Memorial University of Newfoundland is a community of more than 18,000 students from 90 countries and about 5,000 faculty and staff. Founded in 1925, the institution is a living memorial to the Newfoundlanders and Labradorians who lost their lives in the First and Second World Wars. Providing a comprehensive range of undergraduate, graduate and certificate programs, the University delivers courses at four diverse campuses, complemented by extensive online offerings. Experience Memorial University of Newfoundland -- exceptional research, teaching and learning, and public engagement, providing world-class opportunities and contributing expertise and insight both locally and globally.

The 2015-2016 University Calendar and the printable Calendar PDF files are on-line at www.mun.ca/regoff/calendar.php.
IN MEMORIAM

Three hundred and ten former students of the Memorial University College offered themselves for active service in the Second Great War, 1939-1945. The University holds in special honour the past students who have been reported dead or missing and whose names are here given.

DAVID MONROE BAIRD

1 Note
The contents of this calendar set forth the intentions of the University at the time of publication, with respect to the matters contained therein. THE UNIVERSITY EXPRESSLY RESERVES THE RIGHT TO DEViate FROM WHAT APPEARS IN THE CALENDAR WITHOUT NOTICE, including both the content and scheduling therein, in whole or in part, and including, without limiting the generality of the foregoing, the right to revise the content of, and to cancel, defer, reschedule or suspend, in whole or in part, the scheduling of particular periods of instruction, courses, or programs, and the academic program of the University, and to alter, accelerate or defer fees and charges, and to do any or all of the above either in order to serve what the University considers to be the best interests of the academic or student community or of the University itself, or because of any circumstance or occurrence, whether occurring by or through the willful act or negligence of the University, its agents, servants and employees, or otherwise and whether or not beyond the reasonable or other control of the University, and without limiting the generality of the foregoing, as a result of circumstances or occurrences including financial resources, natural catastrophe or disaster, the health, safety and well-being of the employees or students of the University, labour disagreements or disputes, slow-downs, work-stoppages, and strikes. THE UNIVERSITY DOES NOT ACCEPT, AND HEREBY EXPRESSLY DISCLAIMS, ANY OR ALL RESPONSIBILITY OR LIABILITY to any person, persons or group, for any loss, injury, damage or adverse effect, either direct or indirect, consequential or otherwise, arising out of any one or more of such deviations. The University hereby disclaims liability to any person who may suffer loss as a result of reliance upon any information contained in this calendar.

The rights and obligations of parties subject to the Calendar and the rules and regulations of Memorial University of Newfoundland shall be governed by the laws of the Province of Newfoundland and Labrador. Any action or proceeding against Memorial University of Newfoundland shall be brought in the Province of Newfoundland and Labrador.

Each and every of the subsequent provisions contained in this Calendar, and the relationship, both legal and otherwise, between the University, and its students, is expressly subject to and governed by the above provisions.

The Office of the Registrar will assist students with any questions or problems which might arise concerning the interpretation of academic regulations. It is, however, the responsibility of students to see that their academic programs meet the University's regulations in all respects.

2 The Memorial University of Newfoundland Code
All members of the Memorial University of Newfoundland Community, which includes students, faculty, and staff, shall treat others with respect and fairness, be responsible and honest, and uphold the highest standards of academic integrity.

3 Student Code of Conduct
Memorial University of Newfoundland expects that students will conduct themselves in compliance with University Regulations and Policies, Departmental Policies, and Federal, Provincial and Municipal laws, as well as codes of ethics that govern students who are members of regulated professions. The Student Code of Conduct outlines the behaviors which the University considers to be non-academic misconduct offences, and the range of remedies and/or penalties which may be imposed. Academic misconduct is outlined in UNIVERSITY REGULATIONS - Academic Misconduct in the University Calendar.

For more information about the Student Code of Conduct, see www.mun.ca/student/conduct/conduct.php.

4 Glossary of Terms Used in This Calendar
In this calendar “Grenfell Campus” or “Grenfell * refers to Grenfell Campus, Memorial University of Newfoundland and “Marine Institute” refers to the Fisheries and Marine Institute of Memorial University of Newfoundland. “University”, when capitalized, refers to Memorial University of Newfoundland.

Academic standing: is an enrolment status normally determined each semester by a regular evaluation procedure used to assess whether or not students are meeting the standards prescribed for continuing in the University and/or their programs.

Academic unit: refers to a centre, department, division, faculty, program or school, other than an administrative unit, as the context requires.

Academic year: runs from September 1 to August 31.

Accelerated course: is a course that is offered in a shorter time frame than a semester or session.

Administrative unit: refers to an office, division or centre, other than an academic unit, as listed in the Offices of the University section of the Calendar.

Appeal: is the challenge of, or the request for review of, a judgment regarding the application of regulations.

Assignment: is an evaluative exercise including but not limited to assigned work, term papers and projects.

Certificate: is an academic designation awarded for the completion of a specified program of study which is of shorter duration than a degree or diploma.

Challenge for credit: is the request for consideration of academic credit resulting from experience or knowledge gained elsewhere for which transfer credit cannot be awarded.

Co-requisite course: is a course which may be taken concurrently with or successfully completed prior to the course for which it is required.

Course: is a unit of work in a particular subject normally extending through one semester or session, the completion of which normally carries credit toward the fulfillment of the requirements of certain degrees, diplomas or certificates.

Course number: courses are designated by four characters. The first character signifies the level of the course. Where all four characters are numeric, the last three are used by academic units to indicate various information such as course sequence and area of study.
General Information 2015-2016

Where the last character is alphabetic, the letter:
A or B identifies a linked course. No credits or points are given until the "B" part is completed.
C identifies an English course that does not carry credit towards a degree, diploma or certificate.
F identifies a foundation course that is intended to remedy a specific academic weakness and does not carry credit towards a degree, diploma or certificate.
T identifies an undergraduate teaching internship offered by the Faculty of Education.
W identifies a course in either a work term in a co-operative program or a special project in certain of the professional schools and faculties and may or may not be assigned credit hours.
X identifies a course which represents an entire semester's work and carries at least 15 credit hours.

Courses offered outside of the normal time frame:
are those with different start and/or end dates than those of the semester or session.

Credit hour:
 is the measure used to reflect the relative weight of a given course toward the fulfillment of appropriate degree, diploma, certificate, major, minor, or other program requirements. A weight of 1 credit hour normally means that the course meets for lectures one hour per week for the duration of a semester or two hours per week for the duration of a session. Unless otherwise indicated, a course normally has a credit value of 3 credit hours.

Credit-restricted courses:
 are courses which are closely related but not equivalent. Credit is limited to one of the credit-restricted courses. Normally, credit-restricted courses cannot be substituted, one for the other, to satisfy program requirements.

Cross-listed courses:
 are courses which are listed under two or more academic units and which can be taken for credit from one unit only. Cross-listed courses can be substituted, one for the other, to satisfy program requirements.

Degree:
 is an academic designation awarded for the completion of a specified program of study which is of longer duration than a diploma or certificate.

Diploma:
 is an academic designation awarded for the completion of a specified program of study which is of shorter duration than a degree and longer duration than a certificate.

Equivalent courses:
 are those which are determined to be equal for credit determination, although the subject area or course number will differ. These are normally identified with the phrase "Same as".

Examination:
 is an evaluative exercise including but not limited to tests, quizzes or mid-terms, final or supplementary examinations.

Foundation course:
 is a course intended to remedy a specific academic weakness and is identified by the letter "F" as the last character of the course number. A foundation course does not carry credit towards a degree, diploma or certificate.

GPA:
 is the abbreviation for grade point average.

Head of academic unit:
 includes but is not limited to co-ordinator, dean, department head, division head, associate vice-president academic, vice-president, or equivalent.

Inactive courses:
 are courses which have not been offered in the previous three academic years and which are not scheduled to be offered in the current academic year.

Lecturing period:
 is a designated period of lectures within a semester or session as defined by the University Diary.

Linked course:
 is a course comprising two components and is normally identified by the letter "A" or "B" as the last character of the course number. No credits or points are given until the "B" part is completed.

Major:
 is a subject or field of study which a student normally specializes in during the course of degree studies.

Minor:
 is a subject or field of study which a student normally pursues secondary to a major during the course of degree studies.

Online course
 is a for credit university course delivered entirely over the Internet. Examinations may be written at exam sites or online. Students access course materials and participate in course activities through Memorial University of Newfoundland’s learning management system at online.mun.ca.

Prerequisite course:
 is a course which must be successfully completed prior to commencing the course for which it is required.

Program:
 is a series of courses, the successful completion of which, if all requirements are met, qualifies the candidate for a degree, diploma or certificate.

Registration:
 is the process of selecting, enrolling in, and being assessed fees for courses.

Registration period:
 is, in any semester, the period extending from the first day of registration to two weeks following the first day of lectures, as stated in the University Diary. In any session, it is the period extending from the first day of registration to one week following the first day of lectures, as stated in the University Diary.

Repeatable course:
 is a course that may be taken for credit in several semesters to a maximum number of credit hours. All such courses shall have specified both the number of credit hours assigned per semester and the maximum number of credit hours to be awarded.
Semester:
is a period of approximately fourteen consecutive weeks during which there are at least twelve weeks of lecture. Normally the Fall semester commences in early September, the Winter semester in early January, and the Spring semester in early May.

Session:
is a period of approximately seven consecutive weeks in the Spring semester during which there are at least six weeks of lecture. The first half of Spring semester is designated as Intersession; the second half of Spring semester is designated as Summer session.

Student-Web/Student Self-Service:
is a suite of e-business student services including registration and the provision of personalized student information.

Transcript:
is the complete and unabridged report of a student's academic record.

Transfer credit:
is academic credit granted for work completed at an institution other than Memorial University of Newfoundland.

Waiver:
is the permission granted by the appropriate authority for exemption from a particular program requirement and/or a particular university regulation.

5 University Diary for the Academic Year 2015-2016

June 1, 2015, Monday  
Registration begins for Residents and for undergraduate Medical students

July 1, 2015, Wednesday  
Academic year begins for Residents

July 14, 2015, Tuesday  
Registration begins for eligible students registering in undergraduate courses, Fall semester 2015

August 3, 2015, Monday  
Deadline for registration and fees payment for Residents

August 24, 2015, Monday  
Sessions begin for Clerkship Medical students (Class of 2017)

August 24 to 28, 2015, Monday to Friday  
Orientation for new Medical students (Class of 2019)

August 31, 2015, Monday  
Sessions begin for Medical students (Classes of 2018 and 2019)

September 1, 2015, Tuesday  
Final date for filing applications for admission to graduate programs commencing in Winter Semester 2016. Applications received after this date will be processed as time and resources permit. Applicants should note that most graduate academic units have earlier deadlines and should be contacted directly for further information

September 2, 2015, Wednesday  
Deadline for registration for undergraduate Medical students

September 7, 2015, Monday  
Labour Day, no lectures

September 8, 2015, Tuesday  
Fall Internship begins for Education students (Primary/Elementary and Music Education)

September 8 & 9, 2015, Tuesday & Wednesday  
Regular meeting of the Senate

September 9, 2015, Wednesday  
Orientation for all new first semester undergraduate students

September 9, 2015, Wednesday  
Lectures begin, Fall semester

September 16, 2015, Wednesday  
Deadline for fees payment, including for undergraduate Medical students, Fall semester

September 23, 2015, Wednesday  
End of Regular Registration Period and last day for undergraduate and graduate students to add courses, Fall semester

September 28, 2015, Monday  
Fall internship begins for Education students (Intermediate/Secondary)

September 30, 2015, Wednesday  
Last day for undergraduate students to drop courses and receive a 50% refund of tuition fees, Fall semester

October 1, 2015, Thursday  
Final date for filing applications for undergraduate admission/re-admission to Winter semester 2016. Applications received after this date will be processed as time and resources permit

October 2, 2015, Friday  
Annual Fall Convocation, Corner Brook

October 7, 2015, Wednesday  
Last day for undergraduate students to drop courses and receive a 25% refund of tuition fees, Fall semester. No tuition fees are refunded for courses dropped after this date
October 9, 2015, Friday  
Fall internship ends for Education students (Intermediate/Secondary)

October 12, 2015, Monday  
Thanksgiving Day, no lectures

October 13, 2015, Tuesday  
Regular meeting of the Senate

October 14, 2015, Wednesday  
Lectures resume at St. John’s and Grenfell Campuses.

October 15, 2015, Thursday  
Lectures will follow the Tuesday schedule on this day only

October 15 to 20, 2015  
Thursday to Tuesday  
MUNdays: Join in this annual festival of events at Grenfell, Marine Institute, and St. John’s Campuses

October 16, 2015, Friday  
Lectures will follow Monday schedule on this day only

October 23, 2015, Friday  
Annual Fall Convocation, St. John’s

October 28, 2015, Wednesday  
Last day for undergraduate students and graduate students to drop courses without academic prejudice, Fall semester  
Final date for Departments to submit Recommendation for Award of Degree in order for graduate students to receive a 50% refund of continuance fees, Fall semester

November 2, 2015, Monday  
Registration begins for eligible students registering in undergraduate courses, Winter semester 2016

November 9 and 10, 2015  
Monday and Tuesday  
Mid-term break for Medical students (Classes of 2018 and 2019)

November 10, 2015, Tuesday  
Ceremony of Remembrance, St. John’s, Marine Institute, and Grenfell Campuses: Join the University community to commemorate the people of the Province who fought and died in the First and Second World Wars, and for whom this University is a living memorial  
Regular meeting of the Senate

November 11, 2015, Wednesday  
Remembrance Day holiday, no lectures

November 12, 2015, Thursday  
Lectures resume for Medical students (Classes of 2018 and 2019)

November 18, 2015, Wednesday  
Final date for Departments to submit Recommendation for Award of Degree in order for graduate students to receive a 25% refund of continuance fees, Fall semester

November 27, 2015, Friday  
Registration begins for graduate students, Winter semester 2016

December 4, 2015, Friday  
Lectures end, Fall semester

December 8, 2015, Tuesday  
Regular meeting of the Senate

December 9, 2015, Wednesday  
Examinations begin, Fall semester  
Final date for submission of Work Reports by Co-operative Education students

December 11, 2015, Friday  
Fall internship ends for Education students (Primary/Elementary and Music Education)

December 18, 2015, Friday  
Examinations end, Fall semester  
Sessions end for all Medical students  
Fall Work Term ends for Co-operative Education students

January 1, 2016, Friday  
Final date for filing applications for admission to graduate programs commencing in Spring semester 2016. Applications received after this date will be processed as time and resources permit. Applicants should note that most graduate academic units have earlier deadlines and should be contacted directly for further information

January 4, 2016, Monday  
Winter Work Term begins for Co-operative Education students  
Winter Internship begins for Education students (all programs)

January 5, 2016, Tuesday  
Sessions resume for all Medical students

January 6, 2016, Wednesday  
Orientation for all new first semester undergraduate students

January 7, 2016, Thursday  
Lectures begin, Winter semester  
Deadline for fees payment, including for undergraduate Medical students, Winter semester

January 12, 2016, Tuesday  
Regular Meeting of the Senate

January 14, 2016, Thursday  
Final date for receipt, by the Registrar, of replacement grades for "INCOMPLETE" grades in undergraduate and graduate courses, Fall semester 2015  
Final date for submission of Master’s and Doctoral Theses and Reports for examination, by candidates who expect to receive their degree at the Spring Convocation 2016. Theses and Reports received after this date will be processed as time and resources permit

January 15, 2016, Friday  
Final date for filing, with the Registrar, applications for Degrees and Diplomas for the Spring Convocation 2016. Applications received after this date will be processed as time and resources permit

January 21, 2016, Thursday  
End of Regular Registration Period and last day for undergraduate and graduate students to add courses, Winter semester  
Last day for undergraduate students to drop courses and receive a 100% refund of tuition fees, Winter semester
January 28, 2016, Thursday
- Last day for undergraduate students to drop courses and receive a 50% refund of tuition fees, Winter semester
- Final date for graduate students to withdraw from programs without incurring liability for tuition fees, Winter semester
- Final date for Departments to submit Recommendation for Award of Degree in order for graduate students to be deregistered from Graduate Registration 9000/Medicine 9900 without incurring any liability for continuance fees, Winter semester

February 1, 2016, Monday
- Final date for filing undergraduate applications for admission/re-admission to Spring semester (14-week, Intersession and Summer session) 2016. Applications received after this date will be processed as time and resources permit

February 4, 2016, Thursday
- Last day for undergraduate students to drop courses and receive a 25% refund of tuition fees, Winter semester. No tuition fees are refunded for courses dropped after this date

February 9, 2016, Tuesday
- Regular meeting of the Senate

February 22, 2016, Monday
- Winter semester break begins at St. John’s and Grenfell Campuses

February 25, 2016, Thursday
- Lectures resume at St. John’s and Grenfell Campuses
- Final date for undergraduate and graduate students to drop courses without academic prejudice, Winter semester
- Final date for Departments to submit Recommendation for Award of Degree in order for graduate students to receive a 50% refund of continuance fees, Winter semester

March 1, 2016, Tuesday
- Final date for filing undergraduate applications for admission/re-admission to Fall semester 2016. Applications received after this date will be processed as time and resources permit

March 8, 2016, Tuesday
- Regular meeting of the Senate

March 21, 2016, Monday
- Final date for Departments to submit Recommendation for Award of Degree in order for graduate students to receive a 25% refund of continuance fees, Winter semester

March 24, 2016, Thursday
- Sessions end for Medical Students (Classes of 2018 and 2019)

March 25, 2016, Friday
- Good Friday. No classes or examinations

March 28, 2016, Monday
- Registration begins for eligible students registering in undergraduate courses, Spring semester (14-week courses, Intersession and Summer Session) 2016

April 4, 2016, Monday
- Sessions resume for Medical students (Classes of 2018 and 2019)

April 6, 2016, Wednesday
- Lectures end, Winter semester

April 8, 2016, Friday
- Winter internship ends for Education students (Intermediate/Secondary)

April 11, 2016, Monday
- Examinations begin, Winter semester
- Final date for submission of Work Reports by Co-operative Education students

April 12, 2016, Tuesday
- Registration begins for graduate students, Spring semester (14-week courses, Intersession and Summer Session) 2016
- Regular meeting of the Senate

April 15, 2016, Friday
- Winter internship ends for Education students (Primary/Elementary and Music Education)
- Sessions end for Clerkship Medical students (Class of 2016)

April 20, 2016, Wednesday
- Examinations end, Winter semester

April 22, 2016, Friday
- Winter Work Term ends for Co-operative Education students

April 25, 2016, Monday
- Spring Work Term begins for Co-operative Education students

May 1, 2016, Sunday
- Final date for filing applications for admission to graduate programs commencing in Fall semester 2016. Applications received after this date will be processed as time and resources permit. Applicants should note that most graduate academic units have earlier deadlines and should be contacted directly for further information

May 9, 2016, Monday
- Lectures begin, Intersession and 14-week Spring semester
- Deadline for fees payment, Spring semester (14-week courses, Intersession and Summer Session)

May 10, 2016, Tuesday
- Regular meeting of the Senate

May 13, 2016, Friday
- Annual Spring Convocation, Corner Brook

May 16, 2016, Monday
- Final date for receipt, by the Registrar, of replacement grades for "INCOMPLETE" grades in undergraduate and graduate courses, Winter semester 2016
- End of Regular Registration Period and last day for undergraduate and graduate students to add courses, Intersession
- Last day for undergraduate students to drop courses and receive a 100% refund of tuition fees, Intersession

May 19, 2016, Thursday
- Last day for undergraduate students to drop courses and receive a 50% refund of tuition fees, Intersession
May 23, 2016, Monday
End of Regular Registration Period and last day for undergraduate and graduate students to add courses, 14-week Spring semester
Last day for undergraduate students to drop courses and receive a 100% refund of tuition fees, 14-week Spring semester
Last day for undergraduate students to drop courses and receive a 25% refund of tuition fees, Intersession. No tuition fees will be refunded for Intersession courses dropped after this date

May 30, 2016, Monday
Last day for undergraduate students to drop courses and receive a 50% refund of tuition fees, 14-week Spring semester
Final date for graduate students to withdraw from programs without incurring any liability for tuition fees, 14-week Spring semester
Final date for Departments to submit Recommendation for Award of Degree in order for graduate students to be deregistered from Graduate Registration 9000/Medicine 9900 without incurring any liability for continuance fees, Spring semester

May 31, June 1 to 3, 2016
Tuesday to Friday
Annual Spring Convocation, St. John’s

June 2, 2016, Thursday
Final date for undergraduate and graduate students to drop courses without academic prejudice, Intersession

June 6, 2016, Monday
Last day for undergraduate students to drop courses and receive a 25% refund of tuition fees, 14-week Spring semester. No tuition fees will be refunded for 14-week Spring semester courses dropped after this date

June 17, 2016, Friday
Lectures end, Intersession

June 20, 2016, Monday
Examinations begin, Intersession
Semester Break begins, 14-week Spring semester

June 22, 2016, Wednesday
Examinations end, Intersession

June 23, 2016, Thursday
Lectures resume, 14-week Spring semester

June 24, 2016, Friday
Sessions end for Medical students (Classes of 2018 and 2019)
Final date for submission of Master’s and Doctoral Theses and Reports for examination, by candidates who expect to receive their degree at the Fall Convocation 2016. Theses and Reports received after this date will be processed as time and resources permit

June 27, 2016, Monday
Lectures begin for Summer session
Final date for undergraduate and graduate students to drop courses without academic prejudice, 14-week Spring semester
Final date for Departments to submit Recommendation for Award of Degree in order for graduate students to receive a 50% refund of continuance fees, Spring semester

June 30, 2016, Thursday
Academic year ends for Residents

July 1, 2016, Friday
Memorial Day holiday, no lectures

July 4, 2016, Monday
End of Regular Registration Period and last day for undergraduate and graduate students to add courses, Summer Session
Last day for undergraduate students to drop course and receive a 100% refund of tuition fees, Summer session

July 7, 2016, Thursday
Last day for undergraduate students to drop courses and receive a 50% refund of tuition fees, Summer Session

July 11, 2016, Monday
Last day for undergraduate students to drop courses and receive a 25% refund of tuition fees, Summer session. No tuition fees will be refunded for Summer session courses dropped after this date

July 15, 2016, Friday
Final date for filing, with the Registrar, applications for Degrees and Diplomas for the Fall Convocation 2016. Applications received after this date will be processed as time and resources permit

July 21, 2016, Thursday
Final date for undergraduate and graduate students to drop courses without academic prejudice, Summer session

July 25, 2016, Monday
Final date for Departments to submit Recommendation for Award of Degree in order for graduate students to receive a 25% refund of continuance fees, Spring semester

August 5, 2016, Friday
Lectures end, 14-week Spring semester

August 6, 2016, Saturday
Lectures end, Summer session. Lectures will follow the Friday schedule on this day only.

August 8, 2016, Monday
Examinations begin, 14-week Spring semester and Summer session
Final date for submission of Work Reports by Co-operative Education students

August 10, 2016, Wednesday
Examinations end, Summer session

August 13, 2016, Saturday
Examinations end, 14-week Spring semester

August 19, 2016, Friday
Spring Work Term ends for Co-operative Education students
6  Governing Bodies and Staff

6.1 The Board of Regents 2015-2016

www.mun.ca/regents

Officers of the Board
Iris Petten, St. John’s, Chair of the Board
Glenn Collins, Interim Executive Director
Tina Scott, Secretary to the Board

Ex-Officio Members
The Chancellor
The President and Vice-Chancellor
The Provost and Vice-President (Academic)

Members Appointed by the Lieutenant-Governor in Council
Sheila Ashton, Corner Brook
Steve Belanger, St. John’s
Gilbert Bennett, St. John’s
Pat Coish-Snow, Clarenville
Mary Cormier, Corner Brook
Michelle Daye, Grand Falls
Richard Dillon, Gander
Jim Keating, St. John’s
Bill Matthews, St. John’s
Vinod Patel, St. John’s
Tony Roche, St. John’s
Kathleen Roul, Lawn
Donna Stone, St. John’s
Eleanor Swanson, St. John’s

Members Elected by the Memorial University of Newfoundland Alumni Association
Colleen Galgay-Johnston, St. John’s
Katharine Hickey, St. John’s
John Hogan, St. John’s
Kim Keating, St. John’s
Denis Mahoney, St. John’s
George Tucker, St. John’s

Student Members Appointed by the Lieutenant-Governor in Council
Matthew Brookel, Grenfell Campus Students’ Union
Asan Mohideen, Graduate Students’ Union
Candace Simms, Memorial University of Newfoundland Students’ Union
Samantha St. Croix, Marine Institute Students’ Union

6.2 The Senate 2014-2015

www.mun.ca/senate

Ex-officio Members
Dr. Gary Kachanoski: President and Chairman
Dr. Susan Dyer Knight: Chancellor
Dr. Noreen Goldman: Provost and Vice-President (Academic)
Dr. Richard Marceau: Vice-President (Research)
Mr. Glenn Blackwood: Vice-President (Marine Institute)
Dr. Mary Bluechardt: Vice-President (Grenfell Campus)
Dr. Cecilia Reynolds: Deputy Provost (Students) and Associate Vice-President (Academic) (Undergraduate Studies)
Dr. Mark Abrahams: Dean, Faculty of Science
Dr. Kirk Anderson: Dean, Faculty of Education
Ms. Lorraine Busby: University Librarian
Dr. Heather Carnahan: Dean, School of Human Kinetics and Recreation
Ms. Susan Cleyve: Director, Distance Education, Learning and Teaching Support
Mr. Bob Gardiner: Assistant Deputy Minister of Advanced Studies (for Deputy Minister), Department of Education
Dr. Alice Gaudine: Dean, School of Nursing
Dr. Donna Hardy Cox: Dean, School of Social Work
Dr. Carlo Marra: Dean, School of Pharmacy
Dr. Faye Murrin: Dean pro tempore, School of Graduate Studies
Dr. Greg Naterer: Dean, Faculty of Engineering and Applied Science
Dr. Lynne Phillips: Dean, Faculty of Arts
Dr. James Rourke: Dean, Faculty of Medicine
Ms. Sheila Singleton: University Registrar and Secretary of the Senate
Dr. Maureen Volk: Dean pro tempore, School of Music
Dr. Wilfred Zerbe: Dean, Faculty of Business Administration

Elected Members
Dr. Jennifer Lokash: Faculty of Arts, Humanities
Dr. William Schipper: Faculty of Arts, Humanities
Dr. Kathryn Simonsen: Faculty of Arts, Humanities
Professor Donna Walsh: Faculty of Arts, Humanities
Professor Gary Riser: Faculty of Arts, Social Sciences
Dr. Michael Wernerheim: Faculty of Arts, Social Sciences
Dr. Dianne Ford: Faculty of Business Administration
Dr. David Tulett: Faculty of Business Administration
Dr. Walter Okeshevy: Faculty of Education
Dr. Andrea Rose: Faculty of Education
Professor Andrew Fisher: Faculty of Engineering & Applied Science

6.3 University Officers and Staff

Visitor
Hon. F.F. Fagan, CM, O.NL, M.B.A. Memorial; Lieutenant-Governor of Newfoundland and Labrador

Chancellor
S. Dyer Knight, CM, O.NL, B.Mus., B.Mus.Ed., LL.D. Memorial, M.A. St. Thomas University, Minnesota, Ph.D. University of London; RN

Chair of the Board of Regents
I. Petten, B.A., B.Voc.Ed. Memorial

President and Vice-Chancellor
G. Kachanoski, B.Sc.(Hons.), M.Sc. Saskatchewan, Ph.D. California (Davis)

Provost/Vice-President (Academic)/Pro Vice-Chancellor
N. Golfman, B.A.(Hons.) Alberta, M.A., Ph.D. Western Ontario
7 Offices of the University

Fisheries and Marine Institute, Grenfell Campus, Special Divisions and members of Faculties and Schools are listed in the appropriate sections of the University Calendar.

7.1 Alumni Affairs and Development, Office of

www.munalum.ca

Executive Director
Blackwood, P., B.Sc.(Hons.) Memorial, M.Sc., Ph.D. Western Ontario

Associate Director - Development

Assistant Director - Alumni Affairs
Cadigan, L., B.A., B.Comm. Memorial

Manager, Advancement Services and Operations
Williams, E.R., B.Ed., M.Ed. Memorial

Communications Co-ordinator, Managing Editor Luminus Magazine
Penney, D., B.A., B.Ed. Memorial, M.A. Ryerson/York University

The Office of Alumni Affairs and Development exists to foster connections between alumni and the University. In addition, the Office offers opportunities for alumni to connect with each other. The Office develops services and benefits, manages events, communicates University and alumni-related news and works with alumni and friends who are interested in giving to the University.

7.2 Chief Information Officer, Office of the (OCIO)

Chief Information Officer
Smith, S., CIP., B.A.(Hons.) Memorial

Information Management Consultant
Walters, C., CIP., B.Comm., B.A. Memorial

The mandate of the Office of the Chief Information Officer (OCIO) is to promote and support an environment that enables students, faculty and researchers to access and utilize technology, data and information to generate knowledge and contribute to it in ways that benefit the University, and the community as a whole. The mandate also aims to ensure that administrative systems and processes which support the University are maximized through the collaborative and effective use of technology and information management best practice.

7.3 Chief Risk Officer, Office of the (OCRO)

Chief Risk Officer
Parsons, K., B.Sc. Dalhousie, LL.B. Saskatchewan, CRM Toronto

Communications Coordinator
Osmond, M., B.A. Dalhousie, B.J. University of Kings College

Human Resources Advisor
Crane, P., B.Com.(Co-op) Memorial

The Office of the Chief Risk Officer (OCRO) develops and implements frameworks and systems to manage risk across the entire scope of the University, all in a manner that enables the University to fulfill its mission and strategic goals. The OCRO reports directly to the Vice-President (Administration & Finance). The units that report to the OCRO include Campus Enforcement and Patrol (CEP), Enterprise Risk Management, and Environmental Health and Safety.

7.3.1 Campus Enforcement and Patrol (CEP)

Manager
Browne, J.

Assistant Manager
Rideout, F.

Acting Assistant Manager
Fifield, J.

Investigations Officers
Howlett, E.
Maloney, D.

Campus Enforcement and Patrol (CEP) falls under the portfolio of the Office of the Chief Risk Officer. The activities of the services are well established through policies, directives and best practices. CEP’s primary responsibilities are the safety and security of the University community. CEP is dedicated to maintaining the Campus as a safe and pleasant place to live, work, and study. Campus Enforcement and Patrol is on duty 24 hours a day, seven days a week and patrol the Campus property. The services of CEP are
available to all faculty, staff, students, and visitors.

7.3.2 Enterprise Risk Management

www.mun.ca/risk
www.mun.ca/emergency

Acting Manager
Alexander, K., CEM., RSW

Risk and Insurance Coordinator
Janes, D., B.Sc., B.Ed., M.Sc. Memorial

Analysts
Delaney, M., B.B.A. Memorial, CRM
Lacey, C., B.B.A. Memorial
Tobin, H., B.A. Memorial, AEM

Enterprise Risk Management (ERM) falls under the portfolio of the Chief Risk Officer. ERM provides strategic pan-university oversight on behalf of Risk Management; Emergency Management; Insurance, Claims and Administration; and Memorial’s centralized Incident Reporting System (MIMS). Provides analytical risk assessments, consultants, emergency management coordination, and best practise recommendations are provided to pan-university community.

7.3.3 Environmental Health and Safety (EHS)

www.mun.ca/health_safety

Associate Director
Battcock, B., B.Tech. Memorial

Health & Safety (Asbestos Coordinator)
Collins, J., B.B.A. Memorial

Health and Safety Advisor (Construction Safety Coordinator)
Gosse, D.

Health and Safety Advisor (Diving/Boating)
Bailey, M.

Health and Safety Advisor (Fire Safety)
St. Croix, P.

Health & Safety Advisor (Generalist)
Bursey, M., B.Sc. Memorial

Health & Safety Advisor (Laboratory Safety)
Whelan, K., CRSP

Industrial Hygienist
Campbell, B., M.Sc. McGill, CIH

Radiation Safety/Bio-safety Officers
Hobbs, R., M.Sc. Memorial

Environmental Health and Safety (EHS) falls under the portfolio of the Office of the Chief Risk Officer. EHS provides leadership for the planning, directing and management of Memorial University of Newfoundland’s Health and Safety Management System. In meeting the University’s goal of providing a safe and healthy environment which supports teaching, research and University life, EHS provides advice to the University community on health and safety matters. EHS monitors the University’s performance to identify opportunities for continued improvement and provide members of the University with the information and skills needed to carry out their work and studies safely.

7.4 Facilities Management, Department of

www.mun.ca/facman

Director, Operations & Maintenance
Miles, D., P.Eng.

Acting Director, Engineering & Construction
Hiscock, K., P.Eng.

Director, Administrative Services
Rose, W.

The founders of Memorial University of Newfoundland dedicated the University itself as a living memorial to those who served in the two world wars. Guided by this heritage and mission, the Department of Facilities Management embraces its responsibility to maintain, protect, and further develop the University’s major infrastructure. The Department’s team is committed to the pursuit of excellence in all of its operations including facilities engineering and development, central utilities, energy systems and controls, custodial services, building services and grounds, sustainability, administrative services and space planning and administration.

7.5 Faculty Relations, Office of

www.mun.ca/facultyrelations

Director of Faculty Relations
McCarthy Mandville, M., Q.C., B.A.(Ed.) Memorial, L.L.B. Dalhousie
Associate Director of Faculty Relations
Wyse, A., B.A.(Hons.), M.A. Memorial, M.P.A. University of Western Ontario

Assistant Director of Faculty Relations
McKinnon, I., B.Comm.(Co-op), M.E.R. Memorial

Manager of Academic Recruitment, Support and Immigration
Kielly, T., B.A. Memorial

Advisor, Immigration and Academic Labour Relations
Bartlett, J., B.A. University of Western Ontario

The Office of Faculty Relations is responsible for the negotiation and administration of the following collective agreements for faculty, per course instructors, teaching assistants, and postdoctoral fellows:
1. Memorial University of Newfoundland and Memorial University of Newfoundland Faculty Association (MUNFA), October 30, 2014 to August 31, 2017.
2. Memorial University of Newfoundland and Lecturers’ Union of Memorial University of Newfoundland on behalf of Per Course Instructors, Memorial University of Newfoundland, March 27, 2014 - August 31, 2016.
4. Memorial University of Newfoundland and Lecturers’ Union of Memorial University of Newfoundland on behalf of Postdoctoral Fellows of Memorial University of Newfoundland, January 15, 2014 - August 31, 2016.

As well, the Office of Faculty Relations addresses labour relations matters arising out of the collective bargaining relationships with MUNFA, LUMUN (Per Course Instructors and Postdoctoral Fellows), and TAUMUN, including grievance and arbitration proceedings and Labour Relations Board matters. In addition, the Office of Faculty Relations:
1. is involved in all aspects of the employment of academic staff. The Office makes per course, extra teaching, and contractual academic appointments less than one year;
2. sets the starting salaries of all academic personnel, and determines eligibility for leaves;
3. provides advice, assistance, and education in all matters involving faculty, including the recruitment process, promotion and tenure, discipline, sabbatical, and administrative leave eligibility, and all collective agreement matters;
4. provides employment support, orientation opportunities for new faculty, and educational opportunities for academic administrators;
5. is involved in policy development, implementation and administration.

7.6 Financial and Administrative Services, Department of

www.mun.ca/finance

Director
Collis, D., B.Comm. Memorial, CA

Associate Director
Pike, G., B.Comm.(Hons.) Memorial, CMA

Associate Director, Budgets
Pike, L., B.Comm., M.B.A. Memorial

Manager, Print and Mail Services
Cranford, B.

Manager, Financial Systems
Hillyard, B., B.Sc., M.B.A. Memorial

Manager, Financial Reporting & Analysis
Whelan, H., B.Com. Memorial, CA

Manager, Research Accounting Office
Squires, M., B.Com. Memorial, CGA

Financial Analyst
Mooney, P.

Senior Staff Accountant - Cashier’s Office
Rowsell, D.

Staff Accountant - Travel and Disbursements
Murphy, S., B.Sc. Memorial

Staff Accountant - Accounts Payable
Noseworthy, L.

General Office Supervisor, Education Building
Lono, C.

General Office Supervisor, Science Building
Hicks, M.

The Department of Financial and Administrative Services oversees the financial and budgetary operation of Memorial University of Newfoundland. The Department consists of 70+ employees providing quality services in the areas of Administration, Disbursements, Accounts Payable, Customs, Tendering, Research Accounting, Cashier’s Office, Financial Systems, Financial Reporting and Analysis, Budgeting, Print and Mail Services and the operation of two General Offices located in the Education Building and the Science Building.
7.7 General Counsel, Office of
www.mun.ca/generalcounsel

General Counsel
Cooper, M.C., B.Comm.(Hons.) Memorial, M.I.R. Toronto, L.L.B. Dalhousie

Associate General Counsel
French, G., B.Comm.(Hons.)(Co-op) Dalhousie, L.L.B. New Brunswick, LL.M. Toronto

Associate General Counsel - Research
Forbes, C., B.A.(Hons.) Mount Allison, M.A. Acadia, L.L.B. Dalhousie

The Office of the General Counsel provides legal and strategic advice to the University, the senior administration, and the Board of Regents; provides education initiatives on legal matters affecting the University; and works with the University on the development of policies and procedures to ensure legal compliance and best practices.

7.8 Human Resources, Department of
www.mun.ca/hr

Director
Dodge, S., B.Comm. Memorial

Associate Directors
Barron, M., B.Comm. Memorial, M.I.R. Toronto
Butler, V., B.S.W. Memorial, M.P.A. Queen’s

Manager - Benefits and Pensions
Roberts, G., B.Sc. Memorial

Manager - Client and Advisory Services
Blanchard, K., B.Comm., M.B.A. Memorial

Manager - Employee and Labour Relations
Jackson, R., B.Comm. Memorial

Manager - Human Resources (Grenfell Campus)
Couture, J., B.B.A. Bishops University, CHRP

Manager - Human Resources Shared Services/Technology and Payroll
Loder, J., B.Comm., M.E.R. Memorial

Manager - Human Resources (Marine Institute)
Fowler, M., B.Comm. Memorial

Manager - Human Resources (Medicine)
Norman, J., B.B.A. St. Francis Xavier, CHRP

Manager - Learning and Development
Stamp-Nunes, H., B.B.A. St. Francis Xavier, M.Ed. Memorial

Manager - Organizational Effectiveness
Barker, R., B.Comm. Memorial, M.B.A. Virginia Polytechnic Institute & State University, CHRP

Manager - Strategy, Policy and Planning Initiatives
Wooley, E., B.Comm., M.E.R. Memorial

The Department of Human Resources is more than payroll, pensions and benefits. The Department of Human Resources provides the foundation to advance and maintain a strong institutional culture that values the contributions of all within the organization. This culture is based on clear values that are accepted and put into practice by all: the principles of respect, recognition, support, equity and fairness, effective leadership, recruitment and retention, learning and development, work-life balance (including health and wellness) and career opportunity. Human Resources works to provide optimal service delivery to clients and ensure best practices in internal processes through measurement. Through a long-term strategy in Human Resources, Memorial University of Newfoundland continues to implement the people development strategy (mentoring, succession, coaching, leadership and career development), transfer knowledge to new employees, meet employment equity targets, improve employee satisfaction, and enhance connections prior to and into retirement.

7.9 Information Access and Privacy Protection Office (IAPP)
www.mun.ca/iapp

University Privacy Officer
Thorne, R., CIPP/C

Access and Privacy Analysts
Furey, D., B.A.(Hons.) Memorial, LL.B. University of New Brunswick
Thomson, K., B.A. Mount Allison, LL.B. University of New Brunswick

The Information Access and Privacy Protection Office (IAPP) was created in November 2005 to assist the University in complying with the provincial Access to Information and Protection of Privacy Act (ATIPPA) and other applicable privacy legislation, as well as developing best practices in information access and privacy protection matters.

The IAPP Office provides strategic and day-to-day advice on access and privacy matters, conducts privacy compliance reviews of projects and programs, manages requests for access to information under the ATIPPA and delivers access and privacy training. Further information may be obtained through the website at www.mun.ca/iapp.
7.10 Information Technology Services

www.mun.ca/its

**Director**
Greene, S., B.Sc., M.Ed. *Memorial*

**Associate Director, Client Relationships**
Dawson, B., B.Sc.(Hons.), B.Ed., M.A.S. *Memorial*

**Associate Director, Enterprise Application Services**
Fillier-Skinner, P., B.Ed., M.Ed. *Memorial*

**Manager, Administration and Finance**
Earles, D.

**Manager, IT Security**
Forward, K., B.Sc. *Memorial*

**Manager, Networks and Communications**
Farrell, T., B.Sc. *Memorial*

**Manager, Personal Computing**
Shaw, M., B.Sc., B.Ed. *Memorial*

**Manager, Project Management Office**
Jones, D.

**Manager, Technical Support**
Bryant, D., B.Sc., M.Eng. *Memorial*

The mandate of Information Technology Services is to lead the Planning, Design, Building and Support of the Core Information and Communications Technologies required to meet the strategic objectives of Memorial University of Newfoundland. In consultation with the Campus community, Information Technology Services is responsible to foster and support appropriate practices in information technology infrastructure, application development and management, business analysis, security, data, software and processes to create an effective and integrated environment.

Core Information and Communications Technologies are those systems and services available to the entire campus or which are pan-university operational systems. Included are:

- Landline and mobile telephony
- Technology (internal, external, public networks and data centres)
- Development, management and operation of enterprise applications
- Centralized email, web services and collaborative tools
- Information Technology security management
- IT project management and consulting
- Service desk, IT purchasing and desktop support services
- Student computing (Portal, Information Commons, D2L, Labnet)

7.11 Institutional Analysis and Planning, Centre for (CIAP)

www.mun.ca/ciap

**Director**
Chancey, P.F., B.Sc., B.Comm., M.Ed. *Memorial*

**Manager**
Pippy, S.E., B.Sc.(Hons.), M.Sc. *Memorial*

**Senior Institutional Analysts**
Leake, R.M., B.B.A.(Hons.), M.B.A. *Memorial, C.G.A.*
Somerton, C.D., M.A. *Memorial*

**Senior Planning Analyst**
Myrick, K.A., B.Comm., M.B.A. *Memorial, M.A. University of Windsor*

The Centre for Institutional Analysis and Planning (CIAP) is responsible for the collection, analysis and dissemination of information and facilitation of decision-support and planning initiatives at Memorial University of Newfoundland.

7.12 Internal Audit, Office of

www.mun.ca/vpadmin/audit.php

**University Auditor**
Baker, J., B.B.A. *Wilfrid Laurier, CPA,CA,CISA,CFE*

**Internal Auditor**
Dove, J., B.B.A. *Acadia, CPA, CA, CIA*

The Office of Internal Audit provides independent and objective assurance and consulting activity that is guided by a philosophy of bringing a systematic and disciplined approach to evaluate and improve the effectiveness and efficiency of the University’s risk management, control, and governance processes. The Office of Internal Audit works collegially with the Office of the Chief Risk Officer, reports functionally to the Audit and Risk Committee of the Board of Regents, and administratively to the President and Vice-Chancellor.
7.13 Marketing and Communications, Division of
www.mun.ca/marcomm
Executive Director
Collins, V., B.A. Memorial

Director, Public Affairs (Acting)
Dyke, P., B.J.(Hons.) University of King’s College

Associate Director (Marketing)
Hulan, J., B.A. Memorial

Marketing Manager
Harvey, J., B.Comm. Co-op, M.B.A. Memorial

Associate Director (Communications) (Acting)
Sorensen, D., B.A.(Hons.), M.A. Memorial

Manager, Communications (Acting)
Whelan, M., B.P.R. Mount Saint Vincent, M.B.A. Memorial

Manager, Web Content Services
Whittle, P., B.Comm., B.A.(Hons.), M.A. Memorial

Manager, Finance and Administration
Kelly, H

The Division of Marketing and Communications (MarComm) is dedicated to serving the University’s internal and external marketing and communications needs, as well as to responding to the community’s needs for information about Memorial University of Newfoundland. MarComm provides communications and marketing counsel and strategy, news services including the Gazette and today.mun.ca, as well as media relations and issues management (including emergency communications coordination). The Division also has expertise in institutional marketing, university event management (including Convocation), photography (including a university photo bank), graphic design, co-ordination of promotional projects, institutional web management and web content development. MarComm can provide advice on protocol, reputation management, government relations and special event planning.

7.14 President, Office of the
www.mun.ca/president

President and Vice-Chancellor
Kachanoski, G., B.Sc.(Hons.), M.Sc. Saskatchewan, Ph.D. California (Davis)

Executive Director
Brown, M., M.B.A. Royal Roads

Archivist/Historian
Baker, M., B.A.(Hons.), M.A. Memorial, Ph.D. Western

The Office of the President undertakes the management and administration of the University as directed by the Board of Regents. The President provides leadership and overall strategic direction for both the academic and business affairs of the University.

7.15 Provost/Vice-President (Academic)/Pro Vice-Chancellor, Office of the
www.mun.ca/vpacademic

Provost/Vice-President (Academic)/Pro Vice-Chancellor
Golfman, N., B.A.(Hons.) Alberta, M.A., Ph.D. Western Ontario

Deputy-Provost (Students) and Associate Vice-President (Academic) Undergraduate Studies
Reynolds, C., B.A., M.A., Ph.D. University of Toronto

Associate Vice-President (Academic) Faculty Affairs Pro Tempore
Cadigan, S.T., B.A.(Hons.), Ph.D. Memorial, M.A. Queen’s

Associate Vice President (Academic), Planning, Priorities and Programs

Director of Academic Support Services
Millan, R., B.Voc.Ed. Memorial

The Office of the Provost and Vice-President (Academic) has primary responsibility for academic matters, ultimately being responsible for the programs of some 18,000 undergraduate and graduate students across a wide range of disciplines. The Provost and Vice-President (Academic) reports directly to the President and works in close collaboration with the other Vice-Presidents, Deans and other members of the senior management team of the University.

7.16 Public Engagement, Office of
www.mun.ca/publicengagement

Executive Director
Greenwood, R., B.A.(Hons.) Memorial, M.A. York, Ph.D. Warwick

Manager, Public Engagement Supports
Mackenzie, T., B.Sc. Memorial, M.S.W. Carlton

The Office of Public Engagement (OPE) reports to the President, and is tasked with supporting the implementation of Memorial University of Newfoundland’s Public Engagement Framework by providing supports for public engagement activities, locally, nationally
and internationally. The OPE also provides leadership and supports for a range of public engagement-related units and activities within 
the University and is the lead on strategic external relations for the University. ‘Public Engagement’ at the University encompasses 
collaborations between people and groups within the University and people and groups external to the University – i.e., the “public” – 
that further the mission of Memorial University of Newfoundland. Drawing on the knowledge and resources brought by all involved, 
public engagement involves mutual respect, mutual contributions and mutual benefits for all participants.

The Office of the Registrar provides academic support services and systems to prospective and current students - from initial contact, to
application, academic advising, registration, and graduation - and strives to implement continuous improvements to these services and systems. Together with offices at Grenfell Campus and the Marine Institute, the Office of the Registrar serves the University community, including those involved in distance learning.

The Office of the Registrar’s current mission and vision is to: encourage and facilitate the transition from potential applicant to registered student to graduate; develop and implement strategies designed to enhance student success; serve as a catalyst in formulating and implementing academic regulations, policies and procedures and provide accurate and timely information and advice about these to the academic community and the general public; provide innovative and technologically advanced information systems to facilitate the most effective and efficient delivery of services; and respond to change and commit to improving the quality of our services within the context of the themes outlined in the University’s Strategic Framework. In carrying out this mission, the Office strives to be sensitive to the needs of students, faculty, staff, co-workers, and the general public, and to treat each individual with fairness, respect and understanding. Responsibility for the Secretariat for Senate and for several major Senate and Faculty Committees also rests with this Office.

The Academic Advising Centre (AAC) assists students who are at various stages of their academic careers. Whether students are undecided about which program of study they wish to pursue, uncertain of their academic goals, seek assistance with their course curriculum, are thinking about exploring new academic opportunities, or face potential academic prejudice, the AAC furnishes them with sound, accurate academic advice.

Scholarships, Bursaries and Awards administers the Scholarships and Awards Program for the University and distributes out of province Financial Aid. Inquiries may be made in-person at UC4018, by telephone to (709) 864-3956, or through the website at www.mun.ca/scholarships/home.

7.19 Sexual Harassment Office
www.mun.ca/sexualharassment

Sexual Harassment Advisor
Shortall, R., B.Sc.(Hons.), M.S.W. Memorial, B.S.W. University of British Columbia

The Sexual Harassment Office implements the University-Wide Procedures for Sexual Harassment Concerns and Complaints aimed at providing a method for the resolution of sexual harassment concerns and complaints which may arise at Memorial University of Newfoundland. The Sexual Harassment Policy prohibits sexual harassment by any member of the University community. Any member may address a concern or make a complaint of sexual harassment against another member of the University community. Memorial University of Newfoundland is committed to providing an environment that is respectful and inclusive – thus free of sexual harassment. The services of the Sexual Harassment Office are available to all campuses of Memorial University of Newfoundland. A copy of the University-Wide Procedures for Sexual Harassment Concerns and Complaints is available at www.mun.ca/policy/site/category.php.

The Department of Technical Services is wholly responsible for developing and maintaining specialized equipment to support research activities. This Department maintains and repairs laboratory equipment, specialized machinery and scientific instruments. With highly trained staff and modern facilities, Technical Services offers expertise in electronics, circuit board development, networking, computer repairs, fumehood certification, biological safety cabinet certification, scientific glassblowing, Computer Numerical Control (CNC) machining, scale model making, mechanical fabrication, and Selective Laser Sintering (SLS). The Department also operates a cryogenics facility to supply liquid nitrogen and liquid helium required by the scientific community at Memorial University of Newfoundland. The employees of Technical Services work closely with researchers to develop and build custom apparatus and prototypes.

7.27 Vice-President (Research), Office of the
www.mun.ca/research
Vice-President (Research)
Associate Vice-President (Research), Collaborations and Partnerships
The Office of the Vice-President (Research) is responsible for promoting and enhancing the university's broad range of research activities. Specific priorities for the Vice-President (Research) include: Providing leadership in the execution of the University's Strategic Research Framework and the Strategic Research Intensity Plan; supporting researchers across all academic disciplines; encouraging the full range of research at Memorial University of Newfoundland, including fundamental and applied research and creative scholarly activities; building partnerships with other universities, research organizations, government and the private sector, locally, nationally and internationally; increasing research funding to Memorial University of Newfoundland and other research organizations in the province; and enhancing the dissemination, application and commercialization of research results generated at Memorial University of Newfoundland.

8 General Information
Memorial University of Newfoundland is the only university in Newfoundland and Labrador. It has campuses in St. John's and in Corner Brook, as well as Harlow, England.

8.1 The Beginning
Memorial University College was established as a memorial to the Newfoundlanders who had lost their lives on active service during the First World War; it was later rededicated to also encompass the province's war dead of the Second World War. The College opened its doors on the old Parade grounds in St. John's to a total student body of 55 on September 15, 1925.
8.2 University Status

The elevation of the College to the full status of a university was one of the priorities of the first post-Confederation Government. At the initial sitting of our Provincial House of Assembly, July 13, 1949, the intent of the Government of the day was conveyed by the then Lieutenant-Governor, the Honourable Sir Albert Walsh, in these words from the Speech from the Throne:

“It is considered that Newfoundland should have her own degree-conferring University and you will be invited to consider legislation which would confer upon the Memorial University College the status of a university. It is planned to widen and improve the functions, and thus increase the public usefulness of this institution created originally in honour of our illustrious dead of the First World War.”

Royal assent was given the Bill creating The Memorial University of Newfoundland on August 13, 1949, exactly one month to the day from the opening of the House. The Board of Regents and the Senate were inaugurated in May 1950, and the first Convocation of the University was held on June 3, 1950, when the first degrees were awarded.

8.3 A Period of Expansion

With university status, Memorial University of Newfoundland entered a period of rapid growth that was to continue into the 70s. In 1949-1950, there was a student body of 307 in the new university; in the academic year 1961-1962, when the university moved to its present St. John’s campus, the student enrolment had reached 1,745 full-time and 152 part-time. Ten years later, 1971-1972, the student population, including full- and part-time students in degree programs, was 10,980.

During this time there were equally dramatic changes in the variety and extent of available academic programs. In the early years of the university, there were two faculties (Arts and Science, and Education). While the academic structure was quite similar in 1961, when the university moved to its new campus on Elizabeth Avenue in St. John’s, areas of instruction, course offerings and degrees awarded had all increased.

In 1966 the Board of Regents approved the establishment of a small residential campus in the quaint, historic town of Harlow, Essex, located approximately midway between London and Cambridge. The first Memorial University students came to Harlow in 1969 for education and engineering one-semester internships in Harlow schools and factories. Harlow Campus went through extensive modernisation in 2002 to meet the needs of today’s undergraduate and graduate students. For more information, visit www.mun.ca/harlow.

In 1975 Memorial University of Newfoundland established a regional campus in Corner Brook. The campus was named Sir Wilfred Grenfell College in 1979 honouring the memory of the medical missionary who pioneered medicine in Northern Newfoundland and along the coast to Labrador. In 2010 the campus in Corner Brook was renamed Grenfell Campus, Memorial University of Newfoundland. Since its opening, Grenfell has evolved from a junior college offering first- and second-year courses to providing entire degree programs in the areas of arts, fine arts, science, business administration, resource management and nursing. The first degrees, in the disciplines of theatre and visual arts, were introduced in 1988. Grenfell Campus currently offers 18 undergraduate and one graduate degree programs. For more information, visit www.grenfell.mun.ca.

In 1992 the Marine Institute joined the University, becoming the Fisheries and Marine Institute of Memorial University of Newfoundland. Founded in 1964, the Marine Institute offers a range of certificate, diploma, undergraduate and graduate degree programs in the ocean and marine sectors and is involved in research and technology transfer. For more information, visit www.mi.mun.ca.

Today, Memorial University of Newfoundland offers more than 100 undergraduate and graduate degree programs through six faculties -- Arts, Science, Education, Medicine, Engineering and Business Administration; six schools -- Graduate Studies, Nursing, Human Kinetics and Recreation, Social Work, Music and Pharmacy; and the academic units at the Marine Institute and Grenfell Campus. Information regarding enrolment statistics can be found in the Fact Book at www.mun.ca/caip/Analysis/fact_book.php.

The University’s three frameworks – teaching and learning, research and public engagement – guide the University’s development.

The teaching and learning community at Memorial University of Newfoundland connects learners and educators to each other, the broader community and the world, in the service of knowledge generation and exchange, and the advancement of society. For more information, visit www.mun.ca/teachingandlearning.

Faculty and students actively participate in research and development. Memorial University of Newfoundland is one of the most important research facilities in Atlantic Canada and has developed numerous research programs and facilities that are among the most advanced in the world. For more information and a complete listing of research facilities, visit www.mun.ca/research.

Memorial University of Newfoundland is also one of the most publicly engaged universities in the country, undertaking projects that benefit both the university and the community. The University encourages and provides support for public engagement through faculties, units and centres that offer programming to help facilitate public engagement, through funding for public engagement, and through the Public Engagement Framework. For more information, visit www.mun.ca/publicengagement.

8.4 The Campuses

www.mun.ca
www.mi.mun.ca
www.swgc.mun.ca
www.mun.ca/harlow

Memorial University of Newfoundland, positioned on the edge of the North Atlantic, is one of the largest universities on Canada’s East Coast and the only university in the Province of Newfoundland and Labrador. There are three campus locations in the province and one abroad.

8.4.1 St. John’s

www.mun.ca

Spanning approximately 220 acres, Memorial University of Newfoundland’s largest campus is home to extensive facilities that support a full range of academic programs in a modern, urban setting. Memorial University of Newfoundland offers access to the best in research, teaching and learning, and public engagement, providing world-class opportunities and contributing expertise and insight both locally and globally.

On the campus to the south of Prince Philip Drive are the Arts and Administration, Science, Chemistry-Physics, Education (G.A. Hickman), Mathematics (Henrietta Harvey), Physical Education, Biotechnology, Facilities Management and Music (M.O. Morgan) buildings; as well as the Queen Elizabeth II Library, Bruneau Centre for Research and Innovation, Paton College and Macpherson College residence complexes, Burton’s Pond Apartments, Campus Childcare Centre, and The Works recreation complex, comprising the Aquarena, Field House and other sports and recreation facilities on campus. Spanning Prince Philip Drive is the University (Smallwood) Centre, containing student services and student union operations, as well as recreation and dining facilities.
North of Prince Philip Drive are the Health Sciences Centre, incorporating the Faculty of Medicine, the School of Nursing, the School of Pharmacy and Eastern Health; the Engineering (S.J. Carew), Earth Sciences (Alexander Murray), Business Administration, and C-CORE (Captain Robert A. Bartlett) buildings, St. John's College, Coughlan College, Queen's College and Spencer Hall. Slightly further north is the Memorial University of Newfoundland Botanical Garden.

The Ocean Sciences Centre is located to the west at Logy Bay. In 2013, the University acquired the former Battery Hotel property in St. John's and planning for the facility is ongoing. The Battery will be established as a public engagement facility to further connect Memorial University with the community and it will include residence space for graduate students. For more information, visit www.mun.ca.

### 8.4.2 Fisheries and Marine Institute
www.mi.mun.ca
The Fisheries and Marine Institute, headquartered on Ridge Road in St. John's, is Canada's leading centre of education, training, applied research and technology transfer for the ocean industries. As a campus of Memorial University of Newfoundland, the Marine Institute offers undergraduate and graduate degrees, advanced diplomas, diplomas of technology, certificates in such fields as marine transportation, food and water quality, naval architecture, aquaculture, coastal zone management and marine environmental.

The institute has a number of state-of-the-art centres and units, including the Offshore Safety and Survival Centre (OSSC), the Safety Emergency and Response Training Centre (SERT), the Centre of Marine Simulation (CMS), the Centre for Aquaculture and Seafood Development (CASD), MI International, the Centre for Sustainable and Aquatic Resources (CSAR), the Community Based Education Delivery Unit (CBED), the Centre for Fisheries Ecosystems Research (CFER) and the Centre for Applied Ocean Technology (CTec). These areas lead the institute in applied research and technology transfer and also provide training to a variety of industry clients. For more information, visit www.mi.mun.ca.

### 8.4.3 Grenfell Campus
www.swgc.mun.ca
Grenfell Campus, Memorial University of Newfoundland, stands on a 185-acre site with a spectacular view of the city of Corner Brook and the Bay of Islands. Grenfell Campus offers a personalized education through a wide variety of interdisciplinary experiences. Students may choose from undergraduate degrees in arts, business administration, fine arts, education, nursing, science or resource management. Grenfell also offers a master of arts degree in environmental policy.

Located on University Drive, Grenfell Campus comprises five academic buildings. The Arts and Science Building houses administrative offices, academic classrooms and labs, recreational facilities, a bookstore and the campus’ original student residence. The Fine Arts building features facilities for theatre and visual arts programs. The Library and Computing building contains Ferriss Hodgett Library, a computer lab and lecture hall facilities. The Forest Centre houses classroom, lab and lecture space, as well as the Atlantic Division offices of the Canadian Forest Service. Annexed to the Forest Centre is a boreal forest ecosystem research facility, which supports research in agricultural, environmental and boreal sectors.

In addition to the original dormitory-style residence, student housing has been expanded to include eight chalet-style apartment buildings and, most recently, a new residence complex. The GCSU Student Centre, an annex to the Arts and Science building, provides dining and recreational space for the student population, as well as office space for the Grenfell Campus Student Union. For more information, visit www.swgc.mun.ca.

### 8.4.4 Harlow Campus
www.mun.ca/harlow
Harlow Campus is the international campus of Memorial University of Newfoundland, one of only two universities in Canada with campus facilities in the United Kingdom. Professional schools and academic departments at Memorial University of Newfoundland use Harlow Campus in Essex, UK, to deliver ongoing and specialized one-time programming, internships and experiential learning. The campus provides technologically equipped meeting facilities and residence accommodations for up to 51 people.

Harlow Campus consists of a group of converted 19th century and older buildings. The main building is The Maltings (once used to dry grain), which now houses the administration offices and accommodations for residents. It also contains a dining room, library and computer suite, common room, laundry room and the Lord Taylor lecture room. Other campus buildings include Cabot House, St. John’s House, St. John’s Cottage, and 44-46 Market Street.

Programs offered at Harlow Campus at varying times include: biology, business, education (internship), Consuming Cultures (folklore and geography), English Cultural Landscape (folklore and geography), history and political science, Literary London (English), music, pharmacy (clinical rotation), theatre (fine arts), theatre and drama (English) and visual arts (fine arts). For more information, visit www.mun.ca/harlow.

### 8.5 Objectives of the University
The objectives of Memorial University of Newfoundland are: to develop in the province an institution of higher learning deserving of respect for the quality of its academic standards and of its research; to establish new programs to meet the expanding needs of the province; and to provide the means whereby the University may reach out to all the people.

In 1994 the University adopted a mission statement:

Memorial University is committed to excellence in teaching, research and scholarship, and service to the general public.

Memorial University recognizes a special obligation to educate the citizens of Newfoundland and Labrador, to undertake research on the challenges this province faces and to share its expertise with the community.

This mission is at the core of this University's plans for its programs, campuses and activities at home and abroad. To learn more about the University's evolving plans and priorities, see www.mun.ca/president/home/.

### 8.6 Presidents of Memorial University College
1925 - 1933 Mr. John Lewis Paton
1933 - 1949 Dr. Albert G. Hatcher

### 8.7 Presidents of the University
1949 - 1952 Dr. Albert G. Hatcher
1952 - 1966 Dr. Raymond Gushue
8.8 Chancellors of the University
1961 - 1968 The Rt. Hon. Lord Thomson of Fleet
1971 - 1979 Dr. G. Alain Frecker
1979 - 1988 Dr. Paul G. Desmarais
1994 - 2008 Hon. Dr. John C. Crosbie
2008 - 2012 General Rick J. Hillier (Retired)
2012 - Present Dr. Susan Dyer Knight

8.9 Chairs of the Board of Regents (Established May, 1950)
1950 - 1954 Hon. Sir Albert Walsh
1954 - 1968 Dr. Edmund J. Phelan
1968 - 1974 Hon. Dr. Gordon A. Winter
1974 - 1982 Hon. Dr. Frederick Russell
1982 - 1991 Dr. Charles White
1991 - 1997 Dr. Janet Gardiner
1997 - 2002 Dr. Edward Roberts
2002 - 2003 Chris Decker
2003 - 2004 Dr. Georgina Hedges (pro tempore)
2004 - 2006 Lorne Wheeler
2005 - 2007 Dr. Georgina Hedges (pro tempore)
2007 - 2008 Gilbert Dalton
2008 - 2012 Robert Simmonds
2012 - Present Iris Petten

8.10 University Constitution
The Constitution of the University is embodied in an Act of the House of Assembly of Newfoundland entitled An Act Respecting the Memorial University of Newfoundland, Chap. 231, Revised Statutes of Newfoundland (as amended). The Act delineates the authority and the functions of the University and its parts, as follows:

There shall be a university which shall be called the Memorial University of Newfoundland, consisting of a Chancellor, Convocation, Board of Regents, Senate, Faculty Councils and the Faculties and which shall be a body politic and corporate. No other university having corporate powers capable of being exercised within Newfoundland shall be known by the same name, nor shall any other university have power to grant degrees.

The University shall have full power and authority from time to time and at all times to establish and maintain such faculties, colleges, schools, institutions, departments, chairs and courses as to the Board of Regents may seem meet, and to give instructions and training; to grant degrees, including honorary degrees, diplomas and certificates of proficiency; to provide facilities for the prosecution of original research in every branch of knowledge and learning and to conduct and carry on such research work; and generally, to promote and carry on the work of a university in all its branches.

8.10.1 The Board of Regents
The management, administration and control of the property, revenue, business and affairs of the University are vested in a Board of Regents, consisting of:
1. three ex-officio members
   a. the Chancellor of the University
   b. the President of the University
   c. the Vice-President of the University who is the Pro Vice-Chancellor;
2. six members elected by the Alumni Association of the University;
3. seventeen members appointed by the Lieutenant-Governor-in-Council; and
4. four members appointed by the Lieutenant-Governor-in-Council being full-time students of the University who
   a. meet the requirements set out in the regulations, and
   b. are recommended to the Lieutenant-Governor-in-Council by the board following the recommendation to the board of one candidate each from the following student unions:
      i. the Memorial University of Newfoundland Students' Union,
      ii. the Graduate Students' Union,
      iii. the Marine Institute Students' Union, and
      iv. the Grenfell Campus Student Union.

8.10.2 The Senate
Matters of an academic character are in general charge of the Senate of the University, consisting of the following:
1. The Chancellor of the University;
2. ex-officio members who shall be
 Convocation of the University, as provided in the Act, is composed of the Chancellor, the President, the Senate, the Board of Regents, all persons who are graduates of the Memorial University College, all persons holding academic appointments with the University whose names are added to the roll of the Convocation by the Registrar of the University from time to time upon instructions from the President, and all persons who have become graduates of the University. The functions of Convocation are chiefly elective, but it may also consider all questions affecting the well-being and prosperity of the University and make representations from time to time on such questions to the Senate, which shall consider the same and return to the Convocation its conclusions thereon.

8.10.4 Affiliation
The Act provides that, subject to the approval of the Lieutenant-Governor-in-Council, the University may affiliate with any college or institution established in the province for the promotion of Arts and Science, or for instruction in Law, Medicine, Nursing, Education, Engineering, Agriculture or in any other useful branch of learning, and to dissolve any such affiliation. The institution which has become affiliated with the University under this provision is Queen's College, St. John's.

8.11 Queen's College

8.11.1 Faculty of Theology

Queen's College, founded in 1841, is an Associate Member of The Association of Theological Schools in the United States and Canada and is affiliated with Memorial University of Newfoundland. It has a Faculty of Theology which offers courses in theology and in professional training for ministry. Under Legislative authority it confers the degrees of Master of Divinity, Master of Theological Studies, and Bachelor of Theology and grants a Diploma in Theology and Ministry and an Associate in Theology.

Further information may be obtained by contacting the College in writing to The Registrar, Queen's College, St. John's, NL, A1B 3R6, or by telephone to (709) 753-0116, (877) 753-0116 (toll free), by fax to (709) 753-1214, by e-mail to queens@mun.ca or through the website at www.queenscollege@mun.ca.

8.12 Academic Dress

The academic dress for matriculated undergraduates of the University shall be similar to the Scholar's gown of the University of Oxford. It shall be worn whenever the President so directs.

The gowns of the Bachelors shall be of black stuff. The gowns of the Masters shall be of black stuff or silk. The gowns of the Doctors shall be of fine black stuff or silk, or of black stuff or silk.

The pattern of the Bachelor's gown shall be similar to that of the Oxford Bachelor's gown. The pattern of the Master's gown and the Doctor's black gown shall be similar to that of the Oxford Master's gown, except that the Doctor's gown shall have an edging of black silk braid at the opening of the sleeve. The Doctor's black gown shall be similar to that of the Oxford Doctor of Divinity's gown.

The hoods of the Bachelors shall be made of black stuff, the hoods of the Masters of black silk, and the hoods of the Doctors of scarlet silk. They shall be full in shape and lined with the University colours of claret and white. The hoods of the Bachelors shall be trimmed with white fur, the tippets with velvet in the colours distinctive of the Faculty or Degree. The hoods and tippets of the Masters shall be edged with velvet in the colours distinctive of the Faculty or Degree. The hoods and tippets of the Doctors shall be edged with silk in the colours distinctive of the Faculty or Degree; however, the hood of the Doctor of Philosophy shall be of claret silk, lined and edged with scarlet silk.

The University hood, worn by official representatives of Memorial University of Newfoundland participating in ceremonies, shall be made of black stuff, and lined and edged with claret and white silk.

The distinctive colours for the degrees shall be:

B.A. - B.A. (Policie Studies), M.A., M.G.S. - White
B.Eng., M.Eng., M.E.M. - Orange
B.M.S., B. Tech, M.M.M., M.M.S.(Fisheries Resource Management), M.T.M. - Navy Blue
B.Mus., M.Mus. - Pink
B.N., M.N. - Coral
B.R.M. - Citron
B.Sc.(Pharmacy), M.Sc.(Pharmacy) - Clover
B.S.W., M.S.W. - Ruby Gem
8.13 The University Library

www.library.mun.ca

The University Library consists of the Queen Elizabeth II Library, the Health Sciences Library, and the Dr. C.R. Barrett Library, Fisheries and Marine Institute, all in St. John’s, and the Ferriss Hodgett Library in Corner Brook. These four units together have a collection equivalent to 2.5 million volumes and more than 26,000 current journal subscriptions. This collection serves as the major information resource for the University as well as the province. All units of the library system may be used by all students, faculty and staff, as well as the community at large.

8.13.1 Queen Elizabeth II Library

The Queen Elizabeth II Library was opened for service in January 1982. It is an impressive structure of 200,000 square feet on five levels. It has a seating capacity of 2,000 and can hold 2.6 million physical volumes. The Information Services Division, located on the main floor (second level), provides assistance to people wishing to make use of the library’s resources and services. This division provides reference and computer-assisted bibliographic search services. Library tours and individual or group instruction in the use of the library and its resources may be arranged for students through this division. The Commons is a partnership between Computing and Communications, the Queen Elizabeth II Library, and the Writing Centre. The Commons provides access to print, electronic, and technology resources with the support and expertise needed to help users in the use of these resources. The wall space in the Commons is called First Space and is used to highlight the work of the fine arts students of Memorial University of Newfoundland. The Government Documents Section contains a depository collection of Canadian government documents together with an extensive collection of material from the United States and other countries and international organizations. Document Delivery provides interlibrary loan and services to off-campus students. The Library’s Centre for Newfoundland Studies collects all published material pertaining to Newfoundland and Labrador, as well as manuscript materials. The Music Resource Centre, located in the School of Music, contains scores, sound recordings, and listening equipment.

8.13.2 Health Sciences Library

The Health Sciences Library is located on the ground floor of the Health Sciences Centre on the north campus of the University. It is a designated Canadian MEDLINE Centre which provides access to computer-assisted searches of the world’s biomedical literature on demand in support of clinical, teaching, and research interests. The Health Sciences Library has a collection of over 40,000 books on medicine, nursing, dentistry, pharmacy and allied health subjects and subscribes to more than 1700 paper and electronic journals. It maintains an audio-visual collection of over 1500 titles, which includes videotapes, slides, microfiche/film and audio cassettes.

8.13.3 Dr. C.R. Barrett Library

The Dr. C.R. Barrett Library is located on the main floor of the Fisheries and Marine Institute. It offers a comprehensive range of library and audio-visual services to students, faculty, and staff at the Fisheries and Marine Institute, the College of North Atlantic Engineering Technology Centre and to the Newfoundland and Labrador marine industries. The library collection supports study and research in fisheries and aquaculture, marine engineering, nautical science, and the aquatic environment. The collection also includes significant holdings in engineering. Library holdings include 50,000 books and technical reports, 400 current magazine and newspaper subscriptions, print and electronic reference sources, 1,400 films and videos, maps and pamphlets. The collection includes 4,500 ship drawings.

8.13.4 Ferriss Hodgett Library

The Ferriss Hodgett Library is located on levels 2 and 3 of the Library & Computing Building, Grenfell Campus, with seating for 203 users and includes group study rooms, audio-visual and computer carrels. The Library holds over 100,000 books and 450 current subscriptions, along with collections of audio-visual materials, government documents, microforms, periodicals, and access to many e-journals. A full range of public services is available including reference assistance, orientation tours and interlibrary loans, as well as access to electronic information resources, Internet, spreadsheet, word processing, and presentation software.

9 Student Support and Administrative Services in Office of Deputy Provost (Students) and Associate Vice-President (Academic) Undergraduate Studies

www.mun.ca/student

The Deputy Provost (Students) and Associate Vice-President (Academic) Undergraduate Studies provides leadership to create and maintain integrated, effective pan-university academic and non-academic supports and services for students. The Deputy Provost also works with the University’s undergraduate and graduate student organizations to ensure the interests of students are represented in University decision-making processes and committee activities. The following units are included in the Deputy Provost’s portfolio: Ancillary Operations, Career Development and Experiential Learning; Counselling Centre; Office of the Registrar; Office of Student Recruitment; Student Health Services; Student Residences; and Student
9.1 Ancillary Operations

This Unit oversees food and liquor services, the University Bookstore, the Campus Card and Locker co-ordination, and the University Centre Building Management and Food Court.

9.1.1 University Bookstore

The University Bookstore is the on-campus site for text, reference and general reading. The Bookstore carries stationery, school supplies, crested clothing, backpacks and memorabilia. Distance Education students are to order textbooks through Bookstore website. The University Bookstore is located at UC2006, telephone to (709) 864-7440, or website at www.bookstore.mun.ca.

9.2 Career Development and Experiential Learning (CDEL)

Career Development and Experiential Learning (CDEL) encompasses a broad range of programs designed to assist undergraduate, graduate students, and alumni of the University explore their career options and gain learning based work or volunteer experience. The Department includes Career Development, Experiential Learning, and the Student Volunteer Bureau.

9.2.1 Career Development

Career Development assists students and alumni explore their career options. It provides labour market information, employability skills workshops, individual consultations, and employment counselling, and enables students to gain practical career-related experiences. Career Development helps students gather information relevant to educational and career goals and assists students and alumni develop both short and long-term career plans. Workshops are offered to enhance the job search process for students and alumni. Career Development currently markets Memorial University of Newfoundland students to local, national, and international employer groups as well as assists employers with their on-campus recruitment needs. The Career and Graduate School Fair along with information sessions are provided to assist students in their transition to the world of work.

Postings for summer, part-time, and graduate employment are advertised throughout the year at MyMunLife. Students are encouraged to check the postings on a regular basis. Career Development is located on the fourth floor of the Smallwood Centre in UC4002 and is open from 9:00 a.m. to 5:00 p.m. The website can be viewed at www.mun.ca/cdel.

9.2.2 Experiential Learning

Experiential Learning provides support to Co-operative Education around marketing, employment program administration, interview facilitation and information technology; delivers on-campus employment programs for students such as SWASP and MUCEP; supports and promotes opportunities for students to “go abroad” through academic exchange, work and/or volunteer experience; offers experiential learning opportunities to students, particularly service learning through curricular and co-curricular programs and; works with academic programs on the administration of experiential learning based programs. Experiential Learning is located on the fourth floor of the Smallwood Centre, UC4000 and is open from 9:00 a.m. to 5:00 p.m. The website for Experiential Learning can be viewed at www.mun.ca/cdel.

9.2.3 Student Volunteer Bureau (SVB)

The Student Volunteer Bureau (SVB) is a resource centre and referral service for students interested in getting involved with volunteer work. It is a partnership between CDEL and MUNSU. Founded in 1983, the SVB is a by students, for students organization that aims to foster and enhance the quality of student life at Memorial University of Newfoundland. The Office is staffed by trained student employees and volunteers to assist individuals in finding volunteer placements both on-campus and in the community. The SVB coordinates the Volunteer Incentive Program (VIP), a program of three ascending award levels that was created to encourage and recognize student involvement in volunteer activities on and off campus. VIP is designed to promote career development and self-awareness, as each participant progresses through their university careers. The SVB also promotes and recognizes volunteerism by hosting the annual Get Involved and Volunteer Fair with MUNSU each Fall, as well as coordinating the annual MUN Volunteer Day Awards Ceremony each Spring. The SVB is located on the third floor of the Smallwood Centre, UC3011. The website for the SVB is www.mun.ca/cdel/Resources/Student_Volunteer_Bureau_SVB/index.php.

9.3 Counselling Centre

The primary function of the Counselling Centre is to help university students develop their personal capabilities. Through individualized personal counselling and a wide range of programs, students are encouraged and helped to develop their own unique resources and thereby promote personal growth and intellectual development. The Centre also serves as a training centre for advanced students in a number of helping professions.

9.3.1 Chaplaincy

The Chaplaincy is currently comprised of chaplains representing the Anglican, Muslim, Pentecostal, and Salvation Army denominations. The Chaplaincy attempts to provide resources, guidance and support for members of the university community. The Chaplaincy also seeks to bring a faith dimension to contemporary issues such as peace, justice, technology and science. The chaplains offer individual pastoral counselling as well as joint programs including weekly workshops, discussion groups, social activities and worship opportunities. Schedules of events are available from the chaplains or through the website at www.mun.ca/chaplaincy/. The Chaplaincy is located at UC 5001B.

9.3.2 Glenn Roy Blundon Centre for Students with Disabilities

The Glenn Roy Blundon Centre co-ordinates services for students with disabilities and those with short-term illnesses and injuries attending Memorial University of Newfoundland’s St. John’s Campus. Services and accommodations include: assistance arranging academic accommodations for tests and exams (medical or psycho-educational documentation is required), access to assistive technology, orientation of new students, note-taking assistance, card access to wheelchair elevators and lifts on campus, in-servicing of faculty and staff regarding disability issues and accommodations, and a liaising network among students, faculty, staff, and community groups.
In keeping with the University’s commitment to ensuring an environment of understanding, respect and inclusion, Memorial University of Newfoundland’s Accommodations for Students with Disabilities Policy establishes principles, guidelines and responsibilities respecting access to University services, facilities and housing for students with disabilities in accordance with the Newfoundland and Labrador Human Rights Act, 2010. This Policy is available at the University Policies and Procedures website www.mun.ca/policy under University Policies, Accommodations for Students with Disabilities. 

For further information, contact the Centre by visiting the University Centre, room UC4007, or by telephone to (709) 864-2156 (Voice), (709) 864-4763 (TTY), or by e-mail to blundon@mun.ca, or through the website at www.mun.ca/blundon.

For information about the services available at Grenfell Campus, contact the Student Services Learning Centre in person to AS235, or by telephone to (709) 637-6268, or by e-mail to studentservices@grenfell.mun.ca, or through the website at www.swgc.ca/student-services/disability-services/.

For information about the services available at the Fisheries and Marine Institute Campus, contact Student Affairs in person to W3025, or by telephone to (709) 757-0702, or through the website at www.mi.mun.ca/departments/disabilityservices/.

9.3.3 Individual and Group Counselling for Other Personal Concerns

In addition to individualized personal counselling, the Centre offers specialized group and/or training programs. For many students the fear of testing, fear of asserting one's self and continued mental and physical stress can lead to poor academic performance or personal problems. These, and other such difficulties, can be dealt with on either an individual or group basis, depending upon the student's needs. The Counselling Centre routinely offers a variety of groups: Assertiveness Training, Developing Healthy Relationships, Mood Management, Test Anxiety, and others on demand.

9.3.4 Learning Enhancement Programs

Through a “Drop-in Study Skills Clinic,” students may actively enhance their learning capabilities and personal development. These drop-in sessions provide an opportunity to discuss a variety of concerns with a psychologist and develop helpful strategies to meet multiple academic needs. In the past, students have worked on reading and study skills, time management, oral presentations, organizing knowledge for writing term papers and essays, and test anxiety. Following initial contact, students may be registered in an online “Academic Skills Portfolio” in D2L for further work and follow-up. Learning enhancement programming trains students to employ a number of organizational techniques to comprehend and recall important concepts.

9.3.5 Psycho-Educational Testing

A psycho-educational assessment program is offered on a fee-for-service basis for students seeking academic accommodations. Appointments can be made in person at UC5000 or by telephone to (709) 864-8874.

9.3.6 UCC 2020: Applied Cognitive and Affective Learning Strategies for Undergraduate Students

This 3 credit hour course is an introduction to cognitive and affective learning strategies, and techniques with an emphasis on the application of these techniques in the students own learning repertoires together with an overview of relevant research from cognitive psychology and related fields. Topics covered will include information processing, memory, forgetting, problem solving, metacognition, general and specific learning strategies, learning styles, and affective strategies. Students can receive credit for only one of UCC 2020 or the former University 2020.

9.3.7 Wellness Program

The Wellness Program co-ordinates a broad range of health and wellness services for the student community. Our main mission is to raise awareness to the many self-care skills needed for all. This consists of the peer helper program and the many other outreach events organized by this office. Located in the Counselling Centre, the Wellness Program works in collaboration with various campus and community organizations to help facilitate wellness promotion at the University.

Inquiries may be made in person at UC5002A, by telephone to (709) 864-2659 or through the website at www.mun.ca/wellness.

9.4 International Student Advising

The International Student Advising Office is located in Corte Real, Burton’s Pond Complex, Room 1000 C. Settlement and integration of foreign students are two major functions of the advisors. New students must meet with the International Student Advisors upon arrival for advice concerning their stay at the University and their compulsory health insurance program. Further information may be obtained by telephone to (709) 864-8895 or through the website at www.mun.ca/isa/main.

9.5 Student Financial Services

Information regarding the Canada - Newfoundland and Labrador Student Loans Program is available from Student Financial Services, Department of Education, located in Coughlan College. Student Financial Services can be reached by telephone to (709) 729-4244/5849, email at www.studentaid.gov.nl.ca or through the website at www.ed.gov.nl.ca/studentaid/.

9.6 Student Health Service

The staff at Student Health Service are available to provide comprehensive health care and to assist students in taking responsibility for their own health. Primary functions of the Service are the diagnosis and treatment of illness, the activation and maintenance of wellness and the promotion of health education programs.

The Student Health Service is located in room UC4023 on the fourth floor of the Smallwood Centre, and is open Monday through Friday, 8:30 a.m. to 4:00 p.m. by appointment only, except for emergencies. Walk-in clinics are scheduled throughout the week. Students can schedule appointments by telephone or in-person. To cancel an appointment email studenthealthcance@mun.ca before 7:00 a.m. of the day of the appointment. Failure to do so will result in a $30.00 charge to the student’s Memorial University of Newfoundland account. This email is only for cancellations and no appointments can be made through this e-mail address. Further information may be obtained by telephone to (709) 864-7597 or through the website at www.mun.ca/health.

9.6.1 International Students

International students are automatically enrolled, upon registration, in the mandatory emergency medical insurance plan. International students may opt-in their dependents. A personal medical card will be issued by the International Student Advising (ISA) Office and must
be presented by the student each time medical or hospital services are required. The student must also sign a claim form for each medical or hospital service rendered. MCP cards are required for international students that are MCP eligible and should be presented first in the event of medical care. Further information may be obtained by contacting the International Student Advising Office.

Graduate international students eligible for provincial health coverage (MCP) should bring proof to the ISA office and opt out of the emergency plan and into the Graduate Students’ Union (GSU) health plan.

Undergraduate international students eligible for provincial health coverage (MCP) should bring proof to the ISA office and opt out of the emergency plan and into the Memorial University of Newfoundland Students’ Union (MUNSU) health plan.

9.6.2 Medical Records
All students’ medical records are strictly confidential. No information is released without the request and written consent of the student.

9.6.3 Medical Services
Services provided include:
1. diagnosis and treatment of: physical illness, emotional problems, sexually transmitted diseases, injuries;
2. individual counselling on various aspects of health and wellness: smoking, fitness, weight control, nutrition, alcohol and drug abuse;
3. referral to: specialists, physiotherapists, hospital diagnostic services, other health care agencies;
4. reproductive health: pap smears, contraception, pregnancy - testing, referral services;
5. Injury rehabilitation programs;
6. AIDS (HIV antibody) testing: confidential blood tests, pre-test counselling, post-test counselling;
7. "Medicals" (non-insured service): pre-employment, pre-admission to professional schools, SCUBA diving, driver's license, TB skin test;
8. Educational materials on health issues;
9. MCP information and application forms; and
10. Vaccinations.

9.6.4 Medicals
"Medicals" (pre-employment, SCUBA, driver's licence, life insurance, etc.) are not covered by insurance plans and must be paid for by the student.

9.6.5 New Students
Students are encouraged to bring a copy of their medical records to the Student Health Centre. This is especially important for students who:
1. have chronic or recurrent illness, e.g. asthma, diabetes, inflammatory bowel disease, seizure disorders;
2. require refills of prescription drugs;
3. have a physical disability, e.g. cerebral palsy, spina bifida, visual or hearing impairment; or
4. have a history of mental illness.

9.6.6 Newfoundland and Labrador Students
MCP cards are required.

9.6.7 Payment
The University will bill the appropriate paying agency for the eligible medical services received at the Student Health Service.

9.6.8 Students From Other Canadian Provinces
Students from other Canadian provinces are required to bring their provincial medicare cards.

9.7 Student Residences
Student Residences provides both on and off campus housing services for students and summer accommodations for students, staff, faculty, and visitors to Memorial University of Newfoundland's St. John's Campus. Further information can be found at www.mun.ca/hfcs, or by email at housing@mun.ca, or by phone to (709) 864-7590.

9.7.1 On-Campus Housing
Memorial University of Newfoundland's St. John’s campus has three styles of on-campus housing; traditional residence halls in Paton College, suite style in Macpherson College, and apartments in Burton’s Pond. The nine Paton College “Houses” are co-educational and provide accommodations for approximately 100 students in each building, mostly in double occupancy (shared) bedrooms. Each House has a kitchen, TV room, laundry room, study room, and computer room. Macpherson College consists of two large wings, each able to accommodate 250 residents. Accommodations are provided in a private bedroom with a semi-private (shared) washroom, and each floor has a community lounge and meeting/study space. Laundry facilities are available on the first floor of each wing. Accommodations in Paton College and Macpherson College are ‘room and board’ and all residents are required to purchase a meal plan as outlined under the Ancillary Operations section of this Calendar. Burton’s Pond Apartments provides housing for approximately 500 students in four apartment buildings (Cabinet Court, Cartier Court, Gilbert Court, and Guy Court). Each apartment consists of four single bedrooms with shared kitchen, living room, and bathroom. A services building, Corte Real, is accessible to the residents 24 hours a day and includes a computer room, laundry centre, study room, common room, and the residents’ mail boxes. On-Campus Housing is also available for students with families in 11 two bedroom apartments in Baltimore Court.

Each application for On-Campus Housing must include a processing fee that is non-refundable and is not credited to the accommodations fees. Admission and re-admission to On-Campus Housing is based on several factors, including scholarship, the applicant’s potential to contribute to the quality of student life, suitability, and prior behavior. All applicants must reach their sixteenth birthday on, or before, the date they move in to residence. The University reserves the right to refuse admission, or readmission, to On-Campus Housing to any applicant. Any offer of accommodation for On-Campus Housing is conditional on the applicant being accepted
as a student of Memorial University of Newfoundland, or the Fisheries and Marine Institute. An applicant who is not accepted to the University must contact Student Residences and cancel their offer of accommodations immediately upon notification from the Office of the Registrar.

All residents moving into residence in the Fall semester are required to accept a two-semester Agreement (i.e. Fall and Winter semesters). Occupancy is normally the day before the first day of classes until 12:00 noon on the day after the last regularly scheduled undergraduate examination, each semester. Residents who require accommodations between semesters can make an official request to housing@mun.ca. If approved there will be an additional charge for accommodations between semesters. Student Residences reserves the right to deny students accommodations between semesters.

All residents of On-Campus Housing, and their guests, must abide by the Housing Regulations as well as the University’s Student Code of Conduct, as failure to do so may result in discipline. For information regarding the Housing Regulations contact the Student Residences’ office. For information on the Student Code of Conduct, see www.mun.ca/student/conduct/conduct.php.

9.7 Off-Campus Housing

The Off-Campus Housing Office provides information and advice to students facing difficulties in their housing search or issues with their landlords or roommates. It provides enhanced web resources, social and educational programming, and housing related resources for students of Memorial University of Newfoundland who are residing off campus. The staff of the Off-Campus Housing Office meet with students to assist them with their housing needs, conduct site visits, and review rental properties using the Off-Campus Housing Amenity Checklist. The listings of accommodations are provided for information only and are not endorsed in any way by Memorial University of Newfoundland, or the Student Residences office. The University does not take any responsibility for these accommodations. Further information about Off-Campus Housing resources is available at www.mun.ca/student/och, or by email at och@mun.ca, or by telephone to (709) 864-3765.

9.8 Student Life

Student Life is responsible for the development and administration of programs and activities for students, the identification and assessment of emerging campus trends, long range and strategic planning, fostering and supporting campus leadership as it relates to student governments, campus societies and campus policy development for students.

Student Life works closely with students, staff and faculty at the community at large to maximize the quality of student and academic life for students. Student Life is comprised of the following specialty areas: Answers, Aboriginal Resource Office, Glenn Roy Blundon Centre for Students with Disabilities, Career Development and Experiential Learning, International Student Advising, and a developing unit on support and crisis management for students.

9.8.1 Answers

Answers is a frontline service centre for a variety of programs and services for students. Answers coordinates leadership programs such as Orientation for students and parents, Leadership, Education and Preparation (LEAP!), Memorial Student Leadership Conference, Horizons, Memorial Ambassador and Not-for-credit Leadership Certificate Programs. It also offers information about Campus life and the Canada-Newfoundland Student Loans Program, and coordinates the co-curricular Record (CCR). For further information contact Answers by telephone to (709) 864-7461, by email to answers@mun.ca, or through the website at www.mun.ca/student/answers/ or in-person at UC 3005.

9.8.2 Aboriginal Resource Office

The Aboriginal Resource Office provides a variety of services to the Aboriginal student population attending Memorial University of Newfoundland in St. John's. The Aboriginal Resource Office staff is entrusted to assist and/or refer students on matters related to: admission requirements, adaptation to an academic and urban environment, and educational information that may enhance the educational progression of current and prospective Aboriginal students. The office also co-ordinates activities to raise awareness of Aboriginal culture on campus and develops opportunities to engage Aboriginal students in life at Memorial University of Newfoundland. Inquiries can be made in-person at University Centre, UC 4003-4005, by telephone to (709) 864-3495 or (709) 864-8278, or through the website at www.mun.ca/aro.

9.9 Students' Unions

9.9.1 Memorial University of Newfoundland Students' Union (MUNSU)

The Memorial University of Newfoundland Students' Union Act (1968) incorporated the Students’ Union (MUNSU) as the official students' union representing undergraduate students at the University's St. John's campus.

The Students’ Union provides a range of advocacy work to improve the lives of its members and increase accessibility of post-secondary education. It lobbies all levels of government and other decision-making bodies and organizes campaigns around these and other issues which are important to the membership. It also provides services to improve the quality of student life: the Attic (Copy Centre, Convenience, and Postal Service), Health and Dental Insurance, SafeDrive / WalkSafe, the Student Handbook/Dayplanner, Breezeway Bar, CHMR-FM radio, and others. The cost of services are partially funded by Students’ Union fees paid by each undergraduate student upon registration. MUNSU assists students on an individual basis to resolve student aid issues as well as academic-based problems and appeals. Through the office of the Director of Advocacy, problems with appeals, assessments, repayment, and general complaints in these areas are addressed. Students who have more serious issues may be referred to the MUNSU legal aid service for one free consultation. These sessions are not considered extended legal counsel.

MUNSU has established and provides funding for a number of Resource Centres on campus: Women's Resource Centre (WRC), International Students’ Centre (ISC), Lesbian-Bisexual-Gay-Transgender Resource Centre (LBGT-MUN), MUN DISC (Disability Information and Support Centre), Students Older than Average (SOTA), Student Parents Resource Centre, and the Aboriginal Students’ Centre. The Students’ Union also operates over 200 student clubs organized around a wide range of academic and extracurricular activities.

The Students’ Union is a member local of the Canadian Federation of Students (CFS) representing over half a million students across Canada. Further information may be obtained from the website at www.munsu.ca.

9.9.2 Students’ Union Fee

All full-time and part-time undergraduate and graduate students of the University pay compulsory fees to their respective students’ unions (MUNSU or GSU) and all students, upon registration, automatically become members of either MUNSU, the undergraduate students’ union, or GSU, the graduate students’ union.
9.3.9 The Graduate Students’ Union (GSU)

The Graduate Students’ Union (GSU) at Memorial University of Newfoundland is an organization run for graduate students by graduate students. Founded in 1967, the GSU is one of Canada’s oldest independently incorporated graduate student governments. Every graduate student at the University becomes a member of the GSU upon registration. Presently, the graduate student body consists of over 3000 full and part-time students, thereby comprising more than 10% of the total student population at Memorial University of Newfoundland.

The Graduate Students’ Union has two main functions: 1) to represent and protect the interests of the graduate students at all levels of university governance, and 2) to help enhance the quality of graduate student life at Memorial University of Newfoundland. Graduate student fees, presently $30.00 per semester per student, provide the GSU with an annual operating budget. These fees are used to run the GSU office, help finance social and academic events for graduate students, provide conference aid for students presenting at conferences, and to cover other operating expenses.

The Graduate Students’ Union is run by a Board of Directors consisting of the five GSU Executive officers and one student representative from each academic unit with a graduate program. Additionally, graduate students who sit on various university committees regularly attend. The Board meets once a month to assist the Executive in guiding the development and direction of the organization. The Board meetings also give students a chance to raise concerns from their individual departments and in return, to receive advice or suggestions on problem solving. These meetings are the main line of communication between the Executive officers and the graduate student population at the University. It is for this reason, that the GSU needs an active and interested Board of Directors. Graduate students who are interested in getting involved are always welcome, and should speak to their department representative, or contact the GSU office.

The Graduate Students’ Union is located in Field Hall on the north side of campus. Operated by the GSU, Field Hall is comprised of four floors: the top two floors for a graduate student residence, one floor for departmental graduate student offices and GSU offices, and the ground floor for Bitters - Restaurant and Lounge, the pub owned and operated by the GSU.

The Graduate Students’ Union general office is located on the second floor of Field Hall in room GH 2007. Office hours are posted outside the office door, on the answering service, and the website. You can reach the GSU by phone to (709) 864-4395, by fax at (709) 864-3395, by email to gsu@gsumun.ca, or by writing to Graduate Students’ Union, Field Hall, GH 2007, 216 Prince Philip Drive, St. John’s, NL, A1B 3R5. Further information about the GSU can be obtained from the website at www.gsumun.ca/.

10 Dentistry, Occupational Therapy, and Physiotherapy

10.1 General Information

Because admission requirements vary significantly in different institutions and from one health science to another (e.g., Dentistry, Dental Hygiene, Occupational Therapy), interested students are advised to plan carefully and early.

The Career Planning Centre, located in the University Centre room UC4002, can provide advice or, in some instances, arrange for students to contact other sources of more detailed information. The Centre maintains considerable information on careers in the various health fields, including guides and university calendars outlining where the programs of study are available and their entrance requirements. Interested students should consult these materials as early as possible, preferably before the Orientation Week interview and first-year registration.

10.2 Dentistry

After having consulted the Career Planning Centre, students who require further advice about dentistry prerequisites should consult Dr. Faye Murrin, Department of Biology in room S4109, who has agreed to act as the faculty advisor for pre-dental students.

10.3 Occupational Therapy

Students interested in pursuing a career in Occupational Therapy may arrange an appointment with Brenda Head, who has been designated by Memorial University of Newfoundland as a liaison person for the School of Occupational Therapy at Dalhousie University. Further information may be obtained by writing Ms. Brenda Head, Memorial University of Newfoundland, Room 2765, Health Science Centre, St. John’s, NL A1B 3V6, or by telephone to (709) 777-7105.

10.4 Physiotherapy

Physiotherapy career information is available at the Career Planning Centre. Students requiring additional assistance or advice may arrange an appointment with Kim Furlong. Ms. Furlong has been designated by Memorial University of Newfoundland as a liaison person with Dalhousie University, School of Physiotherapy and as a source of advice concerning other Physiotherapy Programs in Canada. Further information may be obtained by writing Kim Furlong, Memorial University of Newfoundland, Room 2765, Health Sciences Centre, St. John’s, NL A1B 3V6, or by telephone to (709) 777-7080, or e-mail Kim.furlong@mun.ca.

11 Distance Education, Learning and Teaching Support (DELTS)

Director
Cleyle, S.E., B.A. Mount Allison, M.L.I.S. Dalhousie

Associate Directors
Simmons, B., M.B.A. Memorial
Wells, R., B.Sc.(Hons.), M.Ed. Memorial

Distance Education, Learning and Teaching Support (DELTS) leads the delivery of Memorial University of Newfoundland’s online education offerings, the provision of educator development, and the use of educational technologies in teaching and learning both online and in the classroom. Through its activities DELTS serves students on all of the University’s Campuses, and connects students across the Province, country and around the world who have limited educational opportunities, or who seek flexibility in education delivery. The Unit also enhances, promotes and supports an e-learning vision throughout the Institution. DELTS provides Faculties and Schools with the e-learning expertise and knowledge needed to provide an engaging and responsive learning environment in the classroom and online. A Memorandum of Understanding with the Department of Education’s Centre for Distance Learning and Innovation (CDLI), which delivers distance education to K-12 students, allows DELTS to share knowledge and information and prepare for the incoming university student.
11.1 Online Education
DELOTS offers over 400 online undergraduate and graduate courses to over 19,000 course registrants annually. Courses are available in many disciplines with complete undergraduate and graduate degree available online. These include bachelor degrees in business (Bachelor of Business Administration), maritime studies (Bachelor of Maritime Studies), and technology (Bachelor of Technology); master degrees are offered in education (Master of Education (Information Technology) and Master of Education (Post-Secondary)); human kinetics and recreation (Master of Physical Education), nursing (Master of Nursing), maritime management (Master of Maritime Management), technology management (Master of Technology Management (Engineering/Applied Science Technology) and Master of Technology Management (Aquaculture Technology)), and marine studies (Master of Marine Studies (Fisheries Resource Management)). Courses are delivered online; however, some courses include print materials (i.e. manual, readings, textbooks), and web conferencing. For a comprehensive listing of all programs offered completely or partially online visit www.delts.mun.ca.

11.2 Client Services
For clientele of DELTS, support is available on campus at the G. A. Hickman Building in room E1032, and seven days a week online, by telephone, or at The Commons in the Queen Elizabeth II Library. When the St. John's Campus is closed unexpectedly, regular online service hours remain in effect with staff providing remote client support. DELTS can assist with: accessing online course components; accessing and using educational technologies, including Desire2Learn and Online Rooms; technical support for hardware/software configuration, embedded multimedia, and creating/editing course blogs and wikis; and accessing online student resources. DELTS also supports and administers mid-term, final and deferred examinations for online courses. Additionally, to best serve new and returning online students, DELTS makes regular and scheduled contact throughout the online experience to effectively engage and retain students. Further information on DELTS’ services may be obtained by telephone to (709) 864-8700, or toll free to (866) 435-1396, or by fax to (709) 864-6783, or through the website at www.delts.mun.ca.

11.3 Course Development and Educational Technology
As an academic support unit, DELTS works in coordination with Memorial University of Newfoundland's faculties and schools to identify and develop courses and programs for online delivery. Design and development professionals are paired with content experts from the respective faculties and schools to develop, manage and deliver the University’s online programs. In all its functions, DELTS encourages and supports innovative teaching practices through the effective application of instructional technologies both online and on campus. A wide range of professional services in video production, multimedia development and classroom technology are available through DELTS and aim to provide faculty with pedagogical enhancements and ultimately increase student engagement. Inquiries may be made by telephone to (709) 864-8700 or (866) 435-1396 (toll free).

11.4 Educator Development
DELOTS supports the University's faculty members, per course instructors, postdoctoral fellows and graduate students by providing educator development opportunities that enhance knowledge and skills in teaching. The team supports a collaborative, responsive, and pragmatic approach to developing services and programs related to teaching and learning using a blended format. Among the services provided are professional development experiences and programs for teaching development; individual and small group consultations; and assistance with teaching dossier preparation. Support is given for awards applications as well as other activities and initiatives that recognize excellence in university teaching. A resource centre offers a collection of books, journals, newsletters, and video programs about instruction. Further information on educator development services may be obtained by telephone (709) 864-8700, or by fax (709) 864-4635, or by email to instrdv@mun.ca.

12 Special Divisions and Separately Incorporated Entities
12.1 Canadian Centre for Fisheries Innovation (CCFI)
www.ccfi.ca

Board of Directors
Gregory, G. (Chair), Fisheries Consultant, St. John’s, NL
Abrahams, Dr. M., Faculty of Science, Memorial University of Newfoundland
Bidgood, J., Prince Edward Aquafarms, Kensington, PE
Butler, R., Cooke Aquaculture, St. George, NB
Chidley, G., Harvester, Renews, NL
Irvine, G., Lobster Council of Canada, Halifax, NS
Linstedt, G., Labrador Fishermen’s Union Shinco Co. Ltd., Lance au Loup, NL
McGuinness, P., Fisheries Council of Canada, Ottawa, ON
Miller, A., Baader North America, Kansas City, US
Quinian, K., Government of Newfoundland and Labrador
Shea, R., School of Fisheries, Marine Institute
Snow, P., High Liner Foods, Lunenburg, NS
Thompson, G., Fundy North Fishermen’s Association, Dipper Harbour, NB
Verge, R., Canadian Centre for Fisheries Innovation, St. John’s, NL
Wareham, A., Icewater Seafoods, Arnold’s Cove, NL
Whyatt, S., Harvester, St. John’s, NL

Management and Administrative Staff
Managing Director

Executive Assistant
Horan, C., B.A. Memorial

Industrial Liaison Officers
Johnson, B., Dip. Tech. Marine Institute, M.M.S. Memorial

Secretarial Officer
Brophy, A.
Located at the Fisheries and Marine Institute, the Canadian Centre for Fisheries Innovation is owned by Memorial University of Newfoundland. The Centre provides scientific research and technical services to the fishery and aquaculture. Working closely with the faculty and staff of the region’s universities and technical institutes, the Centre provides expert assistance in the areas of aquaculture, harvesting and processing, with the aim of enhancing the industry’s productivity and profitability. CCFI’s activities also include resource conservation research, equipment development and marine biotechnology. The Centre’s services are available to anyone in the fishery or aquaculture industry who wishes to overcome obstacles or meet opportunities through science and technology.

CCFI is an organization structured to meet the needs of the industry quickly and efficiently. The Industrial Liaison Officers collaborate directly with clients to develop and execute industrially relevant research and development projects.

**Mandate**

The organization works with industry clients to identify needs. It then collaborates with scientific and technical faculty and staff to devise solutions to meet those needs. CCFI works to ensure that the initiatives are organized, on time and directed to address the specific needs of the industry clients. The Centre also funds these projects, when required.

The Centre’s research and development undertakings cover all areas of importance to the fishery and aquaculture industry:

1. Environmentally Sustainable Harvesting
2. Energy Efficiency
3. Utilization of Fish Wastes
4. Resource Assessment and Surveys
5. Improved and More Efficient Fishing Platforms
6. Human Resource/Technology Applications
7. Alternative Fish and Shellfish Species for Aquaculture
8. Efficiency and Profitability in Aquaculture
9. Resolving Environmental Issues in Aquaculture

With strong representation from industry, the Board of Directors oversees the direction and mandate of the Centre to ensure that its work is always relevant to the needs of the fishery.

### 12.2 C-CORE

**www.c-core.ca**

**Board of Directors**

Oake, D., (Chair), President, Invenio Consulting Inc.
MacLeod, M., (Vice-Chair), Vice-President, Atlantic Canada, Chevron Canada Ltd.
Aadland, A., Vice-President, Operations, Statoil
Alcock, D., President, Dispute Resolutions
Burke, G., East Coast Commercial & Business Development Manager, Suncor Energy Inc.
Bursey, T., Vice-President, Corporate Services & CFO, Council of Canadian Academies
Eidsnes, J., Technology Director, North Sea & Canada, Subsea 7
Gosine, Dr. R., Associate Vice-President (Research), Collaborations and Partnerships, Memorial University of Newfoundland
Keating, J., Vice-President, Oil & Gas, Nalcor Energy
McDonald, P.
Naterer, G., Dean, Faculty of Engineering and Applied Science & Professor of Mechanical Engineering, Memorial University of Newfoundland
Randell, Dr. C., President & CEO, C-CORE
Sellers, S., Technical Manager, Hebron Project, ExxonMobil

**Officers of the Corporation**

Randell, C.J., B.Eng. Lakehead, M.A.Sc., Ph.D. Victoria, P.Eng.; President and Chief Executive Officer
Brown, M., M.Sc. Eng. University of Alberta, P.Eng.; Vice-President, Oil & Gas
Kennedy, S.C., B.Comm., C.M.A. Memorial; Vice-President, Corporate Services
Phillips, R., B.Sc. Bristol, M.Phil., Ph.D. Cambridge, P.Eng.; Cross appointment with Faculty of Engineering and Applied Science
Healey, R., Corporate Secretary

**Management Team**

Randell, C.J., B.Eng. Lakehead, M.A.Sc., Ph.D. Victoria, P.Eng.; President and Chief Executive Officer
Brown, M., M.Sc. Eng. University of Alberta, P.Eng.; Vice-President, Oil and Gas
Jefferies, W., M.Sc.C. B.Sc. University of Toronto; Executive Director, LOOKNorth
Kennedy, S., B.Comm. Memorial, C.M.A.; Vice-President, Corporate Services
Ralph, F., B.Eng., M.Eng. Memorial, P.Eng.; Executive Director, CARF

C-CORE is a separately incorporated corporation of Memorial University of Newfoundland that creates value in the private and public sectors by undertaking applied research and development, generating knowledge, developing technology solutions and driving innovation.

Established in 1975 to address challenges facing oil & gas development offshore Newfoundland & Labrador and other ice-prone regions, C-CORE is now a multi-disciplinary R&D organization with world-leading capability in:

1. Remote Sensing
2. Ice Engineering
3. Geotechnical Engineering

With unparalleled harsh environment expertise, C-CORE is active on every continent, providing research-based advisory services and technology solutions to national and international clients in the natural resource, energy, security and transportation sectors.

C-CORE focuses on long-term value by investing in research, equipment and competence development, and continuously growing capability and capacity. Throughout the past generation, C-CORE has supported over 1000 undergraduate, graduate and post-doctoral students on their path to become the highly qualified personnel needed to drive global innovation, and has served as an incubator for 18 new technology companies.
Headquartered in St John's, NL, with offices in Ottawa and Halifax, C-CORE maintains a close collaborative relationship with Memorial University of Newfoundland, sharing and augmenting its extensive facilities, diverse academic expertise and research portfolio. From a staff of some 90 scientists, engineers and other professionals, project teams are assembled based on client need, drawing on internal expertise across disciplines, as well as national/international academic, institutional and corporate partnerships, in order to support increasingly safe and sustainable operations in challenging environments around the globe.

C-CORE’s in-house facilities include mechanical, electrical and soils laboratories; high-security high-capacity computing facilities; and a 5.5m-radius, 200G payload capacity Actidyn centrifuge (the largest in Canada and the only one in North America designed to model cold region phenomena), with adjoining model preparation laboratory and earthquake simulator; mechanical, electrical and soils laboratories.

C-CORE hosts two major research centres:

1. CARD (Centre for Arctic Resource Development) is a centre for medium to long term research and development aimed at advancing safe, responsible and cost-effective development of hydrocarbon resources in Arctic and other ice-prone regions.

2. LOOKNorth (Leading Operational Observations and Knowledge for the North) is a national Centre of Excellence for Commercialization and Research (CECR) dedicated to validating and commercializing monitoring technologies that support safe and sustainable development of Northern natural resources.

12.3 Centre for Collaborative Health Professional Education

www.med.mun.ca/cchpe

Director
Heath, O., B.A. McGill, M.Sc., Ph.D. Memorial; Associate Professor; Joint appointment University Counselling Centre and Community Health and Humanities, Faculty of Medicine; Cross appointment Department of Psychology

Academic Staff
Curran, V.R., B.A. Memorial, Dip.Ed.Ed. St. Francis Xavier, M.Ed. Dalhousie, Post Grad Cert. British Columbia, Ph.D. Guelph; Professor of Medical Education, Faculty of Medicine, Cross appointment with Faculty of Education

Faculty Scholars
Alteen, A.M., B.N., M.N. Memorial; Faculty, Western Regional School of Nursing

Acute, A., B.N., M.N. Memorial; Faculty, Centre for Nursing Studies

Dillon, C., B.Sc.(Pharm.) Memorial, Pharm.D. Toronto; Assistant Professor, School of Pharmacy; Cross appointment with Faculty of Medicine

English, D., B.N., M.N. Memorial; Faculty, Centre for Nursing Studies

Heath, O., B.A. McGill, M.Sc., Ph.D. Memorial; Associate Professor; Joint appointments with University Counselling Centre and Community Health and Humanities, Faculty of Medicine

Neary, M., B.Sc. Memorial, M.Ed., Ph.D. McGill; Assistant Professor, University Counselling Centre

Porr, C., B.Sc.N. McMaster, M.N. Calgary, Ph.D. Alberta; Assistant Professor, School of Nursing

Radu, G., M.D. Carol Davila University, M.B.A. University of Liverpool, FRCP; Assistant Professor of Psychiatry, Faculty of Medicine

Snow, N., B.N., M.N. Memorial; Assistant Professor, School of Nursing

Strickland, J., B.N. Memorial, M.N. University of New Brunswick; Faculty, Western Regional School of Nursing

Stringer, K., M.B.Ch.B. South Africa, C.C.F.P.; Assistant Professor of Family Medicine, Faculty of Medicine

Sullivan, A.M., B.Rec. Dalhousie, M.A. Waterloo, Ph.D. Guelph; Associate Professor, School of Human Kinetics and Recreation

Ward, P., B.N., M.Ed. Memorial; Faculty, Centre for Nursing Studies

Staff
Kirby, B., Manager, Interprofessional Education

Reid, A., Research Coordinator

Silver, S., Administrative Assistant

The Centre was established in September 1999 in response to a growing emphasis on interprofessional health care. Centre oversight is provided through a Governing Council comprising: the Deans of the Faculties of Education and Medicine and the Schools of Human Kinetics and Recreation, Nursing, Pharmacy and Social Work; the Director of the Counselling Centre; or their representatives. The Centre’s mission is to provide leadership in interprofessional education (IPE) and research that will improve the access, quality, safety and efficiency of health and social care provided to the public. Key activities of the Centre include:

1. development of interprofessional education curriculum for both learners and practitioners;

2. development of evaluation tools and frameworks for interprofessional education and collaborative practice;

3. research initiatives and networks related to interprofessional education and collaborative practice;

4. faculty development related to interprofessional education and collaborative practice; and

5. development of leaders in interprofessional education and collaborative practice.

All members of the University community including faculty, staff, and students are invited and encouraged to be engaged in the activities of the Centre. Academic Staff Members may hold an appointment as either a Faculty Scholar or Faculty Associate of the Centre. Faculty Scholars are appointed by the Governing Council on the recommendation of the respective Dean or Director based on their active engagement in academic development and scholarly activity related to the field of interprofessional collaboration and education. Faculty Associates actively participate in curriculum development or instruction of interprofessional education programs coordinated by the Centre. They are reviewed and approved by the Governing Council on an annual basis.

Further information may be obtained by contacting the Centre in writing to the Centre for Collaborative Health Professional Education, Memorial University of Newfoundland, Health Sciences Centre H1650, St. John's, NL Canada, A1B 3V6, or by telephone at (709) 777-6912, or by fax at (709) 777-6576, or through the website at www.med.mun.ca/cchpe.

12.4 Centre for Earth Resources Research (CERR)

Director
Hanchar, J.M., B.S. Memphis, M.S. Vanderbilt, Ph.D. Rensselaer Polytechnic Institute

Research Group
The Centre draws on the research expertise of faculty and research staff members in the Department of Earth Sciences as well as other specialists inside and external to the University. For a complete listing of faculty, see Earth Sciences entry.
Scope and Objectives
The CERR was established in 1983 to provide for the co-ordination and promotion of earth resources research and associated work related to the origin, discovery, development, exploitation, and environmental aspects of earth resources. The Centre promotes, initiates, and co-ordinates research within the earth resources disciplines on the national and international scenes. Researchers interact, when appropriate, with the industrial and government sectors and introduce other organizations to the potential benefits of further research and development in earth resources. The special facilities of the Centre complement the development of graduate and undergraduate programs in earth sciences and related disciplines at Memorial University of Newfoundland. A further function of the Centre is to contribute to the training of people competent in solving earth resources problems and to encourage personnel exchanges with industry and government. The Alexander Murray Building houses the Centre, and has laboratories for teaching and basic and applied research.

Organization
The Centre is an integral part of the Department of Earth Sciences. The active research of faculty members contributes to programs in the Centre. Increasing collaboration is under way with government and industry in research projects that emphasize earth resources. The work of the Centre addresses problems and opportunities related to mineral resources, petroleum resources, exploration technology, environmental geoscience, and generic research. The Centre works closely with other local, national, and international research institutes. CERR hosts the geoscience component of the University’s Oil and Gas Development Partnership.

12.5 Folklore and Language Archive (MUNFLA)

www.mun.ca/folklore/munfla
Chair, Advisory Committee
Dean of Arts
Thorne, Dr. C.
Archivist
Cox, P.
Archival Assistant
Seeman, J.
Publications Assistant
O’Keefe, R.
Folklore Transcriber
Lawrence, R.
Honorary Research Associate (Language and Folklore)
Widdowson, Dr. J.D.A.

Memorial University of Newfoundland Folklore and Language Archive (MUNFLA) is Canada’s foremost repository for recorded and collected items of Newfoundland and Labrador folklore, folklore, language, oral history and popular culture. Established in 1968, it is one of the oldest archives at Memorial University of Newfoundland. The Archive is an integral part of the teaching and research activities of the Department of Folklore at the graduate and undergraduate levels. It is a member of the Association of Newfoundland and Labrador Archives and the Canadian Council of Archives.

The Archive contains diverse materials, donated by more than 12,000 contributors, covering topics such as custom and belief, childlore, material culture and work techniques, song, music, dance, tale, legend, personal experience narrative, poetry, riddles and conundrums, proverbs and foodways. Special holdings include the field notebooks of Maud Karpeles who compiled Folk Songs from Newfoundland (1971); R. Seary’s collection of research materials on family names, the folkore collections of Herbert Halpert and John Widdowson; the extensive Newfoundland and Labrador song collections of Kenneth S. Goldstein and MacEdward Leach; Lawrence R. Smith’s linguistic materials on Labrador Inuktitut and Southern Avalon dialect; 12,000 Canadian Broadcast Corporation recordings; the Lorne Russwurm international collection of country music; and Franco-NL materials from the Centre d’Études Franco-Terreneuviennes. Overall, the collection contains 40,000 audio tape recordings, 14,500 commercial recordings, 20,000 photographs, 2,000 printed documents, 16,000 manuscripts, and 800 video tape recordings.

Further information can be obtained by writing Memorial University of Newfoundland Folklore and Language Archive, Department of Folklore, ED-4038, G. A. Hickman Building, St. John’s, NL Canada A1B 3X8, or by e-mail at munfla@mun.ca, or by telephone at (709) 864-8401, or by fax at (709) 864-4718, or through the website at www.mun.ca/folklore/munfla.

The Gardiner Centre was formed in August 2008 by the amalgamation of the Centre for Management Development and the P.J. Gardiner Institute, both of which have served Newfoundland and Labrador individuals and organizations for close to 30 years.

As the outreach unit of Memorial University of Newfoundland’s Faculty of Business Administration, the Gardiner Centre is focused on developing management and leadership skills, expanding business knowledge and facilitating organizational growth. Whether clients are existing or aspiring supervisors, managers, executives or entrepreneurs, the Gardiner Centre has programs to advance their business and leadership knowledge and skills. Through training, events or solutions, the Gardiner Centre connects clients with the expertise and experience of the Faculty’s instructors and other business leaders and educators.

The Gardiner Centre’s facilities, located on the fourth floor of the Faculty of Business Administration building, provide an interactive adult learning environment which is designed to provide clients with everything they need to ensure a relaxing, retreat-like atmosphere, conducive to learning.

Further information may be obtained by contacting the Gardiner Centre by telephone at (709) 864-7977 or through the website at www.mun.ca/gardinercentre.

12.7 GENESIS Group Inc.

www.genesis.mun.ca/

President and CEO (Acting)
O’Leary, K., BA. Memorial, M.B.A. Western

GENESIS Group Inc. is a separately incorporated entity of Memorial University of Newfoundland and is governed by a board of directors representing industry, academia, and government. The Genesis Group is located on the third floor of the Business Centre of Research and Innovation. The Genesis Centre is a support network to help knowledge-based businesses/entrepreneurs create high-growth enterprises. The Centre mobilizes the province’s business community and a network of world class mentors to help the entrepreneurs develop comprehensive business plans, raise equity capital and secure global market access.

Further information may be obtained by contacting the GENESIS Group Inc. by telephone at (709) 864-2625 or through the website at www.genesis.mun.ca/.

The Leslie Harris Centre of Regional Policy and Development is tasked with coordinating and facilitating the University’s educational, research and outreach activities in the areas of regional policy and development. The Harris Centre works with all faculty, staff, and students as well as all Units within the University and serves as a reliable point of access for all stakeholders seeking to work with the University in activities related to regional policy and development. The Centre interprets regional as all communities and regions in Newfoundland and Labrador, and policy and development includes all issues that affect the ability of communities and regions to be prosperous and sustainable. The Harris Centre seeks to connect faculty, staff and students with an opportunity for practical application in Newfoundland and Labrador while representing the integrity and independence of University research, teaching and outreach. The Centre also provides support for communications, operations, and administration to the Office of Public Engagement and its reporting units.

Further information may be obtained by contacting The Harris Centre by telephone at (709) 864-3143, by e-mail at harriscentre@mun.ca, or through the website at www.mun.ca/harriscentre.

The Harris Centre is home to Memorial University of Newfoundland’s online connecting tool, Yaffle. Further information may be obtained at www.yaffle.ca.

The Health Research Unit was established in 1991 as a unit of the Faculty of Medicine within the Division of Community Health. It makes available the professional skills, expertise and information resources of the Division to other faculty, government departments, non-government agencies and organizations, and the community.

The purpose of the Health Research Unit is to improve the health of the Newfoundland and Labrador community-at-large through research focussed on the prevention of disease and the protection and promotion of health.

Research Themes
1. Measurement of health status in community/workforce populations;
2. Assessment of the health care system;
3. Development and management of health information systems;
4. Design and analysis of health surveys and audits; and
5. Evaluation of health and social programs

The Health Research Unit may be contacted by telephone at (709) 777-8385 or through the website at www.med.mun.ca/hru/.

12.10 Institute of Social and Economic Research (ISER)

www.mun.ca/iser

Board of Directors
Dean of Arts - vir tute officii
Marceau, Dr. R., Vice-President (Research)
Rankin, Dr. L., Department of Archaeology, Director
Deal, Dr. M., Department of Archaeology
Field, Ms. C., QE II Library
Gordon, Dr. K., Department of Anthropology
Keeling, Dr. A., Department of Geography
O'Reilly, Dr. M., Department of French & Spanish
Tenkorang, Dr. E., Department of Sociology
Tye, Dr. D., Department of Folklore
Webb, Dr. J., Department of History

Purpose And Mandate
The purpose of the Institute shall be to undertake, sponsor, and publish research within such disciplines and in such parts of the world as are deemed of relevance to Newfoundland and Labrador. Without limiting the generality of the above, research pertaining directly to social and economic development in Newfoundland and Labrador shall be of special importance.

Organization
The Institute is an integral part of, and not an autonomous appendage, of the University. It is so organized that all its officers serve the University in other capacities and it is ultimately responsible to the President and Board of Regents of the University. The management of its affairs is vested in an Executive Committee, while the day-to-day responsibilities are in the hands of the Director. Since September 2006, the Executive Committee has also served as the Board of Directors of the J.R. Smallwood Foundation for Newfoundland and Labrador Studies.

Fellowships
In general, ISER fellowships function to supplement and stimulate research interests of faculty and graduate students working within the research mandate of ISER. Terms and conditions of ISER fellowships may be obtained in writing to ISER, Institute of Social and Economic Research, Memorial University of Newfoundland, St. John's, Newfoundland and Labrador, A1C 5S7, or by telephone at (709) 864-8156, or by email at iser@mun.ca, or through the website at www.mun.ca/iser/.
ISER Books
The Institute publishes research falling within the ISER mandate - more than 90 titles to date. Many of the books originate in research undertaken by ISER itself. Some notable ISER books, however, have originated outside the Institute. Authors are invited to submit completed manuscripts that fall within ISER's mandate. Further information may be obtained in writing to ISER Books, Memorial University of Newfoundland, St. John's, Newfoundland and Labrador, A1C 5S7, or by telephone at (709) 864-3453, or my email at iser-books@mun.ca, or through the website at www.mun.ca/iser/.

12.11 International Centre
www.mun.ca/international
Director/International Liaison Officer
Knutson, S., B.Ed. Concordia, M.Ed. Memorial

Purpose And Mandate
The International Centre is in general concerned with:
1. coordinating and promoting the University's international activities, including international exchanges and programs;
2. developing and managing international activities and investigating funding sources, with particular reference to exchange programs;
3. providing program information and advice to faculty and staff and act as the central contact with the Association of Universities and Colleges in Canada (AUCC) and other similar bodies; and
4. pursuing new opportunities to develop partnerships with the private sector and other educational institutions.

Further information may be obtained by contacting the International Centre by telephone at (709) 864-3228 or through the website at www.mun.ca/international/ or by mail to International Centre, 323 Prince Philip Drive, G.A. Hickman Building, Room ED4007, Memorial University of Newfoundland, St. John's, NL, Canada A1B 3X8

12.12 The J.R. Smallwood Foundation for Newfoundland and Labrador Studies
www.mun.ca/smallwood

Board of Directors
Dean of Arts - virtute officii
Marceau, Dr. R., Vice-President (Research)
Rankin, Dr. L., Department of Archaeology, Director
Deal, Dr. M., Department of Archaeology
Field, Ms. C., QE II Library
Gordon, Dr. K., Department of Anthropology
Keeling, Dr. A., Department of Geography
O'Reilly, Dr. M., Department of French & Spanish
Tenkorang, Dr. E., Department of Sociology
Tye, Dr. D., Department of Folklore
Webb, Dr. J., Department of History

Purpose And Mandate
The Smallwood Foundation was established with funds transferred in trust from the J.R. Smallwood Heritage Foundation. The Foundation administers the income from such funds for the promotion and support of research focussing on Newfoundland and Labrador. The board supports research proposals in the humanities and social sciences from both inside and outside the university community.

Organization
Effective September 1, 2006, the Executive Committee of ISER also serves as the Board of Directors of the J.R. Smallwood Foundation. In accordance with its mandate, the board awards grants to individual scholars and organizations which have clearly defined objectives and which serve to develop the academic understanding and general appreciation of the province's society, history and culture. Full details of grant categories and application procedures are available on the Foundation's web site at www.mun.ca/smallwood/.

Further information may be obtained by telephone at (709) 864-8156 or in writing to The Director, J.R. Smallwood Foundation for Newfoundland and Labrador Studies, Memorial University of Newfoundland, St. John's, NL, A1C 5S7.
12.13 Labrador Institute

Clement, Dr. M.; Cross appointment with Marine Institute
Fonkwe, Dr. M.
Moore, Dr. S.; Cross appointment with Faculty of Education
Neilsen, S.
Thistle, Dr. J.

Postdoctoral Fellow
Procter, Dr. A.

Purpose And Mandate
The Labrador Institute of Memorial University of Newfoundland was established by the University to stimulate, coordinate, and support major University projects and programs designed to promote the well-being of the people of Labrador and to expand the Labrador knowledge base. Its location in Happy Valley-Goose Bay and Labrador City affords it a perspective on regional and aboriginal needs and issues that direct the operations of the Institute. The Institute identifies opportunities in research where the capabilities of the University may enhance our knowledge of Labrador and address concerns of the community, and puts forward educational needs for continuing human resource and cultural development.

The Institute is the main contact point for the University in Labrador and maintains communications with aboriginal and community groups and the Faculties and Schools of the University to ensure that there is a timely response to research and educational opportunities.

The Institute facilitates and coordinates the activity of personnel at the University as they undertake cultural, research, and educational activities. It partners with Faculties and Schools to solicit funds for research and the delivery of educational programs, and with other social, cultural and educational institutions in Labrador. A Labrador based archive provides a reference collection of publications and films on Labrador and other northern regions for public use.

The Labrador Institute works with the Office of Research which acts as the agent within the University to receive and disburse Northern Scientific Training Program grants received from the Department of Indian Affairs and Northern Development. The Institute also serves as the University's representative on the Association of Canadian Universities for Northern Studies and supports the University's membership in the University of the Arctic.

The Institute is not a regulatory body but it is available to advise on the normal process of grant applications by individuals. The Institute recommends that notice or copies of such applications be filed with the Institute to obviate duplication of effort within the University. It also maintains and administers an invaluable archival collection of Labrador materials. It is the Institute's intent to collect and disseminate all pertinent copies of research conducted by or through the University.

Organization
The Director of the Labrador Institute reports to the Vice-President (Academic).

Further information may be obtained by contacting the Institute in writing to the Labrador Institute, P.O. Box 490, Station B, Happy Valley-Goose Bay, NL, A0P 1E0, or by telephone at (709) 896-6210, or by fax at (709) 896-2970.

12.14 Maritime History Archive
www.mun.ca/mha

Chair, Board of Directors
Handcock, Dr. W.G. [Retired]

Board Members
Burton, Dr. V., Department of History
Fischer, Prof. L., Department of History
Hart, A. [Retired]
Staveley, Dr. M., Department of Geography [Retired]
Wareham, H., Archivist

In 1986 the Maritime History Archive was established as a separate unit within the Faculty of Arts as a result of reorganization of the Maritime History Group. Its functions include the acquisition, organization, and preservation of materials relating to the history of sea-based activities and societies, with a special emphasis on the North Atlantic Basin.

Since the mid-1970's the Public Record Office, London, England has transferred 22,000 ft. of original documentation in the series “Agreements on Account of Crew” for the period of 1863-1938, 1951-1976 to the Maritime History Archive. These documents represent an incomparable source for the study of the movements and manning of British Empire vessels throughout the world. Combined with
collections relating to fisheries, commerce, and other sea-based activities, the crew agreements have made the Maritime History Archive an internationally known resource centre for the study of maritime history.

The Archive is housed in the Mathematics Building and is open to the public Monday through Friday, 9 a.m. to 1 p.m. and 2 p.m to 4:00 p.m. A research service (for a fee) to undertake small research projects and answer queries pertaining to its subject area is also available.

12.15 The Maritime Studies Research Unit (MSRU)

www.mun.ca/msru

Chair
Burton, V., History

Pope, P.E., Archaeology and History
Power, N., Sociology
Walsh, V., Maritime History Archive
Wareham, H., Maritime History Archive

The Maritime Studies Research Unit (MSRU) is a research unit within the Faculty of Arts, whose purpose is to foster interdisciplinary research on maritime studies, understood as the interpretation of human behaviour in marine and coastal environments, in the past and to the present day. The Unit furthers this objective with workshops, colloquia, publications, and research projects and by providing advice and support to other units within the University. Membership in the MSRU is open to faculty and staff of Memorial University of Newfoundland with research interests in maritime studies. Other scholars with parallel interests, including graduate students in the University's Faculty of Arts, are eligible for associate membership. Currently, the MSRU has associate members in Canada, England, Nigeria, Scotland and the United States.

12.16 Memorial University of Newfoundland Botanical Garden

www.mun.ca/botgarden

Director
Klose, E.A.

Staff
Applin, M., Special Projects Co-ordinator
Bishop, M.A., Research Liaison
Boland, J.T., Research Horticulturist
Byers, C., Environmental Educator
Cooper, J., Gift Shop Manager/Membership Co-ordinator
Langmead, C., Grounds Maintenance Worker
Madden, A.M., Interpretation Co-ordinator
Maynard, M., Special Projects Co-ordinator
O’Ver, J., Assistant Gardener
Owens, P.R., Grounds Maintenance Worker
Tobin, K., Visitor Services Supervisor
Walsh, T.G., Nursery Manager
White, C.P., Head Gardener
Williams, L.J., Grounds Maintenance Foreman

Memorial University of Newfoundland Botanical Garden, Mount Scio Road, comprises ten acres of cultivated gardens and 100 acres of natural habitat that includes the 14-acre Oxen Pond. The main objectives are to undertake and provide opportunities for biological, ecological, and horticultural education and research for the University, the general public, school children and other organized groups while stimulating public interest and enjoyment of the Newfoundland and Labrador flora, fauna and environment.

An interpretative program is designed to provide information on native plants, animals, and horticulture to community groups and the general public, including a curriculum based school program. A field centre houses indoor displays, a library, a lecture room, and the Garden Cafe. Numerous interpreted nature trails are maintained through a variety of natural habitats. Cultivated areas include the rock garden, peat beds, woodland beds, cottage garden, heritage garden, wildlife garden, shade garden, vegetable garden, Asian Garden, and herbaceous border.

Research activities include rare plant conservation, site restoration, invasive species, medicinal, cosmetic and ornamental plant research and development.

The Memorial University of Newfoundland Botanical Garden is available for university classes and research year-round. It is open to the public daily from May through November. Further information may be obtained through the website at www.mun.ca/botgarden/.

Harlow Campus is the international campus of Memorial University of Newfoundland, one of only two universities in Canada with campus facilities in the United Kingdom. MUN (UK) Ltd. directs the operations of Harlow Campus in Essex, United Kingdom. Harlow Campus is run by a general manager who operates the Campus for students in academic (credit) and professional development (non-credit) programs. All programs are developed and overseen through Memorial University of Newfoundland’s Office of the Provost and Vice-President (Academic).

Specific enquiries about academic programs offered at the Harlow Campus should be directed to the head of the appropriate academic unit or the Office of the Provost and Vice-President (Academic), Memorial University of Newfoundland, St. John’s, NL, A1C 5S7, by telephone at (709) 864-8246, by fax at (709) 864-2074, or by email at vpa@mun.ca.

General enquiries about the Harlow Campus should be directed to Ms. Sandra Wright, General Manager, Harlow Campus, The Maltings, St. John's Walk, Market Street, Harlow, Essex CM17 OAJ, UK., by telephone at 011 44 1279 455902, by fax at 011 44 1279 455921, or by e-mail at sandra.wright@mun.ca.

For details on Harlow Campus, visit www.mun.ca/harlow.

12.18 Newfoundland and Labrador Centre for Applied Health Research (NLCAHR)

www.nlcahr.mun.ca

Director
Bornstein, S., B.A. Toronto, M.A., Ph.D. Harvard

Coordinator, Administration, Logistics, and Events
Kinsella, A.

Coordinator, Awards, Finance Officer, and IT Administration
White, T.

Coordinator, Communications, Partnerships, and Research Exchange Groups
Baker, R.

Research Assistants
Mackey, S.
O’Brien, S.

Research Officers
Kean, R.
Navarro, P.

The Newfoundland and Labrador Centre for Applied Health Research (NLCAHR) was established in September 1999 as a joint venture of the Department of Health and Community Services, the Health Care Corporation of St. John’s and Memorial University of Newfoundland. Since its inception, the Centre has provided support for applied health research in the Province through its grant and awards programs, its knowledge transfer activities and its capacity development services.

NLCAHR's mission is to contribute to the effectiveness and efficiency of the health and community service system of Newfoundland and Labrador and to the physical, social, psychological health and well-being of the Province’s population by supporting the development and the use of applied health research in this province.

The Centre’s work revolves around three principal goals:
1. to help build human capacity and organizational resources for undertaking and supporting high-quality applied health research in the Province;
2. to increase the amount and impact of high-quality applied health research undertaken on the priority research themes of Newfoundland and Labrador; and
3. to help increase the effective use of research evidence in the Province’s health and community services system.

NLCAHR fosters and supports inter-disciplinary collaboration and serves as a bridge between researchers and decision-makers in government, the provincial healthcare system and community organizations. The Centre funds health research through annual peer-reviewed research grant competitions; supports research training by awarding fellowships at the master’s, doctoral, and postdoctoral levels; and runs a number of other programs to encourage and support applied health researchers in Newfoundland and Labrador. The Centre’s flagship knowledge exchange program, the Contextualized Health Research Synthesis Program (CHRSP), is a collaborative effort of researchers and health system leaders that seeks to identify urgent issues involving health services and health technologies that are of pressing interest to Newfoundland and Labrador. CHRSP teams work to identify the highest quality research on these issues and to interpret it in light of the unique geographic, economic, demographic and other characteristics of this province.

The research supported by the Centre is broad in scope and includes research in the areas of health services delivery and evaluation, health economics and policy, healthcare utilization and systems, community and population health, health-related social sciences, and applied clinical research focussing on the process of delivering care rather than therapeutics or diagnostics.

Further information may be obtained by contacting the Centre in writing to the Newfoundland and Labrador Centre for Applied Health Research, Suite 300, 95 Bonaventure Avenue, St. John’s, NL, A1B 2X5, or telephone at (709) 777-6993, or fax at (709) 777-6734, or e-
12.19 Newfoundland and Labrador New Venture Gateway (NLNVG)

www.business.mun.ca/community-engagement

Director
Greene, B., B.Comm.(Co-op)(Hons.) Memorial

The Newfoundland and Labrador Venture Gateway (NLNVG) is an outreach initiative of Memorial University of Newfoundland's Faculty of Business Administration. NLNVG provides investment readiness and investor partnering services to assist innovative, high growth firms in Newfoundland and Labrador to achieve their growth potential.

NLNVG works with clients - entrepreneurs committed to developing or expanding innovation-driven, industry leading companies - to help position them to attract investment partners who share in this commitment. NLNVG provides insight and strategic support through its investment readiness and investor partnering services:

Investment Readiness - NLNVG assists entrepreneurs to address fundamental gaps in their companies and positions them to approach investors. Services range from the provision of individualized mentoring and advisory support, utilizing in-house resources and third-party consultants, to the delivery of targeted workshops and seminars.

Investor Partnering - NLNVG assists qualified companies in the raising of equity investment by providing them with facilitated access to targeted regional, national, and/or international strategic investors/partners, both individually and through investor partnering missions/ events.

NLNVG’s strength lies in the strength of its partnerships. As a part of Memorial University of Newfoundland, NLNVG is able to draw upon expertise from a wide network of alumni, strategic partners and industry experts to help its clients fulfill their goals.

NLNVG is located on the fourth floor of the Faculty of Business Administration alongside the Gardiner Centre. Further information can be obtained by contacting NLNVG by telephone at (709) 864-6740 or through the website at www.business.mun.ca/community-engagement.

The Newfoundland Quarterly, a journal established in 1901, focuses on the arts, culture, history, industry, and people of Newfoundland and Labrador. The journal is published by Memorial University of Newfoundland, under the auspices of the Office of Public Engagement. The Newfoundland Quarterly can be contacted by telephone at (709) 864-2426, or by email at nfqsub@mun.ca, or through the website at www.mun.ca/nq.

12.21 Ocean Engineering Research Centre (OERC)

www.engr.mun.ca/oerc/index.php

Administration
Qiu, W., B.Eng., M.A.Sc. Dalian University of Technology, Ph.D. Dalhousie, P.Eng., Professor, Ocean and Naval Architectural Engineering; Director

Engineering Technologist
Clarke, T.

Scope And Objectives
The Ocean Engineering Research Centre (OERC) is an integral part of the Faculty of Engineering and Applied Science at Memorial University of Newfoundland and has contributed to the success of the Faculty's research and academic programs.

The overall goal of the OERC is to generate research activity that has high potential for impact. The OERC draws upon faculty expertise and its relationships with industry, other research institutes, and branches of government to create networks of people who share common goals. The scope of applied research and consulting activities carried out by members of the OERC is broad, including ocean engineering related to the offshore, marine transportation, and fishing industries. In addition to faculty experience, the OERC operates a 58 metre long towing tank with wave generation capabilities.

Organization
The St. John's marine research community is vibrant and collaborative. Within the University the Centre maintains ties with C-CORE (by joint appointments of faculty and collaborative projects), with the Ocean Science Centre and the Fisheries and Marine Institute. Similar ties are maintained with the Institute for Ocean Technology (IOT) of the National Research Council (NRC), which is located adjacent to the Faculty of Engineering and Applied Science on the University campus. The Centre collaborates with and serves various small and large private sector firms with ocean engineering interests. The Centre works with Oceanic Consulting Corporation to provide marine performance evaluation services to the world's oceans industries. An alliance between the University, NRC and Marineering Limited of St. John's, Oceanic uses the ocean engineering capabilities and facilities of the University and NRC to support clients and projects around the world.
12.22 Ocean Sciences Centre (OSC)

www.mun.ca/osc

Director
Fletcher, G.L., B.Sc. British Columbia, Ph.D. California; Professor Emeritus; Head, Department of Ocean Sciences

Facilities and Business Manager, Dr. Joe Brown Aquatic Research Building (JBARB)
Boyle D., B.Sc., M.Sc. Memorial

The Ocean Sciences Centre (OSC) is a major facility for marine research on the Atlantic coast, and is one of Canada’s largest marine laboratories. It houses the Department of Ocean Sciences, the Joe Brown Aquatic Research Building and the newly constructed Cold-Ocean and Deep-Sea Research Facility (CDRF) houses wet and dry laboratory space for research on deep-sea organisms, invasive species, and aquatic infectious diseases of importance to fisheries and aquaculture. The labs are equipped with “State-of-the-Art” instrumentation to support the many research initiatives that can be undertaken at the CDRF, including a level 2/3 containment facility, deep-sea pressure chambers, a flow cytometer / cell sorter, a confocal microscope with resonance scanning, a scanning electron microscope, and a full suite of histological equipment, and equipment for pathogen isolation and culture. The OSC provides Canadian and international scientists and students access to the flora and fauna of the northwest Atlantic Ocean and is uniquely suited for shore-based studies of cold-ocean processes and subarctic, Arctic and deep-sea organisms. The facility provides all the necessary elements to conduct first-rate marine science, including high quality seawater, equipment to collect and maintain aquatic organisms, boats and vehicles to access field sites, laboratory space with running seawater, cutting-edge analytical and molecular biological instruments, and support staff. A strategic goal of the OSC is to carry out world-class research that focuses on organisms and processes in cold oceans, and to provide high quality educational and training opportunities, particularly at the graduate level.

Located at Logy Bay, 10 km from the St. John’s campus, the OSC has an excellent unpolluted sea water supply that is the lifeline of the centre. There are 38 laboratories of varying size, 24 of which have flowing seawater and 14 of which are dry and house instruments for analytical chemistry, biochemistry, physiology, histology, molecular biology (genetics and genomics) and microscopy. There are eight cold rooms for controlled physiological experiments and common-use rooms for fish sampling, microscopy/ image analysis, high-speed centrifugation, radioisotope analyses, and molecular biology. Field Services maintains a variety of Scuba gear for coldwater year-round diving, benthic trawls and drags, seines, plankton nets, Niskin bottles, CTD, underwater video camera and a portable air compressor and generator. The unit operates a 4 m zodiac, 7 m Boston Whaler and 5 ton multi-purpose vehicle with aeration and recirculating seawater holding tanks (2500 L) suitable for transporting live specimens long distances.

The common use Image and Data Analysis Facility provides for image acquisition/analysis using analogue and digital media, microscopy, data backup and video production. There are also well equipped machining, woodworking, plumbing, and electronics workshops with dedicated personnel.

The Dr. Joe Brown Aquatic Research Building (JBARB) provides state-of-the-art facilities and world class staff with expertise to support research, training, pre-commercial production, and small-scale commercial trials in marine aquaculture. A critical component of the 1400 square meters facility is a seawater system designed to deliver high quality, temperature controlled, flow through water. Separate tanks and rooms are available for broodstock conditioning, paired mating, hatchery rearing, first feeding/nursery operations, grow-out and physiological investigations on marine finfish. The JBARB carries out research in collaboration with Memorial University of Newfoundland, and government and industry partners. The aquaculture potential of various finfish species (Atlantic cod, Atlantic salmon, Arctic char, Steelhead trout, cunners, and smaller flounder species) is being evaluated through the study of broodstock biology, physiology and genomics, and the development of larval rearing techniques.

Research Themes
physiology, biochemistry and molecular biology
marine biotechnology
biological and chemical oceanography
behavioural and population ecology
aquaculture and fisheries

12.23 Research Grant and Contract Services (RGCS)

www.mun.ca/research

Director
Miller, D., B.Sc. (Hons.), M.Sc., MCIC Memorial

Associate Director
Perchard, C., B.Comm Memorial

Manager, Administration and Finance
Samson, J., B. Voc. Ed. Memorial

Manager Grants
Barnes, D.

Manager, Institutional Research Program
Carew, J.

Manager, Operations, Major Research Partnerships
Kielliey, M., B.A., B.Comm., M.E.R. Memorial

Research Contract Officer
Peach, J.

Research Grant and Contract Services (RGCS) perform pre- and post-award administration in a “one-stop shop” approach. The pre-award component focuses on the review and approval of research grants and contracts, while the post-award component provides project management and administrative support for large scale research programs.

The operational and financial administration of Major Research Partnerships (MRP) as well as liaison with the Interdisciplinary Committee on Ethics in Human Research (ICEHR Office) is also a part of the RGCS mandate.

RGCS is the primary point of contact for all research funding applications except the Canada Research Chairs (CRC) and Canada Foundation for Innovation (CFI) programs. CREAT, CRC and CFI Services is responsible for the above mentioned programs.

Individuals seeking more information about Research Grant and Contract Services, should contact the Director by emailing rgcs@mun.ca, by telephone at (709) 864-4791, by fax (709) 864-4612 or in-person at the Bruneau Centre for Research and Innovation,
12.24 The Works/Memorial University Recreation Complex Incorporated (MURC)

www.theworksonline.ca

Board of Directors
Thistle, B., Chairperson
Donovan, M., Vice Chair

Other members of the volunteer Board include representatives from the student body, the University, and the community at large.

Director/General Manager
Neil, C., Director/General Manager

Staff
Beson, M., Manager of Finance
Coffey, K., Manager of Maintenance
Crane, J., Manager of Aquatics/Recreation
Ivey, J., Manager of Fitness and Student Services

The Works
The Works is a separately incorporated entity with a volunteer Board of Directors. The Works operates the Field House, Aquarena and other recreation facilities on the St. John’s campus. The facilities offer a variety of fitness, aquatics and recreation programs for all ages. The Works offers services for members of the University, including students, faculty, and staff and also the community at large.

Further information may be obtained by contacting The Works by telephone at the Field House (709) 864-4422, or the Aquarena at (709) 864-3798, or through the website at www.theworksonline.ca.

1 The Memorial University of Newfoundland Code

The attention of all members of the University community is drawn to the section of the University Calendar titled The Memorial University of Newfoundland Code, which articulates the University's commitment to maintaining the highest standards of academic integrity.

2 Student Code of Conduct

Memorial University of Newfoundland expects that students will conduct themselves in compliance with University Regulations and Policies, Departmental Policies, and Federal, Provincial and Municipal laws, as well as codes of ethics that govern students who are members of regulated professions. The Student Code of Conduct outlines the behaviors which the University considers to be non-academic misconduct offences, and the range of remedies and/or penalties which may be imposed. Academic misconduct is outlined in UNIVERSITY REGULATIONS - Academic Misconduct in the University Calendar.

For more information about the Student Code of Conduct, see www.mun.ca/student/conduct/conduct.php.

3 Fees and Charges

The fees and charges indicated herein are as of the date of publishing. The University reserves the right to make changes to the regulations, fees and charges listed below. Any questions concerning fees and charges for the Cashier's Office in St. John's should be directed in writing to the Cashier's Office, Memorial University of Newfoundland, Arts and Administration Building, A1023, St. John's, NL, A1C 5S7, or by e-mail at cashiers@mun.ca, or by telephone at (709) 864-8228, or through the website at www.mun.ca/finance. Any questions concerning fees and charges for the Bursar's Office in Corner Brook should be directed in writing to the Bursar's Office, Grenfell Campus, University Drive, Corner Brook, NL, A2H 6P8, or by telephone at (709) 637-6286, or through the website at www.swcg.mun.ca/bursar.

3.1 Information Governing Payment of Fees and Charges

3.1.1 General Regulations

1. Tuition fees, residence fees, student union fees and health/dental insurance are due once a student registers regardless of the method of registration, and must be paid by the fee deadline to avoid a late payment penalty.

2. Students who are using a scholarship, bursary, Canada Student Loan, or other award for the payment of fees may be permitted to have their tuition fees outstanding until they have received the award or Canada Student Loan.

3.1.2 Methods of Payment

1. Telephone and on-line banking: information on the use of telephone or on-line banking systems can be obtained from local branches of banks.

2. Cash/Debit card: must be paid in person at the Cashier's Office in St. John's or the Bursar's Office in Corner Brook.

3. Cheque: may be mailed, or delivered in person, to the Cashier's Office in St. John's or Bursar's Office in Corner Brook, or placed in the night deposit slot at the Cashier's Office in St. John's. A dishonoured charge will be made for each cheque tendered to the University and not honoured by the bank. A student with a dishonoured cheque record must pay fees by cash, certified cheque or money order.
   - Dishonoured cheque charge: $25

4. Credit card: MasterCard is the only accepted card. Payment using this method should be done via the web at www.mun.ca.

5. Payroll deductions: graduate students receiving funding through the University payroll system may elect to pay their tuition and other charges by payroll deduction. The policy and form for payroll deductions are available at the School of Graduate Studies, the Cashier's Office, and at www.mun.ca.

6. Student Aid: students paying fees from a Canada Student Loan will have the amount owing signed out automatically from their loans.

7. Tuition voucher: students receiving a tuition voucher must present the tuition voucher and pay the balance of their fees to the Cashier's Office by the published deadlines to avoid being assessed a late payment fee.

3.1.3 Penalties for Noncompliance with Payment of Fees and Charges

1. Students who, without approval, pay their fees later than the deadlines specified in the University Diary will be assessed a late payment fee.
   - Late payment fee (assessed by the Director of Financial and Administrative Services): Maximum of $75

2. Students who have not paid all fees or arranged for fee payment with the Director of Financial and Administrative Services prior to the first day of lectures, as stated in the University Diary, may have their registration cancelled at the discretion of the University. Such students will then be required to reregister after all fees are paid and after the first day of lectures, as stated in the University Diary, but no later than the end of the regular registration period.

3. Outstanding accounts, including accounts outstanding pending the receipt of a scholarship, bursary, or similar award, must be paid in full by cash, money order, or certified cheque. Students with outstanding accounts will:
   - be ineligible to register for courses for a subsequent semester;
   - not be permitted into residence;
   - not be issued an academic transcript;
   - not be awarded a degree, diploma or certificate.

4. Accounts outstanding on the last day of examinations in a semester/session will be charged interest at the prime interest rate less 1.8% per annum. Such interest will apply effective the first day of lectures in that semester.

3.2 Application and Admission Fees

Unless otherwise noted, these application and admission fees are non-refundable.
3.2.1 Undergraduate Students

1. General Application Processing Fee: this fee is payable with each application for admission or readmission to the University.
   - Undergraduate students who have never attended a post-secondary institution or who have previously attended Memorial, excluding medical students: $50
   - Undergraduate students who have attended a post-secondary institution outside of Newfoundland or who are non-Canadian applicants, excluding medical students: $100
   - Medical students: $75

2. Fees in addition to General Application Processing Fee
   - Challenge for credit is charged at one half of the fee associated with the credit hour value of each course.

3. Admission Fees in addition to General Application Processing Fee
   - Bachelor of Technology: $300
   - Bachelor of Maritime Studies: $300

4. Application Fee in addition to General Application Processing Fee
   - School of Pharmacy
     - Canadian applicants: $125
     - International applicants: $175

5. Penalties for Noncompliance with Payment of Application and Admission Fees
   - Late fees: all late fees are payable when assessed.
   - Late application fee
     - Up to one week after deadline: $30
     - Each subsequent week to final date for receipt of applications: $10

3.2.2 Graduate Students

1. Application Processing Fee: payable with each application for admission to the University.
   - Application Processing Fee for Canadian Applicants: $50
   - Application Processing Fee for non-Canadian Applicants: $100

3.3 Tuition and Related Fees (2015-2016)

3.3.1 Undergraduate Students (other than Medical Students)

1. Unless otherwise specified, tuition fees are charged according to the credit hour value associated with the registered course(s). Courses are 3 credit hours unless otherwise indicated.

2. For the purposes of calculating tuition:
   - the credit hour value of each of the A and B components of a linked course shall be equivalent to one half of the credit hour value of the B component (see Glossary of Terms Used in the Calendar);
   - the credit hour value of F courses and non-degree courses (i.e. certificate programs) shall be three; and
   - the credit hour value of courses with “W” in the final position of the course number, excluding co-operative education work terms, shall be three.

3. Fees for citizens of Canada and permanent residents
   - Fee per credit hour: $85
   - Co-operative education work terms: $323
   - Maritime Studies/Technology Management 410A/B: $1,154
   - Computer Science 3700 (per semester): $154

4. Fees for international students
   - Fee per credit hour: $293.33
   - Co-operative education work terms: $1,020
   - Maritime Studies/Technology Management 410A/B: $1,779
   - Computer Science 3700 (per semester): $533.32

5. Tuition refunds based on withdrawal from course(s)
   - Students dropping courses within two weeks following the first day of lectures in any semester will not be liable for tuition fees for those courses. Students dropping courses after that time will receive tuition fee refunds on a prorated basis. Any student who drops a course from two weeks to three weeks following the first day of lectures in any semester shall have 50% of the tuition refunded. Any student who drops a course from three weeks to four weeks following the first day of lectures in any semester shall have 25% of the tuition refunded. No tuition will be refunded for courses dropped after four weeks following the first day of lectures in any semester. For the actual dates relating to these refunds, see the University Diary.
   - In the case of sessions, accelerated courses and courses offered outside of the normal time frame of a semester or session, the tuition refund drop periods will be prorated accordingly.

3.3.2 Undergraduate Students (Medical Students)

1. Fees for citizens of Canada and permanent residents
   - Annual tuition fee (September 1 - $3,125, January 1 - $3,125): $6,250

2. Fees for international students
   - Annual tuition fee: $30,000
3.3.3 Graduate Students

1. Fees are payable at the time of registration. All graduate students must be registered in each semester of the three-semester academic year throughout the period of their program until all academic requirements for the degree have been met and they have been deemed eligible to graduate by the School of Graduate Studies. Final dates in each semester for notification of completion of academic requirements, in order to be deregistered from Graduate Registration 9000/Medicine 9900 without incurring liability for continuance fees, are included in the University Diary.

2. There is a minimum fee for all graduate degrees. The amount of this fee for both Canadian and international students will depend on the semester fees in effect during his or her period of registration. Semester fees are subject to review at least annually. They are:

<table>
<thead>
<tr>
<th>Program</th>
<th>Fee Per Semester for Citizens of Canada and Permanent Residents</th>
<th>Fee Per Semester for International Students</th>

</table>

3. M.D.-Ph.D. program:
   - M.D. component - standard M.D. fees for four years
   - Ph.D. component - standard Ph.D. fees plus continuance fees, if required, during the active Ph.D. component

4. At the time of first registration, each master's candidate must select a payment plan. The fee payable in the first and subsequent semesters will depend upon the payment plan selected. Once selected, the payment plan will remain in effect for the duration of the student's period of registration, and cannot be changed. Payment Plan C is available for selected programs only.

5. A student who completes his or her program in a period of time shorter than that covered by the selected payment plan will, in his or her final semester be required to pay the difference between the product of the semester fee in effect in that final semester and the number of times which a fee should have been paid in accordance with the payment plan selected, and the actual amount paid.

6. A student whose program extends beyond the period covered by the selected payment plan will be assessed the appropriate program continuance fee for each additional semester of registration. Continuance fees will be charged until the program is complete.

7. The program continuance fees per semester for citizens of Canada and permanent residents entering prior to September 2004 are:
   - Masters candidate: $334
   - Graduate Diploma candidate: $162
   - Doctoral candidate: $570

8. The program continuance fees per semester for citizens of Canada and permanent residents, and international students entering September 2004 are:
   - Masters candidate: 8.15% of the total program fee for Plan A
   - Graduate Diploma candidate: 8.15% of the total program fee
   - Doctoral candidate: 8.15% of the total program fee

9. Any doctoral student engaged in a double degree program through a cotutelle agreement will be required to register at both Memorial University of Newfoundland and the cooperating institution for the duration of his/her program. Tuition fees are payable at only the ‘home institution’ i.e., the institution to which the doctoral student was initially admitted, as specified in the cotutelle agreement.

10. The semester fees listed above cover only the courses (if any) prescribed for the program by the academic unit and approved by the Dean of Graduate Studies. A student taking courses which are not part of the approved program must pay for them separately in accordance with the fee schedule for undergraduate courses.

11. A graduate student who is permitted by the Dean of Graduate Studies to transfer from a diploma program to an allied master's program or from a master's program to a doctoral program before the former is completed will be required to pay the difference between the fees for the two programs, based on the semester fee in effect during each semester of the new program. This additional payment shall be made over the duration of the remaining semesters for which program fees are owed, or over three semesters, whichever is greater.

12. A graduate student who wishes to withdraw from his or her graduate program must inform the Dean of Graduate Studies, in writing, within three weeks after the first day of lectures in the semester. Failure to do so will result in the student being held responsible for the fees due to the end of that semester. Administrative fee for approved retroactive requests for leave of absence or withdrawal from program: $25

13. Special Fees: In addition to the semester fees, the following programs charge a special fee:
   - Doctor of Philosophy in Management
     $12,000: $1,000 to be paid in each of twelve consecutive semesters
   - Master of Applied Science in Computer Engineering (Plan A)
     Canadian: $15,302 (non-refundable) - to be paid $9,951 in semester 1 and $5,321 in semester 2
     International: $20,282 (non-refundable) - to be paid $12,969 in semester 1 and $7,313 in semester 2
   - Master of Applied Science in Environmental Systems Engineering and Management (Plan A)
     Canadian: $11,602 (non-refundable) - to be paid $7,761 in semester 1 and $3,841 in semester 2
     International: $16,282 (non-refundable) - to be paid $10,569 in semester 1 and $5,713 in semester 2
- Master of Applied Science in Oil and Gas Engineering (Plan A)
  Canadian: $11,602 (non-refundable) - to be paid $7,761 in semester 1 and $3,841 in semester 2
  International: $16,282 (non-refundable) - to be paid $10,569 in semester 1 and $5,713 in semester 2
- Master of Education (Information Technology)
  $2,550: $1,275 charged in semester 1 and $1,275 charged in semester 4
- Master of Engineering Management (Plan A)
  Canadian: $11,602 (non-refundable) - to be paid $7,761 in semester 1 and $3,841 in semester 2
  International: $16,282 (non-refundable) - to be paid $10,569 in semester 1 and $5,713 in semester 2
- Master of Public Health
  $1,460: charged $730 in semester 1 and $730.00 charged in semester 2
- Master of Science in Management
  Canadian: $5,250 - to be paid $2,625 in semester 1 and $2,625 in semester 2
  International: $10,250 - to be paid $5,125 in semester 1 and $5,125 in semester 2

3.3.4 Post-Graduate Residents and Interns
- Registration fee per annum: $500

3.3.5 Distance Education, Learning and Teaching Support (DELTS)
1. For distance education courses, there are administrative fees which are charged in addition to the tuition fees for these courses. These fees cover the cost of course materials (excluding textbooks), rental of video and audio tapes and management of web courses.
   - Administrative fees (per credit hour for Newfoundland and Labrador addresses): $17
   - Administrative fees (per credit hour for out of province addresses): $34
   - Change of examination location fee: $50
   - Deferred examination fee: $65

3.4 Residence (Housing) and Meals Fees and Charges

3.4.1 St. John's Campus
For additional information on residences see the section of the Calendar dealing with Student Housing.

1. General Residence Fees: this fee will not be refunded and will not be credited to the student's account.
   - Residence application fee: $20 per semester

2. Residence deposit: $500

3. Residence fees during semesters: the fees and charges below are per semester, per person, unless otherwise noted. For further information, contact Student Housing and Food Services.
   - Paton College
     - Double: $1,387
     - Single: $1,628
   - Meal Plans
     - Fall 2015 (103 Days)
       - 14 Meal Plan: $2,230/semester with 250 flex dollars
       - 19 Meal Plan: $2,325/semester with 200 flex dollars
       - Freedom Meal Plan: $2,325/semester with 125 flex dollars
     - Winter 2016 (100 Days)
       - 14 Meal Plan: $2,165/semester with 250 flex dollars
       - 19 Meal Plan: $2,255/semester with 200 flex dollars
       - Freedom+ Meal Plan: $2,255/semester with 125 flex dollars
   - Burton's Pond Apartments
     - Single: $1,822
     - Family Unit (per month, per apartment): $875
     - New Residence Fee: $1,995

4. Residence fees between semesters: students who request to stay in residence between semesters may be accommodated providing space is available and notice is given in writing to Student Housing and Food Services. Students are required to pay the full charge on receipt of notification of acceptance.
   - Room rates (per night, per person)
     - Paton College and Burton's Pond Apartments: $14

5. Penalties for noncompliance with payment of fees and charges
   - Students with outstanding fees will not be permitted into residence without approval from the Director of Financial and Administrative Services.
   - Students not returning to residence must cancel a room assignment by the established deadline date. Failure to do so will result in a cancellation charge.
     - Cancellation charge: $500

3.4.2 Grenfell Campus
The fees and charges below are per semester, per person, unless otherwise noted.
1. General residence fees: this fee will not be refunded and will not be credited to the student's account.
   - Residence application fee: $20

2. Residence deposit: charged only to students who are applying to live in residence for the first time (due May 31 for Fall semester; November 15 for Winter semester). The deposit is creditable and may be refunded when all conditions pertaining to it are met.
   - Residence deposit: $500
   - Cancellation fee for returning students who fail to cancel residence/chalet rooms for Fall and Winter semester: $500.00

3. Residence fees during semesters
   - Room: $1,390
   - Apartments
     - Single: $1,619
     - Family Apartment (per month): $654.50
     - Bachelor Unit (per semester): $1,523
   - New Residence room fee (per semester): $1,480

4. Residence fees between semesters: students who need to stay in residence between semesters may be accommodated providing space is available and reasonable notice is given in writing to Student Housing. Students are required to pay the full charge on receipt of notification of acceptance.
   - Room rates (per night, per person)
     - Apartment: $15
     - Residence: $13

3.5 Student Organization Fees

Student organization fees are collected by the University as a service to the student body. They are payable prior to, or at the time of, registration.

3.5.1 St. John's Campus

All fees are per semester and are compulsory unless otherwise noted.

1. Undergraduate students (full-time)
   - General fees
     - Student Union fee: $43.73
     - Canadian Federation of Students' fee (not collected Spring semester): $4.38
     - Canadian Federation of Students - Newfoundland and Labrador fee (not collected Spring semester): $4.38
     - Media Fee: $4
   - Health/Dental Plans
     - Students who have alternative health and dental coverage may opt out of the plan(s) by completing a Waiver of Participation form at www.munsu.ca. The deadline to opt out of the health and dental plans for any given academic year is two weeks after the first day of lectures in September. Only students who were not full time, not enrolled, or a work-term student in the Fall semester, may opt out in the Winter semester. The deadline will be two weeks after the first day of classes.
     - Student Health Plan: $81
     - Dental Plan: $65
   
2. Undergraduate students (part-time)
   - Student Union fee: $18.74
   - Canadian Federation of Students - Provincial (not collected Spring semester): $4.38
   - Canadian Federation of Students - Federal (not collected Spring semester): $4.38
   - Media fee: $4

3. Graduate students
   - Union fee: $30.27
   - Canadian Federation of Students - Provincial (not collected Spring semester): $4.38
   - Canadian Federation of Students - Federal (not collected Spring semester): $4.38
   - Health/Dental Plans
     - Students who have alternative health and dental coverage may opt out of the plan(s). The deadline to opt out of the health and dental plans is three weeks after the start of class.
     - Drug and Health Insurance Plan fee (per annum): $426.92
     - Dental Insurance Plan fee (per annum): $271.28

4. Post-graduate residents and interns
   - Union fee (per annum): $5

5. Nursing students (fee collected in the Fall semester)
   - Canadian Nursing Students' Association fee (full-time students, per annum): $10
   - Canadian Nursing Students' Association fee (part-time students, per annum): $5

3.5.2 Grenfell Campus

1. Undergraduate Students (full-time)
   - Health/Dental Plans
     - Students who have alternative health and dental coverage may opt out of the plan(s) by completing a Student Health Opt Out at Quick Links on the Grenfell Campus home page at www.swgc.mun.ca. The deadline to opt out of the health and dental plans is
two weeks after the first day of lectures in September or January.

Student Health Plan: $87.66
Dental Plan: $55.50
- Student Union fee: $65
- SUB. Fund: $5
- Canadian Federation of Students - Newfoundland and Labrador fee (not collected Spring semester): $4.26
- Canadian Federation of Students’ fee (not collected Spring semester): $4.26

2. Undergraduates (part-time)
- Student Union fee: $27.50
- SUB. Fund: $5
- Canadian Federation of Students - Newfoundland and Labrador fee (not collected Spring semester): $4.26
- Canadian Federation of Students’ fee (not collected Spring semester): $4.26

3.5.3 International Student Health Insurance (varies from year to year)
1. All students (undergraduate and graduate) studying on a student visa at Memorial University of Newfoundland will be required, as a condition of registration, to purchase health insurance. Such students should check with the International Student Advisor for the current rate.

3.6 Fees and Charges Pertaining to Appeals

3.6.1 Challenge for Credit Fee
- Fee: one half of the fee associated with the credit hour value of the course

3.6.2 Supplementary Examination Fee
- Fee: $50

3.6.3 Reread of Final Examination Fee
- Fee: $50

3.7 Miscellaneous Fees and Charges

3.7.1 Recreation Fee (The Works)
Students must pay a recreation fee which will be adjusted according to the Consumer Price Index (CPI) on September 1 of each year.
- Fee (St. John's Campus and Fisheries and Marine Institute)
  - Per semester: $57.94
  - Per session: $28.97

3.7.2 Student Parking Fees
Students may purchase permits on a semester or per annum basis.
- Per semester: $13.80
- Per annum: $41.40

3.7.3 Books and Supplies
1. Students should be prepared to meet an expenditure to cover the cost of textbooks and supplies each semester. Students should consult their professors before purchasing any new or used textbooks or laboratory manuals.

3.7.4 Damages or Destruction to University Property
1. Unwarranted damages or destruction to University property will be charged to the responsible party or parties, and are payable when assessed.

3.8 Appeal of Fees and Charges Regulations

Appeal of Fees and Charges Regulations apply to Undergraduate Students (other than Medical Students), 5. only. It is intended to recognize and be sensitive to students who experience devastating, unforeseen and/or catastrophic events during the semester and therefore withdraw from a course or courses. Students are permitted to appeal for refund of tuition associated with dropped course(s) only, not for refund of incidental fees including, but not limited, to medical/dental coverage, MUNSU fees, recreation fees, etc.

3.8.1 Responsibilities in the Tuition Refund Appeals Process
The University has established financial regulations, procedures and deadlines through its governing bodies for the guidance of students. Students are expected to take into account their personal and academic circumstances, in order to meet university financial regulations, procedures, and to satisfy financial requirements and deadlines.

3.8.1.1 Students’ Responsibilities in the Tuition Refund Appeals Process
It is incumbent upon students to:
- be aware of and adhere to all financial regulations, requirements and published deadlines, especially the refund schedule published in the University Diary;
- familiarize themselves with published tuition refund appeals procedures;
submit tuition refund appeals and all supporting documentation no later than one month after the official release of grades for the semester of the dropped course(s); and
provide appropriate authenticating materials.

3.8.1.2 The University’s Responsibilities in the Tuition Refund Appeals Process
It is incumbent upon the University to:
• make available to students advice and guidance regarding options, deadlines, required documentation, and tuition refund appeal route by way of written notification, the University website, personal appointment or other forms of communication;
• direct students to the appropriate office for information on tuition refund appeals;
• attend to tuition refund appeals efficiently and ensure parties receive fair, consistent and ethical treatment;
• supply students with reasons for decisions to deny a tuition refund appeal; and
• maintain parties’ right to confidentiality.

3.8.2 Guidelines for the Tuition Refund Appeals Process
1. Transparency should guide all steps of the tuition refund appeal process. In the case of an appeal, the parties should have access to all documents submitted.
2. The principles of fairness should be applied in appeal procedures and decisions.
3. Information submitted in support of an appeal will be kept confidential.

3.8.3 General Information and Procedures for Tuition Refund Appeals
1. A tuition refund appeal must be filed no later than one month after the official release of grades for the semester of the dropped course(s).
2. Any tuition refund appeal should be made in writing, by the student, clearly stating the basis for the appeal and should be directed to the Committee Coordinator, Tuition Refund Appeals Committee, c/o The Cashier’s Office, Memorial University of Newfoundland, St. John’s, NL A1C 5S7.
3. Successfully dropping a course academically does not guarantee that a tuition refund appeal will be successful. Academic difficulty in a course and/or missing a published refund deadline is not sufficient grounds for an appeal.
4. For assistance in the tuition refund appeals process, students are advised to consult with the Committee Coordinator.
5. In preparing an appeal a student may consult advisors or facilitators. Such advisors or facilitators may include a faculty advisor, staff advisor, a counselor, a representative from the Memorial University of Newfoundland Students’ Union (MUNSU) or other individual who is willing to undertake the role of student advisor or facilitator.
6. The Tuition Refund Appeals Committee may decide to deny or uphold an appeal. If it upholds an appeal, the Committee may prorate the tuition refund depending upon the student’s length of participation in the course(s) and other factors.
7. The decision of the Tuition Refund Appeals Committee is final.

3.8.4 Information Required for Medical Certificates
Please refer to UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate). Information Required for Medical Certificates from Health Professionals.

4 Admission/Readmission to the University (Undergraduate)

4.1 Admission/Readmission Information
This section applies to all undergraduate applicants except those applying to the Faculty of Medicine.
Applicants seeking admission to the Faculty of Medicine should refer to the Faculty of Medicine regulations for information. Applicants seeking admission to a particular faculty or school may be required to submit a supplementary faculty or school application in addition to the application for admission/Readmission and should refer to appropriate faculty or school regulations for procedures, deadlines, admission requirements and further information.
1. Applications for admission/Readmission should be submitted by the deadline dates listed in the University Diary. Applications received later or post-marked later than the stated deadline dates will be processed as time and resources permit. Application forms and other information may be obtained by contacting the University in writing to the Admissions Office, Office of the Registrar, Memorial University of Newfoundland, St. John’s, NL A1C 5S7, or by e-mail at admissions@mun.ca or through the website at www.mun.ca/regoff.
2. Each application must be accompanied by a $50.00 application processing fee. An additional application processing fee of $50.00 is required from non-Canadian applicants or applicants transferring from post-secondary institutions outside of Newfoundland and Labrador. Neither fee is refundable nor will it be credited to the applicant’s financial account under any circumstances. Information regarding other fees and charges is specified under Fees and Charges.
3. Applicants who have previously attended Memorial University of Newfoundland and have not registered for courses for the past three consecutive semesters (Fall, Winter, Spring) are required to submit a new Application for Admission/Readmission together with the $50.00 application processing fee.
4. The admission criteria required of each category of applicant is specified under Categories of Applicants, Admission Criteria And Required Documentation.
5. Admission to some courses, programs and/or the University may be limited by the University when it deems the facilities and resources available to it are not adequate to provide for additional students. Consequently possession of the minimum requirements does not guarantee that an applicant will be granted admission to a course, a program and/or the University.
6. The University may set its own matriculation examinations either in separate subjects or in all those required for matriculation, and may refuse admission to any applicant failing to attain a satisfactory standard in these examinations.
7. The University reserves the right to refuse admission to any applicant.
8. Applicants may be required to provide medical evidence of their fitness to pursue university studies.
4.2 English Language Proficiency Requirements

Since English is the primary language of instruction at this University, all applicants seeking admission to Memorial University of Newfoundland must possess an adequate knowledge of written and spoken English as a prerequisite to admission. Regardless of country of origin or of citizenship status, applicants will be required to provide proof of proficiency in the English language based on one of the following forms.

4.2.1 English Language Secondary Institution

Applicants are required to have successfully completed the equivalent of three years of full-time instruction in an English language secondary institution as recognized by Memorial University of Newfoundland including successful completion of appropriate course(s) in English at the Grade 12 or equivalent level. English as a Second Language (ESL) courses are not acceptable for meeting this requirement. The University may require, as deemed appropriate by the University Committee on Admissions, further proof of English proficiency through one of the standardized tests below.

4.2.2 English Language Post-Secondary Institution

Applicants who have attended a recognized post-secondary institution where English is the language of instruction must have successfully completed the equivalent of 30 credit hours. These 30 credit hours must include 6 transferable credit hours in English courses. For information on transfer credit refer to Transfer Credit.

4.2.3 Memorial University of Newfoundland's Intensive English Program

Applicants are required to successfully complete Memorial University of Newfoundland's Intensive English Program (IEP) assessment with an acceptable score, as noted below under Standardized Tests, on the CAEL administered by the University. Information regarding Memorial University of Newfoundland's IEP can be found in the Faculty of Arts or the Grenfell Campus sections of the Calendar.

4.2.4 Standardized Tests

Applicants proving English Proficiency through one of the following forms may be required to write a placement test prior to the commencement of classes to determine the appropriate course in English for which they should register. For further information refer to English Language Placement Tests and Mathematics Placement Test. The official results of the following standardized tests must be forwarded to Memorial University of Newfoundland directly from an authorized test reporting centre.

4.2.4.1 Test of English as a Foreign Language (TOEFL)

A minimum score of 79 with at least 20 in each of Reading and Writing, and no less than 17 in Listening and Speaking is required on the internet-based TOEFL. Information regarding the TOEFL program is available from the Educational Testing Service (ETS), TOEFL/TSE Services, online at www.ets.org/toefl/, from U.S. embassies or consulates, or from offices of the U.S. Information Services.

4.2.4.2 International English Language Testing System (IELTS)

A minimum overall band score of 6.5, with at least band 6 in each of Writing and Reading. Information regarding the IELTS may be obtained from the IELTS Subject Officer, University of Cambridge Local, Examinations Syndicate via www.ielts.org/.

4.2.4.3 Canadian Academic English Language (CAEL) Assessment

Minimum band scores between 50 and 60 in each of the four skills tested (Reading, Writing, Listening, Speaking), with at least two band scores of 60 are required on the CAEL Assessment. Information regarding the CAEL Assessment may be obtained from the CAEL Assessment Office at Carleton University online at www.cael.ca/contact/index.shtml.

4.2.4.4 Cambridge English for Speakers of Other Languages (ESOL)

A minimum grade of "B" in the Certificate of Advanced English (CAE) or a minimum grade of "C" in the Certificate of Proficiency in English (CPE) are required. Information regarding these examinations may be obtained via University of Cambridge ESOL Examinations at www.cambridgeenglish.org/.

4.2.4.5 Canadian Test of English for Scholars and Trainees (CanTEST)

Minimum band scores of 4.5 in the listening comprehension and reading comprehension sub-tests and a score of 4 in writing are required on the CanTEST. Information regarding this examination may be obtained from the Language Testing Service of the University of Ottawa online at www.canetest.uottawa.ca/index.php.

4.2.4.6 Michigan English Language Assessment Battery (MELAB)

A minimum score of 85 is required on the MELAB. Information on the MELAB testing program may be obtained from the University of Michigan and Cambridge Collaboration Organization (CaMLA) online at www.cambridgeenglish.org/melab.

4.2.4.7 Pearson Test of English Academic (PTE Academic)

A minimum score of 58 in each of the reading, writing, listening, and speaking components of the PTE Academic is required. Information about the PTE Academic is available online at www.pearsonpte.com.

4.2.5 Other

Other forms of proof of English language proficiency, acceptable to the University Committee on Admissions, may be considered.

4.3 Categories of Applicants, Admission Criteria and Other Information

The categories of applicants applying for admission/readmission as well as the admission criteria and other related information are listed below. Before a final admissions decision can be reached all required documents must be received. All documents must be official and be forwarded directly to the Admissions Office, Office of the Registrar from the appropriate institution(s) or source(s). Photocopied documents are not acceptable unless duly certified.
4.3.1 Applicants Who Have Followed the High School Curriculum of Newfoundland and Labrador

4.3.1.1 Admission Criteria

The courses below are courses designed for students who intend to seek post-secondary education at the University or other institutions whose programs demand levels of proficiency equivalent to those required by the University. Applicants shall have completed Graduation Requirements for high school as set down by the Department of Education and obtained credits in the following subjects with an overall average of not less than 70% compiled from the grades received in those courses at the 3000 level.

- **English:** English 3201 (2 credits); or the former combination of Language 3101 (1 credit) and one of Thematic Literature 3201(2 credits) or Literary Heritage 3202 (2 credits).
- **Academic or Advanced Mathematics:** One of Mathematics 2200, 2201, 2204, or 2205 and one of Mathematics 3200, 3201, 3204, or 3205 (valued at 2 credits each).
- **Laboratory Science:** Four credits in Laboratory Science (i.e. Biology, Chemistry, Earth Systems, Physics), including at least two credits at the 3000 level chosen from one of Biology 3201, Chemistry 3202, Earth Systems 3209, or Physics 3204 (valued at two credits each). The remaining two credits may be selected from 2000-level courses in the above-noted subject areas or from Science 1206.
- **Social Science/Modern or Classical Language:** Two credits at the 3000 level in a Social Science area or in a Modern or Classical Language.
- **Electives:** Two credits at the 3000 level in elective courses chosen from the subjects above or from additional courses approved by the Department of Education for offering at the 3000 level for certificate purposes.

4.3.1.2 Other Information

- **Early Acceptance:** Applicants in their final year of high school who have completed or who are completing a slate of courses which meets the course requirements specified in Applicants Who Have Followed the High School Curriculum of Newfoundland and Labrador, may be granted early acceptance prior to the writing of final examinations. This early acceptance will be subject to verification, when final examination results are released by the appropriate authorities, that the applicant has successfully met the requirements for admission as specified above in Admission Criteria. Applicants who fail to meet the minimum admission requirements at that time will have their acceptance revoked. This does not preclude the application of selective admission criteria for particular faculty/school programs.
- **Advanced Placement:** Applicants completing Advanced Placement courses through the Advanced Placement Program offered by the College board should also refer to Transfer Credit Advanced Placement (AP).
- **English Language Proficiency Requirements** will apply to all applicants.

4.3.2 Applicants Who Have Followed the High School Curricula of Other Provinces of Canada

4.3.2.1 Admission Criteria

- Applicants from other provinces of Canada are required to have successfully completed Grade XII in the University Preparatory Program (in the case of Quebec students, Secondary V Certificate) with a passing mark in each of the following Grade XII academic or advanced-level subjects and an overall average of not less than 70% compiled from the grades received in the courses selected:
  - English
  - Mathematics
  - Laboratory Science (1 of Biology, Chemistry, Earth Science, Geology or Physics)
  - Social Science/Modern Classical Language
  - Elective

For further information concerning specific provinces, applicants may contact the University by writing to the Admissions Office, Office of the Registrar, Memorial University of Newfoundland, St. John's, NL, A1C 5S7, or by e-mail at admissions@mun.ca or through the website at www.mun.ca.

4.3.2.2 Other Information

- **Early Acceptance:** Applicants in their final year of high school who have completed or who are completing, a slate of courses which meets the course requirements in Applicants Who Have Followed the High School Curricula of Other Provinces of Canada may be granted early acceptance prior to the writing of final examinations. This early acceptance will be subject to verification, when final examination results are received by the Office of the Registrar from the appropriate authorities, that the applicant has successfully met the minimum requirements for admission as specified above in Admission Criteria. Applicants who fail to meet the minimum admission requirements at that time will have their acceptance revoked. This does not preclude the application of selective admission criteria for particular faculty/school programs.
- **Advanced Placement:** Applicants completing Advanced Placement courses through the Advanced Placement Program offered by the College Board should refer to Transfer Credit Advanced Placement (AP).
- **Transfer Credit Advanced Placement (AP).**
- **English Language Proficiency Requirements** will apply to all applicants.

4.3.3 Applicants Who Have Followed the College of the North Atlantic Comprehensive Arts and Science Transition Program

4.3.3.1 Admission Criteria

Students who do not meet the requirements for admission to Memorial University of Newfoundland under one of the two categories above but who do hold a high school diploma may be eligible for admission under this category. Students applying under this category must successfully complete all qualification requirements for the award of the Comprehensive Arts and Science (CAS) Transition Year Certificate from the College of the North Atlantic. A full outline of this program is available in the College of the North Atlantic Calendar...
which is available online at www.cna.nl.ca.

This does not preclude the application of selective admission criteria for particular faculty/school programs. Students may wish to consider the course requirements for their intended program of study at Memorial University of Newfoundland when selecting CAS Transition Year courses for completion of the Transition Year Certificate program.

4.3.3.2 Early Acceptance

Applicants who have completed, or who are completing, a slate of courses which meets the Admission Criteria as described above for applicants completing the College of the North Atlantic CAS Transition Year program may be granted early acceptance prior to the writing of final examinations. This early acceptance will be subject to verification, when final examination results are received by the Office of the Registrar from the College of the North Atlantic, that the applicant has successfully met the minimum requirements for admission as specified above in Admission Criteria. Applicants who fail to meet the minimum admission requirements at that time will have their acceptance revoked.

4.3.3.3 Other Information
- English Language Proficiency Requirements will apply to all applicants.

4.3.4 Applicants for Concurrent Studies

4.3.4.1 Admission Criteria
- Applicants in or about to enter their final year of high school with a superior academic record (i.e. normally an overall average of 85% or above in completed English, Math and Science courses at the 2000 or 3000 level) may apply to enrol in university courses. The applicant for concurrent studies must be enrolled in a high school and completing a slate of courses that meets the course requirements for admission to the University as specified in Applicants Who Have Followed the High School Curriculum of Newfoundland and Labrador.
- Applicants will be required to submit a letter requesting enrolment in a specific course and provide a list of final year registrations; an official high school transcript; and a letter from the high school principal or guidance counsellor clearly supporting admission for concurrent studies.
- Applicants must submit a completed application for admission/readmission together with the appropriate fee. For further information refer to Fees and Charges.
- Normally, enrollment for concurrent studies students will be limited to 3 credit hours in a given semester. Fees and deadlines are the same as for regularly admitted students. University credit will be awarded after successful completion of the course(s) and successful completion of the requirements for admission to the University.
- Normally, eligibility to enrol is limited to the Fall and Winter semesters.
- Concurrent studies students will be automatically considered for general admission to the University for the Fall semester of the following academic year. The requirements for admission to the University, as specified in Applicants Who Have Followed the High School Curriculum of Newfoundland and Labrador, will apply. Additional faculty application and admission requirements may apply.

4.3.4.2 Other Information
- English Language Proficiency Requirements will apply to all applicants.

4.3.5 Applicants Who Have Followed the Adult Basic Education Program (ABE)

4.3.5.1 Admission Criteria
Applicants shall have completed the Level III Adult Basic Education Certificate (ABE) with the approved combination of thirty-six credits set down by the Department of Education and successfully completed, with an overall average of not less than 70%, the following courses as outlined below:

- **Communication Skills:** IC 3112 and IC 3321 OR English 3101A, 3101B, and 3101C
- **Mathematics:** One of the following groups:
  - Mathematics: IM 3115, 3211, 3212, 3213, and 3216 OR
  - Mathematics: IM 3218, 3219, and 3221 OR
- **Science:** One of the following patterns:
  - Biology: IBT 3113, 3115, 3211, 3212A/B, 3214, and 3316 OR
  - Biology: 2101A, 2101B, 2101C, 3101A, 3101B, and 3101C
  - Chemistry: ICH 3111, 3112, 3113, 3114, 3116, 3117, 3118, and 3215 OR
  - Chemistry: 2102A, 2102B, 2102C, 3102A, 3102B, and 3102C
  - Geology: IS 3212
  - Physics: IP 3111, 3112, 3213, 3215, and 3216 OR
  - Physics: 2104A, 2104B, 2104C, 3104A, 3104B, and 3104C

4.3.5.2 Other Information
- English Language Proficiency Requirements will apply to all applicants.

4.3.6 Applicants for Mature Student Status

4.3.6.1 Admission Criteria
An applicant, 21 years of age or older within one month after the beginning of the semester or the session to which admission is being sought, who has not fulfilled the admission criteria outlined in any of the above categories may be admitted to the University with the approval of the University Committee on Admissions.
4.3.9.1 International Baccalaureate (IB)

Applicants seeking admission on the basis of the International Baccalaureate Organization’s IB Diploma program may be admitted upon award of the IB Diploma with a minimum total score of 24. See Transfer Credit regulations and www.mun.ca/regoff for details regarding the University’s IB transfer credit eligibility and IB score conversion policies.
4.3.9.2 American-based High School Curriculum
- Applicants completing an American-based high school program are required to provide official transcripts reflecting a minimum overall average of “B” or better in the required five grade 12 subjects.

4.3.9.3 United Kingdom (UK) or UK-patterned Curriculum
- Applicants are required to have completed the General Certificate of Education (GCE) with at least five subjects. These must include at least three Advanced Subsidiary (“AS”) Level subjects or two Advanced (“A”) Level subjects with grades of “C” or better or, for applicants completing the Higher-Level subjects of the Scottish Leaving Certificate, at least two subjects at the Higher-Level with grades of “C” or better. Exceptional candidates may be admitted based upon Ordinary (“O”) Level results. Applicants should refer to Transfer Credit for information concerning transfer credit eligibility.

4.3.9.4 France and French-Patterned Curriculum
- Applicants are required to complete and supply a certified copy of the Diplôme du Baccalauréat General (Diploma of General Baccalaureate) with a minimum grade of 12 in the required subject areas.

4.3.9.5 West Africa (Nigeria, the Gambia, Ghana, Liberia, and Sierra Leone)
- Applicants are required to complete the West African Examinations Council (WAEC) Senior School Certificate with a minimum grade of C6 in the required subjects. Applicants from Nigeria may also be considered based upon completion of National Examinations Council (NECO) examination results with a minimum grade of C6 in the required subjects.

4.3.9.6 Caribbean (Anguilla, Antigua and Barbuda, Barbados, Belize, British Virgin Islands, Cayman Islands, Dominica, Grenada, Guyana, Jamaica, Montserrat, Saint Kitts and Nevis, Saint Lucia, Saint Vincent and the Grenadines, Trinidad and Tobago, and Turks and Caicos Islands)
- Applicants are required to hold a Caribbean Examinations Council Secondary Education Certificate (CESC) with a minimum grade of 2 in the required subject areas and a minimum of two 2-unit subjects on the Caribbean Advanced Proficiency Examination (CAPE) examinations. Applicants who have completed Caribbean Advanced Proficiency Examination (CAPE) examinations may be eligible for transfer credit at the undergraduate level.

Further details regarding admission criteria by country are provided online at www.mun.ca/regoff. Applicants may also contact the Admissions Office, Office of the Registrar by e-mail at admissions@mun.ca.

4.3.9.7 Other Information
- Early Acceptance: Applicants in their final year of high school who have completed, or who are completing, a slate of courses which meets the course requirements as specified under Applicants Who Have Followed the High School Curriculum of Another Country or a Recognized Standardized Curriculum may be granted early acceptance prior to the writing of final examinations. This early acceptance will be subject to verification, when final examination results are received by the Office of the Registrar from the appropriate authorities, that the applicant has met the minimum requirements for admission as specified under Applicants Who Have Followed the High School Curriculum of Another Country or a Recognized Standardized Curriculum. Applicants who fail to meet all requirements at that time will have their acceptance revoked. This does not preclude the application of selective admission criteria for particular faculty/school programs.
- Applicants from other countries should submit official matriculation certificates at least two months prior to the commencement of the semester to which they are seeking admission. Certificates in a language other than English or French should be accompanied by notarized English translations.
- Applicants from other countries may be required to submit with their application, a statement of satisfactory financial resources.
- English Language Proficiency Requirements will apply to all applicants.

4.3.10 Applicants Transferring From Other Recognized Universities or Colleges

4.3.10.1 Admission Criteria
- The admission of applicants from other recognized universities or colleges will be subject to the regulations for Admission/Readmission to the University in addition to General Academic Regulations, Regulations for Continuance and Readmission. In order to allow sufficient time for assessment of possible transfer credit, applicants should refer to Transfer Credit for information on the transfer credit application and evaluation process and requirements.

4.3.10.2 Other Information
- In addition to the $50.00 non-refundable application processing fee, a fee of $50.00 is required of all applicants who apply for admission from post-secondary institutions outside of Newfoundland and Labrador and/or non-Canadian applicants. Neither fee is refundable nor will it be credited to the applicant's financial account in any circumstances. For further information refer to Fees and Charges.
- Students applying for transfer from other recognized universities or colleges shall submit their High School Diploma and official transcript(s) from all universities and colleges attended. All documents must be forwarded directly to the Admissions Office, Office of the Registrar from the appropriate institution(s). These documents must be certified and official and received in the Office of the Registrar not later than two months prior to the first day of lectures in any semester, as stated in the University Diary. An application is not considered complete until these documents have been received.
- Applicants transferring from other universities or colleges should also see Transfer Credit.
- English Language Proficiency Requirements will apply to all applicants.

4.3.11 Applicants Who Are Requesting Special Admission
Where circumstances warrant, applicants not meeting the regulations for Admission/Readmission to the University may be admitted to Memorial University of Newfoundland with the approval of the University Committee on Admissions.

4.3.11.1 Admission Criteria
- Applicants must submit a completed application for admission/readmission together with the appropriate fee. For further information refer to Fees and Charges.
4.5 Transfer Credit

Applicants wishing to be considered for advanced standing or transfer credit must submit, in addition to the Application for Admission/Readmission, an Application for Transfer Credit Evaluation which can be obtained online or in person from the Office of the Registrar. Official transcript(s) and calendar descriptions and/or outlines of courses claimed for credit are also required and should be sent directly to Memorial University of Newfoundland from the institution attended.

In order to allow sufficient time for evaluation, these documents should be received at least two months prior to the commencement of the registration period for the semester to which the applicant is seeking admission. It is the student's responsibility to provide the pertinent documents, and until they are received, the Office of the Registrar is unable to commence an evaluation or to advise students of their standing at this University. The award of transfer credit is subject to the following regulations:

- When transfer credit is awarded for work completed at another institution, only equivalent Memorial University of Newfoundland course(s) and credit(s) are recorded on the Memorial University of Newfoundland transcript. Grades received from other institutions are not recorded nor included in averages.
- Applicants who have not received the results of a transfer credit evaluation prior to the assigned registration time for the semester in which they propose to begin studies should contact the Admissions Office for further assistance.
- Memorial University of Newfoundland will consider for transfer credit courses for which credit has been granted through a Prior Learning Assessment and Recognition process by another recognized university or college.
- Award of credit will be subject to University Regulations and evaluation and recommendation by the appropriate academic unit(s).
- The applicability of all transfer credits, whether specified or unspecified, is subject to appropriate program regulations.
- Information regarding course equivalencies can be obtained from the Admissions Office, Office of the Registrar.

Outlined below are the various categories for which transfer credit may be considered.

4.5.1 College Board Advanced Placement (AP)

- Award of credit for AP courses will be subject to the achievement of a minimum grade of 3 in each subject claimed for credit (in certain subjects a minimum grade of 4 may be required).

4.5.2 Enriched Courses and Ontario Grade XIII/OAC

- Certain Grade XII enriched courses and certain Ontario Grade XIII/OAC subjects may be recognized for introductory (normally first year) credits, where applicable, that the subjects claimed for credit are recommended as equivalent to Memorial University of Newfoundland courses by the relevant University academic unit(s). In addition, the applicant must have obtained an overall average in these courses of not less than 65% with a passing grade in each subject claimed for credit.
- Applicants who have not obtained the overall average requirement of 65% in these courses will be required to have obtained a mark of not less than 65% in individual subjects claimed for credit.

4.5.3 Advanced or Higher Levels

- The "Advanced Level" subjects of the General Certificate of Education will generally be accepted for credit to a maximum of 12 credit hours in each subject provided that a minimum grade of 'D' in each subject claimed for credit has been obtained.
- The "Higher Level" subjects of the Scottish Leaving Certificate will generally be accepted for credit at the first year level.

4.5.4 International Baccalaureate Diploma

- Memorial University of Newfoundland will consider for transfer credit the "Higher Level" subjects and certain "Standard" or "Subsidiary" level subjects, provided that the subjects claimed for credit are recommended as equivalent to Memorial University of Newfoundland courses by the relevant University academic unit(s), and the candidate has achieved a minimum grade of 4 in individual subjects claimed for credit. In certain subjects a minimum grade of 5 may be required.
4.5.5 Member Institutions of the Association of Universities and Colleges of Canada (AUCC)

- All university-level course work completed by transfer students during the first two years of university study taken at universities/colleges that are ordinary members of the Association of Universities and Colleges of Canada (AUCC) will be recognized for transfer credit. In the first instance, the evaluation of such course work for appropriate credit will be conducted by University academic units. In instances where appropriate credit cannot be granted by academic units or where no University academic unit exists at this University for the evaluation of particular transfer credits, the Office of the Registrar will award the appropriate unspecified credits in an unspecified discipline.

- Applicants who have completed course work beyond the first two years of university study may be considered for further transfer credit subject to evaluation and recommendation by the appropriate academic unit(s) and University Regulations.

4.5.6 Other Universities, Colleges and Institutes

- Memorial University of Newfoundland may recognize for transfer credit certain courses offered by the College of the North Atlantic, the Fisheries and Marine Institute of Memorial University of Newfoundland, and certain other community colleges, technical colleges, institutes and CEGEPs.

- Memorial University of Newfoundland may recognize for transfer credit certain courses offered by other recognized universities or university colleges.

4.5.7 Caribbean Advanced Proficiency Exams

- Memorial University of Newfoundland may recognize for transfer credit certain courses completed through the Caribbean Advanced Proficiency Examinations. These examinations will generally be accepted for credit to a maximum of 12 credit hours for each 2 unit course and 6 credit hours for each 1 unit course.

4.6 Prior Learning Assessment and Recognition (PLAR)

Memorial University of Newfoundland recognizes that learning may occur outside a formal institutional setting through professional or personal experience or through participation in unaccredited learning. Students of Memorial University of Newfoundland may be eligible for the award of credit for informal or non-formal learning in specific circumstances. Where PLAR is offered, it is available only to those students who have applied for admission or who are currently registered at the University. PLAR at Memorial University of Newfoundland is subject to the following regulations and procedures:

- The recognition of informal learning, assessed on the basis of recognized professional achievement, may exist in the form of program admission, advanced placement, or academic credit in selected programs. Students are advised to consult the regulations governing programs of interest in the appropriate section of the University Calendar for further information.

- The recognition of learning that has not been recognized through the award of credit, for the purposes of determining pre-requisite waiver eligibility, may be approved by academic units on the basis of interviews or a review of unofficial documents. Students are advised to contact the academic unit offering the course(s) involved for further advice.

- Assessment of learning in the form of written or practical challenge examinations may be offered at the discretion of academic units. Recognition of learning assessed through challenge examinations is subject to the regulations outlined below.

- PLAR may be used to receive credit for Work Terms or Internships at the discretion of the individual faculty or school.

4.6.1 Challenge for Credit

Where challenge for credit is offered, it is available under the following conditions:

1. Applications to challenge for credit are available online at www.mun.ca/regoff/forms.php or in-person at the Office of the Registrar. Completed applications must be submitted to the Office of the Registrar and must receive approval from the head of the appropriate academic unit(s). The academic unit may require documentary material from the student and/or an interview before making its decision whether or not to accept the challenge. The academic unit involved will be responsible for deciding the scheduling and appropriate method of evaluation, which may consist of a variety of possible modes of evaluation including written, practical and oral.

2. A student who has applied for transfer credit evaluation may not apply to challenge for credit until the transfer credit evaluation has been completed.

3. Memorial University of Newfoundland will consider for credit courses that have been granted credit through a challenge for credit process by another recognized university or college. Award of credit will be subject to University Regulations and evaluation and recommendation by the appropriate academic unit(s).

4. For the purpose of satisfying the regulations governing residence requirements for a first degree and residence requirements for a second degree under General Academic Regulations (Undergraduate), a successful challenge for credit shall be considered the equivalent of a transfer credit and shall be recorded on the transcript as a pass (PAS). Challenge grades are not included in averages. For further information refer to Residence Requirements for a First Degree and Residence Requirements for a Second Degree.

5. The appropriate fee must be paid at the time of application. For further information refer to Fees and Charges. If the application is accepted for consideration, the fee is not refundable nor is the student permitted to withdraw the challenge.

5 Academic Advising

During their period of study at the University, students are expected to make some very important academic decisions, the consequences of which can significantly affect the course of their academic careers. While the responsibility for making these decisions rests with students individually, they are not expected to make such decisions without access to sound academic advice.

Students should seek advice on matters such as course selection, registration, dropping/adding course registrations, selecting/changing an academic program, entrance requirements for degree programs and interpretation of university regulations. It is especially true that students in the early stages of their degree program should seek academic advice.

Students who are considering enrolling at the University or who are in their first year of study at the University or who have not declared an academic program can obtain academic advice from the following sources: those students attending the St. John's Campus should contact the Academic Advising Centre, Office of the Registrar, located in the Science Building room SN 4053, at (709) 864-8801; those students attending the Grenfell Campus should contact the Manager, Academic Advising at the Office of the Registrar, located in the Arts and Science Building in room AS 270, at (709) 637-6298.

Students beyond their first year who have declared their major or have been accepted to a School or Faculty can obtain academic advice from a faculty adviser assigned by their School/Faculty/Department. Students should contact the head of the relevant academic
unit to be assigned a faculty adviser. Students are also encouraged to approach their professors for academic advice or for referral to the appropriate source of advice. While it is the responsibility of students to see that their academic programs meet regulations in all respects, academic advice is provided as a service of the University.

6 General Academic Regulations (Undergraduate)

Memorial University of Newfoundland is governed by the principles of fairness, academic integrity and the timely provision of information and by regulations whose purpose is to ensure fair and equitable treatment for the entire University community. Some regulations deal with the normal workings of the University (continuance, registration deadlines, etc.) and pertain to all undergraduate students. Other regulations, however, especially those concerned with classification of degrees and academic conduct, apply to certain students in certain specific situations.

The Office of the Registrar will assist students with any questions or problems which arise concerning the interpretation of regulations. It is, however, the responsibility of the student to see that his or her program meets University regulations in all respects. Every student has the right to request waiver of General Academic Regulations (Undergraduate). In addition, every student has the right to appeal decisions regarding waiver of General Academic Regulations (Undergraduate). For further information refer to Waiver of Regulations and Appeal of Decisions.

Descriptions and regulations for individual programs can be found in the appropriate academic-unit section of this Calendar. The terminology is explained in the Glossary of Terms Used in This Calendar.

6.1 Classification of Students

1. Full-time students: Students who have been admitted to this University and who are registered for the duration of any semester in at least 9 credit hours or at least 6 credit hours in a session are deemed full-time students.

   a. Notwithstanding the above and the regulations governing the Marine Institute technology diploma programs, students who have been declared as pre-Bachelor of Technology or pre-Bachelor of Maritime Studies are deemed full-time students if they are registered for either: three non-degree courses and a minimum of 3 degree credit hours, or two non-degree courses and a minimum of 6 degree credit hours.

   b. Students are registered for the duration of any semester in a co-operative education work term, the internship required of the Computer Industry Internship Option (CIO), or the Structured Practice Experience required of the School of Pharmacy will be deemed full-time students.

   c. Provided they had been admitted to the University, the members of the Executive of the Memorial University of Newfoundland Students' Union (MUNSU), the Grenfell Campus Student Union (GCSU) and the Marine Institute Student Union (MISU) shall be deemed, for the purpose of membership on University committees, the Senate and the Board of Regents, to be full-time students during their tenure.

2. Part-time students are students who have been admitted to the University and who are registered for fewer than 9 credit hours in any semester or fewer than 5 credit hours in any session.

3. First-year students are students who have earned fewer than 18 credit hours.

4. Second-year students are students who have earned from 18 to 47 credit hours inclusive.

5. Third-Year Students are students who have earned from 48 to 77 credit hours inclusive.

6. Fourth-Year Students are students who have earned from 78 to 107 credit hours inclusive.

7. Fifth-Year Students are students who have earned from 108 to 137 credit hours.

6.2 Degree and Departmental Regulations

Every student seeking a bachelor's degree shall comply with all the course requirements governing the award of that degree.

6.2.1 Year of Degree and Departmental Regulations - Faculty of Arts and Faculty of Science

1. A student completing a degree program in the Faculty of Arts or in the Faculty of Science will normally follow the degree regulations in effect in the academic year in which the student first completes a course(s) at Memorial University of Newfoundland. However, the student may elect to follow subsequent regulations introduced during the student's tenure in a program.

2. In the case of department regulations for a major or minor, a student will normally follow regulations in effect in the academic year in which the student first completes a course in that subject at the 2000 level or above which may be applied to the major or minor program respectively. However, the student may elect to follow subsequent regulations introduced during the student's tenure in a program.

6.2.2 Year of Degree and Departmental Regulations - All Other Faculties and Schools

1. A student registered in any program, other than programs in the Faculty of Arts, programs in the Faculty of Science, the Bachelor of Business Administration program offered by the Faculty of Business Administration, or in the Bachelor of Maritime Studies or Bachelor of Technology programs offered by the Fisheries and Marine Institute will normally follow regulations in effect in the academic year in which the student first completes a course(s) in the faculty or school following formal admission to that program.

   a. The student may elect to follow subsequent regulations introduced during the student's tenure in a program.

   b. A student completing a Bachelor of Business Administration will normally follow the degree regulations in effect in the academic year in which the student first earns a total of 12 credit hours in Business courses at the 1000-level. However, the student may elect to follow subsequent regulations introduced during the student's tenure in a program.

   c. A student who has been admitted to and is currently completing courses in one of the Fisheries and Marine Institute diploma programs that meets the admission criteria to the Bachelor of Technology program may simultaneously complete the requirements for the Bachelor of Technology program. Under those circumstances, for the purpose of meeting Degree and Departmental Regulations, Year of Degree and Departmental Regulations - All Other Faculties and Schools, students will normally follow the degree regulations in effect in the academic year in which the student first completes an undergraduate degree course in the Maritime Studies/Technology Management (MSTM) subject area. However, the student may elect to follow subsequent regulations introduced during the student's tenure in the program.

   d. For the purpose of meeting Degree and Departmental Regulations, Year of Degree and Departmental Regulations - All Other
Faculties and Schools, a student who is completing the Bachelor of Maritime Studies/Bachelor of Technology will normally follow the degree regulations in effect in the academic year in which the student first completes a course(s) in the program following formal admission to that program. However, the student may elect to follow subsequent regulations introduced during the student's tenure in the program.

5. A student in the Bachelor of Commerce (Co-operative) program, the International Bachelor of Business Administration program, or in the Faculty of Education, Faculty of Engineering and Applied Science, School of Nursing, Faculty of Medicine, School of Pharmacy, or School of Social Work, who fails to obtain promotion or is not registered for full-time studies for more than one semester and is readmitted to full-time studies in the faculty or school will normally follow regulations in effect at the time of readmission.

6. A student in the School of Music who is required to withdraw from the Bachelor of Music degree program for academic reasons, or who has withdrawn from the principal applied study course will normally follow regulations in effect at the time the student is readmitted to the School. However, the student may elect to follow subsequent regulations introduced during the student's tenure in a program.

6.2.3 Further Credentials
1. Students may obtain more than one undergraduate degree at this University but not in the same major subject. Students are also encouraged to consider proceeding to more advanced studies at the honours or graduate level.

2. A student will not be awarded the same bachelor's degree more than once by this University (e.g., if a student has been awarded a Bachelor of Arts degree from this University the student will not be awarded a second Bachelor of Arts degree from this University).

3. A student who has completed a bachelor's degree from this University may complete the requirements for another major or minor. A notation indicating the completion of the requirements for the additional major or minor will be included on the student's academic record.

4. For further information refer to Residence Requirements - Second Degree.

6.2.4 Time Limits
1. Notwithstanding these regulations, the University may place limits on the time permitted to complete a program under any given set of regulations. In addition, detailed scheduling of courses and/or practical experience, e.g., work terms, internships, field placements, may be changed as the University deems appropriate or necessary.

6.3 Residence Requirements

6.3.1 General Information
1. Residence requirements are met by attendance at classes on a campus and/or by the number of credit hours completed at this University.

6.3.2 First Degree
1. For a first bachelor's degree students shall have completed a minimum of 24 credit hours through attendance at classes on the campus of a recognized university or university college. Distance education courses may be used to satisfy the requirements of this clause only for the degrees of Bachelor of Business Administration, Bachelor of Business Administration (Honours), Bachelor of Maritime Studies, Bachelor of Nursing (Post-RN) and Bachelor of Technology.

2. Students shall complete at this University the last 30 credit hours required for the degree. There are exceptions to this requirement as follows:
   • Where special circumstances warrant, and only if at least half the courses required for the degree are completed at this University, the appropriate committee on undergraduate studies may permit students to complete, at another recognized institution, not more than 15 of the last 30 credit hours or equivalent required for the degree. The courses which comprise these credit hours must be approved by the appropriate academic unit.
   • Courses taken at universities and/or colleges which are included in formal institutional exchange agreements with this University are not subject to the requirements of this clause.
   • Courses taken at Francophone universities, as required under specific degree program regulations, are not subject to the requirements of this clause.

3. Students who have taken courses in the subject of their major at another university are required to complete at least 12 credit hours in that subject at this University.

6.3.3 Second Degree
A student who has already completed a bachelor's degree may undertake a second bachelor's degree, but not in the same major, subject to the condition outlined below.

1. Every student for a second bachelor's degree, with the exception of students completing the Bachelor of Technology or Bachelor of Maritime Studies degrees, shall complete at least 30 credit hours at this University beyond those required for the first degree. These credit hours must be applicable to the degree sought. Students who have completed a first degree at this University may be permitted to take at another university up to 6 of the 30 credit hours required in this clause.

2. Students completing the Bachelor of Technology or Bachelor of Maritime Studies as a second degree must complete at least an additional 9 credit hours beyond their first degree and the work completed as required for admission to the Bachelor of Technology/ Bachelor of Maritime Studies degree. These credit hours must be applicable to the degree sought.

6.4 Registration

6.4.1 General Information
1. Students register using the Student Web/Self-Service at www.mun.ca/regoff.

2. No student may register after the end of the registration period. In the case of accelerated courses and courses offered outside the normal time frame of a semester or session the registration period will be prorated with respect to all associated deadlines.

3. The University reserves the right to require a student to withdraw without academic prejudice from a course, courses, or program in which the student is improperly registered.
6.4.2 Student Responsibility
1. Students are strongly encouraged to seek academic advice before registering.
2. The responsibility for taking all steps necessary for registering and ensuring that a student's registration is appropriate, correct, and proper rests solely with the student. The University will make every effort, through its various academic counselling and advising services, to ensure that students are informed of the suitability and accuracy of their registrations.
3. Students must register for courses at or after the assigned registration time and before the end of the registration period as defined in the University Diary.

6.4.3 Registration Priority
1. The University uses a registration priority system that assigns the date and time that students register. Priority for registration is determined by a combination of three factors: closeness to graduation (i.e., number of credit hours completed); a student's academic achievement (i.e., GPA), and a student's program of study (i.e., degree, major, minor).
2. Academic units may reserve spaces in course sections for students in a particular degree, major, minor, or the like.
3. For further information on registration priority consult the Undergraduate Registration Procedures.

6.4.4 Adding Courses
6.4.4.1 General Information
- Specific deadlines for adding courses in any semester or session are stated in the University Diary. In the case of sessions, accelerated courses, and courses offered outside the normal time frame of a semester or session, deadlines for adding courses will be prorated accordingly.
- No course will be considered to have been added until the Registrar has received official notification and certified the add.
- Attending classes or informing an instructor of the intent to add a course does not constitute an official adding of a course.
- Only under special circumstances may a course(s) be added after the end of the registration period. For information contact the Office of the Registrar.
- Before the end of the registration period a student may, upon formal notification to the Registrar, change the course(s) for which he or she was originally registered by adding and/or dropping a course(s).

6.4.5 Course Weight/Course Load
Course load is the sum of course weights. In a session the course load is double. For the purposes of determining course load, each course is weighted with the credit hour value associated with that course, unless otherwise specified as follows:
- The course weight of each of the A and B components of a linked course shall be equivalent to one half of the credit hour value of the B component.
- The course weight of courses with C or F as the last character shall be three.
- The course weight of courses with W as the last character will vary according to individual program requirements.

1. Semester Course Load: The normal course load in a semester shall be 15 credit hours, except where academic regulations require more than that number. No student shall register for more than 15 credit hours or more credit hours than required by degree regulations in a semester except with the written permission of the dean, division head, vice-president or associate vice-president of the student's faculty, school, or campus.
2. Session Course Load: The normal course load in a session shall be 6 credit hours. No student shall register for more than 6 credit hours in a session except with the written permission of the dean, division head, vice-president or associate vice-president of the student's faculty, school, or campus.

6.4.6 Dropping Courses
6.4.6.1 General Information
- Specific deadlines for dropping courses in any semester or session are stated in the University Diary. In the case of sessions, accelerated courses, and courses offered outside the normal time frame of a semester or session, deadlines for dropping courses without academic prejudice will be prorated accordingly.
- No course will be considered to have been dropped until the Registrar has received official notification and certified the drop.
- Ceasing to attend classes, or informing an instructor of the intent to drop a course, does not constitute an official dropping of a course.
- A student who drops all courses in any given semester will be considered to have withdrawn from the University for that semester. A student who has withdrawn from the University, before the start of classes in any semester, is deemed to be not registered for that semester. For information regarding applying for re-admission to the University refer to Admission/Readmission to the University (Undergraduate).
- In the event that a student drops a co-requisite course, the student will be required to drop the course for which that course is a co-requisite.
- Before the end of the registration period a student may, upon formal notification to the Registrar, change the course(s) for which he or she was originally registered by adding and/or dropping a course(s).

6.4.6.2 Dropping Courses Without Academic Prejudice
- Until the end of the second week following the first day of lectures in any semester, a student may, upon formal notification to the Registrar, drop a course without academic prejudice. A course dropped under these circumstances will not be entered on the student's record.
- From the beginning of the third week to the end of the seventh week following the first day of lectures in any semester, a student may, upon formal notification to the Registrar, drop a course without academic prejudice. A grade of DR will be assigned in these circumstances and will be entered on the student's record.
- From the beginning of the eighth week following the first day of lectures in any semester to the last day to add courses in the following semester, a student who is prevented from completing the requirements of a course by illness, bereavement, or other
Acceptable cause, duly authenticated in writing, may drop a course without academic prejudice. This may occur only with the approval of both the course instructor and the head of the academic unit of the student's program or in the case of students who have not declared a program, the head of the academic unit of the course in question. A grade of DR will be assigned in these circumstances and will be entered on the student's record.

### 6.4.6.3 Dropping Courses With Academic Prejudice

Students dropping courses except under the provisions outlined under Dropping Courses Without Academic Prejudice will have the letter grade of DRF and a numeric grade of 0% entered on his or her record for each course dropped.

### 6.4.6.4 Work Terms

Students registered for a co-operative education work term should refer to the appropriate academic-unit section of this calendar with respect to regulations regarding work terms.

### 6.4.6.5 Tuition Fee Implications

- A student who drops a course within two weeks following the first day of lecture in any semester will not be liable for tuition fees for that course. Tuition fee refunds for dropping courses after that period will be prorated in accordance with Fees and Charges - Tuition Refunds Based on Withdrawal From Course(s).
- In the case of sessions, accelerated courses, and courses offered outside the normal time frame of a semester or session, deadlines for dropping courses without financial liability will be prorated accordingly.

### 6.4.7 Withdrawing from the University

#### 6.4.7.1 General Information

- A student who drops all courses in any given semester will be considered to have withdrawn from the University for that semester. A student who has withdrawn from the University, before the start of classes in any semester, is deemed to be not registered for that semester. For information regarding applying for readmission to the University refer to Admission/Readmission to the University (Undergraduate).
- A withdrawal is not official until the Registrar has received official notification and certified the changes.
- Ceasing to attend classes, or informing an instructor of the intent to drop a course, does not constitute an official withdrawal.

#### 6.4.7.2 Withdrawing from the University Without Academic Prejudice

- Until the end of the second week following the first day of lectures in any semester as stated in the University Diary, a student may, upon formal notification to the Registrar, withdraw from the University without academic prejudice. Courses dropped under these circumstances will not be entered on the student's record.
- From the beginning of the third week to the end of the seventh week following the first day of lectures in any semester as stated in the University Diary, a student may, upon formal notification to the Registrar, withdraw from the University without academic prejudice. The letter grade DR will be assigned to all courses in these circumstances.
- From the beginning of the eighth week following the first day of lectures in any semester to the last day to add courses in the following semester as stated in the University Diary, a student who is prevented from completing the semester by illness, bereavement, or other acceptable cause, duly authenticated in writing, may withdraw from the University without academic prejudice. This may occur only with the approval of the dean, division head, vice-president or associate vice-president of the student's faculty, school, or campus and upon formal notification to the Registrar. The letter grade DR will be assigned to all courses in these circumstances.
- In the case of sessions, accelerated courses, and courses offered outside the normal time frame of a semester or session, deadlines for withdrawing from the University will be prorated accordingly.
- Students who withdraw from the University for medical reasons for one or more semesters may not be permitted to re-enter unless they can provide medical evidence, satisfactory to the Director of Student Health Service, of fitness to pursue studies.

#### 6.4.7.3 Withdrawing from the University With Academic Prejudice

Any student withdrawing from the University except under the provisions outlined under Withdrawing from the University Without Academic Prejudice will have the letter grade DRF and a numeric grade of 0% entered on his or her record for each course withdrawn.

#### 6.4.7.4 Work Terms

Students registered for a co-operative education work term should refer to the appropriate academic-unit section of this calendar with respect to regulations governing withdrawing from work terms.

### 6.4.8 Auditing of Courses

1. Individuals auditing courses must have met the University's admission or readmission requirements as stated in Admission/Readmission to the University (Undergraduate).
2. In order to audit any course, an individual must receive permission from the instructor in that course and the head of the academic unit in which the course is offered. Permission cannot be given until the number of registrations is known. Factors to be considered shall include class size, impact on students registered for credit, and other matters judged relevant by the academic unit.
3. Individuals auditing courses shall limit their participation to that deemed appropriate by the instructor.
4. Auditors are not permitted to write formal examinations or have their work formally assessed.
5. Audited courses will not be considered as meeting prerequisites, admission, or course requirements for any undergraduate programs, nor will audited courses be listed on the individual's transcript of University studies.

### 6.5 Attendance

1. Attendance regulations must be approved by the Senate and will be allowed only in cases where the academic unit has demonstrated that attendance is necessary for safety reasons, for teaching practical skills, or for attaining other clearly specified objectives. This may include an attendance regulation that may, by itself, cause a student who contravenes the regulation to fail or be dropped from a course.
6.6 Evaluation

6.6.1 Method of Evaluation
1. The method of evaluation in any course shall be determined by the academic unit subject to all University regulations.

6.6.2 Informing Students of the Method of Evaluation
1. The method of evaluation and required prerequisites or co-requisites shall be made known to students before the end of the first week of lectures in any semester or session.
2. This information shall be in typewritten or computer-generated format and shall be provided in paper form to the students present in each class during the first week of lectures. In the case of online courses, this information may be provided electronically.
3. The following shall be included in the explanation of the method of evaluation:
   - the allocation of marks for all parts of the evaluation, e.g., assignments, laboratory projects, presentations, tests, mid-term examinations, final examinations;
   - the approximate dates of all parts of the method of evaluation that will take place in class, e.g., tests, mid-term examinations, presentations, and assignments;
   - the dates on which all parts of the evaluation to be completed out of class are due; and
   - whether deferred tests or mid-term examinations or extensions of deadlines for out-of-class work are permitted.

4. A student who is prevented from writing a test or mid-term examination or completing assigned work by the deadline, by illness or bereavement or other acceptable cause, duly authenticated in writing, may apply, in writing and with supporting documents, for an alternate evaluation. Normally, this application must be made within one week of the original date of the examination or deadline to the course instructor.

5. Methods used for notification of grades earned in all parts of the method of evaluation and for the return of graded evaluative instruments will be in keeping with the Access to Information and Protection of Privacy Act.

6.6.3 Changing the Method of Evaluation
1. The explanation of the method of evaluation, as made available to the class in the first week of lectures, shall be changed only if:
   - exceptional circumstances warrant the change; and
   - the head of the academic unit approves the proposed change; and
   - accommodation is made for students who demonstrate to the faculty member that they are disadvantaged by the change.

6.6.4 Good Writing Skills
1. Regardless of the method of evaluation, good writing skills are required for effective communication. Students are, therefore, expected to demonstrate proficiency in logical organization, clarity of expression and grammatical correctness in their writing. For further information refer to Grading - Good Writing.

6.6.5 Completing a Course
1. When it is prescribed that students, once registered, must complete a particular course, it is understood that they shall, when required, attend lectures given in the course, perform laboratory projects, and exercises that may be assigned and any other written or oral exercises prescribed, write or otherwise answer tests and examinations given in the course throughout the semester or session, including any final examinations, and shall obtain an overall passing grade in the course in accordance with the prescribed evaluation procedures.

6.6.6 Correction and Return of Student Work
1. Provided that students submit work by the due date outlined in the method of evaluation, instructors shall mark and return work that is worth a total of 20% of the final grade before the last day to drop courses without academic prejudice. This excludes practicums, placements, internships, theses, and courses where a single piece of work is used to determine the entire mark for the course.

2. In courses where evaluation includes a final examination, provided that students submit work by the due date outlined in the method of evaluation, instructors shall make all reasonable efforts to mark and return all work before the beginning of the examination period.

6.7 Examinations

6.7.1 Scheduling of Examinations
1. No laboratory examinations totalling more than one laboratory period in length shall be given in any laboratory course in any week during a lecturing period in any semester or session. Such examinations shall be administered in the laboratory time period assigned for that course section. The application of this clause in the Faculty of Engineering and Applied Science and the Faculty of Medicine is subject to interpretation by the appropriate committee on undergraduate studies. The Senate Committee on Undergraduate Studies may grant a waiver of this clause for laboratory examinations in individual courses in a given term upon recommendation of the appropriate committee on undergraduate studies. Such waivers will be considered only if it can be shown that such laboratory examinations do not conflict with regularly scheduled sessions of another course for any student involved.

2. Any other examinations shall not extend beyond the class period assigned to that course section in any week during a lecturing period in any semester or session. The application of this clause in the Faculty of Engineering and Applied Science and the Faculty of Medicine is subject to interpretation by the appropriate committee on undergraduate studies. The Senate Committee on Undergraduate Studies may grant a waiver of this clause for examinations in individual courses in a given term upon recommendation of the appropriate committee on undergraduate studies. Such waivers will be considered only if it can be shown that such examinations do not conflict with regularly scheduled sessions of another course for any student involved.
3. During the last two weeks of the lecturing period in any semester or the last week of the lecturing period in any session, no examinations or assignments, whether in-class or take home, shall be administered or assigned. However, assignments of which students have been notified under Evaluation may be submitted and oral and laboratory examinations may be administered. The appropriate faculty or school undergraduate studies committee may, upon the recommendation of the head of an academic unit, grant a waiver of this clause with the proviso that the total value of all examinations or assignments thereby permitted in a course shall not exceed 20% of the final mark in that course. Such waivers will be considered only in exceptional circumstances or in the case of particular courses where it can be shown that the nature of the course determines the need for evaluation during the normally prohibited period. In the latter case, students must be notified of the method of evaluation in accordance with Evaluation. At the end of each semester, the Senate Committee on Undergraduate Studies must be notified of waivers granted. Courses taught outside the regular time-frame are exempt from the application of this regulation.

4. No examinations of any nature shall be held between the last day of lectures and the start of the formal examination period in any semester or session. The application of this clause to the Faculty of Education (with respect to accelerated courses), the Faculty of Medicine, the School of Human Kinetics and Recreation (with respect to accelerated courses and courses offered outside the normal time frame during the Spring semester) and the School of Nursing is subject to interpretation by the appropriate committee on undergraduate studies.

5. In the event of an officially declared emergency which results in the cancellation or interruption of in-class examinations or tests previously scheduled and notified to be held in the final class period of the third last week of lectures of a semester or the second last week of lectures of a session, teaching units may reschedule such examinations or tests in the next regularly scheduled class or as early as possible in the second last week of lectures of a semester or the last week of lectures of a session. In no circumstances can the rescheduled examinations or tests be held in the last week of lectures of a semester.

6.7.2 Scheduling of Final Examinations

1. Final examinations, if any, whether of the normal two-hour duration or longer, shall be held in each course at the end of the semester during which it was given in accordance with the schedule of examinations published by the Office of the Registrar. The application of this clause to the Bachelor of Education (Intermediate/Secondary) and all degree programs offered by the School of Human Kinetics and Recreation is subject to interpretation by the appropriate committee on undergraduate studies.

2. Normally, course sections offered during the day will have their final examinations, if any, scheduled in the day, and course sections offered in the evening will have their final examinations, if any, scheduled in the evening. When a student is unable for good reason to write a final examination scheduled outside the provisions of this clause, the student will be entitled to write a deferred examination. For further information refer to Exemptions From Final Examinations and Procedures for Applying to Write Deferred Examinations.

3. When an academic unit determines that there will be a common final examination for day and evening sections of a course, students must be so informed in the explanation of the method of evaluation for the course and prior to the end of the registration period.

4. Where possible, academic units should inform the Office of the Registrar when they submit their class schedules if it is anticipated that a common final examination will be required for day and evening sections of a course, so that this information can be publicized in the class schedule for the appropriate semester. Academic units should indicate whether the examination is to be held during the day or the evening.

6.7.3 Exemptions From Final Examinations and Procedures for Applying to Write Deferred Examinations

1. A student who is prevented from writing a final examination by illness or bereavement or other acceptable cause, duly authenticated in writing, may apply, with supporting documents, to have the course graded or have the final examination deferred. This application must be made within one week of the original date of the examination to the head of the appropriate academic unit.

2. The decision regarding the request of the student to have a course graded or have the final examination deferred, including information on the appeals route open to the student in the case of a negative decision, must be communicated in writing to the student and to the Registrar within one week of the receipt of the student's complete application. For further information refer to Appeal of Decisions.

3. In those cases where the academic unit accepts the extenuating circumstances the student may be permitted to write a deferred examination or, with the consent of both the academic unit and the student, the grade submitted may be based on term work alone. An interim grade of ABS will be assigned by the academic unit in the case of a student granted a deferred examination. This grade will be replaced by the final grade which must be received by the Registrar within one week following the start of classes in the next academic semester or session. In the event that a numeric grade has not been received by the Registrar by this deadline the ABS shall be changed to the letter grade F with a numeric grade 0%.

4. A student who is prevented from writing a deferred examination by illness, bereavement, or other acceptable cause, duly authenticated in writing, may apply, with supporting documents, to the head of the appropriate academic unit to have the deferred examination further deferred. This application must be submitted within one week of the scheduled date of the deferred examination. The examination will be postponed to a time not later than the last date for examinations in the semester following that in which the student was enrolled in the course. In the event that a numeric grade has not been received by the Registrar by this new deadline the ABS shall be changed to the letter grade F with a numeric grade 0%.

6.7.4 Access to Final Examination Scripts

1. A student has a right to see his or her final examination script. However, the script is the property of the University and the University retains full possession and control of the script at all times. This regulation upholds the authority and judgement of the examiner in evaluation.

2. To access a final examination script, a student must make a written request to the head of the academic unit in which a course is offered. This request is subject to the following conditions:

   - Any such request must be made following release of examination results for the semester in which the course was taken and within one month of the official release of grades by the University.
   - The final examination script must be viewed in the presence of the course instructor or other person delegated by the head of the academic unit. Both the instructor and the student have the right to be accompanied by a registered student or a member of the faculty or staff of the University.
   - The final examination script must not be taken away or tampered with in any way.
6.7.5 Rereading of Final Examination Scripts

1. A student may apply to have a final examination script reread whether or not he or she has obtained a passing grade in that course.

2. A student who wishes to have a final examination script reread must make application in writing to the Office of the Registrar within one month of the official release of grades by the University. When a rereading is requested, the University will make every reasonable attempt to have the rereading conducted by a faculty member(s) other than the original marker(s). Students are advised to refer to relevant academic units for policies and procedures governing re-reads of examinations.

3. An appropriate fee per course must be paid at the time of application. For further information refer to Fees and Charges - Reread of Final Examination Fee. If the final numeric grade is raised after rereading, the fee is refunded. If the final numeric grade is unchanged or lowered, the fee is forfeited.

6.8 Grading

6.8.1 Letter Grades, Numeric Grades and Points Per Credit Hour

The academic standing of each student will be based upon the course(s) for which he or she was registered as of seven weeks following the first day of lectures in any semester. The final evaluation submitted to the Registrar shall consist of one of the following letter grades with the appropriate numeric grade and points awarded for each credit hour as follows:

<table>
<thead>
<tr>
<th>Letter Grades</th>
<th>Numeric Grades</th>
<th>Points Per Credit Hour</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>80-100%</td>
<td>4</td>
</tr>
<tr>
<td>B</td>
<td>65-79%</td>
<td>3</td>
</tr>
<tr>
<td>C</td>
<td>55-64%</td>
<td>2</td>
</tr>
<tr>
<td>D</td>
<td>50-54%</td>
<td>1</td>
</tr>
<tr>
<td>F</td>
<td>below 50%</td>
<td>0</td>
</tr>
<tr>
<td>PWD (pass with distinction)</td>
<td>no numeric grade</td>
<td>not applicable</td>
</tr>
<tr>
<td>PAS (pass)</td>
<td>no numeric grade</td>
<td>not applicable</td>
</tr>
<tr>
<td>FAL (fail)</td>
<td>no numeric grade</td>
<td>not applicable</td>
</tr>
<tr>
<td>DR (drop)</td>
<td>no numeric grade</td>
<td>not applicable</td>
</tr>
<tr>
<td>DRF (drop fail)</td>
<td>0%</td>
<td>0</td>
</tr>
<tr>
<td>ABS (absent)</td>
<td>no numeric grade</td>
<td>not applicable</td>
</tr>
<tr>
<td>INC (incomplete)</td>
<td>no numeric grade</td>
<td>not applicable</td>
</tr>
<tr>
<td>AEG (aegrotat)</td>
<td>no numeric grade</td>
<td>not applicable</td>
</tr>
<tr>
<td>REX (re-examination)</td>
<td>no numeric grade</td>
<td>not applicable</td>
</tr>
</tbody>
</table>

6.8.2 Descriptions of Letter Grades

- **"A"** indicates excellent performance with clear evidence of:
  - comprehensive knowledge of the subject matter and principles treated in the course,
  - a high degree of originality and independence of thought,
  - a superior ability to organize and analyse ideas, and
  - an outstanding ability to communicate.

- **"B"** indicates good performance with evidence of:
  - substantial knowledge of the subject matter,
  - a moderate degree of originality and independence of thought,
  - a good ability to organize and analyse ideas, and
  - an ability to communicate clearly and fluently.

- **"C"** indicates satisfactory performance with evidence of:
  - an acceptable grasp of the subject matter,
  - some ability to organize and analyse ideas, and
  - an ability to communicate clearly and fluently.

- **"D"** indicates minimally acceptable performance with evidence of:
  - rudimentary knowledge of the subject matter,
  - some evidence that organizational and analytical skills have been developed, but with significant weaknesses in some areas, and
  - a significant weakness in the ability to communicate.

- **"F"** indicates failing performance with evidence of:
  - an inadequate knowledge of the subject matter,
  - failure to complete required work,
  - an inability to organize and analyse ideas, and
  - an inability to communicate.

6.8.3 Good Writing

1. Students at all university levels should have reasonably sophisticated and effective communication skills and are expected to demonstrate proficiency in logical organization, clarity of expression and grammatical correctness. Good writing is expected of students in all courses. Upon graduation students should be capable of expressing complicated ideas clearly and concisely and should be able to develop arguments in a logical manner. When, in the judgement of the instructor, a student persistently fails to display a reasonable standard of writing, the instructor may consider this when assigning a final grade.
2. Good writing is characterized by the following qualities:
   - **Content**
     - critical insight and freshness of thought,
     - clear and penetrating ideas,
     - perceptive, pure grasp of subject,
     - intelligent use of primary and secondary sources, and
     - a sense of completeness about the handling of the topic.
   - **Organization**
     - effective introduction and conclusion,
     - main idea is clear and logical development follows,
     - smooth transitions, and
     - good use of details.
   - **Style**
     - appropriate, accurate, precise and idiomatic diction, and
     - sentences varied in kind, length and effect.
   - **Mechanics**
     - consistently correct spelling,
     - accurate use of punctuation,
     - grammatically correct sentences, and
     - well organized paragraphing.

6.8.4 Linked Course

1. A linked course is a course comprising two components and is normally identified by the letter "A" or "B" as the last character of the course number. No credits or points are assigned to the "A" part of a linked course. No credits or points are given until the "B" part is completed. Credits and points will be awarded upon successful completion of the B part and will be attributed to the B part only.

6.8.5 Incomplete Grades

1. A student who, for extenuating circumstances, is unable to complete the requirements of a course may, with the approval of the appropriate academic unit, be granted a letter grade of incomplete (INC) in the course. This grade shall be valid for only one week following the start of classes in the next academic semester or session as stated in the University Diary. In the event that a numeric grade has not been received by the Registrar by this deadline the INC shall be changed to the letter grade F with a numeric grade 0%.
2. A student unable to complete the requirements of a course by the end of one week following the start of classes in the next academic semester or session as stated in the University Diary, may be permitted an extension of time not exceeding the last date for examinations in the semester following that in which the student was enrolled in the course. Such an extension may be granted by the head of the appropriate academic unit at the request of the student. In the event that a numeric grade has not been received by the Registrar by this new deadline the INC shall be changed to the letter grade F with a numeric grade 0%. In special circumstances, students registered for a Social Work Internship may be given an extension not exceeding two semesters. Students registered in one of Human Kinetics and Recreation 2210, 2220, 3210, 3220, 4210 or 4220 may be given an extension not exceeding three semesters, by the Academic Council of the School of Human Kinetics and Recreation.

6.8.6 Calculation of Averages

Only courses evaluated using final grades with associated numeric grades and points are included in the calculation of all averages. In calculating current averages the grades obtained in the A part of linked courses shall be included, while the grades obtained in foundation courses and work terms shall be excluded. Credit received as a result of transfer credit and challenge for credit are not included in the calculation. These calculations may be expressed as averages or grade point averages.
1. **Current average** is a method of expressing a student's performance for the semester. The current average is based on final grades. The current average is calculated by computing the sum of the numeric grade in each course multiplied by the course weight and dividing that sum by the total of the course weights.
2. **Cumulative average** is a method of expressing a student's performance over his or her academic career recorded since the beginning of the 1980-81 academic year. Where any given course, or an equivalent or cross-listed course, is attempted two or more times and is not repeatable, only the best attempt is included in the average. The cumulative average is calculated by computing the sum of the numeric grade in each course multiplied by the credit hour value and dividing that sum by the total number of credit hours attempted.
3. **Current grade point average** is a method of expressing a student's performance for the semester. The points associated with each letter grade are multiplied by the course weight. The current grade point average is calculated by dividing the total number of grade points earned by the total of the course weights.
4. **Cumulative grade point average** is a method of expressing a student's performance over his or her academic career recorded since the beginning of the 1980-81 academic year. Where any given course, or an equivalent or cross-listed course, is attempted two or more times and is not repeatable, only the best attempt is included in the average. For each course used in the calculation, the points associated with each letter grade are multiplied by the course credit hour value. The cumulative grade point average is calculated by dividing the total number of points earned by the total number of credit hours attempted.

6.8.7 Aegrotat Status

1. Students in their final semester or session before graduation, who have been absent from a final examination where one has been scheduled or who have been prevented from completing the semester's or session's work, for reasons which qualify them to write a deferred examination, may, in exceptional circumstances, be given credit for the course on the recommendation of the Senate Committee on Undergraduate Studies.
2. Application for aegrotat status, with full details duly authenticated, must be made to the Registrar, indicating each course for which the application is being made, within one week after the last day of final examinations.
6.9 Dean's and Vice-President's List

6.9.1 General Information
Memorial University of Newfoundland acknowledges the academic success of its students in various ways. One of these is by naming students to the appropriate dean's or vice-president's list. Annually, every academic unit will name to its list a maximum of 10% of its students, selected on the basis of academic performance in the nominating period.

6.9.2 Procedure and Criteria
1. At the end of the Winter semester, academic units will nominate students to the appropriate list based on academic performance in the three preceding semesters, Spring, Fall, and Winter.
2. Students on the dean's and vice-president's list will be selected based on the following minimum criteria:
   - The student must have obtained a grade point average of at least 3.5 in the credit hours completed in the preceding Spring, Fall, and Winter semesters.
   - The student must have attended full-time in at least two of the three preceding semesters.
   - The student must have successfully completed at least 27 credit hours over the preceding Spring, Fall, and Winter semesters, although an academic unit may require that the 27 credit hours be completed in any two of the three preceding semesters.
   - In consideration of specific program requirements, individual academic units may include students who have successfully completed, over the three preceding semesters, a course load other than 27 credit hours, but which is consistent with the course load defined by the program.
3. A notation will be placed on the student's transcript indicating that the student has been named to the dean's or vice-president's list.

6.10 Continuance and Readmission
These regulations will be applied at the end of each semester to any student who is registered in a course load of at least 9 credit hours on the last day for adding courses in a semester or session, including a student who later drops courses and changes status to that of a part-time student.

6.10.1 Eligibility for Continuance

6.10.1.1 Academic Criteria for Continuance in the University
At the end of each semester, in order to be eligible for continuance in the University, a student is required either:
- to obtain a current average of 50% in the courses for which he or she is registered on the last day for dropping courses without academic prejudice, or
- to have obtained a cumulative average of at least 55%.

6.10.1.2 Academic Criteria for Continuance in Programs of Study
Most academic units have separate promotion or advancement criteria for continuation of students in specific programs of study. Students are advised to check the regulations of the appropriate academic unit for details. The appropriate committee on undergraduate studies may, at any time, require a student to withdraw for academic reasons.

6.10.1.3 Other
- Students who meet the academic criteria for continuance in the University but who have not registered for courses for three or more consecutive semesters are required to apply for readmission to the University in accordance with the Admission/Readmission to the University (Undergraduate) regulations.
- These regulations notwithstanding, the continuance of any student at this University is subject to all University regulations.

6.10.2 Academic Warning
1. Any student who, for the first time, fails to meet the requirements outlined under Eligibility for Continuance - Academic Criteria for Continuance in the University will be given an academic warning.
2. Certain conditions may be set for students who have been given an academic warning. Any conditions will be set by the head of the appropriate academic unit and will be administered in conjunction with the Registrar. These conditions may include, but are not limited to the following:
   - restrictions on course load,
   - enrollment in courses designed to improve academic competence,
   - involvement with programs designed to enhance success in university studies, such as those which teach time management, study, or similar skills,
   - regular meetings with a faculty advisor.

6.10.3 Ineligibility for Readmission
1. Any student who has previously been given an academic warning and who again fails to meet the requirements, as outlined under Eligibility for Continuance - Academic Criteria for Continuance in the University, at this or another recognized university or college, will not be eligible for readmission to the following two semesters.
2. Any student who has previously been given an academic warning and who fails, for the second time, to meet the requirements, as outlined under Eligibility for Continuance - Academic Criteria for Continuance in the University, at this or another recognized university or college, will not be eligible for readmission to the following three semesters. To be considered for readmission after this period, the student will need the recommendation of the head of the appropriate academic unit, or, in the case of a student with an undeclared program of study, a senior faculty advisor.
3. Any student who fails, for the third time, to meet the requirements, as outlined under Eligibility for Continuance - Academic Criteria for Continuance in the University, at this or another recognized university or college, will be considered for readmission only on appeal following a period of withdrawal of at least six semesters. This appeal will be considered by the Senate Committee on Undergraduate Studies only on the recommendation of the head of the appropriate academic unit, or in the case of a student with an
undeclared program of study, a senior faculty advisor.

4. Certain conditions may be set for students who are readmitted after a period of ineligibility. These conditions are outlined under Academic Warning.

5. Academic units reserve the right to deny re-admission where a student has been determined to have engaged in unprofessional conduct. The code of ethics of the appropriate profession will serve as the guidelines when making this determination. However, should there not be an appropriate code of ethics, the following standard will apply: unprofessional conduct is one that involves a breach of the duties required by professional ethics.

6. The University reserves the right to deny a student readmission where, in the opinion of the Senate Committee on Undergraduate Studies, following appropriate professional consultation, there is a reasonable likelihood that the student’s health or behaviour could endanger the lives, health, or safety of other persons on-campus or off-campus where such a location pertains to University studies. If the University denies a student readmission, the student must be advised of the nature of the case, must be provided with an opportunity to answer the case, and must be advised of the right to appeal before the penalty imposed takes effect. For information regarding the appeal procedure refer to Appeal of Decisions.

7. These regulations notwithstanding, the readmission of any student at this University is subject to all University regulations.

6.11 Academic Misconduct

6.11.1 Principles

Within the University community there is a collective responsibility to maintain a high level of scholarly integrity. A student is expected to adhere to those principles which constitute proper academic conduct. Academic misconduct cannot be condoned or appear to be condoned. A student has the responsibility to know which actions, as described under Academic Offences, could be construed as dishonest or improper. A student is reminded that for further guidance on proper scholarly behaviour he/she should seek advice from his/her instructors and faculty advisors.

6.11.2 General Information

1. These procedures shall apply to all academic offences relating to undergraduate studies involving, but not limited to, those students who either have been or who are enrolled at Memorial University of Newfoundland. Notification of an allegation of academic misconduct will be forwarded to the last known mailing address of the student as noted on the files at the Office of the Registrar, and to the official University email address of the student. The University reserves the right to implement action under these procedures where an allegation has been made against a student but where reasonable efforts to contact the student are unsuccessful.

2. Meetings and interviews stipulated in this regulation will be held in person, or at a distance using telephone or other interactive technologies.

3. A student who wishes to attend classes, laboratories or other educational activities while an investigation under these procedures is being carried out, can do so only with the written permission of the academic unit concerned. Permission to do so will only be granted with the understanding that if the allegation of academic misconduct is proven and the penalty involves either suspension or expulsion, credit will not be granted for work completed prior to a finding of guilt. This provision excludes students charged with an offence under the Code of Student Conduct. For information regarding the Code of Student Conduct contact Student Support and Administrative Services.

4. Although a student can continue in a program of studies, if eligible, while an investigation under these procedures is being carried out, the University does not accept liability for any consequences to the student’s progress. However, the University may take these consequences into account, as appropriate and to the extent feasible, in cases where charges are dropped or the student is not found guilty. The consequences arising from an investigation and any negative decision rendered may include retroactive effects on grades or promotion within a program.

5. A student accused of academic misconduct may consult advisors or facilitators. Such advisors may include a representative from a Memorial University of Newfoundland student union, an international student advisor, a faculty advisor, a University counselor or a faculty member who is familiar with these Regulations and who is willing to undertake the role of advisor whether resolution is sought through Procedures for Resolution of Alleged Academic Offences at the Unit Level or Procedures for Resolution of Alleged Academic Offences by the Senate Committee on Undergraduate Studies.

6. Where an allegation of academic misconduct relates to research and the Tri-Agency Framework: Responsible Conduct of Research, as amended from time to time, the Framework applies. These procedures shall be applied in a manner consistent with the minimal requirements of the Framework.

6.11.3 General Procedure

1. When a member of the University community (faculty, staff, student) has grounds for belief that an academic offence has been committed there should be an attempt between the parties concerned to resolve allegations of minor offences. If the alleged offence is not deemed to be minor by the accuser, or resolution proves impossible, or one party is dissatisfied with the resolution, the matter shall be reported, without delay, to the head of the appropriate academic or administrative unit. If resolution is achieved and it is not deemed to be minor by the accuser, or resolution proves impossible, or one party is dissatisfied with the resolution, the matter shall be reported, without delay, to the head of the appropriate academic or administrative unit. If resolution is achieved and it is agreed that an academic offence has been committed, then the offence, together with the penalty applied, shall be reported to the head of the academic or administrative unit.

2. Where resolution is not achieved, and if in the judgment of the head of the academic or administrative unit, the alleged offence warrants resolution at the unit level, the individuals involved will be advised to attempt to resolve the matter through Procedures for Resolution of Alleged Academic Offences at the Unit Level. In the event that no resolution is possible through these procedures between the individual parties, the head of the academic or administrative unit will institute proceedings through the Senate Committee on Undergraduate Studies.

3. If, in the judgment of the head of the academic or administrative unit, the alleged offence against University regulations is such as to warrant resolution through the Senate Committee on Undergraduate Studies, the head of the academic or administrative unit will refer the matter to the Secretary of the Senate Committee on Undergraduate Studies, and Procedures for Resolution of Alleged Academic Offences by the Senate Committee on Undergraduate Studies will be implemented.

4. In all cases, it is the responsibility of the academic or administrative unit to ensure that fairness and impartiality are achieved in the treatment of students.

6.11.4 Academic Offences

1. In the following section the plural shall be deemed to include the singular.

2. Academic offences shall be deemed to include, but shall not be limited to, the following:
6.11.5 Procedures for Resolution of Alleged Academic Offences at the Unit Level

6.11.5.1 General Information

These procedures will not be applied to cases involving alleged offences on final examinations, any other evaluative instruments worth 40% or more of the final grade, allegations of impersonation or allegations of submission of forged documents. Such alleged offences are governed by the Procedures for Resolution of Alleged Academic Offences by the Senate Committee on Undergraduate Studies.

6.11.5.2 Explanation of Procedures

If, upon receiving a report of an alleged academic offence, the head of the academic or administrative unit decides that an attempt should be made to resolve the matter at the unit level, the following procedures shall apply:

1. Normally within one week of notification, the head of the appropriate academic or administrative unit shall request a meeting with the accuser and the accused and at the meeting the head shall state the allegation, review the Procedures for Resolution of Alleged Academic Offences at the Unit Level including the range of applicable penalties, and arrange a second meeting between the accuser and the accused only.

2. At the second meeting the accuser and accused shall endeavour to obtain a mutually satisfactory resolution of the matter.

3. The accuser and accused shall report jointly to the head of the academic or administrative unit on the result of their second meeting.

4. If the report of a resolution which the head of the academic or administrative unit considers to be fair and equitable the matter shall be considered closed. If the head of the academic or administrative unit considers the reported resolution to be unfair and/or inequitable he or she will endeavour to obtain an alternative satisfactory resolution directly with the parties.

5. Should all reasonable efforts to obtain a resolution at the unit level fail, the head of the academic or administrative unit will refer the case to the Secretary of the Senate Committee on Undergraduate Studies and shall inform the accuser and the accused accordingly. From this stage onward Procedures for Resolution of Alleged Academic Offences by the Senate Committee on Undergraduate Studies will apply.

6. At any stage of the Procedures for Resolution of Alleged Academic Offences at the Unit Level, the student may ask that his or her case be referred to the Secretary of the Senate Committee on Undergraduate Studies, and thereafter the Procedures for Resolution of Alleged Academic Offences by the Senate Committee on Undergraduate Studies will apply.

7. Should the accused be found guilty, a brief description of the offence and the penalty(ies) applied shall be forwarded by the head of the academic or administrative unit to the Office of the Registrar.

6.11.5.3 Failure to Appear or Respond

1. If at any stage of the Procedures for Resolution of Alleged Academic Offences at the Unit Level, the accused fails to respond to a charge, without reasonable cause, within two weeks of notification of an allegation, action may be taken on the charge in the absence of the accused.

2. If at any stage of the Procedures for Resolution of Alleged Academic Offences at the Unit Level, the accused fails to appear at a scheduled meeting to defend an allegation, without reasonable cause, the action will be dismissed.

6.11.5.4 Penalties in the Case of Resolution at the Unit Level

A student who has been found guilty of an academic offence will be subject to a penalty or penalties commensurate with the offence. Some cases may warrant more than one penalty for the same offence, and previous academic misconduct will be taken into account in determining the severity of penalties. The range of penalties and their determination are:
1. **Resubmission**: of work with appropriate reduction in grade: will allow a student to complete and submit the work a second time.
2. **Reprimand**: will be in the nature of a warning by the head of the academic or administrative unit to the student that the student's behaviour has been unacceptable to the University.
3. **Reduction of grade**: will apply to an examination, test, or assignment to which an offence is relevant, and will be decided by the head of the academic or administrative unit.

### 6.11.6 Procedures for Resolution of Alleged Academic Offences by the Senate Committee on Undergraduate Studies

#### 6.11.6.1 General Information

If the matter cannot be resolved following the Procedures for Resolution of Alleged Academic Offences at the Unit Level, or if, in the opinion of the head of the academic or administrative unit, the allegation involves a major breach of University regulations, or in cases involving alleged offences on final examinations, evaluative instruments worth 40% or more of the final grade, allegations of impersonation or allegations of submission of forged documents, the following Procedures for Resolution of Alleged Academic Offences by the Senate Committee on Undergraduate Studies shall apply. In the application of these procedures, in the case of students attending Grenfell Campus, the Grenfell Campus Sub-committee of the Senate Committee on Undergraduate Studies shall assume the role and authority defined below for the Senate Committee on Undergraduate Studies.

#### 6.11.6.2 Explanation of Procedures

1. If the head of the academic or administrative unit (in the case of departmentalized faculties, the head in consultation with the dean) is satisfied that the student has a serious allegation to answer, that person shall inform the student in writing or at the official University email address of the student, normally within one week, of the nature of the allegation against him or her. In addition, the head of the academic or administrative unit shall report to the Secretary, Senate Committee on Undergraduate Studies, c/o Office of the Registrar, who will, normally within one week, appoint as an investigator a Chair of a Faculty/School Committee on Undergraduate Studies other than the Chair of that Faculty/School’s Committee. The investigator will interview separately the accuser, the accused and relevant witnesses. At these interviews the investigator, the accuser, the accused and relevant witnesses all have the right to be accompanied by a registered student or a member of the faculty or staff of the University.
2. Upon completion of these interviews, the investigator shall submit a written report of all findings to the Secretary, Senate Committee on Undergraduate Studies, c/o Office of the Registrar. Normally, the report will be submitted within four weeks of appointment as an investigator.
3. The Secretary of the Senate Committee on Undergraduate Studies shall present this report to both the accuser and accused for perusal and comment. Once in receipt of this report, the accuser and accused shall have two weeks in which to submit to the Secretary, Senate Committee on Undergraduate Studies any additional comments on the report that the person wishes to be considered in the deliberations of the Senate Committee on Undergraduate Studies.
4. The Secretary of the Senate Committee on Undergraduate Studies shall present to the Senate Committee on Undergraduate Studies for decision all information received from the investigator as well as comments from the accuser and accused. The investigator shall attend the meeting held to consider the case to answer questions raised by the Senate Committee on Undergraduate Studies and to provide information pertinent to the case, but shall be absent from the voting process.
5. Once a vote is taken, should the accused be found guilty, the Senate Committee on Undergraduate Studies shall take appropriate action in accordance with Penalties in the Case of Resolution by the Senate Committee on Undergraduate Studies.

#### 6.11.6.3 Failure to Appear or Respond

1. If at any stage of the Procedures for Resolution of Alleged Academic Offences by the Senate Committee on Undergraduate Studies, the accused fails to respond to a charge, without reasonable cause, within two weeks of notification of an allegation, action may be taken on the charge in the absence of the accused.
2. If at any stage of the Procedures for Resolution of Alleged Academic Offences by the Senate Committee on Undergraduate Studies, the accused fails to appear at a scheduled interview to defend an allegation, without reasonable cause, the action will be dismissed.

#### 6.11.6.4 Penalties in the Case of Resolution by the Senate Committee on Undergraduate Studies

A student who has been found guilty of an academic offence will be subject to a penalty or penalties commensurate with the offence. Some cases may warrant more than one penalty for the same offence, and previous academic misconduct will be taken into account in determining severity of penalties. Enforcement of penalties resulting from Procedures for Resolution of Alleged Academic Offences by the Senate Committee on Undergraduate Studies will be overseen by the Registrar. In addition to a Reprimand, which shall be in the nature of a warning by the head of the academic or administrative unit to the student that the student’s behavior has been unacceptable to the University, the range of penalties and their determination is:

1. **Reduction of grade**: will apply to an examination, test, or assignment to which an offence is relevant, and will be decided by the Senate Committee on Undergraduate Studies.
2. **Rescinding of scholarships, bursaries or other awards**: the recommendation for rescinding of scholarships, bursaries or other awards will be made by the Senate Committee on Undergraduate Studies to the Senate Committee on Scholarships and Awards for a final decision. The Senate Committee on Undergraduate Studies will notify the accused, in writing or by email, of the recommendation.
3. **Probation**: the period of probation will be determined by the Senate Committee on Undergraduate Studies. The impact of being placed on probation is that the commission of any further academic offence during the period of probation may lead to suspension or expulsion.
4. **Suspension**: will apply to a course, department, faculty, school, or the University. The period of suspension will be determined by the Senate Committee on Undergraduate Studies and shall not exceed six consecutive semesters.
5. **Expulsion**: the recommendation for expulsion from the University will be made by the Senate Committee on Undergraduate Studies to the President of the University for a final decision. Prior to the President’s decision, the Senate Committee on Undergraduate Studies will notify the accused, in writing or by email, of the recommendation for expulsion from the University. The accused will be allowed an opportunity to submit a written statement to the President within two weeks of being notified of the recommendation. The President’s final decision concerning expulsion from the University. Any such appeal should be made in writing or by email to the Senate Committee on Academic Appeals, c/o the Office of the Registrar.
6. **Rescinding of degree**: the recommendation for the rescinding of a degree previously awarded by the University will be made by the
Senate Committee on Undergraduate Studies to Senate for a final decision. Prior to Senate’s decision, the Senate Committee on Undergraduate Studies will notify the accused, in writing, of the recommendation for rescinding of the degree. The accused will be allowed a period of two weeks following the date of release of such notification to lodge an appeal before the Senate’s final decision concerning the rescinding of the degree. Any such appeal should be made in writing to the Senate Committee on Academic Appeals, c/o the Office of the Registrar.

6.11.7 Appeals Against Decisions of the Senate Committee on Undergraduate Studies

Appeals against findings of guilt and/or penalties assigned by the Senate Committee on Undergraduate Studies or the Grenfell Campus sub-Committee can be directed to the Senate Committee on Academic Appeals, c/o The Office of the Registrar in accordance with Appeal of Decisions, The Senate Committee on Academic Appeals.

6.11.8 Transcript Entries Related to Penalties

1. Transcript entries shall relate to the penalty(ies) imposed as follows:

<table>
<thead>
<tr>
<th>Penalty</th>
<th>Transcript Entry</th>
</tr>
</thead>
<tbody>
<tr>
<td>Reprimand</td>
<td>No transcript entry</td>
</tr>
<tr>
<td>Reduction of Grade</td>
<td>Entry of final grade for course</td>
</tr>
<tr>
<td>Probation</td>
<td>“On probation at the University for academic misconduct until [Day, Month, Year]”</td>
</tr>
<tr>
<td>Suspension</td>
<td>“Suspended from the University/Faculty/School/Program/Course for academic misconduct until [Day, Month, Year]”</td>
</tr>
<tr>
<td>Expulsion</td>
<td>“Expelled from the University for academic misconduct effective [Day, Month, Year]”</td>
</tr>
<tr>
<td>Rescinding of Degree</td>
<td>“Degree rescinded for academic misconduct”</td>
</tr>
</tbody>
</table>

2. The transcript entries for “probation” or “suspension” will be removed entirely upon the expiration of the penalty.

6.11.9 Disposition of Documentation

1. The disposition of documents relating to allegations under these procedures shall be as follows:
   - In cases where the accused was not found guilty, none of the documentation shall be retained.
   - In the case of a resolution effected through Academic Misconduct - General Procedure or Procedures for Resolution of Alleged Academic Offences at the Unit Level, a brief description of the offence and the penalty(ies) applied shall be forwarded by the head of the academic or administrative unit to and retained by the Office of the Registrar, separate from the student files.
   - In the case of a resolution effected through the Procedures for Resolution of Alleged Academic Offences by the Senate Committee on Undergraduate Studies, all documentation shall be forwarded to and retained in the Office of the Registrar, separate from the student files.

6.12 Graduation

6.12.1 Application for Graduation - Degrees, Diplomas and Certificates

Students in their graduating year must apply to the Registrar to be admitted to a degree or to be awarded a diploma or certificate. Application must be made through the Student Web/Self-Service at www.mun.ca/regoff. The deadlines for application are listed in the University Diary for the Spring and Fall convocations.

1. No student can be awarded a degree, diploma or certificate unless and until an average of at least 2 points has been obtained on the total number of credit hours required for such degree, diploma or certificate. The degree of Doctor of Medicine is not included in this requirement since all courses comprising the degree are graded on a PAS or FAL basis.

2. It is the duty of the Registrar to certify to the Senate, where appropriate, that students for degrees, diplomas and certificates have met all the regulations and requirements of the University.

6.12.2 Classification of General Degrees

1. General degrees are awarded as “Classified”, “Unclassified” or are not classified, in compliance with such regulations as may be required by the academic unit(s) offering the program(s). Refer to the degree regulations of the academic units for further information.

2. General degrees are awarded in three classes based on the system for granting points set forth in Grading - Letter Grades, Numeric Grades and Points Per Credit Hour, and determined as follows:
   - A student who obtains an average of 3.5 points or better on the total number of credit hours required for the degree shall be awarded the degree with First-Class Standing and provided that all other degree requirements are met.
   - A student who fails to obtain First-Class Standing but who obtains an average of 2.75 points or better on the total number of credit hours required for the degree shall be awarded the degree with Second-Class Standing provided that all other degree requirements are met.
   - All other students will be awarded the degree with Third-Class Standing, provided that they obtain an average of 2 points or better on the total number of credit hours required for the degree and provided that all other degree requirements are met.

3. When a student obtains credit for more credit hours than are required for the degree, his or her total degree points shall include only those received for the credit hours required. In eliminating from the total points those received for credit hours beyond the requirements of the degree, the credit hour(s) for which the student receives the fewest points shall be disregarded, provided that no credit hour is disregarded that is a requisite for the degree.

4. Where a student receives more than one classified bachelor's degree, the class of each degree will be determined independently by applying the scheme set forth in Classification of General Degrees and provided that in determining the points total for each degree only those credit hours may be counted which are applicable towards the degree concerned.

5. A student who has been granted credit for courses completed at Memorial University of Newfoundland before the introduction of the
point system, and/or one who has been given credit for courses completed at another university, will have the class of his or her degree determined by applying the scheme set forth in Classification of General Degrees in proportion to the total of required credit hours completed at Memorial University of Newfoundland since the introduction of the point system.

6. An Unclassified degree will be awarded to a student who has completed at Memorial University of Newfoundland, fewer than one-half of the credit hours required for the degree, or fewer than one-half of the required credit hours since the introduction of the point system. All students shall, however, obtain an average of 2 points or better on the total number of the credit hours required for the degree taken at this University since the introduction of the point system.

7. The following degrees are not classified: Bachelor of Education (Intermediate/Secondary), Bachelor of Engineering, Bachelor of Maritime Studies, Bachelor of Music Education, Bachelor of Post-Secondary Education (as a second degree), Bachelor of Science (Pharmacy), Bachelor of Special Education, Bachelor of Technology, Doctor of Medicine, and all degrees offered by the School of Human Kinetics and Recreation.

6.12.3 Classification of Honours Degrees
1. Honours degrees may be classified or not classified in compliance with such regulations as may be required by the academic unit offering the program. Refer to the appropriate degree regulations of the academic units for further information.

2. A student who has been granted credit for courses completed at Memorial University of Newfoundland before the introduction of the point system, and/or one who has been given credit for courses completed at another university, will have the class of his or her honours degree determined in proportion to the total number of required credit hours completed at Memorial University of Newfoundland since the introduction of the point system.

3. An honours degree awarded a student who has completed at Memorial University of Newfoundland, fewer than one-half of the credit hours required for the degree, or fewer than one-half of the required credit hours since the introduction of the point system, may be Unclassified or not classified.

6.12.4 Diplomas and Certificates
1. Diplomas and certificates are not classified.

6.13 Waiver of Regulations
1. All undergraduate regulations notwithstanding, the University reserves the right, in special circumstances, to modify, alter or waive any regulation in its application to individual students where, in the judgment of the head of the appropriate academic unit or the appropriate committee, merit and equity so warrant. In keeping with the principle that decisions to waive regulations should be made as close as possible to the University office or committee with responsibility for the regulations, requests for waivers, which normally must be made in writing, must be directed as follows:
   - Course Prerequisites or Co-requisites: the head of the academic unit of the course(s) in question.
   - Departmental Regulations: the appropriate committee on undergraduate studies upon the recommendation of the head of the appropriate department.
   - Faculty or School Regulations: the appropriate committee on undergraduate studies. Such waivers shall not reduce the total number of credit hours required for a minor, major, certificate, diploma, or degree program.
   - General Academic Regulations (Undergraduate): the Senate Committee on Undergraduate Studies on the recommendation of the appropriate committee on undergraduate studies. Such waivers shall not reduce the total number of credit hours required for a minor, major, certificate, diploma, or degree program.
   - Scholarships, Bursaries, Awards, Medals and Prizes Regulations: the Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation or request of the head of the appropriate academic unit.

2. Any student whose request for waiver of regulations has been denied has the right to appeal. With the exception of verbal requests for waiver of Course Prerequisites or Co-requisites, the student will be advised in writing of the reasons for the decision and of the avenue of appeal that may be taken. For information regarding the appeal procedure refer to Appeal of Decisions.

6.14 Appeal of Decisions
6.14.1 General Information
1. Every student has the right to appeal decisions resulting from the application of University regulations.

2. Appeals will be considered in the case of health issues, bereavement and/or other acceptable cause, duly authenticated.

3. For assistance in the appeals process, a student is advised to consult with the Office of the Registrar.

4. In preparing an appeal a student may consult advisors. Such advisors may include a representative from a Memorial University of Newfoundland student union, an international student advisor, a faculty advisor, a counsellor or a faculty member who is familiar with the appeals process and who is willing to undertake the role of student advisor or facilitator.

5. Appeals are made before specific committees that exist at the University to provide an objective review of cases. The appeals process is designed to assist a student at critical points in his/her university career, and to provide an accessible and transparent process for a student. A student should refer also to the Routes of Appeal of Academic Regulations below for information concerning where appeals should be directed.

6. The principles of natural justice shall be applied to the appeals processes and decisions. These principles include, but are not limited to, such practices as all parties to the appeal receiving timely and adequate notice, all parties to the appeal having the opportunity to submit arguments and supporting documentation and all parties to the appeal being made aware of the evidence considered by the committee. No person shall sit in judgment on an appeal if that person has any conflict of interest, bias or reasonable apprehension of bias.

7. While the University makes provision for a student to appeal decisions made under University regulations, the academic, financial or other consequences of the appeals process rests with the student.

8. When an appeal is denied, the student shall be advised in writing of the reasons for the decision and if there are further steps that can be taken in the appeals process.

9. A student whose appeal is denied by the Senate Committee on Undergraduate Studies may appeal to the Senate Committee on Academic Appeals. Academic units whose decisions are overturned by the Senate Committee on Undergraduate Studies may appeal to the Senate Committee on Academic Appeals. Decisions of the Senate Committee on Academic Appeals are final and within the University there is no further appeal.
10. Unless the student bringing the appeal requests otherwise, student appeals are heard anonymously by all committees except the Senate Committee on Academic Appeals.

6.14.2 Routes of Appeal of Academic Regulations
1. Normally, the responsibility for making an appeal before the appropriate committee of the University rests with the student.

2. A student who is ineligible to register for courses officially but who wishes to attend classes, laboratories or other educational activities while an appeal is in progress can do so only with the written permission of the academic units offering the courses. Such permission shall not be unreasonably withheld.

3. A student whose request for waiver of regulations has been denied may direct the appeal as described below.
   - Course prerequisites or co-requisites: to the appropriate faculty/school committee on undergraduate studies. No further appeal is possible;
   - Applications to write Deferred Final Examinations: to the appropriate faculty/school committee on undergraduate studies;
   - Program Regulations: to the Senate Committee on Undergraduate Studies, c/o The Office of the Registrar, where the appropriate committee on undergraduate studies denies the request for waiver;
   - General Academic Regulations (Undergraduate): to the Senate Committee on Academic Appeals, c/o The Office of the Registrar;
   - Decisions of the Senate Committee on Undergraduate Studies: to the Senate Committee on Academic Appeals, c/o The Office of the Registrar;
   - Scholarships, Bursaries, Awards, Medals and Prizes Regulations: to the Senate Committee on Academic Appeals, c/o The Office of the Registrar; and
   - Decisions of a Faculty/School under Regulations for Readmission and Advancement, 7. of the Faculty of Education; Promotion Regulations, Other Information, bullet four of the School of Human Kinetics and Recreation; Regulations for the Degree of Doctor of Medicine, Promotion, 6. of the Faculty of Medicine; Promotion Regulations, 6. of the School of Nursing; Promotion Regulations, Other Information of the School of Pharmacy; or Academic Requirements and Promotion Regulations, Promotion Status, Other Information, 1., bullet three of the School of Social Work: to the Senate Committee on Academic Appeals, c/o The Office of the Registrar.

6.14.3 Route for Questioning Grades
1. Grades awarded in individual courses cannot be appealed, as the student shall normally have had the opportunity to contest grades immediately after the release of examination results (see Access to Final Examination Scripts and Rereading of Final Examination Scripts). Dissatisfaction with grades is not sufficient grounds for an appeal.

2. Notwithstanding the above, and recognizing that the awarding of grades is an academic matter within the purview of experts in a discipline or subject area, a student who wishes to question the grades awarded in individual courses may consult with the following in the order given:
   - the course instructor
   - the head of the appropriate academic unit
   - the Dean of the appropriate Faculty/School, Associate Vice-President (Academic) of the Grenfell Campus or Vice-President of the Marine Institute.

1. Except in the case of appeals to the Senate Committee on Academic Appeals, appeals must be made in writing, clearly stating the basis for the appeal, and must be directed to the secretary of the appropriate University committee.

2. In the letter of appeal, the student must clearly and fully provide:
   - name,
   - current address and telephone number,
   - Memorial University of Newfoundland e-mail address,
   - student ID number,
   - the decision being appealed,
   - the grounds of appeal, and
   - the resolution being sought.

3. When providing grounds for the appeal, including health issues, bereavement and/or other acceptable cause, a student must present independent evidence to corroborate statements made in the letter of appeal. Preferably, this evidence will come from a professional, such as a health professional, a counsellor, or a professor. However, certificates from other knowledgeable parties may be acceptable.

4. A student shall include with the letter of appeal any submissions s/he wishes to make in support of the appeal.

5. In cases where an appeal is based on health issues, the student must produce an original certificate from a health professional in the form of a note or letter. Such a certificate must be sufficiently specific to allow appropriate consideration of the student's case. The certificate must also clearly state that, in the opinion of the health professional, the problem was serious enough to have interfered with the student's work. A student should refer to the section below, Information Required in Certificates from Health Professionals, for more complete information.

6. A student claiming bereavement as grounds must provide an obituary notice or death certificate, together with evidence of a close personal relationship between the student and the deceased.

7. Privacy and Confidentiality: The committees to which appeals are made do require substantial information about the reasons for the appeals in order to make their decisions. However, the committees also recognize each student's right to privacy and its obligations, under the Access to Information and Protection of Privacy Act, to safeguard a student's personal information.

6.14.5 The Senate Committee on Academic Appeals
1. Appeals shall be initiated by submitting a written Notice of Appeal, c/o The Office of the Registrar, containing the following:
   - When the Notice of Appeal is from a student:
A student who wishes to complete certificate programs must be admitted to the University as an undergraduate student and comply with 7.1 Admission Requirements with supporting documents (transcripts and course descriptions).

2. A student has previously obtained credit from Memorial University of Newfoundland for any of the courses on a certificate program, s/he will not be required to repeat these courses. To receive exemptions for certificate credit courses, a student must make a written request.

3. A student may receive up to three exemptions for equivalent course work completed through another program or at another institution. If a student has previously obtained credit from Memorial University of Newfoundland.

4. A student is required to meet - Admission/Readmission to the University (Undergraduate) - General Academic Regulations (Undergraduate).

5. The Notice of Appeal should include, in writing, relevant information in support of the appeal.

6. In accordance with the principles of natural justice, students and academic units are entitled to make an oral presentation.

7. Appeals shall be heard either through written submission only or through an oral presentation, as requested. No inferences shall be drawn from the choice.

8. When an appeal is heard by an oral presentation, a student may be accompanied by an advisor (see Appeal of Decisions, General Information). A student may participate in person, or at the expense of the University, by way of teleconference, or by such other means approved in advance by the Committee; however, any expenses incurred by the student are the responsibility of the student.

9. Decisions of the Senate Committee on Academic Appeals are final and within the University there is no further appeal.

10. Information Required in Certificates from Health Professionals

11. A student who requests permission to drop courses, to withdraw from University studies, to have examinations deferred or to obtain other waivers of University, departmental or course regulations based on health issues is required by the University to provide, in support of the request, a certificate from a health professional in the form of a note or letter. Such certificates must be sufficiently specific to allow a proper consideration of a student's case. The University requires that all such certificates must be on letterhead, must be signed by the health professional, must confirm the specific dates on which the student visited the health professional and should include details on the following:

12. The University respects the privacy of students and will keep confidential all such certificates. A student should request that the health professional retain a copy of such a certificate in case the certificate needs to be verified or reissued at a later date.

7 Certificate Programs

Certificate courses are specially designed courses relating to specific areas of study for which no equivalent degree credit course exists and are not applicable towards an existing diploma or degree program.

A student is required to meet UNIVERSITY REGULATIONS - Admission/Readmission to the University (Undergraduate) for entry to Memorial University of Newfoundland.

A student may receive up to three exemptions for equivalent course work completed through another program or at another institution. If a student has previously obtained credit from Memorial University of Newfoundland for any of the courses on a certificate program, s/he will be required to repeat these courses. To receive exemptions for certificate credit courses, a student must make a written request with supporting documents (transcripts and course descriptions).

7.1 Admission Requirements

A student who wishes to complete certificate programs must be admitted to the University as an undergraduate student and comply with the General Academic Regulations (Undergraduate).

7.2 Regulations for a First Certificate

A Memorial University of Newfoundland certificate is awarded to a student who completes certificate program requirements.

1. Every candidate for a certificate shall comply with all the course requirements governing the award of that certificate.

2. Candidates shall complete at this University a minimum of 9 credit hours of the total number of credit hours required for a certificate.

3. No candidate will be awarded a certificate unless s/he has obtained an average of 2 points or better on the total number of credit hours required for the certificate.

7.3 Regulations for a Second Certificate

A student who has completed a certificate program and wishes to complete a second certificate must:
7.4 Program Regulations

For information on the Certificate in Library Studies, contact Mrs. Lorraine Busby, University Librarian by e-mail at lbusby@mun.ca or by telephone to (709) 864-3862.

For information on the Certificate in Business Administration, see the Faculty of Business Administration section. For information on the Certificate in Criminology and the Certificate in Public Policy, see the Faculty of Arts section.

7.4.1 Certificate in Library Studies

This program is currently under review and not available for admission.

The Certificate in Library Studies is for persons working in a library who wish to be more accomplished providers of library services. The program will benefit personnel in school, public, university, medical, legal, and special interest libraries.

7.4.1.1 Regulations for the Certificate in Library Studies

To be eligible for the Certificate in Library Studies, a student must complete the following:

1. Business 2000 or Business 2010; Library Studies 1601, 1602, 1603, 1606, 1609; and
2. Four courses chosen from Library Studies 1604, 1605, 1610, 1611, 2606, 3600, 3601-3609.

In some cases, a student may substitute one elective course that has relevance to his/her area of specialty and the field of library studies. A student may submit his/her request in writing for consideration.

7.5 Certificate Course Descriptions

In accordance with Senate's Policy Regarding Inactive Courses, the course descriptions for courses which have not been offered in the previous three academic years and which are not scheduled to be offered in the current academic year have been removed from the following listing. For information about any of these inactive courses, please contact the Head of the Department.

Certificate courses are especially designed courses relating to specific areas of study for which no equivalent degree credit course exists and are not applicable towards an existing diploma or degree program.

7.5.1 Library Studies

1601 Introduction to Libraries introduces students to the organization, functions, and services in various types of libraries. The course will also cover some aspects of the history of libraries, ethical considerations in library work (freedom of information and access, copyright, and collection development.)

CH: 0

1602 Technical Processing explains the theory and practice of the various aspects of technical processing: acquisitions, cataloguing, classification, serials and circulation.

CH: 0

1603 Reference examines reference services, the reference interview and search strategies. Reference sources, materials and research methods will be examined.

CH: 0

1604 Adult Services covers library services directed towards adults, with an emphasis on the genres of fiction and non-fiction works, the promotion of literacy and leisure reading, and reference tools.

CH: 0

1605 Children's Services looks at fiction and information books appropriate for children from birth to teenage years. Coverage will include library publicity and the promotion of books through children’s programming.

CH: 0

1606 Introduction to Library Technology is intended for those interested in how technology is changing library services and collections. Topics include an introduction to computer hardware, network topography, HTML, Integrated Library Systems, proxy servers, electronic journal procurement, electronic indexes, and evolving user interfaces. It also looks at the way technology has changed the workflow in libraries and the impact that this has had on library organization and staffing.

CH: 0

1609 Managing Libraries is an introduction to the management function in the library setting, including job descriptions, policies and procedures, legal aspects, budgeting, organizational structure and interrelationships, and public relations.

CH: 0

1610 Library Services for Business and Industry focuses on the provision of library services to business and industry, with emphasis on specific strategies for providing information to business and industry users, the role of in-house information services and libraries, and the interaction between the library, management, and administration in business and industry settings.

CH: 0

1611 Multimedia Operations in the Library Setting covers current trends in the information revolution, and their effect on communications in the library setting. Students will be introduced to applications of multimedia to library work, including audiovisual resources, desktop publishing and other software, computer networking, and the creation of promotional materials. The course is intended to be a hands-on introduction to these applications.

CH: 0

2606 Advanced Topics in Library Technology offers an overview of popular technologies like blogs, wikis, web search engines, relational databases, wireless networks, personal computing devices, and XML, with an emphasis on their application in the world of libraries. The course provides a basic understanding of library-specific protocols and standards including the NISO Circulation Interchange Protocol (NCIP), Radio Frequency Identification (RFID), Electronic Data Interchange (EDI), Unicode, and cataloguing schemas for digital objects.

CH: 0

PR: Library Studies 1606

3600 Directed Research/Project - inactive course.

3601-3609 Special Topics in Library Studies examines specific courses developed to meet particular needs, new topics, and current trends in library studies work.

CH: 0

PR: any two Library Studies courses below the 3000 level

8 Non-Academic Regulations

8.1 Discipline

The President may use all means deemed necessary for maintaining discipline. Students found guilty of misbehavior may be suspended or fined on the authority of the President, or expelled from the University by the President on the authority of the Board of Regents. (See the Code of Student Conduct)
8.1.1 Traffic and Parking Regulations On Campus

Students, employees, service personnel, and other persons having a direct association with the University, Health Sciences Centre, or the Fisheries and Marine Institute wishing to park a vehicle in a designated area on campus must obtain a parking permit. Traffic and parking regulations on campus are enforced by Campus Enforcement and Patrol assisted by the Royal Newfoundland Constabulary.

Application forms for vehicle parking permits, copies of the Traffic and Parking Rules and Regulations, and other information pertaining to traffic and parking on campus, are available at the Campus Enforcement and Patrol Office, Facilities Management Building, Room FM1018, or the Health Sciences Centre, Room H2720, or the Fisheries and Marine Institute, Room C2210. Additional Information regarding the Traffic and Parking Rules and Regulations is also available at www.mun.ca/facman/parking_roads.

8.2 Firearms on Campus

Memorial University of Newfoundland prohibits firearms on its campuses.

The attention of all members of the University community is drawn to the section of the University Calendar titled The Memorial University of Newfoundland Code, which articulates the University's commitment to maintaining the highest standards of academic integrity.

2 Student Code of Conduct  
Memorial University of Newfoundland expects that students will conduct themselves in compliance with University Regulations and Policies, Departmental Policies, and Federal, Provincial and Municipal laws, as well as codes of ethics that govern students who are members of regulated professions. The Student Code of Conduct outlines the behaviors which the University considers to be non-academic misconduct offences, and the range of remedies and/or penalties which may be imposed. Academic misconduct is outlined in UNIVERSITY REGULATIONS - Academic Misconduct in the University Calendar. For more information about the Student Code of Conduct, see www.mun.ca/student/conduct/conduct.php.

3 Faculty Description  
The Faculty of Arts offers a wide range of undergraduate and graduate programs in the social sciences and the humanities, offering excellence in both teaching and research. These degree programs examine culture, thought, prehistory and history, human interactions and the social and natural forces that constantly transform our society. An Arts education can provide incomparable advantages. Students gain the critical-thinking, analytical and communication skills needed to succeed and adapt in a changing world. This can lead to exciting, productive careers. One of Memorial University of Newfoundland's largest and most diverse units, the Faculty of Arts is a place where you can study what fascinates you, and pursue a program that suits your aspirations for learning and career. At the graduate level, students find unique programs and the freedom to develop their knowledge and expertise. Our faculty conduct research in a wide variety of areas, making discoveries that foster our understanding of the past, present and future. Our alumni work in a wide variety of fields not only in Newfoundland and Labrador, but also in Canada and the rest of the world. Their services are in demand because they have learned to define and analyze problems, to think creatively, and to communicate to others. Members of the faculty are also actively engaged in the community, whether helping to understand complex problems, working with groups to preserve culture, hosting public lectures and readings, or helping raise awareness of significant issues relevant to the well-being of people and communities. Additional information regarding the Faculty of Arts is available at www.mun.ca/arts.

4 Admission to the Bachelor of Arts General Degree Programs  
These regulations shall also apply to multidisciplinary and interdepartmental programs. In such cases, the student should contact the Program Coordinator or supervisor.

1. Declaration of the Bachelor of Arts as a degree program may be made at the time of application to the University or by means of the DECLARATION/CHANGE OF ACADEMIC PROGRAM form following admission to the University. This form may be obtained at www.mun.ca/regoff/registration/DeclarationChange_AcadProg_ArtsSci.pdf or in-person at the Office of the Registrar.

2. A student who intends to complete a degree in the Faculty of Arts must also declare a Major and Minor (or second Major) chosen according to the Major Program and the Minor Program below. In most cases, this declaration may be made at the time of application to the University or, following admission to the University, by means of the DECLARATION/CHANGE OF ACADEMIC PROGRAM form, which must be submitted to the Office of the Registrar.

3. A student is encouraged to declare a Major and Minor (or second Major) no later than the semester in which they next attend the University following completion of 18 credit hours in courses applicable to their program(s).

4. A student is strongly advised to consult with departments or program coordinators or supervisors before making a declaration to the department or program of his/her intended Major or Minor.

5. In the case of programs with admission requirements which go beyond the general admission requirements of the University, a student should make formal application to the department, coordinator or supervisor after completion of the program's admission requirements. These programs include, but are not restricted to the following: Major in Economics (Co-operative), Major in Political Science (Co-operative), and Major in Psychology.

5 Program Regulations - General and Honours Degrees  
In these regulations, all references to Heads of Departments and Program Supervisors are to be read as "Head of Department or delegate" and "Program Supervisor or delegate."

5.1 Bachelor of Arts General Degree Components  
1. A student for the General Degree of Bachelor of Arts must complete a minimum of 120 credit hours in courses subject to the following regulations.

2. The Bachelor of Arts General Degree consists of the following components:
   a. Core Requirements courses, some of which may also be used to satisfy other components of the Degree;
   b. a Major Program, or alternatively an Honours Program;
   c. a Minor Program, or alternatively a second major;
   d. Electives.

3. A student completing a degree program in the Faculty of Arts normally will follow the degree regulations in effect in the academic year in which the student first completes credit hours at Memorial University of Newfoundland. However, a student may elect to follow subsequent regulations introduced during the student's tenure in the program. In accordance with UNIVERSITY
5.1.1 Academic Advising and Declaring a Bachelor of Arts

A student is encouraged to consult with an academic advisor to discuss academic programs, including the Core Requirements. A student is encouraged to declare a program of study, including a Major and a Minor, before completing the first 45 credit hours of study. Information about declaring a Major and Minor in the Faculty of Arts and a list of advisors are available at www.mun.ca/arts/programs/undergraduate/declare.php.

5.1.2 Core Requirements

The Bachelor of Arts Core Requirements comprise a Breadth of Knowledge Requirement, a Critical Reading and Writing (CRW) Requirement, a Language Study (LS) Requirement, and a Quantitative Reasoning (QR) Requirement. The Core Requirements provide breadth of knowledge and exposure to methodologies that are foundational for a university education, including the development of critical thinking, analytical, and communication skills in different disciplines within the Faculty of Arts. Normally, core requirement courses are offered at the 1000-level or 2000-level, and are intended to be completed early in a student’s program of study. A student is encouraged to complete the CRW, LS, and QR Requirements within the first 45 credit hours.

A student must complete all Core Requirements, subject to the following conditions:

1. Each eligible course may be used towards both the Core Requirements and applicable Major(s) or Minor requirements.
2. A student who is concurrently completing the Bachelor of Commerce (Co-operative) degree should refer to Joint Degrees of Bachelor of Arts and Bachelor of Commerce (Co-operative).
3. Specific (designated) Grenfell Campus courses may be eligible to fulfill the Core Requirements. Art History, Environmental Studies, Humanities, Social/Cultural Studies, and Tourism courses are eligible to fulfill the Breadth of Knowledge Requirement. A designated Writing (W) course is eligible if it is demonstrated that the course follows the CRW course guidelines available at www.mun.ca/arts/crw. A course in a language, other than English, is eligible if it is demonstrated that the course follows the LS course guidelines available at www.mun.ca/arts/ls. A designated Quantitative Reasoning and Analysis (QRA) course is eligible if it is demonstrated that the course follows the QR course guidelines available at www.mun.ca/arts/qr. The Faculty of Arts’ Committee on Undergraduate Studies is responsible for assessing the eligibility of these courses.

A student, in consultation with an academic advisor, is encouraged to follow Table 1 Possible Course Sequencing for the First 45 credit hours of the Bachelor of Arts. A student interested in a Bachelor of Arts Major in Computer Science, Mathematics, Statistics, or Psychology, or in a Minor in an eligible program outside of the Faculty of Arts, should consult an advisor in the appropriate department for suggested course sequencing, in addition to consulting an advisor in the Faculty of Arts.

<table>
<thead>
<tr>
<th>Semester</th>
<th>Suggested Courses</th>
</tr>
</thead>
<tbody>
<tr>
<td>Semester 1 (15 credit hours)</td>
<td>Course #1 (3 credit hours): first course for Critical Reading and Writing (CRW) Requirement should be a 1000-level English CRW course. Course #2 (3 credit hours): first course for Language Study (LS) Requirement. Course #3 (3 credit hours): first course for Quantitative Reasoning (QR) Requirement. Eligible Quantitative Reasoning courses offered at the 3000-level are normally completed after the first 45 credit hours. Courses #4-5 (6 credit hours): choose 1000-level courses as electives. Breadth is encouraged. Consider choosing courses in a possible Major and Minor. Programs without 1000-level courses offer 2000-level courses that are ordinarily completed in the first year of study.</td>
</tr>
<tr>
<td>Semester 2 (15 credit hours)</td>
<td>Course #6 (3 credit hours): second course for Critical Reading and Writing (CRW) Requirement, ideally in an area of study being considered for the Major. This course can be at the 1000-level or 2000-level. Course #7 (3 credit hours): second course for Language Study (LS) Requirement. Course #8 (3 credit hours): second course for Quantitative Reasoning (QR) Requirement. Eligible Quantitative Reasoning courses offered at the 3000-level are normally completed after the first 45 credit hours. Courses #9-10 (6 credit hours): choose additional electives of interest. Breadth is encouraged. Consider declaring a Major and Minor.</td>
</tr>
<tr>
<td>Semester 3 (15 credit hours)</td>
<td>Courses #11-15 (15 credit hours): consider your Major and Minor program requirements, as appropriate. Choose further electives.</td>
</tr>
</tbody>
</table>

5.1.2.1 Breadth of Knowledge Requirement

The Breadth of Knowledge Requirement is designed to ensure that students have exposure to courses in a variety of disciplines and interdisciplinary areas of study within the Humanities and Social Sciences, in order to achieve a well-rounded Arts education. To fulfill the Breadth of Knowledge Requirement, a student must complete a minimum of 6 of the following areas of study in the Humanities and/or Social Sciences, chosen from: Anthropology, Archaeology, Arts, Classics, Communication Studies, Economics, English, Folklore, French, Gender Studies, Geography, German, History, Italian, Law and Society, Linguistics, Medieval Studies, Philosophy, Police Studies, Political Science, Religious Studies, Russian, Sociology, Spanish, University courses, Humanities and/or Social Sciences courses used to meet the CRW, LS, and QR requirements and/or the student’s Major or Minor requirements may also be used towards this requirement.

5.1.2.2 Critical Reading and Writing (CRW) Requirement

The Critical Reading and Writing Requirement (CRW) is designed to ensure that students develop university-level foundational knowledge and skills in critical reading and writing in the Humanities and/or Social Sciences, as described in the CRW course guidelines available at www.mun.ca/arts/crw. To fulfill the Critical Reading and Writing Requirement, a student must complete a minimum of 6 credit hours in foundational Critical Reading and Writing courses. This shall include 3 credit hours in a 1000-level CRW course offered by English, and an additional 3 credit hours in any Faculty of Arts course titled “Critical Reading and Writing in...”: A student is encouraged to complete the second CRW course in another area of study included in the Breadth of Knowledge Requirement,
normally in his/her respective Major or Minor, if available. A Critical Reading and Writing course cannot also be used to fulfill the Language Study Requirement or the Quantitative Reasoning Requirement. Guidelines for CRW courses are maintained by the Committee on Undergraduate Studies.

For the 2015-16 academic year, some courses will maintain their designation as the former Research/Writing (R/W), and may be used towards the Critical Reading and Writing (CRW) Requirement, provided that at least 3 credit hours are obtained in a CRW or R/W course delivered by the Department of English.

5.1.2.3 Language Study (LS) Requirement

The Language Study (LS) Requirement is designed to ensure that students develop university-level foundational knowledge of the structure of a language other than English, and to foster awareness of the inherent link between language and cultural literacy, as described in the LS course guidelines available at www.mun.ca/arts/ls. To fulfill the Language Study Requirement, a student must complete a minimum of 6 credit hours in the study of a single language, other than English, chosen from one of: French, German, Greek (Classics), Hebrew (Religious Studies), Innu-aimun (Linguistics), Inuktitut (Linguistics), Irish Gaelic (Linguistics), Italian, Japanese (Linguistics), Latin (Classics), Mandarin Chinese (Religious Studies), Russian, Spanish, or another language that may be offered by the Faculty of Arts. Not all courses in language departments qualify and a student should refer to the department’s or course’s Calendar entry. The guidelines for LS courses are maintained by the Committee on Undergraduate Studies.

A student with competency in one of these languages should check with the respective department to select appropriate university-level courses. A student whose first language is not English and who does not meet the standards for entry into regular first-year English courses may use English 1020 and 1021 to fulfill this requirement. University-level credit hours earned in the study of a language other than English at other institutions may be eligible for transfer to fulfill this requirement.

5.1.2.4 Quantitative Reasoning (QR) Requirement

The Quantitative Reasoning (QR) Requirement is designed to ensure that students develop university-level foundational knowledge and skills in numeracy, quantitative analysis, logical reasoning involving numbers, and/or the graphical representation of data, as described in the QR course guidelines available at www.mun.ca/arts/qr. To fulfill the Quantitative Reasoning Requirement, a student must complete a minimum of 6 credit hours in foundational Quantitative Reasoning courses, through any combination of the following:

1. Eligible Faculty of Arts courses: Archaeology 2450, Economics 2000-level courses; Geography 1050, 2102, 2195, 2302; Linguistics 2210, 3850; Philosophy 2210, 2211; Political Science 3010, 3350; Sociology 3040, 3041.
2. Eligible courses outside the Faculty of Arts: Computer Science 1000-level and 2000-level courses; Mathematics 1000-level courses, 2050; Psychology 2910, 2911, 2920; Statistics 1510, 2500, 2550.

Some foundation-level Quantitative Reasoning courses have prerequisites and/or are offered at the 3000-level. Such courses will normally be completed after the first 45 credit hours. Guidelines for QR courses are maintained by the Committee on Undergraduate Studies.

5.1.2.5 Previous Calendar Regulations

A student who has completed any course at Memorial University of Newfoundland prior to September 2015 may choose to follow Core Reading and Writing (CRW) Requirement regulations from the corresponding previous edition of the University Calendar. For all students, a course section with the former Research/Writing (R/W) designation that was completed prior to September 2015 may be used to fulfill the second Critical Reading and Writing (CRW) course requirement (i.e., all students must complete at least one English course); identifying eligible R/W courses may require consultation with an academic advisor. For the academic year 2015-16 only, some courses will continue to use the R/W designation.

5.1.3 The Major Program

A Major program is offered by departments, leading to the General Degree of Bachelor of Arts. An alternative to a departmental Major is an Interdisciplinary Major. An alternative to a General Degree is an Honours Degree.

1. A departmental Major Program shall consist of a minimum of 36 to a maximum of 45 credit hours taken in a subject listed in The Major Program or Interdepartmental Major and Minor Programs.
2. Departmental Major Programs are offered by the following departments in the Faculty of Arts: Anthropology, Archaeology, Classics, Economics, English, Folklore, French, Gender Studies, Geography, German, History, Linguistics, Philosophy, Political Science, Religious Studies, Russian, Sociology, Spanish.
3. Bachelor of Arts Major Programs are also offered by the following Faculty of Science departments: Computer Science, Mathematics and Statistics, Psychology. In departments that offer programs leading to either a degree of Bachelor of Arts or a degree of Bachelor of Science, a student is free to choose either degree program and may change from one to the other. A student may not obtain both a Bachelor of Arts and a Bachelor of Science degree in the same Major subject.
4. As an alternative to a departmental Major, interdisciplinary Major programs, administered by the Faculty of Arts, are available and are administered by program coordinators and are described under Interdisciplinary Major and Minor Programs.
5. A student who has completed courses in the area of the Major at another university is required to complete at least 12 credit hours in that subject at Memorial University of Newfoundland.
6. A student must follow the regulations for the Major programs as set forth in the appropriate section of the Calendar.
7. The Head of the Department or Departmental Undergraduate Academic Advisor of the Major program can advise the student on the selection of courses in the Major.

5.1.4 The Minor Program

A Departmental Minor Program shall consist of at least 24 credit hours taken in a subject other than that of the Major and normally chosen from the subjects listed under The Major Program. As an alternative to a departmental Minor, interdisciplinary Arts Minor programs are available and are described under Interdisciplinary Major and Minor Programs.

1. A student must follow the regulations for the Minor program as set forth in the appropriate section of the Calendar.
2. The Head of the Department or Departmental Undergraduate Academic Advisor of the Minor program can advise the student on the selection of courses in the Minor.
3. A student who has completed courses in the area of the Minor at another university is required to complete at least 6 credit hours in that subject at Memorial University of Newfoundland.
4. Up to 12 credit hours in courses offered by a single department as part of an interdisciplinary program may be used to satisfy the requirements for the Minor, provided they are in accordance with the regulations governing that Minor.
5. In addition to the Departmental Minor Program in Arts disciplines and those detailed under the Interdisciplinary Arts Minor Programs, Minors are available through the Faculty of Business Administration, the School of Music, and relevant departments in the Faculty of Science. These programs are governed by regulations which are detailed in the Calendar entries for the Faculty of Business Administration, the School of Music, and relevant departments in the Faculty of Science.

6. As an alternative to a Minor, a student may simultaneously complete a second Major program. The student must follow all General and Departmental or Program Regulations for this Major program.

7. A student from complete more than the minimum required credit hours in the subjects of the Major and/or Minor.

5.1.5 Interdisciplinary Major and Minor Programs

The Faculty of Arts offers undergraduate interdisciplinary Major and Minor programs that consist of courses that deal with a common topic from a variety of departments within the Faculty. This normally prioritizes core courses and is supplemented by other courses that bring different approaches to the study of the subject matter. Each program is administered by a coordinator, who may be supported by a program committee.

5.1.5.1 General Regulations for Interdisciplinary Major and Minor Programs

1. Students shall consult about their interdisciplinary Faculty of Arts program with the designated Program Coordinator.

2. Departmental prerequisites for courses are applicable. This may increase the number of stated courses required for completion of the program. Such courses may be eligible towards other components of the Bachelor of Arts.

3. Normal credit restrictions apply. It is the student’s responsibility to recognize that additional credit may not be obtained for completing two versions of a cross-listed course (i.e., the same course delivered by two or more departments).

4. Courses selected from a minimum of three disciplines within the Faculty of Arts Programs and Regulations shall be required for an interdisciplinary Major or Minor.

5. A Program Coordinator may, in consultation with the Head of the relevant academic unit, request permission from the Committee on Undergraduate Studies for a course to be added to the program. Normally, the addition of a course whose Calendar entry clearly establishes that it is highly relevant to the program shall be approved, and the Committee shall request Senate approval to add the course to the program’s Calendar entry.

5.1.5.2 Interdisciplinary Arts Major Programs

1. A student must follow the regulations for the interdisciplinary Arts Major program as set forth in the appropriate section of the Calendar. Interdisciplinary Arts Major programs are available in Communication Studies, Law and Society, Medieval Studies, and Police Studies.

2. These interdisciplinary Arts Major programs shall require not fewer than 36 and not more than 45 credit hours.

3. A student completing an interdisciplinary Arts Major program must choose a Minor in a single discipline (i.e., offered by a department or another eligible Faculty). Instead of a Minor, a second Major in a single discipline may be pursued; however, only one Major may be interdisciplinary. All General and Departmental or Program Regulations for this second Major program must be followed.

4. A maximum of 12 credit hours from an interdisciplinary Arts Major may be used to satisfy the requirements of a single disciplinary Minor or second Major, provided they are in accordance with the regulations governing both programs.

5. For an interdisciplinary Arts Major, other than courses exclusive to the interdisciplinary program of study (e.g., Law and Society courses used for the Law and Society program), a maximum of 15 credit hours from any one discipline listed in the Faculty of Arts Course Descriptions shall be eligible. No more than 6 credit hours in undergraduate courses which are not listed in the Faculty of Arts Course Descriptions shall be eligible. Students completing such courses are still required to complete the minimum number of Faculty of Arts courses as per Electives below. Courses delivered only at Grenfell Campus shall be treated on a case-by-case basis in the manner prescribed for adding courses in General Regulations for Interdisciplinary Major and Minor Programs.

6. A student who has completed courses in the area of the interdisciplinary Arts Major at another university is required to complete at least 12 credit hours in that subject or in courses applicable to the program at Memorial University of Newfoundland.

7. In Departments which offer programs leading to both a degree of Bachelor of Arts and a degree of Bachelor of Science, a student is free to choose the degree program he/she wishes to follow and may change from one to the other; however, he/she may not obtain both degrees in the same Major subject.

5.1.5.3 Interdisciplinary Arts Minor Programs

1. A student must follow the regulations for the interdisciplinary Arts Minor program as set forth in the appropriate section of the Calendar. Interdisciplinary Arts Minor programs are available in Aboriginal Studies, Film Studies, Law and Society, Medieval Studies, and Newfoundland and Labrador Studies.

2. These interdisciplinary Arts Minor programs shall require not fewer than 24 credit hours.

3. A student completing an interdisciplinary Arts Minor program must choose a single disciplinary Major (i.e., in a single department discipline).

4. A maximum of 6 credit hours from the interdisciplinary Arts Minor may be used to satisfy the requirements of the single disciplinary Major, provided they are in accordance with the regulations governing both programs.

5. For an interdisciplinary Arts Minor, other than courses exclusive to the interdisciplinary program of study (e.g., Law and Society courses used for the Law and Society program), a maximum of 9 credit hours from any one discipline listed in the Faculty of Arts Course Descriptions shall be eligible. No more than 3 credit hours in undergraduate courses which are not listed in the Faculty of Arts Course Descriptions shall be eligible. Students completing such courses are still required to complete the minimum number of Faculty of Arts courses as per Electives below. Courses delivered only at Grenfell Campus shall be treated on a case-by-case basis in the manner prescribed for adding courses in General Regulations for Interdisciplinary Major and Minor Programs.

6. A student who has completed courses in the area of the interdisciplinary Arts Minor at another university is required to complete at least 6 credit hours in that subject or in courses applicable to the program at Memorial University of Newfoundland.

7. In addition to the Departmental Minor Program in Arts disciplines and those detailed under the Interdisciplinary Arts Minor Programs, Minors are available through the Faculty of Business Administration, the School of Music, and departments in the Faculty of Science. These programs are governed by regulations which are detailed in the Calendar entries for the Faculty of Business Administration, the School of Music, and departments in the Faculty of Science.

8. Departmental regulations are not intended to prevent a student from completing more than the minimum required credit hours in the subjects of their Major and Minor.
5.1.6 Electives

1. In accordance with Regulations outlined under Core Requirements, The Major Program and The Minor Program, a student must complete a minimum of 78 credit hours in courses offered by departments within the Faculty of Arts. Faculty of Science courses in Computer Science, Mathematics and Statistics, and Psychology may also be used to satisfy this requirement. However, Science courses may not be used as Humanities or Social Sciences courses towards the Faculty of Arts Breadth of Knowledge requirement.

2. The remaining 42 credit hours (for a total of 120 credit hours required for the degree) will be electives; these may be chosen from offerings in Arts, Science, Business and Music (Musicology and Music Theory and Composition only). A student may include as open electives up to 15 of these 42 credit hours in any subject area offered at Memorial University of Newfoundland, with the exception of courses designated as practical or professional including, but not limited to:
   a. Outdoor Pursuits or Expeditions in Environmental Studies
   b. Internships, Student Teaching or Practicum in Education
   c. Physical Activities and Coaching courses in Human Kinetics and Recreation
   d. Applied Music or Ensemble Techniques in Music
   e. Nursing Practice or Clinical Practicum in Nursing
   f. Structural Practice Experience (SPE) in Pharmacy
   g. Field Placements in Social Work
   h. Master Classes in Fine Arts (Theatre)
   i. Studio Courses in Fine Arts (Visual)

5.1.7 Limit on 1000-Level Credit Hours

Regardless of a student’s program of study, in some academic units there is a limit on the number of 1000-level credit hours, as follows:

1. Students can receive credit for only two English courses at the 1000-level: one of English 1000 or 1080, and one of 1001, 1101, 1102, 1103 or 1110. Students whose first language is not English and who do not meet the standards for entry into regular first-year English courses, and who elect to use English 1020 and 1021 to fulfill the Language Study requirement, may complete up to an additional 6 credit hours in English courses at the 1000-level.

2. Students can receive credit for only two History courses at the 1000-level. These limits also apply to 1000-level unspecified credit hours transferred from other institutions

5.2 Graduation Requirements for the Bachelor of Arts General Degree

1. In order to graduate with the Bachelor of Arts General Degree, a student shall obtain:
   a. an overall average of 60% or higher on the minimum number of courses prescribed for The Major Program and,
   b. an average of 60% or higher on the minimum number of courses prescribed for The Minor Program.

2. Students must apply to graduate by the appropriate deadline through the Memorial Self-Service under the Graduation section. Additional information is available from the Office of the Registrar at www.mun.ca/regoff/graduation/apply_grad.php.

5.3 Bachelor of Arts (Honours) Degree Regulations

1. A program is offered leading to the Honours Degree of Bachelor of Arts. An Honours degree requires, over and above the requirements of the General Degree, a concentration at an advanced level in an approved field, consisting of a subject or subjects of specialization and/or related subjects, and a high quality of work throughout the program. An Honours degree is of distinct advantage to students who plan advanced work or careers in their chosen fields and also to those who have a clear commitment to some special field of study. An Honours degree with first or second class standing is, in many cases, a prerequisite for admission to a graduate program.

2. A student completing a degree program in the Faculty of Arts will normally follow the degree regulations in effect in the academic year in which the student first entered Memorial University of Newfoundland. This is determined by the year of the student number. However, a student may elect to follow subsequent regulations introduced during his/her tenure in the program.

5.3.1 Admission and Registration

1. Admission to Honours programs is competitive and limited, depending upon available resources. A student should consult the criteria established for the program in question. To be considered for admission to an Honours program, a student shall submit an "Application for Admission to Honours" form to the Office of the Registrar. The application may be obtained at www.mun.ca/regoff/Application_for_Admission_to_Honours.pdf. The application must be approved by the Head of the Department or Program Supervisor of the Subject of Specialization before the student can be admitted to the program.

2. A student who wishes to enter an Honours program is strongly advised to consult the Head of the Department or Program Supervisor at the earliest possible date, as it may not be possible to complete the requirements for the degree in the normal time if the decision to embark on the program is delayed beyond the end of the second year.

3. A student who has been awarded the General Degree of Bachelor of Arts may convert it to an Honours Degree of Bachelor of Arts by applying to the department of specialization and the Registrar and, upon approval of such application by the Department, completing the requirements for the Honours degree as set forth in the regulations.

4. Upon entering the program, the student shall be assigned a Faculty Advisor by the Head of the Department or Program Supervisor. The Faculty Advisor will be responsible for advising the student and the Head of the Department or Program Supervisor with respect to the student's program of studies.

5.3.2 Subjects of Specialization

Subjects which may be chosen as Subjects of Specialization for the Honours Degree of the Bachelor of Arts are the following:

1. Those administered by Departments in the Faculty of Arts by the Head of the Department: Anthropology, Archaeology, Classics, Economics, English, Folklore, French, Geography, German, History, Linguistics, Philosophy, Political Science, Religious Studies, Sociology. Departmental Bachelor of Arts Honours Programs are available in and administered by the following Faculty of Science Departments: Computer Science, Mathematics and Statistics, Psychology.
2. Joint Honours Programs: A student may undertake a program of Joint Honours in two Subjects of Specialization.

5.3.3 Course Requirements
A student for the Honours Degree of Bachelor of Arts shall complete a program of studies that shall consist of not fewer than 120 credit hours subject to the following regulations:

1. A student is required to complete the Core Requirements as detailed in the Regulations for the General Degree of Bachelor of Arts. These include:
   a. Breadth of Knowledge Requirement
   b. Critical Reading and Writing (CRW) Requirement
   c. Language Study (LS) Requirement
   d. Quantitative Reasoning (QR) Requirement

2. A student must also:
   a. Pass a general comprehensive examination in a Subject of Specialization. This examination may be written, oral, or a combination of both. The comprehensive examination shall count as 3 credit hours in the Subject of Specialization and/or
   b. Submit an Honours essay on an approved topic which, at the discretion of the Head of the Department or Program Supervisor, may be followed by an oral examination thereon. Normally, the Honours essay will count as 3 credit hours in the Subject of Specialization, or as 6 credit hours in the case of linked (A/B) Honours essays (please consult departmental regulations).

The semester in which the student sits for the comprehensive examination, and/or the semester in which the Honours essay is to be submitted, may be decided by the student after consultation with the Head of the Department or Program Supervisor.

A copy of the Honours essay must be submitted to the University Library upon completion. All Honours essays in the University Library shall be available for unrestricted consultation by students and faculty except under very exceptional circumstances, which must be approved by the Head of the department concerned. Copyright remains with the author. A signed release form must accompany an essay or dissertation when it is submitted to the University Library.

3. Further courses shall be chosen either
   a. in consultation with the Faculty Advisor and with the approval of the Head of the Department or Program Supervisor of the Subject of Specialization. The student's program shall include not fewer than 60 credit hours in courses applicable to the Subject of Specialization, including the comprehensive examination and/or the Honours essay, at least 36 of which must be at the 3000 level or above, and not fewer than 24 credit hours in a Minor subject or program according to the Departmental or Program Regulations covering that Minor, and the total number of credit hours which may be applied to the degree is not fewer than 120; or
   b. in consultation with the Faculty Advisor and with the approval of the Head of the Department or Program Supervisor of the Subject of Specialization. The student's program shall include not fewer than 60 credit hours in courses applicable to the Subject of Specialization, including the comprehensive examination and/or the Honours essay, at least 36 of which must be at the 3000 level or above, and not fewer than 36 credit hours in a Major subject or program according to the Departmental or Program Regulations covering that Major, and the total number of credit hours which may be applied to the degree is not fewer than 120; or
   c. in consultation with the Faculty Advisor and with the approval of the Head of the Department or Program Supervisor of the Subject of Specialization. The student's program shall include not fewer than 42 and not more than 51 credit hours in courses approved for each of the Subject of Specialization, including the comprehensive examination and/or the Honours essay, of which at least 27 shall be at the 3000 level or above in each of the Subjects of Specialization, and the total number of credit hours which may be applied to the degree is not fewer than 120.

4. In the case of Joint Honours, the student may choose the Subject of Specialization for the Honours essay and/or comprehensive examination.

5.3.4 Departmental Regulations
A student for Honours degrees shall also comply with such additional requirements of the appropriate Department(s) as are approved by the Senate and printed in the Calendar.

5.3.5 Academic Standing
In order to graduate with an Honours degree, a student shall obtain:

1. a grade of 70% or better, or an average of 75% or higher in the minimum number of courses (including the required courses in the Honours subject(s)) prescribed by the Department or, in the case of Joint Honours, Departments concerned. A grade of 70% or better must be obtained in the Honours essay and/or comprehensive examinations; and
2. an average of at least 2.75 points on the total number of credit hours in the courses required for the degree. (See General Academic Regulations (Undergraduate), Classification of General Degrees.)

Note: A student who wishes to fulfill the requirements of clause 1. above using repeated or substituted courses must obtain approval of the Head of the Department and the Committee on Undergraduate Studies. The Honours essay and/or comprehensive examinations may not be repeated or substituted.

5.3.6 Classification of Degrees
1. If a student's general average is 3.25 points or better per credit hour in required courses and his/her average is 3.5 points or better per credit hour in the courses in the Honours subject (excluding 1000-level courses), the student shall be awarded an Honours degree with First Class standing.
2. If a student fulfills the conditions of Academic Standing above but not of Regulation 1. under Classification of Degrees, the student shall be awarded an Honours degree with Second Class standing.
3. No classification will be given to the degree awarded a student who has completed (1) fewer than one half of the courses required for the degree at this University, or (2) who has completed fewer than one half of the courses required for the degree at this University since 1959. All students for such degrees shall, however, fulfill the condition of Academic Standing above on the courses taken at this University since September 1959 in order to qualify for the degree.
4. A declared student for an Honours degree who fails to attain the academic standing specified in Academic Standing above but fulfills the academic requirements for a General degree shall be awarded a General degree, the classification of which shall be
5.4 Regulations Governing Co-operative Education Program

See Department of Economics and Department of Political Science

5.5 Joint Degrees of Bachelor of Arts and Bachelor of Commerce (Co-operative)

In order to meet all of the requirements of the Bachelor of Arts and Bachelor of Commerce (Co-operative) degree programs at the same time, students who are completing the joint degrees are strongly advised to follow the Suggested Program of Studies outlined below, to take account of the accompanying advisory notes, and to seek advice from the department or program of their Major in order to ensure that their proposed program is possible within the constraints of course scheduling and prerequisites.

*See General Academic Regulations (Undergraduate), Residence Requirements, Second Degree.

5.5.1 Suggested Program of Studies: Bachelor of Arts and Bachelor of Commerce (Co-operative) Prior to admission to the Bachelor of Commerce (Co-operative) Program

For the joint degrees of Bachelor of Arts and Bachelor of Commerce (Co-operative), students must successfully complete a minimum of 150 credit hours in courses applicable to the degrees. To be eligible for admission to Term 1 of the Bachelor of Commerce (Co-operative) program, an applicant must have successfully completed 30 credit hours with an overall average of at least 65% on the courses comprising those credit hours. The 30 credit hours must comprise:

1. 6 credit hours in English courses which must include either English 1110 or 1021;
2. either Mathematics 1090 and 1000 or Mathematics 1000 and 3 credit hours in one of a language other than English or in the subject of the intended Major program;
3. Economics 2010 and 2020;
4. Business 1000; and
5. 9 additional credit hours in non-Business courses. It is strongly recommended that these 9 credit hours include courses in a language other than English and courses in the subject of the intended Major program as the Bachelor of Arts degree requires 6 credit hours in single language other than English.

Following admission to the Bachelor of Commerce (Co-operative) program, the curriculum is as set out in the Bachelor of Commerce (Co-operative) Curriculum (Completed Jointly With The Degree of Bachelor of Arts) Table.

Please refer to the Calendar entry for the Faculty of Business Administration for complete course descriptions and regulations for the Bachelor of Commerce (Co-operative) degree.

| At least 12 credit hours in Major, Core or elective courses [see Note 3. below] |

**Winter Academic Term 7**

| At least 15 credit hours in Major, Core or elective courses [see Note 3. below] |

*Note 1.* For the Bachelor of Arts degree, at least 6 credit hours in a single language other than English. It is recommended that these 6 credit hours include courses in a language other than English and courses in the subject of the intended Major program.

*Note 2.* The 125 credit hours in courses applicable to the Bachelor of Commerce degree must be completed in the manner described in the Bachelor of Commerce (Co-operative) Curriculum (Completed Jointly With The Degree of Bachelor of Arts) Table.

*Note 3.* The 150 credit hours in courses applicable to the joint degree programs must be completed in the manner described above and as set out in the Bachelor of Commerce (Co-operative) Curriculum (Completed Jointly With The Degree of Bachelor of Arts) Table.
6 Limited Enrolment Courses

Certain course offerings in the Faculty of Arts will be identified as being Limited Enrolment Courses and will be clearly identified as such in the University Timetable. Students who have registered for a Limited Enrolment Course must confirm their registration either (1) by attending at least one of the first three hours of lectures in the course (and the first meeting of any laboratory section of the course, if appropriate); or (2) by notifying the department in writing within the first five university working days of the semester. Students who do not confirm their registration may be dropped from the course on the recommendation of the Head of Department.

7 Diploma Programs Offered in the Faculty of Arts

7.1 Objectives

Diploma programs are of distinct advantage to students who wish to complement their studies in one or more fields of specialization with a program that will help them relate their knowledge to growing sectors of the economy and to areas of increasing social concern. These programs assume and build upon the theoretical knowledge acquired in the completion of an undergraduate degree and will assist in easing the transition of graduates to the workplace.

7.2 Components

Courses satisfying the Honours, Major, Minor and elective components of an undergraduate degree may also be used to satisfy the requirements of a diploma program.

Diploma programs consist of between 24 and 36 credit hours in courses as specified in individual programs, including a field component of 6 credit hours in an approved instructional field placement and/or instructional field courses.

The purpose of the field component of the program is to provide students with an opportunity for practical and instructional field-oriented experiences as a means of broadening and reinforcing the other courses taken in the diploma program. The instructional field component may take a number of forms, depending on the nature of individual programs. Without limiting the generality of the definition, the instructional field component typically includes observation of and instruction in practical techniques and methods and their application, as well as the maintenance and submission of documentation and reports appropriate to the area of study.

Instructional field placements and instructional field courses may not normally be repeated.

7.3 Admission to Diploma Programs

Students seeking information about specific diploma programs should contact the diploma program coordinator, the Office of the Dean of Arts, or the Office of the Registrar.

1. Admission to all diploma programs is competitive and limited, depending upon available resources. For additional requirements stipulated by individual diploma programs, see the appropriate Calendar entry below.

2. All applications for admission or readmission must be submitted to the Office of the Registrar. A complete application package includes an application to the University (for those who have not attended Memorial University of Newfoundland in the preceding semester), an application to the Diploma Program and any other required documentation.

3. Applicants for admission to diploma programs must apply by completing the appropriate form available at www.mun.ca/arts/diplomas/ or from the Office of the Registrar.

7.4 Graduation Requirements

Students must apply to graduate by the appropriate deadline through the Memorial Self-Service under the Graduation section. Additional information is available from the Office of the Registrar at www.mun.ca/regoff/graduation/apply_grad.php.

1. To be eligible for the award of a diploma, a student must have obtained an overall average of 60% or higher in the courses prescribed for that program.

2. A minimum of 9 credit hours in courses prescribed for the diploma program must be completed at this University.

7.5 Diploma in Applied Ethics

Program Coordinator: Dr. P. Trnka, Department of Philosophy.

The Diploma helps to prepare students for the ethical challenges of various professions and for work as ethical consultants and analysts in government and private institutions (e.g., hospitals, businesses, environmental agencies).
7.5.1 Admission Requirements
Admission to the Diploma program is limited and competitive. Applicants with a B.A. or B.Sc. in hand and senior undergraduates will be preferred. Experience working in the health care or environmental sectors is an asset. Students interested in applying to the program should contact the Program Coordinator. Formal application is required and is available at www.mun.ca/arts/programs/undergraduate/diplomas or from the Office of the Registrar.

7.5.2 Program of Study
The Diploma consists of 24 credit hours, including an Instructional Field Placement. A concentration in either bioethics, mental health ethics, or environmental ethics is required: courses toward a concentration must be chosen with the approval of the Program Coordinator.

7.5.3 Course List

7.6 Diploma in Creative Writing
Program Coordinator: Dr. L. Mathews, Department of English

7.6.1 Program Description
The Diploma aims to develop students’ skills in writing in a variety of genres conventionally described as “creative,” such as fiction, poetry, drama, and creative non-fiction. It will also offer students the opportunity to take, as options, courses that provide a background in contemporary literature in these genres.

The eight course, 24 credit hour program will comprise at least five and as many as eight creative writing courses in at least three and as many as four genres. The overall aim of the program is to help students produce work that merits publication. To this end, the focus of the creative writing courses will be on the composition, critiquing, and editing of the students’ own work, and, in both the creative writing and contemporary literature courses, on analysing examples of excellent contemporary writing.

7.6.2 Admission Requirements
As has traditionally been the case, students will compete for admission to individual Creative Writing courses via the portfolio system. The Diploma will be earned by accretion.

7.6.3 Program of Study
Students are required to complete a minimum of 24 credit hours of course work, including at least 15 credit hours from the following:
1. English 3900, English 3901, English 3902, English 3903, English 4910, English 4911, English 4912, and English 4913
2. The remaining courses must be taken from:
   a. additional courses from the above list
   b. one or more special topics courses in Creative Writing
   c. one or more of English 3100, 3155, 3156, 3158, 3160, 3161, 3171, 3172, 3173, 4080, 4270, 4302, 4822
   d. one or more of English 3910, 3911, 3912, 3913, 3914, 3920, 4914
   e. English 3911 and/or English 3912.

7.7 Diploma in Geographic Information Sciences
Program Coordinator: Dr. É. Simms, Department of Geography

The Diploma in Geographic Information Sciences is of interest to students from a broad range of backgrounds. It is a valuable complement to social and natural sciences programs such as anthropology, biology, computer sciences, earth sciences, history, economics, engineering, health and medicine, physical oceanography, environmental sciences and environmental studies. The fields of remote sensing, geographic information systems (GIS) and cartography provide the most effective methods of gathering, managing, analysing and representing geographic information. Remote sensing images provide a resourceful information to observe and study the cultural and physical landscapes. Examples of remote sensing applications include the monitoring of spatial changes, environmental quality evaluation, natural resources exploration, assessment and monitoring, and archaeological site assessment. Geographic information systems enable the compilation, organization and processing of spatial (maps) and non-spatial (text, statistics, graphs) data. Socio-economic, political and environmental management decision-making is supported by the results of GIS analyses and modelling. Cartography involves the compilation, organization and visual representation of spatial information. A variety of geographical information can effectively be communicated through cartography.

7.7.1 Admission Requirements
Admission to the Diploma in Geographic Information Sciences is limited and competitive. Students are advised to notify the program coordinator of their intention to apply for admission into this program. Students who wish to enter this program must apply through the Office of the Registrar by April 1 for Fall semester registration and by October 15 for Winter semester registration. The formal application is available at www.mun.ca/arts/programs/undergraduate/diplomas or from the Office of the Registrar.

To be considered for admission to the Diploma in Geographic Information Sciences, students will normally have completed 24 credit hours, including the courses listed in 1., 2., and 3., with an overall average of at least 65%.
1. Geography 1050 or one 1000-level course in applicant's Bachelor's Major program.
2. Mathematics 1000 or equivalent.
3. Two 1000- or 2000-level core courses in student's Bachelor's Major program, excluding the courses listed in 1. and 2. above.

Students who fulfill the eligibility requirements compete for a limited number of available spaces. Selection is based on academic
7.7.2 Continuation Requirements
To be considered for the field placement courses Geography 4290 and 4919, the students for the Diploma in Geographic Information Sciences will normally have completed at least seven courses required for the program, with an overall average of 65%.

7.7.3 Program of Study
Students are required to complete a minimum of 30 credit hours of courses as listed below.

Note: The course Mathematics 2050 is a prerequisite to some of the fourth year courses required for the Diploma.

7.8 Diploma in Performance and Communications Media

Program Coordinator: J. Skidmore, Department of English
Memorial University of Newfoundland offers a specialized Diploma Program in Performance and Communications Media. This Diploma draws on the expertise of the Drama Specialization, Department of English, Distance Education, Learning and Teaching Support (DELTs), and CBC Television. Students receive an introduction to multi-media in the area of dramatic arts and video techniques. Students will be introduced to the wide applications of stage and video craft through a program of project-oriented courses. Required courses give students specific skills in stage and video craft and enable students to specialize in their own particular practical area of interest.

The Diploma in Performance and Communications Media prepares students to work in the cultural industries in Newfoundland (or other parts of North America). Students with this unique training are better able to work across existing media.

7.8.1 Admissions
Formal application is required and is available at www.mun.ca/arts/programs/undergraduate/diplomas/ or from the Office of the Registrar.

Academic Requirements: Applicants for the Diploma program must satisfy the general admission requirements of the University.

Interviews: In addition to meeting the general requirements of the University for admission to diploma programs, applicants for the Diploma in Performance and Communications Media must undergo an audition/interview to the satisfaction of the Program Coordinator. Enrolment in the Diploma in Performance and Communications Media is limited and competitive. Students are advised to notify the Program Coordinator in their first year if they intend to apply for this Diploma. Formal application normally takes place in the second semester of second year.

7.8.2 Program of Study
1. Students must complete a minimum 18 credit hours of course work in the following required courses with an overall average in these courses of at least 65%: English 3350, English 3351, English 3816, English 4400, English 4401, and English 4402.
2. Students must also complete 6 credit hours in English 5000 - Instructional Field Placement. Admission to this instructional field placement course is by application to the Program Coordinator, normally at least three months before the beginning of the placement, and is limited to students who at the time of admission have completed the six courses listed above with an overall average of at least 65% and who already hold a first degree or are in their final year of a degree program as confirmed by the Office of the Registrar.

7.9 Diploma in Police Studies

Program Coordinator: Dr. A. Hall, Department of Sociology
The Diploma Program in Police Studies is offered to students who are recruit cadets of the Royal Newfoundland Constabulary. The program provides recruit cadets with academic and experiential learning components of a degree program relevant to their future work as police officers.

Police Studies course descriptions are found at the end of the Faculty of Arts section under Course Descriptions, Police Studies.

7.9.1 Admission Requirements
Students wishing to complete the Diploma in Police Studies should consult with the Academic Planning Manager. Information about diploma programs offered by the Faculty of Arts is available at www.mun.ca/arts/programs/undergraduate/diplomas/.

Admission to the Diploma program is limited and competitive. Applicants to the Diploma program must have been accepted as recruit cadets of the Royal Newfoundland Constabulary and satisfy UNIVERSITY REGULATIONS - Admissions/Readmission to the University (Undergraduate). In addition, at the time of admission, applicants must have completed either a university degree in any discipline from a recognized university, or have completed at a post-secondary institution, the equivalent of 15 credit hours, which should normally include 6 credit hours in English, 6 credit hours in Psychology, and 3 credit hours in Sociology.

7.9.2 Continuation Requirements
Students dismissed as recruit cadets by the Royal Newfoundland Constabulary will be required to withdraw from the Diploma in Police Studies.
7.9.3 Program of Study

Following admission to the Diploma program and until completion of all Diploma program requirements, students must normally carry a course load of 15 credit hours in each of the Fall and Winter semesters. Students must complete a total of 36 credit hours as outlined under the Diploma in Police Studies Program Requirements table below.

8 Certificate Programs Offered in the Faculty of Arts

A certificate program in the Faculty of Arts offers a flexible option for students seeking to develop specialized knowledge and competencies. It provides a starting point for further university studies or acts as an adjunct to an undergraduate degree. A certificate program is not designed to satisfy specific employment credentials. A certificate is sufficiently specialized to ensure its academic integrity and normally features at least one required anchor course that is taken at the beginning of the program. The Faculty of Arts offers the Certificate in Criminology and the Certificate in Public Policy.

8.1 Admission

Students seeking information about a certificate program should contact the coordinator of the certificate program, the Office of the Dean of Arts, or the Office of the Registrar.

1. Admission to a certificate program is limited and dependent upon available resources. For additional requirements stipulated by a certificate program, see the appropriate Calendar entry below.

2. All applicants for a certificate program must also be admitted to the University. All applications for admission or readmission to the University must be submitted to the Office of the Registrar. A complete application package includes an application to the University and any other required documentation (for those who have not attended Memorial University of Newfoundland in the three preceding semesters). Details are available under UNIVERSITY REGULATIONS - Admission/Readmission to the University Undergraduate.

3. Applicants for admission to a certificate program must apply by completing the appropriate form available from the Office of the Registrar.

8.2 Components

1. A certificate program is administered by a program coordinator. The coordinator is affiliated with the Faculty of Arts department that is primarily responsible for the program’s administration.

2. A student must follow the regulations for the certificate program as set forth in the appropriate section of the Calendar.

3. A certificate program in the Faculty of Arts consists of between 15 and 21 credit hours in courses as specified by the program. This normally includes a selection of core courses that has been deemed fundamental to the program and a requirement for courses from a minimum of two disciplines. The majority of credit hours in a Faculty of Arts certificate must be comprised of courses listed in the Faculty of Arts Course Descriptions.

4. In some cases, students may be required to complete pre-requisites.

5. Courses offered by the Faculty of Arts satisfying another University program may also be used to satisfy the requirements of a Faculty of Arts certificate program, subject to both programs’ regulations.

6. A student may apply to the Committee on Undergraduate Studies to have a maximum of 3 credit hours from an Honours essay course applied to a certificate program. It must be clearly demonstrated that the entirety of the Honours essay course content is relevant to the program. This may not be used to substitute credit hours in an anchor or core course.

8.3 Graduation Requirements

1. To be eligible for the award of a certificate offered by the Faculty of Arts, a student must have obtained an overall average of 60% or higher in the courses prescribed for that program.

2. A minimum of 9 credit hours in courses prescribed for the certificate program must be completed at this University.

3. A student who has completed a certificate program and wishes to complete a second certificate offered by the Faculty of Arts must:

   a. comply with all course requirements governing the award of that certificate; and

   b. complete at least 9 credit hours beyond those used for the first certificate. The courses which comprise these credit hours must be applicable to the certificate sought.

8.4 Certificate in Criminology

www.mun.ca/arts/programs/undergraduate/certificates/criminology.php

Program Coordinator: Dr. R. Ricciardelli, Department of Sociology

The Certificate in Criminology is designed for those who are interested in the study of criminality, crime, deviance, and the correctional
systems more broadly. Program participants will be introduced to the foundational knowledge related to the Canadian legal system, law, justice and correctional systems, with a provincial and federal focus. They will gain a more complex understanding of the social structures and practices of criminal justice as well as what constitutes positive practice for persons working in corrections or criminal justice more generally. Students will be introduced to the theoretical, legal, methodological, practical, and ethical debates in criminology, which will allow participants to more effectively analyze and understand their work in law enforcement, corrections and rehabilitation. The program will be of particular interest to persons engaged in law enforcement, corrections, social work, and rehabilitation, as well as persons studying society, and individuals seeking work in not-for-profit and charitable organizations that foster positive social growth.

8.4.1 Advising
Throughout their program of study, students for a Certificate in Criminology shall contact the Program Coordinator for assistance with course planning, declaring their program of study, prerequisite and registration issues, and with questions about the eligibility of any courses not listed here. The Coordinator shall normally communicate a tentative schedule of upcoming course offerings to students so that they can plan accordingly.

8.4.2 Declaring the Certificate in Criminology
Students wishing to declare a Certificate in Criminology shall consult with the Program Coordinator to discuss the requirements of the program. Information about declaring a program of study in the Faculty of Arts is available at www.mun.ca/arts/programs/undergraduate/ideclare.php.

8.4.3 Regulations for the Certificate in Criminology
The Certificate in Criminology consists of 21 credit hours as prescribed below. Six credit hours must be at the 3000-level or higher and no more than 15 credit hours shall be in a single discipline:
1. 12 credit hours in Sociology 1000, 2300, 3290 and 3395;
2. 3 credit hours in either Law and Society 1000 or Law and Society 2000 and;
3. 6 additional credit hours at the 2000-level or above chosen from Table 1 Courses Approved for the Certificate in Criminology.

Not all courses are offered every semester. Students are strongly advised to consult with the Program Coordinator for assistance with course planning. Students who complete 3 credit hours in a research methods course in Psychology (2910, 2911, 2920, 2925 (Grenfell Campus only)) or Sociology (3040, 3041) shall, for the purposes of the Certificate, be deemed to have fulfilled 3 credit hours in Sociology 2300.

Students are advised to generally follow the suggested course sequencing presented in Table 2 Suggested Course Sequencing for the Certificate in Criminology.

</tbody>
</table>

8.4.4 Course Prerequisites
Normal course prerequisites will apply. Students should note that Psychology 1000 and 1001 are prerequisites (in addition to the 21 credit hours specified for the certificate) for Psychology 2920.

8.4.5 Regulations Concerning the Former Lifelong Learning Certificate in Criminology
An Arts Certificate in Criminology cannot be awarded to those who have already been awarded a Certificate in Criminology through the former Division of Lifelong Learning.

8.5 Certificate in Public Policy
www.mun.ca/arts/programs/undergraduate/certificates/public_policy.php
Program Coordinator: Dr. C. Dunn, Department of Political Science

The Certificate in Public Policy is designed for those who are interested in the study of governance and policy responses to public issues. The program’s objective is to provide foundational knowledge that is essential for exploring topical issues in diverse policy fields and settings. The program is structured around introductory and advanced core courses in Political Science that promote understanding of the theoretical parameters of public policy, such as the processes and mechanisms that are relied upon to define and solve policy problems. These core skills and competencies are used in the analysis and study of public policy in a variety of interdisciplinary fields. The program is coordinated by the Department of Political Science.

8.5.1 Advising
Throughout their program of study, students for a Certificate in Public Policy are encouraged to contact the Program Coordinator for assistance with course planning, declaring their program of study, prerequisite and registration issues, and with questions about the eligibility of any courses not listed here. The Coordinator liaises with representatives of participating departments, and normally communicates a tentative schedule of upcoming course offerings to students so that they can plan accordingly.
8.5.2 Declaring the Certificate in Public Policy

Students wishing to declare a Certificate in Public Policy are encouraged to consult with the Program Coordinator to discuss the requirements of the program. Information about declaring a program of study in the Faculty of Arts is available at www.mun.ca/arts/programs/undergraduate/declare.php.

8.5.3 Regulations for the Certificate in Public Policy

As part of the Certificate in Public Policy, students must complete a concentration in a policy subfield, which comprises foundation courses up to the 3000-level and is overseen by a designated department. Students are encouraged to take courses in the concentration after completing initial foundation-level courses in public policy offered by the Department of Political Science. A student is not eligible to complete more than one concentration.

The Concentration in Economic Policy is overseen by the Department of Economics. Approved courses feature a foundation-level focus on the interrelationships between public policy, political institutions and economic systems.

The Concentration in Urban and Regional Policy is overseen by the Department of Geography. Approved courses feature a foundation-level focus on public policy concerning broad concepts of regionalism, municipal governance, and sub-national planning.

The Certificate in Public Policy consists of 21 credit hours as follows:

1. 6 credit hours chosen from Political Science 1000, 1010, 2600, 3600, including at least one of Political Science 2600, 3600;
2. 12 credit hours chosen from one of the following designated policy concentrations:
   a. Economic Policy: Economics 2010, 2020 and 6 additional credit hours chosen from Table 1 Approved Courses for the Concentration in Economic Policy, including at least 3 credit hours in Economics at the 3000-level; or
   b. Urban and Regional Policy: Geography 1050, 2302 and 6 additional credit hours chosen from Table 2 Approved Courses for the Concentration in Urban and Regional Policy, including at least 3 credit hours in Geography 3350, 3701; and
3. 3 credit hours in Political Science 4600 or 4630.

Not all courses are offered every semester. Students are strongly advised to consult with the Program Coordinator for assistance with course planning, and to generally follow Table 3 Suggested Course Sequencing for the Certificate in Public Policy.

| First 6 credit hours: Choose from Political Science 1000, 1010, 2600, 3600 (take one or both of 2600, 3600) |
| Next 12 credit hours: Complete a Policy Concentration |
| Last 3 credit hours: Choose from Political Science 4600 or Political Science 4630 |

8.5.4 Course Prerequisites

Many approved courses are suitable for students in all disciplines without a background in the discipline. Other approved courses may have prerequisites.

8.5.5 Regulations Concerning the Former Lifelong Learning Certificate in Public Administration

A student who completed the Certificate in Public Administration or the Certificate in Regional Policy and Development offered by the former Division of Lifelong Learning is also eligible to complete a Faculty of Arts Certificate in Public Policy.
9 Waiver of Regulations for Undergraduate Students

Regulations involving course prerequisites or co-requisites, departmental regulations, and faculty regulations may be waived where circumstances so warrant. The routing of requests for such waivers and the procedure for appealing unfavourable decisions are outlined in the UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate).

10 Harlow Campus Semester

This is an integrated interdisciplinary Arts program offered each Fall semester at the Harlow Campus, England. The content of the program changes each Fall, depending upon the departments involved. Credits for the program equal 15 credit hours, with the allocation of credits to departments changing each Fall. Students wishing to enrol in a Harlow semester must have completed at least 48 credit hours at the university level, and satisfy any prerequisites which may be required. Enrolment is competitive. The relevant admission criteria, as well as other information, may be obtained from the Office of the Dean of Arts.

11 Programs and Regulations

11.1 Aboriginal Studies

www.mun.ca/abst

Program Coordinator: Dr. D. Wharram, Department of Linguistics

The Minor in Aboriginal Studies is an interdisciplinary Arts program that aims to encourage students to understand better the histories, languages, geographies, scientific knowledges, philosophies, and contemporary experiences of Aboriginal peoples throughout the world, and more particularly of those of North America.

11.1.1 Bachelor of Arts Degree Requirements

The Bachelor of Arts requires the successful completion of a minimum of 120 credit hours. A student must meet the requirements for a departmental Major, Minor, or Honours program and also meet the Program Regulations – General and Honours Degrees for the Faculty of Arts. A student is therefore advised to consult with the Admission to the Bachelor of Arts General Degree Programs regulations, the Program Regulations - General and Honours Degrees which also includes the Bachelor of Arts General Degree Components, The Major Program, and The Minor Program regulations. Information regarding honours programs is available at Bachelor of Arts (Honours) Degree Regulations as well as under each department’s regulations.

A student is strongly encouraged to consult with an academic advisor to discuss available programs and requirements in the Faculty of Arts including the Core Requirements, The Major Program, The Minor Program, and the Bachelor of Arts (Honours) Degree Regulations. A student is advised to declare a program of study, including a Major and a Minor, before completing the first 45 credit hours of study. Information about declaring a Major and Minor in the Faculty of Arts and a list of advisors is available at www.mun.ca/arts/programs/undergraduate/declare.php.

11.1.2 Advising

Due to the nature of interdisciplinary programming, students must carefully plan their course selection and regularly consult with the Program Coordinator. Questions about the delivery of a course should be directed to the appropriate academic unit.

11.1.3 Declaring the Interdisciplinary Minor

Students wishing to declare a Minor in Aboriginal Studies shall consult with the Program Coordinator to discuss the requirements of the program. Information about declaring a program of study in the Faculty of Arts is available at www.mun.ca/arts/programs/undergraduate/declare.php.

11.1.4 Regulations for the Interdisciplinary Minor in Aboriginal Studies

1. A Minor in Aboriginal Studies consists of a minimum of 24 credit hours chosen from Table 1 Core Faculty of Arts Courses for the Minor in Aboriginal Studies and Table 2 Other Faculty of Arts Courses for the Minor in Aboriginal Studies below in courses as follows:

   a. as per the General Regulations for Interdisciplinary Major and Minor Programs, courses from a minimum of any three Arts disciplines, and no more than 15 credit hours in any one discipline;

   b. a minimum of 6 credit hours selected from Table 1 Core Faculty of Arts Courses for the Minor in Aboriginal Studies; and,

   c. a minimum of 18 additional credit hours selected from Table 1 Core Faculty of Arts Courses for the Minor in Aboriginal Studies and/or Table 2 Other Faculty of Arts Courses for the Minor in Aboriginal Studies, including a minimum of 6 credit hours at the 3000-level or above. At least one 4000-level course is recommended.

2. As per the General Regulations for Interdisciplinary Major and Minor Programs, students completing a Minor in Aboriginal Studies must choose a single discipline Major.

11.1.5 Course List

1. Interdisciplinary programs provide exposure to courses in various disciplines within the Faculty of Arts. Table 1 courses are Faculty of Arts courses that are fundamental to the program of study. Subject to the program regulations, they may be supplemented with Table 2 courses whose Calendar entry establishes an emphasis on the scholarly study of indigenous peoples, nations and/or knowledge. Not all courses are necessarily offered each year. Students must be careful not to register for different designations of the same course that is crosslisted with different departments. Normal departmental prerequisites for courses are applicable.

2. As per the General Regulations for Interdisciplinary Major and Minor Programs, up to 3 credit hours obtained in undergraduate courses at Memorial University of Newfoundland that are not listed in the Faculty of Arts Course Descriptions may be deemed eligible towards the Minor in Aboriginal Studies. Undergraduate courses not delivered by the Faculty of Arts that have been approved as Table 2 electives include Education 2023, 2202, 2361, 3573, 4020.

11.1.6 Previous Calendar Regulations

In accordance with UNIVERSITY REGULATIONS - Degree and Departmental Regulations, Year of Degree and Departmental Regulations - Faculty of Arts and Faculty of Science, candidates for a Minor in Aboriginal Studies who had completed a 2000-level course or above in Aboriginal Studies prior to September 2014 will normally follow the program regulations in effect at that time. Such students may instead elect to follow the Aboriginal Studies program regulations outlined in this version of the Calendar. These “grandparented” students are encouraged to consult the Program Coordinator for assistance with course selection.

11.2 Anthropology

www.mun.ca/anthro

All students who major in Anthropology will be assisted by a faculty advisor who will help them in planning their academic programs. For this purpose, it is essential that students declare their major at an early stage of their studies.

Anthropology course descriptions are found at the end of the Faculty of Arts section under Course Descriptions, Anthropology and are designated by ANTH.

11.2.1 Bachelor of Arts Degree Requirements

The Bachelor of Arts requires the successful completion of a minimum of 120 credit hours. A student must meet the requirements for a departmental Major, Minor, or Honours program and also meet the Program Regulations – General and Honours Degrees for the Faculty of Arts. A student is therefore advised to consult with the Admission to the Bachelor of Arts General Degree Programs regulations, the Program Regulations - General and Honours Degrees which also includes the Bachelor of Arts General Degree Components, The Major Program, and The Minor Program regulations. Information regarding honours programs is available at Bachelor of Arts (Honours) Degree Regulations as well as under each department’s regulations.

A student is strongly encouraged to consult with an academic advisor to discuss available programs and requirements in the Faculty of Arts including the Core Requirements, The Major Program, The Minor Program, and the Bachelor of Arts (Honours) Degree Regulations. A student is advised to declare a program of study, including a Major and a Minor, before completing the first 45 credit hours of study. Information about declaring a Major and Minor in the Faculty of Arts and a list of advisors is available at www.mun.ca/arts/programs/undergraduate/declare.php.

11.2.2 General Degree

11.2.2.1 Major

The student majoring in Anthropology must meet the requirements listed under Program Regulations - General and Honours Degrees. A minimum of 39 credit hours in Anthropology is required including:

1. Anthropology 1031;
2. 9 credit hours at the 2000-level chosen from any of the Anthropology courses between 2410 and 2416;
3. Anthropology 3300 and 3410;
4. 9 credit hours from Anthropology offerings at the 4000-level, of which one must be Anthropology 4412; and
5. the remaining 12 credit hours are to be chosen from any of the Anthropology 3000-or 4000-level offerings.

11.2.2.2 Minor

A minor in Anthropology requires the completion of 24 credit hours including:

1. Anthropology 1031;
2. 6 credit hours at the 2000 level chosen from any of the Anthropology courses between 2410 and 2416;
3. Anthropology 3410;
4. 6 credit hours from the 4000 level including Anthropology 4412; and
5. 6 credit hours chosen from Anthropology offerings at the 3000 level or above

11.2.3 Honours Degree

1. Admission: see Bachelor of Arts (Honours) Degree Regulations.
2. Students intending an Honours program are required to complete 60 credit hours in Anthropology following the requirements in Major above, but in addition must include either Anthropology 4994 and 4995, or 4996. Thirty-six of the 60 credit hours must be at the 3000 or 4000 level. Students must also meet the requirements of the Program Regulations - General and Honours Degrees.

11.2.4 Regulations for Joint Honours, Anthropology and Another Major Subject

1. Students must fulfill the requirements of the Bachelor of Arts (Honours) Degree Regulations.
2. Students must complete 42 credit hours in Anthropology courses and include the following:
   a. Anthropology 1031;
   b. 9 credit hours at the 2000 level chosen from any of the Anthropology courses between 2410 and 2416;
   c. Anthropology 3300 and 3410;
   d. 9 credit hours in Anthropology courses at the 4000 level including Anthropology 4412; and
   e. 15 credit hours to be chosen from any of the 3000 or 4000 level Anthropology offerings.

11.3 Archaeology

www.mun.ca/archaeology

The Undergraduate Coordinator assists all Archaeology majors and minors in planning their academic programs. For this purpose students should register with the Department at an early stage of their studies.

In addition to the Archaeology core program outlined under General Degree, First Courses, students may wish to follow Table 1 Suggested Course Progression for Bioarchaeology/Archaeological Science Specialization Area of a Major in Archaeology or Table 2 Suggested Course Progression for Historical Archaeology Specialization Area of a Major in Archaeology below.

Archaeology course descriptions are found at the end of the Faculty of Arts section under Course Descriptions, Archaeology and are designated by ARCH.

11.3.1 Bachelor of Arts Degree Requirements

The Bachelor of Arts requires the successful completion of a minimum of 120 credit hours. A student must meet the requirements for a departmental Major, Minor, or Honours program and also meet the Program Regulations - General and Honours Degrees for the Faculty of Arts. A student is therefore advised to consult with the Admission to the Bachelor of Arts General Degree Programs regulations, the Program Regulations - General and Honours Degrees which also includes the Bachelor of Arts General Degree Components, The Major Program, and The Minor Program regulations. Information regarding honours programs is available at Bachelor of Arts (Honours) Degree Regulations as well as under each department’s regulations.

A student is strongly encouraged to consult with an academic advisor to discuss available programs and requirements in the Faculty of Arts including the Core Requirements, The Major Program, The Minor Program, and the Bachelor of Arts (Honours) Degree Regulations. A student is advised to declare a program of study, including a Major and a Minor, before completing the first 45 credit hours of study. Information about declaring a Major and Minor in the Faculty of Arts and a list of advisors is available at www.mun.ca/arts/programs/undergraduate/ideclare.php.

11.3.2 General Degree

11.3.2.1 First Courses

The student majoring in Archaeology must meet the requirements listed under Regulations for the General Degree of Bachelor of Arts. Under these Regulations, a minimum of 36 credit hours in Archaeology is required. Students wishing to concentrate in this option must complete the Required Courses: Archaeology 1030, 2480, 4182, and 4411. In addition, students are required to take 3 credit hours from Group 1 (Core Courses); 9 credit hours from Group 2 (Field and Laboratory Courses); 3 credit hours from Group 3 (Regional Courses); and 6 credit hours from Group 4 (Topical Courses).

Course Groupings for the Archaeology Program:

Required Courses: 1030, 2480, 4182, 4411.
Group 1 (Core Courses): 2430, 2450, 2590.
Group 2 (Field and Laboratory Courses): 3040, 3583, 3585, 3586, 3587, 3591, 3650, 3710, 3800, 3850, 3900, 4151, 4152, 4153, 4171, 4191.
Group 3 (Regional Courses): 2481, 3290, 3291, 3500, 3505, 3510, 3515, 3520, 3525, 3580, 3588, 3592, 3651.
Group 4 (Topical Courses): 3001, 3020, 3536, 3561, 3582, 3584, 3590, 3593, 3594, 3750, 3860, 4041, 4043, 4150, 4172, 4173, 4500, 4994.

#### 11.3.2.2 Minor

A minor in Archaeology may be achieved by completing the following courses: Archaeology 1030 and 2480; 6 credit hours in Archaeology courses at the 3000-level; 3 credit hours in Archaeology courses at the 4000-level, 9 credit hours chosen from Archaeology courses at any level, except Archaeology 2491, 2492 or 2493.

#### 11.3.3 Honours Degree

1. Students intending an Honours program are required to be majors and must complete 60 credit hours in Archaeology, including Archaeology 4994 and Archaeology 4995 (or Archaeology 4996). Students must also meet the Regulations for the General Degree of Bachelor of Arts, and Regulations for the Honours Degree of Bachelor of Arts.

#### 11.3.4 Regulations for Joint Honours, Archaeology and Another Major Subject

1. Students must fulfill the Regulations for the Honours Degree of Bachelor of Arts.
2. Students must complete 42 credit hours in Archaeology courses and include the following:
   a. Archaeology 1030;
   b. Archaeology 2430, 2480 and 3 other credit hours in Archaeology at the 2000 level;
   c. 15 credit hours in Archaeology courses at the 3000 level, chosen in consultation with an Honours supervisor; and
   d. Archaeology 4182 and 4411 and 9 other Archaeology credit hours at the 4000 level, with a grade of “B” or better.
11.4 Classics
/www.mun.ca/classics

11.4.1 Programs and Regulations
Programs of the Department of Classics are designed to acquaint students with the ancient Greek and Roman cultures from which Western Civilization has developed. The Department endeavours to instruct with and utilize the full range of evidence available, including texts in Greek and Latin as well as material culture. Furthermore, it is understood that a degree of access can often be achieved by studying antiquity through translated sources. The Department therefore is committed to offering a wide range of courses and programs designed to explore the many aspects of the discipline.

Classics course descriptions are found at the end of the Faculty of Arts section under Course Descriptions, Classics and are designated by CLAS.

11.4.2 Bachelor of Arts Degree Requirements
The Bachelor of Arts requires the successful completion of a minimum of 120 credit hours. A student must meet the requirements for a departmental Major, Minor, or Honours program and also meet the Program Regulations – General and Honours Degrees for the Faculty of Arts. A student is therefore advised to consult with the Admission to the Bachelor of Arts General Degree Programs regulations, the Program Regulations - General and Honours Degrees which also includes the Bachelor of Arts General Degree Components, The Major Program, and The Minor Program regulations. Information regarding honours programs is available at Bachelor of Arts (Honours) Degree Regulations as well as under each department’s regulations.

A student is strongly encouraged to consult with an academic advisor to discuss available programs and requirements in the Faculty of Arts including the Core Requirements, The Major Program, The Minor Program, and the Bachelor of Arts (Honours) Degree Regulations. A student is advised to declare a program of study, including a Major and a Minor, before completing the first 45 credit hours of study. Information about declaring a Major and Minor in the Faculty of Arts and a list of advisors is available at www.mun.ca/arts/programs/undergraduate/ideclare.php.

11.4.3 General Degree

11.4.3.1 Major in Classics
Candidates for a Major in Classics are advised to choose their program in consultation with the Department.

The major program consists of a minimum of 39 credit hours in Classics courses in accordance with the following:
1. Either Classics 1120 and 1121 or Classics 1130 and 1131;
2. at least 3 credit hours at the 4000 level;
3. an additional 12 credit hours at the 3000 level or above; and
4. an additional 18 credit hours at any level. With the exception of language courses (CLAS 1120, 1121, 1130, 1131), no more than 6 1000-level credit hours may be counted towards the major.

11.4.3.2 Minor in Classics
The Minor program in Classics consists of a minimum of 24 credit hours in Classics courses in accordance with the following:
1. At least 3 credit hours at the 3000 level or above;
2. With the exception of language courses (CLAS 1120, 1121, 1130, 1131), no more than 6 1000-level credit hours may be counted towards the minor.

11.4.4 Honours Degree

11.4.4.1 Honours Degree in Classics
Students for Honours in Classics shall consult the Department before finalizing their program.
1. Classics 1120 and 1121 and Classics 1130 and 1131;
2. At least 9 credit hours selected from Classics 2200, 2300, 3200, and 3300;
3. Classics 4999;
4. At least 36 additional credit hours in Classics at the 3000 level or above, of which 18 must be in Latin or Greek. Classics 2302 may be substituted for a course at the 3000 level.

11.4.4.2 Joint Honours in Classics
Classics may be combined with another subject to form a Joint Honours program. The Joint Honours Program in Classics shall include at least 51 credit hours in Classics, including the following.
1. Classics 1120 and 1121 or Classics 1130 and 1131;
2. At least 6 credit hours selected from Classics 2200, 2300, 3200, and 3300;
3. At least 30 additional credit hours in Classics at the 3000 level or above, of which at least 15 must be in Greek or Latin. Classics 2302 may be substituted for courses at the 3000 level; and
4. A further 9 credit hours in Classics.

11.4.4.3 Honours in Greek and Roman Studies
Students for Honours in Greek and Roman Studies shall consult the Department before finalizing their program.
1. One of following: Classics 1050, 1051, 1052, 1100 or 1200;
2. Either a. or b.:
   a. Classics 1120 and 1121
   b. Classics 1130 and 1131
3. 15 credit hours in courses at the 2000 level;
112 Faculty of Arts 2015-2016

4. 36 credit hours in courses at the 3000 level or above, including 4999.

11.4.4.4 Joint Honours in Greek and Roman Studies
Greek and Roman Studies may be combined with another subject to form a Joint Honours program. The Joint Honours Program in Greek and Roman Studies shall include at least 51 credit hours in Classics.
1. One of following: Classics 1050, 1051, 1052, 1100 or 1200;
2. Either a. or b.:
   a. Classics 1120 and 1121
   b. Classics 1130 and 1131
3. 15 credit hours in courses at the 2000 level;
4. 27 credit hours in courses at the 3000 level or above.

11.5 Communication Studies
www.mun.ca/cmst
Program Coordinator: Dr. E. Warkentin, Department of German and Russian
The Major in Communication Studies is an interdisciplinary Arts program that aims to provide explanatory frameworks and critical methodologies, drawn from a variety of disciplines, for understanding how communication and media are integral to the changing relationships between a variety of agents and agencies, from the individual to the nationstate and from personal interactions to international relations. Core courses in Communication Studies are intended to integrate the material and provide a common focus at the beginning and the end of the program.
Communication Studies course descriptions are found at the end of the Faculty of Arts section under Course Descriptions, Communication Studies and are designated by CMST.

11.5.1 Bachelor of Arts Degree Requirements
The Bachelor of Arts requires the successful completion of a minimum of 120 credit hours. A student must meet the requirements for a departmental Major, Minor, or Honours program and also meet the Program Regulations – General and Honours Degrees for the Faculty of Arts. A student is therefore advised to consult with the Admission to the Bachelor of Arts General Degree Programs regulations, the Program Regulations - General and Honours Degrees which also includes the Bachelor of Arts General Degree Components. The Major Program, and The Minor Program regulations. Information regarding honours' programs is available at Bachelor of Arts (Honours) Degree Regulations as well as under each department's regulations.

A student is strongly encouraged to consult with an academic advisor to discuss available programs and requirements in the Faculty of Arts including the Core Requirements. The Major Program, The Minor Program, and the Bachelor of Arts (Honours) Degree Regulations. A student is advised to declare a program of study, including a Major and a Minor, before completing the first 45 credit hours of study. Information about declaring a Major and Minor in the Faculty of Arts and a list of advisors is available at www.mun.ca/arts/programs/undergraduate/declare.php.

11.5.2 Advising
Due to the nature of interdisciplinary programming, students must carefully plan their course selection and regularly consult with the Program Coordinator. Questions about the delivery of a course should be directed to the appropriate academic unit.

11.5.3 Declaring the Interdisciplinary Major in Communication Studies
Students wishing to declare a Major in Communication Studies shall consult with the Program Coordinator to discuss the requirements of the program. Information about declaring a program of study in the Faculty of Arts is available at www.mun.ca/arts/programs/undergraduate/declare.php.

11.5.4 Regulations for the Interdisciplinary Major in Communication Studies
1. A Major in Communication Studies consists of all of the requirements of the Bachelor of Arts program, including a minimum of 36 credit hours chosen from Tables 1 and 2 below in courses as follows:
   a. as per the General Regulations for Interdisciplinary Major and Minor Programs, courses from a minimum of any three Arts disciplines, and no more than 15 credit hours in any one Arts discipline other than Communication Studies;
   b. a minimum of 18 credit hours chosen from Table 1 Core Faculty of Arts Courses Approved for the Major in Communication Studies, ideally Communication Studies courses, which must include CMST 2000, 2001, 4000; and
   c. a minimum of 18 additional credit hours chosen from Table 1 Core Faculty of Arts Courses Approved for the Major in Communication Studies and/or Table 2 Other Faculty of Arts Courses Approved for the Major in Communication Studies, including a minimum of 15 credit hours at the 3000-level or above, including at least one 4000-level course. This may include up to 9 credit hours chosen from courses eligible for the Minor in Film Studies (see Table 1 Faculty of Arts Courses for the Minor in Film Studies).
2. As per the General Regulations for Interdisciplinary Major and Minor Programs, students completing a Major in Communication Studies are ineligible for an interdisciplinary Minor in any program.

11.5.5 Course List
1. Interdisciplinary programs provide exposure to courses in various disciplines within the Faculty of Arts. Table 1 courses are Faculty of Arts courses that are fundamental to the program of study. Subject to the program regulations, they may be supplemented with Table 2 courses whose Calendar entry establishes an emphasis on the questioning and analysis of media and technology, prioritize how communication relates to social and cultural practices, and/or focus on the mass circulation of ideas and values about culture. Not all courses are necessarily offered each year. Students must be careful not to register for different designations of the same course that is crosslisted with different departments. Normal departmental prerequisites for courses are applicable.
2. As per the General Regulations for Interdisciplinary Major and Minor Programs, up to 6 credit hours obtained in undergraduate courses at Memorial University of Newfoundland that are not listed in the Faculty of Arts Course Descriptions, may be deemed eligible towards the Major in Communication Studies. Undergraduate courses not delivered by the Faculty of Arts that have been approved as Table 1 electives include Computer Science 2000 and as Table 2 electives include Music 2011, 3019.

11.5.6 Previous Calendar Regulations

In accordance with UNIVERSITY REGULATIONS - Degree and Departmental Regulations, Year of Degree and Departmental Regulations - Faculty of Arts and Faculty of Science, candidates for a Major in Communication Studies who had completed a 2000-level course or above in Communication Studies prior to September 2014 will normally follow the program regulations in effect at that time. Such students may instead elect to follow the Communication Studies program regulations outlined in this version of the Calendar. These “grandparented” students are encouraged to consult the Program Coordinator for assistance with course selection.

11.6 Computer Science

For Departmental Regulations and Course Descriptions, see Faculty of Science section of the Calendar.

The following undergraduate programs are available in the Department of Computer Science:

1. Applied Mathematics and Computer Science Joint Major (B.Sc. only)
2. Computer Internship Option (CIIO) (B.Sc. and B.Sc. Honours only)
3. Computer Science and Economics Joint Major (B.Sc. Only)
4. Computer Science and Geography Joint Honours (B.Sc. only)
5. Computer Science/ and Geography Joint Major (B.Sc. only)
6. Computer Science and Physics Joint Honours
7. Computer Science and Physics Joint Major
8. Computer Science and Pure Mathematics Joint Honours (B.Sc. only)
9. Computer Science and Pure Mathematics Joint Major (B.Sc. only)
10. Computer Science and Statistics Joint Honours
11. Computer Science and Statistics Joint Major (B.Sc. only)
12. Honours in Computer Science (B.A., B.Sc.)
13. Honours in Computer Science (Software Engineering) (B.Sc. only)
14. Major in Computer Science (B.A., B.Sc.)
15. Minor in Computer Science (B.A., B.Sc.)

11.7 Economics

www.mun.ca/econ

The following programs are available in the Department:

1. Major in Economics (B.A. or B.Sc.)
2. Honours in Economics (B.A. or B.Sc.)
3. Honours in Economics (Co-operative) (B.A. or B.Sc.)
4. Minor in Economics
5. Joint Programs (B.Sc. Only)
6. Joint Program (Co-operative) (B.Sc. Only)
7. Major in Economics (Co-operative) (B.A. or B.Sc.)

Economics course descriptions are found at the end of the Faculty of Arts section under Course Descriptions, Economics and are designated by ECON.

11.7.1 Bachelor of Arts Degree Requirements

The Bachelor of Arts requires the successful completion of a minimum of 120 credit hours. A student must meet the requirements for a departmental Major, Minor, or Honours program and also meet the Program Regulations – General and Honours Degrees for the Faculty of Arts. A student is therefore advised to consult with the Admission to the Bachelor of Arts Degree Programs regulations, the Program Regulations - General and Honours Degrees which also includes the Bachelor of Arts General Degree Components, The Major Program, and The Minor Program regulations. Information regarding honours programs is available at
Bachelor of Arts (Honours) Degree Regulations as well as under each department’s regulations.
A student is strongly encouraged to consult with an academic advisor to discuss available programs and requirements in the Faculty of Arts including the Core Requirements, The Major Program, The Minor Program, and the Bachelor of Arts (Honours) Degree Regulations. A student is advised to declare a program of study, including a Major and a Minor, before completing the first 45 credit hours of study. Information about declaring a Major and Minor in the Faculty of Arts and a list of advisors is available at www.mun.ca/arts/programs/undergraduate/declare.php.

11.7.2 Admission Regulations (B.Sc.)
Students are normally admitted to the B.Sc. Program upon successful completion of 30 credit hours which must include:
1. Six credit hours in English courses
2. Six credit hours in Mathematics courses

11.7.3 Major in Economics (B.A. or B.Sc.)
1. Students may Major in Economics as part of either a B.A. or a B.Sc program. See the Regulations for the General Degree of Bachelor of Arts and B.Sc. Degrees as appropriate.
2. Economics 2010 and 2020 are prerequisites for all other Economics courses except Economics 2070.
3. Economics 2550, 3000 and 3010 are prerequisites for all 4000-level courses.
4. Students shall consult with the Head of the Department or delegate when choosing courses for a Major in Economics.
5. Mathematics 1000 or its equivalent is the prerequisite for Economics 3000, 3010, and 3550.
6. B.A. students who undertake a Major in Economics shall complete Statistics 2500 and at least 39 credit hours in courses in Economics of which:
   a. 2010, 2020, 2550, 3000, 3001, 3010 and 3550 are obligatory.
   b. Eighteen credit hours shall be chosen from among the various Economics courses in consultation with the Head of the Department or delegate, and will include at least 9 credit hours in courses at the 4000-level.
   c. Students may, with the approval of the Head of the Department or delegate, substitute Statistics 2550 for Statistics 2500.
7. B.A. students majoring in Economics shall complete a minor of 24 credit hours in one other approved subject, or a second Major in accordance with Regulations for the General Degree of Bachelor of Arts. It is recommended that the Minor or second Major be chosen from the following subjects: Business, Mathematics, Political Science, Statistics, Computer Science, History, Geography, Philosophy, Sociology, or Anthropology.
8. B.Sc. students who undertake a Major in Economics shall complete at least 42 credit hours in courses in Economics of which:
   a. 2010, 2020, 2550, 3000, 3001, and 3010 are obligatory.
   b. Six credit hours shall be chosen from either 3550 and 3551, or 4550 and 4551.
   c. Eighteen credit hours shall be chosen from among the various Economics courses in consultation with the Head of the Department or delegate, and will include at least 9 credit hours in courses at the 4000-level.
9. B.Sc. students must complete credits from other Science disciplines as follows:
   a. Mathematics 1000, 1001, and 2050
   b. Statistics 2550, or its equivalent, and an additional 3 credit hours of Statistics
   c. Computer Science 1700, and an additional 3 credit hours of Computer Science. With the approval of the Head of the Department or delegate, students may substitute another 1000-level Computer Science course for Computer Science 1700. Minors in Computer Science should enroll in Computer Science 1710.
   d. At least 3 credit hours in an additional science subject other than Mathematics/Statistics, Economics, and Computer Science

11.7.4 Honours in Economics (B.A. or B.Sc.)
1. See the General Regulations for the B.A. and B.Sc. (Honours) Degrees.
2. All students shall consult with the Head of the Department or delegate when choosing courses for an Honours program.
3. All students shall complete all non-Economics courses required of B.A. or B.Sc. Majors, and at least 60 credit hours in courses in Economics, of which 2010, 2020, 2550, 3000, 3001, 3010, 3011, 3550, 3551, 4550 and 4551 shall be chosen.
4. Twenty-four credit hours in electives in Economics shall be chosen in consultation with the Head of the Department or delegate, including at least 9 credit hours in courses at the 4000-level. In addition, all Economics Honours students are required to write an essay.

11.7.5 Minor in Economics
1. Economics 2010, 2020, 3000, and 3010 are obligatory.
2. Mathematics 1000 or its equivalent is the prerequisite for Economics 3000, 3010 and 3550.
3. Twelve credit hours in Economics electives shall be chosen in consultation with the Head of the Department or Delegate.
4. Course prerequisites stipulated in the General Degree regulations and in the course descriptions shall apply to a Minor in Economics.

11.7.6 Joint Programs
Programs for Joint Majors in Economics and Computer Science, Pure Mathematics, Applied Mathematics or Statistics, and a Joint Major in Statistics and Economics (Co-operative) are found under the heading Joint Programs in the entry for the Faculty of Science.
Students who wish to take a Joint Major in Economics and Computer Science, Mathematics or Statistics must arrange their program in consultation with the heads of the respective departments and comply with the General Regulations for the Majors Degrees.
11.7.7 Major in Economics (Co-operative) (B.A. or B.Sc.)

11.7.7.1 Economics Co-operative Education Option (ECEO)

This ECEO Program is available to full-time Economics majors (B.A. and B.Sc.) only. The ECEO provides an excellent mutual opportunity for students and employers. Qualified students will obtain rewarding employment experience in fields related to Economics for several months of continuous duration. Students will learn valuable practical skills in an employment situation during their course of study. Furthermore, paid employment will help to defray the cost of their education. The objectives of the Work Term component of the ECEO are embodied in the Work Term descriptions found under Course Descriptions, Economics, Work Terms. The descriptions serve to guide the student and the employer toward achieving these objectives.

1. Admission Requirements
   a. Admission is competitive and selective. Therefore, prospective students are encouraged to consider an alternate degree program in the event that they are not accepted into the Co-operative program.
   b. Applicants should note that it is possible to enter Term 1 only in the Fall semester commencing in September of each academic year. Application forms are available online at www.mun.ca/econ/programs/economics_coop_educ_application.php or in the Department of Economics.
   c. The primary criterion used in reaching decisions on applications for admission is overall academic achievement. Students with weak overall academic records are unlikely to be admitted.
   d. To be eligible for admission to Term 1 an applicant must have successfully completed a minimum of 30 credit hours with an overall average of at least 65% as follows: All applicants must have completed Economics 2010 and 2020; at least 6 credit hours in English*; Mathematics 1000; and 15 credit hours chosen from courses in the Faculties of Arts** Business or Science. B.Sc. applicants must have completed Mathematics 1001.
      *It is recommended that students complete English 1110 as one of these English courses.
      **It is also advised that B.A. students choose courses which can satisfy the requirements for the Core Program (see Regulations for the General Degree of Bachelor of Arts for these requirements), including courses in a second language.
   e. Students who have already completed more than the 30 credit hours that are required for admission to the program may apply for entry into the program with Advanced Standing into a Term beyond Term 1. Students with Advanced Standing will be placed in that term of the program judged to be appropriate considering the number of credit hours.
   f. Transfer students from other universities will be placed in that term of the program judged to be appropriate considering equivalent credits, as determined by the Department.

2. Program of Study
   a. Promotion from each Term requires a passing grade in all specified required courses and an overall average of at least 60% in all courses including electives. A student who fails a required course or fails to maintain the overall average of 60% will not be promoted to the next term and will be required to withdraw from the program. The student in question may apply for readmission in the subsequent year after passing the specified required course(s) previously failed, or re-establishing the 60% average.
   b. In addition to the 30 credit hours required for admission, students are required to complete a total of 120 credit hours and three Work Terms. Students wishing to change the sequence of the work terms must first consult with the Co-op Coordinator and receive written approval from the Head of the Department or delegate. Students must complete their program on an academic term.
   c. UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate) Classification of Students, notwithstanding, students do not require special permission to register for courses while on work terms if the courses are in addition to the prescribed program.

3. Work Term Placement
   a. General management of the work terms in the ECEO is the responsibility of Co-operative Education. It is responsible for assisting potential employers to become involved in the program, organizing competitions for Work Term employment, arranging student-employer interviews and facilities, data base management, and for the continual development of employment opportunities. The program coordinator (hereafter referred to as coordinator) is an Academic Staff member who will work with the department to counsel students, visit students on their work assignments and evaluate the work term.
   b. Work placement is not guaranteed but every effort is made to ensure that appropriate employment is made available. In the case of students who are required to withdraw from the program, the DCE has no responsibility for placement until they have been re-admitted to the program.
   c. A student who applies for admission to the co-op program gives permission to the University to provide a copy of the applicant’s resume, university transcript and work term evaluations to potential employers.
   d. A student who has been accepted to the ECEO program may obtain his/her own work term placement outside the competition. Such employment positions must be confirmed by the employer, and must be approved by the coordinator.
   e. Students are expected to submit, within a month from starting a Work Term, a plan of the intended work that term.
   f. Salaries paid to co-operative students are determined by employers based on their internal wage structures, and tend to increase as the student progresses through the program and assumes more responsibility. However, students should not expect the income from work terms to make them completely self-supporting.

4. Registration and Evaluation of Performance
   b. Student performance evaluations are to be completed by the employer and returned to the coordinator. The Work Term evaluations shall consist of two components:
      i. On-the-job Student Performance:
         Job performance shall be assessed by the coordinator in consultation with the department using information gathered during the Work Term and input from the employer towards the end of the Work Term. Formal written documentation from the employer shall be sought. Evaluation of the job performance will result in one of the following classifications: OUTSTANDING, ABOVE EXPECTATIONS, SATISFACTORY, MARGINAL PASS, FAIL.
ii. The Work Report:
   - Students are required to submit a Work Term report to the coordinator on the first day of final exams.
   - Work Term reports shall be evaluated by a faculty member and the coordinator.
   - If an employer designates a report to be of a confidential nature, both employer and the coordinator must agree as to the methods to protect the confidentiality of such a report before the report may be accepted for evaluation.
   - Reports must contain original work related to the Work Term placement. The topic must relate to the work experience and will be chosen by the student in consultation with the employer. The topic must be approved by the coordinator or a faculty member of the Department of Economics.

Evaluation of the work term will result in one of the following classifications: OUTSTANDING, ABOVE EXPECTATIONS, SATISFACTORY, MARGINAL PASS, FAIL.

The evaluation of the job performance and the work term report are recorded separately on the transcript. Overall evaluation of the work term will result in one of the following final grades being awarded:
   - Pass with Distinction: Indicates OUTSTANDING PERFORMANCE in both the work report and the job performance.
   - Pass: Indicates that PERFORMANCE MEETS EXPECTATIONS in both the work report and the job performance.
   - Fail: Indicates FAILING PERFORMANCE in the work report or the job performance.

For promotion from the Work Term, a student must obtain at least a Pass. Students should also refer to the UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate) of the University.

The grades awarded for each work term will be noted on the transcript of the student.

c. If a student fails to achieve the Work Term standards specified above the student will be required to withdraw from the program.
   - Such a student may reapply to the program after a lapse of two semesters, at which time the student will be required to repeat the Work Term with satisfactory performance before being admitted to any further academic term in the Faculty. A given work term may be repeated only once, and not more than two work terms may be repeated in the entire program.

d. In order to be considered for readmission, students must formally apply for readmission to the program not later than the deadline date specified in Clause b. of the Admission section 1. above.

e. A student who withdraws from a Work Term without acceptable cause subsequent to a job placement will be required to withdraw permanently from the Co-operative education program. Students who drop a Work Term without prior approval from both the coordinator and the Head of the Department of Economics, or who fail to honour an agreement to work with an employer, or conduct themselves in such a manner as to cause their discharge from the job will normally be awarded a failed grade for the Work Term in question. Permission to drop a Work Term does not constitute a waiver of degree requirements, and students who have obtained such permission must complete an approved Work Term in lieu of the one dropped.

11.7.8 Honours in Economics (Co-operative) (B.A. or B.Sc.)

11.7.8.1 Admission Requirements
See Major in Economics (Co-operative) (B.A. or B.Sc.) Economics Co-operative Education Option (ECEO) and the General Regulations for the B.A. and B.Sc. (Honours) Degrees.

11.7.8.2 Program of Study
1. See the General Regulations for the B.A. and B.Sc. (Honours) Degrees.
2. All students shall consult with the Head of the Department or delegate when choosing courses for an Honours program.
3. All students shall complete all non-Economics courses required of B.A. or B.Sc. Majors, and at least 60 credit hours in Economics, of which 2010, 2020, 2550, 3000, 3001, 3010, 3011, 3550, 3551, 4120, 4550 and 4551 shall be chosen.
4. Twenty-one credit hours in electives in Economics shall be chosen in consultation with the Head of the Department or delegate, including at least 6 credit hours in courses at the 4000-level. In addition, all Economics Honours students are required to write an essay.
5. Promotion from each Term requires a grade of 70% in all specified required courses and an overall average of at least 70% in all courses including electives. A student who fails a required course or fails to maintain an overall average of 70% will not be promoted to the next term and will be required to withdraw from the program. The student in question may be eligible for readmission in the subsequent year after passing the specified required course(s) previously failed, or re-establishing the 70% average. See also UNIVERSITY REGULATIONS - Regulations for the Honours Degree.
6. In addition to the 30 credit hours required for admission, students are required to complete 120 credit hours and three Work Terms. Students wishing to change the sequence of the work terms must first consult with the Co-op Coordinator and receive approval in writing from the Head of the Department or delegate. Students must complete their program on an academic term.
7. Courses shall normally be taken in academic terms in the sequenced order as set out in the table Honours in Economics (Co-operative Option) B.A. Academic Course Program or in the table Honours in Economics (Co-operative Option) B.Sc. Academic Course Program. Students wishing to change the sequence of the courses and/or reduce the course load required in the academic terms must consult with the Co-op Coordinator and receive written approval from the Head of the Department or delegate. Unspecified credits may be used to fulfill elective requirements only.
8. UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate). Classification of Students notwithstanding, students do not require special permission to register for courses while on work terms if the courses are in addition to the prescribed program.

11.7.8.3 Work Term Placement
See Major in Economics (Co-operative) (B.A. or B.Sc.) Economics Co-operative Education Option (ECEO).

11.7.8.4 Registration and Evaluation of Performance
See Major in Economics (Co-operative) (B.A. or B.Sc.) Economics Co-operative Education Option (ECEO).

</tr>
</tbody>
</table>

**Notes:**
1. Courses specified for admission to and completion of the ECEO only partially satisfy the Core Requirements for the Degree of Bachelor of Arts. Additional Core Requirements are 6 credit hours in a single language other than English. These additional requirements should be completed before and following admission to Term 1 as part of the Minor program and elective components of the degree. Students are reminded that careful planning is necessary to ensure that all Core and Minor requirements are satisfied.
2. A Minor is required for a B.A. degree in Economics.

</table>

**Notes:**
1. Elective courses should be chosen with reference to the Regulations for the General Degree of Bachelor of Science, since courses specified for admission to and completion of the ECEO only partially satisfy these regulations. In particular note that (i) at least 78 credit hours (26 courses) in Science subjects are required and that (ii) at least 3 credit hours in an additional Science subject other than Mathematics/Statistics, Economics and Computer Science must be included in these Science courses.
2. The Statistics and Computer Science elective courses may both be taken in either Term 4 or 5.

### Notes:
1. Another 1000-level Computer Science course may be substituted for Computer Science 1700 with the approval of the Department Head.
2. Elective courses should be chosen with reference to the Regulations for the Honours Degree of Bachelor of Science, since courses specified for admission to and completion of the ECEO only partially satisfy these regulations. In particular note that (1) at least 90 credit hours in Science subjects are required and that (2) at least 3 credit hours in an additional Science subject other than Mathematics/Statistics, Economics and Computer Science must be included in these Science courses.
3. Twenty-one credit hours in electives in Economics shall be chosen in consultation with the Head of Department or delegate, including at least 6 credit hours in courses at the 4000-level. In addition, all Economics Honours students are required to write an essay.
4. The Statistics and Computer Science elective courses may both be taken in either Term 4 or 5.
11.8 English
www.mun.ca/english

A Bachelor of Arts in English is one of the most versatile degrees a student can obtain because of the universal creative focus achieved through literary study.

The following undergraduate programs are available in the Department of English:

1. Major in English
2. Major in English with Specialization in Theatre/Drama
3. Minor in English
4. Honours in English
5. Joint Honours in English and Another Major Subject

General Information:

1. Students who choose an Honours, Major or Minor degree in English are encouraged to consult with the Head of the Department or the Manager of Academic Programs to receive advice on English course selection.
2. Students wishing to pursue an Honours program in English must apply for admission to the Head of Department through the Office of the Registrar. Admission to the program is in accordance with University Regulations and the Bachelor of Arts (Honours Degree) Regulations. Students are encouraged to apply before or during their fourth semester. It is strongly recommended that students have completed at least five English courses, including English 2000, 2001, and 3200 or 3201 before applying.
3. Programs at the Grenfell Campus contain some courses that are not available in St. John's and students wishing to transfer from the St. John's campus to the Grenfell campus may have difficulty in completing their program in a timely manner.
4. Students using ENGL 1020 and 1021 to fulfill the Language Study Requirement are permitted to complete up to an additional 6 credit hours in Department of English Critical Reading and Writing courses at the 1000 level in order to fulfill the Critical Reading and Writing Requirement.

Course Prerequisites:
The following course prerequisites apply to all English programs:

1. All students must complete two 1000-level courses as follows: one of English 1080 or 1000, and one of English 1001, 1101, 1102, 1103, 1110.
2. In the case of students whose first language is not English and who take 1020 or 1030, that course and one of English 1000, 1001, 1021, 1080, 1101, 1102, 1103 are prerequisites for all other courses.
3. No student shall register for a course having the initial digit “3” unless he/she has already completed at least 6 credit hours in English courses having the initial digit “2”.
4. No student shall register in any course having the initial digit “4” unless he/she has successfully completed at least 6 credit hours in English courses having the initial digit “3”.

Courses That Fulfill National or Period Requirements in English Programs:

1. Courses can only ever count for 3 credit hours. For example, although English 4260 can satisfy both the American requirement and a 4000-level requirement, students in an Honours, Joint Honours, or Major in English program, will have to complete another course to satisfy the total number of credit hours required by the program.
2. Courses which consider more than one century or nationality may fulfill the requirement for one or the other but not for both categories.

English course descriptions are found at the end of the Faculty of Arts section under Course Descriptions, English and are designated by ENGL.

11.8.1 Bachelor of Arts Degree Requirements
The Bachelor of Arts requires the successful completion of a minimum of 120 credit hours. A student must meet the requirements for a departmental Major, Minor, or Honours program and also meet the Program Regulations – General and Honours Degrees for the Faculty of Arts. A student is therefore advised to consult with the Admission to the Bachelor of Arts General Degree Programs regulations, the Program Regulations - General and Honours Degrees which also includes the Bachelor of Arts General Degree Components, The Major Program, and The Minor Program regulations. Information regarding honours programs is available at Bachelor of Arts (Honours) Degree Regulations as well as under each department’s regulations.

A student is strongly encouraged to consult with an academic advisor to discuss available programs and requirements in the Faculty of Arts including the Core Requirements, The Major Program, The Minor Program, and the Bachelor of Arts (Honours) Degree Regulations. A student is advised to declare a program of study, including a Major and a Minor, before completing the first 45 credit hours of study. Information about declaring a Major and Minor in the Faculty of Arts and a list of advisors is available at www.mun.ca/arts/programs/undergraduate/declare.php.

11.8.2 General Degrees

11.8.2.1 Major in English
1. Students who choose English as their major subject shall complete at least 36 credit hours in English.
2. Nine of these 36 credit hours must be taken at the 3000-level.
3. Students are strongly encouraged to complete English 2000 and 2001 within their first five semesters.
4. The 36 credit hours shall include:
   a. 6 credit hours in English courses at the first-year level;
   b. English 2000 and 2001;
   c. English 3200 or 3201;
   d. 3 credit hours in Canadian literature;
   e. 3 credit hours in American literature;
   f. 6 credit hours at the 4000-level; and
   g. 9 credit hours in additional English courses.
11.8.2.2 Major in English with Specialization in Theatre/Drama
1. In addition to the Major in English defined above, the Department offers an English major with a specialization in theatre/drama.
2. Students who choose an English major with a specialization in theatre/drama shall complete 36 credit hours in English, including:
   a. 6 credit hours in courses at the first-year level;
   b. English 2000, 2002, 3350, 3351, 4400, 4401;
   c. English 3200 or 3201;
   d. English 4300 or 4301;
   e. one of English 3156, 3171, 3260, 4302; and
   f. English 3021 or 3022

11.8.2.3 Minor in English
1. Students who choose to complete a Minor in English shall complete at least 24 credit hours in English.
2. A minimum of 9 credit hours must be taken at the 3000-level.
3. Requirements for the Minor may not be chosen from courses conducted by another department.
4. Courses for the Minor must include:
   a. 6 credit hours in courses at the first-year level;
   c. English 3200 or 3201;
   d. 3 credit hours in Canadian literature; and
   e. 9 credit hours in additional English courses.

11.8.3 Honours Degrees

11.8.3.1 Honours Degree With English as Major Subject
An Honours degree in English is generally required for admission to a graduate program in the discipline, and is useful preparation for law, journalism and other professional fields.
1. Students who choose to complete an Honours Bachelor of Arts in English must complete 60 credit hours in English courses.
2. At least 36 of these credit hours must be taken at the 3000-level or above.
3. Courses will be chosen in consultation with the Head of Department.
4. In their final year, all Honours English students will be required to present an Honours Essay (English 4999). The semester before they plan to undertake their Honours Essay, students must receive approval of their chosen topic from the Head of the Department, who will then appoint an appropriate supervisor.
5. Any course that considers more than one national literature or period fulfills only one requirement for the Honours degree in English.
6. No courses at the 4000-level may be chosen from courses offered by another department.
7. The 60 credit hours shall include
   a. 6 credit hours in courses at the 1000-level;
   b. English 2000 and 2001;
   c. English 3200 or 3201;
   d. 3 credit hours in Canadian literature;
   e. 3 credit hours in American literature;
   f. English 4100 and 4101;
   g. English 4900 or 4901;
   h. 3 credit hours in pre-19th century literature (excluding 3200 and 3201);
   i. 3 credit hours in 19th century literature;
   j. 3 credit hours in 20th or 21st century literature;
   k. two of English 2600, 3500, 3600;
   l. 12 credit hours in additional English courses, of which 3 credit hours must be at the 3000-level and 6 credit hours must be at the 4000-level; and
   m. English 4999.

11.8.3.2 Joint Honours Degree in English and Another Major Subject
See Bachelor of Arts (Honours Degree) Regulations.
1. A student’s program for Joint Honours must be approved by each Head of Department and conform to the Arts General Regulations for Joint Honours degrees.
2. Students shall complete at least 45 credit hours in English, of which at least 27 credit hours shall be at the 3000-level or above.
3. English courses at the 4000-level may not be chosen from those offered by another department.
4. Any course that considers more than one national literature or period fulfills only one requirement for the Honours degree in English.
5. Students will write their Honours Essay for only one of the two departments from which they are taking Joint Honours.
6. The 45 credit hours shall include:
   a. 6 credit hours in courses at the first-year level;
   b. English 2000 and 2001;
   c. English 3200 or 3201;
   d. 3 credit hours in Canadian literature;
   e. English 4100 and 4101;
11.9 English as a Second Language

www.mun.ca/esl

English as a Second Language course descriptions are found at the end of the Faculty of Arts section under Course Descriptions, English as a Second Language.

The English as a Second Language Office, affiliated with the Department of English, and under the auspices of the Faculty of Arts, offers year-round programs for adult students wishing to improve their English language skills and learn about Canadian culture. These include:

1. A five-week intensive English Language Summer School program;
2. English language preparation for students enrolled in graduate programs such as the Master's in Business Administration and Master's of Engineering;
3. Tutorials, workshops, and conversation programs for current Memorial University of Newfoundland students in undergraduate and graduate degree programs;
4. Custom-designed language and culture programs for schools, universities, or businesses. These can be developed on contract and are either for general learning purposes or to suit the needs of specific disciplines or professions; and
5. Twelve-week non-credit Intensive English Programs which are offered year-round on a semesterized basis.

Information regarding the above services is available from the Director of English as a Second Language programs at Memorial University of Newfoundland. Information regarding the Intensive English Programs is provided below.

11.9.1 Bachelor of Arts Degree Requirements

The Bachelor of Arts requires the successful completion of a minimum of 120 credit hours. A student must meet the requirements for a departmental Major, Minor, orHonours program and also meet the Program Regulations – General and Honours Degrees for the Faculty of Arts. A student is therefore advised to consult with the Admission to the Bachelor of Arts General Degree Programs regulations, the Program Regulations - General and Honours Degrees which also includes the Bachelor of Arts General Degree Components, The Major Program, and The Minor Program regulations. Information regarding honours programs is available at Bachelor of Arts (Honours) Degree Regulations as well as under each department’s regulations.

A student is strongly encouraged to consult with an academic advisor to discuss available programs and requirements in the Faculty of Arts including the Core Requirements,The Major Program, The Minor Program, and the Bachelor of Arts (Honours) Degree Regulations. A student is advised to declare a program of study, including a Major and a Minor, before completing the first 45 credit hours of study. Information about declaring a Major and Minor in the Faculty of Arts and a list of advisors is available at www.mun.ca/arts/programs/undergraduate/declare.php.

11.9.2 Intensive English Program

Memorial University of Newfoundland’s full-time, non-credit Intensive English Program (IEP) is designed to improve English language skills for academic, professional and personal purposes. Reading, writing, speaking and listening skills are covered, and workshops on culture and social activities promoting integration with the local community also form part of the program.

The IEP is offered at intermediate to advanced levels in each of the Fall, Winter, and Spring terms. The program consists of two required courses: English as a Second Language 011F, Core Intensive English, and English as a Second Language 012F, Speaking, Listening, and Culture. Students admitted to the IEP must normally register for both courses each semester.

Students wishing to complete the Intensive English Program in preparation for admission to Memorial University of Newfoundland as undergraduate degree students may apply for this program at the same time as they apply for admission to undergraduate studies. Subject to General Academic Regulations (Undergraduate), Admission/Readmission to the University (Undergraduate), governing admission for undergraduate studies, and the regulations in place for admission to specific programs, students may be provisionally admitted for studies at an undergraduate level in an upcoming term if they are currently enrolled in the Intensive English Program. The General Academic Regulations (Undergraduate), Admission/Readmission to the University (Undergraduate), governing Admission/Readmission to this University, also contained in this Calendar, should be reviewed carefully by students as well.

Final admission for provisionally admitted students will be subject to successful completion of the Intensive English Program with an acceptable score on the Canadian Academic English Language (CAEL) Assessment. The CAEL Assessment is administered as part of the Intensive English Program at the end of each semester. Students enrolled in the Intensive English Program may be considered for enrolment in the Intensive English Bridge Program under the conditions described as the Admission requirements for that program.

Students at any level in the program may take the CAEL Assessment at the end of the semester. The number of semesters of Intensive English study required to achieve a student's desired level of proficiency will vary according to his or her initial proficiency level and individual progress rate.

11.9.2.1 Admission Requirements

Applicants to the Intensive English Program:
1. must be at least 18 years old, and
2. must hold a valid high school diploma, and
3. should have an elementary level of English proficiency.

Applications for the Intensive English Program must be submitted directly in writing to Director, English as a Second Language Programs, Memorial University of Newfoundland, St. John's, NL, A1B 3X9, Canada.

11.9.2.2 Program Requirements

1. Full participation is an essential part of the language learning process in this program. For this reason regular attendance is required. No more than 10% of instructional days may be missed without documented reasons that are acceptable to the Director of English
11.9.3 Intensive English Bridge Program (IEBP)

The Intensive English Bridge Program (IEBP) is intended for applicants to Memorial University of Newfoundland who have been provisionally admitted as undergraduate students and who are students in the advanced level of the Intensive English Program (IEP). It requires ten to fifteen hours of classroom language instruction in reading, writing, grammar, and listening. The emphasis is on English for Academic Purposes. Students in this program may register for an undergraduate credit course concurrently, in consultation with the Director of English as a Second Language Programs.

11.9.3.1 Admission

Students for the Intensive English Bridge Program must have:
1. been provisionally accepted to undergraduate studies at Memorial University of Newfoundland;
2. achieved an average of Band 40 in the CAEL with a Writing sub-score of at least 40, a paper-based TOEFL score of 520, a computer-based TOEFL score of 190, an IBT TOEFL score of 68, or an IELTS score of 5.5 with no sub-score less than 5; and
3. achieved a grade of "C" or better with a satisfactory attendance level (90%) in both ENGS 011F and ENGS 012F if enrolled in the Intensive English program in the previous semester.

A student may be considered as a candidate for the Intensive Bridge Program under the following conditions:

11.9.3.2 Program Requirements
1. Students admitted to the Intensive English Bridge Program must register for the course English as a Second Language 011F.
2. Students in this program may normally register for no more than one credit course, chosen in consultation with the director or coordinator of the English as a Second Language Program.
3. Students may register in the Intensive English Bridge Program for a maximum of two semesters.
4. Full participation is an essential part of the language learning process in this program. For this reason regular attendance is required. No more than 10% of instructional days may be missed without documented reasons that are acceptable to the Director of English as a Second Language programs. Students who fail to meet the minimum attendance requirements may not be permitted to re-enroll in the IEBP in the following semester.

11.10 Film Studies

www.mun.ca/fmst

Program Coordinator: Dr. A. Brookes, Department of German & Russian

The Minor in Film Studies is an interdisciplinary Arts program that aims to teach students to think historically, theoretically and analytically about film within the broad context of humanistic studies.

11.10.1 Bachelor of Arts Degree Requirements

The Bachelor of Arts requires the successful completion of a minimum of 120 credit hours. A student must meet the requirements for a departmental Major, Minor, or Honours program and also meet the Program Regulations – General and Honours Degrees for the Faculty of Arts. A student is therefore advised to consult with the Admission to the Bachelor of Arts General Degree Programs regulations, the Program Regulations – General and Honours Degrees which also includes the Bachelor of Arts General Degree Components, The Major Program, and The Minor Program regulations. Information regarding honours programs is available at Bachelor of Arts (Honours) Degree Regulations as well as under each department’s regulations.

A student is strongly encouraged to consult with an academic advisor to discuss available programs and requirements in the Faculty of Arts including the Core Requirements, The Major Program, The Minor Program, and the Bachelor of Arts (Honours) Degree Regulations. A student is advised to declare a program of study, including a Major and a Minor, before completing the first 45 credit hours of study. Information about declaring a Major and Minor in the Faculty of Arts and a list of advisors is available at www.mun.ca/arts/programs/undergraduate/declare.php.

11.10.2 Advising

Due to the nature of interdisciplinary programming, students must carefully plan their course selection and regularly consult with the Program Coordinator. Questions about the delivery of a course should be directed to the appropriate academic unit.

11.10.2.1 Declaring the Interdisciplinary Minor

Students wishing to declare a Minor in Film Studies shall consult with the Program Coordinator to discuss the requirements of the program. Information about declaring a program of study in the Faculty of Arts is available at www.mun.ca/arts/programs/undergraduate/declare.php.

11.10.3 Regulations for the Interdisciplinary Minor in Film Studies

1. A Minor in Film Studies consists of a minimum of 24 credit hours in courses selected from Table 1 Faculty of Arts Courses for the Minor in Film Studies below, which must include:
   a. as per the General Regulations for Interdisciplinary Major and Minor Programs, courses from a minimum of any three Arts disciplines, and no more than 15 credit hours in any one discipline;
   b. English 2850 and 2851; and
   c. a minimum of 18 additional credit hours selected from Table 1 Faculty of Arts Courses for the Minor in Film Studies, of which there shall be a maximum of 6 credit hours at the 1000-level and a minimum of 6 credit hours at the 3000-level or higher.

2. Not more than 3 credit hours in courses in the student’s Major Program may also be used to satisfy the requirements of the Minor in Film Studies.

3. As per the General Regulations for Interdisciplinary Major and Minor Programs, students completing a Minor in Film Studies must choose a single discipline Major.
11.10.3.1 Course List

Interdisciplinary programs provide exposure to courses in various disciplines within the Faculty of Arts. Table 1 courses are Faculty of Arts courses whose Calendar entry establishes a focus on the study of film and are fundamental to the program of study. Not all courses are necessarily offered each year. Students must be careful not to register for different designations of the same course that is crosslisted with different departments. Normal departmental prerequisites for courses are applicable.

11.11 Folklore

www.mun.ca/folklore

The discipline of Folklore is a diverse examination of informal culture. Its subjects include stories, music, dance, drama, architecture, material culture, celebrations and patterns of belief, as well as customs related to work, leisure, childhood, family, aging, individuality and community.

Folklore explores these customs as dynamic relationships between old ideas and new, individual creation and collective acceptance, local and global influences. And because folklore concerns the everyday, intimate practices of people, ethnographic field research is a vital part of its practice.

Folklore course descriptions are found at the end of the Faculty of Arts section under Course Descriptions, Folklore and are designated by FOLK.

11.11.1 Bachelor of Arts Degree Requirements

The Bachelor of Arts requires the successful completion of a minimum of 120 credit hours. A student must meet the requirements for a departmental Major, Minor, or Honours program and also meet the Program Regulations – General and Honours Degrees for the Faculty of Arts. A student is therefore advised to consult with the Admission to the Bachelor of Arts General Degree Programs regulations, the Program Regulations – General and Honours Degrees which also includes the Bachelor of Arts General Degree Components, The Major Program, and The Minor Program regulations. Information regarding honours programs is available at Bachelor of Arts (Honours) Degree Regulations as well as under each department’s regulations.

A student is strongly encouraged to consult with an academic advisor to discuss available programs and requirements in the Faculty of Arts including the Core Requirements, The Major Program, The Minor Program, and the Bachelor of Arts (Honours) Degree Regulations. A student is advised to declare a program of study, including a Major and a Minor, before completing the first 45 credit hours of study. Information about declaring a Major and Minor in the Faculty of Arts and a list of advisors is available at www.mun.ca/arts/programs/undergraduate/declare.php.

11.11.2 General Degree

Folklore 1000 is the prerequisite for all other courses in Folklore, except Folklore 1050, Folklore 1060, and those courses cross-listed with other Departments.

11.11.3 Major in Folklore

A student registered to major in Folklore must take a minimum of 36 credit hours in courses as follows:

1. 18 required credit hours: 1000 (or the former 2000), 2100, 2300, 2401, 2500, 4470;
2. 6 credit hours from Group A - Folk Literature Genres: 3100, 3200, 3250, 3300, 3450, 3612, 3618;
3. 6 credit hours from Group B - Folklife Genres: 3001, 3350, 3591, 3606, 3650, 3700, 3713, 3820, 3830, 3850, 3860, 3870, 4460; and
4. 6 credit hours from Group C - Topics: not more than 3 of which can be taken from courses at the 1000 level: 1060, 2230, 2700, 3350, 3360, 3460, 3591, 3601, 3613, 3618, 3700, 3714, 3900, 3910, 3920, 3930, 3950, 4015, 4100, 4310, 4400, 4410, 4420, 4440, 4480, 4810.

Students who declare a major in Folklore should have completed Folklore 1000 (or the former 2000); it is recommended that students intending to major in Folklore take Folklore 2100 as early as in their programs as possible.

All students who major in Folklore will be assisted by a faculty advisor who will help them in planning their academic program. Consequently, it is essential that students consult with the Department at an early stage in their studies.

11.11.4 Minor in Folklore

A student declaring a minor in Folklore must take a minimum of 24 credit hours including:

1. 15 required credit hours: 1000 (or the former 2000), 2100, 2300, 2401, 2500; and
2. 9 additional credit hours in Folklore - not more than 3 of which can be taken from courses at the 1000 level.

Students who declare a minor in Folklore should have completed Folklore 1000 (or the former 2000); it is recommended that students intending to minor in Folklore take Folklore 2100 as early as in their programs as possible.

11.11.5 Honours Degree in Folklore

See General Regulations for Honours Degree. An Honours student in Folklore must complete a minimum of 60 credit hours, including the 36 as prescribed for the Major in Folklore. The remaining courses will normally include one of the following options:

1. Folklore 400X
11.11.6 Joint Honours Degree in Folklore and Another Major Discipline

See General Regulations for Honours Degrees. A minimum of 84 credit hours in the two subjects selected, with the approval of the Heads of both Departments, is required.

Of the credit hours required in the two subjects selected, not fewer than 42, and not more than 51, must come from each discipline. The student may choose the discipline in which to complete the Honours Essay or the Comprehensive Examination. If the student chooses the 400X option, the Folklore component will consist of the major in Folklore plus 400X, for a maximum of 51 credit hours in Folklore. Students are advised to choose an option as soon as possible after declaring the second subject of the Joint Honours degree.

11.12 French and Spanish

www.mun.ca/frenchandspanish

The Department of French and Spanish offers the following programs:

1. French Major
2. French Minor
3. Honours Degree in French
4. Joint Honours in French
5. Frecqueer program in French Immersion
6. Canadian Third Year In Nice
7. Université de Bretagne Sud (UBS)
8. Spanish Major
9. Spanish Minor

Native speakers of French, Spanish or Italian and students with near-native fluency will not normally receive credit for courses taken at the first year level in their native language nor will they be allowed to challenge for credit at the first year level. Such students shall consult the Department to be placed at the appropriate level.

French course descriptions are found at the end of the Faculty of Arts section under Course Descriptions, French and are designated by FREN.

11.12.1 Bachelor of Arts Degree Requirements

The Bachelor of Arts requires the successful completion of a minimum of 120 credit hours. A student must meet the requirements for a departmental Major, Minor, or Honours program and also meet the Program Regulations – General and Honours Degrees for the Faculty of Arts. A student is therefore advised to consult with the Admission to the Bachelor of Arts General Degree Programs regulations, the Program Regulations - General and Honours Degrees which also includes the Bachelor of Arts General Degree Components, The Major Program, and The Minor Program regulations. Information regarding honours programs is available at Bachelor of Arts (Honours) Degree Regulations as well as under each department's regulations.

A student is strongly encouraged to consult with an academic advisor to discuss available programs and requirements in the Faculty of Arts including the Core Requirements, The Major Program, The Minor Program, and the Bachelor of Arts (Honours) Degree Regulations. A student is advised to declare a program of study, including a Major and a Minor, before completing the first 45 credit hours of study. Information about declaring a Major and Minor in the Faculty of Arts and a list of advisors is available at www.mun.ca/arts/programs/undergraduate/declare.php.

11.12.2 French Major Program

Students completing a French Major Program, depending on the student's program and point of entry into the program, may wish to follow Table 1 Course Pattern for Major in French, On-Campus (Entry Point FREN 1500), Table 2 Course Pattern for Major in French, On-Campus (Entry Point FREN 2100), or Table 3 Course Pattern for Major in French, Study-Away Option below.

1. Students who choose French as their Major must complete at least 42 credit hours in French, including:
   a. No more than 6 credit hours at the 1000 level;
   b. 2100 and 2101;
   c. 2300;
   d. At least 6 credit hours chosen from 2601, 2602 and 2900;
   e. 3100 and 3101;
   f. At least 6 credit hours chosen from 3500, 3501, 3502, 3503, 3504, 3506, 3507, 3508;
   g. At least 6 credit hours at the 4000 level; and
   h. An extra 3 credit hours at the 2000 level or above.
2. Between their first registration at Memorial University of Newfoundland and the time of their graduation, all students majoring in French must have spent at least eight weeks at an approved Francophone institution in a French-speaking area or have acquired equivalent work experience in a Francophone environment. Students are strongly encouraged to fulfill the requirement early in their program in order to get the greatest benefit from the immersion experience. Students should consult the Head of the Department before the end of their second year of study (60 credit hours) for help in selecting the immersion experience most appropriate for their circumstances. Every reasonable effort will be made to accommodate students who, for personal or professional reasons, are unable to fulfill the immersion requirement.
3. No more than 12 transfer credit hours may be used to fulfill the minimum requirements of the Major in French.
4. It is strongly recommended that students in the Major program complete Classics 1120.

The Study-Away Option may include a summer bursary program. Information regarding bursary programs is available at [www.ed.gov.nl.ca/edu/k12/french/bursaries.html](http://www.ed.gov.nl.ca/edu/k12/french/bursaries.html).

#### 11.12.3 French Minor Program

1. Students who choose French as their Minor must complete at least 24 credit hours in French, including:
   a. 2100 and 2101  
 b. 3100 or 3101
2. No more than 6 credit hours at the 1000 level may be used to fulfill the minimum requirements of the Minor in French.
3. Between their first registration at Memorial University of Newfoundland and the time of their graduation, all students minoring in French must have spent at least four weeks at an approved Francophone institution in a French-speaking area or have acquired equivalent work experience in a Francophone environment. Students are strongly encouraged to fulfill the requirement early in their program in order to get the greatest benefit from the immersion experience. Students should consult the Head of the Department before the end of their second year of study (60 credit hours) for help in selecting the immersion experience most appropriate for their circumstances. Every reasonable effort will be made to accommodate students who, for personal or professional reasons, are unable to fulfill the immersion requirement.
4. No more than 6 transfer credit hours may be used to fulfill the minimum requirements of the Minor in French.

#### 11.12.4 Honours Degree in French

In addition to the following regulations students are advised to see the General Regulations for Honours Degrees.

1. An Honours degree in French shall consist of at least 60 credit hours in French, including:
   a. no more than 6 credit hours at the 1000 level;  
 b. 2100 and 2101;  
 c. 2300;  
 d. at least 6 credit hours chosen from 2601, 2602 and 2900;  
 e. 3100 and 3101;  
 f. at least 6 credit hours chosen from 3500, 3501, 3502, 3503, 3504, 3506, 3507, 3508;  
 g. a minimum of 15 credit hours at the 4000 level including French 4900 and 4999; and
h. an extra 6 credit hours at the 2000 level or above.

2. Between their first registration at Memorial University of Newfoundland and the time of their graduation, all students completing the Honours program in French must have spent at least two semesters at an approved Francophone institution in a French-speaking area or have acquired equivalent work experience in a Francophone environment. Every reasonable effort will be made to accommodate students who, for personal or professional reasons, are unable to fulfill the immersion requirement. Students are strongly encouraged to fulfill the requirement early in their program in order to get the greatest benefit from the immersion experience. Students should consult the Head of the Department before the end of their second year of study (60 credit hours) for help in selecting the immersion experience most appropriate for their circumstances.

3. No more than 24 transfer credit hours may be used to fulfill the minimum requirements of the Honours program in French.

4. Classics 1120 may be substituted for 3 credit hours in French.

11.12.5 Joint Honours
1. French may be combined with any other subject approved in the General Regulations to form a Joint Honours program. Students will establish their program in consultation with the Heads of the Departments of their chosen Honours subjects.

2. The Joint Honours program in French shall include at least 51 credit hours in French including the same requirements as the French Major.

3. Classics 1120 may be substituted for 3 credit hours in French beyond the first-year level.

4. By the time of their graduation, all students completing the Joint Honours program in French must have spent at least two semesters at an approved Francophone institution in a French-speaking area or have acquired equivalent work experience in a Francophone environment.

5. No more than 18 transfer credit hours may be used to fulfill the minimum requirements of the Joint Honours program in French.

11.12.6 Transfer Credit for Language Courses
1. Students who successfully complete French or Spanish language programs offered by recognized universities and colleges in Canada and elsewhere may apply to have their courses evaluated for equivalent Memorial University of Newfoundland credit. To do so, they must follow such procedures as may be specified by the Office of the Registrar; they may also be required to sit a placement test administered by the Department of French and Spanish. The result achieved on this placement test will influence any determination of the number and level of transfer credits to be awarded.

2. Students intending to participate in a summer language bursary program or the Student Fellowship Programs are particularly advised to consult the Head of the Department of French and Spanish before beginning such a program. All students intending to request transfer of credit are strongly advised to obtain a Letter of Permission from the Office of the Registrar before registering for any course of study offered by another institution.

3. In any event, no more than 9 transfer credit hours in either French or Spanish at the first-year level, and 18 at the second-year level, may be granted to any student.

4. See specific program regulations for restrictions placed on the maximum number of transfer credit hours applicable to the Minor, Major, Honours and Joint Honours programs.
11.12.7 Frecker Program

1. The Frecker Program is a one-semester immersion program offered by Memorial University of Newfoundland in St-Pierre. Students who successfully complete this program will receive 15 credit hours in French as specified in Note 3. below. All students will board with French families and will participate in extra-curricular activities designed to take full advantage of the French milieu.

2. Students wanting to complete the Frecker Program may wish to follow Table 4 Course Pattern for Major in French, Frecker Program (Entry Point FREN 1501) below.

3. The minimum prerequisites for admission to the program are successful completion of French 1502 and permission of the Head of the Department following written application. Admission to the program will be on a competitive basis and will depend on marks obtained in French courses at Memorial University of Newfoundland and on instructors’ recommendations.

4. The cost of room and board is partially subsidized by the Federal Government Bursary Program in the case of residents of Newfoundland and Labrador. (A limited number of non-bursary students may be admitted to the program.)

5. Students who are admitted to this program will register for French 2100, 2101, 2300, 2900, and 2602.

11.12.8 Canadian Third Year in Nice Program

Memorial University of Newfoundland is a member of a consortium of Canadian universities (with Guelph University, University of Western Ontario, University of Windsor), which offer the Canadian Third Year in Nice Program. This program enables students to spend a full academic year studying at the Université de Nice-Sophia Antipolis in the South of France. Canadian Students participating in this program are accompanied by a faculty member from one of the Canadian universities participating in the program. This person teaches two of the five courses which students complete each semester in Nice, the other three being chosen from the offerings of the Université de Nice. Specific Memorial University of Newfoundland credits are awarded for successful completion of the courses taught by the Canadian coordinator and specified and/or unspecified credits are awarded for the courses offered by the Université de Nice. All courses completed under this program will be offered outside the normal time frame for courses offered at Memorial University of Newfoundland. Fall Semester courses will be completed between October and January each year, Winter Semester courses between February and May. This follows the time frame of Sessions I and II at the Université de Nice-Sophia Antipolis. Students should consult the Head of the Department regarding course selection.

L’université Memorial fait partie du consortium des universités canadiennes qui offre le programme Canadian Third Year in Nice (avec Guelph University, University of Western Ontario, University of Windsor). Ce programme permet à des étudiants et étudiantes de passer une année académique à l’université de Nice-Sophia Antipolis dans le sud de la France. Les étudiant/e/s et canadien/ne/s qui participent à ce programme sont encadrés par un/e professeur/e d’une des universités qui participent à ce programme. Chaque semestre, cette personne enseigne deux cours sur les cinq. Les trois autres cours sont choisis parmi les cours enseignés à l’université de Nice. Les cours de l’enseignant/e canadien/ne donneront droit à des crédits spécifiés, alors que les cours suivis avec les professeur/e/s niçois/es donneront droit à des crédits spécifiés et/ou non spécifiés. Le calendrier sera différent de celui de l’université Memorial: les cours d’automne auront lieu de septembre à janvier et ceux d’hiver de février à mai, suivant le calendrier des sessions I et II de l’université de Nice-Sophia Antipolis. Les étudiants et étudiantes doivent consulter la direction du département concernant le choix des cours.

Students wanting to complete the Frecker Program may wish to follow Table 5 Course Pattern for Major in French, Nice (Entry Point FREN 1501) below.

11.12.9 Université de Bretagne Sud (UBS)
The exchange program with the Université de Bretagne Sud (UBS) in Lorient, France, is a one semester immersion program (January to May) offered by Memorial University of Newfoundland at the third and/or fourth year level. Specified and/or unspecified Memorial University of Newfoundland credits are awarded for successful completion of the courses taken at UBS.

Le programme d’échanges avec l’université de Bretagne Sud à Lorient, France, est un programme d’immersion d’un semestre aux niveaux de la troisième et/ou de la quatrième année. Les cours suivis à l’UBS donneront droit à des crédits spécifiés et/ou non spécifiés de Memorial University of Newfoundland.

11.12.10 Italian
The Department of French and Spanish offers introductory Italian courses.

Italian course descriptions are found at the end of the Faculty of Arts section under Course Descriptions, Italian and are designated by ITAL.

11.12.11 Spanish
Spanish course descriptions are found at the end of the Faculty of Arts section under Course Descriptions, Spanish and are designated by SPAN.

11.12.11.1 Bachelor of Arts Degree Requirements
The Bachelor of Arts requires the successful completion of a minimum of 120 credit hours. A student must meet the requirements for a departmental Major, Minor, or Honours program and also meet the Program Regulations – General and Honours Degrees for the Faculty of Arts. A student is therefore advised to consult with the Admission to the Bachelor of Arts General Degree Programs regulations, the Program Regulations - General and Honours Degrees which also includes the Bachelor of Arts General Degree Components, The Major Program, and The Minor Program regulations. Information regarding honours programs is available at Bachelor of Arts (Honours) Degree Regulations as well as under each department’s regulations.

A student is strongly encouraged to consult with an academic advisor to discuss available programs and requirements in the Faculty of Arts including the Core Requirements, The Major Program, The Minor Program, and the Bachelor of Arts (Honours) Degree Regulations. A student is advised to declare a program of study, including a Major and a Minor, before completing the first 45 credit hours of study. Information about declaring a Major and Minor in the Faculty of Arts and a list of advisors is available at www.mun.ca/arts/programs/undergraduate/ideclare.php.

11.12.11.2 Spanish Major Program
A Major in Spanish consists of a minimum of 36 credit hours in Spanish chosen from the courses listed under the Spanish Course Descriptions.

Note: It is strongly recommended that students in the Spanish Major Program complete Classics 1120 and 1121.

11.12.11.3 Spanish Minor Program
A Minor in Spanish consists of a minimum of 24 credit hours in Spanish from the courses listed below.

11.12.11.4 Study Abroad Programs in Spanish
The Spanish section of the Department of French and Spanish offers students the opportunity of participating in Study Abroad programs in Spanish. These programs are designed to provide an intensive immersion experience in a Spanish-speaking country each summer. On successful completion of one of these programs, students will be awarded specific credits applicable to their academic program at Memorial University of Newfoundland.

A Study Abroad program in Spanish will be offered each summer, provided that there is sufficient enrolment. All such courses will be offered outside the normal term frame for courses offered at Memorial University of Newfoundland. Students will be required to register for either SPAN 2010/2020 or SPAN 3010/3020 in any one program.

Students who are unsure whether they meet the prerequisites for SPAN 2010, 2020, 3010, 3020, or 6900 should consult the Coordinator for Spanish.

11.13 Gender Studies
www.mun.ca/genderstudies

Gender Studies is an academic area of study that critically examines how gender shapes our identities, our social interactions and our world. Through exposure to interdisciplinary perspectives, students develop frameworks for thinking about power relations and the ways that those relations are shaped and challenged by intersecting constructions of gender, race, class, sexuality, ability, age and nationality. Gender Studies examines everyday experiences, social and political institutions, literary and philosophical contributions, and past and present ideas and world events. The discipline provides students with tools to engage with and critically analyze these areas.

Gender Studies course descriptions are found at the end of the Faculty of Arts section under Course Descriptions, Gender Studies and are designated by GNDR.

11.13.1 Bachelor of Arts Degree Requirements
The Bachelor of Arts requires the successful completion of a minimum of 120 credit hours. A student must meet the requirements for a departmental Major, Minor, or Honours program and also meet the Program Regulations – General and Honours Degrees for the Faculty of Arts. A student is therefore advised to consult with the Admission to the Bachelor of Arts General Degree Programs regulations, the Program Regulations - General and Honours Degrees which also includes the Bachelor of Arts General Degree Components, The Major Program, and The Minor Program regulations. Information regarding honours programs is available at Bachelor of Arts (Honours) Degree Regulations as well as under each department’s regulations.

A student is strongly encouraged to consult with an academic advisor to discuss available programs and requirements in the Faculty of Arts including the Core Requirements, The Major Program, The Minor Program, and the Bachelor of Arts (Honours) Degree Regulations. A student is advised to declare a program of study, including a Major and a Minor, before completing the first 45 credit hours of study. Information about declaring a Major and Minor in the Faculty of Arts and a list of advisors is available at www.mun.ca/arts/programs/undergraduate/ideclare.php.
11.13.2 Major Program Regulations

Students declaring a Major in Gender Studies should consult the Head of the Department regarding course selection. The Major Program in Gender Studies consists of a minimum of 39 credit hours. The following courses are required:

1. Gender Studies 1000, Gender Studies 2005, Gender Studies 3000, one of Gender Studies 3005, or Gender Studies 3025, Gender Studies 4000, and Gender Studies 4005.
2. A minimum of 21 credit hours from the Gender Studies Electives Courses Table outlined below, selected from at least three different subject areas.
3. One of these courses may be a selected topics or directed readings course in any subject relevant to the major program.
4. A selected topics or directed readings course included in the student's major program must be approved in advance by the Committee on Undergraduate Studies on the recommendation of the Head of the Department.

11.13.3 Minor Program Regulations

Students who minor in Gender Studies shall complete a minimum of 24 credit hours in courses which shall include the following:

1. Gender Studies 1000, Gender Studies 2005 or 3025, and Gender Studies 4000.
2. A minimum of 15 credit hours in courses from the Gender Studies Electives Courses Table outlined below in at least three different subject areas. Gender Studies courses that are not required for the Minor, but that have a Gender Studies (GNDR) designation can be counted as Minor Elective Courses in one subject area. One of these courses may be a selected topics or directed readings course.
3. A selected topics course or directed readings course included in the student's minor program must be approved in advance by the Committee on Undergraduate Studies on the recommendation of the Head of the Department.
4. Not more than 3 credit hours in courses in the student's major Program may be used to satisfy the requirements of the minor in Gender Studies.

11.13.4 Elective Courses

Normal prerequisites and waiver policies in the respective departments will apply. Some courses may not be offered on a regular basis. Students should consult the appropriate department(s) for scheduling information.

11.14 Geography

www.mun.ca/geog

The following undergraduate programs are available in the Department of Geography:

1. Major in Geography (B.A. or B.Sc.)
2. Honours in Geography (B.A. or B.Sc.)
3. Minor in Geography
4. Joint Programs
5. Focus Area in Geography
6. Diploma in Geographic Information Sciences

Geography course descriptions are found at the end of the Faculty of Arts section under Course Descriptions, Geography and are designated by GEOG.

11.14.1 Bachelor of Arts Degree Requirements

The Bachelor of Arts requires the successful completion of a minimum of 120 credit hours. A student must meet the requirements for a departmental Major, Minor, or Honours program and also meet the Program Regulations – General and Honours Degrees for the Faculty of Arts. A student is therefore advised to consult with the Admission to the Bachelor of Arts General Degree Programs regulations, the Program Regulations - General and Honours Degrees which also includes the Bachelor of Arts General Degree Components, The Major Program, and The Minor Program regulations. Information regarding honours programs is available at Bachelor of Arts (Honours) Degree Regulations as well as under each department’s regulations.

A student is strongly encouraged to consult with an academic advisor to discuss available programs and requirements in the Faculty of Arts including the Core Requirements, The Major Program, The Minor Program, and the Bachelor of Arts (Honours) Degree...
Regulations. A student is advised to declare a program of study, including a Major and a Minor, before completing the first 45 credit hours of study. Information about declaring a Major and Minor in the Faculty of Arts and a list of advisors is available at www.mun.ca/arts/programs/undergraduate/declare.php.

11.14.2 Major in Geography (B.A. or B.Sc.)
1. Students may complete a Major in Geography as part of either a B.A. or B.Sc. program. See the Regulations for the General Degree of Bachelor of Arts and Regulations for the General Degree of Bachelor of Science degrees as appropriate.
2. All students who major in Geography shall consult with their assigned faculty advisor, or the Head of the Department, who will help them in planning their academic program. For this purpose, it is essential that students declare their major at an early stage of their studies.
3. The Major in Geography consists of 45 credit hours in Geography courses including:
   a. 1050, or the former 1000 & 1001, or 1010 & 1011;
   b. 2001, 2102, 2195, 2226, 2302, 2425;
   c. 3222, 3226;
   d. 9 credit hours from courses at the 3000-level;
   e. at least 9 credit hours chosen from courses at the 4000-level; and
   f. further credit hours in courses at the 3000-level or above, to fulfill the required 45 credit hours in Geography courses.
4. B.Sc. students must complete 15 credit hours in science courses outside Geography at the 2000-level or above.

11.14.3 Honours in Geography (B.A. or B.Sc.)
1. Students intending to take an Honours degree in Geography must apply for entry to the Honours program through the Office of the Registrar.
2. Students accepted in the Honours program must:
   a. comply with the Regulations for the Honours Degree of Bachelor of Arts or Regulations for the Honours Degree of Bachelor of Science as appropriate; and
   b. arrange their program in consultation with the Head of the Department.
3. For the Honours Degree, a student will be required to have completed at least 60 credit hours in courses in Geography, including:
   a. 45 credit hours in courses as listed under Major in Geography;
   b. Geography 3230, 4990 and 4999; and
   c. 6 additional credit hours at the 4000-level.

11.14.4 Minor in Geography
The Minor in Geography consists of 24 credit hours in Geography courses, including:
1. 1050, 2001, 2102, 2195, 2302, 2425; and 6 credit hours in electives taken from Geography courses at the 3000- or 4000-level, or
2. the former 1000 and 1001, or 1010 and 1011; 2001, 2102, 2195, 2302, 2425; and 3 credit hours in electives taken from Geography courses at the 3000- or 4000-level.

11.14.5 Joint Programs
Regulations for the Joint Honours in Computer Science and Geography, Joint Honours in Geography/Earth Sciences, and Joint Major in Computer Science and Geography are found under the heading Joint Programs in the entry for the Faculty of Science.
Students who wish to take a Joint Major or a Joint Honours in Geography and another subject must arrange their program in consultation with the heads of the Departments concerned, and comply with the General Regulations of the appropriate Faculty.

11.14.6 Focus Area in Geography - Bachelor of Education (Primary/Elementary)
The focus area in Geography is applicable only to the Bachelor of Education Primary/Elementary degree programs offered by the Faculty of Education. See Focus Areas under the Faculty of Education for program details.

11.14.7 Diploma in Geographic Information Sciences
Information regarding the Diploma Program in Geographic Information Sciences may be found under the heading Diploma Programs Offered in the Faculty of Arts.

11.15 German and Russian Language and Literature
www.mun.ca/german

11.15.1 German
www.mun.ca/german/german
German course descriptions are found at the end of the Faculty of Arts section under Course Descriptions, German and are designated by GERM.

11.15.1.1 Bachelor of Arts Degree Requirements
The Bachelor of Arts requires the successful completion of a minimum of 120 credit hours. A student must meet the requirements for a departmental Major, Minor, or Honours program and also meet the Program Regulations – General and Honours Degrees for the Faculty of Arts. A student is therefore advised to consult with the Admission to the Bachelor of Arts General Degree Programs regulations, the Program Regulations - General and Honours Degrees which also includes the Bachelor of Arts General Degree Components, The Major Program, and The Minor Program regulations. Information regarding honours programs is available at Bachelor of Arts (Honours) Degree Regulations as well as under each department’s regulations.
A student is strongly encouraged to consult with an academic advisor to discuss available programs and requirements in the Faculty of Arts including the Core Requirements, The Major Program, The Minor Program, and the Bachelor of Arts (Honours) Degree
Faculty of Arts 2015-2016

**Regulations.** A student is advised to declare a program of study, including a Major and a Minor, before completing the first 45 credit hours of study. Information about declaring a Major and Minor in the Faculty of Arts and a list of advisors is available at www.mun.ca/arts/programs/undergraduate/declare.php.

### 11.15.1.2 General Degree
All students who did not matriculate in German will begin their study with Elementary German I (1000) or equivalent.

### 11.15.1.3 German Language and Literature Major Program
Students majoring in German must comply with the UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate) and arrange their program in consultation with the Head of the Department. Students majoring in German may choose from two streams: literature or cultural studies. The choice of stream will determine the courses required for a major. It is highly desirable that, during their course of study, all students majoring in German spend at least one semester of study in a German-speaking country.

#### Major Streams

1. **Literature Stream**
   - Students majoring in German (Literature stream) will normally be required to complete a minimum of 36 credit hours in German including at least 24 credit hours in the following courses or their equivalents: German 1000, 1001, 2010, 2011, 3010, 3011, 3900 and 3901. Exceptional students may be extended an invitation to participate in a graduate level seminar.

### 11.15.1.4 German Language and Literature Minor Program
A Minor in German will consist of a minimum of 24 credit hours. Students must obtain credit for: German 1000, 1001 (or their equivalents), 2010, 2011.

### 11.15.1.5 German Studies Minor Program
A Minor in German Studies is offered as a special program of an interdisciplinary nature, consisting of a minimum of 24 credit hours in courses as follows:

1. 18 credit hours in German, including: 1000; 1001 (or their equivalents); 2010 and 2011; 2900; 2901; and
2. 6 credit hours taken in either additional courses in German and/or from cognate courses offered by other departments, such as History 3370, 3380, Philosophy 3850, 3851, 3860, to be chosen through prior consultation with the Head of the Department.

   German 2030, 2031, 2900, 2901, the former 2910, 3000, 3001, 3002, 3003, 3005, the former 3902, 3911, 3912, 3913, 3914, 3915 and the Special Topics courses in German Studies may not be used as part of the Faculty of Arts requirements for 6 credit hours in a second language.

### 11.15.1.6 Honours Degree
Students wishing to take an Honours degree in German must arrange their program in consultation with the Head of the Department. They will be required to comply with the University regulations for Honours degrees, to take a minimum of 60 credit hours in German with at least a 'B' standing, and to write a comprehensive examination or present a Honours Essay in their final year. Courses in German must include the following required 27 credit hours: German 1000, 1001 (or their equivalent), 2010, 2011, 3010, 3011, 4010, 4011, and 4998 or 4999. Students reading German in a Joint Honours degree program will take a minimum of 42 credit hours in German, which must include the following 24 credit hours in courses German 1000, 1001 (or their equivalents), 2010, 2011, 3010, 3011, 3900, 3901 with at least a 'B' standing.

11.15.2 Russian

www.mun.ca/german/russian

Russian language courses are normally taken in succession. The prerequisite for each course is successful completion of the preceding level, or with permission of the Head of the Department. There is no prerequisite for Russian 1000.

The courses in Russian literature, film and culture may not be used as part of the Faculty of Arts requirement of 6 credit hours in a second language.

Russian course descriptions are found at the end of the Faculty of Arts section under Course Descriptions, Russian and are designated by RUSS.

11.15.2.1 Bachelor of Arts Degree Requirements

The Bachelor of Arts requires the successful completion of a minimum of 120 credit hours. A student must meet the requirements for a departmental Major, Minor, or Honours program and also meet the Program Regulations – General and Honours Degrees for the Faculty of Arts. A student is therefore advised to consult with the Admission to the Bachelor of Arts General Degree Programs regulations, the Program Regulations - General and Honours Degrees which also includes the Bachelor of Arts General Degree Components, The Major Program, and The Minor Program regulations. Information regarding honours programs is available at Bachelor of Arts (Honours) Degree Regulations as well as under each department’s regulations.

A student is strongly encouraged to consult with an academic advisor to discuss available programs and requirements in the Faculty of Arts including the Core Requirements, The Major Program, The Minor Program, and the Bachelor of Arts (Honours) Degree Regulations. A student is advised to declare a program of study, including a Major and a Minor, before completing the first 45 credit hours of study. Information about declaring a Major and Minor in the Faculty of Arts and a list of advisors is available at www.mun.ca/arts/programs/undergraduate/declare.php.

11.15.2.2 Advising for Major and Minor programs

Students interested in pursuing a major in Russian Language and Literature are advised to consult the Department very early in their undergraduate studies. For students specializing in Russian programs course selection is important to enter graduate school, teaching, library work, or government service. Students with advanced credit or competence in Russian will be placed at an appropriate level. Students are encouraged to consult with the undergraduate advisor. Students with prior knowledge of Russian may be granted transfer credit if that knowledge came from a recognized academic course. Russian courses may be challenged for credit with the permission of the Head of the Department.

11.15.2.3 Russian Language and Literature Major Program

A Major in Russian consists of a minimum of 36 credit hours in Russian courses including 1000, 1001, 2010, 2011 and 3010, as well as 6 credit hours in courses at the 4000 level. The remaining 15 credit hours comprise any combination of language, literature and culture courses.

11.15.2.4 Russian Language and Literature Minor Program

A Minor in Russian consists of a minimum of 24 credit hours in Russian including 12 credit hours in the following: Russian 1000, 1001, 2010, and 2011.

The remaining 12 credit hours comprise any combination of language, literature and culture courses.

Students should note that with the permission of the Head of the Department, up to 6 credit hours for certain courses with a strong Russian content which are offered by other departments may be counted towards major and minor specializations in Russian Language and Literature.

11.16 History

www.mun.ca/history

The discipline of History provides an opportunity for students to develop research, analytical, and writing skills through the study of the past. The Department of History offers a wide range of appealing courses and exceptional resources for Majors and Minors. The Department of History offers a Major, Minor, and an Honours program in History.

History course descriptions are found at the end of the Faculty of Arts section under Course Descriptions, History and are designated by HIST.

11.16.1 Bachelor of Arts Degree Requirements

The Bachelor of Arts requires the successful completion of a minimum of 120 credit hours. A student must meet the requirements for a departmental Major, Minor, or Honours program and also meet the Program Regulations – General and Honours Degrees for the Faculty of Arts. A student is therefore advised to consult with the Admission to the Bachelor of Arts General Degree Programs regulations, the Program Regulations - General and Honours Degrees which also includes the Bachelor of Arts General Degree Components, The Major Program, and The Minor Program regulations. Information regarding honours programs is available at Bachelor of Arts (Honours) Degree Regulations as well as under each department’s regulations.

A student is strongly encouraged to consult with an academic advisor to discuss available programs and requirements in the Faculty of Arts including the Core Requirements, The Major Program, The Minor Program, and the Bachelor of Arts (Honours) Degree Regulations. A student is advised to declare a program of study, including a Major and a Minor, before completing the first 45 credit hours of study. Information about declaring a Major and Minor in the Faculty of Arts and a list of advisors is available at www.mun.ca/arts/programs/undergraduate/declare.php.

11.16.2 General Degree

1. Students should consult the Regulations for the General Degree of Bachelor of Arts in addition to the regulations listed below.

2. Any one of History 1009-1016 forms the introduction to the practice of history. Third and fourth-year students taking History courses as electives or to satisfy Regulations for the General Degree of Bachelor of Arts are encouraged to enrol in the Department’s second-year courses.

3. All students who Major in History will be assisted by a faculty advisor who will help them in planning their academic programs. It is essential that students register with the Department at an early stage of their studies.
11.16.2.1 Major in History
Students who undertake a Major in History must complete 36 credit hours in History, including:
1. 3 credit hours in a course beginning with the initial digit '1'. Only one first-year course may be used to meet the Major requirements in History. However, students may use a second first-year course as an Arts elective;
2. at least 12 credit hours in courses with the initial digit '2' including either History 2200 or 2210;
3. at least 9 credit hours in courses with the initial digit '2' should be completed before registering in a course with the initial digit '3'. Students should pay particular attention to necessary prerequisites when scheduling courses. In addition, students should obtain advice on the appropriate courses from their faculty advisor;
4. at least 9 credit hours in courses with the initial digit '3' including History 3840;
5. History 3840 for which there is a prerequisite of 12 credit hours in History;
6. at least 3 credit hours in courses with the initial digit '3' should be completed before registering in a course with the initial digit '4';
7. at least 6 credit hours in courses with the initial digit '4'. Some fourth-year courses may require completion of courses in the same topic/subject area. Prerequisites may be waived at the discretion of the instructor; and
8. 6 additional credit hours in courses with an initial digit beyond '1'.
No more than 15 transfer credit hours in History may be used to fulfill the requirements for a Major in History.

11.16.2.2 Minor in History
Students who undertake a Minor in History must complete 24 credit hours in History, including:
1. 3 credit hours in a course beginning with the initial digit '1'. Only one first-year course may be used to meet the Minor requirements in History. However, students may use a second first-year course as an Arts elective;
2. at least 9 credit hours in courses with the initial digit '2';
3. at least 6 credit hours in courses with the initial digit '2' should be completed before registering in a course with the initial digit '3';
4. at least 6 credit hours in courses with the initial digit '3';
5. at least 3 credit hours in courses with the initial digit '3' should be completed before registering in a course with the initial digit '4';
6. at least 3 credit hours in courses with the initial digit '4'. Some fourth-year courses may require completion of courses in the same topic/subject area. Prerequisites may be waived at the discretion of the instructor; and
7. 6 additional credit hours in courses with an initial digit beyond '1'.
No more than 9 transfer credit hours in History may be used to fulfill the requirements for a Minor in History.

11.16.2.3 Specialization in Maritime History
The Department of History offers a specialization in Maritime History. Recommended courses include History 2100, History 2110, History 3680, History 3690, and 6 credit hours from History 4670-4690.

11.16.3 Honours Degree
The Honours Degree in History is a rigorous and rewarding program of study for History Majors interested in developing a piece of independent research and writing. Honours students in History develop many of the necessary skills and preparation for graduate school, law school, or work in the heritage sector.
1. Students intending to take an Honours Degree with a Major in History must comply with the Regulations for the Honours Degree of Bachelor of Arts.
2. Students are required to complete at least 60 credit hours in History according to the following pattern:
   a. 3 credit hours chosen in accordance with the pattern set out under the Major in History above; and
   b. 12 additional credit hours in History electives beyond the first-year level and 12 credit hours in Honours courses: History 4800, 4821, 4822, and 4999.
3. Applicants must apply by June 30th for the Fall semester and by November 1st for the Winter semester in order to be considered for admission. Applications received after June 30th will be considered for the Winter semester and applications received after November 1st will be considered for the next Fall semester. Students intending to complete an Honours degree in History will be assisted by a faculty advisor in planning their academic programs. The academic programs for Honours students must be approved by the Head of the Department or delegate.
4. Students electing Joint Honours are required to complete at least 51 credit hours in History according to the following pattern:
   a. 36 chosen in accordance with the pattern set out under the Major in History above;
   b. History 4800 and 4821;
   c. 3 additional credit hours in History electives beyond the first-year level; and
   d. if the student chooses to write the Honours Essay in History, the student must complete History 4822 and History 4999; or
   e. if the student chooses to write the Honours Essay in another Department, the student does not need to complete History 4822 and History 4999. However, these courses must be replaced with 6 additional credit hours in History electives at the third-year level or above.
5. The minimum grades required are:
   a. 70% on each of the prescribed courses beyond the first-year level or an average of 75% on those courses; and
   b. 70% or higher in History 4999.
6. No more than 27 transfer credit hours may be included in the minimum 60 credit hours required for the Honours degree in History.

11.17 Law and Society
www.mun.ca/lwso
Program Coordinator: Dr. P. Dold, Head, Department of Gender Studies

The Major in Law and Society and the Minor in Law and Society are interdisciplinary programs that encourage students to engage in the academic and philosophical study of different facets of law and its role in society. They will acquaint and confront students with different aspects of the history, philosophical basis, and role of law in modern society. They include courses which deal explicitly with law, courses in social and political theory, and courses examining the role of law and its norms in diverse settings. Core courses in Law and
Society integrate the material and provide a common focus at the beginning and the end of the programs. These are not pre-law programs nor do they offer a certificate or qualification in legal studies.

Law and Society course descriptions are found at the end of the Faculty of Arts section under Course Descriptions, Law and Society and are designated by LWSO.

11.17.1 Bachelor of Arts Degree Requirements
The Bachelor of Arts requires the successful completion of a minimum of 120 credit hours. A student must meet the requirements for a departmental Major, Minor, or Honours program and also meet the Program Regulations – General and Honours Degrees for the Faculty of Arts. A student is therefore advised to consult with the Program Coordinator. Information regarding honours programs is available at Bachelor of Arts (Honours) Degree Regulations as well as under each department’s regulations.

A student is strongly encouraged to consult with an academic advisor to discuss available programs and requirements in the Faculty of Arts including the Core Requirements, The Major Program, The Minor Program, and the Bachelor of Arts (Honours) Degree Regulations. A student is advised to declare a program of study, including a Major and a Minor, before completing the first 45 credit hours of study. Information about declaring a Major and Minor in the Faculty of Arts and a list of advisors is available at www.mun.ca/arts/programs/undergraduate/declare.php.

11.17.2 Advising
Due to the nature of interdisciplinary programming, students must carefully plan their course selection and regularly consult with the Program Coordinator. Questions about the delivery of a course should be directed to the appropriate academic unit.

11.17.3 Declaring the Interdisciplinary Major or Interdisciplinary Minor in Law and Society
Students wishing to declare a Major or a Minor in Law and Society shall consult with the Program Coordinator to discuss the requirements of the program. Information about declaring a program of study in the Faculty of Arts is available at www.mun.ca/arts/programs/undergraduate/declare.php.

11.17.4 Regulations for the Interdisciplinary Major in Law and Society
1. A Major in Law and Society consists of all the general requirements of the Bachelor of Arts program, including a minimum of 36 credit hours in courses selected from Table 1 Core Faculty of Arts Courses Approved for the Major or Minor in Law and Society and Table 2 Other Faculty of Arts Courses Approved for the Major or Minor in Law and Society below as follows:
   a. as per the General Regulations for Interdisciplinary Major and Minor Programs, courses from a minimum of any three Arts disciplines, and no more than 15 credit hours in any one Arts discipline other than Law and Society;
   b. a minimum of 12 credit hours in Law and Society courses, which must include LWSO 1000 and 4000; and
   c. an additional 24 credit hours chosen from Table 1 Core Faculty of Arts Courses Approved for the Major or Minor in Law and Society and/or Table 2 Other Faculty of Arts Courses Approved for the Major or Minor in Law and Society, which must include at least 15 credit hours at the 3000-level or above, including at least 3 credit hours at the 4000-level. In fulfilling the requirements above, no more than 15 credit hours can be counted from Table 2 Other Faculty of Arts Courses Approved for the Major or Minor in Law and Society.

2. Before registering for any 4000-level Law and Society course, students must complete 18 credit hours selected from courses in Table 1 Core Faculty of Arts Courses Approved for the Major or Minor in Law and Society, including LWSO 1000.

3. As per the General Regulations for Interdisciplinary Major and Minor Programs, students completing a Major in Law and Society must also choose a single-discipline Minor or a Major in a single discipline.

11.17.5 Regulations for the Interdisciplinary Minor in Law and Society
1. A Minor in Law and Society consists of a minimum of 24 credit hours in courses selected from Table 1 Core Faculty of Arts Courses Approved for the Major or Minor in Law and Society and Table 2 Other Faculty of Arts Courses Approved for the Major or Minor in Law and Society below as follows:
   a. as per the General Regulations for Interdisciplinary Major and Minor Programs, courses from a minimum of any three Arts disciplines, and no more than 15 credit hours in any one Arts discipline other than Law and Society;
   b. a minimum of 9 credit hours in Law and Society courses, which must include LWSO 1000 and 4000; and
   c. an additional 15 credit hours chosen from Table 1 Core Faculty of Arts Courses Approved for the Major or Minor in Law and Society and/or Table 2 Other Faculty of Arts Courses Approved for the Major or Minor in Law and Society, which must include at least 9 credit hours at the 3000-level or above. In fulfilling the requirements above, no more than 9 credit hours can be counted from Table 2 Other Faculty of Arts Courses Approved for the Major or Minor in Law and Society.

2. Before registering for any 4000-level Law and Society course, students must complete 18 credit hours selected from courses in Table 1 Core Faculty of Arts Courses Approved for the Major or Minor in Law and Society, including LWSO 1000.

3. As per the General Regulations for Interdisciplinary Major and Minor Programs, students completing a Minor in Law and Society must choose a single discipline Major.

11.17.6 Course List
1. Interdisciplinary programs provide exposure to courses in various disciplines within the Faculty of Arts. Table 1 courses are Faculty of Arts courses whose Calendar entry establishes a focus on law and society, and are fundamental to the program of study. Subject to the program regulations, they may be supplemented with Table 2 courses whose Calendar entry establishes an emphasis on the study of aspects of society that shape and/or are shaped by law. Not all courses are necessarily offered each year. Students must be careful not to register for different designations of the same course that is crosslisted with different departments. Normal departmental prerequisites for courses are applicable.

2. As per the General Regulations for Interdisciplinary Major and Minor Programs, up to 6 credit hours obtained in undergraduate courses at Memorial University of Newfoundland that are not listed in the Faculty of Arts Course Descriptions may be deemed eligible towards the Major in Law and Society, or 3 such credit hours towards the Minor in Law and Society. Undergraduate courses not delivered by the Faculty of Arts that have been approved as Table 2 electives include Business 4000, 5000, 6040, 7322; Education 4420; Human Kinetics and Recreation 3535; Psychology 2150; Social Work 3720.
3. Students registered in the Joint Degrees of Bachelor of Arts and Bachelor of Commerce (Co-operative) who are pursuing a Major or a Minor in Law and Society are eligible to complete up to 12 credit hours for the Major and 6 credit hours for the Minor in approved courses that do not appear in the Faculty of Arts Course Descriptions. The normal limit that is identified in the General Regulations for Interdisciplinary Major and Minor Programs does not apply to those students.

11.17.7 Previous Calendar Regulations

In accordance with UNIVERSITY REGULATIONS - Degree and Departmental Regulations, Year of Degree and Departmental Regulations - Faculty of Arts and Faculty of Science, candidates for an Interdisciplinary Major or Minor in Law and Society who had completed a 2000-level course or above in Law and Society prior to September 2014 will normally follow the program regulations in effect at that time. Such students may instead elect to follow the Law and Society program regulations outlined in this version of the Calendar. These “grandparented” students are encouraged to consult the Program Coordinator for assistance with course selection.

11.18 Linguistics

www.mun.ca/linguistics

Linguistics course descriptions are found at the end of the Faculty of Arts section under Course Descriptions, Linguistics and are designated by LING.

11.18.1 Bachelor of Arts Degree Requirements

The Bachelor of Arts requires the successful completion of a minimum of 120 credit hours. A student must meet the requirements for a departmental Major, Minor, or Honours program and also meet the Program Regulations – General and Honours Degrees for the Faculty of Arts. A student is therefore advised to consult with the Admissions to the Bachelor of Arts General Degree Programs regulations, the Program Regulations – General and Honours Degrees which also includes the Bachelor of Arts General Degree Components, The Major Program, and The Minor Program regulations. Information regarding honours programs is available at Bachelor of Arts (Honours) Degree Regulations as well as under each department’s regulations.

A student is strongly encouraged to consult with an academic advisor to discuss available programs and requirements in the Faculty of Arts including the Core Requirements, The Major Program, The Minor Program, and the Bachelor of Arts (Honours) Degree Regulations. A student is advised to declare a program of study, including a Major and a Minor, before completing the first 45 credit hours of study. Information about declaring a Major and Minor in the Faculty of Arts and a list of advisors is available at www.mun.ca/arts/programs/undergraduate/declare.php.

11.18.2 General Degree

The general degree requires 12 courses, 36 credit hours.

1. Students majoring in Linguistics must complete 36 credit hours in Linguistics, which must include the five courses numbered Linguistics 1100/2100, 1103/2103, 1104/2104, 3100, 3201 plus 21 credit hours in courses chosen from Linguistics 1105/2105, 2060, 2210, 2300, 2400, 2401, 3000, 3104, 3105, 3150, 3155, 3210, 3212, 3220, 3302, 3310, 3311, 3500, 3850, 3950-3960, 4010-4091, 4100, 4110, 4150, 4151, 4201, 4202, 4210, 4301, 4310, 4350, 4400, 4403, 4420, 4421, 4500, 4700, 4750, 4751, 4752, 4753, 4754, 4900, 4901, 4950-4960. Of these 21 credit hours, 9 must be at the 4000 level.

2. Many courses formerly offered by the Department of Linguistics have been renamed or renamed courses which the student has already taken. Students should consult with an advisor in the Department of Linguistics to ensure that they are taking the appropriate courses.

3. Prerequisites may be waived in special cases by the Head of the Department.

Note: Students intending to pursue graduate work in Linguistics should include Linguistics 3500, 4201 and at least one of 4110 and 4110 in their programs.

11.18.3 Honours Major

The honours major requires twenty courses, 60 credit hours and the joint honours requires sixteen courses, 48 credit hours.

1. See General Regulations for the Degree of Bachelor of Arts (Honours).

2. An Honours degree in Linguistics must include 60 credit hours in Linguistics courses of which the following are required: Linguistics 1103/2103, 1104/2104, 2210, 3000, 3100, 3201, 3210, 3500, 3850, 4110 (or 4101), 4201 (or 4202), 4999, and at least one of Linguistics 4010-4091, 4150, 4210, 4500, 4700, 4750, 4950-4960. Students should choose courses in consultation with their Honours Essay supervisor, to ensure that the needs and interests of the individual candidate are met, and to take into account the availability of courses which the department is able to offer.

3. Linguistics may also be combined with another subject or subjects to constitute a Joint Honours degree. The required courses listed above for the Honours degree, except for Linguistics 4999, will also be required for any Joint Honours degree in Linguistics. A total
of 48 credit hours in Linguistics, which may include Linguistics 4999, is required for Joint Honours in Linguistics. Students should consult their Department of Linguistics advisor to ensure that they select courses which complement their other Honours Subject of Specialization.

11.18.4 Minor Programs

1. The General Minor requires eight courses, 24 credit hours. The following courses are required:
   a. Linguistics 1103/2103 and 1104/2104;
   b. any 2 courses from the following list: Linguistics 3000, 3100, 3104, 3201, 3500, 3850; and
   c. an additional 12 credit hours selected from: Linguistics 1100/2100, 1105/2105, 2060, 2210, 2300, 2400, 2401, 3000, 3100, 3104, 3105, 3155, 3201, 3210, 3212, 3220, 3302, 3310, 3311, 3500, 3850, 3950-3960, 4010-4091, 4100, 4110, 4150, 4151, 4201, 4202, 4210, 4301, 4310, 4350, 4400, 4403, 4420, 4421, 4500, 4700, 4750, 4751, 4752, 4753, 4754, 4900, 4901, 4950-4960.

2. Focus Area in Linguistics for B.Ed. (Primary/Elementary) Students (6 courses, 18 credit hours)
   A minimum of 18 credit hours in Linguistics is required for students who are doing a focus area in the discipline. The program is as follows:
   a. Linguistics 1100 or 2100, 1103 or 2103, 1104 or 2104, 2210, and 6 credit hours in courses chosen from Linguistics 3000, 3100, 3104, 3105, 3155, 3201, 3210, 3212, 3500, 3850.
   b. Students are urged to include more than the minimum number of linguistics-related courses in their program.

11.19 Mathematics and Statistics

For Departmental Regulations and Course Descriptions, see Faculty of Science section of the Calendar.

The following undergraduate programs are available in the Department of Mathematics and Statistics:

- 1. Applied Mathematics Honours (B.Sc. only)
- 2. Applied Mathematics Major (B.Sc. only)
- 3. Applied Mathematics and Chemistry Joint Honours (B.Sc. only)
- 4. Applied Mathematics and Computer Science Joint Major (B.Sc. only)
- 5. Applied Mathematics and Economics Joint Major (B.Sc. only)
- 6. Applied Mathematics and Physics Joint Honours (B.Sc. only)
- 7. Applied Mathematics and Physics Joint Major (B.Sc. only)
- 8. Biology and Statistics Joint Honours (B.Sc. only)
- 9. Computer Science and Pure Mathematics Joint Honours (B.Sc. only)
- 10. Computer Science and Pure Mathematics Joint Major (B.Sc. only)
- 11. Computer Science and Statistics Joint Honours (B.Sc. only)
- 12. Computer Science and Statistics Joint Major (B.Sc. only)
- 13. Economics and Pure Mathematics Joint Major (B.Sc. only)
- 14. Economics and Statistics Joint Major (B.Sc. only)
- 15. Economics (Co-operative) and Statistics Joint Major (B.Sc. only)
- 16. Mathematics Minor
- 17. Pure Mathematics Honours
- 18. Pure Mathematics Major
- 19. Pure Mathematics and Statistics Joint Honours
- 20. Statistics Honours
- 21. Statistics Major
- 22. Statistics Minor

11.20 Medieval Studies

www.mun.ca/mst

Program Coordinator: Dr. S. O'Neill, Department of Philosophy

The Major in Medieval Studies and the Minor in Medieval Studies are interdisciplinary Arts programs that aim to promote the integrated study of the Middle Ages, here defined as the period between Antiquity and the Modern Age. Such an approach, which coordinates the methods and subjects of several disciplines, mirrors the pluralistic and interreligious framework of the age. Core courses in Medieval Studies are intended to integrate the material and provide a common focus at the beginning of the programs.

Medieval Studies course descriptions are found at the end of the Faculty of Arts section under Course Descriptions, Medieval Studies and are designated by MST.

11.20.1 Bachelor of Arts Degree Requirements

The Bachelor of Arts requires the successful completion of a minimum of 120 credit hours. A student must meet the requirements for a departmental Major, Minor, or Honours program and also meet the Program Regulations – General and Honours Degrees for the Faculty of Arts. A student is therefore advised to consult with the Admission to the Bachelor of Arts General Degree Programs regulations, the Program Regulations – General and Honours Degrees which also includes the Bachelor of Arts General Degree Components, The Major Program, and The Minor Program regulations. Information regarding honours programs is available at Bachelor of Arts (Honours) Degree Regulations as well as under each department’s regulations.

A student is strongly encouraged to consult with an academic advisor to discuss available programs and requirements in the Faculty of Arts including the Core Requirements, The Major Program, The Minor Program, and the Bachelor of Arts (Honours) Degree Regulations. A student is advised to declare a program of study, including a Major and a Minor, before completing the first 45 credit hours of study. Information about declaring a Major and Minor in the Faculty of Arts and a list of advisors is available at www.mun.ca/
11.20.2 Advising
Due to the nature of interdisciplinary programming, students must carefully plan their course selection and regularly consult with the Program Coordinator. Questions about the delivery of a course should be directed to the appropriate academic unit.

11.20.3 Declaring the Interdisciplinary Major or Interdisciplinary Minor in Medieval Studies
Students wishing to declare a Major or Minor in Medieval Studies shall consult with the Program Coordinator to discuss the requirements of the program. Information about declaring a program of study in the Faculty of Arts is available at www.mun.ca/arts/programs/undergraduate/ideclare.php.

11.20.4 Regulations for the Interdisciplinary Major in Medieval Studies
1. A Major in Medieval Studies consists of all the general requirements of the Bachelor of Arts program, including a minimum of 36 credit hours in courses selected from Table 1 Core Faculty of Arts Courses for the Major or Minor in Medieval Studies and Table 2 Other Faculty of Arts Courses for the Major or Minor in Medieval Studies below as follows:
   a. as per the General Regulations for Interdisciplinary Major and Minor Programs, courses from a minimum of any three Arts disciplines, and no more than 15 credit hours in any one Arts discipline other than Medieval Studies;
   b. a minimum of 12 credit hours chosen from Table 1 Core Faculty of Arts Courses for the Major or Minor in Medieval Studies, which must include Medieval Studies 2000, at least one of MST 2001 or 2002, and include a minimum of 6 credit hours at the 3000-level or above;
   c. a minimum of 6 credit hours in the study of the Latin language, normally Classics 1120 and 1121; and
   d. a minimum of 18 additional credit hours chosen from Table 1 Core Faculty of Arts Courses for the Major or Minor in Medieval Studies and/or Table 2 Other Faculty of Arts Courses for the Major or Minor in Medieval Studies, including a minimum of 6 credit hours in courses at the 4000-level. Courses at the 3000-level or above are recommended.
2. As per the General Regulations for Interdisciplinary Major and Minor Programs, students completing a Major in Medieval Studies must also choose a single-discipline Minor or a Major in single-discipline.

11.20.5 Regulations for the Interdisciplinary Minor in Medieval Studies
1. The Minor in Medieval Studies consists of a minimum of 24 credit hours in courses chosen from Table 1 Core Faculty of Arts Courses for the Major or Minor in Medieval Studies and Table 2 Other Faculty of Arts Courses for the Major or Minor in Medieval Studies below as follows:
   a. as per the General Regulations for Interdisciplinary Major and Minor Programs, courses from a minimum of any three Arts disciplines, and no more than 15 credit hours in any one Arts discipline other than Medieval Studies;
   b. a minimum of 12 credit hours chosen from Table 1 Core Faculty of Arts Courses for the Major or Minor in Medieval Studies, which must include MST 2000, at least one of MST 2001 or 2002 and;
   c. a minimum of 12 additional credit hours chosen from Table 1 Core Faculty of Arts Courses for the Major or Minor in Medieval Studies and/or Table 2 Other Faculty of Arts Courses for the Major or Minor in Medieval Studies, including a minimum of 3 credit hours in courses at the 4000-level. Courses at the 3000-level or above are recommended.
2. As per the General Regulations for Interdisciplinary Major and Minor Programs, students completing a Minor in Medieval Studies must choose a single discipline Major.

11.20.6 Course List
1. Interdisciplinary programs provide exposure to courses in various disciplines within the Faculty of Arts. Table 1 courses are Faculty of Arts courses that are fundamental to the program of study. Subject to the program regulations, they may be supplemented with Table 2 courses whose Calendar entry emphasizes the history, culture, thought, religion and/or languages of the Middle Ages. Not all courses are necessarily offered each year. Students must be careful not to register for different designations of the same course that is crosslisted with different departments. Normal departmental prerequisites for courses are applicable.
2. As per the General Regulations for Interdisciplinary Major and Minor Programs, no more than 6 credit hours at Memorial University of Newfoundland that are not listed in the Faculty of Arts Course Descriptions may be deemed eligible towards the Major, and no more than 3 such credit hours may be deemed eligible for the Minor. Undergraduate courses not delivered by the Faculty of Arts that have been approved as Table 2 electives for the Medieval Studies programs include Biology 4270, Music 2005.

| Table 1 Core Faculty of Arts Courses for the Major or Minor in Medieval Studies |
|------------------|------------------|------------------|
| 2000 Level Courses | 3000 Level Courses | 4000 Level Courses |
| MST 2000, MST 2001 or History 2320, MST 2002 or History 2330 | MST 3000 or English 3002 or History 3000 or Religious Studies 3000 | MST 4000-4020, MST 4021 or Classics 4202 |
| MST 3001 or Archaeology 3001 or Folklore 3001 or History 3020 | MST 3003 or Religious Studies 3560 | MST 3004 or Philosophy 3760 |
| MST 3006 or English 3006 or Gender Studies 3001 | MST 3710-3729 | MST 3006-3020 |
11.20.7 Previous Calendar Regulations
In accordance with UNIVERSITY REGULATIONS - Degree and Departmental Regulations, Year of Degree and Departmental Regulations - Faculty of Arts and Faculty of Science, candidates for an Interdisciplinary Major or Minor in Medieval Studies who had completed a 2000-level course or above in Medieval Studies prior to September 2014 will normally follow the program regulations in effect at that time. Such students may instead elect to follow the Medieval Studies program regulations outlined in this version of the Calendar. These “grandparented” students are encouraged to consult the Program Coordinator for assistance with course selection.

11.21 Newfoundland and Labrador Studies
www.mun.ca/nlst
Program Supervisor: Dr. P. De Decker, Department of Linguistics
The Minor in Newfoundland and Labrador Studies is an interdisciplinary Arts program that aims to encourage students to better understand the histories, social culture, languages, geographies, scientific knowledges, philosophies, and contemporary experiences of Newfoundland and Labrador. Upon completion of the program, students should have an improved ability to contextualize Newfoundland and Labrador’s place in Canada and the world, including an ability to site case studies that have application to broader knowledge development.

11.21.1 Bachelor of Arts Degree Requirements
The Bachelor of Arts requires the successful completion of a minimum of 120 credit hours. A student must meet the requirements for a departmental Major, Minor, or Honours program and also meet the Program Regulations – General and Honours Degrees for the Faculty of Arts. A student is therefore advised to consult with the Admission to the Bachelor of Arts General Degree Programs regulations, the Program Regulations - General and Honours Degrees which also includes the Bachelor of Arts General Degree Components, The Major Program, and The Minor Program regulations. Information regarding honors programs is available at Bachelor of Arts (Honours) Degree Regulations as well as under each department’s regulations.

A student is strongly encouraged to consult with an academic advisor to discuss available programs and requirements in the Faculty of Arts including the Core Requirements, The Major Program, The Minor Program, and the Bachelor of Arts (Honours) Degree Regulations. A student is advised to declare a program of study, including a Major and a Minor, before completing the first 45 credit hours of study. Information about declaring a Major and Minor in the Faculty of Arts and a list of advisors is available at www.mun.ca/arts/programs/undergraduate/declare.php.

11.21.2 Advising
Due to the nature of interdisciplinary programming, students must carefully plan their course selection and regularly consult with the Program Coordinator. Questions about the delivery of a course should be directed to the appropriate academic unit.

11.21.3 Declaring the Interdisciplinary Minor in Newfoundland and Labrador Studies
Students wishing to declare a Minor in Newfoundland and Labrador Studies shall consult with the Program Coordinator to discuss the requirements of the program. Information about declaring a program of study in the Faculty of Arts is available at www.mun.ca/arts/programs/undergraduate/declare.php.

11.21.4 Regulations for the Interdisciplinary Minor in Newfoundland and Labrador Studies
1. A Minor in Newfoundland and Labrador Studies consists of a minimum of 24 credit hours in courses selected from Table 1 Core Faculty of Arts Courses for the Minor in Newfoundland and Labrador Studies and Table 2 Other Faculty of Arts Courses for the Minor in Newfoundland and Labrador Studies below as follows:
   a. as per the General Regulations for Interdisciplinary Major and Minor Programs, courses from a minimum of any three Arts disciplines, and no more than 15 credit hours in any one discipline;
   b. a minimum of 15 credit hours selected from Table 1 Core Faculty of Arts Courses for the Minor in Newfoundland and Labrador Studies; and
   c. a minimum of 9 additional credit hours, selected from Table 1 Core Faculty of Arts Courses for the Minor in Newfoundland and Labrador Studies and/or Table 2 Other Faculty of Arts Courses for the Minor in Newfoundland and Labrador Studies, including at least 3 credit hours at the 4000 level and at least one additional course at the 3000 or 4000 level.

2. As per the General Regulations for Interdisciplinary Major and Minor Programs, students completing a Minor in Newfoundland and Labrador Studies must choose a single discipline Major.

11.21.5 Course List
1. Interdisciplinary programs provide exposure to courses in various disciplines within the Faculty of Arts. Table 1 courses are Faculty of Arts courses that are fundamental to the program of study. Subject to the program regulations, they may be supplemented with Table 2 courses whose Calendar entry establishes an emphasis on the study of Newfoundland and/or Labrador. Not all courses are necessarily offered each year. Students must be careful not to register for different designations of the same course that is
crosslisted with different departments. Normal departmental prerequisites for courses are applicable.

2. As per the General Regulations for Interdisciplinary Major and Minor Programs, no more than 3 credit hours from a Faculty other than courses delivered by the Faculty of Arts may be deemed eligible towards the Minor. Undergraduate courses not delivered by the Faculty of Arts that have been approved as Table 2 electives include Education 3571; Music 2021, 2022, 2023.

11.21.6 Previous Calendar Regulations

In accordance with UNIVERSITY REGULATIONS - Degree and Departmental Regulations, Year of Degree and Departmental Regulations - Faculty of Arts and Faculty of Science, candidates for a Minor in Newfoundland and Labrador Studies who had completed a 2000-level course or above in Newfoundland and Labrador Studies prior to September 2014 will normally follow the program regulations in effect at that time. Such students may instead elect to follow the Newfoundland and Labrador Studies program regulations outlined in this version of the Calendar. These “grandparented” students are encouraged to consult the Program Coordinator for assistance with course selection.

11.22 Philosophy

www.mun.ca/philosophy

11.22.1 General

Philosophy courses may be taken singly as general arts electives or as part of a Minor, Major, Honours or multidisciplinary program. Normally, Philosophy 1200 is a prerequisite for all philosophy courses at the 3000 level and above.

Philosophy course descriptions are found at the end of the Faculty of Arts section under Course Descriptions, Philosophy and are designated by PHIL.

11.22.2 Bachelor of Arts Degree Requirements

The Bachelor of Arts requires the successful completion of a minimum of 120 credit hours. A student must meet the requirements for a departmental Major, Minor, or Honours program and also meet the Program Regulations - General and Honours Degrees for the Faculty of Arts. A student is therefore advised to consult with the Admission to the Bachelor of Arts General Degree Programs regulations, the Program Regulations - General and Honours Degrees which also includes the Bachelor of Arts General Degree Components, The Major Program, and The Minor Program regulations. Information regarding honours programs is available at Bachelor of Arts (Honours) Degree Regulations as well as under each department’s regulations.

A student is strongly encouraged to consult with an academic advisor to discuss available programs and requirements in the Faculty of Arts including the Core Requirements, The Major Program, The Minor Program, and the Bachelor of Arts (Honours) Degree Regulations. A student is advised to declare a program of study, including a Major and a Minor, before completing the first 45 credit hours of study. Information about declaring a Major and Minor in the Faculty of Arts and a list of advisors is available at www.mun.ca/arts/programs/undergraduate/declare.php.

11.22.3 Major Program

Students declaring a Major in Philosophy must choose a program advisor in consultation with the Head of the Department or Undergraduate Officer and the faculty member concerned.

The major program in Philosophy consists of a minimum of 36 credit hours in courses chosen in accordance with the following requirements:

1. Philosophy 1200, Philosophy 2000 or 2220, Philosophy 2210, Philosophy 2230 or 3400, Philosophy 2701 or 2702
2. 3 credit hours from Philosophy 3120 to 3620 (excluding Philosophy 3400 if previously completed to fulfill the requirements in 1. above).
3. 3 credit hours from Philosophy 3730-3790
4. 3 credit hours from Philosophy 3800-3851
5. 3 credit hours from Philosophy 3860-3890
6. 3 credit hours from the former Philosophy 3900-3950
7. 3 credit hours from the Philosophy 4700-4790 series
8. 3 credit hours from the Philosophy 4800-4890 series

11.22.4 Minor Program
Students declaring a Minor in Philosophy may choose to have a program advisor by mutual agreement with a member of the Philosophy Department.

The minor program in Philosophy consists of a minimum of 24 credit hours in courses which must be chosen in accordance with the following requirements:
1. Philosophy 1200, Philosophy 2000 or 2210 or 2220, Philosophy 2230 or 3400, Philosophy 2701 or 2702;
2. 3 credit hours from Philosophy 3120 to the former 3950 (excluding Philosophy 3400 if previously completed to fulfill the requirements in 1. above);
3. an additional 6 credit hours in Philosophy courses at the 3000-level or higher; and
4. 3 credit hours from 4000-level courses

11.22.5 Honours Program
The full Honours program requires a minimum of 60 credit hours in Philosophy courses; Joint Honours requires a minimum of 45 credit hours in Philosophy courses. These must include:
1. Philosophy 1200, Philosophy 2000 or 2220, Philosophy 2210, Philosophy 2230, Philosophy 3400, Philosophy 2701 or 2702;
2. 3 credit hours from Philosophy 3120 to 3620 (excluding Philosophy 3400 if previously completed to fulfill the requirements in 1. above);
3. 3 credit hours from Philosophy 3730-3790;
4. 3 credit hours from Philosophy 3800-3851;
5. 3 credit hours from Philosophy 3860-3890;
6. 3 credit hours from the former Philosophy 3900-3950;
7. 3 credit hours from the Philosophy 4700-4790 series;
8. 3 credit hours from the Philosophy 4800-4890 series;
9. an additional 3 credit hours in courses at the 4000-level;
10. either Philosophy 4998 or 4999;
11. candidates for Joint Honours must choose 4998;
12. candidates for full Honours may take 4999 only with permission of the Department; and
13. other Philosophy courses to a total of 60 credit hours for full Honours, 45 credit hours for Joint Honours.
14. Candidates for Joint Honours who elect to fulfill the honours requirement in the other discipline are not required to take the Comprehensive Examination. (See Bachelor of Arts (Honours) Degree Regulations.

11.23 Police Studies
www.mun.ca/plst
Program Coordinator: Dr. A. Hall, Department of Sociology

The Major in Police Studies is an interdisciplinary Arts program that aims to promote the academic study of different facets of police institutions and practices, including the legal, political and social contexts in which they operate. This program would be beneficial for students with a scholarly interest in policing, corrections or law enforcement, including those who have completed the Diploma in Police Studies; experienced police officers; and others working in a policing environment. The Major in Police Studies does not constitute a qualification in policing.

Police Studies course descriptions are found at the end of the Faculty of Arts section under Course Descriptions, Police Studies and are designated by PLST.

11.23.1 Bachelor of Arts Degree Requirements
The Bachelor of Arts requires the successful completion of a minimum of 120 credit hours. A student must meet the requirements for a departmental Major, Minor, or Honours program and also meet the Program Regulations – General and Honours Degrees for the Faculty of Arts. A student is therefore advised to consult with the Admission to the Bachelor of Arts General Degree Programs regulations, the Program Regulations – General and Honours Degrees which also includes the Bachelor of Arts General Degree Components, The Major Program, and The Minor Program regulations. Information regarding honours programs is available at Bachelor of Arts (Honours) Degree Regulations as well as under each department’s regulations.

A student is strongly encouraged to consult with an academic advisor to discuss available programs and requirements in the Faculty of Arts including the Core Requirements, The Major Program, The Minor Program, and the Bachelor of Arts (Honours) Degree Regulations. A student is advised to declare a program of study, including a Major and a Minor, before completing the first 45 credit hours of study. Information about declaring a Major and Minor in the Faculty of Arts and a list of advisors is available at www.mun.ca/arts/programs/undergraduate/declare.php.

11.23.2 Advising
Due to the nature of interdisciplinary programming, students must carefully plan their course selection and regularly consult with the Academic Planning Manager. Questions about the delivery of a course should be directed to the appropriate academic unit. Students should contact the Academic Planning Manager to discuss the planning of their program by June 1st for Fall admission and by October 1st for Winter admission.

11.23.3 Declaring the Interdisciplinary Major in Police Studies
Students wishing to declare a Major in Police Studies shall consult with the Academic Planning Manager to discuss the requirements of the program. Information about declaring a program of study in the Faculty of Arts is available at www.mun.ca/arts/programs/undergraduate/declare.php.
11.23.4 Regulations for the Interdisciplinary Major in Police Studies

1. A Major in Police Studies consists of all the general requirements of the Bachelor of Arts program, including a minimum of 36 credit hours in courses selected from Table 1 Core Faculty of Arts Courses for the Major in Police Studies and Table 2 Other Faculty of Arts Courses for the Major in Police Studies below as follows:
   a. courses from a minimum of any three Arts disciplines, and no more than 15 credit hours in any one Arts discipline other than Police Studies;
   b. a minimum of 15 credit hours in Police Studies courses, including PLST 2000, at least one of 3000 or 3500, and at least one of 4000 or 4001;
   c. a minimum of 9 additional credit hours chosen from Table 1 Core Faculty of Arts Courses for the Major in Police Studies, Sociology 3040 and 3041 are recommended choices; and
   d. a minimum of 12 additional credit hours selected from Table 1 Core Faculty of Arts Courses for the Major in Police Studies and/or Table 2 Other Faculty of Arts Courses for the Major in Police Studies including at least one further 4000-level course.

2. As per the General Regulations for Interdisciplinary Major and Minor Programs, students completing a Major in Police Studies must also choose a single-discipline Minor or a single-discipline Major.

11.23.5 Recognition of Qualifications for Experienced Officers

Subject to the prior approval of the Program Coordinator, individuals who have completed a recognized Canadian police cadet training program and experienced police officers who have completed eligible qualifications through recognized post-secondary institutions may be eligible to receive credit at the undergraduate level that may, in turn, be used towards meeting the requirements for the Major in Police Studies. An Application for Transfer Credit Evaluation, including official documentation confirming program completion, must be submitted to the Office of the Registrar to have training assessed and recognized for transfer credit. The Application may be obtained at www.mun.ca/regoff/admission/Transfer_Credit_Evaluation_2013.pdf or in-person at the Office of the Registrar.

11.23.6 Course List

1. Interdisciplinary programs provide exposure to courses in various disciplines within the Faculty of Arts. Table 1 core courses are Faculty of Arts courses that are fundamental to the program of study. Subject to the program regulations, they may be supplemented with Table 2 courses whose Calendar entry establishes an emphasis on the scholarly study of specific social, legal, institutional and/or political contexts of policing. Not all courses are necessarily offered each year. Students must be careful not to register for different designations of the same course that is crosslisted with different departments. Normal departmental prerequisites for courses are applicable.

2. As per the General Regulations for Interdisciplinary Major and Minor Programs, up to 6 credit hours obtained in undergraduate courses at Memorial University of Newfoundland that are not listed in the Faculty of Arts Course Descriptions may be deemed eligible towards the Major in Police Studies. Undergraduate courses not delivered by the Faculty of Arts that have been approved as Table 2 electives include Education 3255, 3620; Psychology 2150, 2440, 2800, 3640; Social Work 1710.

11.23.7 Previous Calendar Regulations

In accordance with UNIVERSITY REGULATIONS - Degree and Departmental Regulations, Year of Degree and Departmental Regulations - Faculty of Arts and Faculty of Science, candidates for the former Major in Police Studies who had completed a 2000-level course or above in that program prior to September 2014 will normally follow the program regulations in effect at that time. Such students may instead elect to follow the Major in Police Studies program regulations outlined in this version of the Calendar. These “grandparented” students are encouraged to consult the Program Coordinator for assistance with course selection.

11.24 Political Science

www.mun.ca/posc

The following undergraduate programs are available in the Department of Political Science:

1. Honours in Political Science
2. Major in Political Science
3. Honours and Major in Political Science (Co-operative)
4. Minor in Political Science

The Department also offers two Political Science concentrations: a concentration in Canadian Government and a concentration in...
Global Studies. These concentrations are applicable to all programs in Political Science other than the Minor. Political Science course descriptions are found at the end of the Faculty of Arts section under Course Descriptions, Political Science and are designated by POSC.

11.24.1 Bachelor of Arts Degree Requirements

The Bachelor of Arts requires the successful completion of a minimum of 120 credit hours. A student must meet the requirements for a departmental Major, Minor, or Honours program and also meet the Program Regulations – General and Honours Degrees for the Faculty of Arts. A student is therefore advised to consult with the Admission to the Bachelor of Arts General Degree Programs regulations, the Program Regulations - General and Honours Degrees which also includes the Bachelor of Arts General Degree Components, The Major Program, and The Minor Program regulations. Information regarding honours programs is available at Bachelor of Arts (Honours) Degree Regulations as well as under each department’s regulations.

A student is strongly encouraged to consult with an academic advisor to discuss available programs and requirements in the Faculty of Arts including the Core Requirements, The Major Program, The Minor Program, and the Bachelor of Arts (Honours) Degree Regulations. A student is advised to declare a program of study, including a Major and a Minor, before completing the first 45 credit hours of study. Information about declaring a Major and Minor in the Faculty of Arts and a list of advisors is available at www.mun.ca/arts/programs/undergraduate/declare.php.

11.24.2 General Information

1. Students for an Honours, a Major or a Minor in Political Science may consult with the Head of the Department or its Undergraduate Advisor to receive advice on Political Science course selections.
2. The Department's website at www.mun.ca/posc features details about upcoming course offerings, course instructors, the undergraduate (Honours, Major, Minor) and graduate (Master of Arts) programs, work internships, studying abroad opportunities, special events, frequently asked questions, and more. In the event of conflicting information, the official University Calendar and information issued by the Office of the Registrar shall take precedence.
3. Anticipated completion of an introductory course is generally recommended prior to enrolling in a corresponding course at the next level. Students following this path may opt to take courses in the same area in the same academic year (e.g., if a 2000-level course is completed in Fall then a corresponding 3000-level course may be taken in Winter). This is presented, for illustrative purposes only, in Table 1 Recommended Course Sequencing by Student’s Area of Interest

With the written consent of the course instructor and the Head of the Department, certain prerequisite requirements may be waived.

11.24.2.1 Course Prerequisites

1. The following prerequisite schedule applies to Political Science courses, except Co-operative work term courses.
2. All research techniques courses POSC 2010, 3010, 4010, 4011 have prerequisites specified in their descriptions.
3. 1000-level: No prerequisites. Suitable for students in all disciplines.
4. 2000-level: Except for POSC 2100, no prerequisites. Completion of POSC 1000 is generally recommended.
5. 3000-level: Except for POSC 3010, no prerequisites. Completion of a corresponding 2000-level area introduction course is generally recommended as outlined under Table 1 Recommended Course Sequencing by Student’s Area of Interest.
6. 4000-level: Prerequisites are specified in course descriptions. Completion of at least 12 credit hours in Political Science, including 6 at the 3000-level, is generally recommended.

11.24.2.2 Previous Calendar Regulations

In accordance with UNIVERSITY REGULATIONS - Year of Degree and Departmental Regulations - Faculty of Arts and Faculty of Science, students for a Political Science Honours, Majors or Minor who had completed a 2000-level course or above in Political Science prior to September 2009 will normally follow the departmental regulations in effect at that time. For those students, POSC 2800 may be substituted for 2710; one of POSC 2100, 2600 or 3810 may be substituted for 2711; 3011 need not apply; and prerequisites for 4000-level courses (except POSC 4010, 4011, 4600) may be substituted with at least 12 credit hours in Political Science including at least 6 credit hours at the 3000-level. Such students may instead elect to follow the degree regulations outlined in this version of the Calendar. A student who, prior to September 2009, had completed both of POSC 1010 and 1020 but who had not yet completed a 2000-level course or above in Political Science, is exempted from the 1000 requirement. In all other cases, such as Minors and concentrations, the corresponding renumbered course will apply (e.g., POSC 2100 for 2000, 2800 for 2710).

11.24.3 Honours in Political Science

1. An Honours degree provides students with additional research and writing skills, may be required for admission to a graduate program, and may be useful preparation for law and other professional fields. Students considering the Honours program are encouraged to apply before their fourth semester and to begin considering a potential Honours research topic before their seventh semester. Admission to the program is in accordance with UNIVERSITY REGULATIONS and the Regulations for the Honours Degree of Bachelor of Arts.
2. In addition to meeting the general requirements for the degree, students for a B.A.(Hons.) in Political Science must complete at least 60 credit hours in courses offered by the Department, including:
   a. POSC 1000;
   b. a minimum of 15 credit hours at the 2000-level, which must include POSC 2010, 2100, 2800, and a minimum of two of POSC 2200, 2300, 2600;
c. a minimum of 36 credit hours at the 3000-level or above, which must include:
   i. a minimum of 18 credit hours at the 3000-level, which must include POSC 3010, a minimum of 3 credit hours from a course numbered 32xx or 33xx, and a minimum of 3 credit hours from a course numbered 36xx or 38xx;
   ii. a minimum of 15 credit hours at the 4000-level, which must include POSC 4010, 4011; and
   iii. an additional 3 credit hours at the 3000-level or above; and

d. a further 6 credit hours in Political Science (no more than 3 credit hours from POSC 1010 and 1020).

Notes:
1. No more than one of POSC 1010 or 1020 can be included among the 60 Political Science credit hours required for an Honours degree.
2. For Honours, Philosophy 3870 and 3890 may be substituted for 3000-level Political Science credit hours (31xx), and Gender Studies 4005 may be substituted for 4000-level Political Science credit hours (41xx). No other such substitutions may apply.
3. If the Honours essay topic encompasses one of Canadian Government or Global Studies, the POSC 4010 and 4011 may be applied towards the applicable Political Science concentration, subject to permission of the Head of the Department.

3. Students for an Honours degree are required to select courses as specified under Honours in Political Science. A possible course pattern is presented in Table 2 Course Pattern for an Honours in Political Science.

</tbody>
</table>

4. Prior to enrolling in POSC 4010, all Honours students should review the Guidelines Governing Honours Essays available from the Head of the Department, and are required to follow these guidelines while enrolled in POSC 4010 and 4011.

5. Students electing Joint Honours are required to complete at least 51 credit hours in Political Science, including 42 credit hours chosen in accordance with the pattern set out in the degree regulations for a Bachelor of Arts with a Major in Political Science, which must include POSC 2010. An additional 9 credit hours can be selected from POSC courses, however, no more than 3 credit hours from POSC 1010 or 1020 are eligible. If the student chooses to complete the Honours Essay (POSC 4010 and 4011) in Political Science, it must be passed with a grade of 70% or better.

11.24.4 Major in Political Science

1. In addition to meeting the general requirements for the degree, students for a B.A. with a Major in Political Science must complete at least 42 credit hours in courses offered by the Department, including:
   a. POSC 1000;
   b. a minimum of 12 credit hours at the 2000-level, which must include: POSC 2100, 2800 and a minimum of two of 2200, 2300, 2600;
   c. a minimum of 15 credit hours at the 3000-level, which must include: POSC 3010, a minimum of 3 credit hours from a course numbered 32xx or 33xx, and a minimum of 3 credit hours from a course numbered 36xx or 38xx;
   d. a minimum of 9 credit hours at the 4000-level; and
   e. further 3 credit hours in Political Science.

Notes:
1. No more than one of POSC 1010 or 1020 can be included among the 42 Political Science credit hours required for a Major.
2. POSC 2010 is a recommended choice for a Major.
3. For a Major, Philosophy 3870 and 3890 may be substituted for 3000-level Political Science credit hours (31xx), and Gender Studies 4005 may be substituted for 4000-level Political Science credit hours (41xx). No other such substitutions may apply.

2. Students for a Major degree are required to select courses as specified under Major in Political Science. A possible course pattern is presented in Table 3 Course Pattern for a Major in Political Science.

11.24.5 Political Science Concentrations

While meeting the requirements for a program in Political Science, other than a Minor in Political Science, students may optionally select courses in one of two formal concentrations which, if completed, will be noted on the student’s transcript. A possible course pattern is presented in Table 4 Course Pattern for Optional Political Science (POSC) Concentration.

11.24.5.1 Concentration in Canadian Government

The concentration in Canadian Government is applicable to all programs in Political Science other than the Minor in Political Science. As part of their course selection, students opting for a Canadian Government concentration will complete a minimum of 24 credit hours in POSC courses emphasizing public policy (second digit is “6”) and/or Canadian politics (second digit is “8”). These POSC x6xx and/or x8xx credit hours must include 2600 and 2800, and at least 6 credit hours at the 4000 level.

11.24.5.2 Concentration in Global Studies

The concentration in Global Studies is applicable to all programs in Political Science other than the Minor in Political Science. As part of their course selection, students opting for a Global Studies concentration will complete a minimum of 24 credit hours in POSC courses emphasizing international politics (second digit is “2”) and/or comparative politics (second digit is “3”). These POSC x2xx and/or x3xx credit hours must include 2200 and 2300, and at least 6 credit hours at the 4000 level. Up to 6 credit hours from political theory POSC courses (second digit is “1”) at the 31xx and/or 41xx level may be included among the 24 credit hours.

</tr>
</tbody>
</table>

11.24.6 Honours and Major in Political Science (Co-operative)

The Political Science Co-operative Education Program (PSCE) is available to full-time Political Science Honours and Majors students only.

The PSCE provides an opportunity for students to obtain public policy and other relevant full-time employment experience in fields related to Political Science, particularly governmental organizations. Students will apply their academic knowledge to practical situations as they develop their research, analysis and writing skills, as well as their career interests. A commitment to ethical and professional conduct is expected of all students.

Candidates who are accepted into the PSCE must complete the normal requirements for their degree, as well as three full-time work terms. In addition to following the PSCE regulations, students must satisfy the Bachelor of Arts General Degree Regulations, the Bachelor of Arts (Honours) Degree Regulations, and the Department’s requirements for the Honours in Political Science or the Major in Political Science, as applicable. Additional information about the PSCE can be found on the Department of Political Science website at www.mun.ca/posc.

11.24.6.1 Eligibility for Admission

Admission to the Political Science Co-operative Education Program is competitive and selective.

The primary criterion used in reaching decisions on applications is overall academic achievement.

Application forms can be obtained from the Department. The annual deadline for application is November 15 (or the next business day). An application should be made in the Fall when a student expects to have completed a minimum of 42 credit hours, including POSC 1000 and 2800, by the end of that semester.

Admission criteria include, but are not necessarily limited to, the following:

a. students currently enrolled in the Honours in Political Science or a Major in Political Science; and
b. an overall average of at least 65%, and a minimum average of 70% in Political Science courses.

c. Applicants transferring from another institution must normally have completed at least one semester at Memorial University of Newfoundland before applying to the program.

d. Applicants may be asked to attend an interview.

11.24.6.2 Program of Study

a. In addition to the requirements below students must fulfill all requirements for either a Honours or Major in Political Science.

b. Students’ status in the program is assessed at the end of each semester. To be eligible to continue, students must maintain full-time student status (9 or more credits in a semester) and maintain a cumulative average of at least 65% and an average of at least 70% in Political Science courses. Students who fail to maintain the required averages will be required to withdraw from the PSCE. Such students may apply for readmission in a subsequent year after re-establishing the required averages.

c. Students must complete three work terms, at least one of which must occur during a Fall or Winter semester. No more than two of the three work terms may be completed consecutively.

d. Work terms normally begin after the student has completed four academic terms. The final work term must be completed before the final academic term.

Course patterns may vary. Students are encouraged to meet with the undergraduate coordinator early in their program in order to establish a course pattern that meets the requirements as set out in these regulations.

11.24.6.3 Preparation for Work Placements

The Program is coordinated by the Academic Staff Member in Co-operative Education in consultation with a designated Department faculty member.

a. A student admitted to the co-op program gives permission to the University to provide a copy of the student’s résumé and university transcript to potential employers.

b. The dates for starting and finishing each work term are shown in the University Diary. At the start of the job competition students will normally be provided with a detailed description of each available position. Work placements cannot be guaranteed though every effort is made to ensure that appropriate employment is made available. With the express permission of the Academic Staff Member in Co-operative Education, students may identify and initiate contact with a potential employer outside of the placement competition, though the designated faculty member must ultimately approve all positions. Such jobs must be confirmed by letter from the
11.24.6.4 Delivery of Work Term Placements
a. At least one work term must occur in a Fall or Winter semester. The final work term must be completed before the final academic term. Competition for placements is heaviest in the Spring semester and students are strongly recommended to complete one Spring placement outside of the St. John’s area. With permission of the Academic Staff Member in Co-operative Education, and in consultation with the designated faculty member, a student may complete a maximum of two work terms in consecutive semesters.
b. Within two weeks of starting a work term, students must submit a completed confidentiality and professional conduct agreement and a plan of learning objectives for that placement to the Academic Staff Member in Co-operative Education. The placement should normally entail 35 hours of work per week for 12 weeks for a minimum total of 420 hours. Students must maintain an attendance form that must be regularly initialed by the employer and a completed copy must be submitted with the end of term requirements.
c. Remuneration for work placements is determined by employers based on their internal wage structures. Students must not expect any such income to make them completely self-supporting.

11.24.6.5 Evaluation of Work Term Placements
a. The first of three components of a work term evaluation will be the preparation of policy instruments such as a briefing note on a topical issue relevant to the student’s placement. This will be assigned and assessed by the designated faculty member who will consider it when arriving at the final grade for POSC 250W, 360W or 460W as applicable. Evaluation of the policy instrument(s) will result in one of the following classifications: pass or fail.
b. The second evaluation component will be of a student’s on-the-job performance. This will be assessed by the Academic Staff Member in Co-operative Education. Formal written documentation from the employer will be sought. Evaluation of on-the-job performance will result in one of the following classifications: pass with distinction, pass, or fail.
c. The third evaluation component will be of an oral or written assignment, to be determined by the Academic Staff Member in Co-operative Education. The assignment must be submitted to the Academic Staff Member in Co-operative Education on the first day of the final examination period and will be evaluated by the Academic Staff Member in Co-operative Education. When preparing the assignment the student must continue to respect the confidentiality of the employer. Evaluation will result in one of the following classifications: pass with distinction, pass, or fail.
d. Evaluation of the policy instrument(s), job performance and third evaluation component are recorded separately on the student’s transcript.
e. Overall evaluation of the work term will result in one of the following final grades being awarded for POSC 260W, 360W or 460W as applicable, which will be noted on the student’s transcript:
   - **Pass with Distinction**: Indicates that the student received a passing grade on the policy instrument(s) and a pass with distinction on both the on-the-job performance and the third evaluation component.
   - **Pass**: Indicates that the student received a passing grade on the policy instrument(s) and at least a pass on both the on-the-job performance and the third evaluation component.
   - **Fail**: Indicates failing performance in one or more of the three evaluation components.
f. To be eligible for promotion from the work term and continuation in the PSCE a student must not be awarded a Fail. Students should also refer to the UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate). If a student fails the work term the student will be required to withdraw from the PSCE. Such a student may reapply to the program after a lapse of two semesters, at which time the student will be required to repeat the work term with satisfactory performance. A given work term may be repeated only once and only one work term may be repeated in the entire Program.
g. A student who accepts a job placement and who subsequently withdraws from a work term without acceptable cause will be required to withdraw permanently from the PSCE. Students who drop a work term without prior approval from both the Academic Staff Member in Co-operative Education and the designated faculty member, or who do not honour an agreement to work with an employer, or who conduct themselves in such a manner as to cause their discharge from the job, will normally be awarded a grade of Fail for the work term in question. Permission to drop a work term does not constitute a waiver of degree requirements and students who have obtained such permission must complete an approved work term in lieu of the one dropped.

11.24.7 Minor in Political Science
1. Students for a Minor in Political Science must complete at least 24 credit hours in courses offered by the Department, including:
   a. POSC 1000;
   b. a minimum of 6 credit hours at the 2000-level, which must include POSC 2800; and
   c. a minimum of 12 credit hours at the 3000-level or above, which must include at least 3 credit hours at the 4000-level.

   Notes: 1. No more than one of POSC 1010 or 1020 can be included among the 24 POSC credit hours required for a Minor.
         2. POSC 2010 and 3010 are recommended choices for a Minor.
         3. For a minor, credit hours in another discipline may not be substituted for POSC credit hours.

2. Students for a Minor are required to select courses as specified under Minor in Political Science. A possible course pattern is presented in Table 7 Course Pattern for a Minor in Political Science.
Table 7 Course Pattern for a Minor in Political Science (POSC)

11.25 Psychology

For Departmental Regulations and Course Descriptions, see Faculty of Science section of the Calendar.

The following undergraduate programs are available in the Department of Psychology:

1. Biochemistry and Psychology (Behavioural Neuroscience) Joint Honours (B.Sc. Hons. only)
2. Biochemistry (Nutrition) and Psychology (Behavioural Neuroscience) Joint Honours (B.Sc. Hons. only)
3. Biology and Psychology Joint Honours (B.Sc. Hons. only)
4. Biology and Psychology (Behavioural Neuroscience) Joint Honours (B.Sc. Hons. only)
5. Major and Honours in Behavioural Neuroscience (B.Sc. only)
6. Major and Honours in Psychology (B.A. or B.Sc.)
7. Minor in Psychology (B.A. or B.Sc.)

11.26 Religious Studies

www.mun.ca/relstudies

1. Courses in Religious Studies are designed for students who wish to study religion as an academic discipline. They are open to all students on the same basis as are other courses in the Faculty of Arts. They are recommended for a. students who wish to gain an understanding of the essential teachings and beliefs of one or more of the major religions; b. students who are interested in careers for which a knowledge of religious thought and practice is useful; and c. students who are interested in exploring this field as an area of scholarly interest and human concern.

2. Those who plan to teach religion in the schools should complete a major or minor under the degree of Bachelor of Arts or a concentration in Religious Studies under the degree of Bachelor of Education (Primary/Elementary).

3. Religious Studies 1000, 1010, 1020, 1021, 1022, 1032, and 1200 are basic courses which introduce students to the academic study of religion. Religious Studies 1040 and 1041 (Introduction to Chinese) and Religious Studies 1050 and 1051 (Introduction to Biblical Hebrew) are courses which fulfill the language requirement in the Faculty of Arts.

4. Courses at the 2000 level represent a more focussed level of study. Courses are generally of two types: the first introduces specific religious traditions, and the second introduces religious topics or issues. All courses at the 2000 level are introductory and open to any student interested in the subject.

5. Courses at the 3000 and 4000 level in Religious Studies deal with the subject matter in greater depth and assume some previous knowledge.

6. Unless otherwise specified, Religious Studies courses do not have prerequisites. Students who register in a 3000- or 4000-level course are encouraged, however, to make sure that they have adequate preparation for that course, preferably by having completed a first- or second-year course in the field.

7. Students majoring in Religious Studies should plan their program in consultation with a representative of the Department.

Religious Studies course descriptions are found at the end of the Faculty of Arts section under Course Descriptions, Religious Studies and are designated by RELS.

11.26.1 Bachelor of Arts Degree Requirements

The Bachelor of Arts requires the successful completion of a minimum of 120 credit hours. A student must meet the requirements for a departmental Major, Minor, or Honours program and also meet the Program Regulations - General and Honours Degrees for the Faculty of Arts. A student is therefore advised to consult with the Admission to the Bachelor of Arts General Degree Programs regulations, the Program Regulations - General and Honours Degrees which also includes the Bachelor of Arts General Degree Components, The Major Program, and The Minor Program regulations. Information regarding honours programs is available at Bachelor of Arts (Honours) Degree Regulations as well as under each department’s regulations.

A student is strongly encouraged to consult with an academic advisor to discuss available programs and requirements in the Faculty of Arts including the Core Requirements, The Major Program, The Minor Program, and the Bachelor of Arts (Honours) Degree Regulations. A student is advised to declare a program of study, including a Major and a Minor, before completing the first 45 credit hours of study. Information about declaring a Major and Minor in the Faculty of Arts and a list of advisors is available at www.mun.ca/arts/programs/undergraduate/declare.php.

11.26.2 General Degree

11.26.2.1 Major in Religious Studies

1. A minimum of 36 credit hours in courses in Religious Studies is required. Students must complete at least one course from each of the following groups:
The following undergraduate programs are available in the Department:

1. Major in Sociology
2. Minor in Sociology
3. Honours in Sociology

11.27 Sociology
www.mun.ca/soc

11.27.1 Programs in Sociology
The following undergraduate programs are available in the Department:
1. Major in Sociology
2. Minor in Sociology
3. Honours in Sociology

Sociology course descriptions are found at the end of the Faculty of Arts section under Course Descriptions, Sociology and are designated by SOCI.

11.27.2 Bachelor of Arts Degree Requirements
The Bachelor of Arts requires the successful completion of a minimum of 120 credit hours. A student must meet the requirements for a departmental Major, Minor, or Honours program and also meet the Program Regulations – General and Honours Degrees for the Faculty of Arts. A student is therefore advised to consult with the Admission to the Bachelor of Arts General Degree Programs regulations, the Program Regulations - General and Honours Degrees which also includes the Bachelor of Arts General Degree Components, The Major Program, and The Minor Program regulations. Information regarding honors programs is available at Bachelor of Arts (Honours) Degree Regulations as well as under each department’s regulations.

A student is strongly encouraged to consult with an academic advisor to discuss available programs and requirements in the Faculty of Arts, including the Core Requirements, The Major Program, The Minor Program, and the Bachelor of Arts (Honours) Degree Regulations. A student is advised to declare a program of study, including a Major and a Minor, before completing the first 45 credit hours of study. Information about declaring a Major and Minor in the Faculty of Arts and a list of advisors is available at www.mun.ca/arts/programs/undergraduate/declare.php.

11.27.3 Major in Sociology
Students may wish to follow the pattern for the Major in Sociology listed under Table 1 Suggested Course Pattern for a Major in Sociology (SOCI) below.

Students who undertake Sociology as their Major must complete at least 36 credit hours in Sociology as follows:
1. Core courses: Sociology 1000 (or the former 2000), Sociology 3040, Sociology 3041, Sociology 3150, Sociology 3160;
2. At least 6 credit hours in Sociology at the 4000 level;
3. No more than an additional 6 credit hours in courses below the 3000-level may be counted toward the Major; and
4. The remaining courses, for the minimum of 36 credit hours required for the Major, may be selected from any Sociology course at the 3000 and 4000 levels.

#### 11.27.4 Minor in Sociology

Students who undertake Sociology as their Minor must complete at least 24 credit hours in Sociology as follows:

1. Sociology 1000 or the former 2000, Sociology 3040, 3041, 3150, at least 3 credit hours from Sociology courses at the 4000 level, and 9 credit hours in other Sociology courses.

#### 11.27.5 Honours in Sociology

Honours students are required to complete at least 60 credit hours in courses in Sociology including all courses prescribed for the Major in Sociology, and Sociology 4995, and must meet the requirements outlined in the Regulations for the Honours Degree of Bachelor of Arts.

It is possible to complete a Joint Honours program that includes Sociology as one of the Major subjects. Such a program may be arranged in consultation with the Head of the Department of Sociology and the Head of the other Department concerned.

#### 11.27.6 Admission to Honours Program

Admission to the Honours program in the Department of Sociology is competitive and selective. Students who wish to enter this program must submit an “Application for Admission to Honours Program” form to the Department.

To be accepted into the Honours program, a student must not only meet the criteria laid out in the Regulations for the Honours Degree of Bachelor of Arts, but must normally have obtained a cumulative average of at least 75% in 18 credit hours in courses in Sociology which must include Sociology 3040, 3041, 3150, and 3160.

### 12 Course Descriptions

#### 12.1 Anthropology

In accordance with Senate’s Policy Regarding Inactive Courses, the course descriptions for courses which have not been offered in the previous three academic years and which are not scheduled to be offered in the current academic year have been removed from the following listing. For information about any of these inactive courses, please contact the Head of the Department.

Students should note that credit may not be obtained for an Anthropology course if, prior to 2007, the student received credit for that course when it was designated as an Anthropology course.

Anthropology courses are designated by ANTH.

##### 1031 Introduction to Anthropology

Provides an overview of the field of social and cultural anthropology. Diverse case studies will be used to illustrate key anthropological concepts and methods.

CR: the former ANTH 1000 or 2000

##### 2260 War and Aggression

(same as the former Sociology/Anthropology 2260 and the former Sociology 2260) is a critical review of ethological, psychological and sociological approaches to the understanding of violence and organized aggression.

CR: the former Sociology/Anthropology 2260, the former Sociology 2260

UL: not applicable towards the Major or Minor in Anthropology

##### 2280 The City

(same as the former Sociology/Anthropology 2280 and the former Sociology 2280) examines varieties of urban life around the world and through history. The city as habitat and as spectacle.

CR: the former Sociology/Anthropology 2280, the former Sociology 2280

UL: not applicable towards the Major or Minor in Anthropology

##### 2350 Religious Institutions

(same as Religious Studies 2350) is a comparative study of religious institutions and beliefs, calendrical feasts and solemnities, religious roles and hierarchies, ritual innovation and revitalization.

CR: Religious Studies 2350, the former Sociology/Anthropology 2350, the former Sociology 2350

UL: not applicable towards the Major or Minor in Anthropology

##### 2410 Classics in Anthropology

Is an examination of selected milestone monographs, ground-breaking studies for subdisciplinary specialties, and major syntheses. This course qualifies as a Research/Writing course.

##### 2411 Anthropologists in the Field

Is an examination of selected milestone ethnographic research and writing. This course explores how anthropological understanding develops through the experiences and human relationships of anthropologists in the field. This course qualifies as a Research/Writing course.

##### 2412 Threatened Peoples

Is an examination of selected milestone ethnographic research and writing. This course explores how anthropological understanding develops through the experiences and human relationships of anthropologists in the field. This course qualifies as a Research/Writing course.

##### 2413 Culture in a Globalized World

Is an examination of selected milestone ethnographic research and writing. This course explores how anthropological understanding develops through the experiences and human relationships of anthropologists in the field. This course qualifies as a Research/Writing course.

##### 2414 Aboriginal Peoples of North America

Is a survey course dealing with various indigenous peoples of North America.

CR: the former ANTH 3281

##### 3050 Ecology and Culture

Reviews the co-evolution of the fields of ecology and anthropology since the late 19th century and examines the variety of contemporary perspectives on the interaction between social and ecological systems.
3052 Anthropology and Directed Social Change - inactive course.
3053 Anthropology of Religion (same as Religious Studies 3053) is a critical evaluation of anthropological research on religion, centering on seminal thinkers and major theoretical traditions. Special attention is given to the study of belief systems, and to relationships between belief and ritual.
CR: Religious Studies 3053
3054 Play, Games and Sport is an examination of the phenomenon of play in a variety of human cultures, and in such forms of activity as religion, politics, festival, speech, performance, and artistic creation. Principal themes are the functional role of play in social relations, and the meaningful role of play in social thought.
3056 Urban Anthropology is an examination of anthropological studies of urban populations and population segments, such as ethnic groups and categories, occupations, neighbourhoods, etc.
3060 The Idea of Culture is the history of ideas, dealing with the emergence of this key anthropological concept, the meanings it has acquired, its broader implications, and major critiques of its use in the social sciences.
3061 Culture and Social Inequality examines the role of culture in mediating different forms of social inequality, exploring the idea that culture is not only a way of life but also a way of managing power among unequals, from individuals to social classes. Readings in the course concentrate on cultural techniques of social control.
3062 Anthropology in Social Policy-making - inactive course.
3063 The Politics of Ethnicity and Multiculturalism examines anthropological approaches and contributions to debates about ethnicity and multiculturalism.
3064 Anthropology and the Study of Social Problems - inactive course.
3073 Imaginary Worlds explores the anthropology of imaginary worlds, including those created through pseudo-history, on-line gaming, science fiction and fantasy literature, and film. Particular examples will be examined in terms of the ways that social stratification, gender, ethnicity, race, and cultural beliefs become constructed inside of these imaginary worlds.
3082 Banditry, Rebellion, and Social Revolution examines types of social conflict specific to different kinds of class-based society, including social banditry, primitive rebellions, and peasant revolutions. More generally, social conflict is used to explore the variety of ways that pre-industrial societies have been made part of the modern world economy.
3083 Environmental Crises examines the social, cultural, and economic forces that have contributed to rapid resource depletion and other environmental changes during the 20th century and looks at how the impacts of these changes have been experienced in different parts of the world.
3100 Dominance and Power (same as the former Sociology/Anthropology 3100) and the former Sociology 3100) is a study of dominance behavior in human societies, surveying the range from private to public and from openly exploitative to fully legitimate power systems.
CR: the former Sociology/Anthropology 3100, the former Sociology 3100.
3240 Regional Studies: Contemporary Native Peoples of Canada - inactive course.
3241 Regional Studies: The Atlantic - inactive course.
3242 European Societies - inactive course.
3249 Peoples of the Pacific - inactive course.
3254-3257 Regional Studies (same as the former Sociology/Anthropology 3254-3257 and the former Sociology 3254-3257) are interdisciplinary approaches to the study of selected regions.
CR: the former Sociology/Anthropology 3254-3257, the former Sociology 3254-3257
3260 Social and Economic Development (same as Sociology 3260 and the former Sociology/Anthropology 3260) is an examination of theories of development, including a critical analysis of empirical situations to which they are applied.
CR: Sociology 3260, the former Sociology/Anthropology 3260
3280 The Arctic studies cultural, ecologic, economic and social systems in the northern circumpolar regions.
3300 Fieldwork Methods focuses on the process of anthropological fieldwork. Readings, discussions and evaluations will examine a range of issues that include observation, techniques, interviewing, ethical issues, and the interpretation of data. Students will conduct original fieldwork to learn how to apply some of these skills.
CR: the former ANTH 4300
3305 The Anthropology of Gender - inactive course.
3384-3389 Regional Studies in Anthropology
3403 The Anthropology of Travel and Tourism is an exploration of the anthropological study of travel and tourism. Students will learn how to critically evaluate this global industry and consider the role that it plays in the formation of contemporary human identity.
3404 Visual Anthropology explores the use of documentary film, photography, and new digital media in anthropological fieldwork. It also teaches students how anthropologists study visual media such as television, newspapers, popular films, social networking sites, web sites, and photography collections.
3406 The Anthropology of Ritual examines a range of theoretical perspectives, case studies and individual theorists in the study of ritual.
3407 Medical Anthropology focuses on a range of issues including illness, disease and healing, sexuality and reproduction, pandemics and epidemics, medical technology and biocentries.
3408 Engaged Anthropology is a seminar course exploring debates about the potential - and potential pitfalls - of a variety of approaches to publicly engaged anthropology.
3409 War, Violence and Society provides students with a comprehensive understanding of the issues and problems entailed in the anthropological analysis of war and violence. Key topics include: the relationships between war and globalization, political violence and culture, and militarization and social memory.
3410 Classic Theory in Anthropology (same as the former ANTH 4410) follows a historical approach to understanding some of the key theoretical trends in anthropology since the inception of the discipline.
CR: the former ANTH 4410
3411 Anthropology of Foraging deals with societies heavily reliant on hunting, fishing, and gathering wild foods. Industrial and post-industrial settings in which various forms of foraging (including recycling) are the basis for some peoples livelihood will also be considered.
3421-3430 Anthropological Specialties will have a topic of current interest and importance announced by the Department for each term.
3451 Ethnography of Gambling - inactive course.
3452 The Fisheries Revolution - inactive course.
3630 New Media Methods in Social Research (same as Sociology 3630 and the former Sociology/Anthropology 3630) will explore non-print means for recording social behaviour and will utilize various forms of the media as a descriptive and an analytic tool.
CR: Sociology 3630, the former Sociology/Anthropology 3630
3700 Social and Cultural Change - inactive course.
4030 Legal Anthropology - inactive course.
4070 Aboriginal Self-Governance - inactive course.
4071 Social and Cultural Aspects of Health and Illness - inactive course.
4072 Social and Cultural Aspects of Death (same as the former Sociology/Anthropology 4072) covers topics which may include: symbolic meanings and values attached to death; cultural and historical variations in the management of death, e.g. treatment of the 'terminally ill', burial rites, the mourning process, and the social fate of survivors, together with the social and psychological meanings of these behaviours. Open to those without normal prerequisites by permission of the Instructor.
CR: the former Sociology/Anthropology 4072, the former Sociology 4072
4073 Studies in Underclass Life (same as the former Sociology/Anthropology 4073) is a critical inquiry into the social sources of human misery and suffering that characterize life in the underclass.
CR: the former Sociology/Anthropology 4073, the former Sociology 4073
4081 Advanced Seminar in the Anthropology of Gender - inactive course.
4089 Language and Social Change - inactive course.
4200 Anthropology of Economic Processes explores the way in which anthropologists have studied the inter-linkages among economic, social and cultural processes. Topics covered include key concepts and debates in economic anthropology and the way in which different societies and social groups are integrated within global capitalist markets.
4201 Current Debates in the Anthropology of Ireland explores selected current debates in the anthropology of Northern Ireland and the Republic of Ireland. Seminars centre on the critical reading of recent ethnographic
The course considers Ireland, north and south, as a changing scene, assesses the current state of Irish ethnography and considers how the field might develop.

4202-4209 Special Areas in Anthropology is a series of individual or small group tutorials and reading courses on topics of special or current interest. PR: Departmental permission.

4280 Advanced Newfoundland Ethnography - inactive course.

4301 The Intensive Study of One Culture - inactive course.

4302 Ethnographic Life Histories - inactive course.

4412 Contemporary Theory in Anthropology is an evaluation of current approaches to culture and power through a focus on critical issues and major schools of contemporary thought influencing Anthropology in the late 20th and early 21st centuries. Emphasis is placed on major works, paradigms and individual theorists.

4415 Anthropology of Labour examines core issues and problems entailed in the anthropological analysis of work and labour in the context of the global economy.

4416 Anthropology of Slums examines social class forces producing a planet of slums, and details ways that everyday forms of violence, social injustice, and poverty take social shape in the everyday lives of slum dwellers. Among the topics covered are: social class formations, including ghettos, favelas, and shanty towns; surplus populations and disposable peoples resulting from late capitalist globalization; and forms of resistance and struggle that arise within dispossessed populations.

4417 Anthropology of Sound examines how ethnographers do comparative research on the everyday sounds found in people’s daily environments, including music and new media products.

4418 Marx and Anthropological Inquiry examines the uses of Marx’s later writings, especially Capital, in current American Anthropology. The primary focus is on the agenda-setting works of Eric Wolf and David Harvey. Topics include: capital accumulation and the making of localities; primitive accumulation and class formation; uneven development; crises of capitalism and crises of social reproduction; capitalist globalization and disposable surplus populations.

4422 The Craft of Writing Anthropological Narrative is a seminar open to senior students in any discipline, which examines in detail both the mechanics and the sensitivities necessary to produce literate analysis.

4450 Politics of Landscapes - inactive course.

4994 Honours Essay I prepares students for the Honours Essay by helping them refine their research topics; providing them with independent research and writing skills; and offering a structured context in which to conduct the preliminary stages of Honours Essay research and writing. PR: admission to the Honours program in Anthropology.

4995 Honours Essay II is required as part of the Honours program. PR: ANTH 4994

4996 Comprehensive Examination - inactive course.

12.2 Archaeology

In accordance with Senate’s Policy Regarding Inactive Courses, the course descriptions for courses which have not been offered in the previous three academic years and which are not scheduled to be offered in the current academic year have been removed from the following listing. For information about any of these inactive courses, please contact the Head of the Department.

Students should note that credit may not be obtained for an Archaeology course if, prior to 2007, the student received credit for that course when it was designated as an Anthropology course.

Archaeology courses are designated by ARCH.

1030 Introduction to Archaeology and Bioarchaeology is a broad overview of archaeology and Bioarchaeology introducing the concepts of human biological and cultural evolution and the methods and techniques by which these are investigated. The course is designed to provide the basis for further study in the disciplines.

2430 Principles of Bioarchaeology investigates the human animal as we exist now and as we developed through time. Students will discover how the study of fossils, remains, living and extinct primates, and the applications of the principles of genetics, adaptation and variation of human evolution help to provide an understanding of how biology and culture have interacted to produce modern humans. PR: ARCH 1030

2450 Principles of Archaeological Science introduces the student to a broad range of scientific approaches and quantitative methods used in archaeology. The course provides an overview of the historical development of archaeological science and a survey of the analytical techniques used to investigate materials recovered from archaeological contexts, including biomolecular methods, statistical analysis of data, geophysical prospection, dating techniques and quantitative methods of calibration, and remote sensing. All sections of this course follow Quantitative Reasoning Course Guidelines available at www.mun.ca/artsqr.

PR: ARCH 1030

2480 Principles of Archaeology is an introduction to archaeological techniques, methodology and theory. Lectures cover the development of the discipline, techniques of survey and excavation, methods of analysis and the interpretation of prehistory. PR: ARCH 1030

2481 Ancient Civilizations of the Americas is a survey course introducing the archaeology and ethnohistory of various pre-contact civilizations of North, Central and South America. Archaeological Evidence will be used to explore the rise of civilizations in the Americas and particular civilizations will be examined and compared based on ideology, economy and administration. PR: ARCH 1030

2491 Popular Archaeology is a course on how human history is reconstructed from archaeological remains. Methods and techniques of archaeology are illustrated through discussion of archaeological research currently in progress, both in Newfoundland and Labrador and elsewhere in the world. UL: may not be used for credit toward a major or minor in Archaeology

2492 Forensic Archaeology is an examination of procedures and methods used by Biological Anthropologists and archaeologists to obtain data pertinent to investigations by law enforcement and medical authorities; evidence concerning the identification of human remains and the cause, time and manner of death. UL: may not be used for credit toward a major or minor in Archaeology

2493 Archaeology on Film explores the use of archaeology as a popular form of entertainment. Yet, the manner in which archaeology is represented in modern film is hardly realistic, if it is realistic at all. The portrayal of archaeology in popular film will be discussed in order to determine what movies convey to the public about archaeological method and theory as well as the historical stories that archaeologists investigate. UL: may not be used for credit toward a major or minor in Archaeology

2495 Archaeological Frauds and Mysteries will explore the sensationalized and ‘real’ side of archaeology and delve deeper into popular misconceptions of the past. From unraveling the mysteries of Bigfoot to evaluating the evidence for alien life on Earth, students will learn how scientific methodology is used to determine facts from myths in archaeology.

CR: the former ARCH 2491

UL: may not be used for credit toward a major or minor in Archaeology

2590 Basic Research and Writing about the Archaeological Past is aimed at introductory level students who are curious about how archaeologists uncover evidence about the past. It is also designed to help students to become better researchers and writers. Readings will explore a variety of short classics in archaeology, from debates about what makes us human to recent research on the historical archaeology of Newfoundland. This course qualifies as a research writing course.

3001 Art, Architecture and Medieval Life (same as Medieval Studies 3001, History 3020, Folklore 3001) is an examination of the development of medieval art and architecture and of the ways in which they mirror various aspects of life in the Middle Ages. This course will include a discussion of art and architecture in the countryside, in the town, in the castle, in the cathedral and in the cloister.

CR: the former ARCH 3589, Anthropology 3589, Medieval Studies 3001, History 3020, Folklore 3001

PR: it is recommended but not obligatory, that students should have successfully completed one of the following courses: ARCH 2480, the former ARCH 2582, Folklore 1000 or the former 2000, History 2320, Medieval Studies 2001, History 2330/Medieval Studies 2002, or Medieval Studies 2000.

3020 What is Human? discusses how humans have long considered themselves unique. Through readings, discussions and presentations this seminar will explore exactly how distinctive humans are in their biological, behavioural, and intellectual traits and whether there is, in fact, something which sets us apart from all other creatures.

CR: ARCH 2430

3040 The Human Skeleton reflects genetic, environmental and cultural influence. This course, emphasizing identification of individual bones in the skeleton, techniques for obtaining size and shape differences in individual and the entire skeleton, estimation of group numbers and death rates, and diagnosis of disease and other abnormal conditions, provides a means of assessing all of these influences on past human populations.
resource management and theoretical approaches including historical anthropology, ethnohistory, world systems and consumer studies.

CR: History 3582, the former Archaeology 2582, the former History 2582, the former History 3530
PR: Archaeology 1030

3583 Archaeological Field School Orientation is designed to familiarize students with field and laboratory techniques. Students will learn about research design and the methodologies involved in archaeological site survey and mapping. Students will be instructed in the identification of archaeological sites, completion of site inventory forms, the use of surveying instruments, and the creation of accurate site maps, using these instruments as well as the concepts associated with archaeological excavation, mapping, recording and photography. Finally, students will be given basic instruction in artifact identification, processing and cataloguing. This course is intended to be a precursor to Arch 3585 and 3586 (Archaeology Field School).

CR: Arch 2480

3584 Historical Anthropology (same as the former Anthropology 3584 and History 3535) will explore selected issues in historical anthropology. This course is designed as a special reference to the Mediterranean and North Atlantic worlds. Students will read specific case studies in order to explore the theoretical issues raised by the attempt to understand historically-documented past cultures. In order to provide practical examples of methodology classes will examine primary source material. Students will be introduced to the textual analysis of myth and legal records, to the interpretation of images and to the analysis of material culture. The course will consider specific current interpretive issues, particularly the rise of individualism, the consumer revolution and the cultural construction of gender.

CR: the former Anthropology 3584, History 3535
PR: the former Arch 3582, ARCH 2480 or any 2000-level History course

3585-3586 Archaeology Field School offers students practical introduction to archaeological fieldwork (3586) and laboratory techniques (3585). These courses provide instruction and experience in site mapping, sampling strategies, the recovery and conservation of archaeological materials (i.e., artifacts and ecofacts) and the cleaning, cataloging and cultural interpretation of artifacts and features. The students will also receive an introduction to archaeological research concerning prehistoric and/or historic cultures of a selected region.

PR: ARCH 3583

3587 Archaeological Conservation - inactive course.

3588 Arctic Archaeology is an introduction to the archaeology of the Canadian Arctic, Greenland, and Alaska, from earliest settlement to historic interactions between Inuit and Europeans. Special emphasis will be placed on the eastern Canadian Arctic, and the changing social and economic adjustments arctic peoples have made to a challenging environment.

PR: ARCH 1030

3590 Hunter-Gatherer Studies (same as the former Anthropology 3590) examines past and present hunting and gathering societies from various parts of the world, both from an ethnographic and an archaeological perspective.

CR: the former Anthropology 3590
PR: ARCH 1030 or Anthropology 1031

3591 Collections Management - inactive course.

3592 Norse Archaeology explores the influence of the Vikings on the medieval world and the place of L’Anse aux Meadows within this cultural context. Students will be introduced to Viking-Age archaeological and literary texts to gain knowledge of specific questions and problems concerning multicultural contact within the Viking-Age world, specifically the North Atlantic region. They will also gain an appreciation of the challenges associated with using interdisciplinary evidence as well as migration and multicultural issues in the past and present.

CR: the former Archaeology 3685
PR: ARCH 1030

3593 Archaeology of Children examines emerging archaeological and ethnohistorical research on children and childhood. Topics include play, learning work, embodiment, identity, death, narrative approaches to children’s lives, and the paleoanthropology of childhood.

CR: the former Archaeology 3684
PR: ARCH 2480

3594 Archaeology of Sport addresses organized recreation as a fundamental variety of past social activity. The evolution of athletic physiology, bioarchaeological traces on past bodies, sporting facilities and equipment, animal sports, experimental and ethnoarchaeological studies, and the varying social, ritual and economic contexts of past athletic performance will be examined, with case studies of notably large scale and long-running sporting phenomena such as chariot racing and the Mesoamerican ballgame.

CR: the former Archaeology 3681
PR: ARCH 1030

3650 Artifacts of Colonial North America provides students with practical
experience in the analytical methods used to identify, date and interpret the different types of artifacts encountered on seventeenth- and eighteenth century archaeological sites in Colonial North America. In depth discussions on major technology, form and function provide the necessary background for a better understanding of concepts relating to artifact identification, provenance, dating techniques, theoretical approaches and other relevant topics. Practical, hands-on exercises will help reinforce these topics and teach students the fundamentals required to interpret artifact assemblages from the historic period.

PR: ARCH 2480, the former ARCH 2582, or permission of the instructor

3651 Archaeology of Colonial North America focuses on the history and archaeology of North American colonization and covers the period of European exploration and settlement from approximately 1500 to 1700. A diverse range of topics will be discussed including: conflicts and interactions with native peoples; early colonies and seasonal outposts; established settlements; trade and commerce; the material record; the built landscape; daily life in colonial society and maritime archaeology.

CR: the former ARCH 3862, or the former Anthropology 3682
PR: ARCH 1030

3680-3689 Studies in Archaeology and Prehistory will include the consideration of current developments in methods, techniques and theory as applied to selected areas of the world.

PR: ARCH 2480 or equivalent

3710 Museums and Historic Sites - inactive course.

3750 Archaeology of Warfare is a broad overview of archaeological research conducted at sites associated with human conflict spanning from ancient Greece to World War II. Weekly lectures will provide students with a solid background on the various means by which archaeologists study and excavate sites related to war, conflict and subjugation. A broad range of topics will be covered including remote sensing and field survey techniques, the changing technology and tactics of war, battlefield sites, POW camps, sunken naval vessels, aviation sites, fortifications and frontier outposts.

PR: ARCH 2480 or the former ARCH 2582

3800 Fieldwork in Vernacular Architecture: Drawings and Photography - inactive course.

3850 Material Culture (same as Folklore 3850) is an introduction to the study of material culture and the question of why objects are important. Using folklore and interdisciplinary approaches, we will look at objects as cultural products, question the influence of objects on behaviour, and address the role of objects in historical and ethnographic research.

CR: Folklore 3850

3860 Vernacular Architecture - inactive course.

3900 Newfoundland Vernacular Furniture - inactive course.

4015 Cultural Resource Management (same as Folklore 4015 and Geography 4015) is a study of cultural resource management; the definition and recognition of cultural resources; the application of policy in managing cultural resources, and the identification and consideration of contemporary issues in cultural resource management. Three hours of lecture and three hours of seminar per week.

CR: Folklore 4015 and Geography 4015
PR: ARCH 2480 or the former ARCH 2582

4041 Palaeopathology looks at disease, diet, genetics and maternal health factors as contributors to variations in the human skeleton. In this lecture and laboratory course these factors are diagnosed from bones, and aspects of the culture, health, economy and environment of the skeletal individuals are examined.

PR: ARCH 2430 and ARCH 3040

4043 Biomolecular Archaeology is a rapidly developing, multidisciplinary subfield of archaeology concerned with unravelling aspects of human behaviour and adaptation from ancient biomolecules preserved in artifacts and biological remains. Through lectures, directed readings and seminars, this course aims to review and critically assess the many facets of biomolecular archaeology, including how biological and (geo)chemical methods can be used to address questions of diet, migration and ancestry in the past.

PR: one of ARCH 2430, ARCH 2450 or ARCH 2480

4050-4059 Special Projects in Bioarchaeology includes directed research, seminars and lab analysis of various skeletal collections. Topics to be covered may include primate behaviour, forensic anthropology, stable and radionuclide isotope analysis and various aspects of human evolution.

PR: ARCH 2430 and ARCH 2450

4150 Environmental Change and Quaternary Geography (same as Earth Sciences 4703 and Geography 4150) examines methods of reconstructing Quaternary environments, effects of Quaternary environmental changes on landscape, with special reference to North America, development and characteristics of glacial and nonglacial climates.

CR: Earth Sciences 4703, Geography 4150

4151 Paleoechnobotany is a combined directed readings/laboratory course in paleoechnobotany. Paleoechnobotany concerns the recovery and analysis of archaeological plant remains as a basis for understanding human and plant interactions in the archaeological record. This course focuses on recent palaeobotanical research in northeastern North America.

PR: ARCH 2450, ARCH 2480, or the permission of the instructor

4152 Zooarchaeology aims to introduce the student to the wide range of information that can be gleaned about past human groups from the animal remains they left behind after butchery, meals, toolmaking and other activities. Students will also gain practical experience in the identification and analysis of faunal remains.

CR: the former ARCH 4195 or the former Anthropology 4195
PR: ARCH 2450 or ARCH 2480

4153 Lithic Analysis explores the range of techniques used to study stone tools, including material and provenance identification, morphology and functional analysis, temporal and cultural typology, measurement, illustration, experimental manufacture, use wear and breakage patterns, refitting, debitage analysis and spatial distribution.

CR: the former ARCH 4196 or the former Anthropology 4196
PR: ARCH 2450 or ARCH 2480

4160-4169 Special Projects in Archaeology are courses which may be offered from time to time as demand arises. They may involve readings, seminars and actual archaeological fieldwork on, for example, The Neolithic of Western Asia; The Rise of Civilization in Western Asia; Scandinavian Prehistory; Palaeoethnobotany; and Technology and Material Culture.

PR: one of ARCH 2450, 2480, 2481; the former 2582, or permission of the instructor

4171 Iroquoian Archaeology is a lecture course examining the culture developments of the Iroquoian peoples of Northeastern Canada and the USA. Using both archaeological and ethnohistoric materials, this course will examine and explain the changes in social, political and economic traditions of this culture group from their origins through the early contact period.

CR: the former ARCH 4190
PR: ARCH 2480

4172 Postcolonial Archaeology critically explores the history and contemporary practice of archaeology in light of the political claims of (formerly) subjugated groups. Topics to be discussed include archaeological antecedents of a postcolonial perspective (postprocessualism, critical archaeology), political economy of archaeology, interests of indigenous and other descendant groups, repatriation, national and transnational archaeological communities, and community archaeology.

CR: the former ARCH 4192 or the former Anthropology 4192
PR: ARCH 2480 or the former ARCH 2582

4173 Archaeology of the Body explores the possibility of a more encompassing archaeological embodiment of experienced, starting from archaeological work on gender and recent reconceptualizations of the body in social, cultural and feminist theory. Topics to be discussed include the notion of bodily practice, biopolitics, sexuality, hybridity, violence, identity, sensory experience, disability and aging.

CR: the former ARCH 4191 or the former Anthropology 4191
PR: ARCH 2480

4182 History of Archaeology is an intensive study of the emergence and maturation of archaeology as a discipline within the social sciences, particularly in Western Europe and North America, during the 19th and 20th centuries.

PR: ARCH 2480

4190-4199 Selected Topics in Archaeology and Prehistory is a seminar course focusing on recent theoretical and methodological developments in archaeological research.

PR: one of ARCH 2450, 2480, or the former ARCH 2582

4411 Theory and Method in Archaeology and Prehistory is a seminar course focusing on recent theoretical and methodological developments in archaeological research.

PR: ARCH 2480 and ARCH 4182

4500 Special Topic in Historical Archaeology is a consideration of current developments in methods, techniques, and theory in Historical Archaeology.

PR: ARCH 2480, the former 2582, or permission of instructor

4994 Past Material - Advanced Research and Writing is a directed reading course and is a prerequisite for the Honours Essay in Archaeology (ARCH 4995). Readings will be chosen to complement student specialization and to prepare them for the honours essay. Assignments will emphasize short essays and will provide students with the opportunity to improve their professional writing skills in the fields of archaeology, material culture and heritage.

AR = Attendance requirement; CH = Credit hours are 3 unless otherwise noted; CO = Co-requisite(s); CR = Credit can be retained for only one course from the set(s) consisting of the course being described and the course(s) listed; LC = Lecture hours per week are 3 unless otherwise noted; LH = Laboratory hours per week; OR = Other requirements of the course such as tutorials, practical sessions, or seminars; PR = Prerequisite(s); UL = Usage limitation(s).
12.3 Arts

1250 Enhancing Academic Performance is a seminar in which students and faculty use discussion, reciprocal feedback and co-investigation techniques to enhance the teaching and learning process in the study of Arts subjects. For course description see General Information, Student Affairs and Services, UCC2020: Applied Cognitive and Affective Learning Strategies for Undergraduate Students. 

PR: the former ARTS 1200
CR: Admission to the Enhancing Academic Performance program.

1500 Introduction to Critical Reading and Writing in University introduces students to some of the processes, techniques and standards of university-level critical reading and writing. Students will engage in the practices of critical reading and pre-writing, drafting, revising and editing texts. An emphasis will be placed on using writing in response to critical reading exercises. All sections of this course follow Critical Reading and Writing Course Guidelines available at www.mun.ca/arts/crw.
PR: restricted to students with fewer than eighteen credit hours

12.4 Classics

In accordance with Senate’s Policy Regarding Inactive Courses, the course descriptions for courses which have not been offered in the previous three academic years and which are not scheduled to be offered in the current academic year have been removed from the following listing. For information about any of these inactive courses, please contact the Head of the Department.

In special circumstances, prerequisites may be waived with the permission of the Head of the Department. Classics courses are designated by CLAS.

12.4.1 Greek

All sections of the Greek language courses below, except CLAS 4995, follow the Language Study Course Guidelines available at www.mun.ca/arts/ls.

1130 Elementary Ancient Greek I is an introduction to the grammar and syntax of ancient Greek, with particular attention paid to the acquisition of basic skills in reading, composition, and aural comprehension.
CR: the former CLAS 130B

1131 Elementary Ancient Greek II is a continuation of the work begun in Elementary Ancient Greek I.
CR: the former CLAS 130B
PR: CLAS 1130 or its equivalent

2300 Intermediate Ancient Greek is a continuation of the grammar, syntax, reading, and composition completed in the elementary program.
PR: CLAS 1131

2302 Readings in New Testament Greek - inactive course.

3300 Advanced Ancient Greek refines the skills developed in Intermediate Greek and applies them to selected readings of Greek authors.
CR: the former CLAS 2305
PR: CLAS 2300

4300 Greek Tragedy
PR: CLAS 3300

4305 Greek Comedy
PR: CLAS 3300

4310 Greek Epic Poetry
PR: CLAS 3300

4315 Attic Orators
PR: CLAS 3300

4320 Greek Lyric Poetry
PR: CLAS 3300

4325 Greek Historians
PR: CLAS 3300

4340 Greek Philosophical Authors
PR: CLAS 3300

12.4.2 Greek and Roman Studies

1051 Gods in Classical Mythology is an introduction to some of the major myths of ancient Greece and Rome, with particular attention to the gods. The myths will be studied with reference to their social and historical contexts, literary and artistic representations, and modern theories of interpretation.
CR: the former CLAS 1050

1052 Heroes in Classical Mythology is an introduction to some of the major myths of ancient Greece and Rome, with particular attention to the heroes. The myths will be studied with reference to their social and historical contexts, literary and artistic representations, and modern theories of interpretation.
CR: the former CLAS 1050

2010 Greek Art and Architecture is an introduction, through illustrated lectures, to the study of the art and architecture of Ancient Greece.

2015 Roman Art and Architecture is an introduction, through illustrated lectures, to the study of the art and architecture of Ancient Rome.

2020 History of the Hellenistic World is a survey of the history of the Mediterranean world and the Near East from the death of Alexander the Great in 323 BC to the founding of Alexandria in 30 BC. Particular attention is given to the influence of the new monarchies on political, social and cultural developments in both Greek and non-Greek communities.
CR: History 2034

2025 Ancient Near Eastern History is an introduction to the history of ancient city-states, kingdoms and empires in Egypt and/or Mesopotamia, including economic, social, political and cultural developments.
CR: History 2020

2035 History of Classical Greece is a survey of Greek History from the Bronze Age to the death of Alexander the Great, with special reference to the social and political institutions of the fifth century B.C. 
CR: History 2035

2041 History of the Roman Republic is a survey of Roman history from the early monarchy to the death of Julius Caesar, with special reference to the society and politics of the late Republican period.
CR: History 2041, the former CLAS 2040, the former History 2040

2042 History of the Roman Empire is a survey of Roman history from the death of Julius Caesar to the rise of Constantine, with special reference to the society and politics of the early Imperial period.
CR: History 2042, the former CLAS 2040, the former History 2040

2055 Women in the Ancient World is an examination of the roles of women in ancient Mediterranean civilizations from the perspectives of social and political history and culture. Critical assessments of relevant scholarship and methodologies will be included.

2400 Literature of Ancient Greece introduces students to Greek Literature from the Archaic to the Imperial Periods. Students will study epic poetry,
drama and other genres typical of these periods. Students will also be introduced to important themes, methodologies and scholarship. For the 2015-2016 academic year only, after the successful completion of this course students will be introduced to important themes, methodologies and scholarship. For the 2015-2016 academic year only, all sections of this course qualify as a research/writing course.

CR: the former Classics 3110, the former English 3110

2500 Literature of Ancient Rome introduces students to Latin Literature from the Republican to the Late Antique Periods. Students will study epic poetry, drama and other genres typical of these periods. Students will also be introduced to important themes, methodologies and scholarship. For the 2015-2016 academic year only, all sections of this course qualify as a research/writing course.

CR: the former Classics 3110, the former English 3110

2701 History of Ancient Philosophy (same as Philosophy 2701) is a survey of the origin and development of Western philosophy among the Greeks and Romans.

CR: Philosophy 2701

2900 Science and Technology in the Ancient World is an introduction to significant developments in ancient Greek and Roman science and technology with emphasis on interpreting the primary evidence, including written sources (in translation) and material remains, assessing the historical context, and considering the nature of advancements.

3010 Greek Religion (same as Religious Studies 3010) is a study of the role of religion in the private and public life of the Greek world.

CR: Religious Studies 3010, the former CLAS 3121, the former Religious Studies 3121

PR: It is strongly recommended that minors and majors take this course before taking 3000 and 4000 level courses

3020 Roman Religion (same as Religious Studies 3020) is a study of the role of religion in the private and public life of the Roman world.

CR: Religious Studies 3020, the former CLAS 3121, the former Religious Studies 3121

PR: there is no prerequisite for this course but students are strongly advised to have completed at least one 1000- level or 2000-level Greek and Roman Studies course before registering in any 3000-level or higher Greek and Roman Studies course

3030 Greece and Persia is a study of relations between Greece and Persia from the foundation of the Persian Empire to the death of Alexander the Great.

PR: there is no prerequisite for this course but students are strongly advised to have completed at least one 1000- level or 2000-level Greek and Roman Studies course before registering in any 3000-level or higher Greek and Roman Studies course

3040 Socrates and Athens is an introduction to and examination of Socrates within the context of Athenian political, social, cultural, intellectual, and religious life, and against the background of the fifth-century enlightenment and the sophist movement.

PR: there is no prerequisite for this course but students are strongly advised to have completed at least one 1000- level or 2000-level Greek and Roman Studies course before registering in any 3000-level or higher Greek and Roman Studies course

3050 Augustus and Rome is a course that examines the Age of Augustus (27 B.C. to A.D. 14) which witnessed not only Rome's greatest achievements in literature and art but also the replacement of republican government by a monarchy; this course will focus on selected aspects of Augustan culture and literature.

PR: there is no prerequisite for this course but students are strongly advised to have completed at least one 1000- level or 2000-level Greek and Roman Studies course before registering in any 3000-level or higher Greek and Roman Studies course

3150 Early Christian Thought: The First Five Centuries - inactive course.

3270 Christianity and the Roman Empire - inactive course.

3405 Tragic Drama in Greece and Rome is a detailed examination of the tragic dramas of ancient Greece and Rome. A selection of plays by Aeschylus, Sophocles, Euripides and Seneca will be read in English translation. Topics to be discussed include the development of ancient tragedy, its literary, performative and thematic traditions, its representation of social and historical conditions, and its influence on later tragic drama.

CR: the former Classics 2805

PR: there is no prerequisite for this course but students are strongly advised to have completed at least one 1000- level or 2000-level Greek and Roman Studies course before registering in any 3000-level or higher Greek and Roman Studies course

3410 Comic Drama in Greece and Rome is a detailed examination of the comic plays of ancient Greece and Rome. A selection of plays by Aristophanes, Menander, Plautus and Terence will be read in English translation. Topics to be discussed include the development of ancient comedy, its literary and thematic traditions, its representation of social and historical context, and its influence on later comic drama.

CR: the former Classics 2810

PR: there is no prerequisite for this course but students are strongly advised to have completed at least one 1000- level or 2000-level Greek and Roman Studies course before registering in any 3000-level or higher Greek and Roman Studies course

3415 Epic Poetry in Greece and Rome offers a detailed and in-depth study of the epic poetry of ancient Greece and Rome. The course will examine the poems of Homer, Apollonius of Rhodes and Virgil in English translation. Instructors may include additional poems. Topics to be discussed include the development of epic poetry, its literary traditions and its role in Greek and Roman society.

CR: the former Classics 2860

PR: there is no prerequisite for this course but students are strongly advised to have completed at least one 1000- level or 2000-level Greek and Roman Studies course before registering in any 3000-level or higher Greek and Roman Studies course

3420 Lyric Poetry in Greece and Rome is a study of Greek and Roman poetry often conventionally termed ‘lyric’, including such genres as choral and solo songs, elegy, epigram, love poetry, and others. A selection of important works from Archaic Greece to Augustan Rome will be studied with reference to their social and literary contexts.

PR: there is no prerequisite for this course but students are strongly advised to have completed at least one 1000- level or 2000-level Greek and Roman Studies course before registering in any 3000-level or higher Greek and Roman Studies course

3500-3510 Special Topics in Classics will have topics determined by the Department.

PR: there is no prerequisite for this course but students are strongly advised to have completed at least one 1000- level or 2000-level Greek and Roman Studies course before registering in any 3000-level or higher Greek and Roman Studies course

3580 Bronze Age Archaeology of the Eastern Mediterranean - inactive course.

3600 Ancient Myth and Cult (same as Religious Studies 3600) develops the students' knowledge of myth and material culture by examining specific religious sites in the Greek and Roman world as foci of ritual practice. Students will learn to integrate knowledge of the physical remains with the literary and ritual evidence in order to obtain a more integrated understanding of religious life in ancient Greece and Rome.

CR: Religious Studies 3600

PR: there is no prerequisite for this course but students are strongly advised to have completed at least one 1000- level or 2000-level Greek and Roman Studies course before registering in any 3000-level or higher Greek and Roman Studies course

3700 The Ancient World in Film examines the representation of the history and cultures of the ancient world in film. A selection of films will be studied and extensive reference will be made to the ancient evidence which informs them. The ancient world’s impact on modern Western society will be considered together with the film industry’s recasting of the ancient world in response to modern social and historical developments.

PR: there is no prerequisite for this course but students are strongly advised to have completed at least one 1000- level or 2000-level Greek and Roman Studies course before registering in any 3000-level or higher Greek and Roman Studies course

3710-3729 Special Topics in Classics is available only as part of the part of the Harlow Campus Semester.

PR: there is no prerequisite for this course but students are strongly advised to have completed at least one 1000- level or 2000-level Greek and Roman Studies course before registering in any 3000-level or higher Greek and Roman Studies course

3900 Greek and Roman Medicine examines the medical theories and practices of the ancient Greek and Roman world by taking account of ancient texts (in translation) as well as evidence from material culture, including art and architecture. Topics may include the relationship between science and medicine, concepts of health and illness, the role of the healer, practical applications, gender differentiation of patients, and legacy of ancient practices.

PR: there is no prerequisite for this course but students are strongly advised to have completed at least one 1000- level or 2000-level Greek and Roman Studies course before registering in any 3000-level or higher Greek and Roman Studies course

4000 Seminar in Greek History and Society - inactive course.

4010 Seminar in Roman History and Society is a seminar in Roman History and Society.

PR: there is no prerequisite for this course but students are strongly advised to have completed at least one 1000- level or 2000-level Greek and Roman Studies course before registering in any 3000-level or higher Greek and Roman Studies course

4020 Seminar in Greek Literature and Culture is a seminar in Greek
Literature and Culture.  
PR: there is no prerequisite for this course but students are strongly advised to have completed at least one 1000-level course and/or have completed a Greek and Roman studies course before registering in any 2000-level or higher Greek and Roman Studies course

4030 Seminar in Roman Literature and Culture is a seminar in Roman Literature and Culture.  
PR: there is no prerequisite for this course but students are strongly advised to have completed at least one 1000-level or 2000-level Greek and Roman Studies course before registering in any 3000-level or higher Greek and Roman Studies course

4100-4109 Special Topics in Greek and Roman Studies will have topics announced by the Department and may include field studies in topography, Greek and Roman art and architecture, archaeology, and related areas, to be held in the Mediterranean and other regions of Graeco-Roman influence.  
PR: permission of the instructor and the Head of the Department

4999 Honours Essay is a requirement of the Honours program.

12.4.3 Latin

All sections of the Latin language courses below, except CLAS 4999, follow the Language Study Course Guidelines available at www.mun.ca/arts/ls.

1120 Elementary Latin I is an introduction to the grammar and syntax of Latin, with particular attention paid to the acquisition of basic skills in reading, composition, and aural comprehension.  
CR: the former CLAS 120A

1121 Elementary Latin II is a continuation of the work begun in Elementary Latin I.  
CR: the former CLAS 120B or its equivalent

2200 Intermediate Latin is a continuation of the grammar, syntax, reading, and composition completed in the elementary program.  
PR: CLAS 1121

3200 Advanced Latin refines the skills developed in Intermediate Latin and applies them to selected readings of Latin authors.  
CR: the former CLAS 2205  
PR: CLAS 2200

4202 Medieval Latin - inactive course.

4205 Latin Lyric Poetry  
PR: CLAS 3200

4210 Latin Historians  
PR: CLAS 3200

4215 Latin Orators  
PR: CLAS 3200

4220 Latin Hexameter Poetry  
PR: CLAS 3200

4225 Latin Epistolography - inactive course.

4235 Latin Philosophical Authors  
PR: CLAS 3200

4240 Latin Drama  
PR: CLAS 3200

4245 Latin Elegiac Poetry  
PR: CLAS 3200

4250 Latin Satire  
PR: CLAS 3200

4265-4275 Special Topics in Latin Readings will have topics announced by the Department.  
PR: CLAS 3200

4291 Special Authors  
PR: CLAS 3200

4999 Honours Essay is a requirement of the Honours program.  
PR: CLAS 3200

12.5 Communication Studies

Communication Studies courses are designated by CMST.

2000 Critical Approaches to Popular Culture considers critical issues and approaches in the study of popular culture. It will explore the ways in which everyone is both a user of and is used by popular culture. A variety of critical approaches to studying popular culture will be examined: Production, Texts, Audience, and History.

2001 Introduction to Communication Theory provides an introduction to theoretical approaches to organization, use and manipulation of language, including semiotics, performative, mass and group communications, sociolinguistics and interpersonal communication. We will examine notions of influence, rhetoric, social judgment, deception, subject formation, globalization and cultural hybridity within the field of communications.  
PR: CMST 2000

3010-3020 Special Topics in Communication Studies will have topics to be studied announced by the Program Coordinator.

4000 Advanced Communications Theory engages communication theories such as interpersonal, organizational, intercultural or international communication, seeking to understand how and why mediated communication works have found their explanatory power to be useful. The course will aim to analyze various communication theories, apply communication theories to everyday life, write a theoretical literature review, and form sound hypotheses or focused research questions to advance theory.  
PR: CMST 2000 and 2001 and 9 additional credit hours chosen from Program and Regulations, Elective Courses, List A or B

4001 Seminar in Mass Communication and Visual Culture examines the ways visual culture shapes and is shaped by communication forms and processes.

4010-4020 Special Topics in Communication Studies will have topics to be studied announced by the Program Coordinator.

12.6 Economics

In accordance with Senate's Policy Regarding Inactive Courses, the course descriptions for courses which have not been offered in the previous three academic years and which are not scheduled to be offered in the current academic year have been removed from the following listing. For information about any of these inactive courses, please contact the Head of the Department.

Economics courses are designated by ECON.

2020 Introduction to Macroeconomics covers national income accounting, aggregate income analysis, money, banking and foreign trade. All sections of this course follow Quantitative Reasoning Course Guidelines available at www.mun.ca/arts/qr.

2070 The Structure and Problems of the Newfoundland Economy is an analysis of the structure of the economy of Newfoundland. Current economic issues and problems in Newfoundland will be studied. This course is intended for those who do not possess a background in basic economic theory. All sections of this course follow Quantitative Reasoning Course Guidelines available at www.mun.ca/arts/qr.

PR: intended primarily for students in the Newfoundland and Labrador Students Minor program, but open to others by permission of the Head of the Department

2550 Economic Statistics and Data Analysis is an analysis of economic statistics and the use of economic data. A course designed to introduce students to the task of economic data collection, description and analysis. Emphasis will be on interpretation and analysis of data using computer software programs. All sections of this course follow Quantitative Reasoning Course Guidelines available at www.mun.ca/arts/qr.

PR: ECON 2010, 2020, and Statistics 2500 or equivalent

3000 Intermediate Micro Theory I is the basic microeconomic theory course; consumer demand, indifference curve analysis, theory of production and cost, factor substitution, and the theory of the firm under perfect competition and monopoly.  
PR: ECON 2010 and 2020

3001 Intermediate Micro Theory II is a continuation of basic microeconomic theory; the theory of imperfect competition, theory of factor pricing under various market structures, general equilibrium and welfare economics.  
PR: ECON 2010, 2020, and 3000

3010 Intermediate Macro Theory I is aggregate analysis including consumption, investment, government, and international sectors, the role of money, determinants of aggregate supply, and the effects of autonomous behavioural changes and fiscal and monetary policies on unemployment, price levels and the balance of payments.
3011 Intermediate Macro Theory II is a consideration of modern theories of macroeconomics, dynamics, empirical evidence and simulation of the national economy. Emphasis on the availability and effectiveness of government policy instruments.
PR: ECON 2010, 2020, and 3010

3030 International Economics - Issues and Problems in a Canadian Context is an intermediate course in international economics. The course covers the theory of comparative advantage, the structure and policy issues of the Canadian balance of payments, the foreign exchange market and the institutional aspects of international commerce.
PR: ECON 2010 and 2020

3070 The Structure and Problems of the Newfoundland Economy is an analysis of the structure of the economy of Newfoundland. Basic economic theory will be applied to current economic issues and problems in Newfoundland.
PR: ECON 2010 and 2020

3080 Natural Resource and Environmental Economics is application of economic analysis to renewable and nonrenewable natural resource industries such as the fishery, forestry, and mining. Emphasis is given to the criteria for optimal resource use under various market structures and their implications for public policy. Issues of environmental resource management and pollution control will also be covered.
PR: ECON 2010 and 2020

3140 Economic Analysis in Health Care - inactive course.

3150 Money and Banking examines the operation of the money and banking system, with special emphasis on Canadian problems. Monetary theory will be treated in relation to income theory and foreign trade.
PR: ECON 2010 and 2020

3160 Financial Economics provides an analysis of the major building blocks of the modern theory of financial economics and their implications for decision-making. To reflect that modern finance is a branch of economics, emphasis will be on how general economic principles and analytical techniques can be applied across all financial sub-fields. Topics include the basic pillars in finance-intertemporal optimization, asset valuation, risk management—and selected issues that will vary each year.
CR: Business 4500
PR: Mathematics 1000 or its equivalent, ECON 2010 and ECON 2020.
Students are recommended to take ECON 2550 or its equivalent prior to taking this course.

3360 Labour Market Economics is an intermediate course concentrating on Canadian labour issues. The course investigates the labour market decisions that workers face and the influence of government decisions. Course topics also include factors affecting a firm's demand for labour, wage determination in non-union market, the role of unions, the various structure of wages and wage differentials in the Canadian setting.
CR: the former ECON 4360
PR: ECON 2010 and 2020

3550 Mathematical Economics I examines linear algebra and differential calculus, with applications to economics.
PR: ECON 2010, 2020, and Mathematics 1000 or equivalent with a "B" standing, or Mathematics 2050

3551 Mathematical Economics II covers integral calculus, difference and differential equations, with applications to Economics.
PR: ECON 2010, 2020, and 3550

3600 Industrial Revolutions of the 18th and 19th Centuries - inactive course.

3610 International Economic History of the 19th and 20th Centuries - inactive course.

3620 Canadian Economic History to the End of the 19th Century - inactive course.

3630 Canadian Economic History in the 20th Century - inactive course.

3670 Applications of Choice Theory examines microeconomic choices made outside perfectly competitive markets. Its topics include areas to which choice theory has been applied, for example, the economics of labour, marriage, sport, entertainment, crime, gambling, and the consumption of addictive goods.
PR: ECON 2010

3711 Intergovernmental Relations is (I) federal-provincial-municipal fiscal relations in Canada; intergovernmental tax agreements and equalization payments. (II) Co-operative federalism: shared-cost programs and opting-out arrangements. (III) Intergovernmental bargaining in the following issue areas: tax reform; administration of justice; welfare policy; post-secondary education.
CR: the former Political Science 3711
PR: ECON 2010 and 2020

4000 Advanced Microeconomic Analysis is an advanced treatment of theoretical and applied microeconomic theory, including topics such as intertemporal choice, risk and information, game theory and competitive strategy, index numbers, public goods, externalities, input-output analysis, linear programming, duality theory and empirical microeconomic studies.
PR: ECON 2550, 3000, 3001, 3010

4010 Economics of Development in Less Developed Countries - inactive course.

4011 Economic Planning and Development - inactive course.

CR: the former ECON 4020
PR: ECON 2550, 3000, 3010

4026 Taxation is an analysis of the theory of taxation. Relationship to resource allocation and distribution of income. Incentive effects of taxation. Tax incidence. Tax structure in Canada at federal, provincial and local levels.
CR: the former ECON 4020
PR: ECON 2550, 3000, 3010

4030 International Trade is pure theory of trade, commercial policy, price discrimination and cartels, commercial policy for developing countries and the customs union.
PR: ECON 2550, 3000, 3010

4031 International Monetary Problems is an advanced course in open economy macroeconomics covering balance of payments adjustment under fixed and flexible exchange rates; exchange rate movements and capital movements; the international monetary system; interdependence in the world economy.
PR: ECON 2550, 3000, 3010

4040 Economics of Education - inactive course.

4050 Inflation: Theory and Policy - inactive course.

4060 Development of Economic Thought I is Adam Smith to Karl Marx. A study in the development of Classical Economics with emphasis on the contributions of Smith, Malthus, Ricardo, Mill and Marx.
PR: ECON 2550, 3000, 3010

4061 Development of Economic Thought II is Alfred Marshall to Keynes. A study in the evolution of marginalism. Emphasis will be placed on the Economics of Marshall and Keynes. Institutional Economics, a parallel development, is also considered.
PR: ECON 2550, 3000, 3010

4070 Forestry Economics - inactive course.

4080 Advanced Fisheries Economics - inactive course.

4085 Advanced Environmental Economics is an advanced treatment of the environmental consequences of economic activities and the associated policy issues.
PR: ECON 2550, 3000, 3010

4090 Mineral and Petroleum Economics is an introduction to some of the theoretical economic problems and practical solutions involved in the exploration, development and production phases of mineral and petroleum mining in Newfoundland and Labrador.
PR: ECON 2550, 3000, 3010

4100 Industrial Organization and Public Policy - inactive course.

4120 Applied Welfare Economics and Cost Benefit Analysis investigates some current criteria of welfare theory found in the literature and then outlines the principles used in measuring changes in consumer and producer welfare. The theory of cost benefit analysis is examined and then the principles are applied to a variety of projects, some of which are proposed to take place in Newfoundland and Labrador.
PR: ECON 2550, 3000, 3010

4140 Health Economics - inactive course.

4150 Monetary Theory examines empirical studies in money. Readings in current literature. Monetary theory with applications to problems of employment and foreign trade.
PR: ECON 2550, 3000, 3010

4361 Labour Market Theory and Income Distribution - inactive course.

4550 Econometrics I covers estimation of the general linear regression model with emphasis on functional and empirical techniques and examples from published empirical research.
12.7 English

In accordance with Senate's Policy Regarding Inactive Courses, the course descriptions for courses which have not been offered in the previous three academic years and which are not scheduled to be offered in the current academic year have been removed from the following listing. For information about any of these inactive courses, please contact the Head of the Department.

Lists of texts and readings for courses may be obtained from the Secretary of the Department of English. Courses for which there is insufficient demand will not be given.

1. ENG1 1000 and 1080 are courses for students who have attained a standard in Level III English acceptable to the Department.

2. ENGL 1001, 1101, 1102, 1103, 1110 are courses which may be taken by students who have successfully completed 1000 or 1080.

3. ENGL 1000, 1001, 1080, 1101, 1102, 1103 are courses which may be taken by students who have successfully completed 1020 or 1030.

4. Students cannot receive credit for more than one of ENGL 1000, 1080, or for more than one of 1001, 1101, 1102, 1103, 1110.

English courses are designated by ENGL.

102F Foundation English is a non-credit course designed for students whose first language is other than English and whose knowledge and use of English do not meet the standards for entry into the regular first-year English courses.

CR: 102F
CH: 0
HC: 0
LC: 4 hours of lecture plus one hour conversation class
LH: 1

1020 Writing for Second Language Students I is an introduction to the use of English with emphasis on composition for non-native English-speaking students. This course is for students whose first language is not English and who have passed 102F or have attained a standard acceptable to the Department on the English Placement Test. Students who have passed ENG1 1020 may take as their second English course one of ENG1 1021, 1080, 1101, 1102, or 1103. Students completing this course may elect to use it with ENG1 1021 to fulfill the Bachelor of arts Language Study Requirement.

CR: English 1030, ENGL 1110. Students may not receive credit for more than 6 credit hours in first-year courses in English (this includes unspecified first-year transfer credits), except ENG1 1020 and 1021 if they are used to fulfill the Bachelor of arts Language Study Requirement.

PR: Admission to this course will be determined on the basis of the departmental English Placement Test or successful completion of ENGL 102F.

1021 Writing for Second Language Students II develops skills in critical reading and writing of academic English, with emphasis on research and writing. Students completing this course may elect to use it with ENG1 1021 to fulfill the Bachelor of arts Language Study Requirement.

CR: Students may not receive credit for more than 6 credit hours in first-year courses in English (this includes unspecified first-year transfer credits), except ENG1 1020 and 1021 if they are used to fulfill the Bachelor of arts Language Study Requirement.

PR: ENG1 1020

1030 Writing - inactive course.

1031 Prose Literature - inactive course.

PR: completion of ENGL 3909 with a grade of 70 or higher and submission of a portfolio and permission of the instructor.

4911 Advanced Creative Writing: Poetry uses models of contemporary writing and the students' own work. Each student will be required to submit an assignment regularly.

PR: successful completion of at least one Creative Writing course at the 3000-level, plus submission of a portfolio specified by the instructor and permission of the instructor.

4912 Advanced Creative Writing: Playwriting - inactive course.

4913 Advanced Creative Writing: Nonfiction is conducted as a seminar using models of contemporary writing and the students' own work. Each student will be required to submit an assignment regularly.

PR: successful completion of at least one Creative Writing course at the 3000-level, plus submission of a portfolio specified by the instructor and permission of the instructor.

4914 Advanced Editing is editing for the workplace: An intensive course in drafting and editing. Students will be expected to work both individually and collaboratively.

PR: successful completion of at least two of the following: ENGL 3001, 3817, 3903 (or other course designated Creative Writing), 3910, 3920. Normally, admission to this course will be based on the instructor's evaluation of the student's writing. Class size will be limited.

4920-4930 Special Topics in Creative Writing will have topics to be studied announced by the Department.

PR: successful completion of two third-year English courses

4899 Essay for Honours Candidates is required as part of the Honours program.

5000 Instructional Field Placement is a 6 credit hour course which occurs upon completion of course work in the Diploma in Performance and Communications Media. The curriculum emphasis is on the application of acquired skills. Continuing the project-oriented structure built into the practical courses, students will be placed with existing projects in the professional communities of film, television, theatre or video.

CH: 6

PR: ENGL 3350, 3351, 3816, 4400, 4401, 4402, with an overall average of 65% in these courses. Restricted to students in the Diploma in Performance and Communications Media. Admission is by application to the Program Coordinator, normally at least three months before the beginning of the placement, and is limited to students who, at the time of admission have completed the six courses listed above with an overall average of at least 65% and who already hold a first degree or are in their final year of a degree program as confirmed by the Office of the Registrar.

UL: can be used for credit only towards the Diploma in Performance and Communications Media

5200 Instructional Field Placement in Professional Writing is a 6 credit hour course which has students, upon completion of the courses in the Diploma in Professional Writing (18 credit hours), placed in workplace environments where they will contribute under supervision to the planning,
drafting and editing of documents.
CH: 6
PR: completion of the six courses in the program, with an overall average of 65% in these courses.
UL: can be used for credit towards the Diploma in Professional Writing

12.8 English as a Second Language

01F Core Intensive English Program covers reading through a variety of types of texts, vocabulary development, writing development, and academic listening and note-taking skills. Students will be placed into appropriate sections following a placement test.

012F Speaking, Listening, and Culture includes development of speaking and listening abilities through a wide variety of tasks and communicative activities, including discussions, debates, conversation, role-plays, and presentations. Listening activities promote comprehension of rapid conversational English, while discussion topics enrich students' understanding of Canadian culture. Students will be placed into appropriate sections following a placement test.

12.9 Folklore

In accordance with Senate's Policy Regarding Inactive Courses, the course descriptions for courses which have not been offered in the previous three academic years and which are not scheduled to be offered in the current academic year have been removed from the following listing. For information about any of these inactive courses, please contact the Head of the Department.

Folklore courses are designated by FOLK.

Folklore 1000 is the prerequisite for all other courses in Folklore, except Folklore 1050, Folklore 1060, and those courses cross-listed with other departments.

1000 Introduction to Folklore explores the role of tradition in communication, art and society. Reading assignments and audiovisual material will emphasize the use of folklore in context. Students will analyze traditions in their own lives through special assignments.
CR: the former FOLK 2000

1060 Folklore and Culture is an introduction to traditional expressive behaviour as cultural experience. Readings and lectures will explore the various meanings of "culture" from interdisciplinary perspectives and link them to areas of folklore such as children's folklore, material culture, and occupational folklore.
PR: while there is no prerequisite for this course, students should note that they will need to take Folklore 1000 (or the former 2000) before they can advance to other courses.

2100 Folklore Research Methods introduces the resources, tools and methods that folklorists use for primary and secondary research, including interviewing and participant observation. This course qualifies as a Research/Writing course.
PR: It is strongly recommended that majors and minors take this course before taking 3000 and 4000 level courses.

2230 Newfoundland Society and Culture (same as Sociology 2230, the former Sociology/Anthropology 2230, and the former Anthropology 2230) focuses on the social and cultural aspects of contemporary island Newfoundland.
CR: Sociology 2230, the former Sociology/Anthropology 2230, the former Anthropology 2230

2300 Newfoundland and Labrador Folklore (same as the former Anthropology 2300) is a survey of the full range of folklore in the province, with an emphasis on community and regional identity.
CR: the former Anthropology 2300, the former FOLK 3420

2401 Folklore Studies examines the interweaving of traditional elements in the tangible and intangible cultural heritage of various cultures. These may include holiday customs, rites of passage, folk religion, home remedies, clothing, food, and art.
CR: the former FOLK 3500

2500 Oral Literature (same as the former Anthropology 2500) focuses on the analysis of folklore - narrative, poetry, song, drama, and speech from around the world - through textual, comparative and contextual methods.
CR: the former Anthropology 2500, the former English 3400, the former FOLK 3400, the former Sociology/Anthropology 3400

2700 Ethnography of the University allows students to develop their skills in cultural documentation as they record and analyze Memorial University of Newfoundland's unofficial culture. Course material covers ethnographic practices and issues as well as the dynamics and history of campus life. This course qualifies as a Research/Writing course.
3700 Museums and Historic Sites - inactive course.

3710-3729 Special Topics in Folklore is available only as part of the Harlow Campus Semester.

3820 Folk Custom provides an introduction to the study of calendar, seasonal, occupational, and life-cycle customs, focusing on their analysis as symbolic behaviour.

AR: the former FOLK 3600

3830 Foodways focuses on dietary practices in a variety of regional traditions, considering both historical and contemporary approaches to the supply, storage, preparation and serving of food. The whole range of cookery and food habits - from the acquisition of raw materials to the allocation of portions - will be addressed from both theoretical and applied perspectives.

3850 Material Culture (same as Archaeology 3850) is an introduction to the study of material culture and the question of why objects are important to us. Using folklore and interdisciplinary approaches, we will look at objects as cultural products, question the influence of objects on behaviours, and address the role of objects in historical and ethnographic research.

AR: the former FOLK 3850

3860 Vernacular Architecture (same as Archaeology 3860 and History 3860) is a historical survey of vernacular architectural forms in various regions of North America, with attention to Newfoundland and Labrador materials. Issues discussed include the relationship of house form and culture to the environment, the forms and technologies of building forms and technologies, and the siting of buildings in the landscape. Dwelling houses, outbuildings, churches and industrial vernacular architecture will be included.

CR: Archaeology 3860, History 3860

3870 An Introduction to the History of Western Architecture Since the Renaissance - inactive course.

3900 Newfoundland and Labrador Vernacular Furnishings - inactive course.

3910 Traditions of Work concerns the development and role of tradition in occupational groups and work settings. Verbal and non-verbal codes, including narratives, joking relationships, pranks, material culture, and labourlore will be examined in a variety of contexts.

3920 Folklore, Education and Community familiarizes students with the function of Folklore in the educational process. Emphasis will be on cultural transmission and cultural learning inside and outside the K-12 classroom.

3930 Folklore and Popular Culture is an introduction to the study of popular culture, the folk-popular continuum, and the role of folklore in media such as film, television, music, and art.

CR: the former FOLK 2400

3950 Gender and Traditional Culture is an introduction to the ways in which gender shapes and/or is shaped by traditional culture. Readings and lectures will explore the significance of gender for folkloric collection and preservation, and the role of gender in folklore forms, and analyse creations of gendered traditions.

4015 Cultural Resource Management (same as Archaeology 4015 and Geography 4015) is a study of cultural resource management; the definition and recognition of cultural resources; the application of policy in managing cultural resources; the identification and consideration of contemporary issues in cultural resource management.

CR: Archaeology 4015, Geography 4015
OR: three hours of seminar per week

4100 History and Memory - inactive course.

4310 Studies in Newfoundland and Labrador Folklore studies rural and urban Newfoundland and Labrador with specific reference to a culture in transition. Folklore is examined as one of the channels through which a people maintain, change and adapt various cultural patterns.

CR: the former FOLK 3421
PR: FOLK 2300

4400 Traditional Culture of French-Newfoundlanders - inactive course.

4410 Folklore of France - inactive course.

4420 French Folklore in the New World - inactive course.

4440 Music and Culture (same as the former Anthropology 4440, Music 4440, and the former Music 4440) examines traditional music as an aspect of Western and non-European cultures. Examination of the functions and uses of music; folk-popular-art music distinctions; and the relation of style to content. Outside reading, class exercises and individual reports will be required.

CR: the former Anthropology 4440, Music 4440, the former Music 4440
PR: completion of at least 24 credit hours of university course work

4460 Vernacular Religion (same as Religious Studies 4460) examines religion as it is "lived" on a daily basis, focusing primarily on forms of belief and spirituality that are informally expressed. Drawing upon various cultural contexts, the course addresses such notions as space and time; metaphorical powers; religious material culture, music, and verbal art; and the role and power of the holy person.

CR: Religious Studies 4460, the former FOLK 4240

4470 Spaces and Places tackles the question of how globalization and modernity/urbanization influence our attachments to locality, community, and region; how folklore has contributed to social constructions of place; how folklore is used to turn physical space into cultural place; how folklore must change to meet the needs of today's global and virtual worlds.

4480 Oral History (same as History 4480) examines the narratives of everyday people who tell their life experiences. This course focuses on the collection and analysis of oral narratives and how they can be used to illuminate the past. It considers the power of these narratives to shape constructions of the present and future for both narrators and audiences.

CR: History 4480

4500-4520 Special Topic in Folklore will have topics to be studied announced by the Department.

4600-4615 Special Research in Folklore will be determined by the Department.

4700-4715 Directed Reading Course will be offered as determined by the Department.

4810 Documents Management (same as History 4810) is an introduction to the management of records and documents, both official and private.

CR: History 4810

490X Folklore in the Community Context - inactive course.

499X Honours Comprehensive Examination may be written or oral, or a combination of both.

4999 Honours Essay is required as part of the Honours program.

12.10 French

In accordance with Senate’s Policy Regarding Inactive Courses, the course descriptions for courses which have not been offered in the previous three academic years and which are not scheduled to be offered in the current academic year have been removed from the following listing. For information about any of these inactive courses, please contact the Head of the Department.

Students who have successfully completed one or more credit courses in French language will not subsequently be permitted to receive credit for courses not previously completed and judged by the Department to be of a lower level than those already completed. Students returning to the study of French after an absence should consult the Department for current information on these restrictions before registering. Students who wish to return to a previously completed course to improve their standing may do so only with the permission of the Head of the Department.

French courses are designated by FREN.

1500 Introductory University French I is a course for beginners and for students whose background in French is very weak. Students with a strong background in high-school French should begin to study at FREN 1501 or 1502. PR: completion of at least 24 credit hours of university course work.

1500 Introductory University French I is a course for beginners and for students whose background in French is very weak. Students with a strong background in high-school French should begin to study at FREN 1501 or 1502. PR: completion of at least 24 credit hours of university course work.

1500 Introductory University French II is a course for beginners and for students whose background in French is very weak. Students with a strong background in high-school French should begin to study at FREN 1501 or 1502. PR: completion of at least 24 credit hours of university course work.

1501 Introductory University French II is a course for beginners and for students whose background in French is very weak. Students with a strong background in high-school French should begin to study at FREN 1501 or 1502. PR: completion of at least 24 credit hours of university course work.

1501 Introductory University French II is a course for beginners and for students whose background in French is very weak. Students with a strong background in high-school French should begin to study at FREN 1501 or 1502. PR: completion of at least 24 credit hours of university course work.

1502 Introductory University French II is a course for beginners and for students whose background in French is very weak. Students with a strong background in high-school French should begin to study at FREN 1501 or 1502. PR: completion of at least 24 credit hours of university course work.

1502 Introductory University French II is a course for beginners and for students whose background in French is very weak. Students with a strong background in high-school French should begin to study at FREN 1501 or 1502. PR: completion of at least 24 credit hours of university course work.

1503 Introductory University French III is a course for beginners and for students whose background in French is very weak. Students with a strong background in high-school French should begin to study at FREN 1501 or 1502. PR: completion of at least 24 credit hours of university course work.

1503 Introductory University French III is a course for beginners and for students whose background in French is very weak. Students with a strong background in high-school French should begin to study at FREN 1501 or 1502. PR: completion of at least 24 credit hours of university course work.
to assist students with initial course selection or to confirm that initial course selection is appropriate. Students with a limited background in French should register for FREN 1500 and continue with 1501. Students with a strong background in high-school French should bypass FREN 1500 and begin their University study with 1501, especially if they intend to proceed beyond the first-year level. Very well-prepared students may apply to the Department to enter 1501 directly. All sections of this course follow the Language Study Course Guidelines available at www.mun.ca/arts/ls. 1502 Introductory University French III is one of three consecutive credit courses in French language at the first-year university level, offering a complete overview of basic oral and written French. All sections of this course follow the Language Study Course Guidelines available at www.mun.ca/arts/ls. 1502 Introduction à la langue française, niveau universitaire III Toutes les sections de ce cours suivent le guide des cours de langue qui est consultable à www.mun.ca/arts/ls. CR: the former FREN 1505 LH: two additional hours of language laboratory work or conversation class, both PR: High School FREN 3200 or permission of the Head of the Department. Ex-immersion students should consult the Head of the Department before registering for this course. Students may not register concurrently for more than one of FREN 1500, 1501 and 1502 except with the permission of the Head of the Department. Very well-prepared students may apply to the Department for permission to enter 1502 directly. 2100 Intermediate French I is a course on composition, grammar and practice in oral skills. All sections of this course follow the Language Study Course Guidelines available at www.mun.ca/arts/ls. 2100 Français intermédiaire I rédaction, grammaire et pratique orale. 12.11 Gender Studies

Gender Studies courses are designated by GNDR.

1000 Introduction to Gender Studies (same as the former WSTD 1000) considers gender, gender studies and feminisms as areas of exploration from historical, contemporary, transnational and interdisciplinary perspectives. The aim of this course is to provide a critical framework for thinking about questions relating to gender and other forms of social
2005 Identities and Difference (same as the former WSTD 3005) examines feminist scholarship about the construction of identities and difference in cultural discourses, representation and institutions. This course qualifies as a Research/Writing course.
CR: the former WSTD 2005

2006 Genders and Sexualities introduces genders and sexualities from an interdisciplinary perspective. Students will explore the continuum of sex/ gender and sexual identities, and examine how these identities intersect with other aspects of identity, including (but not limited to) race, class, and disability.

3000 Research Methods in Gender Studies (same as the former WSTD 3300) familiarizes students with basic tools and research skills for feminist enquiry in Gender Studies research. As a requirement of this course, students may be asked to design and carry out a research project.
CR: the former WSTD 3000

3001 Women Writers in the Middle Ages (same as English 3006, Medieval Studies 3306 and the former WSTD 3001) will study selections from the considerable corpus of women’s writing in the Medieval period, as well as issues which affected women’s writing. All selections will be read in English translation.
CR: English 3006, Medieval Studies 3306, the former Medieval Studies 3351, the former WSTD 3001

3002-3020 (Excluding 3004, 3005 and 3009) Special Topics in Gender Studies (same as the former WSTD 3002-3020 excluding 3004, 3005 and 3009) will have topics announced by the Department.
CR: the former WSTD 3002-3020 excluding 3004, 3005 and 3009

3005 Feminist Texts, Theories and Histories (same as the former WSTD 3005) examines the development and dissemination of feminist thought through analyses of key texts and diverse media, and their connections to historical and contemporary debates within feminism.
CR: the former WSTD 3005
PR: either GNDR 1000 or the former WSTD 1000 or GNDR 2005 or the former WSTD 2005

3025 Theories of Gender, Race and Post-Colonialism examines theories, themes and issues that have emerged from, and in response to, post-colonial studies in recent decades. This course focuses particularly on what this body of scholarship contributes to our understandings of the roles of gender, race and sexuality in colonialism, as well the comprehension of current social and political realities.
CR: either GNDR 1000 or the former WSTD 1000 or GNDR 2005 or the former WSTD 2005

3100 Gendered Politics of Health (same as the former WSTD 3100) examines intersections of gender and health, recognizing these to be politically shaped categories that have direct implications for individual’s lives. This course considers the ways that particular conceptualizations of gender health and well-being are shaped and challenged and considers the role of individuals, institutions and states in structuring opportunities and challenges related to health.
CR: Sociology 3021, the former WSTD 3100
PR: GNDR 1000 or the former WSTD 1000 is required and GNDR 2005 or the former WSTD 2005 is recommended

3710-3720 Special Topics in Gender Studies (same as the former WSTD 3710-3720) are available only as part of the Harlow Campus Semester.
CR: the former WSTD 3710-3720

4000 Contemporary Feminist Issues (same as the former WSTD 4000) is an interdisciplinary seminar in Gender Studies that identifies emerging debates in contemporary feminism and analyses complex and contentious issues and how they intersect and disrupt social constructions of gender.
CR: the former WSTD 4000
OR: 3 hour seminar per week
PR: GNDR 3005 or the former WSTD 3005 or GNDR 3025

4005 Feminist Practices (same as the former WSTD 4005) examines, in considerable depth and detail, connections between feminist theories and activism for social and political change. It examines how social movement activism, including feminism, is mobilized in different historical, cultural and national contexts.
CR: the former WSTD 4005
PR: GNDR 3005 or the former WSTD 3005 or GNDR 3025

12.12 Geography

In accordance with Senate’s Policy Regarding Inactive Courses, the course descriptions for courses which have not been offered in the previous three academic years and which are not scheduled to be offered in the current academic year have been removed from the following listing. For information about any of these inactive courses, please contact the Head of the Department.

It is strongly recommended that all 2000-level core courses be completed before registration in 3000-level courses. All 2000-level core courses must normally be completed prior to registration in a 4000-level course.

Specific prerequisites for courses may be waived only with permission of the instructor and the Head of Department.

Geography courses are designated by GEOG.

1050 Geographies of Global Change provides perspectives on the major geopolitical changes facing the contemporary globe, including: climate and environmental change, sustainability, human development, economic globalization, cultural change, and population and migration. Using the integrative skills of geographical analysis, the course provides prospective students for advanced study in geography in the modern world. All sections of this course follow Quantitative Reasoning Course Guidelines available at www.mun.ca/arts/qr.
CR: can not be obtained if GEOG 1050 and any one of the former GEOG 1000, the former GEOG 1001, the former GEOG 1010, the former GEOG 1011

2001 Cultural Geography is an introduction to the study of culture in geography, emphasizing both the history of the field from classic studies of landscapes to contemporary scholarship and themes of recent importance. These include the relationship with state politics and society; language, place, identity and power; and global cultures of commodities, media, and tourism.
PR: GEOG 1050, or the former GEOG 1010, or the former GEOG 1011

2102 Physical Geography: The Global Perspective is a study of form, process, and change in natural systems at all scales from local to global. The emphasis is on understanding the effects of global and regional processes on the earth’s surface and the role of human activity in these processes. All sections of this course follow Quantitative Reasoning Course Guidelines available at www.mun.ca/arts/qr.
CR: the former GEOG 2100, the former GEOG 2101
LH: 3
PR: GEOG 1050, or the former GEOG 1001, or the former GEOG 1011

2105 Canada’s Natural Environments and Landscapes examines the characteristics and development of the natural environments and landscapes of each of the major regions of Canada. The diversity of Canada’s environments is illustrated through discussion of the climatic, hydrological, biogeographical, and geomorphic processes responsible for shaping the land. Discussions of the impact of both gradual and rapid (catastrophic) changes on local, national, and global scales will be emphasized. This course is complementary to GEOG 3405; students are encouraged to take both.
CR: the former GEOG 3100

2195 Introduction to Geographic Information Sciences is an introduction to the fields of cartography, remote sensing, and geographic information science (GIS). Geographic information collection, representation and analysis methods are the topics for the course. An emphasis is given to applications of maps and satellite images. All sections of this course follow Quantitative Reasoning Course Guidelines available at www.mun.ca/arts/qr.

2226 Field Methods I is designed to introduce students to the practice of geography in the field. Field techniques will be used to focus on the observation, identification, and collection of primary data. This course provides a basis for further study in advanced geography courses.
CR: 1
PR: GEOG 1050 or permission of the instructor

2302 Issues in Economic Geography covers basic issues and ideas in economic geography. The development of a regional economy will be related to underlying economic, cultural and physical factors. All sections of this course follow Quantitative Reasoning Course Guidelines available at www.mun.ca/arts/qr.
PR: GEOG 1050, or the former GEOG 1001, or the former GEOG 1011

2425 Natural Resources is an introduction to the concepts of natural resources, environment and conservation: the nature and distribution of natural resources; methods of use, allocation and development of natural resources and the role of various physical, social, economic, political and technological factors influencing decision-making about resources.
CR: the former GEOG 3325
PR: GEOG 1050, or the former GEOG 1001, or the former GEOG 1011

2495 Regional Geography of Labrador is a holistic study of the Geography of Labrador, including the terrain, geology, Quaternary history, climate, vegetation, and fauna; the cultural geography of Labrador, including Inuit, Inuit, NunatuKavut, and Settler people and communities; economic activities in Labrador, and the interaction of the Labrador economy within Newfoundland, Canada, and globally; the management of physical and human resources; and the geographic techniques used to investigate and understand Labrador’s unique Geography.
CR: the former GEOG 3495
3120 Climatology is an analysis of the energy and moisture budgets and circulation of the atmosphere at the macro-scale, together with an examination of resulting climate characteristics for selected world regions.
LH: 3
PR: GEOG 2102, Mathematics 1000

3140 Biogeography is the application of ecological concepts to the study of the spatial variations in the distribution of plants and vegetation. Laboratory work emphasizes terrestrial flora of Newfoundland.
LH: 3
PR: GEOG 2102, Mathematics 1000

3150 Geomorphology (same as Earth Sciences 3700) is a study of the relationships between geomorphic processes and landforms.
CR: Earth Sciences 3700
LH: 3
PR: GEOG 2102 or Earth Sciences 2905, Mathematics 1000

3202 Introduction to Cartography is an introduction to the field of cartography and its different components, including: projections, generalization, cartographic design, data classification, topographic and thematic mapping.
CR: the former GEOG 2200
LH: 3
Laboratory exercises will utilize Geographic Information Systems software.
PR: 6 credit hours at the 2000-level

3222 Research Design and Quantitative Methods in Geography is an introduction to principles of research design, and to the use of quantitative techniques. This course provides students with a basic understanding of how to collect data, entry and analysis and presentation skills most commonly used by geographers. Practical, computer-based exercises are an essential part of the course. It is strongly recommended that this course be completed before registration in a 4000-level geography course.
CR: the former GEOG 2220
LH: 3
PR: GEOG 1050, or the former GEOG 1011, or the former GEOG 1001 and at least 9 credit hours from GEOG 2001, 2102, 2195, 2200, 2245

3226 Field Methods II is designed to provide students with field experience at a more advanced level, building on GEOG 2226. In this course, students will experience the field research process from the initial observation of a site through research and analysis to completion of a written report.
CH: 2
PR: GEOG 2226

3230 Field Course will normally be taken by Geography Honours students just prior to the Fall Semester of their third year. The course will be held off campus and is designed to provide experience in instrument and field techniques in physical, economic and cultural Geography.
PR: permission of the instructor

3250 Introduction to Remote Sensing is an introduction to digital image analysis including many aspects of pre-processing and processing of airborne and satellite imagery.
LH: 3
PR: GEOG 2195, Mathematics 1000

3260 Introduction to Geographic Information Systems (GIS) introduces the principles of GIS as they relate to spatial data input, structures, management, integration, analysis and output. Laboratory exercises permit students to use GIS software and explore how it can be applied to a wide variety of disciplines and real-world issues.
CR: the former GEOG 4251
LH: 3
PR: GEOG 2195, Mathematics 1000

3303 Location Theory - Inactive course.

3320 Fisheries Geography - Inactive course.

3340 Techniques of Regional Analysis is an introduction to some of the more common types of analysis of urban and regional systems.
PR: GEOG 3303

3350 Community and Regional Planning and Development introduces students to regional planning and development theories, techniques and approaches. Understanding of networks of development actors at community and regional scales, methods of delineating regions, links between theory and practice in planning and development. Focus on Canadian experiences and a sustainable development perspective.
PR: GEOG 2302 or permission of the instructor

3405 Canada is a study of the regional geography of Canada, with emphasis on social, economic and political characteristics. This course is complementary to GEOG 2105; students are encouraged to take both.
CR: the former GEOG 2400
PR: GEOG 2001, 2102 and 2302; or permission of the instructor and the Head of the Department

3425 Geographical Analysis of Resources is the geographic study of contemporary North American issues in resources and their management. Emphasis will be placed on air and water quality issues, lands and forest resources, energy resources, and coastal zone resources. A number of substantive areas in resource analysis will be considered, including resource appraisal, landscape evaluation, and environmental impact assessment.
CR: the former GEOG 4400
PR: GEOG 2425 or equivalent

3510 Geography of the Seas is an introductory course in marine science and management treating the world's oceans as a geographic unit. The course covers basic physical, geological and biological marine science and applications of basic science to management issues facing the oceans today.
PR: GEOG 2102 or GEOG 2425, or permission of instructor

3610 Cultural Landscape is an investigation of a principal subject of study in cultural geography; the human imprint on the land. The course will include a detailed consideration of the origin of landscape studies in geography; newer approaches emphasizing visual and representational aspects of landscapes; and several diverse case studies with historical and contemporary, concerned with struggles over their definition.
PR: GEOG 2001

3620 Migration and Colonization is a study of population movements associated with colonization and frontier development.
PR: GEOG 2001

3701 Urban Geography is an examination of the evolution, structure and dynamics of cities and urban systems.
PR: GEOG 2302

3710-3729 Special Topics in Geography will have topics to be studied announced by the Department.
PR: available only as part of the Harlow Campus Semester

3800 Political Geography is a geographic study of political ideas and processes. The course will consist of a historical discussion of the origins and trajectory of geopolitics, from the beginning of the 20th century to contemporary uses; key themes in political geography, including strategy and statecraft, decolonization and nationalism, global technologies, and environmental security will be discussed.
PR: GEOG 2001

3900-3909 Special Topics in Geography will have topics to be studied announced by the Department.
PR: permission of the instructor and the Head of the Department

3990-3999 Special Topics in Geography will have topics to be studied announced by the Department.
PR: permission of the instructor and the Head of the Department.

4010 Cultural Geography is concepts and methods in the study of cultural geography.
PR: GEOG 2001 and at least one of GEOG 3810, 3620, 3800. It is strongly recommended that GEOG 3222 and 3226 be completed before registration in 4000-level courses.

4015 Cultural Resource Management (same as Archaeology 4015 and Folklore 4015) is a study of cultural resource management: the definition and recognition of cultural resources, the application of policy in managing cultural resources, and the identification and consideration of contemporary issues in cultural resource management.
CR: Archaeology 4015, Folklore 4015
OR: three hours of seminar per week
PR: it is strongly recommended that GEOG 3222 and 3226 be completed before registration in 4000-level courses.

4120 Applied Climatology is analysis of the impact of climatic environments and meteorological conditions upon agriculture, forestry, the hydro industry and the marine sector. Climatological considerations in the planning and design of urban areas and buildings.
LH: 3
PR: GEOG 3120

4141 Glacial Environments is an examination of the landforms, processes and sediments of past and present glacial environments. Course work will stress broad applications to environmental science.
CR: the former Earth Sciences 4701
LH: 3 hours of laboratory/field work per week
PR: 6 credit hours in physical geography courses at the 3000-level; or permission of Head of Department. It is strongly recommended that GEOG 3222 and 3226 be completed before registration in 4000-level courses.

4150 Environmental Change and Quaternary Geography (same as Archaeology 4150 and Earth Sciences 4703) covers methods of reconstructing Quaternary environments; effects of Quaternary environmental change on landforms, with special reference to North
Coastal Geomorphology is an advanced course in geomorphology of coastal regions in all climate zones. Covers reflective and dissipative beaches, barrier systems, coastal sand dunes, deltas, tidal flats, estuaries, reefs, bedrock and karst shorelines, ice-dominated shorelines, and influence of climatic change and sea level change on coastal environments.

The central question of the course is: how do we understand the region and regional development in theoretical terms and in a policy context. Is focussed on understanding the purpose of analysing and modelling spatial patterns and processes. Laboratory exercises permit students to use GIS software to explore as well as develop problem solving and modelling skills for a wide variety of real world applications.

4190 Coastal Geomorphology

4202 Advanced Cartography: A course designed to provide students with advanced knowledge in cartography, and to produce final geographic datasets and maps.

4220 Advanced Quantitative Methods: A course designed to provide students with advanced knowledge in remote sensing, geostatistics, and geographical information systems.

4261 Advanced Methods in Geographic Information Systems (GIS): A course designed to provide students with advanced knowledge in the use of GIS software to explore as well as develop problem solving and modelling skills for a wide variety of real world applications.

4290 Geographic Information Sciences Practicum: A course designed to provide students with advanced knowledge in the use of GIS software to explore as well as develop problem solving and modelling skills for a wide variety of real world applications.

4300 World Fisheries: Current Discourse and Future Directions: A course designed to provide students with advanced knowledge in the use of GIS software to explore as well as develop problem solving and modelling skills for a wide variety of real world applications.

4320 Regional Development Seminar: A course designed to provide students with advanced knowledge in the use of GIS software to explore as well as develop problem solving and modelling skills for a wide variety of real world applications.

4405 Outdoor Recreational Resources and Planning: A course designed to provide students with advanced knowledge in the use of GIS software to explore as well as develop problem solving and modelling skills for a wide variety of real world applications.
4999 Dissertation Honours Degree is required of the Honours degree.
PR: It is strongly recommended that GECG 3222 and 3226 be completed before registration in 4000-level courses. Admission to the Honours program.

12.13 German
In accordance with Senate’s Policy Regarding Inactive Courses, the course descriptions for courses which have not been offered in the previous three academic years and which are not scheduled to be offered in the current academic year have been removed from the following listing. For information about any of these inactive courses, please contact the Head of the Department.
The Department offers several courses in Germany during the Spring/Summer semester. See the Departmental web page at www.mun.ca/german for details on the German Field School.
German courses are designated by GERM.

1000 Elementary German I is intended to give beginners a basic knowledge of the spoken and written language and culture of the German-speaking countries. All sections of this course follow the Language Study Course Guidelines available at www.mun.ca/arts/ls.
PR: GERM 1000
CR: the former GERM 1002

1001 Elementary German II is a continuation of Elementary German I with the same basic text. All sections of this course follow the Language Study Course Guidelines available at www.mun.ca/arts/ls.
PR: GERM 1000
CR: the former GERM 1003

2010 Intermediate German I is a completion of the fundamentals of the German language, with a continued strong cultural component. All sections of this course follow the Language Study Course Guidelines available at www.mun.ca/arts/ls.
PR: GERM 1000 and GERM 1001 or equivalent

2011 Intermediate German II is a grammar review and introduction to literature. All sections of this course follow the Language Study Course Guidelines available at www.mun.ca/arts/ls.
PR: GERM 2010 or consent of the Head of the Department

2030 Reading German I gives training in reading scholarly German for senior undergraduate and graduate students with no previous knowledge of German, for whom this work is recommended or required by other departments or faculties. All sections of this course follow the Language Study Course Guidelines available at www.mun.ca/arts/ls.
PR: GERM 2010 or consent of the Head of the Department

2031 Reading German II is a continuation of Reading German I. In this course an attempt will be made to meet individual requirements. All sections of this course follow the Language Study Course Guidelines available at www.mun.ca/arts/ls.
PR: GERM 2010 or consent of the Head of the Department

3010 Advanced Composition and Conversation I aims to increase fluency in speaking and writing German. All sections of this course follow the Language Study Course Guidelines available at www.mun.ca/arts/ls.
PR: GERM 3010 or consent of the Head of the Department

3011 Advanced Composition and Conversation II is a continuation of Advanced Composition and Conversation I. All sections of this course follow the Language Study Course Guidelines available at www.mun.ca/arts/ls.
OR: includes a 4-week field school in Germany in August which lengthens the time frame for the course by approximately two weeks
PR: GERM 3011 and consent of the Head of the Department

3030 German Film I is a survey of German film from the beginnings to 1945.

3001 German Film II is a survey of West German film from 1945 to 1990.

3002 Post-Wall Cinema is a study of German cinema from 1990 to the present. It addresses a number of issues that are clearly identified with a post-Wall, unified Germany, such as German unification itself, the new German comedy of the 1990’s, the transnationalization of German cinema, the treatment of the Nazi and the Communist past, the rediscovery of the social as a narrative focus, and on the evolving cinematographic directions taken by contemporary German film. The movies are subtitled and lectures and readings are in English.

3003 DEFA The Cinema of East Germany is an examination of East Germany’s cinema through its feature films addressing issues in the context of Germany’s divided status and its split screen from 1946 to 1990.

3004-3009 Special Topics in German Studies I will have topics to be studied announced by the Department.

3005 West to East: Aspects of the German Intellectual Influence on Russia (same as History 3005 and Russian 3005) examines the fluidity of ideas across geo-political borders, languages and cultures, by exploring how the German intellectual discourse was received and reinterpreted by Russians in their literary, artistic and cultural dialogue. Ideas about the Romantic Hero become conflated with theories involving the Will, the Nietzschean Superman and the Proletarian Revolutionary, personified and embodied in what some scholars characterize as political/cultural Gods (Lenin, Stalin, Hitler).
CR: History 3005, Russian 3005

3010 Advanced German I aims at a high level of accomplishment in German pronunciation, composition and translation through practice in the spoken language, written exercises and the reading of more advanced literary material. All sections of this course follow the Language Study Course Guidelines available at www.mun.ca/arts/ls.
PR: GERM 2010 and 2011

3011 Advanced German II is a continuation of Advanced German I. All sections of this course follow the Language Study Course Guidelines available at www.mun.ca/arts/ls.
PR: GERM 3010 or consent of the Head of the Department

3510 Advanced Composition and Culture aims to increase accuracy and fluency in written and spoken German with emphasis on grammar review. All sections of this course follow the Language Study Course Guidelines available at www.mun.ca/arts/ls.
OR: includes a 4-week field school in Germany in August, which lengthens the time frame for the course by approximately two weeks
PR: GERM 3010 and consent of the Head of the Department

3511 Advanced Composition and Conversation aims to increase accuracy and fluency in written and spoken German with emphasis on grammar review. All sections of this course follow the Language Study Course Guidelines available at www.mun.ca/arts/ls.
OR: includes a 4-week field school in Germany in August, which lengthens the time frame for the course by approximately two weeks
PR: GERM 3011 and consent of the Head of the Department

3900 Survey of German Literature I is a study of the chief periods of German literature based on works of representative authors. A general survey from the earliest works to 1750.
PR: GERM 2011 or the consent of the Head of Department

3901 Survey of German Literature II is a study of the chief periods of German literature based on works of representative authors. A general survey from 1750 to the present.
PR: GERM 2011 or the consent of the Head of Department

3911 Faust and the Magus Tradition is a study of the legend of Faust’s pact with the devil from the Middle Ages to the present in art, music and literature, and its influence on various cultures in both Europe and America. Lectures and readings in English.

3912 Modern German Literature in Translation I (Pre-1945) is a study of the works of some major modern German authors. Lectures and readings in English.

3913 Modern German Literature in Translation II (Post-1945) is a study of the works of some major modern German authors. Lectures and readings in English.

3914 German Women Writers in English Translation studies representative works by prominent German, Austrian, and Swiss women writers from the 19th-century to the present day, their place in German literary history, and the impact of their individual voices.
PR: the former Women's Studies 2000 or permission of the Department

3915 National Socialist Ideology and Culture examines German culture within the context of National Socialist era. Special attention will be focussed on how language, art and literature were used in National Socialist propaganda.

4000 German Literature of the Eighteenth Century I is a study of the historical and cultural background of the eighteenth century, of Enlightenment and Storm and Stress. Reading and discussion of representative works with emphasis on Lessing, Goethe and Schiller. Taught in German.
PR: GERM 3011 or the consent of the Head of Department
4001 German Literature of the Eighteenth Century II is a study of the historical and cultural background of the eighteenth century, of Storm and Stress and Classicism. Reading and discussion of representative works with emphasis on Goethe and Schiller. Taught in German.
PR: GER 3101 or the consent of the Head of Department

4010 Advanced Stylistics I is specialized study of the more complex areas of German grammar, style, and idiomatic usage, involving intensive practice in composition and oral expression, and focussed on detailed work with contemporary cultural materials such as newspapers, television, and film. This course is taught in German. All sections of this course follow the Language Study Course Guidelines available at www.mun.ca/arts/is.
PR: GER 3101 or the consent of the Head of Department

4011 Advanced Stylistics II is a continuation of Advanced Stylistics I. This course is taught in German. All sections of this course follow the Language Study Course Guidelines available at www.mun.ca/arts/is.
PR: GER 4010 or consent of the Head of the Department.

4100 German Literature of the 19th Century I is a study of the leading exponents of nineteenth-century literature, including the background of Romanticism and the young Germany movement. Taught in German.
PR: GER 3101 or the consent of the Head of Department.

4101 German Literature of the 19th Century II is a study of the leading exponents of nineteenth-century literature, including the background of Poetic Realism and Naturalism. Taught in German.
PR: GER 3101 or the consent of the Head of Department

4200 German Literature of the Twentieth Century I traces the important literary movements up to 1945, using a number of representative authors. Reading of selected dramas, novels, poems and short stories. This course is taught in German.
PR: GER 3101 or the consent of the Head of Department

4201 German Literature of the Twentieth Century II traces the important post 1945 literary movements, using a number of representative authors. Reading of selected dramas, novels, poems and short stories. This course is taught in German.
PR: GER 3101 or the consent of the Head of Department

4300 Middle High German Language and Literature I is an introduction to the German language, literature and culture of the eleventh to fifteenth centuries: historical linguistics, Middle High German grammar and the court epic.
PR: one of German 2111, 2511, 3111 or the consent of the Head of Department

4301 Middle High German Language and Literature II - inactive course.

4400 Early Modern German Literature I is reading, interpretation and critical analysis of representative works of German literature written in the Age of Reformation and the early Baroque period.
PR: one of German 2111, 2511, 3111 or the consent of the Head of Department

4401 Early Modern German Literature II - inactive course.

4802 4825 Special Topics in German Studies II will have topics to be studied announced by the Department.

4998 Comprehensive Examination for Honours Students is the comprehensive examination required for honours students.

4999 Honours Essay for Honours Students is required as part of the Honours program.
PR: admission to the Honours program

12.13.1 Russian

In accordance with Senate’s Policy Regarding Inactive Courses, the course descriptions for courses which have not been offered in the previous three academic years and which are not scheduled to be offered in the current academic year have been removed from the following listing. For information about any of these inactive courses, please contact the Head of the Department.

The Department offers several courses in Russian during the Spring/Summer Semester. See the Departmental web page at www.mun.ca/german/russian/course_descriptions.php for details on the Russian Summer Program.

Russian courses are designated by RUSS.

1000 Elementary Russian I provides an introduction to Russian grammar and a basic knowledge of the spoken and written language. All sections of this course follow the Language Study Course Guidelines available at www.mun.ca/arts/is.

1001 Elementary Russian II is a continuation of Elementary Russian I. All sections of this course follow the Language Study Course Guidelines available at www.mun.ca/arts/is.
PR: RUSS 1000 or equivalent

2010 Intermediate Russian I continues RUSS 1000/1001 including more complex concepts of basic grammar and introducing Russian texts from literature and newspapers. All sections of this course follow the Language Study Course Guidelines available at www.mun.ca/arts/is.
PR: RUSS 1000 and 1001 or equivalent

2011 Intermediate Russian II is a continuation of Intermediate Russian I. All sections of this course follow the Language Study Course Guidelines available at www.mun.ca/arts/is.
PR: RUSS 1000 and 1001 or equivalent

2030 Russian for Reading I is designed to foster a reading knowledge of Russian relevant to professional, business or academic disciplines. It is intended for senior undergraduate or graduate students, as well as professional and business people. No previous knowledge of Russian is required. All sections of this course follow the Language Study Course Guidelines available at www.mun.ca/arts/is.

2031 Russian for Reading II is a continuation of Russian for Reading I. All sections of this course follow the Language Study Course Guidelines available at www.mun.ca/arts/is.
PR: RUSS 2030 or 1001, or permission of the Head of the Department

2510 Intermediate Composition and Conversation I is an intensive course which focuses on improving vocabulary and fluency in speaking and writing Russian. All sections of this course follow the Language Study Course Guidelines available at www.mun.ca/arts/is.

2511 Intermediate Composition and Conversation II is a continuation of RUSS 2510 including more complex concepts. All sections of this course follow the Language Study Course Guidelines available at www.mun.ca/arts/is.

2600 Russian Literature in Translation: Nineteenth Century is a study of selected works of Russian authors including Pushkin, Lermontov, Gogol, Turgenev, Tolstoy, Dostoyevsky, Chekhov. This course qualifies as a Research/Writing course.

2601 Russian Literature in Translation: Twentieth Century is a study of selected works of Russian authors of the pre-revolutionary, Soviet and post-Soviet periods. This course qualifies as a Research/Writing course.

2900 Russian Culture I is a study of the evolution of Russian culture and Russian intellectual history up to 1917. Lectures include discussions of Russian art, music and film. Lectures are given in English. This course qualifies as a Research/Writing course.

2901 Russian Culture II is a study of the evolution of Russian culture in the USSR and the post-Soviet period. Lectures include discussions of Soviet Russian art, music and film. Lectures are given in English. This course qualifies as a Research/Writing course.

3000-3009 (Excluding 3003 and 3005) Special Topics in Russian Studies will deal with topics announced by the Department.

3003 Russian and Soviet Film Until 1948 begins with the origins of film in Russia in the late imperial era, and then proceeds to follow the development of film in Russia and the Soviet Union until the death of Sergei Eisenstein following World War II. Our focus is on a selection of artistically, culturally, and politically important films from this period.
UL: may not be used as part of the Faculty of Arts requirement of 6 credit hours in a second language

3005 West to East: Aspects of the German Intellectual Influence on Russia (same German 3005 and History 3005) examines the fluidity of ideas across geo-political borders, languages and cultures, by exploring how the German intellectual discourse was received and reinterpreted by Russians in their literary, artistic and cultural dialogue. Ideas about the Romantic Hero become conflated with theories involving the Will, the Nietzschean Superman and the Proletarian Revolutionary, personified and embodied in what some scholars characterize as political/cultural Gods (Lenin, Stalin, Hitler).
CR: German 3005, History 3005

3010 Advanced Russian I is an advanced study of literary texts, grammar, composition and translation with practice in the spoken language. All sections of this course follow the Language Study Course Guidelines available at www.mun.ca/arts/is.
PR: RUSS 2010 and 2011

3011 Advanced Russian II is a continuation of Advanced Russian I; emphasis is placed on advanced grammar and reading of selected texts from Russian short stories, magazines and newspapers. All sections of this course follow the Language Study Course Guidelines available at www.mun.ca/arts/is.
PR: RUSS 2010 and 2011
3023 Post-Stalin Russia: Media and Film is an examination of contemporary Russian visual media with attention to the cultural discourse concerning Russian history and cultural identity.

3900 Survey of Russian Literature I is a study of masterpieces by representative Russian authors of poetry and prose with particular emphasis on stylistic characteristics of the authors studied and the evolution of the Russian literary language.

3001 Survey of Russian Literature II is a continuation of RUSS 3900.

3910 Post Perestroika Russia explores contemporary issues concerning the changes (artistic, political, cultural, economic) and sense of rediscovery in modern Russia in the context of works by present-day writers.

4001-4010 (Excluding 4002) Special Topics in Russian will deal with topics as announced by the Department.

4002 Giants of Soviet Cinema focuses on the oeuvres of one or two directors, or a movement or era within Soviet Cinema. Students will examine films closely according to their artistic structures and historical contexts, applying a broad range of classic readings on film theory to help inform analysis.

4100 Russian Literature of the Nineteenth Century I is a study of major Russian authors, including Pushkin, Lermontov, and Gogol.

4101 Russian Literature of the Nineteenth Century II is an inactive course.

4200 Russian Literature of the Twentieth Century I is an inactive course.

4201 Russian Literature of the Twentieth Century II is a study and analysis of texts by modern Russian writers.

4800 Special Topics in Russian Studies I will deal with topics as announced by the Department.

4801 Special Topics in Russian Studies II will deal with topics as announced by the Department.

12.14 Greek

For Greek course descriptions see under Classics.

12.15 Greek and Roman Studies

For Greek and Roman Studies course descriptions see under Classics.

12.16 History

In accordance with Senate's Policy Regarding Inactive Courses, the course descriptions for courses which have not been offered in the previous three academic years and which are not scheduled to be offered in the current academic year have been removed from the following listing. For information about any of these inactive courses, please contact the Head of the Department.

History courses are designated by HIST.

1009 Themes in Ancient and Medieval History will introduce students to the methodology of studying ancient and/or medieval history through a close examination of textual and material remains. The course will be taught around a particular theme and/or historical period each year. This course qualifies as a research/writing course.

CR: cannot receive credit for more than two first-year courses in History

UL: only one first-year course may be used to meet the requirements of a major or minor. Up to two first-year History courses can be used as Arts electives and these courses qualify as research/writing courses.

1010 Themes in the Age of Expansion is a thematic examination of European interaction with the North Atlantic and the Americas from the voyages of discovery to the independence movements of the Americas. This course qualifies as a research/writing course.

CR: cannot receive credit for more than two first-year courses in History

UL: only one first-year course may be used to meet the requirements of a major or minor. Up to two first-year History courses can be used as Arts electives and these courses qualify as research/writing courses.

1011 Themes in Modern European History is a thematic examination of the political, economic, social and cultural developments in Europe and the wider world from the French Revolution to World War I. This course qualifies as a research/writing course.

CR: cannot receive credit for more than two first-year courses in History

UL: only one first-year course may be used to meet the requirements of a major or minor. Up to two first-year History courses can be used as Arts electives and these courses qualify as research/writing courses.

1012 Themes in Twentieth Century World History will examine some of the major themes in twentieth century world history after 1914. This course qualifies as a research/writing course.

CR: cannot receive credit for more than two first-year courses in History

UL: only one first-year course may be used to meet the requirements of a major or minor. Up to two first-year History courses can be used as Arts electives and these courses qualify as research/writing courses.

1013 Themes in Canadian History will examine the historical context for various contemporary problems being experienced by Canadians. This course qualifies as a research/writing course.

CR: cannot receive credit for more than two first-year courses in History

UL: only one first-year course may be used to meet the requirements of a major or minor. Up to two first-year History courses can be used as Arts electives and these courses qualify as research/writing courses.

1014 Themes in United States History will examine several historical themes or problems in the history of the United States. This course qualifies as a research/writing course.

CR: cannot receive credit for more than two first-year courses in History

UL: only one first-year course may be used to meet the requirements of a major or minor. Up to two first-year History courses can be used as Arts electives and these courses qualify as research/writing courses.

1015 Themes in Social and Cultural History introduces students to early modern Western history (1500-1800) through the study of original texts. It will combine lectures on the historical background to the texts, discussion of them and analysis of their meanings in assigned essays. This course qualifies as a research/writing course.

CR: cannot receive credit for more than two first-year courses in History

UL: only one first-year course may be used to meet the requirements of a major or minor. Up to two first-year History courses can be used as Arts electives and these courses qualify as research/writing courses.

2040 History of the Roman Republic same as Classics 2441 is a survey of Roman history from the early monarchy to the death of Julius Caesar, with special reference to the society and politics of the late Republican period.

CR: Classics 2401, the former Classics 2400, the former HIST 2400

2042 History of the Roman Empire (same as Classics 2402) is a survey of Roman history from the death of Julius Caesar to the rise of Constantine, with special reference to the society and politics of the early Imperial period.

CR: Classics 2404, the former Classics 2400, the former HIST 2400

2050 Medieval Middle East provides an introduction to the medieval Middle East (330-1453). Students will examine the Byzantine Empire, the Sasanian Empire, and the various Islamic Empires, as well as the minority groups living under these empires, including the Coptic, Armenian, and Syriac communities.
2060 History of War and Society to 1789 (same as the former HIST 3050) is a survey of major developments in the history of warfare from the earliest times to 1789 with particular emphasis on changes in the nature and conduct of warfare, the evolution of military thinking, the organization of military and naval forces, the impact of technological change, the emergence of professionalism, societies, and armed forces. PR: the former HIST 3050

2065 History of War and Society from 1789 to the Present (same as the former HIST 3060) is an examination of those major developments which have affected the nature and conduct of warfare in the period since 1789, with particular emphasis on the evolution of military thinking, the impact of technology on organization and planning, the role of air power, the civil-military relationship, professionalism in the armed forces, and the changing nature of warfare, the emergence of total war, global war, guerrilla warfare, and limited warfare. CR: the former HIST 3060

2110 North Atlantic History Since 1820 - inactive course.

2130 Seafaring Places and Seafaring Peoples is a study of the places and people involved in maritime activities between Europe and Asia and in India, southeast Asia, China and Japan during the period of European expansion to the region.

2140 The Atlantic Slave Trade is a comparative survey of the Transatlantic Slave Trade 1503-1851, from West African origins through the oceanic Middle Passage to the formation of slave societies in the Americas. This course examines processes of enslavement, commodification, shipboard resistance, sale and adaptation, and the international movement to abolish the slave trade.

2200 Making Canada is a survey of Canadian History to Confederation, 1867.

2210 Modern Canada is a survey of Canadian history since Confederation.

2300 Early Modern European History, 1500-1799 is an introduction to the main issues and problems in early modern European history with an emphasis on the political, social, economic and cultural developments from the sixteenth to the eighteenth century.

2310 Europe in the Nineteenth Century, 1789-1914 is a survey of the economic, social, political and cultural developments of Europe from 1789-1914.

2320 Medieval Europe to the Eleventh Century (same as Medieval Studies 2001) is a survey of the economic, social, political and cultural developments of the early Middle Ages.

2330 Medieval Europe Since the Eleventh Century (same as Medieval Studies 2002) is a survey of the economic, social, religious, political and cultural developments of Europe in the high and late Middle Ages.

2340 European Urban History examines the development of urban networks as the growth of specific towns and cities in early modern Europe. We will also study how these centres were perceived, and the roles of public spaces and public festivals. Much of this course is devoted to examining the conditions found in urban centres and the impact on local inhabitants. The course concludes with a study of nineteenth century urban boosterism.

2350 Europe in the Twentieth Century (same as the former European Studies 2000) Poltical Science 2990, and the former Political Science 2350) examines social, economic, and political changes from 1918 to the present including the collapse of monarchies, the emergence of mass politics, fascism and totalitarianism, World War II, postwar reconstruction and the welfare state, European integration, and Europe in the postwar economic and political order. The course will examine Britain, France, Germany, and Italy, and particularly the European Union. Special attention will be paid to the demise of class politics and the impact of postwar affluent. CR: the former European Studies 2000, Political Science 2990, the former Political Science 2350

2500 The Twentieth Century I is a study of the world-wide impact of the main events and developments in the age of global interdependence.

2510 The Twentieth Century II is an historical analysis of the main issues in the contemporary world since 1945.

2600 History of the United States of America to 1865 is a survey of the history of the United States of America from its colonial origins to the end of the Civil War.

2610 History of the United States of America Since 1865 is a survey of the history of the United States of America since the Civil War. CR: the former HIST 3240

2665 Sickness and Health in Western Society examines changing understandings of disease causation and how the human body functions, the growth of formal medical education, and the rise of medical institutions. Examples of fine art, literature, and popular culture will be integrated into lectures and seminars to help provide a comprehensive overview of what it has been like to be ill and well over the last three millennia.

2760 Women’s History: The Gendered Past - inactive course.

2800 Indigenous Peoples and Colonialism is a comparative survey of Indigenous experiences with colonialism in a global context from the sixteenth century onwards.

3000 Medieval Books (same as English 3002, Medieval Studies 3002, Religious Studies 3000) is an examination of the development and role of the manuscript book during the Middle Ages. Topics covered will include book production and dissemination; authors, scribes and audiences; and various kinds of books (e.g. glossed Bibles, anthologies, book of hours, etc.) and their uses.

3005 West to East: Aspects of the German Intellectual Influence on Russia - inactive course.

3011-3019 Special Topics in Ancient and Medieval History are specialized studies in Ancient and Medieval History. Topics to be studied will be posted on the Department of History website.

3020 Art, Architecture and Medieval Life (same as Archaeology 3001, Folklore 3001, Medieval Studies 3001) is an examination of the development of medieval art and architecture and of the ways in which they mirror various aspects of life in the Middle Ages. This course will include a discussion of art and architecture in the countryside, in the town, in the castle, in the cathedral and in the monastery.

3030 Environmental History examines the history of human relationships to the natural environment. The focus of the course is the history of environmental changes caused by humans, and the influence of the natural environment on human cultures and societies. Case studies will focus on issues with broad relevance to contemporary environmental issues such as energy use, the environmental impact of military conflict, species introductions, natural disasters, urban sustainability, ecological restoration, and the origins of environmentalism.

3110 History of Newfoundland to 1815 studies the growth of settlement and the manner in which a ‘migratory’ fishery carried on from England and Ireland changed into a ‘sedentary’ fishery carried on by residents of Newfoundland.

3120 Modern Newfoundland since 1815 examines the establishment and development of political institutions, changes in economic structure and the growth of populations.

3200 Women and the Law in Newfoundland History - inactive course.

3270 Christianity and the Roman Empire (same as Classics 3270 and RELI 3270) is a study of the relationship between Christianity and the Roman Empire from the first to the fourth century.

3360 Revolutionary and Soviet Russia - inactive course.

3370 German History I, to the Mid-Nineteenth Century examines the history of the peoples and states of the Holy Roman Empire of the German nation and the Germanic Confederation with emphasis on the origins of modern Germany.

3380 German History II, Since the Mid-Nineteenth Century examines the history of German-speaking central Europe with special reference to the evolution of modern Germany since the mid-nineteenth century.

3440 History of the British Empire and Commonwealth since 1815 examines the key developments in British imperialism up until the transition to the new Commonwealth in the 1970s.

3450 Tudor and Stuart Britain, 1485-1714: Reformation, Renaissance, and Revolution examines a dynamic period of religious, cultural and political change.

3460 British History Since 1714 examines British history from the
accession of the Hanoverians to the welfare state.

3480 History of Ireland, 1603 to the Great Famine is a survey of Irish history from Hugh O'Neill's submission to the English in 1603 to the mid-nineteenth century disaster of the Great Famine.

3490 History of Ireland Since the Great Famine is a survey of Irish history from the mid-nineteenth century to the present.

CR: the former HIST 3470

3520 Aboriginal History to 1763 (same as Archaeology 3520 and the former Anthropology 3520) examines Aboriginal history in North America from first European contact to the Royal Proclamation in 1763. Particular attention will be paid to historical encounters framed by first contacts, cultural exchange, trade, disease, religious encounters, conflict and diplomacy, and territorial encroachment.

CR: Archaeology 3520, the former Anthropology 3520

3525 Aboriginal History From 1763 (same as Archaeology 3525 and the former Anthropology 3525) examines the history of Aboriginal peoples in North America from 1763 to the twentieth century. Particular attention will be paid to Indigenous-settler relations, including Aboriginal policies, military encounters and diplomacy, expansion and removals, education, treaties, and politicization.

CR: Archaeology 3525, the former Anthropology 3525

3535 Historical Anthropology (same as the former Anthropology 3535 and Archaeology 3534) will explore selected issues in historical anthropology, with special reference to the Mediterranean and North Atlantic worlds. Students will read specific case studies in order to explore the theoretical issues raised by the attempt to understand historically-documented past cultures. In order to give practical examples of methodology classes will examine primary source material. Students will be introduced to the historical analysis of myth and legal records, to the interpretation of images and to the analysis of patterns in material culture. The course will consider specific current interpretative issues, particularly the rise of individualism, the consumer revolution and the cultural construction of gender.

CR: the former Anthropology 3535, Archaeology 3534

3536 Object Lessons: Putting Strange Things in Context (same as Archaeology 3536) explores the interpretation of unique objects, especially those which have been separated, in some way, from their historical context or archaeological assemblage. Students will study the history of technology, the emergence of art, the invention of tradition and the role of design in industrial societies.

CR: Archaeology 3536

PR: It is recommended but not obligatory, that students should have successfully completed one of the following courses: Archaeology 1030, Classics 1100 or 1200, Folklore 1000, HIST 1010 or 1011

3560 A History of Human Rights - inactive course.

3570 The Modern Middle East is an examination of the peoples and states of the Middle East and their interaction with each other and with the great powers since the mid-nineteenth century.

3582 Historical Archaeology (same as Archaeology 3582, the former Anthropology 3582 and the former History 2582) is an introduction to historical archaeology, with special reference to the North Atlantic, 1000 to 1900 AD. The archaeology of specific sites will be examined in order to raise issues of analogy and method. Students will be introduced to palaeography; historic maps; documentary archaeology; the survey, excavation and analysis of complex sites; material culture and subsistence studies; cultural resource management and theoretical approaches including historical anthropology, ethnohistory, world systems and consumer studies.

CR: Archaeology 3592, the former Archaeology 2582, the former History 2582, the former History 3592

PR: Archaeology 1030

3585 Africa Since 1800 examines the history of Sub-Saharan Africa from the eve of colonialism until the post-independent contemporary era.

3590 The Early Modern Caribbean examines the history of the Caribbean region in the period 1492-1814, addressing topics such as comparative labor regimes, slavery, resistance, colonial societies, plantation landscapes, and environmental change.

3600 Industrial Revolutions of the Eighteenth and Nineteenth Centuries - inactive course.

3640 War and Society in Colonial North America examines the struggle for empire and nationhood from the arrival of Europeans to the withdrawal of British forces from Canada in 1870. The course will take a comparative approach exploring war’s effect on social, economic, and environmental developments in what is now Canada, focusing on specific conflicts and themes such as the struggle for empire, the military as an institution, gender, class, ethnicity, and memory.

3641 War and Society in Modern Canada examines the Canadian experience of war through case studies of the 1885 Rebellion, the Boer War, the two World Wars and the Korean War. Themes include operations, nation-building, social and ethnic conflict, gender and masculinity, and historical memory.

3660 The Scientific Revolution examines the change from the Aristotelian-Ptolemaic to the Newtonian view with special emphasis on the work of Copernicus, Kepler, Galileo, Descartes and Newton.

3665 Death, Disease and Medical Care in Early Modern and Modern Europe - inactive course.

3675 Navies and Societies Since 1650 is an examination of the rise of modern navies since 1650 that places navies and naval decisions within broader national and international political, economic and social contexts.

CR: the former HIST 3822

3680 North Atlantic Seafaring to 1850 examines the maritime mercantile developments of the countries on the Atlantic littoral, 1650-1850.

3690 North Atlantic Seafaring Since 1850 - inactive course.

3710-3729 (Excluding 3713, 3728) Special Topics in British History are available only as part of the Harlow Campus Semester.

3740-3750 (Excluding 3747, 3748) Studies in Modern Social and Intellectual History are selected studies in the history of modern ideas and society. Aspects to be studies will be posted on the Department of History website.

3765 Gendered Indigenous History is a thematic examination of the continuities of gender and indigeneity from a global perspective, with particular emphasis on the gendered experiences of colonialism.

3780 Women in Medieval Europe, 500-1500 uses a wide variety of primary and secondary sources to examine medieval women in their social, political, cultural, and religious contexts to understand women’s lives in this important millennium of the European past.

3785 The European Family: The Age of Faith to the Welfare State focuses on the family in Europe from the middle ages to the early twentieth century. Topics examined will include family structure, kinship, demographics, sexuality, gender relations, child-rearing, attitudes towards the elderly and care of them, and the place of the family in the larger community.

CR: at least 3 credit hours in history at the 2nd-year level, or permission of the instructors

PR: at least 3 credit hours in history at the 2nd-year level, or permission of the instructors

3790 Reel American History: United States History through its Films, 1885-1945 interprets narrative films as historical evidence to shed light on shifts in American culture and society during the first half of the twentieth century.

3795 Reel American History: United States History through its Films Since WWII interprets narrative films as historical evidence to shed light on shifts in American culture and society during the second half of the twentieth century.

3800-3830 (Excluding 3801, 3806, 3807, 3813, 3821, 3822) Historical Problems in the Caribbean, 1492 to present focuses on special developments leading to a contemporary issue or problem selected each year or semester. Aspects to be studied will be posted on the Department of History website.

CR: credit may be obtained for only one of HIST 3016 and HIST 3803

3801 History of Modern Revolutions examines theoretical and thematic approaches to the study of revolution. The class will study some of the major political revolutions of the twentieth century and also explore the causes and consequences of various social, cultural, and economic upheavals such as the student revolts of the 1960s and the sexual revolution. There will be a discussion on how the way in which historians have studied revolutions has changed during the past half century.

3806 Titanic Histories investigates the ‘unsinkable ship’, its passengers, crew and owners, and the dilemmas its loss has created for over a century. Students will examine how present-day understandings of the past are expressed in the multiple ways and diverse forms of treating the Titanic.

3807 World War I in Historical Perspective takes a global approach to the history of the First World War, emphasizing events on the battlefield and the effects of war on various societies.

3813 Gendered History: Women in Newfoundland and Labrador examines the experiences of women in Newfoundland and Labrador with an emphasis on the nineteenth and twentieth centuries. It explores the interaction of women’s lives and the province’s social, political and economic history. Topics to be covered include work (paid and unpaid); childbearing and child rearing; immigration and emigration; political activity; and legal status.

3821 Gender in Canadian History examines the experiences of women...
and men and the construction of gender identities through themes such as sexuality, moral reform, immigration, racial/ethnic identity, indigeneity, and participation in the workforce.

3840 Historical Methods is an introduction to the methods and practices of history in the modern era. This course is compulsory for Majors and Honours students, including those intending to apply for graduate studies.

CR: the former HIST 4801
PR: 12 credit hours in History

3860 Vernacular Architecture same as the former Anthropology 3860 and Folklore 3860) is a historical survey of vernacular architectural forms in various regions of North America, with attention to the Newfoundland materials. Issues discussed include the relationship of house form and culture, the concepts of antecedents, diffusion, innovation, and evolution of building forms and technologies, and the siting of buildings in the landscape. Dwelling houses, outbuildings, churches and industrial vernacular architecture will be included.

CR: the former Anthropology 3860, Folklore 3860

3870 An Introduction to the History of Western Architecture Since the Renaissance (same as Folklore 3870) introduces students to the history of architecture in the western world, beginning with the revival of classical forms in Renaissance Italy.

CR: Folklore 3870

3925 The Pre-Islamic Empires of Iran - inactive course.

3930 Byzantine History to 1453 will introduce students to the history of Byzantine society from its beginnings under Constantine to the fall of Constantinople to the Turks in 1453. In addition to the chronological history, students will also encounter several characteristics of Byzantine society, including political, religious, urbanization, and interaction with the Persian Empire.

PR: there is no prerequisite for this course although History 2050 is strongly recommended.

4000-4010 (Excluding 4003, 4009, 4010) Special Topics in Ancient and Medieval History are specialized studies in Ancient and Medieval history. Aspects to be studied will be posted on the Department of History website.

4003 Religion and Society in the Late Antiquity and Early Medieval Periods examines a range of written and physical evidence for the interaction of religion and society in the late antique and early medieval world.

This course will cover the broad topic of religion and society through an in-depth analysis of the historiography and material culture of the late antique and early medieval period.

4009 Death and the Afterlife in the Middle Ages examines medieval ideas of what happens at and after death, starting from the premise that such ideas have great influence upon how people live their daily lives. It will look at the depth, ideas of heaven, hell, purgatory, as well as the concepts of death and the afterlife in the popular culture, architecture, literature, etc., of European Christendom.

410 Cultural Interaction in the Medieval Middle East examines the origins of Muslim-Christian relations in the Middle East through an examination of the effect of the arrival of Islam on the communities of Iraq, Iran, and the Levant, as well as the Byzantine reaction to Islam.

4100 History and Memory - inactive course.

4110-4130 (Excluding 4125) Special Topics in North Atlantic History are specialized courses in the history of the North Atlantic. Aspects to be studied will be posted on the Department of History website.

4125 The History of Environmental Ideas in Canada and the United States surveys major philosophical, scientific, and popular ideas of nature in Canada and the United States during the nineteenth and twentieth centuries. Students will examine key historical manifestations of environmental thought such as wilderness ideas, ecocentrism, deep ecology, and social ecology. Students will also be exposed to important voices from social groups who are often marginalized in environmental debates such as African-Americans, Aboriginal people, and the working class.

4200 Topics in United States Film and History explores selected themes in the relationship between the American cinema and American national culture. Students will study a theme from year to year but may include the study of a particular period in U.S. film and history: an examination of how films representations of race, class, gender, and/or sexuality have changed over time; an examination of broader historical shifts; or, the historical analysis of a particular genre as a way to understand shifting cultural and social values within the United States.

PR: any 2000, 3000, or 4000 level course in U.S. History or Film Studies

4210-4229 (Excluding 4212, 4213, 4214, 4216, 4219, 4222) Special Topics in North American History are specialized studies in the history of North America. Aspects to be studied will be posted on the Department of History website.

4212 The North American Frontier examines aspects of the history of the frontier in North America. The course will focus on major themes and debates in frontier history, including, but not limited to, the history of colonialism, settlement, and Aboriginal-settler relations.

4213 Topics in U.S.-Canadian Relations explores selected themes in U.S.-Canadian relations. Beyond considering the more formal ties between Canada and the United States from a historical perspective, such as military and diplomatic interactions, this seminar examines social and cultural interrelationships.

4216 Topics in U.S. Cultural History explores selected themes in U.S. cultural history. Topics will vary from year to year, but may include historical approaches to such popular art forms as vaudeville, amusements parks, film, popular music, comics, television, gaming, and spectator sports.

4219 Slavery and Resistance in the Atlantic World examines the evolution of slavery and other forms of coerced labour in the early modern period.

4222 North American Aboriginal Peoples in Historical Perspective - inactive course.

4230 Special Topics in Newfoundland History I are specialized studies in the history of Newfoundland and to the mid-nineteenth century.

4231 Special Topics in Newfoundland History II are specialized studies in the history of Newfoundland since the mid-nineteenth century.

CR: the former Political Science 4731

4232 Special Topics in Newfoundland History III - inactive course.

4240-4260 (Excluding 4253, 4255) Special Topics in Canadian History are specialized studies in Canadian history. Aspects to be studied will be posted on the Department of History website.

4253 Inequality in Canada since 1945 challenges the conventional wisdom that equality improved in post-war Canada, but declined from the 1970s onwards. It contrasts socio-economic experiences with those of gender, race, nation and sexual orientation. By so doing it raises complex questions about the historical dynamics of identity politics in the making of contemporary Canada.

PR: HIST 2210 or permission of the instructor

4255 The Industrial Revolution in Canada examines the historiographical debates on industrialisation in 19th century British North America by critically evaluating representative works by leading historians of English Canada and Quebec. It also introduces the problems and advantages of the historical sources most commonly used to understand industrialisation.

PR: HIST 2200 or HIST 2210 or permission of the instructor

4310-4330 (Excluding 4330) Special Topics in European History are specialized studies in the history of Europe. Aspects to be studied will be posted on the Department of History website.

4330 Aspects of Modern British History: Victorian England designates an urban, ostensibly democratic, country in the period when Britain was dominant in the world. Victoria and England are the starting points, however, for a critical examination of those characteristics in this seminar course.

PR: a minimum of two second year History courses, or the permission of the instructor. Students who have not previously studied history beyond first year should consult with the instructor before registering for this course.

4360-4380 Special Topics in European History are available only as part of the Harlow Campus Semester.

4410-4430 (Excluding 4411, 4419, 4421) Historical Problems are specialized studies in historical problems. Aspects to be studied will be posted on the Department of History website.

4411 War and Society in Canada examines various themes and topics in the military history of Canada, emphasizing the relationship between war and society.

4419 Marx and Marxism introduces Marxist thought as a product of antecedents, diffusion, innovation, and evolution of building forms and technologies, and the sifting of buildings in the landscape. Dwelling houses, outbuildings, churches and industrial vernacular architecture will be included.

4421 Imperialism examines the political, economic and cultural processes of modern European and American imperialism and its historical antecedents.

AR = Attendance requirement; CH = Credit hours are 3 unless otherwise noted; CO = Co-requisite(s); CR = Credit can be retained for only one course from the set(s) consisting of the course being described and the course(s) listed; LG = Lecture hours per week are 3 unless otherwise noted; LH = Laboratory hours per week; OR = Other requirements of the course such as tutorials, practical sessions, or seminars; PR = Prerequisite(s); UL = Usage limitation(s).
12.17 Italian

For Italian course descriptions see under French.

12.18 Law and Society

In accordance with Senate’s Policy Regarding Inactive Courses, the course descriptions for courses which have not been offered in the previous three academic years and which are not scheduled to be offered in the current academic year have been removed from the following listing. For information about any of these inactive courses, please contact the Program Coordinator.

Law and Society courses are designated by LWSO.

1000 Law, Democracy and Social Justice examines the nature and aims of democracy and contemporary issues related to social justice through a law and society perspective.

2000 Law and Society in Canada is an introduction to law in Canadian society and the role which it has played in societies past and present.

PR: LWSO 1000

3010-3019 (Excluding 3012, the former 3013, 3014, 2015 and 2016) Special Topics in Law and Society will have topics to be studied announced by the Program Coordinator.

PR: LWSO 1000

3012 Aboriginal Peoples: Concepts of Land, the Law and the Constitution traces the historical development of Aboriginal land and the paper rights: colonial and Canadian law, and the Constitution of Canada as it relates to the Indian, Inuit and Metis people of Canada. The developing concept of Aboriginal law is presented within the context of the treaty process; Indian Act, contemporary land claims, the Canadian Constitution, and federal/provincial relations.

PR: LWSO 1000. LWSO 2000 is recommended.

3014 Aboriginal and Government Relations in Newfoundland and Labrador traces the historical development of Aboriginal and Government relations in Newfoundland and Labrador. Topics include: the current legal and constitutional status of the Inuit, Indian and Metis people within the context of land claims, application of the Indian Act, access to programs and services, and federal/provincial relations.

PR: LWSO 1000. LWSO 2000 is recommended.

3015 Women and Law in Canada looks at the interplay between law and status under the law, the course proceeds to look at some of the main legal issues affecting women today, such as workplace equality, family law and women and crime. This course provides students with the opportunity to study cases in depth and apply legal theory to current issues affecting Canadian women.

PR: LWSO 1000

3016 Western Traditions of Law and War provides students with a historical overview of the law of war. The course goes beyond the traditional legal definition of war as an armed conflict between states, and examines whether the law of war should be applied to terrorism and wars of national liberation. Topics include: just war theory, the legality of the various means of warfare, the treatment of protected people and places and the prosecution of war criminals.

PR: LWSO 1000

3200 Women and the Law in Newfoundland History - inactive course.

3300 Understanding Human Rights introduces students to the theory and practice of human rights. Course topics include: history; philosophy; and international and Canadian structures and provisions. The course includes an examination of selected areas of human rights, i.e. labour, women’s and children’s rights, and explores current and future applications of human rights.

PR: LWSO 1000

3400 Organized Crime in Canada: National and Global Perspectives explores the origins, expansion, and changing character of organized crime in Canada from the early twentieth century to the present. Laws relating to criminal activity, law enforcement and available tools to combat organized crime are assessed according to the inherent problems of investigation, evidence, and litigation.

PR: LWSO 1000. LWSO 2000 is recommended.

4000 Multidisciplinary Perspectives on Law and Society is an appreciation and understanding of those rules and activities termed legal which can be gained from a variety of disciplinary perspectives. The purpose of the seminar is to introduce students to the differing ways in which law may be approached within the social sciences and humanities. The topic or topics to be discussed in a given semester will depend on the availability and participation of faculty from participating departments. Through seminar readings, discussions and research, students will gain a wider understanding of the role of law in society and of the diverse academic
approaches for understanding it. PR: at least 18 credit hours from Table 1 Core Faculty of Arts Courses Approved for the Major or Minor in Law and Society, including LWSO 1000.

4900 Development of Law in Newfoundland (same as History 4232 and the former History 4214) traces the evolution of the legal system of Newfoundland and Labrador from its earliest beginnings. Students are responsible for contributing to seminar discussions and presenting a researched essay on some major themes that distinguish legal developments in Newfoundland and Labrador. CR: History 4232, former History 4214 PR: at least 18 credit hours from Table 1 Core Faculty of Arts Courses Approved for the Major or Minor in Law and Society, including LWSO 1000.

4901-4909 Special Topics in Law and Society will have topics to be studied announced by the Program Coordinator. PR: at least 18 credit hours from Table 1 Core Faculty of Arts Courses Approved for the Major or Minor in Law and Society, including LWSO 1000.

12.19 Latin
For Latin course descriptions see under Classics.

12.20 Linguistics
In accordance with Senate’s Policy Regarding Inactive Courses, the course descriptions for courses which have not been offered in the previous three academic years and which are not scheduled to be offered in the current academic year have been removed from the following list. For information about any of these inactive courses, please contact the Head of the Department. Linguistics courses are designated by LING.

1100 Language and Communication is a general introduction to linguistic concepts which are important for understanding the nature of language, its change and its function for communication. The course involves the study of the classification of languages into families and their geographical distribution; language, the brain, and language disorders; the acquisition of language; and human versus animal communication. CR: LING 2100.

1103 Introduction to Morphology and Syntax is an introduction to the study of the meaningful components of words and sentences. This course will demonstrate the principles by which parts of words are organized into larger units (inflectional morphology and word-formation), and by which words pattern into phrases and sentences (syntax). Synchronic and diachronic data from English and several other languages will be analysed to illustrate how language is structured. CR: LING 2103.

1104 Introduction to Phonetics and Phonology is an introduction to the sounds of speech, their description (phonetics), organization (phonology), and interactions with morphology (morphophonology). The synchronic and diachronic patterns and regularities of language will be demonstrated through an analysis of data selected from English and other languages. CR: LING 2104.

1105 The Wonder of Words is an introduction to the structure of words. This course presents methods of linguistic analysis through an in-depth study of English word origins. The French, Latin and Greek origins of technical and scientific words are studied, together with the ways that these words change in structure, sound, and meaning. The course will also provide an introduction to etymology, to writing systems and transliteration, and to the use of dictionaries. CR: credit may not be obtained for both LING 2105 and the former LING 1101, nor for both LING 1105 and LING 2105.

1530 Reading and Writing in Innu-aimun I - inactive course.

1531 Reading and Writing in Innu-aimun II - inactive course.

2020 Introduction to the Structure of Inuitut I - inactive course.

2021 Introduction to the Structure of Inuitut II - inactive course.

2022 Issues in Oral Inuitut reviews issues of oral Inuitut. Topics included will be the primary role of oral language in communication, language, acquisition and language maintenance. The nature and significance of dialect differences will also be discussed. Different types of oral language will be examined, e.g. stories, newscasts, conversation. Students will study how oral language is used within modern Labrador society and whether language attitudes are reflected in this use. Students will also consider how best to teach oral Inuitut and different ways to test for oral proficiency. This course is intended for fluent speakers of Inuitut who are planning to complete the Diploma in Native and Northern Education (T.E.P.L.). This course is not normally offered at the St. John's campus. PR: LING 2020.

2023 Reading and Writing in Inuitut - inactive course.

2025 Introduction to Inuitut I introduces students to Inuitut (Eskimo). Students will develop a working knowledge of basic vocabulary and grammar, as well as a number of linguistic concepts that will enable them to understand a wide range of reference books. A strong emphasis will be placed on oral skills. This course is intended for students who want to learn an Aboriginal language spoken in Newfoundland and Labrador. All sections of this course follow the Language Study Course Guidelines available at www.mun.ca/arts/lc.

2026 Introduction to Inuitut II is a continuation of LING 2025. Students will learn further vocabulary and grammar of the language. They will also be required to submit a project based on their own investigation of some aspect of the grammar of the language (based on either reference books or field data). A strong emphasis will be placed on oral skills. This course is intended for students who want to learn an Aboriginal language spoken in Newfoundland and Labrador. All sections of this course follow the Language Study Course Guidelines available at www.mun.ca/arts/lc.

2030 Introduction to Innu-aimun (Montagnais/Naskapi) I is an introduction to the phonology and grammar of the language. This course is intended for students who want to learn an Aboriginal language spoken in Newfoundland and Labrador. All sections of this course follow the Language Study Course Guidelines available at www.mun.ca/arts/lc.

2031 Introduction to Innu-aimun (Montagnais/Naskapi) II is a further examination of the grammar of Innu-aimun, including verb paradigms and word formation. This course is intended for students who want to learn an Aboriginal language spoken in Newfoundland and Labrador. All sections of this course follow the Language Study Course Guidelines available at www.mun.ca/arts/lc.

2040 Introduction to Mi'kmaq I is an introduction to the phonology and grammar of the language. All sections of this course follow the Language Study Course Guidelines available at www.mun.ca/arts/lc.

2041 Introduction to Mi'kmaq II is an introduction to Mi'kmaq. All sections of this course follow the Language Study Course Guidelines available at www.mun.ca/arts/lc.

2060 Aboriginal Languages of Eastern Canada is an overview of the aboriginal languages of three language families of Eastern Canada: Eskimo-Aleut (Inuitut) and Algonquian (Innu-aimun, Mi'kmaq, Passamaquoddy-Maliseet and Beothuk) and Iroquoian (Mohawk) with respect to both linguistic structure and current vitality. The history of language suppression and revitalization efforts, within the context of the larger issues of minority language attrition and maintenance, is also considered.

2100 Language and Communication is a general introduction to linguistic concepts which are important for understanding the nature of language, its change and its function for communication. Topics may include: languages as structured systems; the systematicity of language change; the classification of languages into families and their geographical distribution; language, the brain, and language disorders; the acquisition of language; and human versus animal communication. CR: LING 2100.

2103 Introduction to Morphology and Syntax is an introduction to the study of the meaningful components of words and sentences. This course will demonstrate the principles by which parts of words are organized into larger units (inflectional morphology and word-formation), and by which words pattern into phrases and sentences (syntax). Synchronic and diachronic data from English and several other languages will be analysed to illustrate how language is structured. CR: LING 2103.

2104 Introduction to Phonetics and Phonology is an introduction to the sounds of speech, their description (phonetics), organization (phonology), and interactions with morphology (morphophonology). The synchronic and diachronic patterns and regularities of language will be demonstrated through an analysis of data selected from English and other languages. CR: LING 2104.

2105 The Wonder of Words is an introduction to the structure of words. This course presents methods of linguistic analysis through an in-depth study of English word origins. The French, Latin and Greek origins of technical and scientific words are studied, together with the ways that these words change in structure, sound, and meaning. The course will also provide an introduction to etymology, to writing systems and transliteration, and to the use of dictionaries. CR: credit may not be obtained for both LING 2105 and the former LING 1101, nor for both LING 1105 and LING 2105.

2106 Aboriginal Languages of Eastern Canada is an overview of the aboriginal languages of three language families of Eastern Canada: Eskimo-Aleut (Inuitut) and Algonquian (Innu-aimun, Mi'kmaq, Passamaquoddy-Maliseet and Beothuk) and Iroquoian (Mohawk) with respect to both linguistic structure and current vitality. The history of language suppression and revitalization efforts, within the context of the larger issues of minority language attrition and maintenance, is also considered.

2100 Language and Communication is a general introduction to linguistic concepts which are important for understanding the nature of language, its change and its function for communication. Topics may include: languages as structured systems; the systematicity of language change; the classification of languages into families and their geographical distribution; language, the brain, and language disorders; the acquisition of language; and human versus animal communication. CR: LING 2100.

2103 Introduction to Morphology and Syntax is an introduction to the study of the meaningful components of words and sentences. This course will demonstrate the principles by which parts of words are organized into larger units (inflectional morphology and word-formation), and by which words pattern into phrases and sentences (syntax). Synchronic and diachronic data from English and several other languages will be analysed to illustrate how language is structured. CR: LING 2103.

2104 Introduction to Phonetics and Phonology is an introduction to the sounds of speech, their description (phonetics), organization (phonology), and interactions with morphology (morphophonology). The patterns and regularities of language will be demonstrated through analysis of synchronic and diachronic data selected from English and other languages. CR: LING 2104.

2105 The Wonder of Words is an introduction to the structure of words. This course presents methods of linguistic analysis through an in-depth study of English word origins. The French, Latin, and Greek origins of technical and scientific words are studied, together with the ways that these words may change in structure, sound, and meaning. The course will also provide an introduction to etymology, to writing systems and transliteration,
and to the use of dictionaries.

CR: credit may not be obtained for both LING 2105 and the former LING 1101, nor for both LING 1105 and LING 2105.

2210 Language in Newfoundland and Labrador: An Introduction to Linguistic Variation examines linguistic variation and language change in the languages of Newfoundland and Labrador. Topics covered include the concept of variation within language, both regional and social; the chief causes of such variation, and some of its societal consequences. As a Quantitative Reasoning course, practical workshops and assignments focus on producing a final scientific research report using quantitative analysis, graphical representation of data and logical reasoning using numbers. All sections of this course follow Quantitative Reasoning Course Guidelines available at www.mun.ca/arts/qr.

UL: may not be used as both a Quantitative Reasoning course and the former Research Writing.

2300 Philosophy of Language and Mind (same as Philosophy 2300) is a survey of philosophical thinking about human language and thought, and about how these phenomena relate to the rest of the natural world. Topics covered include the nature of language, the relations between thought and language, and the nature of consciousness.

CR: Philosophy 2300, the former Linguistics 2710, the former Philosophy 2710.

2400 History of the English Language to 1500 - inactive course.

2401 History of the English Language from 1500 to Modern Times - inactive course.

2700-2720 (Excluding 2710) Special Topics in Linguistics is an introduction to Uncommonly Taught Languages including the following:

2701 Introduction to Irish Gaelic I is an introduction to Irish Gaelic I. All sections of this course follow the Language Study Course Guidelines available at www.mun.ca/arts/is.

PR: LING 2103 or LING 2104 is recommended.

2701 Introduction to Irish Gaelic II is an introduction to Irish Gaelic II. All sections of this course follow the Language Study Course Guidelines available at www.mun.ca/arts/is.

PR: LING 2700.

2702 Introduction to Japanese I is an introduction to Japanese I. All sections of this course follow the Language Study Course Guidelines available at www.mun.ca/arts/is.

PR: LING 2703.

2703 Introduction to Japanese II is an introduction to Japanese II. All sections of this course follow the Language Study Course Guidelines available at www.mun.ca/arts/is.

PR: LING 2702.

2704 Introduction to Japanese III is an introduction to Japanese III. All sections of this course follow the Language Study Course Guidelines available at www.mun.ca/arts/is.

PR: LING 2703.

2705 Introduction to Japanese IV is an introduction to Japanese IV. All sections of this course follow the Language Study Course Guidelines available at www.mun.ca/arts/is.

PR: LING 2704.

2706 Introduction to Japanese V is an introduction to Japanese V. All sections of this course follow the Language Study Course Guidelines available at www.mun.ca/arts/is.

PR: LING 2705.

3000 Morphological Analysis studies the meaningful parts from which words are built by using restricted data from a variety of languages. Practical work on selected languages will illustrate the wide range of notions which acquire formal expression in grammatical systems. Although previous knowledge of the languages to be discussed is not necessary, an important aspect of the course will be practical experience in analysing phenomena which are foreign to English. Discussion of languages taught at this University will be balanced with analysis of limited data sets from more exotic languages. Comparison of the means by which smaller units are organized into words will make possible an elementary typology of the world's languages.

PR: LING 1103 or LING 2103.

3100 Generative Syntax is an introduction to a major contemporary approach to syntactic theory. Topics include phrase structure and constituency, case theory and agreement, principles of thematic role assignment, parametric variation, and the different types of syntactic movement.

PR: LING 1103 or LING 2103.

3104 Phonetics builds on the introduction to phonetics given in LING 1104 or LING 2104, and deals with the wide range of sounds that are used in human languages. On the practical side, the student will systematically learn to identify, symbolize and pronounce a large number of sounds. The theoretical work will concentrate on an understanding of the articularity, acoustic and perceptual features of speech sounds. This involves the close examination of data from foreign languages chosen to illustrate the fact that languages differ widely in their selection and organization of speech sounds. It also involves study of selected regional differences in the pronunciation of English.

PR: LING 1104 or LING 2104.

3105 Issues in the Acquisition of English and the Adult Learner - inactive course.

3150 Bilingualism: Linguistic, Cognitive and Educational Aspects - inactive course.

3155 Introduction to Language Acquisition will examine a number of critical issues in the first and second language acquisition of syntax and phonology. Current generative approaches to first and second language acquisition will be covered, which will be exemplified with data from different languages. An introduction to phonological and syntactic speech disorders will also be offered.

PR: LING 1103 or LING 2103 and LING 1104 or LING 2104.

3201 Generative Phonology will present the basic terms, concepts, and methods of Generative Phonology. Theoretical constructs surveyed will include distinctive feature theory and syllable structure. These constructs will be exemplified using phenomena observed in natural languages, including allophony, allomorphy, and processes such as assimilation and neutralization.

PR: LING 1104 or LING 2104.

3210 Language Variation and Change will provide a thorough grounding in the methods and theory underlying current approaches to language variation and change.

PR: LING 210, or third-year standing, or permission of the instructor.

3212 Language and Gender is an introduction to research and critical thinking on the relationship of language and gender to culture, power, construction of identity, performance, interaction, social networks, language change, sexuality, and language in the school and workplace.

PR: LING 2210 or Gender Studies 1000.

3220 Linguistics and the Law is an overview of the many relationships between linguistics and the judicial process. Topics to be covered include: the language of legal texts, trademark, copyright, treaties and contract law, and the Plain English movement; language use in legal settings (such as eyewitness testimony, jury instructions, and the language of lawyer-client interactions); the legal disadvantages which language may impose on speakers of minority languages and non-standard dialects; and the discipline of forensic linguistics (which deals with such issues as voice and authorship identification, and linguistic interpretation of evidence).

PR: LING 1100 or LING 2100 or Law and Society 1000.

3302 History of the French Language (same as French 3302) is a study of the origins of French, including the influence of Gaulish, Vulgar Latin, Frankish and the language of the old,语音, variables, diction, Diets, metrical and syntax of Old French and of the evolution from Old to Middle French, including phonology, morphology, syntax and vocabulary.

CR: French 3302.

PR: 15 credit hours in French and/or Linguistics at the 2000 level or permission of the Head of the Department; Classics 1120 is strongly recommended.

3310 Phonology and Morphology of French (same as French 3310) is an examination of the phonological and morphological structure of French. Data from regional and non-standard varieties contrasted with data from standard French: formal rules to deal with observed regularities, interactions of phonology and morphology in phenomena such as liaison. Derivational and inflectional morphology. Research articles on one or more of the topics dealt with in the course will be assigned as readings, and a written report in French based on one or more of the articles to be submitted as part of the term work. This course will normally be taught in French.

CR: French 3310.

PR: 15 credit hours in French and/or Linguistics at the 2000 level or permission of the instructor.

3311 Introduction to General Linguistics: Aspects of French Linguistic Theory (same as French 3311) is a practical examination of the French verbal system, with a thorough exposition of the systems of aspect, voice, tense and mood. The fundamental concepts of linguistics will form the framework of this exposition: the language/parole distinction and its relationship to underlying and surface entities; language as activity and the generation of surface elements from underlying subsystems. This course will normally be taught in French.

CR: French 3311.

PR: 15 credit hours in French and/or Linguistics at the 2000 level or permission of the instructor.

3500 Historical Linguistics will focus on: Genetic relationships between languages; the comparative method; language change found in phonetics; morphology and syntax; lexical and semantic change; the role of
language and dialect contact; comparative and internal reconstruction; the typological and genetic classification of languages.

PR: LING 1103 or LING 2103 and LING 1104 or LING 2104

3850 Introduction to Semantics examines the foundations of semantics, the logical meaning. It focuses on sentence-level semantics, involving both lexical meaning and logical/quantificational semantic operations. How do utterances get their meanings? How do we combine simple meanings to create complex ones? How are meanings connected to syntax and intonation? What does context contribute to meaning? Set theory is introduced, as is some formal logic (from propositional logic to a typed lambda-calculus). All sections of this course follow Quantitative Reasoning Course Guidelines available at www.mun.ca/arts/or.

PR: LING 1103 or LING 2103 is required; LING 3000 and 3100 are recommended

3950-3960 (Excluding 3951) Special Topics in Linguistics will have topics to be studied announced by the Department.

3951 Language Endangerment and Revitalization provides an introduction to the key issues surrounding the discussion of endangered languages. Causes, consequences, and efforts to reverse the process of decline (language revitalization or maintenance) are examined through consideration of case studies from around the world. Theoretical models developed to evaluate the current status and future prospects of endangered languages are also considered. The course is likely to include substantial discussion of the situation in Canada and the USA.

PR: LING 1100 or 2100

4010-4091 will focus on the linguistic structure of certain languages, and are designed to provide senior students with the opportunity of being exposed to a substantial part of the grammar of a language other than those regularly offered in the Faculty of Arts. One course in this series will be offered each year, subject to availability of instructor.

PR: LING 1103 or LING 2103 and LING 1104 or LING 2104 or the permission of the instructor and the Head of the Department.

4050-4054 Linguistic Structure of a North American Aboriginal Language allows students to study the following languages: Cree, Inuitut (Inuktitut), Innu-aimun (Montagnais/Naskapi), etc.

CR: Except where an exemption is supplied by the Head of the Department, a student may not obtain credit for more than one course in the LING 4050-4054 series. Students may not obtain credit for any of the previously offered LING 4010, 4020, 4021, 4030, 4031, 4040, 4041 in addition to a course in the LING 4050-4054 series.

PR: LING 1103 or LING 2103 and LING 1104 or LING 2104 or the permission of the instructor and the Head of the Department.

4055-4059 Linguistic Structure of an Uncommonly Taught Language provides instruction about the grammar, pronunciation, and literary and/or oral tradition of a language which is not regularly taught.

CR: Except where an exemption is supplied by the Head of the Department, a student may not obtain credit for more than one course in the LING 4055-4059 series. Students may not obtain credit for any of the previously offered LING 4011, 4080, 4061, 4065, 4066, 4070, 4071, 4080, 4083, 4090, and 4091 in addition to a course in the LING 4055-4059 series.

PR: LING 1103 or LING 2103 and LING 1104 or LING 2104 or the permission of the instructor and the Head of the Department.

4100 Morphosyntactic Analysis is an analysis of a wide range of linguistic data in morphology and syntax. The course will focus on essential linguistic concepts in more than one theoretical framework, and on the nature of linguistic evidence. This course is usually offered in alternate years.

CR: The former LING 4001

PR: LING 3000

4110 Selected Topics in Generative Grammar examines a particular topic or set of related topics which are selected by the instructor and which are important in contemporary generative theory. Readings will normally come from the primary literature. This course is usually offered in alternate years.

PR: LING 3100

4150 Language Acquisition II provides an evaluation of the theoretical aspects of first and second language acquisition. Theories about the role of linguistic patterns, learnability and the role of linguistic input are discussed, in light of research on the acquisition of English and other languages.

PR: LING 3155

4151 Advanced Topics in Phonological Acquisition will address current empirical and theoretical issues pertaining to the first language acquisition of phonology. From an empirical perspective, we will look at developmental patterns as well as variation or lack thereof among and between learners, within and across languages. From a theoretical perspective, we will address how theoretical frameworks can, and at times cannot, account for the variation observed. We will address how the language input provides for such variability. As major differences between different languages can influence the learner’s analysis of the phonology of this language during the course of acquisition. This influence will be both addressed in terms of grammatical learning and from the perspective of production patterns observed in the data.

PR: LING 3155

4201 Phonological Theory will familiarize students with current issues in phonological theory. Issues such as phonology in the lexicon, segmental and prosodic representations, the analysis of stress and tonal systems, as well as a comprehensive introduction to constraint-based approaches to phonology will be covered. Students will further develop their ability to analyze phonological data. This course is usually offered in alternate years.

PR: LING 3201

4202 Selected Topics in Generative Phonology - inactive course.

4210 Sociolinguistics studies the detailed patterns of variation found in any given speech community, and factors which co-vary with them; the various theoretical models proposed to account for such variability. As major assignment, students will complete a carefully restricted sociolinguistic project. This course is usually offered in alternate years.

PR: LING 2210

4301 French Dialects, Patois and Argots - inactive course.

4310 The French Language in Canada - inactive course.

4350 General Romance Linguistics - inactive course.

4400 Historical and Comparative Linguistics - inactive course.

4403 Etymology: History of English Words - inactive course.

4420 English Dialectology I - inactive course.

4421 English Dialectology II - inactive course.

4500 Introduction to Field Methods is data collection and organization for an oral language in a simulated field situation, including methods of elicitation, data filing, preliminary analysis, and hypothesis formation and testing. In this course students will also learn to apply analytical skills developed in the core theoretical areas of phonetics/phonology, morphology, syntax and semantics. This course is usually offered in alternate years.

PR: LING 3000 or 3100, and 3201 or permission of the instructor

4700 Experimental Phonetics examines some empirical methods of studying the different stages of the speech chain which links speaker to hearer, with special emphasis on the acoustic and perceptual stages. The course is an introduction to the theory of speech production. A survey of the range of natural articulations and their acoustic effects. Some competing theories of speech perception. Acoustic versus perceptual bases for phonological features.

PR: LING 1104 or 2104

4750 Selected Topics in Phonology will have topics to be studied announced by the Department. This course introduces students to more advanced topics in core linguistic disciplines.

PR: LING 4201 or LING 4202

4751 Selected Topics in Morpho-Syntax will have topics to be studied announced by the Department. This course introduces students to more advanced topics in core linguistic disciplines.

PR: 4830 4100 or LING 4110

4752 Selected Topics in Semantics will have topics to be studied announced by the Department. This course introduces students to more advanced topics in core linguistic disciplines.

PR: LING 3850

4753 Selected Topics in Acquisition will have topics to be studied announced by the Department. This course introduces students to more advanced topics in core linguistic disciplines.

PR: LING 4150 or LING 4151

4754 Selected Topics in Linguistic Variation will have topics to be studied announced by the Department. This course introduces students to more advanced topics in core linguistic disciplines.

PR: LING 4210

4900-4901 Independent Study are courses that are open to advanced students wishing to do individual research in consultation with an advisor. PR: permission of instructor

4990-4960 Special Topics in Linguistics will have topics to be studied announced by the Department.

PR: permission of the instructor

4999 Honours Essay is required as part of the honours program.

12.21 Medieval Studies

In accordance with Senate’s Policy Regarding Inactive Courses, the course descriptions for courses which have not been offered in the previous three academic years and which are not scheduled to
be offered in the current academic year have been removed from the following listing. For information about any of these inactive courses, please contact the Head of the Department.

Medieval Studies courses are designated by MST.

**2000 The Cultural Legacy of the Middle Ages** will survey the formative cultures of the Middle Ages - Latin, Celtic, Arabic - as well as the rise of the new vernacular cultures, Germanic and Romance. Literary trends such as the reliance on authority, the emergence of national epic and the development of court literature will be studied. The course examines the interplay of all the arts - literature, music, art and architecture.

**2001 Medieval Europe to 1050** (same as History 2320) is a survey of the economic, social, political and cultural developments of the early Middle Ages.

**2002 Medieval Europe, 1050 to the Reformation** (same as History 2330) is a survey of the economic, social, political and cultural developments of Europe in the high and late Middle Ages.

**3000 Medieval Books** (same as English 3002, History 3000, Religious Studies 3000) is an examination of the development and role of the manuscript book during the Middle Ages. Topics covered will include book production and dissemination; authors, scribes and audiences; and various kinds of books (e.g. glossed Bibles, anthologies, books of hours, etc.) and their uses.

**3001 Art, Architecture and Medieval Life** (same as Archaeology 3001, Folklore 3001, History 3020) is an examination of the development of medieval art and architecture and of the ways in which they mirror various aspects of life in the Middle Ages. The course will include a discussion of art and architecture in the countryside, in the town, in the castle, in the cathedral and in the cloister.

**3002 Folklore in Medieval Society** - in-active course.

**3003 Christian Thought in the Middle Ages** (same as Religious Studies 3501) is an examination of the development of Christianity in the West from the eleventh century to the eve of the Reformation, through an examination of its principal thinkers and the most significant societal forces and events: the crusades, the universities, monasticism, religious dissent, and mysticism.

**3004 Medieval Philosophy** (same as Philosophy 3760) is developments in Philosophy from Augustine to Ockham.

**3006 Women Writers of the Middle Ages** (same as English 3006, Gender Studies 3001, and the former Women's Studies 3001) will study selections from the considerable corpus of women's writings in the Medieval period, as well as issues which affected women's writing. All selections will be read in English translation.

**3710-3729 Special Topics in Medieval Studies** is available only as part of the Harlow Campus Semester.

**4000-4020 Special Topics in Medieval Studies** are seminars on such general, interdisciplinary or comparative subjects as, e.g., Popular Culture in the Middle Ages, The Medieval Stage, The Medieval Court, The Religious Orders, Women in Medieval Society, Medieval Universities, Scholasticism, Dante's Divine Comedy, Medieval Hagiography, Arthurian Romance, Jewish Medieval Communities, Muslim Art and Architecture and The Byzantine World.

**4021 Medieval Latin** (same as Classics 4202)

**12.22 Philosophy**

In accordance with Senate's Policy Regarding Inactive Courses, the course descriptions for courses which have not been offered in the previous three academic years and which are not scheduled to be offered in the current academic year have been removed from the following listing. For information about any of these inactive courses, please contact the Head of the Department.

Philosophy courses are designated by PHIL.

**1000 Philosophy of Human Nature** is an approach to philosophical thinking by way of analysis and critique of theories of human nature, purpose and identity, and the world views associated with them. Philosophy 1000, or the former Philosophy 1600, is not required for further courses in philosophy but is of particular value to students interested in the Social Sciences and Humanities. All sections of this course will qualify as a Research/Writing course for the B.A. Core Requirements.

**1100 Critical Thinking** aims to impart critical analytic skills; i.e., the ability to recognize good and bad arguments, to explain why a particular argument is good or bad, and a general understanding of why a good argument ought to persuade and a bad argument ought not to persuade.

**2110 Logic** is an introduction to traditional and modern logic. Open in any year to all students wishing acquaintance with basic logical skills. All sections of this course follow Quantitative Reasoning Course Guidelines available at www.mun.ca/arts/qr.

**2111 Intermediate Logic** (same as the former PHIL 3110) examines techniques and topics in the logic of propositions, of predicates and of induction and probability. Normally the second course in logic. All sections of this course follow Quantitative Reasoning Course Guidelines available at www.mun.ca/arts/qr.

**2220 Epistemology** examines various concepts of knowledge - empirical, rational, transcendental, systematic. Their metaphysical grounds and implications. The concept of scientific knowledge; real and abstract entities; objectivity and subjectivity.

**2230 Moral Philosophy** examines the sources and validity of ethical principles which underlie individual and social action.

**2300 Philosophy of Language and Mind** (same as Linguistics 2300 and the former Linguistics 2710) is a survey of philosophical thinking about human language and thought, and about how these phenomena relate to the rest of the natural world. Topics covered include the nature of language, the relations between thought and language, and the nature of consciousness.

**2400 Introduction to Philosophy of Law** employs historical and contemporary sources to explore major traditions and concepts in the philosophy of law. Topics covered include natural law, legal positivism, the nature of legal interpretation, the relationship between law and morality, and the concepts of rights, responsibility, and justice.

**2500-2550 Contemporary Issues** discusses the philosophical dimensions of an area of practical concern such as contemporary culture, professional ethics, leisure, education, the mass media, gender, war and human rights.

**2541 Philosophy and Western Spirituality** will examine Western theories and practices of soul-care which parallel and resonate with Eastern approaches. We will learn what is distinctive to Western approaches with selections from Socrates, Jesus, Paul, Plotinus, Augustine, Eckhart, Alchery, Freud, Jung and Foucault. Students will not only gain knowledge of this lost road in Western culture, but also an understanding of themselves.

**2551 Health Ethics** examines concepts of health and illness and their ethical implications.

**2552 Mental Health Ethics** examines concepts of mental health and illness and their ethical implications.

**2553 Biomedical Ethics** examines medical dilemmas from legal and ethical
points of view.
CR: the former PHIL 2807

2561 Environmental Ethics examines concepts of nature and their ethical implications.
CR: the former PHIL 2809

2571 Technology examines concepts of technology and their ethical implications.
CR: the former PHIL 2801

2581 Philosophy of Film introduces some of the central philosophers, topics and themes in the philosophy of film. Topics and themes include: the nature of film image, the relationship between film and “reality”, the social/political role and function of film and the nature and value of the documentary. The course will also consider the representation of broader philosophical ideas in film. A film or films will accompany each section.

2582 Media Ethics examines ethical issues and dilemmas arising in the realm of the mass media, within the context of foundational ethical theories and major philosophies of mass communication. Topics include the nature and structure of mass communication, the public sphere, and the role of the media in a functioning democracy. Subtopics include: propaganda, censorship, freedom of speech, and access to information and communication.

2591 Restorative Justice - inactive course.

2701 History of Ancient Philosophy (same as Classics 2701) is a survey of the origin and development of Western philosophy among the Greeks and Romans.
CR: Classics 2701

2702 History of Modern Philosophy is a survey of the development of Western philosophy since the 17th century.
CR: the former PHIL 3700, the former PHIL 3701

12.22.1 Philosophy of....Series

3120 Philosophy of Language investigates various uses of language and its relationship to thought, as well as particular features of language, such as meaning, synonymy, reference, translation and interpretation.
PR: PHIL 1200 or permission of the Department

3150 Philosophy of the Natural Sciences examines major issues in the origins, methods and philosophical implications of science. Science as a form of knowledge; its relation to metaphysics; to more general theories of knowledge, Science and values.
PR: PHIL 1200 or permission of the Department

3160 Hermeneutics, Semiotics and Deconstruction - inactive course.

3400 Political Philosophy examines leading philosophical ideas concerning the origin and justification of political institutions.
PR: PHIL 1200 or permission of the Department

3500 Philosophy of Religion (same as Religious Studies 3500) examines the philosophical aspects of religious belief, religious language and theology.
CR: Religious Studies 3500
PR: PHIL 1200 or permission of the Department

3600 Philosophy of the Humanities examines the expression and interpretation in the humanistic disciplines: theology, history, art and literature, language.
PR: PHIL 1200 or permission of the Department

3610 Philosophy and Literature - inactive course.

3620 Philosophy of Art - inactive course.

12.22.2 Ancient, Medieval and Renaissance Series

3730 Plato examines selections from the works of the Greek “lovers of wisdom” - the first philosophers - particularly Plato.
PR: PHIL 1200 or permission of the Department

3740 Aristotle examines the works and legacy of perhaps the most influential systematic thinker of all time.
PR: PHIL 1200 or permission of the Department

3760 Medieval Philosophy (same as Medieval Studies 3004) is developments in Philosophy from Augustine to Ockham.
CR: Medieval Studies 3004
PR: PHIL 1200 or permission of the Department

3790 Late Medieval and Renaissance Philosophy - inactive course.

12.22.3 17th to 18th Century Series

3800 Descartes is a systematic introduction to the works and thought of the “father of modern philosophy”.
PR: PHIL 1200 or permission of the Department

3820 Rationalism is a study of rationalism in Descartes, Spinoza, Leibniz and of subsequent developments of this standpoint.
PR: PHIL 1200 or permission of the Department

3830 Empiricism - inactive course.

3840 Hume is a study of the work and influence of Hume on theories of knowledge, metaphysics and moral philosophy.
PR: PHIL 1200 or permission of the Department

3850 Kant's Theory of Knowledge is an introduction to the work of one of the most influential thinkers of the modern era, concentrating on his theory of knowledge, particularly as stated in The Critique of Pure Reason.
PR: PHIL 1200 or permission of the Department

3851 Kant's Ethics is an introduction to the work of one of the most influential thinkers of the modern era, concentrating on his ethics, particularly as stated in The Foundations of the Metaphysics of Morals and The Critique of Practical Reason.
PR: PHIL 1200 or permission of the Department

12.22.4 19th Century Series

3860 Hegel examines selections from Hegel’s system with emphasis on the nature of dialectical and speculative philosophy and its enormous influence in the present time.
PR: PHIL 1200 or permission of the Department

3870 Utilitarianism examines moral, political and jurisprudential themes in Bentham, J.S. Mill and their followers. Recent utilitarian theories.
PR: PHIL 1200 or permission of the Department

3880 Post-idealist Thought examines 19th century reactions to idealist systems, the critique of Metaphysics, the rise of Positivism.
PR: PHIL 1200 or permission of the Department

3890 Marxism examines the political, social and historical theories of Marx and Engels and their later developments; themes in Marxist analysis of class and capitalism.
PR: PHIL 1200 or permission of the Department

12.22.5 20th to 21st Century Series

3910 Analytic Philosophy examines selections from established texts in contemporary analytic philosophy: Russell, Carnap, Wittgenstein and others.
PR: PHIL 1200 or permission of the Department

3920 Phenomenology is an introduction to the philosophy of Husserl and some of his followers, e.g. Heidegger, Merleau-Ponty.
PR: PHIL 1200 or permission of the Department

3930 Pragmatism examines the pragmatist standpoint from Peirce to the present.
PR: PHIL 1200 or permission of the Department

3940 Existentialism examines the philosophy and literature of Existentialism from Kierkegaard, Nietzsche and Dostoievsky to Sartre, de Beauvoir and Camus.
CR: the former PHIL 3980
PR: PHIL 1200 or permission of the Department

12.22.6 4000-Level and Higher

4100 Seminar in Logic and the Philosophy of Mathematics topics will be announced by the Department.
PR: 6 credit hours in courses at the 3000 level or permission of the Department

4110 Seminar in Logic and the Philosophy of Mathematics - inactive course.

4150 Seminar in the Philosophy of Science - inactive course.

4200 Seminar in the Philosophy of Mind - inactive course.

4250 and 4260 Seminar in Metaphysics and Epistemology topics will be announced by the Department.
PR: 6 credit hours in courses at the 3000 level or permission of the Department

4300 and 4310 Seminar in Ethics topics topics will be announced by the Department.
PR: 6 credit hours in courses at the 3000 level or permission of the Department

AR = Attendance requirement; CH = Credit hours are 3 unless otherwise noted; CO = Co-requisite(s); CR = Credit can be retained for only one course from the set(s) consisting of the course being described and the course(s) listed; GC = Lecture hours per week are 3 unless otherwise noted; LH = Laboratory hours per week; OR = Other requirements of the course such as tutorials, practical sessions, or seminars; PR = Prerequisite(s); UL = Usage limitation(s).
12.23 Police Studies

Police Studies courses are designated by PLST.

2000 An Introduction to Policing in Canada will introduce students to different theories and models of policing. It will examine the organization of policing, its mandate and operation. It will provide an overview of the history and development of policing in Canada; examples from Newfoundland and Labrador will be used where appropriate. It will discuss the various roles and responsibilities of the police in society, it will explore the issue by police decision making, the exercise of police powers, and the use of discretion by police officers. Several other issues relating to policing will be discussed including police recruitment and training, the professional role of the police, stress on the job and policing in a diverse society.

2200 Introduction to Corrections introduces students to the Correctional Systems in Canada and their role in Canadian Criminal Justice. Topics covered in this course include: the evolution of punishment and corrections in Canada, the purpose of prison, the classification of federal prisoners, the prisoner subculture or ‘inmate’ code, violence inside prisons, and community corrections after full custody incarceration.

3000 Crime Victims and Policing will provide an opportunity to explore contemporary victim issues, in particular, as they relate to enhancing police response and sensitivity to the needs of victims. The course will explore different types of victimization, encourage critical analysis and understanding of the impact of the CJJS on victims and the role of the victim in bringing about progressive and positive changes in the CJJS. It will consider recent legislative developments, programs, services and emerging issues and discuss how victim engagement can promote public confidence in the administration of justice.

PR: a minimum of 60 credit hours, including PLST 2000 and 6 additional credit hours from Table 1 Core Faculty of Arts Courses for the Major in Police Studies under Police Studies

3100 Gender, Crime and Criminal Justice examines the gendered aspects of criminal offending, victimization, criminal justice responses (police, courts, corrections), and workers in the criminal justice system.

PR: a minimum of 60 credit hours including PLST 2000 and Sociology 1000

3200 Internship is a part-time unpaid placement with a police department, Provincial Corrections, or various areas of the Department of Justice including the Sheriff’s Office and Correctional Facilities. The number of openings varies and admission to the course is selective and competitive.

Placements are for 12 weeks, eight hours a week, in addition to a regularly scheduled class meeting.

PR: a minimum of 60 credit hours, including PLST 2000 and 9 additional credit hours from Table 1 Core Faculty of Arts Courses for the Major in Police Studies under Police Studies

3500 Investigative Interviewing will introduce students to investigative interviewing. It covers a range of topics that will help develop and/or improve the interviewing skills of those working in various disciplines where professional interviewing skills are essential.

PR: completion of a minimum of 60 credit hours

3600-3610 Special Topics will cover special topics related to policing and will be announced by the Program Coordinator.

4000 Advanced Issues in Policing provides in-depth discussion of various aspects of policing. It will discuss how social, economic and political factors influence the challenges of policing in a democratic society. It will look at police powers of arrest, search and release and how they are affected by the Charter of Rights and Freedoms. The different types of offences found in the Criminal Code and the special knowledge required to police them will be covered. The course will consider the use of police discretion, police misconduct and accountability and ethics in policing. It will also look at officer safety and stress in the workplace. Several special topics related to policing will be discussed including: policing persons with mental illness, policing drug related offences, and policing racially diverse communities.

PR: a minimum of 60 credit hours, including PLST 2000 and 9 additional credit hours from Table 1 Core Faculty of Arts Courses for the Major in Police Studies under Police Studies

4001 Police Decision Making and Ethics provides students with the tools to locate, critically review, and summarize the findings and practical implications of police research on key topics. These topics include the influence of discretion on police powers and the importance of ethics and accountability in policing. The course will also discuss police officer stress and how it is influenced by ethical dilemmas. Examples of misuse of discretion and ethical dilemmas will be discussed.

PR: a minimum of 60 credit hours, including PLST 2000 and 9 additional credit hours from Table 1 Core Faculty of Arts Courses for the Major in Police Studies under Police Studies

4100-4110 Special Topics will cover special topics related to policing and will be announced by the Program Coordinator.

5000 Instructional Field Placement in Police Studies is a one-semester internship offered in the Spring semester. Students will complete a minimum of ten courses specific to the Diploma in Police Program in Police Studies, designed to integrate knowledge acquired in coursework with the training curriculum provided by the Royal Newfoundland Constabulary to its recruit cadets. In consultation with the course instructor, students will prepare and submit a reflective report linking their observation of and instruction in the practical techniques and methods of police work with the broad range of knowledge acquired in other courses taken in the diploma program.

CH: 6

CO: completion of two semesters of course work in the Diploma Program in Police Studies, admission to the Diploma Program in Police Studies, and good standing as a recruit cadet of the Royal Newfoundland Constabulary

PR: completion of two semesters of course work in the Diploma Program in Police Studies, admission to the Diploma Program in Police Studies, and good standing as a recruit cadet of the Royal Newfoundland Constabulary

UL: applicable to the Diploma Program in Police Studies only

12.24 Political Science

Political Science 1000 provides an introduction to the study of politics, power, law, public policy and government. Courses at the 2000-level offer an introduction to major fields and can be taken beginning in a student’s first year of study. Courses at the 3000- level usually assume that students have completed at least one course in each of the essential courses in Political Science including the corresponding 2000-level introductory course. At the 4000-level, courses are advanced seminars with small enrollment caps, and therefore have formal prerequisites.

The second digit in each course number designates a field in Political Science. Students interested in notionally concentrating in an area may be guided in their course selections, as follows:

Second Digit
0 General & Research techniques
 1 Political theory
 2 International politics
 3 Comparative politics
 6 Public policy and public administration
 8 Canadian politics

AR = Attendance requirement; CH = Credit hours are 3 unless otherwise noted; CO = Co-requisite(s); CR = Credit can be retained for only one course from the set(s) consisting of the course being described and the course(s) listed; LC = Lecture hours per week are 3 unless otherwise noted; LH = Laboratory hours per week; OR = Other requirements of the course such as tutorials, practical sessions, or seminars; PR = Prerequisite(s); UL = Usage limitation(s).
9 Special topics

Enrollment in Political Science courses is limited. First priority is given to students registered as an Honours, Major or Minor in Political Science. During this time other students may be temporarily placed on a wait list.

Political Science courses are designated by POSC.

1000 Introduction to Politics and Government is an introduction to basic concepts in the study of politics, power, law, public policy and government, touching on major areas of political ideologies, institutions, and current domestic and international political issues. Suitable for students in all disciplines.

1010 Issues in Canadian Politics and Policy explores some of Canada’s most pressing and interesting political and public policy issues. This course provides students with the tools to think critically about how government policies affect the population of Canada, the provinces and territories, and the organization of governmental institutions as a response to the concerns and interests of inhabitants around the world. Suitable for students in all disciplines who have an interest in international politics.

2010 Research and Writing in Political Science provides an overview of the research and analysis skills used in Political Science. Students can expect to learn how to conduct library research, electronic data gathering, and the elements of strong essay writing which can be applied across disciplines in the social sciences. The “political” content will vary by instructor and will address more specific topics than those ordinarily covered in 2000-level Political Science courses. This course qualifies as a ResearchWriting course.

CR: POSC 1000

2100 Introduction to Political Theory is a survey of the most important political thinkers and schools of political thought. The course will ordinarily cover major political thinkers and include a selection of contemporary political ideologies.

CR: the former POSC 2000

2200 Introduction to International Politics is an examination of the “building blocks” of international politics including determinants, means, processes and ends. Emphasis is on the post-1945 period.

2300 Introduction to Comparative Politics is an introduction to comparative politics and techniques of comparative analysis across political jurisdictions. This course focuses on the differences between, and similarities among, a variety of countries and systems of government.

2600 Introduction to Public Policy and Administration outlines major concepts in, and issues relating to, the fields of public policy and administration. Introduces students to major conceptual issues that shape public policy and government, such as agenda setting, types of policy-making, public policy-making processes, and the study of public policy. Open to all students interested in the study of public policy and public administration.

CR: the former POSC 2650

2800 Introduction to Canadian Politics and Government is an introduction to the structure and operations of institutions of Canadian government and the nature of political actors. Topics to be examined may include the constitution, federalism, parliament, political parties, political culture and elections.

CR: the former POSC 2710

2990 Europe in the Twentieth Century is a pre-Harlow course which examines the social, economic and political history of Europe from World War I to the present. It examines the shift from war and depression to peace and prosperity, examining the rise and demise of fascism and communism, postwar reconstruction, and Europe’s changing position in the world, this course explores the interplay between domestic and international politics and economics, and their role in the international order. This course is recommended for Political Science students considering a Harlow semester, exchange programs in Europe, or further courses in European politics.

CR: the former European Studies 2000, History 2350, the former POSC 2360

3010 Empirical Methods in Political Science is an introduction to basic concepts in the scientific approach to studying politics, and provides students with the fundamental skills for conducting empirical research using both qualitative and quantitative methods. These skills include how to construct a research project, and how to collect and analyze information. All sections of this course follow Quantitative Reasoning Course Guidelines available at www.mun.ca/artsqr.

PR: POSC 2010 or 9 credit hours in Political Science; enrolment in the Political Science Honours, Major or Minor program

3100 Political Theory from Plato to Rousseau examines selected political theory from Plato to Rousseau. The theme of the course is the development of liberal democratic theory.

3110 Political Theory from Tocqueville to Present examines selected political theory from Tocqueville to the present. The theme of the course is the crisis in liberal democratic theory.

3140 Feminist Political Theory examines feminist scholarship that has challenged previously accepted notions in political theory, including definitions of politics itself, the distinctions between public and private, the nature of citizenship, and the roles of women in civil society. This course considers different ways of looking at power and political culture in modern societies, examining theses such as gender and democracy, race and class, poverty and welfare, sexuality and morality.

3210 International Law is an introduction to international law concerned with the interaction of the political and legal systems. Topics discussed are sources, agreements, membership, recognition, territory, jurisdiction, immunities, state responsibility, and force and war.

3220 International Organizations examines the origins, structures and roles of international organizations as both ‘arenas’ in which states pursue their interests and ‘evidence’ of an embryonic international society. The focus will be primarily on the organizations of the United Nations, especially its ‘collective security’ function, and other regional security organizations.

3250 International Political Economy studies the interaction between world politics and international economics. Major, theoretical debates regarding globalization and multinational corporations are covered, as well as current topics such as: the politics of the global monetary and financial order, international trade, foreign investment and debt, international development, and environmental issues.

3280 Canadian Foreign Policy is an introduction to the analysis of foreign policy, with special reference to domestic and international constraints, capabilities and ideology.

CR: the former POSC 3200, the former POSC 3760

3290 Human Security examines political concepts and public policies related to security contexts, such as the displacement of citizens, food supply issues, energy, information flows, war and/or the environment.

CR: the former POSC 3391

3300 European Politics is a comparative study of government and politics in selected states of Western Europe. Emphasis will be on parties, institutions, and policy-making, particularly the ways in which states manage their economies.

3305 Irish Politics introduces students to the politics of the Republic of Ireland. Topics covered include the historical origins of the state, the political influence of the Roman Catholic Church, the evolution of political institutions, as well as the evolving relationship with Northern Ireland, Europe and the world.

3310 American Politics examines the governmental process in the United States including the role of parties and interest groups. This course will also consider select contemporary problems.

3315 Latin American Politics is an analysis of the forces influencing politics in contemporary Latin America with particular emphasis being given to those factors promoting political change. No prior knowledge of Latin America is assumed.

CR: the former POSC 3430

3325 South Asian Politics analyzes the history and development of political change in a selection of South Asian states with a focus on the contemporary challenges that they face in a globalized political environment.

CR: the former POSC 3420

3340 Women and Politics examines the role of women in the political process in comparative context. Topics may include the political socialization, organization, and recruitment of women; voting behaviour; and the organization of governmental institutions as a response to the concerns of women.

3350 Public Opinion and Voting looks at the measurement and formation of political attitudes, factors affecting attitude stability and change, and the distribution of opinion in society. Emphasizes public opinion and voting behavior in the United States and Canada during campaigns and interelection periods. All sections of this course follow Quantitative Reasoning Course Guidelines available at www.mun.ca/artsqr.

CR: the former POSC 3510

3390 Political Parties is a study of political parties in liberal democracies. Attention is given to the origins and development of parties, how they organize, multiparty competition and what difference parties make. Political parties in Europe, the United States, and Canada are considered in a comparative context.

CR: the former POSC 3531

3600 Public Policy Fields in Canada is an examination of the relationship between public policy development in Canada and changes in the social and
economic policy environment. Applies theories and models of public policy to a variety of topical case studies.

PR: prior completion of POSC 2600 is recommended but not required.

3610 Public Administration in Canada is an introduction to public administration, history of the public service in Canada, an examination of the structure and functioning of contemporary federal and provincial governments. Topics covered include cabinet organization, financial and personnel management, collective bargaining, and bilingualism.
CR: the former POSC 3741

3620 Law and Society reviews traditional theories about law, discuss their inadequacy, consider the benefits of a policy-oriented approach to the study of the role of law in society. The concept of law as a process of authoritative decision will be used to examine the function of the judicial authority.
CR: the former POSC 3621

3650 Canadian Political Economy introduces students to major debates about the role of the state in Canadian economic development and public policy. Topics may include: the challenges of natural resource dependency, regionalism, globalization, and the relationship between Canada and the United States.
CR: the former POSC 3751

3681 Corrections Policy in Newfoundland and Labrador - inactive course.

3800 Federalism in Canada examines relationships between government in the Canadian federation ranging from high-profile disputes to efficient diplomacy. This course reviews longstanding intergovernmental stresses such as the constitution, legislative powers, legal matters, sub-state nationalism (e.g., Quebec, Newfoundland, Labrador) and wealth distribution.
CR: the former POSC 3710

3810 Political Executive in Canada explores executive institutions and the roles of political actors, such as prime ministers, premiers and ministers, in addressing and shaping important political issues in Canada.
CR: the former POSC 2711

3820 Constitutional Law in Canada uses a casebook approach to examine critical issues of Canadian constitutional law. The development of Canadian Constitution and processes of judicial review, as well as the legal development of federalism and protection of civil rights, are examined in detail.
CR: the former POSC 3720

3830 Aboriginal Government and Politics in Canada is an introductory course. Aboriginal culture and traditions, the variety of Aboriginal governments and governing traditions, and Aboriginal and treaty rights. Public policy issues surrounding categories of Aboriginal peoples, intergovernmental relations affecting them, and the role and significance of Aboriginal political organizations and actions are explored.

3860 Media and Politics in Canada draws upon communications theory to analyze major political problems and processes. Specific attention is given to Canadian politics in the news and to various print, broadcast and online media.
CR: the former POSC 3511

3870 Provincial Politics is a comparative study of politics in selected Canadian provinces and territories. Consequences of varying historical and cultural contexts will be examined with special attention to parties and movements, leadership styles, and orientations to the Canadian federation.
CR: the former POSC 3770

3880 Newfoundland and Labrador Politics is a study of the political process in Newfoundland and Labrador. Topics may include electoral behaviour and attitudes, the party system, leadership styles, the consequences of federalism, and public administration.
CR: the former POSC 3780

3890 Municipal Politics is an examination of the theory, structure and operation of local governments in Canada, with particular emphasis on Newfoundland and Labrador. Recent proposals for reform and the politics of implementing regional government and financial reorganization will be examined.
CR: the former POSC 3790

3900-3979 Special Topics in Political Science will have topics announced by the Department.
CR: credit restrictions will be designated on a course-by-course basis

3980-3999 Special Topics in European Politics is offered only at the Harlow (England) campus and explore selected facets of the politics of contemporary Europe. Typical themes include the European Union and its member states, asylum and immigration, social and economic policy, foreign policy and the position of Europe in the international system. For further information about the Harlow semester consult the Department or the Faculty of Arts.

CR: credit restrictions will be designated on a course-by-course basis

4010 Honours Essay I develops independent research and writing skills through regular meetings with a research supervisor, the preparation of an approved research proposal, and the completion of a high quality draft of at least one section of the Honours essay. Students are expected to follow the Department’s “Guidelines Governing Honours Essays”. Prior to enrolling, and ideally a semester in advance, students should contact the Head of the Department to identify a potential supervisor.
CR: the former POSC 4950
PR: enrollment in the Honours program and permission of the Head of the Department

4011 Honours Essay II builds on skills developed in POSC 4010, requires students to complete the writing of their Honours essay, including submitting a high quality complete draft at the midpoint of the semester, with the final completed document to follow soon afterwards. Students are expected to meet regularly with their research supervisor and to follow the Department’s “Guidelines Governing Honours Essays”.
CR: the former POSC 4951
PR: completion of POSC 4010 with a minimum grade of 70%

4100 Approaches to Political Theory is an introduction to the interpretation of political texts. Features historical and hermeneutical approaches to the study of Political Science.
PR: POSC 2100 or a POSC 31xx course, or the instructor’s permission

4110 Multicultural Citizenship - inactive course.

4120 Contemporary Democratic Theory examines significant debates in the contemporary scholarship on democratic theory, such as the relationship between democratic decision-making and individual liberty; who the ‘people’ are in democratic states and how they make their will known; whether democracy depends upon a sense of collective identity; and whether democracy is inherently exclusionary.
PR: POSC 2100 or a POSC 31xx course, or the instructor’s permission

4200 International Law and Politics is a research seminar on contemporary Canadian legal problems. Each semester will focus on one problem, such as Northern sovereignty, pollution, fishing zones or control of the sea.
PR: POSC 2200 and a POSC 32xx course, or POSC 3210, or the instructor’s permission

4210 Arms Control and Proliferation examines the evolution of arms control and considers the consequences of success and failure.
PR: POSC 2200 and a POSC 32xx course, or the instructor’s permission

4215 Human Rights and International Politics examines the evolution of global norms of human rights and consequences for the structures of the international system, international civil society, and the international political process.
PR: POSC 2200 and a POSC 32xx course, or the instructor’s permission

4230 Theories of International Relations examines the major theories used to understand world politics and international conflict, such as constructivism, feminism, game theory, historical structuralism, liberalism, and realism. These are explored through classic readings in international relations and case studies.
PR: POSC 2200 and a POSC 32xx course, or the instructor’s permission

4250 The European Union is an examination of the European Community as an emergent transnational form of governance. The course will consider the origins of the Community, the operation of its institutions, its transformation from Common Market to European Union, and the ways in which EC politics impinges on national-level politics.
CR: the former POSC 3291
PR: POSC 2200 and a POSC 32xx course, or POSC 3300, or the instructor’s permission

4255 Controversies in Political Economy examines current political and public policy challenges from a political economy perspective. Topics may include globalization, major trade disputes, currency and debt crises, economic development and global environmental problems.
CR: the former POSC 4350
PR: POSC 2200 and a POSC 32xx course, or the instructor’s permission

4280 American Foreign Policy reviews the structures, process and major foreign policy perspectives of the United States of America in a global context.
CR: the former POSC 3200
PR: POSC 2200 or a POSC 31xx course, or POSC 3310, or the instructor’s permission

4310 Comparative Federalism examines theories of federalism along with the development and operation of federalism in selected nation states.
PR: POSC 2300 and a POSC 33xx course, or POSC 3800, or the instructor’s permission

4330 Comparative Political Representation - inactive course.
12.24.1 Work Terms

The following Work Terms are requirements for the Bachelor of Arts Honours (Co-operative) and Bachelor of Arts (Cooperative) programs only.

260W Work Term 1 for most students this represents their first work experience in a professional environment. They are expected to learn, develop and practice the high standards of behaviour normally expected in the workplace. They are normally required to attend seminars on professional development.

CHE: 0
OR: Professional development seminars, delivered by Co-operative Education, are presented in the previous semester to introduce and prepare the student for participation in the subsequent work terms. Topics may include, among others; resume preparation; interview training; work term evaluation; preparation of reflective essays; career planning; employment; seeking skills; self-employment; ethics and professional concepts; behavioural requirements in the workplace; assertiveness in the workplace, and industrial safety.

PR: enrollment in the Political Science Co-operative Education Program (PSCE): 18 POSC credit hours; a minimum overall average of 85% and a minimum average of 70% in POSC courses, and good standing to be confirmed by the Political Science Honours or Major who completed a minimum of 18 credit hours in Political Science prior to September 2011 and who is not pursuing the co-op option may apply to enrol in POSC 260W.

Priority will be given to PSCE students.

360W Work Term 2 building on their first work term placement students will further develop their knowledge and work-related skills in a position that entails increased responsibility and challenge. Students are expected to demonstrate an ability to deal with increasingly complex work-related concepts and problems.

CHE: 0
PR: enrollment in the Political Science Co-operative Education Program (PSCE): 27 POSC credit hours; POSC 260W; a minimum overall average of 85% and a minimum average of 70% in POSC courses; and permission of the designated faculty member.

460W Work Term 3 building on their previous work term placements and Political Science course knowledge students will be assigned to a highly challenging position. They should have sufficient academic grounding and work experience to contribute in a positive manner to the problem-solving and management processes needed and practiced in the work environment. Students should become better acquainted with their discipline of study; should observe and appreciate the attitudes, responsibilities and ethics normally expected of professionals; and should exercise greater independence and responsibility in their assigned work functions.

CHE: 3
CR: POSC 4600
PR: enrollment in the Political Science Co-operative Education Program (PSCE): a minimum third-year standing and 33 POSC credit hours; POSC 360W: a minimum overall average of 65% and a minimum average of 70% in POSC courses; and permission of the designated faculty member.

12.25 Religious Studies

In accordance with Senate's Policy Regarding Inactive Courses, the course descriptions for courses which have not been offered in the previous three academic years and which are not scheduled to be offered in the current academic year have been removed from the following listing. For information about any of these inactive courses, please contact the Head of the Department.

Religious Studies courses are designated by RELS.

1000 The Religions of the World is an introduction to the basic beliefs and practices of the world's great religions.

CR: the former RELS 2010

1010 Religion in the Modern World is an introduction to some of the major issues confronting religion in the modern world. The focus will be on such topics as globalization and religion, religious faith and violence, freedom and authority.

1020 Christianity in Western Civilization is an introduction to Christianity and its place in the history of Western civilization through examples from Early Christianity, the Reformation, and the Modern Period.

AR = Attendance requirement; CH = Credit hours are 3 unless otherwise noted; CO = Co-requisite(s); CR = Credit can be retained for only one course from the set(s) consisting of the course being described and the course(s) listed; LC = Lecture hours per week are 3 unless otherwise noted; LH = Laboratory hours per week; OR = Other requirements of the course such as tutorials, practical sessions, or seminars; PR = Prerequisite(s); UL = Usage limitation(s).
1021 Apocalypse: The End Times in Thought, Action, and Imagination will explore the many ways in which Judaism and Christianity have anticipated and imagined the end times. Attention will be given to Jewish and early Christian notions of the Messiah and his reign, the end of the world, and the impending judgment, as well as how Christianity has coped repeatedly with the delay of the end and how millennial thought and action have influenced us during periods of crisis and natural crises. The role of millennial expectations in our modern era and why the apocalyptic is once again a powerful image in religion, film, and literature will also be covered.

1022 Jesus in Film is a study of how Jesus is represented in modern film. The course explores the continuing impact that the Jesus of history and faith has had on modern Western culture. The course will examine such films as Pasolini’s *The Greatest Story Ever Told*, The *Robe*, The *Last Temptation of Christ*, The *Life of Brian*, The *Passion of the Christ*, The *Newfoundland Passion* (video of the Squires’ Paintings).

1032 Introduction to Asian Religions and Culture is a broadly based survey course designed to introduce students to the religions, culture, and societies of Asia. Traditions explored may include those of India (Hinduism, Buddhism, Sikhism, Jainism), China (Daoism, Confucianism, Buddhism), Japan (Shinto, Zen Buddhism), and Korea.

1040 Introduction to Chinese (Mandarin) I will introduce students to the basics of Chinese vocabulary, characters, and grammar. Mandarin Chinese, the official dialect of China, Taiwan, and Singapore, will be taught. This course is not intended for native speakers. All sections of this course follow the Language Study Course Guidelines available at www.mun.ca/arts/ls.

1041 Introduction to Chinese (Mandarin) II is a continuation of RELS 1040. This course is designed to introduce students to the main characteristics of Chinese culture, which should enable them to read basic texts and carry on a simple conversation. This course is not intended for native speakers. All sections of this course follow the Language Study Course Guidelines available at www.mun.ca/arts/ls.

1050 Introduction to Biblical Hebrew I is designed to introduce students to the elements of Biblical Hebrew in order to prepare them for reading the Hebrew Testament in the original. The emphasis will be upon learning the basic grammar and syntax of Biblical Hebrew. All sections of this course follow the Language Study Course Guidelines available at www.mun.ca/arts/ls.

1051 Introduction to Biblical Hebrew II is a continuation of RELS 1050. The emphasis will be upon the reading of selected Hebrew texts. All sections of this course follow the Language Study Course Guidelines available at www.mun.ca/arts/ls.

1200 The Bible in Western Religion and Culture is an introduction to the Bible and its impact on literature, art, film, and music in Western culture. This course explores both the basic story line, characters, and themes in the Bible and the Bible’s foundational role in the depiction and development of Western culture.

1303 Introduction to Christianity is a study of the Christian tradition, its development and variety. The course will include an examination of the beliefs and practices of both Eastern and Western Christianity and a study of the main differences among the major Western denominations.

2050 Introduction to the Old Testament is an introduction to the historical background, literary structure, and content of the Old Testament. Emphasis will be placed on the authorship and dating of the various texts that comprise the Old Testament, as well as on major themes, figures, and events.

2051 Introduction to the New Testament is an introduction to the history and literary structure of the documents comprising the New Testament. Emphasis will be placed on the major themes found in these documents and on the distinctiveness of approach of the individual writers.

2130 Christianity from the First Century to the Middle Ages explores the history of Christian thought and culture from the period of the Early Church to the Middle Ages. This course will include the development of key theological ideas, changes to art, architecture, and ritual, the relations between church and state, tensions between Christian and pagan culture, and the growth and spread of Christianity in Western Europe.

2140 Christianity from the Reformation to the Present explores the radical religious, ethical, and intellectual changes and challenges that brought about the modern world we live in: the Reformation, the Enlightenment, the Romantic Period and Pietism, and Secularism.

2330 Introduction to Judaism is an exploration of Judaism from its beginnings to the modern era. This course introduces students to the basic beliefs and practices of the Jewish faith.

2340 Introduction to Islam is a study of the religion of Islam in its historical and contemporary manifestations: Muhammad, the Qur’an, Islamic sects, relations with Judaism and Christianity; trends and developments in contemporary Islamic thought and practice.

2400 Introduction to Buddhism is a study of the history of the Buddhist tradition in India and China, the development of the main lines of Buddhist thought, and the nature of the Chinese transformation of Buddhism.

2410 Introduction to Hinduism involves a study of the religious thought and history of India, the literature of Hinduism, the major thinkers in Hindu philosophy, and the role of Hinduism in the culture and society of India.

2820 Cults and New Religious Movements is an introduction to the principal forms of religious groups that have emerged in the late 20th and early 21st centuries through the systematic study of selected writers and issues in biomedicine, human sexuality, and social justice. Possible topics for discussion include euthanasia, abortion, poverty, and unemployment.

2830 Religion and Popular Music is an introduction to the study of how religious and mythic themes are expressed in such pop culture forums as television shows, films, music, mass-market fiction, and material culture.

2850 Religion in Contemporary Canada examines contemporary religious
practices in Canada. Its perspective will be historical and sociological. It will examine indigenous traditions, the beginnings of Christianity in Canada, and how shifts in immigration policy have encouraged a diversity of contemporary religious practice. It will conclude by examining religious elements in contemporary Canada, particularly issues of religion and public policy (related to the Multiculturalism Act) and to shifting Christian membership.

3000 Medieval Books (same as English 3002. History 3000, and Medieval Studies 3000) is an examination of the development and role of the manuscript book during the Middle Ages. Topics covered will include book production and dissemination; authors, scribes and audiences; and various kinds of books (e.g. glossed Bibles, anthologies, books of hours, etc.) and their uses.

CR: English 3002, History 3000, and Medieval Studies 3000

3010 Greek Religion (same as Classics 3010) is a study of the role of religion in the private and public life of the Greek world.

CR: Classics 3010, the former RELS 3121, the former Classics 3121

3020 Roman Religion (same as Classics 3020) is a study of the role of religion in the private and public life of the Roman world.

CR: Classics 3020, the former RELS 3121, the former Classics 3121

3031 The Book of Genesis introduces students to one of the founding texts of Western culture, the book of Genesis. Special attention will be paid to the role of myth, human origins, values, and political institutions.

CR: the former RELS 3030

3053 Anthropology of Religion (same as Anthropology 3053) is a critical evaluation of anthropological research on religion, centering on seminal thinkers and major theoretical traditions. Special attention is given to the study of belief systems, and to relationships between belief and ritual.

CR: Anthropology 3053

3058 Topics in Religion and Politics is a seminar-based course which offers socio-political and philosophical analyses of the impacts of religion in specific political contexts taking a variety of theoretical approaches. The geographical and historical loci of the course will vary by instructor.

3060 The Prophets of Israel is a study of the prophets through the relevant books of the Old Testament. Problems of text and interpretation will be discussed in relation to selected passages, but the general approach will be to bring out the creative genius and radical implications of the prophetic movement as a whole.

3091 Visions of Human Suffering in the Hebrew Bible introduces students to the universal problem of human suffering as it is depicted in various biblical books. Special attention will be placed on the book of Job, but notions of suffering in the Psalms, Jeremiah, Proverbs, Ecclesiastes, and some apocryphal literature will also be considered.

CR: the former RELS 3090

3150 Early Christian Thought: The First Five Centuries - inactive course.

3200 Jesus: His Life and Teaching is a study of the ministry and thought of Jesus of Nazareth as contained in the Gospels and other New Testament writings. Attention will be given to the methods and conclusions of recent scholarship as applied to his principal teachings and to the study of the historical Jesus.

3210 Paul and His Writings is a study of the Pauline writings and an appraisal of the contribution to Christianity of his mission and theology on the basis of New Testament and other relevant material. Particular attention will be given to such related themes as salvation, reconciliation, grace, and justification.

3251 The Gospel of John is an examination of the Gospel of John and the community which produced it. Special attention will be given to the place of the Gospel in the history of early Christianity.

3270 Christianity and the Roman Empire - inactive course.

3272 Bible, Culture and Interpretation - inactive course.

3276 Contemporary Issues and the Bible examines the relevance of the Bible to such issues as the environmental crisis, emergent global capitalism, and technology and freedom.

CR: the former RELS 3275

3305 The Religion of Ancient Israel is an exploration of the religious thought and institutions of the kingdoms of Israel and Judah in their cultural and historical contexts from their beginnings to the sixth century B.C.E. The course introduces students to the religious beliefs, practices, and institutions of these two kingdoms prior to their destruction and prior to the development of Judaism in the post-exilic period.

CR: the former RELS 3305

3310 Judaism at the Beginning of the Christian Era will explore the developments in Jewish thought, institutions, beliefs, and practices during the time when Greek and Jewish cultures encountered one another and in which Jesus of Nazareth lived.

CR: the former RELS 3320

3315 The Development of Modern Judaism - inactive course.

3320 Mysticism in Judaism and Islam - inactive course.

3401 Zen, Buddhist Meditation, and Buddhist Psychology examines the relationship between meditation and theories of human psychology in Buddhism from its origins to its formulation in Zen.

3411 The Ramayana: A Hindu Epic and Performance Tradition is a study of one of the most influential Epics of Hinduism, the story of Rama, the perfect king of a golden age. The course examines various versions of the narrative, the social and religious values expressed through the story, and the Epic's place in Indian politics, in dramatic performances, and in visual arts.

3412 The Teachings of the Upanishads is an in-depth examination of some of the principal Upanishads, foundational texts for Hindu religious philosophy and techniques of meditation. The course also examines classical and modern interpretations of these texts.

3415 Warrior, Wife, Witch: Ideal Females and Female Ideals in Hinduism is a study of Hindu constructions of ideal or iconic females (e.g., Durga, the warrior goddess; Sita, the perfect wife; the Yoginis, the "witches" of Tantra) and their power in the lives of Hindu women. The course includes critical examination of the history of Hindu goddess traditions, the ideals for females in Hindu law, and Hindu women's interpretations of "ideal females".

3431 Readings in Daoism: The Laozi and the Zhuangzi is a course in the critical reading of the two most important texts in Daoism, the Laozi and the Zhuangzi.

CR: the former RELS 3420, the former RELS 3422

3432 Confucius and Confucianism begins with Confucius and China, and explores the growth and impact of Confucianism on East Asian society through an examination of its major writings.

CR: the former Religious Studies 3420, the former Religious Studies 3421

3500 Philosophy of Religion (same as Philosophy 3500) explores the philosophical aspects of religious belief, religious language, and theology.

CR: Philosophy 3500

3510 Christianity in the Reformation Era is a study of Christian thought and practice in the Reformation era. This course will examine both Protestant and Catholic efforts at reform from the late Middle Ages to the seventeenth century.

3535 Christianity in the Modern Era is a study of Western Christianity from the Enlightenment to the twentieth century through an examination of institutional and intellectual developments as well as changes in popular religious consciousness and practice.

CR: the former RELS 3530, the former RELS 3595

3550 Christian Thought in the Middle Ages (same as Medieval Studies 3003) is a study of the development of Christianity in the West from the eleventh century to the eve of the Reformation, through an examination of its principal thinkers and the most significant societal forces and events: the crusades, the universities, monasticism, religious dissent, and mysticism.

CR: Medieval Studies 3003

3591 Christian Mysticism is a study of the origins and development of the mystical tradition in Christianity from the fathers of the early Church to contemporary spirituality. The course will examine representative writers and writings from both the Western Christian tradition and Eastern Orthodoxy.

3600 Ancient Myth and Cult (same as Classics 3600) develops the students' knowledge of myth and material culture by examining specific religious sites in the Greek and Roman world as foci of ritual practice. Students will learn to integrate knowledge of the physical remains with the literary and ritual evidence in order to obtain a more integrated understanding of religious life in ancient Greece and Rome.

CR: Classics 3600

3640 Religion and Bioethics is an examination of the religious ethics of health care in the light of foundational concepts of bioethics. Topics to be discussed will include the relation of religion and medicine, as well as specific issues such as abortion, euthanasia, and genetic engineering.

3650 Religion and Social Justice is a study of social justice issues that arise from an investigation of economic and political systems from the perspective of religious ethics. Topics addressed may include environmental ethics, ecofeminism, gender equity, pacifism, civil disobedience, poverty, and social welfare questions.

3680 Religion and the Problem of Evil is a study of religious approaches to the problem of evil. Attention will be paid to both traditional and contemporary efforts among the world's religions to address the problem.

CR: the former RELS 4800
3800 Re/Presentations of Muslim Women: Gender, Colonialism and Islam is presented in three parts. Firstly, there will be a grounding theoretically in Islam, Orientalism, feminism and contemporary political implications. Attention will be given to thinkers such as Nietzsche, Marx, Freud, Sartre, Otto, Eliade, and Tillich.

3810 Modern Interpretations of Religion is a study of modern attempts to analyze, interpret, and reassess the place and significance of religion in human life. Attention will be given to thinkers such as Nietzsche, Marx, Freud, Sartre, Otto, Eliade, and Tillich.

3811 Contemporary Alternative Spirituality is an in-depth examination of one or more forms of contemporary alternative spirituality. Students will study the writings of practitioners of alternative spirituality, as well as social-science studies of alternative spiritual groups. Religious movements to be explored include African-American alternative spirituality, Mother Earth and Creation spirituality, Neo-paganism, the New Age Movement, UFO spirituality, and contemporary witchcraft.

3812 Religion and Disney: No Just Another Mickey Mouse Course provides an in-depth examination of religious themes and issues arising from and within the philosophies of Walt Disney, the Disney animated films, other Disney feature films, and the Disney theme parks. Theoretical models drawn from the fields of Religion and Popular Culture will provide the lens through which the religious dimensions of Disney and Disney fandom will be explored.

PR: completion of RELS 2812 is recommended but not required

3820 Religion and the Arts (same as Visual Arts 3820) is an examination of the role of art in the expression of religious ideas, together with a study of specific religious themes and concerns in one or more of the following: literature, film, music, painting, sculpture, and dance.

CR: Visual Arts 3820

3830 Religion, Science and Technology - inactive course.

3831 Religious Themes in Contemporary Songwriting - inactive course.

3840 Rites of Passage is an introduction to the scholarly study of ritual, focusing on lifecycle transitions: birth and initiation rites, weddings, and funerals. In addition to studying practices from a range of religious traditions, consideration is given to contemporary images, perceptions, and stories of passage, as well as to classical rites of passage theory.

3860 Implicit Religion: The Sacred in Secular Places is an in-depth examination of the concept of implicit religion. The course will explore a range of phenomena, as well as to classical rites of passage theory.

3880 Spirituality and the Earth is an examination of the attitudes of various religious traditions to the environment. Special attention will be paid to Native American spirituality.

PR: 3 credit hours in Religious Studies beyond the first-year level or departmental permission

3900 Religion in Newfoundland and Labrador: Beginnings is a study of religion and its role in Newfoundland society from the seventeenth century to the middle of the nineteenth century. Attention will be given to the origin, growth, and consolidation of the Anglican, Roman Catholic, Methodist, Moravian, and Methodist congregations.

3901 Religion in Newfoundland and Labrador: The Nineteenth and Twentieth Centuries is a study of religion and its role in Newfoundland society from the middle of the nineteenth century to the present. The course will include the history of the Anglican, Roman Catholic, United (Methodist), Congregational, and Presbyterian churches in Newfoundland and the establishment of non-denominational and Congregational churches.

AR = Attendance requirement; CH = Credit hours are 3 unless otherwise noted; CO = Co-requisite(s); CR = Credit can be retained for only one course from the set(s) consisting of the course being described and the course(s) listed; LC = Lecture hours per week are 3 unless otherwise noted; LH = Laboratory hours per week; OR = Other requirements of the course such as tutorials, practical sessions, or seminars; PR = Prerequisite(s); UL = Usage limitation(s).
2230 Newfoundland Society and Culture (same as Folklore 2230, the former Sociology/Anthropology 2230, and the former Anthropology 2230) focuses on the social and cultural aspects of contemporary island Newfoundland.
CR: Folklore 2230, the former Sociology/Anthropology 2230, the former Anthropology 2230

2240 Canadian Society and Culture (same as the former Sociology/Anthropology 2240 and the former Anthropology 2240) is a descriptive and analytic approach to the development of Canadian society and culture.
CR: the former Sociology/Anthropology 2240, the former Anthropology 2240

2250 Changing World is a sociological analysis of contemporary world issues and social problems.

2270 Families (same as the former Sociology/Anthropology 2270 and the former Anthropology 2270) is a comparative and historical perspective on the family as a social institution, the range of variation in its structure and the determinants of its development.
CR: the former Sociology/Anthropology 2270, the former Anthropology 2270

2290 Animals and Society introduces students to contemporary sociological approaches to the study of the relationship between human and non-human animals.

2300 Criminological Inquiry introduces students to sociological models for understanding the phenomenon of "crime." As a background for developing theory, this course will familiarize students with the problems inherent in defining what it is we mean by "crime." Once the underlying premises of the theories are tackled, students critically examine each theoretical perspective with a focus on assessing the validity of the approach, and how the theory works to guide public policy.
CO: SOCI 1000

3030 Political Sociology is an introduction to the sociological foundations of political life. Topics to be examined include voting behaviour, comparative political systems, ideologies, mass movements, parties, voluntary associations, and bureaucracies. Attention is given to the concepts of class, status, command, power, authority, and legitimacy.
CR: the former Political Science 3030
PR: SOCI 1000 or the former 2000

3041 Theory and Practice of Sociological Research develops and elaborates upon work introduced in SOCI 3040. Students will more deeply explore the theories of knowledge that underpin social research and further hone their research skills through the application of different forms of sociological work and craft research questions. This course includes lectures, discussion, and introductory hands-on experience with both qualitative and quantitative research design and analysis. Instruction takes place in a classroom equipped with the computer hardware and relevant software. All sections of this course follow Quantitative Reasoning Course Guidelines available at www.mun.ca/arts/or.
CO: SOCI 3041
PR: SOCI 1000 or the former 2000

3120 Social Psychology examines sociological perspectives on social psychology: the physiological and psychological basis of sign and symbol use, the context and emergence of self, identity, role, encounters, social relationships, altruism.
PR: SOCI 1000 or the former 2000

3130 Sociology of Gambling provides a critical overview of the major social and cultural aspects of modern gambling in terms of leisure, work and economic development, social inequality, health and illness, deviance and crime, and policy. Special attention is directed at the promotion of modern gambling by the state (lotteries, casinos, video lottery terminals, slot machines, and horse racing).
PR: SOCI 1000 or the former 2000

3140 Social Movements (same as the former Sociology/Anthropology 3140 and the former Anthropology 3140) examines the major social movements that have driven social changes related to gender equality, social justice, human rights, and the environment. The course asks why people become involved in social movements, and what factors contribute to movement success. The course also examines social movements' use of mass media and new media technologies as tools for reaching the public and provoking social and cultural transformation.
CR: Sociology/Anthropology 3140, the former Anthropology 3140
PR: SOCI 1000 or the former 2000

3150 Classical Social Theory is an introduction to the work of major 19th and early 20th-century social theorists including Marx, Durkheim, Weber and Freud.
PR: SOCI 1000 or the former 2000

3160 Contemporary Social Theory is an exploration of selected topics from issues in contemporary social theory, including theories of feminism, the state, the environment, culture, organization, and communication.
PR: SOCI 1000 or the former 2000, and SOCI 3150

3180 Minority Groups examines the nature of minority group status in society and various examples of minority groups in past and present societies, reviews theoretical perspectives on minority groups, and explores various aspects of the relationship between minority groups and the rest of society.
CR: the former SOCI 3304
PR: SOCI 1000 or the former 2000

3200 Population is an Introduction to demography, the scientific study of human populations, their size and composition, and the processes by which they change over time: nuptially, fertility, mortality, and migration. Includes analyses of past and present Newfoundland populations.
PR: SOCI 1000 or the former 2000

3220 Work and Society (same as the former Sociology/Anthropology 3220 and the former Anthropology 3220) is an historical and comparative perspective on the cultural and social organization of work, its determinants and human implications.
CR: the former Sociology/Anthropology 3220, the former Anthropology 3220
PR: SOCI 1000 or the former 2000

3260 Social and Economic Development (same as Anthropology 3260) is an examination of theories of development including a critical analysis of empirical situations to which theories are applied.
CR: Anthropology 3260; the former Sociology/Anthropology 3260
PR: SOCI 1000 or the former 2000

3290 Deviance examines major sociological theories and methodological techniques central to the study of deviance and crime. The distribution, attributes and explanations of a variety of forms of deviance are examined, which may include violence, sexual deviance, delinquency, addiction, mental disorder, theft, organized crime, political deviance and corporate deviance.
PR: SOCI 1000 or the former 2000

3300-3313 Sociological Specialties will have a topic of current interest and importance, announced by the Department for each term, such as racial and ethnic relations, sociology of religion, art, politics, language, conflict, stratification, knowledge, selected social problems.

3317 Oil and Society (same as the former Sociology/Anthropology 3317 and the former Anthropology 3317) is an examination of the sociology of the Western oil industry and of the social and cultural implications of oil activities for those regions in which they occur. Particular attention will be paid to North Atlantic societies: Scotlnd, Norway, and Atlantic Canada.
CR: the former Sociology/Anthropology 3317, the former Anthropology 3317
PR: SOCI 1000 or the former 2000

3318 Culture and Aging (same as the former Sociology/Anthropology 3318 and the former Anthropology 3318) is an Introduction to the study of aging from a social and cultural perspective. Distinctions between the biological and social elements of the aging process will be examined. The overview of social and cultural gerontology includes social, economic and political influences on later life, as well as the culture-based needs and aspirations of the aged.
CR: the former Sociology/Anthropology 3318, the former Anthropology 3318
PR: SOCI 1000 or the former 2000

3320 Terrorism and Society (same as the former Sociology/Anthropology 3320 and the former Anthropology 3320) is an examination of the recourse to violence as a recurring phenomenon in social and political movements. Consideration will be given to problems of classifying and explaining various forms of "terrorism," and to discussing their consequences for society.
CR: the former Sociology/Anthropology 3320, the former Anthropology 3320
PR: SOCI 1000 or the former 2000

3395 Criminal Justice provides an introduction to the sociological perspectives on our system of formal social control (police, courts, corrections). Special attention is directed at how social structure and social inequality (class, ethnicity and race, gender) influence criminal justice decisions. Topics discussed include public opinion on crime and criminal justice, offenders and victims in the system, consensus and conflict in the creation of criminal law, finding a delicate balance between police powers for...
crime control and democratic rights, types of sentencing options and rationales, and the dual and conflicting goals of prisons and alternatives to incarceration.

PR: SOCI 1000 or the former 2000, and SOCI 3290

3400 Sociology of Youth explores the social construction of youth and reviews major theoretical approaches to the study of youth within Western Society. The course examines youth in relation to culture and identity, place and space, social inequalities, and social institutions.

PR: SOCI 1000 or the former 2000

3410 Sociology of Sport (same as Human Kinetics and Recreation 3410) is an examination of the relationship between sport and society. Areas could include social origin of sport, social history of sport, religion and sport, sport and socialization, sport and social stratification, gender and sport, violence in sport, sport and nationalism.

CR: Human Kinetics and Recreation 3410
PR: SOCI 1000 or the former 2000

3420 Sociology of Gender provides a comprehensive introduction to the major themes, theories and research questions addressed by sociologists studying ‘gender’. The economic, social, cultural and political aspects of gender formations, in comparative Canadian and transnational contexts, will be examined.

PR: SOCI 1000 or the former 2000

3630 New Media Methods in Social Research (same as Anthropology 3630) will explore non-print means for recording social behavior and will utilize various forms of the media as a descriptive and an analytic tool.

CR: Anthropology 3630, the former Sociology/Anthropology 3630
PR: SOCI 1000 or the former 2000

3710 Post-Soviet Transformations will explore problems of development in post-Soviet countries, examining them in a broader context of modernization. ‘Catch-up’ modernization gives rise to a set of problems related to importation, analysis and explanation, e.g., a gap between formal and informal institutions. These problems exist in Russia as well as in a number of other less-developed countries.

PR: SOCI 1000 or the former 2000

3731 Sociology of Culture is a comparative examination of major contemporary sociological texts on the relationship between culture, broadly understood as symbolic systems, and social structure.

CR: SOCI 1000 or the former 2000

4040 Investigative Methods in Sociological Research provides more advanced undergraduate-level study and practice in a variety of qualitative and quantitative sociological research methods. It will cover stages from conceptualization to empirical studies. The seminar format may include lectures, discussion and a range of research methods exercises.

PR: SOCI 3040, 3041

4071 Social and Cultural Aspects of Health and Illness (same as Anthropology 4071) will cover topics which may include: cultural concepts of illness and health; theories of disease causation; relationships between social class and illness patterns; symbolic use of illness; variations in philosophies of treatment and in practitioner/patient relationships; the social organization of medicine.

CR: Anthropology 4071, the former Sociology/Anthropology 4071
PR: SOCI 3040, 3150

4074 Ritual and Ceremony (same as the former Sociology/Anthropology 4074 and the former Anthropology 4074) is about ritual and ceremony, as both analytic and descriptive concepts, in both industrial and subsistence-oriented societies. Topics examined could include: the universality of ritual and ceremony; essential differences between ritual and ceremony; their relative importance in non-industrialised and industrialised societies; the place of symbolism in ritual and ceremony; and the relationship between ritual, ceremony, religion and the sacred.

CR: the former Sociology/Anthropology 4074, the former Anthropology 4074
PR: SOCI 3040, 3150

4077 Advanced Studies in Terror and Society - inactive course.

4080 Advanced Topics in Criminology covers an array of theoretical and empirical developments in sociology and criminology that cross boundaries within the diverse systems of criminal justice, the community and society more broadly. Specific emphases will be placed on the experiences of those in the criminal justice system - as victims, offenders, and professionals - and theories of desistance, as well as the intersection of gender with race, ethnicity and class.

PR: 6 credit hours in Sociology. Enrollment priority will be given to students who have declared a Sociology Major and/or the Criminology certificate program.

4091 Oil and Development (same as the former Sociology/Anthropology 4091 and the former Anthropology 4091) is an advanced seminar which will consider some selected topics dealing with the petroleum industry and its implications for economic development and social change. A comparative approach will be taken, using material from developed, underdeveloped and intermediate regions of the world.

CR: the former Sociology/Anthropology 4091, the former Anthropology 4091
PR: SOCI 3040, 3150

4092 Gender and Social Theory (same as the former Sociology/ Anthropology 4092 and the former Anthropology 4092) is a seminar which will develop the material covered in SOCI 3420 at a more theoretical level. It will cover the history of social thought as it applies to issues of gender, and will discuss some theoretical debates in the area of gender and social theory.

CR: the former Sociology/Anthropology 4092, the former Anthropology 4092
PR: SOCI 3040, 3150; 3420 or permission of the instructor

4093 Development Sociology is a seminar course focusing on theoretical and empirical explanations of development (e.g., International development, foreign aid, and trade). The course provides students with an understanding of how the theories, actors, and ongoing challenges of development shape societies globally.

PR: SOCI 3040, 3150

4094 Unemployment (and Underemployment) is a seminar which examines the origins and impacts of unemployment and underemployment in Newfoundland and Labrador, Canada and globally. It examines the core concepts in the sociology of unemployment and underemployment and then moves to consider the consequences for societies, communities and individuals.

PR: SOCI 3040, 3150

4093-4099 (Excluding 4093, 4094 and 4096) Special Areas in Sociology provides a comprehensive introduction to the content announced when offered.

PR: SOCI 3040, 3150

4100 Internship is a part-time, one-semester internship course, and is normally an unpaid supervised field placement for academically strong sociology majors. The goal is to help give students basic skills required for employment in nonprofit organizations in the social services and arts management.

UL: six hours per week of worksite activities over a period of eight weeks as well as classroom instruction during part of the term

4100-4109 (Excluding 4100, 4101, 4104 and 4107) Special Topics in Institutional Analysis is advanced analysis from a sociological perspective pertaining to specific social institutions.

PR: SOCI 3040, 3150

4101 Modern Western State provides a selective overview of some of the sociological debates surrounding the modern Western state. Topics may include the history and development of the modern Western state; sociological theories of the state; the state and the economy; and the state and globalization. Through this course, students will learn how the distribution of power in societies influences the character of the state and government decision making.

PR: SOCI 3040, 3150

4104 Environmental Sociology examines the social forces that drive environmental degradation and responses to environmental issues. The course explores how environmental issues, such as climate change, fisheries collapse, or deforestation, are intertwined with systems of social power and inequality. Through this course, students will learn how a sociological perspective helps to address the causes and potential solutions for environmental problems and conflicts.

CO: SOCI 3040, SOCI 3150 and 3 additional credit hours in Sociology courses at the 3000 level, or permission of the course instructor

PR: SOCI 3040, SOCI 3150 and 3 additional credit hours in Sociology courses at the 3000 level, or permission of the course instructor

4107 Feminist Technologies (same as the former Women's Studies 4107) investigates the effects of technology on women's lives and technologies that exemplify feminist values and ideology. Topics could include: The history of domestic and workplace technology, assessing, designing, and building technologies from a feminist perspective; the gender politics of technological systems; information technologies; biotechnology and ecology; development in architecture and design. The course combines seminar discussions of reading with hands-on activities.

CR: the former Women's Studies 3009, the former Women's Studies 4107
PR: SOCI 3040 and 3150 or permission of the instructor

4200-4220 (Excluding 4201, 4204, 4210, 4212 and 4213) Special Topics in Sociology will have topics to be studied announced by the Department.

PR: SOCI 3040, 3150

4201 The Sociology of Gender, Health and Risk is a seminar course that critically examines how gender structures risk factors and health outcomes, and shapes how we experience and understand bodies and minds in relation to health and risk. Topics may include transgender and transsexual health, masculinities and femininities, the body, mental health, leisure and sport, the health care system, and occupational health and safety.

AR = Attendance requirement; CH = Credit hours are 3 unless otherwise noted; CO = Co-requisite(s); CR = Credit can be retained for only one course from the set(s) consisting of the course being described and the course(s) listed; LG = Lecture hours per week are 3 unless otherwise noted; LH = Laboratory hours per week; OR = Other requirements of the course such as tutorials, practical sessions, or seminars; PR = Prerequisite(s); UL = Usage limitation(s).
4210 The Sociology of Child Sexual Abuse is an advanced seminar that explores how sexual violence toward youth is constructed as a social problem. Topics include: theoretical and methodological explanations of child sexual abuse (including methodological issues on collecting data on youth, cross-cultural research), relationships between adult sexual violence and child sexual abuse, sexual perpetrators and pedophiles, the place of children in contemporary society, the experiences of child victims and professional responses to child sexual abuse.
PR: SOCI 3040, 3150

4212 Sociology of Policing is a seminar course that focuses on the role policing plays in society, the social, economic, and political factors that shape policing services, and the policies that may be implemented to strengthen policing in the future. The popular view of the police role, detective myths and effectiveness, community policing, police socialization, policing special types of problems, police misconduct, and the expansion of private policing are considered.
PR: SOCI 3040, 3150

4213 Sociology of Sexuality explores the socially constructed nature of sexuality, and examines how concepts of sexuality are used in the current North American context as well as across different times and cultures. The course explores sex and sexuality in connection to community and identity, social problems, social control, and political resistance.
PR: SOCI 3040, 3150

4230 Gender and Development is a seminar course focusing on theoretical and empirical explanations of how development processes affect gender inequality and relations between men and women. The course provides students an understanding of how the theories, actors, and ongoing challenges of development interact with and work to shape socially constructed gender relations in a global perspective. Special attention is paid to how globalization influences gender in the development context.

12.28 Spanish
For Spanish course descriptions see under French.

12.29 University
University courses are designated by UNIV.
1010 The University Experience introduces students to the different modes of enquiry that one finds in the University, the interrelatedness of knowledge and the role of the University in society. It also provides students with tools and techniques of study and research that can lead them to academic success and fulfilling careers.

1020 Problem Solving Strategies is an active-learning, collaborative, and problem-based course. Through case studies that examine the applications of research-based skills and knowledge in our larger society, students will learn from activities that parallel those of university specialists. Web technologies and classroom and library resources are used to support a range of learner preferences and learning styles. This course qualifies as a research/writing course.

1 The Memorial University of Newfoundland Code

The attention of all members of the University community is drawn to the section of the University Calendar titled The Memorial University of Newfoundland Code, which articulates the University's commitment to maintaining the highest standards of academic integrity.

2 Student Code of Conduct

Memorial University of Newfoundland expects that students will conduct themselves in compliance with University Regulations and Policies, Departmental Policies, and Federal, Provincial and Municipal laws, as well as codes of ethics that govern students who are members of regulated professions. The Student Code of Conduct outlines the behaviors which the University considers to be non-academic misconduct offences, and the range of remedies and/or penalties which may be imposed. Academic misconduct is outlined in UNIVERSITY REGULATIONS - Academic Misconduct in the University Calendar.

For more information about the Student Code of Conduct, see www.mun.ca/student/conduct/conduct.php.

3 Faculty Description

The Faculty of Business Administration is known for innovative, high-quality academic programs, basic and applied research, and responsive community outreach activities, including the Gardiner Centre. The faculty prepares students to succeed in a competitive work place. Each business program is designed to give students the skills and experience needed to advance their careers. The faculty's close-knit community provides students with many opportunities to get involved and network with fellow classmates.

Additional information regarding the Faculty of Business Administration is available at www.business.mun.ca. Information about the Gardiner Centre is available at www.busi.mun.ca/gardinercentre.

Students must meet all regulations of the Faculty in addition to those stated in the general regulations. For information concerning fees and charges, admission/readmission to the University, and general academic regulations (undergraduate), refer to UNIVERSITY REGULATIONS.

3.1 Faculty History

In 1954, the University approved a bachelor of commerce undergraduate degree. Over the next two decades, the Department grew substantially in the size of its student enrolment and program offerings. In 1973, it was renamed the School of Business Administration and Commerce, and the University established the first co-operative undergraduate business program in Canada. In 1981 the School was granted faculty status, reflecting the growth and diversity of its academic programs.

In 2002, the Faculty of Business Administration became the first in Atlantic Canada to be accredited by AACSB International—the Association to Advance Collegiate Schools of Business. AACSB International is one of higher education's most prestigious and rigorous accrediting bodies, stressing academic excellence and dedication to continuous improvement. This accreditation is the highest distinction offered to business schools both nationally and internationally.

3.2 Academic and Professional Ethics

The Faculty of Business Administration expects its students to adhere to the highest standards of academic and professional integrity. The Faculty has created a Statement and Code of Academic and Professional Integrity, which is posted prominently in the Faculty of Business Administration Building and is distributed annually to all students in the Faculty. The Statement and Code of Academic and Professional Integrity provides guidance and prescriptive standards.

Academic integrity allows students to express their own thoughts, opinions, and values while pursuing academic excellence and striving to achieve their own personal best. It means that they will take responsibility for their learning values, and pursue academic goals with honesty and enthusiasm. Academic integrity refers to submitting/presenting work for credit that represents only the student's/students' own work unless otherwise properly acknowledged, documented, and previously authorized by the instructor. This work includes, but is not limited to, exams, assignments, quizzes, individual or group projects or assignments, oral presentations, and Work Term reports.

Professional integrity requires students to act with honesty, demonstrate accountability, engage in respectful collaboration, and support a culture of inclusiveness and respect. When students are participating in University activities, they shall do so with professional integrity and shall consistently apply the knowledge, skills, and values expressed in the Student Code of Conduct.

UNIVERSITY REGULATIONS, Academic Misconduct - Academic Offenses outlines Academic Offenses. The following are examples of offenses that contravene the Faculty of Business Administration's guidelines on ethics (Statement and Code of Academic and Professional Integrity) and will be resolved in accordance with UNIVERSITY REGULATIONS, Academic Misconduct:

- including a student’s name or allowing one’s own name to be included on the list of contributors to a group project without having contributed to that work;
- altering a piece of work after it has been graded and submitting it for re-grading;
- taking another’s examinations, assignments, or solutions to examinations or assignments without the owner’s permission; and
- using or divulging confidential information obtained during research or while on Work Terms and/or making use of inappropriately divulged confidential information.

Students in the Faculty of Business Administration are subject to the Student Code of Conduct in all Faculty- or University-related activities including: work terms, exchanges, and case and other competitions. Violations of this standard of professional integrity will be resolved in accordance with the Student Code of Conduct.

3.3 Vision Statement

Our Vision is to enhance our reputation as a leading business school with an international presence and national and provincial relevance.

3.4 Mission Statement

Our Mission is to prepare our students for global success, to engage in scholarship with global reach and local relevance, and to serve as a catalyst for the success of organizations and individuals. In this way we fulfill our special obligation to the people of Newfoundland and Labrador.

1. We provide comprehensive business education that combines theory and practice, inspiring students to become successful and
valued members of their professions and communities.
2. We conduct and disseminate high quality basic and applied research that informs understanding of the core disciplines of business and management and enhances organizational practice.
3. We engage with our community to share expertise, advance and apply business knowledge, and develop and deliver best practices.

4 Description of Programs

Students must meet all regulations of the Faculty of Business Administration in addition to those stated in the general regulations. For information concerning fees and charges, admission/readmission to the University, and general academic regulations (undergraduate), refer to UNIVERSITY REGULATIONS.

All courses of the Faculty are designated by BUSI.

4.1 Undergraduate Programs

The following undergraduate programs are available:

1. **Minor in Business Administration**: is comprised of eight business courses (24 credit hours) and is available to students who are completing non-Business degree programs which provide for the completion of a minor.

2. **Minor in International Business**: is comprised of eight business courses (24 credit hours) and is available to students who are completing non-Business degree programs which provide for the completion of a minor.

3. **Certificate in Business Administration**: is comprised of 10 courses (30 credit hours) and is designed to meet the needs of individuals who hold full- or part-time employment and wish to complement their work experience with preparation for future business education. This program may be completed in-class, via distance education, or a combination of both.

4. **Diploma in Business Administration**: is a 20-course (60 credit hour) program designed to meet the needs of individuals who hold full- or part-time employment and wish to complement their work experience with theoretical business education. This program may be completed in-class, via distance education, or a combination of both.

5. **Bachelor of Commerce (Co-operative)**: is a full-time, 45-course (135 credit hour) program with a structured format. This five-year degree includes three four-month work terms. Students have the opportunity to concentrate in accounting, finance, human resource and labour relations, information systems, international business, marketing, operational research, small business/entrepreneurship, or supply chain management.

6. **Joint Degrees of Bachelor of Commerce (Co-operative) and Bachelor of Arts**: is comprised of 50 courses (150 credit hours). Students in the Bachelor of Commerce (Co-operative) program may simultaneously complete the requirements for a Bachelor of Arts program. Some degree requirements are modified for students pursuing joint degrees.

7. **Bachelor of Commerce (Co-operative) (Honours)**: signifies superior academic achievement.

8. **Bachelor of Business Administration (B.B.A.)**: is a 40-course (120 credit hour) general business program with a flexible course structure. This four-year degree may be completed in-class, via distance education, or a combination of both. It can be completed full- or part-time.

9. **Bachelor of Business Administration (Honours)**: signifies superior academic achievement.

10. **International Bachelor of Business Administration (i.B.B.A.)**: is comprised of 40 courses (120 credit hours) and is designed to produce business professionals with a global perspective. This four-year degree differs from traditional business programs in its requirements that graduates must complete the usual set of business skills with an understanding of the international environment as well as with cross-cultural skills and experience relevant to a particular global region (e.g., Asia, Europe or Latin America).

11. **International Bachelor of Business Administration (i.B.B.A.) (Honours)**: signifies superior academic achievement.

Upon meeting the qualifications for any of the above-noted programs students must apply to graduate on the prescribed "Application for Graduation" form. This form may be obtained online at the Memorial Self Service at www3.mun.ca/gradreg/apply_grad.php. Additional information is available from the Office of the Registrar at www.mun.ca/gradreg/apply_grad.php.

4.1.1 Business Co-operative Education

General management of the work terms in the Co-operative Program is the responsibility of Business Co-operative Education. Through its co-ordinators, it is responsible for assisting potential employers to become involved in the program, for the continual development of employment opportunities, for arranging student-employer interviews, for counselling of students, for visiting students on their work assignments and for the evaluation of the work term.

Students and employers choose each other through the job competition process. Job advertisements are posted and students may apply for up to twelve positions. Employers interview students, and both the students and employers express their preferences for one another.

Students are then placed by Business Co-operative Education to reflect expressed preferences. Placement is not guaranteed but every effort is made to ensure that appropriate employment is made available. In the case of students who are required to withdraw from the program, Business Co-operative Education has no responsibility for placement until they have been readmitted to the program.

Salaries paid to co-operative students are determined by employers based upon their internal wage structures, and tend to increase as the student progresses through the program and assumes more responsibility. However, students should not expect the income from work terms to make them completely self-supporting.

Students in the Co-operative Program give permission to prospective employers, in the course of the placement process, to have access to their records, which contain their academic marks and their work term evaluations. After accepting a position, students may not withdraw from a specific job situation unless prior permission is obtained from the Committee on Undergraduate Studies.

4.2 Graduate Programs

Programs leading to the Master of Business Administration (M.B.A.), the Master of Employment Relations (MER), and the Ph.D.(Management) degrees are described in the School of Graduate Studies section of the University Calendar.

5 Program Regulations

1. The Office of the Registrar and the Faculty of Business Administration will assist students with any questions or problems which might arise concerning the interpretation of academic regulations. It is, however, the responsibility of students to see that their
academic programs meet the University's regulations in all respects.

2. No student shall obtain more than one undergraduate degree from the Faculty of Business Administration.

3. The Faculty of Business Administration may recommend that transfer credit for certain Business courses be awarded on the basis of successful completion of professional courses that lead to a professional designation (e.g., C.A., C.G.A., C.M.A.). Applications for transfer credit should be made through the Office of the Registrar.

4. The Faculty of Business Administration may approve that credit for certain Business courses successfully completed through Memorial University of Newfoundland’s former Extension Services Division be granted upon application to the Registrar for transfer credit evaluation.

5.1 Regulations for Business Minors

1. Students who are completing a non-Business degree program which provides for the completion of a minor may complete a minor in either Business Administration or International Business.

2. Students who wish to undertake either Business minor program must have completed a minimum of 30 credit hours. Application is made in the space provided on the Declaration/Change of Academic Program Form which must then be approved by the Dean of the Faculty of Business Administration or delegate. The form may be obtained in person at the Office of the Registrar or at the Committee on Undergraduate Changes, Academic Program Form. Admission into the minor program is selective; at the time of application a student must have a cumulative average of at least 65%.

3. A Minor in Business Administration shall consist of 24 credit hours comprising the following courses: BUSI 1000, 1101, 1210, 3310, 4000, 4500, and two courses chosen from BUSI 1600, 2101, 2210, 3700, 4320 and 4330.

4. A Minor in International Business is offered as a special program of an interdisciplinary nature, consisting of 24 credit hours as follows:
   a. BUSI 1101, 1210, 3310, 5302, Political Science 2200; and
   b. Three further courses from 6040, 6311, 6330, 7005, 6550, 7240, a pre-requisite for one of the preceding courses and/or from cognate courses such as Economics 3030, 4030, Political Science 3210, and 3250, to be chosen through prior consultation with the Coordinator of the International Business program.

5. Course prerequisites for all courses shall apply to both Business minors. Students should note, for example, that the prerequisites for BUSI 4500 are BUSI 1101, Statistics 2500 and Economics 2010, and that the prerequisites for BUSI 5302 are BUSI 1000, Economics 2010 and 2020. It should be noted that some courses are not offered every semester.

5.2 Regulations for General Degree of Bachelor of Commerce (Co-operative)

5.2.1 Admission Modes and Requirements

5.2.1.1 Direct Entry (for High School Students)

Students may apply for admission into first year of the Bachelor of Commerce (Co-operative) program (Terms A/B) directly from high school by indicating this in the appropriate place on their Undergraduate Application for Admission/Readmission to Memorial University of Newfoundland. Direct entry from high school is subject to the applicant’s final acceptance to the University and admissibility into either Mathematics 1000 or 1090. Terms A/B normally starts in September.

5.2.1.2 Advanced Standing (for Current Memorial University of Newfoundland Students)

1. Students may apply for admission with Advanced Standing into terms beyond Terms A/B up to and including Term 4. Students applying for admission to a term beyond Terms A/B must have completed all of the courses required in the program up to that term, including the courses required in Terms A/B, with grades at least as high as those required to meet promotion requirements. Students applying for admission with advanced standing must complete and submit to the Office of the Registrar the Faculty of Business Administration Application For Admission, normally on or before the deadlines specified in the University Diary for the semester in which they intend to begin their program.

2. Admission with Advanced Standing is competitive and selective. Prospective students are therefore encouraged to consider an alternate degree program in the event that they are not accepted into the Bachelor of Commerce (Co-operative) program.

3. The primary criterion used in reaching decisions on applications for admission with advanced standing is overall academic achievement. Since the Bachelor of Commerce (Co-operative) program is full-time and continuous, the Admissions Committee will review the applicant's transcript for evidence that the applicant has the ability to complete 15-credit hour course loads and achieve grades at least as high as those required to meet promotion requirements on those course loads. Applicants whose transcripts do not demonstrate this ability or whose overall academic records are weak are unlikely to be admitted.

5.2.1.3 Transfers From Other Post-Secondary Institutions

Students who are transferring from other universities must apply for admission to the University on or before the deadlines specified in the University Diary for the semester in which they intend to begin their program, to allow sufficient time for the evaluation of transfer credits. Subject to items 2. and 3. under Advanced Standing (for Current Memorial University of Newfoundland Students) above, transfer students from other universities will be placed in that Term of the program judged by the Admissions Committee of the Faculty to be appropriate considering equivalent credits. Regardless of the Term into which they are admitted, transfer students must complete a minimum of two work terms.

5.2.2 The Curriculum

1. To graduate with the Bachelor of Commerce (Co-operative) degree, every candidate shall successfully complete 135 credit hours over nine academic terms in the Co-operative Program and shall normally be required to successfully complete three work terms. The 135 academic credit hours are distributed as follows: 30 credit hours over the course of Terms A/B and 15 credit hours in each of Terms 1 through 7.

2. Students who have been admitted to the Bachelor of Commerce (Co-operative) program must complete courses in academic terms or “blocks” in the sequence, order and course load as set out in the Table 1 Bachelor of Commerce (Co-operative) Curriculum. Exceptions to this prescribed program, including specified course load, must have the approval of the Admissions Committee or of the Committee on Undergraduate Studies of the Faculty.

3. By the end of the Winter semester of their first year, Terms A/B students must have successfully completed the following 30 credit hours:
a. Six credit hours in English courses which must include English 1110 or 1021;
b. Mathematics 1000;
c. Economics 2010 and 2020;
d. BUSI 1000;
e. Twelve additional credit hours in non-Business electives. Students who wish to complete the Joint Degrees of Bachelor of Commerce (Co-operative) and Bachelor of Arts [see entry immediately following The Curriculum below] are strongly advised to include courses in a second language and courses in the subject of the intended Major program.

4. The curriculum of courses and work terms beyond the 30 credit hours required in Terms A/B is as follows:
   a. Statistics 2500
   b. Fifty-four credit hours in core Business Administration courses: 1101, 1210, 1600, 2010, 2101, 2210, 2400, 2710, 3310, 3401, 3700, 4000, 4050, 4320, 4330, 4500, 5301, and 7000.
   c. At least 21 credit hours but no more than 36 credit hours in Business electives which must be chosen from Table 3 Business Electives.
   d. At least 12 credit hours but no more than 27 credit hours in non-Business electives.
   e. Three work terms of four months duration each.

Unspecified credits may not be used to fulfill the requirements outlined in a., b., and e. above.

5. Notwithstanding clauses 2. and 4. and bullet three of UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate), Classification of Students, students do not require special permission to register for courses while on work terms if the courses are in addition to the prescribed program.

</table>

* Of the 48 credit hours in elective courses required in the program from Terms 1 through 7, 21 – 36 credit hours must be chosen from Business electives in Table 3 Business Electives and 12 – 27 credit hours must be non-Business electives.
5.2.3 Regulations for the Joint Degrees of Bachelor of Commerce (Co-operative) and Bachelor of Arts

Any student who is admitted into the Bachelor of Commerce (Co-operative) program may simultaneously complete the requirements for a Bachelor of Arts program. Under those circumstances, regulations for the Bachelor of Commerce (Co-operative) program will be relaxed as follows. Notwithstanding clauses 4.c. and 4.d. of The Curriculum under the Regulations for the General Degree of Bachelor of Commerce (Co-operative), students in the Bachelor of Commerce (Co-operative) program who are concurrently completing the Bachelor of Arts degree will be permitted to make the following adjustments to those clauses:

1. clause 4.c. - no fewer than 15 credit hours, but no more than 36 credit hours, in Business electives which must be chosen from Table 3 Business Electives.

2. clause 4.d. - no fewer than 12 credit hours, but no more than 33 credit hours, in elective courses chosen from the Faculty of Arts.

These adjustments to the normal curriculum will only be permitted for students who are graduating with the Bachelor of Commerce (Co-operative) degree and the Bachelor of Arts degree at the same convocation. In order to meet all of the requirements of both degree programs at the same time, students who are completing the joint degrees are strongly advised to follow Table 2 Bachelor of Commerce (Co-operative) Curriculum (Completed Jointly with the Bachelor of Arts).

**Notes:**

1. The Bachelor of Arts requires completion of a Major program, a Minor program, a set of Core Requirements, and elective courses, totalling at least 78 credit hours in courses offered by departments within the Faculty of Arts (or Computer Science, Mathematics and Statistics, and Psychology). When the Bachelor of Arts is completed jointly with the Bachelor of Commerce (Co-operative):
   a. Minor program requirements are satisfied by BUSI courses specified in **Table 1 Bachelor of Commerce (Co-operative) Curriculum** above.
   b. Core requirements for English and Numeracy/Science are satisfied by courses completed in Terms A/B or during Terms 1 or 2 of the Bachelor of Commerce (Co-operative) degree.
   c. It is recommended that the Core Requirement for 6 credit hours in courses in a second language be completed in Terms A/B of the Bachelor of Commerce (Co-operative) degree.
   d. Core requirements for 6 credit hours in research/writing courses may be satisfied by including two such courses within the 78 credit hours in courses offered by departments within the Faculty of Arts. Please consult the **Undergraduate Registration Procedures** to determine research/writing course offerings in any given semester.
   e. Major requirements for the Bachelor of Arts may be satisfied in 36 to 45 credit hours, depending on the department or program chosen. Students are strongly recommended to seek advice from the department or program of their Major to ensure that their proposed degree program is possible within the constraints of course scheduling and prerequisites.

2. Students are advised that, in order to complete the joint degrees within the minimum 150 credit hours, they must complete at least five of the courses required for the Bachelor of Arts as opportunities arise and as courses are offered. These courses may be completed during the Spring semesters between Terms A/B and Term 1, between Terms 2 and 3, or during any of the three Work Terms (for example, in the evening or by distance), or as sixth courses during any of the academic terms (following submission of a course load waiver).

3. To meet the requirements for the Bachelor of Commerce (Co-operative), not fewer than 15 and not more than 36 credit hours in BUSI electives.
5.2.4 Minor or Cognate From Another Academic Unit

1. A student enrolled in the Bachelor of Commerce (Co-operative) program may, using all of the non-Business electives required in the curriculum, complete a minor within the Faculty of Arts, the Faculty of Science, the School of Music, or offered at Grenfell Campus. Regulations for the minor are given under the Calendar entries for the Faculty of Arts, the Faculty of Science, and the School of Music, and under the Calendar entry for Grenfell Campus.

2. A student enrolled in the Bachelor of Commerce (Co-operative) program may pursue a minor (or equivalent) in other non-Business academic units (where minor programs exist) with permission of that academic unit and permission of the Committee on Undergraduate Studies of the Faculty of Business Administration.

5.2.5 Examination and Promotion for the Bachelor of Commerce (Co-operative)

1. The Faculty Council of the Faculty of Business Administration constitutes the examining body for all examinations in Business courses. In addition, the standing of every student will be assessed by the Committee on Undergraduate Studies in accordance with the promotion requirements outlined in Clauses 2., 3., and 9. below.

2. Students in Terms A/B will be considered for promotion to Term 1 at the end of the Winter semester of their first year. At that time, for promotion from Terms A/B, students must have successfully completed the 30 credit hours prescribed in 3. of The Curriculum above, with an overall average on those 30 credit hours of at least 65%. Students who do not satisfy these requirements will be required to withdraw from the program and will not be promoted to Term 1.

Students who have been required to withdraw following Terms A/B may be considered for readmission in accordance with the entry under Admission Modes and Requirements above, with the heading Advanced Admission (for Current Memorial University of Newfoundland Students).

A required withdrawal for failure to meet the promotion requirements from Terms A/B will not be reflected on a student’s transcript.

3. For promotion from each of Terms 1 through 7, the requirements are the achievement of a passing grade in at least 12 credit hours and an overall average of at least 60% in those courses required in each academic term. Students in an academic term who do not maintain the appropriate course load as outlined in Clause 2. of The Curriculum, and who do not have the prior approval of the Committee on Undergraduate Studies for a reduced course load, will be required to withdraw from the program and will not be promoted.

Students completing Terms 1 through 7 who fail to achieve these standards will be required to withdraw from the program. A required withdrawal from any of Terms 1 through 7 will be reflected on a student’s transcript.

Students who meet the academic promotion requirements above but who fail a core course in any of Terms 1 through 7 will be required to successfully repeat that course prior to graduation. Students who meet the promotion requirements above but who fail an elective in any of Terms 1 through 7 will be required to either successfully repeat that elective or successfully complete an additional elective to replace it prior to graduation.

4. The Committee on Undergraduate Studies of the Faculty of Business Administration may promote a student notwithstanding promotion requirements listed in Clause 3. above. A decision of this nature will be made only for reasons acceptable to the Committee on Undergraduate Studies, and in the case of a student thought likely to succeed in future terms.

5. Students who have been required to withdraw following any one of Terms 1 through 3 may be considered for readmission after the lapse of two semesters, at which time they will normally be required to repeat the term which they failed, unless, in the opinion of the Admissions Committee, Faculty of Business Administration, a more meaningful course of study would be appropriate, or they may be considered for readmission to the program in accordance with the entry under Admission Modes and Requirements, Advanced Standing (for Current Memorial University of Newfoundland Students). Students who have been required to withdraw following any one of Terms 4 through 7 may be considered for readmission after the lapse of two semesters, at which time they will normally be required to repeat the term which they failed, unless, in the opinion of the Admissions Committee, Faculty of Business Administration, a more meaningful course of study would be appropriate.

In order to be considered for readmission, students must formally apply for readmission to the program not later than the deadlines specified in the University Diary for the semester in which they wish to recommence their program.

6. The dates for starting and finishing each work term are shown in the University Diary. Successful completion of the work term requirements is a prerequisite to graduation.

7. A competition for work term employment is organized by Business Co-operative Education.

Students may obtain their own work term jobs outside the competition. Such jobs must be confirmed by letter from the employer and approved by Business Co-operative Education on or before the first day of the work period.

By entering the competition, students give permission for Business Co-operative Education to supply their university transcripts to potential employers.

8. A work report on a topic approved by Business Co-operative Education must be submitted for each work term. This report must be approved by the employer and submitted to Business Co-operative Education on or before the deadline scheduled by Business Co-operative Education. Evidence of the student’s ability to gather material relating to the report, analyse it effectively, and present it in a clear, logical and concise form, will be required in the report. Late reports will not be graded unless prior permission for a late report has been given by Business Co-operative Education.

9. The overall evaluation of the work term is the responsibility of Business Co-operative Education. The work term shall consist of two components:

Student performance as evaluated by a co-ordinator, given input from the employer, and a work report graded by a co-ordinator or a member of faculty.

Evaluation of the work term will result in the assignment of one of the following final grades:

a. Pass with Distinction: Indicates EXCELLENT PERFORMANCE in both the work report and work performance. The student is commended for his/her outstanding performance in each of the required components; pass with distinction has been awarded to each of the work report and work performance.

b. Pass: Indicates that PERFORMANCE MEETS EXPECTATIONS in both the work report and work performance. The student fully meets the requirements of a passing work report and completely satisfactory work term performance.

c. Fail: Indicates FAILING PERFORMANCE in the work report and/or the work performance.
To be considered for admission to the Diploma Program in Business Administration, applicants must normally have satisfied the Regulations for the Diploma in Business Administration.

Course prerequisites for all courses shall apply to all courses in the Certificate in Business Administration. Students should note, for example, that Mathematics 1000 is a prerequisite and Statistics 2500 is a corequisite for BUSI 2400. It should be noted that some courses are not offered every semester.

An applicant for the Honours Degree who fails to fulfill the conditions of Clauses 3., 4., and 5. but fulfills the requirements for a General Co-operative Degree shall be awarded the General Degree of Bachelor of Commerce (Co-operative).

To be eligible for the Certificate in Business Administration, a student must have been admitted to the Certificate Program;

b. successfully complete the following 30 credit hours:

i. Six credit hours in English which must include English 1110 or 1021;

ii. BUSI 1000, 1101, 1210, 1600, 2010;

iii. Three of the following: Economics 2010, Economics 2020, BUSI 2101, 2210, 2400, 2710, 3310, 3401, 3700, 4000, 4320, 4330, and 4500.

c. achieve an overall average of at least 60% in the courses that comprise the 30 credit hours specified in clause 3.b. A student failing to meet this requirement will be required to repeat one or more courses to raise the overall average to the minimum acceptable level.

d. Every candidate for the Certificate in Business Administration will be required to complete at least 15 credit hours at this University. The courses comprising these credit hours must be applicable to the Certificate in Business Administration.

5.3 Regulations for the Certificate in Business Administration

The courses comprising these credit hours must be applicable to the Certificate in Business Administration.

5.4 Regulations for the Diploma in Business Administration

To be considered for admission to the Diploma Program in Business Administration, applicants must normally have satisfied the following requirements:

a. Successful completion of 15 academic credit hours as follows:

i. Six credit hours in English which must include English 1110 or 1021;

ii. Mathematics 1000;

iii. BUSI 1000;

iv. Three credit hours of non-Business electives.

Only students with an overall average of at least 60% in the courses comprising the 15 credit hours required will be considered for admission to the program.

Overall academic performance is an important criterion in reaching decisions on applications for admission, and will be considered, in addition to the average on the five courses required for admission, in the selection process. Students with weak overall academic records are unlikely to be admitted.

b. At least five years of full-time work experience, or equivalent, that is deemed acceptable by the Admissions Committee of the Faculty of Business Administration.
In the case where students have been required to withdraw from one of the Faculty’s other undergraduate programs, the Admissions Committee of the Faculty may consider this circumstance as grounds to deny admission.

2. To be eligible for the Diploma in Business Administration, a student must:
   a. have been admitted to the Diploma Program;
   b. successfully complete the following 45 credit hours in addition to the 15 credit hours required for admission (a total of 60 credit hours):
      i. Economics 2010 and 2020;
      ii. Statistics 2500 or equivalent;
      iii. BUSI 1101, 1210, 1600, 2400, 2710, 3310, 4000, and 4500;
      iv. Four of the following, one of which must be either BUSI 4320 or 4330: BUSI 2010, 2101, 2210, 3401, 3700, 4050, 4320, and 4330.
   c. Achieve an overall average of at least 60% in the courses which comprise the 45 credit hours specified in clause 2. b. A student failing to meet this requirement will be required to repeat a course(s) to raise the overall average to the minimum acceptable level.
   d. Successfully complete a comprehensive case analysis with report (BUSI 450W). BUSI 450W will not be required of students who complete BUSI 4050 from the list in 2.b.iv. above.
   e. Students planning to pursue their Bachelor of Business Administration (see Regulations for the General Degree of Bachelor of Business Administration (B.B.A.)) are encouraged to note the prerequisites for BUSI 7000 and to plan their courses so that they have completed the prerequisites prior to the semester in which they plan to take BUSI 7000.

3. a. Every candidate for the Diploma in Business Administration will be required to complete at least 30 credit hours at this University. The courses comprising these credit hours must be applicable to the Diploma in Business Administration.
   b. Every candidate for the Diploma in Business Administration, who has completed a Bachelor’s degree at this University or another recognized university or university college, will be required to complete at least 30 credit hours at this University beyond those required for that degree. The courses comprising these credit hours must be applicable to the Diploma in Business Administration.

5.4.1 Continuance Regulations
1. The Faculty Council of the Faculty of Business Administration constitutes the examining body for all examinations in Business courses. In addition, the standing of every student will be assessed by the Committee on Undergraduate Studies in accordance with the continuation requirements outlined in 2. below.
2. Students must qualify for continuation after each term of study. To continue, students must have an overall average of at least 60% over their last ten courses taken. In the event that a student has more courses than needed in the earliest term used, the courses with the highest grades in that term will be used.
3. Students who fail to achieve the standards outlined in 2. above normally will be required to withdraw from the program. They may be considered for readmission after a lapse of two semesters. In order to be considered for readmission, students must formally apply for readmission.
4. Students who are required to withdraw a second time are not eligible for readmission into the program.
5. The Committee on Undergraduate Studies of the Faculty of Business Administration may allow a student to continue who fails to achieve the standards outlined in 2. above. A decision of this nature will be made only for reasons acceptable to the Committee on Undergraduate Studies.

5.5 Regulations for the General Degree of Bachelor of Business Administration (B.B.A.)

5.5.1 The Curriculum
1. To be admitted to the B.B.A. program, students should select the B.B.A. program on their Undergraduate Application for Admission/Readmission to the University or on the Declaration/Change of Academic Program Form.
2. To graduate with the B.B.A., candidates must successfully complete the following 120 credit hours with a Grade Point Average on those 120 credit hours of at least 2.5 and a numeric average on those 120 credit hours of at least 60%:
   a. Six credit hours of English which must include English 1110 or 1021;
   b. Mathematics 1000;
   c. Economics 2010 and 2020;
   d. Statistics 2500;
   e. Business 1000, 1101, 1210, 1600, 2101, 2210, 2400, 2710, 3310, 3401, 3700, 4000, 4050, 4320, 4330, 4500, 5301, and 7000. Students are encouraged to note the prerequisites for 7000 (Strategic Management 2) and to plan their courses so that they have completed the prerequisites prior to the semester in which they plan to take 7000.
   f. 45 credit hours of electives, of which not more than 21 credit hours may be from Business courses (which must be chosen from Table 3 Business Electives).

5.5.2 Minor or Cognate From Another Academic Unit
1. A student enrolled in the B.B.A. program may complete a minor within the Faculty of Arts, the Faculty of Science, the School of Music, or from Grenfell Campus. Regulations for the minor are given under the Calendar entries for the Faculty of Arts, the Faculty of Science, the School of Music, and Grenfell Campus.
2. A student enrolled in the B.B.A. program may pursue a minor (or equivalent) in other non-business academic units (where minor programs exist) with permission of that academic unit and permission of the Committee on Undergraduate Studies of the Faculty of Business Administration.

5.6 Regulations for the Honours Degree of Bachelor of Business Administration
An Honours degree of Bachelor of Business Administration signifies superior academic achievement. The difference between a First
Class General B.B.A. Degree and an Honours B.B.A. Degree is that for a First Class B.B.A., a candidate must obtain a grade point average of at least 3.5 on the best 120 credit hours which meet curriculum requirements, and for an Honours B.B.A., a candidate must obtain a grade point average of at least 3.5 on the earliest attempt at courses which meet curriculum requirements.

1. To be considered for an Honours degree, a candidate must so indicate on the University's official Application for Graduation form. This form may be obtained online at www3.mun.ca/admit/twbkwbs.P_WWWLogin. Additional information is available from the Office of the Registrar at www.mun.ca/regoff/graduation/apply_grad.php.

2. A candidate for the Honours Degree of Bachelor of Business Administration shall:
   a. comply with all regulations governing the General Degree of Bachelor of Business Administration, and
   b. obtain at least a 75% average and a grade point average of at least 3.5 on the courses prescribed in The Curriculum. Candidates are not permitted to repeat or substitute courses for the purpose of meeting these criteria. In the case of a student who has repeated courses and/or who has completed more than 120 credit hours at the time of application for graduation, applicable courses will be taken in chronological order rather than in order of grade in calculating these averages. This may mean that failed courses will be used in calculating this grade point average even when the courses were later repeated and passed or, in the case of electives, replaced with other courses later in a candidate's academic career.

3. A declared candidate for an Honours degree who fails to fulfill the conditions of clause 2. but fulfills the requirements for a General degree shall be awarded the General Degree of Bachelor of Business Administration.

5.7 Regulations for the General Degree of International Bachelor of Business Administration (i.B.B.A.)

5.7.1 General Regulations

1. The International Bachelor of Business Administration (i.B.B.A.) program requires a total of 120 credit hours with a minimum average of 65% on those 120 credit hours.

2. In this program, students are expected to gain knowledge of and to experience the cultural and business environment of a global region other than their home, or primary region. In order to achieve this bi-cultural knowledge and experience, students must nominate a second global region on which to focus in their program. The choice of the second region will affect the choice of courses to meet the Bi-Cultural Global and Regional Content and the Cross-Cultural Study Experience requirements.

3. The program includes a compulsory, approved, full-time cross-cultural study experience as outlined in the Cross-Cultural Study Experience regulations.

5.7.2 Admission Requirements

1. Normally, admission is offered for the Fall Semester. The deadline for admission or readmission is March 1. Students applying for admission to the i.B.B.A. must submit the Faculty of Business Administration Application For Admission to the Office of the Registrar on or before this deadline. Where circumstances permit, applications will be considered for the Winter and Spring Semesters. The deadlines for admission or readmission are specified in the University Diary.

2. Students who are seeking admission for the Fall Semester normally must have completed all the courses required for admission by the end of the Winter Semester.

3. Applications received after the deadline will be considered only if a space is available in the program.

4. To be eligible for Admission to the i.B.B.A. program an applicant must have successfully completed the Pre-i.B.B.A. program (see The Curriculum, clause 1, below) with an average on those courses of at least 65%, or the equivalent at another recognized post-secondary institution. Students who are transferring from other universities must apply for admission to the University on or before the deadlines specified in the University Diary for the semester in which they intend to begin their program, to allow sufficient time for the evaluation of transfer credits.

5. Admission is competitive and selective. Therefore, prospective students are encouraged to consider an alternate degree program in the event that they are not accepted into the International Bachelor of Business Administration program.

6. The primary criterion used in reaching decisions on applications for admission is overall academic achievement. Selection, therefore, will be based on a student's overall academic performance in addition to the average on the 30 credit hours required for admission. Students with weak overall academic records are unlikely to be admitted.

7. In the case where an applicant has been required to withdraw from one of the Faculty's other Undergraduate programs, the Admissions Committee of the Faculty may consider this circumstance as grounds to deny admission.

5.7.3 The Curriculum

1. The i.B.B.A. program includes the following 30 credit hours that comprise the Pre-i.B.B.A. program:
   a. Six credit hours of English which must include English 1110 or 1021;
   b. Mathematics 1000;
   c. Economics 2010 and 2020;
   d. BUSI 1000;
   e. Political Science 2200;
   f. Nine additional credit hours in non-BUSI courses. It is strongly recommended that students take into account the Bi-Cultural Global and Regional Content requirement outlined below when choosing these additional 9 credit hours of study.

2. In addition to the Pre-i.B.B.A. program requirements, the curriculum shall consist of the successful completion of:
   a. Thirty-nine credit hours consisting of: Statistics 2500 and BUSI courses 1101, 1210, 2010, 2101, 2400, 3310, 3401, 3700, 4000, 4320, 4500, and either 7000 or 7005.
   b. Fifteen credit hours of international business related courses, which must include:
      i. BUSI 5302 and either Economics 3030 or BUSI 6550; and
      ii. any three from: BUSI 6311, BUSI 7005 (if not completed to fulfill 2.a.i above), BUSI 7240, BUSI 6550 (if not completed to fulfill 2.b.i above), BUSI 6040, Economics 4030, or Political Science 3250 or any other approved course with an international focus.

Pre-requisites for all courses shall apply to the i.B.B.A. program. Students should note, for example, that the pre-requisites for BUSI 7000 include BUSI 4050 and BUSI 5301, which are not program requirements for the i.B.B.A.
c. Thirty-six further credit hours, of which at least 12 must be in non-BUSI courses. Students should take into account the Non-
business Elective Courses regulations under the Bi-Cultural Global and Regional Content when choosing these 12 credit 
hours of non-business electives.
d. It is recommended that students choose their elective courses so that their overall program contains at least one group of four or 
five courses within a chosen functional area or specialization or minor.

3. Students shall complete an approved Cross-Cultural Study Experience, as outlined below. Courses taken by distance education 
from Memorial University of Newfoundland may not be used to satisfy the Cross-Cultural Study Experience requirement.

4. For graduation, a student must be enrolled in the i.B.B.A. program, and have completed the 120 credit hours required with a 
minimum average of 65% on those 120 credit hours.

5.7.4 Bi-Cultural Global and Regional Content
Courses chosen to meet the above requirements must have coherent, bi-cultural, global and regional content as outlined in Regulations 
for the General Degree of International Bachelor of Business Administration (i.B.B.A.), General Regulations. The choice of 
regions will affect the choice of non-BUSI elective courses as well as the choice of location and content of the cross-cultural study 
experience. Students must consult with the Undergraduate Programs Office of the Faculty of Business Administration when selecting 
courses to satisfy the bi-cultural global and regional content requirement to ensure that the selected courses will fulfill the requirement.

5.7.4.1 Non-business Elective Courses
1. Students must complete a minimum of 21 credit hours of non-business elective courses with coherent, bi-cultural, global and/or 
regional content. These courses must include:
   a. at least 6 credit hours with a specific regional perspective of the student’s home, or primary region;
   b. at least 6 credit hours with a specific regional perspective of the student’s second global region. The study of a regional 
      language may be used to meet this requirement; and
   c. students planning to undertake their cross-cultural study experience where English is not the main language must complete 6 
      credit hours of study of the relevant language prior to undertaking the cross-cultural study experience.

5.7.4.2 Cross-Cultural Study Experience
1. The cross-cultural study experience provides an opportunity for students to immerse themselves in the culture, business 
environment, and language of their second global region in the context of the skills gained in the i.B.B.A. program. Students must 
submit a rationale in support of their choice of a location for their cross-cultural study experience. The rationale should indicate:
   a. how the location supports the chosen second region;
   b. how the location uses and builds on prior coursework and prior education, employment, and personal experiences; and
   c. the courses to be completed on the cross-cultural study experience.
2. The Cross-Cultural Study Experience must be approved by the Undergraduate Programs Office before it can begin.
3. To ensure that students obtain regional perspectives and skills different from those to which they were exposed in their previous 
education, an approved cross-cultural study experience must include:
   a. at least 9 credit hours with specific regional content
   b. at foreign language locations, at least 3 of the credit;
   c. at foreign language locations, at least 3 of the 9 credit hours above must be study of a regional language; and
   d. It is recommended that students choose their elective courses so that their overall program contains at least one group of four or 
five courses within a chosen functional area or specialization or minor.
4. Notwithstanding the General Regulations above and the Continuance Regulations below, a student may be held back from 
participating in the Cross-Cultural Study Experience if the student has not completed at least ten courses since admission to the 
i.B.B.A. program or has not completed a course load of 15 credit hours with a semester average of at least 65% in a single 
semester. A student who is prevented from starting the Cross-Cultural Study Experience for either of these reasons will be permitted 
to participate in the Cross-Cultural Study Experience once the student has met these criteria.
5. Students must normally have completed at least 72 credit hours of the program prior to commencement of the Cross-Cultural Study 
Experience.
6. Students should note that graduation may be delayed if they commence the Cross-Cultural Study Experience in the final semester of 
their program because of delays in receiving official transcripts from partner institutions.
7. Students must successfully complete either at least 12 credit hours in a single semester, or at least 9 credit hours in each of three 
semesters, while on the cross-cultural study experience.
8. For the Cross-Cultural Study Experience, courses regarded as having specific regional content would include languages, regional 
studies and other cross-cultural courses as well as approved courses in Economics and Business.

5.7.5 Minor From Faculty of Arts
A student enrolled in the i.B.B.A. program may both meet the requirements of the degree and be able to complete a minor within the 
Faculty of Arts. Regulations for the minor are given under the Calendar entries for the Faculty of Arts.

5.7.6 Continuance Regulations
1. The Faculty Council of the Faculty of Business Administration constitutes the examining body for all examinations in Business 
courses. In addition, the standing of every student will be assessed by the Committee on Undergraduate Studies in accordance with 
the continuation requirements outlined in 2. and 3. below.
2. Following entry to the program, i.B.B.A. students must qualify for continuation after each term of study. For continuation, students 
must have an overall average of 65% over their last ten courses taken. In the event that a student has more courses than needed in 
the earliest term used, the courses with the highest grades in that term will be used.
Students who fail to achieve these standards will be required to withdraw from the program. They may be considered for 
readmission after a lapse of two semesters. In order to be considered for readmission, students must formally apply for readmission. 
A required withdrawal for failure to meet Continuance Regulations in the i.B.B.A. program will be reflected on a student’s 
transcript.
3. Students who are required to withdraw from the program a second time are not eligible for readmission into their program.
4. The Committee on Undergraduate Studies of the Faculty of Business Administration may allow a student to continue who fails to achieve the standards outlined in 2. above. A decision of this nature will be made only for reasons acceptable to the Committee on Undergraduate Studies.

5.8 Regulations for the Honours Degree of International Bachelor of Business Administration

An Honours degree of Bachelor of International Business Administration signifies superior academic achievement.

1. To be considered for an Honours degree, the candidates must so indicate on the University’s official Application for Graduation form. This form may be obtained on-line at the Memorial Self Service at www3.mun.ca/admit/twbkwbsis.P_WWWLogin. Additional information is available from the Office of the Registrar at www.mun.ca/regoff/graduation/apply_grad.php.

2. Candidates for the Honours Degree of International Bachelor of Business Administration shall:
   a. comply with all regulations governing the General Degree of International Bachelor of Business Administration, and
   b. obtain at least a 75% average and a grade point average of at least 3.5 on the 120 credit hours completed for the degree.

3. Candidates are not permitted to repeat or substitute courses for the purpose of meeting the academic standing specified in Clause 2. In the case of a student who has repeated courses and/or who has completed more than 120 credit hours at the time of application for graduation, applicable courses will be taken in chronological order rather than in order of grade in calculating 2.b. above.

4. A declared candidate for an Honours degree who fails to fulfil the conditions of Clause 2 but fulfils the requirements for a General degree shall be awarded the General Degree of International Bachelor of Business Administration.

6 Business Concentrations

Students completing degrees in the Faculty of Business Administration may choose to complete their Business electives in a number of different areas or to concentrate in one of the areas outlined below. In either case, students must complete the required number of BUSI and non-BUSI electives outlined in the program regulations for the degree in which they are enrolled; BUSI electives must be chosen Table 3 Business Electives. A concentration provides students with the opportunity to focus their studies in one of the following areas. Particular attention should be paid to necessary prerequisites when scheduling courses. Students enrolled in Study Abroad programs should consult with the appropriate Faculty of Business Administration Area Group Coordinator regarding the applicability of courses taken while studying abroad to their chosen concentration. Students pursuing programs other than the Bachelor of Commerce (Co-operative) should note that certain concentrations might require them to take additional courses beyond those required for the degree. Please note that these concentrations are neither binding nor official. Students are not required to complete a concentration and even if they do, it is not reflected on their transcripts or degree parchments.

6.1 Accounting

Students electing an Accounting concentration should complete the following courses:
BUSI 5160, BUSI 5500, BUSI 6100, BUSI 6110, BUSI 6120, BUSI 6130, BUSI 7120, BUSI 7125, and BUSI 7160.

6.2 Finance

Students electing a Finance concentration should complete the following courses:
1. BUSI 5500, BUSI 6100, BUSI 6110, BUSI 6510, BUSI 7010, BUSI 7500, and BUSI 7510; and
2. any two of the following courses: BUSI 6120, BUSI 6130, BUSI 6550, BUSI 7120, BUSI 7150, or Economics 3150.

6.3 Human Resources and Labour Relations

Students electing the Human Resources and Labour Relations concentration should complete the following courses:
1. BUSI 6310, BUSI 6320, BUSI 7310, BUSI 7322; and
2. any four of the following: BUSI 6301, BUSI 6311, BUSI 6312, BUSI 6330, BUSI 7315, BUSI 7320, BUSI 7321, BUSI 7330, or Economics 3360.

6.4 Information Systems

Students electing an Information Systems concentration should complete the following courses:
1. Six of BUSI 5700, BUSI 5701, BUSI 5702, BUSI 5703, BUSI 6700, BUSI 6701, BUSI 7700, and BUSI 7701; and
2. a. either Geography 2195, Geography 3260, and one of Geography 3202, Geography 4202, Geography 4261
   b. or three of the following: Computer Science 1710, Computer Science 2500, Computer Science 2710, Computer Science 2760, Computer Science 3710, Computer Science 3715, Computer Science 4761, Computer Science 4767.

6.5 International Business

Students electing an International Business concentration should complete the following eight courses, of which at least five should be from the Faculty of Business Administration:
1. BUSI 5302, Political Science 2200 and either BUSI 6550 or Economics 3030; and
2. any five of the following: BUSI 6040, BUSI 6311, BUSI 6330, BUSI 6550, BUSI 7005, BUSI 7240 and other courses with global or regional business content selected in consultation with the Coordinator of the i.B.B.A. program. These may include courses taken as part of an approved Study Abroad program (up to a maximum of 9 credit hours).
6.6 Marketing
Students electing a Marketing concentration should complete the following courses:
1. BUSI 3210, BUSI 5220, and BUSI 7230; and
2. any three of the following: BUSI 5210, BUSI 5217, BUSI 6217, the former BUSI 6218, BUSI 6230, BUSI 6241, BUSI 6250, BUSI 7240, or the former BUSI 7250.

6.7 Operational Research
Students electing a Operational Research concentration should complete the following eight courses:
1. BUSI 5401, BUSI 5402, BUSI 6400, and BUSI 7400; and
2. any four of: Computer Science 1710, Computer Science 2710, Mathematics 1001, Mathematics 2050, and any Business Information Systems course (or courses) at the 5000 level or above.

6.8 Resource-Based Industries Management
Students electing a Resource-Based Industries Management concentration should complete the following courses:
1. BUSI 5000, BUSI 5020, BUSI 5302, BUSI 5500, BUSI 7010, and BUSI 7410; and
2. any three of the following courses: BUSI 5250, BUSI 6040, BUSI 6410, BUSI 6415, BUSI 7322, BUSI 7500, BUSI 7510, Economics 3080, Economics 4090, Engineering 8671, Geography 2425, Geography 3425, Political Science 3210, Political Science 3250, Sociology 4091, and Sociology 4104; at least one of which must be chosen from Economics 3080, Economics 4090, Engineering 8671, Geography 2425, and Geography 3425.

Students completing the Bachelor of Business Administration program must either choose two courses from Economics 3080, Economics 4090, Engineering 8671, Geography 2425, Geography 3425, Political Science 3210, and Political Science 3250, or must complete a non-Business elective in addition to the courses required for their program in order to meet clause 2.f. under Regulations for the General Degree of Bachelor of Business Administration (B.B.A.), The Curriculum.
Students considering choosing to complete Engineering 8671 must consult with the Undergraduate Programs Office, Faculty of Business Administration, regarding prerequisites.

6.9 Small Business/Entrepreneurship
Students electing a Small Business/Entrepreneurship concentration should complete the following courses:
1. BUSI 3610, BUSI 5220, BUSI 5600, BUSI 6605, BUSI 7010, and BUSI 7600; and
2. any three of the following: BUSI 6120, the former BUSI 6220, BUSI 6250, BUSI 6312, BUSI 6610, BUSI 7230, or BUSI 7240.

6.10 Supply Chain Management
Students electing a Supply Chain Management concentration should complete the following courses:
BUSI 5401, BUSI 5402, BUSI 6410, BUSI 6415, BUSI 7410, and BUSI 7415.
7 Business Electives

Only those courses listed below are acceptable as Business electives towards the Bachelor of Commerce (Co-operative), Joint Degrees of Bachelor of Commerce (Co-operative) and Bachelor of Arts, and Bachelor of Business Administration programs.

8 Waiver of Faculty Regulations

Any student has the right to request waiver of Faculty regulations. For further information refer to UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate) - Waiver of Regulations.

9 Appeal of Decisions

Any student whose request for waiver of Faculty regulations has been denied has the right to appeal. For further information refer to UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate) - Appeal of Decisions.

10 Course Descriptions

In accordance with Senate's Policy Regarding Inactive Courses, course descriptions for courses which have not been offered in the previous three academic years and which are not scheduled to be offered in the current academic year have been removed from the following listing. For information about any of these inactive courses, please contact the Dean of the Faculty.

All courses of the Faculty are designated by BUSI.

10.1 Service Course Descriptions

2000 Business Communications focuses on the development of written and oral communication skills critical in the workplace. The common communications media are reviewed with emphasis on electronic and written correspondence. Students learn how to prepare comprehensive analytical reports including proposal writing. Attention is also given to building confidence in delivering oral presentations and preparing appropriate employment packages. A highly interactive design encourages student practice and participation.

CR: BUSI 2010
UL: may not be used to fulfill any of the requirements of any of the programs of the Faculty of Business Administration including the minor, diploma and degrees.

2102 Introductory Accounting for Non-Business Students provides full introductory coverage of both financial and managerial accounting. The course focuses on the most widely used accounting theory and practice.

CR: BUSI 1101 or BUSI 2101
UL: may not be used to fulfill any of the requirements of any of the programs of the Faculty of Business Administration including the minor, certificate, diploma and degrees.

10.2 Core and Elective Course Descriptions

Enrolment in Business courses is limited and first priority will be given to students registered in the Faculty of Business Administration programs and to Business Minor Candidates who have obtained the approval of the Dean of the Faculty of Business Administration or delegate.

1000 Introduction to Business in Society (formerly BUSI 2001) introduces the basics of business and business corporations in society, in a real-world relevant manner. Particular attention is given to societal stakeholders and to
corporations’ internal business processes and management functions. Major emphases include corporate social responsibilities and management ethics, and these are recurring themes in other topics such as technology, globalization, and people in organizations. The course is a combination of textbook theory and guided learning activities and assignments based on finding and integrating real-world information.

CR: the former BUSI 2001

1101 Principles of Accounting emphasize the concepts and issues of accounting as they relate to the Canadian conceptual framework, and will also address the strengths and weaknesses of financial reporting at an introductory level. The student will be introduced to the accounting process and analysis of the balance sheet, income statement, and the statement of changes in financial position.

CR: BUSI 2102, the former BUSI 3100, the former BUSI 2100

1210 Introduction to Marketing Strategy introduces students to the concepts, analyses, and activities that comprise marketing strategy, and provides practice in assessing and solving strategic problems in marketing. The course is also a foundation for BUSI 2210 Introduction to Marketing Tactics, and for advanced electives in marketing. Topics include: marketing strategy, environmental analysis, competitive analysis, customer behaviour, marketing research, segmentation, targeting and positioning.

CR: the former BUSI 1201 or BUSI 2201 or BUSI 3200

PR: English 1110 or 1021, BUSI 1000

1600 Introduction to Entrepreneurship is an introductory course designed to give students a broad understanding of the field of entrepreneurship and the role that entrepreneurship plays in society. Topics will include the nature and role of entrepreneurs, and the characteristics and behaviours of entrepreneurs, and the entrepreneurial process in small and large firms. Students will get to think and act in a creative manner, obtain exposure to local entrepreneurs, assess their potential for entrepreneurial careers and develop attitudes and skills that will be useful in any organization. The course is also useful for those who will be dealing with smaller firms in the context of larger organizations and for those who will be working for entrepreneurs.

CR: BUSI 2000

PR: BUSI 1000, and English 1110 or 1021

2010 Business Research and Writing introduces students to research, writing, and reporting processes in business. Through ongoing, multi-stage evaluation, students learn the fundamentals of business research, including analytical thinking and proposal writing involving research using secondary sources. A key focus is the writing process, including grammar, punctuation, structure, flow, and format in common business communications media. Students also develop their oral presentation competence by presenting the results of their research. A highly interactive design encourages student practice and participation.

CR: BUSI 2101

2101 Managerial Accounting provides an overview of the use of financial data for managerial decision making. The student will be introduced to basic budgeting and analysis techniques for both service-oriented and manufacturing businesses.

CR: BUSI 2102, the former BUSI 4100

PR: BUSI 1101

2210 Introduction to Marketing Tactics introduces students to the concepts, analyses, and activities that comprise marketing tactics, and provides practice in making decisions about tactical problems in marketing. The course is also a foundation for BUSI 2210 Introduction to Marketing Tactics, and for advanced electives in marketing. Topics include: marketing strategy, environmental analysis, competitive analysis, customer behaviour, marketing research, segmentation, targeting and positioning.

CR: the former BUSI 1201 or BUSI 2201 or BUSI 3200

PR: BUSI 1210

2220 Personal and Business Branding with Social Media develops students’ ability to design and refine on-line personal brands and display brands through social media channels.

CR: the former BUSI 6004, the former BUSI 6042, and the former BUSI 6240

2400 Decision Modeling provides an introduction to: spreadsheet modeling, linear optimization and the related topics of integer, assignment, and transportation models; and decision analysis including payoff matrices, decision trees, and Bayesian revision. All topics will be taught within the context of business applications.

CO: Statistics 2500

CR: the former BUSI 4401

PR: Mathematics 1000

2710 Modeling and Implementing Business Processes introduces techniques for understanding and modeling business processes and implementing them in modern enterprise systems. Course work will be project-based; students will create small-scale business applications, including web-based applications, using current design and development methodologies and tools.

PR: BUSI 1000, and English 1110 or 1021

AR = Attendance requirement; CH = Credit hours are 3 unless otherwise noted; CO = Co-requisite(s); CR = Credit can be retained for only one course from the set(s) consisting of the course being described and the course(s) listed; LC = Lecture hours per week are 3 unless otherwise noted; LH = Laboratory hours per week; OR = Other requirements of the course such as tutorials, practical sessions, or seminars; PR = Prerequisite(s); UL = Usage limitation(s).

300W Business Professional Development Seminars expose students to both theoretical and practical aspects of co-operative education in general and the work term in specific prior to the first work term. The seminars will consist of workshops, guest lectures, discussions, and practical exercises to prepare students for their work terms. This course will be evaluated as PAS or FAL based on attendance, participation, and assignments.

AR: attendance is required

CH: 0

LC: as scheduled

3210 Consumer Behaviour (formerly BUSI 5200) deals with concepts related to factors which influence the purchase and consumption behaviour of individuals including culture, social class, reference groups, perceptions, learning, motivation, personality and lifestyle. The unique aspects of groups and organizational buyers will also be examined.

PR: BUSI 5200

CR: BUSI 2210 and any of: BUSI 2210, the former BUSI 2201, the former BUSI 3200

3310 Organizational Behaviour (formerly BUSI 2301 and 4300) focuses on the study of individual and group processes in formal organizations. The student is introduced to the nature of work, the systematic approach to the study of behaviour, organizational roles and socialization, motivation, leadership, communication, and group dynamics.

CR: the former BUSI 2301 and the former BUSI 4300

PR: English 1110 or 1021

3401 Operations Management teaches fundamental concepts, methods, tools, and techniques to understand, analyze, and effectively improve operations, as well as improve operations in business organizations. The course covers operations competitiveness and strategy, productivity, forecasting, capacity planning, material requirements planning, waiting lines analysis, project management, inventory management, quality control and its improvement, and supply chain management.

CO: BUSI 2701

CR: the former BUSI 6400

PR: Statistics 2500, and BUSI 2400 or the former BUSI 2401

3610 Regulatory and Taxation Issues for Small Business (same as the former BUSI 7610) is designed to provide students with a general knowledge base of the various tax and other regulatory issues that should be considered in starting a business. The role that tax plays in decision making will be examined as well as the types of corporate funding to establish a new business through government grants, conventional loans and tax credits as provided under the Income Tax Act. Alternative corporate structures will be examined as well as aspects of employee compensation and business valuations. Practical aspects of starting your own business, such as registration requirements, will also be examined. This course is designed for non-accounting students.

CR: the former BUSI 7610

PR: BUSI 1101

3700 Information Systems examines the operational and strategic importance of information systems in organizations. Topics include: types of systems; business requirements and information systems planning; approaches to acquiring information systems; managing information resources; and ethics, security and privacy issues in information management.

CR: the former BUSI 3701

PR: BUSI 1000, and English 1110 or English 1021

399W Work Term I (see description in Work Term Descriptions and course title section below.)

4000 Business Law I (formerly BUSI 3000) is a course dealing with the law relating to certain aspects of business activity; includes introductory material on the nature of law and legal processes, together with a detailed study of certain aspects of the law of contract, examination of the general principles of the law of agency as they affect business operations; introduction to selected topics in company and partnership law.

CR: the former BUSI 3000

4050 Strategic Management I introduces students to the strategic management approach. The course builds upon the knowledge and concepts developed in Business 1000 and prepares students for later management courses in their programs, especially Business 7000. Through experience and analysis in and of real or reality-based situations and issues, students will develop critical and integrative thinking and information literacy. Activity and action components of the strategic management process are the basis for student learning. The purpose of this course is to recognize the importance of situational analysis and strategy in the management process, including business functional and organizational integrative thinking, and decision-making regarding courses of action, resource allocation, and leadership.

CO: BUSI 4000 and 4330

PR: BUSI 1600, BUSI 2010, BUSI 2101, BUSI 2210, BUSI 2400, BUSI 3310, BUSI 3401, BUSI 3700

4320 Human Resource Management introduces the student to the design,
operation and management of HRM processes, their evaluation, and their contribution to employee and organization effectiveness. The principal processes considered are staffing, development, employment relations, and compensation. In consideration of the influential and external conditions on HRM is included. The course views the management of human resources as the joint responsibility of line and HRM managers.

PR: BUSI 3310 or the former BUSI 2301

4330 Introduction to Labour Relations (formerly BUSI 3320) provides an introduction to the field of industrial and labour relations in Canada, with primary emphasis on the labour-management relationship. Students will be introduced to the basic elements of an industrial relations system, including the participants, their roles and relationships, the social, economic, legal and political environment in which the participants interact, and the process and outcomes of collective bargaining. Students may be exposed to various role playing exercises that are applicable to industrial and labour relations.

CR: the former BUSI 3320
PR: English 1110 or English 1021

4500 Financial Management I is designed to introduce the student to the role of financial management in business, financial analysis techniques, working capital management, and long-term and short-term financing.

CR: Economics 3160, the former BUSI 4110
PR: BUSI 1101, Statistics 2500, and Economics 2010

450W Business Methodology in Practice I (see description in Comprehensive Case Analysis Descriptions and course title section below.)

499W Work Term (see description in Work Term Descriptions and course title section below.)

5000 Business Law II is designed to show the student how principles of Law are applied to four areas of Business. The areas dealt with in this course are accounting/finance, marketing, personnel and production.

PR: BUSI 4000

5020 Topics In Resource-Based-Industries Management enables students to engage with resource-based industry companies and agencies through working knowledge of the sector and its operations. Topics include: an overview of the oil and mining industries, regulation, social license concerns, human resources issues, procurement, and contracting. The course provides opportunities for student involvement with industry leaders and events through the use of guest speakers.

PR: BUSI 4050

5160 Cost Accounting (formerly BUSI 7100) deals with the use of accounting data for decision making. Topics covered include: cost estimation, pricing, joint costs, advanced variance analysis, total quality management, time, decentralization, transfer pricing, performance evaluations, activity based accounting, and backflush costing.

CR: the former BUSI 7100
PR: BUSI 2101 with a grade of at least 60%

5210 Marketing Communications (formerly BUSI 6210) provides a theoretical background on the nature, role and principles of marketing communications and decision-making skills and decision-making skills in marketing communications campaigns.

CR: the former BUSI 6210
PR: BUSI 2101 and any of: BUSI 2210, the former BUSI 2201, the former BUSI 3200

5217 Professional Selling provides a detailed introduction to and application of the principles of personal selling. The course introduces the basic concepts of professional selling, including customer analysis, communication skills, effective openings and closings, and customer relations. Selling skills and concepts are developed through the extensive use of sales exercises, role-plays and presentations.

CR: the former BUSI 6220
PR: BUSI 2101, BUSI 3210 and any of: BUSI 2210, the former BUSI 2201, the former BUSI 3200

5220 Marketing Research (formerly BUSI 6200) is designed to acquaint the student with the use of marketing research as an aid to management. This is a comprehensive survey of the scope and methods of marketing research.

CR: the former BUSI 6200
PR: Statistics 2500, BUSI 2101, BUSI 3210 and any of: BUSI 2210, the former BUSI 2201, the former BUSI 3200

5250 Business and Industrial Marketing (same as the former BUSI 7220 and the former BUSI 7250) presents a comprehensive view of business markets, including industrial, institutional, and government markets. There is a balanced approach to the study of industrial and labor and implementation of systems. Particular attention is given to organizational buying behaviour, relationship management, global competitiveness, and the marketing of new high tech products and services.

CR: the former BUSI 7220, the former BUSI 7250
PR: BUSI 2101, BUSI 3210 and any of: BUSI 2210 (the former BUSI 2201 or BUSI 3200)

5301 Organizational Theory (formerly BUSI 5300) focuses on the organization, its environment, and its subsystems. From providing a basic appreciation of the role and practice of research in organizations, study extends to measures of organizational effectiveness, determinants of structure and design, power and politics, intergroup conflicts and conflict resolution, and organizational development and change.

CR: the former BUSI 5300
PR: BUSI 3310 or the former BUSI 2301

5302 International Business (formerly BUSI 7302) is designed to introduce students to the issues of international business: these are the processes of cultural confrontation and compromise; the problems of competitive sovereignty involving multinational corporations and the governments of host societies, in which the participants interact, and the process and outcomes of collective bargaining. Students may be exposed to various role playing exercises that are applicable to industrial and labour relations.

CR: the former BUSI 7302
PR: BUSI 1000, Economics 2010 and Economics 2020

5401 Linear Optimization and Extensions I: Applications is more complex linear optimization models. Emphasis will be on formulation and computer-based sensitivity analysis, applications to other fields of business, cases in linear optimization and related fields.

PR: BUSI 2400 or the former BUSI 4401

5402 Linear Optimization and Extensions II: Algorithms include the simplex and revised simplex algorithms, sensitivity analysis and goal programming, advanced formulation of 0/1 models, branch and bound algorithm, network models: assignment, transportation, transshipment, shortest path, critical path, minimal spanning tree, and maximal flow.

PR: BUSI 2400 or the former BUSI 4401

5500 Financial Management (formerly BUSI 7140) is an extension of BUSI 4500. Capital investment decision making using discounted cash flow methodology; investments under certainty; financial structure and leverage; analysis of money and capital markets; further examination of long-term capital financing.

CR: the former BUSI 5140, the former BUSI 7140
PR: BUSI 4500 or the former BUSI 4110

5530 Public Finance (formerly BUSI 5100) recognizes the large role played by government in our society. Sources and uses of government funds at the federal, provincial and local levels will be covered. Intergovernmental fiscal federal and intergovernmental fiscal federal and local relations are examined with special emphasis on various incentive programs available to business from the three levels of government.

CR: the former BUSI 5100
PR: Economics 2010 and Economics 2020

5600 New Venture Creation (formerly BUSI 5030 and BUSI 7030) covers the business creation process from the idea conception stage to the launch stage. Students learn how to search for, screen and evaluate opportunities, and to plan and assemble the required resources, including the preparation of an actual business plan. Alternatives to new venture creation, such as pursuing an existing business and purchasing a franchise, are also explored. Extensive group work is required.

CR: the former BUSI 5030, the former BUSI 7030
PR: BUSI 1101, BUSI 1600, and BUSI 2210

5700 Information Systems Analysis and Design provides students with the skills to identify business problems which may be solved using information technology and related information systems (IS) solutions, and develop detailed designs which form the basis for implementing systems. Topics may include: role of the user in systems development, systems development life cycle, requirements analysis and conceptual modelling, structured analysis and design, and trends in systems development methodologies. The importance of CASE tools in modern systems development will be emphasized through hands-on exercises.

PR: BUSI 3700

5701 Information Systems Development - inactive course.

5702 Business Models and Strategy of Electronic Commerce (formerly BUSI 6027) examines business concepts, social issues, and technology issues related to e-commerce, as well as providing an introduction to current practices, opportunities and challenges in implementing e-commerce solutions. Topics include: business models associated with web-based commerce; security, privacy, and intellectual property issues; payment and distribution systems, internet marketing; and strategic and planning issues.

CR: the former BUSI 6027
PR: BUSI 3700

5703 Information Security, Privacy, and Ethics examines the use of information technology and related privacy, security, and ethical issues in the information age. Topics covered will include information and property rights and obligations; system quality; quality of life; accountability and system controls; behavioural factors that can lead to data loss; legal issues; and managerial responsibilities. The course examines these topics from
individual, society, and business perspectives.
PR: BUSI 3700

599W Work Term 3 (see description in Work Term Descriptions and course below).

6000-6029 (Excluding 6001, 6004, 6008, 6009, 6010, 6012, 6021, 6022, 6024 and 6027) Special Topics will have the topics to be studied announced by the Faculty.

6010 Strategic Management of Technology and Innovation is designed to explore the strategic management of technology and innovation for improving competitiveness and for business development. This will include market-strategy-technology connections, and technical innovation/new product development processes. Technology and technical innovation are viewed as fundamental to strategic competitiveness and business development as important elements of the management of strategic change in the business firm. In approaching technical innovation as strategic implementation, business environmental, organizational capability, human resources and management factors will be discussed.
PR: BUSI 3700, BUSI 4050, BUSI 4320, BUSI 4500, and BUSI 5301

6040 International Business Law develops the skills a business student must have in understanding the laws and regulations that exist and relate to international business decision making. The course will equip students with a knowledge and understanding of laws and regulations that currently prevail in international business operations.
PR: BUSI 4000

6041-6060 Special Topics Courses will have the topics to be studied announced by the Faculty.

6100 Intermediate Accounting I continues the study of financial accounting by focussing on specific topics such as current assets, long-term investments, capital assets, intangibles, current liabilities, and long-term liabilities. Emerging issues in accounting will also be covered.
PR: BUSI 1101 with a grade of at least 60%

6110 Intermediate Accounting II is designed to integrate the principles, concepts and skills acquired in previous accounting courses and to enhance the student's analytical and decision-making capabilities. The course will focus on issues related to deferred taxes, employee future benefit, shareholders' equity, and financial statement presentation. The skills acquired in earlier courses will be integrated for purposes of interpreting and analysing financial information.
PR: BUSI 1101 with a grade of at least 60%

6120 Taxation I is a determination of the federal and provincial income tax liability of individuals including such concepts as deductions, planning for individuals, and legal form and structures under the income Tax Act.
PR: BUSI 1101 or the former BUSI 3100, and BUSI 4000

6130 Auditing introduces the student to the practice of auditing and to stress the auditor's decision-making process when determining the nature and amount of evidence the auditor should accumulate. Specific topics to be covered include the auditor's legal liability, materiality, internal control, transaction cycles, and audit of information processed through electronic data processing systems.
PR: either BUSI 6100 with a grade of at least 60% or BUSI 6110 with a grade of at least 60%

6217 Salesforce Management examines the elements of an effective salesforce as a key component of the organization's total marketing effort. The course will apply theory relating to salesforce management from a manager's point of view. Topics include: sales process, the relationship between sales and marketing salesforce structure, territory design, use of technology to improve salesforce effectiveness, and issues in recruiting, selecting, training, motivating, compensating and retaining salespeople.
CR: the former BUSI 6220
PR: BUSI 2010, BUSI 3210, BUSI 5217 and any of: BUSI 2210 or the former BUSI 2201, the former BUSI 3200

6230 Services Marketing is intended to examine the marketing of services and the role of services in supporting the marketing of tangible products. The distinction between the marketing of tangibles and intangibles will be stressed. The course will identify and examine the distinct issues which are encountered in the marketing of services and will explore appropriate strategies for implementing services marketing programs, primarily in services industries, including: health, care, transportation, telecommunications, education, etc. Specifically, the course will examine in detail the role of people in delivering services, the importance of service quality as a strategic differentiating tool, and the importance of collaboration between marketing and human resources management in the delivery of services.
PR: BUSI 2010, BUSI 3210, and any of: BUSI 2210, the former BUSI 2201, the former BUSI 3200

6241 Digital Marketing is designed to acquaint students with Internet and other electronic based marketing efforts. It addresses the use of the Internet as a digital channel and communications medium.

6250 Retailing Management (formerly BUSI 7210) provides an integrative examination of the activities involved in marketing goods and services directly to the ultimate consumer. Specifically, the following areas will be examined within a managerial framework: the evolution of retailing; retailing within the marketing channel; market analysis and planning; shopping behaviour; image and retail advertising; trading area and site analysis; store layout; shelf space utilization; merchandising; and the future prospects for retailing.
CR: the former 7210
PR: BUSI 2010 and any of: BUSI 2210, the former BUSI 2201, the former BUSI 3200

6301 New Directions in Organizational Behaviour provides an opportunity for students to explore and to develop their interests in topics in a dynamic field. Topics will be selected according to current emphases in the organizational behaviour literature.
PR: BUSI 3310 or the former BUSI 2301, and BUSI 5301

6310 Advanced Human Resource Management reinforces the applied aspects of theory covered in BUSI 4320 by examining approaches to (a) the avoidance of lawsuits, arbitration and performance-related problems which could result from the lack of both due process and effective policies and procedures, and (b) processes for the management of contemporary issues in Human Resource Management. Topics include problem solving in the areas of promotion policy, performance appraisal, test validation, training and development, compensation, job evaluation and pay equity, wrongful dismissal, occupational health and safety, absenteeism, substance abuse and AIDS. Students will examine cases and other material involving worker-management conflict in the above areas and seek to relate these to the legal and ethical foundations of Human Resource Management in both unionized and non-unionized settings.
PR: BUSI 4320

6311 International Human Resources Management develops the skills a business student must have in understanding the processes and practices of international human resource management (HRM) for a successful managerial career. The course will equip students with a solid knowledge and understanding of human resource functions and practices that currently prevail in global international business operations.
PR: BUSI 4320

6312 Employee Recruitment and Selection (formerly BUSI 6022) is a crucial factor in creating high performance work systems. This course examines the role of selection in HRM, legal issues, measurement, selection criteria, job competencies, testing, and interviewing, and making the employment decision.
CR: the former BUSI 6022
PR: BUSI 4320

6320 Advanced Labour Relations provides advanced level treatment of the field of industrial and labour relations in Canada, with primary emphasis on the labour-management relationship. Emphasis is placed on understanding recent problems in industrial and labour relations, the range of options available for resolving these same problems. Topics examined may include: industrial relations theory; labour law reform; union growth and structure; management strategy; the role of third parties; alternative dispute resolution mechanisms; union avoidance of lawsuits, arbitration and performance-related problems which could result from the lack of both due process and effective policies and procedures, and (b) processes for the management of contemporary issues in Human Resource Management. Topics include problem solving in the areas of promotion policy, performance appraisal, test validation, training and development, compensation, job evaluation and pay equity, wrongful dismissal, occupational health and safety, absenteeism, substance abuse and AIDS. Students will examine cases and other material involving worker-management conflict in the above areas and seek to relate these to the legal and ethical foundations of Human Resource Management in both unionized and non-unionized settings.
PR: BUSI 4320 or the former BUSI 3320

6330 International Labour Relations (same as the former BUSI 6024) aims to place Canadian industrial relations in an international context by studying industrial relations in a number of different countries, bearing in mind the challenges faced by practitioners and policy makers arising from globalization and the information revolution. The review includes a selection of long established industrialized countries as well as later industrializing countries.
PR: the former BUSI 6024

6400 Advanced Management Science provides advanced level treatment of special topic(s) in Management Science, such as, waiting lines, stochastic dominance, stochastic dynamic programming, etc. The topic(s) to be covered in any particular year will be chosen by the Instructor and may vary from year to year.
PR: BUSI 5401 or BUSI 5402

6410 Logistics Management will focus on transportation, location, procurement and distribution aspects of logistics management, within local and global settings. A number of classical and latest models related to the focal areas would be introduced, and some real-life case examples discussed. The focus is on modes of transportation, transportation management, facility location, procurement and supplier selection, distribution strategies, and global logistics.
Supply Chain Management is about the management of the processes, assets, and flows of material and information required to satisfy customers’ demands. In this course, a few important supply chain drivers will be investigated in detail such as inventory, information, and pricing. Those drivers determine the performance of a supply chain. The understanding of these key drivers and their inter-relationships with strategy and other functions of the company are really crucial in the management of any supply chain.

International Finance examines the additional risks and profitable opportunities that arise for the firm when it extends its operations into international markets. Successful management of exchange rates, the international monetary system, balance of payments, the foreign exchange market, international money and capital markets, the parity conditions, accounting exposure, economic exposure, transactions exposure, political risk, and global financing. Knowledge of these topics areas will give further understanding with respect to operating within the constraints of the international marketplace.

Small Business Consulting introduces students to the nature of business consulting and the challenges associated with growth in small firms. The course draws upon knowledge from various functional areas and emphasizes complex and interdisciplinary applications of this knowledge in a real-world environment. Topics include market analysis and group dynamics of the executing process, problem diagnosis, managing the client relationship, research design, document preparation and ethics in consulting. Working in teams students will undertake a problem-solving project for a local organization. Students will not be permitted to register for the course after the first day of classes.

Small Enterprise and Regional Development (formerly BUSI 7031) explores the potential and constraints on efforts to foster small enterprise formation and growth as a means of promoting regional economic development. It critically examines government initiatives to promote small business as the panacea for depressed regional economies, and reviews changes in the global economy and the organization of production which may enhance small business competitiveness. Both Canadian and international cases are studied, with theoretical and empirical findings related to the Newfoundland context.

Data Management is based on the premise that data is a valuable resource which needs to be managed effectively to provide accurate, complete, timely, relevant, and accessible information to support decision making. Topics may include: enterprise data modeling, logical database design, database management systems, query languages, transaction management and concurrent access, and security.

Information Technology Management examines issues of managing information systems and technology. Topics may include: success and failure in IS implementation, IS planning, economics of IS, telecommunication networks, IS project management, and legal and ethical issues.

Strategic Management 2 emphasizes concepts of strategic management and strategy in various contexts and situations covering corporations and businesses, and other institutions or organizations and their purposeful activities. Through in-depth analysis of reality-based situations and strategic issues, students will develop their situational orientation, and further develop their applied, investigative critical thinking and information search skills. Further, students will be expected to develop their decision-making ability in the contextual and situational analysis of corporations/businesses and institutions/purposeful activities, and in corresponding strategy formulation and planning for strategy implementation. Student learning activities may be based on published business cases, simulation exercises, business simulation exercises, and information search projects. Learning outcomes also may include research and information search methodologies and information literacy, and good writing.

International Strategic Management (same as the former BUSI 6012) examines corporate strategy and strategic management in enterprises whose interests extend across national boundaries. International business managers and consultants must be able to formulate business strategy in environments that are affected by different politics, cultures, laws, economics, among other factors. The adept international business strategist needs to be at home in one or more international environments and needs to be capable of addressing issues through a multidisciplinary prism. This course strives to help students to develop such an edge by providing an opportunity to acquire the knowledge and skills necessary to understand and make strategic decisions in the international business environment.

Business and Society examines the inter-relationships among business, government, society and the environment. Topics include: the role of business in the social, economic, and political arenas; business ideologies, social responsibilities of business, business ethics, stakeholder and issues management, and selected current issues in business.

Accounting Theory deals with the theoretical issues of specific topics such as the accounting standard setting process, the conceptual framework, assets, liabilities, revenues, expenses, for-profit organizations, related party transactions, and financial statement presentation and disclosure. Considerable emphasis will be given to learning outcomes correspondence strategy formulation and planning for strategy corporations/businesses and institutions/purposeful activities, and in developing marketing strategies. The course will focus on: market analysis, pricing. Those drivers determine the performance of a supply chain. The understanding of these key drivers and their inter-relationships with strategy and other functions of the company are really crucial in the management of any supply chain.

marketing efforts of the firm. In particular, the student is introduced to the analysis techniques of the various environments that constitute a country analysis. Entry strategies are discussed with an emphasis upon the export process. Further, an individualization/adaptation question is discussed in the context of each element of the marketing mix.

CR: the former BUSI 6001
PR: BUSI 2010, BUSI 5210, BUSI 5220 and any of: BUSI 2210, the former BUSI 2201, the former BUSI 3200

7310 Seminar in Human Resource Management seeks to integrate policies, procedures and methods covered in BUSI 6310 with other functional areas which impact upon the management of Human Resource Systems. Stakeholder assumptions about: work-force characteristics; management; business strategy; labor markets; laws and society; task technology and unions will be examined via a combination of cases, readings, research, peer discussion and dialogue with guest speakers.

PR: BUSI 4320

7315 Human Resource Management Training exposes students, through a variety of methods including lecture, discussion, case analysis, research, and the development of a detailed training program, to many topics in the area of human resource management training; including: needs analysis, training design, on and off-the-job training methods, technology and training, training implementation and delivery, transfer of training, and training evaluation.

CR: the former BUSI 6021
PR: BUSI 4320

7320 Collective Agreement Administration and Arbitration provides advanced coverage of the substantive and procedural rights of employers, unions and employees under collective agreements, and the means by which disputes over these rights are resolved through the grievance arbitration process. Topics examined include: the legal framework and place of grievance arbitration in the industrial relations system; the nature and scope of the arbitrator’s role; preparation for and conduct of arbitration hearings; arbitral jurisprudence; alternative dispute resolution processes; and analysis of a sound arbitration climate. Students will undertake extensive reviews of labour arbitration cases and will examine the impact of jurisprudence on the philosophy and practice of management in the private and public sectors. Students may be exposed to various role playing exercises that are applicable to industrial and labour relations.

PR: BUSI 4000 and BUSI 4330

7321 Dispute Settlement in Labour Relations provides advanced level study of conflict in industrial relations, its determinants, the various institutional procedures used to deal with it, and the effectiveness of these same procedures. Topics examined include: theories of industrial conflict, the legal framework; union and employer strategies; interest dispute resolution; the right to strike and alternatives to strike; the role and effectiveness of alternative forms of voluntary and compulsory third party assistance etc. Students may be exposed to various role playing exercises that are applicable to industrial and labour relations.

PR: BUSI 6320

7322 Labour Law provides an overview of laws regulating the employment relationship in Canada, including the common law, general employment and collective agreements, the Charter of Rights and Freedoms, and the Employment Standards Act. Emphasis is placed on the law of collective bargaining in the private sector, including the acquisition and termination of bargaining rights, unfair labour practices, the duty to bargain, industrial conflict and the administration of the collective agreement.

PR: BUSI 4000 and BUSI 4330

7330 Organizational Development - inactive course.

7400 Simulation in Management emphasizes the use of simulation modeling technique to study and analyze management systems. Generally, simulation is considered as an experimental technique and is used in problem situations whose complexity precludes the use of analytical problem solving techniques. Topics to be covered include: simulation methodology, model building, developing and building simulation models, simulation languages, generation of random numbers, and simulating a business system. Computer and case studies will be used to study various applications of simulation in business.

PR: BUSI 5401 or BUSI 5402

7410 Project Management introduces appropriate methodology and theory for selecting, planning and managing projects. This includes the project portfolio selection, the initial creation of a plan in terms of the breakdown of the tasks, construction of the relationships and dependencies inherent in any plan, and controlling the execution of the activities according to the plan as the project proceeds. Emphasis will be placed on resource allocation, leveling and management, critical path analysis, risk analysis, accounting for uncertainty, and project control. The role of the project manager and project team as well as issues related to multi-project management will also be addressed.

PR: BUSI 2400, 3401

7415 Managing Business Process Flows employs a logical, rigorous approach to studying the fundamentals of business processes. This approach is based on modeling business process and its flows, studying causal relationships between the business process and its performance, and exploring implications for managerial action by determining business process drivers and their impact on process management and performance. The focus is on business process flow, capability, productivity, variability, control, improvement, risk sharing and management, coordination and integration.

PR: BUSI 2400, 3401, 3700

7500 Advanced Finance (formerly BUSI 7130) examines advanced developments in finance. Several topics will be selected, researched and discussed. These topics shall vary as financial practices change.

CO: BUSI 6510
CR: the former BUSI 7130
PR: BUSI 5500

7510 Options and Futures (formerly BUSI 7170) is an extension of BUSI 6510 Investments which will introduce the student to the workings of the options and futures markets. Specific topics will include the institutional features of the markets, option pricing, strategies such as straddles and spreads, hedging, spot/forward/futures markets, speculations, risk transference and market efficiency considerations.

CR: the former BUSI 7170
PR: BUSI 6510 or the former BUSI 6140

7600 Current Topics in Entrepreneurship (formerly BUSI 7032) endeavours to address recent research findings in various aspects of entrepreneurship. Students will have the opportunity to pursue issues in entrepreneurship development covering a wide range of topics using publications, journals and conference proceedings.

CR: the former BUSI 7032
PR: BUSI 5600

7700 Strategic Information Systems - inactive course.

7701 Current Topics in Information Systems examines new developments and trends in information systems. The scope of the course includes: implications of emerging hardware and software technologies, emerging systems applications, and the state-of-the-art IS management practice. Specific topics will change each year. Readings assigned from professional and academic journals will form the basis of class discussion.

PR: BUSI 5600, BUSI 6700, and BUSI 6701

10.3 Work Term Descriptions

The following work terms are a requirement of the Bachelor of Commerce Co-operative program only.

The objectives of the Work Term component of the Business Administration Co-operative Program are embodied in the Work Term descriptions below. The descriptions serve to guide the student and employer toward achieving these objectives and to guide Business Co-operative Education and the Faculty of Business Administration in monitoring and evaluating each student’s progress.

399W Work Term 1 follows the successful completion of Academic Term 3. During this term, it represents their first professional work experience in a business environment and as such represents their first opportunity to evaluate their choice of pursuing a career in business administration. Students are expected to learn, develop and practice the high standards of business skill and performance typically expected in the work environment. A detailed description of each job is normally posted during the job competition.

As one component of the work term, the student is required to complete a work report. The work report, as a minimum requirement should:

- Analyse an issue/problem related to the student’s work environment,
- Demonstrate an understanding of the structure of a professional report,
- Show reasonable competence in written communication and presentation skills.

Students should consult UNIVERSITY REGULATIONS - Good Writing, and the evaluation form provided in the placement package.

Note: Students shall not conduct primary research as part of the Work Report.

PR: BUSI 300W

499W Work Term 2 follows the successful completion of Academic Term 4. Students are expected to further develop and expand their knowledge and work-related skills and should be able to accept increased responsibility and challenge. In addition, students are expected to demonstrate an ability to deal with increasingly complex work-related concepts and problems. Students should conscientiously assess the various business opportunities relative to their individual interests.

The Work Report, as a minimum requirement should:

- Analyse an issue/problem related to the student’s work environment and demonstrate an understanding of business concepts relative to the
student’s academic background,
- demonstrate competence in creating a professional report, and
- show competence in written communication and presentation skills.

Note: Students are permitted to conduct primary research as part of the Work Report, when it is required to achieve the report’s research objectives. If primary research is conducted as part of the Work Report, it must be conducted in accordance with all policies and regulations of the University and the Faculty of Business Administration, including Memorial University of Newfoundland’s policy on ethics of research involving human participants (www.mun.ca/policy/site/policy.php?id=139).

599W Work Term 3 follows the successful completion of Academic Term 5. Students should have sufficient academic grounding and work experience to contribute in a positive manner to the management and problem-solving processes needed and practiced in the workplace. Students should become better acquainted with their discipline of study, should observe and appreciate the attitudes, responsibilities, and ethics normally expected of business managers and should exercise greater independence and responsibility in their assigned work.

The Communications Component should reflect the growing professional development of the student and, as a minimum requirement, the student will;
- demonstrate an ability to analyse a significant business issue/problem related to the student’s experience in the workplace,
- demonstrate a high level of competence in delivering a professional oral presentation, and
- demonstrate a high level of competence in written communications.

The Communications Component for Work Term 3 consists of an Oral Presentation on a workplace-related business issue/problem. The presentation should be of about seven minutes duration followed by a three-minute question period and will normally be given on campus in a formal setting after students have returned to Academic Term. A written Executive Summary is also required. Guidelines for the preparation and delivery of this oral presentation along with deadlines are provided in the Business Co-operative Education Handbook.

10.4 Comprehensive Case Analysis Description

The following course of study is an academic requirement of the Diploma in Business Administration and does not carry academic credit.

450W Business Methods in Practice is a non-credit course in which each student will undertake an analysis of an assigned case. A written report is mandatory. Evidence of the student’s understanding of various business methods and the ability to gather material relating to the report, analyse it effectively, and present it in a clear, logical and concise form, will be required in the report.

1 The Memorial University of Newfoundland Code

The attention of all members of the University community is drawn to the section of the University Calendar titled The Memorial University of Newfoundland Code, which articulates the University’s commitment to maintaining the highest standards of academic integrity.

2 Student Code of Conduct

Memorial University of Newfoundland expects that students will conduct themselves in compliance with University Regulations and Policies, Departmental Policies, and Federal, Provincial and Municipal laws, as well as codes of ethics that govern students who are members of regulated professions. The Student Code of Conduct outlines the behaviors which the University considers to be non-academic misconduct offences, and the range of remedies and/or penalties which may be imposed. Academic misconduct is outlined in UNIVERSITY REGULATIONS - Academic Misconduct in the University Calendar.

For more information about the Student Code of Conduct, see www.mun.ca/student/conduct/conduct.php.

3 Mission Statement

The Faculty of Education is committed to improving the human condition through education. The Faculty is dedicated to leadership and exemplary practice in teaching and learning, research and scholarship, and public engagement in local and global communities.

Additional information regarding the Faculty of Education is available at www.mun.ca/educ.

A student must meet all regulations of the Faculty in addition to those stated in the general regulations. For information concerning fees and charges, admission/readmission to the University, and general academic regulations (undergraduate), refer to UNIVERSITY REGULATIONS.
4 Student Responsibility Clause
The Office of Undergraduate Student Services, Faculty of Education, will assist students with questions or problems which may arise concerning their programs. It is, however, the responsibility of students to see that their academic programs meet the Faculty of Education and the UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate).

5 Teacher Certification
Teacher Certification is a Provincial responsibility. Students are advised to contact Teacher Certification in writing at Teacher Certification and Records, Department of Education, P.O. Box 8700, St. John’s, NL, A1B 4J6, or by visiting the website at www.ed.gov.nl.ca/edu/k12/teaching/certification.html for advice regarding Teacher Certification Regulations.

6 Registration in Education Courses
6.1 For Non-Education Students
Registration in Education courses is normally restricted to those students who have been admitted to a degree or diploma program in the Faculty of Education. A student in first year or a student in other Faculties or Schools who has completed not fewer than 24 credit hours may register for the following courses in Education without acceptance to a program when space is available: 2040, 2050, 2222, 2800, 2803, 3210, 3211, 3565, 3570, 3571, and 3660.

Such a student is advised to consult degree or diploma regulations to determine which, if any, of the above courses can be applied to his/her program.

6.2 For Teacher Certification Upgrading and the Post-Secondary Instructors Certificate (as issued by the Government of Newfoundland and Labrador)
A student who has completed a degree program in Education, or equivalent, who wishes to register in Education courses for certification upgrading purposes and a student requiring Education courses for the Post-Secondary Instructors Certificate should contact the Office of Undergraduate Student Services at least one month in advance of registration for permission and procedure.

7 Description of Programs
The admission/readmission regulations and the program regulations for each degree and diploma program listed below can be found at Admission/Readmission Regulations for the Faculty of Education and the Program Regulations, respectively.

All courses of the Faculty are designated by ED.

7.1 General Degree Programs
The Faculty of Education offers ten general degree and two diploma programs.

1. The Bachelor of Education (Intermediate/Secondary) is a second degree program designed to prepare teachers of grades 7-12. The program is offered in a three semester (12 month), full-time format, and commences in the Fall semester of each year.

2. The Bachelor of Education (Intermediate/Secondary) Conjoint with the Diploma in Technology Education is a program designed to prepare both Intermediate/Secondary and Technology Education teachers. The program is offered in a four semester (16 month), full-time format and commences in the Spring of each year. A student in the program will complete courses that address the development of basic skills and competencies in a variety of technological areas and how to apply them through design and problem solving processes in a school classroom/laboratory setting.

3. The Bachelor of Education (Native and Northern) is a teacher education program designed for Aboriginal students in Labrador who intend to pursue a teaching career in the communities of northern Labrador. It would be of particular interest to a student who wishes to continue his/her studies beyond the Diploma in Native and Northern Education (T.E.P.L.). This program is currently under review and is not available for admission at this time.

4. The Bachelor of Education (Post-Secondary) as a First Degree is designed to prepare students for a variety of instructional and leadership roles in informal and formal post-secondary education, including careers in academic, adult, community, technical and trades, and professional education. The program is available through part-time or full-time study.

5. The Bachelor of Education (Post-Secondary) as a Second Degree is a second degree program designed to prepare students for a variety of instructional and leadership roles in informal and formal post-secondary education, including careers in academic, adult, community, technical and trades, and professional education. Students in this program come from diverse backgrounds including administrative, academic, adult education, business, health, literacy, policy, student services, and technical and trades professions. The program is available through part-time or full-time study.

6. The Bachelor of Education (Primary/Elementary) as a First Degree is a full-time, 150 credit hour degree program designed to prepare teachers for kindergarten through grade six. With the appropriate academic planning, a student can commence this Education program in the Fall semester of the third year of studies. A French Immersion Option is available in this program.

7. The Bachelor of Education (Primary/Elementary) as a Second Degree is a 72 credit hour program offered at the St. John's and Grenfell Campuses and is intended for students who have completed an appropriate Bachelor's degree. This program is offered in a four semester (16 month), full-time format and commences in the Spring semester of each year. A French Immersion Option is available at the St. John’s Campus only.

8. The Bachelor of Music Conjoint with Bachelor of Music Education is a 150 credit hour, five-year conjoint degree program offered in partnership with the School of Music. This program is designed for the preparation of K-12 music teachers, and other professionals in positions related to music education.

9. The Bachelor of Music Education as a Second Degree is a 45 credit hour degree program for students who have already been awarded a Bachelor of Music. This program is the same as the music education component of the conjoint program. The program is designed to prepare music teachers in all facets of school music education: foundations of music education; primary/elementary, intermediate/secondary classroom music; and choral and instrumental music education. The program consists of 30 credit hours of course work in music education and general foundational education and a 15 credit hour teaching internship.

10. The Bachelor of Special Education is a second degree program designed for the preparation of Special Education teachers and is available through part-time or full-time study.
### 7.2 General Diploma Programs

1. The Diploma in Adult Learning and Post-Secondary Education explores practices, principles, and theories in the field of adult learning. This diploma program is designed to prepare graduates for instructional and professional roles in adult education settings such as community agencies, not-for-profit organizations, and community development programs.

2. The Diploma in Native and Northern Education (T.E.P.L.) is a teacher education program in Labrador with Options in Classroom Teacher or Core Language Teacher. This program is normally for speakers of either Innu-aimun or Inuktitut. This program is currently under review and is not available for admission at this time.

### 8 Admission/Readmission Regulations for the Faculty of Education

The program regulations for each degree and diploma program listed below can be found at Program Regulations. In addition to meeting UNIVERSITY REGULATIONS, an applicant must meet the Admission/Readmission Regulations for the Faculty of Education below and the Admission/Readmission Regulations for his/her program of admission/readmission.

1. Admission to degree and diploma programs within the Faculty of Education is limited, selective and highly competitive. Meeting minimum admission requirements does not guarantee acceptance to a program. The Faculty reserves the right to limit the number of spaces available in each program. When the number of eligible applicants exceeds the number of spaces available in a particular program, preference may be given to applicants who are permanent residents of Newfoundland and Labrador.

2. At least three positions per year are available in Education programs for applicants of Aboriginal ancestry who have met the admission requirements. Applicants must submit a letter of request with the Faculty application and provide documentation of Aboriginal ancestry.

3. An applicant for admission to degree and diploma programs within the Faculty of Education must submit the appropriate completed Faculty application form, and if applicable a form for admission/readmission to the University which is available from the Office of the Registrar at www.mun.ca/regoff/admission/. Application forms and transcripts from institutions other than Memorial University of Newfoundland must be sent to the Office of the Registrar in accordance with the deadlines specified for each program in the Application Deadline Dates table below. Letters of reference and personal statement as required by the application form must be forwarded directly to the Faculty of Education Undergraduate Admissions Office. An applicant who must apply for admission/readmission to the University must also submit the General Application for Admission/Readmission to the Office of the Registrar within the deadlines as set out in the University Diary. Applications received or post-marked later than the stated deadline dates will be processed as time and resources permit.

4. Admission to programs within the Faculty of Education is determined by a Selections Committee and is based on the criteria listed for each degree/diploma program. An applicant who is completing courses at this or another institution and for whom final and complete transcripts are not available may be granted provisional acceptance to the program to which he/she is applying pending the receipt of final transcripts. This provisional acceptance will remain valid until final transcripts are received. Deadline for receipt of final transcripts is June 15th. A provisionally accepted applicant may be granted a final acceptance upon review of the final transcript by the Selections Committee. The Faculty reserves the right to deny admission to an applicant who, in the opinion of the Selections Committee, is deemed unsuitable for admission to a program.

5. A student who has been admitted to a program in the Faculty of Education requiring a teaching internship is advised that he/she may be assigned to any Provincial school district and is responsible for all travel and accommodation costs associated therewith.

6. A student who has been admitted to a particular degree program offered by the Faculty of Education and who wishes to change to another degree program within the Faculty must submit a new Faculty application form to the Office of the Registrar that will be considered in competition with other applicants.

7. In special circumstances, the Committee on Undergraduate Studies, on recommendation from the Admissions Committee may, at its discretion, consider an applicant or group of applicants as an exception to the requirements.

8. A student who declines an offer of admission to the Faculty of Education, withdraws from the program, or who does not register for courses during the academic year in which admission is granted must, if he/she wishes to be subsequently considered for admission, submit a new application in competition with other applicants.

9. An unsuccessful applicant has the right to appeal the decision of the Admissions Committee not to offer him/her a place, if it is felt by the applicant that the decision was reached on grounds other than those specified under the Admission/Readmission Regulations for the Faculty of Education. The appeal should be made in writing within twenty-one days of the notification of the decision and should be directed to the Dean of Education. The letter should state clearly and fully the grounds for the appeal. If the Dean of Education, in consultation with the Registrar, judges the grounds to be sufficient, the formal appeals mechanism will be initiated.
Normally, appeals will only be considered in the case of procedural error and/or receipt of new information that is relevant to the application. An applicant is advised to refer to UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate) - Appeal of Decisions section of the University Calendar.

10. The Faculty of Education does not require criminal record checks or other screening procedures as a condition of admission to programs. A student should, however, be aware that such record checks or other screening procedures are required by school districts/schools that host education students. Such agencies will not accept a student without a clear criminal record check or other screening procedure, which would prevent the student from completing a required component of the program. As a result, such a student may not be eligible for promotion or graduation.

It is the responsibility of the student to have such procedures completed as required and at his/her own expense. The Faculty of Education expects a student to provide evidence of a clear criminal record check before he/she is assigned to a school.

The screening procedures of any given agency may change from time to time and are beyond the control of the University.

11. The letter of acceptance to the Bachelor of Education (Intermediate/Secondary), Bachelor of Education (Intermediate/Secondary) Conjoint with the Diploma in Technology Education, Bachelor of Music Education as a Second Degree, Bachelor of Education (Primary/Elementary) as a Second Degree, and Bachelor of Education (Post-Secondary) as a Second Degree will give the successful applicant 14 days from the date of the letter of notification in which to confirm acceptance of the placement offer. The signed Accept/Decline Form indicating acceptance of the offer must be accompanied by a deposit of $150 which will be credited towards tuition fees. The deposit will be forfeited if the applicant subsequently declines the offer or fails to register. If no reply is received within 14 days, the offer by the Faculty will be withdrawn and the applicant will be informed of this by letter.

### 8.1 Bachelor of Education (Intermediate/Secondary)

1. For application deadlines refer to the Application Deadline Dates table. Consideration will be given to the courses for which an applicant is registered at the time of application. An applicant who will have completed all requirements for admission by the end of the Spring semester of the year that admission is being sought will be considered as time and resources permit. An applicant attending institutions other than Memorial University of Newfoundland must supply transcripts indicating Winter semester grades no later than June 15.

2. To be considered for admission to the Bachelor of Education (Intermediate/Secondary) degree program, an applicant must have:
   a. been awarded a Bachelors Degree from a university recognized by Memorial University of Newfoundland;
   b. completed 36 credit hours in a subject listed under Academic Disciplines for Bachelor of Education (Intermediate/Secondary) below (Business Studies, Newfoundland and Labrador Studies, and Religious Studies cannot be used to satisfy the 36 credit hour requirement);
   c. completed 24 credit hours in a subject listed under Academic Disciplines for Bachelor of Education (Intermediate/Secondary) below but different from that in b. above; and
   d. achieved an overall average of at least 65% in the courses chosen to meet b. and c. above.

3. Academic Disciplines are deemed to be the disciplines on the following list. Courses from other disciplines deemed by the Admissions Committee to be equivalent to courses in any of the listed Academic Disciplines for Bachelor of Education (Intermediate/Secondary) will be acceptable:

<table>
<thead>
<tr>
<th>Academic Disciplines for Bachelor of Education (Intermediate/Secondary)</th>

<td>Visual Arts</td>
<td></td>
</tr>
</tbody>
</table>

4. When calculating averages in the first and second teachable areas, no more than two 1000-level courses in each of the first and second teachable areas will normally be used.

5. A limited number of program spaces are allocated to each discipline. An applicant who is admitted with a particular Academic Discipline and who wishes to change to a different Academic Discipline must obtain permission of the Office of Undergraduate Student Services. Such changes may not be possible in particular areas.

6. An applicant is advised that admission to the program on the basis of academic disciplines is dependent on sufficient numbers of applicants to warrant the offering of applicable methodology courses in those disciplines in any given year.

7. An applicant who is registered in the final semester of the first Bachelor's Degree program during the Winter semester must have satisfied the academic requirements set out in Clause 2. above upon completion of the first degree program.
8. In assessing applications to the Bachelor of Education (Intermediate/Secondary) program, consideration will be given to the following:
   a. average in each of the two academic disciplines;
   b. overall academic performance; and
   c. personal statement and references as outlined on the application to the Faculty.

9. Because of the structured, sequential nature of this program, a student must attend full-time. A student who drops any course which is part of the program will be dropped from the entire program.

10. A student who has been admitted to the program but chooses not to attend in the Fall semester of the year of admission will lose his/her admission status. Such a student may reapply for admission at a later date, and must submit a new application which will be considered in competition with other applicants.

8.2 Bachelor of Education (Intermediate/Secondary) Conjoint with the Diploma in Technology Education

1. For application deadlines refer to the Application Deadline Dates table. Consideration will be given to the courses for which an applicant is registered at the time of application. An applicant attending institutions other than Memorial University of Newfoundland must supply transcripts indicating Fall semester grades no later than February 1.

2. To be considered for admission to the Bachelor of Education (Intermediate/Secondary) Conjoint with the Diploma in Technology Education program an applicant must have:
   a. been awarded a Bachelors Degree from a university recognized by Memorial University of Newfoundland;
   b. completed 36 credit hours in a subject listed under Academic Disciplines for Bachelor of Education (Intermediate/Secondary) Conjoint with the Diploma in Technology Education in clause 3. below; and
   c. achieved an overall average of at least 65% in the courses chosen to meet b. above.

3. Academic Disciplines for Bachelor of Education (Intermediate/Secondary) Conjoint with the Diploma in Technology Education are deemed to be the disciplines on the following list. Courses from other disciplines deemed by the Admissions Committee to be equivalent to courses in any of the listed Academic Disciplines for Bachelor of Education (Intermediate/Secondary) Conjoint with the Diploma in Technology Education will be acceptable.

   Academic Disciplines for Bachelor of Education (Intermediate/Secondary) Conjoint with the Diploma in Technology Education

   | Biochemistry | Biology | Canadian Studies |
   | Chemistry | Environmental Science | Economics |
   | English | Physics | French |
   | French - An applicant who uses French as an Academic Discipline must have completed at least eight weeks at an approved Francophone institution in a French speaking area or have acquired equivalent work experience in a Francophone environment. |

   General Science - An applicant who uses General Science as an Academic Discipline may use courses chosen from the separate science disciplines in any combination from Biochemistry, Biology, Chemistry, Earth Sciences, Environmental Science, Physics but must complete a minimum of 12 credit hours in each separate science discipline used.

   Geography | History | Mathematics - may include Statistics |
   | Physical Education - In order to be considered for admission within this Academic Discipline, an applicant must have completed courses in the following areas: Human Anatomy, Human Physiology, Motor Learning, Biomechanics, Primary/Elementary Physical Education Curriculum and Teaching, Issues and Trends in Physical Education and a minimum of 18 credit hours in Physical Education activities. |

   Physics | Political Science | Theatre Arts |
   | Visual Arts |

4. When calculating the average in the 36 credit hours required under clause 2. b. above, no more than two 1000-level courses will normally be used.

5. A limited number of program spaces are allocated to each discipline. An applicant who is admitted with a particular Academic Discipline and who wishes to change to a different Academic Discipline must obtain permission of the Office of Undergraduate Student Services. Such changes may not be possible in particular areas.

6. An applicant is advised that admission to the program is dependent on sufficient numbers of students to warrant the offering of applicable methodology courses in those disciplines in any given year.

7. An applicant who is registered in the final semester of the first Bachelor's Degree program during the Winter semester must have satisfied the academic requirements set out in Clause 2. above upon completion of the first degree program.

8. In assessing applications to the Bachelor of Education (Intermediate/Secondary) Conjoint with the Diploma in Technology Education degree program, consideration will be given to the following:
   a. average in courses in clause 2. b.;
   b. overall academic performance; and
   c. personal statement and references as outlined on the application to the Faculty.

9. Because of the structured, sequential nature of this program, a student must attend full-time. A student who drops any course which is part of the program will be dropped from the entire program.

10. A student who has been admitted to the program but chooses not to attend in the Spring semester of the year of admission will lose his/her admission status. Such a student may reapply for admission at a later date, and must submit a new application which will be considered in competition with those of all other applicants.
8.3 Bachelor of Education (Native and Northern)
This program is currently under review and is not available for admission at this time.

1. For application deadlines refer to the Application Deadline Dates table.

2. Normally, to be considered for admission, an applicant must have completed a minimum of 15 credit hours with an average of at least 55% in those courses and be in clear standing.

An applicant may be considered for conditional admission to the program upon admission to the University. An applicant admitted conditionally will be admitted in clear standing after successful completion of 15 credit hours with an average of not less than 55% percent.

3. An applicant who has completed more than 15 credit hours prior to admission to the program will be permitted to apply those credit hours, where appropriate, towards the Bachelor of Education (Native and Northern) provided an average of at least 65% has been obtained in all courses beyond the first 15 credit hours.

4. An applicant who has not met the requirements for direct entry from high school, but is eligible for entry on other criteria, will be assessed for literacy in English through procedures in accordance with University regulations. Where necessary, courses may be provided to give students an opportunity to upgrade their literacy skills.

8.4 Bachelor of Education (Post-Secondary) as a First Degree
The Bachelor of Education (Post-Secondary) as a First Degree is designed to prepare students for a variety of instructional and leadership roles in formal and informal post-secondary education, including careers in academic, adult, community, technical and trades, and professional education.

A number of the courses also form the basis for the Post-Secondary Instructor Certificate awarded by the Government of Newfoundland and Labrador.

1. For application deadlines refer to the Application Deadline Dates table. To be considered for admission to the Bachelor of Education (Post-Secondary) as a First Degree program, an applicant must meet, in addition to the general admission requirements of the University, the requirements outlined below:

   a. the Diploma in Adult Learning and Post-Secondary Education; and
   b. a program of study as verified by one of:
      - a certificate of qualification as a journeyperson for a designated trade;
      - a certificate or diploma from a college, university, or school (vocational, technical, business); or
      - satisfactory completion of a training program equivalent to bullet one or two above.

2. Advanced standing to a maximum of 30 credit hours may be awarded, upon admission, for training and experience applicable to post-secondary education settings. Training and experience will be assessed by the Selections Committee for Post-Secondary Education. The work experience must be subsequent to the completion of, or concurrent with, the occupational training program.

8.5 Bachelor of Education (Post-Secondary) as a Second Degree
1. For application deadlines refer to the Application Deadline Dates table. To be considered for admission to the Bachelor of Education (Post-Secondary) as a Second Degree program, an applicant must meet, in addition to the general admission requirements of the University, the admission requirements as outlined below. Applicants must have:

   a. been awarded an undergraduate degree from Memorial University of Newfoundland or from an institution recognized by Memorial University of Newfoundland with at least second class standing or equivalent; or
   b. been awarded an undergraduate degree from Memorial University of Newfoundland or an institution recognized by Memorial University of Newfoundland and have successfully completed Education 2700, 2720 and 2801 with an average of at least 65%.

8.6 Bachelor of Education (Primary/Elementary) as a First Degree
1. For application deadlines refer to the Application Deadline Dates table.

2. Consideration will be given to the courses for which an applicant is registered at the time of assessment of applications. An applicant who has completed all requirements for admission by the end of the Spring semester of the year that admission is being sought will be considered as time and resources permit.

3. To be considered for admission, an applicant must have successfully completed 60 credit hours as outlined in Clauses a. - h. below with a cumulative average of at least 65% or an average of at least 65% on the last attempted 30 credit hours. The 60 credit hours are:

   a. 12 credit hours in English including at least 6 credit hours at the 2000 level or above - ESL courses cannot be used to satisfy this requirement;
   b. 6 credit hours in Mathematics or 3 credit hours in Calculus;
   c. 6 credit hours in Psychology;
   d. Science 1150 and 1151; or 9 credit hours from 3 separate Science areas. The science areas are: Biochemistry, Biology, Chemistry, Earth Sciences, Environmental Science, Physics; or a Focus Area in Science;
   e. 6 credit hours chosen in any combination from Anthropology, Archaeology, Economics, Folklore, Geography, History, Linguistics, Political Science, Religious Studies, Sociology;
   f. 6 credit hours in French (recommended) or 6 credit hours in a single language other than English, or demonstration of equivalent competency in a second language;
   g. 15 credit hours as part of a focus area as set out in Table 9 Focus Areas for Bachelor of Education (Primary/Elementary) as a First Degree; and
   h. additional credit hours from areas other than Education.

4. In assessing applications to the Bachelor of Education (Primary/Elementary) as a First Degree program, consideration will be given to applicant's:

   a. overall academic performance; and
   b. personal statement and references as outlined on the application to the Faculty.
8.6.1 Bachelor of Education (Primary/Elementary) as a First Degree, French Immersion Option

In addition to meeting the Admission Requirements for the Bachelor of Education (Primary/Elementary) as a First Degree, an applicant for this option must have French as a focus area as outlined in Table 9 Focus Areas for Bachelor of Education (Primary/Elementary) as a First Degree. A student admitted to this option will spend the two semesters of the Professional Year in a French milieu at an institution with which Memorial University of Newfoundland has a memorandum of agreement. An applicant who is interested in the French Immersion Option should contact the Office of Undergraduate Student Services, Faculty of Education, at his/her earliest opportunity.

8.7 Bachelor of Education (Primary/Elementary) as a Second Degree

1. For application deadlines refer to the Application Deadline Dates table.
2. Consideration will be given to the courses for which an applicant is registered at the time of assessment of applications. An applicant who has attended institutions other than Memorial University of Newfoundland must supply transcripts indicating Fall semester grades by February 1.
3. To be considered for admission to the Bachelor of Education (Primary/Elementary) as a Second Degree program, an applicant must have:
   a. been awarded a Bachelor's Degree, or approved (prior to program startup) for the award of a Bachelor's Degree from a university recognized by Memorial University of Newfoundland;
   b. achieved a cumulative average of at least 65% or an average of at least 65% on the last attempted 30 credit hours;
   c. completed a minimum of:
      • 6 credit hours in English - ESL courses cannot be used to satisfy this requirement;
      • 6 credit hours in Mathematics or 3 credit hours in Calculus;
      • 6 credit hours in Psychology;
      • Science 1150 and 1151 or 6 credit hours in science in any combination to be chosen from: Biochemistry, Biology, Chemistry, Earth Sciences, Environmental Science, Physics. It is recommended that applicants have 9 credit hours in Science.
      • 6 credit hours in any combination to be chosen from: Anthropology, Archaeology, Economics, Folklore, Geography, History, Linguistics, Political Science, Religious Studies, Sociology;
      • 6 credit hours in French (recommended) or 6 credit hours in a single language other than English, or demonstration of equivalent competency in a second language; and
      • the equivalent of a completed focus area as per Table 9 Focus Areas for Bachelor of Education (Primary/Elementary) as a First Degree or the completion of a major or minor within the initial Bachelor's degree program in a subject area classified as a focus area.
   An applicant with French as a focus area must also have completed at least 4 weeks at an approved Francophone institution in a French-speaking area or have acquired equivalent work experience in a Francophone environment.
4. In assessing applications to the Bachelor of Education (Primary/Elementary) as a Second Degree program, consideration will be given to the following:
   a. overall academic performance; and
   b. personal statement and references as outlined on the application to the Faculty.

8.7.1 Bachelor of Education (Primary/Elementary) as a Second Degree, French Immersion Option

In addition to meeting the Admission Requirements for the Bachelor of Education (Primary/Elementary) as a Second Degree an applicant for this option must have completed a major in French of at least 36 credit hours or equivalent and achieved at least an average of 65% in the 36 credit hours. Applicants must have completed at least eight weeks at an approved Francophone institution in a French speaking area or have acquired equivalent work experience in a Francophone environment. Admission to this option will be competitive and based on overall academic performance and demonstrated commitment, in the personal statement, to studies in French and French Education. Applicants who are unable to fulfill the eight week immersion requirements will be considered on a case-by-case basis.

8.8 Bachelor of Music Conjoint with Bachelor of Music Education

1. For application deadlines refer to the Application Deadline Dates table.
2. Applications for admission are considered once a year normally to the Fall semester. Consideration will be given to the Winter semester courses for which an applicant is registered at the time of application.
3. At the time of application, an applicant must have been formally admitted to, and be in clear standing with, the School of Music.
4. To be considered for admission, an applicant must have successfully completed a minimum of 45 credit hours with either a cumulative average of at least 65% or an average of at least 65% on the last attempted 30 credit hours.
   Within the 45 credit hours, an applicant must have completed the following:
   a. at least 6 credit hours in English and/or research/writing;
   b. at least 3 credit hours from the following: Music 3221, 3222, 3231, 3232, 3233, 3241, 3242, 3261, 3281, 3282;
   c. at least 12 credit hours in Music, in addition to the 3 credit hours used to satisfy the clause directly above.
5. In assessing applications, consideration will be given to the following:
   a. average in the courses required for admission in clause 4. above;
   b. overall academic performance; and
   c. personal statement and references as outlined on the application to the Faculty. One reference must be from a faculty member of the School of Music.
8.9 Bachelor of Music Education as a Second Degree

1. For application deadlines refer to the Application Deadline Dates table.
2. Applications for admission are considered once a year normally to the Fall semester. Consideration will be given to the Winter semester courses for which an applicant is registered at the time of application.
3. An applicant who has been awarded a Bachelor's degree in Music (or equivalent) from a recognized post-secondary institution may be admitted to the program leading to the degree of Bachelor of Music Education provided that the pattern of courses for the first degree is acceptable to the Selections Committee of the Faculty of Education. This pattern normally includes courses or equivalent experiences in conducting and instrumental techniques (brass, woodwinds, strings and percussion).

8.10 Bachelor of Special Education

1. For application deadlines refer to the Application Deadline Dates table.
2. Consideration will be given to the courses for which an applicant is registered at the time of application. Provisional acceptance may be granted to an applicant who will successfully complete all prerequisites prior to commencement of the program. A percentage of program spaces will be allocated to applicants having relevant teaching experience.
3. To be considered for admission an applicant shall have a minimum of a 65% average in the last 60 attempted credit hours (not including the internship) and also meet the following requirements:
   a. hold a degree in Primary and/or Elementary, Music Education, or Intermediate/Secondary Education from Memorial University of Newfoundland or another Education degree deemed appropriate by the Faculty of Education, and have credit for one of Education 4240 or 4242 (or equivalent). Intermediate/Secondary graduates must also have credit for Education 4350; Music Education graduates must also have credit for both Education 3312 and 3543 or 4350.
   b. have successfully completed a professional internship in education or have equivalent teaching experience prior to admission.
4. There are four Education courses applicable to the Special Education degree program that may be completed prior to admission (following completion of an Education degree). They are Education 3040, 3640, 3660, 3941 (please see the Course Descriptions section for prerequisites).

8.11 Diploma in Adult Learning and Post-Secondary Education

The Diploma in Adult Teacher Education and the Diploma in Post-Secondary Education have been replaced with the Diploma in Adult Learning and Post-Secondary Education. A student currently admitted to the former programs may choose to transfer to the new program or complete the former program by August 31, 2016. Students are advised to contact the Office of Undergraduate Student Services, Faculty of Education, for further information on the transfer process.

1. For application deadlines refer to the Application Deadline Dates table.
2. To be considered for admission an applicant must have completed one of:
   a. a training program or slate of post-secondary level courses; or
   b. the Post-Secondary Instructor Certificate awarded by the Government of Newfoundland and Labrador.

Programs and courses will be assessed by the Selections Committee for Post-Secondary Education.

8.12 Diploma in Native and Northern Education in Labrador (T.E.P.L.)

This program is currently under review and is not available for admission at this time.

1. For application deadlines refer to the Application Deadline Dates table.
2. Admission to the Diploma in Native and Northern Education in Labrador (T.E.P.L.) program requires a regular application for admission to Memorial University of Newfoundland and a special application for admission to the program.
3. An applicant for admission to this program must normally be a speaker of either Innu-aimun or Inuktitut and meet the General Admission Requirements of the University as outlined in the Calendar.
9 Program Regulations

The admission/readmission regulations for each degree and diploma program listed below can be found at Admission/Readmission Regulations for the Faculty of Education.

In addition to meeting Program Regulations for his/her program of admission/readmission a student must also meet UNIVERSITY REGULATIONS.

9.1 Bachelor of Education (Intermediate/Secondary)

- The full-time, 51 credit hour Bachelor of Education (Intermediate/Secondary) is a second degree program offered in three semesters (12 months) and commences in the Fall semester of each year.
- A student must complete the 51 credit hours in the academic semesters, sequence and course load as set out in Table 1 Bachelor of Education (Intermediate/Secondary) below. A student must also have complied with the Regulations for Readmission and Advancement for this program.

9.3 Bachelor of Education (Native and Northern)

This program is currently under review and is not available for admission at this time.

9.3.1 Bachelor of Education (Native and Northern) Primary/Elementary Education Route

- The 150 credit hour Bachelor of Education (Native and Northern) Primary/Elementary route requires 66 credit hours in Education, a 15 credit hour internship, and 69 credit hours in non-education courses as chosen below in Table 3 Bachelor of Education (Native and Northern) Primary/Elementary Education Route and in consultation with the Office of Undergraduate Student Services.

- A student who has completed the Diploma in Native and Northern Education in Labrador and has successfully completed at least five years as a teaching assistant or certified teacher may apply to the Office of Undergraduate Student Services for a waiver of the internship requirement. In cases where waivers are granted, a student will be required to complete 15 credit hours in Primary or Elementary Education to be determined from an approved list, in consultation with the Office of Undergraduate Student Services.

- Within the UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate) - Residence Requirements, a student completing the Bachelor of Education (Native and Northern) Degree shall complete a minimum of 12 credit hours as a full-time student through attendance at classes for the duration of at least one semester on a campus of Memorial University of Newfoundland.

</table>

These courses must be completed before registering for ED 404X.

Proficient speakers of Inuktitut or Innu-aimun who plan to teach one of these languages and/or plan to teach in one of these languages shall complete at least 3 credit hours from each of the following areas: Language literacy skills or Language teaching skills.
9.3.2 Bachelor of Education (Native and Northern) Secondary Education Route

- The 150 credit hour Bachelor of Education (Native and Northern), Secondary route requires 60 credit hours in Education, a 15 credit hour internship, and 75 credit hours in non-education course as chosen below from Table 4 Bachelor of Education (Native and Northern) Secondary Education Route and in consultation with the Office of Undergraduate Student Services.

- A student who has completed the Diploma in Native and Northern Education in Labrador and has successfully completed at least five years as a teaching assistant or certified teacher may apply to the Office of Undergraduate Student Services for a waiver of the internship requirement. In cases where waivers are granted, a student will be required to complete 15 credit hours in Secondary Education to be determined from an approved list in consultation with the Office of Undergraduate Student Services.

- A student who does not register for courses during the academic year in which admission is granted will be dropped from the program and must, if he/she wishes to be subsequently considered for admission, submit a new application which will be considered in competition with those of all other applicants.

- Within the UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate) - Residence Requirements, a student completing the Bachelor of Education (Native and Northern) Degree shall complete a minimum of 12 credit hours as a full-time student through attendance at classes for the duration of at least one semester on a campus of Memorial University of Newfoundland.

</tbody>
</table>
9.6 Bachelor of Education (Primary/Elementary) as a First Degree

- The Bachelor of Education (Primary/Elementary) as a First Degree is a 150 credit hour program.
- The 150 credit hours must include: 75 credit hours in non-education courses including the courses required for admission, courses required to complete a focus area listed under Table 9 Focus Areas for Bachelor of Education (Primary/Elementary) as a First Degree below, and Human Kinetics and Recreation 2001; and 75 credit hours in Education courses as set out in Table 7 Bachelor of Education (Primary/Elementary) as a First Degree.
- Following admission, a student will normally progress in attaining the 150 credit hours required for the Bachelor of Education (Primary/Elementary) as a First Degree, in the academic terms, sequence and course load as set out in Table 7 Bachelor of Education (Primary/Elementary) as a First Degree. In particular, a student must have all non-education requirements completed prior to Professional Year; must enrol full-time during the Professional Year; and may enrol in the internship only after successful completion of the Professional Year.
- A student may choose to complete Bachelor of Education (Primary/Elementary) as a First Degree, French Immersion Option listed below.

English 2390 or 3395  
3 credit hours chosen from English 2000, 2001, 2005-2007, 3200, 3201, 3205  
3 credit hours chosen from English 2002-2004, 2010 or 2020, 2350, 2351  
6 credit hours chosen from English 2146, 2150, 2151, 2155, 2156, 2160, 3145, 3147-3149, 3152, 3155-3158  
3 additional credit hours in English at the 2000 level or above |
| **Folklore (24 credit hours)** | Folklore 1000  
Folklore 2100, 2300, 2401, 2500  
Folklore 3450 or 3930  
6 credit hours in Folklore chosen from the 3000 or 4000 level |
| **French (21 credit hours)** | A maximum of 6 credit hours at the 1000 level  
French 2101 or equivalent  
French 2300 or equivalent  
French 2601 or French 2602 or equivalent  
French 3100 or French 3101 or equivalent  
At least four weeks at an approved Francophone institution in a French-speaking area or have acquired equivalent work experience in a Francophone environment.  
Additional credit hours in French, if needed, to bring the total to 21.  
It is recommended that a student complete at least one of French 2900, 3650, 3651, 3652, 3653, 3654.  
Students may wish to select the French Immersion Option listed under the Bachelor of Education (Primary/Elementary) as a First Degree, French Immersion Option. |
| **Geography (18 credit hours)** | Geography 1050, 2001, 2102, 2195, 2302, and 2425 |
| **History (18 credit hours)** | 3 credit hours in History at the 1000 level  
9 credit hours in History at the 2000 level  
6 credit hours in Newfoundland and Labrador History at the 3000 level |
| **Interdisciplinary Studies (18-24 credit hours)** | Non-Education courses for cohorts in special offerings of the program approved by the Faculty of Education. For information on Interdisciplinary Studies Focus Areas students should contact the Undergraduate Admissions Office, Faculty of Education. |
| **Linguistics (18 credit hours)** | Linguistics 1100 or 2100  
Linguistics 1103 or 2103  
Linguistics 1104 or 2104  
Linguistics 2210  
6 credit hours chosen from Linguistics 3000, 3100, 3104, 3105, 3150, 3155, 3201, 3210, 3212, 3500, 3850 |
| **Mathematics (18 credit hours)** | No more than 6 credit hours in Mathematics at the 1000 level and at least 3 credit hours in Mathematics at the 3000 level. |
| **Music (18 credit hours)** | Music 1120  
3 credit hours chosen from Music 2011, 2012, 2013, 2014  
3 credit hours chosen from Music 2021, 2022, 2023, 2611, 2612, 2613, 2614, 2619 (admission to 2612, 2613 and 2619 is by audition only)  
6 credit hours chosen from Music 3014, 3015, 3016, 3017, 3018, 3019, 4040  
3 additional credit hours from the courses in 2nd and 4th clauses above |
| **Physical Education (18 credit hours)** | Human Kinetics and Recreation 1000, 2210, 2300  
9 credit hours chosen from Human Kinetics and Recreation 2002, 2310 or 2311, 2320, 2600, 2601, 3330, 3340, 3400, 3490 |
| **Religious Studies (18 credit hours)** | Religious Studies 1000  
3 credit hours chosen from Religious Studies 213, 2140, 2330, 2340  
3 credit hours chosen from Religious Studies 2400, 2410, 2420, 2425, 2430  
3 credit hours chosen from Religious Studies 2350, 2610, 2810, 2811, 2812, 2820, 2830  
6 credit hours in Religious Studies at the 3000 level or above |
| **Science (18 credit hours)** | At least 6 credit hours in each of two subject areas selected from Biochemistry, Biology, Chemistry, Earth Sciences, Environmental Science, or Physics. |
| **Theatre Arts (18 credit hours)** | For information on the Theatre Arts Focus Area contact the Undergraduate Admissions Office, Faculty of Education. |
| **Visual Arts (18 credit hours)** | Courses in Art History may be used to satisfy this requirement in whole or in part. For information on the Visual Arts Focus Area contact the Undergraduate Admissions Office, Faculty of Education. |
9.7 Bachelor of Education (Primary/Elementary) as a Second Degree

- The Bachelor of Education (Primary/Elementary) as a Second Degree is a 72 credit hour program intended for students who have completed an appropriate Bachelor’s degree. This program is offered in a four semester (16 month), full-time format and commences in the Spring semester of each year.
- In addition to meeting these regulations, students must also meet UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate) - Second Degree.
- The Bachelor of Education (Primary/Elementary) as a Second Degree requires 72 credit hours normally completed in the academic terms, sequence, and course load as set out in Table 10 Bachelor of Education (Primary/Elementary) as a Second Degree.

9.7.1 Bachelor of Education (Primary/Elementary) as a Second Degree, French Immersion Option

- The Bachelor of Education (Primary/Elementary) as a Second Degree, French Immersion Option, is a 72 credit hour program intended for students who have completed an appropriate Bachelor’s degree. This program is offered in a four semester (16 month), full-time format and commences in the Spring semester of each year.
- A student will normally attend full-time and complete the required 72 credit hours in the academic terms, sequence, and course load as set out in Table 11 Bachelor of Education (Primary/Elementary) as a Second Degree, French Immersion Option.
- In addition to meeting these regulations, students must also meet UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate) - Second Degree.

9.9.1 Waiver Guidelines - Education 3650

Following completion of ED 3600, a student who has at least two years experience as a Special Education teacher, and who provides a written report from his/her principal or other appropriate authority, certifying the quality of his/her experience, to the Office of Undergraduate Student Services, may be granted waiver of ED 3650 upon approval by the Faculty of Education. A student approved for the waiver must substitute in its place 3 credit hours in Special Education. A student requesting waiver of Education 3650 must complete the appropriate form at www.mun.ca/educ/undergrad/forms.php.
9.10 Diploma in Adult Learning and Post-Secondary Education

The Diploma in Adult Teacher Education and the Diploma in Post-Secondary Education have been replaced with the Diploma in Adult Learning and Post-Secondary Education. A student currently admitted to the former programs may choose to transfer to the new program or complete the former program by August 31, 2016. Students are advised to contact the Office of Undergraduate Student Services, Faculty of Education, for further information on the transfer process.

- The Diploma in Adult Learning and Post-Secondary Education may be completed on a full or part-time basis and requires 30 credit hours in Education courses as outlined in Table 15 Diploma in Adult Learning and Post-Secondary Education.
- A maximum of 12 credit hours used to fulfill the requirements of another degree or diploma may be used for this Diploma.
- At least 21 of the 30 credit hours required for the Diploma must be completed at this University.

10 Regulations for Readmission and Advancement for the Bachelor of Education (Primary/Elementary) as a Second Degree, Bachelor of Education (Intermediate/Secondary), Bachelor of Education (Intermediate/Secondary) Conjoint with the Diploma in Technology Education, Diploma in Adult Learning and Post-Secondary Education, and Diploma in Native and Northern Education in Labrador

These regulations apply to the Bachelor of Education (Primary/Elementary) as a Second Degree, Bachelor of Education (Intermediate/Secondary), Bachelor of Education (Intermediate/Secondary) Conjoint with the Diploma in Technology Education, Diploma in Adult Learning and Post-Secondary Education, and Diploma in Native and Northern Education in Labrador. For any of the degree programs not listed here see Regulations for Readmission and Advancement for the Bachelor of Education Primary/Elementary as a First Degree, Bachelor of Music Conjoint with Bachelor of Music Education, Bachelor of Music Education as a Second Degree, Bachelor of Education (Native and Northern), Bachelor of Special Education, Bachelor of Education (Post-Secondary) as a First Degree, and Bachelor of Education (Post-Secondary) as a Second Degree.

1. A student must successfully complete all courses, attain an overall semester average of at least 65%, and a grade of PAS (pass) in the internship(s). A student who fails to meet any of the above criteria will be required to withdraw from the program.
2. Notwithstanding Clause 1., the Committee on Undergraduate Studies, on recommendation from the Admissions Committee, reserves the right to require a student to withdraw from the Faculty at any time if, in the opinion of the Committee, the student is deemed unsuitable for continued attendance in the programs.
3. In exceptional circumstances, waiver of these regulations may be granted by the Committee on Undergraduate Studies, Faculty of Education, on advice of the Office of Undergraduate Student Services.
11 Regulations for Readmission and Advancement for the Bachelor of Education (Primary/Elementary) as a First Degree, Bachelor of Music Conjoint with Bachelor of Music Education, Bachelor of Music Education as a Second Degree, Bachelor of Education (Native and Northern), Bachelor of Special Education, Bachelor of Education (Post-Secondary) as a First Degree, and Bachelor of Education (Post-Secondary) as a Second Degree

These regulations apply to the Bachelor of Education (Primary/Elementary) as a First Degree, Bachelor of Music Conjoint with Bachelor of Music Education, Bachelor of Music Education as a Second Degree, Bachelor of Education (Native and Northern), Bachelor of Special Education, Bachelor of Education (Post-Secondary) as a First Degree, and Bachelor of Education (Post-Secondary) as a Second Degree. For any of the degree or diploma programs not listed here see Regulations for Readmission and Advancement for the Bachelor of Education (Primary/Elementary) as a Second Degree, Bachelor of Education (Intermediate/Secondary), Bachelor of Education (Intermediate/Secondary) Conjoint with the Diploma in Technology Education, and Diploma in Native and Northern Education in Labrador.

1. a. Following admission to a program of the Faculty of Education, all full-time students must obtain a semester average of at least 65% in order to remain in clear standing in the Faculty.
b. These regulations will be applied to part-time students only after they have completed 12 consecutive credit hours on a part-time basis.

2. A student who fails to obtain a semester average of 65% but who is eligible for readmission under UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate) will be placed on probation in the Faculty. A probationary student who fails to obtain a 65% average during the next semester in which he/she completes courses will be required to withdraw from the Faculty.

3. A student completing the Bachelor of Education (Primary/Elementary), Bachelor of Music Conjoint with Bachelor of Music Education, or the Bachelor of Music Education as a Second Degree who attains a grade of FAL (fail) in his/her internship will either:
a. be required to withdraw from the program; or
b. with the recommendation of the Office of Undergraduate Student Services, Faculty of Education, repeat the internship in another school setting.

4. A student who has been required to withdraw from the Faculty of Education may, after a lapse of at least two semesters, apply for readmission to the Faculty. A student who is readmitted under this Clause will be considered probationary and must meet requirements stated in Clause 2. above.

5. A student who is required to withdraw from the University under UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate) will be required to withdraw from the Faculty of Education.

6. A student who has been required to withdraw from the Faculty on two occasions will be ineligible for future readmission.

7. Notwithstanding Clauses 1. through 4., the Committee on Undergraduate Studies on recommendation from the Admissions Committee reserves the right to require a student to withdraw from the Faculty at any time if, in the opinion of the Committee, he/she is deemed unsuitable for continued attendance in the programs.

8. A student who has been required to withdraw from the Faculty may register only in those Education courses listed as applicable for non-Education students.

9. In exceptional circumstances, the Committee on Undergraduate Studies may waive the Readmission and Advancement regulations for the Faculty of Education as stated above.

10. An applicant who has been admitted to the Bachelor of Education (Native and Northern) will normally be governed by Regulations 2. and 4. - 9. above. For this program only, advancement regulations will be applied upon the completion of each 15 credit hour segment throughout the duration of the program and will be assessed on the basis of the average obtained on those 15 credit hours.

12 Graduation

Upon meeting the qualifications for any of the programs offered by the Faculty a student must apply to graduate on the prescribed "Application for Graduation" form. This form may be obtained online at Memorial Self Service at www3.mun.ca/admit/twbkwbis.P_WWWLogin. Additional information is available from the Office of the Registrar at www.mun.ca/regoff/graduation/apply_grad.php.

13 Waiver of Faculty Regulations

A student has the right to request waiver of Faculty regulations. The requirement for a specific course, or courses, may in special circumstances, and upon individual request, be waived by the Committee on Undergraduate Studies. Such waivers shall not reduce the total number of credits required for the Degrees or Diploma.

A student wishing waiver of University academic regulations should refer to UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate) - Waiver of Regulations.

14 Appeal of Decisions

Any student whose request for waiver of Faculty regulations has been denied has the right to appeal. For further information refer to UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate) - Appeal of Decisions.

15 Course Descriptions

In accordance with Senate’s Policy Regarding Inactive Courses, course descriptions for courses which have not been offered in the previous three academic years and which are not scheduled to be offered in the current academic year have been removed from the following listing. For information about any of these inactive courses, please contact the Dean of the Faculty.

All courses of the Faculty are designated by ED.

Legend:
PE: Courses for students in the Primary/Elementary program
IS: Courses for students in the Intermediate/Secondary program
ISI: Courses for students in the Intermediate/Secondary Conjoint with the Diploma in Technology Education program
T: Courses for students in the T.E.P.L. Diploma program
AL: Courses for students in the Diploma in Adult Learning and Post-Secondary Education program

ME: Courses for students in the Music Education program

PS: Courses for students in the Post-Secondary Education programs

SE: Courses for students in the Special Education program

NPE: Courses for students in the Native and Northern program - Primary/Elementary route

NS: Courses for students in the Native and Northern - Secondary route

2022 The Teaching of Inuitut (T,NPE) focuses on the preparation of materials and classroom strategies for the teaching of Inuitut in Primary and Elementary schools in Native communities. Emphasis will be given to linguistic difficulties encountered in schools by children whose first language is English.

2023 Language and Culture in Education (NPE,NS) is an overview of issues in the area of Education and Native and Northern Education. Emphasis will be placed on examination and development of curricula and materials that recognize cultural diversity (especially Aboriginal cultures), foster the teaching and maintenance of Aboriginal languages, and support the work of Aboriginal language specialists in the classroom.

2032 The Teaching of Montagnais (T,NPE) - inactive course.

2035 The Teaching of History and Culture of Labrador Inuit and Innu (T) applies the principles of effective teaching to the learning of history and culture as it applies to the Labrador Inuit and Innu. Topics include specific teaching strategies and examination of the selection and use of learning resources for unit planning, development and evaluation.

2036 The Teaching of Aboriginal Issues (T) examines the teaching of specific current events relevant to Labrador Inuit and Innu. This will include issues of education/environment/society politics/education/government/industry and the economy. Class sessions will include a workshop mode of learning (public speaking, panel debates, use of Internet, research, survey and interviews).

2037 Aboriginal Drama (T) - inactive course.

2038 Aboriginal Music and Art (T) is a study of music and art in cultural transmission. The course will develop skills in reading and writing associated with Innu and Inuit cultures, and will emphasize activities for exploring the elements of music. Innu and Inuit art forms will be explored as well as art as decoration in Innu and Inuit society.

2039 Cultural Camp (T) is intended for aboriginal people to learn about ways of helping and healing that are traditional to their own culture and to learn ways of effectively incorporating those cultural aspects in the school curriculum. This course includes a one-week field trip to an isolated camp in coastal Labrador, where students and instructors will live according to traditional cultural practices under the guidance of community elders.

2040 Basic Interpersonal Communication (PE) is designed to help students develop confidence through self-expression, and acquire skills in interpersonal relationships.

CR: the former ED 2041

2050 Introduction to Drama Education (PE,ME) is designed to introduce students to the use of drama as a learning medium. Students will be expected to participate in and to critically analyse practical drama sessions in order to gain an understanding of the fundamental nature of drama. Students will be engaged in a variety of teacher devised drama structures to introduce them to the theory and practice of selected pioneers in the field. Reference will be made to some aspects of child development such as play, cognition, affect and language and their relationship to learning through drama. It is expected that students will begin to formulate a rationale for the use of drama education in their future classroom practice.

CR: the former ED 2030

2182 An Introduction to the Teaching of Science in the Primary and Elementary Grades - inactive course.

2194 Physical Education in the Primary and Elementary Grades (PE, T, NPE) examines the curriculum organization in physical education for the Primary and Elementary grades; instructional material and teaching techniques for these grades; creative, aesthetic, and health-developing aspects of physical education.

CR: the former ED 3107, or the former ED 2192 taken during the 1984-85 or 1985-86 academic years

2200 Language Arts - inactive course.

2202 Education in Native and Northern Communities - An Overview (PE,ME) is a general introductory course for students planning to teach in a classroom where Innu and/or Inuit children are in attendance. Emphasis will be placed on creating an awareness of the religion, philosophy, cultural values and way of life of Native peoples; the legal and administrative processes concerning Native peoples from the past to the present; a historical perspective in Native education; and contemporary issues and trends in Native education. This course will provide the necessary foundation for those training to teach in environments where students are sensitive to the influence of culture on the values, behaviour, needs and motivations of children.

2222 Teaching English as a Second Language (PE,IS,NPE,IS,NS) includes selection and preparation of materials, and suitable classroom strategies for teaching English as a second language. Stress will be on the methods appropriate to cope with linguistic difficulties encountered in schools by children whose first language is not English.

2350 An Introduction to the Teaching of Mathematics in the Primary and Elementary Grades (T,NPE) examines intuitive notions of a mathematical system with special emphasis on the concepts, basic mathematical properties and skills associated with the number systems of arithmetic. Additional topics and basic concepts of Geometry related to the Mathematics programs of the elementary school.

2361 The School and Community - inactive course.

2430 Administration and Supervision in Native and Northern Education (NPE,NS) is a study of the administrative structures involved in the education of children of Innu and Inuit backgrounds. The study examines the administrative structures of the Department of Education and Development of the First Nation and the influence of the problems which arise in the administration of schools in remote, isolated regions. Further, the study includes an overall examination of the alternative Native processes of education relevant to the philosophy of Native people.

2500 Orientation to Music Education (ME) is an introduction to music education, bridging life as a musician and the development of a career as a musician. Topics include an overview of theories of music education, historical, sociological, cultural, psychological, methodological, and curricular foundations of music education as well as contemporary contexts and issues in music education. Emphasis is on research and writing in music education, technology applications, and the development of functional keyboard skills specific for music educators.

2515 Primary/Elementary School Music Methods (ME,PE) examines current pedagogical practices, methodologies, and resources for use in the primary and elementary school music program. Within the context of the K-6 curriculum guidelines, teacher candidates will develop skills and instructional strategies for developing the singing, moving, playing, listening, and creating child.

CR: the former ED 2510, the former ED 2530

PR: Primary/Elementary program candidates must have completed the focus area in music

2520 Voice and Choral Methods (ME) examines current pedagogical practices, procedures, and resources for use with all levels of school singing ensembles and choirs. Emphasis is placed on developing teacher candidates' own vocal technique and improvement in conducting and the use of drama education in their future classroom practice. Candidates will have the opportunity to gain an understanding of the fundamental nature of drama and to develop skills as drama teachers and as drama directors.

2555 Recognizing and Protecting Children's Needs - inactive course.

2700 Academic Literacies in Adult and Post-Secondary Learning Contexts (AL, PS) examines the literacies, discourses and epistemologies of post-secondary learning contexts. Academic areas are ways of knowing which are generated and defended through language, practices and texts. This course explores ways of making explicit these often implicit activities. It provides opportunities to understand different forms of knowledge, what counts as evidence, and how 'texts' are developed, written, read and performed.

2710 Course Organization and Development in Post-Secondary Education (AL,PS) examines the development of procedures for the identification of concepts in instructional units; analysis of tasks and identification of related competencies; development of resource units.

2711 Course Organization and Development in Technology Education (ISI) is an examination of the development, structure and organization of technology education curriculum locally and internationally; applications of design and problem solving; instructional strategies; the management of resources in technology education laboratories; the development of resource units for teaching.

2720 Introduction to Post-Secondary Education (AL,PS) is a study of the back-ground of Post-Secondary Education and of its development and present forms in Newfoundland, other provinces of Canada, and other countries. It is an examination of current programs in Post-Secondary Education, the role of federal and provincial governments in Post-Secondary Education.

2730 General Methods of Teaching in Post-Secondary Education (AL,PS) is an introduction to teaching and learning methods in post-
secondary and adult learning contexts and it includes preparation, learning goals, aligning assessment and a range of methods such as facilitation, lecturing, active learning, experiential learning and problem-based learning.

### 2750 Introductory Design and Materials Processes (SI)
Examines theory and practice of teaching problem solving, design and materials processes. Topics and practical activities include production and computer assisted design.

#### AR: attendance is required

#### OR: WHMIS training

Information can be obtained from the Office of Undergraduate Student Services.

### 2752 Teaching Current and Emerging Power Technology Systems (SI)
Provides technology education students with opportunities to apply current teaching and learning strategies to the issues surrounding traditional and emerging energy technologies. Major topics of study include: fundamentals of sustainable energy production and control, redevelopment and utilization of traditional energy sources, application of solar energy, wind power production, and fuel cell development and utilization.

#### AR: attendance is required

#### OR: WHMIS training

Information can be obtained from the Office of the Undergraduate Student Services.

### 2800 Introduction to Adult Education (AL,PS)
A review of the history of the Adult Education movement. The rationale for the investment of public or private resources in the education or training of adults. An examination of current educational philosophies related to Adult Education.

### 2801 Adult Learning (AL,PS)
Examines the major foundational theories of adult learning, the contextual nature of adult learning and various dimensions of learning and development throughout adulthood.

### 2803 Educational Aspects of Adult Development (AL,PS)
An examination of the educational aspects of adult development from early adulthood through middle age to later maturity.

### 2806 Sociology of Adult Education (AL,PS)
Explores the sociological context of adult learning. The interrelationship between particular social factors (e.g., age, sex, occupational structure) and the need for adult educational programs are studied. The potential effects of such programs on society are examined with reference to community development. Special emphasis is given to societal change as it relates to education as a way of life.

### 2900 Introduction to Statistics in Education (PE,PS,ME)
A laboratory course which takes a practical case study approach to survey and quasi-experimental quantitative methods in education, together with supporting statistical concepts of probability, descriptive and inferential statistics sampling and sampling distributions, correlation and bivariate regression.

### 3001 Supervised Practice Teaching in Native Schools I (T)
A four month period as a teaching assistant involved in the preparation of teaching materials, teaching assigned lessons and participating in other activities related to the duties of a teacher. This session is to be under the direction of a co-operating teacher and a university professor.

### 3002 Supervised Practice Teaching in Native Schools II (T)
A four month period as a teaching assistant involved in the preparation of teaching materials, teaching assigned lessons and participating in other activities related to the duties of a teacher. This session is to be under the direction of a co-operating teacher and a university professor.

### 3007 Teaching Strategies in Native and Northern Schools (T,NPE,NS)
Provides technology education students with opportunities to apply current teaching and learning strategies to the issues surrounding traditional and emerging energy technologies. Major topics of study include: fundamentals of sustainable energy production and control, redevelopment and utilization of traditional energy sources, application of solar energy, wind power production, and fuel cell development and utilization.

#### CR: the former ED 3001

### 3009 Drama Education in the Primary and Elementary Grades (PE,ME)

#### 3040 The Assessment and Development of Children's Language Abilities (PE,SE)
Focuses on techniques for assessing language abilities in primary and intermediate/secondary students and will provide models for developing strategies in implementing language instruction appropriate to students’ needs.

#### PR: ED 4350, 3543, or the former 3540 or 3545

### 3050 The Teaching of French as a Second Language in the Primary and Elementary Grades (PE,ME)
An introduction to the general principles of second-language teaching, to the curriculum materials currently prescribed for use in the schools, and to a consideration of teaching strategies and evaluation techniques associated with these materials.

#### OR: for students completing the Bachelor of Education (Primary/Elementary) as a Second Degree, French Immersion Option

#### PR: French 2101

### 3052 and 3053 Institute for Teachers of Core French in the Elementary Grades (PE) - inactive course

### 3120 Foundations of Art Education (PE,ME,NS)
Develops an understanding of art in relation to current theories of education and art education and to provide individual exploration of an experience in art making techniques. Course will be examined with the focus on understanding how to provide favourable conditions and experiences for high quality individual development in visual expression.

#### CR: the former ED 2020, the former ED 3110, the former ED 3112

### 3131 Music Education in the Primary/Elementary Grades (PE)
Designed to provide the prospective primary/elementary classroom teacher with the knowledge, skills and understanding required to present basic music concepts and skills to students and for using music as a means for teaching or enriching other areas of the curriculum. Course work will include study in three facets of general classroom music: scholarship of the discipline, musicianship, and classroom methodology.

#### CR: former ED 3130

### 3140 Creative Arts (T,MEPE) - inactive course

### 3150 Bilingualism: Linguistic, Cognitive and Educational Aspects (PE) - inactive course

### 3210 Introduction to Guidance Services (PE)
Introduces to guidance services in the modern school with specific emphasis on its history, purpose, basic concepts and principles, and services. Students are introduced to the nature of counselling, ways of developing effective interpersonal relationships within the school environment, and the role of the school counsellor and other educational personnel in the provision of guidance services.

### 3211 Introduction to Career Education (PE)
An introduction to contemporary concepts and practices of career education and to theories of career development. Emphasis is on the practical application of theory to basic principles to the design and delivery of career education programs and to career counselling. Attention will be given to continuing career counselling and career development needs of individuals as well as to groups with special needs.

#### CR: the former ED 4906

### 3255 Child Abuse and the School-Age Child (PE)
Preparation to work with children who have been abused. Discussion of the social, emotional, physical, and educational implications of abuse. Discussion of preventive programs and resources.

### 3273 Science in the Primary/Elementary Grades (PE)
A practical course designed to develop approaches to Science teaching based on student investigation of scientific phenomena. Examples are drawn from both provincial and other major curricula.

#### CR: the former ED 2180, the former ED 3270, the former ED 3275

### 3280 Educational Assessment (AL,PS)
A study of the broad spectrum of educational assessment fociocising specifically on the development of objectives, the construction and use of formal teacher-made tests, the use of informal assessment techniques, the interpretation and application of assessment data, continuous evaluation, criterion-referenced measurement, and emerging trends in assessment.

#### CR: the former ED 4912

### 3281 Tests and Measurements (T,NPE,NS) - inactive course

### 3290 Identifying Learner Diversity Within a Context of Culture (PE) - inactive course

### 3312 Language Arts in the Primary/Elementary School I (PE)
Provides students with a holistic view of the learning and teaching of language arts (i.e., the receptive language abilities of viewing, listening and reading, and the expressive language abilities of speaking and writing). This course will help students develop a theoretical perspective on two major aspects of language, that being “knowledge of language” (i.e., knowledge of the structures of language) and “knowledge about language” (i.e., knowledge about attitudes and perceptions towards language and the various purposes of language). This course will extend students’ understanding of the importance of the home/community influence upon emergent and developmental literacy and language development.

---

**AR** = Attendance requirement; **CH** = Credit hours are 3 unless otherwise noted; **CO** = Co-requisite(s); **CR** = Credit can be retained for only one course from the set(s) consisting of the course being described and the course(s) listed; **LG** = Lecture hours per week are 3 unless otherwise noted; **LH** = Laboratory hours per week; **OR** = Other requirements of the course such as tutorials, practical sessions, or seminars; **PR** = Prerequisite(s); **UL** = Usage limitation(s).
CR: the former ED 2210, the former ED 2220, the former ED 3305, the former ED 3315

3321 Native Literature (T,NPE) is an examination of Native literature with special emphasis on writings of Native peoples for Native children. Literature which represents the various points of view will be examined in the light of historical and current developments in Native and northern conditions.

3322 Children's Literature in the Primary/Elementary School (PE) focuses on the personal and educational values for using children's literature in the classroom, examines the literary genres appropriate for primary/elementary children and explores meaningful literary extensions to develop children's literacy strategies and skills. In addition, the course examines guidelines for evaluating children's literature for literary and aesthetic qualities. Instructional strategies to integrate children's literature across the curriculum are explored.

PR: the former ED 2080, the former ED 2065, the former ED 3310, the former ED 3320

3440 Organization and Administration of Programs in Adult Education (PS) examines alternative provincial or regional methods of organization for the provision of Adult Education, including the statutory framework within which Adult Education functions.

3484 Computers and Learning Resources for Primary/Elementary Teachers (PE) focuses on the integration of computer software and other learning resources into primary/elementary school teaching. Laboratory components will be scheduled so that students may learn how to use and implement communications, applications and curricular software.

PR: the former ED 3480, ED 3901, the former ED 4480, the former ED 4905

3515 Current Approaches to Reading in the Primary and Elementary Grades (PE) - inactive course.

3542 Reading in the Primary and Elementary Grades (NPE) - inactive course.

3543 Language Arts in the Primary/Elementary School II (PE) provides students with a social-psychological perspective on children's learning to read, reading and writing to learn. Students will explore current and traditional models of the reading process and the importance of home/school/community contexts for fostering literacy learning. Students will apply instructional strategies for children's learning of story, book and print concepts, word identification, fluency, vocabulary development, and comprehension for a variety of texts.

PR: the former ED 2110, the former ED 2120, the former ED 3540, ED 3542, the former ED 3545

3565 Gender and Schooling (PE) is an introduction to the study of gender and schooling. It includes an historical overview of the link between gender and schooling as well as an examination of contemporary theoretical perspectives and research relating to the role of the school in gender development in general and gender inequality in particular. Implications for educational policy and practices will also be explored.

PR: ED 3512

3570 History of North American Education (PE) - inactive course.

3571 The History of Education in Newfoundland Since 1800 (PE) - inactive course.

3573 History of Native and Northern Education in Canada (PE,NPE,NS) - inactive course.

3585 Multiculturalism and Education (PE) - inactive course.

3600 Academic and Behavioural Assessment (SE) applies the theories of test development in establishing a competent understanding of the utilization of diagnostic and prescriptive instruments as well as teacher-made tests as they apply to the area of exceptional children.

AR: attendance is required

3610 Nature and Characteristics of Intellectual Disabilities (SE) aims to provide an understanding of the nature and characteristics of intellectual disabilities and the psycho-social implications of this area of exceptionality.

PR: ED 2710 and ED 2730

3611 Nature of the Primary/Elementary School Child - Development (ME,PE) provides an introduction to the origins of many aspects of child behaviour, growth, and development. The primary emphasis is on the nature and characteristics of the development of the "normal" child, where appropriate, contrasts and comparisons will be made between the development of "normal" and "exceptional" individuals.

CR: the former ED 2610, the former ED 3240

3619 Nature of Primary/Elementary School Child - Learning and Cognition (SE) provides an introduction to the origins of many aspects of child behaviour, growth, and development. The primary emphasis is on the nature and characteristics of the development of the "normal" child, where appropriate, contrasts and comparisons will be made between the development of "normal" and "exceptional" individuals.

CR: the former ED 2610, the former ED 3240

3620 Nature and Characteristics of Emotional/Behavioural Disorders (SE) includes an examination of procedures for the early identification of children and young people with behavioural disorders and major systems of classification of behaviour problems. It will also include an analysis of: aberrant adjustment mechanisms, deviant development and specified behaviour problems with implications for therapeutic education.

PR: ED 4240, or the former ED 3220 or ED 3230

3630 Nature and Characteristics of Learning Disabilities (SE) examines our theoretical understanding of the nature and characteristics of learning disabilities. It explores contemporary understandings, assessment identification approaches, and current research as it relates to educational practice.

CR: the former ED 3231

3640 Current Issues in Special Education (PE,SE) consists of a study of special and selected problems related to the teaching of special education with particular emphasis placed on special education within the Province of Newfoundland and Labrador.

PR: ED 4240, or the former ED 3220 or ED 3230

3750 Practicum in Special Education (SE) encompasses a practice experience with students who have an identified exceptionality. The emphasis will be on a supervised field placement in a special education position within a school setting.

PR: completion of 18 credit hours in Special Education including ED 3600

3760 A Study of the Gifted Child (PE,ME,SE) is an examination of the nature and characteristics of gifted children, with emphasis upon methods of identifying gifted children, implications of giftedness for learning and instruction and reviews of several educational programs for the gifted.

3860 Inclusive Practices for Students with Autism Spectrum Disorder (ASD) (SE) examines the nature of ASD with particular focus on methods of behavioural assessment, use of assistive technology and specific therapy techniques. Support programs will be considered within an ecological context that prioritizes collaborative planning with parents and other therapeutic agents.

3890 Collaborative Practice (SE) examines the theoretical and practical aspects of collaborative practice within an interagency model of case planning for students with diverse learning needs. Emphasis is on the issues of power/empowerment, consultation, communication, conflict resolution, problem-solving, advocacy and collaboration. Perspectives of parents and families, educators, and community resource professionals will be explored. The course strives to create a family-focussed approach to effective planning in contemporary schools.

AR: attendance is required

3891-3899 Special Topics Courses in Special Education (SE) to be announced by the Faculty of Education.

3710 Group Instruction in Post-Secondary Education (PS) is an in-depth study of various methods of group instruction; planning and presenting demonstration teaching units; practice in techniques of group instruction.

PR: ED 2710 and ED 2730

3720 Individualized Instruction in Post-Secondary Education (PS) is a study of the various systems of individualized instruction; the theoretical basis for individualizing courses, individual differences, organizing individualized courses, selection and development of materials, management of individual student progress.

PR: ED 2710 and ED 2730

3730 Curriculum and Instructional Development in Post-Secondary Education (AL,PS) examines social, cultural, philosophical, and economic forces influencing changes in Post-Secondary curriculum and instructional methods. Study of current Post-Secondary Education curriculum designs, problems and trends; methods of gathering curriculum information; procedures for revising and evaluating a curriculum.

PR: ED 2710 and ED 2730

3750 Intermediate Design and Materials Processing Technology (SI) provides opportunities to apply current teaching and learning strategies within the technology education laboratory environment. Technology education students will examine lab trends that are impacting society's ability to expand and maintain today's infrastructure. Innovative teaching methodologies will be utilized to facilitate further investigation of the opportunities offered in skilled trades. Topics include: Red Seal Certification, print reading and application of the National Building Code within selected skilled trades. This course is normally offered in a three week accelerated format in the Summer Session.

AR: attendance is required

OR: WHMIS training. Information can be obtained from the Office of
3751 Teaching Intermediate Communication Systems (ISI) examines the application of communication techniques through the various forms of media available. Technology education students will engage in activities that will provide an introduction into how current teaching and learning strategies can be blended with contemporary communication devices and means to facilitate collaborative lifelong learning. Topics include: web based multimedia, graphic design, audio/video production, animation production and social networking applications. This course is normally offered in a three week accelerated format in the Summer Session.
CR: Attendance is required

AR: Attendance is required

3801 Educational Media (AL,PS) introduces audio visual communications with emphasis on equipment operation and basic local production of instructional materials; and the application of computers to education.
CR: the former ED 3480, ED 3484, the former ED 4480, the former ED 4905

3920 Instrumental Teaching Methods (ME) examines current pedagogical practices, procedures, and resources for teaching brass, woodwinds, percussion, and strings in both band and orchestral school settings. Emphasis is placed on the development and comprehensive instruction of the band and orchestral school programs. This course will be taught in French
PR: ED 3951

Elementary) as a Second Degree, French Immersion option this course will be taught in French
PR: ED 3951

3961 Social Studies in Native and Northern Schools (T,NPE) will include an exam in the planning, appropriate teaching strategies for the evaluation of pupil learning in the social studies within those contexts, in addition to exploring the nature and purposes of social studies education in Native and northern schools.
CR: the former ED 2150, the former ED 3960

3962 Social Studies in the Primary/Elementary School (PE) is an introduction to the social studies program at the primary/elementary school level. Topics to be explored include the nature and purposes of social studies curricula, approaches to teaching and learning in this curricula area, selecting and utilizing learning resources, and conducting assessment in the social studies.
CR: the former ED 2160, the former ED 3960

4005 Effective Teaching and Learning Environments (IS,ISI) introduces the principles, dispositions, and skills needed to create various types of effective learning environments. Topics include: professional relationships, decision making, classroom management, and models of teacher power.
PR: successful completion of the professional year. Students must have completed the French Immersion Option to be assigned to a French Immersion classroom.

4020 Issues and Trends in Native Education (NPE,NS) is a seminar course dealing with research, current problems and issues associated with Native Education within a Canadian, and in particular, a Newfoundland and Labrador context.
PR: ED 2500, ED 2515, ED 2520, ED 3920, ED 3925 and any additional requirements as outlined in the letter of acceptance to the music education program

403X Internship in Music Education (ME) (equivalent to 15 credit hours in Education) is a one semester internship in one or more schools to provide students the opportunity to work in choral, classroom, and instrumental teaching contexts in primary, elementary, intermediate, and/or secondary school settings.
AR: Attendance is required. With respect to holidays, interns follow the schedule of the school and not that of the University.
PR: students may not be placed in the first school of choice and may be assigned to another appropriate school.
PR: successful completion of the professional year. Students must have completed the French Immersion Option to be assigned to a French Immersion classroom.

404X Internship in Native and Northern Education (NPE,NS) (equivalent to 15 credit hours in Education) is a one-semester internship in a school setting that will enable students to become directly involved in the teaching/learning process through observation and practice. Activities during the semester will involve seminars to assist students in the assessment of teaching methodologies most appropriate for the curriculum in Native schools. Student placement will be in a school setting depending upon the program route which students have followed.
AR: Attendance is required. With respect to holidays, interns follow the schedule of the school and not that of the University.
PR: see Bachelor of Education (Native and Northern) Degree Regulations

405T Introductory Internship in the Intermediate and Secondary School (IS,ISI) is a 10 (consecutive) school day teaching and learning experience, framed by explicit guidelines, that focuses on key learning experiences and graduated responsibilities related to professional teaching. It includes both observation periods and initial teaching experiences.
AR: Attendance is required. With respect to holidays, interns follow the schedule of the school and not that of the University.
CH: 12
CR: the former ED 405X
OR: Interns completing the Bachelor of Education (Intermediate/
4120 The Teaching and Learning of Art in the Intermediate and Secondary School (IS,ISI,ME) introduces the rationales for teaching art and examines contemporary art teaching practices. Teacher candidates will examine their roles as artist-teacher and teacher-artist, as well as explore learning options and through art. Topics include curriculum implementation; instructional planning; managing the learning environment; assessment and evaluation; safety; arts advocacy; and visual, artistic and technological literacies.

4121 The Teaching and Learning of Theatre Arts in the Intermediate and Secondary School (IS,ISI,ME) engages teacher candidates in developing their role as theatre artist/teacher. Topics include: beliefs informing the practice of theatre arts in the context of school; related pedagogies and educational practices in dialogue with the art form of drama; process drama and theatre education, an interdisciplinary relationship; implementation planning strategies; communication style and facilitative language.

4142 The Teaching and Learning of the English Language Arts in the Intermediate and Secondary School (IS,ISI,ME) draws on research in the teaching of English/languages and literacy to prepare teacher candidates to develop engaging, differentiated experiences for students. Topics include: curriculum; the nature and structure of language and literature programs; test analysis, response and critique; writing and representing genres in multimodal and linguistic; media literacy forms; and oracy.

4151 Advanced French Methodology (IS,ISI,NS) is an in-depth analysis of the nature and purpose of the French program. Topics include a brief overview of the history of French teaching methodologies, an introduction to the research literature, an evaluation of techniques, and a consideration of issues facing the teaching of French. 
PR: ED 4154 or permission of the Office of Undergraduate Student Services

4154 The Teaching and Learning of French in the Intermediate and Secondary School (IS,ISI,ME) provides an introduction to the nature and purpose of French Education in Canada, an examination of the purpose of core French and French immersion; theories and principles of second-language teaching and learning; methods; techniques; strategies and characteristics of effective planning and assessment in second-language teaching. 
OR: this course will be taught in French

4155 Introduction to Teaching in French Immersion in the Primary and Elementary Grades (PE,ME) is an overview of the development of French immersion programs and an examination of current models for organization and practice. This course will focus on methods and strategies for content-based teaching in immersion, integrating the formal aspects of French language teaching into content-based teaching; and integrating culture, strategy training and language awareness into immersion curricula. Additional topics will include assessment of/for learning and effective technology integration in French Immersion.
PR: this course will be taught in French
PR: acceptance to the French Immersion Option or permission of the Office of Undergraduate Student Services

4161 The Teaching and Learning of Mathematics in the Intermediate and Secondary School (IS,ISI,ME,NS) introduces teacher candidates to the principles, dispositions, and skills necessary to teach mathematics. Topics include: the nature of mathematical knowledge, learning principles, mathematics pedagogy, curriculum, instructional planning, and evaluation in mathematics.

4174 The Teaching and Learning of Science in the Intermediate and Secondary School I (IS,ISI,PS) provides a context for teacher candidates to develop a greater understanding of the nature of scientific knowledge and how it is generated, explore the rationale(s) for the inclusion of the nature of science as a goal of scientific literacy, analyse research that reports on teachers’ and students’ views about the nature of science, and examine the potential of a range of pedagogical approaches for helping all learners in science develop a greater understanding of the nature of science. Topics include: philosophy, history, and sociology of science; the nature of science (definitions and beliefs); and the nature of science in the classroom.
CO: ED 4174

4180 The Teaching and Learning of Social Studies in the Intermediate and Secondary School I (IS,ISI,ME,NS) examines the theory and practice of social studies education. This course will use case studies to apply the principles of effective teaching and learning in the social studies classroom. Topics include: the nature and purpose of social studies education, specific teaching strategies, and instructional planning and evaluation.

4181 The Teaching and Learning of Social Studies in the Intermediate and Secondary School II (IS) examines the separate disciplines of social studies. Topics include: the evolution and nature of social studies education, current issues and trends in the area and various teaching strategies and assessment techniques appropriate to the discipline.
CO: ED 4180

4190 The Teaching and Learning of Physical Education in the Intermediate and Secondary School (IS,ISI,ME) applies the principles of effective teaching to the teaching and learning of physical education. Topics include: examining theories and principles of physical education curriculum, an analysis of quality daily physical education, approaches to teaching physical education, and evaluation of progress in physical education.
OR: two hours per week supervised practice teaching on-campus and/or in a school setting

4203 The Teaching and Learning of Religious Education in the Intermediate and Secondary School (IS,ISI,ME) applies the principles of effective teaching to the teaching and learning of religious education. Topics include: formulating objectives, examining theories of faith and moral development, selecting and using resources, and evaluating learning.

4205 Religious Education in Primary and Elementary Grades (PE,ME) is an introductory study of aims and objectives, subject matter, curriculum materials, teaching methods, learning experiences, and evaluation for Religious Education courses.
OR: the former ED 2080

4220 The Teaching of Innu-aimun I (T,NPE,NS) - inactive course

4221 The Teaching of Innu-aimun II (T,NPE,NS) - inactive course

4230 The Teaching of Innu-aimun I (T,NPE,NS) - inactive course

4231 The Teaching of Innu-aimun II (T,NPE,NS) - inactive course

4240 An Introduction to the Exceptional Learner (IS,ISI,ME) is an introductory study to the nature of exceptionality in the student. This course will include an examination of special needs resulting from exceptionality, approaches to meeting the special needs, issues of exceptionality, and a consideration of selected categories of exceptionality.
OR: the former ED 3220, the former 3230, the former ED 4902

4242 Identification and Remediation of Learning Difficulties (IS,ISI,PE) examines processes and remediation techniques appropriate for dealing with student learning difficulties. Topics include identification of learning difficulties, the process of program planning, and the application of teaching and learning strategies to specific subject areas. 
PR: ED 4240 or the former 3220 or 3230

4250 Religious Education in Primary and Elementary Grades (PE,ME) applies the principles of effective teaching to the teaching and learning of religious education. Topics include: formulating objectives, examining theories of faith and moral development, selecting and using resources, and evaluating learning.

4260 Engaging the Adolescent Learner (IS,ISI,ME) considers the unique learning contexts and characteristics of learners through the span of adolescence, from early adolescence to young adulthood. It focuses on the intersection of psychological aspects of adolescence with biological, social and cultural, as well as cognitive and affective aspects in order to understand, to engage, and to effectively teach the adolescent learner. The implications of these unique periods for creating effective teaching and learning environments in both intermediate and secondary classrooms will be considered.

4300-4310 Special Topics Courses in Primary/Elementary (P/E) have topics to be offered announced by the Faculty of Education.

4330 Curriculum and Instruction in Native and Northern Schools I (T,NPE,NS) reviews the principles of and techniques for curriculum development. Adaptation or reformulation of these will be made in the light of the needs and desires of Native peoples. Critical analysis will be made of curriculum resources presently in use. Instructional materials will be prepared and produced with emphasis on printed materials relevant to the experiential background of the Indian and Inuit child.
4331 Curriculum and Instruction in Native and Northern Schools II (PE,NPE,NS) is an in-depth examination of innovations in curriculum and instruction in Native communities within Canada. Emphasis will be placed on projects in planning and instructional material, to be conducted in conjunction with school personnel already in the field. This course would serve as a valuable resource to school systems involved in curriculum planning and instructional development.

4350 Reading in the Content Areas (IS,ISI) examines the nature of reading in specific areas such as history, biology, and mathematics. Topics include the role of the teacher in the teaching of content in different areas, evaluating vocabulary, grammar, usage and text structure for instruction, and analysing the variety of strategies for reading, writing and studying.

4362 Sociological Perspectives on Teaching and Learning (PE,ME) is an examination of such social issues in education as poverty, child abuse, gender, ethnicity, and changes in the society and their implications for the nature and process of schooling. A study of social dimensions of education, including the content of education and the organization of teaching and learning. An analysis of students' experiences in the internship with regard to the above and other aspects of education the students might identify.

4381 Perspectives on Education (IS,ISME) examines educational theory, practice and policy from the disciplinary perspectives of sociology, history and/or comparative education. Its aim is to foster an appreciation of the intrinsic value of these specific forms of inquiry as contributors to contemporary understanding of educational enterprise. Topics include: ethical and epistemological considerations related to areas such as critical pedagogy, educational opportunity, educational reform, change and social justice.

4383 Philosophy of Teaching and Learning (PE,ME) examines a number of central philosophical concepts, assumptions and issues involved in the pursuit of teaching and learning in the classroom. The aim of the course is to provide students with an understanding of the distinctive character of philosophical analysis as a reflective and critical practice that intends to promote professional excellence and personal well-being.

4390 Diversity, Social Justice, Teaching and Learning (IS,ISI) examines the intersection of multiple and inter-related forms of social and cultural diversity such as those related to social class, ethnicity, gender, ability, sexual orientation and national identity. The course explores ways to create effective equitable learning environments through renewed, culturally responsive and respectful policy; critical, reflective and anti-discriminatory teaching; and more inclusive, socially critical curriculum.

4420 Legal and Moral Issues in Education (PE) examines educational law and sources of conventional morality for the purpose of claryfying individual stances on legal and moral issues. Topics include: the nature and theoretical bases of law and morality in education, the legal foundations of the Canadian education system, the legal and moral rights and responsibilities of teachers and students, and teacher liability.

4425 Introduction to Educational Administration (PE) is an examination of the role of government in Education; theories of administration; management as it relates to curriculum, organization, personnel, finance, and communication; and their implications for teachers in the Newfoundland context.

4427 Professional Leading and Learning in the School Organization (IS,ISI) explores the theory and practice of school organization and its effect on teaching and learning and provide opportunities for teacher candidates to become reflective learners and teacher leaders. Topics include: parents and families, communities and schools; law and education; resources in education; policy and politics; teacher leadership, school and system administration; and the teaching profession.

4450 Practicum in Adult Education (PS) is on-the-job supervised activities designed to have the student implement the theory and principles of Adult Education.

4505 Transition Planning for Adolescents with Intellectual Disabilities (SE) focuses on the application of educational procedures relevant to successful post-secondary education, employment and community interactions for adolescents and young adults with mild and moderate developmental disabilities. Appropriate senior high programming, life skills development, use of assistive technology and resource materials necessary for transition planning for this population will be reviewed.

4510 Inclusive Practices for Students with Mild Intellectual Disabilities (SE) gives consideration to the establishment of objectives; selection, development and review of materials; the use of various instructional strategies; assistive technology and the provision of appropriate experiences for the development of students with mild intellectual disabilities.

4515 Inclusive Practices for Students with Moderate Intellectual Disabilities (SE) focuses on inclusive educational practices for students with moderate intellectual disabilities. Emphasis will be placed on the development, implementation and management of a well-balanced individualized curriculum as articulated in an individual educational plan.

4520 Inclusive Practices for Students with Behavioural Challenges (SE) examines programme strategies for students with behavioural issues. This will include counseling services, case conferences, structured learning environments, use of assistive technology and therapeutic interventions for specific behaviour problems. In addition, consideration will be given to collaboration with mental health providers and procedures to develop readiness for return to regular instructional programs.

4530 Inclusive Practices for Students with Learning Disabilities (SE) involves methods, use of assistive technology, programming practices as they pertain to reading, writing, language, mathematics, social skills, and metacognitive skills for students with identified learning disabilities.

4540 Inclusive Practices for Students with Speech/Language Disorders (SE) examines the theories sound and research-based methods for the identification and remediation of speech and language concerns in children and adults. Topics include: the nature of development concerns for both speech (articulation, voice and fluency) and language (receptive, expressive and phonetic awareness); social use of language; and use of assistive technology. Particular focus will be placed on current interventions/strategies and programs/models. The course is aimed at supporting teachers in developing effective individualized programs.

4541 Communication for the Deaf - inactive course.

4543 Inclusive Practices for Students with Hearing Loss (SE) examines the effects of hearing loss on learning and language development in students and the resulting programming implications for the inclusive classroom. The course strives to prepare teachers to identify the needs of students with various degrees of hearing loss and develop effective programs to accommodate their needs. The use of assistive technology such as hearing aids, cochlear implants and other assistive listening devices will be discussed.

4610 The Nature and Management of Stress (PE) studies the nature of stress as it is manifested in the teacher and the teaching profession, and the conditions that contribute to coping with stress as it is manifested in the teacher and the teaching profession, and the conditions that contribute to coping effectively with the factors which are related to that stress. Topics include the nature of the human stress response, causes and symptoms of stress (personal and professional), self-assessment techniques, and a selection of approaches available to cope with stress as it is manifested in the teaching profession.

4620-4639 Institutes in Intermediate and Secondary Education (IS) will be topics announced by the Faculty of Education. These institutes may follow a schedule that falls outside of the normal teaching semester.

4700 Student Teaching in Post-Secondary Education (PS) applies theories of education in the learning situation; observation and demonstration of lessons; seminars in teaching techniques. PR: ED 2710, ED 2720, and ED 2730, and ED 3801, or equivalent teaching experience and permission of the course instructor.

4710 Recurring Issues in Post-Secondary Education (PS) identifies, analyses, and discusses major issues, practices and problems in Post-Secondary Education provincially, nationally, and internationally.

4730 Educational Programs and Practices in Industry and Labour (ALPS) is a study of the various Post-Secondary Education programs operated either wholly by industry and labour or jointly with educational institutions.
4750 Integrated Materials and Production Processes (ISI) provides technology education students with opportunities to examine current teaching and learning strategies applicable to intermediate and secondary technology education programs. The course will focus on advanced materials processing using Computer Numeric Control (CNC) devices. Students will receive practical instruction in the use of fluidic control systems that are used in many manufacturing processes. Topics include: CNC production processing, fluidic control systems, and application of the design process and portfolio development. This course may follow a schedule that falls outside of the normal teaching semester.

AR: attendance is required
CR: the former ED 4912

4752 Teaching Robotics Systems (ISI) is designed to provide technology education students with an understanding of key concepts in robotic development and control applications. Students will complete practical activities that promote development of the skills necessary to deliver a comprehensive program in this area of study. Topics include: the study of electrical energy, analog and digital electronics; fabrication techniques; object oriented/event driven programming; and wireless robotic control over Internet Protocol (IP). This course may follow a schedule that falls outside of the normal teaching semester.

AR: attendance is required
CR: the former ED 4912

4753 Teaching Residential Construction Technology (ISI) provides technology education students with opportunities to apply current teaching and learning strategies while developing the skill set necessary to deliver a comprehensive program in residential construction technologies. Topics include: shop and site safety, print reading and interpretation, basic residential framing techniques, installation of exterior construction features, installation of interior environmental applications, and energy control systems. This course may follow a schedule that falls outside of the normal teaching semester.

AR: attendance is required
CR: the former ED 4912

4760-4780 Advanced Specialized Post-Secondary Education Technologies (PS) examines the theory and practice of selected advanced specialized Post-Secondary Education technical skills and their application to the laboratory, workshop and business office. Emphasis will be placed on innovative and emerging techniques in selected areas of business, industry, and the service occupations.

4830 Music Education Seminar (ME) examines, through inquiry, reflection and synthesis, the foundations of music education common to all levels and contexts of school music. The focus is the bridging of theory, philosophy, and practice in music education. Topics include current issues; challenges and opportunities in music education(provincial, national, and international); interdisciplinary and integrated arts education; cultural pedagogy, diversity, and social justice in education; and teacher professional development. Additional modules will be designed to meet teacher candidates’ needs and interests.

4901 Effective Teaching Strategies for Multi-grade/Multi-age Classrooms (PE) begins with a critical examination of traditional approaches to multi-grading. The main focus of the course will be to introduce teachers to the potential of adopting a multi-age approach in small schools which have of necessity grouped children of more than one age group and grade level together for instruction. This course will also examine the implications of implementing a philosophy of multi-age pedagogy in the primary, elementary and intermediate grades (K-9).

4950 Assessment for Learning (IS,ISI) introduces the theory and practice of evaluation and assessment in educational settings. Topics include the nature of classroom assessment, production, administration and evaluation of teacher-made tests and other assessment tools; product and performance assessment; grading and reporting communication of evaluation information; and the analysis and application of assessment data to instructional planning and the improvement of teaching.

CR: the former ED 4912

4970-4980 Special Topics Courses in Intermediate/Secondary (IS) will have topics offered announced by the Faculty of Education.

5000 The Teacher Development Seminar (IS,ISI) provides teacher candidates with an opportunity to frame, conceptualize and articulate educational issues; reconsider the purposes of education; reflect on teaching and learning; and develop and display artifacts that document learning, professional knowledge and practice; and teacher identity. Teacher candidates are expected to participate in a series of critical reflective seminars and workshops, and to create an electronic portfolio (e-portfolio). Topics include: critical reflection, professionalism and ethics in teaching, and teacher identity.

AR: attendance is required
CR: seminars, workshops and other professional development sessions

Dean
Naterer, G. F., B.Math., M.A.Sc., Ph.D. Waterloo, FCSME, FASME, FEIC, P.Eng.; Professor, Mechanical Engineering

Associate Dean (Undergraduate Studies)
Fisher, A.D., B.Sc. Queen's, M.Eng. McMaster, FEC, P.Eng.; Associate Professor, Mechanical Engineering

Associate Dean (Graduate Studies)
Lye, L.M., B.Sc. (Hons.) Bolton Inst., Ph.D. Manitoba, FCSCE, FEC, P.Eng.; Recipient of the President's Award for Distinguished Teaching, 2003-2004; Recipient of the President's Award for Exceptional Community Service, Awarded 2014; Professor, Civil Engineering

Associate Dean (Research)
Husain, T., B.Sc.Eng. (Hons.) Aligarh, M.Eng. AIT Bangkok, Ph.D. British Columbia, P.Eng.; Professor, Civil Engineering

Director, Ocean Engineering Research Centre
Qiu, W., B.Eng., M.A.Sc. Dalhousie, P.Eng., Professor, Ocean and Naval Architectural Engineering

Director, Industrial Outreach
Bruneau, S.E., B.Eng., M.E.Sc. Western Ontario, Ph.D. Memorial, P.Eng.; Associate Professor, Civil Engineering

Senior Administration Officer
Elliott, B., B.Com. Memorial

Professors Emeriti
Jordaan, I.J., B.Sc. (Eng.), M.Sc. (Eng.) William and Mary, P.Eng.; University Research Professor, Awarded 1997

Honorary Research Professors

Department of Civil Engineering
Head of the Department
Hussein, A., B.Sc.(Eng.) Ain Shams University, M.Eng., Ph.D. Memorial, P.Eng.; Associate Professor

Associate Professors
Hawlader, B.P., B.Sc.(Eng) BUTE, M.Eng. AIIT, Ph.D. Yokohama National, P.Eng.

Assistant Professors
Hassan, A.A.A., B.Sc., M.Sc. Ain Shams University, M.A.Sc., Ph.D. Ryerson University, P.Eng.
Zhang, B., B.Sc.(Hons.), M.Sc. Jilin University, Ph.D. Regina

Adjunct Professors
Khan, A., B.Sc. AMU, M.Sc. KFUPM, Ph.D. Memorial, P.Eng.
Lee, K. B.Sc. Dalhousie, M.Sc., Ph.D. Toronto
Paulin, M. B.Eng, M.Eng, Ph.D. Memorial, P.Eng.

Cross Appointment
Phillips, R., B.Sc.(Hons.) Bristol, M.Phil., Ph.D. Cambridge, P.Eng.

Department of Electrical and Computer Engineering
Head of the Department

Professors
Gosine, R.G., B.Eng. Memorial, Ph.D. Cambridge, FCAE, FEC, P.Eng.; Recipient of the President's Award for Outstanding Research, 1997-1998, Petro-Canada Young Innovator Award, 1998; J.I. Clark Chair; Associate Vice-President (Research)
Heys, H.M., B.Sc. Western Ontario, Ph.D. Queen's, P.Eng.
Iqbal, M.T., B.Sc. UET Lahore, M.Sc., OAU Islamabad, Ph.D. Imperial College, London, P.Eng.

Senior Administration Officer
Elliott, B., B.Com. Memorial

Associate Professors

Assistant Professors
Anderson, J., B.Eng., M.Eng. Memorial, Ph.D. Cambridge
Huang, W., B.S., M.S., Ph.D. Wuhan University, M.Eng. Memorial

Adjunct Professors
Ordónez, M., Ing. UTM, M.Eng., Ph.D. Memorial

Cross Appointments
Chen, Q., B.Sc. Shanghai Jiao Tong University China, M.Sc., Ph.D. Shanghai Institute of Optics and Fine Mechanics, China (CRC Photonics); Cross appointment (Physics and Physical Oceanography)
McGuire, P., B.Sc. Ph.D. Toronto, P.Eng; Cross appointment (CORE)

Department of Mechanical Engineering
Interim Head of the Department
Muzyczka, Y.S., B.Eng. Memorial, M.A.Sc., Ph.D. Waterloo, P.Eng.; Petro-Canada Young Innovator Award 2004; Professor

Professors

Associate Professors
Rideout, D.G., B.Eng. Memorial, M.Sc.(Eng.) Queen’s, Ph.D. Michigan, P.Eng.; Recipient of the President’s Award for Distinguished Teaching, 2014-2015

Assistant Professors
Pope, K., B.Eng., M.A.Sc., Ph.D. University of Ontario Institute of Technology
Taylor, R.S., B.Eng. M. Eng, Ph.D. Memorial; Joint appointment (C-CORE)
Yang, J., B.Sc. Tsangshan Institute of Science and Technology, M.Sc. Southern Institute of Metallurgy, Ph.D. Tianjin University, P.Eng.

Adjunct Professors
Krouglicof, N., B.Eng.(Hons.), Ph.D. Concordia, P.Eng.

Cross Appointments
Kocabily, S., B.Sc., M.Sc. Middle East Tech., Ph.D. Western Ontario; Petro-Canada Young Innovators Award, 2000; Cross appointment with the Department of Mathematics and Statistics
Talimi, V., B.Eng. K.N. Toosi University of Technology, M.Sc. Mazendaran, Ph.D. Memorial, Cross appointment with C-CORE

Department of Ocean and Naval Architectural Engineering
Head of the Department
Colbourne, D.B., B.Eng. Memorial, S.M. MIT, Ph.D. Memorial, P.Eng.; Professor

Professors
Veitch, B.J., B.Eng., M.Eng. Memorial, Dr. Tech., Lic.Tech. Helsinki, P.Eng.; Recipient of the President’s Award for Outstanding Research, 2004-2005; Husky Energy Chair in Oil and Gas Research

Associate Professors
Bachmayer, R., Dipl.Eng. Technical University Karlsruhe, M.Sc., Ph.D. Johns Hopkins; Petro-Canada Young Innovators Award, 2009

Assistant Professors
Quinton, B., B.Eng., M.Eng. Memorial

Adjunct Professors
Akinturk, A., B.Sc.(Eng.) Istanbul Technical University, M.A.Sc. University of Newcastle Upon Tyne, Ph.D. University of British Columbia
Wang, J. M.Sc. Tanus National University, Ph.D. Memorial

Department of Process Engineering
Head of the Department
Khan, F.I., B.Sc.(Eng.) AMU, M.E. IIT Roorkee, Ph.D. Pondicherry, P.Eng.; Professor; Recipient of the President’s Award for Outstanding Research, 2013-2014; Recipient of the President’s Award for Excellence in Teaching and Graduate Supervision, 2014-2015; Vale Chair in Process Risk and Safety Engineering

Professors
Johansen, T.E., B.A.Sc., M.Sc., Ph.D. University of Oslo

Associate Professor
Shirokoff, J.W., B.Sc.(Eng.), Ph.D. Queen’s, P.Eng.

Assistant Professors
Ahmed, S., B.Sc., M.Sc. BUET, Ph.D. Alberta
Imliaz, S., B.Sc, M.Sc. BUET, Ph.D. Calgary, Ph.D. Alberta, P.Eng.
James, L.A., B.A.Sc.(Eng.) University of New Brunswick, M.A.Sc., Ph.D. Waterloo, E.I.T.; Chevron Chair in Petroleum Engineering

Adjunct Professors
Abd, M. B.Sc., M.Sc. Tehran Polytechnic, Ph.D. UBC
Lavoie, J.M., B.Sc., M.Sc., Ph.D. Laval

1 The Memorial University of Newfoundland Code
The attention of all members of the University community is drawn to the section of the University Calendar titled The Memorial University of Newfoundland Code, which articulates the University’s commitment to maintaining the highest standards of academic integrity.

2 Student Code of Conduct
Memorial University of Newfoundland expects that students will conduct themselves in compliance with University Regulations and Policies, Departmental Policies, and Federal, Provincial and Municipal laws, as well as codes of ethics that govern students who are members of regulated professions. The Student Code of Conduct outlines the behaviors which the University considers to be non-academic misconduct offenses, and the range of remedies and/or penalties which may be imposed. Academic misconduct is outlined in UNIVERSITY REGULATIONS - Academic Misconduct in the University Calendar.

For more information about the Student Code of Conduct, see www.mun.ca/student/conduct/conduct.php.

3 Faculty Description
The Faculty of Engineering and Applied Science offers a co-operative undergraduate program leading to the degree of Bachelor of Engineering, as well as graduate programs leading to the degrees of Master of Engineering, Master of Applied Science, Master of Engineering Management, and Doctor of Philosophy. The Faculty encompasses five academic departments: Civil Engineering, Electrical and Computer Engineering, Mechanical Engineering, Ocean and Naval Architectural Engineering, and Process Engineering. Through teaching, research and outreach, the Faculty of Engineering and Applied Science plays a critical role in the economic development of the Province, and graduates from the programs hold key positions in the major industrial developments in our Province. A growing number of our recent graduates are leading emerging high-technology companies and hold important positions in national and international industries and governments, contributing to the University's global impact. Research in the Faculty of Engineering and
Applied Science has a strong focus on research and development opportunities associated with the general technological needs of our society. The Faculty maintains a very strong sense of identity and cooperation among students, faculty, and staff, and prides itself on its strong linkages with industry and the engineering profession.

Additional information regarding the Faculty of Engineering and Applied Science is available at www.engr.mun.ca.

Students must meet all regulations of the Faculty in addition to those stated in the general regulations. For information concerning fees and charges, admission/readmission to the University, and general academic regulations (undergraduate), refer to the UNIVERSITY REGULATIONS.

3.1 Accreditation Status

Graduates of Memorial University of Newfoundland’s engineering programs have been enjoying the benefits of full accreditation with the Canadian Engineering Accreditation Board (CEAB) since 1975. The undergraduate programs offered by The Faculty of Engineering and Applied Science are fully accredited by The Canadian Engineering Accreditation Board (CEAB) of The Canadian Council of Professional Engineers (CCPE) to 2017.

3.2 Objectives of the Bachelor of Engineering Degree Program

The objectives of the undergraduate program are to provide students an excellent academic experience and to equip graduates with the ability to solve a broad range of problems in our rapidly changing technological, economic and social environment. To this end, the Faculty is committed to educate graduates who have:

1. a strong foundation and knowledge in engineering fundamentals with a capacity to know how, when and where to use the knowledge in specific ways;
2. an ability to identify, formulate, analyse and solve engineering problems and a capacity to integrate material from more than one subject and to apply appropriate engineering principles to arrive at correct and effective solutions;
3. a comprehensive knowledge in the fundamentals of engineering practice, including an ability to use analytical techniques, experimental and laboratory skills and modern engineering simulation and design software tools;
4. a broad knowledge of the principles and skills in engineering design, development and management in global, cultural and business contexts;
5. a multidisciplinary view with an ability to work effectively as members of teams, composed of individuals from different disciplines and different professional cultures;
6. strong oral and written communication skills with a capacity to produce effective technical documents and to use current communication techniques and tools;
7. a culture of life-long learning with a capacity to engage in continuous self-improvement, personal enrichment and professional development; and
8. a broad sense of social, ethical and professional responsibility with a capacity to demonstrate an understanding and appreciation of the human dimension of technology and its impact on mankind.

3.3 Academic and Professional Ethics

The Faculty of Engineering and Applied Science supports the highest standards of academic and professional ethics. Ethical behaviour encompasses integrity, conduct, respect, and professionalism, and also means that we will take responsibility for our learning and pursue academic goals in an honest and engaged manner. It is the principles, values, and expectations that we espouse as members of the Faculty and future professional engineers.

Guidelines for Academic Integrity and an Engineering Student Code of Conduct are available at www.engr.mun.ca/undergrad/academicintegrity.php.

4 Description of Program

The Bachelor of Engineering Degree at Memorial University of Newfoundland is a Co-operative Program in which regular full-time academic study is supplemented by four month periods of full-time work in positions related to the student's future career. The Bachelor of Engineering degree program is available in the following six majors: Civil Engineering, Computer Engineering, Electrical Engineering, Mechanical Engineering, Ocean and Naval Architectural Engineering, and Process Engineering.

Engineering One, the first-year of the engineering program, comprises courses in mathematics and basic science (physics and chemistry), as well as courses covering engineering fundamentals which are common to each of the majors. The engineering courses in Engineering One introduce students to engineering problem-solving, analysis, design, communication, and teamwork. Students will develop an understanding of the different engineering specialties, as well as the interdisciplinary nature of engineering practice.

The specialized major programs of Civil Engineering, Computer Engineering, Electrical Engineering, Mechanical Engineering, Ocean and Naval Architectural Engineering, and Process Engineering are offered in academic terms 3 through 8. Electives can be tailored to meet the needs of those who plan to go straight into industry and those who wish to join the increasing number of our graduates who are pursuing advanced degrees.

All courses of the Faculty are designated by the abbreviation ENGI.

4.1 Program of Study

1. Courses in the engineering program are normally taken in blocks as shown in the appropriate program table. Students must satisfy the criteria for promotion as described below under Promotion Regulations to remain in the Engineering program.
2. The Engineering Program consists of eight academic terms and four work terms. The first-year of the Engineering Program, known as Engineering One, forms a core that is common to all majors. All students must successfully complete the requirements of Engineering One prior to being promoted to Academic Term 3.
3. In 1000 level Engineering courses, registration priority is given to students who have been admitted to Engineering One. Other students will be admitted to these courses only with the approval of the Associate Dean (Undergraduate Studies).
4. In these program regulations, including the program tables, wherever reference is made to English 1080 or Chemistry 1050, these
5. Upon entering Academic Term 3, students begin to specialize in their academic program, in one of the following six majors: Civil Engineering, Computer Engineering, Electrical Engineering, Mechanical Engineering, Ocean and Naval Architectural Engineering, or Process Engineering. All Engineering students who successfully complete the Engineering One requirements during their first year of Engineering will be guaranteed a place in Academic Term 3, although not necessarily in the preferred major as indicated under Promotion Regulations, Promotion Status (Engineering One).

7. Engineering courses in Academic Term 3 and beyond (i.e., those with numbers 3000 and greater) are restricted to students who have been admitted or promoted to the appropriate academic term and major (e.g., Academic Term 3 for 3000 level courses, restricted by major). Other students will be admitted to these courses only with the approval of the Associate Dean (Undergraduate Studies) in consultation with the Head of the appropriate Department.

Some of the courses offered in academic terms 3 to 8 are taken by all Engineering students, others are offered for more than one major, but most technical courses in academic terms 3 to 8 are specific to the individual majors. Students should refer to the program descriptions for the detailed course requirements in each phase of their program.

8. Technical elective courses may be offered in terms other than those indicated in the program tables.

9. A student who has previously met a technical elective requirement in a given semester or wishes to defer it, may request an exemption or deferral by applying to the Associate Dean (Undergraduate Studies), who will consult the Head of the appropriate Department. A minimum grade of 60% is required for credit to be given towards a student's engineering program for any technical elective taken outside the normal blocks as shown in the tables.

10. Students registered in Academic Term 7 of any Engineering major are eligible to apply for admission to a Master of Engineering (M.Eng.) program. The purpose of the option is to encourage students interested in pursuing graduate studies to begin their graduate program while still registered as an undergraduate student. While enrolled in the option, a student may complete some of the M.Eng. Degree requirements and potentially be able to graduate earlier from the M.Eng. Program. For further details and the regulations governing the option, refer to the School of Graduate Studies, Regulations Governing the Degree of Master of Engineering.

### 4.2 Complementary Studies

1. The Complementary Studies component has been developed to make students aware of the function and responsibilities of the Professional Engineer in society and the impact that engineering in all its forms has on environmental, economic, social and cultural aspects of our society. This complements the technical expertise and communications skills developed and practised in all components of the program.

2. The Complementary Studies component is the same for all programs and consists of a minimum of 21 credit hours as follows:
   - English 1080 or English 1020
   - Engineering 3101
   - Engineering 4102 must be completed before Term 6 in the Civil and Process majors, and must be completed before Term 7 in all other majors
   - One 3 credit hour course that deals with the effect of technology on society and the environment. The course is to be chosen from Engineering 6101, Engineering 8151, Sociology 2120, Sociology 4107, Philosophy 2571 or the former Philosophy 2801
   - Engineering 7102
   - One Elective course of a 3 credit hour value chosen from the arts, humanities, social sciences and management and approved by the Associate Dean (Undergraduate Studies) of the Faculty of Engineering and Applied Science. List A is an approved list of courses maintained by the Office of the Associate Dean (Undergraduate Studies) of the Faculty of Engineering and Applied Science and is available at the website www.engr.mun.ca.
   - One Elective course of a 3 credit hour value chosen from the humanities and social sciences and approved by the Associate Dean (Undergraduate Studies) of the Faculty of Engineering and Applied Science. This course must be second-year or higher and it is intended to provide experience with the central issues, methodologies and thought processes of the humanities and social sciences. List B is an approved list of courses maintained by the Office of the Associate Dean (Undergraduate Studies) of the Faculty of Engineering and Applied Science and is available at the website www.engr.mun.ca.

3. In order to graduate, the student must obtain an overall average of at least 60% in the 21 credit hours in Complementary Studies courses required in the program.

### 4.3 Bachelor of Engineering Majors

The Bachelor of Engineering degree program is available in the following six majors: Civil Engineering, Computer Engineering, Electrical Engineering, Mechanical Engineering, Ocean and Naval Architectural Engineering, and Process Engineering.

#### 4.3.1 Civil Engineering

Civil Engineering deals with the planning, design, and construction of roads, railways, harbours, docks, tunnels, bridges, buildings, water supplies, hydroelectric power development, and sewage collection, treatment, and disposal systems.

The Civil Engineering major provides a broad introduction to the scientific principles and engineering techniques necessary for an understanding of the fundamental problems tackled by civil engineers.

#### 4.3.2 Computer Engineering

Computer Engineering is the design and analysis of computer systems applied to the solution of practical problems. It encompasses both hardware and software design in applications ranging from telecommunications and information systems to process control and avionics. Computer Engineering students learn the mathematics of discrete and continuous systems, the design of digital machines such as processors and memories, the fundamentals of software design, and the principles used in communications systems such as telephone networks and the Internet.

Computer Engineering shares many fundamentals with Electrical Engineering, which are covered in a common curriculum up to and including Academic Term 3. In recognition of the considerable diversity of careers available to computer engineers, students are given latitude in the final three academic terms to choose from a wide range of electives in various specialty areas.
4.3.3 Electrical Engineering
Electrical Engineering is a broad field encompassing the study of control systems, electromagnetics and antennas, power systems, electronics, communications, and computer hardware and software.

Electrical Engineering shares many fundamentals with Computer Engineering, which are covered in a common curriculum up to and including Academic Term 3. In recognition of the considerable diversity of careers available to electrical engineers, students are given latitude in the final three academic terms to choose from a wide range of electives in various specialty areas. Making use of their elective course choices, students in the Electrical Engineering major also have the opportunity to undertake a minor in Physics.

4.3.4 Mechanical Engineering
Mechanical Engineering is a highly diversified discipline encompassing the design, analysis, testing and manufacture of products that are used in every facet of modern society. Mechanical engineers analyse and design using the principles of motion, energy, and force to ensure that the product functions safely, efficiently, reliably, and can be manufactured at a competitive cost. This activity requires a thorough knowledge of materials, mathematics, and the physical sciences, and an ability to apply this knowledge to the synthesis of economical and socially acceptable solutions to engineering problems.

Mechanical Engineering is designed to provide students with a knowledge in the following four areas: design and dynamics, emphasizing solid mechanics, material science, dynamics, vibrations and machine component design; thermo-fluids, focussing on thermodynamics, heat transfer and fluid mechanics; mechatronics, dealing with electro-mechanical systems, control, robotics, and automation; and manufacturing/industrial, which encompasses CAD/CAM, production and operation management. In Academic Term 6, students may select one of four Technical Streams, which provide focus to the wide range of electives in various specialty areas in Academic Terms 7 and 8.

4.3.5 Ocean and Naval Architectural Engineering
Ocean and Naval Architectural Engineering covers aspects of both naval architecture and ocean engineering. The Ocean and Naval Architectural Engineering major is the only accredited undergraduate program specifically in naval architecture/ocean engineering in Canada. The major is designed to provide education to work in marine transport, ship and boat building, offshore engineering, submersibles design and many related marine areas. The undergraduate program is also a comprehensive preparation for graduate studies, research and consulting in ocean engineering.

Naval Architecture is primarily concerned with the design and construction of ships, offshore structures and other floating equipment and facilities. Ocean Engineering extends this focus to cover virtually all aspects of engineering related to the world’s oceans. Topics including sub-sea systems and oceanographic science add core ocean engineering content to the program.

4.3.6 Process Engineering
Process Engineering is a diversified discipline encompassing new development, design, optimization, and operation of sustainable processes for human needs. A process engineer uses biological, chemical, and physical processing of substances to modify their nature, the parameters, and/or the composition of mixtures to produce useful product. This activity requires a thorough knowledge of materials, chemical and physical sciences, and mathematics and an ability to apply this knowledge in an economical and sustainable way to engineering development.

The Process Engineering major is designed to provide students with a specialization in the areas of minerals and metals processing, and downstream oil and gas processing. In Academic Term 6, a student may select to continue in the Process Stream with emphasis on sustainable processing or in the Petroleum Stream with emphasis on upstream oil and gas including petroleum geology, drilling, reservoir and production engineering. Throughout the major and within each area of specialization, emphasis is placed on green and clean processes which are environmentally benign and inherently safe. The goal of this major is to prepare graduates with knowledge and ability to implement this knowledge in a sustainable manner to larger-scale industrial development.

4.4 Work Terms
Engineering work term registration, grading, and tuition fee charges and payments are governed by the UNIVERSITY REGULATIONS in this Calendar and those outlined below. Engineering work term placement and opt-outs, conduct, and evaluation are governed by the Engineering Student Co-op Handbook which is available at www.mun.ca/coop/programs/engineering/enghandbook.pdf. Any changes to the Engineering Student Co-op Handbook require the approval of the Committee on Undergraduate Studies

A student must complete successfully a minimum of four work terms in order to graduate with a Bachelor of Engineering degree. The Bachelor of Engineering degree offers the opportunity to complete up to five work terms beyond academic term 3. A student is expected to complete as many of these work terms as possible. A student who expects to complete the Engineering One requirements by the end of the Winter semester may apply to the Committee on Undergraduate Studies to undertake a work term during the Spring semester of Engineering One. Academic performance is the basis for approving such requests.

All students in academic terms 3 to 7 and any student approved to complete a work term during the Spring semester of Engineering One will be registered automatically during the regular registration period for the next scheduled work term unless the student has opted-out.

A student may opt out of up to two work terms beyond Academic Term 3 by completing the procedures outlined in the Engineering Student Co-op Handbook. Opt outs normally are approved only in cases where a student has successfully completed a minimum of four work terms.

4.4.1 General Information
- During work terms a student is brought into direct contact with the engineering profession, exposed to the workplace setting, expected to assume ever-increasing responsibility in employment situations as his/her education advances, and introduced to experiences beyond the scope of those which could be provided in the classroom.
- A student is responsible for finding suitable work placements. The Office of Co-operative Education provides resources to assist in this process. A student who obtains a work placement outside the job competition must have that work placement approved by the Office of Co-operative Education prior to accepting it.
- A student who cannot meet the demands of the work term may be required by the Faculty to withdraw from the work term until he/ she can demonstrate an ability to continue in the program.
- Following the date of automatic registration for a work term, only a student who is registered for that work term will be permitted to continue in, or subsequently join, the job placement process and be approved to begin a work placement.
- A student in the job competition who refuses all job offers without the prior consent of the Office of Co-operative Education may be subject to penalties that may include the assignment of a grade of FAL (fail) for that work term.
A student is not permitted to drop work terms without prior approval of the Committee on Undergraduate Studies, on the recommendation of the Office of Co-operative Education. A student who drops a work term without permission, or who fails to honour an agreement to work with an employer, will be assigned a grade of FAL (fail) for that work term.

A student who conducts him or herself in such a manner as to cause termination from the job, will normally be assigned a grade of FAL (fail) for that work term.

A student who is registered for a work term and who does not opt out from that work term must complete that work term successfully as a requirement for graduation.

A student who opts out from a work term is not permitted to work for a co-op employer during that work term.

A student who opts out from a work term and who works for a co-op employer during that work term may be considered to have committed an academic offence and will be subject to the penalties listed under the UNIVERSITY REGULATIONS, Academic Offences.

A student in a work term who does not meet the deadlines stated by the Office of Co-operative Education for the submission of forms and documentation may be awarded a reduced grade for one or both components of that work term.

The work term performance grade is assigned by the student’s Coordinator based upon feedback from the employer and other information gathered from contact with the student.

4.4.2 Evaluation of Work Terms
Two components are considered in work term evaluation: work performance and a communications component, as described in the Engineering Student Co-op Handbook which is available at www.mun.ca/coop/programs/engineering/enghandbook.pdf.

Each component is evaluated separately and equally weighted resulting in one of the following classifications: Outstanding, Above Expectations, Satisfactory, Marginal Pass, Fail. Both evaluations will be recorded on the transcript. Overall evaluation of the work term will result in the assignment of one of the following final grades:

- Pass with distinction (PWD): To receive a PWD, a student must obtain an evaluation of Outstanding in both the communications and work performance components of the work term.
- Pass (PAS): To receive a PAS, a student must achieve an evaluation of Marginal Pass or better in the communications component and in the performance component of the work term.
- Fail (FAL): A student receiving a Fail in either the communications or performance component of the work term will receive a FAL. For promotion from the work term, a student must obtain PWD or PAS.

4.5 Continuing Engineering Education
The Faculty of Engineering and Applied Science has a firm commitment to continuing engineering education and offers a variety of seminars and short courses in St. John’s and in other centres for practising engineers. For applicability of courses towards diplomas and certificates in Engineering, contact the Continuing Engineering Education office through the website at www.engr.mun.ca/continuing/index.php.

5 Admission/Readmission Regulations for the Faculty of Engineering and Applied Science
In addition to meeting UNIVERSITY REGULATIONS, students must meet the admission/readmission regulations for the Faculty of Engineering and Applied Science.

5.1 General Information
1. Entry to the Bachelor of Engineering program is competitive for a limited number of placements. Meeting the minimum admission requirements does not guarantee acceptance into the Engineering program. The final decision on admission or readmission to the Bachelor of Engineering program rests with the Admissions Committee of the Faculty.

2. Admission or readmission to the University does not necessarily constitute admission or readmission to the Bachelor of Engineering program.

3. The primary criterion used in reaching decisions on applications for admission or readmission is the judgement of the Admissions Committee on the likelihood of an applicant succeeding in the program.

4. Up to three positions per year in the Faculty of Engineering and Applied Science may be designated for applicants of Aboriginal ancestry who have met the admission requirements of the program. Applicants must send a letter of request at the time of application and provide documentation of Aboriginal ancestry.

5. A student who is in Engineering One must indicate preference(s) for a major on the Major Preference Form available from the Faculty website www.engr.mun.ca by March 1.

6. A student who is applying for admission or readmission to Term 3 must indicate preference(s) for a major on the Supplementary Application form available from the Faculty website at www.engr.mun.ca by March 1.

7. The Admissions Committee allocates majors to students after promotion or admission/readmission to Academic Term 3 of the Bachelor of Engineering program.

5.2 Application Forms and Deadlines
1. Engineering One: Applications for admission to Engineering One will normally be considered for admission to the Fall semester of each year. A supplementary Faculty of Engineering and Applied Science application for admission is not required. The deadline for submission of applications for admission to the Fall semester is March 1.

2. Academic Term 3: A student applying for admission or readmission to Academic Term 3 of the Bachelor of Engineering program is required to submit a Faculty of Engineering and Applied Science Supplementary Application Form. This form is available online through the Faculty of Engineering and Applied Science website at www.engr.mun.ca. The application deadline is March 1. Engineering One students are automatically considered for promotion to Academic Term 3 and are not required to submit an application.

3. Beyond Academic Term 3: A student applying for admission or readmission to a semester beyond Academic Term 3 of the Bachelor of Engineering program is required to submit a Faculty of Engineering and Applied Science Supplementary Application form. This form is available online through the Faculty of Engineering and Applied Science website at www.engr.mun.ca. The
application deadlines for readmission to semesters beyond Academic Term 3 are June 1 for the Fall semester, October 1 for the Winter semester, and February 1 for the Spring semester.

4. Applications received after the relevant deadline may be considered as time and space permit. Incomplete applications will not be considered.

5. The University’s General Application for Admission/Readmission (Undergraduate) is available online at www.mun.ca. Applications for admission or readmission to the Bachelor of Engineering program, from students who are currently attending or have previously attended Memorial University of Newfoundland, may be submitted online through Memorial Self-Service. Supplementary Faculty of Engineering and Applied Science Application forms are available through links within the online University Application form or through the Faculty website at www.engr.mun.ca. Application forms are also available through the Office of the Registrar, Admissions Office, Memorial University of Newfoundland, St. John's, NL A1C 5S7 or by email at admissions@mun.ca.

6. All applications for admission or readmission and supporting documents must be submitted to the Office of the Registrar. A complete application package includes a General Application for Admission/Readmission (Undergraduate) (for those who have not previously attended Memorial University of Newfoundland and for those who have previously attended Memorial University of Newfoundland and have not registered for courses for the past three consecutive semesters (Fall, Winter, Spring)), a Supplementary Application for Admission/Readmission to the Faculty of Engineering and Applied Science (if required), appropriate copies of transcripts, and any other required supporting documentation.

5.3 Admission Requirements to the Faculty Program
An applicant must be eligible for admission or readmission to the University in a category as defined in the Calendar section UNIVERSITY REGULATIONS - Admission/Readmission to the University (Undergraduate), Categories of Applicants, Admission Criteria and Other Information. In addition to meeting these regulations, an applicant to the Bachelor of Engineering program in the following admission categories must meet the requirements as indicated below.

5.3.1 High School Applicants
- The Faculty of Engineering and Applied Science encourages applications for admission to the Bachelor of Engineering (Engineering One) program from high school students who are new to post-secondary education, have an interest in pursuing an engineering degree and have achieved a good academic performance during high school. In addition to meeting the requirements under UNIVERSITY REGULATIONS - Admission/Readmission to the University (Undergraduate), Applicants Who Have Followed the High School Curriculum of Newfoundland and Labrador, Admission Criteria, performance in advanced mathematics, chemistry, physics and English is of particular interest, and grades above 80% are normally required for consideration.
- With careful planning the course load for the Engineering One requirements can be spread out over three semesters, to provide flexibility and additional time for a successful transition to the University and the Bachelor of Engineering degree program. However, as some courses are not offered in some semesters, a student should check with the appropriate academic unit to determine in which semester(s) each course is offered.
- An applicant who is not admissible to Engineering One, but who is interested in pursuing an engineering degree, may complete the Engineering One course and promotion requirements, subject to normal course prerequisite and space requirements, and apply for admission to Academic Term 3.
- An applicant who is not admitted to the Bachelor of Engineering degree program is encouraged to contact the University’s Academic Advising Centre or the Office of the Associate Dean (Undergraduate Studies) to discuss an appropriate first-year program.

5.3.2 Memorial University of Newfoundland Applicants
- To be eligible for consideration for admission to Engineering One, a student who is attending or has previously attended this University must have a cumulative average of at least 70% or an average of at least 75% on his/her most recent 30 attempted credit hours and be admissible to (or have previously completed) the Engineering One courses Mathematics 1000, Physics 1050, and Chemistry 1050.
- To be eligible for consideration for admission to Academic Term 3, a student who is attending or has previously attended this University must meet the requirements stated in the Promotion Regulations, Promotion Status (Engineering One).

5.3.3 Transfer Applicants
- An applicant seeking admission to Engineering One through transfer from recognized post-secondary institutions must have achieved a minimum overall average of 70% or GPA of 3.0, or equivalent, to be considered for admission.
- An applicant seeking admission to Academic Term 3 through transfer from recognized post-secondary institutions must meet the requirements stated in the Promotion Regulations, Promotion Status (Engineering One).
- An applicant’s placement within a program, and requirements needed to complete the program, will be determined on an individual basis at the time of admission following assessment of eligibility for transfer credit. A transfer applicant must complete a majority of the credit hours in his/her program at Memorial University of Newfoundland.

5.4 Other Information
1. The Faculty will notify each applicant in writing regarding an admission decision to the Faculty program.
2. A student admitted to the program in any term, without receiving credit for all courses required up to that level, must complete those courses successfully prior to graduation.
3. A student who has been admitted to one major offered by the Faculty and who wishes to change to another major within the Faculty must submit a new application for admission to the program. This application must be submitted to the Office of the Registrar by the appropriate deadline date as outlined above in Application Forms and Deadlines and will be considered in competition with all other applications.
4. A student admitted full-time to the program and who declines the offer of admission or who fails to register for the appropriate courses during the term of admission will be considered withdrawn from the program. Such a student, if he/she subsequently wishes to be considered for admission, must submit a new application for admission to the program. This application must be submitted to the Office of the Registrar by the appropriate deadline date in Application Forms and Deadlines above and will be considered in competition with other applications.
6 Program Regulations

6.1 Civil Engineering Program Regulations

6.1.1 Civil Engineering Major

- The full-time 141 credit hour Bachelor of Engineering (Co-operative), Civil Engineering Major, requires eight academic terms and four work terms.
- The 141 credit hours shall normally be taken in the academic terms and order as set out in Table 1 Civil Engineering Major.
- Work terms shall normally be taken in the order as set out in Table 1 Civil Engineering Major.

### 6.4.1.1 Technical Streams

- Technical Streams are available in the areas of Mechanics and Materials, Mechatronics, Petroleum, and Thermo-Fluids.
- A student may experience scheduling difficulties if courses are selected from more than one technical stream.
- The selection of a course as a technical stream course from outside these lists requires the approval of the Head of the Department of Mechanical Engineering.

6.7 Advanced Standing

Students are occasionally admitted to later terms in Engineering from other institutions. Such entry is normally based on a detailed analysis of the student’s record and is handled on a case-by-case basis. Such students should contact the Office of the Associate Dean (Undergraduate Studies).

7 Promotion Regulations

7.1 General Information

1. In addition to meeting the promotion regulations for the Faculty of Engineering and Applied Science, all students must meet the general academic regulations (undergraduate). For further information refer to the UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate).

2. Success in the programs depends on meeting the requirements of both academic terms and work terms.

7.2 Promotion Status (Engineering One)

1. The requirements for promotion to Academic Term 3 are:
   a. an overall average of at least 65% on the following nine courses: Mathematics 1001, Mathematics 2050, Physics 1051, Chemistry 1050, English 1080 (or equivalent), ENGI 1010, ENGI 1020, ENGI 1030 and ENGI 1040; and
   b. a grade of at least 55% in each of the above nine courses.

2. In order to remain in the Engineering program, students admitted to Engineering One must complete the requirements for promotion to Academic Term 3 before the end of the academic year of admission.

3. Students who fail to meet the requirements for promotion to Academic Term 3 before the end of the academic year of admission will be deemed to have withdrawn from the Engineering program.

4. Promotion from Engineering One guarantees admission to one of the six majors, but not necessarily to a student’s preferred major. The Faculty reserves the right to guarantee admission into a particular major at the time of admission into the Engineering program.

5. Students completing the requirements of Engineering One are required to apply for their major by March 1 of the academic year of admission, indicating their preferences for major in rank order. All Engineering students who successfully complete Engineering One in the academic year of admission will be guaranteed a place in Academic Term 3, although not necessarily in the preferred major.

7.3 Promotion Status (Beyond Engineering One)

A student’s eligibility for promotion from semesters beyond Engineering One will be determined at the end of each term. Promotion from each academic semester will be based upon the student’s Promotion Average for the semester. The Promotion Average, which will appear on the transcript, is calculated to be the overall average of courses completed in the semester excluding complementary studies and free elective courses. Promotion from work terms will be determined based upon the grade awarded in that work term.

A student’s promotion status will be determined beyond Engineering One and at the end of each academic semester in one of the following three categories:

7.3.1 Clear Promotion

Clear Promotion means that a student can proceed to the next term without restrictions.
1. A student completing or repeating an academic term will receive a Clear Promotion by obtaining a promotion average of at least 60% and a numeric grade of at least 50% in each of the courses included in the calculation of the promotion average in that academic term.

2. A student completing a work term will receive a Clear Promotion by obtaining an overall grade of PAS or PWD in that work term.

7.3.2 Probationary Promotion
A student who is not eligible for Clear Promotion from an academic semester but who achieves a promotion average of at least 60% in that term will be granted Probationary Promotion.

1. A student's Probationary Promotion status will be reflected on the University Transcript under the Promotion Average for the semester.

2. A student with Probationary Promotion from an academic term may continue to the subsequent work term under the condition that entry into the next academic term is not allowed until the student's status is changed to Clear Promotion.

3. A student with Probationary Promotion at the end of the final academic term will not be recommended for graduation until the student's status is changed to Clear Promotion.

4. To change Probationary Promotion to Clear Promotion for a semester the student must satisfy the Faculty that he or she is competent in the subject of the ENGI course(s) in which the student has failed to achieve 50%. This will normally entail re-examination(s) prescribed by the Faculty as a condition of probation, after which the student will be declared to have passed or failed a test of competency in the subject(s) concerned. No numerical grade will be assigned in a re-examination. Upon passing a re-examination, the original grade submitted for the course will be changed to PAS, but the promotion average will not change and a note of the original grade will remain on the transcript.

5. Re-examination will be at a time determined by the Faculty, normally in the first week of the subsequent academic term. A re-examination is cumulative in nature, covers the entire course and, as such, may be different in scope from the original final examination for that course.

6. In order to qualify for a re-examination in a failed ENGI course, a student must obtain a grade of at least 40% in that course and must have completed any laboratory and/or project work in that course. Re-examinations are not normally available for senior project courses or for other courses in which the final examination is worth less than 40% of the grade.

7. A student who has failed the communications component of a work term and who, in the opinion of the Office of Co-operative Education, can benefit from a remedial program, may be permitted an extension of time, not to exceed the end of the registration period of the subsequent semester, to complete the requirements of the work term.

8. A student will be permitted to write a maximum of four re-examinations for the duration of his/her program.

9. To change Probationary Promotion to Clear Promotion for a semester the student must repeat successfully any non-ENGI course(s) which count towards the promotion average and in which the student has failed to achieve 50%.

10. A student may apply for a deferred re-examination on a similar basis to the deferral of a final examination.

11. A student with Probationary Promotion who does not complete a prescribed re-examination will be deemed to have failed that re-examination. Upon failing a prescribed re-examination the original course grade will be retained and a comment confirming failure of the re-examination will be added to the transcript.

12. A student with Probationary Promotion who fails in the re-examination(s) or who does not qualify for the re-examination(s) must repeat the corresponding failed course(s) successfully in order to change the Probationary Promotion to Clear Promotion.

13. A student with Probationary Promotion from any of Terms 3 to 7 who does not meet the requirements for Clear Promotion by the end of the registration period for the subsequent academic term must withdraw from the program. Permission to register for ENGI courses to be repeated may be subject to the approval of the Faculty. Such students may apply for readmission to the Bachelor of Engineering program when they have satisfied the requirements for Clear Promotion.

7.3.3 Promotion Denied
Promotion Denied status is awarded when a student does not meet the requirements for Clear Promotion or Probationary Promotion.

The student's Promotion Denied status will be reflected on the University Transcript under the Promotion Average for the semester.

1. A student with Promotion Denied status will be required to withdraw from the Faculty.

2. A student with Promotion Denied status may apply for readmission to the program after two semesters. Subject to space being available, a student will be readmitted into the term from which promotion was denied. An academic term may be repeated only once, and not more than two academic terms may be repeated in the entire program.

3. A student who is denied promotion for failing a work term may be considered for readmission. A student readmitted under this clause must successfully complete four work terms prior to graduation.

4. A work term may be repeated only once, and not more than two work terms may be repeated in the entire program.

5. A student who is denied promotion from an academic term will be required to repeat all required courses in which the student obtained a numeric grade of less than 60% in that term. In addition, the Admissions Committee may design a remedial program to address the student's specific area(s) of weakness. A technical elective course in which the student obtained a numeric grade of less than 60% may be replaced by a course acceptable in the student's program.

6. A student who is denied promotion from an academic term may not continue to the subsequent work term unless both the employer and the Office of Co-operative Education grant permission.

7. A student with Promotion Denied status at the end of the final academic term will not be recommended for graduation until the student's status is changed to Clear Promotion.

7.4 Other Information
1. The appropriate Department will make a recommendation to Faculty Council on each student's promotion status at the end of each of academic terms 3 to 8.

2. To be recommended for graduation, a student must have Clear Promotion from Academic Term 8, must have successfully completed the four mandatory work terms and any elective work terms undertaken and must have an average of at least 60% in the 21 credit hours in complementary studies as described in Description of Program, Complementary Studies.

3. The Office of Co-operative Education will make a recommendation to Faculty Council on each student's promotion status at the end of each work term.

4. A student must have completed at least one work term successfully, in order to be promoted to Academic Term 5.
5. A student must have completed at least two work terms successfully, in order to be promoted to Academic Term 6.
6. A student must have completed at least three work terms successfully, in order to be promoted to Academic Term 7.
7. A student must have completed four work terms successfully, in order to be promoted to Academic Term 8.
8. A student denied promotion shall be permitted only one readmission to the same term and a total of no more than two readmissions to the Faculty.
9. No course required in any of academic terms 3 to 8 of the program may be attempted more than twice.
10. A student may be required to withdraw from their program at any time, if, in the opinion of the Faculty, he/she is unlikely to benefit from continued attendance.

8 Graduation

Upon meeting the qualifications for any of the programs of the Faculty of Engineering and Applied Science a student must apply by the appropriate deadline date to graduate on the prescribed “Application for Graduation” form. This form may be obtained on-line at the Memorial Self-Service at www3.mun.ca/admit/twbkwbis.P_WWWLogin. Additional information is available from the Office of the Registrar at www.mun.ca/regoff/graduation/apply_grad.php.

9 Waiver of Faculty Regulations

Every student has the right to request a waiver of Faculty regulations. Students seeking a waiver of University academic regulations should refer to the UNIVERSITY REGULATIONS - General Academic Regulations Undergraduate, Waiver of Regulations.

1. The Faculty Council reserves the right in special circumstances to modify, alter, or waive any Faculty regulation in its application to individual students, where merit and equity so warrant in the judgment of the appropriate Committee of the Faculty Council.
2. All requests must be submitted to the Office of the Associate Dean (Undergraduate Studies) for submission to the appropriate Committee of the Faculty. Students must submit their request in writing. Medical and/or other documentation to substantiate the request must be provided.
3. Requests for waivers of admission requirements will be submitted to the Admissions Committee who will make a recommendation for action to the Committee on Undergraduate Studies of the Faculty.
4. Requests for a waiver of a course(s) required in academic terms 3 to 8 should be made prior to the commencement of the academic term and will be considered by the Committee on Undergraduate Studies, upon recommendation of the Head of the appropriate Department.
5. Requests for a waiver of a work term will be considered by the Committee on Undergraduate Studies upon recommendation of the Office of Co-operative Education. Any waiver granted does not reduce the total number of work terms required for the degree below an absolute minimum of three.

10 Appeal of Regulations

10.1 General Information

In accordance with UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate), Appeal of Decisions, the Appeals Committee of the Faculty of Engineering and Applied Science considers appeals of promotion, admission and readmission decisions related to undergraduate programs offered by the Faculty of Engineering and Applied Science. A student wishing to appeal related decisions should review the General Academic Regulations (Undergraduate), Appeal of Decisions carefully. Individual course grades may not be appealed as a student will normally have had the opportunity of contesting grades immediately after notification as outlined under UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate), Appeal of Decisions, Route for Questioning Grades.

All appeals must be directed to the Secretary of the Appeals Committee, c/o the Undergraduate Studies Office of the Faculty of Engineering and Applied Science. All letters of appeal must state clearly and fully the grounds for the appeal and the resolution being sought.

10.2 Appeals of Admission Decisions

An appeal of a decision concerning admission or readmission must be made in writing within fourteen days of the date of notification of the decision to the Secretary of the Appeals Committee, c/o the Undergraduate Studies Office of the Faculty of Engineering and Applied Science.

10.3 Appeals of Promotion Decisions

1. Appeals of promotion decisions must be submitted to the Secretary of the Appeals Committee, c/o the Undergraduate Studies Office of the Faculty of Engineering and Applied Science within one month of the notification by the Faculty of the promotion decision. Appeal submissions shall contain the following:
   - Student name,
   - Current address and telephone number,
   - Memorial University of Newfoundland e-mail address,
   - Student ID number,
   - A copy of the decision giving rise to the appeal,
   - A description of the matter under appeal,
   - The grounds of appeal,
   - Supporting documentation; and
   - The resolution being sought.

2. When a student has requested a re-read of an examination paper which may affect an appeal, that appeal must nevertheless be submitted within one month of the issue of the original decision and consideration of the appeal will be delayed until the result of the re-read is available.

3. A student may request additional time to gather supporting documentation. Such a request will not be unreasonably denied.
4. For assistance in the appeals process, a student is advised to consult with the Associate Dean (Undergraduate Studies) whose advice shall include the provision of a list of others within the Faculty and elsewhere in the University who can advise the student during the appeals process.

5. A student is encouraged to review UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate) - Appeal of Decisions, Information Required in Letters of Appeal.

6. The terms of reference for the Appeals Committee of the Faculty of Engineering and Applied Science, including procedures followed by the Committee, are posted on the Faculty website at www.engr.mun.ca.

10.4 Other Appeals

Any student whose request for waiver of Faculty regulations has been denied has the right to appeal. For further information refer to the UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate) - Appeal of Decisions.

11 Course Descriptions

All courses of the Faculty are designated by ENGI.

11.1 Work Terms and Non-Credit Courses

001W Engineering Work Term 1 represents, for most students, the first experience in an engineering or related work environment. A student is expected to learn, develop and practise the basic standards of behaviour, discipline and performance normally found in a professional work environment. A student is expected to learn the basics of technical writing and to become familiar with the various communications tools used in a technical work environment. The communications component for Work Term 1 will include a daily diary and a written document.

002W Engineering Work Term 2 requires a student to contribute positively to the engineering design and problem solving processes practised in the work environment. A student is expected to show greater independence and responsibility and function as a more effective team member than in Work Term 1. An ability to deal, under supervision, with complex work-related concepts and problems should also be demonstrated. A student can become better acquainted with his/her chosen discipline, and the attitudes, responsibilities, and ethics normally expected of engineers. The communications component for Work Term 2 consists of a formal, descriptive technical report on a topic chosen from the student’s work environment.

003W Engineering Work Term 3 requires greater participation in the student’s selected engineering discipline. A student becomes more experienced and proficient with the appropriate design procedures than in the preceding work terms. A student is expected to acquire improved speed and accuracy in their work and accept greater responsibility and be able to function more effectively as a team member. Self-confidence and initiative as well as improved analytical skills are expected to develop at this stage in the student’s engineering education. The communications component for Work Term 3 consists of a formal technical report on a topic chosen from the student’s work environment.

004W Engineering Work Term 4 requires a student to engage in various facets of engineering, such as design, analysis, project management, specifications, plans, formal proposals, tender documents, etc. Participation in his/her selected engineering discipline is expected. A student should continue to gain an appreciation of the use and importance of acquired analytical skills in engineering analysis as well as the application of specifications and codes. A student should have a level of responsibility commensurate with his/her academic background and experience. The communications component for Work Term 4 consists of an oral presentation and written summary on a technical subject taken from the student’s work environment.

005W Engineering Work Term 5 requires a student to engage in various facets of engineering, such as design, analysis, project management, specifications, plans, formal proposals, tender documents, etc. Participation in his/her selected engineering discipline is expected. A student should continue to gain an appreciation of the use and importance of acquired analytical skills in engineering analysis as well as the application of specifications and codes. A student should have a level of responsibility commensurate with his/her academic background and experience. The communications component for Work Term 5 consists of a written report or oral presentation on a topic chosen from the student’s work environment.

006W Engineering Work Term 6 requires a student to engage in various facets of engineering, such as design, analysis, project management, specifications, plans, formal proposals, tender documents, etc. Participation in his/her selected engineering discipline is expected. A student should continue to gain an appreciation of the use and importance of acquired analytical skills in engineering analysis as well as the application of specifications and codes. A student should have a level of responsibility commensurate with his/her academic background and experience. The communications component for Work Term 6 consists of a written report or oral presentation on a topic chosen from the student’s work environment.

11.2 Engineering One Courses

1010 Engineering Statics is the first course in Engineering mechanics. Forces and moments are described with vector algebra, leading to a description of the equilibrium conditions for particles and solid bodies. The importance of free body diagrams is highlighted. This knowledge is then applied to the analysis of trusses, frames and machines. Additional topics include an examination of friction and the concepts of centre of force, centroids and second moments of area.

CO: Mathematics 1000
CR: the former ENGI 1313
OR: tutorial 1 hour per week
PR: Level III Physics or Physics 1020 or equivalent

1020 Introduction to Programming is an introduction to algorithmic problem solving techniques and computer programming, including basic computer control structures (sequence, call, branch, loop) and data representations, functional decomposition, and design by contract. Exercises and examples are drawn from a variety of engineering disciplines and are implemented using a standard modern programming language.

CR: the former ENGI 2420
LH: at least four 2-hour sessions per semester
PR: eligibility to register for Mathematics 1000

1030 Engineering Graphics and Design provides two complementary competencies. Firstly, it provides an introduction to the fundamentals of graphic communication, including orthographic projections, three dimensional pictorials, sectioning and dimensioning. Both sketching and CAD are utilized. Secondly, the course introduces students to standard design methodologies. The graphics and design competencies are reinforced through lab and project exercises.

LH: 3
PR: eligibility to register for Mathematics 1000

1040 Mechanics and Electric Circuits is offered in two serial modules, including laboratory and workshop practice, and a team project to expose students to the concept of system integration involving electrical and mechanical systems. The electrical module provides an introduction to dc circuits, with an analysis of dc circuits used in control, measurement and

AR = Attendance requirement; CH = Credit hours are 3 unless otherwise noted; CO = Co-requisite(s); CR = Credit can be retained for only one course from the set(s) consisting of the course being described and the course(s) listed; LC = Lecture hours per week are 3 unless otherwise noted; LH = Laboratory hours per week; OR = Other requirements of the course such as tutorials, practical sessions, or seminars; PR = Prerequisite(s); UL = Usage limitation(s).
instrumentation systems. The mechanism module provides an introduction to machine components such as belts, pulleys, gears, and simple linkages. The laboratory and workshop component introduces students to hands-on practice in basic laboratory instruments, tools and safety procedures. A team project involves the construction, assembly and testing of a simple mechanism.

LH: 3
PR: Level III Physics or Physics 1051 (which may be taken concurrently) and Mathematics 1000 (which may be taken concurrently).

11.3 Academic Term 3 Courses

3001 Ocean/Naval Design introduces design for ships and marine structures. Technology evolution in ship and offshore structures is reviewed, emphasizing service needs. Structural concepts, materials and construction methods are examined, including design for manufacturing. The design spiral and trade-offs between design characteristics are explored and modelling methods as tools in the design process are introduced. There is a minimum of six laboratory sessions including ship tours, a design project or research paper.

LH: at least six 3-hour sessions per semester

3054 Ocean Engineering Hydrostatics is an introductory course to naval architecture and marine engineering. It discusses the basic principles of the states of rigid floating or submerged structures. These include: ships, offshore platforms and subsystems. Methods of analysis of the hydrostatics, stability and trim, damage stability and the statics of mooring systems are introduced. Applications are also discussed.

LH: at least nine 3-hour sessions per semester
PR: ENGI 1010

3101 The Engineering Workplace is a course that deals with issues associated with professional engineering practice. Topics will include workplace and professional ethics, public and workplace occupational health and safety including first-aid, equity, gender and diversity issues, and technical communication.

AR: attendance is required

3424 Engineering Mathematics includes ordinary differential equations of first order and first degree; linear ordinary differential equations of higher order, methods of undetermined coefficients and variation of parameters; applications to electric circuits and mass-spring systems; Laplace transforms; partial differentiation; convergence of series; Taylor and binomial series; remainder term; and an introduction to Fourier series.

CH: 4
CR: the former ENGI 4222
LC: 4
OR: tutorial 1 hour per week
PR: Mathematics 1001, Mathematics 2050

3425 Mathematics for Civil Engineering I includes sequences & series, functions of a single parameter, conic sections, polar coordinates, partial differential equation integration, introduction to first order ordinary differential equations.

CH: 4
LC: 4
OR: tutorial 1 hour per week
PR: Mathematics 1001 and 2050

3600 Introduction to Process Engineering is an introductory course in process engineering, which comprises principles and the practical aspects of organic, inorganic and biochemical processes. It emphasizes the structure and properties of organic, inorganic, and bio-chemical; process flow sheeting, process variable identification and production processes. The course uses extensive examples from industrial processes. In laboratory sessions students will use HYSYS and OLI software to study process characteristics.

CO: Chemistry 1051
LH: at least four 2-hour sessions per semester

3610 Earth Sciences for Civil Engineering is an introduction to basic concepts in Geology and Mining with emphasis on applications in Civil, Geotechnical, Marine and Environmental Engineering through the use of case histories. It includes the study of rocks and minerals in selected field and laboratory exercises.

LH: 3

3703 Surveying and Geomatics includes plane surveying: distance, elevation, and angle measurements; horizontal and vertical curves; plane surveying and area computations. Photogrammetry will be studied, including sensors and platforms, mathematics of photogrammetry; instruments and equipment, photogrammetric products, digital photogrammetry, remote sensing, and introduction to global positioning and geographical information systems (GIS). A surveying field school to introduce students to the use of surveying equipment and mapping will be held in the first two weeks of the term.

LH: 3
OR: 36-hour field school conducted during the first two weeks of the semester

3731 Materials for Construction includes structure of metals and nonmetals; deformation of metals; strengthening mechanisms in metals; concrete and cementitious materials; admixtures; iron and steel; brick masonry; concrete masonry; mortar and plaster; reinforced masonry structures; wood and wood products. Relevant experiments are conducted.

LH: at least ten 3-hour sessions per semester
OR: up to ten 1-hour tutorials per semester

3821 Circuit Analysis begins with a review of elementary circuits, then considers wye-delta transformation, bridge circuits; transient analysis of first- and second-order circuits; sinusoidal steady state analysis; phase diagrams, maximum power transfer, frequency selective circuits (filters); and Laplace transforms in circuit analysis (transients, steady state, transfer function).

CR: ENGI 3424
CR: Physics 3550
LH: at least five 3-hour sessions per semester
OR: tutorial 1 hour per week
PR: Mathematics 1001, Mathematics 2050, ENGI 1040

3861 Digital Logic includes number systems and Boolean algebra; minimization techniques for Boolean functions; basic combinational logic circuit analysis and design; flip-flops, state machine design and implementation; decoders, multiplexors, registers, counters; simple arithmetic and logic unit (alu) algorithms; introduction to hardware description languages (vhdl) for logic component and circuit modelling.

CR: Computer Science 3123
LH: at least six 3-hour sessions per semester
OR: up to eight tutorial sessions per semester
PR: ENGI 1040

3891 Foundations of Programming introduces fundamental concepts in object-oriented programming and develops vocational programming skills in C++. Topics include abstraction, types, contracts; object-oriented design, C++ language features includes key elements of the standard library and practical programming and debugging skills.

CR: Computer Science 2510
LH: at least four 2-hour sessions per semester
OR: tutorial one hour per week
PR: ENGI 1020

3901 Thermodynamics I is a macroscopic approach to heat, work, and energy; properties of pure substances; conservation of mass, energy for open and closed systems; thermal efficiency and coefficient of performance; second law of thermodynamics; and its corollaries; entropy; second law analysis of thermodynamic systems; second law efficiency.

PR: Mathematics 1001

3911 Chemistry and Physics of Engineering Materials I is an introduction to the structure and properties of engineering materials, in particular: ceramics, glasses and polymers. Topics include the atomic bonding, discussion of basic crystalline and amorphous structures; point and line defects, and the role these structural features play in elastic and plastic deformations, yield, fracture, glass transition, thermal conductivity, thermal expansion, specific heat and electrical conductivity.

CR: the former ENGI 2205
LH: at least four 3-hour sessions per semester
OR: tutorial 1 hour per week
PR: Chemistry 1050

3934 Dynamics includes kinematics and kinetics of particles using rectangular, normal/tangential and polar coordinates; relative motion using rotating axes; two-dimensional kinematics and kinetics of rigid bodies; force-acceleration, work-energy and impulse-momentum methods.

CR: ENGI 2513
CR: tutorial 1 hour per week
PR: ENGI 1010, Mathematics 1001, Mathematics 2050

3941 Production Technology includes an overview of production: production strategies; dimensioning and tolerancing; basic material removal process; forming and shaping process; casting; molding, extrusion and joining processes; computer aided machining; new technologies.

LH: at least eight 3-hour sessions per semester

11.4 Academic Term 4 Courses

4011 Resistance and Propulsion examines the phenomena resisting the motions of ships and some factors considered in the design of the marine screw propeller. The topics include the resistance due to friction, wave making, form appendage, wind and waves, squat, blockage, and shallow water effects, and also include the estimation of powering using methodical series and statistical methods. Topics considered in the design of the marine screw propeller include propeller theory, blade sections, blade strength, methodical series charts, efficiency elements, lifting line calculations, cavitation, and propellers in non-uniform flow.

CR: the former ENGI 5011
LH: 3
4020 Marine Fluid Dynamics includes fluid statics; fluid flow phenomena, in general and in marine applications; control volume analysis of fluid motion; construction of mass, momentum and energy; differential approach to flow analysis; head losses; applications of conservation laws; external vs. internal flow; dimensional analysis and scaling; fluid-structure interaction concepts; potential flow theory, lift and Kutta-Joukowsky theorem; viscous flow, boundary layers and drag.

LH: at least four 3-hour sessions per semester
PR: ENGI 3054

4102 Engineering Economics is an introduction to the concepts in the determination of the economic feasibility of engineering projects; time value of money; interest, present worth, future worth, annuity; economic analysis; benefit-cost analysis, tangible and intangible benefits and costs; economic risk and sensitivity analysis, economic optimization.

4312 Mechanics of Solids I examines force analysis of structures and structural components, free body diagrams of structure, components and sections of a component, definition of a stress at point, stress notation, complementary property of shear stress, definition of strain, normal strain, shear strain, thermal strain, mechanical properties of materials, analysis of prismatic members due to axial, bending and torsional loading, analysis of beams, shear force and bending moment diagrams, combined loads; and the transformation of stresses and strains.

LH: at least four 3-hour sessions per semester
PR: up to ten 1-hour tutorials per semester
PR: ENGI 1010

4421 Probability and Statistics includes probability, probability distributions, probability densities, sampling distribution, hypothesis testing, regression and correlation.

CR: the former ENGI 3423, STAT 2550, the former STAT 2510
OR: tutorial 1 hour per week
PR: Mathematics 1001

4424 Discrete Mathematics for Computer Engineering is an introduction to discrete mathematics including a selection of topics such as propositional logic, introductory predicate logic, mathematical reasoning, induction; sets, relations, functions, integers, graphs, trees, and models of computation.

CR: the former ENGI 3422, Mathematics 2200, or the former Computer Science 2740
OR: tutorial 1 hour per week
PR: Mathematics 2050

4425 Mathematics for Civil Engineering II examines the analytical solution of ordinary differential equations of the first and higher orders and numerical methods: errors, round off and stability, solution to nonlinear equations, curve fitting and interpolation methods, numerical differentiation and integration.

CH: 4
CR: the former ENGI 4422
LC: 4
OR: tutorial 1 hour per week
PR: ENGI 3425

4430 Advanced Calculus for Engineering includes parametric vector functions; polar curves; gradient, divergence and curl; multiple integration; vector calculus, theorems of Green, Stokes and Gauss; an introduction to partial differential equations; and application of advanced calculus to relevant engineering problems.

CR: the former ENGI 5432
OR: tutorial 1 hour per week
PR: ENGI 3432

4620 Process Engineering Thermodynamics extends the study started in ENGI 3901 of thermodynamics, with special reference to chemical process applications: basic laws, thermodynamic properties of pure fluids and mixtures, heat engines, multicomponent systems, thermal/mechanical equilibrium, chemical equilibrium and thermodynamics of chemical processes.

Special emphasis is placed on the application of thermodynamics to practical problems in chemical engineering such as phase equilibria, solutions and reaction equilibria in separations and reaction engineering.

CR: CHEM 2300, the former CHEM 3300
PR: ENGI 3901

4621 Process Mathematical Methods introduces numerical methods in chemical engineering processes, sets of linear algebraic equations, simultaneous non-linear equations, polynomial functions, numerical integration, numerical differentiation, higher order ordinary differential equations, stiff equations, Runge-Kutta methods, boundary value problems and applications of eigenvalue problems (numerical solutions). It provides applications of the methods to different aspects of process engineering such as reactor, mixing, separation, process modeling, equipment design and analysis.

CO: ENGI 4625

4625 Process Engineering Calculations is an introduction to the analysis of chemical processes with an emphasis on mass and energy balances. Stoichiometric relationships, ideal and real gas behaviour are also covered.

The course will help Process Engineering majors in their second year to develop a framework for the analysis of flow sheet problems and will present systematic approaches for manual and computer-aided solution of full balance problems.

CO: ENGI 4602
PR: ENGI 3901

4717 Applied Environmental Science and Engineering examines the nature and scope of environmental problems; concept of sustainable development; natural environmental hazards; introduction to ecology, microbiology and epidemiology; basic concepts of environmental quality standards and parameters and standards; solid and hazardous wastes; atmospheric, noise, and water pollution, their measurements, and control.

LH: at least ten 3-hour sessions per semester
PR: completion of Term 3 of the Civil Engineering program

4723 Geotechnical Engineering I begins with an introduction to soil as a three-phase material and examines physical and mechanical properties; structure; classification of soils; soil compaction; hydraulic properties; permeability; flow of water in soils; flow net; stress concept in soils; stresses in soils beneath loaded areas; one-dimensional consolidation theory.

LH: 3
CR: tutorial 1 hour per week
PR: completion of Term 3 of the Civil Engineering program

4823 Introduction to Systems and Signals begins with an introduction to systems and signals, and includes mechanical and electrical analogues; principles of linear superposition and time-invariance; definitions, properties, and use of the delta function; applications of complex variables and functions; impulse and step responses; input-output relations of continuous time systems in terms of convolution and transfer functions; frequency response plots; the Fourier transform and applications; applications of Laplace transforms to filtering, communications, and controls.

CR: tutorial 1 hour per week
PR: ENGI 3424, ENGI 3821

4841 Electromechanical Devices includes an introduction to fundamental principles of energy conversion; review of three-phase systems; magnetic fields and circuits; transformer models, performance and applications; basic concepts of rotating machines; performance and control of DC motors.

CR: the former ENGI 5842
LH: at least six 3-hour sessions per semester
CR: tutorial 1 hour per week
PR: ENGI 3424, ENGI 3821

4854 Electronic Circuits I provides an introduction to semiconductor electronic devices and circuits. Topics covered include internal structure of electronic devices; working principles, dc and small-signal models and analysis of p-n junction diodes, bipolar junction transistors and field effect transistors; introduction to digital electronics; differential and multistage amplifier circuits; internal circuits of operational amplifiers; output stages; practical applications of the devices to the design of power supplies, amplifiers and switching circuits. CAD tools are used to illustrate the analysis and design of electronic circuits.

LH: at least ten 3-hour sessions per semester
OR: tutorial 1 hour per week
PR: ENGI 3821, Physics 3000

4862 Microprocessors is a course on microprocessor architecture; assembly language programming; addressing modes; table look up; memory mapped devices; interfacing techniques: parallel, serial; timing control; analog input and output, and computer displays.

LH: at least eight 3-hour sessions per semester
PR: ENGI 3861

4872 Data Structures examines fundamental data structures; recursive data structures and generic programming techniques; modularity and reusability; time complexity and efficient data structures; procedural abstraction; data abstraction and precise documentation of data structures.

CO: ENGI 4424
OR: tutorial 1 hour per week
PR: ENGI 3891

4901 Thermodynamics II examines thermodynamic cycles: power and refrigeration applications; human comfort and air conditioning; mixture of gases and vapours, humidity, psychrometrics; chemically reacting mixtures and combustion.

LH: at least two 2-hour sessions per semester
PR: ENGI 3901

4932 Mechanisms and Machines includes an overview of mechanisms within machines; graphical and analytical methods for position, velocity, and acceleration analysis of moving mechanisms; kinematics and kinetics of
planar mechanisms; static and dynamic loads on mechanisms and an introduction to mechanism synthesis. There is a research project.

CR: the former ENGI 3905
LH: at least one 1-hour session per week
PR: ENGI 3904

4961 Fluid Mechanics I (same as the former ENGI 5961) examines fluid statics; fluid flow phenomena; control volume analysis; conservation of mass, momentum, and energy; Bernoulli equation; head losses, applications of conservation laws: flow measurement devices; pipe networks; momentum devices, dimensional analysis, boundary layer phenomena, lift and drag.

CR: the former ENGI 4913, the former ENGI 5961
LH: at least five 1-hour sessions per semester

11.5 Academic Term 5 Courses

5003 Ship Structures I examines longitudinal strength, still water and wave bending moment, shear and bending moment curves, Smith Correction, section modulus calculation, torsion and rocking forces; buildhead and gothic scantlings, portal frame analysis by moment distribution and energy method; finite element analysis and the use of Classification Society rules for design of midship section. Laboratory sessions cover use of analysis software to illustrate structural behaviour concepts.

CR: the former ENGI 6002
LH: at least five 3-hour sessions per semester
PR: ENGI 4312

5020 Marine Propulsion is a second course in marine propellers and ship propulsion. Design and analysis of marine screw propellers and other propulsion devices are covered. Conventional and unconventional propulsion systems are introduced. Methods and philosophy of propeller design are included. Design of fixed-pitch propellers based on lifting theory is emphasized. Design of other propulsion systems such as waterjets and sails is also incorporated.

CR: the former ENGI 6020
LH: at least two 3-hour sessions per semester
PR: ENGI 4020

5022 Stochastic Processes in Ocean Engineering includes basic concepts in probability, random variables, multiple random variables, descriptive statistics. The random processes component reviews mathematics of functions; introduces system input-output relations of continuous-time systems; contrasts time vs frequency domain representations; introduces frequency response plots and the Fourier transform; includes selected applications for ocean engineering.

OR: tutorial one hour per week
PR: ENGI 4020, Mathematics 2260 or the former Mathematics 3260

5312 Mechanics of Solids II begins with an introduction to earlier concepts then considers strain transformation: deflections of beams and shafts, energy methods; failure theories; buckling of columns and the inelastic behaviour of beams.

LH: at least five 3-hour sessions per semester
PR: ENGI 4312

5420 Probability and Random Processes includes basic concepts in probability, random variables, multiple random variables, descriptive statistics, random processes and selected applications for engineering.

PR: ENGI 4823

5434 Applied Mathematical Analysis examines numerical and analytical solution of mathematical problems in Civil Engineering, problems with higher order ordinary differential equations, stiff equations, systems of ODE, Runge-Kutta methods, boundary value problems, applications of eigen value problems (numerical solutions), Fourier analysis, elliptic, parabolic and hyperbolic partial differential equations and their numerical solutions with engineering applications.

PR: ENGI 4425

5601 Mass Transfer covers diffusive as well as convective mass transfer, mass transfer correlations, and the application to absorption and dehumidification.

LH: at least seven 2-hour sessions per semester
PR: ENGI 4502

5602 Process Heat Transfer is a study of concepts involved in heat transfer. Topics include applications of continuity and energy equations, fundamentals of heat transfer, modes of heat transfer, conduction, convection and radiation heat transfer, boiling and condensation, evaporation, and heat exchanger analysis and design.

CR: ENGI 6901
LH: at least one 3-hour session per semester
PR: ENGI 4901, ENGI 4961

5671 Process Equipment Design I introduces the principles of unit operations, grouped into four sections: fluid mechanics, heat transfer, mass transfer and equilibrium stages, and operations involving particulate solids. It also includes design and operation fundamentals of unit operations: size reduction, filtration, evaporation, drying, crystallization, and humidification, and membrane separation.

CO: ENGI 5601
LH: at least four 2-hour sessions per semester
PR: ENGI 4621, ENGI 4625

5706 Design of Concrete Structures begins with a review of concrete mix design. Topics include design methods and requirements, strength of rectangular sections in bending, balanced condition at ultimate strength with tension reinforcement, bending with both tension and compression reinforcement; serviceability, deflections, flexural crack control for beams and one-way slabs; shear strength, inclined cracking, and shear reinforcement; bond stress and development of reinforcement; T-sections in bending; members in compression and bending; length effects, lateral ties, spiral reinforcement and longitudinal bar placement.

LH: at least five 3-hour sessions per semester
PR: ENGI 4312

5713 Fluid Mechanics examines fluid characteristics; fluid statics; buoyancy and stability; kinematics; pressure measurement; continuity, energy and momentum principles; energy and hydraulic grade lines; free jets; laminar and turbulent flow; dimensional analysis; drag on immersed bodies; flow measurement.

CR: the former ENGI 4913
LH: at least five 1-hour sessions per semester
PR: ENGI 4425

5723 Geotechnical Engineering II examines shear strength of soil, types of laboratory and in-situ soil tests; immediate and consolidation settlement of foundations; plastic equilibrium in soils; limit equilibrium method; earth retaining structures; introduction to bearing capacity theory and stability of slopes. Relevant laboratory exercises and projects are also included.

CR: the former ENGI 6723
LH: 3
PR: ENGI 4723

5800 Electrical Engineering Design students will work in pairs on small design projects that will require them to follow a hierarchy of design process which includes general product definition, specifications and requirements, functional block diagrams, definition of specification of functional blocks for circuit level synthesis and implementation, system integration, simulation, modelling, testing and verification. The small projects are designed to encourage and motivate students to learn and practise the process of design. The course will culminate in a large design project.

CO: ENGI 5821, ENGI 5854
LH: at least ten lecture hours per semester
OR: meetings with project supervisor as required
PR: ENGI 4841, ENGI 4854, ENGI 4862

5812 Basic Electromagnetics includes a review of relevant vector calculus, including the divergence, gradient and curl operators in Cartesian and cylindrical spherical coordinates, divergence theorem, Stokes’ theorem, and Laplace’s and Poisson’s equations. Topics in electrostatics include Coulomb’s law, potential and energy, conductors, dielectrics, capacitance and electric field boundary conditions. Topics for magnetism include the steady magnetic field, the Biot-Savart law, Ampère’s law, magnetic force, potential and magnetic materials and boundary conditions.

OR: tutorial 1 hour per week
PR: ENGI 3821, ENGI 4430

5821 Control Systems I includes an introduction to control systems with a negative feedback; mathematical modelling and transfer functions of electromechanical systems; block diagram reduction and signal flow graphs; controller realization using op-amps; transient response analysis; Routh’s stability criterion; basic control theory and response of control systems; root locus analysis and design; frequency response analysis; Bode diagram; gain and phase margins; compensator design in frequency domain; Nyquist stability criterion; A/D and D/A conversion, digital implementations of analog compensators; and an introduction to PID controller tuning methods.

LH: at least four 3-hour sessions per semester
PR: ENGI 4823

5854 Electronic Circuits II provides an introduction to circuits using operational amplifiers. Topics covered include operational amplifier configurations, analysis, and design; operational amplifier types and specifications; feedback amplifier analysis and design, stability and compensation techniques; noise and distortion in electronic circuits; analysis and design of data converters; and an introduction to analog filter design. CAD tools are used to illustrate the analysis and design of electronic circuits.

LH: at least five 3-hour sessions per semester
PR: ENGI 4823, ENGI 4854

5865 Digital Systems includes concepts, language, tools, and issues pertaining to specification, modelling, analysis, simulation, testing and synthesis of digital systems, including PLD, FPGA, and ASIC devices. Industry standard CAD tools will be used in this course to facilitate system design and testing.

LH: at least ten 3-hour sessions per semester
PR: ENGI 3891, ENGI 4862

5895 Software Design examines the development process: requirement
analysis, design, iterative development, design documentation; an introduction to the Unified Modelling Language: use cases, class diagrams and sequence diagrams; an introduction to software design patterns: creating structural patterns and behavioural patterns; object oriented, modular decomposition. The course includes a major design project.

LC: at least 25 lecture hours per semester
LH: at least four 3-hour sessions per semester
OR: meetings with project supervisor as required
PR: ENGI 4982

5911 Chemistry and Physics of Engineering Materials II examines aspects of chemical and physical processes and microscopic structure relevant to the production and use of engineering materials, focussing on metals, alloys, silicates, Portland cement, plastics and adhesives, composites, and wood. Topics include solid-state solutions and compounds, alloy structures, phase diagrams, recrystallization, solid-state transformations, polymization, oxidation and corrosion, hardness, creep, fatigue, fracture toughness and visco-elastic deformation.

CR: the former ENGI 3205
LH: at least four 3-hour sessions per semester
OR: tutorial 1 hour per week
PR: ENGI 3911

5931 Advanced Mechanics of Deformable Solids examines stresses due to combined loads, thin-walled pressure vessels, transformation of stresses and strains, and plastic strains and stresses (two and three dimensional stresses), Mohr’s circle, theory failures, stress concentrations, energy methods, buckling of columns, thick-walled cylindrical pressure vessels, rotating disks, multilayered thick walled pressure vessels, shrink fits and contact stresses.

CR: ENGI 5312
LH: at least four 2-hour sessions per semester
PR: ENGI 4312

5952 Mechatronics I (same as the former ENGI 4951) examines the dynamic behavior of mechanical, electrical, fluid, and thermal systems based on a lumped-parameter approach. Topics covered include modeling and analysis of dynamic systems; computer-aided modelling of mechanical systems with non-linear elements; transient and frequency response. Laplace transforms, transfer functions, and generalized frequencies are examined, and applications of operational amplifiers, signal conditioning, and filtering instrumentation for strain and temperature measurement.

CR: the former ENGI 4951
LH: five 3-hour sessions per semester
PR: ENGI 1040, ENGI 3424

11.6 Academic Term 6 Courses

6003 Ship Structures I is an introduction to ship structural safety and rational design. Topics include local strength analysis, elastic, plastic and ultimate strength of plating, frames and grillages, buckling of columns and plates and fatigue. Stress and strain. Laboratory exercises include structural analysis software and physical experiments.

CR: the former ENGI 7002
LH: at least five 3-hour sessions per semester
PR: ENGI 5003

6005 Floating Ocean Structures Design introduces floating structures used in the offshore petroleum industry, along with functional requirements, such as drilling and production, of the platforms. Field development criteria will be discussed in the context of platform concept selection and synthesis. Environmental loads are examined, focussing on wave loads and ice loads. Offshore safety is discussed in terms of major hazards, risk management, and case studies.

CR: the former ENGI 7005
LH: 1
PR: ENGI 3054

6046 Marine Engineering Systems (same as the former ENGI 7045) examines shafting system design; shafting system vibration analysis, study of exciting forces and moments, and balancing of reciprocating and rotating machines; heat transfer and marine heat exchangers; increase of fluid flow and piping system design and selection of appropriate pumping devices.

CR: ENGI 6933
LH: 4
PR: ENGI 3901

6055 Marine Cybernetics examines propulsion and motion control of ships, submersibles and offshore structures. Building upon the student’s knowledge of mathematics, mechanics and hydrodynamics provides an introduction to control systems and mathematical modeling of marine systems. Course components include: basic control actions and response of control systems; simulation and design of control systems; dynamic positioning; power management; marine automation.

CR: the former ENGI 4322
PR: ENGI 5312

6602 Offshore Petroleum Geology and Technology introduces basic concepts in geology and geophysics of the offshore environment. An outline of petroleum geology is presented, following a path from the origins of hydrocarbons through migration in the Earth’s crust, accumulation in reservoirs and the strategies used to recover and to exploit liquids found in the subsurface. Topics include an introduction to the offshore oil and gas industry in harsh environment, type of platforms and structures, exploration and development, phase of offshore oil development, production drilling and completion processes and equipment, and oil and gas transportation system. There are group activities and a project.

CR: the former ENGI 4322
PR: ENGI 5312

AR = Attendance requirement; CH = Credit hours are 3 unless otherwise noted; CO = Co-requisite(s); CR = Credit can be retained for only one course from the set(s) consisting of the course being described and the course(s) listed; LC = Lecture hours per week; LH = Laboratory hours per week; OR = Other requirements of the course such as tutorials, practical sessions, or seminars; PR = Prerequisite(s); UL = Usage limitation(s).
6713 Hydraulics examines flow in pipe systems and networks; uniform and non-uniform flow in open channels; hydraulic machinery and associated conduits; design and analysis of culverts; and pipeline/pump system optimization.

LH: at least four 3-hour sessions per semester
PR: ENGI 4102, ENGI 5713

6718 Environmental Geotechniques examines soil characteristics; soil mineralogy; soil water interaction; soil contaminant interactions; advection, advection-dispersion, non-aqueous phase liquids; geosynthetics; design of landfills; and use of waste materials. Relevant software programs are used.

CR: the former ENGI 7718
PR: ENGI 5723

6749 Construction Planning Equipment and Methods includes construction equipment selection and utilization; earthmoving including use of explosives; case studies of major civil projects; principles of project planning and control; computer applications to the construction industry.

CR: the former ENGI 8749
PR: ENGI 4102, completion of Academic Term 5 of the Civil Engineering program

6813 Electromagnetic Fields is a continuation of the topics started in Engineering 5812, including a review of electrostatics and magnetostatics, Maxwell’s equations, Lorentz force, Poynting’s theorem, plane waves, and applications including two wave transmission lines.

LH: at least three 3-hour sessions per semester
CR: tutorial 1 hour per week
PR: ENGI 5812

6843 Rotating Machines examines the fundamentals of rotating machines; design of machine windings; polyphase and single phase induction motor theory and applications; synchronous machine theory; stability and control of synchronous generators; permanent magnet machines; an introduction to AC motor drives.

LH: at least six 3-hour sessions per semester
PR: ENGI 4841

6855 Industrial Controls and Instrumentation examines control and instrumentation system components; transducers and signal processing circuits, linear variable differential transformers, power oscillators; electromechanical actuators, solenoids, power drives; A/D and D/A conversion, standard PC interfaces; real-time operating systems; design of discrete-time feedback controllers on a PC platform; system integration, control system tweaking and troubleshooting; programming soft PLC’s using IEC61131.

CR: the former ENGI 7858
LH: at least eight 3-hour sessions per semester
PR: ENGI 5821

6856 Power Electronics is an overview of power semiconductor switches, an introduction to energy conversion and control techniques and examination of controlled rectifiers; phase-controlled converters; switch-mode dc/dc converters; variable frequency dc/ac inverters; ac/dc converters; design of thyristor commutation circuits, gate and base drive circuits, and snubber circuits; thermal models and heat sink design.

CR: the former ENGI 7846
LH: at least ten 3-hour sessions per semester
PR: ENGI 5854

6861 Computer Architecture begins with a review of microprocessors and computer organization. Topics include fundamentals of computer design: performance, metrics and cost; instruction set architecture; memory hierarchy design; cache, main memory and virtual memory; pipelining; hazards, parallelism; special purpose processors; multiprocessors and thread-level parallelism.

PR: ENGI 4862

6871 Communication Principles begins with a review of signal representation and analysis and includes distortionless signal transmission, analog modulation (AM, FM and PM), super-heterodyne receiver, sampling theorem, pulse amplitude modulation (PAM), pulse code modulation (PCM), delta modulation, baseband digital transmission, digital modulation techniques (ASK, FSK and PSK).

LH: at least four 3-hour sessions per term
PR: ENGI 4823, ENGI 5420

6876 Communication Networks is an introduction to communication network topology, telephone and computer networks. Topics include circuit and packet switching, network protocols and layered architecture, physical layer, data link layer, network layer, error control; local area networks, and internetworking.

PR: ENGI 5420

6895 Algorithms: Complexity and Correctness presents fundamental theories and techniques for the design of correct and efficient computing systems, including specification of computing systems and their components, correctness with respect to specifications; methods of verification; algorithmic problem solving strategies (such as divide and conquer, dynamic programming); tractability and intractability of computational problems.

CR: tutorial one hour per week
PR: ENGI 4424, ENGI 4892

6901 Heat Transfer I examines modes of heat transfer; conduction: steady 1-D conduction, thermal resistance, extended surfaces (fins), lumped capacitance analysis, 1-D transient conduction; convection: Newton’s law of cooling, convection heat transfer coefficient, external boundary layer flows, internal flows, natural convection; radiation: principles, properties, exchange factors, black body radiation, and enclosures, radiation shields.

CR: ENGI 5602
LH: at least one 3-hour session per semester
PR: ENGI 4901

6928 Computer Aided Engineering Applications (same as the former ENGI 7928) introduces a variety of Computer Aided Engineering (CAE) applications based on advanced 3D CAD modelling. The fundamentals of 3D modelling are covered including parametric and feature-based design. CAE applications include assembly modelling, mechanism animation and finite element analysis. Further applications include Computer Aided Manufacturing (CAM); model based inspection (i.e. Coordinate Measurement Machines); reverse engineering; document/drawing control; data exchange; data management. The course has a significant lab component, which provides exposure to solid modelling and CAE applications based on an industrial CAD/CAM/CAE package.

CO: ENGI 6929 or the former ENGI 5926 or 5927
CR: the former ENGI 7928 or 7962
LH: at least ten 3-hour sessions per semester
PR: ENGI 1039

6929 Mechanical Component Design I (same as the former ENGI 5927) examines design and synthesis of machine elements with a focus on failure prevention, safety factors, and strength; static failure of ductile and brittle materials, fatigue analysis of components. Topics include the design of power screws, bolted connections, welds, springs, and shafts.

CR: the former ENGI 5926 or 5927
LH: at least eight 3-hour sessions per semester
PR: ENGI 4312

6933 Mechanical Vibrations examines single degree of freedom systems: free vibration, energy methods, response to harmonic excitation, response to arbitrary inputs, two degree of freedom systems: natural frequencies and mode shapes, dynamic vibration absorber.

CR: the former ENGI 5932
LH: at least four 2-hour sessions per semester
PR: ENGI 3934

6951 Automatic Control Engineering examines the performance of feedback control systems. The topics covered in the course are: feedback control concept; control system performance; control system stability; nonlinear phenomena. There is a project which makes use of a peripheral interface controller or PIC. There are 3 laboratory exercises. Extensive use is made of MATLAB.

CR: the former ENGI 6925
LH: at least three 1-hour sessions per semester
PR: ENGI 5952 or the former ENGI 5951

6961 Fluid Mechanics II examines differential analysis of fluid motion; conservation of mass: continuity equation; conservation of momentum: Navier-Stokes equations; conservation of energy: inviscid incompressible flows; low Reynolds number flows; boundary layer flows; compressible flows.

CR: the former ENGI 5913
LH: at least three 1-hour sessions per semester
PR: ENGI 4961 or the former ENGI 5961

11.7 Academic Term 7 Courses

7000 Ocean Systems Design develops concept design methods for marine systems from need definition through to solution selection, including weight, cost and power requirements estimating, selection of principal design parameters, an introduction to statistics and evaluation of alternative solutions. Students develop a proposal for a marine system design project which will include a statement of requirements, a parametric study, a work plan and schedule. This design project will be completed as a full design in ENGI 8000.

CR: the former ENGI 7052
LH: 3
PR: ENGI 3001, ENGI 3054, ENGI 4102

7003 Small Craft Design (same as the former ENGI 8003) presents fundamentals of naval architecture and design methodology for small craft. Emphasis is on recreational craft, with special emphasis on sailing vessels. Construction materials, scantlings, performance prediction and seaworthiness are covered. Design problems unique to small craft such as mast design, sail area determination and performance prediction are covered. Students will do a small craft design of their choice. Small weekly design studies will be required.

AR = Attendance requirement; CH = Credit hours are 3 unless otherwise noted; CO = Coerequisite(s); CR = Credit can be retained for only one course from the set(s) consisting of the course being described and the course(s) listed; LG = Lecture hours per week are 3 unless otherwise noted; LH = Laboratory hours per week; OR = Other requirements of the course such as tutorials, practical sessions, or seminars; PR = Prerequisite(s); UL = Usage limitation(s).
7007 Marine Materials examines the properties and uses of steel and aluminum in marine applications. Topics include: overview of shipbuilding processes, materials and corrosion control; welded construction; Hooke's Law; material failure; statics; models; carbon steel properties, grades, classification, testing; welding of steel - fundamentals, processes, preparation, design, drawings, certification; joining of aluminum - riveting, welding.

LC: 1
PR: CHEM 1050, ENGI 4312

7033 Marine Hydodynamics examines the fundamental equations of hydrodynamics, boundary layers; potential flow, added mass, damping, circulation, and vorticity; numerical methods for hydrodynamic coefficients; water waves and loading for regular and irregular seas.

LH: at least one 3-hour session per semester
OR: one tutorial hour per week
PR: ENGI 3054, ENGI 4020

7035 Dynamics and Maneuvering of Ocean Vehicles (same as the former ENGI 6030) examines applications of the linearised equations of motion to ocean vehicle problems with single and multiple degrees of freedom; dynamics and maneuvering of marine vehicles; motions in calm water and in waves; hydrodynamics effects such as added mass, radiation and viscous damping, strip theory; irregular motions; and systems for course keeping and mooring.

CR: the former ENGI 6030
LH: at least two 3-hour sessions per semester
PR: ENGI 1003W

7102 The Engineering Profession examines the origins and development of ENGI profession and its role, the place of technology in society and the nature of technological decisions. Topics will include the role and responsibility of the professional engineer in society, code of ethics, sustainable development and environmental stewardship.

CR: the former ENGI 5101
PR: ENGI 003W

7621 Process Dynamics and Control familiarizes students with the scientific and engineering principles of process dynamics and control. Students will apply and integrate knowledge of chemical engineering to identify, formulate and solve process dynamics problems and control design systems. Modern computational techniques and tools will be used for solving chemical process control problems. Also students will become familiar with industrial control systems.

LH: at least four 2-hour sessions per semester
PR: ENGI 6621 or the former ENGI 5621

7623 Process Simulation provides students with the knowledge and experience to use a process simulator, effectively for the analysis and synthesis of process flowsheets, mass and energy balances, sizing of individual component and process unit, reactor modeling, separation device modeling, heat exchanger modeling, and dynamic and steady state analysis.

LH: at least nine 2-hour sessions per semester
PR: ENGI 6621 or the former ENGI 5621, ENGI 6671

7640 Process Engineering Project I gives students the opportunity to apply the knowledge gained in previous design and technical courses to the complete design of a piece of process equipment, e.g. distillation column, evaporator, membrane separation unit, etc. The goal is to expose the students to practical design issues that arise in process equipment design, and to provide experience in the complete design process as applied to real devices. This course is a precursor to ENGI 6640 where students will work in groups to design a process system.

LC: scheduled as required
PR: completion of academic term 6 of the Process Engineering program

7650 Offshore Oil and Gas Engineering Project I is a multidisciplinary design project that illustrates the application of previous engineering science and design related courses. The project will be done by teams of students with individuals concentrating their participation in their own engineering discipline. The project topic will be from the offshore oil and gas engineering industry. Lectures will be scheduled as required. This is the Term 7 project and it is the scope of the project is such that it needs to continue, then the students will have the option to continue the same project in term 8 (in ENGI 8650).

LC: 1
PR: completion of Academic Term 6

7651 Industrial Pollution Control/ Pollution Prevention is designed to introduce methods of industrial pollution assessment and control. Topics include: characterization, water pollution assessment, air pollution control, air pollution assessment and control, solid waste assessment and control, pollution prevention, environmental risk assessment and risk based decision making.

PR: ENGI 6621 or the former ENGI 5621, ENGI 6671

7680 Supervisory Control and Data Acquisition examines data acquisition and intelligent field devices; distributed systems and fieldbus technology; programmable logic controllers and programming standards; operator control interface; supervisory control and data acquisition; and enterprise organization.

LH: at least four 3-hour sessions per semester
PR: ENGI 5821

7691 Mining and Metallurgical Process Engineering is designed to provide students with a basic fundamental background to the mining, mineral processing, and extractive metallurgical processing industry. The course includes both traditional and modern industrial methodologies. Concepts such as a mine design, mineral flow sheets, extraction methods, and examples from industrial applications will be reviewed with problems.

LH: at least four 2-hour sessions per semester
PR: completion of academic term 6 of the Process Engineering program

7704 Design of Steel Structures begins with a review of Design Concepts, Standards and Products. Topics include design of members and connections, tension members, bolted joints, welded joints, compression members, stability and effective length, flexural members, beams & columns, plate girders, composite construction, introduction to serviceability, and deflections.

LH: at least four 2-hour sessions per semester
PR: ENGI 5706 or approval of the appropriate Head of the Department

7706 Finite Element Structural Analysis includes a review of basic concepts required for FEA, basis of stiffness formulations, method, displacement method, one dimensional elements, trusses and frames. Topics include 1-D fluid and heat transfer elements, automated analysis and modelling concerning higher order elements, two dimensional elements - plane stress and plane strain, introduction to 3D and other types, - introduction to advanced topics and isoparametric formulation.

LH: at least eight 2-hour sessions per semester
PR: ENGI 6705 or approval of the appropriate Head of the Department

7707 Reliability and Environmental Loading on Offshore Structures begins with an introduction to the natural phenomena that influence the design of marine structures. Topics include the interpretation and utilization of field data for the determination of design loads for wind, wave, current and ice and case studies of load analysis for the design of offshore structures in Atlantic Canada.

PR: ENGI 5312

7708 Hydrodynamics examines the fundamental equations of fluid mechanics; boundary layers; problems with ice in rivers; the design of spillways, energy dissipaters, and culverts; physical scale models. There is an introduction to water hammer and surge tanks.

LH: at least four 3-hour sessions per semester
PR: ENGI 6713

7723 Geotechnical Engineering III examines soil investigation and site characterization; pile foundations; embankment dams; elements of geotechnical earthquake engineering; constitutive theories for soil materials; and numerical methods in geotechnical engineering. The students select two of the above topics on which they are interested in concentrating their efforts. Bi-weekly lectures are offered on the other topics at an informal level.

PR: ENGI 5723

7745 Highway Engineering examines design and construction of highways including driver, vehicle and road characteristics; highway location and geometric design; soil classification; subgrade and base materials; highway drainage; flexible and rigid pavement; and highway economics.

PR: completion of Academic Term 6 of the Civil Engineering program

7748 Project Planning and Control includes an introduction to types of contracts, project delivery approaches, and prevailing contractual relationships. The course examines basic project management techniques for network planning and scheduling (CPM and PERT); principles of resource productivity databases, preliminary estimating, and detailed bid preparation; quantitative approaches for effective control; time, cost, resource, quality, and value of constructed facilities; use of computer software for scheduling, estimating, and control.

PR: completion of Academic Term 6 of the Civil Engineering program

7803 Electrical Engineering Design Project I provides an opportunity for senior students to integrate the knowledge that they have acquired through the junior terms and apply it to solving an electrical engineering design problem. Students work in small teams with the assistance of a faculty mentor to define an appropriate design problem and propose a method of solution to the problem. The project is continued in ENGI 8653.
7804 Computer Engineering Design Project I provides an opportunity for senior students to integrate the knowledge that they have acquired through the junior terms and apply it to solving a computer engineering design problem. Students work in small teams with the assistance of a faculty mentor to define an appropriate design problem and propose a method of solution to the problem. The project is continued in ENGI 8854.

7811 Antennas examines the fundamentals of electromagnetic radiation; antennas and antenna arrays; antenna monitors; uniform plane wave propagation in various media; and applications of electromagnetics in communications. PR: ENGI 3424, ENGI 3821

7814 Electromagnetics for Communications examines vector calculus; Green's, Stokes' and Gauss' theorems; Maxwell's differential and integral equations; steady-state and time-varying aspects of Maxwell's equations; uniform plane wave propagation in various media; and applications of electromagnetics in communications. PR: ENGI 3424, ENGI 3821

7824 Introduction to Digital Signal Processing examines sampling theory; elementary discrete-time signals; discrete-time linear and time-invariant systems; linear constant-coefficient difference equations; the convolution sum; the discrete-time Fourier series; the discrete-time Fourier transform; frequency response of discrete-time systems; the discrete Fourier transform; the efficient fast Fourier transform algorithm; an introduction to digital filter design techniques; and digital signal processing applications. PR: ENGI 6871

7825 Control Systems II examines state space models for multi-input/output systems; observability, controllability; state feedback without and with integral controller structure, state observers; quadratic optimal regulator and tracking control strategies; discrete-time state equations; and an introduction to optimal control. CR: the former ENGI 6825 PR: ENGI 5821

7844 Power System Analysis begins with an introduction to electric power systems. Topics include per unit quantities; transmission line parameters; modelling of power system components; single line diagrams; network equations formulation; bus impedance and admittance matrices; load flow analysis and control; design of reactive power compensation for power system performance enhancement; tap changing, auto and control transformers for power system application; economic dispatch and optimal power flow studies. LH: at least six 3-hour sessions per semester PR: ENGI 6843

7854 Industrial Machine Vision is a course in computer vision with an emphasis on techniques for automated inspection, object recognition, mechanical engineering, and robotics. The main focus is on image segmentation, feature extraction, morphological operators, recognition and photometry while topics such as image enhancement, restoration, filtering and smoothing are covered to a lesser extent. Issues related to the efficient software implementation of these techniques for real-time applications are also addressed. Reasonably strong programming skills are required. LH: at least four 3-hour sessions per semester

7855 Communications Electronics begins with an introduction to communications systems components and a review of linear amplifiers. The course examines linear amplifier design and characteristics using s-parameters; power amplifiers; mixers; oscillators; modulator/demodulator circuits and subsystems; and the integration of subsystems into analog and digital communication systems. PR: ENGI 5845, ENGI 6871

7856 Renewable Energy Systems examines the assessment of wind energy potential; wind turbine aerodynamics, types, modelling and control strategies; small-scale energy systems; energy storage; solar energy systems; photovoltaic, PV system engineering, stand-alone and grid connected systems, sizing and maximum power tracking; solar water pumping; micro-hydro systems and control; tidal power, wave energy converters, ocean thermal systems. Applications of hybrid energy system sizing software are also included in the course. LH: at least eight 3-hour sessions per semester PR: ENGI 4841 or the former ENGI 5842

7894 Concurrent Programming surveys parallel and distributed architectures and examines patterns of concurrent program design; correctness of concurrent programs: safety and liveness properties, proof of properties; synchronization using locks, semaphores, and monitors; communication using message passing and remote procedures; parallelization for high-performance computation and advanced topics such as scientific applications, distributed systems, model checking, and transaction processing. CR: the former ENGI 8893 PR: ENGI 6881, ENGI 6892

7901 Heat Transfer II examines advanced topics in heat transfer; multi-dimensional conduction; shape factors, numerical methods, moving heat sources; heat transfer equipment: heat exchangers, heat exchanger design principles; phase change heat transfer: melting, solidification, condensation, and boiling. LH: at least one 3-hour session per semester PR: ENGI 6901

7903 Mechanical Equipment examines performance characteristics of mechanical equipment: fluid power devices: pipes; valves; pumps; fans; blowers; compressors; storage tanks; heat transfer devices: heat exchangers; boilers; cooling towers; and pressure vessels. LH: at least three 1.5-hour sessions per semester PR: ENGI 6901

7911 Industrial Materials - inactive course.

7926 Mechanical Design Project I is the first of two capstone design courses in the Department of Mechanical Engineering. In this course mechanical students are organized into small groups or teams, which must complete a common design challenge. The project is presented as an open-ended problem statement with specific performance objectives. The system must be designed, prototyped and tested during the course of the term. Each team is a small consulting firm and is required to document its object planning as well as its design. CR: the former ENGI 7935 CR: scheduled as required PR: ENGI 4102, completion of Academic Term 6 of the Mechanical Engineering program

7929 Mechanical Component Design II same as the former ENGI 6927) is a continuation of the ENGI 6929 course in analysis and synthesis of machinery, including advanced analysis of machine elements such as clutches, brakes, couplings, journal bearings and gears. Advanced machine design concepts are examined, such as reliability, optimization and techniques for stimulating innovative design. A synthesis project involving the machine elements studied is usually included. CR: the former ENGI 6926 or 6927 LH: at least ten 3-hour sessions per semester PR: ENGI 6929 or the former 5927

7930 Instrumentation and Experimental Design involves instrumentation and measurement techniques, sensors for motion and process control, data acquisition and signal conditioning; the design, conduct, and analysis of engineering, scientific, and numerical experiments; design of experiments: factorial design and analysis; and response surface methodology (RSM). LH: five 3-hour sessions per semester PR: ENGI 4421

7934 Finite Element Analysis examines the basis of the finite element method. The course examines continuum mechanics applications; beam problems, fluid mechanics problems, and heat transfer problems. There are relevant computer laboratory exercises. LH: at least ten 2-hour sessions per semester PR: ENGI 4430, ENGI 5931

7952 Robotics and Automation provides the fundamentals in robotic manipulators and arms. The course provides basic understanding in computer-aided transformations for spatial description, both kinematical and kinetic analysis, forces and dynamics and finally trajectory generations and path planning. CR: the former ENGI 7944 LH: at least three 3-hour sessions per semester PR: ENGI 1040, ENGI 4430

7953 Mechatronics II (same as the former ENGI 5951) emphasizes the integration of the core technologies on which contemporary, mechatronic designs are based. Topics covered include semiconductors devices, analog and digital electronics; microcontroller technology and interfacing; sensors for motion control; selection, sizing, and modelling of electric servomotors, servovalves and hydraulic actuators; position, velocity, and force control; digital and analog implementation of controller architectures; mechatronic design case studies. CR: the former 5951 LH: five 3-hour sessions per semester PR: ENGI 5952
11.8 Academic Term 8 Courses

8000 Ocean and Naval Architectural Engineering Project I covers the design, construction, and operation of offshore structures and ships. The project will include the application of ship and offshore structure design, materials, and mechanics. It will also cover the design and operation of ships and offshore structures. The project will be guided by the offshore and shipbuilding design standards.

8053 Offshore Oil and Gas Exploration Project I covers the design and operation of offshore structures and ships. The project will include the application of ship and offshore structure design, materials, and mechanics. It will also cover the design and operation of ships and offshore structures. The project will be guided by the offshore and shipbuilding design standards.

8054 Advanced Marine Vehicles examines the concepts used in the design of advanced marine vehicles. Emphasis will be given to structural design of craft constructed from fibre reinforced plastics; high speed marine vehicles; powering, structures, seakeeping and model testing; small craft.

8058 Submersible Design examines the design of submersibles for marine environments. It will cover the design and operation of submersibles for deep sea environments and onshore environments.

8074 Arctic Ocean Engineering examines marine ice as an environmental load factor in the context of ships and engineered structures designed for ice covered waters. Topics include: types of naturally occurring ice; sea ice formation and characteristics; mechanical strength of sea ice under common modes of ice failure; modes of ice interaction with ships and marine structures; estimation of ice forces on offshore structures; powering requirements for ice breaking ships; regulations and standards for design of ships and offshore structures in arctic environments.

8150 Engineering Entrepreneurship is an introduction to the concepts, issues, and themes related to business planning, strategy, and entrepreneurship, with an overview of the functional activities in a typical business venture. Business analysis and planning skills are developed. The course explores the business planning and strategic management issues of technology-driven enterprises in the early stages of development and focuses on the engineer as an entrepreneur.

8151 Technology, Sustainable Society and International Development examines multidisciplinary planning on technical international development projects through the conceptual frameworks of international development and project implementation theory. Emphasis is on analysis of complex relationships between technology, society, culture, economic, environmental and political factors; and technology to achieve sustainable international development objectives.

8640 Process Engineering Project II is a design project that illustrates the application of previous engineering science and design related courses. Projects will be done by teams of students with individuals concentrating their participation in their own engineering discipline. The project topic will be from the set(s) consisting of the course being described and the course(s) listed.

8671 Safety and Risk Engineering begins with an overview of safety and risk issues in the offshore oil and gas industry. The course examines regulatory requirements; hazards and structured analysis tools; risk terminology and quantified risk analysis (QRA) techniques; and safety assessment studies. The course includes project and case studies.

8673 Subsea Pipeline Engineering provides an introduction to subsea pipeline engineering with a focus on the mechanical design of offshore pipelines. Stress-based, design-based and limit-state design for strength and stability are examined. Other fundamental pipeline engineering design issues such as materials specification, flow assurance and installation are reviewed. Principles of geotechnical engineering and pipeline/soil interaction analysis techniques are investigated. Special topics are also reviewed.

8676 Design of Natural Gas Handling Equipment covers process description, design methods, operating procedures, and troubleshooting aspects of gas production facilities including inlet separation operations, hydrate prevention and control, gas dehydration, NGL recovery and dew point control, gas transmission, and pipeline design and transportation systems.

8777 Process Plant Design and Economics provides a comprehensive picture of the availability and design of both traditional and current process industries reflecting current economic criteria, and provide helpful guidelines to approaching, defining, and solving optimization problems.

8860 Process Control and Instrumentation begins with an introduction to feedback control systems and instrumentation. Topics include modelling techniques, gas, liquid and chemical processes; sensor and control design for strength and stability. The course includes project and case studies.

8890 Reservoir Engineering examines fluid pressure regimes, oil recovery assessment, calculation of hydrocarbon volumes, reservoir rock characteristics, reservoir fluid properties, porosity and permeability, material balance, and well test analysis.

8891 Petroleum Production Engineering examines the procedures and equipment necessary for preparing a well to produce hydrocarbons and maximizing flow rate during the life of the well. The course covers productivity analysis in under-saturated, saturated, and natural gas reservoirs; field completion; development of gas wells; formation damage, surfactant methods; hydraulic fracturing; acidizing; scale deposition, removal, and prevention; workover and completion rigs; and artificial lift.

8892 Drilling Engineering for Petroleum Exploration & Production covers both offshore and onshore drilling operations and includes: rotary drilling rig operations, well construction sequence, drill string, drill bits, well bore hydraulics, casing and wellhead systems, cementing, well control, directional and horizontal drilling, well completion and fracking operations, advanced reach, horizontal and multilateral well drilling techniques.

8893 Petroleum Facilities Engineering - inactive course.

8894 Downstream Processing includes: oil and natural gas processing, oil and gas storage facilities and their design, oil and gas separation processes, petroleum refining processes, and de-bottlenecking.

8896 Petroleum Refining ENGINEERING will cover crude and refinery products properties and specifications, process description, design methods, operating procedures, and troubleshooting aspects of modern petroleum refining. It also includes hydrotreating, catalytic reforming, hydrocracking, isomerisation, refinery machinery, and utilities.

8700 Civil Engineering Project is a practically oriented design project carried out over the live areas in which Civil programs are offered. Students will operate in consultant groups and will complete a design for a typical Civil Engineering undertaking.

Faculty of Engineering and Applied Science 2015-2016
8705 Structural Building Systems examines geometries, loads, safety and serviceability, procedure of using the national building code for evaluating the governing loads on structural members; design of low rise concrete, timber; spanning systems; lateral load-resisting elements and bracing systems; design of foundation systems, footing design, pile cap design, pile group analysis using elastic centre method and inclined pile analysis; prestressed concrete concepts; strength of flexural members, and shear reinforcement for prestressed concrete.

LH: at least nine 3-hour sessions per semester
PR: ENGI 6707

8708 Offshore Structural Design examines guidelines and international codes and standards for offshore structural design; understanding design constraints and concepts of offshore fixed and floating structures; design consideration for fixed offshore concrete platform; design consideration for offshore platform and floating production system design, and analysis of various support systems of the offshore structure.

PR: ENGI 7707

8713 Municipal Engineering includes water supply system overview; water consumption and demand; groundwater and surface water systems; demand and transfer; water treatment processes; water distribution systems and design software; sewer systems and design software; wastewater treatment processes; sludge handling; decentralized and on-site wastewater treatment.

PR: ENGI 7716

8717 Environmental Assessment, Monitoring and Control covers statistical analysis; pollution monitoring, and sampling network design; water quality and air quality modelling; environmental risk assessment; environmental impact assessment; site remediation and hazardous waste management. There are relevant field trips and case studies.

LH: at least ten 3-hour lab sessions per semester
PR: ENGI 4717

8740 Contract Law and Labour Relations is an introduction to law as it applies to engineering activity; the nature of law and legal processes, including torts, liens, bonds and insurance; the labour movement in North America; examination of union philosophies and managerial attitudes; labour law and collective bargaining; disputes and settlements.

CR: the former ENGI 6740
LH: at least ten 3-hour sessions per semester
PR: completion of Term 7 of the Civil Engineering program

8751 Coastal and Ocean Engineering examines the coastal and ocean environment; ocean circulation and properties; waves and tides; instrumentation and measurement. Additional topics will be drawn from the areas of hydraulic, geotechnical and structural engineering. Relevant field exercises will be conducted.

PR: ENGI 6713

8821 Design of Digital Signal Processing Systems is a review of introductory digital signal processing (DSP) principles, including sampling theory and discrete-time systems and signals. Topics include transform analysis; DSP systems; filter structures, digital systems, and signal processing applications; the Fourier transform; the z-transform; the discrete Fourier transform; the fast Fourier transform; digital filters; and the implementation of digital filters.

PR: ENGI 7824

8826 Filter Synthesis begins with an introduction to analog filters. The course examines descriptive terminology, transfer functions and frequency response of filters; design of first order passive and active filters; design and analysis of bi-quad circuit; Sallen key circuit, multiple feedback circuit and state variable filter; RC-RC transformation; inductance simulation circuit; cascading design principles; design of filters with maximally flat magnitude response; design of filters with equal magnitude response; design of Bessel-Thomson filters; analysis and design of switched capacitor filters; and the use of Matlab for design of analog filters.

LH: at least four 3-hour sessions per semester
PR: ENGI 5854

8845 Power System Operation examines symmetrical components; power system fault analysis; power system stability; and power system protection.

LH: at least four 3-hour sessions per semester
PR: ENGI 7785

8853 Electrical Engineering Design Project II continues ENGI 7803 and provides an opportunity for senior students to integrate the knowledge that they have acquired through the junior terms and apply it to solving an electrical engineering design problem. Students work in small teams with the assistance of a faculty mentor to complete detailed design, implementation and testing of an electrical engineering system to solve the problem as defined in 7803.

CR: the former ENGI 8800
LC: 0
OR: weekly meetings with project supervisor
PR: ENGI 7803

8854 Computer Engineering Design Project II continues ENGI 7804 and provides an opportunity for senior students to integrate the knowledge that they have acquired through the junior terms and apply it to solving a computer engineering design problem. Students work in small teams with the assistance of a faculty mentor to complete detailed design, implementation and testing of a computer engineering system to solve the problem as defined in 7804.

CR: the former ENGI 8800
LC: 0
OR: weekly meetings with project supervisor
PR: ENGI 7804

8863 Introduction to LSI Design (same as Computer Science 4725) is an introduction to ASICs and ASIC design methodology and includes basic concepts of digital logic design tools and ASIC technology libraries; partitioning for logic synthesis and VHDL coding; constraining designs, synthesizing, simulation and optimization; design for testability; layout and post-layout optimization and SDF generation; and static timing analysis.

LH: at least eight 3-hour sessions per semester
PR: ENGI 5865

8868 Computer and Communications Security examines the techniques used to provide security in communication networks and computer systems. The course focuses on topics in cryptography required to provide privacy, authentication, and integrity, including symmetric key ciphers, public key ciphers, message authentication, and digital signature schemes.

PR: ENGI 6876

8877 Wireless and Mobile Communications (same as the former ENGI 6901) covers the fundamental concepts and main concepts of wireless and mobile communication systems focusing on the system level design and performance. Main topics to be covered include Introduction to Wireless Communication Systems, Wireless Channel Models, Frequency Reuse Concepts, Wireless Multiple Access Techniques (TDMA, FDMA, CDMA), Orthogonal Frequency Division Multiplexing (OFDM), Wireless Systems (GSM, 3G, LTE, etc.).

CR: the former ENGI 8804
PR: ENGI 6871
LH: at least eight 3-hour sessions per semester
PR: ENGI 6876

8879 Digital Communications is a review of baseband transmission and basic digital modulation schemes, detection (optimum receiver, matched filter, correlator), error performance, intersymbol interference (ISI), equalization, the concept of information and entropy, source coding including Huffman coding and linear predictive coding, channel coding including block and convolutional error correcting codes, modulation and coding trade-offs, bandwidth and power efficiency.

PR: ENGI 6871

8894 Real-time Operating Systems examines real-time process scheduling; memory and device management; I/O communications; real-time operating systems, operating system and hardware concurrency issues; kernel architectures; device drivers; and a survey of available real-time operating systems and embedded platforms.

CR: the former ENGI 7863, Computer Science 4721
PR: ENGI 7894

8903 Mechanical Systems examines mechanical systems design; system simulation, control, and optimization; design optimization and system performance evaluation; design case studies and equipment for overall system design.

PR: ENGI 6901

8911 Corrosion and Corrosion Control examines forms of corrosion; the electrochemical nature of the corrosion process; the mixed potential theory; Purbaix diagrams and Evans diagrams; corrosion testing, control use by use of materials, selection, cathodic protection, inhibitors, and coatings. There are case studies of selected corrosion problems.

CR: the former ENGI 8962
LH: at least five 3-hour sessions per semester
PR: ENGI 7911

8926 Mechanical Design Project II is the second of two capstone design courses in the Department of Mechanical Engineering. Building on skills acquired in the first, student teams each choose a unique design challenge and then proceed to generate a solution. The problem statements are often drawn from industry and, where possible, interdisciplinary interaction is encouraged (for example, with business, computer science, or other engineering disciplines). In most cases, the problem proponent will act as the “client” and the team is expected to manage the client interaction process as well. Significant emphasis is placed on both oral and written communication of both the process and results. Wherever possible, each system or a critical component of it, will be prototyped and tested.

CR: the former ENGI 8936
LC: scheduled as required
LH: scheduled as required
PR: ENGI 7926

8933 Fatigue and Fracture Mechanics - inactive course.

8935 Pressure Component Design examines traditional design methods;
load types; sustained, cyclic, impact; failure modes and mechanisms; incremental collapse; plastic shakedown; upper bound and lower bound approximations; loa cycle fatigue; and rational design procedures. Case studies are conducted for cylinders; plates; shells.

PR: ENGI 5931

8937 Machine Dynamics begins with a review of mechanism inverse dynamics (prediction of unknown forces and torques required to create a known motion). Forward dynamic analysis (predicting unknown motion due to applied forces and torques) is then formulated and implemented using student-generated computer code. Practical applications of dynamics are studied, including analysis of engine shaking forces; balancing of rotating and reciprocating machinery; shaft vibration, whirl, and balancing; design of flywheels; and gyroscopic effects.

CR: the former ENGI 7945
LH: two 2-hour sessions per semester
PR: ENGI 4932, 6933

8945 Production & Operations Management is an overview of production and operations management, and an examination of decision making and operations strategy; process design and improvement, process flow analysis/simulation, capacity planning; design of value chains, lean systems, plant layout and process planning; operating value chains, MIS systems, inventory and resource management; Relevant computer laboratory exercises are conducted.

CR: the former ENGI 7943
PR: ENGI 6901

8946 Modelling and Simulation of Dynamic Systems has an emphasis on interdisciplinary system models, equation formulation and structure, and model complexity. The bond graph modelling language will be introduced to simulate systems containing mechanical, electrical, thermal, hydraulic, and magnetic components.

CR: ENGI 9496
PR: ENGI 5952

8947 Computational Fluid Dynamics begins with a review of the equations governing viscous fluid flows and heat transfer. The course includes heat conduction, convection-diffusion, and fluid flow equations; gridding, dependent variable interpolation, discretized equations, solution of the discretized equations, transients and nonlinearities; testing and validation of CFD codes, standard test problems.

CR: ENGI 9977
PR: ENGI 6961

8964 Fluid Structure Interactions examines structural vibrations generated by fluid flow. These vibrations can be transient or they can take the form of instability or resonance. The course deals with the following fluid structure interactions: (1) Flow induced vibration of structures (2) Unsteady flow in pipe networks (3) Water wave interactions with structures.

CR: the former ENGI 8904
LH: at least three 3-hour sessions per semester
PR: ENGI 6961, ENGI 6933

8965 Advanced Fluid Dynamics includes fluid kinematics; equations of fluid dynamics: Navier-Stokes equations, Euler's equations, Stokes' equations, vorticity transport; low Reynolds flows; unsteady viscous flows; boundary layer flows; potential flows; introduction to turbulent flow; free shear flows.

CR: ENGI 9901
PR: ENGI 6961

11.9 Special Topics Courses

8075-8099 Special Topics in Ocean and Naval Architectural Engineering will have topics to be studied announced by the Faculty.

8102-8149 Special Topics in Engineering will have topics to be studied announced by the Faculty.

8601-8610 Special topics in Process Engineering will have topics to be studied announced by the Faculty.

8801-8805 (Excluding 8804) Special Topics in Computer Engineering will have topics to be studied announced by the Faculty.

8806-8809 Special Topics in Computer Engineering will have topics to be studied announced by the Faculty.

8833-8840 Special Topics in Electrical Engineering will have topics to be studied announced by the Faculty.

8970-8994 (Excluding 8977, 8981, 8991) Special Topics in Mechanical Engineering will have topics to be studied announced by the Faculty.

Fisheries and Marine Institute Advisory Committee
An Industry-based Advisory Committee, established by an Act of Legislature, with members appointed by the Board of Regents of the University, advises the Fisheries and Marine Institute on fisheries and marine related programs and activities.

Chair Advisory Committee
Captain S. Hynes, Executive Chairman, Oceanex Inc.

Committee Members
Allan, M., (Vice-Chair), Manager, Regulatory Affairs and Administration, Husky Energy
Blackwood, G., Vice-President, Fisheries and Marine Institute
Butler, R., Vice President, Plant Operations, Cooke Aquaculture
Dolomount, M., Executive Director, Professional Fish Harvesters Certification Board
Giatt, W., President, Marine Institute Students’ Union
Griffin, P., President and CEO, Marine Atlantic
Keating, K., Director of Projects, GJ Cahill & Company Limited
Lawrence, T., General Manager, Oceanering Canada Limited
Pecore, L., President, Genoa Design International Ltd.
Pretty, G., Director, Industrial/Retail, Fish and Food and Allied Workers Union
Sullivan, M., CEO, Ocean Choice International L.P.

Secretary to the Committee
Kavanagh, J., Office of the Vice-President (Marine Institute)

1 The Memorial University of Newfoundland Code

The attention of all members of the University community is drawn to the section of the University Calendar titled The Memorial University of Newfoundland Code, which articulates the University’s commitment to maintaining the highest standards of academic excellence. The Code covers a wide range of topics including academic integrity, ethical behavior, and responsibilities of faculty, staff, and students. It is an essential resource for understanding the expectations and policies that govern the University’s community. The Code is reviewed periodically to ensure it remains relevant and reflects the University’s values and standards. The most recent version of the Code can be found in the University Calendar available online at mun.ca/university-calendar.
2 Student Code of Conduct

Memorial University of Newfoundland expects that students will conduct themselves in compliance with University Regulations and Policies, Departmental Policies, and Federal, Provincial and Municipal laws, as well as codes of ethics that govern students who are members of regulated professions. The Student Code of Conduct outlines the behaviors which the University considers to be non-academic misconduct offences, and the range of remedies and/or penalties which may be imposed. Academic misconduct is outlined in UNIVERSITY REGULATIONS - Academic Misconduct in the University Calendar. For more information about the Student Code of Conduct, see www.mun.ca/student/conduct/conduct.php.

3 School Description

The Fisheries and Marine Institute was established in 1964 as the College of Fisheries, Navigation, Marine Engineering and Electronics. It became affiliated with the University in 1992 and since then has continued to grow as a world-class centre of marine technology and education. The official name is the Fisheries and Marine Institute of Memorial University of Newfoundland, but it is commonly known as the Marine Institute.

The main campus of the Marine Institute overlooks the city of St. John's from within Pippy Park, which has extensive hiking trails and recreational facilities. This building houses a flume tank, a seafood processing plant, freshwater aquaculture research and development facilities, and extensive marine simulation facilities. The Dr. C. R. Barrett Library, located at this campus, houses one of Canada's largest marine-related collections. In addition, the Institute manages the Offshore Safety and Survival Centre in Fogo, the Safety and Emergency Response Training (SERT) Centre in Stephenville, a regional fisheries and marine training center in Lewisporte, and a marine base on the south side of St. John's harbour and another in Holyrood.

The Marine Institute provides a full range of programs focussing on fisheries and marine science and technology. In addition to undergraduate and graduate degrees, the Institute offers advanced diplomas, diplomas of technology, and technical and vocational certificates. The Institute also runs a variety of short courses and industrial response programs.

All programs and courses are designed to provide students with the knowledge and skills required for success in the workforce. The Institute seeks the advice of industrial program advisory committees in the ongoing development and review of programs. Whenever appropriate, it submits programs for national accreditation, providing graduates with mobility in professional employment.

3.1 The Marine Institute Students' Union (MISU)

The Marine Institute Students’ Union (MISU) was incorporated in 1991. It is committed to the provision of services to students as well as representing the student body at the national, provincial and institute levels in matters affecting the quality of student life.

The MISU is a prominent member of The Canadian Federation of Students (CFS). The CFS provides a voice for students at over 70 universities, colleges, and technical institutes across Canada including more than 32,000 students in Newfoundland and Labrador. The national body has a strong presence in Ottawa and ensures students’ opinions are known on Parliament Hill. Services provided by CFS include the National Student Health Network, student saver cards, Student Work Abroad Program (SWAP), International Student Identity Cards (ISIC), and Travel Cuts. The CFS Newfoundland and Labrador (CFS-NL) ensures student's opinions are known in the Provincial House of Assembly. The MISU takes part in the CFS bi-annual conferences to discuss and form policies on behalf of students.

Within the Institute, the MISU has representation on a number of committees, including the Marine Institute Industry Advisory committee and the Academic Council, where the Union members ensure that student well-being is at the forefront in all policies affecting student life. The Union also manages the Marine Institute Student Union (MISU) building, which houses the administration, food services, academic and administrative offices, a gymnasium, a student lounge, a library, a student store, and a computer lab.

The Marine Institute Students' Union (MISU) manages and maintains the student lounge - The Mariner's Lounge. Within the Institute, the MISU has representation on a number of committees, including the Marine Institute Industry Advisory committee and the Academic Council, where the Union members ensure that student well-being is at the forefront in all policies affecting student life. The Union also manages the Marine Institute Student Union (MISU) building, which houses the administration, food services, academic and administrative offices, a gymnasium, a student lounge, a library, a student store, and a computer lab.

3.1 The Marine Institute Students' Union (MISU)

The Marine Institute Students’ Union (MISU) was incorporated in 1991. It is committed to the provision of services to students as well as representing the student body at the national, provincial and institute levels in matters affecting the quality of student life.

The MISU is a prominent member of The Canadian Federation of Students (CFS). The Union also manages the Marine Institute Student Union (MISU) building, which houses the administration, food services, academic and administrative offices, a gymnasium, a student lounge, a library, a student store, and a computer lab.

The Marine Institute Students' Union (MISU) manages and maintains the student lounge - The Mariner's Lounge.

4 Description of Degree Programs

Students must meet all regulations of the Fisheries and Marine Institute in addition to those stated in the University’s general regulations. For information concerning fees and charges, admission/readmission to the University, and general academic regulations (undergraduate), refer to UNIVERSITY REGULATIONS.

For information about non-degree programs and upgrading opportunities refer to www.mi.mun.ca.

4.1 General Degrees

The Marine Institute offers two undergraduate degrees. For specific details on each degree refer to the appropriate Degree Program Regulations. The courses in the program are available fully by distance and select courses are available on campus.

4.1.1 Bachelor of Maritime Studies

The Bachelor of Maritime Studies program prepares graduates for career advancement in the maritime and related industries. It is designed for students who have graduated from accredited, or Transport Canada approved, diploma of technology programs in the marine fields. The program is also available to professional mariners, professional fish harvesters and certain Canadian Forces (Naval Operations) personnel. Courses in the program provide the student with an introduction to human resource and business management concepts, and the social contexts in which their careers will be based. The program consists of 39 credit hours in addition to work completed in a diploma program and can be taken on a full-time or part-time basis.

4.1.2 Bachelor of Technology

The Bachelor of Technology program prepares graduates for career advancement in health science technology or engineering/applied science technology industries. It is designed for students who have graduated from an accredited diploma of technology program that is applicable to one of two optional areas. Courses in the program provide the student with an introduction to human resource and business management concepts, and the social contexts in which their careers will be based. The program consists of 39 credit hours in addition to work completed in a diploma program and can be taken on a full-time or part-time basis.

The optional areas are:
• Engineering and Applied Science Technology Option, which is normally chosen by students who have an engineering/applied science technology diploma.
• Health Sciences Technology Option, which is normally chosen by students who have a health sciences technology diploma.
5 Admission/Readmission Regulations for Degree Programs

In addition to meeting the admission/readmission requirements for the University students must also meet the admission/ readmission requirements for the Marine Institute. See UNIVERSITY REGULATIONS - Admission/Readmission to the University (Undergraduate) for University requirements.

5.1 General Information

1. All application forms must be submitted to the Admissions Office, Office of the Registrar, Memorial University of Newfoundland, St. John's, NL, A1C 5S7.

<table>

2. Students may not obtain both a Bachelor of Maritime Studies and a Bachelor of Technology degree based upon completion of the same diploma of technology.

5.2 Admission Requirements for Applicants to the Bachelor of Maritime Studies Program

1. An applicant must submit a form for admission/readmission to the University. This application must include all required documentation including proof of the diploma or certificate required for admission in a specific category.

2. Categories for admission to the Bachelor of Maritime Studies

Applications must meet the general admission/readmission requirements of the University and be eligible for admission to the Bachelor of Maritime Studies program in one of the following categories:

- **Category A**: applicants holding a diploma from the Marine Institute in nautical science, marine engineering technology, naval architecture technology or marine engineering systems design technology,
- **Category B**: applicants holding a Canadian Technology Accreditation Board accredited, or Transport Canada approved, diploma in marine engineering technology or naval science,
- **Category C**: applicants holding a Canadian or non-Canadian diploma similar to an accredited or Transport Canada approved Marine Institute diploma in nautical science, marine engineering technology, naval architecture technology or marine engineering systems design technology,
- **Category D**: applicants holding a Transport Canada Certificate of Competency at the Master Mariner, Fishing Master First Class or Engineering First Class level or equivalent,
- **Category E**: applicants who have Canadian Forces (Naval Operations) training acceptable to the Admissions Committee.

3. Applications to the program will be considered by the appropriate admissions committee(s).

4. In accordance with the UNIVERSITY REGULATIONS - Residence Requirements - Second Degree, students completing the Bachelor of Maritime Studies program, as a second degree, must complete a minimum of an additional 9 credit hours beyond a first degree and the work completed as required for admission to this degree.

5.3 Admission Requirements for Applicants to the Bachelor of Technology Program

1. An applicant must submit a form for admission/readmission to the University. This application must include all required documentation including proof of the diploma or certificate required for admission in a specific category.

2. Categories for admission to the Bachelor of Technology Program

Applications must meet the regular admission requirements of the University and be eligible for admission in one of the following categories:

- **Category A**: applicants holding a diploma from the Marine Institute in marine engineering technology, naval architecture technology or marine engineering systems design technology, marine environmental technology,
- **Category B**: applicants holding a diploma of technology accredited by the Canadian Medical Association (CMA),
- **Category C**: applicants holding a diploma of technology in engineering/ applied science technology accredited by the Canadian Technology Accreditation Board (CTAB),
- **Category D**: applicants holding a diploma of technology comparable to a Marine Institute or College of the North Atlantic three-year CTAB accredited diploma in engineering/applied science technology,
- **Category E**: applicants holding a diploma of technology comparable to a College of the North Atlantic three-year CMA accredited diploma,
- **Category F**: applicants holding a Certified Engineering Technologist (CET) designation or a Professional Technologist (PTech) designation along with a diploma of technology acceptable to the Admissions Committee,
- **Category G**: applicants who have Canadian Forces training acceptable to the Admissions Committee.

3. Upon acceptance into the program, students will be admitted to one of the two options: the Engineering and Applied Science Technology Option or the Health Sciences Technology Option. Students may be permitted to change their option with the approval of the Marine Institute Committee on Undergraduate Studies.

4. Applications to the program will be considered by the appropriate admissions committee(s).

5. In accordance with the UNIVERSITY REGULATIONS - Residence Requirements - Second Degree, students completing the Bachelor of Technology program, as a second degree, must complete a minimum of an additional 9 credit hours beyond a first degree and the work completed as required for admission to this degree.
6 Degree Program Regulations

6.1 Bachelor of Maritime Studies

- Students must complete 39 credit hours in addition to the work which was required under their category of admission.
- The required and elective courses are listed in Table 2 Bachelor of Maritime Studies - Course Requirements For All Students. These courses may have prerequisites which have to be met.
- When transfer credit has been granted for a course(s) taken to satisfy the requirements for admission students must take an additional elective University course(s).
- To meet the academic requirements for a Bachelor of Maritime Studies a candidate shall successfully complete the following program with a minimum overall average of 60% and a minimum numeric grade of 50% in each course required for the degree unless stated otherwise within the course description.
- Students must take 39 credit hours with 21 credit hours from the required courses and 18 credit hours from the electives.
- At least one elective must be chosen from each of the groups A and B.

7 Waiver of Degree Program Regulations

Students requesting waiver of University academic regulations should refer to UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate) - Waiver of Regulations. Every student also has the right to request waiver of degree program regulations.

7.1 General Information

- The Marine Institute reserves the right in special circumstances to modify, alter, or waive any Marine Institute regulation in its application to individual students where merit and equity so warrant, in the judgement of the Committee on Undergraduate Studies of the Marine Institute.
- Students requesting a waiver of a Marine Institute regulation must submit their request in writing to the head of the program who will forward a recommendation to the Chair of the Committee on Undergraduate Studies of the Marine Institute. Medical and/or other documentation to substantiate the request must be provided.
- Any waiver granted does not reduce the total number of credit hours required for the degree.

8 Graduation

Upon meeting the qualifications for any of the degree programs of the Fisheries and Marine Institute a student must apply by the appropriate deadline date to graduate on the prescribed "Application for Graduation" form. This form may be obtained on-line at the Memorial Self Service at www.mun.ca/regoff/stuweb.htm. Additional information is available from the Office of the Registrar at www.mun.ca/regoff/graduation/apply_grad.php.
9 Appeal of Decisions

Any student whose request for waiver of Marine Institute regulations has been denied has the right to appeal. For further information refer to UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate) - Appeal of Decisions.

10 Course Descriptions

All courses of the Marine Institute degree programs are designated as MSTM (Maritime Studies/Technology Management).

4001 The Organization and Issues of Shipping will provide students with knowledge of the economic shipping environment with respect to Canada. The course will develop an understanding of basic trade theory, patterns of trade and sea routes, commodities traded by sea, and the organizational structure of shipping companies. CR: the former Engineering 8065; Maritime Studies 4001

4002 The Business of Shipping will provide students with an understanding of financial statements, costs, revenues and financial performance of shipping companies as well as computing, voyage and annual cashflows. The course will develop an understanding of marine insurance and forecasting, and risk management. PR: MSTM 4001

4004 Marine Environmental Management will introduce students to the requirements for the safe management of the marine environment. The course will introduce major environmental problems and identify the major threats to the marine environment. It will provide a working knowledge of these threats and consider the possible counter measures that may be employed by employees in the marine industry.

4005 Trends and Issues in International Shipping will provide students with an understanding of how regulatory bodies and their legislation have evolved to affect the modern seafarer trading internationally. This course will develop an understanding of the various rules and regulations dealing with Classification, ISM, MAPROL, SOLAS and SIRE inspections which have to be dealt with on a daily basis at sea.

4100 Assessment and Implementation of Technology (formerly Technology 4010) examines the effects of technology on the physical, socio-economic, historical, cultural and aesthetic environments. The course also addresses relevant legislation, the generation and evaluation of product/alternatives, and the prediction, verification and initiation of technological effects. CR: the former Technology 4010

4101 Introduction to Intellectual Property and its Management is an introductory course to the management of Intellectual Property Rights (IPRs). This course will cover the philosophical rationale for intellectual property rights, its technical and legal considerations, its implications to the development of science and technology and its economic impact in society.

4102 Occupational Health and Safety Legislation and Management is an introduction to occupational health and safety issues in a technical industrial context. Students will gain a knowledge and understanding of the legislative framework surrounding occupational health and safety, the assignment of responsibility in the workplace, the management of occupational health and safety in the workplace and the importance of establishing a positive safety culture.

4103 Structure and Functions of Technology-based Organizations focuses on the emergence of technology-based companies and how to implement changes to increase their organizational effectiveness. This course will concentrate on the integration of three basic frameworks which include the study of technological economics and organizational progression, structural configurations and operations, and universal and contemporary approaches to organizational design. In addition it will examine the challenges of change that face highly dynamic industries: individual and organizational change, technological change, and national and global change.

4104 Technology and the Environment will help students critically examine the student and the environment and how the two are linked. Topics may include how technology is both the cause of and solution to many environmental problems, the greenhouse effect, renewable energy vs. fossil fuels, recycling vs. landfills, the efficiency paradox, geo-engineering, and other select current topics.

4105 Technical Project Report focuses on the development of research and the application of the research in technology management. The course provides students with an understanding of the philosophy and concepts involved in the total quality approach to project management. The course covers the various tools and techniques used in quality management as well as providing an overview of the role of management. CR: the former Technology 4050

4106 Advanced Technical Communication will enhance the technical communication skills of students. The course content examines technical writing fundamentals; information gathering, analysis, and documentation; proposal preparation; technical document applications; technical report preparation; graphics preparation; and technical presentations. The course will provide students with the knowledge and skills necessary to develop proposals, reports, and presentations for technical projects.

4107 Special Topics in Technology will provide the opportunity for students to maintain technical currency through a review of recent advances in technology and their application to particular technical areas.

4108 Technical Project Report (same as the former Technology 4100) is a one-semester linked course based on independent study of a problem involving the management of technology. The subject of study will be decided in consultation with the course instructor and must be approved by a committee. The student will identify a research topic in a specialty area, write a concept paper, develop a proposal and write a report. The passing grade for this course is 65%. CR: the former Technology 4100, the former Technology 4100, the former MSTM 4060.

4109 Introduction to Technology will provide a broad survey of practices critical to operating a technology-based business. Topics covered may include an introduction to technology management, historical developments in the management of technology, the functions of technology management, and select current topics that are relevant to operating technology-based businesses.

4110A and 4110B Technical Project Report (same as the former MSTM 4100 and 4200) is a two-semester linked course based on independent study of a problem involving the management of technology. The subject of study will be decided in consultation with the course instructor and must be approved by a committee. The student will identify a research topic in a specialty area, write a concept paper, develop a proposal and write a report. The passing grade for this course is 65%. CR: the former MSTM 4060, the former Technology 4100, the former MSTM 4200, the former Technology 4000 OR: must be completed within three consecutive semesters PR: MSTM 4060

1 The Memorial University of Newfoundland Code

The attention of all members of the University community is drawn to the section of the University Calendar titled The Memorial University of Newfoundland Code, which articulates the University's commitment to maintaining the highest standards of academic integrity.

2 Student Code of Conduct

Memorial University of Newfoundland expects that students will conduct themselves in compliance with University Regulations and Policies, Dental and Medicine laws, as well as codes of ethics that govern students who are members of regulated professions. The Student Code of Conduct outlines the behaviors which the University considers to be non-academic misconduct offenses, and the range of remedies and/or penalties which may be imposed. Academic misconduct is outlined in UNIVERSITY REGULATIONS - Academic Misconduct in the University Calendar.

For more information about the Student Code of Conduct, see www.mun.ca/student/conduct/conduct.php.

3 Grenfell Campus Description

www.Grenfell.mun.ca

Grenfell, a Campus of Memorial University of Newfoundland, was established in September 1975, and originally was called the Western Regional College. In 1979 it was named Sir Wilfred Grenfell College, honouring the memory of the medical missionary who pioneered medicine in northern Newfoundland and along the coast of Labrador. In 2010, it was renamed Grenfell Campus, Memorial University of Newfoundland.

Four-year undergraduate degree programs in Arts, Business Administration, Fine Arts, Nursing, Resource Management, and Science may be completed at Grenfell Campus, as well as fast-track options in Education and Nursing. The Bachelor of Arts degree is available in English, Environmental Studies, Historical Studies, Humanities, Psychology, Social/Cultural Studies, and Tourism Studies and the Bachelor of Arts (Honours) may be obtained in Psychology. The Bachelor of Science is offered in Computational Mathematics,
Environmental Science, General Science, Physics, and Psychology and the Bachelor of Science (Honours) is offered in Environmental Science, and Psychology, and the University's four-year Bachelor of Nursing degree is offered in conjunction with the Western Regional School of Nursing in Corner Brook. Bachelor of Fine Arts degrees are conferred in Theatre and Visual Arts. These programs differ from those offered on the St. John's Campus and many are available only at the Grenfell Campus. Grenfell Campus also offers a graduate program, the Master of Arts in Environmental Policy. For information regarding graduate programs see the School of Graduate Studies at www.mun.ca/sgs.

Students at Grenfell Campus may also complete the first-year requirements of several programs offered at St. John's Campus. It is recommended that students meet with an academic advisor concerning course selection for specific programs.

Students have the option of completing distance and web-based credit courses offered by Memorial University of Newfoundland's Distance Education, Learning and Teaching Support (DELTS). As well, Grenfell 's Office of Engagement offers a wide variety of non-credit courses to students, the Campus community, and the general public.

Grenfell's physical location affords the Campus a spectacular view of the city of Corner Brook and the scenic Bay of Islands. All Campus buildings are connected by a series of skywalks and tunnels. The Arts and Science Building houses administrative and academic units, a bookstore, an athletics and recreation wing, a student residence and the Grenfell Campus Student Union Student Centre. The recently added Arts and Science Extension houses the Grenfell Campus observatory and astronomical telescope. The Library and Computing Building includes Ferriss Hodggett Library, a computer lab and the largest lecture theatre on Campus. The Fine Arts Building contains facilities for visual arts and theatre students. It features a 160 seat theatre, dressing rooms, scenery, costume and properties workshops, as well as an actors' green room and a rehearsal hall. The Fine Arts Building also includes an art gallery, art storage vault, studios for drawing, painting, sculpture, multi-media and photography, darkrooms, and workshops for lithography, intaglio and serigraphy. The Forest Centre houses classroom, laboratory and research facilities for the Campus as well as the Atlantic Division of the Canadian Forestry Service, Natural Resources Canada. Adjacent to the Forest Centre is a brand new boreal ecosystem research facility, which supports research in agricultural, environmental and boreal sectors.

Additional information regarding the Grenfell Campus is available at www.grenfell.mun.ca.

### 3.1 Statement of Academic Purpose

Grenfell Campus, as part of Memorial University of Newfoundland, is a four year undergraduate degree granting institution offering a liberal education in arts and science and a professional education in nursing, theatre and visual arts. In addition, the Campus continues to accommodate students who wish to complete their degrees at Memorial University of Newfoundland in St. John's or at universities elsewhere.

At Grenfell Campus a liberal education means a critical and open-minded pursuit of knowledge providing students with the intellectual tools to enable them to respond to a rapidly changing world. A liberal education marks the start of preparation for a career and it may lead to graduate work in a number of fields. In a broader sense it is intended to build a foundation for social, cultural and recreational interests that will help students move toward a meaningful personal and professional life. Academically, the aim of Grenfell Campus is to enable students to be open to new ways of thinking and to gain a lasting intellectual self-confidence so that they may have both the ability and the desire to be life-long learners.

At Grenfell Campus the goal of high quality education is reflected in the following commitments:

1. to teach students in a variety of challenging contexts and in general provide them with a personalized learning environment;
2. to maintain high academic standards;
3. to foster excellence in teaching, to encourage scholarship, research, performance and artistic endeavour, and to engage students, where appropriate, in these activities.

### 4 General Information

In addition to the information given below, further information regarding Grenfell Campus is available at www.Grenfell.mun.ca.

#### 4.1 Advice to Students on Planning a Program

www.grenfell.mun.ca/Registrar
www.grenfell.mun.ca/Pages/programs.aspx

When planning the sequence of courses for a Major or Minor Program, or to ensure that a proposed degree program is possible within the constraints of course scheduling and prerequisites, students should seek advice from the Office of the Registrar or the appropriate Division Office.

#### 4.2 Counselling Services

/www/grenfell.mun.ca/counselling

The Campus has two professional counsellors available to assist students with their concerns. The counsellors provide a free and confidential service that includes career, academic, and personal counselling. The counsellors meet with their clients individually and assist them with a wide range of concerns. When necessary, the counsellors can arrange referrals to other professionals in the community.

#### 4.3 Grenfell Campus Student Union

/www.gcsuonline.ca

The Grenfell Campus Student Union (GCSU), Local 36, CFS, represents students' interests to the Campus administration and on a provincial and national level through the Canadian Federation of Students. The GCSU also promotes artistic, literary, educational, social, recreational, charitable, and sporting activities for the enhancement of the students of the Campus.

All full and part-time students pay GCSU fees and upon registration become members of the Grenfell Campus Student Union.

#### 4.4 The Learning Centre

/www.grenfell.mun.ca/student-services/learning-centre

One of the most utilized components of Student Services is the Learning Centre, the Grenfell Campus one-stop shop for academic support. Staff in the Centre assist students with writing, math, and study skills. Peer tutoring and supplemental instruction are available to students free of charge. Career services provides students with career development, experiential workplace learning, and employee networking for students and alumni.
The Bachelor of Arts degree program is comprised of 120 credit hours, 40 courses, and may be completed on a full or part-time basis. Bachelor of Arts degree programs are offered under the Division of Arts. The Division of Arts also offers English as a Second Language non-degree programs.

Admission/Readmission Regulations for Grenfell Campus

Social Science. Grenfell Campus offers seven general degrees in sixteen program areas. For specific details on each degree refer to the Undergraduate Calendar. GRENFELL CAMPUS offers four Divisions namely the Divisions of Arts, the Division of Fine Arts, the Division of Science, and the Division of Social Science.

REGULATIONS.

fees and charges, admission/readmission to the University, and general academic regulations (undergraduate), refer to UNIVERSITY REGULATIONS.

4.6 Recreation and Wellness

www.grenfell.mun.ca/student-services/recreation

Grenfell Campus offers a distinctive program of recreation and wellness activities that contributes to the well being and personal and social development of students. The Campus has a 25 metre pool, a gymnasium and an outdoor multi-use court. Through a partnership with the Pepsi Centre, students are able to access a fitness facility, ice rinks and a walking track. Students also have the opportunity to use various recreational facilities in the region and participate in a variety of recreation programs such as intramural sports, step aerobics, and "learn to" programs (downhill skiing, kayaking and swimming).

Through a partnership with the Western Regional School of Nursing, a Wellness Centre operates at Grenfell Campus on a part-time basis during the academic year. The role of the Wellness Centre is to enhance education and awareness of various lifestyles, health and well-being issues relevant to students at the University.

4.7 Student Housing

www.Grenfell.mun.ca/RES

Student Housing currently offers accommodation for 600 students in a suite-style residence and chalet apartments. The suite-style residence is mainly for first-year students while the chalet-style apartments are mainly for students beyond first-year and families. In each apartment, four students share a living room, kitchen and one-and-a-half baths and have his/her own room. Individual phones and Internet ports are provided.

Student Housing facilitates a variety of programs and activities to meet the diverse interests of residents and encourages students to get involved.

The off-campus office assists students seeking accommodation in the Corner Brook area. An online database of boarding houses/apartments is available. The office also offers services and programs throughout the year for students living off campus.

Further information may be obtained by telephone to (709) 637-6266, or by e-mail at resinfo@Grenfell.mun.ca, or through the website at www.Grenfell.mun.ca/RES/Pages/default.aspx, or at the Housing Office at Residence Room 221.

4.8 Student Services

www.grenfell.mun.ca/student-services

Student Services promotes the intellectual, social, spiritual, and physical development of all students. By advocating for students, providing the highest quality service and involving students in leadership roles, Student Services strives to help students realize their full potential - to become successful students, caring individuals, and productive citizens.

Student Services offers many programs and services which promote student development, such as student employment, leadership development, scholarships, orientation, recreation and wellness, academic support, and student housing.

Student Services is located in the Student Services Centre, AS234 at Grenfell Campus. Further information may be obtained by telephone to (709) 637-6232, or by e-mail at saffairs@Grenfell.mun.ca, or through the website at www.grenfell.mun.ca/student-services.

5 Description of Programs

Students must meet all regulations of Grenfell Campus in addition to those stated in the general regulations. For information concerning fees and charges, admission/readmission to the University, and general academic regulations (undergraduate), refer to UNIVERSITY REGULATIONS.

5.1 General Degrees

Grenfell Campus has four Divisions namely the Divisions of Arts, the Division of Fine Arts, the Division of Science, and the Division of Social Science. Grenfell Campus offers seven general degrees in sixteen program areas. For specific details on each degree refer to the appropriate Admission/Readmission Regulations for Grenfell Campus and Program Regulations - General and Honours Degrees. The Division of Arts also offers English as a Second Language non-degree programs.

5.1.1 Arts Degree

Bachelor of Arts degree programs are offered under the Division of Arts and the Division of Social Science.

The Bachelor of Arts degree program is comprised of 120 credit hours, 40 courses, and may be completed on a full or part-time basis.
Students will examine culture, thought, prehistory and history, human interactions, and the social and natural forces that constantly transform our society. Students gain critical-thinking, analytical and communication skills needed to succeed and adapt in a changing world through the study of a major and minor. Students must complete a minimum of 120 credit hours made up of Core Program Requirements, an approved concentration of courses known as a Major, an approved concentration of courses known as a Minor; and elective courses. A Minor is not required for Interdisciplinary programs. However, students in such programs may choose to complete a minor. Students cannot use the same course to fulfill requirements for both a major and a minor.

Majors are available in English Language and Literature, Environmental Studies, Historical Studies, Humanities, Psychology, Social/ Cultural Studies, and Tourism Studies. The requirements for a Major can be fulfilled in one of two ways:

1. a minimum of 36 credit hours in a single discipline. Students choosing a single discipline major, with the exception of Bachelor of Science in Psychology, must complete one of the following: a minor or with the permission of the appropriate program chair(s), a second major. Actual credit hours required for specific disciplines will vary or

2. a minimum of 72 credit hours in an interdisciplinary area.

All Majors require a minimum of 12 credit hours in 3000-level courses, 6 credit hours in 4000-level courses and 3 credit hours in a 4000-level senior project. A candidate must follow the specific requirements for each major program as set forth in the Grenfell Campus section of the University Calendar. Single discipline majors are available in following areas: English, Historical Studies, Humanities, Psychology (B.A. and B.Sc.), and Tourism Studies. Interdisciplinary majors are available in following areas: Environmental Studies, and Social/Cultural Studies.

A Minor requires a minimum of 24 credit hours which must be completed in a single discipline or interdisciplinary area other than that of the Major. Minors are available in the following areas: Art History, Business, Canadian Studies, Classics, Economics, English, Environmental Science, Environmental Studies, Folklore, French, Geography, Historical Studies, Humanities, Mathematics, Philosophy, Physics, Psychology, Religious Studies, Science, Social/Cultural Studies, Sociology; and Tourism Studies. A candidate must follow the requirements for the Minor program as set forth in the Grenfell Campus section of the University Calendar. As an alternative to a Minor, a second Major may be completed and students must meet all general and departmental or program regulations for both Majors.

Elective courses to make up the total of 120 credit hours, other than those required for the core program and Major/Minor requirements, may be chosen according to the following guidelines: Any courses in arts, social science, science and fine arts, and up to 15 credit hours in other subject areas.

An Articulation Agreement with the College of the North Atlantic is in place for students who have completed the two-year Adventure Tourism diploma program and who wish to complete the Bachelor of Arts with Major in Environmental Studies at Grenfell Campus. For specific admission and program requirements see Admission/Readmission Requirements for Programs Offered by the Division of Social Science and Program Regulations - General and Honours Degree, Division of Social Science.

An Articulation Agreement with the College of the North Atlantic is in place for students who have completed the two-year Adventure Tourism and the two-year Hospitality Management diploma program and who wish to complete the Bachelor of Arts with Major in Tourism Studies at Grenfell Campus. For specific admission and program requirements see Admission/Readmission Requirements for Programs Offered by the Division of Social Science and Program Regulations - General and Honours Degree, Division of Social Science.

5.1.2 Business Degree

The Bachelor of Business Administration is offered under the Division of Social Science.

The Bachelor of Business Administration is comprised of 120 credit hours, 40 courses, and may be completed on a full or part-time basis. The program is designed to deliver a comprehensive foundation in the fundamental areas of business and decision making. Students specialize in areas of contemporary business or small business and entrepreneurship.

Articulation Agreements with the College of the North Atlantic are in place for students who have completed the two-year Business Administration (Accounting), the two-year Business Administration (Human Resource Management), the two-year Business Administration (Marketing), or the two-year Business Administration (General) diploma programs and who wish to complete the Bachelor of Business Administration degree program at Grenfell Campus. For specific admission and program requirements see Admission/Readmission Requirements, (Bachelor of Business Administration and Program Regulations - General and Honours Degree, Division of Social Science.

5.1.3 Education Degree

The Bachelor of Education (Primary/Elementary) as a Second Degree is a 72 credit hour program intended for students who have completed an appropriate Bachelor’s degree. This program is offered in a four semester (16 month), full-time format and commences in the Spring semester of each year. The student will learn about child development, diverse learners and much more. For specific admission and program requirements see Admission/Readmission Requirements for the Faculty of Education, (Bachelor of Education (Primary/Elementary) as a Second Degree and Program Regulations, Bachelor of Education (Primary/Elementary) as a Second Degree.

5.1.4 Fine Arts Degree

The Bachelor of Fine Arts is offered under the Division of Fine Arts.

The Bachelor of Fine Arts is available in Theatre or Visual Arts. For specific admission and program requirements see Admission/Readmission Requirements for Programs Offered by the Division of Fine Arts and Program Regulations - General and Honours Degree, Division of Fine Arts.

5.1.4.1 Theatre

The Bachelor of Fine Arts (Theatre) is comprised of 120 credit hours, 36 courses and is normally completed on a full-time basis. This program is designed to educate and train the student in the history, theory and practice of the theatre arts.

5.1.4.2 Visual Arts

The Bachelor of Fine Arts (Visual Arts) is comprised of 120 credit hours, 40 courses and is normally completed on a full-time basis. This professional program is designed to educate and train students in the history, theory, and practice of the visual arts.

5.1.5 Nursing Degree

The Bachelor of Nursing (Collaborative) is a four-year program comprised of 130 credit hours and is completed on a full-time basis. The program is designed to prepare entry-level nurses who will function within a variety of health care settings. For specific admission and program requirements see Admission/Readmission Regulations for the School of Nursing and Program Regulations,
General Degree, Bachelor of Nursing (Collaborative). The program is completed at Grenfell Campus and the Western Regional School of Nursing.

The Bachelor of Nursing (Collaborative) Fast-Track Option is a full-time option for current degree holders or those with advanced standing and is comprised of 94 credit hours. This Option is taken over six consecutive semesters, i.e. two calendar years. For specific admission and program requirements see Admission/Readmission Regulations for the School of Nursing and Program Regulations, General Degree, Bachelor of Nursing (Collaborative) Fast-Track Option The program is completed at Grenfell Campus and the Western Regional School of Nursing.

5.1.6 Resource Management Degree
The Bachelor of Resource Management is offered under the Division of Social Science.

The Bachelor of Resource Management is a four year program comprised of 40 courses, 120 credit hours and may be completed on a full or part-time basis. The program aims to produce a different type of resource manager, graduates who have an understanding of ethics, as well as the many ecological, sociological, and economic factors. This program is currently under review. For specific admission and program requirements see Admission/Readmission Regulations for Programs Offered by the Division of Social Science and Program Regulations - General and Honours Degree, Division of Social Science

Articulation Agreements with the College of the North Atlantic are in place for students who have completed the two-year Fish and Wildlife Technician or the two-year Forest Resources Technician Diploma. and who wish to complete the Bachelor of Resource Management degree program at Grenfell Campus. For specific admission and program requirements see Admission/Readmission Regulations for Programs Offered by the Division of Social Science and Program Regulations - General and Honours Degree, Division of Social Science.

5.1.7 Science Degree
Bachelor of Science degree programs are offered under the Division of Science and the Division of Social Science.

The Bachelor of Science is a four year program comprised of 40 courses, 120 credit hours and may be completed on a full or part-time basis. Students must complete a minimum of 120 credit hours made up of Core Program Requirements, an approved concentration of courses known as a Major, an approved concentration of courses known as a Minor, and elective courses. A Minor is not required for Interdisciplinary programs or for Bachelor of Science in Computational Mathematics, Physics, or Psychology. However, students in such programs may choose to complete a Minor. The program is available in the following five majors: Computational Mathematics, Environmental Science (Biology or Chemistry), General Science, Physics, and Psychology.

Elective courses to make up the total of 120 credit hours, other than those required for the core program and Major/Minor requirements, may be chosen according to the following guidelines: Any courses in arts, social science, science and fine arts, and up to 15 credit hours in other subject areas.

An Articulation Agreement with the College of the North Atlantic is in place for students who have completed the three-year Environmental Technology diploma program and who wish to complete the Bachelor of Science with Major in Environmental Science degree program at Grenfell Campus. For specific admission and program requirements see Admission/Readmission Regulations for Programs Offered by the Division of Science and Program Regulations - General and Honours Degree, Division of Social Science.

5.2 Honours Degrees
Programs are offered leading to the Honours Degrees of Bachelor of Arts and Bachelor of Science. An Honours degree requires, over and above the requirement of the General degree, a concentration at an advanced level in an approved field, consisting of a subject or subjects of specialization and/or related subjects, and a high quality of work throughout the program. An Honours degree is of distinct advantage to students who plan advanced work or careers in their chosen fields and also to those who have a clear commitment to some special field of study. An Honours degree with first or second class standing is, in many cases, a prerequisite for admission to a graduate program. Grenfell Campus offers two honours degrees in three program areas. For specific details on each degree refer to the appropriate Program Regulations - General and Honours Degrees.

5.3 Non-Degree Programs
The Division of Arts offers the non-degree Intensive English Bridge Program at Grenfell (IEBP-G) and the Intensive English Program at Grenfell (IEP-G).

5.3.1 English as a Second Language
English as a Second Language programs are offered under the Division of Arts.

The English as a Second Language Office, affiliated with the Division of Arts, Grenfell Campus, offers year-round programs for adult students wishing to improve their English language skills for academic, professional or personal purposes. These programs include:

1. the Intensive English Bridge Program at Grenfell (IEBP-G);
2. twelve-week non-credit Intensive English Program at Grenfell (IEP-G) which are offered year-round on a semesterized basis;
3. tutoring and language development support for current Grenfell Campus, Memorial University of Newfoundland students in undergraduate and graduate degree programs; and
4. custom-designed language and culture programs for schools, universities, or businesses. These can be developed on contract and are either for general learning purposes or to suit the needs of specific disciplines or professions.

The full-time, non-credit Intensive English Program at Grenfell (IEP-G) is designed to improve English language skills for academic, professional and personal purposes. Reading, writing, speaking and listening skills are covered, and workshops on culture and social activities promoting integration with the local community also form part of the program. The program prepares the student for full-time university studies in English.

The full-time, non-credit Intensive English Bridge Program at Grenfell (IEBP-G) is designed for applicants to Memorial University of Newfoundland who have been provisionally admitted as undergraduate students and who are students of advanced proficiency.

Information regarding the above programs and services is available from the Coordinator of English as a Second Language programs at Grenfell Campus, Memorial University of Newfoundland and online at www.grenfell.mun.ca/arts/english-second-language.
6 Admission/Readmission Regulations for Grenfell Campus

An applicant must be eligible for admission or readmission to the University in a category as defined in the Calendar section UNIVERSITY REGULATIONS - Admission/Readmission to the University (Undergraduate), Categories of Applicants, Admission Criteria and Other Information. In addition to meeting these regulations, an applicant to certain programs offered by Grenfell Campus must meet the requirements as indicated below under the appropriate program and Division.

6.1 Applications

Applications for admission/readmission may be obtained online at www.swgc.mun.ca/Registrar/Pages/apply.aspx, by e-mail at info@grenfell.mun.ca, or by contacting the University in writing to the Admissions Office, Office of the Registrar, Grenfell Campus, Arts and Science Building, Room AS277, Corner Brook, NL, Canada A2H 5G4. A complete application includes an application to the University (for those who have not attended Memorial University of Newfoundland in the three preceding semesters) and any other required supporting documentation. Application fees must be paid when the application forms are submitted.

6.2 Admission/Readmission Regulations for Programs Offered by the Division of Arts

A student may apply for admission into programs offered by the Division of Arts directly from high school by indicating his/her program of choice on the University’s General Application for Admission/Readmission (Undergraduate). Grenfell Campus reserves the right to limit the number of spaces available in each Major and Minor program.

6.2.1 Bachelor of Arts Degrees

A student may apply for admission into the Bachelor of Arts program directly from high school by indicating his/her program of choice on the University's General Application for Admission/Readmission (Undergraduate). Grenfell Campus reserves the right to limit the number of spaces available in each Major and Minor program.

Students who have graduated from the two-year Adventure Tourism Diploma Program offered by the College of the North Atlantic, or who are in their final semester of this program, can apply for entry with advanced standing into the Bachelor of Arts Degree with a Major in Environmental Studies or Tourism Studies offered by Grenfell Campus. Students who have graduated from the two-year Hospitality Management Diploma Program offered by the College of the North Atlantic, or who are in the final semester of this program, can apply for entry with advanced standing into the Bachelor of Arts degree, Major in Tourism Studies, offered by Grenfell Campus. Students who have graduated from either the two-year Fish and Wildlife Technician program or the two-year Forest Resources Technician Diploma program offered by the College of the North Atlantic, or who are in their final semester of one of these programs, can apply for entry with advanced standing into the Bachelor of Resource Management offered by Grenfell Campus.

6.2.1.1 Direct Entry (for High School Students)

Students who may apply for admission into the Bachelor of Arts program directly from high school by indicating this in the appropriate place on the Undergraduate Application for Admission/Readmission to Memorial University of Newfoundland. This form is available online at www.grenfell.mun.ca/Registrar/Pages/forms.aspx or in-person at the Office of the Registrar. Direct admission from high school is subject to the applicant’s final acceptance to the University.

6.2.1.2 Transfers from Other Post-Secondary Institutions

Students who are transferring from other universities must apply for admission to the University on or before the deadlines specified in the University Calendar, governing admission for undergraduate studies, and the regulations in place for admission to specific programs, a student may apply for this program at the same time as application for admission to undergraduate studies. Subject to General Academic Regulations (Undergraduate), governing admission for undergraduate studies, and the regulations in place for admission to specific programs, a student may be provisionally admitted for studies at an undergraduate level in an upcoming term currently enrolled in the Intensive English Program. The General Academic Regulations (Undergraduate), Admission/Readmission to the University (Undergraduate) should be reviewed carefully by students.

6.2.2 English as a Second Language

A student may apply for admission to the Intensive English Program Grenfell (IEP-G) or the Intensive English Bridge Program at Grenfell (IEBP-G) program offered by the Division of Arts by submitting an application directly in writing to Coordinator, English as a Second Language Programs (Grenfell Campus), Memorial University of Newfoundland, Corner Brook, NL, A2H 6P9. Applications for admission to these programs are available at www.swgc.mun.ca/arts/english-second-language/iep/Pages/enroll.aspx. Further information regarding admission is available at www.grenfell.mun.ca/ESL.

Grenfell Campus reserves the right to limit the number of spaces available in English as a Second Language programs.

6.2.2.1 Intensive English Program Grenfell (IEP-G)

A student may apply for admission into the Intensive English Program Grenfell (IEP-G) program offered by the Division of Arts by submitting an application directly in writing to Coordinator, English as a Second Language Programs (Grenfell Campus), Memorial University of Newfoundland, Corner Brook, NL, A2H 6P9. Applicants to the Intensive English Program must

1. be at least 18 years old;
2. hold a high school diploma; and
3. have an intermediate level of English proficiency, equivalent to International English Language Testing System (IELTS) 4.5 or higher, as determined by the English as a Second Language (ESL) Coordinator.

A student wishing to complete the Intensive English Program Grenfell (IEP-G) preparation for admission to Memorial University of Newfoundland as an undergraduate degree student may apply for this program at the same time as application for admission to undergraduate studies. Subject to General Academic Regulations (Undergraduate), Admission/Readmission to the University (Undergraduate), governing admission for undergraduate studies, and the regulations in place for admission to specific programs, a student may be provisionally admitted for studies at an undergraduate level in an upcoming term currently enrolled in the Intensive English Program. The General Academic Regulations (Undergraduate), Admission/Readmission to the University (Undergraduate) should be reviewed carefully by students.

6.2.2.2 Intensive English Bridge Program at Grenfell (IEBP-G)

A student may apply for admission to Memorial University of Newfoundland using the University’s General Application for Admission/Readmission (Undergraduate).

A student for the Intensive English Bridge Program at Grenfell (IEBP-G) must have:
1. been provisionally accepted to undergraduate studies at Memorial University of Newfoundland;
2. achieved for IEBP-G Level 1: an average of Band 40 in the Canadian Academic English Language (CAEL) Assessment with a Writing sub-score of at least 40, a paper-based Test of English as a Foreign Language (TOEFL) score of 58, with a minimum writing score of 16, or an International English Language Testing System (IELTS) score of 5.5 with no sub-score less than 5 and a minimum writing score of 5 or evidence showing equivalent proficiency as determined by the English as a Second Language (ESL) Coordinator; achieved for IEBP-G Level 2: an average of Band 50 in the CAEL with a Writing sub-score of at least 50, a paper-based TOEFL score of 530, or an IBT TOEFL score of 70, with a minimum writing score of 18, or an IELTS score of 6.0 with no sub-score less than 5.5 and a minimum writing score of 6.0; or evidence showing equivalent proficiency as determined by the ESL Coordinator; or
3. achieved a grade of “B” or better with a satisfactory attendance level (90%) if enrolled in the preceding level of the Intensive English program or Intensive English Bridge Program and “C” in the concurrent credit course (if applicable) at the Grenfell Campus within the previous two semesters.

Final admission for provisionally admitted students will be subject to the regulations outlined under UNIVERSITY REGULATIONS, Admission/Readmission to the University (Undergraduate), English Language Proficiency Requirements.

6.3 Admission/Readmission Regulations for Programs Offered by the Division of Fine Arts

A student may apply for admission into programs offered by the Division of Fine Arts directly from high school by indicating his/her program of choice on the University’s General Application for Admission/Readmission (Undergraduate) available at www.swgc.mun.ca/registrar/Pages/apply.aspx. Grenfell Campus reserves the right to limit the number of spaces available in each Major and Minor program. In addition to meeting the general admission requirements of the University, applicants for the Bachelor of Fine Arts (Theatre) must undergo an audition/interview to the satisfaction of the Department. Enrollment in the Bachelor of Fine Arts (Theatre) is limited and selection is competitive. A completed Theatre application is required and available at www.grenfell.mun.ca/registrar/Documents/Theatre-Application.pdf. In addition to meeting the general admission requirements of the University, all applicants for the Bachelor of Fine Arts (Theatre) must undergo an audition/interview. In addition to meeting the general admission requirements of the University, all applicants for the Bachelor of Fine Arts (Visual Arts) will be required to submit a portfolio of previous art work and a completed Visual Arts application available at www.grenfell.mun.ca/fine-arts/visual-arts/Pages/how-to-apply.aspx. The deadline for submission of applications to the Bachelor of Fine Arts (Theatre) is March 31st and the deadline for the Bachelor of Fine Arts (Visual Arts) is March 1st of the year in which entry is sought.

6.3.1 Bachelor of Fine Arts (Theatre)

Applicants must meet the general admission requirements of the University as outlined under UNIVERSITY REGULATIONS. In addition to meeting the general admission requirements of the University, applicants for the Bachelor of Fine Arts (Theatre) must undergo an audition/interview to the satisfaction of the Department. Enrollment in the Bachelor of Fine Arts (Theatre) is limited and selection is competitive. A completed Theatre application is required and available at www.grenfell.mun.ca/registrar/Documents/Theatre-Application.pdf.

The deadline for submission of Theatre application forms is March 31st of the year in which admission is sought.

6.3.2 Bachelor of Fine Arts (Visual Arts)

Applicants must meet the general admission requirements of the University. In addition to meeting the general admission requirements of the University, all applicants will be required to submit a portfolio of previous art work and a completed Visual Arts application available at www.grenfell.mun.ca/fine-arts/visual-arts/Pages/how-to-apply.aspx before March 1st of the year in which entry is sought. Although it is assumed that applicants will have had no previous formal training in art, evidence of suitability for study in the visual arts is required. Instructions for the submission of portfolios will be provided by the Division of Fine Arts upon request. Enrollment in the Bachelor of Fine Arts (Visual Arts) program is limited and selection is competitive.

6.4 Admission/Readmission Regulations for Programs Offered by the Division of Science

A student may apply for admission into programs offered by the Division of Science directly from high school by indicating his/her program of choice on the University’s General Application for Admission/Readmission (Undergraduate). Grenfell Campus reserves the right to limit the number of spaces available in each Major and Minor program.

Applications for admission/Readmission may be obtained online at www.swgc.mun.ca/registrar/Pages/apply.aspx. Application fees must be paid when the application forms are submitted.

6.4.1 Bachelor of Science

A student may apply for admission into the Bachelor of Science directly from high school by indicating his/her program of choice on the University’s General Application for Admission/Readmission (Undergraduate). Grenfell Campus reserves the right to limit the number of spaces available in each Major and Minor program.

6.4.1.1 Direct Entry (for High School Students)

Students may apply for admission into the Bachelor of Science program directly from high school by indicating this in the appropriate place on the University’s General Application for Admission/Readmission (Undergraduate) to Memorial University of Newfoundland. This form is available online at www.grenfell.mun.ca/registrar/Pages/forms.aspx or in-person at the Office of the Registrar. Direct admission from high school is subject to the applicant’s final acceptance to the University.

6.4.1.2 Transfers from Other Post-Secondary Institutions

Students who are transferring from other universities must apply for admission to the University on or before the deadlines specified in the University Calendar for the semester in which they intend to begin their program, to allow sufficient time for the evaluation of transfer credits. This form is available online at www.grenfell.mun.ca/registrar/Pages/forms.aspx or in-person at the Office of the Registrar.
6.4.2 Bachelor of Science with Major in Environmental Science for Graduates of the Three-Year Environmental Technology Diploma Program Offered by the College of the North Atlantic

A student may apply for admission into the Bachelor of Science with Major in Environmental Science program by indicating his/her program of choice on the University’s General Application for Admission/Readmission (Undergraduate). Grenfell Campus reserves the right to limit the number of spaces available in each Major and Minor program. Students must be eligible for admission or readmission to the University in a category as defined in the Calendar section UNIVERSITY REGULATIONS and have been awarded the Three-Year Environmental Technology Diploma Program Offered by the College of the North Atlantic.

6.5 Admission/Readmission Regulations for Programs Offered by the Division of Social Science

A student may apply for admission into programs offered by the Division of Social Science directly from high school by indicating his/her program of choice on the University’s General Application for Admission/Readmission (Undergraduate). Grenfell Campus reserves the right to limit the number of spaces available in each Major and Minor program.

Applications for admission/readmission may be obtained online at www.grenfell.mun.ca/registrar/Pages/forms.aspx or in-person at the Office of the Registrar. Direct admission from high school is subject to the applicant’s final acceptance to the University.

6.5.1 Bachelor of Arts

A student may apply for admission into the Bachelor of Arts program directly from high school by indicating his/her program of choice on the University’s General Application for Admission/Readmission (Undergraduate). Grenfell Campus reserves the right to limit the number of spaces available in each Major and Minor program.

6.5.1.1 Direct Entry (for High School Students)

Students may apply for admission into the Bachelor of Arts program directly from high school by indicating this in the appropriate place on the Undergraduate Application for Admission/Readmission to Memorial University of Newfoundland. This form is available online at www.grenfell.mun.ca/registrar/Pages/forms.aspx or in-person at the Office of the Registrar. Direct admission from high school is subject to the applicant’s final acceptance to the University.

6.5.1.2 Transfers from Other Post-Secondary Institutions

Students who are transferring from other universities must apply for admission to the University on or before the deadlines specified in the University Diary for the semester in which they intend to begin their program, to allow sufficient time for the evaluation of transfer credits. This form is available online at www.grenfell.mun.ca/registrar/Pages/forms.aspx or in-person at the Office of the Registrar.

6.5.2 Bachelor of Arts with Major in Environmental Studies for Graduate of the Two-Year Adventure Tourism and the Two-Year Hospitality Management Diploma Program Offered by the College of the North Atlantic

A student may apply for admission into the Bachelor of Arts with Major in Environmental Studies program by indicating his/her program of choice on the University’s General Application for Admission/Readmission (Undergraduate). Grenfell Campus reserves the right to limit the number of spaces available in each Major and Minor program. Students must be eligible for admission or readmission to the University in a category as defined in the Calendar section UNIVERSITY REGULATIONS and have been awarded the two-year Adventure Tourism and the two-year Hospitality Management diploma program offered by the College of the North Atlantic.

6.5.3 Advanced Diploma in Tourism Studies

The Advanced Diploma in Tourism Studies is designed for individuals already possessing a post-secondary diploma or degree in any relevant field who wish to acquire the knowledge and skills required to work in today’s tourism industries. The program will benefit individuals from a wide variety of backgrounds including, Business, Environmental Science, Environmental Studies, Fine Arts, Historical Studies, Social/Cultural Studies, and Sustainable Resource Management.

Students who wish to undertake the Advanced Diploma in Tourism Studies must have completed a post-secondary diploma or degree in any field, or possess at least five years of full-time, relevant work experience or equivalent. Application is made on the University’s General Application for Admission/Readmission (Undergraduate) or for current students in the space provided on the DECLARATION/CHANGE OF ACADEMIC PROGRAM form, which must then be approved by the Chair of the Tourism Studies Program. Admission into this program is limited and competitive.

6.5.3.1 Transfers from Other Post-Secondary Institutions

Students must meet the general admissions requirements of the University and have been a post-secondary diploma or degree in any relevant field.

6.5.4 Bachelor of Business Administration

6.5.4.1 Direct Entry (for High School Students)

Students may apply for admission into the Bachelor of Business Administration program directly from high school by indicating this in the appropriate place on the Undergraduate Application for Admission/Readmission to Memorial University of Newfoundland. This form is available online at www.grenfell.mun.ca/registrar/Pages/forms.aspx or in-person at the Office of the Registrar. Direct admission from high school is subject to the applicant’s final acceptance to the University.

6.5.4.2 Transfers from Other Post-Secondary Institutions

Students who are transferring from accredited post-secondary institutions must apply for admission to the University on or before the deadlines specified in the University Diary for the semester in which they intend to begin their program, to allow sufficient time for the evaluation of transfer credits. 7.1.2 Literacy Requirement

Thirty credit hours in Writing courses which must include 6 credit hours in first-year English. Up to 6 credit hours in languages other than English may be used to satisfy the literacy requirement. Courses in this group are identified with the designation W and are listed in Table 1 Designated Writing Courses (W).

Courses in this category must either be completed through on-campus offerings at Grenfell Campus or be demonstrated to be equivalent to Grenfell writing courses.

7.1.3 Quantitative Reasoning and Analysis Requirement

Six credit hours in Quantitative Reasoning and Analysis courses. Courses in this group are identified with the designation QRA and are listed in Table 2 Designated Quantitative Reasoning and Analysis Courses (QRA).
7.1.4 Designated Writing Courses (W)
Courses will be designated Writing courses by the Academic Studies Committee. A Writing course is a course in which a minimum of 30 percent of the course grade involves a specific component consisting of written work on which students will receive feedback. For the purpose of this regulation, the final examination will not be counted as part of the evaluated Writing component.

7.1.5 Designated Quantitative Reasoning and Analysis Courses (QRA)
Courses will be designated Quantitative Reasoning and Analysis by the Academic Studies Committee. The Quantitative Reasoning and Analysis (QRA) Requirement is intended to help students develop a degree of appreciation of numerical, statistical and/or symbolic modes of representation, as well as an appreciation of the analysis, interpretation and broader quantitative application of such representations.

7.2 Division of Arts

The Division of Arts offers the Bachelor of Arts Degree with majors in English Language and Literature, Historical Studies, and Humanities. Minors are available in Classics, English, French, Historical Studies, Humanities, Philosophy, Religious Studies and are outlined under Table 6 Bachelor of Arts Minor Programs Offered by the Division of Arts. Students may choose the minor from Table 6 Bachelor of Arts Minor Programs Offered by the Division of Arts, or from Table 11 Minor Program Offered by the Division of Fine Arts. Table 18 Bachelor of Science Minor Programs Offered by the Division of Science, or from Table 39 Bachelor of Arts and Bachelor of Science Minor Programs offered by the Division of Social Science. An Intensive English Program (IEP-G) and an Intensive English Bridge Program at Grenfell (IEBP-G) are also available.

7.2.1 Bachelor of Arts with Major in English Language and Literature

- The 120 credit hour, 40 course program may be completed on a full or part-time basis as set out under Table 3 Bachelor of Arts with Major in English Language and Literature.
- A student must complete Core Program Requirements as outlined under Grenfell Campus Core Program Requirements.
- A student must complete an approved concentration of courses known as a Major, an approved concentration of courses known as a Minor, and elective courses to make up the required total of 40 courses, 120 credit hours.
- A student may not use the same course to satisfy the requirements for both a Major and a Minor.
- As an alternative to a Minor, a second Major may be completed and students must meet all general and departmental or program regulations for both Majors.
- A student may devise a Major/Minor of his/her own choosing in close consultation with a faculty advisor and with approval of appropriate head(s). Such "open" programs must be approved by the Academic Studies Committee.
- Any student enrolled in the Grenfell Campus Bachelor of Arts Degree with a Major in English who has completed the Bachelor of Fine Arts (Theatre) Degree at Grenfell Campus will be considered to have fulfilled the requirements for a Minor in Theatre.

</table>

The Major consists of a minimum of 14 courses, 42 credit hours in History courses and an additional 5 courses, 15 credit hours drawn from a prescribed list of courses from other disciplines as follows:

- History 1100, 1101, 3840 and 4950.
- 12 credit hours from courses in each of the two following categories:
  - **Early Western History**
    - History/Classics 2035, 2040, 3090
    - History 2100, 2200, 2300, 2320, 2330, 3050, 3110, 3135, 3320, 3445, 3760
    - History 3520/Anthropology 3520/Archaeology 3520
    - History/Art History 2700, 3700, 3701
  - **Later Western History**
    - History 2120, 2210, 2310, 2500, 2510, 3030, 3060, 3120, 3250, 3330, 3440, 3460, 3490, 3675, 3770
    - History/Art History 2701
    - History 3525/Anthropology 3525/Archaeology 3525
    - Economics 3630, the former History 3630
    - 6 credit hours in 4000-level History courses which is in addition to History 4950
    - 15 credit hours chosen from the courses below which are thematically or methodologically relevant to the study of History (students may be allowed to take others with permission of the Program Chair). Applicable courses used to satisfy the Minor requirements may also be counted as Historical Studies credits. No more than 6 credit hours from any one discipline will be counted toward Historical Studies Major.

Elective courses to make up the total of 120 credit hours, other than those required for the Grenfell Campus Core Program Requirement and Major/Minor requirements, may be chosen according to the following guidelines:

- Any courses in arts, social science, science and fine arts and up to 15 credit hours in other subject areas.
7.2.3 Bachelor of Arts with Major in Humanities

- The 120 credit hour, 40 course program may be completed on a full or part-time basis as set out under Table 5 Bachelor of Arts with Major in Humanities.
- A student must complete Core Program Requirements as outlined under Grenfell Campus Core Program Requirements.
- A student must complete an approved concentration of courses known as a Major, an approved concentration of courses known as a Minor, and elective courses to make up the required total of 40 courses, 120 credit hours.
- A student may not use the same course to satisfy the requirements for both a Major and a Minor.
- As an alternative to a Minor, a second Major may be completed and students must meet all general and departmental or program regulations for both Majors.
- A student may devise a Major/Minor of his/her own choosing in close consultation with a faculty advisor and with approval of appropriate head(s). Such “open” programs must be approved by the Academic Studies Committee.

</table>

7.2.4 Intensive English Program at Grenfell (IEP-G)

- The 12 week, full-time, non-credit program may be offered at the intermediate level in each of the Fall, Winter, and Spring semesters.
- Full participation is an essential part of the language learning process in this program. For this reason regular attendance is required. No more than 10% of instructional days may be missed without documented reasons that are acceptable to the Coordinator of English as a Second Language programs. Students who fail to meet the minimum attendance requirements may not be permitted to re-enroll in the IEP in the following semester.
- Evaluation of students may include, but not be limited to, any or all of the following: projects, assignments, quizzes, oral presentations, and class participation.

7.2.4.1 Program of Study
1. The IEP-G may be offered at the intermediate level in each of the Fall, Winter, and Spring terms.
2. A student admitted to the IEP-G must register for the course English as a Second Language 013F.

7.2.5 Intensive English Bridge Program at Grenfell (IEB-P-G)

- The program is offered at two levels, IEBP-G Level 1 and IEBP-G Level 2 and requires fifteen to twenty hours of classroom language instruction in reading, writing, speaking, grammar, vocabulary and listening. The emphasis is on English for academic purposes.
- A student in this program may register concurrently for one undergraduate credit course at IEBP-G Level 1 or two undergraduate credit courses at IEBP-G Level 2, in consultation with the Coordinator of English as a Second Language programs and with the approval of the academic unit. The number of semesters of intensive English study required to achieve a student’s desired level of proficiency will vary according to his or her initial proficiency level and individual progress rate.
- The Intensive English Bridge Program is intended for applicants to Memorial University of Newfoundland who have been provisionally admitted as undergraduate students, and who are students of advanced proficiency who meet the criteria outlined in Admission.
- Final admission for provisionally admitted students will be subject to the regulations governing English language proficiency requirements for admission/readmission to the University as described in the University Calendar under University Regulations, English Language Proficiency Requirements.

7.2.5.1 Program of Study
1. A student admitted to the Intensive English Bridge Program must register for the course English as a Second Language 014F (level 1) or 015F (level 2).
2. A student in this program may normally register for no more than one credit course at IEBP-G Level 1 and no more than two credit courses at IEBP-G Level 2, chosen in consultation with the Coordinator of the English as a Second Language Program, and with approval of the academic unit.
3. A student may register in each level of the Intensive English Bridge Program for a maximum of two semesters.
4. Full participation is an essential part of the language learning process in this program. For this reason regular attendance is required. No more than 10% of instructional days may be missed without documented reasons that are acceptable to the Coordinator of English as a Second Language programs. A student who fails to meet the minimum attendance requirements may not be permitted to re-enroll in the IEBP-G in the following semester.
7.2.6 Bachelor of Arts Minor Programs Offered by the Division of Arts

The Division of Arts offers the Bachelor of Arts Degree with minors comprised of 8 courses, 24 credit hours as outlined under Table 6 Bachelor of Arts Minor Programs Offered by the Division of Arts. In addition to the minors below, students for the Bachelor of Arts degree may complete a minor offered by the Division of Fine Arts, Division of Science or the Division of Social Science.

<table>

| **Philosophy Minor**  
Philosophy 1200, 1600, 2210, 2551, 2561  
9 additional credit hours in Philosophy, of which at least 3 credit hours must be at the 3000- or 4000-level |
| **Religious Studies Minor**  
24 credit hours in Religious Studies with no more than 6 credit hours at 1000 level and at least 9 credit hours at 3000 level or above. |

Students for the Bachelor of Arts degree offered by the Division of Arts may complete a minor offered by the Division of Fine Arts, the Division of Science or the Division of Social Science. See Table 11 Minor Program Offered by the Division of Fine Arts, Table 18 Bachelor of Science Minor Programs Offered by the Division of Science and Table 39 Bachelor of Arts and Bachelor of Science Minor Programs offered by the Division of Social Science.
7.3 Division of Fine Arts

Bachelor of Fine Arts degrees are available in Theatre and in Visual Arts. Students completing a Fine Arts degree are not required to follow the Grenfell Campus Core program requirements. The Minor Program is available in Art History.

7.3.1 Bachelor of Fine Arts (Theatre)

- The 120 credit hour, 36 course program may be completed on a full-time basis as set out under Table 7 Bachelor of Fine Arts (Theatre). The course structure for the Bachelor of Fine Arts (Theatre) is outlined under Table 8 Suggested Program of Study for the Bachelor of Fine Arts in Theatre.
- The program is designed to educate and train the student in the history, theory and practice of the theatre arts. The degree provides an undergraduate training, delivered by theatre professionals, that will prepare students to enter a professional graduate school of theatre, theatre conservatory or an apprenticeship in the theatre profession. The degree also provides a broad liberal arts education with a strong component of dramatic literature, enabling the graduate to pursue a variety of careers outside the theatre profession.
- In recognition of the relative isolation of the Grenfell Campus and the need for students of the performing arts to be exposed to examples of excellence in their field of study, provision will be made for students in their senior years to visit major theatre centres outside the province (e.g. the Harlow Campus will be utilized for studies in London and Stratford).
- Where circumstances warrant any prerequisite(s) for Theatre courses may be waived by the Program Chair.
- Students in their first year will not be allowed to participate in theatre productions. Exceptions will be made only with the permission of the Head of the Division of Fine Arts, and permission will be given only where a student demonstrates satisfactory performance.
- Where circumstances warrant, a student in second or third year may be given the opportunity for advanced responsibilities in production with the permission of the Program Chair. Permission will be given only where a student demonstrates above average academic performance as well as exceptional theatrical ability.
- Productions will constitute the designated number of rehearsal hours as described below. However, the final week of rehearsals (technical rehearsals) will include ten hour days on Saturday and Sunday. All performances will take place in the evenings with the possible exceptions of occasional matinees.

7.3.2 Bachelor of Fine Arts (Visual Arts)

- The 120 credit hour, 40 course program may be completed on a full-time basis as set out under Table 9 Bachelor of Fine Arts (Visual Arts) and Table 10 Suggested Program of Study for the Bachelor of Fine Arts (Visual Arts)
- The Bachelor of Fine Arts (Visual Arts) degree program is a professional program designed to educate and train the student in the history, theory and practice of the Visual Arts. Courses are offered in Drawing, Painting, Sculpture, Printmaking, Photography, Multimedia, Digital Imaging and Digital Multi-Media, and Art History. The curriculum is devised with the aim of producing well-rounded generalists with a solid grounding in all aspects of the Visual Arts. It illustrates the philosophy that artistic freedom and creative expression require both technical skill and intellectual vision, acquired through a disciplined application of effort and a critical awareness of artistic issues, past and present.
- In addition to Studio and Art History courses, the student will take a number of appropriate academic courses from disciplines other than Visual Arts. chosen in consultation with the Program Chair. It is intended that academic courses be chosen which will enhance the Bachelor of Fine Arts (Visual Arts) program and provide, as far as possible, a broad exposure to the liberal arts. The first year of the program consists of intensive foundation of co-requisite courses in Drawing, Two-Dimensional Design and Three-Dimensional Design in preparation for Introductory studio courses in the second year and intermediate studio courses in the third year. In the fourth year, the 4950/4951 studio courses are conducted as tutorials, that is, students will work independently on projects and confer regularly with instructors.
- It is recognized that students in the Bachelor of Fine Arts (Visual Arts) program must have occasional opportunities to view important works of art first-hand. Arrangements will therefore be made where possible for students to visit major art centres.
- The Bachelor of Fine Arts (Visual Arts) program is rigorous and demanding and it is assumed that students will normally be enrolled for full-time study. A student who withdraws from a course may put his/her program in jeopardy or be unable to complete the degree in the normally allotted time. Where circumstances warrant, any prerequisite(s) or co-requisite(s) for Visual Arts courses may be waived by the Program Chair. Any Visual Arts regulations may be waived by the Committee on Undergraduate Studies upon request of the Program Chair.
- Studio courses are offered in the following subjects: Drawing, Two-dimensional design, Three-dimensional design, Painting, Sculpture, Printmaking, Printmedia, Photography, Multi-media, Digital Imaging and Digital Multi-media. Courses in a studio subject consist of four hours of practical work in a studio class each week. Assigned projects will require that considerable additional studio work be done outside scheduled class time. Students will supply their own art materials. Some courses may not be offered every year. Please consult with the Fine Arts Division prior to registration to confirm course offerings.
- One work of art during the fourth year will be selected by the Visual Arts Program, in consultation with the student, and retained for the permanent collection of the Campus.

7.4 Division of Science

Bachelor of Science general degrees are available in Computational Mathematics, Environmental Science, General Science, Physics, and Psychology.

Bachelor of Science (Honours) degrees are available in Environmental Science and Psychology.

Minors are available in Environmental Science, Mathematics, Physics, and Science. Students for the Bachelor of Science degree offered by the Division of Science may complete a minor offered by the Division of Arts or the Division of Social Science. See Table 6 Bachelor of Arts Minor Programs Offered by the Division of Arts and Table 39 Bachelor of Arts and Bachelor of Science Minor Programs Offered by the Division of Social Science.

An articulation agreement has been established with the College of the North Atlantic for those students who have completed the three-year Environmental Technology diploma program and who wish to obtain a Bachelor of Science degree with a Major in Environmental Science.

7.4.1 Bachelor of Science with Major in Computational Mathematics

The Mathematics Major covers the essential undergraduate topics in mathematics, develops rigorous logical thinking, and equips students with computational techniques to model and solve real-world problems.

- The 120 credit hour, 40 course program may be completed on a full or part-time basis as set out under Table 12 Bachelor of Science with Major in Computational Mathematics.
- A student must complete Core Program Requirements as outlined under Grenfell Campus Core Program Requirements.
- A student must complete an approved concentration of courses known as a Major and elective courses to make up the required total of 40 courses, 120 credit hours. A Minor is not required for this program.

</tr>
</tbody>
</table>
7.4.2 Bachelor of Science with Major in Environmental Science

The Major consists of an Environmental Science Core which provides a broad appreciation of the interrelationships inherent in any study of the environment and one of two possible streams which provide the depth and focus for the degree program.

- The 120 credit hour, 40 course program may be completed on a full or part-time basis as set out under Table 13 Bachelor of Science with Major in Environmental Science.
- A student must complete Core Program Requirements as outlined under Grenfell Campus Core Program Requirements.
- A student must complete an approved concentration of courses known as a Major and elective courses to make up the required total of 40 courses, 120 credit hours. A Minor is not required for this program.

<table>

</thead>
<tbody>
<tr>
<td>Courses as outlined under Grenfell Campus Core Program Requirements, Breadth of Knowledge Requirement, Literacy Requirement, and Quantitative Reasoning and Analysis Requirement.</td>
<td>Elective courses to make up the total of 120 credit hours, other than those required for the Grenfell Campus Core Program Requirement and Major/Minor requirements, may be chosen according to the following guidelines: Any courses in arts, social science, science and fine arts and Up to 15 credit hours in other subject areas.</td>
</tr>
</tbody>
</table>

Environmental Science Core
45 credit hours as follows:
- Biology 1001, 1002, 2600
- Earth Sciences 1000
- Mathematics 1000 (or 1080 and 1081), Statistics 2550 or equivalent
- One of Physics 1020 or 1050 and one of Physics 1021 or 1051
- Environmental Science 4000
- Environmental Science 4950 (or 4951)
- 6 credit hours chosen from Anthropology 3083, Economics 2010, Environmental Studies 3000, Environmental Studies 4000, Philosophy 2561, Political Science 3550, Political Science 3731, Religious Studies 3880
- 9 credit hours chosen from Environmental Science 2261, Environmental Science 2360, Environmental Science 2370, Environmental Science 2371, Environmental Science 2430, Environmental Science 2450, Environmental Science 3072, Environmental Science 3470, Environmental Studies 2000 (this course is strongly recommended for the Biology Stream of the Environmental Science program)

It is strongly recommended that students considering the Chemistry stream of the Environmental Science program complete Mathematics 1000, Physics 1020 or 1050 and one of Physics 1021 or 1051 in their first year.

Environmental Science Streams
39 credit hours in one of the following streams:

- **Biology stream**
  - Biology 2010, 2122
  - Chemistry 1200/1001 sequence or Chemistry 1011/the former 1031 sequence or Chemistry 1050/1051 sequence, and one of Chemistry 2210 or Chemistry 2300 (or 2440 or 2400/2401 sequence, or Chemistry 1010, 1011 sequence and Chemistry 2440)
  - Environmental Science 3110, 3130, 3131, 4132, 4140 (or equivalent field course)
  - Two of Environmental Science 4069, 4131, 4133, 4240, 4247
  - one additional laboratory (Science/Statistics/GIS) course beyond the first year level excluding Environmental Science Core courses. A course used to fulfill a stream requirement cannot also be used as a Group C. course in the Environmental Science Core.

- **Chemistry stream**
  - Chemistry 1200/1001 sequence or Chemistry 1011/the former 1031 or Chemistry 1050/1051 sequence. It is strongly recommended that students complete one of these sequences of Chemistry courses in their first year.
  - Chemistry 2210, 2300 (or 2301), Chemistry 2400/2401 or equivalent
  - Environmental Science 2261, 3210, 3211, 3260, 3261, 4230
  - Two of Environmental Science 4069, 4131, 4240, 4249, 4479
  - Mathematics 1001 which should be completed in the first year of studies

If a student decides to complete a minor, it must be comprised of 8 courses, 24 credit hours chosen from Table 6 Bachelor of Arts Minor Programs offered by the Division of Arts, or from Table 11 Minor Program offered by the Division of Fine Arts, or from Table 18 Bachelor of Science Minor Programs offered by the Division of Science, or from Table 39 Bachelor of Arts and Bachelor of Science Minor Programs offered by the Division of Social Science.
7.4.3 Articulation Agreement - Bachelor of Science with Major in Environmental Science for Graduates of the Three-Year Environmental Technology Diploma Program Offered by the College of the North Atlantic

- The program may be completed on a full or part-time basis as set out under Table 14 Bachelor of Science with Major in Environmental Science for Graduates of the Three-Year Environmental Technology Diploma Program Offered by the College of the North Atlantic.
- An articulation agreement has been established with the College of the North Atlantic for those students who have completed the three-year Environmental Technology diploma program and who wish to obtain a Bachelor of Science degree (Major in Environmental Science). Students who have graduated from the three-year Environmental Technology Diploma Program offered by the College of the North Atlantic, or who are in their final semester of this program, can apply for entry with advanced standing into the Environmental Science Degree Program offered at Grenfell Campus. Upon admission to the university, such students will enter the second year of either stream of the Environmental Science Degree Program.
- Students will be given unspecified credit for 45 credit hours towards the 120 credit-hour degree program. Included in these 45 credit hours will be 9 credit hours for unspecified writing courses, of which 6 credit hours will be at the 1000 level and three will be at the 2000 level. In addition, 6 of these credit hours will be for unspecified credit at the 2000 level satisfying Group B, breadth of knowledge requirement.
- Students gaining entry into the Environmental Science Degree Program at Grenfell Campus will need to satisfy all other core program requirements specified for Grenfell Campus degree programs. As well, they will need to satisfy all other course requirements specified for their specific stream in Environmental Science and meet the requirements outlined under Table 14 Bachelor of Science with Major in Environmental Science for Graduates of the Three-Year Environmental Technology Diploma Program Offered by the College of the North Atlantic.

- Chemistry 2300 or 2440 or 2400/2401
- Environmental Science 3110, 3130, 3131, 4132, 4140 (or an equivalent field course)
- 6 credit hours from Environmental Science 4069, 4131, 4133, 4240, 4479
- 3 credit hours in an additional science or statistics laboratory course at the 2000 level or higher, excluding Environmental Science core courses

**Chemistry Stream**
- Chemistry 2210, 2300, 2400, 2401
- Environmental Science 2261, 3210, 3211, 3260, 3261, 4230
- 6 credit hours from Environmental Science 4069, 4131, 4240, 4249, 4479
7.4.4 Bachelor of Science with Major in General Science

Students completing the Major in General Science will complete a General Science Core. In addition, they will complete a minimum of 24 credit hours (or 18 credit hours in the case of Mathematics) in each of three streams chosen from Biology, Chemistry, Earth Systems, Mathematics or Physics. A student may not use the same course to satisfy the requirements of more than one stream. Students planning their course selection should be aware of the fact that most senior level science courses have one or more specified prerequisites.

- The 120 credit hour, 40 course program may be completed on a full or part-time basis as set out under Table 15 Bachelor of Science with Major in General Science.
- A student must complete Core Program Requirements as outlined under Grenfell Campus Core Program Requirements.
- A student must complete an approved concentration of courses known as a Major and elective courses to make up the required total of 40 courses, 120 credit hours. A Minor is not required for this program.

<td>Chemistry 1200, 1001, 2210, 2300 (or 2301), Chemistry 2440. 3 credit hours from Environmental Science 3210, 3261, 4240. An additional 6 credit hours in courses with the Environmental Science designation of which at least 3 credit hours must be at the 3000 or 4000 level.</td>
</tr>
<tr>
<td><strong>Mathematics Minor</strong></td>
<td>Mathematics 1000, 1001 (The only other course at the 1000 level which carries credit toward a Minor in Mathematics is Computer Science 1700.) 18 additional credit hours in Mathematics courses beyond 1000 level or 15 additional credit hours in Mathematics courses beyond 1000 level and 3 credit hours in Statistics or Computer Science courses. At least 6 credit hours will be in courses at the 3000 level or higher.</td>
</tr>
<tr>
<td><strong>Physics Minor</strong></td>
<td>Physics 1050 (or 1020), 1051, 2053, 2056, 2820. An additional 9 credit hours in Physics at the 2000-level or above.</td>
</tr>
<tr>
<td><strong>Science Minor</strong></td>
<td>The Minor in Science may be chosen in courses from the following disciplines: Biology, Chemistry, Computer Science, Earth Sciences, Environmental Science, Mathematics, Physics, Science, and Statistics. Students who have completed courses drawn from other Science disciplines must obtain approval of the Head of Science. 6 additional credit hours in first year science courses (At least 3 credit hours must be in a laboratory course chosen from any science discipline except mathematics). Five science courses beyond the 1000 level, at least 6 credit hours of which must be beyond the 2000 level. (Mathematics 1001 may be substituted for one of the 2000 level science courses).</td>
</tr>
</tbody>
</table>

Students for the Bachelor of Science degree offered by the Division of Science may complete a minor offered by the Division of Arts, the Division of Fine Arts, or the Division of Social Science. See Table 6 Bachelor of Arts Minor Programs Offered by the Division of Arts, Table 11 Minor Program Offered by the Division of Fine Arts, and Table 39 Bachelor of Arts and Bachelor of Science Minor Programs offered by the Division of Social Science.
7.5 Division of Social Science

The Division of Social Science offers Bachelor of Arts (General) degrees with Majors in Environmental Studies, Psychology, Social/Cultural Studies, and Tourism Studies. A Bachelor of Arts (Honours) degree is available in Psychology and the Division of Social Science also offers Bachelor of Science (General and Honours) degrees in Psychology, Bachelor of Business Administration and Bachelor of Resource Management degree programs are also available.

Minors in Division of Social Science are available in Business, Canadian Studies, Economics, Environmental Studies, Folklore, Geography, Psychology, Social/Cultural Studies, Sociology, and Tourism. See Table 39 Bachelor of Arts and Bachelor of Science Minor Programs Offered by the Division of Social Science.

An articulation agreement has been established with the College of the North Atlantic for students who wish to obtain a Bachelor of Arts degree (Major in Environmental Studies), or a Major in Tourism Studies, or a Bachelor of Business Administration.

7.5.1 Bachelor of Arts with Major in Environmental Studies

The Major in Environmental Studies is an interdisciplinary program which uses various theoretical and applied approaches to explore the complex, dynamic interaction of human beings and nature, considering environmental, political and economic constraints and possibilities. The Major requires a total of 78 credit hours. Students must complete 60 credit hours from the Environmental Studies Core and 18 credit hours from the Environmental Studies Electives.

- The 120 credit hour, 40 course program may be completed on a full or part-time basis as set out under Table 19 Bachelor of Arts with Major in Environmental Studies.
- A student must complete Core Program Requirements as outlined under Grenfell Campus Core Program Requirements.
- A student must complete an approved concentration of courses known as a Major and elective courses to make up the required total of 40 courses, 120 credit hours. A Minor is not required for this program.

7.5.3 Bachelor of Arts with Major in Psychology

The Division of Social Science offers the Bachelor of Arts with Major in Psychology. Requirements for the Bachelor of Arts with Major in Psychology offered by the Division of Social Science can be found outlined under Table 21 Bachelor of Arts with Major in Psychology.

- The 120 credit hour, 40 course program may be completed on a full or part-time basis as set out under Table 21 Bachelor of Arts with Major in Psychology.
- A student must complete Core Program Requirements as outlined under Grenfell Campus Core Program Requirements.
- A student must complete an approved concentration of courses known as a Major, an approved concentration of courses known as a Minor, and elective courses to make up the required total of 40 courses, 120 credit hours.
- A student may not use the same course to satisfy the requirements for both a Major and a Minor.
- As an alternative to a Minor, a second Major may be completed and students must meet all general and departmental or program regulations for both Majors.
- A student may devise a Major/Minor of his/her own choosing in close consultation with a faculty advisor and with approval of appropriate head(s). Such “open” programs must be approved by the Academic Studies Committee.
- Students completing this program cannot receive credit for Psychology 2920.

7.5.8 Advanced Diploma in Tourism Studies

- The Advanced Diploma in Tourism Studies is designed for individuals already possessing a post-secondary diploma or degree in any relevant field who wish to acquire the knowledge and skills required to work in today's tourism industries. The program will benefit individuals from a wide variety of backgrounds including Business, Environmental Science, Environmental Studies, Fine Arts, Historical Studies, Social/Cultural Studies, and Sustainable Resource Management (proposed).
- Students who wish to undertake the Advanced Diploma in Tourism Studies must have completed a post-secondary diploma or degree in any field, or possess at least five years of full-time, relevant work experience or equivalent. Application is made in the space provided on the Change of Academic Program Form, which must then be approved by the Chair of the Tourism Studies Program. Admission into this program is limited and competitive.
- The Advanced Diploma in Tourism Studies require 30 credit hours as outlined under Table 26 Advanced Diploma in Tourism Studies with Minor in Tourism Studies.
- Prerequisites for all Tourism courses may be waived after consultation with, and permission of, the Chair of the Tourism Studies program.

7.5.10 Bachelor of Business Administration

- The Bachelor of Business Administration requires a total of 120 credit hours as outlined under Table 28 Bachelor of Business Administration. Students must achieve a grade point average of at least 2.5 and an overall numeric average of at least 60% on those 120 credit hours.
- Students who have received credit for both English 1000 and 1001 prior to Fall 2011 will not be required to complete English 1110.
- Students enrolled in the Bachelor of Business Administration program are not required to complete minor programs; however, students may choose to pursue a minor in other non-business academic units (where minor programs exist) with permission of that academic unit.
- Students are advised to refer to the requirements for the chosen Minor program as set forth in the University Calendar, and it is recommended that students seek academic advice when planning their program.

Information regarding program requirements for the Bachelor of Education (Primary/Elementary) as a Second Degree is located at Faculty of Education, Program Regulations, Bachelor of Education (Primary/Elementary) as a Second Degree.

7.7 Bachelor of Nursing (Collaborative)

Information regarding program requirements for the Bachelor of Nursing (Collaborative) degree program is located at the School of Nursing, Program Regulations, Bachelor of Nursing (Collaborative) Program - Western Memorial Regional Hospital.

7.8 Honours Degrees

Programs are offered leading to the Honours Degrees of Bachelor of Arts and Bachelor of Science. An Honours degree requires, over and above the requirement of the General degree, a concentration at an advanced level in an approved field, consisting of a subject or subjects of specialization and/or related subjects, and a high quality of work throughout the program. An Honours degree is of distinct advantage to students who plan advanced work or careers in their chosen fields and also to those who have a clear commitment to some special field of study. An Honours degree with first or second class standing is, in many cases, a prerequisite for admission to a graduate program.

The Honours Degree of Bachelor of Arts is available in Psychology and the Honours Degree of Bachelor of Science is available in Environmental Science and Psychology.

7.8.1 Admission and Registration

1. Admission to the Honours degree is competitive and limited, depending upon available resources. Students should consult the
Students must complete 75 credit hours as follows:

1. Students must meet the General Regulations for Grenfell Campus Bachelor of Science degree.

7.8.3 Program Regulations

Students for Honours degrees must comply with such additional requirements of the appropriate Program(s) as approved by the Senate and printed in the University Calendar.

7.8.4 Academic Standing

In order to graduate with an Honours degree, a candidate shall obtain:

1. A grade of 'B' 70% or better, or an average of 75% or higher in the courses that comprise the minimum number of credit hours in the Honours subject(s) prescribed by the program concerned as outlined under the regulations governing specific Honours degree programs, excluding 1000-level courses. Students who wish to fulfill this requirement using repeated or substituted courses must obtain approval of the Program Chair and the Academic Studies Committee. The Honours thesis or dissertation may not be repeated or substituted. A grade of 70% or better must be obtained in the Honours dissertation; and

2. An average of at least 2.75 points per credit hour in the courses required for the degree. (see UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate), for explanation of the point system.)

7.8.5 Classification of Degrees

1. If a student's general average is 3.25 points or better per credit hour in required courses and his/her average is 3.5 points or better per credit hour in the courses in the Honours subject (excluding 1000-level courses), the student shall be awarded an Honours degree with First Class standing.

2. If a student fulfills the conditions of Academic Standing above but not of Regulation 1. under Classification of Degrees, the student shall be awarded an Honours degree with Second Class standing.

3. No classification will be given to the degree awarded a student who has completed (1) fewer than one half of the courses required for the degree at this University, or (2) who has completed fewer than one half of the courses required for the degree at this University since 1959. All students for such degrees shall, however, fulfill the condition of Academic Standing above on the courses taken at this University since September 1959 in order to qualify for the degree.

4. A declared student for an Honours degree who fails to attain the academic standing specified in Academic Standing above but fulfills the academic requirements for a General degree shall be awarded a General degree, the classification of which shall be determined in accordance with UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate).

In these regulations, all references to the Program Chair are to be read as "Program Chair or delegate".

7.8.6 Honours in Environmental Science (B.Sc.)

7.8.6.1 Course Requirements

1. Students must meet the General Regulations for Grenfell Campus Bachelor of Science degree.

2. Students must complete the following courses as follows:
   a. the Environmental Science Core requirements as outlined under Bachelor of Science with Major in Environmental Science.
   b. the course requirements of a specific stream as outlined under Bachelor of Science with Major in Environmental Science.

3. Students must complete 3 additional credit hours in courses at the 4000 level. These courses normally will be drawn from the student's honours stream as follows:
   a. For the Honours Bachelor of Science in Environmental Science (Biology), a further course chosen from: Environmental Science 4069, 4131, 4133, 4240, 4479
   b. For the Honours Bachelor of Science in Environmental Science (Chemistry), a further course chosen from: Environmental Science 4069, 4131, 4240, 4249, 4479
Students, in close consultation with a faculty advisor and the agreement of the Chair of the Program, may select fourth-year honours requirement courses in place of those required above, so long as such selections are consistent with the Major to which they are added. Such honours selections will be subject to approval by the Academic Studies committee.

4. Honours graduates of the Environmental Science Program will have also completed a two-semester research project consisting of a research proposal and literature review course (Environmental Science 4951) and a research project course (Environmental Science 4959).

5. In order to be considered for graduation with an Honours degree, the candidate must satisfy the regulations regarding Academic Standing as specified under Honours Degrees.

Courses used to calculate the academic standing as outlined under Honours Degrees include all required Environmental Science and Chemistry courses for the Chemistry stream students and all required Environmental Science and Biology courses for the Biology stream students, excluding, in both cases, 1000 level courses.

More specifically, courses normally used for calculations would be:

**Biology stream**
- Biology 2010, 2122, 2600
- Three of: Environmental Science 2261, 2360, 2370, 2371, 2430, 2450, 3072, 3470, or Environmental Studies 2000
- Environmental Science 3110, 3130, 3131, 4132, 4140 (or equivalent)
- Three of: Environmental Science 4069, 4131, 4133, 4240, 4479
- Environmental Science 4000, 4951, 4959

**Chemistry stream:**
- Chemistry 2210, 2300 (or 2301) Chemistry 2400, Chemistry 2401
- Two of: Environmental Science 2360, 2370, 2371, 2430, 2450, 3072, 3470, or Environmental Studies 2000
- Environmental Science 2261, 3210, 3211, 3260, 3261, 4230
- Three of: Environmental Science 4069, 4131, 4240, 4249, 4479
- Environmental Science 4000, 4951, 4959

7.8.6.2 Honours Dissertation
The honours project sequence (Environmental Science 4951 and 4959) involves the production of an honours dissertation. This dissertation will be evaluated by a three member committee that includes the dissertation supervisor(s) and that is approved by the Environmental Science faculty unit.

7.8.7 Honours in Psychology
The Honours B.A. and B.Sc. degrees in Psychology offer greater concentration in the discipline and also require a higher level of academic achievement than is required for the completion of a degree. The Honours degrees in Psychology at Grenfell Campus are 120 credit hour programs normally requiring four years for completion (See Honours Degrees).

7.8.7.1 Course Requirements
Students must meet the General Regulations for Grenfell Campus Bachelor of Arts or Bachelor of Science degree. Students must also complete:
1. Psychology 1000, 1001, 2025, 2125, 2225, 2425, 2625, 2825, 2925, 2950, 3950, 4910, 4925;
2. 15 credit hours from Psychology 3025,3040 3125, 3126, 3225, 3226, 3425, 3525, 3625, 3626, 3627, 3725, 3825; and
3. a two-semester research project, Psychology 4951 and 4959.

Students for the Bachelor of Science (Honours) degree in Psychology shall also complete an additional 27 credit hours as follows:
1. 6 credit hours in Mathematics, which must include Mathematics 1000;
2. Biology 1001 and 1002;
3. Chemistry 1200 and 1001 OR Physics 1020 (or 1050) and 1021 (or 1051); and
4. 9 credit hours at the 2000 level or above (two courses of which must be laboratory courses) in one of the following subjects: Biochemistry, Biology, Chemistry, Earth Sciences, Environmental Science or Physics.

In order to be considered for graduation with an Honours degree, the candidate must satisfy the regulations regarding Academic Standing as specified under Honours Degrees.

Students completing this program cannot receive credit for Psychology 2920.

7.8.7.2 Honours Thesis
The Honours project sequence (Psychology 4951 and 4959) involves the production of an Honours thesis. This thesis will be evaluated by the thesis supervisor and an additional faculty member selected by mutual consent of the candidate and the supervisor.

8 Promotion Regulations
For all programs students must meet the meet the general academic regulations (undergraduate) of the University and all general and program regulations of Grenfell Campus. For further information refer to UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate). In addition, student completing the Bachelor of Fine Arts (Theatre) or the Bachelor of Fine Arts (Visual Arts) must fulfill the promotion regulations outlined below as appropriate.

8.1 Bachelor of Fine Arts (Theatre)

8.1.1 Academic Performance
1. Attendance and participation in all studio courses and production rehearsals is vital to the collaborative nature of the program of study in Theatre. Absence from classes or rehearsals of any one student could jeopardize a production, the proper dissemination of practical skills and the overall safety of the students. Therefore attendance at all studio classes, rehearsals and crew calls will be compulsory.
2. Students who fail a studio course shall not take more advanced courses in that discipline until the failed course has been satisfactorily completed.
3. Students shall complete all 1000 level Theatre courses before advancing to any 2000 level Theatre course.
4. A candidate whose average in the Theatre courses for the Bachelor of Fine Arts degree falls below 65 percent in any semester will be placed on probation within the program. A student placed on probation at the end of the final semester of the Theatre program will not be recommended for graduation.
5. A candidate will be required to withdraw from the program if the candidate’s average in Theatre courses falls below 65 percent in each of two consecutive semesters of his/her enrollment in the program.
6. Students who have withdrawn or who have been required to withdraw from the Bachelor of Fine Arts (Theatre) program and wish to re-enter the program must re-apply in competition after a lapse of two semesters by April 30 for the upcoming Fall semester, or by August 30 for the upcoming Winter semester.
7. Students who have been required to withdraw twice from the Bachelor of Fine Arts (Theatre) program shall be ineligible for further admission.
8. The Bachelor of Fine Arts (Theatre) program is intended for full-time students only. Students are strongly advised to take the full course load as prescribed each semester and so progress through the degree in clearly defined blocks of courses.

8.2 Bachelor of Fine Arts (Visual Arts)

8.2.1 Academic Performance
1. Attendance at all studio courses is considered vital to the program and will be required. It will be used as part of the evaluation.
2. a. Students who fail a course in a studio discipline shall not take more advanced courses in that discipline until the failed course has been satisfactorily completed.
   b. Students who fail any studio course will be required to repeat that course and obtain a grade of at least 65%.
3. A candidate whose average in Visual Arts courses falls below 65% in any semester will be placed on probation by the Visual Arts program.
4. A candidate registered beyond the first semester of the Foundation Year will be required to withdraw from the program if:
   a. The candidate’s cumulative average in Visual Arts courses required for the program falls below 65%. OR
   b. The candidate’s average in Visual Arts courses falls below 65% in each of two consecutive semesters of enrolment in the program.
5. A candidate will be denied graduation if, at the end of the final semester of the Visual Arts Program:
   a. The candidate’s cumulative average in Visual Arts courses required for the program falls below 65%. OR
   b. The candidate’s term average in Visual Arts courses falls below 65% in each of his/her last two consecutive semesters of enrolment in the program.
   A candidate denied graduation for either of these reasons will be permitted to register for Visual Arts courses without a waiting period and re-application, and is not bound by Regulation 8 (below).
6. Students who have voluntarily withdrawn from the Bachelor of Fine Arts (Visual Arts) program and wish to re-enter must re-apply in competition by March 1st for the upcoming Fall semester, or by August 30th for the upcoming Winter semester.
7. Students who have been required to withdraw from the Bachelor of Fine Arts (Visual Arts) program and wish to re-enter must re-apply in competition after a lapse of two semesters by March 1st for the upcoming academic year.
8. Students who have been required to withdraw twice from the Bachelor of Fine Arts (Visual Arts) program shall be ineligible for further admission.
9. Students denied promotion with a cumulative average below 60% in Visual Arts courses who are re-admitted to the program will normally be required to repeat all the Visual Arts courses of the term, including all the courses which have been passed (in a semester when the courses are normally offered).
10. Students denied promotion with a cumulative average of at least 60% in Visual Arts courses who are re-admitted to the program will be required to repeat the failed Visual Arts courses only (in a semester when such courses are normally offered).
9 Graduation

Upon meeting the qualifications for any of the programs listed above a student must apply by the appropriate deadline date to graduate on the prescribed “Application for Graduation” form. This form may be obtained on-line at the Memorial Self Service at www3.mun.ca/admit/twbkwsb_P_WWWLogin. Additional information is available from the Office of the Registrar at www.mun.ca/regoff/graduation/apply_grad.php.

10 Waiver of Regulations

Every student has the right to request waiver of Grenfell Campus regulations. Students wishing waiver of University academic regulations should refer to UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate) - Waiver of Regulations.

10.1 General Information

- Grenfell Campus reserves the right in special circumstances to modify, alter, or waive any Grenfell Campus regulation in its application to individual students where merit and equity so warrant in the judgment of the Academic Studies Committee of the Campus.
- All requests, other than requests for waiver of a prerequisite or co-requisite of a course, must be submitted to the Academic Studies Committee of the Campus for consideration. Waiver of a course prerequisite or co-requisite may be granted by the course instructor.
- Any waiver granted does not reduce the total number of credit hours required for the degree.

11 Appeal of Decisions

Any student whose request for waiver of Grenfell Campus regulations has been denied has the right to appeal. For further information refer to UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate) - Appeal of Decisions.

12 Course Descriptions

In accordance with Senate’s Policy Regarding Inactive Courses, the course descriptions for courses which have not been offered in the previous three academic years and which are not scheduled to be offered in the current academic year have been removed from the following listing. For information about any of these inactive courses, please contact the Head of the Division.

Prerequisites may be waived by the Head/Program Chair of the course area in question. Upon the recommendation of the appropriate Program Chair(s), any Major requirements may be waived by the Academic Studies Committee.

Some of the courses in this section of the Calendar are available only at Grenfell Campus. Students who choose to transfer from Grenfell Campus to the St. John's campus should see their faculty advisor to determine the extent to which such courses can be applied to their new program.

12.1 Anthropology

Anthropology 1030 and Anthropology 1031 or an equivalent course or courses are required of all students wishing to concentrate in anthropology.

The following courses, cross-listed with the Department of Sociology and identified by the prefix "S/A", are also taught at the introductory level: 2200, 2210, 2220, 2230, 2240, 2260, 2270, 2280, and 2350. These courses can be taken as first courses or may be taken following an Anthropology introductory course.

Anthropology courses are designated by ANTH.

1031 Introduction to Anthropology is a general introduction to Anthropology emphasizing different forms of society and culture. Cultures within and outside the Western tradition will be examined, ranging from small-scale to more complex pre-industrial societies.

CR: the former ANTH 1000 or 2000

2200 Communities (S/A 2200) is an interdisciplinary examination of the Concept of Community. Readings will include community studies from North America and Europe.

2210 Communication and Culture (S/A 2210) is an examination of verbal and non-verbal systems of communication, and the influence of language on human cognition.

2220 Labrador Society and Culture examines the Sociology and Anthropology of Labrador. The focus is on social and cultural aspects of contemporary Labrador.

2230 Newfoundland Society and Culture (S/A 2230) (same as Folklore 2230) examines the Sociology and Anthropology of the Island of Newfoundland. The focus is on social and cultural aspects of contemporary Newfoundland.

CR: Folklore 2230

2240 Canadian Society and Culture (S/A 2240) is a descriptive and analytic approach to the development of Canadian society and culture.

2250 War and Aggression (S/A 2250) is critical review of ethological, psychological and sociological approaches to the understanding of violence and organized aggression.

2270 Families (S/A 2270) is a comparative and historical perspective on the family as a social institution, the range of variation in its structure and the determinants of its development.

2280 The City (S/A 2280) examines varieties of urban life around the world and through history. The city as habitat and as spectacle.

2300 Newfoundland Folklore (same as Folklore 2300) is a survey of the various types of Folklore: tale, song, rhyme, riddle, proverb, belief, custom, childlore and others, with stress on their function in the Newfoundland community culture. Individual collection and analysis of materials from the student's home communities, supplemented by data from the Memorial University of Newfoundland Folklore and Language Archive.

CR: the former Folklore 3420, Folklore 2300

PR: Folklore 1000 or ANTH 1031

2350 Religious Institutions (S/A 2350) (same as Religious Studies 2350) is a comparative study of religious institutions and beliefs, calendrical feasts and solemnities, religious roles and hierarchies, ritual innovation and revitalization.

CR: Religious Studies 2350

UL: not applicable towards the Major or Minor in Anthropology

2410 Classics in Social and Cultural Anthropology is an examination of selected milestone monographs, ground-breaking studies for subdisciplinary specialties and major syntheses.

2411 Anthropologists in the Field base many of their ideas on experiences they have while living in other cultures. This course examines the human relationships through which anthropologists explore cultures and how in turn these relationships affect the anthropologists and the development of their discipline.

2412 Threatened Peoples is an examination of key social and cultural factors involved in the global extinction of small-scale societies; the intrusive influences that jeopardize small-scale societies, such as disease; economic and military incursion; the role of international non-governmental agencies in aid of threatened peoples; and the role of the anthropologist in this human crisis.

2413 Modern World Cultures is an examination of significant studies of 20th century populations and their implications for understanding the human condition.

2500 Folk Literature (same as Folklore 2500) is an examination of the major genres of folk literature: folk narrative, folk poetry and song, folk drama, and the traditional generic forms within folk speech. An introduction

AR = Attendance requirement; CH = Credit hours are 3 unless otherwise noted; CO = Co-requisite(s); CR = Credit can be retained for only one course from the set(s) consisting of the course being described and the course(s) listed; LC = Lecture hours per week are 3 unless otherwise noted; LH = Laboratory hours per week; OR = Other requirements of the course such as tutorials, practical sessions, or seminars; PR = Prerequisite(s); UL = Usage limitation(s).
to the textual, comparative and contextual methods of analysis. The literature discussed will be international in scope.

CR: Folklore 2500, the former Folklore 3400, English 3400, Sociology/Anthropology 3400.
PR: Folklore 1000 or ANTH 1031

3053 Anthropology of Religion is a critical evaluation of anthropological research on religion, centering on seminal thinkers and major theoretical traditions. Special attention is given to the study of belief systems, and to relationships between belief and ritual.
CR: Religious Studies 3053

3080 The Third World is an examination of the anthropology of the Third World. The course considers perspectives on peasantry, including such topics as underdevelopment, land reform, hunger, political and social movements.

3083 Cultural Crises and the Environment is an examination of social and cultural aspects of crises in the use of renewable and non-renewable resources such as animals, arable land, forests, fisheries, air, water, fossil fuel, and nuclear energy. Special attention to Third World and marginal populations.

3140 Social Movements (S/A 3140) is an examination of social movements which challenge prevailing social institutions and cultural values. Social movements considered may include religious cults and sects, millenarian movements, attempts at utopian and communal living, feminism, labour and revolutionary movements.

3210 Persistence and Change in Rural Society (S/A 3210) assesses the social and cultural significance of the rural experience in the face of expanding urbanism. Topics may include (a) the nature of rural society in Canada, (b) similarities between Canadian and European rural society, (c) utopian and anarchist movements in rural life, and (d) reaction of agricultural populations to external influence.

3314 Gender and Society (S/A 3314) is an examination of biological, psychological, social and cultural aspects of gender, with an emphasis upon contemporary directions of change in sex roles.

3520 Aboriginal History to 1763 (same as Archaeology 3520 and History 3520) examines Aboriginal history in North America from the first European contact to the Royal Proclamation in 1763. Particular attention will be paid to historical encounters framed by first contacts, cultural exchange, trade, disease, religious encounters, conflict and diplomacy, and territorial encroachment.
CR: Archaeology 3520 and History 3520

3525 Aboriginal History from 1763 (same as Archaeology 3525 and History 3525) examines the history of Aboriginal peoples in North America from 1763 to the twentieth century. Particular attention will be paid to Indigenous-settler relations, including Aboriginal policies, military encounters and diplomacy, expansion and removal, education, treaties, and politicization.
CR: Archaeology 3525 and History 3525

4071 Social and Cultural Aspects of Health and Illness (S/A 4071) covers topics which may include: cultural concepts of illness and health, theories of disease causation; relationships between social life and illness patterns; symbolic use of illness; variations in philosophies of treatment and in practitioner/patient relationships; the social organization of medicine. Open to those without normal prerequisites by permission of the Instructor.

4072 Social and Cultural Aspects of Death (S/A 4072) covers topics which may include: symbolic meanings and values attached to death; cultural and historical variations in the management of death, e.g., treatment of the ‘terminally ill’, burial rites, the mourning process, and the social fate of survivors, together with the social and psychological meanings of these behaviours. Open to those without normal prerequisites by permission of the Instructor.

4440 Music and Culture (S/C 4440) (same as Folklore 4440, Music 4040, the former Music 4440), explores traditional music as an aspect of human behaviour in Western and non-European cultures. Examination of the functions and uses of music; folk-popular art music distinctions; and the relation of style to content. Outside reading, class exercises and individual reports will be required.
CR: Folklore 4440, Music 4040, the former Music 4440

12.2 Biochemistry

Biochemistry courses are designated by BIOL.

1430 Biochemistry for Nurses is an introduction to the chemistry and structure-function relationships of carbohydrates, lipids and proteins. Basic metabolism of carbohydrates and fats, with emphasis on the biochemical fluctuations that occur in human health and disease. A brief introduction to molecular genetics. This course may not be used for credit to fulfill the requirements for a major in the Department of Biochemistry. Entry into this course is restricted to students in the Bachelor of Nursing (Collaborative) Program. Prospective fast-track program students should consult with the School of Nursing concerning admission to this course.
CR: the former BIOL 2430
LC: 3
PR: Level 3 Chemistry or Chemistry 1010 or Chemistry 1810 or equivalent

12.3 Biology

Students may obtain credit for only 6 1000-level credit hours in Biology. Normally, these courses will be Biology 1001-1002, which are prerequisite to all higher courses in Biology, except where noted below.

Biology courses are designated by BIOL.

1001-1002 Principles of Biology is an introduction to the science of Biology, including a discussion of the unity, diversity and evolution of living organisms.
LC: 3
PR: BIOL 1001 is a prerequisite for BIOL 1002

2010 Biology of Plants is a study of the structure, function and reproductive Biology of plants, with emphasis on the vascular plants, and on their relationship to environment and human activities.
LC: 3
PR: BIOL 1001, BIOL 1002, and Chemistry 1001

2040 Modern Biology and Human Society I examines various aspects of the human body, and the implications of modern biological research for human beings. Topics include cancer, diet and nutrition and associated diseases; circulatory disease, immunity, human genetics, biotechnologies, new diseases, genetic engineering and reproductive engineering.
UL: cannot be used towards the Minor, Major or Honours programs in Biology

2041 Modern Biology and Human Society II examines the origins and consequences of the environmental crisis of the 20th century. Topics include population explosion, energy, material cycles, air and water and land pollution, global food supplies, the fisheries, wildlands, renewable and non-renewable resources, environmental ethics.
UL: cannot be used towards the Minor, Major or Honours programs in Biology

2122 Biology of Invertebrates is a study of the invertebrates with emphasis on structure and function, adaptations and life histories. The laboratories will present a broad-survey of the major invertebrate groups.
CR: the former BIOL 3122
LC: 3
PR: BIOL 1001 and BIOL 1002

2210 Biology of Vertebrates is a study of the vertebrates, with emphasis on structure and function, adaptations and life histories.
CR: the former BIOL 3210
LC: 3
PR: BIOL 1002

2250 Principles of Genetics is an introduction to Mendelian and molecular genetics. Phenotype and genotype, behaviour of alleles in genetic crosses, chromosome theory of inheritance, genetic linkage, molecular Biology of DNA, RNA and protein, molecular basis of mutation, recombinant DNA, applications of genetic biotechnology.
CO: Chemistry 2440 or Chemistry 2400
CR: the former BIOL 3250
PR: BIOL 1001, 1002, Chemistry 1010, 1011 or 1050/1051

2600 Principles of Ecology is a conceptual course introducing the principles of ecology, including theoretical, functional and empirical approaches.
CR: the former BIOL 3600
LC: 3
PR: BIOL 1002

3053 Microbiology for Nurses is a course on the fundamentals of microbiology with an emphasis on medical microbiology. The course will include topics such as: host responses to infections, human diseases caused by microorganisms, and the control and exploitation of microorganisms. Entrance is restricted to Nursing students in the Bachelor of Nursing (Collaborative) program.
LC: 2
UL: cannot be used as one of the required courses for the Minor, Major, or Honours in Biology, nor is it acceptable for any of the joint programs between Biology and other disciplines
12.4 Business
Enrolment in some Business courses is limited and first priority will be given to students registered in Grenfell Campus’s Business Administration programs and Memorial University of Newfoundland’s Faculty of Business Administration programs.

12.4.1 Core Program Course Descriptions
1000 Introduction to Business in Society introduces the basics of business and business corporations in society, in a real-world relevant manner. Particular attention is given to societal stakeholders and to corporations’ internal business processes and management functions. Major emphases include corporate social responsibilities and management ethics, and these are recurring themes in other topics such as technology, globalization, and ethics. Problem solving in organizations. The course is a combination of textbook theory and guided learning activities and assignments based on finding and integrating real-world information.
CR: the former Business 2001

1101 Principles of Accounting emphasizes the concepts and issues of introductory financial accounting as they relate to the Canadian conceptual framework, and will also address the strengths and weaknesses of financial reporting at an introductory level. The student will be introduced to the accounting process and analysis of the balance sheet, income statement, and the statement of changes in financial position. This is a Designated Quantitative Reasoning and Analysis Course.
CR: the former Business 2100 and the former Business 3100

1210 Introduction to Marketing Strategy introduces students to the concepts, analyses, and activities that comprise marketing strategy and provides practice in assessing and solving strategic problems in marketing. The course focuses on making decisions about strategic issues in organizations, including marketing strategies and planning, marketing tactics and for advanced electives in marketing. Topics include: marketing strategy, environmental analysis, competitive analysis, customer behaviour, marketing research, segmentation, targeting, and positioning. This is a designated Writing course.
CR: the former Business 1201 or 2201 or 3200, Tourism Studies 2201
PR: Business 1000, Economics 2010, Economics 2020, English 1110 or 1021

1600 Introduction to Entrepreneurship is an introductory course designed to give students a broad understanding of the field of entrepreneurship and the role that entrepreneurship plays in society. Topics will include the nature and theories of entrepreneurship, the characteristics and behaviours of entrepreneurs, and the entrepreneurial process in small and large firms. Students will get hands-on experience through projects that allow them to pursue their entrepreneurial ideas and develop skills that will be useful in any career. The course is also useful for those who will be dealing with smaller firms in the context of larger organizations and for those who will be working for entrepreneurs.
PR: Business 1000, and English 1110 or 1021

2010 Business Research and Writing introduces students to research, writing, and reporting processes in business. Through ongoing, multi-stage evaluations, students will learn the fundamentals of business research, including analytical thinking and proposal writing involving research using secondary sources. A key focus is the writing process, including grammar, punctuation, structure, format, in context business communications, and media. Students also develop their oral presentation competence by presenting the results of their research. A highly interactive design encourages student practice and participation. This is a designated Writing course.
CR: Business 2000
PR: Business 1000, and English 1110 or 1021

2101 Managerial Accounting provides an overview of the use of financial data for managerial decision making. The student will be introduced to basic budgeting and analysis techniques for both service-oriented and manufacturing businesses. This is a Designated Quantitative Reasoning and Analysis Course.
CR: the former Business 4100
PR: Business 1101

2210 Introduction to Marketing Tactics introduces students to the concepts, analyses, and activities that comprise marketing tactics and provides practice in assessing and solving tactical problems in marketing. The course is also a foundation for advanced electives in marketing. Topics include: product management, pricing, marketing communications, channels of distribution, implementation, and budgeting. This is a designated Writing course.
CR: the former Business 1201 or 2201 or 3200, Tourism Studies 2201
PR: Business 1210, Mathematics 1000

2400 Decision Modeling provides an introduction to: spreadsheet modeling; linear optimization and the related topics of integer, assignment, and transportation models; and decision analysis including payoff matrices, decision trees, and Bayesian revision. All topics will be taught within the context of business applications. This is a Designated Quantitative Reasoning and Analysis Course.
CR: Statistics 2500
CR: the former Business 4401
PR: Mathematics 1000

2700 Computing and Information Systems for Business serves to introduce computer applications in document processing, spreadsheet and database management, and basic web design and technology. Students will also examine the role of information systems and their design and management in supporting business decision making, and ethical issues surrounding technology in the workplace.
CR: Computer Science 1600, Computer Science 2650, Computer Science 2601
LH: 3
PR: Business 1000
UL: cannot be used as a Business elective in programs offered by the Faculty of Business Administration

3310 Organizational Behaviour (formerly Business 2301 and 4300) focuses on the study of individual and group processes in formal organizations. The student is introduced to the nature of work, the systematic approach to the study of behaviour, organizational roles and external conditions on HRM is included. The course views the management of human resources as the joint responsibility of line and HRM managers.
PR: Business 3310 or the former Business 2301

4000 Business Law I is a course dealing with the law relating to certain aspects of business activity; includes introductory material on the nature of law and legal processes, together with a detailed study of certain aspects of the law of contract, examination of the general principles of the law of agency and agency; and the law of agency; and business functions and management. The course covers operations competitiveness and strategy, product, forecasting, capacity planning, material requirements planning, waiting lines analysis, project management, quality control and its improvement, and supply chain management. This is a Designated Quantitative Reasoning and Analysis Course.
CR: the former Business 5400
PR: Statistics 2500, and Business 2400 or the former Business 2401

4320 Human Resource Management introduces the student to the design, operation and management of HRM processes, their evaluation, and their contribution to employee and organization effectiveness. The principal processes considered are staffing, development, employment relations, and compensation. Consideration of the influence of relevant organizational and external conditions on HRM is included. The course views the management of human resources as the joint responsibility of line and HRM managers.
PR: Business 3310 or the former Business 2301

4330 Introduction to Labour Relations (formerly Business 3320) provides an introduction to the field of industrial and labour relations in Canada, with particular emphasis on the labour relations system, including the collective bargaining process, and collective grievance settlement procedures. Students will learn about the role of labour and management in the labour relations system, and the role of law in the resolution of labour disputes. Students may be expected to vary the role playing exercises that are applicable to industrial and labour relations.
CR: the former Business 3320
PR: English 1021 or English 1110

4500 Financial Management I is designed to introduce the student to the role of financial management in business, financial analysis techniques, working capital management, and long-term and short-term financing. This is a Designated Quantitative Reasoning and Analysis Course.
CR: Economics 3160, the former Business 4310
PR: Business 1101, Economics 2010 and Statistics 2500

5301 Organizational Theory focuses on the organization, its environment,
and its subsystems. From providing a basic appreciation of the role and practice of research in organizations, study extends to measures of organizational effectiveness, determinants of structure and design, power and politics, intergroup conflicts and conflict resolution, and organizational development and change.
CR: the former Business 5300
PR: Business 3310 or the former Business 2301

7000 Strategic Management 2 emphasizes concepts of strategic management, strategy in various contexts and situations covering corporations and businesses, and other institutions or organizations and their purposeful activities. Through in-depth analysis of reality-based situations and strategic issues, students will develop their contextual and situational orientation, and further develop their applied, investigative thinking and information search skills. Further, students will be expected to develop an applied ability in the contextual and situational analysis of corporation/businesses and institution/purposeful activities, and in corresponding strategy formulation and planning for strategy implementation. Students learning activities may be based on published simulation exercises, decision-making and group dynamics exercises, business simulation exercises, and information search projects. Learning outcomes also may include research and information search methodologies and information literacy, and good writing. This is a designated Writing course.
PR: Business 4050, 4320, 4500, and 5301

7100 Business and Society examines the inter-relationships among business, government, society and the environment. Topics include: the social-economic business system, business ideologies, social responsibilities of business, business ethics, stakeholder and issues management, and selected current issues in business. This is a designated Writing course.
PR: restricted to Bachelor of Business Administration students who have completed at least 90 credit hours, or permission of the Chair of Business

12.4.2 Business Electives
All existing business courses at Memorial University of Newfoundland that are not included in the Grenfell Campus Bachelor of Business Administration core will be considered business electives. When choosing electives, students must ensure that they satisfy requirements for one of the concentrations listed under Table 29 Recommended Course of Study for Core Courses, Business Studies Concentration and Recommended Course of Study for Small Business and Entrepreneurship.

2000 Business Communications focuses on the development of written and oral communication skills in the workplace. The common communications media are reviewed with emphasis on electronic and written correspondence. Students learn how to prepare comprehensive analytical reports including proposal writing. Attention is also given to building confidence in delivering oral presentations and preparing appropriate handout packages. A highly interactive design encourages student practice and participation. This is a designated Writing course.
CR: Business 2010
UL: may not be used to fulfill any of the requirements of any of the programs of the Faculty of Business Administration, including the minor, diploma and degrees

2808 Business Ethics examines the implications of business conduct using ethics as a framework, and will provide the tools to anticipate, critically analyse, appropriately respond to, and provide personal and professional leadership regarding critical ethical issues that will arise during professional and personal careers. This is a designated Writing course.

3101 Accounting Applications 3 continues the study of accounting on a more in-depth and detailed basis. Building on the theory and concepts of Business 1101 and 2101, Business 3101 will emphasize the procedures and techniques required for the preparation and presentation of accounting information for both internal purposes financial statements. This is a Designated Quantitative Reasoning and Analysis Course.
CR: the former Business 2100 or the former Business 3100
PR: Business 1101

3210 Consumer Behaviour deals with concepts related to factors with influence the consumption and purchase behaviour of individuals including cultural, social class, reference groups, perception, learning, motivation, personality and lifestyle. The unique aspects of groups and organizational buyers will also be examined.
CR: the former 5205
PR: Business 2010 and Business 2210 or the former Business 2201, or the former Business 3200.

3350 Principles of Leadership will build on the concepts introduced in Organizational Behaviour, providing students the opportunity to explore various theories of leadership and styles, and to evaluate their own personal leadership profiles. Students will examine motivation and coaching, strategic leadership and change management, among other topics.
PR: Business 3310 or the former Business 2301

4010 Government Policy and Economic Development examines the integration of Government policy, scientific understanding, local knowledge and social and economic principles for sustainable economic development. Students will explore experiences with various institutions, regulations and policy instruments in dealing with economic development, both theoretically and in a number of case studies.
PR: Business 1000, Economics 2010 and Economics 2020

4020 Research and Economic Analysis will examine the interpretation and analysis of research tools and methods commonly utilized in assessing the impact of economic development in the context of local government, business, social and cultural, and institutional environments.
PR: the former Business 2401, Business 4500, Economics 2010, and Economics 2020

5000 Business Law II is designed to show the student how principles of law are applied to four areas of Business. The areas dealt with in this course are accounting, finance, marketing, personnel, and production.
PR: Business 4000

5010 International Development addresses present critical issues in international development, causes of poverty, the role of international trade and financial aid, foreign debt problems, the role of the government and its policies, and globalization. Through lectures, class discussions and project work, the course aims to develop the student's knowledge of different theories of development and their ability to identify and analyse the major economic problems, as well as to think critically and to find solutions.

5210 Marketing Communications provides a theoretical background on the nature, role and principles of marketing communications; and develops analytical and decision-making skills in planning, executing, evaluating and controlling marketing communications campaigns.
CR: the former Business 5210, the former Business 6210 or the former Business 2210 or the former Business 2201, or the former Business 3200

5220 Marketing Research is designed to acquaint the student with the use of marketing research as an aid to management. This is a comprehensive survey of the scope and methods of marketing research. This is a designated Writing course.
CR: the former Business 6200
PR: Statistics 2500, Business 2010, and Business 2210 or the former 2201, or the former 3200

5302 International Business is designed to introduce students to the issues of international business; these are the processes of cultural confrontation and compromise: the problems of competitive sovereignty involving multinational corporations and the governments of host societies; the organization, structure, operation and control of diverse international businesses; and, finally, the role of multinational enterprises as a catalyst in economic development and resources employment, in particular, the North-South context. The relevance of international business as an area of study to the Canadian economy is discussed. The course is both conceptual and empirical in content.
CR: the former BUSI 7302
PR: Business 1000 and Economics 2010 and 2020

5500 Financial Management II (formerly Business 5140 and Business 7140) is an extension of Business 4500. Capital investment decision-making using discounted cash flow methodology; investments under certainty, financial structure and leverage; analysis of money and capital markets; further examination of long-term external financing. This is a Designated Quantitative Reasoning and Analysis Course.
CR: the former Business 5140, the former Business 7140
PR: Business 4500 or the former Business 4110

5530 Public Finance recognizes the large role played by government in our society. Sources and uses of government funds at the federal, provincial and local levels will be covered. Intergovernmental fiscal problems will be examined with special emphasis on various incentive programs available to business from the three levels of government.
CR: the former Business 5100
PR: Economics 2010 and Economics 2020

5600 New Venture Creation (formerly Business 5030 and Business 7030) covers the business creation process from the idea conception stage to the launch stage. Students learn how to search for, screen and evaluate opportunities, and to plan and assemble the required resources, including the preparation of an actual business plan. Alternatives to new venture creation, such as purchasing an existing business and purchasing a franchise, are also explored. Extensive group work is required.
CR: the former Business 5030, the former Business 7030
PR: Business 1101, Business 1600, and Business 2210

AR = Attendance requirement; CH = Credit hours are 3 unless otherwise noted; CO = Co-requisite(s); CR = Credit can be retained for only one course from the set(s) consisting of the course being described and the course(s) listed; LC = Lecture hours per week are 3 unless otherwise noted; LH = Laboratory hours per week; OR = Other requirements of the course such as tutorials, practical sessions, or seminars; PR = Prerequisite(s); UL = Usage limitation(s).
6040 International Business Law develops the skills a business student must have in understanding the laws and regulations that exist and relate to international business decision making. The course will equip students with a knowledge and understanding of laws and regulations that currently prevail in international business operations.

PR: Business 4000

6120 Taxation I is a determination of income tax liability of individuals and corporations, and a survey of sales taxes.

PR: Business 1101 or the former Business 3100, and Business 4000

6500 Family Business, Franchising, and Buying an Enterprise examines various forms of business ventures and recognition and treatment of associated risks. Emphasis is on the critical importance of the entrepreneur, the demands and the risks faced as well as the rewards and satisfactions to be expected from family-run business, franchising, and enterprise takeover. This is a designated Writing course.

PR: Business 1101, Business 1600, and Business 2210

6510 Investments is a study of investment securities, risks, markets and mechanics; an appraisal of the economy, the industry and the firm; and portfolio management for personal and institutional investments.

CR: the former Business 6140
PR: Business 4500 or the former Business 4110

6600 Managing Growth in the Small Firm is designed to introduce the student to the challenges and opportunities of managing small growing businesses. The focus will be on functional issues and solutions within the context of growth oriented small firms. In addition, the course will explore strategies planning in the owner-managed business and strategies for growth and expansion. Extensive use will be made of cases and examples from Atlantic Canada.

CR: the former Business 6030
PR: Business 5600

6610 Small Enterprise and Regional Development (formerly Business 6009 and Business 7031) explores the potential and constraints on efforts to foster small enterprise formation and expansion as a means to promote regional economic development. It critically examines government initiatives to promote small business as the panacea for depressed regional economies, and reviews changes in the global economy and the organization of production which may enhance small business competitiveness. Canadian and international cases are studied, with theoretical and empirical findings related to the Newfoundland context.

CR: the former Business 6009 and the former Business 7031

6800 Current Topics in Rural Economic Development - inactive course.

7025 Management Decision Making is a case-based course that takes a critical look at the decision-making process and examines the complexities of the business environment that affect both the effectiveness and efficiency of decision making, including environmental uncertainty, and competing stakeholder interests. Through case analysis, students will have an opportunity to evaluate and practice both qualitative and quantitative managerial decision making skills as they apply to areas such as marketing, human resources, production and operations, and business planning. Topics to be covered may include: decision theory, evaluating risk and uncertainty, game theory, and creative problem solving. This is a designated Writing course.

CR: the former Business 4401, the former Business 3400
PR: restricted to Bachelor of Business Administration students who have completed at least 75 credit hours
UL: cannot be used to satisfy the requirement of the former Business 4401 in any program

7050 Current Topics in Business includes current topics in contemporary business thinking will be examined and evaluated in a seminar format. Seminars will be presented by faculty, students, and guest speakers. This is a designated Writing course.

PR: restricted to Bachelor of Business Administration students who have completed at least 90 credit hours, or students who have permission of the Chair of Business

7600 Current Topics in Entrepreneurship endeavours to address recent research findings in various aspects of entrepreneurship. Students will have the opportunity to pursue issues in entrepreneurship development covering a wide range of topics using publications, journals and conference proceedings. This is a designated Writing course.

CR: the former Business 7032
PR: Business 5600

7610 Regulatory and Taxation Issues for Small Business is designed to provide students with a general knowledge base of the various tax and other regulatory issues that should be considered in starting a business. The role that tax plays in decision making will be examined as well as the types of corporate funding to establish a new business through government grants, conventional loans and tax credits as provided under the Income Tax Act. Alternative corporate structures will be examined as well as aspects of employee compensation and business valuations. Practical aspects of starting your own business, such as registration requirements, will also be examined.

PR: Business 6120

12.5 Chemistry

Attendance for all Chemistry Laboratory sessions is mandatory. Failure to attend may result in a failing grade or deregistration from the course.

Students are strongly advised to complete the Chemistry sequence appropriate to their stream (Chemistry 1200/1001 or 1010/1011 or 1011/the former 1031 or 1050/1051) on the campus they first attend prior to transfer to another campus. Consult the credit restrictions listed under the St. John's Campus Department of Chemistry section of the University Calendar.

Chemistry courses are designated by CHEM.

1001 General Chemistry II is rates of reaction, chemical equilibria, thermodynamics, and introduction to organic chemistry.

AR: attendance is required
CR: credit may be obtained for only one of the following pairs of courses: CHEM 1000 and CHEM 1001; CHEM 1200 and CHEM 1001
LC: 4 including tutorials
UL: PR: CHEM 1200 or equivalent

1200 General Chemistry I is atomic structure and bonding, stoichiometry, reactions in aqueous solutions, gases, energetics of chemical reactions, the periodic table, chemical bonding and molecular geometry, intermolecular forces. This introductory course is intended for students who have a background of high school chemistry. This course is offered at Grenfell Campus only.

AR: attendance is required
CO: credit may be obtained for only one of the following pairs of courses: the former CHEM 1000 and CHEM 1001; CHEM 1200 and CHEM 1001
LC: 4
LH: 3

1810 Elements of Chemistry is matter, scientific measurement, atomic theory, the periodic table, chemical compounds and elementary bonding theory, the mole, chemical reactions, the chemistry of selected elements, gases, solutions, stoichiometry. This course is specifically intended for those who have no background in chemistry. This course is offered at Grenfell Campus only.

AR: attendance is required
CR: the former CHEM 1800
LC: 4
LH: 3
UL: may not be used as one of the Chemistry courses required for a B.Sc. Degree with a Specialization in Environmental Science at Grenfell Campus, nor for a Major or Honours in Chemistry, nor towards fulfilment of the 78 credit hours in science courses required for the B.Sc. degree on the St. John’s campus.

1900 Chemistry in Everyday Life is a course that shows the relevance of chemistry in our daily lives. Following an introduction to atomic structure and chemical bonding, the course will focus on some of the following: organic chemistry and fuels; redox processes and batteries; acids, bases, and household cleaners; phases and detergents; the chemical components of foods; polymers and plastics, toiletries, and pharmaceuticals.

UL: may not be used as one of the required courses towards a Minor, Major, or Honours in any science degree program

2210 Introductory Inorganic Chemistry is structural chemistry of the solid state. Introduction to molecular orbital and crystal field theories. Chemistry of the s, p, and d block elements.

AR: attendance is required
CR: CHEM 1800
LH: 3
PR: CHEM 1001 (or the former 1031 or CHEM 1051), Mathematics 1000

2300 Introductory Physical Chemistry is introductory chemical thermodynamics and equilibria. Complementary laboratory work with an emphasis on quantitative analysis.

AR: attendance is required
CR: CHEM 2301
LH: 3
PR: CHEM 1001 (or the former 1031 or CHEM 1051), Mathematics 1001, Physics 1051 (or Physics 1021)

2301 Thermodynamics and Kinetics builds upon knowledge of physical chemistry from first year. It covers the basic theory of ideal and real systems as well as chemical kinetics. Topics in thermodynamics include the thermodynamics of ideal and real gases, phases, and the Maxwell relations, equilibria between phases, and in electrolyte solutions. The integrated rate laws for simple and complex mechanisms, and the temperature dependence of reaction rates in terms of kinetic molecular theory are some of the topics discussed in the kinetics

AR = Attendance requirement; CH = Credit hours are 3 unless otherwise noted; CO = Co-requisite(s); CR = Credit can be retained for only one course from the set(s) consisting of the course being described and the course(s) listed; LC = Lecture hours per week are 3 unless otherwise noted; LH = Laboratory hours per week; OR = Other requirements of the course such as tutorials, practical sessions, or seminars; PR = Prerequisite(s); UL = Usage limitation(s).
2400 Introductory Organic Chemistry I is bonding involving carbon; conformations and stereochemistry; introduction to functional groups and nomenclature; properties, syntheses and re-actions of hydrocarbons, alkylnalides and alcohols.
AR: attendance is required
CR: the former CHEM 2420, the former CHEM 2440, the former CHEM 240A/B
LH: 3
PR: CHEM 1051 or the former 1031; or CHEM 1010 and CHEM 1011 with a grade of at least 85% in each; or CHEM 1011 with a grade of at least 85%; or CHEM 1001 with a grade of at least 65%

2401 Introductory Organic Chemistry II is an introduction to the interpretation of infrared, R and C-13 NMR spectroscopy, properties, syntheses and reactions of ethers, simple aromatic compounds, ketones, aldehydes, amines, carboxylic acids and their derivatives; aldol and related reactions.
AR: attendance is required
CR: the former CHEM 2420, CHEM 2440, the former CHEM 240A/B
LH: 3
PR: CHEM 1011 (or CHEM 1001 or CHEM 1051)
UL: is designed primarily for Biology Majors and may not be used for credit by Chemistry or Biochemistry Majors and may not serve as a prerequisite for any other Chemistry course.

12.6 Classics

In accordance with Senate’s Policy Regarding Inactive Courses, the course descriptions for courses which have not been offered in the previous three academic years and which are not scheduled to be offered in the current academic year have been removed from the following listing. For information about any of these inactive courses, please contact the Head of the Division.

Classics courses are designated by CLAS.

1120 and 1121 Elementary Latin is an introduction to the grammar and syntax of Latin, with particular attention paid to the acquisition of basic skills in reading, composition, and aural comprehension.
CR: the former CLAS 120A and 120B
PR: CLAS 1120 is the prerequisite for CLAS 1131

1130 and 1131 Elementary Ancient Greek is an introduction to the grammar and syntax of ancient Greek, with particular attention paid to the acquisition of basic skills in reading, composition, and aural comprehension.
CR: the former CLAS 130A and 130B
PR: CLAS 1130 is the prerequisite for CLAS 1131

1100 Introduction to Greek Civilization is a general illustrated survey of the origins and evolution of Ancient Greek Civilization. The course introduces the student to Greek social and political institutions, religion and myth, and achievements in art, philosophy, science and literature, as well as the influence of Ancient Greece on the modern world.
CR: the former CLAS 1000, the former CLAS 2000

1200 Introduction to Roman Civilization is a general illustrated survey of the origins and evolution of Ancient Rome. The course introduces the student to social, political, and legal institutions, the growth of the Roman Empire, Roman art, literature, and religions, as well as Rome’s pervasive influence in the modern world.
CR: the former CLAS 1000, the former CLAS 1101, the former CLAS 2001

2010 Greek Art and Architecture is an introduction, through illustrated lectures, to the study of the art and architecture of Ancient Greece.
CR: the former CLAS 3100, the former CLAS 3101

2015 Roman Art and Architecture is an introduction, through illustrated lectures, to the study of the art and architecture of Ancient Rome.
CR: the former CLAS 3100, the former CLAS 3102.

2020 History of the Hellenistic World (same as History 2034) is a survey of the history of the Mediterranean world and the Near East from the death of Alexander the Great in 323 BC until the incorporation of the Kingdom of Egypt in the Roman Empire in 30 BC. Particular attention is given to the influence of the new monarchies on political, social and cultural developments in both Greek and non-Greek communities.
CR: History 2034

2035 History of Classical Greece (same as History 2035) is a survey of Greek History from the Bronze Age to the death of Alexander the Great, with special reference to the social and political institutions of the fifth century, B.C.
CR: History 2035, the former CLAS 3910, the former History 3910, the former CLAS 3920, the former History 3920

2040 History of Rome (same as History 2040) is a survey of Roman History from the early monarchy to the reign of Constantine with special reference to society and politics in the late Republic and early Empire.
CR: CLAS 2041, CLAS 2042, History 2040, the former CLAS 3920, the former History 3920

2055 Women in Greece and Rome is an examination of the role of women in ancient Greece and Rome from the perspectives of religion, literature, art, society, and politics. Critical assessments of the scholarship and methodologies (including feminist methodologies) relevant to this topic will be included.

2701 History of Ancient Philosophy (same as Philosophy 2701) is a survey of the origin and development of Western philosophy among the Greeks and Romans.
CR: Philosophy 2701

2800 Classical Drama I - inactive course.

2801 Classical Drama II - inactive course.

3010 Greek Religion (same as Religious Studies 3010) is a study of the role of religion in the private and public life of the Greek world.
CR: Religious Studies 3010, the former CLAS 3121, the former Religious Studies 3121

3020 Roman Religion (same as Religious Studies 3120) is a study of the role of religion in the private and public life of the Roman world.
CR: the former CLAS 3121, the former Religious Studies 3121, Religious Studies 3200

3090 Alexander and the Macedonians (same as History 3090) investigates the impact of the conquests of Alexander the Great and his Macedonian Successors on the political, social, cultural, intellectual, and religious world of the Mediterranean and Near East between Alexander’s accession in 336 and the battle of Ipsus in 301, when his vast empire was carved into Hellenistic kingdoms.
CR: History 3090

3110 Greek Literature in Translation - inactive course.

3111 Latin Literature in Translation - inactive course.

3130 Greek and Roman Mythology (same as Folklore 3130) is a comparative study of the major myths of Greece and Rome as embodied in the literary and artistic remains of the ancient world with reference to their origins and their influence on later art and literature.
CR: Folklore 3130

3405 Tragic Drama in Greece and Rome is a detailed examination of the tragic dramas of ancient Greece and Rome. A selection of plays by Aeschylus, Sophocles, Euripides and Seneca will be read in English translation. Topics to be discussed include the development of tragic tragedy, its literary, performative and thematic traditions, its representation of social and historical conditions, and its influence on later tragic drama.
CR: the former Classics 2805

3415 Epic Poetry in Greece and Rome offers a detailed and in-depth study of the epic poetry or ancient Greece and Rome. The course will examine the poems of Homer, Apollonius of Rhodes and Vergil in English translation. Topics to be discussed include the development of ancient tragedy, its literary, performative and thematic traditions, its representation of social and historical conditions, and its influence on later tragic drama.
CR: the former CLAS 2060

3700 The Ancient World in Film examines the representations of the history and cultures of the ancient world in film. A selection of films will be studied and extensive reference will be made to the ancient evidence which informs them. The ancient world’s impact on modern Western society will be considered together with the film industry’s re-creations of the ancient world in response to modern social and historical developments.

4000 Seminar in Greek History and Society will have the topics to be studied announced.

4010 Seminar in Roman History and Society will have the topics to be studied announced.
4020 Seminar in Greek Literature and Culture will have the topics to be studied announced.
4030 Seminar in Roman Literature and Culture will have the topics to be studied announced.

12.7 Computer Science

Computer Science courses are designated by COMP.

1600 Basic Computing and Information Technology offers an overview of computers and information technology. It provides students with the knowledge necessary to answer questions, such as: What is a computer system? How does it work? How is it used? This is done through the use of popular spreadsheet, word processing and database software packages and the Internet. Social issues and implications will also be included.
CR: Business 2700, COMP 2650, COMP 2801
LH: 3
PR: Level III Advanced Mathematics or Mathematics 1090, which can be taken concurrently

1700 Introduction to Computer Science lays the foundation for the art and the science of computing. The course contains fundamental and topical issues in computers, languages, programming and applications. This course is designed for potential Computer Science majors without a background in programming, but is also available for non-majors.
CO: Mathematics 1090 (or equivalent), or Mathematics 1000
LH: 3
PR: Mathematics 1090 (or equivalent), or Mathematics 1000

12.8 Earth Sciences

Earth Sciences courses are designated by EASC.

1000 Earth Systems is a survey of the structure, function and interrelations of Earth's lithosphere, hydrosphere, atmosphere and biosphere. Topics include an exploration of the physical and chemical properties of planetary materials, forces driving and sustaining Earth systems, and biological modifiers (including humankind) on the Earth today.
LH: 3

1001 Evolution of Earth Systems - inactive course.

1002 Concepts and Methods in Earth Sciences is an introduction to a broad range of concepts concerning the development of the geological record and the Earth; practical methods for collection of field based data, topics in map interpretation and geometric analysis, stratigraphy, paleontology, structure and petrology. The course is presented with an emphasis on the development of practical skills needed to pursue a career in Earth Sciences.
LH: 3
PR: EASC 1000

2150 The Solar System describes the basic astronomy of the Solar System, tracing the search to understand motion of the Sun, Moon and planets in the sky: modern observations of planets, moons, comets, asteroids and meteorites and what they tell us about the origin and evolution of the Solar System. This course is designed for students taking Earth Sciences as an elective.
UL: not acceptable as one of the required courses for the Minor, Major or Honours programs in Earth Sciences.

3811 Paleontology is an outline of the major changes in life forms from Archaean times through the Phanerzoic to the present day, including details of invertebrate and vertebrate faunas and major floral groups; mechanisms and effects of mega- and microevolution in the fossil record; Biology and classification of organisms and summaries of their geological significance in biostratigraphy, paleoecology and rock-building; relationships between major cycles of evolution and extinction to global processes. This course has a laboratory component.
CR: Biology 3811, the former EASC 3801, the former Biology 3800
LH: 3
PR: either Biology 2120 (or Biology 1001 and Biology 1002) and EASC 1002; or Biology 2122 and Biology 2210

12.9 Economics

Economics courses are designated by ECON.

2020 Introduction to Macroeconomics covers national income accounting, aggregate income analysis, money, banking and foreign trade.

2550 Economic Statistics and Data Analysis is an analysis of economic statistics and the use of economic data. A course designed to introduce students to the task of economic data collection, description and analysis. Emphasis will be on interpretation and analysis of data using computer software programs.
PR: ECON 2010, ECON 2020, and Statistics 2500 or equivalent.

3000 Intermediate Micro Theory I is the basic microeconomics theory course; consumer demand, indifference curve analysis, theory of production and cost, factor substitution, and the theory of the firm under perfect competition and monopoly.
PR: ECON 2010 and ECON 2020

3001 Intermediate Micro Theory II is a continuation of basic microeconomics theory; the theory of imperfect competition, theory of factor pricing under various market structures, general equilibrium and welfare economics.
PR: ECON 3000

3010 Intermediate Macro Theory I is aggregate analysis including consumer, investment, government and international sectors, the role of money, determinants of aggregate supply, and the effects of autonomous behavioural changes and fiscal and monetary policies on unemployment, price levels and the balance of payments.
PR: ECON 2010 and ECON 2020

3011 Intermediate Macro Theory II is a consideration of modern theories of macroeconomics, dynamics, empirical evidence and simulation of the national economy. Emphasis on the availability and effectiveness of government policy instruments.
PR: ECON 2010

3030 International Economics: Issues and Problems in a Canadian Context is an intermediate course in international economics. The course covers the theory of comparative advantage, the structure and policy issues of the Canadian balance of payments, the foreign exchange market and the institutional aspects of international commerce.
PR: ECON 2010 and ECON 2020

3050 Economic Forecasting: Methods and Applications - inactive course.

3080 Natural Resource and Environmental Economics is application of economic analysis to renewable and nonrenewable natural resource industries such as the fishery, forestry, and mining. Emphasis is given to the criteria for optimal resource use under various market structures and their implications for public policy. Issues of environmental resource management and pollution control will also be covered.
PR: ECON 2010 and ECON 2020

3085 Issues in Ecological Economics (same as Environmental Studies 3085) aims to explore the dynamic interaction between the economic system and the ecological system that sustains it by using trans-disciplinary theoretical approaches and methodologies. The main focus of this course will be on Ecological Economics concepts such as low and high entropy, biotic and abiotic goods and services, stock-flow resources, carrying capacity, throughput, co-evolution, sustainable scale, use value, and their applications in a problem-solving context.
CR: Environmental Studies 3085
PR: ECON 2010

3150 Money and Banking examines the operation of the money and banking system, with special emphasis on Canadian problems. Monetary theory will be treated in relation to some basic economic theory and foreign trade.
PR: ECON 2010 and ECON 2020

3160 Financial Economics provides an analysis of the major building blocks of the modern theory of financial economics and their implications for decision-making. To reflect that modern finance is a branch of economics, emphasis will be on how general economic principles and analytical techniques can be applied across all finance sub-fields. Topics include the basic pillars in finance—intertemporal optimization, asset valuation, risk management—and selected issues that will vary each year.
CR: Business 4500
PR: Mathematics 1000 or its equivalent. ECON 2010 and ECON 2020.

3550 Mathematical Economics I examines linear algebra and differential calculus with applications to economics.
PR: Mathematics 1000 or equivalent with a "B" standing, or Mathematics 2050 and ECON 2010 and ECON 2020

3551 Mathematical Economics II covers integral calculus, difference and differential equations, with applications to Economics.
PR: ECON 3550

4550 Econometrics I covers estimation of the general linear regression model with emphasis on fundamental theory and examples from published empirical research.
PR: ECON 2550, 3000 and 3010.
12.10.1 English Language and Literature

1000 Introduction to English I is an introduction to English literature and to the use of the English language with a particular emphasis on composition. CR: cannot receive credit for more than one of English 1000, 1050, 1080, the former 1100 or for more than one of 1001, 1051, 1101, 1102, 1103, and 1110; cannot receive credit for more than one of English 1020, 1030 or 1110; cannot receive credit for more than 6 credit hours at the first year level including unspecified transfer credits

1001 Introduction to English II is a continuation of the studies begun in English 1000. CR: cannot receive credit for more than one of English 1000, 1050, 1080, the former 1100 or for more than one of 1001, 1051, 1101, 1102, 1103, and 1110; cannot receive credit for more than one of English 1020, 1030 or 1110; cannot receive credit for more than 6 credit hours at the first year level including unspecified transfer credits

1110 Critical Reading and Writing II (Context, Substance, Style) is an examination of prose texts such as essays, articles and reviews. Students write for different purposes and audiences. Emphasis is placed on critical reading and writing: analysing texts, framing and using questions, constructing essays, organizing paragraphs, conducting research, quoting and documenting, reviewing and editing. CR: cannot receive credit for more than one of English 1000, 1050, 1080, the former 1100 or for more than one of 1001, 1051, 1101, 1102, 1103, and 1110; cannot receive credit for more than one of English 1020, 1030 or 1110; cannot receive credit for more than 6 credit hours at the first year level including unspecified transfer credits

2005 Literary Survey I (The beginnings to 1660) introduces students to the major writers by detailed study of selected texts. The course will include such authors as Chaucer, Mallory, Shakespeare, Spenser, Bacon, Webster, Donne, Milton, Dryden, Pope, Swift, Johnson, Fielding, Blake, Wordsworth, Austen, Byron, Keats and Shelley. Recommended for English specialization students that English 2005 be taken first in the English 2005-2006-2007 sequence. CR: English 2000, the former English 2110

2006 Literary Survey II (1660-1837) introduces students to the major writers by detailed study of selected texts. The course will include such authors as Dryden, Pope, Swift, Johnson, Fielding, Blake, Wordsworth, Austen, Byron, Keats and Shelley. Recommended for English specialization students that English 2006 be taken second in the 2005-2006-2007 sequence. CR: English 2000 and one of English 1001, 1110

2007 Literary Survey III (1837 to the present) introduces students to the major writers by detailed study of selected texts. The course will include such authors as Disraeli, Tennyson, Trollope, Browning, Arnold, Hardy, George Eliot, Dickens, Yeats, T.S. Eliot and Dylan Thomas. Recommended for English specialization students that English 2007 be taken third in the English 2005-2006-2007 sequence. CR: English 2001, the former English 2111

3025 Shakespeare Survey is a study of at least eight plays, two from each dramatic mode: comedy, history, tragedy, and romance. CR: credit may be obtained for only two of English 3200, English 3201, English 3205, and English 3206

3026 Shakespeare and the Classical Tradition is a study of the relationship between Shakespeare and his major classical sources, with a particular focus on the use of classical literature in the Renaissance. CR: credit may be obtained for only two of English 3200, English 3201, English 3205, and English 3206

3395 The Literary Uses of English from the Earliest Times to the Present is an exploration of the development of the English language, as evidenced by its literary uses. CR: English 2401

4015 Critical Approaches and Theory is a survey of critical approaches to English literature, particularly those adopted by twentieth century readers. The course will attempt to give an account of the theories on which these approaches are based and some attention will be paid to the application of different approaches to specific works of literature. CR: English 4101

4950 Individual Project in English is an individual project of a creative, or a critical, or a research character on a topic which is subject to the approval of the Program Chair. The topic will be prepared under the supervision of a designated faculty member or members. CR: English 4990

12.10.2 Dramatic Literature

2350 Introduction to Drama I is a survey of the major plays in the history of western drama from the Greeks to the end of the eighteenth century. CR: English 2002

2351 Introduction to Drama II is a survey of the major plays in the history of western drama from the 19th Century to the present. CR: English 2002

3021 English Drama to 1580 is a study of the development of English drama from the Middle Ages to 1580. The course may also consider the popular arts, such as folk plays and mumming. CR: successful completion of at least 6 credit hours in English courses at the second-year level

3171 Irish Drama is a study of representative Anglo-Irish drama by such authors as Wilde, Shaw, Yeats, Synge, Lady Gregory, O'Casey, Behan, Friel and Molloy. CR: the former English 3170, the former English 3180

3181 Drama of the Restoration and Eighteenth Century is a study of major dramatic texts from 1660 to the end of the eighteenth century. CR: successful completion of at least 6 credit hours in English courses at the second-year level

3275 Modern Drama (1830-1930) is a study of western drama and performance during the period 1830-1930, with a focus on theatrical and dramatic texts and movements, as well as artistic, social, political, technological and philosophical influences. CR: the former English 3300, the former English 4300

4302 Contemporary British Drama is a study of representative dramatic works of contemporary British drama. CR: successful completion of at least 6 credit hours in English courses at the third-year level

4305 Contemporary Drama is a study of modern and post-modern western drama and performance from 1930 to the present, with a focus on theatrical and dramatic texts and movements, as well as artistic, social, political, technological and philosophical influences. Recommended previous course: English 3275. CR: English 4301, the former English 3301

4307 Contemporary Canadian Drama is a study of contemporary drama and performance in Canada, focusing on texts representative of Canada's cultural and regional diversity. CR: English 3156

4308 20th Century American Drama is a study of American drama and performance from the turn of the century to the present, focusing on the theatre's historic role in the definition, reinforcement and scrutinizing of American mythology. CR: English 3289

4317 Elizabethan-Jacobean Drama is a survey of Shakespeare's dramatic rivals and the Elizabethan and Jacobean repertoires. CR: English 3022

4836-4844 Special Topics in Drama is supervised study in specialized areas of dramatic literature. Course topic, design, and requirements to be announced by the instructor. CR: English 4990

PR: successful completion of at least 6 credit hours in English courses at the third-year level
determined through consultation by the student with the instructor.  
PR: permission of the instructor and successful completion of at least 6 
credit hours in English courses at the third-year level

12.10.3 Canadian Literature

2146 Canadian Prose after 1949 is a study of the outstanding works of 
Canadian prose from 1949 to the present.  
CR: English 2150, English 2151, the former English 3146  
PR: English 1000 and one of English 1001, 1110

2155 Newfoundland Literature is a study of Newfoundland literature 
with emphasis on representative writers since 1949.  
CR: English 3155  
PR: English 1000 and one of English 1001, 1110

2156 Canadian Short Stories is a study of Canadian short stories which 
aims to give the student a heightened appreciation of individual short stories, 
and some sense of the range of Canadian accomplishment in the genre.  
PR: English 1000 and one of English 1001, 1110

3145 Canadian Fiction to 1949 is a study of outstanding works of Canadian 
fiction from the beginnings to 1949.  
PR: successful completion of at least 6 credit hours in English courses at 
the second-year level

3147 Canadian Poetry to 1949 is a study of representative Canadian 
poetry from the pre-confederation period to 1949.  
PR: successful completion of at least 6 credit hours in English courses at 
the second-year level

3148 Canadian Poetry After 1949 is a study of Canadian poetry from 1949 
to the present, with emphasis on the work of major poets and an 
examination of the various styles and theories of poetry developed during 
the period.  
CR: English 4850  
PR: successful completion of at least 6 credit hours in English courses at 
the second-year level

3149 Canadian Prose is a study of selected works of Canadian prose, 
covering both fiction and non-fiction.  
PR: successful completion of at least 6 credit hours in English courses at 
the second-year level

4307 Contemporary Canadian Drama course description can be found in 
the dramatic literature list above.  
CR: English 3156  
PR: successful completion of at least 6 credit hours in English courses at 
the third-year level

4825-4835 Special Topics in Canadian Literature is a variety of topics to 
be offered as resources permit.  
PR: successful completion of at least 6 credit hours in English courses at 
the third-year level

12.10.4 Modern Literature

2215 American Literature to 1900 is a study of the historical origins and 
development of nineteenth century American literature, concentrating on 
a selection of works within their political, social and artistic contexts.  
CR: English 2214  
PR: English 1000 and one of English 1001, 1110

2242 Science Fiction is a survey of Science Fiction from its earliest days to 
the present. Subjects that will be considered include the evolution of the 
genre, the relations among humans, technology and multinational 
capitalism, and the significance of memory and space.  
CR: English 2810  
PR: English 1000 and one of English 1001, 1110

2243 Introduction to Humour in Literature begins with a survey of humour 
theories from antiquity to the present, and proceeds to a study of various 
forms and strategies of humour through a selection of works in English. 
Students will study texts exploring the roles that humour plays in relation to 
topics such as transgression, iconoclasm, class, sexuality, gender, ethnicity, 
culture, politics and religion.  
CR: the former English 2121  
PR: English 1000 and one of English 1001, 1110

2244 The Graphic Novel - Historical, Cultural and Literary Contexts 
(taught as Social/Cultural Studies 2244) examines the historical, cultural and 
literary impact of the Graphic Novel; investigates its continuing development; 
and introduces students to significant works within the genre.  
CR: English 3842, Social/Cultural Studies 2244  
PR: English 1000 and one of English 1001, 1110; one of Folklore 1000, 
Anthropology 1031, or Sociology 1000

2705 Modern World Literature in Translation is a study of modern world 
literature in English translation, with focus on writers of the twentieth century 
who have attained international stature.  
PR: English 1000 and one of English 1001, 1110

2805 Women’s Writing to 1900 is a study of writing by women in the British 
Isles and North America from the Middle Ages to 1900, including such items as 
letters and journals as well as fiction, poetry, and drama.  
CR: English 3810, English 3830. This credit restriction replaces the note in 
earlier calendars and is retroactive to September 1, 1993.  
PR: English 1000 and one of English 1001, 1110

2870 Children’s Literature is an introduction to literature written for children 
and young people. Beginning with an examination of the history of children’s 
literature, the course will focus on twentieth century and contemporary works, 
touching on a broad range of genres, audiences, and reading levels.  
PR: English 1000 and one of English 1001, 1110

2905 Introduction to Creative Writing will introduce students to three main 
areas of creative writing, poetry, prose fiction, and creative non-fiction (travel 
writing, autobiography, journalism). Much of the emphasis will be on writing 
as a medium of communication. For this reason, some of the instruction 
will be the workshop system in which students act as each other’s readers and 
audience.  
PR: English 1000 and one of English 1001, 1110

3215 20th Century American Literature is study of American poetry and 
fiction from 1900 to 1960.  
CR: English 4260, English 4261, English 4270  
PR: successful completion of at least 6 credit hours in English courses at 
the second-year level

3216 20th Century British and Irish Literature is a study of British and 
Anglo-Irish poetry and fiction from 1900 to 1960.  
PR: successful completion of at least 6 credit hours in English courses at 
the second-year level

3810 20th Century Non-Fiction Writing by Women is a study of twentieth 
century topical writing by women, including writing about social, political, 
and artistic issues.  
PR: English 2805 or permission of the instructor and successful completion 
of at least 6 credit hours in English courses at the second-year level

3905 Creative Writing is a workshop course for aspiring writers of poetry 
and/or fiction. Limited enrolment. Applicants will be required to submit a 
sampling of their previous and current work.  
CR: English 3900, English 3901  
PR: permission of the instructor and successful completion of at least 6 
credit hours in English courses at the second-year level

4245 Contemporary Fiction in English is an in-depth study of a selection of 
recent short fiction and novels in English. The focus will be on recent 
developments in American, British, Irish and Commonwealth fiction 
(including Canadian).  
PR: successful completion of at least 6 credit hours in English courses at 
the third-year level

4246 Contemporary Poetry in English is an in-depth study of 
contemporary poetry in English. The focus will be on major poets and 
developments in the U.S.A., Britain, Ireland and the Commonwealth 
(excluding Canada) since 1945.  
PR: successful completion of at least 6 credit hours in English courses at 
the third-year level

4861-4870 Special Topics in Modern Literature is a variety of topics to 
be offered as resources permit.  
PR: successful completion of at least 6 credit hours in English courses at 
the third-year level

4905 Advanced Creative Writing is a workshop course for creative writers 
who have demonstrated considerable talent and skill in poetry and/or prose 
fiction. Limited enrolment.  
PR: permission of the instructor and successful completion of at least 6 
credit hours in English courses at the third-year level

12.10.5 English Courses for Non-Major Students

2100 Comprehension Writing and Prose Style (I) will chiefly emphasize 
the development of (a) the capacity to understand and appreciate the 
varieties of prose through close analysis of a wide range of examples, and 
(b) the ability to write expository and other kinds of prose.  
CR: English 1110  
PR: English 1000 and one of English 1001, 1110

3110 Greek Literature in Translation (same as Classics 3110) is 
representative readings in English of the principal literary forms of Classical
Grenfell Campus 2015-2016

12.11 English as a Second Language

011F Core Intensive English Program covers reading through a variety of types of texts, vocabulary development, writing development, and academic listening and note-taking skills.
AR: attendance is required
CH: 0

013F Core Intensive English Program covers reading, writing, speaking, listening, grammar and vocabulary development at an intermediate level through a variety of texts.
AR: attendance is required
CH: 0

014F Core Intensive English Bridge Program covers reading, writing, speaking, listening, grammar and vocabulary development at an intermediate level through a variety of academic texts.
AR: attendance is required
CH: 0

015F Core Intensive English Bridge Program II covers reading, writing, speaking, listening, grammar and vocabulary development at an advanced level through a variety of academic texts.
AR: attendance is required
CH: 0

12.12 Environmental Science

For existing Memorial University of Newfoundland courses, the numbers remain the same. For new courses in Environmental Science, the following four-digit scheme is used:

1st digit = Year
2nd digit = Parent Discipline:
0 = Multidisciplinary
1 = Biology
2 = Chemistry
3 = Earth Sciences
4 = Physics
9 = Project
3rd digit = Subdiscipline:
(Biology): 1 = Botany
2 = Zoology
5 = Research
(Chemistry): 2 = Inorganic
8 = Science Writing
(Multidisciplinary): 3 = Ecology
9 = Environmental
4 = Organics
4th digit = Numerical Sequence.

Courses specifically designed for the environmental science program(s) are given the designation "Envs." Thus, for example, in the Winter semester of the 2nd year, Environmental Chemistry is offered, with a course number = Envs 2261.

Environmental Science courses are designated by ENVS.

12.12.1 Environmental Biology

3110 Taxonomy of Flowering Plants is a study of the biodiversity of flowering vascular plants (Magnoliophyta) through the practical identification of Newfoundland families, genera, and species. Related taxonomic and biogeographical principles will be stressed.
CR: Biology 3041
LH: 3 laboratory periods of integrated practice and theory
OR: Students must submit a collection of flowering plants identified to the species level. Detailed instructions should be obtained from the instructor in the spring/summer prior to the commencement of this course.
PR: Biology 2010 or equivalent

3130 Freshwater Ecology is the study of freshwater ecosystems (lakes, rivers, streams, peatlands). Included are abiotic components, community structures, energy flow, biogeochemical cycles, and the evolution of natural and altered aquatic ecosystems. Emphasis will be placed on field and laboratory studies of the ecology of freshwater organisms and systems in western Newfoundland.
LH: 3
PR: Biology 2122, Biology 2600; one of Chemistry 1001 or Chemistry 1011

3131 Impacted Terrestrial Ecosystems is an examination of ecological and evolutionary responses by organisms in terrestrial ecosystems to human-derived and natural perturbations. Advanced conceptual, empirical and experimental approaches will be used, with an emphasis on sampling local habitats.
CR: Biology 3610
LH: 3
PR: Biology 2600; and two of Biology 2122, Biology 2210 or the permission of the instructor and Program Chair

4132 Analytical Ecology states that the assessment of environmental impact on higher-level ecological systems requires a critical analysis of scientific reports, along with the ability to evaluate ecological terminology and concepts and associated statistical methodologies. Students in this course will critically read and analyse recent scientific literature in Environmental Biology, with selected topics at the community, ecosystem and landscape level, and examine related univariate and multivariate statistical procedures.
LH: three-hour laboratory/discussion group
PR: Biology 2600, Statistics 2550 (or equivalent), with 6 credit hours from clause c. of the Environmental Science Core. It is recommended that students complete at least 80 credit hours before registering for this course.

4133 Conservation Biology will bring together the principles of ecology and conservation biology at an advanced level. Current issues and techniques will be discussed with an aim towards understanding how populations of native flora and fauna can be managed for long-term conservation in the face of habitat degradation and loss.
CR: Biology 4650 and Geography 4650
LH: three-hour laboratory/discussion group
PR: two of ENVS 3116, 3130, and 3131, or permission of instructor

4140 Environmental Science Field Course is a course providing practical experience in the observation, collection, identification and quantification of organisms and the various environmental parameters which affect them in pristine and disturbed habitats. Combinations of freshwater, marine and terrestrial habitats will be studied using techniques from various scientific disciplines. The actual combination of habitats, organisms, and techniques will vary from year to year.
PR: Biology 2600, Statistics 2550, with a minimum of 80 credit hours from Environmental Science Program (or equivalent) and permission of the instructor and Program Chair.

12.12.2 Environmental Chemistry

In accordance with Senate's Policy Regarding Inactive Courses, the course descriptions for courses which have not been offered in the previous three academic years and which are not scheduled to be offered in the current academic year have been removed from the following listing. For information about any of these inactive courses, please contact the Head of the Division.

PR: Chemistry 1001 or the former 1031 or Chemistry 1051 or Chemistry 2440 or the permission of the instructor and Program Chair

3210 Environmental Analytical Chemistry I is a treatment of data, error analysis, wet methods of analysis of laboratory and field sampling. Volumetric methods for acidity, alkalinity and hardness; chemical and biological oxygen demand (COD and BOD). Gravimetric methods for sulphates and phosphates. The theoretical and application of specific ion electrodes analysis of metal ions, dissolved gases and halide ions. Turbidimetric and nephelometric measures of water quality. Spectrophotometric analysis of trace metal ions.
LH: not more than seven hours per week
NR: not more than seven hours per week
PR: Chemistry 2300 (or 2301) and Chemistry 2210

3211 Environmental Analytical Chemistry II is theory and application of spectrophotometric methods of analysis (including error analysis) of environmentally important compounds. Spectrophotometry, FTIR, light scattering, chromatographic (GC, GC/MS, HPLC), fluorescence.
phosphorescence, atomic absorption and electroanalytical methods will be studied. Synthetic laboratory samples and field samples will be examined by these techniques.

LC: not more than seven hours per week
LH: not more than seven hours per week
PR: ENVS 3210 (or equivalent)

3260 Industrial Chemistry is chemical principles used in the manufacture of inorganic and organic chemical products; electrochemical, petrochemical, polymer, pulp and paper, agricultural, industrial, detergents and paint industries. Processes, specific pollutants of current interest: inorganic (e.g. mercury, nitrogen oxides and sulfur oxides gases, lead etc.) and organic (e.g. PCBs, chlorinated hydrocarbons, freons, pesticides/ herbicides). Industrial sources and analytical methods of detection will be studied.

PR: Chemistry 2210, Chemistry 2401, and ENVS 2261 (ENVS 2261 may be taken concurrently) or permission of the instructor and Program Chair

PR: Chemistry 2300 (or 2301), Chemistry 2210 or the permission of the instructor and Program Chair

4230 Aquatic Chemistry I is thermodynamics and kinetics of model systems. Acids and bases (including buffer intensity and neutralizing capacity), dissolved gases, precipitation and dissolution. Metal ions in aqueous solution. Redox control in natural waters. Pourbaix diagrams. Regulation of chemical composition of natural waters, pollution and water quality.

LC: not more than seven hours per week
LH: not more than seven hours per week
PR: ENVS 3211 and one of Chemistry 2400 or Chemistry 2440 or permission of the instructor and Program Chair

4239 Aquatic Chemistry II - inactive course.

4240 Organic Chemistry of Biomolecules is structure and properties of carbohydrates, proteins, lipids, steroids, DNA and RNA. The chemistry of the cell in relation to its toxicology; effects of bioactive agents on cells, organelles, tissues and whole organisms. Natural products including those from the marine and marine environment. The role of metal ions in biomolecules. Examples of biosynthesis. Chemistry and mechanisms of mutagenesis and carcinogenesis.

PR: Chemistry 2401 or Chemistry 2440 or permission of the instructor and Program Chair

4249 Environmental Organic Chemistry focuses on anthropogenic sources of organic chemicals and pollutants in the environment. Concepts of organic chemistry (synthesis, structure, physical properties, chirrality, industrial organic processes), biological chemistry (enzymes, oxidative pathways) and physical chemistry (equilibria, partitioning) extended and applied to mass transport through soil, water and air. Kinetics and mechanisms of chemical, photochemical and biological degradation and conversion of organics. Structure-reactivity relationships for organic chemicals and degradation intermediates in the environment.

PR: ENVS 4240, ENVS 3261, ENVS 4230 or the permission of the instructor and Program Chair

12.12.3 Other Environmental Science

1000 Introduction to Environmental Science is an introduction to the study of the environment. Environmental principles, issues and problems will be described and placed in a historical and societal context.

2360 Geological Hazards and Natural Disasters will introduce students to the physical and social aspects of the natural environment and the impacts that natural geological processes and phenomena may have on humanity. The impact of geological hazards and natural disasters on human society and behaviour will be examined through case studies.

PR: 18 credit hours or more

2369 Introduction to Soils provides a broad background knowledge about soils. Topics covered include: the origin of soils; physical, biochemical, and engineering aspects of soils; influence on humans and their food production; soil pollution and degradation; and management and conservation of soils.

PR: Earth Sciences 1000 or the former Geography 1000

2370 Global Environmental Change is a survey of the Earth as a dynamic system and the interacting cycles that define the Earth's environment. Material cycles and energy concepts. Evolution of the atmosphere in response to lithospheric, biospheric and hydrospheric changes. Major geologic environmental changes from Earth's formation to present. Emphasis on self-regulating ability of the Earth system.

PR: 30 credit hours or more

PR: 30 credit hours or more

2430 Energy and the Environment considers energy, energy conversion, heat transfer, the laws of thermodynamics, nuclear processes and radiation. Practical problems such as the energy shortage, human influences on climate, energy resource extraction, nuclear power etc. will be discussed.

PR: Mathematics 1081 or Mathematics 1000; Physics 1021 or co-requisite Physics 1051

CO: Physics 1051 or prerequisite Physics 1021
PR: Physics 1021 or co-requisite Physics 1051

3072 Comparative Marine Environments will investigate the physical, chemical, geological and biological characteristics of major marine environments from the coastal zone to the abyss and from the equator to the poles. The objective of the course will be an integrated study of the parameters that define the various environments. Emphasis will be placed on the interaction of organisms and environment. The role of the environment on the form, function and behaviour of organisms and the influence of the organism in modification of the physical environment will be stressed.

PR: ENVS 2371

PR: Mathematics 1001, Physics 1020 and Physics 1021 or Physics 1050 and Physics 1051

4000 Environmental Science Seminar reviews current topics in environmental science and discusses in a seminar format. Seminars will be presented on current research and environmental issues by faculty, students and guest speakers from universities, government and industry.

PR: Environmental Science students who have completed 80 credit hours or more, to include Biology 2600, Statistics 2550 and one of Chemistry 2440, Chemistry 2401, Chemistry 2210, or Chemistry 2300 (or 2301).

4069 Fundamentals of Soil Systems is the physics, chemistry and Biology of soil, including inorganic soil components, chemistry of organic soil matter, soil equilibria, sorption phenomena on soils, ion exchange processes, kinetics of soil processes, redox chemistry of soils, soil acidity and basic properties, soil organic matter and biologics, nutrient cycling and fertility, soil conservation and sustainable agriculture.

LC: not more than six hours per week
LH: not more than six hours per week
PR: Mathematics 1001, Physics 1020 and Physics 1021 or Chemistry 2210 or Environmental Science 2301, 2300, 2301, 2401, or Chemistry 2440, and 6 credit hours selected from ENVS 2261, 2360, 2370, 2371, 2430, 2430, 3072, 3470, or Environmental Studies 2000. It is recommended that students complete at least 80 credit hours before registering for this course.

4131 Environmental Restoration and Waste Management focuses on procedures aimed at restoring and rehabilitating ecosystems, with an examination of the interdisciplinary scientific basis underlying these processes. The efficacy of management options, the influence of microbial degradation and chemical treatments, involved in restoration and waste management will be evaluated. Applications and practical case studies of both aquatic and terrestrial ecosystems will be covered.

PR: Biology 2600, one of Chemistry 2210, Chemistry 2300, Chemistry 2301, Chemistry 2401, or Chemistry 2440, and 6 credit hours selected from ENVS 2261, 2360, 2370, 2371, 2430, 2430, 3072, 3470, or Environmental Studies 2000. It is recommended that students complete at least 80 credit hours before registering for this course.

CR: Earth Sciences 3610, the former 4160

AR = Attendance requirement; CR = Credit hours are 3 unless otherwise noted; CO = Co-requisite(s); CR = Credit can be retained for only one course from the set(s) consisting of the course being described and the course(s) listed; LC = Lecture hours per week are 3 unless otherwise noted; LH = Laboratory hours per week; OR = Other requirements of the course such as tutorials, practical sessions, or seminars; PR = Prerequisite(s); UL = Usage limitation(s)
3085 Issues in Ecological Economics (same as Economics 3085) explores the dynamic interaction between the economic system and the ecological system that sustains it by using trans-disciplinary theoretical approaches and methodologies. The main focus of this course will be on Ecological Economics concepts such as low and high entropy, biotic and abiotic goods and services, stock-flow resources, carrying capacity, throughout, co-evolution, sustainable scale, use value, and their applications in a problem-solving context.

CR: Economics 3085
PR: Economics 2010

3210 Expedition will consist of one or more extensive expeditions into wilderness areas. A variety of applied topics related to environmental issues, leadership, and outdoor survival will be covered using an experiential approach. Expedition: Two weeks (Summer term).

AR: attendance is required
PR: EVST 2210 and EVST 2220
UL: cannot be used as an elective towards the Environmental Studies Major for Graduates of the Two-Year Adventure Tourism Diploma Program

4000 Environmental Impact Assessment will include an analysis of the different methods of assessing the impacts that investment projects or decision-making processes have on the environment. Environmental Impact Assessments (EIAs) vary with individual projects and are a vital tool to use in integrated planning of development proposals, policies and programs. Emphasis will be given to assessing the socio-economic impact of development projects.

4010 Seminar in Environmental Studies is a senior seminar in which selected environmental issues will be examined from several disciplinary perspectives.

OR: seminars three hours per week
PR: permission of the Environmental Studies Program Chair

4020-4039 Special Topics in Environmental Studies has a range of special topics in Environmental Studies. This course is normally taken by students beyond the second year.

4950 Honours Research Project in Environmental Science II is a continuation of ENV 4951 specifically for Honours students. Under the supervision of faculty member(s), students will carry out an original research project in environmental science. Students will present both a thesis and seminar on their research.

PR: ENV 4951 and admission to the honours option

12.13 Environmental Studies

Environmental Studies courses are designated by EVST. 1000 An Introduction to Environmental Studies is an interdisciplinary introduction to the study of the environment that aims to develop environmental literacy. This course brings together perspectives from the natural sciences and the social sciences to examine such issues as global warming, air pollution, sustainability, new energy technologies, and environmental law.

2210 Outdoor Environmental Pursuits I is the theoretical rationale and practical skills needed to demonstrate basic proficiency in several of the following activities: minimal impact camping, wilderness cooking, hiking, kayaking, canoeing, navigating with map and compass, outdoor safety, search and rescue, and group management. The major focus of this course will be the practical application of learned skills.

CR: Geography 2195
LH: 3
PR: Geography 1050 or Earth Sciences 1002

2220 Outdoor Environmental Pursuits II is the theoretical rationale and practical skills needed to demonstrate basic proficiency in several of the following activities: cross-country skiing, telemark skiing, downhill skiing, snowshoeing, winter camping, and winter survival techniques. The major focus of this course will be the practical application of learned skills.

CR: Geography 2195
LH: 3
PR: Geography 1050 or Earth Sciences 1002

2300 Expedition consists of one or more extensive expeditions into wilderness areas. A variety of applied topics related to environmental issues, leadership, and outdoor survival will be covered using an experiential approach. Expedition: Two weeks (Summer term).

AR: attendance is required
PR: EVST 2210 and EVST 2220
UL: cannot be used as an elective towards the Environmental Studies Major for Graduates of the Two-Year Adventure Tourism Diploma Program

12.14 Folklore

In accordance with Senate’s Policy Regarding Inactive Courses, those descriptions for courses which have not been offered in the previous three academic years and which are not scheduled to be offered in the current academic year have been removed from the following listing. For information about any of these inactive courses, please contact the Head of the Division.

Folklore 1000 is the prerequisite for all other courses in Folklore, except Folklore 1050, Folklore 1060 and those courses cross-listed with other subject areas.

Folklore courses are designated by FOLK.

1000 Introduction to Folklore is the role that tradition plays in communication, art and society will be discussed through an examination of folklore materials from Newfoundland and the English-speaking world. Readings and "listennings" will emphasize the use of folklore in context, e.g., the proverb in speech and the folksong in childrearing. Students will be urged to analyze the traditions in their own lives through special assignments.

CR: the former FOLK 2000

1050 Folklore Studies - inactive course.

2100 Folklore Research Methods - An Introduction is designed to provide the basic introduction to the research resources, tools and methods regularly employed in the area of Folklore. On the one hand, the course will examine what types of Library and Archive resources can be useful to the folklorist, and, on the other hand, it will explore how folklorists in fieldwork situations should handle people, and how they can capture for posterity a record of the interviews that they have conducted and the events that they have observed. It is strongly recommended that majors and minoars take this course before taking 3000 and 4000 level courses.

2230 Newfoundland Society and Culture (same as Sociology/ Anthropology 2230) is the Sociology and Anthropology of the Island of Newfoundland. The focus is on social and cultural aspects of contemporary Island Newfoundland.

CR: Sociology/Anthropology 2230

2300 Newfoundland Folklore (same as Anthropology 2300) is survey of the various types of Folklore: tale, song, rhyme, riddle, proverb, belief,
custom, childlore and others, with stress on their function in the Newfoundland community culture. Individual collection and analysis of materials from the students' home communities, supplemented by data from the this University's Folklore and Language Archive.

CR: Anthropology 2300 and the former FOLK 3420
PR: FOLK 1000 or Anthropology 1031

2401 Folklife Studies is an examination of the traditional cultures of Europe and North America with special reference to Newfoundland. A selection of the following areas will be covered: settlement patterns, architecture, work and leisure patterns in the folk community, calendar customs, rites of passage, folk religion, folk medicine, language and folk culture, folk costume, foodways and folk art.

CR: the former FOLK 3500

2500 Folk Literature (same as Anthropology 2500) is an examination of the major genres of folk literature: folk narrative, folk poetry and song, folk drama, and the traditional generic forms within folk speech. An introduction to the textual, comparative and contextual methods of analysis. The literature discussed will be international in scope.

CR: Anthropology 2500 and any of the former FOLK 3400, English 3400, Sociology/Anthropology 3400
PR: FOLK 1000 or Anthropology 1031

2600 Regional Folklore - inactive course.

3130 Greek and Roman Mythology (same as Classics 3130) is a comparative study of specific myths and folktales of Greece and Rome as embodied in the literary and artistic remains of the ancient world with reference to their origins and their influence on later art and literature.

CR: Classics 3130

3200 Folksong is an introduction to the full range of traditional verse, song and music. Stress primarily on the songs of Canada, the United States and the British Isles, with attention to Newfoundland parallels. Examination of the structure, techniques and instrumental styles as well as verse forms. Some reference to non-Western musical traditions. A knowledge of music is not a prerequisite.

CR: the former FOLK 2430

3300 Folk Drama is a survey of the main forms of traditional drama found in Great Britain and North America with reference to related European and non-Western traditions. The origins, history and regional variations of these forms will be considered together with questions of social function, performance and aesthetics. The history of research in the area of folk drama will be examined along with related methodological and theoretical issues.

3450 Language and Play is an examination of such forms as the rhytime, riddle, proverb and proverbsal saying, game, etc. Emphasis on problems of function and classification. Material will be chiefly from the British and North American traditions. Collecting will be encouraged.

3601-3620 Special Topic in Folklore will have topics to be studied announced by the Division.

3850 Material Culture (same as Archaeology 3850) is an introduction to the study of material culture and the question of why objects are important to us. Using the fields of art history, and cultural anthropology, we will look at objects as cultural products, question the influence of objects on behaviours, and address the role of objects in historical and ethnographic research.

CR: Archaeology 3850

3920 Folklore, Education and Community is intended to familiarize students with the function of Folklore in the educational process. Emphasis will be on cultural transmission, cultural learning and child training practices (including mechanisms of social control.) The relationship of formal to informal education will be examined with particular reference to Newfoundland.

CR: the former FOLK 3030 or the former FOLK 4475

3930 Folklore and Popular Culture is an introduction to the study of popular culture, the folk-popular continuum, and the role of folklore in media such as film, television, music, and art.

CR: the former FOLK 2400

4300 Folklore of Canada is an examination of a variety of Canadian folklore from historical, geographical and cultural perspectives. Emphasis will be placed upon the application of theories of Canadian culture to folklore studies. Questions of the role of folklore and folklife with respect to identity, ethnicity, multiculturalism, national literature, regionalism and similar issues will be covered.

CR: the former FOLK 1020

4440 Music and Culture (same as Anthropology 4440, Music 4040, the former Music 4440) is traditional music as an aspect of human behaviour in Western and non-European cultures. Examination of the functions and uses of music; folk-popular-art music distinctions; and the relation of style to content. Outside reading, class exercises and individual reports will be required.

CR: Anthropology 4440, Music 4040, the former Music 4440

4480 Oral History (same as History 4480) examines the narratives of everyday people who tell their life experiences. This course focuses on the collection and analysis of oral narratives and how they can be used to illuminate the past. It considers the power of these narratives to shape constructions of the present and future for both narrators and audiences.

CR: History 4480

12.15 French

Three consecutive credit courses in French language are available at the first-year university level, providing a complete overview of basic oral and written French. New students may choose to register initially in French 1500 or 1501; a diagnostic test is offered to assist students with initial course selection or to confirm that initial course selection is appropriate. Students with a limited background in French should register for French 1500 and continue with 1501. Students with a strong background in high-school French should bypass 1500 and begin their university study with 1501, especially if they intend to proceed beyond the first-year level. Very well prepared students may apply to the Division for permission to enter 1502 directly. Bypassing one or more of these courses may enable students to include a larger number of advanced electives in their degree program. French 1500, 1501 and 1502 require three hours of instruction per week and two additional hours of language laboratory work or conversation class, or both.

French courses are designated by FREN.

1500 Introduction à la langue française, niveau universitaire I cours for débutants et pour ceux dont les connaissances du français sont très faibles. La permission de s'inscrire à ce cours ne sera pas accordée a ceux qui ont complété le Français 3202 (Immersion française au High School). Voir ci-dessus la note.

CR: the former FREN 1010 or 1011

1501 Introduction à la langue française, niveau universitaire II Voir ci-dessus la note.

CR: et Français 1050 (désormais supprimés)
PR: High School French 3200 ou permission du chef du département. Les étudiants qui ont complété un programme d'immersion devraient consulter le chef du département avant de s'inscrire a ce cours.

1502 Introduction à la langue française, niveau universitaire III Voir ci-dessus la note.

CR: et Français 1051 (désormais supprimé)
PR: 1501, ou la permission du chef de la division

1502 Introductory University French II See Note above.

CR: the former FREN 1051
PR: High School French 3200 or permission of the Head of the Department. Ex-immersion students should consult the Head of the Department before registering for this course.

1502 Introduction à la langue française, niveau universitaire III Voir ci-dessus la note.

CR: the former FREN 1051
PR: 1501, or by permission of the head of the division

2100 Français intermédiaire I rédaction, grammaire et pratique orale.

PR: Français 1502

2100 Intermediate French I is composition, grammar and practice in oral skills.

PR: FREN 1502

2101 Français intermédiaire II continuation du travail de rédaction, de grammaire et de communication orale.

PR: Français 2100

2101 Intermediate French II is further work in composition, grammar and oral skills.

PR: FREN 2100

2300 Phonétique introduction pratique à la phonétique du français. Emploi des symboles de l'alphabet phonétique, transcription phonétique et phonétique corrective.

PR: Français 1502 ou équivalent

2300 Phonetics is a practical introduction to French phonetics, including the International Phonetic Alphabet and phonetic transcription as well as

AR = Attendance requirement; CH = Credit hours are 3 unless otherwise noted; CO = Co-requisite(s); CR = Credit can be retained for only one course from the set(s) consisting of the course being described and the course(s) listed; LC = Lecture hours per week are 3 unless otherwise noted; LH = Laboratory hours per week; OR = Other requirements of the course such as tutorials, practical sessions, or seminars; PR = Prerequisite(s); UL = Usage limitation(s).
corrective phonetics.
PR: FREN 1502 or equivalent

2601 Apprentissage de la lecture les étudiants exploreront des stratégies de lecture qui faciliteront la compréhension de textes divers. Ce cours sera normalement enseigné en français.
PR: Français 1502 ou Français 2159, ou équivalent

2601 Reading Skills will explore reading strategies in a variety of texts in French. This course will normally be taught in French.
CR: Students who have successfully completed FREN 2550 may take either FREN 2601 or FREN 2602, but not both. Students who have successfully completed FREN 2551 may take either FREN 2601 or FREN 2602, but not both. Students who have completed both FREN 2550 and FREN 2551 may not take either FREN 2601 or FREN 2602.
PR: FREN 1502, or FREN 2159 or equivalent

2602 Lecture de textes intégraux les étudiants exploreront des stratégies de lecture qui faciliteront la compréhension de textes intégraux. Ce cours sera normalement enseigné en français.
PR: Français 1502, ou Français 2159 ou équivalent

2602 Reading Complete Texts will explore reading strategies in a variety of complete texts in French. This course will normally be taught in French.
CR: Students who have successfully completed FREN 2550 may take either FREN 2601 or FREN 2602, but not both. Students who have successfully completed FREN 2551 may take either FREN 2601 or FREN 2602, but not both. Students who have completed both FREN 2550 and FREN 2551 may not take either FREN 2601 or FREN 2602.
PR: FREN 1502, or FREN 2159 or equivalent

12.17 Geography

12.17 Geography

Geography courses are designated by GEOG.

1050 Geographies of Global Change provides perspectives on the major geographical challenges and changes facing the contemporary globe, including: climate and environmental change, sustainability, human development, economic globalization; cultural change, and population and migration. Using the integrative skills of geographical analysis, the course prepares students for advanced study in geography and citizenship in the modern world.
CR: the former GEOG 1000, the former GEOG 1001, the former GEOG 1010, and the former GEOG 1011

2001 Cultural Geography is an introduction to the study of culture in geography, emphasizing both the history of the field from classic studies of landscapes to contemporary scholarship and themes of recent importance. These include the relationship between nature and culture; imperialism and colonialism; place, identity, and power, and global cultures of commodities, media, and tourism.
PR: GEOG 1050, or the former GEOG 1001, or the former GEOG 1011

2102 Physical Geography: The Global Perspective is a study of form, process, and change in natural systems at and near the surface of Earth, viewed as human environment. Emphasis is on global and regional scales in the systematics study of climate, water, landforms and vegetation.
PR: GEOG 1050, or the former GEOG 1000, or the former GEOG 1011

2195 Introduction to Geographical Information Sciences is an introduction to the fields of cartography, remote sensing, and geographic information systems (GIS): Geographic information collection, representation and analysis methods are the topics for the course. An emphasis is given to the applications of maps and satellite images.
CR: Environmental Studies 2000

2302 Issues in Economic Geography are basic issues and ideas in economic geography. The development of a regional economy will be related to underlying economic, cultural and physical factors.
PR: GEOG 1050, or the former GEOG 1001, or the former GEOG 1011

2425 Natural Resources is an introduction to the concepts of natural resources, environment and conservation: the nature and distribution of natural resources: methods of use, allocation and development and natural resources and the role of various physical, social, economic, political and technological factors influencing decision-making about resources.
CR: the former 3325
PR: GEOG 1050, or the former GEOG 1001, or the former GEOG 1011

3222 Research Design and Quantitative Methods in Geography is an introduction to research design, and to the use of quantitative techniques. This course provides students with a basic understanding of data collection, entry, and analysis and presentation skills most commonly used by geographers. Practical, computer-based exercises are an essential part of the course. It is strongly recommended that this course be completed before registration in a 4000-level geography course.
CR: the former GEOG 2220

3350 Community and Regional Planning and Development introduces students to regional planning and development theories, techniques and approaches. Understanding of networks of development actors at community and regional scales, methods of delineating regions, links
2330 Medieval Europe Since the Eleventh Century (same as Medieval Studies 2002) is a survey of the economic, social, political and cultural developments of Europe in the high and late Middle Ages.

2500 The Twentieth Century I is a study of the world-wide impact of the main events and developments in the age of global interdependence.

2510 Twentieth Century II is an historical analysis of the main issues in the contemporary world since 1945.

2700 Art History Survey I (same as Visual Arts 2700) is the history of art from pre-historic times to the Renaissance.

2701 Art History Survey II (same as Visual Arts 2701) is the history of art from the Renaissance to the 20th century.

3030 Environmental History examines the history of human relationships to the natural environment. The focus of the course is the history of environmental changes caused by humans, and the influence of the natural environment on human cultures and societies. Case studies will focus on issues with broad relevance to contemporary environmental issues such as energy use, the environmental impact of military conflict, species introductions, natural disasters, urban sustainability, ecological restoration, and the origins of environmentalism.

3050 History of Warfare to 1789 is a survey of major developments in the history of warfare from the earliest times to 1789 with particular emphasis on changes in the nature and conduct of warfare, the evolution of military thinking, the organization of military and naval forces, the impact of technological change, the emergence of professionalism, and the relationship between societies and armed forces.

3060 History of Modern Warfare since 1789 is an examination of those factors which have affected the nature and conduct of warfare in the period since 1789, with particular emphasis on the evolution of military thinking, the impact of technology on organization and planning, the role of air power, the civil-military relationship, professionalism in the armed forces, and the changing nature of warfare, the emergence of total war, global war, guerrilla warfare, and limited warfare.

3090 Alexander and the Macedonians (same as Classics 3090) investigates the impact of the conquests of Alexander the Great and his Macedonian Successors on political, social, cultural, intellectual, and religious development of the Mediterranean and Near East between Alexander’s accession in 336 and the battle of Ipsus in 301, when his vast empire was carved into Hellenistic kingdoms.

3110 History of Newfoundland to 1815 is the growth of settlement and the manner in which a ‘migratory’ fishery carried on from England and Ireland changed into a ‘sedentary’ fishery carried on by residents of Newfoundland.

3120 Modern Newfoundland Since 1815 is the establishment and development of political institutions, changes in economic structure and the growth of populations.

3135 France in the Americas: 1500-1815 investigates the French presence mainly in New France, but also Newfoundland, Florida, Louisiana, the Caribbean, Acadia, Ile Royale, and Brazil, from the earliest voyages of exploration to the Anglo-French struggle for North America. This topic will be studied within the greater framework of the transplantation of a European society onto a different continent, delving also into various subject themes such as French-aboriginal relations, politics, and government, women and gender, and society in France and New France.

3250 Migration History of North America is a survey of migration to and within North America from the seventeenth to the twentieth century.

3320 Early Modern France, 1500-1789 is French History from 1500 to 1789, with a focus on such themes as the Renaissance, political and social change, gender history and the Enlightenment.

3330 France: 1750-1852 is the study of France from the decline of the Old Regime to the end of the Second Republic.

4340 History of the British Empire and Commonwealth since 1815 is the transition from British Empire to Commonwealth of Nations.

4345 Witchcraft and the Witch-Hunts in Early Modern Europe is a history of witchcraft, demonology, and witch-hunts from 1400 to 1750, focusing on such themes as gender, the body and medical knowledge, religious discourse, and popular culture.

4350 British History: 1485-1714 is the emergence of Britain under the
Tudors and early Stuart monarchs.

3460 British History Since 1714 is British History from the accession of the Hanoverians to the welfare state.

3490 History of Ireland Since the Great Famine is a survey of Irish history from the mid-nineteenth century to the present.

CR: the former HIST 3470

3520 Aboriginal History to 1763 (same as Anthropology 3520 and Archaeology 3520) examines Aboriginal history in North America from before European contact to the Royal Proclamation in 1763. Particular attention will be paid to historical encounters framed by first contacts, cultural exchange, trade, disease, religious encounters, conflict and diplomacy, and territorial encroachment.

CR: Anthropology 3520 and Archaeology 3520

3525 Aboriginal History from 1763 (same as Anthropology 3525 and Archaeology 3525) examines the history of Aboriginal peoples in North America from 1763 to the twentieth century. Particular attention will be paid to Indigenous-settler relations, including Aboriginal policies, military encounters and diplomacy, expansion and removals, education, treaties, and politicization.

CR: Anthropology 3525 and Archaeology 3525

3675 Navies and Societies Since 1650 is an examination of the rise of modern navies since 1650 that places navies and naval decisions within broader national and international political, economic and social contexts.

CR: the former HIST 3822

3700 Art History: The Italian Renaissance (same as Visual Arts 3700) is an overview of the art and architecture of Renaissance Italy with an emphasis upon the historical context in which art was produced.

CR: Visual Arts 3700

3701 Art History: The Renaissance Outside Italy (same as Visual Arts 3701) is the Renaissance outside Italy from the late Fourteenth century and the international style through the sixteenth century.

CR: Visual Arts 3701

3770 Women in Western Society and Culture is a survey of major developments in the history of women from the fifteenth through the eighteenth centuries. The major themes addressed are: cultural and religious assumptions about women; demographic changes; women's work roles; women's participation in religious and political movements.

3770 Women in Western Society and Culture (II) are selected themes in the history of women in the modern period with a focus on cultural attitudes toward women, demographic trends affecting women, the impact of changing economic roles, and the development of feminism.

CR: the former HIST 3761

3840 Historical Methods is an introduction to the methods and practices of history in the modern era. This course is compulsory for Honours students and recommended for Majors, including those intending to apply for graduate studies. For Historical Studies students at Grenfell Campus this course is required for all majors and minors.

CR: the former HIST 4801

PR: 12 credit hours in History including HIST 1100/1101 or permission of the instructor

4101 The Renaissance in Europe, 1400-1550 is a seminar on the Renaissance in Europe, particularly in Italy and northern Europe, focusing especially on its intellectual and cultural aspects but also the social and gender history of the topic.

4230 Special Topics in Newfoundland History I are specialized studies in the History of Newfoundland.

4231 Special Topics in Newfoundland History II are specialized studies in the History of Newfoundland.

CR: the former Political Science 4731

4254 Special Topics in Canadian History: A History of Social Welfare is a study of the broad theme of the state and social welfare in Canada. It examines the origins of modern forms of social control as evidenced in the nineteenth century prison, the lunatic asylum, and the poorhouse. As well, it compares Canadian and British and American social welfare institutions and policies, and traces their historical evolution into the twentieth century.

4320 Special Topics in European History: The British Empire, 1688 to the Present has a range of special topics.

4410-4430 (excluding 4411, 4419, 4421) Historical Problems are specialized studies in historical problems.

4560-4570 Special Topics in Social and Intellectual History are specialized studies in social and intellectual history.

4730 Art History: Modern Art I (same as Visual Arts 4730) is an examination of the cultural, social, and political forces which, from 1750 to 1850, were to have a major impact on modernity and later modern art.

CR: Visual Arts 4730

PR: 6 credit hours in art history or permission of the chair of the Visual Arts Program

4731 Art History: Modern Art II (same as Visual Arts 4731) is an examination of the various cultural and social forces between 1850 and 1914 which shaped the rise of the Modern movement.

CO: 6 credit hours in art history or permission of the chair of the Visual Arts Program

CR: Visual Arts 4731

PR: 6 credit hours in art history or permission of the chair of the Visual Arts Program

4821 Reading Course is a directed reading course for Honours and selected students including those intending to apply for graduate studies. Readings will be taken from a list of significant works in History, the Humanities, and the Social Sciences.

PR: permission of the Program Chair

4950 Independent Project in Historical Studies will have students complete an independent research project under the supervision of a faculty member or members. Topics must have the approval of the Program Chair of History.

PR: HIST 3840 and nine other History courses

12.19 Human Kinetics and Recreation (HKR)

Human Kinetics courses are designated by HKR.

3555 Outdoor Recreation Management is an overview of outdoor recreation practices in Newfoundland and Canada. This course will examine the management of resources, conservation education and practices, development for public use or exclusion; legislation related to management of recreation; viability of facilities; national and provincial agencies; private commercial ventures; and future trends in management. Management strategies will form a major part of the course.

CR: the former RECR 3555 and the former PHSD 3550

UL: cannot be used as an elective towards the Environmental Studies Major for Graduates of the Two-Year Adventure Tourism Diploma Program

3565 Tourism/Commercial Recreation will examine behavioural factors influencing tourism; promotion of commercial recreation attractions; commercial strategies in travel and tourism; problems of leisure travel; stability of entrepreneurial ventures in tourism; and research and planning strategies relevant to commercial ventures.

CR: Tourism 1000, Tourism 2201, the former RECR 4555 and the former PHSD 3550

4555 Leadership and Supervision in Recreation is need, selection, training and supervision of leaders in recreation. Certification, standards and professional organizations. Evaluation of leadership - materials and methods used; practical exposure to roles of both leader and supervisor through seminar and related fieldwork.

CR: the former RECR 4555 and the former PHSD 4550

UL: cannot be used as an elective towards the Environmental Studies Major for Graduates of the Two-Year Adventure Tourism Diploma Program

4575 Recreation Ethics, Issues and Trends will explore contemporary trends and issues identified by governments and recreation practitioners and the way in which these issues influence the delivery of leisure services.

CR: the former RECR 4575 and the former PHSD 4570

12.20 Humanities

Humanities courses are designated by HUMN.

1001 Humanities and the Contemporary World is a study of the relevance of humanities disciplines and texts to contemporary cultural forms and practices such as movies, popular music, television, comic books, graphic novels, professional sports, etc. The course will also focus on the mastery of composition skills. The course is a designated writing (W) course.

1002 Six Texts That Changed the World is a study of six humanities texts which have helped to shape Western Civilization. The course is a designated writing (W) course.

PR: HUMN 1001

2001 Humanities in the Ancient World is a study of major cultural developments and achievements in art, literature, religion, philosophy, and science in the ancient Mediterranean during the period 4000 BCE to 400 CE. The course explores the great ancient civilizations of the Near East, Greece, and Rome and their influence on the shaping of Western culture and society. The course is a designated writing (W) course.

PR: HUMN 1001 and 1002

AR = Attendance requirement; CH = Credit hours are 3 unless otherwise noted; CO = Co-requisite(s); CR = Credit can be retained for only one course from the set(s) consisting of the course being described and the courses listed; LC = Lecture hours per week are 3 unless otherwise noted; LH = Laboratory hours per week; OR = Other requirements of the course such as tutorials, practical sessions, or seminars; PR = Prerequisite(s); UL = Usage limitation(s).
2002 Thought and Society in the Medieval World this course examines the development of medieval civilization through the consideration of thought, art, spirituality and politics. Medieval culture will be examined largely through primary texts centered on a series of key themes and historical-cultural watersheds. These texts will be contained in a course pack designed for this course. The course is a designated writing (W) course.

PR: HUMN 1001 and 1002

2010 Themes in Humanities (Interdisciplinary Seminar) is a seminar course in which themes have common interest to the Humanities will be discussed from the perspective of the various disciplines. The course is a designated writing (W) course.

CR: the former HUMN 3000
PR: HUMN 1001 and 1002

3001 Humanities in the Early Modern Period is a study of the major cultural developments and achievements in art, literature, religion, philosophy, and science in Western Europe during the period 1450-1650. The course is a designated writing (W) course.

PR: 9 credit hours in Humanities with at least 3 credit hours at the 2000-level

3002 Humanities in the Modern World examines emerging conceptions of the modern self and its expression in philosophy, science, political revolution and constitution, visual art and literature during the period 1650-1850. The course is a designated writing (W) course.

PR: 9 credit hours in Humanities with at least 3 credit hours at the 2000-level

3010 The Nature of Interpretation in Humanities introduces students to central concepts and debates concerning the sorts of interpretation that distinguish Humanities as a discipline. Students gain familiarity with contemporary and historical approaches. The course is a designated writing (W) course.

PR: 9 credit hours in Humanities with at least 3 credit hours at the 2000-level

3020 Humanities and the Environment is an examination of the human understanding of the natural world from the perspectives of the literary arts, the visual arts, and music and religion. It is a designated writing (W) course.

PR: 9 credit hours in Humanities with at least 3 credit hours at the 2000-level

3021 East Meets West - Asian Traditions and the Humanities is an examination of the influence of Asian currents of thought in the West in literature, philosophy, the visual arts, music and popular culture. This is a designated writing (W) course.

PR: 9 credit hours in Humanities with at least 3 credit hours in the 2000-level

3100-3109 Special Topics in Humanities has a range of special topics in Humanities.

PR: 9 credit hours in Humanities with at least 3 credit hours at the 2000-level

4001 Humanities Postmodern is a study of major developments in the evolution of culture, thought, arts, science, and beliefs in the Western world from the nineteenth century to the present day. The course is a designated writing (W) course.

PR: 12 credit hours in Humanities with at least 3 credit hours at the 2000-level

4010 Authors, Events, and Texts is a seminar course in which themes having common interest to the Humanities will be discussed from the perspectives of the various disciplines. This course focuses on close readings of its subject matter and is distinct from theme-oriented courses in Humanities. The course is a designated writing (W) course.

CR: the former HUMN 4000
PR: 24 credit hours in Humanities including HUMN 3100

4020-4029 Special Topics has a range of special topics in Humanities.

PR: 24 credit hours in Humanities including HUMN 3100

12.21 Mathematics and Statistics

At most 9 credit hours in Mathematics will be given for courses completed from the following list subject to normal credit restrictions: Mathematics 1000, 1031, 1050, 1051, 1080, 1081, 1090, 1150, 1151.

Mathematics courses are designated by MATH and Statistics courses are designated by STAT.

102F, 103F and 104F Mathematics Skills Program are non-credit courses intended for those students who either have a weak background in mathematics or are returning to the subject after some years. The program enables students to master mathematical operations such as those involving whole numbers, fractions, decimals, percents, integers, exponents, linear equations, algebraic and rational expressions, formulas, graphs, systems of linear equations, basic trigonometry, exponents and radicals, and quadratics.

1000 Calculus I is an introduction to differential calculus, including algebraic, trigonometric, exponential, logarithmic, inverse trigonometric and hyperbolic functions. Applications include kinematics, related rates problems, curve sketching and optimization.

CR: the former MATH 1081
LH: 1.5
PR: MATH 1090 or a combination of placement test and high school Mathematics scores acceptable to the Department

1001 Calculus II is an introduction to integral calculus, including Riemann sums, techniques of integration and improper integrals. Applications include exponential growth and decay, area between curves and volumes of solids of revolution.

CR: the former Engineering 1411, the former Engineering 2413
PR: MATH 1000 or the former MATH 1081.

1050 Finite Mathematics I covers topics which include sets, logic, permutations, combinations, and elementary probability.

CR: the former MATH 1150. With the exception of those already admitted at the time of registration in this course to a Bachelor of Education program that requires this course, students who already have obtained credit for 6 or more Mathematics credit hours numbered 2000 or above are not permitted to register for this course nor can they receive credit for it.

LC: 4
PR: a combination of placement test and high school mathematics scores acceptable to the Department, or MATH 103F

1051 Finite Mathematics II covers topics which include elementary matrices, linear programming, elementary number theory, mathematical systems and geometry.

CR: the former MATH 1151. With the exception of those already admitted at the time of registration in this course to a Bachelor of Education program that requires this course, students who already have obtained credit for 6 or more Mathematics credit hours numbered 2000 or above are not permitted to register for this course nor can they receive credit for it.

LH: 1.5
PR: a combination of placement test and high school mathematics scores acceptable to the Department, or MATH 103F

1090 Algebra and Trigonometry provides students with the essential prerequisite elements for the study of an introductory course in calculus. Topics include algebra, functions and their graphs, exponential and logarithmic functions, trigonometry, polynomials, and rational functions.

CR: if previously completed or currently registered for MATH 1000, MATH 1001, the former 1080, or the former 1081
LH: 3
PR: a combination of placement test and high school Mathematics scores acceptable to the Department or MATH 104F

2000 Calculus III is an introduction to infinite sequences and series, and to the differential and integral calculus of multivariate functions. Topics include tests for the convergence of infinite series, power series, Taylor and Maclaurin series, complex numbers including Euler's formula, partial differentiation, and double integrals in Cartesian and polar coordinates.

CR: the former Engineering 1411, the former Engineering 1412, the former Engineering 2414, the former Engineering 2413
LH: 1.5
PR: MATH 1001

2050 Linear Algebra I includes the topics of Euclidean n-space, vector operations in 2- and 3-space, complex numbers, linear transformations on n-space, matrices, determinants, and systems of linear equations.

CR: the former Engineering 2402
PR: A combination of placement test and high school Mathematics scores acceptable to the Department or 3 credit hours in first year Mathematics courses.

2051 Linear Algebra II includes the topics of real and complex vector spaces, basis, dimension, change of basis, eigenvectors, inner products, and diagonalization of Hermitian matrices.

PR: MATH 1000 and MATH 2050

2090 Mathematics of Finance covers the following topics: simple and compound interest and discount, forces of interest and discount, equations of value, annuities and perpetuities, amortization schedules and sinking funds, bonds and other securities, contingent payments.

PR: MATH 1001

2130 Technical Writing in Mathematics is a project oriented course combining mathematical investigation and technical writing. By using computer programming, graphical and typesetting tools, students will
explore mathematical concepts and will produce technical reports of professional quality. The latter will combine elements of writing and graphics to convey technical ideas in a clear and concise manner.

2320 Discrete Mathematics

Discrete mathematics is a basic course in mathematical reasoning, sets and set operations, functions, relations including equivalence relations and partial orders as illustrated through the notions of congruence and divisibility of integers, mathematical induction, principles of counting, permutations, combinations and the Binomial Theorem.

CR: the former Computer Science 2740
PR: MATH 1001 or MATH 2050

2500 Statistics for Business and Arts Students

is descriptive statistics (including histograms, stem-and-leaf plots and box plots), elementary probability, random variables, the binomial distribution, the Poisson distribution, normal distribution, sampling distribution, estimation and hypothesis testing including both one and two sample tests, paired comparisons, correlation and regression, related applications.

CR: STAT 2550, the former STAT 2510, Psychology 2910, Psychology 2925 and the former Psychology 2900
LH: 1.5
OR: Statistical computer package will be used in the laboratory, but no prior computing experience is assumed
PR: MATH 1000 or the former MATH 1081

3000 Real Analysis

is proof techniques, structure of R, sequences, limits, continuity, uniform continuity, differentiation.

CR: the former MATH 2001
LH: 1
PR: MATH 2000

3132 Numerical Analysis

is a discussion of round-off error, the solution of linear systems, iterative methods for nonlinear equations, interpolation and polynomial approximation, least squares approximation, fast Fourier transform, numerical differentiation and integration, and numerical methods for initial value problems.

CR: Computer Science 3731
PR: MATH 2000, MATH 2050, and a computing course (Computer Science 1510 is recommended)

3202 Vector Calculus

deals with functions of several variables. Lagrange multipliers, vector valued functions, directional derivatives, gradient, divergence, curl, transformations, Jacobians, inverse and implicit function theorems, multiple integration including change of variables using polar, cylindrical and spherical co-ordinates, Green’s theorem, Stokes’ theorem, divergence theorem, line integrals, arc length.

CR: Physics 3810
PR: MATH 2000 and MATH 2050

3240 Applied Graph Theory

examines algorithms and complexity, definitions and basic properties of graphs, Eulerian and Hamiltonian chains, shortest path problems, graph colouring, planarity, trees, network flows, with emphasis on applications including scheduling problems, tournaments, and facility design.

CR: the former Computer Science 2741
PR: MATH 2320

3260 Ordinary Differential Equations

is a discussion of existence and uniqueness, higher order linear equations, variation of parameters, methods of undetermined coefficients, Laplace transforms, systems of differential equations. Applications include vibratory motion, satellite and rocket motion, pursuit problems, population models and chemical kinetics.

CR: MATH 2260 or the former Engineering 3411
PR: MATH 2000

3320 Abstract Algebra

is an introduction to groups and group homomorphisms including cyclic groups, cosets, Lagrange’s theorem, normal subgroups and quotient groups, introduction to rings and ring homomorphisms including ideals, prime and maximal ideals, quotient rings, integral domains and fields.

PR: MATH 2320

3330 Euclidean Geometry

is classical Euclidean geometry of the triangle and circle. The inversion transformation, including the theorem of Feuerbach, Elliptic and hyperbolic geometries.

CR: MATH 2330
PR: MATH 2051 or 2320

3340 Introductory Combinatorics

includes Topics such as distributions, the binomial and multinomial theorems, Stirling numbers, recurrence relations, generating functions and the inclusion-exclusion principle. Emphasis will be on applications.

PR: MATH 2320

3370 Introductory Number Theory

is perfect numbers and primes, divisibility, Euclidean algorithm, greatest common divisors, primes and the unique factorization theorem, congruences, cryptography (secretary systems), Euler-Fermat theorems, power residues, primitive roots, arithmetic functions, Diophantine equations, topics above in the setting of the Gaussian integers.

PR: MATH 2320

3410 Mathematical Statistics

is basic probability concepts, combinatorial analysis, conditional probability, independence, random variable, distribution function, mathematical expectation, Chebyshev’s inequality, distribution of two random variables, binomial and related distributions, Poisson, gamma, normal, bivariate normal, t, and F distributions, transformations of variables including the moment-generating function approach.

OR: one and a half hour tutorial period weekly
PR: MATH 2000

4132 Introduction to Optimization

is an introduction to optimization, analytic methods for functions of one variable and for functions of several variables, classical maxima and minima, necessary and sufficient conditions, constrained optimization, equality and inequality constraints, Kuhn-Tucker conditions, introduction to the calculus of variations, linear programming, simplex algorithm.

PR: MATH 3202 and 3260

4160 Partial Differential Equations

covers two point boundary value problems, Fourier series, Sturm-Liouville theory, canonical forms, classification and solution of linear second order partial differential equations in two independent variables, separation of variable, integral transform methods.

PR: MATH 3202 and 3260

4242 Algorithms and Complexity

is a study of the correctness and complexity of algorithms, with particular focus on algorithms important in mathematics. Topics may include sorting and binary search, string searching, integer multiplication and exponentiation, matrix multiplication, geometric problems such as closest pair of points and convex hull, probabilistic and approximate algorithms. This course discusses polynomial reductions and NP-completeness.

PR: MATH 3132 and 3240

4340 Combinatorial Analysis

continues most of the topics started in 3340 with further work on distributions, recurrence relations and generating functions. Generating functions are used to solve recurrence relations in two variables. Also included is a study of Polya's theorem with applications.

PR: MATH 2000 and 3340

4950 Senior Project

is a course in which, under the guidance of a faculty member, students conduct a scientific study based upon original research or a critical review of extant data in an appropriate area. Normally the project will have a computational component. Students are required to submit a proposal and give a presentation. This project fulfills the Core requirement for a fourth-year individual project in the area of specialization. This is a Designated Writing Course.

PR: permission of Program Chair

12.22 Philosophy

In accordance with Senate’s Policy Regarding Inactive Courses, the course descriptions for courses which have not been offered in the previous three academic years and which are not scheduled to be offered in the current academic year have been removed from the following listing. For information about any of these inactive courses, please contact the Head of the Division.

Philosophy courses are designated by PHIL.

1200 Principles of Philosophy

(same as the former PHIL 2200) is a general introduction to the study of Philosophy both as a contemporary intellectual discipline and as a body of knowledge. The course covers the major divisions, fundamental questions and essential terminology of Philosophy through a reading of classical texts (It is a required course for further courses in Philosophy programs. It is intended for students in first year who have completed one semester of university education).

CR: the former PHIL 2200

1600 Philosophy of Human Nature

is an approach to philosophical thinking by way of analysis and critique of theories of human nature, classical and modern, and the world views associated with them.

CR: former PHIL 1001

AR = Attendance requirement; CH = Credit hours are 3 unless otherwise noted; CO = Co-requisite(s); CR = Credit can be retained for only one course from the set(s) consisting of the course being described and the course(s) listed; LC = Lecture hours per week are 3 unless otherwise noted; LH = Laboratory hours per week; OR = Other requirements of the course such as tutorials, practical sessions, or seminars; PR = Prerequisite(s); UL = Usage limitation(s).
2210 Logic is an introduction to traditional and modern logic open in any year to all students wishing acquaintance with basic logical skills.

2220 Principles of Human Knowledge are various concepts of knowledge - empirical, rational, transcendental, systematic. Their metaphysical grounds and implications. The concept of scientific knowledge; real and abstract entities; objectivity and subjectivity.

2551 Health Ethics examines concepts of health and illness and their ethical implications.
CR: the former PHIL 2803

2561 Environmental Ethics examines concepts of nature and their ethical implications.
CR: the former PHIL 2809

2581 Philosophy of Film introduces some of the central philosophers, topics and themes in the philosophy of film. Topics and themes include: the nature of film image, the relationship between film and "reality", the social/political role and function of film and the nature and value of the documentary. The course will also consider the representation of broader philosophical ideas in film. A film or films will accompany each section.

2701 History of Ancient Philosophy (same as Classics 2701) is a survey of the origin and development of Western philosophy among the Greeks and Romans.
CR: Classics 2701

2702 History of Modern Philosophy is a survey of the development of Western Philosophy since the seventeenth century.
CR: the former PHIL 3700, the former PHIL 3701

3400 Political Philosophy is leading philosophical ideas concerning the origin and justification of political institutions.

3610 Philosophy and Literature is a study of the interrelationship of thought and imagination in philosophical and literary forms of writing.

3730 Plato is selections from the works of the Greek "lovers of wisdom" - the first philosophers - particularly Plato.

3740 Aristotle is the works and legacy of perhaps the most influential systematic thinker of all time.

3860 Hegel is selections from Hegel's system with emphasis on the nature and implications of his system.

2650 General Physics V: Modern Physics is special relativity, quanta of light, atomic structure and spectral lines, quantum structure of atoms and molecules, nuclei and elementary particles.
CO: Mathematics 1001 and PHYS 1051
CR: PHYS 2750
LH: 3
PR: Mathematics 1001 and PHYS 1051

2655 General Physics VI: Modern Physics is an introduction to modelling in physics. Topics are introduced through experiments, complementary lectures, and library research. Some of the great experiments of physics are covered.
CO: Mathematics 2050
LH: 3
PR: Mathematics 1001, Mathematics 2050, PHYS 1051 (or the former PHYS 2054).

PR: 6 credit hours in Mathematics at the first year level

2400 Subatomic Physics is an introduction to nuclear and particle physics. Topics include nuclear properties and models; radioactive dating; fission; nuclear reactors; accelerators; the detection, classification, and properties of subatomic particles. Applications in areas such as ecology, dosimetry, medical physics and nuclear astrophysics are discussed.
PR: Level III Advanced Mathematics or Mathematics 1090. It is recommended that students have completed at least one of Level II and Level III high school physics courses.

2553 Introduction to Analog and Digital Electronics covers the basics of the analog and digital electronics; direct current circuits, capacitors and inductors, alternating currents, test equipment and measurement, transducers, diodes and transistors, introduction to operational amplifiers, digital basics, digital circuitry and digital analog I/O. This course is a combined lecture/laboratory course with two-three hour sessions scheduled per week.
PR: Mathematics 1000 or equivalent, PHYS 1021 or 1051

2820 Computational Mechanics covers newtonian dynamics and celestial mechanics, numerical differentiation and integration, numerical solutions to mechanics problems, data and spectral analysis, Fourier series and normal modes, oscillations and vibrations, linear and non-linear oscillators, nonlinear dynamics and chaos.
CO: Mathematics 2000
LC: 5
LH: 5
PR: Mathematics 2000 and PHYS 1051

3050 Electricity and Magnetism is point charges; Coulomb's law; electrostatic field and potential; Gauss' law; conductors; magnetostatics; Ampere's law; Biot-Savart law; dielectric and magnetic materials; electrostatic and magnetostatic energy; Lorentz force; time varying fields; Faraday's law; Lenz's law; Maxwell's equations.
CO: Mathematics 3260 (or 2260)
LC: 3
LH: 3
PR: PHYS 1051 and Mathematics 3260 (or 2260)

3061 Electromagnetic Theory includes Maxwell's equations, energy and momentum in electromagnetic systems, EM waves, potentials and fields, dynamical systems of charges, radiation, the interaction of EM fields with matter, and the relativistic formulation of electromagnetism and its applications.
PR: PHYS 3060

CR: PHYS 3150 and PHYS 3151
PR: Mathematics 2000, PHYS 2056, PHYS 2151, PHYS 3220 is
3180 Observational Astrophysics covers theoretical topics including celestial mechanics, continuous and line spectra, stellar structure and nucleosynthesis, and stellar evolution. Observational topics include planning observations, acquisition of images with a CO2 electron camera, fundamentals of astronomical image processing, photometry, and stellar spectroscopy using a variety of software packages.

LH: 3
PR: Mathematics 2000, PHYS 2056, PHYS 2151 is recommended.

2200 Introduction to International Politics is an examination of the "building blocks" of international politics including determinants, means, processes and ends. Emphasis is on the post-1945 period.

2300 Introduction to Comparative Politics is an introduction to comparative politics and techniques of comparative analysis across political jurisdictions. This course focuses on the differences between, and similarities among, a variety of countries and systems of government.

2500 Introduction to Political Behaviour - inactive course.

2600 Introduction to Public Policy and Administration outlines major concepts in, and issues relating to, the fields of public policy and administration. Introduces students to major conceptual issues that shape public policy and government, such as agenda setting, types of public policy making, and public management processes. Open to all students interested in the study of public policy and public administration.

2800 Introduction to Canadian Politics and Government is an introduction to the structure and operations of institutions of Canadian government and the nature of political actors. Topics to be examined may include the constitution, federalism, parliament, political parties, political culture and elections.

CR: the former POSC 2710

3530 Politics and the Environment is an examination of the environmentalist movement, interest groups, and green parties; the impact of environmentalism on conventional parties and public opinion; the nature of environmental issues in national and international politics. Open to students in all disciplines.

3731 Environmental Policy is an introduction to the formation, implementation, and impact of policy making concerning the environment, including an examination of different policy approaches and the problems of environmental regulation.

12.25 Psychology

Psychology 1000 and Psychology 1001 are prerequisites for all Psychology courses.

1000 and 1001 Introduction to Psychology is an introduction to Psychology as a biological and social science. Topics shall include research methods, physiological processes, perception, learning, memory and cognition, human development, animal behaviour, emotion, motivation, consciousness, personality and individuality, psychological disorders and treatment, and social psychology.

PR: Psychology 1000 is a prerequisite for Psychology 1001

2925 Research Methods and Data Analysis in Psychology I will cover basic research methods and supporting statistical concepts and techniques. Basic methods will include observational techniques, correlational studies, and surveys. Supporting statistical concepts will include populations and samples, measures of central tendency and variability, basic probability, correlation, simple linear regression and validity and reliability. Supporting statistical techniques will include producing tables and graphs, and the calculation of measures of central tendency, variation, probability, correlation, simple linear regression. Students will also learn how to write a description of a simple study in basic APA style, and how to use a statistical package to analyse surveys and calculate correlation. Basic ethical principles in conducting research will be introduced. This course includes a weekly laboratory.

CR: Psychology 2910, Statistics 2500, Statistics 2550, the former Psychology 2900, and the former Statistics 2510

LH: 3

2950 Research Methods and Data Analysis in Psychology II will cover basic experimental methods and supporting statistical concepts and techniques. Basic designs will include one factor designs (independent and repeated measures). Supporting statistical concepts will include statistical sampling distributions (t and F), internal and external validity, hypothesis testing, and simple interactions. Supporting statistical techniques will include independent and repeated measures t-tests, one-factor independent and repeated measures ANOVA, and selected multiple comparison techniques. Students will also learn how to write a description of an experiment in APA style, how to critically analyse a report of an experiment, how to use and interpret a statistical package to analyse experimental data, and how to conduct literature searches.

CR: the former Psychology 2901, Statistics 2501, and Statistics 2560

LH: a weekly laboratory
PR: Psychology 2925 or equivalent

3950 Research Methods and Data Analysis in Psychology III will cover advanced research methods, including survey methods, and supporting statistical concepts and techniques. Designs will include single factor designs and multi-factor designs with both random and fixed factors. Supporting statistical concepts will include analysis of variance (ANOVA) from a linear model perspective, statistical power, and multiple regression, including model building. There may be a general introduction to multivariate

AR = Attendance requirement; CH = Credit hours are 3 unless otherwise noted; CO = Co-requisite(s); CR = Credit can be retained for only one course from the set(s) consisting of the course being described and the course(s) listed; LG = Lecture hours per week are 3 unless otherwise noted; LH = Laboratory hours per week; OR = Other requirements of the course such as tutorials, practical sessions, or seminars; PR = Prerequisite(s); UL = Usage limitation(s).
statistical techniques. Ethical issues in research will be discussed in detail. Students will be required to design and carry out at least one research project from the design to the writeup stage, including an ethics review.

CR: Psychology 3900, Statistics 3520, the former Psychology 3520
LH: a weekly laboratory
PR: Psychology 2950 or equivalent

12.25.1 Survey Courses

2025 Survey of Developmental Psychology is a survey of the cognitive, social, and personality development of people. Development will be tracked from the prenatal stage to old age. Topics to be studied shall include: research methodology, genetics, prenatal development, environmental effects during prenatal development, attachment, emotional development, language development, intelligence, cognitive development, socialization, sex-roles and gender identity, adolescence, adulthood and aging.

CR: Psychology 2010, Psychology 2020, the former Psychology 2011

2125 Survey of Social Psychology is a survey of how the behaviour of individuals is influenced by others. Topics to be studied shall include: methodology and ethics, social cognition, social perception, attitude formation and change, interpersonal attraction, social influence, group processes and leadership. Additional topics may include: aggression, prosocial behaviour, sex and gender, environmental effects, organizational behaviour, health, stress and psychology and the law.

CR: Psychology 2100 and Psychology 2120

2225 Survey of Learning is a survey of learning phenomena and learning theories. Topics to be studied shall include: the evolutionary context of learning, habituation and sensitization, imprinting, Pavlovian conditioning, instrumental learning, generalization and discrimination in learning and neural mechanisms of learning.

CR: Psychology 2240 and the former Psychology 2250

2425 Survey of Cognitive Psychology is a survey of how humans process and retain information. Topics to be studied shall include: perception and pattern recognition, attentional processes and memory. The influence of stored information on selected behaviours will be considered. Selected behavioral problems are examined, and concepts of language processing, concept formation, problem solving, decision making and practised and skilled performance.

CR: Psychology 2440 and Psychology 3450

2625 Survey of Personality is a survey of the theories of personality and relevant selected areas of research in the area of personality. Issues related to the application of this information to understanding abnormal behaviour will also be discussed. Theoretical systems covered will include: psychodynamic theory, behaviourism and cognitive-behavioural theory, humanism, traits and dispositions, social learning theory, psychological constructivism, information processing and biological theories of personality.

CR: Psychology 2610, the former Psychology 2620, and the former Psychology 2200.

2825 Survey of Biological Psychology is a survey of the biological bases of behaviour. Topics to be studied shall include: the structure and function of the nervous system, sensory structures and sensory coding, homeostasis, emotion, the sleep and rhythms, sexual behaviour, psychopharmacology, consciousness and language, behavioural evolution and behaviour genetics.

CR: Psychology 2810 and the former Psychology 2850.

12.25.2 Contemporary Issues Courses

3025 Contemporary Issues in Developmental Psychology examines in depth one or more areas of research within developmental psychology. Some topics that may be examined include cognitive development, social development, developmental psychopathology, and child eyewitness testimony.

PR: Psychology 2025 and Psychology 2925.

3040 Contemporary Issues in the Psychology of Death and Dying uses psychological research, theory, and clinical experience to study death, dying and bereavement throughout the life cycle. Some selected topics include understanding death, the process of dying, care of the dying, medical ethics, suicide, grief, life-threatening conditions, traumatic bereavement, grief and bereavement in children, adolescents, and adults are explored.

PR: Six credit hours in 2000 level psychology courses.

3125 Contemporary Issues in Social Psychology examines in depth one or more areas of research within social psychology. Some topics that may be examined include the psychology of prejudice, criminal behaviour, social influence, and aggression.

PR: Psychology 2125 and Psychology 2925

3126 Contemporary Issues in the Psychology of Women explores the psychology of women from varying cultural perspectives, such as racial, sexual orientation, age and class. Topics include the history of women in psychology, women’s development across the life span, women and social relationships, and violence against women.

PR: Six credit hours in 2000 level psychology courses.

3225 Contemporary Issues in Learning examines in depth one or more areas of research in learning and cognition. Topics may include associative learning, instrumental conditioning, discrimination learning, category formation, memory, navigation, social cognition and learning, intelligence, concepts of time and number, self-awareness and communication and language.

PR: Psychology 2225 and Psychology 2925

3226 Contemporary Issues in the Psychology of Education is an introduction to the psychology of issues in education in a variety of settings. It examines the theoretical and applied aspects of learning and cognitive development; motivation; personal and social development; and evaluation, measurement, and assessment.

PR: Six credit hours in 2000 level psychology courses.

3235 Contemporary Issues in Sensation and Perception examines the functioning of human sensory systems and how physical stimuli are transformed into signals that can be understood by the nervous system. In both human and animal models how the brain receives and processes information from the visual, auditory, gustatory, olfactory and somatosensory systems may be examined. Basic psychophysics may also be examined.

PR: Psychology 2925 and Psychology 2425 or Psychology 2825

3425 Contemporary Issues in Memory and Cognition uses current psychological theories and research to examine aspects of human memory and cognition. Topics may include, but are not limited to, perception and pattern recognition, attentional processes, knowledge representation, working and long term memory, language, problem solving, decision making, expert performance, and abnormalities in cognition.

PR: Psychology 2425 and Psychology 2925

3525 Contemporary Issues in Emotion introduces the biological, cognitive, and social influences on emotions. Attention is given to unconscious (automatic) processes, nonverbal emotional expressions, and understanding specific emotions. Contemporary research may be examined in such areas as the effects of emotional distractors on the consequences of problems in emotional development, or emotions in therapy.

PR: Psychology 2925 and any Survey Course in Psychology from the Grenfell Campus Psychology Program

3625 Contemporary Issues in Personality examines in depth one or more areas of research with personality psychology. Some topics that may be examined include stress and health, psychoanalysis, psychology of motivation, and personality in work organizations.

PR: Psychology 2625 and Psychology 2925

3626 Contemporary Issues in Abnormal Psychology explores the definition of abnormal behaviour, clinical assessment, classification, and diagnosis. The core theoretical perspectives on psychological disorders are examined. For each disorder the diagnostic criteria, etiology, treatment, and prognosis is presented. This course enhances the students’ ability to think critically about issues pertaining to mental health and illness.

CR: Psychology 3640, Psychology 3650, and the former Psychology 3600

PR: Psychology 2625 and Psychology 2925

3627 Contemporary Issues in Psychotherapy introduces students to the major theories, concepts and practices of contemporary approaches to psychotherapy. It includes the exploration of ethical and professional issues in professional practice.

PR: Psychology 2625 and Psychology 2925

3628 Contemporary Issues in Psychological Testing and Measurement explores the development and application of tests and techniques for psychological assessment. A review of test construction and evaluation examines methods of item analysis, reliability, validity, and test norms. The major domains of applied psychological assessment are examined. Ethical issues in psychological assessment are presented throughout the course.

PR: Psychology 2950 and any one of Psychology 2025, Psychology 2425, Psychology 2625.

3725 Contemporary Issues in Animal Behaviour includes one or more areas of research in animal behaviour and/or evolutionary psychology. Topics may include history of animal behaviour and/or evolutionary psychology, genetic analysis of behaviour, evolutionary theory and natural selection, development of behaviour, selection and perception, orientation, foraging, antipredator behaviour, learning, cognition, sociality and dispersion, sexual reproduction and sexual selection, parental care and mating systems, altruism, aggression, communication and social dominance.

PR: Psychology 2925 and Psychology 2825 or Psychology 2225

3825 Contemporary Issues in Physiological Psychology includes one or more areas of research in neuroscience and/or behavioural neuroscience. Topics may include neurophysiology and neuroanatomy, methodology including brain imaging, developmental disorders, sensory-perceptual and...
motor systems, physiological basis of attention, memory, language, emotion and spatial behavior, alterations of consciousness, neurological disorders, plasticity, recovery and rehabilitation and neuropsychological assessment.

PR: Psychology 2825 and Psychology 2925

12.25.3 Senior Courses

4910 Systems of Psychology is a study of paradigms and explanations in contemporary psychology in the context of their historical antecedents.

PR: at the St. John’s campus, 30 credit hours in Psychology courses required in the majors program and admission to a Major in Psychology, Behavioural Neuroscience or, at the Grenfell campus, 30 credit hours in Psychology courses including Psychology 3950

4925 Senior Seminar in Psychology is weekly seminars for faculty and senior students in Psychology. Current issues in academic and professional psychology shall be discussed.

PR: 30 credit hours in Psychology including Psychology 3950 or permission of the Chair of Psychology

4950 Independent Project in Psychology is under the supervision of a Faculty member where students will independently carry out approved projects and prepare reports of their findings.

CR: Psychology 4951

4951 Honours Project in Psychology I is under the supervision of a Faculty member and each student will independently review an area of psychology and prepare a thesis proposal for further investigation.

CR: Psychology 4950

4959 Honours Project in Psychology II is a continuation of Psychology 4951. Under the supervision of a Faculty member, each student will independently carry out an approved project which will result in an honours thesis.

PR: Psychology 4951 or the permission of the Chair of Psychology and admission to the Honours program in Psychology

12.25.4 Non-Restricted Courses

2150 Introduction to Forensic Psychology will provide an in-depth overview of the relationship between psychology and the law. A variety of topics will be discussed and critically evaluated, including the use and misuse of psychology-based investigative methods such as offender and geographic profiling, detection of deception, investigative interviewing, eyewitness testimony, jury decision-making, corrections and treatment, risk assessment, and criminal responsibility.

PR: PSYC 1000 and 1001

UL: cannot be used towards the Psychology major

2800 Drugs and Behaviour is an examination of the neurophysiology of drug action, the measurable effects of drugs on experimentally controlled behavior and a survey of information available on common self-administered drugs and their immediate and long-term effects.

PR: PSYC 1000 and 1001

UL: cannot be used towards the Psychology major

3533 Sexual Behaviour covers the most important aspects of human sexual behavior from a psychological, behavioral and neurobiological framework. The course will examine the biological, behavioral and socio-cultural bases of the human sexual response. Topics include sexual interaction and communication, contraception, sexually transmitted infections, reproduction, sexual orientation, transgender and intersex, variations in sexual behaviour, sex and gender, sexual dysfunction and therapy, and sexual coercion.

PR: PSYC 1000 and 1001

UL: cannot be used towards the Psychology major

12.26 Religious Studies

Unless otherwise specified, Religious Studies courses do not have prerequisites. Students who register in a 3000- or 4000-level course are encouraged, however, to make sure that they have adequate preparation for that course, preferably by having completed a first- or second-year course in the field.

Religious Studies courses are designated by RELS.

1000 The Religions of the World is an introduction to the basic beliefs and practices of the world’s great religions.

CR: the former RELS 2010

1032 Introduction to Asian Religions and Culture is a broadly based survey course introducing students to the religions, culture, and societies of Asia. Traditions explored may include those of India (Hinduism, Buddhism, Sikhism, Jainism), China (Daoism, Confucianism, Buddhism), Japan (Shinto, Zen Buddhism), and Korea.

2013 Introduction to Christianity is a study of the Christian tradition, its development and variety. The course will include an examination of the beliefs and practices of both Eastern and Western Christianity and a study of the main differences among the major Western denominations.

2050 Introduction to the Old Testament is an introduction to the historical background, literary structure, and content of the Old Testament. Emphasis will be placed on the authorship and dating of the various texts that comprise the Old Testament, as well as on major themes, figures, and events.

2051 Introduction to the New Testament is an introduction to the history and literary structure of the documents comprising the New Testament. Emphasis will be placed on the major themes found in these documents and on the distinctiveness of approach of the individual writers.

2350 Religious Institutions (same as Anthropology 2350) is a comparative study of religious institutions and beliefs, calendrical feasts and solemnities, religious roles and hierarchies, ritual innovation and revitalization.

CR: Anthropology 2350, the former Sociology/Anthropology 2350, the former Sociology 2350

3010 Greek Religion (same as Classics 3100) is a study of the role of religion in the private and public life of the Greek world.

CR: Classics 3100 and the former RELS/Classics 3121

3020 Roman Religion (same as Classics 3020) is a study of the role of religion in the private and public life of the Roman world.

CR: Classics 3020 and the former RELS/Classics 3121

3200 Jesus: His Life and Teaching is a study of the ministry and thought of Jesus of Nazareth as contained in the Gospels and the New Testament writings. Attention will be given to the methods and conclusions of recent scholarship as applied to his principal teachings and to the study of the historical Jesus.

3210 Paul and His Writings is a study of the Pauline writings and an appraisal of the contribution to Christianity of his mission and theology on the basis of New Testament and other relevant material. Particular attention will be given to such related themes as salvation, reconciliation, grace, and justification.

3310 Judaism at the Beginning of the Christian Era will explore the developments in Jewish thought, institutions, beliefs, and practices during the time when Greek and Jewish cultures encountered one another and in which Jesus of Nazareth lived.

CR: the former RELS 3220

3401 Zen, Buddhist Meditation, and Buddhist Psychology examines the relationship between meditation and theories of human psychology in Buddhism from its origins to its formulation in Zen.

3520 Religion and the Arts (same as Visual Arts 3820) is an examination of the role of art in the expression of religious ideas, together with a study of specific religious themes and concerns in one or more of the following: literature, film, music, painting, sculpture and dance.

CR: Visual Arts 3820

3831 Religious Themes in Contemporary Songwriting is a study of religious themes in contemporary songwriting through the in-depth analysis of the work of a selection of contemporary songwriters. The course will explore how religious questions and themes are handled in contemporary song and explore how song as an artistic medium expresses religious meaning. Songwriters to be explored may include the following: Bob Dylan, Bob Marley, Joni Mitchell, Leonard Cohen, Van Morrison, Tom Amos, Nick Cave, Alanis Morissette, Julie Miller, the Louvin Brothers, the Stanley Brothers, Hank Williams, etc.

3880 Spirituality and the Earth is an examination of the attitudes of various religious traditions to the environment. Special attention will be paid to Native American spirituality.

PR: 3 credit hours in Religious Studies beyond the first-year level or
12.7 Science
Science courses are designated by SCI.

3000 Concepts, Methods and Issues in Science I is the origin of the universe; formation of matter and its nature; origin of the solar system; evolution of the earth and its biosphere; theories of origins of life; mechanisms of evolution and speciation. PR: SCI 4950 Honours Project I and permission of the Program Chair. UL: may not be used towards fulfilment of the 78 Science credit hours required for the Bachelor of Science Degree.

3001 Concepts, Methods and Issues in Science II is genetic and molecular engineering; behavioural biology; genetic determinism versus environmentalism; artificial intelligence. The paradoxes of the quantum world; the scientific method; science and pseudoscience. PR: completion of at least 45 credit hours. UL: may not be used towards fulfilment of the 78 Science credit hours required for the Bachelor of Science Degree.

4000 Senior Science Seminar is a review of current topics in science discussed in a seminar format. Seminars will be presented by faculty, students and guest speakers. This will be a designed Writing Course. PR: Permission of the Program Chair. This course is restricted to students in the General Science program who have completed 80 credit hours or more.

4950 Senior Project requires students to work either individually or in pairs on developing a poster presentation on specific scientific topics of current interest. This will require a detailed proposal, followed by the necessary relevant research in appropriate journals and Internet sources. Participants in the course will organize a mini-conference, to be held at the end of the semester, at which these posters will be presented. Where appropriate, students will be encouraged to integrate knowledge from at least two different scientific disciplines in the development of this project. This will be a designated Writing Course. PR: This course is restricted to students in the General Science program who have completed 80 credit hours or more.

4951 Honours Project I is the preparation of a project proposal under the guidance of a faculty supervisor, including a comprehensive bibliographical review, with the aim of producing a well-annotated Bibliography. This will be a designed Writing Course. PR: Permission of the Program Chair. This course is restricted to students in the General Science program who have completed 90 credit hours or more.

4959 Honours Project II is a continuation of SCI 4951. Under the supervision of a Faculty Advisor, students will prepare an Honours Thesis. The preparation of this will entail some original research, and will require the student to integrate knowledge from at least two disciplines. This will be a designated Writing Course. PR: SCI 4951 and permission of the Program Chair.

12.28 Social/Cultural Studies
Social/Cultural Studies courses are designated by SCCU.

2244 The Graphic Novel - Historical, Cultural and Literary Contexts (same as English 2444) examines the historical, cultural and literary impact of the Graphic Novel: investigates its continuing development; and introduces students to significant works within the genre. CR: English 3442, English 2444 PR: 6 credit hours first-year English; one of Folklore 1000; Anthropology 1031, or Sociology 1000

4000 Interdisciplinary Seminar in Social/Cultural Studies is conducted through faculty presentations, assigned readings and group discussions and students will learn how to engage and evaluate the broad debates within Anthropology, Folklore and Sociology. Rather than focus on narrow substantive material from the disciplines, this seminar will emphasize the larger shifts and challenges which have led to new topics and methods of analysis within the social sciences. PR: completion of 90 credit hours or more and admission to Social/Cultural Studies.

4100 Issues in Cultural Studies represents an examination of the concept of culture, as it is presently used within Anthropology, Folklore and Sociology. Particular attention will be paid to the area of Cultural Studies, and the ways in which that approach has re-energized an interest in the role of culture in modern society. PR: completion of 90 credit hours or more and admission to Social/Cultural Studies.

4950 Independent Project in Social/Cultural Studies is under the supervision of a faculty member and students will independently carry out approved projects of direct relevance to social and cultural phenomena, and prepare reports of their findings. PR: SCCU 4000

12.29 Sociology
Sociology 1000 is a prerequisite for all further Sociology courses except Sociology 2250 and those cross-listed with Anthropology. Credit is not given for both Sociology 1000 and the former Sociology 2000. Before taking 3000-level courses, students should have taken at least 6 credit hours in courses below the 3000 level. Courses at the 4000 level will normally be taken by students who have previously taken at least 9 credit hours in courses at the 3000 level.

The following courses, cross-listed with Anthropology and identified by the prefix "S/A", are also taught at the introductory level: 2200, 2210, 2220, 2230, 2240, 2260, 2270, 2280, and 2350. A minimum of two of these courses is prerequisite to further cross-listed courses. These courses are open to be taken as first courses or may be taken to follow up a Sociology introductory course.

Sociology courses are designated by SOCI.

1000 Introduction to Sociology (same as the former SCI 2000) is an introduction to the concepts, principles, and topics of Sociology. This course is a prerequisite to most departmental courses.

2100 Social Inequality introduces the subject of social inequality and stratification, examines social inequality in historical perspective, reviews major theories about social inequality, and considers key social developments in contemporary societies in the area of social inequality.

2120 Technology and Society is an examination of the role of technology in society. Topics may include the emergence of modern technological society and the impact of new technologies on social organization and culture and the institutionalization of science and the production of scientific knowledge. The course also explores the ideological functions of science and technology in advanced industrial societies as well as the question of "the domination of nature".

2200 Communities (S/A) is an interdisciplinary examination of the concept of community. Readings will include community studies from North America and Europe.

2310 Communication and Culture (S/A) is an examination of verbal and non-verbal systems of communication, and the influence of language on human cognition.

2220 Labrador Society and Culture is the sociology and anthropology of Labrador. The focus is on social and cultural aspects of contemporary Labrador.

2230 Newfoundland Society and Culture (S/A) (same as Folklore 2230) is the Sociology and Anthropology of the Island of Newfoundland. The focus is on social and cultural aspects of contemporary island Newfoundland. CR: Folklore 2230

2240 Canadian Society and Culture (S/A) is a descriptive and analytic approach to the development of Canadian society and culture.

2250 Changing World is sociological analysis of contemporary world issues and social problems.

2260 War and Aggression (S/A) is critical review of ethological, psychological and sociological approaches to the understanding of violence and organized aggression.

2270 Families (S/A) is a comparative and historical perspective on the family as a social institution, the range of variation in its structure and the determinants of its development.

2280 The City (S/A) examines varieties of urban life around the world and through history. The city as habitat and as spectacle.

2350 Religious Institutions (S/A) (same as Religious Studies 2350) is comparative study of religious institutions and beliefs, calendrical feasts and solemnities, religious roles and hierarchies, ritual innovation and revitalization. CR: Religious Studies 2350 UL: not applicable towards the Major or Minor in Anthropology

2610 Socialization - inactive course.

3040 Introduction to the Methods of Social Research has as its objectives (1) to introduce basic concepts underlying research in the social sciences, and (2) to make students familiar with some techniques that are useful in the analysis of a wide range of sociological data and that represent...
a good foundation for later study of more advanced techniques.

3140 Social Movements (S/A) examines the major social movements that have driven social changes related to gender equality, social justice, human rights, and the environment. The course asks why people become involved in social movements, and what factors contribute to movement success. The course also examines social movements' use of mass media and new media technologies as tools for reaching the public and provoking social and cultural transformation.

3150 Classical Social Theory is an introduction to the work of major 19th- and early 20th-century social theorists including Marx, Durkheim, Weber and Freud.

3160 Contemporary Social Theory is an exploration of selected topics from issues in contemporary social theory, including theories of feminism, the state, the environment, culture, organization, and communication.

PR: SOCI 3150

3210 Persistence and Change in Rural Society (S/A) assesses the social and cultural significance of the rural experience in the face of expanding urbanism. Topics may include (a) the nature of rural society in Canada, (b) similarities between Canadian and European rural society, (c) utopian and anarchist movements in rural life, and (d) reaction of agricultural populations to external influence.

3290 Deviance is major sociological theories and methodological techniques central to the study of deviance and crime are outlined and evaluated. The distribution, attributes and explanations of a variety of forms of deviance are examined, which may include violence, sexual deviance, delinquency, addiction, mental disorder, theft, organized crime, political deviance and corporate deviance.

3314 Gender and Society (S/A 3314) is an examination of biological, psychological, social and cultural aspects of gender, with an emphasis upon contemporary perceptions of change in sex roles.

3395 Criminal Justice and Corrections provides an introduction to the operation of the Canadian criminal justice system. Topics to be examined may include the origin, nature and utilization of criminal law, policing, adult and juvenile courts, sentencing, correctional institutions, and community based corrections (probation, parole, community service). Criminal justice policy formulation and application are also discussed.

PR: SOCI 3290

3731 Sociology of Culture is a comparative examination of major contemporary sociological texts on the relationship between culture, broadly understood as symbolic systems, and social structure.

4071 Social and Cultural Aspects of Health and Illness covers topics which may include: cultural concepts of illness and health; theories of disease causation; relationships between social life and illness patterns; symbolic use of illness; variations in philosophies of treatment and in practitioner/patient relationships; the social organization of medicine. Open to those without normal prerequisites by permission of the Instructor.

4072 Social and Cultural Aspects of Death (S/A) will cover topics which may include: symbolic meanings and values attached to death; cultural and historical variations in the management of death; e.g., treatment of the ‘terminally ill’, burial rites, the mourning process, and the social fate of survivors, together with the social and psychological meanings of these behaviours. Open to those without normal prerequisites by permission of the Instructor.

12.30 Sustainable Resource Management

Sustainable Resource Management courses are designated by SRMG.

2000 Sustainable Resource Management I: Marine and Terrestrial Environments is an introduction to the interdisciplinary field of sustainable resource management, including marine and terrestrial environments. The course focuses on sustainable practices rather than profit or resource extraction. Students will undertake both a systematic literature review and independent research. Approved project on a topic in Sustainable Resource Management and Environmental Studies 3001. The course addresses the use of remotely-sensed images to track the location, health, and variety of natural resources such as forests, crops, and migratory populations. The lab component of the course employs GIS, GPS, satellite imagery, and aerial photography to address research concerns such as oil spills, forest fire management, iceberg tracking, ocean temperature monitoring, mining environmental assessment, and oil and gas development.

PR: Environmental Studies 2000 and Environmental Studies 3001

4001 Renewable and Non-Renewable Energy Resources presents an interdisciplinary approach to renewable and non-renewable energy resources and their management. The course examines the existing industrial economy's dependence on fossil fuels and studies renewable energy resources such as wind, solar, and geothermal.

PR: SRMG 2000

4002 Risk Assessment and Management is an introduction to risk assessment and management as interdisciplinary processes.

PR: Environmental Studies 4000

4003 Environmental Law is an introduction to laws protecting the environment in Canada and elsewhere. The course examines environmental rules and activities through the study of legal precedents and contexts. Laws and policies of the federal provincial, and local levels of government (including those pertaining to First Nations) are addressed as they affect the environment. Case studies are employed.

PR: Environmental Studies 1000

4010 Research Seminar in Sustainable Resource Management is the senior seminar in which selected sustainable resource management topics are examined from an interdisciplinary perspective. The seminars are presented on current research and environmental issues by faculty, students, and guest speakers from universities, government, and industry.

4901-4910 Special Topics in Sustainable Resource Management will have topics to be announced.

PR: SRMG 2000 and SRMG 2001

4950 Independent Research Project requires that students carry out an approved project on a topic in Sustainable Resource Management and prepare a major paper under the supervision of a faculty member. Students will undertake both a systematic literature review and independent research.

PR: Permission of the Sustainable Resource Management Chair

12.31 Theatre

Theatre courses are designated by THEA.

1000 and 1001 Introduction to the History of Theatre I and II are historical surveys of the art of the theatre. The history of theatre will be studied in terms of the evolution of performance and of the physical theatre from their origins in a variety of social rituals and contexts through to their present plurality of forms. At the same time, the nature and function of the various components of theatrical performance (acting, directing, design, etc.) will be examined in terms of period philosophical, social, cultural, political and religious contexts. These courses are open to non-theatre students.

1010 Introduction to Acting is an appreciation of the fundamentals of the craft of acting. Basic exercises in voice, movement, relaxation and concentration, improvisation and script analysis will introduce the student to the imaginative and physical skills required by an actor. This is a basic course for both Acting and Stagecraft majors.

AR: attendance is required
OR: 6 hours of studio per week

1020 Introduction to Stagecraft is an appreciation of the basic vocabulary and techniques of the various technical and organizational structures and processes that underlie the operation of the theatre. With concentration on specific plays, an awareness of concentration, role of collaboration, and role of concentration, skills in lighting, painting, props, sound and stage management. This is a basic course for both Acting and Stagecraft majors.

AR: attendance is required
OR: 6 hours of studio per week

1110 Acting I is an introductory course for those majoring in acting.
Emphasis on voice, speech, movement and text analysis. Various learning methods will be employed, from sensitivity exercises to improvisation and creative imagination exercises. Participation in in-class performance is required.

AR: attendance is required

OR: 6 hours of studio per week

PR: THEA 1000, THEA 1010, and THEA 1020

1120 Stagecraft I is an introductory course for those majoring in stagecraft. Emphasis on the fundamentals of scenic carpentry, wardrobe, sound, lighting, crewing, painting and stage management.

AR: attendance is required

OR: 6 hours of studio per week

PR: THEA 1000, THEA 1010, and THEA 1020

2010 and 2011 Acting II are second level courses for Acting Majors. Emphasis is on speech, text analysis and scene study. Various techniques and texts will be employed to root the student in the fundamental process of acting. A beginning approach to understanding the body as an instrument and the techniques required to use the instrument.

AR: attendance is required

OR: 6 hours of studio per week

PR: THEA 1001 and THEA 1110. THEA 2010 is a prerequisite for THEA 2011 and admission to the Acting Major

2020 and 2021 Stagecraft II are second level courses for the Stagecraft Major. Emphasis is on the fundamentals of drafting, stage management and props development.

AR: attendance is required

OR: 6 hours of studio per week

PR: THEA 1001 and THEA 1120. THEA 2020 is a prerequisite to THEA 2021

2080 and 2081 Production Acting is in each case work for Acting Majors in a theatre department production.

AR: attendance is required

CH: 4 credit hours each

OR: 12 hours of studio per week

PR: THEA 1110

2090 and 2091 Production Stagecraft is in each case work for Stagecraft Majors, in a departmental production in a supporting capacity (i.e. assistant stage manager, wardrobe assistant, etc.).

AR: attendance is required

CH: 4 credit hours each

OR: 12 hours of studio per week

PR: THEA 1120

3010 and 3011 Acting III are intermediate level courses for the Acting Major. Continued emphasis on speech, voice production, text analysis, etc.

AR: attendance is required

OR: 6 hours of studio per week

PR: THEA 2010 and THEA 2011, THEA 2080 and THEA 2081

3020 and 3021 Stagecraft III are intermediate courses for Stagecraft Majors. Emphasis on special carpentry, painting, lighting, sound, wardrobe, stage management, etc.

AR: attendance is required

OR: 6 hours of studio per week

PR: THEA 2020 and THEA 2021, THEA 2090 and THEA 2091

3060 and 3061 Master Classes I and II (Stagecraft) are courses for stagecraft students with a guest artist in a particular area of specialization.

AR: attendance is required

OR: 6 hours of studio per week

PR: THEA 2020 and THEA 2021. THEA 3060 is a prerequisite for THEA 3061

3070 and 3071 Master Classes I and II (Acting) are courses for Acting students with a guest artist in a particular area of specialization.

AR: attendance is required

OR: 6 hours of studio per week

PR: THEA 2010 and THEA 2011, THEA 3070 and THEA 3071

3080 and 3081 Production-Acting is in each case work, for Acting Majors on a department of theatre production.

AR: attendance is required

CH: 4 credit hours each

OR: 16 hours of studio per week

PR: THEA 2010 and THEA 2011, THEA 2080 and THEA 2081

3090 and 3091 Production-Stagecraft is in each case work, for Stagecraft Majors on a departmental production in a significant capacity (i.e. stage manager, crew chief, head of props, etc.).

AR: attendance is required

CH: 4 credit hours each

OR: 16 hours of studio per week

PR: THEA 2020 and THEA 2021, THEA 2090 and THEA 2091

3605 Music Theatre Workshop - inactive course.

4001 Theatre Institute at Harlow is a full semester's work, utilizing both the Harlow Campus and Grenfell Campus, comprising a "thesis production" involving fourth-year acting and stagecraft students in major responsibilities. A practical component in Theatre Criticism utilizing the resources of the Harlow Campus proximity to London and Stratford. A series of Master Classes, Workshops, Field Trips and Guest Lectures offered by members of the theatre profession in England. A project in a selected area of theatre history.

AR: attendance is required

CH: 10

PR: THEA 4010 or THEA 4011, THEA 4080 or THEA 4070, THEA 4080 or THEA 4090, THEA 4030, THEA 4040

4010 Acting IV is an advanced course for acting majors. Concentration on advanced scene study on texts illustrating period styles or genres of plays.

AR: attendance is required

OR: 6 hours of studio per week

PR: THEA 3010 and THEA 3011, THEA 3080 and THEA 3081

4020 Stagecraft IV is an advanced course for Stagecraft Majors with individual concentration on specific technical skills.

AR: attendance is required

OR: 6 hours of studio per week

PR: THEA 3020 and THEA 3021, THEA 3090 and THEA 3091

4030 Theory of Directing and Design is an examination and analysis of the nature and practice of directing and design from a theoretical and aesthetical perspective. A lecture/seminar course involving script analysis to examine the interpretive and imagistic processes of directors and designers.

OR: 3 seminar hours per week
