in Theoretical Physics.

1. A program of study for the Ph.D. Degree in Atomic and Molecular Physics, Condensed Matter Physics or Physical Oceanography shall normally include a minimum of 9 graduate credit hours, beyond those required for the M.Sc. Degree. However, depending on the student's background and area of specialization, more or fewer graduate and/or undergraduate courses may be required.

2. A Comprehensive Examination (as prescribed under General Regulation Comprehensive Examinations) shall be an oral one, and may include the presentation of a written research proposal.

3. The Ph.D. Program in Theoretical Physics is an interdisciplinary program offered jointly with the Department of Mathematics and Statistics. The regulations for this program are described under the Regulations Governing the Degree of Doctor of Philosophy - Theoretical Physics.

30.30.2 Courses
A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the Department will allow:

6000 Condensed Matter Physics I
6001 Condensed Matter Physics II
6002 Superconductivity
6003 Path Integral Techniques in Condensed Matter Physics
6010-19 Special Topics in Condensed Matter Physics
6040 Biophysics
6060-69 Special Topics in Interdisciplinary Areas
6200 Nonlinear Dynamics
6308 Ocean Dynamics I
6309 Ocean Dynamics II
6310 Physical Oceanography
6313 Physical Fluid Dynamics
6314 Field Oceanography
6315 Polar Oceanography
6316 Ocean Measurements and Data Analysis
6317 Ocean Acoustics
6318 Numerical Modelling
School of Graduate Studies 2013-2014

6319 Climate Dynamics
6320 Turbulence
6321 Coastal Oceanography
6322 Stratified Fluids
6323 Stability Theory
6324 Models in Ocean Ecology
6360-69 (excluding 6363) Special Topics in Physical Oceanography
6363 Laboratory Experiments in Geophysical Fluid Dynamics
6400 Statistical Mechanics
6402 Theory of Phase Transitions
6403 Stochastic Processes, Time-Dependent and NonEquilibrium Statistical Mechanics
6502 Electrodymanics
6720 Theory of Molecules
6721 Molecular Spectroscopy
6722 Light Scattering Spectroscopy
6730 Molecular Theory of Liquids and Compressed Gases
6740 Physics of Atomic Collisions
6760-69 Special Topics in Atomic and Molecular Physics
6800 Group Theory
6810-19 Special Topics in Theoretical and Mathematical Physics
6850 Quantum Mechanics I
6851 Quantum Mechanics II
6900 Techniques in Experimental Condensed Matter Physics
6910-19 Special Topics in Experimental and Applied Physics

Table of Credit Restrictions - Physics and Physical Oceanography
(Credit may be obtained for only one course from each of the pairs of courses listed in this table.)

Members of the Department carry out research in several areas of experimental and theoretical physics, including atomic and molecular physics, condensed matter physics, physical oceanography, theoretical geophysics and applied nuclear physics. In atomic and molecular physics, there are experimental programs in collision-induced infrared absorption spectroscopy, electron emission spectroscopy of simple molecules, molecular ions and free radicals, laser-induced fluorescence spectroscopy, and Raman spectroscopy, and theoretical work on atomic and molecular collisions. The work in condensed matter physics includes experimental programs in solid state nuclear magnetic resonance on systems of biophysical interest, Raman spectroscopy of lipid bilayers and membranes, studies of phase transitions using Brillouin and Raman spectroscopy, studies of instabilities and pattern formation in simple fluid dynamical systems, and spectroscopic studies of molecular crystals. Theoretical condensed matter physics research involves studies of magnetism, superconductivity, and the statistical mechanics of polymers and lipid bilayers. The Physical Oceanography group carries out field and laboratory research on several projects which take advantage of Newfoundland’s unique oceanographic environment, using acoustic and other remote sensing techniques. These include studies of circulation on the Newfoundland and Labrador shelves, Labrador current dynamics, fjord dynamics, submarine canyons and sediment transport dynamics in the nearshore zone and on the shelf. Theoretical oceanographic studies involve the modelling of ocean circulation, gravity wave phenomena and other aspects of ocean dynamics. Research in theoretical geophysics is concentrated on whole-Earth dynamics, with special emphasis on the physics of the liquid core (the Earth’s “third ocean”) as inferred from its wave spectrum and the associated momentum transfer to the deformable solid parts of the Earth. In nuclear physics, research is done on the atmospheric concentrations of radioactive elements and on dosimetry for medical applications.

Note: For Geophysics, see Earth Sciences.

30.31 Psychology
Professor and Head of the Department
G. Martin

The Degree of Master of Science (M.Sc.) is offered in Experimental Psychology. Interested students should also see the Master of Science in Cognitive and Behavioural Ecology. The Degree of Doctor of Philosophy is offered in Experimental Psychology. Interested students may wish to consult the section in the Calendar describing the Doctor of Philosophy in Cognitive and Behavioural Ecology program.

30.31.1 Admission
1. All applicants are required to submit results from the General section of the Graduate Record Examinations.
2. At least one letter of reference should come from someone who is familiar with the applicant’s research capability.
30.31.2 Program of Study

1. An applicant must hold either a Master's Degree or an Honours Bachelor's Degree with first class standing to be considered for admission. The program of study will be specified at the time of admission. Decisions on (a) whether to include courses in the program, and if so, (b) which specific courses are to be included will be based on the student's background and the proposed thesis topic.

2. Comprehensive Examination

The Ph.D. comprehensive in Experimental Psychology shall be taken during the first year of the student's program. The examination will consist of two parts: (1) an essay, the topic of which is different from the subject of the thesis, and (2) an oral examination which tests the candidate's ability to integrate the essay into the broad area of Psychology. The essay topic will be assigned by the Examining Committee in consultation with the student and Supervisor. The essay should not be a précis of the literature, but a critical appraisal of a subject. This should identify important unresolved issues, and where possible suggest solutions to them.

30.31.3 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the Department will allow:

- 6000 Advanced Statistics in Psychology
- 6001 Research Design
- 6010 Colloquium Series in Psychology (repeatable, non-credit)
- 6100-6130 Special Topics in Experimental Psychology
- 6200 Learning I
- 6201 Learning II
- 6203 Behavioural Pharmacology
- 6210 Behavioural Analysis of Toxins
- 6351 Behavioural Ecology and Sociobiology (Cross-listed as CABE 6351)
- 6400 Theory and Methods in Social Psychology
- 6401 Social Cognition
- 6402 Group Processes
- 6403 Program Evaluation and Applied Research
- 6404 Project in Applied Social Psychology NOTE: This course is open only to students in the Master of Applied Social Psychology
- 6500 Developmental Psychology I
- 6501 Developmental Psychology II
- 6502 Developmental Changes During Old Age
- 6700 Perception
- 6710 Human Information Processing
- 6720 Human Memory
- 6800 Behavioural Neuroscience I
- 6801 Behavioural Neuroscience II
- 6810 Psychometrics
- 6910 Personality
- 6990 Doctoral Seminar I
- 6991 Doctoral Seminar II
- 6992 Doctoral Seminar in Cognitive and Behavioural Ecology (Cross-listed as CABE 6992)
- 699A/B Core Graduate Seminar in Psychology (3 credit hours).

30.32 Social Work

Professor and Dean Pro Tempore
D. Hardy-Cox

30.32.1 Program of Study

The degrees of Master of Social Work and Doctor of Philosophy are offered in Social Work.

Course work commences in the Spring Semester and is completed over five semesters. The program includes two Spring Semester residencies, at which time students must attend on a full-time basis, and Fall and Winter semester courses which can be taken on or away from campus.

1. An applicant for admission to the Ph.D. program in Social Work must hold a Master's Degree in social work, or equivalent professional social work Degree as determined by the Graduate Studies Committee of the School of Social Work. All applicants should also have a minimum of three years post-B.S.W. practice experience.

2. All Ph.D. students in the social work program must complete at least 24 credit hours in regulation graduate courses. These include:
   a. 6 credit hours in foundation courses (7010 and 7020)
   b. 6 credit hours in advanced practice courses (7310, 7320); or 3 credit hours in advanced practice courses (7310) and 3 credit hours on social work education (7510)
   c. 9 credit hours on research (7411, 7421 and 7431)
   d. 1 internship chosen from the Internships on Advanced Social Work Practice (7910), Social Work Education (7920) or Applied Social Work Research (7930).

3. Comprehensive Examination

a. A candidate registered in a Ph.D. program in Social Work shall normally take the Comprehensive Examination no later than the seventh semester in the program. Prior to proceeding to the Comprehensive Examination, candidates must have completed all required course work and the internship.

b. The Examination Committee shall be appointed by the Dean of Graduate Studies on the recommendation of the Dean (School of Social Work). It shall consist of:
   i. the Ph.D. Program Co-ordinator who will serve as representative of the Dean of the School of Social Work and who shall occupy the Chair
   ii. the candidate's Supervisor
   iii. the Dean of Graduate Studies or delegate
iv. three other members recommended by the Dean of the School of Social Work. One of these normally will be on the candidate's Supervisory Committee. 

Including the Supervisor, no more than two members of the Examination Committee may be nominated from the candidate's Supervisory Committee. All members of the Examination Committee, including the Chair, but excluding the Dean of Graduate Studies or delegate, shall be voting members.

c. The Ph.D. Comprehensive Examination in Social Work will consist of a written paper and an oral defence. In the paper, the student will contextualize her/his substantive area using theories that inform social work and develop a research design relevant to this substantive area. The student will demonstrate a contextualized and in-depth understanding of the philosophical and theoretical frameworks informing the student's substantive area, including major critiques from competing theoretical, philosophical and historical understandings. In addition, the paper will demonstrate a thorough understanding of relevant methodological considerations and a justification for the choices made within the research design. The student will identify an area of empirical research that may be undertaken and will prepare a written paper that includes: an introduction of the substantive area and a formulation of the research question; a literature review that is consistent with the question, and which both presents a critical evaluation of the theoretical and research literature and synthesizes this literature into the student's own theoretical framework; a research design for answering the research question, including a critical analysis of the chosen methodology as well as the methods of data collection, data analysis and ethical considerations. The focus and content of the written work will be defined by the Examination Committee in consultation with the student and will be approved by the Chair of the Ph.D. Program in the School of Social Work. The body of the paper will be no less than 50 pages and not more than 75 pages. It shall be defended orally. The student shall have 13 weeks to submit the paper for examination, following the comprehensive exam process approved by the Ph.D. Studies Committee.

d. The Ph.D. examination procedure shall be initiated by the candidate's Supervisor who will notify, in writing, the Dean (School of Social Work) of the candidate's readiness. The candidate's Examination Committee will then be appointed according to section 3b (above).

e. Following the oral defence, the Examination Committee shall meet in camera to arrive at its conclusions. Evaluation of the candidate will be based on the following criteria:
   i. demonstration of knowledge of social work theory, research, and issues relevant to the topic of inquiry in both the written and oral presentation.
   ii. coherency of oral presentation and written paper (i.e. conceptualization, cogent argumentation, sufficient referencing of statements, clear writing style).

f. The Chair shall report the results of the examination to the Dean of Graduate Studies in accordance with General Regulation Comprehensive Examinations, Ph.D. Comprehensive Examination, 4.

4. Ph.D. Thesis

a. A Supervisory Committee will be appointed for each student as indicated under the General Regulation Supervision.

b. The candidate must submit a thesis proposal to the Supervisory Committee based on her/his own interest, and normally the proposal must be approved by the end of the eighth semester of the program. The proposal will be circulated to the Supervisory Committee for critical evaluation. The Chairperson of the Supervisory Committee will inform the candidate within one month of its acceptance, rejection, or acceptance with recommended changes.

c. If the proposal is not acceptable, the candidate will normally be permitted a second attempt. The revised proposal must be submitted within a semester. Failure to resubmit within this time period will lead to termination of the candidate's program.

d. The thesis shall give evidence of the candidate's ability to carry out independent and original research, develop the necessary theoretical and methodological framework and analyses, and present the findings in a scholarly manner.

30.32.2 Courses

The following courses that are offered during the spring semester residency will be offered every other year, as far as the resources of the School will allow:

- 7010 Philosophical and Historical Base of Social Work Practice (S*)
- 7020 Critical Thinking for Social Work Practice (S)
- 7310 Tutorial on Field Practice (F** or W***)
- 7320 Tutorial in Advanced Social Work Practice (S)
- 7411 Philosophy of Science and Research Design (S)
- 7421 Qualitative Data Analysis (S)
- 7431 Quantitative Data Analysis (S)
- 7510 Social Work Education (S)
- 7910 Internship on Advanced Social Work Practice (F)
- 7920 Internship on Social Work Education (F)
- 7930 Internship on Applied Social Work Research (F)

*S = Spring Semester, **F = Fall Semester, ***W = Winter Semester

30.33 Sociology

Associate Professor and Head of the Department

K. Stanbridge

The Doctor of Philosophy (Ph.D.) is offered in Sociology by full-time and part-time study. Graduate courses are taught as tutorials or small seminars.

30.33.1 Program of Study

1. The Ph.D. degree in Sociology is offered in accordance with General Regulations and current department strengths.

2. To be admitted to the program an applicant must have completed either a Master of Arts or Master of Philosophy Degree or hold an equivalent qualification.

3. All Ph.D. candidates must complete a minimum of 6 credit hours in graduate courses in sociology, including Sociology 6150 Social Theory and Sociology 6040 Methods of Sociological Research, if these or equivalent courses have not been taken previously. The supervisory committee in consultation with the Head or Graduate Officer will determine which additional courses, if any, may be required to ensure that candidates undertake appropriate course work in their area of research.
4. Proficiency in a second language will be required when the candidate’s supervisory committee determines that knowledge of this second language is necessary for the purpose of the proposed doctoral research.

5. A written comprehensive examination, which may be followed by a supplementary oral examination, shall be completed by full-time students no later than the end of the second year of the program.

Normally, part-time students shall take the examination within one year of the completion of prescribed courses. In accordance with General Regulations, candidates must demonstrate knowledge of their special areas of research within the context of the discipline of Sociology. The examination shall consist of three parts: social theory, research methods, and a special area.

6. No more than two years after having been admitted to the program the candidate must submit a thesis proposal that is considered satisfactory by the Supervisory Committee.

30.33.2 Courses
A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the Department will allow:

- 6040 Methods of Sociological Research
- 6041-6049 Special Topics in Advanced Sociology
- 6090-94 Special Area in Sociology
- 6120 Social Organization
- 6130 Social Stratification
- 6140 The Community
- 6150 Social Theory
- 6160 Theory Construction and Explanation in Sociology
- 6240 Sociology in Medicine
- 6280 Social and Economic Development
- 6300 Maritime Sociology
- 6310 Political Sociology
- 6320 Gender and Society
- 6330 Science and Technology
- 6340 Comparative North Atlantic Societies
- 6350 Environmental Sociology
- 6360 Sociology of Work
- 6370 Feminist Theory and Methods
- 6380 Women, Nature, Science and Technology (cross-listed as Women’s Studies 6380)
- 6390 Sociology of Culture
- 6610 Socialization
- 6620 Current Topics in Social Behaviour
- 6880 Sociology Graduate Seminar

30.34 Theoretical Physics
Board of Studies
Dr. I. Booth, Department of Mathematics and Statistics - Chair
Dr. C. Radford, Department of Mathematics and Statistics
Dr. J. Whitehead, Department of Physics and Physical Oceanography
Dr. I. Afanassiev, Department of Physics and Physical Oceanography

30.34.1 General Information
1. The Theoretical Physics Program is an interdisciplinary Doctor of Philosophy program offered jointly by the Department of Mathematics and Statistics and the Department of Physics and Physical Oceanography. It is broadly based and includes several subdisciplines with the common denominator that each applies advanced mathematical techniques to the study of physical problems. The subdisciplines include, though are not necessarily limited to, theoretical astrophysics, general relativity, partial differential equations of mathematical physics, quantum mechanics, classical and quantum field theory, theoretical condensed matter physics, many-body theory, advanced classical mechanics and non-linear processes, and theoretical and geophysical fluid mechanics.

2. The program is administered by the Board of Studies which is appointed by the Dean of Science in consultation with those faculty members active in the program. The Board of Studies will consist of two members from the Department of Physics and Physical Oceanography and two members from the Department of Mathematics and Statistics. The Program Chair is elected by the Board of Studies and appointed by the Dean of Science. Responsibilities of the Board include making recommendations to the School of Graduate Studies concerning admissions to the program, determining course requirements, and administering comprehensive exams. It also determines minimum levels of funding, administers the School of Graduate Studies and Graduate Teaching Assistant budgets, and monitors students’ annual progress through the submission of annual supervisory committee reports.

30.34.2 Program of Study
The following regulations should be read in conjunction with the General Regulations:

1. A program of study for the Ph.D. Degree in Theoretical Physics shall normally include a minimum of 9 graduate credit hours in courses offered by the Department of Mathematics and Statistics and/or the Department of Physics and Physical Oceanography. The courses will be determined by the student’s supervisory committee in consultation with the Program Chair and approved by the Board of Studies. In special circumstances more or fewer graduate courses and/or undergraduate courses may be required.

2. Students are required to pass a single Comprehensive Examination as prescribed under Comprehensive Examinations, Ph.D. Comprehensive Examination. This shall be an oral one, and may include the presentation of a written research proposal.

3. The most important requirement is the writing of a doctoral thesis which demonstrates the student’s ability to independently and originally attack and solve a significant problem in theoretical physics. The thesis must definitively advance the subject which it treats.
31 Regulations Governing the Degree of Doctor of Psychology

Administrative Committee
Dr. K. Hadden, Department of Psychology - Director
Dr. C. Arlett, Department of Psychology
Ms. P. Button, Graduate Student Representative
Ms. B. Cater, Eastern Health
Dr. O. Heath, University Counselling Centre
Dr. G. Hurley, University Counselling Centre
Dr. J. Spiegel, Association of Newfoundland Psychologists

The Doctor of Psychology (Psy.D.) degree in clinical psychology is offered by the Department of Psychology in partnership with the University Counselling Centre. This program is designed to prepare clinical psychologists to provide a variety of psychological services to individuals, families and communities.

31.1 Administration
1. The Director is appointed by the Head of the Psychology Department following a consultative process that includes the faculty most directly associated with the Psy.D. program.
2. The Psy.D. Administrative Committee consists of the Director, representatives from academic units involved in the program, and a representative from the Association of Newfoundland Psychologists. The Psychology Department Head, on the recommendation of the Director, appoints Committee members.
3. The Psy.D. Administrative Committee is chaired by the Director, and is the main body for developing and monitoring policy, procedures, and program content. The administrative committee makes recommendations concerning admission and termination, financial support, thesis and comprehensive committees, and thesis topics and examiners. The Committee oversees individual student programs of study and monitors their annual progress.

31.2 Admission Criteria
1. Students with Master's level degrees who wish to be considered for the program must have completed the undergraduate degree in Psychology and the undergraduate course requirements described below.
2. Applicants are required to have an undergraduate Honours degree in psychology that includes senior courses in each of the following areas: biological bases of behaviour, cognitive-affective bases of behaviour, social bases of behaviour, individual behaviour, and historical foundations of psychology, as well as an Honour's thesis. Students will only be admitted on a full-time basis and must start their program in the Fall semester.
3. Admission to the program is competitive. Applicants will be ranked according to academic aptitude, personal and interpersonal competence, clinical and professional potential, and availability of a supervisor. The application shall include academic transcripts, results of the Graduate Record Examination (verbal, quantitative and analytical subtests), three letters of recommendation and a statement of interests and objectives. One letter of recommendation must specifically address the suitability of the applicant for clinical work. Applicants who are short-listed will be interviewed, either in person or via telephone. Work experience, research experience, extra-curricular activities, and clinically relevant public service will be taken into consideration.

31.3 Program of Study
31.3.1 Comprehensive Examination
The Psy.D. comprehensive exam, consisting of a written and an oral component, shall be taken during the third year of the program. The exam is intended to demonstrate clinical application of the knowledge acquired through course work and practica. The comprehensive exam will be administered according to the guidelines prescribed in the University Calendar for Ph.D. comprehensive examinations.

31.3.2 Thesis
Students will complete a thesis that is applied in nature and relevant to the practice and science of clinical psychology and the communities it serves. The School of Graduate Studies General Regulations, Evaluation of Ph.D. and Psy.D. Theses concerning evaluation of Ph.D. theses will be followed.

31.3.3 Predoctoral Internship
All students will be required to complete a twelve-month, 1750 clock-hour predoctoral internship.
### Table I - Doctor of Psychology (Psy.D.) Degree Program

| Year 1 | Fall Semester | Psychology 6000 Advanced Statistics  
| Year 1 | Winter Semester | Psychology 6001 Research Design  
| Year 1 | Spring Semester | Psychology 7021 Practicum in Clinical Assessment and Diagnosis  
| Year 2 | Fall Semester | Psychology 6602 Research Design in Clinical Psychology  
| Year 2 | Winter Semester | Psychology 6631 Principles of Intervention with Children  
| Year 2 | Spring Semester | Psychology 7032 Practicum in Community Intervention and Interprofessional Practice  
| Year 3 | Fall Semester | Psychology 6633 Clinical Psychopharmacology  
| Year 3 | Winter Semester | Clinical Elective  
| Year 3 | Spring Semester | Psychology 7035 Practicum in Rural Intervention and Interprofessional Practice  
| Year 4 | | Predoctoral Internship  

### 31.4 Courses

- 6000 Advanced Statistics  
- 6001 Research Design  
- 6602 Research Design in Clinical Psychology  
- 6610 Principles of Effective Relationships  
- 6611 Ethics of Professional Practice  
- 6612 Adult Psychopathology  
- 6613 Child Psychopathology  
- 6614 Selected Topics in Psychopathology  
- 6620 Principles of Adult Assessment and Diagnosis  
- 6621 Principles of Child Assessment and Diagnosis  
- 6622 Selected Topics in Assessment and Diagnosis  
- 6630 Principles of Intervention with Adults  
- 6631 Principles of Intervention with Children  
- 6632 Community Interventions  
- 6633 Clinical Psychopharmacology  
- 6634 Selected Topics in Intervention  
- 6640 Consultation Processes  
- 6650 Supervision  
- 6660-6669 Special Topics in Clinical Psychology  
- 7010 Practicum in Ethics and Relationship Skills  
- 7020 Practicum in Assessment and Diagnosis  
- 7021 Practicum in Clinical Assessment and Diagnosis  
- 7030 Practicum in Assessment and Intervention I  
- 7031 Practicum in Assessment and Intervention II  
- 7032 Practicum in Community Intervention and Interprofessional Practice  
- 7033 Practicum in Advanced Assessment and Intervention I  
- 7034 Practicum in Advanced Assessment and Intervention II  
- 7035 Practicum in Rural Intervention and Interprofessional Practice  
- 7050 Practicum in Supervision I  
- 7051 Practicum in Supervision II

1 The Memorial University of Newfoundland Code

The attention of all members of the University Community is drawn to the section of the University Calendar titled The Memorial University of Newfoundland Code, which articulates the University's commitment to maintaining the highest standards of academic integrity.

2 General Information

Various types of awards are available to students of Memorial University of Newfoundland. Included are scholarships, bursaries, fellowships, studentships, prizes, medals and loans.

A scholarship is based on academic performance and is awarded to the student with the highest average meeting the conditions of the scholarship. Scholarship standing is required for all scholarships.

A bursary is based primarily on financial need and may be awarded to full-time students who have a minimum GPA of 2 (out of a possible 4) and meet the other conditions of the bursary.

An award is offered to recognize special achievements or to assist with special projects or travel. Awards may be given to students with a minimum of clear standing (as defined by the University) and meeting the other conditions of the award.

A grant is an award for which need is a prime consideration, normally with the provision that the recipient be, or remain, in good academic standing. Grants are issued at the discretion of the Director of Student Success Programs, Student Affairs and Services.

Loans are granted to students on an “ad hoc” basis with need being the prime consideration. Loans are normally repaid before the commencement of subsequent semester. Interest is charged on outstanding loans. Administration of loans is at the discretion of the Director of Student Success Programs, Student Affairs and Services.

Some scholarships and awards may be held for more than one year, but are usually renewable only if the student maintains scholarship standing and first class standing.

Entrance scholarships are awarded for the Fall semester.

Unless otherwise noted, entrance scholarships are open to Canadian citizens and permanent residents graduating from secondary school who are admitted to Memorial University of Newfoundland on the basis of high school grades and current entrance standards and who meet the current definition of scholarship standing. They are also open to students in the above category who may not be coming directly from high school. This is limited to those who have previously graduated from high school, are admitted to the University on the basis of high school grades and current entrance standards and who meet the current definition of scholarship standing.

Distinct undergraduate entrance scholarships are available for international students. These scholarships are awarded to international undergraduate students who are entering Memorial University of Newfoundland. They are academic based, and the monetary value is between $3000 and $4400. Students do not need to apply for these scholarships; they are automatically considered when they apply to the University. These scholarships have been established by Memorial University of Newfoundland as part of an agreement by the Board of Regents, in May 2003, that a portion of the tuition fees for international undergraduate students would be set aside for International Scholarships. To be considered for these scholarships, a student must meet the following eligibility requirements:

- be enrolled in the first year of an undergraduate degree program
- have a minimum GPA of 2.5 on the last 60 credits completed
- be an international student

International Students are eligible for entering undergraduate scholarships offered through Memorial University of Newfoundland assuming they meet the specific criteria. Most scholarships are renewable if the student maintains scholarship standing. See definition of scholarship standing below.

Scholarship standing for undergraduate entrance students (who are Canadian citizens or permanent residents graduating from secondary schools within Canada) is defined as a 75% average compiled from the final grades received in secondary school courses required for University admission. Students in level three who, have a 90% or higher average on 3000 level credits from the list of courses covered under UNIVERSITY REGULATIONS - Admission/Readmission to the University (Undergraduate), Applicants Who Have Followed the High School Curriculum of the Newfoundland and Labrador, may be provisionally offered scholarships.

Students graduating from High Schools in other provinces in Canada may be eligible based on corresponding criteria from their provincial secondary program. The provisional offer will remain in effect until University admission averages are determined.

Scholarship standing for undergraduate students is defined as a 75% average at the end of two of the last three semesters in the previous scholarship year and the successful completion of not less than 30 credit hours in those two semesters. In considering students who complete more than 30 credit hours in those two semesters, the average on the actual number of credit hours taken will be reviewed. Students who fail one or more courses during the scholarship year, regardless of the number of courses completed, will not be eligible for scholarships.

For Co-op students who do not meet the above definition because of scheduled work terms, scholarship standing is defined as a 75% average over the most recent two academic semesters in the preceding four semesters in which they must have been enrolled as regular full-time Co-op students. Those who fail an academic course or work term during the four semester period will not be eligible for scholarships.

Not all students who meet the above definitions of scholarship standing will receive a scholarship.

Students transferring to Memorial University of Newfoundland from Universities/Colleges in Canada which are members of the Association of Universities and Colleges of Canada (AUCC) and who meet scholarship standing as defined by Memorial University of Newfoundland will be eligible for undergraduate scholarships in the year in which they transfer. Such students must notify the Scholarships, Bursaries and Awards Office in writing of their intention to transfer and provide a complete transcript for the year in question.

Awards must be taken during the scholarship year for which they are awarded and the student must be registered full-time or in a recognized work term in order to receive their scholarship, unless stated otherwise in the terms of reference. The scholarship year runs...
A student may receive in any one scholarship year one general award of any value administered by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, or more than one award, to a combined value of 1.5 times the per semester tuition for 15 credit hours. In addition, students may receive, upon recommendation of the appropriate academic unit, awards administered by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards such that the total of general and academic unit specific awards does not exceed three times the per semester tuition for 15 credit hours.

Students who have obtained scholarship standing as defined above need not apply for general scholarships. Inquiries from students with special circumstances and/or concerning scholarships with special terms should be referred to the Scholarships, Bursaries and Awards Office, University Centre, Room 4018, or by telephone to (709) 864-3956.

Students attending the Grenfell Campus in Corner Brook are eligible for all General Scholarships. Scholarship inquiries may be made at the Student Affairs Office, Grenfell Campus or the Scholarships, Bursaries and Awards Office.

Students wishing to apply for awards administered by other authorities should consult the appropriate section of the Scholarships, Bursaries and Awards portion of the Calendar and/or the Scholarships, Bursaries and Awards Office.

Information on these and other post-secondary scholarships, awards, and bursaries is available at www.mun.ca/scholarships.

In addition to undergraduate awards listed herein, limited information is included concerning Studentships, Fellowships and Graduate Awards. Further inquiries may be made to the Scholarship Committee, though students are advised to consult the Heads of the Departments, the Dean of the Faculty or the Dean of Graduate Studies concerning these particular awards.

2.1 Government Assistance

The Government of Canada and the Government of Newfoundland and Labrador work together to provide student financial assistance to residents of the Province. Students who have a demonstrated financial need may, upon application, receive financial support from the Canada-Newfoundland and Labrador Student Financial Assistance Program. Students are encouraged to apply online at www.gov.nl.ca/studentaid/ and to apply early. For further information see Loan Funds.

3 Scholarships, Bursaries, and Awards Administered By the Senate Committee on Undergraduate Scholarships, Bursaries and Awards for Which Entrance Students May Qualify

Anthony Insurance Entrance Scholarship

This scholarship is the result of a generous endowment to Memorial University of Newfoundland by Anthony Insurance in memory of Robert C. Anthony B founder of Anthony Insurance Inc. and the Insurance Corporation of Newfoundland. Mr. Anthony, an inductee of the Newfoundland and Labrador Business Hall of Fame, started his career as a teacher in rural Newfoundland and placed great emphasis on the value of education. The scholarship is intended to help a deserving, high-school graduate attend Memorial University of Newfoundland who would otherwise find it difficult due to financial considerations. The value of the scholarship is full-time tuition for one semester. Eligible candidates must have graduated from a Newfoundland and Labrador high school with a minimum of 75% in Level III courses and must intend to enroll at Memorial University of Newfoundland on a full-time basis. Additional scholarships may be awarded annually as endowment fund growth permits. These scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

The Arnold’s Cove, Come By Chance, North Harbour Fishers and Newfoundland Transshipment Scholarship

This scholarship was established by Newfoundland Transshipment Limited (NTL) as part of an agreement between them and the Fishers Liaison Committee (FLC) of the Arnold’s Cove, Come By Chance and the North Harbour area. This scholarship, valued at the annual interest on the initial endowment to a maximum of $500 per student, will be awarded to a Fisher or his/her descendant(s) who is registered as a full-time student at Memorial University of Newfoundland in any year or field of study. In the event that no applications are received from Fishers or Fishers’ descendants in a given year, the scholarship may be awarded to another student from above noted geographic areas. Eligibility of applicants under the above criteria will be verified by the Fishers Liaison Committee (FLC). Memorial University of Newfoundland is encouraged to ensure that the scholarship is alternated between communities and eligible students. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of an application which may be obtained from the Scholarships, Bursaries and Awards Office, Rm. 4018, Smallwood Centre, Memorial University of Newfoundland, A1B 5S7. Completed applications must be returned to the FLC for appropriate verification.

The Atlantic Canada Marine Biodiversity Essay Contest Tuition Scholarship

Memorial University of Newfoundland is a participant in the Atlantic Canada Marine Biodiversity Essay Contest which is operated by the Centre for Marine Biodiversity. This contest is open to Grade 12 students from across Atlantic Canada. The first prize winner receives a waiver of tuition fees for two semesters if he or she attends Memorial University of Newfoundland. The two runners up receive partial waivers of tuition fees if they attend the university. Students are notified of their status in the Essay Contest by the Centre for Marine Biodiversity and the successful candidates are informed of their tuition scholarship by the university, after the Centre for Marine Biodiversity informs the university of the contest winners. Further information can be found on the web site of the Centre www.marinebiodiversity.ca. The scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on a recommendation from the Dean, Faculty of Science.

The Mary L. (Mollie) and Peter T. Bailey Memorial Scholarship

This scholarship, donated by the family of the late Mary L. (Mollie) and Peter T. Bailey, has a value of at least $500.00. It is open to students entering first-year studies who are required to move away from home to attend Memorial University of Newfoundland. In making the award, scholarship standing and need will be considered.

Leah Bailey Powers Memorial Scholarship

This entrance scholarship was created in loving memory of Leah Bailey Powers who passed away in 2009 at the age of nineteen. Leah excelled academically and was an energetic and spirited student leader. As Student Council President of Holy Heart of Mary Regional High, she inspired and motivated her peers to become active in their school community. Leah’s leadership activities continued in her first year at Memorial University where she became a passionate and dedicated volunteer to promote social justice with Engineers Without Borders. This scholarship will be valued at a portion of the income on the endowment and will be awarded annually. This scholarship will be given to a student graduating from Holy Heart of Mary Regional High in St. John’s who is entering his/her first year of studies in any discipline at Memorial University of Newfoundland. This scholarship may be held in addition to other scholarships and will be awarded only to applicants who embody the same spirited and enthusiastic leadership qualities that Leah demonstrated in motivating and inspiring inclusiveness in student and community activities and organizations, as nominated by Holy Heart of Mary Regional High. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of Holy Heart of Mary Regional High.
The Baird-Stephenson Scholarship
This scholarship, valued at $1,000.00 is to be awarded annually to a Memorial University of Newfoundland student in any year or field of study. It is named for Mrs. Edna Baird-Stephenson and her late husband, both of whom were former members of Memorial University of Newfoundland's faculty. The Scholarship will be awarded on the basis of academic excellence.

The Warren and Catherine Ball Memorial Entrance Scholarship
This scholarship was established in 2005 by a generous donation from the estate of Dr. and Mrs. Ball. The endowment will provide scholarships at the value of $7,500.00 per annum for up to four years of study to students entering Memorial University of Newfoundland for the first time. The number of the annual scholarships will be based on the portion of the annual income, as per the Awards Program Spending Policy. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing.

The Donald M. Balsom Award
The Newfoundland Brain Injury Association (NBJA) has established this award to honour Donald M. Balsom, former Associate Director of Memorial University of Newfoundland's School of Continuing Education and brain injury survivor. Valued at $500.00, it will be awarded annually to a brain injured undergraduate student who is registered either part-time or full-time, in any year or field of study at Memorial University of Newfoundland, who has some volunteer experience with the NBJA and who is in clear academic standing at the University. In the event that no applications are received from brain injured students the award may be given to a student who has made a significant contribution as a volunteer to the Brain Injured Association. In special circumstances, the award may be held for more than one year. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards in consultation with NBJA as needed.

Bank of Montreal Scholarship
These scholarships are the result of a generous endowment to Memorial University of Newfoundland by the Bank of Montreal. Interest on the fund will provide several scholarships to full-time students entering Memorial University of Newfoundland in any field of study who have scholarship standing and demonstrated financial need. These scholarships will be valued at two semesters tuition for five courses. They are renewable for up to four years provided the candidate(s) maintains first class and scholarship standing.

The Glenn Roy Blundon Memorial Scholarship
This scholarship, valued at $500.00, has been established by the family, friends and fellow students of the late Glenn Roy Blundon, a former student of Memorial University of Newfoundland who, despite his severe physical disability, succeeded in his studies and made a significant contribution to student life. In the awarding of this scholarship, preference will be given to academically qualified students with disabilities but those enrolled in the Special Education Program may be considered when no candidates are available from the first group. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships.

The Jo Anne Butler Entrance Scholarship
This scholarship has been made available to the Memorial University Of Newfoundland, through the generosity of Fairfax Financial Holdings Limited in honour of Jo Anne Butler. This scholarship will be awarded annually to an undergraduate student entering the first year of an academic program at Memorial University of Newfoundland. It will be valued at $5,000.00 per year. Eligible students must be Canadian citizens or permanent residents, graduating from a Canadian secondary school or CEGEP, who demonstrate financial need and have achieved a minimum final admission average of 80%. Outstanding achievements or commitments in community and/or other extra curricular activities may also be considered. The scholarship is renewable for up to four additional years if scholarship standing is maintained. Renewal will also be dependent on continuation of full-time enrolment in the undergraduate program in which the recipient began and he/she must not already have received a degree. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

Calgary Affinity Dinner Entrance Scholarship
This scholarship was established by the Calgary Affinity Dinner Committee from proceeds of the annual Calgary Affinity Dinner. One or more scholarships, valued at a portion of the income on the endowment, will be awarded annually to students who meet the minimum academic requirements for an entrance scholarship as defined by the University. The scholarship will be administered by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

The Greg Campbell Memorial Entrance Scholarship
These scholarships are the result of a generous donation by Eleanor Swanson to commemorate the memory of her late husband, J. Gregory Campbell. Interest on the fund will provide two scholarships to full time undergraduate students entering first year of any faculty or school at Memorial University of Newfoundland. The scholarships will be awarded on the basis of scholarship standing and financial need.

The William Campbell Memorial Alumni Scholarship
This scholarship, valued at a portion of the income on the investment, will be awarded annually to a student entering any first year program offered at Memorial University of Newfoundland. The recipient must be a graduate of Menihek High School. If the selected candidate, as part of the College Transfer Program at the Labrador West Campus of the College of the North Atlantic, the scholarship may be deferred for one year on the condition that the student enters Memorial University of Newfoundland the following year. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on scholarship standing as defined by the University.

The William J. and Florence Carew Labrador Student Scholarship/Bursary
A Scholarship/Bursary, established in 1975 by Miss Helen F. Carew, was renamed in 1990 in memory of her parents William J. and Florence Carew and is valued at $600.00 annually. The award shall be made to a student from Labrador entering Memorial University of Newfoundland. In making the award, need as well as academic standing, will be considered.

The Daniel Cleary Entrance Scholarship
Daniel Cleary is a native of Harbour Grace, NL and a NHL hockey player who played with the Detroit Red Wings when they won the Stanley Cup in 2008. Mr. Cleary is the first resident of the province to have played on a Stanley Cup winning team. The Daniel Cleary
Entrance Scholarship is established as the result of funds raised from an event, and sale of merchandise, celebrating Mr. Cleary and the Red Wings’ victory. The scholarship will be awarded annually to an entering full-time undergraduate male or female student in any program of study at Memorial University of Newfoundland. To be eligible, candidates must demonstrate scholarship standing and have participated in the highest level of minor hockey in Newfoundland and Labrador in their graduating year. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships. The scholarship is valued at a portion of the income on the endowment or $1,000, whichever is greater, and will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

Coinamatic Residence Award
The Coinamatic Residence Award is valued at $1,000.00 annually. The award will be given to a student currently residing in University residence (Winter semester) who also lived in residence the previous Fall semester and who has shown exceptional leadership in raising environmental awareness and in participation in environmental projects and activities. The recipient must have a minimum of a 70% cumulative average, be in clear academic standing and must be nominated for the award. Students may nominate themselves or may be nominated by another student or a member of Housing, Food and Conference Services staff. The Award will be conferred by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on the recommendation of the Director of Housing, Food and Conference Services in consultation with the Manager of Residence Life.

Construction Labour Relations Association of Newfoundland and Labrador Inc. (CLRA) Scholarship
These five scholarships, valued at $1,000 each, were established through a donation from the Construction Labour Relations Association of Newfoundland and Labrador (CLRA). Three of the five scholarships are entrance scholarships and two scholarships will be available to full-time students in any year of any program. They will be available to dependents (sons, daughters or wards), of employees of CLRA member companies. Students must complete an application form provided by CLRA. Based on scholarship standing, it will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

The Clayton and Alice Cook Scholarship
This scholarship has been established by Mr. Clayton D. Cook, retired Newfoundland/CN Railway Trainman. The scholarship will be valued at a portion of the income on the endowment and awarded annually. To be eligible, candidates must be enrolled full-time in an undergraduate program at Memorial University of Newfoundland, be residents of Newfoundland and Labrador (as defined by the University) and have scholarship standing. First preference will be given to candidates who are sons, daughters, grandchildren, great-grandchildren or wards of the Newfoundland/CN Railway Trainmen. When an eligible student meeting these criteria cannot be identified, second preference will be given to students enrolled in the Newfoundland Studies program. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

Country Ribbon Scholarship
This scholarship is available to dependants (sons, daughters or wards) of employees of Country Ribbon. Valued at $1,000.00 annually it will be awarded, with first preference, to an entrance student registered for full-time studies at Memorial University of Newfoundland. If no suitable candidate can be identified from the first group the scholarship may be awarded to an undergraduate student registered for full-time studies at Memorial University of Newfoundland. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships. Based on scholarship standing it will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

The Courage Entrance Bursary
This bursary was established in honour of John and Mary Courage. Valued at a portion of the income on the investment, it will be awarded annually to the undergraduate entrance student who has demonstrated financial need. The recipient must be from the Fortune Bay - Hermitage area and can be enrolled in any field of study. However, if there is no student from that area of Newfoundland, then it will go to a student from rural Newfoundland and Labrador, which includes: Avalon East and West, Carbonear, Clarenville (North and South), Springdale, Deer Lake, Stephenville, Channel/Port aux Basques, Northern Peninsula and Labrador (with the exception of Goose Bay, Labrador City, and Churchill Falls - Wabush). The recipient must meet the minimum academic requirements for an entrance bursary as outlined by the University. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

The Dr. Clarence B. Crumney Memorial Entrance Scholarship
This scholarship is in memory of the late Dr. Clarence Crumney, Jubilee Scholar of the first graduating class of Memorial University College 1927. It is valued at a minimum of $1,000.00 annually and will be awarded to an entering student to Memorial University of Newfoundland from the Bonavista Bay area. It will be awarded based on scholarship standing.

The Reverend Doctor Levi Curtis Bursary
This bursary has a value of at least $200.00 and is awarded each year to a student who is a candidate for the ministry of the United Church, a child of a minister of the United Church, or the child of a needy United Churchman. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships. Based on scholarship standing it will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

The Charlotte Penwell Dolimount Memorial Scholarship
This scholarship is available at $5,000, and is provided via a contribution to Memorial University of Newfoundland by Mr. Darryl Fry. It will be awarded on the basis of scholarship standing to graduates of high schools in Grand Bank and Fortune. Where possible preference will be given to students planning to do a Bachelor of Education at Memorial University of Newfoundland.

The Fraser Edison Scholarship
This scholarship is the result of a donation to the Opportunity Fund in 1999 by Mr. Fraser Edison. It will be valued at the annual interest on the endowment and will be awarded to an undergraduate student who has a recognized physical disability. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships.

The Facilities Management Undergraduate Scholarship
This scholarship fund is the result of an endowment which began in 1996 as a part of the Opportunity Fund Campaign. The fund will provide one or more scholarships valued at a minimum of $500 each to students who are children, grandchildren, nieces, nephews, brothers, sisters or spouses of current or retired employees of the Department of Facilities Management, Memorial University of Newfoundland. Preference in awarding the scholarship(s) will be given to entrance students but undergraduates may also qualify. The scholarship(s) will be awarded on the basis of scholarship standing but in the case of ties between candidates, need may be used as a determining factor. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships.

The Fairfax Financial Holdings Limited Entrance Scholarship
This scholarship has been made available to Memorial University of Newfoundland through the generosity of Fairfax Financial Holdings Limited. Valued at $5000 annually, this renewable scholarship will be awarded annually to an undergraduate student entering the first year of any academic program at Memorial University of Newfoundland. Eligible students must be Canadian citizens or permanent residents, graduating from a Canadian secondary school or CEGEP, who demonstrate financial need and who have met the minimum
academic standing for a scholarship. They must not have previously received a scholarship from Fairfax Financial Holdings. Outstanding achievements or commitments in community and/or other extracurricular activities may also be considered. The scholarship is renewable for up to four additional years if scholarship standing is maintained and the student continues full-time enrolment in the undergraduate program in which they began. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

Financial and Administrative Services Entrance Scholarship
This entrance scholarship was established by the Department of Financial and Administrative Services from the proceeds of an ongoing campus cleaning initiative. The scholarship is awarded to graduates of Newfoundland and Labrador who plan to study at Memorial University of Newfoundland. Valued at $500, the scholarship will be awarded annually to five students who are Newfoundland and Labrador residents and who have demonstrated their commitment to maintaining campus cleanliness.

Flight 491 Legacy Fund Scholarship
The Flight 491 Legacy Fund Scholarship is awarded annually to one or more students graduating from high school in St. John's. The scholarship is valued at $1,000 and is provided in memory of the victims of the crash of helicopter Flight 491 on March 12, 2009. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

Fry Family Foundation St. John Bosco Scholarship
This scholarship was established by the Fry Family Foundation, a U.S.-based organization, founded and funded by Darryl and Marlene Fry, who were born and educated in St. John's, Newfoundland and Labrador. Valued at $5,000, one or more scholarships will be awarded annually to students graduating from high school in Glovertown, Eastport, or one at the Grenfell Campus at Corner Brook. The scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

Fry Family Foundation St. John's Community Centres Exceptional Achievement Entrance Scholarship
This scholarship was established by the Fry Family Foundation, a U.S.-based organization, founded and funded by Darryl and Marlene Fry, who were born and educated in St. John's, Newfoundland and Labrador. Valued at $5,000, one or more scholarships will be awarded annually to students graduating from high school in Glovertown. The scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

Glovertown Busman's Bursary
This bursary is provided from the Fry Family Foundation to St. John's residents who plan to attend the Marine Institute. The bursary is valued at $1,000 and is awarded annually to one or more students graduating from high school in Glovertown or Eastport. The scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

The Daniel Fraad Jr. Memorial Entrance Scholarship
This scholarship was established by Jack and Susan Rudin in memory of Mr. Fraad who ran Allied Aviation at Gander International Airport for many years before his death. Valued at a minimum of $3,000, it will be awarded annually to an entrance student(s) on the basis of academic standing.

The Dr. G.A. Frecker Memorial Fund Scholarship
This scholarship was established by the late Dr. G.A. Frecker, Chancellor, Memorial University of Newfoundland, 1971-79. Four of the bursaries are renewable for up to four additional years if scholarship standing is maintained and the student continues full-time enrolment in the Fisheries and Marine Institute of Newfoundland, Memorial University of Newfoundland generally, or specifically that applicants have maintained an overall average of 90% or more at mid-term. The applicant must plan to enroll in first year studies at the Fisheries and Marine Institute of Memorial University of Newfoundland, Memorial University of Newfoundland generally, or the College of the North Atlantic. Applicants will be accepted by the executive directors of the respective St. John's Community Centres and the recipients chosen by a Selection Committee comprised of representatives from Memorial University of Newfoundland, the Marine Institute, the College of the North Atlantic, the Fry Family Foundation and the five executive directors of the St. John's Community Centres. The number of scholarships awarded annually at Memorial University of Newfoundland will depend on the application pool. The scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

The Dr. G.A. Frecker Memorial Alumni Bursaries
Memorial University of Newfoundland Alumni Association has established, from its Annual Fund, five bursaries named in honour of the late Dr. G.A. Frecker, Chancellor, Memorial University of Newfoundland, 1971-79, and valued at $250.00 each. Four of the bursaries are renewable for up to four additional years if scholarship standing is maintained and the student continues full-time enrolment in the Fisheries and Marine Institute of Newfoundland, Memorial University of Newfoundland generally, or specifically that applicants have maintained an overall average of 90% or more at mid-term. The applicant must plan to enroll in first year studies at the Fisheries and Marine Institute of Memorial University of Newfoundland, Memorial University of Newfoundland generally, or the College of the North Atlantic. Applicants will be accepted by the executive directors of the respective St. John's Community Centres and the recipients chosen by a Selection Committee comprised of representatives from Memorial University of Newfoundland, the Marine Institute, the College of the North Atlantic, the Fry Family Foundation and the five executive directors of the St. John's Community Centres. The number of scholarships awarded annually at Memorial University of Newfoundland will depend on the application pool. The scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

The Clarice Diamond Fry Memorial Scholarship
This scholarship is valued at $5,000, and is provided through a contribution to Memorial University of Newfoundland by Mr. Darryl Fry. It will be awarded on the basis of scholarship standing to graduates of high schools in Glovertown and Eastport. However, preference will be given to students who are residents of Glovertown. Where possible preference will be given to students planning to do a Bachelor of Education degree at Memorial University of Newfoundland.

(nee Sellars) Fry, who were born and educated in St. John’s, Newfoundland and Labrador. Valued at $2,500, the scholarships will be awarded annually, one to each of the five St. John’s Community Centres (Froude Avenue, Buckmaster’s Circle, MacMorrán, Rabbittown and Virginia Park). Eligible candidates will be single parents, or students graduating from Grade 12, who live in the area served by the respective Community Centre. Selection will be based on scholarship standing, volunteerism, and participation in school and community activities. The applicant must plan to enroll in first year studies at the Fisheries and Marine Institute of Memorial University of Newfoundland, Memorial University of Newfoundland generally, or the College of the North Atlantic. Applications will be accepted by the directors of the five Community Centres and the recipient(s) chosen by a Committee comprised of representatives from Memorial University of Newfoundland, the Marine Institute, the College of the North Atlantic, the Fry Family Foundation and the five directors of the St. John’s Community Centres. The number of scholarships awarded annually at Memorial University of Newfoundland will depend on the application pool. The scholarships to students who choose to attend Memorial University of Newfoundland (excluding the Marine Institute) will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on the recommendation of the Selection Committee. Scholarships to students who choose to attend the Marine Institute will be awarded by the Marine Institute Scholarship Committee.

The General Motors Undergraduate Scholarship
This scholarship was established by General Motors of Canada Limited with contributions to the University’s Opportunity Fund Campaign. Interest from the fund will provide one or more scholarships to support individuals who qualify as Native People, members of a Visible Minority and/or Physically Disabled. It will be awarded to students in any year or faculty or school at Memorial University of Newfoundland. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships. It will be awarded on the basis of scholarship standing.

Raymond Gushue Memorial Bursary
This bursary was established in memory of Raymond Gushue, born in Whitbourne and the first Newfoundlander appointed to the Order of Canada. Dr. Gushue left a lasting legacy of his achievements as a Past President of Memorial University of Newfoundland from 1952 to 1966. To be eligible for this bursary a student must be graduating from Crescent Collegiate in South Dildo and be entering the first year of any program at Memorial University of Newfoundland. Selection is based on demonstrated financial need as well as academic merit. Valued at a portion of the income on the investment, the bursary is renewable for one additional year, provided the recipient meets the minimum academic requirement for a bursary. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

The Joan Haire Memorial Scholarship
This scholarship is the result of an endowment which began in 1997 as a part of the Opportunity Fund Campaign. The fund will provide a scholarship valued at $500 to students who are children, grandchildren, nieces, nephews or spouses of current, retired or deceased employees or former employees with a minimum of five years service in the Department of Technical Services. Memorial University of Newfoundland. Preference in awarding the scholarship will be given to entrance students, but undergraduates may also qualify. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships. The scholarship will be awarded on the basis of scholarship standing but in the case of ties between candidates, need may be used as a determining factor.

The Frank & Margaret Hamilton Gander Collegiate Entrance Scholarship
This scholarship was established in memory of the late Judge William Higgins and is valued at a portion of the income on the investment, the bursary is renewable for one additional year, provided the recipient meets the minimum academic requirement for a bursary. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

The Frederick J. Hancock Scholarship
This scholarship is the interest on a sum of money donated to the University by Frederick J. Hancock, former Sergeant of the Newfoundland Constabulary who served as a member of the Force for twenty five years until his retirement in 1963. Preference in awarding this scholarship will be given to sons and daughters of active, retired or deceased members of the Royal Newfoundland Constabulary. Candidates must be enrolled in full-time studies at the University and possess scholarship standing. When no candidates can be found in the above category, the scholarship may be awarded to any full-time student on the basis of academic merit. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships.

The Dr. Leslie Harris Memorial University Alumni Association Scholarships
Memorial University of Newfoundland and its Alumni Association have established these scholarships to honour former University President, Dr. Leslie Harris, and to recognize excellence. Several scholarships, valued at a minimum of $16,000.00 ($4,000.00 annually for up to 4 years) will be awarded annually and may be renewed if first class and scholarship standing are maintained. These scholarships are tenable in all undergraduate programs at the University and will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

The A. Harvey & Company Limited Scholarship Program
On the occasion of its 125th anniversary, A. Harvey & Company Limited established this scholarship tenable at Memorial University of Newfoundland and valued at $1,500.00. The deadline date for applying is the last Friday in July. In order to qualify candidates must:

- Be a dependent or spouse of employees of the company;
- Be enrolled as a full-time student;
- Possess scholarship standing as defined by the University; and
- Hold no other concurrent scholarship.

Preference will be given to entrance students; however, if there is no eligible candidate enrolled in first year studies, then the scholarship may be awarded to a senior undergraduate student attending Memorial University of Newfoundland who fulfills the above criteria. In deciding between candidates of equal academic attainment need will be the determining factor. Further information and application forms are available in writing from A. Harvey & Company Limited, 87 Water Street, P.O. Box 5128, St. John’s, NL, A1C 5V6

The Imperial Tobacco Canada Entrance Scholarship
This scholarship was made possible by a donation in 1998 to Memorial University of Newfoundland by Imperial Tobacco Canada in support of the Opportunity Fund Campaign. The scholarship is valued at a minimum of $2,000.00 annually. It will be awarded to an entrance student on the basis of scholarship standing.

The P.F. Kearney Memorial Scholarship
A minimum of two scholarships will be provided annually from the interest on a bequest to the University in memory of Mr. P.F. Kearney. The scholarships will be awarded to students attending Memorial University of Newfoundland from schools within geographic boundaries of the Exploits Valley Integrated and Exploits White Bay Roman Catholic School Boards. Preference will be given to entering students, but in the event that no entering students are eligible in a given year they may be awarded to undergraduates in any year or field of study on the basis of scholarship standing.

Key Tag Scholarships
Up to three scholarships, valued at $500.00 per annum, are donated by the Newfoundland Branch of the War Amputees of Canada, and are to be known as the Key Tag Scholarships. These scholarships are awarded annually to amputee students in any year or field of study at Memorial University of Newfoundland. In the event that no applications are received from amputee students, the Committee may consider other physically disabled students. In making the awards, financial need, initiative and scholastic achievement will be considered. In special circumstances, the scholarships may be held for more than one year. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships.

The William and Naomi Lundrigan Scholarship
The William and Naomi Lundrigan Scholarship shall be awarded to an entrance student attending Grenfell Campus, Corner Brook. Two scholarships valued at a portion of the income on the endowment will be awarded annually. The recipients must meet the minimum academic requirements for a scholarship as defined by Memorial University of Newfoundland and consideration may be given to financial need. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of the recommendation from the Director of Student Recruitment.

The Korea Veterans’ Association Scholarship
Twenty-six thousand, seven hundred and ninety-one (26,791) Canadians served in the Korean Theatre between the beginning of hostilities in 1950 and the signing of the cease-fire in 1953. Another 7,000 served between the cease-fire and the end of 1955. This scholarship was established to honour the men and women of the various Canadian Military Units that served in the United Nations Forces during that period of time. One scholarship of $500 is awarded annually to a student who meets the following criteria: A full-time first year student at Memorial University of Newfoundland who is the child or grandchild of a Canadian Korea War Veteran and who has scholarship standing. In a year where there is no eligible child or grandchild, the scholarship may be awarded to a child or grandchild beyond first year studies. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships.

The Labrador Fishermen’s Union Shrimp Company Memorial Scholarship
These scholarships, two valued at $2,500.00 each annually, were created in honour of the six crew members who died in the 1990 airplane crash in Greenland. They will be awarded to entrance students from Coastal Labrador on the basis of scholarship standing. The first entrance scholarship will be to a student from the Red Bay to Lance au Clair area and the second one to a student from the Lodge Bay to Cartwright area.

The Locke’s Electrical Limited 50th Anniversary Scholarship
This scholarship is the result of an endowment established by Locke’s Electrical Limited, Corner Brook, on the occasion of their 50th anniversary. Valued at the interest on the endowment, it will be awarded on the basis of scholarship standing to an undergraduate student in any year of study who is the child or grandchild of a current or retired staff member of Locke’s Electrical Limited or one of it’s affiliates. If the scholarship is not awarded in one year then two may be awarded the following year. An application is required and may be obtained from, and returned to, Locke’s Electrical Limited, Corner Brook.

The William and Naomi Lundrigan Scholarship
The William and Naomi Lundrigan Scholarship shall be awarded to an entrance student attending Grenfell Campus, Corner Brook. Two scholarships valued at a portion of the income on the endowment will be awarded annually. The recipients must meet the minimum academic requirements for a scholarship as defined by Memorial University of Newfoundland and consideration may be given to financial need. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of the recommendation of the Scholarship Selection Committee at the Grenfell Campus.

The R.F. (Bob) MacLeod Memorial Entrance Scholarship in Music
This scholarship, with a value of at least $300.00, has been established in memory of Mr. R.F. (Bob) MacLeod, pianist, organist, and entertainer. The scholarship is awarded annually to a student entering the first year open to full-time undergraduate students entering their first year of study at Memorial University of Newfoundland. It is renewable for up to three additional years of consecutive full-time study providing the recipient continues to maintain scholarship standing. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

The Dr. Edith M. Manuel and Ms. Olga Anderson CFUW St. John’s Entrance Bursary
Two entrance bursaries, valued at a portion of the income on the endowment, have been provided by the Canadian Federation of University Women (CFUW) St. John’s, to female students in their first year of full-time studies. The recipients must have demonstrated financial need and must meet the minimum academic requirements for a bursary as defined by the University. The selection of recipients
is not restricted to any particular Faculty or School. The first of these bursaries is named in memory of Dr. Edith M. Manuel, a well-known Newfoundland educator and charter member of CFUW St John's who died in 1984. The second is named in memory of Ms. Olga Anderson, a long-time member of CFUW St. John's who died in 2012. Further information regarding the CFUW is available at www.cfuw.org. The bursaries will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

The Thelma Marsh Scholarship

This scholarship is a result of an ongoing gift to Memorial University of Newfoundland by Mrs. Thelma Marsh of St. John's. The scholarship, valued at $2,000.00 annually, is to be awarded to an entrance student from Newfoundland and Labrador. It will be awarded on the basis of scholarship standing and financial need.

The Memorial University of Newfoundland 50th Anniversary Scholarships

These scholarships are a result of donations made to the Memorial University of Newfoundland Opportunity Fund Campaign. Established in 1999, they are awarded annually to students entering the University in Fall semester who have received a provincial government scholarship. The University will offer a scholarship of matching value to students who receive The Junior Jubilee, The Constable W. C. Moss, The Centenary of Responsible Government and the Provincial Electoral District Scholarships.

The Memorial University of Newfoundland Alumni Entrance Scholarship

This scholarship is made possible by a donation from the Memorial University of Newfoundland Alumni Association. The scholarship is valued at $5,000.00 per year and is renewable to a maximum of an additional four years provided first class and scholarship standing are maintained. The scholarship is tenable in all undergraduate programs at this University.

Memorial University of Newfoundland CAUBO Conference 2010 Bursary

This bursary has been established by the Memorial University of Newfoundland planning committee members for the Canadian Association of University Business Officers (CAUBO) annual conference hosted by Memorial University of Newfoundland in June 2010. The Committee members volunteered a considerable amount of their time and talent over the twelve months leading up to the conference to ensure the success of this event. Memorial University of Newfoundland's share of the surplus generated by the conference has enabled the Committee to endow this entrance bursary. The bursary will be valued at a portion of the income on the endowment and will be awarded annually. The recipient will be an entrance student enrolled in any program at Memorial University of Newfoundland and who is a dependent of a current, retired or deceased staff member of Memorial University of Newfoundland. The recipient must have demonstrated financial need and must meet the minimum academic requirements for a bursary as defined by the University. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

Memorial University of Newfoundland CAUBO Conference 2010 Scholarship

This scholarship has been established by the Memorial University of Newfoundland planning committee members for the Canadian Association of University Business Officers (CAUBO) annual conference hosted by Memorial University of Newfoundland in June 2010. The Committee members volunteered a considerable amount of their time and talent over the twelve months leading up to the conference to ensure the success of this event. Memorial University of Newfoundland’s share of the surplus generated by the conference has enabled the Committee to endow this entrance scholarship. The scholarship will be valued at a portion of the income on the endowment and will be awarded annually. The recipient will be an entrance student enrolled in any program at Memorial University of Newfoundland and who is a dependent of a current, retired or deceased staff member of Memorial University of Newfoundland. The recipient must meet the minimum academic requirements for a scholarship as defined by the University. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

Memorial University of Newfoundland Endowment Scholarships

These scholarships, established by Memorial University of Newfoundland, are awarded annually to students in any year or faculty with approximately 50% of those awarded in a given year allocated for Entrance Students. The number and value of the annual scholarships vary depending on the interest earned. They are awarded on the basis of scholarship standing.

The Memorial University of Newfoundland Faculty Association Scholarship Fund

The Memorial University of Newfoundland Faculty Association (MUNFA) has established a trust fund to provide scholarships and bursaries to needy students in good academic standing. Assistance from this fund is available to entering students as well as to those further along in their studies and may be re-applied for in subsequent years. The first of the MUNFA Scholarships awarded each year is the Dittie Koster Memorial Scholarship. This award honours the late Dittie Koster who, up to the time of her death, was a professional librarian at the University. As a contribution to the Opportunity Fund in 1999, the Faculty Association pledged to pay the University the interest from their trust for the period January 1, 2000 to March 31, 2004. The matching money from this pledge will be contributed to the University's general Scholarship Endowment Fund allowing the University to award additional general scholarships.

The Memorial University of Newfoundland International Entrance Scholarship

These scholarships have been established by Memorial University of Newfoundland as part of an agreement by the Board of Regents, in May 2003, that a portion of the tuition fees for international undergraduate students would be set aside for International Scholarships. The values will vary but will not exceed $4,400.00 each annually. To be considered for these scholarships, a student must be eligible to pay the full international undergraduate fee, must register for at least 9 credit hours in each of two semesters in their first academic year at Memorial University of Newfoundland, and should normally have fewer than 31 credit hours of transfer credits and meet scholarship standing (comparable to that prescribed for Newfoundland and Labrador and Canadian applicants). These scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of a recommendation from the Director, Office of Student Recruitment.

The Memorial University of Newfoundland Pensioners Association (MUNPA) Entrance Scholarship

This scholarship was established through generous donations from members of the Memorial University of Newfoundland Pensioners Association (MUNPA). Valued at the apportion of the income on the investment, it will be awarded annually on the basis of scholarship standing to students entering their first year at either the University's St. John's, Corner Brook, or Marine Institute campus. In the case of ties between candidates, financial need may be used as a determining factor. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

The G.H. Morgan and Son Scholarship

This scholarship is the interest on a sum donated by a member of the Morgan Printing Co., Ltd., in memory of the founders of the firm, the late G.H. Morgan, Esq., and his son, the late Albert MacGregor Morgan, Esq. At the request of the donor, it is awarded annually based on the University final admission average. It will be awarded with first preference to a student from Coley's Point. If no eligible student from Coley's Point can be identified, preference will be given to students from (a) Bay Roberts, (b) the entire district of Port-de-Grave.

The Jacob and Floral Morgan Scholarship Fund

This fund has been established by relatives and friends of the late Jacob Morgan, a teacher for thirty years in the outports of this province, and of his wife Floral. One or more scholarships, valued at not less than $2,500.00 each will be awarded annually. Preference
will be given to students from the smaller outports, primarily to those who are entering Memorial University of Newfoundland for the first time.

The Julia E. Morgan Scholarship Fund
This fund has been established by relatives and friends of the late Julia E. Morgan, school teacher and University Extension Services field worker. One or more scholarships valued at not less than $2,500.00 each will be awarded annually. Preference will be given to students from the smaller outports, primarily to those who are entering Memorial University of Newfoundland for the first time.

The M.O. Morgan Entrance Scholarships
These scholarships, tenable at Memorial University of Newfoundland and valued at a minimum of $2,000.00 each, are open to entrance students. They have been funded in part by a donation received from the Albitross Hotel of Gander and the Mount Peyton Hotel of Grand Falls. They will be awarded on the basis of academic excellence.

The Edward G. Mullins Memorial Scholarship
This scholarship valued at $500.00 annually has been established by the Newfoundland and Labrador Branch of the Kidney Foundation of Newfoundland and Labrador in the memory of the late Edward G. Mullins who had kidney disease and was a dedicated volunteer of the Foundation. Preference will be given to applicants who have kidney disease, who have completed a minimum of 18 credit hours over two semesters in the previous scholarship year with a minimum average of 75% in the courses which comprise those credit hours and are enrolled full time at the University. However, if in a given year such an applicant(s) is not available, dependents of someone who has had kidney disease may qualify. Such applicants must be enrolled full time at Memorial University of Newfoundland and have scholarship standing. In deciding on candidates of equal academic attainment from the latter group, need may be the determining factor. In some cases the scholarship may be held for more than one year. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships.

The MUNSU Undergraduate Scholarship
This scholarship fund is the result of an endowment which began in 1996 as a part of the Opportunity Fund Campaign. The fund will provide a scholarship valued at the annual interest on the endowment, to students who are children, grandchildren, or spouses of current (worked a minimum of 15 of the last 24 months) or retired employees of MUNSU, Memorial University of Newfoundland or of previous employees who had a minimum of ten years of service to MUNSU. In the event that there are no eligible candidates from the above group in a given year the scholarship will be open to nieces or nephews of current, retired or previous employees of MUNSU (as per above). It will be open to entrants of students as well as undergraduates. The scholarship is not renewable and individuals will not normally hold the scholarship more than once unless there is no other eligible candidate in a given year. The scholarship will be awarded on the basis of scholarship standing but in the case of ties between candidates, need may be used as a determining factor. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships.

Harvey and Doris Murcell Scholarship
This scholarship has been established from funds donated by Harvey and Doris Murcell. Scholarships of at least $1,000.00 shall be awarded under the following conditions:

a. A scholarship to two entrance students who are residents of Harbour Grace who attended High School in Conception Bay North.

b. Four scholarships to students of any year from high schools in the Conception Bay North area.

c. Other scholarships as the fund will bear.

The scholarships shall be awarded based on scholarship standing.

Newfoundland Ranger Force (1935-50) Scholarship
This scholarship is made possible by a generous donation to Memorial University of Newfoundland by the Newfoundland Ranger Force (1935-49) Association. Valued at a portion of the income on the investment the Scholarship will be awarded to students entering first year of studies at Memorial University of Newfoundland. All candidates must be residents of Newfoundland and Labrador (a person who has maintained permanent residence in the province for approximately 12 months prior to enrolment at Memorial University of Newfoundland). The Scholarship shall be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

Noia-Hibernia Commemorative Scholarship
1997 was a big year for the oil & gas industry. The Hibernia project was successfully completed, hauled out to sea, and started drawing oil. The Noia-Hibernia Commemorative Scholarship Fund was created to commemorate this landmark year. It offers an annual scholarship of $1,000.00 to a graduating high school student in Newfoundland who is entering post-secondary studies and intending to pursue a petroleum-related career. These are the bright minds that will shape the future of this industry, and we feel like it would only be right to foster some of their development. The scholarship will be awarded to the student who best meets academic and extra-curricular criteria. If you’re about to graduate in June 2012 and are pursuing post-secondary studies with the goal of a career in petroleum in the 2012-2013 academic year, we encourage you to apply for this scholarship. Applications are available at www.noia.ca/Portals/0/ScholarshipApplication.pdf. Each student should outline their community and extra-curricular activities in the completed application and include a letter of reference. Applications should be sent to the following address: Noia Scholarship Selection Committee Box 44, Atlantic Place Suite 602, 215 Water Street St. John’s, NL A1C 6C9.

The Florence O'Neill Scholarships
An endowment donated to the University by Florence O'Neill, Ed.D., C.M., LL.D., honorary graduate of Memorial University of Newfoundland, distinguished for her contribution to the fields of adult education and community development, will fund annual scholarships valued up to $1,000.00 each. These awards will be made available to full-time undergraduate students, preferably to those from rural Newfoundland and Labrador, on the basis of scholarship standing. One shall be given annually to a student attending the Grenfell Campus in Corner Brook.

The Dr. Hugh O'Neill Entrance Scholarship
These scholarships are the result of a generous donation to Memorial University of Newfoundland by The O'Neill Foundation. Four scholarships valued at $1,000.00 each will be awarded annually to full-time undergraduate students entering first year of any faculty at Memorial University of Newfoundland. The scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and financial need.

The R.A. Parsons Scholarship Fund
The purpose of this fund is to provide scholarships to students in good academic standing and in proven financial need. There are no restrictions as to year or field of study.

The Selby Parsons Memorial Scholarship
This scholarship, awarded annually in memory of the late Mr. Selby Parsons, an early graduate of Memorial University of Newfoundland, is under the sponsorship of the family and friends of the late Mr. Parsons. It is open to outport students in their first year. Academic standing as well as financial need will be taken into consideration in making the award. The value of the award will be based on the income accruing from the fund during the period of tenure of the scholarship.
The John Lewis Paton Entrance Scholarship
This scholarship is the result of an endowment left to the University from the estate of the late Dr. John Lewis Paton. Valued at a minimum of $2,500.00 annually, the scholarship will be awarded on the basis of scholarship standing to students entering Memorial University of Newfoundland.

The Howard and Amelia Patten Memorial Bursary
The Howard and Amelia Patten Memorial Bursary has been established by a gift from Dr. Eugene Nurse in memory of Howard Patten, a pharmacist in Grand Bank, and his wife Amelia, whose encouragement and financial support enabled Dr. Nurse to attend Medical School. This bursary will be awarded annually to an undergraduate student entering Memorial University of Newfoundland who is a graduate of John Burke High School in Grand Bank, who is in financial need and who meets the minimum academic requirement for a bursary as defined by the University. In the event that a qualified student from John Burke High School in Grand Bank is not available in a given year, the bursary may be given, under the same terms, to a student graduating from a high school in the district that serves Grand Bank. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

The Rose Patten Single Mother Scholarship
This scholarship has been established by Ms. Patten to encourage and assist women to develop their full academic potential. Valued at the interest on the endowment, it is open to single mothers who are enrolled in full-time undergraduate studies at Memorial University of Newfoundland. It will be awarded annually to undergraduate students in any faculty, school or year and will be awarded on the basis of financial need as well as scholarship standing. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships.

The Elaine Pitcher Memorial Scholarship
This scholarship is the result of an endowment to the University from a bequest left by Elaine Pitcher, a donation from Xerox Canada and donations from family, friends and colleagues of Elaine. Valued at a portion of the annual accrued interest on the endowment, it will be awarded on the basis of scholarship standing to an undergraduate student who is a child of a current or retired staff member of Memorial University of Newfoundland. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships.

The Poole Family Scholarship
The Poole Family Scholarships are funded by a generous annual gift from the Poole Family Charitable Trust, established by Mr. Terry Poole who attended high school in Corner Brook and now resides in Calgary, Alberta. Valued at $5,000 per year, the scholarships will be awarded annually to a full-time undergraduate student entering into their first year of study at Memorial University of Newfoundland (at any campus). To be eligible, candidates must demonstrate financial need and scholarship standing. Preference will be given to candidates who graduated from a high school in western Newfoundland. Recipients may attend any of Memorial University of Newfoundland’s campuses. The scholarships are renewable for up to three years (four in the case of students enrolled in a program with a required fifth year of study, such as Engineering) as long as candidates maintain scholarship standing. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

The Quebec-Labrador Foundation Scholarships
The Quebec-Labrador Foundation offers three scholarships at $500.00 each to students enrolled in studies at Memorial University of Newfoundland. The first award, which is funded from the Larry Shields Fund of the Foundation, is awarded annually on the basis of academic performance and financial need to undergraduate students who are (a) native born to Newfoundland and Labrador; and (b) planning to study, or currently studying, Native American and/or Inuit cultures. In the event that a candidate who meets this specific criteria cannot be found in a particular year, the award may be given to a student in any year from one of the study fields and geographic locations indicated below for the second and third awards. The second and third awards will be awarded annually on the basis of academic performance and financial need to students in any year providing that they come from one of the following areas: the Northern Peninsula, Fogo, Labrador South, or the Lower North Shore of Quebec (from Natashquan to Blanc Sablon). In awarding these two scholarships, special consideration will be given to those applicants studying in the fields useful to the development of the regions served by the Foundation, e.g. Education, Business, Nursing and Health, Forestry, Fisheries, Engineering and Natural Resources.

Robert Gillespie Reid Memorial Scholarships
These scholarships are the result of the annual interest from a bequest left to Memorial University of Newfoundland by Mr. Reid. Scholarships valued at two semesters tuition for a full course load, will be awarded annually to students of scholarship standing. These scholarships are open to both Entrance and Undergraduate students.

Rotary Club of St. John’s Entrance Scholarships
These scholarships, valued at a minimum of $1000.00 each, were established by the Rotary Club of St. John’s, Newfoundland, to assist qualified students entering first year of studies at the University. Scholarship standing, as well as financial need, are to be considered in making the awards. The number of awards to be made is contingent on the annual interest on the capital investment.

The Royal Canadian Legion Branch No. 1 Memorial Bursaries
Two awards, the first known as the W.R. Dawe Memorial Bursary and the second known as the Walter E. Williams Memorial Bursary, are sponsored by the St. John’s Branch No. 1 of the Royal Canadian Legion. These are valued at $750.00 each and are tenable only at Memorial University of Newfoundland. The awards recognize the contributions of Mr. Dawe and Mr. Williams to the province of Newfoundland and to the Royal Canadian Legion, St. John’s Branch No. 1. They are open to Branch No. 1 members’ children and grandchildren upon entrance to first year studies at the University. A special application, available from the Branch office or the University’s Awards Office, must be completed and returned by August 31 of each year. The awards will be made on the basis of academic standing and need.

Royal Canadian Legion (St. John’s Branch No. 1) Memorial Wall Scholarships
These scholarships, three at $1,000.00 each, have been donated by St. John’s Branch No. 1 of the Royal Canadian Legion. They were made possible through funds raised in the construction of a Memorial Wall located at the Branch’s club rooms. The scholarships are tenable only at Memorial University of Newfoundland to undergraduate students in any faculty, school or year and will be awarded on the basis of scholarship standing and financial need.

The Salert Scholarship Fund in Memory of the Honourable Walter Stanley Monroe
Funded by the interest accruing on a donation from the Estate of Maurice H. Savel, at least two scholarships, valued at $1,000.00 each, will be awarded annually to students entering Memorial University of Newfoundland in full-time undergraduate studies. These scholarships are in memory of the Honourable Walter Stanley Monroe. The scholarships will be awarded on the basis of academic excellence.

The Dr. Maurice Savel Scholarship/Bursary Fund
This fund has been established through the generosity of Dr. Maurice Savel, one of the co-founders in St. John’s of the Newfoundland American Insurance Company. From the interest accruing on the fund, a number of scholarships/bursaries will be awarded annually to financially needy and academically deserving undergraduate students. The awards will be open to full-time students in first and second year.
The September 11, 2001 International Scholarship
As a result of the tragic events in New York, USA on September 11, 2001, nearly 13,000 air travellers were diverted to airports in Newfoundland to ensure their safety. In St. John's, 475 of them were housed on Memorial University of Newfoundland's St. John's campus for several days. Some of the passengers have shown their gratitude to Memorial University of Newfoundland by making donations to establish a fund which will assist students from other countries to attend Memorial University of Newfoundland. This fund will be a perpetual memorial to those who died in the tragic events of that day, while also providing both international students and our community with the opportunity for enrichment through exposure to new cultures and ways of life. To be considered for these scholarships, a student must be eligible to pay the full international undergraduate fee, must register for at least four courses in each of two semesters in their first academic year at Memorial University of Newfoundland, should normally have fewer than 31 credit hours of transfer credits and meet scholarship standing (comparable to that prescribed for Newfoundland and Labrador and Canadian applicants). These scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of a recommendation from the Director, Office of Student Recruitment.

Shad Valley Scholarships
Three renewable scholarships, valued at $12,000 each ($3000 a year for up to 4 years), are available to high school students who have applied to Memorial University of Newfoundland. The scholarships are open to students who are either current participants or have previously participated in Shad Valley. The scholarships cannot be held in conjunction with any other scholarship awarded by the University. A minimum of scholarship standing is required and the process is very competitive. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships. The Scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

Shulich Leader Scholarship
Schulich Leader Scholarships are undergraduate entrance scholarships for students enrolling in the STEM (Science, Technology, Engineering, Mathematics) areas of study at 20 selected universities. All Canadian high schools, secondary schools and CEGEPs (in Quebec) may submit one Schulich Leader Nominee each. Schulich Leader Nominees are selected by their schools based on two of three criteria: outstanding community/business leadership, academic excellence and financial need. Once a Schulich Leader Nominee is selected, he/she can apply his/her nomination to the participating universities in Canada where they intend to submit formal applications for undergraduate study. All participating universities are responsible for making the final selection of their Schulich Leaders for their respective universities. In 2012, a maximum of 40 Canadian Schulich Leaders will be selected; in 2013 and thereafter there will be 60 Canadian Schulich Leaders. Each entrance scholarship is valued at $60,000 CAD and will be indexed to inflation. The scholarship is distributed during each Schulich Leader’s term of undergraduate study. The granting of scholarships will start with the academic year commencing in Fall 2012.

The Dr. Evan Simpson Aboriginal Undergraduate Entrance Scholarship
Eligible students must be in scholarship standing, have not received another University-administered entrance scholarship of equal or greater value, be enrolled as a full-time undergraduate student at Memorial University of Newfoundland and provide confirmation of their Aboriginal status. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

The Wesley and Daisy Snelgrove Memorial Scholarship
This scholarship fund is established through a generous gift from members of the family of Wesley and Daisy Snelgrove and will provide two scholarships annually, valued at a portion of the income from the endowment. To be eligible, students must be Level III graduates from Baccalieu Collegiate in Old Perlican and must be entering full-time studies at Memorial University of Newfoundland (including the Fisheries and Marine Institute), pursuing an undergraduate degree and have scholarship standing. One scholarship, valued at 60% of the spendable earnings, will be awarded to the eligible student with the highest academic average. The second scholarship, valued at 40% of the spendable earnings, will be awarded to the eligible student with the second highest average. Both of the scholarships should be awarded even if the students have received another entrance scholarship from the University. In the event that there are no entering students from Baccalieu Collegiate in a given year, successful recipients from previous years who are currently enrolled at Memorial University of Newfoundland will be considered based on scholarship standing. In the event that no such students are entering or attending this University, the scholarships will be awarded to students from the Federal Electoral District in which Grates Cove is located. In the latter case, if possible, the first scholarship will be awarded to the student who is entering the School of Nursing with the highest academic average and the second to a student entering into their first year in the Faculty of Education with the highest academic average. The scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

The Marie Sullivan (1917-2003) Scholarship
This scholarship, valued at a minimum of $5,000.00, has been established by Mrs. Sullivan's eleven children. All attended Memorial University of Newfoundland after completing high school in Baie Verte. The scholarship is in recognition of and appreciation for their mother's unwavering commitment to her family and her encouragement to pursue a higher education. It will be awarded to an entrance student on the basis of scholarship standing and financial need.

The Swimming Newfoundland and Labrador Entrance Scholarship
This scholarship, valued at $1,000.00 annually, is available to a first year student who will attend Memorial University of Newfoundland and be a member of the Memorial University of Newfoundland Seahawks Varsity Swim Team. The scholarship recipient will have been a competitive swimmer in the Province of Newfoundland and Labrador for a minimum of three years and be a swimmer in good standing with Swimming Newfoundland and Labrador. This scholarship will be awarded on the basis of scholarship standing, however, in deciding on candidates of equal academic standing, financial need may be used as a determining factor. Applications may be obtained in writing to the Swimming Newfoundland and Labrador office, PO Box 21248, St. John's, NL, A1A 5B2, or by telephone to (709) 576-7946, or by fax to (709) 576-7943.

The TD Bank Financial Group Bursary
The TD Bank Financial Group has established this bursary as part of their commitment to helping students succeed in their post-secondary studies. The bursary is available to part-time or full-time students at Memorial University of Newfoundland who demonstrate financial need. Recipients may be residents of any province or territory in Canada. Valued at the interest on the endowment, the bursary will be awarded to entrance students in any field of study.

Arthur W. Toms Scholarship
This Scholarship was established by the family of the late Arthur W. Toms who was a farmer, fisherman, Co-op Field Officer, Rural Development Officer, Mayor, and Justice of the Peace, and who played a significant and leading role in the development of La Scie and other communities along the northeast coast of Newfoundland. Valued at a portion of the income on the investment, this scholarship will be awarded based on scholarship standing to a student entering Memorial University of Newfoundland as a full-time student. The scholarship will be open to students from Cape John Collegiate, La Scie, NL. If no suitable candidate is available from Cape John Collegiate preference will be given to students from the Baie Verte Peninsula. If no suitable candidate is available from the Baie Verte Peninsula preference will be given to students from Newfoundland and Labrador. The Scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.
The James Tucker Memorial Scholarship
This scholarship is the result of an endowment which began in 1997 as a part of the Opportunity Fund Campaign. The fund will provide a scholarship valued at a minimum of $500 to students who are children, grandchildren, nieces, nephews or spouses of current, retired or deceased employees or former employees with a minimum of five years service in the Department of Technical Services, Memorial University of Newfoundland. Preference in awarding the scholarship will be given to entrance students but undergraduates may also qualify. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships. The scholarship will be awarded on the basis of scholarship standing but in the case of ties between candidates, need may be used as a determining factor.

The George Weston Entrance Bursary
This bursary, valued at a minimum of $1,000.00, will be awarded annually to a Memorial University of Newfoundland entrance student on the basis of scholarship standing and need. It will be renewable for up to four years (initial - 3) providing first class and scholarship standing is maintained and the recipient continues his/her studies in a Bachelor of Arts or a Bachelor of Science. This bursary will be awarded to a student who was born in one of the Atlantic Provinces.

The Women's Association of Memorial University of Newfoundland Faculty/Staff Scholarship
The Women's Association of Memorial University of Newfoundland (WAMUN) has established a $1,200.00 annual scholarship available to students in any faculty or year at Memorial University of Newfoundland, providing they are either:

a. children of full-time faculty or staff;

b. children of deceased or retired faculty or staff, who at the time of death or retirement, were employed full-time.

An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships. This scholarship is based on scholarship standing.

The James W. Youden Bursary
This bursary, valued at a portion of the income from the endowment, is a result of a generous donation by James W. Youden from Chamberlains, NL. Though not a graduate of Memorial University of Newfoundland, Mr. Youden’s children are all alumni, and Mr. Youden holds a firm belief in the value and power of a university education to transform lives. The bursary recipient will be a full-time undergraduate student in his or her first year of study, with demonstrated financial need and in good academic standing. Preference will be given to students entering either the Faculty of Arts or Education. The recipient must reside in an area of Newfoundland and Labrador outside of metropolitan St. John’s and Corner Brook. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

The James Tucker Memorial Scholarship
This scholarship, valued at $1,200.00, is awarded annually from funds donated by James W. Youden from Chamberlains, NL. Though not a graduate of Memorial University of Newfoundland, Mr. Youden’s children are all alumni, and Mr. Youden holds a firm belief in the value and power of a university education to transform lives. The bursary recipient will be a full-time undergraduate student in his or her first year of study, with demonstrated financial need and in good academic standing. Preference will be given to students entering either the Faculty of Arts or Education. The recipient must reside in an area of Newfoundland and Labrador outside of metropolitan St. John’s and Corner Brook. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

The Marjorie Wyght-Barre Memorial Scholarship
This scholarship, named in memory of Mrs. Marjorie Wyght-Barre (1907-1985) of Montreal, is the result of an endowment created by her husband, Major P.H. Barre. This scholarship, valued at the annual accrued interest on the initial endowment, is to be awarded annually to a Memorial University of Newfoundland entrance student from Newfoundland and Labrador. It will be awarded on the basis of scholarship standing and financial need.

4 Scholarships, Bursaries, and Awards Administered By the Senate Committee on Undergraduate Scholarships, Bursaries and Awards for Which Undergraduate Students Already in Attendance at the University May Qualify

4.1 General
The following are not specific to an academic discipline.

Affinity NL (Ottawa) Scholarship
This scholarship is made possible by the fund raising efforts of the Ottawa Affinity Newfoundland and Labrador group and is valued at a portion of the income on the investment according to Memorial University of Newfoundland’s Awards Program Spending Policy. Based on scholarship standing (academic excellence), it will be awarded in an alternating fashion to a first year undergraduate student (entering their second year) and then a first-year graduate student (entering the first year of either a Master's or Ph.D. program). The student must be from a rural community in Newfoundland and Labrador, express an interest in returning to work in rural Newfoundland, and be registered for full-time studies at Memorial University of Newfoundland. Preference in awarding the scholarship will be given to entrance students but undergraduates may also qualify. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships. Students must show proof of Canadian Refugee Status. The award will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

The Ahmed Award
This award is to honour the memory of a young boy from Darfur, Sudan, who came to Newfoundland alone as a refugee. He was blessed with an indomitable spirit, a warm heart and an incredible desire for higher education. He died tragically by drowning in August of 2008. The award is to help others with similar backgrounds and desires to pursue their dream of a higher education. Valued at a portion of the income on the investment according to Memorial University of Newfoundland’s Awards Program Spending Policy, it will be awarded annually to a full-time or part-time student who has refugee status and is attending any campus of Memorial University of Newfoundland. Recipients must meet the minimum academic requirements for an award as defined by the University. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships. Students must show proof of Canadian Refugee Status. The award will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

The Arnold’s Cove, Come By Chance, North Harbour Fishers and Newfoundland Transshipment Scholarship
This scholarship was established by Newfoundland Transshipment Limited (NTL) as part of an agreement between them and the Fishers Liaison Committee (FLC) of the Arnold’s Cove, Come By Chance and the North Harbour area. This scholarship, valued at the annual interest on the initial endowment to a maximum of $500 per student, will be awarded on the basis of scholarship standing to a Fisher or his/her descendant(s) who is registered as a full-time student at Memorial University of Newfoundland in any year or field of
study. In the event that no applicants are received from Fishers or Fishers' descendants in a given year, the scholarship may be awarded to another student from above noted geographic areas. Eligibility of applicants under the above criteria will be verified by the Fisheries Liaison Committee (FLC). Memorial University of Newfoundland is encouraged to ensure that the scholarship is alternated between communities and their eligible students. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of an application which may be obtained from the Scholarships, Bursaries and Awards Office, Room 4018, University Centre or by calling (709) 864-3956. Completed applications must be returned to the FLC for appropriate verification.

The Ashbridge Scholarships/Bursaries

These awards, at least three at $500.00 each, are tenable to students beyond the first-year level of undergraduate programs. They are awarded on the basis of need and scholarship standing.

Baccalieu Trail Scholarship

This scholarship, valued at a portion of the income on the endowment, is made possible by the fund raising efforts of the Baccalieu Trail Chapter of the Alumni Association of Memorial University of Newfoundland. Based on scholarship standing the scholarship will be awarded to a student who is a resident of the Baccalieu Trail Region or has been a permanent resident of the region for the completion of their secondary education. The student must have successfully completed their first year of study and be entering second year of full-time study at Memorial University of Newfoundland. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

The Baird-Stephenson Scholarship

This Scholarship, valued at $1,000.00 is to be awarded annually to a Memorial University of Newfoundland student in any year or field of study. It is named for Mrs. Edna Baird-Stephenson and her late husband, both of whom were former members of Memorial University of Newfoundland's faculty. The Scholarship will be awarded on the basis of academic excellence.

The Donald M. Balsom Award

The Newfoundland Brain Injury Association (NBIA) has established this award to honour Donald M. Balsom, former Associate Director of Memorial University of Newfoundland's School of Continuing Education and brain injury survivor. Valued at $500.00, it will be awarded annually to a brain injured undergraduate student who is registered either part-time or full-time, in any year or field of study at Memorial University of Newfoundland, who has some volunteer experience with the NBIA and who is in clear academic standing at the University. In the event that no applications are received from brain injured students the award may be given to a student who has made a significant contribution as a volunteer for the Brain Injury Association. Special circumstances, the award may be held for more than one year. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards in consultation with NBIA as needed.

Barnes House Bursaries

Two bursaries of $600.00 each have been donated by Dr. Charles Loader former Proctor of Barnes House and are tenable only by residents of Barnes House, Paton College, who have resided in the House for at least one semester prior to application. The awards will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards acting on the advice of a committee established by the Proctor of Barnes House. In making the awards, financial need and academic performance in the previous year will be taken into consideration. The bursaries will not be given to students who hold other major awards and will be paid in two equal instalments over two semester, payment in the second semester being dependent upon the recipients maintaining at least a "B" average. If there are no suitable candidates, the bursaries will not be awarded.

Applications are available from the Residence Assistants, the Proctor or the Paton College Office. The deadline date for application is March 15.

The Glenn Roy Blundon Memorial Scholarship

This scholarship, valued at $500.00, has been established by the family, friends and fellow students of the late Glenn Roy Blundon, a former student of Memorial University of Newfoundland who, despite his severe physical disability, succeeded in his studies and made a significant contribution to student life. In the awarding of this scholarship, preference will be given to academically qualified students with disabilities but those enrolled in the Special Education Program may be considered when no candidates are available from the first group. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships.

The Gary Bourne Memorial Scholarship

This is the result of an endowment to the University funded largely by donations resulting from fundraising efforts of Gary's colleagues at the Office of Financial and Administrative Services. Valued at a portion of the annual accrued interest on the endowment, it will be awarded on the basis of scholarship standing to an undergraduate student who is a dependent of a current, retired or deceased staff member of Memorial University of Newfoundland. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships.

The Doctor William Boyle Scholarships

Under the will of the late Dr. Robert William Boyle, the University, in 1956, received bequests establishing two scholarships, one in memory of the testator's mother, Sophie (Maddock) Boyle, to be awarded to a female student attending the University; and the other in memory of his father, Albert Desbrisay Boyle, to be awarded to a male student attending the University. The scholarships are to be awarded to students who, having attended the University for a period of at least two years, are, in the opinion of the governing body of the University, best qualified in virtue of all-round attainment. Each scholarship will be tenable for two years and the emolument will be the income accruing from the bequest during the period of tenure of the scholarship.

The Calgary Alumni Scholarship

This scholarship is being established through the fund raising efforts of the Calgary Alumni Branch of the Memorial University of Newfoundland Alumni Association. The scholarship, valued at a portion of the income on the investment, will be available to an undergraduate student, beyond first year, in any field of study who is a resident of Newfoundland and Labrador (a person who has maintained permanent residence in the province for a minimum of twelve months immediately prior to entering the University) and who demonstrates academic excellence. Based on scholarship standing it will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

The Canadian Federation of University Women St. John's Undergraduate Bursary

The Canadian Federation of University Women (CFUW) is an organization committed to promoting equality for women and girls. CFUW is the largest national alliance of women's clubs in the country and has a long history of supporting women and girls. CFUW provides annual funding for scholarships to women who are enrolled in the third or fourth year of full-time undergraduate studies and meet scholarship standing. The number and value of the bursaries, as well as the faculty, department or school of the recipients, are determined on a year by year basis by the CFUW Scholarship Committee. The recipients must have demonstrated financial need and must meet the minimum academic requirements for a bursary as defined by the University. The bursaries will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on a recommendation from the respective Dean or Department Head of the faculty, department or school receiving the allocation in a given year.
St. John's provides annual funding for scholarships to women who are enrolled in the third or fourth year of full-time undergraduate studies and meet scholarship standing. The number and value of the scholarships, as well as the faculty, department or school of the recipient, are determined on a year by year basis by the CFUW Scholarship Committee. The scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on a recommendation from the respective Dean or Department Head of the faculty, department or school receiving the allocation in a given year.

The Canadian Institute of Mining, Metallurgy and Petroleum (Newfoundland Branch) Golden Jubilee Scholarship

This scholarship valued at a portion of the income on the investment, will be awarded to a student entering the final year of undergraduate studies at Memorial University of Newfoundland. Based on scholarship standing, the scholarship will be available to a student majoring in a field of study that is covered by the fields of interest of the Canadian Institute of Mining, Metallurgy and Petroleum specifically; Earth Sciences, Geophysics, Geography, Economics, Environmental Science, Engineering, Business and Commerce. Financial need may be taken into consideration. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

The Harvey and June Chafe Memorial Bursary

The Harvey and June Chafe Memorial Bursary was established by a generous bequest from the Estate of June Maria Chafe. Valued at a portion of the income on the investment, it will be awarded annually to a full-time undergraduate student at Memorial University of Newfoundland in any field of study. The recipient must have demonstrated financial need and meet the minimum academic requirements for a bursary as defined by Memorial University of Newfoundland. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

The Chow-Fagan Scholarship for Single Mothers

This scholarship, valued at $1,000 annually was established by Deborah Chow-Fagan. To be eligible, candidates must be single mothers who are full-time undergraduate students; preference will be given to students who have scholarship standing. If no full-time students are eligible in a given year, second preference will be given to a part-time student who is a single mother. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

The Marion (Ward Hue) Christian Memorial Scholarship

This scholarship, valued at a portion of the income from the endowment, is the result of a generous donation by Dr. David Ward, and is established in memory of his mother, Marion (Ward Hue) Christian. Originally from Trinity, Trinity Bay, Marion worked with the Department of Public Health helping elderly adults learn to read before going on to Columbia University and Emory College to study special education and geriatrics. She later served as the Deputy Director of the Hoyles Home, St. John's until her retirement. The scholarship recipient will be a full-time undergraduate student beyond first year who must demonstrate financial need as well as scholarship standing. The student must be from an area of Newfoundland and Labrador outside of metropolitan St. John’s and Coner Brook. Although students in all areas of study are eligible, preference will be given to those studying in the sciences. The scholarship will be awarded by the Committee on Undergraduate Scholarships, Bursaries and Awards.

The Coca-Cola Scholarship for International Studies

This scholarship, valued at the annual interest on its endowment, has been established from contributions to the University's Opportunity Fund Campaign by The Coca-Cola Foundation. It will be awarded to a student who has completed at least two years of a degree program at Memorial University of Newfoundland and who has been accepted to attend a recognized university outside Canada for one or two semesters of study for transfer credit to Memorial University of Newfoundland towards completion of his/her undergraduate degree.

The Compass Group Canada Scholarship

From a sum of money donated by Compass Group Canada, a scholarship fund has been established for students who reside in Paton College, who have completed their second year of studies while in residence and who will return to residence for their third year. The awards, valued at a minimum of $1,000.00, will be made annually on the basis of academic excellence. The purpose of the scholarship is to encourage students to remain in residence, and to graduate as students of high academic caliber to live in residence.

The Raymond J. Condon Memorial Alumni Scholarship

This scholarship, valued at $1,000.00, will be awarded to a student who has completed the first year College Transfer Program at the Labrador West Campus of the College of the North Atlantic and is transferring to Memorial University of Newfoundland the following year. The recipient must be of scholarship standing as defined by the University. The Senate Committee on Undergraduate Scholarships, Bursaries and Awards will award the scholarship upon recommendation of the Principal, Labrador West Campus.

Construction Labour Relations Association of Newfoundland and Labrador Inc. (CLRA) Scholarship

These five scholarships, valued at $1,000 each, were established through a donation from the Construction Labour Relations Association of Newfoundland and Labrador (CLRA). Three of the five scholarships are entrance scholarships and two scholarships will be available to full-time students in any year of any program. They will be available to dependents (sons, daughters or wards), of employees of CLRA member companies. Students must complete an application form provided by CLRA. Based on scholarship standing, it will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

The Clayton and Alice Cook Scholarship

This scholarship has been established by Mr. Clayton D. Cook, retired Newfoundland/CN Railway Trainman. The scholarship will be valued at a portion of the income on the endowment and awarded annually. To be eligible, candidates must be enrolled full-time in an undergraduate program at Memorial University of Newfoundland, be residents of Newfoundland and Labrador (as defined by the University) and have scholarship standing. First preference will be given to candidates who are sons, daughters, grandchildren, great-grandchildren or wards of the Newfoundland/CN Railway Trainmen. When an eligible student meeting these criteria cannot be identified, second preference will be given to students enrolled in the Newfoundland Studies program. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

Country Ribbon Scholarship

This scholarship is available to dependants (sons, daughters or wards) of employees of Country Ribbon. Valued at $1,000.00 annually it will be awarded, with first preference, to an entrance student registered for full-time studies at Memorial University of Newfoundland. If no suitable candidate can be identified from the first group the scholarship may be awarded to an undergraduate student registered for full-time studies at Memorial University of Newfoundland. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

The Crowley Bursaries

These bursaries, one or more valued at a minimum of $1,000.00 each annually, are the result of the interest on an endowment to the University by Mr. Ronald Crowley. In awarding these bursaries preference will be given to undergraduate sons or daughters of fisherpersons whenever possible. However, when such candidates cannot be identified the bursaries will be awarded to other eligible
undergraduate students at Memorial University of Newfoundland. In both cases candidates may be in any year or field of study. They will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and financial need as defined by the University.

**The Reverend Doctor Levi Curtis Bursary**
This bursary has a value of at least $200.00 and is awarded each year to a student who is a candidate for the ministry of the United Church, a child of a minister of the United Church, or the child of a needy United Churchman. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships.

**The Donald W.K. Dawe Memorial Scholarship**
This annual scholarship, valued at $500.00, has been established by the family, friends and associates of the late Donald W.K. Dawe, Q.C., who attended the Memorial University College in 1933-34. In making the award, preference may be given in the first instance to a needy and academically qualified student beyond the first year from outport Newfoundland and Labrador.

**Director’s Award for Exemplary Work Terms**
Four awards will be offered annually to students enrolled in full-time co-operative education programs at the undergraduate and graduate level at Memorial University of Newfoundland. One award will be made for each of the Engineering, Business, Human Kinetics and Recreation programs, and one award for one of the Co-operative Education programs in the Arts and Science portfolio which currently include: Applied Social Psychology, Computer Industry Internship Option, Economics, Masters of Computer Science, Masters of Environmental science, Masters of Political Science, Masters of Folklore, Political Science and Psychology. The recipients will receive a framed certificate and their names will be inscribed on a permanent plaque mounted in the Division of Co-operative Education. Nominations will be made by the co-operative education Co-ordinators of the students’ respective Faculty or School to the Director of Co-operative Education. Nominations may also be made by employers. The deadline for nominations is January 30. The awards will be presented during National Co-operative Education Week. Only students who have completed a work term in the previous calendar year and have obtained a Pass with Distinction or its equivalent, in both the work performance evaluation and the communication component of the work term are eligible. In the case of undergraduates the award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. In the case of the graduates the award will be made by the School of Graduate Studies. In both these cases These awards will be made by the Committee in Undergraduate Scholarships, Bursaries and Awards acting upon a recommendation from a committee representing Student Housing, Food and Conference Services and Doyle House. Additional information can be obtained from the Residence Assistants, Academic Don or Proctor of Doyle House.

**The Vivian Douglas Memorial Scholarship**
This scholarship has been established from a donation to the University by Mrs. Edna Baird-Stephenson in honour of her housekeeper Mrs. Vivian Douglas from Grand Bank. It is valued at the annual accrued interest on the initial donation and will be awarded to a student beyond first year in any field of study. It will be awarded annually on the basis of scholarship standing and financial need.

**The Doyle House Awards**
These awards are the result of fundraising by the Doyle House Academic Committee. Three, valued at $100.00 each, will be awarded annually to residents of Doyle House. They will be awarded in the Winter semester of each year as follows:

a. Highest senior resident average; to a resident of Doyle House who has resided there two consecutive semesters prior to receiving the award and who has a minimum of 70% average.

b. Highest freshman resident average; to a student who had resided in Doyle House for the current and previous semester and who had a minimum of 70% average in the Fall Semester.

c. Most improved average; to a student who has shown the greatest academic improvement during the most recent two semesters, who has been a resident of Doyle house for two consecutive semesters prior to receiving the award and who has a minimum of 70% average in the most recent semester he/she must have achieved at least a 50% average.

These awards will be made by the Committee in Undergraduate Scholarships, Bursaries and Awards acting upon a recommendation from a committee representing Student Housing, Food and Conference Services and Doyle House. Additional information can be obtained from the Residence Assistants, Academic Don or Proctor of Doyle House.

**The Dr. J. Douglas Eaton Scholarships**
Upon the retirement of Dr. J. Douglas Eaton from the position of Vice-President (Student Affairs & Services) in 1983, the student body of Memorial University of Newfoundland donated a sum of money to fund two undergraduate scholarships in his honour, valued at $500.00 each. These awards, tenable to students beyond first year will be made on the basis of academic standing and demonstrated active participation in student life. In cases of competition between students of equal standing, need shall be the determining factor in awarding the scholarships. The scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, acting on the recommendation of a special selection committee, consisting of members of MUNSU and the Office of Student Affairs & Services.

**The Fraser Edison Scholarship**
This scholarship has been established from a donation to the Opportunity Fund in 1999 by Mr. Fraser Edison. It will be valued at the annual interest on the endowment and will be awarded to an undergraduate student who has a recognized physical disability. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships.

**The Facilities Management Undergraduate Scholarship**
This scholarship fund is the result of an endowment which began in 1996 as a part of the Opportunity Fund Campaign. The fund will provide one or more scholarships valued at a minimum of $500 each to students who are children, grandchildren, nieces, nephews, brothers, sisters or spouses of current or retired employees of the Department of Facilities Management, Memorial University of Newfoundland. Preference in awarding the scholarship(s) will be given to entrance students but undergraduates may also qualify. The scholarship(s) will be awarded on the basis of scholarship standing and financial need as defined by the University.

**The Ralph L. Finley Scholarships**
Under the will of the late Mr. Ralph L. Finley, the University in 1987 received a bequest establishing two scholarships. The awards are to be tenable to needy undergraduate students, residing in the University residences during the academic year, who attain a minimum average of 70%. The value of the awards will depend on the income accruing from the bequest during the period of tenure of the scholarships. The amounts to be awarded are to be applied to the recipients’ tuition and/or residence fees.

**The Charlie (Moo Sic) Fong Memorial Scholarship**
This scholarship, valued at the annual interest (approximately $600.00 - $700.00 annually), is the result of an endowment by the Fong family in memory of their great-grandfather, Mr. Charlie (Moo Sic) Fong. It was established to commemorate the 100th anniversary of the first Chinese settler in Newfoundland and to promote an awareness of the Chinese Cultural and Historical background in the province. It will be awarded on the basis of scholarship standing and financial need to an undergraduate student at Memorial University of Newfoundland with a Chinese heritage. The scholarship will be awarded to one student each year. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships.
The Dr. G.A. Frecker Memorial Alumni Bursaries
The Memorial University of Newfoundland Alumni Association has established, from its Annual Fund, five bursaries named in honour of the late Dr. G.A. Frecker, Chancellor, Memorial University of Newfoundland, 1971-79, and valued at $500.00 each. Four of the bursaries are tenable at the St. John’s campus and one at the Grenfell Campus at Corner Brook. The bursaries will be awarded annually to full-time students in any faculty or year on the basis of academic standing and financial need.

Friends of India Association Scholarship
This award, valued at $500.00, is awarded annually from funds donated by the Friends of India Association. The scholarship is open to any student registered at Memorial University of Newfoundland who is beyond first year studies. This scholarship will be awarded on the basis of scholarship standing.

The General Motors Undergraduate Scholarship
This scholarship was established by General Motors of Canada Limited with contributions to the University’s Opportunity Fund Campaign. Interest from the fund will provide one or more scholarships to support individuals who qualify as Native People, members of a Visible Minority and/or Physically Disabled. It will be awarded to students in any year or faculty at Memorial University of Newfoundland. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships. It will be awarded on the basis of scholarship standing.

The Joan Haire Memorial Scholarship
This scholarship is the result of an endowment which began in 1997 as a part of the Opportunity Fund Campaign. The fund will provide a scholarship valued at a minimum of $500 to students who are children, grandchildren, nieces, nephews or spouses of current, retired or deceased employees or former employees with a minimum of five years service in the Department of Technical Services, Memorial University of Newfoundland. Preference in awarding the scholarship will be given to entrance students but undergraduates may also qualify. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships. The scholarship will be awarded on the basis of scholarship standing but in the case of ties between candidates, need may be used as a determining factor.

The Frederick J. Hancock Scholarship
This scholarship is the interest on a sum of money donated to the University by Frederick J. Hancock, former Sergeant of the Newfoundland Constabulary who served as a member of the Force for twenty-five years until his retirement in 1963. Preference in the awarding of a scholarship will be given to sons or daughters of active, retired or deceased members of the Royal Newfoundland Constabulary. Candidates must be enrolled in full-time studies at the University and possess scholarship standing. When no candidates can be found from the above category, the scholarship may be awarded to any full-time student on the basis of academic merit. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships.

The A. Harvey & Company Limited Scholarship Program
On the occasion of its 125th anniversary, A. Harvey & Company Limited established this scholarship tenable at Memorial University of Newfoundland and valued at $1,500.00. In order to qualify candidates must:

a. Be a dependent or spouse of employees of the company;

b. Be enrolled as a full-time student;

c. Posses scholarship standing as defined by the University; and

d. Hold no other concurrent scholarship.

Preference will be given to entrance students; however, if there is no eligible candidate enrolled in first year studies, then the scholarship may be awarded to a senior undergraduate student attending Memorial University of Newfoundland who fulfills the above criteria. The deadline date for applying is the last Friday in July. Further information and application forms are available in writing to A. Harvey & Company Limited, 87 Water Street, P.O. Box 5128, St. John’s, NL, A1C 5V6.

The C.D. Howe Memorial Foundation Scholarship
These scholarships result from a contribution by the C.D. Howe Memorial Foundation. The Annual income from this endowment will be utilized to fund up to six scholarships valued at the cost of one year’s tuition for full-time students, the amount varying depending on the number of awards taken. The scholarship will be awarded to undergraduate students entering Memorial University of Newfoundland who are in need of financial assistance and has completed one semester of full-time studies with satisfactory standing. If no candidates meet the foregoing criteria, the bursary may be awarded to an undergraduate student from the Eastport/Salvage area in any year of study at Memorial University of Newfoundland.

The Kevin Hutchings Memorial Scholarship for the Royal Newfoundland Regiment
This scholarship was established by the family of Kevin Hutchings who, from 2004 until his death in 2009, held the position of Honorary Lieutenant-Colonel of the First Battalion of the Royal Newfoundland Regiment. Valued at $2000 per year, the scholarship will be awarded to a full-time undergraduate student who is an active parading member of the Royal Newfoundland Regiment (1st, 2nd Battalion or Band) who meets scholarship standing as defined by the University. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. An application form is required and may be obtained from the Scholarships, Bursaries and Awards Office.

The Richard Steadman Hynes Memorial Award
This award was established through the generosity of Mr. & Mrs. John and Susan Hynes. Valued at $3,000, it will be awarded to a full-time student who has been in foster care at some point throughout their life, but has not received financial support from Child, Youth and Family Services beyond their secondary education. The recipient must meet the minimum academic requirements for an award as defined by Memorial University of Newfoundland. Preference will be given to students entering their first year at Memorial University of Newfoundland, but all undergraduate students are eligible. The award may be held for more than one year. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships. It will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

The Bishop Jones Memorial Hostel Group Scholarship
This scholarship was established by the Bishop Jones Hostel Group. The scholarship, valued at a portion of the income from the endowment, will be awarded annually to a female student who meets the minimum academic requirements for a scholarship and is...
enrolled full-time in her second year of study at Memorial University of Newfoundland. It is open to residents of Newfoundland and Labrador whose permanent address is outside the metro region of the campus they are attending. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

The Ethel H. Judson Memorial Scholarship
This scholarship, valued at the annual interest on the endowment, has been established by Mrs. Edna Baird-Stephenson in memory of her late sister Ethel. It will be awarded annually to a Memorial University of Newfoundland student in any year or field of study. The scholarship will be awarded on the basis of academic excellence.

Key Tag Scholarships
Up to three scholarships, valued at $500.00 per annum, are donated by the Newfoundland Branch of the War Amputees of Canada, and are to be known as the Key Tag Scholarships. These scholarships are awarded annually to amputee students in any year or field of study at Memorial University of Newfoundland. In the event that no applications are received from amputee students, the Committee may consider other physically disabled students. In making the awards, financial need, initiative and scholastic achievement will be considered. In special circumstances, the scholarships may be held for more than one year. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships.

The Iris Kirby Memorial Scholarship
This award, valued at $650.00 annually, has been established by the friends and colleagues of the late Iris Kirby. Iris was an active feminist and advocate of encouraging women to develop their fullest potential. The scholarship is open to women enrolling in full-time undergraduate studies at Memorial University of Newfoundland who are entering or returning after at least five years out of full-time study. Applicants should have been resident in Newfoundland for at least one year before applying. The scholarship will be awarded to a student in the Winter semester on the basis of the Fall semester's results. In deciding on candidates of equal academic attainment, a commitment to the goal of an equal status for women in our society will be considered. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships.

Korea Veterans’ Association Scholarship
Twenty-six thousand, seven hundred and ninety-one (26,791) Canadians served in the Korean Theatre between the beginning of hostilities in 1950 and the signing of the cease-fire in 1953. Another 7,000 served between the cease-fire and the end of 1955. This scholarship was established to honour the men and women of the various Canadian Military Units that served in the United Nations Forces during the Korean War. The scholarship of $500 is awarded annually to a student who meets the following criteria: A full-time first year student at Memorial University of Newfoundland who is the child or grandchild of a Canadian Korea War Veteran and who has scholarship standing. In a year where there is no eligible child or grandchild in first year, the scholarship may be awarded to a child or grandchild beyond first year studies. If there is still no eligible student, the scholarship may be awarded to any first year student at Memorial who has scholarship standing. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

Law Foundation of Newfoundland and Labrador Legal Research Awards for Students of Memorial University
The Law Foundation of Newfoundland and Labrador annually offers up to seven Legal Research Awards valued at $500 each to students at Memorial University of Newfoundland. The Awards are for outstanding research papers on one or more legal issues, or topics treated in a legal context, in a 2000 level course or beyond in any discipline at the undergraduate level and in any graduate course for students at the graduate level. The papers, submitted by and with endorsement of course, professor or lecturer will be judged initially by the Dean, Director, or Department Head who will make a recommendation to a special selection committee comprised of appointees of Memorial University of Newfoundland and the Law Foundation. Undergraduate students will receive a minimum of two awards and graduate students will receive one or more of the seven awards available annually. Preference will be given for one of the seven awards for outstanding research paper to an undergraduate student in their first year of studies. This student must be currently enrolled in, or have completed, the first year introductory course LWSO 1000: Law, Democracy and Social Justice when their paper is submitted for consideration. In the case of undergraduate students the Awards will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. In the case of graduate students the Awards will be granted by the Dean, School of Graduate Studies. In both cases they will act upon the recommendation of the Foundation’s selection committee.

The Locke’s Electrical Limited 50th Anniversary Scholarship
This scholarship is the result of an endowment established by Locke’s Electrical Limited, Corner Brook, on the occasion of their 50th anniversary. The amount of $2,000 is awarded annually at the interest of the endowment, it will be awarded on the basis of scholarship standing to an undergraduate student in any year of study who is a child or grandchild of a current or retired staff member of Locke’s Electrical Limited or one of its affiliates. If the scholarship is not awarded in one year then two may be awarded the following year. An application is required and may be obtained from, and returned to, Locke’s Electrical Limited, Corner Brook.

The Dr. Wayne E. Ludlow Scholarship
This scholarship is the result of an endowment made by the undergraduate students of Memorial University of Newfoundland in honour of Dr. Wayne E. Ludlow on his retirement, in 1999, from the position of Dean of Student Affairs and Services. Valued at a portion of the income on the endowment, this scholarship is tenable to students beyond second year, based on scholarship standing and demonstrated active participation in student life. Financial need may also be considered. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, acting on the recommendation of a selection committee of members of MUNSU and the Office of the Deputy Provost (Students) and Associate Vice-President (Academic) (Undergraduate Studies).

The Arthur and Sonia May Scholarship
The scholarship, valued at $5,000, has been established by Arthur and Sonia May on the occasion of the University’s 50th Anniversary as a degree granting institution, and in gratitude for the outstanding experience they enjoyed as students. It will be awarded to a student who has completed at least two years of a degree program at Memorial University of Newfoundland and who has been accepted to attend a recognized university outside Canada for one or two semesters of study to transfer credit to Memorial University of Newfoundland towards completion of his/her undergraduate degree. Applications may be made to the Scholarships, Bursaries and Awards Office, Room 4018, University Centre on or before March 31.

The Hector and Fanny McNeil Memorial Trust Fund Scholarships
From the interest accruing from this fund, at least two scholarships, at $500.00 each, will be awarded annually to academically deserving students at Memorial University of Newfoundland beyond first year.

The Memorial on Parade Bursary Fund
This bursary was created through the generous support of the alumni of Memorial’s Parade Street Campus. Memorial College opened its doors on Parade Street in 1925. It was established as a memorial to the Newfoundlanders who lost their lives on active service during the First World War and was later dedicated to also encompass those lost in the Second World War. In 1950, the College was elevated to full university status. In 1961, Memorial University of Newfoundland moved from the Parade Street location to the Elizabeth Avenue

Scholarships, Bursaries and Awards 2013-2014
Campus. The alumni of the Parade Street Campus established this bursary to support students who want to better themselves through higher education, just as they were so fortunate to do decades ago. Valued at a portion of the income on the investment, the bursary will be awarded annually to a student who has graduated from high school in Newfoundland and Labrador and is entering their final year of undergraduate study in any Faculty or program at the St. John's Campus. The recipient must have demonstrated financial need, as well as academic excellence, and must have demonstrated academic excellence in the previous year. The number and value of the annual scholarships vary depending on the interest earned. They are awarded on the basis of financial need.

Memorial University of Newfoundland Faculty Association Scholarship Fund
The Memorial University of Newfoundland Faculty Association Scholarship Fund was established in 1998 as a result of entry fees and donations from corporate and individual participants in the Annual Memorial University Faculty Association Golf Tournament. Proceeds from this tournament have developed an endowment that supports scholarships valued at a portion of the annual income on the investment. These scholarships will be awarded to second and third year undergraduate students based on academic standing, with the exact number of awards to be decided by the Golf Tournament Operations Committee each year. In an effort to ensure that, over time, awards are dispersed throughout the University's various academic units, only one scholarship per year will be awarded within an academic unit and none will be awarded in a given year to students from an academic unit that has been represented by a recipient in the past three years. Recipients may not be simultaneously in receipt of a general scholarship of equal or higher value at the time of the awarding of this scholarship. The scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

Memorial University of Newfoundland Endowment Scholarships
These scholarships, established by Memorial University of Newfoundland are awarded annually to students in any year or faculty with approximately 50% of those awarded in a given year allocated for Entrance Students. The number and value of the annual scholarships vary depending on the interest earned. They are awarded on the basis of scholarship standing.

The Edward G. Mullins Memorial Scholarship
This scholarship was established in memory of the late Edward G. Mullins who, up to the time of his death, was a professional librarian at the University. As a contribution to the Opportunity Fund in 1999, the Faculty Association pledged to pay the University the interest from their trust for the period January 1, 2000 to March 31, 2004. The matching money from this pledge will be contributed to the University's general Scholarship Endowment Fund allowing the University to award additional general scholarships.

The Gloria Moores Memorial Bursary
This bursary was created in memory of Gloria Moores in recognition of her dedication and commitment to the Queen Elizabeth II Library. The bursary will be valued at $500.00 and will be awarded annually. Full time undergraduate students in any year of any program at Memorial University of Newfoundland will be eligible. The applicant will have demonstrated financial need and must meet the minimum academic standing for a bursary at Memorial University of Newfoundland. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

The Elsa S. Morgan Memorial Scholarship
This scholarship, valued at $500.00, was donated by the late Dr. John M. Morgan, B.Sc., M.D., in memory of his wife, Elsa S. Morgan. Dr. Morgan was born at Port-de-Grave, Conception Bay, Newfoundland and spent all of his professional life in the United States. The scholarship is awarded to a deserving student of scholarship standing who has completed the first year of studies and is proceeding to the second year. Preference will be given to students from the smaller outports, primarily to those who are entering the University for the first time.

The John Thomas and Amy Susannah Morgan Memorial Scholarship
This scholarship, valued at $500.00, was donated by the late Dr. John M. Morgan, B.Sc., M.D., in memory of his parents, John Thomas and Amy Susannah Morgan. The scholarship is awarded to a deserving student of scholarship standing, who has completed his or her first year of studies and is proceeding to second year. Preference will be given to students from the district of Port-de-Grave/ Harbour Grace.

The M.O. Morgan Alumni Scholarships
At least three scholarships valued at a minimum of $1000.00 each, gifts of the Memorial University of Newfoundland Alumni Association, are awarded annually to students beyond first year on the basis of academic excellence.

Rick Morris Memorial Bursary
This bursary was established in memory of Rick Morris by his family and friends. Rick was a caring individual who was deeply committed to Newfoundland and worked with a variety of individuals, organizations, and government. He was a mentor to many helping professionals, who regularly sought his counsel on personal and professional issues. He was deeply concerned with violence against individuals, particularly women, children, and the survivors of Mount Cashel. He was involved in the establishment of Unified Family Court's mediation services and frequently collaborated with the aboriginal and senior's communities. The bursary, valued at a portion of the income from the endowment, will be awarded annually to a student who is in financial need and meets the minimum academic requirements for a bursary. It will be awarded on a rotating basis to a student enrolled in one of the following academic areas: Year 1- School of Social Work, Year 2- Faculty of Education, Year 3- School of Human Kinetics and Recreation, Year 4- Department of Gender Studies and Year 5- School of Nursing. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Head of the Unit for which the bursary is being awarded.

The Edward G. Mullins Memorial Scholarship
This scholarship valued at $500.00 annually has been established by the Newfoundland and Labrador Branch of the Kidney Foundation of Canada. It honors the memory of the late Edward G. Mullins who had kidney disease and was a dedicated volunteer of the Foundation. Successful applicants must be residents of Newfoundland and Labrador (a person who has maintained permanent residence in the province for a minimum of twelve months immediately prior to entering the University). Preference will be given to applicants who have kidney disease, who have completed a minimum of 18 credit hours over two semesters in the previous scholarship year with a minimum average of 75% in the courses which comprise those credit hours and are enrolled full time at the University. However, if in a given year such an applicant(s) is not available, dependents of someone who has/had kidney disease may qualify. Such applicants must be enrolled full time at Memorial University of Newfoundland and have scholarship standing. In deciding on candidates of equal academic attainment from the latter group, need may be the determining factor. In some cases the scholarship may be held for more than one year. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships.
The MUNSU Undergraduate Scholarship

This scholarship fund is the result of an endowment which began in 1996 as a part of the Opportunity Fund Campaign. The fund will provide a scholarship valued at the annual interest on the endowment, to students who are children, grandchildren, or spouses of current (worked a minimum of 15 of the last 24 months) or retired employees of MUNSU, Memorial University of Newfoundland or of previous employees who had a minimum of ten years of service to MUNSU, in the event that there are no eligible candidates from the above group in a given year the scholarship will be open to nieces or nephews of current, retired or previous employees of MUNSU (as per above). It will be open to entrance students as well as undergraduates. The scholarship is not renewable and individuals will not normally hold the scholarship more than once unless there is no other eligible candidate in a given year. The scholarship will be awarded on the basis of scholarship standing but in the case of ties between candidates, need may be used as a determining factor. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships.

The MUNSU 25th Anniversary Scholarship

This scholarship is the result of an endowment established by MUNSU (1994) and is valued at the annual accrued interest. It will be awarded to a student who has completed at least one year at Memorial University of Newfoundland. Based on scholarship standing and active participation in student life, it will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the President, MUNSU.

Harvey and Doris Murcell Scholarships

These scholarships have been established from funds donated by Harvey and Doris Murcell. Scholarships of at least $1,000.00 shall be awarded under the following conditions:

a. A scholarship to two entrance students who are residents of Harbour Grace who attended High School in Conception Bay North.

b. Four scholarships to students of any year from high schools in the Conception Bay North area.

c. Other scholarships as the fund will bear.

The scholarships shall be awarded based on scholarship standing.

The Augustine Nash Memorial Scholarship

The Augustine Nash Memorial Scholarship has been established by Edward Nash in memory of his father, Augustine Nash. Augustine Nash was born in St. Mary’s Bay, NL and was the father of thirteen children who attended Fatima Academy. Great emphasis was placed on the value of education in his household. To be eligible for this scholarship, a student must have graduated from Fatima Academy, in St. Bride’s, NL and be enrolled in the first year of any program at Memorial University of Newfoundland. The recipient must meet the academic requirements for a scholarship as defined by the University. Where possible, preference will be given to students with demonstrated financial need. In the event that a qualified student from Fatima Academy is not available in a given year, the scholarship may be awarded, under the same terms and conditions to a student who has graduated from a high school in the electoral district that serves Fatima Academy. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

The Newfoundland and Labrador Neurotrauma Initiative Award

This award, valued at a portion of the income on the investment, is made possible by a generous endowment from the Newfoundland and Labrador Neurotrauma Initiative Program, a partnership between the Rick Hansen Man in Motion Foundation, the Canadian Paraplegic Association, the Brain Injury Association and the Government of Newfoundland and Labrador. The award will be available on an annually rotating basis between undergraduate and graduate students, with first preference given to a student who has been identified with a brain or spinal cord injury. For undergraduate students an application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships. Graduate Students are required to apply specifically to the School of Graduate Studies, Room IIC 2021, Bruno Centre for Research and Innovation, (709) 864-2800. If no candidate is available with a brain or spinal cord injury, preference will be given to a student who is studying in any field related to neurotrauma. If it is not awarded at the level of study (i.e. graduate/undergraduate) on rotation in a given year, it may be awarded to a student studying at the other level for that year. In the case of undergraduates, the award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. In the case of graduates it will be awarded by the Dean, School of Graduate Studies on the recommendation of the Awards and Medals Committee. This award is open to part-time or full-time students with clear academic standing.

The Elsie and Stephen O'Neill Bursary

The children of Elsie and Steve O'Neill established this bursary in appreciation of their parents' support and encouragement toward their high school education. The bursary, which will be valued at $1000 annually, will be awarded to a single mother with first preference to a current part-time undergraduate student. She must also have been enrolled part-time for two or more semesters prior to the semester in which the scholarship is awarded, and have maintained a “B” average in those semesters. If no student meeting the above criteria can be identified, the bursary will be awarded to an undergraduate single mother who is currently registered at the University (part-time or full-time); who has maintained a “B” average in the courses completed in the previous scholarship year and has financial need. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships.

The Florence O'Neill Scholarships

An endowment donated to the University by Florence O'Neill, Ed.D., C.M., LL.D., honorary graduate of Memorial University of Newfoundland, distinguished for her contribution to the fields of adult education and community development, will fund annual scholarships valued up to $1,000.00 each. These awards will be made available to full-time undergraduate students, preferably to those from rural Newfoundland and Labrador, on the basis of scholarship standing. One shall be given annually to a student attending the Grenfell Campus in Corner Brook.

Dermot O'Reilly Legacy Award

The award, valued at a portion of the income on the investment, is established through funds raised by family, friends and music lovers, in Dermot O'Reilly's memory after his untimely passing in 2007. Dermot chose to make Newfoundland his home in 1971 where he found here a kinship to the Dublin of his youth in the people, music and songs. Here, his life was music. He delighted in sharing music with others and was a mentor to many aspiring musicians. Dermot's friends and family carry on his legacy by creating this award to meet the academic requirements for a scholarship as defined by the University. Eligibility should be based on established support of music, and active participation in student life, it will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards Office and the School of Graduate Studies and must be accompanied by a resume of all relevant information including but not limited to: publications, research, recordings, projects, performances, etc. It will be awarded by either the Senate Committee on Undergraduate Scholarships, Bursaries and Awards or the Dean, School of Graduate Studies as appropriate based on the recommendation from the Committee.

Oil and Gas Week Scholarship

Valued at $1,000 each, these undergraduate scholarships are established by a gift over three years from the organizers of Oil and Gas Week Scholarship Committee. Valued at $1,000 each, these undergraduate scholarships are established by a gift over three years from the organizers of Oil and Gas Week Scholarship Committee. Valued at $1,000 each, these undergraduate scholarships are established by a gift over three years from the organizers of Oil and Gas Week Scholarship Committee.
Week, a program of events held annually in St. John’s, NL for the purpose of promoting the oil and gas industry. Two scholarships will be awarded each year. To be eligible, students must be enrolled full-time beyond the first year of an undergraduate program in the Department of Earth Sciences, the Faculty of Engineering and Applied Science, or the Faculty of Business Administration. Eligible candidates must also have scholarship standing and preference will be given to students who graduated from a high school in Newfoundland and Labrador outside of the metropolitan St. John’s area. Each year the two recipients must be from different faculties, with each identified academic unit to be represented no more than twice in the three year period of the term of the fund. The scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, based on a recommendation from the appropriate academic discipline.

The R.A. Parsons Scholarship Fund
The purpose of this fund is to provide scholarships to students in good academic standing and in proven financial need. There are no restrictions as to year or field of study.

The John Lewis Paton Scholarship
This scholarship is awarded out of the income from the Fund established in 1926 by John Lewis Paton to enable graduates of the Memorial University College to continue university training. Known until 1946 as the Memorial University College Scholarship, it has been re-named to honour the memory of the first President of the College. This scholarship has a value of at least $300.00. It is awarded annually to a student who has successfully completed three years of a degree course. In making the award, scholastic achievement and promise, qualities of character, economic need and other relevant factors will be taken into account.

The Elaine Pitcher Memorial Scholarship
This scholarship is the result of an endowment to the University from a bequest left by Elaine Pitcher, a donation from Xerox Canada and donations from family, friends and colleagues of Elaine. Valued at a portion of the annual accrued interest on the endowment, it will be awarded on the basis of scholarship standing to an undergraduate student who is a child of a current or retired staff member of Memorial University of Newfoundland. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships.

The Pro Vice-Chancellor's Prize
The Strategic Framework for Memorial University of Newfoundland states that Memorial will enrich undergraduate education by helping students to experience the excitement of intellectual discovery, introducing undergraduates more effectively to the wider academic enterprise. In encouragement of this objective and in recognition of superior writing and scholarship by undergraduate students that deserves a wider audience, the Vice-President (Academic) and Pro Vice-Chancellor has established a series of prizes for the best undergraduate scholarship done each year at the University.

Teachers are invited to nominate examples of their undergraduate students' course work for the Pro Vice-Chancellor's Prize. The professor will certify that the work is original and the student's own work, and submit it to his/her head/director who will transmit it to the Committee. Teachers may also submit their own course work for consideration. In accepting nomination or making application, students agree to publication. Nominations and applications will be assessed by a selection committee consisting of five academic staff members and chaired by the Associate Vice-President (Academic). The committee will adjudicate entries for their intellectual originality, cogency, facility of expression, and adherence to principles of scientific inquiry and critical thinking. The value of the prize is $500 cash or a $1000 scholarship tenable in a graduate program at Memorial University of Newfoundland. Up to five prizes will be awarded each year. At the discretion of the selection committee, Honourable mention may be accorded to entries beyond the available number of prizes.

Project Hero Tuition Bursary
Project hero is an initiative started by Kevin Reed, honorary lieutenant-colonel of 31 Service Brigade, an army reserve unit in London, Ontario. Mr. Reed was inspired by the work of former Chief of Defense Staff, General Rick Hillier, former Chancellor of Memorial University of Newfoundland, and approached him about starting a program to support children of Canadian Forces staff who were killed while on active duty.

The bursary provide tuition costs (maximum of 5 courses per semester) for up to four years of study and is available to full-time students in undergraduate degree programs. The bursary is renewable on the basis of continuing full-time enrollment and a minimum GPA of 2. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

To be eligible students must be:
1. Canadian Citizens or Permanent Residents;
2. 26 years old or younger; and
3. dependents of Canadian Forces personnel who died while serving on an active mission (students are required to provide sufficient proof from the Canadian Forces that they are dependents of the deceased soldier and that the individual died while on an active mission).

An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships.

The Quebec-Labrador Foundation Scholarships
The Quebec-Labrador Foundation offers three scholarships at $500.00 each to students enrolled in studies at Memorial University of Newfoundland. The first award, which is funded from the Larry Shields Fund of the Foundation, is awarded annually on the basis of academic performance and financial need to undergraduate students who are (a) native born to Newfoundland and Labrador; and (b) planning to study, or currently studying, Native American and/or Inuit cultures. In the event that a candidate who meets this specific criteria cannot be found in a particular year, the award may be given to a student in any year from one of the study fields and geographic locations indicated below for the second and third awards.

The second and third awards will be awarded annually on the basis of academic performance and financial need to students in any year providing that they come from one of the following areas: the Northern Peninsula, Fogo, Labrador South, or the Lower North Shore of Quebec (from Natashquan to Blanc Sablon). In awarding these two scholarships, special consideration will be given to those applicants studying in the fields useful to the development of the regions served by the Foundation, e.g. Education, Business, Nursing and Health, Forestry, Fisheries, Engineering and Natural Resources.

150 RCAF Wing Memorial Scholarship
This Scholarship, valued at a portion of the annual accrued interest on the endowment, will be tenable only at Memorial University of Newfoundland to a full time undergraduate student in any year or field of study, based on scholarship standing. Consideration may be given to students demonstrating financial need. The Scholarship will be available to: (1) a Wing member (as defined by the Constitution) or "relative of a Wing member; (2) an Air Force Veteran or a "relative of an Air Force Veteran; (3) an Air Cadet/ex Air Cadet of the 515
North Atlantic Squadron (defined as any person who has served for two years and is/was in good standing at present or at the time of departure from his/her Air Cadet Unit). *Note: Relative is defined as son/daughter; grandson/daughter; great-grandson/daughter; brother/sister; nephew/niece. The Scholarship may be awarded to the same applicant more than once. If in any given year, there is no eligible candidate, two scholarships may be awarded in the following year at the discretion of the trustees. The Scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. Applications are available at 150 RCAF Wing or from the Scholarships, Bursaries and Awards Office, Room 4018, University Centre, Memorial University of Newfoundland. Applicants will be required to submit a personal letter of application, stating goals, personal achievements and financial need. Applications are to be submitted in writing to 150 RCAF Wing - Memorial Scholarship Committee, 565 Roosevelt Avenue, Pleasantville, St. John's, NL, A1A 5B2. You may contact us by telephone to (709) 753-8970.

**Robert Gillespie Reid Memorial Scholarships**

These scholarships are the result of the annual interest from a bequest left to Memorial University of Newfoundland by Mr. Reid. Scholarships valued at two semesters tuition for a full course load, will be awarded annually to students of scholarship standing. These scholarships are open to both Entrance and Undergraduate students.

**The Charlie Riggs and Cathy Macdonald Riggs Memorial Award**

This award has been established in memory of Charlie Riggs (Bachelor of Engineering – Mechanical, 1988) and Cathy Macdonald Riggs (Bachelor of Science – Psychology, 1984) by AMEC Earth & Environmental (a division of AMEC Americas Limited). The award will be valued at a portion of the income on the endowment and will be awarded annually on a rotating basis between the Faculty of Engineering and Applied Science and the Department of Psychology. Recipients from Engineering can be enrolled in any year of the undergraduate program. Preference will be given to students involved in environmental organizations such as the Newfoundland Environmental Industry Association (NEIA) or environmental initiatives supported by the Professional Engineers and Geoscientists Newfoundland and Labrador (PEGNL). Recipients from Psychology must be undergraduate students majoring in Behavioural Neuroscience and beyond their second year of study. They may demonstrate an interest in the psychology or physiology of communication. The students must meet the minimum academic requirements for an award as defined by the university. The award will be administered by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean, Faculty of Engineering and Applied Science and the Head of Psychology, Faculty of Science, respectively.

**The Russell and Pearl Rose Bursary Fund**

The Russell and Pearl Rose Bursary Fund has been established through a generous bequest to the University set forth in the Last Will and Testament of Anita Pearl Rose. Valued at a portion of the income on the investment, it will be awarded to a full-time undergraduate student at Memorial University of Newfoundland beyond the first year and in any field of study who is a graduate of a high school in Newfoundland and Labrador. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of financial need and scholarship standing.

**Royal Canadian Legion Ladies’ Auxiliary Scholarships**

Two scholarships to the value of $300.00 each, tenable only at Memorial University of Newfoundland, will be awarded to children or grandchildren of veterans. These awards will be made to applicants with the highest scores in any year, providing they have resided in Newfoundland for a period of five years and have completed at least one year at Memorial University of Newfoundland. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships.

**Royal Canadian Legion (St. John’s Branch No. 1) Memorial Wall Scholarships**

These scholarships, three at $1,000.00 each, have been donated by St. John's Branch No. 1 of the Royal Canadian Legion. They were made possible through funds raised in the construction of a Memorial Wall located at the Branch's club rooms. The scholarships are tenable only at Memorial University of Newfoundland to undergraduate students in any faculty, school or year and will be awarded on the basis of scholarship standing and financial need.

**R.S.V.P. Residence Scholarship**

This scholarship is the result of fundraising by the Residence Scholarship and Volunteer Program (RSPV) Committee during the early 1990's. One or more scholarships will be awarded annually from the interest earned on the initial endowment. The scholarship(s) will be awarded to full-time undergraduate students who are beyond first year, resided in residence the previous year and are returning to residence for another year. To be considered candidates must have scholarship standing and must have been actively involved in various aspects of residence life. The scholarship(s) will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Director, Student Housing and Food Services.

**The St. John's Port Authority Scholarship**

This scholarship, valued at $2,500.00, was established by the St. John's Port Authority. It will be awarded annually to a student who has lived at least twelve months in Newfoundland before commencing his or her post-secondary studies and who is entering third year or beyond in a marine related field. The scholarship shall be awarded on the basis of academic excellence.

**The Jeanne F. Sanger Memorial Scholarship**

This scholarship, awarded annually in memory of Jeanne F. Sanger, former student and library staff member of Memorial University of Newfoundland, is under the sponsorship of the family and friends of the late Mrs. Sanger. It is awarded on the basis of scholarship standing and need to a second-year student upon completion of first-year studies. The value of the award will be based on income accruing from the fund during the period of tenure of the scholarship.

**The Dr. Maurice Saval Scholarship Bursary Fund**

This fund has been established through the generosity of Dr. Maurice Saval, one of the co-founders in St. John's of the Newfoundland American Insurance Company. From the interest accruing on the fund, a number of scholarships/bursaries will be awarded annually to financially needy and academically deserving undergraduate students. The awards will be open to full-time students in first and second year.

**Sceptre Investment Counsel Limited Bursary**

Sceptre Investment Counsel, one of Canada's leading pension and mutual fund managers and an important partner to Memorial University of Newfoundland for several years, has established this bursary as a demonstration of its commitment to community support. Valued at the accrued interest on their endowment, one or more bursaries will be awarded annually on a rotating basis between undergraduate and graduate students in any field of study. Successful candidate(s) must be Newfoundland residents demonstrating financial need and displaying qualities of leadership. In the case of undergraduates, it will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards using scholarship standing as the primary determinant. Graduate students can make application in writing to the Dean of Graduate Studies. The award will be made by the Dean on the recommendation of the Awards and Medals Committee.

**Sodexho Scholarship**

This scholarship, valued at the annual interest, is the result of a donation to the University from Sodexho. It will be awarded on the basis of scholarship standing to a full-time undergraduate student in any year or field of study.
TD Graduate Bursary for Environmental Study

The TD Graduate Bursary for Environmental Study was established by a gift from TD Bank Group to Dare To: The Campaign for Memorial University. The bursaries will be awarded to full-time graduate students enrolled in any program at Memorial University of Newfoundland, provided they are pursuing research and/or study in environmental-related subjects. Recipients must meet the academic criteria available each year will depend on the funds available for distribution as per University policy, as well as the applicant pool, and will be determined at the discretion of the Dean, School of Graduate Studies. The bursaries will be awarded by the Dean, School of Graduate Studies based upon recommendations of Deans and/or Department Heads of any eligible discipline.

The Toronto Alumni Scholarship

This scholarship is being established through the fund raising efforts of the Toronto Alumni Branch of the Memorial University of Newfoundland Alumni Association. The scholarship, valued at a portion of the income on the investment, will be available to an undergraduate student, beyond first year, in any field of study who is a resident of Newfoundland and Labrador (a person who has maintained permanent residence in the province for a minimum of twelve months immediately prior to entering the University) and who demonstrates both academic excellence and leadership qualities. Based on scholarship standing it will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. A special application is required and may be obtained from the Scholarships and Awards Office, Room 4018, University Centre or by calling (709) 864-3956.

The William and Elizabeth (Burgett) Walsh Memorial Bursary

The William and Elizabeth (Burgett) Walsh Memorial Bursary has been established by a gift of $15,000 from Mr. and Mrs. Walsh’s family, Billie and Lizzie (Burgett) Walsh, as they were known, were Labradors from ‘Mary’s Harbour’ and ‘Sandy Hills’ who settled in Cartwright. Both of them were keenly interested in the education of their children. It will be awarded to a Labrador student registered in any faculty or year at Memorial University of Newfoundland who is a graduate of a high school in Labrador and consideration will be accorded the following priority: 1) Cartwright, 2) Mary’s Harbour, 3) the remainder of the Labrador coast and straits, and 4) all of Labrador. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards with preference given to financial need.

The War Veterans Family Award

This award has been established to give financial assistance to Canadian and Newfoundland War Veterans who served overseas and their families. It is valued at $2500 annually and is renewable for up to three additional years provided the recipient maintains the minimum academic requirements for an award and continues as a full-time undergraduate student at the University. To be eligible for this award, students must show that they are the child, grandchild, spouse or other dependant of a Canadian or Newfoundland War Veteran, or are themselves a Canadian or Newfoundland War Veteran. The applicant must provide the war veteran’s name, service branch and service number. The recipients will be enrolled in any year of study at Memorial University of Newfoundland and would have graduated from a high school in Newfoundland and Labrador. Preference will be given to applicants who have demonstrated financial need. Recipients must meet the minimum academic requirements for an award as defined by the University. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships. The award will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

The Women’s Association of Memorial University of Newfoundland Faculty/Staff Scholarship

The Women’s Association of Memorial University of Newfoundland (WAMUN) has established a $1,200.00 annual scholarship available to students in any faculty or year at Memorial University of Newfoundland, providing they are either:

a. children of full-time faculty or staff; or
b. children of deceased or retired faculty or staff, who at the time of death or retirement, were employed full-time.

An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships. This scholarship is based on scholarship standing.

The Women’s Association of Memorial University of Newfoundland Mature Student Undergraduate Scholarship

This scholarship, valued at $1,200.00, is awarded annually from funds donated by the Women’s Association of Memorial University of Newfoundland. It is restricted to women enrolled in full-time undergraduate studies at Memorial University of Newfoundland who are entering or returning, having been away from full-time study for a period of three years or more. They must have been residents of Newfoundland and Labrador for at least a year prior to enrolling. This scholarship is awarded in Winter semester based on Fall semester results in which a minimum average of 75% will be required. Financial need will be considered. The Scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. A special application is required and may be obtained from the Scholarships and Awards Office, Room 4018, University Centre or by calling (709) 864-3956.

The Women’s Association of Memorial University of Newfoundland Single Parent Undergraduate Scholarship

This scholarship, valued at $1,200.00, is awarded annually from funds donated by the Women’s Association of Memorial University of Newfoundland. It is restricted to single parents enrolled in any faculty, school or year of study at Memorial University of Newfoundland. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships. The Scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of financial need and scholarship standing.

The Women’s Association of Memorial University of Newfoundland Undergraduate Scholarship

This scholarship, valued at $1,200.00, is awarded annually from funds donated by the Women’s Association of Memorial University of Newfoundland. It is restricted to undergraduate students who are beyond second year of studies and who will continue at Memorial University of Newfoundland in an academic program. The Scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing.

The James Tucker Memorial Scholarship

This scholarship is the result of an endowment which began in 1997 as a part of the Opportunity Fund Campaign. The fund will provide a scholarship valued at a minimum of $550 to students who are children, grandchildren, nieces, nephews or spouses of current, retired or deceased employees or former employees with a minimum of five years service in the Department of Technical Services, Memorial University of Newfoundland. Preference in awarding the scholarship will be given to entrance students but undergraduates may also qualify. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships. The scholarship will be awarded on the basis of scholarship standing but in the case of ties between candidates, need may be used as a determining factor.

The James J. Walsh Memorial Scholarships

These two scholarships, established by the Walsh family to commemorate the memory of a dear husband and father, James J. Walsh, are tenable at Memorial University of Newfoundland and are valued at $500.00 each. One scholarship will be tenable in the Faculty of Business Administration. (Refer to Faculty of Business Administration). The second scholarship will be open to any student enrolled full-time at Memorial University of Newfoundland who has scholarship standing and demonstrates financial need.

The William and Elizabeth (Burgett) Walsh Memorial Bursary

The William and Elizabeth (Burgett) Walsh Memorial Bursary has been established by a gift of $15,000 from Mr. and Mrs. Walsh’s family, Billie and Lizzie (Burgett) Walsh, as they were known, were Labradors from ‘Mary’s Harbour’ and ‘Sandy Hills’ who settled in Cartwright. Both of them were keenly interested in the education of their children. It will be awarded to a Labrador student registered in any faculty or year at Memorial University of Newfoundland who is a graduate of a high school in Labrador and consideration will be accorded the following priority: 1) Cartwright, 2) Mary’s Harbour, 3) the remainder of the Labrador coast and straits, and 4) all of Labrador. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards with preference given to financial need.

The War Veterans Family Award

This award has been established to give financial assistance to Canadian and Newfoundland War Veterans who served overseas and their families. It is valued at $2500 annually and is renewable for up to three additional years provided the recipient maintains the minimum academic requirements for an award and continues as a full-time undergraduate student at the University. To be eligible for this award, students must show that they are the child, grandchild, spouse or other dependant of a Canadian or Newfoundland War Veteran, or are themselves a Canadian or Newfoundland War Veteran. The applicant must provide the war veteran’s name, service branch and service number. The recipients will be enrolled in any year of study at Memorial University of Newfoundland and would have graduated from a high school in Newfoundland and Labrador. Preference will be given to applicants who have demonstrated financial need. Recipients must meet the minimum academic requirements for an award as defined by the University. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships. The award will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

The Women’s Association of Memorial University of Newfoundland Faculty/Staff Scholarship

The Women’s Association of Memorial University of Newfoundland (WAMUN) has established a $1,200.00 annual scholarship available to students in any faculty or year at Memorial University of Newfoundland, providing they are either:

a. children of full-time faculty or staff; or
b. children of deceased or retired faculty or staff, who at the time of death or retirement, were employed full-time.

An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships. This scholarship is based on scholarship standing.

The Women’s Association of Memorial University of Newfoundland Mature Student Undergraduate Scholarship

This scholarship, valued at $1,200.00, is awarded annually from funds donated by the Women’s Association of Memorial University of Newfoundland. It is restricted to women enrolled in full-time undergraduate studies at Memorial University of Newfoundland who are entering or returning, having been away from full-time study for a period of three years or more. They must have been residents of Newfoundland and Labrador for at least a year prior to enrolling. The Women’s Association of Memorial University of Newfoundland Single Parent Undergraduate Scholarship

This scholarship, valued at $1,200.00, is awarded annually from funds donated by the Women’s Association of Memorial University of Newfoundland. It is restricted to single parents enrolled in any faculty, school or year of study at Memorial University of Newfoundland. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships. The Scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of financial need and scholarship standing.

The Women’s Association of Memorial University of Newfoundland Undergraduate Scholarship

This scholarship, valued at $1,200.00, is awarded annually from funds donated by the Women’s Association of Memorial University of Newfoundland. It is restricted to undergraduate students who are beyond second year of studies and who will continue at Memorial University of Newfoundland in an academic program. The Scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing.
Dr. James A. Wright Memorial Scholarship
One annually funded scholarship is established by a gift from Leprechaun Resources Ltd. in memory of Dr. James A. Wright, former professor in the Department of Earth Sciences. The scholarship, valued at $1,000, is available to full-time undergraduate students in their second year of study at Memorial University of Newfoundland with a preference for students enrolling at Grenfell Campus. To be eligible, students must meet the minimum academic requirements for a scholarship and must have graduated from a high school on the West Coast of Newfoundland, as defined by the University. Preference will be given to students pursuing any area of study within the Faculty of Science or the Faculty of Engineering and Applied Science. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

The Zonta Club Scholarship
This scholarship has been established by members of the Zonta Club to encourage and assist women to develop their full academic potential. Valued at a minimum of $1,000.00, it is open to women enrolled in full-time undergraduate studies at Memorial University of Newfoundland who are entering or returning, having been away from full-time study for a period of five years or more. It will be awarded in Winter semester based on Fall semester’s results whereby a minimum average of 75% will be required. In deciding on candidates of equal academic attainment, financial need may be considered. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships.

4.2 Faculty of Arts
The following are available to Faculty of Arts students based on a recommendation from the Dean, Faculty of Arts or the appropriate Director or Department Head.

The Atreya-Haritha Scholarship in Mathematics
This scholarship is the result of a generous donation by Dr. K.R. and Nandini Kothandaraman. Valued at $1000 annually, it will be awarded on the basis of scholarship standing to a full-time student, either a senior level undergraduate or a graduate student in Mathematics and/or Statistics. In the case of an undergraduate student, the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Head, Department of Mathematics and Statistics. In the case of a graduate student, it will be awarded by the School, Dean of Graduate Studies, also upon recommendation of the head, Department of Mathematics and Statistics.

The Edna Baird-Stephenson Scholarship in Gender Studies
This scholarship, valued at $500.00, has been established by the Memorial University of Newfoundland Alumni Association, through its Annual Fund. It honours distinguished alumna Edna Baird-Stephenson, B.A., B.H.S., one of the first female graduates of Memorial University College and long-time employee of Memorial University of Newfoundland, now retired. The scholarship is open to full or part-time students enrolled in the Gender Studies Program at Memorial University of Newfoundland who have successfully completed a minimum of 21 credit hours in two of the three semesters in the previous scholarship year and achieved a minimum 75% average at the end of those two semesters. It is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, acting on a recommendation from the Head, Department of Gender Studies.

Marcella M. Besaw Memorial Volunteer Award
This award has been established by the family of Marcella M. Besaw (1959-2010). Mrs. Marcella Besaw was known for her generosity to others and her service to her community. This scholarship is valued at $200.00 annually and will be awarded to a student entering the Bachelor of Social Work (B.S.W.) as a Second Degree program. The recipient must have demonstrated outstanding commitment to the service of humanity through involvement in volunteer/work experience relevant to the study of social work. The recipient must meet the minimum academic requirements for an award as defined by the University. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, School of Social Work.

The E.A. Bishop (1889-1953) Memorial Scholarship
This scholarship, established to honour the memory of E.A. Bishop, a teacher in Newfoundland and Labrador, is the result of a generous donation to Memorial University of Newfoundland by his son, John. Interest on the fund will provide a scholarship to full-time undergraduate students after completion of the first year at Memorial University of Newfoundland who are dependants of teachers in the public school system of Newfoundland and Labrador. Applicants must be students in the Faculties of Arts or Science and be of scholarship standing. The scholarship is valued at approximately two semesters tuition for five courses. If, in any year, there is no eligible candidate, the scholarship will not be awarded; however, a student may be awarded the scholarship more than once. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships.

Bishop Spencer College Alumni Association Bursary
This bursary was established by the Bishop Spencer College Alumni Association. The bursary will be awarded at a portion of the income from the endowment and will be awarded annually to a female student who is enrolled in the fourth year of any undergraduate degree program in the Faculty of Arts. The recipient must meet the minimum academic and financial requirements for a bursary as defined by the University. The Bursary will be administered by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on the basis of a recommendation from the Dean, Faculty of Arts.

The Dr. Jim Black Award in Linguistics
This prize, valued at $250, is made possible through an annual donation from Jim Black, a retired faculty member in the Department of Linguistics. It will be awarded to a first or second year student who receives the highest combined marks in both Linguistics 1103 or 2103 and Linguistics 1104 or 2104 within the same academic year. The recipient must have declared a major in Linguistics by the end of the academic year in which the courses were completed. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head of the Department of Linguistics.

W.J. Blundon Scholarship
The W.J. Blundon Scholarship, in memory of Professor W.J. Blundon, Head of the Department of Mathematics and Statistics from 1948 to 1976, will be awarded on the basis of academic excellence to students majoring in Mathematics and/or Statistics. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head of the Department of Mathematics and Statistics.

The Marion and Rod Browne Family Memorial Scholarship
This scholarship established by Mr. Rod Browne and his wife Marion in memory of deceased members of the Browne family is tenable at Memorial University of Newfoundland and is valued at a portion of the income on the investment. It is based on academics and awarded to a student majoring in French. Selection will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Head, Department of French & Spanish.

The Tom Budai Award in Business and Economics
The Tom Budai Award in Business and Economics, valued at $1000, is funded by Tom Budai, a 2009 graduate of the Faculty of Business Administration and a former member of the Memorial Seahawks men’s basketball team. The award is available to a full-time student enrolled in the Bachelor of Commerce (Co-op) program, Bachelor of Business Administration program, Bachelor of Arts in
Economics program or Bachelor of Science in Economics program. The candidate must be in at least her/his second year of studies and meet the minimum academic requirements for an award as defined by the University. Preference will be given to candidates who have been active in varsity athletics at Memorial University of Newfoundland and/or who have a demonstrated record of active community, volunteer work and/or involvement with student organizations at this University. The award will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation from the Dean, Faculty of Business Administration or the Head, Department of Economics.

The Maurice J. Burke Memorial Scholarship
This scholarship, valued at a portion of income on the investment, was established by the family of the late Maurice Burke. Mr. Burke served in the Provincial Department of Education in the Teacher Certification Division for thirty-five years. He was also a columnist and author with a personal and professional interest in Newfoundland culture and folklore celebrating the uniqueness of Newfoundland outport life. It will be awarded alternately to a full-time graduate or undergraduate student in the Folklore Department on the basis of scholarship standing. In the case of undergraduates it will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. In the case of graduates it will be awarded by the Dean, School of Graduate Studies. In both cases the scholarship will be awarded on the basis of a recommendation from the Head, Department of Folklore.

CFUW St. John’s Scholarship for Gender Studies
This scholarship has been established by The Canadian Federation of University Women (CFUW) St. John’s. One scholarship, valued at $2000, may be awarded annually, to a woman enrolled full-time in the Master’s program in the Department of Gender Studies. To be eligible, candidates must have scholarship standing. The scholarship will be awarded by the Dean, School of Graduate Studies on the recommendation of the Head, Department of Gender Studies.

The Canadian Tire Scholarships
These scholarships are the result of an endowment to the University by Canadian Tire Corporation Limited as part of their commitment to community service and to Memorial University of Newfoundland via the Opportunity Fund Campaign. The endowment will fund three scholarships in the Faculty of Arts, valued at the annual interest on the initial endowment. The scholarships will be awarded to undergraduate students entering their third year of study in English. If a scholarship is not awarded to students entering their third year, the funds will be added to the initial endowment. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Head of the three academic departments.

Chevron Canada Ltd. Endowed Scholarships in Business, Earth Sciences, Economics and Engineering
These scholarships, valued at a portion of the income from the endowment, will be awarded starting in 2011, to full-time students enrolled in at least their second year of Engineering and Applied Science, Earth Sciences, Business or Economics; in a given year, it is anticipated that students from all four faculties will be represented. Selection will be based on scholarship standing as well as expression of interest in potential employment in the oil and gas industry, and signalling of career location mobility. Level of service to community, or leadership will also be considered. Students may receive the scholarship in more than one year. They will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Head of the three academic departments.

Chevron Canada Ltd. Term Scholarships in Business, Earth Sciences, Economics and Engineering
These scholarships, valued at $4,000, will be awarded to full-time students enrolled at least their second year of Engineering and Applied Science, Earth Sciences, Business or Economics; in a given year, it is anticipated that students from all four faculties will be represented. Selection will be based on scholarship standing as well as expression of interest in potential employment in the oil and gas industry, and signalling of career location mobility. Level of service to community, or leadership will also be considered. Students may receive the scholarship in more than one year. They will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Head of the three academic departments.

Reverend Professor A.C. Cheyne Scholarship in Religious Studies
This fund has been established by the estate of the late Reverend Professor A.C. Cheyne. It is based on scholarship standing and is awarded to a full-time undergraduate student in any year of study who is majoring in Religious Studies. The scholarship will be valued at a portion of the income on the investment. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head of the Department of Religious Studies.

The Captain James Cook Memorial Scholarship
A fund was established in 1979 by members of the Department of Geography to honour the memory of Captain James Cook (1728-79), explorer, navigator and cartographer, whose years of painstaking mapping of the coasts of Newfoundland and Labrador laid the basis for a comprehensive and scientific knowledge of the geography of the province. One or more scholarships, valued at not less than $600.00, will be awarded annually by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Department of Geography to a student or students demonstrating particular merit in Geography.

The Clayton and Alice Cook Scholarship
This scholarship has been established by Mr. Clayton D. Cook, retired Newfoundland/CN Railway Trainman. The scholarship will be valued at a portion of the income on the endowment and awarded annually. To be eligible, candidates must be enrolled full-time in an undergraduate program at Memorial University of Newfoundland, be residents of Newfoundland and Labrador (as defined by the University) and have scholarship standing. First preference will be given to candidates who are sons, daughters, grandchildren, great-grandchildren or wards of the Newfoundland/CN Railway Trainmen. When an eligible student meeting these criteria cannot be identified, second preference will be given to students enrolled in the Newfoundland Studies program. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

Michael Cook Scholarship
The Michael Cook Scholarship will be awarded annually to a student who has completed English 3350 (Theatrical Performance) and who shows definite promise and purpose in pursuing the study of theatre and drama at Memorial University of Newfoundland. The value of the scholarship is $1,000.00. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head of the Department of English Language and Literature.

The John and Jane Crosbie Scholarship
This scholarship is the result of an endowment to the University started by the Honourable John C. Crosbie, P.C., O.C., Q.C. in 1996 while he was Chancellor and Campaign Chair and further funded by volunteers of The Opportunity Fund in honour of Mr. Crosbie’s commitment to Memorial University of Newfoundland. Valued at a portion of the annual income on the initial endowment, the scholarship(s) (each valued at a minimum of $1,000.00) will be awarded to one or more undergraduate student(s) beyond first year in the Faculty of Arts. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Dean, Faculty of Arts.
The John and Anna Daley Scholarship
This scholarship, valued at a minimum of $1,000.00 annually, has been established by the Daley family in honour of their parents John and Anna. It will be awarded on the basis of scholarship standing to an undergraduate student beyond first year in the Faculty of Arts. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean, Faculty of Arts.

The Dr. Madeleine Darte Scholarships in English
These scholarships, up to four each year and having a value of not less than $250.00 each, have been established by Mrs. J.M. Darte and Dr. France Darte McCabe in memory of Dr. Madeleine Darte, Lecturer and Assistant Professor of English at this University from 1971-75. In awarding these scholarships, preference will be given to students in the Honours program in English, but students in good standing in the General Degree program in English will also be considered. In addition to the student’s academic record, financial need may also be taken into account. Applications for these scholarships should be sent to the Head of the Department of English. Awards will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Department of English.

The Sally Davis Scholarship
The Sally Davis Scholarship has been established to celebrate the memory and life work of Sally Davis. Contributions to the scholarship fund have come from family and friends who were so lovingly and generously influenced by Sally during her long life. The scholarship, valued at $1000.00, will be awarded annually in the Spring Semester. Eligible candidates must be full-time students in the Master of Gender Studies program. Preference will be given to a candidate studying in one of the following areas: peace and international understanding, literacy, children, labour movement, gun control, or environment. If there is no qualified graduate applicant in a particular year, the award may be offered to an undergraduate (who is registered in a minor in Gender Studies who is in financial need. An individual may receive the award twice but no more. In the case of graduates it is awarded by the Dean of Graduate Studies upon recommendation of the Head, Department of Gender Studies Program. In the case of undergraduates, the scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Head, Department of Gender Studies Program.

The Gladys Deutsch Travel Bursary for Arts
This travel bursary was established through a bequest by Gladys Deutsch, a retired employee of the GEL Library and a supporter of the arts. It is valued at a portion of the income from the endowment and will be awarded annually to a full-time, undergraduate student who is participating in one of the overseas Field Schools or study abroad programs in the Faculty of Arts. The recipient must meet the minimum academic requirements for a bursary as defined by the University and have demonstrated financial need. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Head, Faculty of Arts.

The Dorothy Davis Scholarship
This scholarship was established by Ernest Joseph Ennis of Mearasheen, Placentia Bay, retired School Supervisor, in memory of Dr. Hatcher, Ms. Monnie Mansfield, and Professors Fraser, Gillingham, and Andrews of the Memorial University College. This scholarship, valued at the accrued interest, shall be awarded to an entrance student of scholarship standing with preference to a student planning to study Economics or Political Science.

The Ernest Joseph Ennis Scholarship
This scholarship was established by Ernest Joseph Ennis of Placentia Bay, retired School Supervisor, in memory of Dr. Hatcher, Ms. Monnie Mansfield, and Professors Fraser, Gillingham, and Andrews of the Memorial University College. This scholarship, valued at the accrued interest, shall be awarded to a first-year undergraduate student of scholarship standing with preference to a student planning to study Economics or Political Science.

The David and Ethel Evans Scholarship in History
The David and Ethel Evans Scholarship in History was established by Thomas Evans in memory of his parents. Valued at $1500 annually, it is available to a full-time student with scholarship standing who is enrolled in the final year of the Honours Degree Program in History. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on a recommendation of the Head, Department of History.

The Faculty of Arts Annual Fund Awards
These awards are made possible each year by the generous donations of alumni and friends to the Faculty of Arts Annual Fund. Valued at a minimum of $500 they will be granted annually to undergraduate students enrolled in a Faculty of Arts program. First preference is for students enrolled in a study abroad program within the Faculty of Arts. The recipients must meet the minimum academic requirements for an award as defined by Memorial University of Newfoundland and the number of awards available annually will be at the discretion of the Dean, Faculty of Arts. The awards will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Arts.

The Faculty of Arts Dean’s List Scholarship
This scholarship, established by donors to the Opportunity Fund who have directed that their donations be used for scholarships within the Faculty of Arts, is valued at approximately $1,000.00 annually. It is awarded to a student who achieves high ranking on the Dean's List of the Faculty of Arts and who meets the requirements for scholarship standing, but who is not in receipt of other significant scholarship funding. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on a recommendation from the Dean, Faculty of Arts.

The Leida Finlayson Memorial Scholarship
This fund has been established by relatives and friends of Leida Finlayson, former General Manager of the Newfoundland Historic Trust. The scholarship, valued at a portion of the accrued interest, is to be awarded annually to a Memorial University of Newfoundland undergraduate student, beyond second year, studying political science and/or history. Based on scholarship standing and financial need the scholarship will be awarded to a resident of Newfoundland and Labrador (a person who has maintained permanent residence in the province for a minimum of twelve months immediately prior to entering the University). The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on a recommendation from the Dean, Faculty of Arts.

The E.B. Foran Memorial Scholarship
This scholarship, awarded in memory of the late Mr. E.B. Foran, longtime associate of municipal government in St. John’s, is valued at $500.00 and is sponsored by the Newfoundland and Labrador Federation of Municipalities. It is open to students beyond first year at...
Memorial University of Newfoundland who demonstrate scholarship standing and who are majoring in Political Science with an emphasis on municipal government. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on a recommendation from the Head, Political Science Department.

The Senator Eugene Forsey Scholarship
Established by the Government of Newfoundland and Labrador, this scholarship honours a native Newfoundlander, Senator Eugene Forsey, as one of Canada's foremost authorities on the Canadian Constitution, and recognizes his great commitment to Canada and this province. The scholarship, tenable at Memorial University of Newfoundland, and valued at $2,000.00, shall be awarded to a student in third year, or beyond, who has shown excellence in Canadian Policy Analysis or Canadian Governmental Studies.

The G. Alain Frecker and Helena M. Frecker Memorial Scholarship
This scholarship has been established by the family of G. Alain Frecker and Helena M. Frecker to honour their parents’ life-long commitment to Memorial University of Newfoundland and to the pursuit of excellence in education. Helena M. Frecker was the first graduate of Memorial College and a long-time faculty member in the Department of English at Memorial University of Newfoundland. Dr. G. Alain Frecker was the first faculty member in the department of Engineering at Memorial College. He maintained a close relationship with Memorial University of Newfoundland as a senior public servant, as a member of the Provincial Cabinet, and as University Chancellor from 1971 to 1979. This scholarship, tenable at Memorial University of Newfoundland and valued at a portion of the accrued interest on the endowment, will be awarded to an undergraduate student beyond second year in the Faculty of Arts and majoring in the Humanities or any Social Science. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Dean, Faculty of Arts.

Daniel Freeman Memorial Scholarship
This scholarship was established from the contributions of many family members, friends, and fellow students in memory of Danny Freeman, a former Engineering student at Memorial University of Newfoundland. The scholarship, valued at a portion of the accrued interest, will be awarded annually, on a rotating basis, to students enrolled in either Engineering or Mathematics. Preference will be given to candidates with disabilities with consideration given to quality of character and overall perseverance. If a successful candidate is not selected by the discipline, the remaining portion may be awarded to an eligible student from the other discipline. This scholarship is tenable at Memorial University of Newfoundland and will be awarded to an outstanding student majoring in Engineering or Mathematics on a rotating basis in a given year will be considered. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Engineering or the Head, Department of Mathematics and Statistics.

The David Freeman Memorial Scholarship in English
This scholarship honours Dr. David Freeman, a widely admired Grenfell English professor whose scholarship and zest inspired a wide circle of students, friends and colleagues. A well-known scholar of the editing of Renaissance literary texts, Dr. Freeman took his scholarship out of the classroom to enliven a broad range of presentations, public readings and dramatic performances. This scholarship is made possible through the family of Dr. Freeman and the efforts of the English faculty at Grenfell Campus, Memorial University of Newfoundland, and friends of Dr. David Freeman. Valued at a portion of the income on the investment, it will be given annually to an English Major in his/her second year of study pursuing a Bachelor of Arts in English at Grenfell Campus, who meets scholarship standing as defined by the University and shares Dr. Freeman’s passion for literature. It will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Scholarship Committee of Grenfell Campus in consultation with the Chair, English.

The Allan and Clara Gillingham Scholarship in Russian Studies
On the occasion of their fiftieth wedding anniversary, this scholarship has been established by Mr. and Mrs. Gillingham, who both hold fond memories of studying the Russian language themselves. Valued at $500.00, this scholarship will be awarded annually to a student who is pursuing a program of Russian Studies at Memorial University of Newfoundland. Candidates will be selected on the basis of academic excellence. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on the recommendation of the Head, Department of German and Russian.

James A. Good Scholarship in Philosophy
This scholarship has been established by friends and colleagues in Memory of James A. Good. Mr. Good was a successful investment banker and Partner at Capital Canada Limited in Toronto. He earned his B.A. in Philosophy and Political Science from Memorial University of Newfoundland, an M.A. in Philosophy from Dalhousie University, and undertook doctoral studies in Philosophy at the University of Toronto where he was also a lecturer. He was Chief of Staff to the Honourable John C. Crosbie, a position he maintained across the portfolios of Justice, Transport, Finance, International Trade and Fisheries. Valued at a portion of the income on the investment, the scholarship will be awarded to an undergraduate student majoring in Philosophy on the basis of scholarship standing and financial need. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of Philosophy.

The Graham Family Scholarship
This scholarship, established by Mrs. Kathleen Birchall and Dr. David Graham, is valued at a portion of the income on the investment. It will be tenable at Memorial University of Newfoundland and will be awarded to an outstanding student majoring in French with preference given to students enrolled in the Honours program. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Head, Department of French and Spanish.

The R. Bertram Green Class Scholarship
This scholarship is the result of a bequest to the University by Rev. Dr. Robert Bertram Green. Valued at the annual interest on the initial endowment, it will be awarded to an undergraduate student in second or third year in the Faculty of Arts, majoring in either Classical or Modern Languages, Economics, English, History, Philosophy, or Political Science. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Dean, Faculty of Arts.

Greystone Managed Investments Scholarship
This scholarship, valued at a portion of the income on the investment, is made possible by a generous contribution from Greystone Managed Investments. This scholarship will be awarded, to an undergraduate student beyond first year, on a rotating basis between the Faculty of Arts and the Faculty of Science. Based on scholarship standing it will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of the Faculty on rotation.

The Mary A. Griffiths Memorial Award for Folklore Field Research (Undergraduate)
This fund has been established by the Memorial University of Newfoundland Folklore Society in memory of Mary A. Griffiths, B.A. (Folklore). Valued at a portion of the income on the endowment, one or more awards will be granted annually to undergraduate folklore students who complete a superior paper based on original field research. Selection will be made on the basis of a submitted paper including original field research that was completed as part of the requirements of an undergraduate Folklore course during the previous twelve months. Application forms and guidelines are available from and should be submitted to the Department of Folklore. The deadline date for submission of applications is January 31. If there are no suitable candidates in a given year the bursaries will not be awarded.
The awards will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head of the Department of Folklore.

The Alan D. Hall Award
This award has been established in memory of Alan D. Hall by his friends and family. A long-time faculty member in the Department of English at Memorial University of Newfoundland, he was deeply engaged in Music and Theatre throughout his life. The award, valued at a portion of the income on the investment, will alternate between the School of Music and the Faculty of Arts on a yearly basis. For the School of Music the award will go to a student beyond first year who demonstrates a high level of achievement on their instrument of applied study as well as involvement in and commitment to in and community. For the Faculty of Arts the award will go to a student beyond first year enrolled in the program leading to a Bachelor of Arts degree with a major in Drama and Music. The eligible student must demonstrate a high level of achievement in theatre, as well as involvement in and commitment to the theatre community. To qualify for this award, students must meet the academic requirements for an award as outlined by the University. The award will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music or the Dean, Faculty of Arts.

The Professor Peter Hart Memorial Scholarship
This scholarship has been established in memory of Canada Research Chair in Irish Studies and Department of History Professor, Dr. Peter Hart. His work was marked by a commitment to writing well and accessibly, and by his innovative approach to research and analysis – in particular for opening up new questions through his application of social science methods and concepts to problems of Irish history. The scholarship, valued at a portion of the income on the investment, will be awarded annually to a full-time doctoral student in the Faculty of Arts. Candidates must meet the minimum academic requirements for the scholarship as defined by the University and applications must include academic transcripts, a research statement of no more than 500 words, a writing sample, two letters of reference and an academic CV. In the event of more than one eligible candidate, preference will be given to a student whose research focus falls into one or more of the following areas: Irish history or politics; Newfoundland and Labrador history or politics; political violence; or revolution. The Scholarship will be awarded by the Dean, School of Graduate Studies, on the recommendation of the Awards and Medals Committee.

The Gunther Hartmann Scholarship
This scholarship has been established by family, friends and colleagues in memory of Dr. Gunther Hartmann who was a member of the Department of Political Science from 1968-2000. Dr. Hartmann fostered student interest in international affairs not only through his teaching, but through the United Nations Association and the Model United Nations program. In awarding the scholarship preference will be given to Political Science students, third year or beyond who is a Political Science student, third year or beyond who is a Political Science student, third year or beyond who is a Political Science student, third year or beyond who is a Political Science student, third year or beyond who is a Political Science student, third year or beyond. International relations, International Organization, or International Law and has been active in Model United Nations or similar organizations. The Michael Harrington Research Prize in Newfoundland History
This award was established by the family of Michael Francis Harrington Sr., journalist, author and Newfoundland historian. The prize is valued at a minimum of $500.00 and will be awarded annually to an undergraduate or graduate student doing research in Newfoundland history. To be considered, undergraduate students must be history majors planning to do research for a course in Newfoundland history or for their honours thesis. Graduate students must be writing a thesis on some aspect of Newfoundland history. In some instances it may be awarded as a travel grant which will assist students with travel expenses incurred while undertaking their research. In the case of undergraduates it will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Head, Department of History. In the case of graduates it will be awarded by the Dean, School of Graduate Studies, also upon recommendation of the Head, Department of History.

Heaslip Scholarship
This scholarship is made possible by a generous donation from The William and Nona Heaslip Foundation. Two scholarships, valued at $15,000.00 each, will be available to students in their second year of undergraduate studies at Memorial University of Newfoundland. To be eligible students must be registered for full-time studies, must have scholarship standing, must be in financial need, and must have demonstrated outstanding involvement in university and/or community affairs. Preference will be given to students in the Faculty of Arts. This scholarship is renewable for an additional two years providing full-time registration, scholarship standing, financial need and continued outstanding involvement in university and/or community affairs are demonstrated. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on a recommendation from the Dean, Faculty of Arts.

The Aidan Hennebury Memorial Scholarship in Classics
This scholarship is the result of an endowment to Memorial University of Newfoundland via the Opportunity Fund Campaign by the law firm of Martin, Whalen, Hennebury & Stamp in memory of former partner Mr. Aidan Hennebury. The donation will fund a scholarship valued at the annual interest on the endowment. The scholarship will be awarded to an undergraduate student beyond second year who is majoring in Classics. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Head, Department of Classics.

The Elizabeth C. Hesson Memorial Scholarship in German
This scholarship was established in memory of Dr. Elizabeth C. Hesson, Head of the Department of German and Russian from 1986 to 1989 and a member of that Department from 1969 to 1989, through the generosity of her family, colleagues and friends. The scholarship has a value of $1,000.00, and is normally awarded to a German major who has completed at least the second year of study at Memorial University of Newfoundland and who has demonstrated a high level of academic performance in German. The scholarship shall be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Head, Department of German and Russian, and is designed to assist the student to undertake a program of German studies in German-speaking Europe. In addition to academic excellence, financial need may be taken into account. This scholarship will not necessarily be awarded every academic year.

The Hollinger English Language and Literature Scholarship
This scholarship, donated by Hollinger Inc., will be awarded to a Memorial University of Newfoundland student who is beyond second year and is majoring in English Language and Literature. It will be valued at the annual interest and will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of Scholarship Standing and upon recommendation of the Head, Department of English.

The A.C. Hunter Travel Award in French
This award has a value of not less than $600.00 and is awarded annually. It has been established in memory of Dean A.C. Hunter through the generosity of Mrs. Hunter, the Provincial Government of Newfoundland, the Board of Regents of Memorial University of Newfoundland and Dean Hunter's former students and friends. The award shall take the form of a travel grant to a student, in second year or beyond, majoring or minoring in French who wishes to pursue a program of study of one or more semesters' duration, in French language, literature or culture, at a recognized institution in metropolitan France. Eligibility for this award requires a minimum of clear
academic standing (as defined by the University) in the previous scholarship year. The award shall be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on the recommendation of the Department of French and Spanish.

The Muriel H. Hunter Award in Spanish
This award, valued at $600.00, is awarded out of income derived from a bequest to the University by the late Mrs. Muriel H. Hunter, wife of the late Dr. A.C. Hunter and former Lecturer in Spanish at the Memorial University College. The award shall take the form of a travel grant to a student, in second year or beyond, majoring or minor in Spanish who wishes to pursue a program of study of one or more semesters' duration, in Spanish or Spanish-American language, literature or culture, at a recognized institution in metropolitan Spain or Latin America. Eligibility for this award requires a minimum of clear academic standing (as defined by the University) in the previous scholarship year. The award shall be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on the recommendation of the Department of French and Spanish.

The Imperial Tobacco Canada Scholarship in Archaeology
This scholarship, established by Imperial Tobacco Canada in support of the Opportunity Fund Campaign, has a minimum value of $2,000.00 annually. It will be awarded to a senior student in archaeology who is registered in (or is planning to enter) the honours program, specializing in historic archaeology. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Head, Department of Archaeology.

The H.H. Jackson Travel Scholarship in German
This scholarship was established upon the retirement of Dr. Herbert H. Jackson, Professor Emeritus and first Head of the Department of German and Russian from 1967 to 1980, through the generosity of his colleagues and students. The scholarship has a minimum value of $500.00 and is awarded annually by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, upon the recommendation of the Department Head, to a candidate who has completed at least the second year of study at Memorial University of Newfoundland, has demonstrated a high level of academic performance in German, and is planning to undertake a program of studies and/or work assignment in a German-speaking country.

The Jeroboam Poetry Prize in English
The proceeds from a sum of money donated to the University in 2001 by the editors of Jeroboam Books will be awarded in an annual poetry competition administered by the Department of English, Memorial University of Newfoundland. The competition will be open to full-time or part-time students in any year of study at the University upon submission of original, unpublished work, in keeping with the tradition of Jeroboam, the work should reflect some aspect of traditional or contemporary Newfoundland. Entry forms and further information may be obtained by contacting the Department of English. The selection of winners will be the responsibility of a special committee composed of the Department of English faculty members. The prize will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of English Language and Literature.

The Barend Kieft Memorial Award
This award was established by friends of Dr. Barend Kieft, in his memory. It is a book prize to be given annually to a student in Philosophy. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Head, Department of Philosophy.

The Dr. B.K. Kim Scholarship in Statistics
This scholarship will be awarded annually to an undergraduate student whose major subject of study is Statistics. The award honours the memory of the late Dr. B.K. Kim who taught in the Department of Mathematics and Statistics from 1976-84. The scholarship, with a value of at least $500.00, will normally be based on academic achievement in third year and/or fourth year courses and will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of Mathematics and Statistics.

The Cornelia Learning/Annie Butler Moores Scholarship
In memory of her maternal and paternal grandmothers, Mrs. Dorothy Young of Pasadena, California, has established the Cornelia Learning and Annie Butler Moores Scholarship in the Faculty of Arts. This perpetual scholarship, valued at approximately $500.00, is open to Arts students of scholarship standing with demonstrated financial need.

The John and Lucy Lee and Family Memorial Bursary
This bursary has been established by family members to honour the memory of John and Lucy Lee of Petty Harbour and their deceased children. It is valued at a portion of the interest on the endowment and will be awarded to a full-time student in Religious Studies. The recipient of this bursary will have demonstrated scholarship standing and financial need. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Head, Department of Religious Studies.

The Mrs. E.D. Matthews Memorial Scholarship in Mathematics and Statistics
This scholarship honours the memory of the late Mrs. Evelyn Matthews who taught in the Department of Mathematics and Statistics, Memorial University of Newfoundland, from 1959-78. It has a value of at least $500.00, and will be awarded on an annual basis to an undergraduate student whose major subject of study is Mathematics or Statistics. The scholarship will be based on academic merit and will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of Mathematics and Statistics.

The Susan McCorquodale Memorial Scholarship
Established by her friends and colleagues, this scholarship honours the memory of Susan McCorquodale, former member of the Political Science department at Memorial University of Newfoundland. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships and shall be awarded to a senior student majoring in Political Science who is concentrating in one of the areas to which Susan was committed - Newfoundland Politics, Public Policy or Public Administration. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of a recommendation from the Head, Department of Political Science.

The Reverend G. Lloyd Morgan Memorial Scholarship
This scholarship, awarded annually, has been donated by Mr. Baxter Morgan and his wife Lorraine to the Religious Studies Department of the University in memory of Mr. Morgan's brother, The Reverend G. Lloyd Morgan, B.A., B.D., who served with the United Church Ministry in Newfoundland for over twenty-five years.

It has a value of $500.00 and is awarded for academic excellence to a student who has completed two years of study in the Religious Studies Department of the University. Preference will be given to a student who has a major interest in the comparative study of religion.

The scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Religious Studies Department.

The John M. and Elsa S. Morgan Scholarships
These scholarships have been bequeathed to the University by the late Dr. John M. Morgan, B.Sc., M.D., and have been named to commemorate Dr. Morgan and his wife Elsa. Up to twenty-five scholarships will be made available annually to undergraduate students who have completed at least one year of studies at Memorial University of Newfoundland within the areas specified below and who will...
be continuing in these programs. The scholarships, valued at a minimum of $1,000.00 each, will be disbursed as follows:
- up to five to the Faculty of Medicine
- up to four to the School of Nursing
- up to four to the Faculty of Education
- up to four to the Department of Philosophy
- up to two to the Department of Anthropology
- up to two to the Department of Archaeology
- up to two to the Department of Religious Studies (with preference to students of comparative religions)
- up to two to students in Newfoundland Studies

The scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the appropriate Dean/Director/Department Head. Preference will be given, where possible, to students from the Port-de-Grave District.

**Rick Morris Memorial Bursary**

This bursary was established in memory of Rick Morris by his family and friends. Rick was a caring individual who was deeply committed to Newfoundland and worked with a variety of individuals, organizations, and government. He was a mentor to many helping professionals, who regularly sought his counsel on personal and professional issues. He was deeply concerned with violence against individuals, particularly children. He contributed to the survival of Mount Cashel. He was involved in the establishment of Unified Family Court's mediation services and frequently collaborated with the aboriginal and senior's communities. The bursary, valued at a portion of the income from the endowment, will be awarded annually to a student who is in financial need and meets the minimum academic requirements for a bursary. It will be awarded on a rotating basis to a student enrolled in one of the following academic areas: Year 1 - School of Social Work, Year 2 - Faculty of Education, Year 3 - School of Human Kinetics and Recreation, Year 4 - Department of Gender Studies, and Year 5 - School of Nursing. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean of the appropriate academic unit for which the bursary is being awarded.

**The Mary Florence Mugford (Lane) Memorial Award for Social Work**

This travel award was established by the family of Mary Florence Mugford (Lane) to honour their mother as a woman who persevered in life. This award is valued at a portion of the income from the endowment and will be awarded annually. The recipient will be a student in the School of Social Work who is traveling to a rural placement in the field of mental health and/or addictions. Preference will be given to a student who graduated from a high school outside of the St. John's metropolitan area. The recipient must meet the minimum academic requirements for an award as defined by the University. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean, School of Social Work.

**The MUN Classics Society Prize in Latin**

This prize has been established by the MUN Classics Society of 2001-2002 to reward students achieving academic excellence. This prize will be valued at approximately $150.00 annually. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of a recommendation fro the Head, Department of Classics, to the student who is working toward an undergraduate degree in Classics and receives the top mark in the Classics 1120 and 1121 (Introduction to Latin) courses on the St. John's campus.

**The Stephan Muzychka Bursary in Spanish**

This bursary, valued at a portion of the annual interest, has been established by the family of Professor Muzychka who taught Spanish Language and Literature at Memorial University of Newfoundland from 1960 until his death in 1985. Mr. Muzychka was born in 1926 in Pukiw, Ukraine. He attended the Ukrainian Teacher's Training College and later the University of Madrid where he received his MA in Philosophy in 1958. He joined Memorial University of Newfoundland’s Department of Modern Languages (at the old Parade Street Campus) and later became Head of the Department of Spanish. First preference, for this bursary, will be to a student majoring or minoring in Spanish who is beyond second year. If no candidate is available from the first preference, the bursary will be awarded to a student beyond second year studying modern languages. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing, financial need and a recommendation from the Head, Department of French and Spanish.

**The Newfoundland & Labrador Hydro Scholarships**

These scholarships are the result of an endowment to the University provided by Newfoundland and Labrador Hydro. Valued at the annual interest on the endowment, up to ten of these scholarships will be awarded, initially in amounts of $1,000.00 each and increasing as income permits, to undergraduate students in the Faculty of Arts at the second year and beyond. Half of the available scholarships will be for students of scholarship standing majoring or minoring in one of the interdisciplinary programs in the Faculty, and half will be for students of scholarship standing who are named to the Dean’s List and who achieve exceptionally high overall averages, normally 85% or better. Those directed at students enrolled in interdisciplinary programs will be awarded on the recommendation of interdisciplinary Program Co-ordinators; those for Dean's List students will be awarded on the recommendation of the Dean of Arts. In both cases financial need may be taken into consideration. Preference will be given to students meeting these criteria who are not already in receipt of significant scholarship funding from other sources.

**The Newfoundland St. Andrew's Society Scholarship**

This scholarship is the result of a gift from the Newfoundland St. Andrew’s Society to Memorial University of Newfoundland. Valued at a portion of the interest on an endowment, the scholarship will be awarded to a student from the Faculty of Arts whose studies and accomplishments most closely support the aims of the Newfoundland St. Andrew’s Society; To foster and encourage the love of Scotland, its history, literature, music and national games in a Newfoundland context. In the case of undergraduate students the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing. In the case of graduate students the scholarship will be awarded by the Dean, School of Graduate Studies. In both cases financial need may be taken into consideration. Preference will be given to students meeting these criteria who are not already in receipt of significant scholarship funding from other sources.

**The Honourable Fabian A. O'Dea Q.C., LL.D. Scholarship**

This scholarship has been established by the O'Dea family in memory of their father, the Honourable Fabian O’Dea; Memorial University of Newfoundland Alumnus, Rhodes Scholar, Lieutenant Governor of Newfoundland, and recipient of honorary degrees from both Memorial University of Newfoundland and The Law Society of Newfoundland. It is valued at $1,000 per year. To commemorate Dr. O’Dea’s work in Newfoundland cartography, the scholarship is to be awarded to a student majoring in Geography who achieves scholarship standing. Preference is to be given to a student who is physically or learning disabled but if there is no such candidate in a given year it will be awarded to any eligible undergraduate Geography student. The scholarship is to be awarded by The Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Head, Department of Geography.

**The Dr. Paul O'Neill Scholarship for Excellence in Newfoundland and Labrador Studies**

This scholarship was established in honour of Dr. Paul O'Neill, LL.D., C.M., in recognition of his contributions to the study and promotion of Newfoundland and Labrador culture and history. The scholarship is valued at $1000 and will be awarded annually to an undergraduate student at Memorial University of Newfoundland, who is enrolled in a...
Bachelor of Arts degree program. There is no restriction by major or minor, but applicants must have shown excellence and outstanding enthusiasm and interest in some area of Newfoundland Studies as part of their degree program. Preference will be given to a student who has not received other major scholarships in the same academic year. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean, Faculty of Arts.

The Senator Gerald R. Ottenheimer Language Scholarship
This scholarship, valued at the annual interest on the initial endowment, has been established via The Opportunity Fund in memory of Senator Ottenheimer through the generosity of White Ottenheimer & Baker, Barristers & Solicitors. It will be awarded on a rotating basis to students enrolled in one of the literature programs at Memorial University of Newfoundland (graduate or undergraduate). At the undergraduate level it will be awarded on the basis of scholarship standing to a student in second year or beyond who plans to pursue one of the above noted areas of specialization. In the case of graduate students it will be awarded to a full-time student doing the Masters of Arts in one of the disciplines noted. If the successful candidate is an undergraduate, the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. If the winner is a graduate student, it will be awarded by the Dean, School of Graduate Studies. In both cases it will be awarded on the basis of a recommendation from the Dean, Faculty of Arts.

The Rt. Hon. J.W. Pickersgill Bursary in History
Jack Pickersgill was a teacher and lover of history. He believed strongly in the importance of education and was always grateful for the scholarships and bursaries that made this possible. He represented the constituency of Bonavista-Twillingate in the Canadian Commons from 1953 to 1967 and his affection for Newfoundland and Labrador lasted all his life. This bursary was established in Jack's memory by family and friends. Valued at a portion of the income on the endowment, the bursary will go to an undergraduate student in Faculty of Arts with demonstrated financial need as well as a declared major in History. The recipient must meet the minimum academic requirements for a bursary as outlined by the University. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. In the case of graduate students, it will be awarded by the Dean, School of Graduate Studies.

Mary Pittman-Robbins Scholarship in Archaeology
This scholarship, valued at a portion of the income on the endowment, has been established by students and colleagues of Mary Pittman-Robbins. The scholarship is to be awarded to a senior student in Archaeology who has completed the honours program specializing in Prehistoric Archaeology or Physical Anthropology. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Head, Department of History.

The Dr. Clarence W. Powell Memorial Scholarship
This scholarship was established in memory of honorary graduate of Memorial University of Newfoundland, Dr. Clarence W. Powell. It is valued at a minimum of $1,000.00 annually and will be awarded to a student entering the third year of the Political Science Program who has scholarship standing, has shown leadership in university and/or community activities and who has not received another scholarship administered by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Head, Department of Political Science.

The Psychology Society Award
The Psychology Society Award has been established by the students of the Psychology Society to encourage and support their fellow students. This award will be given to an undergraduate student majoring in Psychology or Behavioural Neuroscience who is beyond their second year of study and meets the minimum academic requirements for an award. It will be based on academic achievement in Psychology or Behavioral Neuroscience courses as well as involvement in the internal and external Psychology or Behavioral Neuroscience community. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of Psychology.

The Cpl. Michael J. Roberts Memorial Award in Police Studies
This award has been established in memory of Tampa Police Officer, and Memorial University of Newfoundland graduate, Cpl. Michael (Mike) Roberts. Born in Florida and raised in Newfoundland, Cpl. Roberts died tragically in the line of duty on August 19, 2009. He served his community with honour and distinction over his many years on the force and earned numerous commendations and awards. Valued at a portion of the income on the endowment, the award will go to a student with demonstrated financial need who is enrolled in the Diploma in Police Studies program at Memorial University of Newfoundland. The recipient must meet the minimum academic requirements for an award as outlined by Memorial University of Newfoundland. The award will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Coordinator, Police Studies Diploma Program.

The Bobbie Robertson Scholarship in History
This scholarship was established by friends, family and colleagues of the late Bobbie Robertson. It will be valued at the annual accrued interest on the initial endowment and will be awarded on the basis of scholarship standing to a history major with preference given to students in Newfoundland and Labrador history. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Head, Department of History.

The Dr. Grenville R. Robinson Award in French
This award was established in memory of the late Dr. Grenville Robinson, a former professor of the Department of French at Memorial University of Newfoundland. Valued at a portion of the income on the investment, it will be awarded each Spring to a student in the Department of French on the basis of his/her performance in any three or more of the following French courses: 3100, 3101, 3500, 3501, 3502, 3503, 3504 and 3506 and his/her contribution to the general activities of the Department. The successful recipient must be a full-time student and have completed between 60-90 credit hours towards a Bachelor of Arts at Memorial University of Newfoundland with a major or minor in French. The recipient will also receive a book prize and a certificate. This award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Head, Department of French and Spanish.

The Rotary Club of St. John's Northwest Scholarship
This scholarship has been established by the Rotary Club of St. John's Northwest. Since 1965, members of the Rotary Club of St. John's Northwest have dedicated themselves to helping our community under the motto of “Service Above Self.” The scholarship is valued at $1,000.00 annually and will be awarded to a full-time student beyond the first year in the Department of Sociology in the Faculty of Arts. Eligible students would have completed high school in Newfoundland and Labrador. The recipient would have been involved with campus-based volunteer activities and/or community service work. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Head, Department of Sociology.
The prize, the interest from a donation by an anonymous donor, is awarded to a fourth or fifth year student majoring in Mathematics with Dr. Siegfried Thomeier Memorial Prize in Pure Mathematics.

Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Head of the Department of Mathematics and Statistics.

Preference will be given to candidates who have been active in varsity athletics at Memorial University of Newfoundland and/or who have a demonstrated record of community, volunteer work, and/or involvement with student organizations at this University. The award will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation from the Dean, Faculty of Business Administration or the Head, Department of Economics.

The Greg Campbell Memorial Business Award
This award is the result of a generous donation by Eleanor Swanson in memory of her late husband, J. Gregory Campbell. Interest on the fund will provide one award to a full-time undergraduate student in the Faculty of Business Administration who is entering the final year of study. Candidates for this award must have a demonstrated record of active community involvement, volunteer work, and/or service in the Faculty/University. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, Faculty of Business Administration.

The Greg Campbell Memorial Business Scholarship
This scholarship is the result of a generous donation by Eleanor Swanson in memory of her late husband, J. Gregory Campbell. Interest on the fund will provide one award to a full-time undergraduate student in the Faculty of Business Administration who is entering the final year of study. Candidates for this scholarship must have scholarship standing and a demonstrated record of active community involvement, volunteer work, and/or service in the Faculty/University. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation from the Dean, Faculty of Business Administration.

Canadian Association of Petroleum Producers (CAPP) Award for Exemplary Work Terms in the Upstream Petroleum Industry
This award was established by the Canadian Association of Petroleum Producers. Two awards, valued at $500.00 each, will be given annually to students who have completed work terms with employers related to the oil and gas industry. This includes employers involved in the upstream petroleum industry, oilfield supply/service companies, petroleum industry associations and applicable government departments or agencies involved in regulating the petroleum industry. One award will be given to a student who has completed Work Term 2, and the second award to a student who has completed Work Term 3 within the Bachelor of Commerce (Co-operative) Degree Program. In order to be considered for an award, an applicant must submit a Nomination Form completed by the applicant’s employer for the work term for which the award is being sought. Recommendations will be based upon the nomination, the applicant’s work report which has applicability to the oil and gas industry, and the applicant’s work performance. All submissions will be reviewed by members of Business Co-operative Education and recommendations will be made to the Dean, Faculty of Business Administration. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, Faculty of Business Administration.
Judy Caul Memorial Bursary
The Judy Caul Memorial Bursary has been established by Production Services Network in memory of Judy Caul who worked with the company for over 10 years and was a valued employee and dedicated Human Resources Professional. Valued at $1,000 annually, this Bursary will be awarded to a full-time undergraduate student in the Bachelor of Commerce Program, Faculty of Business Administration, who has chosen Human Resources as their discipline. The bursary will be awarded to a student who meets the minimum academic requirements of a bursary and displays leadership ability and who demonstrates financial need. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Business Administration.

The Certified General Accountants Association of Newfoundland Scholarship
The C.G.A. Association of Newfoundland offers a $1,000.00 scholarship to a student majoring in Accounting who is entering the final year of studies. In addition to the cash award, $1,500.00 will be applied to the student's tuition costs through enrolment in the C.G.A. program within three years of their undergraduate University graduation date.

The Certified Management Accountants of Newfoundland & Labrador Scholarship
The Society of Management Accountants of Newfoundland and Labrador offers annual scholarships with a value of $1000 each to full-time students concentrating in accounting who have completed or are presently completing Business 7160 Advanced Topics in Managerial Accounting. Candidates must be pursuing a career in management accounting as evidenced by writing or being exempted from the first CMA national entrance exam and registering for the CMA program with the Society of Management Accountants of Newfoundland & Labrador. Selection will be based on the students' character, financial need and scholarship standing. These scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, Faculty of Business Administration.

The Chartered Accountants’ Education Foundation of Newfoundland, Inc. Scholarship
This scholarship, valued at $5,000.00 annually, is the result of a generous endowment to Memorial University of Newfoundland by Mr. Pat O'Callaghan, the Ireland Business Partnership, the Ireland Newfoundland Partnership, the Provincial Department of Education, and Craig Dobbin family members in memory of Mr. Craig Dobbin. It will be awarded on an annual rotating basis to students at The Waterford Institute of Technology (WIT) and Memorial University of Newfoundland. In year one, and every alternating year thereafter, the scholarship will be awarded to a recent honors graduate (in the past 2 to 3 years) of one of the undergraduate business programs in the Faculty of Business Administration program or Grenfell Campus, Memorial University of Newfoundland who is selected from the Waterford Institute, then WIT will select a business undergraduate or graduate student to complete a one-year Master of Business Studies upon recommendation of the Faculty Committee on Graduate Studies. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, Faculty of Business Administration.

Chevron Canada Ltd. Endowed Scholarships in Business, Earth Sciences, Economics and Engineering
Chevron Canada Ltd. Endowed Scholarships in Business, Earth Sciences, Economics and Engineering These scholarships, valued at a portion of the income from the endowment, will be awarded starting in 2011 to full-time students enrolled in at least their second year of Engineering and Applied Science, Earth Sciences, Business or Economics; in a given year, it is anticipated that students from all four faculties will be represented. Selection will be based on scholarship standing as well as expression of interest in potential employment in the oil industry, and signaling of career location mobility. Level of service to community, or leadership will also be considered. Students may receive the scholarship in more than one year. They will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the: Dean, Faculty of Engineering and Applied Science; Head, Department of Earth Sciences; Dean, Faculty of Business Administration; and Head, Department of Economics.

Chevron Canada Ltd. Term Scholarships in Business, Earth Sciences, Economics and Engineering

Selection will be based on scholarship standing as well as expression of interest in potential employment in the oil and gas industry, and signaling of career location mobility. Level of service to community, or leadership will also be considered. Students may receive the scholarship in more than one year. They will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the: Dean, Faculty of Engineering and Applied Science; Head, Department of Earth Sciences; Dean, Faculty of Business Administration; and Head, Department of Economics.

The Rob Crosbie Scholarship for International Study
This fund was established from contributions to the University’s Opportunity Fund Campaign by Mr. Rob Crosbie. The scholarship, valued at $1,250.00 annually, will support a Business student (graduate or undergraduate) who is on an academic international exchange and who has shown interest in pursuing a career in the oil and gas industry. In the case of undergraduate students, the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, Faculty of Business Administration. In the case of graduate students, it will be awarded by the Dean, School of Graduate Studies upon recommendation of the Faculty Committee on Graduate Studies.

The DaimlerChrysler Scholarship
This scholarship, valued at $5,000.00 annually, is the result of a generous endowment to Memorial University of Newfoundland by DaimlerChrysler Canada Inc. in support of The Opportunity Fund. The scholarship will be available to an undergraduate student in the Faculty of Business Administration who is in second year or beyond. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Dean, Faculty of Business Administration.

Craig Dobbin Memorial Scholarship for Master of Business Studies at the Waterford Institute and Memorial University of Newfoundland
This scholarship has been established by Mr. Pat O'Callaghan, the Ireland Business Partnership, the Ireland Newfoundland Partnership, the Provincial Department of Education, and Craig Dobbin family members in memory of Mr. Craig Dobbin. It will be awarded on an annually rotating basis to students at The Waterford Institute of Technology (WIT) and Memorial University of Newfoundland. In year one, and every alternating year thereafter, the scholarship will be awarded to a recent honors graduate (in the past 2 to 3 years) of one of the undergraduate business programs in the Faculty of Business Administration program or Grenfell Campus, Memorial University of Newfoundland who is accepted into the Master of Business program, at the Waterford Institute of Technology, Waterford, Ireland. In the event that there is no such candidate, the scholarship will be awarded to two Memorial University of Newfoundland exchange students (undergraduate or graduate) to study (one academic term) at the Waterford Institute of Technology. In year two, and every alternating year thereafter, the scholarship will be awarded to an undergraduate student from the Waterford Institute of Technology who will be selected to attend Memorial University of Newfoundland’s Faculty of Business Administration’s M.B.A. program. In order for a WIT student to complete the program in one year, they must have an honors undergraduate business degree, or a business degree with significant academic standing. The student must meet Memorial University of Newfoundland’s Faculty of Business Administration’s M.B.A. admission requirements. The student may take two years to complete the degree; however, scholarship funding will be available for one year only. In the event that no such student is selected from the Waterford Institute, then WIT will select a business undergraduate or graduate student to complete a
Scholarships, Bursaries and Awards 2013-2014

student exchange (one academic term) at the Faculty of Business Administration or Grenfell Campus, Memorial University of Newfoundland. Scholarship recipients will be required to complete and present a report on an aspect of the Ireland Newfoundland Partnership. In the case of Memorial University of Newfoundland undergraduate students, the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Business Administration or the Vice-President of Grenfell Campus. In the case of Memorial University of Newfoundland graduate students, the scholarship will be awarded by the Dean, School of Graduate Studies on the recommendation of the Dean, Faculty of Business Administration.

Paddy Dobbin Scholarship in the Faculty of Business Administration

The Paddy Dobbin Scholarship is endowed through a gift from the Dobbin family members (children and grandchildren) in memory of Paddy Dobbin, a St. John’s native who married Rita Power on March 17, 1929. From his early life Paddy demonstrated a strong entrepreneurial spirit, a man not afraid of hard work or taking risks. He instilled these qualities in his eleven children. Paddy guided with much love and a spirit that anything was possible. Through example, he taught his children to never fear challenges, feeling there was always something to be learned. The scholarship is open to undergraduate students of scholarship standing, enrolled in the Faculty of Business Administration in the International Bachelor of Business Administration (iBBA) program, who have been accepted for, but not yet undertaken, the study abroad component of their program. Preference will be given to students who have been active in extracurricular activities at Memorial University of Newfoundland and/or in the community. The scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Business Administration.

The Ernst and Young Scholarship in International Business

This fund was established from contributions to the University’s Opportunity Fund Campaign by the partners Ernst & Young, St. John’s and it’s predecessor. This scholarship, valued at the accrued interest on the endowment, will be awarded to an undergraduate student in the Faculty of Business Administration entering academic Term 6 in the cooperative education program. In awarding this scholarship, preference will be given to students with scholarship standing and a demonstrated interest pursuing a career in accounting. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, Faculty of Business Administration.

The Faculty of Business Administration Aboriginal Scholarship

A scholarship valued at $500 will be awarded to an Aboriginal resident of Newfoundland and Labrador in the Faculty of Business Administration. Eligible students must be in scholarship standing, be enrolled as a full-time undergraduate or graduate student in the Faculty of Business Administration at Memorial University of Newfoundland and provide confirmation of their Aboriginal status. In the case of undergraduate students, the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation from the Dean, Faculty of Business Administration. In the case of graduate students, the scholarship will be awarded by the Dean of Graduate Studies upon the recommendation from the Dean, Faculty of Business Administration.

Faculty of Business Administration Associates’ Scholarship Fund

This fund was established through the contributions of members of the Associates’ Program of the Faculty of Business Administration. The fund will provide scholarships for undergraduate and graduate students in the Faculty. Awards will be made on the basis of academic standing but such factors as financial need and contribution to the Faculty may be taken into account.

The Faculty of Business Administration Aboriginal Scholarship

A scholarship valued at $500 will be awarded to an Aboriginal resident of Newfoundland and Labrador in the Faculty of Business Administration. Eligible students must be in scholarship standing, be enrolled as a full-time undergraduate or graduate student in the Faculty of Business Administration at Memorial University of Newfoundland and provide confirmation of their Aboriginal status. In the case of undergraduate students, the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation from the Dean, Faculty of Business Administration. In the case of graduate students, the scholarship will be awarded by the Dean of Graduate Studies upon the recommendation from the Dean, Faculty of Business Administration.

The Fagan Scholarship in the Faculty of Business Administration

This scholarship, valued at $1,000.00 annually, was established by Steve Fagan, B. Comm. (Co-op) ‘81. To be eligible, candidates must be full-time undergraduate students in the Faculty of Business Administration who have scholarship standing. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Business Administration.

The Fry Family Foundation MBA Leadership Scholarships

The Fry Family Foundation MBA Leadership Scholarships, valued at $2500 each will be awarded annually to full-time students in the M.B.A. program at Memorial University of Newfoundland. The awards will be given on the basis of academic excellence and leadership, and preference will be given to residents of Newfoundland and Labrador. The recipients of these scholarship should demonstrate a good interest in, and a strong commitment to, Newfoundland and Labrador. The scholarships will be awarded by the Dean, School of Graduate Studies, upon the recommendation of the Dean, Faculty of Business Administration.

The P.J. Gardiner Award for Small Business and Entrepreneurship

This fund was established from contributions to the University’s Anniversary Fund to commemorate the memory of the late Peter Gardiner, a former Director of Memorial University of Newfoundland’s School of Business and a local entrepreneur. This award is valued at $5,000.00 annually and will recognize student creativity, innovation and entrepreneurship as evidenced by a student’s genuine interest in small business and entrepreneurship through the establishment or the intention to establish a new venture. Students in any program of study (graduate or undergraduate) are eligible. To apply for the P. J. Gardiner Award, students are to provide a written report or plan describing their venture. Award finalists will then be asked to make an oral presentation to the Award Selection Committee. The Award Selection Committee will consist of faculty members from the Faculty of Business Administration and the business community at large. The winners of the P. J. Gardiner Award will be announced in the Spring of each year. The awards will be made by the Faculty of Business Administration.

The Peter Gardiner Award for International Study

This fund was established from contributions to the University’s Anniversary Fund to commemorate the memory of the late Peter Gardiner, a former Director of Memorial University’s School of Business. Interest from the fund will provide or two annual awards of $2,500.00 each to support Business students (graduate and/or undergraduate) to study at Memorial University of Newfoundland’s Harlow Campus or at any institution outside Canada. In the case of undergraduate students, the awards will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, Faculty of Business Administration. In the case of graduate students, the awards will be made by the Dean, School of Graduate Studies upon recommendation of the Committee on Graduate Studies of the Faculty of Business Administration.

The Brian J. Grant Scholarship for International Study

This scholarship was endowed through a donation to the University’s Opportunity Fund campaign by Mr. Brian J. Grant in 1999. The scholarship, valued at the annual interest on the endowment, will support an undergraduate business student who is on an academic international exchange. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, Faculty of Business Administration.
The Great-West Life Scholarship in Business Administration

This scholarship was established by a donation to Memorial University of Newfoundland from Great-West Life. One student, valued at a minimum of $1500 annually, will be awarded to an undergraduate student in the Faculty of Business Administration. The scholarship will be awarded to a student who has been involved in student life and has made a contribution to the university community through his/her leadership on campus. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of the Faculty of Business Administration.

The William A. Gruchy Memorial Scholarship

This scholarship, valued at $1000.00, has been donated by Pepsi-Cola Canada Ltd., in memory of Mr. William Gruchy, a long-time associate of Browning Harvey Ltd., Pepsi-Cola’s franchised bottling business in St. John’s. The award is open to undergraduate students of scholarship standing, enrolled in Business Administration, who have demonstrated leadership ability. Activities within various student organizations, participation on faculty committees, and/or contribution to the larger community, will be considered in determining appropriate candidates. The scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of the Faculty of Business Administration.

The James B. Hand Memorial Scholarship in Business Administration

This scholarship was established through a contribution to the Opportunity Fund by friends, family and former business associates in memory of Mr. James B. Hand. Interest on the fund will provide one or more scholarships for undergraduate students in the Faculty of Business Administration. The scholarship(s) will be awarded on the basis of scholarship standing, but such factors as financial need and contribution to Business Administration may be taken into account. The scholarship(s) will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Business Administration.

The Rolf G. Hattenhauer Scholarship Fund

This fund was established by the Labour Management Co-operation Committee to commemorate the late Professor Rolf G. Hattenhauer, a well-known Newfoundland arbitrator who was actively involved in setting up the Committee. Professor Hattenhauer was a member of the Department of Commerce (later the Faculty of Business Administration) at Memorial University of Newfoundland from 1962 until his death in 1983, and during the year 1969-70 served as Head (pro tem) of the Department. The fund will provide scholarships and fellowships on a rotating basis in undergraduate and graduate studies in Business Administration.

In the case of the undergraduate scholarships, preference will be given to students in Terms 6 and 7 of the Bachelor of Commerce program who are majoring in Labour Relations. These scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of Business Administration.

In the case of the graduate fellowships, preference will be given to those students in the Master of Business Administration program who are concentrating in or conducting research on the area of personnel and industrial relations. The graduate fellowships will be awarded by the Dean of Graduate Studies on the recommendation of the Dean of Business Administration. If a suitable graduate student is not available in a given year the scholarship for that year may be awarded to an undergraduate student.

The Kevin Hawco Memorial Scholarship

The Kevin Hawco Memorial Scholarship has been established through a generous commitment made by Mr. Rob Crosbie in memory of a friend and colleague, Kevin Hawco. The scholarship, valued at $1,250.00 annually, will recognize student excellence in the Bachelor of Commerce Program at Memorial University of Newfoundland and/or in the community. To be eligible, the student will be in scholarship standing and enrolled full-time within the Faculty of Business Administration. Preference will be given to students enrolled in courses required for the concentration in supply chain management. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean; Faculty of Business Administration.

The Hibernia Project Scholarship

These scholarships, established by the Hibernia Management and Development Company Ltd. are tenable at Memorial University of Newfoundland and are valued at an amount determined by the annual income on the investment. They are awarded annually as follows:

- Four students entering Term 3 of the Faculty of Engineering and Applied Science with two awarded to male students and two awarded to female students.
- Two students entering Term 3 of the Faculty of Business Administration with one awarded to a male student and one awarded to a female student.

Candidates for these awards must be of scholarship standing but consideration may also be given to their financial circumstances. All candidates must be residents of Newfoundland and Labrador. The awards will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Deans, Faculty of Business Administration and Faculty of Engineering and Applied Science.

The Jim Hood Memorial Scholarship

This scholarship was established through the generous bequest of Jim Hood, an alumnus and friend of the Faculty of Business Administration. Valued at a portion of the income on the investment, the scholarship is open to full-time undergraduate and graduate students in the Faculty of Business Administration who meet scholarship standing and who have been active in athletics at Memorial University of Newfoundland and/or in the community. In the case of the undergraduate student, the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of Business Administration. In the case of the graduate student, the scholarship will be awarded by the Dean of Graduate Studies on the recommendation of the Dean of Business Administration.

The J. Carson Hudson Memorial Scholarship

In memory of local businessman and entrepreneur J. Carson Hudson, this scholarship, valued at a portion of the income on the investment, has been established by LeGrow’s Travel Limited to encourage students’ participation in small business and to assist a student entering the Faculty of Business Administration. This scholarship is renewable for two successive academic years provided that scholarship standing has been maintained. Preference will be given to those students who have enrolled in a full course load at the undergraduate level and have been away from the educational system for a period of two years or longer, working in an area of small business. Financial need may be a consideration. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Business Administration.

The Scott Hussey and Karen Joseph Memorial Scholarship in Business Administration

This scholarship was established from contributions to Memorial University of Newfoundland by fund raising efforts of the Commerce Class of 1985 and other friends and relatives of Scott and Karen. The scholarship, valued at a portion of the annual income, will be awarded to an undergraduate student beyond Term 4 in the Co-op program of the Faculty of Business Administration. It is not necessarily intended for the student with the highest academic average but rather a student who combines scholarship standing and leadership ability. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of a recommendation from the Dean, Faculty of Business Administration. While financial need is not to be considered a major criterion, it can be used as a deciding factor in the case of students who may otherwise be equally qualified in a given year.
International Personnel Management Association Award
A $250.00 award will be presented annually to an outstanding student in the undergraduate course, Advanced Personnel Management. The recipient will be recommended by the Scholarship Advisory Committee of the Faculty of Business Administration acting upon the advice of the course instructor. Scholastic abilities, financial need and class participation will be the basis upon which the award will be made. The recipient of the award will also be eligible for one year's free membership in the local Chapter of IPMA-Canada.

The Ron Joyce Foundation Scholarships
These scholarships are the result of a generous endowment to Memorial University of Newfoundland by the Ron Joyce Foundation. Interest on the fund will provide scholarships to full-time undergraduate students entering Memorial University of Newfoundland’s Faculty of Business Administration who are Canadian citizens with scholarship standing and demonstrated financial need. These scholarships will be valued at two semester’s tuition for five courses (30 credit hours) and are renewable for up to four years (3 years plus original) provided the candidates maintain first class academic scholarship standing. The scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean, Faculty of Business Administration.

The Dan Kroeker Award
The Dan Kroeker Award, valued at $500, is made possible through an annual donation from Dan Kroeker. The Award is available to a deserving student enrolled full-time in the Bachelor of Commerce (Co-op) program who is in clear academic standing. Candidates will submit a two to three page essay outlining any financial initiatives/ideas that they have for the improvement/development of Newfoundland and Labrador. The submissions will be judged by a scholarship selection committee in the Faculty of Business Administration. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Business Administration.

The A. Bruce LeMessurier Scholarship for Entrepreneurship
This scholarship, valued at a portion of the income on the investment, was established by Sally Lou LeMessurier in memory of her husband A. Bruce LeMessurier. It will be awarded to a student beyond first year in an undergraduate Business program who has demonstrated interest in small business and entrepreneurship through completion of course work, and involvement in volunteer activities in the community related to entrepreneurship. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Dean, Faculty of Business Administration.

The Rita Love Memorial Bursary in Business
The Rita Love Memorial Bursary in Business was established in her memory by her estate and initiated by the executor of her estate, Mr. Derrick Hutchens. Mrs. Love was born in Newfoundland and moved away to the United States when she was a teenager but visited frequently and returned to live here several decades later. Though she spent most of her adult life living in the United States of America she always maintained strong connections to Newfoundland and Labrador. Valued at a portion of the income on the endowment, the bursary will be awarded to an undergraduate student with a focus on finance or investment in the Faculty of Business Administration. The recipient must be beyond first year and from Newfoundland and Labrador. The student will have demonstrated financial need, and meet the minimum academic requirements for a bursary as outlined by Memorial University of Newfoundland. Preference will be given to a student who is not in receipt of another scholarship, bursary or award at the time of the awarding of this bursary. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, Faculty of Business Administration.

The Rosalie Moss-Morgan Bursary
The Rosalie Moss-Morgan bursary was established by her daughter Elizabeth Morgan. Rosalie, a native of Jamestown, Bonavista Bay, was a caring and supportive mother. She was particularly encouraging to Elizabeth and her friends as they made their way through high school and university. The bursary is intended to continue Rosalie’s legacy of helping young people reach their potential through a university education, specifically those from the Vista Region who need financial support. Valued at a portion of the income on the endowment, this bursary will be awarded to a full time undergraduate student in the Bachelor of Commerce program, who will be participating in an international exchange (Harlow or other university with an exchange agreement in place). The bursary, valued at a portion of the income on the investment, will be awarded to a student who meets the minimum academic requirements of a bursary as defined by Memorial University of Newfoundland, demonstrates financial need and a good work ethic. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on the recommendation of the Dean, Faculty of Business Administration.

The John J. Murphy Scholarship in Business Administration
This scholarship, valued at $500.00, is made possible through an annual donation from Dan Kroeker. The Award is available to a student who has achieved academic excellence upon completion of the first year (Terms 1 and 2) of the Business Administration program. Candidates will submit a two-page essay addressing the character. The awards will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean, Faculty of Business Administration.

The Newfoundland and Labrador Hydro Corporation Scholarships in Business Administration
These scholarships, offered annually by the Newfoundland and Labrador Hydro Corporation, are valued at $1000.00 each. They are tenable in the Faculty of Business Administration at Memorial University of Newfoundland and are distributed as follows:
- Two to students entering Term 7
- Two to students entering Term 6
- One to a student entering Term 5

The scholarships will be awarded on the basis of academic excellence, taking into consideration such factors as financial need and character. The awards will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, acting on the recommendation of the Dean, Faculty of Business Administration.

Oil and Gas Week Scholarship
Valued at $1,000 each, these undergraduate scholarships are established by a gift over three years from the organizers of Oil and Gas Week, a program of events held annually in St. John’s, NL for the purpose of promoting the oil and gas industry. Two scholarships will be awarded each year. To be eligible, students must be enrolled full-time beyond the first year of an undergraduate program in the Department of Earth Sciences, the Faculty of Engineering and Applied Science, or the Faculty of Business Administration. Eligible
candidates must also have scholarship standing and preference will be given to students who graduated from a high school in Newfoundland and Labrador outside of the metropolitan St. John's area. Each year the two recipients must be from different faculties, with each identified academic unit to be represented no more than twice in the three year period of the term of the fund. The scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, based on a recommendation from the appropriate academic discipline.

**The Paint Shop Bursary**

This bursary, valued at $1000, was established by a generous donation from the Paint Shop. Headquartered in Mount Pearl, the Paint Shop's network of franchised stores are located throughout Newfoundland and Labrador. The co-owners of the Paint Shop are both graduates of Memorial University of Newfoundland’s Faculty of Business Administration. The bursary is available to a full-time student enrolled in the Bachelor of Commerce (Co-op) program or the Bachelor of Business Administration program. The recipient must have demonstrated financial need as well as meet the minimum academic requirements for a bursary as defined by Memorial University of Newfoundland. Preference will be given to students from rural Newfoundland and Labrador. This bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Business Administration.

**The James R. Pearcey Scholarship for Entrepreneurism**

This scholarship is the result of a generous donation by the donor, Mr. Wade, B. Dawe, Bachelor of Commerce’92. It is valued at $10,000.00 per annum and is established in memory of James R. Pearcey, a Civil Engineering graduate and former president of his 1993 class, at Memorial University of Newfoundland. The scholarship recipient will be a student in the Faculty of Business Administration in any academic year, in good academic standing and who shows clear evidence of a significant propensity toward entrepreneurial activities and study as assessed by an essay competition. The recipient will be selected by a committee, the composition of which will be determined by the Scholarships Office, but will include representation by both the Faculty of Business Administration and the Faculty of Engineering and Applied Science. The Scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on the recommendation of this committee.

**Jude Pearson Memorial Scholarship in the Faculty of Business Administration**

This scholarship, valued at $500 annually, was established by the Class of 1999 in memory of classmate, Jude Pearson. Eligible candidates must be full-time undergraduate students in the Commerce program of the Faculty of Business Administration, and have scholarship standing. Preference will be given to students from Bell Island and those demonstrating financial need. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Business Administration.

**Pinsent Scholarship in the Faculty of Business Administration**

This scholarship, valued at $1,000.00 annually, was established by Mark Pinseint, B. Comm (Co-op) ’80. To be eligible, candidates must be full-time undergraduate students in the Faculty of Business Administration, and have scholarship standing. Preference will be given to candidates on work-term and participating in an international work or study abroad placement. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Business Administration.

**The PMI NL Chapter Jamie Morry Memorial Scholarship**

This scholarship, valued at $500, was established by the Newfoundland and Labrador Chapter of the Project Management Institute in memory of Jamie Morry to acknowledge his commitment to the discipline of project management. The scholarship is open to undergraduate students of scholarship standing enrolled in Business Administration, doing a concentration in Management Information Systems (MIS) or Management Science who have demonstrated an interest in project management. In order to be considered for this scholarship, students must be nominated by a faculty member in the Faculty of Business Administration. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Business Administration.

**The PPI Solutions Inc. Scholarship**

This scholarship, valued at $1000, was established by PPI Solutions Inc. Eligible candidates must be full-time undergraduate students in the Faculty of Business Administration with either a finance or marketing specialty. This scholarship is non-renewable and will be awarded to a different student every year. The recipient must meet the minimum academic requirements for a scholarship as defined by Memorial University of Newfoundland. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Business Administration.

**The Public Accountants Licensing Board Scholarship**

This scholarship will be awarded annually to an undergraduate business student entering the final year of an academic program in the Faculty of Business Administration. It will be valued at a portion of the income on the endowment. Selection of the successful candidate will be based on scholarship standing and demonstrated interest in pursuing public accounting as a profession. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Business Administration.

**The Gar Pynn Memorial Harlow Scholarship**

This scholarship is endowed through a gift from Marg Pynn, family, and friends in memory of Gar Pynn, past director and faculty member of Memorial University's Faculty of Business Administration. Eligible candidates must be full-time undergraduate students in the Faculty of Business Administration, and have scholarship standing. Preference will be given to students applying to complete an academic term at Memorial University’s Harlow Campus. The scholarship, valued at a portion of the income on the endowment, will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Business Administration.

**The S.P. Raheja Memorial Scholarship**

This scholarship, valued at a portion of the income from the endowment, was established through generous gifts from the friends and family members of S. P. Raheja. It is to be presented during National Co-operative Education Week and will rotate annually between the Faculty of Engineering and Applied Sciences and the Faculty of Business Administration. To be eligible, students must be in scholarship standing, and be enrolled in the co-operative program, having successfully completed work term four in Engineering or work term two in Business Administration the previous Scholarship year. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, upon the recommendation of the Director of the Division of Co-operative Education.

**The RBC Investments Scholarship**

This scholarship, in memory of Maxwell J. Pratt, has a value of $1,000.00 and is open to a student entering Term 7 of the Business Administration program who is majoring in the area of Finance. Selection of the successful candidate will be based on academic merit and the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Business Administration.
The Tracy Ronayne Scholarship
This scholarship has been established by the Department of Computing and Communications (C&C) at Memorial University of Newfoundland to honor the life and contribution of a former employee, Tracy Ronayne. To be eligible the recipient must have scholarship standing, be a full-time undergraduate student and be a dependant of a current, retired, deceased or former (having worked in the University for a minimum of 5 years) employee of C&C or be a student employed by C&C during the Fall semester of the academic year for which the scholarship will be awarded. One or more scholarships may be awarded in any given year. In the absence of a candidate meeting the above criteria, the scholarship will be awarded to a student beyond first year majoring in Computer Science in the Faculty of Science or a student in the Faculty of Business Administration. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

ScotiaBank International Exchange Student Support Program in the Faculty of Business Administration
The ScotiaBank International Exchange Student Support Program was established by a gift of $500,000 from ScotiaBank through Dare To: The Campaign for Memorial University. The scholarships, bursaries and, where appropriate, awards will be conferred to full-time undergraduate students in any program of study in the Faculty of Business Administration, and are available to students participating in the international exchange program in one of the countries where ScotiaBank operates, or students from those countries studying at Memorial University of Newfoundland. For the scholarships, students must have scholarship standing; for the bursaries, students must have demonstrated financial need. If deemed appropriate, funding may also be provided in the form of an award; in such cases, recipients must meet the academic criteria for an award. The number and value of the scholarships, bursaries and awards available each year will depend on the funds available for spending (as per University policy) as well as the applicant pool, and will be determined at the discretion of the Dean, Faculty of Business Administration. The scholarships, bursaries and awards will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on the recommendation of the Dean, Faculty of Business Administration.

William S. Rowe Scholarship in Business
This scholarship, valued at a portion of the income on the investment, will be awarded to a student in the Bachelor of Commerce (Co-op) program in the Faculty of Business, who has expressed a strong interest in pursuing the Chartered Accountant designation. Selection will be based on scholarship standing. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, Faculty of Business Administration.

The Scotsburn Dairy Group Scholarship
This scholarship was established from contributions to the Memorial University of Newfoundland’s Opportunity Fund Campaign by The Scotsburn Dairy Group. This scholarship, which will be valued at a portion of the accrued interest on the endowment, is intended to recognize academic excellence and will be awarded to a Newfoundland and Labrador student entering term 5 of the Business Cooperative Education program. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Dean, Faculty of Business Administration.

The Dr. Robert W. Sexty Scholarship for Social Responsibility
The scholarship, valued at a portion of the income on the investment, will be awarded annually to a full-time or part-time student enrolled in any undergraduate or graduate business program. The scholarship will be awarded to a student who has demonstrated commitment to social responsibility through academic achievement in a social responsibility course or ethics in business related courses, or successful completion of an M.B.A. research project relating to social responsibility, or involvement in social responsibility as exemplified through university or community service. In the case of undergraduate students, the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and the recommendation of the Dean, Faculty of Business Administration. In the case of graduate students the scholarship will be awarded by the Dean, School of Graduate Studies on the recommendation of the Dean, Faculty of Business Administration.

Dr. Lessey Sooklal Scholarship
This fund was established in memory of Dr. Lessey Sooklal, who joined the School of Business in 1978 (later renamed the Faculty of Business Administration), and was an active member of the faculty until his death in 2006. A full Professor in the area of Human Resource Management, Dr. Sooklal shared his passion for the subject with his students and colleagues. The fund will provide an annual scholarship, valued at a portion of the income on the investment, to an undergraduate student in Business Administration who is concentrating in Human Resource Management. The scholarship will be awarded to students in Terms 6 or 7 of the Bachelor of Commerce program, or the final year of the Bachelor of Business Administration program. The main criteria in awarding the scholarship are scholarship standing and excellence in and commitment to the area of Human Resource Management. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Business Administration.

The St. John’s Maple Leafs Legacy Scholarship
This scholarship was established by the Leafs Foundation Inc. and the St. John’s Maple Leafs Booster Club to recognize the contribution of the St. John’s Maple Leafs hockey team to youth and community in the Province. Valued at a portion of the income on the investment, the scholarship is open to full-time undergraduate or graduate students in the Faculty of Business Administration who meet scholarship standing and who have been active in athletic or extracurricular activities at Memorial University of Newfoundland and/or in the community. In the case of undergraduate students the scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of the Faculty of Business Administration. In the case of graduate students the scholarships will be awarded by the Dean of Graduate Studies on the recommendation of the Dean of the Faculty of Business Administration.

The James P. Steinhauer Memorial Scholarship in Small Business and Entrepreneurship
This scholarship is awarded out of income from a bequest by Mrs. S. Louise Steinhauer made in memory of her husband James and her son James, both prominent St. John’s entrepreneurs. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Dean, Faculty of Business Administration.

The Sun Life Financial Scholarship in Applications of Technology
The Sun Life Financial Scholarship in Applications of Technology is consistent with the company's belief that education is key to the future well-being of individuals, business and society. The scholarship, valued at the annual interest on the endowment, will be designated on an annually rotating basis to a student on the Corner Brook campus and the St. John’s campus. It will be awarded to a student within the faculties of Science, Engineering and Applied Science and Business Administration who is focussing his/her studies on the application of technology and has demonstrated scholarship standing. In addition, the student will have actively participated in extra-curricular activities and have been active in student life. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the appropriate Dean and/or the Vice-President of Grenfell Campus.
The Toromont Scholarship
This scholarship, valued at the annual interest on the endowment, has been established by Toromont Industries Ltd. as part of the Opportunity Fund Campaign. It will be awarded on an annually rotating basis between students in Business Administration and Engineering and Applied Science. It will be awarded on the basis of scholarship standing, extracurricular activities, and need. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation from the Dean of the appropriate discipline.

The Ralph Vincent Memorial Business Scholarship
This scholarship is valued at $5,000, and is provided via a contribution to Memorial University of Newfoundland by Mr. Darryl Fry. It will be awarded on the basis of scholarship standing to residents of Newfoundland and Labrador enrolled in first year Business Administration at Memorial University of Newfoundland. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on a recommendation from the Dean, Faculty of Business Administration.

The James J. Walsh Memorial Scholarships
Two undergraduate scholarships, established by the Walsh family to commemorate the memory of a dear husband and father, James J. Walsh, are tenable at Memorial University of Newfoundland and are valued at $500.00 each. One scholarship will be tenable in the Faculty of Business Administration to a physically handicapped student. If no physically handicapped student is available, the award will be made to an undergraduate student enrolled in the Faculty provided that the student is in good academic standing and demonstrates financial need. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, acting on the recommendation of the Dean, Faculty of Business Administration.

The Robert Westcott Memorial Scholarship
This scholarship was established by Mrs. Mary Westcott in memory of her late husband, Mr. Robert Westcott. It is valued at a portion of the annual interest on an endowment and will be awarded on a rotating basis to students beyond first year who have a strong commitment to post-secondary education and who are majoring in Business Administration and/or Economics. It will be based on scholarship standing and financial need and will be awarded to a student who was born in Newfoundland and Labrador. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean of Business Administration.

The Geoffrey H. Wood Foundation Scholarship
This scholarship, established by the Geoffrey H. Wood Foundation, is currently valued at $2,500.00 and will be awarded annually to an undergraduate student in Term 4 or later in the Faculty of Business Administration who has consistently demonstrated academic excellence. The scholarship is non-renewable and is to be awarded with a maximum of one other concurrent award. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean of Business Administration.

The Wood Gundy Scholarship for Undergraduate Business Students
The Wood Gundy Scholarship for Undergraduate Business Students will be awarded annually to a student of scholarship standing in Business Administration, who has demonstrated leadership ability through participation in student, faculty or University activities and/or contribution to the larger community. Preference will be given to students with a demonstrated career interest in the area of finance. The value of this scholarship will be determined by the annual income derived from the initial endowment. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean, Faculty of Business Administration.

The Wright-Green Undergraduate Award in Business Studies
The Wright-Green Undergraduate Award in Business Studies valued at $500, honours a century of service by two small businesses in rural Newfoundland – Robert Wright and Sons (Harry and Ralph) and George Green and Bros., later George Green and Son (Robert) Ltd. Both enterprises were an integral part of the social fabric of their respective communities of Greenspond and Valleyfield. Eligible candidates must be full-time undergraduate students in the Faculty of Business Administration. The recipient of this award should have completed or be enrolled in course(s) in French. If there is no suitable student with a focus in French in any particular year, consideration may be given to a student with a similar focus in an alternate second language. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean, Faculty of Business Administration.

The Zurel Family Bursary
The Zurel Family Bursary was established by Lynn (Sullivan) Zurel, a 1986 Bachelor of Commerce – Honours (Co-operative) graduate to recognize the contribution made by the Faculty of Business Administration and Memorial University of Newfoundland to the province of Newfoundland and Labrador. The bursary, valued at $1,000 per year, is available to a full-time undergraduate student upon entrance to the Bachelor of Commerce (Co-operative) program. The bursary will be awarded to a student who meets the minimum academic requirements for a bursary as defined by Memorial University of Newfoundland and who demonstrates financial need. The bursary will be open to any student enrolled in the Faculty provided that the student is in good academic standing and who are majoring in Business Administration.

4.4 Faculty of Education

The following are available to students in the Faculty of Education based on a recommendation from the Dean.

The Gordon Billard Award in Education
A donation has been made to Memorial University of Newfoundland by Mr. Gordon Billard for the purpose of establishing a fund to provide financial assistance to Education students who live at the University's Harlow campus while undertaking approved studies in Great Britain. The award is intended to enhance the student's educational experience in Britain. Its value will be based on the annual interest on the fund. It will be awarded during the Spring semester by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Deputy Provost (Students) and Associate Vice-President (Academic) (Undergraduate Studies) pro tempore. Academic achievement and financial need will be considered.

The Jeremiah and Theresa Bonia Memorial Award
The award valued at a portion of the income will be given to a full-time student enrolled in any degree program in the Faculty of Education. Selection will be based upon clear academic standing and financial need. Recipients must also be residents of Newfoundland and Labrador (defined as a person who has maintained permanent residence in the Province for a minimum of twelve consecutive months immediately prior to entering the program). Preference will be given to a student who demonstrates leadership abilities, a passion for learning and a commitment community service. The award will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, Faculty of Education.

The Chesley and Katherine Brown Bursary
This bursary, valued at a portion of the income on the endowment, has been established by the children of the late Lieutenant-Colonel and Mrs. William Chesley Brown. Lt.-Colonel Brown (1899-1962) guided the Salvation Army's educational program for thirty-five years.
For the final twelve years he served as the Superintendent of Education for the Salvation Army within the Department of Education. Mrs. Lt-Colonel Katherine England Brown (nee Cave; 1900-1977) taught at the Salvation Army Training College for Officers and was active in the Home and School Association of the Salvation Army College for a number of years. Candidates must be full time undergraduate students with demonstrated financial need and clear academic standing. The Bursary will be awarded to students in the Faculty of Education, with preference for those entering their first year. The bursary is renewable for as long as the recipient remains in clear academic standing and continues as an undergraduate student in the Faculty of Education. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Education.

The Bruton Scholarship Fund
Dr. F.A. Bruton, friend and colleague of J.L. Paton, taught Nature Study to teachers in three successive Memorial University College summer schools, from 1926-28, at Paton’s request. At his death in 1930, Dr. Bruton made a bequest to the College from which two Bruton Scholarships are awarded. These scholarships, valued at $500.00 each, are awarded annually to students who have demonstrated interest in Plant Biology. One award will be available to a student majoring in Biology whose special interest is in the field of Plant Biology. The second award will be available to an Education student whose main area of interest is in the teaching of science, in particular, plant biology. In the absence of a suitable candidate from the one department, two awards may be made by the other department in accordance with the above conditions. Academic ability and financial need will be taken into consideration in making these awards. They will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards acting on the advice of the department concerned.

The CFUW Edith Creighton Scholarship
This scholarship has been established by The Canadian Federation of University Women (CFUW) St. John’s and is named after Edith Creighton (1892-1994), the first president of CFUW St. John’s when it was formed in 1945. One scholarship, valued at $2000, may be awarded annually, to a woman enrolled full-time in the Masters or Doctoral program in the Faculty of Education. To be eligible, candidates must have scholarship standing. The scholarship will be awarded by the Dean, School of Graduate Studies on the recommendation of the Dean, Faculty of Education.

The Dr. Linda Coles Primary/Elementary Literacy Scholarship
This scholarship is created by Dr. Linda Coles, a graduate of the B.A.(Ed.), B.Ed., M.Ed. and Ph.D. programs at Memorial University of Newfoundland. During her years as a primary/elementary teacher, a provincial curriculum development specialist, and the provincial Executive Director of Literacy, Dr. Coles has been an advocate for literacy. Her commitment to early literacy, exemplary teaching and to honoring children’s voices and perspectives continues in her current work with the Faculty of Education. The recipient of the Dr. Linda Coles Primary/Elementary Literacy Scholarship will be a full-time student in the Primary/Elementary Degree Program. The scholarship will be awarded for the academic year with the recommendation of the department concerned. Two of the department concerned. Two of the department concerned. Two of the department concerned. Two of the department concerned.

Alice Cook Education Award
This award was established by Mr. Clayton C. Cook. The award, in honour of his wife Alice Cook, celebrates her love of learning and education. The award will be valued at a portion of the income on the endowment and will be awarded annually to a student who meets the minimum academic requirements for an award as defined by the University. The recipient may be enrolled in any year of any undergraduate education degree programs in the Faculty of Education. The Award will be administered by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Education.

The Dr. David Dibbon Leadership Scholar Award
The David Dibbon Award, valued at $10,000 ($5000 per year for two years), has been established by his family, friends, colleagues and students to commemorate the life and work of Dr. David Dibbon, Dean of the Faculty of Education, 2008-2010. David was committed to research focused on improving schools and school systems in Newfoundland and Labrador and elsewhere. He had great dreams of what public education could be. He was passionate about enabling schools to become better places for students to learn and for teachers to work. He was a transformational leader and change agent committed to collaborative partnerships and teamwork. He had a gift of innovative thinking, a visionary spirit, and the tenacious patience required to successfully lead meaningful educational reform. He will be remembered for his twenty years to a doctoral student in educational administration who had shared his ideals and has been accepted into Ph. D. studies in the Faculty of Education. $5000 will be awarded in year one, when the student begins full-time studies. The second $5000 will be awarded after successful completion of the oral comprehensive examination. The recipient will be “The David Dibbon Leadership Scholar” and will be expected to share his or her research findings with practitioners. The award will be made by the Dean of Graduate Studies upon the recommendation of the Dean of Education.

The William J. FitzGerald Memorial Bursary
This Bursary was donated by Barbara FitzGerald in memory of her father, William J. FitzGerald (1897-1971) who was a St. John’s businessman for many years. The award, valued at the annual interest on an endowment, is directed at a full time student in the Faculty of Education with first preference to students in the high school program who demonstrate scholarship standing and financial need. In the event that an eligible student in the high school program is not available in a given year, the Bursary will be awarded to a Bachelor of Education student in one of the other programs as deemed appropriate by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean, Faculty of Education.

The Carrie E. Hodder Memorial Scholarship
This scholarship, valued at the annual accrued interest on an initial endowment, has been established by the husband of the late Carrie E. Hodder as a tribute to her 36 year contribution to education as a teacher in the province of Newfoundland and Labrador. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean, Faculty of Education on the basis of scholarship standing to students enrolled in Elementary Education.

The Dr. Ethel M. Janes Memorial Scholarship in Education (Undergraduate)
From a sum of money endowed to Memorial University of Newfoundland by the late Dr. Ethel M. Janes, one scholarship valued at $2,000.00 will be awarded annually on the basis of scholastic achievement. Dr. Janes, a Professor of Education at Memorial University of Newfoundland for twenty-eight years, devoted most of her professional career to study, research and teaching in primary and elementary education. Her contribution to the development of primary and elementary teacher education program within the faculty was significant, as was her influence on primary and elementary education in the schools. Two generations of prospective teachers were her students. This scholarship will be awarded upon completion of the second year of studies at Memorial University of Newfoundland to a student enrolled in the primary/elementary education program as a first degree. Instalments of $1,000.00 each will be awarded in two successive academic terms, and the scholarship is renewable for two years provided first-class standing is maintained. This award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Education.

The Eileen Kelly Memorial Bursary
This bursary has been established by the family of Eileen Kelly to honour her dedication to education in Newfoundland and Labrador. As a teacher for more than 40 years in Harbour Grace, she was a role model to many students and served the community in an exemplary
way. The bursary will be valued at a portion of the income on the endowment and will be awarded annually. The recipient will be a female student enrolled in her first year of study in the Faculty of Education at Memorial University of Newfoundland. Preference will be given to students who have graduated from a high school in the Avalon West Regional area. The recipient must have demonstrated financial need and must meet the minimum academic requirements for a bursary as defined by the University. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of Education.

The Grace Layman Scholarship in Education
The Grace Layman Scholarship in Education has been established through a gift to the University by Professor Grace Layman who devoted her life to the development of educational drama in Newfoundland. Valued at a portion of the income on the investment, the scholarship will be awarded annually to a student from the Faculty of Education at Memorial University of Newfoundland, who meets scholarship standing, with preference given to students who demonstrate exceptional communication skills. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on a recommendation from the Dean, Faculty of Education.

The Loretta Lynch Education Scholarship
This scholarship, valued at $1,000, was created by Dr. Jackie Lynch, a graduate of the B.ED and M.ED programs at Memorial University of Newfoundland, in memory of her grandmother, Mrs. Loretta Lynch. Mrs. Lynch was a strong supporter of education and an inspiration for her family. The recipient will be a full-time undergraduate student who is in their professional year as a primary/elementary student teacher (Internship) and will have demonstrated dedication to their teaching role. They will have graduated from a high school in Newfoundland and Labrador and be in scholarship standing. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Education.

The Effie and Leander Mercer Scholarship
The scholarship was established by Dr. Jean Mercer in honour of her parents, Effie and Leander Mercer. Valued at the annual interest on the endowment, an award will be made alternately to a third year student in Medicine, Engineering and Post-Secondary Education (formerly Vocational Education). In any given year, if no student is eligible in the designated faculty it may be awarded to a student in one of the two faculties. The successful student must do most of his/her studies as a mature student. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation of the respective Dean. Financial need must also be taken into account.

The A. Baxter Morgan Memorial Scholarship
This scholarship has been established by Lorraine, spouse of the late Mr. Morgan. He began his career as a teacher after graduation from Memorial University College. Later, he operated his own business in Newfoundland until his retirement to Clarke's Beach. It will be valued at $500.00 annually and will be awarded to a full-time student in the second year of the Faculty of Education program. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Dean, Faculty of Education.

The John M. and Elsa S. Morgan Scholarships
These scholarships have been bequeathed to the University by the late Dr. John M. Morgan, B.Sc., M.D., and have been named to commemorate Dr. Morgan and his wife Elsa. Up to twenty-five scholarships will be made available annually to undergraduate students who have completed at least one year of studies at Memorial University of Newfoundland within the areas specified below and who will be continuing in these programs. The scholarships, valued at a minimum of $1,000.00 each, will be disbursed as follows:
- up to five to the Faculty of Medicine
- up to four to the School of Nursing
- up to four to the Faculty of Education
- up to four to the Department of Philosophy
- up to four to the Department of Anthropology
- up to two to the Department of Religious Studies (with preference to students of comparative religions)
- up to two to students in Newfoundland Studies

The scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the appropriate Dean/Director/Department Head. Preference will be given, where possible, to students from the Port-de-Grave District.

The Dr. M.O. and Grace Morgan Harlow Bursary
This bursary, valued at a portion of the annual accrued interest on an endowment to Memorial University of Newfoundland from the estate of Dr. and Mrs. Morgan, was established to encourage and assist undergraduate students to attend the University’s Harlow Campus. It is open to full-time Memorial University of Newfoundland students attending the Harlow Campus. Up to three bursaries of equal value will be awarded annually to students in the Faculty of Education (one each in the Spring and Fall semesters) and one to a student in any field of study (in the Winter semester). An application is required to identify those students planning to attend Harlow in the winter semester only and may be obtained from the Scholarships, Bursaries and Awards Office, Room 4018, University Centre. Bursaries awarded in fall and spring will be based on a recommendation from the Dean, Faculty of Education. These bursaries will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

Rick Morris Memorial Bursary
This bursary was established in memory of Rick Morris by his family and friends. Rick was a caring individual who was deeply committed to Newfoundland and worked with a variety of individuals, organizations, and government. He was a mentor to many helping professionals who regularly sought his counsel on personal and professional issues. He was deeply concerned with violence against individuals, particularly women, children, and the survivors of Mount Cashel. He was involved in the establishment of Unified Family Court’s mediation services and frequently collaborated with the aboriginal and senior’s communities. The bursary, valued at a portion of the income from the endowment, will be awarded annually to a student who is in financial need and meets the minimum academic requirements for a bursary. It will be awarded on a rotating basis to a student enrolled in one of the following academic areas: Year 1 - School of Social Work, Year 2 - Faculty of Education, Year 3 - School of Human Kinetics and Recreation, Year 4 - Department of Gender Studies, Year 5 - School of Nursing. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Head of the Unit for which the bursary is being awarded.

The Newfoundland & Labrador Teachers’ Association Scholarship
From a sum of money donated to the Anniversary Fund by the Newfoundland & Labrador Teachers’ Association, a $500.00 scholarship has been established at Memorial University of Newfoundland. This scholarship will be awarded annually on the basis of academic excellence and character to a senior student enrolled in the Faculty of Education. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards acting on the recommendation of the Dean of Education.

The Patti Lynn Noonan Memorial Harlow Travel Bursary
This Bursary, valued at a portion of the income from the endowment, is established in memory of Patti Lynn Noonan by her family. Patti Lynn’s motto was “Live life to the fullest and appreciate it and always tell the people you love that you love them”. Patti Lynn will always be remembered for her smile, her laughter, her love of life, her devotion to family, friends and the students in her care, her courage and
her determination. Patti Lynn's experience at Harlow was a highlight of her time at Memorial University of Newfoundland. The purpose of the Bursary is to enable the recipient to travel outside of Harlow while studying at Memorial University of Newfoundland's Harlow campus. To be eligible, students must have demonstrated financial need, be in good academic standing, and be accepted to study at the Harlow campus. Preference will be given to students enrolled in the Faculty of Education. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on the recommendation of the Dean of the Faculty of Education.

The Mary O'Keefe Memorial Scholarships
These scholarships were established with a bequest from Mary O'Keefe. Valued at a portion of the annual interest on the endowment, they will be awarded to two full-time students entering the first year of a program in the Faculty of Education. These scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Dean, Faculty of Education.

The Dr. Hugh O'Neill Education Scholarship
This scholarship is the result of a generous donation to Memorial University of Newfoundland by The O'Neill Foundation. One scholarship valued at $2,500.00 will be awarded annually to a full-time undergraduate student in the Faculty of Education at Memorial University of Newfoundland. In awarding the scholarship, first preference will be given to a student from a third world country but in the event of no such eligible student, it will be awarded to a student majoring in English Language and Literature and as the Minister of Public Welfare (1949-55) in the Government of Newfoundland. His career also included educational administration, magistrate, author and member of the first Board of Regents at Memorial University of Newfoundland. Valued at the annual interest on the endowment, this scholarship will be awarded to an undergraduate student in the Faculty of Education. Preference will be given to students entering the Faculty of Education at Memorial University of Newfoundland. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and financial need and a recommendation from the Dean, Faculty of Education.

The Dr. Herbert Lench Pottle Scholarship
This scholarship has been established by the family of Dr. Pottle who served as a member of the Commission of Government (1947-49) and as the Minister of Public Welfare (1949-55) in the Government of Newfoundland. His career also included educational administration, magistrate, author and member of the first Board of Regents at Memorial University of Newfoundland. Valued at the annual interest on the endowment, this scholarship will be awarded to an undergraduate student in the Faculty of Education. Preference will be given to students entering the Faculty of Education at Memorial University of Newfoundland. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and financial need and a recommendation from the Dean, Faculty of Education.

Scott Memorial Scholarship
This scholarship, established by Winslow and Eileen Scott in memory of their late son Bradford, a former student of Memorial University of Newfoundland, is valued at not less than $500.00. In awarding this scholarship, preference will be given to students in the Bachelor of Education Intermediate/Secondary Program who have completed the Bachelor of Physical Education or Bachelor of Physical Education (Co-operative) degree at Memorial University of Newfoundland. If a suitable candidate cannot be found in this category it will be awarded to a senior student in the Bachelor of Physical Education or Bachelor of Physical Education (Co-operative) program who is doing the teaching option. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Dean, Faculty of Education.

Ron and Gwen Seary Memorial Scholarship
Two scholarships from the interest on a fund established by the family, colleagues and students of Ron and Gwen Seary shall be awarded. One scholarship shall be given to a student beyond second year who is majoring in English Language and Literature and who is recommended by the Head of the Department. One scholarship shall be awarded to a student in Primary/Elementary Education who shows promise in Art Education and who is recommended by the Dean, Faculty of Education.

Ron and Gwen Seary Memorial Scholarship
This scholarship was established by a generous donation from Dr. Elizabeth (Way) Johnson in the name of her late father, Dr. Harrison Hedley Way. In the early 1970's, he was invited to establish and direct the Department of Educational Psychology at Memorial University of Newfoundland. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on the recommendation of the Dean, Faculty of Education.

4.5 Faculty of Engineering and Applied Science
The following are available to students in the Faculty of Engineering and Applied Science based on a recommendation from the Dean. For definition of scholarship standing for co-op students, see Scholarships, Bursaries and Awards, General Information.

The Afshin Assemi Memorial Award
This scholarship is awarded in memory of Afshin Assemi (Term 8 Electrical, 1991) and is valued at a portion of the income on the investment. It will be awarded during the Winter semester and is intended for students enrolled in Term 8 of the Faculty of Engineering and Applied Science Program. The criteria for selection will be on the basis of outstanding contribution to the betterment of student life within the Faculty of Engineering and Applied Science over the course of his/her Engineering career. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Engineering Scholarship Committee which will accept recommendations from the Engineering Society Executive. The Engineering Society Executive should consult with Term 8 Class representatives before arriving at their decision. If it is decided that two candidates are equally deserving of the Award, then joint awards may be given at equal valued.
Amirix Systems Inc. Scholarship for Computer Engineering
This scholarship, valued at $2500 annually, is established by Amirix Systems Inc. of Halifax, NS, and is awarded to a Computer Engineering student in Term 5 of the Faculty of Engineering and Applied Science at Memorial University of Newfoundland. The recipient of this scholarship will have demonstrated scholarship standing as well as extracurricular involvement in any of the following areas: athletics, fine and student body activities and/or volunteer work. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Engineering and Applied Science.

The American Bureau of Shipping (ABS) Scholarship
The American Bureau of Shipping Scholarship will be awarded to eight full-time undergraduate students who demonstrate scholarship standing and are enrolled in the Faculty of Engineering and Applied Science in any academic terms in the following disciplines: Ocean and Naval Architecture, Civil, Mechanical & Electrical. Preference will be given to students who have strong academics/work experience in the area related to a career in structural, offshore/marine industries. Winners of these scholarships will have preference (upon application) for work term placements with the American Bureau of Shipping in Houston (must be eligible for T-N Visa). Valued at $5000 each, the scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Engineering and Applied Science.

The Ausenco Scholarship
This scholarship was established by a generous donation from Ausenco. Valued at a portion of the income on the investment, it will be awarded annually to a full-time student in at least term six of the Bachelor of Engineering program studying Mechanical Engineering (Offshore Oil and Gas) or Process Engineering at Memorial University of Newfoundland. The recipient must meet the minimum academic requirements for a scholarship as defined by the University. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Engineering and Applied Science.

The C.H. Ballam Scholarship
This scholarship was established by the Honourable Charles H. and Mrs. Ballam as a memorial to their son Ulric, a former Engineering student at the University. The scholarship has a value of $250.00. It is awarded annually during the Winter semester of Engineering One on the recommendation of the Dean of Engineering and Applied Science. In making the award, academic achievement, character and financial need are taken into account. An application is required.

The E.F. Barnes Scholarship
This scholarship was established by Stirling Kelloway in honour of the late Mr. E.F. Barnes, founder of E.F. Barnes Machine and Fabricating Shop Limited which built the first all steel vessel in Newfoundland and developed the only marine engine ever built in the Province. Valued at a portion of the income on the endowment, the scholarship will be awarded each year during the Fall semester to a student in Academic Term 6. Eligibility will be based on scholastic achievement in Academic Term 5, and financial need will be an additional consideration. This scholarship will not be awarded to a student who is already in receipt of a scholarship during the same academic year. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Engineering and Applied Sciences.

Paul S. Batstone Memorial Scholarship
This scholarship was established in memory of Paul S. Batstone who spent 20 years promoting co-operative education at Memorial University of Newfoundland and was a co-ordinator in the Faculty of Engineering and Applied Science until his death in 2003. Valued at a portion of the income on the investment, it will be awarded to a senior student completing work term 3 or 4 during the Spring work term who has demonstrated a high level of commitment to Engineering Co-operative Education and has made a significant contribution to their employer in the past work term. The recipient must meet the minimum academic requirements for a scholarship as defined by Memorial University of Newfoundland. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Engineering and Applied Science. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Engineering and Applied Sciences.

Dr. S.M. Blair Memorial Alumni Awards for Excellence in Engineering
Two scholarships, established by the Memorial University of Newfoundland Alumni Association in memory of Dr. Sidney M. Blair, have a value of $500.00 each and are awarded annually to students entering Term 3 of the Engineering program and Term 5 of the Civil Engineering program who have achieved an appropriate scholarship average in academic courses of the preceding terms. The awards are made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the advice of the Dean of Engineering and Applied Science.

The Ann (Mooney) Bridger/SCSE Newfoundland and Labrador Section Scholarship
The Ann (Mooney) Bridger/SCSE Newfoundland and Labrador Section Scholarship has been established as a result of the 25th anniversary of the Canadian Society for Civil Engineering’s Newfoundland and Labrador Section. The scholarship is named after the Faculty of Engineering and Applied Science’s first female Civil Engineering graduate, Ann Bridger nee Mooney (B.Eng.1978). Valued at $500, this scholarship is to be awarded annually on the basis of scholarship standing to a female undergraduate student in Term 3 of the Civil Engineering discipline. The recipient of this scholarship will also be offered a work term at Bridger Design Associates Limited. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Engineering and Applied Science.

The Wally J. Campbell Memorial Scholarship
This scholarship has been established in memory of Professor W. J. Campbell who helped establish the engineering program at Memorial University of Newfoundland and taught in the program until 1995 when he retired. The scholarship, one or more, is valued at a minimum of $5000 and will be awarded to students who have completed all elements of the program prior to Term 3. Scholarship standing, leadership and contribution to student life will be considered in making the award. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of a recommendation from the Dean, Faculty of Engineering and Applied Science.

The Dr. S.J. Carew Memorial Scholarships
These two scholarships, established in memory of Dr. S.J. Carew, are valued at a portion of the income on the endowment and are awarded annually in the Winter Semester to students in Engineering One of the Bachelor of Engineering program studying Mechanical Engineering (Offshore Oil and Gas) or Process Engineering at Memorial University of Newfoundland. The recipient will have demonstrated scholarship standing as well as extracurricular involvement in any of the following areas: Ocean and Naval Architecture, Civil, Mechanical & Electrical. Preference will be given to students who have strong academics/work experience in the area related to a career in structural, offshore/marine industries. Winners of these scholarships will have preference (upon application) for work term placements with the American Bureau of Shipping in Houston (must be eligible for T-N Visa). Valued at $5000 each, the scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Engineering and Applied Science.

The CBCL Limited Engineering Scholarship
This non-renewable scholarship, valued at $1,000, was established by CBCL Limited. Eligible candidates must be full-time undergraduate students in the Faculty of Engineering and Applied Science, in either the Civil, Mechanical or Electrical program. The scholarship will be awarded on the basis of scholarship standing in Academic Term 4. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Engineering and Applied Science.
Chevron Canada Ltd. Endowed Scholarships in Business, Earth Sciences, Economics and Engineering

These scholarships, valued at a portion of the income from the endowment, will be awarded starting in 2011 to full-time students enrolled in at least their second year of Engineering and Applied Science, Earth Sciences, Business or Economics; in a given year, it is anticipated that students from all four faculties will be represented. Selection will be based on scholarship standing as well as expression of interest in potential employment in the oil and gas industry, and consideration given to quality of character and overall perseverance. If a successful candidate is not recommended by the discipline on rotation in a given year an eligible student from the other discipline may be awarded the scholarship for that year. If no candidates are available from the first group any student enrolled in either Engineering or Mathematics (discipline to be determined by the rotation schedule in a given year) will be considered. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the: Dean, Faculty of Engineering and Applied Science; Head, Department of Earth Sciences; Dean, Faculty of Business Administration; and Head, Department of Economics.

Chevron Canada Ltd. Term Scholarships in Business, Earth Sciences, Economics and Engineering

These scholarships, valued at $4,000, will be awarded to full-time students enrolled at least their second year of Engineering and Applied Science, Earth Sciences, Business or Economics; in a given year, it is anticipated that students from all four faculties will be represented. Selection will be based on scholarship standing as well as expression of interest in potential employment in the oil and gas industry and consideration given to career location mobility. Level of service to community, or leadership will also be considered. Students may receive the scholarship in more than one year. They will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the: Dean, Faculty of Engineering and Applied Science; Head, Department of Earth Sciences; Dean, Faculty of Business Administration; and Head, Department of Economics.

The Chevron Canada Resources Engineering Scholarship

This scholarship, valued at the interest on an endowment to the Opportunity Fund by Chevron Canada Resources, will be awarded annually on the basis of scholarship standing to a student during the Winter semester of Engineering One of the Engineering program at Memorial University of Newfoundland. The scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, based on a recommendation from the Dean, Faculty of Engineering and Applied Science.

The Dr. Jack Clark Graduate Award

This award was established in memory of Dr. Jack Clark who served as President and Chief Executive Officer of C-CORE from 1984 to 1997. The award will be valued at a portion of the income on the endowment and will be awarded annually. The award is available to any full-time graduate level student in the Faculty of Engineering and Applied Science who meets the minimum academic requirements for an award as defined by the University. Eligibility will be based on academic standing with preference given to those who have demonstrated financial need by presenting a case with their application. It will be awarded by the Dean of Graduate Studies upon the recommendation of the Dean, Faculty of Engineering and Applied Science.

Stephen Crooks Memorial Scholarship

This scholarship, valued at $1000.00, has been established in memory of Stephen Crooks (Civil 1982-Memorial University of Newfoundland). It will be awarded to an Engineering student, on the basis of sound scholastic record, who has completed at least five academic credits in Engineering. The student’s contribution to the Engineering Faculty and Applied Science and the University, performance during work terms, and overall perseverance within the program will also be taken into consideration. The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of Engineering and Applied Science.

The Wilfred and Rose Davis Scholarship in Engineering

This scholarship, a gift from Wilfred J. (Memorial University College 1946) and Rose Davis, is awarded annually to a student entering or engaged in Engineering One. The award is valued at the interest earned annually from the endowment and will not be awarded to candidates holding other scholarships of greater value. This scholarship is based on scholarship standing and financial need. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation from the Dean, Faculty of Engineering and Applied Science.

Det Norske Veritas Scholarship

The Det Norske Veritas Scholarship is donated by the Norwegian Ship Classification Society of that name. The $1,000.00 scholarship is awarded to the student in the graduating class in Naval Architectural Engineering who has achieved the highest total marks in terms five to eight inclusive. The award is made solely on academic criteria, and may be held in addition to not more than one other award having monetary value. The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of Engineering and Applied Science.

Engineering One Entry Scholarships in Engineering

These scholarships are endowed by Mr. Wing Soon Oue of Seven Seas Restaurant, Corner Brook, and have a value of up to $500.00 each. They are awarded annually to two students entering Engineering One, providing they hold no other awards of greater value. The scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards acting on the recommendation of the Dean of Engineering and Applied Science.

The J.M.C. Facey Engineering Scholarship

The scholarship is valued at $5,000, and is provided via a contribution to Memorial University of Newfoundland by Mr. Darryl Fry. It will be awarded on the basis of scholarship standing to residents of Newfoundland and Labrador enrolled in Engineering One at Memorial University of Newfoundland. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on a recommendation from the Dean, Faculty of Engineering and Applied Science.

The Dennis Forgeron Award in Mechanical Engineering

The award, valued at $3000, has been established in memory of Dennis Forgeron (Mechanical Engineering Graduate, 1991). It will be awarded to a full-time Mechanical Engineering student during term 7 and is subject to successful completion of term 6. Selection will be based on outstanding contribution to the spirit of the Mechanical Engineering graduating class over the course of their studies at Memorial University of Newfoundland. It will be administered by the Engineering Scholarship Committee which will accept recommendations from the Engineering Society Executive. If it is decided that more than one candidate is equally deserving of the award in a given year, then joint awards of equal value, to a combined maximum of $3000, may be given. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, Faculty of Engineering and Applied Science.

Daniel Freeman Memorial Scholarship

This scholarship was established from the contributions of many family members, friends, and fellow students in memory of Danny Freeman, a former Engineering student at Memorial University of Newfoundland. The scholarship, valued at a portion of the accrued interest, will be awarded annually, on a rotating basis, to students enrolled in either Engineering or Mathematics. Preference will be given to students with disabilities with consideration given to quality of character and overall perseverance. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Engineering or the Head, Department of Mathematics and Statistics.
The General Motors Scholarship for Women in Engineering
This scholarship is one of several established by General Motors of Canada Limited with contributions to the University's Opportunity Fund campaign. Interest from the fund will provide a scholarship valued at a minimum of $1,000.00 annually to support and encourage women to study and work in engineering, thereby increasing the contributions of women to engineering and scientific endeavours. This scholarship is tenable at Memorial University of Newfoundland to female students regardless of age, with preference to those who are entering the Faculty of Engineering and Applied Science. However, female students already enrolled in Engineering studies may be eligible if in a given year an eligible entering student is not available. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Dean, Faculty of Engineering and Applied Science.

The General Motors Scholarship in Engineering
This scholarship was established by General Motors of Canada Limited with contributions to the University's Opportunity Fund campaign. Interest from the fund will provide a scholarship valued at a minimum of $1,000.00 annually to support individuals who are first generation students in a family (immediate family) to enroll in Engineering. It will be awarded to a student in any term of the Bachelor of Engineering program at Memorial University of Newfoundland. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Dean, Faculty of Engineering and Applied Science.

The Halliburton Energy Services Scholarship in Mechanical Engineering
This fund, a gift to Memorial University of Newfoundland by Halliburton Energy Services via The Opportunity Fund campaign, will provide a scholarship valued at approximately $1,500.00 annually. It will be awarded on the basis of scholarship standing to a student in academic terms 5 or 6 of the Mechanical Engineering Program at Memorial University of Newfoundland. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Engineering and Applied Science.

Hebron Diversity Award
This award was created from a generous contribution from the Hebron Project. The Hebron Project co-venturers are ExxonMobil Canada Properties (operator), Chevron Canada, Suncor Energy, Statoil Canada and Nalcor Energy. Awards will be available to full-time or part-time students, enrolled at any campus of Memorial University of Newfoundland, who have aboriginal status, a disability, or who represent a visible minority. Students with a disability should provide supporting documentation (from a medical doctor, psychologist, audiologist, rehabilitation counselor, or other professional who has specific training, expertise, and experience in the diagnosis of this condition). Students will claim aboriginal and visible minority status through self-identification. Of those eligible students, further preference will be given to students who are majoring in engineering, the geosciences, environmental science or chemistry. Normally, at least one award will be granted in each designated area and where possible, at least one award will be granted to a student in his/her first year of study. For students at the St. John's or Grenfell Campus the awards will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the appropriate Department Head. For students at Marine Institute, the awards will be granted by the Marine Institute Scholarship Committee on the recommendation of the appropriate Department Head.

The Hebron Women in Science and Engineering Scholarship
This scholarship program was created by a generous contribution from the Hebron Project. The Hebron Project co-venturers are ExxonMobil Canada Properties (operator), Chevron Canada, Suncor Energy, Statoil Canada and Nalcor Energy. Scholarships will be awarded to female students who are enrolled in full-time or part-time studies at any campus of Memorial University of Newfoundland who are majoring in engineering, the geosciences, environmental science or chemistry. Preference will be given to students with demonstrated financial need. Where possible at least one scholarship will be awarded to a student in her first year of study. For students at the St. John's or Grenfell Campus the awards will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the appropriate Dean or Department Head. For students at the Marine Institute the awards will be granted by the Marine Institute Scholarship Committee on recommendation of the appropriate Department Head.

The Hibernia Project Scholarship
These scholarships, established by the Hibernia Management and Development Company Ltd. are tenable at Memorial University of Newfoundland and are valued at an amount determined by the annual income on the investment. They are awarded annually as follows:

- Four students entering Term 3 of the Faculty of Engineering and Applied Science with two awarded to male students and two awarded to female students.
- Two students entering Term 3 of the Faculty of Business Administration with one awarded to a male student and one awarded to a female student.

Candidates for these awards must be of scholarship standing but consideration may also be given to their financial circumstances. All candidates must be residents of Newfoundland and Labrador. The awards will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Deans, Faculty of Business Administration and Faculty of Engineering and Applied Science.

The Honeywell Limited-Honeywell Limitée Scholarship
This scholarship, the gift of Honeywell Limited-Honeywell Limitée, is valued at the annual interest on the initial endowment. It will be awarded on the basis of scholarship standing to a student in Term 5 of the Mechanical Engineering Program at Memorial University of Newfoundland. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Engineering and Applied Science.

The IEEE Newfoundland and Labrador Section Term 4 Scholarship
This scholarship was established by an endowment from the Newfoundland and Labrador Section of IEEE (The Institute of Electrical and Electronics Engineers). It is valued at a portion of the annual interest accrued on the initial endowment and awarded annually to a full-time undergraduate student in Term 4 of the Electrical and Computer Engineering or Computer Engineering Programs at Memorial University of Newfoundland. The recipient must be an active student member of IEEE and be of scholarship standing as defined by the University. In addition to the student's academic achievement, contributions to the IEEE student branch will be considered. In this regard, candidates must submit a one page letter describing their IEEE involvement, their professional goals and their student activities in the Electrical and Computer Engineering and/or computer engineering. A student may not hold the scholarship more than once. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean, Faculty of Engineering and Applied Science, acting on the advice of a special selection committee of the IEEE, Newfoundland and Labrador Section.

The IEEE Scholarship
This scholarship was established by the members of the Newfoundland and Labrador section of IEEE (The Institute of Electrical and Electronics Engineers). This Scholarship has a value of $1000. It is awarded annually to a full-time undergraduate student in Term 6 of the Electrical and Computer Engineering Program at Memorial University of Newfoundland. The recipient must be a student member of IEEE and possess scholarship standing as defined by the University. In addition to the student's academic achievement, contributions to
the IEEE student branch will be considered. This Scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean, Faculty of Engineering and Applied Science, acting on the advice of the IEEE Newfoundland and Labrador Section.

The Integrated Informatics Award of Excellence
This award is established through a generous gift from Jason and Christa Humber, and will provide one award annually, valued at a portion of the income from the endowment. To be eligible, students must be senior engineering students enrolled in their final undergraduate year (Term 8) in the Offshore Oil and Gas option of the Faculty of Engineering & Applied Science at Memorial University of Newfoundland. The award will be given to a student who has achieved the highest total marks in offshore oil and gas courses in terms 6 and 7. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, upon the recommendation of the Dean, Faculty of Engineering & Applied Science.

The Kiewit Offshore Services Award
These awards, valued at $1000 each for two students are offered annually by Kiewit Offshore Services (KOS). Each award also includes the possibility for the recipient to complete one or more work terms with this well-renowned general contracting company. The eligible candidates should have completed, as a minimum, their Term 4 in Naval, Civil, Mechanical or Electrical Engineering with good scholarship standing and have demonstrated a strong interest to work in the construction industry during their previous work terms, preferably with the Kiewit Group. Factors to be taken into account include character qualities, team spirit, personal initiative, leadership, reliability and mobility. Financial need may also be a consideration. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, Faculty of Engineering and Applied Sciences with the appropriate input from the Chairpersons and Faculty acting on the advice of a special selection committee of the Kiewit Group.

The Peter Kiewit Sons Co. Ltd. Award
These awards, valued at $1000 each for two students are offered annually by Peter Kiewit Sons Co. (PKS). Each award also includes the possibility for the recipient to complete one or more work terms with this well-renowned general contracting company. The eligible candidates should have completed, as a minimum, their Term 4 in Civil, Mechanical or Electrical Engineering with good scholarship standing and have demonstrated a strong interest to work in the construction industry during their previous work terms, preferably with the Kiewit Group. Factors to be taken into account include character qualities, team spirit, personal initiative, leadership, reliability and mobility. Financial need may also be a consideration. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, Faculty of Engineering and Applied Sciences with the appropriate input from the Chairpersons and Faculty acting on the advice of a special selection committee of the Kiewit Group.

The Gene H. Kruger Memorial Scholarship
These scholarships are the result of a generous donation by Joseph Kruger II in memory of his father, Gene H. Kruger. Valued at a portion of the income on the investment, they will be awarded to two students in the Faculty of Engineering and Applied Science who were born and have lived in Newfoundland all of their life. Particular emphasis should be given to those who are studying Mechanical and Electrical Engineering as well as those studying information technologies. The scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and financial need on the recommendation of the Dean, Faculty of Engineering and Applied Science.

The Wallace Allison MacCallum Memorial Scholarship
This scholarship valued at the annual interest, was established by the MacCallum family in honour of their father, Wallace. It will be awarded to a third or fourth year Engineering student at Memorial University of Newfoundland. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Dean, Faculty of Engineering and Applied Science. Factors such as, interest in the humanities and international affairs, marine technology, contribution to his/her engineering class, and athletic involvement may also be taken into consideration.

The John Madvig Bursary
This bursary will be awarded annually to a student in the Faculty of Engineering and Applied Science who is studying in the Naval Architectural Engineering program at Memorial University of Newfoundland. The value of the bursary will be based on the annual interest earned on the initial endowment. It will be awarded to a Canadian citizen on the basis of academic standing and financial need. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean of Engineering and Applied Science.

The Effie and Leander Mercer Scholarship
The scholarship was established by Dr. Jean Mercer in honour of her parents, Effie and Leander Mercer. Valued at the annual interest on the endowment, an award will be made alternately to a third year student in Medicine, Engineering and Post-Secondary Education (formerly Vocational Education). In any given year, if no student is eligible in the designated faculty it may be awarded to a student in one of the other two faculties. The successful student must have done most of his/her studies as a mature student. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation of the Dean, Faculty of Engineering and Applied Science.

The Professor Bill Milne Memorial Scholarship
The scholarship is established in memory of Professor William (Bill) Milne, the founder of the program now known as Ocean and Naval Architectural Engineering. This scholarship, valued at a portion of the income from the endowment, is the result of contributions by Ruth Milne and Prof. Milne’s former students and colleagues. The scholarship recipients will be full-time undergraduate students enrolled in Term 1 or 2 of the Ocean and Naval Architectural Engineering program. Candidates must have maintained scholarship standing in Terms 1 to 3, and have demonstrated involvement in formal professional associations, such as the Society of Naval Architects and Marine Engineers. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on the recommendation of the Dean, Faculty of Engineering & Applied Science.

The Integrated Informatics Award of Excellence
This award is established through a generous gift from Jason and Christa Humber, and will provide one award annually, valued at a portion of the income from the endowment. To be eligible, students must be senior engineering students enrolled in their final undergraduate year (Term 8) in the Offshore Oil and Gas option of the Faculty of Engineering & Applied Science at Memorial University of Newfoundland. The award will be given to a student who has achieved the highest total marks in offshore oil and gas courses in terms 6 and 7. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, upon the recommendation of the Dean, Faculty of Engineering & Applied Science.

The Kiewit Offshore Services Award
These awards, valued at $1000 each for two students are offered annually by Kiewit Offshore Services (KOS). Each award also includes the possibility for the recipient to complete one or more work terms with this well-renowned general contracting company. The eligible candidates should have completed, as a minimum, their Term 4 in Naval, Civil, Mechanical or Electrical Engineering with good scholarship standing and have demonstrated a strong interest to work in the construction industry during their previous work terms, preferably with the Kiewit Group. Factors to be taken into account include character qualities, team spirit, personal initiative, leadership, reliability and mobility. Financial need may also be a consideration. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, Faculty of Engineering and Applied Sciences with the appropriate input from the Chairpersons and Faculty acting on the advice of a special selection committee of the Kiewit Group.

The Peter Kiewit Sons Co. Ltd. Award
These awards, valued at $1000 each for two students are offered annually by Peter Kiewit Sons Co. (PKS). Each award also includes the possibility for the recipient to complete one or more work terms with this well-renowned general contracting company. The eligible candidates should have completed, as a minimum, their Term 4 in Civil, Mechanical or Electrical Engineering with good scholarship standing and have demonstrated a strong interest to work in the construction industry during their previous work terms, preferably with the Kiewit Group. Factors to be taken into account include character qualities, team spirit, personal initiative, leadership, reliability and mobility. Financial need may also be a consideration. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, Faculty of Engineering and Applied Sciences with the appropriate input from the Chairpersons and Faculty acting on the advice of a special selection committee of the Kiewit Group.

The Gene H. Kruger Memorial Scholarship
These scholarships are the result of a generous donation by Joseph Kruger II in memory of his father, Gene H. Kruger. Valued at a portion of the income on the investment, they will be awarded to two students in the Faculty of Engineering and Applied Science who were born and have lived in Newfoundland all of their life. Particular emphasis should be given to those who are studying Mechanical and Electrical Engineering as well as those studying information technologies. The scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and financial need on the recommendation of the Dean, Faculty of Engineering and Applied Science.

The Wallace Allison MacCallum Memorial Scholarship
This scholarship valued at the annual interest, was established by the MacCallum family in honour of their father, Wallace. It will be awarded to a third or fourth year Engineering student at Memorial University of Newfoundland. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Dean, Faculty of Engineering and Applied Science. Factors such as, interest in the humanities and international affairs, marine technology, contribution to his/her engineering class, and athletic involvement may also be taken into consideration.

The John Madvig Bursary
This bursary will be awarded annually to a student in the Faculty of Engineering and Applied Science who is studying in the Naval Architectural Engineering program at Memorial University of Newfoundland. The value of the bursary will be based on the annual interest earned on the initial endowment. It will be awarded to a Canadian citizen on the basis of academic standing and financial need. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean of Engineering and Applied Science.

The Effie and Leander Mercer Scholarship
The scholarship was established by Dr. Jean Mercer in honour of her parents, Effie and Leander Mercer. Valued at the annual interest on the endowment, an award will be made alternately to a third year student in Medicine, Engineering and Post-Secondary Education (formerly Vocational Education). In any given year, if no student is eligible in the designated faculty it may be awarded to a student in one of the other two faculties. The successful student must have done most of his/her studies as a mature student. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation of the respective Dean. Financial need must also be taken into account.

The Professor Bill Milne Memorial Scholarship
The scholarship is established in memory of Professor William (Bill) Milne, the founder of the program now known as Ocean and Naval Architectural Engineering. This scholarship, valued at a portion of the income from the endowment, is the result of contributions by Ruth Milne and Prof. Milne’s former students and colleagues. The scholarship recipients will be full-time undergraduate students enrolled in Term 1 or 2 of the Ocean and Naval Architectural Engineering program. Candidates must have maintained scholarship standing in Terms 1 to 3, and have demonstrated involvement in formal professional associations, such as the Society of Naval Architects and Marine Engineers. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on the recommendation of the Dean, Faculty of Engineering & Applied Science.

NACE International (Atlantic Canada Section) Prize
This prize has been established by the National Association of Corrosion Engineers and is valued initially at $500.00 annually. It will be awarded to an Electrical or Mechanical Engineering student in Academic Term 5 in the engineering program at Memorial University of Newfoundland. The successful candidate must have demonstrated excellence in Engineering 3911 - Chemistry and Physics of Corrosion and/or have carried out a laboratory experiment or performed research in corrosion and/or corrosion mitigation. The prize will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of a recommendation from the Dean, Faculty of Engineering and Applied Science in consultation with the Atlantic Canada Section of NACE International. The successful candidate will be encouraged to join NACE International as a student member to encourage his or her interest in corrosion mitigation.

Nalcor Energy Women in Engineering Scholarship
The Nalcor Energy Women in Engineering Scholarship is endowed through a gift from Nalcor Energy. Valued at a portion of the income on the endowment and based on scholarship standing this scholarship will be awarded to a full-time undergraduate female student who
The Newfoundland and Labrador Hydro Corporation Scholarships in Engineering and Applied Science

Five scholarships are offered annually by the Newfoundland and Labrador Hydro Corporation and are valued at $1,000.00 each. They are distributed as follows:

- two to students enrolled in the Fall semester of Engineering One based on previous scholastic achievement
- two to students enrolled in the Winter semester of Engineering One based on that term’s results
- one to a student enrolled in Term 8 based on the cumulative average in Engineering.

The scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean, Faculty of Engineering and Applied Science.

The Newfoundland and Labrador Federation of Municipalities Civil Engineering Scholarship

This scholarship, the gift of the Newfoundland and Labrador Federation of Municipalities, is valued at $500.00. It will be awarded annually to a Civil Engineering student at Memorial University of Newfoundland. Financial need and other factors may also be taken into account. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Dean, Faculty of Engineering and Applied Science.

The Newfoundland and Labrador Federation of Municipalities Civil Engineering Scholarship

This scholarship, the gift of the Newfoundland and Labrador Federation of Municipalities, is valued at $500.00. It will be awarded annually to a Civil Engineering student at Memorial University of Newfoundland. Financial need and other factors may also be taken into account. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Dean, Faculty of Engineering and Applied Science.

The Newfoundland Design Associates Limited Scholarship in Engineering

This scholarship, the gift of the Newfoundland Design Associates Limited, will provide a scholarship for a full time undergraduate student in academic Term 2 of the Engineering Program. The scholarship, valued at $1,000.00 annually, will be awarded to a Civil Engineering student who has achieved scholarship standing and is in Term 6 of their program. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of a recommendation from the Dean, Faculty of Engineering and Applied Science.

The Newfoundland Road Builders/Heavy Civil Association Scholarship

This scholarship has been established by the Newfoundland Road Builders/Heavy Civil Association and is valued at $1,000.00 annually. It will be awarded to a Civil Engineering student who has achieved scholarship standing and is in Term 6 of their program. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of a recommendation from the Dean, Faculty of Engineering and Applied Science.

Professor Calvin Noble Memorial Award

The award, valued at $1,000.00, will be given annually to an undergraduate student in any year of the Faculty of Engineering and Applied Science. The recipient must be in clear academic standing and must have made a significant contribution to the Faculty of Engineering and/or to university life as a whole during his/her studies at Memorial University of Newfoundland. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean, Faculty of Engineering and Applied Science.

The Noranda Scholarship

This scholarship valued at the annual interest, has been established by the Noranda Foundation as part of the Opportunity Fund campaign. It will be awarded on an annually rotating basis between students in Earth Sciences and Engineering and Applied Science. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Dean/Department Head of the appropriate discipline.

The William O’Reilly Memorial Scholarship

This scholarship established in memory of William O’Reilly (Engineering Class ’76), has a value of $500.00, and is awarded annually to a student in Term 5 or Term 8 of the Engineering program. The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on the recommendation of the Dean of Engineering and Applied Science in consultation with the representative of the Engineering Class of ’76. Economic need will be the major consideration but the candidate will be required to have at least a “B” average in the previous semester. The scholarship will not be awarded to a candidate holding a scholarship of equal or greater value.

Oil and Gas Week Scholarship

Valued at $1,000 each, these undergraduate scholarships are established by a gift over three years from the organizers of Oil and Gas Week, a program of events held annually in St. John’s, NL for the purpose of promoting the oil and gas industry. Two scholarships will be awarded each year. To be eligible, students must be enrolled full-time beyond the first year of an undergraduate program in the Department of Earth Sciences, the Faculty of Engineering and Applied Science, or the Faculty of Business Administration. Eligible candidates must also have scholarship standing and preference will be given to students who graduated from a high school in Newfoundland and Labrador outside of the metropolitan St. John’s area. Each year the two recipients must be from different faculties, with each identified academic unit to be represented no more than twice in the three year period of the term of the fund. The scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, based on a recommendation from the appropriate academic discipline.

Fritz Potter Memorial Award

This award has been established in memory of Fritz Potter (Civil Engineering Graduate, 1991) and is valued at $500.00. It will be awarded during the Winter semester and is intended for students enrolled in Term 8 of the Civil Engineering program. The criteria for selection will be on the basis of outstanding contribution to the spirit of the Civil Engineering graduating class over the course of their studies at Memorial University of Newfoundland. It will be administered by the Engineering Scholarship Committee which will accept recommendations from the Engineering Society Executive. The Engineering Society Executive should consult with Term 8 Civil Engineering class before arriving at their decision. If it is decided that two candidates are equally deserving of the award, then joint awards may be given valued at $250.00 each. This award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based upon a recommendation from the Faculty of Engineering.

The Professional Engineers and Geoscientists Newfoundland and Labrador Engineering Scholarships

Two scholarships, the gifts of the Professional Engineers and Geoscientists Newfoundland and Labrador, are awarded annually to students entering the Engineering program. The awards are valued at $1,000.00 each and will not be awarded to candidates holding other scholarships of greater value. One of the scholarships will be awarded on the basis of scholastic achievement and financial need; the other primarily on the basis of scholastic achievement. These scholarships will be awarded by a committee of the Professional Engineers and Geoscientists Newfoundland and Labrador. Further information regarding application forms, etc., is available from the Dean of Engineering and Applied Science.

The Professional Engineers and Geoscientists Newfoundland and Labrador Past President's Engineering Scholarship

This scholarship, valued at a minimum of $1,000.00, was established by the Professional Engineers and Geoscientists Newfoundland and Labrador to mark the centennial year of Engineering as an organized profession in Canada. It is awarded annually on the basis of scholastic achievement to a student entering the Fall semester of the Engineering program at Memorial University of Newfoundland. The scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, in
consultation with the Dean of Engineering and PEGNL.

The S.P. Raheja Memorial Scholarship
This scholarship, valued at a portion of the income from the endowment, was established through generous gifts from the friends and family members of S. P. Raheja. It is to be presented during National Co-operative Education Week and will rotate annually between the Faculty of Engineering and Applied Sciences and the Faculty of Business Administration. To be eligible, students must be in scholarship standing, and be enrolled in the co-operative program, having successfully completed work term four in Engineering or work term two in Business in the previous scholarship year. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, upon the recommendation of the Director of the Division of Co-operative Education.

The Charlie Riggs and Cathy MacDonald Riggs Memorial Award
This award was established in memory of Charlie Riggs (B.Sc. in Engineering, Mechanical, 1988) and Cathy MacDonald Riggs (Bachelor of Science – Psychology, 1984) by AMEC Earth & Environmental (a division of AMEC Americas Limited). The award will be valued at a portion of the income on the endowment and will be awarded annually on a rotating basis between the Faculty of Engineering and Applied Science and the Department of Psychology. Recipients from Engineering can be enrolled in any year of the undergraduate program. Preference will be given to students involved in environmental organizations such as the Newfoundland Environmental Industry Association (NEIA) or environmental initiatives supported by the Professional Engineers and Geoscientists of Newfoundland and Labrador (PEGNL). Recipients from Psychology must be undergraduate students majoring in Behavioural Neuroscience and beyond their second year of study. They may demonstrate an interest in the psychology or physiology of communication. The students must meet the minimum academic requirements for an award as defined by the University. The award will be administered by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean, Faculty of Engineering and Applied Science and the Head of Psychology, Faculty of Science, respectively.

Rutter Engineering and Automation Inc. Scholarship in Engineering
This scholarship, valued at the annual interest on the endowment, will be awarded annually to a student in Term 4 of the Electrical Engineering program at Memorial University of Newfoundland. Candidates for the scholarship must be of scholarship standing but continuing students may also be given to them financial circumstances. All candidates must be residents of Newfoundland and Labrador (a person who has maintained permanent residence in the province for a period of 12 months immediately prior to enrollment for the term of study). The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Engineering and Applied Science.

Rutter Inc. Scholarship - In Memory of Byron Dawe
This scholarship was established in 2003 by a donation from Rutter Inc. and renamed in 2012 in memory of Byron Dawe, M. Eng, one of the founders of Rutter’s marine products business. Valued at a portion of the income on the investment, it will be awarded annually to a student in Term 4 of the Electrical Engineering program at Memorial University of Newfoundland. The recipient must meet the minimum academic requirements for a scholarship as defined by the University; however preference may be given to students with demonstrated financial need. All candidates must be residents of Newfoundland and Labrador (a person who has graduated from a high school in Newfoundland and Labrador). The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Engineering and Applied Science.

The Schlumberger Canada Limited Scholarships
These ten scholarships, valued at $2,000.00 each, are generously funded by Schlumberger Canada Limited. They will be available to students who are enrolled in academic years 2 to 4 of the Bachelor of Engineering program at Memorial University of Newfoundland and who are women, have Aboriginal status, a disability, or who represent a visible minority. Students with a disability should provide supporting documentation (from a medical doctor, psychologist, audiologist, rehabilitation counselor, or other professional who has specific training, expertise, and experience in the diagnosis of this condition). Preference will be given to students with demonstrated financial need. All candidates must be residents of Newfoundland and Labrador (a person who has maintained permanent residence in the province for a period of twelve months prior to entering academic term one in the program). They will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, Faculty of Engineering and Applied Science.

The Schlumberger Canada Limited Scholarship for Engineering and Applied Science
This scholarship, valued at $2,000 each for four student recipients, is generously funded by Schlumberger Canada Limited. In the Atlantic East Canada region, Schlumberger operates from ten sites, employs over 300 people and is an equal opportunity employer. The scholarship will be available to full-time students who are enrolled in academic years two to four of the Bachelor of Engineering program (Civil, Mechanical, Electrical and Computer) at Memorial University of Newfoundland. The recipients must be residents of Newfoundland and Labrador and meet the minimum academic requirements for a scholarship as defined by the University. The scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, Faculty of Engineering and Applied Science.

The Shell Canada Engineering Scholarship
This fund a gift to Memorial University of Newfoundland by Shell Canada via The Opportunity Fund campaign, will provide three scholarships valued at approximately $1,500.00 each annually. They will be awarded on the basis of scholarship standing to students in the previous scholarship year. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, Faculty of Engineering and Applied Science.

The Charlie Sheppard Memorial - Hatch Scholarship
The Charlie Sheppard Memorial - Hatch Scholarship, valued at a portion of the income on the endowment, has been established by Hatch, in memory of Charlie Sheppard. The scholarship will be awarded to two full-time undergraduate students in the Faculty of Engineering and Applied Science who are in the Winter semester of Engineering One and have scholarship standing. All other criteria being equal, preference will be given to a student from a rural community in Newfoundland and Labrador. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Engineering and Applied Science.

Structural Design Inc. Scholarship in Engineering
This scholarship is the result of a commitment to The Opportunity Fund by Structural Design Inc. It will provide one scholarship of $500 to full-time students in Term 7 specializing in Structural Engineering. The scholarship, based on scholarship standing, will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean, Faculty of Engineering and Applied Science. In the case of a tie between two students, need may be a determining factor.

The Sun Life Financial Scholarship in Applications of Technology
The Sun Life Financial Scholarship in Applications of Technology is consistent with the company's belief that education is key to the future well-being of individuals, business and society. The scholarship, valued at the annual interest on the endowment, will be designated on an annually rotating basis to a student on the Corner Brook campus and the St. John's campus. It will be awarded to a student within the faculties of Science, Engineering and Applied Science and Business Administration who is focusing his/her studies
on the application of technology and has demonstrated scholarship standing. In addition, the student will have actively participated in extra-curricular activities and have been active in student life. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the appropriate Dean and/or the Vice-President of Grenfell Campus.

The Sun Microsystems of Canada Scholarship
This fund, donated to Memorial University of Newfoundland via The Opportunity Fund by Sun Microsystems of Canada, will provide a scholarship for a full-time undergraduate student in Academic Term 5 of the Computer Engineering program. The scholarship, valued at the annual interest on the endowment, will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean, Faculty of Engineering and Applied Science.

The David S. Templeton Scholarship
This scholarship is the gift of Newfoundland Power Inc. The exact value is reviewed on an annual basis and is currently set at $2,000.00. It is awarded annually to a student entering Term 4 who has completed all components of the program up to Term 4. Academic excellence is a major criterion but should be coupled with exemplary work term results. In addition, the candidate should have strong interpersonal and communications skills as well as good understanding of the needs and aspirations of their fellow citizens and a desire to use engineering as a vehicle to make our world a better place. The scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on the recommendation of the Dean, Faculty of Engineering and Applied Science in consultation with the President of the Company. No application is required.

The Charles O. Thomas Scholarship
This scholarship is a gift of The Thomas Fuller Construction Company (1958) Limited, in memory of Mr. Charles O. Thomas, who was supervisor of construction of the National Research Council Institute for Marine Dynamics on this campus, 1982-85. The value of the award will be based upon the interest accrued on the principal sum donated, up to the amount of $750.00. The award is made to the student in the Faculty of Engineering and Applied Science who obtains the highest overall average in Terms 3, 4, and 5 and who does not already hold a scholarship administered by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards in that same year. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on the recommendation of the Dean of Engineering and Applied Science.

Bob Thorburn Memorial Scholarship
The Bob Thorburn Memorial Scholarship was initially established at Memorial University of Newfoundland during the Opportunity Fund through a gift from Quadrate Inc., and recently fully endowed by Quadrate Inc. This fund will provide a scholarship for a full-time undergraduate student in Academic Term 4 of the Engineering Program in either the Electrical and Computer or the Mechanical Engineering disciplines. The scholarship, valued at the annual interest on the endowment, is based on scholarship standing. Students demonstrating financial need may also be considered. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean, Faculty of Engineering and Applied Science.

The Tiller Engineering Incorporated/CSCE Newfoundland and Labrador Section Scholarship
The Tiller Engineering Incorporated/CSCE Newfoundland and Labrador Section Scholarship has been established as a result of the 25th anniversary of the Canadian Society for Civil Engineering's Newfoundland and Labrador Section. Tiller Engineering Inc. was founded in 2001 by Faculty of Engineering and Applied Science alumni Richard W. Tiller, M. Eng, B.Eng, P.H. - Class of 1988. The firm is renowned for its commitment to quality and sold record of excellence in the telecommunications, buildings, and energy industries throughout North America. Mr. Tiller is a long-time member of the CSCE and his engineering firm is also an Affiliate Corporate Member of the Society. Valued at $500, this scholarship is to be awarded annually on the basis of scholarship standing to an undergraduate student in Term 3 of the Civil Engineering discipline. The recipient of this scholarship may be offered a work term at Tiller Engineering Incorporated. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, upon recommendation of the Dean, Faculty of Engineering and Applied Science.

The Toromont Scholarship
This scholarship, valued at the annual interest on the endowment, has been established by Toromont Industries Ltd. as part of the Opportunity Fund Campaign. It will be awarded on an annually rotating basis between students in Business Administration and Engineering and Applied Science. It will be awarded on the basis of scholarship standing, extracurricular activities, and need. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation from the Dean of the appropriate discipline.

Vale Scholarships in Process Engineering
These eight scholarships, valued at $1,000.00 each, are generously funded by Vale. They will be available to students who are enrolled in academic years 2 to 4 of the Bachelor of Engineering program, majoring in process Engineering at Memorial University of Newfoundland. These students must have maintained permanent residence in the Province for a minimum of twelve months immediately prior to entering academic term one of the program. They will be awarded as follows: two in term three (one male and one female), two in term four (one male and one female), and one each for terms five through eight. They will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean, Faculty of Engineering and Applied Science.

The Jacques Whitford Newfoundland Geoscience Scholarship
This scholarship, valued at the annual interest on their endowment, has been established by Jacques Whitford Environment Limited and Newfoundland Geosciences Limited as a contribution to the Opportunity Fund Campaign. It will be awarded on an annually rotating basis to students in the Faculty of Engineering and Applied Science (particularly Civil Engineering), the Faculty of Science (particularly Biological Sciences) and Archaeology. Successful candidates are to be of scholarship standing and preferably show an interest in environmental issues. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation from the Dean/Director/Department Head of the appropriate discipline.

Women in Engineering Memorial Scholarship
This scholarship has been established to commemorate the sudden and tragic deaths of fourteen women at L'Ecole Polytechnique in Montreal on December 6, 1989. Thirteen of the women who died so violently were pursuing studies in engineering, historically a non-traditional field for women. It is hoped this annual $2,500.00 scholarship will encourage more women to study and work in this profession, thereby increasing the contribution of women to engineering and scientific endeavours. Funding support is provided by the Faculty of Engineering & Applied Science, C-CORE, Memorial University of Newfoundland Alumni Association and individual contributions. This award is tenable at Memorial University of Newfoundland to female students regardless of age, who are entering the Faculty of Engineering and Applied Science. To be eligible, applicants must demonstrate a commitment to the advancement of women in Engineering fields and an active involvement in wider issues of social concern to women, as well as sound scholastic ability. The committee may also consider applications from female students already enrolled in Engineering studies, provided they meet the eligibility criteria above. A special committee, consisting of representatives from the Faculty of Engineering and Applied Science, C-CORE, Memorial University of Newfoundland’s Alumni Association, Gender Studies and Women in Science and Engineering meets annually to consider applications for this scholarship. The award will be made by the Senate Committee on Undergraduate Scholarships,
Bursaries and Awards on the recommendation of this committee.

Work Term Scholarships & Awards in Engineering
1. W.W. Cossitt - This award is intended for the Senior Engineering Student (Work Term 4, 5, & 6) who has made the most important contribution to an employer and therefore to the Co-operative Engineering Program. The award is made available by the Professional Engineers and Geoscientists of Newfoundland and Labrador (PEGNL) once per semester and has a monetary value of $500. PEGNL issues the final award on the recommendation by the Dean, Faculty of Engineering and Applied Science and the Engineering Division of Co-operative Education. The Division’s recommendation is based upon: a) Supervisor nomination; b) Student work performance; c) Student work report or oral presentation and written summary; d) Student academic standing (must be scholarship standing).

2. PEGNL Eastern Chapter - This award is intended for the Junior Engineering Student (completing work terms 1, 2, & 3 prior to Academic Term 5) who has made the most important contribution to an employer and therefore to the Co-operative Engineering Program. The award is made available by the Professional Engineers and Geoscientists of Newfoundland and Labrador (PEGNL) Eastern Chapter once per semester and has a monetary value of $500. PEGNL, Eastern Chapter issues the final award on the recommendation by the Dean, Faculty of Engineering and Applied Science and the Engineering Division of Co-operative Education. The Division’s recommendation is based upon: a) Supervisor nomination; b) Student work performance; c) Student work report; d) Student academic standing (must be scholarship standing).

Dr. James A. Wright Memorial Scholarship
One annually funded scholarship is established by a gift from Leprechaun Resources Ltd. in memory of Dr. James A. Wright, former professor in the Department of Earth Sciences. The scholarship, valued at $1,000, is available to full-time undergraduate students in their second year of study at Memorial University of Newfoundland with a preference for students enrolling at the Grenfell Campus. To be eligible, students must complete the minimum academic requirements for a scholarship and must have graduated from a high school on the West Coast of Newfoundland, as defined by the University. Preference will be given to students pursuing any area of study within the Faculty of Science or the Faculty of Engineering and Applied Science. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

The Howell Zygocki Scholarship for Women in Engineering
This scholarship was established by Rhonda I. Zygocki in the name of her family. Rhonda graduated from Memorial University of Newfoundland in 1980 with a degree in Civil Engineering and was among the University’s early female engineering graduates. This scholarship is valued at a portion of the income from the endowment and will be awarded annually. The recipient will be a second year female student in the Faculty of Engineering and Applied Science. Preference will be given to a student who has demonstrated financial need. The recipient must meet the minimum academic requirements for a scholarship as defined by the University. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean, Faculty of Engineering and Applied Science.

4.6 Faculty of Medicine
The following are available to students in the Faculty of Medicine based on a recommendation from the Dean.

The Dr. Brian Gerard Adams Memorial Bursary Fund
This bursary has been established by the friends and family of Dr. Brian Gerard Adams, in his memory. The bursary, valued at $500.00, is available by application on the completion of second year medical studies. The recipient must be in good academic standing and demonstrate financial need. The bursary is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, acting on the recommendation of the Dean of Medicine’s Advisory Committee on Awards, Bursaries and Scholarships.

The Alcohol and Drug Dependency Commission Commemorative Awards
These awards have been established to commemorate the Alcohol and Drug Dependency Commission (1982-1992). In an effort to promote the pursuit of addictions studies in various disciplines, it is hoped that recipients will pursue careers in addiction-related fields. Up to three awards, valued at $750.00 each, are available annually and open to students who have completed a major or published paper at the undergraduate or graduate level or are completing an Honours Dissertation on addictions issues. It will be awarded on a rotating basis to students in Pharmacy, Nursing, Medicine, and Social Work with a Faculty or School receiving only one award in any given scholarship year. These awards will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean/Director/Head of the respective Faculty or School.

Amgen Canada Memorial University Family Medicine Scholarship
These scholarships, five annually, are established through a generous contribution by Amgen Canada Inc and valued at $1,000 each. Amgen Canada Inc established these scholarships to provide support for medical students who are planning a career in Family Medicine. To be eligible, candidates must be full-time medical students in their graduating year who have been accepted into the Family Medicine Residency Program at Memorial University of Newfoundland. The Scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on the basis of a recommendation from the Dean, Faculty of Medicine.

The Dr. Andrew Bagby and Son Zachary Andrew Memorial Bursary
This endowed bursary was initiated in memory of Dr. Andrew Bagby and his son Zachary by David and Kathleen Bagby, parents of Andrew. The recipient must have an engaging demeanor and must relate with ease to people at all levels, as this was a unique characteristic of Dr. Bagby. The bursary will be awarded annually to the Memorial University of Newfoundland medical student who, in addition to demonstrated financial need, best demonstrates the qualities Andrew embodied: a positive, caring attitude, a sense of camaraderie, passion for life, supportive of others with a genuine concern for, and a desire to, impact positively on the lives of his/her classmates. To be eligible students must be in their third year of medical studies or beyond, and in good academic standing. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on the basis of a recommendation from the Dean, Faculty of Medicine. The Office of Student Affairs, Medicine will assist the Dean in his or her choice of the appropriate candidate.

The Erika Bartlett Memorial Bursary
This bursary is the result of an endowment to the University funded by donations from family and friends of the Bartlett family, as well as students, staff and faculty members of the Faculty of Medicine. This bursary is valued at a portion of the annual accrued interest on the endowment and is available to a staff member and a medical student in alternate years. The Erika Bartlett Bursary is administered by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards and awarded on the basis of a recommendation from the Dean, Faculty of Medicine. Applications are available at the Office of Student Affairs, Faculty of Medicine.

Selection Criteria Staff Member
To be eligible a candidate must:
1. Complete the appropriate application form;
2. Be employed full-time with the Faculty of Medicine,
3. Use the bursary to fund study at the undergraduate level.
4. Submit a grade to the selection committee upon completion of the course.

**Selection Criteria Medical Student**

To be eligible a student must:

1. Be registered in the fourth year of medical studies.
2. Be matched to a postgraduate program in Oncology (Medicine/Surgery/Radiology). If a student is not matched to an Oncology program then the recipient will be chosen at the discretion of the selection committee.

**The Donald Cant Studentship**

The annual Donald Cant Studentship, valued at $750.00, is for researching and writing an original essay, suitable for publication, on some aspect of the History of Medicine. The studentship is open to any student enrolled in the M.D. program, Faculty of Medicine, Memorial University of Newfoundland. The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards acting on the decision of the Dean of Medicine’s Advisory Committee on Awards, Bursaries and Scholarships on the basis of a proposal to be submitted by January 31 of each year.

**Central Regional Integrated Health Authority and Dr. J.F. Brown Bursary**

Each year an award is made available to students from the former Central West Board. The annual income shall be awarded as a bursary to a student of any year from the former Central West area who demonstrates the greatest need and who, in the opinion of the Dean, has achieved adequate academic performance. Should for any reason a bursary not be awarded, the entire amount is to be returned to the fund, and the award made the following year in the usual manner. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards acting on the decision of the Dean of Medicine’s Advisory Committee on Awards, Bursaries and Scholarships on the basis of a proposal to be submitted by January 31 of each year.

**The Dr. Sharon Coffey Memorial Bursary**

This bursary has been established in memory of Dr. Sharon Coffey, graduate of Memorial University of Newfoundland’s Faculty of Medicine, Class of 1982. Valued at a portion of the income on the endowment, the bursary will be awarded annually to a student entering their first year of Undergraduate Medical Education at the Faculty of Medicine, who graduated from a high school in Newfoundland and Labrador, and who is in financial need. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, acting on the recommendation of the Dean of Medicine’s Advisory Committee on Awards, Bursaries and Scholarships.

**The Dr. Peter and Mrs. Deborah Collingwood Scholarship in Medicine**

The Dr. Peter and Mrs. Deborah Collingwood Scholarship in Medicine has been established through a generous gift from Dr. Peter and Mrs. Deborah (Templeton) Collingwood. Valued at a portion of the income on the investment, the scholarship will be awarded to students who are citizens of Canada and residents of Newfoundland and Labrador, who are entering their first year of the M.D. program in the Faculty of Medicine and meet the criteria of scholarship standing as defined by the Faculty of Medicine. They are renewable for one year provided the candidates maintain scholarship standing. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on the recommendation of the Dean, Faculty of Medicine.

**The Christopher & Donna Cox Scholarship**

This scholarship, valued at $1,000.00 is established by Dr. Derek Cooze, a graduate of the Faculty of Medicine, Class of ‘85 and his spouse, Dr. Kim Keinath. It will be awarded annually to a student in the Faculty of Medicine. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and the recommendation of the Dean, Faculty of Medicine.

**The Dr. John M. Darte Memorial Fund (Medicine)**

This fund, in memory of the first Professor and Chairman of Pediatrics at Memorial University of Newfoundland's Faculty of Medicine (1968-75), has been established by Mrs. J.M. Darte and Mrs. France Darie McCabe. With the income from this fund, up to four awards will be made annually with a value of $650.00 each. To be considered for an award from this fund, a student must be in good academic standing but other factors, such as financial need, will be considered. The selection will be made in accordance with prevailing policies of the Faculty of Medicine and the University.

**The Walter Davis Award**

This award was established by the Newfoundland Lung Association to honour the work of Mr. Walter Davis in the field of chest diseases particularly, tuberculosis. The recipient will be the student in the Faculty of Medicine who achieves the best performance in the first year respirology course. It will be valued at $500.00 annually and awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean of Medicine’s Advisory Committee on Awards, Bursaries and Scholarships.

**The Dr. Ralph John Day Award**

This award is available to a student in the pre-clerkship program who completes the best undergraduate project in bowel or liver cancer, including other metastatic disease. This award is a result of a donation from Mrs. Jean Day in memory of her late husband, Dr. Ralph John Day. The value of the award will be determined by the annual income derived from the initial endowment. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean, Faculty of Medicine.

**The Hunter W. Earle Memorial Scholarships in Medicine**

These scholarships have been made possible from the proceeds of a memorial fund established by colleagues of the late Dr. Hunter W. Earle and a generous donation from Mrs. Marilyn Pasternak, widow of Dr. Earle. Two scholarships will be made available annually to students enrolled in the Faculty of Medicine at Memorial University of Newfoundland, who best exemplify the characteristics of leadership, sportsmanship and interest in student activities and who have maintained a good academic standard. The scholarships, valued at a portion of the annual income on the endowment, will be awarded to students who have completed the Clinical Clerkship and will be presented at the Annual Convocation Dinner in May. The awards will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of Medicine’s Advisory Committee on Awards, Bursaries and Scholarships.
The Dr. Harry W. Edstrom Scholarship in Medicine
Family, friends and colleagues of the late Dr. Harry W. Edstrom have established this scholarship in his memory. Dr. Edstrom was a professor of Medicine (respirology) at Memorial University of Newfoundland who is recognized for his lifetime contributions to teaching and leadership in the medical profession. He was also Clinical Chief of Medicine at Eastern Health; Past-President of the Newfoundland and Labrador Medical Association; Past-President of the American College of Physicians; Past Executive of the Canadian Medical Association and Recipient of the 2002 Queen’s Jubilee Medal. The scholarship will be awarded annually to a medical student who has completed the Clerkship component of the M.D. program, has a strong academic record and who demonstrates leadership during medical studies. The scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, based on the recommendation of the Dean, Faculty of Medicine.

The Isidor Epstein Memorial Scholarship
This scholarship is awarded out of income derived from a bequest to Memorial University of Newfoundland by the late Mrs. Bella Levkovitz. From this income a scholarship of not less than $700.00 is to be awarded as often as possible to an outstanding second, third, or fourth year student in the Faculty of Medicine. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of a recommendation from the Dean, Faculty of Medicine.

The Faculty of Medicine Opportunity Fund Scholarship
This scholarship is the result of an endowment created from several general donations to the Opportunity Fund by various alumni and friends of the University and in particular of the medical school. Valued at the annual interest on the endowment, it will be awarded annually to a medical student in the first year of study at Memorial University of Newfoundland on the basis of scholarship standing. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Medicine.

The Frank & Pat Fagan Family Scholarship for Academic Excellence and Community Leadership
This scholarship has been established through a generous donation by Frank and Pat Fagan: Frank, Pat and their two sons, Andrew and Richard are graduates of Memorial University of Newfoundland. Frank and Pat have spent their lives involved in community activities and have a close relationship with the people of the province of Newfoundland and Labrador. As a family, they believe strongly in the importance of education as well as community involvement and volunteerism. The Fagan family wants to express their gratitude for the quality of education they have attained at Memorial University of Newfoundland and the opportunities this has afforded them.

This prestigious scholarship will be awarded annually to an academically outstanding (top 10 in the class) student who has completed the Preclerkship component of the M.D. program and who demonstrates a significant record of community leadership, prior to entry or during the medical program. Only residents of the province of Newfoundland and Labrador are eligible to apply. The scholarship will be paid out to the recipient in two installments, one after completion of second year and one during the third year of medical studies. The recipient will be known as the ‘Fagan Family Scholar’. The scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Medicine.

The Dr. Peter Grant Memorial Scholarship
This scholarship, valued at a portion of the income from the endowment, has been established through generous gifts from the classmates, friends and family of Dr. Peter Grant, Medicine class of 1994, to honor his enduring spirit. The scholarship will be awarded annually, based on scholarship standing and financial need, to a second year medical student who has contributed greatly to the class spirit. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries, and Awards, on the basis of a recommendation from the Dean, Faculty of Medicine. The Office of Student Affairs, Medicine will assist the Dean in his or her choice of an appropriate candidate.

The Dr. David G. Greenland Memorial Bursary in Family Medicine
This bursary, established through a generous contribution from Heather Greenland in memory of her late husband, Dr. David G. Greenland, is valued at $2,500 per annum. Dr. Greenland loved to mentor new doctors and was heavily involved in continuing medical education in Grand Falls, NL for many years prior to passing away in 2005. The bursary will be awarded to a full-time undergraduate student in the Faculty of Medicine with demonstrated financial need and in good academic standing. To be eligible, students must be in their third year of study or beyond and have demonstrated dedication to the practice of family medicine by indicating the intention to go into Family Medicine residency. Preference will be given to students from central Newfoundland as defined by the University. The bursary is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Medicine.

The Keith Griffiths Memorial Heart and Stroke Foundation Graduate Scholarship
This scholarship, established through a generous contribution by the Griffiths family, in partnership with the Heart and Stroke Foundation of Newfoundland and Labrador, is valued at $1000 per annum. The Griffiths family has established this scholarship in memory of their father, Keith Griffiths, a stroke survivor and dedicated volunteer. The scholarship will be awarded to a full-time graduate level student in the Faculty of Medicine, who is pursuing a research program in stroke or neurological issues related to stroke. Candidates must apply in writing, providing a statement of eligibility, as well as details of their area of research, and progress. The award will be made by the Dean of Graduate Studies on the recommendation of a committee including the Assistant Dean, Graduate Studies (Medicine) and the Graduate Program Coordinators (Medicine).

The Dr. Wulf Grobin Memorial Scholarship in Medicine
This scholarship has been established by Ida Parsons in memory of Dr. Grobin, a compassionate physician and humanitarian. Dr.
Grobin was born in Latvia and studied in Switzerland, England and Scotland before moving to Newfoundland. He practised medicine in Brooklyn, Bonavista Bay from 1938-1943 and St. John's from 1945-1958 when he moved with his family to Toronto. There he continued his medical career in the area of diabetes and the elderly. He had many varied interesting medical and personal experiences as an outdoor doctor, and developed a great warmth and affection for Newfoundland and Newfoundlanders, which lasted until his death in March 2006. Valued at the accrued interest on the initial endowment and based on academics and financial need, the scholarship will be awarded to a student at the end of their first year in the Faculty of Medicine. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards acting on the recommendation of the Dean of Medicine's Advisory Committee on Awards, Bursaries and Scholarships.

The Dr. Abdalla M. Hanna Memorial Bursary in Medicine

Named in memory of Dr. Abdalla M. Hanna, a well known surgeon in St. John’s, this bursary is awarded to a student entering first year studies in the Faculty of Medicine who is a resident of Newfoundland and Labrador and who is in financial need. Valued at $1000 per annum. The scholarship will be awarded to a full-time graduate level student in the Faculty of Medicine, who is pursuing a research program related to heart health or heart disease. Candidates must apply in writing, providing a statement of their research, supported by a reference letter from the applicant’s supervisor verifying the area of research and progress to date. Consideration will also be given to the student’s course work, research and other related accomplishments. Applications shall be submitted to the Faculty of Medicine, Office of Research and Graduate Studies. The scholarship will be awarded by the Dean of Graduate Studies on the recommendation of a committee including the Assistant Dean, Graduate Studies (Medicine) and the Graduate Program Coordinators (Medicine).

Donald and Elizabeth Hillman Prize in Pediatrics

This Prize is to be awarded to the most outstanding student in Pediatrics in the Clinical Clerkship Year (Third-Year Medical Studies). The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, acting on the recommendation of the Dean of Medicine's Advisory Committee on Awards, Bursaries and Scholarships.

The Dr. Laura Hiscock Memorial Bursary

This bursary, valued at a portion of the income from the endowment, has been established through generous gifts from the classmates, friends and family of Dr. Laura Hiscock, Medicine class of 1992, in memory of Laura’s life and to honour her enduring spirit. Laura was passionate about life and had an outstanding ability to maintain balance between work and leisure. She was devoted to family and enjoyed helping and encouraging others; she supported other people and enjoyed celebrating their accomplishments, it seemed, as much as her own. She excelled at sports but was also an outstanding “sportsman”, with a belief that doing your best was what really mattered. The bursary will be awarded annually to the Memorial University of Newfoundland medical student who, in addition to demonstrated financial need, best demonstrates the qualities Laura embodied: passion for life, devotion to family, work-life balance, selflessness, support of others, and good sportsmanship. To be eligible students must be in their third year of medical studies or beyond. This bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on the basis of a recommendation from the Dean, Faculty of Medicine. The Office of Student Affairs, Medicine will assist the Dean in his or her choice of an appropriate candidate.

The Mary Honeygold Scholarship/Bursary

Established in memory of Mary Honeygold by her family, this scholarship/bursary is to be awarded to a student enrolled in the Faculty of Medicine, Memorial University of Newfoundland, on the basis of academic merit and need. Preference will be given to a student who has stated and/or demonstrated an interest in practising medicine in rural Newfoundland upon graduation. The award is to be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards acting on the advice of the Dean of Medicine's Advisory Committee on Awards, Bursaries and Scholarships.

The Marie T. Kennedy Bursary

In her will, Ms. Marie Theresa Kennedy left a bequest to Memorial University of Newfoundland to allow one or more bursaries of at least $5,000.00 to be awarded annually. To be considered, a candidate must be a full-time undergraduate student in any year of study, majoring in Science or Medicine - it will be awarded on a rotating basis. Students receiving scholarships or bursaries from other institutions or for the same scholarship year, will not be eligible. The bursary will be awarded on the basis of need and academic effort by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation from the appropriate Dean.

The Dr. Kevin Keough Medical Entrance Scholarship

This scholarship, valued at a portion of the income on the endowment, has been established through a generous donation by Dr. Ming Jarm Lau, MUNMed Class of 1982. The scholarship is named after Dr. Kevin Keough who was the supervisor of Dr. Ming Jarm Lau for his Master’s Thesis in Biochemistry (1978). Dr. Kevin Keough should be remembered as a Professor who believes in bringing out the best in his students and mentees. He has done this by his own example of forever challenging himself and by taking his mentees' best interests to heart. This prestigious entrance scholarship will be awarded annually to an academically outstanding (minimum scholarship standing) student upon entry to first year studies in the Faculty of Medicine. The scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, based on the recommendation of the Dean, Faculty of Medicine.

The Dr. J.H. King Memorial Scholarship in Medicine

This scholarship, valued at $500.00, has been donated to the University by Mrs. Gertrude King, widow of Dr. J.H. King, Specialist in Ophthalmology, Ears, Nose and Throat, who practised in Corner Brook for more than thirty years (1947-1978). The scholarship is open to students majoring in Science or Medicine - it will be awarded on a rotating basis. Students receiving scholarships or bursaries from other institutions or for the same scholarship year, will not be eligible. The bursary will be awarded on the basis of need and academic effort by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation from the appropriate Dean.

The Nichole Michelle Lane Cancer Research Scholarship

This scholarship is provided through the generosity of the Candlelighters Association of Newfoundland and Labrador in memory of Nichole Lane. It is awarded annually to a second year medical student enrolled at Memorial University of Newfoundland who has undertaken the most outstanding summer research project in the area of cancer and particularly in the area of pediatric cancer. The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, acting on the decision of the Dean of Medicine's Advisory Committee on Awards, Bursaries and Scholarships.

The Dr. Janice E. Lessard Scholarship in Geriatric Medicine

This Scholarship is awarded annually from income derived from an endowment donated by Dr. Janice E. Lessard, an alumna of Memorial University of Newfoundland, Faculty of Medicine and a practising Gerontologist, Toronto. It is to be awarded annually to a student who has completed third year of medical studies. The student will have demonstrated a desire to improve the functional and social well-being of the frail and elderly.
This award, in the amount of $1,000.00, will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards acting on the decision of the Dean of Medicine’s Advisory Committee on Scholarships, Awards and Bursaries.

**The Medical School Essay Undergraduate Award**

The Medical School Essay Award is supported by the K.B. Roberts Scholarship Fund, which was established in appreciation of the contribution made to the Faculty of Medicine by Dr. Kenneth Roberts. The award, valued at a portion of the income on the endowment, will be awarded annually to any undergraduate medical student registered full-time in the current academic year following a competition in the form of an essay or short monograph pertaining to any aspect of medicine or the medical sciences. The essay, not exceeding 5,000 words, should include an interpretative element that indicates the importance and relevance to Medicine, Health and Society. Should there be two essays of very high caliber but one is obviously the better provision may be made for an honourable mention award of lesser value. Submission deadline is April 30, in any given year, to the Office of Student Affairs HSC Room 2713. The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean’s Advisory Committee on Awards, Bursaries and Scholarships. Awards are also available to postgraduate and graduate students in the Faculty of Medicine.

**The Medical Practice Associates Scholarship for Academic Achievement**

Medical Practice Associates, the business association of all full-time clinical faculty members in the Faculty of Medicine, offers three prestigious undergraduate scholarships annually. These scholarships are valued at $1,500.00 in Medicine Year 1 and Year 2 and $2,000.00 in Medicine Year 4. They are awarded to the student earning the highest overall grades in each of the 1st, 2nd, and 4th years of undergraduate medical studies. The Medicine Year 4 scholarship will be awarded to the student earning the highest overall grades in each of the 1st, 2nd, and 4th years of undergraduate medical studies. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on the recommendation of the Dean of Medicine's Advisory Committee on Awards, Bursaries and Scholarships.

**The Effie and Leander Mercer Scholarship**

The scholarship was established by Dr. Jean Mercer in honour of her parents, Effie and Leander Mercer. Valued at the annual interest on the endowment, an award will be made alternately to a third year student in Medicine, Engineering and Post-Secondary Education (formerly Vocational Education). In any given year, if no student is eligible in the designated faculty it may be awarded to a student in one of the other two faculties. The successful student must have done most of his/her studies as a mature student. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation of the respective Dean. Financial need must also be taken into account.

**The Gordon Mercer Rural Medicine Bursary**

Named for the Founding Officer for Student Affairs in the Faculty of Medicine (1972), this bursary is awarded to a student entering first year studies in the Faculty of Medicine who is from a rural community (as defined by the university) in Newfoundland and Labrador and who is in financial need. The bursary is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on the basis of a recommendation from the Dean, Faculty of Medicine.

**The John M. and Elsa S. Morgan Scholarships**

These scholarships have been bequeathed to the University by the late Dr. John M. Morgan, B.Sc., M.D., and have been named to commemorate Dr. Morgan and his wife Elsa. Up to twenty-five scholarships will be made available annually to undergraduate students who have completed at least one year of studies at Memorial University of Newfoundland within the areas specified below and who will be continuing in these programs. The scholarships, valued at a minimum of $1,000.00 each, will be disbursed as follows:
- up to five to the Faculty of Medicine
- up to four to the School of Nursing
- up to four to the Faculty of Education
- up to four to the Department of Philosophy
- up to four to the Department of Anthropology
- up to two to the Department of Religious Studies (with preference to students of comparative religions)
- up to two to students in Newfoundland Studies

The scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the appropriate Dean/ Director/Department Head. Preference will be given, where possible, to students from the Port-de-Grave District.

**The Dr. Charles Nardini Memorial Award**

This award was initiated by the Class of 1986 in memory of a classmate who was tragically killed in a skidoo accident in the Spring of 1986. Valued at approximately $500.00 annually, it will be given to a fourth year medical student who has scholarship standing. He/she should be selected by his/her classmates and judged as follows: The student who best exemplified the characteristics of leadership, friendliness, good humour, care and concern for fellow students and patients.

Selection will take place after completion of fourth year. The student will be nominated by classmates and recommended on the basis of a majority vote. Preference, when possible, will be given to students from Labrador. The recommendation must be submitted to the Dean’s Advisory Committee on Awards, Bursaries and Scholarships, Faculty of Medicine. It will then be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of a recommendation from the Dean, Faculty of Medicine.

**The Dr. Francis L. O’Dea Scholarship**

This scholarship is established to commemorate the memory and work of Dr. Francis L. O’Dea in the field of Obstetrics and Gynecology, and is valued at a portion of the income on the investment. It is awarded annually to a third-year student in the Faculty of Medicine at Memorial University of Newfoundland, whose special interest lies in the area of Obstetrics and Gynecology. The scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards acting on the recommendation of the Dean of Medicine and a Faculty Selection Committee.

**The Pathology Prize**

This prize is awarded by the Pathology Department to the second-year student in the Faculty of Medicine whose performance in the General and Systems Pathology courses is considered by the members of the Discipline of Pathology to be most distinguished. The prize was initiated in 1984 by the members of the Discipline in recognition of the distinguished contributions by Dr. S.N. Huang, a previous Chairman of the Discipline, to Pathology and to medical education at Memorial University of Newfoundland. The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of Medicine's Advisory Committee on Awards, Bursaries and Scholarships.

**Mary E. Pedersen, M.D. Scholarship in Medicine**

This scholarship is made possible by a generous donation from Mary E. Pedersen, B.Sc., B.Med.Sc., M.D., CCFP, ABFP, FAAF. Five scholarships, valued at $1,000.00 each, will be awarded annually, based on scholarship standing, to second year undergraduate medical students at Memorial University of Newfoundland. They will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of Medicine’s Advisory Committee on Scholarships, Awards and Bursaries.
The William and Frances Pound Scholarship  

This scholarship is the result of a donation to the Opportunity Fund by Alumnus, Dr. Bernard Kai Fai So of Hong Kong. It is in recognition of the kindness and generosity shown to Dr. So by Mr. and Mrs. Pound during his years as a student at Memorial University of Newfoundland. Valued at the annual interest on the endowment, it will be awarded annually to a medical student at Memorial University of Newfoundland on the basis of scholarship standing and demonstrated financial need. The recipient will hold no other concurrent award. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, Faculty of Medicine.

The Dr. Calvin N. Powell Bursary in Medicine  

This bursary, which was established by Dr. Powell, is valued at $1,000.00. It will be awarded annually to a student entering the third or fourth year of medical studies at Memorial University of Newfoundland on the basis of scholarship standing and demonstrated financial need. The recipient will hold no other concurrent award. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean of Medicine’s Advisory Committee on Scholarships, Awards and Bursaries.

The Dr. Harry Roberts Scholarship in Medicine  

This scholarship has been established through generous gifts from Elizabeth Drugs Limited and the family of the late Dr. Harry Roberts, a graduate of Memorial University College in 1931 and an early and ardent promoter of the medical school. This scholarship will be valued at a portion of the income on the endowment and will be awarded annually. In recognition of the contribution made to the community and to the medical profession by Dr. H.D. Roberts, the scholarship will be awarded upon completion of the M.D. program to a medical student who has a strong academic record. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on the recommendation of the Dean, Faculty of Medicine.

The Harry Roberts Prize in Pharmacology  

In recognition of the contribution made to the community and to the medical profession by Dr. H.D. Roberts, Elizabeth Drugs Limited offers an annual prize of $200.00 to the medical student who has shown academic excellence in the field of Pharmacology. The prize will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards acting on the decision of the Dean of Medicine's Advisory Committee on Awards, Bursaries, and Scholarships.

The Dr. J.B. Roberts Memorial Scholarship  

Friends and colleagues of the late Dr. J.B. Roberts have established this scholarship in his memory. It will be awarded annually to a medical student for the most outstanding performance in second year clinical skills. The value of this scholarship will be determined by the annual income derived from the initial endowment. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean, Faculty of Medicine.

The Ryan Scholarship  

This scholarship, established by Helen Ryan in memory of family members, Mary B.H., Thomas Sr., Thomas Jr. and Mary, is valued at a portion of the accrued interest on an endowment. Based on scholarship standing and financial need it will be awarded annually to a student in the Faculty of Medicine. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean, Faculty of Medicine.

Dr. Howard Strong Memorial Postgraduate Geriatric Psychiatry Scholarship  

This scholarship has been established through generous gifts from colleagues, classmates, friends and family of Dr. Howard Strong, a well-known geriatric psychiatrist and member of the first medical graduating class at Memorial University of Newfoundland. The scholarship will be awarded annually to the resident who is rated by the Faculty as having the best performance in the Geriatric Psychiatry rotation during the postgraduate residency training program in the Faculty of Medicine at Memorial University of Newfoundland. It will be awarded by the Faculty of Medicine Postgraduate Medical Education Committee on the basis of a recommendation from the Discipline of Psychiatry and with the approval of the Dean of Medicine. The Office of Postgraduate Medical Education will oversee administration of the scholarship.

The Studentship in Physician and Medical Student Health and Well-Being  

The Studentship in Physician and Medical Student Health and Well-Being will provide an opportunity for a minimum of one month of academic experience to research and conduct a project on some aspect of Physician Wellness in Medicine. The project may include scholarly research; program evaluation related to health and well-being in the medical profession; or the creation of literature or other art inspired by this theme. It will result in the creation of a deliverable outcome that may be suitable for peer review and presentation at a medical education meeting, conference, or suitable for submission for publication. An opportunity will be provided to the donor for viewing the project. The Studentship is valued at $2,500 prorated over the terms of the project (based on university rates for student pay). It is open to a student who has completed a minimum of first year medical studies in the Faculty of Medicine, Memorial University of Newfoundland. The Studentship is awarded by the Dean of Medicine on the basis of a recommendation from the Discipline of Psychiatry and with the approval of the Dean of Medicine. The Office of Student Affairs, Faculty of Medicine will oversee administration of the scholarship.

The Morris and Graham Wilansky Memorial Award  

This award has been established through a generous donation by family and friends of Morris and Graham Wilansky, in their memory. The award will be recognized annually to the second-year medical student who has achieved highest academic excellence in the Neurosciences course. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean, Faculty of Medicine.

4.7 Faculty of Science  

The following are available to Faculty of Science students based on a recommendation from the Dean, Faculty of Science or the appropriate Director or Department Head.

The Dr. H.J. Anderson Departmental Awards in Chemistry  

Four awards have been established through the Department of Chemistry to honour retired Faculty member and Professor Emeritus, Dr. H.J. Anderson. The recipients of these awards will have demonstrated academic excellence in Chemistry courses; Best Marks in Chemistry 2400 and 2401, Best Third Year Performance by a Chemistry Major, and/or Best Fourth Year Performance by a Chemistry Major and/or Best Convocation Award. These awards will be presented in May and June of each year based on the most recent year’s academic performance. They will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Head, Department of Chemistry.

The Hugh J. Anderson Chemistry Scholarship  

The scholarship is valued at $5,000, and is provided via a contribution to Memorial University of Newfoundland by Mr. Darryl Fry. It will be awarded on the basis of scholarship standing to residents of Newfoundland and Labrador who have completed first year chemistry at
Memorial University of Newfoundland and are declared majors in Chemistry. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on a recommendation from the Head, Department of Chemistry.

The Dr. Cater W. Andrews Scholarship
This scholarship, valued at a minimum of $1,000.00, the gift of former students and colleagues of the late Dr. C.W. Andrews, is awarded to a Memorial University of Newfoundland student graduating with a B.Sc. in Biology who plans to pursue graduate work at Memorial University of Newfoundland in marine and/or freshwater biology. The scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head of the Biology Department. In making the selection, exceptional industry and interest in the field, together with scholarship standing, will be the main criteria taken into account.

The Atlantic Canada Marine Biodiversity Essay Contest Tuition Scholarship
Memorial University of Newfoundland is a participant in the Atlantic Canada Marine Biodiversity Essay Contest which is operated by the Centre for Marine Biodiversity. This contest is open to Grade 12 students from across Atlantic Canada. The first prize winner receives a waiver of tuition fees for two semesters if he or she attends Memorial University of Newfoundland. The two runners up receive partial waiver of tuition fees if they attend Memorial University of Newfoundland. Students are notified of their status in the Essay Contest by the Centre for Marine Biodiversity and the successful candidates are informed of their tuition scholarship by the university, after the Centre for Marine Biodiversity informs the university of the contest winners. Further information can be found on the web site of Centre for Marine Biodiversity. This scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on a recommendation from the Dean, Faculty of Science.

The Atreya-Haritha Scholarship in Mathematics
This scholarship is the result of a generous donation by Dr. K.R. and Nandinin Kothandaraman. Valued at $1000 annually, it will be awarded on the basis of scholarship standing to a full-time student, either a senior level undergraduate or a graduate student in Mathematics and/or Statistics. In the case of an undergraduate student, the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Head, Department of Mathematics and Statistics. In the case of a graduate student, it will be awarded by the Dean, School of Graduate Studies, also upon recommendation of the head, Department of Mathematics and Statistics.

The Au Family Scholarship in Biochemistry
This scholarship is valued at the interest accruing annually on an endowment given to Memorial University of Newfoundland by the Au family. It is open to students entering their final year of study in the Biochemistry program who, during their studies, combined a record of high academic achievement and scholarship standing with active involvement in extracurricular activities within the University, including athletic prowess at the varsity level. The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of Biochemistry.

Donald and Evelyn Barton Chemistry Scholarship
This scholarship is the result of an endowment to Memorial University of Newfoundland in memory of Dr. Donald Barton who was a faculty member with the Department of Chemistry from 1962 to 1992. This scholarship, valued at a portion of the annual income, will be awarded to a student majoring in Chemistry who is beyond their first year of study and who has demonstrated scholarship standing. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, upon recommendation of the Head, Department of Chemistry in consultation with the Chemistry Department Scholarships Committee.

The Bennett/Khan Bursary in Biology
This bursary is made possible through a fund established by an anonymous donor in honour of Dr's Gordon Bennett and Rasul Khan. Valued at the interest on the initial endowment, it will be awarded annually to a full-time student beyond second year who is majoring in Biology with particular reference to parasitology or another branch of invertebrate zoology. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of Biology.

The Biochemistry Bursary
Valued at $1,000, this bursary will be awarded annually to a full-time undergraduate student who is enrolled in the fourth year (that is, normally enrolled in majors’ courses at the 4000 level) of any Biochemistry Undergraduate degree program in the Faculty of Science. The recipient must have demonstrated financial need and meet the minimum academic requirements for a bursary as defined by Memorial University of Newfoundland, and not be in receipt of any other scholarships or bursaries. The bursary will be administered by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, upon recommendation of the Head, Department of Biochemistry.

The E.A. Bishop (1889-1953) Memorial Scholarship
This scholarship, established to honour the memory of E.A. Bishop, a teacher in Newfoundland and Labrador, is the result of a generous donation to Memorial University of Newfoundland by his son, John. Interest on the fund will provide a scholarship to full-time undergraduate students after completion of their first year at Memorial University of Newfoundland who are dependants of teachers in the public school system of Newfoundland and Labrador. Applicants must be students in the Faculties of Arts or Science and be of scholarship standing. The scholarship is valued at approximately two semesters tuition for five courses. If, in any year, there is no eligible candidate, the scholarship will not be awarded; however, a student may be awarded the scholarship more than once. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships.

W.J. Blundon Scholarship
The W.J. Blundon Scholarship, in memory of Professor W.J. Blundon, Head of the Department of Mathematics and Statistics from 1948 to 1976, will be awarded on the basis of academic excellence to students majoring in Mathematics and/or Statistics. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of Mathematics and Statistics.

BP Canada Energy Company Scholarships in Earth Sciences
These Scholarships, the gift of BP Canada Energy Company, are valued at $2,500.00 each annually and are awarded to two students in the Earth Sciences program at Memorial University of Newfoundland. One scholarship will be awarded to a student in Geology and one to a student in Geophysics. Normally, students must be registered full-time in the semester for which these scholarships are granted; however, in the case of a student who has met all academic requirements for their Honours degree, except the Honours dissertation, part-time registration will be accepted. Candidates must have demonstrated high academic achievement, and expressed an interest in oil and gas exploration and development through their choice of courses and/or dissertation subjects. The scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Head, Department of Earth Sciences.

The Dr. S. W. Breckon Scholarship in Physics
This scholarship, valued at $1000.00, is the gift of former students and colleagues of Dr. Breckon and is awarded to the full-time honours Physics student who has the best overall academic performance upon completion of the third or fourth year honours Physics program and subsequent enrolment in the following year. The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the
Head of the Department of Physics. Applications should be directed to the Head of the Department of Physics.

The Murray H. Brooker Scholarship for Excellence in Chemistry
The scholarship is valued at the annual interest on an endowment established in memory of Dr. Murray H. Brooker who was a professor in the Department of Chemistry when he passed away in 2000. It will be awarded to a student who is beyond first year at Memorial University of Newfoundland, who is a declared major in Chemistry and who has been accepted to work in a Chemistry Laboratory for the current/upcoming summer. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Head, Department of Chemistry.

The Dr. Werner D. Bruckner Scholarship
This scholarship, valued at $500.00, honours the memory of Werner D. Bruckner, Head of the Department of Geology at this University from 1959 to 1977 and Professor Emeritus, 1978. It is awarded annually to an undergraduate student majoring in Earth Sciences. The award will be based upon scholarship standing but, in recognition of other concerns held as particularly important by Dr. Bruckner, financial need and qualities of character will also be considered. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of Earth Sciences.

The Bruton Scholarship
Dr. F.A. Bruton, friend and colleague of J.L. Paton, taught Nature Study to teachers in three successive Memorial University College summer schools, from 1926-28, at Paton's request. At his death in 1930, Dr. Bruton made a bequest to the College from which two Bruton Scholarships are awarded. These scholarships, valued at $500.00 each, are awarded annually to students who have demonstrated leadership in Plant Biology. One award will be available to a student majoring in Biology whose special interest is in the field of Plant Biology. The second award will be available to an Education student whose main area of interest is in the teaching of science, in particular, plant biology. In the absence of a suitable candidate from the one department, two awards may be made by the other department in accordance with the above conditions. Academic ability and financial need will be taken into consideration in making these awards. They will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards acting on the advice of the department concerned.

Buchans Scholarship Fund of ASARCO Incorporated
ASARCO Incorporated has established a scholarship fund, the annual interest on which will provide for students enrolled in the Department of Earth Sciences, Memorial University of Newfoundland, either a scholarship for post-graduate study and research, valued at $5000.00; or two scholarships for undergraduate study, valued at $500.00 each. The latter scholarships will be available only when no suitable candidate can be found for the former. In order to qualify for these awards, students must be native born Newfoundlanders or graduates of Newfoundland high schools. In the case of the graduate scholarship, the award will be made by the Dean of Graduate Studies on the recommendation of the Head, Department of Earth Sciences; in the case of the undergraduate scholarships, by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of Earth Sciences. Should no candidates be available any year, the awards may be held over.

The Tom Budai Award in Business and Economics
The Tom Budai Award in Business and Economics, valued at $1000, is funded by Tom Budai, a 2009 graduate of the Faculty of Business Administration and a former member of the Memorial Seahawks men's basketball team. The award is available to a full-time student enrolled in the Bachelor of Commerce (Co-op) program, Bachelor of Business Administration program, Bachelor of Arts in Economics program of Bachelor of Science in Economics program. The candidate must be in at least her/his second year of studies and meet the minimum academic requirements for an award as defined by the University. Preference will be given to candidates who have been active in varsity athletics at Memorial University of Newfoundland and/or who have demonstrated record of community, volunteer work or involvement with student organizations at Memorial. The award will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation from the Dean, Faculty of Business Administration or the Head, Department of Economics.

The Canadian Institute of Mining, Metallurgy and Petroleum (Newfoundland Branch) Silver Jubilee Scholarship
This $1,500.00 annual award is available in the final or penultimate year in Earth Sciences at Memorial University of Newfoundland. Scholastic achievement is the principal requirement governing the award but economic need and character may be taken into account. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards acting on the recommendation of the Head, Department of Earth Sciences.

The Canadian Society for Chemistry 1996 Conference and Exhibition Scholarship
This scholarship, valued at the annual interest on the initial endowment, was established in recognition of the efforts of the Organizing Committee and the over 100 volunteers for the 1996 Canadian Society of Chemistry Conference which was hosted by Memorial University of Newfoundland. This scholarship will be awarded annually to a student in Chemistry based on the results of the National CIC Chemistry examinations or its successors. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Head, Department of Chemistry.

Chevron Canada Ltd. Endowed Scholarships in Business, Earth Sciences, Economics and Engineering
These scholarships, valued at a portion of the income from the endowment, will be awarded starting in 2011 to full-time students enrolled in at least their second year of Engineering and Applied Science, Earth Sciences, Business or Economics; in a given year, it is anticipated that students from all four faculties will be represented. Selection will be based on scholarship standing as well as expression of interest in potential employment in the oil and gas industry, and signaling of career location mobility. Level of service to community, or leadership or involvement with student organizations at Memorial. The award will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Head, Department of Earth Sciences; Dean, Faculty of Business Administration; and Head, Department of Economics.

Chevron Canada Ltd. Term Scholarships in Business, Earth Sciences, Economics and Engineering
These scholarships, valued at $4,000, will be awarded to full-time students enrolled at least their second year of Engineering and Applied Science, Earth Sciences, Business or Economics; in a given year, it is anticipated that students from all four faculties will be represented. Selection will be based on scholarship standing as well as expression of interest in potential employment in the oil and gas industry, and signaling of career location mobility. Level of service to community, or leadership or involvement with student organizations at Memorial. The award will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the: Dean, Faculty of Engineering and Applied Science; Head, Department of Earth Sciences; Dean, Faculty of Business Administration; and Head, Department of Economics.

The Chevron Canada Resources Scholarship in Geology and Geophysics
This scholarship, valued at a portion of the annual income on an endowment created at Memorial University of Newfoundland by Chevron Canada Resources, will be awarded annually to an undergraduate 3rd or 4th year student studying Geology or Geophysics in the Department of Earth Sciences. It will be awarded on the basis of scholastic standing and financial need to a student who graduated from a high school in Newfoundland and Labrador. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of Earth Sciences.
The Churchill Falls (Labrador) Corporation Limited Science Scholarship
These scholarships valued at approximately $2,500.00 each annually, are the result of an endowment to The Opportunity Fund by the Churchill Falls (Labrador) Corporation Limited. They will be awarded to second year students or beyond entering the Faculty of Science. The scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Dean, Faculty of Science. All else being equal, preference will be given to students from Labrador.

The Collip Prize in Biochemistry
The Collip Prize in Biochemistry was established by an anonymous donor. It is named for James Bertram Collip, the Canadian Biochemist whose experimental expertise was key to obtaining pancreatic extracts pure enough for clinical trials on diabetic humans in 1922. Valued at $500, this prize is to be awarded in May or as soon as possible after the end of the Winter semester to a full-time undergraduate student, who obtains the best combined marks in the required third year biochemistry courses, all completed in that academic year. Only students who are declared majors in the Biochemistry program at the conclusion of classes in the Winter semester are eligible for this award. It will be awarded by the Senate Committee on the Undergraduate Scholarships, Bursaries and Awards, on the recommendation of the Head, Department of Biochemistry.

The Captain James Cook Memorial Scholarship
A fund was established in 1979 by members of the Department of Geogrophy to honour the memory of Captain James Cook (1728-79), explorer, navigator and cartographer, whose years of painstaking mapping of the coasts of Newfoundland and Labrador laid the basis for a comprehensive and scientific knowledge of the geography of the province.

One or more scholarships, valued at not less than $600.00, will be awarded annually by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Department of Geography to a student or students demonstrating particular merit in Geography.

The Dr. Douglas L. Cooper Memorial Scholarship
This scholarship fund has been established in honour of Dr. Cooper who was the first department head of Chemistry at Memorial University of Newfoundland. The fund will provide several scholarships valued at a minimum of $1,500.00 each annually. They will be awarded to Chemistry students entering their third year of a Bachelor of Chemistry program (General or Honours). If there are not enough eligible students in their third year, the scholarship will be open to those in their fourth year. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Head, Department of Chemistry.

The Ernst R. Deutsch Memorial Scholarship in Geophysics
This scholarship is named in honour of Dr. Deutsch, a long-time faculty member at Memorial University of Newfoundland who passed away in 2000. Valued at a portion of the income on the investment the scholarship will be awarded annually to a senior undergraduate student in the Earth Sciences (or related field of Physics) whose concentration is Geophysics. If there is no qualified undergraduate student, the scholarship will be awarded to a full-time graduate student in Earth Sciences who has received an undergraduate degree from Memorial University of Newfoundland and whose area of concentration is Geophysics. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Head, Department of Earth Sciences in the case of an undergraduate student; in the case of a Graduate Student it will be awarded by the Dean of Graduate Studies on the recommendation of the Head, Department of Earth Sciences.

The Faculty of Science Opportunity Fund Scholarship
This scholarship is the result of an endowment created from several general donations to the Opportunity Fund by various alumni and friends of the University and in particular of the Faculty of Science. Valued at the annual interest on the endowment, it will be awarded annually to a student beyond first year in the Faculty of Science at Memorial University of Newfoundland on the basis of scholarship standing. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Science.

Dr. L.A.W. Feltham Scholarship
This scholarship began with fundraising within the Biochemistry Department during the 1996 Opportunity Fund Campaign. It is named for Dr. Feltham, the founding head of the department. The interest on the endowment will provide a scholarship for a student in the B.Sc. Program in Biochemistry. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards to a student beyond second year on the basis of scholarship standing and a recommendation from the Head, Department of Biochemistry.

Daniel Freeman Memorial Scholarship
This scholarship was established from the contributions of many family members, friends, and fellow students in memory of Danny Freeman, a former Engineering student at Memorial University of Newfoundland. The scholarship, valued at a portion of the accrued interest, will be awarded annually on a rotating basis to students enrolled in either Engineering or Mathematics. Preference will be given to candidates with disabilities with consideration given to quality of character and overall perseverance. If a successful candidate is not recommended by the discipline on rotation in a given year an eligible student from the other discipline may be awarded the scholarship for that year. If no candidates are available from the first group any student enrolled in either Engineering or Mathematics (discipline to be determined by the rotation schedule in a given year) will be considered. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Engineering or the Head, Department of Mathematics and Statistics.

The Dr. Patricia Giovannetti Memorial Bursary
The Newfoundland and Labrador College of Dietitians sponsors this Bursary of $600.00 awarded annually to a student completing the second year of the Dietetics program in the Department of Biochemistry at Memorial University of Newfoundland and who is attending Acadia University the following year. The scholarship will be awarded to a student in the Department of Biochemistry who is planning to enter a Dietetic Internship program upon graduation. The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of Biochemistry.

The Samuel, Millicent and Thomas Grandy Memorial Scholarship
This scholarship, established in 1998 by the Grandy Family to honour the memory of their parents, will be valued at a portion of the annual accrued interest on the initial endowment. It will be awarded on the basis of scholarship standing and demonstrated aptitude and potential in the science of computing to an undergraduate student beyond first year in full time study of the Computer Science program (declared major for B.Sc.) at Memorial University of Newfoundland. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Head, Department of Computer Science.

Greystone Managed Investments Scholarship
This scholarship, valued at a portion of the income on the investment, is made possible by a generous contribution from Greystone Managed Investments. This scholarship will be awarded to an undergraduate student beyond first year, on a rotating basis between the Faculty of Science and the Faculty of Arts. Based on scholarship standing it will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of the Faculty on rotation.
The Douglas and Beatrice Hall Biochemistry Bursary

This bursary was established by the employees in the Department of Biochemistry in memory of two dedicated past members of the Department. Valued at a portion of the income on the endowment, it will be awarded annually to a student who is enrolled in the third year (that is, normally enrolled in majors' courses at the 3000 level) of any Biochemistry undergraduate degree program in the Faculty of Science. The recipient must meet the minimum academic and financial requirements for a bursary as defined by the university and not be in receipt of any other scholarships or bursaries. The Bursary will be administered by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Head, Department of Biochemistry.

Hebron Diversity Award

This award was created from a generous contribution from the Hebron Project. The Hebron Project co-venturers are ExxonMobil Canada Properties (operator), Chevron Canada, Suncor Energy, Statoil Canada and Nalcor Energy. Awards will be available to full-time or part-time students, enrolled at any Campus of Memorial University of Newfoundland, who have aboriginal status, a disability, or who represent a visible minority. Students with a disability should provide supporting documentation (from a medical doctor, psychologist, auditor, rehabilitation counselor, or other professional who has specific training, expertise, and experience in the diagnosis of this condition). Students will claim aboriginal and visible minority status through self-identification. Of those eligible students, further preference will be given to students who are majoring in engineering, the geosciences, environmental science or chemistry. Preference will be given to students with demonstrated financial need. Where possible at least one scholarship will be awarded to a student in her first year of study. For students at the St. John’s or Grenfell Campus the awards will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the appropriate Department Head. For students at Marine Institute, the awards will be granted by the Marine Institute Scholarship Committee on the recommendation of the appropriate Department Head.

The Hebron Women in Science and Engineering Scholarship

This scholarship program was created from a generous contribution from the Hebron Project. The Hebron Project co-venturers are ExxonMobil Canada Properties (operator), Chevron Canada, Suncor Energy, Statoil Canada and Nalcor Energy. Scholarships will be awarded to female students who are enrolled in full-time or part-time studies at any Campus of Memorial University of Newfoundland who are majoring in engineering, the geosciences, environmental science or chemistry. Preference will be given to students with demonstrated financial need. Where possible at least one scholarship will be awarded to a student in her first year of study. For students at the St. John’s or Grenfell Campus the awards will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the appropriate Department Head. For students at Marine Institute the awards will be granted by the Marine Institute Scholarship Committee on recommendation of the appropriate Department Head.

General Rick Hillier Scholarship in Science and Leadership

This scholarship, valued at a portion of the income on the investment, was established through donations and the proceeds of the inaugural Halifax Affinity Dinner, at which General Rick Hillier gave the keynote address. The scholarship is intended to recognize one of Memorial University of Newfoundland’s most celebrated alumni. General Hillier is one of Canada’s most respected and successful military leaders in generations; a leader who has had a profound impact on Canada’s men and women in the military, and an advocate for peace internationally. Upon his retirement in October of 2008, General Hillier took on the position of Chancellor of Memorial University of Newfoundland. To be eligible for this scholarship students must be enrolled full-time in any year of any undergraduate program in the Faculty of Science. Preference will be given to students who demonstrate leadership in their activities, either on or off-campus, and students who have graduated from a high school in rural Newfoundland and Labrador. When possible, preference will also be given to students who are members of military families, or who are past or present members of the military. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarship, Bursaries and Awards based on the recommendation of the Dean, Faculty of Science.

The Marie T. Kennedy Bursary

In her will, Ms. Marie Theresa Kennedy left a bequest to Memorial University of Newfoundland to allow one or more bursaries of at least $5,000.00 to be awarded annually. To be considered, a candidate must be a full-time undergraduate student, in any year of study majoring in Science or Medicine. It will be awarded on a rotating basis. Students receiving scholarships or bursaries from other individuals or institutions, for the same scholarship year, will not be eligible. The Bursary will be awarded on the basis of need and academic merit by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the appropriate Dean.

The Harry Kieffe Scholarship

The scholarship, valued at a portion of the income on the endowment, was established by the employees in the Department of Physics and Physical Oceanography in memory of a past member of the Department. It will be awarded annually to a student who is enrolled in the third year or beyond of any Physics and Physical Oceanography undergraduate degree program in the Faculty of Science. Selection will be based on scholarship standing and students must not be in receipt of any other scholarships, bursaries or awards. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Head, Department of Physics and Physical Oceanography.

The Dr. B.K. Kim Scholarship in Statistics

This scholarship will be awarded annually to an undergraduate student whose major subject of study is Statistics. The award honours the memory of the late Dr. B.K. Kim who taught in the Department of Mathematics and Statistics from 1976-84. The scholarship, with a value of at least $500.00, will normally be based on academic achievement in third year and/or fourth year courses and will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of Mathematics and Statistics.

The John Kingston Memorial Scholarship

This scholarship, valued at $600.00, was established in memory of John F. Kingston, a former member of the faculty of the Department of Chemistry at Memorial University of Newfoundland. It will be awarded annually to a student majoring in Chemistry, who has completed at least 18 credit hours in Chemistry courses, on the basis of academic merit and financial need. The scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of Chemistry.

The Dr. Chu-in Charles Lee Scholarship

This scholarship is established through generous contributions by family, friends, students, professors and the academic community in memory of Dr. Chu-in Charles Lee, who served as Deputy Head of the Department of Mathematics and Statistics for many years. Valued at a portion of the income on the endowment, the scholarship will be awarded on the basis of scholarship standing to senior full-time undergraduate students in their 3rd or 4th year majoring in Mathematics and/or Statistics. To be considered, candidates must take a minimum of four (4) senior Mathematics and/or Statistics courses in a given year with preference given to the student who achieves the highest average on these courses. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on the recommendation of the Head of the Department of Mathematics and Statistics.
The Julius and Bella Levkovitz Memorial Scholarship
This scholarship is awarded out of income derived from a bequest to Memorial University of Newfoundland by the late Mrs. Bella Levkovitz. From this income a scholarship of not less than $700.00 is to be awarded as often as possible to an outstanding student in second, third or fourth year, or graduate studies in Pure or Applied Science at Memorial University of Newfoundland. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of a recommendation from the Dean, Faculty of Science.

The LGL Limited Scholarship in Marine Science
This scholarship, valued at $3,000.00, was established by LGL Limited. It will be awarded annually to a student in the Faculty of Science who is following a program of studies related to Marine Science. The successful candidate will be either a fourth year undergraduate student doing an honours program or a graduate student. Wherever possible, preference will be given to a student from a fishing family, but other students will be considered. In the case of undergraduate students the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing. In the case of graduate students the scholarship will be awarded by the Dean, School of Graduate Studies. In both cases it will be based upon a recommendation from the Dean, Faculty of Science.

The Hugh Lilly Memorial Scholarship
This scholarship, presently valued at a minimum of $3000.00 per annum, will be awarded to the most promising graduate in the Geosciences at Memorial University of Newfoundland who is continuing studies at the post-graduate level, here or elsewhere. The award honours the memory of the late Hugh Lilly, an instructor in the Earth Sciences Department. Selection of the winning candidate will rest with the Senate Committee on Undergraduate Scholarships, Bursaries and Awards in consultation with the Earth Sciences Department.

The Hugh Lilly Undergraduate Scholarship
This scholarship, valued at $300.00 per annum, will be awarded to an undergraduate student entering the third year of studies in a Geology major program. The award honours the memory of the late Hugh Lilly, an instructor in the Earth Sciences Department. In making the award, academic achievement, character and financial need may be taken into consideration. The scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Earth Sciences Department.

The Loughney-Brosnan Scholarship in Biochemistry
This scholarship is valued at the interest accruing on an endowment given to Memorial University of Newfoundland by the Loughney family. It is open to an undergraduate student studying the honours program in Biochemistry at Memorial University of Newfoundland and will be awarded on the basis of scholarship standing. Preference will be given to a student entering the final year of the Biochemistry (Honours) Program. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Head, Department of Biochemistry.

The William Kenneth MacLeod Scholarship
This scholarship is the result of a donation to Memorial University of Newfoundland in 2002, in memory of Mr. MacLeod. Mr. MacLeod was a recipient of the Provincial Government Senior Jubilee Scholarship in the early 1930's. The scholarship will be awarded to a Newfoundland and Labrador undergraduate student who has a recognized disability (physical or learning). The scholarship will be awarded on the basis of scholarship standing to a student in the Faculty of Science. Selection will be based on scholarship standing and students must not be in receipt of any other scholarships, bursaries or awards. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of Physics and Physical Oceanography.

The Mrs. E.D. Matthews Memorial Scholarship in Mathematics and Statistics
This scholarship honours the memory of the late Mrs. Evelyn Matthews who taught in the Department of Mathematics and Statistics, Memorial University of Newfoundland, from 1959-76. It has a value of at least $500.00, and will be awarded on an annual basis to an undergraduate student whose major subject of study is Mathematics or Statistics. The scholarship will be based on academic merit and will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of Mathematics and Statistics.

The Maud Menten Prize in Biochemistry
This scholarship, presently valued at a minimum of $2000.00 per annum, will be awarded to the most promising graduate student in Biochemistry. One of the first women in Canada to earn a medical doctorate in 1911, during her career she also made important contributions to clinical biochemistry and enzyme histochemistry. Valued at $500, this prize is to be awarded in May or as soon as possible after the conclusion of the Winter semester to a full-time graduate student who obtains the best combined marks in Biochemistry 2100 and 2101 completed in the preceding academic year. Only students who are declared majors in a Biochemistry program at the conclusion of the Winter semester are eligible for this award. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on a recommendation of the Head, Department of Biochemistry.

The Carmen and Olive Mews Chemistry Scholarship
This scholarship is the result of an endowment to Memorial University of Newfoundland from the estates of Carmen and Olive Mews. Carmen Mews enjoyed a long career with the Department of Chemistry. He and his wife Olive, both of whom were keenly interested in the welfare of undergraduate students, wished to endow a scholarship to support a student majoring in Chemistry. This scholarship, valued at the portion of the annual interest, will be awarded to a student beyond their first year of study who has demonstrated scholarship standing. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, upon the recommendation of the Head, Department of Chemistry.

The Grace Morgan Scholarship in Nutrition
This scholarship is valued at the interest accruing on an endowment given to Memorial University of Newfoundland by Mrs. Grace Morgan. It is open to an undergraduate student studying nutrition at Memorial University of Newfoundland and will be awarded on the basis of scholarship standing. Preference will be given to a student entering the final year of the nutrition program. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Head, Department of Biochemistry.
The Dr. George Moskovits Award
This award is made possible through a fund established by former students and colleagues of Dr. George Moskovits to honour his retirement from the Department of Biology in 1984. The award is valued at $200.00 and will be made annually to a full-time senior student who has shown outstanding performance in the field of cell biology/microbiology. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of Biology.

The E.R.W. Neale Undergraduate Scholarship of the G.A.C. (Newfoundland Section)
The E. R. W. Neale Undergraduate Scholarship is offered annually by the Newfoundland Section of the Geological Association of Canada. The scholarship is open to declared majors in Earth Sciences at Memorial University of Newfoundland. One scholarship valued at $1000 will be offered annually, on the basis of academic achievement, financial need and character. The scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of Earth Sciences.

The Newfoundland Gardening Scholarship
This scholarship is the result of proceeds from the sale of a book by Dr. Peter J. Scott entitled Newfoundland Gardening. It will be awarded annually to a Biology student who is graduating and intends to pursue a career in plant biology. In the event that such a candidate is not available, it will be awarded to a second year Biology student from Memorial University of Newfoundland going on to study horticulture. The scholarship will be valued at the interest accruing on the initial endowment and will be awarded on the basis of scholarship standing by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Head, Department of Biology.

The Newfoundland Home Economics Association Scholarship
This scholarship, valued at $800.00, will be awarded annually to a student enrolled in the Dietetics Program at Memorial University of Newfoundland, preferably to a student in the second year of the program. Where possible it will be given to an Honours candidate. This scholarship is tenable for one year and will be awarded on the basis of scholarship standing and financial need. It is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of Biochemistry.

The Newfoundland Margarine - Unilever Canada Scholarship
This scholarship, valued at the annual interest on an initial endowment, will be awarded annually to a student enrolled in the Nutrition major in the Department of Biochemistry at Memorial University of Newfoundland. The award will normally be given to an honours student in his/her final year. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Head, Department of Biochemistry.

The NLOA Angus Wentzell Memorial Scholarship
This scholarship, valued at $500.00, will be awarded annually to a student majoring in Biology at Memorial University of Newfoundland who is registered in at least his or her third year of studies. The scholarship recipient must plan to pursue an undergraduate academic program leading to a career in Inland Fisheries, Wildlife Management, Wildlife Biology, or a related field of study. The scholarship will be awarded on the basis of academic excellence by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of Biology.

The Thomas Corbin Noel Scholarship Fund
This scholarship, in memory of Thomas Corbin Noel Senior and Junior, was established through a bequest by Ella Noel as a tribute to her late husband and son. Corbin Noel Senior was a retired professor of Physics and former assistant vice-president (administration/physical operations) at Memorial University of Newfoundland. Tommy Noel was a student at Memorial University of Newfoundland when a tragic accident took his life. Valued at a portion of the income on the investment, the scholarship will be given to a student majoring in Physics on the basis of scholarship standing. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of Physics.

The Noranda Scholarship
This scholarship valued at the annual interest, has been established by the Noranda Foundation as part of the Opportunity Fund campaign. It will be awarded on an annually rotating basis between students in Earth Sciences and Engineering and Applied Science. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Dean/Department Head of the appropriate discipline.

Oil and Gas Week Scholarship
Valued at $1,000 each, these undergraduate scholarships are established by a gift over three years from the organizers of Oil and Gas Week, a program of events held annually in St. John’s, NL for the purpose of promoting the oil and gas industry. Two scholarships will be awarded each year. To be eligible, students must be enrolled full-time beyond the first year of an undergraduate program in the Department of Earth Sciences, the Faculty of Engineering and Applied Science, or the Faculty of Business Administration. Eligible candidates must also have scholarship standing and preference will be given to students who graduated from a high school in Newfoundland and Labrador outside of the metropolitan St. John’s area. Each year the two recipients must be from different faculties, with each identified academic unit to be represented no more than twice in the three year period of the term of the fund. The scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, based on a recommendation from the appropriate academic discipline.

The Dr. V. Stephen Papezik Scholarship
This scholarship, valued at a minimum of $1000.00, honours the memory of Dr. V. Stephen Papezik, Professor of Geology at Memorial University of Newfoundland from 1961 to 1984. It is awarded annually to an undergraduate student majoring in Earth Sciences whose specialization is closest to mineralogy.

The Bruce Pardy Family Scholarship
This scholarship, valued at the annual interest on an endowment, has been established by the Pardy Family. It will be awarded annually to an undergraduate student in the Faculty of Science. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Dean, Faculty of Science.

The Maureen Penney Memorial Scholarship
This $400.00 scholarship, donated by the Geological Association of Canada, honours the memory of Maureen Penney, B.Comm.(MUN), who was Associate Secretary-Treasurer of the Geological Association of Canada from 1983 to 1989. It is awarded annually to a second- or third-year undergraduate student majoring in Earth Sciences. In making the award, academic achievement will be the primary consideration, but other factors, such as involvement in student activities, will be taken into account. The scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of Earth Sciences.
The Dennis R. Prince Memorial Scholarship
The Dennis R. Prince Memorial Scholarship has been made available by the Prospector and Developers Association of Canada, Falconbridge Ltd., the Porcupine Prospectors and Developers Association, the mining community, colleagues, friends and family of the late Dennis Prince. Dennis graduated from Memorial University of Newfoundland in 1970 with a B.Sc. Honours degree. He led a distinguished career as a geologist with twenty-nine years at Falconbridge Ltd.

The annual scholarship, valued at $2,000.00 and an engraved Brunt compass, will be awarded to a final year student specializing in mineral exploration and development in the honours program of the undergraduate degree in Earth Sciences at Memorial University of Newfoundland. If there is no qualified undergraduate student a graduate student who has been accepted for post-graduate studies in mineral exploration and development at Memorial University of Newfoundland and who intends to pursue a career in the mineral industry, will be considered. The qualifying student must demonstrate scholarship standing, strong personal values including a strong work ethic and high personal integrity. Active participation and leadership in geological associations and activities such as The Alexander Murray Geological Club and the Geological Association of Canada may be taken into consideration as well as financial need. In the case of undergraduates the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. In the case of graduates it will be awarded by the Dean, School of Graduate Studies. In both cases it will be based on a recommendation from the Head, Department of Earth Sciences in consultation with the PDAC and the Prince family.

Professional Engineers and Geoscientists Newfoundland and Labrador Past Presidents’ Geoscience Scholarship
This scholarship valued at a minimum of $1,000.00 was established by the Professional Engineers and Geoscientists Newfoundland and Labrador. It is awarded annually on the basis of scholarship standing to a Geoscience student at Memorial University of Newfoundland. It is open to either graduate or undergraduate students in any given year and will be allocated as such at the discretion of the Department Head. In the case of undergraduates, the scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Head, Department of Earth Sciences or a student in the Faculty of Business Administration. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on the recommendation of the Head of the Department of Earth Sciences.

The Tracy Ronayne Scholarship
This scholarship has been established by the Department of Computing and Communications (C&C) at Memorial University of Newfoundland to honor the life and contribution of a former employee, Tracy Ronayne. To be eligible the recipient must have scholarship standing, be a full-time undergraduate student and be a dependant of a current, retired, deceased or former (having worked in the Unit for a minimum of 5 years) employee of C&C or be a student employed by C&C during the Fall semester of the academic year for which the scholarship will be awarded. One or more scholarships may be awarded in any given year. In the absence of a candidate meeting the above criteria, the scholarship will be awarded to a student beyond first year majoring in Computer Science in the Faculty of Science or a student in the Faculty of Business Administration. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

The Roberta H. Sellars Scholarship
This scholarship is the result of an endowment by the Rev. Walter C. Sellars in recognition of his wife Roberta for her loyal and loving support, particularly while he was struggling through university. The scholarship will be awarded annually to a full-time student in any year in either the Faculty of Arts or Science on a rotating basis. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on scholarship standing and financial need and upon the recommendation of the appropriate Dean.

The Rick Sheppard Memorial Scholarship
This scholarship, valued at $500.00 has been established by the friends and colleagues of Rick Sheppard, a graduate of Memorial University of Newfoundland (Geology-Class of ’81), who died in the Ocean Ranger Disaster. The award is open to undergraduate students majoring in Geology. Academic standing, financial need and active participation in the Alexander Murray Geological Club will be taken into consideration in selecting candidates. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, acting on the recommendation of the Head, Department of Earth Sciences.

The James (Jay) Stackhouse Memorial Scholarship
From a sum of money donated to the University by the friends of the late James (Jay) Stackhouse, a geologist who graduated from this University in 1976, a scholarship has been established for students majoring in the Earth Sciences at Memorial University of Newfoundland. Undergraduate students in their penultimate year of the program may apply. The value of the award will be determined by the annual interest earned on the fund. The scholarship will be awarded at the end of the fall semester by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards acting on the recommendation of the Head, Department of Earth Sciences.

Statistical Society of Canada Scholarship
This scholarship has been established by a generous donation from the Statistical Society of Canada. It is based on scholarship standing and is awarded to an undergraduate student in any year of study who is majoring in Statistics and meets the minimum
academic requirement for a scholarship. The scholarship will be valued at $750. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Head of the Department of Mathematics and Statistics.

The Sun Life Financial Scholarship in Applications of Technology
The Sun Life Financial Scholarship in Applications of Technology is consistent with the company’s belief that education is key to the future well-being of individuals, business and society. The scholarship, valued at the annual interest on the endowment, will be designated on an annually rotating basis to a student on the Corner Brook campus and the St. John’s campus. It will be awarded to a student in the Faculties of Science, Engineering and Applied Science and Business Administration who is focussing his/her studies on the application of technology and has demonstrated scholarship standing. In addition, the student will have actively participated in extra-curricular activities and have been active in student life. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the appropriate Dean and/or the Vice-President of Grenfell Campus.

The Eric A. Swanson Scholarship in Earth Sciences
This scholarship, valued at $3,000.00, is established by Eleanor Swanson in honour of her father, Eric. It will be awarded annually to a student in the Faculty of Science, who is following a program of studies in Earth Sciences. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Head, Department of Earth Sciences.

Teck Scholarships in Earth Sciences
These scholarships are made possible by a generous contribution by Teck Resources Limited, a Canadian mining company. Two scholarships are available annually to full-time undergraduate students majoring in Earth Sciences: one for a student in the third year of the program and the other for a student in fourth year. To be eligible, candidates must have scholarship standing and must demonstrate strong leadership skills, superior communication skills and a commitment to community and citizenship. Interested applicants should provide to the Head, Department of Earth Sciences one academic and one non-academic letter of reference attesting to their strengths in these areas, along with a cover letter indicating their desire to be considered for the scholarship. Applications will be due by the end of September each year with recipients selected by November and scholarships awarded shortly thereafter. Applicants should contact the Department of Earth Sciences Main Office for specific deadlines. The scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on the recommendation of the Head, Department of Earth Sciences.

Dr. Siegfried Thomeier Memorial Prize in Pure Mathematics
The prize, the interest from a donation by an anonymous donor, is awarded to a fourth or fifth year student majoring in Mathematics with a concentration in Pure Mathematics. The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Head, Department of Mathematics and Statistics.

The Eugene Vincent Memorial Scholarship
This undergraduate scholarship has been established by the Baie Verte-Springdale Branch of the Canadian Institute of Mining and Metallurgy, in memory of the late Eugene Vincent, a former President and active member of the Branch. The award, which has a value of at least $3,000.00, will be restricted to residents of Newfoundland and Labrador who are enrolled beyond the first-year level of the Earth Sciences program at Memorial University of Newfoundland and who are intending to pursue careers in the mining field. Selection of a candidate will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of Earth Sciences.

The Robert Westcott Memorial Scholarship
This scholarship was established by Mrs. Mary Westcott in memory of her late husband, Mr. Robert Westcott. It is valued at a portion of the annual interest on an endowment and will be awarded on a rotating basis to students beyond first year who have a strong commitment to post-secondary education and who are majoring in Business Administration and/or Economics. It will be based on scholarship standing and financial need and will be awarded to a student who was born in Newfoundland and Labrador. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean/Department Head of the appropriate discipline.

The Dr. Howard Louis White Memorial Award in Chemistry
This award is a result of a donation to Memorial University of Newfoundland from family members of the late Dr. White, class of 1941. It is awarded to a student majoring in Chemistry who is in 2nd year or beyond. Valued at the annual accrued interest on an initial endowment and based on academic standing, it is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards acting upon a recommendation from the Head, Department of Chemistry.

The Jacques Whitford Newfoundland Geoscience Scholarship
This scholarship, valued at the annual interest on their endowment, has been established by Jacques Whitford Environment Limited and Newfoundland Geosciences Limited as a contribution to the Opportunity Fund Campaign. It will be awarded on an annually rotating basis to students in the Faculty of Engineering and Applied Science (particularly Civil Engineering), the Faculty of Science (particularly Biological Sciences) and Archaeology. Successful candidates are to be of scholarship standing and preferably show an interest in environmental issues. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation from the Dean/Director/Department Head of the appropriate discipline.

The Williams Science Scholarships
These scholarships valued at $1,500.00 each are the result of an endowment started by Dr. Hank Williams. One scholarship from the fund shall be awarded to the most promising second year student entering the Earth Science Program and others, as the fund will allow, will be awarded to second year students entering the Faculty of Science. These scholarships shall be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on recommendations from the Head, Department of Earth Sciences and the Dean, Faculty of Science respectively. In the event that there is no acceptable candidate in Earth Sciences, the scholarship shall be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Head, Department of Chemistry.

The Walker Wood Foundation Bursary in Science
Valued at $4,000 annually, this bursary is established as a result of a generous contribution from Sue and Neil Wood, friends of Memorial University of Newfoundland. The bursary is available to full-time undergraduate students who graduated from a high school in rural Newfoundland and Labrador and who are entering into their first year of study at Memorial University of Newfoundland with the intention to complete a Bachelor of Science degree. Eligible students must have demonstrated financial need, and preference will be
given to candidates who also demonstrate that they are active in the community. The bursary is renewable for three additional years as long as the recipient formally majors in an area within the Faculty of Science, maintains a 70% average, good academic standing and full-time status. In the event that the recipient does not meet the criteria for renewal, the bursary will be transferred to a selected candidate in the corresponding year of study in the Faculty of Science. The bursary is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on the recommendation of the Dean of the Faculty of Science.

Dr. James A. Wright Memorial Scholarship
One annually funded scholarship is established by a gift from Leprechaun Resources Ltd. in memory of Dr. James A. Wright, former professor in the Department of Earth Sciences. The scholarship, valued at $1,000, is available to full-time undergraduate students in their second year of study at Memorial University of Newfoundland with a preference for students enrolling at Grenfell Campus. To be eligible, students must meet the minimum academic requirements for a scholarship and must have graduated from a high school on the West Coast of Newfoundland, as defined by the University. Preference will be given to students pursuing any area of study within the Faculty of Science or the Faculty of Engineering and Applied Science. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

The Lee Wulff Scholarship
A fund was established in 1991 to honour the memory of Lee Wulff (1905-1991), a renowned American sportsman, author, conservationist and environmentalist, who spent a considerable amount of time exploring the waters, barrens and woodlands of Newfoundland, promoting its abundant wildlife resources and supporting conservation. A single scholarship, valued at no less than $1,500.00 will be awarded annually from this fund, to a third year Biology major wishing to pursue further studies in biological sciences, with emphasis on conservation and environment. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head of Biology and the Dean of Science and will be based on academic excellence in biological sciences and a demonstrated interest in conservation and the environment.

4.8 School of Human Kinetics and Recreation
The following are available to students in the School of Human Kinetics and Recreation based on the recommendation of the Dean.

Athletics Northeast (ANE) Running Club Award for Varsity Cross Country
This award is created by Avalon Northeast (ANE) Running Club, which is a community minded club made up of runners of all ages who embrace the concept of serious running as a way to enjoy an active and healthy lifestyle and to enhance their quality of life. The recipients will be one male and one female student, who are members of the cross-country team at Memorial University of Newfoundland and who are in clear academic standing. The recipient will have demonstrated leadership, commitment and dedication to the cross country program while endeavouring to maximize his/her running potential. For undergraduate students, it will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Director of Athletics, School of Human Kinetics and Recreation. In the event a graduate student is the recommended recipient, it will be awarded by the School of Graduate Studies on the recommendation of the Dean of Athletics.

The George and Mary Behm Award
The George and Mary Behm Award, established by Dr. David Behm, is valued at $500. It will be awarded annually to a full-time graduate student enrolled in the Masters of Kinesiology program who has the highest average in the first four masters' courses of the Kinesiology program. The award will be made by the Dean of the School of Graduate Studies on the recommendation of the Dean, School of Human Kinetics and Recreation. It will be presented at the School of Human Kinetics and Recreation Awards Ceremony in November.

The Edward Patrick Browne Memorial Scholarships
In his will, Edward Browne, a distinguished and beloved member of the University community, and a life-long supporter of the growth and development of the sport of basketball at provincial and national levels, left a bequest to Memorial University of Newfoundland for the awarding of scholarships to students. These scholarships are awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the advice of the Dean of the School of Human Kinetics and Recreation.

The Bruce J. Butler Award
This award has been established in memory of Bruce J. Butler by his family and friends. Bruce was a graduate of Memorial University of Newfoundland’s School of Physical Education and Athletics and a talented varsity athlete who represented Memorial University of Newfoundland in both soccer and basketball from 1964-68. He was known as a great teammate and a genuine team player who possessed a great sense of humor. Valued at a portion of the income on the investment, it will be awarded annually to an undergraduate varsity athlete studying in one of the programs of the School of Human Kinetics and Recreation. In determining this award, preference will be given to student-athletes who have demonstrated leadership, athletic ability and overall commitment to their teammates. The recipient must meet the minimum academic requirements for an award as defined by the University. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Director of Athletics.

Frank T. Butler Memorial Scholarship
This scholarship was established in memory of Frank T. Butler, a committed and successful athlete, coach and sport administrator at Memorial University of Newfoundland. Frank Butler was the backbone of Memorial University of Newfoundland Athletics for close to 30 years and his contribution to sport at this University and in the province of Newfoundland and Labrador, has been felt at many levels. This scholarship will be awarded to support student-athletes in their pursuit of post-secondary study. Currently valued at $1,000, the scholarship will be awarded to student-athletes who meet the requirements for scholarship standing and who best combine the values that Frank admired most: athletic commitment, academic success and contribution as an ambassador in the community. The scholarship will be open to all student-athletes who are current members of a varsity team at Memorial University of Newfoundland. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of Athletics.

The Olivia and Ethan Button Award
The Olivia and Ethan Button Award, established by Dr. Duane Button, is valued at $500. It will be awarded annually to the student who has achieved the highest average in Exercise Physiology 3310 in the Bachelor of Kinesiology or Bachelor of Physical Education program at Memorial University of Newfoundland. If the successful candidate is an undergraduate student, the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. If at the time the award is presented, the recipient has enrolled as a graduate student at Memorial University of Newfoundland, it will be awarded by the Dean, School of Graduate Studies. In both cases it will be awarded on the recommendation of the Dean, School of Human Kinetics and Recreation.

The Nita Chambers (Sutton) Award
Nita Chambers (Sutton), a graduate of Stella Maris High School in Trepassey and Memorial University of Newfoundland in St. John’s, was a spirited and talented participant in basketball at both the scholastic and intercollegiate levels. This award fund has been established in Nita’s memory through the fund-raising efforts of her family, friends, colleagues, team-mates, and former instructors.
Scholarships, Bursaries and Awards 2013-2014

Valued at a portion of the annual interest, it will provide financial assistance to deserving male and female student-athletes who have graduated from high schools in Newfoundland and Labrador and who compete for the Memorial University of Newfoundland Sea-Hawks in the sport of basketball. To be eligible for this fund students will be required to maintain a minimum cumulative average of 65% within the previous academic year of study at Memorial University of Newfoundland. Funds will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, School of Human Kinetics and Recreation in consultation with the coaches of the varsity basketball teams.

The Damien and Denis Collier Award
This award was established by former Memorial University of Newfoundland Varsity Wrestlers, Damien and Denis Collier. To be eligible, returning athletes must be a current member of a Memorial University of Newfoundland Sea-Hawks wrestling team and have achieved a minimum average of 65% based on the previous academic year of study at Memorial University of Newfoundland. First-year athletes will also be eligible to receive provided they have an 80% final admission average. First-year athletes who do not meet the minimum 80% entering average may be eligible following the release of Winter grades as long as they maintain a 65% average on all coursework. This is a one-time allowance. Preference will be given to student athletes who have demonstrated outstanding commitment, leadership, athletic ability and dedication to their teammates. The award valued at $500 annually will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the wrestling coach and the Director of Athletics.

The CSEP/SCPE (Canadian Society for Exercise Physiology) Undergraduate Student Award
The CSEP/SCPE Undergraduate Scholarship recognizes excellence in academic achievement among undergraduate students. It is offered in Canadian universities which offer an undergraduate degree in physical education, human kinetics, or related disciplines. It will be awarded to graduating students who achieve the highest academic standing in their undergraduate class in the scientific portion of their curriculum. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on a recommendation from the Dean, School of Human Kinetics and Recreation. One award, in the form of an engraved medallion and a certificate, is granted annually at each university.

Elizabeth Dale NLVA Scholarship
This scholarship has been established by the Newfoundland and Labrador Volleyball Association (NLVA) and will be awarded annually, on the basis of scholarship standing, to a new recruit to the female volleyball program. This scholarship is renewable, for a second year, providing the recipient maintains scholarship standing and is a member of the female varsity volleyball team for both years. If an athlete attains the highest academic standing in her first year and does not return to the team in the following year, it is at the discretion of the coach to award the scholarship to another returning athlete. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on a recommendation from the Dean, School of Human Kinetics and Recreation acting on the advice of the team coach and the NLVA Executive.

The Margaret (Mag) Davis Memorial Scholarship
This scholarship has been established in memory of Margaret (Mag) Davis, former graduate of Memorial University of Newfoundland, dedicated physical education teacher and well-known athlete who excelled in the sports of softball, field hockey, ice hockey, soccer, ball hockey, curling, squash and golf. Valued at a minimum of $500 annually, it will be awarded to a female undergraduate student studying in the programs of the School of Human Kinetics and Recreation. In awarding this scholarship, preference will be given to students who have demonstrated athletic ability and scholarship standing. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean, School of Human Kinetics and Recreation.

The J. Douglas Eaton Alumni Scholarship
This scholarship was established by the Alumni Association of Memorial University of Newfoundland to commemorate the 30th Anniversary of degree programs in the School of Human Kinetics and Recreation and to honour Dr. Eaton a former department head. The award will be administered by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the student who attains the highest academic standing in the third year of the Bachelor of Physical Education, Bachelor of Recreation or Bachelor of Kinesiology. Recipients must also demonstrate commitment and service in activities related to their intended profession. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on recommendations from the Dean of the School.

The Damien and Denis Collier Award
This scholarship is tenable in all undergraduate programs at this University. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on a recommendation from the Dean, School of Human Kinetics and Recreation.

The Matthew J. Foster Alumni Scholarship
This scholarship, established by the Newfoundland and Labrador Volleyball Association (NLVA) and will be awarded annually, on the basis of scholarship standing, to a new recruit to the female volleyball program. This scholarship is renewable, for a second year, providing the recipient maintains scholarship standing and is a member of the female varsity volleyball team for both years. If an athlete attains the highest academic standing in her first year and does not return to the team in the following year, it is at the discretion of the coach to award the scholarship to another returning athlete. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on a recommendation from the Dean, School of Human Kinetics and Recreation acting on the advice of the team coach and the NLVA Executive.

The Marie and Paul Devlin Athletics Scholarship
This scholarship, valued at a portion of the annual income on the initial endowment, was established by Memorial University of Newfoundland alumnus, Dr. William Devlin. Dr. Devlin is a medical school graduate and a former varsity athlete at Memorial. In awarding this scholarship, preference will be given to undergraduate students who combine academic achievement, leadership and athletic prowess at the varsity level. This scholarship is tenable in all undergraduate programs at this University. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on a recommendation from the Dean, School of Human Kinetics and Recreation.

The Anne Foster Memorial Scholarship
This scholarship was established by Janet Foster and0 in consultation with the coaches of the varsity basketball teams.

The CSEP/SCPE Undergraduate Scholarship
The CSEP/SCPE Undergraduate Scholarship recognizes excellence in academic achievement among undergraduate students. It is offered in Canadian universities which offer an undergraduate degree in physical education, human kinetics, or related disciplines. It will be awarded to graduating students who achieve the highest academic standing in their undergraduate class in the scientific portion of their curriculum. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on a recommendation from the Dean, School of Human Kinetics and Recreation acting on the advice of the team coach and the NLVA Executive.

The Margaret (Mag) Davis Memorial Scholarship
This scholarship has been established in memory of Margaret (Mag) Davis, former graduate of Memorial University of Newfoundland, dedicated physical education teacher and well-known athlete who excelled in the sports of softball, field hockey, ice hockey, soccer, ball hockey, curling, squash and golf. Valued at a minimum of $500 annually, it will be awarded to a female undergraduate student studying in the programs of the School of Human Kinetics and Recreation. In awarding this scholarship, preference will be given to students who have demonstrated athletic ability and scholarship standing. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean, School of Human Kinetics and Recreation.

The J. Douglas Eaton Alumni Scholarship
This scholarship was established by the Alumni Association of Memorial University of Newfoundland to commemorate the 30th Anniversary of degree programs in the School of Human Kinetics and Recreation and to honour Dr. Eaton a former department head. The award will be administered by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the student who attains the highest academic standing in the third year of the Bachelor of Physical Education, Bachelor of Recreation or Bachelor of Kinesiology. Recipients must also demonstrate commitment and service in activities related to their intended profession. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on recommendations from the Dean of the School.

Everest 2010 Mountain of Learning Experimental Education Award
This award was established by TA Loefler, faculty member in the School of Human Kinetics and Recreation, on the occasion of her second ascent on Mount Everest. The award, in honour of her grandmother, Frida Loefler, celebrates Frida’s lifelong love of learning. The award is to be valued at a portion of the income on the endowment and will be awarded annually to a student who meets the minimum academic requirements for an award as defined by the University. The recipient may be enrolled in any one of the three cooperative education degree programs in the School of Human Kinetics and Recreation. To be eligible for this award, the student will have demonstrated an exceptional commitment to experiential education through their participation in activities or work terms related to their intended profession. The award will be administered by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean, School of Human Kinetics, in consultation with the School’s Cooperative Education Coordinators. The award is presented annually at the Fall HKRA Awards Celebration.

The Matthew J. Foster Alumni Scholarship
This scholarship, established by the Newfoundland and Labrador Volleyball Association (NLVA) and will be awarded annually, on the basis of scholarship standing, to a new recruit to the female volleyball program. This scholarship is renewable, for a second year, providing the recipient maintains scholarship standing and is a member of the female varsity volleyball team for both years. If an athlete attains the highest academic standing in her first year and does not return to the team in the following year, it is at the discretion of the coach to award the scholarship to another returning athlete. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on a recommendation from the Dean, School of Human Kinetics and Recreation acting on the advice of the team coach and the NLVA Executive.

The Margaret (Mag) Davis Memorial Scholarship
This scholarship has been established in memory of Margaret (Mag) Davis, former graduate of Memorial University of Newfoundland, dedicated physical education teacher and well-known athlete who excelled in the sports of softball, field hockey, ice hockey, soccer, ball hockey, curling, squash and golf. Valued at a minimum of $500 annually, it will be awarded to a female undergraduate student studying in the programs of the School of Human Kinetics and Recreation. In awarding this scholarship, preference will be given to students who have demonstrated athletic ability and scholarship standing. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean, School of Human Kinetics and Recreation.

The J. Douglas Eaton Alumni Scholarship
This scholarship was established by the Alumni Association of Memorial University of Newfoundland to commemorate the 30th Anniversary of degree programs in the School of Human Kinetics and Recreation and to honour Dr. Eaton a former department head. The award will be administered by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the student who attains the highest academic standing in the third year of the Bachelor of Physical Education, Bachelor of Recreation or Bachelor of Kinesiology. Recipients must also demonstrate commitment and service in activities related to their intended profession. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on recommendations from the Dean of the School.

The Dr. M.O. and Grace Morgan Scholarship in Physical Education
This fund is the result of an endowment to Memorial University of Newfoundland from the estate of Dr. and Mrs. Morgan. One or more scholarships, valued at a portion of the annual accrued interest, will be awarded to a Physical Education student in the first year of the Bachelor of Physical Education degree program. The recipients will have demonstrated scholarship standing as well as leadership in the professional preparation and/or services program of the School of Human Kinetics and Recreation. These Scholarships will be awarded...
by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, School of Human Kinetics and Recreation.

**Rick Morris Memorial Bursary**

This bursary was established in memory of Rick Morris by his family and friends. Rick was a caring individual who was deeply committed to Newfoundland and worked with a variety of individuals, organizations, and government. He was a mentor to many helping professionals, who regularly sought his counsel on personal and professional issues. He was deeply concerned with violence against individuals, particularly women, children, and the survivors of Mount Cashel. He was involved in the establishment of Unified Family Court's mediation services and frequently collaborated with the aboriginal and senior's communities. The bursary, valued at a portion of the income from the endowment, will be awarded annually to a student who is in financial need and meets the minimum academic requirements for a bursary. It will be awarded on a rotating basis to a student enrolled in one of the following academic areas: Year 1- School of Social Work, Year 2- Faculty of Education, Year 3- School of Human Kinetics and Recreation, Year 4- Department of Gender Studies and Year 5- School of Nursing. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Head of the Unit for which the bursary is being awarded.

**The MRM Kinetics Award**

This award, generously funded by MRM Kinetics and its founder Michael R. Molias, has been created to encourage qualified exercise professionals in Newfoundland and Labrador by recognizing academic excellence in advanced fitness and leadership. Valued at $400, the award will go to the student who has achieved the highest mark in HKR 2340 (Fitness Leadership). It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Human Kinetics and Recreation.

**The Newfoundland and Labrador Basketball Association Merit Awards**

These awards, of varying amounts, have been established by the Newfoundland and Labrador Basketball Association. They shall be awarded to Memorial University of Newfoundland students who are members of the University's basketball teams and in good academic standing. These awards shall be administered by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards in conjunction with the Dean, School of Human Kinetics and Recreation.

**The Newfoundland and Labrador Volleyball Association Awards**

These awards, at the interest accruing from the principal amount, have been established by the Newfoundland and Labrador Volleyball Association from monies contributed by supporters of volleyball including coaches and players. They shall be awarded to Memorial University of Newfoundland students, male and/or female, who are in good academic standing, displaying commitment and leadership in the game of volleyball and who are members of one of the University's varsity volleyball teams. The awards shall be administered by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, School of Human Kinetics and Recreation.

**The Newfoundland & Labrador Soccer Association Awards**

These awards, valued at $500.00 each have been established by the Newfoundland Soccer Association and shall be awarded to two or more Memorial University of Newfoundland students, one male and one female, who are in good academic standing, displaying commitment and leadership in the game of soccer and who are members of one of the University's soccer teams. The awards shall be administered by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, School of Human Kinetics and Recreation.

**The Proactive Physiotherapy Award in Human Anatomy**

This annually funded award, valued at $250, is the result of a contribution from Proactive Physiotherapy, a company owned and operated by two alumni of Memorial University’s School of Human Kinetics and Recreation, Chris Cluett and Justin Whittle. This award is available to the student who receives the highest mark in the on-campus offering of HKR 2310, Human Anatomy each year. To be eligible, students must be enrolled full-time as undergraduates in the School of Human Kinetics and Recreation and be in clear academic standing. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on the recommendation of the Dean, School of Human Kinetics and Recreation. The award is presented annually at the Fall HKR Awards Celebration.

**The School of Human Kinetics and Recreation 30th/25th Anniversary Scholarship**

In the calendar year 1994 the School commemorated 30 years of professional preparation in physical education/recreation and 25 years of Atlantic University Sport (AUS) competition at Memorial University of Newfoundland by hosting Anniversary Celebrations. The Steering Committee of these Anniversary Celebrations in co-operation with the two major organizing committees of these events established a $500.00 Scholarship to be awarded annually to the undergraduate student who combines academic achievement and athletic prowess at the varsity level. In awarding this scholarship, preference will be given to candidates who have demonstrated ability and desire to coach, and to children of either graduates of the School or of former varsity athletes. The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, School of Human Kinetics and Recreation. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, School of Human Kinetics and Recreation. The award will go to the student who has achieved the highest mark in HKR 2340 (Fitness Leadership). It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, School of Human Kinetics and Recreation.

**Scott Memorial Scholarship**

This scholarship, established by Winslow and Eileen Scott in memory of their late son Bradford, a former student of Memorial University of Newfoundland, is valued at not less than $500.00. In awarding this scholarship, preference will be given to students in the Bachelor of Education Intermediate/Secondary Program who have completed the Bachelor of Physical Education or Bachelor of Physical Education (Co-operative) degree at Memorial University of Newfoundland. If a suitable candidate cannot be found in this category it will be awarded to a senior student in the Bachelor of Physical Education or Bachelor of Physical Education (Co-operative) program who is doing the teaching option. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, Faculty of Education and/or the Dean, School of Human Kinetics and Recreation. The award will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, School of Human Kinetics and Recreation.

**Sea-Hawks Athletics Awards**

A limited number of athletic awards are available annually to first year and returning student-athletes who exhibit leadership, achievement and athletic success. The annual number and value of awards will vary. To be eligible for these awards, returning athletes must be a current member of a Memorial University of Newfoundland Sea-Hawks Athletic team and have achieved a minimum average of 65% based on the previous academic year of study at Memorial University of Newfoundland. First-year athletes will also be eligible to receive provided they have an 80% final admission average. The School of Human Kinetics and Recreation Selection Committee may consider other criteria including financial need, service to the University and the community. These awards will be administered by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, School of Human Kinetics and Recreation in consultation with the coaches of varsity teams.

**The Michael ‘Beecher’ Smith Heart Award**

The Michael ‘Beecher’ Smith Heart Award will be awarded to a student-athlete who demonstrates outstanding leadership, dedication and commitment, while bringing a positive attitude to their team. This award is presented in honour of the characteristics that Michael ‘Beecher’ Smith, a former Memorial University of Newfoundland wrestler, exemplified. The recipient must be a current member of a
varsity team and have met the minimum academic requirements for an award. It will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Director of Athletics.

**The Harold Squires Scholarship**
This scholarship, valued at a portion of the annual interest, was established by Memorial University of Newfoundland Alumnus and long-time employee Harold Squires. In awarding this scholarship preference will be given to a student who competes for the Memorial University of Newfoundland Sea-Hawks in the sport of basketball. Based on scholarship standing it will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, School of Human Kinetics and Recreation in consultation with the coaches of the varsity basketball teams.

**The St. John's Association of Basketball Officials Award**
From a sum of money donated by the St. John's Association of Basketball Officials an award valued at a portion of the annual interest on the investment is to be provided annually to a full-time or part-time Memorial University of Newfoundland student, either graduate or undergraduate, who is an active member of the University basketball community. The candidate must meet the University's definition of Clear Standing. In the case of undergraduate students the award will be made by the Dean, School of Graduate Studies. In the case of undergraduate students the award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. In both cases the award is based on the recommendation of the executive of the St. John's Association of Basketball Officials.

**The Swimming Newfoundland and Labrador Bursary**
This bursary, valued at $1,000.00 annually, is available to a student continuing beyond their first year of studies at Memorial University of Newfoundland. The bursary recipient will be a swimmer in good standing with Swimming Newfoundland and Labrador and will be a returning member to the Memorial University of Newfoundland Seawolves Swim Team. Awarding of this bursary will be based on swimming performance at the varsity level. It will be awarded to a student in good academic standing at the University. Applications may be obtained in writing to the Swimming Newfoundland and Labrador Office, RPO MacDonald Drive, Box 21248, St. John’s, NL, A1A 5B2 or by telephone to (709) 576-7946 or fax: (709) 576-7493.

**The Josephine Welch Research Initiative Award**
The Josephine Welch Research Initiative Award, established by Dr. David Behm, is valued at $500. It will be awarded annually to a full-time graduate student enrolled in the Master of Kinesiology program who has demonstrated the greatest initiative towards publishing research. This can include submitted or published papers, abstracts or data collection. This award will be made by the Dean, School of Graduate Studies on the recommendation of the Dean, School of Human Kinetics and Recreation. It will be presented at the School of Human Kinetics and Recreation Awards Ceremony in November.

**Lorne Woolridge NLVA Scholarship**
This scholarship has been established by the Newfoundland and Labrador Volleyball Association (NLVA) and will be awarded annually, on the basis of scholarship standing, to a new recruit to the men’s volleyball program. This scholarship is renewable, for a second year, providing the recipient maintains scholarship standing and is a member of the men’s varsity volleyball team for both years. If an athlete receives a scholarship in his first year and does not return to the team in the following year, it is at the discretion of the coach to award the scholarship to another returning athlete. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on a recommendation from the Dean, School of Human Kinetics and Recreation acting on the advice of the team coach and the NLVA Executive.

**The Works Varsity Athletics Award**
This annually funded award has been established in 2012-13 by the Works, with support from The Office of the President of Memorial University of Newfoundland for a minimum period of five years. Valued up to full-tuition and fees, the fund has been established to assist coaches in recruiting student-athletes for the University’s varsity teams. To be eligible for these awards, returning athletes must be a current member of a Memorial University of Newfoundland Sea-Hawks athletic team and have achieved a minimum average of 65% based on the previous academic year of study at Memorial University of Newfoundland. First-year athletes may also be eligible to receive the award provided they have a minimum final admission average of 85%. First-year athletes who do not meet the minimum 85% final admission average may be eligible to receive the award following the release of Winter grades as long as the full-time student athlete earns a 65% average on all coursework. This is a one-time allowance. In granting this award, preference will be given to student athletes who have demonstrated leadership, athletic ability and overall commitment to teammates. For undergraduate students, the award will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Director of Athletics. For graduate students, the award will be granted by the dean, School of Graduate Studies on recommendation of the Director of Athletics.

### 4.9 School of Music
The following are available to students in the School of Music based on a recommendation from the Dean.

**The James E. Austin Memorial Scholarship**
From a sum of money donated by the firm of Dicks & Co. Limited, a scholarship has been established in honour of the late James E. Austin, former Chairman of the Board of the Company. The scholarship, valued at $500.00, is to be awarded annually on the basis of academic excellence to a full-time student enrolled in the School of Music at Memorial University of Newfoundland who is entering the fifth semester of the Conjoint Degree program. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, acting on the recommendation of the Dean, School of Music.

**Dr. Andreas Barban Memorial Scholarship**
This Scholarship was established in memory of Dr. Andreas Barban, distinguished musician and scholar, and former instructor in the School of Music. The scholarship, valued at not less than $1,000.00 will be awarded to a full-time Bachelor of Music student beyond the first year whose principal applied study is piano, and who has demonstrated musical potential and academic excellence. The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music.

**The Jonas (Joe) Barter Scholarship in Music**
This scholarship, valued at $500.00, is awarded annually from the income derived from a trust fund given to the University by the family and friends of the late Jonas (Joe) Barter. It is to be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of academic excellence, based on the advice of the Dean, School of Music. Preference will be given to a student who has completed three years of study in the area of Music Composition.

**The Yvonne Belanger Memorial Bursary**
This fund was established by her family to cherish the memory of musician, teacher and mother, Yvonne Belanger. The bursary will be awarded annually to full-time Bachelor of Music students beyond first year from the interest accrued on this endowment. The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music with the criteria for eligibility being musically, musical achievement, financial need, and scholarship standing.
The Amanda Bishop Memorial Scholarship
This fund was established by the family of Amanda Bishop to cherish the memory of a loving and caring daughter and sister whose lifelong ambition was to study voice in preparation for a career in the performing arts. With a value of at least $500.00, this scholarship will be awarded annually to a student beyond the first year of the music degree program in good academic standing, whose performance medium is voice and who has demonstrated dedicated commitment to the betterment of the music community. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music.

The Charles J. Bown Memorial Entrance Scholarship in Music
This scholarship was established in 2001 in memory of Charles J. Bown (1963-2000) who graduated from Memorial University of Newfoundland in 1985 with a Bachelor of Music and Music Education. He went on to obtain his Master's degree in vocal performance from the University of Ottawa in 1994. He was actively involved in music as an educator, choir director, soloist and organist until his death on October 24, 2000. Valued at the annual interest on the endowment, the scholarship will be awarded to a student entering the Bachelor of Music program at Memorial University of Newfoundland who has demonstrated musical potential, academic ability and financial need. Preference will be given to a student whose major applied study is in voice. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music.

The Dennis G. Browne Memorial Scholarship
This scholarship, valued at the accrued interest on an endowment, established by the firm of Patterson Palmer Hunt Murphy, in memory of the late Dennis G. Browne, who was a member of their law firm; will be awarded to a student enrolled beyond first year in the Bachelor of Music program. The scholarship will be awarded on the basis of scholarship standing and demonstrated musical potential. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music.

The Buell-Olson Scholarship
This scholarship, valued at a portion of the income on the investment, was established by Dr. Gerry B. Olson, who was a Henrietta Harvey Visiting Professor in the School of Music in 1983-84 and a long time contributor to the vitality of instrumental music in Newfoundland and Labrador. It was the occasion of the retirement of Dr. Donald Buell in recognition of his seminal role in instrumental music and music education in Newfoundland and Labrador. It is to be given to a student entering the first year of the Bachelor of Music program. Preference will be given to a student from Newfoundland and Labrador whose principal applied study is in woodwind, brass or percussion. The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music.

The Canadian Broadcasting Corporation (Newfoundland & Labrador Region) Entrance Scholarship in Music
This scholarship, valued at not less than $500.00, is to be awarded annually from a sum of money donated by the Canadian Broadcasting Corporation (Newfoundland and Labrador Region). The scholarship will be awarded on the basis of academic standing and demonstrated music potential, to a student from Newfoundland and Labrador entering the first semester of full-time study toward the Bachelor of Music degree. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music.

The Dr. G. Albert Cooper Bursary
This bursary, valued at the accrued interest on an endowment, is awarded annually to a full-time Bachelor of Music student beyond second year who has demonstrated academic excellence, musical potential and need. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music.

Olga Davis Scholarship in Music
This scholarship was established in honor of Mrs. Olga Davis, for whom music constitutes an essential part of life. It is derived from a generous gift by Dr. John Guy and Ms. Jennifer Guy (Davis) to the School of Music. The scholarship, valued at $1000 will be awarded annually to a Music student beyond first year who is a resident of Newfoundland and Labrador. The recipient must demonstrate both musical excellence in his or her applied study as well as financial need. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music.

Karl Diemer Memorial Bursary
This fund has been established by Mme Roberte Diemer in memory of her husband, Corner Brook businessman, Karl Diemer. Trained as a professional singer, Mr. Diemer had a great love for music and encouraged young musicians. The bursary, valued at a portion of the income on the investment, will be awarded annually to a voice student beyond first year who demonstrates musical potential and scholarship standing, as well as financial need. If there are no voice candidates in a given year, the award will be made to a student whose performance medium is strings. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music.

ECMA Legacy Scholarship
This scholarship, valued at $1000.00, has been established by the East Coast Music Association. It will be awarded annually to a student in any year of the Music program who demonstrates scholarship standing. The Scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music.

The Frederick and Isabel Emerson Memorial Scholarship
This scholarship has been established in memory of Frederick and Isabel Emerson by their children. Mr. Emerson, lawyer, musician, and a former lecturer and member of the Board of Regents, was involved in setting up and teaching music classes in the early days of the Memorial University College. The scholarship, valued at not less than $500.00, is awarded annually to a full-time music degree student beyond the second semester. Selection of candidates will be made on the basis of academic standing, financial need and character. The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music.

The Ed Goff Memorial Scholarship
This scholarship, valued at a minimum of $2,500.00 is to be awarded to a student in any year in the Bachelor of Music degree program who shows musical potential and has scholarship standing. Preference will be given to a student whose principle applied study is in saxophone. It may be renewed for the duration of the student's program, up to a maximum of four years, if he or she continues to excel musically and maintain scholarship standing. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music.

The Gower Youth Band Legacy Scholarship in Music
This scholarship, with a value of at least $1,000, was established by the Gower Youth Band and is maintained by the Gower Community Band in honour of former members of the Gower Youth Band who have become professional musicians and music educators. The scholarship is open to all students in brass, woodwind or percussion entering the first year of full-time study in the School of Music, and is awarded on the basis of musical excellence and potential as demonstrated at the entrance audition. This scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music.
The Alan D. Hall Award
This award has been established in memory of Alan D. Hall by his friends and family. A longtime faculty member in the Department of English at Memorial University of Newfoundland, he was deeply engaged in Music and Theatre throughout his life. The award, valued at a portion of the income on the investment, will alternate between the School of Music and the Faculty of Arts on a yearly basis. For the School of Music the award will go to a Music student beyond first year who demonstrates a high level of achievement on their instrument of applied study as well as involvement and commitment to the music community. For the Faculty of Arts the award will go to a student beyond first year enrolled in the program leading to a Diploma in Performance and Communications Media or a student enrolled in the program leading to a Bachelor of Arts degree with a major in Drama and Music. The eligible student must demonstrate a high level of achievement in theatre, as well as involvement in and commitment to the theatre community. To qualify for this award, students must meet the academic requirements for an award as outlined by the University. The award will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music or the Dean, Faculty of Arts.

The Norah and Leo Healey Memorial Award in Music
This Award has been established in memory of Norah and Leo Healey by their granddaughter Noreen Greene-Fraize and her spouse, Thomas W. Fraize Q.C. The award will go to a School of Music student in any year of study seeking support for a community engagement project. To qualify for this award, students must meet the academic requirements for an award as outlined by the University and submit a proposal – including a timeline and an approximate budget - to the Dean, School of Music by October 15. The award will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music.

The Ben Heppner 25th Anniversary Scholarship in Music
This scholarship was established through the generosity of Canadian tenor, Ben Heppner, who donated his fee for a recital given on the occasion of the 25th anniversary of the founding of the School of Music. Proceeds from the concert were matched by the Opportunity Fund to endow the scholarship. Valued at a portion of the annual interest on the endowment, it will be awarded annually to a student in the Bachelor of Music degree program on the basis of musical and academic excellence. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music.

The Winnifred Holloway Memorial Scholarship
This scholarship is the result of a bequest left to the University by Mrs. Velda Richards of St. John’s. The scholarship, valued at approximately $1,000.00, will be awarded annually to a female student who is full-time in the Bachelor of Music program and who is beyond first year. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music on the basis of musical talent, financial need, and scholarship standing.

The William J. House Memorial Scholarship
This scholarship, valued at a portion of the income on the investment, has been established in memory of William J. House by his widow, Mrs. Daphne L. House. The scholarship is to be awarded annually by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music or the Dean, Faculty of Arts.

The Imperial Tobacco Canada Entrance Scholarship in Music
This scholarship, established in 1998 by Imperial Tobacco Canada in support of the Opportunity Fund Campaign, has a minimum value of $2,000.00 annually. It will be awarded on the basis of scholarship standing and demonstrated music potential, to a student entering the first semester of full-time study toward the Bachelor of Music degree at Memorial University of Newfoundland. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music. The JUNO Legacy Graduate Scholarship in Music
This scholarship was established by the 2010 JUNO Awards Host Committee to support excellence in music. This scholarship, valued at $2,000 will be awarded annually to a full-time graduate student at the School of Music enrolled in the Master of Music (M.Mus.) program. The recipient must meet the minimum academic requirements for a scholarship as defined by Memorial University. It will be awarded by the Dean, School of Graduate Studies on the recommendation of the Director, School of Music.

The Kiwanis Club of St. John’s Music Scholarship/Bursary
This scholarship/bursary, valued at $750.00, is awarded annually by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music, to a promising student who is continuing studies in music at this University. Selection of candidates will be made on the basis of financial need, academic standing and character. The scholarship/bursary is not restricted to any particular year of study.

The Margaret Krause Scholarship in Music
This scholarship has been established in memory of Mrs. Margaret Krause, a pianist and cellist, who lived in St. John’s during the years 1955-58 with her husband, Dr. Lucjan Krause, a professor of physics at Memorial University of Newfoundland’s Parade Street location. During this time Margaret played in local musicals and local music with local musicians. Her children Janet and Catherine were born. Catherine, also a cellist, subsequently became Director of the Health Sciences Library at Memorial University of Newfoundland. One scholarship valued at a portion of the income on the investment, will be awarded annually to a full-time undergraduate student in music standing whose principal instrument of applied study is a bowed string instrument. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music.

The Rita Love Memorial Bursary in Music
Initiated by the executor of her estate, Mr. Derrick Hutchens, this bursary was established by the estate of Rita Love in her memory. Although Mrs. Love spent most of her adult life living in the United States of America, she maintained strong connections to Newfoundland and Labrador. She moved away from Newfoundland when she was about fifteen years of age but visited frequently until her return several decades later. Valued at a portion of the income on the endowment, this bursary will go to an undergraduate student in the School of Music, beyond first year, from Newfoundland and Labrador with demonstrated financial need. The recipient must meet the minimum academic requirements for a bursary as outlined by the University. At the time of recommendation preference will be given to a student who holds no other concurrent award. It will be awarded as described below by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music.

The Dame Vera Lynn Scholarship in Music
This scholarship, valued at a maximum of $2500.00 over five years ($500.00 per year), was established to honour Dr. Vera Lynn, the distinguished musician and honorary graduate of Memorial University of Newfoundland. It is open to all students entering the first year of full-time study in the School of Music and is awarded on the basis of academic standing and musical potential as demonstrated at the entrance audition. The recipient must maintain scholarship standing to retain the scholarship. A relinquished scholarship may be re-
awarded at the discretion of the Dean, School of Music. This award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, School of Music. Application forms may be obtained from the School.

The R.F. (Bob) MacLeod Memorial Entrance Scholarship in Music
This scholarship, with a value of at least $300.00, has been established in memory of Mr. R.F. (Bob) MacLeod, pianist, organist, and entertainer. The scholarship is awarded annually to a student entering the first year of full-time study toward the Bachelor of Music degree. In making the award preference will be given to a student from rural Newfoundland and Labrador. Academic standing, character and financial need will be considered. The award is to be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards acting on the advice of the Dean, School of Music.

The Pat and Margaret Maloney Scholarship in Music
This scholarship was established by Dr. Aidan Maloney in honor of the lasting contributions of Margaret Maloney and her late husband, Patrick to the musical life of our community. With Margaret’s indelible passion for singing and Patrick’s innate talent as a “kitchen” musician, music and life were synonymous to them. Individually gifted and together dynamic, they shaped a legacy shared by not only family, but our community at large. The scholarship, valued at a portion of the income on the investment, will be awarded annually to a Music student beyond first year who demonstrates musical excellence in her or his applied study. The scholarship will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, School of Music.

The Dr. Hugh O’Neill Prize in Violin
This prize is the result of a generous donation to Memorial University of Newfoundland by The O’Neill Foundation. One prize valued at $500.00 will be awarded annually to the top graduating undergraduate student in the School of Music, who majored in violin. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, School of Music.

The Marquis Limited (Colonel Sanders) Bursary in Music
This fund was established to provide financial assistance to students from Newfoundland and Labrador whose permanent residence is outside the St. John’s metropolitan area, and who are entering the first year of full-time study in the School of Music. The number of awards given annually and the value of each shall be determined by the Dean, School of Music. The award(s) is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music.

The Arthur and Dorothy Noseworthy Scholarship in Music
This fund was established in 1982 by faculty members of the School of Music in recognition of the interest and support given by Mrs. Grace Morgan to music at Memorial University of Newfoundland. Further funding resulted from a bequest to the University by Dr. M.O. Morgan after his death in 1995. Four scholarships, each valued at not less than $2,500.00, will be awarded annually from the income derived from the fund. Preference will be given to a student whose major applied study is in voice or organ. The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music.

The Karen Keirstead Mills Memorial Scholarship in Music
This scholarship was established in 1991 in memory of Karen Keirstead Mills, a former organ student and voice instructor in the School of Music. The scholarship, valued at not less than $1,000.00, will be awarded to a full-time Bachelor of Music student who is normally beyond the first year and who has demonstrated musical potential and academic ability. Preference will be given to a student whose major applied study is in voice or organ. The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music.

The Dorothy Duff Moores Memorial Entrance Scholarship in Music
This scholarship was established in memory of Dorothy Duff Moores, a lover and supporter of music, is provided from the interest accumulating on an endowment given for this purpose by her son Frank D. Moores and family friends. Valued at a portion of the income on the investment, it is awarded annually to a student of outstanding academic and musical ability who is entering the first semester of full-time study towards the Bachelor of Music degree. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music.

Mrs. Grace Morgan Scholarship in Music
This fund was established in 1982 by faculty members of the School of Music in recognition of the interest and support given by Mrs. Grace Morgan to music at Memorial University of Newfoundland. Further funding resulted from a bequest to the University by Dr. M.O. Morgan after his death in 1995. Four scholarships, each valued at not less than $2,500.00, will be awarded annually from the income derived from the fund. Two scholarships will be awarded to students entering the first semester of full-time study toward the Bachelor of Music degree, and two scholarships will be awarded to students beyond the first year of the music degree program. In making the awards, academic standing and musical potential will be considered. Whenever possible, at least one of the awards will be given to a student in piano and at least one of the awards will be given to a student in organ. The awards will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music.

Carl Morrissey Bursary in Music
This bursary is established in memory of Mr. Carl Morrissey by his family and friends. Through this bursary they hope his love of and involvement in music will continue to encourage young musicians, as he did so often. The bursary, valued at a portion of the income on the investment, will be awarded annually to a student entering the first year of full-time study in the School of Music in any year of study based on financial need and demonstrated music potential. The recipient must meet the minimum academic requirements for a bursary. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music.

The Arthur and Dorothy Noseworthy Entrance Scholarship in Music
This scholarship, valued at not less than $1,000.00, is to be awarded annually from the interest accruing from an endowment fund established by the Noseworthy family in honour of their parents. The scholarship will be awarded on the basis of academic excellence and demonstrated musical potential to a student entering the first semester of full-time study toward the Bachelor of Music degree. Preference will be given to a student whose principal instrument is organ. The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music.

The Dr. Hugh O’Neill Prize in Piano
This prize is the result of a generous donation to Memorial University of Newfoundland by The O’Neill Foundation. One prize valued at $500.00 will be awarded annually to the top graduating undergraduate student in the School of Music, who majored in piano. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, School of Music.

The Dr. Hugh O’Neill Prize in Violin
This prize is the result of a generous donation to Memorial University of Newfoundland by The O’Neill Foundation. One prize valued at $500.00 will be awarded annually to the top graduating undergraduate student in the School of Music, who majored in violin. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean,
School of Music.

The Dorothy and David Peters Scholarship in Music
The Dorothy and David Peters Scholarship in Music was established by Dr. David Peters with the intention of providing full, course-based tuition for two semesters (Fall and Winter) to the best student at the School of Music who displays the aptitude, ability, and passion for concert performance. Valued at a portion of the income on the endowment, the Scholarship is available to a School of Music student in his or her second year of studies and is renewable for up to two additional years. It is awarded annually to a student beyond first year in the School of Music on the basis of scholarship standing and excellence on his or her instrument of performance. Valued at approximately $500.00, it will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music.

The G. Calvin Powell Memorial Scholarship
This scholarship, valued at $500 has been established by Rebecca Eleanor Powell in memory of her grandfather G. Calvin Powell, whose love of the arts and encouragement towards Ms. Powell were influential in her desire to study music. It will be awarded annually to a student beyond first year in the School of Music on the basis of scholarship standing and excellence on his or her instrument of applied study. The Scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music.

Rex E. Rood Memorial Scholarship
This scholarship has been established in memory of Rex E. Rood by his wife and daughter. Although not a musician or performer, Mr. Rood had a deep love and knowledge of classical music, which he shared with his family and which formed an integral part of his life. He enjoyed orchestral arrangements, choral works and solo voices, but was particularly fond of operatic tenors. This scholarship, valued at $2000.00 per year, is to be awarded to a student in any year of the Bachelor of Music degree program who demonstrates musical potential and academic excellence. Preference will be given to a student whose principal applied study is voice, in particular a tenor, bass or baritone. The award may be renewed for the duration of the student's program, up to a maximum of five years, if the recipient continues to excel musically and maintains scholarship standing. The Scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on the recommendation of the Dean, School of Music.

Rex and Ruth Rood Memorial Scholarship in Music
Rex and Ruth Rood had a deep love and knowledge of classical music, which he shared with his family and which formed an integral part of his life. Ruth (Hue) Rood had a lovely soprano voice and performed in many operettas and concerts during her school years and as a soloist and in chorales as an adult. This Scholarship is given in memory of her parents by their daughter, Susan Mauder. Valued at $2,000 per year, it is awarded to one student annually in any year of the Bachelor of Music degree program who demonstrates musical potential and academic excellence. Preference will be given to a student whose principal applied study is voice. One scholarship, in total, will be awarded each year with the previous recipient being eligible for renewal (up to a maximum of five years) if the recipient continues to excel musically and maintains scholarship standing. The Scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on the recommendation of the Dean, School of Music.

The Dr. Ignatius A. Rumbolt Scholarship in Music
This scholarship, valued at a portion of the income on the endowment, was established in memory of Dr. Ignatius A. Rumbolt, distinguished musician, music educator, builder of the choral tradition in Newfoundland and Labrador, and honorary graduate of Memorial University of Newfoundland. The scholarship is awarded to a student beyond first year in the Bachelor of Music degree program who has demonstrated academic excellence and musical potential. The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on the recommendation of the Dean, School of Music.

School of Music Faculty Scholarship/Bursary Fund
These scholarships/bursaries of the value of at least $300.00 each are awarded out of income derived from a fund established in 1976 by the faculty members of the School of Music. The awards are made annually by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on the recommendation of the Dean, School of Music, to promising students who are continuing their studies in Music at this University. Selection of candidates will be on the basis of musicianship, academic standing, financial need and participation in School of Music activities.

The Sergeants Mess of Newfoundland Memorial Entrance Scholarship in Music
From the revenue accruing from War Savings Bonds purchased in 1940 by the Sergeants Mess of Newfoundland, a fund was established in 1990 to provide an annual scholarship of not less than $500.00 to a student entering the first semester of full-time study in the School of Music. Academic excellence and musical potential as demonstrated at the entrance audition will be considered. The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on the recommendation of the Dean, School of Music.

The Roger Skinner/Music NL Memorial Award in Music
This award has been established in memory of Roger Skinner by his friends, family and Music NL. Roger contributed significantly to the music industry of this Province and was a founding member and drummer of the legendary country/rock group The Ducats. He served on the Board of Directors for Music Newfoundland & Labrador for a number of years and was serving as President at the time of his passing in 2002. Among his many contributions to the music of Newfoundland and Labrador, it was his vision that resulted in the creation of Music NL’s Annual Awards Gala which celebrates the best of our Province’s music industry. Valued at a portion of the income on the endowment, the Award will go to an undergraduate student in the School of Music with demonstrated financial need who meets the minimum academic requirements for a scholarship as defined by Memorial University of Newfoundland. The recipient must display a high level of musical ability and, in performance in any of the following areas: a keyboard instrument, voice, woodwinds, or brass. In order to be considered for renewal, the recipient must be a performance major with scholarship standing during years three and four of their program and all of the aforementioned criteria will apply where eligibility is concerned. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music.

The Grace M. Sparkes Alumni Entrance Scholarship/Bursary in Music
The Memorial University of Newfoundland Alumni Association has established, from its Alumni Annual Fund, an entrance scholarship/bursary in Music. The award, valued at not less than $500.00, will be given annually to a student entering the first semester of full-time study towards the Bachelor of Music degree. Academic standing, musical potential and financial need will be considered. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on the recommendation of the Dean, School of Music.

The Grace M. Sparkes Scholarship in Music
This scholarship was established by Mrs. Sparkes, former Alumni of the year and devoted friend of Memorial University of Newfoundland. Valued at approximately $500.00, it will be given annually to an undergraduate student in full-time study towards the Bachelor of Music degree. Scholarship standing and musical potential will be the main considerations in awarding this scholarship. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on the recommendation of the Dean, School of Music.
The Harold and Maxine Stanley Award
The award is established in memory of Mr. Harold Stanley by his family and friends. The award valued at a portion of the income on the investment, will be awarded annually to a full-time undergraduate student beyond first year in the School of Music. The recipient must meet the minimum academic requirements for an award. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music.

The Gordon M. Stirling Memorial Scholarship/Bursary
This fund was established by the Stirling Ryan law firm in memory of their late senior partner Gordon M. Stirling. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based upon the recommendation of the Dean, School of Music. The award will be available to an exceptional student(s) enrolled in the School of Music to assist with travel and other expenses to enable such student(s) to perform at events of major musical importance outside the province. Scholarship standing, musical ability, financial need, and the benefits such exposure would confer on the student(s) will be taken into consideration by the Committee. The value of the award will be based on the interest income accruing on the capital sum in the fund.

The Student Music Society Award in Music
This award was established by the Student Music Society of Memorial University of Newfoundland’s School of Music and made possible through ongoing fundraising initiatives. Valued at a portion of the income on the endowment, the award will go to an undergraduate student in the School of Music, beyond first year, who demonstrates financial need. The recipient must meet the minimum academic requirements for an award as outlined by the University. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music.

The Kathleen M. Baird Memorial Scholarship
This scholarship is made possible through a fund established by Mrs. Edna Baird-Stephenson in memory of her sister Kathleen M. Baird (1903-1985). The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean/Director/Head of the respective Faculty or School.

The Eleanor and Norval Blair Travel Scholarship in Nursing
This scholarship is awarded annually to a student entering first year in the School of Music at Memorial University of Newfoundland. It is awarded on the basis of scholarship standing and musical potential as demonstrated in the entrance audition. The value of this scholarship is determined by the amount of interest accrued on the principle sum. The scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music.

The Mary C. Whiteley Entrance Scholarship in Music
This scholarship is awarded annually to a student entering first year in the School of Music at Memorial University of Newfoundland. It is awarded on the basis of scholarship standing and musical potential as demonstrated in the entrance audition. The value of this scholarship is determined by the amount of interest accrued on the principle sum. The scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music.

The Mrs. H.B. Young Memorial Scholarship
This scholarship has been established by Mrs. Helen Marquis in memory of her mother, Mrs. H.B. Young, and is awarded annually to a full-time student at the School of Music. The value of the award will be based on the income accruing from the fund during the period of tenure of the scholarship. In selecting candidates, academic achievement, financial need and character will be taken into consideration. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean/Director/Head of the respective Faculty or School.

4.10 School of Nursing
The following are available to students in the School of Nursing based on a recommendation from the Dean.

The Alcohol and Drug Dependency Commission Commemorative Awards
These awards have been established to commemorate the Alcohol and Drug Dependency Commission (1982-1992). In an effort to promote the pursuit of addictions studies in various disciplines, it is hoped that recipients will pursue careers in addiction-related fields. Up to three awards, valued at $750.00 each, are available annually and open to students who have completed a major or published paper at the undergraduate or graduate level or are completing an Honours Dissertation on addictions issues. It will be awarded on a rotating basis to students in Pharmacy, Nursing, Medicine, and Social Work with a Faculty or School receiving only one award in any given scholarship year. These awards will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean/Director/Head of the respective Faculty or School.

The Clayton and Alice Cook Nursing Award
This award was established by Mr. Clayton D. Cook. The award, in honor of his niece Menetha Dyke, RN., will be valued at a portion of the income on the endowment and will be awarded annually to a student who meets the minimum academic requirements for an award, as defined by the University. The recipient must be enrolled in the second year of the undergraduate Bachelor of Nursing program at the School of Nursing. The award will be administered by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, School of Nursing.

The Ruby Dewling Memorial Award in Nursing
This award has been created in memory of Ruby Dewling, a respected faculty member in the Memorial University of Newfoundland School of Nursing. Ms. Dewling taught in all areas of the program as a clinical instructor. She started her career by earning a diploma in Nursing from the General Hospital School of Nursing and then completing the post-RN diploma in clinical supervision from the University of Toronto. A lifelong learner, Ms. Dewling, went on to earn a B.Sc. from Mount St. Vincent and an M.Sc. (Medicine) from Memorial University of Newfoundland. She remained deeply involved with nursing education throughout her life and serves as an exemplary model for the nursing profession. The award, valued at a portion of the income from the endowment, will be presented annually to a graduate student in the School of Nursing who is completing research in, or who has a passion for, community health and who meets...
the minimum academic requirements for an award. Preference will be given to a full-time student. The award will be awarded by the Dean of Graduate Studies upon the recommendation of the Dean of the School of Nursing.

The Mary Dunley Nurse Memorial Bursary
This bursary was established by a generous donation from family and friends of Ms. Mary Dunley Nurse, a graduate from the General Hospital School of Nursing Class of 1944. Mary was a devoted and loving wife, mother, and highly respected Registered Nurse. Throughout her life Mary was an inspiration to her family, to her health care colleagues and all those who came to know her. The bursary will serve as a reminder to future generations of nurses of the value of true caring and compassion for others. Valued at a portion of the income on the investment, it will be awarded annually to an undergraduate student entering the third or fourth year of the Bachelor of Nursing program at the School of Nursing, who has demonstrated financial need and who has demonstrated strong clinical skills. The student must also meet the minimum academic requirements for a bursary as defined by Memorial University of Newfoundland. This bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, School of Nursing.

The Barbara Fowlow Memorial Scholarship
This scholarship is made possible by a fund established by friends and colleagues in memory of Barbara Fowlow, a graduate of Memorial University of Newfoundland’s School of Nursing. Valued at the annual interest on the initial endowment, it is awarded annually to a student who is entering the final year of the Bachelor of Nursing (Collaborative) Program. Preference in awarding this scholarship will go to students who have shown an interest in Cardiovascular Nursing and/or have been involved in student life through volunteer work, involvement in Student Societies etc., during their university years, particularly within the School of Nursing. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Dean, School of Nursing.

Glendinning and Miller Family Scholarship in Nursing
This scholarship was established by Jane Carol Glendinning-Johnson, Andrea (Glendinning) Sumsion, and Barbara (Glendinning) Smith to honour and remember Andrew and Jane (Bethune) Glendinning and Hugh and Barbara (Green) Miller, their respective offspring and others, and to recognize their dedication to education, their passion for education and their dedication as teachers. Valued at a portion of the accrued interest on an initial endowment, it will be awarded annually to a student registered full-time in the Bachelor of Nursing (Collaborative) Program at Memorial University of Newfoundland. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Dean, School of Nursing.

The Grateful Patient Bursary Fund
This bursary was established by an estate gift from an anonymous donor who wanted to support the education of nurses at Memorial University of Newfoundland in recognition and gratitude for the nursing care he received during a difficult time in his life. Valued at a portion of the income on the investment, one or more bursaries will be awarded annually to Memorial University of Newfoundland students entering the Bachelor of Nursing Program who have demonstrated financial need as well as meet the minimum academic requirements for a bursary as defined by Memorial University of Newfoundland. It is the donor's express wish that the recipients, at such time when they are financially able, will contribute back to the Grateful Patient Bursary to enable the Fund to grow and assist more students. This bursary will be will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Nursing.

The Heart and Stroke Foundation of Newfoundland and Labrador Nursing Award in Cardiovascular Health
Established by the Heart and Stroke Foundation of Newfoundland and Labrador the Award, valued at $1,000 annually, will be presented to an undergraduate student in any year of the Bachelor of Nursing program at the School of Nursing. The student will have demonstrated an interest in cardiovascular health, have actively volunteered with the Heart and Stroke Foundation and also have met the minimum academic requirements for an award. The Award will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean of the School of Nursing.

The Heart and Stroke Foundation of Newfoundland and Labrador Nursing Award in Stroke
Established by the Heart and Stroke Foundation of Newfoundland and Labrador the Award, valued at $1,000 annually, will be presented to an undergraduate student in any year of the Bachelor of Nursing program at the School of Nursing. The student will have demonstrated an interest in patient health related to stroke care, have actively volunteered with the Heart and Stroke Foundation and also have met the minimum academic requirements for an award. The Award will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean of the School of Nursing.

The Mirdza Kajaks Scholarship
This scholarship, established by Mirdza Kajaks, is valued at a portion of the accrued interest on the endowment. It will be awarded annually to a full-time student entering the first year of the Bachelor of Nursing (Collaborative) Program at the Western Regional School of Nursing. It is the wish of Mrs. Kajaks that the recipient plans to practice in Newfoundland and Labrador upon completion of studies. Whenever possible such students will be given first preference. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Dean, School of Nursing.

The Daphne King (Bajzak) Memorial Award in Patient Care
The Daphne King (Bajzak) Memorial Award in Patient Care was generously established by the family of Mrs. Daphne Bajzak, a graduate of the General Hospital School of Nursing. Throughout her nursing career she provided calm comfort for those in pain. She will always be known for her kindness, compassion, empathy toward patients and their families. Daphne came to be known for her unwavering dependability, trustworthiness and patient care centered approach to healing. The award will be presented annually to a student entering the 4th year of the Bachelor of Nursing program at the School of Nursing. The student will have demonstrated exemplary patient care by being an advocate for patients and their families’ well-being during their clinical placements. The student must also meet the minimum academic requirements for an award. The award will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Director of the School of Nursing.

The Marilyn Marsh Scholarship
This scholarship is made possible by a fund established by former students and colleagues of Marilyn Marsh on the occasion of the Twentieth Anniversary of the School of Nursing. The scholarship is awarded annually to a student who has completed the second year of the Bachelor of Nursing (Collaborative) Program at the Memorial University of Newfoundland site. Criteria (in order of priority) for this award are:

- Demonstrated clinical excellence
- Participation in student/school activities
- Academic standing

The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, acting on the recommendation of the Dean of the School of Nursing.
The John M. and Elsa S. Morgan Scholarships
These scholarships have been bequeathed to the University by the late Dr. John M. Morgan, B.Sc., M.D., and have been named to commemorate Dr. Morgan and his wife Elsa. Up to twenty-five scholarships will be made available annually to undergraduate students who have completed at least one year of studies at Memorial University of Newfoundland within the areas specified below and who will be continuing in these programs. The scholarships, valued at a minimum of $1,000.00 each, will be disbursed as follows:

- up to five to the Faculty of Medicine
- up to four to the School of Nursing
- up to four to the Faculty of Education
- up to four to the Department of Philosophy
- up to four to the Department of Anthropology
- up to two to the Department of Religious Studies (with preference to students of comparative religions)
- up to two to students in Newfoundland Studies

The scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the appropriate Dean/Director/Department Head. Preference will be given, where possible, to students from the Port-de-Grave District.

The Margaret Fitzpatrick Morgan Scholarship in Nursing
This fund was established by the late Dr. M.O. Morgan in memory of his wife, the late Margaret Fitzpatrick Morgan. One or more scholarships valued at not less than $2,500.00 each will be awarded annually by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards to a student or students registered full-time in the Bachelor of Nursing (Collaborative) Program. Preference will be given to students entering the first year of the program preferably from rural Newfoundland and Labrador.

Rick Morris Memorial Bursary
This bursary was established in memory of Rick Morris by his family and friends. Rick was a caring individual who was deeply committed to Newfoundland and worked with a variety of individuals, organizations, and government. He was a mentor to many helping professionals, who regularly sought his counsel on personal and professional issues. He was deeply concerned with violence against individuals, particularly women, children, and the survivors of Mount Cashel. He was involved in the establishment of Unifed Family Court’s mediation services and frequently collaborated with the aboriginal and senior communities. The bursary, valued at a portion of the income from the endowment, will be awarded annually to a student who is in financial need and meets the minimum academic requirements for a bursary. It will be awarded on a rotating basis to a student enrolled in one of the following academic areas: Year 1 - School of Social Work, Year 2 - Faculty of Education, Year 3 - School of Human Kinetics and Recreation, Year 4 - Department of Gender Studies and Year 5 - School of Nursing. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of the School of Nursing.

The Margaret Fitzpatrick Morgan Scholarship in Nursing
This fund was established by the late Dr. M.O. Morgan in memory of his wife, the late Margaret Fitzpatrick Morgan. One or more scholarships valued at not less than $2,500.00 each will be awarded annually by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards to a student or students registered full-time in the Bachelor of Nursing (Collaborative) Program. Preference will be given to students entering the first year of the program preferably from rural Newfoundland and Labrador.

The Royal Canadian Legion, Branch 13 Bursary in Nursing
Established by the Royal Canadian Legion, Branch 13 the bursary will be awarded to a student in their final year in the Bachelor of Nursing (Collaborative) program at the Western Regional School of Nursing who has expressed an interest in post-graduate training in emergency nursing, occupational health nursing or critical care nursing. Preference will be given to a student who demonstrates a combination of a strong work ethic, a passion for student life and extra-curricular activities. To be eligible, students must meet the minimum academic requirements for a scholarship. The Scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on the recommendation of the Director of the Western Regional School of Nursing.

The Katharine Roberts Memorial Scholarship
This scholarship was created by Elizabeth (Betty) L. Robbins who was born on May 15, 1911 in Strathaven, Lanarkshire County, Scotland. Betty graduated in Nursing from Stobhill General Hospital, Glasgow, Scotland on October 31, 1940 and received a Certificate from the Central Midwives Board for Glasgow on December 13, 1940. She came to Newfoundland on Jan 20, 1947 and married Frederick Robbins in St. John’s on March 1, 1947. Mr. Robbins was a Newfoundland war veteran from Burlington, Notre Dame Bay, who had served with the Royal Navy during the Second World War. This scholarship, valued at a portion of the accrued interest on the endowment (a minimum of $2,500.00 annually), will be awarded to a student in the third year of the Bachelor of Nursing (Collaborative) Program. The scholarship will be awarded on the basis of scholarship standing, financial need, and nursing professional practice. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean of the School of Nursing.

The School of Nursing Faculty Memorial Award
The School of Nursing Faculty Memorial Award pays tribute to our respected faculty members who have passed on. The School of Nursing Faculty Memorial Award honours the following faculty members: Ruby Dewling, Grace Gould, Neil Joiner, Maureen Laryea, Margaret McLean, Joyce Nevitt, Beverly Rockwell, and Elizabeth ‘Betty’ Summers. The award is valued at a portion of the income from the endowment and will be awarded to a student beyond their first year of the Bachelor of Nursing program at the School of Nursing. The recipient must emulate the best qualities of a nursing faculty member; including a passion for nursing education, a spirit of caring and a commitment to nursing and a compassion for patients. The award will be presented by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of the School of Nursing.

The St. John’s Home Care Scholarship for Excellence in Community Health Nursing
This scholarship valued at the annual accrued interest on the initial endowment will be awarded to a full-time or part-time student enrolled in the Bachelor of Nursing (Post RN) or Master of Nursing Program at Memorial University of Newfoundland with preference given to candidates enrolled in the Bachelor of Nursing (Post-RN) Program. Candidates must also have employment experience in community health nursing and demonstrated recent voluntary involvement in a community organization(s). Minimum academic requirements are a 75% overall average in either the completed diploma program in nursing or completed courses in either the B.N. (Post-RN) or Masters Program. In the case of undergraduates the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. In the case of Graduates the scholarship will be awarded by the Dean of Graduate Studies. In both instances the award will be based upon a recommendation from the Dean of Nursing.

The Sybil Gertrude Rusted Toy Memorial Bursary
This bursary, established by Dr. Nigel Rusted in memory of his sister Sybil, is valued at a portion of the accrued interest on an endowment. Sybil, the daughter of Rev. Canon Ernest and Faith (Hollands) Rusted, was born in Upper Island Cove April 2, 1911. She was educated at schools in Upper Island Cove, Carbonear, Girl’s College in New York and the Royal Victoria Hospital in Montreal. The bursary will be awarded annually to a student entering the first year of the Bachelor of Nursing (Collaborative) Program with first preference to students from the Conception Bay North area, who have demonstrated ability and financial need. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, School of Nursing.

The Janet P. Winsor Bursary
This bursary, valued at a portion of the accrued interest on the initial endowment, is awarded annually to third year students enrolled in the B.N. (Collaborative) Program who demonstrate financial need over and above academic excellence. The candidates must have scholarship standing as well as demonstrate financial need. At least one bursary will be awarded in each of the three sites. The criteria for this award includes excellence in Year 3 clinical courses (Nursing 3501 and 3511) supported by a letter of recommendation from clinical instructors. The student’s file may also be used to determine examples of clinical excellence. Each Committee on Undergraduate Studies will select the student at their site. This bursary will be awarded at the Graduation and Awards Ceremony in the Spring, but not necessarily to the highest academic student. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on recommendation from the Dean, School of Nursing.

4.11 School of Pharmacy
The following are available to students in the School of Pharmacy based on a recommendation from the Dean.

The Abbott Prize
Abbott Laboratories Limited awards an annual prize consisting of $250. This prize is awarded to a student of high academic merit. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the Recommendation of the Dean, School of Pharmacy.

The Alcohol and Drug Dependency Commission Commemorative Awards
These awards have been established to commemorate the Alcohol and Drug Dependency Commission (1982-1992). In an effort to promote the pursuit of addictions studies in various disciplines; it is hoped that recipients will pursue careers in addiction-related fields. Up to three awards, valued at $750.00 each, are available annually and open to students who have completed a major or published paper, dedicated to what he/she does, interested in a variety of different activities, involved in activities both inside and outside the School of Pharmacy, committed to the profession and shows significant academic accomplishment. The student must also meet the minimum academic requirements for an award. The award will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, School of Pharmacy.

The Alpha Group Memorial Award in Community Pharmacy
The Alpha Group is a dedicated group of independent pharmacy owners who provide the communities of Newfoundland and Labrador with essential health care services and represent a vital part of the health care delivery system. The Award is given in memory of the members of the Alpha Group who have made a significant difference in the lives of their patients and who have now passed on. The Award will be presented to a student in the 3rd or 4th year of the Bachelor of Science (Pharmacy) program who has demonstrated excellence in community pharmacy practice during the completion of their structured practice experience placement. Preference will be given to students who have demonstrated excellence within an independent pharmacy practice setting. The student must also meet the minimum academic requirements for an award. The Award will be presented by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean of the School of Pharmacy.

Amerisource-Bergen Canada Scholarship/Bursary
This award of $500.00 is provided to a student who has successfully completed the first year of the Pharmacy program. It is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on the recommendation of the Dean, School of Pharmacy.

The James and Betty Batt Family Award in Pharmacy
The James and Betty Batt Family Award in Pharmacy was generously established by Mr. Michael Batt, School of Pharmacy, Class of 1981, in loving memory of his grandparents James and Betty Batt. The award is valued at a portion of the income from the endowment and will be presented annually to an undergraduate student in any year of the Bachelor of Science (Pharmacy) program. The award is available to a student who is in financial need and who is actively engaged in community service, either within the School of Pharmacy or the external community and who meets the minimum academic requirements for an award. The award will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean of the School of Pharmacy.

The Kristine Cadigan Memorial Award
This award is valued at a portion of the income from the endowment and will be presented annually to any student in the Bachelor of Science (Pharmacy) program. The award recognizes a well-rounded and deserving student who is never afraid to help out when needed and to what he/she does, interested in a variety of different activities, involved in activities both inside and outside the School of Pharmacy, committed to the profession and shows significant academic accomplishment. The student must also meet the minimum academic requirements for an award. The award will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean of the School of Pharmacy.
Canadian Pharmacists Association (CPhA) Centennial Award

This award offered by the Canadian Pharmacists Association consists of a $300.00 cash prize and a travel tour of approximately one week to visit manufacturing laboratories and health facilities in Toronto, Montreal or Ottawa and to attend the annual conference of the Association. It is made to a student who is completing the third year of the Pharmacy program. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Pharmacy.

The CAPSI/WYETH - Guy Genest Passion for Pharmacy Award

This award, valued at a portion of the income from the endowment, is the result of a generous lead donation by the student membership of the CAPSI (Canadian Association of Pharmacy Students and Interns). It is established in honour of Mr. Guy Genest, a passionate individual, who has demonstrated unwavering support of Canadian Pharmacy students and interdisciplinary healthcare practices. The award recipient will be a pharmacy student in any academic year, in clear academic standing (as defined by the University), who shows clear evidence of dedication to and passion for the profession of pharmacy. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on a recommendation from the Dean, School of Pharmacy.

The Neil Curtis Memorial Award in Pharmacy

Neil Curtis was a founding member of the Alpha Group of independent pharmacies and was a long-time serving Executive Director of the Alpha Group. He was instrumental in establishing a local presence of the Canadian Society of Hospital Pharmacists, serving as the first local president. He served voluntarily as Secretary-Registrar of the Newfoundland Pharmaceutical Association from 1964 to 1971 and served a term as President of the National Conference of Pharmacy Registrars of Canada. The Award will be granted to a student enrolled in the Bachelor of Science (Pharmacy) program at the School of Pharmacy who has demonstrated excellence during their Structured Practice Experience I (Community Pharmacy Placement). Preference will be given to a student who has demonstrated excellence in an independent pharmacy practice setting. To be eligible, students must meet the minimum academic requirements for an award. The award, valued at a portion of the income from the endowment, will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on a recommendation from the Dean, School of Pharmacy.

The Robert Heale Memorial Bursary

This bursary, valued at $250.00 annually, honours the memory of Robert Heale, an honorary life member of the Newfoundland and Labrador Pharmaceutical Association. It is awarded to a student who has demonstrated scholarship standing and financial need. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of a recommendation from the Dean, School of Pharmacy.

The Hapgood and Vey Family Award

The Hapgood and Vey Family Award has been generously provided by Ms. Beverly Vey and is valued at $2000. It will be presented annually to a student who has demonstrated scholarship standing and financial need. The award will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Deans of the School of Pharmacy.

The Charles E. Frosst Scholarship in Pharmacy

This award of $1,000.00 and a Merck Manual is presented by Merck Frosst Canada Inc. to the top first-year student of the Pharmacy program. The award will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Pharmacy.

The Neil Curtis Memorial Bursary

This bursary, valued at a portion of the income from the endowment, is the result of a generous donation by the family in memory of Mr. J. Joseph Dicks, a prominent pharmacist who achieved great success in his profession and community. The bursary will be awarded to a full-time Pharmacy student in any year of the program who demonstrates financial need and has a minimum GPA of 2 out of a possible 4. The recipient will also exemplify similar character as Mr. Dicks, who overcame personal challenge to achieve success. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on the recommendation of the Dean, School of Pharmacy.

The G.R. Duncan Prize in Pharmacy

This award of $100.00 is to be given annually to a student in any year of the pharmacy program who displays school spirit, is involved in school-related extra curricular activities, and promotes the profession of pharmacy. The recipient shall be chosen by student ballot. It is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on the recommendation of the Dean, School of Pharmacy.

The Excellence in Compounding Award

This award is given to a student completing the first year of the Pharmacy program who obtains the highest mark in the compounding laboratory portion of the first year pharmaceutics courses. The award is valued at $250.00. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Pharmacy.

The Edward D. Freeman Bursary

This bursary honours the memory of Edward D. Freeman, a prominent Harbour Grace pharmacist who was a founding member of the Newfoundland Pharmaceutical Association (now the Newfoundland and Labrador Pharmacy Board). Valued at a portion of the income from the endowment, it shall be awarded to a deserving student of good academic standing in the School of Pharmacy on successful completion of Pharmacy Year III to enable the student to complete his/her studies with financial assistance. This bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on the recommendation of the Dean, School of Pharmacy.

The Charles E. Frosst Scholarship in Pharmacy

This award of $1,000.00, a Merck Manual is presented by Merck Frosst Canada Inc. to the top first-year student of the Pharmacy program. It is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on the recommendation of the Dean, School of Pharmacy.

The Neil Curtis Memorial Bursary

This bursary, valued at $250.00 annually, honours the memory of Robert Heale, an honorary life member of the Newfoundland Pharmaceutical Association (now the Newfoundland and Labrador Pharmacy Board) who practised for over 50 years as a community pharmacist and trained many pharmacists before pharmacy training programs were in place in Newfoundland. It is awarded to a student, in any year of the pharmacy program who demonstrates scholarship standing and financial need. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of a recommendation from the Dean, School of Pharmacy.

The Hapgood and Vey Family Award

The Hapgood and Vey Family Award has been generously provided by Ms. Beverly Vey and is valued at $2000. It will be presented annually to a student in any year of the Bachelor of Science (Pharmacy) program who is the descendant or spouse of a member of the Canadian Armed Forces or the Royal Newfoundland Regiment and who meets the minimum academic requirements for an award. A student may be the recipient of the award for a maximum of two years. The award will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on the recommendation of the Dean, School of Pharmacy.

The Robert Heale Memorial Bursary

This bursary, valued at $250.00 annually, honours the memory of Robert Heale, an honorary life member of the Newfoundland Pharmaceutical Association (now the Newfoundland and Labrador Pharmacy Board) who practised for over 50 years as a community pharmacist and trained many pharmacists before pharmacy training programs were in place in Newfoundland. It is awarded to a student in any year of the pharmacy program who demonstrates scholarship standing and financial need. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of a recommendation from the Dean, School of Pharmacy.
Scholarships, Bursaries and Awards 2013-2014

The Dr. L.R. Hensman Prize
This prize is awarded to the Pharmacy student who places first in the CAPSI sponsored patient interview competition. A $100.00 cash prize will be awarded. This prize is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on the recommendation of the Dean, School of Pharmacy.

The Linda R. Hensman Award
As a tireless advocate for the advancement of pharmacy education and practice, Dr. Hensman has been recognized as one of the top 100 most influential pharmacists in Newfoundland in the past century by the Newfoundland and Labrador Pharmacy Board. The Award is made possible by a generous gift by Dr. Linda R. Hensman, the third Director and first Dean of the School of Pharmacy. The Award, valued at a portion of the income from the endowment, will be granted to the student who places first in the CAPSI sponsored patient interview competition. The student must also meet the minimum academic requirements for an award. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean of the School of Pharmacy.

The J. Keith Lawton Memorial Bursary
This bursary has been established by the Board of Directors and employees of Lawton Drug Stores with the support of the Sobeys Foundation, to honour the memory of J. Keith Lawton. The value of the award will represent the interest generated from the endowment each year. It will be awarded to a deserving student selected from all students enrolled in the Pharmacy program. This award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the School of Pharmacy.

The L.J. Lawton Memorial Award
A plaque, donated by the Canadian Pharmacists Association in memory of Louis J. Lawton, a founder of the Newfoundland Pharmaceutical Association (now the Newfoundland and Labrador Pharmacy Board), is presented each year as an Honour Award to a student entering the final year of the Pharmacy program. The recipient shall be chosen by the students and faculty by ballot in recognition of a commitment to the School of Pharmacy as well as a high degree of academic ability and showing of promise in making significant contributions to the profession of Pharmacy. In addition, this shall be accompanied by a miniature award and monetary award valued at the income from the endowment each year. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Pharmacy.

The McKesson Scholarship/Bursary
McKesson provides two awards valued at $250 each. These awards will be open to all students enrolled in the School of Pharmacy and will be awarded on the basis of academic merit and financial need. The awards will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Pharmacy.

The Memorial University Pharmacy Society Spirit Award
The Memorial University Pharmacy Spirit Award have been generously provided by the Memorial University Pharmacy Society (MUPS) and are valued at $200. Two awards will be presented annually to the two students in any year of the Bachelor of Science (Pharmacy) program who are ranked first and second in their accumulation of Memorial University Pharmacy Society points and who meet the minimum academic requirements for an award. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of the School of Pharmacy.

The Merck Scholarship
This award of $1,000.00 and a Merck Manual is presented by Merck Frosst Canada Inc. to the top second-year student of the Pharmacy program. It is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Pharmacy.

The James J. O’Mara Awards
The James J. O’Mara Awards were created to honour the memory of James O’Mara, a prominent Newfoundland pharmacist who tirelessly worked as an advocate for a university based School of Pharmacy. He served as the President of the NPhA from 1970-72 and was Secretary/Registrar of what is now the Newfoundland and Labrador Pharmacy Board from 1981-1990. An award will be given to one student in each year of the Pharmacy program. The students will be selected based on top performance in the Pharmacy Skills courses for the year of study, as recommended by the course coordinators. Each award is valued at a portion of the income from the endowment. The awards are conferred by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of the School of Pharmacy.

The Ottawa Pharmacy Alumni Award
The Ottawa Pharmacy Alumni Award has been generously provided by Ms. Hao Nguyen, Dr. Co Pham, and Dr. Roland Halil. The award will be presented annually to a student in their third or final year of the Bachelor of Science (Pharmacy) program. The award recognizes a student who demonstrates a strong commitment to extra-curricular activities within Memorial University of Newfoundland and the external community and meets the minimum academic requirements for an award. The award, valued at a portion of the income on the endowment, will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of the School of Pharmacy.

The Ottawa Pharmacy Alumni Scholarship
The Ottawa Pharmacy Alumni Scholarship has been generously provided by Dr. Co Pham, Dr. Roland Halil and Ms. Hao Nyugen. The scholarship is valued at $1000 and will be granted annually to a student in their third or final year of the Bachelor of Science (Pharmacy) program. The scholarship recognizes a student who demonstrates a strong commitment to extra-curricular activities within Memorial University of Newfoundland and the external community and meets the minimum academic requirements for a scholarship. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean of the School of Pharmacy.

The Panta Pharmaceutical Passion for Compounding Award
The Panta Pharmaceutical Passion for Compounding Award has been generously provided by Panta Pharmaceutical. The award is valued at $250.00 and will be presented annually to a student in the Bachelor of Science (Pharmacy) program. The award recognizes excellence in pharmacy compounding. The successful candidate must have demonstrated a passion for the art of compounding, have been recommended by their clinical skills coordinator and meet the minimum academic requirements for an award. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean of the School of Pharmacy.

The Pfizer Award of Excellence
Pfizer Canada Inc. presents an annual award of a $200 cash prize. The Award is presented for excellence in Clinical Pharmacy by a graduating pharmacy student. The Award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Pharmacy.
The Dr. Co Pham and Family Award
The award was created by Dr. Co Pham, a proud graduate of the School of Pharmacy’s Class of 2000. Dr. Pham passionately believes that the ideals of innovating and maintaining the independence of professional practice and the drive to be entrepreneurial are of paramount importance to pharmacy practice and were therefore a pivotal part in his desire to create this award. The award will be presented annually to a student in any year of the Bachelor of Science (Pharmacy) program who exemplifies an entrepreneurial and innovative spirit in the pursuit of advancing the pharmacy profession, independent pharmacy practice of the School of Pharmacy. The student must also meet the minimum academic requirements for an award. The award, valued at a portion of the income from the endowment, will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on the recommendation of the Dean of the School of Pharmacy.

The PharmaChoice Award
The PharmaChoice Award, valued at $500 annually, is given to a student in the School of Pharmacy. Candidates must demonstrate satisfactory performance in the Pharmacy Administration course and be in clear academic standing as defined by the University. Candidates must also have displayed an interest in retail pharmacy as evidenced by past work experience as well as having expressed an interest in working in the field after graduation. The Award will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on the recommendation of the Dean, School of Pharmacy.

Pharmasave Community Service Award
Pharmasave provides one award in the amount of $1250. This award is provided to a student entering the 2nd year of the pharmacy program who has made outstanding contributions to his or her community through volunteer service. Students must be in clear academic standing and be actively involved in volunteer work which has an impact on community life. Students will be eligible to win this award only once during his/her tenure at the School. They will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on the recommendation of the Dean, School of Pharmacy.

Pharmasave Pharmacy Innovation in Patient Care Award
Pharmasave provides two awards in the amount of $1250 each. These awards are provided to students in clear academic standing who are in the third or fourth year of the pharmacy program who show leadership in the development and implementation of a “non-dispensing” patient care program/service offered by a community pharmacy. They will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on the recommendation of the Dean, School of Pharmacy.

The Jaclyn Rogerson Memorial Bursary in Pharmacy
The Jaclyn Rogerson Memorial Bursary in Pharmacy, valued at a portion of the income from the endowment, is established in loving memory of Jaclyn Rogerson, a well respected graduate from the School of Pharmacy’s Class of 2004. The bursary is a result of gifts to Memorial University of Newfoundland by Jaclyn’s family and friends to honour her commitment to the pharmacy profession and her community. As a gifted communicator and empathetic pharmacist, Jaclyn succeeded in providing caring support to her patients and community. The bursary will be awarded to a student entering their final year in the Bachelor of Science (Pharmacy) program at Memorial University of Newfoundland. Based on financial need and a minimum GPA of 2 (out of a possible 4), preference will be given to a student who also demonstrates a combination of a strong ability to communicate and empathize with patients, school spirit or who actively engages in community service. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on the recommendation of the Dean of the School of Pharmacy.

Sandoz Canada Inc. Scholarship/Bursary
Sandoz Canada Inc. offers annually three awards of $500.00 each which are open to all students enrolled in the School of Pharmacy. They are to be awarded to students of good academic standing with an aptitude for Pharmacy. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Pharmacy.

The Sanofi-Aventis Canada Inc. Scholarships
Sanofi-Aventis Canada Inc. offers annually two scholarships in the amount of $750.00 each to deserving students entering the first year of the Pharmacy program. The selection will be based on academic achievement and admission requirements. These scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on the recommendation of the Dean, School of Pharmacy.

The School of Pharmacy Entrance Scholarships
The School of Pharmacy provides two awards annually in the amount of $1,000.00 each to students entering the first year of the program. Recipients will be selected on the basis of academic achievement and admission requirements. These awards will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Pharmacy.

The School of Pharmacy Class of 2011 Legacy Award
The School of Pharmacy Class of 2011 Legacy Award has been established by contributions from members of the Class of 2011. The Award is established to celebrate the bonds of friendship between members of the class. It also recognizes the class’ belief in the value of providing service to the School of Pharmacy and the profession. The Award will be presented annually to an undergraduate student who has completed the third year of the Bachelor of Science (Pharmacy) program. The Award is available to a student who has demonstrated professionalism throughout their program, has served on at least one School of Pharmacy committee and has been engaged in service activities that advance the community or the profession. The student must also meet the minimum academic requirements for an award. The Award, valued at $200 annually, will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of the School of Pharmacy.

The School of Pharmacy Silver Anniversary Scholarship
The School of Pharmacy Silver Anniversary Scholarship was created to celebrate the accomplishments of the School of Pharmacy’s alumni, faculty, staff and students on the 25th anniversary of the School’s founding in 1986. The Scholarship will be awarded annually to a maximum of two undergraduate students entering the Bachelor of Science (Pharmacy) program at the School of Pharmacy. It will be awarded to the highest ranked students based on academic achievement and admission requirements. The student must also meet the minimum academic requirements for a scholarship. It is valued at a portion of the income on the endowment and will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean of the School of Pharmacy.

The Shoppers Drug Mart Associates Scholarships/Bursaries
Shoppers Drug Mart provides three scholarships/bursaries valued at $1000.00 each. These awards will be open to all students enrolled in the School of Pharmacy and will be awarded on the basis of academic merit and financial need. The awards will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Pharmacy.

The Augustus Stafford Memorial Scholarship
This award is presented to honour a founding member of the Newfoundland Pharmaceutical Association (now the Newfoundland and Labrador Pharmacy Board), the late Augustus Stafford of St. John’s. The award, consisting of $300, is given to the student achieving the highest academic standing in the first year of the Pharmacy program. The award will be made by the Senate Committee on...
Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Pharmacy.

The Teva Canada Scholarship/Bursary
Teva Canada provides two awards in the amount of $500 to be granted annually to students achieving excellence in one of pharmaceutical manufacturing, biopharmaceutics, or medicinal chemistry. The awards will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Pharmacy.

The Christina M. Tulk Scholarship in Pharmacy
The Christina M. Tulk Scholarship in Pharmacy was generously established by Ms. Christina Tulk, a proud graduate of the School of Pharmacy’s Class of 2002. The Scholarship, valued at $1,000 will be presented annually to an undergraduate student in any year of the Bachelor of Science (Pharmacy) program. The Scholarship is available to a student who has attempted to advance the profession and School of Pharmacy by grace and humility. It is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Pharmacy.

4.12 School of Social Work
The following are available to students in the School of Social Work based on the recommendation of the Dean.

The Alcohol and Drug Dependency Commission Commemorative Awards
These awards have been established to commemorate the Alcohol and Drug Dependency Commission (1982-1992). In an effort to promote the pursuit of addictions studies in various disciplines, it is hoped that recipients will pursue careers in addiction-related fields. Up to three awards, valued at $750.00 each, are available annually and open to students who have completed a major or published paper at the undergraduate or graduate level or are completing an Honors Dissertations. These awards will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean/Director/Head of the respective Faculty or School.

The Lyndsey Anne Antle Award in Social Work
This award is being established by the family of Lyndsey Anne Antle who was a student in the School of Social Work at Memorial University of Newfoundland and would have graduated on May 26, 2006. Unfortunately this did not happen. She was struck by a vehicle on June 19, 2005 and passed away as a result of severe injuries on June 22, 2005. Lyndsey strived for excellence in everything she did and truly believed in giving her all to work, family, friends and anyone who needed a helping hand. Her natural wisdom, warmth and strong conviction to helping others made her a great human being and she would have made a wonderful social worker. This award is valued at $350.00 and will be awarded annually to the student in the graduating class who has the highest average for years four and five of the Social Work program combined. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Social Work.

The Jackie Brown Memorial Social Work Scholarship
This scholarship has been established in the memory of Jackie Brown, a dedicated social worker who was an activist for social justice. Valued at $500.00 annually, it will be awarded to a full time undergraduate social work student who best epitomizes Jackie’s commitment and energy to creating positive change related to a social justice issue in his/her community. The award, however, is not necessarily intended for the student with the highest academic standing. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Social Work.

The Christopher & Donna Cox Scholarship
This scholarship, established through a generous contribution by Dr. Donna Hardy Cox and Dr. Christopher Cox, is valued at $500 per annum. Drs. Donna Hardy Cox and Christopher Cox, both alumni of Memorial University of Newfoundland, have established this scholarship in gratitude for their well-rounded student life and academic experiences. To be eligible, candidates must be full-time undergraduate students. The scholarship will be awarded annually on a rotating basis between the School of Social Work and the Faculty of Medicine, beginning with the latter. In Medicine, the scholarship will be awarded to a graduating student who has a strong academic record and who has expressed an interest in specializing in Oncology. In the School of Social Work it will be awarded to a graduating S.W. student who is in scholarship standing and who has made the greatest contribution to student and community leadership. The scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, based on the recommendation of the Dean/Director/Head of the appropriate discipline.

The Memorial University of Newfoundland Social Work Scholarship
This scholarship, at a value of at least $350.00, is awarded annually to a Social Work major enrolled in full-time study at Memorial University of Newfoundland. In the awarding of this scholarship, scholastic standing and financial need will be taken into account. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of Social Work and may be renewed in a subsequent year.

The Professor John S. Morgan Scholarship
This scholarship has been named to honour the late Dr. John S. Morgan, an honorary graduate of the University who served as Visiting Professor of Social Work during the 1976-77 academic year. It is valued at $500.00 per annum and will be awarded on the basis of academic merit to a graduate student enrolled in the School of Social Work. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of the School.

The John J. Murphy Scholarship in Social Work
This scholarship, valued at $500.00, is awarded annually to a student who has achieved academic excellence upon completion of the first year of the Social Work program. The award, however, is not necessarily intended for the student who has received the highest average in this category. It is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Social Work.
The Elizabeth A. Newlands Memorial Scholarship in Social Work

This scholarship has been named to honour the late Mrs. Elizabeth Newlands, one of the first graduates of the B.S.W. Program as Memorial University of Newfoundland. Valued at a minimum of $1,000.00 annually, it will be awarded on the basis of academic excellence to either a graduate or undergraduate student enrolled in the School of Social Work. If granted to an undergraduate the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. If awarded to a Graduate Student, it will be awarded by the Dean, School of Graduate Studies. In either case the scholarship will be awarded on the basis of an appropriate recommendation from the Dean, School of Social Work.

The Dr. J. Victor Thompson Scholarship in Social Work

This scholarship, valued at not less than $650.00 is awarded annually to a full-time Social Work student upon completion of at least 90 credit hours in Social Work and other courses at Memorial University of Newfoundland. The award will be made on the basis of academic excellence by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, acting on the recommendation of the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Grenfell Campus Committee.

5 Scholarships, Bursaries, and Awards Administered By the Senate Committee on Undergraduate Scholarships, Bursaries and Awards for Which Undergraduate Students Attending the Grenfell Campus at Corner Brook May Qualify

Although students on the Corner Brook campus are eligible for other awards listed in this Calendar, the following awards are tenable specifically at Grenfell Campus:

The Fred Aldrich Science Scholarship

This scholarship, established by the Corner Brook and Area Branch of the Alumni Association of Memorial University of Newfoundland, is awarded annually to a student at Grenfell Campus who is in the fourth semester of full-time study, who has accumulated at least 45 credit hours, and who is registered in a science program at Memorial University of Newfoundland. The scholarship may be held at either Corner Brook or St. John's. Valued at $1,000.00, the award is made on the basis of outstanding academic performance. The scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Scholarship Committee at Grenfell Campus.

The Dr. John Ashton Travel Award

This award was established by his wife Sheila and son Darby through generous contributions made in his memory by his family, friends and colleagues. John Ashton was the Principal of Grenfell from 2005 until his passing in 2008. He was a pivotal figure in the evolution of Grenfell and was also an internationally recognized, prize-winning scholar in his chosen field of Folklore. Valued at a portion of the income on the investment, the award will be given annually to an undergraduate student at Grenfell Campus who meets the minimum academic requirements for an award as defined by Memorial University of Newfoundland and wishes to travel for academic purposes. Preference will be given to a student with demonstrated financial need and/or who is facing other barriers, such as a disability, for which the funding will help to overcome obstacles to participate in academic travel opportunities. A special application form is required and may be obtained from the Student Services Office, Grenfell Campus, Room AS234 or by calling (709) 637-6249. The award will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the collective recommendation of the Division of Heads, Grenfell Campus.

Belize Travel Award

This award, valued at $1000 for study in Belize, has been established by Dr. Michael Newton. This award is open to students enrolled at the Grenfell Campus of Memorial University who wish to gain international experience by doing university or field courses in Belize. Students should be beyond their 1st year of study, meet the minimum academic requirements of clear standing and be recommended by the faculty in their area of study. This award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the scholarship committee at Grenfell Campus in consultation with faculty.

Marcella M. Besaw Memorial Award for International Students

This award has been established by the family of Marcella M. Besaw. Mrs. Marcella Besaw (1953-2010) often opened her home to international students at Grenfell Campus where her son attended, and treated them as extended family. It is valued at $200.00 annually and will be awarded to a full-time international student beyond their first year of studies at Grenfell Campus. The recipient would have demonstrated an involvement in student life, both within the international student community and with the overall student body. The students must meet the minimum academic requirements for an award as defined by the University. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the scholarship committee at Grenfell Campus.

The Katy Bindon Scholarship

This scholarship, one or more valued at $1,000.00 each annually, was created by friends of Dr. Katy Bindon with the assistance of the local branch of the Memorial University of Newfoundland Alumni Association and colleagues at Grenfell Campus. It was created to mark the contribution that Dr. Bindon made at the college during her tenure as its Principal from 1991-1997. The scholarship is to be awarded to a student entering his or her fourth year in any degree program offered at Grenfell Campus. The recipient should have combined academic excellence with an outstanding contribution to student life at Grenfell Campus. The scholarship is to be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Scholarship Committee at Grenfell Campus.

The Breakwater Folklore/Folkife Series Award

The Breakwater Books Folklore Prize is awarded annually for outstanding student performance in undergraduate folklore courses at Grenfell Campus. It is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Head of Social Science at the Campus in consultation with Folklore Faculty.

Edward P. Browne Scholarship

This scholarship was established by individual members of faculty, staff and student body of Grenfell Campus in memory of the late Edward P. Browne. Professor Browne was Co-coordinator of Physical Education and Recreation at Grenfell Campus from its opening until his death in 1982. The scholarship is open to all full-time students who have spent at least two semesters at Grenfell Campus. It is awarded on the basis of academic standing, participation in college life and may include financial need. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on recommendation from the Grenfell Campus. The value of the award will be determined from the interest accrued on the principal sum donated.

The CA Western Newfoundland Scholarship

This scholarship, valued at $500 annually, has been established by the CA Western Club of Western Newfoundland. The recipient will be the student with the highest grade point average who has completed the first year of studies in any program at Grenfell Campus,
Memorial University of Newfoundland and is accepted into either the Bachelor of Commerce program in St. John’s or a B.B.A. program in St. John’s or Corner Brook. S/he must also meet the minimum academic requirements for a scholarship as defined by the University. The scholarship will be administered by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the scholarship selection committee at Grenfell Campus.

The Canadian Beverage Association Scholarship
This scholarship was established by a generous donation from the soft drink industry of Newfoundland and Labrador. Valued at a portion of the income on the investment, it will be awarded annually to an outstanding full-time student beyond first year of the Environmental Science Program at Grenfell Campus. The recipient must meet the minimum academic requirements for a scholarship as defined by Memorial University of Newfoundland. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation from the Scholarship Committee at Grenfell Campus in consultation with the Chair of Environmental Science.

Canadian Coast Guard Newfoundland Region Alumni Association Bursary
This Bursary is made possible by the Canadian Coast Guard Alumni. Valued at $500.00 annually, it will be awarded to a 2nd year Visual Arts student who excels in drawing and painting. Financial need will also be taken into consideration. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Scholarship Committee of Grenfell Campus in consultation with the Head, Division of Fine Arts.

Canadian Society for Chemistry Silver Medal
This award is given annually at the Canadian Society for Chemistry's National Meeting for undergraduate students who have demonstrated excellence in original research in the chemical sciences. It is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on a recommendation from the Chair of Chemistry.

The Nicola Carlson Memorial Award
This award is presented annually to the student at Grenfell Campus with the highest average in third-year Environmental Chemistry courses. The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Chair of Chemistry.

The Chancellor's Undergraduate Award Grenfell Campus
This award is given at Grenfell Campus Convocation to the student of the graduating class who has demonstrated the greatest leadership contribution to undergraduate student life and other areas of the community during his or her university years at the Grenfell Campus. This award is recommended by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation from the Vice-President, Grenfell Campus in consultation with the University President.

The City of Corner Brook J.R. Smallwood Scholarship
This scholarship was established in 1991 by the City of Corner Brook to honour the Honourable Joseph R. Smallwood, first Premier of Newfoundland, who contributed significantly to the educational and cultural development of Newfoundlanders. This fund, donated by the City, is a tangible mark of the support given by the City to Grenfell Campus since the Campus opened in Corner Brook. The scholarship valued at $1,000.00 will be awarded to a student who is a resident of the City of Corner Brook in the final year of high school who is proceeding to Grenfell Campus. The award will be made, upon application, to a student of outstanding academic merit and promise who has demonstrated active participation in school and community life. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, acting on the recommendation of a special selection committee appointed by the Principal, with a representative from City Council.

Corner Brook Pulp and Paper Limited Scholarships
From funds donated annually by Corner Brook Pulp and Paper Limited, a number of scholarships are available to students attending Grenfell Campus, valued from $250.00-$500.00 each, available to students in any faculty or year of study. The awards will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Scholarship Committee at the Grenfell Campus.

The Cottage Crafts Association Scholarship
This scholarship is supported by the interest on a $5000.00 donated by Cottage Crafts Association, Corner Brook. It is awarded to a student in Fine Arts at Grenfell Campus. Preference will be given to a student with an interest in fibre arts, including costume design, textile design or textile manufacturing. The scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation from the Grenfell Campus.

Decker Family Environmental Scholarship
This scholarship was established by the Decker Family. The scholarship, valued at $1,000.00 will be awarded annually to a student enrolled at Grenfell Campus either in the Bachelor of Science program in Environmental Science, the Bachelor of Arts program in Environmental Studies, or the Bachelor of Resource Management program in Sustainable Resource Management. Students must meet the minimum academic requirements for a scholarship. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Grenfell Campus Scholarship Committee.

Division of Fine Arts Mercy/Presentation Education Fund Award
These awards, valued at between $1000 and $2000, have been established by the Mercy/Presentation Education Fund to assist students in co-curricular projects that will enhance their education. These awards are open to students enrolled at the Grenfell Campus of Memorial University of Newfoundland in the Visual Arts or Theatre Arts program. Students must have clear academic standing and complete an application. Applications will be available at the Scholarship's Office, Grenfell Campus. The awards will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head of Division, Chair of Visual Arts and Chair of Theatre Arts and the scholarship committee at Grenfell Campus.

The James Alexander Doull Memorial Scholarship in Humanities
This scholarship was established by Professor Floy Andrews Doull, to honour the memory of James Alexander Doull, teacher, colleague and friend. This scholarship, valued at a portion of the annual accrued interest, will be awarded annually to a student registered full-time in the Humanities Program at Grenfell Campus. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Chair of Humanities, Grenfell Campus.

Craig Dobbin Memorial Scholarship for Master of Business Studies at the Waterford Institute and Memorial University of Newfoundland
This scholarship has been established by Mr. Pat O'Callaghan, the Ireland Business Partnership, the Ireland Newfoundland Partnership, the Provincial Department of Education, and Craig Dobbin family members in memory of Mr. Craig Dobbin. It will be awarded on an annually rotating basis to students at The Waterford Institute of Technology (WIT) and Memorial University of Newfoundland. In year one, and every alternating year thereafter, the scholarship will be awarded to a recent honors graduate (in the past 2 to 3 years) of one of the undergraduate business programs in the Faculty of Business Administration program or Grenfell Campus, Memorial University of
Newfoundland who is accepted into the Master of Business program, at the Waterford Institute of Technology, Waterford, Ireland. In the event that there is no such candidate, the scholarship will be awarded to two Memorial University of Newfoundland exchange students (undergraduate or graduate) to study (one academic term) at the Waterford Institute of Technology. In year two, and every alternating year thereafter, the scholarship will be awarded to an undergraduate student from the Waterford Institute of Technology who will be selected to attend Memorial University’s Faculty of Business Administration's M.B.A. program. In order for a WIT student to complete the program in one year, they must have an honors undergraduate business degree, or a business degree with significant academic standing. The student must meet Memorial University of Newfoundland’s M.B.A. admission requirements. The student may take two years to complete the degree; however, scholarship funding will be available for one year only. In the event that no such student is selected from the Waterford Institute, then WIT will select a business undergraduate or graduate student to complete a student exchange (one academic term) at the Faculty of Business Administration or Grenfell Campus, Memorial University of Newfoundland. Scholarship recipients will be required to complete and present a report on an aspect of the Ireland Newfoundland Partnership. In the case of Memorial University of Newfoundland undergraduate students, the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Business Administration or the Vice-President of Grenfell Campus. In the case of Memorial University of Newfoundland graduate students, the scholarship will be awarded by the Dean, School of Graduate Studies on the recommendation of the Dean, Faculty of Business Administration.

Dr. Wynanne Downer Bursary for Women
This bursary was established by the Canadian Federation of University Women, Corner Brook Club, in memory of Dr. Wynanne Downer who was a founding member. The bursary, valued at a portion of the income from the endowment, will be made to a female student who graduated from a high school in Newfoundland and Labrador and who is pursuing a degree at Grenfell Campus. Preference will be given to a female student who entered university as a mature student (twenty-one years or older), who is beyond her first year of studies, is in financial need and meets the minimum academic requirements for a bursary. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Scholarship Committee at Grenfell Campus. Applications will be available at Student Services, AS232, Grenfell Campus and/or may be downloaded from the CFUW Corner Brook website.

The Environmental Science Merit Scholarship
One Merit Scholarship, valued at $2,500.00 annually will be awarded to an outstanding student entering the fourth year of the Environmental Science program at Grenfell Campus. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Chair of Environmental Science, Grenfell Campus.

Duncan A. Ferguson Prize in Psychology
This prize was established by family, friends and colleagues in memory of Dr. Duncan A. Ferguson. It will be awarded annually to a student in his/her final year of a Psychology program at Grenfell Campus. The chosen student will have demonstrated strong academic performance and have contributed to the spirit of student life within the Psychology program. This prize, valued at $500, will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Chair, Psychology program, Grenfell Campus; in consultation with the Psychology faculty and the Ferguson family.

The Madeline Fowler Prize in English
This prize, valued at $200.00, is in memory of Madeline Fowler. The prize is normally awarded to a senior student in the B.A. Specialization in English engaged in full-time studies at Grenfell Campus. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Program Chair of English at the Grenfell Campus.

The Dr. G.A. Frecker Memorial Alumni Bursaries
The Memorial University of Newfoundland Alumni Association has established, from its Annual Fund, five bursaries named in honour of the late Dr. G.A. Frecker, Chancellor, Memorial University of Newfoundland, 1971-79, and valued at $500.00 each. Four of the bursaries are tenable at the St. John's campus and one at the Grenfell Campus at Corner Brook. The bursaries will be awarded annually to full-time students in any faculty or year on the basis of academic standing and financial need.

The David Freeman Memorial Scholarship in English
This scholarship honours Dr. David Freeman, a widely admired Grenfell English professor whose scholarship and zest inspired a wide circle of students, friends and colleagues. A well-known scholar of the editing of Renaissance literary texts, Dr. Freeman took his scholarship out of the classroom to deliver a broad range of presentations, public readings and dramatic performances. This scholarship is made possible through the family of Dr. Freeman and the efforts of the English faculty at Grenfell Campus, Memorial University of Newfoundland, and friends of Dr. David Freeman. Valued at a portion of the income on the investment, it will be given annually to an English Major in his/her second year of study pursuing a Bachelor of Arts in English at Grenfell Campus, who meets scholarship standing as defined by the University and shares Dr. Freeman's passion for literature. It will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Scholarship Committee of Grenfell Campus in consultation with the Chair, English.

The Joanne Swan Greenlee Prize in Historical Studies
This prize, valued at $200.00, is in memory of Joanne (Swan) Greenlee, who, for two decades, delighted in the hearty appetites and lively conversation of Grenfell Campus students who gathered to discuss history at her home. It will normally be awarded to a full-time senior student, at Grenfell Campus, majoring in Historical Studies. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Chair, Historical Studies.

Grenfell Campus, Memorial University of Newfoundland and Labrador Residence Scholarship
This scholarship, valued at $500.00, is available to a student who has spent at least two semesters in residence at the Grenfell Campus. Academic performance and contribution to college life will be the main criteria for choosing the recipient. The scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation from the Scholarship Committee at Grenfell Campus.

Grenfell Campus Scholarship Fund
Funds are available for the purpose of providing scholarships to students at Grenfell Campus. The scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Scholarship Committee at the Grenfell Campus. Financial need may be taken into account when making the awards.

The Rufus Guinchard Entrance Scholarship
This scholarship has been established by the Newfoundland government in honour of the late Rufus Guinchard. The award, valued at $2,000.00, is presented annually to a student entering Grenfell Campus, who has demonstrated a commitment to the preservation of Newfoundland heritage and culture. This commitment may be reflected in Newfoundland music, folklore, art or writing. Applicants for the Rufus Guinchard Scholarship should submit, with their application, either a statement of their interests relevant to this scholarship, or a completed piece of work. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards,
based upon the recommendation of the Scholarship Committee at Grenfell Campus.

The Ida Harvey Scholarship
This scholarship, in memory of Ida Harvey, is supported by a fund established in 1988 on the occasion of the opening of the Fine Arts Building. It is awarded on merit to any student in a Bachelor of Fine Arts Program by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Scholarship Committee at Grenfell Campus.

Historical Studies Merit Award
This book prize is awarded to a student who has made an outstanding contribution to the life of the Historical Studies Program at Grenfell Campus. The faculty of that program will fund the prize. It is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Historical Studies Faculty.

The E.J.F. Hodgett Scholarship in Science
This scholarship was established by friends and colleagues of Professor Ferriss Hodgett on the occasion of his retirement, in celebration of his outstanding contributions and service to Memorial University of Newfoundland, and in particular Grenfell Campus. Professor Hodgett, a native of Belfast, in the north of Ireland, served as Vice-Principal of Grenfell College from 1975-1992. This scholarship, valued up to two semesters’ tuition, will be awarded to the student entering second year at Grenfell Campus who has attained scholarship standing and has received the second highest overall average in his/her first year having completed at least four courses in the Natural Sciences. The award shall be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on recommendation of the Scholarship Committee of Grenfell Campus.

The Gervase C. Hollander Prize in Biology
This prize was established in 1982 by Mrs. Hollander in memory of her husband, a former teacher and school supervisor with the Humber-Bay St. George Roman Catholic School Board. Valued at approximately $100.00, it is awarded annually to a second-year student who has completed three or more courses in Biology beyond the first year and who has demonstrated excellence and initiative in both the theoretical and practical aspects of Biology. The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Scholarship Committee of Grenfell Campus in consultation with the Head, Division of Fine Arts.

The Imperial Tobacco Canada Fine Arts Scholarship
This scholarship, established in 1998 by Imperial Tobacco Canada in support of the Opportunity Fund Campaign, has a minimum value of $2,000.00 annually. It will be awarded on the basis of scholarship standing to a full-time student in the Bachelor of Fine Arts who shows promise and plans to continue in the field. It will rotate annually between the disciplines of Visual and Theatre Arts. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Scholarship Committee at Grenfell Campus in conjunction with the Head, Division of Fine Arts.

The F.L. Jackson Award in Philosophy
F.L. Jackson taught Philosophy at Memorial University of Newfoundland for twenty-nine years, for nine years serving as Head of the Department. Professor Jackson conceived the Department of Philosophy as a window on the grand tradition of philosophy, especially for Newfoundlanders, and it is this spirit which animates philosophy at Grenfell Campus. The F.L. Jackson Award will be given to students whose written work is distinguished by its appreciation of the history of philosophy. Generally there will be one award granted per academic year. It will be valued at a minimum of $100 and will be awarded to a student in any year of study. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Scholarship Committee at Grenfell Campus and in consultation with the Philosophy faculty.

The Olof Lindgren Scholarship
This scholarship, the value of which will be determined by the annual interest accrued, is supported by a fund established by Dr. Orvil Olsen, a former Professor of Biology at Grenfell Campus, in memory of his grandfather Olof Lindgren, a Saskatchewan pioneer farmer, who was a firm believer in the value of education as a means of enhancing the quality of life. It is awarded to a student who has completed at least two years at Grenfell Campus and plans to proceed with the full degree on that campus. In awarding the scholarship, preference will be given to a student who has shown an interest in both the natural and physical sciences, and the arts. This award is based upon academic excellence. This scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Scholarship Committee at Grenfell Campus.

The William and Naomi Lundrigan Scholarship
The William and Naomi Lundrigan Scholarship shall be awarded to an entrance student attending Grenfell Campus, Corner Brook. Two scholarships valued at a portion of the income on the endowment will be awarded annually. The recipients must meet the minimum academic requirements for a scholarship as defined by Memorial University of Newfoundland and consideration may be given to financial need. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Scholarship Selection Committee at the Grenfell Campus.

The Kathleen Wagstaff MacCallum Memorial Scholarship
This scholarship, was established by the MacCallum family in honour of their mother, Kathleen. Valued at the annual interest, it will be awarded to a Fine Arts student beyond first year at Grenfell Campus who is specializing in Visual Arts. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Scholarship Committee at Grenfell Campus in consultation with the Head, Division of Fine Arts. Factors such as financial need, family and community involvement, and contribution to the class may also be taken into account.

The Colin Macnee Award for Drawing
This Award, in memory of Colin Macnee (1959-1989) was established by his family as a tribute to his life and work. He is remembered by friends and fellow artists for the unique and positive way he reached out to people as both an individual and an artist. Educated in Britain and Newfoundland, he worked in St. John’s up until the time of his death. Examples of his art can be found in private and public collections, including those of Memorial University of Newfoundland (through MUN Art Gallery) and the Government of Newfoundland and Labrador’s Art Bank. It will be awarded to a student who has completed their first year of the B.F.A. (Visual Arts) program at Grenfell Campus and, in the opinion of the awards committee for visual arts (where possible including a visiting artist), has demonstrated achievement in self-expression through the medium of drawing. The Award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Scholarship Committee at Grenfell Campus.
The Maxim Mazumdar Memorial Scholarship in Theatre
This scholarship is supported by a fund established by Theatre Newfoundland and Labrador in memory of Maxim Mazumdar, founding Artistic Director of T.N.L. It is awarded to a Grenfell Campus student who has completed the first year in the Theatre Degree Program and who has shown the most promise in any area of the Program. This scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Scholarship Committee at Grenfell Campus.

The Dr. M.O. and Grace Morgan Scholarship in Fine Arts
This scholarship is the result of an endowment to Memorial University of Newfoundland from the estate of Dr. and Mrs. Morgan. Valued at a portion of the annual accrued interest, it will be awarded to a Fine Arts student beyond first year at Grenfell Campus. It will rotate annually between Visual Arts and Theatre Arts. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Scholarship Committee at Grenfell Campus in consultation with the Head, Division of Fine Arts.

The Maxwell and Emily Mullett Scholarship
This scholarship is supported by the interest on monies donated by Maxwell and Emily (Wicks) Mullett. It is awarded to a student in the final year of studies in Visual Arts at Grenfell Campus on the basis of achievement and promise. Preference is given to Newfoundland and Labrador students. The scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Scholarship Committee at Grenfell Campus.

The Orvil Olsen Biology Prize
This prize was established to commemorate the tenth anniversary of the opening of Grenfell Campus. It is valued at approximately $100.00 annually. Dr. Olsen taught Biology at the College from its opening until his retirement in 1980. The prize will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Head of Science at Grenfell Campus to an outstanding student of first year Biology.

The Florence O'Neill Scholarships
An endowment donated to the University by Florence O'Neill, Ed.D., C.M., LL.D., honorary graduate of Memorial University of Newfoundland, distinguished for her contribution to the fields of adult education and community development, will fund annual scholarships valued up to $1,000.00 each. These awards will be made available to full-time undergraduate students, preferably to those from rural Newfoundland and Labrador, on the basis of scholarship standing. One shall be given annually to a student attending the Grenfell Campus in any given year.

The Raymond J.G. Pafford (1937-1997) Memorial Scholarship
This scholarship, established in 2000 by Mrs. Rodica Pafford, in memory of her husband Raymond, is valued at the annual interest on an account bearing his name. It will be awarded on the basis of scholarship standing to a full-time student in any year of study of the Bachelor of Fine Arts program who shows promise and plans to continue in the field. It will rotate annually between the disciplines of Theatre Arts and Visual Arts. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Scholarship Committee at Grenfell Campus in consultation with the Head, Division of Fine Arts.

The Palliser Prize in History
This prize is in honour of Captain Hugh Palliser, RN, Governor and Commander-In-Chief at Newfoundland from 1764 until 1768; in 1764 he became the first governor to visit western Newfoundland. It is awarded annually to a full-time student beyond first year who has earned no more than 90 credit hours and has earned the highest cumulative average in at least five History courses. This student would normally be advancing towards a degree or minor in Historical Studies. The prize is valued at $250.00 and will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Scholarship Committee at Grenfell Campus and the members of the Historical Studies program. In the event that no student qualifies in any given year the award will not be given.

The Pausanias Award in Classics for Study Abroad
Named for the second century traveller and geographer, this award is available to students at Grenfell Campus who enroll in field study courses in the culture, history and/or civilization of ancient Greece or Rome. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Scholarship Committee at Grenfell Campus in consultation with the Head, Division of Arts at the Campus.

Al Pittman Harlow Travel Award
The Al Pittman Harlow Travel Award has been established in his memory by Al Pittman's friends and family. Mr. Pittman was one of Newfoundland's most esteemed poets and playwrights and he believed that observing the different helps us to see the familiar in a new light. Therefore, travel, in enabling us to experience a different place, culture and context, has the power to heighten and enhance our perspective of home. The award will go to a student in the fourth year of study in the Theatre Program at Grenfell Campus who best exhibits a passion for and commitment to theatre, as well as an appreciation of place and how physical and cultural landscape can impact perspective, and who meets the minimum academic requirements for an award. The award will be made at the beginning of the semester in which the student is scheduled to depart for England (for approved study at the Harlow campus) and will be valued at a portion of the income on the endowment. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on recommendation of the Program Chair, Theatre and the Scholarship Committee at Grenfell Campus.

The C.F. Poole Scholarship
This scholarship was established from funds donated by friends of Dr. Cyril F. Poole on the occasion of his retirement as Principal of Sir Wilfred Grenfell College. Dr. Poole, a native of Pilley's Island, Notre Dame Bay, was committed to excellence throughout his distinguished career as a university teacher and administrator in several Canadian universities including Sir Wilfred Grenfell College, where he served as Principal from 1977 to 1990. The scholarship honouring his contribution to excellence in education will be awarded annually to a Sir Wilfred Grenfell College student of outstanding academic merit and promise. Valued at approximately $1,000.00, it will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on recommendation from Grenfell Campus.

The James C. Pratt Memorial Scholarship
This scholarship, valued at a minimum of $1000.00, has been established in memory of James C. Pratt by his daughter, Mrs. Daphne L. House. The scholarship is to be awarded annually by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on recommendation of the Program Chair of Visual Arts at Grenfell Campus, to a full-time student in the discipline of Bachelor of Fine Arts (Visual Arts) who shows promise and purpose of continuing in that field.

Prize for Independent Projects in Psychology
This prize has been established by Dr. Thomas Daniels, retired professor in the Psychology program at Grenfell Campus. This annually funded prize will be awarded to the best two poster presentations of independent projects, presented by Grenfell psychology students at the Psychology Student Conference. The first prize will be valued at $200 and the second prize at $100. The prize will be administered by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Chair, Psychology program, at Grenfell Campus.
The Royal Canadian Legion Branch 13 Grenfell Campus Bursary
Established by the Royal Canadian Legion, Branch 13, the bursary will be awarded to an undergraduate student in any program at the Grenfell Campus of Memorial University of Newfoundland. The student must be in financial need and meet the minimum academic requirements for a bursary. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, upon the recommendation of the Scholarships Committee of the Grenfell campus of Memorial University of Newfoundland.

The Francis J. Ryan Memorial Scholarship
This fund was established by the Stewart McKelvey Stirling Scales law firm in memory of their late senior partner Francis J. Ryan. Valued at the annual interest on the endowment, the award will be made to a Fine Arts student specializing in Visual Arts at Grenfell Campus. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Scholarship Committee at Grenfell Campus in consultation with the Head, Division of Fine Arts. Financial need may be taken into account.

The Tommy Sexton Triple Threat Award
This Award has been established by the Tommy Sexton Project Inc., founded by the Sexton family. Tommy Sexton was one of the founding members of the award-winning comedy troupe, CODCO. This Award was established to celebrate and acknowledge his great ability as what is known in business as a Triple Threat. The Award will be valued at a minimum of $500 and presented annually during the spring semi-annual meeting of the Scholarship Committee. Eligible students will be enrolled in the fourth year of the Bachelor of Fine Arts (Theatre) program at Memorial University of Newfoundland, Grenfell Campus. The recipient will have demonstrated exceptional skills in singing, dancing and acting as determined by the Chair and Faculty of the Theatre Program. Recipients must meet the minimum academic requirements for an award as defined by the University. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Scholarship Selection Committee at the Grenfell Campus.

The Geoff Seymour Sr. Memorial Bursary
This bursary was created in memory of Geoff Seymour Sr., a CBC Radio announcer with a true passion for the performing arts who worked with many of the theatre companies across Newfoundland. Valued at $500, it will be awarded on an annually rotating basis to a student at the St. John’s Campus. When awarded to a student at the Grenfell Campus, it will be awarded to a full-time student in the Theatre Program. When awarded to a student at the St. John’s Campus, it will be awarded to a full-time student of Newfoundland and Labrador. Financial need will be considered. Recipients must meet the minimum academic requirements for an award as defined by Memorial University of Newfoundland. Funds will be allocated to students at the same time as application is made to the scholarship. The bursary can only be awarded to a student who has excelled in a number of Mathematics courses. The prize of $200.00 will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, upon the recommendation of the Chair, Theatre, or the Head, Department of English, respectively.

The Short Family Harlow Award
This award was created to assist students to travel to and study at Memorial University of Newfoundland’s Harlow Campus in the United Kingdom. Four awards valued at $1250 each for any program of study will be awarded annually. This award is open to students enrolled at either the St. John's Campus or the Grenfell Campus of Memorial University of Newfoundland. To be eligible, students must be planning to attend the Harlow Campus for at least one full term and must have graduated from a high school in Newfoundland and Labrador. Financial need will be considered. Students must meet the minimum academic requirements for an award as defined by Memorial University of Newfoundland. The application can be made on the student's application for Harlow Campus. Students will be notified if they are successful in their application for this award prior to accepting the placement at Harlow Campus; however, receipt of the award is contingent on acceptance into the program. A faculty nomination letter must accompany the application form. Application forms are available in person or by writing the Scholarships, Bursaries and Awards Office, Room 4018, University Centre, Memorial University of Newfoundland, St. John's, NL, A1C 5S7, or by telephone to (709) 864-3956, or on the Harlow Campus web site at www.mun.ca/harlow. The award will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, upon the recommendation of the Chair, Theatre, or the Head, Department of English, respectively.

The Sisters of Mercy Anniversary Scholarship
This fund was established by the Sisters of Mercy to commemorate the 100th anniversary of the arrival of the sisters on the west coast of Newfoundland in 1893. The Sisters of Mercy, educators in Newfoundland since 1842, have been associated with Memorial University of Newfoundland since the University was established. The scholarship valued at a minimum of $1,000.00 will be awarded annually to a student from Western Northern Newfoundland or Labrador entering Grenfell Campus with full-time status. Academic standing and promise will be the main criteria. Consideration may be given to candidates’ financial circumstances. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, upon the recommendation of the Scholarship Committee at Grenfell Campus.

John A. Snow Prize in Mathematics
This prize, in memory of John A. Snow, will be awarded to a student attending Grenfell Campus beyond their third year of studies, who has excelled in a number of Mathematics courses. The prize of $200.00 will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, in consultation with the Mathematics professors of Grenfell Campus.

The Honourable P. Lloyd and Elizabeth Soper Scholarship
This scholarship is provided from a fund established by the Honourable P. Lloyd and Elizabeth Soper. It will be awarded to a full-time student at the Grenfell Campus who has graduated from a high school in Newfoundland and Labrador. The recipient will have demonstrated financial need and must meet the minimum academic requirements for a bursary at Memorial University of Newfoundland. Financial need may be taken into account.

The Francis J. Ryan Memorial Scholarship
This scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, upon the recommendation of the Scholarship Committee of the Grenfell campus of Memorial University of Newfoundland.

The Sun Life Financial Scholarship in Applications of Technology
This scholarship, established by the Corner Brook and Area Branch of the Alumni Association of Memorial University of Newfoundland, is awarded annually to a student commencing first-year studies in the Visual Arts Program of the Bachelor of Fine Arts at Grenfell Campus. Valued at $500.00, the award is made on the basis of previous academic performance and the quality of the portfolio submission. This scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, upon the recommendation of the Scholarship Committee at Grenfell Campus.
recommendation of the Scholarship Committee at Grenfell Campus.

The Wabush Mines Fine Arts Travel Bursary
These bursaries are the result of an endowment to Memorial University of Newfoundland from Wabush Mines as part of their contribution to The Opportunity Fund. Valued at the annual interest on the endowment, they will support Fine Arts students at Grenfell Campus wishing to travel and gain exposure to Visual and Performing Arts. They will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of academics, financial need and a recommendation from the Scholarship Committee at Grenfell Campus in consultation with the Head, Division of Fine Arts.

The Dr. Harriet Ware Memorial Scholarship in Fine Arts
This scholarship, valued at the annual interest on the initial endowment, is supported by a fund established by Martin Ware in memory of his mother, Dr. Harriet Ware. It will be awarded to a Grenfell Campus student who has completed the third year of a Bachelor of Fine Arts program in Theatre and is continuing in that program. The scholarship will be awarded to a student with scholarship standing who has also maintained at least a 70% average in non-theatre courses in their overall academic performance. Preference may be given to a single parent. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Scholarship Committee at Grenfell Campus.

The Alan and Patricia Wright Psychology Conference Travel Bursary
This award was established by Dr. Sandra Wright in memory of her parents, Alan and Patricia Wright, both former educators who believed strongly in the importance of education. Applications will be available through Psychology Faculty members in January of each year. It will be given annually to a fourth year Psychology major engaged in full-time studies at Grenfell Campus. The purpose of the award is to offset the cost of travel to a Psychology conference (for example APICS, GPA or CSBBS). Funds must be used for travel to and from a conference in the year it is awarded. Valued at $700, one award is available each academic year. Applications will be read and the recipient chosen by Psychology faculty at Grenfell Campus based on academic performance in Psychology courses and the merit of the proposal. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Program Chair, Psychology and the Scholarships Committee at Grenfell Campus.

Dr. James A. Wright Memorial Scholarship
One annually funded scholarship is established by a gift from Leprechaun Resources Ltd. in memory of Dr. James A. Wright, former professor in the Department of Earth Sciences. The scholarship, valued at $1,000, is available to full time undergraduate students in their second year of study at Memorial University of Newfoundland with a preference for students enrolling at Grenfell Campus. To be eligible, students must meet the minimum academic requirements for a scholarship and must have graduated from a high school on the West Coast of Newfoundland, as defined by the University. Preference will be given to students pursuing any area of study within the Faculty of Science or the Faculty of Engineering and Applied Science. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

6 Convocation Awards
Convocation Medals and Awards are given at the Spring Convocation each year however, students who graduated at the previous Fall Convocation will also be considered for these awards. The "scholarship year" shall be defined as "May 1-April 30".

Governor-General's Medals
Two Governor-General's Medals are awarded at Convocation: the Gold Medal to the graduate student who achieves the highest academic standing in his/her Graduate degree program; and the Silver to the undergraduate student obtaining a first degree who stands highest in the graduating class and has an average of first-class standing.

The medal is awarded by the Dean of Graduate Studies to a student graduating at the Master's level who has demonstrated academic excellence in course work throughout his/her graduate program. One medal may be awarded in each academic year.

The University Medal for Excellence in a Thesis Based Master's Program
The medal is awarded by the Dean of Graduate Studies to a Master's candidate who has demonstrated excellence in the production of a thesis. One medal may be awarded in each academic year.

The Advisory Board Chair's Leadership Award
This award, established by the Advisory Board of the Faculty of Business Administration, is to be presented annually to the graduating business student (undergraduate) who has demonstrated the most chairperson-like characteristics through leadership in student affairs and service to the community during his or her university years. The award will be made by the Dean of the Faculty, on the advice of his colleagues and in consultation with the Chair of the Advisory Board.

The Alan and Patricia Wright Psychology Conference Travel Bursary
This award was established by Dr. Sandra Wright in memory of her parents, Alan and Patricia Wright, both former educators who believed strongly in the importance of education. Applications will be available through Psychology Faculty members in January of each year. It will be given annually to a fourth year Psychology major engaged in full-time studies at Grenfell Campus. The purpose of the award is to offset the cost of travel to a Psychology conference (for example APICS, GPA or CSBBS). Funds must be used for travel to and from a conference in the year it is awarded. Valued at $700, one award is available each academic year. Applications will be read and the recipient chosen by Psychology faculty at Grenfell Campus based on academic performance in Psychology courses and the merit of the proposal. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Program Chair, Psychology and the Scholarships Committee at Grenfell Campus.

Dr. James A. Wright Memorial Scholarship
One annually funded scholarship is established by a gift from Leprechaun Resources Ltd. in memory of Dr. James A. Wright, former professor in the Department of Earth Sciences. The scholarship, valued at $1,000, is available to full time undergraduate students in their second year of study at Memorial University of Newfoundland with a preference for students enrolling at Grenfell Campus. To be eligible, students must meet the minimum academic requirements for a scholarship and must have graduated from a high school on the West Coast of Newfoundland, as defined by the University. Preference will be given to students pursuing any area of study within the Faculty of Science or the Faculty of Engineering and Applied Science. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.
The Faculty of Business Administration Advisory Board Bachelor of Business Administration Award for Excellence
This award, established by the Faculty of Business Administration, is to be presented annually to an outstanding student in the graduating class of the Bachelor of Business Administration program. The recipient will be selected based on a combination of academic performance, demonstrated leadership and general contribution within the program, and the University, or the community. This award will be made by the Faculty of Business Administration, on the recommendation of the Dean of Business Administration.

The Faculty of Business Administration Advisory Board B.Comm. (Co-op) Award for Excellence
This award, established by the Faculty of Business Administration, is to be presented annually to an outstanding student in the graduating class of the Bachelor of Commerce (Co-op) program. The recipient will be selected based on a combination of academic performance, demonstrated leadership and general contribution within the program. This award will be made by the Faculty of Business Administration, on the recommendation of the Dean of Business Administration.

The Faculty of Business Administration Advisory Board M.B.A. Award for Excellence
This award, established by the Faculty of Business Administration, is to be presented annually to an outstanding student in the graduating class of the Master of Business Administration program. The recipient will be selected based on recommendations from the Faculty of Business Administration, acting on the advice of the Dean of Business Administration.

Faculty of Business Administration Dean's Award
These awards are made by the Dean of the Faculty, on the advice of his colleagues, to graduating students who have demonstrated academic excellence together with leadership qualities within the Faculty of Business Administration and/or the University.

Faculty of Business Administration Dean's MBA Award
This award is made by the Dean of the Faculty, on the advice of colleagues, to a graduating MBA student in recognition of academic excellence together with demonstrated leadership qualities in graduate student activities and service to the Faculty and/or the University.

The Canadian Association of Geographers (CAG) Award
The Canadian Association of Geographers (CAG) Award is given to the top student graduating with a Bachelor of Geography - Civil, from Memorial University of Newfoundland. This award is made by the Faculty of Business Administration, on the advice of colleagues, to a graduating student who has demonstrated academic excellence together with leadership qualities within the Faculty of Business Administration and/or the University.

The Association of Registered Nurses of Newfoundland and Labrador Award of Excellence in the Bachelor of Nursing (Collaborative) and Bachelor of Nursing (Post-RN) Programs
The Association of Registered Nurses of Newfoundland and Labrador offers a $200.00 Award of Excellence to an outstanding student who has demonstrated excellence in nursing practice. The recipient will be selected based on recommendations from the Faculty of Nursing, on the recommendation of the Dean of Business Administration.

The Austrian Ambassador's Prize
This prize, a book award, is to be awarded annually by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on the recommendation of the Head, Department of German and Russian, to a graduating student who has majored in German Language and Literature and has a consistently good academic record at the University.

The Captain Robert A. Bartlett Science Award
As a spontaneous expression of their admiration and affection for a man who has a lasting place in the history of polar exploration, the Explorers' Club of New York and two kindred organizations - the Wilderness Club of Philadelphia and the Harvard Travellers' Club of Massachusetts - donated a sum of money to this University, as a memorial to Captain Robert A. Bartlett. The University has placed this money in a trust fund, the interest on which is the value of the award. It will be based primarily on academic excellence. Consideration may also be given to the demonstration of a spirit of scientific exploration. The award is made annually to a student graduating in Science, on the recommendation of the President.

The Brepols Book Prize in Medieval Studies
Brepols Publishing, Turnhout, Belgium, an international academic publisher with a very strong interest in medieval studies, has agreed to donate a prize consisting of a book in their current catalogue, to be awarded each year to the top student graduating with Medieval Studies as a second major. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on the recommendation of the Co-ordinator of Medieval Studies. If in any year there is no outstanding candidate in the opinion of the Co-ordinator, it will not be awarded.

The Reginald H. Brown Q.C. Memorial Scholarship
The Reginald H. Brown Q.C. Memorial Scholarship is established at Memorial University of Newfoundland in memory of Reginald H. Brown, K. St. J., Q.C., through generous lead donations by Pamela Brown and Reg's colleagues at Cox & Palmer. Described as a "lawyer's lawyer", Reg Brown was a loyal friend and colleague who combined a very challenging and successful litigation practice with the leadership of his law firm as managing partner of Cox & Palmer, an Atlantic Canadian law firm established only two weeks before his death in early 2007. Reg balanced his demanding professional life and leadership in service of his profession and the community with the philosophy that family came first. The Reginald H. Brown Q.C. Memorial Scholarship is to be awarded at convocation to a student graduating from any area of study and accepted at law school. Selection will be made on the basis of academic excellence (with a minimum of scholarship standing) and demonstrated leadership qualities as epitomized by Reg in charitable, athletic, artistic or political endeavors, whether in student life or in the community at large. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

Dick Buehler Award in Theatre
This award is given to a student, at Spring Convocation, who has successfully completed all the Theatre courses or the requirements for the Diploma in Performance and Communications Media who will continue their training at an institution of higher learning or as an apprentice to an approved professional theatre or film company. Preference will be given to a student whose primary interest is in technical theatre. It will be awarded by the Faculty of Business Administration, on the recommendation of the Co-ordinator, Diploma in Performance and Communications Media.

The Faculty of Business Administration Advisory Board Bachelor of Business Administration Award for Excellence
This award, established by the Faculty of Business Administration, is to be presented annually to an outstanding student in the graduating class of the Bachelor of Business Administration program. The recipient will be selected based on a combination of academic performance, leadership and general contribution within the program, and the University, or the community. This award will be made by the Faculty of Business Administration, on the recommendation of the Dean of Business Administration.

The Faculty of Business Administration Advisory Board B.Comm. (Co-op) Award for Excellence
This award, established by the Faculty of Business Administration, is to be presented annually to an outstanding student in the graduating class of the Bachelor of Commerce (Co-op) program. The recipient will be selected based on a combination of academic performance, leadership and general contribution within the program. This award will be made by the Faculty of Business Administration, on the recommendation of the Dean of Business Administration.

The Faculty of Business Administration Advisory Board M.B.A. Award for Excellence
This award, established by the Faculty of Business Administration, is to be presented annually to an outstanding student in the graduating class of the Master of Business Administration program. The recipient will be selected based on a combination of academic performance, leadership and general contribution within the program. This award will be made by the Faculty of Business Administration, on the recommendation of the Dean of Business Administration.

The Canadian Society for Civil Engineering, CSCE, Newfoundland Section Convocation Award
Each year the local section of the Canadian Society for Civil Engineering awards a prize which consists of a certificate and $200.00 cash to the top student graduating with a Bachelor of Engineering - Civil, from Memorial University of Newfoundland. The successful candidate will have demonstrated commitment, dedication and consistent performance in academic as well as work terms. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on the recommendation of the Dean of Business Administration.
The Canadian Society of Mechanical Engineering Medal for Academic Excellence
Each year the Canadian Society of Mechanical Engineering awards a medal and certificate for outstanding achievement to a graduating student in the baccalaureate program in Mechanical Engineering who also demonstrates commitment, dedication and consistent performance in academic as well as work terms. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, Faculty of Engineering and Applied Science.

The Chancellor’s Graduate Award
The Chancellor’s Graduate Award is given at Convocation to the student of the graduating class who has demonstrated the greatest leadership contribution to undergraduate student life and other areas of the community during his or her university years. It is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on a recommendation from the President in consultation with the Deputy Provost (Students) and Associate Vice-President (Academic) Undergraduate Studies and the Dean, School of Graduate Studies.

The Chancellor’s Undergraduate Award
The Chancellor’s Undergraduate Award is given at Convocation to the student of the graduating class who has demonstrated the greatest leadership contribution to undergraduate student life and other areas of the community during his or her university years. It is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on a recommendation from the President in consultation with the Deputy Provost (Students) and Associate Vice-President (Academic) Undergraduate Studies.

It provides an award of $2,500.00 to the student who has contributed significantly to undergraduate student life and other areas of the community during his or her university years. It is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, School of Graduate Studies.

The Holy Heart of Mary Legacy Convocation Award
The Holy Heart of Mary Legacy Convocation Award was established in celebration of the 50th anniversary of the opening of Holy Heart of Mary High School in 1958. The fund was created with the generous support of the Alumni of that school to celebrate the legacy of excellence in leadership established by the school’s founders the Sisters of Mercy and the Presentation Sisters. Valued at a portion of the income from the endowment it will be awarded at the Fall Convocation to a student graduating with a bachelor of Education (Intermediate/Secondary) who excelled academically as well as in the internship. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Education.

The A.C. Hunter Prize in English
The A.C. Hunter Prize in English, established by the late Mrs. A.C. Hunter in memory of her husband, formerly Head of the Departments of English and French, and Dean of Arts and Science at this University, has a value of $100.00 and is awarded annually at the Spring Convocation to the graduating student majoring in English who stands highest in the General Degree program. The prize is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Department of English Language and Literature.

The IEEE Newfoundland and Labrador Section Award
This award, which consists of a certificate and cash prize, is presented at the Spring Convocation to a graduating student in the Faculty of Engineering and Applied Science (Electrical and Computer Engineering Program) who has had a consistently good academic record.
in the professional courses required for the degree and who has made a significant contribution to the Faculty and to the IEEE student branch. It is awarded annually by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Engineering and Applied Science.

The Helen Jones Convocation Award for Excellence in English
This convocation award was established by her loving husband and colleague in memory of Professor Helen Jones, an inspiring and supportive teacher in the Department of English Language and Literature. Valued at a portion of the income from the endowment, it will be awarded annually to a student who is graduating with a B.A., honours or general degree, with a major in English, who has achieved the highest average mark in their English courses. In the event of more than one student sharing the highest mark, the award will be made to the student who has completed the largest number of English courses. The award will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Head, Department of English Language and Literature.

Margaret Waterman Kelly Teaching Prize
This prize, valued at $500, is named in memory of Margaret Waterman Kelly, a teacher in pre-Confederation Newfoundland whose life exemplified the highest ideals of education and volunteerism. This prize was established by her daughter, Ursula Kelly, to commemorate this lifework. The prize will be awarded to a female student from Newfoundland and Labrador, enrolled in the Faculty of Education who, upon completion with a Bachelor’s degree in Education (Primary, Elementary or Secondary), has demonstrated excellence in teaching combined with commitment to community service. The Prize will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on the recommendation of the Dean, Faculty of Education.

The William J. May Prize in Post-Secondary Studies (Undergraduate)
This prize, valued at a portion of the annual income on the endowment, was established by friends and family of the late Mr. William J. May. Mr. May was Director of Technical and Vocational Education for the province for a number of years and received an Honorary Doctorate from Memorial University of Newfoundland for his contributions to that field. The prize will also consist of a small certificate suitable for framing and will be awarded to the undergraduate student of the graduating class who receives the Medal of Excellence for Post-Secondary Studies (formerly Vocational Education) in his/her graduating year. In a year when there is no suitable candidate it will not be awarded. The prize will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Education.

The MBA Award for Academic Excellence
This award is to be presented annually to the student in the graduating class of the MBA program who achieves the highest academic standing.

The Memorial University of Newfoundland English Student Society (MESS) Award
This award was established in 2000 as a result of funds raised by the Memorial University English Students' Society (MESS) and the Faculty of the Department of English Language and Literature. The MESS Award recognizes the outstanding contribution to student life at Memorial University of Newfoundland made by the Memorial English Students' Society. It will be awarded annually at the Spring Convocation to one or more graduating English Honours or Major students who have consistently good academic records and who have made outstanding contributions to student life. The award will be valued at the annual interest on the endowment and will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of English Language and Literature.

The MER Award for Academic Excellence
This award is to be presented annually to the student in the graduating class of the MER program who achieves the highest academic standing, with the provision that the student must obtain an A average in their MER.

The Grace Morgan Prize in Biochemistry (Nutrition)
This prize is for the student graduating in honors Biochemistry (Nutrition) with the highest standing. The recipient must have obtained an overall average of at least 75%, completed the course program in the normal number of years and be recommended to the Senate Committee on Undergraduate Scholarships, Bursaries and Awards by the Head, Department of Biochemistry.

The Margaret Fitzpatrick Morgan Medal in Nursing
This award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Nursing, Memorial University of Newfoundland.

The Harvey and Doris Murcell Scholarship in Religious Studies
This scholarship, donated to the University by Doris and the late Harvey Murcell of Harbour Grace, and valued at $500.00, is awarded to a graduating student majoring in Religious Studies. To be eligible for the award, a student must have scholarship standing. Financial need, and the student's contribution to the Department of Religious Studies, may be considered. The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of Religious Studies.

Newfoundland & Labrador Association of Social Workers' Student Award
The Newfoundland and Labrador Branch of the Canadian Association of Social Workers makes this award annually to a graduating B.S.W. student selected by the Association in consultation with the School of Social Work.

The Newfoundland & Labrador Teachers' Association Medal
This medal is awarded to a graduating student in Education who has had a consistently good academic record in the professional courses required for the degree and who has made an outstanding contribution to the Faculty of Education and to the University.

Professional Engineers and Geoscientists Newfoundland and Labrador Anniversary Award
The Professional Engineers and Geoscientists Newfoundland and Labrador offers an Award in the Faculty of Engineering and Applied Science to mark the occasion of fifty years of Engineering education at Memorial University of Newfoundland. The award, to be tenable by a student in each year's graduating class, is to be awarded on the following conditions:

a. high academic standing;

b. outstanding leadership qualities;

c. involvement in extracurricular activities;

d. all-round contribution.

The selection of the winner is to be based on the recommendation of a Selection Committee within the Faculty.

The Professional Engineers and Geoscientists Newfoundland and Labrador has established an "Award for Excellence", which may be made to a student at Memorial University of Newfoundland who obtains an Engineering degree in not more than eight consecutive academic terms and who has completed the prescribed courses with the highest average mark in all the courses. This award takes the...
### Professional Engineers and Geoscientists Newfoundland and Labrador Award for Excellence in Geoscience

The Professional Engineers and Geoscientists Newfoundland and Labrador have established an award for excellence in Geoscience which shall be awarded to the graduating student at Memorial University of Newfoundland who has shown the highest degree of academic excellence during his/her geoscience education. It takes the form of a framed “Award for Excellence” which is engraved and presented by PEGNL on or about the time of convocation. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Head, Department of Earth Sciences.

### The Prize of the Ambassador of the Federal Republic of Germany

This prize, a book award, the gift of the Ambassador of the Federal Republic of Germany in Canada, is to be awarded annually by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of German and Russian, to a graduating student who has majored in German Language and Literature and has a consistently good academic record at the University.

### Mrs. James and Leslie Rourke Dean's Convocation Award in Medicine

This award has been established by a generous donation from Dr. James Rourke, who started as Dean of Medicine in 2004, and Dr. Leslie Rourke. The award recipient will be the graduating medical student who has made an outstanding personal contribution to bettering the lives of others through volunteer work and humanitarian acts while maintaining high academic standing. Consideration will be given to students who have exhibited the following characteristics: altruism, kindness and compassion. The award, valued at a portion of the income on the investment, is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Medicine. The Office of Student Affairs of the Faculty of Medicine will assist the Dean in his or her choice of an appropriate candidate.

### The Society of Chemical Industry Merit Award

This student graduating in Honours Chemistry and Biochemistry with the highest standing will receive a suitably engraved gold key and a year’s Subscription to Chemistry and Industry. The recipient must have obtained an overall average of at least 75%, completed the course program in the normal number of years, and be recommended to the Senate Committee on Undergraduate Scholarships, Bursaries and Awards by the Heads, Department of Chemistry and Biochemistry.

### The Swiss Ambassador's Prize

This Prize, the gift of the Ambassador of Spain to Canada, is a book award made at Convocation to an outstanding graduate whose major or minor was Spanish. The award is made on the recommendation of the Head of the Department of French and Spanish.

### The George M. Story Convocation Medal in Arts

This award was established in memory of Dr. George M. Story, Professor Emeritus of Memorial University of Newfoundland. The medal and a $100.00 prize are awarded to the student graduating with a Bachelor of Arts who has demonstrated, as did Dr. Story, both academic excellence and a strong commitment to serving the University and the community. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean of Arts.

### The Leslie Thoms Convocation Award

This award, valued at the interest on an endowment, was provided by friends and family of the late Mr. Thoms. It will be awarded at convocation to the undergraduate student of the graduating class who has shown positive, outstanding leadership in student affairs and activities during his or her university career while carrying a full-time course load for the majority of their undergraduate studies and maintaining good academic standing. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Deputy Provost (Students) and Associate Vice-President (Academic) Undergraduate Studies.

### The Moire A. Wadleigh Graduate Award for Excellence in Environmental Science

This award for graduate students in the Environmental Science Program was established in memory of Dr. Moire A. Wadleigh, friend and colleague, caring teacher, dedicated scientist and beacon of excellence in Environmental Science and Geoscience. Two awards will be presented annually: one to the student completing the best Master of Science thesis in Environmental Science within the previous 12 months, the second to the student in the Master of Environmental Science program with the best project and report completed in that year. Successful students must have achieved an average of at least 80% in courses required for the program. Awards will be made by the Dean of Graduate Studies upon recommendation of the Board of Studies of the Graduate Program in Environmental Science.

### The Dr. James L. Walker Convocation Award

This award was established in memory of Dr. James L. Walker, a Brandon University department head, psychology professor and research consultant whose innovative teaching, socially relevant research and integration of research into treatment programs for Alzheimer's patients transformed the lives of students, colleagues and patients. Valued at $1,000. It will be awarded at convocation to a graduating undergraduate student in the Psychology honors program who has demonstrated both academic excellence (a minimum of clear standing) and leadership within their community. The award will be conferred by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Head, Department of Psychology.

### The Captain George C. Whiteley English Prize

This prize is the gift of Mr. George C. Whiteley, Jr., a student of Memorial University College, 1926-27, in memory of his father, the late Captain George C. Whiteley. The prize, of the value of $100.00, is awarded annually by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of English Language and Literature, to the student who graduates with B.A.(Hons.) in English with the highest standing. In the event that at any convocation there is no Honours graduate in English, the prize may be awarded to a graduating student of outstanding academic merit and promise in the General Degree program who is selected and recommended for the award by the Department of English. Other things being equal, the prize will be awarded to a student who has produced original work of literary merit.
7 Scholarships, Bursaries, and Awards Available for Undergraduate Students for Study Outside Newfoundland and Labrador

The Gordon Billard Award in Education
A donation has been made to Memorial University of Newfoundland by Mr. Gordon Billard for the purpose of establishing a fund to provide financial assistance to Education students who live at the University's Harlow campus while undertaking approved studies in Great Britain. The award is intended to enhance the student's educational experience in Britain. Its value will be based on the annual interest on the fund. It will be awarded during the Spring Semester by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, Faculty of Education. Academic achievement and financial need will be considered.

The Coca-Cola Scholarship for International Studies
This scholarship, valued at the annual interest on its endowment, has been established from contributions to the University's Opportunity Fund Campaign by The Coca-Cola Foundation. It will be awarded to a student who has completed at least two years of a degree program at Memorial University of Newfoundland and who has been accepted to attend a recognized university outside Canada for one or two semesters of study for transfer credit to Memorial University of Newfoundland towards completion of his/her undergraduate degree.

The Sylvia Dawson Education Award
This annually funded award has been established by a former student of Sylvia Dawson for a period of five years. Sylvia Dawson was a dedicated educator who loved teaching. Valued at $250 per year, the award is available to an intern in the Faculty of Education who has been selected to travel to Harlow England. Preference will be given to a student who has graduated from high school in Bay Roberts. In the event no student meets this criteria preference will be given to a student who has graduated from high school in Newfoundland and Labrador. The award will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, upon the recommendation of the Dean of the Faculty of Education.

Paddy Dobbin Scholarship in the Faculty of Business Administration
The Paddy Dobbin Scholarship is endowed through a gift from the Dobbin family members (children and grandchildren) in memory of Paddy Dobbin, a St. John's native who married Rita Power on March 17, 1929. From his early life Paddy demonstrated a strong entrepreneurial spirit, a man not afraid of hard work or taking risks. He instilled these qualities in his eleven children. Paddy guided with much love and a spirit that anything was possible. Through example, he taught his children never to fear challenges, feeling there was always something to be learned. The scholarship is open to undergraduate students of scholarship standing, enrolled in the Faculty of Business Administration in the International Bachelor of Business Administration (iBBA) program, who have been accepted for, but not yet undertaken, the study abroad component of their program. Preference will be given to students who have been active in extracurricular activities at Memorial University of Newfoundland and/or in the community. The scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Business Administration.

The Sylvia Dawson Education Award
These awards are made possible each year by the generous donations of alumni and friends to the Faculty of Arts Annual Fund. Valued at a minimum of $500 they will be granted annually to undergraduate students enrolled in a Faculty of Arts program. First preference is for students enrolled in a study abroad program within the Faculty of Arts. The recipients must meet the minimum academic requirements for an award as defined by Memorial University of Newfoundland and the number of awards available annually will be at the discretion of the Dean, Faculty of Arts. The awards be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Arts.

The Harlow Development Corporation Scholarship Trust
The Harlow Development Corporation, Harlow, England, has made a grant to establish a scholarship fund to financially assist students from Memorial University of Newfoundland who wish to live at the University's Harlow campus while undertaking approved studies in Great Britain. The fund will also provide scholarships to students who are residents of Harlow and who wish to study at Memorial University of Newfoundland, or some other institute of learning, in Newfoundland. It is hoped that interest on the fund will finance five or six annual scholarships at $250 each. The online application can be found at www.mun.ca/scholarships/scholarships/Harlow.php

Harlow Travel Awards
A number of travel awards, each valued at a maximum of £250 will be awarded to full-time undergraduate students registered at the Harlow Campus in a Memorial University of Newfoundland approved program. One of the Harlow Travel awards will be named for Prudence and David Wright in recognition of the late Prudence Wright and her husband David Wright as a founding trustee of the Harlow Campus and Harlow Scholarship Trusts. Another award will be named for Ken Archer to recognize his many years of service as a trustee of the Harlow Campus and Harlow Scholarship Trusts. Preference will be given to students who are permanent residents of the province of Newfoundland and Labrador and are attending the Harlow Campus for a minimum of six consecutive weeks residing on the Campus for the duration of the award. Eligibility for these awards requires a minimum of clear academic standing in the previous scholarship year. The awards will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Harlow Scholarship Trustees. Application forms are available in person or by writing the Scholarships, Bursaries and Awards Office, Room 4018, University Centre, Memorial University of Newfoundland, St. John's, NL, A1C 5S7, or by telephone to (709) 864-3956, or on the Harlow Campus web site at www.mun.ca/harlow.

The Ann Elizabeth Crosbie (Perlin) Harvey Memorial Scholarship
This scholarship, valued at the interest on an endowment, was established by The Perlin Family Trust to assist undergraduate students from Memorial University of Newfoundland who wish to pursue their studies at the Harlow Campus in Harlow, England. It will be awarded on the basis of scholarship standing with preference being given to students studying Theatre, and/or Drama Studies. The online application can be found at www.mun.ca/scholarships/scholarships/Harlow.php.

The Elizabeth C. Hesson Memorial Scholarship in German
This scholarship was established in memory of Dr. Elizabeth C. Hesson, Head of the Department of German and Russian from 1986 to 1989 and a member of that Department from 1969 to 1989, through the generosity of her family, colleagues and friends. The scholarship has a value of $1,000.00, and is normally awarded to a German major who has completed at least the second year of study at Memorial University of Newfoundland and who has demonstrated a high level of academic performance in German. The scholarship shall be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Head, Department of German and Russian, and is designed to assist the student to undertake a program of German studies in Germany or Europe. In addition to academic excellence, financial need may be taken into account. This scholarship will not necessarily be awarded every academic year.

The A.C. Hunter Travel Award in French
This award has a value of not less than $600.00 and is awarded annually. It has been established in memory of Dean A.C. Hunter through the generosity of Mrs. Hunter, the Provincial Government of Newfoundland, the Board of Regents of Memorial University of Newfoundland, the College of the Holy Cross, and the French Speaking Students Association of Memorial University of Newfoundland. The award is available to a student who has lived in France for a period of at least five years, has achieved a high level of academic standing, and has strong interest in French language and culture. The award is open to undergraduate students enrolled in the Faculty of Arts. Preference will be given to students with extracurricular activities in French or who have been selected to travel to France. The application can be found at www.mun.ca/scholarships/scholarships/French.php.
Newfoundland and Dean Hunter's former students and friends. The award shall take the form of a travel grant to a student, in second year or beyond, majoring or minoring in French who wishes to pursue a program of study of one or more semesters' duration, in French language, literature or culture, at a recognized institution in metropolitan France. Eligibility for this award requires a minimum of clear academic standing (as defined by the University) in the previous scholarship year. The award shall be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on the recommendation of the Department of French and Spanish.

The Muriel H. Hunter Award in Spanish
This award, valued at $600.00, is awarded out of income derived from a bequest to the University by the late Mrs. Muriel H. Hunter, wife of the late Dr. A.C. Hunter and former Lecturer in Spanish at the Memorial University College. The award shall take the form of a travel grant to a student, in second year or beyond, majoring or minoring in Spanish who wishes to pursue a program of study of one or more semesters' duration, in Spanish or Spanish-American language, literature or culture, at a recognized institution in metropolitan Spain or Latin America. Eligibility for this award requires a minimum of clear academic standing (as defined by the University) in the previous scholarship year. The award shall be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on the recommendation of the Department of French and Spanish.

The H.H. Jackson Travel Scholarship in German
This scholarship was established upon the retirement of Dr. Herbert H. Jackson, Professor Emeritus and first Head of the Department of German and Russian from 1967 to 1980, through the generosity of his colleagues and students. The scholarship has a minimum value of $500.00 and is awarded annually by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, upon the recommendation of the Head of Department, to a candidate who has completed at least the second year of study at Memorial University of Newfoundland, has demonstrated a high level of academic performance in German, and is planning to undertake a program of studies and/or work assignment in a German-speaking country.

The Linfield Award
This award was created to assist students to travel to and study at Memorial University of Newfoundland's Harlow Campus in the United Kingdom. Four awards valued at $1000 each will be awarded annually to students in any program of study. This award is open to students who will travel at either the St. John's Campus or the Grenfell Campus of Memorial University of Newfoundland. To be eligible, students must be planning to attend the Harlow Campus for at least one full term and must have graduated from a high school in Newfoundland and Labrador that is located outside of the St. John's metro area. Financial need will be considered. Recipients must meet the minimum academic requirements for an award as defined by the University. Application for this award can be made at the same time as application is made to the program at the Harlow Campus. Students will be notified if they are successful in their application for the award prior to accepting the placement at Harlow Campus; however, receipt of the award is contingent on acceptance into the program. A faculty nomination form must accompany the award application form. Application forms are available online via the Scholarships Office website at www.mun.ca/scholarships or on the Harlow Campus website at www.mun.ca/harlow. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Harlow Scholarship Committee.

The Arthur and Sonia May Scholarship
The scholarship, valued at $5,000, has been established by Arthur and Sonia May on the occasion of the University's 50th Anniversary as a degree granting institution, and in gratitude for the outstanding experience they enjoyed as students. It will be awarded to a student who has completed at least two years of a degree program at Memorial University of Newfoundland and who has been accepted to attend a recognized university outside Canada for transfer credit to Memorial University of Newfoundland towards completion of his/her undergraduate degree. Applications may be made to the Scholarships, Bursaries and Awards Office, Room 4018, University Centre on or before March 31.

The Dr. M.O. and Grace Morgan Harlow Bursary
This bursary, valued at a portion of the annual accrued interest on an endowment to Memorial University of Newfoundland from the estate of Dr. and Mrs. Morgan, was established to encourage and assist undergraduate students to attend the University's Harlow Campus. It is open to full-time Memorial University of Newfoundland students attending the Harlow Campus. Up to three bursaries of equal value will be awarded annually to two students in the Faculty of Education (one each in the Spring and Fall semesters) and one to a student in any field of study (in the Winter semester). Bursaries are awarded in Fall and Spring will be based on a recommendation from the Dean, Faculty of Education. Bursaries will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Financial Aid. An application is required to identify those students planning to attend Harlow in the winter semester only and may be obtained online at www.mun.ca/scholarships/scholarships/Harlow.php.

The Patti Lynn Noonan Memorial Harlow Travel Bursary
This Bursary, valued at a portion of the income from the endowment, is established in memory of Patti Lynn Noonan by her family. Patti-Lynn's motto was "Live life to the fullest and appreciate it and always tell the people you love that you love them". Patti Lynn will always be remembered for her smile, her laughter, her love of life, her devotion to family, friends and the students in her care, her courage and her determination. Patti Lynn's experience at Harlow was a highlight of her time at Memorial University of Newfoundland. The purpose of the Bursary is to enable the recipient to travel outside of Harlow while studying at Memorial University of Newfoundland's Harlow campus. To be eligible, students must have demonstrated financial need, be in good academic standing, and be accepted to study at the Harlow campus. Preference will be given to students enrolled in the Faculty of Education. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on the recommendation of the Dean of the Faculty of Education.

The Pensent Family Harlow Travel Award
This annual award has been established by the Pensent Family for a period of five years. Valued at $1000 per year this award is available to a Faculty of Education Intern who has been selected to travel to Harlow, England and has achieved scholarship standing. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean of the Faculty of Education.

The Al Pittman Harlow Travel Award
This scholarship is endowed through a gift from Marg Pynn, family, and friends in memory of Gar Pynn, past director and faculty member
of the Faculty of Business Administration. Eligible candidates must be full-time undergraduate students in the Faculty of Business Administration, and have scholarship standing. Preference will be given to students applying to complete an academic term at Memorial University of Newfoundland's Harlow Campus. The scholarship, valued at a portion of the income on the investment, will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Business Administration.

The Rhodes Scholarship
A Rhodes Scholarship is tenable at the University of Oxford and may be held for three years. Since, however, the majority of Rhodes Scholars obtain standing which enables them to take a degree in two years, appointments are made for two years in the first instance. Scholars may, however, hold the Scholarship for only 1 year. Those Scholars who elect to read for a D.Phil. at the time of admission may apply for a third year on stipend. The Rhodes Scholarship must present a definite plan of study for that period satisfactory to his/her College and to the Rhodes Trustees. A Rhodes Scholar may apply to any one of the courses of study available at the University of Oxford, subject to the consent of the college or, in the case of graduate study, the relevant faculty or department.

The stipend of a Rhodes Scholarship consists of a direct payment to the University and to the Scholar's College of approved fees (such as matriculation, tuition, laboratory fees, and certain other set charges), plus a maintenance allowance, which is paid directly to the Scholar. In addition of at least £3,480 per annum to cover all other expenses. The sum provided should be sufficient to enable a Scholar to meet the necessary expenses for term-time and vacations, but those who can afford to supplement it to a modest extent from their own resources are advised to do so. Reasonable travel expenses to and from Oxford will be paid by the Trust. Application forms containing full particulars can be obtained from the Secretary of the Selection Committee for the Province of Newfoundland or from the Scholarships, Bursaries and Awards Office at Memorial University of Newfoundland. Inquiries may be directed in writing to the Secretary of the Selection Committee to Dr. S. Ann Colbourne, 88 Hugh's Pond Road, Portugal Cove-St. Philips, NL, A1M 2C6, by telephone to (709) 777-5219, by fax to (709) 777-5849, or email to acolbourne@mun.ca.

Dr. Edmund de Rothschild Harlow Travel Bursary
This bursary was established to enhance the student’s educational experience while studying at Memorial University of Newfoundland’s Harlow Campus, by providing funds to defray cost of travel and field work. Travel bursaries valued at a portion of the accrued interest on the endowment to a maximum of £250.00 will be awarded to full-time, undergraduate students registered at the Harlow Campus in a program approved by Memorial University of Newfoundland. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships and Financial Aid and will be based on need. Eligibility for a bursary requires a minimum overall cumulative GPA of 2. Applicants may be asked to provide a letter of recommendation from a faculty member, including confirmation that the travel is in support of the approved program. If required, the Scholarships and Awards Office will follow-up with applicants as needed.

The Scotiabank Bursaries for International Study
These bursaries, funded by a generous donation from Scotiabank to The Opportunity Fund, are intended to help students broaden their educational experience and cultivate an international perspective through study abroad while pursuing studies in the Faculty of Arts at Memorial University of Newfoundland. Fifteen or more bursaries will be available with approximately ten at the undergraduate level valued at $1,000.00 each and five at the graduate level valued at $2,000.00 each. The undergraduate bursaries will be awarded on the basis of scholarship standing to full-time students who are participating in one of the overseas Field Schools or study abroad opportunities sponsored by the Faculty of Arts. These include the Arts semester in Harlow (every Fall) as well as Summer programs at Harlow and in other countries such as Ireland, Malta, Russia, etc. In addition, students wishing to participate in formal exchange programs through the faculty of Arts, such as those with the University of Keele, will also qualify. The graduate bursaries will be based on academics as well and will assist full-time Faculty of Arts master’s and doctoral students (including those in interdisciplinary programs) to travel to other countries for the purpose of thesis research and thesis-related study. In both cases financial need may be taken into consideration. In the case of undergraduates the bursaries will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. In the case of graduates they will be awarded by the Dean, School of Graduate Studies. In both cases the bursaries will be awarded on the basis of a recommendation from the Dean, Faculty of Arts.

The Short Family Harlow Award
This award was created to assist students to travel to and study at Memorial University of Newfoundland’s Harlow Campus in the United Kingdom. Four awards valued at £1250 each for any program of study will be awarded annually. This award is open to students enrolled at either the St. John’s Campus or the Grenfell Campus of Memorial University of Newfoundland. To be eligible, students must be planning to attend the Harlow Campus for at least one full term and must have graduated from a high school in Newfoundland and Labrador. Financial need will be considered. Recipients must meet the minimum academic requirements for an award as defined by the University. Application for this award can be made at the same time as application is made to the program at the Harlow Campus. Students will be notified if they are successful in their application for this award prior to accepting the placement at Harlow Campus; however, receipt of the award is contingent on acceptance into the program. A faculty nomination letter must accompany the award application form. Application forms are available in person or by writing the Scholarships, Bursaries and Awards Office, Room 4018, University Centre, Memorial University of Newfoundland, St. John’s, NL, A1C 5S7, or by telephone to (709) 864-3956, or on the Harlow Campus web site at www.mun.ca/harlow. The award will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Harlow Scholarship Committee.

8 Government of Newfoundland and Labrador Scholarships

8.1 For Students Graduating From High School
The following scholarships are made available by the Government of Newfoundland and Labrador and are awarded by the Minister of Education to high school students in the province. They are based on the Department of Education scholarship score which is derived from the results of public exams. In excess of 200 scholarships are awarded each year.

a. The Junior Jubilee Scholarship
This scholarship has a value of $2,500.00. It is awarded annually to the high school graduate who achieves the highest Department of Education scholarship score.

b. The Electoral District Scholarships
These scholarships, valued at $1,000.00 each, are awarded annually to the three high school graduates in each electoral district who achieves the highest Department of Education scholarship score.

c. The Centenary of Responsible Government Scholarships
Fifty-five scholarships, valued at $1,000.00 each, are awarded to high school graduates based on the Department of Education scholarship score provided they have not already been awarded another government scholarship.

d. Constable W.C. Moss Scholarship
This scholarship has a value of $1,000.00. It is awarded annually to a son or daughter of a member of the Royal Newfoundland Constabulary, or of the Royal Canadian Mounted Police (active, retired or deceased), who achieves the highest Department of
Education scholarship score. The Constable W.C. Moss Scholarship requires an application which is available from high school principals.

8.2 For Undergraduate Students in Attendance at Memorial University of Newfoundland

a. The Centenary of Responsible Government Scholarships
   The Government of Newfoundland and Labrador provides these scholarships, valued at $1,000.00 each, to students pursuing an undergraduate program of study. These scholarships are awarded by the Minister of Education on the recommendation of the Senate Committee on Undergraduate Scholarships, Bursaries and Awards at Memorial University of Newfoundland. They are awarded on the basis of scholarship standing and no application is necessary.

b. The Senior Jubilee Scholarship
   The Senior Jubilee Scholarship, valued at $3,000.00, is provided by the Government of Newfoundland and Labrador. It is awarded annually by the Minister of Education on the recommendation of the Senate Committee on Undergraduate Scholarships, Bursaries and Awards at Memorial University of Newfoundland, to the student at the University who attains the highest average in the courses completed during the first two semesters of their second academic year. No application is necessary.

c. The Doctor Arthur Barnes Scholarship
   The Doctor William W. Blackall Scholarship
   The Doctor Vincent P. Burke Scholarship
   The Reverend Doctor Levi Curtis Scholarship
   The Ronald K. Kennedy Scholarship
   These scholarships, valued at $1,200.00 each, are provided by the Government of Newfoundland and Labrador. They are awarded annually by the Minister of Education on the recommendation of the Senate Committee on Undergraduate Scholarships, Bursaries and Awards at Memorial University of Newfoundland, to students who have completed two years of a degree program at the University. They are awarded on the basis of scholarship standing and no application is necessary. Normally these scholarships are tenable at Memorial University of Newfoundland but in special circumstances may be held elsewhere.

The values of the above awards are subject to change.

9 Scholarship, Bursaries, and Awards Administered By Other Authorities

Association of Registered Nurses of Newfoundland and Labrador Education and Research Trust
   The AARNL Education and Research Trust has established a scholarship and bursary program for students enrolled in a Bachelor of Nursing Program at Newfoundland and Labrador School of Nursing, and for Registered Nurses pursuing continuing education at the baccalaureate, master and doctorate levels. The awards range in value from $500 to $2000. Information and application forms may be obtained from the Education and Research Trust website www.arlnl.ca or by contacting the Trust at trust@arlnl.ca. The deadline for application is October 15.

The Baxter Corporation - Jean Goodwill Scholarship
   Two $5,000 scholarships sponsored by Baxter Corporation, are awarded annually, and are administered by the Association of Indian and Inuit Nurses of Canada. The aim of the scholarships is to encourage nurses of Indian and Inuit ancestry who intend to serve in the Northwest Territories or Yukon, by helping them obtain the specialized knowledge they will require.

Consideration will be given to applicants of Indian and Inuit ancestry who intend to serve in the North, including:
   a. Students who are graduating from a registered nurses' course and are accepted into one of the following specialized training programs:
      i. community health nursing,
      ii. outpost nursing,
      iii. midwifery;
   b. Graduate nurses already serving in isolated communities, who are accepted into one of the specialized training programs listed above;
   c. Those who are or will be enrolled in a Bachelor level nursing program.

The successful applicant must provide documentation of his/her efforts to secure employment in isolated norther native communities. Completed applications must be received by the President of the Indian and Inuit Nursing of Canada by July 1 each year. Successful candidates will be notified by August 1. Further information may be obtained by writing to President Aboriginal Nurses Association of Canada, 55 Murray Street, 3rd Floor, Ottawa, Ontario K1N 5M3 or by telephone to (613)230-1864 or by fax to (613)230-1542.

The Patricia Blackburn Memorial Bursary Fund
   This fund has been established at Grenfell Campus, Memorial University of Newfoundland, in memory of Patricia Blackburn and her grandson Erik Blackburn. The annual income is to be used at the discretion of the Vice-President (Grenfell Campus) to facilitate or improve the educational opportunities of deserving young people from rural Newfoundland & Labrador. The fund will assist one or more promising students who would otherwise be unable to attend or to continue university.

The Bristol Laboratories of Canada Prize
   This prize of $200.00 is to be used for the purchase of Medical books. It is to be awarded to a first-year medical student on the basis of academic performance as well as the interests and the needs of the student. Works on Pharmacology and Therapeutics will ordinarily be included in the books selected. The award is made by the Dean of Medicine's Advisory Committee on Awards, Bursaries and Scholarships.

Calder Scholarship
   The Calder Scholarship, valued at $500.00 has been created by the Town of Burgeo to honour Drs. Mike and Ann Calder for their combined sixty years of service to the town. It will be awarded annually to a student who has graduated from a school in Burgeo, who is enrolled in a post-secondary program of studies which leads to a career in the health care field. Students must apply, prior to November 30, on an application form provided by the Town of Burgeo. Students in any year of their programs may apply.

Cal Callahan Memorial Bursary
   Each year this Association offers a bursary, or bursaries, totalling six thousand dollars ($6,000.00) to sons, daughters, or legal wards of
persons who derive their principal income from the Pipeline Industry and whose employers are Members of this Association. The purpose of these bursaries is to give financial assistance to students who are beginning undergraduate studies in a full program leading to a Degree or Certificate in any field, at a recognized University or College in Canada. Selection will be made by the Executive Committee, based upon scholastic record and financial need, provided the applicant otherwise qualifies. Applications may be obtained from the Pipeline Contractors Association of Canada, Suite 720, 5915 Airport Road, Mississauga, Ontario, L4V 1T1, and must be returned by not later than September 30th accompanied by a receipt or other proof of enrollment.

Canadian Armed Forces University Training Plans
Selected students may qualify for financial assistance through these Canadian Armed Forces University Training Plans: the Regular Officer Training Plan (ROTP); the Regular Officer Training Plan (ROTP-Coop, M.U.N. only); the Dental Officer Training Plan (DOTP); the Medical Officer Training Plan (MOTP); and the Reserve Entry Scheme-Officers (RESOP). Full details may be obtained in writing from The Canadian Forces Recruiting Centre, Government of Canada Building, 354 Water Street, St. John's, NL, A1C 1C4 or The Canadian Forces Recruiting Detachment, Herald Towers Building, Suite 407, 4 Herald Avenue, Corner Brook, NL, A2H 4B4.

Canadian Federation of University Women (Saint John, NB) Jean Flemming Memorial Scholarship for Mature Students - $1,500
The Canadian Federation of University Women – Saint John offers this scholarship to a mature female student pursuing degree studies at a Canadian university. Eligible candidates must be over 24 years of age, a resident of the greater Saint John area, and have completed a minimum of 30 credit hours – equivalent of one full year of study. The priority considerations in awarding this scholarship are academic merit and financial need. Preference will be given to those pursuing a degree on a full-time basis or who agree to register on a full-time basis on receipt of the scholarship.

The Canadian Gerontological Nursing Association Sancella/CGNA Nursing Scholarship - 2 awards of $1000.00. The purpose is to provide support to outstanding Registered Nurses undergoing further education in either an undergraduate nursing degree program, or a post graduate degree program that is relevant to career development in the field of Gerontological Nursing.

The candidate must:
- Be a member of the Canadian Gerontological Nursing Association.
- Be registered to practise nursing in a Canadian Province.
- Have gained acceptance to a suitable full-time program in a recognized educational institution at the time of taking up the award.
- Exhibits interest and potential for a career in Gerontological nursing in Canada.
- Be a Canadian citizen or permanent resident at the time of taking up the award.

The scholarship is administered by the CGNA and further information regarding criteria can be obtained by writing to CGNA, c/o Nancy Bol, Parkwood Hospital, 801 Commissioners Rd. E., London, Ontario NSC 5J1.

Canadian Hydrographic Association Awards
A sum of two thousand dollars ($2,000.00) will be awarded to a full time student in second year of a science or survey program at a bona fide university or a technological college in Canada. The award is intended to assist a deserving student in financing his/her education in a field related to survey sciences. The award will be made annually to the student judged the most deserving based on the information contained in the applications received. The applications are available from the Canadian Hydrographic Association, Institute of Ocean Sciences, 9860 West Saanich Road, Sidney, B.C. B8L 4B2, Attention: Barry M. Luik, C.L.S.

Canadian Lung Association Fellowship/Research Grant Program
From funds provided by the Christmas Seal Campaign, fellowships and research grants are awarded by the Canadian Lung Association on recommendations from the Canadian Thoracic Society, Canadian Nurses’ Respiratory Society, and Physiotherapy Section.

Through the Canadian Thoracic Society, fellowships are awarded to physicians or to those holding doctorate degrees in the health sciences for periods of research training in the area of respiratory disease.

Through the Canadian Nurses’ Respiratory Society, fellowships and research grants are awarded in the area of respiratory nursing at the Master’s or post-Master’s level.

The Physiotherapy Section of the Canadian Lung Association offers fellowships to physiotherapists pursuing post-graduate training, with respiratory research as the major component.

Information and application forms may be obtained in writing to Canadian Lung Association, 75 Albert Street, Suite 908, Ottawa, Ontario, K1P 5E7.

Canadian Nurses Foundation Scholarships & Fellowships Competition
Scholarships and fellowships are awarded to nurses pursuing education at the baccalaureate, master and doctoral levels. In addition to non-specific studies, awards are available for specific area of practice such as northern nursing, occupational health, dialysis nursing, neurological nursing, oncology nursing, community health, gerontology nursing, pediatric nursing and nursing administration. Applications must be members of CNA and CNF, be Canadian citizens and agree to work in Canada for a period of one year for each year of financial assistance. Application forms are available from their website www.canadiannursesfoundation.com or in writing to Canadian Nurses Foundation, 50 Driveway, Ottawa, Ontario K2P 1E2 or by telephone to (613)237-2133 or by fax to (613)237-3520.

Canadian Soroptimist Grants for Women - $5,000.00
This grant is available to female students pursuing a course of studies leading to a career of service to people who are in their final year of a four year undergraduate program. Further information may be obtained in writing to Soroptimist Foundation of Canada, c/o Doreen Dodd, St. Paul’s College, Westmount Rd., N., Waterloo, Ontario N2L 3G5.

The Canadian Union of Public Employees, Local 1516, Scholarships
CUPE Local 1615 offers five scholarships annually valued at $500 each. The scholarships are available to students entering or already in a program of study at Memorial University of Newfoundland or a two-year program at any other recognized institution in St. John’s or Corner Brook, who are children of CUPE Local 1615 members. The scholarships are awarded by the CUPE Scholarship Committee on the basis of academic ability only. Application forms are available from the CUPE Local 1615 Scholarship Committee.

The CANQUA ’95 Undergraduate Research Award
The national meeting of the Canadian Quaternary Association (CANQUA) was hosted by Memorial University of Newfoundland in 1995. As part of the legacy of that meeting, CANQUA is pleased to announce the creation of an undergraduate research award in Quaternary studies at Memorial University of Newfoundland. The award, valued at $200, is intended to support honours thesis research in any discipline related to the Quaternary Period. Two additional awards of one-year membership in CANQUA (including journal Subscription) will be granted in the same competition. Candidates will be selected on the basis of a submitted research proposal and academic excellence. Application forms and guidelines are available from, and should be submitted to, the Geography Department. Deadline date for submission of applications is March 31.

Children of War Dead (Education Assistance) Act
This Act provides fees and monthly allowances for children of veterans whose death was attributable to military service. Inquiries should be directed to the nearest District Office of the Department of Veterans Affairs.
CIBA Student Award
The CIBA collection of medical illustrations provided by CIBA Pharmaceuticals is presented annually to the first-year student showing the most promise in the field of Anatomy. The award is made by the Dean of Medicine's Advisory Committee on Awards, Bursaries and Scholarships.

The Co-op Atlantic McEwen Scholarship
To honour the memory of Wesley H. McEwen, Co-op Atlantic annually offers two university entrance scholarships of $1000.00 each per year, available to a student for up to four years. The awards help deserving students reach their educational goals and are designed to improve understanding and knowledge of co-operation and co-operatives. Applicants must be (a) a full-time employee, or the dependent of a full-time employee, of Co-op Atlantic or one of its member co-operatives; or (b) dependents of members or members of member co-operatives of Co-op Atlantic. Further information may be obtained in writing to The Manager, Corporate Administrative Services, Co-op Atlantic, P.O. Box 750, Moncton, New Brunswick E1C 8N5.

The Donald E. Curren Scholarships
These scholarships (four of $1000.00 each and four of $500.00 each) are open to mobility impaired students who have been accepted by a university in the Atlantic Provinces, with preference to paraplegics and quadriplegics. The scholarships will be awarded on merit, and on such other criteria as the Selection Committee may determine. Recipients must be Canadian citizens or permanent residents, and residents of the Atlantic Provinces. Application deadline is July 15. Application forms may be obtained in writing to Donald E. Curren Scholarship Fund, c/o Canadian Paraplegic Association, Nova Scotia Division, 5599 Fenwick Street, Halifax, Nova Scotia B3H 1R2.

Epilepsy Newfoundland and Labrador
a. The Jim Hierlihy Memorial Scholarship
This scholarship, valued at $1000, will be awarded annually to an undergraduate student at any post-secondary institution in Canada or the United States, who has diagnosed epilepsy and are a member in good standing of Epilepsy Newfoundland and Labrador, at the time of scholarship application. Evaluations will be based on a combination of the applicant's grades, extracurricular activities, and financial aid.

b. The Mature Student Scholarship
This scholarship, valued at $1000, will be awarded annually to an undergraduate student at any post-secondary institution in Canada or the United States, who is at least 21 years of age, who has diagnosed epilepsy and is a member in good standing of Epilepsy Newfoundland and Labrador, at the time of scholarship application. Current board or staff members are not eligible for these scholarships. Former board or staff members and/or their family members can apply, if they have been out of the service of Epilepsy Newfoundland and Labrador for two years. This two year period will be calculated as two years prior to the scholarship award date.

Award holders must be prepared to enter or be currently entered in a post-secondary training institution in the academic year of application. Scholarship applications must be received by Epilepsy Newfoundland and Labrador no later than November 1st of the academic year. Notification of award will be made no later than January 15th of the academic year. The successful applicant should be available, in person, to receive their award at a formal presentation.

Further information, memberships or applications may be obtained in writing to Epilepsy Newfoundland and Labrador, 261 Kenmount Road, St. John's, NL, A1B 3P9 or by telephone to (709) 722-0502, or by fax to (709) 722-0999, or by e-mail: epilepsy@nl.aibn.com, or through the website at www.epilepsynl.com.

Terry Fox Humanitarian Award Program
This program is intended to encourage Canadian youth to seek the high ideals represented by Terry Fox, by the granting of commemorative scholarships for the pursuit of higher education. The value of each award is $3000.00 annually for a maximum of four years or until a first degree is obtained. Selection criteria for recipients will be based on demonstration of the highest ideals and qualities of citizenship and humanitarian service while in pursuit of excellence in their academic, amateur sport, fitness, health, community service and related endeavours. Deadline for the submission of applications is February 1st. Applications are available in writing to Terry Fox Humanitarian Award Program, Simon Fraser University, 8888 University Drive, Burnaby, BC V5A 1S6 or by fax to (604) 291-3311.

Charles E. Frost Medical Scholarship
This scholarship, valued at $1,000.00, will be awarded at the end of the fourth year to the student who, in the opinion of the Dean of Medicine's Advisory Committee on Awards, Bursaries and Scholarships, has shown the most promise in the field of Therapeutics. A suitably inscribed bronze medal is also presented to each year's winner.

Glaxo/Harlow Award in Clinical Pharmacy
Glaxo Canada Inc. offers $2,500.00 annually which provides travel expenses allowing two students in the final year of the pharmacy program to undergo the last rotation of their clinical structured practice experience in London, England. Students reside at Harlow Campus. Students must apply for this award. Recipients are selected on the basis of academic achievement as well as their performance on a required assignment. The award is not given to an applicant if all criteria for the award are not met. The selection will be made by clinical faculty, School of Pharmacy.

Glory of Mozart Chamber Music Travel Bursary
This award was established by the 1991 St. John's International Mozart Chamber Music Competition Committee. The award will be available to students enrolled in the Bachelor of Music degree program who are participating as members of a chamber ensemble at an event of major musical importance outside the province. The bursary will be used to assist with travel and other expenses involved in attending the event. Musical ability, academic standing, financial need and the benefits to the students from attending the event may be taken into account in making the award. The value of the award will be based on the interest income accruing on the capital sum in the fund. Applications for this award should be submitted in writing to the Dean of the School of Music.

The Ford Hewlett Memorial Oncology Scholarship
A scholarship, valued at $1000, has been established by the Canadian Cancer Society, in memory of Mr. Ford Hewlett of Springdale, Newfoundland, who was a very dedicated volunteer of the Society. The scholarship is awarded annually to a third year medical student who has demonstrated interest in the field of research or clinical oncology.

S.R. Hussey Memorial Scholarship Fund
This fund was established some years ago by the Canadian Council of the Blind Clubs of the Atlantic region for the purpose of assisting registered blind students in continuing their education. The fund is available to registered blind students in the Atlantic region who are attending a recognized university. The fund is also available to assist the children of registered blind persons. Blind students interested in making application for assistance from this fund should contact the nearest office of the Canadian National Institute for the Blind for further information.

Imperial Tobacco Canada Scholarship Fund for Disabled Students
Purpose: To encourage young Canadian disabled students to pursue university studies with the ultimate objective of obtaining a university degree.
Scholarships, Bursaries and Awards 2013-2014

Field of study: Undergraduate program in any field of study.
Value: Each scholarship is valued at $1500.00 annually.
Number: Minimum 5.
Duration: One academic year - may be renewable upon application.

Conditions: Candidates must be disabled according to the following 1975 United Nations Declaration: A disabled person is “any person unable to ensure himself or herself wholly or partly the necessities of a normal individual and/or social life, as a result of a deficiency, either congenital or not, in his or her physical or mental capabilities.”

Candidates must be Canadian citizens. Candidates must have successfully completed the schooling requirements or equivalent for admission to an undergraduate program of study, or be presently registered as a full-time undergraduate student as defined by the University, and have successfully completed the last academic year. Candidates must not be employees or franchisees, or dependents of employees or franchisees of Imasco or any of its subsidiaries. Where tenable: At any Canadian university which is a member of, or affiliated to a member of the AUCC. Further information: Additional information and application forms may be obtained in writing to The Awards Officer, Canadian Awards Section, Association of Universities and Colleges of Canada, 151 Slater Street, Ottawa, Ontario K1P 5N1. Completed applications in duplicate are to be returned to AUCC not later than June 1st.

**Imperial Oil Ltd. Higher Education Awards (for Sons and Daughters of Employees and Annuitants)**

The Higher Education Awards program provides full tuition and compulsory fees for sons and daughters of Imperial Oil Ltd. employees, annuitants, or deceased employees. Students must be accepted at any approved Canadian University or Community College. The student must begin their education within six years of starting secondary school (grade 9), and must have an average of at least 70% in the subjects required for admission by the institution. Students who do not qualify upon graduation from secondary school may be eligible should they achieve the equivalent of a 70% average while in post secondary education. Once an award is granted, the student must pass all subjects and complete a “full workload” each year. A student may qualify for up to four awards in a five year period, which begins when the student first starts post secondary education. Application forms and brochures explaining the program in more detail are available in writing to Administrative Management Services, Awards Division, P.O. Box 414, Pickering, Ontario L1T 2R6 or by telephone to (416)420-0642 or by fax: to (416)420-2516 or through the website at www.uregina.ca/awards/scholarships/.

**The International Grenfell Association Bursary Program**

The following IGA bursaries (supported by annual grants) will henceforth be awarded annually and are available to students resident in the region served by the International Grenfell Association (that being the Northern Peninsula and Coastal Labrador), and who are already in – or are about to enter – a qualifying post-secondary program. Bursaries are to be awarded primarily dependent on need, to deserving students accepted or continuing in a post-secondary educational institution, as follows:

1. a number of $6000 Bursaries
2. one $4000 Special Bursary, for a student who has been out of full-time schooling for at least five years, and is returning to full-time post-secondary studies
3. a number of $3000 Bursaries

Post-secondary applicants need to take at least five courses in each academic term to be considered for an IGA Bursary. Application forms and further information are available in writing to M. Paul Canning, Administrator, International Grenfell Association, 81 Kenmount Road, 2nd Floor, St. John’s, NL, A1B 3P8, or by telephone to (709) 745-8182, or by fax to (709) 745-8163, or by email to igafnd.net.

**Dr. Jerzy Jarmasz Memorial Scholarship ($500)**

This award was endowed in 2003 by the co-donors, Mrs. Mercedes Jarmasz and the Polish Heritage Foundation of Canada. It is available to any student of Polish origin. One scholarship is awarded each year. In order to be eligible, applicants must have completed two years of studies. The application deadline is June 30. Application forms are available at www.polishheritagefoundation.org/.

**Kin Canadas Bursaries**

Applicants to the Kin Canada Bursaries must be Canadian citizens or permanent residents and must be full-time students in the process of graduating from high school, or currently studying or registered at a post-secondary institution. Anyone interested in applying for these bursaries my use the standard application form available at www.bursary.ca and submit it to the Kinsmen, Kinette or Kin Club nearest your permanent residence by February 1st. Disbursements take place in May.

**The Leonard Foundation Scholarships**

Additional Application Forms are available in writing to Grace Singh, Secretary, The Leonard Foundation, c/o The Canada Trust Company, 20 Eglinton Avenue West, Toronto, Ontario M4R 2E2, or by telephone to (416) 361-8745, or by fax to (416) 361-8753, or Scholarships, Bursaries and Awards Office, Room 4018, University Centre, Memorial University of Newfoundland, or by telephone to (709) 864-3956, or by fax to (709) 864-2347.

**Gerry Lynch Memorial Scholarship**

This scholarship, valued at $3,000.00, is awarded annually at the NLMA annual meeting to a graduating Memorial University of Newfoundland Medical student in good standing. Applicants are required to write a research paper of 1500-2000 words on a topic selected each Fall by the NLMA Board of Directors. The scholarship is administered by the Canadian Medical Foundation and will be available in perpetuity.

**The Merck Frosst Award**

Merck Sharp & Dohme Canada Limited provides an annual award of $1,000.00 (or, when necessary, two awards of $500.00 each) to a third-year student of each Canadian medical school. This award is intended to recognize the efforts of the medical student who has shown the most promise in the field of Therapeutics. A copy of the current edition of the Merck Manual will be offered together with the monetary prize. The awards are made by the Dean of Medicine's Advisory Committee on Awards, Bursaries and Scholarships

**The Dr. Leonard A. Miller Award**

This award, in memory of Dr. Leonard A. Miller, is given annually to the most outstanding student in the study of Community Medicine. The award, in the amount of $500.00, is funded jointly by the Faculty of Medicine and the General Hospital. The selection of the recipient for the award will be made at the completion of first year medical studies. The award is made by the Dean of Medicine's Advisory Committee on Scholarships, Awards and Bursaries.

**The National Sea Products Limited Scholarships**

Five university entrance scholarships valued at $1500.00 each are made available annually by National Sea Products Limited. The awards are open to children of permanent employees of the company or its wholly-owned subsidiaries, and to children of crew members of the company’s offshore trawlers who have been employed with the company for at least twelve months. Further information and application forms are available in writing to The Awards Officer, National Programs Division, Association of Universities and Colleges of Canada, 151 Slater Street, Ottawa, Ontario K1P 5N1.

**The Natural Medicines Comprehensive Database Recognition Award**

This award is presented to an outstanding graduating pharmacy student who has shown an interest in evidence-based approach to
patent care, in particular when considering natural medicines. The winner receives the current edition of the Natural Medicines Comprehensive Database. 

Newfoundland Light & Power Co. Limited Employees’ Association Scholarships

Sons and daughters of Newfoundland Light & Power Co. Limited employees and certain other relatives of single employees, may apply for the above scholarships if they intend to pursue post-secondary study. In applying, applicants should note that employees must be members of the Newfoundland Light & Power Co. Limited Employees’ Association and regular contributors to its Scholarship Fund. Applications and information are available in writing to Employees’ Association, Newfoundland Light & Power Co. Limited, P.O. Box 8910, Kenmount Road, St. John’s, NL A1B 3P6.

Newfoundland Medical Association Awards

The Newfoundland Medical Association will make two awards of $1,000.00 available to students at the end of second year of medical studies. These awards are intended to recognize potential interest in the organizational aspects of the profession of medicine as judged by the contribution made by the student to the governance of the medical school. While academic excellence is not the main criterion, recipients should be in good academic standing. The recipient should be identified to the Executive of the Association for approval upon recommendation by the Dean of Medicine’s Advisory Committee on Awards, Bursaries and Scholarships.

Noia-Hibernia Commemorative Scholarship

1997 was a big year for the oil & gas industry. The Hibernia project was successfully completed, hauled out to sea, and started drawing oil. The Noia-Hibernia Commemorative Scholarship Fund was created to commemorate this landmark year. It offers an annual scholarship of $1,000 to a graduating high school student in Newfoundland and Labrador who is entering post-secondary studies and intending to pursue a petroleum-related career. These are the bright minds that will shape the future of this industry, and we feel like it would only be right to foster some of their development. The scholarship will be awarded to the student who best meets academic and extra-curricular criteria. If you’re about to graduate in June 2012 and are pursuing post-secondary studies with the goal of a career in petroleum in the 2012-2013 academic year, we encourage you to apply for this scholarship. Applications are available at www.noia.ca/Portals/Application.pdf. Each student should outline their community and extra-curricular activities in the completed application and include a letter of reference. Applications should be sent to the following address: Noia Scholarship Selection Committee Box 44, Atlantic Place Suite 602, 215 Water Street St. John’s, NL A1C 6C9.

The Ocean Ranger Scholarships and Bursaries

To commemorate the tragic loss of the 84 crew members of the Ocean Ranger on February 15, 1982, a scholarship and bursary program has been established by the Ocean Ranger Disaster Fund. These awards, valued at $500.00 per year, are tenable at Memorial University of Newfoundland, the Fisheries and Marine Institute, and the College of the North Atlantic to students who are entering or pursuing a post-secondary program of studies at one of these three institutions. In selecting candidates, preference will be given to the daughters, sons and/or widows of those who were lost. In the absence of eligible candidates from this group, the scholarships and bursaries may be awarded to other students at the discretion of the Ocean Ranger Scholarship Committee. Information and application forms may be obtained from the Office of Student Affairs at any of the institutions noted above.

The Gregory J. Power Poetry Awards

The proceeds from a sum of money donated to the University by Mr. Gregory J. Power will (depending on the merit of submissions) be awarded as first, second, and third-place prizes in an annual poetry competition administered by the Department of English, Memorial University of Newfoundland. The competition will be open to full or part-time students at the University upon submission of original, unpublished work. The selection of winners will be the responsibility of the Head, Department of English, acting on the advice of a special committee. Entry forms and further information may be obtained by contacting the Department of English.

Prize in Psychiatry

To be awarded by the Psychiatry Department to the most outstanding student in Psychiatry in the Clinical Clerkship Year (Third-Year Medical Studies).

The Pro Vice-Chancellor’s Prize

The Strategic Framework for Memorial University of Newfoundland states that Memorial will enrich undergraduate education by helping students to experience the excitement of intellectual discovery, introducing undergraduates more effectively to the wider academic enterprise. In encouragement of this objective and in recognition of superior writing and scholarship by undergraduate students that deserves a wider audience, the Vice-President (Academic) and Pro Vice-Chancellor has established a series of prizes for the best undergraduate scholarship done each year at the University.

Instructors are invited to nominate examples of their undergraduate students’ course work for the Pro Vice-Chancellor’s Prize. The professor will certify that the work is original and the student's own work, and submit it to his/her head/director who will transmit it to the committee. Students may also submit their own course work for consideration. Instructors’ comments should not appear. In accepting nomination or making application, students agree to publication.

Nominations and applications will be assessed by a selection committee consisting of five academic staff members and chaired by the Associate Vice-President (Academic). The committee will adjudicate entries for their intellectual originality, cogency, facility of expression, and adherence to principles of scientific inquiry and critical thinking.

The value of the prize is $500 cash or a $1000 scholarship tenable in a graduate program at Memorial University of Newfoundland. Up to five prizes will be awarded each year. At the discretion of the selection committee, honourable mention may be accorded to entries beyond the available number of prizes.

Rixon Rafter Scholarship Fund

This fund was established in memory of Rixon Rafter, a former student of the Ontario School for the Blind, who became a successful newspaper owner in Ontario. Awards from this fund are intended to supplement, but not replace assistance available to students from existing sources. The amount granted to students from this fund is determined by the Rixon Rafter Scholarship Committee and financial need is taken into consideration. Registered blind students may request assistance from the fund by contacting the nearest Canadian National Institute for the Blind office in their area.

The Rhodes Scholarship

A Rhodes Scholarship is tenable at the University of Oxford and may be held for three years. Since, however, the majority of Rhodes Scholars obtain standing which enables them to take a degree in two years, appointments are made for two years in the first instance. Scholars may, however, hold the Scholarship for only 1 year. Those Scholars who elect to read for a D.Phil. at the time of admission may apply for a third year on stipend. The Rhodes Scholar must present a definite plan of study for that period satisfactory to his/her College and to the Rhodes Trustees. A Rhodes Scholar may apply to any one of the courses of study available at the University of Oxford, subject to the consent of the college or, in the case of graduate study, the relevant faculty or department.

The stipend of a Rhodes Scholarship consists of a direct payment to the University and to the Scholar's College of approved fees (such as matriculation, tuition, laboratory fees, and certain other set charges), plus a maintenance allowance, which is paid directly to the Scholar at the rate of at least $3,480 per annum to cover board, lodging and other expenses. The sum provided should be sufficient to
enable a Scholar to meet the necessary expenses for term-time and vacations, but those who can afford to supplement it to a modest extent from their own resources are advised to do so. Reasonable travel expenses to and from Oxford will be paid by the Trust.

Application forms containing full particulars can be obtained from the Secretary of the Selection Committee for the Province of Newfoundland or from the Scholarships, Bursaries and Awards Office at Memorial University of Newfoundland. Inquiries may be directed to the Secretary of the Selection Committee in writing to Dr. S. Ann Colbourne, Belfield’s Pond Road, Portugal Cove-St. Philips, N.L., A1M 2C6, or by telephone to (709) 777-5219, or by fax to (709) 777-5849, or by email to acolbourne@nlrogers.com

Robin Hood Multifoods Scholarship
One scholarship, valued at $1000.00 for a two-year period, is made available by Robin Hood Multifoods to a student entering first-year university. For students entering Memorial University of Newfoundland, priority will be given to those enrolled in a Nutrition or Biology program. The award will be made on the basis of a candidate’s participation in youth activities and priority is given to 4-H members, providing that the candidate meets the necessary academic and financial need requirements. Information and applications are available in writing to The Co-ordinator, Youth Services Division, Confederation Building, St. John’s, N.L., H3C 1E3.

The G. Allan Roeher Institute Awards
The G. Allan Roeher Institute offers bursaries to graduate students and research grants (up to $8000 each) to post-graduate students and faculty members or associates, who are interested in the field of mental handicap or related fields. These awards are made possible through the support of the Scottish Rite Charitable Foundation of Canada. Further information and application forms may be obtained in writing to The Secretary, Bursaries and Grants Adjudicating Committee, G. Allan Roeher Institute, Kinsmen Building, York University, 4700 Keele Street, Downsview, Ontario M3J 1P3.

Wojciech Rogozinski Memorial Scholarship ($1000)
This award was endowed in 2007 by the donors, Mr. George Tymowski and Mrs. Danuta Tymowski. It is available to any student of Polish origin who demonstrates financial need. One scholarship is awarded each year. In order to be eligible, applicants must have completed two years of studies. The application deadline is December 31. Application forms are available at www.polishheritagefoundation.org.

Royal Canadian Legion Scholarships
a. Provincial Command Scholarships
Two scholarships, valued at $750.00 each, are awarded annually to students entering University for the first time who are children of ex-service personnel, or of Life, Ordinary or Associate Voting Members of the Legion. Actual financial need is taken into account in addition to scholastic standing when awards are made.

b. Dominion Command Scholarships
Two scholarships, valued at $750.00 each, are awarded annually to students in their second, third, or fourth-year of university, who are the children of ex-service personnel, or of Life, Ordinary or Associate Voting members of the Legion. Actual financial need is taken into account in addition to scholastic standing when awards are made. Application forms available in writing to The Newfoundland & Labrador Command, The Royal Canadian Legion, P.O. Box 5745, St. John’s, N.L. A1C 5X3.

The Robert B. Salter Scholarship in Medicine
This scholarship is awarded annually from income derived from an endowment by Dr. Robert B. Salter, Professor and Head of Orthopedic Surgery at the University of Toronto, who has had a long association with the Grenfell Mission. This scholarship is to be awarded to the third-year undergraduate medical student who best exemplifies the qualities of compassion and competent patient care. Preference will be given to students born in Newfoundland and Labrador. The award is made by the Dean of Medicine’s Advisory Committee on Awards, Bursaries and Scholarships.

Diana Lemire Savident Memorial Bursary
Diana Lemire Savident (1943-1994) was born and raised in Rouyn, Quebec and moved to Prince Edward Island in 1973. Always an avid student, she also gained respect as an art teacher. Applications for the scholarship will be accepted from female residents of Prince County 18 years of age and older. The award will be given to the applicant who displays the most potential for development and that sense of exploration in the visual arts epitomized by Diana Lemire Savident’s own career. Financial need will be an important factor in determining the recipient but not necessarily the only one. Applicants are expected to be pursuing the arts as a career option or serious avocation. Eligible programs include: study in the visual arts at recognized post-secondary institutions; summer schools or professional level courses and advanced workshops and seminars, minimum duration of five days.

The bursary will be awarded in June of each year commencing in 1996 and the amount of the bursary will be determined each year based on the return on the capital fund invested. The award will be presented in the form of a cheque or bank draft payable jointly to the applicant and the educational institution. The award will be made with respect to expenses already incurred. Should the program applied for be cancelled or the recipient withdraw or fail to enroll, the funds must be returned to the East Prince Women’s Information Centre.

Applicants will be invited in March of each year through public announcements and other means with an application deadline of May 15. All applications must be accompanied by a resume and a full description of the program being pursued. The applicant should include a one page summary of personal background in art achievement and what goals are being pursued by following the study program for which support is being requested. Applicants selected for a finalist interview must be prepared to display a small portfolio of work, preferably in more than one medium.

The Robert B. Salter Scholarship in Medicine
Applications will be received until May 15 and may be obtained in writing to East Prince Women’s Information Centre, 75 Central Street, Summerside, PE C1N 3L2 or by telephone to (902) 436-9856.

Schulich Leader Scholarship
Schulich Leader Scholarships are undergraduate entrance scholarships for students enrolling in the STEM (Science, Technology, Engineering, Mathematics) areas of study at 20 selected universities. All Canadian high schools, secondary schools and CEGEPs (in Quebec) may submit one Schulich Leader Nominee each. Schulich Leader Nominees are selected by their schools based on two of three criteria: outstanding community/business leadership, academic excellence and financial need. Once a Schulich Leader Nominee is selected, he/she may apply to any participating university in Canada where they intend to submit formal applications for undergraduate study. All participating universities are responsible for making the final selection of their Schulich Leaders for their respective institution. In 2012, a maximum of 40 Canadian Schulich Leaders will be selected; in 2013 and thereafter there will be 60 Canadian Schulich Leaders. Each entrance scholarship is valued at $60,000 CAD and will be indexed to inflation. The scholarship is distributed during each Schulich Leader’s term of undergraduate study. The granting of scholarships will start with the academic year commencing in Fall 2012.

The Society of United Fishermen Memorial Scholarships
There shall be awarded annually by this Society two scholarships of a combined value of $600.00. These scholarships are awarded to children of members or deceased members of the Society. The scholarships are tenable at Memorial University of Newfoundland or any other institution of learning at which the student might wish to continue his or her studies in the year following graduation from high school. Further information and application forms may be obtained in writing to The Grand Secretary, Society of United Fishermen, P.O.
The St. John Ambulance Bursary
This bursary of $1,000.00 is awarded to a student who is eligible for admission to a Bachelor's Program at a recognized University or Community College. Post-basic nurse applicants are required to be members of their Provincial/Territorial Nurses' Association and hold current registration or a Certificate of Competence. All applicants must have a St. John Ambulance Affiliation and must demonstrate financial need. The application deadline is March 15. Further information and applications forms is available in writing from St. John Ambulance Provincial Council or in writing to St. John Ambulance National Headquarters, 312 Laurier Ave. E., Ottawa, Ontario K1N 6P6 or by contacting Jean Wills, Deputy Director of Training Health Care by telephone to (613) 236-7461 or by fax to (613) 236-2425.

The Surgery Prize in Anatomy
This prize, valued at $500.00, is awarded annually to a first-year student who has demonstrated a high proficiency in Anatomy, particularly in the practical field. Nomination of a candidate is made by the Professors of Anatomy and the Professor & Chairman of Surgery. The award is made by the Dean of Medicine's Advisory Committee on Scholarships, Awards and Bursaries.

The Patrick Tasker Masonic Educational Fund
This fund was established to provide financial assistance for the education of children of deceased, incapacitated and/or needy Masons who were or are members of participating Masonic Lodges in Newfoundland. The fund provides a limited number of scholarships (up to a value of $800.00), payment of tuition fees for first-year students, and interest-free loans. In addition to the above, four entrance scholarships of $500.00 each are available to the dependants of any eligible member of the Masonic Fraternity within the province of Newfoundland and Labrador. These scholarships are awarded on the basis of academic achievement in Grade XII and are tenable at Memorial University of Newfoundland or at any other approved post-secondary institution in the province. Further information and applications forms is available in writing from The Patrick Tasker Masonic, Education Fund, P.O. Box 5481, St. John's, NL, A1C 5W4, ATTN: The Secretary.

Waterford Hospital Board of Management Scholarships
The Waterford Hospital Board of Management annually awards two scholarships, valued at $500.00 each and tenable at Memorial University of Newfoundland, to children of employees of the Hospital. The awards are made on the recommendation of a Selection Committee especially appointed by the Board for that purpose. One of the scholarships is to be awarded to a female and the other to a male. Generally they are to be awarded to students who are entering the University for the first time. In the absence of suitable entrance applicants, the scholarships may be re-awarded to other children of employees who are beyond first year. In selecting suitable applicants academic standing as well as financial need will be taken into account. Applications for the scholarships may be obtained from the Administrator of the Hospital and must be completed and returned to that office by May 1st of any year.

The Western Memorial Regional Hospital Scholarship
This scholarship of $500 is derived from interest on funds invested by the Medical Staff of the Western Memorial Regional Hospital and is awarded annually to a student who is entering the third year of medical studies at Memorial University of Newfoundland. The recipient shall be a bona fide resident of that area served by the Western Memorial Regional Hospital and shall have high academic standing. The scholarship is awarded by the Medical Staff of the Western Memorial Regional Hospital in consultation with the Dean of Medicine. Applications should be made in July of each year to The Chief of Staff, Western Memorial Regional Hospital, P.O. Box 2005, Corner Brook, NL, A2H 6J7.

The Jacques Whiford Student Incentive Program
The student incentive program will provide a four month paid position with a $2,000 award at the end of the work period. Both co-op work terms and summer positions will be considered. To be eligible candidates must be: full-time students with at least 50% of their credits achieved, have an 80% average, be fluent in English for all offices and fluent in French for the Montreal office, be legally entitled to work in the country to which they are making application and have excellent communication skills. Application forms for Memorial University of Newfoundland students are available from and should be returned to the office of the Associate Dean, Faculty of Engineering and Applied Science or the Faculty of Science. Applications must include: resume, official university transcript and a one page letter outlining candidate's aspirations. Deadline for application is January 31.

The Margaret Williams Trust Fund
This fund was established to promote the development of librarianship in Newfoundland and Labrador by providing funds for scholarships, research, special projects and work exchange opportunities. The value of awards will depend upon the annual interest earned on the fund. Further information and applications forms is available in writing from Chairperson, Board of Trustees, Margaret Williams Trust Fund, Queen Elizabeth II Library, Memorial University of Newfoundland, St. John's, NL, A1B 3Y1.

Work Term Scholarships & Awards in Engineering
1. W.W. Cossitt - This award is intended for the Senior Engineering Student (Work Term 4, 5, & 6) who has made the most important contribution to an employer and therefore to the Co-operative Engineering Program. The award is made available by the Professional Engineers and Geoscientists of Newfoundland and Labrador (PEGNL) once per semester and has a monetary value of $500.00. The recipient of the award is nominated by the Dean, Faculty of Engineering and Applied Science and the Engineering Division of Co-operative Education. The Division's recommendation is based upon: a) Supervisor nomination; b) Student work performance; c) Student work report or oral presentation and written summary; d) Student academic standing (must be scholarship standing).

2. PEGNL Eastern Chapter - This award is intended for the Junior Engineering Student (completing work terms 1, 2, & 3 prior to Academic Term 5) who has made the most important contribution to an employer and therefore to the Co-operative Engineering Program. The award is made available by the Professional Engineers and Geoscientists of Newfoundland and Labrador (PEGNL) Eastern Chapter once per semester and has a monetary value of $500.00. PEGNL Eastern Chapter issues the final award on the recommendation by the Dean, Faculty of Engineering and Applied Science and the Engineering Division of Co-operative Education. The Division's recommendation is based upon: a) Supervisor nomination; b) Student work performance; c) Student work report; d) Student academic standing (must be scholarship standing).

10 Loan Funds
Maude Abbott Memorial Scholarship Loan Fund
This fund was established by the Federation of Medical Women of Canada. Small loans are available to any woman medical student or first-year intern. In special cases a loan of up to $1000.00 may be granted to a medical woman for recognized postgraduate training. Loans are repayable within five years of date of issue, after which time interest will be charged at the rate of 5% compounded annually. Information regarding these loans may be obtained in writing to Secretariat, Federation of Medical Women of Canada, P.O. Box 8244, Ottawa, Ontario K1G 3H7.

The Association of Professional Engineers of Newfoundland Loan Fund
Established by the Association of Professional Engineers of Newfoundland for Engineering students during their time at this University. Apply to the Dean of Engineering and Applied Science, Memorial University of Newfoundland.
The Breezeway Emergency Trust Fund
In May, 1984, the Board of Directors of the Breezeway Bar gave to the University a sum of money, to be used as an emergency loan/bursary fund for needy undergraduate students. The Fund is administered by the Director, Student Support Programs through the Manager, Scholarships, Bursaries and Awards, and within guidelines already developed by the office for awards to financially needy students. These awards will not normally exceed $300.00.

Canada Student Loans Program
Newfoundland and Labrador Student Loans Program
The Government of Canada and the Government of Newfoundland and Labrador work together to provide student financial assistance to residents of the province. Students who have demonstrated financial need may, upon application, receive financial support from the Canada-Newfoundland and Labrador Student Financial Assistance Program. Students are encouraged to apply online at www.ed.gov.nl.ca/studentaid/ and to apply early.

Your eligibility to receive assistance will be determined by assessing your financial need. This is done by adding the costs of your education and living expenses, and then subtracting any money that may be available to you. This determines your assessed financial need - the amount of funding for which you may be eligible. The formula is: Costs - Available Resources = Assessed Need.

The provincial government provides funding for 40% of the amount assessed to a maximum total of $140 per week of study; the federal government provides funding for 60% of the amount assessed to a maximum of $210 per week of study (in some cases, eligible recipients of Canadian Student Loans and Canada Student Grants may receive greater than $210 per week of study in total federal assistance).

Receiving A Student Loan

a. Step 1: Once you are approved to receive assistance, you will be sent a Master Student Financial Assistance Agreement (MSFAA). This agreement must be signed and sent to the National Student Loans Service Centre (NSLSC) and include all supporting documents.

b. Step 2: Once NSLSC receives your MSFAA your educational institution must confirm your enrolment.

c. Step 3: Once full-time enrolment has been confirmed, but no earlier than the first day of classes, eligible financial assistance will be deposited to your bank account. If you do not have a bank account, a cheque made payable to you will be mailed to the address you provided on your MSFAA. All or a part of your financial assistance may be sent to your educational institution to pay fees owing. You will receive a letter from the NSLSC advising you of the amount of your disbursement that has been issued to you and/or your Educational Institution. You can also visit the NSLSC website at www.CanLearn.ca for further information.

The disbursement to you and/or your institution may not occur simultaneously due to a difference between the federal and provincial deposit dates.

For more information on the Canada-Newfoundland and Labrador Student Financial Assistance program please visit online at www.ed.gov.nl.ca/studentaid/; in-person at Coughlan College on the St. John’s Campus; by e-mail to studentaid@gov.nl.ca; by telephone to 1-888-657-0800 (toll-free) or (709)729-5849.

Canadian Forces Personnel Assistance Fund
Education Assistance Loan Program
1. The Canadian Forces Personnel Assistance Fund offers an Education Assistance Loan Program to assist serving and former members and their dependants with costs of full-time postsecondary education. This program consists of low interest loans of $1,200 and $1,500, then in $500 increments up to a maximum of $4,000 per student, per year, up to a maximum of $16,000 lifetime per student. It should be noted that a period of 12 months must elapse before a new application can be considered.

2. Loans are repayable by the member over a twelve, twenty-four, thirty-six or forty-eight month period.

3. Loans may be obtained by serving or former members who have a minimum of one year Regular Force military service. Selection may be based on family income, years of service and individual family circumstances.

4. Application forms are available on our website at www.cfpsa.com/en/SupportOurTroops/OurFunds/CFPAF/Pages/Programs.aspx, or from the Canadian Forces Base Financial Counsellors, district offices of Veterans Affairs Canada, and the Provincial Command offices of the Royal Canadian Legion. They may also be obtained by contacting the CFPAF office at 234 Laurier Avenue West, Ottawa, Ontario, K1P 6K6, telephone 6137603447 or toll free 8887539828.

5. Applications will be accepted throughout the year until the funds allotted for the EALP are exhausted.

The Gerald S. Doyle Engineering Scholarship Loan Fund
By the generosity of the late G.S. Doyle, Esq., O.B.E., there are a number of scholarship loans available each year to Engineering students. The loans are normally in the amount of $500.00 per year, but may, when circumstances warrant, extend up to $1,000.00 per year. These are made by the Dean of Students Affairs and Services on the recommendation of the Dean of Engineering and Applied Science. These loans may be granted for three successive years and are repayable at convenient times before graduation. Applications are available from the Office of the Associate Dean of Engineering and Applied Science.

Helen M. Lodge Loan Fund
The bequest of the late Professor Helen M. Lodge, formerly Professor of Education at this University.

F.W. Rowe Student Loan Fund
Based on royalties from Dr. Rowe’s book, The Development of Education in Newfoundland. At the author’s suggestion, priority is to be given to the children of active, retired or deceased teachers.
11 Scholarships, Bursaries and Awards Available to Graduate Students

11.1 Awards Administered By the School of Graduate Studies

Information on all graduate awards listed below can be obtained from the Dean of Graduate Studies.

Affinity NL (Ottawa) Scholarship
This scholarship is made possible by the fund raising efforts of the Ottawa Affinity Newfoundland and Labrador group and is valued at a portion of the income on the investment according to Memorial University of Newfoundland’s Awards Program Spending Policy. Based on scholarship standing (academic excellence), it will be awarded in an alternating fashion to a first year undergraduate student (entering their second year) and then a first-year graduate student (entering the first year of either a Master's or Ph.D. program). The student must be from a rural community in Newfoundland and Labrador, express an interest in returning to work in rural Newfoundland, and be registered for full-time studies at Memorial University of Newfoundland. Rural is defined as outside St. John’s and Corner Brook, as defined by the Centre for Institutional Analysis and Planning, or an equivalent Centre for Institutional Analysis and Planning. When awarded to an undergraduate student, the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. When awarded to a graduate student, it will be awarded by the Dean of Graduate Studies upon the recommendation of the Awards and Medals Committee.

The Hira & Kamal Ahuja International Graduate Fellowship
The Hira & Kamal Ahuja International Graduate Fellowship, valued at a portion of the income on the endowment, has been established by Hira Ahuja, a former faculty member in the Faculty of Engineering and Applied Science. The Fellowship will be awarded to three full-time international graduate students enrolled in the thesis-based program in the Faculty of Engineering and Applied Science. The fellowship will be awarded on the basis of academic excellence. Preference will be given to students who have served the East Indian community in Canada, through volunteer work. The Fellowships will be awarded by the Dean of Graduate Studies on the recommendation of the Dean of Engineering and Applied Science.

F.A. Aldrich Graduate Award
The F.A. Aldrich Graduate Award has been established in memory of the first Dean of Graduate Studies at Memorial University of Newfoundland. Up to three annual awards of $2,000.00 may be made. Awards will be made by the Dean of Graduate Studies to alumni of Memorial University of Newfoundland who are in the first year of a full-time graduate program and will be based on academic merit, and need only if all other things are equal. If the application is based on need, please make a case.

Athletics Northeast (ANE) Running Club Award for Varsity Cross Country
This award was created by Avalon Northeast (ANE) Running Club, which is a community minded club made up of runners of all ages who embrace the concept of serious running as a way to enjoy an active and healthy lifestyle and to enhance their quality of life. The recipients will be one male and one female student, who are members of the cross-country team at Memorial University of Newfoundland and who are in clear academic standing. The recipient will have demonstrated leadership, commitment and dedication to the cross country program while endeavouring to maximize his/her running potential. For undergraduate students, it will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Director of Athletics, School of Human Kinetics and Recreation. In the event a graduate student is the recommended recipient, it will be awarded by the School of Graduate Studies on the recommendation of the Director of Athletics.

The Atreya-Haritha Scholarship in Mathematics
This scholarship is the result of a generous donation by Dr. K.R. and Nandini Kothandaraman. Valued at $1000 annually, it will be awarded on the basis of scholarship standing to a full-time student, either a senior level undergraduate or a graduate student in Mathematics and/or Statistics. In the case of an undergraduate student, the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Head, Department of Mathematics and Statistics. In the case of a graduate student, it will be awarded by the Dean, School of Graduate Studies, also upon recommendation of the head, Department of Mathematics and Statistics.

The William H. and Bertha Baird Memorial Scholarship
This scholarship, valued at the annual interest on the endowment, has been established by Mrs. Edna Baird-Stephenson in memory of her parents. It will be awarded to a full time graduate student at either the Master's or doctoral level. Eligible candidates should be residents of the province, or should have been resident in the province for at least three years prior to entering the program, excluding time spent at post secondary institutions. The award, based on academic excellence, will be made by the Dean, School of Graduate Studies on the recommendation of the Awards and Medals Committee.

The Barrowman Biochemistry Graduate Travel Awards
These awards are established by the generous donations of family and friends of the late Dr. Jim Barrowman to honor his contributions to research and graduate students at Memorial University of Newfoundland. Dr. James Barrowman was recruited to Memorial University of Newfoundland in 1975 as associate professor of gastroenterology and gastrointestinal physiology, was promoted to professor in 1979 and, in 1981, took on the role of the first assistant dean for Research and Graduate Studies (Medicine). The income from this endowment will be used to provide a number of awards to graduate students registered in the Department of Biochemistry, so that they may present their research at relevant scientific conferences. Preference will be given to full-time students, but part-time students will also be considered. The awards will be made by the Dean of Graduate Studies upon recommendation of the Head, Department of Biochemistry.

The Barrowman Community Health Graduate Travel Awards
These awards are established by the generous donations of family and friends of the late Dr. Jim Barrowman to honor his contributions to research and graduate students at Memorial University of Newfoundland. Dr. James Barrowman was recruited to Memorial University of Newfoundland in 1975 as associate professor of gastroenterology and gastrointestinal physiology, was promoted to professor in 1979 and, in 1981, took on the role of the first assistant dean for Research and Graduate Studies (Medicine). The income from this endowment will be used to provide a number of awards to graduate students pursuing a research program in the Division of Community Health and Humanities, so that they may present their research at relevant scientific conferences. Recipients will have demonstrated high academic standing and research potential. The awards will be made by the Dean of Graduate Studies upon the recommendation of the Associate Dean, Research and Graduate Studies, Faculty of Medicine.

The George and Mary Behm Award
The George and Mary Behm Award, established by Dr. David Behm, is valued at $500. It will be awarded annually to a full-time graduate student enrolled in the Masters of Kinesiology program who has the highest average in the first four master's courses of the M.Sc. Kinesiology program. The award will be made by the Dean of the School of Graduate Studies on the recommendation of the Dean, School of Human Kinetics and Recreation. It will be presented at the School of Human Kinetics and Recreation Awards Ceremony in November.
Scholarships, Bursaries and Awards 2013-2014

The Big Ben's Graduate Scholarship in Archaeology
This scholarship is funded through a generous annual contribution by Big Ben's to honor the amity and patronage of graduate students in Archaeology over the years. This scholarship is awarded annually to a full-time student enrolled in graduate studies in Archaeology. Candidates must be in the first two years of the Master's program or the first four years of the Doctoral program and must have at least academic standing. The award will be based on academic merit, with preference given to recipients with demonstrated leadership and public-spirited service to Memorial University of Newfoundland's graduate program in Archaeology. It will be awarded by the Dean, School of Graduate Studies based upon recommendation of the Head, Department of Archaeology.

The Dean M. Ian Bowmer Graduate Travel Award in Medicine
This award is made possible through the generous contribution of funds by Dr. M. Ian Bowmer, former Dean of the Faculty of Medicine at Memorial University of Newfoundland, as well as contributions by faculty and staff, to endow a graduate travel award in his name. This endowment will provide an annual award, valued at a portion of the income from the endowment, to a full-time graduate student pursuing a research program at the Masters or Doctoral level in the Faculty of Medicine, assisting the presentation of the student's research. The award will be competitive and based on an abstract or paper to be presented at the meeting. The award will be made by the Dean of Graduate Studies on the recommendation of the Associate Dean, Research and Graduate Studies, Faculty of Medicine. Application forms are available from, and should be submitted to, the Faculty of Medicine, Office of Research and Graduate Studies.

The Dr. Joe Brown Graduate Research Award in Aquatic Ecology and Aquaculture
This award was established to commemorate the life and work of Dr. Joe Brown through initial contributions by his family, friends, colleagues and students. As a Professor (Research) at the Ocean Sciences Centre from 1984 to 2005, Joe established a unique reputation both for his scholarly work in the areas of behavioural ecology of fishes and cold-water aquaculture and for his radiant, passionate sense of humour, humanity and empathy, particularly concerning students. The award in support of research activities will be normally available annually to a full-time graduate student in the second or subsequent year of study in the areas of aquatic ecology or aquaculture, and is valued at a portion of the income from the endowment. Given on the basis of scholarly merit and quality of research, the award will be made by the Dean of the School of Graduate Studies upon recommendation from the Director of the Ocean Sciences Centre.

The David Buchan Graduate Research Award in Folklore
The Research Award is established in memory of Dr. David Buchan, a leading international ballad scholar, faculty member in the Department of Folklore from 1979 to 1994, and the first Memorial University of Newfoundland Research Professor. Administered by the School of Graduate Studies, two awards of $500 will normally be given each year to fund costs related to national/international travel for the purpose of presenting student papers at conferences or for the purpose of soliciting student papers at conferences. The award selection will be based on an abstract or paper to be presented at the meeting. The award will be made by the Dean of Graduate Studies on the recommendation of the Associate Dean, Research and Graduate Studies, Faculty of Folklore, who will be advised by the Department of Folklore's Scholarship, Bursaries and Awards Committee.

Buchans Scholarship Fund of ASARCO Incorporated
ASARCO Incorporated has established a scholarship fund, the annual interest on which will provide for students enrolled in the Department of Earth Sciences, Memorial University of Newfoundland, either a scholarship for post-graduate study and research, valued at $5000.00; or two scholarships for undergraduate study, valued at $500.00 each. The latter scholarships will be available only when no suitable candidate can be found for the former. In order to qualify for these awards, students must be native-born Newfoundlanders or graduates of Newfoundland high schools. In the case of the graduate scholarship, the award will be made by the Dean of Graduate Studies on the recommendation of the Head, Department of Earth Sciences; in the case of the undergraduate scholarships, by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of Earth Sciences. Should no candidates be available in any year, the awards may be held over.

The Maurice J. Burke Memorial Scholarship
This scholarship, valued at a portion of income on the investment, was established by the family of the late Maurice Burke. Mr. Burke served in the Provincial Department of Education in the Teacher Certification Division for thirty-five years. He was also a columnist and author with a personal and professional interest in Newfoundland culture and folklore celebrating the uniqueness of Newfoundland outport life. It will be awarded alternately to a full-time graduate or undergraduate student in the Department of Folklore on the basis of scholarship standing. In the case of undergraduates it will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. In the case of graduates it will be awarded by the Dean, School of Graduate Studies. In both cases the scholarship will be awarded on the basis of a recommendation from the Head, Department of Folklore.

The Dr. Alfred T.H. Burness Graduate Award in Medicine
This award was established to commemorate the life and work of Dr. Joe Brown through initial contributions by his family, friends, colleagues and students. As a Professor (Research) at the Ocean Sciences Centre from 1984 to 2005, Joe established a unique reputation both for his scholarly work in the areas of behavioural ecology of fishes and cold-water aquaculture and for his radiant, passionate sense of humour, humanity and empathy, particularly concerning students. The award in support of research activities will be normally available annually to a full-time graduate student in the second or subsequent year of study in the areas of aquatic ecology or aquaculture, and is valued at a portion of the income from the endowment. Given on the basis of scholarly merit and quality of research, the award will be made by the Dean of Graduate Studies based upon recommendation of the Associate Dean, Research and Graduate Studies, Faculty of Medicine. Application forms are available from, and should be submitted to, the Faculty of Medicine, Office of Research and Graduate Studies.

The Olivia and Ethan Button Award
The Olivia and Ethan Button Award, established by Mr. Duane Button, is valued at $500. It will be awarded annually to the student who has achieved the highest average in Exercise Physiology 3310 in the Bachelor of Kinesiology or Bachelor of Physical Education programs at Memorial University of Newfoundland. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. If at the time the award is presented, the recipient has enrolled as a graduate student at Memorial University of Newfoundland, it will be awarded by the Dean, School of Graduate Studies. In both cases it will be awarded on the recommendation of the Dean, School of Human Kinetics and Recreation.

Faculty of Business Administration Associates' Scholarship Fund
This fund was established through the contributions of members of the Associates' Program of the Faculty of Business Administration. The fund will provide scholarships for undergraduate and graduate students in the Faculty. Awards will be made on the basis of academic standing but such factors as financial need and contribution to the Faculty may be taken into account. In the case of the undergraduate program, scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Business Administration. In the case of the graduate program, the scholarships will be awarded by the Dean of Graduate Studies on the recommendation of the Dean of Business Administration.
The Greg Campbell Memorial Business Scholarship
This scholarship is the result of a generous donation by Eleanor Swanson in memory of her late husband, J. Gregory Campbell. Interest on the fund will provide one award to a full-time graduate student in the Faculty of Business Administration who is entering the final year of study. Candidates for this scholarship must have scholarship standing and a demonstrated record of active community involvement, volunteer work and/or service in the faculty/University. If there are no suitable candidates in this category, the scholarship may be awarded to a candidate on the basis of academic standing. The scholarship will be awarded by the Committee on Graduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, School of Graduate Studies.

Canadian College of Teachers Scholarship
This scholarship, valued at $1,000.00, is sponsored by the Cabot Chapter of the Canadian College of Teachers and is awarded annually to a full-time graduate student in the Faculty of Education for outstanding research. The award is made on the basis of application by a student or nomination by the student's supervisor. The application or nomination may take the form of a thesis or project proposal, but preferably be supported by an explanation of why the work involved is particularly meritorious. Applications should be forwarded to the office of the Senate Committee on Undergraduate Scholarships, Bursaries and Awards 2013-2014.

The CFUW Edith Creighton Scholarship
This scholarship has been established by The Canadian Federation of University Women (CFUW) St. John’s and is named after Edith Creighton (1892-1994); the first president of CFUW St. John’s when it was formed in 1945. One scholarship, valued at $2,000, may be awarded annually, to a woman enrolled full-time in the Masters or Doctoral program in the Faculty of Education. To be eligible, candidates must have scholarship standing. The scholarship will be awarded by the Dean, School of Graduate Studies on the recommendation of the Dean, Faculty of Education.

CFUW St. John’s Scholarship for Gender Studies
This scholarship has been established by The Canadian Federation of University Women (CFUW) St. John’s. One scholarship, valued at $2,000, may be awarded annually, to a woman enrolled full-time in the Master’s program in the Department of Gender Studies. To be eligible, candidates must have scholarship standing. The scholarship will be awarded by the Dean, School of Graduate Studies on the recommendation of the Head, Department of Gender Studies.

The Dr. Jack Clark Graduate Award
This award was established in memory of Dr. Jack Clark who served as President and Chief Executive Officer of C-CORE from 1984 to 1997. The award will be valued at a portion of the income on the endowment and will be awarded annually. The award is available to any full-time graduate level student in the Faculty of Engineering and Applied Science who meets the minimum academic requirements for an award as defined by the University. Eligibility will be based on academic standing with preference given to those who have demonstrated financial need by presenting a case with their application. It will be awarded by the Dean of Graduate Studies upon the recommendation of the Dean, Faculty of Engineering and Applied Science.

Community Health Master’s and Doctoral Student Awards
These graduate student awards are established by the Division of Community Health and Humanities in recognition that many students who are full-time students in Community Health Programs are unable to do so because they do not have sufficient graduate student funding to meet the full-time criteria as required by the Office of Research and Graduate Studies, Faculty of Medicine. One masters and one doctoral research scholarship may be awarded annually to incoming thesis graduate students with a declared interest in pursuing full-time studies who do not have adequate funding (by way of scholarship, fellowship or faculty research money) to qualify for full-time status. These funds may be used alone or in conjunction with other student awards or partial supervisory funding to meet the full-time funding requirement of the Office of Research and Graduate Studies (Medicine). During the year of the award, it is expected that the student and supervisor will seek external funding to support the research program. Normally a student will be eligible to receive the scholarship only once her or his program. If a suitable candidate is not identified in one degree category, two research scholarships may be awarded in the same degree program or to a student in good standing in the second or subsequent year of his or her program. There will be one competition per year, coinciding with the Winter semester selections process. All incoming candidates accepted for M.Sc. and Ph.D. programs in the Division of Community Health and Humanities will be considered for the awards in accordance with the terms and conditions described above. The graduate program committee of CHH will make recommendations to Research and Graduate Studies (Medicine). The awards are made by the Dean of Graduate Studies upon the recommendation of the Assistant Dean of Graduate Studies (Medicine).

The Rob Crosbie Scholarship for International Study
This fund was established from contributions to the University’s Opportunity Fund Campaign by Mr. Rob Crosbie. The scholarship, valued at $1,250.00 annually, will support a Business student (graduate or undergraduate) who is on an academic international exchange and who has shown interest in pursuing a career in the oil and gas industry. In the case of undergraduate students, the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, Faculty of Business Administration. In the case of graduate students, it will be awarded by the Dean, School of Graduate Studies upon recommendation of the Faculty Committee on Graduate Studies.

The Sally Davis Scholarship
The Sally Davis Scholarship has been established to celebrate the memory and life work of Sally Davis. Contributions to the scholarship fund have come from family and friends who were so lovingly and generously influenced by Sally during her long life. The scholarship, valued at $1,000.00, will be awarded annually in the Spring Semester. Eligible candidates must be full-time students in the Master of Gender Studies program. Preference will be given to a candidate studying in one of the following areas: peace and international understanding, literacy, children, labour movement, gun control, or environment. If there is no qualified graduate applicant in a particular year, the award may be offered to an undergraduate (who is registered in a minor in Gender Studies who is in financial need. An individual may receive the award twice but no more. In the case of graduates the award is made by the Dean of Graduate Studies upon recommendation of the Co-ordinator, Gender Studies Program. In the case of undergraduates, the scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Co-ordinator, Gender Studies Program.

The Department of Archaeology Scholarship
This scholarship, which is made possible by the Newfoundland Marine Archaeology Society, will be awarded annually to a full-time master’s student, who is in his/her second year of study in the area of Archaeology. Valued at $1,000.00 this scholarship will be awarded by the Dean of Graduate Studies based on a recommendation from the Head, Department of Archaeology on the basis of academic standing.

The Ernst R. Deutsch Memorial Scholarship in Geophysics
This scholarship is named in honour of Dr. Deutsch, a long-time faculty member at Memorial University of Newfoundland who passed away in 2000. Valued at a portion of the income on the investment the scholarship will be awarded annually to a senior undergraduate student in the Earth Sciences (or related field of Physics) whose concentration is Geophysics. If there is no qualified undergraduate student, the scholarship will be awarded to a full-time graduate student in Earth Sciences who has received an undergraduate degree...
from Memorial University of Newfoundland and whose area of concentration is Geophysics. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Head, Department of Earth Sciences in the case of an undergraduate student; in the case of a Graduate Student it will be awarded by the Dean of Graduate Studies on the recommendation of the Head, Department of Earth Sciences.

The Ruby Dwelling Memorial Award in Nursing
This award has been created in memory of Ruby Dwelling, a respected faculty member in the Memorial University of Newfoundland School of Nursing. Mrs. Dwelling taught in all areas of the program as a clinical instructor. She started her career by earning a diploma in Nursing at General Hospital and a post-RN diploma in Psychiatric Nursing at St. Vincent's Hospital in Toronto. A lifelong learner, Mrs. Dwelling, went on to earn a B.Sc. from Mount St. Vincent and an M.Sc. (Medicine) from Memorial University of Newfoundland. She remained deeply involved with nursing education throughout her life and serves as an exemplary model for the nursing profession. The award, valued at a portion of the income from the endowment, will be presented annually to a graduate student in the School of Nursing who is completing research in, or who has a passion for, community health and who meets the minimum academic requirements for an award. Preference will be given to a full-time student. The award will be made by the Dean of Graduate Studies upon the recommendation of the Director of the School of Nursing.

The Dr. David Dibbon Leadership Scholar Award
The David Dibbon Award, valued at $10,000 ($5000 per year for two years), has been established by his family, friends, colleagues and students to commemorate the life and work of Dr. David Dibbon, Dean of the Faculty of Education, 2008-2010. David was committed to research focused on improving schools and school systems in Newfoundland and Labrador and elsewhere. He had great dreams of what public education could be. He was passionate about enabling schools to become better places for students to learn and for teachers to work. He was a transformational leader and change agent committed to collaborative partnerships and teamwork. He had a gift of innovative thinking, a visionary spirit, and the tenacious patience required to successfully lead meaningful educational reform. It will be awarded in alternating years to a doctoral student in educational administration who holds Dr. Dibbon's ideals and has been accepted into Ph. D. studies in the Faculty of Education. $5000 will be awarded in year one, when the student begins full-time studies. The second $5000 will be awarded after successful completion of the oral comprehensive examination. The recipient will be “The David Dibbon Leadership Scholar” and will be expected to share his or her research findings with practitioners. The award will be made by the Dean of Graduate Studies upon the recommendation of the Dean of Education.

Craig Dobbins Memorial Scholarship for Master of Business Studies at the Waterford Institute and Memorial University of Newfoundland
This scholarship has been established by Mr. Pat O’Callaghan, the Ireland Business Partnership, the Ireland Newfoundland Partnership, the Provincial Department of Education, and Craig Dobbins family members in memory of Mr. Craig Dobbins. It will be awarded on an annually rotating basis to students at the Waterford Institute of Technology (WIT) and Memorial University of Newfoundland. In year one, and every alternating year thereafter, the scholarship will be awarded to a recent graduate (in the past 2 to 3 years) of one of the undergraduate business programs in the Faculty of Business Administration program or Grenfell Campus, Memorial University of Newfoundland who is accepted into the Master of Business program, at the Waterford Institute of Technology, Waterford, Ireland. In the event that there is no such candidate, the scholarship will be awarded to two Memorial University of Newfoundland exchange students (undergraduate or graduate) to study (one academic year) at the Waterford Institute of Technology. In year two, and every alternating year thereafter, the scholarship will be awarded to an undergraduate student from the Waterford Institute of Technology who will be selected to attend Memorial University of Newfoundland’s Faculty of Business Administration’s M.B.A. program. In order for a WIT student to complete the program in one year, they must have an honors undergraduate degree, or a business degree with significant academic standing. The student must meet Memorial University of Newfoundland’s M.B.A. admission requirements. The student may take two years to complete the degree; however, scholarship funding will be available for one year only. In the event that no such student is selected from the Waterford Institute, then WIT will select a business undergraduate or graduate student to complete a student exchange (one academic term) at the Faculty of Business Administration or Grenfell Campus, Memorial University of Newfoundland. Scholarship recipients will be required to complete and present a report on an aspect of the Ireland Newfoundland Partnership. In the case of Memorial University of Newfoundland undergraduate students, the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on the recommendation of the Dean, Faculty of Business Administration, and the Dean of Graduate Studies. Preference will be given to Canadian citizens and permanent residents.

Eaton Foundation Scholarship
This scholarship, valued at $1,500.00, is to be awarded to a student who has left full-time employment of five years or more to enter full-time studies in the MBA program, for completion or near completion of the degree. Selection of the candidate for the scholarship will be made on the basis of academic merit and financial need. Awards will be made on the recommendation of the Dean, Faculty of Business Administration, and the Dean of Graduate Studies. Preference will be given to Canadian citizens and permanent residents.

The Echos du Monde Classique/Classical Views Internship Fund
This fund jointly sponsored by the journal *Echos du Monde Classique/Classical Views* and the School of Graduate Studies, was established to support a full-time graduate student in Classics to train as an editorial intern with *EMC/CV*. It is awarded on the basis of academic standing to a full-time graduate student entering the Department of Classics and is valued at $10,000.00 per annum, paid over a period of three successive academic semesters. It may be renewed for one additional year. The internship will be awarded by the Dean of Graduate Studies on the recommendation of the editors of *Echos du Monde Classique/Classical Views*.

Ethnomusicology Award for Field Research
This fund has been established by Beverley Diamond and Clifford Crawley to advance research in ethnomusicology in Canada on the occasion of the beginning of graduate studies in the field at Memorial University of Newfoundland. One or more awards, valued at a portion of the income on the investment, will be awarded annually to full-time graduate ethnomusicology students in clear academic standing who wish to pursue field research. Selection will be made on the basis of a submitted research proposal. Application forms and guidelines for the grant (applicants are required to submit a two-page research proposal) are available from the School of Music. The deadline date for submissions of applications is March 31. If there are no suitable candidates in a given year the awards will not be awarded. The awards will be awarded by the Dean, School of Graduate Studies on the recommendation of the School of Music’s Scholarships and Awards Committee in consultation with the Interdisciplinary Advisory Committee for Ethnomusicology.

The Faculty of Business Administration Aboriginal Scholarship
A scholarship valued at $500 will be awarded to an Aboriginal resident of Newfoundland and Labrador in the Faculty of Business Administration. Eligible students must be in scholarship standing, be enrolled as a full-time undergraduate or graduate student in the Faculty of Business Administration at Memorial University of Newfoundland and provide confirmation of their Aboriginal status. In the case of undergraduate students, the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation from the Dean, Faculty of Business Administration. In the case of graduate students, the scholarship will be awarded by the Dean of Graduate Studies upon the recommendation from the Dean, Faculty of Business Administration.
The Faculty of Business Administration Jacinta Sheppard Fellowship

This fellowship, made possible through a donation by the Faculty of Business Administration, is in honour of Jacinta Sheppard, an MBA student who passed away in 1997 after a lengthy illness. While in the MBA program, Ms. Sheppard demonstrated academic excellence and a dedication to learning. This fellowship has a value of $1,000.00 annually, and will recognize a full-time student who, in the opinion of a Selection Committee, Faculty of Business Administration, has demonstrated these same qualities. The award will be made by the Dean of Graduate Studies on the recommendation of the Dean, Faculty of Business Administration.

The Dr. Alex Fasurk MBA Scholarship for Excellence in Service

The Dr. Alex Fasurk MBA Scholarship for Excellence in Service will be awarded annually to a full-time MBA student of scholarship standing who has demonstrated outstanding service through participation in student, faculty or university activities and/or contribution to the larger community. This award is in recognition of Dr. Fasurk’s contribution to the Faculty of Business Administration as Professor of Finance and Coach of MBA case competition teams. The value of this scholarship will be determined by the annual income derived from the endowment. It will be awarded by the Dean of Graduate Studies upon the recommendation of the Dean, Faculty of Business Administration.

The J. Bruce and Helen H. French Graduate Scholarship in Physics

This scholarship valued at the annual accrued interest on an initial endowment, will be awarded to a female student at any level of a graduate program in physics on the basis of excellence in both course work and research. If, in a particular year, a qualified female student is not available, the scholarship may be awarded to a male student who meets the other conditions. The scholarship will be awarded by the Dean of Graduate Studies upon the recommendation of the Head, Department of Physics.

The Fry Family Foundation MBA Leadership Scholarships

The Fry Family Foundation M.B.A. Leadership Scholarships, valued at $2500 each will be awarded annually to full-time students in the M.B.A. program at Memorial University of Newfoundland. The awards will be given on the basis of academic excellence and leadership, and preference will be given to residents of Newfoundland and Labrador. The recipients of these scholarships should demonstrate a good interest in, and a strong commitment to, Newfoundland and Labrador. The scholarships will be awarded by the Dean, School of Graduate Studies, upon the recommendation of the Dean, Faculty of Business Administration.

The P.J. Gardiner Award for Small Business and Entrepreneurship

This fund was established from contributions to the University’s Anniversary Fund to commemorate the memory of the late Peter Gardiner, a former Director of Memorial’s School of Business and a local entrepreneur. This award is valued at $5,000.00 annually and will recognize student creativity, innovation and entrepreneurship as evidenced by a student’s genuine interest in small business and entrepreneurship through the establishment or the intention to establish a new venture. Students in any program of study (graduate or undergraduate) are eligible. To apply for the P. J. Gardiner Award, students are to provide a written report or plan describing their venture. Award finalists will then be asked to make an oral presentation to the Award Selection Committee. The Award Selection Committee will consist of faculty members from the Faculty of Business Administration and the business community at large. In the case of undergraduate students, the awards will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards acting on the recommendation of this panel. In the case of graduate students the awards will be made by the Dean, School of Graduate Studies upon the recommendation of the Committee on Graduate Studies of the Faculty of Business Administration.

The Peter Gardiner Award for International Study

This fund was established from contributions to the University’s Anniversary Fund to commemorate the memory of the late Peter Gardiner, a former Director of Memorial’s School of Business. Interest from the fund will provide or two annual awards of $2,500.00 each to support Business students (graduate and/or undergraduate) to study at Memorial University of Newfoundland’s Harlow Campus or at another university outside Canada. In the case of undergraduate students, the awards will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, Faculty of Business Administration. In the case of graduate students, the awards will be made by the Dean, School of Graduate Studies upon the recommendation of the Faculty Committee on Graduate Studies.

Graduate Students’ Union Award for Academic Excellence

The award, valued at a portion of the income from the endowment, has been established by the Graduate Students’ Union (GSU) of Memorial University of Newfoundland to provide financial assistance and recognize outstanding contributions by graduate students. The GSU Award for Academic Excellence will be awarded annually to a full-time graduate student in any discipline at either the masters or doctoral level. Applicants must have demonstrated academic excellence and have made significant contributions to their field of study. The Award, based on financial need and academic excellence, will be made by the Dean of the School of Graduate Studies of the recommendation of the Awards and Medals Committee.

Graduate Students’ Union Award for Leadership

The award valued at a portion of the income from the endowment, has been established by the Graduate Students’ Union (GSU) of Memorial University of Newfoundland to provide financial assistance and recognize outstanding contributions by graduate students. The GSU Award for Leadership will be awarded annually to a full-time graduate student in any discipline at either the masters or doctoral level. Applicants must have demonstrated leadership ability, either through participation in student and university activities, and/or contribution to the larger community. The Award, based on financial need and outstanding leadership, will be made by the Dean of the School of Graduate Studies on the recommendation of the Awards and Medals Committee.

The Keith Griffiths Memorial Heart and Stroke Foundation Graduate Scholarship

This scholarship, established through a generous contribution by the Griffiths family, in partnership with the Heart and Stroke Foundation of Newfoundland and Labrador, is valued at $1000 per annum. The Griffiths family has established this scholarship in memory of their father, Keith Griffiths, a stroke survivor and dedicated volunteer. The scholarship will be awarded to a full-time graduate level student in the Faculty of Medicine, who is pursuing a research program in stroke and neurological issues related to stroke. Applicants must apply in writing, providing a statement of eligibility, as well as details of their area of research, and progress. The award will be made by the Dean of Graduate Studies on the recommendation of a committee including the Assistant Dean, Graduate Studies (Medicine) and the Graduate Program Coordinators (Medicine).

The Mary A. Griffiths Memorial Bursary Fund for Folklore Field Research (Graduate)

One of more bursaries valued at a minimum of $250.00 each will be awarded annually to graduate Folklore students who wish to pursue field research. The awards will be made by the Dean of Graduate Studies on the recommendation of the Head of the Department of Folklore. Selection will be made on the basis of a submitted research proposal as well as demonstrated financial need. Application forms and guidelines are available from and should be submitted to the Folklore Department. Deadline date for submission of applications is January 31. If there are no suitable candidates in a given year the bursaries will not be awarded.

The Professor Elmer Harp Jr. Legacy Collection's Award

Dr. Elmer Harp Jr. was one of Newfoundland and Labrador’s pioneer archaeologists. He conducted influential research on the Northern Peninsula and the Strait of Belle Isle, with a primary focus on Port au Choix. This award is given annually to a full-time student enrolled...
in graduate studies in Archaeology at Memorial University of Newfoundland. Preference will be given to candidates conducting thesis research using Dr. Harp’s legacy artifact collections from Port au Choix. It will be awarded by the Dean of Graduate Studies based upon the recommendations of the Head, Department of Archaeology.

The Michael Harrington Research Prize in Newfoundland History
This award was established by the family of Michael Francis Harrington Sr., journalist, author and Newfoundland historian. The prize is valued at a minimum of $500.00 and will be awarded annually to an undergraduate or graduate student doing research in Newfoundland history. To be considered, undergraduate students must be history majors planning to do research for a course in Newfoundland history or towards an honours thesis. Graduate students must be writing a thesis on some aspect of Newfoundland history. In some instances it may be awarded as a travel grant which will assist students with travel expenses incurred while undertaking their research. In the case of undergraduates it will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Head, Department of History. In the case of graduates it will be awarded by the Dean, School of Graduate Studies, also upon recommendation of the Head, Department of History.

The Professor Peter Hart Memorial Scholarship
This scholarship has been established in memory of Canada Research Chair in Irish Studies and Department of History Professor, Dr. Peter Hart. His work was marked by a commitment to writing well and accessibly, and by his innovative approach to research and analysis, particularly for opening up new questions through the application of social science methods and concepts to problems of Irish history. The scholarship, valued at a portion of the income on the investment, will be awarded annually to a full-time doctoral student in the Faculty of Arts. Candidates must meet the minimum academic requirements for the scholarship as defined by the University and applications must include academic transcripts, a research statement of no more than 500 words, a writing sample, two letters of reference and an academic CV. In the event of more than one eligible candidate, preference will be given to a student whose research focus falls into one or more of the following areas: Irish history or politics; Newfoundland and Labrador history or politics; political violence; or revolution. The Scholarship will be awarded by the Dean, School of Graduate Studies, on the recommendation of the Awards and Medals Committee.

The Dr. Austin J. Harte Memorial Scholarship
The Dr. Austin J. Harte Memorial Scholarship commemorates the memory of Austin Harte who was a member of the Faculty of Education, Memorial University of Newfoundland from 1991-1995. The scholarship, which is valued at one thousand dollars ($1,000.00), may be awarded annually to a student in a graduate program, in the Faculty of Education. In order to be eligible for consideration, candidates must be registered full time and satisfy all other conditions as stipulated by the University. The Scholarship will be awarded by the Dean, School of Graduate Studies upon the recommendation from the Dean, Faculty of Education. A special application is required and may be obtained from the Faculty of Education and/or the School of Graduate Studies. Deadline for Application: March 15.

A.G. Hatcher Memorial Scholarship
Normally, up to three A. G. Hatcher Memorial Scholarships are awarded annually commencing in the Fall Semester. The awards are to be made solely on the basis of high academic merit. Typically a minimum of a first class degree is required. One scholarship shall be awarded to an applicant who graduated with an undergraduate degree from Memorial University of Newfoundland, one to an applicant who graduated with an undergraduate degree from a Canadian university, and, one to an applicant who graduated with an undergraduate degree from a foreign university. The value of the scholarship is $15,000, and it may be held for one year only. Recipients holding a major external award of $15,000 or greater will retain $3,000 of the A. G. Hatcher Memorial Scholarship. One nomination from each category listed above, for these awards, should be forwarded to the Dean or Director by June 1st. Deadline for the Dean or Director to submit nominations to the School of Graduate Studies is June 15th.

The Rolf G. Hattenhauer Scholarship Fund
This fund was established by the Labour Management Co-operation Committee to commemorate the late Professor Rolf G. Hattenhauer, a well-known Newfoundland arbitrator who was actively involved in setting up the Committee. Professor Hattenhauer was a member of the Department of Commerce (later the Faculty of Business Administration) at Memorial University of Newfoundland from 1965 until his death in 1983, and during the year 1969-70 served as Head (pro tem) of the Department. The fund will provide scholarships and fellowships on a rotating basis in undergraduate and graduate studies in Business Administration.

In the case of the undergraduate scholarships, preference will be given to students in Terms 6 and 7 of the Bachelor of Commerce program who are majoring in Labour Relations. These scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of Business Administration.

In the case of the graduate fellowships, preference will be given to those students in the Master of Business Administration program who are concentrating in or conducting research on the area of personnel and industrial relations. The graduate fellowships will be awarded by the Dean of Graduate Studies on the recommendation of the Dean of Business Administration. If a suitable graduate student is not available in a given year the scholarship for that year may be awarded to an undergraduate student.

The Heart and Stroke Foundation Graduate Scholarship
This scholarship, established through a generous contribution by the Heart and Stroke Foundation of Newfoundland and Labrador, is valued at $1000 per annum. The scholarship will be awarded to a full-time graduate level student in the Faculty of Medicine, who is pursuing a research program related to heart health or heart disease. Candidates must apply in writing, providing a statement of research, supported by a reference letter from the applicant’s supervisor verifying the area of research and progress to date. Consideration will also be given to other related accomplishments. Applications shall be submitted to the Faculty of Medicine, Office of Research and Graduate Studies. The scholarship will be awarded by the Dean of Graduate Studies on the recommendation of a committee including the Assistant Dean, Graduate Studies (Medicine) and the Graduate Program Coordinators (Medicine).

The Jim Hood Memorial Scholarship
This scholarship was established through the generous bequest of Jim Hood, an alumnus and friend of the Faculty of Business Administration. Valued at a portion of the income on the investment, the scholarship is open to full-time undergraduate and graduate students in the Faculty of Business Administration who meet scholarship standing and who have been active in athletics at Memorial University of Newfoundland and/or graduate students must be writing a thesis on some aspect of community. In the case of the undergraduate student, the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of Business Administration. In the case of the graduate student, the scholarship will be awarded by the Dean of Graduate Studies on the recommendation of the Dean of Business Administration.

The Imperial Tobacco Canada Limited Graduate Scholarship in Business Studies
This Scholarship, valued at a portion of the income on the pre-existing endowment, was established from a generous donation made by Imperial Tobacco Canada Limited in 2000-2001. Two awards will be made annually to entering full-time M.B.A. students. This Scholarship may include, at the discretion of the donor, an invitation to their head office to meet their management team. Selection of the candidates will be made on the basis of academic merit. The award will be made by the Dean, School of Graduate Studies upon the recommendation of the Dean, Faculty of Business Administration.
The Dr. Ethel M. Janes Memorial Scholarship in Education (Graduate)

From a sum of money endowed to Memorial University of Newfoundland by the late Dr. Ethel M. Janes, one scholarship valued at $2,000.00 will be awarded annually on the basis of scholastic achievement. Dr. Janes, a Professor of Education at Memorial University of Newfoundland for twenty-eight years, devoted most of her professional career to study, research and teaching in primary and elementary education. Her contribution to the development of primary and elementary teacher education programs within the faculty was significant, as was her influence on primary and elementary education in the schools. Two generations of prospective teachers were her students. This scholarship will be awarded on the basis of academic standing in a first Memorial University of Newfoundland Education degree to a graduate student with a specialization in reading or language arts. In the event that in any given year no graduate student qualifies for the award, this scholarship will be awarded to an undergraduate student. Instalments of $1,000.00 each will be awarded in two successive academic terms; and the scholarship is renewable for two years, provided first-class standing is maintained. This award will be made by the Dean of Graduate Studies upon the recommendation from the Dean, Faculty of Education.

The JUNO Legacy Graduate Scholarship in Music

This award was established by the 2010 JUNO Awards Host Committee to support excellence in music. This scholarship, valued at $2,000 will be awarded annually to a full-time graduate student at the School of Music enrolled in the Master of Music (M.Mus.) program. The recipient must meet the minimum academic requirements for a scholarship as defined by Memorial University of Newfoundland. It will be awarded by the Dean, School of Graduate Studies on the recommendation of the Director, School of Music.

Law Foundation of Newfoundland and Labrador Legal Research Awards for Students of Memorial University

The Law Foundation of Newfoundland and Labrador annually offers up to seven Legal Research Awards valued at $500 each to students at Memorial University of Newfoundland. The awards are for outstanding research papers on one or more legal issues, or topics treated in a legal context, in a 2000 level course or beyond in any discipline at the undergraduate level and in any graduate course for students at the graduate level. The papers, submitted by and with endorsement of course, professor or lecturer will be judged initially by the Dean of the Faculty of Law. The top three by demand or preference and maximum demand recommendation to a special selection committee comprised of appointees of Memorial University of Newfoundland and the Law Foundation. Undergraduate students will receive a minimum of two awards and graduate students will receive one or more of the seven awards available annually. Preference will be given for one of the seven awards for outstanding research paper to an undergraduate student in their first year of studies. This student must be currently enrolled in, or have completed, the first year introductory course LWSO 1000: Law, Democracy and Social Justice when their paper is submitted for consideration. In the case of undergraduate students the Awards will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. In the case of graduate students the Awards will be granted by the Dean, School of Graduate Studies. In both cases they will act upon the recommendation of the Foundation’s selection committee.

The LGL Limited Scholarship in Marine Science

This scholarship, valued at $1,000.00, was established by LGL Limited. It will be awarded annually to a student in the Faculty of Science who is following a program of studies related to Marine Science. The successful candidate will be either a fourth year undergraduate student doing an honors program or a graduate student. Wherever possible, preference will be given to a student from a fishing family, but other students will be considered. In the case of undergraduate students the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing. In the case of graduate students the scholarship will be awarded by the Dean, School of Graduate Studies. In both cases it will be based upon a recommendation from the Dean, Faculty of Science.

The Dr. Jon Lien Memorial Scholarship

This entrance scholarship was established to commemorate the life and work of Dr. Jon Lien, C.M., O.N.L., through initial contributions by his friends, colleagues, students and family. Through his work at Memorial University of Newfoundland (1968-1996) Dr. Lien became an international leader in marine conservation and animal behavior. His pioneering methods to release entrapped whales from fishing gear – including the development of acoustic alarms to warn whales away from such entrapments – earned him unparalleled respect with both fishermen and scientists around the globe. His work brought talented students to Memorial University of Newfoundland, employing the them by demand or preference and maximum demand recommendation to a special selection committee comprised of the Dean of Science.

The Maritime Awards Society of Canada (MASC) Maritime Studies Scholarship

The Maritime Awards Society of Canada has established an annual scholarship tenable at Memorial University of Newfoundland. The successful candidate will be a Canadian citizen studying in a “maritime based” program at either the Masters or Doctoral level. This scholarship will have a value of at least $5,000.00 a year and in some cases may be renewed for a second year. It will be awarded by the Dean of Graduate Studies upon the recommendation of the appropriate Academic Unit.

Maritime History Internship

This fund, jointly sponsored by the Canadian Nautical Research Society and the School of Graduate Studies, is designated to support a graduate student in history to train as an editorial intern with the journal The Northerner Mariner/Le Marin du nord. It will be awarded on the basis of a graduate student who is currently enrolled in a graduate student standing in a history. The award will normally be made to an entering student, but may be made to a student already enrolled in the graduate program. Valued at $12,000.00 per year, it will be paid over a period of three successive academic semesters and may be renewed. Masters students may be renewed for one additional year and doctoral students may be renewed for up to two additional years. The internship will be awarded by the Dean of Graduate Studies on the recommendation of the editors of The Northerner Mariner/Le Marin du nord and the Department of History.

The Edgar Raymond Martin Memorial Scholarship in Music

This scholarship, valued at the annual interest on the endowment, has been established by Mrs. Helen MacLeod in memory of her brother Edgar Martin. Edgar completed a Bachelor of Science at McGill University, Montreal in 1942 and died later that year while serving aboard the S.S. Caribou which was torpedoed in 17 lives. Edgar was 19 years old and had a profound love for classical music. In his memory, this scholarship will be awarded to a full time graduate student in the School of Music. It will be awarded by the Dean, School of Graduate Studies based on a recommendation from the Dean, School of Music.

James and Muriel Martin Award in Music

The James and Muriel Martin Award was established through a generous gift to the School of Music by Mrs. Helen MacLeod, on behalf of her parents. James and Muriel Martin, lifelong residents of St. John’s, Newfoundland, were enthusiastic participants in the local music scene in the early half of the twentieth century. The award, valued at a portion of the income on the investment, will be given annually to a full-time graduate student (MA or PhD) enrolled in the ethnomusicology program, with preference to a student whose focus is on the research, collection or preservation of music in Newfoundland and Labrador. It will be granted by the Dean, School of Graduate Studies on the recommendation of the Dean, School of Music.
The Margaret D. McLean Scholarship

The Margaret D. McLean Scholarship, valued at the annual accrued interest on the initial endowment, is awarded to a graduate of the basic Bachelor of Nursing Program of Memorial University of Newfoundland. The successful candidate must be enrolled in a doctoral program of Nursing (or related field). In the event that an appropriate application from a doctoral candidate is not available, students enrolled in Master's Program in Nursing (or related field) who intend to obtain a doctorate, may be considered. The scholarship will be based on academic excellence in the Bachelor of Nursing Program and in any graduate courses completed. It will be awarded by the Dean of Graduate Studies upon recommendation of the Dean, School of Nursing.

Master of Gender Studies Graduate Travel Award

Funded through generous contributions to the Department of Gender Studies, this award is available bi-annually (one time in each of the Fall and Spring semesters) to full-time or part-time students enrolled in the two-year Master of Gender Studies program. This award is established to assist with travel to scholarly conferences for the purpose of presenting academic papers and/or posters. Successful applicants must be enrolled in the first two years of the Master of Gender Studies program and must submit the following criteria, with a copy of the Graduate Student Travel Assistance form, to the Department of Gender Studies: acceptance of a paper/poster presentation, written support of co-supervisors, relevance to the students' program of study and the estimated cost of travel. Students must meet the minimum academic requirements for an award and are eligible to receive this award one time only during the enrolment in the two-year Master of Gender Studies program. The deadlines for submission are December 1st and May 1st for the Fall and Spring semesters respectively. Successful applicants are eligible to receive up to $100 for travel within North America and up to $200 for travel outside of North America. It will be awarded by the Dean of Graduate Studies based on the recommendation of the Graduate Coordinator who will be advised by the Graduate Studies Advisory Committee.

The Medical Graduate Students’ Society Scholar and Community Involvement Award

The Medical Graduate Students’ Society of the Faculty of Medicine wishes to support graduate students in medicine through two annually funded awards. The awards will be given in the Fall of each year to full-time current graduate level students in the Faculty of Medicine, one to a Master’s student and one to a Ph.D. student. Candidates must apply in writing providing a statement of eligibility as well as details of their area of research and progress, a CV and a written paragraph about the candidate’s community involvement and participation in extracurricular activities must also be included. The Award will be made by the Dean of Graduate Studies on the recommendation of a Committee including the Assistant Dean, Graduate Studies (Medicine) and the Graduate Program Coordinators (Medicine).

The Medical School Essay Graduate Student Award

The Medical School Essay Graduate Student Award The Medical School Essay Award is supported by the K.B. Roberts Scholarship Fund which was established in appreciation of the contribution made to the Faculty of Medicine by Dr. Kenneth Roberts. The award, valued at a portion of the income on the endowment, will be awarded annually to any graduate medical student registered full-time in the current academic year following a competition in the form of an original essay or short monograph pertaining to any aspect of medicine or the medical sciences. The essay, not exceeding 5,000 words, should include an interpretative element that indicates the importance and relevance to Medicine, Health and Society. Should there be two essays that are of very high caliber but one is obviously the better provision may be made for an honourable mention award of lesser value. Submission deadline is July 31, in any given year, to the Office of Student Affairs HSC Room 2713. The award is made by the Dean of Graduate Studies on the recommendation of the Dean’s Advisory Committee on Awards, Bursaries and Scholarships in the Faculty of Medicine.

The Gordon Mertz Memorial Fellowship in Physical Oceanography

This fund was established as a memorial for Dr. Gordon Mertz by his family. Dr. Mertz was a Physical Oceanographer at the Northwest Atlantic Fisheries Centre of the Department of Fisheries and Oceans. Interest from the fund will be used to provide a fellowship which will be awarded annually on the basis of academic excellence to a full-time graduate student working in an area of Physical Oceanography with applications in Fisheries Oceanography or Marine Ecology. The fellowship will be awarded by the Dean of Graduate Studies upon recommendation of the Head, Department of Physics and Physical Oceanography.

The W.F. Morneau Scholarship

This scholarship, valued at the interest on the initial endowment, will be awarded by the Dean, School of Graduate Studies upon the recommendation of the Dean, Faculty of Business Administration to a Newfoundland student who has been granted direct entry on a full-time basis to Term 3 of the Master of Business Administration Program and who has exhibited a high level of ambition. Financial need may also be taken into consideration when awarding this scholarship.

The Shree Mulay Community Health Graduate Student Award

This graduate student award is established through the generous support of Dr. Shree Mulay, Associate Dean and Professor, Division of Community Health and Humanities, Faculty of Medicine. It is created to help students who wish to be full-time in the Community Health Programs meeting the funding requirements of the Office of Research and Graduate Studies, Faculty of Medicine. One graduate research scholarship will be given annually to incoming graduate students who meet the academic requirements and are eligible to receive the scholarship only once during their program. There will be one competition per year, coinciding with the Winter semester selection process. All incoming candidates accepted for the M.Sc. and Ph.D. programs in the Division of Community Health and Humanities (CHH) will be considered for this award in accordance with the terms and conditions as described above. The graduate program committees of CHH will make recommendations to Research and Graduate Studies (Medicine). The award will be made by the Dean of Graduate Studies on the recommendation of the Assistant Dean of Graduate Studies (Medicine).

The Neil Murray Graduate Research Award in Folklore

The Research Award, sponsored by the Newfoundland and Labrador Arts Council, is established to commemorate the energy of Neil Murray in his encouragement and promotion of our provincial folk music traditions. Open to students currently registered in the graduate program in folklore at Memorial University of Newfoundland, two awards of $250, or one of $500, will normally be given each year. These awards are designed to fund costs related to the accomplishment of, or the presentation of, research on the traditional performing arts, oral tradition, including song, dance, drama, or narrative, and/or the cultural traditions of the Newfoundland fishery. The awards, given on the basis of demonstrated academic merit and a research proposal or conference paper abstract demonstrating original, creative and innovative thought, will be made by the Dean, School of Graduate Studies upon the recommendation of the Head, Department of Folklore, who will be advised by the Selection Committee. Applications should be directed to the head, Department of Folklore. The deadline for application is March 1st each year.

The National Scholarship in Ocean Studies at Memorial University of Newfoundland

The federal Department of Fisheries and Oceans (DFO) has helped to establish The National Scholarship in Ocean Studies to be awarded to an outstanding Ph.D. candidate in an aspect of ocean studies which may include: chemistry, biochemistry, biology, physics, earth sciences, geography, economics or engineering. The award valued at $18,000 per annum for a maximum of three successive years may be held in conjunction with other major awards. The award is made only on the basis of academic excellence and the
successful candidate must exhibit and maintain first-class standing. Guidelines and applications for the scholarship are available from the School of Graduate Studies. Final selection of the candidate will be made by a committee which reports to the Dean of the School of Graduate Studies. A one-time grant of up to $2,000 may be made in support of travel to appropriate conferences where the student is presenting research findings. Deadlines for applications will be July 1 in any one year when the scholarship is available, and application should be made on appropriate forms available from the School of Graduate Studies.

The Newfoundland and Labrador Neurotrauma Initiative Award
This award, valued at a portion of the income on the investment, is made possible by a generous endowment from the Newfoundland and Labrador Neurotrauma Initiative Program, a partnership between the Rick Hansen Man in Motion Foundation, the Canadian Paraplegic Association, the Brain Injury Association and the Government of Newfoundland and Labrador. The award will be available on an annually rotating basis between undergraduate and graduate students, with first preference given to a student who has been identified with a brain or spinal cord injury. For undergraduate students an application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships. Graduate Students are required to apply specifically to the School of Graduate Studies, Room IIC-2021, Bruno Centre for Research and Innovation, (709) 864-2100. If no candidate is available with a brain or spinal cord injury, preference will be given to a student who is studying in any field related to neurotrauma. If it is not awarded at the level of study (i.e. graduate/undergraduate) on rotation in a given year, it may be awarded to a student studying at the other level for that year. In the case of undergraduates, the award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. In the case of graduates it will be awarded by the Dean, School of Graduate Studies on the recommendation of the Awards and Medals Committee. This award is open to part-time or full-time students with clear academic standing.

The Elizabeth A. Newlands Memorial Scholarship in Social Work
This scholarship has been named to honour the late Mrs. Elizabeth Newlands, one of the first graduates of the B.S.W. Program as Memorial University of Newfoundland. Valued at a minimum of $1,000.00 annually, it will be awarded on the basis of academics to either a graduate or undergraduate student enrolled in the School of Social Work. If granted to an undergraduate it will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. If awarded to a Graduate Student, it will be awarded by the Dean, School of Graduate Studies. In either case the scholarship will be awarded on the basis of an appropriate recommendation from the Dean, School of Social Work.

The Nopah Consulting Limited Bursaries in Earth Sciences
Three bursaries, valued at $2,500 each, will be awarded annually to full-time graduate students who are enrolled in a masters program in the area of geology and whose topic of research is directly related to Newfoundland and Labrador. These bursaries will be awarded on the basis of demonstrated financial need and academic standing. They are tenable at Memorial University of Newfoundland and may be renewable for a second year. They will be awarded by the Dean of Graduate Studies, on the recommendation of the Head, Department of Earth Sciences.

Dermot O’Reilly Legacy Award
The award, valued at a portion of the income on the investment, is established through funds raised by family, friends and music lovers, in Dermot O’Reilly’s memory after his untimely passing in 2007. Dermot chose to make Newfoundland his home in 1971 where he found here a kinship to the Dublin of his youth in the people, music and songs. Here, his life was music. He delighted in sharing music with others and was a mentor to many aspiring musicians. Dermot’s friends and family carry on his legacy by creating this award to encourage and support the promotion of traditional music, oral tradition and dance in Newfoundland and Labrador. It will be given annually to a student or group of students enrolled in the School of Social Work. It is intended to support the costs of study and travel to the province by demonstrating leadership and creativity in the tradition-bearer community. To be considered, candidates must apply no later than February 1. Applications are available at the Undergraduate Scholarships and Awards Office. The scholarship is awarded by the Dean of Graduate Studies on the recommendation of the Scholarship Committee. It will be awarded to a student in second year or beyond who plans to pursue one of the above noted areas of specialization. In the case of graduate students it will be awarded to a full-time student doing the Masters of Arts in one of the disciplines noted. If the successful candidate is an undergraduate, the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. If the winner is a graduate student, it will be awarded by the Dean, School of Graduate Studies. In both cases it will be awarded on the basis of a recommendation from the Dean, Faculty of Arts.

The Senator Gerald R. Ottenheimer Language Scholarship
This scholarship, valued at the annual interest on the initial endowment, has been established via The Opportunity Fund in memory of Senator Ottenheimer through the generosity of White Ottenheimer & Baker, Barristers & Solicitors. It will be awarded on a rotating basis to students majoring in one of the language programs of the English Language and Literature programs at Memorial University of Newfoundland (graduate or undergraduate). At the undergraduate level, it will be awarded on the basis of scholarship standing to a student in second year or beyond who plans to pursue one of the above noted areas of specialization. In the case of graduate students it will be awarded to a full-time student doing the Masters of Arts in one of the disciplines noted. If the successful candidate is an undergraduate, the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. If the winner is a graduate student, it will be awarded by the Dean, School of Graduate Studies. In both cases it will be awarded on the basis of a recommendation from the Dean, Faculty of Arts.

The Stuart O. Pierson Prize
The Stuart Pierson prize, valued at a portion of the annual interest, will be awarded annually on the joint recommendation of the Head of the School of Graduate and Postgraduate Studies and the Masters of Philosophy Program in Humanities. Eligible students will be enrolled full-time, in either the Masters of Philosophy Humanities program, or in the MA or BA Hons. programs in History. Preference will be given to students who show particular promise in the history of ideas, historiography, or the history of science. In the case of undergraduate students, the scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. If the winning is a graduate student, it will be awarded by the Dean, School of Graduate Studies.

The Dennis R. Prince Memorial Scholarship
The Dennis R. Prince Memorial Scholarship has been made available by the Prospectors and Developers Association of Canada, Falconbridge Ltd., the Porcupine Prospectors and Developers Association, the mining community, colleagues, friends and family of the late Dennis Prince. Dennis graduated from Memorial University of Newfoundland in 1970 with a B.Sc. Honours degree. He led a distinguished career as a geologist with twenty-nine years at Falconbridge Ltd. The annual scholarship, valued at $2,000.00 and an engraved Brunton compass, will be awarded to a final year student specializing in mineral exploration and development in the honours program of the undergraduate degree in Earth Sciences at Memorial University of Newfoundland. If there is no qualified undergraduate student a graduate student who has been accepted for post-graduate studies in mineral exploration and development at Memorial University of Newfoundland and who intends to pursue a career in the mineral industry, will be considered. The qualifying student must demonstrate scholarship standing, strong personal values including a strong work ethic and high personal integrity. Active participation and leadership in geological associations and activities such as The Murray Geology Club and the Geological Association of Canada may be taken into consideration as well as financial need. In the case
of undergraduates the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. In the case of graduates it will be awarded by the Dean, School of Graduate Studies. In both cases it will be based on a recommendation from the Head, Department of Earth Sciences in consultation with the PDAC and the Prince family.

**Professional Engineers and Geoscientists Newfoundland and Labrador Past Presidents’ Geoscience Scholarship**

This scholarship valued at a minimum of $1,000.00 was established by the Professional Engineers and Geoscientists Newfoundland and Labrador. It is awarded annually on the basis of scholarship standing to a Geoscience student at Memorial University of Newfoundland. It is open to either graduate or undergraduate students in any given year and will be allocated as such at the discretion of the Department Head. In the case of undergraduates, the scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Head, Department of Earth Sciences in consultation with PEGNL. In the case of graduates it is awarded by the Dean of Graduate Studies upon recommendation of the Head, Department of Earth Sciences, in consultation with PEGNL.

**The Gar Pynn Scholarship in Business**

This endowed scholarship is made possible through a very kind donation to Memorial University of Newfoundland by an anonymous donor in recognition of Professor Pynn's contribution to the Faculty of Business Administration over his 27 years of service. A scholarship valued at approximately $2,000.00 will be awarded annually to a full-time student at the end of his or her first year of full time study in the M.B.A. Program. It will be awarded to the student who has best demonstrated a combination of academic excellence, significant contributions to the faculty and leadership in student life within the M.B.A. Program. The scholarship will be awarded by the Dean of Graduate Studies upon the recommendation of the Dean, Faculty of Business Administration.

**The Rothermere Foundation Fellowships**

These Fellowships, the gift of the first Chancellor of the University, have been established to aid and encourage students who have taken their first degree at this University to pursue their studies for a British higher degree at a university of their choice in the United Kingdom. It is not intended that students who have obtained most of their education in Britain be eligible for a Fellowship. Awards are made by the Rothermere Fellowships Trust, on the recommendation of the President of Memorial University of Newfoundland.

The conditions of the award are as follows:

1. Candidates shall have completed a bachelor's degree at Memorial University of Newfoundland and have completed or be about to complete a master's degree either at Memorial University of Newfoundland or at another university in North America.
2. Fellowships will be awarded only to candidates who are proceeding to the United Kingdom to work for a British higher degree. Fellowships will not be awarded to candidates who wish to extend their stay in Britain to obtain a further British higher degree.
3. The awards will be restricted to a maximum tenure of three years or the period requested in the candidate's application, whichever is the lesser. Continuation beyond the first year will depend on certification of competence and satisfactory progress.
4. Candidates must accept and complete the term of years for which the Fellowship has been awarded unless the requirements for the qualifications for which the Fellowship was awarded have been completed before the term expires. No interruption of tenure or postponement of the date of commencement of the Fellowship will be allowed.
5. One Fellowship is usually awarded each year.
6. The value of the stipend is currently £14,514 per annum, plus tuition fees. The fees will be paid direct to the university concerned upon receipt of an invoice. The stipend will be credited to the Fellow's banking account in quarterly instalments.
7. The Trust will pay for a return airfare, economy class, for Fellows from Newfoundland to England, and back to Newfoundland in each year of their Fellowship (a year being twelve months from the start of the Fellowship and every twelve months of the Fellowship thereafter). Flights must be economy return. The Trust will reimburse the airfare in the final year of award, on the proviso that the student must use the return portion to travel back to Newfoundland within one month of completing the Fellowship.
8. Completed applications must be submitted in duplicate to this office before the 30th of November and must be accompanied by the following documentation, also in duplicate:
   a. an official transcript of marks from Memorial University of Newfoundland and from any other university attended;
   b. a letter of recommendation from the dean of the faculty or school in which the applicant was registered as an undergraduate at Memorial University of Newfoundland;
   c. a letter of recommendation from the head of the department in which applicant majored as an undergraduate at Memorial University of Newfoundland and;
   d. a letter of recommendation from the applicant's present master's level supervisor;
   e. as indicated in Section 15 of the application, applicants must submit a personal statement on how their research will contribute or be of value to Newfoundland and Labrador. The statement must also contain a section on the candidate's commitment to Newfoundland and Labrador.

Note that additional letters of recommendation and other information in support of the application may be submitted at the applicant's discretion. Applicants are encouraged to begin the process of applying to universities in the United Kingdom before submitting the Rothermere Fellowship application.

Further information may be obtained by writing Margot Brown, Executive Director/Assistant to the President, Room AA2028, Arts and Administration Building, Memorial University of Newfoundland, St. John's, NL, A1C 5S7, or by telephone to (709) 864-8216, or by fax to (709) 864-2059, or by e-mail to mbrown@mun.ca.

**Royal Bank Fellowship in Marine Studies**

This fellowship is provided through the generosity of the Royal Bank of Canada. It is valued at $5,000 and is open to full-time graduate students in fields related to marine studies including, but not limited to, marine biology, aquaculture, biopsychology, fisheries resource management, maritime history, cold ocean engineering, folklore and naval architecture. The award, given on the basis of academic merit, will be made by the Dean of the School of Graduate Studies upon recommendation from the Head of the appropriate academic units in the above noted areas. The award is not renewable but re-applications will be considered.

**The Very Reverend Edward and Marjorie Rusted Harlow Travel Award**

This is an award for graduate students who wish to travel to Harlow either to undertake graduate thesis-related research or who have enrolled in a graduate course that is offered at the Harlow Campus. One award of $2,000.00 will be made annually to help defray the expenses for airfare and accommodation. Applications are to be made to the Dean of Graduate Studies and must be received by April 30th. Details of application are available from the School of Graduate Studies. The award will be made upon the recommendation of the Dean's Advisory Committee on Medals and Awards.
Sceptre Investment Counsel Limited Bursary
Sceptre Investment Counsel, one of Canada's leading pension and mutual fund managers and an important partner to Memorial University of Newfoundland for several years, has established this bursary as a demonstration of its commitment to community support. Valued at the accrued interest on their endowment, one or more bursaries will be awarded annually on a rotating basis between undergraduate and graduate students in any field of study. Successful candidate(s) must be Newfoundland residents demonstrating financial need and displaying qualities of leadership. In the case of undergraduates, it will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards using scholarship standing as the primary determinant. Graduate students can make application in writing to the Dean of Graduate Studies. The award will be made by the Dean on the recommendation of the Awards and Medals Committee.

School of Graduate Studies F.A. Aldrich Fellowships
Six to eight fellowships valued at $20,000 per annum on the doctoral level and $15,000 on the masters level will be awarded to incoming full-time Canadian students. Renewal for one year at the doctoral level will be possible. These fellowships were established to celebrate the centenary of the University of Newfoundland’s first Dean of Graduate Studies, Dr. F.A. Aldrich (1970-1987). Recipients will be selected by the Dean of the School of Graduate Studies, on the recommendation of the Awards and Medals Committee, on the basis of exceptional academic achievement.

School of Pharmacy Millennium Graduate Fellowship
This fellowship, valued at the annual accrued interest on an initial endowment from the School of Pharmacy, is to be awarded to a full-time graduate student in Pharmacy and will be in addition to any other graduate student support held. The award is made on the basis of academic excellence in both course work and research (equally). This fellowship is not renewable for students in the master's program, but is renewable once for students in the Doctoral program. All full-time graduate students at the School of Pharmacy are eligible to apply for this award. In case of candidates with equal qualifications, preference will be given to Canadian citizens and permanent residents. The award will be made by the Dean of Graduate Studies on the recommendation of the Dean of the School of Pharmacy.

The Scotiabank Bursaries for International Study
These bursaries, funded by a generous donation from Scotiabank to The Opportunity Fund, are intended to help students broaden their educational experience and cultivate an international perspective through study abroad while pursuing studies in the Faculty of Arts at Memorial University of Newfoundland. Fifteen or more bursaries will be available with approximately ten at the undergraduate level valued at $1,000.00 each and five at the graduate level valued at $2,000.00 each. The undergraduate bursaries will be awarded on the basis of scholarship standing to full-time students who are participating in one of the overseas Field Schools or study abroad opportunities sponsored by the Faculty of Arts. These include the Arts semester in Harlow (every Fall) as well as Summer programs at Harlow and in other countries such as Ireland, Malta, Russia, etc. In addition, students wishing to participate in formal exchange programs through the faculty of Arts, such as those with the University of Keele, will also qualify. The graduate bursaries will be based on academics as well and will assist full-time Faculty of Arts master's and doctoral students (including those in interdisciplinary programs) to travel to other countries for the purpose of thesis research and thesis-related study. In both cases financial need may be taken into consideration. In the case of undergraduates the bursaries will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. In the case of graduates the bursaries will be awarded by the Dean of the School of Graduate Studies. In both cases the bursaries will be awarded on the basis of a recommendation from the Dean, Faculty of Arts.

The Dr. Jorge Segovia Scholarship in Health Services Research
This scholarship has been established in honour of Dr. Jorge Segovia (former Associate Dean of Community Health and Professor Emeritus of Social Medicine). It is valued at $500.00 annually and will be awarded to any full-time graduate student doing Health Service Research at Memorial University of Newfoundland. The recipient of this scholarship will be selected on scholarship standing through such accomplishments as best paper, best thesis, or best research project. The scholarship will be awarded by the Dean, School of Graduate Studies, on the recommendation of the Dean, Faculty of Medicine, in consultation with the Associate Dean Community Health.

The Dr. Robert W. Sexty Scholarship for Social Responsibility
The scholarship, valued at a portion of the income on the investment, will be awarded annually to a full-time or part-time student enrolled in a baccalaureate or graduate business program. The scholarship will be awarded to a student who has demonstrated commitment to social responsibility through academic achievement in a social responsibility course or ethics in business related courses, or successful completion of an M.B.A. research project relating to social responsibility, or involvement in social responsibility as exemplified through university or community service. In the case of undergraduate students, the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and the recommendation of the Dean, Faculty of Business Administration. In the case of graduate students the scholarship will be awarded by the Dean, School of Graduate Studies on the recommendation of the Dean, Faculty of Business Administration.

Dr. Alfred K. Snelgrove Graduate Scholarship in Earth Sciences
A bequest from Dr. Alfred K. Snelgrove makes possible up to two scholarships, valued at $5,000.00 per annum, for students applying for or enrolled in a graduate program in the Department of Earth Sciences. These scholarships are intended primarily for Canadian citizens or permanent residents, and are awarded by the Dean of Graduate Studies on the recommendation of the Head of the Department of Earth Sciences. The scholarships are tenable for one year, and may be renewed. They may be held in addition to other scholarships and fellowships, and will be awarded only to applicants whose academic excellence and research potential can be clearly demonstrated.

Special Scholarships for Students to Pursue Graduate Studies Related to Resource Development
The "Special Scholarships for Students in the Sciences Related to Resource Development" will be in the amount of $7500.00 annually for students registered in full-time post-graduate studies at Memorial University of Newfoundland, in programs leading to the Master's and/ or Doctorate degrees in the Sciences related to Resource Development. A scholarship may be renewed and awarded for one additional year only. The scholarships are to be tenable at Memorial University of Newfoundland, but under special circumstances may include approved studies abroad. Eligible candidates normally should be residents of the province, or should have been resident in the province for at least three years prior to entering the program, excluding time spent at post-secondary institutions. Candidates will normally have a First-Class Undergraduate Degree, or a Second-Class Degree with First-Class standing in courses in their major field of study. Candidates should apply for the scholarships to the Office of the Dean of Graduate Studies, Memorial University of Newfoundland.

The St. John's Maple Leafs Legacy Scholarship
This scholarship was established by the Leafs Foundation Inc. and the St. John's Maple Leafs Booster Club to recognize the contribution of the St. John's Maple Leafs hockey team to youth and community in the Province. Valued at a portion of the income on the investment, the scholarship is open to full-time undergraduate or graduate students in the Faculty of Business Administration who meet scholarship standing and who have been active in athletic or extracurricular activities at Memorial University of Newfoundland and/or in the community. In the case of undergraduate students the scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of the Faculty of Business Administration. In the case of
graduate students, the scholarship will be awarded by the Dean of Graduate Studies on the recommendation of the Dean of the Faculty of Business Administration.

**Dr. Howard Strong Memorial Postgraduate Geriatric Psychiatry Scholarship**

This scholarship has been established through generous gifts from colleagues, classmates, friends and family of Dr. Howard Strong, a well-known geriatric psychiatrist and member of the first medical graduating class at Memorial University of Newfoundland. The scholarship will be awarded annually to the resident who is rated by the faculty as having the best performance in the Geriatric Psychiatry rotation during the psychiatry residency training program in the Faculty of Medicine at Memorial University of Newfoundland. It will be by the Faculty of Medicine Postgraduate Medical Education Committee on the basis of a recommendation from the Discipline of Psychiatry and with the approval of the Dean of Medicine. The Office of Postgraduate Medical Education will oversee administration of the scholarship.

**TD Graduate Bursary for Environmental Study**

The TD Graduate Bursary for Environmental Study was established by a gift from TD Bank Group to Dare To: The Campaign for Memorial University. The bursaries will be awarded to full-time graduate students enrolled in any program at Memorial University of Newfoundland, provided they are pursuing research and/or study in environmental-related subjects. Recipients must meet the academic criteria for a Bursary. The number and value of the bursaries available each year will depend on the funds available for distribution as per University policy, as well as the applicant pool, and will be determined at the discretion of the Dean, School of Graduate Studies. The bursaries will be awarded by the Dean, School of Graduate Studies based on recommendations of Deans and/or Department Heads of any eligible discipline.

**The Dr. Anna C. Templeton Memorial Graduate Scholarship**

This fund was established from a bequest to the University by Dr. Anna C. Templeton. Awarded annually and valued at approximately 75% of the earned interest, the scholarship is open to full-time graduate students in any year of their program who are residents of Newfoundland and Labrador. Preference will be given to students who have demonstrated leadership in teaching, promotion or development of craft or home economics in the province of Newfoundland and Labrador. Normally the award will be made to a student in the Faculty of Arts, the Faculty of Science, the School of Social Work or the Grenfell Campus, or the Fisheries and Marine Institute. The scholarship will be awarded by the Dean, School of Graduate Studies upon recommendation from the head of appropriate academic units in the above-noted areas. The award is not renewable, but reapplications will be considered.

**The Dr. Wilfred Templeman Memorial Scholarship**

In commemoration of the 15th Anniversary of the cod moratorium, the Provincial Government has created this award in honour of Dr. Wilfred Templeman, a pioneer of fisheries research in Newfoundland and Labrador. This scholarship will be available to full-time students pursuing a graduate program in which groundfish research is the primary focus. Successful applicants will receive $2,500 per year for a maximum of two years work for towards a graduate degree in a program appropriately related to the stated goals of the scholarship. The application should contain a brief description of the research being undertaken towards the graduate degree and a statement of how the research is consistent with the goals of the scholarship donor. Candidates should apply for the scholarship to the Office of the Dean of Science no later than the last day of December of the first academic year of their graduate program. Awards will be made by the Dean of Graduate Studies on the recommendation of the Dean of Science.

**The J. Beryl Truscott Graduate Scholarship**

This fund is established in memorial to J. Beryl Truscott, a long-time employee of the Marine Sciences Research Laboratory, and is administered by the School of Graduate Studies. It is valued at $2000.00 and is normally awarded annually to a full-time student pursuing a graduate program in either Chemistry or Biochemistry. Awards will be made by the Dean of Graduate Studies based upon recommendations from the Head, Department of Biochemistry and the Head, Department of Chemistry.

**The Leslie Tuck-Avian Ecology Award**

This endowed scholarship is named in honour of the late Dr. Leslie Mills Tuck, the first Dominion Wildlife Officer and Canadian Wildlife Service Officer in Newfoundland and Labrador. Author of two definitive and award-winning books on Newfoundland birds, *The Murres* (1919) and *The Auks* (1922), Leslie Tuck was a J.L. Paton Research Chair in the Department of Psychology following his retirement from the Canadian Wildlife Service, and a member of the Natural History Society of Newfoundland and Labrador which he was instrumental in sustaining. The award, valued at $1,000 annually, will be made by the Dean of Graduate Studies on the recommendation of the Dean of Science. A committee appointed by the Dean of Science shall select a nominee on the basis of a 500 word essay on the student’s research and its relevance to the avian ecology and ecosystem preservation in Newfoundland and Labrador. Eligible candidates must be full-time graduate students in biology, biotechnology, or psychology. The winning essay will be published in The Osprey, the quarterly publication of the Natural History Society of Newfoundland and Labrador.

**University Support**

A limited amount of University Support may be awarded to full-time students working toward graduate degrees at this University. Awards will be made by the Dean of Graduate Studies on the recommendations of Departments. These awards may be supplemented by remuneration for extra duties performed in the Departments at the discretion of Department Heads.

**Dr. Harrison Hedley Way Scholarship**

This scholarship was established by a generous donation from Dr. Elizabeth (Way) Johnson in the name of her late father, Dr. Harrison Hedley Way of Bonavista, NL. In the early 1970’s, he was invited to establish and direct the Department of Educational Psychology within the Faculty of Education at Memorial University of Newfoundland; a post he held for fifteen years. Dr. Harrison Hedley Way was a financial supporter of young Newfoundlanders and Labradoreans who pursue higher education, and this scholarship will ensure that this principle remains in perpetuity. The scholarship will be awarded annually to a full-time student who has graduated from a Newfoundland high school. The student must be enrolled full-time in the Counseling and Psychology program in the Faculty of Education at Memorial University of Newfoundland. Preference will be given where financial need is demonstrated. The recipient must meet the minimum academic requirements for a scholarship as outlined by the University. This scholarship will be awarded by the Dean of the School of Graduate Studies on the recommendation of the Dean, Faculty of Education.

**The Josephine Welch Research Initiative Award**

The Josephine Welch Research Initiative Award, established by Dr. David Behm, is valued at $500. It will be awarded annually to a full-time graduate student enrolled in the Master of Kinesiology program who has demonstrated the greatest initiative towards publishing research. This can include submitted or published papers, abstracts or data collection. This award will be made by the Dean, School of Graduate Studies on the recommendation of the Dean, School of Human Kinetics and Recreation. It will be presented at the School of Human Kinetics and Recreation Awards Ceremony in November.

**The George Weston Graduate Scholarships**

Two scholarships valued at a minimum of $2,000.00 each, will be awarded annually to full-time graduate students, one in the field of Marine Biology and one in the field of Marine Engineering. These students must have been born in one of the Atlantic Provinces. Tenable at Memorial University of Newfoundland, these scholarships will be awarded by the Dean of Graduate Studies upon recommendation from the Deans of Science and Engineering.
Women's Association of Memorial University of Newfoundland Graduate Student Scholarship
Two Master's level and two Ph.D. level scholarships valued at $1,200.00 each are awarded annually to full-time students entering a program in the School of Graduate Studies. Of the Master's level awards, one shall be for a thesis program, and one for a non-thesis program. Financial need as well as scholarship standing will be taken under consideration. The awards will be made upon the recommendation of the Dean of the Graduate Studies.

The Wood Gundy Scholarship for Graduate Business Students
The Wood Gundy Scholarship for Graduate Business Students will be awarded annually to an MBA student of scholarship standing who has demonstrated leadership ability through participation in student, faculty or University activities and/or contribution to the larger community. Preference will be given to students with a demonstrated career interest in the area of finance. The value of this scholarship will be determined by the annual income derived from the initial endowment. It will be awarded by the Dean of Graduate Studies upon the recommendation of the Dean, Faculty of Business Administration.

The Works Varsity Athletics Award
This annually funded award has been established in 2012-13 by the Works, with support from The Office of the President of Memorial University of Newfoundland for a minimum period of five years. Valued up to full-tuition and fees, the fund has been established to assist coaches in recruiting student-athletes for the University's varsity teams. To be eligible for these awards, returning athletes must be a current member of a Memorial University of Newfoundland Sea-Hawks athletic team and have achieved a minimum average of 85% based on the previous academic year of study at Memorial University of Newfoundland. First-year athletes may also be eligible to receive the award provided they have a minimum final admission average of 80%. First-year athletes who do not meet the minimum 80% final admission average may be eligible to receive the award following the release of Winter grades as long as the full-time student athlete earns a 65% average on all coursework. This is a one-time allowance. In granting this award, preference will be given to student athletes who have demonstrated leadership, athletic ability and overall commitment to teammates. For undergraduate students, the award will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on recommendation of the Director of Athletics. For graduate students, the award will be granted by the Dean, School of Graduate Studies on recommendation of the Director of Athletics.

Dr. Lynda Younghusband Counselling Award
The Dr. Lynda Younghusband Counselling Award has been established by Dr. Younghusband to promote the counseling profession and to improve access to the national conference for students. This award will be given to either a full-time or part-time graduate student enrolled in the Master of Education (Counselling Psychology) program and who is attending the national conference of the Canadian Counselling Association to present a scholarly paper or poster. The recipient must meet the academic requirements for an award. It will be awarded by the Dean of Graduate Studies upon the recommendation of the Dean, Faculty of Education.

11.2 Graduate Awards Administered By Other Authorities

The Association of Registered Nurses of Newfoundland Education and Research Trust Scholarship
A $1000.00 scholarship is available from the A.R.N.N. for students pursuing graduate studies in Nursing. The application form is available in writing from The Association of Registered Nurses of Newfoundland, P.O. Box 6116, St. John's, NL, A1C 5X8 or by telephone to (709) 753-6040.

The Bowring/Harlow Scholarship
The Board of C.T. Bowring & Co. Ltd., London, England, together with Mr. Edgar Bowring and Mr. Peter Bowring, former Chairmen of that Company, have made available to Memorial University of Newfoundland, through the Harlow Campus Trust, a grant to establish a scholarship fund for students at the post-baccalaureate level who wish to live at the University's Harlow Campus while undertaking approved studies in Great Britain. It is hoped that interest on the fund will finance up to two annual scholarships of £600 each. In special circumstances the interest may be applied to a single award. In making the award, scholastic achievement and financial need will be considered. The scholarship will be awarded by the Dean of Graduate Studies and the Co-ordinator of Harlow following recommendations from the Faculties/Schools responsible for the applicants' academic programs.

Canadian Federation of University Women (Saint John, NB) Lillian D. & Charles R. Bone Memorial Scholarship for Post-Graduate Study - $1,500
The Canadian Federation of University Women - Saint John offers this scholarship to a female student who is entering a Post-Graduate Degree Program. Eligible candidates must have graduated from a New Brunswick School District 8 High School or be a resident in the greater Saint John area.

The Canadian Gerontological Nursing Association
Sancellia/CIGNA Nursing Scholarship - 2 awards of $1000.00. The purpose is to provide support to outstanding Registered Nurses undergoing further education in either an undergraduate nursing degree program, or a post graduate degree program that is relevant to career development in the field of Gerontological Nursing. The candidate must:
- Be a member of the Canadian Gerontological Nursing Association.
- Be admitted to a program for undergraduate or graduate studies in a Canadian Province.
- Have gained acceptance to a suitable full-time program in a recognized educational institution at the time of taking up the award.
- Exhibit interest in and potential for, a career in Gerontological nursing in Canada.
- Be a Canadian citizen or permanent resident at the time of taking up the award.

The scholarship is administered by the CIGNA and further information regarding criteria can be obtained in writing to CGNA, c/o Nancy Bol, Parkwood Hospital, 801 Commissioners Rd. E., London, Ontario N6C 5J1

Canadian Institutes of Health Research (CIHR)
The Council awards each year a number of awards, grants, fellowships, and scholarships in the area of health related fields to those undertaking graduate study and research leading to advanced degrees. Further information and applications are available from their website at www.chir-irsc.gc.ca.

Canadian Nurses Foundation Scholarships & Fellowships Competition
Scholarships and fellowships are awarded to nurses pursuing education at the baccalaureate, master and doctoral levels. In addition to non-specific studies, awards are available for specific area of practice such as northern nursing, occupational health, dialysis nursing, neonatal nursing, oncology nursing, community health, gerontology nursing, pediatric nursing and nursing administration. Applications must be members of CNA and CNF, be Canadian citizens and agree to work in Canada for a period of one year for each year of financial assistance. Application forms are available from their website www.canadiannursesfoundation.com or in writing to Canadian Nurses Foundation, 50 Driveway, Ottawa, Ontario K2P 1E2 or by telephone to (613)237-2133 or by fax to (613)237-3520.
Chevron Canada Limited Rising Star Awards

The Chevron Canada Limited Rising Star Awards were established through a generous contribution from Chevron Canada Limited. Six awards, valued at $15,000 a year (renewable for a second year), will be awarded annually to full-time graduate students who are enrolled in a Masters or Doctoral program in the areas of Earth Sciences, Engineering and Applied Science, Economics, and Business. The awards will be awarded on the basis of academic merit, demonstration of strong potential to carry out meaningful research, expression of interest in potential employment in the oil and gas industry and signaling of career location mobility; level of service to community or leadership will also be considered. These awards will be awarded by the Dean, School of Graduate Studies, on the recommendation of the Awards and Medals Committee.

Graduate Students' Union (GSU) Award for Excellence in Community Service

Two awards of $250 each are awarded annually to graduate students of any program at Memorial University of Newfoundland. A selection committee will determine award recipients based on community service endeavours. Nomination forms and further information are available at the GSU website www.mun.ca/gsu.

Graduate Students' Union (GSU) Award for Excellence in Research

Two awards of $250 each are awarded annually to graduate students of any program at Memorial University of Newfoundland. A selection committee will determine award recipients based on research the student has accomplished at Memorial relative to the field in which they study. Nomination forms and further information are available at the GSU website www.mun.ca/gsu.

Graduate Students' Union (GSU) Award for Excellence in Teaching

Two awards of $250 each are awarded annually to graduate students of any program at Memorial University of Newfoundland. A selection committee will determine award recipients based on excellence in teaching-related activities, as demonstrated by student comments, innovative teaching methods, and evidence of exceeding normal teaching requirements. Nomination forms and further information are available at the GSU website www.mun.ca/gsu. Two awards of $250 each are awarded annually to graduate students of any program at Memorial. A selection committee will determine award recipients based on research the student has accomplished at Memorial relative to the field in which they study. Nomination forms and further information are available at the GSU website www.mun.ca/gsu.

I.O.D.E. Scholarships for Graduate Study in Canada or Overseas Within the Commonwealth

To honour the memory of the men and women who gave their lives for Canada in World Wars I and II, these memorials were established to provide scholarships for graduate study. Candidates must be Canadian citizens and must hold a first degree from a recognized university in Canada. At the time of applying, a candidate must hold a Master's degree or be in the final year of studies leading to a Master's degree. Further Information is available in writing to The Head Office, I.O.D.E., 40 Orchard View Boulevard, Suite 254, Toronto, Ontario M4R 1B9.

The Medical School Essay Postgraduate Student Award

The Medical School Essay Award is supported by the K.B. Roberts Scholarship Fund, which was established in appreciation of the contribution made to the Faculty of Medicine by Dr. Kenneth Roberts. This award, valued at a portion of the income on the endowment, will be awarded annually to any postgraduate medical student registered full-time in the current academic year following a competition in the form of an essay or short monograph pertaining to any aspect of medicine or the medical sciences. The essay, not exceeding 5,000 words, should include an interpretative element that indicates the importance and relevance to Medicine, Health and Society. Should there be two essays of very high caliber but one is obviously the better provision may be made for an honourable mention award of lesser value. Submission deadline is April 30, in any given year, to the Office of Student Affairs HSC Room 2713. The recipient of this award will have their essay printed in the Memorial University Journal of Human Health. The award is made on the recommendation of the Dean's Advisory Committee on Awards, Bursaries and Scholarships in the Faculty of Medicine.

Natural Sciences and Engineering Research Council of Canada (NSERC)

The Council awards each year, in open competition, a number of post-graduate scholarships in Science and Engineering to assist students in undertaking graduate study and research leading to advanced degrees. These scholarships and fellowships are tenable at both Canadian universities and institutions outside Canada. Further information and applications are available from their website www.nserc-crsng.gc.ca.

The Newfoundland St. Andrew's Society Scholarship

This scholarship is the result of a gift from the Newfoundland St. Andrew's Society to Memorial University of Newfoundland. Valued at a portion of the interest on an endowment, the scholarship will be awarded to a student from the Faculty of Arts whose studies and accomplishments most closely support the aims of the Newfoundland St. Andrew's Society; To foster and encourage the love of Scotland, its history, literature, music and national games in a Newfoundland context. In the case of undergraduate students the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing. In the case of graduate students the scholarship will be awarded by the Dean, School of Graduate Studies. In both cases it will be awarded on the basis of a recommendation from the Dean, Faculty of Arts.

The J.W. Pickersgill Fellowship

The J.W. Pickersgill Fellowship Act provides for the award of a fellowship valued at $7,500.00 per annum to a graduate of Memorial University of Newfoundland for the pursuit of doctoral studies in History or Political Science at any university. Application forms and regulations are available from the Office of the Dean of Arts, to whom applications must be submitted by February 15.

Rotary Awards

The Rotary Foundation of Rotary International offers Graduate Fellowships for those who will have received a bachelor's degree or equivalent. Further information and applications are available from their website www.rotary.org or in writing to The Rotary Foundation of Rotary International, One Rotary Centre, 1560 Sherman Avenue, Evanston, IL 60201 USA.

The St. John's Association of Basketball Officials Award

A sum of money donated by the St. John's Association of Basketball Officials an award valued at a portion of the annual income on the investment is to be provided annually to a full-time or part-time Memorial University of Newfoundland student, either graduate or undergraduate, who is an active member of the University basketball community. The candidate must meet the University's definition of Clear Standing. In the case of graduate students the award will be made by the Dean, School of Graduate Studies. In the case of undergraduate students the award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. In both cases the award is based on the recommendation of the executive of the St. John's Association of Basketball Officials.

The Schulich Scholarship for Entrepreneurship

This scholarship, sponsored by Nevada Capital Corporation Ltd. is open to students completing the first year of the M.B.A. program of the Faculty of Business Administration at Memorial University of Newfoundland. The scholarship will be awarded to the student who, in the opinion of a Selection Committee, Faculty of Business Administration, has best demonstrated an entrepreneurial orientation in first-year M.B.A. studies and in other related activities. Students must make special application for the award to the Dean, Faculty of Business Administration.
Social Sciences and Humanities Research Council of Canada (SSHRC)
The Council offers fellowships and grants in the Social Sciences and Humanities. Among Council programs of aid are research grants and short-term grants, and the following awards that are based upon annual competitions: doctoral fellowships and postdoctoral fellowships. Further information and applications are available from their website www.sshrc-crsh.gc.ca.

11.3 Other Awards
Fellowships and research grants for advanced study are available, in open competition, from many other organizations and foundations. Information about these awards is available from the Office of the Dean of Graduate Studies.
For an explanation of terms used in this Calendar, see the Glossary of Terms Used in This Calendar. When the designations Grenfell and Marine are used, they indicate references specific to Grenfell Campus and the Fisheries and Marine Institute respectively.

Donald E. Curren Scholarships, The, 765
Donald M. Balsom Award, The, 671, 681
Donald W.K. Dawe Memorial Scholarship, The, 683
Donald and Elizabeth Hillman Prize in Pediatrics, 722
Donald and Evelyn Barton Chemistry Scholarship, 725
Dorothy Duff Moores Memorial Entrance Scholarship in Music, The, 739
Dorothy and David Peters Scholarship in Music, The, 740
Douglas and Beatrice Hall Biochemistry Bursary, The, 728
Doyle House Awards, The, 683
Dr. Abdalla M. Hanna Memorial Bursary in Medicine, The, 722
Dr. Alex Fasenrak MBA Scholarship for Excellence in Service, The, 775
Dr. Alfred K. Snelgrove Graduate Scholarship in Earth Sciences, 781
Dr. Alfred T.H. Burness Graduate Award in Medicine, The, 772
Dr. Andreas Barban Memorial Scholarship, 736
Dr. Andrew Bagby and Son Zachary Andrew Memorial Bursary, The, 719
Dr. Anna C. Templeton Memorial Graduate Scholarship, The, 782
Dr. Austin J. Harte Memorial Scholarship, The, 776
Dr. B.K. Kim Scholarship in Statistics, The, 696, 728
Dr. Brian Gerald Adams Memorial Bursary Fund, The, 719
Dr. Bruce A. Fraser Award for Clerkship Electives, The, 721
Dr. Calvin N. Powell Bursary in Medicine, The, 724
Dr. Cater W. Andrews Scholarship, The, 725
Dr. Charles Nardini Memorial Award, The, 723
Dr. Chu-in Charles Lee Scholarship, The, 728
Dr. Clarence B. Crummey Memorial Entrance Bursary, The, 721
Dr. Clarence B. Crummey Memorial Entrance Scholarship, 762
Dr. Clarence W. Powell Memorial Scholarship, The, 721
Dr. Co Pham and Family Award, The, 747
Dr. David Dibbon Leadership Scholar Award, The, 709, 774
Dr. David G. Greenland Memorial Bursary in Family Medicine, The, 698
Dr. David G. Greenland Memorial Bursary in Family Medicine, The, 721
Dr. David L. Cooper Memorial Scholarship, The, 727
Dr. Edith M. Manuel and Ms. Olga Anderson CFUW St. John’s Entrance Bursary, The, 675
Dr. Edmund De Rothschild Harlow Travel Bursary, 762
Dr. Edward (”Ted”) Russell Scholarships in English, 699
Dr. Ethel M. Janes Memorial Scholarship in Education (Graduate), The, 777
Dr. Ethel M. Janes Memorial Scholarship in Education (Undergraduate), The, 709
Dr. Evan Simpson Aboriginal Undergraduate Entrance Scholarship, The, 679
Dr. Francis L. O’Dea Scholarship, The, 723
Dr. G. Albert Cooper Bursary, The, 737
Dr. G.A. Frecker Memorial Alumni Bursaries, The, 673, 684, 751
Dr. George Moskovits Award, The, 730
Dr. Grenville R. Robinson Award in French, The, 698
