PR: THEA 3010 and THEA 3011 or THEA 3020 and THEA 3021, Visual Arts 2700 and Visual Arts 2701, and 18 credit hours in Dramatic Literature courses

4040 Directed Studies are student projects in playmaking, performance, directing, design or technical presentations supervised by faculty. In consultation with the faculty, the student will submit a proposal for a project on which he/she wishes to work. These projects will be presented in public.

OR: 6 hours of studio per week

PR: THEA 3010 and THEA 3011 or THEA 3020 and THEA 3021 and admission to the Theatre Major

4060 Master Class III (Stagecraft) is advanced work with a guest artist in a particular area of specialization.

AR: attendance is required

OR: 6 hours of studio per week

PR: THEA 3060 and THEA 3061

4070 Master Class III (Acting) is advanced work with a guest artist in a particular area of specialization.

AR: attendance is required

OR: 6 hours of studio per week

PR: THEA 3070 and THEA 3071

4080 Production-Acting is work for Acting Majors on a theatre department production.

AR: attendance is required

CH: 4

OR: 20 hours of studio per week

PR: THEA 3010 and THEA 3011, THEA 3080 and THEA 3081

4090 Production-Stagecraft is work for Stagecraft Majors on a departmental production in a significant and leading capacity (i.e. designer, stage manager, technical director, etc.).

AR: attendance is required

CH: 4

OR: 20 hours of studio per week

PR: THEA 3020 and THEA 3021, THEA 3090 and THEA 3091

12.32 Tourism

Tourism courses are designated by TRSM.

12.32.1 Core Program Course Descriptions

1000 Principles of Tourism introduces students to the history of tourism and leisure, and the development of the field of tourism studies. This will include consideration of foundational concepts such as culture and nature, research on the needs and gratifications of tourists, and studies of the functions of tourism.

OR: HKR 5665

1100 Perspectives in Tourism is an examination of tourism and the ideals, beliefs, institutions, and experiences that contribute to culture. The course will emphasize the application of the humanities and social sciences to such areas as heritage, tradition and history. The student will gain an understanding of, and appreciation for, the importance of literary, aesthetic,
philosophical and religious traditions.

### 2000 Tourism and Sustainability
Investigates the concept of sustainability and focuses on the importance of sustainable tourism initiatives, covers the demand for tourism, the role of government and industry stakeholders in the tourism planning process, and a consideration of how tourism planning strategies are developed, implemented, evaluated, and controlled. In addition, there will be an examination of the principles that structure the tourism industry.

**PR:** TRSM 1000 and TRSM 1100

### 2201 Tourism Marketing
Explores marketing processes, concepts and methods, with special interest in the initiation, development and management of new tourist enterprises. Other topics include: societal marketing philosophy, the marketing mix as it relates to tourism, market research, target behavior, branding and services marketing, and the implications of transportation systems on tourism activities, services marketing, sustainable tourism marketing, and e-marketing.

**CR:** Business 1310 and HKR 3565

**PR:** TRSM 1000 and TRSM 1100

### 3010 Issues in Ecotourism
Will, through the use of cases, examine philosophical, historical and contemporary issues and challenges in resource recreation and ecotourism. Opportunities for tourism activity based on special or unique ecological considerations and other forms of alternative tourism are examined, as are issues surrounding the sustainability, impacts, risk management, programming, tour operation, ethics, development, marketing and parks management.

**PR:** TRSM 5100. Students must have officially declared a Major in Tourism Studies, a Minor in Tourism Studies, or have been accepted into the Advanced Diploma program in Tourism Studies.

### 3100 Resource Valuation and Tourism Activity Impact Assessments
Considers contemporary issues in the allocation of scarce natural and cultural resources demanded by tourism activity, and the determinants of the demand and supply for tourism recreation. Students will examine the impacts of those tourism and leisure activities upon natural systems (e.g., cultural, ecological, socio-cultural, etc.) and economies, (local, regional, etc.). Visitor impacts will also be considered.

**PR:** Statistics course, Economics 2010 and Economics 2020. Students must have officially declared a Major in Tourism Studies, a Minor in Tourism Studies, or have been accepted into the Advanced Diploma program in Tourism Studies.

### 3240 Cultural Heritage Development
Considers built, natural and cultural resources for heritage tourism destinations on a variety of scales from World Heritage Sites to countryside and rural tourism attractions. Issues around the international context of heritage, interpretation, and packaging of cultural heritage products, regional identities and environments and the importance of small and medium sized enterprises are examined.

**PR:** TRSM 1000 and TRSM 1100. Students must have officially declared a Major in Tourism Studies, a Minor in Tourism Studies, or have been accepted into the Advanced Diploma program in Tourism Studies.

### 3800 Colloquium in Tourism Management (Applied Interpretation)
Inactive course.

### 3900 Global Issues and Tourism
Highlights the importance of responding to global tourism, and considers issues around socio-political and environmental factors influencing tourism, the impact of new social movements on tourism, the demographic and psychographics of travelers, the promotion of culture and territories, and the globalization of tourism.

**PR:** Students must have officially declared a Major in Tourism Studies, a Minor in Tourism Studies, or have been accepted into the Advanced Diploma program in Tourism Studies.

### 4010 Community and Cultural Issues in Tourism
A case-based course examines cultural diversity and developing sensitivities around an appreciation of one's own and other culturally-bound leisure and tourism activities. Students will build skills in areas such as inclusive planning, communication and negotiation, the changing nature of international tourism, identifying synergies and potential links with global partners (e.g., NL and Ireland).

**PR:** Students must have completed 78 credit hours, and have officially declared a Major in Tourism Studies, a Minor in Tourism Studies, or have been accepted into the Advanced Diploma program in Tourism Studies.

### 4900-4910 Special Topics in Tourism
A case-based course focusing on the application of major tourism theories and concepts to modern tourism industry issues. Potential areas of consideration include transportation issues in tourism, visitor management, rural tourism, urban tourism, health tourism and therapeutic recreation, island tourism, critical regionalism, maximizing the year-round potential of tourism, and contemporary research in tourism.

**PR:** TRSM 1000 and TRSM 1100. Students must have completed 78 credit hours, and have officially declared a Major in Tourism Studies, a Minor in Tourism Studies, or have been accepted into the Advanced Diploma program in Tourism Studies.

### 4950 Senior Project in Tourism
Will have students, under the guidance of a faculty member, complete an independent research project and produce a report. Topics must have the approval of the Program Chair of Tourism Studies.

**PR:** Students must have completed 78 credit hours, and have officially declared a Major in Tourism Studies, a Minor in Tourism Studies, or have been accepted into the Advanced Diploma program in Tourism Studies.

### 12.32.2 Electives Course Descriptions

#### 2300 Hospitality Management
Introduces students to the organization and structure of resorts, hotels, restaurants, and cruise ships. Areas of consideration include business ethics, service contracts, areas of management responsibility such as strategic planning, the evaluation of financial, environmental and human resources considerations.

**PR:** TRSM 1000 and TRSM 1100

#### 2301 Events Management
Provides an introduction to the principles and practices of event/festival management. The material will include the development of event attractions and facilities, and consideration of specific implications of planning in the areas of finance, human resources, environment, marketing, and quality management. In addition, special consideration is given to the infrastructure requirements, volunteers, sponsorship, fund raising, event planning, marketing and economic and tourism impacts of festivals and events.

**PR:** TRSM 1000 and TRSM 1100

#### 2305 Arts Administration and Exhibition Management
Inactive course.

#### 3210 Interpretation of Natural Resources
Inactive course.

#### 3211 Interpretation of Cultural Resources
Inactive course.

#### 3220 Conservation Planning
Inactive course.

#### 3230 Parks and Protected Areas
Examines the history and geography of national parks and other publicly protected lands, and considers the impacts of human interaction with landscapes. Additionally, the course will focus on tourism planning and management in national parks and protected areas, and investigate guidelines for best practice in tourism operations.

**CR:** HKR 3555

**PR:** TRSM 1000 and TRSM 1100. Students must have officially declared a Major in Tourism Studies, a Minor in Tourism Studies, or have been accepted into the Advanced Diploma program in Tourism Studies.

#### 4020 Seminar in Rural and Remote Tourism
Provides an overview of tourism as it intersects with rural development theory, processes and planning. In addition, the course examines various social, environmental, cultural and economic problems, consequences and opportunities within a rural/peripheral area context (e.g., visitor attraction and accommodation, special transport issues).

**PR:** Students must completed 78 credit hours, and have officially declared a Major in Tourism Studies, a Minor in Tourism Studies, or have been accepted into the Advanced Diploma program in Tourism Studies.

### 12.33 University

#### 1810 The University Experience
Introduces students to the different modes of enquiry that one finds in the University, the interrelatedness of knowledge and the role of the University in society. It also provides students with tools and techniques of study and research that can lead them to academic success and fulfilling career.

### 12.34 Visual Arts

#### Visual Arts courses are designated by VART.

#### 12.34.1 1st Year

##### 1000 Introduction to Two-Dimensional Media
An introduction to two-dimensional media (design, drawing and painting) that will provide students with both studio experience and an increased sensitivity to aesthetic concerns. Students will investigate design principles through an exploration of visual fundamentals. The course will also cover basic drawing, including drawing from life and will introduce the study of colour through the use of a variety of media. These concepts will be explored through lecture and/or studio experiences. Students are not expected to have previous drawing or art experience.

**AR:** attendance is required

**OR:** 3 hours of studio per week

**UL:** not applicable towards the Bachelor of Fine Arts (Visual Arts) degree

##### 1001 Introduction to Process Based Media
An introduction to process-based media that will provide students with both studio experience and an increased sensitivity to aesthetic concerns. Students will be shown the fundamental concepts of a variety of process-based media with selections...
being made from the media of printmaking, sculpture and photo media (photography, digital imaging, performance, video). These concepts will be explored through lecture and/or studio experiences. Students are not expected to have previous art experience.

AR: attendance is required
OR: 3 hours of studio per week
UL: not applicable towards the Bachelor of Fine Arts (Visual Arts) degree

1500 Drawing I is the fundamentals of drawing with study of line, tone, shape, volume, form, texture, space. Emphasis on drawing the human figure and studio practice.

AR: attendance is required
CO: VART 1510 and VART 1520
CR: the former VART 100A/B
OR: 4 hours of studio per week

1501 Drawing II is a continuation of work begun in Drawing I.

AR: attendance is required
CO: VART 1511 and VART 1521
CR: the former VART 110A/B
OR: 4 hours of studio per week

1510 Two-Dimensional Design and Media I is the exploration of two-dimensional surface, spatial organization and media through studio practice.

AR: attendance is required
CO: VART 1500 and VART 1520
CR: the former VART 120A/B
OR: 4 hours of studio per week

1511 Two Dimensional Design and Media II is a continuation of work begun in Two Dimensional Design and Media I

AR: attendance is required
CO: VART 1501 and VART 1521
CR: the former VART 110A/B
OR: 4 hours of studio per week

1520 Three-Dimensional Design and Media I is the exploration three-dimensional form, spatial organization and media through studio practice.

AR: attendance is required
CO: VART 1500 and VART 1510
CR: the former VART 120A/B
OR: 4 hours of studio per week

1521 Three Dimensional Design and Media II is a continuation of work begun in Three Dimensional Design and Media I.

AR: attendance is required
CO: VART 1501 and VART 1511
CR: the former VART 120A/B
OR: 4 hours of studio per week

12.34.2 2nd Year

2000 Second Year Drawing I is development of drawing skills with emphasis on the human figure and studio problems.

AR: attendance is required
OR: 4 hours of studio per week
PR: VART 1500 and VART 1501, VART 1510 and VART 1511, VART 1520 and VART 1521

2001 Second Year Drawing II is a continuation of the work begun in VART 2000.

AR: attendance is required
OR: 4 hours of studio per week
PR: VART 2000

2100 Introductory Painting I is painting media applied to problems of spatial structure, light, colour, volume and surface relationships.

AR: attendance is required
OR: 4 hours of studio per week
PR: VART 1500 and VART 1501, VART 1510 and VART 1511, VART 1520 and VART 1521

2101 Introductory Painting II is a continuation of the work begun in VART 2100.

AR: attendance is required
OR: 4 hours of studio per week
PR: VART 2100

2200 Introductory Sculpture I is development of accurate and expressive control of three-dimensional media.

AR: attendance is required
OR: 4 hours of studio per week
PR: VART 1500 and VART 1501, VART 1510 and VART 1511, VART 1520 and VART 1521

2201 Introductory Sculpture II is a continuation of the work begun in VART 2200.

AR: attendance is required
OR: 4 hours of studio per week
PR: VART 2200

2300 Introductory Printmaking I - inactive course.

2301 Introductory Printmaking II - inactive course.

2310 Introductory Printmaking: Relief is an intensive exploration of Relief Printmaking concepts and techniques using wood and lino.

AR: attendance is required
OR: 4 hours of studio per week
PR: VART 1500 and VART 1501, VART 1510 and VART 1511, VART 1520 and VART 1521

2311 Introductory Printmaking: Intaglio is an intensive exploration of Intaglio Printmaking concepts and techniques. Also includes monoprint and collagraph experience.

AR: attendance is required
OR: 4 hours of studio per week
PR: VART 1500 and VART 1501, VART 1510 and VART 1511, VART 1520 and VART 1521

2320 Introductory Printmaking: Serigraphy is an intensive exploration of Serigraphic Printmaking concepts and techniques.

AR: attendance is required
OR: 4 hours of studio per week
PR: VART 1500 and VART 1501, VART 1510 and VART 1511, VART 1520 and VART 1521

2321 Introductory Printmaking: Lithography is an intensive exploration of Lithographic Printmaking concepts and techniques.

AR: attendance is required
OR: 4 hours of studio per week
PR: VART 1500 and VART 1501, VART 1510 and VART 1511, VART 1520 and VART 1521

2400 Introductory Photography I is basic technique of black and white photography including negative exposure, film development and print production.

AR: attendance is required
OR: 4 hours of studio per week
PR: VART 1500 and VART 1501, VART 1510 and VART 1511, VART 1520 and VART 1521

2401 Introductory Photography II is a continuation of the work begun in VART 2400.

AR: attendance is required
OR: 4 hours of studio per week
PR: VART 2400

2600 Introductory Digital Imaging I is an introduction to the computer as an art-making tool. Computer basics. Creation acqisition, manipulation and output of digital images using several applications.

AR: attendance is required
OR: 4 hours of studio per week
PR: VART 1500 and VART 1501, VART 1510 and VART 1511, VART 1520 and VART 1521

2601 Introductory Digital Imaging II is a continuation of the work begun in VART 2600. Students will learn to create original artworks directly on the computer and how to incorporate images from other sources using a colour scanner. The ethics, aesthetics and theory of digital image-making for artists will also be addressed.

AR: attendance is required
OR: 4 hours of studio per week
PR: VART 2600

2900-2909 Special Topics in Visual Arts is a range of introductory topics that might include: Textile Practices, Japanese Woodblock, Introduction to Time Based Media.

AR: attendance is required
OR: 4 hours of studio per week
PR: VART 1500 and VART 1501, VART 1510 and VART 1511, VART 1520 and VART 1521

3000 Intermediate Drawing I is further development of drawing skills.

AR: attendance is required
OR: 4 hours of studio per week
PR: VART 2001

3001 Intermediate Drawing II is a continuation of the work begun in VART 3000.

AR: attendance is required
OR: 4 hours of studio per week
PR: VART 3000

AR = Attendance requirement; CH = Credit hours are 3 unless otherwise noted; CO = Co-requisite(s); CR = Credit can be retained for only one course from the set(s) consisting of the course being described and the course(s) listed; LG = Lecture hours per week are 3 unless otherwise noted; LH = Laboratory hours per week; OR = Other requirements of the course such as tutorials, practical sessions, or seminars; PR = Prerequisite(s); UL = Usage limitation(s).
3100 Intermediate Painting I is continued development of painting stressing personal expression and critical awareness.
AR: attendance is required
OR: 4 hours of studio per week
PR: VART 2101

3101 Intermediate Painting II is a continuation of VART 3100.
AR: attendance is required
OR: 4 hours of studio per week
PR: VART 3100

3200 Intermediate Sculpture I is continued development of skills in sculpture media.
AR: attendance is required
OR: 4 hours of studio per week
PR: VART 2201

3201 Intermediate Sculpture II is a continuation of VART 3200.
AR: attendance is required
OR: 4 hours of studio per week
PR: VART 3200

3300 Intermediate Printmedia I is projects in Printmedia. The course will introduce contemporary printing technologies and media applications in conjunction with development of personal expression and critical awareness in the use of printmedia.
AR: attendance is required
CR: the former VART 3310 and 3320
OR: 4 hours of studio per week
PR: 6 credit hours from any of VART 2310, 2311, 2320, 2321

3301 Intermediate Printmedia II is projects in Printmedia. In consultation with the instructor students will select the medium or combination of media in which to work.
AR: attendance is required
CR: the former VART 3311 and VART 3321
OR: 4 hours of studio per week
PR: VART 3300

3350 Directed Studies in Printmaking is a professional work/study experience in Printmaking. The student will undertake his or her own projects in Printmaking. In addition, he/she will assist the Director and/or Master printer at St. Michael's Printshop in St. John's, NL in the day-to-day operations of the studio. The student will be required to write a paper on an aspect of Printmaking as it pertains to St. Michael's Printshop. Normally this course is available during Spring Session only (May to mid-August) so that students can experience the complete summer activities scheduled at St. Michael's.
PR: 6 credit hours chosen from VART 2310, VART 2311, VART 2320, or VART 2321, and permission of the Program Chair

3400 Intermediate Photography I is critical evaluation of photographs. Continued development of photographic skills, use of colour and larger camera formats.
AR: attendance is required
OR: 4 hours of studio per week
PR: VART 2401

3401 Intermediate Photography II is a continuation of VART 3400.
AR: attendance is required
OR: 4 hours of studio per week
PR: VART 3400

3500 Combined Media I is thematic projects in combined media. In consultation with the instructor students will select the combination of media in which to work.
AR: attendance is required
OR: 4 hours of studio per week
PR: permission of the Program Chair or 48 credit hours in Visual Arts courses

3501 Combined Media II - inactive course.

3510 Digital Multi-Media I is an exploration of computer based multi-media production on the computer involving 2-D and 3-D graphics, animation, video, sound and text.
AR: attendance is required
OR: 4 hours of studio per week
PR: VART 2601

3511 Digital Multi-Media II is a continuation of the work begun in VART 3510. Students will learn how to create original artworks directly on the computer and to incorporate still images, moving images, sound and text using a colour scanner, video camera, video cassette recorder, midi devices, etc. The ethics, aesthetics and theory of digital multi-media production for artists will also be addressed.
AR: attendance is required
OR: 4 hours of studio per week
PR: VART 3510

3900-3929 Special Topics in Visual Arts is a range of intermediate topics that might include: Ideas of Landscape, Word and Image, Installation, Performance, Art and the Environment, Non-Silver Photographic Processes, Book Arts.
AR: attendance is required
OR: 4 hours of studio per week
PR: VART 1500 and VART 1510, VART 1510 and VART 1511, VART 1520 and VART 1521, VART 2700, VART 2701, and permission of the Program Chair

12.34.4 4th Year

4900-4929 Special Topics in Visual Arts is a range of senior topics that might include: Photo Journalism, Art and Politics, Community Practices, Environmental Practices.
AR: attendance in required
OR: 4 hours of studio per week
PR: VART 1500 and VART 1510, VART 1510 and VART 1511, VART 1520 and VART 1521, VART 2700, VART 2701, and permission of the Program Chair

4950 Independent Projects in Studio I will have students, under the supervision of a faculty member, produce an independent body of exploratory work and a related written artist statement and description of the progress and development of their work, and attend meetings with their faculty advisor. Students are required to submit work for evaluation at three critiques during the semester, and present a body of work and written documents to their advisor at the end of the semester.
AR: attendance is required
PR: 54 credit hours of studio courses

4951 Independent Project in Studio II will have students, under the supervision of a faculty member, produce an independent body of consistent work, and attend meetings with their faculty advisor. Students are required to submit work for evaluation at three critiques during the semester, and present a body of work and written documents to their advisor at the end of the semester.
AR: attendance in required
PR: VART 4950

12.34.5 Art History

The prerequisite for all 3000-level courses is VART 2701 or History 1101 or permission of the Chair, Visual Arts.
No students shall register in any course having an initial digit “4” unless they have successfully completed at least 6 credit hours in Art History courses or by permission of the Chair, Visual Arts.

2700 Art History Survey I (same as History 2700) is the history of art from pre-historic times to the Renaissance.
CR: History 2700

2701 Art History Survey II (same as History 2701) is the history of art from the Renaissance to the twelfth century.
CR: History 2701

3620 Philosophy of Art is an introduction to aesthetics; applications in Visual Arts, music and drama.
CR: Philosophy 3620

3700 Art History: The Italian Renaissance (same as History 3700) is an overview of the art and architecture of Renaissance Italy with an emphasis upon the historical context in which art was produced.
CR: History 3700

3701 Art History: The Renaissance Outside Italy (same as History 3701) is the Renaissance outside Italy from the late fourteenth century and the International style through the 16th century. As with the Italian Renaissance the art and architecture will be discussed in its historical context.
CR: History 3701

3702-3721 Art History: Special Topics has a range of special topics which might include: Early Renaissance Art, Art of the Later Renaissance, Canadian Art to 1900, 20th C. Canadian Art, American Art to 1900, History Context and Modern Users.

3820 Religion and the Arts (same as Religious Studies 3820) is an examination of the role of art in the expression of religious ideas, together with a study of specific religious themes and concerns in one or more of the following: literature, film, music, painting, sculpture, and dance.
PR: Religious Studies 3820

4700-4729 Art History: Special Topics has a range of senior topics which might include: British Art and Architecture, Modern Art, Modern Art II, Aesthetics, 17th and 18th Century Art, 19th Century Art, Research Project in Modernism.
4730 Art History: Modern Art I: Precursors to Modernism (same as History 4730) is an examination of the cultural, social, and political forces which, from 1750 to 1850, were to have a major impact on modernity and later modern art.
CO: 6 credit hours in Art History or permission of the Chair of the Visual Arts program
CR: History 4730
PR: 6 credit hours in Art History or permission of the Chair of the Visual Arts program

4731 Art History: Modern Art II: Early Modernism (same as History 4731) is an examination of the various cultural and social forces between 1850 and 1914 which shaped the rise of the Modern movement.
CO: 6 credit hours in Art History or permission of the Chair of the Visual Arts program
CR: History 4731
PR: 6 credit hours in Art History or permission of the Chair of the Visual Arts program

4740 Current Issues in Art - inactive course.
4741 Art Criticism - inactive course.

1. The Memorial University of Newfoundland Code

The attention of all members of the University community is drawn to the section of the University Calendar titled The Memorial University of Newfoundland Code, which articulates the University's commitment to maintaining the highest standards of academic integrity.

2. Student Code of Conduct

Memorial University of Newfoundland expects that students will conduct themselves in compliance with University Regulations and Policies, Departmental Policies, and Federal, Provincial and Municipal laws, as well as codes of ethics that govern students who are members of regulated professions. The Student Code of Conduct outlines the behaviors which the University considers to be non-academic misconduct offenses, and the range of remedies and/or penalties which may be imposed. Academic misconduct is outlined in UNIVERSITY REGULATIONS - Academic Misconduct in the University Calendar.

For more information about the Student Code of Conduct, see www.mun.ca/student/conduct/conduct.php.

3. School Description

The School of Human Kinetics and Recreation offers undergraduate and graduate degrees in kinesiology, physical education, and recreation. The School's programs prepare students to meet societal needs for professionals who are able to initiate and manage health and lifestyle-enhancing programs. The School encourages a close working relationship among students, faculty, and staff, and with local and national sport, health, and professional organizations. Co-operative education programs provide for the integration of academic and research, and scholarly activity. Many graduates of the School are leaders in the fields of physical education, sport, kinesiology, health, and recreation.

Additional information regarding the School of Human Kinetics and Recreation is available at www.mun.ca/hkr.

4. Description of Programs

All courses of the School are designated by the abbreviation HKR.

4.1. General Degrees

The School of Human Kinetics and Recreation offers six general degrees in three program areas. For specific details on each degree refer to the appropriate Program Regulations - General and Honours Degrees.

4.1.1. Kinesiology Degrees

Kinesiology degrees are designed to prepare graduates for careers in ergonomics, fitness, health and wellness, and lifestyle professions. The kinesiology degree programs consist of School courses in addition to a flexible choice of electives. The two kinesiology degrees are:

- Bachelor of Kinesiology (Co-operative): is comprised of 120 credit hours and three work terms and is taken on a full-time basis.
- Bachelor of Kinesiology: is comprised of 120 credit hours and can be taken on a full-time or part-time basis.
4.1.2 Physical Education Degrees
Physical Education degrees are designed to prepare graduates for careers in teaching and related areas. There are two physical education degrees with teaching and general options available within each degree.

The teaching option contains courses in the fundamentals of physical education as well as courses in curriculum planning, teaching methods, and pedagogy relevant to physical education curricula for various grade levels. Within the teaching option students will be placed in an educational setting for some of the course work. Following completion of a physical education degree - teaching option, a student wishing to teach in a school setting normally completes an intermediate/secondary degree program offered by the Faculty of Education. For information regarding admission requirements to the intermediate/secondary programs refer to the Faculty of Education section of this Calendar.

The general option is designed to provide basic professional preparation. The general option of the program consists of courses common to the teaching option plus a flexible choice of electives, without the requirement for curriculum and methods courses.

The two physical education degrees are:
- Bachelor of Physical Education (Co-operative): is comprised of 120 credit hours and three work terms and is taken on a full-time basis. This program is offered in the teaching and general options.
- Bachelor of Physical Education: is comprised of 120 credit hours and can be taken on a full-time or part-time basis. This program is offered in the teaching and general options.

4.1.3 Recreation Degrees
Recreation degrees are designed to provide students with the opportunity to develop professional competencies in recreation and leisure service management. There are two recreation degrees in the School of Human Kinetics and Recreation with community recreation and therapeutic recreation options available within each degree.

In community recreation the students will also gain an understanding of the social, physical, psychological, cultural, economic, and political issues that influence recreation and leisure participation, delivery, and management. The therapeutic recreation option is designed to provide professional preparation for the practice of therapeutic recreation. The two recreation degrees are:
- Bachelor of Recreation (Co-operative): is comprised of 120 credit hours and three work terms and is taken on a full-time basis.
- Bachelor of Recreation: is comprised of 120 credit hours and can be taken on a full-time or part-time basis.

4.2 Honours Degrees
Honours degrees signify superior academic achievement with specific course work in kinesiology, physical education, and recreation programs. To be considered for an Honours Degree, the student must so indicate on the prescribed “Application for Graduation” form. This form may be obtained on-line at the Memorial Self Service at www3.mun.ca/admit/twbkwbs.P_WWWLogin. Additional information is available from the Office of the Registrar at www.mun.ca/regoff/graduation/apply_grad.php For further information on honours degrees see Program Regulations - General and Honours Degrees.

4.3 Work Terms in Co-operative Programs
Students registered for work terms are also governed by the Co-operative Student Handbook. Prior to registering for the first work term, students must successfully complete the course Professional Development Seminars.

4.3.1 General Information
- During work terms students are brought into direct contact with the kinesiology, physical education, and recreation professions, exposed to the work place setting, expected to assume ever-increasing responsibility in employment situations as their education advances, and introduced to experiences beyond the scope of those which could be provided in the classroom.
- Students are responsible for finding suitable work placements. The Co-operative Education Office of the School provides resources to assist in this process.
- In addition to a work term, students may register for up to 6 credit hours, although they are advised to consult the School's Academic Program Officer.
- Students are not permitted to drop work terms without prior approval of the Committee on Undergraduate Studies and with the recommendation of the Co-operative Education Office of the School. Students who drop a work term without permission, or who fail to honour an agreement to work with an employer, will be assigned a grade of FAL (fail) for that work term.
- Students who conduct themselves in such a manner as to cause their termination from the job, will be assigned a grade of FAL (fail) for that work term.
- Students are expected to maintain professional ethics, including confidentiality.

4.3.2 Work Term Reports
- A work term report, on a topic approved by the Co-operative Education Office of the School, must be submitted for each work term. The report must be approved by the employer and submitted by the student to the Co-operative Education Office of the School on or before the appropriate deadline in the University Diary.
- Late work term reports will not be evaluated unless prior permission for a late work term report has been granted by the Co-operative Education Office of the School.

4.3.3 Evaluation of Work Terms
- Two components are considered in work term evaluation: on-the-job performance and the work term report. Each component is evaluated separately and equally. The overall evaluation of work terms will result in the assignment of one of the following letter grades: PWD (pass with distinction), PAS (pass) or FAL (fail).
5 Admission/Readmission Regulations for the School of Human Kinetics and Recreation

In addition to meeting the UNIVERSITY REGULATIONS students must meet the Admission/Readmission Regulations for the School of Human Kinetics and Recreation.

5.1 General Information

1. Entry to programs offered by the School is competitive for a limited number of placements. Meeting the minimum requirements for admission does not guarantee acceptance into the program. The final decision on admission rests with the Admissions Committee of the School.

2. Admission or readmission to the University does not necessarily constitute admission or readmission to any program.

3. Up to three positions per year in the School of Human Kinetics and Recreation may be designated for applicants of aboriginal ancestry who have met the admission requirements of the program. Applicants must send a letter of request at the time of application and provide documentation of aboriginal ancestry.

5.2 Application Forms and Deadlines

1. All programs of the School commence in the Fall semester. The deadline for application for admission is March 1.

2. The deadline for application for readmission, for students who were previously admitted to a School program, is June 1 for the Fall semester, October 1 for Winter, and February 1 for Spring.

3. Application forms are available in person from the School's General Office and the Office of the Registrar or through the School's website at www.mun.ca/hkr. Application forms may also be obtained by writing the School of Human Kinetics and Recreation, Memorial University of Newfoundland, St. John's, NL, A1C 5S7 or the Office of the Registrar, Admissions Office, Memorial University of Newfoundland, St. John's, NL, A1C 5S7.

4. All applications for admission or readmission must be submitted to the Office of the Registrar. A complete application includes an application to the University (for those who have not attended Memorial University of Newfoundland in the three preceding semesters), an application to the School, and any other required supporting documentation. Application fees must be paid when the application forms are submitted.

5. In addition to these requirements, students applying to the physical education programs must:
   - submit a 250 word autobiographical statement highlighting the applicant's experiences of teaching and learning and demonstrating a commitment to leading a physically active lifestyle. Further information is available from the School's website at www.mun.ca/hkr, and
   - submit a current first aid certificate, and
   - complete the School's swim test. Students applying from outside St. John's should call the School's General Office at (709) 864-8130 to contact the swim test co-ordinators to arrange for testing. In lieu of the School swim test, a level 8 Red Cross or other credential satisfactory to the School may be accepted. Students unable to complete the swim test requirement before beginning their program must successfully complete this requirement by the end of October of their first semester of admission to the program. Failure to do so will result in the student being required to withdraw from the program at the end of their first semester.

5.3 Admission Requirements to School Programs

Applicants may apply for admission to School programs under the Categories Of Applicants, Admission Criteria and Other Information outlined under UNIVERSITY REGULATIONS - Admission/Readmission to the University (Undergraduate). In addition to meeting these regulations, applicants in the following categories, other than those applying for admission to the Bachelor of Recreation degree program, must meet the additional requirements as indicated below.

5.3.1 High School Applicants

- High school applicants to the kinesiology degree programs must have completed:
  - Level III Laboratory Science with a grade of at least 70%, and either
  - Level III Advanced Mathematics, or Level III Academic Mathematics with a grade of at least 70%, or Level III Academic Mathematics and a score on the Mathematics Placement Test acceptable to the Department of Mathematics and Statistics. For further information on the Mathematics Placement Test contact the Department of Mathematics and Statistics.
5.3.2 Memorial University of Newfoundland Applicants

- To be eligible for consideration for admission to all programs, students who are attending or have previously attended this University must have a cumulative average of 60% or an average of 65% on their last 30 credit hours.
- Overall academic performance is an important criterion in reaching decisions on applications for admission, and will be considered, in the selection process.
- In addition to overall academic achievement and evidence of ability to successfully maintain a full course load, admission decisions shall normally include a review of the applicant's average in the following 15 credit hours:
  - **Kinesiology and Physical Education Applicants**: 6 credit hours in English; 6 credit hours in Math, or Math 1000 and 3 credit hours in an elective; and HKR 2000 or an elective.
  - **Recreation Applicants**: 6 credit hours in English; 6 credit hours in Psychology; and HKR 2000 or an elective.
- A maximum of one repeated course may be included among the 15 admission credit hours.
- Students who are attending or have previously attended this University are not required to submit a copy of their transcript with their application(s).

5.3.3 Transfer Applicants

- Applicants seeking admission through transfer from accredited post-secondary institutions must have achieved a minimum overall average of 60% to be considered for admission.
- A student's placement within a program, and requirements needed to complete the program, will be determined on an individual basis at the time of admission. No applicant will be granted placement beyond Academic Term 4.
- Transfer applicants must request that an official transcript showing any completed courses and current registrations be forwarded to the Office of the Registrar. Final transcripts must be submitted upon receipt of final grades.

5.4 Other Information

1. The School will notify applicants in writing regarding an admission decision to a School program.
2. Students admitted to a program at any level beyond Academic Term 1, without successfully completing all courses required up to that level, must successfully complete those courses prior to the end of their last academic term. Successful completion shall mean a minimum grade of 50% in every non-HKR course and a minimum grade of 60% in every HKR course.
3. Students who have been admitted to one program offered by the School and who wish to change to another program within the School must submit a new application for admission to the program. This application must be submitted to the Office of the Registrar by the March 1 deadline date and will be considered in competition with all other applications.
4. Students admitted full time to a program and who decline the offer of admission or who fail to register for courses during the Fall term of admission will be considered withdrawn from the program. Such students, if they subsequently wish to be considered for admission, must submit a new application for admission to the program. This application must be submitted to the Office of the Registrar by the March 1 deadline date and will be considered in competition with other applications.
5. Students admitted part time to a program and who decline the offer of admission or who fail to register for courses and to successfully complete at least 6 credit hours applicable to the degree during each academic year will be considered withdrawn from the program. Such students, if they subsequently wish to be considered for admission, must submit a new application for admission to the program. This application must be submitted to the Office of the Registrar by the March 1 deadline date and will be considered in competition with other applications.
6. While the School of Human Kinetics and Recreation does not require criminal record checks or other screening procedures as a condition of admission to its program, Physical Education students may be required by a school district to submit a Certificate of Conduct before placement in a school setting, such as HKR 3110. Students are encouraged to seek the Certificate of Conduct before registration in HKR 3110. Each Physical Education student is responsible for obtaining a Royal Newfoundland Constabulary or Royal Canadian Mounted Police Certificate of Conduct at his or her own expense. Details are available from the General Office of the School of Human Kinetics and Recreation.

6 Program Regulations - General and Honours Degrees

6.1 Bachelor of Kinesiology (Co-operative)

- The full-time 120 credit hour Bachelor of Kinesiology (Co-operative) requires 69 HKR credit hours, 51 non-HKR credit hours, and three work terms.
- The 120 credit hours shall normally be taken in the academic terms in the sequence and course load as set out in Table 1 Bachelor of Kinesiology (Co-operative). Students wishing to change the sequence and/or reduce the course load required in the academic terms must first consult with the School's Academic Program Officer.
- Work terms shall be taken in the term and sequence as set out in Table 1 Bachelor of Kinesiology (Co-operative).

6.2 Bachelor of Physical Education (Co-operative)

6.2.1 Teaching Option

- The full-time 120 credit hour Bachelor of Physical Education (Co-operative) - Teaching Option requires 69 HKR credit hours, 51 non-HKR credit hours, three work terms, and a first aid certificate and a CPR certificate both of which must be current at the time of graduation.
- The 120 credit hours shall normally be taken in the academic terms in the sequence and course load as set out in Table 2 Bachelor of Physical Education (Co-operative) - Teaching Option. Students wishing to change the sequence and/or reduce the course load required in the academic terms must first consult with the School's Academic Program Officer.
- The three work terms shall be taken in the term and sequence as set out in Table 2 Bachelor of Physical Education (Co-operative) - Teaching Option.
- Students must complete 24 credit hours in an acceptable Academic Discipline or Minor. In choosing the minor students must follow the minor regulations of the appropriate Faculty or School. In choosing the Academic Discipline students must select from and follow the Academic Discipline requirements of the Faculty of Education Bachelor of Education (Intermediate/Secondary) Admission Regulations. No more than 6 credit hours at the 1000 level may be included in the 24-credit-hour Academic Discipline. At least 3 credit hours at the 3000 level or higher must be included in the 24-credit-hour Academic Discipline.

6.3 Bachelor of Recreation (Co-operative)

- The full-time Bachelor of Recreation (Co-operative) requires 120 credit hours and three work terms.
- The 120 credit hours shall normally be taken in the academic terms in the sequence and course load as set out in Table 4 Bachelor of Recreation (Co-operative). Students wishing to change the sequence and/or reduce the course load required in the academic terms must first consult with the School’s Academic Program Officer.
- The three work terms shall be taken in the sequence as set out in Table 4 Bachelor of Recreation (Co-operative).
- A minor is optional in the Bachelor of Recreation (Co-operative) program. Students following the therapeutic recreation option may opt to choose a minor of at least 24 credit hours in Psychology. Students following the community recreation option may opt to choose a minor of at least 24 credit hours in English, Math, Psychology, or Sociology. In completing the minor, students must follow the minor program regulations listed under the appropriate faculty or school.

6.4 Bachelor of Kinesiology

- The full-time and part-time 120 credit hour Bachelor of Kinesiology requires 69 HKR credit hours and 51 non-HKR credit hours.
- Students admitted full time shall normally complete the 120 credit hours in the academic terms in the sequence and course load as set out in Table 5 Bachelor of Kinesiology. Students wishing to change the sequence and/or reduce the course load required in the academic terms must first consult with the School’s Academic Program Officer.
- Students admitted part time should consult with the School’s Academic Program Officer regarding course sequence.

6.5 Bachelor of Physical Education

6.5.1 Teaching Option

- The full-time and part-time 120 credit hour Bachelor of Physical Education - Teaching Option requires 69 HKR credit hours, 51 non-HKR credit hours, and a first aid certificate and a CPR certificate both of which must be current at the time of graduation.
- Students admitted full time shall normally complete the 120 credit hours in the academic terms in the sequence and courses load as set out in Table 6 Bachelor of Physical Education - Teaching Option. Students wishing to change the sequence and/or reduce the course load required in the academic terms must first consult with the School's Academic Program Officer.
- Students admitted part time should consult with the School's Academic Program Officer regarding course sequence.
- Students must complete 24 credit hours in an acceptable Academic Discipline or Minor. In choosing the minor students must follow the minor regulations of the appropriate Faculty or School. In choosing the Academic Discipline students must select from and follow the Academic Discipline requirements of the Faculty of Education Bachelor of Education (Intermediate/Secondary) Admission Regulations. No more than 6 credit hours at the 1000 level may be included in the 24-credit-hour Academic Discipline. At least 3 credit hours at the 3000 level or higher must be included in the 24-credit-hour Academic Discipline.

6.6 Bachelor of Recreation

- The full-time and part-time Bachelor of Recreation is comprised of 120 credit hours as set out in Table 8 Bachelor of Recreation - Course and Credit Hour Requirements.
- A minor is optional in the Bachelor of Recreation program. Students following the therapeutic recreation option may opt to choose a minor of at least 24 credit hours in Psychology. Students following the community recreation option may opt to choose a minor of at least 24 credit hours in English, Math, Psychology, or Sociology. In completing the minor, students must follow the minor program regulations listed under the appropriate faculty or school.
- Students admitted part-time should consult with the School's Academic Program Officer regarding course sequence.

6.7 Honours Degrees

1. An honours degree signifies superior academic achievement.
2. An application for admission to any of the honours degrees is not required. Rather, students indicate on the prescribed application for graduation form that they wish to be considered for an honours degree.
3. To receive an honours degree, a candidate shall:
   - meet the requirements of the general degree;
   - successfully complete HKR 4600 and HKR 4610 with a minimum grade of 80% in each course
   - obtain an overall average of 80% or better on all HKR courses for the degree; and
   - obtain an overall average of 70% on the non-HKR credit hours required for the degree.
4. A candidate for the honours degree who does not fulfill these conditions but fulfills the requirements for the general degree shall be awarded the general degree.
5. A candidate may, with the approval of the Committee on Undergraduate Studies, repeat or substitute up to three courses in order to meet the requirements of clause 3 above. In counting repeats, each attempt at the same course will count as one course towards the maximum. That is, the same course, repeated three times, would place a student at the maximum and no additional repeats or substitutions would be allowed.
6. Candidates are not permitted to repeat or substitute work terms for the purpose of meeting the academic requirements for honours degrees.
7. A candidate who, for academic reasons, has been required to withdraw from a program offered by the School will not be eligible for the honours degree.
7 Promotion Regulations

7.1 General Information
- In addition to meeting the promotion regulations for the School of Human Kinetics and Recreation all students must meet the general academic regulations (undergraduate). For further information refer to UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate).
- Success in the programs depends on meeting the requirements of both academic terms and work terms.
- To be promoted a student must, in addition to obtaining the requisite grades and average, complete and deliver all work term reports as required.

7.2 Promotion Status
- A student's promotion status at the end of each term will be in one of the following four categories:

7.2.1 Clear Promotion
Clear Promotion means a student can proceed to the next term without restrictions.
- Students completing an academic term will receive a Clear Promotion by obtaining an overall average of at least 60%, with a numeric grade of at least 60% in each HKR course, and a numeric grade of at least 50% in each non-HKR course.
- Students completing a work term will receive a Clear Promotion by obtaining a PAS (pass) or a PWD (pass with distinction) in the work term.
- Students completing courses in addition to a work term must obtain a PAS (pass) or a PWD (pass with distinction) in the work term and an overall average of at least 60%, with a numeric grade of at least 60% in each HKR course, and at least 50% in each non-HKR course.

7.2.2 Probationary Promotion
Probationary Promotion designates less than a Clear Promotion but requires an overall average of at least 60%, with a numeric grade of at least 50% in each course, and not more than one HKR course with a numeric grade below 60%.
- A student with Probationary Promotion at the end of Academic Term 1 may be permitted to enter Academic Term 2 but must have Clear Promotion by the end of Academic Term 2.
- A student with Probationary Promotion from any academic term may continue to the subsequent work term under the condition that entry into the next academic term is not allowed until the student's status is changed to Clear Promotion.
- A student with Probationary Promotion at the end of the final academic term will not be recommended for graduation until the student's status is changed to Clear Promotion.
- To change Probationary Promotion to Clear Promotion the student must satisfy the School that he or she is competent in the subject of the HKR course in which the student has failed to achieve 60%. This will normally entail re-examination, after which the student will be declared to have passed or failed a test of competency in the subject concerned. Re-examination is normally available only to a student who has submitted all required coursework during the semester. No numerical grade will be assigned in the re-examination, and the original grade submitted for the course will not be changed.
- Re-examination may be written, oral, practical or a combination of formats and will be at a time determined by the School.
- Only one re-examination is permitted per course.
- A maximum of two re-examinations is permitted in a student's degree program. If a student is awarded a grade of less than 60% in a third HKR course, the student will be required to repeat or replace the course.
- It is the responsibility of the student to arrange for re-examination before the end of the first week of the student's next academic term. If re-examination is not arranged in accordance with this time frame, the student will be required to repeat or replace the course.
- The School may recommend that the student complete remedial studies before re-examination.

7.2.3 Probationary (A) Promotion
Probationary (A) Promotion designates failure to successfully complete the required components of HKR 2210, 2220, 3210, 3220, 4210 and 4220 in a given term.
- Probationary (A) Promotion will be given upon the recommendation of the course instructor/Co-ordinator and/or the Committee on Undergraduate Studies and only for extreme circumstances, duly authenticated.
- A student with Probationary (A) Promotion in any term will be permitted to enter subsequent terms and will receive a letter grade of INC (incomplete) in the course. A final numeric grade will not be received until the required components of each course have been successfully completed. Academic Council will grant this status, taking into account the specific factors involved in each case. This status is not automatic, as failure to successfully complete all required components of each course would normally result in a failing grade.
- To change Probationary (A) Promotion to Clear Promotion, a student must successfully complete the activity course(s), with a minimum grade of 60%, within one academic year of the date on which the original grade(s) of Incomplete was (were) recorded.
- A student with Probationary (A) Promotion at the end of the final academic term will not be recommended for graduation until the student has successfully completed all required components of all courses, and the student's status is changed to Clear Promotion.

7.2.4 Promotion Denied
Promotion Denied indicates Clear Promotion is not achieved each term or following probation.
- A student with Promotion Denied status will be required to withdraw from the School. Students with Promotion Denied status may apply for readmission to the program after two semesters. A student will normally be readmitted into the term from which promotion was denied.
- A student who is denied promotion for failing a work term may be considered for readmission after the lapse of two semesters, at which time the student will be required to complete a further work term with satisfactory performance before being admitted to any further academic term in the School. A work term may be repeated only once, and not more than two work terms may be repeated in
the entire program.

- A student who has been denied promotion as a result of having failed a work term and who, in the opinion of the School, can benefit from a remedial program, may be permitted an extension of time not to exceed the end of the registration period of the subsequent semester to complete the requirements of the work term.
- A student who is denied promotion as a result of grades received in HKR and non-HKR courses will be required to repeat all HKR courses in which they obtained a numeric grade of less than 60% in that term. A non-HKR course may be replaced by a course acceptable in the student's program.
- A student with Promotion Denied status at the end of the final academic term will not be recommended for graduation until the student's status is changed to Clear Promotion.

7.3 Other Information

- The Committee on Undergraduate Studies will determine each student's promotion status at the end of each term and will make its recommendations to Academic Council.
- Academic Council may promote a student notwithstanding the promotion regulations given above. A decision of this nature will be made only for reasons acceptable to Academic Council and in the case of a student thought likely to succeed in future terms.
- A student shall be permitted only one readmission to the School.
- Students may be required to withdraw from their program at any time, if, in the opinion of the School, they are unlikely to benefit from continued attendance.

8 Graduation

Upon meeting the qualifications for any of the programs of the School of Human Kinetics and Recreation a student must apply by the appropriate deadline date to graduate on the prescribed "Application for Graduation" form. This form may be obtained on-line at the Memorial Self Service at www3.mun.ca/admit/twbkwbis.P_WWWLogin. Additional information is available from the Office of the Registrar at www.mun.ca/regoff/graduation/apply_grad.php.

9 Waiver of School Regulations

Every student has the right to request waiver of School regulations. Students wishing waiver of University academic regulations should refer to UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate) - Waiver of Regulations.

9.1 General Information

- The School reserves the right in special circumstances to modify, alter, or waive any School regulation in its application to individual students where merit and equity so warrant in the judgment of the Committee on Undergraduate Studies of the School.
- All requests, other than requests for waiver of a prerequisite or co-requisite of a School course, must be submitted to the Committee on Undergraduate Studies of the School for consideration. Waiver of a School course prerequisite or co-requisite may be granted by the course instructor.
- Students requesting a waiver of a School regulation, other than requests for waiver of a prerequisite or co-requisite of a School course, must submit their request in writing to the Chair of the Committee on Undergraduate Studies on the prescribed form which is available from the School's general office. Medical and/or other documentation to substantiate the request must be provided.
- Any waiver granted does not reduce the total number of credit hours required for the degree.
- In addition, regardless of any waiver granted, students enrolled in a co-operative program must successfully complete a minimum of two work terms.

10 Appeal of Decisions

Any student whose request for waiver of School regulations has been denied has the right to appeal. For further information refer to UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate) - Appeal of Decisions.
11 HKR Courses Available to Students Not Enrolled in a Program Offered by the School

11.1 Regulations for Students Not in a Program Offered by the School

- Students not in a program offered by the School may register for a maximum of 15 credit hours only from the following list if space is available.
- Students who have been required to withdraw from a program offered by the School may not register for any HKR course.
- Students not in a School program will be required to drop any HKR course(s) in excess of 15 credit hours and may be subject to academic and financial penalties.

11.2 HKR Courses

1000 Fitness and Wellness
1001 Resistance Training for Health and Activity
2000 Introduction to Kinesiology, Physical Education and Recreation
2002 Coaching
2300 Growth and Development
2310 Human Anatomy
2311 Anatomy and Physiology for non-HKR Students
2320 Primary Human Physiology
2515 Social Psychology of Leisure
2585 Recreation and Persons with Disabilities
2600 Introduction to Human Nutrition
2601 Physical Activity, Obesity, and Weight Control
3360 Care and Prevention of Athletic Injuries
3400 Social Determinants of Health and Physical Activity
3410 Sociology of Sport
3490 Gender in Sport and Physical Activity
3535 Legal Aspects of Leisure and Recreation Services
3555 Gender and Leisure
4330 Social Psychology of Sport, Physical Activity and Recreation

12 Course Descriptions

In accordance with Senate's Policy Regarding Inactive Courses, the course descriptions for courses which have not been offered in the previous three academic years and which are not scheduled to be offered in the current academic year have been removed from the following listing. For information about any of these inactive courses, please contact the Dean of the School.

All courses of the School are designated by HKR.

1000 Fitness and Wellness is an introduction to the concepts of fitness and wellness, and the relationships among physical activity, fitness, wellness, quality of life, and longevity.

1001 Resistance Training for Health and Activity is an introduction to resistance training exercises, programs, and principles.

1123 Professional Development Seminars are offered during the Fall semester prior to a student's first work term. These seminars introduce the co-operative education process and prepare the student for work terms. These seminars are graded PAS or FAL based on attendance and participation.

2000 Introduction to Kinesiology, Physical Education and Recreation introduces, the philosophical, scientific, socio-cultural, historical concepts, and influences in kinesiology, physical education, and recreation.

2001 Introduction to Physical Education for Education Students provides students a general overview of the role that physical education and active living play in the overall development of primary and elementary students, and in the creation of positive learning environments in schools. This course is intended for students in the primary/elementary program offered by the Faculty of Education.

2002 Coaching introduces the various methods, principles, and theories used to coach developing athletes in various sport settings. Factors such as the coach's role, planning, analysing and developing skills, sport safety, and physical preparation will be presented with an emphasis on attaining competency in these areas.

2004 Enhancing Performance in Physical Activity gives an overview of the various models, principles, and theories used to explain and predict ways in which athletes and exercisers conduct themselves in various sport settings. Selected intervention techniques to enhance performance will be presented.

2005 Personal Stress Management is designed to provide students with an introduction to stress and to explore the relationship between exercise, fitness and physical activity and stress management. It describes how to reorganize one's life by presenting a systematic analysis of stress and coping mechanisms appropriate to different stages of life. The stress coping mechanisms will be presented with an emphasis on application. Completion of this course does not qualify students as stress management counsellors. Students interested in this field are advised to contact the Department of Psychology for information on careers in counselling.

AR: attendance is required.
CH: 0
LC: as scheduled

2100 Introduction to Organization and Administration introduces the basic administrative functions in a work setting in physical education and/or recreation. The laboratory sessions will assist students to develop skill in the basic computer applications relevant to these functions.

2210 Physical Activities Course: Movement Concepts employs the conceptual approach to teaching physical activity and facilitated through various forms of dance (e.g., creative, folk). Concepts, skills, and strategies will be emphasized.

AR: attendance is required. Students who are absent more than six class hours may be required to withdraw from the course and will receive a letter grade of DRF and a numeric grade of 0.

2220 Physical Activities Course: Gymnastics and Aquatics may employ a number of teaching methods. Emphasis will be placed on the language and practice of the conceptual approach. Concepts, skills, and strategies will be emphasized.

AR: attendance is required. Students who are absent more than six class hours may be required to withdraw from the course and will receive a letter grade of DRF and a numeric grade of 0.
2300 Growth and Development is an introductory study of human growth and developmental factors and their influence on the learning of motor skills.

2310 Human Anatomy is a study of the structure of the human body with emphasis on selected systems (endocrine, neural, muscular, skeletal, cardiovascular, respiratory).

2311 Introduction to Anatomy and Physiology is designed to provide students with general overview of the anatomy and physiology of the human body. Students will explore skeletal, muscular, neural and cardiorespiratory systems in addition to a very brief introduction to cell structure and ‘cellular’ muscle function.

2320 Primary Human Physiology is a study of bodily functions with emphasis of selected systems (endocrine, neural, muscular, cardiovascular, respiratory).

2340 Fitness Leadership (formerly HKR 4320) prepares professionals in the administrative, interpretive, instructional, interpersonal, and pedagogical competencies required for and associated with fitness testing, prescription, teaching, and leadership.

2410 Historical and Comparative Physical Education - inactive course.

2420 Doping in Sport - inactive course.

2505 Recreation Programming and Evaluation introduces the student to a variety of methodologies, skills, and materials for planning, developing, implementing, and evaluating professional recreation programs for diverse populations in a variety of settings.

2515 Social Psychology of Leisure introduces the personality and social factors that influence leisure experience. Course materials will focus on life cycle theory, intrinsic and extrinsic motivation, perceived freedom, constraints theory, and other social psychological theory related to leisure.

2545 Introduction to Outdoor Recreation and Education gives an overview of the foundational principles of outdoor education and recreation as it relates to philosophy, wilderness ethics, professional preparation, movement through wildlands, environmental hazards, navigation, and safety. Students will participate in a sampling of outdoor education and recreation activities during the course including a three-day field trip.

2585 Foundations of Therapeutic Recreation is designed to examine a variety of aspects of therapeutic recreation from both a practical and theoretical perspective. Topics will include the history, philosophies, and theories underlying therapeutic recreation, therapeutic recreation models, essential skills for the therapeutic recreationist and ethical considerations for therapeutic recreation. Diverse groups (e.g. adults, youth, disadvantaged and disabled) and settings (e.g. community, schools, institutions, and workplace) suitable for therapeutic recreation will be discussed.

2600 Introduction to Human Nutrition (same as Biochemistry 2630) gives an overview of human nutrition with an emphasis on topics of current interest. Students will gain an understanding of nutrition in the context of health maintenance across the life span. Topics covered will include nutrition during pregnancy, nutrition for infants, Canadian Recommended Nutrient Intakes (Canada’s Dietary Reference Intake), weight loss and weight gain, nutrient deficiencies, and ergogenic aids.

2601 Physical Activity, Obesity, and Weight Control explores the relationship between physical activity, obesity, and morbidity. Emphasis will be placed on the incidence and prevalence of obesity, environmental and genetic factors affecting obesity, and mechanisms of weight and body composition modification.

2703 Introduction to Human Factors is an introduction to the field of human factors, the field that studies aspects of human movement, health, safety, and performance in the workplace. This will include an introduction to the methods of detection, evaluation, and the physiological changes arising from hazards (e.g. inappropriate levels of noise, vibration, and illumination) in the workplace. The course will also examine overuse injuries in workplace studied in the context of basic biomechanics and function of the musculoskeletal system.

299W Work Term 1 offers an opportunity for students to learn, develop, and practice high standards of professional behaviour and performance in the work environment. A student is required to submit a personal job diary and a report which should, at a minimum, reflect a clear understanding of job events and work place expectations and show reasonable competence in written communication skills.

3002 Advanced Coaching is an advanced study of the various methods, principles, and theories used to coach athletes in various sport settings. Topics such as planning, the coach’s role, analysing, and developing skills, mental training, physical preparation, and development of a personal coaching plan will be studied with an emphasis on attaining competency in these areas. Practical coaching experience is a required component of the course.

3110 Curriculum Development and Teaching Methods gives an overview, through a blend of theory and practical experience, of curriculum development and teaching methods as they apply to primary/elementary level physical education.

3210 Physical Activities Course: Group Exercise, Net/Wall and Health Related Fitness covers activities such as volleyball, tennis, badminton, plus a selection of other net & wall games. A number of teaching methods may be employed and emphasis will be placed on the language and practice of the conceptual approach. Concepts, skills, and strategies will be emphasized.

AR: attendance is required. Students who are absent more than six class hours may be required to withdraw from the course and will receive a letter grade of DRF and a numeric grade of 0. LC: as scheduled

PR: HKR 2505

3220 Physical Activities Course: Summer Outdoor Activities and Target/Striking Activities covers activities such as golf, archery, softball, and track and field. Outdoor activities include canoeing, orienteering, lightweight camping, overnight canoe trip, and introduction to rock climbing. A number of teaching methods may be employed and emphasis will be placed on the language and practice of the conceptual approach. Concepts, skills, and strategies will be emphasized.

AR: attendance is required. Students who are absent more than six class hours may be required to withdraw from the course and will receive a letter grade of DRF and a numeric grade of 0. LC: as scheduled

PR: HKR 2210, HKR 3210

3221 Wilderness First Aid for Outdoor Leaders provides a minimum standard for outdoor professionals, guides and instructors who work in a wilderness setting. Course content extends beyond urban-based first aid programs to include elements inherent in leading groups in the outdoors and guiding wilderness adventures. Special emphasis is placed on prevention of injuries, accident scene management, leadership, leader responsibility and liability, advanced first aid kits, wound management and managing the trauma victim. CPR is included in this course.

3300 Motor Learning gives an overview of motor learning and performance variables and their application to the teaching of physical skills, and will investigate motor control issues related to skill instruction.

PR: HKR 2300

3310 Physiology of Exercise covers the physiological responses of the metabolic, neuromuscular, and cardiorespiratory systems at rest and during acute and chronic activity.

LC: 3

PR: HKR 2310 and 2320; or Biochemistry 311A and 311B; or Nursing 1002 and 1012; or the former Pharmacy 3201 and 3202

3320 Introduction to Biomechanics is the analysis of human movement; the mechanics of motion and the general application of kinesiology.

CO: HKR 2320

LC: 2

PR: HKR 2310 It is strongly recommended that students successfully complete Physics 1020 prior to enrolling in this course

3330 Health Issues I covers issues in personal and community health related to infectious illness, degenerative illness, heredity, and nutrition.

3340 Adapted Physical Activity presents an overview of current practices, philosophies, and issues related to physical activity and recreation for populations with disabilities.

AR = Attendance requirement; CH = Credit hours are 3 unless otherwise noted; CO = Co-requisite(s); CR = Credit can be retained for only one course from the set(s) consisting of the course being described and the course(s) listed; LC = Lecture hours per week are 3 unless otherwise noted; LH = Laboratory hours per week; OR = Other requirements of the course such as tutorials, practical sessions, or seminars; PR = Prerequisite(s); UL = Usage limitation(s).
persons with disabilities. Knowledge and understanding of various disabling conditions and consequent needs of persons with disabilities, including health, safety and fitness, and how these needs may be met in terms of physical activity will be emphasized.

CR: HKR 3685

3350 Health Issues II - inactive course.

3360 Care and Prevention of Athletic Injuries is a basic introduction to the field of athletic therapy and sports medicine. The content focuses on the prevention and care of sports injuries and covers topics such as preventive screening, safe environments, on the spot assessment and First Aid, legal responsibility, and supportive taping/wrapping.

PR: HKR 2310 and a Basic First Aid Course

3400 Social Determinants of Health and Physical Activity provides students with a social, political, economic, environmental, and cultural perspective on health and health inequalities. A concentrated look at contemporary health issues using the social determinants of health model will give students with critical skills necessary to consider health issues beyond physical pathologies.

3410 Sociology of Sport (same as Sociology 3410) is an analysis of functions of sport in Canadian and North American society. Areas include social organization of sport, sport and social processes, sport and social problems, socialization and stratification of sport, and violence in sport.

CR: Sociology 3410

3485 Therapeutic Recreation Service Delivery focuses on issues related to the delivery of therapeutic recreation services. In particular, the following topics will be addressed: documentation in therapeutic recreation; client assessment issues; therapeutic recreation program planning (identifying client needs, selecting appropriate interventions, task and activity analysis, planning change-oriented programs, writing behavioural objectives, etc.); program and client evaluation; written plans of operation.

PR: HKR 2585 and HKR 2605

3490 Gender in Sport and Physical Activity provides students with an opportunity to examine, understand and appreciate critically the influences of gender to the areas of sport and physical activity. The student will be expected to analyse, synthesize, and evaluate a wide range of historical, cultural, philosophical, and socio-psychological issues that have shaped the nature and scope of participation in sport and physical activity.

3505 Adventure Programming - inactive course.

3515 Therapeutic Recreation in Outdoor Settings provides an introduction to current philosophy, issues, and practices relating to therapeutic recreation in outdoor settings. This course is designed to provide students with the knowledge and skills necessary to practice therapeutic recreation in outdoor settings.

3525 Canadian Recreation Delivery Systems introduces recreation and sport delivery systems in Newfoundland and Canada. The course will examine the various agencies that administer recreation and sport at municipal, provincial, and national levels.

PR: HKR 2000

3553 Legal Aspects of Leisure and Recreation Services provides students with an opportunity for in-depth study of legal issues related to the operation of leisure services and facilities. Issues of tort and contract liability; employment law, legal aspects of human rights, and freedoms; and administrative procedures involved in property acquisition, law enforcement, and risk management are the topics of this course.

3545 Outdoor Recreation Leadership acquaints students with the breadth, depth, and scope of outdoor recreation leadership including a detailed examination of theories, principles, and practices. The course provides opportunities for individual students to develop practice, and receive feedback on their outdoor leadership skills. The course includes a required field experience in outdoor recreation leadership.

PR: HKR 2505 or HKR 2620

3555 Outdoor Recreation Management provides an overview of outdoor recreation administration in Newfoundland and Labrador. This course will examine the management of resources, conservation education and practices, and development for public use or exclusion; legislation related to management of risk, viability of facilities; national and provincial agencies; private commercial ventures; and future trends in management. Management strategies will form a major part of the course.

3565 Tourism/Commercial Recreation examines behavioural factors influencing tourism; promotion of commercial recreation attractions; provincial strategies in travel and tourism; problems of leisure travel; stability of commercial ventures in tourism, and research and planning strategies relevant to commercial ventures.

3575 Community Development and Recreation introduces various theoretical perspectives on community organization and development, as well as methods available to the recreation practitioner to facilitate the development of recreation services in communities. This course examines, in particular, recreation services delivery which involves community residents and groups in recreation program decision-making and implementation.

CR: HKR 3785

3595 Gender and Leisure provides students with an opportunity to examine, understand and appreciate critically the influences of gender on leisure. The student will be expected to analyse, synthesize, and evaluate a wide range of historical, cultural, philosophical, and socio-psychological issues that have shaped the nature and scope of participation in leisure.

3685 Assessment and Documentation in Therapeutic Recreation provides an overview of current practices, philosophies, and issues related to recreation and leisure for persons with disabilities. Knowledge and understanding of various disabling conditions and needs of persons with disabilities from a therapeutic recreation perspective. Students will focus on communication skills necessary to carry out these tasks successfully. This requires the ability to actively listen, document with correct terminology, and interpret data to plan for treatment services.

CR: HKR 3540

PR: HKR 2585

3755 Community Development and Recreation in Therapeutic Recreation Settings introduces various theoretical perspectives on community organization and development, as well as methods available to the therapeutic recreation practitioner to facilitate the development of recreation services in communities. Various issues such as poverty, ethnicity, and disability will be addressed. This course employs an ecological perspective in examining therapeutic recreation service delivery which involves community residents and groups in recreation program decision-making and implementation. The interconnectedness between leisure education, recreation and health and community development is discussed.

CR: HKR 3575

399W Work Term 2 offers an opportunity for students to further expand and develop professional knowledge and skills, while demonstrating the ability to accept increased responsibility and challenge in the workplace. A student is expected to demonstrate competence in written communication skills through the maintenance of a personal job diary and the submission of a formal report demonstrating the student's ability to effectively gather, analyse, organize, and present information regarding a specific aspect of the work term position.

CH: 0

LC: PR: HKR 1123 and successful completion of 299NW

4210 Physical Activities Course: Winter Outdoor Activities and Leadership includes outdoor activities such as winter travel methods emphasizing cross-country skiing, snowshoeing, navigational skills, winter survival/camping and overnight winter camping. A number of teaching methods may be employed and emphasis will be placed on the language and practice of the conceptual approach. Concepts, skills, and strategies will be emphasized.

AR: Attendance requirement. Students who are absent more than six class hours may be required to withdraw from the course and will receive a letter grade of DRF and a numeric grade of 0.

LC: as scheduled

PR: HKR 2210, HKR 3220

4220 Physical Activities Course: Territorial Games includes activities such as soccer and rugby, basketball, ice hockey, water polo, team handball and other territorial games. A number of teaching methods may be employed and emphasis will be placed on the language and practice of the conceptual approach. Concepts, skills, and strategies will be emphasized.

AR: Attendance requirement. Students who are absent more than six class hours may be required to withdraw from the course and will receive a letter grade of DRF and a numeric grade of 0.

LC: as scheduled

LH: as scheduled

PR: HKR 2210

4300 Human Motor and Perceptual Motor Disorders - inactive course.

4310 Evaluation - inactive course.

4330 Social Psychology of Sport: Physical Activity and Recreation introduces the psychological factors that influence participation in sport, exercise, physical activity and recreation and the psychological effects derived from participation.

4420 Issues explores, through research and discussion, trends and issues basic to the profession including areas in physical education, health, fitness, and lifestyle industries.

PR: successful completion of a minimum of 78 credit hours

4485 Leisure Education in Therapeutic Recreation Settings is designed to provide students with the knowledge and skills required to facilitate leisure education interventions designed to bring about desired changes in the leisure behaviour of individuals. The course will address the following three broad areas: a) concepts and models of leisure education; b) content related
4700 Advanced Fitness Training and Assessment prepares students to assess, prescribe, demonstrate, supervise, educate, and counsel apparently healthy individuals across the lifespan on information related to physical activity/exercise, fitness and health. The successful completion of this course will allow students to apply for a certification as a Professional Fitness and Lifestyle Consultant from the Canadian Society of Exercise Physiology.

LH: 2
PR: HKR 2340

4701 Environmental Physiology - inactive course.

4702 Advanced Exercise Physiology prepares students to acquire the knowledge necessary to understand, analyse, and integrate information and experiences related to physiological adaptations occurring with acute and chronic activity and disuse.

LH: 2
PR: HKR 3310

4703 Occupational Ergonomics and Sport Biomechanics focuses on the contrast between biomechanical analyses of workplace tasks and athletic movement. Students will conduct a detailed biomechanical analysis of a given movement, in the workplace or for a given sport, with regard to both the probability of injury and optimization of performance.

LH: 2
PR: HKR 2703, 3320, and Physics 1020

4720 Directed Study requires approval of Dean of the School and the course instructor. Permission to register must be obtained in the term preceding enrolment.

4785 Internship in Therapeutic Recreation provides the student with an opportunity to develop the skills to become a competent practitioner utilizing the therapeutic recreation process, assessment, treatment planning, implementation, facilitation and evaluation. This practical experience will be carried out under the supervision of an approved Therapeutic Recreation professional. The internship will consist of 14-16 full-time consecutive weeks (35-40 hours per week for a minimum total of 560 hours). This course will normally be taken in the students' last co-op work term placement or last semester of their degree program.

CR: HKR 299W, HKR 399W, HKR 499W

4910 Directed Study requires approval of Dean of the School and the course instructor. Permission to register must be obtained in the term preceding enrolment.

4915 Directed Study requires approval of Dean of the School and the course instructor. Permission to register must be obtained in the term preceding enrolment.

499W Work Term 3 offers an opportunity for students, who have sufficient academic grounding and work experience, to exercise greater independence and responsibility in their assigned work. A student must demonstrate a high level of competency in communications skills through the submission of a formal report on a topic related to the work term or through a formal presentation on an aspect of the work term using the latest in computer technology and applications.

Associate Dean & Professor of Neuro/Molecular Biology
Mearrow, K.M., B.Sc., M.Sc. Brock, Ph.D. McMaster

Professores Emeriti
Alderdice, P., M.A. Chicago, M.S. Utah, Ph.D. Montana
Bieger, D., M.D., Ph.D. Kiel
Orr, J.C., B.Sc. London, Ph.D. Glasgow, A.R.C.S.

Professor of Neuroscience and Anatomy
McLean, J. B.Sc. New Brunswick, Ph.D. Dalhousie

Professors of Anatomy
Chandra, S., M.B., B.S. New Delhi

Professor of Neuro/Molecular Biology
Mearrow, K.M., B.Sc., M.Sc. Brock, Ph.D. McMaster

Professor of Molecular Virology and Medicine (Hepatology)
Michalak, T.I., M.D., Ph.D. Warsaw; Canada Research Chair Tier I in Molecular Virology

Associate Professor of BioMedical Sciences
Dorward, A.M., B.Sc., Ph.D. McMaster; Cross appointment with Genetics

Professor of Immunology
Grant, M., B.Sc., M.Sc. British Columbia, Ph.D. McMaster; Joint appointment with Laboratory Medicine

Associate Professors of Immunology
Drover, S., M.Sc., Ph.D. Memorial
Hirasawa, K., Bc.D., Ph.D. Tokyo
Larijani, M., B.Sc.(Hons.), Ph.D. Toronto; Recipient of the President's Award for Outstanding Research, 2012-2013
Russell, R., M.Sc. Memorial, Ph.D. McGill

Professor of Endocrinology
Carayanniotis, G., B.Sc. Patras, Ph.D. Toronto; Joint appointment with Medicine

Professors of Oncology
Church, J., B.Sc.(Hons.) Queen's, M.Sc., Ph.D. Toronto
Gillespie, L.L., B.Sc., Ph.D. Ottawa
Kao, K.R., B.Sc., M.Sc., Ph.D. Toronto
Paterno, G.D., B.Sc., M.Sc. Toronto, Ph.D. Ottawa

Professor of Cancer/Cardiovascular Biology
Gendron, R., B.Sc., Ph.D. McGill; Cross appointment with Oncology

Professor of Vascular Molecular Biology/Pediatric Cancers
Paradis, H., B.Sc., Ph.D. Montreal

Associate Professor of Cardiovascular Cellular and Molecular Physiology
Stuyvers, B.D., B.Sc., M.Sc., Ph.D. Bordeaux, France

Associate Professor of Cell Biology
Doré, J., B.Sc.(Hons.) University of British Columbia, M.S. Florida, Ph.D. Tennessee

Professor of Pharmacology (Cardiovascular)
Tabrizchi, R., B.Sc.(Hons.) Sunderland, M.Sc., Ph.D. British Columbia; Cross appointment with Discipline of Anesthesia

Professor of Physiology
McKay, D.W., B.Sc., M.S., Ph.D. Michigan State

Associate Professor of Cardiovascular Sciences
McGuire, J.J., B.Sc.(Hons.), Ph.D. Queen's University at Kingston, M.B.A. Memorial

Professor of Neurosciences
Hirasawa, M.B., B.C., Ph.D. Tokyo

Associate Professor of Neurosciences

Assistant Professor of Neurosciences
Moore, C.S., B.Sc.(Hons.) New Brunswick, Ph.D.(Pharmacology) Dalhousie

Professors of Cardiovascular/Renal Physiology
Smeda, J., B.Sc.(Hons.), M.Sc. Brock, Ph.D. McMaster
Van Vliet, B.N., B.Sc. Toronto, Ph.D. Saskatchewan

Professor (Biological Psychiatry)
Chen, X., M.B. China, Ph.D. Cambridge; Joint appointment with Psychiatry

Professor (Oncology Research)
Richardson, V.J., B.Sc., Ph.D. Sheffield

Cross Appointed from Biochemistry
Brosnan, M.E., B.A.(Hons.), M.Sc., Ph.D. Toronto
Christian, S., B.Sc.(Hons.) Alberta, Ph.D. British Columbia
Kaur, S., B.Sc. Punjab, M.Sc. Punjab Agricultural, Ph.D. Post Graduate Institute of Medical Education and Research

Cross Appointed from Genetics
Young, T., Ph.D. Memorial; Recipient of the President's Award for Outstanding Research, 2009

Cross Appointed from Medicine
Kovacs, C.S., M.D., B.A. Queen's, FRCPC; University Research Professor, Awarded 2014

Ploughman, M., B.Sc., Ph.D. Memorial
Cross Appointed from Pharmacy
Daneshbalal, N., B.Sc. (Pharmacology), Ph.D. (Pharmacokinetics)
Alberta

Assistant Professor and Chair
Renouf, T., B.Sc., M.D. Memorial, FCFP(EM)

Assistant Professors of Emergency Medicine
Baggs, D., M.Sc., M.D. Memorial, FRCP C
Parsons, M., B.Sc., M.D. Memorial, CCFP(EM); Cross appointment to Family Medicine
Rogers, P., B.Sc., M.D. Memorial, CCFP (EM); Cross appointment to Family Medicine
Smith, A., M.Eng, M.D. Memorial, CCFP(EM)

Associate Professor of Emergency Medicine
Dubowski, A., M.Sc., Ph.D. Waterloo; Cross appointment with Pediatrics

Clinical Assistant Professors of Emergency Medicine
Angel, M., B.Sc., M.D. Memorial, CCFP(EM); Joint appointment with Family Medicine
Angus, K., M.D., Dalhousie, CCFP(EM); Joint appointment with Family Medicine
Bartter, R., M.D. Dublin, R.C.S., LRCS; Joint appointment with Family Medicine
Batcock, N., B.Sc., M.D. Memorial, CCFP; Joint appointment with Family Medicine
Bazley, P., M.D. Memorial, CCFP; Joint appointment with Family Medicine
Becker, R., B.Sc., M.D. Memorial, CCFP, FCFP; Joint appointment with Family Medicine
Bobby, R., B.Sc., M.D., Memorial, CCFP(EM); Joint appointment with Family Medicine
Bugden, G., M.D. Memorial, CCFP(EM); Joint appointment with Family Medicine
Butler, M., M.D. Memorial, CCFP; Joint appointment with Family Medicine
Cheeseman, N., B.Sc., M.D. Memorial, CCFP (EM); Joint appointment with Family Medicine
Comben, S., M.D. Memorial, CCFP(EM); Joint appointment with Family Medicine
Gayaprsad, T., MBCHB Southern Africa
Goodall, C., M.D. McMaster, CCFP; Joint appointment with Family Medicine
Heyn, S., B.Sc., M.D. Western Ontario, CCFP(EM); Joint appointment with Family Medicine
Humes, T., B.Sc., M.D. Memorial, CCFP(EM); Joint appointment with Family Medicine
Keenan, T., M.D. Memorial, FCFP
Locke, A., B.Sc., M.D. Memorial, CCFP(EM); Joint appointment with Family Medicine
Mack, M., M.D. Dalhousie, CCFP(EM); Joint appointment with Family Medicine
Matheson, S., B.Sc., M.D. Memorial, CCFP(EM); Joint appointment with Family Medicine
Metcalfe, B., B.Sc., M.D. Memorial, CCFP(EM); Joint appointment with Family Medicine
McKinn, A., M.D. Memorial, CCFP; Joint appointment with Family Medicine
Faculty of Medicine 2015-2016

Medicine
Middleton, J., B.Sc., M.D. University of Alberta, CCFP(EM); Joint appointment with Family Medicine
Murphy, K., B.Sc., M.D. Memorial, CCFP(EM); Joint appointment with Family Medicine
Patey, C., B.Sc., M.D. Memorial, CCFP(EM); Joint appointment with Family Medicine
Payne, A., B.Sc., M.D. Memorial, CCFP(EM)
Picco, B., B.Sc., M.D. Memorial, CCFP; Joint appointment with Family Medicine
Pollock, C., B.Sc., M.D. Memorial, CCFP(EM); Joint appointment with Family Medicine
Rector, T., B.Sc., M.D. Memorial, CCFP(EM); Joint appointment with Family Medicine
Rogers, L., B.Sc., M.D. Memorial, CCFP(EM); Joint appointment with Family Medicine
Seville, C., B.Sc., M.D. Memorial, CCFP(EM); Joint appointment with Family Medicine
Sheppard, G., B.Sc., M.D. Memorial, CCFP(EM); Joint appointment with Pediatrics
Smith, M., M.D. Memorial, CCFP(EM); Joint appointment with Family Medicine
Van Der Linde, E., B.Sc., M.D. Memorial, CCFP(EM)
Young, G., M.D. Memorial, CCFP(EM)
Young, W., M.D. Memorial, CCFP(EM)

Clinical Associate Professor of Emergency Medicine

Cross Appointed from Discipline of Family Medicine
Aubrey, K., M.Sc., M.D. Ottawa, CCFP(EM)
Brown, G., B.Sc., M.D. Memorial, CCFP(EM)
Campbell, J., B.Sc., M.D. Memorial, CCFP(EM)
Morgan, D., M.D. Memorial, CCFP(EM)

Cross Appointed from Discipline of Pediatrics
Porter, R., M.D. Memorial, CCFP(EM)

1 The Memorial University of Newfoundland Code

The attention of all members of the University community is drawn to the section of the University Calendar titled The Memorial University of Newfoundland Code, which articulates the University’s commitment to maintaining the highest standards of academic integrity.

2 Student Code of Conduct

Memorial University of Newfoundland expects that students will conduct themselves in compliance with University Regulations and Policies, Departmental Policies, and Federal, Provincial and Municipal laws, as well as codes of ethics that govern students who are members of regulated professions. The Student Code of Conduct outlines the behaviors which the University considers to be non-academic misconduct offences, and the range of remedies and/or penalties which may be imposed. Academic misconduct is outlined in UNIVERSITY REGULATIONS - Academic Misconduct in the University Calendar.

For more information about the Student Code of Conduct, see www.mun.ca/student/conduct/conduct.php.

3 Background

The Faculty of Medicine of Memorial University of Newfoundland is one of 17 Canadian medical schools and was one of the four schools suggested by the Hall Royal Commission on Canadian Health Services in its 1964 report. A series of meetings was begun in 1963 between representatives of Memorial University of Newfoundland, the Newfoundland Medical Association, and the Department of Health of the Government of Newfoundland and Labrador. Following the Hall Commission’s recommendation and on the basis of positive advice from Dr. J. Wendell MacLeod, Executive Secretary of the Association of Canadian Medical Colleges, and Dr. Chester B. Stewart, Dean of Medicine at Dalhousie University, Halifax, Nova Scotia, Memorial University of Newfoundland established a Commission in 1965 to undertake a feasibility study. The late Dr. J.A. MacFarlane, formerly Dean of Medicine at the University of Toronto, and a member of the Hall Royal Commission served as chairman. The MacFarlane Commission’s recommendation that a Medical School be established at Memorial University of Newfoundland was confirmed independently by a Royal Commission on Health Services for Newfoundland and Labrador. The chairman of this latter Commission, Lord Brain, an eminent British medical educator, and his advisors, reported that the location of a medical school in the Province was a necessary step in the provision of adequate medical services for Newfoundland.

Dr. Ian Rusted, a local physician who had been involved in the early negotiations and had taken the initiative in introducing continuing medical education for doctors in the Province, was appointed Dean of Medicine in 1967. Under his leadership, faculty members were recruited, the undergraduate program was initiated and the first medical students were admitted in 1969. The existing programs of
postgraduate training and continuing medical education were strengthened and the spectrum of medical education was subsequently completed in 1971 with the initiation of a program of graduate studies leading to the degrees of M.Sc. and Ph.D.

The undergraduate curriculum was designed to foster integrated learning and to permit contact with patients early in the student’s training. To facilitate this integrated approach the administration of the school was set up as a non-departmental system based on three Divisions: Community Health, Biomedical Sciences and Clinical Sciences.

Initially the Faculty of Medicine was housed in temporary buildings. With joint funding by the Federal and Provincial Governments, a Health Sciences Centre (HSC) was constructed on the North Campus of the University and was officially opened in 1978. This new building became home to the Faculty of Medicine General Hospital and the School of Nursing. Over time the building was expanded, and now it also houses the School of Pharmacy, the Janeway Children’s Health and Rehabilitation Centre, the Dr. H. Bliss Murphy Cancer Centre and the Agnes Cowan Hostel. The Health Sciences Centre contains a comprehensive health sciences library, animal care and research facilities, plus an appropriate range of teaching facilities to accommodate large lectures and demonstrations, small group discussions and seminars, clinical skills and laboratory sessions. The structure of the Health Sciences Centre facilitates integration between basic scientists, clinicians and allied health workers in the hospital, the University and the community. Clinical research facilities are located adjacent to basic research units and some research laboratories provide services in clinical investigation. Services such as cafeteria and stores are common to the Faculty of Medicine and the Eastern Regional Health Authority. In July 2014, the administrative offices of the Faculty of Medicine moved into the new adjacent Medical Education Centre where classes began for students in September, 2014. The Craig L. Dobbin Research Centre on the third, fourth, and fifth floors of the building opened in May, 2015.

The General Hospital and Janeway Children’s Health and Rehabilitation Centre are part of a network of teaching hospitals in St. John’s, throughout Newfoundland and Labrador and other Atlantic provinces. The conventional use of major referral centres as teaching resources is complemented by the availability of regional and community hospitals to provide valuable clinical experience for undergraduate and postgraduate medical students.

In contrast to many other schools, the class size at the University’s Medical School is small. This facilitates interaction between students and faculty, and has obvious advantages in clinical teaching. Normally 80 students are admitted annually to the first year of the undergraduate medical program.

Additional information regarding the Faculty of Medicine is available at www.med.mun.ca/medicine/home.aspx.

4 Mission and Objectives of the Faculty of Medicine

Our mission is to enhance the health of the people of Newfoundland and Labrador by educating physicians and health researchers; promoting lifelong learning; conducting research in biomedical, clinical and applied health sciences, community health, and medical humanities; engaging communities and decision makers; and collaborating to apply the best available evidence in the formulation of policy and the organization and delivery of care.

The objectives of the Faculty of Medicine are consistent with the objectives of Memorial University of Newfoundland in developing and maintaining excellence in the quality of its academic standards and of research, establishing programs to meet the expanding needs of the Province and of providing the means to reach out to all the people.

The Faculty seeks to attain these objectives through an organizational structure which allows optimum interaction among the various disciplines within the Medical School and with other Faculties and Schools as appropriate.

The term ‘Medical School’ refers to the wider organizational structure of the Faculty of Medicine with various healthcare, institutions, community organizations and other academic units with the University.

The specific objectives are:

1. To teach medical students to be physicians; and to provide such learning experiences as will inspire all medical graduates of the school to be prepared to practice medicine at the highest standards, serving all individuals and societies in the pursuit of health.
2. To acknowledge the special geography of this Province by encouraging the education of physicians with exemplary skills for rural practice.
3. To educate and train graduate and diploma students in the health sciences.
4. To provide postgraduate educational experiences in medicine and the medical sciences such that the graduating Canadian physicians will pursue further studies within the school’s postgraduate programs, leading to certification in family medicine or specialist subjects, especially in those areas where deficiency in numbers is currently recognized or anticipated.
5. To instil within students at all levels:
   a. The wish and the capacity to further the practice and science of medicine through the creation of new knowledge for the improvement of the health of the world’s peoples.
   b. The wish and the capacity to improve their own professional practice through continuing self-assessment and scholarship.
   c. An appreciation of their evolving roles as members of a team of professionals possessing complementary skills.
6. To attract faculty members who will together:
   a. Act as a resource in providing undergraduate, graduate, postgraduate, and continuing medical education.
   b. Contribute to the advancement of educational methods.
   c. Practice the highest quality of primary, secondary, or tertiary care medicine.
   d. Show leadership in promoting research into the health of the individual and the community, including the organization of health care delivery systems.
   e. Facilitate and promote education and research appropriate to our mid North-Atlantic environment.
7. To provide educational experiences in the health sciences to students from other Schools or Faculties of Memorial University of Newfoundland and of other educational institutions.
8. To provide Continuing Medical Education experiences which will help physicians to maintain and enhance their competence in medical skills.
9. To provide a learning environment for undergraduate, graduate, and postgraduate students of medicine and the medical sciences who are citizens of other countries.
10. Actively to provide an Informational, Educational and Consultative resource for the whole community.
5 Affiliated Teaching Sites

1. Within St. John’s: (hospitals under the Eastern Regional Health Authority)
2. Outside St. John’s: (hospital/community settings)
3. New Brunswick and other jurisdictions: (hospital/community settings)

6 Description of Medical Training Program

The Faculty of Medicine offers a four-year undergraduate medical program, comprising a minimum of 186 credit hours, leading to the degree of Doctor of Medicine (M.D.).

The Diversity Statement for the Faculty of Medicine is available on the Faculty of Medicine website at www.med.mun.ca/medicine/home.aspx.

The program consists of four phases: Phase one covers normal health and development, Phase two covers acute reversible or modifiable health issues, Phase three covers chronic disease, and Phase four involves integration into practice. The first three Phases employ a variety of teaching and learning experiences, including self-directed learning, to learn about all aspects of health (physical, mental, social, and psychological), disruptions in health that can lead to frank disease, and all aspects of science, community health, ethics, and clinical skills related to identifying and describing disease and its diagnosis. During Phase 4, students take courses that will allow them to experience major disciplines in hospital and community settings throughout affiliated teaching sites in Newfoundland and Labrador and community and hospital settings in New Brunswick and other jurisdictions. They participate as members of the health care team, gaining the knowledge and experience necessary to assume the responsibilities associated with patient care.

Medical students are required to participate fully in medical education experiences which occur at various times and communities outside of the St. John’s metropolitan area throughout the undergraduate medical education program.

Students in good academic standing are qualified to write Part I of the licensing examinations set by the Medical Council of Canada (MCC) at the appropriate time.

7 Continuing Professional Development

The Faculty of Medicine’s Professional Development and Conferencing Services (PDCS) office provides innovative, accredited Continuing Professional Development (CPD) to enhance competencies of health professionals, faculty, students, and trainees with the goal of improving public health. PDCS offers a breadth of learning opportunities each year which address the needs of health professionals who practice in both urban and rural communities across Newfoundland and Labrador, nationally, and internationally. Programs are offered in a variety of formats, at a distance, and in accessible locations, including: live/on-site (face-to-face) programs; online self-directed and facilitated programs; distance enabled learning via unified communications (audio/video/web); discipline clinical rounds; and educational assessment and retraining experiences are available. PDCS also offers a certificate program in Medical Teaching and, in conjunction with the Gardiner Centre, a certificate in Physician Management and Leadership.

8 Postgraduate Medical Training Programs

Postgraduate medical training is offered in programs leading to certification by either the College of Family Physicians of Canada (CFPC) or the Royal College of Physicians and Surgeons of Canada (RCPSC). These are full-time training programs comprised of hands-on-practical training complemented by formal teaching and academic study. The programs are completed in a structured learning environment consisting of hospital and community based teaching units, supervised by faculty. The level of responsibility afforded the Resident is based on regular evaluation of abilities by faculty. The Postgraduate training programs are accredited by the CFPC or the RCPSC and the appropriate licensing authorities.

Postgraduate entry positions are available through the Canadian Residency Matching Service. For further information write to The CaRMS Office, Suite 802, 151 Slater Street, Ottawa, Ontario K1P 6H3, or by telephone to (613) 237-0075, or toll free to (800) 291-3727, or the website at www.carms.ca.

Medical students and Residents are required to participate fully in medical education experiences which occur at various times and communities outside of the St. John’s metropolitan area throughout the medical education programs.

8.1 Family Medicine/Emergency Medicine

The University offers a two-year residency in Family Medicine. This leads to eligibility for certification by the College of Family Physicians of Canada. Emergency Medicine is a one-year program of specialty training. Successful completion of this program will lead to eligibility to sit the CCFP EM certification examination in emergency medicine.

8.2 Other Residency Training Programs

Memorial University of Newfoundland offers specialty training programs in Anatomical Pathology, Anesthesiology, Diagnostic Radiology, General Surgery, Internal Medicine (subspecialties in Medical Oncology and Nephrology), Neurology, Obstetrics/Gynecology, Orthopedic Surgery, Pediatrics, and Psychiatry (subspecialty in Child and Adolescent Psychiatry).

Internal Medicine and Pediatrics offer a straight program in the first year of the training program. The normal period of training in Internal Medicine or Pediatrics is four years post-M.D.

In the remaining specialty programs offered by Memorial University of Newfoundland, broad-based clinical training is offered as the first year of the training program. The total length of each of these programs is five years.

8.3 Registration

Postgraduate Trainees are registered each year as full-time students of Memorial University of Newfoundland.

8.4 Registration (PGME) in Newfoundland and Labrador

All trainees must be eligible for and obtain an educational registration from the College of Physicians and Surgeons of Newfoundland and Labrador (CPSNL). Advice will be provided by the Postgraduate Medical Education Office.

Information on requirements for International Medical Graduates is available through the website at www.med.mun.ca/pgme.
8.5 Evaluation
1. The planning of the residency programs is the responsibility of the Postgraduate Medical Education Committee and is based on the accreditation requirements of the Royal College of Physicians and Surgeons of Canada and the College of Family Physicians of Canada. The Postgraduate Medical Education Committee reports to the Dean of Medicine through the Assistant Dean of Postgraduate Medical Education.
2. Each Resident is expected to complete the work of the program as outlined by the respective Residency Program Committee for each year of the program and to meet the prescribed goals and objectives. The Residency Program Committee is chaired by a Program Director who reports to both the Assistant Dean of Postgraduate Medical Education and the Chair of the clinical discipline.
3. Evaluation methods used in Postgraduate Medical Education include, but are not limited to, In-Training Evaluation Reports (ITER), and the Teaching Effectiveness Program. The Faculty of Medicine is considering the use of In-Training Assessment Reports (ITARs) as another form of evaluation.
4. For each rotation, evaluation of the Resident’s performance is conducted by a subcommittee of the Residency Program Committee and is based on written assessments and performance-based direct observation.

8.5.1 In-Training Evaluation Reports (ITER)
Evaluation is based on written assessments and direct observation. The results of the evaluation are expressed through an (ITER), which records the competency level of the Resident for each goal and objective of the rotation.
There are three possible outcomes for a Resident’s rotation, based on the results of the ITER: satisfactory, unsatisfactory, or incomplete. Residents learn the results of the ITER through online software (one45) administered by the Postgraduate Medical Education Office and the individual programs.
1. If a Resident receives a satisfactory outcome in a rotation, he/she proceeds to the next rotation in the training schedule.
2. If a Resident receives an unsatisfactory outcome in a rotation, the Residency Program Committee will design a remedial program to address the Resident’s area(s) of weakness. In some instances, the Committee may require the Resident to repeat the entire rotation. Evaluation of the remedial program is adapted according to the goals and objectives to be achieved by the remedial program. If the Resident receives an unsatisfactory evaluation in the associated remedial program, he/she will be placed on probation.
3. If a Resident receives an unsatisfactory evaluation for two rotations within his/her academic year, he/she will be placed on probation. A Resident has the right to appeal decisions leading to remediation and probation in accordance with the Postgraduate Medical Education’s Evaluation, Promotion and Appeals Policy.

8.6 Promotion Regulations
A Resident’s progress is monitored in each year by the Residency Program Committee. During the academic year, the Resident meets with the Program Director (or designate) to review his/her evaluations - at six months and again at the end of the academic year. Based on these meetings, the Program Director prepares a Mid-Year Progress Report and an End-of-Academic-Year Report.
To successfully complete a postgraduate program, a Resident must be promoted through each year of his/her program. The Residency Program Committee meets every year to review a Resident’s progress report(s). On the basis of this review, the Residency Program Committee decides which Residents should be promoted to the next year and which Residents are eligible to sit the national examinations of the Royal College of Physicians and Surgeons or the College of Family Physicians of Canada.

8.6.1 Promotion
Promotion means a Resident can proceed to the next term without restrictions.

8.6.2 Probation
1. The terms of the probationary period are outlined in a probation contract with the Resident. The length of the probationary period is determined by the Residency Program Committee and excludes vacation time, sick leave, and leaves of absence.
2. Successful completion of a probationary period requires satisfactory evaluations for all portions of the probationary period.

8.6.3 Dismissal
1. If a Resident fails to successfully complete a probationary period, he/she will be dismissed from the program.
2. If a Resident is recommended for probation twice during the program, he/she will be dismissed from the program.
3. The Faculty of Medicine reserves the right to require a Resident to withdraw from a postgraduate program at any time with just cause. In such cases, the Dean, on behalf of the Faculty, recommends such withdrawal to the Registrar who will then take appropriate action. Any such action is subject to the right of appeal by the Resident, in accordance with the Postgraduate Medical Education’s Evaluation, Promotion and Appeals Policy.

9 Graduate Studies
Interdisciplinary interaction and research among the divisions of BioMedical Sciences, Community Health and Humanities and the Clinical Disciplines is promoted.
Programs have been designed to attract students interested in a Graduate Diploma or a M.Sc., M.P.H., Ph.D. or M.D.-Ph.D. degree. Areas of strength include Applied Health Services Research, Cancer and Development, Cardiovascular and Renal Sciences, Clinical Epidemiology, Community Health, Human Genetics, Immunology and Infectious Diseases, Neurosciences, Nutrition/Dietetics, Population/Public Health, and Health Ethics. Details of the graduate programs are provided in the School of Graduate Studies section of this Calendar.
10 Regulations for the Degree of Doctor of Medicine

10.1 Admission to the Faculty of Medicine

1. All applications for entry to the program of studies leading to the Doctor of Medicine (M.D.) degree are dealt with by the Admissions Office of the Faculty of Medicine and must be submitted to that office on or before the closing date (normally September 15th). No application received after this date will be considered. An application processing fee of $75.00 is required from all applicants.

2. Applications are reviewed after the closing date by the Admissions Committee of the Faculty of Medicine. This Committee has the delegated authority of the Faculty Council to admit or decline to admit students, following guidelines and procedures acceptable to that Council.

3. Admissions will normally be to the first year of medical studies. In exceptional circumstances, admission with advanced standing may be offered.

4. Entry to medical school is on the basis of competition for a fixed number of places. The Admissions Committee takes account of an applicant’s academic background, performance on the Medical College Admissions Test (MCAT) and information on an applicant’s personal characteristics and achievements as given by the applicant, by referees’ reports and, in some cases, by personal interviews. Age by itself is not used as a basis for selection or rejection. Both age and the length of time away from full-time studies may be taken into consideration. The residency status of each applicant at the time of the closing date for application (normally September 15) will be determined by guidelines established by the Admissions Committee and approved by Faculty Council. For each candidate, the residency status determined at that time will apply throughout the admissions process and the period of undergraduate medical education. Priority is given to applicants who are bona fide residents of this province as well as applicants of Aboriginal descent. Further information is available on the Faculty of Medicine’s website at www.med.mun.ca/Admissions/Aboriginal-Admissions-Program.aspx.

5. The Admissions Committee’s decision to admit or decline to admit an applicant will be made on the basis of the competition for entry in the year of application and will be determined by the Committee’s judgement of the likelihood of an applicant succeeding in the academic and professional studies leading to the award of the M.D. and in the eventual practice of medicine.

6. To be eligible for admission, an applicant shall have completed a bachelor’s degree including the prerequisite subjects of 6 credit hours in English at a recognized university or university college before admission. In exceptional circumstances an application may be considered from someone who does not expect to hold a bachelor’s degree at the time of admission. Such an applicant will have completed at least 60 credit hours including the prerequisite subjects of 6 credit hours in English at a recognized university or university college before admission and be a student who has work-related or other experience acceptable to the Admissions Committee.

7. No application will be considered from a candidate who cannot produce evidence that the above requirements have been met or will have been met by the time of entry to the Medical School.

8. The Admissions Committee may request that a candidate attend an interview.

9. Notification of the Committee’s decision will be made to candidates by letter signed by, or on behalf of, the Chair of the Admissions Committee. No other form of notification can be considered to be official.

10. The letter of acceptance will give the successful applicant fourteen (14) days in which to confirm that he/she will accept the place offered. The signed intention to accept the offered place must be accompanied by a deposit of $200.00 which will be credited towards tuition fees. The deposit will be forfeited if the applicant subsequently declines the place.

11. The letter of acceptance will give the successful applicant fourteen (14) days in which to confirm that he/she will accept the place offered. The signed intention to accept the offered place must be accompanied by a deposit of $200.00 which will be credited towards tuition fees. The deposit will be forfeited if the applicant subsequently declines the place.

12. If no reply to the offer of a place is received within fourteen days, the offer by the Faculty of Medicine will be withdrawn on the appropriate date, and the applicant will be informed of this by letter.

13. In order to register, applicants who have been accepted as international students will be required to sign a document indicating that they will pay differential fees throughout the undergraduate medical program and that they will have the status of non-Canadians in the postgraduate matching process.

14. The Admissions Committee, at its discretion, may grant deferral of admission for one year to four successful applicants (normally not to exceed this number) in the first round of offers for any one admission cycle. An applicant must request a deferred entry at the time of responding to an offer of admission. The first round of offers are normally confirmed by mid-May and requests for deferral are considered by mid-June.

15. An unsuccessful applicant has the right to appeal against the decision of the Admissions Committee not to offer him/her a place, if it is felt by the applicant that the decision was reached on grounds other than those specified in Clauses 1-4 above. The appeal should be made in writing within fourteen days of the notification of the decision and should be directed to the Dean of Medicine. The letter should state clearly and fully the grounds for the appeal. If the Dean of Medicine, in consultation with the Registrar, judges the grounds to be sufficient, the formal appeals mechanism will be initiated.

10.2 Registration in Newfoundland and Labrador and Other Approvals

All students are required to be on the Education Register of the College of Physicians and Surgeons of Newfoundland and Labrador (CPSNL). The Faculty of Medicine does not require criminal record checks or other screening procedures as a condition of admission to its program.

Students, however, should be aware that such record checks or other screening procedures may be required by agencies used by the
University for professional registration, clinical experiences or academic course assignments necessary for graduation. Such agencies may refuse to accept students on the basis of information contained in the record check or other screening procedure thus preventing the student from completing a practice experience or other requirement. As a result, such students may not be eligible for promotion or graduation. The student is responsible for having such procedures completed as required at his or her own expense. The screening procedures of any given agency may change from time to time and are beyond the control of the University.

10.3 Evaluation
Subject to the approval of Senate, the overall policy of evaluation and the planning of the programs of studies leading to the M.D. degree are the responsibility of the Undergraduate Medical Studies Committee, which is a standing committee of the Council of the Faculty of Medicine.

10.4 Assessment
1. Each student is expected to complete the work of the class as described in the current regulations of the Faculty of Medicine for each Phase of the program and to pass the prescribed academic and professional assessments. In this context, the professional assessments will cover not only the skills expected of a student, but personal conduct and relationships with peers, patients, hospital personnel, faculty members and staff.

2. Course grades are recorded as pass or fail on a student’s University transcript. Within each Phase, there will be multiple prescribed assessments. For all Phases, assessment of an individual student’s performance is the responsibility of the appropriate Phase Lead. Grades for all Phases may be reported using an internal scale.
   a. The appropriate Phase Lead or designate is responsible for ensuring that each student is informed of the results of each assessment. The appropriate Phase Lead will notify the student, in writing, of any concerns that have arisen about performance. The Associate Dean, Undergraduate Medical Education will also be informed.
   b. It is the responsibility of the student to consult immediately with the appropriate Phase Lead regarding any assessment in which concerns about performance have been expressed. Within one week of receiving notification of the result of an assessment, a student may submit a written request to the appropriate Phase Lead for reconsideration of the assessment result or for a reread of an exam or paper.
   c. The student is responsible for notifying the appropriate Phase Lead immediately of any new or pre-existing circumstances that could affect his or her individual performance in the work of the class.
   d. For exemptions from final examinations and procedures for applying to write deferred examinations - see UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate), Exemptions From Final Examinations and Procedures for Applying to Write Deferred Examinations.

3. A student’s progress is monitored in each Phase of the program by the appropriate Phase Management Team.

10.5 Promotion
1. The Student Promotions Committee is a standing committee of Faculty Council. The Student Promotions Committee reviews all assessments of all students in each Phase. On the basis of this review, this Committee decides which students should be promoted to the next Phase and which students are eligible to graduate. In reaching its decisions the Student Promotions Committee takes into account professional, as well as academic factors, and any special circumstances, duly authenticated, which warrant consideration.

2. Within each Phase, students may be required to be reassessed or to remediate with re-assessment in order to demonstrate competence and understanding of the required learning objectives. The amount and quality of remediation and reassessment required of a student is at the discretion of the appropriate Phase Management Team. Students with a Fail grade in any course cannot be promoted to the next Phase.

3. Even in the absence of any Fail grades, a student for whom substantial concerns about performance have been expressed may either be required to repeat the Phase or required to withdraw conditionally or unconditionally.

4. A student who is deemed by the Student Promotions Committee to be unsuitable for promotion or graduation is either required to repeat the Phase or required to withdraw conditionally or unconditionally.
   a. If a student is required to repeat a Phase with academic prejudice, his or her performance in the repeated Phase must be at a level at which no remediation or reassessment is required. If this standard is not met, the Student Promotions Committee requires the student to withdraw unconditionally. The option to repeat a Phase with academic prejudice can only be offered to a student once during his/her M.D. program.
   b. A student may repeat a Phase without academic prejudice if it has been demonstrated that the student’s performance has been adversely affected by other factors acceptable to the Student Promotions Committee and duly authenticated.
   c. If the Student Promotions Committee requires a student to withdraw conditionally, the Chair of the Student Promotions Committee informs the Dean and the appropriate Phase Lead about the nature of the conditions to be met and the time period specified for meeting the conditions. The Dean then recommends to the Registrar that the student be required to withdraw from the program. Any student who has been required to withdraw conditionally may be readmitted once the conditions have been met. If the conditions are not met within the specified time limit, the student is required to withdraw unconditionally.
   d. If the Student Promotions Committee requires a student to withdraw unconditionally, the Chair of the Student Promotions Committee will report the decision and the basis upon which it was reached to the Dean and the appropriate Phase Lead. The Dean then recommends to the Registrar that the student be required to withdraw from the program. Any student who is required to withdraw unconditionally and who wishes to re-enter the Faculty must apply by the appropriate deadline date to the Admissions Committee in competition with all other applicants.

5. A student has the right to make a formal appeal against a decision of the Student Promotions Committee. However, this appeal cannot be made on the basis of the grades awarded in individual courses, as the student will normally have had the opportunity of contesting grades and assessment results immediately after notification. A formal appeal by a student against the decision of this Committee must be made on grounds other than the grades awarded, e.g., default of procedure. This appeal should be made in writing, clearly stating the basis for the appeal and should be directed in the first instance to the Dean. The Dean in consultation with the Office of the Registrar determines whether or not the grounds stated are sufficient to warrant a formal hearing of the appeal.

6. In addition to the above clauses, the Faculty of Medicine reserves the right to require a student to withdraw from the program at any time when acceptable cause is demonstrated. In such cases, the Dean, on behalf of the Faculty, recommends such withdrawal to the Registrar who will then take appropriate action. Any such action is subject to the right of appeal by the student. An appeal should be made in writing clearly stating the basis for the appeal and should be directed in the first instance to the Registrar of the University. The Registrar, in consultation with the Dean, will determine whether or not the grounds stated are sufficient to warrant a
formal hearing of the appeal.

7. Any student who enters the first Phase of the medical program but withdraws within the first seven weeks may be permitted re-entry only by re-application to the Admissions Committee in competition with all other applicants by the appropriate deadline date. Withdrawal at all other times is in accordance with UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate).

8. a. Upon completion of a Phase or after the completion of 8710 and 8720 in Phase four, a student in good academic standing may elect to withdraw temporarily from studies (e.g. to pursue graduate studies).

b. Any student may be permitted to withdraw in accordance with UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate), Withdrawing From The University. In all cases, the intent to withdraw voluntarily should be discussed the appropriate Phase Lead. The student must make a written request for voluntary withdrawal to the Dean who will then consult the appropriate Phase Lead. In the event that a student wishes to return to medical school, the Dean should ensure that sufficient revision and preparatory work are undertaken before the student is permitted to resume medical studies.

c. Students permitted to withdraw are advised of the date upon which they are required to resume medical studies. In the absence of good cause, any such student who does not resume studies on the specified date will be deemed to have left the program.

10.6 Curricular Requirements (M.D.)

Students entering the M.D. program will be governed by curricular requirements in effect at the time of their admission. In the event of readmission, students will be governed by curricular requirements in effect at the time of their readmission.

The Student Promotions Committee recommends to Faculty Council those students to be awarded the M.D. degree.

11 Course Descriptions

Clerkship provides clinical experience in the affiliated teaching hospitals and community sites of Memorial University of Newfoundland. The courses in all Phases form a continuum. Each Phase provides blended and clinical learning experiences in the medical school, teaching hospitals and community sites. In Phase 4, the students become members of the patient care team and have graded and supervised responsibility. In any given course, multiple teaching and learning methods such as lectures, small group discussion, labs and self-directed learning will be used.

11.1 Courses in the Clerkship

7000 Clerkship Preparation Course
AR: attendance is required
CH: 2
UL: not applicable to the M.D. program for students admitted Fall 2013 or later

7200 Internal Medicine
AR: attendance is required
CH: 15
UL: not applicable to the M.D. program for students admitted Fall 2013 or later

7210 Surgery
AR: attendance is required
CH: 10
UL: not applicable to the M.D. program for students admitted Fall 2013 or later

7220 Psychiatry
AR: attendance is required
CH: 10
UL: not applicable to the M.D. program for students admitted Fall 2013 or later

7230 Pediatrics
AR: attendance is required
CH: 10
UL: not applicable to the M.D. program for students admitted Fall 2013 or later

7240 Rural Family Practice
AR: attendance is required
CH: 5
UL: not applicable to the M.D. program for students admitted Fall 2013 or later

7250 Obstetrics/Gynecology
AR: attendance is required
CH: 10
UL: not applicable to the M.D. program for students admitted Fall 2013 or later

7260, 7261, 7263 Electives
AR: attendance is required
CH: 12 (4 each)
UL: not applicable to the M.D. program for students admitted Fall 2013 or later

7270-7273 Selectives
AR: attendance is required
CH: 4-12
CR: students may not receive credit for MED 7273 and all of MED 7270, 7271 and 7272
UL: not applicable to the M.D. program for students admitted Fall 2013 or later

7280 Integrated Basic, Community Health and Clinical Sciences
CH: 2
UL: not applicable to the M.D. program for students admitted Fall 2013 or later

11.1.1 Phase 1 - Health and Its Promotion

5710 The Healthy Person introduces students to the structure and function of healthy people in all age groups in an integrated way. Students will learn in the context of a person as part of a family in a community. Students will begin to examine their future roles as professionals in our health care system.

CH: 19

5720 Clinical Skills I introduces students to the main elements of the medical interview and techniques of interviewing. Students will develop skills in examining healthy individuals within all age ranges. Communication and collaboration skills will be developed in the context of patient-centered care and working with other health care providers.

AR: attendance is required

5730 Special Projects I introduces students to concepts that encompass the non-medical expert CanMEDS roles of scholar, community collaborator, advocate, manager and professional in the context of the healthy person, family and the physician within health care systems.

5740 Community Engagement I places students in community sites for two weeks to experience a variety of aspects of the health care system with various health agencies, a family physician, and other health care providers.

AR: attendance is required

11.1.2 Phase 2 - Disease Prevention and Disruptions of Health

6750 The Patient: Acute or Episodic Health Problems has students build on their knowledge of the normal structure and function of the body and analyze disruptions in health by exploring the pathophysiology of illnesses, their risk factors and risk prevention strategies.

CH: 21

6760 Clinical Skills II has students develop clinical reasoning skills used in patient-centered care using focused interviewing, examination, and communication skills.

AR: attendance is required

6770 Special Projects II has students apply concepts that encompass the non-medical expert CanMEDS roles of scholar, communicator, collaborator, advocate, manager and professional in the context of the patient’s change in health status management and prevention.

6780 Community Engagement II places students in physicians’ practices for two weeks to further experience interactions among patients, their family physician and the health care system when presenting with a change in
health status. AR: attendance is required

11.1.3 Phase 3 - Diagnosis and Investigation of Illness and Disease

7710 The Patient: Chronic Conditions has students apply knowledge of reversible or modifiable health problems to chronic conditions for diagnosis and management of the patient. CH: 36

7720 Clinical Skills III has students advance their assessment skills of patients who have chronic health issues. They will develop verbal and written communication skills required for patient-centered care. AR: attendance is required

7730 Special Projects III continues to develop student competencies in the non-Medical Expert CanMEDS roles introduced in previous special project courses.

7740 Phase 4 Preparation introduces students to skills required to succeed in their clinical experiences to achieve a level of competency for Phase 4. AR: attendance is required

11.1.4 Phase 4 - Integration Into Clinical Practice

Phase 4 begins with students taking the core courses 8710 and 8720. These courses will be followed by 12 weeks of elective experiences and 12 weeks of advanced practice.

8710 Core Experiences immerses students in the clinical environment through experiences in core disciplines including internal medicine, surgery, obstetrics and gynecology, rural family practice, paediatrics and psychiatry. AR: attendance is required

8720 Advanced Procedural Competencies provides students with opportunities to advance their procedural and clinical skills to promote patient safety and work effectively in team settings. AR: attendance is required CH: 2

8730 Electives are offered in two - four week blocks in approved areas of study for a maximum of twelve weeks. AR: attendance is required CH: 12

8740 Advanced Practice Integration enables students to be assigned to a physician, physician group or discipline for experiences that focus on following patients as they interact with the health care system. AR: attendance is required CH: 12

8750 Practice Continuum will focus on the transition to postgraduate training as a part of the continuum of medical education. AR: attendance is required CH: 1

11.2 Courses Offered By the Faculty of Medicine for Non-Medical Students

310A and 310B Human Physiology covers the properties of nerve and muscle cells, the special senses, blood and body fluids, and the nervous, cardiovascular, digestive, immune, respiratory, urinary, endocrine and reproductive systems. Integration of the body’s systems in maintaining homeostasis is emphasized. Priority for entry into this course is given to Biochemistry, Nutrition, Dietetics, and other students who are interested in experimental science.

CO: Biochemistry 2101
CR: Biochemistry 311A/B and Medicine 310A/B
LH: to be specified
PR: Biochemistry 2101

4300 Introduction to General and Autonomic Pharmacology deals with the general principles of pharmacology (dose-response relationship, drug-receptor interaction, absorption, distribution, metabolism, excretion of drugs), and drugs that affect neuromuscular and autonomic neurotransmission, the cardiovascular, gastrointestinal, and central nervous systems, and autacoids/prostanoids.

CO: Biochemistry 3106 or Pharmacy 3111
CR: Biochemistry 4220
LH: to be specified
PR: Medicine 310A/B or Biochemistry 311A/B, or Pharmacy 2002/2003 or the former Pharmacy 3201/3202.

AR = Attendance requirement; CH = Credit hours are 3 unless otherwise noted; CO = Co-requisite(s); CR = Credit can be retained for only one course from the set(s) consisting of the course being described and the course(s) listed; LC = Lecture hours per week are 3 unless otherwise noted; LH = Laboratory hours per week; OR = Other requirements of the course such as tutorials, practical sessions, or seminars; PR = Prerequisite(s); UL = Usage limitation(s).

1 The Memorial University of Newfoundland Code

The attention of all members of the University community is drawn to the section of the University Calendar titled The Memorial University of Newfoundland Code, which articulates the University’s commitment to maintaining the highest standards of academic integrity.

2 Student Code of Conduct

Memorial University of Newfoundland expects that students will conduct themselves in compliance with University Regulations and Policies, Departmental Policies, and Federal, Provincial and Municipal laws, as well as codes of ethics that govern students who are members of regulated professions. The Student Code of Conduct outlines the behaviors which the University considers to be non-academic misconduct offences, and the range of remedies and/or penalties which may be imposed. Academic misconduct is outlined in UNIVERSITY REGULATIONS - Academic Misconduct in the University Calendar.

For more information about the Student Code of Conduct, see www.mun.ca/student/conduct/conduct.php.

3 School Description

The school of Music at Memorial University of Newfoundland is the largest and most comprehensive university school of music in Atlantic Canada. Four-year undergraduate programs are offered in performance, musicologies and composition. Students interested in music education have two options: the conjoint degrees of Bachelor of Music/Bachelor of Music Education (B.Mus./B.Mus.Ed.), offered in collaboration with Memorial University of Newfoundland’s Faculty of Education, which can be completed in five years; and the four-year Comprehensive Major, which prepares them to apply for admission to the Bachelor of Music Education as a second degree. For students not ready to specialize, a Bachelor of Music (B.Mus.) in General Musical Studies with or without a Minor provides a flexible degree option. The School of Music’s faculty comprise a diverse group of performers and scholars from across North America and Europe who are as dedicated to the highest standard of teaching as they are to their own professional careers. Access to professional applied studies instruction is a right of every student in each year of the program. With close to 200 degree-stream students, the School offers ensemble performance experience in choir, band, orchestra, opera, jazz, world music, contemporary and chamber music. While the focus of the School’s programs is on the classical music tradition, Newfoundland and Labrador’s rich musical legacy is also honored in its curriculum with a range of courses taught by tradition-bearers from the professional music community. The School’s undergraduate community is enriched by the presence of students pursuing Master of Music (M.Mus.) degrees in performance, performance pedagogy and conducting, as well as Master of Arts (M.A.) and Doctor of Philosophy (Ph.D.) students in the area of ethnomusicology.

Additional information regarding the School of Music is available at www.mun.ca/music.

3.1 Health Statement

Music study and music making are activities that demand great mental and physical energy and coordination. For this reason, students are strongly encouraged to maintain a healthy lifestyle, getting adequate rest, proper nutrition, and exercise, and avoiding practices that could be detrimental to good health and well-being.
4 Description of Programs

All courses in the School of Music are designated by the abbreviation MUS.

4.1 Bachelor of Music

The School offers a four-year Bachelor of Music with Majors in:

4.1.1 Composition

This Major is recommended for students who plan to compose or to teach composition.

4.1.2 Comprehensive

This major is recommended for students planning to apply for admission to the Bachelor of Music Education as a Second Degree.

4.1.3 General Musical Studies

This Major is recommended for students seeking a broad knowledge of music that will prepare them for a variety of career and advanced study options. Students have the option of including a Minor in a discipline other than Music.

4.1.4 Musicologies

This Major is recommended for students interested in research in music and/or media professions. A variety of approaches to music scholarship are addressed, including music history, ethnomusicology, and popular music studies.

4.1.5 Performance

This Major is recommended for students planning to pursue a career as a solo performer, orchestral or band player, university-based musician or private teacher.

4.1.6 Joint Major in Performance and Musicologies

This Major is recommended for students who have both advanced performance skills and an interest in music research. Students who are planning careers in specialized performance, music editing or as university-based musicians are encouraged to consider this program.

4.1.7 Major in Performance with a Minor in Composition

This Major is recommended for students who have both advanced performance skills and an interest in music theory and composition. Students who are planning careers in performance, music editing, conducting, arranging, composing or as university-based musicians are encouraged to consider this program.

4.2 Five Year Bachelor of Music Conjoint with Bachelor of Music Education

This degree program is offered jointly with the Faculty of Education, and is recommended for candidates planning to pursue a career in Music Education.

4.3 Interdisciplinary Minor in Music and Culture

This Minor is available to students in the Bachelor of Arts, Bachelor of Science, Bachelor of Business Administration, Bachelor of Commerce (Cooperative), Bachelor of Recreation, Bachelor of Recreation (Honours), Bachelor of Recreation (Cooperative), and Bachelor of Recreation (Cooperative) (Honours).

4.4 Minor in Music History

This Minor is available to students in the Bachelor of Arts, Bachelor of Science, Bachelor of Business Administration, Bachelor of Commerce (Cooperative), Bachelor of Recreation, Bachelor of Recreation (Honours), Bachelor of Recreation (Cooperative), and Bachelor of Recreation (Cooperative) (Honours).

4.5 Honours Degree

An honours degree signifies superior academic achievement. The Bachelor of Music (Honours) is available to candidates in the Performance, Composition, Musicologies, General Musical Studies, and Comprehensive Majors, candidates in the Joint Major in Performance and Musicologies, and candidates in the Major in Performance with a Minor in Composition. To be considered for an Honours Degree, the student must so indicate on the prescribed "Application for Graduation" form. This form may be obtained on-line at the Memorial Self Service at www3.mun.ca/admit/twbkwbsis.P_WWWLogin. Additional information is available from the Office of the Registrar at www.mun.ca/regoff/graduation/apply_grad.php. For further information on honours degrees see Bachelor of Music (Honours).

5 Admission/Readmission Regulations for the School of Music

In addition to meeting the UNIVERSITY REGULATIONS, students must meet the Admission/Readmission Regulations for the School of Music.

5.1 General Information

1. Entry to the School of Music is competitive and by audition only.
2. Admission or readmission to the University does not necessarily constitute admission or readmission to any program.

5.2 Application Forms and Deadlines

1. Admission to the Bachelor of Music degree is normally possible in the Fall semester only. The application deadline for admission to the Fall semester is January 15.
2. Transfer students may be considered for admission in the Winter semester if they have the prerequisites to enter a sufficient number of music courses in that semester. The application deadline for admission to the Winter semester is September 30.

3. Students who have withdrawn from the music degree program may apply to be readmitted in either the Fall or Winter semester.

4. School of Music application forms are available from the School's General Office and the Office of the Registrar, through the School's website at www.mun.ca/music/programs/undergraduate/application.php and through the Office of the Registrar's website at www.mun.ca/regoff/forms.php. Applicants who have not previously attended Memorial University of Newfoundland or those who have not attended Memorial University of Newfoundland in the three preceding semesters must also submit the "Undergraduate Application for Admission/Readmission" which is available at www.mun.ca/regoff/forms.php. Application forms may also be obtained by writing the School of Music, Memorial University of Newfoundland, St. John's, NL A1C 5S7 or the Office of the Registrar, Admissions Office, Memorial University of Newfoundland, St. John's, NL A1C 5S7.

5. All applications for admission or readmission must be submitted to the Office of the Registrar. A complete application includes an application to the University (for those who have not attended Memorial University of Newfoundland in the three preceding semesters), an application to the School, and a music teacher reference form. The School of Music application form and teacher reference form are available from the School of Music website at www.mun.ca/music. Application fees must be paid when the application forms are submitted.

5.3 Admission/Readmission Requirements to the Bachelor of Music Degree Program

1. All applicants are required to audition to the satisfaction of the School on the instrument that they have chosen as their Principal Applied Study in their degree program.
   a. The School offers instruction in voice, piano, organ, flute, clarinet, saxophone, oboe, bassoon, trumpet, horn, euphonium, trombone, tuba, percussion, guitar, violin, viola, cello and double bass. Audition requirements for each instrument may be obtained from the School of Music General Office or online at www.mun.ca/music.
   b. Auditions are normally held in early March. Dates and locations of upcoming auditions are available from the School of Music General Office or online at www.mun.ca/music/programs.
   c. Late auditions may be held if space is available. Students auditioning late are normally not eligible for School of Music entrance scholarships.
   d. Transfer students and students seeking readmission to the music degree program must audition to determine their placement in applied study courses. The level of audition should be equivalent to the jury requirements for the prerequisite of the course to which they are seeking admission. Juror requirements are available from the Office of the School of Music or through the School of Music website at www.mun.ca/music.

2. All applicants are also required to take the following admission and placement tests:
   a. Placement Test in Theory and Musicianship: This test in basic rudiments, aural perception, and simple four-part harmony will be administered during the entrance audition period.
   b. Sightsinging Test: This short test is administered individually.
   c. Piano Proficiency Test: Piano proficiency is a graduation requirement. Students are expected to meet this requirement within the first year of their program. Applicants whose level of attainment is not acceptable to the School will be required to repeat and pass the Piano Proficiency Test prior to registering for Music 2401. Students are advised to contact the School of Music regarding scheduling of the test and for information about private remedial piano instruction.
   d. Writing Test: This test is administered during the entrance audition period. It is intended to assess students' writing skills and their capacity to articulate ideas about music.

3. The School will notify applicants in writing when a decision has been made regarding admission.

5.3.1 Major

1. With the exception of the Comprehensive Major, candidates normally declare their intended Major area of study in their fourth semester in the Bachelor of Music program.

2. A candidate may not change his/her Major without the written permission of the Dean. In cases where permission is granted, the candidate shall be required to fulfill all requirements for the new Major. However, in the case where a student's Major changes from Performance to one of the other Majors, the Principal Applied Study courses successfully completed under the Performance Major may be used to satisfy the requirements for Principal Applied Study in the new Major, with any additional credit hours being used as Music electives in the new Major.

3. Candidates shall choose one of the following areas for their Major:

5.3.1.1 Composition

Students interested in the Composition Major are strongly encouraged to take Music 3100 in their second year. Candidates for this Major must apply in writing to the Dean by February 15th in the semester during which they are registered for Music 2108, submitting up to three of their own compositions by the end of classes in that semester. The application deadline for admission to the Winter semester is September 30.

5.3.1.2 Comprehensive

Candidates planning to apply for admission to the Conjoint degrees (Bachelor of Music/Bachelor of Music Education) should first declare the Comprehensive Major by the end of their second semester in the Bachelor of Music program in order to take the necessary prerequisites courses for admission to the Conjoint degrees program. Students planning to apply for admission to the Bachelor of Music Education as a second degree may wait until their fourth semester to declare this Major. Please note that completion of this degree does not guarantee admission to the Faculty of Education.

5.3.1.3 General Musical Studies

Candidates for the General Musical Studies Major need not submit an application. All candidates who have not been admitted to another Major by the end of their fourth semester in the Bachelor of Music program will automatically be admitted to the General Musical Studies Major. Students have the option of including a Minor in a discipline other than Music, in which case they must meet all prerequisites and requirements for the Minor. The subject of the candidate's Minor shall be that declared by the candidate on the Change of Academic
Musicologies
Candidates for this Major must apply in writing to the Dean by February 15th in the semester during which they are registered for Music 240B. Candidates are required to audition for this program. Where possible, the jury examination for Music 240B will be considered as the audition for admission to the Performance Major, although in some cases the audition may require repertoire beyond the level and amount prepared for the jury examination. Admission to this Major will be based on the candidate's: 1) performance on the audition and achievement in Music 140A/B and 240A/B, 2) general academic achievement, and 3) potential for a career and/or graduate work in performance.

Joint Major in Music Performance and Musicologies
Candidates for the Joint Major must apply in writing to the Dean by February 15th in the semester during which they are registered for Music 240B. Candidates for admission to the Joint Major must fulfill the requirements for admission to both the Performance and Musicologies Majors.

Major in Music Performance with a Minor in Composition
Candidates for this Major must apply in writing to the Dean by February 15th in the semester during which they are registered for Music 240B. Candidates must fulfill the requirements for admission to both the Performance and Composition Majors.

Bachelor of Music Conjoint with Bachelor of Music Education
This program is offered with the Faculty of Education, and is recommended for candidates planning to pursue a career in Music Education. Candidates for the Conjoint Degrees program must meet the Faculty of Education’s admission requirements for the Bachelor of Music Education Conjoint Degree program. Applications must be submitted to the Faculty of Education by January 15 for admission to the following Fall semester.

Admission Requirements to Minor Programs
1. The Interdisciplinary Minor in Music and Culture and Minor in Music History are available to students in the Bachelor of Arts, Bachelor of Science, Bachelor of Business Administration, Bachelor of Commerce (Cooperative), Bachelor of Recreation, Bachelor of Recreation (Honours), Bachelor of Recreation (Cooperative), and Bachelor of Recreation (Cooperative) (Honours). Students wishing to complete either of these minors must declare so on the Change of Academic Program Form, which is available at www.mun.ca/regoff/registration/Declare_Change_Academic_Program.pdf or in person at the Office of the Registrar.
2. Students wishing to be considered for admission to the Minor in Music History must also meet the prerequisites for Music 1107 and 1117.

Bachelor of Music Degree Regulations
Students admitted or readmitted to the School of Music before Fall 2012 must follow the regulations outlined in the 2012-2013 University Calendar under Bachelor of Music Degree Regulations, Transition to New Bachelor of Music Degree Program. In addition Table 1 Substitutions for Music Courses Required Under Previous Regulations lists the courses that students following the regulations of an earlier Calendar may substitute for required courses that are no longer offered. Table 2 Substitution of Former Courses For Courses in This Calendar lists the former courses that may be substituted for courses required under this Calendar which were not offered before Fall 2012. Both Table 1 and Table 2 may be found on the School of Music website at www.mun.ca/music/current/crse_subs.php.

Program Regulations
1. Students admitted to the Bachelor of Music program may register for a maximum of 17 credit hours per semester without written permission from the Dean.
2. A student may not repeat for credit a Principal Applied Study course that s/he has already successfully completed, unless the student has the written permission of the Dean.
3. Active participation in School of Music ensembles is an integral part of a music student's education. One must be present at rehearsals and performances to have participated in the learning experience. Furthermore, the success of the ensemble as a whole is dependent upon the regular attendance and participation of all of its members. Accordingly, attendance will be required in the following courses: Music 2611-2620, Music 263A/B, Music 265A/B, Music 3500, and Music 3511-3518.

Core Program Requirements
All Bachelor of Music students, regardless of Major, must complete the following courses (55 credit hours) as outlined below:

1. Applied Music (8 credit hours): 140A/B, 240A/B
3. Music Theory (19 credit hours):
   a. Written Theory: 1107, 1108, 2107, 2108, 3105
   b. Aural Skills: 1117, 1118, 2117, 2118
4. Music Technology (1 credit hour): Music 1700
5. **Functional Keyboard** (1 credit hour): 2401 or 2411, 2402 or 2412

6. **Ensemble I:** 1 credit hour from Music 3517 or 3518

7. **Ensemble II:** 10 credit hours according to **Principal Applied Study** below:
   a. **Voice:** Music 2700 and 2701, and 2 credit hours from Music 2611-2612, plus 6 additional credit hours from Music 2611, 2612, 2616, 2617. Students will be placed in one of these ensemble courses during each semester in which they are enrolled in Principal Applied Study. The assignment will be based on their ensemble audition, the appropriateness of the ensemble for the student’s musical development and program of study, and the need to create balanced ensembles.
   b. **Piano, Organ, or Guitar:** 2 credit hours of music electives chosen from courses beyond the 1000 level, and 2 credit hours from Music 2611-2612, plus 6 additional credit hours from Music 2611-2620. Students will be placed in one of these ensemble courses during each semester in which they are enrolled in Principal Applied Study. The assignment will be based on their ensemble audition, the appropriateness of the ensemble for the student’s musical development and program of study, and the need to create balanced ensembles.
   c. **All other Principal Applied Study, i.e. percussion or a string or wind instrument:** 2 credit hours from Music 2611-2612, plus 8 credit hours from Music 2613, 2614, 2615, 2619, 2620. Students will be placed in two of these ensemble courses during each semester in which they are enrolled in Music 140A/B and in one ensemble course during each subsequent semester of Principal Applied Study. Ensemble assignments will be based on their ensemble auditions, the appropriateness of the ensemble for the student’s musical development and program of study, and the need to create balanced ensembles.

8. The remaining credit hours for the degree are determined according to the student’s Major, as below:

### 6.3 Composition Major
To be awarded the degree of Bachelor of Music in Composition, a candidate shall comply with the School’s regulations, and successfully complete a minimum of 123 credit hours, including 55 credit hours in the **Core Program**. The remaining 68 credit hours will be chosen as follows:

- **1.** Music 340A/B, 440A/B.
- **2.** Six credit hours of Music 3140 and 6 credit hours of Music 4140.
- **3.** Music 3104, 3112, 4112 and one of Music 3106 and 3108.
- **4.** Twelve additional credit hours chosen from Music courses beyond the 1000 level including:
  - a. A maximum of 4 credit hours from Music 2611-2614, 2619, 2620, and 263A/B, in addition to those listed under the **Core Program**.
  - b. A maximum of 5 credit hours from Music 2615, 2616, 2617, 265A/B, 3500, the former 3510, 3511-3518 in addition to those listed under the **Core Program**.
  - c. No more than one of Music 2021, 2022 and 2023.
  - d. Students interested in this Major are strongly encouraged to take Music 3100 in their second year.
- **5.** Twenty-four credit hours chosen from disciplines other than Music and Music Education, including at least 6 credit hours from courses in English and/or designated research/writing courses.

### 6.4 Comprehensive Major
To be awarded the degree of Bachelor of Music with a Comprehensive Major, a candidate shall comply with the School’s regulations, and successfully complete a minimum of 123 credit hours, including 55 credit hours in the **Core Program**. The remaining 68 credit hours will be chosen as follows:

- **1.** Music 340A/B, 440A/B.
- **2.** Music 2311, 2312, 3211, 3232, 3221, 3222, 3232, 3242, 3241, 3242, 3261, 3262, 3281, 3282.
- **3.** Eight credit hours chosen from: Music 3221, 3222, 3231, 3232, 3233, 3241, 3242, 3261, 3281.
- **4.** Music 3401 or 3411, 3402 or 3412.
- **5.** Fifteen additional credit hours chosen from Music courses beyond the 1000 level including:
  - a. At least 3 credit hours chosen from courses beyond the 2000 level in Musicologies and Music Theory/Composition.
  - b. A maximum of 4 credit hours from Music 2611-2614, 2619, 2620, and 263A/B, in addition to those listed under the **Core Program**.
  - c. A maximum of 5 credit hours from Music 2615, 2616, 2617, 265A/B, 3500, the former 3510, 3511-3518 in addition to those listed under the **Core Program**.
  - d. No more than 3 credit hours from Music 2021, 2022 and 2023.
  - e. Three credit hours chosen from the following may be substituted for Music electives in the Comprehensive Major: Education 2500, 2515, 2520.
- **6.** Twenty-four credit hours from disciplines other than Music and Music Education, including at least 6 credit hours from courses in English and/or designated research/writing courses. Students in the Comprehensive Major are encouraged to take at least 18 credit hours in a second teachable subject.

### 6.5 General Musical Studies Major
To be awarded the degree of Bachelor of Music in General Musical Studies, a candidate shall comply with the School’s regulations, and successfully complete a minimum of 123 credit hours, including 55 credit hours in the **Core Program**. The remaining 68 credit hours will be chosen as follows:

- **1.** Music 340A/B, 440A/B.
- **2.** An additional 60 credit hours to be chosen according to either **Option A** or **Option B** below:

#### 6.5.1 Option A (With Minor)
1. An additional 21 credit hours chosen from Music courses beyond the 1000 level, including:
   a. At least 6 credit hours chosen from courses beyond the 2000 level in Musicologies and Music Theory/Composition.
   b. A maximum of 4 credit hours from Music 2611-2614, 2619, 2620, and 263A/B, in addition to those listed under the **Core**
Program.

c. A maximum of 5 credit hours from Music 2615, 2616, 2617, 265A/B, 3500, the former 3510, 3511-3518 in addition to those listed under the Core Program.

d. No more than one of Music 2021, 2022 and 2023.

2. Six credit hours chosen from courses in English and/or designated research/writing courses.

3. A Minor of at least 24 credit hours in a subject other than Music. The candidate must follow the regulations for the Minor as set forth in the appropriate section of the Calendar.

4. Nine credit hours open electives which may be chosen from courses in Music, the Minor subject, and/or any other disciplines. However, no more than 3 credit hours in Music Education may be included.

6.5.2 Option B (No Minor)

1. An additional 36 credit hours chosen from music courses beyond the 1000 level including:
   a. At least 12 credit hours chosen from courses beyond the 2000 level in Musicologies and Music Theory/Composition.
   b. A maximum of 4 credit hours from Music 2611-2614, 2619, 2620, and 263A/B, in addition to those listed under the Core Program.
   c. A maximum of 5 credit hours from Music 2615, 2616, 2617, 265A/B, 3500, the former 3510, 3511-3518 in addition to those listed under the Core Program.
   d. No more than one of Music 2021, 2022 and 2023.
   e. A maximum of 3 credit hours chosen from the following courses may be substituted for Music electives: Education 2500, 2515, 2520. Music Education Majors have priority in registering for these courses and spaces may not be available for General Musical Studies Majors.

2. Twenty-four credit hours from disciplines other than Music and Music Education, including at least 6 credit hours from courses in English and/or designated research/writing courses.

6.6 Musicologies Major

To be awarded the degree of Bachelor of Music in Musicologies, a candidate shall comply with the School’s regulations, and successfully complete a minimum of 123 credit hours, including 55 credit hours in the Core Program. The remaining 68 credit hours will be chosen as follows:

1. Music 340A/B, 440A/B
2. Music 4095
3. Fifteen additional credit hours beyond the 2000 level in Musicologies.
4. Six credit hours chosen from Anthropology, Canadian Studies, European Studies, Folklore, Gender Studies, History, Law and Society, Medieval Studies, Newfoundland and Labrador Studies, Philosophy, Political Science, Psychology, Religious Studies, and/or Sociology.
5. Twelve additional credit hours chosen from music courses beyond the 1000 level including:
   a. A maximum of 4 credit hours from Music 2611-2614, 2619, 2620, and 263A/B, in addition to those listed under the Core Program.
   b. A maximum of 5 credit hours from Music 2615, 2616, 2617, 265A/B, 3500, the former 3510, 3511-3518 in addition to those listed under the Core Program.
   c. No more than one of Music 2021, 2022 and 2023.
6. Twenty-four credit hours chosen from disciplines other than Music and Music Education, including at least 6 credit hours from courses in English and/or designated research/writing courses and at least 6-credit hours in a language or languages other than English.

6.7 Performance Major

To be awarded the degree of Bachelor of Music in Performance, a candidate shall comply with the School’s regulations, and successfully complete a minimum of 123 credit hours, including 55 credit hours in the Core Program. The remaining 68 credit hours will be chosen as follows:

1. Music 345A/B, 445A/B.
2. Music 3704 and 3 credit hours chosen from Music 3722, 3732, 3742, 3751, 3764, 3774, 4701, 4702, 4703.
3. Six credit hours from Music 2615, 2616, 2617, 265A/B, 3500, the former 3510, 3511-3518.
4. Twenty additional credit hours from Music courses beyond the 1000 level, including:
   a. At least 6 credit hours chosen from courses beyond the 2000 level in Musicologies and Music Theory/Composition.
   b. A maximum of 4 credit hours from Music 2611-2614, 2619, 2620, and 263A/B, in addition to those outlined under the Core Program.
   c. No more than one of Music 2021, 2022 and 2023.
   d. A maximum of 3 credit hours chosen from the following courses may be substituted for Music electives: Education 2500, 2515, 2520. Music Education Majors have priority in registering for these courses and spaces may not be available for Performance Majors.
5. Twenty-four credit hours chosen from disciplines other than Music and Music Education, including at least 6 credit hours from courses in English and/or designated research/writing courses. Students whose Principal Applied Study is Voice must include at least 3 credit hours in each of Italian, German and French.

6.8 Joint Major in Performance and Musicologies

To be awarded the degree of Bachelor of Music with a Joint Major in Performance and Musicologies, a candidate shall comply with the School’s regulations, and successfully complete a minimum of 127 credit hours, including 55 credit hours in the Core Program. The remaining 72 credit hours will be chosen as follows:

1. Music 345A/B, 445A/B.
2. Three credit hours chosen from Music 3704, 3722, 3732, 3742, 3751, 3764, 3774, 4701, 4702, 4703.
3. Six credit hours from Music 2615, 2616, 2617, 265A/B, 3500, the former 3510, 3511-3518.
5. Fifteen additional credit hours beyond the 2000 level in Musicologies.
6. An additional 3 credit hours chosen from music courses beyond the 1000 level.
7. Thirty credit hours chosen from disciplines other than Music, including:
   a. At least 6 credit hours chosen from courses in English and/or designated research/writing courses.
   b. 6 credit hours in Anthropology, Canadian Studies, European Studies, Folklore, Gender Studies, History, Law and Society, Medieval Studies, Newfoundland and Labrador Studies, Philosophy, Political Science, Psychology, Religious Studies, and/or Sociology.
   c. At least 6 credit hours in a language or languages other than English. Students whose Principal Applied Study is Voice must include at least 3 credit hours in each of Italian, German, and French.

6.9 Major in Performance with a Minor in Composition
To be awarded the degree of Bachelor of Music with a Major in Performance and a Minor in Composition, a candidate shall comply with the School's regulations, and successfully complete a minimum of 124 credit hours, including 55 credit hours in the Core Program. The remaining 69 credit hours will be chosen as follows:
1. Music 345A/B, 445A/B.
2. Music 3704 and 3 credit hours chosen from Music 3722, 3732, 3742, 3751, 3764, 3774, 4701, 4702, 4703.
3. Six credit hours from Music 2615, 2616, 2617, 265A/B, 3500, the former 3510, 3511-3518.
4. Six credit hours of Music 3140.
5. Music 3104, 3112 and one of Music 3106 or 3108.
6. Six credit hours chosen from Music courses beyond the 1000 level including:
   a. A maximum of 4 credit hours from Music 2611-2614, 2619, 2620, and 263A/B, in addition to those listed under the Core Program.
   b. A maximum of 5 credit hours from Music 2615, 2616, 2617, 265A/B, 3500, the former 3510, 3511-3518 in addition to those listed under the Core Program.
   c. No more than 3 credit hours from Music 2021, 2022 and 2023.
   d. Students interested in this Major are strongly encouraged to take Music 3100 in their second year.
7. Twenty-four credit hours chosen from disciplines other than Music or Music Education, including at least 6 credit hours chosen from courses in English and/or designated research/writing courses. Students whose Principal Applied Study is Voice must include at least 3 credit hours in each of Italian, German, and French.

6.10 Bachelor of Music Conjoint with Bachelor of Music Education
To be awarded the Conjoint Degrees of Bachelor of Music and Bachelor of Music Education, a candidate shall comply with the School's regulations and successfully complete a minimum of 125 credit hours, including 55 credit hours in the Core Program. The remaining 104 credit hours will be chosen as follows:
1. Music 340A/B, 440A/B.
3. Eight credit hours chosen from: Music 3221, 3222, 3231, 3232, 3233, 3241, 3242, 3261, 3281, 3282.
4. Music 3401 or 3411, 3402 or 3412.
5. Six additional credit hours chosen from Music courses beyond the 1000 level including:
   a. A maximum of 4 credit hours from Music 2611-2614, 2619, 2620, and 263A/B, in addition to those listed under the Core Program.
   b. A maximum of 5 credit hours from Music 2615, 2616, 2617, 265A/B, 3500, the former 3510, 3511-3518 in addition to those listed under the Core Program.
   c. No more than 3 credit hours from Music 2021, 2022 and 2023.
6. Forty-five credit hours as prescribed by the Faculty of Education under the Regulations for the Conjoint Degrees of Bachelor of Music and Bachelor of Music Education.
7. Twenty-four credit hours chosen from disciplines other than Music and Music Education, including at least 6 credit hours chosen from courses in English and/or designated research/writing courses. Conjoint degrees students are strongly encouraged to take at least 18 credit hours in a second teachable subject.

6.11 Bachelor of Music (Honours)
The Bachelor of Music (Honours) will be awarded to candidates in the Performance, Composition, Musicologies, General Musical Studies, and Comprehensive Majors, candidates in the Joint Major in Performance and Musicologies, and candidates in the Major in Performance with a Minor in Composition who:
1. are graduating with First Class standing;
2. meet all the graduation requirements in the Bachelor of Music Degree Regulations for their Major; and
3. have attained a minimum average of 82% in all Music courses included in the degree.

7 Academic Standards and Continuance in the Bachelor of Music
1. Students in the Performance Major must attain a minimum grade of 75% in each of the jury exam and the course work for Music 345A/B and Music 445A/B. Students who fail to do so will be required to withdraw from the Performance Major. In such cases, the student may apply in writing to the Dean for admission into a Major other than Performance.
2. With the exception of those who have completed Music 440B or 445B, students who are not registered for a Principal Applied Study course or Education 403X at the end of the regular registration period will be deemed to have withdrawn from the Bachelor of Music
degree program.

3. A student who withdraws from a Principal Applied Study course at any time in the semester shall have his/her eligibility to continue in the degree program reviewed by the Committee on Undergraduate Studies. The Committee shall determine whether or not the student shall be deemed to have withdrawn.

4. A student whose average in Music courses falls below 65% in any semester will be placed on probation.

5. A student who is on probation will be returned to clear standing if s/he achieves an average above 65% in music courses taken during the probation semester.

6. A student will be required to withdraw from the Bachelor of Music degree program if a) the student's average in music courses falls below 65% in each of two consecutive semesters of registration in the program, or b) the student's average in music courses falls below 65% in any three semesters of registration in the program, or c) the student fails any music course more than once, or d) the student has been unable to complete two consecutive semesters or three non-consecutive semesters of applied music studies (Music 140A/B, 240A/B, 340A/B, 440A/B, 345A/B, 445A/B).

7. Students who have withdrawn from the Bachelor of Music degree program and wish to re-enter the program must re-apply in competition. A student re-entering the program may be readmitted on probation if the Admissions Committee so recommends.

8. Students who have been required to withdraw from the Bachelor of Music degree program may apply for readmission after a minimum of two semesters have elapsed following the withdrawal.

9. Students who have been required to withdraw from the Bachelor of Music degree program twice are ineligible for further readmission.

10. Students who have withdrawn from the Bachelor of Music degree program may apply to be readmitted in either the Fall or Winter semester.

8 Minor Program Regulations

Students admitted or readmitted to the School of Music before Fall 2012 must follow the regulations outlined in the 2012-2013 University Calendar under Minor Program Regulations, Transition to New Minor Programs. Table 1 Substitutions for Music Courses Required Under Previous Regulations lists the courses that students following the regulations of an earlier Calendar may substitute for required courses that are no longer offered. In addition, Table 2 Substitution of Former Courses For Courses in this Calendar lists the former courses that may be substituted for courses required under the current Calendar which were not offered before Fall 2012. Both Table 1 and Table 2 may be found on the School of Music website at www.mun.ca/music/current/crse_subs.php.

8.1 Interdisciplinary Minor in Music and Culture

1. This Minor is available to students in the Bachelor of Arts, Bachelor of Science, Bachelor of Business Administration, Bachelor of Commerce (Cooperative), Bachelor of Recreation, Bachelor of Recreation (Honours), Bachelor of Recreation (Cooperative), and Bachelor of Recreation (Cooperative) (Honours). The Minor in Music and Culture is not applicable to the Bachelor of Music degree.

2. Students shall complete 25 credit hours for the Minor in Music and Culture, as follows:
   a. Music 1120 or Music 1107
   b. Music 1116 or Music 1117
   c. Music 4040 or Folklore 4440
   d. Music 2012 or 2013
   e. One of Music 2011, 2014, Music 3017 or Folklore 3200, Music 3018 or Folklore 3618
   f. One of Music 3014, 3015, 3016 and 3019
   g. One of Music 2021, 2022, and 2023
   h. Two additional courses chosen from Music 1108 or the courses listed in d., e., f., or g. above.

3. Please note that most Music courses are not offered every semester, and some are offered only in alternate years.

8.2 Minor in Music History

1. This Minor is available to students in the Bachelor of Arts, Bachelor of Science, Bachelor of Business Administration, Bachelor of Commerce (Cooperative), Bachelor of Recreation, Bachelor of Recreation (Honours), Bachelor of Recreation (Cooperative), and Bachelor of Recreation (Cooperative) (Honours). The Minor in Music History is not applicable to the Bachelor of Music degree.

2. To be admitted to the Minor in Music History, students must meet the prerequisites for Music 1107 and 1117.

3. Students shall complete the following requirements (29 credit hours) for the Minor in Music History.
   a. Music 1107, 1108, 1117, and 1118.
   c. An additional 6 credit hours chosen from Music 3004, 3005, 3006, 3007, 4001, 4002, 4003, 4004, 4005.

4. Course prerequisites stipulated in the course descriptions must be met. Please note that most Music courses are not offered every semester, and some are offered only in alternate years.

9 Graduation

Upon meeting the qualifications for any of the programs of the School of Music a student must apply by the appropriate deadline date to graduate on the prescribed "Application for Graduation " form. This form may be obtained on-line at the Memorial Self Service at www3.mun.ca/admit/twbkwbis_P_WWWLogin. Additional information is available from the Office of the Registrar at www.mun.ca/regoff/graduation/apply_grad.php.

10 Waiver of School Regulations

Every student has the right to request waiver of School regulations. Students wishing waiver of University academic regulations should refer to UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate) - Waiver of Regulations.

1. The School reserves the right in special circumstances to modify, alter, or waive any School regulation in its application to individual students where merit and equity warrant in the judgement of the Committee on Undergraduate Studies of the School.

2. Waiver of a School course prerequisite or co-requisite may be granted by the Dean.
3. All other requests for waiver of a School regulation must be submitted in writing to the Chair of the Committee on Undergraduate Studies of the School for consideration. Medical and/or other documentation to substantiate the request must be provided.

4. Any waiver granted does not reduce the total number of credit hours required for the degree.

11 Appeal of Decisions

Any student whose request for waiver of School regulations has been denied has the right to appeal. For further information refer to UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate) - Appeal of Decisions.

12 Music Courses Available to Students not Enrolled in a Program Offered by the School

1. The following Music courses are available to students who have not been admitted to a program in the School of Music, and are appropriate for students with little or no musical background:
   - Music 1116 Basic Musicianship (1 credit hour)
   - Music 1120 Rudiments 1 (3 credit hours)
   - Music 2011 North American Popular Music (3 credit hours)
   - Music 2012 Understanding Classical Music (3 credit hours)
   - Music 2013 Twentieth-Century Musicals (3 credit hours)
   - Music 2014 Introduction to World Music (3 credit hours)

2. The following ensemble courses are available to non-music students with appropriate background, subject to the approval of the instructor:
   - Music 2611 Festival Choir (1 credit hour per semester)
   - Music 2614 Concert Band (1 credit hour per semester)

3. Non-Music students may also audition to participate in the following ensemble courses:
   - Music 2612 Chamber Choir (1 credit hour per semester)
   - Music 2613 Chamber Orchestra (1 credit hour per semester)
   - Music 2615 Jazz Ensemble (1 credit hour per semester)
   - Music 2616 Opera Workshop (1 credit hour per semester)
   - Music 2617 Opera Workshop (2 credit hours per semester)
   - Music 2619 Wind Ensemble (1 credit hour per semester)
   - Music 263A/B Chamber Orchestra (1 credit hour per two semesters)
   - Music 265A/B Jazz Ensemble (1 credit hour per two semesters)
   - Music 1700 Introduction to Music Technology provides a practical introduction to useful computer tools for musicians, such as music notation software, basic digital audio editing, and new media.
     - CH: 1
     - CO: MUS 140A/B
     - LC: 1
     - PR: admission to the Bachelor of Music Degree program

4. Most courses in musicologies (course numbers with second digit “0”) and music theory/composition (course numbers with second digit “1”) are available to non-music Majors who have fulfilled the prerequisites.

13 Course Descriptions

In accordance with Senate’s Policy Regarding Inactive Courses, the course descriptions for courses which have not been offered in the previous three academic years and which are not scheduled to be offered in the current academic year have been removed from the following listing. For information about any of these inactive courses, please contact the Dean of the School.

All courses in the School of Music are designated by the abbreviation MUS.

13.1 Applied Music Courses

140A/B Principal Applied Study I requires one hour per week of individual instruction (vocal or instrumental).

AR: attendance is required at School of Music recitals

CH: 4

CO: in each semester for students whose applied study is voice, piano, organ or guitar; one of MUS 2611, 2612 and in each semester for all other applied studies; one of MUS 2611 or 2612, and one of MUS 2613, 2614, 2615, 2619, 2620

OR: one hour per week of individual instruction

PR: admission to the Bachelor of Music Degree program

1700 Introduction to Music Technology provides a practical introduction to useful computer tools for musicians, such as music notation software, basic digital audio editing, and new media.

AR: attendance is required at School of Music recitals

CH: 1

CO: MUS 140A/B

LC: 1

PR: admission to the Bachelor of Music Degree program

2401 Functional Keyboard I is an introduction to practical keyboard skills for students whose Principal Applied Study is not piano or organ. Functional accompaniment, transposition and score reading are emphasized.

AR: attendance is required

CH: 0

CR: the former MUS 1127

LC: 1

PR: MUS 1108, successful completion of the Piano Proficiency Test, and admission to the Bachelor of Music Degree program

UL: may not be taken for credit by students whose Principal Applied Study is a keyboard instrument.

2402 Functional Keyboard II is a continuation of MUS 2401.

AR: attendance is required

CH: 1

CR: the former MUS 1128

LC: 1

PR: MUS 2401 and admission to the Bachelor of Music Degree program

UL: may not be taken for credit by students whose Principal Applied Study is a keyboard instrument.

240A/B Principal Applied Study II is a continuation of MUS 140A/B.

AR: attendance is required

CH: 4

CO: one of MUS 2611-2620 in accordance with Ensemble II under the Core Program

OR: one hour per week of individual instruction

PR: MUS 140A/B and admission to the Bachelor of Music Degree program

2411 Advanced Functional Keyboard I is an introduction to practical keyboard skills for students whose Principal Applied Study is piano or organ. Functional accompaniment, transposition and score reading are emphasized.

AR: attendance is required

CH: 0

CR: the former MUS 1137

LC: 1

PR: MUS 1108, permission of the instructor for students whose Principal Applied Study is not a keyboard instrument, and admission to the Bachelor of Music Degree program

2412 Advanced Functional Keyboard II is a continuation of MUS 2411.

AR: attendance is required

CH: 1

CR: the former MUS 1138

LC: 1

PR: MUS 2411, permission of the instructor for students whose Principal Applied Study is not a keyboard instrument, and admission to the Bachelor of Music Degree program

2611 Festival Choir requires three hours rehearsal per week.

AR: attendance is required

CH: 1

AR = Attendance requirement; CH = Credit hours are 3 unless otherwise noted; CO = Co-requisite(s); CR = Credit can be retained for only one course from the set(s) consisting of the course being described and the course(s) listed; LC = Lecture hours per week are 3 unless otherwise noted; LH = Laboratory hours per week; OR = Other requirements of the course such as tutorials, practical sessions, or seminars; PR = Prerequisite(s); UL = Usage limitation(s).
2612 Chamber Choir requires three hours rehearsal per week.

2613 Chamber Orchestra requires three hours rehearsal per week.

2614 Concert Band - inactive course.

2615 Jazz Ensemble requires three hours rehearsal per week.

2616 Opera Workshop requires three hours rehearsal per week.

2617 Opera Workshop requires six hours rehearsal per week.

2619 Wind Ensemble requires three hours rehearsal per week.

2620 Instrumental Ensemble requires three hours rehearsal per week.

2631A/B Chamber Orchestra requires 15 hours of rehearsal per semester.

2011 Lyric Diction I is a study of English, German, French and Italian lyric diction. The International Phonetic Alphabet will be introduced and applied to singing in these four languages.

2012 Lyric Diction II is a continuation of MUS 2011.

2202 Advanced Functional Keyboard III is a continuation of MUS 3201. Emphasis is on functional keyboard skills for classroom music teachers.

2301 Functional Keyboard IV is a continuation of MUS 3301.

2302 Advanced Functional Keyboard IV is a continuation of MUS 3302. Emphasis is on functional keyboard skills for classroom music teachers.

265A/B Jazz Ensemble - inactive course.

2700 Lyric Diction I is a study of English, German, French and Italian lyric diction. The International Phonetic Alphabet will be introduced and applied to singing in these four languages.
PR: an audition and admission to the Bachelor of Music Degree program. Contact the instructor or the School of Music office before the beginning of the semester regarding the audition.

3511 Chamber Music requires the ensemble to prepare and perform a recital of 10-15 minutes of music. Each ensemble receives six hours of coaching in preparation for the performance.
AR: attendance is required at all coachings and masterclasses
CH: 1 per semester
CO: MUS 3500 for first registration in MUS 3511 or 3512
PR: permission of the instructor and admission to the Bachelor of Music Degree program; repertoire to be performed must be approved prior to registration
UL: may only obtain a maximum of 8 credit hours

3512 Chamber Music requires the ensemble to prepare and perform a recital of 18-22 minutes of music. Each ensemble receives nine hours of coaching in preparation for the performance.
AR: attendance is required at all coachings and masterclasses
CH: 2 per semester
CO: MUS 3500 for first registration in MUS 3511 or 3512
PR: permission of the instructor and admission to the Bachelor of Music Degree program; repertoire to be performed must be approved prior to registration
UL: may only obtain a maximum of 12 credit hours

3513 Chamber Music requires the ensemble to prepare and perform a recital of 25-30 minutes of music. Each ensemble receives twelve hours of coaching in preparation for the performance.
AR: attendance is required at all coachings and masterclasses
CH: 3 per semester
CO: MUS 3500 for first registration in MUS 3511 or 3512
PR: permission of the instructor and admission to the Bachelor of Music Degree program; repertoire to be performed must be approved prior to registration
UL: may only obtain a maximum of 18 credit hours

3514 Small Ensemble is a conducted ensemble requiring two hours per week of rehearsal.
CH: 1 per semester
PR: permission of the Dean and admission to the Bachelor of Music Degree program
UL: may only obtain a maximum of 6 credit hours

3515 Accompaniment requires the students to meet for one hour per week in a masterclass. Coaching will be given to prepare for performance of a 15- to 20-minute program with a singer or instrumentalist.
AR: attendance is required
CH: 1 per semester
PR: admission to the Bachelor of Music Degree program; open only to students whose Principal Applied Study is a keyboard instrument; others by permission of the Dean; repertoire to be performed must be approved prior to registration
UL: may only obtain a maximum of 4 credit hours

3516 Accompaniment requires students to meet for one hour per week in a masterclass. Coaching will be given to prepare for performance of a half-hour program with a singer or instrumentalist.
AR: attendance is required
CH: 2 per semester
PR: admission to the Bachelor of Music Degree program; open only to students whose Principal Applied Study is a keyboard instrument; others by permission of the Dean; repertoire to be performed must be approved prior to registration
UL: may only obtain a maximum of 8 credit hours

3517 World Music Ensemble is a coached activity exploring one or more world music repertoires. This ensemble requires 2 hours of rehearsal per week.
AR: attendance is required
CH: 1 per semester
PR: admission to the Bachelor of Music Degree program
UL: may only obtain a maximum of 6 credit hours

3518 Contemporary Music/Improvisation Ensemble is a coached activity exploring improvisation and/or contemporary repertoire for mixed ensembles. This ensemble requires 2 hours of rehearsal per week.
AR: attendance is required
CH: 1 per semester
PR: admission to the Bachelor of Music Degree program
UL: may only obtain a maximum of 6 credit hours

3605 Music Theatre Workshop - inactive course.

3704 Career Skills for Musicians is an exploration of careers in music. Topics may include preparation of CVs, resumes, cover letters, business plans, grant applications, web sites, press kits and other promotional materials, tax, legal and business issues in the arts, and the study of successful arts enterprises.
CR: the former MUS 3703
PR: MUS 140B and admission to the Bachelor of Music Degree program

3711 Jazz Styles and Improvisation is an applied course for singers and instrumentalists, which aims to integrate the theory and practice of jazz. Jazz styles and improvisation will be explored through listening (recordings and live performance), imitation, and improvisation of selected jazz standards.
PR: MUS 240B or permission of the instructor, and admission to the Bachelor of Music Degree program

3712 Improvisation is an introduction to the art and practice of Improvisation through guided ensemble exploration and performance, score study and the application of contemporary performance practice.
PR: MUS 240A/B and admission to the Bachelor of Music Degree program

3722 Brass Seminar has topics selected from: issues of brass performance practice, history of brass instruments, brass literature and pedagogy, performance anxiety, comparative performances of brass repertoire, and other issues of special relevance to brass players.
CH: 1 per semester
PR: admission to the Bachelor of Music Degree program. Open only to students whose Principal Applied Study is a brass instrument; others by permission of the Dean.
UL: may only obtain a maximum of 2 credit hours

3732 Woodwind Seminar has topics selected from: issues of woodwind performance practice, history of woodwind instruments, woodwind literature and pedagogy, performance anxiety, comparative performances of woodwind repertoire, and other issues of special relevance to woodwind players.
CH: 1 per semester
PR: admission to the Bachelor of Music Degree program. Open only to students whose Principal Applied Study is a woodwind instrument; others by permission of the Dean.
UL: may only obtain a maximum of 2 credit hours

3742 String Seminar has topics selected from: issues of string performance practice, history of string instruments, string literature and pedagogy, performance anxiety, comparative performances of string repertoire, and other issues of special relevance to string players.
CH: 1 per semester
PR: admission to the Bachelor of Music Degree program. Open only to students whose Principal Applied Study is a string instrument; others by permission of the Dean.
UL: may only obtain a maximum of 2 credit hours

3764 Vocal Pedagogy provides a thorough study of the anatomy, physiology and acoustics of the vocal tract and singing voice as well as a practical application of these topics.
CR: the former MUS 3761, 3762, 3763
PR: Music 140B in voice, and admission to the Bachelor of Music Degree program

3774 Piano Pedagogy is designed to provide students with a basic knowledge of resources and pedagogical approaches used in piano teaching at various levels. May include guest masterclasses and lectures.
CO: MUS 140B or permission of the instructor
CR: the former MUS 3773
PR: MUS 140B or permission of the instructor, and admission to the Bachelor of Music Degree program

440A/B Principal Applied Study IV is a continuation of MUS 340A/B.
AR: attendance is required at School of Music recitals
CH: 4
CO: one of MUS 2611-2620 in accordance with Ensemble II listed under the Core Program
CR: MUS 445A/B
OR: one hour per week of individual instruction
PR: MUS 340A/B, successful completion of MUS 2006, 2108, and 2118, and admission to the Bachelor of Music Degree program

445A/B Principal Applied Study IV - Performance is a continuation of MUS 345A/B. Students are required to present a public recital consisting of 50 to 60 minutes of music with program notes. This recital will normally take place in the second semester, before the last day of classes. A minimum grade of 75% is required to pass MUS 445B.
AR: attendance is required at School of Music recitals
CH: 6
CO: one of MUS 2611-2620 in accordance with Ensemble II listed under the Core Program
CR: MUS 440A/B
OR: one hour per week of individual instruction
PR: MUS 345A/B, successful completion of MUS 2006, 2108, and 2118 and admission to the Bachelor of Music Degree program; open only to students whose Principal Applied Study is a string instrument; others by permission of the Dean.
UL: may only obtain a maximum of 8 credit hours
4503 Special Topics in Applied Music will have topics to be studied announced by the School of Music.
CH: 1 per semester
PR: admission to the Bachelor of Music Degree program
UL: may only obtain a maximum of 3 credit hours

4504 Special Topics in Applied Music will have topics to be studied announced by the School of Music.
CH: 2 per semester
PR: admission to the Bachelor of Music Degree program
UL: may only obtain a maximum of 4 credit hours

4505 Special Topics in Applied Music will have topics to be studied announced by the School of Music.
CH: 3 per semester
PR: admission to the Bachelor of Music Degree program
UL: may only obtain a maximum of 6 credit hours

4701 Music in the Community allows students to explore the role of the artist in the community by planning and carrying out a community music-making project. Students will be required to propose a viable collaborative project prior to registering.
CH: 1
PR: MUS 3704 or the former MUS 3703, permission of the Dean, and admission to the Bachelor of Music Degree program

4702 Music in the Community allows students to explore the role of the artist in the community by planning and carrying out a community music-making project. Students will be required to propose a viable collaborative project prior to registering.
CH: 2
PR: MUS 3704 or the former MUS 3703, permission of the Dean, and admission to the Bachelor of Music Degree program

4703 Music in the Community allows students to explore the role of the artist in the community by planning and carrying out a community music-making project. Students will be required to propose a viable collaborative project prior to registering.
PR: MUS 3704 or the former MUS 3703, permission of the Dean, and admission to the Bachelor of Music Degree program

13.2 Ensemble Techniques Courses

All courses in ensemble techniques are available only to candidates for the degree of Bachelor of Music except where specified.

2311 Voice/Choral Materials I is a practical study, in a class situation, of vocal production, choral conducting and rehearsal techniques. This course is open to Bachelor of Music degree students and students in the Music Concentration Program for the Bachelor of Education (Primary or Elementary) degree.

2312 Voice/Choral Materials II is a continuation of MUS 2311.
PR: MUS 2311

3221 Brass Techniques I meets one hour per week. Practical study, in a class situation, of the basic techniques of playing brass instruments.
CH: 1

3222 Brass Techniques II meets one hour per week. A continuation of MUS 3221. Students whose Principal Applied Study is a brass instrument must have the permission of the instructor to take this course.
CH: 1

3231 Flute Techniques meets one hour per week. Practical study, in a class situation, of the basic techniques of playing the flute.
CH: 1
UL: may not be taken for credit by students whose Principal Applied Study is flute.

3232 Single Reed Techniques meets one hour per week. Practical study, in a class situation, of the basic techniques of playing the clarinet and/or saxophone.
CH: 1
PR: permission of the instructor for students whose Principal Applied Study is clarinet or saxophone.

3233 Double Reed Techniques meets one hour per week. Practical study, in a class situation, of the basic techniques of playing the oboe and/or bassoon.
CH: 1
PR: permission of the instructor for students whose Principal Applied Study is oboe or bassoon.

3241 Upper String Techniques meets one hour per week. Practical study, in a class situation, of the basic techniques of playing the violin and viola.
CH: 1
UL: may not be taken for credit by students whose Principal Applied Study is violin or viola.

3242 Lower String Techniques meets one hour per week. Practical study, in a class situation, of the basic techniques of playing the cello and string bass.
CH: 1
PR: permission of the instructor for students whose Principal Applied Study is cello or string bass.

3261 Guitar Techniques meets one hour per week. Practical study, in a class situation, of the basic techniques of playing the guitar.
CH: 1
UL: may not be taken for credit by students whose Principal Applied Study is guitar.

3271 Organ Techniques meets one hour per week. Practical study, in a class situation, of the basic techniques of playing the organ.
CH: 1
PR: permission of the instructor for students whose Principal Applied Study is not piano.
UL: may not be taken for credit by students whose Principal Applied Study is organ

3272 Harpsichord Techniques - inactive course.

3281 Percussion Techniques I meets one hour per week. Practical study, in a class situation, of the basic techniques of playing percussion instruments.
CH: 1
UL: may not be taken for credit by students whose Principal Applied Study is percussion.

3282 Percussion Techniques II meets one hour per week and is a continuation of MUS 3281.
CH: 1
PR: MUS 3281
UL: may not be taken for credit by students whose Principal Applied Study is percussion.

3321 Instrumental Conducting I is the practical study of conducting and rehearsal techniques for band and orchestra.
AR: attendance is required
CR: the former MUS 3311, 3312, 3313, 3314
PR: MUS 1108

3322 Instrumental Conducting II is continuation of MUS 3321.
AR: attendance is required
CR: the former MUS 3315, 3316
PR: Music 3321

13.3 Music Theory and Composition Courses

1107 Materials and Techniques of Music I is the study of the basic materials of tonal music; introduction to melody writing and structures; introduction to voice leading with emphasis on chorale style; analysis and composition of smaller formal elements.
CO: MUS 1117
CR: the former MUS 110A, the former MUS 1113
PR: MUS 1120 with a minimum mark of 75% or successful completion of the Theory Placement Test.

1108 Materials and Techniques of Music II is a continuation of MUS 1107. Harmonic vocabulary is expanded to include all diatonic triads and seventh chords, with an introduction to chromatic harmony; phrase expansions and contractions; analysis and composition of binary and ternary forms.
CR: the former MUS 110B, the former MUS 1114
PR: MUS 1107

1116 Basic Musicianship is an introduction to sightsinging and dictation for students whose level of preparation is not adequate for MUS 1117.
CH: 1
CO: MUS 1120 or equivalent
LC: 2
UL: not applicable to the Bachelor of Music degree.

1117 Aural Skills I is a course on sightsinging and dictation.
CH: 1
CO: MUS 1107
LC: 2
PR: a minimum grade of 75% in MUS 1116 or successful completion of the Theory Placement Test.

1118 Aural Skills II is a continuation of MUS 1117.
CH: 1
CO: MUS 1107
LC: 2
PR: MUS 1107, 1117

AR = Attendance requirement; CH = Credit hours are 3 unless otherwise noted; CO = Co-requisite(s); CR = Credit can be retained for only one course from the set(s) consisting of the course being described and the course(s) listed; LC = Lecture hours per week are 3 unless otherwise noted; LH = Laboratory hours per week; OR = Other requirements of the course such as tutorials, practical sessions, or seminars; PR = Prerequisite(s); UL = Usage limitation(s).
1120 Rudiments I is an introductory course in music rudiments and theory. Development of aural skills is emphasized. UL: not applicable to the Bachelor of Music degree.

2107 Materials and Techniques of Music III is a study of chromatic harmony with emphasis on both writing and analysis. Introduction to sonata form. CR: the former MUS 210A, the former MUS 2113. PR: MUS 2108

2108 Materials and Techniques of Music IV is a continuing study of chromatic harmony with an emphasis on enharmonic modulation and other advanced chromatic techniques. Continued study of sonata form, rondo, sonata rondo and variation forms. Written work will include both analysis and composition exercises in the styles studied. CR: the former MUS 210B, the former MUS 2114. PR: MUS 2107

2117 Aural Skills III is a continuation of MUS 1118. CH: 1. LC: 2. PR: MUS 1108, 1118

2118 Aural Skills IV is a continuation of MUS 2117. CH: 1. LC: 2. PR: MUS 2107, 2117

3100 Composition I introduces students to a variety of compositional concepts such as selected post-1900 techniques, developments in rhythm and metre, texture, phrase structures, song forms, short forms, and motivic development. The emphasis will be on composing short works employing the compositional devices studied. Students planning to apply for the Major in Composition are strongly encouraged to take this course. CR: the former MUS 2108. PR: MUS 2108

3104 Electronic Music Studio Techniques I is a course designed to give basic instruction in the theory, technique, and philosophy of electronic music composition. Students obtain the skills necessary to operate the equipment of an electronic music studio (including mixers, synthesizers, and samplers) and to use them in appropriate and creative ways. Objectives of the course are achieved through lecture, lab experiences, listening and practical application. PR: MUS 1108

3105 Materials and Techniques of Post-Tonal Music is a study of compositional devices used in the twentieth century. Topics include minimalism, new tonality, aleatorism, atonality, set theory, serial techniques, and electronic music. PR: MUS 2108

3106 Sixteenth-Century Counterpoint is a course combining the analytical study of 16th-century sacred polyphony with an emphasis on the development of compositional skills in this style. Students will be required to write two- and three-part counterpoint exercises and a motet. The principal composers studied will be Palestrina, Lassus, and Victoria. Some listening and singing assignments are required. PR: MUS 1108

3108 Eighteenth-Century Counterpoint is a study of form and polyphony in eighteenth-century music, including the fugue and the Baroque suite. Assignments include analysis, composition, and written exercises in counterpoint. CR: the former MUS 310A, the former MUS 3113. PR: MUS 2107

3109 Jazz Theory and Arranging is an introduction to jazz theory and the principles of arranging for jazz ensembles. PR: MUS 2108

3112 Orchestration I is an introduction to the principles of orchestration with an emphasis on instrumentation. CR: the former MUS 3102. PR: MUS 2108 or permission of the instructor

3140 Composition Seminar provides intensive composition study for students whose Major or Minor is Composition. Students will prepare a recital of original works and/or a portfolio of their compositions. PR: MUS 2108, the former MUS 102. CR: the former MUS 4102. PR: MUS 3112, or the former MUS 3102, or permission of the instructor.

4107 Special Topics in Music Theory will have topics to be studied announced by the School of Music. UL: may only obtain a maximum of 4 credit hours

4112 Orchestration II is a continuation of MUS 3112, and examines the technique of orchestration as it relates to the symphonic orchestra and other large ensembles. CR: the former MUS 4102. PR: MUS 3112, or the former MUS 3102, or permission of the instructor.

4140 Advanced Composition Seminar provides advanced composition study for students whose Major or Minor is Composition. Students will prepare a recital of original works and/or a portfolio of their compositions. PR: 6 credit hours of MUS 3140, and admission to the Composition Major. UL: may only obtain a maximum of 6 credit hours

13.4 Musicologies Courses

1005 Thinking and Writing About Music I is designed to develop listening, critical thinking, research and writing skills through selected cross-cultural topics and themes exploring the relationship between music and society. The course will introduce the student to the terminology of music history and the concepts of genre, musical style and style periods. This course has strong listening and writing components.

CR: the former MUS 2102. PR: MUS 1002. CR: MUS 1102 or successful completion of theory placement test or admission to the Bachelor of Music degree program. The ability to read music is required.

1006 Thinking and Writing about Music II is a continuation of MUS 1005. PR: MUS 1005

2005 History of Western Art Music I is an intensive survey, through selected compositions, of the development of musical style to 1700. This course has strong listening and writing components. CR: the former MUS 2005. PR: MUS 2005

2006 History of Western Art Music II is a continuation of MUS 2005. An intensive survey, through selected compositions, of the development of musical styles in the Western world from 1700 to 1900. This course has strong listening and writing components and continues to develop research skills.

CR: the former MUS 2002. PR: MUS 2005

2011 North American Popular Music examines the development of North American popular music from its origins in the mid-nineteenth century to the present. The course examines major musical genres, their historical roots, their musical characteristics, the influences that shaped them and the artists who defined them. It explores sociopolitical issues embedded in popular music, as well as how music has evolved to express new conceptions of self and community, social anxieties, tensions and ideals. No prior musical knowledge is required. UL: not applicable to the Bachelor of Music degree.

2012 Understanding Classical Music: Introduction Through Guided Listening is a course designed to enhance and develop listening skills and an understanding of the basic elements of music. Form and musical style in Western classical music will be explored within a cultural and historical context. Through guided listening, the student will be exposed to a variety of musical styles and traditions. This course has a strong listening component. The ability to read music is not required.

CR: MUS 1005, 1006, 2005, 2006 or the former MUS 1000, 1001, 1002,1003, 1010, 1020 or 1021. UL: not applicable to the Bachelor of Music degree.

2013 Twentieth-Century Musicals (same as English 2013) is a survey of twentieth-century musical theatre. Selected works, presenting different styles and periods, will be examined in detail. There will be a strong, required listening/viewing component to this course. The ability to read music is not required.

CR: MUS 2007, English 2013. UL: not applicable to the Bachelor of Music degree.

2014 Introduction to World Music provides an introduction to the musics of selected cultures and contemporary intercultural communities. Drawing on topics and issues in ethnomusicology, it focuses on musical practices, beliefs, and techniques. It is intended to develop listening skills, broaden musical horizons, as well as to enable a deeper understanding of the way music functions in relation to social groups and individual lives.

UL: not applicable to the Bachelor of Music degree.

2021 Newfoundland and Labrador Folksinging is an introduction to the
sociocultural contexts, functions, and meanings of folksongs in Newfoundland and Labrador. Proceeding from this contextual base drawn from oral and scholarly histories, the course offers practical instruction by a tradition-bearer in the singing of traditional Newfoundland and Labrador tunes and texts, using the techniques of aural transmission and assisted by the written medium where appropriate.

UL: no more than 3 credit hours from the 2012-2013 series may be applied toward the Bachelor of Music Degree

2022 Newfoundland and Labrador Fiddling is an introduction to the sociocultural contexts, functions, and meanings of fiddling in Newfoundland and Labrador. Proceeding from this contextual base drawn from oral histories, the course offers practical instruction by a tradition-bearer on the fiddle, using the techniques of aural transmission and assisted by the written medium where appropriate.

UL: no more than 3 credit hours from the 2012-2013 series may be applied toward the Bachelor of Music Degree

2023 Newfoundland and Labrador Accordion is an introduction to the sociocultural contexts, functions, and meanings of accordion music in Newfoundland and Labrador. Proceeding from this contextual base drawn from oral histories, the course offers practical instruction by a tradition-bearer on the button accordion, using the techniques of aural transmission and assisted by the written medium where appropriate.

UL: no more than 3 credit hours from the 2012-2013 series may be applied toward the Bachelor of Music Degree

3004 The Development of Symphonic Music (formerly MUS 3020) is a study of the development of symphonic literature from the late Baroque era to the present day. Selected compositions, representing different periods and styles, will be examined in detail. This course has a strong listening component.

CR: the former MUS 3020
PR: MUS 2005

3007 A History of Popular Music in Drama is a survey of popular music styles in drama from the rise of the Singapaler to the musicals of Andrew Lloyd Webber. Selected works, representing different periods and styles, will be examined in detail. This course has a strong listening component.

CR: MUS 2013, English 2013
PR: MUS 2005 or permission of the instructor

3009 Music in the Modern World is an intensive study of music in the 20th and 21st centuries. Focused themes address a wide range of genres and styles with particular attention to music's interaction with the other arts and with society. This course has strong listening and writing components and continues to develop research skills.

CR: the former MUS 3009
PR: MUS 2006

3014 World Music: Musics of Asia and Oceania is an examination of musical theory, genres, instruments, aesthetics, and functions of music in Asia and Oceania, including the classical music of the Indian subcontinent, ritual musics of East Asia, gong-chime ensembles of Southeast Asia, and traditional musics of Polynesia and Australia. This course has a strong listening component.

PR: MUS 1120 with a minimum mark of 75% or equivalent and completion of at least 24 credit hours of university course work.

3015 World Music: Music of Africa and the Americas is an examination of musical theory, genres, instruments, aesthetics, and functions of music in Africa and the Americas, including traditional African musics, neo-African musics of the Americas, Native American musics, and traditional South American musics. This course has a strong listening component.

PR: MUS 1120 with a minimum mark of 75% or equivalent and completion of at least 24 credit hours of university course work.

3016 Canadian Musical Traditions is a survey of musical streams in Canadian music history from colonial times to the present, including indigenous and transplanted musical traditions, and Canadian art music. This course has a strong listening component.

PR: MUS 1120 with a minimum mark of 75% or equivalent and completion of at least 24 credit hours of university course work

3017 Music, Song and Tradition (same as Folklore 3200) introduces students to a wide range of traditional song. Students will hear and discuss local, regional and international examples. Ability to read music or familiarity with music theory not required.

CH: 3
CR: FOLK 3200, the former FOLK 4445

3018 Jazz and Blues: The Roots of Popular Music (same as Folklore 3618) is an overview of blues and jazz as traditional musical forms. Lectures and listening will illustrate the development of regional music cultures and generic styles. To better understand the shift of blues and jazz from local to global performance contexts, the course will examine the effects of changing transmission media, from predominantly sensory media through contemporary media technologies. A term paper concerning musical style will entail library research and aural analysis.

CR: Folklore 3618

3019 Popular Music Studies will explore a number of genres in the historical development of world popular music and dance, along some of the following themes: the roles of race, class, gender, sexuality, age, and ability in popular music production and reception; processes and effects of mass media and technology in shaping genres and consumers' experience of them; and cross-cultural influences within and across national borders.

PR: MUS 1120 with a minimum mark of 75% or equivalent and completion of at least 24 credit hours of university course work

3060 Voice Literature and Performance Practice is a survey of selected solo vocal repertoire from the Renaissance to the present day. Stylistic development and performance practices will be emphasized.

PR: MUS 140B in voice or permission of the instructor

3070 Piano Literature and Performance Practice is an active course.

4001 The First Viennese School is a study of the music composed in the Austro-Hungarian Empire from 1770 to 1800. The works of Haydn, Mozart and the young Beethoven will be investigated with particular emphasis on musical style, performance practices and cultural context. Listening will focus on complete works or extended excerpts.

PR: MUS 2006

4002 Studies in Baroque Music is an examination of aspects of musical style and performance practices in the baroque period through the study of selected topics and specific musical examples. The course includes reading assignments, listening, score reading, and taking part in class demonstrations.

PR: MUS 2006

4003 Special Topics in Musiclologies will be announced by the School of Music.

CH: 1 per semester
UL: may only obtain a maximum of 3 credit hours

4004 Special Topics in Musiclologies will be announced by the School of Music.

CH: 2 per semester
UL: may only obtain a maximum of 4 credit hours

4005 Special Topics in Musiclologies will be announced by the School of Music.

UL: may only obtain a maximum of 6 credit hours

4040 Music and Culture is an examination of aspects of musical style and performance practices in the baroque period through the study of selected topics and specific musical examples. The course includes reading assignments, listening, score reading, and taking part in class demonstrations.

CR: Folklore 3618, the former FOLK 4445

4095 Graduating Essay is directed study which will result in the production of an original paper dealing with a topic in musicologies (including but not limited to music history, ethnomusicology, and popular music studies). This course is restricted to Musicologies Majors. A one-page research proposal and sample bibliography of at least ten items must be submitted to the Dean by the end of the seventh week of classes in the previous semester.

PR: admission to the Musicologies Major
1 The Memorial University of Newfoundland Code

The attention of all members of the University community is drawn to the section of the University Calendar titled The Memorial University of Newfoundland Code, which articulates the University's commitment to maintaining the highest standards of academic integrity.

2 Student Code of Conduct

Memorial University of Newfoundland expects that students will conduct themselves in compliance with University Regulations and Policies, Departmental Policies, and Federal, Provincial and Municipal laws, as well as codes of ethics that govern students who are members of regulated professions. The Student Code of Conduct outlines the behaviors which the University considers to be non-academic misconduct offences, and the range of remedies and/or penalties which may be imposed. Academic misconduct is outlined in UNIVERSITY REGULATIONS - Academic Misconduct in the University Calendar.

For more information about the Student Code of Conduct, see www.mun.ca/student/conduct/conduct.php.

3 School Description

The origin of Memorial University of Newfoundland School of Nursing dates back to August 1963 when the Association of Registered Nurses of Newfoundland submitted a brief to the University calling for the establishment of a baccalaureate program in nursing. In September 1966, the first students were admitted to the undergraduate degree program. Over its history, the School has remained responsive to the changing needs of nursing within the province and in Canada and consequently has developed and changed over time.

The educational, research and scholarly activities of the School and its faculty draw upon knowledge from the arts and sciences and from nursing and other health professions. The School and its faculty are also involved in many community outreach and professional service activities. While being responsive to national and international needs, the School acknowledges its primary responsibility to the people of Newfoundland and Labrador.

The School offers an undergraduate degree program on campus to prepare entry-level nurses for practice, and by distance for registered nurses with a diploma in nursing. Graduate degrees, the Doctor of Philosophy in Nursing and the Master of Nursing, are offered by the School of Graduate Studies.

Students must meet all regulations of the School in addition to those stated in the general regulations. For information concerning fees and charges, admission/readmission to the University, and general academic regulations (undergraduate), refer to UNIVERSITY REGULATIONS.

Further information regarding the School of Nursing is available at www.mun.ca/nursing.

3.1 Vision Statement

The School of Nursing will be responsive and engaging leaders in nursing education and research provincially, nationally and internationally by developing quality teaching, learning, and research environments. Graduates of the School will be skillful, caring, knowledgeable nurses who have a clear vision of the nursing discipline. They will strive for excellence in health care, be prepared to collaborate with others, and be responsive to human diversity in an effort to improve health for all.

3.2 Mission Statement

The School of Nursing provides leadership in teaching and learning in nursing, nursing research, and public engagement with the goal of promoting health and well-being.
3.3 Accreditation Status and Approval Status

3.3.1 Accreditation Status
The School of Nursing’s Bachelor of Nursing (Collaborative) and the Bachelor of Nursing (Post-RN) Programs are accredited to 2015 and 2017 respectively, by the Canadian Association of Schools of Nursing (CASN). The seven year award achieved by these programs is the highest award given to Schools of Nursing in Canada. CASN review of the Bachelor of Nursing (Collaborative) for ongoing accreditation is in progress.

3.3.2 Approval Status
The School of Nursing’s Bachelor of Nursing (Collaborative) and the Bachelor of Nursing (Post-RN) Programs are approved by the Association of Registered Nurses of Newfoundland and Labrador (ARNNL). The ARNNL approval designation assures both the public and our students that these Programs prepare ethical entry-level practitioners who provide safe quality health care. These program graduates meet the requirements for licensure and professional practice as registered nurses in Newfoundland and Labrador.

4 Description of Programs
All courses of the School are designated by the abbreviation NURS.

4.1 General
The School of Nursing offers an undergraduate program leading to a Bachelor of Nursing to prepare entry-level nurses. To meet the licensing requirements for practising nursing in Canada, students must write the National Council Licensure Examination for Registered Nurses (NCLEX-RN). To be eligible to write the NCLEX-RN, candidates must graduate from an approved program offered by a School of Nursing and be recommended by the School of Nursing. In order to be recommended for the NCLEX-RN, a student must complete a comprehensive examination set by the Bachelor of Nursing (Collaborative) Program. All costs associated with these exams are the responsibility of the student.

The School of Nursing also offers an undergraduate program leading to a Bachelor of Nursing for nurses with a diploma in nursing. This Program is currently being phased out and is not available for new admissions.

4.1.1 Bachelor of Nursing (Collaborative) Program
This four year Program is designed to prepare competent entry-level nurses who will function within a variety of health care settings. The graduate is prepared to assume the roles of direct care giver, educator, counsellor, advocate, facilitator, co-ordinator of care, researcher, leader, and member of the nursing profession. This full-time Program is comprised of 130 credit hours. Please note, the last semester of the fourth year extends beyond the normal University semester end date.

The School of Nursing depends on the cooperation and involvement of a large number of organizations and professional personnel in providing quality clinical placements and instruction to its students. These agencies often have a range of requirements, some of which include, a Certificate of Conduct, a Child Protection Record Check, immunizations, a First Aid Certificate, and a CPR certificate. Students unable to meet these agency requirements may be delayed in their program or prevented from completing their program of studies. All students are required to complete these requirements in a timely fashion and at their own expense. Many of these requirements must be updated annually. In order to satisfy clinical practice requirements for the Bachelor of Nursing (Collaborative) Program, clinical agencies may be used 24 hours a day, seven days a week. Students may be required to attend during any of these times.

This Program is offered at Memorial University of Newfoundland School of Nursing, the Centre for Nursing Studies, and the Western Regional School of Nursing. Information regarding the Centre for Nursing Studies is available at www.centrefornursingstudies.ca, and information regarding the Western Regional School of Nursing is available at www.grenfell.mun.ca/nursing.

4.1.1.1 Bachelor of Nursing (Collaborative) Fast-Track Option
The Fast-Track Option is also designed to prepare competent entry-level nurses, however it is geared to students with well-developed university-level study skills. This full-time Option is for current degree holders or those with advanced standing and is comprised of 94 credit hours. This Option is taken over six consecutive semesters, i.e. two calendar years. Please note, the last semester of the second year ends later than the scheduled date on which the semester ends.

This Option is offered at Memorial University of Newfoundland School of Nursing and Western Regional School of Nursing. Information regarding the Western Regional School of Nursing is available at www.grenfell.mun.ca/nursing.

4.1.1.2 Bachelor of Nursing (Collaborative) LPN Bridging Option
This Option recognizes the nursing knowledge and clinical experience obtained through the Centre for Nursing Studies Practical Nursing Program (2002 or later) and work experiences, and provides a career ladder for Licensed Practical Nurses (LPNs) who wish to obtain the Bachelor of Nursing degree. Successful applicants must choose to complete a Bridging semester prior to admission to the Program. The courses taken during the Bridging semester prepare LPNs to enter the second year of the degree Program.

The Bridging semester, completed before admission to the B.N. Program, is comprised of three non-nursing courses and a mathematics requirement as well as a 7-week Bridging course. Upon successful completion of the Bridging semester, LPN Bridging candidates are granted 25 unspecified transfer nursing credit hours as equivalent to the 25 credits of the Year 1 nursing courses in the Bachelor of Nursing (Collaborative) Program. If all courses of the Bridging semester are successfully completed, all non academic requirements for entrance into the Program are complete, and candidates remain in good standing with the University, they are accepted into Year 2 of the Bachelor of Nursing (Collaborative) Program.

The LPN Bridging Option is offered at the Centre for Nursing Studies. Information regarding the Centre for Nursing Studies is available at www.centrefornursingstudies.ca.

4.1.2 Bachelor of Nursing (Post-RN) Program
The Bachelor of Nursing (Post-RN) Program is currently being phased out and is not available for new admissions. The Program will be discontinued August 2016.

4.1.3 Bachelor of Nursing (Post-RN) Nurse Practitioner Primary Health Care Option
The Bachelor of Nursing (Post-RN) Program is currently being phased out and is not available for new admissions.
5 Admission/Readmission Regulations for the School of Nursing

Applicants requiring additional information for the Bachelor of Nursing (Collaborative) Program may visit the Nursing Admissions website at www.mun.ca/nursingadmissions.

In addition to meeting the UNIVERSITY REGULATIONS students must meet the admission/readmission regulations for the School of Nursing.

5.1 General Information

1. Entry to the Bachelor of Nursing (Collaborative) four year, Fast-Track, and the LPN Bridging Options, is competitive for a limited number of positions. Meeting the minimum requirements for admission does not guarantee acceptance into the Program. The final decision on admission rests with the Admissions Committee of the Program.

2. Admission or readmission to the University does not necessarily constitute admission or readmission to the Program.

3. Selection of candidates admission to the Bachelor of Nursing (Collaborative) Program, the Fast-Track and LPN Options is based on academic performance, relevant work and volunteer experience, references and personal statements.

4. Selection of candidates for admission to the Bachelor of Nursing (Collaborative) Fast-Track Option is based on:
   - a minimum grade point average of 3.0 on a 4 point scale in their degree program for applicants who have completed a bachelor degree; or a minimum overall grade point average of 3.0 on a 4 point scale in the twelve courses, 36 credit hours required for admission for applicants with advanced standing;
   - evidence of ability to successfully maintain a full course load; and
   - other criteria considered suitable for professional practice in nursing.

5. Selection of candidates for admission to the Bachelor of Nursing (Collaborative) LPN Bridging Option is based on:
   - academic performance in the practical nursing program and in any university courses taken to date;
   - evidence of ability to successfully maintain a full course load; and
   - other criteria considered suitable for professional practice in nursing.

   Admission to the program is denied to any student if, in the judgment of the Joint Admissions Committee, s/he is deemed unsuitable for admission.

   Applicants must provide two letters of reference (one reference regarding academic performance and one from a current employer regarding clinical performance)

6. Priority is given to applicants who are residents of Newfoundland and Labrador.

7. In addition to the regular quota positions, up to three additional positions per year are available in the Bachelor of Nursing (Collaborative) four year Program for applicants of aboriginal ancestry who have met the admission requirements. Applicants must send a letter of request at the time of application and provide documentation of aboriginal ancestry.

8. Bachelor of Nursing (Collaborative) Program applicants are required to submit a student information form and a complete record of current immunizations when admitted to the Program.

9. Bachelor of Nursing (Collaborative) Fast-Track and Bachelor of Nursing (Collaborative) LPN Bridging Option applicants may be requested to attend an interview.

10. Evidence of certification in Standard First Aid and Basic Life Support (CPR) level HCP, offered by The Canadian Red Cross or St. John Ambulance is required by all applicants prior to commencing clinical courses. Certification obtained from other organizations will be accepted if deemed equivalent by the School of Nursing.

5.2 Application Forms and Deadlines

1. The Bachelor of Nursing (Collaborative) Program including the Fast-Track Option commence in the Fall semester. The LPN Bridging Option begins in May. The deadline for application to the Bachelor of Nursing (Collaborative) Program, four year and Fast-Track Option is March 1st. The deadline for application to the Bachelor of Nursing (Collaborative) Program LPN Bridging Option is February 1st. The Bachelor of Nursing (Post-RN) Program is not available for new admissions.

2. Students applying for admission to Bachelor of Nursing (Collaborative) Program and its Options must, if not a current Memorial University of Newfoundland student, submit the Undergraduate Application for Admission/Readmission to the University and supporting documents as specified on the application. The Memorial University of Newfoundland application for Admission/Readmission along with the Bachelor of Nursing (Collaborative) Program application is available at www.mun.ca/become. Additional information on applying is available at www.mun.ca/nursingadmissions/Admission/HowtoApply/. Applicants to the LPN Bridging Option should submit a Memorial University of Newfoundland application for Admission/Readmission for the Spring semester.
5.3 Admission Requirements to School Programs

These regulations apply to the Bachelor of Nursing (Collaborative) Program four year, Fast-Track and LPN Bridging Options. Applicants may apply for admission under the Categories of Applicants, Admission Criteria and Other Information outlined under UNIVERSITY REGULATIONS - Admission/Readmission to the University (Undergraduate). In addition to meeting these regulations, applicants in the following categories, must meet the additional requirements as indicated below.

5.3.1 High School Applicants

Applicants from High School may apply for admission only to the four year Bachelor of Nursing (Collaborative) Program.

1. High School applicants to the Bachelor of Nursing (Collaborative) Program must have completed a high school diploma, or its equivalent, as certified by the Department of Education of Newfoundland and Labrador and meet the general Admission/Readmission requirements of Memorial University of Newfoundland. High school courses must include the following or their equivalents:
   - Biology 2201
   - Biology 3201
   - Chemistry 3202
   - English 3201
   - Math 3200 or 3201
   - Social Science or Modern Language (2 credits at 3000)

5.3.2 Memorial University of Newfoundland Applicants

Memorial University of Newfoundland applicants may apply for admission to the Bachelor of Nursing (Collaborative) Program including the Fast-Track and the LPN Bridging Options.

1. Bachelor of Nursing (Collaborative) four year Program applicants must have a high school diploma, or its equivalent, as certified by the Department of Education of Newfoundland and Labrador. Advanced High School Math is preferred and science courses must include:
   - Biology 2201 and 3201 or their equivalents
   - Chemistry 3202 or equivalent

2. Bachelor of Nursing (Collaborative) Fast-Track Option applicants must have successfully completed an undergraduate degree from a recognized university and the following courses prior to admission:
   - Statistics 2500 or equivalent, or Education 2900
   - Biochemistry 1430 or equivalent
   - Biology 3053 or equivalent or qualify for advanced standing. An applicant who has successfully completed all the non-nursing course requirements of the Bachelor of Nursing (Collaborative) Program, and who is in good standing, may qualify for advanced standing. Applicants must demonstrate successful completion of a minimum of the following 12 courses, 36 credit hours prior to admission:
     - 6 courses, 18 credit hours as follows: 6 credit hours from English, Biochemistry 1430 or equivalent, Biology 3053 or equivalent, Psychology 1000 or equivalent, Statistics 2500 or equivalent or Education 2900;
     - 4 courses, 12 credit hours as follows: 3 credit hours from each of the following: Business, Philosophy 2500-2599 or Religious Studies 2610, Political Science, and Sociology, Anthropology, or Archaeology; and
     - 2 courses, 6 additional elective credit hours selected from any credit courses offered by this University.

5.3.3 LPN Bridging Applicants

Applicants with a Licensed Practical Nurse designation may apply for admission to the Bachelor of Nursing (Collaborative) LPN Bridging Option.

1. To be considered for admission to the Bachelor of Nursing (Collaborative) LPN Bridging Option applicants must:
   - be a graduate (2002 or later) of the Centre for Nursing Studies Practical Nursing Program, Province of Newfoundland and Labrador;
   - be a Licensed Practical Nurse (copy of certification required);
   - meet the admission requirements for the Bachelor of Nursing (Collaborative) Program listed under Admission/Readmission Regulations for the School of Nursing; and
   - have completed the following high school courses: Biology 2201 and 3201 or their equivalents and Chemistry 3202 or equivalent.

2. Admission into the second year of the Bachelor of Nursing (Collaborative) Program will be conditional and based on successful completion of the Bridging semester, which includes the following:
   - Bridging Course (offered only at the Centre for Nursing Studies)
   - Biochemistry 1430
   - Psychology 1000
   - English (3 credit hours)
   - A score of 50% on a Mathematics Placement Test or Mathematics 102N or 3 credit hours in Mathematics.
5.3.4 Registered Nurse Designation Applicants
The Bachelor of Nursing (Post-RN) Program is being phased out and is no longer accepting new admissions. The Program will be discontinued August 2016.

5.3.5 Transfer Applicants
Transfer applicants may apply for admission to any of the School of Nursing Programs.
Applicants wishing to transfer from a nursing program that is offered outside of this Province should view the information at www.mun.ca/nursingadmissions/TransferringStudents.

1. Bachelor of Nursing (Collaborative) four year Program applicants must have a high school diploma, or its equivalent, as certified by the Department of Education of Newfoundland and Labrador. High School Math is preferred and science courses must include:
   - Biology 2201 and 3201 or their equivalents
   - Chemistry 3202 or equivalent

2. Bachelor of Nursing (Collaborative) Program Fast-Track Option applicants must have successfully completed an undergraduate degree from a recognized university and the following courses prior to admission:
   - Statistics 2500 or equivalent, or Education 2900
   - Biochemistry 1430 or equivalent
   - Biology 3053 or equivalent
   or qualify for advanced standing. An applicant who has successfully completed all the non-nursing course requirements of the Bachelor of Nursing (Collaborative) Program, and who is in good standing, may qualify for advanced standing. Applicants must demonstrate successful completion of the following 12 courses, 36 credit hours prior to admission:
     - 6 courses, 18 credit hours as follows: 6 credit hours from English, Biochemistry 1430 or equivalent, Biology 3053 or equivalent, Psychology 1000 or equivalent, Statistics 2500 or equivalent or Education 2900.
     - 4 courses, 12 credit hours as follows: 3 credit hours from each of the following: Business, Philosophy 2500-2599 or Religious Studies 2610, Political Science, and Sociology, Anthropology, or Archaeology; and
     - 2 courses, 6 additional elective credit hours selected from any credit courses offered by this University.

3. Bachelor of Nursing (Post-RN) Program applicants must provide:
   - proof of practising Registered Nurse (RN) license. For the purposes of admission a RN is a Nurse who is currently registered in Newfoundland and Labrador or eligible to register in Newfoundland and Labrador, or is currently registered or eligible for registration in the province/country in which the applicant resides; and
   - one letter of reference from a current supervisor of nursing position.

4. The Bachelor of Nursing (Post-RN) Program is currently being phased out and is not available for new admissions.

5. The Bachelor of Nursing (Post-RN) Nurse Practitioner Primary Health Care Option is being phased out and is not available for new admissions.

5.4 Other Information
1. Applicants seeking clinical placements outside of Canada must satisfy the clinical agency’s immunization requirements submitting documentation of its requirements to that agency at least one month in advance of the start of the semester in which the course will be taken.
2. Applicants seeking clinical placements within Canada must satisfy the School of Nursing agency requirements. Documents related to agency requirements must be submitted to the Office of the Registrar in advance of the start of registration for the semester in which the course will be taken.
6 Program Regulations - General Degrees

6.1 Bachelor of Nursing (Collaborative) Program

- The four year, 130 credit hour Bachelor of Nursing (Collaborative) Program requires 94 NURS credit hours and 36 non-NURS credit hours.
- The 130 credit hours are recommended to be taken in the academic terms in the sequence as set out in Table 1, 2, or 3 Bachelor of Nursing (Collaborative) Program. These courses will be offered during the same year at all sites, but the semester of course offering may vary with each site.
- Clinical course hours may occur at any time during the semester. Clinical courses may be offered in whole or in part outside the normal start and end dates of a semester.
- Selected nursing courses which are designed for the Bachelor of Nursing (Post-RN) Program may be used as electives in the Bachelor of Nursing (Collaborative) Program with permission of the Committee on Undergraduate Studies and the course instructor.

6.1.1 Bachelor of Nursing (Collaborative) Fast-Track Option

- The Bachelor of Nursing (Collaborative) Fast-Track Option is offered at Memorial University of Newfoundland School of Nursing and the Western Regional School of Nursing.
- The 94 credit hours may be taken in the academic terms as set out in Table 4 Bachelor of Nursing (Collaborative) Fast-Track Option. NURS 2002 and 2502 run over the first six weeks and NURS 3012 and 3512 run over the second six weeks. NURS 2514 and 3514 run consecutively for 6 weeks each.
- Clinical Courses may be offered in whole or in part outside the normal start and end dates of a semester. In the last semester of the Fast Track Option, the last clinical course will finish outside of the end date of Summer semester and may finish as late as the 3rd week in September. Students will be informed of the pertinent dates of clinical courses two semesters in advance.

6.1.2 Bachelor of Nursing (Collaborative) LPN Bridging Option

- The Bachelor of Nursing (Collaborative) LPN Bridging Option is only offered at the Centre for Nursing Studies.
- The Bachelor of Nursing (Collaborative) LPN Bridging Option requires 130 credit hours.
  - Upon successful completion of the Bridging Semester and admission to the Bachelor of Nursing (Collaborative) Program, LPN Bridging students will be granted 25 transfer credits as equivalent to the Year 1 nursing courses.
  - Non-nursing courses in Year 1 of the Bachelor of Nursing (Collaborative) Program (9 credit hours) must be completed prior to or as part of the Bridging Semester.
  - After admission, into the Bachelor of Nursing (Collaborative) Program, students complete 69 NURS credit hours and 27 non-NURS credit hours.
- The courses are recommended to be taken in the academic terms in the sequence as set out in Table 2, Bachelor of Nursing (Collaborative) Program - Centre For Nursing Studies (CNS), Academic Terms 3-9, and Table 5 Bachelor of Nursing (Collaborative) LPN Bridging Option.
- Selected nursing courses which are designed for the Bachelor of Nursing (Post-RN) Program may be used as electives in the Bachelor of Nursing (Collaborative) Program with permission of the Committee on Undergraduate Studies and the course instructor.

6.2 Bachelor of Nursing (Post-RN) Program

The Bachelor of Nursing (Post-RN) Program is currently being phased out and is not available for new admissions. The Program will be discontinued August 2016.

1. The 108 credit hour Bachelor of Nursing (Post-RN) Program requires 42 NURS credit hours, 21 non-NURS credit hours, and 45 unspecified transfer NURS credit hours awarded on the basis of successful completion of a diploma program in Nursing.

2. The Committee on Undergraduate Studies, School of Nursing, may recommend that a maximum of 6 transfer credits be awarded for certain post basic nursing courses/programs or for current Canadian Nurses Association certification.

3. Students are required to have a current, practising licence in the jurisdiction in which they plan to complete courses with a clinical component.

6.3 Bachelor of Nursing (Post-RN) Nurse Practitioner Primary Health Care Option

The Bachelor of Nursing (Post-RN) Program is currently being phased out and is not available for new admissions.

1. The 111 credit hour Bachelor of Nursing (Post-RN) Nurse Practitioner Primary Health Care Option requires 57 NURS credit hours, 45 unspecified transfer credits in NURS, and 9 non-NURS credit hours.

2. The 111 credit hours shall be taken in the academic terms in the sequence as set out in Table 7 Bachelor of Nursing (Post-RN) Nurse Practitioner Primary Health Care Option Two Year Plan (Full-Time) or Table 8, Bachelor of Nursing (Post-RN) Nurse Practitioner Primary Health Care Option Four Year Plan (Part-Time).

3. Nurse Practitioner courses may be offered in whole or in part outside the normal start and end dates of a semester.

4. 9 elective credit hours comprised of 3 credit hours in English, Statistics 2500 or equivalent of Education 2900 and 3 credit hours from Philosophy 2500-2599 or Religious Studies 2610 are recommended to be completed prior to required courses in both full-time and part-time options as indicated in Table 7 Bachelor of Nursing (Post-RN) Nurse Practitioner Primary Health Care Option Two Year Plan (Full-Time) and Table 8, Bachelor of Nursing (Post-RN) Nurse Practitioner Primary Health Care Option Four Year Plan (Part-Time).

## Promotion Regulations

These regulations apply to all programs except as noted below.

1. The Memorial University of Newfoundland School of Nursing constitutes the examining body for all School of Nursing examinations. The standing of every student will be assessed at the end of each academic semester by the Committee on Undergraduate Studies, and a grade report will be issued by the University Registrar to the individual student.

2. Students are required to achieve a grade of at least 65% or a grade of PAS as appropriate in each of the required nursing courses.

3. Except in the Bachelor of Nursing (Collaborative) Fast-Track Option, students failing to achieve the requirements outlined above are permitted to repeat the given nursing course only once. A second failure in a given nursing course will result in withdrawal from the program. A student in the Fast-Track Option who fails a course is required to withdraw from the Fast-Track Option. In the Bachelor of Nursing (Collaborative) Fast-Track Option students may be permitted, with special permission from the Dean/Directors, to resume studies within the four year stream of the Bachelor of Nursing (Collaborative) Program and are subject to all its academic standards. Accordingly, invoking this clause carries over to the Bachelor of Nursing (Collaborative) Program as a first failure in the relevant course(s).

4. Failure in excess of two nursing courses during the program will result in withdrawal from the Bachelor of Nursing (Collaborative) four year Program, the Bachelor of Nursing (Collaborative) LPN Bridging Option, or the Bachelor of Nursing (Post-RN) Program, or the Bachelor of Nursing (Post-RN) Nurse Practitioner Primary Health Care Option.

5. Students who are required to withdraw from the Bachelor of Nursing (Collaborative) four year Program, the Bachelor of Nursing (Collaborative) LPN Bridging Option, or the Bachelor of Nursing (Post-RN) Program, as outlined above in the two preceding clauses, may appeal for readmission after a lapse of two semesters by writing to the Chair, Committee on Undergraduate Studies. Students who are required to withdraw from the program a second time will not be eligible for future admission/readmission to the program.

6. A student may be required to withdraw from a nursing course with a clinical component or from the program at any time, on the recommendation of the Committee on Undergraduate Studies, if the student is deemed unlikely to profit from continued attendance in the nursing course or program and/or is deemed unsafe in a clinical setting. Students who are required to withdraw from the program for any of these reasons will not be eligible for future admission/readmission to the program or the School of Nursing.

7. Students who fail to complete a nursing course in any program, other than the Bachelor of Nursing (Post-RN) Program, for a period of three consecutive semesters will be considered to have withdrawn from the program. Students who have not completed a course in the Bachelor of Nursing (Post-RN) Program within the last 6 consecutive semesters will be considered to have withdrawn from the program and must apply for re-admission. Students in the Bachelor of Nursing (Post-RN) Nurse Practitioner Primary Health Care Option who fail to complete a nursing course will be considered to have withdrawn from the program and must apply for re-admission.

8. Students in the Bachelor of Nursing (Collaborative) Program and its Options who wish to take a leave of absence from the program may do so only with the written permission of the Dean or delegate. A leave will be granted for a maximum period of three consecutive semesters. Students on leave who plan to resume their studies must notify the Dean/Director in writing one semester prior to registration.

9. Students in the Bachelor of Nursing (Collaborative) Program and its Options who voluntarily withdraw from the program prior to the conclusion of the first semester of the first year and who wish to return to the program must re-apply in competition as a new applicant.

10. Students in the Bachelor of Nursing (Collaborative) Program and its Options who voluntarily withdraw from the program, at the conclusion of the first semester of the program, or later, and who wish to return to the program, must appeal for readmission. The letter of appeal must be directed to the Chair, Committee on Undergraduate Studies at the School of their original admission.

11. Students in the Bachelor of Nursing (Collaborative) Program and its Options who are readmitted following a period of absence, either as a result of a leave of absence or a withdrawal from the program, upon the recommendation of the Committee on Undergraduate Studies may be required to do remedial work, which can include repeating clinical, laboratory, or classroom courses, or repeating one or more terms of the program. Students will be advised of their remedial program at the time of readmission. All remedial work must be successfully completed before a student will be permitted to proceed in the program.

8 Graduation

Upon meeting the qualifications for any of the programs noted above a student must apply to graduate on the prescribed “Application for Graduation” form. This form may be obtained on-line at the Memorial Self Service at www3.mun.ca/admit/twbkwbis.P_WWWLogin. Additional information is available from the Office of the Registrar at www.mun.ca/regoff/graduation/apply_grad.php.

9 Waiver of School Regulations

Any student whose request for waiver of School regulations has been denied has the right to appeal. For further information refer to UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate) - Appeal of Decisions.

9.1 General Information

1. The School reserves the right in special circumstances to modify, alter, or waive any School regulation in its application to individual students where merit and equity so warrant in the judgment of the Committee on Undergraduate Studies of the School.

2. All requests must be submitted to the Committee on Undergraduate Studies of the School for consideration. A student requesting a waiver of a School regulation must submit the request in writing to the Chair of the Committee on Undergraduate Studies. Medical and/or other documentation to substantiate the request must be provided.

3. Any waiver granted does not reduce the total number of credit hours required for the degree.

10 Supplementary Examinations

Any student receiving a grade of 60% in a Nursing course is eligible to write a supplementary examination in that course. Only three supplementary examinations in Nursing courses can be written during the program. In addition to meeting UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate), upon successful completion of the supplementary examination, a student must also meet the promotion regulations of the School. For further information refer to Promotion Regulations.

1. Supplementary examinations are permitted only in Nursing courses that have a written final examination.

2. Supplementary examinations will have the same weight as final examinations for the course in determining whether the student achieves a passing grade for the course.

3. Any student writing a supplementary examination can obtain only a maximum grade of 65% in the course.

4. Supplementary examinations will be written no later than the first week of the semester immediately following the one in which the course was failed. Normally they should coincide with the writing of deferred examinations in courses where deferred examinations are granted for the semester in question. Grades for supplementary examinations must be received by the Office of the Registrar within one week following the completion of the examination.

5. A student may write a supplementary examination for any one course only once.

6. If it is mathematically impossible to achieve a passing grade in a course the student will not be granted a supplementary examination.

7. Supplementary exams are not available for the Nursing Bridging Course offered at the Centre for Nursing Studies prior to entering the second year of the Bachelor of Nursing (Collaborative) Program. Students who are unsuccessful in the Bridging Course and who wish to enter the Bachelor of Nursing (Collaborative) Program must apply in competition to enter into the first year of the program.

11 Appeal of Regulations

1. An applicant who has been denied admission has the right to appeal this decision of the Admissions Committee if it is felt by the applicant that the decision was reached on grounds other than those outlined under Admission/Readmission Regulations for the School of Nursing. The appeal should be made in writing within fourteen days of the notification of the decision and should be directed to the Chair, Memorial University of Newfoundland School of Nursing, Committee on Undergraduate Studies. The letter should state clearly and fully the grounds for the appeal.

2. Any student whose request for waiver of School regulations has been denied has the right to appeal. For further information refer to UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate) - Appeal of Decisions.

12 Course Descriptions

In accordance with Senate’s Policy Regarding Inactive Courses, course descriptions for courses which have not been offered in the previous three academic years and which are not scheduled to be offered in the current academic year have been removed from the following listing. For information about any of these inactive courses, please contact the Dean of the School.

All courses of the School are designated by NURS.

1002 Anatomy and Physiology I presents a survey of human anatomy and physiology throughout the lifespan. It includes aspects of cytology and histology that form a foundation for the practice of nursing. Special emphasis is given to the skeletal, muscular, nervous and endocrine systems. CR: Pharmacy 2002 or the former Pharmacy 3501

LH: 2

1003 Developing Therapeutic Relationships focuses on the application of caring theory to interpersonal communications. It emphasizes the development of the role of communicator in individual and group experiences and in professional relationships. Utilizing an experiential model, laboratory experiences focus on self-awareness and group dynamics. CR: the former NURS 1001

1004 Introduction to Nursing introduces the major concepts and theories related to the paradigm of person, health, society, nursing, environment, and nursing education in relation to the philosophy, conceptual framework and objectives of the program. Emphasis is placed on the concept of caring as the essence of nursing practice. CR: the former NURS 1001

AR = Attendance requirement; CH = Credit hours are 3 unless otherwise noted; CO = Co-requisite(s); CR = Credit can be retained for only one course from the set(s) consisting of the course being described and the course(s) listed; LG = Lecture hours per week are 3 unless otherwise noted; LH = Laboratory hours per week; OR = Other requirements of the course such as tutorials, practical sessions, or seminars; PR = Prerequisite(s); UL = Usage limitation(s).
1012 Anatomy and Physiology II presents a survey of anatomy and physiology throughout the lifespan. It includes aspects of cytology, histology and embryology that form a foundation for the practice of nursing. Special emphasis is given to the circulatory, respiratory, urinary, digestive, and reproductive systems, including pregnancy and delivery.
CR: Pharmacy 2003 or the former Pharmacy 3202
LH: 2
PR: NURS 1002

1014 Health Assessment focuses on the development of competencies needed to assess the health status of individuals throughout the lifespan using a systematic approach. Content includes the nurse's responsibilities for health history, physical examination, interpretation of findings, and documentation.
CO: NURS 1012
CR: NURS 2040
LH: 2

1015 Health Promotion throughout the Lifespan explores nursing concepts and theories pertaining to health promotion/education throughout the lifespan. Content includes principles of teaching/learning, introduction to community health and primary health care concepts and the determinants of health.
CO: NURS 1004 or the former NURS 1001, NURS 1003 and Psychology 1000; or admission to the Fast-Track Option
CR: the former NURS 1011
OR: 15 of the 16 lab hours during the semester
PR: NURS 1004 or the former NURS 1001, NURS 1003 and Psychology 1000; or admission to the Fast-Track Option

1016 Healthy Aging will explore, in-depth, concepts and issues applicable to the well older adult (65+). Selected theories, physical changes, and psychosocial, ethical, and legal issues associated with aging will be presented.
CO: NURS 1012, 1014, and 1015; or admission to the Fast-Track Option
PR: NURS 1002, 1003, and 1004; or admission to the Fast-Track Option
PR: NURS 1003 and 1004
LH: 2

1520 Extended Practice I provides the student with the opportunity to integrate the knowledge and practice the competencies acquired to date. The focus is the promotion, protection, and maintenance of health for individuals within the context of the family. This course is normally taught at the end of the Winter semester, usually beginning during the final week of the examination period.
CO: NURS 1012, 1014, 1015 or the former 1011, 1016, and 1017
OR: 96 clinical hours over three weeks; or 96 clinical hours during the semester for Fast-Track Option students
PR: NURS 1012, 1014, 1015 or the former 1011, 1016, and 1017

2002 Nursing Concepts for the Care of Women and the Child-bearing Family covers major concepts in women's reproductive health. The two major foci are women and their families through all phases of childbearing and the neonatal period, and nursing care of women experiencing alterations in reproductive health.
CO: NURS 2003, 2004, and 2502
CR: the former NURS 2001
PR: NURS 1520, 2003, and 2004

2003 Pathophysiology presents general concepts of disease processes and their impact on health. The course focuses on major pathophysiologic changes, including associated etiology, pathogenesis and clinical manifestations. Common illnesses are studied to illustrate these disease processes.
CO: NURS 1012
OR: tutorial 1.5 hours per week
PR: NURS 1012, Biochemistry 1430 or admission to the Fast-Track Option

2004 Pharmacology and Nutritional Therapies explores principles and concepts of pharmacological, nutritional and complementary therapies and management of common health problems across the lifespan. Nursing considerations and psychomotor competencies pertinent to these therapies are addressed.
CO: NURS 1012 and NURS 1014
LH: 2
PR: NURS 1012, NURS 1014, NURS 1017, Biochemistry 1430, and a score of 50 on the Mathematics Placement Test or Math 102N or 3 credit hours in Mathematics excluding Statistics 2500.

2014 Community Health Nursing Theory focuses on the knowledge required to practise nursing in the community with a variety of clients including individuals, families, groups and communities. It further examines the principles of primary health care, population health, and their application to community health nursing. It also focuses on the multidimensional role of the nurse.
CO: NURS 2003 and 2004, 2514
CR: NURS 4101
OR: seminar or labs 2 hours per week
PR: NURS 1520, 2003, and 2004

2017 Intermediate Psychomotor Competencies will provide the student an opportunity to acquire intermediate psychomotor competencies that are related to the provision of client comfort and safety in a variety of settings. As well, this course provides the opportunity for the student to integrate the conceptual framework of the Bachelor of Nursing (Collaborative) Program into the development of psychomotor competencies.
CH: 1
CO: NURS 2004
LH: 2
LC: 0
PR: NURS 1520 and 2004

2040 Health Assessment focuses on the development of competencies needed to assess the health status of individuals. A systematic approach will be used for the collection and analysis of data related to the health status of the client. Interpretation of the assessment findings and of the results of diagnostic tests will be discussed in the context of nurses' responsibilities.
CR: NURS 1014
PR: proof of current practise license as a Registered Nurse

2230 Teaching/Learning is designed to familiarize the student with theories, principles and methods of learning and teaching and to allow the student to apply them in client teaching situations.
PR: proof of current practising license as a Registered Nurse or admission to the Bachelor of Nursing (Post-RN) Primary Health Care Nurse Practitioner Option

2502 Nursing Practice for the Care of Women and the Child-bearing Family provides the student with opportunities to apply knowledge and practise competencies acquired in NURS 2002. Selected experiences are offered in a variety of institutional and community-based settings related to the provision of nursing care for women and their families.
CO: NURS 2003
CR: the former NURS 2501
OR: 12 clinical hours during the semester
PR: NURS 2002, 2014, 2017, 2502, and 2514; or admission to the Fast-Track Option

2514 Community Health Nursing Practice I provides the student with the opportunity to apply knowledge and practise competencies for beginning community health nursing practice acquired in Community Health Nursing Theory.
CO: NURS 2014 or NURS 4101
OR: 96 clinical hours during the semester
PR: NURS 1520

2520 Extended Practice II provides the student with the opportunity to integrate the knowledge and practises the competencies acquired to date. The focus is on caring for adults in stable health situations and on the application of community health concepts. This course is normally taught at the end of the Winter Semester, usually beginning during the final week of the examination period.
CO: NURS 2002 and 2502 or 2014 and 2514
OR: 96 clinical hours over three weeks
PR: NURS 2002, 2014, 2017, 2502, and 2514; or admission to the Fast-Track Option

2700 Nursing Theories in Practice is designed to introduce the students to the key concepts, conceptual models and selected theories of nursing. This is a required course for the Bachelor of Nursing (Post-RN) Program and may be used as an elective in the Bachelor of Nursing (Collaborative) Program.
PR: proof of current practising license as a Registered Nurse or admission to the Bachelor of Nursing (Post-RN) Primary Health Care Nurse Practitioner Option

2740 Current Concepts in Human Physiology is a comprehensive review in connection to the circulatory, respiratory, and renal systems. This course is designed to give the student an understanding of the principles of physiology needed to improve their clinical performance.
PR: NURS 4701 and 4702

2790 Spiritual Dimension of Nursing Practice will focus on the spiritual dimension of nursing practice. Students will explore their own personal spiritual philosophy and development. Key concepts of the spiritual dimension of nursing will be examined, such as spiritual well being, spiritual needs, spiritual distress and spiritual care. Distinction will be made between religion and expressions of spirituality.
PR: NURS 1004 or the former NURS 1001, and 1014 or be a Registered Nurse
3001 Nursing Concepts for Mental Health focuses on individuals, families and small groups experiencing psychiatric/mental health problems across the lifespan. The meaning of mental health and illness to the individual, family and vulnerable populations is explored. Course content includes counselling, psychopathology, interdisciplinary psychiatric care, community mental health concepts and analysis of sociopolitical factors/issues affecting mental health.

CO: NURS 3510 or NURS 4502
OR: seminar 2 hours per week
PR: NURS 2520

3012 Nursing Concepts for Children, Adolescents and Young Adults uses a conceptual approach to focus on the nursing care of individuals and families, from infancy to young adulthood. The emphasis is on assisting persons experiencing health related needs to achieve health and well-being.

CO: NURS 3512 or NURS 3513
CR: the former NURS 2011
PR: NURS 2520

3023 Counselling focuses on the counselling role of the nurse, building on the communication skills needed for a therapeutic relationship. Gerard Egan’s model of helping is integral to the course. In the lab component of the course and in the course assignments, students have the opportunity to practice counselling skills to enhance their ability to counsel clients in a variety of nursing contexts.

LH: 14 hours during the semester
PR: acceptance into the Bachelor of Nursing (Post-RN) Program, NURS 2230 or NURS 2700 or admission to the Bachelor of Technology Program or admission to the Bachelor of Nursing (Post-RN) Primary Health Care Nurse Practitioner Option

3070 Health Assessment Across the Lifespan focuses on the development of competencies and assessment skills necessary for the completion and documentation of a comprehensive health assessment. Common physical alterations and developmental issues that may impact on client status and findings across the lifespan will be incorporated. Students are required to attend St. John’s Campus for laboratory sessions.

CO: NURS 3380
CR: NURS 2040
PR: proof of a current practising license as a Registered Nurse.
UL: applicable only to the Bachelor of Nursing (Post-RN) Primary Health Care Nurse Practitioner Option

3104 Nursing Research builds on previously introduced research concepts. It explores the research process and its inherent ethical and legal implications. The course focuses on the acquisition of concepts used to critically appraise nursing research studies and examines the relevance of these studies for nursing practice.

CO: NURS 3501 or NURS 4502, NURS 3512 or NURS 3513, and NURS 3514
PR: NURS 3501, 3512 or 3513, and 3514

3113 Nursing Leadership and Management is designed to promote an understanding of the theories and principles of leadership and management in relation to the Co-ordinator of Care nursing role. Emphasis is placed on concepts of organizational structure and function, management of client care, team building, professional development, and application of nursing theories to practice. Current issues and trends are explored.

CO: NURS 3501 or NURS 4502, NURS 3512 or NURS 3513, and NURS 3514
PR: NURS 3501, 3512 or 3513, and 3514

3200 Transcultural Nursing - inactive course.

3380 Health Assessment Clinical Practice I focuses on the clinical application of knowledge and skills obtained in NURS 3070. Students are preceptored by either a nurse practitioner or physician in a primary health care setting to complete comprehensive health histories and physical examinations on clients across the lifespan. Students are required to attend St. John’s Campus for clinical testing.

CO: NURS 3070
CR: NURS 2040

3410 Roles of Nurse Practitioners in Primary Health Care examines the role of the nurse practitioner in the delivery of primary health care. Factors affecting role implementation and its impact on health care delivery will be discussed. The historical development and future trends of nurse practitioner practice in a changing health care system will be examined.

CO: NURS 4002
PR: NURS 2700 and NURS 4002
UL: applicable only to the Bachelor of Nursing (Post-RN) Primary Health Care Nurse Practitioner Option

3430 Concepts in Pharmacology Across the Lifespan focuses on the principles of pharmacology and nutritional therapies across the lifespan. Pharmacotherapeutic and nutritional management of common health problems within each body system will be discussed. Emphasis will be placed on the application of knowledge required to prescribe and monitor medication and nutritional therapies within the scope of practice for the Primary Health Care Nurse Practitioner.

CO: NURS 4702
PR: NURS 2740 and NURS 4701
UL: applicable only to the Bachelor of Nursing (Post-RN) Primary Health Care Nurse Practitioner Option
the opportunity to work with individuals and their families who are experiencing multiple health challenges. Students are expected to synthesize concepts and theories of nursing, science and humanities, and participate in interprofessional collaborative practice in a variety of settings to facilitate the achievement of health and well-being for clients and their families.

OR: 144 clinical hours during the semester
PR: NURS 3523 or admission to the Fast-Track Option

4516 Consolidated Practicum provides students with the opportunity to practice nursing with a select client population. Students apply and test knowledge from nursing and related disciplines in this selected clinical setting. The student also engages the nurse to further develop their professional roles. Online discussions will be included.
CH: 6
PR: the former NURS 4514 or the former NURS 3522, and the former NURS 4513
OR: 40 clinical hours per week for ten weeks
PR: NURS 4103, NURS 4501 or 4502 and NURS 4515

4701 Current Concepts in Pathophysiology reviews the most recent theories in pathophysiology, current trends in diagnosis and treatment and their nursing implications. This course assumes a basic understanding of physiology.
PR: acceptance into the Bachelor of Nursing (Post-RN) Program and NURS 2740, or admission to the Bachelor of Nursing (Post-RN) Primary Health Care Nurse Practitioner Option

4702 Current Concepts in Pharmacology and Nutrition explores current principles of nutrition and pharmacology in a variety of disease states. The course will be built upon previous nutrition and pharmacology knowledge. This course assumes a basic understanding of physiology.
PR: acceptance into the Bachelor of Nursing (Post-RN) Program and NURS 2740.

4754 Clinical Dimensions of Professional Practice allows students to explore in depth, concepts and practices that are relevant to all populations across a variety of care settings. Emphasis will be placed on enhancing knowledge, attitudes and skills for nursing assessment, interventions and measurement of nursing-sensitive outcomes. Students will be required to apply the knowledge gained to client situations in clinical practice.
PR: the former NURS 4714, 4720 or 4723, 4734, and 4744
OR: 72 clinical hours during the semester
PR: NURS 2040, 2230, 2700, 3523 or the former 3022, 4002, 4701, 4702 and proof of current, practising license

5210 Health Care Systems focuses on the philosophical bases and practical considerations in the organization and administration of Health Care Delivery Systems. The planning, management and evaluation of the Canadian health care system will be compared with those of other countries. Future trends in the delivery of health care to Canadians will be discussed.
PR: admission to the Bachelor of Nursing (Post-RN) Program and 3 credit hours in English and NURS 2230; or admission to the Bachelor of Technology Program and 3 credit hours in English.

5220 Professional Issues reviews the historical development of the nursing profession and facilitates discussion of factors influential in its evolution. Content will focus on the current status of nursing, ethical issues, and the profession's impact on health care delivery. Selected categories of nursing theory, their impact on practice and education will be analysed in relation to major issues and future trends in nursing.
PR: Admission to the Bachelor of Nursing (Post-RN) Program and 3 credit hours in English and NURS 2230.

5327 Interdisciplinary Course on Family Violence - inactive course.

5360 Advanced Clinical Decision Making – Clinical Practice focuses on the application of diagnostic reasoning and clinical decision making skills learned in N5600. Opportunities to acquire advanced skills to assist in the diagnosis and management of common health problems will be provided. Preceptorized clinical experiences will be provided in primary health care practice settings. Students are required to attend St. John's Campus for demonstrations and clinical testing.
PR: acceptance into the Bachelor of Nursing (Post-RN Program) and 3 credit hours in English and NURS 2230; or admission to the Bachelor of Technology Program and 3 credit hours in English.

5370 Integrated Clinical Practicum provides opportunities for learners, under the mentorship of nurse practitioners and physicians, to gain experience in managing the health and illness needs of clients across the lifespan. Clinical learning experiences are selected to develop learner competence and confidence for the transition to the role of a Primary Health Care Nurse Practitioner. Students are required to attend St. John's Campus for clinical testing.
**5600 Advanced Clinical Decision Making** focuses on the development of diagnostic reasoning and clinical decision making skills within the scope of practice of a primary care nurse practitioner. A systematic approach to patient assessment and management of health problems will be discussed. This course integrates knowledge acquired in previous courses. Students are required to attend St. John’s campus for some onsite lectures.

**Course Prerequisite:**
- Proof of a current practising license as a Registered Nurse, NURS 5600 and NURS 5360

**Course Usage Limitation:**
- Applicable only to the Bachelor of Nursing (Post-RN) Primary Health Care Nurse Practitioner Option

---

**5700 Nursing Management** is designed to promote an understanding of theories and principles of management of nursing practice. Process, methods and issues are considered with emphasis on practical nursing examples.

**Course Prerequisite:**
- Admission to the Bachelor of Nursing (Post-RN) Program or admission to Bachelor of Nursing (Post-RN) Primary Health Care Nurse Practitioner Option and 3 credit hours in English and NURS 2230

**Course Usage Limitation:**
- Applicable only to the Bachelor of Nursing (Post-RN) Program

The School of Pharmacy 2015-2016

1 The Memorial University of Newfoundland Code

The attention of all members of the University community is drawn to the section of the University Calendar titled The Memorial University of Newfoundland Code, which articulates the University’s commitment to maintaining the highest standards of academic integrity.

2 Student Code of Conduct

Memorial University of Newfoundland expects that students will conduct themselves in compliance with University Regulations and Policies, Departmental Policies, and Federal, Provincial and Municipal laws, as well as codes of ethics that govern students who are members of regulated professions. The Student Code of Conduct outlines the behaviors which the University considers to be non-academic misconduct offences, and the range of remedies and/or penalties which may be imposed. Academic misconduct is outlined in UNIVERSITY REGULATIONS - Academic Misconduct in the University Calendar.

For more information about the Student Code of Conduct, see www.mun.ca/student/conduct/conduct.php.

3 School Description

The School of Pharmacy offers an undergraduate degree in pharmacy and graduate degrees in pharmaceutical sciences. The School is committed to providing an undergraduate program of quality and excellence that will prepare individuals who will contribute significantly in all settings of pharmacy practice. The experiential learning component of the program ensures students have the opportunity to integrate academic learning with professional practice and to develop the necessary knowledge, skills and attitudes required of practising pharmacists. The School encourages a close working relationship among students, faculty, and staff, and prides itself on its strong association with and support of the pharmacy community at both the provincial and national level.

Additional information regarding the School of Pharmacy is available at www.mun.ca/pharmacy.

Students must meet all regulations of the School in addition to those stated in the general regulations. For information concerning fees and charges, admission/readmission to the University, and general academic regulations (Undergraduate), refer to UNIVERSITY REGULATIONS.

3.1 Vision Statement

Working together towards a healthy tomorrow; Become...the future of pharmacy.

3.2 Mission Statement

As a School of Pharmacy with a strong sense of community, we are dedicated to:
• expanding the School of Pharmacy and developing the School as a Centre of Excellence for Comprehensive Pharmacy Studies;
• preparing pharmacy professionals committed to collaborative patient-centered care;
• fostering excellence and innovation in research and graduate studies;
• advancing the scope of pharmacy practice; and
• building upon a learning environment in which every student is valued.

3.3 Accreditation Status
The School of Pharmacy is accredited by the Canadian Council for Accreditation of Pharmacy Programs (CCAPP) to June 2016.

4 Description of Program
The School of Pharmacy offers an undergraduate program leading to the degree of Bachelor of Science (Pharmacy). This degree is designed to prepare graduates for careers primarily in community and hospital settings but also in the pharmaceutical industry, pharmacy organizations, health sciences research, government, and educational environments. After successful completion of national examinations, a graduate of the program is eligible to apply to be licensed as a pharmacist in Newfoundland and Labrador and other provinces in Canada.

The program of study leading to the Bachelor of Science (Pharmacy) degree has two phases and requires at least five years to complete. Prior to entry to the program students will acquire a background in the mathematical and physical sciences. Once in the program students will take courses in the basic health sciences, pharmacy sub-specialties and social/administrative sciences. At the end of each year students will have an opportunity to apply the academic knowledge acquired and to develop and practice patient care skills by participating in experiential learning within community and hospital settings. During the program students will develop an understanding of the professional and societal responsibilities of a pharmacist, and will recognize the need for lifelong learning.

All courses in the School of Pharmacy are designated by the abbreviation PHAR.

4.1 Structured Practice Experience
Students are required to successfully complete all experiential components of the program, including the Structured Practice Experience (SPE). During SPE’s students are placed in a variety of pharmacy practice settings and are brought into direct contact with patients, pharmacists and other health professionals. Students become involved in the practice of pharmaceutical care and are expected to assume increasing responsibility as their education advances. Such practice experiences ensure students are exposed to situations which cannot be provided in the classroom.

1. The Joint Committee on Structured Practice Experience, consisting of representatives from both the School of Pharmacy and the Newfoundland and Labrador Pharmacy Board, is responsible for providing the overall direction for the program and recommending policies and procedures for its operation.

2. Students will be placed at sites by the School. The Structured Practice Experience Co-ordinator liaises with students to determine placements.

3. While every effort will be made to accommodate a student’s request to complete SPEs in a specific location, a student may be assigned to any participating site within the province of Newfoundland and Labrador.

4. Students are responsible for all travel and accommodation costs associated with the SPE.

5. Students who conduct themselves in such a manner as to cause their termination from the SPE site, including breaches in confidentiality, violation of policies and professional misconduct will be assigned a grade of FAL (fail) for that SPE.

6. Students are required to provide evidence of a valid certificate, normally, in St. John Ambulance or Canadian Red Cross Standard First Aid Level C that is valid for the duration of the SPE. Equivalent certificates will be considered and assessed on an individual basis for acceptability.

7. Students are required to complete three SPEs, each of four weeks duration, and one SPE of twelve weeks duration. The first three SPEs are completed at the end of the Winter semester in the first, second, and third years of the program. The final SPE is completed in the Winter semester of the final year of the program.

8. The number of hours per week of the SPE program will be as required by CCAPP standards.

9. Students will be evaluated on their performance during the SPE and on written assignments including workbooks, pharmaceutical care case work-ups and drug information requests. Students may have workbooks audited or they may be formally examined on material learned during the SPE period. The overall evaluation of SPEs will result in the assignment of one of the following grades: PWD (pass with distinction), PAS (pass), or FAL (fail).

4.2 Registration as a Pharmacy Student
A student must be registered as a “Pharmacy Student” with the Newfoundland and Labrador Pharmacy Board. A student must be registered by September 30th of each academic year. As well, a student must be registered as a “Pharmacy Student” with the respective provincial or territorial licensing body prior to the commencement of Structured Practice Experiences. A student who fails to meet the requirements for licensing may be required to withdraw from the program.

5 Admission Regulations for the School of Pharmacy
In addition to meeting UNIVERSITY REGULATIONS students applying for admission for the program must meet the admission regulations of the School.

5.1 General Information
1. Admissions will be to the first year of pharmacy studies.
2. Entry to the School is competitive for a limited number of placements. Priority is given to applicants who are bona fide residents of Newfoundland and Labrador. The final decision on admission rests with the Admissions Committee of the School.
3. The Admissions Committee considers each applicant’s academic background and information on the applicant’s personal characteristics and achievements as given by the applicant. Personal interviews, which may include both a written and oral component, may be required. Reports from referees may also be considered.
4. The School of Pharmacy does not require criminal record checks or other screening procedures as a condition of admission to its program. However, students should be aware that such record checks or other screening procedures may be required by agencies
used by the University for clinical or structured practice experiences related to academic course assignments necessary for
graduation. Such agencies may refuse to accept students on the basis of information contained in the record check or other
screening procedure thus preventing the student from completing a practice experience or other clinical requirement. As a result,
such students may not be eligible for promotion or graduation.

It is the students’ responsibility to have such procedures completed as required and at their own expense.
The screening procedures of any given agency may change from time to time and are beyond the control of the University.

5.2 Application Forms and Deadlines

1. Application forms are available in person from the School and the Office of the Registrar or through the School's website at
\( \text{www.mun.ca/pharmacy} \). Application forms may also be obtained by writing the School of Pharmacy, Memorial University of
Newfoundland, St. John's, NL A1B 3V6 or the Office of the Registrar, Admissions Office, Memorial University of Newfoundland, St.
John's, NL A1C 5S7.

2. All application forms and fees for admission to the program for the Bachelor of Science (Pharmacy) must be submitted to the Office
of the Registrar of the University on or before the deadline of February 1 in any year. The program commences in the Fall semester.

3. Applications will be reviewed after the closing date by the Admissions Committee of the School. This Committee has the delegated
authority of the School’s Academic Council to admit or decline to admit applicants, following guidelines and procedures acceptable
to that Council.

4. Each applicant is responsible for ensuring that all the required information for application is supplied to the Admissions Committee,
and for providing any further information required by the Committee. An application will not be considered to be complete until all
documentation has been received and appropriate fees paid.

5. Admission Requirements to the School

Applicants who are not currently students at Memorial University of Newfoundland must apply for admission to the University under the
Categories of Applicants, Admission Criteria and Other Information outlined under UNIVERSITY REGULATIONS - Admission/
Readmission to the University (Undergraduate). In addition to meeting these regulations, applicants to the School must meet
requirements as indicated below.

1. To be eligible for consideration an applicant shall have completed a minimum of 30 credit hours which have been taken or accepted
for credit at a recognized university or university college.

2. An applicant is normally required to have completed each of the following courses or their equivalents. In the case of transfer
students, the course equivalencies relate to courses taught at Memorial University of Newfoundland, St. John’s campus.
   - Biology 1001 and 1002
   - Chemistry 1050 and 1051 or equivalent
   - Six credit hours at the 1000-level in English
   - Mathematics 1000 and 1001
   - Physics 1020 or 1050, and Physics 1021 or 1051

3. For students attending Grenfell Campus, the following course offerings are acceptable for admission to the School;
   - Biology 1001 and 1002
   - Chemistry 1200 and 1001
   - Six credit hours at the 1000-level in English
   - Mathematics 1000 and 1001
   - Physics 1020 or 1050, and Physics 1021 or 1051

4. Normally an application will not be considered from an applicant who cannot produce evidence that the above requirements have
been met or will have been met by end of the Winter semester of the year in which admission is being sought.

5. An unsuccessful applicant who wishes to reapply for admission is required to submit the application forms relevant to the year of
reapplication and will be required to enter into the competition for that year.

5.4 Acceptance Procedures

1. Notification of the decision of the Admissions Committee of the School will be made to applicants by the Dean of the School by
letter. No other form of notification will be considered official.

2. The letter of acceptance will give the successful applicant 10 days from the date of the letter of notification in which to confirm
acceptance of the placement offer. The signed intention to accept the offer must be accompanied by a deposit of $100, which will be
credited towards tuition fees. The deposit will be forfeited if the applicant subsequently declines the offer or fails to register. If no
reply is received within 10 days, the offer by the School will be withdrawn and the applicant will be informed of this by letter.
6 Program Regulations - General Degree

6.1 Bachelor of Science (Pharmacy)

1. The 176 credit hour Bachelor of Science (Pharmacy) degree requires 30 credit hours before admission to the program and 146 credit hours after admission to the program. The program includes four structured practice experiences, three of which are non-credit, with the other having 18 credit hours.

- The program courses shall normally be taken in the academic terms in the sequence and course load as set out in Table 1 Bachelor of Science (Pharmacy). Students wishing to change the sequence and/or reduce the course load required in the academic terms must obtain permission from the School’s Committee on Undergraduate Studies.
- Elective courses may be taken from any academic unit.

7 Promotion Regulations

7.1 General Information
- The Committee on Undergraduate Studies will determine each student’s promotion status at the end of each academic year.
- In addition to meeting the promotion regulations for the School students must meet the general academic regulations (undergraduate). For further information refer to UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate).
- Success in the program depends on meeting the requirements of all terms.

7.2 Promotion Status
A student’s promotion status at the end of each academic year will be in one of the following two categories:

7.2.1 Clear Promotion
Clear Promotion means a student can proceed to the next academic year without restrictions.
- Students will receive a Clear Promotion from an academic year by obtaining an average of 65% and having obtained at least a pass in each course. A weighted average based on credit hours in the Bachelor of Science (Pharmacy) program courses will be calculated for determining eligibility for promotion. Neither promotion nor graduation will be permitted if a student has a numeric grade below 50% in any course in the program.
- Students completing PHAR 2102 must obtain a numeric grade of at least 70%.
- Students completing PHAR 201W, 302W, 403W, or 500X must obtain a grade of PAS or PWD in each course.
- Students must attain a passing grade in each elective, but these courses will not be included in calculating the student’s average grade for the purposes of promotion, graduation, or academic awards.

7.2.2 Promotion Denied
Promotion Denied indicates Clear Promotion is not achieved at the end of each academic year.
- A student with Promotion Denied status will normally be required to withdraw from the School.
  - A student who does not obtain a clear promotion may be permitted to repeat all or part of the academic year. If a student is required to repeat a year on the grounds of unsatisfactory performance, his or her performance in the repeated year must meet the conditions for Clear Promotion. If this standard is not met, the Committee on Undergraduate Studies may require the student to withdraw from the program.
  - Normally, the option to repeat a year on the grounds of academic difficulties can be offered only once during the student’s Bachelor of Science (Pharmacy) program. This restriction may be waived if it has been demonstrated that the student’s academic performance has been adversely affected by factors duly authenticated and acceptable to the Committee on Undergraduate Studies.
- A student with Promotion Denied status at the end of the final academic term will not be recommended for graduation until the student’s status is changed to Clear Promotion.

7.3 Other Information
- Students may be required to withdraw from their program at any time, if, in the opinion of the School, they are unlikely to benefit from continued attendance.
- The Committee on Undergraduate Studies may require a student who is deemed unlikely to benefit from continued attendance in his/her course of study to withdraw conditionally. The Chair of the committee will advise the Dean of the School of the circumstances precipitating this action, the duration of the withdrawal and any conditions the student must fulfill during the withdrawal. The Dean may then recommend to the Registrar that the student is on conditional withdrawal. Upon completing the conditions, the student may be permitted re-entry to the program. If the conditions are not met, the student may be required to withdraw from the program.
- The School reserves the right to require a student to withdraw from the program at any time when acceptable cause is demonstrated. In such cases, the Dean, on behalf of the School, shall recommend such withdrawal to the Registrar who will then take appropriate action. Any such action is subject to the right of appeal by the student. An appeal should be made in writing clearly stating the basis for the appeal and should be directed in the first instance to the Registrar of the University. The Registrar, in consultation with the Dean, will determine whether or not the grounds stated are sufficient to warrant a formal hearing of the appeal.

7.4 Leave of Absence
- Upon completion of an academic year, a student in good standing may elect to withdraw temporarily from studies. Voluntary withdrawal at other times and for other reasons may be permitted in accordance with UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate) - Registration. In all cases, the intent to withdraw voluntarily should be discussed with the Dean. The Dean may then recommend to the Registrar that a student be permitted to withdraw for a stated period of time. At the end of this period, the student, in consultation with the Committee on Undergraduate Studies, should ensure that sufficient revision and preparatory work is undertaken to allow studies to be resumed readily. In the absence of good cause, any such student who does not resume studies on the specified date may be deemed to have left the program.

8 Supplementary and Deferred Examination Regulations
- Supplementary examinations may be permitted in some courses offered by the School of Pharmacy. Students seeking to write a supplementary midterm or final examination shall apply in writing by completing the “Application for Supplementary Examination” form which is available from the School’s website at www.mun.ca/pharmacy/undergrad/Policies_and_Procedures.php.
- This form must be submitted within seven days following release of midterm marks in the case of supplementary midterm examinations or within seven days following release of the final grades in the case of supplementary final examinations. The completed form should be submitted to the Dean’s office for consideration.
- The transcript will indicate that the final grade was earned as a result of a supplementary examination. Course coordinators shall advise students in the course outline that such a notation will be made on the transcript.
- Students shall be permitted to write a maximum number of one supplementary examination (excluding Pharmacy Skills & Structured
Practice Experience (SPE courses) during each academic year of the pharmacy program. For any one registration in a course, a student shall be permitted to write a final supplementary examination only once.

- For further details please refer to the School’s Supplementary Examination Policy which is available at www.mun.ca/pharmacy/undergrad/Policies_and_Procedures.php or contact the Associate Dean of Undergraduate Studies.
- Memorial University of Newfoundland has official regulations regarding deferred final examinations, available at UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate) - Exemptions From Final Examinations and Procedures for Applying to Write Deferred Examinations. Deferred midterm examinations may be permitted in some courses offered by the School of Pharmacy. For details, please refer to the School’s Deferred Examination Policy which is available at www.mun.ca/pharmacy/undergrad/Policies_and_Procedures.php or contact the Associate Dean of Undergraduate Studies.

9 Graduation

Upon meeting the qualifications for the program a student must apply to graduate on the prescribed “Application for Graduation” form. This form may be obtained on-line at the Memorial Self Service at www3.mun.ca/admit/twbkwbisu.P_WWWLogin. Additional information is available from the Office of the Registrar at www.mun.ca/regoff/graduation/apply_grad.php.

10 Waiver of School Regulations

A student has the right to request waiver of School regulations. A student wishing waiver of University academic regulations should refer to UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate) - Waiver of Regulations.

10.1 General Information

- The School reserves the right in special circumstances to modify, alter, or waive any School regulation in its application to individual students where merit and equity so warrant in the judgment of the Committee on Undergraduate Studies of the School.
- All requests must be submitted to the Committee on Undergraduate Studies of the School for consideration. A student requesting a waiver of a School regulation must submit the request in writing to the Chair of the Committee on Undergraduate Studies. Medical and/or other documentation to substantiate the request must be provided.
- Any waiver granted does not reduce the total number of credit hours required for the degree.

11 Appeal of Regulations

Any student whose request for waiver of School regulations has been denied has the right to appeal. For further information refer to UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate) - Appeal of Decisions.

- An applicant who has been denied admission has the right to appeal this decision of the Admissions Committee if it is felt by the applicant that the decision was reached on grounds other than those outlined in Admission Regulations for the School of Pharmacy. The appeal should be made in writing within fourteen days of the notification of the decision and should be directed to the Dean of the School. The letter should state clearly and fully the grounds for the appeal. If the Dean of the School, in consultation with the Registrar, judges the grounds to be sufficient, the formal appeals mechanism will be initiated.
- A student has the right to make a formal appeal against a decision of the Committee on Undergraduate Studies. However, this appeal cannot be made on the basis of the grades awarded in individual courses, as the student will normally have had the opportunity of contesting grades immediately after notification. A formal appeal by a student against the decision of the Committee must be made on grounds other than the grades awarded, e.g. default of procedure. This appeal should be made in writing, clearly stating the basis for the appeal and should be directed in the first instance to the Registrar of the University. The Registrar, in consultation with the Dean, will determine whether or not the grounds stated are sufficient to warrant a formal hearing of the appeal.

12 Course Descriptions

In accordance with Senate’s Policy Regarding Inactive Courses, the course descriptions for courses which have not been offered in the previous three academic years and which are not scheduled to be offered in the current academic year have been removed from the following listing. For information about any of these inactive courses, please contact the Dean of the School.

All courses of the School are designated by PHAR and are restricted to students in the School of Pharmacy.

2002 Anatomy and Physiology I presents a survey of human anatomy and physiology throughout the lifespan. It includes aspects of cytology and histology that form a foundation for the practice of pharmacy. Special emphasis is given to the skeletal, muscular, nervous and endocrine systems. The course will include both the vocabulary and concepts of anatomy and physiology with the overall goal being the understanding of the interrelationships and integration of all systems from the cell to whole organism.

CR: Nursing 1002
LH: 2; attendance is required

2003 Anatomy and Physiology II presents a survey of human anatomy and physiology throughout the lifespan. It includes aspects of cytology and histology that form a foundation for the practice of pharmacy. Special emphasis is given to the endocrine, circulatory, respiratory, urinary, digestive and reproductive systems. The course will include both the vocabulary and concepts of anatomy and physiology with the overall goal being the understanding of the interrelationships and integration of all systems from the cell to whole organism.

CR: Nursing 1012
LH: 2; attendance is required

2004 Introduction to Biochemistry is an introduction to the major organic substances of living organisms, proteins, carbohydrates and lipids: their structure, analysis and biochemical function. Enzymes, Biochemistry of membranes: plasma membrane and specialized intracellular membranes, Biochemistry of selected differentiated cells.

CR: Biochemistry 2101
OR: tutorials as required
PR: Chemistry 2400 and 2401 or Chemistry 2440

2101 Pharmacy Practice I provides an introduction to the legal and professional framework of the practice of pharmacy. Pharmacy regulations in the dispensing of medications and provincial legislation that governs the practice of pharmacy will be the focus. Students will be introduced to core competencies of the profession including professionalism, interprofessionalism, pharmaceutical calculations, drug information and effective communication strategies for the provision of pharmacist care. Application of course content will occur in the concurrent course PHAR 2650.

CR: PHAR 2650
2102 Pharmacy Practice II continues the introduction to the legal and professional framework of the practice of pharmacy. The course will focus on federal legislation that governs the practice of pharmacy, drug information, patient education, and maintaining good patient care behaviors. Students will be introduced to pharmaceutical care and learn the foundational principles of pharmacy practice. Students will participate in interprofessional education activities with modules from other health-related programs when such modules are available. The passing grade in this course is 70%, failing which the student may be required to withdraw from the program. 

| CH: 2 | CO: PHAR 2651 |
| LC: 2 | OR: tutorials 2 hours per week; attendance is required |

2201 Pharmaceutics I provides an insight into a number of physicochemical basics and explains them within a pharmaceutical context. The course provides the foundational material for the study of pharmaceutical dosage forms, pharmaceutics, and bio-pharmaceutics. 

| LH: 3 | attendance is required |
| PR: Mathematics 1000 and 1001; and Chemistry 1050 and 1051, or Chemistry 1200 and 1001, or equivalent |

2202 Pharmaceutics II is designed to provide the student with an understanding of pharmaceutical dosage forms and their applications. It applies the principles taught in Pharmaceutics I to understand the design and components of the different pharmaceutical preparations. 

| LH: 3 | attendance is required |
| PR: PHAR 2201 |

2203 Pharmaceutical Analysis is designed to introduce some important techniques and methods of analysis in pharmaceutical sciences. The laboratory exercises consist of both non-instrumental and instrumental analytical techniques that are widely employed in the analysis of pharmaceuticals. 

| CH: 2 | CO: PHAR 2203 |
| LC: 2 | OR: tutorials 2 hours per week; attendance is required |

2650 Pharmacy Skills provides an introduction to the skills necessary for pharmacy practice in order to meet the educational outcomes for the first year of the pharmacy program. This course is the first in a series of Pharmacy Skills courses, all of which require students to acquire and apply knowledge, attitudes and skills necessary for the effective practice of the profession. Students will begin to develop abilities in communication, professionalism, critical thinking, problem-solving, teamwork and self-directed learning. Students will apply basic knowledge and skills in drug information, patient education, and pharmacist-patient interaction in the context of simulated practice situations. Students will develop public communication skills through the completion of a professional communication project. Activities in this course will complement material covered in the concurrent course PHAR 2101. 

| CH: 2 | CO: all Academic Term 1 Pharmacy courses |
| LC: 0 | OR: practical sessions 3 hours per week; tutorials 1 hour per week; attendance is required |

2651 Pharmacy Skills provides an introduction to the skills necessary for pharmacy practice in order to meet the educational outcomes for the first year of the pharmacy program. Students will continue to develop abilities in communication, professionalism, critical thinking, problem-solving, teamwork and self-directed learning. Pharmacy practice in the community pharmacy setting will be a focus. Students will develop dispensing, drug information and pharmaceutical calculation skills relevant to community pharmacy practice. Students will begin developing their patient-interruption and patient education skills. Activities in this course will complement material covered in the concurrent course PHAR 2102. Students will participate in interprofessional education (IPE) modules with students from other health-related programs when such modules are available. 

| CH: 2 | CO: all Academic Term 2 Pharmacy courses |
| LC: 0 | OR: practical sessions 3 hours per week; tutorials 1 hour per week; attendance is required |

3003 Pathophysiology examines the nature of disease, causes and effects, and alteration in structure and function of cells, inflammation, neoplasia, genetic and chromosomal diseases, healing and repair, stress and disease. 

| LH: 3 | attendance is required |
| PR:PHAR 2101 and 2650 |

3006 Immunology (same as Biochemistry 4105) is an introduction to the cells and organs of the innate and adaptive immune systems. The molecular and cellular basis of allergy, autoimmunity, vaccination and cancer immunology will also be discussed. 

| CH: 0 | CO: Biochemistry 4105, Biology 4200, and the former PHAR 4105 |
| CR:PHAR 2004 | OR: not applicable to the Bachelor of Science (Pharmacy) program for students admitted prior to Fall 2011 |

3009 Pharmacology explores topics in general pharmacology including drugs used in the treatment of inflammatory diseases, renal pharmacology, anticoagulant and antithrombotic drugs, antihyperlipidemics, drugs used in the treatment of anemia, and endocrine pharmacology. 

| CH: 0 | CO: PHAR 2004 |
| UL: 0 | OR: successful completion of all courses in Academic Terms 3 & 4 of the program. |

3103 Microbiology of Infectious Diseases examines the various types of micro-organisms (bacterial, viral, parasitic, fungal) and the environment in which they are able to multiply and their relationship to human diseases. The classifications of their morphology, mode of reproduction and the metabolic processes, the physiological and epidemiological principles of infectious diseases and their manifestations are discussed including the principles of immunization. 

| CH: 2 | CO: Biochemistry 3105 |
| OR: tutorials as required |

3203 Medicinal Chemistry I presents topics covering the molecular basis of action, metabolism, and toxicity of drugs. It provides an orientation to medicinally important nuclei and their nomenclature, followed by principles necessary to drug discovery and development. The relationship between structure and biological action of drugs together with elementary molecular modeling, and theories related to receptors and drug action will be presented. Concepts of drug metabolism and the relevant metabolic pathways in relationship to drug inactivation and toxicity, along with the principles of drug latiation and prodrugs is covered. The structures, selected physicochemical properties, mechanism of action, structure-activity relationships, toxic effects at molecular level, and metabolism of drugs including central nervous system. 

| CH: 2 | CO: Medicine 4300 and PHAR 3003 |
| OR: tutorials 1 hour per week; attendance is required |

3204 Medicinal Chemistry II is a continuation of Pharmacy 3203 and focuses on the structures, selected physicochemical properties, mechanism of action, structure-activity relationships, toxic effects at molecular level, and metabolism of different pharmacological classes of drugs including cholinergic agents, anagletic and anti-inflammatory agents, insulin and oral antidiabetic drugs, steroids and related compounds, antihypertensive agents, histamine and antihistaminic agents, diuretic agents, angiotension converting enzyme inhibitors and antagonists, and calcium channel blockers. 

| CH: 2 | CO: PHAR 3009 |
| OR: tutorials 1 hour per week; attendance is required |

3205 Pharmaceutics III consists of several units. The standards of good manufacturing practice will be introduced. Characteristics, preparation, quality assurance and delivery systems for sterile products will be covered. The basic principles governing the application of radiation and radioactive compounds in medical diagnosis and therapy will be discussed. The status of current biotechnology-based pharmaceuticals and biotechnology related matters will be addressed. 

| CH: 2 | CO: PHAR 3203 |

3650 Pharmacy Skills continues the development of the skills necessary for pharmacy practice in order to meet the educational outcomes for the second year of the pharmacy program. Students will continue to develop abilities in communication, professionalism, critical thinking, problem-solving, teamwork and self-directed learning. Pharmacy practice in the hospital setting will be a focus. 

| CH: 2 | CO: PHAR 3650 |

AR = Attendance requirement; CH = Credit hours are 3 unless otherwise noted; CO = Co-requisite(s); CR = Credit can be retained for only one course from the set(s) consisting of the course being described and the course(s) listed; LC = Lecture hours per week are 3 unless otherwise noted; LH = Laboratory hours per week; OR = Other requirements of the course such as tutorials, practical sessions, or seminars; PR = Prerequisite(s); UL = Usage limitation(s).
focus. Students will participate in sterile product preparation and practice
drug information and pharmaceutical calculation skills relevant to hospital
practice. Students will develop pharmacist care plans and will further
develop their patient education skills. Scenarios will relate to the courses
of study in the second year and draw on material studied in earlier years of the
program. Students will participate in interprofessional education (IPE)
modules with students from other health related programs when such modules are available.

4008 Chemotherapy presents the principles of infectious diseases and
cancer chemotherapy. Topics to be explored include molecular structure
profiles, mechanism of action, drug resistance, and toxicity of
antimicrobial, antiviral, and antineoplastic agents. Antimicrobial activity/
spectrum of activity of antibacterials, antifungals, antimalarial,
antibacteriosis, and antiviral/antiretroviral agents will be discussed. The
classification and mechanism of action of cancer chemotherapeutic agents
will be presented. Pharmacokinetic considerations, adverse effects/toxicity,
and drug interactions will be explored for these agents.

4301 Therapeutics I is a part of a series that looks at the therapeutic
management of common diseases. Topics may include but are not restricted
to infectious diseases, hematology/oncology, and dermatology. For each
disease state discussion will centre around several key issues including: the
establishment of desired therapeutic outcomes; development of appropriate
pharmacological and non-pharmaceutical therapeutic alternatives; factors
to be considered to aid in the selection of an individualized therapeutic
regimen; and the development of a monitoring plan to evaluate efficacy and
safety.

CH: 6
CO: PHAR 4008 and 4201
LC: 6
OR: tutorials 2 hours per week; attendance is required
PR: Medicine 4300, PHAR 3008 and 3009

4402 Therapeutics II is a part in a series that looks at the therapeutic
management of common diseases. Topics may include but are not restricted
to infectious diseases, hematology/oncology, and dermatology. For each
disease state discussion will centre around several key issues including: the
establishment of desired therapeutic outcomes; development of appropriate
pharmacological and non-pharmaceutical therapeutic alternatives; factors
to be considered to aid in the selection of an individualized therapeutic
regimen; and the development of a monitoring plan to evaluate efficacy and
safety.

CH: 6
CO: PHAR 4008 and 4201
LC: 6
OR: tutorials 2 hours per week; attendance is required
PR: PHAR 4401

4503 Pharmacy Administration introduces students to the basic principles of
management as it relates to pharmacy practice. Topics will include human
resources and financial management, marketing, strategic planning and the
principles and issues associated with safe and appropriate drug distribution.
These will be discussed from both a community and an institutional practice
perspective.

4504 Pharmacy Research and Evaluation I introduces the biostatistical,
pharmacoeconomic, and pharmacoeconomic concepts and develops the
skills necessary to the practice of research and evaluation methods in
pharmacy practice. The understanding of such methods is an important
prerequisite in the critical appraisal of the health literature and the
undertaking of evidence-based clinical practice.

CH: the former PHAR 4501
UL: not applicable to the Bachelor of Science (Pharmacy) program for
students admitted prior to Fall 2011

4650 Pharmacy Skills continues the development of the skills necessary for
pharmacy practice in order to meet the educational outcomes for the third
year of the pharmacy program. Students will continue to develop abilities in
communication, professionalism, critical thinking, problem-solving, teamwork
and self-directed learning. Students will participate in practice sessions
necessary to develop an understanding of and skills required in patient
assessment and patient education related to patient self-care. Students will
build on their pharmacist care skills to meet patients’ drug-related needs in
uncomplicated patient scenarios and drug information skills to assess
information needs. Scenarios will relate to the courses of study in the
second year and draw on material studies in earlier years of the program.

AR = Attendance requirement; CH = Credit hours are 3 unless otherwise noted; CO = Co-requisite(s); CR = Credit can be retained for only one course from the set(s) consisting of the course being described and the course(s) listed; LC = Lecture hours per week are 3 unless otherwise noted; LH = Laboratory hours per week; OR = Other requirements of the course such as tutorials, practical sessions, or seminars; PR = Prerequisite(s); UL = Usage limitation(s).
year of the pharmacy program. Students will continue to develop abilities in communication, professionalism, critical thinking, problem-solving, teamwork and self-directed learning. Students will participate in sessions that focus on ethical issues in pharmacy practice and communication with health care providers. Students will build on their patient assessment and pharmacist care skills to meet patients' drug-related needs in more complex patient scenarios and will use critical appraisal skills to respond to clinical questions. Scenarios will relate to the courses of study in the third year and draw on material studied in earlier years of the program. Students will participate in interprofessional education (IPE) modules with students from other health related programs when such modules are available.

CO: all Academic Term 6 Pharmacy courses
PR: the former PHAR 4151
AR: attendance is required
CH: 18
LC: 0
PR: successful completion of all course requirements for the degree and Clear Promotion

500X Structured Practice Experience IV provides experience in clinical practice. Students will participate as members of the health care team. They will be responsible for providing pharmaceutical care to patients. Activities will include attending patient care rounds, providing in-services and drug information, and participating in case presentations. The structured practice experience is comprised of two six week modules.

AR: attendance is required
CH: 6
LC: 0

5011 Pharmaceutical Biotechnology - inactive course.
5012 Pharmaceutical Analysis - inactive course.
5013 Hospital Pharmacy Administration - inactive course.
501A/B Pharmaceutical Research - inactive course.

5301 Clinical Toxicology covers the toxicology and clinical management of toxicity associated with common medications.

CH: 2
CO: PHAR 5401
LC: 2

5302 Patient Care III focuses on pharmaceutical care considerations in special patient populations (e.g., geriatrics, neonates, pediatrics, pregnancy and lactation, critically ill, etc.). Implementation of pharmaceutical care in hospital, ambulatory and community practice settings will be discussed.

CO: PHAR 5401
OR: tutorials 1 hour per week; attendance is required

5401 Therapeutics III is part in a series that looks at the therapeutic management of common diseases. Topics may include but are not restricted to endocrine, psychiatric, renal and cardiovascular disorders. For each disease state discussion will centre around several key issues including: the establishment of desired therapeutic outcomes; development of appropriate pharmacological and non-pharmacological therapeutic alternatives; factors to be considered to aid in the selection of an individualized therapeutic regimen; and the development of a monitoring plan to evaluate efficacy and safety.

CH: 6
LC: 6
OR: tutorials 2 hours per week
PR: PHAR 4402

5506 Pharmacy Research and Evaluation III (same as the former PHAR 5501) discusses the principles of critical appraisal and provides opportunities to apply these principles to critique and evaluate current medical literature. Students will be assigned to a tutorial group, which will meet twice during the semester to critically appraise at least two recently published studies. Emphasis will be placed on appropriate application of critical appraisal skills and group discussion of impact of study findings on clinical practice.

CH: 1
CR: the former PHAR 5501
UL: not applicable to the Bachelor of Science (Pharmacy) program for students admitted prior to Fall 2011

5650 Pharmacy Skills (same as the former PHAR 5150) continues the development of the skills necessary for pharmacy practice in order to meet the educational outcomes for the fourth year of the pharmacy program. Students will continue to develop abilities in communication, professionalism, critical thinking, problem-solving, teamwork and self-directed learning. Students will build on their pharmacist care skills to meet patients' drug-related needs in patients with multiple drug related problems. Refinement of verbal and written communication skills will be focus. Scenarios will relate to the courses of study in the fourth year and draw on material studies in earlier years of the program. Students will participate in interprofessional education (IPE) modules with students from other health related programs when such modules are available.

CO: all Academic Term 7 Pharmacy courses
OR: tutorials 1 hour per week;
PR: PHAR 4505 or equivalent
UL: not applicable to the Bachelor of Science (Pharmacy) program for students admitted prior to Fall 2011

Dean
Abrahams, M., B.Sc.(Hons.) Western, M.Sc. Queen's, Ph.D. Simon Fraser, Professor of Biology; Joint appointment with the Department of Ocean Sciences

Associate Dean (Administration and Undergraduate)
Foster, A., B.Sc. Dalhousie, M.Math Waterloo, Ph.D. Dalhousie; Motivational Teaching Award, 2001; Associate Professor of Mathematics and Statistics

Associate Dean (Research)
Zedel, L., B.Sc., M.Sc. Victoria, Ph.D. University of British Columbia; Petro-Canada Young Innovator Award, 2001; Associate Professor of Physics and Physical Oceanography

Senior Administrative Officer
Rideout, J., B.Comm.(Co-op)(Hons.) Memorial, C.M.A. (Newfoundland)

Department of Biochemistry
www.mun.ca/biochem

Head
Berry, M.D., B.Sc.(Hons.) Sunderland, Ph.D. Saskatchewan; Professor

Professor Emeritus
Keough, K.M.W., B.Sc.(Hons.), M.Sc., Ph.D. Toronto

Professors
Bertolo, R.F.P., B.A.Sc.(Hons.) McMaster, M.Sc., Ph.D. Guelph
Brosnan, J.T., B.Sc.(Hons.), M.Sc., D.Sc. National University of Ireland, D.Phil. Oxford, University Research Professor, Awarded 1990; Recipient of the John Lewis Paton Distinguished University Professorship, 2014-2015; Cross appointment with Faculty of Medicine
Brosnan, M.E., B.A.(Hons.), M.Sc., Ph.D. Toronto; Cross appointment with Faculty of Medicine
Cheema, S.K., B.Sc. Punjab, M.Sc. Punjab Agricultural University; Ph.D. Post Graduate Institute of Medical Education and Research; Deputy Head (Graduate Studies); Cross appointment with Faculty of Medicine
Davis, P.J., B.Sc., Ph.D. Memorial
Healey, D.H., B.Sc.(Hons.), Ph.D. Birmingham
Herzberg, G.R., B.S., Ph.D. Maine
Hoover, R., B.Sc.(Hons.) Ceylon, M.Sc. Leeds, Ph.D. Alberta
McGowan, R.A., B.Sc.(Hons.) Brock, Ph.D. SUNY, Buffalo; Joint appointment with Department of Biology
Mulligan, M.E., B.Sc.(Hons.) National University of Ireland, Ph.D. Harvard; Recipient of the President's Award for Distinguished Teaching, 1999
Robinson, J.J., B.Sc.(Hons.) University College Dublin, M.Sc. Trinity College Dublin, Ph.D. Alberta
Shahidi, F., B.Sc. Shiraz, Ph.D. McGill, University Research Professor, Awarded 1998; Cross appointment with Departments of Biology and Ocean Sciences

Associate Professors
Booth, V.K., B.Sc.(Hons.) Victoria, M.Sc. Waterloo, Ph.D. Toronto; Canada Research Chair in Proteomics; Deputy Head (Undergraduate); Cross appointment with Department of Physics and Physical Oceanography
Brunton, J.A., B.A.Sc. Guelph, Ph.D. McMaster
Randell, E.W., B.Sc.(Hons.), Ph.D. Memorial; Cross appointment from Faculty of Medicine
Volkoff, H., B.Sc. Pierre and Marie Curie University, M.Sc. University of Aix-Marseille III, Ph.D. Clemson University; Joint appointment with Department of Biology

Assistant Professors
Brown, R.J., B.Sc.(Hons.), Ph.D. Ottawa
Christian, S.L., B.Sc.(Hons.) Alberta, Ph.D. University of British Columbia; Cross appointment with Faculty of Medicine

Adjunct Professors
Barnouin, J., B.Sc.(Hons.) Alexandria, Ph.D. Montreal
Bromley-Britt, K., B.Sc.(Hons.) Memorial, Ph.D. University of British Columbia

Dave, D., B.Eng. Gujarat University, M.Eng. S.V. Patel University, Ph.D. Indian Institute of Technology

Administrative Assistant
Sinnott, A.L., B.Comm., M.B.A. Memorial

Communal Research and Instrumentation Grouping
Supervisor
Skinner, C.T.

Senior Technician, Student Laboratory
Murphy, M.J., B.Sc., B.Ed. Memorial

Department of Biology
www.mun.ca/biology

Head
Marino, P., B.A. Vermont, M.Sc. Northern Arizona, Ph.D. Alberta

Professors Emeriti
Bal, A.K., B.Sc., M.Sc., Ph.D. Calcutta
Burton, D., B.Sc. Wales, P.G.C.E., Ph.D. London
Burton, M., B.Sc. Ph.D. London
Patel, T.R., B.Sc., M.S. Baroda, M.A., Ph.D. Texas

Honorary Research Professors
Finney-Crawley, J., B.Sc.(Hons.) University College of North Wales, Bangor, M.Sc., D.I.C., Ph.D. Imperial College, London University, England
Green, J.M., B.Sc. Michigan, M.Sc. Miami, Ph.D. University of British Columbia

Director of Memorial University of Newfoundland Botanical Garden
Klose, E., B.Sc. (Agr.) CIP

Professors
Abrahams, M., B.Sc.(Hons.) Western, M.Sc. Queen's, Ph.D. Simon Fraser; Dean of Science
Carr, S.M., B.Sc. California Polytechnic, C.Phil., Ph.D. University of California, Berkeley; Cross appointment to Faculty of Medicine
Hermanutz, L., B.Sc. Guelph, M.Sc. Windsor, Ph.D. Western Ontario; Cross appointment with Botanical Garden
Igamberdiev, A.U., Dr.Sc. Russian Acad. Sciences, Ph.D., M.S. Voronezh
Innes, D.J., B.Sc. (Hons.) University of British Columbia, M.Sc. Dalhousie, Ph.D. S.U.N.Y. Stony Brook
Snelgrove, P., B.Sc.(Hons.) Memorial, M.Sc. McGill, Ph.D. Woods Hole; Joint appointment with Ocean Sciences Centre
Staveley, B.E., B.Sc., M.Sc. Guelph, Ph.D. Alberta
Volkoff, H., B.Sc. Pierre et Marie Curie University, M.Sc. University of Aix-Marseille III, Ph.D. Clemson University; Joint appointment with Department of Biochemistry

Associate Professors
Chapman, T.W., B.Sc.(Hons.), M.Sc. Guelph, Ph.D. Simon Fraser
Dunbrack, R., B.A. University of New Brunswick, Ph.D. Simon Fraser
Edinger, E., B.A. California, M.Sc., Ph.D. McMaster; Joint appointment with Department of Geography
Hooper, R.G., B.Sc. Victoria, Ph.D. Portsmouth; Curator, Phycological Herbarium; Cross appointment to Grenfell Campus
Lang, A.S., B.Sc.(Hons.) Brock, Ph.D. University of British Columbia
Murrin, F., B.Sc.(Hons.) Memorial, M.Sc. Acadia, Ph.D. Queen's Purchase, C.F., B.Sc.(Hons.), M.Sc. Memorial, Ph.D. Toronto
Wiersma, Y.F., B.Sc.(Hons.), B.Ed. Toronto, M.Sc., Ph.D. Guelph

Assistant Professors
Bignell, D., B.Sc.(Hons.) Manitoba, Ph.D. Alberta
Dufour, S., B.Sc.(Hons.), M.Sc. Universite de Moncton, Ph.D.
Assistant Professor (term)
Hurford, A., B.Sc. Fairfield, M.Sc. Alberta, Ph.D. Queen's

Adjunct Professors
Brattey, J., B.Sc.(Hons.) (Glasgow) Ph.D. Liverpool
Chaukil, K., B.Sc. Dalhousie, M.Sc. Acadia, Ph.D. Memorial
Gilkinson, K., B.Sc. Ottawa, M.Sc., Ph.D. Memorial
Gregory, R.S., B.Sc.(Hons.) Acadia, M.Sc. Trent, Ph.D. University of British Columbia
Hillier, K., B.Sc.(Hons), Ph.D. Memorial
Lewis, K., B.Sc. University of California, Davis, M.Sc., Ph.D. Memorial
Quijon, P., B.Sc., M.Sc. Universidad Austral de Chile, Ph.D. Memorial
Robertson, G.J., B.Sc. Queens, Ph.D. Simon Fraser
Stenson, G.B., B.Sc. Alberta, Ph.D. University of British Columbia

Cross Appointments
Cadigan, N., B.Sc.(Hons), M.Sc. Memorial, Ph.D. University of Waterlot; Cross appointment from Fisheries and Marine Institute
Clement, M., B.Sc.(Hons.) Moncton, M.Sc. University of New Brunswick; Ph.D. Guelph; Cross appointment from Fisheries and Marine Institute
Conner, J., B.Sc. Guelph, A Western Ontario, M. Phil., Ph.D. Waterlot; Cross appointment from Faculty of Medicine
Deibel, D., B.Sc. Bucknett, Ph.D. Georgia; University Research Fellow, Associate Professor (Research); Recipient of the President's Award for Outstanding Research, 1990-1991; Cross appointment from Ocean Sciences Centre
Fisher, J., B.Sc.(Hons) Queens, M.Sc. Dalhouse, Ph.D. Pennsylvania; Cross appointment from Fisheries and Marine Institute
Fleming, I.A., B.Sc. Queen's, M.Sc. Simon Fraser, Ph.D. Toronto; Cross appointment from Ocean Sciences Centre
Gagnon, I., B.Sc., M.Sc. Dalva University; Cross appointment from Ocean Sciences Centre
Gamperl, A.K., B.Sc.(Hons.), M.Sc. Guelph, Ph.D. Dalhouse; Cross appointment from Ocean Sciences Centre
McGaw, I.J., B.Sc.(Hons.), Ph.D., Wales Bangor; Cross appointment from Ocean Sciences Centre
Mercier, A. B.Sc. Université de Sherbrooke, M.Sc., Ph.D. Université du Québec à Rimouski; Cross appointment from Ocean Sciences Centre
Montevcchi, W., B.Sc. Northeastern, M.Sc. Tulane, Ph.D. Rutgers; Cross appointment from Department of Psychology
Parish, C.C., B.Sc. Wales, Ph.D. Dalhouse; Recipient of the President's Award for Outstanding Research, 1995-1996; University Research Professor, Awarded 2013; Cross appointment from Oceans Science Centre
Robert, D., B.Sc., Ph.D. Universite Laval; Cross appointment from Fisheries and Marine Institute
Rose, G.A., B.Sc. Guelph, M.Sc. Laurentian, Ph.D. McGill; Cross appointment from Fisheries and Marine Institute
Rowe, B., B.Sc.(Hons.), M.Sc., Memorial, Ph.D. Dalhouse; Cross appointment from Fisheries and Marine Institute
Schneider, D.C., B.Sc., Duke, Ph.D. SUNY, Stony Brook; Associate Dean (Research); Professor; Cross appointment from Ocean Sciences Centre; Cross appointment with Department of Psychology; Recipient of the President's Award for Outstanding Graduate Student Supervision, 2012-2013
Shahidi, F., B.Sc. Shiraz, Ph.D. McGill; Cross appointment from Department of Biochemistry
Storey, A.E., B.Sc.(Hons.), M.A. Manitoba, Ph.D. Rutgers; Cross appointment from Ocean Sciences Centre
Wrobleswski, J.S., B.Sc. Illinois, M.Sc., Ph.D. Florida State; Professor (Research); Cross appointment from Ocean Sciences Centre

Assistant Professor
Kenny, A.J., B.A. Memorial

Supervisor of Laboratories
Darby-King, A.

Department of Chemistry
www.mun.ca/chem

Head
Pickup, P.G., B.A., D.Phil. Oxon; University Research Professor, Awarded 2005; Professor

Professors Emeriti
Gogan, N.J., B.Sc.(Hons.), Ph.D. National University of Ireland, Dublin, F.C.I.C.
Machin, W.D., B.Sc. Carleton, Ph.D. Rensselaer
Thompson, L.K., B.Sc., Ph.D. Manchester, F.C.I.C., University Research Professor, Awarded 1995

Professors
Bondwell, G.J., B.Sc., M.Sc. Victoria, Dr. rer. nat. Tech. Univ. Braunschweig; Deputy Head (Graduate Studies and Research); Recipient of the President's Award for Outstanding Research, 1998-1999; Winner of the Petro Canada Young Innovator Award, 1999-2000; Winner of the 2011 Distinguished Scholar Medal; University Research Professor, Awarded 2013
Bottaro, C.S., B.Sc., B.Sc. (Hons.) St. Mary's, Ph.D. Dalhouse
Georgiou, P.E., B.Sc., B.Sc. (Hons.) Witwatersrand, Ph.D. McGill, F.C.I.C.
Helleur, R.J., B.Sc. Concordia, M.Sc. McGill, Ph.D. Queen's; Safety Coordinator
Mezey, P.G., M.Sc., M.Sc. Ph.D. Budapest, D. Sc. Saskatchewan; Canada Research Chair in Scientific Modelling and Simulation
Poduska, K., B.A. Carleton College, Ph.D. Cornell, Ph.D. York

Assistant Professors
Katz, M.J., B.Sc. Ph.D. Simon Fraser University
Rowley, C.N., B.Sc.(Hons) Carleton, Ph.D. Ottawa
Young, C.J.L., B.Sc.(Hons.), Ph.D. Toronto

Assistant Professors (term)
Hattenhauer, K.M., B.Sc. University of Saskatchewan; First Year Coordinator

Cross-Appointments
Alisaraie, L., B.Sc. Sharif University of Technology, M.Sc.
Chemistry & Chemical Engineering Research Centre of Iran, Dr. rer. nat. Faderborn; Cross appointment from School of Pharmacy
Poduska, K., B.A. Carleton College, Ph.D. Cornell; Cross
appointment from Department of Physics and Physical Oceanography

Adjoint Professors
Banoub, J.H., B.Sc.(Hons.) University of Alexandria, Egypt, Ph.D. University of Montreal
Keefe, D., B.Sc.(Hons.) Memorial, Ph.D. University of Alberta
MacQuarrie, S., B.Sc. Mount Allison, Ph.D. Virginia Polytechnic Institute and State University
Schneider, C., B.Sc.(Hons.), M.Sc. Université de Nancy I (France), Ph.D. Keefe University

Undergraduate Laboratory Supervisor
Vanasse, N.

Department of Computer Science
www.mun.ca/computerscience

Head
Banzhaf, W., Dipl. Phys. Ludwig-Maximilian, Munich, Dr rer nat Fidericiiana, Karlsruhe; University Research Professor, Awarded 2010; Professor

Professors
Bartha, M., M.Sc., Ph.D. József Attila University, Hungary
Gillard, P., B.Sc., M.Sc., Ph.D. Memorial
Mininis, G., Dipl. Greek Center of Productivity, B.Sc. Univ. of Ioannina (Greece), M.Sc., Ph.D. McGill
Tang, J., M.Sc. Iowa, Ph.D. Penn. State

Associate Professors
Brown, E., B.Sc.(Hons.), Memorial, M.Sc., Ph.D. Toronto, LL.B. Victoria
Bungay, S., B.Sc., M.Sc. Memorial, Ph.D. Guelph
Byrne, R., B.Sc.(Hons.), B.Eng. Memorial, M.Sc., Ph.D. Victoria
Chen, Y.P., B.Sc. Beijing, Ph.D. Simon Fraser
Deb, A., M.Tech. Calcula, Ph.D. Iowa
Fiech, A., Dipl. Inf. Dortmund, Ph.D. Kansas State
Shieh, J., B.Sc. Beijing, M.Sc., Ph.D. Simon Fraser
Vardy, A., B.Eng. Memorial, M.Sc. Sussex, Ph.D. Carleton; Joint appointment with Electrical and Computer Engineering, Faculty of Engineering and Applied Science
Wareham, T., B.Sc.(Hons.), B.A., M.Sc. Memorial, Ph.D. Victoria

Assistant Professors
Kolokolova, A., B.Sc.(Hons.) Arizona, M.Sc., Ph.D. Toronto
Peña-Castillo, L., B.Sc., M.Sc. ETESM, Veracruz, Mexico, M.Sc. Alberta, Ph.D. Otto von Guericke, Magdeburg; Joint appointment with Department of Biology

Adjunct Professor
Hoeber, O., B.Sc., M.Sc. Saskatchewan, Ph.D. Regina

Lecturers
Batten, D.L., B.Sc.(Hons.) Memorial, M.Sc. Queen's
Gupta, R., B.A. Agra Univ., B.A. Memorial, M.S. Georgia Tech.

Cross-Appointments
Carr, S.M., B.Sc. California Polytechnic, C.Phil. Ph.D. University of California; Cross appointment from Department of Biology
Devillers, R., B.Sc.(Eq.) Lyon 1, M.Sc. UQAM, M.Sc. Laval, Ph.D. Laval; Marine la Vallée; Cross appointment from Department of Geography
Evermann, J., Dipl.Wirt.Inf. Muenster, Ph.D. University of British Columbia; Cross appointment from Faculty of Business Administration
Farrell, G., M.D. Memorial; Cross appointment from Discipline of Family Medicine, Faculty of Medicine
Meruviá-Pastor, O., B.Eng. ETESM, Monterrey, M.Sc. Alberta, Dr. Eng. Otto-von-Guericke, Magdeburg; Cross appointment from Faculty of Science
Norvell, T.S., B.Sc.(Hons.) Dalhousie, M.Sc., Ph.D. Toronto; Cross appointment from Faculty of Engineering and Applied Science
Parsons, J., B.Comm.(Hons.) Memorial, Ph.D. University of British Columbia; Cross appointment from Faculty of Business Administration

Cross appointment from Faculty of Engineering and Applied Science
Pike, D., B.Math. Waterloo, M.Ph. Auburn, FTICA; Cross appointment from Department of Mathematics and Statistics
Samet, S., M.Sc., Ph.D. Ottawa; Cross appointment from Faculty of Medicine
Shalaby, N.A.I., M.A. York, Ph.D. McMaster; Cross appointment from Department of Mathematics and Statistics

Systems Manager
Rayment, M., B.Sc. Memorial, MS M.I.U.

Systems Personnel
Casey, A., B.Sc Memorial
Draskóy, A., B.Sc., B.A. Memorial
Greening, L., B.Sc. Memorial
Hart, D., B.Sc., Dip. IT Memorial
Price, P., B.Sc. Memorial
Wissink, M., B.Sc. University of New Brunswick

Laboratory Instructor
Johnstone, S., B.Sc. Memorial

Instructional Assistants
Anthony, S., B.Sc Memorial
Milley, C., B.Sc. Memorial
Verbree-Barnes, I., B.Sc. Memorial

Department of Earth Sciences
www.mun.ca/earthsciences

Head
Hancher, J.M., B.S. Memphis, M.S. Vanderbilt, Ph.D. Rensselaer Polytechnic Institute, P. Geo.

Professores Emeriti
Hiscott, R.N., B.Sc.(Hons.) Brock, Ph.D. McMaster, P. Geo.
Hodych, J.P., M.A., Ph.D., Toronto
Longerich, H., B.Sc. Millikin, Ph.D. Indiana
Rochester, M.G., B.A., M.A. Toronto, Ph.D. Utah, F.R.S.C.; University Research Professor, Awarded 1986

Honorary Research Professor

Professors
Aksu, A.E., B.Sc. Ege, M.Sc., Ph.D. Dalhousie; University Research Professor, Awarded 2009
Azmy, K., B.Sc. Ain Shams, M.Sc. Windsor, Ph.D. Ottawa
Dunning, G.R., B.Sc.(Hons.), M.Sc. Carleton, Ph.D. Memorial; Recipient of the President's Award for Outstanding Research, 1994-1995
Johansen, T., Ba.Sc., M.Sc., Ph.D. Oslob, Canada Research Chair in Reservoir Engineering; Cross appointment with Faculty of Engineering and Applied Science
Kachanoski, G., B.Sc.(Hons.), M.Sc. University of Saskatchewan, Ph.D. University of California (Davis); President and Vice-Chancellor
McInery, D., B.Sc.(Hons.) Manchester, D.Phil. Oxford
Piercey, S.J., B.Sc.(Hons.), M.Sc. Memorial, Ph.D. University of British Columbia, P.Geo; NSERC-Altius Industrial Research Chair in Mineral Deposits
Rivers, C.J.S., B.Sc. Belfast, Ph.D. Ottawa
Slawinski, M.A., B.Sc., M.Sc., Ph.D. Calgary
Ziegler, S., B.Sc.(Hons.) Massachusetts, Ph.D. Texas; Canada Research Chair in Environmental Science

Associate Professors
Calon, T.J., M.Sc., Ph.D. Leiden
Farquharson, C.G., B.Sc.(Hons.) Edinburgh, Ph.D. University of British Columbia
Hurich, C., B.Sc., M.Sc., Ph.D. Wyoming
Layne, G.D., B.Sc.(Hons.), Ph.D. Toronto
Leitch, A., B.Sc.(Hons.), Ph.D. Australian National
Malcolm, A.E. B.Sc.(Hons.) University of British Columbia, Ph.D. Colorado School of Mines; Chevron Industrial Research Chair in
Reservoir Characterization
Mason, R.A., B.Sc.(Hons.) London, Ph.D. Aberdeen

Assistant Professors
Beranek, L.P., B.S. Wisconsin-Eau Claire, M.S. Idaho State, Ph.D. University of British Columbia
Ceng, T., B.E. Tsinghua University, M.C.E., Ph.D. Delaware
Morrill, P. B.Sc.(Hons.), Ph.D. Toronto

Adjunct Professors
Abedin, J., B.Sc.Ag.(Hons), M.Sc. Agricultural University, Ph.D. University of Aberdeen
Callow, R., M.EarthSc., D.Phil. Oxford
Fonseka, N., B.Sc., M.Sc. University of Yaoundé, Ph.D. University of Würzburg
Kerr, A., B.Sc. University of Southampton, M.Sc., Ph.D. Memorial

Manager of Academic Programs
Miskell, M., B.Sc.(Hons.) Memorial

Research Computing Specialist
Smith, D., B.A., B.Sc.(Hons.) Memorial

Laboratory Coordinator and Instructor
Hicks, R.; M.Sc Dalhousie

Department of Mathematics and Statistics
www.mun.ca/math

Head
Radford, C., B.Sc., Ph.D. Sidney

Professors Emeriti
Booth, P.J., B.Sc., M.Sc., Ph.D., Hull; Winner of the Dean of Science Distinguished Scholar Medal, 1996
Heath, P.R., B.Sc., Ph.D. Hull, DBS Durham, MTS Queen's
Parmenter, M.M., B.Sc. Toronto, Ph.D. University of British Columbia

Mathematics
Professors
Bahturin, Y., D.Sc., Ph.D. Moscow; University Research Professor, Awarded 2002
Booth, I., B.Sc. Memorial, M.Sc., Ph.D. Waterloo; Cross appointment to Department of Physics and Physical Oceanography
Kocabiyik, S., B.Sc., M.Sc. Middle East Tech., Ph.D. Western Ontario; Petro-Canada Young Innovators Award, 2000
Pike, D., B.Math. Waterloo, MAM, Ph.D., Auburn, FTICA; Cross appointment to Department of Computer Science
Shalaby, N.A., M.A. York, Ph.D. McMaster
Xiao, J., M.Sc. Human, Ph.D. Peking; University Research Professor, Awarded 2011
Yuan, Y., B.Sc. Wuhan, M.Sc. Central South Univ. of Tech., Ph.D. Western Ontario; UFA 2004
Zhao, X., B.S., M.S. Northwest, Ph.D. Academia Sinica; University Research Professor, Awarded 2008

Associate Professors
Dyer, T.D., B.Sc.(Hons.) Memorial, M.Sc., Ph.D. Simon Fraser
Foster, A., B.Sc., Ph.D. Dalhousie, M.Math Waterloo; Associate Dean (Administration and Undergraduate)
Haynes, R.D., B.Sc., Memorial, M.Sc., Ph.D. Simon Fraser
Kondratieva, M., M.Sc. Moscow Inst. of Electronics & Math, Ph.D. Moscow State; Joint appointment with Faculty of Education
Kotchotov, M., M.Sc. Moscow State (Lomonosov), Ph.D. Memorial, Cand. Sc. Moscow State
MacLachlan, S., B.Sc.(Hons.) University of British Columbia, Ph. D. Colorado at Boulder

Mantyla, S., B.A., M.B.A. Sask., M.Math., Ph.D. Waterloo
Merkli, M., Diploma in Theoretical Physics, EPF Lausanne, Ph.D. Toronto; Recipient of the President's Award for Outstanding Research 2010-2011
Ou, G.H., B.A. Peking, Ph.D. Hong Kong
Suvak, J.A., B.S. St. Martin's College, M.S., Ph.D. Arizona

Assistant Professors
Alam, J., B.Sc., M.Sc. Chittagong, M.Sc., Alberta, Ph.D., McMaster
Baird, T.J., B.Sc. Queen's, Ph.D. Toronto
Hurford, A., B.Sc. Fairfield, M.Sc. Alberta, Ph.D. Queen's; Joint appointment with Department of Biology
Kunduri, H., B.Sc.(Hons.) Toronto, M.Math., Ph.D. Cambridge
Martinez-Pedroza, E., Dipl. Math. Los Andes, M.Sc., Ph.D. Oklahoma

Usefi, H., B.Sc. AmirKabir, M.Sc. IASBS, Ph.D. Western Ontario
Ye, D., B.Sc. Shandong, M.Sc. Zhejiang, Ph.D. Case Western Reserve

Visiting Assistant Professor
Sullivan, S.P., B.Sc., Ph.D. Memorial

Adjunct Professors
Charbonneau, R., B.Sc. New Brunswick, M.Math. Waterloo, Ph.D. New Brunswick
Dereniowsk, D., Ph.D. Gdansk University of Technology
Sadov, S., M.Sc. Moscow Institute of Electronics and Mathematics, Ph.D. KievISH Institute for Applied Math
Tang, R., Ph.D. Wuhan

Cross-Appointments
Finnis, J., B.Sc. Guelph, Ph.D. Colorado; Assistant Professor; Cross appointment from Department of Geography

Laboratory Instructor
O'Rielly, G., B.Sc. Memorial

Statistics
Professors
Loredo-Ostil, J.C., B.Sc., M.Sc. Universidad Autonoma, Ph.D. Dalhousie, Graduate Officer
Sutradhar, B.C., B.Sc. Daaca, M.Sc. Daaca and Western Ontario, Ph.D. Western Ontario; University Research Professor, Awarded 2004

Associate Professors
Fan, Z., B.Sc., M.Sc. Shandong, Ph.D. Gottingen
Wang, H., B.Sc. Beijing Normal, Ph.D. Regina

Assistant Professors
Abarin, T., B.Sc., M.Sc. Shiraz, Ph.D. Manitoba
Cigars, C., B.Sc., M.Sc. Middle East Technical University, Ph.D. Waterloo
Varriath, A., B.Sc., Calicut, M.Sc. Kerala Agricultural, Post Graduate Diploma Indian Statistical Institute, Ph.D. Waterloo
Yilmaz, Y., B.Sc., M.Sc. (Statistics) Middle East Technical University, Ph.D. Waterloo; Joint and Cross appointments with Genetics and Medicine

Adjunct Professor
Sneddon, G., B.Sc.(Hons.) Acadia, M.Sc., Ph.D. Dalhousie

Cross-Appointments
Cadigan, N., B.Sc., MAS Memorial, Ph.D. Waterloo; Cross appointment from Marine Institute
Gadag, V., B.Sc., M.Sc. Karnataka, M.Phil., Ph.D. Poona; Professor of Biostatistics, Cross appointment from Department of Health Statistics and Health Information Systems
Yi, Y., B.Sc., Hunan Normal, M.Sc., Changsha College, M.Sc., Ph.D. Manitoba; Assistant Professor of Biostatistics; Cross appointment from Division of Community Health and Humanities

Consultants for Master of Applied Statistics Program
Cadigan, N., B.Sc., M.A.S. Memorial, Ph.D. Waterloo; Department of Fisheries and Oceans, St. John's
Lye, L.M., B.Sc.(Hons.) Bolton Inst., Ph.D. Manitoba, P.Eng; Faculty of Engineering and Applied Science, Memorial University of Newfoundland
Schneider, D.C., B.Sc. Duke, Ph.D. SUNY, Stony Brook; Ocean Sciences Centre, NICOS; Recipient of the President's Award for Outstanding Graduate Student Supervision, 2012-2013

The attention of all members of the University community is drawn to the section of the University Calendar titled The Memorial University of Newfoundland Code, which articulates the University's commitment to maintaining the highest standards of academic integrity.

2. Student Code of Conduct
Memorial University of Newfoundland expects that students will conduct themselves in compliance with University Regulations and
Policies, Departmental Policies, and Federal, Provincial and Municipal laws, as well as codes of ethics that govern students who are members of regulated professions. The Student Code of Conduct outlines the behaviors which the University considers to be non-academic misconduct offences, and the range of remedies and/or penalties which may be imposed. Academic misconduct is outlined in UNIVERSITY REGULATIONS - Academic Misconduct in the University Calendar.

For more information about the Student Code of Conduct, see www.mun.ca/student/conduct/conduct.php.

3 Faculty Description

The Faculty of Science encompasses nine academic departments: Biochemistry, Biology, Chemistry, Computer Science, Earth Sciences, Mathematics and Statistics, Ocean Sciences, Physics and Physical Oceanography, and Psychology. Each offers programs leading to either a general or honours degree. A number of specialized and joint (double major) programs are also offered, as well as Bachelor of Science degree programs delivered by the Departments of Geography and Economics. Selected students can complete the first two years of Acadia University's Bachelor of Science in Nutrition (Dietetics option) at Memorial University of Newfoundland. In addition to educational programs, research is a most important aspect of the Faculty of Science. As such, the Faculty is in a position to generate new knowledge by the pursuit of high quality research and to foster economic development through cooperative research and technology transfer with the private sector. The Faculty of Science is the scientific training ground for all undergraduates at the University. Memorial University of Newfoundland’s science graduates are in demand by science-based industries throughout the country. Our Faculty excels in research and in its commitment to effective teaching and delivery of quality educational programs.

Additional information regarding the Faculty of Science is available at www.mun.ca/science.

Information regarding the Centre for Earth Resources Research (CERR) and the Ocean Sciences Centre (OSC) is available under General Information, Centre for Earth Resources Research (CERR), and General Information, Ocean Sciences Centre, respectively.

4 Bachelor of Science in Nutrition (Dietetics Option), Memorandum of Understanding (MOU) between Memorial University of Newfoundland and Acadia University

Program Coordinator: B. Walters, Department of Biochemistry

4.1 General Information

Under the terms of a Memorandum of Understanding (MOU) between Memorial University of Newfoundland and Acadia University, selected students are able to complete the first two years of Acadia University’s Bachelor of Science in Nutrition (Dietetics option) at Memorial University of Newfoundland and complete the final two years of the program at Acadia University. Selection for this program is competitive and is limited to ten qualified students each year. Upon successful completion of all degree requirements students will graduate with the degree of Bachelor of Science in Nutrition (Dietetics option) from Acadia University.

For detailed information about the Memorial University of Newfoundland component of the program, and for information about the selection process and deadlines, contact the Office of the Dean of Science by e-mail at science@mun.ca or by telephone at (709) 864-8153 or (709) 864-8154.

For detailed information about the Acadia University program, contact Acadia University in writing to the School of Nutrition and Dietetics, Acadia University, P.O. Box 66, 12 University Avenue, Wolfville, Nova Scotia, Canada B4P 2R6, or by telephone at (902) 585-1366, or by e-mail at nutr@acadiau.ca, or through the website at nutrition.acadiau.ca.

4.2 Admission Regulations

1. Students who are interested in pursuing this program must first complete 30 credit hours from the prescribed courses from the Memorial University of Newfoundland Courses list below.

2. In the Winter semester, normally at the end of a student’s first year at Memorial University of Newfoundland, a selection competition will be held. Only those students who are selected will be eligible to continue into the second year of the program at Memorial University of Newfoundland.

3. The selection process will be jointly administered by Memorial University of Newfoundland and by Acadia University.

4. Academic achievement will be a significant criterion used for selection and students may be asked to attend an interview.

5. The letter of acceptance will give the selected applicant 14 days from the date of the letter in which to confirm acceptance of their place in the program.

6. To continue to Acadia University, the selected students must successfully complete the 17 courses, 51 credit hours from the Memorial University of Newfoundland Courses and the 3 courses, 9 credit hours from the Acadia University Courses lists below required by the MOU with a minimum 60% overall average. A grade of 60% (Acadia University equivalent grade of C-) is required in each of the three individual Nutrition courses taken through Open Acadia at www.openacadia.ca, the distance education unit of Acadia University.

4.3 Continuance Regulations

Students who successfully complete the first two years of the program at Memorial University of Newfoundland as described below will transfer to Acadia University where the final two years will be completed.

4.3.1 Memorial University of Newfoundland Courses

Under the terms of the MOU, the following 17 courses, 51 credit hours at Memorial University of Newfoundland must be completed with a minimum 60% overall average before being admitted to the third year of Acadia University’s program:

1. Biology 1001
2. Chemistry 1010, 1011 (or Chemistry 1200, 1001)
3. Chemistry 2440
4. English 1080, 1110 (or equivalent)
5. Mathematics 1090 and 1000 (or Mathematics 1000 and one elective)
6. Pharmacy 2002, 2003, and 2004 or Biochemistry 2101 (only students who are selected for this program will be permitted to register
4.3.2 Acadia University Courses
To continue to the third year of Acadia University’s program, the selected students must successfully complete 20 courses, 60 credit hours comprised of the 17 courses, 51 credit hours from the Memorial University of Newfoundland Courses list above and the 3 courses, 9 credit hours from the Acadia University Courses list below. This is required by the MOU and students must obtain a minimum 60% overall average. A grade of 60% (Acadia University equivalent grade of C-) is required in each of the three individual Nutrition courses taken through Open Acadia at www.openacadia.ca, the distance education unit of Acadia University.

Nutrition 1313
Nutrition 1323
Nutrition 2323

4.3.3 Internship
In order to be eligible to apply for internship placements administered by the Acadia Dietetic Internship Program, students must obtain a grade of at least B- (70-72) in the two courses Nutrition 2503 and 2513. This requirement does not apply for other non-Acadia internships for which all students are eligible to apply.

4.3.4 Programs Tables
The following tables present a schedule for completing the course requirements at Memorial University of Newfoundland.

**For Students Who Complete Mathematics 1090 in Their First Semester**

Notes:
1. Statistics 2501 is offered on campus in the Fall semester and normally is offered only by distance education in the Winter semester.
2. While students are strongly encouraged to complete Nutrition 2323 in the first year, they can substitute an Arts elective for Nutrition 2323 in the...
5 Joint Programs

Course descriptions are found at the end of the Faculty of Science section under Course Descriptions. The following joint programs are offered by Departments in the Faculty of Science, and the regulations for each program are joint Departmental Regulations. For convenience of reference the joint programs are listed below in alphabetical sequence: Joint Honours, Joint Majors, and Joint Options.

5.1 Joint Honours

A student who wishes to be admitted to any of the Honours programs must submit an "Application for Admission to Honours Program Faculties of Arts or Science". This form is available at www.mun.ca/regoff/Application_for_Admission_to_Honours.pdf.

5.1.1 Applied Mathematics and Chemistry Joint Honours (B.Sc. Only)

The following courses are required:
1. English 1080 and English 1110 (or equivalent).
2. A computing course. Computer Science 1510 is recommended.
4. Physics 1050 (or 1020) and 1051.
5. Mathematics 1000, 1001, 2000, 2050, 2051, 2130, 2260 (or 3260), 3000, 3001, 3132, 3161, 3202, 3210, 4160.
6. Chemistry 1050 and 1051 (or 1010, 1011 and the former 1031) (or 1200 and 1001), 2100, 2210, 2301, 2302, 2400, 2401, 3110, 3210 or 3211, 3303, 3500.
7. Six additional credit hours chosen from courses numbered 3000 or higher that are offered by the Department of Chemistry.
8. Mathematics 419A/B or Chemistry 490A/B.
9. A sufficient number of elective courses to bring the degree up to a total of 120 credit hours.

5.1.2 Applied Mathematics and Physics Joint Honours

The following courses are required:
1. English 1080 and English 1110 (or equivalent).
2. A computing course. Computer Science 1510 is recommended.
3. Six credit hours in a science other than Mathematics or Physics (if Computer Science is chosen then Computer Science 1510 may be counted as three of these hours).
5. At least one of Mathematics 2130 or Mathematics 2320.
6. Physics 1050 (or 1020), 1051, 2053, 2055, 2750 (or 2056), 2820, 3220, 3230, 3400, 3500, 3750.
7. Three additional credit hours chosen from courses numbered 3000 or higher that are offered by the Department of Physics and Physical Oceanography.
8. Mathematics 3161 and Mathematics 4160, or Physics 3820 and Physics 4820.
9. Physics 490A/B or Mathematics 419A/B.
10. Twelve additional credit hours chosen from courses numbered 4000 or higher that are offered by the Department of Mathematics and Statistics or the Department of Physics and Physical Oceanography. At least 3 credit hours must be selected in each of Applied Mathematics and Physics.
11. A sufficient number of elective courses to bring the degree up to a total of 120 credit hours.

The topic for the Honours project or thesis, Mathematics 419A/B or Physics 490A/B must be chosen with the prior approval of both departments.

5.1.3 Biochemistry and Cell Biology Joint Honours

Students must have at least an overall average of 65% in English 1080 and 1110 (or equivalent), Mathematics 1000 and 1001, Biology 1001 and 1002, Chemistry 1050 and 1051 (or 1200 and 1001), Physics 1050 (or 1020), and 1051 (or 1021).

The following courses, including prerequisites where applicable, will be required.
1. Biochemistry 2101, 3105, 3106, 3107, 3108, either 4210 or 4211, 12 credit hours chosen from 4002, 4101, 4102, 4103, 4104, 4105, 4200, 4201, 4230-4249.
2. Biology 2060, 2250, 2600, 2900, 3050 and 9 credit hours chosen from 3500, 3530, 3620, 4000, 4200, 4241. In addition, further Biology courses at the 2000, 3000, or 4000 level must be selected by the student to make up a minimum of 42 credit hours in Biology including Biology 1001 and 1002 but not including Biology 499A or 499B.
3. Either Medicine 310A/B, or Biology 3401 plus one of Biology 3402, 4245 or 4404.
4. Chemistry 2100, 2301, 2400, 2401; either 3410 or 3411.
5. Statistics 2550 or equivalent.
7. Other courses to complete the prescribed minimum of 135 credit hours in courses for the Joint Honours Degree.

Note: Students may count only one of the two courses, Biochemistry 4105 or Biology 4200, for credit in this program.

The topic of the Honours dissertation must be chosen with the approval of both Departments. A faculty member of either Department may act as supervisor.

Seventy-eight credit hours in Biology, Biochemistry and Chemistry courses beyond the first-year level from those listed in the program shall contribute to those in which a grade of "B" or an average of 75 or higher is required. Medicine 310A/B counts as Biochemistry for these seventy-eight credit hours.
5.1.4 Biochemistry and Chemistry Joint Honours

The following courses are required:
1. Chemistry 1050 and 1051 (or Chemistry 1010, 1011 and the former 1031) (or 1200 and 1001), Mathematics 1000 and 1001, Physics 1050 and 1051, 6 credit hours in first year English courses. Biology 1001 and 1002 are highly recommended.
3. Chemistry 2100, 2201, 2301, 2302, 2400, 2401, 3110, 3211, 3303, 3410, 3411, 3500, and 6 further credit hours in Chemistry courses at the 4000 level.
4. Biochemistry 2100, 2101, 3105, 3106, 3107, 3108, Medicine 310A/B, either Biochemistry 4210 or 4211, 9 credit hours chosen from Biochemistry 4002, 4101, 4102, 4103, 4104, 4105, 4200, 4201, 4220, 4230-4249.
5. Either Chemistry 490A/B or Biochemistry 499A/B.
6. Other courses to complete the prescribed minimum of 135 credit hours in courses for the Joint Honours Degree. Physics 2820 and/or Physics 2750 are recommended.

5.1.5 Biochemistry and Physics Joint Honours

The following courses are required:
1. English 1080 and 1110 (or equivalent), Chemistry 1050 and 1051 (or Chemistry 1010, 1011, and the former 1031) (or 1200 and 1001), Mathematics 1000 and 1001, Physics 1050 (or 1020) and 1051
2. Chemistry 2400, 2401.
3. Chemistry 2301 or Physics 2053
4. Mathematics 2000, 2050, 2260 (or 3260), either Mathematics 3202 or Physics 3810.
5. Biochemistry 2100, 2101, 3105, 3106;
6. Either Biochemistry 3107 and 3108 or Medicine 310A/B;
7. An additional 12 credit hours to be selected from Biochemistry 4002, 4101, 4102, 4103, 4104, 4105, 4200, 4201, 4210 or 4211; 4230-4249;
8. Physics 2055, 2750 or 2056, 2820, 3220, 3400, 3500, 3750, 3820, 3900, plus one 4000 level Physics course.
9. Either Physics 490A/B or Biochemistry 499A/B.
10. Other courses to complete the prescribed minimum of 120 credit hours in courses for the Joint Honours degree.

5.1.6 Biochemistry and Psychology (Behavioural Neuroscience) Joint Honours

Note: Students completing this program cannot receive credit for Psychology 2920.

The following courses (or equivalent) are required to complete the 120 credit hours in courses required for the degree:
1. Chemistry 1050 and 1051 (or Chemistry 1010, 1011, and the former 1031) (or 1200 and 1001), English 1080 and 1110.
2. Biochemistry 2100, 2101, 3105, 3106, 3107, 3108, Medicine 310A/B, either Biochemistry 4210 or 4211, 9 credit hours chosen from Biochemistry 4002, 4101, 4102, 4103, 4104, 4105, 4200, 4201, 4220, 4230-4249.
3. Psychology 1000, 1001, 2520, 2911, 2911, 2930, 3800, 3820, 3900, two further courses in Psychology chosen from the following: 3050, 3100, 3250, 3350, 3450, 3620, 3650, 3750, any research experience course and one of Psychology 4250, 4251, 4850 or 4851; or, any selected topics course and one of Psychology 4270 or 4870.
4. Either Biochemistry 499A/B or Psychology 499A/B.
5. Chemistry 2301, 2400, 2401.

Notes: 1. In accordance with Clause 6.a. of the Regulations for the Honours Degree of Bachelor of Science, Honours candidates must obtain a grade of "B" or better, or an average of 75% or higher in all the required courses listed in Clauses 2., 3. and 4. above, except those at the 1000 level.
2. Students in first year intending to follow this program should note the regulations for admission to Major programs in Psychology and that the deadline for submission of a completed application form to the Department of Psychology is June 1 for the Fall semester.

5.1.7 Biochemistry (Nutrition) and Psychology (Behavioural Neuroscience) Joint Honours

Note: Students completing this program cannot receive credit for Psychology 2920.

The following courses (or equivalent) are required:
1. Chemistry 1010 and 1011 (or 1200 and 1001), Biology 1001 and 1002, Mathematics 1000, Physics 1020 or 1050, and 1021 (or 1051), English 1080 and 1110.
2. Biochemistry 2100, 2101, 3105, 3106, 3107, 3108, Medicine 310A/B; one course chosen from: Biochemistry 4105, 3104, 3109, 3202, 3402, 3600, 4101, 4103, 4104, 4105, 4200, 4201, 4210, 4211, 4220, 4230-4249, Biology 3050.
3. Psychology 1000, 1001, 2520, 2911, 2930, 3800, 3820, 3900, two further courses in Psychology chosen from the following: 3050, 3100, 3250, 3350, 3450, 3620, 3650, 3750; any research experience course and one of Psychology 4250, 4251, 4850 or 4851; or, any selected topics course and one of Psychology 4270 or 4870.
4. Either Biochemistry 499A/B or Psychology 499A/B.
5. Chemistry 2400, 2401 or Chemistry 2440.
6. Other courses to complete at least the prescribed minimum of 120 credit hours in courses for the Joint Honours Degree.

Notes: 1. In accordance with Clause 6.a. of the Regulations for the Honours Degree of Bachelor of Science, Honours candidates must obtain a grade of "B" or better, or an average of 75% or higher in all the required courses listed in Clauses 2., 3. and 4. above, except those at the 1000 level.
2. Students in first year intending to follow this program should note the regulations as outlined for admission to Major programs in Psychology and that the deadline for submission of a completed application form to the Department of Psychology is June 1 for the Fall semester.

5.1.8 Biology and Earth Sciences Joint Honours

The following courses, including prerequisites where applicable, will be required:
1. English 1080 and 1110 (or equivalent), Mathematics 1000 and 1001, Biology 1001 and 1002, Earth Sciences 1000 and 1002, Chemistry 1010 and 1011 (or 1050 and 1051), Physics 1020 and 1021 (or 1050 and 1051).
2. Chemistry 2440, Biochemistry 2101, Biochemistry 3106, one of Statistics 2550 or 2560.
3. Biology 2060, 2250, 2600, 2900, one of 3401, 3402, 4245 or 4404; plus Biology 3710, 3711, and 4505. In addition, further Biology courses at the 2000, 3000, or 4000 level must be selected by the student in consultation with the supervisor to make up a minimum of 42 credit hours in Biology not including Biology 499A or 499B.
4. Earth Sciences 2030, 2031, 2502, 2905; plus a minimum of 24 credit hours in other Earth Science courses from 2000 to 4000 level, at least 3 credit hours of which must be at 4000 level. Earth Sciences 2150, 2914, 2915, 2916, 2917, 2918, 4310, and 4950 cannot be used to fulfill this requirement. Career-related streams outlined in the departmental Student Handbook should be used as a guide to course selection so as to achieve a concentration in one facet of Earth Sciences.
5. An Honours dissertation (Biology 499A/B or Earth Sciences 499A/B). The topic of the Honours dissertation must be chosen with the approval of both Department Heads. A faculty member of either Department may act as supervisor.
6. Other courses to complete the prescribed minimum of 135 credit hours in courses for the Honours degree, with at least 84 credit hours in courses in Biology and Earth Sciences combined.

Any change in the program of study must have the prior approval of the Heads of the two Departments concerned.

### 5.1.9 Biology and Psychology Joint Honours

Note: Students completing this program cannot receive credit for Psychology 2920.

The following forty courses (or equivalent) are required:

1. Biology 1001, 1002, 2060, 2250, 2600, 2900; one of 3401, 3402, 4245, 4404; five Biology electives at the 2000, 3000 or 4000 level not including Biology 499A or 499B.
2. Psychology 1000, 1001, 2520, 2910, 2911, 2930, 3250, 3800; 3900, 4910; one of the following: 3050, 3100, 3350, 3450, 3620, 3850; one further 4000 level Psychology research experience course.
3. Biology or Psychology 3750, 4701, 499A/B.
4. English 1080 and 1110; Mathematics 1000; Chemistry 1010 and 1011 (or 1050 and 1051), and 2440; Physics 1020 (or 1050) and 1021 (or 1051); Biochemistry 2101 and 3106.
5. Other courses, if necessary, to complete at least 120 credit hours of courses.

### 5.1.10 Biology and Psychology (Behavioural Neuroscience) Joint Honours

Note: Students completing this program cannot receive credit for Psychology 2920.

The following forty courses (or equivalent) are required:

1. Biology 1001, 1002, 2060, 2250, 2600, 2900; one of 3401, 3402, 4245, 4404; five Biology electives at the 2000, 3000 or 4000 level not including Biology 499A or 499B.
2. Psychology 1000, 1001, 2520, 2910, 2911, 2930, 3250, 3800, 3820, 3900; two further courses in Psychology chosen from the following: 3050, 3100, 3350, 3450, 3620, 3850; any research experience course and one of Psychology 4250, 4251, 4850 or 4851; or, any selected topics course and one of Psychology 4270 or 4870.
3. Biology or Psychology 499A/B.
5. English 1080 and 1110; Mathematics 1000 and 1001; Physics 1020 (or 1050) and 1021 (or 1051); Chemistry 1010 and 1011 (or 1050 and 1051), and 2440 (or 2400 and 2401);
6. Other courses, if necessary, to complete at least 120 credit hours of courses.

Note: In accordance with Clause 6.a. of the Regulations for the Honours Degree of Bachelor of Science, Honours candidates must obtain a grade of “B” or better, or average of 75% or higher in all the required courses listed in Clauses 1, 2, 3, and 4 above, except those at the 1000 level.

### 5.1.11 Biology and Statistics Joint Honours (B.Sc. Only)

See Regulations for the Honours Degree of Bachelor of Science. Students shall complete the following requirements:

1. Mathematics 1000 and 1001, Biology 1001 and 1002, English 1080 and 1110, Chemistry 1010 and 1011 (or 1050 and 1051), Physics 1020 and 1021, or equivalent;
2. Mathematics 2000, 2950, 2951, Statistics 2500, 2501, or 2560, 3520, 3521, 4530, and 4581;
3. nine further credit hours in Statistics courses (excluding those with second digit 0) including at least 6 credit hours in courses at the 4000 level or higher but not including Statistics 459A/B;
4. Chemistry 2440 (or 2400 and 2401), Biochemistry 2101 and 3106.
5. Biology 2060, 2250, 2600, 2900, one of 3401, 3402, 4245, or 4404. In addition, further Biology courses at the 2000, 3000 or 4000 level must be selected by the student in consultation with the supervisor to make up a minimum of 42 credit hours in Biology but not including Biology 499A or 499B.
6. Either Biology 499A/B or Statistics 459A/B.
7. A computing course. Computer Science 1510 is recommended.

### 5.1.12 Chemistry and Earth Sciences Joint Honours

The following courses, including prerequisites, where applicable, will be required:

1. English 1080 and 1110 (or equivalents), Mathematics 1000 and 1001, Earth Sciences 1000 and 1002, Chemistry 1050 and 1051 (or 1010, 1011 and the former 1031) or their equivalents, Physics 1050 (or 1020) and 1051.
2. Earth Sciences 2030, 2031, 2401, 2502, 2702, 2905, 3420, 3600; plus 6 additional credit hours in 3000-level Earth Sciences courses, and 9 additional credit hours in 4000-level Earth Sciences courses.
3. Chemistry 2100, 2210, 2301 (or 2300), 2302, 2400, 2401, 3500; plus 3211, 3303, 3410, and 3411 with the option of substituting up to 6 credit hours of these 3000-level courses with 4000-level Chemistry courses; and at least 3 additional credit hours in 4000-level Chemistry courses.
5. Biology 2120 (or Biology 1001 and 1002) or Biochemistry 2101.
6. An Honours Dissertation (Earth Sciences 499A/B or Chemistry 490A/B). The topic of the Honours Dissertation must have the prior
Faculty of Science 2015-2016

approval of the Heads of the two Departments. A faculty member of either Department may act as supervisor.

7. Other courses to complete the prescribed minimum of 120 credit hours.

Any change in the program of study must have the prior approval of the Heads of the two Departments concerned.

5.1.13 Chemistry and Physics Joint Honours
The following courses are prescribed:
1. Mathematics 1000, 1001, 2000, 2050, 3202, and 2260 (or 3260).
2. Physics 1050 (or 1020) and 1051, 2055, 2750 or 2056, 2820, 3220, 3500, 3750, 3820, 3900, 4820, 3 additional credit hours in a Physics course numbered 3000 or higher and 6 additional credit hours in Physics courses numbered 4000 or higher.
3. Chemistry 1050 and 1051 (or Chemistry 1010, 1011 and the former 1031; or Chemistry 1200 and 1001), 2100, 2210, 2301 (or 2300), 2302, 2400, 2401, 3210 or 3211, 3303, 3410, 3500, and 6 additional credit hours in Chemistry courses numbered 3000 or higher.
4. Either Chemistry 490A/B or Physics 490A/B.
5. 2 elective courses to bring the degree total to 120 credit hours.
6. English 1080 and English 1110 (or equivalent).

5.1.14 Computer Science and Geography Joint Honours (B.Sc. Only)
See Regulations for the Honours Degree of Bachelor of Science

1. Computer Science Requirements
   Forty-eight credit hours in Computer Science courses are required for the Joint Honours:
   a. 1710, 2710, 2711, 2742, 2760, 3715, 3716, 3719, 3724, 3725, 3754, 4751, 4770.
   b. Six additional credit hours in courses at the 4000 level not including 4780.
   c. Three additional credit hours in courses at the 3000 level or beyond.

2. Geography Requirements
   Forty-eight credit hours in Geography courses are required for the Joint Honours: 1050, 2001, 2102, 2195, 2226, 2302, 2425, 3202, 3222, 3226, 3250, 3260, 3303, 4202, 4250, 4261, and the former 4291.

3. Additional Requirements
   b. An Honours Dissertation (either Computer Science 4780 or Geography 4999). The topic for dissertation must be chosen with the prior approval of both Departments.

5.1.15 Computer Science and Physics Joint Honours
The following courses are prescribed:
1. Chemistry 1050 and 1051 (or Chemistry 1010, 1011, and the former 1031) (or 1200 and 1001).
2. a. Computer Science 1710, 2710, 2711, 2742, 2760, 3715, 3716, 3719, 3724, 3725, 3731, 3754, 4770.
   b. Nine additional credit hours in Computer Science courses numbered 3000 or higher, including at least 6 credit hours in courses numbered 4000 or higher.
3. a. Physics 1050 (or 1020) and 1051.
   b. Physics 2053, 2055, 2750 or 2056, 2820, 3220, 3400, 3500, 3750, 3820, 4500, 4820 and 3230 or 3900.
4. Physics 490A/B or Computer Science 4780.
5. Physics 3810 or Mathematics 3202.
   b. Mathematics 2000, 2050, 2260 (or 3260) and 2320.
Statistics 2550 is recommended.
The topic for the Honours project or thesis, Computer Science 4780 or Physics 490A/B, must be chosen with the prior approval of both Departments.

5.1.16 Computer Science and Pure Mathematics Joint Honours (B.Sc. Only)
See Regulations for the Honours Degree of Bachelor of Science. Students shall complete the following:
At least 51 credit hours in Computer Science courses are required including the following:
1. Computer Science 1710, 2710, 2711, 2742, 2760, 3715, 3716, 3719, 3724, 3725, 3731, 3754, 4770.
2. Excluding 4780, 15 additional credit hours from courses numbered 3000 or higher, at least 9 credit hours of which must be in courses at the 4000 level.

The following courses in Mathematics and Statistics are required:
2. Either Mathematics 4000 or 4001;
3. Excluding Mathematics 3330 and 439A/B, 15 additional credit hours in courses offered by the Department of Mathematics and Statistics numbered 3000 or higher including at least 9 credit hours from courses numbered 4000 or higher and at least 9 credit hours in Pure Mathematics courses;
4. An Honours Dissertation in one of the departments, with the topic chosen in consultation with both departments.
Note: There is an Undergraduate Advisor in each Department. These advisors should be consulted on all academic matters.

5.1.17 Computer Science and Statistics Joint Honours (B.Sc. Only)
See Regulations for the Honours Degree of Bachelor of Science. The following courses are required:
1. Mathematics 1000, 1001, 2000, 2050, 2051, 2320, 3340, Statistics 1510 or 2500 or 2550, 2501 or 2560, 3410, 3411, 3520, 3521,
2. Eighteen further credit hours in Statistics courses including at least 12 credit hours in courses numbered 4000 or higher, but not including Statistics 4581 and 459A/B;
3. Mathematics 1000, 1001, 2000, 2050, 2051, 2130, 2320, 3000, 3001, 3202, 3210, 3260, 4000, Statistics 1510 or 2500 or 2550, 2501 or 2560, 3410, 3411, 3520, 3521, 4402, 4410, 4530;
4. One of: Mathematics 3331 or 3340;
5. Eighteen further credit hours in Pure Mathematics and/or Statistics courses numbered 3000 or higher, excluding Mathematics 3330, of which at least 12 credit hours must be from courses numbered 4000 or higher excluding Statistics 4581.

5.1.18 Earth Sciences and Geography Joint Honours (B.Sc. Only)

The following courses will be required. A few prerequisites are not met by this list of courses, and students are advised to obtain advice from instructors in such cases to be sure that they are prepared for course material. Both departmental Heads can advise students on a workable sequencing of courses to complete the degree in a timely manner, and students should view a student handbook that describes thematic streams within the program and offers specific guidance about course selection.

1. English 1080 or equivalent, English 1110 or equivalent, Geography 1050, Mathematics 1000 and 1001, Earth Sciences 1000 and 1002, one of Chemistry 1010 or 1050 (or equivalent) and one of Chemistry 1011 or 1051 (or equivalent), Physics 1050 and 1051, or Physics 1020 and 1021.
2. Geography 2001 or 2302, and Geography 2102, 2195, 2226, 2425 and 3226, Earth Sciences 2401 or 2502, and Earth Sciences 2030, 2031, 2702 and 2905.
3. Mathematics 2000 or Statistics 2550 or Geography 3222, Biology 1001 and 1002, or Biology 2120 or Physics 2055.
4. Either Earth Sciences 499A and 499B, or Geography 4990 and Geography 4999.
5. At least an additional 40 credit hours from Earth Sciences and Geography, with a minimum of 16 credit hours from Earth Sciences and 18 credit hours from Geography; and a minimum of 9 credit hours at the 4000-level in each discipline. Earth Sciences 2150, 2914, 2915, 2916, 2917, 2918, 4316, and 4950 cannot be used to fulfill this requirement. Geography 2105, 2290, 2405, 2460 and 2495 cannot be used to fulfill this requirement.
6. Additional credit hours selected to conform to the Regulations for the Honours Degree of Bachelor of Science so as to achieve a total of 120 credit hours.

Notes: 1. The topic of the Honours dissertation must be chosen with the approval of both Departments. A faculty member of either Department may act as supervisor.
2. Any change in the program of study must have the prior approval of the Heads of both Departments concerned.
3. The number of specified courses means that English 1110 will be taken normally in the second or third year of the program.
4. Students who do not satisfy the Regulations for the Honours Degree of Bachelor of Science - Academic Standing, but who successfully complete all the courses, with the exception of the Honours dissertation, and who satisfy all other requirements for the Bachelor of Science, will be eligible to receive a Bachelor of Science with a joint major in Geography and Earth Science.

5.1.19 Earth Sciences and Physics Joint Honours

This program was formerly in the Earth Sciences section of the calendar as an Honours B.Sc. Degree in Geophysics. The following courses will be required:

1. English 1080 and 1110 (or equivalent), Mathematics 1000 and 1001, Earth Sciences 1000 and 1002, Chemistry 1050 and 1051 (or Chemistry 1010 and 1011) (or 1200 and 1001), Physics 1050 (or 1020) and 1051.
2. Earth Sciences 2030, 2401, 2502, 2702, 2905, 3170, 3172, 3420, 3905, 4171, 4173, 4179.
3. Physics 2055, 2750 or 2056, 2820, 3220, 3230, 3500, 3820, 4820; plus 9 other credit hours in Physics courses at 3000 level or higher.
4. Mathematics 2000, 2050, 2260 (or 3260) and 3202.
5. Either Earth Sciences 499A/B or Physics 490A/B.
6. Other courses to complete at least a minimum of 120 credit hours.

Any change in the program of study must have the prior approval of the Heads of the two Departments concerned.

5.1.20 Geophysics and Physical Oceanography Joint Honours

The program requires the following courses:

1. English 1080 and 1110 (or equivalent), Chemistry 1050 and 1051 (or Chemistry 1010, 1011, and the former 1031), Mathematics 1000 and 1001, Earth Sciences 1000 and 1002, Physics 1050 (or 1020) and 1051.
2. Earth Sciences 2905, 3170, 3172, 4105, 4171, 4173, 4179 and 10 credit hours at the 2000 level or higher with at least 3 credit hours at the 3000 level.
3. Physics 2053, 2055, 2820, 3220, 3300, 3500, 3820, 4205, 4300, 4330, 4820 plus one of Physics 3600, 3150, 3400, 3550 or 3900.
4. Mathematics 2000, 2050, 2260 (or 3260) and 3202.
5. Either Earth Sciences 499A and 499B or Physics 490A/B.
6. Other courses to complete the prescribed minimum of 120 credit hours.

5.1.21 Pure Mathematics and Statistics Joint Honours

See Regulations for the Honours Degree of Bachelor of Science. The following courses are required:

1. Mathematics 1000, 1001, 2000, 2051, 2130, 2320, 3000, 3001, 3202, 3210, 3260, 4000, Statistics 1510 or 2500 or 2550, 2501 or 2560, 3410, 3411, 3520, 3521, 4402, 4410, 4530;
2. A computing course early in the program is required. Computer Science 1510 is highly recommended;
3. Either Mathematics 439A/B or Statistics 459A/B;
4. One of: Mathematics 3331 or 3340;
5. Eighteen further credit hours in Pure Mathematics and/or Statistics courses numbered 3000 or higher, excluding Mathematics 3330, of which at least 12 credit hours must be from courses numbered 4000 or higher excluding Statistics 4581.
5.2 Joint Majors

5.2.1 Applied Mathematics and Computer Science Joint Major (B.Sc. Only)
The following courses are required
1. Computer Science 1710, 2710, 2711, 2742, 2760, 3715, 3716, 3719, 3724, 3725, 3754, 4770, plus 6 further credit hours in Computer Science courses numbered 3000 or higher.
2. Mathematics 1000, 1001, 2000, 2050, 2051, 2130, 2260 (or 3260), 2320, 3000, 3100, 3132, 3161, 3202, 4160, 4190, plus one of Mathematics 3210, 4131, 4132, 4162.
In addition, Statistics 2550 is highly recommended.

5.2.2 Applied Mathematics and Economics Joint Major (B.Sc. Only)
2. Either Mathematics 3132 and 4131 or 3161 and 4160.
3. A computing course early in the program is required. Computer Science 1510 is highly recommended.
5. Eighteen further credit hours chosen from among the various Economics courses in consultation with the Head of the Department or delegate, including at least 9 credit hours at the 4000 level.

5.2.3 Applied Mathematics and Physics Joint Major (B.Sc. Only)
Required course for this degree are:
1. English 1080 and English 1110 (or equivalent).
2. A computing course. Computer Science 1510 is recommended.
3. Six credit hours in science other than Mathematics or Physics (if Computer Science is chosen then Computer Science 1510 may be counted as 3 of these hours).
4. Mathematics 1000, 1001, 2000, 2050, 2051, 2260 (or 3260), 3000, 3001, 3132, 3202.
5. At least one of Mathematics 2130 or Mathematics 2320.
6. Physics 1050 (or 1020), 1051, 2053, 2055, 2750 (or 2056), 2820, 3220, 3400, 3500, 3750.
7. Mathematics 3161 or Physics 3820.
8. At least 15 additional credit hours chosen from Applied Mathematics and Physics courses numbered 3000 or above. At least 3 hours are required from Applied Mathematics and 6 hours are required from Physics.
9. A writing course. Any one of Mathematics 2130, Physics 3900, Mathematics 419A/B, or Physics 490A/B is acceptable.
The last requirement does not have to be met independently of the other regulations. For example, it can be satisfied either by choosing Mathematics 2130 from clause 5. above or choosing Physics 3900 as a 3000+ elective in clause 8. above.

5.2.4 Computer Science and Economics Joint Major (B.Sc. Only)
1. Computer Science Requirements
   Forty-two credit hours in Computer Science courses are required: 1710, 2710, 2711, 2742, 2760, 3715, 3716, 3719, 3724, 3725, 3731, 3753, 3754, and 4770.
2. Economics requirements
   A total of 42 credit hours in Economics courses are required: 2010, 2020, 2550, 3000, 3001, 3010, and 6 credit hours from either 3550 and 3551, or 4550 and 4551 are obligatory.
The remaining 18 credit hours shall be chosen from among the various Economics courses in consultation with the Head of the Department or delegate, and will include at least 9 credit hours in courses at the 4000 level.

5.2.5 Computer Science and Geography Joint Major (B.Sc. Only)
1. Computer Science Requirements
   Thirty-nine credit hours in Computer Science courses are required: 1710, 2710, 2711, 2742, 2760, 3715, 3716, 3719, 3724, 3725, 3731, 3753, 3754, and 4770.
2. Geography Requirements
   Thirty-nine credit hours in Geography courses are required: 1050, 2001, 2102, 2195, 2302, 2425, 3202, 3222, 3250, 3260, 4202, 4250, 4261.

5.2.6 Computer Science and Physics Joint Major
1. Chemistry 1050 and 1051 (or Chemistry 1010, 1011, and the former 1031).
2. Thirty-nine credit hours in Computer Science are required for the Joint Major: 1710, 2710, 2711, 2742, 2760, 3715, 3716, 3719, 3724, 3725, 3731, 3754, 4770.
3. Physics 1050 (or 1020) and 1051 plus at least 30 additional credit hours in Physics including 2053, 2055, 2750 (or 2056), 2820, 3220, 3400, 3500, 3550, 3750, 3900.
   c. Physics 3810 or Mathematics 3202.
5.2.7 Computer Science and Pure Mathematics Joint Major (B.Sc. Only)
In addition to Mathematics 1000, 1001, and Computer Science 1710, the following courses numbered 2000 or higher are required:
1. Computer Science 2710, 2711, 2742, 2760, 3715, 3716, 3719, 3724, 3725, 3754, 4770.
2. Six additional credit hours in Computer Science courses numbered 3000 or higher.
4. Nine additional credit hours in courses numbered 3000 or higher offered by the Department of Mathematics and Statistics, excluding Mathematics 3330.

5.2.8 Computer Science and Statistics Joint Major (B.Sc. Only)
The following courses are required:
1. Computer Science 1710, 2710, 2711, 2742, 2760, 3715, 3716, 3719, 3724, 3725, 3754, 4734, 4770.
2. Statistics 1510 or 2500 or 2550, and 2501 or 2560.
4. Nine further credit hours in Statistics courses numbered 3000 or higher including at least a 3 credit hour course numbered 4000 or higher excluding Statistics 4581.

5.2.9 Earth Sciences and Physics Joint Major
This program was formerly in the Earth Sciences section of the calendar as a General B.Sc. Degree in Geophysics. The following courses will be required:
1. English 1080 and 1110 (or equivalent), Mathematics 1000 and 1001, Earth Sciences 1000 and 1002, Chemistry 1050 and 1051 (or Chemistry 1010 and 1011), (or 1200 and 1001), Physics 1050 (or 1020) and 1051.
2. Earth Sciences 2030, 2401, 2502, 2702, 2905, 3170, 3172, 3420, 3905; plus a 3 credit hour course in Earth Sciences 4100 series.
3. at least 30 credit hours in Physics courses at the 2000 level or higher, including Physics 2055, 2056 or 2750, 2820, 3220, 3500.
5. Other courses to complete at least a minimum requirement of 120 credit hours in courses for the General Degree.
   Any change in the program of study must have the prior approval of the Heads of the two Departments concerned.

5.2.10 Economics and Pure Mathematics Joint Major (B.Sc. Only)
2. A computing course early in the program is required. Computer Science 1510 is highly recommended.
3. Economics: 2010, 2020, 2550, 3000, 3001, 3010, and 6 credit hours from either 3550 and 3551, or 4550 and 4551.
4. Eighteen further credit hours chosen from among the various Economics courses in consultation with the Head of the Department or delegate, including at least 9 credit hours at the 4000 level.

5.2.11 Economics and Statistics Joint Major (B.Sc. Only)
2. Six additional credit hours in Statistics courses numbered 3000 or higher, at least 3 credit hours of which must be numbered 4000 or higher excluding Statistics 3521 and 4581.
3. Economics: 2010, 2020, 2550, 3000, 3001, 3010, and 6 credit hours from either 3550 and 3551, or 4550 and 4551.
4. Eighteen further credit hours chosen from among the various Economics courses in consultation with the Head of the Department or delegate, including at least 9 credit hours at the 4000 level.

5.2.12 Economics (Co-operative) and Statistics Joint Major (B.Sc. Only)
The Joint Major in Economics (Co-operative) and Statistics Option is available to full-time Economics and Statistics majors (B. Sc.) only. The program is available under the Economics Co-operative Education Option (ECEO)
The ECEO provides an excellent mutual opportunity for students and employers. Qualified students will obtain rewarding employment experience in fields related to Economics for several months of continuous duration. Students will learn valuable practical skills in an employment situation during their course of study. Furthermore, paid employment will help to defray the cost of their education. The timing of the Work Terms and the structure of the ECEO generally are such that employers stand to gain from the acquired employable skills of economists and statisticians in training. The objectives of the Work Term component of the ECEO are embodied in the Work Term descriptions below. The descriptions serve to guide the student and the employer toward achieving these objectives.

1. Admission Requirements
   a. Admission is competitive and selective. Therefore, prospective students are encouraged to consider an alternate degree program in the event that they are not accepted into the Joint Co-operative program.
   b. Applicants should note that it is possible to enter Term 1 only in the Fall semester commencing in September of each academic year. Application forms are available in the Department of Economics and the Department of Mathematics and Statistics. The deadline for applications for admission to Term 1 is March 1.
   c. The primary criterion used in reaching decisions on applications for admission is overall academic achievement. Students with weak overall academic records are unlikely to be admitted.
   d. To be eligible for admission to Term 1 an applicant must have successfully completed a minimum of 30 credit hours with an overall average of at least 65% as follows: All applicants must have completed Economics 2010 and 2020; at least 6 credit hours in English; Mathematics 1000 and 1001; and 12 credit hours chosen from courses in the Faculties of Arts or Science.
   e. It is recommended that students complete English 1110. Critical Reading and Writing II (Context, Substance, Style) as one of these English courses.
   f. Students may apply for admission to Advanced Standing.
   g. Transfer students from other universities will be placed in that term of the program judged to be appropriate considering
equivalent credits, as determined by the Departments.

2. Program of Study
a. Promotion from each of Terms 1 through 6 requires a passing grade in all specified required courses and an overall average of at least 60% in all courses including electives. A student who fails a required course or fails to maintain an overall average of 60% will not be promoted to the next term and will be required to withdraw from the program. The student in question may apply for readmission in a subsequent year after passing the specified required course(s) previously failed, or re-establishing the 60% average.

b. In addition to the 30 credit hours required for admission, students are required to complete the six academic terms in the ECEO program for a total of 120 credit hours. Students must complete three Work Terms which follow Academic Terms 2, 4, and 5.

c. Courses shall normally be taken in academic terms or “blocks” in the sequenced course load and order set out in the Academic Course Program - Economics (Co-operative) and Statistics Joint Major (B.Sc. Only) Table. Unspecified credits may be used to fulfill elective requirements only.

d. UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate) - Classification of Students, notwithstanding, students do not require special permission to register for courses while on work terms if the courses are in addition to the prescribed program.

3. Work Term Placement
See Regulations in Economics for the Major in Economics (Co-operative), in the Faculty of Arts section of the Calendar.

4. Registration and Evaluation of Performance
See Regulations in Economics for the Major in Economics (Co-operative), in the Faculty of Arts section of the Calendar.

Notes: 1. Another 1000-level Computer Science course may be substituted for Computer Science 1700 with the Heads' approvals.
2. Elective courses should be chosen with reference to the Regulations for the General Degree of Bachelor of Science, since courses specified for admission to and completion of the program only partially satisfy these regulations. In particular note that in addition to the 78 credit hours (26 courses) in Science subjects required, at least 3 credit hours in a Science subject other than Mathematics/Statistics, Economics and Computer Science must be completed.

5.3 Option Programs

5.3.1 Physics and Chemistry Option Programs

Students who follow the Physics Chemistry Joint Honours Program of courses outlined above either as Honours students or otherwise and who satisfy all relevant course regulations except those on Academic Standing for the Honours Degree of Bachelor of Science shall receive on their University records a notation that they followed the “Physics/Chemistry” Option Programs.

Students who intend to follow a joint degree program are strongly recommended to consult the Head of the Department or delegate at their earliest opportunity to ensure proper planning of their course sequence.

6 Degree Regulations

Students must meet all regulations of the Faculty of Science in addition to those stated in the general regulations. For information concerning fees and charges, admission/readmission to the University, and general academic regulations (undergraduate), refer to UNIVERSITY REGULATIONS.

Upon meeting the qualifications for any of the programs of the Faculty of Science a student must apply by the appropriate deadline date to graduate on the prescribed “Application for Graduation ” form. This form may be obtained on-line at the Memorial Self Service at www3.mun.ca/admit/twbkwbsi.P_WWWLogin. Additional information is available from the Office of the Registrar at www.mun.ca/regoff/graduation/apply_grad.php.

6.1 Admission to the Department of Subject of Major

Admission to certain major programs within the Faculty is limited and competitive.

Admission to all major programs within the Faculty is upon formal application to the department of the subject of major after completion of the admission requirements.

Unless otherwise indicated by the Departmental Admission Regulations as published in the University Calendar under departmental regulations, students upon formal application by Change of Academic Program Form, are normally admitted to the department of major program upon successful completion of 30 credit hours which must include:

1. 6 credit hours in English courses
2. 6 credit hours in Mathematics courses
3. 6 credit hours in courses from each of two Sciences other than Mathematics
Students seeking admission to departments with Departmental Admission Regulations as indicated above must apply for admission on the appropriate Departmental Application for Admission Form upon completion of the specified admission requirements.

6.2 Limited Enrolment Courses
Certain course offerings in the Faculty of Science will be identified as being Limited Enrolment Courses and will be clearly identified as such in the University Timetable. Students who have registered for a Limited Enrolment Course must confirm their registration either (1) by attending at least one of the first three hours of lecture in the course and the first meeting of any laboratory section of the course; or (2) by notifying the department in writing within the first five university working days of the semester. Students who do not confirm their registration may be dropped from the course on the recommendation of the Head of Department.

6.3 Regulations to Govern Supplementary Examinations in the Departments of Biochemistry, Computer Science, Mathematics and Statistics, and Physics and Physical Oceanography
1. Supplementary examinations will be allowed in certain of the Biochemistry, Computer Science, Mathematics and Statistics, and Physics and Physical Oceanography courses which have written final examinations. In each course, students will be informed as to the possibility of a supplementary examination during the first week of classes. This information will be provided in writing, as part of the evaluation scheme for the course.
2. Supplementary examinations will be similar in length and degree of difficulty as the original final examination.
3. Students who wish to write supplementary examinations must apply in writing to the department within one week of release of grades.
4. A student who has clear or conditional standing may write a supplementary examination in a course if the final grade obtained is 45-49F and if his or her term mark is at least 50%.
5. In order to pass the course, the student, must pass the supplementary examination. If the student passes the supplementary examination, then a new grade will be calculated using the same weighting scheme as used in the course, but with the result of the supplementary examination replacing that of the original final examination. Any additional course requirements, including a requirement to pass the laboratory component of a course, will continue to apply.
6. If the new course grade is higher than the original, it will replace the original grade on the student's transcript, subject to the condition that the final mark will not exceed the student's term mark. The student's transcript will indicate that the course result was earned as the result of a supplementary examination.
7. Supplementary examinations will be written no later than the first week of the semester immediately following the one in which the course was failed. Normally they will coincide with the writing of deferred examinations. Grades for supplementary examinations will be submitted to the Office of the Registrar within one week following the commencement of classes for that semester.
8. A student may write a supplementary examination for any one registration in a course only once; if the course result following the supplementary examination is a fail then the course must be repeated in order to obtain credit.

6.4 Regulations for the General Degree of Bachelor of Science
1. For the General Degree of Bachelor of Science a candidate will be required to complete, subject to the following Regulations, 120 credit hours applicable to the degree which shall include:
   a. Six credit hours in English courses
   b. Six credit hours in Mathematics courses
   c. Six credit hours in courses from each of two Sciences other than Mathematics
2. a. Courses shall be chosen so that a candidate shall have completed an approved concentration of courses in one subject to be known as the candidate's Major. For the purposes of these regulations, candidates may complete only one major from departments which offer more than one. In selecting courses in their Major, candidates must comply with the Departmental Regulations approved by the Senate and printed in the Calendar. The Departmental Regulations shall require not fewer than 36 nor more than 45 credit hours in courses from the subject of the Major (including the courses in that subject completed at the first year level). (See also Notes 1. and 2.).
   b. The subject of the candidate's major shall be that declared by the candidate on the appropriate admission form and approved by the department at the time of admission.
   c. The 36 or more credit hours in courses from one subject referred to in a. above, may be chosen from the following subjects, and may include courses in that subject which were completed at first-year level: Biology (see Note 4.), Biochemistry (see Note 6.), Chemistry, Computer Science, Earth Sciences, Economics, Geography, Mathematics (except the former 1150 and 1151) and Statistics, Physics, Psychology.
   d. A candidate may change the subject of the Major during any Regular Registration Period provided he or she has first applied for and received acceptance by the department to which application is being made.
   e. In those Departments which offer programs leading to both a degree of Bachelor of Arts and a degree of Bachelor of Science, students are free to choose the degree program they wish to follow and may change from one to the other; however, they may not obtain both degrees in the same Major subject at this University.
3. Further courses may be chosen from any of the subjects listed in Clause 2. above, or from other courses approved by the Committee on Undergraduate Studies of the Faculty of Science (see Note 5.), provided that, of the 120 credit hours required:
   a. candidate shall have completed at least 78 credit hours in courses from the subjects listed in Clause 2. above, including the Major courses and the courses required for admission; See Notes 3. and 5.
   b. there shall be not fewer than five subjects in which a candidate shall have completed courses. At least four of these subjects shall be chosen from the subjects listed in Clause 2. above. In the case of unspecified transfer credits awarded in a subject area not taught at Memorial University of Newfoundland any number of such transfer credits in the aggregate shall count as one subject area.
   c. not more than 15 unspecified transfer credit hours awarded in a subject area not taught at Memorial University of Newfoundland shall be used to satisfy the requirements of the degree.
4. Before a candidate registers, the Head of the Department of his or her Major, or delegate, shall approve a candidate's program which is in accordance with the above regulations. The Head of the Department or delegate shall advise each candidate of programs
suitable for his or her particular needs.

5. To obtain a general degree of Bachelor of Science a candidate shall have:
   a. satisfied the conditions of UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate), Graduation - Application for Graduation - Degrees, Diplomas and Certificates;
   b. obtained an average of at least 2.0 points per credit hour in the 78 credit hours in Science required for the degree;
   c. obtained an average of at least 2.0 points per credit hour in the minimum number of credit hours in the major subject (or, in the case of joint majors, subjects) required for the major program (or, in the case of joint majors, programs).

6. Where a student satisfies the separate departmental regulations for a major in two or more subjects for which a specific joint program does not exist, such subjects shall be recognized as the major subjects for the general degree of Bachelor of Science.

7. A candidate may complete a minor of at least 24 credit hours in courses from a subject area other than that of the Major chosen from Clause 2. a. above or from minors available in the Faculty of Arts, the Faculty of Business Administration, and the School of Music. (It should be noted that because of departmental regulations for the Major, not every candidate may be able to fit a minor into his or her 120 credit hour program).
   a. The subject of the candidate’s minor shall be that declared by the candidate on the Change of Academic Program Form which must then be signed by the Head of the Department of the Minor.
   b. A candidate must follow the departmental regulations for the Minor as set forth in the appropriate section of the Calendar.
   c. The Head of the Department of the Minor will advise the candidate on the selection of courses in the Minor.
   d. Students who have taken courses appropriate to their Minor at another university are required to complete at least 6 credit hours in courses from that subject at this University. These courses must be chosen in consultation with the Head of the Department of the Minor program.
   e. A candidate must obtain a grade point average of at least 2.0 in the credit hours prescribed for the minor program.

Notes: 1. Departmental regulations are not intended to debar students from taking more than the required courses in the subject of their Major.
       2. Students who have taken courses in the subject of their Major at another university are required to complete at least 12 credit hours in courses from that subject at this University.
       3. The former Science 2010/2011 may be used to fulfill in part the requirement of 78 credit hours in Science.
       4. Biology 2120 may not be used for credit by Biology Majors.
       5. When Science course equivalents have been established by Department Heads for Engineering courses, credit may not be obtained for both the Engineering course and the established equivalent course offered by the Faculty of Science.
       6. In the case of Biochemistry the courses for the Biochemistry program shall include Chemistry 2400 and 2401.

6.5 Regulations for the Honours Degree of Bachelor of Science

A program is offered leading to the Honours Degree of Bachelor of Science. An Honours degree offers greater specialization in a given field of knowledge than a General degree, and requires higher than average academic achievement. Possession of this degree will be of great advantage to all students planning more advanced work in their chosen field. In many cases, an Honours degree is a prerequisite for admission to a graduate program.

6.5.1 Admission and Registration

1. A student who wishes to be admitted to any of the Honours programs must submit an "Application for Admission to Honours Program Faculties of Arts or Science". This form is available at www.mun.ca/regoff/Application_for_Admission_to_Honours.pdf. This form shall be submitted to his (her) Department(s) of specialization and to the Registrar not earlier than the beginning of his (her) fifth semester, or the equivalent, at University, and not later than the final date set for the application for a degree. A candidate for an Honours degree must have completed all courses listed under Admission to the Department of Subject of Major before declaring his (her) intent to pursue an Honours degree, regardless of whether these courses had been completed at the time of admission to his (her) Department of specialization.

Note: An otherwise qualified student who fails to declare his (her) intention to obtain an Honours degree on or before the last day of the period outlined above shall be awarded a General degree even if he (she) fulfills all other requirements for an Honours degree. The University cannot undertake to notify him (her) that he (she) may be eligible for an Honours degree.

2. At the beginning of each registration period the Head(s), or delegate(s), of the Department(s) in which a candidate is taking Honours, shall approve a candidate's program. The Head(s) of Department(s), or delegate(s), shall advise each candidate of programs suitable for his or her particular needs.

3. Students who have been awarded a Bachelor of Science (General) degree may convert it to a Bachelor of Science (Honours) degree by declaring their intention and by completing the requirements for the Honours degree as outlined in these regulations.

4. To graduate, a candidate for an Honours degree must have completed all courses listed under Admission to the Department of Subject of Major in addition to those courses required by individual departmental regulations.

6.5.2 Course Requirements

1. a. For the Honours Degree of Bachelor of Science with a single subject major a candidate will be required to have completed 120 prescribed credit hours in courses. For the Joint Honours Degree of Bachelor of Science a candidate will be required to have completed either 120 or 135 credit hours as prescribed by the specific program. In either case, those courses must include the courses specified in Clause 1. of the Regulations for the General Degree of Bachelor of Science.
   b. Clause 1.a. notwithstanding, certain Departmental regulations preclude the possibility of completing a single subject Honours degree in 120 credit hours and may require the completion of 123, 126 or 129 credit hours in courses. (See Note below). In such cases all courses required to satisfy requirements of the degree will be used to determine Academic Standing. 2. below.

Note: The requirements for an Honours Degree of Bachelor of Science cannot be completed in 120 credit hours if any of the following three statements is true: (1) the student is a major in Chemistry, or Physics and has completed the former Mathematics 1080; (2) the student is a major in Chemistry or Physics and has completed the former Chemistry 1800; (3) the student is a candidate for the Honours B.Sc degree in Chemistry or Physics and has completed Physics 1021. Such students will only meet the degree requirements after completing 123, 126 or 129 credit hours in courses.

2. Courses shall be chosen so that a candidate shall have completed:

   Either, (1) at least 60 credit hours from courses in one of the following subjects, including the courses in that subject completed at the first year level: Biology, Biochemistry, Chemistry, Computer Science, Earth Sciences, Economics, Geography, Mathematics and Statistics, Physics and Psychology.

Notes: 1. For options in the Biochemistry and Nutrition programs the courses shall be those specified in the respective programs.
       2. For the Behavioural Neuroscience Program, the courses shall be those specified in the program.
3. For the Environmental Physics Program, the courses shall be those specified in the program.

or, (2) at least 84 credit hours in courses from two subjects listed in (1) above, including the courses in these subjects completed at the first year level, with no fewer than 36 credit hours in either subject approved by the Committee on Undergraduate Studies of the Faculty of Science on the recommendation of the respective Heads of Departments.

or, (3) in special circumstances, a program of at least 90 credit hours in courses from two or more subjects, including the courses in these subjects completed at the first year level, one of which need not be taken from those listed in I. above, as recommended by the Heads of the Departments concerned and approved by the Committee on Undergraduate Studies of the Faculty of Science.

3. Further courses may be chosen from any of the subjects listed in Clause 2. above, or from other courses recognized for this purpose by the Committee on Undergraduate Studies of the Faculty of Science (see Note 5 of the Bachelor of Science General Degree) provided that, of the 120 or more credit hours required:

   a. a candidate shall have completed at least 90 credit hours in courses from the subjects listed in Clause 2. above, including those completed at the first-year level, and

   b. there shall be no fewer than four subjects in which a candidate shall have completed courses. In the case of unspecified transfer credits awarded in a subject area not taught at Memorial University of Newfoundland, any number of such transfer credits in the aggregate shall count as one subject area.

   c. Not more than 15 unspecified transfer credit hours in courses awarded from a subject area not taught at Memorial University of Newfoundland shall be used to satisfy the requirements of the degree.

6.5.3 Comprehensive Examination and Dissertation

1. In addition to the regular examinations, a candidate in an Honours program shall pass a general comprehensive examination in his (her) Major subject or subjects. Alternatively, a candidate may be required to submit a dissertation, which at the discretion of the Head(s) of the Department(s) of specialization may be followed by an oral examination thereon.

2. If a candidate is required to submit a dissertation, such dissertation must be submitted to the University Library before the degree is conferred. All Honours dissertations in the University Library shall be available for unrestricted consultation by students and faculty except under very exceptional circumstances which must be approved by the head of the academic unit of the student’s program. Copyright remains with the author. A release form, signed by both the student and the head of the academic unit of the student’s program, must accompany an essay or a dissertation when it is submitted to the University Library.

3. The deadline for the submission of Honours dissertations shall be no later than three weeks before the end of the final semester of the candidate’s program.

4. The Honours dissertation shall be equivalent to either a 3 credit hour course or a 6 credit hour linked course as specified in the course offerings of each Department.

6.5.4 Departmental Regulations

Candidates for Honours Degrees shall also comply with such additional requirements of the appropriate Department(s) as are approved by the Senate and printed in the Calendar.

6.5.5 Residence Requirements

1. To qualify for an Honours Degree in Science, a candidate shall attend a recognized university or an equivalent institution for at least seven semesters as a full-time student. Honours candidates transferring credits to Memorial University of Newfoundland from other universities or equivalent institutions shall either spend a minimum of four of the seven semesters as full-time students at Memorial University of Newfoundland, and take a minimum of 24 credit hours in courses from their Honours discipline as full-time students at Memorial University of Newfoundland (whichever is to their advantage), provided that the total number of semesters spent as full-time students at this and other recognized universities or equivalent institutions will not be less than seven.

2. To qualify for an Honours Degree in Science and additionally a second degree, a candidate shall attend this University for at least ten semesters as a full-time student, except with the special permission of the Faculty Committee on Undergraduate Studies.

6.5.6 Academic Standing

In order to graduate with an Honours degree, a candidate shall obtain:

1. a grade of “B” or better, OR an average of 75% or higher (whichever is to the candidate’s advantage) in the minimum number of courses in the Honours subject (or subjects) prescribed by the Department (or, in the case of joint Honours, Departments) concerned, excluding the 1000-level courses, and

2. an average of at least 2.75 points on the total number of courses required for the degree (see UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate), Grading for explanation of the point system).

Note: A student may, with the approval of the Head of the Department and the Committee on Undergraduate Studies, repeat or substitute up to three courses in order to meet the requirements of Clause 1. above. In counting repeats, each attempt at the same course will count as one course towards the maximum. That is, the same course, repeated three times, would place a student at the maximum and no additional repeats or substitutions would be allowed.

6.5.7 Classification of Degrees

1. If the candidate’s general average is 3.25 or better per required course, and his (her) average for the courses in his (her) Honours subject (excluding 1000-level courses) is 3.50 or better, he (she) shall be awarded an Honours degree with First Class standing.

2. If the candidate fulfills the conditions outlined under Academic Standing but not of Clause 1. above., he (she) shall be awarded an Honours degree with Second Class standing.

3. No classification will be given to the degree awarded a candidate who has completed (1) fewer than one half of the courses required for the degree at this University, or (2) who has completed fewer than one half of the courses required for the degree at this University since 1959. All candidates for such degrees shall, however, fulfill the conditions outlined under Academic Standing on the courses taken at the University since September, 1959, in order to qualify for the degree.

4. A declared candidate for an Honours degree who fails to attain the academic standing specified under Academic Standing but fulfills the academic requirements for a General Degree shall be awarded a General Degree, the classification of which shall be determined in accordance with the UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate), Graduation.
7 Waiver of Regulations for Undergraduate Students
Where circumstances warrant, any prerequisite or prerequisites listed in Departmental Regulations may be waived by the Head of the Department. Any Department Regulations may be waived by the appropriate Committee on Undergraduate Studies upon request of the Head of the Department concerned.

Students wishing waiver of University academic regulations should refer to UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate) - Waiver of Regulations.

8 Appeal of Decisions
Any student whose request for waiver of Faculty regulations has been denied has the right to appeal. For further information refer to UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate) - Appeal of Decisions.

9 Program Regulations

9.1 Biochemistry
www.mun.ca/biochem
The following undergraduate programs are available in the Department:
1. Biochemistry and Cell Biology/Microbiology Joint Honours
2. Biochemistry and Chemistry Joint Honours
3. Biochemistry and Physics Joint Honours
4. Biochemistry and Psychology (Behavioural Neuroscience Joint Honours)
5. Biochemistry (Nutrition) and Psychology (Behavioural Neuroscience) Joint Honours
6. Major or Honours in Biochemistry
7. Major or Honours in Nutrition
8. Minor in Biochemistry

Students who wish to enrol in any of these programs should plan their program well in advance so that they will have taken the appropriate prerequisites. Entry to a number of required courses is limited and will be determined by academic performance. Required courses should be taken in the year indicated by the course numbers so as to avoid timetable clashes and missing prerequisites which could prolong the time necessary to complete the program. Students are advised to consult with the Department at the earliest opportunity.

Candidates for the general and honours degrees in the programs above should refer to the Faculty of Science Degree Regulations for the General and Honours degrees of Bachelor of Science.

Candidates for a minor in Biochemistry should refer to the Regulations for the General Degree of Bachelor of Science, Clause 7.

Students who intend to pursue graduate studies should take the courses leading to the honours degree.

Biochemistry course descriptions are found at the end of the Faculty of Science section under Course Descriptions, Biochemistry.

Note: Supplementary examinations will be allowed in certain Biochemistry courses which have written final examinations. Students should refer to the Faculty of Science Degree Regulations for details.

9.1.1 Admission to Programs
Students who wish to declare a Major in Biochemistry or Biochemistry (Nutrition) or who wish to apply for Honours standing in any of our programs are strongly recommended to do so by May 31 in any year. Failure to apply by the recommended date may result in your application not being processed before your registration time. In addition, students who do not declare by this date may not be considered for departmental scholarships or other awards.

9.1.2 Major in Biochemistry
Entry to the Biochemistry Majors program is based on academic standing.
1. To be considered for admission to the program students must have at least 30 credit hours in courses and have successfully completed the following courses (or their equivalents) with a minimum overall average of 60%. In addition, students must be eligible for entry to Chemistry 2400.
   a. English 1080, 1110 (or equivalent)
   b. Chemistry 1050 and 1051 (or 1200 and 1001)
   c. Mathematics 1000, 1001 (or Mathematics 1090, 1000)
   d. Physics 1050 (or 1020), 1051 (or 1021), or Biology 1001, 1002
2. Required courses to complete the major:
   a. Biochemistry 2100, 2101, 3105, 3106, 3107, 3108.
   b. At least 12 credit hours in courses from Biochemistry 2600, 3203, 4012, 4013, 4014, 4015, 4200, 4201, 4230-4239.
   c. Medicine 310A/B or 6 credit hours from Biochemistry 4240-4249, Biology 2060, 3050, 3401, 3402, 3530, 4200, 4245, 4404, Chemistry 4201.
   d. Biology 1001 and 1002; Mathematics 1001; and Physics 1050 (or 1020), 1051 (or 1021) for those students who did not complete them in first year. (See Notes 2. and 3. below).
   e. Chemistry 1051 is a required course for the Major in Biochemistry and must normally be completed prior to entrance into 2nd year Chemistry and Biochemistry courses. Students who do not meet the requirements for entry into Chemistry 1050 from high school can first take Chemistry 1010 followed by Chemistry 1050 and 1051. It is strongly recommended that these students complete Chemistry 1051 prior to second year.
   f. Chemistry 2301 or Physics 2053; Chemistry 2400, 2401.
   g. One of Chemistry 2100, Environmental Sciences 3210, Environmental Sciences 3211.

Notes: 1. Students are required to complete at least 78 credit hours in Science courses for the General Degree.
3. Students are encouraged to choose a minor.

9.1.2.1 Honours Degree in Biochemistry

Students normally apply for an Honours program at the completion of their third year of studies. Honours students would normally follow the Biochemistry Majors program before applying to honours, and must meet its admissions requirements as follows:

1. To be considered for admission to the majors program prior to admission to honours, students must have at least 30 credit hours in courses and have successfully completed the following courses (or their equivalents) with a minimum overall average of 60%. In addition, students must be eligible for entry to Chemistry 2400.
   a. English 1080, 1110 (or equivalent)
   b. Chemistry 1050 and 1051 (or 1200 and 1001)
   c. Mathematics 1000, 1001 (or Mathematics 1090, 1000)
   d. Physics 1050 (or 1020), 1051 (or 1021), or Biology 1001, 1002

2. To be eligible for admission, students must be in Honours standing. To be considered for early admission to an Honours program in Biochemistry at the end of second year, students must have achieved at least 70% in each of Biochemistry 2100 and 2101 and Chemistry 2400, 2401.

3. Required courses:
   a. Biochemistry 2100, 2101, 3105, 3106, 3107, 3108, 4102, 499A, 499B, Medicine 310A/B.
   b. Biochemistry 4210 or 4211.
   c. Twelve credit hours in courses from Biochemistry 4002, 4101, 4103, 4104, 4105, 4200, 4201, 4230-4239.
   d. At least 6 credit hours in courses from Biochemistry 2600, 3203, 4220, 4240-4249, Biology 2060, 3050, 3530, 4200, 4245, 4404, Chemistry 4201.
   e. Biology 1001 and 1002; Mathematics 1001; and Physics 1050 (or 1020), 1051 (or 1021), for those students who did not complete them in first year. (See Notes 1. and 2. below).
   f. Chemistry 1051 is a required course for the major in Biochemistry and must normally be completed prior to entrance into Chemistry 2400. Students who do not meet the requirements for entry into Chemistry 1050 from high school can take Chemistry 1010 followed by Chemistry 1050 and 1051. It is strongly recommended that these students complete Chemistry 1051 prior to second year.
   g. Chemistry 2301 or Physics 2053, Chemistry 2400, 2401, one of Chemistry 3410 or 3411.
   h. One of Chemistry 2100, Chemistry 3500, Environmental Sciences 3210, Environmental Sciences 3211.
   i. Statistics 2550 or equivalent

4. Students are encouraged to choose a minor.

Those courses in which a grade "B" or an average of 75% or higher are required, as specified under Academic Standing, clause 1. of the Regulations for the Honours Degree of Bachelor of Science, are 45 credit hours in Biochemistry courses and 15 credit hours in other courses (beyond the 1000-level) chosen from Biochemistry, Biology, or Chemistry. Students taking Mathematics 1000 should take Physics 1050 as their first Physics course. Students taking Mathematics 1090 should take Physics 1051 prior to second year.

For the purposes of a Biochemistry degree, Medicine 310A/B count as Biochemistry courses.

2. It is recommended that students who wish to pursue future studies in biophysics or related fields or who are considering postgraduate health professional programs take Physics 1050 as their first Physics course.

3. Students taking Mathematics 1000 should take Physics 1050 as their first Physics course.

Students taking Mathematics 1090 should take Physics 1051 prior to second year.

For the purposes of a Biochemistry minor, Medicine 310A/B count as Biochemistry courses.

4. For the purposes of a Biochemistry degree, Medicine 310A/B count as Biochemistry courses.

3. Students are encouraged to choose a minor.

9.1.2.2 Minor in Biochemistry

Students who take a minor in Biochemistry will complete:

1. Biochemistry 2101, 3106

2. One of Biochemistry 2100, 2600, Biology 2250.

3. Nine credit hours in Biochemistry at the third or fourth year level; or 6 credit hours in Biochemistry at the third or fourth year level and Biology 3050.

4. Either Chemistry 2400, 2401 or Chemistry 2440 and 3 additional credit hours from the Biochemistry courses listed in 3. above.

Course prerequisites stipulated in the course descriptions shall apply to a minor in Biochemistry.

Note: For the purposes of a Biochemistry minor, Medicine 310A/B count as Biochemistry courses.

9.1.3 Nutrition Program

9.1.3.1 Major in Nutrition

Entry to the Nutrition majors program is based on academic standing.

1. To be considered for admission to the program students must have at least 30 credit hours in courses and have successfully completed the following courses (or their equivalents) with a minimum overall average of 60%.
   a. English 1080, 1110 (or equivalent)
   b. Chemistry 1050, 1051 (or Chemistry 1010, 1011 or 1200, 1001)
   c. Mathematics 1090, 1000 (or Mathematics 1000 and one elective)
   d. Biology 1001, 1002 or Physics 1020, 1021 (or equivalent)

2. Required courses to complete the major:
   a. Biochemistry 2000 or 2005, 2100, 2101, 2600, 3106, 3203, 3402, 4300, 4301, Medicine 310A/B
   b. Six credit hours in courses from Biochemistry 3052, 3107, 3108, 3202, 3600, 4002, 4101, 4103, 4104, 4105, 4200, 4201, 4230-4249, Biology 3050.
c. Biology 1001 and 1002; and Physics 1020 and 1021 (or equivalent), for those students who did not complete them in first year

d. Chemistry 2440 (or Chemistry 2400, 2401)

e. Statistics 2550 or equivalent

3. Students are encouraged to choose a minor.

Notes: 1. Students are required to complete at least 78 credit hours in Science courses for the General Degree.
2. Students who choose to complete Chemistry 2400/2401 are advised to take the appropriate prerequisites for those courses.
3. For the purposes of a Biochemistry (Nutrition) degree, Medicine 310A/B count as Biochemistry courses.

9.1.3.2 Honours Degree in Nutrition

Students normally should apply for an Honours program at the completion of their third year of studies. Honours students would normally follow the Biochemistry (Nutrition) Majors program before applying to honours, and must meet its admissions requirements as follows:

1. To be considered for admission to the majors program prior to admission to honours, students must have at least 30 credit hours in courses and have successfully completed the following courses (or their equivalents) with a minimum overall average of 60%:
   a. English 1080, 1110 (or equivalent)
   b. Chemistry 1050, 1051 (or Chemistry 1010, 1011, or 1200, 1001)
   c. Mathematics 1090, 1000 (or Mathematics 1000 and one elective)
   d. Biology 1001, 1002 or Physics 1020, 1021 (or equivalent)

2. To be eligible for admission to the honours program, students must be in Honours standing. To be considered for early admission to an Honours program in Nutrition at the end of second year, students must have achieved at least 70% in each of their required 2000 level Biochemistry and Chemistry courses.

3. Required courses:
   b. Twelve additional credit hours chosen from Biochemistry 3052, 3105, 3108, 3202, 4101, 4103, 4104, 4105, 4200, 4201, 4210, 4211, 4220, 4230-4249, Biology 3050.
   c. Biology 1001 and 1002; and Physics 1020 and 1021 (or equivalent), for those students who did not complete them in first year.
   d. Chemistry 2440 (or Chemistry 2400, 2401).
   e. Statistics 2550 or equivalent.

4. Students are encouraged to choose a minor.

5. Those courses in which the grades specified under Academic Standing, clause 1 of the Regulations for the Honours Degree of Bachelor of Science are 60 credit hours chosen from Biochemistry courses and Biology 3050.

9.2 Biology

www.mun.ca/biology

The following undergraduate programs are available in the Department:

1. Biochemistry and Cell Biology Joint Honours
2. Biology and Earth Sciences (Geology) Joint Honours
3. Biology and Psychology Joint Honours
4. Biology and Psychology (Behavioural Neuroscience) Joint Honours
5. Biology and Statistics Joint Honours
6. Major or Honours in Biology
7. Major or Honours, or Major (Co-operative) or Honours (Co-operative), in Biology (Cell and Molecular)
8. Major or Honours, or Major (Co-operative) or Honours (Co-operative), in Biology (Ecology and Conservation)
9. Major or Honours, or Major (Co-operative) or Honours (Co-operative), in Biology (Marine)
10. Minor in Biology

Details of joint programs are given after the Regulations for the Honours Degree of Bachelor of Science.

Biology course descriptions are found at the end of the Faculty of Science section under Course Descriptions, Biology.

9.2.1 Entrance Requirements

Entry to the Biology Majors Program is competitive and based on academic standing.

To be considered for admission to the program students must have completed Biology 1001/1002 with an average of at least 65%. In addition, applicants will normally have completed the following courses (or their equivalents) and must have a minimum overall average of 60% in these courses.

1. English 1080, 1110 or equivalent
2. Mathematics 1090 and Mathematics 1000 (or Mathematics 1000 only)
3. Chemistry 1010/1011 (or equivalent) or Physics 1020/1021 (or equivalent)
4. If Mathematics 1000 taken, any one other first year course.

Chemistry 1010/1011 (or 1050/1051) should be taken in the first year, as it is a prerequisite for other required courses in the programs, and delaying chemistry until second year may make it difficult to complete the program in the normal eight semesters.

9.2.2 Minor in Biology

A minor in Biology will consist of 24 credit hours in Biology courses: 1001 and 1002 (or equivalent) plus any 18 credit hours chosen from the list of Biology courses except Biology 2040, 2041, 2120, and 3053. The choice of courses must be made in consultation with the Head of Biology or delegate and it is recommended (but not required) that students take at least two Biology courses at the 3000 level or
9.2.3 General Degrees

Each Major is assigned a faculty advisor who should be consulted on academic problems, including course selection.

9.2.3.1 Major in Biology

All students majoring in Biology are required to complete a minimum of 45 credit hours in courses from the Department of Biology offering. Those 45 credit hours must include: Biology 1001 and 1002 or their equivalents; the 15 credit hours in core courses listed below; and 24 credit hours in Biology electives at the 2000, 3000 or 4000 level.

Biology Core (15 credit hours): Biology 2060, 2250, 2600, 2900, plus one of Biology 3401, 3402, 4245 and 4404.

A maximum of 9 credit hours can be in Biology courses with no associated laboratory/seminar.

All majors must also successfully complete the following courses or their equivalents:

1. English 1080 and 1110 (or equivalent)
2. Physics 1020 and 1021 (or equivalent)
3. Mathematics 1000
4. Chemistry 1010 and 1011 (or equivalent), Chemistry 2440
5. Statistics 2550
6. Biochemistry 2101 and 3106
7. Extra Science courses as necessary to fulfill the requirement for 78 credit hours in Science as stipulated in Clause 3.a. of the Regulations for the General Degree of Bachelor of Science.

It is recommended, but not required, that a Computer Science course be included and the Department of Biology strongly recommends Computer Science 2650.

Note: To minimize timetabling problems, students on the St. John's campus are advised to take Biology 2250 and 2600 in their third semester (Fall), and 2060 and 2900 in their fourth semester (Winter).

9.2.3.2 Major in Biology (Cell and Molecular)

All students majoring in Biology (Cell and Molecular) are required to complete a minimum of 45 credit hours in courses from the Department of Biology offering. Those 45 credit hours must include: Biology 1001 and 1002 or their equivalents; the 15 credit hours in core courses listed below; Biology 3530 and 4241; 6 credit hours from the recommended Biology courses for Biology (Cell and Molecular) listed below; and 12 credit hours from Biology electives at the 2000, 3000 or 4000 level.

Biology Core (15 credit hours): Biology 2060, 2250, 2600, 2900, plus one of Biology 3401, 3402, 4245 and 4404.

Recommended Biology courses for Biology (Cell and Molecular) are 3050, 3052, 3401, 3402, 3500, 3620, 3950, 3951, 4010, 4040, 4050, 4200, 4245, 4250, 4251, 4255, 4404, 4550, 4605, and 4607.

A maximum of 9 credit hours can be in Biology courses with no associated laboratory/seminar.

All majors must also successfully complete the following courses or their equivalents:

1. English 1080 and 1110 (or equivalent)
2. Physics 1020 and 1021 (or equivalent)
3. Mathematics 1000
4. Chemistry 1010 and 1011 (or equivalent), Chemistry 2440
5. Statistics 2550
6. Biochemistry 2101 and 3106
7. Extra Science courses as necessary to fulfill the requirement for 78 credit hours in Science as stipulated in Clause 3.a. of the Regulations for the General Degree of Bachelor of Science.

It is recommended, but not required, that a Computer Science course be included and the Department of Biology strongly recommends Computer Science 2650.

Note: To minimize timetabling problems, students on the St. John's campus are advised to take Biology 2250 and 2600 in their third semester (Fall), and 2060 and 2900 in their fourth semester (Winter).

9.2.3.3 Major in Biology (Ecology and Conservation)

All students majoring in Biology (Ecology and Conservation) are required to complete a minimum of 45 credit hours in courses from the Department of Biology offering. Those 45 credit hours must include: Biology 1001 and 1002 or their equivalents; the 15 credit hours in core courses listed below; Biology 4650 and 4651; 6 credit hours from the recommended Biology courses for Biology (Ecology and Conservation) listed below; and 12 credit hours from Biology electives at the 2000, 3000 or 4000 level.

Biology Core (15 credit hours): Biology 2060, 2250, 2600, 2900, plus one of Biology 3401, 3402, 4245 and 4404.

Recommended Biology courses for Biology (Ecology and Conservation) are 3041, 3050, 3295, 3300, 3610, 3620, 3640, 3709, 3710, 3711, 3714, 3715, 3750, 4040, 4141, 4180, 4182, 4250, 4306, 4307, 4360, 4405, 4505, 4605, 4607, 4620, 4630, 4701, 4710, 4750, and 4820.

A maximum of 9 credit hours can be in Biology courses with no associated laboratory/seminar.

All majors must also successfully complete the following courses or their equivalents:

1. English 1080 and 1110 (or equivalent)
2. Physics 1020 and 1021 (or equivalent)
3. Mathematics 1000
4. Chemistry 1010 and 1011 (or equivalent), Chemistry 2440
5. Statistics 2550
6. Biochemistry 2101 and 3106
7. Extra Science courses as necessary to fulfill the requirement for 78 credit hours in Science as stipulated in Clause 3.a. of the Regulations for the General Degree of Bachelor of Science.
It is recommended, but not required, that a Computer Science course be included and the Department of Biology strongly recommends Computer Science 2650.

Note: To minimize timetabling problems, students on the St. John's campus are advised to take Biology 2250 and 2600 in their third semester (Fall), and 2060 and 2900 in their fourth semester (Winter).

9.2.3.4 Major in Biology (Marine)

All students majoring in Biology (Marine) are required to complete a minimum of 45 credit hours in courses from the Department of Biology, of which 45 credit hours must include: Biology 1001 and 1002 or their equivalents; the 15 credit hours in core courses listed below; Biology 3710 and 3711: 6 credit hours from the recommended Biology courses for Biology (Marine) listed below; and 12 credit hours from Biology electives at the 2000, 3000 or 4000 level.

Biology Core (15 credit hours): Biology 2060, 2250, 2600, 2900, plus one of Biology 3401, 3402, 4245 and 4404.

Recommended Biology courses for Biology (Marine) are 3014, 3050, 3295, 3620, 3640, 3709, 3712, 3714, 3715, 3951, 4122, 4141, 4182, 4360, 4601, 4605, 4607, 4620, 4630, 4710, 4750, 4810, 4912.

A maximum of 9 credit hours can be in Biology courses with no associated laboratory/seminar.

All majors must also successfully complete the following courses or their equivalents:

1. English 1080 and 1110 (or equivalent)
2. Physics 1020 and 1021 (or equivalent)
3. Mathematics 1000
4. Chemistry 1010 and 1011 (or equivalent), Chemistry 2440
5. Statistics 2550
6. Biochemistry 2101 and 3106
7. Extra Science courses as necessary to fulfill the requirement for 78 credit hours in Science as stipulated in Clause 3.a. of the Regulations for the General Degree of Bachelor of Science.

Note: To minimize timetabling problems, students on the St. John's campus are advised to take Biology 2250 and 2600 in their third semester (Fall), and 2060 and 2900 in their fourth semester (Winter).

9.2.3.5 Major in Biology (Co-operative) Program (BCOP)

This program is available to full-time Biology majors only. The Biology (Co-operative) Program (BCOP) provides an opportunity for students to learn valuable practical skills while working in fields related to Biology. Students complete three Work Terms, which consist of full-time paid employment in the field of Biology of at least 12 weeks in duration. The timing of the Work Terms is such that employers stand to gain from the acquired skills of biology majors in training. The objectives of the Work Term component of the BCOP are embodied in the Work Term descriptions found at the end of the Faculty of Science section under Course Descriptions, Biology, Work Term Descriptions.

1. Admission Requirements
   a. Admission is limited, competitive, and selective.
   b. The primary criterion used in reaching decisions on applications for admission is overall academic achievement.
   c. A student must first be admitted to the Biology Major.
   d. Application deadline: November 15 for the following Spring semester work term (normally the third semester in year two).
   e. To be admitted to the program, a student must have completed the second year Biology Core, with an overall average of at least 65%, and an overall average of at least 65% in all Biology courses. A student must have an overall average of 65% in all other required courses, and must be registered for 15 credit hours in the semester in which application is made.

2. Program of Study
   a. In addition to the requirements below, a student must fulfill all requirements for one of a Major in Biology; Major in Biology (Cell and Molecular); Major in Biology (Ecology and Conservation); Major in Biology (Marine); Honours in Biology; Honours in Biology (Cell and Molecular); Honours in Biology (Ecology and Conservation); or Honours in Biology (Marine).
   b. To remain in BCOP, a student must receive a passing grade in all required courses, and must maintain an overall average of at least 65% in all Biology courses and an overall average of at least 65% in all courses, including electives. A student who fails a required course, fails to maintain an overall average of 65% in Biology courses, or fails to maintain an overall average of 65%, will be required to withdraw from BCOP. The student in question may apply for readmission in a subsequent year after passing the specified required course(s) previously failed, or re-establishing the required average.
   c. A student is required to complete three work terms, one of which must be either in the Fall or Winter semester.

3. Work Term Placement
   a. General management of the work terms in BCOP is the responsibility of Co-operative Education. Co-operative Education is responsible for assisting potential employers to become involved in the program, organizing competitions for Work Term employment, arranging student-employer interviews and facilities, data base management, and for the continual development of employment opportunities. Co-operative Education will work with the Biology Co-op Liaison to counsel students, visit students on work assignments and evaluate the work term.
   b. Work placement is not guaranteed but every effort is made to ensure that appropriate employment is made available. In the case of students who are required to withdraw from the program, Co-operative Education has no responsibility for placement until they have been readmitted to the program.
   c. A student who is admitted to the co-op program gives permission to the University to provide a copy of the applicant’s resume, university transcript and work term evaluations to potential employers.
   d. A student who has been accepted to BCOP may obtain his/her own work term placement outside the competition. Such employment positions must be confirmed by the employer, and must be approved by the DCE coordinator and the Biology Department Liaison.
   e. Within a month after starting a Work Term, a student must submit a proposal for the work term report.
   f. Salaries paid to co-operative students are determined by employers based on their internal wage structures.
4. Registration and Evaluation of Performance

a. In Work Terms I, II, and III, a student must register for Biology 199W, 299W, and 399W respectively.

b. Student performance evaluations are to be completed by the employer and returned to Co-operative Education. The Work Term evaluations shall consist of two components:

i. On-the-job Student Performance:

Job performance shall be assessed by Co-operative Education in consultation with the department using information gathered during the Work Term and input from the employer towards the end of the Work Term. Formal written documentation from the employer shall be sought. Evaluation of the job performance will result in one of the following classifications: OUTSTANDING, ABOVE EXPECTATIONS, SATISFACTORY, MARGINAL PASS, FAIL.

ii. The Work Report:

- A student is required to submit a Work Term report to Co-operative Education on the first day of final exams in the semester of the Work Term
- Work Term reports shall be evaluated by a faculty member and Co-operative Education.
- If an employer designates a report to be of a confidential nature, both employer and Co-operative Education must agree as to the methods to protect the confidentiality of such a report before the report may be accepted for evaluation.
- Reports must contain original work related to the Work Term placement. The topic must relate to the work experience and will be chosen by the student in consultation with the employer. The topic must be approved by the coordinator and the Biology Co-op Liaison.

Evaluation of the work term will result in one of the following classifications: OUTSTANDING, ABOVE EXPECTATIONS, SATISFACTORY, MARGINAL PASS, FAIL.

The evaluation of the job performance and the work term report are recorded separately on the transcript. Overall evaluation of the work term will result in one of the following final grades being awarded:

- Pass with Distinction: Indicates OUTSTANDING PERFORMANCE in both the work report and the job performance.
- Pass: Indicates that PERFORMANCE MEETS EXPECTATIONS in both the work report and the job performance.
- Fail: Indicates Failing PERFORMANCE in the work report or the job performance, or both. To remain in BCOP, a student must obtain a final grade of Pass or higher.

c. If a student fails to achieve the Work Term standards specified above, the student will be required to withdraw from BCOP. Such a student may reapply to the program, at which time the student will be required to repeat the Work Term with satisfactory performance. Only one Work Term may be repeated in the entire program.

d. In order to be considered for readmission, a student must formally apply for readmission to the program not later than the deadline date outlined under Admission Requirements above.

e. A student who withdraws from a Work Term without acceptable cause subsequent to a job placement will be required to withdraw permanently from BCOP.

f. A student who drops a Work Term without prior approval from both Co-operative Education and the Biology Co-op Liaison, or who fails to honour an agreement to work with an employer, or conducts him/herself in such a manner as to cause the discharge from the job, will be awarded an overall grade of FAIL for the Work Term in question and will be required to withdraw permanently from BCOP.

g. Permission to drop a Work Term does not constitute a waiver of degree requirements, and a student who has obtained such permission must complete an approved Work Term in lieu of the one dropped.

9.2.4 Honours Degrees

The attention of students wishing to take Honours is called to those sections of the Calendar dealing with Regulations for the Degree of Bachelor of Science (Honours).

Sixty-nine credit hours in courses, including the 6 first year credit hours and the 15 required core credit hours outlined in the regulations for the General Degree, and the Honours Dissertation (Biology 499A/499B), shall be taken from the Department of Biology offering. Students may elect to complete an Honours Program in Biology or in one of the joint Honours Programs listed under the heading "Programs in Biology". Programs of students taking Honours shall be drawn up in consultation with the student's supervisor, and must be approved by the Head of the Department (or his/her delegate) in accordance with Admission and Registration, clause 2. of the Regulations for the Honours Degree of Bachelor of Science.

Note: Some Graduate Courses may be taken in the final year of the Honours Program with the permission of the Head of the Department and the course instructor.

A dissertation (6 credit hours) is to be presented on some original piece of work undertaken by the candidate, under the guidance of a faculty member of the department, as appointed by the Head of Department. For students electing to take one of the Joint Honours Programs, the dissertation shall be on a topic representative of the selected program. The Department of Biology considers the dissertation to be an important part of the Honours Program.

The dissertation will be based on a 6 credit hours course (Biology 499A/499B). It will involve directed reading relevant to the dissertation topic, preparation of a dissertation outline, supervised research, data synthesis and interpretation, and preparation and defence of the dissertation.

Two typed copies of the dissertation, complete with figures and tables, are to be submitted not less than two weeks before the end of lectures in the semester in which the candidate is registered for Biology 499B. These copies must be submitted to the Head of Department, and must have met the prior approval of the candidate's Honours supervisor.

Before the last day for examinations in the semester, the candidate will be examined orally on the contents of the dissertation. The examining committee shall consist of the Head of the Department, or delegate, the candidate's supervisor, and an examiner appointed by the Head of the Department in consultation with the candidate's supervisor.

9.2.5 Honours in Biology

An Honours degree in Biology may comprise a broadly based selection of courses according to the student's interests, or it may be more narrowly focussed. An Honours student may focus on any area of Biology where an appropriate supervisor can be found. All Honours students should choose courses in consultation with their supervisors, but it is particularly important that students wishing to focus within the Honours degree should discuss course selection with an Honours supervisor within their area of interest.
9.2.5.1 Biology Course Requirements
Students seeking an honours degree in Biology are required to successfully complete a minimum of 69 credit hours in courses from the Department of Biology offering. Those 69 credit hours must include:
1. Biology 1001 and 1002 or their equivalents;
2. 15 credit hours in the following core courses: Biology 2060, 2250, 2600, 2900, plus one of Biology 3401, 3402, 4245 or 4404;
3. 42 credit hours from Biology electives at the 2000, 3000 or 4000 level (except Biology 2040, 2041, 2120, and 3053) and Biology 499A and 499B.
4. A maximum of 9 credit hours can be in Biology courses with no associated laboratory/seminar.

9.2.5.2 Core Course Requirements
All honours students must also successfully complete the following courses or their equivalents:
1. English 1080 and 1110 (or equivalent)
2. Physics 1020 and 1021 (or equivalent)
3. Mathematics 1000
4. Chemistry 1010 and 1011 (or equivalent), Chemistry 2440
5. Statistics 2550
6. Biochemistry 2101 and 3106
7. Electives to make up 120 credit hours

To minimize timetabling problems, students on the St. John’s Campus are advised to take Biology 2250 and 2600 in their third semester (Fall), and Biology 2060 and 2900 in their fourth semester (Winter).

9.2.6 Honours in Cell and Molecular Biology
9.2.6.1 Cell and Molecular Biology Course Requirements
Students seeking an honours degree in Cell and Molecular Biology are required to complete a minimum of 69 credit hours in courses from the Department of Biology offering. Those 69 credit hours must include:
1. Biology 1001 and 1002 or their equivalents;
2. 15 credit hours in the following core courses: Biology 2060, 2250, 2600, 2900, plus one of Biology 3401, 3402, 4245 or 4404;
3. Biology 3530 and Biology 4241;
4. 12 credit hours from the following recommended Biology courses for Cell and Molecular Biology: Biology 3050, 3052, 3401, 3402, 3500, 3620, 3950, 3951, 4010, 4040, 4050, 4200, 4245, 4250, 4251, 4255, 4404, 4550, 4605, 4607; and
5. 24 credit hours in Biology electives at the 2000, 3000 or 4000 level (except Biology 2040, 2041, 2120, and 3053) and Biology 499A and 499B.
6. A maximum of 9 credit hours can be in Biology courses with no associated laboratory/seminar.

9.2.6.2 Core Course Requirements
All honours students must also successfully complete the following courses or their equivalents:
1. English 1080 and 1110 (or equivalent)
2. Physics 1020 and 1021 (or equivalent)
3. Mathematics 1000
4. Chemistry 1010 and 1011 (or equivalent), Chemistry 2440
5. Statistics 2550
6. Biochemistry 2101 and 3106
7. Electives to make up 120 credit hours

To minimize timetabling problems, students on the St. John’s Campus are advised to take Biology 2250 and 2600 in their third semester (Fall), and Biology 2060 and 2900 in their fourth semester (Winter).

9.2.7 Honours in Ecology and Conservation Biology
9.2.7.1 Ecology and Conservation Biology Course Requirements
Students seeking an honours degree in Ecology and Conservation Biology are required to complete a minimum of 69 credit hours in courses from the Department of Biology offering. Those 69 credit hours must include:
1. Biology 1001 and 1002 or their equivalents;
2. 15 credit hours in the following core courses: Biology 2060, 2250, 2600, 2900, plus one of Biology 3401, 3402, 4245 or 4404;
3. Biology 4650 and 4651;
4. 12 credit hours from the following recommended biology courses for Ecology and Conservation Biology: Biology 3041, 3050, 3295, 3300, 3610, 3620, 3640, 3709, 3710, 3714, 3715, 3755, 4040, 4141, 4182, 4250, 4306, 4307, 4360, 4405, 4505, 4605, 4607, 4620, 4630, 4701, 4710, 4750, 4820; and
5. 24 credit hours in Biology electives at the 2000, 3000 or 4000 level (except Biology 2040, 2041, 2120, and 3053) and Biology 499A and 499B.
6. A maximum of 9 credit hours can be in Biology courses with no associated laboratory/seminar.

9.2.7.2 Core Course Requirements
All honours students must also successfully complete the following courses or their equivalents:
1. English 1080 and 1110 (or equivalent)
2. Physics 1020 and 1021 (or equivalent)
3. Mathematics 1000
4. Chemistry 1010 and 1011 (or equivalent), Chemistry 2440
5. Statistics 2550
6. Biochemistry 2101 and 3106
7. Electives to make up 120 credit hours

To minimize timetabling problems, students on the St. John's Campus are advised to take Biology 2250 and 2600 in their third semester (Fall), and Biology 2060 and 2900 in their fourth semester (Winter).

9.2.8 Honours in Marine Biology

9.2.8.1 Marine Biology Course Requirements
Students seeking an honours degree in Marine Biology are required to complete a minimum of 69 credit hours in courses from the Department of Biology offering. Those 69 credit hours must include:
1. Biology 1001 and 1002 or their equivalents;
2. 15 credit hours in the following core courses: Biology 2060, 2250, 2600, 2900, plus one of Biology 3401, 3402, 4245 or 4404;
3. Biology 3710 and 3711;
4. 12 credit hours from the following recommended biology courses for Marine Biology: Biology 3014, 3050, 3295, 3620, 3640, 3709, 3712, 3714, 3715, 3851, 4122, 4141, 4182, 4360, 4601, 4605, 4607, 4620, 4630, 4710, 4750, 4810, 4912; and
5. 24 credit hours in Biology electives at the 3000, 4000 level (except Biology 2040, 2041, 2120, and 3053) and Biology 499A and 499B.
6. A maximum of 9 credit hours can be in Biology courses with no associated laboratory/seminar.

9.2.8.2 Core Course Requirements
All honours students must also successfully complete the following courses or their equivalents:
1. English 1080 and 1110 (or equivalent)
2. Physics 1020 and 1021 (or equivalent)
3. Mathematics 1000
4. Chemistry 1010 and 1011 (or equivalent), Chemistry 2440
5. Statistics 2550
6. Biochemistry 2101 and 3106
7. Electives to make up 120 credit hours

To minimize timetabling problems, students on the St. John’s Campus are advised to take Biology 2250 and 2600 in their third semester (Fall), and Biology 2060 and 2900 in their fourth semester (Winter).

9.2.9 Honours in Biology (Co-operative)

9.2.9.1 Admission Requirements
See Major in Biology (Co-operative).

9.2.9.2 Program of Study
1. In addition to the requirements below, a student must fulfill all requirements for either an Honours in Biology, Honours in Biology (Cell and Molecular), Honours in Biology (Ecology and Conservation), or Honours in Biology (Marine) as described under each specific program.
2. To remain in BCOP Honours, a student must receive a passing grade in all required courses, and must maintain an average of at least 65% in all Biology courses and an overall average of at least 70% in all courses, including electives.
3. A student is required to complete three work terms, one of which must be either in the Fall or Winter semester.

9.2.9.3 Work Term Placement
See Major in Biology (Co-operative).

9.2.9.4 Registration and Evaluation of Performance
See Major in Biology (Co-operative).

9.3 Chemistry

www.chem.mun.ca
The following undergraduate programs are available in the Department:
1. Applied Mathematics and Chemistry Joint Honours
2. Biochemistry and Chemistry Joint Honours
3. Chemistry and Earth Sciences Joint Honours
4. Chemistry and Physics Joint Honours
5. Major or Honours in Chemistry
6. Minor in Chemistry
7. Major or Honours in Computational Chemistry

The Major, Honours, and Joint Honours with Applied Mathematics, Biochemistry and Physics are accredited by the Canadian Society for Chemistry.
Details of joint programs are given under Joint Programs.
Chemistry course descriptions are found at the end of the Faculty of Science section under Course Descriptions, Chemistry.

9.3.1 Undergraduate Handbook
Additional information about the undergraduate program, individual courses and suggested timetables can be found in the Department of Chemistry Undergraduate Handbook which is available on the web at www.chem.mun.ca.

9.3.2 Faculty Advisors
Each student majoring in Chemistry will be assigned a Faculty Advisor who should be consulted on all academic matters. Individual programs must be drawn up in consultation with the advisor.

Note: Students who have obtained a grade of 3 or better on the Advanced Placement courses in Chemistry will normally be eligible for direct entry into Chemistry 1051 or second year courses. Such students must consult the Department before registration.

9.3.3 Minor in Chemistry
Candidates who take a minor in Chemistry will complete Chemistry 1050 and 1051 (or 1010, 1011 and the former 1031) (or 1200 and 1001), Chemistry 2100, 2210, 2301 or 2302, and 2400, and 6 credit hours in other chemistry courses at the 2000 level or above.

9.3.4 General Degree - Major in Chemistry
The courses required for a Major in Chemistry are:
1. Chemistry 1050 and 1051 (or 1010, 1011 and the former 1031) (or 1200 and 1001), 2100, 2210, 2301, 2302, 2400, 2401, 3110, 3210, 3211, 3303, 3410, 3411, and 3500.
2. Physics 1050 (or 1020 and 1021) and 1051.
Recommended courses: Biochemistry 2101, Mathematics 2051, Physics 2820 and/or 2750, and 6 credit hours in one of the following languages: French, German, or Russian.

Students considering declaring Chemistry as their Major are encouraged to contact either the Department Head or the Deputy Head (Undergraduate Studies).

9.3.5 Honours Degree in Chemistry
Students wishing to take Honours should consult those sections of the Calendar dealing with Regulations for the Honours Degree of Bachelor of Science. The Honours program in Chemistry consists of at least 63 credit hours in Chemistry courses. It is recommended that candidates also take groups of 18 or more credit hours in each of two other science subjects, normally Biochemistry, Biology, Earth Sciences, Physics, or Mathematics.

9.3.5.1 Required Courses
1. Chemistry 1050 and 1051 (or 1010, 1011 and the former 1031) (or 1200 and 1001), 2100, 2210, 2301, 2302, 2400, 2401, 3110, 3210, 3211, 3303, 3410, 3411, 3500, 490A/B and 12 credit hours selected from the remaining 4000-level Chemistry courses.
2. Physics 1050 and 1051 (or 1020 and 1021) and 1051.

9.3.5.2 Other Information
1. Those courses in which a grade of B or an average of 75% or higher are required, as specified in Regulations for the Honours Degree of Bachelor of Science, Academic Standing, clause a., are the courses beyond first year used to satisfy clause 1. under Required Courses above.
2. Recommended courses: Biochemistry 2100, Biochemistry 2101, Mathematics 2051, Physics 2820 and/or 2750.
3. A thesis based on a selected research topic carried out under the supervision of a member of the Department is to be submitted in the final year.
4. Chemistry 490A/B will normally require the equivalent of nine hours per week for two semesters. Registration in Chemistry 490A/B is restricted to those students who have honours standing. The Honours dissertation will be assessed by a committee comprising the supervisor and one other faculty member.
5. With approval of the Heads of the Chemistry and Biochemistry Departments prior to registration, a number of courses in Biochemistry may be substituted for a like number of Chemistry courses.
6. Six credit hours in one language are recommended: French, German or Russian should be selected in consultation with the Department Head.
7. Prospective Honours students in Chemistry in their first year should take
   a. Six credit hours in English.
   b. Chemistry 1050 and 1051 (or 1200 and 1001).
   c. Physics 1050 and 1051 or 1020 and 1021.
   d. Mathematics 1000 and 1001.
   e. Six credit hours in other courses.
8. Given appropriate circumstances the Honours Chemistry program may be completed in four years. Students should consult the Undergraduate Student Handbook for timetabling details.
9. Students completing first year requirements for any of Chemistry, Mathematics or Physics via the three course options (i.e. Chemistry 1010, 1050, 1051 (or 1010, 1011, and the former 1031), Mathematics 1090, 1000, 1001, Physics 1020, 1021, 1051) instead of the two course options (Chemistry 1050, 1051, Mathematics 1000, 1001, Physics 1050, 1051) will require the corresponding number of extra credits to obtain an Honours degree.
10. Arrangements for subsequent years will depend on the other science subjects being studied and should be made in consultation with the Faculty Advisor.
11. Certain advanced courses may only be offered in alternate years. Candidates therefore should consult the Head of the Department before registration.
12. Certain of the Graduate courses may be taken in the final year of the Honours Program with the permission of the Head of the Department.

13. Details of Joint Honours programs with Biochemistry, Earth Sciences, Mathematics and Physics are outlined under Joint Programs.

14. Details of the Environmental Science (Chemistry Stream) Major or Honours are outlined under the Grenfell Campus section of the Calendar.

9.3.6 General Degree - Major in Computational Chemistry

Students wishing to take a Major in Computational Chemistry should consult those regulations of the Calendar dealing with Regulations for the General Degree of Bachelor of Science.

9.3.6.1 Required Courses

1. Chemistry 1050 and 1051 (or 1010, 1011 and the former 1031) (or 1200 and 1001), 2100, 2210, 2301, 2302, 2400, 2401, 3210 or 3211, 3303, 4304, 4305.
2. Physics 1050 (or 1020 and 1021), 1051, and 2820.
3. Mathematics 1000, 1001, 2000, 2050, 2051, 2260 (or 3260), and 3202.
4. Computer Science 1510, 1710, and 2710.
5. Computer Science 2500 or 2711
6. Computer Science 3731 or Mathematics 3132.
7. English 1080 and English 1110 or equivalent.
8. A sufficient number of elective courses to bring the degree up to a total of 120 credit hours must also be completed.

9.3.6.2 Suggested Program of Study

Given appropriate circumstances the Major in Computational Chemistry program can be completed in four years. While students should consult the Undergraduate Handbook for further timetabling details, to complete the program in four years generally will require that students take the following courses in their first year:

1. English 1080 and English 1110 or equivalent.
2. Chemistry 1050 and 1051 (or 1010 and 1001).
3. Physics 1050 (or 1020 and 1021), and 1051.
4. Mathematics 1000 and 1001
5. Computer Science 1510 and 1710

9.3.7 Honours Degree in Computational Chemistry

Students wishing to take Honours in Computational Chemistry should consult those sections of the Calendar dealing with Regulations for the Honours Degree of Bachelor of Science. The Honours program in Computational Chemistry consists of a minimum of 39 credit hours in Chemistry, a minimum of 21 credit hours in Mathematics, a minimum of 15 credit hours in Physics, and a minimum of 15 credit hours in Computer Science. An additional 3 credit hours in recommended Biochemistry, Chemistry, Computer Science, Mathematics or Physics courses are also required in addition to the minimum credit hour requirements.

9.3.7.1 Required Courses

1. Chemistry 1050 and 1051 (or 1010, 1011 and the former 1031) (or 1200 and 1001), 2100, 2210, 2301, 2302, 2400, 2401, 3210 or 3211, 3303, 4304, 4305.
2. Physics 1050 (or 1020 and 1021), 1051, and 2820.
3. Mathematics 1000, 1001, 2000, 2050, 2051, 2260 (or 3260), and 3202.
4. Computer Science 1510, 1710, and 2710.
5. Computer Science 2500 or 2711
6. Computer Science 3731 or Mathematics 3132.
7. Chemistry 490A/B.
8. English 1080 and English 1110 or equivalent.
9. 3 additional credit hours in Biochemistry, Chemistry, Computer Science, Mathematics, or Physics at the 2000 level or above.
10. A sufficient number of elective courses to bring the degree up to a total of 120 credit hours must also be completed.

9.3.7.2 Suggested Program of Study

Given appropriate circumstances the Honours in Computational Chemistry program can be completed in four years. While students should consult the Undergraduate Handbook for further timetabling details, to complete the program in four years generally will require that students take the following courses in their first year:

1. English 1080 and English 1110 or equivalent.
2. Chemistry 1050 and 1051 (or 1010 and 1001).
3. Physics 1050 (or 1020 and 1021), and 1051.
4. Mathematics 1000 and 1001
5. Computer Science 1510 and 1710

9.3.7.3 Other Information

1. Those courses in which a grade of B or an average of 75% or higher are required, as specified in Regulations for the Honours Degree of Bachelor of Science, Academic Standing, are the courses beyond first year used to satisfy the required course list.
2. A thesis based on a selected research topic carried out under the supervision of a member of the Department is to be submitted in the final year.
3. Chemistry 490A/B will normally require the equivalent of nine hours per week for two semesters. Registration in Chemistry 490A/B is
restricted to those students who have honours standing. The Honours dissertation will be assessed by a committee comprising the supervisor and one other faculty member.

4. Students completing first year requirements for any of Chemistry, Mathematics or Physics via the three course options (i.e. Chemistry 1010, 1050 and 1051 or 1010, 1011, the former 1031, Mathematics 1090, 1000, 1001, Physics 1020, 1021, 1051) instead of the two course options (Chemistry 1050, 1051, Chemistry 1200, 1001, Mathematics 1000, 1001, Physics 1050, 1051) will require the corresponding number of extra credits to obtain an Honours degree.

5. Arrangements for subsequent years will depend on the other science subjects being studied and should be made in consultation with the Faculty Advisor.

6. Certain advanced courses may only be offered in alternate years. Candidates therefore should consult the Head of the Department before registration.

7. Certain of the Graduate courses may be taken in the final year of the Honours Program with the permission of the Head of the Department.

9.3.8 Course Restrictions

Students should be aware of a number of credit restrictions. For further information see the Chemistry course descriptions section found at the end of the Faculty of Science section under Course Descriptions, Chemistry.

9.4 Computer Science

The following undergraduate programs are available in the Department:
1. Applied Mathematics and Computer Science Joint Major (B.Sc. only)
2. Computer Internship Option (CIIO)
3. Computer Science Honours (B.A., B.Sc.)
4. Computer Science and Economics Joint Major (B.Sc. Only)
5. Computer Science and Geography Joint Honours (B.Sc. only)
6. Computer Science and Geography Joint Major (B.Sc. only)
7. Computer Science and Physics Joint Honours
8. Computer Science and Physics Joint Major
9. Computer Science and Pure Mathematics Joint Honours (B.Sc. only)
10. Computer Science and Pure Mathematics Joint Major (B.Sc. only)
11. Computer Science and Statistics Joint Honours
12. Computer Science and Statistics Joint Major (B.Sc. only)
13. Computer Science (Software Engineering) Honours (B.Sc. only)
14. Major in Computer Science (B.A., B.Sc.)
15. Minor in Computer Science (B.A., B.Sc.)

Details of our joint program offerings in the Faculties of Arts and Science may be found under the heading Joint Programs following the heading Regulations for the Honours Degree of Bachelor of Science.

Computer Science course descriptions are found at the end of the Faculty of Science section under Course Descriptions, Computer Science.

9.4.1 Major in Computer Science

1. Forty-five credit hours in Computer Science courses are required for a major in Computer Science:
   a. Computer Science 1710, 2710, 2711, 2742, 2760, 3715, 3716, 3719, 3724, 3725, 3754, and 4770.
   b. At least 6 additional credit hours at the 4000 level in Computer Science courses.
   c. Three additional credit hours in Computer Science courses at the 3000 level or beyond.

2. Additional courses required of the Majors are: Mathematics 2000, 2050, 2320, and Statistics 1510 or 2550.

Note: Students are encouraged to take Business 2000, Mathematics 3000, and Statistics 2560.

9.4.2 Honours in Computer Science

1. See Regulations for the Honours Degree of Bachelor of Arts or Regulations for the Honours Degree of Bachelor of Science (as appropriate).

2. Sixty-three credit hours in Computer Science courses are required for the Honours Degree in Computer Science, including:
   a. Computer Science 1710, 2710, 2711, 2742, 2760, 3715, 3716, 3719, 3724, 3725, 3754, 4770, and 4780.
   b. Eighteen additional credit hours in Computer Science at the 4000 level.
   c. Six additional credit hours in Computer Science courses at the 3000 level or beyond.

3. Additional courses required are: Mathematics 2000, 2050, 2320, and Statistics 1510 or 2550.

Note: Students are encouraged to take Business 2000, Mathematics 3000, and Statistics 2560.

9.4.3 Honours in Computer Science (Software Engineering) (B.Sc. Only)

Completion of the Honours in Computer Science (Software Engineering) Program does not qualify persons to hold the designation “Professional Engineer” as defined by various Provincial Acts governing the Engineering Profession.

1. See Regulations for the Honours Degree of Bachelor of Science.

2. Sixty-three credit hours in Computer Science courses are required for the Honours Degree in Computer Science (Software Engineering), including:
   a. Computer Science 1710, 2710, 2711, 2742, 2760, 3715, 3716, 3719, 3724, 3725, 3754, 4770, and 4780.
b. Six additional credit hours in Computer Science courses chosen from 4718, 4719, 4721, 4723, 4751, 4753, 4756, 4759, 4766, and 4768.

c. Twelve additional credit hours in Computer Science courses at the 4000 level.

d. Three additional credit hours in Computer Science courses at the 3000 level or beyond.

3. Additional courses required are: Mathematics 2000, 2050, 2320, and Statistics 1510 or 2550.

Note: The Honours project (4780) must be in the area of Software Engineering.

9.4.4 Computer Industry Internship Option (CIIO):

The Computer Industry Internship Option (CIIO) provides an opportunity for qualified students to obtain rewarding placements that help them develop practical skills in a real work setting before graduation. The CIIO is available to Computer Science Majors who will typically apply between their third and fourth year of studies.

9.4.4.1 Admission Requirements

In order to be considered for admission to the CIIO, an applicant:

1. must be a declared Computer Science Major;

2. must have successfully completed Computer Science 1710, 2710, 2711, 2742, 2760, 3716, and any two other core 3000-level computer science courses;

3. must have at least 15 credit hours remaining after the internship in order to satisfy degree requirements, 3 of which must be in Computer Science; and

4. is expected to return to University as a full-time student after the internship.

In addition to meeting the above applicants are also subject to academic performance.

9.4.4.2 Internship Duration:

Subject to the availability of job openings, a student may choose either an 8, 12 or 16 consecutive month internship period.

9.4.4.3 Internship Guidelines:

1. Internship employment is normally organized by Co-operative Education; however, students who have been accepted to the CIIO may also obtain their own internship placements. All placements are subject to the approval of Co-operative Education and of the Head of the Department of Computer Science.

2. Students who have applied to the internship program give permission to Co-operative Education to supply prospective employers with copies of their resume and transcript.

3. After being placed with an employer, students are not permitted to drop their internship without prior approval from Co-operative Education and the Head of the Department of Computer Science. Students who drop an internship without permission, who fail to honour an agreement to work with an employer, or who conduct themselves in such a manner as to cause their discharge from the placements, will normally be awarded a fail grade for the internship period and may not be permitted to reapply.

Note: Students should also refer to the UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate).

9.4.4.4 Expectation of Work

Within two weeks of starting the internship, students are required to submit a list of their internship objectives to Co-operative Education. They are also required to submit a report to Co-operative Education due the last day of classes of each semester in which they are working. A progress report is required in semesters where the internship is continuing into the next semester. The progress report need only discuss the activities in that particular semester. A final report is required in the student’s final internship semester. The final report must discuss the entire internship. Both reports will include a description of the student’s internship projects and activities as well as the student’s internship objectives and accomplishments. A completed Employer Evaluation Form should be submitted to Co-operative Education at the end of each semester.

9.4.4.5 Registration, Assessment of Performance, and Assignment of Grades:

Students must register for the course Computer Science 3700 every semester during their internship. Computer Science 3700 is a non-credit course open only to students who have been accepted into the Internship Program.

During the internship, the employer and intern will complete student performance evaluations every four months and will submit them to Co-operative Education. The final assessment of total work performed is the responsibility of Co-operative Education, and will be based upon both input from the employer and the intern’s final internship report.

The Internship evaluation shall consist of two components:

1. On-the-job Student Performance: Job performance shall be assessed by Co-operative Education in consultation with the Department using information gathered during the internship and input from the employer. Evaluation of the on-the-job student performance will result in one of the following classifications: PASS WITH DISTINCTION, PASS, FAIL.

2. The Final Internship Report: Evaluation of the final internship report will result in one of the following classifications: PASS WITH DISTINCTION, PASS, FAIL.

The evaluation of the on-the-job student performance and the final internship report are recorded separately on the transcript.

Overall evaluation of the internship will result in one of the following final grades being awarded:

1. PASS WITH DISTINCTION: indicates outstanding performance in both the final internship report and the on-the-job student performance. PASS WITH DISTINCTION has been awarded to each of the final internship report and the on-the-job student performance.

2. PASS: indicates that performance meets expectations in both the final internship report and on-the-job student performance. The student meets the requirements of a passing mark in the final internship report and the on-the-job student performance.

3. FAIL: indicates failing performance in either the final internship report or on-the-job student performance or both.

Also, the following will be noted in the transcript of the intern:

1. Requirements for the Computer Industry Internship Option have been completed. Internship Duration: - months.

2. A grade of NC (No Credit) for Computer Science 3700 will be awarded in all semesters of the Internship Option prior to the final Semester.
9.4.4.6 CIIO and Honours Program:
In case a student is enrolled in both the Honours program and the CIIO, the requirements of both must be met. Upon approval from the
honours project supervisor, within the Department, the employer and the Head of the Department of Computer Science, an internship
project may be submitted as a component of an honours project. These arrangements must be made within the first semester of the
Internship placement.

9.4.5 Minor in Computer Science
For a Minor in Computer Science, a student must complete at least 24 credit hours in Computer Science courses, including:
1. Computer Science 1710, 2710, 2711.
2. At least 6 credit hours selected from Computer Science 3715, 3716, 3719, 3724, 3725, and 3754.
3. Three additional credit hours at the 3000 level or above.

9.4.6 Course Numbering Scheme
There are five areas of Computer Science offered in the 3000- and 4000-level courses. The meaning of the third digit of a course
number is as follows:
- Programming Languages
- Computer Systems
- Numerical Computations
- Theoretical Aspects
- Applications (e.g., Artificial Intelligence, Computer Graphics, Data Base, Robotics, Computational Geometry, Image Processing,
  Computer Networking, Computer Aided Design)
7 - Project Course
8- Honours Project
9- Directed Readings

9.4.7 Supplementary Examinations
Supplementary examinations will be allowed in certain Computer Science courses which have written final examinations. Students
should refer to the Faculty of Science degree regulations for details.

9.4.8 Faculty Advisors
The Department has an Undergraduate Advisor for Computer Science majors to consult with on academic matters.

9.4.9 Undergraduate Handbook
Additional information about the undergraduate Computer Science programs and courses can be found in the Computer Science
Undergraduate Handbook available from the General Office, Department of Computer Science or from www.mun.ca/computerscience/.

9.5 Earth Sciences
www.mun.ca/earthsciences
The following undergraduate programs are available:

120 credit hour programs
1. Chemistry and Earth Sciences Joint Honours
2. Earth Sciences and Geography Joint Honours
3. Earth Sciences and Physics Joint Honours
4. Earth Sciences and Physics Joint Major
5. General or Honours degrees in Earth Sciences
6. Geophysics and Physical Oceanography Joint Honours

135 credit hour program
1. Biology and Earth Sciences Joint Honours

24 credit hour program
1. Minor in Earth Sciences

Although Honours programs can be completed in 120 credit hours, students who do not select the prescribed Common Block of
Required Courses will normally need more than 120 credit hours to satisfy degree requirements.

Earth Sciences course descriptions are found at the end of the Faculty of Science section under Course Descriptions, Earth
Sciences.

9.5.1 Undergraduate Handbook
Additional information about the undergraduate program, individual courses and suggested timetables can be found in the Department
of Earth Sciences Undergraduate Handbook which is available on the web at www.mun.ca/earthsciences.

9.5.2 Entrance Requirements
In order to be formally admitted to major programs in Earth Sciences, students must have successfully completed 3 first-year credit
hours in each of the following departments: English, Mathematics, Earth Sciences, Chemistry and Physics; these courses must be
selected from the list of required courses for degree programs in Earth Sciences. Students are encouraged to declare their major in their
first year of study at the university.

Most of the 2000 level Earth Sciences courses that are required for major and minor programs in Earth Sciences have Physics and
Chemistry prerequisites, and students are advised to complete these prerequisites in their first year of study.
9.5.3 Minor in Earth Sciences
A Minor in Earth Sciences will consist of the following:
1. Earth Sciences 1000 and 1002.
2. Eighteen credit hours chosen from Earth Sciences courses at the 2000 level or higher with at least 5 credit hours from courses at the 2000 level. Credit hours from Earth Sciences 2150, 2311, 2914, 2915, 2916, 2917, 2918, 4310 and 4950 cannot be used to fulfill this requirement.

Due to the prerequisite structure, availability of courses at the 3000 level and higher depends on courses taken at the 2000 level (see Undergraduate Handbook for some options).

9.5.4 Major Programs in Earth Sciences
Programs in Earth Sciences consist of a Common Block of Required Courses (below), and additional courses that depend on the degree being sought.

9.5.4.1 Common Block of Required Courses
All majors in Earth Sciences must complete those courses specified in Clauses 1. through 4. Students should examine prerequisites of 3000 level courses in order to decide which course to select under Clauses 3. and 4.
1. English 1080 and 1110 (or equivalent), Mathematics 1000 and 1001, Earth Sciences 1000 and 1002, one of Chemistry 1050 or 1010 or 1200 and one of Chemistry 1051 or 1011 or 1001, Physics 1050 and 1051 or Physics 1020 and 1021. Students are advised to consult the Department of Physics Course Descriptions section for credit restrictions.
2. Earth Sciences 2030, 2031, 2401, 2502, 2702, 2905, 3420, 3905.
4. Either Biology 2120 (or Biology 1001 and 1002); or both Physics 2055 and Physics 2820.

Students must ensure that the prerequisites for Earth Sciences courses are fulfilled. Great difficulties in timetabling may be encountered if the required first-year courses are not completed before the beginning of second year.

9.5.5 Honours B.Sc. Degree in Earth Sciences
Geoscientific careers vary widely in required background. The Honours B.Sc. program is designed with considerable choice in order that students may personalize their programs based on career goals. Note that the flexibility afforded by this program is not without limits. Some courses have prerequisites, and it is ultimately the student’s responsibility to ensure that these prerequisites are satisfied. Students should consult faculty members and the departmental Student Handbook for guidance in selecting courses appropriate to particular career paths.

In addition to the Common Block of Required Courses listed under Major Programs in Earth Sciences, the following requirements must be completed to qualify for the Honours B.Sc. degree in Earth Sciences:
1. Earth Sciences 499A and 499B.
2. At least 27 additional credit hours from Earth Sciences courses at 3000 and/or 4000 levels with a minimum of 12 credit hours from courses at the 4000 level. Credit hours from Earth Sciences 4310 and 4950 cannot be used to fulfill this requirement.
3. Six credit hours from the Faculty of Science courses numbered 2000 or higher. Credit hours from Earth Sciences courses, courses that are cross-listed with Earth Sciences courses, and the former Physics 2050 are excluded. However, Physics 2820 is permitted.
4. Additional credit hours selected to conform with regulations for the Honours Degree of Bachelor Science so as to achieve a total of 120 credit hours. Students are encouraged to complete a minor in another department.
5. Three of the credit hours used to fulfill either requirement 3. or 4. above must be from Biology, Chemistry, Computer Science, Statistics or Physics. They may be from Mathematics only if Mathematics 2000 has not been taken as part of the Common Block of Required Courses.

9.5.6 General B.Sc. Degree in Earth Sciences
In addition to the Common Block of Required Courses listed under Major Programs in Earth Sciences, the following requirements must be completed to qualify for the General B.Sc. degree in Earth Sciences:
1. Eighteen additional credit hours from Earth Sciences courses at 3000 and/or 4000 levels with a minimum of 9 credit hours from courses at 4000 level. Credit hours from Earth Sciences 4310, 4950 and 499A/B cannot be used to fulfill this requirement.
2. Six credit hours from Science Faculty courses numbered 2000 or higher. Credit hours from Earth Sciences courses, courses that are cross-listed with Earth Sciences courses, and the former Physics 2050 are excluded. However, Physics 2820 is permitted.
3. Additional credit hours selected to conform with regulations for the General Degree of Bachelor Science so as to achieve a total of 120 credit hours. Students are encouraged to complete a minor in another department.

Students are advised that this is the minimum requirement for the General B.Sc. in Earth Sciences. Many provinces, including Newfoundland and Labrador, have legislation requiring registration of professional geoscientists. A basic requirement for registration is, in most cases, the course equivalent of an Honours B.Sc. degree. Students intending to make a career in Earth Sciences should consider taking the Honours Degree program of courses, regardless of whether honours standing is maintained.
9.5.7 Credit Restrictions for Present Earth Sciences (EASC) Courses with Former Courses

</table>

Notes: 1. Students wishing to pursue study within the programs offered by Earth Sciences are strongly advised to keep in close contact with the Department to discuss course programs before registration in order to maintain proper sequencing.
2. Students wishing to take some Earth Sciences courses without intending to major in Earth Sciences should consult with the Head of Department (or delegate) to determine the courses most suitable to their needs and capabilities. Earth Sciences 2914, 2915, 2916, 2917, 2918, and 2150 are especially suitable for such students and have no Earth Sciences prerequisites.
3. Most courses comprise six hours of instruction per week, usually three hours of lectures or seminars and a three-hour laboratory period; however, at an advanced level other methods of instruction may be adopted.
4. The field courses 2905, 3705, 3905 and 4905 require payment of a participation fee to cover costs for logistics and equipment. Registration for these courses will be by application only and may be competitive.
5. The prerequisites for courses 4202, 4902 and 4903 refer to core courses in the Faculty of Science. For the purposes of these prerequisite statements, core courses are defined as those courses that are specified by each department as mandatory to fulfill the course requirements for their General or Honours programs.
6. Certain of the 4000 level courses may not be offered every year.
7. At most 6 credit hours in courses at the 1000-level can be used towards the course requirements in Earth Sciences for the Major, Minor, Joint Major, Honours or Joint Honours.

9.6 Economics

The following programs are available in the Department of Economics:
1. Honours in Economics (B.A. or B.Sc.)
2. Honours in Economics (Co-operative), (B.A. or B.Sc.)
3. Joint Programs (B.Sc. Only)
4. Joint Program (Co-operative) (B.Sc. Only)
5. Major in Economics (B.A. or B.Sc.)
6. Major in Economics (Co-operative) (B.A. or B.Sc.)
7. Minor in Economics

For Departmental Regulations and Course Descriptions, see Faculty of Arts section of the Calendar.

9.7 Geography

The following undergraduate programs are available in the Department of Geography:
1. Diploma in Geographic Information Sciences
2. Focus Area in Geography
3. Honours in Geography (B.A., B.Sc)
4. Joint Programs
5. Major in Geography (B.A., B.Sc)
6. Minor in Geography (B.A., B.Sc)

For Departmental Regulations and Course Descriptions, see Faculty of Arts section of the Calendar.
9.8 Mathematics and Statistics

www.mun.ca/math

From the point of view of degree regulations, Applied Mathematics, Pure Mathematics, and Statistics are considered to be one subject area.

The following undergraduate programs are available in the Department:
1. Applied Mathematics and Chemistry Joint Honours (B.Sc. only)
2. Applied Mathematics and Computer Science Joint Major (B.Sc. only)
3. Applied Mathematics and Economics Joint Major (B.Sc. only)
4. Applied Mathematics and Physics Joint Honours (B.Sc. only)
5. Applied Mathematics and Physics Joint Major (B.Sc. only)
6. Biology and Statistics Joint Honours (B.Sc. only)
7. Computer Science and Pure Mathematics Joint Honours (B.Sc. only)
8. Computer Science and Pure Mathematics Joint Major (B.Sc. only)
9. Computer Science and Statistics Joint Honours (B.Sc. only)
10. Computer Science and Statistics Joint Major (B.Sc. only)
11. Economics and Pure Mathematics Joint Major (B.Sc. only)
12. Economics and Statistics Joint Major (B.Sc. only)
13. Economics and Statistics Joint Honours (B.Sc. only)
14. Honours in Applied Mathematics (B.Sc. only)
15. Honours in Pure Mathematics
16. Honours in Statistics
17. Major in Applied Mathematics (B.Sc. only)
18. Major in Pure Mathematics
19. Major in Statistics
20. Minor in Mathematics
21. Minor in Statistics
22. Pure Mathematics and Statistics Joint Honours

Details of these programs are given after the Regulations for the Honours Degree of Bachelor of Science.

Mathematics and Statistics course descriptions are found at the end of the Faculty of Science section under Course Descriptions, Mathematics and Statistics.

9.8.1 Regulations

1. At most 9 credit hours in Mathematics will be given for courses completed from the following list subject to normal credit restrictions: Mathematics 1000, 1031, 1050, 1051, the former 1080, the former 1081, 1090, the former 1150 and 1151.
2. Students with credits in Mathematics or Statistics not listed in this Calendar must consult the Department for equivalency before taking any course listed below.
3. Placement in Mathematics 1000, 1050, 1051 and 1090, and Statistics 1510, shall be determined by the Department of Mathematics and Statistics on the basis of the student’s score on the Mathematics Placement Test (MPT), SAT Subject Test in Mathematics Level 1, or other acceptable criteria-based test.

9.8.2 Faculty Advisors

Normally, the Undergraduate Officer will be the advisor for each student who has undertaken a major in Applied or Pure Mathematics, and the Deputy Head (Statistics) will be the advisor for any student involved in a major in Statistics. Students should consult with their advisor at least once each semester to ensure that their choice of courses is appropriate.

Note: The Department of Mathematics and Statistics will endeavour to give appropriate advice to students registered in its programs. However, the Department points out that it is the responsibility of the student to see that his or her academic program meets the University's Regulations in all respects. Students are referred to the UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate), Registration, Student Responsibility. The Department accepts no responsibility for any matter arising from an inappropriate and/or improperly recorded registration.

9.8.3 Course Numbering System

The subject area of all courses offered by the Department of Mathematics and Statistics is identified by the second digit of the course number:

Second Digit
0 – Common Core Mathematics courses
1 – Applied Mathematics courses
2 – Applied Mathematics and Pure Mathematics courses
3 – Pure Mathematics courses
4 – Pure Mathematics and Statistics courses
5 – Statistics Courses

Where a regulation makes reference to Applied Mathematics courses, this shall include all courses with second digit 1 or 2. Where a regulation makes reference to Pure Mathematics courses, this shall include all courses with second digit 2, 3 or 4. Where a regulation makes reference to Statistics courses, this shall include all courses with second digit 4 or 5.
9.8.4 Major in Applied Mathematics (B.Sc. Only)
Students shall complete the following requirements:
1. Mathematics 1000, 1001, 2000, 2050, 2051, 2260 (or 3260), 3000, 3001, 3100, 3132, 3161, 3202, 4160, 4190.
2. Three credit hours in Applied Mathematics courses numbered 3000 or higher.
3. A computing course, early in your program. Computer Science 1510 is highly recommended.
4. A designated technical writing course offered by a Science department. Mathematics 2130 is recommended. The technical writing course is prerequisite to some 3000-level courses.
5. Physics 1050 (or 1020) and 1051.
6. A statistics course. Statistics 3410 is recommended.

9.8.5 Major in Pure Mathematics
Students shall complete the following requirements:
1. Mathematics 1000, 1001, 2000, 2050, 2051, 2320, 3000, 3001, 3320;
2. One of Mathematics 2260 (or 3260), 3202, 3210;
3. One of Mathematics 3331, 3370;
4. Twelve further credit hours in Pure Mathematics courses numbered 3000 or higher, excluding Mathematics 3260 and 3330, at least 6 credit hours of which must be in courses numbered 4000 or higher;
5. A computing course. Computer Science 1510 is recommended.
6. A designated technical writing course offered by a Science department. Mathematics 2130 is recommended.
7. A statistics course. Statistics 3410 is recommended.

9.8.6 Major in Statistics
Students shall complete the following requirements:
1. Mathematics 1000, 1001, 2000, 2050, 2051, Statistics 2560, 3410, 3411, 3520, 3521, 4530;
2. One of Statistics 1510, 2500, or 2550;
3. Nine further credit hours in Statistics courses numbered 3000 or higher, at least 6 credit hours of which must be in courses numbered 4000 or higher excluding Statistics 4581;
4. A computing course. Computer Science 1510 is recommended.
5. Mathematics 3000 and 3001 are recommended.

9.8.7 Honours in Applied Mathematics (B.Sc. Only)
See Regulations for the Honours Degree of Bachelor of Science. Students shall complete the following:
1. Mathematics 1000, 1001, 2000, 2050, 2051, 2130, 2260 (or 3260), 3000, 3001, 3100, 3111, 3132, 3161, 3202, 3210, 4160, 4180, 4190, 419A/B;
2. At least one of Mathematics 4162 or 4170;
3. Statistics 3410;
4. Nine further credit hours in courses numbered 3000 or higher that are offered by the Department of Mathematics and Statistics, excluding Mathematics 3330, at least 3 of which must be in courses numbered 4000 or higher;
5. A computing course early in the program is required. Computer Science 1510 is recommended.
6. Physics 1050 (or 1020), 1051, 2820, 3220.

9.8.8 Honours in Pure Mathematics
See Regulations for the Honours Degree of Bachelor of Science. Students shall complete the following requirements:
1. Mathematics 1000, 1001, 2000, 2050, 2051, 2130, 2260 (or 3260), 2320, 3000, 3001, 3202, 3210, 3300, 3320, 3331, 4300, 4310, 439A/B, Statistics 2550;
2. Either Mathematics 3340 or 3370;
3. Either Mathematics 4000 or 4001;
4. Either Mathematics 4320 or 4321;
5. Twelve further credit hours in Pure Mathematics courses numbered 3000 or higher, excluding Mathematics 3330, at least 9 credit hours of which must be in courses numbered 4000 or higher;
6. A computing course early in the program is required. Computer Science 1510 is recommended.

9.8.9 Honours in Statistics
See Regulations for the Honours Degree of Bachelor of Science. Students shall complete the following requirements:
2. One of Statistics 1510, 2500, or 2550;
3. Eighteen further credit hours in Statistics courses including at least 12 credit hours in courses numbered 4000 or higher excluding Statistics 4581;
4. A computing course. Computer Science 1510 is recommended.
5. Mathematics 4000 is recommended.
9.8.10 Minor in Mathematics
A total of 24 credit hours in courses offered by the Department of Mathematics and Statistics is required of which only 6 credit hours shall be in courses at the 1000 level and at least 6 credit hours shall be in courses numbered 3000 or higher.

9.8.11 Minor in Statistics
The courses required for a minor in Statistics are:
1. Mathematics 1000, 1001; Statistics 1510 or 2500 or 2550, Statistics 2501 or 2560.
2. Twelve further credit hours in Statistics courses numbered 3000 or higher excluding Statistics 4581.
It is recommended that Mathematics 2000 and Mathematics 2050 be taken since they are prerequisite to several further Statistics courses.

9.9 Ocean Sciences
www.mun.ca/osc
The Department of Ocean Sciences is a newly formed Department within the Faculty of Science. The faculty within this Department are the former faculty of the Ocean Sciences Centre, a research unit and facility that was first opened in 1967.
The Department’s mandate as an interdisciplinary unit is to focus on increasing our understanding of biological and chemical processes within the oceans, and with those associated with aquaculture.
The Department offers undergraduate programs in Ocean Sciences and graduate programs in Marine Biology.
Ocean Sciences course descriptions are found at the end of the Faculty of Science section under Course Descriptions, Ocean Sciences.

9.9.1 Minor in Oceanography
Students who take a Minor In Oceanography will complete 24 credit hours as follows:
1. Ocean Sciences 1000, 2100, 2200, 2300;
2. Ocean Sciences 2000 or Biology 3710;
3. Earth Sciences 1000; and
4. the remaining 6 credit hours should be selected from Biology 3014, 3709, 3711, 3712, 3714, 3715, 4122, 4601, 4710, 4750, 4810, Chemistry 2100, 3110, 4151, 4156, Earth Sciences 4302, Geography 3120, 3510, 4190, 4300, Environmental Science 3072, 3210, 3211, 4230, Ocean Sciences 2001, 3000, 3002, 3620, 4000, 4122, 4601, and Physics and Physical Oceanography 3300, 3340, 4300, 4340.
Course prerequisites stipulated in the Course Descriptions section shall apply to a Minor In Oceanography.

9.9.2 Minor in Sustainable Aquaculture and Fisheries Ecology
Students who take a minor in Sustainable Aquaculture and Fisheries Ecology will complete 24 credit hours as follows:
1. Ocean Sciences 1000, 2001, 3000, 3002;
2. Biology 4750 or Geography 4300;
3. One of Ocean Sciences 2000, 3620, 4000, 4122, 4601;
4. One of Biology 2122, 3401, 3640, 3715, 4251, 4605; and
5. One of Biochemistry 3107, 3402, 4002, 4101, 4104, 4105, 4200, 4201.
Course prerequisites stipulated in the Course Descriptions shall apply to a minor in Sustainable Aquaculture and Fisheries Ecology.

9.10 Physics and Physical Oceanography
www.mun.ca/physics
The following undergraduate programs are available in the Department:
1. Applied Mathematics and Physics Joint Honours
2. Applied Mathematics and Physics Joint Major
3. Biochemistry and Physics Joint Honours
4. Chemistry and Physics Joint Honours
5. Computer Science and Physics Joint Honours
6. Computer Science and Physics Joint Major
7. Earth Sciences and Physics Joint Honours
8. Earth Sciences and Physics Joint Major
9. Geophysics and Physical Oceanography Joint Honours
10. Honours in Environmental Physics
11. Honours in Physics
12. Major in Environmental Physics
13. Major in Physics
14. Minor in Physics
Details of these joint programs are given after the Regulations for the Honours Degree of Bachelor of Science. Other joint programs may be arranged in consultation with the departments concerned.
Physics and Physical Oceanography course descriptions are found at the end of the Faculty of Science section under Course Descriptions, Physics and Physical Oceanography.

Notes: 1. The attention of students intending to follow any one of the programs listed above is drawn to the UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate), governing the appropriate degree. Additional Departmental requirements are given below.
2. Faculty advisors are available to provide advice to students who are registered in, or who are considering registering in, any of the
programs. Students are urged to consult with these advisors at their earliest opportunity in order to ensure that they select appropriate courses and programs. Students with credits in Physics courses which are not listed in this calendar should consult with the Department.

3. The six course stream consisting of Physics 1020, 1021, 1051, 2053, 2055, 2750, and 2820 or alternatively the seven course stream of Physics 1020, 1050, 1051, 2053, 2055, 2750, and 2820 is intended to provide a cohesive overview of Physics for potential Physics majors.

4. Physics 1050 is open to and recommended for students who have completed Level II Physics, Level III Physics and Level III Advanced Mathematics. Mathematics 1000 must be taken at the same time as, or be completed prior to, taking Physics 1050. Students who have completed Mathematics 1090 and Physics 1050 are required to complete Mathematics 1020 before registering for Physics 1051.

5. Physics 1020 is intended for students who do not qualify for Physics 1050, and while it may be taken by students who have no background in Physics it is recommended that students wishing to take Physics 1020 should have completed at least one of Level II and Level III Physics. Students who complete Physics 1020 and Mathematics 1000 are eligible for admission to Physics 1051. Students may receive credit for only one of Physics 1050 and 1020.

6. Students who have successfully completed Advanced Placement courses in both Physics and Mathematics will normally be eligible for direct entry into Physics 1051, 2053 and 2750, all of which are offered in the Fall semester. Such students are advised to consult the Department.

7. Where circumstances warrant, any prerequisites listed below may be waived by the Head of the Department.

8. Supplementary examinations will be allowed in certain Physics courses which have written final examinations. Students should refer to the Faculty of Science Degree Regulations for details.

9.10.1 Minor in Physics
A minor in Physics will consist of 24 credit hours in Physics courses which must include Physics 1050 (or 1020), 1051, 2053, 2055, 2750, 2820. Only 6 credit hours at the 1000 level can be used to fulfill the 24 credit hours. For those students whose major is Chemistry or Biochemistry, the 24 credit hours in Physics will not include 2053.

For Electrical Engineering students, 24 credit hours in Physics which must include Physics 1050 (or 1020), 1051, 2750, 3000, and 3550 with an additional 9 credit hours selected from Physics 2820, 3600, 3750, 3751, 3800, 4000, 4220, 4600 or other 3000 or 4000 level courses subject to approval by the Head of Physics and Physical Oceanography and the Chair of Electrical and Computer Engineering.

9.10.2 Major in Physics
1. English 1080 and English 1110 (or equivalent).
2. Chemistry 1050 and 1051 (or Chemistry 1010, 1011, and the former 1031).
5. Physics 1050 (or 1020) and 1051.
6. Physics 2053, 2055, 2750, 2820, 3220, 3400, 3500, 3750 and 3900.
7. An additional 12 credit hours in physics courses numbered 3000 or higher which shall include at least 6 credit hours selected from the courses numbered Physics 3000, 3150, 3300, the former 3410, 3550, 3600, 3751.
8. Physics 3810 or Mathematics 3202.
Mathematics 1001, 2000 and 2050 are prerequisites to many Physics courses and should be completed by the end of second year. Mathematics 2260 is co-requisite to Physics 3220 and should be completed before the Winter of the third year. Those who intend to make a career in Physics should note that additional Physics courses are strongly recommended. Mathematics 2051 and Computer Science 1510 or 2602 are also recommended.

9.10.3 Honours in Physics
1. English 1080 and English 1110 (or equivalent).
2. Chemistry 1050 and 1051 (or Chemistry 1010, 1011, and the former 1031).
4. Computer Science 1510.
5. Mathematics 2000, 2050 and 2260 (or 3260).
6. Physics 1050 (or 1020) and 1051.
7. Physics 2053, 2055, 2750, 2820, 3220, 3230, 3400, 3500, 3600, 3750, 3820, 3900, 4400, 4500, 4820, 4850, 4900, 490A/B.
8. Physics 3810 or Mathematics 3202.
9. An additional 12 credit hours in physics courses numbered 3000 or higher which shall include at least 6 credit hours selected from physics courses numbered 4000 or higher.

10. Fifteen credit hours in applicable elective courses
Note: Certain of the graduate courses may be taken in the final year of the Honours Program with the permission of the Head of the Department.

Only 6 credit hours at the 1000 level in each of Physics, Chemistry and Mathematics can be used to fulfill the 120 credit hours required for the Honours program. The inclusion of Mathematics 1090, the sequence of Physics 1020, 1021, and 1051 or the substitution of Chemistry 1010, 1011 and the former 1031 for Chemistry 1050 and 1051 will each increase the number of credit hours required for the Honours Physics program by three.

An Honours thesis is to be presented on work undertaken by the candidate under the guidance of a Department of Physics and Physical Oceanography faculty member. The thesis comprises the 6 credit hour course Physics 490A/B. Students should seek departmental advice regarding a thesis project no later than the winter preceding the semester in which the project will be started.

The Honours Physics program in and beyond the third year requires a familiarity with computer programming and numerical analysis. In choosing electives for this program, the Department recommends that students supplement the prescribed program with the following courses Computer Science 2602 and 3731 (or Mathematics 2130 and 3132). Mathematics 2051 and 3000 are also suitable electives.

For specific courses and recommendations about electives, consultation with a faculty advisor in the Department is suggested.

The Department recommends that students wishing to complete the Honours Physics program in 120 credit hours follow the schedule given below. This schedule is intended for students who qualify for Physics 1050 and 1051. Other suggested course schedules are available from the Head of the Department.

9.10.4 Major in Environmental Physics
1. English 1080 and English 1110 (or equivalent)
2. Chemistry 1050 and 1051 (or Chemistry 1010, 1011, and the former 1031)
3. Mathematics 1000 and 1001
4. Mathematics 2000, Mathematics 2050, Mathematics 2260 (or 3260), Mathematics 3202
5. Physics 1050 (or 1020) and 1051
6. Physics 2053, 2055, 2750, 2820, 3220, 3820, 3300, 3340, 3430
7. Physics 3400 or 3500
8. Earth Sciences 1000, 1002, 2502, 3170, 3172
9. Geography 2102, 2195, 3120
10. Biology 2120, 2600
The Major degree offers students a fair degree of latitude in choosing electives, students are encouraged to take electives from Geography and Earth Sciences: of particular merit would be any of Earth Sciences 3600, 3611 or 4105.

9.10.5 Honours in Environmental Physics
1. English 1080 and English 1110 (or equivalent)
2. Chemistry 1050 and 1051 (or Chemistry 1010, 1011, and the former 1031)
3. Mathematics 1000 and 1001
4. Mathematics 2000, Mathematics 2050, Mathematics 2260 (or 3260), Mathematics 3202
5. Physics 1050 (or 1020) and 1051
6. Physics 2053, 2055, 2750, 2820, 3220, 3300, 3340, 3820, 4205, 4300, 4340, 4820, 490A/B
7. Physics 3400 or 3500
8. Earth Sciences 1000, 1002, 2502, 3170 and 3172
9. Geography 2102, 2195, 3120
10. Biology 2120, 2600
An honours thesis is to be presented on work undertaken by the candidate under the guidance of a Department of Physics and Physical Oceanography faculty member. The thesis comprises the 6 credit hour course Physics 490A/B. Students should seek departmental advice regarding a thesis project no later than the winter preceding the semester in which the project will be started.
The Department recommends that students wishing to complete the Honours Environmental Physics program in 120 credit hours follow the schedule given below. This schedule is intended for students who qualify for Physics 1050 and 1051. Other suggested course schedules are available from the Head of the Department.
Those courses in which a grade of “B” or better or an average of 75% or higher are required, as specified under Academic Standing, clause 1 of the Regulations for the Honours Degree of Bachelor of Science, are 45 credit hours in Physics courses, and 15 credit hours in other courses (beyond the 1000 level) selected from the specified program courses in Earth Sciences, Geography and Biology.

Physics 1021 and the former Physics 1201 will be considered equivalent for prerequisite purposes. Physics 1051 and 2820 will be considered equivalent to the former Physics 1054 and 2054 for prerequisite purposes. Physics 1051 and the former Physics 1052 and 2050 will be considered equivalent for prerequisite purposes.

Not all courses are offered every year. Students should check with the Department prior to registration to plan programs.

### 9.11 Psychology

www.mun.ca/psychology

The following undergraduate programs are available in the Department.

1. **Biochemistry and Psychology (Behavioural Neuroscience) Joint Honours (B.Sc. Hons. only)**
2. **Biochemistry (Nutrition) and Psychology (Behavioural Neuroscience) Joint Honours (B.Sc. Hons. only)**
3. **Biology and Psychology (Behavioural Neuroscience) Joint Honours (B.Sc. Hons. only)**
4. **Biology and Psychology Joint Honours (B.Sc. Hons. only)**
5. **Major and Honours in Behavioural Neuroscience (B.Sc. only)**
6. **Major and Honours in Behavioural Neuroscience (Co-operative) (B.Sc. Hons. only)**
7. **Major and Honours in Psychology (B.A. or B.Sc.)**
8. **Major and Honours in Psychology (Co-operative) (B.A. or B.Sc.)**
9. **Minor in Psychology (B.A. or B.Sc.)**

Details of the joint honours programs are given under the Degree Regulations of the Faculty of Science.

Psychology course descriptions are found at the end of the Faculty of Science section under Course Descriptions, Psychology.

### 9.11.1 Admission to Major Programs

Admission to the Major programs in the Department of Psychology is competitive and selective. Students who wish to enter these programs must submit a completed application form to the Psychology Department by June 1 for Fall semester registration. To be eligible for admission, students must have completed the 24 credit hours as listed below with an average of at least 65% in Psychology 1000/1001 and an overall average of at least 60% in Psychology, English, and Mathematics:

1. Psychology 1000, 1001
2. English 1080 and one of 1101, 1102, 1103, or 1110, or equivalent.
3. Mathematics 1000, or two of 1090, 1050, 1051 (or equivalent).
4. Six credit hours of electives (9 if only Mathematics 1000 is completed).

Students who fulfill the eligibility requirements compete for a limited number of available spaces. Selection is based on academic performance, normally cumulative average and performance in recent courses.

9.11.2 Admission to Honours Programs

The Honours programs in the Department of Psychology are designed for students who would like to concentrate their studies or pursue graduate work. Students who wish to be admitted to these programs must submit an "Application for Admission to Honours Program Faculties of Arts or Science" to the Department of Psychology by June 1 for Fall semester registration. This form is available at www.mun.ca/rgoff/Application_for_Admission_to_Honours.pdf. To be eligible for admission, students must have completed Psychology 2910, 2911, 2520, and 2930 and obtained in these courses a grade of "B" or better, or an average of 75% or higher. Students who fulfill the eligibility requirements compete for a limited number of available spaces. Selection is based on academic performance in the required courses. In special circumstances, students may be admitted to Honours Programs at times other than June.

Note: Students are advised to consult the general regulations for Honours in the Faculty of Arts or the Faculty of Science, as appropriate.

9.11.3 Requirements for a Major in Psychology

Students completing this program cannot receive credit for Psychology 2920. Students who intend to pursue graduate studies should take courses leading to the Honours degree.

1. Students may Major in Psychology as part of either a B.A. or a B.Sc. program. All Majors are required to complete a minimum of 42 credit hours of Psychology as listed below:
   a. Psychology 1000, 1001, 2520, 2910, 2911, 2930.
   b. Twelve credit hours in Psychology chosen from the following: 3050, 3100, 3250, 3350, 3450, 3620, 3650, 3750, 3800.
   c. Twelve credit hours of 4000-level courses in Psychology, of which at least one must be a research experience course and one must be a selected topics course.

2. Psychology Majors following the B.Sc. program are also required to complete the following:
   a. Mathematics 1000 (or equivalent).
   b. Biology 1001 and 1002
   c. Either Chemistry 1010 and 1011 (or 1050 and 1051); OR Physics 1020 (or 1050) and 1021 (or 1051)
      Note: First year students should think carefully about whether Chemistry or Physics best suits their future program needs. Students should examine the prerequisites for upper-level science courses and attempt to take them in their first year.
   d. Six credit hours of laboratory courses at the 2000 level or above in one of Biology, Chemistry, or Physics.
      Note: Biology/Psychology 4701 and Biology 3053 cannot be used to satisfy the requirement of 6 laboratory credit hours at the 2000 level or above in either Biology, Chemistry, or Physics.

3. Psychology Majors following the B.A. program are also required to complete Mathematics 1000 or two of 1090, 1050, 1051 (or equivalent), and are encouraged to complete at least 6 credit hours in Biology.

9.11.4 Requirements for Honours in Psychology

Students completing this program cannot receive credit for Psychology 2920.

1. Honours students in Psychology are required to complete the 60 credit hours of Psychology as listed below:
   a. Psychology 1000, 1001, 2520, 2910, 2911, 2930, 3900, 4910, 499A/B
   b. Eighteen credit hours chosen from the alternatives listed in Clause 1. b. of the requirements for a Major in Psychology
   c. Twelve credit hours of 4000-level courses in Psychology, of which at least one must be a research experience course and one must be a selected topics course.

2. Honours students must also complete the requirements listed in either Clause 2. or Clause 3., as applicable, of the requirements for a Major in Psychology.

3. Honours students will be required to submit in their graduating year, an undergraduate thesis (Psychology 499A/B) which demonstrates their competence in Experimental Psychology.

9.11.5 Requirements for a Major in Behavioural Neuroscience (B.Sc. Only)

Students completing this program cannot receive credit for Psychology 2920.

A program is offered in the Psychology Department to provide an education in Behavioural Neuroscience. Students planning to enroll in the program are advised to consult with the Head of the Department at the earliest opportunity because certain course choices may restrict later options. Students who intend to pursue graduate studies should take courses leading to the Honours degree.

The program for a Major in Behavioural Neuroscience shall include:

1. a. Psychology 1000, 1001, 2520, 2910, 2911, 2930, 3250, 3800, 3820.
   b. Three credit hours in Psychology chosen from the following: 3050, 3100, 3350, 3450, 3620, 3650, 3750.
   c. Any research experience course and one of Psychology 4250, 4251, 4850 or 4851; or, any selected topics course and one of Psychology 4270 or 4870.

2. a. Mathematics 1000 (or equivalent) and 1001
   b. Chemistry 1010 and 1011 (or 1050 and 1051), and 2440 (or 2400/2401)
   c. Physics 1020 (or 1050) and 1021 (or 1051).
   d. Biology 1001 and 1002
   e. English 1080 and one of 1101, 1102, 1103, or 1110, or equivalent

3. Eighteen credit hours from the following courses chosen from at least two different sciences:
   a. Biochemistry: Any 2000-, 3000-, or 4000-level course except 2000, 2005, the former 2010, the former 2111, 3202, 3402, or 4502
   b. Biology: 2060, 2210, 2250, 2900, 3050, 3160, 3202, 3295, 3401, 3500, 3530, 3540, 3750, 4200, 4241, 4245, 4250, 4402, the
3. Students' status in the program is assessed at the end of each semester. To remain in PCOP, students must receive a passing cumulative average of 65%. A student who fails a required course, fails to maintain an average of 65% in Psychology courses, or fails to maintain a cumulative average of 65%, will be required to withdraw from PCOP. The student in question may apply for readmission in a subsequent year after passing the specified required course(s) previously failed, or re-establishing the required average.

4. Students are required to complete three work terms at the prescribed times.

9.11.8.3 Work Term Placement

1. General management of the work terms in PCOP is the responsibility of Co-operative Education. It is responsible for assisting potential employers to become involved in the program, organizing student-employer interviews and facilities, data base management, and for the continual development of employment opportunities. Co-operative Education will work with the department to counsel students, visit students on their work assignments and evaluate the work term.

2. Work placement is not guaranteed but every effort is made to ensure that appropriate employment is made available. In the case of students who are required to withdraw from the program, Co-operative Education has no responsibility for placement until they have been re-admitted to the program.

3. A student who applies for admission to the co-op program gives permission to the University to provide a copy of the applicant’s resume, university transcript and work term evaluations to potential employers.

4. A student who has been accepted to PCOP may obtain his/her own work term placement outside the competition. Such employment
positions must be confirmed by the employer, and must be approved by Co-operative Education.

5. Students are expected to submit to Co-operative Education, within a month from starting a Work Term, a plan of the intended work that term.

6. Salaries paid to co-operative students are determined by employers based on their internal wage structures. However, students should not expect the income from work terms to make them completely self-supporting.

9.11.8.4 Registration and Evaluation of Performance

1. In Work Terms I, II, and III, students must register for Psychology 199W, 299W, and 399W respectively.

2. Student performance evaluations are to be completed by the employer and returned to Co-operative Education. The Work Term evaluations shall consist of two components:
   a. On-the-job Student Performance: Job performance shall be assessed by Co-operative Education in consultation with the Department using information gathered during the Work Term and input from the employer towards the end of the Work Term. Formal written documentation from the employer shall be sought. Evaluation of the job performance will result in one of the following classifications: OUTSTANDING, EXCEEDS EXPECTATIONS, SATISFACTORY, OR FAIL.
   b. The Work Report
      i. Students are required to submit a Work Term report to Co-operative Education on the first day of final exams.
      ii. Work Term reports shall be evaluated by a faculty member and Co-operative Education.
      iii. If an employer designates a report to be of a confidential nature, both employer and Co-operative Education must agree as to the methods to protect the confidentiality of such a report before the report may be accepted for evaluation.
      iv. Reports must contain original work related to the Work Term placement. The topic must relate to the work experience and will be chosen by the student in consultation with the employer. The topic must be approved by Co-operative Education or a faculty member of the Department of Psychology.

   Evaluation of the work term report will result in one of the following classifications: OUTSTANDING, EXCEEDS EXPECTATIONS, SATISFACTORY, OR FAIL.

   The evaluation of the job performance and the work term report are recorded separately on the transcript. Overall evaluation of the work term will result in one of the following final grades being awarded:
   - Pass with Distinction: Indicates OUTSTANDING PERFORMANCE in both the work report and the job performance.
   - Pass: Indicates that PERFORMANCE MEETS EXPECTATIONS in both the work report and the job performance.
   - Fail: Indicates FAILING PERFORMANCE in the work report or the job performance, or both.

   To remain in PCOP, a student must obtain a final grade of PAS.

3. If a student fails to achieve the Work Term standards specified above, the student will be required to withdraw from PCOP. Such a student may reapply to the program, at which time the student will be required to repeat the Work Term with satisfactory performance. Only one Work Term may be repeated in the entire program.

4. In order to be considered for readmission, students must formally apply for readmission to the program not later than the deadline date specified in Admission Requirements.

5. A student who withdraws from a Work Term without acceptable cause subsequent to a job placement will be required to withdraw permanently from PCOP.

6. Students who drop a Work Term without prior approval from both Co-operative Education and the Head of the Department of Psychology, or who fail to honour an agreement to work with an employer, or conduct themselves in such a manner as to cause their discharge from the job, will be awarded an overall grade of FAL for the Work Term in question and will be required to withdraw permanently from PCOP.

7. Permission to drop a Work Term does not constitute a waiver of degree requirements, and students who have obtained such permission must complete an approved Work Term in lieu of the one dropped.
## 9.11.9 Suggested Course Sequences

The tables below show suggested course sequences for the B.A. in Psychology (Co-operative), the B.Sc. in Psychology (Co-operative), the B.A. Honours in Psychology (Co-operative), the B.Sc. Honours in Psychology (Co-operative), the B.Sc. in Behavioural Neuroscience (Co-operative), and the B.Sc. Honours in Behavioural Neuroscience (Co-operative).

### 9.12 Science

Science course descriptions are found at the end of the Faculty of Science section under Course Descriptions, Science.
10 Course Descriptions

In accordance with Senate’s Policy Regarding Inactive Courses, the previous three academic years and which are not scheduled to be following listing. For information about any of these inactive courses,

10.1 Biochemistry

Biochemistry courses are designated by BIOC.

1430 Biochemistry for Nurses is an introduction to the chemistry and structure-function relationships of carbohydrates, lipids and proteins. It will examine: the metabolism of carbohydrates and fats, with emphasis on the biochemical fluctuations that occur in human health and disease, and will include a brief introduction to molecular genetics. Prospective fast-track program students should consult with the School of Nursing concerning admission to this course.

CR: the former BIOC 2430
LC: 4
PR: Level 3 Chemistry or Chemistry 1010 or Chemistry 1810 or equivalent, and acceptance to Bachelor of Nursing (Collaborative)
UL: may not be used for credit to fulfill the requirements for a major in the Department of Biochemistry

2000 Principles of Food Science - inactive course.

2005 Food, Food Safety, and Health introduces the concepts of the composition of foods, and how the processing of food affects sensory appeal, shelf life and nutrient composition. Common food and water-borne illnesses (risks and prevention) are covered in the course content. Students will also be introduced to food biotechnologies, including genetically modified organisms, nutraceuticals and the development of functional foods.

CO: Chemistry 2400 or 2440

2100 Introduction to Molecular Biology and Genetics will cover the heritability of simple traits from phenotype to genotype; the discovery of DNA as the molecule of heredity; the structure and function of DNA; the elucidation of the genetic code; and the manipulation of DNA for recombinant DNA technology and biotechnology.

CO: BIOC 2101, Chemistry 2401, Physics 1021 or 1051. Students may replace the co-requisite Chemistry 2401 with Chemistry 2440 as a prerequisite. Chemistry 2440 may not be taken as a co-requisite of 2100
CR: Biology 2250
LH: up to four hours on alternate weeks which will normally consist of one three-hour laboratory period plus one additional hour on the following day
PR: BIOC 2101, Chemistry 2401, Physics 1021 or 1051. Students may replace the co-requisite Chemistry 2401 with Chemistry 2440 as a prerequisite. Chemistry 2440 may not be taken as a co-requisite of 2100

2101 Introduction to Biochemistry is an introduction to the major organic substances of living organisms, proteins, carbohydrates and lipids: their structure, analysis and biochemical function. Other topics will include: enzymes; the biochemistry of membranes, including the plasma membrane and specialized intracellular membranes; and the biochemistry of selected differentiated cells.

CR: Pharmacy 2004, or the former Pharmacy 3110
LH: one laboratory period on alternate weeks
PR: Chemistry 2400 and 2401, or Chemistry 2440; and Physics 1020 or 1050, and 1021 (or 1051); Chemistry 2401 and Physics 1021 or 1051 can be done concurrently

2600 Introduction to Human Nutrition (same as Human Kinetics 2600) gives an overview of human nutrition with an emphasis on topics of current interest. Students will gain an understanding of nutrition in the context of health maintenance across the life span. Topics covered will include nutrition during pregnancy, nutrition for infants, Canadian Recommended Nutrient Intakes / Dietary Reference Intakes, weight loss and weight gain, nutraceuticals and ergogenic aids.

CR: Human Kinetics 2600 or the former Kinesiology 2600

3052 Food microbiology (same as Biology 3052) is the study of the microbiology of water and food with regard to the beneficial and detrimental roles of microorganisms on interaction with these systems. Emphasis will be on the microbiology of food, fermentations, food spoilage and food borne vectors of human disease.

CR: Biology 3052, and the former BIOC 3054, BIOC 3401
LC: three hours per week
LH: three hours per week
PR: BIOC 3050

3105 Physical Biochemistry examines topics such as: types of intermolecular forces in biomolecules; the folding of biomolecules and the role of water; pH, buffers, and ionisation of biomolecules; thermodynamics: equilibrium, coupled reactions, transport across membranes and redox reactions; and ligand binding. Other topics will include: size and shape of biomolecules; isotopes in biochemistry; and, spectroscopy of biomolecules.

OR: a two hour problem-solving class
PR: BIOC 2101; and Chemistry 2300 or 2301 or Physics 2053

3106 Metabolism examines the catabolism of carbohydrates, lipids and amino acids. Other topics will be: mitochondria, chloroplasts and ATP synthesis; biosynthesis of carbohydrates and lipids; metabolic specialization of differentiated cells and tissues; and, integration of metabolism.

CR: the former BIOC 3102 or Pharmacy 3111
LH: one three-hour laboratory or one-hour tutorial per week
OR: one-hour tutorial or one three-hour laboratory per week
PR: BIOC 2101

3107 Nucleic Acid Biochemistry and Molecular Biology examines the structure, function and biochemistry of DNA and RNA and the biochemical processes in the flow of information from the gene to protein. These will include: DNA replication, recombination and repair processes; transcription of RNA and RNA splicing; and, protein synthesis. The regulation of gene expression will also be covered at an introductory level. The course will also include an introduction to cloning methodology.

LH: up to four hours per week which will normally consist of one three-hour laboratory period plus one additional hour on the following day
PR: BIOC 2101, and BIOC 2100 or Biology 2250

3108 Molecular Biochemistry of the Cell focuses on the molecular biochemistry of intracellular regulation, including advances in topics such as signal transduction, aper transduction, and metabolism. Other topics will include protein purifying and sorting, cyclins, G-protein structure, function and regulation, cell adhesion molecules and the structure of the extracellular matrix.

PR: BIOC 2100 or Biology 2250; and BIOC 2101

3111A/B Human Physiology - inactive course.

3202 Community Nutrition - inactive course.

3203 Fundamentals of Human Nutrition is the cornerstone course for the study of nutrition. The sources, uptake and physiologic roles of essential nutrients will be discussed in the context of growth, maintenance, reproduction and overall health in humans.

CO: BIOC 3106
CR: the former BIOC 3201
PR: BIOC 2101, 2600

3402 Food Chemistry examines the following topics: water structure and the role of water in chemical reactions and mechanical properties of foods; chemistry and physical properties of carbohydrates, proteins and lipids; food dispersion; pigments and natural colorants; food flavour; enzyme properties and applications; vitamins and minerals; chemistry of enzymic and non-enzymic browning; characteristics of: muscle tissue, milk, eggs, bread and edible plant tissue; food additives; and, chemical changes in foods during processing.

LH: one period per week
PR: BIOC 2000 or 2005; BIOC 2101; Chemistry 2440 or Chemistry 2401

3600 Sports and Exercise Nutrition deals with the specific roles of nutrients in sport and exercise, and the application of nutrition to sport and exercise.

CR: the former BIOC 4241
PR: BIOC 2600 or HKR 2600 or the former BIOC 3200/3201; and one of BIOC 311B, MED 310B, HKR 2230

4002 Biochemical Regulation examines metabolic regulation at the cellular and multicellular level. Topics will include: control theory; hormones; their biosynthesis and mechanism of action; signal transduction; and, endocrine coordination of metabolic processes. Principles will be illustrated by the use of case studies from the medical and veterinary literature.

LC: two to three hours per week, together with assigned reading and case studies
PR: BIOC 2100 or Biology 2250; BIOC 3106

4101 Proteins will review the history of protein research and the general properties of proteins and include other topics such as: strategy and methods for purification; chemical structure, properties, modification and deamination of the protein amino acids; sequencing strategy, chain cleavage methods and end group analysis; folding of the protein main chain and techniques to determine structure; and, the relationship between structure and function; protein filaments, motors and regulators. It will also cover disease-related proteins and other examples from the current literature.

LC: two to three hours per week, together with assigned reading
PR: BIOC 3105

4102 Current Topics in Biochemistry is a seminar course in which faculty
and students will discuss topics of current interest in the biochemical literature. Students will be responsible for reading and critically assessing recent literature.
PR: Honours Biochemistry students in their final year or permission of the Head

4103 Prokaryotic Gene Regulation is a detailed and up-to-date treatment of the mechanisms of genetic regulation found in bacterial cells. The course will develop topics based on the evidence of bacterial genetics and modern molecular biology experiments. Topics may include: theory of mutations, RNA transcription, positive and negative regulation of transcription; regulation of protein synthesis; control of DNA replication; bacterial operons and regulons; developmental molecular biology in bacterial systems; and evolution and molecular biology of organelles.
PR: BIOC 3107

4104 Eukaryotic Gene Regulation and Developmental Biology details the cellular and molecular aspects of eukaryotic gene regulation and development. Topics to be covered will include the DNA content and organization of eukaryotes, mechanisms controlling the expression of eukaryotic genetic information at the transcriptional and post-transcriptional levels, and the methodologies used to define these mechanisms. Detailed consideration will be given to the cell-surface events which regulate nuclear gene expression and cell lineage specification. Developmental mechanisms operating in a number of model systems will be discussed.
PR: BIOC 3107 or 3108

4105 Immunology (same as Pharmacy 3006 and the former Pharmacy 4105) is an introduction to the cells and organs of the innate and adaptive immune systems. The molecular and cellular basis of allergy, autoimmunity, vaccination and cancer immunology will also be discussed. CR: Biology 4200, Pharmacy 3006, the former Pharmacy 3105, the former Pharmacy 4105
PR: BIOC 2101

4200 Bioenergetics and Biological Oxidation examines topics such as: respiration and electron transport; the functional organization of energy transducing membranes; the structure and function of flavoenzymes, cytochromes, iron-sulfur proteins and quinones; enzyme reduction of oxygen; and, free radicals in biological systems.
LC: two to three hours per week and assigned reading
PR: BIOC 3106

4201 Membranes - Structure and Function examines the structure of model and biological membranes, the molecular interactions between membrane components and the effects of these interactions on the biochemical properties of membranes. Other topics will include: the structure-function of specialized membranous systems, such as lipoprotein, lung surfactant, and lipid rafts; membrane lipid composition in biochemical adaptation and function; and the role of membrane proteins in intracellular trafficking, receptor function, enzymatic activity and membrane-related diseases.
PR: BIOC 3105

4210 Biochemical Research Techniques I examines the proteome and the genome. This course is designed to familiarize students with current methods employed in the analyses of the complements of proteins and genes resident in eukaryotic cells. Emphasis will be placed on techniques that facilitate the simultaneous functional analyses of large numbers of proteins or genes. A variety of techniques, used in the study of expression and functional proteomics, will be described, including 2D PAGE, tandem mass spectrometry, fluorescence methods, and microarrays. Techniques used in the study of gene expression and functional genomics will also be used, including the analysis of reporter gene constructs, analysis of protein-DNA interactions, expressions of cloned genes and several experimental approaches used to define the eukaryotic transcriptome.
AR: attendance is required
PR: BIOC 3105

4211 Biochemical Research Techniques II is designed to familiarize students with methods used for the study of cellular and subcellular metabolism. This course may include a research project.
AR: attendance is required
LC: times as arranged
PR: BIOC 3106

4220 Introduction to General and Autonomic Pharmacology (same as Medicine 4300) deals with the general principles of pharmacology (dose-response relationship, drug-receptor interaction, absorption, distribution, metabolism, excretion of drugs), and drugs that affect neuromuscular and autonomic neurotransmission, the cardiovascular, gastrointestinal, and central nervous systems, and antidepressants/antipsychotics.
CR: BIOC 3105 or Pharmacy 3111
CR: Medicine 4300
PR: BIOC 311A/B or Medicine 310A/B or Pharmacy 2002/2003 (or the former Pharmacy 3201/3202)

4230 Lipid and Lipoprotein Metabolism is designed to provide current knowledge about advances and controversies in lipid and lipoprotein metabolism in the context of health and disease. Topics to be covered include advanced knowledge about lipid and lipoprotein synthesis and regulation, reverse cholesterol transport, plus lipid and lipoprotein utilization to regulate cellular and physiological functions. The covered topics will be related to areas such as reproductive biology, atherosclerosis, AIDS, Alzheimer’s, and cancer.
CR: BIOC 6000
PR: BIOC 3106 or Pharmacy 3111

4231-4239 Special Topics in Biochemistry will be given for senior undergraduates, and will cover a range of topics in specialized fields in Biochemistry. They may be taught by visiting specialists when available.
PR: to be determined at the time of offering

4240 Nutrigenetics and Nutrigenomics is designed to familiarize students with emerging discoveries in the area of diet-genie interaction and to further their understanding of the relationships between the genome and diet as well as the potential to design personalized diets for better health. Students will develop an appreciation for the role of nutrients in the prevention and/or development of disease.
PR: BIOC 2100 or Biology 2250; BIOC 3106; and one of BIOC 3203 or the former BIOC 3200

4242-4249 Special Topics in Nutrition will be given for senior undergraduates, and will cover a range of topics in specialized fields in Nutrition. They may be taught by visiting specialists when available.
PR: to be determined at the time of offering

4300 Advanced Nutrition is a course in which current controversies and trends in human nutrition are presented and discussed using the scientific literature.
PR: BIOC 3203 or the former BIOC 3203/3201, and either BIOC 311B or Medicine 310B

4301 Nutrition and Disease is a course which addresses the scientific basis for nutritional intervention in chronic human disease.
PR: BIOC 3203 or the former BIOC 3203/3201 and either BIOC 311B or Medicine 310B

4502 Techniques in Nutrition Research is a seminar course in which faculty and students will discuss concepts and methods used in the study of nutrition. Students will be responsible for reading and critically assessing recent literature.
PR: BIOC 4301
PR: Honours Nutrition students in their final year or permission of the Head

499A and 499B Dissertation is a two-semester linked course based on independent study of a problem in Biochemistry. The subject of study will be decided in consultation with Faculty advisors and must be approved in advance by the Department. This dissertation is obligatory for Honours students in Biochemistry. The dissertation will be submitted as a formal written report accompanied by appropriate illustration before the end of the tenth week of the second semester. Before the end of his/her final semester the student will give an oral presentation of his/her research.
PR: Honours students in their final year or permission of the Head

10.2 Biology

According to the nature of particular courses, the specified number of laboratory hours may consist of some combination of laboratory work, seminars or directed independent study relevant to the practical aspects of the subject matter.

Biology courses are designated by BIOL.

1001 Principles of Biology is an introduction to the science of Biology, including a discussion of the unity, diversity and evolution of living organisms.
LH: 3
UL: credit may be obtained for only 6 1000-level credit hours in Biology

1002 Principles of Biology is an introduction to the science of Biology, including a discussion of the unity, diversity and evolution of living organisms.
LH: 3
UL: credit may be obtained for only 6 1000-level credit hours in Biology

2010 Biology of Plants is a study of the structure, function and reproductive biology of plants, with emphasis on the vascular plants, and on their relationship to environment and human activities.
LH: 3
UL: BIOL 1001 and 1002; Chemistry 1010 or 1050 (or the former Chemistry 1000)

2040 Modern Biology and Human Society I examines various aspects of the human body, and the implications of modern biological research for
human beings. Topics include cancer; diet and nutrition and associated diseases; circulatory disease, immunity, human genetics, biohythms, new diseases, genetic engineering and reproductive engineering. OR: seminars
UL: not acceptable as one of the required courses for the Minor, Major or Honours programs in Biology

2041 Modern Biology and Human Society II examines the origins and consequences of the environmental crisis of the 20th century. Topics include the population, explosion, energy, material cycles, air and water and land pollution, global food supplies, the fisheries, wildlands, renewable and non-renewable resources, environmental ethics. OR: seminars
UL: not acceptable as one of the required courses for the Minor, Major or Honours programs in Biology

2050 Modern Biology and Human Society III examines the origins and consequences of the environmental crisis of the 20th century. Topics include the population, explosion, energy, material cycles, air and water and land pollution, global food supplies, the fisheries, wildlands, renewable and non-renewable resources, environmental ethics. OR: seminars
UL: not acceptable as one of the required courses for the Minor, Major or Honours programs in Biology

3041 Biology and Ecology of Boreal and Arctic Seaweeds is a field course examining seaweed biology and ecology with special study of living specimens in estuarine, fiordic and exposed coastal sites, demonstrating their physiological and ecological adaptations to cold-water habitats. OR: this course is offered at the Bonne Bay Marine Station during the Summer semester with two weeks of instruction followed by a week to complete course requirements
PR: BIOL 2600 or equivalent

3041 Boreal Flora - inactive course.

3050 Introduction to Microbiology is a course in which the basic principles underlying microbial life are studied. Aspects include structure, function, bioenergetics and growth with an emphasis on prokaryotes. Also studied are viruses, microbial diseases, introductory principles of immunology and the control of microorganisms. The laboratory sessions provide training in culture and determinative techniques using microorganisms. LH: 3
PR: BIOL 1001 and 1002; Biochemistry 2101

3052 Food Microbiology (same as Biochemistry 3052) is the study of the microbiology of water and food with regard to the beneficial and detrimental roles of microorganisms on interaction with these systems. Emphasis will be on the microbiology of food, fermentations, food spoilage and food borne vectors of human disease. CR: Biochemistry 3052 and the former Biochemistry 3054, Biochemistry 3401
LC: three hours per week
PR: BIOL 3050

3053 Microbiology for Nurses examines the fundamentals of microbiology with an emphasis on medical microbiology. The course will include topics such as: host responses to infections, human diseases caused by microorganisms, and the control and exploitation of microorganisms. LH: 2
PR: students admitted to the Bachelor of Nursing (Collaborative) program
UL: not acceptable as one of the required courses for the Minor, Major or Honours programs in Biology, nor is it acceptable for any of the joint programs between Biology and other disciplines

3160 Insect Morphology and Physiology is an introduction to insect morphology and physiology focusing on the structure and function of the insect body, including the interaction of microorganisms, and the control and exploitation of microorganisms. LH: 3
PR: BIOL 2600; at least one of BIOL 2122 or 2210

3202 Comparative Vertebrate Anatomy examines the phylogenetic development and comparative anatomy of the vertebrates. CR: the former BIOL 3210 or the former BIOL 3201
LH: 3
PR: BIOL 1001 and 1002

3295 Population and Evolutionary Ecology is an introduction to the theory and principles of evolutionary ecology and population dynamics. CR: the former BIOL 4290
LH: 3
PR: BIOL 2600; at least one of BIOL 2122 or 2210

3300 Introductory Entomology is a study of the classification and ecology of insects within an evolutionary framework. Topics will include molecular, phylogenetic and classical morphological issues surrounding insect taxonomy, evolutionary based higher systemsatics, and the ecological roles of insects in a variety of ecosystems. CR: BIOL 4150 and the former BIOL 4140
LH: 3
PR: BIOL 2600. It is recommended that students have completed BIOL 2500.

3401 Comparative Animal Physiology is a comparative study of the basic physiological processes, with special attention paid to those strategies invoked by animals which enable them to adapt to environmental changes. CO: Biochemistry 3106
CR: the former BIOL 4401
LH: 3
PR: BIOL 2060 and 2210
PR: Biochemistry 3106

3402 Principles of Plant Physiology is a consideration of the principles of plant physiology, including water relations, nutrition, metabolism, growth and development. CO: Biochemistry 3106
CR: the former BIOL 4403
LH: 3
PR: BIOL 2010 and 2060
PR: Biochemistry 3106

3500 Histology is a study of microscopic structure and ultrastructure of tissues and organ systems in vertebrates, particularly mammals, with emphasis on correlating structure and function.
LH: 3
PR: BIOL 2060 and 2210

3530 Molecular and Developmental Biology is a study of developmental model systems with a focus on the underlying principles and molecular mechanisms involved in embryogenesis, organogenesis, morphogenesis, cellular differentiation, growth and regeneration in animals (vertebrates and invertebrates) and plants. Current cellular and molecular biology techniques and the implications of developmental biology in modern biological and health research will be emphasized.
LH: 3
PR: BIOL 2060 and BIOL 2250 or Biochemistry 2100

3540 Histotechnique - inactive course.
3610 Boreal Ecology is a study of the principal features of terrestrial ecosystems, with emphasis on the boreal region. This course may be offered in a usual 13 week semester or as a two-week field course.  
CR: Environmental Science 3131  
LE: either three hours of lecture and three hours of laboratory per week or a two-week field course that embodies equivalent instructional time  
PR: BIOL 2010, 2250, 2600 and 2900; Statistics 2550 or equivalent

3620 Aquatic Microbial Ecology (same as Ocean Sciences 3620) is a study of the nature, distribution and activities of microorganisms in the freshwater and marine environments. Field and laboratory work illustrate some of the investigative techniques used in this area of study.  
CR: Ocean Sciences 3620 and the former BIOL 3603  
LE: 3  
PR: BIOL 2600 and 3505; Statistics 2550 or equivalent

3640 Environmental Physiology of Animals covers physiological adaptations of aquatic species facilitating their survival in natural environments with emphasis on physiological and biochemical responses of animals to extreme environments. Starting with the fundamental basis of physiological mechanisms, the course explores various aspects and the integration of major physiological processes (metabolism, respiration, osmoregulation) and how these relate to ecological niche.  
CR: the former BIOL 3403 or the former BIOL 4455  
LE: 3  
PR: BIOL 2122 and 2600; Statistics 2550 or equivalent and permission of the Head of Department

3709 Field Course in Marine Principles and Techniques begins with a two-week field school immediately prior to the beginning of the Fall Semester. In the Fall Semester there are follow-up lectures, readings and supervised laboratory sessions. The course is intended to introduce the student to the major coastal marine environments, organisms and techniques. It is strongly recommended that this course be taken before either BIOL 3710, 3711 or 4141.  
PR: BIOL 2600; Statistics 2550 or equivalent and permission of the Head of Department

3710 Biological Oceanography is an introductory course in biotic and abiotic factors controlling marine biomass and primary production, emphasizing plankton and fishes. It introduces students to major groups of marine phytoplankton, zooplankton, and fishes, emphasizing how the physical, chemical, and geological environments interact with biology to define processes and pattern in marine organisms.  
LE: either three hours of lecture and three hours of laboratory per week or a two-week field course that embodies equivalent instructional time  
PR: BIOL 2122 and 2600  
LH: either three hours of lecture and three hours of laboratory per week or a two-week field course that embodies equivalent instructional time

3711 Principles of Marine Biology is an introductory course in biology of the oceans. It covers basic biology of the sea and its importance to us as an organism.  
PR: BIOL 2122, 2600 and 2900  
CR: Ocean Sciences 4122

3712 Benthic Biology examines the biology of the aquatic benthos (bottom-dwelling organisms); their origins, adaptations, life histories and ecological roles. This course may be offered in a usual 13 week semester or as a two-week field course.  
CR: former Biology 3630  
LE: either three hours of lecture and three hours of laboratory per week or a two-week field course that embodies equivalent instructional time  
PR: BIOL 2122, BIOL 2600

3714 Estuarine Fish Ecology Field Course examines community structure, function and distribution of northern coastal fishes in fjords and estuarine environments. Emphasis on sampling, field techniques, taxonomy, population biology, and capture-recapture relationships. A comparative approach will contrast fish communities from other areas. To be held as a two week field course.  
PR: BIOL 2600

3715 Ecology and Evolution of Fishes (same as the former BIOL 4600) examines the evolutionary history and ecology of the world's fishes, with particular emphasis on those of ecological, economic and cultural importance to Eastern Canada. Topics will include taxonomy, life histories, behaviour, zoogeography, evolutionary ecology, population biology, contemporary evolution, and conservation biology.  
CR: the former BIOL 4600

3750 Animal Behaviour I (same as Psychology 3750) is an introduction to the mechanisms, development, function and evolution of behaviour in animals. Topics include the history of ethology and comparative psychology, and behavioural ecology; methods of animal behaviour study, behaviour of animals in relation to physiology, learning, communication, mating systems, and other areas in Biology and Psychology.  
CR: Psychology 3750  
PR: BIOL 1001 and 1002; Statistics 2550 or equivalent

3811 Paleontology (same as Earth Sciences 3811) is taught and administered by the Department of Earth Sciences.  
CR: Earth Sciences 3811, the former BIOL 3800, and the former Earth Sciences 3801  
PR: either Earth Sciences 1002 and BIOL 2120 (or BIOL 1001 and 1002); or BIOL 2122 and 2210

3950 Research Methods in Genetic Biotechnology (same as the former BIOL 4900) will include DNA extraction, DNA amplification by the Polymerase Chain Reaction (PCR), DNA cloning, DNA sequence analysis and Bioinformatics. Additional modules in gene expression and re-sequencing chip technologies may be included. Theory and methods will be introduced in a research framework.  
CR: the former BIOL 4900  
PR: three hours of lecture and three hours of laboratory per week or a three week on-campus course that embodies equivalent instructor time  
PR: BIOL 2060 and 2250

3951 Introduction to Bioinformatics (same as Computer Science 3550) deals with the development and application of computational methods to biological problems. The course will focus on the fundamental concepts, ideas and related biological applications of existing bioinformatics tools. This course will provide hands-on experience in applying bioinformatics software tools and online databases to analyze experimental biological data, and it will also introduce scripting language tools typically used to automate some biological data analysis tasks.  
CR: Computer Science 3550

4000 Bacterial Systematics - inactive course.

4010 Virology will examine topics about viruses infecting all forms of life including humans and other animals, plants and bacteria. The scope within the course ranges from the molecular biology of virus replication to virus evolution and ecology. Current issues concerning viruses and society are incorporated into the course including the practical applications of viruses, vaccines, and emerging viruses.  
LH: Three hours of laboratory/seminar/discussion per week  
PR: BIOL 2900 and 3030

4012 Phyiology - inactive course.

4040 Mycology - inactive course.

4050 Advanced Topics in Microbiology examines the beneficial and harmful properties of microbes including topics on industrial microbiology and the discovery of new antimicrobial agents. The scope within the course ranges from the genetic manipulation of microbes for useful purposes to the isolation of bacteria for applications in various fields. Current issues concerning microbiology and society will also be discussed including the practical applications of microbes and bacterial diseases affecting society.  
LH: 3  
PR: BIOL 3050

4122 Advanced Studies in Marine Animal Diversity (same as Ocean Sciences 4122) provides an in-depth examination of cellular physiological, behavioural and ecological adaptations in marine animals. Lectures will be reinforced with discussions of relevant papers from the primary literature on topics of current interest, which may relate to morphology, ecology, evolution, natural history, species interactions and practical applications. Students will also gain hands-on experience by designing and conducting research projects involving live or preserved animals.  
CR: Ocean Sciences 4122  
PR: BIOL 3935

4141 Nematology - inactive course.
4150 Insect Systematics and Ecology - inactve course.

4180 General Parasitology - inactve course.

4182 Fisheries and Wildlife Parasitology - inactve course.

4200 Immunology is an introduction to the cells and organs of the innate and adaptive immune systems. The molecular and cellular basis of allergy, autoimmunity, vaccination and cancer immunology will also be discussed. CR: Biochemistry 4105, Pharmacology 3006, and the former Pharmacy 4105 LH: 3 PR: BIOL 2060 and BIOL 3050

4241 Advanced Genetics has advanced topics in modern genetic analysis, including theory of gene expression, developmental genetics, molecular basis of inherited disease, genomics, immunogenetics, behavioural genetics, and molecular evolution. LH: 3 PR: BIOL 2250 and Biochemistry 2101

4245 Biophysics is an examination of the physical properties involved in defining diffusion, membrane properties, electrochemical potentials and the processes of bioenergetics within cells and organelles. Selected topics in biomechanics and the functioning of whole organisms with respect to size, shape, support, orientation, transport and motility. LH: 3 PR: BIOL 2060 and Biochemistry 2101

4250 Evolutionary Genetics has advanced topics in the study of micro and macro-evolutionary phenomena. Genetic variation in natural populations; theory of genetic drift, mutation, migration, inbreeding, and natural selection; neutral theory of molecular evolution, patterns of nucleotide substitution, heritability and quantitative genetics. LH: 3 PR: BIOL 2250 and 2900

4251 Genomics will have lecture, seminar, and laboratory components. Topics covered will include Technical Foundations of Genomics, Global Gene Expression Profiling, Bioinformatics, Comparative Genomics, Microbial Genomics, Genomics and Medicine, Genomics and Agriculture, Environmental Genomics, and Ethical Issues of Genomics. Each topic will involve a lecture component, in which theory and methods will be taught using the textbook and journal articles. Some lecture and lab times will be devoted to seminars on methods and papers related to lecture or laboratory components of the course. In the lab component, students will have the opportunity to use state-of-the-art genomic techniques to address a research question. LH: 3 OR: seminar PR: BIOL 2060, 2250

4255 Proteomics - inactive course.

4270 History of Biology is a consideration of the development of biological concepts as interactions between observations, philosophical systems and cultural environment. This course will normally require students to make verbal presentations to the class, participate in discussions and submit written papers. OR: 3 hour seminar per week PR: a minimum of 90 credit hours including a minimum of 9 credit hours from any of BIOL 2010, 2122, 2210, 2600 and including a minimum of 6 credit hours in Biology at the 3000 level of above, plus the permission of the instructor

4306 Applied Biology - inactive course.

4307 Global Change Biology examines the evolution of biosphere, global role of photosynthesis in oxygen and carbon dioxide balance, glacial-interglacial oscillations, carbon sources and sinks in modern biosphere, greenhouse gases emissions, population dynamics, origin and global impact of agriculture, global changes in Holocene and Anthropocene. LH: 3 PR: BIOL 2600, BIOL 2900 or permission of the instructor

4360 Community and Ecosystem Ecology is a study of the basic principles, patterns and processes of ecological communities and ecosystems. OR: a seminar/discussion group each week PR: BIOL 2250, 2600 and 2900 and one of BIOL 2010, 2122 or 2210; Statistics 2550 or equivalent

4402 Electron Microscopy in Life Sciences - inactive course.

4404 Microbial Physiology is a study of the structure and growth of microorganisms. Themes covered in this course include the structure, function and regulation of the microbial cellular machinery, the hierarchical regulation of cellular activities, and communication between cells. Quantitative experimental methodology relating to microbial physiology is studied in the laboratory. LH: 3 PR: BIOL 2250 and BIOL 3050

4405 Landscape Ecology is an introduction to the theory and principles of landscape pattern and processes, including issues related to scale, networks, landform and vegetation patterns, species distributions, and natural and human-caused aspects of landscape change. CO: Statistics 2550 or equivalent LH: 3 PR: BIOL 2600 and 18 credit hours in Biology, Statistics 2550 or equivalent, or permission from the course instructor

4505 Systemsatics and Biogeography is a study of the geographical distributions of plants and animals with particular reference to temporal and spatial variability and to theories advanced to explain historical and recent distribution patterns. CR: the former Geography 4170 LH: 3 PR: BIOL 2250, 2600, 2900 and one of BIOL 2010, 2122 or 2210

4510 Distribution Patterns in the Sea - inactive course.

4550 Principles of Endocrinology comprises an introduction to basic concepts concerned with how chemical messages are transmitted and received between cells to coordinate body functions. Hormonal control of adaptation, reproduction, metabolism, growth, digestion, and elimination. Homeostasis will be discussed. Although the endocrinology of invertebrates and lower vertebrates will be mentioned as appropriate, the main emphasis will be on mammalian and human endocrinology at the level of the whole organism. LH: 3 PR: BIOL 3401; Biochemistry 3106

4601 Functional Biology of Fish (same as Ocean Sciences 4601) is an introduction to anatomical, physiological and cellular aspects of selected processes in the life cycle of fishes. CR: Ocean Sciences 4601 PR: BIOL 2060, 2210, and 3401

4605 Quantitative Methods in Biology (same as Statistics 4581 and the former Statistics 4605) is quantitative reasoning using verbal, graphical and statistical models of scaled quantities (units and dimensions). Exploratory and confirmatory analysis of field and laboratory data. Hypothesis testing, including randomization tests. Topics include the general linear model (t-tests, ancova etc), correlation, autocorrelation, geographic statistics, estimates of population size and multivariate methods. CR: Statistics 4581 and the former Statistics 4605 LH: 3 PR: Statistics 2550

4606 Bioinformatics: Biological Data Analysis (same as Computer Science 4550) provides students with the basis to analyse a variety of biological data within an integrated programming environment for data manipulation, calculation and graphical display. Students will learn to extract meaningful information from data generated by high-throughput experimentation. The course will introduce one such integrated programming environment and will explore the computational and statistical foundations of the most commonly used biological data analysis procedures. CR: Computer Science 4550 LH: 3 PR: BIOL 3951 or Computer Science 3550, and Statistics 2550 (or equivalent), or permission of the course instructor

4607 Models in Biology is a study of the design and analysis of statistical and mathematical models for exploring the biology of cells, genes, species, populations, communities and ecosystems. Qualitative, quantitative and graphical techniques are used to analyze models and to compare theoretical predictions with empirical data. Classic models of systems biology, population growth, species competition, predator-prey interactions, nutrient cycling, immunology, evolutionary invasion analysis, and species distribution will be covered. LH: 3 PR: BIOL 2060, 2600 and 2900; Statistics 2550 or equivalent. It is recommended that students complete BIOL 3295.

4620 Ornithology examines structure, classification, evolution, ecology and behaviour of birds, with particular reference to those of economic importance. Identification of the birds of Eastern Canada. LH: 3 PR: BIOL 2210 and 2600

4630 Mammalogy examines evolution, systematics, life histories and distribution of mammals, with particular emphasis on eastern North American forms. LH: 3 PR: BIOL 2210 and 2600

4650 Conservation Biology I: Conservation in Biology and Geography (same as Geography 4650) is an examination of how biological and ecological principles can be applied to conserving biological diversity in the natural world under conditions of exploitation and habitat loss. Special emphasis will be given to relevant provincial examples. CR: Environmental Science 4133, Geography 4650

AR = Attendance requirement; CH = Credit hours are 3 unless otherwise noted; CO = Co-requisite(s); CR = Credit can be retained for only one course from the set(s) consisting of the course being described and the course(s) listed; LC = Lecture hours per week are 3 unless otherwise noted; LH = Laboratory hours per week; OR = Other requirements of the course such as tutorials, practical sessions, or seminars; PR = Prerequisite(s); UL = Usage limitation(s).
4651 Conservation Biology II: Conservation in Practice examines issues relevant to global conservation science. Topics will be covered through a series of modules, including conservation genetics, costs and consequences of small populations, effects of anthropogenic activity on biodiversity, spatial dynamics, and the interface between science and society. 

PR: BIOL 2900, 3295 and 4650

4701 Animal Behaviour II (same as Psychology 4701) is an examination of the behaviour of animals with particular emphasis on evolution and ecology. Topics include behavioral genetics and evolution, reproductive strategies, social behaviour, habitat selection, territoriality, foraging behaviour, and other topics in biology and psychology. 

CR: Psychology 4701
LH: 3
PR: BIOL 3750 or Psychology 3750

4710 Experimental Marine Ecology of Newfoundland Waters is a two-week field course examines the ecology of cold ocean environments, focussing on energy flux through marine pelagic and benthic flora and fauna of Newfoundland waters, and how the dynamics of this environment influence linkages among organisms in different habitats. The course will be field intensive with some lecture component and a strong hands-on field component. Students will identify local organisms and study how and why they vary in time and space. This course will be offered during two weeks of the Spring semester. 

PR: BIOL 2600

4750 Fisheries Ecology is the application of ecological principles to the problem of managing exploited fish populations. Laboratory exercises will be based on a simulation approach to fisheries problems using computer and animal models. 

LH: 3
PR: BIOL 2600

4770 Research Experience in Animal Behaviour (same as Psychology 4770) allows students to gain research experience in selected areas of animal behaviour. 

CR: Psychology 4770
PR: BIOL 3750 or Psychology 3750

4800 Advanced Paleontology (same as Earth Sciences 4800) is a field, lecture, laboratory and seminar course dealing with selected topics in general and applied paleontology. Topics include: evolution and extinction of paleontology, functional paleontology, paleoecology, statistical methods for paleontological studies, and applications in petroleum, mining, and environmental studies. This course is taught and administered by the Department of Earth Sciences. 

CR: Earth Sciences 4800
LH: 3
PR: Earth Sciences/BIOL 3811, and one of Statistics 2550, the former Statistics 2510 or Mathematics 2000

4810 Research Field Course in Marine Biology will consist of an intensive two-week field school designed to acquaint students with marine field research, experimental design, methodology and data analysis. Emphasis will be placed on individual projects. Projects must be designed and approved prior to the commencement of the course and will involve a written report. At the discretion of the Head of Department, another recognized field course may be substituted for BIOL 4810. 

PR: BIOL 3710 and any two of BIOL 2122 or 2210 and permission of the Head of the Department. It is strongly recommended that students take BIOL 3709 before 4810.

4820 Field Course in Terrestrial Biology - inactive course.

4822 Internship in Biology - inactive course.

4910-4920 Special Topics in Biology will be given for senior undergraduates and will be in a two-week format which will involve equivalent instruction as a course on campus. These courses will cover a range of topics in specialized fields in Biology and may be offered at the Bonne Bay Field Station, at the Harlow campus or elsewhere as appropriate.

499A and 499B Honours Dissertation is available only to students in the Honours Program. Requirements for the Dissertation are outlined under Honours Degrees. 

PR: admission to the Honours Program

10.2.1 Work Term Descriptions

The following Work Terms are a requirement of the Biology (Co-operative) Program (BCOP) only. 

199W Work Term I follows the successful completion of Semester 4. Students are expected to learn, develop and practice the high standards of behaviour and performance normally expected in the work environment. 

A detailed description of each job is normally posted during the job competition.

As one component of the Work Term, the student is required to complete a work report. The work report, as a minimum requirement should 

1. analyse an issue/problem related to the student's work environment.
2. demonstrate an understanding of the structure of a professional report, and show reasonable competence in written communication and presentation skills. (Students should consult the evaluation form provided in the placement package.)

Late reports will be graded as FAIL unless prior permission for a late report has been given by Co-operative Education.

299W Work Term II follows the successful completion of Semester 6. Students are expected to further develop and expand their knowledge and work-related skills and should be able to accept increased responsibility and challenge. In addition, students are expected to demonstrate an ability to deal with increasingly complex work-related concepts and problems. The work report, as a minimum requirement should 

1. analyze an issue/problem related to the student's work environment and demonstrate an understanding of practical application of concepts relative to the student's academic background.
2. demonstrate competence in creating a professional report, and 
3. show competence in written communication and presentation skills. 

Late reports will be graded as FAIL unless prior permission for a late report has been given by Co-operative Education.

299W Work Term III follows the successful completion of semester 7 or Work Term II. Students should have sufficient academic grounding and work experience to contribute in a positive manner to the problem-solving and assessment processes needed and practiced in the work environment. Students should become better acquainted with their discipline of study, should observe and appreciate the attitudes, responsibilities, and ethics normally expected of professionals and should exercise greater independence and responsibility in their assigned work functions.

The work report should reflect the growing professional development of the student and, as a minimum requirement, will 

1. demonstrate an increased ability to analyse a significant issue/problem related to the student's experience in the work environment
2. demonstrate a high level of competence in producing a professional report, and 
3. show a high level of competence in written communication and presentation skills.

Late reports will be graded as FAIL unless prior permission for a late report has been given by Co-operative Education.

10.3 Chemistry

Chemistry courses are designated by CHEM.

1010 Introductory Chemistry I examines descriptive chemistry; measurements; atoms; molecules; the mole; mole calculations and reaction stoichiometry; the balancing of redox reactions; gases; thermochemistry; introduction to chemical kinetics and equilibrium; acids and bases. 

AR: attendance is required in the laboratory component of this course.

Failure to attend may result in a failing grade or deregistration from the course.

CR: CHEM 1200
LC: 4
LH: 3 hours biweekly alternating with tutorials
OR: 1.5 hour tutorial alternating with labs
PR: it is recommended that students have successfully completed high school Academic Mathematics 3201, or a pass in any university level mathematics course
UL: only 6 science credit hours will be awarded for a major or honours in Chemistry from the following course groups: CHEM 1010/1011/the former 1031, or CHEM 1010/1050/1051, or CHEM 1810/1200/1001 (Grenfell Campus)

1011 Introductory Chemistry II examines atomic structure; periodic
properties; chemical bonding including VSEPR shapes and polarity; introduction to valence bond theory and hybridization; liquids, solids and intermolecular forces; solubility equilibrium; electrochemistry.

AR: attendance is required in the laboratory component of this course.

Failure to attend may result in a failing grade or deregistration from the course.

CR: CHEM 1001 and CHEM 1051

LH: 3

OR: 1.5 hour tutorial alternating with labs

PR: CHEM 1050

UL: only 6 science credit hours will be awarded for a major or honours in Chemistry from the following course groups: CHEM 1010/1011/the former 1031, or CHEM 1010/1050/1051, or CHEM 1810/1200/1001 (Grenfell Campus)

1050 General Chemistry I builds on basic chemistry concepts from high school. Topics include gases; thermochemistry; atomic structure; periodic properties; chemical bonding including valence bond theory; hybridization and introduction to molecular orbital theory; properties of liquids and solids.

AR: attendance is required in the laboratory component of this course.

Failure to attend may result in a failing grade or deregistration from the course.

CR: CHEM 1200

LC: 4

AR: attendance is required in the laboratory component of this course.

Failure to attend may result in a failing grade or deregistration from the course.

CR: CHEM 1001 and CHEM 1011

LC: 4

LH: 3

PR: CHEM 1010 with a grade of at least 60% or high school CHEM 3202 with a grade of at least 65%. It is also recommended that students have successfully completed high school Mathematics 3200 or 3201.

UL: only 6 science credit hours will be awarded for a major or honours in Chemistry from the following course groups: CHEM 1010/1011/the former 1031, or CHEM 1010/1050/1051, or CHEM 1810/1200/1001 (Grenfell Campus)

1051 General Chemistry II builds on CHEM 1050 topics and on basic chemistry concepts from high school. Topics include solutions, kinetics, chemical equilibrium, equilibria involving acids and bases including polyprotic acids, buffers, acid-base indicators, titration curves, solubility and complex ion equilibrium, thermodynamics, and electrochemistry.

AR: attendance is required in the laboratory component of this course.

Failure to attend may result in a failing grade or deregistration from the course.

CR: CHEM 1200

LH: 3

PR: CHEM 1010

AR: attendance is required in the laboratory component of this course.

Failure to attend may result in a failing grade or deregistration from the course.

CR: CHEM 1001 and CHEM 1011

LH: 3

PR: CHEM 1050

AR: attendance is required in the laboratory component of this course.

Failure to attend may result in a failing grade or deregistration from the course.

CR: the former CHEM 3100

LH: 4

PR: CHEM 1051 (or 1001 or the former 1031) with a grade of at least 60%
the chemistry of the s and p block elements and modern applications of inorganic chemistry in materials and nanotechnology.

AR: attendance is required in the laboratory component of this course.
Failure to attend may result in a failing grade or deregistration from the course.

LH: 3
PR: CHEM 2210, CHEM 2301 (or 2300), and CHEM 2302

3211 Inorganic Chemistry is a detailed examination of the structure, bonding, and chemistry of the d block elements.

AR: attendance is required in the laboratory component of this course.
Failure to attend may result in a failing grade or deregistration from the course.

LH: 3
PR: CHEM 2210, CHEM 2301 (or 2300), and CHEM 2302

3203 Statistical Thermodynamics and Rate Theories examines physical chemistry from the microscopic viewpoint. Topics include probability distributions, quantum statistical mechanics, statistical thermodynamics, ensembles, kinetics and introduction to statistical rate theories as well as an introduction to computational chemistry (lab).

AR: attendance is required in the laboratory component of this course.
Failure to attend may result in a failing grade or deregistration from the course.

CR: the former CHEM 3300
LH: 3
PR: CHEM 2301 (or 2300) and CHEM 2302 (or the former CHEM 3301) Mathematics 2000 and Mathematics 2050.

3410 Bio-organic Chemistry is a study of the major classes of biomolecules, their structure, function, and in vitro chemistry. An introduction to natural products. Synthetic polymers compared to biopolymers. Heteroaromatic molecules and derived biomolecules.

AR: attendance is required in the laboratory component of this course.
Failure to attend may result in a failing grade or deregistration from the course.

CR: the former CHEM 3401
LH: 3
PR: CHEM 2401. It is recommended that CHEM 3500 be taken concurrently.

3411 Synthetic Organic Chemistry I is a survey of some important reactions used in organic synthesis, including pericyclic reactions and those based on carbocation, carbene, nitrene and carbanion intermediates. Emphasis is placed on multifunctional compounds.

AR: attendance is required in the laboratory component of this course.
Failure to attend may result in a failing grade or deregistration from the course.

CR: the former CHEM 3400
LH: 3
PR: CHEM 3410, or all of CHEM 2401, Biochemistry 2100 and Biochemistry 2101

3500 Spectroscopic Analysis: Spectroscopy and Structure is the application of spectroscopic methods to the determination of molecular structure. Emphasis will be placed on electronic, vibrational and rotational spectroscopy, nuclear magnetic resonance spectroscopy and mass spectrometry.

AR: attendance is required in the laboratory component of this course.
Failure to attend may result in a failing grade or deregistration from the course.

LH: 3
PR: CHEM 2210, CHEM 2302 (or 2300) and CHEM 2401

3600 Marine Chemistry - inactive course.

4150 Advanced Spectrometric Techniques - inactive course.

4151 Analytical Separations and Organic Mass Spectrometry examines advances in the traditional chromatographic techniques, the development of new analytical tools in separation science, the interfacing of mass spectrometers to chromatographic instruments, and other mass spectrometric techniques.

AR: attendance is required in the laboratory component of this course.
Failure to attend may result in a failing grade or deregistration from the course.

LH: 3
PR: CHEM 3110 (or the former CHEM 4100 or the former CHEM 4101 or the former CHEM 4110)

4152 Electroanalytical Techniques examines the principles and theory of dynamic electrochemistry, voltammetry, stripping analysis, electro-chemical sensors and detectors.

PR: CHEM 3110 (or the former CHEM 4100 or the former CHEM 4101 or the former CHEM 4110)

4156 Analytical Method Development and Sampling comprises the development and critical evaluation of analytical methods and sampling protocols for analyses in complex matrices, including those relevant to environmental, medical, food, and forensic sciences.

AR = Attendance requirement; CH = Credit hours are 3 unless otherwise noted; CO = Co-requisite(s); CR = Credit can be retained for only one course from the set(s) consisting of the course being described and the course(s) listed; LG = Lecture hours per week are 3 unless otherwise noted; LH = Laboratory hours per week; OR = Other requirements of the course such as tutorials, practical sessions, or seminars; PR = Prerequisite(s); UL = Usage limitation(s).
10.4 Computer Science

Computer Science courses are designated by COMP.

10.4.1 First Year Courses

1400 Computing in the 20th Century and Beyond will give an overview of the development of computing technologies over the last 75 years as well as both the perception of these technologies by, and their impact on, society. The course will be organized chronologically by decade, and within each decade will examine the dominant computing developments, their image in various print and pictorial media, and their social impact. The aim is to give students of all disciplines an appreciation of the abilities and limitations of computer technology and how such technologies interact with society.

1510 An Introduction to Programming for Scientific Computing introduces students to basic programming in the context of numerical methods with the goal of providing the foundation necessary to handle larger scientific programming projects. Numerical methods to solve selected problems from Physics, Chemistry, and Mathematics will be covered.

1550 Introduction to Multimedia Application Development is an introduction to programming and computer science with an emphasis on the development of multimedia applications. The course introduces the fundamental principles of programming, including object-oriented and event-driven programming, how to use and create classes and methods and combine them with multimedia libraries to produce animations, handle input from keyboard and mouse, and import sounds and videos to produce multimedia applications which can be directly deployed on the Internet.

1600 Basic Computing and Information Technology offers an overview of the discipline of computing. It provides students with an understanding of basic concepts and necessary skills required to use spreadsheets, database and presentation software to manage, analyze, and present data.

1700 Introduction to Computer Science lays the foundation for the art and the science of computing. The course contains fundamental and topical issues in computers, languages, programming and applications. This course is designed for potential Computer Science majors without a background in programming, but is also available for non-majors.

1710 Object-Oriented Programming I is an introduction to fundamental programming techniques, primitive data types and operations, program control structures and the use of objects, classes and methods.

10.4.2 Second Year Courses

2000 Collaborative and Emergent Behaviour is a survey of computer science as a means of understanding, modelling, and describing artificial and natural systems. The emergence of complex behaviour from the interaction of simple rules governing individual components is illustrated and discussed, as well as the role of communication between system components. Selected systems to be studied will be drawn from different topic areas which may include, the worldwide web, the mind (cognitive science), formal logic, autonomous robotics, chaos and fractals, and bioinformatics. Each topic will incorporate an associated laboratory experience.

2500 Data Analysis with Scripting Languages introduces the use of scripting languages to solve common data analysis tasks. The control structures and expressions of the language are first discussed. Script solutions of statistical filtering and retrieving data sets, summarizing, transforming data sets, and performing numeric and statistical calculation are covered. Plotting and visualization for data sets are also presented.

2510 Programming in C/C++ is a comprehensive treatment of the C/C++ programming languages. It is intended for students with some first programming experience. This course starts with a discussion of fundamentals of C and C++, moves on to the object-oriented aspects of C++, and introduces some advanced topics. It is an essential course for mastering the power of this rich programming language.

2602 Computer Programming in FORTRAN - inactive course.

2650 Problem-Solving with Personal Computers is an overview of tools and techniques that current computer technology offers in a PC based networked environment. The emphasis is on conceptual understanding of the software, from exploring capabilities of the existing software tools to learning methods of extending these capabilities. The key topics include problem-solving strategies, visual programming, macro-language operations, object linking and embedding, digital communication, and navigating interactive web pages. The course has a practical flavour. In structured laboratory sessions, students gain proficiency in using personal computers for solving common problems.

2710 Object-Oriented Programming II continues from Object-Oriented Programming I, and studies object-oriented and event-driven programming. Additional topics include: recursion, basic analysis of algorithms, fundamental data structures such as simple linked structures and stacks, and fundamental computing algorithms such as binary search and quadratic time sorting. A brief overview of programming languages, virtual machines and language translations is also provided.

2711 Introduction to Algorithms and Data Structures introduces the study of standard ways of organizing and manipulating data in computer storage. Fundamental concepts in the design and analysis of algorithms are also discussed.

2718 Development Tools, Work Flows and Concepts covers tools, work flows and concepts used in software development in a concentrated introductory set of topics. The essential work flows (with their underlying concepts) used to edit, build, test, combine with existing software and find existing software are introduced. The tools covered include text editors, programming language translators, file management tools, debuggers, scripting tools, source control tools, and building, testing and deployment tools. The architecture and use of an Integrated Development Environment are discussed.

2742 Logic for Computer Science is an introduction to propositional and predicate logic with applications. The use of the system of boolean logic in reasoning and circuit design, as well as basic proof techniques and the resolution principle, for both propositional and predicate logic, will be covered. Concepts involving sets will be used to illustrate different types of proof techniques. The probable intractability of boolean logic and Goedel’s incompleteness theorem will be presented.

2752 Introduction to Business Data Processing - inactive course.

2760 Encountering the Computer: Society and the Individual examines social, ethical, legal and cultural issues surrounding the use of computers in modern society. These broader social issues are followed by an examination of the use of social and individual psychology in user interface design. Students will be expected to demonstrate an understanding of these issues both directly (through verbal and written discourse) and practically, as applied to the creation of actual software artifacts.

2801 Introductory Computing for Business introduces students to computer applications in business, document processing, application development, decision support, and information management. A three hour laboratory is required.

AR = Attendance requirement; CH = Credit hours are 3 unless otherwise noted; CO = Co-requisite(s); CR = Credit can be retained for only one course from the set(s) consisting of the course being described and the course(s) listed; LC = Lecture hours per week are 3 unless otherwise noted; LH = Laboratory hours per week; OR = Other requirements of the course such as tutorials, practical sessions, or seminars; PR = Prerequisite(s); UL = Usage limitation(s).
10.4.3 Third Year Courses

3550 Introduction to Bioinformatics (same as Biology 3951) deals with the development and application of computational methods to address biological problems. The course will focus on the fundamental concepts, ideas and related biological applications of existing bioinformatics tools. This course will provide hands-on experience in applying bioinformatics software tools and online databases to analyze experimental biological data, and it will also introduce scripting language tools typically used to automate some biological data analysis tasks.

CR: Biology 3951
LH: 3
PR: Biology 2600 or Biochemistry 2101, and one Computer Science course at the 1000-level or above excluding COMP 1400, COMP 1600 and COMP 2000; or COMP 2500 or COMP 2710, and one Biology course at the 1000-level or above excluding Biology 2040 and Biology 2041; or permission of the course instructor

3700 Industrial Experience is a course for students who are admitted to CIIO. Students are required to register for this non-credit course every semester during their internship. This course is open only to students who have been accepted into the Internship Program and provides an opportunity for qualified students to obtain rewarding job experience of 8, 12 or 16 months of continuous duration, during the course of their studies.

PR: admission to the Computer Industry Internship Option (CIIO)

3710 Vocational Languages is a study of several programming languages of vocational significance. The use of appropriate programming paradigms to solve some significant problems will be illustrated.

PR: COMP 2711

3714 Programming Languages and their Processors - inactive course.

3715 Network Computing with WEB Applications studies how distributed applications (e.g., client/server Web applications) are constructed using the Internet and TCP/IP. Topics covered include: the socket interface for network communication, client/server applications, browser scripting using Javascript, content generation for web applications (e.g., jsp, php), html/css documents, and the use of cryptography to handle security.

PR: COMP 2711

3716 Software Methodology studies the development of software by gathering the requirements of the software program, analysing the requirements to create a development model, and creating the software and documents for the software product. This course studies techniques for all three software development activities.

PR: COMP 2711

3717 Symbolic Computation and Recursion - inactive course.

3718 Programming in the Small demonstrates the tools and techniques used in the construction of small software systems. The software tools and techniques to be covered include analysis and design of software components, software construction tools (e.g. linkers, builders, debuggers), software library use and design, and system integration.

PR: COMP 2711

3719 Theory of Computation and Algorithms is an introduction to formal algorithmic problem solving. Various algorithm design techniques that sometimes yield efficient solutions are studied. Deterministic and nondeterministic machines (finite state automata, pushdown automata and Turing machines) are discussed and used to efficiently solve problems such as the String Matching Problem, the parsing of Context-free Languages, and to introduce the theory of NP-completeness. In addition, Turing machines are used to prove the unsolvability of certain problems. Tractable, intractable and undecidable problems are contrasted. Basic issues related to parallelization are discussed as well.

CR: the former COMP 3711 and the former COMP 3740
PR: COMP 2711 and Mathematics 2320

3723 Logic Design - Inactive course.

3724 Computer Organization can be studied at the digital logic implementation level, the instruction set architecture level, and the translation of programming languages to the underlying machine instruction level. This course studies computer organization at these levels.

PR: Mathematics 2320

CO: Mathematics 2320
LH: 3
PR: COMP 2711 and COMP 2742

3725 Computer Architecture and Operating Systems covers system design and the architectural implementations of these designs. The objective is to develop the basic concepts of processor design, memory management, operating systems, and I/O devices and their interactions.

PR: COMP 3724

3731 Introduction to Scientific Computing main objectives are the development of algorithms for the numerical solution of mathematical problems and a study of the numerical stability of these algorithms. The efficiency of these algorithms with respect to speed and storage requirements is considered as well. Emphasis is also placed on the study of the sensitivity of selected problems to perturbations in the data. There is also a brief introduction to the development of numerical algorithms that take advantage of advanced computer architectures, such as pipeline processors, array processors and parallel processors.

CR: Mathematics 3132
PR: Mathematics 2000 and Mathematics 2050, and one of COMP 2602 or COMP 2710

3751 Computational Aspects of Operations Research - inactive course.

3753 Computational Aspects of Linear Programming is an introduction to linear and integer Programming Problem (LPP). The emphasis is placed upon developing the most recent and numerically reliable algorithms for the solution of the Linear Programming Problem. The numerical stability of these algorithms will be examined as well. Geometric understanding of the LPP Simplex method for the LPP is introduced. Linear regression analysis. Extensions to the simplex algorithm. Principles of interior algorithms for the LPP.

PR: Mathematics 2050, and one of COMP 2602 or 2710

3754 Introduction to Information and Intelligent Systems introduces students to application areas that are away from usual number-based and text-based processing. Students will learn the basic concepts and become aware of the historical developments and social and ethical issues related to the application areas such as intelligent systems and information management. This exposure will help students to become knowledgeable about managing large volumes of data and dealing with problems that are well defined but whose algorithmic solutions are not feasible or problems that are fuzzy defined.

PR: COMP 2711 and COMP 2742

3790 Directed Readings - inactive course.

10.4.4 Fourth Year Courses

4500 Bioinformatics: Biological Data Analysis (same as Biology 4606) provides students with the basis to analyse a variety of biological data within an integrated programming environment for data manipulation, calculation and graphical display. Students will learn to extract meaningful information from data generated by high-throughput experimentation. The course will introduce one such integrated programming environment and will explore the computational and statistical foundations of the most commonly used biological data analysis procedures.

CR: Biology 4606
LH: 3
PR: Biology 3951 or COMP 3550, and Statistics 2550 (or equivalent), or permission of the course instructor

4711 Structure of Programming Languages covers programming language design considerations; syntactic and semantic structure; survey of typical features and operations; analysis of facilities for control and data structuring; language extensibility; execution models; formal specification of programming languages.

PR: COMP 3719 and COMP 3724

4712 Compiler Construction studies properties of formal grammars and languages; syntax-directed parsing and code generation; top-down and bottom-up parsing methods; LL(k) and LR(k) grammars and parsers; Code optimization; compiler writing tools.

PR: COMP 3719 and COMP 3724

4715 and 4717 Special Topics in Programming Languages

4718 Survey of Software Engineering surveys the major topics of software engineering. Areas covered include: requirements capture, system design and design approaches, verification and validation (including formal methods and testing), and management of the software development process.

PR: COMP 3716

4719 Software Specification - inactive course.

4721 Operating Systems studies the design and implementation of an operating system’s kernel. The main components used in operating system implementations include: context switches, process management, memory management, interprocess communication, file systems and system calls. The data structures and algorithms used in implementing the above components are studied. The different architectural styles of kernel implementation are also considered. Real-time operating systems are also discussed.

CR: Engineering 8984
PR: COMP 3725

4723 Introduction to Microprocessors examines the architecture and instruction sets for several microprocessors. The use of microprocessors as device controllers; comparisons of hardware and programmed techniques; microprocessor interfacing with external devices; methods of I/O; bus structures; modern microprocessor support circuits are covered.

LH: Minimum of three hours per week. Practical experience with basic...
principles will be obtained through laboratory experience.  
PR: COMP 3724  
4725 Introduction to LSI Design  - inactive course.
4726-4729 Special Topics in Computer Systems
4734 Matrix Computations and Applications is an introduction to linear algebra; solution to linear systems; scaling, improving and estimating accuracy; the linear least squares problem; the eigenvalue problem; singular value decomposition of a matrix; the generalized eigenvalue problem.  
PR: COMP 3731
4735 Advanced Matrix Computations and Applications  - inactive course.
4736-4739 Special Topics in Numerical Computations will have topics to be studied announced by the Department.
4740 Design and Analysis of Algorithms will give an overview of techniques for the design of efficient optimal-solution and heuristic algorithms. It will include an introduction to various advanced data structures for set and string processing that are used to further optimize algorithm efficiency.  
PR: COMP 3719
4741 Formal Languages and Computability is an in-depth study of various types of formal machines and their associated languages. Effective computability and other formalisms, such as lambda calculus will be studied as well.  
CR: the former COMP 3740
PR: COMP 3719
4742 Computational Complexity is an in-depth discussion of computational complexity theory. Topics covered in the course include: models of computation (for both sequential and parallel computation), complexity classes; reducibility; complexity classes (NP, PSPACE, NC, LOGSPACE and P); and randomized computations.  
PR: COMP 3719
4743 Graph Algorithms and Combinatorial Optimization discusses classical algorithms in combinatorial optimization and graph algorithms, including matching, colorability, independent sets, isomorphism, network flows and scheduling. Special families of graphs are discussed and algorithms that would otherwise be NP-hard or complete are shown to be polynomial time when restricted to such families.  
PR: COMP 3719
4745-4749 (Excluding 4748) Special Topics in Theoretical Aspects
4748 Introduction to the Science of Complexity is an exploration of the use of computers in the simulation of complex systems. Some theories and models, such as cellular automata, artificial life, fractals, genetic algorithms, chaos, and evolution will be discussed and will be used in the modeling of "real-life" systems. The approach in this course is practical. Students have to write a number of programs of different levels of sophistication including a final project.  
PR: COMP 3719
4750 Introduction to Natural Language Processing covers tasks involving human languages, such as speech recognition, text understanding, and key word-based information retrieval which underlie many modern computing applications and their interfaces. To be truly useful, such natural language processing must be both efficient and robust. This course will give an introduction to the algorithms and data structures used to solve key NLP tasks, including utterance understanding and generation and language acquisition; in both of the major algorithmic paradigms used today (rule-based and statistical). The emphasis will be primarily on text-based processing though speech-based processing will be addressed where possible.  
PR: COMP 3719 and Statistics 1510
4751 Computer Graphics examines display devices, display processors, display file compilers, display transformations, structured display files, graphical input devices, perspective, hidden line elimination, languages and graphics systems.  
LH: 3  
PR: COMP 3719 and Mathematics 2050
4752 Introduction to Computational Intelligence provides an introduction to four of the fundamental computational intelligence methods: artificial neural networks, evolutionary computation, symbolic representation, and fuzzy logic. The integration of these techniques for problem solving will also be introduced.  
PR: COMP 3719 and COMP 3754
4753 Artificial Intelligence has selected topics from AI programming languages; heuristic searching; problem solving; game-playing; knowledge representation; knowledge-based systems; reasoning in uncertainty situations; planning; natural language understanding; pattern recognition; computer vision; and machine learning.  
PR: COMP 3719 and 3754
4754 Database Systems introduces students to database processing, database management systems and database design considerations. It will cover the theory and methodologies essential for the relational database design, implementation, manipulation, optimization and management.  
PR: COMP 3725 and 3754
4756 Image Processing will centre on the key analytical and algorithmic tools and concepts of digital image processing. Topics will include Transformations, Enhancement, Encoding, Data Bases, Segmentation and Description.  
PR: COMP 3719
4759 Computer Networks looks at how the operation of computer networks requires the following: a) communication between two computers, b) information transfer between two computers not directly connected, and c) the services that need computer communication. This course focuses on the standard solutions and services used to fulfill the previous requirements. These include: physical transmission of signals, reliable communication based on unreliable communication channels, the routing of messages between connected computers to reach computers that are not directly connected, e-mail, file transfer, name servers, remote terminal access and the World Wide Web. Particular attention will be placed on the workings of the Internet.  
PR: COMP 3715 and COMP 3725
4761 Human-Computer Interaction  - inactive course.
4762 Introduction to Computational Molecular Biology will give an overview of computational problems and algorithms for these problems associated with a variety of analyses of biological molecular data.  
PR: COMP 3719
4766 Introduction to Autonomous Robotics examines the fundamental constraints, technologies, and algorithms of autonomous robotics. The focus of this course will be on computational aspects of autonomous wheeled and mobile robots. The following topics will be covered: major paradigms in robotics, methods of locomotion, kinematics, simple control systems, sensor technologies, stereo vision, feature extraction, modelling uncertainty of sensors and positional information, localization, SLAM, obstacle avoidance, and 2-D path planning.  
LH: One and one-half hours per week  
PR: COMP 2711, Mathematics 2000, Mathematics 2050, and Statistics 1510 or 2550 or the former Statistics 2510
4767 Information Visualization and Applications focuses on the design and implementation of interactive visualization techniques for the analysis, comprehension, exploration, and explanation of large collections of abstract information. Topics to be covered include principles of visual perception, information, data types, visual encodings of data, representation of relationships, interaction methods, understanding user goals and tasks, and evaluation techniques. Case studies of accepted techniques and the current state-of-the-art in information visualization will be presented.  
PR: COMP 2760 and COMP 3719
4768 Software Development for Mobile Devices focuses on the design and implementation of software in a mobile networking environment. The primary topics to be covered in this course include software engineering, network computing, graphics programming, and human-computer interaction for mobile devices. A modern mobile device with advanced networking and graphic features, including multi-touch interaction and motion sensors will be used as the primary platform for development in this course.  
PR: COMP 2760, COMP 3715 and COMP 3719
4770 Team Project has as its main objective to develop a working prototype of a software system as a team effort. A group of students work on a project for a term, experiencing the advantages and difficulties of team projects.  
AR: attendance is required  
PR: COMP 3715, COMP 3716, COMP 3724, and COMP 3754
4780 Honours Project introduces computer science honours students to research activities, familiarizes them with a special problem in computer science, and provides independent study on an advanced topic under the direct supervision of a member of the computer science faculty. The topic is determined in consultation with the supervisor. The student will produce a written report on the project, to include the literature search on the topic, and to present this work at a departmental seminar prior to the last week of the semester.  
PR: admission to the honours program and permission of the Head of Department
4800-4825 Special Topics will be offered as departmental resources permit.  
CO: Special topics courses are not offered on a regular basis, but whenever departmental resources permit. For these reasons, the co- requisites can vary each time the courses are offered.  
PR: Special topics courses are not offered on a regular basis, but whenever departmental resources permit. For these reasons, the
prerequisites can vary each time the courses are offered.

10.5 Earth Sciences

The first digit of each course number designates the level (year) of the course. The second digit indicates the area of Earth Sciences into which the course best fits, as follows:

**Second Digit**

0 - mineralogy and petrology
1 - geophysics
2 - economic geology
3 - stratigraphy and marine geology
4 - structural geology and tectonics
5 - geochemistry
6 - environmental geoscience and technical fields
7 - sedimentation, petroleum geology and geomorphology
B - paleontology
G - general and dissertation

Earth Sciences courses are designated by EASC.

10.5.1 First Year

**1000 Earth Systems** is a survey of the structure, function and interrelations of Earth’s lithosphere, hydrosphere, atmosphere and biosphere. Topics include an exploration of the physical and chemical properties of planetary materials, forces driving and sustaining Earth systems, and biological modifiers (including humankind) on the Earth today.

LH: 3

**1001 Evolution of Earth Systems** - inactive course.

**1002 Concepts and Methods in Earth Sciences** provides an introduction to a broad range of concepts concerning the development of the geological record and the Earth; practical methods for collection of field based data; topics in map interpretation and geometric analysis, stratigraphy, paleontology, structure and petrology. The course is presented with an emphasis on the development of practical skills needed to pursue a career in Earth Sciences.

LH: 3
PR: EASC 1000

**10.5.2 Second Year**

**2030 Mineralogy** provides an introduction to crystallography and the structure of minerals; introduction to crystal optics; study of the rock forming minerals and minerals of economic significance. Laboratory work comprises study of the structures and symmetries of minerals, chemistry of rock forming minerals, introduction to transmitted light microscopy of rocks, hand specimen recognition of common rocks and minerals.

CO: EASC 2502
CR: the former EASC 203A/B
LH: 3
PR: EASC 1000 and 1002, Chemistry 1051 (or 1011 or 1001), Physics 1051 (or 1021 or 1054), and Mathematics 1000

**2031 Mineralogy and Petrography** examines the optical and chemical properties of rock-forming minerals, the petrography and classification of igneous and metamorphic rocks and applications of relevant phase equilibria to the study of minerals. Laboratory work comprises optical mineralogy and petrography of igneous and metamorphic rocks.

CO: Mathematics 1001
CR: the former EASC 203A/B
LH: 3
PR: EASC 2030, 2502, Mathematics 1001

**2150 The Solar System** describes the basic astronomy of the Solar System, tracing the search to understand motion of the Sun, Moon and planets in the sky; modern observations of planets, moons, comets, asteroids and meteorites and what they tell us about the origin and evolution of the Solar System.

UL: not acceptable as one of the required courses for the Minor, Major or Honours programs in Earth Sciences

**2311 Geoscience Communication** is an introduction to the fundamentals of preparation of written and oral geoscience reports, emphasizing organization, correct use of terminology, concise description, preparation of abstracts and introductions, integration of numerical data and publication-quality illustrations, and oral presentation skills. Topics for reports will be selected from the subject matter of other 2000 level Earth Sciences courses.

LH: 2
OR: tutorials three hours per week
PR: Earth Sciences 2905 and 6 credit hours in English

**2401 Structural Geology** provides an introduction to basic concepts; the physics of rock deformation, the classification and descriptive geometry of major and minor structures and their relationship to stress and strain.

Laboratory work will concentrate on analysis of structural orientation data, and the analysis of structures in geological maps and cross-sections. Earth Sciences majors are advised to complete field course, EASC 3905, immediately following completion of this course.

CR: the former Geology 3120 or the former EASC 3120 or the former EASC 3400
LH: 3
PR: EASC 2905 or (for students following a Minor in Earth Sciences) permission of the Head of the Department

**2502 Introduction to Geochemistry** provides an overview of both low- and high-temperature geochemistry. Topics include: origin and classification of minerals, chemical differentiation of the solar system, the internal Earth; aqueous geochemistry and the stability of minerals, radiogenic and stable isotopes. Geochemical concepts are illustrated using data and processes drawn from Earth systems. The laboratory component emphasizes the development of numerical skills needed in geochemistry.

CO: Mathematics 1001
LH: 3
PR: EASC 1000 and 1002, Chemistry 1051 (or 1011 or 1001)

**2702 Sedimentology and Stratigraphy** is a study of the origin and composition of sediments with a focus on depositional processes and resulting sedimentary structures. Study of environments of deposition and the stratigraphic framework of sedimentary successions. Laboratories involve local field trips, petrographic analysis, and the study of hand samples of sedimentary rocks.

CR: the former Geology 3070 or the former EASC 3070 or the former EASC 3701
LH: 3
PR: EASC 1002

**2805 Introduction to Geological Mapping** is based on approximately six days of geological mapping in Precambrian rocks near St. John’s, and two days of in-class work preparing a digital map and written report. Emphasis is placed on the recognition and description of sedimentary and igneous rocks in the field, and techniques of geological mapping and the taking of field notes. This course will be given during a special session immediately preceding the fall semester.

AR: attendance is required
CH: 2
CR: the former EASC 2310 or the former EASC 2300
OR: field based course
PR: EASC 1002 and an application to the Head of the Department

**2914 The Earth’s Energy Resources: Past, Present and Future** - inactive course.

**2915 The Earth’s Material Resources: Past, Present and Future** - inactive course.

**2916 Natural Hazards on a Dynamic Earth** describes the surface of the Earth being in a constant state of change, thereby posing risks and challenges for society. An understanding of geological processes in the past and present provides context for evaluating risks related to earthquakes, volcanic activity and mass movements, challenges related to water resources, land-use planning and waste disposal, and the background to interpret sources and consequences of climate change. The course will provide a broad perspective on contemporary issues facing society. This course is designed for students taking Earth Sciences as an elective subject. This course complements traditional disciplines such as history, economics, and political science and should be of particular interest to teachers.

UL: not acceptable as one of the required courses for the Minor, Major or Honours programs in Earth Sciences.

**2917 Gems: The Science and Politics** introduces students to precious and semi-precious stones both from the perspective of their nature and origin.

AR = Attendance requirement; CH = Credit hours are 3 unless otherwise noted; CO = Co-requisite(s); CR = Credit can be retained for only one course from the set(s) consisting of the course being described and the course(s) listed; LC = Lecture hours per week are 3 unless otherwise noted; LH = Laboratory hours per week; OR = Other requirements of the course such as tutorials, practical sessions, or seminars; PR = Prerequisite(s); UL = Usage limitation(s).
and from the perspectives of geography and the socio-political issues of mining, recovery, trade and cartels. The properties that confer value upon gems (colour, clarity, cut and carat), the techniques used to enhance, fake and forge gems and the techniques used to detect fraudulent "gems" will be covered. The course will include discussion of the diamond industry in Canada and consideration of some famous gems. This course is designed for students taking Earth Sciences as an elective subject. This course complements traditional disciplines such as history, economics, and political science and should be of particular interest to teachers.

10.5.3 Third Year

3030 Mineralogy and Materials Science provides a review of elementary crystallography, introduction to space groups and crystal structures, bonding, properties of metals, semiconductors and insulators, crystallographic aspects of order-disorder, solid solution and mixing. Crystal growth, chemical zoning and diffusion. Phase changes in the solid state (exsolution, polymorphism and polytypism). Students will be introduced to the techniques used to study solids (X-ray diffraction, scanning and transmission electron microscopy, electron-microprobe analysis, luminescence, and computer simulation). Laboratory work will emphasize practical aspects of these techniques. Examples will be chosen from among minerals, ceramics, semiconductors, metals and glass, making the course suitable for Earth Scientists, Engineers, Chemists and Physicists.

LH: 3
PR: EASC 2031 or permission of the instructor

3054 High-Temperature Geochemistry and Igneous Petrology is an integrated course dealing with the geochemistry, origin and classification of igneous rocks. Topics include trace element geochemistry; physical properties of magmas, physical and chemical processes in magma chambers (crystallization, differentiation, assimilation and partial melting), phase equilibria and application to magmas, petrology of the mantle, and igneous rocks of specific tectonic settings (oceanic lithosphere, continental margins, continental lithosphere). Laboratories include geochemical calculations and examination of rock samples and thin sections.

CR: the former EASC 3053 in combination with the former 2503
LH: 3
PR: EASC 2031 and 2502

3055 Thermodynamics and Metamorphic Petrology is an integrated course dealing with the geochemistry, origin and classification of metamorphic rocks. Topics include thermodynamic background and kinetics (transformation of metallic mineral deposits and provide an introduction to the use of mining, recovery, trade and cartels. The properties that confer value upon gems (colour, clarity, cut and carat), the techniques used to enhance, fake and forge gems and the techniques used to detect fraudulent "gems" will be covered. The course will include discussion of the diamond industry in Canada and consideration of some famous gems. This course is designed for students taking Earth Sciences as an elective subject. This course complements traditional disciplines such as history, economics, and political science and should be of particular interest to teachers.

10.5.3 Third Year

3030 Mineralogy and Materials Science provides a review of elementary crystallography, introduction to space groups and crystal structures, bonding, properties of metals, semiconductors and insulators, crystallographic aspects of order-disorder, solid solution and mixing. Crystal growth, chemical zoning and diffusion. Phase changes in the solid state (exsolution, polymorphism and polytypism). Students will be introduced to the techniques used to study solids (X-ray diffraction, scanning and transmission electron microscopy, electron-microprobe analysis, luminescence, and computer simulation). Laboratory work will emphasize practical aspects of these techniques. LH: 3
PR: EASC 2031 or permission of the instructor

3054 High-Temperature Geochemistry and Igneous Petrology is an integrated course dealing with the geochemistry, origin and classification of igneous rocks. Topics include trace element geochemistry; physical properties of magmas, physical and chemical processes in magma chambers (crystallization, differentiation, assimilation and partial melting), phase equilibria and application to magmas, petrology of the mantle, and igneous rocks of specific tectonic settings (oceanic lithosphere, continental margins, continental lithosphere). Laboratories include geochemical calculations and examination of rock samples and thin sections.

CR: the former EASC 3053 in combination with the former 2503
LH: 3
PR: EASC 2031 and 2502

3055 Thermodynamics and Metamorphic Petrology is an integrated course dealing with the geochemistry, origin and classification of metamorphic rocks. Topics include thermodynamic background and kinetics (transformation of metallic mineral deposits and provide an introduction to the use of
laboratory techniques.  
CR: Geography 3150  
LH: 3  
PR: EASC 2905 or Geography 2120; Mathematics 1000

3702 Lithification, Diagenesis and Sedimentary Rock Properties  
provides a conceptual and practical overview of the transformation of sediments into sedimentary rocks through compaction, cementation and mineral reactions, and the resultant modifications of rock composition, rock fabric, and associated porosity and permeability characteristics (e.g. porosity). Both descriptive and analytical methods are integrated in laboratories that include carbonate and sandstone petrology (hand samples and thin sections), geological analysis of selected wireline logs, and the analysis of fluid reservoir properties.  
LH: 3  
PR: EASC 2031, 2702 and 2905

3705 Field Course in Sedimentology, Reservoir Architecture and Sequence Stratigraphy  
is a ten day field and lecture based course normally offered in the first two weeks of the Spring semester that aims to teach students to use sedimentological and palaeontological data for palaeoenvironmental analysis. The course will demonstrate the use of sedimentary facies models and facies architectural studies in reservoir geology, particularly when coupled with the principles of sequence stratigraphy. Students will be taught to create sedimentary logs and facies architectural panels.  
CO: EASC 3811, 3905  
CR: the former EASC 4700 or the former Geology 4700  
OR: field based course  
PR: EASC 2702, 3811, 3905

3811 Paleontology  
outlines the major changes in life forms from Archean times through the Phanerozoic to the present day, including details of the major groups and major floral and faunal groups; mechanisms and effects of mega- and micro-evolution in the fossil record; biology and classification of organisms and summaries of their geological significance in biostratigraphy, paleoecology and rock-building; relationships between major cycles of evolution and extinction to global processes.  
CR: Biology 3811 or either the former EASC 3801 or the former Biology 3800  
LH: 3  
PR: either Biology 2120 (or Biology 1001 and 1002) and EASC 1002; or Biology 2122 and 2210

3905 Field Methods in Structural Geology and Stratigraphy  
is based on approximately 5 days of geological mapping in Precambrian rocks near St. John’s. Emphasis is placed on application of techniques of structural geology. Evenings will be dedicated to data analysis and preparation of structural maps and sections. Students are advised to complete this course immediately following EASC 2401. This course will be offered during a special session immediately following the examination period in a given semester.  
AF: attendance for all of the field school days is required. Failure to attend may result in a failing grade or withdrawal from the course.  
CH: 1  
OR: field based course  
PR: EASC 2401 and 2905 and an application to the Head of the Department

10.5.4 Fourth Year

4053 Petrogenesis of Igneous Rocks  
investigates the origin of topographic and impregnated igneous rocks based on experimental petrology, phase equilibria and application of geochemical tools. It further investigates the classification of igneous rocks, including the study of volcaniclastic rocks and aspects of physical volcanology. The laboratory component of the course is designed to acquaint students with those aspects of igneous petrology, particularly petrogenetic and experimental geochemistry, and application of the modern approach of geological analysis and analytical interpretation of igneous petrologic and experimental petrologic data.  
LH: 3  
PR: EASC 3054 and 3420

4054 Metamorphic Petrology  
examines relationships between metamorphic mineral assemblages and the pressure-temperature conditions that are used in the interpretation of metamorphic mineral assemblages; field mapping of metamorphic rocks; and the application of metamorphic mineral equilibria in the study of metamorphic rocks.  
PR: EASC 2401, 3055 and 3420

4105 Field Course in Applied Geophysics  
is a field based course with an emphasis on environmental and mineral exploration applications. It consists of a data collection module normally offered during a special session immediately before the Fall semester, followed by a processing and interpretation module during the first part of the Fall semester. Field techniques used may include ground probing radar, refraction seismology, magnetic surveying, gravimetry, electrical and electro-magnetic methods. For computer based processing, students make use of modern mapping and geophysical software.  
AR: attendance required  
OR: field-based course  
PR: EASC 3170, 3172 and Mathematics 2000

4171 Advanced Seismology  
examines techniques involved in the acquisition, processing and interpretation of multichannel seismic reflection data. Introductory to elastic properties of rocks. Introduction to advanced processing and interpretation techniques as applied to qualitative and quantitative evaluation of hydrocarbon reservoir characteristics. This course has a laboratory component designed to provide hands-on experience with data processing and interpretation.  
LH: 3  
PR: EASC 3170 and 4179

4173 Advanced Electrical, Electromagnetic and Potential Fields Methods  
examines advanced techniques in electrical and electromagnetic exploration methods including advanced IP, airborne EM surveys, EM and IP modelling, and inversion techniques: advanced methods in gravity and magnetic field exploration techniques including 2-D and 3-D modelling and inversion, map processing techniques, and excess mass determination.  
PR: EASC 3170, 3172, 4179, and Physics 2820

4179 Digital Signal Processing  
is an introduction to the theory and basic computational techniques of digital signal processing in geophysics. Topics covered include: sampling, Fourier transformation, design and application of digital filters, decimation, spectral analysis, two dimensional signal processing, with emphasis on geophysical applications.  
LH: 3  
PR: EASC 3170, 3172, and 3179

4211 Economic Geology  
provides a detailed look at the methodologies and techniques used in the study of mineral deposits and their applications in industrial processes. Laboratory exercises involve solving problem sets using the various types of data from selected case studies.  
LH: 3  
PR: EASC 3054 or 3055; and 3210

4302 Advanced Marine Geology  
examines the geology and geophysics of ocean basins, discussions of oceanic processes, the formation of ocean basins, interrelationships between ocean water, marine organisms, sedimentary and igneous processes.  
PR: EASC 1001 or 1002 and completion of any 15 credit hours in core courses at the 3000 and/or 4000 levels (see General Note 5) in Biology, Biochemistry, Chemistry, Earth Sciences, Physics, or Geography.

4310 Earth Science Concepts, Materials and Techniques for Archaeologists  
inactive course.

4400 Advanced Techniques in Structural Geology  
examines modern techniques of structural analysis applied to fold and fault systems including progressive deformation and strain analysis, fold mechanisms, fold methodology and classification, fold systems and profiles, superposed folding, fault geometry and morphology, brittle and ductile shear zones, and construction of balanced cross-sections.  
LH: 3  
PR: EASC 2401 and 3905 and a minimum of 6 credit hours in Earth Sciences at the 3000 level

4405 Field Course on the Geology of Newfoundland  
is a field-based course consisting of in-class lectures and student seminars, and a week-long field trip within the island of Newfoundland. The classroom portion of the course may be offered in an accelerated format. The course provides an introduction to the geological history and tectonic development of Newfoundland. The field portion of the course will normally be offered during a special session either preceding or following any given semester.  
OR: lecture and field-based course  
PR: 15 credit hours in Earth Sciences at the 3000 and/or 4000 levels including EASC 3420, and permission of the instructor

4420 Tectonics and Crustal Evolution  
is a lecture and seminar course covering secular change and tectonic evolution in Earth history from the Proterozoic to Mesozoic, featuring examples from the North American and Atlantic geologic record. The course will draw on and link concepts from a variety of Earth Science disciplines and provide an overview of the geological evolution of North America in a tectonic context.  
CR: the former EASC 4900  
OR: seminar  
PR: EASC 3420

4502 Advanced Geochemistry  
focuses primarily on the application of trace, radiogenic and stable isotope geochemistry to constrain the origin, evolution and chemical fluxes within Earth’s lithosphere and asthenosphere. The course permits students to complete assignments in aspects of geochemistry that reflect their career interests.  
LH: 3
4503 Mineral Exploration Geochemistry is an examination of the application of geochemistry to mineral exploration, covering: the lithogeochemical characteristics of ore deposits, their host rocks, and element dispersion from them; the principles of sampling and analysis in exploration geochemistry; approaches to the statistical analysis, graphical presentation, and interpretation of survey results; and the design of effective geochemical surveys. Particular emphasis will be placed on case studies relevant to exploration in Newfoundland and Labrador. Laboratory/seminar sessions involve working with exemplary data sets, using computer-based software for statistical analysis and software for searching large databases and viewing the spatial relationships of different types of map data relevant to the mineral exploration industry.

LH: 3
OR: seminar
PR: EASC 3210

4601 Petroleum Origin and Occurrence - inactive course.

4605 Environmental Geoscientific Field School is a field-based course normally offered during a special session immediately before the Fall semester followed by laboratory analytical work during the Fall semester. The aim of this course is to investigate anthropogenic impacts on the environment using geochemical, hydrological, and microbial methods. Emphasis is placed on site investigation, sample collection and preparation techniques, instrumental analysis, and data analyses.

AR: attendance required
OR: field-based course
PR: EASC 2502, EASC 3600, Mathematics 1001, and one of Mathematics 2000, Statistics 2550, or the former Statistics 2510

4620 Contaminant Hydrogeology examines the physical and chemical processes controlling groundwater contamination. Methods for numerical modeling of groundwater flow and contaminant transport are discussed. Students gain hands-on experience using computer software packages to solve practical problems.

LH: 3
PR: EASC 3610 (or the former EASC 4610) or Environmental Science 4479 or permission of instructor

4702 Sedimentary Basins and Hydrocarbon Exploration (same as the former EASC 4602) provides a review of sedimentary basin types and associated petroleum systems including concepts applicable to petroleum generation, migration and accumulation. Regional-scale stratigraphic and structural concepts/models are presented as a framework for hydrocarbon fluid flow and entrapment. Laboratories include description and analysis of data typical of basin- and regional-scale exploration and appraisal of hydrocarbon resources using a variety of integrated, interdisciplinary techniques (geological, geophysical and geochemical).

CR: EASC 4601 and the former EASC 4602
LH: 3
PR: EASC 2401, 2702, 3170 and 3420

4703 Environmental Change and Quaternary Geography (same as Archaeology 4150 and Geography 4150) covers methods of investigating Quaternary environments; effects of Quaternary environmental change on landforms, with special reference to North America; development and characteristics of glacial and non-glacial climates.

CR: Archaeology 4150, Geography 4150
LH: 3
PR: 6 credit hours in Earth Sciences or Physical Geography courses at the 3000 level; or permission of the instructor

4704 Reservoir Characterization (same as the former EASC 4603) prepares students for the selection, commission of the Head of the Department, and hydrocarbon reservoirs and the geological controls on reservoir quality. Reservoir types and methods of study are presented to evaluate their key properties for the development and production of hydrocarbons. Laboratories include detailed subsurface correlation and mapping, log analysis, interpretation of reservoir data (e.g. capillary pressure, porosity, permeability and production data).

CR: EASC 4601 and the former EASC 4603
LH: 3
PR: EASC 2401, 2702, 3170 and 3702

4720 Carbonate Depositional Environments and Diagenesis examines carbonate environments and their facies models with examples from modern and ancient settings. Diagenetic environments and diagenetic controls on modern carbonates, particularly porosity, are examined as well as their application in the reconstruction of the diagenetic history of a sedimentary basin and in the characterization of hydrocarbon reservoirs. The application of chronostratigraphy to correlation is discussed. The laboratory exercises apply specific field and chemical methods to investigate carbonates from different depositional settings and a wide spectrum of diagenetic environments covered in lectures.

CO: EASC 3811
LH: 3

4800 Advanced Paleontology (same as Biology 4800) is a field, lecture, laboratory and seminar course dealing with selected topics in general and applied paleontology. Topics include measuring evolution and extinction, paleontological communities, and paleobiology. Particular emphasis will be placed on case studies relevant to exploration in Newfoundland and Labrador. Laboratory/seminar sessions involve working with exemplary data sets, using computer-based software for statistical analysis and software for searching large databases and viewing the spatial relationships of different types of map data relevant to the mineral exploration industry.

CR: Biology 4800
LH: 3
PR: EASC 3811, and Statistics 2550 or the former Statistics 2510 or Mathematics 2000

4902 Early Evolution of the Earth - inactive course.

4903 Global Change is a lecture and seminar course that studies the interaction of the atmosphere, biosphere and lithosphere; topics covered include the evolution of the biosphere, fluid circulation, global geochemical budget, global environmental changes, and chemical evolution of the hydrophere.

OR: seminar
PR: EASC 1001 or 1002, and Biology 2120 (or Biology 1001 and 1002), and completion of the any 15 credit hours in core courses at the 3000 and/or 4000 levels (see General Note 5) in Biology, Biochemistry, Chemistry, Earth Sciences, or Physics; or permission of the instructor.

4905 Field Course in Geological Mapping and Regional Tectonics is a two-week field school designed to allow application of techniques introduced in the third year, and to provide an introduction to the Appalachian geology of eastern and central Newfoundland. Reports must be submitted for grading during the fall semester.

OR: field-based course
PR: EASC 2401, 3055, 3420, and 3905; and permission of the Head of the Department

4912 Planetary Geology is a classroom- and laboratory-based course that provides students with a basic knowledge of the geology of the Moon, Mars, asteroids and the moons of the satellites of the outer solar system; the petrology and geochemistry of meteorites and their importance to understanding the origin of the planets; impact cratering processes and rock products including those on Earth, and instrumentation for planetary exploration. The course combines lectures and laboratory exercises that examine data sets from planetary missions and specimens of extraterrestrial materials. Students learn how geological processes that have shaped Earth also have operated on other planets, moons and asteroids in our solar system.

PR: EASC 2031, 2702, 2905, and 3420

4910-4920 (Excluding 4912) Special Topics in Earth Sciences are lecture and seminar courses given for undergraduates in their fourth or fifth year who wish to gain more specialized knowledge in a particular field of Earth Sciences than is possible through the standard course offerings. The Department will consider suggestions by students for Special Topics courses, but it must be borne in mind that such a course should normally be approved at least three months before the start of the semester in which it is to be taken.

PR: permission of the Head of Department

4950 Technical Report on Geoscience Employment requires the preparation of a publication-quality technical report, about 50 pages in length, based on a study undertaken during geoscience employment. The topic and scope of the study must be approved by the Head of Department prior to its commencement. Students will present a seminar or seminars on results of the project, and will be closely advised on proper organization and writing of scientific reports. Some directed reading will be required.

PR: completion of 9 credit hours in Earth Sciences at 3000 level, and UL: can only be used as an "additional course" under point 3. of the regulations for General degrees, and under point 4. of the regulations for Honours degrees. The same study cannot be used as the basis of a dissertation completed for course EASC 499A/B.

499A and 499B Dissertation is an independent study of an approved problem in the Earth Sciences. The subject of study will be decided in consultation with Faculty Advisors and must be approved in advance by the Head of the Department. The first semester will normally involve directed reading, supervised field and/or laboratory work, and preparation of a dissertation outline and draft of a first chapter of the thesis. The second semester will be devoted to data synthesis and interpretation, to a seminar presenting the thesis results, and to preparation of a formal written report accompanied by appropriate illustrations, to be submitted for grading one week before the end of classes.

CH: 6
PR: admission to the Honours program
UL: the dissertation cannot be based on the same study used to obtain credit for EASC 4950. May be used as Science credits by students not in the Honours program with permission of the Head of the Department.
### 10.6 Economics
For course descriptions, see Faculty of Arts section of the Calendar.

### 10.7 Geography
For course descriptions, see Faculty of Arts section of the Calendar.

### 10.8 Mathematics and Statistics
Students are encouraged to consult the Department regularly for specific planned offerings, semester by semester.

Mathematics scores acceptable to the Department

**UL:** at most 9 credit hours in Mathematics will be given for courses completed from the following list subject to normal credit restrictions:
- Mathematics 1000, 1031, 1050, 1051, the former 1080, the former 1081, 1090, the former 1150 and 1151

**1001 Calculus II** is an introduction to integral calculus, including Riemann sums, techniques of integration and improper integrals. Applications include exponential growth and decay, areas between curves and volumes of solids of revolution.
- CR: the former Engineering 1411 or the former Engineering 2413
- PR: MATH 1000 or the former MATH 1001

**1031 Mathematical Problem Solving** - inactive course.

**1050 Finite Mathematics I** covers topics which include sets, logic, permutations, combinations and elementary probability.
- CR: the former MATH 1150
- LC: 4
- PR: a combination of placement test and high school mathematics scores acceptable to the department or MATH 103F

**1051 Finite Mathematics II** covers topics which include elementary matrices, linear programming, and basic geometry and trigonometry.
- CR: the former MATH 1151
- LC: 4
- PR: a combination of placement test and high school mathematics scores acceptable to the Department or MATH 103F

**2000 Calculus III** is an introduction to infinite sequences and series, and to the differential and integral calculus of multivariate functions. Topics include tests for the convergence of infinite series, power series, Taylor and Maclaurin series, complex numbers including Euler’s formula, partial differentiation, and double integrals in Cartesian and polar coordinates.
- CR: the former Engineering 1411, the former Engineering 1412, the former Engineering 2412, or the former Engineering 2413
- PR: MATH 1001

**2050 Linear Algebra I** includes the topics: Euclidean n-space, vector operations in 2- and 3-space, complex numbers, linear transformations on n-space, matrices, determinants, and systems of linear equations.
- CR: the former Engineering 2402
- PR: a combination of placement test and high school Mathematics scores acceptable to the Department or 3 credit hours in first year Mathematics courses

**2051 Linear Algebra II** includes the topics: real and complex vector spaces,
basis, dimension, change of basis, eigenvectors, inner products, and diagonalization of Hermitian matrices.

PR: MATH 1000 and 2050

2075 Introduction to the History of Mathematics - inactive course.

2090 Mathematics of Finance covers the topics: simple and compound interest and discount, forces of interest and discount; equations of value, annuities and perpetuities, amortization schedules and sinking funds, bonds and other securities, contingent payments.

PR: MATH 1001

2091 Introduction to Actuarial Mathematics - inactive course.

2130 Technical Writing in Mathematics is a project oriented course combining mathematical investigation and technical writing. By using computer programming, graphical and typesetting tools, students will explore mathematical concepts and will produce technical reports of professional quality. The latter will combine elements of writing and graphics to convey technical ideas in a clear and concise manner.

PR: admission to Applied or Pure Mathematics major and MATH 1001 and (Computer Science 1510 or 1710 or 2710 or 2602; or permission of the Head of Department)

UL: qualifies as a Research/Writing course in the Faculty of Arts

2260 Ordinary Differential Equations I examines direction fields, equations of first order and first degree, higher order linear equations, variation of parameters, methods of undetermined coefficients, Laplace transforms, systems of differential equations. Applications include vibratory motion, satellite and rocket motion, pursuit problems, population models and chemical kinetics.

CR: MATH 3260, the former Engineering 3411

PR: MATH 2320

2320 Discrete Mathematics covers basic concepts of mathematical reasoning, sets and set operations, functions, relations including equivalence relations and partial orders as illustrated through the notions of covers basic concepts of mathematical.

PR: MATH 1000

2330 Euclidean Geometry is an introduction to Euclidean geometry of the plane. It covers the geometry of triangles and circles, including results such as the nine-point circle and Ceva's theorem. It also includes straight-edge and compass constructions, isometries of the plane, the three reflections theorem, and inversions on circles.

CR: MATH 3330

PR: MATH 2051 or 2320

3000 Real Analysis I covers proof techniques, structure of the real numbers, sequences, limits, continuity, uniform continuity, differentiation.

CR: the former MATH 2001

LH: 1

PR: MATH 2000

3001 Real Analysis II examines infinite series of constants, sequences and series of functions, uniform convergence and its consequences, power series, Taylor series, Weierstrass Approximation Theorem.

CR: the former MATH 3201

LH: 1

PR: MATH 3000

3100 Introduction to Dynamical Systems examines flows, stability, phase plane analysis, limit cycles, bifurcations, chaos, attractors, maps, fractals. Applications throughout.

CR: the former AMAT 3190

PR: MATH 2260 (or 3260)

3111 Applied Complex Analysis examines mapping by elementary functions, conformal mapping, applications of conformal mapping, Schwartz-Christoffel transformation, Poisson integral formula, poles and zeros, Laplace transforms and stability of systems, analytic continuation.

PR: MATH 3210

3132 Numerical Analysis I includes a discussion of round-off error, the solution of linear systems, iterative methods for nonlinear equations, Newton's method, polynomial approximation, least squares approximation, fast Fourier transform, numerical differentiation and integration, and numerical methods for initial value problems.

CR: Computer Science 3731

LH: 1.5

PR: MATH 2000, MATH 2050, and a computing course (Computer Science 1510 is recommended)

3161 Ordinary Differential Equations II examines power series solutions, method of Frobenius, Bessel functions, Legendre polynomials and others from classical Physics, systems of linear first order equations, fundamental matrix solution, existence and uniqueness of solutions, and advanced topics in ordinary differential equations.

PR: MATH 2260 (or 3260) and 3202

3202 Vector Calculus deals with functions of several variables, Lagrange multipliers, vector valued functions, directional derivatives, gradient, divergence, curl, transformations, Jacobians, inverse and implicit function theorems, multiple integration including change of variables using polar, cylindrical and spherical co-ordinates, Green's theorem, Stokes' theorem, divergence theorem, line integrals, arc length.

CR: Physics 3810

PR: MATH 2000 and 2050

3210 Introduction to Complex Analysis examines complex numbers, analytic functions of a complex variable, differentiation of complex functions and the Cauchy-Riemann equations, complex integration, Cauchy's theorem, Taylor and Laurent series, residue theory and applications.

PR: MATH 3000

3240 Applied Graph Theory examines algorithms and complexity, definitions and basic properties of graphs, Eulerian and Hamiltonian chains, shortest path problems, graph colouring, planarity, trees, network flows, with emphasis on applications including scheduling problems, tournaments, and facilities design.

CR: the former Computer Science 2741

PR: MATH 2320

3300 Set Theory is an introduction to Mathematical Logic, functions, equivalence relations, equipotence of sets, finite and infinite sets, countable and uncountable sets, Cantor's Theorem, Schroder-Bernstein Theorem, ordered sets, introduction to cardinal and ordinal numbers, logical paradoxes, the axiom of choice.

PR: MATH 2320

3303 Introductory Geometric Topology covers graphs and the four colour problem, orientable and non-orientable surfaces, triangulation, Euler characteristics, classification and colouring of compact surfaces, basic point-set topology, the fundamental group, the fundamental group of surfaces, knots, and the Wirtinger presentation of the knot group.

PR: MATH 2320

3320 Abstract Algebra is an introduction to groups and group homomorphisms including cyclic groups, cosets, Lagrange's theorem, normal subgroups and quotient groups, introduction to rings and ring homomorphisms including ideals, prime and maximal ideals, quotient rings, integral domains and fields.

PR: MATH 2320

3321 Applied Algebra - inactive course.

3331 Projective Geometry includes course topics: projective space, the principle of duality, mappings in projective space, conics and quadrics.

PR: MATH 2051

3340 Introductory Combinatorics includes topics: distributions, the binomial and multinomial theorems, Stirling numbers, recurrence relations, generating functions and the inclusion-exclusion principle. Emphasis will be on applications.

PR: MATH 2320

3370 Introductory Number Theory examines perfect numbers and primes, divisibility, Euclidean algorithm, greatest common divisors, primes and the unique factorization theorem, congruences, cryptography (second section) and Euler-Fermat theorems, power residues, primitive roots, arithmetic functions, Diophantine equations, topics above in the setting of the Gaussian integers.

PR: MATH 3001

4000 Lebesgue Integration includes a review of the Riemann integral, functions of bounded variation, null sets and Lebesgue measure, the Cantor set, measurable sets and functions, the Lebesgue integral in R1 and R2, Fatou's lemma, Monotone and Dominated Convergence Theorems, Fubini's Theorem, an introduction to Lebesgue-Stieltjes measure and integration.

CR: the former Pure Mathematics 4400

PR: MATH 3001

4001 Functional Analysis includes metric and normed spaces, completeness, examples of Banach spaces and complete metric spaces, bounded linear operators and their spectra, bounded linear functionals and conjugate spaces, the fundamental theorems for Banach spaces including the Hahn-Banach Theorem, topology including weak and weak* topologies, introduction to Hilbert spaces.

CR: the former Pure Mathematics 4302

PR: MATH 3001

4100 Applied Functional Analysis - inactive course.

4102 Stochastic Methods in Applied Mathematics - inactive course.

4130 Introduction to General Relativity (same as Physics 4220) studies both the mathematical structure and physical content of Einstein's theory of gravity. Topics include the geometric formulation of special relativity, curved spacetimes, metrics, geodesics, causal structure, gravity as spacetime
curvature, the weak-field limit, geometry outside a spherical star, Schwarzschild and Kerr black holes, Robertson-Walker cosmologies, gravitational waves, an instruction to tensor calculus, Einstein’s equations, and the stress-energy tensor.

CO: MATH 4230
CR: Physics 4220
PR: MATH 3202 and one of Physics 3220 or MATH 4230 or permission of the Head of Department.

4132 Introduction to Optimization - inactive course.

4133 Numerical Optimization - inactive course.

4140 Introduction to Mathematical Control Theory - inactive course.

PR: MATH 2260 (or 3260) and 3202

4161 Integral Equations - inactive course.

4162 Numerical Methods for Differential Equations covers numerical solution of ordinary differential equations, systems of first order ordinary differential equations using Runge-Kutta and predictor-corrector methods, numerical solution of boundary value problems for ordinary differential equations by shooting methods, finite differences and spectral methods, numerical solution of first order partial differential equations by the method of lines, finite differences, finite volumes and finite elements.
PR: MATH 3132 and 4160

4170 Partial Differential Equations II covers first order equations, Cauchy problems, Cauchy-Kowalewksa theorem, second order equations, canonical forms, wave equations in higher dimensions, method of spherical means, Duhamel’s principle, potential equation, Dirichlet and Neuman problem, Green’s function and fundamental solution, potential theory, heat equation, Riemann’s method of integration, method of plane and Riemann waves for systems of PDEs of the first order.
PR: MATH 4160

4180 Introduction to Fluid Dynamics (same as Physics 4205) covers basic observations, mass conservation, vorticity, stress, hydrostatics, rate of strain, momentum conservation (Navier-Stokes equation), simple viscous and inviscid flows, Reynolds number, boundary layers, Bernoulli’s and Kelvin’s theorems, potential flows, water waves, thermodynamics.
CR: Physics 4205
PR: Physics 3220 and either MATH 4160 or the former Physics 3821

4190 Mathematical Modelling is intended to develop students’ skills in mathematical modelling and competence in oral and written presentations.
Case studies will be analyzed. Students will develop a mathematical model and present it in both oral and report form.
PR: MATH 3100, 3161, 4160, and a technical writing course offered by a Science department (MATH 2130 is recommended).

419A and 419B Applied Mathematics Honours Project is a two-semester course that requires the student, with supervision by a member of the Department, to prepare a dissertation in an area of Applied Mathematics. In addition to a written project, a one hour presentation will be given by the student at the end of the second semester.
CH: 6
CR: the former AMAT 4199
PR: registration in an Honours or Joint Honours program in Applied Mathematics.

4230 Differential Geometry covers both classical and modern differential geometry. It begins with the classical theory of curves and surfaces, including the Frenet-Serret relations, the fundamental theorem of space curves, curves on surfaces, the metric, the extrinsic curvature operator and Gaussian curvature. The modern section studies differentiable manifolds, tangent vectors, vector-valued functions, differential forms, and other tensors, the metric tensor, geodesics, connections and parallel transport, Riemann curvature and the Gauss-Codazzi equations.
PR: MATH 3202

4240 Differential and Integral Calculus on Manifolds - inactive course.

4280-4290 Special Topics in Pure and Applied Mathematics will have the topics to be studied announced by the Department. Consult the Department for a list of titles and information regarding availability.
PR: permission of the Head of the Department

4300 General Topology is an introduction to point-set topology, centering around the notions of the topological space and the continuous function. Topological properties such as Hausdorff, compactness, connectedness, normality, regularity and path-connectedness are examined, as are Urysohn’s metrization theorem and the Tychonoff theorem.

PR: MATH 3300 or both MATH 3000 and 3303

4301 Algebraic Topology - inactive course.

4310 Complex Function Theory examines topology of C, analytic functions, Cauchy’s theorem with proof, Cauchy integral formula, singularities, argument principle, Rouche’s theorem, maximum modulus principle, Schwarz’s lemma, harmonic functions, Poisson integral formula, analytic continuation, entire functions, gamma function, Riemann-Zeta function, conformal mapping.
PR: MATH 3210

4320 Ring Theory examines factorization in integral domains, structure of finitely generated modules over a principal ideal domain with application to Abelian groups, nilpotent ideals and idempotents, chain conditions, the Wedderburn-Artin theorem.
PR: MATH 3320

4321 Group Theory examines permutation groups, Sylow theorems, normal series, solvable groups, solvability of polynomials by radicals, introduction to group representations.
PR: MATH 3320

4331 Galois Theory - inactive course.

4340 Combinatorial Analysis continues most of the topics started in 3340 with further work on distributions, recurrence relations and generating functions. Generating functions are used to solve recurrence relations in two variables. Also included is a study of Pólya’s theorem with applications.
PR: MATH 2000 and 3340

4341 Combinatorial Designs includes the study of finite fields, Latin squares, finite projective planes and balanced incomplete block designs.
PR: MATH 3320 or 3340

4375 History of Mathematics - inactive course.

439A and 439B Pure Mathematics Honours Project is a two-semester course that requires the student, with supervision by a member of the Department, to prepare a dissertation in an area of Pure Mathematics. Although original research by the student will not normally be expected, the student must show an ability and interest to learn and organize material independently. A one hour presentation will be given by the student at the end of the second semester.
CH: 6
CR: the former MATH 4399
PR: registration in an Honours or Joint Honours program in Pure Mathematics.

10.8.4 Statistics Courses

Statistics courses are designated by STAT. Where the 4 digit course number is the same, students can receive credit for only one course with subject names MATH, AMAT, PMAT, STAT.

1510 Statistical Thinking and Concepts examines the basic statistical issues encountered in everyday life, such as data collection (both primary and secondary), ethical issues, planning and conducting statistically-designed experiments, understanding the measurement process, data summarization, measures of central tendency and dispersion, basic concepts of probability, understanding sampling distributions, the central limit theorem based on simulations (without proof), linear regression, concepts of confidence intervals and testing of hypotheses. Statistical software will be used to demonstrate each technique.
CR: cannot receive credit for STAT 1510 if completed with, or subsequent to, STAT 2500, 2550 or the former 2510
RH: one 90 minute lab per week
PR: Mathematics 1090 or a combination of placement test and high school Mathematics scores acceptable to the Department.

2500 Statistics for Business and Arts Students covers descriptive statistics (including histograms, stem-and-leaf plots and box plots), elementary probability, random variables, the binomial distribution, the normal distribution, sampling distribution, estimation and hypothesis testing including both one and two sample tests, paired comparisons, correlation and regression, related applications.
CR: STAT 2550, the former 2510, Psychology 2910, 2925 and the former 2960
RH: one 90 minute lab per week. Statistical computer package will be used in the laboratory, but no prior computing experience is assumed.
PR: Mathematics 1000 or 6 credit hours in first year courses in Mathematics or registration in at least semester three of a Bachelor of Nursing program or permission of the Head of Department.
2501 Further Statistics for Business and Arts Students covers power calculation and sample size determination, analysis of variance, multiple regression, nonparametric statistics, time series analysis, introduction to sampling techniques.

CR: STAT 2560, the former STAT 2511, Psychology 2911, 2950, and the former 2901

LH: one 90 minute lab per week. Statistical computer package will be used in the laboratory.

PR: STAT 2500 or the former 2510

2505 Statistics for Science Students is an introduction to basic statistics methods with an emphasis on applications to the sciences. Material includes descriptive statistics, elementary probability, binomial distribution, Poisson distribution, normal distribution, sampling, estimation and hypothesis testing (both one and two sample cases), chi-square test, one way analysis of variance, correlation and simple linear regression.

CR: Psychology 2910, STAT 2560, the former STAT 2501, Psychology 2910, Psychology 2925, and the former Psychology 2900

LH: one 90 minute lab per week. Statistical computer package will be used in the laboratory, but no prior computing experience is assumed.

PR: Mathematics 1000 or the former 1081

2560 Further Statistics for Science Students (formerly STAT 2511) covers estimation and hypothesis testing in the two-sample and paired sample cases, one way and two way analysis of variance, simple and multiple linear regression, chi-square tests, non-parametric tests including sign test, Wilcoxon signed rank test and Wilcoxon rank test.

CR: STAT 2501, the former Psychology 2911, 2950, and the former 2901

LH: one 90 minute lab per week. Statistical computer packages will be used in the laboratory, but no prior computing experience is assumed.

PR: STAT 1510 or 2550 or the former STAT 2510, Mathematics 1000 or the former 1081

3410 Probability and Statistics covers basic probability concepts, combinatorial analysis, conditional probability, independence, random variable, distribution function, mathematical expectation, Chebyshev’s inequality, distribution of two random variables, binomial and related distributions, Poisson, gamma, beta, normal, multivariate normal, student t and chi square distributions, transformations of random variables, confidence intervals and hypothesis testing, distribution, delta-method, moment-generating function technique, central limit theorem.

OR: one and a half hour tutorial period weekly

PR: Mathematics 1001

3411 Statistical Inference I examines sampling distributions, order statistics, confidence interval, hypotheses testing, chi-square tests, maximum likelihood estimation, maximum likelihood estimation, Rao-Cramer inequality and efficiency, maximum likelihood tests, sufficiency, completeness and uniqueness, exponential class of distributions, likelihood ratio test and Neyman-Pearson lemma.

OR: one and a half hour tutorial period weekly

PR: STAT 3410

3520 Experimental Design I is an introduction to basic concepts in experimental design, including principles of experimentation: single factor design, completely randomized designs; randomized block designs; Latin square designs; Graeco Latin square designs; multiple comparison procedures. Emphasis will be placed on the development of programs for numerical and graphical exploratory data analysis and for implementing specialized statistical procedures.

PR: Mathematics 2000, STAT 2560

4402 Stochastic Processes covers the Poisson process, renewal theory, Markov chains, and some continuous state models including Brownian motion. Applications are considered in queuing, reliability, and inventory theory. Emphasis is on model building and probabilistic reasoning.

CR: Mathematics 4102

PR: STAT 3410

PR: Mathematics 2051, STAT 3411

4520 Experimental Design II is an introduction to factorial experiments including mixed effects models, unbalanced data in factorial designs, two level and three level factorial experiments, blocking and confounding in factorial designs, fractional factorial experiments, unreplicated factorial experiments, response surface methods, robust parameter designs, nested and split plot designs.

PR: STAT 3520

4530 Survey Sampling covers basic concepts, simple random sampling, stratified probability sampling and the Horvitz-Thompson estimator, sampling with unequal probabilities, design effects, and complex survey designs.

PR: STAT 3520

4550 Non-parametric Statistics covers inferences concerning scale parameters, goodness-of-fit tests, association analysis, tests for randomness.

PR: one of STAT 3520 or 3521 or STAT 3411

4560 Continuous Multivariate Analysis examines the multivariate normal distribution and its marginal and conditional distributions, distributions of linear and singular linear combinations, the Wishart distribution and its application, in particular, to Hotelling’s T-square statistic for the mean vector, connection between likelihood ratio and Hotelling’s T-square statistics, a selection of techniques chosen from among MANOVA, multivariate regression, principal components, factor analysis, discrimination and classification, clustering.

PR: Mathematics 2051, STAT 3410 and one of STAT 3411, 3520, or 3521

4561 Categorical Data Analysis is an analysis of cross-classified categorical data with or without explanatory variables, chi-square test, measures of association, multidimensional contingency tables, hypotheses of partial and conditional independence, log-linear models for Poisson, multinomial and product-multinomial sampling schemes, concept of ordinal categorical models, logit models, likelihood estimation, selection of suitable log-linear and logit models.

PR: STAT 3520 or 3521

4581 Quantitative Methods in Biology - inactive course.

4590 Statistical Analysis of Data I examines the statistical analysis of real univariate data using computational and statistical methods including descriptive statistics, chi-square tests, non-parametric tests, analysis of variance, linear, logistic and log-linear regressions. Other statistical techniques such as integrated autoregressive moving average modelling and forecasting or quality control methods may be introduced depending on the nature of the data.

LH: one 90 minute lab per week

PR: one of STAT 3520, 3521 or 3540

459A and 459B Statistics Honours Project is a two-semester course that requires the student, with supervision by a member of the Department, to

 attributes, process capability, cumulative sum chart, exponentially weighted moving average chart, acceptance sampling plans, measurement system analysis, continuous improvement and six sigma methodology.

PR: either STAT 3411 or both Mathematics 1001 and one of STAT 2501 or 2560 or the former 2511

4585 Computational Statistics is an introduction to modern computational statistics, using a programming language which implements S. Emphasis will be placed on the development of programs for numerical and graphical exploratory data analysis and for implementing specialized statistical procedures.

PR: Mathematics 2000, STAT 2560
prepare a dissertation in an area of Statistics. In addition to a written project, a presentation will be given by the student at the end of the second semester.
CH: 6
CR: registration in an Honours or Joint Honours program in Statistics

10.9 Ocean Sciences

Ocean Sciences courses are designated by OCSC.

1000 Exploration of the Ocean World is an introductory course covering the major ocean sciences (biology, chemistry, geology, physics) at a level sufficient for science majors but accessible to non-science majors. It explores phenomena occurring from the shoreline to the abyss and from equatorial to polar regions. It also examines principles of marine ecology as well as how the marine environment affects humans and vice versa. The course is offered in a blended format that combines face-to-face lectures and online interactive activities in the form of virtual oceanographic expeditions.
LC: 1.5 hours per week
OR: 1.5 hours per week (online interactive activities)

2000 Introductory Biological Oceanography provides a general understanding of the biological processes that occur in coastal and oceanic environments. It introduces students to the major groups of bacteria, phytoplankton, invertebrates and fish, emphasizing the biotic and abiotic factors controlling primary production and marine biomass. It shows how the physical, chemical, and geological environments interact with biology to define processes and patterns affecting nutrients and life in marine ecosystems.
PR: OCSC 1000 or Biology 1002

2001 Introduction to Sustainable Fisheries and Aquaculture introduces students to the breadth of aquaculture and fisheries science and the variety of animal species cultured and harvested. Basic aspects of aquaculture and fisheries and the links between the two are covered, including production systems, capture fisheries, environmental interactions, and the physiology, ecology, and reproduction of finfish and shellfish in the context of their culture and harvest.
PR: OCSC 1000 or Biology 1002

2100 Introductory Chemical Oceanography (same as Chemistry 2610) provides an introduction to the fundamental chemical properties of seawater and their influence on the processes and concentrations of chemical compounds in the oceans. It is an introduction to the sources, distribution, and transformations of chemical constituents of the ocean, and their relationship to biological, chemical, geological, and physical processes. Topics include: continental shelf, average concentrations of chemicals in the ocean; vertical and horizontal distributions of ocean constituents; air-sea interactions; product, export, and remineralization of organic matter; the ocean cycle; human-induced changes; stable isotopes, and trace elements.
CR: Chemistry 2610
PR: Chemistry 1011 or 1051 which may be taken concurrently or Chemistry 1001

2200 Introductory Geological Oceanography (same as Earth Sciences 2919) is a study of the formation and evolution of oceans, including plate tectonics, mid-ocean ridges (birth place of oceans), subduction zones, (where oceans are consumed), sedimentary environments such as estuaries, deltas, beaches and barrier islands, continental shelves, slopes and rises, plains and deep sea basins, including black smokers and hydrothermal vents, evolution of tides, atmosphere-ocean interactions, formation of banded iron formations, snowball Earth, black and white smokers, and how Earth modulates its climate through atmosphere, hydrosphere, biosphere and lithosphere interactions.
CR: Earth Sciences 2919
PR: Earth Sciences 1000

2300 Introductory Physical Oceanography (same as Physics 2300) will provide an introduction to the physical ocean. Ocean characteristics studied will include: the properties of seawater, key features of ocean circulation, wind forcing in the ocean, tides and shoreline processes as well as ocean coupling with the atmosphere, geosphere and cryosphere (ice) and new approaches to ocean sampling and numerical modelling. The course will take an integrated earth systems approach to the study of upwelling zones, open ocean ecosystems and climate change.
CR: Environmental Science 2371, Physics 2300
PR: any two first-year courses in Physics

3000 Aquaculture Principles and Practices emphasizes the techniques and methods used to culture finfish and shellfish, with a primary focus on Culture species. Basic aspects of aquaculture will be covered, including the design and maintenance of production systems, culture techniques, and the nutrition, health, physiology and reproduction of finfish. The laboratory portion of this course will provide students with practical experience in the maintenance of land-based aquaculture production systems and in the husbandry/culture of aquatic organisms.

3002 Aquaculture and Fisheries Biotechnology is an introduction to biotechnology and genetics as they are applied to aquaculture and fisheries. Topics covered include genetic variation; genetic structure of fish and shellfish populations; the genetic basis of aquaculture traits; finfish and shellfish genomic research; marker-assisted selection in aquaculture; manipulation of ploidy; genetic engineering in aquaculture; and techniques used to study the responses of aquatic animals to external stressors such as hypoxia, temperature stress, acidification, and pathogens.
PR: Biology 2250 or Biochemistry 2100

3620 Aquatic Microbial Ecology (same as Biology 3620) is a study of the nature, distribution and activities of microorganisms in the freshwater and marine environments. Field and laboratory work illustrate some of the investigative techniques used in the field of study.
CR: Biology 2600 and the former Biology 3603
LH: 3
PR: Biology 2600 and 3050, Statistics 2550 or equivalent

4000 Scientific Diving Methods is an in-depth study and application of methods routinely employed for data collection in underwater scientific research. Aspects covered include habitat mapping; installation and use of instrumentation; still and video camera techniques; planning and execution of surveys and experiments in major subtidal habitats; as well as data analysis and interpretation. Participants are trained in accordance with Memorial University of Newfoundland’s Guide for Diving Safety and the Canadian Association for Underwater Science (CAUS) standards to meet the criteria for Scientific Diver 1 rating. This course is normally offered at the Bonne Bay Marine Station in a special 2-week session at the beginning or end of the Spring semester depending on the station’s availability.
OR: The following documentation must be provided to the course instructor at least four months before the first day of the course, it must be in effect until at least the last day of the course. Submission of this documentation does not guarantee acceptance into the course. Aside from course prerequisites, acceptance will be based on successful completion, before the course begins, of a diving fitness and skills evaluation in a pool environment and demonstration of understanding of the MUN Diving Safety Manual, physics and physiology of diving, and use of recreational dive tables. Nationally recognized scuba diving certification with diver rescue and accident management techniques; diver medical examination by a licensed physician knowledgeable in diving medicine; First Aid (basic), CPR (basic), and DAN oxygen first and for scuba diving injuries administration cards; DAN membership and insurance or medical insurance covering hyperbaric treatment; diver’s log book with at least 12 dives in the last 12 months including one dive in the last six months and four dives in cold (<10°C) water; cold-water scuba diving equipment complete with proper hydrostatic/ VIP service tags on diving cylinders and overhaul/service receipts on regulators and buoyancy compensator devices.
PR: Biology 2122 or Biology 3709, Biology 2600 or OCSC 2000 or Environmental Science 2371, Statistics 2550 or equivalent

4122 Advanced Studies in Marine Animal Diversity is a course that provides an in-depth examination of cellular, physiological, behavioural and ecological adaptations in marine animals. Lectures will be accompanied by discussions of relevant papers from the primary literature on topics of current interest which may relate morphology, ecology, evolution, natural history, species interactions and practical applications. Students will also gain hands-on experience by designing and conducting research projects involving live or preserved animals.
CR: Biology 4122
LH: either three hours of lecture and three hours of laboratory per week or a two week intensive course that embodies equivalent instructional time
LH: either three hours of lecture and three hours of laboratory per week or a two-week intensive course that embodies equivalent instructional time
PR: Biology 2122, Biology 2600, and Biology 2900

4601 Functional Biology of Fish is an introduction to the anatomy, physiology and cellular processes in the life cycle of fish.
CR: Biology 4601
PR: Biology 2060, Biology 2210, and Biology 3401

10.10 Physics and Physical Oceanography

Physics courses are designated by PHYS.

1020 Introductory Physics I is a non-calculus based introduction to mechanics. This course may be completed by someone who has no physics background provided some extra effort is made.
CR: Mathematics 1090
CR: PHYS 1050
LH: 3; six laboratory sessions per semester
OR: tutorial sessions may be held on weeks when no laboratory is

AR = Attendance requirement; CH = Credit hours are 3 unless otherwise noted; CO = Co-requisite(s); CR = Credit can be retained for only one course from the set(s) consisting of the course being described and the course(s) listed; LC = Lecture hours per week are 3 unless otherwise noted; LH = Laboratory hours per week; OR = Other requirements of the course such as tutorials, practical sessions, or seminars; PR = Prerequisite(s); UL = Usage limitation(s).

Faculty of Science 2015-2016 531
1021 Introductory Physics II is a non-calculus based introduction to fluids, wave motion, light, optics, electricity and magnetism.

CO: Mathematics 1000

LH: 3; normally there will be six laboratory sessions per semester

OR: tutorial sessions may be held on weeks when no laboratory is scheduled

PR: PHYS 1020 or 1050 and Mathematics 1090 or 1000

1050 General Physics I: Mechanics is a calculus based introduction to mechanics. The course will emphasize problem solving. For more details regarding PHYS 1050, see Note 4 under Physics and Physical Oceanography.

CO: Mathematics 1000

LH: 3; normally there will be six laboratory sessions per semester

OR: tutorial sessions may be held on weeks when no laboratory is scheduled

PR: PHYS 1050, or 1021, or 1020 (with a minimum grade of 65%) and Mathematics 1001

2053 Fluids and Thermal Physics examines elasticity, fluid mechanics, thermodynamics, kinetic theory and statistical mechanics.

CO: Mathematics 1001 and PHYS 1051

LH: 3

PR: Mathematics 1001 and PHYS 1051

2055 Electricity and Magnetism examines Gauss' Law, the electrostatic potential, capacitance, magnetic forces and the magnetic field, electromagnetic induction, magnetic materials, ac circuits, superconductivity, the displacement current and Maxwell's equations.

CO: Mathematics 2000

LH: 3

PR: Mathematics 2000 and PHYS 1051

PR: 6 credit hours in Mathematics courses at the first year level

2300 Introductory Physical Oceanography (same as Ocean Sciences 2300) will provide an introduction to the physical ocean. Ocean characteristics studied will include: the properties of seawater; key features of ocean circulation; wind forcing in the ocean; tides and shoreline processes as well as ocean coupling with the atmosphere, geosphere and cryosphere (ice); and new approaches to ocean sampling and numerical modelling. The course will take an integrated earth systems approach to the study of upper ocean zones, open ocean ecosystems and climate change.

CR: Environmental Science 2371; Ocean Sciences 2300

PR: any two first-year courses in Physics

2750 Modern Physics covers special relativity, quanta of light, atomic structure and spectral lines, quantum structure of atoms and molecules, nuclei and elementary particles.

CO: Mathematics 1001 and PHYS 1051

CR: PHYS 2056

PR: Mathematics 1001 and PHYS 1051

2820 Computational Mechanics covers Newtonian dynamics and celestial mechanics, numerical differentiation and integration, numerical solutions to mechanical, data and spectral analysis, Fourier series and normal modes, oscillations and vibrations, linear and non-linear oscillators, nonlinear dynamics and chaos.

CO: Mathematics 2000

LC: 5

LH: 5

PR: Mathematics 2000 and PHYS 1051

3000 Physics of Device Materials is structures of crystalline and amorphous solids. Excitations and transport in metals, semiconductors, and dielectrics; electronic band structures. Physics of multi-material devices including photodiodes, solid state lasers, and field-effect transistors.

PR: PHYS 2055 or registration in Academic Term 3 of the Electrical Engineering Program

3150 Astrophysics I is a review of macroscopic and microscopic physics. The sun: luminosity, mass, spectrums, photosphere, corona, interior. Principles of stellar structure; radiative and convective transport of energy. The virial theorem. Thermoneutrality fusion; temperature dependence; the solar neutrino problem. Nucleosynthesis; the curve of binding energy; the synthesis of heavy elements. White dwarfs, neutron stars, and black holes; detection of electron and neutrons; Chandrasekhar's Limit. Population I and Population II stars; the Hertzprung-Russell diagram: relationships among luminosity, mass, and effective temperature for main sequence dwarfs. Evolution of post main sequence stars.

PR: PHYS 2053, 2750 (or 2056), and 2820

3151 Astrophysics II covers stellar spectra and classification of stars. Hertzprung-Russell diagram: equations of stellar structure for a star in equilibrium; temperature and density dependences of nuclear processes. Formation and classification of binary stars; mass and energy transfer in binary star systems; semidetached binaries; cataclysmic variables, pulsars, etc. Galaxies and galactic structure; active galactic nuclei; cosmological redshift. Cosmology.

PR: PHYS 3150 and 3220

CO: PHYS 2820 and Mathematics 2260 (or 3260)

PR: PHYS 2820 and Mathematics 2260 (or 3260)

3330 Intermediate Physical Oceanography deals with the physics of processes in the ocean, but focuses on an integrated view of the ocean. Includes pole fields, concepts and oceanography. The importance of physical processes to other aspects of oceanography is treated.

PR: PHYS 2053 and Mathematics 2000 or registration in Academic Term 5 of the Ocean and Naval Architectural Engineering program

3340 Principles of Environmental Physics will explore the basic physical principles of light, heat, energy and sound in the natural environment. Several key aspects of physics in the environment will be covered including climate and the physical evolution of the planet and the present role of the atmosphere and ocean spectroscopy in the atmosphere and measurement and observation of the atmosphere. Principles of energy generation and pollution transport in the atmosphere and ocean.

PR: Mathematics 2000 and PHYS 2053

PR: Mathematics 2000, PHYS 2053 and PHYS 2750 or 2056

3500 Electromagnetic Fields I examines electrostatic Field: field, potential, Poisson's equation, Laplace's equation, capacitance, dielectrics, polarization, electric displacement, boundary conditions. Magnetic Field: electric current and magnetic field, vector potential, Lorentz force and its applications, changing magnetic field, inductance, magnetic materials, magnetization. Maxwell's equations.

PR: PHYS 2055 and 3810 (or Mathematics 3202)

CO: Mathematics 2260 or (3260)

CR: Engineering 3821

LC: 6

LH: 6

PR: Mathematics 2050, Mathematics 2260 or (3260), PHYS 2055

3551 Analogue Electronics - inactive course.

PR: Mathematics 2000 and PHYS 2055

CO: PHYS 3220 and 3810 or Mathematics 3202

PR: PHYS 2750 (or 2056), 3220 and 3810 (or Mathematics 3202)

3800 Computational Physics is a project-based course intended to train students to become functional in computational methods, by writing and compiling computer code (C/Fortran) in a Unix environment to solve problems in different areas of physics. Students will complete several projects selected from different areas of physics. Projects will introduce the students to a particular class of numerical methods. Lectures and tutorials will cover the theory that underlies the computational methods and background for code development and the application of the required numerical methods. CO: Any two 2000-level Physics course plus at least one other 3000-level Physics course. LC: 5 LH: 5 PR: Computer Science 1510, PHYS 2820, Mathematics 2260 or (3260), Mathematics 3202

3810 Mathematical Analysis - inactive course.

3820 Mathematical Physics III examines the functions of a complex variable; residue calculus. Introduction to Cartesian tensor analysis. Matrix eigenvalues and eigenvectors. Diagonalization of matrices. Matrix formulation of quantum mechanics. Quantum mechanical spin. Vector differential operators in curvilinear coordinate systems. Partial differential equations of Mathematical Physics and boundary value problems; derivation of the classical equations, separation of variables; Helmholtz equation in spherical polar coordinates. PR: Mathematics 2260 or (3260) and PHYS 3180 (or Mathematics 3202)

3900 Physics Laboratory I is a selection of experiments based primarily on material covered in the third year courses. LH: 6 PR: at least two of PHYS 2053, 2820, 2055, and PHYS 2750 (or 2056)

4000 Solid State Physics covers crystal structure and binding, phonons and lattice vibrations, thermal properties of solids. Electrons in solids, energy bands, semi-conductors, superconductivity, dielectric properties. Magnetic properties of solids. PR: PHYS 3400 and 3750 or waiver approved by the instructor

4200 Classical Mechanics II - inactive course.

4205 Introduction to Fluid Dynamics (same as Mathematics 4180) covers basic topics in fluid dynamics: mass conservation, vorticity, stress, hydrostatics, rate of strain, momentum conservation (Navier-Stokes equation), simple viscous and inviscid flows, Reynolds number, boundary layers, Bernoulli’s and Kelvin’s theorems, potential flows, water waves, thermodynamics. CR: Mathematics 4180 PR: PHYS 3220 and either Mathematics 4160 or the former PHYS 3821 or waiver approved by the instructor

4210 Continuum Mechanics - inactive course.

4220 Introduction to General Relativity (Mathematics 4130) studies both the mathematical structure and physical content of Einsteins’s theory of gravity. Topics include the geometric formulation of special relativity, curved spacetimes, metrics, geodesics, causal structure, gravity as space-time curvature, the weak-field limit, geometry outside a spherical star, Schwarzschild and Kerr black holes, Robertson-Walker cosmologies, gravitational waves, an instruction to tensor calculus, Einstein’s equations, and the stress-energy tensor. CO: Mathematics 4230 CR: Mathematics 4130 PR: Mathematics 3202 and one of PHYS 3220, Mathematics 4230 or waiver approved by the instructor

4300 Advanced Physical Oceanography covers fundamental properties of seawater and techniques of oceanographic measurement. The dynamical equations of oceanography are derived and solutions explored by comparison with oceanic observations. Properties of waves in rotating and non-rotating fluids. Linear and non-linear wave theory are developed. PR: PHYS 3300 and 3820 or waiver approved by the instructor

4330 Topics in Physical Oceanography - inactive course.

4340 Modelling in Environmental Physics covers the basic principles and fundamental modelling will be developed and techniques for modelling presented and applied. Techniques for numerical modelling will be developed and simple numerical models will be developed for use in terrestrial, atmospheric and oceanic environments. Free and forced systems will be discussed and the transition to chaos and some aspects of chaotic dynamics. PR: PHYS 3340 and PHYS 3820 or waiver approved by the instructor

4500 Electromagnetic Fields covers multipole expansions, electrostatic fields as boundary value problems, polarizability of molecules in dielectric media, Clausius-Mossotti relation, gauges. Electromagnetic Waves: Poynting’s theorem, reflection and transmission of electromagnetic waves, cavity in different areas of physics. Students will complete several projects selected from different areas of physics. Projects will introduce the students to a particular class of numerical methods. Lectures and tutorials will cover the theory that underlies the computational methods and background for code development and the application of the required numerical methods. CO: PHYS 3500 and 3820 or waiver approved by the instructor

4600 Optics and Photonics II is a review of basic topics in wave optics. Phase sensitive imaging. Electromagnetic waves in anisotropic media. Scattering of electromagnetic waves. The physics of light sources and applications. Non-linear optics and applications. CO: PHYS 3751 PR: PHYS 3500, 3600, and PHYS 3751 or waiver approved by the instructor

4700 Atomic and Molecular Physics - inactive course.

4710 Nuclear Physics - inactive course.

4820 Mathematical Physics III covers further topics on partial differential equations of Mathematical Physics and boundary value problems; Sturm-Liouville theory, Fourier series, generalized Fourier series, introduction to the theory of distributions, Dirac delta function, Green’s functions, Bessel functions, Legendre functions, spherical harmonics. PR: PHYS 3820

4850 Quantum Mechanics examines postulates of quantum mechanics. Operators and operator algebra. Matrix representations. Spin and magnetic fields. Approximation methods: WKB method, time independent perturbation theory, time dependent perturbation theory, variational methods. Elementary scattering theory. PR: PHYS 3230, 3750, 3820 or waiver approved by the instructor

4851 Advanced Quantum Mechanics covers general formulation of quantum mechanics, measurement theory and operators. Hilbert spaces. Advanced topics selected from: electron in a strong magnetic field and the Aharonov-Bohm effect; advanced scattering theory; systems of identical particles, Feynman path integral formulation of quantum mechanics; relativistic quantum mechanics, second quantization; symmetry and group theory; density matrix and mixtures. PR: PHYS 4850 and the former 3821 or waiver approved by the instructor

4900 Physics Laboratory II is a selection of experiments at the senior level. LH: 6 PR: PHYS 3900

490A/B Honours Physics Thesis is required of the Honours program.

6317 Underwater Acoustics covers basic theory of sound, sound in the ocean environment, wave equation, ray tracing, sonar system operation, transducers, applications. PR: PHYS 3810 (or the former Mathematics 3220) and 3220, or waiver approved by the instructor

6318 Ocean Climate Modelling covers numerical techniques, finite difference, finite element and spectral methods. Introduction to the climate system. Ocean climate models. Box models. Variability on interdecadal, centennial and geological scales. Zonally averaged models. 3-D ocean modelling. Thermohaline circulation. General circulation models. Climate modelling and global warming. PR: PHYS 3810 (or Mathematics 3220), PHYS 3300 and the completion of any 15 credit hours in core courses at the 3000 or 4000 level in the Faculty of Science or waiver approved by the instructor

10.11 Psychology

Psychology courses are designated by PSYC.

10.11.1 Non-Restricted Courses

These courses are open to all students who have the appropriate prerequisites. Students who intend to major in Psychology should note the credit restrictions for PSYC 2010, 2100, 2440, 2610, 2810, 2920, and 3640 as taking any of these courses will reduce options in the Majors program

1000 Introduction to Psychology is the first half of a two-semester introduction to Psychology as a biological and social science. Topics may include history, research methodology, behavioural neuroscience, sensation and perception, consciousness, learning, and memory.

1001 Introduction to Psychology is the second half of a two-semester
introduction to Psychology as a biological and social science. Topics may include emotion, motivation, stress and health, personality and individuality, psychological disorders and treatment, and social psychology.

PR: PSYC 1000

2010 Biological and Cognitive Development is a survey of principles underlying human development from the prenatal stage to adolescence. Topics covered will include biological, physical, linguistic, sensory, cognitive and intellectual changes.

CR: PSYC 2025, PSYC 3050
PR: PSYC 1000 and 1001
UL: cannot be used towards the Psychology major

2020 Social and Personality Development (same as the former PSYC 2011) is an examination of relevant research on human socialization and personality development with special emphasis on parenting influences, attachment, imitation, sex role and moral development in childhood and adolescence.

CR: PSYC 2025, the former PSYC 2011
PR: PSYC 1000 and 1001
UL: cannot be used towards the Psychology major

2030 Adult Development (same as the former PSYC 2012) examines physical and psychological changes from early adulthood until the end of the lifespan. Topics include career choices, love partnerships, parenting and grandparenting, cognitive changes, interpersonal changes, and healthy aging.

CR: the former PSYC 2012, the former PSYC 3052
PR: PSYC 1000 and 1001
UL: cannot be used towards the Psychology major

2100 Attitudes and Social Cognition - inactive course.

2120 Interpersonal and Group Processes - inactive course.

2150 Introduction to Forensic Psychology will provide an in-depth overview of the relationship between psychology and the law. A variety of topics will be discussed and critically evaluated, including the use and misuse of psychology-based investigative methods, such as offender and geographic profiling, detection of deception, investigative interviewing, eyewitness testimony, jury decision-making, corrections and treatment, risk assessment, and criminal responsibility.

PR: PSYC 1000 and 1001
UL: cannot be used towards the Psychology major

2151 Health Psychology will explore the history, aims and future of health psychology. Topics covered will consider the contributions of a wide range of psychological theory within the context of contextual risk factors for illness, illness prevention, health promotion, and the health care system itself. These theories extend from rather individualistic notions of health and wellness (e.g., personality, attitudes, and behaviour) to concepts associated with characteristics of the broader social environment (e.g., social support, economic challenges, and organizational factors). An overall bio-psycho-social approach to health and wellness is explored.

PR: PSYC 1000 and 1001
UL: cannot be used towards the Psychology major

2240 Survey of Learning - inactive course.

2440 Human Memory and Cognition is an introduction to the basic principles of human memory and information processing. Topics covered will include the organization, representation, and retrieval of information in the memory, attention, pattern recognition, language processing, mental imagery, reasoning, problem solving, and decision making. There will be an emphasis on the application of basic principles to real life situations.

CR: PSYC 3450, PSYC 2445
PR: PSYC 1000 and 1001
UL: cannot be used towards the Psychology major

2540 Psychology of Gender is an examination of the influence of gender on development and socialization, attitude formation, cognition, personality, and mental health.

PR: PSYC 1000 and 1001
UL: cannot be used towards the Psychology major

2560 Intelligence - inactive course.

2610 Personality - inactive course.

2800 Drugs and Behaviour is an examination of the neurophysiology of drug action, the measurable effect of drugs on experimentally controlled behaviour, and a survey of information available on common self-administered drugs and their immediate and long-term effects.

PR: PSYC 1000 and 1001
UL: cannot be used towards the Psychology major

2810 Brain and Behaviour is a broad survey of physiological psychology at an introductory level. Topics will include the following: structure of the nervous system, nerve conduction, sensory and motor systems, behavioural biology of reproduction, aggression, feeding and drinking, sleep and arousal, pleasure and pain, learning and memory.

AR = Attendance requirement; CH = Credit hours are 3 unless otherwise noted; CO = Co-requisite(s); CR = Credit can be retained for only one course from the set(s) consisting of the course being described and the course(s) listed; LG = Lecture hours per week are 2 unless otherwise noted; LH = Laboratory hours per week; OR = Other requirements of the course such as tutorials, practical sessions, or seminars; PR = Prerequisite(s); UL = Usage limitation(s).

CR: PSYC 2825, the former PSYC 2850, PSYC 3801
PR: PSYC 1000 and 1001
UL: cannot be used towards the Psychology major

2920 Research Methods in Psychology for Non-Majors provides an introduction to the design, understanding, and application of psychological research. Topics covered include understanding and applying scientific method, creating and testing hypotheses, constructing reliable and valid experiments, and the proper use of controls. An emphasis will be placed on thinking critically about psychology and common errors of judgment.

PR: PSYC 1000 and 1001
UL: cannot be used towards the Psychology major or any Psychology honours or joint honours programs

3430 The Psychology of Thinking - inactive course.

3501 Industrial Psychology - inactive course.

3533 Sexual Behaviour covers the most important aspects of human sexuality with a psychology theory and research framework. The course will examine the biological, behavioural and socio-cultural bases of the human sexual response. Topics include sexual interaction and communication, contraception, sexually transmitted infections, orientation, transgender and intersex, variations in sexual behaviour, sex and gender, sexual dysfunction and therapy, and sexual coercion.

UL: cannot be used towards the Psychology major

3577 Program Evaluation - inactive course.

3640 The Psychology of Abnormal Behaviour covers problems of definition, the history of beliefs about abnormal behavior and implication of a behavioural model for the understanding and control of behaviour problems.

CR: PSYC 3650, PSYC 3652
PR: any 3000 level course in Psychology
UL: cannot be used towards the Psychology major

4810 Human Neuropsychology - inactive course.

10.11.2 Majors Courses

These courses are restricted to Majors in Psychology and Behavioural Neuroscience.

2520 Introduction to Behavioural Neuroscience is based on the idea that psychological and neuroscience research efforts are synergistic. Neuroscience research can reveal mechanisms that help explain the mind and behavior, while concepts developed by psychological research often direct the topics that neuroscience investigates. The course will survey a broad range of topics that include the fundamentals of neuroanatomy, neurophysiology, and neurodevelopment, as well as higher level functions such as motivation, emotion, sleep, memory, language, and mental illness.

PR: PSYC 1000 and 1001 and admission to a Major in Psychology or Behavioural Neuroscience; minors may be permitted to take this course if space permits

2910 Research Methods in Psychology I is an introduction to the design and application of psychological research with particular concentration on understanding and applying scientific method, creating and testing hypotheses, constructing reliable and valid experiments, managing and analysing data sets, using statistical software, and scientific writing. Specific topics include descriptive statistics including measures of central tendency, variability, and relative standing, inferential statistics such as t tests for one and two sample designs, correlation and regression, and non-parametric statistics.

CR: Statistics 2500, 2550, the former PSYC 2901, 2925
UL: cannot be used towards the Psychology major

2911 Research Methods in Psychology II covers research methods in psychology with a focus on more complex research designs and statistical approaches, within the realm of experimentation and beyond the laboratory. Specific topics include controlling participant variables, using between and repeated measures designs within the context of Analysis of Variance (ANOVA). Additional ANOVA approaches include one-way and factorial designs, within subject design, and two-way mixed designs.

CR: Statistics 2501, 2560, the former PSYC 2901, 2950
UL: cannot be used towards the Psychology major

2930 Research and Writing in Psychology is an introduction to the fundamentals of preparing psychology reports, emphasizing organization, correct use of terminology, adherence to appropriate discipline style, concise and accurate description, preparation of abstracts, and integration of numerical data. Topics for reports will be selected each semester by the instructor.
PR: admission to a Major in Psychology or Behavioural Neuroscience
UL: may not be used towards the Faculty of Arts CRW requirement or the former R/W requirement

3050 Developmental Psychology is an examination of the methods of study and an evaluation of current findings and theoretical issues of importance to an understanding of development. Topics will be drawn from perception, learning, cognition, social learning, memory and language development.
CR: PSYC 2100, PSYC 2025
PR: PSYC 2520, the former 2570 and 2911 and admission to a Major in Psychology or Behavioural Neuroscience

3100 Social Psychology is an examination of the concepts and principles involved in social behaviour. Topics covered will include attitudes, social cognition, interpersonal relations, and group processes.
CR: PSYC 2010, PSYC 2125
PR: PSYC 2520, the former 2570 and 2911 and admission to a Major in Psychology or Behavioural Neuroscience

3250 Neurobiology of Learning and Memory examines how organisms adjust their behaviour to regularities in the environment as a result of experience. Experience changes behavior by modifying the nervous system. We will take a multidisciplinary approach, combining information from psychology and neuroscience, to study learning and memory. Students will gain an understanding of sensitization, habituation, and classical and operant conditioning using animal models, with a particular emphasis on the synaptic and molecular changes that occur with learning and memory.
PR: PSYC 2520, 2911, and 2930, and admission to a Major in Psychology or Behavioural Neuroscience

3350 Perception (formerly PSYC 2360) is a broad survey of theory and research in sensation and perception.
CR: the former PSYC 2360
PR: PSYC 2520, the former 2570 and 2911 and admission to a Major in Psychology or Behavioural Neuroscience

3450 Human Cognition is an introduction to the experimental study of the mental representations and processes involved in human cognition. Topics such as: language, perception and pattern recognition, concepts and the organization of knowledge, language processes, mental imagery, reasoning, problem solving, decision making and skilled performance will be covered with an emphasis on experimental analysis and techniques.
CR: PSYC 2440, PSYC 2425
PR: PSYC 2520, the former 2570 and 2911 and admission to a Major in Psychology or Behavioural Neuroscience

3510 Directed Study provides an opportunity to work with an individual faculty member on a research project. The student will submit a formal written report of the research conducted. Permission of the instructor is required.
PR: PSYC 2910, 2911 and 2930 and admission to a Major in Psychology or Behavioural Neuroscience

3511 Directed Study provides an opportunity to work with an individual faculty member on a research project. The student will submit a formal written report of the research conducted. Permission of the instructor is required.
PR: PSYC 2910, 2911 and 2930 and admission to a Major in Psychology or Behavioural Neuroscience

3620 Personality Theory and Research - inactive course.

3650 Abnormal Psychology is an examination of the nature, explanation and treatment of psychological disorders with an emphasis on research methods and current findings.
CR: PSYC 3640, PSYC 3626
PR: PSYC 2520, the former 2570 and 2911 and admission to a Major in Psychology or Behavioural Neuroscience

3750 Animal Behaviour I (same as Biology 3750) is an introduction to the mechanisms, development, function and evolution of behaviour in animals. Topics include the history of ethology and comparative psychology, and behavioural ecology; methods of animal behaviour study, behaviour of animals in relation to physiology, learning, communication, mating systems, and other areas in Biology and Psychology.
CR: Biology 3750
PR: Biology 1001, 1002 and PSYC 2520, the former 2570 and 2911 and admission to a Major in Psychology or Behavioural Neuroscience

3800 Cellular Neuroscience addresses the structure and function of neurons and neural circuits and examines principles of electrochemical neuromodulation at the macroscopic, microscopic and molecular level. The relevance of this knowledge to understanding brain mechanisms of normal and diseased brain functions will be touched upon. The molecular basis of the formation of some types of memories will be explored.
PR: PSYC 2520, 2911 and 2930, Biology 1001 and 1002, and admission to a Major in Psychology or Behavioural Neuroscience

3801 Behavioural Neuroscience is a survey of knowledge about brain mechanisms of behaviour. Topics will include the following: basic neuroanatomy and neurophysiology, somatosensory systems and pain, reward, mental illness, sleep and arousal, developmental neurobiology, sexual development and behaviour, regulation of eating and body weight, learning and memory, and cortical function, including cortical mediation of language.
CR: PSYC 2810, PSYC 2825, the former PSYC 2850
PR: PSYC 2520, the former 2570 and 2911 and admission to a Major in Psychology or Behavioural Neuroscience

3820 Research Techniques in Behavioural Neuroscience allows students to increase their understanding of how knowledge is generated in the study of neuroscience and behavior. Students will visit various laboratories on campus that are engaged in research relevant to these fields. In addition to observations and hands-on tutorials, readings, discussions, and writing assignments will strengthen students understanding of the techniques used to answer specific research questions in neuroscience and behaviour.
PR: PSYC 2520, 2911 and 2930, Biology 1001 and 1002, and admission to a Major in Psychology or Behavioural Neuroscience

3830 Behavioural Endocrinology explores the behavioural effects of hormones and the question of how hormones act on the brain to influence behaviour. Topics include: basic concepts in neuroendocrinology, reproductive behaviour (sexual and parental), sexual differentiation of the brain and behaviour, aggressive behaviour, and the neuroendocrinology of stress, including the effects of stress on the brain and behaviour.
PR: PSYC 2520, 2911 and 2930, Biology 1001 and 1002, and admission to a Major in Psychology or Behavioural Neuroscience

3900 Design and Analysis III is a course on complex and specialized research design in Psychology. Multi-factor research designs that employ both between- and within-subjects independent variables. Advantages and disadvantages of using multifactor research designs to test psychological hypotheses. Hierarchical designs and incomplete factorials. The use of covariates and blocking to increase experimental precision. Problems created by missing data. Single subject designs. How to answer specific psychological questions in the context of complex designs. The design and analysis of non-experimental psychological research. Applications of such techniques as the analysis of variance and multiple linear regression to the data obtained with these research designs, with special attention to problems inherent in psychological research.
CR: PSYC 3950, Statistics 3520
LH: one laboratory period weekly
PR: PSYC 2911 and admission to a Major in Psychology or Behavioural Neuroscience

4050 Selected Topics in Developmental Psychology I is an intensive examination of a specific topic in developmental psychology.
PR: PSYC 3050 and admission to a Major in Psychology or Behavioural Neuroscience

4051 Selected Topics in Developmental Psychology II is an intensive examination of a specific topic in developmental psychology.
PR: PSYC 3050 and admission to a Major in Psychology or Behavioural Neuroscience

4070 Research Experience in Development Psychology allows students to gain research experience in selected areas of developmental psychology.
PR: PSYC 2520, the former 2570, 2911, and 3050 and admission to a Major in Psychology or Behavioural Neuroscience

4150 Selected Topics in Social Psychology is an intensive examination of a specific topic in social psychology.
PR: PSYC 3100 and admission to a Major in Psychology or Behavioural Neuroscience

4151 Selected Topics in Social Psychology II is an intensive examination of a specific topic in social psychology.
PR: PSYC 3100 and admission to a Major in Psychology or Behavioural Neuroscience

4152 Selected Topics in Applied Social Psychology is an intensive examination of a specific topic in social psychology.
PR: PSYC 3100 and admission to a Major in Psychology or Behavioural Neuroscience

4152 Selected Topics in Applied Social Psychology is an intensive examination of a specific topic in social psychology.
PR: PSYC 3100 and admission to a Major in Psychology or Behavioural Neuroscience

4152 Selected Topics in Applied Social Psychology is an intensive examination of a specific topic in social psychology.
PR: PSYC 3100 and admission to a Major in Psychology or Behavioural Neuroscience

4152 Selected Topics in Applied Social Psychology is an intensive examination of a specific topic in social psychology.
PR: PSYC 3100 and admission to a Major in Psychology or Behavioural Neuroscience

4152 Selected Topics in Applied Social Psychology is an intensive examination of a specific topic in social psychology.
PR: PSYC 3100 and admission to a Major in Psychology or Behavioural Neuroscience

4250 Selected Topics in Learning and Motivation I is an intensive examination of a specific topic in learning and motivation relevant to the field.
PR: PSYC 3250 or the former PSYC 2250 and admission to a Major in Psychology or Behavioural Neuroscience

4251 Selected Topics in Learning and Motivation II is an intensive examination of a specific topic in learning and motivation relevant to the field.
PR: PSYC 3250 or the former PSYC 2250 and admission to a Major in Psychology or Behavioural Neuroscience
examination of a specific topic in learning and motivation.
PR: PSYC 3250 or the former PSYC 2250 and admission to a Major in Psychology or Behavioural Neuroscience

4650 Selected Topics in Psychology I is an intensive examination of a specific topic in psychology that crosses traditional subdisciplines.
PR: two 3000-level majors courses (other than 3900) and admission to a Major in Psychology or Behavioural Neuroscience

4652 Selected Topics in Cognition: Reading - inactive course.

4653 Selected Topics in Cognitive Science (same as the former PSYC 4402) is an intensive examination of a specific topic in cognitive science from a psychological perspective.
CR: the former PSYC 4402
PR: two courses chosen from PSYC 3050, 3250, 3350, 3450, 3801 and admission to a Major in Psychology or Behavioural Neuroscience

4656 Developmental Psychopathology - inactive course.

4661 Family Psychology is a study of the reciprocal relationship between family processes and abnormal behaviour. The course will focus on the role of family processes in the etiology of abnormal behaviour, the impact of psychological disorders on family functioning and the application of family therapy to create therapeutic change.
PR: PSYC 3650, or all of 2520, the former 2570, 2911 and 3640 and admission to a Major in Psychology or Behavioural Neuroscience

4662 Clinical Psychology and Theories of Psychotherapy - inactive course.

4670 Research Experience in Abnormal Psychology allows students to gain research experience in selected areas of clinical psychology.
PR: PSYC 2520, the former 2570, 2911 and 3640 and admission to a Major in Psychology or Behavioural Neuroscience

4671 Research Experience in Personality - inactive course.

4701 Animal Behaviour II - inactive course.

4750 Selected Topics in Animal Behaviour I is an intensive examination of a specific topic in animal behaviour.
PR: PSYC 2520, former 2570, 2911 and PSYC 3750 or BIOL 3750, and admission to a Major in Psychology or Behavioural Neuroscience

4751 Selected Topics in Animal Behaviour II is an intensive examination of a specific topic in animal behaviour.
PR: PSYC 3750 or Biology 3750 and admission to a Major in Psychology or Behavioural Neuroscience

4770 Research Experience in Animal Behaviour (same as Biology 4770) allows students to gain research experience in selected areas of animal behaviour.
CR: Biology 4770
PR: PSYC 2520, the former 2570, 2911 and PSYC 3750 or BIOL 3750, and admission to a Major in Psychology or Behavioural Neuroscience

4850 Selected Topics in Behavioural Neuroscience I is an intensive examination of a specific topic in behavioural neuroscience.
PR: PSYC 2810, or 3800 or 3801 and admission to a Major in Psychology or Behavioural Neuroscience

4851 Selected Topics in Behavioural Neuroscience II - inactive course.

4870 Research Experience in Neuroscience allows students to gain research experience in selected areas of neuroscience.
PR: PSYC 2520, the former 2570, 2911, and either 3800 or 3801 and admission to a Major in Psychology or Behavioural Neuroscience

4910 Systems in Contemporary Psychology is a study of paradigms and explanations in contemporary psychology in the context of their historical antecedents.
PR: at the St. John’s campus, 30 credit hours in Psychology courses required in the majors program and admission to a Major in Psychology or Behavioural Neuroscience or, at the Grenfell campus, 30 credit hours in Psychology courses including Psychology 3950

498A and 498B Honours Dissertation is a linked course, based on independent study of an approved problem in Psychology. The topic will be chosen in consultation with the Faculty Advisor. The first semester will normally involve directed reading in this area, and preparation of a dissertation proposal. The second semester will be devoted to conducting the study, gathering data, data analysis and preparation of a formal written report. The dissertation must be submitted for grading before the end of the tenth week of the semester in which the student is registered for 498B.
CH: 6
PR: admission to the Honours Program

10.11.3 Psychology Work Term Descriptions

The Following Work Terms are a requirement of the Psychology Co-op Program only.

199W Work Term I follows the successful completion of Semester 4. Students are expected to learn, develop and practice the high standards of behaviour and performance normally expected in the work environment. (A detailed description of each job is normally posted during the job competition.) As one component of the Work Term, the student is required to complete a work report. The work report, as a minimum requirement should:
1. analyse an issue/problem related to the student’s work environment.
2. demonstrate an understanding of the structure of a professional report, and show reasonable competence in written communication and presentation skills. (Students should consult the evaluation form provided in the placement package.)
Late reports will be graded as FAL unless prior permission for a late report has been given by Co-operative Education.
Seminars on professional development, conducted by Co-operative Education, are presented during Semester 4 to introduce and prepare the student for participation in the subsequent work terms. Topics may include among others, work term evaluation, work report writing, career planning, employment seeking skills, resume preparation, self employment, ethics and professional concepts, behavioural requirements in the work place, assertiveness in the work place and industrial safety.

299W Work Term II follows the successful completion of Semester 6. Students are expected to further develop and expand their knowledge and work-related skills and should be able to accept increased responsibility and challenge. In addition, students are expected to demonstrate an ability to
deal with increasingly complex work-related concepts and problems. The work report, as a minimum requirement, should:
1. analyse an issue/problem related to the student’s work environment and demonstrate an understanding of practical application of concepts relative to the student’s academic background
2. demonstrate competence in creating a professional report, and
3. show competence in written communication and presentation skills Late reports will be graded as FAL unless prior permission for a late report has been given by Co-operative Education.

399W Work Term III follows the successful completion of Semester 7. Students should have sufficient academic grounding and work experience to contribute in a positive manner to the problem-solving and management processes needed and practiced in the work environment. Students should become better acquainted with their discipline of study, should observe and appreciate the attitudes, responsibilities, and ethics normally expected of professionals and should exercise greater independence and responsibility in their assigned work functions. The work report should reflect the growing professional development of the student and, as a minimum requirement, will:
1. demonstrate an increased ability to analyse a significant issue/problem related to the student’s experience in the work environment
2. demonstrate a high level of competence in producing a professional report, and
3. show a high level of competence in written communication and presentation skills Late reports will be graded as FAL unless prior permission for a late report has been given by Co-operative Education.

10.12 Science

1000 Introduction to Science I is a liberal science course for Arts students, which reflects the way scientists think and work through historical, philosophical and social considerations of the environment we live in. Typical course content includes: the concepts of matter, motion and energy; the chemical basis for life and the interdependence of organisms; and the abundance and distribution of the Earth’s natural resources.

1150 Introduction to Physical and Life Sciences (formerly Science 115A) is an introduction to some concepts in the Physical and Life Sciences. This course is primarily intended for the non-science major (Bachelor of Arts; Bachelor of Education (Primary/Elementary)).
CR: the former Science 115A
LH: 3
UL: not acceptable as a prerequisite for 2000 level courses in Physics, Chemistry, Biology, Geography or Earth Sciences

1151 Introduction to Physical and Life Sciences (formerly Science 115B) is an introduction to some concepts in the Physical and Life Sciences. This course is primarily intended for the non-science major (Bachelor of Arts; Bachelor of Education (Primary/Elementary)).
CR: the former Science 115B
LH: 3
UL: not acceptable as a prerequisite for 2000 level courses in Physics, Chemistry, Biology, Geography or Earth Sciences

5998 Exchange Programs in Science will be available only to students attending Memorial University of Newfoundland as part of a formal exchange agreement, memorandum of understanding, or other special arrangement. This course will normally be offered twice a year, from March to August and September to February.
CH: 3–15, to be determined for each offering by the Dean in consultation with the appropriate Head of Department or Co-ordinator
PR: permission of the Dean of Science
UL: may be repeated for credit once

The School of Social Work strives to strengthen human relationships and promote social justice through academic excellence.

3.2 Mission
The School of Social Work courses are designed for delivery on a philosophical base of humanism and social justice. This is accomplished in an empowering teaching and learning environment, through the practice of anti-oppression principles, within the context of critical thinking. Social Work courses draw upon the substance and analytical processes of the social and behavioural sciences and of the humanities. It reflects Memorial University of Newfoundland and the School of Social Work's traditional commitments to serve the people of Newfoundland and Labrador within a global context.

3 School Description
A social work program at Memorial University commenced in 1963 with the offering of a two-year diploma in public welfare. In 1965 the Bachelor of Arts (Social Welfare) degree was initiated, continuing until 1970 when the Bachelor of Social Work was established. The Bachelor of Social Work program is accredited by the Canadian Association of Social Work Education (CASWE). The program is currently accredited to January 2018. The School also offers an undergraduate diploma and graduate degrees at the master and doctoral level.

Social Work courses are designed for delivery on a philosophical base of humanism and social justice. This is accomplished in an empowering teaching and learning environment, through the practice of anti-oppression principles, within the context of critical thinking. The curriculum in social work draws upon the substance and analytical processes of the social and behavioural sciences and of the humanities. It reflects Memorial University of Newfoundland and the School of Social Work's traditional commitments to serve the people of Newfoundland and Labrador within a global context.

Additional information regarding the School of Social Work is available at www.mun.ca/socwrk.
4 Description of Programs

All courses of the School are designated by the abbreviation SCWK.

4.1 Bachelor of Social Work

The Bachelor of Social Work is a full-time program that is offered as a first or a second degree program and is comprised of course work and two internships. The degree qualifies graduates for beginning professional practice in social work settings. The objectives of the liberal education aspect of the undergraduate program includes the achievement of: general knowledge of people and nature, analytical and critical thinking and communication skills and knowledge of social, political and economic impacts in society. The objectives of the undergraduate program are to prepare students to: promote social justice and social well being and creatively challenge oppression; acquire and apply knowledge, skills, values, professional ethics and critical thinking abilities; recognize limitations and strengths as a beginning social work practitioner; integrate reflexively critical self-awareness; assume leadership in collaboration and interdisciplinary practice; utilize and participate in innovative and traditional inquiry and research models; creatively practice with diverse individuals and collectives; promote and critique the social work profession on, regional, provincial, national and global levels; commit to the process of lifelong learning; participate collaboratively and respectfully in innovative teaching and learning processes; and address issues of transition and crisis in diverse contexts (individuals, families, groups, communities, formal organizations and society).

The aim of the program is to develop social workers with generically based skills for working with individuals, families, communities, and groups. Students receive an education which prepares them to work in urban centres and rural settings. A special emphasis is placed on the importance of identifying local needs and developing the means of meeting these needs in the context of available resources.

There is a Program Residency Requirement for both the First and Second Degree programs requiring students to take specific courses on the St. John's campus. Although the majority of courses are taught on-campus, selected courses are occasionally taught by distance format.

4.1.1 Social Work Internships

- In addition to their course work, students are required to complete two supervised 350 hour internships which normally occur in Fall and Winter semesters. Students are expected to be available to engage in the internship for 28 hours each week during the semester in which the internship is scheduled.
- Each internship is to be conducted in a setting and supervised by a qualified field instructor approved by the Field Education Coordinators in compliance with the CASWE Standards for Accreditation and the relevant provincial legislation governing the practice of social work. Field instructors must possess, as a minimum qualification, a Bachelor of Social Work and/or a Master of Social Work from an accredited social work program plus a minimum of two years post-degree social work employment. Qualifications will be assessed in the case of international internships.
- Students normally are expected to be available for field internships throughout the Province of Newfoundland and Labrador.
- The Field Education Coordinators are responsible for facilitating appropriate matches among students, field instructors, and field internship settings. Although consideration will be given to all factors affecting the location and type of internships, final approval of field internships rests with the Field Education Coordinators. Students who refuse an internship deemed suitable by the Field Education Coordinators may be delayed in their program or prevented from completing their program of study.
- Students are responsible for all costs associated with internships including travel, immunizations, police records/vulnerable sector checks and accommodation.
- Students shall submit an application, including Student Brief Resume, to the Field Secretary in the preceding January for Fall semester field internships and the preceding April for Winter semester field internships.
- Students shall complete agency specific requirements, such as Criminal Record Check, Vulnerable Sector Check, Child Protection Records Check, or Health Check, before starting the internship. Students unable to meet the agency's requirements may be delayed in their program or prevented from completing their program of study. Students are required to complete and update these requirements in a timely fashion and at their own expense. The requirements and procedures of any given agency may change from time to time and are beyond the control of the University.

4.2 Diploma in Social Work

Pending availability of resources, a program leading to the Diploma in Social Work may be designed for groups of students with particular needs. This program is only offered to cohorts and not individual students. Admission of individual students to a diploma program is competitive and selective. Information about diploma programs can be obtained by contacting the Dean of the School of Social Work.

5 Admission/Readmission Regulations for the School of Social Work

In addition to meeting the UNIVERSITY REGULATIONS students must meet the admission/readmission regulations for the School of Social Work.

5.1 General Information

1. Entry to programs is competitive.
2. Selection of candidates will be based on academic standing, relevant work/volunteer experience, and personal suitability for a career in social work.
3. The School of Social Work depends on the cooperation of community agencies external to the University to provide field internships and instruction to its students. Many of these agencies have a range of requirements, such as a Certificate of Conduct or a Child Protection Records Check, which must be completed before starting the internship. Students unable to meet these agencies' requirements may be delayed in their program or prevented from completing their program of study. Students are required to complete and update these requirements in a timely fashion and at their own expense. The procedures of any given agency may change from time to time and are beyond the control of the University.
4. As part of the regular quota up to three seats per year are available in the Bachelor of Social Work as a First Degree program for applicants of First Nations/Aboriginal ancestry who have met the minimum numeric grade and course requirements for admission to the program. Applicants must send a letter of request at the time of application and provide documentation of First Nations/Aboriginal ancestry.
5. The School may, at its discretion, give preference to applicants who self-identify as a member of an equity group.
6. Students applying for readmission must meet all admission and promotion requirements of the School of Social Work in effect for the
5.2 Application Forms and Deadlines

1. The Bachelor of Social Work as a First Degree program commences in the Fall semester. The Bachelor of Social Work as a Second Degree program will normally commence in the Winter semester. The deadline for application for admission is March 1. Students are encouraged to submit their applications as early as possible.

2. Applications received after the deadline and incomplete applications will not be considered.

3. Application forms are available online at www.mun.ca/socwrk/undergraduate/apply.php annually from mid November to March 1st inclusive.

4. Applicants for readmission to the School of Social Work must submit a School of Social Work application to the Office of the Registrar by March 1 for Fall semester readmission, February 1 for Spring semester readmission, and October 1 for Winter semester readmission. Applications received after these deadlines will be considered only if a place is available in the School of Social Work.

5. All applications for admission or readmission must be submitted to the Office of the Registrar. A complete application package includes an application to the University (for those who have not attended Memorial University of Newfoundland in the three preceding semesters), an application to the School and any other required documentation.

5.3 Admission Requirements

5.3.1 First Degree Program

1. To be considered for admission to the Bachelor of Social Work program, applicants must have completed the 30 credit hours outlined below by the end of the Winter semester for the year in which admission is being sought and must achieve an overall average of at least 65% in these courses and a grade of at least 65% in Social Work courses. These courses and credits must have been taken at Memorial University of Newfoundland or accepted for transfer credit from a recognized university or university college. The 30 credit hours are:

   - 6 credit hours in English
   - Psychology 1000 and 1001
   - Sociology 1000
   - Social Work 1710
   - 12 credit hours in non-social work elective courses. No more than 6 of these credit hours can be taken from areas other than arts and science.

2. In addition, applicants must have achieved an average of at least 65% in the courses comprising the last 30 credit hours attempted by the end of the Winter semester for the year in which admission is being sought and for which a numeric grade has been assigned.

3. In addition to other criteria used in the selection process, applicants for admission will be ranked according to their academic performance. For further details please refer to the School’s website at www.mun.ca/socwrk/undergraduate/prospective.php.

4. During the period between the date of application and the commencement of year 2, successful candidates will be required to meet the Academic Requirements and Promotion Regulations of the School of Social Work.

5. A student will not be considered for admission if he/she has attempted and failed to receive a grade of 65% or higher in two or more SCWK courses or has failed to receive a grade of 65% or higher in the same social work course twice.

5.3.2 Second Degree Program

The Bachelor of Social Work as a Second Degree is a 60 credit hour program intended for candidates who have completed the required courses, meet the academic performance requirements, and have extensive employment and/or formal volunteer experience. Priority is given to applicants who are bona fide residents of the province of Newfoundland and Labrador.

1. To be considered for admission to the Bachelor of Social Work as a Second Degree, individuals must have:

   - been awarded a Bachelor’s Degree, or approved (by the end of the Winter semester preceding the academic year in which admission is being sought) for the award of a Bachelor’s Degree from a university recognized by Memorial University of Newfoundland;
   - achieved a minimum average of at least 70% in the last 60 credit hours of undergraduate study attempted by the end of the Winter semester preceding the academic year in which admission is being sought and for which a numeric grade has been assigned;
   - completed the 30 credit hours outlined below by the end of the Winter semester preceding the academic year in which admission is being sought and achieved an overall average of at least 70% in these courses and a grade of at least 65% in Social Work courses. These courses and credits must have been taken at Memorial University of Newfoundland or accepted for transfer credit from a recognized university or university college. The 30 credit hours are:

   - Social Work 1710
   - 6 credit hours in English
   - Psychology 2010 and 2020 or (2025 and 3 credit hours in Psychology at the 2000 level or above)
   - 6 credit hours in Sociology of which 3 must be at the 2000 level or above
   - 9 credit hours at the 2000 level or above selected from the following: Anthropology, Economics, Folklore, Gender Studies (1000 level will be acceptable for Gender Studies only), Geography, History, Linguistics, Philosophy, Political Science, Psychology, and/or Sociology.
   - completed 300 hours of verified formal work/volunteer experience in human services

2. In addition to other criteria used in the selection process, applicants for admission will be ranked according to their academic performance.

3. A student will not be considered for admission if he/she has attempted and failed to receive a grade of 65% or higher in two or more SCWK courses or has failed to receive a grade of 65% or higher in the same social work course twice.

4. Successful candidates completing courses during the Spring and/or Fall semester(s) that precede the program commencement semester will be required to meet the Academic Requirements and Promotion Regulations of the School of Social Work.
5.3.3 Acceptance Procedures for Admission

1. Applicants for the First Degree program will normally be notified of admission decisions by the end of June. Approved applicants for this program option will be admitted in the Fall semester only.

2. Applicants for the Second Degree program will normally be notified of admission decisions by the end of June. Approved applicants for this program option will normally be admitted in the Winter semester only.

3. The School of Social Work will not defer any admissions to the first or second degree programs.

5.3.4 Readmission Requirements

In addition to requirements specified in Admission/Readmission Regulations for the School of Social Work, applicants for readmission to the Bachelor of Social Work will be assessed for eligibility in accordance with Academic Requirements and Promotion Regulations, in effect for the year in which readmission is being sought, and contingent upon availability of a seat in the semester for which readmission is sought. Students who are readmitted to the program following a five-year absence will be required to do remedial work upon the recommendation of the Committee on Undergraduate Studies. Remedial work may include the repetition of classroom and/or internship courses.

6 Program Regulations

6.1 Bachelor of Social Work (as a First Degree)

1. The 120 credit hour Bachelor of Social Work (as a First Degree) requires 48 non-SCWK credit hours and 72 SCWK credit hours that include two internships as defined in Table 1 Bachelor of Social Work (as a First Degree).

2. Following admission to Year 2, credit hours shall normally be taken in the sequence as set out in Table 1 Bachelor of Social Work (as a First Degree). Students wishing to change the sequence and/or reduce the course load specified for Years 2 - 4 must receive written approval from the Dean of the School. A change in course sequence may result in an extension to the length of time normally required to complete the program.

3. Students must complete the application for Social Work internship in January for Fall semester and in April for Winter semester.

6.2.1 Program Residency Requirements

Students shall be required to successfully complete all Social Work courses on the St. John’s campus except for: SCWK 3300, 3311, 3521, and 4302.

7 Academic Requirements and Promotion Regulations

7.1 General Information

1. The Committee on Undergraduate Studies will determine a student's promotion status at the end of each academic term.

2. These regulations shall apply from the date of the application for admission/re-admission to the program to the completion of the program.

3. In addition to meeting the academic requirements and promotion regulations for the School all students must meet the general academic regulations (undergraduate). For further information refer to UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate).

7.2 Promotion Status

A student's promotion status at the end of each term will be in one of the following three categories:

7.2.1 Clear Promotion

Clear Promotion means that a student can proceed to the next term without restrictions. Clear Promotion will be given to a student who has completed the academic term with an overall average of at least 65% and with a numeric grade of at least 65% in each SCWK course.

7.2.2 Probationary Promotion

Probationary Promotion means that a student has not received a Clear Promotion and must meet certain conditions to obtain Clear Promotion. Probationary Promotion will be given to a student who has not obtained an overall term average of at least 65%. The student will be issued a letter of warning and must obtain an overall average of at least 65% in the subsequent academic term.

who has not obtained a numeric grade of at least 65% in each required SCWK course. The student must repeat the course(s) within three academic terms from the unsuccessful completion and obtain a numeric grade of at least 65%. The student will not be permitted to repeat more than two SCWK courses in the program and will subsequently be denied promotion should she/he receive less than 65% in the same social work course twice.

who has not obtained a numeric grade of at least 65% in each elective SCWK course. The student must successfully complete this course or another appropriate SCWK elective with a numeric grade of at least 65% before completion of the program. The student will not be permitted to repeat more than two SCWK courses in the program and will subsequently be denied promotion should she/he receive less than 65% in the same social work course twice.

who has voluntarily withdrawn from an internship before its completion with the prior approval of the Field Education Coordinator and the Committee on Undergraduate Studies. In addition to the designation Probationary Promotion, the student will also receive a
letter grade of DR (drop) for that internship. The student will be required to successfully complete another internship before continuing in the program.

- who behaves in a manner that breaches the current Code of Ethics of the Canadian Association of Social Workers which is available at www.casw-acts.ca/ and/or the Suitability Policy of the School of Social Work but for which the School considers that withdrawal from the program is not warranted. The Suitability Policy of the School of Social Work is available at www.mun.ca/socwrk/undergraduate/fieldBSW/Appendix_SF-2.pdf.

### 7.2.3 Promotion Denied

Promotion Denied means that a student has not received either a **Clear Promotion** or a **Probationary Promotion** and must withdraw from the School. A student’s eligibility for readmission is governed by conditions detailed below in **Other Information**. Promotion denied will be given to a student:

- who has not met the conditions of his/her probation.
- who has received a numeric grade of less than 65% in more than two SCWK courses.
- who has received a numeric grade of less than 65% in the same social work course twice.
- who has conducted him/her self in such a manner as to cause the field agency and a Field Education Coordinator to terminate the internship or who has voluntarily withdrawn from a field internship without the prior approval of a Field Education Coordinator and the Committee on Undergraduate Studies.
- who has received a letter grade of FAL (fail) in an internship.

who behaves in a manner that breaches the current Code of Ethics of the Canadian Association of Social Workers which is available at www.casw-acts.ca/ and/or the Suitability Policy of the School of Social Work but for which the School considers that withdrawal from the program is warranted. The Suitability Policy of the School of Social Work is available at www.mun.ca/socwrk/undergraduate/fieldBSW/Appendix_SF-2.pdf.

### 7.2.4 Other Information

1. A student will not be eligible for consideration for admission or readmission to the School if he/she has:

   - received a numeric grade of less than 65% in more than two SCWK courses in the entire program, or received a numeric grade of less than 65% in the same SCWK course twice;
   - received a letter grade of FAL (fail) in more than one internship; or
   - behaved in a manner that breaches the current Code of Ethics of the Canadian Association of Social Workers which is available at www.casw-acts.ca/ and/or the Suitability Policy of the School of Social Work and for which the School considers that withdrawal from the program is warranted. The Suitability Policy of the School of Social Work is available at www.mun.ca/socwrk/undergraduate/fieldBSW/Appendix_SF-2.pdf.

2. A student who has been denied promotion and has had to withdraw from the School but is eligible for consideration of readmission to the School

   - must withdraw from the School for two academic terms before being considered for readmission;
   - must meet readmission deadlines as per [Application Forms and Deadlines](http://www.mun.ca/admit/twbkwbis.P_WWWLogin).
   - will be permitted only one readmission to the School.

### 7.3 Leave of Absence

1. Any student who wishes to withdraw from the program and to retain his/her status in the program may do so only with the written approval of the Committee on Undergraduate Studies and for a maximum period of one academic year. A student who wishes to resume his/her studies within this period must notify the Dean in writing three months prior to the beginning of the term in which he/ she wishes to continue his/her program. Students who do not return to the program at the end of their approved leave of absence will be deemed to have left the program.

### 7.4 Student Withdrawal

1. A student may be required to withdraw from the program at any time, on the recommendation of the Committee on Undergraduate Studies, if the student is deemed to have behaved in a manner that breaches the Canadian Association of Social Workers Code of Ethics and/or the School of Social Work Suitability Policy and for which the committee considers that withdrawal from the program is warranted. The Committee on Undergraduate Studies may determine the withdrawal to be conditional or permanent depending on the circumstances precipitating the action.

2. In the case of a conditional withdrawal, the Committee on Undergraduate Studies will determine the duration of the withdrawal and any conditions the student must fulfill during the withdrawal. Upon successful completion of the conditions, the student may be permitted re-entry to the program. Failure to meet conditions may result in a permanent withdrawal.

3. In the case of a permanent withdrawal, the student will not be eligible for future admission/readmission to the Bachelor of Social Work program.

4. A student who voluntarily withdraws from the program prior to the conclusion of the first semester and who wishes to return to the program must re-apply in competition as a new applicant.

### 8 Graduation

Upon meeting the qualifications for the Bachelor of Social Work program a student must apply by the appropriate deadline date to graduate on the prescribed “Application for Graduation” form. This form may be obtained on-line at the Memorial Self Service at www3.mun.ca/admit/twbkwbis.P_WWWLogin. Additional information is available from the Office of the Registrar at www.mun.ca/regoff/graduation/apply_grad.php.

### 9 Waiver of School Regulations

Every student has the right to request waiver of School regulations. A student wishing waiver of University academic regulations should refer to **UNIVERSITY REGULATIONS** - General Academic Regulations (Undergraduate) - Waiver of Regulations.
9.1 General Information

1. The School reserves the right in special circumstances to modify, alter, or waive any School regulations in its application to individual students where merit and equity so warrant in the judgment of the Committee on Undergraduate Studies of the School.
2. All requests must be submitted to the Committee on Undergraduate Studies of the School for consideration.
3. A student requesting a waiver of a School regulation must submit the request in writing to the Chair of the Committee on Undergraduate Studies. Medical and/or other documentation to substantiate the request must be provided.
4. Any waiver granted does not reduce the total number of credit hours required for the degree.

10 Appeal of Regulations

1. Any student whose request for waiver of School regulations has been denied has the right to appeal. For further information refer to UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate) - Appeal of Decisions.
2. An applicant who has been denied admission has the right to appeal this decision of the Admissions Committee if it is felt by the applicant that the decision was reached on grounds other than those outlined in Admission/Readmission Regulations for the School of Social Work. The appeal should be made in writing within fourteen days of the notification of the decision and should be directed to the Dean of the School. The letter should state clearly and fully the grounds for the appeal. If the Dean of the School, in consultation with the Registrar, judges the grounds to be sufficient, the formal appeals mechanism will be initiated.

11 Course Descriptions

In accordance with Senate’s Policy Regarding Inactive Courses, the course descriptions for courses which have not been offered in the current academic year and which are not scheduled to be offered in the current academic year have been removed from the following listing. For information about any of these inactive courses, please contact the Dean of the School.

All courses of the School are designated by SCWK.

1710 Social Work Philosophy and Practice provides an overview of the historical development, philosophical orientation, basic values, principles and ethics of the profession. The course examines the roles of social workers in program development in a diverse and changing environment. It will be emphasized that the nature of oppression and marginalization and strategies to promote social justice and prevent injustice. Reflective practice principles and experiential activities will be emphasized that will be part of the basis for examining the social work practice and the role of social workers in addressing social issues relevant to human beings. Strategies to address social issues that inform social work practice with vulnerable populations. The impact of issues such as violence, addiction, poverty, trauma and oppression are examined as are strengths and resilience of human beings.

2211 Diverse Theories for Social Work Practice provides an overview of critical and practice theories that explain problems and guide the change process. The course will involve students in a critical analysis of a broad range of theories including: Critical theories such as structural, feminist, Marxist, anti-racist, aboriginal, queer, & anti-oppressive practice; modern theories such as transactional systems, ecological cognitive & crisis theory/ intervention; postmodern theories such as solution focussed and narrative, and Macro practice, social action, and community organization.

2320 Social Work Knowledge and Skills for Assessment and Intervention introduces beginning skills for social work practice. The relevance of relationship based approach, a strengths perspective and an anti-oppressive stance will be considered as students acquire biopsychosocial assessment and interviewing skills. Attention is given to self-awareness, professional identity and a wide range of beginning counselling skills with diverse populations and situations such as: Aboriginal people, involuntary clients, suicide risk, domestic violence, clients in crisis and children at risk.

2321 Social Work Knowledge and Skills for Personal and Social Change addresses knowledge, skills and competencies that enable the social worker to facilitate positive change within the middle and end stages of intervention. Emphasis will be given to a range of current best known practices within the context of clinical and community applications, promotion of social justice, strengths and critical thinking. General practice approaches that may be applied with individuals, families and communities will be emphasized.

2350 Social Work: Critical Analysis of Social and Health Policy engages students in critical analysis of local and national social and health policy development from a social work perspective. The course explores topics that are relevant to direct service provision such as: the influence of historical context on policy development, interactions among federal, provincial and local governments that influence policy and leadership and advocates roles of social workers in program development in a diverse and changing environment.

2711 Social Justice and Social Work Practice explores human rights from a global perspective and examines social responsibility, the nature of oppression and marginalization and strategies to promote social justice and prevent injustice. Reflective practice principles and experiential activities will be emphasized that will be part of the basis for examining the social work practice and the role of social workers in addressing social issues relevant to human beings.

3200 Cultural Camp - inactive course

3300 Social Work Internship 1 is a 350 hour supervised field experience that provides students with opportunities to apply social work principles, theories and skills to work with clients and communities. The field experience is designed to develop: professional use of self, beginning ability to implement planned interventions with diverse populations and an appreciation for social justice activities.

3511 Aboriginal People and Social Policy explores human rights from a global perspective and examines social responsibility, the nature of oppression and marginalization and strategies to promote social justice and prevent injustice. Reflective practice principles and experiential activities will be emphasized that will be part of the basis for examining the social work practice and the role of social workers in addressing social issues relevant to human beings.

3711 Social Justice and Social Work Practice explores human rights from a global perspective and examines social responsibility, the nature of oppression and marginalization and strategies to promote social justice and prevent injustice. Reflective practice principles and experiential activities will be emphasized that will be part of the basis for examining the social work practice and the role of social workers in addressing social issues relevant to human beings.

CR: the former SCWK 4420 and 4421
PR: SCWK 3221, 3521 and 3720 or admission to the second degree program option

4620 Field of Practice: Social Work in Interdisciplinary Mental Health and Health Services provides an overview of mental health and illness, the impact of people and communities on social work interventions within an interdisciplinary community context. The oppression of illness, disability and mental health problems across the lifespan is considered as well as the role of social work in the continuum of care. Topics include: mental health, health, mental illness, disability, social determinants of health, social movements and advocacy.

CO: SCWK 4312, 4313, 4314 and 4410
CR: the former SCWK 4610, 5610 and 5613
PR: SCWK 3221, 3521 and 3720

4820-4829 Selected Topics in Social Work may be offered by the School. Students should consult the School for selected topics being offered in a given semester.

CO: SCWK 4302
PR: SCWK 4312, 4313, 4314 and 4410

1 The Memorial University of Newfoundland Code

The attention of all members of the University community is drawn to the section of the University Calendar titled The Memorial University of Newfoundland Code, which articulates the University's commitment to maintaining the highest standards of academic integrity.

2 Student Code of Conduct

Memorial University of Newfoundland expects that students will conduct themselves in compliance with University Regulations and Policies, Departmental Policies, and Federal, Provincial and Municipal laws, as well as codes of ethics that govern students who are members of regulated professions. The Student Code of Conduct outlines the behaviors which the University considers to be non-academic misconduct offences, and the range of remedies and/or penalties which may be imposed. Academic misconduct is outlined under General Regulations - Academic Misconduct in the University Calendar.

For more information about the Student Code of Conduct, see www.mun.ca/student/conduct/conduct.php.

3 General Information and Regulations Governing All Graduate Students

3.1 School Description

Memorial University of Newfoundland's School of Graduate Studies (SGS) is home to over 3,500 graduate students enrolled in over 100 graduate diploma, and master's and doctoral degree programs.

The School is a central agency responsible for the collection, maintenance, and distribution of materials on graduate students. It maintains graduate files and administers graduate applications, admissions, comprehensive examinations, thesis examinations, and doctoral defences. SGS is also responsible for registrarial functions, graduate enrolment management, and recruitment, and administers graduate student funding including assistantships, external and internal scholarships, baseline fellowships, supervisor support, and Tricouncil global payments.

The School assists academic units in developing new program proposals and administers their approval. Through its Academic Council, SGS also provides a forum for representatives from all faculties, schools, and the Graduate Students' Union to discuss matters pertaining to graduate education. The Council ensures maintenance of standards across all graduate programs by considering policies relating to graduate studies, approving regulation changes and appeals, receiving reports from standing and ad hoc committees, and making recommendations on matters affecting graduate studies.

Additional information regarding the School of Graduate Studies is available at www.mun.ca/sgs.

Students must meet all regulations of the School in addition to the General Regulations, the Degree Regulations and any additional requirements of the appropriate Department. For information concerning fees and charges refer to Fees and Charges, UNIVERSITY REGULATIONS.

3.2 Programs

The following graduate diploma and degree programs are offered by Memorial University of Newfoundland. Interdisciplinary study is encouraged by the University, and prospective applicants should make enquiries about their interests from all the areas of study concerned.

3.2.1 Graduate Diplomas

Clinical Epidemiology
Community Health
Educational Leadership Studies
Fisheries Resource Management
Post-Secondary Studies (Health Professional Education)
Post Masters Nurse Practitioner
Safety and Risk Engineering

3.2.2 Graduate Degrees

Master of Applied Science
Master of Applied Psychological Science (Co-operative)
Master of Applied Statistics
Master of Arts
Master of Arts and Education (Education and Francophone Literatures and Cultures)
Master of Business Administration
Master of Education
Master of Employment Relations
Master of Engineering
Master of Engineering Management
Master of Environmental Science
Master of Gender Studies
Master of Health Ethics
Master of Marine Studies (Fisheries Resource Management)
Master of Maritime Management
3.3 Definition and Explanation of Terms Used in this Calendar

3.3.1 Special/Selected Topics Courses
Where a block of courses has been approved under a general heading such as selected topics, special areas, directed readings or like heading, each new course offered from that block of courses shall be approved in advance by the Faculty/School Council (or delegated Graduate Studies Committee). To ensure an orderly use of the courses and non-duplication between course numbers, titles and contents, the Council (or Committee) shall require the same quality and type of information as is needed for the approval of a regular course. (Consult the School of Graduate Studies or Deputy Registrar for administrative procedures.)

3.3.2 Dean of Graduate Studies
In all regulations following, reference to “the Dean” refers specifically to the Dean of Graduate Studies.

3.3.3 Credit Hour
A credit hour is the measure used to reflect the relative weight of a given course towards the fulfillment of appropriate degree, diploma, certificate, major, minor, or other program requirements. Normally, a course has a credit value of 3 credit hours. A weight of one credit hour normally means that the course meets for lectures one hour per week for the duration of a semester or two hours per week for the duration of a session. The number of hours of required instruction, outside of lecture time, such as laboratory instruction, tutorials, etc. may or may not impact on the number of credit hours assigned to a particular course and academic units may recommend to the Senate a greater or lesser whole number of credit hours for a particular course.

3.3.4 Graduate Course
1. A graduate course comprises a unit/units of work in a particular subject normally extending through one semester, the completion of which carries credit toward the fulfillment of the requirements for a postbaccalaureate degree, diploma, or certificate.
2. Accelerated courses are not normally permissible in graduate programs.
3. Courses required as part of a graduate student’s program are known as program courses. Tuition for such courses is covered by the semester fee.
4. Courses which are not required as part of a graduate student’s program are known as non-program courses. Students registering for such courses will be required to pay the appropriate per-course fee.

3.3.5 Policy Governing the Auditing of Courses
1. In order to audit any course, an individual must receive permission from the instructor in that course, the Supervisor/advisor, and the administrative Head of the unit in which the course is offered. Matters to be considered shall include class size, impact on students registered for credit, and other factors judged relevant by the academic unit. Permission cannot be given until the number of registrations for credit is known.
2. Individuals auditing courses shall limit their participation to that deemed appropriate by the instructor; auditors are not permitted to write formal examinations, nor to have their work formally assessed.
3. Students who require a testamur of auditing may request the same from the instructor of the course. Students will not register for audit courses nor will a record of audit courses appear on students’ transcripts.

3.3.6 Semester
A semester means a period of approximately 14 consecutive weeks during which the University is in regular session and in which period there are at least 12 teaching weeks as defined by the Senate. Normally the Fall semester commences in early September, the Winter semester in early January, and the Spring semester in early May.

3.3.7 Academic Year
The academic year is from September 1 of one year to August 31 of the following year.

3.3.8 Graduate Student
A graduate student is one who has been admitted to a graduate degree or a graduate diploma program.
A full-time graduate student is one who registers as such, devotes full time to his or her academic program and may not commit more than 24 hours a week working time, including teaching assistant or research assistant duties, to matters other than the degree program.
A part-time graduate student is one who is registered for the duration of a semester and is not classified as full-time.

3.3.9 Visiting Research Student
1. A student who is registered in good standing in a graduate program at another recognized institution who comes to Memorial University of Newfoundland to conduct research under the supervision of Memorial University of Newfoundland faculty members is considered to be a visiting research student. In order to obtain access to University resources, and where applicable, a study permit,
such a student will be required to register each semester of their visit for GRAD 9900 using a Course Change Form.

2. To be eligible to register, a visiting research student must submit an Application for Admission form to the School of Graduate Studies, accompanied by: a) a letter from their home institution verifying graduate student status, and b) a letter from the host faculty member confirming the duration of the visit. The student will then be admitted to the School of Graduate Studies to a “non-degree” program.

3. Visiting research students will be exempt from tuition fees. However, all visiting research students will be required, as a condition of registration, to purchase health insurance (international students should contact the International Student Advisor, whereas Canadian citizens or permanent residents of Canada should contact the Graduate Students’ Union for more information). If a visiting research student wishes to register for a course while at Memorial University of Newfoundland, s/he must meet the University admission requirements and pay the undergraduate per course fee as indicated under the UNIVERSITY REGULATIONS - Fees and Charges in the University Calendar.

Note: A student enrolled in a graduate program at another university who wishes to complete courses at Memorial University of Newfoundland for transfer of credit to his/her home institution is not considered to be a visiting research student under this definition. Such students should apply to the Office of the Registrar for admission to the University, and if admitted, will be governed by GENERAL ACADEMIC REGULATIONS. Fees will be assessed in accordance with the fee schedule for undergraduate courses as indicated under the UNIVERSITY REGULATIONS - Fees and Charges in the University Calendar.

3.3.10 Program

1. A program, whether it comprises courses only, courses and comprehensive examination, or courses, internship, project, thesis research, paper foil is defined for each graduate student in accordance with Departmental and University Regulations. Each program of study is recommended by the appropriate academic unit, and must be approved in writing by the Dean of Graduate Studies before the beginning of the graduate student’s second year of study.

2. Responsibility for the administration of the program shall rest with the Dean acting on behalf of the School.

Note: The following general statements concerning admission and Degree requirements should be supplemented by the detailed regulations governing each program.

3.3.11 Collaborative Program Agreements

3.3.11.1 Integrated Pathway Agreements

1. Memorial University of Newfoundland supports the establishment of agreements with partner institutions that may lead to the completion of multiple degree programs through an integrated pathway.

2. Examples of such agreements include but are not exclusive to 3+1+1 and 3+1+2 arrangements whereby an undergraduate degree is awarded by the partner institution and the graduate degree is awarded by Memorial University of Newfoundland.

3. In the 3+1+1 arrangement, a student would complete 3 years of the undergraduate studies at the partner institution, finish the 4th year at Memorial University of Newfoundland, and earn the bachelor’s degree at the partner institution. The student would then enroll in and complete a 1-year master’s program and earn a master’s degree at Memorial University of Newfoundland.

4. In the 3+1+2 arrangement, a student would complete 3 years of undergraduate studies at the partner institution, finish the 4th year at Memorial University of Newfoundland, and earn the bachelor’s degree at the partner institution. The student would then enroll in and complete a 2-year master’s program and earn a master’s degree at Memorial University of Newfoundland.

5. All such agreements must comply with the general regulations governing undergraduate and graduate programs at Memorial University of Newfoundland.

6. Memorial University of Newfoundland’s Guidelines for Integrated Pathway Agreements provides details on the method of establishing such an agreement. The Guidelines are available from the School of Graduate Studies.

3.3.11.2 Cotutelle Agreements

1. Memorial University of Newfoundland offers graduate students the opportunity to carry out a joint research project through a cotutelle agreement between Memorial University of Newfoundland and another recognized institution. The student would be expected to participate in research and fulfill degree requirements at both institutions. Students who successfully complete all program requirements would earn doctoral degrees from both institutions. Memorial University of Newfoundland’s Guidelines for Cotutelle Agreements, approved by the Academic Council of the School of Graduate Studies, provides information on the details on the method of establishing such an agreement and program. The Guidelines are available from the School of Graduate Studies.

2. Upon successful completion of the program, Memorial University of Newfoundland and the cooperating institution will each issue its own doctoral degree certificate. On the certificate and subsequently on the university transcript, the following notation will be added: “This Ph.D. was awarded within a cotutelle agreement. The student was jointly enrolled at University XYZ and Memorial University of Newfoundland and successfully completed the degree requirements of both institutions.”

3. Graduate students interested in this type of program should contact the School of Graduate Studies for further information.

4 General Regulations

4.1 Qualifications for Admission

4.1.1 Graduate Diploma Programs

To be considered for admission to a Graduate Diploma program the minimum requirements will normally be a second-class degree in an appropriate area of study from a university of recognized standing.

A candidate admitted to a Graduate Diploma program, who has demonstrated to the satisfaction of the appropriate Faculty/School/Department an ability to pursue research at the master’s level, may be permitted subsequently to transfer his/her candidature to that of a master’s in the affiliated program area and will thereafter be awarded only the master’s at the end of his/her candidature.

4.1.2 Master’s Programs

To be considered for admission to a Master’s program, the minimum requirements will normally be a second-class degree in an appropriate area of study from a university of recognized standing.

In exceptional cases, and upon the recommendation of the appropriate academic unit, students who apply for admission and do not meet the minimum admission requirements to a Master’s program described above may be considered for a qualifying year. Academic
units will make recommendations for the qualifying year, including the appropriate courses to take during this period, to the School of Graduate Studies at the time of admission assessment.

4.1.3 Ph.D. and Psy.D. Programs
1. To be considered for admission to a Ph.D. program, the minimum requirements will normally be a Master's degree from a university of recognized standing, in an appropriate area of study. Other students may be considered for admission to a Ph.D. program provided that:
   a. they have been registered in a Master's program for a minimum of 12 months, and have demonstrated to the satisfaction of the Faculty/School/Department their ability to pursue research at the Doctoral level. Such transfer should take place no later than the 5th semester of the student's Master's program as indicated under UNIVERSITY REGULATIONS - Fees and Charges in the University Calendar; or
   b. they hold a Bachelor's Degree with Honours, or equivalent, from a university of recognized standing, and that the Faculty/ School/Department is satisfied of the students' ability to pursue research at the Doctoral level.
2. To be considered for admission to the Psy.D. program, the minimum requirements will normally be an undergraduate honours degree in Psychology that includes senior courses as indicated under the Regulations Governing the Degree of Doctor of Psychology.

4.1.4 Applicants Not Meeting Qualifications
Only in exceptional circumstances, and only upon the recommendation of the Faculty/School/Department concerned, will the Dean consider applicants who do not meet the requirements outlined in Qualifications for Admission, Master's Programs, or Ph.D. and Psy.D. Programs.

4.1.5 English Proficiency Requirements
Since English is the primary language of instruction at this University, all applicants seeking admission to the School of Graduate Studies must possess an adequate knowledge of written and spoken English as a prerequisite to admission. Regardless of country of origin or of citizenship status, applicants will be required to demonstrate proficiency in the English language. This demonstration may take one of the following forms:
1. Successful completion of the equivalent of three years of full-time instruction in an English language secondary institution as recognized by Memorial University of Newfoundland including successful completion of at least two courses in English at the Grade XII (or equivalent) level. Please note that these courses must be other than English as a Second Language (E.S.L.) courses.
2. Successful completion of a baccalaureate degree from a recognized University where English is the language of instruction and from which transfer of credit may be allowed by Memorial University of Newfoundland.
3. Successful completion of a post-graduate degree program at a recognized University where English is the language of instruction and from which transfer of credit may be allowed by Memorial University of Newfoundland.
4. Submission of official results of the Test of English as a Foreign Language (TOEFL) with a paper-based score of 550 (or higher)/computer-based score of 213 (or higher) or Internet-based with a score of 80 (or higher) and the Test of Written English (TWE) with a score of 4 (or higher).
5. Submission of the official results of the Michigan Test of English Proficiency with a score of 85% (or higher).
6. Submission of the official results of the English Language Testing Service (ELTS) Test with an average band score of 6.5 or higher.
7. Submission of official results of the Carleton Academic English Language (CAEL) Assessment with a minimum score of between 50 and 60 in each of four bands, with at least 2 band scores of 60.
8. Submission of official results of the Canadian Test of English for Scholars and Trainees (CanTEST) with a Band Level 4.5 in the listening comprehension and reading comprehension sub-tests and a score of 4 in writing.
9. Submission of official results of the Pearson Test of English Academic (PTE Academic) with minimum scores of 58 in each of reading, writing, listening, and speaking.
10. Only in exceptional circumstances and only upon the recommendation of the Department/Faculty/School concerned, will the Dean consider applicants who do not meet one of the requirements listed in 1.-9. above.

4.1.6 Additional Requirements
Particular Departments/Faculties/Schools may require greater strength in English communicative skills than is indicated by the achievement of minimum scores outlined in 4.-7. above. Any such additional requirements are detailed in the appropriate section of the Calendar.

4.1.7 English Language Requirements Subsequent to Admission
1. Students who have been admitted under English Proficiency Requirements, Clauses 4.-9. above, will be required to take an English language placement test on arrival at Memorial University of Newfoundland. On the basis of the test results, students may be required to complete successfully a course of language study designed to bring their English, in any or all of listening, speaking, reading, and writing, to a level required for graduate studies. A final assessment of the students' proficiency in these areas will normally be made no later than the end of the third semester following their first registration in the School of Graduate Studies. As a result of this assessment, and in consultation with the student's academic unit and the Department of English, there may be a recommendation for termination of the student's program.
2. Notwithstanding Additional Requirements above, if a student's Department is not satisfied with the student's ability to communicate in English, then the student may be required to complete successfully the relevant component(s) of the course of study referred to in Additional Requirements. The Department will be required to take this action within three semesters of the student's admission to a graduate program. At the end of this period the Department may recommend, but not require this procedure.

Note: Information regarding the TOEFL program is available on-line at www.toeflgoanywhere.org/. Information regarding the Michigan Test of English is available on-line at www.michigan-test.com. Information regarding the ELTS Test is available on-line at www.ielts.org.

4.1.8 Foreign Degree Transcripts
Students who have completed undergraduate programs at universities which issue documents in languages other than English or French shall submit notarized English translations of all supporting documentation, including, but not limited to, transcripts, degrees, and diplomas.
4.2 Procedure for Admission

1. Application for admission to graduate studies must be made online to the School of Graduate Studies at www.mun.ca/become/graduate/apply. The application must be supported by an official transcript of the applicant's university record. If the applicant is a graduate of another university or college, a copy of the Calendar of that institution must be included upon request. Most graduate programs have September start dates; however, some programs accept students for January and/or May admission. Deadlines for submission of applications can be as early as November for the following September; therefore, applicants should inquire about program start dates and application deadlines of the academic program of interest (see www.mun.ca/become/graduate). Non-Canadian applicants should allow four to six months for processing of official documents with Immigration authorities.

2. Admission to graduate studies shall be upon acceptance by the Dean after assessment of the qualifications of the applicant but no candidate will be admitted unless the academic unit of specialization recommends acceptance along with a proposed program of study and a proposed Supervisor or advisor or, where appropriate, a tutor. Successful applicants will be notified by the Dean of Graduate Studies.

3. The applicant may be required to appear for an interview before a final offer of admission is made.

4. It is recommended that the applicant refer to the appropriate section of this Calendar to ascertain if additional testing information or documentation is required when making initial application.

5. The University reserves the right to refuse admission to any applicant.

4.3 Registration

4.3.1 Program Registration

1. All graduate students must be registered in each semester for the graduate program registration appropriate to their discipline (see note) until all academic requirements for the degree have been met, except during periods for which leaves of absence have been granted (see Leaves of Absence).

Note: e.g., Linguistics 9000, Chemistry 9000 or, in the case of Medicine, Medicine 9900.

2. A student registered in a graduate diploma, Master’s, Ph.D., or Psy.D. program may not concurrently pursue studies leading to any other degree without the prior approval of the Dean.

4.3.2 Program Withdrawal

Students intending to withdraw from their program must inform the Dean of Graduate Studies in writing. The period of withdrawal from a program without incurring liability for that semester's fees is three weeks after the first day of lectures in the semester in question, as stated in the University Diary. Requests received after the end of the regular registration period, and approved, will be charged an administration fee (see Fees and Charges).

4.3.3 Course Registration

Note: For interdisciplinary programs, the Head of the academic unit is the Dean or Director of the Faculty/School administering the program.

1. Students will register for courses at the times indicated in the University Diary.

2. Students not admitted to a graduate program may enroll in graduate courses with the permission of the Head of the appropriate academic unit.

4.3.4 Changes in Course Registrations

Note: For interdisciplinary programs, the Head of the academic unit is the Dean or Director of the Faculty/School administering the program.

1. Within two weeks following the first day of lectures in any semester, as stated in the University Diary, a graduate student may, upon the approval of the appropriate Head of academic unit, add a course or courses to his or her registration for that semester.

2. Within seven weeks after the first day of lectures in any semester, as stated in the University Diary, a graduate student may, upon the approval of the appropriate Head of academic unit, drop a course or courses from his or her registration for that semester without prejudice.

3. After the period described in 2. above has expired, and up until the last day of lectures, any student who is prevented from completing a course by illness, bereavement or other acceptable cause, duly authenticated in writing may, upon the recommendation of the Head of the appropriate academic unit, drop that course without academic prejudice.

Note: A course cannot be dropped after the last day of lectures without the approval of the Dean of Graduate Studies.

4.3.5 Period of Study

1. Each student in graduate studies shall spend such time in the program as decided by the academic unit of specialization and approved by the Dean, and be subject to the following minimum residency.

   a. Except where provided for elsewhere in this calendar, each student for a Master's Degree shall normally spend at least two semesters in residence as a graduate student at this University.

   b. Except where provided for elsewhere in this calendar, each student for a Ph.D. or Psy.D. shall normally spend at least three semesters in residence as a graduate student at this University.

   c. To be resident as a graduate student of this university a student must be registered as a graduate student at Memorial University of Newfoundland and participate in a community of learners and instructors (formally or informally) who are joined together by the practices and standards of a profession or an academic discipline. For most students this will involve taking courses or engaging in research while resident on campus. These attributes may, however, be found elsewhere and it is possible therefore that the residency requirement may be satisfied in an off campus location. In such cases the Dean of Graduate Studies must be satisfied that the attributes are met.

   d. Except where provided for elsewhere in this Calendar, each student for a graduate diploma shall normally spend at least one semester in residence as a graduate student at this University.

2. The maximum period of a graduate program shall be seven years beyond first registration.
4.3.6 Leaves of Absence

4.3.6.1 General
1. A leave of absence is a period of time during which a student is not required to register; no fees are assessed; and the time granted is not counted in the maximum time period permitted for a graduate program (see Period of Study).
2. In the event that circumstances prevent a student from pursuing his/her program, the student may apply to the Dean of Graduate Studies for a leave of absence.
3. A student may normally apply for only one leave of absence during his/her program. The maximum leave of absence shall normally not exceed 12 months.
4. An application for leave will normally be made before the end of the registration period in the first semester for which leave is requested. Requests received after the end of the regular registration period, and approved, will be charged an administration fee (see Fees and Charges).

4.3.6.2 Parental
A student may apply for a leave of absence in the case of pregnancy/birth/adoption of a child. (Such leave will be considered separately from 3. above.)

4.4 Program Requirements

Note: Every candidate shall complete a program of study as recommended by the Head of the academic unit, in consultation with the Supervisory Committee and approved by the Dean of Graduate Studies. See Procedure For Admission, Clause 2.

4.4.1 Graduate Diploma and Master's Programs
1. Candidates should consult the appropriate Department/Faculty/School regulations for information concerning the specific program requirements. Candidates wishing to take individual courses outside of their program of study must seek approval from the Head of their academic unit prior to registration.
2. Graduate diploma programs shall not normally comprise more than 50% of the master's in the same area.

4.4.2 Ph.D. and Psy.D. Programs
1. Each candidate is required to pass a comprehensive examination (see Comprehensive Examinations, Ph.D. and Psy.D. Comprehensive Examination).
2. Each candidate shall present a thesis embodying the results of original research.
3. Candidates should consult the appropriate Department/Faculty/School regulations for information concerning the specific program requirements. Candidates wishing to take individual courses outside of their program of study must seek approval from the Head of their academic unit prior to registration.
4. Candidates may pursue a specified part of their research elsewhere provided that prior permission has been obtained from the Dean on the recommendation of the Head of the academic unit in consultation with the Supervisory Committee.

4.4.3 English Writing Requirement
Given the analytical and scholarly demands of study at the graduate level, graduate students are expected to demonstrate an advanced facility with written English in meeting the demands of their course work and, where applicable, in the writing of any end-of-program research report, folio, comprehensive examination, or thesis.

4.4.4 Changes in Programs
Any changes in the candidate's program of studies must be approved by the Dean of Graduate Studies on the recommendation of the appropriate academic unit.

4.4.5 Research Involving Animals
Animal user training for any graduate student working with live vertebrate animals is mandated by the Canadian Council on Animal Care as a requirement for institutional accreditation. Supervisors are required to add the names of graduate students requiring such training to the relevant Animal Care Committee-approved research protocol by submitting an amendment form. Where a dedicated protocol will be developed for the student’s project, a new protocol form must be submitted. Animal Care Committee approval is required in advance of students commencing animal work. Further information may be obtained by contacting ACS@mun.ca or by telephone to (709) 777-6620.

4.4.6 Graduate Student Conduct
All graduate students shall adhere to Memorial University’s policies and guidelines relating to academic scholarship, integrity, and ethical conduct informing the design, conduct, and reporting of responsible research.

4.4.7 Year of Degree and Departmental Regulations
1. A student completing a graduate degree program in the School of Graduate Studies will follow the degree and Faculty/School/Department regulations in effect in the year in which the student first registers for his/her current program. However, students may elect to follow regulations introduced subsequent to their initial registration.

Note: The foregoing notwithstanding, in the case of students who have submitted a thesis/report/folio, or students in a non-thesis program who have taken a comprehensive examination, the option of changing regulations is no longer available.
2. When there is doubt as to which degree or Departmental regulations may be followed, the Academic Council of the School of Graduate Studies will decide which are the appropriate regulations.
3. Notwithstanding these guidelines, the University may place limits on the time permitted to complete a program under any given set of regulations. In addition, detailed scheduling of courses and/or work periods may be changed as the University deems appropriate or necessary.
4.8 Transfer of Course Credits

All such transfers require the approval of the Dean of Graduate Studies, on the recommendation of the Head of the appropriate academic unit.

1. A student who has successfully completed graduate courses at Memorial University of Newfoundland prior to admission to a graduate program may apply to transfer appropriate courses to that program, provided such courses have not been used to satisfy other Degree requirements.

2. A student who has successfully completed graduate courses as part of one graduate program at Memorial University of Newfoundland, and who is subsequently admitted to another program, may apply to transfer appropriate courses to the current program, provided such courses have not been used to satisfy other Degree requirements.

3. A student who has successfully completed graduate courses at another institution recognized by Senate, on admission to a graduate program at Memorial University of Newfoundland, apply to transfer appropriate courses to the current program, provided such courses have not been used to satisfy other Degree requirements.

4. Students who successfully complete a graduate diploma program may transfer the course credits earned in that program towards a master's degree if these credits meet the requirements of the master's in the affiliated area in which the graduate diploma was granted.

Affiliated Master's programs for graduate diploma programs currently offered by the School of Graduate Studies are as follows:

- **Education**
  - Graduate Diploma in Post-Secondary Studies (Health Professional Education) - Master of Education (Post-Secondary Studies)

- **Engineering**
  - Graduate Diploma in Safety and Risk Engineering - Master of Engineering

- **Marine Studies**
  - Graduate Diploma in Fisheries Resource Management - Master of Marine Studies (Fisheries Resource Management)

- **Medicine**
  - Graduate Diploma in Clinical Epidemiology - Master of Science in Medicine (Clinical Epidemiology)

  - Graduate Diploma in Community Health - Master of Science in Medicine (Community Health) and Master of Public Health

5. In programs requiring a minimum of 12 credit hours or more, transfer of credit hours in graduate courses referred to in 1, 2, and 3. above shall not exceed 30% of the total number of credit hours required. In programs requiring fewer than 12 credit hours, a maximum of 3 credit hours in graduate courses referred to in 1, 2, and 3. above shall be considered eligible for transfer.

6. Graduate courses referred to in 1., 2., 3., and 4. above shall not be considered eligible for transfer if they have been completed more than seven years prior to the date of admission into the current program.

4.5 Provision for Waiver of Regulations

Academic regulations notwithstanding, the University reserves the right in special circumstances, to modify, alter or waive any regulation in its application to individual students where, in the judgement of the appropriate University Officer or Committee, there is sufficient justification for doing so.

1. Waivers of course prerequisites/co-requisites may be granted by the Head of an academic unit.

2. Waivers of Departmental regulations may be granted by the Dean of Graduate Studies on the recommendation of the Head of an academic unit.

3. Requests for waiver of a degree or general regulation must be submitted to the Academic Council of the School of Graduate Studies.

4.6 Appeal of Decisions

4.6.1 General Information

1. Every graduate student has the right to appeal decisions resulting from the application of University regulations.

2. Appeals will be considered in the case of health issues, bereavement, and other acceptable cause, duly authenticated.

3. For assistance in the appeals process, a student is advised to consult with the School of Graduate Studies.

4. In preparing an appeal a student may consult advisors or facilitators. Such advisors or facilitators may include an international student advisor, a faculty advisor, a counsellor, a representative from the Memorial University of Newfoundland Graduate Students' Union (GSU), or a faculty member who is familiar with the appeals process and who is willing to undertake the role of student advisor or facilitator.

5. Appeals are made before specific committees that exist at the University to provide an objective review of cases. The appeals process is designed to assist students at critical points in their graduate program and to provide an accessible and transparent process for students. Refer also to Routes of Appeal of Academic Regulations for information concerning where appeals should be directed.

6. The principles of natural justice shall be applied to the appeals processes and decisions. These principles include, but are not limited to, such practices as all parties to the appeal receiving timely and adequate notice, all parties to the appeal having the opportunity to submit arguments and supporting documentation, and all parties to the appeal being made aware of the evidence considered by the committee. No person will sit in judgment on an appeal if that person has been previously involved in a decision-making process related to the matter under appeal or if that person has any conflict of interest, bias, or reasonable apprehension of bias.

7. While the University makes provision for students to appeal decisions made under University regulations, the academic, financial, or other consequences of the appeal process rests with the student.

8. When an appeal is denied, the student will be advised in writing of the reasons for the decision and if there are further steps that can be taken in the appeals process.

9. A student whose appeal is denied by the Appeals Committee of the School of Graduate Studies may appeal to the Senate Committee on Academic Appeals. Academic units whose decisions are overturned by the Appeals Committee of the School of Graduate Studies may appeal to the Senate Committee on Academic Appeals. Decisions of the Senate Committee on Academic Appeals are final and within the University there is no further appeal.
10. Unless the student bringing the appeal requests otherwise, student appeals are heard anonymously by all committees except the Senate Committee on Academic Appeals.

4.6.2 Routes of Appeal of Academic Regulations
1. Normally, the responsibility for making an appeal before the appropriate committee of the University rests with the student.
2. A student who is ineligible to officially register for courses but who wishes to attend classes, laboratories, or other educational activities while an appeal is in progress can do so only with the written permission of the Head of the academic unit concerned. Such permission will not unnecessarily be withheld.
3. A student whose request for waiver of regulations has been denied may direct the appeal as described below.
   - Appeals against decisions of the Head of an academic unit will be made directly to the Dean of Graduate Studies.
   - Appeals against decisions of the Dean may be made to the Appeals Committee, School of Graduate Studies. Letters of appeal should be directed to the Chair of the Appeals Committee, c/o School of Graduate Studies.
   - Appeals against decisions of the Executive Committee of the Academic Council may be made to the Appeals Committee, School of Graduate Studies. Letters of appeal should be directed to the Chair of the Appeals Committee, c/o School of Graduate Studies.
   - Appeals against decisions of the Appeals Committee, School of Graduate Studies, may be made to the Senate Committee on Academic Appeals, c/o Office of the Registrar.

4.6.3 Route for Questioning Grades of Courses and Examinations
1. Appeals cannot be made on the basis of the grades awarded in individual courses, Comprehensive Examinations, or examinations of theses and reports.
2. Notwithstanding the above, and recognizing that the awarding of grades is an academic matter within the purview of experts in a discipline or subject area, a student who wishes to question the award of grades in individual courses is encouraged to consult with the following in the order given:
   - the course instructor
   - the Head of the appropriate academic unit
   - the Dean of the appropriate Faculty/School, Associate Vice-President (Academic) of the Grenfell Campus or Vice-President of the Marine Institute.
3. A student who wishes to question the grade of a Comprehensive Examination, or the examination of a thesis or report, is encouraged to consult with the Dean of Graduate Studies.

4.6.4 Appeals to the School of Graduate Studies
1. All appeals must be made in writing, clearly stating the basis for the appeal, and must be directed to the Dean or the Chair of the Appeals Committee of the School of Graduate Studies in accordance with Routes of Appeal of Academic Regulations.
2. In the Letter of Appeal, the student must clearly and fully provide:
   - name,
   - current address and telephone number,
   - Memorial University of Newfoundland e-mail address,
   - student ID number,
   - the decision being appealed,
   - the grounds for the appeal, and
   - the resolution being sought.
3. When providing grounds for the appeal, including health issues, bereavement and/or other acceptable cause, a student must present independent evidence to corroborate statements made in the Letter of Appeal. Preferably, this evidence will come from a professional, such as a health professional, a counsellor, or a professor. However letters from other knowledgeable parties may be acceptable.
4. A student shall include with the letter of appeal any submissions the student wishes to make in support of the appeal.
5. In cases where an appeal is made on health issues, the student must provide an original certificate from a health professional in the form of a note or a letter. Such a certificate must be sufficiently specific to allow appropriate consideration of the student's case. The certificate must also clearly state that, in the opinion of the health professional, the problem was serious enough to have interfered with the student's work. Students should refer to the policy respecting Information Required for Certificates from Health Professionals for more complete information.
6. A student claiming bereavement as grounds must provide an obituary notice or death certificate, together with evidence of a close personal relationship between the student and the deceased.
7. Privacy and Confidentiality: The committees to which appeals are made do require substantial information about the reasons for the appeal in order to make their decisions. However, the committees also recognize each student's right to privacy and their obligations, under the Access to Information and Protection of Privacy Act, to safeguard students' personal information.

4.6.5 Appeals to the Senate Committee on Academic Appeals
1. Appeals shall be initiated by submitting a written Notice of Appeal, c/o Office of the Registrar, containing the following:
   - When the Notice of Appeal is from a student:
     - name,
     - current address and telephone number,
     - Memorial University of Newfoundland e-mail address,
     - student ID number,
     - a copy of the decision giving rise to the appeal,
     - supporting documentation,
     - a description of the matter under appeal,
7. When providing the grounds for the appeal, including health issues, bereavement, and/or other acceptable cause, a student must

8. A student may include with the Notice of Appeal any submissions the student wishes to make in support of the appeal.

9. In cases where an appeal is made on health issues, the student must provide an original certificate from a health professional in the

10. A student claiming bereavement as grounds must provide an obituary notice or death certificate, together with evidence of a close

4. Supplementary examinations are not permitted.

4.7.2 Evaluation of Graduate Students

1. Failure to attain a final passing grade of A or B in a program course shall lead to termination of a student's program unless:
   a. the regulations for a particular degree allow the student to repeat the course. Only one such repeat will be permitted in a student's program. Failure to obtain a grade of A or B in the repeated course shall lead to termination of the student's program.
   b. the Dean of Graduate Studies approves a repeat of the course, upon the recommendation of the Supervisor and the Supervisory Committee supported by the Head of the academic unit, where 1.a. above does not apply. Such recommendations must provide sufficient grounds for a repeat. Only one such repeat will be permitted in a student's program. Failure to obtain a grade of A or B in the repeated course shall lead to termination of the student's program.

Note: In exceptional circumstances, the Dean of Graduate Studies may approve a substitute course in place of the repeat upon the recommendation of the Supervisory Committee and Supervisor supported by the Head of the academic unit. Failure to obtain a grade of A or B in the substituted course shall lead to termination of the student's program.

2. Failure in a non-program course will not normally result in termination of a student's program.
3. The Supervisor and the Supervisory Committee may recommend that a candidate be required to withdraw from the program, if after consultation with the candidate, the candidate's non-course work is deemed to have fallen below a satisfactory level.
4. When Departmental requirements for a degree requires an examination of a candidate's reading knowledge of a language(s) other than English, the examination shall be set and marked by the appropriate language Department, or by an authority as determined by the Head of the academic unit and Dean. The results of the examination will be transmitted to the candidate by the Dean.

4.7.3 Deferral of Examinations

1. Graduate students who are prevented by illness, bereavement or other acceptable cause, duly authenticated, from writing final examinations may apply, with supporting documents within one week of the original examination date to the appropriate Head of the academic unit to have their examinations deferred.
2. The Department's decision, including information on the appeals route open to the student in the case of a negative decision, must be communicated in writing to the student and to the Dean of Graduate Studies within one week of the receipt of the student's complete application.
3. In those cases where the Department accepts the extenuating circumstances the student may be permitted to write a deferred examination or, with the consent of both the Department and the student, the grade submitted may be based on term work alone.
4. An interim grade of 'ABS' will be assigned by the academic unit in the case of a student granted a deferred examination. This grade will be replaced by the final grade which must be received by the Office of the Registrar within one week following the commencement of classes in the next academic semester or session.
5. Students who are prevented by illness or bereavement or other acceptable cause, duly authenticated, from writing a deferred examination, may apply, in writing, with supporting documents within one week of the scheduled date of the deferred examination to the appropriate Department Head to have the examination postponed to a time not later than the last date for examinations in the semester following that in which the student was enrolled in the course.
6. The Department's decision, including information on the appeals route open to the student in the case of a negative decision, must be communicated to the Registrar, to the student and to the Dean of Graduate Studies within one week of the receipt of the student's complete application.

4.7.4 Incomplete Grades/Change of Grade

1. For good cause a grade of 'Incomplete' may, with the approval of the appropriate Department or academic unit, be submitted. This 'Incomplete' grade shall, however, be valid only for one week following the commencement of classes in the next academic session as stated in the University Diary. In the event that a mark has not been received by the Registrar within the prescribed deadline, the 'Incomplete' grade shall be changed to 'F'.
2. Clause 1. notwithstanding, for acceptable cause an extension of time not exceeding the end of the semester following that in which the 'Incomplete' was given may be permitted by the Head of the academic unit. "Acceptable cause" in these cases must be duly authenticated and will be illness, bereavement, serious problems of a personal nature or the like.
3. Changes in grades for graduate courses must be submitted on the appropriate form, which must be signed by the course instructor and approved by the Head of the appropriate academic unit who will submit such changes to the Registrar.

Note: A grade of less than 65% cannot be changed without the approval of the Dean of Graduate Studies.
4.7.5 Re-Reading of Examination Papers
1. Students may apply to have a final examination paper re-read whether or not they have obtained a passing grade in that course.
2. Students who wish to have a final examination paper re-read must make written application to the Registrar enclosing a fee of $50.00 per paper within one month of the release by the University of the grade reports. If the mark is raised after re-reading, the fee is refunded. If the mark is unchanged or lowered, the fee is forfeited.

4.8 Comprehensive Examinations

4.8.1 Master's Comprehensive Examination
1. The composition of the Comprehensive Examination Committee is specified in the Degree and Departmental regulations, and the Committee is appointed by the Dean. The Dean of Graduate Studies or delegate may exercise the right to attend. All members of the Committee including the Chairperson, but excluding the Dean of Graduate Studies, shall be voting members.
2. In this examination the candidates must demonstrate an advanced knowledge of the academic discipline as defined by the academic unit in which they are students. Therefore, in order to be eligible to sit the examination, all course requirements must be completed.
3. In cases where there are multiple parts to a comprehensive exam, including written and oral parts, a candidate must satisfy all parts of the examination to obtain a pass. The requirements to advance to a later part of the examination are specified in the Degree and Departmental regulations or by the appropriate academic unit.
4. Members of the Comprehensive Examination Committee shall decide the results of the comprehensive examination as indicated in a.-d. below:
   a. The category of 'pass with distinction' will be awarded to candidates who demonstrate superior knowledge of their chosen field. This category requires unanimous support of the Comprehensive Examination Committee.
   b. The category of 'pass' will be awarded to candidates who demonstrate an acceptable knowledge of their chosen area and requires a simple majority vote.
   c. The category of 're-examination' selects those candidates with an understanding of their research area that lacks sufficient depth and scope as indicated by a simple majority of the Comprehensive Examination Committee. Only one such re-examination is possible and students in this category are not eligible for the award of 'pass with distinction'. If a re-examination is to be held, it must be conducted not less than one month and not more than six months after the first examination. The decision of the voting members of the Committee following this re-examination can only be 'pass' or 'fail' decided by simple majority. Failure will lead to immediate termination of the candidate's program. There is no option for further re-examination.
   d. Students awarded a 'fail' are deemed, by unanimous vote of the Comprehensive Examination Committee, to be unable to demonstrate an adequate understanding of their research area. The candidate's program is terminated. A simple majority vote will default to the award of 're-examination'.
5. The Chairperson of the Comprehensive Examination Committee shall report to the Head of the academic unit who shall report to the Dean. The result of the comprehensive examination(s) shall be reported to the candidate by the Dean.

4.8.2 Ph.D. and Psy.D. Comprehensive Examination
1. The candidate shall submit to a comprehensive examination, which may be written or oral or both as determined by the academic unit. Candidates shall normally take the examination no later than the end of the seventh semester in the doctoral program. Unless an extension is approved by the Dean of Graduate Studies, failure to take the examination at this time will result in the termination of the candidate's program.
2. This examination, whether written or oral, shall be conducted by a Committee appointed by the Dean of Graduate Studies on the recommendation of the academic unit. It shall consist of the Head of the academic unit (or delegate) who shall be the Chairperson, the candidate's Supervisor or, where a Supervisor has not yet been appointed, the Graduate Officer or Chair of the Graduate Studies (or equivalent) Committee, the Dean of Graduate Studies (or delegate), and at least three other members, the total voting members to be an odd number. All members of the Committee including the Chairperson, but excluding the Dean of Graduate Studies, shall be voting members.
3. In this examination, the candidate must demonstrate a mastery of those sub-disciplines appropriate to his/her research area, as defined by the academic unit in which he or she is a student. Those sub-disciplines upon which the candidate will be examined should be made known to the candidate no later than three months prior to the examination. The candidate must further be able to relate the specialization of his/her research to the larger context of these sub-disciplines.
4. In cases where there are multiple parts to a comprehensive exam, including written and oral parts, a candidate must satisfy all parts of the examination to obtain a pass. The requirements to advance to a later part of the examination are specified in the Degree and Departmental regulations or by the appropriate academic unit.
5. Members of the Comprehensive Examination Committee shall decide the results of the comprehensive examination as indicated in a.-d. below:
   a. The category of 'pass with distinction' will be awarded to candidates who demonstrate superior knowledge of their chosen field. This category requires unanimous support of the Comprehensive Examination Committee.
   b. The category of 'pass' will be awarded to candidates who demonstrate an acceptable knowledge of their chosen area and requires a simple majority vote.
   c. The category of 're-examination' selects those candidates with an understanding of their research area that lacks sufficient depth and scope as indicated by a simple majority of the Comprehensive Examination Committee. Only one such re-examination is possible and students in this category are not eligible for the award of 'pass with distinction'. If a re-examination is to be held, it must be conducted not less than one month and not more than six months after the first examination. The decision of the voting members of the Committee following this re-examination can only be 'pass' or 'fail' decided by simple majority. Failure will lead to immediate termination of the candidate's program. There is no option for further re-examination.
   d. Students awarded a 'fail' are deemed, by unanimous vote of the Comprehensive Examination Committee, to be unable to demonstrate an adequate understanding of their research area. The candidate’s program is terminated. A simple majority vote will default to the award of 're-examination'.
6. The Chairperson of the Comprehensive Examination Committee shall report to the Head of the academic unit who shall report to the Dean. The result of the comprehensive examination(s) shall be reported to the candidate by the Dean.
4.9 Supervision

4.9.1 Master’s Candidates
Each Master’s candidate shall be assigned a Supervisor by the Dean, on the recommendation of the Head of the academic unit, or the Dean of the faculty concerned.

4.9.2 Ph.D. and Psy.D. Candidates
1. Each candidate shall be assigned a Supervisor by the Dean, on the recommendation of the Head of the academic unit or the Dean of the faculty concerned.
2. A Supervisory Committee shall be appointed for each candidate by the Dean. The Supervisory Committee shall consist of the Supervisor (co-supervisors) who shall act as Chair, and normally at least two other members. In no circumstances may the Committee membership be fewer than two members. The membership of the Committee shall be nominated by the Head of the Department or the Dean of the faculty concerned, after consultation with the Supervisor and the candidate.
3. The Supervisory Committee shall forward its reports and recommendations to the Dean via the Head of the Department or the Dean of the faculty concerned.
4. The functions of the Supervisory Committee shall be, *inter alia,*
   a. to decide, in consultation with candidates, the program of study, the subject of research, and the title of the thesis, and to recommend these for approval to the Dean;
   b. to monitor the candidate’s progress in their course programs and their research;
   c. to report at least annually to the Dean on the candidates’ progress and, at the same time, to advise on their continuation in the program; and to make such other reports and recommendations about the candidates to the Dean as it may deem necessary;
   d. to recommend to the Dean, after consultation with the candidates, necessary changes in the program of study, the subject of research, or the title of the thesis;
   e. to recommend to the Head of the academic unit or Dean of the faculty the timing of the comprehensive examination;
   f. to report to the Dean that the thesis is ready for examination by completing a Supervisor Approval Form, which is to accompany the thesis upon its submission to the School of Graduate Studies; and
   g. to recommend to the Dean suitable persons to act as members of the Thesis Examining Board.

4.9.3 Supervisory Reports
1. At least annually, the Supervisor, Supervisory Committee or the Department shall make evaluations of a student’s progress in a program. Recommendations concerning continuation, amendment, or termination (see Termination of a Graduate Program) of a candidate’s program, are sent to the Dean, who shall take appropriate action. Students shall be advised of the contents of this evaluation and the subsequent recommendation(s).
2. The Supervisor, Supervisory Committee, or the Department shall forward its reports and recommendations to the Dean via the Head of the academic unit or the Dean of the faculty concerned.

4.10 Theses and Reports

4.10.1 Thesis/Report Guide Supplement
The Guidelines for Theses and Reports, available at (www.mun.ca/sgs/go/guid_policies/theses.php), approved by the Academic Council of the School of Graduate Studies, provides the details for the examination process, general form and style of the thesis/report, required forms, number of copies, etc., required under this regulation.

4.10.2 Submission
1. Candidates must submit the thesis/report at least four months before the University Convocation at which the award of the Degree is expected (see University Diary in current edition of University Calendar for exact date). The School of Graduate Studies does not accept any responsibility for completing the prescribed procedure in time for the nearest Convocation unless theses or reports are submitted by the prescribed dates in any current academic year.
2. A thesis/report may not be submitted until the candidate has fulfilled:
   a. All course requirements, if any
   b. All language requirements, if any
   c. The comprehensive examination, if required, and
   d. All other academic requirements of the academic unit concerned.

4.10.3 Evaluation of Master’s Theses and Reports
1. Final examiners for the thesis/report will be appointed by the Dean on the recommendation of the academic unit. There will be two examiners for a Master’s thesis. Examiners shall normally be those who have completed a graduate degree at the doctoral level, including a thesis, in the discipline or cognate area. Those serving as examiners shall not have been involved in the preparation of the thesis/report.
2. Examination of the thesis/report will result in one of the following recommendations by each examiner. The thesis/report is:
   a. acceptable without modifications; or
   b. acceptable, modifications are required but the thesis does not have to be re-examined*; or
   c. unacceptable, the thesis/report requires modification and re-examination**; or
   d. totally unacceptable, the thesis/report is failed.***

*Modifications may include corrections of typographical errors and errors in nomenclature, improvement in phrasing, or rewriting of sections of the thesis/report. Modifications may be indicated in the text or listed separately;

**Modifications might include (but are not limited to) the rectification of one or more of the following deficiencies: (1) misinterpretation and/or misuse of the matter covered, omission of relevant materials, unfounded conclusions, illogicality of argument, improper analysis of data and the like, (2) bad writing, (3) unacceptable physical presentation. A detailed list of problems should be included...
3. The Examination Process

a. The voting members of the Board shall submit written reports on the thesis containing an assessment of the quality of the written work and a recommendation as to whether the candidate should be permitted to proceed to an oral examination and defence of the work. An examiner may recommend:
   i. that the candidate be allowed to proceed to the oral defence of the thesis*; or
   ii. that the candidate not be allowed to proceed to the oral defence at this time**; or
   iii. that the candidate should be failed.

*Any suggested corrections or revisions should be outlined in the examiner’s report. It is understood that it will be the responsibility of the Supervisory Committee to discuss the suggested changes with the candidate, to determine which should be incorporated in the thesis before its final submission.

**This recommendation reflects the examiner's opinion that further research, re-analysis of data, or thorough rewriting of the material is required. The thesis may, however, be re-submitted for examination.

b. If all examiners recommend that the candidate should be failed, then the thesis shall not be re-examined.

c. If an examiner recommends that the candidate not be allowed to proceed to the oral defence, and this recommendation is accepted by the Dean, then the student may apply to the Dean for permission to resubmit the thesis for re-examination in one of the following ways:
   i. to submit a modified thesis to the original examiners.
   ii. to submit a modified thesis to new examiners.
   iii. to submit the original thesis to an Examination Board to be appointed by the Dean.

d. No candidate will be permitted to re-submit a thesis more than once. In case of a re-submitted thesis an examiner may recommend only:
   i. that the candidate be allowed to proceed to the oral defence of the thesis; or
   ii. that the candidate should be failed.

e. After receiving the reports from all three voting members of the Board the Dean will consider the recommendations and determine whether an oral defence of the thesis will be scheduled.

f. The Final Oral Examination and Defence of Thesis will take place at a time and place to be determined by the Dean of Graduate Studies and will be chaired by the Dean or his/her delegate. The presence of all members of the Examining Board is normally required.

g. Following the defence, the Board will meet in camera to render a final assessment of the thesis and the candidate's ability to defend his/her work. The Board may recommend one of the following outcomes:
   i. Passed with distinction (Awarded to candidates who demonstrate superior knowledge of their chosen field; this category requires unanimous support of the Board. A simple majority vote will result in a recommendation of 'passed'.)
   ii. Passed*
   iii. Passed Subject to Conditions**
   iv. Re-examination required***
   v. Failed****

*This recommendation may have attached to it the requirement that the candidate complete certain specified revisions to the
satisfaction of the Supervisory Committee, the Head of the academic unit and the Dean. These revisions must have been specified in the written appraisal submitted prior to the Oral Examination.

**This recommendation is made if there are revisions beyond those specified in the written appraisal submitted prior to the Oral Examination.**

***The members of the Thesis Examination Board may attach to this recommendation a list of any requirements which they feel are appropriate.***

****Re-examination not permitted.

h. If the members of the Board are unanimous in their recommendation, the Chair of the Examination may accept this recommendation and inform the candidate of the decision. In any other case, however, the delivering of any final decision shall be deferred pending further consultation within the School of Graduate Studies.

i. No candidate shall be permitted more than two Oral Examinations.

4.10.5 Time Limit for Revision

The final version of Master's, Ph.D., and Psy.D. theses/reports found acceptable with or without corrections shall be submitted to the School of Graduate Studies within 6 months of the date on which the thesis/report and the student's examiners' reports are returned to the student's academic unit. If a corrected thesis/report is not submitted within 6 months the student is considered to have withdrawn from the program. After this time, the student must apply to be readmitted.

Master's, Ph.D., and Psy.D. theses/reports requiring re-examination shall be resubmitted to the School of Graduate Studies within 12 months of the date on which the thesis/report and the examiner's reports are returned to the student. Students requiring resubmission and re-examination of theses/reports must maintain their registration during this period. Failure to resubmit the revised thesis/report within 12 months will result in termination of the student's program.

Note: Please refer to Registration for regulations governing program registration.

4.10.6 Prepublication

Publication of material before submission of the thesis/report for examination is permitted. The School of Graduate Studies and Supervisor should be informed of such publication.

4.11 Graduation Procedure

Candidates expecting to graduate at any particular Convocation must apply on-line on the prescribed Application for Graduation form to the Office of the Registrar at least by the time of the submission of the Thesis, Project Report, or Internship Report required by their program, or, if applicable, by the date of the final comprehensive examination. This form may be obtained online at the Memorial Self Service at www3.mun.ca/admit/wbkwbis.P_WWWLogin. Additional information is available from the Office of the Registrar at www.mun.ca/regoff/graduation/apply_grad.php.

4.12 Academic Misconduct

4.12.1 Principles

In the course of a graduate degree program a student is expected to adhere to those principles which constitute proper academic conduct. Within the University community there is a collective responsibility to maintain a high level of scholarly integrity. Dishonesty has no place in the academic community. Academic misconduct cannot be condoned or even appear to be condoned. A student has the responsibility to ascertain those actions which could be construed as dishonest or improper. Certain flagrant violations are listed below under Academic Offences. A student is reminded that for guidance on proper scholarly behaviour he/she should seek assistance from his/her instructors and supervisors. The Graduate Students' Union will provide a student with information on his/her legal rights and the information that advice about acceptable writing standards is available through the Writing Centre.

4.12.2 General Information

1. These procedures shall apply to all academic offences relating to graduate studies involving, but not limited to, those students who either have been or who are enrolled at Memorial University of Newfoundland. Notification of an allegation of academic misconduct will be forwarded to the last known mailing address of the student as noted on the files at the Office of the Registrar, and to the official University email address of the student. The University reserves the right to implement action under these procedures where an allegation has been made against a student but where reasonable efforts to contact the student are unsuccessful.

2. Meetings and interviews stipulated in this regulation will be held in person, or at a distance using telephone or other interactive technologies.

3. A student who wishes to pursue research, or to attend classes, laboratories or other educational activities while an investigation under these procedures is being carried out, can normally do so with the understanding that if the allegation of academic misconduct is proven and the penalty involves either suspension or expulsion, credit will not be granted for work completed prior to a finding of guilt. This provision excludes a student charged with an offence under the Code of Student Conduct. For information regarding the Code of Student Conduct contact the Office of Student Affairs and Services.

4. Although a student can continue in a program of studies, if eligible, while an investigation under these procedures is being carried out, the University does not accept liability for any consequences to the student's progress. However, the University may take these consequences into account, as appropriate and to the extent feasible, in cases where charges are dropped or the student is not found guilty. The consequences arising from an investigation and any negative decision rendered may include retroactive effects on grades, examination results, or promotion within a program.

5. A student accused of academic misconduct may consult advisors or facilitators. Such advisors may include a representative from the Graduate Students' Union, an international student advisor, a faculty advisor, a University counselor, or a faculty member who is familiar with these Regulations and who is willing to undertake the role of advisor whether resolution is sought through Procedures for Resolution of Alleged Academic Offences at the Unit Level or Procedures for Resolution of Alleged Academic Offences by the School of Graduate Studies.

4.12.3 General Procedure

1. When a member of the University community (faculty, staff, student) has grounds for belief that an academic offence has been committed there should be an attempt between the parties concerned to resolve allegations of minor offences. If the alleged offence is not deemed to be minor by the accuser, or resolution proves impossible, or one party is dissatisfied with the resolution, the matter
shall be reported, without delay, to the Head (or other appropriate officer) of the academic or administrative unit. If resolution is achieved and it is agreed that an academic offence has been committed, then the offence, together with the penalty applied, shall be reported to the Head of the academic or administrative unit.

2. Where resolution is not achieved, and if in the judgment of the Head of the academic or administrative unit, the alleged offence warrants resolution at the unit level, the individuals involved will be advised to attempt to resolve the matter through Procedures for Resolution of Alleged Academic Offences at the Unit Level. In the event that no resolution is possible through these procedures between the individual parties, the Head of the academic or administrative unit will institute proceedings through the School of Graduate Studies.

3. If, in the judgment of the Head of the academic or administrative unit, the alleged offence against University regulations is such as to warrant resolution through the School of Graduate Studies, the Head of the academic or administrative unit will refer the matter to the Dean, and Procedures for Resolution of Alleged Academic Offences by the School of Graduate Studies will be implemented.

4. Cases involving alleged offences on comprehensive examinations, examination of theses, allegations of impersonation, or allegations of submission of forged documents will be governed by the Procedures for Resolution of Alleged Academic Offences by the School of Graduate Studies. Such cases may be initiated by the Head of the academic or administrative unit, or by the School of Graduate Studies.

5. In all cases, it is the responsibility of the academic or administrative unit to ensure that fairness and impartiality are achieved in the treatment of students.

6. Where an allegation of academic misconduct relates to research and the Tri-Agency Framework: Responsible Conduct of Research, as amended from time to time, (the Framework) applies, these procedures shall be applied in a manner consistent with the minimal requirements of the Framework.

4.12.4 Academic Offences

In the following section the plural shall be deemed to include the singular. Academic offences shall be deemed to include, but shall not be limited to, the following:

1. Cheating: This includes copying from another student's work or allowing another student to copy from one's own work; consulting with any unauthorized person during an examination or test, or using unauthorized aids; or knowingly recording or reporting false empirical or statistical data. The work referred to includes presentations, examinations, theses, assignments, work term reports, projects, lab reports, internship reports, or any tests or evaluations which are to be used in judging the student's performance in a course or program of study, or any special test which the University may offer, or in any presentations or publications related to academic work.

2. Impersonation: Impersonating another student or allowing oneself to be impersonated. By impersonation is meant the imitation of a student or entrance into an arrangement with another person to be impersonated for purposes of taking examinations or tests or carrying out laboratory or other assignments.

3. Plagiarism: Plagiarism is the act of presenting the ideas or works of another as one's own. This applies to all material such as theses, essays, laboratory assignments, laboratory reports, work term reports, design projects, seminar presentations, statistical data, computer programs, and research results. The properly acknowledged use of sources is an accepted and important part of scholarship. Use of such material without acknowledgment, however, is contrary to accepted norms of academic behaviour. Information regarding acceptable writing practices is available through the Writing Centre at www.mun.ca/writingcentre.

4. Theft of examination papers or other material: By theft is meant obtaining by improper means examination papers, tests, or any other such material.

5. Use and/or distribution of stolen material: The use of material which the student knows to have been improperly obtained and/or the distribution of such material is considered to be an academic offence.

6. Submitting false information: This offence includes falsifying, submitting or causing to submit false academic transcripts, forms or records, credentials, medical or other certificates, or making a false or incomplete declaration to the University.

7. Submitting work for one course, project or publication which has been or is being submitted to another course, project or publication without express permission to do so: This includes the presentation of an essay, report, or assignment to satisfy some or all of the requirements of a course when that essay, report, or assignment has been previously submitted or is concurrently being submitted for another course without the express permission of the professor(s) involved.

8. Ethical Practice: Failure to follow relevant University/Faculty/School guidelines on ethics, including but not limited to, ethical practice in research.

9. Failure to follow the Memorial University of Newfoundland Code.

4.12.5 Procedures for Resolution of Alleged Academic Offences at the Unit Level

4.12.5.1 General Information

These procedures will not be applied to cases involving alleged offences on comprehensive examinations, examination of theses, allegations of impersonation or allegations of submission of forged documents. Such alleged offences are governed by the Procedures for Resolution of Alleged Academic Offences by the School of Graduate Studies.

The principle that a resolution should be mutually satisfactory to both the accuser and the accused should be upheld throughout the attempt for resolution at the unit level.

4.12.5.2 Explanation of Procedures

If, upon receiving a report of an alleged academic offence, the Head of the academic or administrative unit decides that an attempt should be made to resolve that matter at the unit level the following procedures shall apply:

1. Normally within one week of notification, the Head of the academic or administrative unit shall request a meeting with the accuser and the accused and at the meeting the Head of the academic or administrative unit shall state the allegation, review the procedures for resolution at the unit level, including the range of applicable penalties, and arrange a second meeting between the accuser and the accused only.

2. At the second meeting the accuser and accused shall endeavour to obtain a mutually satisfactory resolution of the matter.

3. The accuser and accused shall report jointly to the Head of the academic or administrative unit on the result of their second meeting.

4. If the report is of a resolution which the Head of the academic or administrative unit considers to be fair and equitable the matter shall be considered closed. If the Head of the academic or administrative unit considers the reported resolution to be unfair and/or
inequitable he or she will endeavour to obtain an alternative satisfactory resolution directly with the parties.

5. Should all reasonable efforts to obtain a mutually satisfactory resolution at the unit level fail, the Head of the academic or administrative unit will refer the case to the Dean of Graduate Studies and shall inform the accuser and the accused accordingly. From this stage onward by the Procedures for Resolution of Alleged Academic Offences by the School of Graduate Studies will apply.

6. At any stage of the Procedures for Resolution of Alleged Academic Offences at the Unit Level, the student or the accuser may ask that the case be referred to the Dean, and thereafter the Procedures for Resolution of Alleged Academic Offences by the School of Graduate Studies will apply.

7. Should the accused be found guilty, a brief description of the offence and the penalty(ies) applied shall be forwarded by the Head of the academic or administrative unit to the School of Graduate Studies.

4.12.5.3 Failure to Appear or Respond

1. If at any stage of the Procedures for Resolution of Alleged Academic Offences at the Unit Level, the accused fails to respond to a charge, without reasonable cause, within two weeks of notification of an allegation, action may be taken on the charge in the absence of the accused.

2. If at any stage of the Procedures for Resolution of Alleged Academic Offences at the Unit Level, the accuser fails to appear at a scheduled meeting to defend an allegation, without reasonable cause, the action will be dismissed.

4.12.5.4 Penalties in the Case of Resolution at the Unit Level

A student who has been found guilty of an academic offence will be subject to a penalty or penalties commensurate with the offence. Some cases may warrant more than one penalty for the same offence, previous academic misconduct will be taken into account in determining penalties. The range of penalties and their determination is:

1. Resubmission of work with appropriate reduction in grade: will allow a student to complete and submit the work a second time.

2. Reprimand: This shall be in the nature of a warning in writing by the Head of the academic or administrative unit to the student that his/her conduct has been unacceptable to the University.

3. Reduction of grade: A reduction of grade will apply to an examination, test, or assignment to which an offence is relevant, or to the entire course, and will be decided by the Head of the academic or administrative unit. Since graduate students must obtain a grade of B or PASS in required courses, a reduction of grade could lead to termination of program.

4.12.6 Procedures for Resolution of Alleged Academic Offences by the School of Graduate Studies

4.12.6.1 General Procedure

If the matter cannot be resolved following the Procedures for Resolution of Alleged Academic Offences at the Unit Level, or if, in the opinion of the Head of the academic or administrative unit, the allegation involves a major breach of University regulations, or in cases involving alleged offences on comprehensive examinations, thesis examinations, allegations of impersonation, or allegations of submission of forged or falsified documents, the following Procedures for Resolution of Alleged Academic Offences by the School of Graduate Studies shall apply.

4.12.6.2 Explanation of Procedures

1. If the Head of the academic or administrative unit (in consultation with the Dean of his or her faculty or school) is satisfied that the student has a serious case to answer, that person shall inform the student in writing of the nature of the case against him or her. In addition, the Head of the academic or administrative unit shall report to the Dean of Graduate Studies who will, normally within one week, appoint as an investigator a member of the Academic Misconduct Investigations Board of the School of Graduate Studies (Investigations Board). The investigator will interview separately the accuser and accused and relevant witnesses. At these interviews, the investigator, the accuser, the accused, and relevant witnesses all have the right to be accompanied by a registered student or a member of the faculty or staff of the University.

2. Upon completion of these interviews, the investigator shall submit a written report of all findings to the Dean of Graduate Studies. The Dean of Graduate Studies shall present this report to both the accuser and accused for perusal and comment. Once in receipt of this report, the accuser and accused shall have two weeks in which to submit to the Dean of Graduate Studies any additional comments on the report that the person wishes to be considered. The investigator will be given the opportunity to correct any errors of fact should they arise from the comments of the accused and accuser prior to consideration of the allegation by the Investigations Board.

3. Upon receipt of all information from the investigator as well as comments from the accuser and accused, the Dean of Graduate Studies shall present the documents to the Chair of the Investigations Board.

4. The report shall be reviewed by a panel of five members of the Investigations Board for a decision.

5. Once a vote is taken, should the accused be found guilty, the Investigations Board shall take appropriate action in accordance with Penalties in the Case of Resolution by the School of Graduate Studies.

4.12.6.3 Failure to Appear or Respond

1. If at any stage of the Procedures for Resolution of Alleged Academic Offences by the School of Graduate Studies, the accused fails to respond to a charge, without reasonable cause, within two weeks of notification of an allegation, action may be taken on the charge in the absence of the accused.

2. If at any stage of the Procedures for Resolution of Alleged Academic Offences by the School of Graduate Studies, the accuser fails to appear at a scheduled interview to defend an allegation, without reasonable cause, the action will normally be dismissed; however, the investigation may proceed at the discretion of the Dean in consultation with the Investigations Board if the allegation or evidence warrants such action.

4.12.6.4 Penalties in the Case of Resolution by the School of Graduate Studies

A student who has been found guilty of an academic offence will be subject to a penalty or penalties commensurate with the offence. Enforcement of penalties resulting from Procedures for Resolution of Alleged Academic Offences by the School of Graduate Studies will be overseen by the Registrar. Some cases may warrant more than one penalty for the same offence, and previous academic misconduct will be taken into account in determining penalties. Penalties shall be imposed on the basis of the student's status at the time of the offence. The range of penalties and their determination is:
1. **Reprimand:** This shall be in the nature of a warning in writing by the Investigations Board to the student that his/her conduct has been unacceptable to the University.

2. **Reduction of Grade:** A reduction of grade will apply to an examination, test, or assignment to which an offence is relevant, or to the entire course, and will be decided by the Investigations Board. Since a passing grade for graduate students is at least a grade of B or Pass, a reduction of grade could lead to termination of program.

3. **Change in Outcome of an Examination:** This will apply to Comprehensive Examinations and the examination of Theses and Reports and could lead to termination of program.

4. **Probation:** This is a trial period the length of which will be determined by the Investigations Board. The Investigations Board will inform the student that the finding of any further academic offence during the period of probation may lead to suspension or expulsion.

5. **Suspension:** Suspension will apply to a course, department, faculty, school, or the University. The period of suspension will be determined by the Investigations Board and shall not exceed three consecutive semesters, and shall be part of the allowable time for a graduate program.

6. **Expulsion:** The recommendation for expulsion from the University will be made by the Investigations Board to the President for his/her final decision. Prior to the President's decision, the Investigations Board will notify the accused, in writing, of the recommendation for expulsion from the University. The accused will be allowed a period of two weeks following the date of release of such notification to lodge an appeal before the President's final decision concerning expulsion from the University. Any such appeal should be made in writing or email to the Senate Committee on Academic Appeals, c/o Office of the Registrar.

7. **Rescinding of Degree:** The recommendation for rescinding of a degree previously awarded by the University will be made by the Investigations Board of the School of Graduate Studies to Senate for a final decision. Prior to Senate's decision, the Investigations Board of the School of Graduate Studies will notify the accused, in writing, of the recommendation for rescinding of the degree. The accused will be allowed a period of two weeks following the date of release of such notification to lodge an appeal before the Senate's final decision concerning the rescinding of the degree. Any such appeal should be made in writing to the Senate Committee on Academic Appeals, c/o Office of the Registrar.

### 4.12.7 Transcript Entries Related to Penalties

Transcript entries shall relate to the penalty(ies) imposed as follows:

<table>
<thead>
<tr>
<th>Penalty</th>
<th>Transcript Entry</th>
</tr>
</thead>
<tbody>
<tr>
<td>Reprimand</td>
<td>No transcript entry</td>
</tr>
<tr>
<td>Reduction of Grade</td>
<td>Entry of final grade for course</td>
</tr>
<tr>
<td>Change in Outcome of an Examination</td>
<td>Entry of final outcome for the examination</td>
</tr>
<tr>
<td>Probation</td>
<td><em>On probation at the University for academic misconduct until Day, Month, Year</em>*</td>
</tr>
<tr>
<td>Suspension</td>
<td><em>Suspended from the School of Graduate Studies for academic misconduct until Day, Month, Year</em>*</td>
</tr>
<tr>
<td>Expulsion</td>
<td><em>Expelled from the University for academic misconduct</em></td>
</tr>
<tr>
<td>Rescinding of Degree</td>
<td><em>Degree rescinded for academic misconduct</em></td>
</tr>
</tbody>
</table>

* The transcript entries for ‘probation’ or ‘suspension’ will be removed entirely upon the expiration of the penalty.

### 4.12.8 Disposition of Documentation

The disposition of documents relating to allegations under these procedures shall be as follows:

1. The cases where the allegation was either found “not proven” or “unfounded” no documentation shall be retained in the student files.

2. In the case of a resolution effected through Academic Misconduct - General Procedure or Procedures for Resolution of Alleged Academic Offences at the Unit Level, a brief description of the offence and the penalty(ies) applied shall be forwarded by the Head of the academic or administrative unit to and retained by the School of Graduate Studies, separate from the student files.

3. In the case of a resolution effected through the Procedures for Resolution of Alleged Academic Offences by the School of Graduate Studies, all documentation shall be retained in the School of Graduate Studies, separate from the student files.

### 4.12.9 Right of Appeal

Appeals against decisions of the Investigations Board of the School of Graduate Studies made under Procedures for Resolution of Alleged Academic Offences by the School of Graduate Studies shall be directed to the Senate Committee on Academic Appeals, c/o Office of the Registrar.

### 4.13 Termination of a Graduate Program

Grounds for termination of a graduate program are as follows:

1. a. Failure to comply with the conditions of admission into a program, unless the conditions of admission have been changed with approval of the academic unit and the School of Graduate Studies;

b. Failure to register in any semester by the final date for adding courses (see Registration, Program Registration 1.);

c. Failure to obtain the required grades in courses as stated in the appropriate degree regulations (see Evaluation);

d. Failure in comprehensive examinations (see Comprehensive Examinations);

e. Demonstrated lack of progress in a program supported by written documentation;

f. Recommendation of the Supervisory Committee (see Supervision);

g. Failure of Thesis, Project, or Internship (see Theses and Reports);

h. Academic misconduct as outlined under General Regulations, Academic Behaviour governing the School of Graduate Studies.

2. The foregoing notwithstanding the University reserves the right to require students to discontinue their program or to deny them
admission where, in the opinion of the Academic Council of the School of Graduate Studies, following appropriate professional consultation, there is a reasonable likelihood that a student’s health or conduct could result in endangering the lives, health, or safety of other persons on campus or in settings related to the student’s university studies.

3. The foregoing notwithstanding, the School of Graduate Studies reserves the right to require students to discontinue their studies, or to deny them re-admission, where a student has been determined to have engaged in unprofessional conduct. The code of ethics of each profession will serve as the guideline as to what constitutes unprofessional conduct. However, should there not be any statements of what constitutes unprofessional conduct, the following standard will apply:

Unprofessional Conduct: That conduct which involves a breach of the duties required by professional ethics.

Notes:
1. If the University or a School or Faculty requires a student to discontinue his/her studies under any of the above clauses, that student must be advised in writing of the nature of the case against him/her and must be advised of the right to appeal before the penalty imposed takes effect.
2. Appeals against actions taken under Clause 2, should be directed to the Senate of the University. Any such appeal should be made in writing clearly stating the basis for the appeal and should be directed to the Secretary of Senate, c/o Office of the Registrar.
3. Appeals against actions taken under Clause 3, should be directed to the Appeals Committee, School of Graduate Studies.

4.14 Provision for Reapplication
1. A student whose program of studies has been terminated for any of the reasons outlined under Termination of a Graduate Program may apply for admission to a new program of studies leading to the same degree.
2. Notwithstanding the above, a student whose program of studies has been terminated under Termination of a Graduate Program, 1.b., shall be readmitted to the existing program only under the following conditions:
   a. on the recommendation of the appropriate academic unit;
   b. on the payment to the University of those registration fees which would have been payable had the student remained in continuous registration during the period since the termination of the program;
   c. on the understanding that the time period during which the student was not registered shall be considered as part of the maximum time permitted for the completion of the degree.

5 Regulations Governing the Degree of Master of Applied Science

www.engr.mun.ca
Professor and Dean of Engineering
G.F. Naterer

The Degree of Master of Applied Science (M.A.Sc.) is a course-based Degree offered in three areas: Computer Engineering, Environmental Systems Engineering and Management, and Oil and Gas Engineering. For information on the research-focused Master of Engineering program, refer to the regulations governing the Degree of Master of Engineering.

5.1 Industrial Internship Option

The Faculty permits graduate students to undertake internships of work in industry. These internships will allow students to either (a) enhance the application of their knowledge and skills within industry, or (b) complete a research project defined by the industry. Encouragement to undertake an internship will be given only where it is clear that one of these expectations can be met.

Students registered in the M.A.Sc. program may, with the permission of their Board of Studies, the Dean of the Faculty of Engineering and Applied Science, and the Dean of Graduate Studies, select the Industrial Internship Option. Students pursuing this option must satisfy the degree regulations for an M.A.Sc. program. In addition, students in the Industrial Internship Option:
1. shall normally complete at least 18 credit hours of the courses required for their program with an average of 75% or higher prior to the internship; the remaining required courses may be taken on campus or by distance
2. shall normally spend at least two continuous semesters on campus on a full-time basis as a graduate student at this University
3. shall normally spend 4 to 8 months of their program at an internship in industry
4. shall submit monthly reports to a university supervisor appointed by their Board of Studies, and shall submit a concise progress report to their Board of Studies no later than the end of each semester while on an internship
5. shall normally not opt out once the internship starts.

5.2 Computer Engineering

5.2.1 Program of Study

1. The Faculty of Engineering and Applied Science offers a course-based program in Computer Engineering leading to the Degree of Master of Applied Science (M.A.Sc.) in Computer Engineering. The program is available only on a full-time basis.
2. The program is offered by the Faculty of Engineering and Applied Science and will be administered by a Board of Studies appointed by the Dean of Engineering and Applied Science.

5.2.2 Qualifications for Admission

1. Admission to the program is limited and competitive.
2. To be eligible for consideration for admission, applicants will have at least a second class engineering degree in computer engineering, computer science or electrical engineering; they will have background in many of the following areas: object-oriented programming, data structures, digital logic, computer organization, circuits and electronics, systems and signals, communications, discrete mathematics, probability and statistics and engineering design.
3. To be eligible for consideration for admission, applicants will meet the English Proficiency Requirements described under English Proficiency Requirements.

5.2.3 Degree Requirements

1. The degree program requires the completion of 36 credit hours, 6 of which comprise a project course.
   a. Students are required to complete 9801, 9859, 9861, 9865, 9867, 9871, 9874, and 9876.
   b. Three elective courses must be selected; each term the Board of Studies for the program will provide a selection of eligible
courses, which may include ENGI 9821, ENGI 9822, ENGI 9868, ENGI 9869, ENGI 9872, ENGI 9875, ENGI 9877, ENGI 9878, ENGI 9879, ENGI 9880/83, ENGI 9888/91, CS 6752, CS 6756, PHYS 6102, and others designated by the Board of Studies for the program.

c. Based on their academic background, students may be required to complete additional courses at the undergraduate level.

2. Normally students will take courses as shown in Table 1. Students wishing to take courses in another sequence must request approval from the Board of Studies for the program.

5.2.4 Evaluation

Students must obtain a grade of at least 65% in all program courses to receive credit for the course towards their program requirements. Any student who fails to receive 65% or more in a course must repeat the course in the case of core courses, or must either repeat or replace the course with another program course in the case of elective courses. Only two such repetitions/replacements shall be permitted in the student’s program. Should a grade of less than 65% be obtained in a repeated or replacement course, the student shall be required to withdraw from the program.

5.2.5 Courses

980A/B Computer Engineering Project
9802/05 (excluding 9804) Special Topics in Computer Engineering
9806/09 Special Topics in Communications Engineering
9821 Digital Signal Processing
9822 Nonlinear Digital Image Processing and Analysis
9859 Computer Engineering Fundamentals
9861 High-Performance Computer Architecture
9865 Advanced Digital Systems
9867 Advanced Computing Concepts for Engineering
9868 ASIC Design
9869 Advanced Concurrent Programming
9871 Information Theory and Coding
9874 Software Design and Specification
9875 Embedded and Real-Time Systems Design
9876 Advanced Data Networks
9877 Computer and Communications Security
9878 Wireless and Mobile Communications
9879 Formal Specification and Development
9880-83 Special Topics in Computer Engineering
9888-91 Special Topics in Communications Engineering
Computer Science 6752 Applications of Computer Graphics
Computer Science 6756 Digital Image Processing
Physics 6102 Optics and Photonics

5.3 Environmental Systems Engineering and Management

5.3.1 Program of Study

1. The Faculty of Engineering and Applied Science offers a program in Environmental Systems Engineering and Management (ESEM) leading to the Degree of Master of Applied Science. The program is available on a full-time or part-time basis.

2. The program is offered by the Faculty of Engineering and Applied Science and will be administered by a Board of Studies appointed by the Dean of Engineering and Applied Science.

5.3.2 Qualifications for Admission

1. Admission is limited and competitive.

2. To be considered for admission, applicants shall normally hold a minimum second class Bachelor’s Degree in engineering preferably in civil, environment, chemical, processing, or petroleum engineering, or in a related discipline from a university of recognized standing.

3. To be eligible for consideration for admission, applicants will meet the English Proficiency Requirements described under General Regulations, English Proficiency Requirements.

5.3.3 Degree Requirements

1. The Degree program requires the completion of 30 credit hours.

a. 6 credit hours comprising a project course 960A/B.

b. 15 credit hours comprised of 9601, 9609, 9626, 9627, and 9628.

c. 9 credit hours (three courses) to be selected from 9603, 9605, 9610-9615, 9621, 9622, 9624, 9625, 9629, 9630, Environmental Science 6001, Environmental Science 6002, Environmental Science 6003, and Geography 6250.
5.3.4 Evaluation

Students must obtain a grade of at least 65% in all program courses to receive credit for the course towards their program requirements. Any student who fails to receive 65% or more in a course must repeat the course in the case of core courses, or must either repeat or replace the course with another program course in the case of elective courses. Any student who receives a grade of less than 65% in two courses or in a repeated course will be required to withdraw from the program.

5.3.5 Courses

960A Environmental Engineering Project (0 credit hours)
960B Environmental Engineering Project (6 credit hours)
9601 Environmental Pollution and Mitigation (cross-listed as Environmental Science 6004)
9603 Environmental Sampling and Pollutant Analysis (cross-listed as Environmental Science 6005)
9605 Water and Wastewater Treatment
9609 Environmental Risk Assessment (cross-listed as Environmental Science 6007)
9610-9615 Special Topics in Environmental Science and Engineering
9621 Soil Remediation Engineering
9622 Environmental Statistics
9624 Air Pollution (cross-listed as Environmental Science 6008)
9625 Environmental Impacts of Offshore Oil and Gas Operations
9626 Environmental Management System
9627 Environmental Systems Engineering
9628 Environmental Laboratory
9629 Environmental Policy and Regulations
9630 Pollution Prevention
Environmental Science 6001 Earth and Ocean Systems
Environmental Science 6002 Environmental Chemistry and Toxicology
Environmental Science 6003 Applied Ecology
Geography 6250 Conservation of Natural Resources

5.4 Oil and Gas Engineering

5.4.1 Program of Study

1. The Faculty of Engineering and Applied Science offers a program in Oil and Gas Engineering leading to the degree of Master of Applied Science in Oil and Gas Engineering (M.A.Sc.(OGE)). The program is available on a full-time basis.
2. The program is offered by the Faculty of Engineering and Applied Science and will be administered by a Board of Studies appointed by the Dean of Engineering and Applied Science.

5.4.2 Qualifications for Admission

1. Admission is limited and competitive.
2. To be considered for admission, applicants shall normally hold a minimum second class Bachelor’s Degree in engineering preferably in mechanical, chemical/process, civil, environmental, mining/mineral, or petroleum engineering, or in a related discipline from a university of recognized standing.
3. To be eligible for consideration for admission applicants will meet the English Proficiency Requirements described under General Regulations, English Proficiency Requirements.

5.4.3 Degree Requirements

1. The degree program requires the completion of 30 credit hours.
   a. 6 credit hours comprising a project course Engineering 910A/910B.
   b. 15 credit hours by completing Engineering 9110, 9113, 9114, 9118 and 9121.
   c. 9 credit hours (three courses) to be selected from Engineering 9002, 9015, 9111, 9112, 9116, 9117, 9119, 9120, 9420, 9609, 9624, 9625, 9901, 9902, 9903. Engineering 9117 is a recommended elective course for students without adequate background in petroleum engineering.

5.4.4 Evaluation

Students must obtain a grade of at least 65% in all program courses to receive credit for the course towards their program requirements. Any student who fails to receive 65% or more in a course must repeat the course in the case of core courses, or must either repeat or replace the course with another program course in the case of elective courses. Any student who receives a grade of less than 65% in two courses or in a repeated course will be required to withdraw from the program.

5.4.5 Courses

9002 Ocean Engineering Structures
9015 Ocean Engineering Hydrodynamics
910A OGE Project Course (0 credit hours)
910B OGE Project Course (6 credit hours)
9110 Advanced Petroleum Production Engineering
9111 Well Testing
9112 Multiphase Flow
9113 Phase Behaviour of Petroleum Reservoir Fluids
9114 Advanced Reservoir Engineering
9116 Reliability Engineering
9117 Offshore Petroleum Geology and Technology
9118 Advanced Drilling Engineering
9119 Compact Process Equipment Design
9120 Advanced Natural Gas Engineering
9121 Advanced Safety, Risk and Reliability Modeling
6 Regulations Governing the Degree of Master of Applied Psychological Science (Co-operative)

1. Admission to the program is competitive and selective. To be considered for admission to the Master of Applied Psychological Science (Co-operative) an applicant shall normally hold at least a high second class Honours degree or its equivalent, both in achievement and depth of study, from an institution recognized by the Senate.

2. Applications
   a. All applicants are required to submit results from the General section of the Graduate Record Examinations.
   b. Applicants are required to submit with their applications an example of their academic writing. This could include, but is not limited to, papers submitted in class, honour's thesis, etc.
   c. At least one letter of reference should come from someone who is familiar with the applicant's research capability.

3. Election will be based on an applicant's overall academic performance, scores on the Graduate Record Examination and letters of reference.

4. Admission to the program shall be upon acceptance by the Dean of Graduate Studies after recommendation by the Head of the Department of Psychology which will include a proposed program of study and a proposed Supervisor.

6.2 Program of Study

1. Students should note that it is possible to enter Academic Term 1 only in the Fall semester commencing in September of each year.

2. Every candidate shall complete four Academic Terms in the Cooperative Program and shall normally be required to complete two Work Terms.

3. Academic and Work Terms normally alternate as follows:
   - Academic Term 1, Academic Term 2, Work Term 1
   - Academic Term 3, Work Term 2, Academic Term 4

4. Candidates shall normally complete 18 credit hours, including: Advanced Statistics in Psychology (6000), Research Design (6001), Theory and Methods in Social Psychology (6400), Program Evaluation and Applied Research (6403), Project in Applied Social Psychology (6404) and either Group Processes (6402) or Social Cognition (6401). Candidates will also register for the Colloquium Series in Psychology (6010) for Academic Term 1, Academic Term 2, and Academic Term 3 of their program for a maximum of three registrations.

6.3 Evaluation and Advancement

1. In order to continue in good standing in the program and in order to qualify for the Master's Degree, a candidate shall obtain a grade of A or B for program courses, and complete two Work Terms.

2. The dates for starting and finishing each Work Term are shown in the University Diary. Successful completion of the Work Term requirements is a prerequisite to graduation.

3. A competition for Work Term employment is organized by Co-operative Education. Students may also obtain their own Work Term jobs outside the competition. Such jobs must be confirmed by letter from the employer and approved by the Head of Psychology and Co-operative Education on or before the first day of the Work Term. Work Term jobs may be outside St. John's and possibly outside Newfoundland and Labrador. Students who do not wish to accept a Work Term job arranged by Co-operative Education shall be responsible for finding an alternative acceptable to the Head of Psychology and Co-operative Education.

   By entering the competition, students give permission for Co-operative Education to supply their University transcripts to potential employers.

4. The overall evaluation of the Work Term is the responsibility of Co-operative Education. The Work Term evaluation shall consist of two components:
   a. On-the-job Student Performance:
      Job performance shall be assessed by Co-operative Education using information gathered during the Work Term and input from the employer towards the end of the Work Term. Formal written documentation from the employer shall be sought.
   b. The Work Report:
      i. Work term reports shall be evaluated by a member of the faculty in the Department of Psychology. If an employer designates a report to be of a confidential nature, both employer and faculty member must agree as to the methods to protect the confidentiality of such a report before the report may be accepted for evaluation.
ii. Reports must be prepared according to American Psychological Association specifications and contain original work related to the Work Term placement. The topic must relate to the work experience and will be chosen by the student in consultation with the employer. For promotion from the Work Term, a student must obtain at least 65% in each component.

5. If a student fails to achieve the Work Term standards specified above the student will be required to withdraw from the program. Such a student may reapply to the program after lapse of two semesters, at which time the student will be required to complete a further Work Term with satisfactory performance before being admitted to any further academic term in the Faculty. A Work Term may be repeated once.

6. Students are not permitted to drop Work Terms without prior approval of the Graduate Studies Committee of the Department of Psychology, upon the recommendation of Co-operative Education. The Graduate Studies Committee will make a recommendation to the Head of Department who will make the final decision. Students who drop a Work Term without permission, or who fail to honour an agreement to work with an employer, or who conduct themselves in such a manner as to cause their discharge from the job, will normally be awarded a failed grade for the Work Term. Permission to drop a Work Term does not constitute a waiver of degree requirements, and students who have obtained such permission must complete an approved Work Term in lieu of the one dropped.

6.4 Courses
A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the Department will allow. Other courses may be offered on the recommendation of the Head of the Department of Psychology.

6000 Advanced Statistics in Psychology
6001 Research Design
6010 Colloquium Series in Psychology (repeatable, non-credit)
601W Work Term 1
602W Work Term 2
6400 Theory and Methods in Social Psychology
6401 Social Cognition
6402 Group Processes
6403 Program Evaluation and Applied Research
6404 Project in Applied Psychological Science

7 Regulations Governing the Degree of Master of Applied Statistics
www.mun.ca/science
www.mun.ca/math

Professor and Dean of Science
M. Abrahams

The Degree of Master of Applied Statistics (M.A.S.) is a highly structured program incorporating 18 credit hours in program courses and a practicum in applied statistics. The Degree is offered in the Department of Mathematics and Statistics by full-time or part-time study.

7.1 Qualifications for Admission
1. Admission is limited and competitive. To be considered for admission to the Master of Applied Statistics program, an applicant shall normally hold at least a high second class Honours Degree or its equivalent, both in achievement and depth of study, from an institution recognized by the Senate.
2. In addition, an applicant shall normally have completed undergraduate courses in statistics which cover the material of Statistics 3521, 3530, 4410, 4520, 4560, 4561, 4590, 4591. If necessary, an applicant may be required to demonstrate a satisfactory knowledge of the above courses in an examination administered by the Department of Mathematics and Statistics.
3. Applicants who do not meet these requirements should consult the Department of Mathematics and Statistics about a program of further undergraduate courses. Such a program is intended to provide the candidate with an adequate statistical background. Such courses may not be used to fulfill the program course requirements of the Master of Applied Statistics Degree.
4. Admission to the program shall be upon acceptance by the Dean of Graduate Studies after recommendation by the Head of the Department of Mathematics and Statistics along with a proposed program of study and a proposed Supervisor.

7.2 Program of Study
The minimum requirements for the Degree of Master of Applied Statistics are completion of the following:
1. The three credit hours courses STAT 6510 and STAT 6560 plus one from STAT 6530, STAT 6571 or STAT 6573.
2. Nine additional credit hours selected from STAT 6500-6589.
3. The series STAT 697A/B or the completion of an additional 3 credit hour graduate course from STAT 6500-6589.
4. STAT 6591 and an applied statistics project with its associated report. The report must demonstrate a satisfactory general mastery of applied statistical knowledge.

7.3 Evaluation
1. In order to continue in graduate studies and in order to qualify for a Master’s Degree, a candidate shall obtain an A or B for all regular program courses. In order to qualify for a graduation the student shall pass STAT 697A/B and STAT 6591 and complete successfully the practicum requirement.
2. STAT 6591 will be evaluated by the student’s consulting project supervisor.
3. Evaluation of the practicum shall be carried out in accordance with Theses and Reports of the General Regulations governing all students in the School of Graduate Studies.

Note: Every candidate in graduate studies shall comply with the General Regulations, the Degree Regulations and any additional requirements of the Department of Mathematics and Statistics.

7.4 Courses
A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the Department will allow.
8 Regulations Governing the Degree of Master of Arts

www.mun.ca/arts

Professor and Dean of Arts
L. Phillips

The Degree of Master of Arts (M.A.) is offered in Anthropology, Archaeology, Classics, Economics, English, Environmental Policy, Ethnomusicology, Folklore, French Studies, Geography, German Language and Literature, History, Linguistics, Philosophy, Political Science, Religious Studies, and Sociology.

Applicants are advised to consult, in addition to the regulations governing the Degree of Master of Arts, both the General Regulations and the particular regulations of the appropriate Departments.

8.1 Qualifications for Admission

1. Admission is limited and competitive. To be considered for admission an applicant shall hold a Bachelor's Degree or its equivalent from an institution recognized by the Senate and shall have a knowledge of the proposed field of specialization satisfactory to the Department concerned (or Departments, when interdisciplinary study is intended) and to the Dean.

2. Preference will normally be given to applicants who hold an appropriate Honours Degree, either from Memorial University of Newfoundland, or from another university whose Honours Degree is of comparable standing. Any other applicant who holds a Bachelor's Degree or its equivalent will be considered for admission provided that:

   a. the applicant's undergraduate record after the first year shows an average of at least grade B in courses in the proposed field of specialization;

   b. the applicant's overall undergraduate record after the first year shows an average of at least grade B in all courses taken; and

   c. the Department concerned satisfies the Dean that the applicant's work exhibits evidence of academic excellence.

   Only in exceptional circumstances, and only on the recommendation of the Department concerned, will the Dean consider applicants who do not meet the requirements in a. and b. Such applicants, however, must meet the requirements in c.

3. An applicant may be required to demonstrate a satisfactory knowledge of the proposed field of study in an examination administered by the Department or Departments.

4. In most cases instruction is in English, and examinations and theses are to be written in English. (Language Departments, however, give instruction in the pertinent language and often require examinations and theses to be written in the language. In addition, other Departments may permit or even require examinations and/or theses to be written in a language other than English.)

8.2 Program of Study and Research

1. The program of study for the Master of Arts Degree shall consist of the successful completion of a program of courses and, in accordance with Departmental regulations, either of a thesis embodying systematic research or of a Comprehensive Examination. For programs requiring 24 credit hours or more, the academic unit may choose not to require a thesis or comprehensive examination.

2. Every candidate shall read at least 12 credit hours in program courses at the graduate level in one subject or in closely related subjects. Departmental regulations may require more courses than the minimum and this higher number is listed where applicable in the regulations of the Department.

3. Students may, with the approval of the Dean, augment their program with a limited number of other courses of their choice. Passing grades are not required in these non-program courses in order to continue in graduate studies or obtain a Master's Degree.

4. Candidates submitting a thesis on an approved topic shall conduct systematic research under the direction of a Supervisor recommended by the appropriate Department or Departments and approved by the Dean. The candidate may be required to take an oral examination.

5. Changes in either the program of courses or the topic of the thesis require the approval of the Dean.

6. On the recommendation of the Head of the Department, the Dean may waive, in part, the course requirements for a Master's Degree.

7. Application for transfer from the Master of Arts to the Master of Philosophy is to be made to the Dean before the end of the second semester in the case of full-time students, and in the case of part-time students before 18 graduate credit hours have been completed.

8. The Dean may approve an application to transfer from the M.A. to the M.Phil. only when a new integrated program, acceptable to the Dean, is submitted.
8.3 Evaluation

1. In order to continue in the School of Graduate Studies and in order to qualify for a Master's Degree, a candidate shall obtain an A or B grade in each regulation course. Some candidates may be required to read a specified number of additional graduate or undergraduate courses for which a passing grade must be achieved.

2. Students registered for credit shall write their examinations in their graduate courses at a time to be determined by the Dean on the recommendation of the Department.

3. Students registered in undergraduate courses shall satisfy examination requirements in these courses.

4. When, on a basis of consultation with the candidate, the instructors in graduate courses, and the thesis Supervisor, the Head of a Department has determined that the candidate's work has fallen below a satisfactory level, the Head may recommend to the Dean that the candidate be required to withdraw from the program.

8.4 Thesis or Report

See General Regulation, Theses and Reports.

8.5 Anthropology

www.mun.ca/arts
www.mun.ca/anthro

Associate Professor and Head of the Department
K. Gordon

The Degree of Master of Arts (M.A.) is offered in Anthropology by either full-time or part-time study.

1. Candidates will specialize in social and cultural anthropology.

2. When candidates are accepted into the program, they will be assigned one or more Supervisors. Candidates' programs shall be the responsibility of their Supervisor(s), the graduate co-ordinator(s), and the Head of the Department.

3. If candidates' records suggest a deficiency in some area(s), the Department reserves the right to require that they complete additional undergraduate courses before beginning program courses.

4. Candidates may choose between a thesis and a non-thesis option.

8.5.1 M.A. With Thesis

1. Normally, the M.A. program should take two academic years to complete, of which the first year will be spent in completing course work, writing and orally defending a thesis proposal before members of the faculty, and beginning to carry out research. The second academic year will be spent in completing research, presenting an oral research report to the Department, and completing a thesis.

2. Candidates for the Degree of a Master of Arts in Anthropology will be required to complete not fewer than 12 credit hours, nor more than 18 credit hours of courses at the graduate level.

3. Most Department graduate courses are taught in either a seminar or tutorial framework; all courses require intensive reading, regular oral communication of ideas to faculty and other students, and preparation of written research papers and other assignments.

4. Normally, during the second semester of the first year of study in the program, a written thesis proposal which has been approved by the student's Supervisor(s) will be circulated to all members of the Department. The written thesis proposal should be made available to faculty members at least two weeks prior to the scheduled date of a student's oral presentation and defence of the proposal.

5. Shortly following the completion of their research, candidates will be required to present an oral research report on their findings to the Department.

6. A final draft of the thesis will be evaluated in accordance with the requirements of the School of Graduate Studies.

8.5.2 M.A. Without Thesis

Normally, the M.A. program without thesis should take one academic year to complete. Candidates who choose to do the M.A. without thesis must normally complete 24 credit hours in graduate program courses; 15 of which will normally be from ANTH 6440, ANTH 6890, and ANTH 6300. Nine additional credit hours are to be selected from the graduate courses offered by the Department.

Note: ANTH 6440 will be worth 9 credit hours. This course will normally be based on secondary literature and will be supervised by a faculty member.

8.5.3 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the Department will allow.

- 6010 Cultural Ecology
- 6071 Health and Illness: Cultural Contexts and Constructions
- 6081 Anthropology of Gender
- 6089 Anthropology of Underclass Life
- 6100 Social Organization
- 6110 Culture and Personality
- 6140 The Community
- 6210 Language and Culture
- 6240 Atlantic Regional Studies
- 6260 Social and Economic Development
- 6280 Newfoundland Ethnography
- 6281 Labrador Ethnography
- 6282 Ethnography of a Single Region
- 6300 Fieldwork and Interpretation of Culture
- 6400 Current Themes in Cultural Anthropology
- 6410 History of Anthropology
- 6412 Anthropological Theory
- 6413 Applied Anthropology
- 6430 Audiovisual Anthropology
8.6 Archaeology

www.mun.ca/arts
www.mun.ca/archaeology

Associate Professor and Head of the Department
L. Rankin

8.6.1 Program of Study

The Degree of Master of Arts is offered in Archaeology by either full-time or part-time study.

1. Candidates may specialize in either archaeology or bioarchaeology.

2. The choice of specialty will govern the selection of Supervisor(s), courses, and thesis or research paper topics. When candidates are accepted into the program, they will be assigned one or more Supervisors. Candidates’ programs shall be the responsibility of their Supervisor(s), the graduate co-ordinator, and the Head of the Department.

3. If candidates’ records suggest a deficiency in some area(s), the Department reserves the right to require that they complete additional undergraduate courses before beginning program courses.

4. Normally, the M.A. program should take six academic semesters to complete, of which the first three semesters will be spent in completing course work, writing and orally defending a thesis proposal before members of the faculty, and beginning to carry out research. The following semesters will be spent in completing research, presenting an oral research report to the Department, and completing a thesis.

5. Candidates for the Degree of a Master of Arts in Archaeology will be required to complete not fewer than 12 credit hours, nor more than 18 credit hours of courses at the graduate level.

6. Most Department graduate courses are taught in either a seminar or tutorial framework; all courses require intensive reading, regular oral communication of ideas to faculty and other students, and preparation of written research papers and other assignments.

7. Normally, during the second semester of the first year of study in the program, a written thesis proposal which has been approved by the student’s Supervisor(s) will be circulated to all members of the Department. The written thesis proposal should be made available to faculty members at least two weeks prior to the scheduled date of a student’s oral presentation and defence of the proposal.

8. Shortly following the completion of their research, candidates will be required to present an oral research report on their findings to the Department.

9. A final draft of the thesis will be evaluated in accordance with the requirements of the School of Graduate Studies.

8.6.2 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the Department will allow.

6020 Bioarchaeology
6040 Human Osteology
6095 Advanced Studies in Ethnohistory (same as History 6095)
6151 Palaeoethnobotany
6181 Palaeoeskimo Cultures of the Eastern Arctic
6182 Advances in Material Culture Analysis
6187 Readings in Maritime Provinces Prehistory
6189 Palaeopathology
6191 Approaches to Early Modern Material Culture
6192 Conservation Method and Theory
6290 Newfoundland and Labrador Prehistory
6310 Economic Analyses in Archaeology
6320 Ethnoarchaeology
6330 Archaeological Field Conservation
6409 History of Archaeology
6411 Theory and Method in the Study of Archaeology and Prehistory
6500 Special Topics in Historical Archaeology (prerequisite 6191)
6680-6699 Special Topics in Archaeology and Prehistory
6687 Applied Archaeological Sciences
6700 Interpretative Methods in Archaeology
6701 Interpretative Methods in Historical Archaeology
6890 Graduate Seminar

8.7 Classics

www.mun.ca/arts
www.mun.ca/classics

Associate Professor and Head of the Department
T.J. Allen

The degree of Master of Arts is offered in Classics. The program is designed so that it may be completed in two academic years of full-time study.

8.7.1 Qualifications for Admission

Admission requirements are set forth in the Regulations Governing the Degree of Master of Arts, Qualifications for Admission. In addition to these requirements, an applicant should have completed at least 30 undergraduate credit hours in Greek and Latin language
courses including a minimum of 12 credit hours in each language and at least 6 credit hours from senior level courses.

8.7.2 Program of Study
1. A student will complete a minimum of 24 credit hours in Classics courses at the 6000 level including Classics 699A and 699B; 6 of these 24 credit hours must be in Greek and/or Latin courses. Further courses beyond the minimum number may be required, depending on the background of the student.

2. A student is required to demonstrate competence in a modern European language, normally French, German, or Italian, as early as possible in their program of study, but no later than the end of the first semester of the second year. (See General Regulations, Evaluation, Evaluation of Graduate Students.)

8.7.3 Courses
6001 Seminar in Greek History and Society
6002 Seminar in Greek Literature and Culture
6003 Seminar in Roman History and Society
6004 Seminar in Roman Literature and Culture
6200 Latin Literature: Oratory
6210 Latin Literature: Epic, drama, didactic
6220 Latin Literature: Lyric, satire, elegy, epigram
6230 Roman Historians
6250-6260 Special Topics in Latin Readings
6300 Greek Literature: Oratory
6310 Greek Literature: Epic, drama, didactic
6320 Greek Literature: Lyric, iambic, elegy, epigram
6330 Greek Historians
6340 Ancient Philosophical Authors
6350-6360 Special Topics in Greek Readings
699A Master's Research Paper (0 credit hours)
699B Master's Research Paper (6 credit hours)

8.8 Economics

www.mun.ca/arts
www.mun.ca/econ

Professor and Head of the Department
W. Locke

The Degree of Master of Arts is offered in Economics. The focus of the program is applied economics. The non-thesis option is designed so that suitably qualified full-time students can complete it in one year. The thesis option normally takes more than one year.

8.8.1 Qualifications for Admission
To be considered for admission, an applicant must normally have completed an undergraduate Degree in Economics at a Canadian university with at least second-class Honours standing, or its equivalent. Satisfaction of this criterion does not guarantee admission and, if admitted, students may be required to complete specified undergraduate courses as deemed necessary by the Department.

8.8.2 Programs of Study
1. Non-Thesis Option
   a. The program of study requires, in addition to any specified undergraduate courses, completion of 26 credit hours in graduate Economics courses, including a master's essay course. The maximum time normally permitted for students to satisfy these requirements is three years.
   b. The 26 credit hours in graduate courses consist of the following:
      i. 11 credit hours in core courses, which shall normally be completed in the first term of the program: Economics 6000, 6001, 6002, and 6009;
      ii. 12 credit hours in other courses selected from those offered by the Department;
      iii. Masters Essay course: Economics 6999. Normally, all other required graduate courses must be completed before the essay.
   c. The master's essay, Economics 6999, must be in the area relating to the courses taken by the student. Students will be assigned a Supervisor, who will approve the topic; the essay will be graded by the Supervisor and one other member of the Department. The essay must be completed during the semester in which the student is registered in Economics 6999. During that time, students may be required to give a Departmental seminar on their essays.

2. Thesis Option
   a. The thesis option consists of 20 credit hours and a thesis. The thesis will consist of a comprehensive study in the area of the student's field courses. The thesis must embody systematic research and demonstrate a mastery of economic principles and their application. Thesis work will be completed under a Supervisor from the Department.
   b. The thesis must normally be completed within the two years following completion of 20 required credit hours, which must include Economics 6000, 6001, 6002, and 6009.
   c. The thesis will normally be evaluated internally and in accordance with the requirements of the School of Graduate Studies.

8.8.3 Courses
The following courses will be offered to meet the requirements of candidates, as far as resources of the Department will allow.

Core Courses
6000 Advanced Micro-economic Theory
6001 Advanced Macro-economic Theory
6002 Econometrics
6009 Graduate Seminar (2 credit hours)
School of Graduate Studies 2015-2016

Elective Courses
6010 Taxation
6011 Expenditure
6012 Cost-benefit Analysis
6013 Fiscal Federalism
6014 Topics in Public Sector Economics
6020 Economics of Nonrenewable Natural Resources
6021 Economics of Renewable Natural Resources
6022 Environmental Economics
6023 Advanced Fisheries Economics
6024 Topics in Resource Economics
6025 Labour Economics
6040 Industrial Economics

Master's Essay Course
6999 Master's Essay

8.9 English

www.mun.ca/arts
www.mun.ca/english

Associate Professor and Head of the Department
J. Lokash

The degrees of Master of Arts and Doctor of Philosophy are offered in English.

Candidates for the M.A. in English may complete the program as either part-time or full-time students. Candidates for the Ph.D. in English must be in attendance as full-time students for at least three semesters of the program.

8.9.1 Admission
1. Admission to the M.A. in English is limited and competitive. Applicants should have an Honours B.A. in English (or the equivalent, 60 credit hours in English with an appropriate range of courses) and a strong academic record.
2. Strong candidates who have come close to achieving Honours equivalency may be admitted on the condition that they complete such undergraduate courses as the Department may deem necessary, in addition to the required graduate courses.
3. Candidates who have not completed English 4900 or an equivalent course will be required to complete English 5900 which will not count as one of the required courses for the M.A. The course will be graded 'pass' or 'fail'. As in other graduate courses a grade of 65 or above is considered a pass.

8.9.2 Program of Study
1. Thesis Option
   a. Candidates completing the M.A. with thesis will complete a minimum of 15 credit hours in graduate courses, which will normally include English 7003 and a thesis. The thesis may be a creative work.
   b. Candidates must submit a thesis proposal which includes a statement of topic, a working title, a plan of research, and a preliminary bibliography. The proposal should be approved by the Supervisor or Supervisors and submitted to the Departmental Graduate Studies Committee for its approval by the end of the candidate's third semester. The Departmental Graduate Studies Committee shall return the thesis proposal to the candidate no later than one month after receiving it.
   c. Full-time students who choose the thesis option will usually complete their degree in two years.
2. Non-Thesis Option
   a. Candidates completing the M.A. without thesis will complete a minimum of 24 credit hours in graduate courses, which will normally include English 7003.
   b. Full-time students who choose the non-thesis option will usually complete their degree in one year.

8.9.3 Courses
A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the Department will allow.

Notes:
1. Since it is impossible to list in detail the many topics that may from time to time be offered, the titles below refer only to the major periods and general subject areas in which specific courses may be available. The content and approach in specific courses will vary according to the research interests of students and faculty involved in the course. Students should consult the Department's annual Graduate Student Guide (or the Graduate Co-ordinator) for detailed descriptions of specific course offerings. Normally, no fewer than ten graduate courses are offered in any given academic year.
2. English 5900 cannot be counted as one of the required graduate courses in any program.
3. All students will normally take English 7003 - Trends in Contemporary Literary Theory, usually in their first semester.
4. Students who took graduate courses in English at Memorial University of Newfoundland before 1997 should consult with the Department before selecting further courses.

5900 Bibliography and Research Methods
6403 Etymology (same as Linguistics 6403)
6420 English Dialectology I
6421 English Dialectology II
6999 Master's Essay (for non-thesis students)
7003 Trends in Contemporary Critical Theory
7004 English Phonology and Morphology
7005 The Syntactic Structure of English
7020-25 Special Topics in English
7032 Studies in Old English I
7033 Studies in Old English II
7034 Studies in Middle English I
7035 Studies in Middle English II
7036 Studies in Middle English III
8.10 Environmental Policy

www.mun.ca/sgs

The M.A. in Environmental Policy is a rigorous, interdisciplinary study of environmental policy in terms of its theory, application, methodology, and approaches with reference to central contemporary debates. It is also an applied program that equips students with practical skills in the field making links to the labour market through a required internship program.

The M.A. in Environmental Policy is offered by full-time study or part-time study and by completion of either a thesis or research paper. The Thesis Option involves completion of 15 credit hours of course work, an internship, and a thesis, and is normally completed in two academic years of full-time study and in three academic years of part-time study. The Research Paper Option involves completion of 18 credit hours of course work, an internship, and a research paper, and is normally completed in one academic year of full-time study and up to three academic years of part-time study.

The following regulations must be read in conjunction with the General Regulations of the School of Graduate Studies of Memorial University of Newfoundland.

8.10.1 Administration

1. The program shall be administered by a Graduate Officer, who reports to the Dean of Graduate Studies. The Graduate Officer shall be appointed by the Dean of Graduate Studies on the recommendation of the Head of Social Science, Grenfell Campus and the Vice-President, Grenfell Campus. In making this recommendation, the Head of Social Science, Grenfell Campus and the Vice-President, Grenfell Campus may consult with the environmental policy community both within and outside the University.

2. An Executive Committee consisting of the Graduate Officer and the Head of Social Science, Grenfell Campus and the Vice-President, Grenfell Campus will be established to review administrative, resource, and strategic planning issues related to the program. This committee shall be chaired by the Dean of Graduate Studies.

3. The Graduate Officer shall consult with the Graduate Committee in Environmental Policy (GCEP) for the purposes of administering
the academic elements of the program. The GCEP shall normally consist of seven members appointed by the Dean of Graduate Studies on the recommendation of the Graduate Officer. The GCEP will include the Graduate Officer, who shall chair the committee, approximately four faculty members from the Division of Social Science, Grenfell Campus who teach core courses, the Head of Social Science, Grenfell Campus and one student representative, Grenfell Campus.

4. An Advisory Board in Environmental Policy (ABEP) shall be established for the purposes of consulting with and obtaining feedback from the environmental policy community. The ABEP will consist of a broad cross-section of members from the environmental policy community both within and outside the University who shall be appointed by the Dean of Graduate Studies on the recommendation of the Graduate Officer.

8.10.2 Qualifications for Admission
1. Admission is limited and competitive.
2. To be considered for admission, applicants shall have an undergraduate degree, with a minimum B standing, from an institution recognized by Senate.
3. In exceptional cases, applicants who have not completed an undergraduate degree may be considered for admission. Preference will be given to those who have a minimum of 10 years of full-time professional experience, including demonstrated success in environmental policy, and who have successfully completed substantial university course work including several courses at an advanced undergraduate level from an institution recognized by Senate. Applicants without an undergraduate degree must have completed one or more undergraduate courses in public policy, public administration or political science and one or more undergraduate courses in geography, biology or chemistry from an institution recognized by Senate, with a minimum B standing in each course. Applicants may also be required to successfully complete the Graduate Management Admission Test (GMAT) or the Graduate Record Examination (GRE) with an acceptable score and/or additional undergraduate courses before being considered for admission.
4. To be eligible for consideration for admission, applicants shall meet the English Proficiency Requirements described under General Regulation - Qualifications for Admission, English Proficiency Requirements.
5. Applicants will be assessed for admission to the M.A. in Environmental Policy based on their interests, their potential to produce meaningful research in the field of environmental policy, and the availability of supervisors in the area of the applicant's interest.
6. Interdisciplinary study in the program is encouraged by the University. Applicants with an interdisciplinary background or whose background combines two or more fields of study (e.g., political science, public policy, environmental studies, geography, resource management, environmental science, public administration) would be an excellent fit for this program.

8.10.3 Deadlines for Applications
1. Applicants seeking full-time enrollment will normally only be admitted to the program in the Fall (September) semester.
2. Applications must be postmarked no later than February 15 for applicants wishing to enter full-time or part-time studies in the Fall (September) semester.
3. Applications must be postmarked no later than August 15 for applicants wishing to enter part-time studies in the Winter (January) semester.
4. Individuals submitting applications later than the above dates are not assured of consideration for admission to the program in the semester desired; their applications will be processed only if time and resources permit.

8.10.4 Procedure for Admission
1. Applications for admission to the M.A. in Environmental Policy program must be made on the appropriate form and submitted to the School of Graduate Studies.
2. The following documents must be submitted in support of the official application form:
   a. Letter of appraisal from two referees, at least one of whom is capable of appraising the applicant’s academic potential as a graduate student, and at least one of whom is capable of appraising the applicant’s professional experience and/or actual or likely success in a career in environmental policy.
   b. Official transcripts from each university or other post-secondary institution previously attended, to be sent directly by its Registrar (or equivalent officer) to the School of Graduate Studies. If not recorded on the transcript, official evidence of completion of undergraduate degree must also be submitted.
   c. All applicants must submit a one page statement outlining their research interests and are strongly encouraged to identify a supervisor.
   d. Application files are normally evaluated after the deadline dates for application noted above and only when all required documentation has been received.
   e. Admission shall be by the Dean of Graduate Studies on the recommendation of the GCEP. Upon notification from the Dean of the School of Graduate Studies of acceptance into the M.A. in Environmental Policy program, applicants must give written notice to the School of Graduate Studies of their intention to register.

8.10.5 Program of Study
1. Thesis Option: Students in the thesis-based program must complete 15 credit hours in graduate program as specified in Table 1, an internship (ENVP 6030) and a thesis. There are four required courses (representing 12 credit hours) as specified in Table 2. One elective, representing 3 credit hours, related to the student's research specialty is to be completed and may be chosen from Table 3 in consultation with the student’s thesis supervisor.
2. Research Paper Option: Students in the research paper-based program must successfully complete 18 credit hours in graduate program courses as specified in Table 1, an internship (ENVP 6030) and a Research Paper (ENVP 6999). There are four required courses (representing 12 credit hours) as specified in Table 2. Two electives, representing 6 credit hours, are to be completed, of which at least one is to be from Table 2. The second elective, related to the student's research specialty, may be chosen from Table 2 or Table 3 in consultation with the student’s research paper supervisor.
3. Further courses beyond the minimum number may be required, depending on the background and needs of the student.
4. Students are responsible for fulfilling all prerequisites.
5. All students are required to attend two Workshops:
6. Internship Requirements

a. All students are required to complete an environmental policy internship (ENVP 6030) with a relevant government office, non-governmental organization, community group, or business. Internships are normally selected from a list of approved organizations that is maintained by the Internship Officer and Graduate Officer. Internship placements may be outside the Corner Brook area and possibly outside Newfoundland and Labrador. Final decisions for internship placements rest with the Graduate Officer in consultation with the Internship Officer.

b. Internships are usually completed in the Spring semester of each year.

c. Internships are for full-time employment hours for the duration of the semester (12 weeks). Part-time internships over longer periods may be considered and will require approval from the Internship Officer and the Graduate Officer.

d. A competition for internships is organized by the Internship Officer. By entering the competition, students give permission for the Internship Officer to supply their university transcripts to potential employers. Students who do not wish to accept an internship arranged by the Internship Officer shall be responsible for finding an alternative acceptable to the Internship Officer in consultation with the Graduate Officer.

e. Students must attend scheduled pre-internship orientation workshop, professional development, and exit meeting.

f. Each internship placement is supervised and evaluated by the Internship Officer, the on-site Supervisor assigned by the employer and the Graduate Program Coordinator. The internship shall consist of two components:
   i. On-Site Student Performance as evaluated by the Internship Officer in consultation with the on-site Supervisor assigned by the employer.
   ii. An Internship Report graded by the Internship Officer or the Graduate Officer in consultation with the on-site Supervisor assigned by the employer.

g. Evaluation of the Internship shall result in one of the following final grades: Pass, or Fail. A student must obtain a Pass in both the On-Site Student Performance and the Internship Report to obtain a final grade of Pass. If a student fails to achieve the internship standards specified above, the student may be required to withdraw from the program. Such a student may reapply to the program after a lapse of two semesters, at which time the student will be required to complete a further internship with satisfactory performance before being admitted to any further academic term in the Faculty. An internship may only be repeated once.

h. Students who voluntarily withdraw from the internship without prior approval from the Internship Officer and the Graduate Officer, or who conduct themselves in such a manner as to cause their discharge from the internship position will normally be awarded a failed grade for the internship. Permission to drop an internship does not constitute a waiver of degree requirements, and students who have obtained such permission must complete an approved internship in lieu of the one dropped.

i. Students are not permitted to drop internships without prior approval from the Internship Officer in consultation with the Graduate Officer. The Internship Officer will make a recommendation to the Graduate Officer who will make the final decision. Students who drop an internship without permission, who fail to honour an agreement to work with a host organization, or who conduct themselves in such a manner as to cause their discharge from the internship position will normally be awarded a failed grade for the internship. Permission to drop an internship does not constitute a waiver of degree requirements, and students who have obtained such permission must complete an approved internship in lieu of the one dropped.

7. Students in the M.A. in Environmental Policy shall meet the minimum residency of at least two semesters required under General Regulations - Theses and Reports of the School of Graduate Studies. Students are encouraged to meet this residency requirement in the first two semesters of their program.

8. All students will be required to present a seminar on their thesis or research paper in the final semester of their program as part of their thesis or research paper requirements. For applicable students, the thesis will be examined in accordance with the General Regulations - Theses and Reports of the School of Graduate Studies.

8.10.6 Evaluation

1. Candidates for the Master of Arts in Environmental Policy degree must obtain a grade of B or better in all program courses.

2. Candidates who receive a grade of less than B in a program course will be permitted to remain in the program, provided the course is repeated and passed with a grade of B or better. Alternatively, the candidate may, on the recommendation of the GCEP, and with the approval of the Dean of Graduate Studies, substitute another graduate course. Only one course repetition or substitution will be permitted during the candidate’s program after which the candidate shall be required to withdraw from the program.
8.10.7 Courses
The schedule of courses for the Master of Arts in Environmental Policy is as follows:

8.11 Ethnomusicology
www.mun.ca/music
www.mun.ca/arts
www.mun.ca/folklore

Professor and Dean pro tempore
M. Volk

The Master of Arts program in Ethnomusicology is administered by the School of Music in consultation with the Department of Folklore, and generally in response to recommendations from an Interdisciplinary Advisory Committee with representation from both academic units, chaired by the Program Co-ordinator.

The Degree of Master of Arts in Ethnomusicology is offered by part-time and full-time study. While it is normally a course work degree, a thesis option is available upon application. Fieldwork is often a requirement both for independent research and course work. The resources of the Memorial University of Newfoundland Folklore and Language Archive are available to graduate students in Ethnomusicology.

8.11.1 Qualifications for Admission
Applicants may be admitted to the program if they have at least a B+ average with a B.Mus. Degree or other Degree in the Humanities or Social Sciences with evidence of specialization in music. Applicants whose professional music training took place outside the
Applicants from a discipline other than Music will be expected to demonstrate the following skills:

- Competent performance in any musical tradition, as judged by a musician knowledgeable about that tradition.
- Knowledge of culturally appropriate language for discussion of performance techniques in that tradition.
- Ability to discuss musical details on the basis of aural and/or written sources, as appropriate to that tradition.

Candidates for admission may, at the discretion of the Interdisciplinary Advisory Committee, be required to write diagnostic examinations measuring skills and knowledge in music literacy, theory, or aural perception. Candidates with deficiencies in any of these areas may be required to take remedial course work prior or in addition to the required program.

**8.11.2 Program of Study**

The M.A. program will normally be completed within five consecutive semesters of full-time study. The degree is normally taken by completing course work and a major research paper. In special circumstances, a student may apply to complete the degree by completing course work and a thesis. Demonstration of competence in a language other than English may be required if warranted by the research proposed by the student.

1. **Course Work M.A.**
   a. Students must normally complete a minimum of 24 credit hours plus a major research paper (Music 7002). Further courses beyond the minimum number may be required, depending on the background of the student. The required courses are:
      i. Music 7001; Folklore 6030.
      ii. One of Folklore 6100 or Music 6002.
      iii. One area or genre studies course (3 credit hours) relevant to the research of the student.
      iv. Twelve credit hours to be selected from the Music and Folklore courses listed below (with the approval of the Interdisciplinary Advisory Committee); one elective (3 credit hours) may be a relevant course offered in another discipline (with the approval of the Interdisciplinary Advisory Committee).
   b. Research paper (Music 7002) on a topic chosen by the student with his/her supervisor's approval. Proposals for topics and supervisors will be vetted by the Interdisciplinary Advisory Committee no later than the beginning of the third term of study. The paper will normally demonstrate the student's ability to apply methodologies and theoretical constructs, learned in the courses taken, to a specific repertory, or performance context.

2. **Thesis M.A.** (available by special application to the Interdisciplinary Advisory Committee)
   a. Students must normally complete a minimum of 21 credit hours plus a thesis. The required courses are:
      i. Music 7001; Folklore 6030.
      ii. One of Folklore 6100 or Music 6002.
      iii. One area or genre studies course (3 credit hours) relevant to the research of the student.
      iv. Nine credit hours to be selected from the Music and Folklore courses listed below (with the approval of the Interdisciplinary Advisory Committee); one elective (3 credit hours) may be a relevant course offered in another discipline (with the approval of the Interdisciplinary Advisory Committee).
   b. Thesis submitted in accordance with General Regulation Theses and Reports of the School of Graduate Studies. A thesis proposal, consisting of a statement of topic, working title, plan of research, and preliminary bibliography, with the name of the preferred Supervisor, shall be submitted by the candidate to the Interdisciplinary Advisory Committee no later than the beginning of the third term of study.

**8.11.3 Courses**

**Theories and Methods:**
- Music 6001 Research Methods
- Music 6002 Graduate Seminar
- Music 6807 Video Documentary Production *(credit may be received for only one of Music 6807 and Music 7803)*
- Music 7001 Research Problems and Methods in Ethnomusicology
- Music 7002 Research Paper
- Music 7803 Radio Documentary Production *(credit may be received for only one of Music 6807 and Music 7803)*
- Folklore 6010 Survey of Folklore Genres and Processes
- Folklore 6020 Field and Research Methods
- Folklore 6030 Folklore Theories
- Folklore 6040 Feminist Theories: Perspectives and Issues
- Folklore 6080 Vernacular Theories
- Folklore 6090 Ethnology
- Folklore 7100 Advanced Folkloristics II: Research and Ethnography

**Form and Performance:**
- Music 7005 Performance Option
- Folklore 6100 Song and Music
- Folklore 6120 Ballad
- Folklore 6130 Folk Music Canons and Documentory Sound Recordings
- Folklore 6200 Folktale
- Folklore 6210 Legend
- Folklore 6220 Personal Experience Narrative
- Folklore 6250 Language and Play
- Folklore 6260 Ethnography of Communications
- Folklore 6300 Ethnography of Belief
- Folklore 6310 Health Systems
- Folklore 6350 Custom
- Folklore 6360 Traditional Drama
- Folklore 6400 Material Culture
- Folklore 6410 Vernacular Architecture
- Folklore 6420 Art and the Artifact
- Folklore 6430 Food and Culture
School of Graduate Studies 2015-2016

Folklore 6720 Folklore and Literature

Music 7800-09 Special Topics in Music (excluding Music 7802 and 7803)
Folklore 6511-29 Special Topics in Folklore
Folklore 6570-79 Reading Course in Folklore

8.12 Folklore

www.mun.ca/arts
www.mun.ca/folklore

Associate Professor and Head of the Department
C. Thorne

The Degree of Master of Arts in Folklore is offered by part-time and full-time study. The program normally requires extensive fieldwork research in Newfoundland and/or the Maritimes.

Integral to the teaching of the Department of Folklore is work of the Memorial University of Newfoundland Folklore and Language Archive.

8.12.1 Program of Study

1. Applicants may be admitted to the graduate program if they have an average of at least grade ‘B’ in no fewer than 36 credit hours in Folklore or in any other discipline in the Humanities or Social Sciences.

2. The M.A. program will normally be completed within six consecutive semesters (i.e., a two-year period). The Degree of Master of Arts in Folklore may be taken by course work and comprehensive examination, course work and thesis, or course work and co-operative education work terms. All options are available to full-time and part-time students. However, the work term component of option C cannot be completed on a part-time basis.

a. M.A. With Thesis:

i. Students choosing to do the M.A. with thesis must normally complete a minimum of 24 credit hours plus a thesis. Normally, the required courses are:

   • 6010, 6020, and 6030, normally taken as an integrated foundation in the Fall semester.
   • At least one of the following: 6060, 6100, 6120, 6130, 6200, 6210, 6220, 6250, 6260, 6360, 6720.
   • At least one of the following: 6070, 6300, 6310, 6350, 6370, 6400, 6410, 6420, 6430.
   • Nine additional credit hours to be selected from courses in the groups listed above or from the other courses offered by the Department.

ii. A brief thesis pre-proposal, including a statement of topic, working title, plan of research, ethics statement, preliminary bibliography, and the name of a preferred Supervisor, shall be submitted no later than the end of the candidate’s second semester. A full proposal shall normally be submitted to the Department of Folklore and orally presented before members of the faculty by the end of the candidate’s fourth semester. The written thesis proposal should be made available to faculty...
b. M.A. With Comprehensive Examination:
   i. Students choosing to do the M.A. with comprehensive examination must normally complete a minimum of 30 credit hours plus comprehensive examination. Normally, the required courses are:
      - 6010, 6020, and 6030, normally taken as an integrated foundation in the Fall semester.
      - At least one of the following: 6060, 6100, 6120, 6130, 6200, 6210, 6220, 6250, 6260, 6360, 6720.
      - At least one of the following: 6070, 6300, 6310, 6350, 6370, 6400, 6410, 6420, 6430.
      - Fifteen additional credit hours to be selected from courses in the groups listed above or from the other courses offered by the Department.
   ii. Each candidate selecting the M.A. with comprehensive examination option shall normally submit, by the end of the candidate's second semester, written notification of intention to take comprehensive examination.
   iii. Each candidate selecting this option shall normally write the comprehensive examination at the end of the candidate's fifth semester in the program. The comprehensive examination will be graded by a comprehensive examination committee appointed by the Dean of Graduate Studies on the recommendation of the Head of the Department, in accordance with General Regulations governing the School of Graduate Studies.

c. M.A. With Public and Applied Folklore Co-operative Education Work Terms:
   i. Students choosing to do the M.A. with Public and Applied Folklore Co-operative Education option must normally complete a minimum of 24 credit hours plus two co-operative education work terms. Normally the required courses are:
      - 6010, 6020, and 6030, normally taken as integrated foundation in the Fall semester.
      - 6740 or 6800 and at least one additional course selected from the following: 6551, 6740, 6760, 6790, 6800.
      - At least one of the following: 6060, 6100, 6120, 6130, 6200, 6210, 6220, 6250, 6260, 6360, 6720.
      - At least one of the following: 6070, 6300, 6310, 6350, 6370, 6400, 6410, 6420, 6430.
      - Three additional credit hours to be selected from courses in the groups listed above or from the other courses offered by the Department.
      - 601W and 602W.
   ii. The dates for starting and finishing each work term are shown in the University Diary.
   iii. A competition for work term employment is organized by Co-operative Education in cooperation with the Department of Folklore. Students may also obtain their own work term jobs outside the competition. Such jobs must be confirmed by letter from the employer and approved by the Head of Folklore and Co-operative Education on or before the first day of the work term. Work term jobs may be outside St. John's and possibly outside Newfoundland and Labrador. Students who do not wish to accept a work term job arranged by Co-operative Education shall be responsible for finding an alternative acceptable to the Head of Folklore and Co-operative Education. By entering the competition, students give permission for Co-operative Education to supply their Memorial University of Newfoundland transcripts to potential employers.
   iv. Each work term placement will be supervised by the candidate's program Supervisor, the on-site Supervisor assigned by the employer, and Co-operative Education. The overall evaluation of the work term is the responsibility of the program Supervisor, on-site Supervisor, and Co-operative Education. The work term shall consist of two components:
      - On-the-job Student Performance as evaluated by the on-site Supervisor and Co-operative Education, in consultation with the program Supervisor.
      - A Work Report graded by the program Supervisor in consultation with the on-site Supervisor.
   v. Evaluation of the work term will result in the assignment of one of the following final grades:
      - Pass with Distinction: Indicates EXCELLENT PERFORMANCE in both the work report and work performance.
      - Pass: Indicates that PERFORMANCE MEETS EXPECTATIONS in both the work report and work performance.
      - Fail: Indicates FAILING PERFORMANCE in the work report and/or the work performance.
   If a student fails to achieve a final grade of Pass or Pass with Distinction, and provided the student has not failed to achieve a grade of 'B' or better in any program course, the student may request to repeat the work term component. The request will be considered by the Department Head in consultation with the program Supervisor and must include a proposal for a new work term placement. Only one work term repeat will be permitted in the student's program. Alternatively, the student may apply for a change of route to the thesis or comprehensive examination program option.

8.12.2 Courses
A selection of the following graduate courses will be offered to meet the requirements of candidates, normally after consultation with the Head of the Department or the Graduate Studies Administrator, and as far as the resources of the Department will allow. Courses are structured according to the categories of: Theories and Methods, Issues, Form and Performance, Special Topics, Regional, National and International Heritage, Social Identities, Public and Applied Folklore, Interdisciplinary Perspectives, and Required (Ph.D.):

Cooperative Education Work Terms
601W Work Term I
602W Work Term II
Theories and Methods
6010 Survey of Folklore Genres and Processes
6020 Field and Research Methods (may be offered in accelerated format)
6030 Folklore Theories
6040 Feminist Theories: Perspectives and Issues
6080 Vernacular Theories
6090 Ethnology
Issues
6050 Issues in Folkloristics
6060 Issues in Oral Tradition and Performance
6070 Issues in Folklife
Form and Performance
6100 Song and Music
6120 Ballad
6130 Folk Music Canons and Documentary Sound Recordings
6200 Folktale
6210 Legend
6220 Personal Experience Narrative
6250 Language and Play
6260 Ethnography of Communications
6300 Ethnography of Belief
6310 Health Systems
6320 Custom
6350 Special Topics
6511-29 Special Topics in Folklore
6550 Special Research in Folklore
6551 Indigenous Expressive Cultures in Cross-cultural Encounter
6552-69 Special Research in Folklore
6570-79 Reading Course in Folklore

Regional, National and International Heritage
6600 Folklife of Newfoundland
6610 Folklife of Canada
6620 Folklife of the United States
6630 Folklife of the British Isles
6640 Traditional Culture of Scotland
6650 Culture and Traditions of Ireland
6660 Folklife of the Francophone Regions
6690 International Folklife

Social Identities
6510 Occupational Folklife
6730 Folklife and Gender
6770 The Global and the Local
6780 Ethnicities

Public and Applied Folklife
6380 Perspectives on Cultural Tourism
6740 Public Sector Folklife
6760 Archiving
6790 Museums: Perspectives and Practices
6800 Applied Folklife

Interdisciplinary Perspectives
6700 Folklife and Culture
6710 Oral Tradition and Oral History
6750 Popular Culture: Theory and Debate

Required (Ph.D.)
7000 Advanced Folkloristics I
7100 Advanced Folkloristics II Research and Ethnography

Note: Credit may not be obtained for both 6010 and the former 6110; 6020 and the former 6111; 6030 and the former 6112; 6100 and the former 6430; 6120 and the former 6445; 6300 and the former 6230; 6350 and the former 6230; 6400 and the former 6501; 6720 and the former 6460.

8.13 French
www.mun.ca/arts
www.mun.ca/frenchandspanish

Associate Professor and Head of the Department
A. Thareau

8.13.1 Program of Study

1. The Degree of Master of Arts in French Studies may be completed by full-time or part-time study. “French Studies” may take the form of the study of the French language or of francophone literature, including the study of literary history, criticism, or theory. It may also include the study of French-language cinema or of other aspects of francophone civilization

2. Candidates who are practicing teachers of French and wish to pursue French studies in conjunction with studies of the teaching of French may opt to pursue the Master of Arts and Education (Education and Francophone Literatures and Cultures) degree jointly offered by the Faculty of Arts, Department of French and Spanish, and the Faculty of Education.

3. Applicants for the M.A. program in French Studies are normally expected to have completed the Honours Degree with a second-class standing or better. An applicant who does not hold an Honours Degree or its equivalent may be required to complete such additional undergraduate courses as the Department considers necessary, prior to admission or as part of the program.

4. The M.A. program in French Studies will consist of 15 credit hours in graduate courses (normally requiring 2 or 3 semesters of full-time study), plus research activities and a thesis of approximately 80 pages. The 15 credit hours shall include 6008 and 6009, normally completed in consecutive semesters. The remaining 9 credit hours shall be obtained by completion of three courses chosen from those in three of the five groups listed in the Courses section below. The language of the thesis will be French. The
8. Dans la version finale du mémoire et des autres travaux préparés pour les cours de maîtrise, la qualité du français écrit doit être d'un niveau acceptable au département, qui est représenté par le Comité des Études de deuxième cycle. Ainsi, la version finale de ces travaux doit être soignée et bien structurée.

7. Avant d'être soumis à l'École des Études supérieures, le mémoire doit être proposé au Comité des Études de deuxième cycle, qui sera en charge de son approbation. Normalement, cette approbation se fera entre la soumission à son directeur et la soumission définitive au Comité des Études de deuxième cycle.

6. Une communication tirée du mémoire sera présentée dans le cadre des séminaires départementaux ou dans une autre réunion approuvée par le Comité des Études de deuxième cycle. Normalement, cette présentation se fera entre la soumission à son directeur et la soumission définitive au Comité des Études de deuxième cycle.

5. Le programme d'études du candidat doit être approuvé par le Comité des Études de deuxième cycle. En plus, il faudra compléter 3 cours choisis parmi ceux qui font partie de 3 des 5 groupes identifiés dans la section COURS. Le projet de mémoire, qui est approuvé par son directeur, doit être officiellement présenté par le candidat au Comité des Études de deuxième cycle, avant la fin du troisième trimestre, pour son approbation.

4. L'option en Études littéraires comprend quinze crédits de cours, ce qui exigera normalement 2 ou 3 trimestres d'études à temps plein et un mémoire d'environ 80 pages rédigé en français. Tous les candidats compléteront et le Fr.6008 et le Fr.6009. Normalement, deux cours devront être complétés en deux trimestres consécutifs. En plus, il faudra compléter 3 cours choisis parmi ceux qui font partie de 3 des 5 groupes identifiés dans la section COURS. Le projet de mémoire, qui est approuvé par son directeur, doit être officiellement présenté par le candidat au Comité des Études de deuxième cycle, avant la fin du troisième trimestre, pour son approbation.

3. Pour être admis au programme de Maîtrise ès Arts et Éducation (Enseignement des littératures et cultures francophones) offerte par la Faculté des Arts, le Département d'études françaises et hispaniques et la Faculté d'Éducation, un candidat doit être officiellement présenté par son directeur à la Faculté des Arts, le Département d'études françaises et hispaniques et la Faculté d'Éducation.

2. Les enseignants et enseignantes de français qui veulent poursuivre leurs études en français et en didactique du français peuvent choisir le programme de Maîtrise ès Arts et Éducation (Enseignement des littératures et cultures francophones) offerte par la Faculté des Arts, le Département d'études françaises et hispaniques et la Faculté d'Éducation.

1. Le diplôme de Maîtrise ès Arts en Études françaises sanctionne des études à temps plein ou à temps partiel. Les études françaises comprennent l'étude de la langue et de la littérature et l'étude de l'histoire, de la critique ou de théorie littéraire, ainsi que l'étude du cinéma ou d'autres aspects des civilisations francophones.

8.13.2 Courses
A selection of the following graduate courses will be offered to meet candidates' requirements, as far as the resources of the Department will allow. Individual courses, excluding French 6900, may be offered in accelerated format outside of the regular semester of session timeframe when being delivered as part of the Summer Institute for French Teachers (SIFT):

6008* Literary Methodology and Theory I
6009* Literary Methodology and Theory II

Historiographical, Genetic, Thematic, Hermeneutical or other historical or critical approaches to French Studies
6032 Genetic Criticism and Exegesis
6102 History of the French Language

Psychoanalytical, Ethnological or Anthropological approaches to French Studies
6020 Literature and Psychoanalysis
6021 Mythocriticism
6130-39 Personal/Intimate Literature

Sociological or Socio-historical approaches to French Studies
6022 History, Society, Ideology and Texts
6101 The Female Voice: Women's Writing and its Contribution to the Development of French and Francophone Texts
6110-19 Paraliterature and Traditional Culture

Linguistic, Semiotic, Poetic, Rhetorical or Pragmatic approaches to French Studies
6011 General Theory of the French Language
6030 Grammar of the Text
6031 Narratology
6140-49 Genres and Discursive Forms

Other approaches to French Studies
6120-29 Texts/Images/Sounds
6150-59 Special Topics

French and Spanish Courses for Students in Other Disciplines
French 6900 Reading in French
Spanish 6900 Reading in Spanish

Note: *Credit may not be obtained for both French 6008 and the former French 6006; or for both French 6009 and the former French 6006.

Français

www.mun.ca/frenchandspanish

Professeur Agrégée et Directrice du Département
A. Thareau

1. Le diplôme de Maîtrise ès Arts en Études françaises sanctionne des études à temps plein ou à temps partiel. Les études françaises comprennent l'étude de la langue et de la littérature et l'étude de l'histoire, de la critique ou de théorie littéraire, ainsi que l'étude du cinéma ou d'autres aspects des civilisations francophones.

2. Les enseignants et enseignantes de français qui veulent poursuivre leurs études en français et en didactique du français peuvent choisir le programme de Maîtrise ès Arts et Éducation (Enseignement des littératures et cultures francophones) offerte par la Faculté des Arts, le Département d'études françaises et hispaniques et la Faculté d'Éducation.

3. Pour être admis au programme de Maîtrise ès Arts et Éducation (Enseignement des littératures et cultures francophones) offerte par la Faculté des Arts, le Département d'études françaises et hispaniques et la Faculté d'Éducation, un candidat doit être officiellement présenté par son directeur à la Faculté des Arts, le Département d'études françaises et hispaniques et la Faculté d'Éducation.

4. L'option en Études littéraires comprend quinze crédits de cours, ce qui exigera normalement 2 ou 3 trimestres d'études à temps plein et un mémoire d'environ 80 pages rédigé en français. Tous les candidats compléteront et le Fr.6008 et le Fr.6009. Normalement, deux cours devront être complétés en deux trimestres consécutifs. En plus, il faudra compléter 3 cours choisis parmi ceux qui font partie de 3 des 5 groupes identifiés dans la section COURS. Le projet de mémoire, qui est approuvé par son directeur, doit être officiellement présenté par le candidat au Comité des Études de deuxième cycle, avant la fin du troisième trimestre, pour son approbation.

5. Le programme d'études du candidat doit être approuvé par le Comité des Études de deuxième cycle.

6. Une communication tirée du mémoire sera présentée dans le cadre des séminaires départementaux ou dans une autre réunion approuvée par le Comité des Études de deuxième cycle. Normalement, cette présentation se fera entre la soumission à son directeur et sa soumission définitive à l'Ecole des Études supérieures.

7. Avant d'être soumis à l'Ecole des Études supérieures, le mémoire doit être proposé au Comité des Études de deuxième cycle, qui doit en autoriser le dépôt.

8. Dans la version finale du mémoire et des autres travaux préparés pour les cours de maîtrise, la qualité du français écrit doit être d'un niveau acceptable au département, qui est représenté par le Comité des Études de deuxième cycle. Ainsi, la version finale de ces
travaux ne contiendra-t-elle pas, normalement, d'erreurs orthographiques, lexicales, grammaticales, stylistiques et protocolaires. Pour ce qui est du mémoire, cette exigence s'applique à la version remise aux examinateurs.

Cours

Un choix des cours de deuxième cycle suivants sera offert afin de répondre aux besoins des étudiants inscrits au programme de maîtrise selon les ressources disponibles au département. Certains cours, excepté le Français 6900, peuvent être enseignés sous format accéléré en dehors du calendrier habituel d'un semestre ou d'une session quand ils sont offerts dans le cadre de l'Institut d'Été pour les Enseignants de Français (SIFT, Summer Institute for French Teachers):

- 6008* Méthodologie et théorie de la littérature I
- 6009* Méthodologie et théorie de la littérature II

**Approche historioigraphique, génétique, thématique, herméneutique ou autrement historique ou critique:**

- 6032 Génétique et critique
- 6102 Histoire de la langue française

**Approche psychanalytique, ethnologique ou anthropologique:**

- 6020 Psychanalyse et littérature
- 6021 Mythocritique
- 6130-39 Littérature personnelle/intime

**Approche sociologique ou socio-historique:**

- 6022 Histoire, société, idéologie et textes
- 6101 La voix féminine et le féminisme
- 6110-19 Parallélité et cultures traditionnelles

**Approche linguistique, sémiotique, poétique, rhétorique ou pragmatique:**

- 6011 Théorie générale de la langue française
- 6030 Grammaire du texte
- 6031 Narratologie
- 6140-49 Discours et genres

**Autres approches aux Études françaises:**

- 6120-29 Textes/Images/Sons
- 6150-59 Sujets spéciaux

**Cours de français et d’espagnol pour étudiants d’autres disciplines**

- Français 6900 Lecture en français
- Espagnol 6900 Lecture en espagnol

*Nota / Note: Les étudiants ne peuvent obtenir de crédit pour le Français 6008 et le Français 6006 (désormais supprimé) ni pour le Français 6009 et le Français 6006.

8.14 Geography

www.mun.ca/arts
www.mun.ca/geog

Professor and Head of the Department
N. Catto

8.14.1 Program of Study

1. The degrees of Master of Arts and Master of Science are offered in Geography by full-time or part-time study.
2. Admission requirements are set forth in the General Regulations of the School of Graduate Studies and Degree Regulations for Master of Arts and Master of Science.
3. The deadline for submission of applications for admission is January 15. Candidates will normally commence their programs in the Fall semester.
4. An applicant will be admitted to a graduate program only if a faculty member agrees to act as Supervisor. A supervisory committee will be established after admission, normally consisting of the Supervisor and two other individuals, one of whom will normally be a member of the Department.
5. Major research areas for graduate study at the master’s level are cultural, political, historical, economic, urban, resource management, community and regional development, geomorphology, Quaternary environments, climatology, and geographic information sciences.
6. Candidates will register for the M.A. program if their fields of interest lie in an area of Human Geography or for the M.Sc. if their fields of interest are in Physical Geography or Geographic Information Sciences.
7. It is expected that the program of study and research for the M.A. or M.Sc. will normally be completed in a maximum of two years of full-time work, or three years of part-time work.
8. Candidates must successfully complete a minimum of 12 credit hours of graduate program courses with a minimum grade of B in each. Geography 6000 and 6001 will be required courses for all candidates who have not already completed equivalent courses at the Honours or post-graduate level.
9. Candidates whose undergraduate degree is not in geography will normally be required to complete some additional undergraduate program courses during their first year of study, in addition to the required graduate program courses. Normally four such undergraduate courses will be required, and a minimum grade of 70% must be obtained in each.
10. Each candidate will be required to present a seminar on his or her research to the Department.
11. Each candidate must submit a thesis based on his or her own original research. This thesis will be examined in accordance with the General Regulations of the School of Graduate Studies.

8.14.2 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates as far as the resources of the Department will allow.

- 6000 Development of Geographical Thought and Practice I
- 6001 Development of Geographical Thought and Practice II
8.15 German

www.mun.ca/arts
www.mun.ca/german

Associate Professor and Head of the Department
J. Buffinga

8.15.1 Program of Study

The degree of Master of Arts (M.A.) is offered in German Language and Literature and may be taken by full-time or part-time study.

1. Candidates for the M.A. degree in German are normally expected to have completed an Honours degree with a minimum of second-class standing. In addition to the general requirements, candidates will be expected to have acquired a superior knowledge of the spoken and written language as determined by the Department prior to admission.

2. Students will be required to demonstrate superior German language skills as determined by the Department prior to admission to the program.

3. As part of the admissions process, prospective students must submit a non-binding outline of the area in which they would like to write their thesis.

4. Students may choose from two modes of completing the M.A. program, in accordance with the Graduate Studies Regulations Governing the Degree of Master of Arts:

   a. Candidates complete at least 18 credit hours of course work and submit a thesis. The entire program of study and research will normally take one year of full-time study. The M.A. thesis will be based on research conducted by the student.
      i. The thesis will be examined in accordance with General Regulation, Thesis and Reports.
      ii. Normally, one of the assigned examiners of the thesis will be external to the Department.

   b. Candidates complete at least 18 credit hours of course work and write a comprehensive examination. The entire program of study and research will normally take one year of full-time study.
      i. The comprehensive examination shall be examined in accordance with the General Regulations, Comprehensive Examinations.
      ii. Material to be covered on the M.A. comprehensive exam is normally determined by consultation between the student and the Head of the Department (or designate). The exam is written in two sittings: one exam will cover the student's chosen area and the other will cover the student's reading list and literary terminology. A final component of the comprehensive exam is an oral examination on the eras or issues covered in the written portion of the exam.

5. All students, regardless of the mode of completing the requirements for the M.A., will be required to complete German 6103.

8.15.2 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the Department will allow.

- 6000 Issues in Modern Technology, Literature and Culture
- 6001 Issues in Literature on the Edges of Society
- 6100 Issues in the History of the German Language
- 6103 Bibliography and Research Methods
- 6200 Issues in Early German Literature and Culture I
- 6201 Issues in Early German Literature and Culture II
- 6300 Issues in Early Modern German Literature and Culture I
- 6301 Issues in Early Modern German Literature and Culture II
- 6800 Issues in Modern German Literature and Culture I
- 6801 Issues in Modern German Literature and Culture II
- 6900 Issues in Contemporary German Literature and Culture I
- 6901 Issues in Contemporary German Literature and Culture II
- 6903 Issues in Propaganda and Censorship
- 7000 Special Subject or Author I
- 7001 Special Subject or Author II
8.16 History

www.mun.ca/arts
www.mun.ca/history

Assistant Professor and Head of the Department
T. Bishop-Stirling

The degrees of Doctor of Philosophy and Master of Arts are offered in History by full-time or part-time study.

8.16.1 Program of Study
1. The Department of History offers M.A. programs in a broad range of geographical and thematic areas. Students in the M.A. program will choose a thesis or non-thesis option.
2. M.A. candidates who choose the non-thesis option shall complete a minimum of 24 credit hours, 18 of which shall normally be 6190, 6200, and 6999.
3. M.A. candidates who choose the thesis option shall complete 9 credit hours, 6 of which shall normally be 6190 and 6200, plus a thesis.
4. Students will be required to successfully complete HIST 6190 prior to taking HIST 6200.
5. Students will be required to successfully complete HIST 6200 before writing the Major Research Paper or thesis.
6. Where a student’s major research project requires him or her to read a language other than English, he or she must demonstrate a reading knowledge of this language through an exam or other method subject to the approval of the Graduate Committee.

8.16.2 Courses
A selection of the following graduate courses will be offered to meet the requirements of candidates as far as the resources of the Department will allow.
- 6000 Advanced Studies in Newfoundland History
- 6010 Advanced Studies in Canadian History
- 6020 Advanced Studies in the History of the United States
- 6030 Advanced Studies in French History
- 6040 Advanced Studies in British History
- 6050 Advanced Studies in German History
- 6060 Advanced Studies in North Atlantic History
- 6070 Advanced Studies in Social History
- 6075 Advanced Studies in Labour and Working-Class History
- 6080 Advanced Studies in Intellectual History
- 6090 Advanced Studies in Women’s History
- 6095 Advanced Studies in Ethnohistory
- 6100 Advanced Studies in Military History
- 6105 Advanced Studies in Diplomatic History
- 6110 Advanced Studies in Maritime History
- 6120 Advanced Studies in Economic and Business History
- 6125 Medical Science and Social Responsibility in Health Care: Aspects of Medical History (cross-listed as Medicine 6420)
- 6130 Quantification and Measurement in History
- 6140-59 Research in Special Topics
- 6160-79 Reading Courses (Special Topics)
- 6190 Theory and Method
- 6200 Masters Seminar I
- 6999 Masters Research Paper (12 credit hours)

8.17 Linguistics

www.mun.ca/arts
www.mun.ca/linguistics

Associate Professor and Head of the Department
P. Branigan

The degrees of Master of Arts and Doctor of Philosophy are offered in Linguistics.

8.17.1 Program of Study
1. The Linguistics Department offers the M.A. program with both a thesis and a non-thesis option. The M.A. with thesis option is intended for those who have completed an undergraduate major in Linguistics with satisfactory standing (a B+ average in Linguistics courses). Students interested in the thesis option who have an excellent undergraduate record and a well-defined research plan, yet who do not possess the equivalent of an undergraduate major, will be required to take additional undergraduate and/or graduate courses in Linguistics. Other students are encouraged to apply for the M.A. without thesis option.
2. The M.A. with thesis option is normally a two-year program consisting of at least 15 credit hours of graduate courses (including Linguistics 7000 and 7001), plus a thesis.
3. The M.A. without thesis option is normally a two-year program consisting of at least 21 credit hours of graduate courses (including Linguistics 7000 and 7001), plus a research project (Linguistics 6999), which consists of a major research paper in an approved area followed by an oral examination.
4. The M.A. in Linguistics requires proficiency in a language other than the candidate's first language, as demonstrated by a minimum B grade in a second-year undergraduate language course, or performance satisfactory to the Department in an arranged reading proficiency test. A working or structural knowledge of other languages may also be required for particular programs (e.g., Latin, Greek or Sanskrit for historical Indo-European linguistics, or courses in the series Linguistics 6050-59 or the former 6010-6041).
5. All M.A. students are advised to consult the Linguistics department’s Graduate Handbook for details on program requirements and for general information relating to the graduate program.
8.17.2 Courses

A selection of the following graduate courses will be offered to meet the requirements of students, as far as the resources of the Department will allow. Full information is to be found in the Department's Graduate Handbook.

6050-54 Structure of a North American Aboriginal Language (credit restriction: Except where an exemption is supplied by the Head of the Department, a student may not obtain credit for more than one course in the 6050-54 series. Students may not obtain credit for any of the previously offered 6010, 6011, 6020, 6021, 6030, 6031, 6040, 6041 in addition to a course in the 6050-54 series.)

6055-59 Structure of an Uncommonly-Taught Language (credit restriction: Except where an exemption is supplied by the Head of the Department, a student may not obtain credit for more than one course in the 6055-59 series.)

6010 Issues in Morphosyntax (credit may not be obtained for both Linguistics 6100 and the former 6001)

6101 Selected Topics in Transformational Grammar

6115 Topics in the Syntax of a Selected Language (prerequisite: 6001 or 6110)

6150 Principles of Language Acquisition

6151 Selected Topics in Language Acquisition (prerequisite: Permission of the instructor)

6200 Phonological Theory

6201 Selected Topics in Phonology (prerequisite: 6200)

6210 Sociolinguistics (credit restriction: a student may not obtain credit for both 6210 or the former 6211)

6212 Selected Topics in Language and Gender

6220 Areal and Temporal Variations in Language

6300-9 Special Subjects

6350 General Romance Linguistics

6390 Franco-Canadian

6400 Comparative and Historical Linguistics

6401 Morphosyntactic Change (prerequisite: 6400)

6403 Etymology (cross-listed as English 6403)

6410 Comparative Structure of a Selected Language Family (prerequisite: 6403 or the former 6011, 6031)

6420 English Dialectology I

6421 English Dialectology II

6430 Selected Topics in Linguistic Variation (prerequisite: 6220 or the former 6211)

6500 Field Methods

6601 Modern Linguistic Theories

6700 Experimental Phonetics

6701 Selected Topics in Experimental Phonetics (prerequisites: 6200, 6700)

6800 Selected Topics in Morphology

6880 Selected Topics in Semantics

6999 M.A. Research Project

7000 Seminar in Research Methods

7001 Analytical Issues in Linguistics

7100 Topics in North American Native Languages (prerequisites: a course from series 6050-6054 or the former 6011, 6031, 6041)

7200 Advanced Topics in Syntax (prerequisites: 6110, plus either 6001 or 6115)

7400 Seminar in Comparative and Historical Linguistics (prerequisite: 6400 or 6410)

7430 Seminar in Linguistic Variation (prerequisite: 6430)

7800 Seminar in Morpho-semantics (prerequisite: 6800)

7900-03 Special Topics in Linguistics

Note: Appropriate equivalent credits may be given for courses taken at the Summer Institute of the Linguistic Society of America, or a similar institute. Students are encouraged to attend these institutes. They should, however, consult the Head of the Department as to what courses may be appropriate for credit.

8.18 Philosophy

www.mun.ca/arts

www.mun.ca/philosophy

Associate Professor and Head of the Department

A. Sullivan

8.18.1 Program of Study

The Degree of Master of Arts is offered in Philosophy by full-time or part-time study. The program is designed so that it may be completed in one academic year (three semesters) of full-time study.

The candidate must complete 18 credit hours - 3 credit hours from 6000, 12 credit hours from 6011-6016, any 3 credit hours from 6101-6102 - and a thesis.

Normally, a full-time candidate will complete all the 18 credit hours and submit a thesis proposal by the end of the second semester of study. A minimum of one additional semester will be spent in completing the balance of the program.

8.18.2 Courses

6000 Graduate Seminar

Author Seminars

6011 Ancient and Medieval Philosophy

6012 Modern Philosophy

6013 Contemporary Philosophy

Area Seminars

6014 Metaphysics

6015 Theory of Knowledge

6016 Ethical and Political Theory

Tutorials

6040-6099 Special Topics

6101 Selected Texts

6102 Current Issues
8.19 Political Science

www.mun.ca/arts
www.mun.ca/posc

Professor and Head of the Department
L. Ashworth

8.19.1 Program of Study
The Degree of Master of Arts is offered in Political Science by full-time and part-time study.
The degree of Master of Arts (M.A.) in Political Science may be taken by course work and thesis, course work and internship, or course
work and research paper. The thesis, internship, and research paper options are available to full-time students. The M.A. with thesis is a
two-year program. The internship and research paper options are one year programs for full-time students. The thesis and research
paper options are open to part-time students.

1. M.A. with Thesis:
   a. Students choosing the M.A. with thesis must complete a minimum of 12 credit hours in political science graduate program
courses of which 3 credit hours must be attained from either POSC 6000 or 6010. Further courses beyond the minimum number
   may be required, depending on the background and needs of the student.
   b. Each student choosing the thesis option will submit a thesis on a subject that has been approved by the supervisory committee
   of the Department.
   c. Students applying for the thesis option must submit a brief (one page maximum) statement of their research interest with their
   application.

2. M.A. with Internship:
   a. Students choosing the M.A. with internship must complete a minimum of 24 credit hours in political science graduate program
courses of which 12 credit hours must be attained from POSC 6030, 6031, and 6790 and 3 credit hours must be attained from
   either POSC 6000 or 6010. Further courses beyond the minimum number may be required, depending on the background and
   needs of the student.
   b. Each student choosing this option will complete, normally in the Spring semester, a one-semester, full-time internship, 6030, with
   a political organization, government agency, or voluntary agency. Students registering for 6030 must also register for its co-
   requisite, 6031. The placement must normally be selected from a list of approved organizations that is maintained by the
   Department.

3. M.A. with Research Paper:
   a. Students choosing the M.A. with research paper must complete a minimum of 24 credit hours in political science graduate program
courses of which 9 credit hours must be attained from either POSC 6999 and 3 credit hours must be attained from
   POSC 6000 or 6010.
   b. The selection of a topic for the research paper must be approved by a faculty supervisor who will be chosen in consultation with
   the Department Head. The paper will be graded by the supervisor and one other member of the faculty, either from within the
   Department or the Department of a cognate discipline.

8.19.2 Courses
A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the
Department will allow.

6000 Political Science Concepts
6010 Political Science Methods
6020 Research Design
6030 Internship
6031 Applied Political Research (6 credit hours)
6100 Political Philosophy
6200 International Politics
6300 Comparative Politics
6301 European Politics and Public Policy
6350 Political Economy
6400 Political Development
6430 Latin American Politics
6500 Political Behaviour
6600 Newfoundland Politics
6700 Canadian Politics
6710 Intergovernmental Relations
6720 Local Politics
6740 Public Administration
6770 Canadian Provincial Politics
6780 Politics of the Atlantic Provinces
6790 Public Policy Process
6900-10 Special Topics
6999 Master's Essay (9 credit hours)
8.20 Religious Studies
www.mun.ca/arts
www.mun.ca/relstudies
Professor and Head of the Department
K.I. Parker

8.20.1 General Information
The degree of Master of Arts (M.A.) is offered in Religious Studies and may be taken by full-time or part-time study.
Candidates for the M.A. in Religious Studies may choose between the M.A. with Thesis option and the M.A. with a Project option.
Candidates must specify which M.A. stream they wish to pursue upon entry into the program.
1. Admission requirements are set forth in the Regulations Governing the Degree of Master of Arts. An applicant should have completed a minimum of 45 credit hours in Religious Studies courses at the undergraduate level with at least the grade of B in each. An applicant should have completed a minimum of 45 credit hours in Religious Studies courses at the undergraduate level with at least the grade of B in each. An applicant's overall undergraduate program must represent, to the satisfaction of the Department, a solid groundwork for graduate studies.
2. A candidate who does not hold an Honours Degree or its equivalent shall be required to complete such additional undergraduate courses as the Department may deem necessary. These courses may be required as prerequisites to admission to the program, or as an additional constituent part of the program, at the discretion of the Department.
3. Upon acceptance into the program, each candidate will be assigned a Supervisor, whose duty it shall be to assist the candidate.
4. Students will be required to satisfy the Department as to proficiency in any language or technical facility deemed necessary by the Graduate Studies Committee of the Department for successful completion of the thesis or project.

8.20.2 Program of Study
1. Thesis Option
   a. Normally, the Master of Arts program with thesis option should take two years to complete, the first of which is to be spent primarily on course work and preparation of a thesis proposal. A student accepted on a part-time basis would normally be expected to take three to five years to complete the program.
   b. Students in the M.A. program with thesis option shall normally complete a thesis and a minimum of 12 credit hours in course work.
   c. Students may write a thesis in one of the following areas: Hinduism, classical Confucianism, philosophical Daoism, Chinese and North American Buddhism, Buddhism and psychology, Judaism, Christianity, Hebrew Bible, New Testament, religious history of Canada, religious history of Newfoundland and Labrador, medieval religious thought, religion and culture (including pop culture), New Age religious movements, ethics and social justice, philosophy of religion.
   d. Before a student begins writing his or her thesis, he/she should submit a research proposal to the Graduate Studies Committee of the Department for approval.
   e. Students in the M.A. with thesis option must complete four required courses. Typically the four required courses are: RS 6100 Methods and Theories in Religious Studies; RS 6110 Thesis Writing; RS 6120 Studies in Religious Texts; and RS 6130 Religious Contexts.
2. Course-based M.A. with a Project Option
   a. Normally, the Master of Arts program with a project option should take one year (three semesters) to complete, the first two semesters spent on course work and the third semester on completing the project.
   b. Before a student begins writing his or her project, he/she should submit a research proposal to the Graduate Studies Committee of the Department for approval.
   c. Students in the M.A. with a project option must complete five required courses and at least one other from the course list. This may be from a cognate discipline (upon approval). Typically, the five required courses are: RS 6100 Methods and Theories in Religious Studies; RS 6110 Thesis Writing; RS 6120 Studies in Religious Texts; RS 6130 Religious Contexts; and RS 699A/B Advanced Research in Religious Studies.

8.20.3 Courses
6100 Methods and Theories in Religious Studies (credit may not be obtained for both Religious Studies 6100 and the former Religious Studies 6000)
6110 Thesis Writing
6120 Studies in Religious Texts
6130 Religious Contexts
6220 Selected Topics in New Testament
6230 Selected Topics in Hebrew Bible/Old Testament
6330 Selected Topics in Judaism
6340 Selected Topics in East Asian Religious Traditions
6350 Selected Topics in South Asian Religious Traditions
6720 Selected Topics in the History of Christianity
6730 Selected Topics in the Religious History of Canada
6740 Selected Topics in the Religious History of Newfoundland and Labrador
6750 Selected Topics in Medieval Religious Thought
6820 Selected Topics in Christian Ethics
6830 Selected Topics in Religion and Culture
6840 Selected Topics in the Philosophy of Religion
6850 Selected Topics in New Age Religious Movements
6900-6910 Special Topics in the Study of Religion
699A/B Advanced Research in Religious Studies (9 credit hours)
8.21 Sociology

www.mun.ca/arts
www.mun.ca/soc

Associate Professor and Head of the Department
A. Craig

The Degrees of Master of Arts and Doctor of Philosophy can be earned through full-time or part-time study. Area of department specialization include: Social Theory; Sociology of Culture; Criminology; Environmental Sociology; Social Inequality; Sociology of Gender; Sexuality; Health, including Occupational Health; Development; Work; Political Sociology; and Maritime Sociology. Graduate courses are taught as tutorials or small seminars.

8.21.1 Program of Study

1. Minimum admission requirements are a B average in undergraduate studies with a good undergraduate background in Sociology.

2. The M.A. Degree with thesis requires the completion of 15 credit hours in graduate courses, normally including the Sociology Graduate Seminar (6880), Advanced Quantitative Methods (6040), Advanced Qualitative Methods (6041), Social Theory (6150), one elective, and a thesis. In the case of full-time students, the M.A. with thesis is normally completed in two years. The first year is devoted to the completion of the required courses and the definition of the thesis research topic. The second year is devoted to the completion of the thesis and presentation of the thesis at a Department seminar.

3. The M.A. Degree by Master's Research Paper requires the completion of 24 credit hours, normally including the Graduate Seminar (6880), Advanced Quantitative Methods (6040), Advanced Qualitative Methods (6041), Social Theory (6150), two electives, and the Master's Research Paper (6900). The coursework should be taken during the first two semesters of full-time study. The Master's Research Paper (Sociology 6900) should be written in the third semester of full-time study. The Master's Research Paper will be supervised by a faculty member and must be presented at a Departmental seminar. The Supervisor and one other member of the Department will grade the Master's Research Paper.

8.21.2 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the Department will allow.

6040 Advanced Quantitative Methods
6041 Advanced Qualitative Methods
6042-49 Special Topics in Advanced Sociology
6090-94 Special Area in Sociology
6120 Social Organization
6130 Social Stratification
6140 The Community
6150 Social Theory
6160 Theory Construction and Explanation in Sociology
6240 Sociology in Medicine
6280 Social and Economic Development
6300 Maritime Sociology
6310 Political Sociology
6320 Gender and Society
6330 Science and Technology
6340 Comparative North Atlantic Societies
6350 Environmental Sociology
6360 Sociology of Work
6370 Feminist Theory and Methods
6380 Women, Nature, Science and Technology
6390 Sociology of Culture
6610 Socialization
6620 Current Topics in Social Behaviour
6880 Sociology Graduate Seminar
6900 Master's Research Paper (6 credit hours)
9 Regulations Governing the Degree of Master of Arts and Education (Education and Francophone Literatures and Cultures)

www.mun.ca/arts
www.mun.ca/educ

Professor and Dean of Arts
L. Phillips

Professor and Dean of Education
K. Anderson

The degree of Master of Arts and Education (Education and Francophone Literatures and Cultures) is jointly offered by the Faculty of Arts and the Faculty of Education, and is offered by full-time or part-time study.

These regulations should be read in conjunction with the General Regulations of the School of Graduate Studies of Memorial University of Newfoundland.

The Administrative Committee is responsible for the program. The Committee shall be comprised of the Associate Dean, Graduate Programs in the Faculty of Education (or delegate), the Head of the Department of French and Spanish (or delegate) and one appointed faculty member. The faculty member shall come from either the Faculty of Education or the Department of French and Spanish in alternating years. The Administrative Committee is responsible for admissions and advising students on course selection when appropriate.

9.1 Qualifications for Admission

To be considered for admission to the Master of Arts and Education (Education and Francophone Literatures and Cultures), an applicant shall normally hold a Bachelor of Education degree, with a concentration in French, from an institution recognized by Senate. Applicants should have a minimum 'B' standing or an average of 70% in the last 30 courses attempted and two years of experience teaching French. An appropriate level of proficiency in French is required, and the applicant’s level of competence will be evaluated by the Administrative Committee.

9.2 Program of Study

1. Candidates for the Master of Arts and Education (Education and Francophone Literatures and Cultures) may choose one of two program options:
   - Option I. Project Route
   - Option II. Comprehensive Course Route

2. All candidates shall be required to complete:
   - French 6800 Littératures francophones: Théorie et pratique / Francophone literatures: Theory and practice
   - French 6810 Cultures francophones: Théorie et pratique / Francophone Cultures: Theory and practice
   - Education 6100 Research Designs and Methods in Education
   - Six credit hours from Memorial University of Newfoundland, Department of French and Spanish graduate course offerings as deemed appropriate by the Administrative Committee.
   - Nine credit hours selected from:
     - Education 6668 Current Issues in Second Language Education
     - Education 6669 Graduate Seminar in Second Language Teaching and Learning
     - Education 6673 Second Language Teaching, Learning and Curriculum
     - Education 6674 Research in Second Language
     - Three credit hours from other Memorial University of Newfoundland, Faculty of Education graduate course offerings as deemed appropriate for each candidate’s program by the Administrative Committee.

3. Students choosing Option I must also complete:
   - Education 6392 Project in Curriculum, Teaching and Learning Studies

4. Students choosing Option II must also complete:
   - Three credit hours from Memorial University of Newfoundland, Department of French and Spanish graduate course offerings as deemed appropriate for each candidate’s program by the Administrative Committee.
   - Education 6390 Research and Development Seminar in Curriculum, Teaching and Learning Studies

9.3 Evaluation

1. In order to continue as a candidate for the degree of Master of Arts and Education (Education and Francophone Literatures and Cultures), a candidate shall obtain an A or B grade in each required course. A candidate who receives a grade of C in any required course must repeat that course and obtain a minimum grade of B. In the case of an elective course, a suitable replacement course acceptable to the Administrative Committee may be substituted for the failed course. Only one such repetition/replacement shall be permitted on the candidate’s graduate program. Should a grade of less than B be obtained in the repeated/replacement course, or any other program course, the candidate shall be required to withdraw from the program.

2. When the Administrative Committee has determined, through consultation with the candidate, graduate course instructors, and the project supervisor, if applicable, that the candidate’s work has fallen below satisfactory level, they may request the Dean of the Faculty of Education and the Head of the Department of French and Spanish recommend to the Dean of Graduate Studies that the candidate’s program be terminated.

9.4 Courses

Course descriptions for graduate course in Education are available at www.mun.ca/educ/grad/fee_deadline.php.

French 6800 Littératures francophones: Théorie et pratique / Francophone literatures: Theory and practice
French 6810 Cultures francophones: Théorie et pratique / Francophone Cultures: Theory and practice
Education 6100 Research Designs and Methods in Education
Règlements de la Maîtrise ès Arts et Éducation (Enseignement des littératures et cultures francophones)

www.mun.ca/arts
www.mun.ca/educ/home

Professeure et Doyenne des Arts
L. Phillips

Professeur et Doyen d'Éducation
K. Anderson

La Maîtrise ès Arts et Éducation (Enseignement des littératures et cultures francophones) est offerte conjointement par la Faculté des Arts et la Faculté d'Éducation et cautionne des études à temps partiel ou à temps plein.

Il est recommandé de lire ces règlements en conjonction avec les Règlements généraux de l'École des Études supérieures.

Le Comité administratif est responsable du programme. Le Comité sera composé du Doyen adjoint aux programmes supérieurs de la Faculté d'Éducation (ou son représentant), le Directeur du Département d'études françaises et hispaniques (ou son représentant), et un autre membre. Ce dernier viendra alternativement (une année sur deux) d’une des deux unités. Le Comité administratif décidera de l'admission et conseillera à l'occasion les étudiants sur leur choix de cours.

Admission

Pour être admis au programme de Maîtrise ès Arts et Éducation (Enseignement des littératures et cultures francophones), il faut normalement détenir un Baccalauréat en Éducation, avec concentration en français, provenant d'une institution reconnue par le Sénat. Il faut une note moyenne minimale de 'B' ou une moyenne de 70% dans les trente derniers cours et deux ans d'expérience dans l’enseignement du français. Un niveau adéquat de français est nécessaire et la compétence des candidats (le masculin est utilisé à tire épicène) sera évaluée par le comité d’admission.

Programme d'études

1. Les candidats à la Maîtrise ès Arts et Éducation (Enseignement des littératures et cultures francophones) choisiront l’une ou l’autre des deux options suivantes:
   - 1° option Programme menant au projet terminal
   - 2° option Programme entièrement composé de cours

2. Tous les candidats devront compléter:
   - French 6800 Littératures francophones: Théorie et pratique
   - French 6810 Cultures francophones: Théorie et pratique
   - Education 6100 Research Designs and Methods in Education
   - Six heures crédits de cours de deuxième cycle du Département d'études françaises et hispaniques jugés appropriés par le Comité administratif.
   - Neuf heures crédits parmi:
     - Education 6668 Current Issues in Second Language Education
     - Education 6669 Graduate Seminar in Second Language Teaching and Learning
     - Education 6673 Second Language Teaching, Learning and Curriculum
     - Education 6674 Research in Second Language Teaching and Learning
   - Trois heures crédits de cours de la Faculté d'Éducation jugés appropriés par le Comité administratif.

3. L'étudiant ayant choisi la 1° option devra compléter:
   - Education 6392 Project in Curriculum, Teaching and Learning Studies

4. L'étudiant ayant choisi la 2° option devra compléter:
   - Trois heures crédits de cours de deuxième cycle du Département d'études françaises et hispaniques jugés appropriés pour le programme de l'étudiant.
   - Education 6390 Research and Development in Teaching and Learning Studies

Évaluation

1. Afin de continuer son inscription au programme de Maîtrise ès Arts et Éducation (Enseignement des littératures et cultures francophones), le candidat doit obtenir un note de A ou B dans chaque cours obligatoire. Le candidat qui reçoit une note de C dans un cours obligatoire doit répéter ce cours et obtenir au moins B. Dans le cas d’un cours facultatif, un cours jugé approprié par le Comité administratif peut être substitué à un cours qui n’a pas été réussi. Une telle répétition ou un tel remplacement ne sera permis qu’une seule fois dans le programme de l’étudiant. Si une note moindre que B est obtenue dans un cours répété ou dans un cours de remplacement, le candidat devra se retirer du programme.

2. Lorsque le Comité administratif aura établi, après avoir consulté le candidat, ses enseignants et son directeur de projet, le cas échéant, que le travail du candidat n'atteint toujours pas un niveau satisfaisant, il pourra demander au Doyen de la Faculté des Arts et au Doyen de Faculté d'Éducation qu'il recommandent la disqualification du candidat au Doyen des Études supérieures.

The Degree of Master of Business Administration (M.B.A.) is offered by full-time or part-time study. These regulations must be read in conjunction with the General Regulations of the School of Graduate Studies of Memorial University of Newfoundland.

10 Regulations Governing the Degree of Master of Business Administration

www.business.mun.ca

Professor and Dean

W. Zerbe

The Degree of Master of Business Administration (M.B.A.) is offered by full-time or part-time study. These regulations must be read in conjunction with the General Regulations of the School of Graduate Studies of Memorial University of Newfoundland.

10.1 Qualifications for Admission

1. Admission is limited and competitive. To be eligible for consideration for admission to the Master of Business Administration program, an applicant shall:
   a. normally hold at least a Bachelor's Degree, with a minimum 'B' standing, from an institution recognized by Senate;
   b. normally have two years of full-time work experience, or equivalent, deemed acceptable to the Faculty of Business Administration; and
   c. achieve a satisfactory total score on the Graduate Management Admission Test (GMAT), as well as an appropriate balance of verbal and quantitative GMAT score components. Specific information regarding test centres, dates, registration procedure and deadlines can be obtained by contacting the Graduate Management Admission Council at www.mba.com.

2. An applicant who did not complete a Bachelor's degree at a recognized university where English is the primary language of instruction must normally complete either the:
   a. Test of English as a Foreign Language (TOEFL) and achieve a paper-based score of 580 (or higher), computer-based score of 237 (or higher), or Internet based score of 92-93 (or higher); or
   b. International English Language Testing System (IELTS) and achieve a score of 7 (or higher).

Information regarding the TOEFL is available from the Educational Testing Service at www.ets.org. IELTS information is available at www.ielts.org.

3. In exceptional cases, an applicant who has not completed a Bachelor's degree, but who meets all other requirements, may be considered for admission. Preference will be given to those who present a high GMAT score, have a minimum of 10 years of full-time managerial and executive experience, and have completed several years of university studies. The Faculty may also take into account relevant professional credentials. An applicant who does not meet normal admission requirements may be required to complete, with a high level of achievement, certain undergraduate courses before being considered for admission.

4. Notwithstanding the above, in exceptional cases, and only on the strong recommendation of the Faculty of Business Administration, consideration may be given to an applicant who does not qualify for admission consideration in accordance with the entrance requirements outlined above. It is noted that the GMAT requirement is never waived.

10.2 Deadlines for Applications

Applications and all supporting documents must be received not later than May 1 from Canadian applicants wishing to enter full-time or part-time studies in the Fall semester. Full-time and international applicants are normally considered for entry in the Fall semester. International applicants must submit complete documentation by March 1. Part-time applicants planning to enter in the Winter (January) or Spring (May) semester must apply prior to October 15 and January 15 respectively. Individuals submitting applications later than the above dates are not assured of consideration for admission to the program in the semester desired; their applications will be processed only if time and resources permit.

10.3 Procedure for Admission

1. Applications for admission to the M.B.A. program must be made on the appropriate form to the School of Graduate Studies.

2. The following documents must be submitted in support of the official application form:
   a. letters of appraisal from two referees, at least one of whom has had close professional contact with the applicant within the last two years, and at least one of whom is capable of appraising the applicant's academic potential as a graduate student;
   b. official transcript from each university or other post-secondary institution previously attended (other than Memorial University of Newfoundland), to be sent directly by the Registrar (or equivalent officer) to the School of Graduate Studies. If not recorded on the transcript, official evidence of completion of undergraduate degree must also be submitted;
   c. the official GMAT score report, to be sent directly by the Graduate Management Admission Council. The code number for Memorial University of Newfoundland is LTT-6W-51;
   d. the Master of Business Administration Employment Experience Form; and
   e. where applicable, an official TOEFL or IELTS score report (or another equivalent test acceptable to the School of Graduate Studies), to be forwarded directly by the educational testing service.

3. Admission shall be by the Dean of the School of Graduate Studies on the recommendation of the Faculty of Business Administration. Upon notification from the Dean of the School of Graduate Studies of acceptance into the M.B.A. program, an applicant must give written notice to the School of Graduate Studies of his/her intention to register. Such notice must be received by the Office of the Dean within 30 days of notification of acceptance, or three weeks prior to semester registration.

10.4 Programs of Study

The program is a 60 credit hour all-course program. This program requires: 36 credit hours as specified in Table 1; plus 24 credit hours selected from Table 2 including a minimum of 3 credit hours in the area of international business chosen from 9005, 9020, 9030, 9306, 9326 or another approved international course.
Course exemptions may be considered in accordance with Clause 3. below. In the event that course exemptions are granted, the 60 credit hour program requirement will be adjusted accordingly.

1. The Faculty of Business Administration may consider exemptions for up to 10 (30 credit hours) introductory M.B.A. courses for those applicants who have completed relevant undergraduate courses in Business, Economics, and Statistics. Undergraduate courses will normally only be considered for exemption purposes if they were completed within seven years of the year in which admission to the M.B.A. program is sought and provided the student achieved a grade of 75% or higher in the undergraduate course(s) required for exemption of the relevant M.B.A. course. Only the following introductory M.B.A. courses will be considered for exemption: 8103, 8104, 8106, 8108, 8109, 8204, 8205, 8206, 8207, and 8208.

2. An applicant who has completed relevant undergraduate courses at institutions external to Memorial University of Newfoundland must submit the following information to the M.B.A. Program Office, Faculty of Business Administration, for evaluation:
   • a detailed course outline for each course to be considered in the application for advanced standing;
   • a description of the method of evaluation used in each such course, the grades received, and the completion dates.

3. The Faculty of Business Administration reserves the right to restrict a student from taking particular M.B.A. elective courses if it is deemed that those courses do not add sufficient value beyond courses that the student has completed at the undergraduate level.

4. A student is required to observe approved co- or prerequisites in scheduling his/her courses. These are indicated in Table 3.

5. A student shall successfully complete the requirements of Business 8103 as part of the first 36 credit hours of the program.

### 10.5 Evaluation

1. Credit towards the M.B.A. Degree will be granted only for those courses which have been approved as constituting part of the student’s program of study and in which the student has obtained a mark of 65% or higher.

2. A student is required to withdraw from the M.B.A. program if a final grade of ‘F’ is obtained in any course.

3. To remain in the program, a student who obtains a final grade of ‘C’ or ‘D’ in any course must repeat that course when next offered, and obtain a minimum grade of ‘B’. In the case of an elective course, a replacement course approved by the Faculty of Business Administration may be substituted for the course. Only two such repetitions/replacements shall be permitted in the student’s program of study and in which the student has obtained a mark of 65% or higher.

4. Should a grade of less than ‘B’ be obtained in a repeated or replacement course, the student shall be required to submit the following information to the M.B.A. Program Office, Faculty of Business Administration, for evaluation:
   • a detailed course outline for each course to be considered in the application for advanced standing;
   • a description of the method of evaluation used in each such course, the grades received, and the completion dates.

Note: Unless specified in Table 3 all 9000-level courses require the prior completion of nine courses, including any specific prerequisites or co-requisites unless otherwise specified.

## 11 Regulations Governing the Degree of Master of Education

www.mun.ca/educ

Professor and Dean

K. Anderson

The Master of Education (M.Ed.) is offered in the following areas: Educational Leadership Studies, Curriculum, Teaching and Learning Studies, Counselling Psychology, Post-Secondary Studies, and Information Technology.

In addition, a Master of Arts and Education (Education and Francophone Literatures and Cultures), jointly offered by the Faculty of Education and the Faculty of Arts, Department of French and Spanish, is available for candidates who wish to specialize in the study and teaching of French.

In the case of the following general program regulations and the specific program regulations, which govern all Master of Education Degree programs, Dean refers to the Dean of Graduate Studies, Dean of Education refers to the Office of the Dean, Faculty of Education, and Faculty refers to the Faculty of Education, through its various operating committees.

Students taking any of the Master of Education Degree programs are advised that a Bachelor of Education Degree is required for employment in the K - 12 system.

### 11.1 Qualifications for Admission

1. Admission to the Master of Education is limited and competitive. To be considered for admission to a graduate program in Education, an applicant shall:
   a. have from a recognized institution, either (1) an undergraduate degree with at least second class standing, or (2) an undergraduate degree and an average of at least 70% in the last 90 attempted undergraduate credit hours.
b. meet the requirements set forth in the specific program regulations.

2. Only in exceptional circumstances, and only on the recommendation of the Dean of Education, shall the Dean consider applicants who do not meet the requirements in 1.

3. Please refer to Specific Programs regulations for additional admission requirements.

11.2 Program of Study
1. Candidates for the Master of Education (Educational Leadership Studies, Curriculum, Teaching and Learning Studies) shall be required to complete a minimum of:
   a. 18 credit hours plus a thesis; or
   b. 24 credit hours plus an internship report, a project report or a paper folio; or
   c. 30 credit hours on the comprehensive-course route.

Candidates for the Master of Education (Post-Secondary Studies) shall be required to complete a minimum of:
   a. 18 credit hours plus a thesis; or
   b. 24 credit hours plus an internship; or
   c. 30 credit hours on the comprehensive-course route.

Candidates for the Master of Education (Counselling Psychology) shall be required to complete a minimum of:
   a. 30 credit hours (which include an internship) plus a thesis; or
   b. 36 credit hours (which include an internship) on the comprehensive-course route.

Candidates for the Master of Education (Information Technology) shall be required to complete a minimum of:
   a. 18 credit hours plus a thesis; or
   b. 30 credit hours on the comprehensive-course route.

Candidates for the Graduate Diploma in Post-Secondary Studies (Health Professional Education) must complete:
   a. 12 credit hours

Candidates for the Graduate Diploma in Educational Leadership Studies must complete:
   a. 18 credit hours

2. Candidates may apply for transfer of course credits. All course transfers require the approval of the Dean, on the recommendation of the Dean of Education, and are subject to General Regulation, Program Requirements, Transfer of Course Credits of the School of Graduate Studies.

3. a. All graduate courses completed must be in accordance with the student's program of study.
   b. Graduate courses not within a program of study must be approved by the Associate Dean, Graduate Programs and Research, Faculty of Education, prior to registration.

4. a. A candidate with full-time status may register for a maximum of 12 credit hours in any regular semester and a maximum of 6 credit hours in intersession or summer session.
   b. A candidate with part-time status may register for a maximum of 3 credit hours in any semester or session, excluding summer session, when 6 credit hours are permitted.
   c. Candidates may register for additional courses in a semester or session with the permission of the Office of the Associate Dean of Graduate Programs in Education.

5. Before submission of the proposal for thesis, project, internship, or paper folio, a Supervisory Committee shall be recommended by the Dean of Education, in consultation with the candidate, and approved by the Dean. The Supervisory Committee shall consist of the Supervisor and at least one other member.

   The function of the Supervisory Committee shall be to approve the proposal for the thesis, project, internship, or paper folio, and to exercise supervision in the conduct of the study on behalf of the Faculty, subject to the final approval of the Dean.

11.3 Period of Study
The period of the study for a graduate program shall not normally exceed six years beyond first registration. Completion of some program components may require full-time study on the University campus.

11.4 Evaluation
1. In order to continue as a candidate for the Master of Education Degree, a candidate who receives a final grade of ‘C’ in any program course must repeat that course and obtain a minimum grade of ‘B’. In the case of an elective course a suitable replacement course, acceptable to the Faculty, may be substituted for the failed course. Only one such repetition/replacement shall be permitted on the candidate's graduate program. Should a grade of less than ‘B’ be obtained in the repeated course, replacement course, or any other program course, the candidate shall be required to withdraw from the program.

2. When the Faculty has determined, through consultation with the candidate, the instructors of graduate courses, and the program advisor or thesis Supervisor that the candidate’s work has fallen below satisfactory level, it may request that the Dean of Education recommend to the Dean that the candidate's program be terminated.

11.5 Thesis
See School of Graduate Studies General Regulation, Theses and Reports.

11.6 Program Regulations
Every candidate in graduate studies shall comply with the School of Graduate Studies General Regulations, the Degree Regulations Program of Study, and the specific program regulations as outlined in Specific Programs.

11.7 Appeals and Waivers Procedures
Candidates are advised that appeals and waivers of any regulations governing the Degree of Master of Education are governed by School of Graduate Studies General Regulations Provision For Waiver of Regulations and Appeal Procedures.
11.8 Specific Programs

11.8.1 Educational Leadership Studies

The Educational Leadership Studies program provides students with an opportunity to explore a broad range of issues in educational leadership, policy, and administration. It prepares candidates to assume leadership roles in a variety of settings, including school and district leadership, post-secondary institutions and policy analysis. The Faculty offers a Master of Education degree and a Graduate Diploma in Educational Leadership Studies.

1. Admission Requirements

In addition to meeting the requirements in the School of Graduate Studies General Regulations,
a. students must have completed a range and number of courses in Education deemed appropriate by the Faculty and Dean of Education.
b. a minimum of two years of teaching/leadership experience is recommended.

2. Program Requirements for the Master of Education Degree Program

a. all students in the Master of Education Program (Educational Leadership Studies) program must complete:
   - 6100 Research Designs and Methods in Education
   - 6204 Educational Administration: Theory and Practice
   - 6205 Educational Policy: Theory and Practice and one of the following:
   - 6 credit hours (thesis route) within closed electives as listed in e. below
   - 9 credit hours (internship, paper folio, project, comprehensive course route) within closed electives as listed in Closed electives below
b. students on the thesis route must complete at least one of the research courses listed below (6100 is prerequisite):
   - 6466 Qualitative Research Methods
   - 6467 Quantitative Research Methods
   - 6468 Critical Approaches to Educational Research
   - 6469 Theoretical and Methodological Foundations of Action Research
c. students on the comprehensive-course route must complete 6290 Research and Development Seminar in Educational Leadership Studies. Normally students would be permitted to register for this course only after all other course requirements have been met, or during the student's last semester of studies.
d. to meet total credit hour requirements students may choose electives from any university graduate offering provided that those chosen are appropriate to the student's program:
   - students on the thesis route must complete a total of at least 18 credit hours
   - students on the internship, paper folio, or project route must complete a total of at least 24 credit hours and the appropriate course option including 6291 Internship in Educational Leadership Studies (6 credit hours), 6292 Project in Educational Leadership Studies (6 credit hours), or 6293 Paper Folio in Educational Leadership Studies (6 credit hours)
   - students on the comprehensive-course route must complete a total of at least 30 credit hours
e. Closed electives are those listed below:
   - 6202 Social Context of Educational Leadership
   - 6203 Leadership: Theory and Practice
   - 6321 Supervisory Processes in Education
   - 6330 Educational Finance
   - 6335 Legal Foundations of Educational Administration
   - 6410 Seminar on Philosophical Issues in Educational Policy and Leadership
   - 6420 Ethical Issues and Perspectives in Educational Practice and Policy
   - 6425 Comparative Perspectives in Public Education, Reform, and Leadership
   - 6426 Computer Applications in Educational Administration
   - 6427 School Community Partnerships
   - 6440 Family-School Relations: Leadership and Policy Implications
   - 6455 School Violence: Leadership and Policy Implications
   - 6664 Seminar in School Improvement
   - 6710 Issues in Development and Implementation of Special Education Policy and Practices

Courses must be appropriate to the program and chosen in consultation with the advisor.

3. Program Requirements for the Graduate Diploma in Educational Leadership Studies

The Graduate Diploma in Educational Leadership Studies provides students with an opportunity to explore a broad range of issues in educational leadership, policy and administration. It prepares candidates to assume leadership roles in a variety of settings, including school and district leadership, post-secondary institutions and policy analysis.

Students wishing to be admitted to the Graduate Diploma in Educational Leadership Studies must meet the criteria for admission specified under Master of Education (Educational Leadership Studies) degree, Qualifications for Admission.

Candidates for the Graduate Diploma must complete a total of 18 credit hours, including:
   - 6203 Leadership: Theory and Practice
   - 6204 Educational administration: Theory and Practice
   - 12 credit hours that come from the list of closed electives for the Master of Education (Educational Leadership Studies) degree, or are other graduate courses appropriate to the student's program and are approved by the Faculty of Education.

Students enrolled in the Graduate Diploma program may request transfer to the Master of Education (Educational Leadership Studies) prior to graduation. Students must complete an additional 12 credit hours appropriate to the Master of Education (Educational Leadership Studies) degree.

All courses completed must satisfy the requirements for the Graduate Diploma (Educational Leadership Studies) and the Master of Education (Educational Leadership Studies) Degree.
11.8.2 Curriculum, Teaching and Learning Studies

The Master of Education in Curriculum, Teaching and Learning Studies provides opportunities for students to investigate pertinent issues in these interrelated areas from a variety of perspectives: philosophical, historical, social, cultural, cognitive, and technological. The conceptual bases of curriculum, teaching, and learning are explored and analysed along with related examples of historical and current policies and practices. The program encourages the development of broad-based insights into issues related to these areas through an emphasis on critical inquiry and reflective practice. It supports students in the development and enhancement of research capabilities and professional expertise and practice.

Students may choose between two program options in Curriculum, Teaching and Learning Studies:

Option One

Option Two
In consultation with a faculty advisor, students may choose to design a program speciality which addresses their research interests. Special foci within Curriculum, Teaching, and Learning Studies are numerous and may include technology and web-based education, arts education, rural and multi-age education. Students may alternatively select appropriate courses from other Master of Education program offerings to develop a program to meet their learning goals. Students interested in this option are strongly encouraged to explore and to focus their research and study interests and to discuss these interests with a faculty advisor.

1. Admission Requirements

In addition to meeting the requirements in the School of Graduate Studies General Regulations,

a. students must have completed a range and number of courses in Education deemed appropriate by the Faculty and Dean of Education.

b. a minimum of two years of teaching or related experience is recommended.

c. for a specialization in special education, a completed Bachelor of Special Education Degree or equivalent is required and enrolment will be limited to applicants articulating a research focus for which appropriate thesis supervision is available.

2. Program Requirements

a. all students in the Master of Education Program (Curriculum, Teaching and Learning Studies) shall be required to complete:

   - 6100 Research Designs and Methods in Education
   - 6300 Teaching and Learning
   - 6602 Curriculum Studies

b. students on the thesis route must complete at least one of the research courses listed below (6100 is prerequisite):

   - 6466 Qualitative Research Methods
   - 6467 Quantitative Research Methods
   - 6468 Critical Approaches to Educational Research
   - 6469 Theoretical and Methodological Foundations of Action Research
   - 6909 Narrative Approaches to Teaching, Learning and Research

   and at least 2 courses from any university graduate offering provided that those chosen are appropriate to the student's program

c. students choosing Option One on the internship, paper folio, project route, and comprehensive-course route must complete at least 2 courses within one particular specialty area from the list in Core speciality courses in the study of curriculum, teaching and learning areas below.

d. students choosing Option Two must choose courses that have been designated through consultation with faculty advisor during the first semester of studies in this program.

e. students choosing the Mathematics Education specialization within Curriculum, Teaching and Learning Studies must complete 6630 Critical Issues in Mathematics Education prior to completing other Mathematics Education specialty courses.

f. students choosing the Special Education specialization within Curriculum, Teaching and Learning Studies must complete a thesis and at least two of the required Special Education specialty courses.

g. students on the comprehensive-course route must complete one of the following courses: E6390 Research and Development Seminar in Curriculum, Teaching and Learning Studies or E6394 Biographical Explorations of Teaching and Learning or E6913 Putting Action Research Methodologies into Practice (prereq. E6469). Normally students would be permitted to register for one of these courses only after all other course requirements have been met, or during the student's last semester of studies.

h. to meet total credit hour requirements students may choose electives from any university graduate offering provided that those chosen are appropriate to the student's program:

   - students on the thesis route must complete a total of at least 18 credit hours
   - students on the internship, paper folio, or project route must complete a total of at least 24 credit hours and the appropriate course option 6391 Internship in Curriculum, Teaching and Learning Studies (6 credit hours), 6392 Project in Curriculum, Teaching and Learning Studies (6 credit hours), or 6393 Paper Folio in Curriculum, Teaching and Learning Studies (6 credit hours)

i. Core speciality courses in the study of curriculum, teaching and learning areas:

Computers in Education
- 6610 Research on Computers in the Curriculum
- 6620 Issues and Trends in Educational Computing

Language and Literacy Studies
- 6106 Popular Culture and Literacy Education
- 6108 Literacy and Language Education: Sociocultural Perspectives
- 6641 Writing in the Primary, Elementary and Secondary Schools
- 6642 Developmental Reading (K-8)
- 6643 Contemporary Issues in Intermediate and Secondary English

1. Counselling Psychology

The mission of the program in Counselling Psychology is to prepare highly knowledgeable, skilled, dedicated, and ethical professional practitioners, who will endeavour to enhance human potential throughout the life span and who can effectively practice within a variety of settings.

The Counselling Psychology faculty promotes counselling as an effective, viable means of assisting individuals throughout the life span. The counselling practitioner, regardless of his or her theoretical stance or work setting, functions as a change agent who is sensitive to and knowledgeable about the range of human development reflected in individual differences and cultural and linguistic diversity. Effective and positive change is brought about by assisting clients to: examine and modify their behaviour for more effective living; cope with, adjust to, or otherwise negotiate the environments affecting their psychosocial well-being; and effect change in the larger society.

The practice of Counselling Psychology is based on theory and research, an understanding of ethical practices, and a set of professional and interpersonal skills. It is essential that graduate students study a variety of conceptual frameworks and research findings as preparation for collaborative work with other helping professionals, paraprofessionals, and a variety of self-help groups.

The Counselling Psychology faculty, while representing a range of views, agree that the uniqueness of the individual and his or her personal strengths must be acknowledged and respected. To fully explore professional issues and personal values, a trusting and open atmosphere must be present.

Individuals from a wide variety of personal, social, and educational backgrounds are encouraged to apply to the Counselling Psychology program. The program provides a broad-based sequence of studies and supervised experiences that will prepare graduate students to be knowledgeable and skilled practitioners who can function in a variety of settings. By the time they have completed this program, students will have acquired knowledge and competencies in the following general areas: individual and group counselling theory and techniques, legal and ethical aspects of counselling, human development and learning, social, cultural, and linguistic diversity, career education and counselling, program development and implementation, measurement and appraisal, research and program evaluation, and application of current technology service delivery in rural areas.

1. Admission Requirements

In addition to meeting the requirements in the School of Graduate Studies General Regulations, students:

a. must have completed Education 3210, Introduction to Counselling.

b. must have completed at least one undergraduate course on each of the following topics: Statistics (Education 2900), Assessment (Education 3280, 3951, 3952 or 4950), Introduction to Career Education (Education 3211), Introduction to Exceptionality (Education 4240 or 4242).

Note: Many of these courses are prerequisites to specific graduate courses and must be completed before taking those courses.
Program Requirements

a. all students in the Master of Education (Counselling Psychology) program shall be required to complete:
   - 6100 Research Designs and Methods in Education (prerequisite: Education 2900)
   - 6702 Counselling: Theory and Practice (prerequisite: Education 3210)
   - 6706 Career Education and Career Counselling (prerequisite: Education 3211)
   - 6708 Group Counselling: Theory and Practice (prerequisite: Education 6702)
   - 6700 Ethical and Legal Issues in Counselling
   - 6720 Internship in Counselling Psychology (prerequisite: Normally completion of all courses) (9 credit hours)

b. Students on the thesis route must complete the core courses listed above (24 credit hours) as well as a minimum of 6 credit hours from the closed electives indicated below for a total of 30 credit hours.

c. Students on the comprehensive-course route must complete the core courses listed above (24 credit hours) as well as a minimum of 6 credit hours from the closed electives and 6 credit hours from any university graduate offering provided that those chosen are appropriate to the student’s program for a total of 36 credit hours.

d. All students in the Counselling Psychology program must complete 6720. The Internship may be fulfilled full-time or part-time and must comprise 600 clock hours with 240 hours of direct service with clients. It cannot be completed as part of your regular employment. It is strongly recommended that students take no other course during the full-time internship.

e. Closed electives are those listed below:
   - 6703 Personal and Professional Development Group
   - 6705 Nature and Development of School Counselling Services
   - 6707 Assessment for Counsellors
   - 6709 Assessment of Intelligence and Learning Skills (prerequisite: 3600 or its graduate equivalent 6707). Normally, students in Counselling Psychology will not enroll in this course until the latter part of their program.
   - 6710 Issues in Development and Implementation of Special Education Policy and Practices
   - 6712 The Nature and Assessment of Behaviour Disorders in Children and Adolescents
   - 6713 Educational Applications of Contemporary Cognitive Psychology
   - 6714 Principles and Practices in Exceptionality
   - 6716 Working with Families and Parents
   - 6717 Counselling Adolescents
   - 6718 Elementary School Counselling
   - 6719 Cultural Issues in Counselling
   - 6802 Adult Learning and Development

Notes:  
1. Student membership in the Canadian Counselling Association (CCA) or other appropriate professional organizations is strongly recommended for all students in the program.
2. Students who plan to work in the school system should be aware of the Department of Education regulations to be eligible to work as a school counsellor.
3. Students who plan to become registered psychologists in Newfoundland and Labrador should review the requirements of the Newfoundland Board of Examiners in Psychology.

11.8.4 Post-Secondary Studies

The graduate programs in Post-Secondary Studies are designed to prepare candidates to function in a variety of roles in informal and formal post-secondary learning environments (including academic, technical, professional, adult education, health professional education, and student services/development). These programs facilitate a study of the post-secondary educational systems through an examination of their foundations, directions, organization and administration; and through curriculum and instructional development options for occupational preparation and adult education.

1. Admission Requirements

In addition to meeting the requirements in the School of Graduate Studies General Regulations,

a. Candidates must have completed an undergraduate course in statistics (Education 2900), and post-secondary education (Education 2720); or have accumulated the equivalent experiences in each of the above two areas as approved by the Head of the academic unit;

b. two years of successful experience in working with adult learners is recommended;

c. and for the Graduate Diploma in Post-Secondary Studies (Health Professional Education) program, candidates must have appropriate academic qualifications and work experience in a health-related field.

2. Program Requirements (M.Ed.)

a. Candidates for the Master of Education (Post-Secondary Studies) are required to complete courses that form the program core.

   i. 6100 Research Designs and Methods in Education
   ii. 6801 Foundations of Post-Secondary Programs
   iii. 6802 Adult Learning and Development
   iv. 6803 Research in Post-Secondary Education
   v. and not fewer than 6 credit hours from closed electives in g. below.

b. Students holding the Graduate Diploma in Post-Secondary Studies (Health Professional Education) and accepted in the Master of Education (Post-Secondary Studies) will complete up to 12 fewer credit hours dependent upon the chosen program route and the completion date of the Graduate Diploma.

c. Students on the comprehensive-course route must complete 6890 Research and Development Seminar in Post-Secondary Studies.

d. Students on the internship route must complete 6891 Internship in Post-Secondary Studies (6 credit hours).
e. Normally, students will be permitted to register for 6890 and 6891 only after all other course requirements have been met.

f. To meet total credit hour requirements students may choose courses from other graduate offerings within the Faculty, the University, or other universities provided the courses chosen are appropriate to the student's program. Students on the thesis route must complete a total of at least 18 credit hours; and those on the internship or comprehensive-course route a total of at least 30 credit hours.

g. Closed electives are those listed below:
6804 Leadership and Human Resource Development in Post-Secondary Education
6805 Advanced Human Resource Communications
6806 Interprofessional Education in the Health Professions
6807 Economics and Finance of Post-Secondary Education
6822 Foundations of Instructional Design in Post-Secondary Education
6823 Principles of Program Design and Development
6832 Issues and Trends in the Administration of Post-Secondary Education
6841 Student Development Theory, Services and Programs in Post-Secondary Education
6940 Administration of Student Services in Post-Secondary Education

3. Program Requirements for Graduate Diploma in Post-Secondary Studies (Health Professional Education)
The Graduate Diploma in post-secondary studies, specialization in health professional education, which was created in collaboration with the Centre for Collaborative Health Professional Education, is designed to enhance health professionals' abilities as educators and leaders in educational program design, development, evaluation, and administration. The Graduate Diploma is intended for educators and educational leaders of formal and informal post-secondary health professional education programs. Participants will engage in an in-depth study of the structure and organization of the post-secondary education system, theories and philosophies of adult learning and development; and through elective courses pursue studies of program development models, instructional design frameworks, evaluation and assessment techniques, teaching methods, and research design principles in post-secondary teaching and learning. Opportunities will exist for the guided study of these topics as they relate to health professional education.

a. Candidates for the Graduate Diploma in Post-Secondary Studies (Health Professional Education) are required to complete courses that form the program core.
   i. 6801 Foundations of Post-Secondary Programs
   ii. 6802 Adult Learning and Development
   iii. 6806 Interprofessional Education in the Health Professions
      iv. and not fewer than 3 credit hours from closed electives in 2.g. above or from:
         a. 6100 Research Designs and Methods in Education
         b. 6803 Research in Post-Secondary Education

b. Students are encouraged to relate their assignments in these courses to health professional education.

c. Students enrolled in the Graduate Diploma program may request transfer to the Master of Education (Post-Secondary Studies). Courses for both the Graduate Diploma and the Degree must be appropriate to the program and chosen in consultation with the student’s advisor.

11.8.5 Information Technology
The graduate program in Information Technology is offered in partnership with Cape Breton University (CBU). It is designed to facilitate the educational use of information technology in a wide variety of settings. The program will be of interest to educators at all levels including K-12 teachers, school administrators, those in the post-secondary system, business and industry, as well as those in most other adult learning situations.

Information technology in this Master of Education program encompasses computer, communications, networking, and multi-media applications. The overall intent of the program is to:
- provide educators with skill sets and pedagogical expertise that will enable them to address computer and related information technology in a teaching/learning situation;
- develop potential information technology leaders for the educational system;
- develop instructional designers, for a variety of educational settings, who are able to combine information technology with learning theory to enhance curriculum development and delivery;
- provide a basis for the continued professional development of educators in the area of information technology;
- develop an awareness of the applications of information technology in a wide variety of educational contexts; and
- develop research expertise and potential in the use and application of information technology for teaching and learning purposes.

Candidates for the program will have attained, prior to acceptance, some fundamental knowledge and skills with respect to information technology through prerequisite experiences, and have attained a recognized undergraduate degree in an appropriate discipline with at least a second class standing (see specific regulations for details). The program components are designed to enable candidates to build on their prior experience through the development of pedagogical links and information technology applications. It is intended that the program be offered primarily as a part-time program through distance delivered courses, with other delivery formats to be considered/ utilized where feasible. Access to specific computer hardware, software, and the Internet is required and will be the responsibility of each candidate.

A steering committee comprised of three members from each of the Faculty of Education at Memorial University of Newfoundland and the Institute for Education at CBU is responsible to the Associate Dean of Graduate Programs and Research, Faculty of Education, for selected aspects of the program. The latter include assessing student applications, recommending approval of instructors who are not regular faculty members at either CBU or Memorial University of Newfoundland, and recommending course or program changes. This committee is to be co-chaired by the Associate Dean of Graduate Programs and Research, Faculty of Education, Memorial University of Newfoundland and the Director of the Institute for Education at CBU, or their designate(s).

CBU courses offered as part of this program are indicated by the prefix “CBU EDU” followed by the specific course number.

1. Admission Requirements
Admission to the program is competitive and selective. In addition to meeting the requirements in the School of Graduate Studies General Regulations, Faculty of Education, Memorial University of Newfoundland, candidates must have successfully completed:

a. one of a diploma or certificate in information technology from an accredited institution; CBU EDU 530; Memorial University of Newfoundland 2751 and 3751; or equivalent as determined by the program steering committee.
Selection into the program is determined by an applicant’s profile which would normally include such criteria as previous academic performance, related work experience, and relevant information technology experience. More detailed information may be found at www.mun.ca/educ/grad/infotech.php.

2. Program Requirements

a. all candidates for the Master of Education (Information Technology) must complete 6100 Research Designs and Methods in Education.

b. candidates on the thesis route must complete:

   three credit hours from:
   6610 Research on Computers in the Curriculum
   6615 Educational Software Prototyping and Evaluation
   6620 Issues and Trends in Educational Computing

   nine credit hours selected from the core elective CBU courses approved for this program:
   CBU EDU 5101 Assessment of Software and Information Technology Applications for Education
   CBU EDU 5103 Integration of Instructional Design and Information Technology
   CBU EDU 5104 Applications of Learning Theory in Educational Multi-media Design
   CBU EDU 5105 Designing Web-based Learning
   CBU EDU 5106 Technology Planning for Educational Environments
   CBU EDU 5107 Information Management for Educational Environments

   three credit hours from: 6822, 6823, 6802, 6426, or from other Memorial University of Newfoundland, Faculty of Education graduate course offerings as deemed appropriate for each candidate’s program and approved by the program steering committee.

c. candidates on the comprehensive-course route must complete:

   i. six credit hours selected from 6610, 6615, 6620
   ii. twelve credit hours selected from CBU EDU 5101, EDU 5103, EDU 5104, EDU 5105, EDU 5106, EDU 5107
   iii. E6590 Research and Development Seminar in Information Technology in Education
   iv. three credit hours from 6822, 6823, 6802, 6426, or from other Memorial University of Newfoundland, Faculty of Education graduate course offerings as deemed appropriate for each candidate’s program and approved by the program steering committee
   v. additional credit hours appropriate to a candidate’s program, and approved by the program steering committee, to be chosen from graduate course offerings at Memorial University of Newfoundland, CBU, or any other university to complete the required 30 credit hours for the comprehensive course route

d. normally, candidates will be permitted to register for 6590 only after all other course requirements have been met.

e. candidates who have successfully completed the CBU graduate level Certificate in Education (Technology) will be given advanced standing credit for the 9 CBU EDU course credit requirements for the thesis route or 12 CBU EDU course credit requirements for the comprehensive course route on this program.

f. candidates who have successfully completed the former CBU EDU 534 and/or EDU 543 with at least a CBU grade of B (70%) toward the CBU graduate level Certificate in Education (Technology) prior to September 2000, will receive up to 12 advanced standing credit hours appropriate to their Degree option (EDU 534 will be considered equivalent to EDU 5101 and EDU 5103, and EDU 543 equivalent to EDU 5104 and EDU 5105).

g. thesis-route candidates will be subject to Theses and Reports of the School of Graduate Studies, Memorial University of Newfoundland, supervised by a faculty member at Memorial University of Newfoundland, and where feasible co-supervised by a CBU faculty member.

11.9 Courses

Course descriptions for graduate course in Education are available at www.mun.ca/educ/grad/fee_deadline.php.

A selection of the following graduate courses shall be offered to meet the requirements of candidates, as far as the resources of the Faculty allow.

6100 Research Designs and Methods in Education
6105 Social and Cultural Difference and Education
6106 Popular Culture and Literacy Education
6107 Arts Education: Creativity in the Classroom
6108 Literacy and Language Education; Sociocultural Perspectives
6202 Social Context of Educational Leadership
6203 Leadership: Theory and Practice
6204 Educational Administration: Theory and Practice
6205 Educational Policy: Theory and Practice
6290 Research and Development Seminar in Educational Leadership Studies
6291 Internship in Educational Leadership Studies (6 credit hours)
6292 Project in Educational Leadership Studies (6 credit hours)
6293 Paper Folio in Educational Leadership Studies (6 credit hours)
6300 Teaching and Learning
6321 Supervisory Processes in Education
6330 Educational Finance
6335 Legal Foundations of Educational Administration
6390 Research and Development Seminar in Curriculum, Teaching and Learning Studies
6391 Internship in Curriculum, Teaching and Learning Studies (6 credit hours)
6392 Project in Curriculum, Teaching and Learning Studies (6 credit hours)
6393 Paper Folio in Curriculum, Teaching and Learning Studies (6 credit hours)
6394 Biographical Explorations of Teaching and Learning
6410 Seminar on Philosophical Issues in Educational Policy and Leadership
6420 Ethical Issues and Perspectives in Educational Practice and Policy
6425 Comparative Perspectives in Public Education, Reform, and Leadership
6426 Computer Applications in Educational Administration
6427 School Community Partnerships
6440 Family-School Relations: Leadership and Policy Implications

2. Applications must be postmarked no later than February 15 for applicants wishing to enter full-time or part-time studies in the Fall.

1. Applicants seeking full-time enrolment will normally only be admitted to the program in the Fall (September) semester.

12.3 Deadlines for Applications

1. Applicants who did not complete a four-year baccalaureate degree at a recognized university where English is the primary language must have completed one or more undergraduate courses in organizational behaviour, statistics, and microeconomics, from an institution recognized by Senate, normally with a minimum grade of 70% in each course.

4. In exceptional cases, applicants who have not completed an undergraduate degree, but who meet all other requirements, may be considered for admission. Preference will be given to those who have a minimum of 10 years of full-time professional experience, including demonstrated success in employment relations, and who have successfully completed substantial university course work including several courses at an advanced undergraduate level from an institution recognized by Senate. Applicants without an undergraduate degree must have completed one or more undergraduate courses in organizational behaviour, statistics, and microeconomics, from an institution recognized by Senate, normally with a minimum grade of 70% in each course. Any applicants who do not meet normal admission requirements may also be required to successfully complete the GMAT or the GRE with a satisfactory result and/or additional undergraduate courses before being considered for admission.

5. Applicants who did not complete a four-year baccalaureate degree at a recognized university where English is the primary language of instruction must normally complete either the:
   a. Test of English as a Foreign Language (TOEFL) and achieve a paper-based score of 580 (or higher), computer-based score of 237 (or higher), or Internet based score of 92-93 (or higher); or
   b. International English Language Testing System (IELTS) and achieve a score of 7 (or higher).
   c. Information regarding the TOEFL is available from the Educational Testing Service at www.ets.org. IELTS information is available at www.ielts.org. It is noted that other equivalent tests acceptable to the School of Graduate Studies will also be considered.

12.3 Deadlines for Applications

1. Applicants seeking full-time enrolment will normally only be admitted to the program in the Fall (September) semester.

2. Applications must be postmarked no later than February 15 for applicants wishing to enter full-time or part-time studies in the Fall (September) semester.
3. Applications must be postmarked not later than August 15 for applicants wishing to enter part-time studies in the Winter (January) semester.

4. Individuals submitting applications later than the above dates are not assured of consideration for admission to the program in the semester desired; their applications will be processed only if time and resources permit.

12.4 Procedure for Admission

1. Applications for admission to the M.E.R. program must be made on the appropriate form and submitted to the School of Graduate Studies.

2. The following documents must be submitted in support of the official application form:
   a. Letter of appraisal from two referees, one of whom is capable of appraising the applicant’s academic potential as a graduate student, and of whom is capable of appraising the applicant’s professional experience and/or actual or likely success in a career in employment relations.
   b. The M.E.R. Employment Experience Information Form.
   c. Official transcripts from each university or other post-secondary institution previously attended, to be sent directly by its Registrar (or equivalent officer) to the School of Graduate Studies. If not recorded on the transcript, official evidence of completion of undergraduate degree must also be submitted.

3. Application files are normally evaluated after the deadline dates for application noted above and only when all required documentation has been received.

4. Admission shall be by the Dean of Graduate Studies on the recommendation of the GCER. Upon notification from the Dean of the School of Graduate Studies of acceptance into the M.E.R. program, applicants must give written notice to the School of Graduate Studies of their intention to register.

12.5 Program of Study

1. The M.E.R. program consists of 36 credit hours of course work as specified in Table 1. These include 30 credit hours of compulsory courses and 6 credit hours of elective courses. The compulsory courses are comprised of 21 credit hours of core courses specified in Table 2 and 9 credit hours for a research seminar.

2. The compulsory core courses introduce students to the three main areas of study in the program: labour-management relations; human resources management; and labour market and social policy analysis.

3. Electives allow students to specialize in one or more of the three main areas of study. Electives must be chosen from the list of approved electives specified in Table 3. Other courses may be approved and added to Table 3 from time to time by the GCER.

4. Candidates are responsible for fulfilling all prerequisites and may require special permission from the Department offering an elective to enrol in the course.

5. The Research Seminar in Employment Relations provides students with both quantitative and qualitative research skills and requires the identification of a research problem, the development and execution of a methodology appropriate to addressing the problem, analysis of results, and completion of final report. The Research Seminar involves 3 credit hours of course work in each of the Fall, Winter, and Spring semesters.

6. The prerequisites for EMRE 6030 and EMRE 6040 are EMRE 6010 and EMRE 6020. In addition, students will normally complete six M.E.R. courses before registering for EMRE 6030 or EMRE 6040. There are no prerequisites for EMRE 6010 and EMRE 6020 but students are advised to take these courses late in their programs, just before taking EMRE 6030 or EMRE 6040. For the core courses, the prerequisite for BUS1 9329 is BUS1 8210. For the remaining core courses, there are no prerequisites. For the elective courses, Departmental regulations that specify particular courses as prerequisites will apply but the Departmental requirement to have completed a number of courses will not apply.

7. A waiver of a core course may be granted by the Dean of Graduate Studies on the recommendation of the Director if the candidate can demonstrate that the material in the course has been substantially covered by other courses taken at this or another recognized university. In such cases, the course must be replaced by another course offered by Memorial University of Newfoundland in consultation with the candidate, and approved by the Director. The maximum number of core courses that can be waived is 3 and all replacement courses must be taken during the candidate’s period of enrollment in the program.

8. Each student’s program of study must be approved by the Director. The Director reserves the right to restrict candidates from taking particular courses if it is deemed that those courses do not add sufficient value beyond courses that the candidate has completed at the undergraduate level.

12.6 Evaluation

1. Candidates for the M.E.R. Degree must obtain a grade of B or better in all program courses.

2. Candidates who receive a grade of less than B in a program course will be permitted to remain in the program, provided the course is repeated and passed with a grade of B or better. Alternatively, the candidate may, on the recommendation of the Director and with the approval of the Dean of Graduate Studies, substitute another graduate course. Only one course repetition or substitution will be permitted during the candidate’s program after which the candidate shall be required to withdraw from the program.
12.7 Courses
The schedule of courses for the M.E.R. program is normally as follows:

<table>
<thead>
<tr>
<th>Term I (Fall)</th>
<th>Term II (Winter)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Four core courses from Table 2</td>
<td>Three core courses from Table 2</td>
</tr>
<tr>
<td>Employment Relations 6010 Research Seminar in Employment Relations I: Quantitative Methods</td>
<td>One elective from Table 3</td>
</tr>
<tr>
<td>One elective from Table 3</td>
<td></td>
</tr>
</tbody>
</table>

Note: Students may require special permission from the instructor and/or relevant graduate program administrator prior to enrolling in an elective course.

13 Regulations Governing the Degree of Master of Engineering

www.engr.mun.ca

Professor and Dean
G. Naterer

The degree of Master of Engineering (M.Eng.) is a research-focused degree and may be obtained either through full-time or part-time studies. The M.Eng. degree can be obtained through programs in Civil Engineering, Computer Engineering, Electrical Engineering, Mechanical Engineering, Ocean and Naval Architectural Engineering, and Oil and Gas Engineering.

In addition to the Master of Applied Science and Master of Engineering programs offered by the Faculty of Engineering and Applied Science, the Faculty also offers a course-based graduate diploma in Safety and Risk Engineering. For further information on this program refer to the regulations governing the Graduate Diploma in Safety and Risk Engineering.

13.1 Qualifications for Admission

To be considered for admission, an applicant shall meet the requirements set out in General Regulation, Qualification for Admission, or shall have qualifications and/or engineering experience that is acceptable to the Dean of Graduate Studies and to the Faculty of Engineering and Applied Science.

Admission to the M.Eng. program is limited and competitive. All applicants must meet the minimum qualifications set out in the above paragraph. Decisions on admission, however, will also take into account such things as the applicant's rank in class, referees' assessments, general performance throughout the applicant's undergraduate academic program, and the availability of supervisors in the area of the applicant's interest.

Normally applicants will be considered in January for admission to the following September. In special cases applicants may also be considered in April and August. Applications should be made sufficiently far in advance to permit the University to obtain all relevant documents and review the application.

Students who have successfully completed the requirements for the Graduate Diploma in Safety and Risk Engineering may receive transfer credits towards the M.Eng. degree in an affiliated area.
13.2 Program of Study and Research

1. Students enrolled in the Master of Engineering program will work in one of the following areas: Civil Engineering; Computer Engineering; Electrical Engineering; Mechanical Engineering; Ocean and Naval Architectural Engineering; and Oil and Gas Engineering.

2. A program shall normally consist of:
   a. a thesis related to the area of study
   b. 12 credit hours from graduate courses with at least 6 credit hours taken from the list of Core Courses below
   c. Seminar course 9100
   d. such other courses as may be required in an individual's program.

3. The thesis is to contain the results of a systematic investigation which has been conducted by the candidate under the direction of the Supervisor.

4. With the approval of the Dean of Graduate Studies and on the recommendation of the Faculty of Engineering and Applied Science, credit towards the course requirements may be considered for graduate courses previously taken by the student in accordance with the General Regulations for course credit transfers.

13.3 Supervision

1. Each student shall be assigned to a Supervisor approved by the Dean of Graduate Studies on the recommendation of the Faculty of Engineering and Applied Science.

2. The Supervisor shall propose a tentative program of study and topic of investigation which must be approved by the Dean of Graduate Studies acting on the recommendation of the Faculty of Engineering and Applied Science, before the acceptance of a student in the program.

3. At the end of each semester, the Supervisor shall report on the student's progress to the Dean of Engineering and Applied Science for onward transmission to the Dean of Graduate Studies.

4. A temporary or permanent change of Supervisor for a student already in a program shall be permitted only with the approval of the Dean of Graduate Studies and the Dean of Engineering and Applied Science.

5. The Supervisor shall advise the student in the preparation and presentation of a seminar on the student's topic of investigation as described in Thesis, 2. below.

13.4 Industrial Internship Option

The Faculty encourages graduate students to undertake internships of work in industry. Internships in industry will permit students either (a) to focus on the practicalities of research projects which have been well defined before the student enters an internship, or (b) to develop and define a research project from problems experienced during the internship. Encouragement to undertake an internship will be given only where it is clear that one of these expectations can be met.

Students registered in the Master of Engineering Program may, with the permission of their Supervisor, the Dean of the Faculty of Engineering and Applied Science, and the Dean of Graduate Studies select the Industrial Internship Option. Students approved to pursue this option must satisfy the degree regulations for a Master of Engineering Program. In addition, students in the Industrial Internship Option:

1. must take at least 9 credit hours of the courses required for their program on campus; the remaining required courses may be taken on or away from campus; those taken at other universities require pre-approval by the Dean of the School of Graduate Studies on the recommendation of the Faculty of Engineering and Applied Science

2. shall normally spend 8 to 12 months of their program at an internship in industry

3. shall normally spend at least two semesters on campus on a full-time basis as a graduate student at this University

4. shall submit a concise progress report to their supervisors no later than the end of each semester while on an internship.

13.5 Fast-Track Option

Students registered in academic term 7 of a Memorial University of Newfoundland undergraduate engineering program are eligible to apply for admission to an M.Eng. fast-track option. The purpose of the option is to encourage students interested in pursuing graduate studies to begin their research-related activities while still registered as an undergraduate student. Normally, to be considered for admission to the option, students must have achieved at least a 70% average over academic terms 1 to 6 of their undergraduate engineering program. While enrolled in the option, a student may complete some of the M.Eng. Degree requirements and, hence, potentially be able to graduate earlier from the M.Eng. program.

Students shall enroll in the M.Eng. fast-track option concurrently with their undergraduate program during the Fall semester prior to academic term 8. Prior to entering the fast-track option, students must apply for and receive an exemption from work term 6. While enrolled in the option, students must be registered in full-time graduate studies during the Fall semester prior to academic term 8; during academic term 8, the student must take a leave of absence from the graduate program. A student enrolled in the fast-track option shall undertake research related to their field of study and shall normally complete at least 3 credit hours from the courses listed for their M.Eng. program in the Fall semester prior to academic term 8.

In the Fall semester following academic term 7, fast-track option students will pay only the graduate fees appropriate to graduate students following plan A of Fees and Charges (i.e., the 6 semester plan). In the succeeding Winter semester, while completing academic term 8 of their undergraduate program, fast-track option students will pay only the appropriate undergraduate fees.

Upon completion of their undergraduate program, students may register in the M.Eng. program on a full-time basis. All courses taken as part of their graduate program while enrolled in the M.Eng. fast-track option are credited towards the M.Eng. Degree course credit hour requirements. Courses taken as credit towards a student's undergraduate degree may not be credited towards a student's graduate degree; courses credited towards a student's graduate degree may not be credited towards a student's undergraduate degree. Students who do not complete their undergraduate degree within one year of entering the fast-track option will normally be required to withdraw from their M.Eng. program.
13.6 Course Evaluation

1. In order to continue in the program, a student shall obtain an A or B grade in each course taken for credit.
2. The student’s achievement in the program must be to the satisfaction of the Dean of Graduate Studies and the Faculty of Engineering and Applied Science. When it has been determined on the basis of consultations with the student, the course instructors and the Supervisor, that a student’s work has fallen below satisfactory level, he/she may be required to withdraw from the program.

13.7 Thesis

1. A student who expects to graduate must inform the Dean of Graduate Studies of this intention at least three months before the University Convocation at which the award of the degree is expected.
2. Before the thesis is submitted, the student shall present an open seminar on the topic of investigation to the Faculty of Engineering and Applied Science. Any serious deficiencies noticed at this stage should be carefully considered, in consultation with the Supervisor, for rectification.
3. Three copies of the thesis shall be submitted to the School of Graduate Studies through the Faculty of Engineering and Applied Science, in a form and format as specified in the Thesis Guide issued by the School of Graduate Studies and the Presentation of Theses Guide issued by the Faculty of Engineering and Applied Science. A submission which does not meet the specifications will be returned to the candidate.
4. Examiners shall be appointed by the Dean of Graduate Studies on the recommendation of the Faculty of Engineering and Applied Science soon after the student has expressed an intention to submit the thesis.

13.8 Evaluation of Theses
Theses evaluation shall be carried out in accordance with Theses and Reports of the General Regulations governing all students in the School of Graduate Studies.

13.9 Recommendation for Awarding Degree

When a student has completed all the requirements for the Master of Engineering (M.Eng.) Degree, the Faculty of Engineering and Applied Science shall forward a recommendation to the Dean of Graduate Studies for the award of the Degree.

13.10 Graduate Diploma in Safety and Risk Engineering
The Faculty of Engineering and Applied Science offers a course-based Graduate Diploma in Safety and Risk Engineering to provide an opportunity for engineers in a variety of engineering disciplines to obtain or upgrade their training in Safety and Risk Engineering. The program is available on a full-time or part-time basis.

13.10.1 Qualifications for Admission
1. Admission to the program is limited and competitive.
2. To be eligible for consideration for admission, an applicant shall meet the requirements described under General Regulations, Qualification for Admission, or shall have qualifications and/or engineering experience that is acceptable to the Dean of Graduate Studies and to the Faculty of Engineering and Applied Science.
3. To be eligible for consideration for admission, applicants will meet the English Proficiency requirements described under General Regulations, English Proficiency Requirements.

13.10.2 Program of Study
1. The Diploma program requires the completion of 18 credit hours as follows:
   a. Engineering 9115, 9116, 9121, and 9411; and
   b. two courses selected from Engineering 9396, 9516, 9609, 9622.

13.11 Master of Applied Science Programs
The Faculty of Engineering and Applied Science offers the following course-based programs:

13.11.1 Computer Engineering
In addition to the research-focused M.Eng. Degree in Computer Engineering, the Faculty of Engineering and Applied Science offers a course-based program in Computer Engineering leading to a Master of Applied Science Degree in Computer Engineering. For details of program requirements for the M.A.Sc. Degree in Computer Engineering, refer to the regulations governing the Degree of Master of Applied Science.

13.11.2 Environmental Systems Engineering and Management
The Faculty of Engineering and Applied Science offers a course-based program in Environmental Systems Engineering and Management. For the details of the program requirements for the M.A.Sc. Degree in Environmental Systems Engineering and Management refer to the regulations governing the Degree of Master of Applied Science in Environmental Systems Engineering and Management.

13.11.3 Oil and Gas Engineering
The Faculty of Engineering and Applied Science offers a course-based program in Oil and Gas Engineering. For the details of the program requirements for the M.A.Sc. degree in Oil and Gas Engineering refer to the regulations governing the Degree of Master of Applied Science in Oil and Gas Engineering.
13.12 Master of Engineering Management

13.12.1 Engineering Management
See regulations governing the Degree of Master of Engineering Management.

13.13 Courses
A selection of the following graduate courses will be offered to meet the requirements of the candidates, as far as the resources of the Faculty will allow.

13.13.1 Required Course
9100 Engineering Graduate Seminar (1 credit hour)

13.13.2 Core Courses
9002 Ocean Engineering Structures
9015 Ocean Engineering Hydrodynamics
9110 Advanced Petroleum Production Engineering
9113 Phase Behaviour of Petroleum Reservoir Fluids
9114 Advanced Reservoir Engineering
9115 Safety and Risk Engineering
9118 Advanced Drilling Engineering
9121 Advanced Safety, Risk and Reliability Modeling
9211 Experimental Methods
9411 Probabilistic Methods in Engineering
9420 Engineering Analysis
9496 Modeling and Simulation of Dynamic Systems
9501 Finite Element Analysis with Engineering Applications
9505 Structural Dynamics and Vibrations
9516 Similitude, Modelling and Experimental Data Analysis
9520 Solid and Structural Mechanics
9550 Fatigue, Fracture and Corrosion
9609 Environmental Risk Assessment
9627 Environmental Systems Engineering
9816 Antenna Theory
9821 Digital Signal Processing
9826 Advanced Control Systems
9827 Continuous and Discrete-Event Systems
9834 Advanced Power Electronics
9847 Computer and Control Methods in Power Systems
9881 High-Performance Computer Architecture
9885 Advanced Digital Systems
9887 Advanced Computing Concepts for Engineering
9871 Information Theory and Coding
9874 Software Design and Specification
9876 Advanced Data Networks
9901 Fundamentals of Fluid Dynamics
9902 Advanced Transport Phenomena
9921 Advanced Engineering Materials
9940 Advanced Robotics
9977 Computational Fluid Dynamics

13.13.3 Other Courses
9022 Marine Geotechnical Engineering
9052 Ice Properties and Mechanics
9090/99 Special Topics in Ocean Engineering (excluding 9096)
9096 Marine and Offshore Ice Engineering
9111 Well Testing
9112 Multiphase Flow
9116 Reliability Engineering
9117 Offshore Petroleum Geology and Technology
9119 Compact Process Equipment Design
9120 Advanced Natural Gas Engineering
9150-59 Special Topics in Oil and Gas Engineering
9200 Industrial Internship
9210 Advanced Engineering Materials
9390/94 Special Topics in Engineering Management
9440 Optimization Principles in Engineering
9495/99 Special Topics in Engineering Analysis (excluding 9496)
9540/49 Special Topics in Mechanics, Structures and Materials
9560 Applied Remote Sensing
9601 Environmental Pollution and Mitigation (cross-listed as Environmental Science 6004)
9603 Environmental Sampling and Pollutant Analysis (cross-listed as Environmental Science 6005)
9605 Water and Wastewater Treatment
9610/15 Special Topics in Environmental Engineering and Applied Science
9621 Soil Remediation Engineering
9622 Environmental Statistics
9625 Environmental Impacts of Offshore Oil and Gas Operations
9626 Environmental Management System
9628 Environmental Laboratory
14 Regulations Governing the Degree of Master of Engineering Management

www.engr.mun.ca

Professor and Dean
G. Naterer

Students must meet all regulations below in addition to the General Regulations of the School of Graduate Studies of Memorial University of Newfoundland.

14.1 Program of Study
1. The Faculty of Engineering and Applied Science in collaboration with the Faculty of Business Administration offers a program in Engineering Management leading to the degree of Master of Engineering Management (M.E.M.). The program is available on a full-time or part-time basis.
2. The program is offered by the Faculty of Engineering and Applied Science and the Faculty of Business Administration and will be administered by a Board of Studies appointed jointly by the Dean of Engineering and Applied Science and the Dean of Business Administration.

14.2 Deadlines for Applications
Applications are normally considered for Fall (September) entry only. Applications and all supporting documents must be received no later than May 1 for Canadian applicants and no later than April 1 for international applicants. Individuals submitting applications and/or supporting documents later than the relevant deadline will be processed only if time and resources permit.

14.3 Qualifications for Admission
1. Admission to the program is limited and competitive.
2. To be eligible for consideration for admission, an applicant shall normally hold at least a Bachelor's Degree in an engineering discipline, with a minimum ‘B’ standing, from a university recognized by Senate.
3. To be eligible for consideration for admission, applicants who did not complete a four-year baccalaureate degree at a recognized university where English is the primary language of instruction must normally complete either the:
   a. Test of English as a Foreign Language (TOEFL) and achieve a paper-based score of 580 (or higher), computer-based score of 237 (or higher) or Internet-based score of 92-93 (or higher); or
   b. International English Language Testing System (IELTS) and achieve a score of 7 (or higher).

Information regarding the TOEFL is available from the Educational Testing Service at www.ets.org. Information regarding IELTS is available at www.ielts.org. It is noted that other equivalent tests acceptable to the School of Graduate Studies may also be offered annually on a regular basis. Other courses will be offered if required in a student's program and dependent upon Faculty resources.
4. Applicants will normally be interviewed by representatives of the Board of Studies as part of the admission process.

14.4 Degree Requirements
The degree program requires the completion of 36 credit hours, 6 of which comprise a project course.

1. Students are normally required to complete 21 credit hours in Engineering courses including 930A/B, 9396, 9397 and 9 additional credit hours selected from the Master of Engineering, Core Courses or the Master of Engineering, Other Courses offered for the Master of Engineering program. Up to 3 credit hours may be taken from undergraduate courses approved for the student's program by the Dean of Graduate Studies on the recommendation of the Faculty of Engineering and Applied Science.

2. Students are normally required to complete 15 credit hours in Business courses, including 8104, 8106, 8109 and 6 additional credit hours selected from the Elective Courses from the Faculty of Business Administration listing below.

3. Students who have not successfully completed a baccalaureate degree from a recognized university where English is the language of instruction will be required to complete an 8-week English as Second Language course prior to the start of the first regular academic semester.

14.5 Evaluation
Students must obtain a grade of at least 65% in all program courses to receive credit for the course towards their program requirements. Any student who fails to receive 65% or more in a course must repeat the course in the case of required courses, or must either repeat or replace the course with another program course in the case of elective courses. Only two such repetitions/replacements shall be permitted in the student's program. Should a grade of less than 65% be obtained in a repeated or replacement course, the student shall be required to withdraw from the program.

14.6 Courses

14.6.1 Required Core Courses
Business 8104 Organizations: Behaviour and Structure
Business 8106 Marketing
Business 8109 Accounting for Management
Engineering 9396 Engineering Management Topics
Engineering 9397 Advanced Modelling and Quality Management
Engineering 930A/B Engineering Management Project (6 credit hours) (formerly Engineering 9395)

14.6.2 Elective Courses from the Faculty of Business Administration
In addition to the courses noted below, and upon individual request, the Board of Studies may also consider particular 8000 or 9000-level Business courses provided that the course is deemed by the Board to be of satisfactory content relevant to the M.E.M. program and the student has satisfied the applicable prerequisites requirements for the course.

Business 8103 Statistical Applications in Management
Business 8107 Managing Ethics and Responsibility
Business 8108 Economics for Business
Business 8204 Human Resource Management
Business 8205 Information Systems
Business 8206 Managerial Finance
Business 8207 Operations Management
Business 8209 Leadership and Interpersonal Skills for Managers
Business 8210 Labour Relations

14.6.3 Elective Courses from the Faculty of Engineering and Applied Science
See Core Courses and Other Courses under Master of Engineering.

14.7 Industrial Internship Option
The Faculty permits graduates students to undertake internships of work in industry. These internships will allow students to either (a) enhance the application of their knowledge and skills within industry, or (b) complete a research project defined by the industry. Encouragement to undertake an internship will be given only where it is clear that one of these expectations can be met.

Students registered in the M.E.M. program may, with the permission of their Board of Studies, the Dean of the Faculty of Engineering and Applied Science, and the Dean of Graduate Studies, select the Industrial Internship Option. Students pursuing this option must satisfy the degree regulations for an M.E.M. program. In addition, students in the Industrial Internship Option:

1. shall normally complete at least 18 credit hours of the courses required for their program with an average of 75% or higher prior to the internship; the remaining required courses may be taken on campus or by distance
2. shall normally spend at least two continuous semesters on campus on a full-time basis as a graduate student at this University
3. shall normally spend 4 to 8 months of their program at an internship in industry
4. shall submit monthly reports to a university supervisor appointed by their Board of Studies, and shall submit a concise progress report to their Board of Studies no later than the end of each semester while on an internship
5. shall normally not opt out once the internship starts.
15 Regulations Governing the Degree of Master of Environmental Science

www.mun.ca/sgs
(see also Master of Science in Environmental Science)

Board of Studies
Dr. N. Catto, Department of Geography - Chair
Dr. C. Campbell, Division of Science, Grenfell Campus, ex-officio
Dr. B. Chen, Faculty of Engineering and Applied Science
Dr. P. Marino, Head, Department of Biology
Dr. W. Montevecchi, Department of Psychology
Dr. S. Ziegler, Department of Earth Sciences

15.1 Program of Study
1. The Environmental Science Program is an interdisciplinary graduate program involving the departments of the Faculty of Science, the Faculty of Arts, the Faculty of Medicine, and the Faculty of Engineering and Applied Science. There are three Environmental Science Graduate Degree streams: the Master of Science (M.Sc., Environmental Science), Master of Environmental Science (M.Env.Sci.), and the Doctor of Philosophy (Ph.D., Environmental Science). The program is available on a full or part-time basis.
2. The program is administered by a Board of Studies appointed by the Dean of Science. Supervisors of graduate students in the program include faculty from the Faculty of Science, the Faculty of Arts, the Faculty of Engineering and Applied Science, the Faculty of Medicine, and the Environmental Science Program at the Grenfell Campus, as well as adjunct appointees to the program (as a co-supervisor).

15.2 Qualifications for Admission
Admission is limited and competitive. To be considered for admission applicants shall normally hold a Bachelor’s (Honours) degree in Science, Geography, or Environmental Science with at least second class standing, or equivalent, or a Bachelor’s degree in Engineering from an institution recognized by the Senate, or shall have qualifications and/or environmental experience acceptable to the Dean of Graduate Studies and the Board of Studies. The Board of Studies will make recommendations on admission to the Dean of Graduate Studies.

15.3 Degree Requirements
To the extent that resources permit, individual programs will be developed to suit students' interests and needs. However all programs must be approved by the Board of Studies and by the Dean of Graduate Studies. All General Regulations of the School of Graduate Studies shall apply to these degrees.
1. The Master of Environmental Science (M.Env.Sci.) is a multidisciplinary course-based degree, focussed on environmental issues. The Degree program provides for both multidisciplinary courses and for courses focussed on the student's specific area of interest.
2. The Degree program requires completion of 24 credit hours of either Option A or Option B and a project report. The project report will be evaluated according to procedures outlined in General Regulations, Theses and Reports.

Option A
Students will be required to take a minimum of 15 credit hours in program courses, 9 credit hours of which must be Environmental Science 6000, Environmental Science 6009, and Environmental Science 6010 and 6 credit hours from Environmental Science 6001, 6002, and 6003. Students will also be required to take a minimum of 6 credit hours in elective courses approved by the Board of Studies, 6 credit hours of which will normally be selected from graduate courses offered by the Faculty of Science and the Faculty of Engineering and Applied Science. Students are advised to consult with instructors and Faculties regarding necessary prerequisites and availability.

Option B
Students will be required to take a minimum of 15 credit hours in program courses, 9 credit hours of which must be Environmental Science 6000, Environmental Science 6009, and Environmental Science 6010 and 6 credit hours from Environmental Science 6001, 6002, and 6003. Students will also be required to take a minimum of 3 credit hours course Environmental Science 601W (work term). In addition, students will be required to complete the 3 credit hour course Environmental Science 6010W (work term).

Environmental Science 601W is a work term of one semester duration. Work term placements are arranged by Co-operative Education in consultation with the Program Chair and the student's Supervisor. The on-site employment supervisor and Co-operative Education evaluate the work term based on the student’s performance on the job and on a written work term report submitted by the student. The topic of the work term report must be related to the work experience and will be chosen by the student in consultation with the on-site employment supervisor and Co-operative Education. The student will be permitted to submit a work term report only after the on-site employment supervisor and Co-operative Education determine that the work term has been successfully completed. The work term report may become the basis for the project report for Environmental Science 6009 (Project) which is required for the M.Env.Sci. Degree. The Program Chair, on the advice of Co-operative Education with input from the on-site employment supervisor, will recommend to the Dean of Graduate Studies a grade of Pass with Distinction, Pass, or Fail. In cases where Co-operative Education and the on-site employment supervisor are unable to reach agreement concerning the grade, the final decision lies with the Program Chair. Should a student fail to complete a work term successfully, the graduate student’s M.Env.Sci. Supervisor and the Program Chair may submit to Co-operative Education a proposal for a different work term placement (only once), or the student may apply to the Board of Studies for a change to the course-based M.Env.Sci. Option A, or to the thesis-based M.Sc. (Environmental Science).

15.4 Courses
6000 Environmental Science and Technology
6001 Earth and Ocean Systems
6002 Environmental Chemistry and Toxicology
6003 Applied Ecology
6004 Environmental Pollution and Mitigation (cross-listed as ENGI 9601)
6007 Environmental Risk Assessment (cross-listed as ENGI 9609)
16 Regulations Governing the Degree of Master of Gender Studies

www.mun.ca/arts
www.mun.ca/genderstudies

Associate Professor and Head of the Department
P. Dold

16.1 General Information
The Master of Gender Studies degree allows students to examine critically - at an advanced level - how gender shapes our identities, our social interactions and our world. Students will incorporate, into their study, frameworks for thinking about power relations and the ways those relations are shaped and challenged by intersecting constructions of gender, race, class, sexuality, age, ability, and nationality.

Faculty members in the Department of Gender Studies bring research expertise and interests in a range of fields, including: citizenship and human rights; corporeal feminism; reproductive rights, auto-biography, and life writing; postcolonial and transnational feminisms; and First Nations studies. This master’s program offers a thriving environment that draws on the expertise of scholars from a wide range of academic disciplines.

The program is administered by the Department of Gender Studies and the Graduate Studies Advisory Committee.

The Graduate Co-ordinator, on behalf of the Department of Gender Studies, Graduate Studies Advisory Committee, makes recommendations to the Dean of Graduate Studies concerning admission, and financial support for students, and administers all other matters pertaining to the graduate program.

The Master of Gender Studies Degree offers, by full or part-time study, three degree options: thesis, project, or internship.

16.2 Qualifications for Admission
1. Admission is limited and competitive. To be considered for admission, an applicant will normally hold an Honours Degree or equivalent, and will have a breadth of knowledge in Gender Studies satisfactory to the Graduate Studies Advisory Committee.

2. Applicants who do not have an adequate background in Gender Studies may be required to complete Gender Studies 3005 or Gender Studies 3025 or equivalent normally with a grade of 75% or higher.

16.3 Program of Study
1. Upon admission, each graduate student in the thesis program will be assigned an academic advisor for one year. The supervisory committee, formed prior to the development of the thesis project proposal, will include two supervisors. For students selecting the non-thesis option, one Supervisor will be selected.

2. All candidates are required to complete Gender Studies 6000, 6100, and 6200.

3. Three to 9 additional elective credit hours approved by the Graduate Studies Advisory Committee and the student's supervisor(s) will be required. These elective credit hours will comprise courses selected from graduate courses in cognate academic units, and/or Gender Studies 6300 and/or from the block of special topics courses in Gender Studies 6400-6420.

4. Each student will be required to give a public seminar on her/his thesis research, project, or internship after the thesis proposal has been approved and before submission of her/his final thesis/project/internship report.

16.4 Thesis
1. Candidates for the Degree of Master of Gender Studies (thesis option) will be required to complete a minimum of 15 credit hours. Candidates will also be required to complete a thesis.

2. A thesis proposal, approved by the student’s supervisors, will be presented to the Graduate Studies Advisory Committee for its approval. The thesis proposal must normally be approved by the Graduate Studies Advisory Committee no later than the end of the candidate’s third semester in the program.

3. The thesis will be evaluated in accordance with the procedures outlined in General Regulation Theses and Reports of the School of Graduate Studies.

16.5 Project
1. Candidates for the Degree of Master of Gender Studies (project option) will be required to complete a minimum of 18 credit hours. Candidates will also be required to complete a project.

2. The Master's project must be interdisciplinary in nature and aimed at linking theoretical and practical knowledge by recognizing and articulating a problem relevant to Gender Studies and by developing and justifying theoretical and practical approaches. The project report should consist of the project (e.g., a film or video; a computer project; a website; a manual or guidebook; a kit of learning resources; photographs; audio or videotape, etc.) as well as a literature-based rationale, theoretical basis and justification for its use. The length of the written portion of the project should be 40-60 pages. Regardless of the form that the project takes (e.g., a film or video) a computer project; a website; a manual or guidebook; a kit of learning resources; photographs; audio or videotape, etc.) there must be a written project report.

3. A project proposal, approved by the student’s supervisor, will be presented to the Graduate Studies Advisory Committee for its approval. The project proposal must normally be approved by the Graduate Studies Advisory Committee no later than the end of the candidate’s third semester in the program.

4. The project will be evaluated in accordance with procedures outlined in General Regulation Theses and Reports of the School of Graduate Studies.
16.6 Internship
1. Candidates for the Degree of Master of Gender Studies (internship option) will complete a minimum of 18 credit hours. Candidates will also be required to complete an internship.
2. Internship placement shall be for one semester. Part-time internships of two semesters will require approval from the proposed agency or institution and the Graduate Studies Advisory Committee.
3. Students, in consultation with their supervisor and the Gender Studies Graduate Co-ordinator, will explore internship options and locate an eligible person to provide field instruction during their internship. Although consideration will be given to all factors affecting the location and type of all Gender Studies internships, the final decision regarding internship rests with the Head, Department of Gender Studies and the Dean of Graduate Studies.
4. Factors affecting the type and location of the internship include: the number of immersion hours per week, the extent to which the intern takes up a trainee, supervisory and/or research role, and whether the intern would be working directly or indirectly with clients of the agency or institution.
5. Each internship shall be supervised by a Supervisory Committee of at least three members, including the candidate’s supervisor, the field supervisor, and Gender Studies Graduate Co-ordinator or her/his delegate.
6. The Supervisory Committee will meet with the intern and field supervisor at least once during the internship period to make an assessment of the nature and quality of the intern’s progress, and to approve any modifications to the internship.
7. The internship proposal, approved by the student’s supervisor, will be presented to the Graduate Studies Advisory Committee for its approval. The proposal must normally be approved by the Graduate Studies Advisory Committee no later than the end of the candidate’s third semester in the program.
8. Regardless of the form that the internship takes, there must be a written internship report (40-60 pages). When the candidate completes the internship report, the Supervisory Committee will recommend to the Dean of Graduate Studies a grade of pass or fail. A candidate will be permitted to submit an internship report only after the Supervisory Committee has determined that the internship placement has been fully completed.
9. Should the Head, Department of Gender Studies, on the recommendation of the Supervisory Committee, terminate the internship prior to its completion, it may recommend to the Dean of Graduate Studies one of the following:
   a. submission of a new internship proposal for a different field setting (once only);
   b. selection of the thesis or project option;
   c. termination of the student’s program.

16.7 Courses
6000 Feminist Theory
6100 Feminist Epistemologies and Methodologies
6200 Graduate Seminar in Gender Studies
6300 Feminism as Community
6400-6420 Special Topics in Gender Studies

17 Regulations Governing the Degree of Master of Health Ethics
www.med.mun.ca
Professor and Dean
J. Rourke

The degree of Master of Health Ethics is offered by the Faculty of Medicine, delivering an advanced program of study for students from various academic fields who are interested in a flexible graduate degree designed to prepare them for a career in ethics within health care organizations or, for those students completing the research option, further study in health ethics at the Ph.D. level.

The General Regulations of the School of Graduate Studies and the regulations outlined below will apply.

17.1 Qualifications for Admission
Admission to the Master of Health Ethics is limited and competitive. The regulations and procedures for admission are as given under the General Regulations of the School of Graduate Studies governing Master’s degrees. In addition, to be considered for admission applicants must have successfully completed a minimum of one senior level undergraduate course in Philosophy with substantial ethics content.

17.2 Program of Study
1. The Master of Health Ethics degree is offered by full or part-time study. Candidates may choose one of three program options: (1) Thesis option, (2) Non-thesis, Capstone Project option, (3) Non-thesis, Research Papers option. It is anticipated that full-time students will complete the program in four semesters in accordance with Table 1 Master of Health Ethics Recommended Course Sequence for Full-Time Students.
2. The program of study is the responsibility of the Supervisory Committee composed of a Supervisor and at least two other faculty members. It is the responsibility of the Supervisory Committee to meet regularly (at least annually) with the student and to provide guidance at all stages of the candidate’s program. An annual report prepared by the Supervisor and signed by the student and all members of the Committee is required to be submitted to the Assistant Dean of Research and Graduate Studies (Medicine).
3. All candidates must complete the following course requirements:
   a. MED 6800, MED 6801, and MED 6808
   b. 3 elective courses (9 credit hours) chosen in consultation with the Supervisor. Elective courses may be selected from the elective courses listing below (excluding MED 6820, 6821, 6822, and 6825) or from other courses approved by the Supervisor.
4. In addition, all candidates must complete a Health Ethics Practicum (MED 6815). The practicum will include three placements during the semester in which it is taken, one in each of the following areas of health ethics: clinical ethics, research ethics, and health ethics policy. Each placement will be approximately four weeks in length and students will be required to devote a minimum of 40 hours in overall placement activities. All course work identified above must be completed prior to initiation of the practicum.
5. Students must also complete one of the following in accordance with the program option to which they have been admitted:

- Table 1 Master of Health Ethics Recommended Course Sequence for Full-Time Students.
b. Three Health Ethics Research Papers (represented as MED 6820). Research topics will be chosen in consultation with, and approved by, the Supervisor. Students must register for the course MED 6820 in every semester during which they are completing one or more of the Research Papers necessary to satisfy this requirement. A grade of NC (No Credit) will be awarded in all semesters prior to the final semester. A grade of ‘B’ or better is required in each of the three required Research Papers in order to successfully complete this requirement and receive a grade of ‘Pass’ in the final semester. Each paper will be evaluated by the supervising faculty member and another faculty member qualified to evaluate the work.
c. A Health Ethics Capstone Project (MED 6825). The Capstone Project will be chosen in consultation with, and approved by, the Supervisor. Students must register for the course MED 6825 in every semester during which they are completing the Capstone Project. A grade of NC (No Credit) will be awarded in all semesters prior to the final semester. The completed Capstone Project will be evaluated by the supervising faculty member along with a representative of the external organization for which the project was undertaken.

18 Regulations Governing the Degree of Master of Marine Studies (Fisheries Resource Management)

www.mi.mun.ca
Vice-President (Marine Institute)
G. Blackwood

18.1 Administration
The programs will be administered by an Academic Director appointed by the Vice-President (Marine Institute), together with an Academic Advisory Committee.
An Academic Advisory committee will be appointed by the Dean of Graduate Studies on recommendation of the Vice-President (Marine Institute). This committee will consist of the Academic Director as Chair, three members from the Marine Institute and two members from other academic units of the University. Normally, all appointments will be for a period of three (3) years.
A Technical Advisory Committee consisting of a cross-section of members with professional expertise related to the fishery, will provide regular feedback on program content, instruction, and future direction of the Program. Members of this Committee will be appointed by the Dean of Graduate Studies on recommendation of the Vice-President (Marine Institute). The Academic Director will be an ex-officio member and Chair of the Technical Advisory Committee. Normally all appointments will be for a period of three (3) years.

18.2 Programs
There are two graduate programs in Fisheries Resource Management: the Graduate Diploma and the Master of Marine Studies.

18.3 Graduate Diploma
The Graduate Diploma in Fisheries Resource Management provides an opportunity for fisheries professionals to enhance their perspective on fishery issues from a variety of disciplines.

18.3.1 Admission Requirements
To be admitted to the Graduate Diploma in Fisheries Resource Management, a student must be eligible to register in the Master of Marine Studies program (see Master of Marine Studies, Admission Requirements below).

18.3.2 Program of Study
The program is offered online and requires successful completion of 18 credit hours of course work selected from the Courses section
18.3 Evaluation
Candidates for the Graduate Diploma in Fisheries Resource Management must obtain a grade of B or better in all program courses.

18.4 Master of Marine Studies
The Master of Marine Studies (Fisheries Resource Management) (M.M.S.) is a multi-disciplinary program of study that will provide the candidate with exposure to all dimensions of modern fisheries resource management in an international context. The program is aimed at professionals working in or intending to enter careers in fisheries management. The program is offered online and requires successful completion of either (a) 24 credit hours of course work and a Major Report, or (b) 30 credit hours of course work. Students who have successfully completed the requirements for the Graduate Diploma may elect to continue their program of study in order to earn the Degree.

18.4.1 Admission Requirements
1. Admission to the program is on a competitive basis. To be considered for admission to the program an applicant must normally have an undergraduate degree with a minimum of a high second class standing from an institution recognized by the Senate.
2. In addition to the academic requirements in 1. above applicants will normally have a demonstrated commitment to fisheries through employment or experience in a sector of the fishery, in a regulatory agency or government Department connected to fisheries, in a non-governmental agency, or through self-employment or consulting activities related to fisheries.
3. The deadlines for submission of applications for candidates wishing to enter studies are as follows:
   - Fall (September) semester: June 15
   - Winter (January) semester: October 15
   - Spring (May) semester: February 15
   Applications received after listed deadlines will be considered as time and resources permit.

18.4.2 Program of Study
1. Candidates for the Master of Marine Studies (Fisheries Resource Management) shall be required to complete a minimum of either:
   a. 24 credit hours of course work plus a Major Report on the Course Work Plus a Major Report Route completed in accordance with General Regulation, Theses and Reports of the School of Graduate Studies. Course work must include the following course selections from the Courses section below:
      - 5 core courses (15 credit hours)
      - 1 elective course (3 credit hours) from Category A Electives
      - 1 elective course (3 credit hours) from Category B Electives
      - 1 elective course (3 credit hours) from either Category A or Category B
   b. 30 credit hours on a Comprehensive Course Route which must include the following course selections from the Courses section below:
      - 5 core courses (15 credit hours)
      - 2 elective courses (6 credit hours) from Category A Electives
      - 1 elective course (3 credit hours) from Category B Electives
      - 2 elective courses (6 credit hours) from either Category A or Category B
2. Dependent upon the applicant’s academic background, other courses may be required by the Academic Advisory Committee.
3. Transfer of credit for graduate courses completed in other programs at the University or at other institutions recognized by Senate will be considered in accordance with School of Graduate Studies General Regulations, Transfer of Course Credits.
4. Those having partially completed the requirements for the degree under 2011-2012 Calendar Regulations may apply to transfer to one of the above program options and will be considered in accordance with the following:
   a. Those having previously completed all coursework required for the degree, but who have not submitted the Major Report, may satisfy the Comprehensive Course Route requirements by successfully completing an additional 6 credit hours of courses as follows:
      - MSTM 6005 (for students who completed the former FRM 6009 to satisfy the 24 credit hours of courses required under previous program regulations, an additional elective course chosen from Category A or B must be selected in place of this course)
      - One further elective course (3 credit hours) from Category A or B electives
   b. Those having previously completed all coursework required for the degree may satisfy the Major Report requirements by successfully completing:
      - MSTM 6001 (or the former FRM 6001)
      - MSTM 6002 (or the former FRM 6002)
      - MSTM 6003 (or the former FRM 6003)
      - MSTM 6004 (or either of the former FRM 6004 or FRM 6005)
      - MSTM 6005 (or the former FRM 6009)
      - a Major Report completed in accordance with General Regulation, Theses and Reports of the School of Graduate Studies together with the following course selections from the Courses section below:
         1 elective course (3 credit hours) from Category A Electives
         1 elective course (3 credit hours) from Category B Electives
         1 elective course (3 credit hours) from either Category A or Category B. The former FRM 6007 and/or FRM 6008 may be used to partially satisfy the elective requirement.
c. Those having previously partially completed the coursework required for the degree may satisfy the Comprehensive Course Route requirements by successfully completing:

- MSTM 6001 (or the former FRM 6001)
- MSTM 6002 (or the former FRM 6002)
- MSTM 6003 (or the former FRM 6003)
- MSTM 6004 (or either of the former FRM 6004 or FRM 6005)
- MSTM 6005 (or the former FRM 6009) together with the following course selections from the Courses section below:
  1. 1 elective course (3 credit hours) from Category A Electives
  2. 1 elective course (3 credit hours) from Category B Electives
  3. 3 elective courses (9 credit hours) from either Category A or Category B. The former FRM 6007 and/or FRM 6008 may be used to partially satisfy the elective requirement.

18.4.2.1 Course Work Plus a Major Report Route

24 credit hours of course work plus a Major Report completed in accordance with General Regulations, Theses and Reports of the School of Graduate Studies. Course work must include the following course selections from the Courses section below:

1. 5 core courses (15 credit hours)
2. 1 elective course (3 credit hours) from Category A Electives
3. 1 elective course (3 credit hours) from Category B Electives
4. 1 elective course (3 credit hours) from either Category A or Category B

18.4.2.2 Comprehensive Course Route

30 credit hours on the Comprehensive Course Route which must include the following course selections from the Courses section below:

1. 5 core courses (15 credit hours)
2. 2 elective courses (6 credit hours) from Category A Electives
3. 1 elective course (3 credit hours) from Category B Electives
4. 2 elective courses (6 credit hours) from either Category A or Category B

18.4.3 Evaluation

1. Candidates for the Master’s Degree must obtain a grade of B or better in all program courses.
2. Candidates who have received a grade less than a B in a program course will be permitted to remain in the program, provided the course is retaken and passed with a grade of B or better. Alternatively, the candidate may, on the recommendation of the Academic Advisory Committee, substitute another graduate course. Only one such repeat or substitution will be permitted in the program.
3. The Major Report will normally be undertaken towards the end of the program. The topic of the report and a faculty Supervisor will be chosen by the candidate in consultation with the Academic Advisory Committee. The report provides an opportunity to synthesise an original perspective on a selected fisheries issue through the examination of appropriate literature and other sources of information. Normally the report will be multi-disciplinary in nature and will result in a document equivalent to a publishable periodical journal article or a consultant’s report on a particular issue. It will be assessed in accordance with General Regulations, Theses and Reports of the School of Graduate Studies.

18.5 Courses

18.5.1 Core Courses

- MSTM 6001 Fisheries Ecology (credit may be obtained for only one of MSTM 6001 and the former FRM 6001)
- MSTM 6002 Fisheries Resource Assessment Strategies (credit may be obtained for only one of MSTM 6002 and the former FRM 6002)
- MSTM 6003 Fisheries Economics (credit may be obtained for only one of MSTM 6003 and the former FRM 6003)
- MSTM 6004 Fisheries Policy and Planning (credit may be obtained for only one of MSTM 6004, the former FRM 6004, and the former FRM 6005)
- MSTM 6005 Overview of World Fisheries (credit may be obtained for only one of MSTM 6005 and the former FRM 6009)

18.5.2 Category A Electives

- MSTM 6006 Business Management for Fisheries (credit may be obtained for only one of MSTM 6006 and the former FRM 6006)
- MSTM 6007 Fisheries Technology
- MSTM 6008 Social and Philosophical Issues of Fisheries Management
- MSTM 6009 Current Issues for Sustainable Fisheries
- MSTM 6010 Legal Aspects of Fisheries Resource Management

18.5.3 Category B Electives

- MSTM 6022 Communication and Conflict Resolution in a Technical Environment
- MSTM 6023 Strategic Planning, Policy, Participation and Management in Technical Operations
- MSTM 6033 Quality Systems
- MSTM 6034 Project Management in the Offshore, Health, Fisheries and Engineering Technology Environments
- MSTM 6039 Sustainability and Environmental Responsibility
- MSTM 6044 Marine Environment Law and Pollution Control
- MSTM 6056 Management for International Development
- MSTM 6071 Management of Aquaculture Technology
19 Regulations Governing the Degree of Master of Maritime Management

www.mi.mun.ca
Vice-President (Marine Institute)
G. Blackwood

19.1 Administration

The Master of Maritime Management (M.M.M.) program will be administered by an Academic Director appointed by the Vice-President (Marine Institute), together with an Academic Advisory Committee.

An Academic Advisory Committee will be appointed by the Dean of Graduate Studies on recommendation of the Vice-President (Marine Institute). This committee will consist of the Academic Director as Chair, three members from the Marine Institute, one member from the Faculty of Business Administration and one member from another unit of the University. Normally, all appointments will be for a period of three (3) years.

A Technical Advisory Committee, consisting of a cross-section of members with professional expertise related to the maritime sector, will provide regular feedback on program content, instruction, and future direction of the Program. Members of this Committee will be appointed by the Dean of Graduate Studies on recommendation of the Vice-President (Marine Institute). The Academic Director will be an ex officio member and Chair of the Technical Advisory Committee. Normally all appointments will be for a period of three (3) years.

19.2 Program

The Master of Maritime Management (M.M.M.) is a comprehensive academic program that provides a broad understanding of the structure and operation of organizations and the factors that influence business decisions in the context of maritime-based organizations. It provides a maritime management focus through the development of knowledge and understanding of the nature of technical operations and the factors that have an impact on their success, as well as the ability to apply these concepts within their organizations.

The program is offered online and requires successful completion of either 1) 24 credit hours of course work and a comprehensive project and report (6 credit hours), or 2) 30 credit hours of course work. Candidates will typically register on a part-time basis.

19.2.1 Admission Requirements

1. Admission to the program is on a competitive basis. To be considered for admission to the program an applicant will normally possess a second class or better undergraduate degree from a university of recognized standing and will normally have:
   a. a Memorial University of Newfoundland Bachelor of Maritime Studies or Bachelor of Technology, or a comparable undergraduate degree with appropriate maritime sector and business management course work; and
   b. an appropriate technical knowledge and relevant marine sector employment experience.

2. The deadlines for submission of applications for candidates wishing to enter studies are as follows:
   - Fall (September) semester: May 15
   - Winter (January) semester: September 15
   - Spring (May) semester: January 15

   Applications received after listed deadlines will be considered as time and resources permit.

3. In exceptional cases, applicants who have not completed an undergraduate degree, but who meet all other requirements, may be considered for admission. Preference will be given to those who have at least 10 years of relevant professional and managerial experience, and have successfully completed several years of post-secondary studies. Applicants who do not meet normal admission requirements shall be required to complete, with a high level of achievement, certain undergraduate courses before being considered for admission.

4. Applicants who did not complete a baccalaureate or post-graduate degree at a recognized university where English is the primary language of instruction must normally complete either the:
   a. Test of English as a Foreign Language (TOEFL) and achieve a paper-based score of 580 (or higher), computer-based score of 237 (or higher), or Internet based score of 92-93 (or higher); or
   b. International English Language Testing System (IELTS) and achieve a score of 7 (or higher).

   Information regarding the TOEFL is available from the Educational Testing Service at www.ets.org. IELTS information is available at www.ielts.org. It is noted that other equivalent tests acceptable to the School of Graduate Studies will also be considered.

19.2.2 Program of Study

1. Candidates for the Master of Maritime Management shall be required to complete a minimum of either:
   a. Twenty-four credit hours of course work and a major project and report (6 credit hours). Course work includes two compulsory core courses (6 credit hours), and six elective courses (18 credit hours). Students on the project route will complete MSTM 6101 Project in Maritime Management (6 credit hours).
      i. Core Courses (Two to be completed):
         MSTM 6041 Marine Policy
         MSTM 6042 Business of Shipping/Transportation of Goods
      ii. Elective Courses (Six to be completed: a minimum of one from Category A and three from Category B):
         Category A
         MSTM 6022 Communication and Conflict Resolution in a Technical Environment
         MSTM 6023 Strategic Planning, Policy, Participation and Management in Technical Operations
         MSTM 6030 Principles of Management for Engineering Technology Enterprises
         MSTM 6034 Project Management in the Offshore, Health, Fisheries and Engineering Technology Environments
         MSTM 6039 Sustainability and Environmental Responsibility
         MSTM 6052 Management of Intellectual Property
         MSTM 6054 Technology Assessment
         Category B
         MSTM 6027 Coastal and Ocean Environmental Policies
The Degree of Master of Music (M.Mus.) is offered by full-time study, normally commencing in the Fall semester. Three areas of specialization are offered:

1. Conducting. Students may focus in choral conducting, instrumental conducting, or a combination of choral and instrumental conducting.

2. Performance. For a complete list of applied areas of study, see the School of Music website at www.mun.ca/music.

3. Performance/Pedagogy. For a complete list of applied areas of study, see the School of Music website at www.mun.ca/music.

The Master of Music (M.Mus.) program provides the environment for accelerated advances in comprehension, skills, and abilities as a performing musician, music pedagogue, or conductor while offering experience in the metier of the contemporary musician. To that end, the School of Music has forged active partnerships with many of the professional music organizations and institutions within the arts community in the greater St. John's region which afford an exceptional range of professional experiences to its graduate students. Included among these partners are the Newfoundland Symphony Orchestra, the Canadian Broadcasting Company, Heritage Canada, the Newfoundland and Labrador Arts Council, and many others. Within the areas of specialization offered for the M.Mus., there is considerable flexibility available to further focus the program to meet specific interests and needs.

19.2.3 Evaluation

1. Candidates for the Master of Maritime Management degree must obtain a grade of B or better in all program courses.

2. Candidates who receive a grade of less than B in any course will be permitted to remain in the program provided the course is repeated and passed with a grade of B or better. Alternatively, the candidate may, on the recommendation of the Academic Director, and with the approval of the Dean of Graduate Studies, substitute another graduate course. Only one course repetition or substitution will be permitted during the candidate's program after which the candidate shall be required to withdraw from the program.

20 Regulations Governing the Degree of Master of Music

www.mun.ca/music

Professor and Dean pro tempore
M. Volk

The Master of Music (M.Mus.) program provides the environment for accelerated advances in comprehension, skills, and abilities as a performing musician, music pedagogue, or conductor while offering experience in the metier of the contemporary musician. To that end, the School of Music has forged active partnerships with many of the professional music organizations and institutions within the arts community in the greater St. John's region which afford an exceptional range of professional experiences to its graduate students. Included among these partners are the Newfoundland Symphony Orchestra, the Canadian Broadcasting Company, Heritage Canada, the Newfoundland and Labrador Arts Council, and many others. Within the areas of specialization offered for the M.Mus., there is considerable flexibility available to further focus the program to meet specific interests and needs.

20.1 Program of Study

The Degree of Master of Music (M.Mus.) is offered by full-time study, normally commencing in the Fall semester. Three areas of specialization are offered:

1. Conducting. Students may focus in choral conducting, instrumental conducting, or a combination of choral and instrumental conducting.

2. Performance. For a complete list of applied areas of study, see the School of Music website at www.mun.ca/music.

3. Performance/Pedagogy. For a complete list of applied areas of study, see the School of Music website at www.mun.ca/music.

The specialization of Ethnomusicology is available through the degrees Master of Arts and Doctor of Philosophy. For further information see the section Regulations Governing the Degree of Master of Arts, Ethnomusicology and the section Regulations Governing the Degree of Doctor of Philosophy, Ethnomusicology, respectively.
20.2 Qualifications for Admission

1. Admission to the program is limited and competitive. The application deadline is December 15 for admission to the following Fall semester. Under special circumstances, applicants may be considered for admission to the Winter semester. For further information, contact the School of Music.

2. To be eligible for consideration for admission, applicants shall meet the requirements set out in General Regulations for Admission, Master’s Program. Applicants to the M.Mus. will normally hold a Bachelor of Music or equivalent from a recognized university or conservatory. Preference will be given to applicants who hold first class standing in their undergraduate program.

3. In addition to the requirements above, admission is further determined by audition.
   a. Auditions for September entry are normally held in late February or early March of each year. Check the School of Music website at www.mun.ca/music for dates and locations.
   b. Applicants to the M.Mus. in Performance or Performance/Pedagogy may submit the audition as a professional quality video recording if they are unable to attend the live auditions. The recording must be unedited; live performances are preferred. The audition program should display a range of performance styles and repertoire. Applicants should consult the School of Music website at www.mun.ca/music for details on length of audition and appropriate repertoire.
   c. Applicants to the M.Mus. in Conducting should submit professional quality video recordings of their work with a minimum of two different types of ensembles. These video recordings should include both rehearsals and performances.

4. Applicants may also be asked to submit a sample of their academic written work.

5. Once they have been admitted, students may be required to write diagnostic exams in music theory, aural skills, and/or music history. Voice and choral conducting students will also have their knowledge of lyric diction assessed. If weaknesses are identified, students may be required to complete remedial undergraduate course work.

20.3 Degree Requirements

1. The Degree of Master of Music is normally completed in two years of full-time study. Comprehensive examinations are not administered. The normal residency period may, in some instances, be reduced through Summer and Intersession study.

2. All candidates for the M.Mus. must complete at least 31 credit hours. Further courses may be required depending on the background of the individual student.

3. All candidates must complete:
   a. Music Research Methods: Music 6000 (1 credit hour)
   b. Music Seminar: Music 6002
   c. Career Skills for Musicians: Music 6700
   d. Further courses may be required depending on the background of the individual student.

4. Candidates in Conducting must complete an additional 24 credit hours according to their area of focus:
   a. Choral Conducting
      i. Choral Conducting: Music 6310, 6311, 7310
   b. Instrumental Conducting
      i. Instrumental Conducting: Music 6210
   c. Score Study and Analysis: Music 6100
   d. Choral Repertoire: Music 6007
   e. Electives: Six credit hours. With the approval of the School of Music. 3 credit hours may be from related disciplines.
   b. Instrumental Conducting
      i. Instrumental Conducting: Music 6210, 6211, 7210
      ii. Choral Conducting: Music 6310
      iii. Score Study and Analysis: Music 6100
      iv. Orchestral or Instrumental Ensemble Repertoire: Music 6006 or 6008
      v. Electives: Six credit hours. With the approval of the School of Music. 3 credit hours may be from related disciplines.
   c. Combined Choral/Instrumental Conducting
      i. Instrumental Conducting: Music 6210, 6211
      ii. Choral Conducting: Music 6310, 6311
      iii. Score Study and Analysis: Music 6100
      iv. Ensemble Repertoire: One of Music 6006, 6007, or 6008
      v. Electives: Six credit hours. With the approval of the School of Music. 3 credit hours may be from related disciplines.

5. Candidates in Performance must complete an additional 24 credit hours as follows:
   a. Principal Applied Study: Music 645A/B, 745A/B
   b. Other Applied Study: 3 credit hours from Music 6500-6506, 646A/B
   c. Music Pedagogy: Music 6400 or Music 6600
   d. Electives: Six credit hours. With the approval of the School of Music. 3 credit hours may be from related disciplines.

6. Candidates in Performance/Pedagogy must complete an additional 24 credit hours as follows:
   a. Principal Applied Study: Music 647A/B, 747A/B
   b. Music Pedagogy: Music 6400 and 6600
   c. Pedagogy Internship: Music 6610
   d. Electives: 3 credit hours

### 20.4 Evaluation

1. Candidates must meet all requirements of the **General Regulations** of the School of Graduate Studies.
2. Candidates must obtain a grade of at least 65% in all program courses to receive credit for the course toward their program requirements. Candidates who fail to receive 65% or more in a required course must repeat the course. Candidates who fail to receive 65% or more in an elective course must either repeat the course or replace it with another program course. Any student who receives a grade of less than 65% in two courses or in a repeated course will be required to withdraw from the program.
3. In addition, failure to receive a grade of 75% or higher in any of Music 645A/B, Music 745A/B, Music 647A/B, Music 747A/B, Music 6210, Music 6211, Music 6310, Music 6311, Music 7210, or Music 7310 will lead to termination of the student’s program.

### 20.5 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the School will allow. All courses are 3 credit hours unless otherwise indicated.

- 6000 Music Research Methods (1 credit hour)
- 6002 Graduate Seminar
- 6005 Performance Practice
- 6006 Instrumental Ensemble Repertoire
- 6007 Choral Repertoire
- 6008 Orchestral Repertoire
- 6009 Music Literature
- 6100 Score Study and Analysis
- 6210 Instrumental Conducting I
- 6211 Instrumental Conducting II
- 6212 Instrumental Conducting Internship I (1 to 3 credit hours)
- 6213 Instrumental Conducting Internship II (1 to 3 credit hours)
- 6310 Choral Conducting I
- 6311 Choral Conducting II
- 6312 Choral Conducting Internship I (1 to 3 credit hours)
- 6313 Choral Conducting Internship II (1 to 3 credit hours)
- 6400 Music Pedagogy
- 645A/B Principal Applied Study I (6 credit hours)
- 646A/B Secondary Principal Applied Study (4 credit hours)
- 647A/B Principal Applied Study I (6 credit hours)
- 6500 Chamber Music (2 credit hours per semester. Maximum: 8 credit hours)
- 6501 Chamber Music (3 credit hours per semester. Maximum: 12 credit hours)
- 6502 Opera Performance (2 credit hours)
- 6503 Opera Performance (3 credit hours)
- 6504 Chamber Music (1 credit hour per semester. Maximum: 4 credit hours)
- 6505 Conducted Instrumental Ensemble (1 credit hour per semester. Maximum: 4 credit hours)
- 6510 Seminar in Performance Issues
- 6600 Pedagogy Seminar
- 6610 Pedagogy Internship I
- 6611 Pedagogy Internship II
- 6700 Career Skills for Musicians
- 6701 Music in the Community (1 credit hour)
- 6702 Music in the Community (2 credit hours)
- 6703 Music in the Community (3 credit hours)
- 6750 Music Industries Internship (2 credit hours)
- 7002 Research Paper
- 7010 World Music: Music of Asia and Oceania
- 7011 World Music: Music of Africa and the Americas
- 7012 Canadian Musical Traditions
- 7013 Music and Culture
- 7017 Folksong
- 7018 Jazz and Blues: The Roots of Popular Music
- 7210 Instrumental Conducting III
- 7310 Choral Conducting III
- 745A/B Principal Applied Study II (6 credit hours)
21 Regulations Governing the Degree of Master of Nursing

www.mun.ca/nursing
Professor and Dean
A. Gaudine

21.1 Program
1. The responsibility for the administration of all graduate programs shall reside with the Dean of Graduate Studies.
2. Applicants for the program shall be required to apply for admission to the Dean of the School of Graduate Studies and shall be expected to follow the regulations, policies, and practices required of the School. Deadline for receipt of applications should be no later than February 15. If space is available, students who apply after the deadline date may be accepted.
3. The School of Nursing offers a Master of Nursing (M.N.) Program with two options: Practicum and Nurse Practitioner as well as a Post Master’s Nurse Practitioner Graduate Diploma.

21.2 Qualifications for Admission
1. Applicants to the Master of Nursing program in any of the two options listed above must have a baccalaureate Degree in nursing, or an equivalent from an institution recognized by the University and a knowledge of nursing satisfactory to the School of Nursing.
2. Admission to the program is limited and competitive. To be considered for admission, the applicant must have maintained at least a grade B standing in the baccalaureate program.
3. Applicants are also required to have a minimum of one year’s experience in nursing practice, and to have completed an undergraduate nursing research course, and a statistics course normally within the last 5 years such as Statistics 2500 or Education 2900 or their equivalents.
4. Applicants must hold a practising licence from the Association of Registered Nurses of Newfoundland and Labrador or must be currently registered as a practising nurse in another Canadian jurisdiction. Applicants from other countries who do not meet the above criteria will be assessed on an individual basis. However, they must submit proof of registration as a practising nurse (or an equivalency) from their country or jurisdiction.
5. In addition to the above requirements, candidates seeking admission to the MN-Nurse Practitioner Degree option must have two years of clinical experience preferably in their chosen specialty area.
6. In addition to requirements 1 and 4, candidates seeking admission to the Post Master’s Nurse Practitioner Graduate Diploma program must have completed a Master’s Degree in Nursing or an equivalent degree with a nursing focus and have two years of clinical nursing experience preferably in their chosen specialty area.
7. Only in exceptional circumstances and only on the recommendation of the School of Nursing shall the Dean of Graduate Studies consider applicants who do not meet admission requirements listed above.

21.3 Registration
See School of Graduate Studies General Regulations, Registration.

21.4 Programs of Study
There are two routes offered that lead to a Master of Nursing Degree, the Practicum Option and the Nurse Practitioner Option. Normally the program will require two years to complete when taken on a full-time basis. In addition to the M.N. Degree program, the School of Nursing also offers a Post Master’s Nurse Practitioner Graduate Diploma.

21.4.1 Practicum Option
1. Candidates must complete an approved program of study consisting of a minimum of 21 credit hours in graduate program courses and 6 credit hours in a consolidated practicum.

   Required courses:
   6010 Research in Nursing: Quantitative Methods
   6011 Philosophical and Theoretical Foundations of Nursing
   6100 Research in Nursing: Qualitative Methods
   6221 Population-based Nursing (equivalent to N6220 and N6230)
   6240 Nursing Individuals and Families Through Life Transitions (equivalent to N6200 and N6210)
   6250 Foundations for Advanced Nursing Practice

   One of the following courses:
   6020 Program Development in Nursing
   6031 Education in Nursing

   The following consolidated practicum courses:
   6660 MN Practicum I
   6661 MN Practicum II

2. The program of each candidate shall be approved by the Dean of Graduate Studies on the recommendation of the Dean of the School of Nursing.

21.4.2 Nurse Practitioner Option
1. Candidates must complete an approved program of studies consisting of a minimum of 36 credit hours in graduate program courses and an integrated clinical practice experience, comprising 12 credit hours.
Required courses:
6010 Research in Nursing: Quantitative Methods
6011 Philosophical and Theoretical Foundations of Nursing
6020 Program Development in Nursing
6100 Research in Nursing: Qualitative Methods
6221 Population-Based Nursing (equivalent to 6220 and 6230)
6240 Nursing Individuals and Families Through Life Transitions (equivalent to 6200 and 6210)
6251 Writing Skills for Nurse Practitioners (1 credit hour) *(Students who have transferred from the practicum option and have credit for 6250 Foundations for Nursing Practice will have this course waived)*
6701 Advanced Practice Issues and Role Development (2 credit hours)
6703 Advanced Health Assessment and Clinical Practicum I (4 credit hours)
6704 Applied Pathophysiology and Clinical Practicum II (4 credit hours)
6705 Pharmacotherapy and Therapeutics (3 credit hours)
6901 Advanced Clinical Practicum I (4 credit hours)

Either one of: 6800 Adult Advanced Clinical Decision Making (4 credit hours), 6802 Family/All Ages Clinical Decision Making (4 credit hours), or one of: 6803 to 6809 Nursing Specialty Option Courses (4 credit hours)

690X Advanced Clinical Practicum II (The integrated practice component will normally consist of a minimum of 400 hours of preceptored specialty clinical practice and biweekly seminars) (12 credit hours)

2. The program of each candidate shall be approved by the Dean of Graduate Studies on the recommendation of the Dean of the School of Nursing.

### 21.4.3 Post Master's Nurse Practitioner Graduate Diploma

1. Candidates with a Master's Degree in Nursing or an equivalent Degree with a nursing focus must complete an approved program of study consisting of a minimum of 17 credit hours in graduate program courses and integrated clinical practice experience, comprising 12 credit hours.

#### Required courses:
6701 Advanced Practice Issues and Role Development (2 credit hours)
6703 Advanced Health Assessment and Clinical Practicum I (4 credit hours)
6704 Applied Pathophysiology and Clinical Practicum II (4 credit hours)
6705 Pharmacotherapy and Therapeutics

One of: 6800 Adult Advanced Clinical Decision Making (4 credit hours), 6802 Family/All Ages Clinical Decision Making (4 credit hours), or one of: 6803 to 6809 Nursing Specialty Option Courses (4 credit hours)

690X Advanced Clinical Practicum II (The integrated practice component will normally consist of a minimum of 400 hours of preceptored specialty clinical practice and biweekly seminars) (12 credit hours)

2. Programs for some candidates may exceed the above minimum requirements.

3. The program for each candidate shall be approved by the Dean of Graduate Studies on the recommendation of the Dean of the School of Nursing.

### 21.5 Evaluation

1. In order to continue in graduate studies and in order to qualify for a Master's Degree, a candidate shall obtain an A or B grade in each program course and in both practicum courses.

2. When the Dean of the School of Nursing has determined on the basis of consultation with the candidate, the Associate Dean, Graduate Program and Research, and the thesis or practicum Supervisor, that a candidate has fallen below a satisfactory level, the Dean of the School of Nursing may recommend to the Dean of Graduate Studies that such a candidate be required to withdraw from the program.

3. When the Dean of the School of Nursing has determined on the basis of consultation with the candidate and the Associate Dean, Graduate Programs, that a candidate has fallen below a satisfactory level, the Dean of the School of Nursing may recommend to the Dean of Graduate Studies that such a candidate be required to withdraw from the program.

### 21.6 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates as far as the resources of the School of Nursing will allow.

6010 Research in Nursing I: Quantitative Methods (4 credit hours)
6011 Philosophical and Theoretical Foundations of Nursing
6020 Program Development in Nursing *(Pre or co-requisite: 6011)*
6031 Education in Nursing
6100 Research in Nursing: Qualitative Methods *(pre or co-requisite: 6011)*
6221 Population-Based Nursing *(equivalent to 6220 and 6230)*
6240 Nursing Individuals and Families Through Life Transitions *(pre or co-requisite: 6011)(equivalent to 6200 and 6210)*
6250 Foundations for Advanced Nursing Practice *(This course is a prerequisite for all other courses for students in the practicum option though may be taken as a co-requisite in the first term of the program)*
6251 Writing Skills for Nurse Practitioners (1 credit hour) *(This course is a prerequisite for all other courses for students in the MN-NP option though may be taken as a co-requisite in the first term of the program)*
6310-6350 Special Topics in Nursing
6501-10 Individual Readings and Research in Special Areas
6660 MN Practicum I *(prerequisites: All required courses including 6020 or 6031)*
6661 MN Practicum II *(prerequisites: All required courses including 6660 MN Practicum I)*
6701 Advanced Practice Issues and Role Development (2 credit hours)
6703 Advanced Health Assessment and Clinical Practicum I (4 credit hours)
6704 Applied Pathophysiology and Clinical Practicum II (4 credit hours)
6705 Pharmacotherapy and Therapeutics
6800 Adult Advanced Clinical Decision Making (4 credit hours)
6802 Family/All Ages Clinical Decision Making (4 credit hours)

One of: 6803 to 6809 Nursing Specialty Option Courses (4 credit hours)

690X Advanced Clinical Practicum II *(The integrated practice component will normally consist of a minimum of 400 hours of preceptored specialty clinical practice and biweekly seminars) (12 credit hours)*
22 Regulations Governing the Degree of Master of Philosophy

www.mun.ca/arts
Professor and Dean of Arts
L. Phillips

Programs leading to the Degree of Master of Philosophy (M.Phil.) are offered at present in German Language and Literature, and in the Humanities.

22.1 Qualifications for Admission
1. Admission is limited and competitive. To be considered for admission an applicant shall hold a Bachelor's Degree or its equivalent from an institution recognized by the Senate and shall have a knowledge of his or her proposed field of specialization satisfactory to the Department(s) concerned when interdisciplinary study is intended or to the Board of Studies in the case of the program in Humanities, and to the Dean.
2. Preference will normally be given to applicants who hold an appropriate Honours Degree either from Memorial University of Newfoundland, or from another university whose Honours Degree is of comparable standing. Any other applicant who holds a Bachelor's Degree or its equivalent will be considered for admission provided that:
   a. the applicant's undergraduate record after the first year shows an average of at least grade B in courses in the proposed field of specialization;
   b. the applicant's overall undergraduate record shows an average of at least grade B in all courses taken; and
   c. the Department or Board of Studies satisfies the Dean that the applicant's work exhibits evidence of academic excellence.

Only in exceptional circumstances, and only on the recommendation of the Department or the Board of Studies, will the Dean consider applicants who do not meet the requirements a. and b. Such applicants, however, must meet the requirement c.
3. An applicant may be required to demonstrate a satisfactory knowledge of the proposed field of study in an examination administered by the Department(s), or Board of Studies.
4. Applicants whose mother tongue is not English are reminded that a high degree of literacy in English is required of students at the University. In most cases instruction is in English, and examinations are to be written in English. Language departments, however, give instruction in the pertinent language and often require examinations to be written in that language. In addition, other departments may permit and even require examinations to be written in a language other than English.
5. An applicant may be required to pass a qualifying examination.

Note: Some Departments have particular regulations in addition to these, and applicants are advised to turn to the relevant parts of this Calendar and acquaint themselves with both the General Regulations and the regulations of the program in which they are interested.

22.2 Program of Study
1. Every candidate shall read at least 30 credit hours in program courses in one subject or in a combination of closely related subjects as recommended by the Department(s) or Board of Studies, and approved by the Dean.
2. A candidate may be required also to take additional credit hours in program courses, which must be recommended by the Department(s) or Board of Studies, and approved by the Dean.
3. Students registered in the program in Humanities will be required to maintain and submit for evaluation a program Journal (see Program of Study, 3. of the Regulations for the Degree of Master of Philosophy in Humanities).
4. No candidate while classified as a part-time student may take more than 6 credit hours in any one semester.
5. No candidate may take more than 9 credit hours in graduate courses in a single semester, nor any credit hours in undergraduate courses at the same time as 9 credit hours in graduate courses; in no case may graduate and undergraduate credit hours combined exceed 12 in any one semester.
6. The course program will culminate in a general comprehensive examination (see Evaluation - General Comprehensive Examination below).
7. Every candidate shall be assigned to a tutor recommended by the Department(s) or Board of Studies and approved by the Dean.
8. The Dean may approve an application to transfer from the M.Phil. to the M.A. only when a new integrated program, acceptable to the Dean, is submitted.

22.3 Period of Study
The period of study for the Master of Philosophy Degree shall not normally exceed three years, during which time the candidate shall spend at least two semesters in full-time attendance as a graduate student at this University.

22.4 Evaluation
See also Evaluation under General Regulations.
1. Students registered in undergraduate courses shall satisfy examination requirements in these courses.
2. The academic requirements for the Degree of Master of Philosophy shall be met when the candidate has successfully completed all course requirements of the program and has passed a general examination which consists of both written and oral parts. The Dean, on the recommendation of the Department(s) or Board of Studies, shall determine the times and places for general examinations; and, on the recommendation of the Department(s) or Board of Studies, shall appoint examiners, one of whom shall be from outside the Department(s) concerned. In the M.Phil. in Humanities, a program Journal is also required.

22.5 Evaluation - General Comprehensive Examination
1. Each candidate must pass a general comprehensive examination.
2. The examination committee shall be appointed by the Dean on the recommendation of the Department(s) or Board of Studies. The committee shall consist of either three or five members, at least one of whom must come from outside the Department(s) concerned. The candidate shall be informed of the names of the committee well before the examination.
3. The candidate and the tutor will normally agree when the candidate may sit the general comprehensive examination. However, the Department(s) or Board of Studies must accede to the candidate's request to sit a comprehensive examination, except that in no
circumstances may a candidate attempt the general comprehensive examination before his or her course program is completed.

4. The schedule for the examination shall be agreed by the candidate, the tutor, and the examining committee, and shall be promulgated by the Dean.

5. The examination shall consist of a written part and an oral part. The time between the written and the oral parts shall normally be from one to four weeks.

6. The oral examination shall be from one to three hours in length, and shall be conducted by the examining committee, and shall be open to the examination committee and to members of the Department(s) or Board of Studies only.

7. A candidate must satisfy the examining committee in both parts of the examination to obtain a pass.

8. The successful completion of the comprehensive examination is the final academic requirement for the Master of Philosophy Degree.

22.6 Departmental Regulations

Every candidate in a graduate program shall comply with any additional program requirements and with the General Regulations.

22.7 German

www.mun.ca/german

Associate Professor and Head of the Department

J. Buffinga

22.7.1 Program of Study

The degrees of Master of Arts and Master of Philosophy are offered in German Language and Literature and may be taken by full-time or part-time study. No graduate work is offered in Russian at this time.

1. In addition to the general requirements, candidates will be expected to have acquired a superior knowledge of the spoken and written language and may, depending on their academic background and field of specialization, be asked to take advanced undergraduate courses.

2. All candidates will complete at least 15 credit hours and a thesis for the M.A. and at least 30 credit hours for the M.Phil., and the entire program of study and research will normally be of two-years’ duration.

22.7.2 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the Department will allow.

6000 German Civilization I
6001 German Civilization II
6100 History of the German Language I
6101 History of the German Language II
6200 Medieval German Literature I
6201 Medieval German Literature II
6300 German Literature, 1500-1700 I
6301 German Literature, 1500-1700 II
6400 German Literature of the Enlightenment and Storm and Stress I
6401 German Literature of the Enlightenment and Storm and Stress II
6500 German Classicism I
6501 German Classicism II
6600 German Romanticism I
6601 German Romanticism II
6700 German Realism I
6701 German Realism II
6800 German Literature, 1880-1933 I
6801 German Literature, 1880-1933 II
6900 Contemporary German Literature I
6901 Contemporary German Literature II
7000 Special Subject or Author I
7001 Special Subject or Author II
7002-7020 Special Topics in German Studies

Deutsch

www.mun.ca/german

Ausserordentlicher Professor und Leiter der Abteilung

J. Buffinga

Kurse

Von den hier aufgeführten Kursen für Graduierte wird jeweils eine Auswahl angeboten, die sowohl den Anforderungen des Studierenden wie den Möglichkeiten der Abteilung gerecht wird.

6000 Deutsche Kulturkunde I
22.8 Humanities

Associate Professor and Director, Board of Studies
J. Dyer

The Master of Philosophy in Humanities has been designed for students from any discipline. It is directed to students who hold an Honours bachelor's Degree or its equivalent. The object of the M.Phil. in Humanities program is to provide students with an opportunity to see the historical and logical context of their own disciplinary points of view. The program is based on the interaction of a group of students of varying backgrounds and interests studying a common core of texts in a shared set of courses.

The program draws scholarly participation from faculty members in a range of academic disciplines within the School of Graduate Studies. The program is administered by a Board of Studies with membership appointed by the Dean of Arts, chosen from the participating faculty.

Master of Philosophy

In addition to meeting these regulations students must also meet the General Regulations Governing the Degree of Master of Philosophy.

This program is offered by the Faculty of Arts, and will draw scholarly participation chosen from those appropriately qualified faculty members wishing to participate, regardless of Department or Faculty affiliation.

22.8.1 Qualifications for Admission

1. Admission is limited and competitive. The number of students admitted to the program will be strictly limited to ensure small classes and maximum student-faculty contact. To be considered for admission an applicant will normally hold an Honours Bachelor's Degree (or equivalent) from an institution recognized by the Senate, and will have a breadth of knowledge in one or more of the Humanities disciplines satisfactory to the Board of Studies, and to the Dean.

2. Applicants who do not hold an Honours Degree (or equivalent) will be required to complete, prior to admission, a number of undergraduate courses, the nature and number of which will be determined on the basis of the applicants’ undergraduate record by the Director of Studies in consultation with the Board of Studies. Candidates will be required to complete such designated pre-admission courses with a minimum overall average of 70%.

22.8.2 Administration

1. The program will be administered by a Board of Studies, the members of which will be appointed by the Dean of Arts chosen from the participating faculty.

2. There will be a Director of Studies who will be an ex officio of the Board of Studies and will make recommendations to the Dean concerning admission, financial support for students, and all other matters pertaining to the program.

3. Responsibility for the allocation of teaching and the support of related research will be managed by agreement between the Deans of the appropriate Faculties, the Heads of Departments of participating faculty members, and the Director of Studies, in consultation with the Dean of Graduate Studies.

4. The Board of Studies will be empowered to secure external grant funding where appropriate, and to manage all related administrative and financial matters as necessary.

22.8.3 Program of Study

1. Every candidate shall normally read 30 credit hours in the 10 regulation courses listed below.

2. With permission of the Director of Studies, a candidate may elect to substitute up to two of these courses with courses from other graduate programs in this University. Attendance in other programs requires the permission of the departments involved. (See also School of Graduate Studies General Regulation Program Requirements, Transfer of Course Credits which allows for further transfer of credits already taken but not yet applied to a graduate degree.)

3. Every candidate shall be required to maintain and submit a program Journal which will be monitored and evaluated by the Board of Studies. The Journal will comprise the candidate's critical reflections arising out of analyses of designated key themes common to the several disciplines which constitute the program.

22.8.4 Comprehensive Examination

1. Each candidate must pass a general comprehensive examination.

2. The Examination Committee shall be appointed by the Dean of Graduate Studies on the recommendation of the Board of Studies.
The Committee shall normally consist of three members. One member of the Committee is normally the tutor. The candidate shall be informed of the names of the committee well before the examination.

3. The candidate and the tutor will normally agree when the candidate may sit the general comprehensive examination. However, the Board of Studies must accede to the candidate's request to sit a comprehensive examination, except that in no circumstances may a candidate attempt the general comprehensive examination before his or her course program is completed.

4. The schedule for the examination shall be agreed by the candidate, the tutor, and the Examining Committee, and shall be promulgated by the Dean.

5. The examination shall consist of a written part and an oral part. The time between the written and the oral parts shall normally be from one to four weeks.

6. The program journal is an extended paper or series of linked papers which analyses and reflects critically on issues encountered by the candidate during the course of the program. Papers and/or projects completed during courses may be incorporated into the program journal, but shall not, of themselves, constitute the entire journal.

7. The oral examination shall be from one to three hours in length, shall be conducted by the Examining Committee, and shall be open only to the Examination Committee, members of the Board of Studies and members of the Departments concerned.

8. A candidate must satisfy the Examining Committee in both parts of the examination to obtain a pass.

9. The successful completion of the comprehensive examination is the final academic requirement for the Master of Philosophy Degree.

22.8.5 Courses

6000 Speaking and Writing I
6001 Speaking and Writing II
6010 Readings in History I
6011 Readings in History II
6015 Historical Contexts and Modern Users/Viewers (Harlow, England)
6020 Readings in Western Literature I
6021 Readings in Western Literature II
6030 Readings in Philosophy I
6031 Readings in Philosophy II
6040 Readings in Science and Technology
6041 Seminar in Humanities

23 Regulations Governing the Degree of Master of Physical Education

www.mun.ca/hkr
Professor and Dean
H. Carnahan

The Degree of Master of Physical Education (M.P.E.) is offered by full-time and part-time study. Part-time study is available through Internet-based distance education technology.

23.1 Qualifications for Admission

1. Admission is limited and competitive. The deadline for receipt of applications is March 1 for admission into the subsequent Fall semester. To be considered for admission an applicant shall normally hold a Bachelor's Degree in Physical Education, Recreation and Leisure Studies, or a related discipline, with at least second class standing, from an institution recognized by Senate. In addition to the above, preference will be given to applicants with work experience, obtained either through Cooperative Education programs or through employment deemed appropriate.

2. Any other applicant who holds a Bachelor of Physical Education or Recreation and Leisure Studies Degree or its equivalent may be considered for admission provided that:
   a. the applicant's undergraduate record after the first year shows an average of at least grade B in physical education and/or recreation and leisure studies courses, OR
   b. the applicant has raised his/her overall academic standing to second class following the completion of the undergraduate degree, through the successful completion of an approved pattern of undergraduate courses.

3. Only in exceptional circumstances and only on the recommendation of the School of Human Kinetics and Recreation shall the Dean of Graduate Studies consider applicants who do not meet these admission requirements.

23.2 Program of Study and Research

1. The Degree of Master of Physical Education is offered under three options:
   Option 1: The program shall consist of a minimum of 12 credit hours in graduate courses plus a thesis. The thesis shall be on an approved subject in which systematic research has been conducted by the candidate under the direction of the Supervisor.
   Option 2: The program shall consist of a minimum of 12 credit hours in graduate courses plus a project report. The project shall be on an approved subject in which action-research has been conducted by the candidate under the direction of the Supervisor.
   Option 3: The program shall consist of a minimum of 24 credit hours in graduate courses plus a comprehensive examination in the candidate's major area of study.

2. The candidate's major area of study shall be Administration, Curriculum, and Supervision in Physical Education.

In conjunction and collaboration with other Faculties and Schools of Memorial University of Newfoundland, students may pursue their special interests through an interdisciplinary course of study. The student's interests may be accommodated through individual reading and research in these special areas.

3. The required courses for the degree shall normally include:
   Option 1: HKR 6500, one of 6000 or 6001, 6120, plus one of 6003, 6111, 6121, 6122, 6123, 6124, 6125, 6610-6615 (plus thesis)
   Option 2: HKR 6500, one of 6000 or 6001, 6120, plus one of 6003, 6111, 6121, 6122, 6123, 6124, 6125, 6610-6615 (plus project)
   Option 3: HKR 6500, one of 6000 or 6001, 6120, plus 5 of 6003, 6111, 6121, 6122, 6123, 6124, 6125, 6610-6615 (plus comprehensive examination)
23.3 Evaluation

1. Candidates must obtain an A or B grade in each program course. In accordance with General Regulation Evaluation, Evaluation of Graduate Students only one course may be repeated.

2. When the Dean has determined, on the basis of consultation with the candidate and the instructors, that a candidate’s work has fallen below a satisfactory level, he or she may recommend to the Dean of Graduate Studies that the candidate be required to withdraw from the program.

23.4 Thesis and Project Report

1. A student completing a Master of Physical Education thesis option will be required to present a thesis proposal for his or her proposed thesis normally by the end of the third semester. The thesis proposal shall normally consist of a full written proposal (including literature review) submitted to the Supervisory Committee, a summary to be distributed to graduate students and faculty one week prior to the presentation, and a formal presentation normally at the seminar series. The candidate may be questioned on his/her proposal by the Supervisory Committee and seminar audience. Any deficiencies noted during the presentation should be carefully considered by the student and the Supervisory Committee prior to proceeding with the thesis.

2. Evaluation of the thesis or project report shall be governed by School of Graduate Studies General Regulations, Theses and Reports. The thesis or project report shall normally be evaluated by two examiners approved by the Dean.

3. When the thesis or project report has been completed to the satisfaction of the Dean, the Dean shall recommend that the candidate be awarded the degree.

23.5 Comprehensive Examinations

1. Candidates electing to qualify for the Degree under Option 3 must write a comprehensive examination. The comprehensive examination shall examine the candidate’s ability to integrate and apply material from all course work completed during study for the Degree. The candidate may be required to appear for an oral examination.

2. The comprehensive examination shall normally be constructed and evaluated by an examining committee of three examiners, at least two of whom shall be faculty members of the School of Human Kinetics and Recreation appointed by the Dean on the recommendation of the Dean of the School.

3. A candidate may not write the examination before completing the course work for the Degree.

Note: Every candidate in graduate studies shall comply with the General Regulations, the Degree Regulations and any additional requirements of the Department.

24 Regulations Governing the Degree of Master of Public Health

www.med.mun.ca

Professor and Dean
J. Rourke

The degree of Master of Public Health (M.P.H.) is offered by the Faculty of Medicine, with specializations in Population and Public Health and Nutrition and Dietetics.

The Population and Public Health specialization delivers an advanced program of study for students from various academic fields who are interested in a professional degree that will prepare them for practical work in a variety of public health practice settings. The program is available for full-time and part-time study noting that full-time attendance is required during the Public Health Practicum (or Public Health Capstone Research Project) portion of the program. It is anticipated that full-time students will complete the program in 12 months in accordance with Table 1 Master of Public Health Recommended Course Sequence for Full-Time Students in the Population and Public Health Specialization.

The Nutrition and Dietetics specialization provides a research enriched program of study for full-time students who wish to pursue a career in dietetics or community nutrition. This specialization offers an opportunity for advanced academic study in the field of public
health. Upon completion of the program, which includes a dietetics internship, students will be eligible to write the qualifying exam of Dietitians of Canada. It is anticipated that full-time students will complete the program in 24 months in accordance with Table 2 Master of Public Health Recommended Course Sequence for Full-Time Students in the Nutrition and Dietetics Specialization.

Graduate students of the Division of Community Health and Humanities may be required to participate in education experiences which occur outside of the St. John’s metropolitan area. Students may be responsible for their own associated transportation and accommodation.

The General Regulations of the School of Graduate Studies and the Degree Regulations outlined below will apply.

24.1 Qualifications for Admission

Admission to the Master of Public Health is limited and competitive. The regulations and procedures for admission are as given under the General Regulations of the School of Graduate Studies governing Master’s degrees. In addition, to be considered for admission to the Nutrition and Dietetics specialization applicants must have successfully completed an undergraduate dietetics program accredited by Dietitians of Canada as indicated at www.dietitians.ca.

24.2 Program of Study

24.2.1 Population and Public Health

1. Minimum requirements for the M.P.H. degree in Population and Public Health will include the successful completion of 42 credit hours as follows:
   a. Eight core courses: Biostatistics I (MED 6200), Epidemiology I (MED 6270), Policy and Decision Making (MED 6288), Disease and Injury Prevention (MED 6721), Environmental Health (MED 6722), Health Promotion (MED 6723), Communicable Disease Prevention and Control (MED 6724), and Public Health Leadership and Management (MED 6725).
   b. Six additional credit hours in elective courses chosen from the Courses listing below, or other courses as approved by the M.P.H. program coordinator.
   c. The Public Health Seminar Series courses (MED 6700 - 6701).
   d. Either, the Public Health Practicum (MED 6710) or the Public Health Capstone Research Project (MED 6711) as determined by the Graduate Program Committee depending on the professional background and experience of the candidate.

The Public Health Practicum is a full-time practice experience conducted in a work setting and following the guidelines set forth by the Public Health Agency of Canada (PHAC) at www.phac-aspc.gc.ca/index-eng.php.

All course work must be completed prior to the initiation of either the Public Health Practicum or the Public Health Capstone Research Project.

24.2.2 Nutrition and Dietetics

1. Minimum requirements for the M.P.H. degree in Nutrition and Dietetics will include the successful completion of the following:
   a. Six core courses: Public Health Leadership and Management (MED 6725), Epidemiology I (MED 6270), Community Health Research Methods (MED 6280), Biostatistics I (MED 6200), Community Nutrition (MED 6731), Professional Practice (MED 6730).
   b. The Public Health Seminar Series courses (MED 6700 - 6701)
   c. The Dietetics Research Project (MED 671A/B)
   d. The Dietetics Internship (MED 6733 - 6736). The Dietetics Internship is a practice experience conducted in a work setting and following the guidelines set forth by Dietitians of Canada. Dietetics Internship I & II (MED 6733 & 6734) are non-credit, mandatory, part-time internship components completed during the first and second academic semesters of the program in accordance with Table 2 Master of Public Health Recommended Course Sequence for Full-Time Students in the Nutrition and Dietetics Specialization. A grade of NC (No credit) will be awarded for these two internship components.

Dietetics Internship III & IV (MED 6735 & 6736) are full-time internship blocks each of which will normally extend beyond the regular semester timeframe. Evaluation of the internship blocks will be on a PASS/FAIL basis.

All core courses and seminars must be completed prior to the initiation of the Dietetics Internship III (MED 6735) and/or the Dietetics Research Project (MED 671A/B).

6734 Dietetics Internship II (non-credit component)  
6735 Dietetics Internship III (17 week Internship block - 10 credit hours)  
6736 Dietetics Internship IV (16 week Internship block - 10 credit hours)

25 Regulations Governing the Degree of Master of Science

www.mun.ca/science
Professor and Dean
M. Abrahams

The degree of Master of Science (M.Sc.) is offered at present in Aquaculture, Biochemistry, Biology, Chemistry, Cognitive and Behavioural Ecology, Computer Science, Earth Sciences (Geology), Earth Sciences (Geophysics), Environmental Science, Experimental Psychology, Food Science, Geography, Marine Biology, Mathematics, Physical Oceanography, Physics, Scientific Computing, Scientific Computing (Co-operative), and Statistics. Interdisciplinary studies are encouraged; applicants should consult the academic unit concerned.

25.1 Qualifications for Admission
1. Admission is limited and competitive. To be considered for admission an applicant will normally hold at least a high second class Honours Degree, or an M.D. Degree, or the equivalent of either, both in achievement and depth of study, from an institution recognized by the Senate, and shall have knowledge of the proposed field of specialization satisfactory to the Dean.
2. Any other applicant may be considered for admission provided that:
   a. the applicant’s undergraduate record after the first year shows an average of at least Grade B in courses in the proposed field of specialization.
   b. the applicant’s overall undergraduate record after the first year shows an average of at least Grade B in all courses taken.
In addition, an applicant may be required to demonstrate a satisfactory knowledge of the proposed field of study in an examination administered by the academic unit concerned.

3. Only in exceptional circumstances, and only on the recommendation of the academic unit concerned, will the Dean consider applicants who do not meet these requirements of Clause 2.

4. Applicants who do not possess the prerequisite academic qualifications should consult the appropriate academic unit about a program of further undergraduate courses. Such a program will be intended to raise their qualifications to a level considered academically equivalent to Honours. Such courses may not be used to fulfill the requirement course requirements of the M.Sc. Degree.

5. A high degree of literacy in English is required of all graduate students in the University.

Note: Some Departments have specific regulations in addition to those outlined above, and prospective applicants are advised to turn to the relevant part of this Calendar and acquaint themselves with the regulations of the Department or appropriate academic unit in which they are interested.

25.2 Program of Study and Research

1. The program of study for the Master of Science Degree shall consist of the successful completion of a program of courses and, in accordance with the specific program regulations, either of a thesis embodying original research or of a project and report.

2. Every candidate shall read at least 6 credit hours in graduate program courses in one subject or in closely related subjects, and such other courses as may be required in an individual program. Undergraduate courses may, if necessary, be included as additional courses.

3. Where Departmental regulations require more than the minimum number of credit hours, the Dean, on the recommendation of the appropriate academic unit, may waive in part the credit hour requirements for a Master's Degree, provided that no student may take less than the 6 required credit hours in graduate program courses.

4. Students may, with the approval of the Dean, augment their studies with 6 credit hours in other courses of their choice. The grading system in non-program courses shall be that appropriate to the particular course, and the final grades in these courses will be recorded on the student's transcripts. However, passing grades are not required in these non-program courses in order to continue in graduate studies or obtain a Master's Degree. (See General Regulation Evaluation, Evaluation of Graduate Students).

5. Every candidate shall submit a thesis or report on an approved subject in which systematic research has been conducted under the direction of a Supervisor recommended by the academic unit concerned and approved by the Dean. The candidate may be required to take an oral examination.

6. The program of courses, the thesis or report topic and the Supervisor, and all changes in these, must be approved by the Dean.

25.3 Evaluation

1. In order to continue in the School of Graduate Studies and in order to qualify for a Master's Degree, a candidate shall obtain an A or B grade in each program course. (See General Regulation Evaluation, Evaluation of Graduate Students).

2. When it has been determined, on the basis of consultation with the candidate, the instructors in graduate courses, and the thesis or report Supervisor, that a candidate's work has fallen below a satisfactory level, the Supervisor or the Head of the appropriate academic unit may recommend to the Dean that such a candidate be required to withdraw from the program.

25.4 Thesis

See General Regulation Theses and Reports.

Note: Every candidate in graduate studies shall comply with the General Regulations, the Degree Regulations, and any additional requirements of the appropriate academic unit.

25.5 Aquaculture

www.mun.ca/sgs

Administrative Committee
Mr. C. Couturier, Fisheries and Marine Institute - Chair
Dr. K. Gamperl, Department of Ocean Sciences
Dr. I. McGaw, Department of Ocean Sciences
Dr. C. Parrish, Department of Ocean Sciences
Dr. F. Shahidi, Department of Biochemistry
Dr. K. Gamperl, Department of Ocean Sciences

The program of study leading to the Master of Science in Aquaculture is designed to instruct students in research using scientific principles derived from a wide range of disciplines including Behaviour, Biochemistry, Biology, Ecology, Food Science, Genomics, Nutrition, and Physiology. It is an interdisciplinary program and often involves several fields of study. Research problems may include field and/or laboratory studies of one or more species of marine or freshwater flora and/or fauna. The Aquaculture group consists of faculty members from the Fisheries and Marine Institute of Memorial University of Newfoundland and the Departments of Biology, Biochemistry, and Ocean Sciences of Memorial University of Newfoundland. Research scientists at other institutions, e.g., Fisheries and Oceans Canada, complement the group in offering advice, facilities, and expertise to students in the program.

The Aquaculture Administrative Committee is responsible for the program. This Committee is composed of seven members appointed by the Dean of Science including two to three members from the Department of Ocean Sciences, two to three members from the Fisheries and Marine Institute of Memorial University of Newfoundland, and two members from appropriate academic units at Memorial University of Newfoundland. In addition, the Heads of the Departments of Biochemistry, Biology, and Ocean Sciences, and the Head of the School of Fisheries of the Fisheries and Marine Institute of Memorial University of Newfoundland are ex-officio members. The Committee makes recommendations to the Dean of the School of Graduate Studies concerning the academic requirements of the program: admission, course programs of individual students, financial support, composition of supervisory committees, and theses examiners. The Chair of the Committee will also ensure that a supervisory report form for each student in the program is submitted annually to the Dean.

25.5.1 Qualifications for Admission

To be considered for admission to the Master of Science in Aquaculture, an applicant shall normally hold one of the following: at least a second class Honours degree, or an equivalent both in achievement and depth of study, from an institution recognized by the Senate, or successful completion of the Advanced Diploma in Sustainable Aquaculture offered by the Fisheries and Marine Institute of Memorial University of Newfoundland, with academic standing deemed appropriate by the Committee.
25.5.2 Program of Study

1. The Master of Science Degree requires the successful completion of a program of courses and of a thesis embodying original research.

2. All candidates will be required to take 6 credit hours in graduate courses which will normally include at least one of the following:
   AQUA 6000 - Shellfish Culture and Enhancement, AQUA 6100 - Finfish Aquaculture, or AQUA 6200 - Aquaculture and the Environment.

3. Candidates who do not hold the Advanced Diploma in Sustainable Aquaculture may be required to successfully complete a selection of its component courses.

4. Further courses may be required depending on the background of the individual student.

5. Before the thesis is submitted, the student shall present an open seminar on the topic of investigation to the appropriate academic units, as recommended by the Administrative Committee. Any serious deficiencies in the thesis noticed at this stage should be carefully considered, in consultation with the Supervisor, for rectification.

6. The student will be required to comply with all other regulations governing the graduate Degree of Master of Science.

25.5.3 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates as far as the resources of the Department will allow.

Aquaculture
6000 - Shellfish Culture and Enhancement
6100 - Finfish Aquaculture
6200 - Aquaculture and the Environment
6201-6209 - Special Topics in Aquaculture (prerequisite: Permission of Chair of Program)

Biochemistry
BIOC 6670 - Biological Waste Treatment

Biology
6000 - Research Topics in Microbiology
6710 - Marine Benthic Biology
7101 - Topics in Marine Biology
7220 - Quantitative Methods in Biology
7933 - Advanced Topics in Marine Invertebrates
7938 - Genomics
7951 - Biological Oceanography
7955 - Research Methods in Marine Science
7550 - Fishery Biology
7551 - Fisheries Resource Management
7560 - Physiology of Marine Invertebrates
7561 - Physiology of Marine Vertebrates
7570 - Marine Benthic Biology
7910 - Community and Ecosystem Ecology

Cognitive and Behavioural Ecology
6351 - Behavioural Ecology and Sociobiology

Engineering
9603 - Environmental Sampling and Pollutant Analysis (cross-listed as Environmental Science 6005)
9605 - Advanced Waste Water Treatment
9622 - Environmental Statistics

Environmental Science
6000 - Environmental Science and Technology
6001 - Earth and Ocean Systems
6002 - Environmental Chemistry and Toxicology
6003 - Applied Ecology
6007 - Environmental Risk Assessment (same as Engineering 9609)

Geography
6250 - Conservation of Natural Resources
6410 - Climatology

Marine Studies (Fisheries Resource Management) Program Courses
6001 - Fisheries Ecology
6005 - Overview of World Fisheries
6009 - Current Issues for Sustainable Fisheries

Physics
6316 - Ocean Data Analysis
6320 - Ocean Turbulence and Mixing

Technology Management (Aquaculture Technology Option) Program Courses
6056 - Management of International Development
6071 - Management of Aquaculture Technology
6072 - Animal Husbandry Management
6073 - Aquaculture Environmental Management
6074 - Aquaculture Site and Operational Assessment
6075 - Aquaculture Engineering Technology Management

Note: Consult the Program for a list of titles and information regarding availability.
25.6 Biochemistry

www.mun.ca/science
www.mun.ca/biochem

Professor and Head of the Department
M.D. Berry

25.6.1 Program of Study

The Degree of Master of Science is offered in Biochemistry or Food Science to full-time and part-time students. The admission requirements for the graduate programs in Biochemistry and Food Science are as given under Regulations Governing Master of Science Degrees. Depending on the background and/or area of specialization, a candidate's program may include additional courses taken for credit in Biochemistry, Food Science, or related subjects.

The program of a candidate for the M.Sc. Degree shall be the responsibility of the supervisory committee, composed of the Supervisor and at least two other faculty members recommended with the concurrence of the Supervisor by the Head of the Department or delegate.

It is the responsibility of the student to arrange regular meetings with his or her supervisory committee. A semi-annual report, prepared by the Supervisor and signed by all members of the supervisory committee, is required to be given to the Head of the Department or delegate.

All graduate students are expected to attend and participate in the Departmental seminars. A student completing an M.Sc. Degree will be required to present a seminar on his/her research area. The seminar will normally take place during the last semester of the student's program. Any deficiencies noted during the seminar should be carefully considered by the student and the supervisory committee prior to submission of the thesis for final examination.

25.6.2 Courses

A series of advanced courses in the areas outlined below will be offered. Normally only one course will be offered per semester.

- 6000-6009 Special Topics in Biochemistry
- 6010-6019 Special Topics in Nutrition and Metabolism
- 6020-6029 Special Topics in Food Science
- 6400 Control of Intermediary Metabolism
- 6460 Structural Biochemistry
- 6520 Nutritional Biochemistry
- 6530 Food Biochemistry
- 6590 Cellular, Molecular and Developmental Biology (credit restricted with Biology 6590 and Medicine 6590)
- 6630 Marine Biochemistry
- 6680 Processing and Quality of Foods

25.7 Biology

www.mun.ca/science
www.mun.ca/biology

Associate Professor and Head of the Department
P. Marino

The Degree of Master of Science is offered in Biology to full-time and part-time students. Students interested in animal behaviour should also consult the section in the Calendar describing the Master of Science in Cognitive and Behavioural Ecology program. In addition, a Master of Science Degree is offered in Aquaculture and in Marine Biology. See appropriate sections of this Calendar.

25.7.1 Program of Study

1. The program of a candidate shall be the responsibility of a Supervisory Committee composed of the Supervisor and at least two other appropriate members recommended to the Dean by the Head (or delegate) of the Department with the concurrence of the Supervisor.

2. The Supervisory Committee shall interview the student normally within a month of first registration, to discuss the student’s program and to explore any areas of weakness in the candidate’s biological knowledge, especially where these relate to the intended areas of research.

3. A student will be required to take a minimum of 6 credit hours and Biology 7000 (Graduate Core Seminar).

4. It is the function of a Supervisory Committee to have regular meetings, at least annually, with its graduate student. A meeting report, signed by all members of the Supervisory Committee and student, must be given to the Department. A copy will be sent to the graduate student and to the Dean of Graduate Studies.

5. The candidate will present a tentative outline of the proposed research to the Supervisory Committee, with a copy to the Department by the end of the second semester, and preferably prior to commencement of the research.

6. The candidate will present a research seminar to the Department, normally by the end of the second semester following admission, to describe the research topic being investigated and the methodologies to be employed. This seminar provides an opportunity for the student to receive constructive input from the broad biological community.

7. The candidate must present a thesis seminar of 30-40 minutes duration to the Department prior to submission of the thesis to the School of Graduate Studies. The candidate will be questioned by a panel approved by the Departmental Graduate Studies Committee, in consultation with the student’s Supervisory Committee. All others in attendance will be invited to question the candidate before adjournment. Deficiencies noted at this stage should be carefully considered by the student and the Supervisory Committee prior to submission of the thesis for final examination.

Under exceptional circumstances, this requirement may be waived by the Head of the Department (or delegate).

8. Each Master's candidate shall spend at least one semester in residence as a full-time student within the Department during the program. It is recommended that this semester be at the beginning of the program.

Under exceptional circumstances, this requirement may be waived by the Head of the Department (or delegate).
9. If candidates, in the opinion of the Supervisor, Committee and Department, are not making satisfactory progress, they will be required to withdraw from the program.

10. Theses shall conform to Theses and Reports of the General Regulations of the School of Graduate Studies and to the regulations in the Departmental Guidelines.

25.7.2 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the Department will allow.

6000 Research Topics in Microbiology
6131 Models in Biology (credit cannot be obtained if already received for Biology 4607)
6351 Behavioural Ecology and Sociobiology (cross-listed as Psychology 6351) credit cannot be obtained if already received for Biology 4701
6590 Molecular Biology I (cross-listed as Medicine 6590 and credit-restricted with Biochemistry 6590) prerequisites: Biology 4241 (or equivalent)
6591 Molecular Biology II (cross-listed as Medicine 6591 and credit-restricted with the former Biochemistry 6591) prerequisites: Biology 4241 (or equivalent)
6592 Bacterial Genetics (credit-restricted with the former Biochemistry 6592) prerequisite: Biology 4241 (or equivalent)
6593 Selected Readings in Molecular Biology (credit-restricted with the former Biochemistry 6593) prerequisites or Co-requisites: one of Biology, Biochemistry or Medicine 6590, and one of Biology 6591, Medicine 6591, or the former Biochemistry 6591 (or equivalent)
6710 Marine Benthic Biology
7000 Graduate Core Seminar (cross-listed as Ocean Science 7000)
7101 Topics in Marine Biology
7210 Topics in Cellular and Molecular Biology and Physiology
7220 Quantitative Methods in Biology (credit cannot be obtained if already received for Biology 4605)
7300 Ornithology (credit cannot be obtained if already received for Biology 4620)
7301 Topics in Ecology and Conservation Biology
7530 The Molecular Biology of Development
7535 Research Methods in Marine Science
7920-7960 Special Topics in Biology (CMSC Biology 7931)
7931 Research Methods in Genetic Biotechnology (Biology 7931 may be delivered in an accelerated format outside of the regular semester timeframe)

25.8 Chemistry

www.mun.ca/science
www.mun.ca/chem
Professor and Head of the Department
P. Pickup

25.8.1 Program of Study

1. The Degree of Master of Science in Chemistry is offered as full-time or part-time study.

a. Preference for admission will be given to students with a B.Sc. (Honours) Degree in Chemistry from a recognized university.

b. Students holding a B.Sc. Degree in Chemistry from a university of recognized standing with a minimum overall average of 65% and minimum average of 65% in all Chemistry courses taken after the first year will be considered for admission to the Chemistry M.Sc. program. Students not admissible under 1.a. may, on the advice of the Supervisory Committee, be required to pass qualifying exams and/or supplementary undergraduate courses with a minimum B grade.

c. Students with a first class B.Sc. in an area other than Chemistry will also be considered for admission. Students not acceptable under 1.a. or 1.b. who have a strong background in an appropriate area of specialization may, on the advice of the Supervisory Committee, be required to pass qualifying exams and/or supplementary undergraduate courses with a minimum B grade.

d. Upon recommendation of their supervisor, candidates will write American Chemical Society (ACS) placement test(s) in the first two weeks of their initial semester of registration in order to determine an appropriate course program.

2. Candidates will be assigned a Supervisory Committee consisting of the Supervisor and at least two other appropriate faculty members appointed by the Dean on the recommendation of the Chemistry Deputy Head (Graduate Studies).

3. The program of a candidate must be arranged by the Supervisor before the second semester of registration in consultation with the Supervisory Committee and the student. It is the responsibility of the Supervisory Committee to meet at least annually with the student, to provide guidance at all stages of the candidate's program, and, in consultation with the student, to prepare written annual progress reports for submission to the Dean of Graduate Studies.

4. Candidates are normally required to successfully complete Chemistry 6001 (Master's Seminar) and a minimum of 6 credit hours of graduate Chemistry courses with a minimum B grade. Additional program courses may be assigned by the Supervisory Committee.

5. Candidates are required to attend departmental seminars.

6. Candidates must submit a thesis deemed acceptable to two examiners as described under Regulations Governing Master of Science Degrees. An oral defence is not required.

25.8.2 Courses

6001 Master's Seminar
6004 Project Seminar
6110 Analytical Chemistry II
6150 Advanced Spectroscopic Techniques
6151 Analytical Separations and Organic Mass Spectrometry
6152 Electroanalytical Techniques
6153 Techniques in Sampling, Trace Analysis and Chemometrics
6154 Business Management and Good Laboratory Practice
6155 Computers in Instrumental Analysis and Basic Electronics (same as Med 6070)
6156 Analytical Method Development and Sampling
6160 Laboratory Projects in Sampling, Electroanalysis and Trace Analysis
25.9 Cognitive and Behavioural Ecology

www.mun.ca/sgs

Administrative Committee
Dr. I. Fleming, Department of Ocean Sciences - Co-Chair
Dr. C. Walsh, Department of Psychology - Co-Chair
Ms. M. Fitzsimmons, Graduate Student Representative
Dr. W. Montevecchi, Department of Psychology
Dr. A. Storey, Department of Psychology
Dr. E. Vander Wal, Department of Biology
Dr. I. Warkentin, Grenfell Campus
Dr. D. Wilson, Department of Psychology

25.9.1 General Information
1. The Cognitive and Behavioural Ecology Program is interdisciplinary and designed to train students in research that integrates cognitive and behavioural studies at the ecological level. Molecular, developmental, and evolutionary aspects of cognition and behaviour are also studied. Supervisors include faculty from the Departments of Biology, Ocean Sciences, Psychology, the Faculty of Medicine and the Environmental Science Program at Grenfell Campus, as well as adjunct faculty from the Canadian Wildlife Service, Department of Fisheries and Oceans, the Newfoundland and Labrador Forestry and Wildlife Divisions and Parks Canada. The Departments of Biology and Psychology jointly offer the Master of Science and the Doctor of Philosophy degrees in Cognitive and Behavioural Ecology.

2. The Administrative Committee is responsible for the Program. Committee members are appointed by the Dean of Science, on the recommendation of the Chair of the Committee and of the Heads of Biology and Psychology. The Committee Chair is elected by the committee members and appointed by the Dean of Science. The Committee makes recommendations to the Dean of Graduate Studies concerning admissions and academic requirements. In consultation with supervisors, recommendations are made concerning course programs, financial support, thesis committees, comprehensive and thesis topics, examiners and students’ annual progress. Upon program completion, the Committee certifies that all requirements for the appropriate degree have been met. The Department of the Supervisor ensures that adequate facilities are provided for each candidate. Students in the Cognitive and Behavioural Ecology Program are considered for teaching assistantships in the Psychology or Biology Departments.

25.9.2 Program of Study
1. Students normally take three courses (9 credit hours) in the first year. Students will be required to take Behavioural Ecology and Sociobiology (CABE 6351), Field and Lab Methods in Animal Behaviour and Behavioural Ecology (CABE 7000) and one elective, normally Quantitative Methods in Biology (BIOL 7220) or Advanced Statistics in Psychology (6000), in consultation with the Supervisor.

2. Upon completion but before submission of the thesis, the student is required to give a formal thesis presentation.

3. The student will be required to comply with all other regulations governing the graduate Degree of Master of Science.
Table of Credit Restrictions - Master of Science in Cognitive and Behavioural Ecology

Psychology 6000 Advanced Statistics in Psychology

25.10 Computer Science

www.mun.ca/science
www.mun.ca/computerscience

Professor and Head of the Department
W. Banzhaf

The degrees of Master of Science and Doctor of Philosophy are offered in Computer Science.

25.10.1 Admission Requirements

Admission into a Master’s program in Computer Science is restricted to candidates holding at least a Bachelor degree (major in Computer Science or Computer Engineering) with a minimum average of 75% overall. When circumstances warrant, this requirement may be waived on the recommendation of the Head of the Department. Applicants should also refer to the Qualifications for Admission given under the Regulations Governing the Degree of Master of Science within the School of Graduate Studies section of the current Calendar. International applicants are strongly encouraged to submit results of the (general) Graduate Record Examination (GRE) test.

25.10.2 Programs

25.10.2.1 Option 1 - Thesis Route

1. Candidates are required to complete a minimum of 15 credit hours in graduate program courses, 9 of which must be in Computer Science (excluding COMP 601W and COMP 6999).
2. Full-time students are expected to complete their course work within their first year of studies. Part-time students are expected to complete their course work by the end of the seventh semester in program.
3. Each candidate is required to submit an acceptable thesis. The thesis project may involve a theoretical investigation and/or the development of an original, practical system. Each candidate is required to present a tentative outline of his/her proposed research to the Supervisor, with a copy to the Department Committee on Graduate Studies, by the end of his/her third semester in the program (sixth semester for part-time students). A fifteen minute oral presentation of the proposal is to be scheduled and given within four weeks of the submission date.
4. Prior to submission of a thesis, normally in the last semester of the program, candidates are required to present a seminar on the thesis topic, methods employed, and research results.

25.10.2.2 Option 2 - Course/Project Route with Work Term

1. Candidates are required to complete a minimum of 24 credit hours in graduate program courses, of which at least 18 credit hours must be in Computer Science.
2. Within this credit requirement, a student must take the following courses:
   - COMP 6999 (Master’s Project)
   - One course in Software Engineering (COMP 6713)
   - One course in Algorithms (COMP 6743 or COMP 6783)
   - One course in Information Systems (COMP 6742 or COMP 6751)
3. Additionally students must complete one co-operative education work term (COMP 601W). Under normal circumstances, students will undertake their work term in the Spring semester.
4. The dates for starting and finishing each work term are shown in the University Diary.
5. Students must successfully complete at least 12 credit hours (four courses) prior to beginning their work term.
6. Students will conduct job searches through Co-operative Education in cooperation with the Department of Computer Science. Students who do not wish to accept a work term job arranged by Co-operative Education shall be responsible for finding an alternative. Such jobs must be confirmed by letter from the employer and approved by the Head of Computer Science and Co-operative Education on or before the first day of the work term. Work term jobs may be outside St. John’s and possibly outside Newfoundland and Labrador.
7. Each work term placement will be supervised by the candidate’s program Supervisor, the on-site Supervisor assigned by the employer and Co-operative Education. The overall evaluation of the work term is the responsibility of the program Supervisor, on-site Supervisor and Co-operative Education. The work term shall consist of two components:
   a. On-the-job Student Performance as evaluated by the on-site Supervisor and Co-operative Education, in consultation with the program Supervisor.

Archived Previous Calendar

Current University Calendar available at mun.ca/university-calendar
b. A Work Report graded by the program Supervisor in consultation with the on-site Supervisor.
8. Evaluation of the work term will result in the assignment of one of the following final grades:
   a. Pass: Indicates that PERFORMANCE MEETS EXPECTATIONS in both the work report and work performance.
   b. Fail: Indicates FAILING PERFORMANCE in the work report and/or the work performance. If a failing grade is assigned, the student’s Masters program will be terminated.

25.10.3 Other Regulations
1. Students from either Option 1 - Thesis Route or Option 2 - Course/Project Route with Work Term may request to transfer between both options once during their studies. The transfer requires an approval from the Head of Department.
2. All candidates are expected to take an active part in seminars and other aspects of the academic life of the Department of Computer Science.
3. The Department of Computer Science Graduate Student Research Forum takes place in the Winter semester of the academic year. All M.Sc. students must present at the Research Forum at least once during their program.
4. Full-time students are expected to complete all program requirements in two years. Part-time students are expected to complete all program requirements in four years.

25.10.4 Courses
A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the Department will allow. Normally, students will be expected to complete their course work during the fall and winter semesters. Courses might not be offered in the spring semester.
601W Work Term
6711 Syntax and Semantics of Programming Languages
6713 Software Engineering
6731 Topics in Numerical Methods
6732 Matrix Computations
6738-6739 Special Topics in Numerical Methods
6742 Theory of Databases
6745 Special Topics - Advanced Computational Geometry
6752 Applications of Computer Graphics
6755 Knowledge-Based Systems
6756 Digital Image Processing
6758-6769 Special Topics in Computer Applications
6770-6790 Special Topics in Computer Science (excluding 6783)
6901 Applied Algorithms (credit may be obtained for only one of 6901 and 6783)
6902 Computational Complexity (credit may be obtained for only one of 6902 and 6743)
6903 Concurrent Computing
6904 Advanced Computer Architecture (credit may be obtained for only one of 6904 and 6722)
6907 Introduction to Data Mining (credit may be obtained for only one of 6907 and 6762)
6908 Database Technology and Applications (credit may be obtained for only one of 6908 and 6751)
6910 Services Computing, Semantic Web and Cloud Computing
6911 Bio-inspired Computing
6912 Autonomous Robotics (credit may be obtained for only one of 6912 and 6778)
6913 Bioinformatics
6915 Machine Learning
6916 Security and Privacy
6922 Compiling Methods (credit may be obtained for only one of 6922 and 6712)
6925 Advanced Operating Systems
6926 Performance Evaluation of Computer Systems
6999 Master’s Project

25.11 Earth Sciences
www.mun.ca/science
www.mun.ca/earthsciences

Professor and Head of the Department
J. Hanchar
The degrees of Master of Science and Doctor of Philosophy are offered in Earth Sciences (Geology) and Earth Sciences (Geophysics) by full-time and part-time study.

25.11.1 Program of Study
1. Admission into a Master’s Degree program in Earth Sciences (Geology) and Earth Sciences (Geophysics) is restricted to candidates holding at least a B.Sc. Degree with second class Honours. When circumstances warrant, this requirement may be waived by the School of Graduate Studies on the recommendation of the Head of the Department.
2. Each candidate will be assigned a multi-member supervisory committee. This committee shall consist of the Supervisor and at least one other member. Within two weeks of the first registration in the M.Sc. Degree program, a candidate will meet with his/her supervisory committee. Within six months, the student and the supervisory committee will agree on a written thesis proposal outlining the objectives, methods, timetable and funding for the project, and provide the proposal (signed by the student and supervisory committee) to the Head for inclusion in the student’s file.
3. A candidate for the M.Sc. Degree must complete a minimum of 6 credit hours in program courses. The courses must be selected from the overview and general courses below or with the approval of the supervisory committee and Head of the Department, other graduate level courses including those offered by other departments. Depending on background and/or area of specialization, a candidate also may be required to complete additional courses in earth sciences or related subjects.
4. All course requirements should be completed within one year from the date of first registration in the M.Sc. Degree program.
5. A candidate is required to give an oral presentation to the Department on the results of his/her research. This presentation must be given during the second year of the program.
6. The M.Sc. Degree program will conclude with a thesis examination as prescribed in the Regulations Governing the Degree of Master of Science.

7. The Supervisor and the Head of the Department may recommend to the Dean of Graduate Studies that a candidate who is not making satisfactory progress be required to withdraw from the program.

25.11.2 Courses
A selection of courses will be offered to meet the requirements of candidates as far as the resources of the Department will allow.

Overview Courses
7110 Physics of the Solid Earth
7120 Crustal Geophysics
7300 Changes in Global Paleoenvironment
7400 Tectonic Regimes
7410 Engineering and Environmental Geology
7500 Chemical Fluxes in the Earth
7810 Palaeoecology (same as the former 6810. credit may be obtained for only one of 7810 or 6810)

General Courses
6070 Quantitative Techniques in Mineralogy and Metamorphic Petrology
6105 Advanced Field Course in Applied Geophysics (may be offered in accelerated format)
6141 Rotation of the Earth
6142 Theory of Global Geodynamics
6152 Paleomagnetism
6171 Advanced Exploration Seismology
6172 Borehole Seismic
6175 Gravity and Magnetic Methods
6177 Mathematical Formulations of Seismic Wave Phenomena
6210 Genesis of Mineral Deposits
6320 Marine Geology
6400 Flow and Transport in Fractured Rock
6410 Advanced Engineering and Environmental Geology
6420 Deformation Mechanisms
6500 Stable Isotope Geochemistry
6510 Trace Element Geochemistry
6520 Methods in Advanced Research in Geochemistry
6540 Radiogenic Isotope Geochemistry
6550 Biogeochemistry
6600 Petroleum Geology
6740 Modern and Ancient Sedimentary Environments
6750 Sequence Stratigraphy
6820 Palynology and Paleobotany
6900-6999 Special Topics in Earth Sciences

25.12 Environmental Science
www.mun.ca/sgs
(see also Master of Environmental Science)

Board of Studies
Dr. N. Catto, Department of Geography - Chair
Dr. C. Campbell, Division of Science, Grenfell Campus, ex-officio
Dr. B. Chen, Faculty of Engineering and Applied Science
Dr. P. Marino, Head, Department of Biology
Dr. W. Montevecchi, Department of Psychology
Dr. S. Ziegler, Department of Earth Sciences

25.12.1 Program of Study
1. The Environmental Science Program is an interdisciplinary graduate program involving the departments of the Faculty of Science, the Faculty of Arts, the Faculty of Medicine, and the Faculty of Engineering and Applied Science. There are three Environmental Science Graduate Degree streams: the Master of Science (M.Sc., Environmental Science), Master of Environmental Science (M.Env.Sci.), and the Doctor of Philosophy (Ph.D., Environmental Science). The program is available on a full or part-time basis.

2. The program is administered by a Board of Studies appointed by the Dean of Science. Supervisors of graduate students in the program include faculty from the Faculty of Science, the Faculty of Arts, the Faculty of Engineering and Applied Science, the Faculty of Medicine, and the Environmental Science Program at the Grenfell Campus, as well as adjunct appointees to the program (as a co-supervisor).

25.12.2 Qualifications for Admission
Admission is limited and competitive. To be considered for admission applicants shall normally hold a Bachelor’s (Honours) degree in Science, Geography, or Environmental Science with at least second class standing, or equivalent, or a Bachelor’s degree in Engineering from an institution recognized by the Senate or shall have qualifications and/or experience in environmental science acceptable to the Dean of Graduate Studies and the Board of Studies. The Board of Studies make recommendations on admission to the Dean of Graduate Studies.

25.12.3 Degree Requirements
1. To the extent that resources permit, individual programs will be developed to suit students’ interests and needs. However all programs must be approved by the Board of Studies and by the Dean of Graduate Studies. All General Regulations of the School of Graduate Studies shall apply to these degrees.

2. The Master of Science (Environmental Science) is a research Degree which includes a thesis and course work. The thesis research will focus on environmental topics relevant to the student’s background. The course component has two aims: to broaden the
student’s understanding of environmental issues; and to provide further training in areas of research specialization for the thesis.

3. Each student will have a Supervisory Committee normally consisting of a Supervisor and two others. The Supervisory Committee will be appointed by the Dean of Graduate Studies on the recommendation of the Board of Studies for Environmental Science.

4. The program of each student will consist of a minimum of 12 credit hours in program courses which will include Environmental Science 6000 and Environmental Science 6010. Of the 6 credit hours remaining in program courses, 3 credit hours will be from Environmental Science 6001, 6002, and 6003 and the other 3 credit hours will be related to the student’s specialty and will normally be chosen from graduate courses offered by the Faculties of Science, Arts, Medicine, and Engineering and Applied Science.

5. All students will be required to submit a thesis embodying the results of systematic research on an approved topic. The thesis will be evaluated according to procedures outlined in General Regulations, Theses and Reports.

25.14 Geography

www.mun.ca/arts
www.mun.ca/science
www.mun.ca/geog

Professor and Head of the Department

N. Catto

25.14.1 General Information

1. The degrees of Master of Arts and Master of Science are offered in Geography by full-time or part-time study.

2. Admission requirements are set forth in the General Regulations of the School of Graduate Studies and Degree Regulations for Master of Arts and Master of Science.

3. The deadline for submission of applications for admission is January 15. Candidates will normally commence their programs in the Fall semester.

4. An applicant will be admitted to a graduate program only if a faculty member agrees to act as Supervisor. A supervisory committee will be established after admission, normally consisting of the Supervisor and two other individuals, one of whom will normally be a member of the Department.

5. Major research areas for graduate study at the master’s level are cultural, political, historical, economic, urban, resource management, community and regional development, geomorphology, Quaternary environments, climatology, and geographic information sciences.

6. Candidates will register for the M.A. program if their fields of interest lie in an area of Human Geography or for the M.Sc. if their fields of interest are in Physical Geography or Geographic Information Sciences.

7. It is expected that the program of study and research for the M.A. or M.Sc. will normally be completed in a maximum of two years of full-time work, or three years of part-time work.

8. Candidates must successfully complete a minimum of 12 credit hours of graduate program courses with a minimum grade of B in each. Geography 6000 and 6001 will be required courses for all candidates who have not already completed equivalent courses at the Honours or post-graduate level.

9. Candidates whose undergraduate Degree is not in geography will normally be required to complete some additional undergraduate program courses during their first year of study, in addition to the required graduate program courses. Normally four such undergraduate courses will be required, and a minimum grade of 70% must be obtained in each.

10. Each candidate will be required to present a seminar on their research to the Department.

11. Each candidate must submit a thesis based on their own original research. This thesis will be examined in accordance with the General Regulations of the School of Graduate Studies.

25.14.2 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates as far as the resources of the Department will allow.

6000 Development of Geographical Thought and Practice I
6001 Development of Geographical Thought and Practice II
6002 Directed Readings in Geography
6100 Research Techniques in A Selected Field of Geography I
6101 Research Techniques in A Selected Field of Geography II
6120 Geospatial Modelling and Analysis
6150 Environmental Remote Sensing and Image Analysis
6200 Economic Geography I
6201 Economic Geography II
6204 Sustainable Community and Regional Development
6250 Conservation and Sustainability of Natural Resources
25.15 Geology
See Earth Sciences.

25.16 Geophysics
See Earth Sciences.

25.17 Marine Biology
www.mun.ca/science
www.mun.ca/osc
Professor Emeritus and Head of the Department
G.L. Fletcher

The degree of Master of Science (M.Sc.) is offered in Marine Biology by full-time and part-time study through the Department of Ocean Sciences. Areas of concentration include: Ocean Ecology, Functional Biology of Marine Organisms, Fisheries and Aquaculture, and Oceans and Environment.

25.17.1 Admission and Program of Study
1. Admission into the Master of Science degree program in Marine Biology is normally restricted to candidates holding at least a Bachelor of Science degree with second class Honours. When circumstances warrant, the requirement for a second class Honours may be waived by the School of Graduate Studies on the recommendation of the Head of the Department.

2. Each student will be assigned a Supervisory Committee consisting of the Supervisor and at least one other member. Within three months of the first registration in the M.Sc. degree program, the student will meet with his/her Supervisory Committee. Within six months, the student and the Supervisory Committee will agree on a written thesis proposal outlining the objectives, methods, timetable and funding for the project, and provide the proposal (signed by the student and the supervisory committee) to the Head for inclusion in the student’s file.

3. A student is required to complete a minimum of 9 credit hours of graduate program courses as follows:
   - Ocean Sciences 7000
   - One of Ocean Sciences 7100 or 7200
   - 3 additional credit hours selected from other Ocean Sciences graduate courses or relevant courses in other Departments as approved by the Supervisory Committee

4. All course requirements should be completed within four semesters from the date of first registration in the M.Sc. degree program.

5. A student is required to give an oral presentation to the Department on the results of his/her research. This presentation should be given after completion of a thesis draft.

6. The M.Sc. degree program will conclude with a thesis examination as prescribed in the School of Graduate Studies General Regulations, Theses and Reports.

25.17.2 Courses
A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the Department will allow.
OCSC 7000 Graduate Core Seminar (cross-listed as Biology 7000)
OCSC 7100 Biological Oceanography (credit cannot be obtained for both OCSC 7100 and the former Biology/OCSC 7531)
OCSC 7200 Adaptations to the Marine Environment (credit cannot be obtained for both OCSC 7200 and the former Biology/OCSC 7561)
OCSC 7300 Plankton Dynamics (credit cannot be obtained for both OCSC 7300 and the former Biology/OCSC 7540)
OCSC 7400 Fisheries Resource Management (credit cannot be obtained for both OCSC 7400 and the former Biology/OCSC 7551)

25.18 Mathematics and Statistics
www.mun.ca/science
www.mun.ca/math
Professor and Head of the Department
C. Radford

The degrees of Master of Applied Statistics (see appropriate calendar entry), Master of Science, and Doctor of Philosophy are offered in the Department of Mathematics and Statistics. The Masters’ degrees are offered by full-time and part-time studies.

25.18.1 Specific Requirements for the M.Sc. in Mathematics
Every candidate for the M.Sc. in Mathematics is required to complete one of two options:
1. **Option 1:** MATH 6310, 6351 and 696A/B, a minimum of 9 further credit hours in courses chosen from the departmental course offerings, excluding MATH 6299, and a thesis as per General Regulations, Theses and Reports.

2. **Option 2:** MATH 6299, 6310, 6332, 6351, 696A/B, and a minimum of 12 further credit hours in courses chosen from the departmental course offerings.
   - Algebra: 6320, 6321
   - Analysis: 6310, 6311, 6312
   - Applied Mathematics: 6100, 6201 or 6212, 6120
   - Combinatorics: 6340, 6341, 6342
   - Topology: 6300 or 6301, 6332

### 25.18.2 Specific Requirements for the M.Sc. in Statistics

Every candidate for the M.Sc. in Statistics is required to complete STAT 6510 and STAT 6560 plus at least 12 credit hours in graduate courses as well as the series STAT 697A/B or the completion of an additional 3 credit hour graduate course. A thesis is required as per General Regulations, Theses and Reports.

### 25.18.3 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the Department will allow.

**Mathematics**
- 6100 Dynamical Systems
- 6101 Modern Perturbation Theory
- 6102 Mathematical Biology
- 6104 Infinite Dimensional Dynamical Systems
- 6110 Advanced General Relativity
- 6111 Calculus in Manifolds
- 6112-6119 Special Topics in Applied Mathematics
- 6120 Theoretical Fluid Dynamics
- 6121 Functional Differential Equations
- 6130 Introduction to General Relativity
- 6160 Partial Differential Equations
- 6201 Numerical Methods for Partial Differential Equations
- 6202-6209 Special Topics in Numerical Analysis
- 6210 Numerical Solution of Differential Equations
- 6212 Numerical Methods for Initial Value Problems
- 6230 Differentiable Manifolds and Riemannian Geometry
- 6299 Master's Project
- 6300 Homology Theory
- 6301 Homotopy Theory
- 6302 Theory of Fibre Bundles
- 6304-6309 Special Topics in Topology
- 6310 Functional Analysis
- 6311 Complex Analysis
- 6312 Measure Theory
- 6313 Functional Analysis II
- 6315-6319 Special Topics in Analysis
- 6320 Group Theory
- 6321 Ring Theory
- 6322 Nonassociative Algebra
- 6323 Homological Algebra
- 6324-6329 Special Topics in Algebra
- 6330 Analytic Number Theory
- 6331 Algebraic Number Theory
- 6332 Point Set Topology
- 6340 Graph Theory
- 6341 Combinatorial Design Theory
- 6342 Advanced Enumeration
- 6343-6349 Special Topics in Combinatorics
- 6351 Advanced Linear Algebra
- 696A/B Graduate Seminar (2 credit hours)

**Statistics**
- 6500 Probability *(credit restricted with former 6586)*
25.19 Physics and Physical Oceanography

www.mun.ca/science
www.mun.ca/physics

Professor and Head of the Department
B. de Young

Programs leading to the Degree of Master of Science in Physics and in Physical Oceanography are offered to both full and part-time students. Because Oceanography is multidisciplinary in nature, undergraduate students who plan to undertake Physical Oceanography studies are urged to consult the faculty member in charge of Physical Oceanography programs at their earliest opportunity, in order to ensure the appropriateness of their undergraduate course selections. The Degree of Doctor of Philosophy in Physics is offered through both full-time and part-time study in Atomic and Molecular Physics, Condensed Matter Physics, and Physical Oceanography. The following Departmental Regulations are supplementary to the General Regulations governing the M.Sc. and Ph.D. degrees. A thorough familiarity with the latter Regulations should be regarded as the prerequisite to further reading in this section.

The Department of Physics and Physical Oceanography compiles, and regularly reviews, a brochure which contains reasonably detailed descriptions of currently active research projects, as well as a comprehensive listing of recent research publications, and other material which may be of interest to prospective graduate students.

25.19.1 Program of Study

1. Admission to a M.Sc. program in the Department of Physics and Physical Oceanography is normally restricted to candidates holding an Honours B.Sc. Degree in Physics. However, depending on background and area of specialization and with particular reference to Physical Oceanography, other Baccalaureate degrees in science, applied science or mathematics, may be accepted.

2. A program of study for the M.Sc. Degree in Physics or Physical Oceanography shall normally include a minimum of 12 graduate credit hours. However, depending on the student's background and area of specialization, more or fewer graduate and/or undergraduate courses may be required.

3. Except with the special permission of the Department and the approval of the Dean of Graduate Studies, a candidate may not take any courses in addition to those approved for his/her M.Sc. program.

4. Before submission of the thesis to the School of Graduate Studies for examination, the student must present a seminar on the topic of his/her thesis research.

25.19.2 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the Department will allow:

6000 Condensed Matter Physics I
6001 Condensed Matter Physics II
6002 Superconductivity
6003 Path Integral Techniques in Condensed Matter Physics
6010-19 Special Topics in Condensed Matter Physics
6040 Biophysics
6060-69 Special Topics in Interdisciplinary Areas
6200 Nonlinear Dynamics
6308 Ocean Dynamics I
6309 Ocean Dynamics II
6310 Physical Oceanography
6313 Physical Fluid Dynamics
6314 Field Oceanography
6315 Polar Oceanography
6316 Ocean Measurements and Data Analysis
6317 Ocean Acoustics
6318 Numerical Modelling
6319 Climate Dynamics
6320 Turbulence
6321 Coastal Oceanography
6322 Stratified Fluids
6323 Stability Theory
6324 Models in Ocean Ecology
6360-69 Special Topics in Physical Oceanography (excluding 6363)
6363 Laboratory Experiments in Geophysical Fluid Dynamics
6400 Statistical Mechanics
6402 Theory of Phase Transitions
6502 Stochastic Processes, Time-Dependent and Non-equilibrium Statistical Mechanics
6720 Theory of Molecules
6721 Molecular Spectroscopy
6722 Light Scattering Spectroscopy
6730 Molecular Theory of Liquids and Compressed Gases
6740 Physics of Atomic Collisions
6760-69 Special Topics in Atomic and Molecular Physics
6800 Group Theory
6810-19 Special Topics in Theoretical and Mathematical Physics
6850 Quantum Mechanics I
6851 Quantum Mechanics II
6900 Techniques in Experimental Condensed Matter Physics
6910-19 Special Topics in Experimental and Applied Physics

Table of Credit Restrictions - Physics and Physical Oceanography

Members of the Department carry out research in several areas of experimental and theoretical physics, including atomic and molecular physics, condensed matter physics, physical oceanography, theoretical geophysics, and applied nuclear physics. In atomic and molecular physics, there are experimental programs in collision-induced infrared absorption spectroscopy, electron emission spectroscopy of simple molecules, molecular ions and free radicals, laser-induced fluorescence spectroscopy, and Raman spectroscopy, and theoretical work on atomic and molecular collisions. The work in condensed matter physics includes experimental programs in solid state nuclear magnetic resonance on systems of biophysical interest, Raman spectroscopy of lipid bilayers and membranes, studies of phase transitions using Brillouin and Raman spectroscopy, studies of instabilities and pattern formation in simple fluid dynamical systems, and spectroscopic studies of molecular crystals. Theoretical condensed matter physics research involves studies of magnetism, superconductivity, and the statistical mechanics of polymers and lipid bilayers. The physical oceanography group carries out field and laboratory research on several projects which take advantage of Newfoundland’s unique oceanographic environment, using acoustic and other remote sensing techniques. These include studies of circulation on the Newfoundland and Labrador shelves, Labrador current dynamics, fjord dynamics, submarine canyons and sediment transport dynamics in the nearshore zone and on the shelf. Theoretical oceanographic studies involve the modeling of ocean circulation, gravity wave phenomena and other aspects of ocean dynamics. Research in theoretical geophysics is concentrated on whole-Earth dynamics, with special emphasis on the physics of the liquid core (the Earth’s “third ocean”), as inferred from its wave spectrum and the associated momentum transfer to the deformable solid parts of the Earth. In nuclear physics, research is done on the atmospheric concentrations of radioactive elements and on dosimetry for medical applications.

Note: For Geophysics, see Earth Sciences.

25.20 Psychology

www.mun.ca/science
www.mun.ca/psychology

Head of the Department
I. Neath

The Degree of Master of Science is offered in Experimental Psychology. The Degree of Doctor of Philosophy is offered in Experimental Psychology. Interested students may wish to consult the sections in the Calendar describing the Master of Applied Psychological Science (Co-operative) and the Master of Science and Doctor of Philosophy in Cognitive and Behavioural Ecology programs.

Applications

All applicants are required to submit results from the General section of the Graduate Record Examinations. At least one letter of reference should come from someone who is familiar with the applicant’s research capability.

25.20.1 Program of Study

A candidate may be accepted into a program leading to the M.Sc. in Experimental Psychology.

Experimental Psychology

1. The areas of specialization offered are: Animal Behaviour (see Cognitive and Behavioural Ecology Program), Behavioural Neuroscience and Clinical, Cognitive, Developmental and Social Psychology.
2. Candidates shall normally complete 15 credit hours, including: Advanced Statistics in Psychology (6000), Research Design (6001), and 6 credit hours related to their area of specialization. Candidates will also register for the Colloquium Series in Psychology (6010) each Fall and Winter semester of their program for a maximum of four registrations.
3. Every candidate shall submit an original thesis based upon an approved experimental research topic.
25.20.2 Courses
A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the Department will allow.
6000 Advanced Statistics in Psychology
6001 Research Design
6010 Colloquium Series in Psychology (repeatable, non-credit)
6100-6130 Special Topics in Experimental Psychology
6200 Learning I
6201 Learning II
6203 Behavioural Pharmacology
6210 Behavioural Analysis of Toxins
6351 Behavioural Ecology and Sociobiology (cross-listed as CABE 6351)
6400 Theory and Methods in Social Psychology
6401 Social Cognition
6402 Group Processes
6403 Program Evaluation and Applied Research
6404 Project in Applied Psychological Science (Note: This course is open only to students in the Master of Applied Psychological Science)
6500 Developmental Psychology I
6501 Developmental Psychology II
6502 Developmental Changes During Old Age
6700 Perception
6710 Human Information Processing
6720 Human Memory
6800 Behavioural Neuroscience I
6801 Behavioural Neuroscience II
6810 Psychometrics
6910 Personality
699A/B Core Graduate Seminar in Psychology

25.21 Scientific Computing
www.mun.ca/sgs

Administrative Committee
Dr. M. Plumer, Department of Physics and Physical Oceanography - Chair
Dr. V. Booth, Department of Biochemistry
Dr. S. Bromley, Industry Representative
Dr. C. Farquharson, Department of Earth Sciences
Dr. R. Haynes, Department of Mathematics and Statistics
Dr. F. Khan, Faculty of Engineering and Applied Science
Dr. L. Pena-Castillo, Department of Computer Science
Dr. C. Rowley, Department of Chemistry
Dr. I. Saika-Voivod, Department of Physics and Physical Oceanography

25.21.1 Administrative Committee
The Administrative Committee, appointed by the Dean of the School of Graduate Studies on the recommendation of the Dean of the Faculty of Science, consists of at least one representative of each participating academic unit, and one member external to the University.

25.21.2 Participating Departments and Organizations
This interdisciplinary program offers the Master of Science Degree in both Scientific Computing and Scientific Computing (Co-operative). The departments of Biochemistry, Chemistry, Computer Science, Earth Sciences, Mathematics and Statistics, Physics and Physical Oceanography and the Faculty of Engineering and Applied Science are participants in this program. Other departments and faculties may be involved, depending on the nature of the thesis or project. External organizations may provide placements for co-op students, jointly supervise students, share computing resources and participate in teaching courses.

25.21.3 Admission Criteria and Procedures
1. The criteria for acceptance of an applicant are: his or her anticipated successful and timely completion of the program, and the willingness of a participating faculty member to supervise the applicant.
2. Students will be expected to hold a B.Sc. (Honours) or B.Eng. Degree with honours standing, or equivalent, with a strong computational orientation. At the time of application, the student is expected to provide evidence (for example, transcripts of completed courses) of his or her knowledge of a modern computer language such as Fortran, and/or C and/or C++, and/or Matlab, and/or Python. Evidence of knowledge of differential equations; and/or linear algebra and/or computer graphics would be an asset. Students with an inadequate background may be encouraged to take certain undergraduate courses.
3. Admission decisions will be made by the School of Graduate Studies on the recommendation of the Chair of the Administrative Committee.

25.21.4 Program of Study
1. The goal of Scientific Computing is to solve technical problems, in science and engineering, using computers and computational methods. Our program is designed to educate students to apply computational, numerical and programming concepts and tools to solve and model complex problems in science and engineering.
2. The Program is offered in thesis and project (non-thesis) versions, with the option of a co-operative education program. It is intended that the overall level of student effort and performance required in each version will be comparable. The normal length of time to complete each option is 24 months.
3. The work for the thesis or project will be carried out under the guidance of a supervisor (or joint supervisors). The home department of the student will be the same as that of the Supervisor. Upon completion of the work for the thesis or project, to be submitted to the
School of Graduate Studies for examination, each student is required to present a seminar suitable for the interdisciplinary audience of Scientific Computing program students.

4. All students are required to complete a minimum of 3 core courses (9 credit hours) selected from the list of Core Courses listing below. All students are also recommended to complete CMSC 6950. Additional courses are required in accordance with the program options as outlined below and will normally be selected from the student’s discipline of specialization. The course requirements for each student are approved by the Program Chair on the recommendation of the student’s supervisor(s), and should reflect the interdisciplinary nature of the program. Students are expected to attend research seminars in their home department as well as those relevant to Scientific Computing, when advertised.

a. The thesis option requires the completion of a minimum of four graduate courses (12 credit hours) numbered 6000 or higher, which must include three courses (9 credit hours) from the Core Courses listing below. Equivalent courses may be considered for substitution with approval of the Program Chair. The additional course(s) will normally be chosen from the Additional Courses listing below in the same discipline as the thesis work. The submission of an acceptable thesis is required. The thesis is to contain an original scholarly contribution which must be submitted to the School of Graduate Studies for final examination. Each student is also required to present a seminar on their thesis research topic that demonstrates their use of computational techniques to solve a problem in science or engineering.

b. The project option requires the completion of a minimum of seven graduate courses (21 credit hours) numbered 6000 or higher, which must include at least three courses (9 credit hours) from the Core Courses listing below. Equivalent courses may be considered for substitution with approval of the Program Chair. An acceptable project report is also required which must be submitted to the School of Graduate Studies for final examination. The additional courses will normally be chosen from the Additional Courses listing below in the same discipline as the project work. The project, which will include an in-depth written report, shall require the equivalent of at least one and no more than two semesters of full time work.

25.21.5 Co-operative Education Option

1. A co-operative education option will be available to students who are accepted into the M.Sc. program. Students in this option may follow the thesis or non-thesis version of the program. It is expected to take up to 24 months to complete.

2. Students will normally declare their intention to complete the co-operative education option at the start of the second semester of their academic program.

3. Students will complete two work terms consecutively, normally following the successful completion of two academic semesters.

4. The dates for starting and finishing each work term are shown in the University Diary.

5. A competition for work term employment is organized by Co-operative Education in cooperation with a designated faculty member from Scientific Computing. Students may also obtain their own work term jobs outside the competition. Such jobs must be confirmed by letter from the employer and approved by the Chair of Scientific Computing and by Co-operative Education on or before the first day of the work term. Work term jobs may be outside St. John’s and possibly outside Newfoundland and Labrador. Students who do not wish to accept a work term job arranged by Co-operative Education shall be responsible for finding an acceptable alternative. By entering the competition, students give permission for Co-operative Education to supply their Memorial University of Newfoundland transcripts and resumes to potential employers.

6. Each work term placement will be supervised by the student’s program supervisor, the on-site supervisor assigned by the employer and Co-operative Education. The overall evaluation of the work term is the responsibility of the program Supervisor, on-site Supervisor, and Co-operative Education. The work term shall consist of two components:
   - On-the-job Student Performance as evaluated by the on-site supervisor and Co-operative Education, in consultation with the program supervisor.
   - A Work Report graded by Co-operative Education and the program supervisor in consultation with the on-site supervisor.

7. Evaluation of the work term will result in the assignment of one of the following final grades:
   - Pass with Distinction: Indicates OUTSTANDING PERFORMANCE in both the work report and work performance.
   - Pass: Indicates that PERFORMANCE MEETS EXPECTATIONS in both the work report and work performance.
   - Fail: Indicates FAILING PERFORMANCE in the work report and/or the work performance. If a student fails to achieve a final grade of Pass or Pass with Distinction, and provided the student has not failed to achieve a grade of ‘B’ or better in any program course, the student may request to repeat the work term component. The request will be considered by the Chair of Scientific Computing in consultation with the program supervisor and Co-operative Education. Only one repetition of a work term will be permitted in the student’s program.

8. Following the completion of the two work terms, each student must complete any remaining course requirements and project report or thesis. Assuming that prior written authorization of the employer and the supervisory committee was obtained and submitted to the School of Graduate Studies, students may include material from the work terms in their reports or theses. For students following the non-thesis version of the program, the two work-term reports may be combined into a single, integrated report for this purpose. All other students must write a thesis on a research project which may be based on research completed during the work terms.

9. Students who are accepted into the co-op option are not guaranteed placements. In the event that a student fails to obtain two semesters of placements, but successfully completes all other requirements of the Degree, he or she will still be eligible for graduation, but without the designation of a co-op degree.

25.21.6 Courses

Core Courses
Computer Science 6731 Topics in Numerical Methods
Mathematics 6210 Numerical Solutions of Differential Equations
Scientific Computing 6910 Matrix Computations and Applications or Computer Science 6732 Matrix Computations (credit may be obtained for only one of the CMSC 6910 and COMP 6732)
Scientific Computing 6920 Applied Scientific Programming
Scientific Computing 6930 Algorithms for Distributed and Shared Memory Computers
Scientific Computing 6950 Computer Based Tools and Applications (credit may be obtained for only one of CMSC 6950 and the former CMSC 6940)

Additional Courses
The following courses are identified as suitable for students in this program. Other courses may be permitted with the approval of the Program Chair.
Biochemistry
- 6000-6009 Special Topics in Biochemistry
- 6010-6019 Special Topics in Nutrition and Metabolism
- 6020-6029 Special Topics in Food Science
- 6400 Control of Intermediary Metabolism
- 6460 Structural Biochemistry
- 6520 Nutritional Biochemistry
- 6590 Cellular, Molecular and Developmental Biology (credit restricted with Biology 6590 and Medicine 6590)
- 6630 Marine Biochemistry
- 6680 Processing and Quality of Foods

Chemistry
- 6201 Bioinorganic Chemistry
- 6204 Mechanisms in Catalysis
- 6205 Photochemistry of Transition Metal Complexes
- 6210 Organometallic Chemistry
- 6300 Quantum Chemistry I
- 6301 Quantum Chemistry II
- 6302 Molecular Spectroscopy
- 6304 Computational Chemistry I
- 6310 Electronic Structure Theory
- 6323 Chemical Thermodynamics I
- 6324 Chemical Thermodynamics II
- 6340 Biophysical Chemistry
- 6350 Electrochemical Kinetics
- 6360 Solid State Chemistry
- 6380 Adsorption on Surfaces
- 6381 Surface and Interface Science
- 6382-6389 Selected Topics in Physical Chemistry
- 6390-6398 Selected Topics in Physical Chemistry
- 6399 Chemical Kinetics and Dynamics
- 6401 Organic Spectroscopic Analysis I
- 6402 Organic Spectroscopic Analysis II
- 6470 Physical Organic Chemistry
- 6590-6599 Selected Topics in Theoretical and Computational Chemistry
- 6600 Applications of Inorganic and Organometallic Chemistry to Toxicology

Computer Science
- 6713 Software Engineering
- 6722 Advanced Computer Architectures
- 6728-6729 Special Topics in Computer Systems - Computer Networks
- 6731 Topics in Numerical Methods
- 6732 Matrix Computations
- 6738-6739 Special Topics in Numerical Methods
- 6752 Applications of Computer Graphics
- 6756 Digital Image Processing

Earth Sciences
- 6141 Rotation of the Earth
- 6142 Theory of Global Geodynamics
- 6171 Advanced Exploration Seismology
- 6172 Borehole Seismic
- 6175 Gravity and Magnetic Methods
- 6177 Mathematical Formulations of Seismic Wave Phenomena
- 6918 Airborne and Borehole Electromagnetic Methods
- 6994 Special Topics in Earth Sciences - Geophysical Inversion and Applications
- 7110 Physics of the Solid Earth
- 7120 Crustal Geophysics

Engineering and Applied Science
- 9015 Ocean Engineering Hydrodynamics
- 9052 Ice Properties and Mechanics
- 9501 Finite Element Analysis
- 9713 Stochastic Hydrology
- 9815 Electromagnetic Propagation
- 9821 Digital Signal Processing
- 9825 Advanced Control Systems
- 9861 High-Performance Computer Architecture
- 9866 Advanced Digital Systems
- 9869 Advanced Concurrent Programming
- 9871 Information Theory and Coding

Mathematics and Statistics
- 6112-6119 Special Topics in Applied Mathematics
- 6201 Numerical Methods for Partial Differential Equations
- 6210 Numerical Solution of Differential Equations (required course for Scientific Computing)
- 6212 Numerical Methods for Initial Value Problems
- 6588 Selected Topics in Statistics and Probability - Generalized Additive Models with Applications in Scientific Visualization

Physics and Physical Oceanography
- 6000 Condensed Matter Physics I
- 6200 Nonlinear Dynamics
- 6308 Ocean Dynamics I
- 6309 Ocean Dynamics II
26 Regulations Governing the Degree of Master of Science in Kinesiology

www.mun.ca/hkr

Professor and Dean

H. Carnahan

The Degree of Master of Science in Kinesiology (M.Sc. (Kinesiology)) is offered to qualified full-time and part-time students by the School of Human Kinetics and Recreation. The General Regulations of the School of Graduate Studies of Memorial University of Newfoundland outlined in the current Calendar, and the Degree Regulations of the School of Human Kinetics and Recreation outlined below will apply to the Master of Science in Kinesiology program.

26.1 Qualifications for Admission

1. The admission requirements for the Master of Science in Kinesiology are as given under the General Regulations of the School of Graduate Studies. Admission is limited and competitive. Preference for admission may be given to students with undergraduate degrees in relevant disciplines, with a minimum overall B average. Applications submitted through the School of Graduate Studies will be evaluated by the Graduate Studies Committee of the School of Human Kinetics and Recreation. Admission of a candidate to the program shall be made by the Dean of Graduate Studies.

2. Only in exceptional circumstances, and only on the recommendation of the Dean of the School of Human Kinetics and Recreation, shall the Dean of Graduate Studies consider applicants who do not meet the requirements above.

26.2 Program and Degree Requirements

1. The Degree of Master of Science in Kinesiology is offered in the areas of Biomechanics/Ergonomics, Exercise and Work Physiology, Psychology of Sport, Exercise and Recreation, and Socio-cultural Studies of Physical Activity and Health.

2. The program of a candidate for the Master of Science in Kinesiology shall be the responsibility of the Supervisory Committee, composed of the Supervisor and at least one other faculty member recommended with the concurrence of the Supervisor by the Dean of the School, or delegate.

3. Candidates for the Master of Science in Kinesiology shall be required to complete a minimum of 12 credit hours plus a thesis. Either HKR 6000 or HKR 6001 is normally required for all candidates. In addition, all on-campus candidates shall be required to complete four semester-length seminars represented by registration and successful completion of HKR 6314 (a non-credit, repeatable course) in each of four semesters during their tenure in the program. Off-campus or part-time candidates who cannot attend the on-campus seminar series can substitute 24 hours of participation in (over their two-year tenure) and one presentation at national, provincial or regional conferences, workshops, professional development seminars, or equivalent activities. The remaining course requirements will be selected, in agreement with the Supervisory Committee, to reflect the kinesiology areas of specializations offered with the School.

4. It is the responsibility of the student to arrange regular meetings with their supervisory committee. An annual report, prepared by the Supervisor and signed by all members of the Supervisory Committee and the student, is submitted to the Dean of the School of Human Kinetics and Recreation (or delegate) as required by the School of Graduate Studies.

5. Depending on the background of the candidate or his/her area of intended specialization, a candidate's program may be modified. Such modifications may include a reduction in course requirements where a student demonstrates that he or she brings graduate level competency to their program in specific areas, or may include additional graduate or undergraduate courses, as specified by the student's Supervisory Committee. A minimum of three courses or 9 credit hours completed in the School of Human Kinetics and Recreation is mandatory.

6. A student completing a Master of Science in Kinesiology will be required to present a thesis proposal for his or her proposed thesis normally by the end of the third semester of study. The thesis proposal shall normally consist of a full written proposal (including literature review) submitted to the Supervisory Committee, a summary to be distributed to graduate students and faculty one week prior to the presentation and a formal presentation normally at the seminar series. The candidate may be questioned on his/her proposal by the Supervisory Committee and seminar audience. Any deficiencies noted during the presentation should be carefully considered by the student and the Supervisory Committee prior to proceeding with the thesis.

7. All graduate students are expected to attend and participate in the School of Human Kinetics and Recreation seminars and thesis proposal presentations.

8. In conjunction and collaboration with other Faculties and Schools of Memorial University of Newfoundland, students may pursue their special interests through electives from departments/schools outside the School of Human Kinetics and Recreation. These courses must be approved by the Graduate Studies Committee and the Dean of Graduate Studies in the preceding semester.

9. Candidates may apply for transfer course credits. All course transfers require the approval of the Dean of Graduate Studies, on the
26.3 Evaluation

1. In order to continue as a candidate for a Master of Science in Kinesiology Degree, a candidate who receives a final grade of ‘C’ or less in a program course must repeat that course and obtain a minimum grade of ‘B’. In the case of an elective course a suitable replacement course, acceptable to the Graduate Studies Committee of the School of Human Kinetics and Recreation, may be substituted for the failed course. Only one such repetition/replacement shall be permitted in the candidate’s graduate program. Should a grade of lower than ‘B’ be obtained in the repeated course/replacement course, or any other program course, the candidate shall be required to withdraw from the program.

2. When the Graduate Studies Committee of the School of Human Kinetics and Recreation has determined, through consultation with the candidate, the instructors of graduate courses and the program advisor or thesis Supervisor that the candidate’s work has fallen below satisfactory level, it may request that the Dean of the School of Human Kinetics and Recreation recommend to the Dean of Graduate Studies that the candidate’s program be terminated.

26.4 Period of Study

The period of study for a graduate program shall not normally exceed seven years beyond first registration.

1. A candidate in full-time attendance may register for a maximum of 12 credit hours in any regular semester and a maximum of 6 credit hours in intersession or summer session.

2. A candidate in part-time attendance may register for a maximum of 3 credit hours in any semester, including intersession or summer session.

26.5 Thesis

The School of Graduate Studies General Regulation describes the requirements in Theses and Reports.

27 Regulations Governing the Degree of Master of Science in Management

www.business.mun.ca

Professor and Dean
W. Zerbe

The Degree of Master of Science in Management is a research-focused Master’s degree offered by the Faculty of Business Administration. The Degree is offered to full-time students in five areas in management: (1) General Management; (2) Human Resources Management; (3) Information Management; (4) Operations Management; and (5) Organizational Behaviour. These regulations must be read in conjunction the General Regulations of the School of Graduate Studies of Memorial University of Newfoundland.

27.1 Qualifications for Admission

Admission is limited and competitive. General qualifications for admission to Masters Programs at Memorial University of Newfoundland are set out under General Regulations, Qualifications for Admission. In addition, the following admission requirements will apply:

1. A Graduate Management Admissions Test (GMAT) score of at least 600. A Graduate Records Examinations (GRE) score of at least 310 will be accepted in lieu of GMAT scores.

2. An applicant who did not complete a four-year baccalaureate degree at a recognized university where English is the primary language of instruction must normally complete either the:
   a. Test of English as a Foreign Language (TOEFL) and achieve a paper-based score of 580 or higher, computer-based score of
27.2 General Program Requirements
1. The program of study for the Master of Science in Management Degree is the responsibility of the Supervisor.
2. It is the responsibility of the Supervisor to meet regularly (at least annually) with the student and to provide guidance at all stages of the candidate’s program. An annual report prepared by the Supervisor and signed by the student and the Supervisor is required to be submitted to the Director of the Master of Science in Management Program (Faculty of Business Administration).
3. Course requirements are set by each of the program areas and are described under Program Areas below.
4. In addition to courses and research, graduate students are expected to participate in Faculty of Business Administration seminars.
5. The Master of Science in Management program requires the successful completion of a written thesis. See School of Graduate Studies General Regulations, Thesis and Reports regarding thesis examination.

27.3 Program Areas
Program areas are available in General Management, Human Resources Management, Information Management, Operations Management, and Organizational Behaviour. The program requirements for each program area are outlined below:

27.3.1 General Management Program Requirements
Business 9901; Business 9923; Business 9927; one of Business 8103, Business 9903 or Business 9904; two electives chosen from any other graduate course(s) approved by the student’s supervisor.

27.3.2 Human Resources Management Program Requirements
Business 9901; Business 9921; Business 9925; one of Business 8103, Business 9903 or Business 9904; two electives chosen from other graduate course(s) approved by the student’s supervisor.

27.3.3 Information Management Program Requirements
Business 9901; Business 9911; Business 9918; one of Business 8103, Business 9902, Business 9903 or Business 9904; one of Business 9913 or Business 9915; one other graduate course approved by the student’s supervisor.

27.3.4 Operation Management Program Requirements
Business 9901; Business 9910; Business 9914; Business 9917; one of Business 8103, Business 9902, Business 9903 or Business 9904; one other graduate course approved by the student’s supervisor.

27.3.5 Organizational Behavior Program Requirements
Business 9901; Business 9920; Business 9924; one of Business 8103, Business 9903 or Business 9904; two electives chosen from other graduate course(s) approved by the student’s supervisor.

27.4 Courses
8103 Statistical Applications in Management
9901 Approaches to Management Research
9902 Modeling Methods in Management Research (prerequisite: 9901)
9903 Quantitative Methods in Management Research (prerequisite: 9901)
9904 Qualitative Methods in Management Research (prerequisite: 9901)
9910 Optimization
9911 Data and Process Models in Information Systems Development
9913 Human-Computer Interaction and Decision Support Systems
9914 Supply Chains: Models and Management
9915 Electronic Commerce
9917 Special Topics in Operations Management
9918 Special Topics in Information Systems
9920 Foundations in Organizational Behaviour
9921 Foundations in Human Resource Management
9923 Foundations in Organization Theory
9924 Current Issues in Organizational Behaviour
9925 Current Issues in Human Resource Management
9927 Current Issues in Organization Theory

28 Regulations Governing the Degree of Master of Science in Medicine
www.med.mun.ca/
Professor and Dean
J. Rourke
The Faculty of Medicine offers the degree of Master of Science in Medicine in eight program areas: Applied Health Services Research, Cancer and Development, Cardiovascular and Renal Sciences, Clinical Epidemiology, Community Health, Human Genetics, Immunology and Infectious Diseases, and Neurosciences. The Faculty of Medicine also offers the degrees of Master of Health Ethics and Master of Public Health. Each program area has a Co-ordinator/Principal who is responsible for communicating the interests of the programs to the Faculty of Medicine Graduate Studies Committee and participates in the admission of graduate students into the program in Medicine.

The Degree of Master of Science in Medicine (in all of the programs excluding the Applied Health Services Research Program) is offered in the Faculty of Medicine to full-time and part-time students. The Applied Health Services Research program is offered by full-time study only. The graduate diploma programs in Community Health and Clinical Epidemiology are offered to full-time and part-time students.

The following regulations will apply in conjunction with the General Regulations of the School of Graduate Studies.
28.1 Master of Science in Medicine

28.1.1 Qualification for Admission

The admission requirements for each of the M.Sc. program areas in Medicine are described under Programs of Study.

28.1.2 General Program Requirements

1. The program of study for the M.Sc. in Medicine Degree is the responsibility of the Supervisory Committee composed of a Supervisor and at least two other faculty members.
2. It is the responsibility of the supervisory committee to meet regularly (at least annually) with the student and to provide guidance at all stages of the candidate's program. An annual report prepared by the Supervisor and signed by the student and all members of the committee is required to be submitted to the Assistant Dean of Research and Graduate Studies (Medicine).
3. Course requirements are set by each of the program areas and are described under Programs of Study.
4. In addition to courses and research, graduate students are expected to participate in Faculty of Medicine seminars and journal clubs.
5. The M.Sc. in Medicine requires the successful completion of a research project and a written thesis.

28.1.3 Program Areas

28.1.3.1 Applied Health Services Research

The Applied Health Services Research program is jointly offered by the University of New Brunswick (UNB), Memorial University of Newfoundland (MUN), and the University of Prince Edward Island (UPEI). Students will be educated in an interdisciplinary environment and will develop a substantive understanding of: the Canadian health system, the conduct of ethical research, critical appraisal, appropriateness of research design for particular policy questions and determinants of health models. They will also gain first-hand exposure in a decision-making/policy environment and learn how to conduct research through completion of a thesis. Access to specific computer software and the Internet is required and will be the responsibility of each student.

1. Administration
   a. An Advisory Board, consisting of the Deans of Graduate Studies, the Principals from each site, plus student representation as well as health care decision makers and stakeholders from the Atlantic Region will oversee the academic program across the Universities and ensure program integrity.
   b. A Program Management Committee, consisting of the Principals from UNB, Memorial University of Newfoundland, and UPEI will oversee the operation of the program.
   c. At Memorial University of Newfoundland, the program shall be administered through the Office of Research and Graduate Studies (Faculty of Medicine) by a Principal who shall be appointed by the Dean of Graduate Studies on the recommendation of the Dean, Faculty of Medicine.

2. Qualifications for Admission
   a. Admission is limited and competitive. To be considered for admission to the program, an applicant shall normally have a bachelor's degree with a minimum 75% average (or equivalent) from an institution recognized by the Senate. Normally, students should have completed an undergraduate course in statistics.
   b. Students are normally admitted to the Fall semester (September). The deadline for receipt of applications is March 1. Late applications will only be considered if admissions decisions have not yet been made.

3. Program Requirements
   a. All students will be required to successfully complete seven core courses, a four-month residency placement and a thesis. In addition, candidates must participate in five conference workshops.
   b. Prior to submission of the thesis to the School of Graduate Studies for examination (see General Regulation Thesis and Reports), candidates shall present an open seminar.
   c. Outline of program of study:

#### 28.1.3.2 Cancer and Development

The graduate program in Cancer and Development offers study in fundamental cell and molecular biological areas including viral oncogenesis, growth factors, and oncogenes in developmental models, programmed cell death and drug resistance.

1. **Qualifications for Admission**
   - The admission requirements are as given under the General Regulations governing Master’s degrees. All courses in the program have as a prerequisite, successful completion of an advanced, upper-level biochemistry, biology or medical course, with an emphasis on molecular biology or medicine.

2. **Program Requirements**
   - All students are required to attend, for credit, and participate in the Cancer and Development Journal Club (Cancer, Seminars, MED 6400-6403). One other graduate course (chosen from MED 6580, 6590, 6591, 6340, 6341, or 6342) is required for M.Sc. Medicine students although other courses may be required in individual cases.

#### 28.1.3.3 Cardiovascular and Renal Science

The graduate program in Cardiovascular and Renal Sciences enables students to pursue research and academic studies in selected topics including hypertension and stroke, neural and endothelial control of vasculature and blood pressure as well as physiological mechanisms promoting heart failure. The faculty participating in the program consists of basic cardiovascular scientists and renal clinicians. Teaching within the program is integrated with the M.D. program.

1. **Qualifications for Admission**
   - The admission requirements are as given under the General Regulations governing Master’s degrees.

2. **Program Requirements**
   - Students will be required to take a minimum of two graduate courses. Basic Cardiovascular and Renal Physiology (MED 6140) is required and must be taken within 1.5 years after entry into the program. Students will choose a second course from MED 6141, 6142, 6143, 6144, or 6194 or any other graduate course approved by the student’s supervisory committee.

#### 28.1.3.4 Clinical Epidemiology

The program in Clinical Epidemiology is aimed at university graduates intending a career in health services, faculty members seeking advanced training in clinical epidemiology, medical doctors and health care professionals interested in health care delivery research.

1. **Qualifications for Admission**
   - The admission requirements are as given under the General Regulations governing Master’s degrees. In exceptional circumstances, a professional equivalent qualification will be considered for admission.

2. **Program Requirements**
   - Students are required to take: MED 6262 or MED 6200, MED 6250, MED 6255, and MED 6260, plus one or more additional course(s) as recommended by the supervisory committee. In addition students are required to take the Seminar Series (MED 6400-6403).
   - Students are expected to give an oral presentation of their thesis research.

#### 28.1.3.5 Community Health

The graduate program in Community Health enables students to pursue research and academic studies in selected topics including community health, epidemiology, socio-behavioural health, biostatistics, health services utilization, health policy, and health promotion.

1. **Qualifications for Admission**
   - The admission requirements are as given under the General Regulations governing Master’s degrees. In exceptional circumstances, a professional equivalent qualification will be considered. Students are expected to have successfully completed at
least one basic university-level statistics course.

2. Program Requirements

Students are required to take three core courses: MED 6220, MED 6270, and MED 6280; 2 core stream courses: either the quantitative stream, consisting of MED 6200 and MED 6275 or the qualitative stream, consisting of MED 6294 and MED 6102; and 1 elective; and to attend, for credit, and participate in four semester-length seminar courses (MED 6400-6403).

Graduate students of the Division of Community Health and Humanities may be required to participate in education experiences which occur outside of the St. John’s metropolitan area. Students may be responsible for their own associated transportation and accommodation.

28.1.3.6 Human Genetics

The graduate program in human genetics will enable students to pursue academic studies and research in a number of areas of genetics including cancer genetics, genetic epidemiology, genetic mapping, medical genetics, birth defects, and population genetics. Faculty members from all three divisions of the Faculty of Medicine (Basic Sciences, Community Health and Clinical Sciences) participate in the program.

1. Qualifications for Admission

The admission requirements are as given under the General Regulations governing Master’s degrees. Applicants with backgrounds in the fields of genetics, biochemistry and biology are preferred.

2. Program Requirements

a. Students will be required to complete a minimum of two graduate courses. Within the Human Genetics program the following courses are offered: Human Molecular Genetics (MED 6393), Human Population Genetics (MED 6390), Applied Human Genetics (MED 6392), and Selected Topics in Human Genetics (MED 6391). In addition, there are a number of courses in other graduate programs which could be suitable for some students in this program, including Epidemiology I (MED 6270), Molecular Biology of Cancer (MED 6580), Molecular Biology I (MED 6590) and Molecular Biology II (MED 6591). Course selection for each student is determined by the supervisory committee in consultation with the student and is based on the area of study and past course credits.

b. Students are expected to participate in the activities of the genetics group. These include the weekly Journal Club/Research Discussion Group and the Genetics Seminar Series (MED 6400-6403).

28.1.3.7 Immunology and Infectious Diseases

The Immunology and Infectious Diseases group has an interdisciplinary character and consists of faculty from biomedical science oncology research. The graduate programs are designed to provide individualized training oriented towards basic research and a solid and scientific background in the discipline of immunology and infectious diseases.

1. Qualifications for Admission

The admission requirements are as given under the General Regulations governing Master’s degrees. A Bachelor of Science Degree or equivalent is required.

2. Program Requirements

Students in the program are required to take a minimum of two courses. MED 6127 is required and the students will choose a second course from: MED 6119, MED 6128, MED 6580 or any other graduate course approved by the student’s supervisory committee. Some students may be required to take additional courses depending upon their thesis topic. All students are required to attend, for credit, and participate in the Immunology and Infectious Diseases Seminar Series (MED 6400-6403).

28.1.3.8 Neurosciences

The Neuroscience Program offers graduate studies in an interdisciplinary setting including faculty from biomedical science within the Faculty of Medicine and Department of Psychology in the Faculty of Science. Graduate students may pursue research in a number of specialty areas including the physiological basis of learning and memory, stroke and neuroplasticity, neuroregeneration, signal transduction mechanisms, neuronal circuitry, and membrane physiology. The Neuroscience Program is a Chapter of the Society for Neuroscience.

1. Qualifications for Admission

The admission requirements are as given under the General Regulations governing Master’s degrees. It is expected that the students will have had courses in biochemistry, biology and/or psychology with some exposure to basic university-level statistics.

2. Program Requirements

a. Students in the program are required to take Systems Neuroscience (MED 6196) and one other graduate level course. Additional courses may be required based on the recommendation of the supervisory committee.

b. Students are expected to attend and participate in the activities of the neuroscience group including the weekly seminar and journal club.

28.2 Graduate Diploma

The Faculty of Medicine offers a Graduate Diploma providing an opportunity for professionals and individuals within the health sector to obtain or upgrade their training in Community Health or Clinical Epidemiology.

28.2.1 Qualifications for Admission

To be admitted to the graduate diploma program a student must be eligible to register as a graduate student, as given under the General Regulations governing M.Sc. degrees. In special circumstances, and upon the recommendation of the Community Health, or Clinical Epidemiology Co-ordinator, a suitable combination of training and professional experience relevant to the program may be acceptable for admission.

28.2.2 Program Requirements

A graduate diploma in Community Health requires successful completion of MED 6220, MED 6270, 3 electives, and 2 semester-length seminar courses (MED 6400-6401).

A graduate diploma in Clinical Epidemiology requires successful completion of MED 6262 or MED 6200, 6250, and 6255 and the completion of a minimum of two of the Clinical Epidemiology seminar courses: Medicine 6400-6403 Research Seminars for M.Sc. Student I-IV.
28.2.3 Graduate Courses

6070 Seminars in Physiological Instrumentation
6075 Human Physiology, Performance and Safety in Extreme Environments (HSPE)
6090-6101 Special Topics
6107 Immunology I
6128 Immunology II (prerequisite: Medicine 6127)
6130A/B Advanced Immunological Methods (same as the former 6130)
6131-6139 Special Topics
6140 Basic Cardiovascular and Renal Physiology
6141 Cardiovascular/Renal Techniques
6142 Selected Topics in Cardiovascular and Renal Physiology
6143 Cardiovascular Anatomy
6144 Current Concepts in Cardiovascular and Renal Pathophysiology
6180 Structure, Function and Pharmacology of Muscle
6190 General Pharmacology
6192 Pharmacology of Receptors and Receptor Effector Coupling Processes
6193 Advanced Topics in Neuroscience
6194 Advanced Topics in Physiology
6195 Neurobiology of Nervous System Diseases
6196 Systems Neuroscience
6197 Cellular Neuroscience
6198 Neuroanatomy for Graduate Students (accelerated format)
6199 Health Sciences: Writing and Grantsmanship
6200 Biostatistics I (credit may be obtained for only one of MED 6200 or MED 6262)
6220 Introduction to Community Health
6225 Health Inequities and the Social Determinants of Health
6250 Basic Clinical Epidemiology
6255 Clinical Research Design
6256 Applied Data Analysis for Clinical Epidemiology
6257 Biostatistics in Clinical Medicine (credit may be obtained for only one of MED 6200 or MED 6262)
6263 Conducting and Publishing Systematic Review and Meta-analysis
6265 Genetics and Clinical Epidemiology
6270 Epidemiology I
6274 Chronic Disease Epidemiology
6275 Epidemiology II
6276 Current Topics in Canada's Health Care System
6277 Issues in Northern, Rural and Remote Health in Canada
6278 Advanced Biostatistics for Health Research
6279 Quantitative Methods for Applied Health Research
6280 Community Health Research Methods
6281 Theory and Approaches to Medical Publication
6282 Canadian Health Care System
6284 Research and Evaluation Design and Methods
6286 Ethical Foundations of Applied Health Research
6288 Policy and Decision Making
6290 Determinants of Health: Healthy Public Policy
6292 Qualitative and Quantitative Methods for Health Services Research
6293 Knowledge Transfer and Research Uptake
6294 Advanced Qualitative Methods
6295 Advanced Quantitative Methods
6296 Residency
6297 Theories of Social Justice in Health
6340 Research Topics in Cancer I
6341 Research Topics in Cancer II
6342 Basic Principles of the Pathology of Cancer
6390 Human Population Genetics
6391 Selected Topics in Human Genetics
6392 Applied Human Genetics
6393 Human Molecular Genetics
6394 Cancer Genetics
6395 Genomic Epidemiology
6400 Research Seminars for M.Sc. Students I (one-credit hour)
6401 Research Seminars for M.Sc. Students II (one-credit hour)
6402 Research Seminars for M.Sc. Students III (one-credit hour)
6403 Research Seminars for M.Sc. Students IV (one-credit hour)
6410 Research Seminars for Ph.D. Students I (one-credit hour)
6411 Research Seminars for Ph.D. Students II (one-credit hour)
6412 Research Seminars for Ph.D. Students III (one-credit hour)
6413 Research Seminars for Ph.D. Students IV (one-credit hour)
6420 Medical Science/Social Responsibility in Health Care: Aspects of Medical History (same as History 6125)
6580 Molecular Biology of Cancer (prerequisites: Biology 4241, Biochemistry 4100 [or equivalent])
6590 Molecular Biology I (cross-listed as Biology 6590 and credit-restricted with Biochemistry 6590) prerequisites: Biology 4241 (or equivalent)
6591 Molecular Biology II (cross-listed as Biology 6591 and credit-restricted with the former Biochemistry 6591) prerequisites: Biology 4241 (or equivalent)
6592 Medical Geography I - Introduction to Geographic Information Science and Spatial Analysis in Health
6593 Medical Geography II - Geospatial Analysis and Modelling in Health prerequisite: 6900
29 Regulations Governing the Degree of Master of Science in Pharmacy

www.mun.ca/pharmacy

Professor and Dean
C.A. Marra

The Degree of Master of Science in Pharmacy (M.Sc. (Pharm.)) is offered to qualified full-time and part-time students by the School of Pharmacy. The General Regulations of the School of Graduate Studies of Memorial University of Newfoundland outlined in the current Calendar, and the Degree Regulations of the School of Pharmacy outlined below will apply to the M.Sc. (Pharm.) program. Every candidate in graduate studies shall comply with the General Regulations, the Degree Regulations, and all additional requirements of the School of Pharmacy.

29.1 Qualifications for Admission

Admission to the M.Sc. (Pharm.) program will be offered on the basis of academic excellence. The basic requirements for admission are those established by the School of Graduate Studies of Memorial University of Newfoundland. The minimum qualification for admission is a recognized four-year undergraduate degree in Pharmacy, or a recognized four-year undergraduate degree in physical, chemical or biological science, or equivalent, with an overall B average.

Applications submitted through the School of Graduate Studies will be evaluated by the Graduate Studies Committee of the School of Pharmacy. No candidate will be admitted to the program without a recommendation of acceptance by the Graduate Studies Committee. Admission of a candidate to the M.Sc. (Pharm.) program shall be made by the Dean of Graduate Studies.

29.2 Formulation of Program of Study

Upon acceptance to the program, the Supervisor will assess the student's research interests, background, strengths, and weaknesses. The Supervisor will formulate a program of study (see below) and select a supervisory committee for the student. The program of study will be selected on the basis of the thesis research, the background of the student, and the perceived need for specific graduate courses that will complement the student's working knowledge in his/her area of research. The supervisory committee will include the Supervisor, one other academic staff person from the School of Pharmacy, and one external academic staff person from Memorial University of Newfoundland. This committee will advise the student about his/her thesis research. Accordingly, they will meet with the student within two months of his/her initial registration, at the end of the second semester (8th month of study), at the end of the fourth semester (16th month), and immediately before the student begins to write the thesis. Both the program of study and the supervisory committee must be approved by the Graduate Studies Committee.

29.3 Program of Study

1. Minimum requirements for the M.Sc. (Pharm.) Degree will be the successful completion of:
   a. Six credit hours in program graduate courses chosen from those available in Pharmacy, Medicine, or Biochemistry.
   b. Pharmacy Seminar
   c. A thesis embodying original research

2. Graduate courses will be chosen based on the academic background of the student and the area of his/her thesis research.

   Note: Qualified students accepted into the program who are considered to have an insufficient background for their thesis research may be required to successfully complete additional courses as selected by their Supervisor.

3. Pharmacy Seminar: All candidates for the Degree of M.Sc. (Pharm.) will be required to participate in the Pharmacy Seminar during the first two years of their program. Selected topics in pharmaceutical sciences will be presented and discussed by faculty, students and visiting speakers. Graduate students will be required to present one seminar each year. In the second year of study, the graduate student will present a progress report of his/her research in the seminar. Upon successful completion of the seminar the Chair of the Graduate Studies Committee will so notify the Dean of Graduate Studies.

29.4 M.Sc. (Pharm.) Thesis

Every candidate shall submit a thesis to the School of Graduate Studies. The thesis shall contain original research conducted by the candidate and approved by the supervisory committee.

In preparation for the thesis examination, the candidate will provide a copy of the thesis to each member of the supervisory committee. Each member of this committee will submit a written report to the Chairman of the Graduate Studies Committee. Before the thesis is submitted, the student shall present an open seminar on the topic of investigation to the School of Pharmacy. Any serious deficiencies noticed at this stage should be carefully considered, in consultation with the supervisory committee, for revision.

Three copies of the thesis shall be submitted to the School of Graduate Studies through the School of Pharmacy, in a form and format as specified by the School of Graduate Studies.

As specified in General Regulation Theses and Reports of the School of Graduate Studies, the written thesis will be reviewed by examiners appointed by the Dean of Graduate Studies on the recommendation of the Dean of the School of Pharmacy or the Chairman of the Graduate Studies Committee.

29.5 Courses

Permission of the instructor and the Graduate Studies Committee of the School of Pharmacy is required for admission to any of the graduate Pharmacy courses.

- 6000 Medicinal Chemistry
- 6001 Advanced Physical Pharmacy
- 6002 Dosage Form Design and Novel Drug Delivery Systems
- 6003 Pharmacokinetic Modelling
- 6004 Principles of General Pharmacology
- 6005 Toxicology of Therapeutic Agents and Chemicals
- 6100-6108 Special Topics in Pharmacy
30 Regulations Governing the Degree of Master of Social Work

www.mun.ca/socwrk
Professor and Dean
D. Hardy-Cox

The degrees of Master of Social Work and Doctor of Philosophy are offered in social work.

The Master of Social Work (M.S.W.) may be completed by part-time or full-time study. All program components, with the exception of on-campus institutes, are offered online.

The focus of the M.S.W. program is creative approaches to critical thinking for leadership in diverse social work practice. The program allows professionally qualified social workers holding the Degree of B.S.W. or an equivalent professional undergraduate degree in Social Work to undertake intensive advanced work in a specialized area of social work knowledge and practice.

The program is designed to be accessible to students in remote and rural areas, and assumes that: (1) students will have a computer and Internet access; and (2) can travel to St. John’s for the institute portion of the three practice courses. Students will be expected to incur charges for Internet services, long distance telephone charges, and travel and accommodation expenses.

Entrance into all courses and the offering of any course in an academic year is by approval of the School, consistent with the student’s program. Students are admitted only into a designated program of studies.

The School of Social Work may deliver special offerings of the M.S.W. and/or other programs of the School to identified groups of out-of-province students where numbers warrant. These offerings will be self-supporting, and therefore subject to an additional one-time non-refundable tuition fee as approved by the Board of Regents and payable on first registration following formal admission to the program.

Students will also pay appropriate tuition fees for each semester during their tenure in the program.

Admission to the special offerings of these programs will be competitive, using the same procedures and standards that are in place for students applying to the St. John’s campus program(s).

Subject to approval by the M.S.W. Program Committee of the School of Social Work, students admitted to an out-of-province program offering may apply to transfer to the equivalent program on the St. John’s campus. In such instances, the fee structure under which the student was admitted will not change. Subject to approval by the M.S.W. Program Committee of the School of Social Work, students admitted to a St. John’s based program may apply to transfer to the equivalent out-of-province program. In these instances, students transferring from the St. John’s based program offerings to an equivalent out-of-province offering will be required to pay a pro-rated one-time fee upon formal transfer to the special offering.

30.1 Qualifications for Admission

1. Admission to the M.S.W. program is limited, selective, and competitive. Meeting the minimum criteria for admission does not guarantee acceptance to the program.

2. To be considered for admission, an applicant shall hold a Bachelor of Social Work (B.S.W.) degree (or an equivalent professional undergraduate degree in social work approved by the M.S.W. Program Committee of the School of Social Work) from an institution recognized by the Senate, with at least second class standing, and an average of at least 70% in the last 60 undergraduate credit hours.

3. In addition to the stated academic requirements, the applicant must have completed, subsequent to obtaining the B.S.W. degree, at least two years employment in professional social work practice or in a comparable human service discipline or activity. Extensive relevant experience prior to undergraduate degree work may be recognized in full or partial fulfillment of this requirement.

4. For ten percent of seats per year, priority is given to applicants of First Nations/Aboriginal ancestry who meet the minimum criteria for admission. When the number of eligible applicants wishing to be considered under this clause exceeds the number of seats available, priority will normally be given to bona fide residents of Newfoundland and Labrador (see Qualifications for Admission). Applicants wishing to be considered under this clause shall complete the Educational Equity section of the Supplementary Information form at the time of application.

5. For an additional ten percent of seats per year, priority is given to applicants from other equity groups, based on a person’s sexual orientation, gender identity, race, ethnicity, disability and/or being disadvantaged by their economic position/background and who meet the minimum criteria for admission. When the number of eligible applicants wishing to be considered under this clause exceeds the number of seats available, priority will normally be given to bona fide residents of Newfoundland and Labrador (see Qualifications for Admission). Applicants wishing to be considered under this clause shall complete the Educational Equity section of the Supplementary Information form at the time of application.

6. Not withstanding the above, and in keeping with the School’s commitment to achieving equitable representation in the student body, the M.S.W. Program Committee of the School of Social Work, at its discretion, may give preference to additional applicants of First Nations/Aboriginal ancestry and/or members of other equity groups who meet the minimum criteria for admission.

7. Not withstanding the above, and in keeping with the University’s special obligation to educate the citizens of Newfoundland and Labrador, when the number of eligible applicants exceeds the number of seats available, priority will normally be given to bona fide residents of Newfoundland and Labrador (see Qualifications for Admission).

8. Applicants will be deemed bona fide residents of Newfoundland and Labrador if at the time of application they are currently residing or have a permanent address in the province.

30.2 Procedure for Admission

1. Applicants must submit an application for admission with supporting documentation to the School of Graduate Studies, which approves recommendations for admission made by the M.S.W. Program Committee of the School of Social Work. The supporting documentation will consist of: (1) an official transcript of the applicant’s previous academic record submitted directly from the institution(s) attended; a statement of previous professional employment; a list of any published or unpublished works, a declaration of program emphasis and educational objectives; and two letters of appraisal, to be submitted by two referees, one assessing the applicant’s previous academic performance and one assessing the applicants previous practice performance. Letters of appraisal are to be submitted directly to the School of Graduate Studies by the referees.

Note: Independent of admission to the program, agencies providing the mandatory field internship may have a range of additional requirements such as Criminal Record Check, Child Protection Records Check, or Health Check.

2. The deadline date for receipt of applications for admission in September of each year is January 15 of the same year. All application forms and supporting documentation for admission to the program must be submitted to the School of Graduate Studies on or before the deadline of January 15. Under special circumstances, late applications and admissions in other semesters may be considered.

3. The M.S.W. Program Committee of the School of Social Work may require the applicant to be interviewed by one or more faculty members.
members of the M.S.W. Program Admissions Subcommittee.

4. A person who meets the basic admission requirements under Qualifications for Admission, may, space permitting, take SCWK 6012 without applying for and being admitted to the M.S.W. program. Persons wishing to take a course under this provision must have applied for admission to the M.S.W. program by January 15th of the same year, and been placed on the waitlist. If there are available seats in the course, the applicant will need to submit to the School of Social Work the appropriate form requesting permission to register in a graduate course, and apply or reapply for admission to Memorial University of Newfoundland as an undergraduate.

5. A person who has completed an M.S.W. degree is eligible to register in any M.S.W. course offering, space permitting.

30.3 Plan of Study

1. A student's plan of study will be developed cooperatively by the student and the M.S.W. Student Services Coordinator.

2. Specified supplementary studies may be required to ensure requisite knowledge pertinent to the requirements for the degree.

3. A student electing a thesis program shall be assigned a Supervisor by the Dean of the School in consultation with the student. It is recommended that a thesis Supervisor be assigned as early in the program as possible. The thesis supervisor, when assigned, shall normally assume the duties of faculty advisor and Pathway mentor.

4. a. Students who choose the thesis route must complete a thesis and a minimum of 21 credit hours consisting of SCWK 6012 (or the former 6011), 6013, 6014, 6317, 6413, 6917, and at least one of SCWK 6314, 6315, and 6316. Course route students must complete a minimum of 27 credit hours consisting of SCWK 6012 (or the former 6011), 6013, 6014, 6317, 6413, 6417, 6917, and at least two of 6314, 6315, and 6316. Students in either route may be required to take additional courses.

   b. In addition to the above, students will be required to register for SCWK 6000 during each of the relevant semesters as prescribed below, in accordance with their plan of study. This course comprises the academic mentorship component of the revised program and is designed to provide students with the opportunity to integrate curriculum with their individual academic and practice interests throughout their time in the program. For course route students, SCWK 6000 serves as a foundation for SCWK 6417. For thesis route students, SCWK 6000 serves as a foundation for their thesis.

   i. Full-time course route and all thesis route students will register for SCWK 6000 beginning in the Fall of their first year and in each subsequent semester in which they are actively completing course work in the M.S.W. program.

   ii. Part-time course route students completing the program in 6 semesters will register for SCWK 6000 beginning in the Fall of their first year and in each subsequent semester in which they are actively completing course work in the M.S.W. program.

   iii. Part-time course route students completing the program in 9 semesters will register for SCWK 6000 beginning in the Fall of their second year and in each subsequent semester in which they are actively completing course work in the M.S.W. program.

   iv. By the end of the final week of the first semester in which students are registered in SCWK 6000, they are required to submit the M.S.W. Pathway Learning Contract to their Mentor. Students are also required to submit a written progress report due the last day of classes of each semester, beginning with the first semester in which they are registered in SCWK 6000.

   v. A grade of NC (No Grade Expected) will be awarded in all semesters of the course prior to the final Semester. The final grade in this non-credit course will be either Pas or Fal.

30.4 Field Internship SCWK 6917

Each M.S.W. student is required to complete a 500 hour field internship that is to be conducted in a setting and supervised by a qualified field instructor approved by the School of Social Work. Field Instructors must have as a minimum qualification a M.S.W. Degree and a minimum of two years post-M.S.W. social work employment.

Field internships may be offered in whole or in part outside the normal start and end dates of a semester. Part-time field internships of two semesters will require approval from the proposed agency, Field Instructor, and the M.S.W. Field Education Coordinator.

The M.S.W. Field Education Coordinator is responsible for facilitating appropriate matches among the student, field instructor, and field internship setting. Although considerable effort will be made to introduce students to the agencies they will be serving, final approval of field internship rests with the School of Social Work. The School cannot guarantee the availability of M.S.W. field internship in all communities and at all times. Students are responsible for their own financial support during the field internship.

At least four months prior to the commencement of the semester in which they intend to begin SCWK 6917, all students shall submit a completed Intent to Register in M.S.W. Field Internship form and a current resume to the M.S.W. Field Education Coordinator. At least six weeks before the internship commences, students shall submit an M.S.W. Field Internship Proposal to the Coordinator. The School of Social Work depends on the cooperation of community agencies external to the University to provide field internships and instruction to its students. Many of these agencies have a range of requirements, such as Criminal Record Check, Child Protection Records Check, or Health Check, which must be completed before starting the internship. Students unable to meet the agency's requirements may be delayed in their program or prevented from completing their program of study. Students are required to complete and update these requirements in a timely fashion and at their own expense. The procedures of any given agency may change from time to time and are beyond the control of the University.

Evaluation of the field internship will be on a PAS/FAIL basis. Students who voluntarily withdraw from the field internship without prior approval of the M.S.W. Field Education Coordinator and the Graduate Officer, or who conduct themselves in such a manner as to cause the agency and the M.S.W. Field Education Coordinator to terminate the placement, will normally be awarded a grade of FAIL in the field internship.

Students who voluntarily withdraw from the field internship with the prior approval of the M.S.W. Field Education Coordinator and the Graduate Officer cannot be guaranteed a second internship during that semester. In this case, the student will be awarded a grade of INC for the field internship. The student shall normally complete a field internship the following semester.

30.5 Course Format

To increase accessibility for students in remote and rural areas, we offer courses in the following formats:

1. SCWK 6012, 6013, 6014, and 6413 are online courses.

2. SCWK 6314, 6315, 6316, and 6317 are online courses with a mandatory on-campus institute component consisting of 36 hours of classroom instruction. Course materials and activities for the pre-institute and post-institute components of the courses are available online for students. Students must be available on a full-time basis to attend classes and complete assignments and group projects during the institute portion of these courses. It is recommended that students take leave from their employment for the duration of an on-campus institute, which may be scheduled in a combination of weekday, evening, and weekend hours within a two-week time period. The final decision regarding the on-campus institute schedule rests with the School of Social Work.
3. SCWK 6917 can be completed in St. John's, or in a student's home community, where appropriate supervision is available.
4. SCWK 6000 and 6417 can be completed in St. John's or in a student's home community.
5. In exceptional circumstances, and contingent upon student numbers and school resources, additional course sections may be offered in a regular classroom format.

### 30.6 Period of Study

For students admitted to the program under Plan of Study above:

1. For part-time students, the program is designed to permit completion of all degree requirements within three academic years (nine semesters) or two academic years (six semesters). The following is a sample program of study for nine semesters:

   **Fall Semester:**
   - SCWK 6012 in Year 1
   - SCWK 6000, 6317, or 6413 in Year 2
   - SCWK 6000; SCWK 6317 or 6413 in Year 3

   **Winter Semester:**
   - SCWK 6013 in Year 1
   - SCWK 6000; SCWK 6314, 6315, 6316, or 6413 in Year 2
   - SCWK 6000; SCWK 6314, 6315, 6316, or 6413 in Year 3

   **Spring Semester:**
   - SCWK 6014 in Year 1
   - SCWK 6000; SCWK 6314 or 6315 in Year 2
   - SCWK 6917 (Field Internship) may be completed in Fall/Winter/Spring of Year 3
   - SCWK 6417 (Pathway Scholarship) is the final requirement to be completed and may be completed in the same semester as SCWK 6917 (Field Internship). Students are required to register for SCWK 6000 concurrently with SCWK 6917 and 6417.

2. For full-time students, course route, the program is designed to permit completion of all degree requirements within one academic year (three semesters), as follows:

   **Fall Semester:**
   - SCWK 6000, 6012, 6013, and 6317 (institute)

   **Winter Semester:**
   - SCWK 6000, 6014, 6314 or 6315 or 6316 (institute), and 6413

   **Spring Semester:**
   - SCWK 6012, 6013, and 6317* (institute)
   - SCWK 6000, 6014, 6314, 6315, or 6316* (institute), and 6413
   - SCWK 6000, 6014, 6313, 6315, or 6316 in Year 3

3. For full-time students, thesis route, the program is designed to permit completion of all degree requirements within one academic year (three semesters), as follows:

   **Fall Semester:**
   - SCWK 6000, 6012, 6013, and 6317* (institute)

   **Winter Semester:**
   - SCWK 6000, 6014, 6314 or 6315 or 6316* (institute), and 6413

   **Spring Semester:**
   - SCWK 6000, 6014, 6314, 6315, or 6316* (institute), and 6413
   - SCWK 6000, 6014, 6316 or 6315 in Year 3

   * Thesis students are required to complete 6317 and only one of the three institute courses 6314, 6315, or 6316.

### 30.7 Evaluation

1. Failure to attain a final passing grade of A or B in a program course, or PAS in a PASS/FAIL course, shall lead to termination of the student's program, unless a re-read has been requested. Failure to obtain the required grades in the re-read shall lead to termination of the student's program.
2. To remain in good standing students are required to maintain professional behaviour consistent with the current Code of Ethics of the Canadian Association of Social Workers ([www.casw-acts.ca/en/what-social-work/casw-code-ethics](http://www.casw-acts.ca/en/what-social-work/casw-code-ethics)). Students who are registered in their home province are required to comply with the current Code of Ethics of their provincial association of social workers. Students who are not registered in their home province are required to comply with the current Code of Ethics of the Canadian Association of Social Workers. Students who fail to meet this requirement will be required to withdraw from the School upon the recommendation of the M.S.W. Program Committee.

### 30.8 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the School will allow.

#### Program Courses

- **6000 Pathway** (mandatory repeatable non-credit course)
- **6012 Critical Thinking and Reflection** (credit may not be obtained for both 6012 and the former 6011)
- **6013 Leadership for Social Justice** (prerequisite/co-requisite 6012) (credit may not be obtained for both 6013 and the former 6540)
- **6014 Leadership in Social Policy and Programs** (prerequisite/co-requisite 6012) (credit may not be obtained for both 6014 and the former 6530)
- **6314 Perspectives with Diverse Communities** (prerequisite 6012) (credit may not be obtained for both 6314 and the former 6530)
- **6315 Perspectives with Groups** (prerequisite 6012) (credit may not be obtained for both 6315 and the former 6532)
- **6316 Perspectives with Families** (prerequisite 6012) (credit may not be obtained for both 6316 and the former 6332 or 6313)
- **6317 Perspectives with Individuals** (prerequisite/co-requisite 6012) (credit may not be obtained for both 6317 and the former 6312 or 6313)
- **6412 Research Theory, Design, and Analysis** (prerequisite/co-requisite 6012) (credit may not be obtained for both 6412 and 6422)
- **6417 Pathway Scholarship** (following completion of all other program components) (credit may not be obtained for both 6417 and the former 6412 or 6442)
- **6917 Field Internship** (prerequisites 6012; 6013; 6014; 6317; and 6413 and prerequisite/co-requisite two of 6314, 6315, or 6316 for course route students, one of 6314, 6315, or 6316 for thesis route students) (credit may not be obtained for both 6917 and the former 6912)
Program Core Courses for Students Admitted Prior to Fall 2016

6000 Pathway (mandatory repeatable non-credit course)
6012 Critical Thinking and Reflection (credit may not be obtained for both 6012 and the former 6011)
6013 Leadership for Social Justice (prerequisite/co-requisite 6012) (credit may not be obtained for both 6013 and the former 6540)
6014 Leadership in Social Policy and Programs (prerequisite/co-requisite 6012) (credit may not be obtained for both 6014 and the former 6536)
6313 Perspectives with Individuals and Families (prerequisite/co-requisite 6012) (credit may not be obtained for both 6313 and the former 6312 or 6322)
6314 Perspectives with Diverse Communities (prerequisite 6012) (credit may not be obtained for both 6314 and the former 6230)
6315 Perspectives with Groups (prerequisite 6012) (credit may not be obtained for both 6315 and the former 6332)
6316 Research Theory, Design, and Analysis (prerequisite/co-requisite 6012) (credit may not be obtained for both 6413 and the former 6412 or 6422)
6417 Pathway Scholarship (following completion of all other program components) (credit may not be obtained for both 6417 and the former 6432 or 6442)
6917 Field Internship (prerequisites 6012; 6013; 6014; 6313; and 6413 and prerequisite/co-requisite 6314 and 6315) (credit may not be obtained for both 6917 and the former 6912)

Program Core Courses for Students Admitted Prior to Fall 2011

6011 Critical Thinking and Ethical Evaluation for Assessment and Intervention
6312 Crisis Intervention, Brief and Integrated Therapies for Diverse Individuals (prerequisite/co-requisite 6011) (credit may not be obtained for both 6312 and 6313)
6322 Family Therapy: Promotion of Strengths and Prevention of Violence in Diverse Families (prerequisite 6011) (credit may not be obtained for both 6322 and 6313)
6332 Social Work Perspectives in Interdisciplinary Team Development and Group Therapy (prerequisite 6011) (credit may not be obtained for both 6332 and 6315)
6412 Research Design for Social Work Assessment and Evaluation (prerequisite/co-requisite 6011) (credit may not be obtained for both 6412 and 6413)
6422 Data Analysis for Social Work Assessment and Evaluation (prerequisite 6011 and 6412) (credit may not be obtained for both 6422 and 6413)
6432 Research Internship (2 credit hours) (prerequisite 6011, 6412 and 6422)
6442 Colloquium: Integrating Theory and Research in Advanced Clinical Practice (1 credit hour) (following completion of all other program components)
6912 Advanced Clinical Practice Internship (prerequisites 6011, 6312, 6322 and prerequisite/co-requisite 6332) (credit may not be obtained for both 6912 and 6917)

Program Elective Courses for Students Admitted Prior to Fall 2011

6230 Seminar in Community Development (credit may not be obtained for both 6230 and 6314)
6350 Seminar in Social Administration: Evaluation of Policies and Programs (credit may not be obtained for both 6530 and 6014)
6540 Supervision in Professional and Clinical Practice (credit may not be obtained for both 6540 and 6013)
6550 Feminist Therapy in Social Work Practice

Although the School does not currently offer a program in Social Policy and Administration, it has faculty expertise in these areas and, in the future, may offer the following courses:
6210 Seminar in Social Planning and Social Development
6220 Seminar in Organization Development
6510 Seminar in Social Administration: Social Policy Analysis, Development and Administration
6520 Seminar in Social Administration: Program Design and Development
6820-29 Individual Reading and Research in Special Areas

Thesis
See General Regulations, Theses and Reports.

Note: Every candidate shall comply with the General Regulations governing the School of Graduate Studies and the M.S.W. Degree Regulations.

31 Regulations Governing the Degree of Master of Technology Management

www.mi.mun.ca
Vice-President (Marine Institute)
G. Blackwood

31.1 Administration

The Program will be administered by an Academic Director appointed by the Vice-President (Marine Institute), together with an Academic Advisory Committee.

An Academic Advisory Committee will be appointed by the Dean of Graduate Studies on recommendation of the Vice-President (Marine Institute). This committee will consist of the Academic Director as Chair, three members from the Marine Institute and one member from each of the Faculty of Business Administration and the Faculty of Engineering and Applied Science. Normally, all appointments will be for a period of three (3) years.

A Technical Advisory Committee consisting of a cross-section of members with professional expertise related to the technology sector, will provide regular feedback on program content, instruction, and future direction of the Program. Members of this Committee will be appointed by the Dean of Graduate Studies on recommendation of the Vice-President (Marine Institute). The Academic Director will be an ex officio member and Chair of the Technical Advisory Committee. Normally all appointments will be for a period of three (3) years.

31.2 Program

The Master of Technology Management (MTM) is a comprehensive academic program that provides a broad understanding of the structure and operation of organizations and the factors that influence business decisions in the context of technology-based organizations. It provides a technology management focus through the development of knowledge and understanding of the nature of technical operations and the factors that have an impact on their success, as well as the ability to apply these concepts within their organizations.

The program consists of two Options:
Engineering and Applied Science Technology Option
Aquaiculture Technology Option

The program is offered online and requires successful completion of either 1) 24 credit hours of course work and a comprehensive project and report (6 credit hours), or 2) 30 credit hours of comprehensive course work. Candidates will typically register on a part-time basis.

31.2.1 Admission Requirements

Admission to the program is on a competitive basis.

1. The deadlines for submission of applications are as follows:
   - Fall (September) semester: May 15
   - Winter (January) semester: September 15

   Applications received after listed deadlines will be considered as time and resources permit.

2. To be considered for admission to the Engineering and Applied Science Technology Option an applicant will normally possess a second class or better undergraduate degree from a university of recognized standing and will normally have:
   - a minimum of two (2) years relevant employment experience.

3. To be considered for admission to the Aquaculture Technology Option an applicant will normally possess a second class or better undergraduate degree from a university of recognized standing and will normally have:
   - a post-graduate aquaculture credential or an aquaculture focus in their undergraduate degree, or significant professional experience in the aquaculture industry; and
   - a minimum of two (2) years relevant employment experience.

4. In exceptional cases, applicants who have not completed an undergraduate degree, but who meet all other requirements, may be considered for admission. Preference will be given to those who have significant and relevant professional experience, and have successfully completed several years of post-secondary studies. Applicants who do not meet normal admission requirements shall be required to complete, with a high level of achievement, certain undergraduate courses before being considered for admission.

5. Applicants who did not complete a baccalaureate or post-graduate degree at a recognized university where English is the primary language of instruction must normally complete either the:
   - Test of English as a Foreign language (TOEFL) and achieve a paper-based score of 580 (or higher), computer-based score of 237 (or higher), or Internet based score of 92-93 (or higher); or
   - International English Language Testing System (IELTS) and achieve a score of 7 (or higher).

   Information regarding the TOEFL is available from the Educational Testing Service at www.ets.org. IELTS information is available at www.ielts.org. It is noted that other equivalent tests acceptable to the School of Graduate Studies will also be considered.

6. Upon acceptance into the program, students will be admitted to one of the two Options: the Engineering and Applied Science Technology Option or the Aquaculture Technology Option.

31.2.2 Program of Study

31.2.2.1 Master of Technology Management - Engineering and Applied Science Technology Option

1. Candidates for the Master of Technology Management (Engineering and Applied Science Technology Option) shall be required to complete a minimum of either:
   a. 24 credit hours of course work and a major project and report (6 credit hours). Course work includes two compulsory core courses (6 credit hours) and six elective courses (18 credit hours). Students on the project route will complete MSTM 6100: Project in Engineering and Applied Science Technology Management (6 credit hours).
      i. Core Courses (Two to be completed):
         MSTM 6031 Overview of Technical Operations
         MSTM 6032 Managing Technological Innovation
      ii. Elective courses (Six to be completed):
         MSTM 6022 Communication and Conflict Resolution in a Technical Environment
         MSTM 6023 Strategic Planning, Policy, Participation and Management in Technical Operations
         MSTM 6030 Principles of Management for Engineering Technology Enterprises
         MSTM 6033 Quality Systems
         MSTM 6034 Project Management in the Offshore, Health, Fisheries and Engineering Technology Environments
         MSTM 6035 Information Technology Applications in the Health and Engineering Technology Environments
         MSTM 6036 Supply Chain Management and Advanced Engineering Technology Operations
         MSTM 6037 Risk Analysis and Operations in the Engineering Technology Sector
         MSTM 6038 Manufacturing and Engineering Technology Management
         MSTM 6039 Sustainability and Environmental Responsibility
         MSTM 6052 Management of Intellectual Property
         MSTM 6054 Technology Assessment
         MSTM 6056 Management of International Development

      Project in Engineering and Applied Science Technology Management
      MSTM 6100 Project in Engineering and Applied Science Technology Management (6 credit hours). Students will choose a topic in consultation with the Academic Director and will work independently to carry out an in-depth study of a problem or application within the area of technology management and fully document and present their findings. Preferably the problem will be directly related to a workplace situation.
   b. 30 credit hours on a comprehensive-course route. Course work includes two compulsory core courses (6 credit hours) and eight elective courses (24 credit hours).
      i. Core Courses (Two to be completed):
         MSTM 6031 Overview of Technical Operations
Elective Courses (Eight to be completed):
- MSTM 6022 Communication and Conflict Resolution in a Technical Environment
- MSTM 6023 Strategic Planning, Policy, Participation and Management in Technical Operations
- MSTM 6030 Principles of Management for Engineering Technology Enterprises
- MSTM 6033 Quality Systems
- MSTM 6034 Project Management in the Offshore, Health, Fisheries and Engineering Technology Environments
- MSTM 6035 Information Technology Applications in the Health and Engineering Technology Environments
- MSTM 6036 Supply Chain Management and Advanced Engineering Technology Operations
- MSTM 6037 Risk Analysis and Operations in the Engineering Technology Sector
- MSTM 6038 Manufacturing and Engineering Technology Management
- MSTM 6039 Sustainability and Environmental Responsibility
- MSTM 6052 Management of Intellectual Property
- MSTM 6054 Technology Assessment
- MSTM 6056 Management of International Development

2. Up to three relevant elective courses (9 credit hours) may be transferred from other graduate programs within the School of Graduate Studies or from other post-secondary institutions recognized by Senate, subject to the approval of the Dean of Graduate Studies on the recommendation of the Academic Director.

31.2.2.2 Master of Technology Management - Aquaculture Technology Option

1. Candidates for the Master of Technology Management (Aquaculture Technology Option) shall be required to complete a minimum of either:
   a. 24 credit hours of course work and a major project and report (6 credit hours). Course work includes two compulsory core courses (6 credit hours); and six elective courses (18 credit hours). Students on the project route will complete MSTM 6102: Project in Aquaculture Technology Management (6 credit hours).
      i. Core Courses (Two to be completed):
         - MSTM 6031 Overview of Technical Operations
         - MSTM 6032 Managing Technological Innovation
      ii. Elective Courses (six to be completed including at least three from Category B):
         Category A
         - MSTM 6022 Communication and Conflict Resolution in a Technical Environment
         - MSTM 6023 Strategic Planning, Policy, Participation and Management in Technical Operations
         - MSTM 6033 Quality Systems
         - MSTM 6034 Project Management in the Offshore, Health, Fisheries and Engineering Technology Environments
         - MSTM 6037 Risk Analysis and Operations in the Engineering Technology Sector
         - MSTM 6039 Sustainability and Environmental Responsibility
         - MSTM 6052 Management of Intellectual Property
         - MSTM 6056 Management of International Development
         Category B
         - MSTM 6071 Management of Aquaculture Technology
         - MSTM 6072 Animal Husbandry Management
         - MSTM 6073 Aquaculture Environmental Management
         - MSTM 6074 Aquaculture Site and Operational Assessment
         - MSTM 6075 Aquaculture Engineering Technology Management
         Project in Aquaculture Technology Management
         MSTM 6102 Project in Aquaculture Technology Management (6 credit hours). Students will choose a topic in consultation with the Academic Director or designate and will work independently to carry out an in-depth study of a problem or application within the area of aquaculture technology management and fully document and present their findings. Preferably the problem will be directly related to a workplace situation.
   b. 30 credit hours on a comprehensive-course route. Course work includes two compulsory core courses (6 credit hours); and eight elective courses (24 credit hours).
      i. Core Courses (Two to be completed):
         - MSTM 6031 Overview of Technical Operations
         - MSTM 6032 Managing Technological Innovation
      ii. Elective courses (Eight to be completed including at least three from Category B):
         Category A
         - MSTM 6022 Communication and Conflict Resolution in a Technical Environment
         - MSTM 6023 Strategic Planning, Policy, Participation and Management in Technical Operations
         - MSTM 6033 Quality Systems
         - MSTM 6034 Project Management in the Offshore, Health, Fisheries and Engineering Technology Environments
         - MSTM 6037 Risk Analysis and Operations in the Engineering Technology Sector
         - MSTM 6039 Sustainability and Environmental Responsibility
         - MSTM 6052 Management of Intellectual Property
         - MSTM 6056 Management of International Development
         Category B
         - MSTM 6071 Management of Aquaculture Technology
         - MSTM 6072 Animal Husbandry Management
         - MSTM 6073 Aquaculture Environmental Management
         - MSTM 6074 Aquaculture Site and Operational Assessment
         - MSTM 6075 Aquaculture Engineering Technology Management

2. Up to three relevant elective courses (9 credit hours) may be transferred from other graduate programs within the School of Graduate Studies or from other post-secondary institutions recognized by Senate, subject to the approval of the Dean of Graduate Studies on the recommendation of the Academic Director.

31.2.3 Evaluation

1. Candidates for the Master of Technology Management Degree must obtain a grade of B or better in all program courses.
2. Candidates who receive a grade of less than B in any course will be permitted to remain in the program provided the course is repeated and passed with a grade of B or better. Alternatively, the candidate may, on the recommendation of the Academic Director, and with the approval of the Dean of Graduate Studies, substitute another graduate course. Only one course repetition or substitution will be permitted during the candidate's program after which the candidate shall be required to withdraw from the program.

32 Regulations Governing the Degree of Doctor of Philosophy

In this and following regulations and notes, "Head" and "Department" shall be understood to mean "Dean or Director" and "Faculty or School" respectively, applying the regulations to a Faculty or School in which there are no Departmental divisions.

Students should consult the General Information and Regulations Governing All Graduate Students for information concerning the Degree of Doctor of Philosophy. For information concerning the number of courses required for specific programs, students should consult the following listing for the appropriate Department.

32.1 Anthropology

www.mun.ca/arts
www.mun.ca/anthro

Associate Professor and Head of the Department
K. Gordon

32.1.1 Program of Study

1. The Ph.D. in Anthropology is offered in historic anthropology and ethnography of Newfoundland and Labrador, and Western Europe.
2. An applicant must normally hold a Master's Degree with a specialization in social and cultural anthropology. In exceptional circumstances, a student who has spent three semesters in the M.A. program may be recommended for transfer into the Ph.D. stream.
3. Residency: the Department requires a minimum residency of two years for Ph.D. students.
4. A supervisory committee will be established for each student as per General Regulations, Supervision, Ph.D. and Psy.D. Candidates.
5. A student will normally be required to complete four courses during their first three semesters in the program: Anthropology 6300 and 6890, and two other courses, to be determined by the supervisory committee. The supervisory committee may also require the candidates to complete additional graduate courses.
6. All students must demonstrate a reading knowledge of a second language to be determined in consultation with the supervisory committee. This language will normally be a language in which there is a substantial body of literature in Social and Cultural Anthropology. It could also be a field language pertinent to the student's project. The exam will be set and marked by an authority determined by the Head of the Department and the Dean of Graduate Studies as per General Regulations, Evaluation, Evaluation of Graduate Students 4., and will normally be completed before the Comprehensive Examination is undertaken.
7. The Ph.D. Comprehensive Examination shall be administered in accordance with General Regulations, Comprehensive Examinations. The examination may be oral, written or both, and shall consist normally of three sessions, each of up to three hours duration, within a one week period, or three (3) one week take home examinations. A student will prepare for these examinations by undertaking supervised readings in three fields prescribed by the three members of the comprehensive exam committee. The examination will deal with specified areas of social/cultural anthropology. The examination will normally be scheduled in the third week of November each year in the second year of the student's program.
8. The student must submit a written thesis proposal for presentation to the Department two months following completion of his/her comprehensive examination.
9. As stated in the General Regulations for Graduate Studies, the time limit for completion of the Degree is 7 years.

32.1.2 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the Department will allow.

6010 Cultural Ecology
6071 Health and Illness: Cultural Contexts and Constructions
6081 Anthropology of Gender
6089 Anthropology of Underclass Life
6100 Social Organization
6110 Culture and Personality
6140 The Community
6210 Language and Culture
6240 Atlantic Regional Studies
6260 Social and Economic Development
6280 Newfoundland Ethnography
6281 Labrador Ethnography
6282 Ethnography of a Single Region
6300 Fieldwork and Interpretation of Culture
6400 Current Themes in Cultural Anthropology
6410 History of Anthropology
6412 Anthropological Theory
6413 Applied Anthropology
32.2 Archaeology

www.mun.ca/arts
www.mun.ca/archaeology

Associate Professor and Head of the Department
L. Rankin

32.2.1 Program of Study

1. The Ph.D. in Archaeology is offered in prehistoric and historic archaeology of Northeastern North America and the Arctic.
2. An applicant must normally hold a Master's Degree with a specialization in archaeology.
3. The Department requires a minimum residency of six semesters for Ph.D. students.
4. A supervisory committee will be established for each student as per General Regulations, Supervision, Ph.D. and Psy.D. Candidates, 2.
5. Students will normally be required to successfully complete two courses during their first three semesters in the program: Archaeology 6700 and 6411. The supervisory committee may require the candidates to complete additional graduate courses.
6. All candidates must demonstrate a reading knowledge of a second language to be determined in consultation with the supervisory committee. This language will normally be a language in which there is a substantial body of literature in Archaeology. The exam will be set and marked by an authority determined by the Head of the Department and the Dean of Graduate Studies (see General Regulations, Evaluation, Evaluation of Graduate Students, 4.) and will normally be completed before the Comprehensive Examination is undertaken.
7. The Ph.D. Comprehensive Examination shall be administered in accordance with General Regulations, Comprehensive Examinations. The examination may be oral, written or both, and shall consist normally of three sessions, each of up to three hours duration, within a one week period, or three (3) one week take home examinations. Candidates will prepare for these examinations by undertaking supervised readings in three fields prescribed by the three members of the comprehensive exam committee. The examination will deal with specified areas of archaeology. The examination will normally be scheduled in the third week of November each year in the second year of the candidate's program.
8. The candidate must submit a written thesis proposal for presentation to the Department two months following completion of his/her comprehensive examination.
9. As stated in the General Regulations for Graduate Studies, the time limit for completion of the Degree is 7 years.

32.2.2 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the Department will allow.

6020 Bioarchaeology
6040 Human Osteology
6095 Advanced Studies in Ethnohistory (same as History 6095)
6151 Palaeoethnobotany
6181 Palaeoeskimo Cultures of the Eastern Arctic
6182 Advances in Material Culture Analysis
6187 Readings in Maritime Provinces Prehistory
6189 Palaeopathology
6191 Approaches to Early Modern Material Culture
6192 Conservation Method and Theory
6290 Newfoundland and Labrador Prehistory
6310 Economic Analyses in Archaeology
6320 Ethnoarchaeology
6330 Archaeological Field Conservation
6409 History of Archaeology
6411 Theory and Method in the Study of Archaeology and Prehistory
6500 Special Topics in Historical Archaeology (prerequisite 6191)
6680-6699 (excluding 6687) Special Topics in Archaeology and Prehistory
6687 Applied Archaeological Sciences
6700 Interpretive Methods in Archaeology
6701 Interpretive Methods in Historical Archaeology
6890 Graduate Seminar

32.3 Biochemistry

www.mun.ca/science
www.mun.ca/biochem

Professor and Head of the Department
M.D. Berry

32.3.1 Program of Study

1. The Degree of Doctor of Philosophy is offered in Biochemistry or Food Science to full-time and part-time students.
2. The admission requirements for the graduate programs in Biochemistry and Food Science are as given under General...
Regulations. Depending on the background and/or area of specialization, a candidate’s program may include additional courses taken for credit in Biochemistry, Food Science or related subjects.

3. The program of a candidate for the Ph.D. Degree shall be the responsibility of the supervisory committee, composed of the Supervisor and at least two other faculty members recommended with the concurrence of the Supervisor by the Head.

4. It is the responsibility of the student to arrange regular meetings with his or her graduate supervisory committee. A semi-annual report, prepared by the Supervisor and signed by all members of the supervisory committee, is required to be given to the Head of the Department or delegate.

5. All candidates for the Ph.D. Degree shall be required to attend and participate in Departmental seminars.

6. A candidate for the Ph.D. will be required to present a seminar on his/her research area within 18 months of starting the program and again immediately prior to the submission of thesis.

7. A candidate for the Ph.D. degree shall normally take the Comprehensive Examination within the first seven semesters of his or her program. The examination will have two components: the preparation of a grant proposal on a topic related to the student’s research specialization followed by an oral examination of the proposal. Failure of this examination will result in the termination of the candidate’s program.

32.3.2 Courses
A series of advanced courses in the areas outlined below will be offered. Normally only one course will be offered per semester.

- 6000-6009 Special Topics in Biochemistry
- 6010-6019 Special Topics in Nutrition and Metabolism
- 6020-6029 Special Topics in Food Science
- 6400 Control of Intermediary Metabolism
- 6460 Structural Biochemistry
- 6520 Nutritional Biochemistry
- 6530 Food Biochemistry
- 6590 Cellular, Molecular and Developmental Biology (credit restricted with Biology 6590 and Medicine 6590)
- 6630 Marine Biochemistry
- 6680 Processing and Quality of Foods

32.4 Biology

www.mun.ca/science
www.mun.ca/biology

Associate Professor and Head of the Department
P. Marino

The Degree of Doctor of Philosophy is offered in Biology to full-time and part-time students. Students interested in animal behaviour should also consult the section in the Calendar describing the Doctoral programs Cognitive and Behavioural Ecology. Students interested in Marine Biology should consult the section of the Calendar specific to the Doctoral program in that area of study.

32.4.1 Program of Study

1. A student will be required to take Biology 7000 (Graduate Core Seminar).

2. Admission to a Ph.D. program in Biology shall not normally take place until after the completion of the course requirements and the submission of the thesis for the M.Sc. Degree. However, on the recommendation of the Department, this requirement may be waived by the Dean of Graduate Studies.

3. The program of a candidate shall be the responsibility of a Supervisory Committee composed of the Supervisor and at least two other appropriate members recommended to the Dean by the Head (or delegate) of the Department with the concurrence of the Supervisor.

4. The Supervisory Committee shall interview the student normally within a month of first registration, to discuss the student’s program and to explore any areas of weakness in the candidate’s biological knowledge, especially where these relate to the intended areas of research. The Supervisory Committee will recommend a student’s subdiscipline within Biology to the Department in writing after this meeting.

5. It is the function of a Supervisory Committee to have regular meetings, at least annually, with its graduate student. A meeting report, signed by all members of the Supervisory Committee and student, must be given to the Department. A copy will be sent to the graduate student and to the Dean of Graduate Studies.

6. The candidate will present a tentative outline of the proposed research to the Supervisory Committee, with a copy to the Department by the end of the second semester, and preferably prior to commencement of the research.

7. The student will present a research seminar to the Department, normally by the end of the second semester following admission, to describe the research topic being investigated and the methodologies to be employed. This seminar provides an opportunity for the student to receive constructive input from the broad biological community.

8. When the Supervisory Committee deems it necessary, a working knowledge of a language other than English may be required.

9. Comprehensive Examination

a. Timing of Examination

i. Timing of the comprehensive examination shall follow General Regulation, 1. under Comprehensive Examination, Ph.D. Comprehensive Examination governing the Degree of Doctor of Philosophy. A candidate registered in a full-time Ph.D. program in the Faculty of Science, Department of Biology shall normally take the comprehensive examination during the first year of the program, and no later than one year after completion of the prescribed courses.

ii. The procedure shall be initiated by the candidate’s Supervisor who will notify the Department of Biology, in writing, of the candidate’s readiness. Failure to meet the above requirement can result in the candidate being required to withdraw from the program.

b. Examination Committee

The Examination Committee shall be appointed by the Dean of Graduate Studies on the recommendation of the Department of Biology according to Regulation Comprehensive Examinations, Ph.D. Comprehensive Examination, 2. of the General Regulations of the School of Graduate Studies. No more than two members of the Examination Committee may be members of the candidate’s Supervisory Committee. The committee shall meet and recommend to the Department in writing an examination
32.5.1 Program of Study
The Degree of Doctor of Philosophy in Chemistry is offered as full-time or part-time study. A Master's Degree in Chemistry or related area from a recognized university is normally required for entry into the Ph.D. program. Students holding a Bachelor's Degree (Honours or equivalent) in Chemistry may be considered for direct admission into the Ph.D. program. Students currently registered in the Memorial University of Newfoundland's Chemistry M.Sc. program for a minimum of three semesters may request transfer into a Ph.D. program. The transfer should be supported by the Supervisor and the Supervisory Committee and subsequent to satisfactory presentation of a written progress report and Ph.D. research proposal.

1. Upon recommendation of their supervisor, candidates will write American Chemical Society (ACS) placement test(s) in the first two weeks of their initial semester of registration in order to determine an appropriate course program.

2. Candidates will be assigned a Supervisory Committee consisting of the Supervisor and at least two other appropriate faculty members appointed by the Dean on recommendation of the Chemistry Deputy Head (Graduate Studies).

3. The program of a candidate must be arranged by the Supervisor in consultation with the Supervisory Committee and the student before the second semester of registration. It is the responsibility of the Supervisory Committee to meet at least annually with the student, to provide guidance at all stages of the candidate's program, and, in consultation with the student, to prepare annual written progress reports for submission to the Dean of Graduate Studies.

4. Candidates holding a Master's Degree from a recognized university are normally required to successfully complete a minimum of 6 credit hours of graduate Chemistry courses with a minimum grade of B and to present a Departmental seminar on a topic not directly related to the candidate's research (Chemistry 6002) as well as a seminar describing the candidate's research (Chemistry 6003). Courses taken towards a Master's Degree may not be repeated. Candidates not holding a Master's Degree must successfully complete at least 12 credit hours of graduate Chemistry courses with a minimum grade of B in addition to Chemistry 6002 and 6003.
5. Candidates are required to attend Departmental seminars.

6. Candidates must pass a comprehensive examination, as described in the General Regulations, according to one of the following descriptions:
   a. A three-hour written part covering topics in Organic Chemistry, and, subsequent to the written examination at the discretion of the comprehensive examination committee, an oral exam designed to explore areas of perceived deficiency.
   b. A paper on a research topic selected by the student in consultation with his/her supervisor and the examination committee, and subsequently, an oral examination designed to explore general areas of Analytical, Inorganic and/or Physical Chemistry and areas of chemistry related to the research topic.

7. Candidates must submit and successfully defend a thesis deemed acceptable by two internal and one external examiner as outlined in the General Regulations.

32.5.2 Courses

6002 Doctoral Seminar
6003 Doctoral Research Seminar
6110 Analytical Chemistry II
6150 Advanced Spectroscopic Techniques
6151 Analytical Separations and Organic Mass Spectrometry
6152 Electroanalytical Techniques
6153 Techniques in Sampling, Trace Analysis and Chemometrics
6154 Business Management and Good Laboratory Practice
6155 Computers in Instrumental Analysis and Basic Electronics (same as Med 6070)
6156 Analytical Method Development and Sampling
6160 Laboratory Projects in Sampling, Electroanalysis and Trace Analysis
6161 Laboratory Projects in Analytical Separations and Spectroscopic Techniques
6190-9 Selected Topics in Analytical Chemistry
6201 Bioinorganic Chemistry
6202 Main Group Chemistry
6204 Mechanisms in Catalysis
6205 Photochemistry of Transition Metal Complexes
6206 Green Chemistry
6210 Organometallic Chemistry
6290-9 Selected Topics in Inorganic Chemistry
6300 Quantum Chemistry I
6301 Quantum Chemistry II
6302 Molecular Spectroscopy
6304 Computational Chemistry I
6310 Electronic Structure Theory
6323 Chemical Thermodynamics I
6324 Chemical Thermodynamics II
6340 Biophysical Chemistry
6350 Electrochemical Kinetics
6360 Solid State Chemistry
6370 Nanoscale Phenomena
6380 Adsorption on Surfaces
6381 Surface and Interface Science
6382-9 Selected Topics in Physical Chemistry
6390-8 Selected Topics in Physical Chemistry
6399 Chemical Kinetics and Dynamics
6401 Organic Spectroscopic Analysis I
6402 Organic Spectroscopic Analysis II
6421 Natural Products Chemistry
6460 Organic Synthesis
6470 Physical Organic Chemistry
6490-9 Selected Topics in Organic Chemistry
6590-9 Selected Topics in Theoretical and Computational Chemistry
6600 Applications of Inorganic and Organometallic Chemistry to Toxicology

32.6 Cognitive and Behavioural Ecology

www.mun.ca/sgs

Administrative Committee
Dr. I. Fleming, Department of Ocean Sciences - Co-Chair
Dr. C. Walsh, Department of Psychology - Co-Chair
Ms. M. Fitzsimmons, Graduate Student Representative
Dr. W. Montecucchi, Department of Psychology
Dr. A. Storey, Department of Psychology
Dr. E. Vander Wal, Department of Biology
Dr. I. Warkentin, Grenfell Campus
Dr. D. Wilson, Department of Psychology

32.6.1 Program of Study

1. The Cognitive and Behavioural Ecology Graduate Program focuses on interdisciplinary animal behaviour research. Research integrates mechanistic, developmental, evolutionary, and ecological perspectives on behaviour through molecular, individual, and population levels of analysis. Supervisors include faculty from the Departments of Biology, Ocean Sciences, Psychology, the Faculty of Medicine and the Environmental Science Program at Grenfell Campus, as well as adjunct faculty from the Canadian Wildlife Service, Department of Fisheries and Oceans, the Newfoundland and Labrador Forestry and Wildlife Divisions and Parks Canada. The Departments of Biology and Psychology jointly offer the Master of Science and the Doctor of Philosophy degrees in Cognitive and Behavioural Ecology.
2. The Administrative Committee is responsible for the Program. Committee members are appointed by the Dean of Science, on the recommendation of the Chair of the Committee and of the Heads of Biology and Psychology. The Committee Chair is elected by the committee members and appointed by the Dean of Science. The Committee makes recommendations to the Dean of Graduate Studies concerning admissions and academic requirements. In consultation with supervisors, recommendations are made concerning course programs, financial support, thesis committees, comprehensive and thesis topics, examiners and students’ annual progress. Upon program completion, the Committee certifies that all requirements for the appropriate degree have been met. The Department of the Supervisor ensures that adequate facilities are provided for each candidate. Students in Cognitive and Behavioural Ecology are considered for teaching assistantships in the Psychology or Biology Departments.

32.6.2 Regulations
1. There are no required courses for the doctoral program. However, the Doctoral Seminar (CABE 6992) and/or other courses tailored for individual students may be included in the student’s program by the Dean of Graduate Studies on the recommendation of the Chair of the Committee.
2. The comprehensive examination shall normally be taken within the first 5 semesters of the program. An Examination Committee will be struck in accordance with General Regulations. At least one member of either the Department of Biology or of the Department of Psychology (other than the Supervisor) must be on the Examination Committee, along with one other representative from among the faculty members currently associated with Cognitive and Behavioural Ecology and an additional representative from either within or outside of Cognitive and Behavioural Ecology. The candidate’s Supervisor will be on the Examination Committee with a maximum of one other member from the candidate’s supervisory committee permitted to serve when appropriate. The Examination Committee is chaired by the Chair of the Cognitive and Behavioural Ecology Committee. The examination will include a comprehensive, integrative review and critical evaluation of novel ideas with regard to a topic in Animal Behaviour or Behavioural Ecology. The review topic is assigned by the Examination Committee, which also determines the submission date for the paper, and the date of the examination. Normally, the student will write the paper in 10 weeks, and the oral examination will occur within two to three weeks of the paper’s submission. This paper will form the basis of a public seminar. The Examination Committee will question the candidate about the paper, the topic and its broader relationship with Cognitive and Behavioural Ecology.

32.6.3 Courses
Biology 7220 Quantitative Methods in Biology
Cognitive and Behavioural Ecology 6240 Special Topics
Cognitive and Behavioural Ecology 6350 Behavioural Ontogeny
Cognitive and Behavioural Ecology 6351 Behavioural Ecology and Sociobiology
Cognitive and Behavioural Ecology 6992 Doctoral Seminar
Cognitive and Behavioural Ecology 7000 Field and Lab Methods in Animal Behaviour and Behavioural Ecology
Psychology 6000 Advanced Statistics in Psychology

Table of Credit Restrictions - Doctor of Philosophy in Cognitive and Behavioural Ecology
(Credit may be obtained for only one course from each of the pairs of courses listed in this table.)

32.7 Computer Science
www.mun.ca/science
www.mun.ca/computerscience

Professor and Head of the Department
W. Banzhaf

The degrees of Master of Science and Doctor of Philosophy are offered in Computer Science.

32.7.1 Program of Study
1. Admission into the Ph.D. program in Computer Science is normally restricted to candidates holding a Master’s Degree (or equivalent) in Computer Science or a closely related area. Others may be considered for admission. See Qualifications for Admission of the General Regulations. International applicants are strongly encouraged to submit results of the (general) Graduate Record Examination (GRE) Test.
2. Each candidate for the Ph.D. shall complete a program of graduate courses prescribed by the supervisory committee. The normal minimum will be 9 credit hours.
3. The candidate shall take the Comprehensive Examination within the time limits specified in Comprehensive Examinations of the General Regulations. Students should consult the Departmental guidelines for a detailed description of the content of the Comprehensive Examination.
4. The Ph.D. Degree program will conclude with an oral defence of the thesis as described in Theses and Reports of the General Regulations.

32.7.2 Courses
A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the Department will allow.
6711 Syntax and Semantics of Programming Languages
6713 Software Engineering
6731 Topics in Numerical Methods
6732 Matrix Computations
6738-6739 Special Topics in Numerical Methods
6742 Theory of Databases
6752 Applications of Computer Graphics
6755 Knowledge-Based Systems
6756 Digital Image Processing
6758-6769 Special Topics in Computer Applications
6770-6790 Special Topics in Computer Science
6901 Applied Algorithms (credit may be obtained for only one of 6901 and 6783)
6902 Computational Complexity (credit may be obtained for only one of 6902 and 6743)
6903 Concurrent Computing
6904 Advanced Computer Architecture (credit may be obtained for only one of 6904 and 6722)
6907 Introduction to Data Mining (credit may be obtained for only one of 6907 and 6762)
6908 Database Technology and Applications (credit may be obtained for only one of 6908 and 6751)
6910 Services Computing, Semantic Web and Cloud Computing
6911 Bio-inspired Computing
6912 Autonomous Robotics (credit may be obtained for only one of 6912 and 6778)
6913 Bioinformatics
6915 Machine Learning
6916 Security and Privacy
6922 Compiling Methods (credit may be obtained for only one of 6922 and 6712)
6925 Advanced Operating Systems
6926 Performance Evaluation of Computer Systems

32.8 Earth Sciences
www.mun.ca/science
www.mun.ca/earthsciences
Professor and Head of the Department
J. Hanchar

The degrees of Master of Science and Doctor of Philosophy are offered in Earth Sciences (Geology) and Earth Sciences (Geophysics) by full-time and part-time study.

32.8.1 Program of Study
1. Admission into a Ph.D. program in Earth Sciences (Geology) and Earth Sciences (Geophysics) is normally restricted to candidates holding a Master's Degree or its equivalent. Candidates holding B.Sc. (Honours) degrees who show evidence of exceptional ability may be considered for a direct entry into a Ph.D. program. In exceptional circumstances, a candidate with a B.Sc. (Honours) degree who has spent not less than 12 months in an M.Sc. Degree program may be recommended for transfer into a Ph.D. program, provided that the candidate can demonstrate, to the satisfaction of the Department of Earth Sciences, his/her ability to pursue research at the doctoral level.
2. A candidate for the Ph.D. Degree is normally required to complete 6 credit hours in addition to the credit hours required for the M.Sc. Degree. The courses must be selected from the overview and general courses below or with the approval of the supervisory committee and Head of Department, other graduate level courses including those offered by other departments. Depending on background and/or area of specialization, a candidate also may be required to complete additional courses in earth sciences or related subjects. All course requirements should be completed within 12 months from the date of the first registration in the Ph.D. program.
3. The Ph.D. Comprehensive Examination shall normally be taken in the first semester of registration in the Ph.D. program.
   Note: Detailed descriptions of the Ph.D. Comprehensive Examination are available upon request from the General Office of the Department of Earth Sciences.
4. The Ph.D. Thesis Proposal Examination shall normally be taken in the second semester of registration in the Ph.D. program.
   Note: Detailed descriptions of the Ph.D. Thesis Proposal Examination are available upon request from the General Office of the Department of Earth Sciences.
5. The Ph.D. Degree program will conclude with a thesis examination and an oral defense of thesis as prescribed in the General Regulations, Theses and Reports.
6. The Supervisor and the Head of the Department may recommend to the Dean of Graduate Studies that the program of a candidate who is not making satisfactory progress be terminated, in accordance with General Regulation, Termination of a Graduate Program.
7. A candidate is required to give an oral presentation to the Department on the results of his/her research. The presentation must be given during the second or third year of the program.

32.8.2 Courses
A selection of courses will be offered to meet the requirements of candidates as far as the resources of the Department will allow.

Overview Courses
7110 Physics of the Solid Earth
7120 Crustal Geophysics
7300 Changes in Global Paleoenvironment
7400 Tectonic Regimes
7410 Engineering and Environmental Geology
7500 Chemical Fluxes in the Earth
7810 Paleoeocology (same as former 6810. credit may be obtained for only one of 7810 or 6810)

General Courses
6070 Quantitative Techniques in Mineralogy and Metamorphic Petrology
6105 Advanced Field Course in Applied Geophysics (may be offered in accelerated format)
6141 Rotation of the Earth
6142 Theory of Global Geodynamics
6152 Paleomagnetism

Archived Previous Calendar available at mun.ca/university-calendar
32.9 Education

www.mun.ca/educ
Professor and Dean
K. Anderson

The degrees of Master of Education and Doctor of Philosophy are offered in Education.

The Degree of Doctor of Philosophy in Education is offered to qualified candidates, normally by full-time study. The General Regulations of the School of Graduate Studies of Memorial University of Newfoundland outlined in the current Calendar, and the Degree Regulations of the Faculty of Education outlined below will apply.

32.9.1 Admission to the Ph.D. Program

General qualifications for admission to the Ph.D. Programs at Memorial University of Newfoundland are set out in the University Calendar under School of Graduate Studies, General Regulation Qualifications for Admission, Ph.D. Program.

In addition, the following admission requirements apply:
1. an 'A' standing in a Master's Degree in Education or in an equivalent Master's Degree from an accredited university;
2. evidence of scholarly work, such as a master's thesis, directed research project, or qualifying research paper;
3. normally, completion of two years of professional experience in an educational setting.

32.9.2 Supervisory Committee

Each candidate will have a supervisory committee comprised of a minimum of three members, at least two of whom shall be members of the Faculty of Education. The thesis Supervisor shall be a faculty member in the Faculty of Education, Memorial University of Newfoundland.

32.9.3 Program of Study

1. Courses
   a. Students are required to successfully complete two courses on the doctoral program.
      Education 701A/B - Doctoral Seminar in Education: Area of Specialization
      Education 702A/B - Advanced Educational Research
      Students will normally register for the 'A' portion of the above-noted courses in the relevant Fall semester of their program of study and the corresponding 'B' portion of the course in the following Winter semester. A grade of NC (No Grade Expected) will be assigned to the 'A' portion of each of these courses.
   b. Based on a consideration of educational background and research interest, students may be required to complete (or have completed at the masters level) as many as two (2) additional courses in research related to their program focus and specialty.
   c. Normally, no more than four courses may be undertaken on a candidate's program.
   d. Education 7003-30 - Special Topics (offered as required)

2. Comprehensive Examination

   The candidate shall undertake a written and an oral comprehensive examination, which will follow General Regulation Comprehensive Examinations, Ph.D. Comprehensive Examination which sets out the procedures for the comprehensive examination.
   a. A candidate in a Ph.D. program in Education shall normally take the written Comprehensive Examination prior to the seventh semester of the program. The candidate will have completed required courses prior to taking the Comprehensive Examination. In preparation for the Comprehensive Examination, the doctoral candidate, with the guidance of the candidate's Supervisor, will undertake study of the sub-disciplines/areas of concentration identified by the candidate and supervisory committee and approved by the Doctoral Committee. Normally, these will include the candidate's area of concentration and two additional sub-disciplines/areas of concentration.
   b. Such study of sub-disciplines will normally include but not be limited to developing a reading list of important historical and current publications within the sub-disciplines, identifying emerging research emphases within the sub-disciplines, and writing scholarly review papers of these publications.
   c. In preparation for the written comprehensive examination, the doctoral candidate and the supervisory committee will agree on the topics to be examined. The examination will be written over a two-day period.
   d. Normally, the oral comprehensive examination will occur within six weeks of the written examination, which if judged to be successful by the Comprehensive Examination Committee, will form the basis of an oral comprehensive examination.
32.10 Engineering and Applied Science

www.engr.mun.ca

Professor and Dean

G. Naterer

The degree of Doctor of Philosophy (Ph.D.) is offered in the Faculty of Engineering and Applied Science and may be obtained either through full-time or part-time studies. The Ph.D. degree can be obtained through programs in Civil Engineering, Computer Engineering, Electrical Engineering, Mechanical Engineering, Ocean and Naval Architectural Engineering, and Oil and Gas Engineering.

32.10.1 Qualifications for Admission

Admission to the Ph.D. program is limited and competitive. All applicants must meet the minimum qualifications described in the General Regulations for the School of Graduate Studies. Admission is normally restricted to candidates holding a Master's Degree in Engineering or a related area. Decisions on admission, however, will also take into account such things as the applicant's rank in class, referees' assessments, general performance throughout the applicant's previous academic programs, and the availability of supervisors in the area of the applicant's interest. In cases of demonstrated ability, a student enrolled in the M.Eng. program may be allowed to transfer to the Ph.D. program without the completion of all the M.Eng. Degree requirements. As well, in exceptional cases, direct entry to the Ph.D. program, after completion of a Bachelor's Degree in Engineering or a related area, is possible.

Normally, applicants will be considered in January for admission for the following September. In special cases, applicants may also be considered in April and August. Applications should be made sufficiently far in advance to permit the University to obtain all relevant documents and review the application.

32.10.2 Program of Study and Research

A Ph.D. program shall normally consist of three components:

1. a minimum of 6 credit hours consisting of graduate courses recommended by the student's supervisory committee,
2. a comprehensive examination as detailed in Regulations for Ph.D. Comprehensive Examination, and
3. a thesis satisfying the requirements of the General Regulations for the School of Graduate Studies.

In cases of direct entry after a Bachelor's Degree or promotion from a Master's program before fulfillment of the Master's course requirements, it is likely that the student will be required to take more credit hours than the normally required minimum. In such cases, the requirements for the course component of the student's program will be reviewed on an individual basis by the student's supervisory committee and the Dean of the Faculty of Engineering and Applied Science.

32.10.3 Regulations for Ph.D. Comprehensive Examination

Timing

A candidate registered in the Ph.D. Program shall normally take the Comprehensive Examination within four semesters of the start of his/her program. The candidate must have successfully completed all required courses prior to the Comprehensive Examination. The Comprehensive Examination Committee shall be appointed by the Dean of Graduate Studies on the recommendation of the Dean of Engineering and Applied Science, normally within three semesters of the start of the student's program.
The Examination Committee shall be appointed by the Dean of Graduate Studies on the recommendation of the Dean of Engineering and Applied Science, normally within three semesters of the start of the student’s program.

Examination Procedure

The Comprehensive Examination (as prescribed under General Regulations, Comprehensive Examinations, Ph.D. and Psy.D. Comprehensive Examination), shall be an oral examination that is open to the University community; however, only members of the Examination Committee are permitted to ask questions. Following the examination, the Examination Committee shall meet in camera to decide a recommendation for the Committee Chair to forward to the Dean of Graduate Studies. The possible recommendations in accordance with General Regulations, Comprehensive Examinations, Ph.D. and Psy.D. Comprehensive Examination are "pass with distinction", "pass", "re-examination", or "fail".

32.10.4 Ph.D. Thesis Regulations

1. Upon successful completion of the Comprehensive Examination, and normally prior to the end of the sixth semester in the program, the candidate must submit a thesis proposal to the Supervisory Committee for evaluation and approval. The proposal shall consist of 1) a written research proposal, normally of no more than 10,000 words, that should clearly define the research problem, survey literature, present the research method or experimental design, and may include a summary of results already obtained, and 2) a 20 to 30 minute presentation. The candidate should submit the written proposal at least one month prior to the presentation which is open to the University community.

2. The presentation will be chaired by the Dean of Engineering and Applied Science or delegate. Immediately following the presentation, the Supervisory Committee shall question the candidate regarding the proposal and shall then meet in camera to assess the proposal. Assessment shall result in one of the following three outcomes: 1) accept; 2) accept with changes, or 3) reject. The results of this assessment shall be provided to the student following the meeting. Assessments of "accept with changes" or "reject" shall be accompanied by written comments within one week of the proposal presentation.

3. If the proposal is rejected, the candidate shall be permitted to submit a second proposal. This proposal must be submitted and deemed acceptable by the Supervisory Committee within four months of the original proposal presentation. Failure to submit an acceptable second proposal within the time period shall lead to termination of the candidate’s program.

4. The Ph.D. thesis shall constitute an independent and original research contribution.

5. The Ph.D. thesis shall be evaluated according to the process established in General Regulations, Theses and Reports, Evaluation of Ph.D. and Psy.D. Theses governing the School of Graduate Studies.

32.10.5 Courses

For a list of graduate courses offered by the Faculty of Engineering and Applied Science refer to the list of "Core Courses" and the list of “Other Courses” offered for the Master of Engineering program.

32.11 English

www.mun.ca/arts
www.mun.ca/english

Associate Professor and Head of the Department
J. Lokash

The degrees of Master of Arts and Doctor of Philosophy are offered in English. Candidates for the M.A. in English may complete the program as either part-time or full-time students. Candidates for the Ph.D. in English must be in attendance as full-time students for at least three semesters of the program.

32.11.1 Program of Study

1. Admission to the Ph.D. in English is limited and competitive. Applicants should have a Master’s Degree in English or its equivalent from a recognized university and should have an outstanding academic record.

2. All candidates will be required to complete 15 credit hours in graduate courses. These courses will be selected by the candidate in consultation with the candidate's Supervisory Committee. While candidates will normally be free to choose graduate courses of interest to them, it will be a primary responsibility of their Supervisory Committees to ensure that any serious deficiencies in their record of previous courses, graduate and undergraduate, are remedied, particularly in the area of proposed thesis research.

3. Candidates who have not previously taken English 7003 or its equivalent will take English 7003, which will count as one of the required courses for the Ph.D. Students who have taken English 7003 or its equivalent before entering the Ph.D. program must still complete 15 credit hours.

4. Candidates who have not completed English 4900 or English 5900 or an equivalent course will be required to complete English 5900, which will not count as one of the required courses for the Ph.D. The course will be graded "pass" or "fail". As in other graduate courses a grade of 65B or above is considered a pass.

5. Candidates must submit a thesis proposal which includes a statement of topic, a working title, a plan of research, and a preliminary bibliography. The thesis proposal should be approved by the Supervisory Committee and submitted to the Departmental Graduate Studies Committee for its approval before the Comprehensive Examination and before the end of the fifth semester. The Departmental Graduate Studies Committee shall return the thesis proposal to the candidate no later than one month after receiving it.

6. Reading knowledge of a second language will be required of all candidates. Reading knowledge is defined as a minimum B grade in a second-year language course taken within the previous five years, a passing grade in an approved second-language course for graduate students, or performance satisfactory to the Department in an arranged reading proficiency test (in which a dictionary may be used).

The language requirement should be completed before the Comprehensive Examination is taken.

The second language will normally be French. In exceptional circumstances, and on the recommendation of the Supervisory Committee and the Departmental Graduate Studies Committee, a language other than French may be substituted.

The Supervisory Committee may also require a demonstrated reading knowledge of an additional language (other than French or the substituted language) if such knowledge is deemed necessary for the student’s research interests.

7. The Ph.D. Comprehensive Examination in English is a written examination prepared by the candidate’s Comprehensive Examination Committee.
In accordance with General Regulation **Comprehensive Examinations, Ph.D. Comprehensive Examination**, the candidate’s Comprehensive Examination Committee will include the Head (or the Head’s delegate, usually the Graduate Co-ordinator), the candidate’s Supervisor, and three other members of the Department.

The written examination shall consist of three parts: a four-hour examination in the student’s area of concentration and two three-hour examinations in two other specified areas. In accordance with General Regulation **Comprehensive Examinations, Ph.D. Comprehensive Examination**, the examination shall take place before the end of the seventh semester.

Candidates will be graded “pass with distinction”, “pass”, “re-examination”, or “fail”, in accordance with General Regulation **Comprehensive Examinations, Ph.D. Comprehensive Examination**. 4. Candidates who are marked for “re-examination” will be re-examined in the area or areas in which the Comprehensive Examination Committee has determined that the candidate’s performance is deficient. The nature of this re-examination (and whether it will be written or oral) is left to the discretion of the Comprehensive Examination Committee.

### 32.11.2 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the Department will allow.

**Notes:**

1. Since it is impossible to list in detail the many topics that may from time to time be offered, the titles below refer only to the major periods and general subject areas in which specific courses may be available. The content and approach in specific courses will vary according to the research interests of students and faculty involved in the course. Students should consult the Department’s annual Graduate Student Guide (or the Graduate Co-ordinator) for detailed descriptions of specific course offerings. Normally, no fewer than 30 credit hours in graduate courses are offered in any given academic year.

2. English 5900 cannot be counted as one of the required graduate courses in any program.

3. All students will normally take English 7003 - Trends in Contemporary Literary Theory, usually in their first semester.

4. Students who took graduate courses in English at Memorial University of Newfoundland before 1997 should consult with the Department before selecting further courses.

- 5900 Bibliography and Research Methods
- 6403 Etymology (same as Linguistics 6403)
- 6420 English Dialectology I
- 6421 English Dialectology II
- 6999 Master’s Essay (for non-thesis students)
- 7003 Trends in Contemporary Critical Theory
- 7004 English Phonology and Morphology
- 7005 The Syntactic Structure of English
- 7032-25 Special Topics in English
- 7032 Studies in Old English I
- 7033 Studies in Old English II
- 7034 Studies in Middle English I
- 7035 Studies in Middle English II
- 7036 Studies in Middle English III
- 7037 Studies in 16th-Century Literature I
- 7038 Studies in 16th-Century Literature II
- 7039 Studies in 16th-Century Literature III
- 7040 Studies in 16th-Century Literature IV
- 7041 Studies in 17th-Century British Literature I
- 7042 Studies in 17th-Century British Literature II
- 7043 Studies in 17th-Century British Literature III
- 7044 Studies in 17th-Century British Literature IV
- 7045 Studies in 18th-Century British Literature I
- 7046 Studies in 18th-Century British Literature II
- 7047 Studies in 18th-Century British Literature III
- 7048 Studies in 18th-Century British Literature IV
- 7049 Studies in 19th-Century British Literature I
- 7050 Studies in 19th-Century British Literature II
- 7051 Studies in 19th-Century British Literature III
- 7052 Studies in 19th-Century British Literature IV
- 7053 Studies in 20th-Century British Literature I
- 7054 Studies in 20th-Century British Literature II
- 7055 Studies in 20th-Century British Literature III
- 7056 Studies in 20th-Century British Literature IV
- 7057 Studies in Pre-19th Century American Literature
- 7058 Studies in 19th Century American Literature I
- 7059 Studies in 19th Century American Literature II
- 7060 Studies in 19th Century American Literature III
- 7061 Studies in 20th-Century American Literature I
- 7062 Studies in 20th-Century American Literature II
- 7063 Studies in 20th-Century American Literature III
- 7064 Studies in 20th-Century American Literature IV
- 7065 Studies in Pre-19th Century Canadian Literature
- 7066 Studies in 19th-Century Canadian Literature I
- 7067 Studies in 19th-Century Canadian Literature II
- 7068 Studies in 19th-Century Canadian Literature III
- 7069 Studies in 20th-Century Canadian Literature I
- 7070 Studies in 20th-Century Canadian Literature II
- 7071 Studies in 20th-Century Canadian Literature III
- 7072 Studies in 20th-Century Canadian Literature IV
- 7073 Studies in Newfoundland Literature I
- 7074 Studies in Newfoundland Literature II
- 7075 Studies in Newfoundland Literature III
- 7076 Studies in Anglo-Irish Literature I
- 7077 Studies in Anglo-Irish Literature II
- 7078 Studies in Modern Drama
32.12 Environmental Science

www.mun.ca/arts
www.engr.mun.ca
www.med.mun.ca/medicine/home.aspx
www.mun.ca/science

Board of Study
Dr. N. Catto, Department of Geography - Chair
Dr. C. Campbell, Division of Science, Grenfell Campus, ex-officio
Dr. B. Chen, Faculty of Engineering and Applied Science
Dr. P. Marino, Head, Department of Biology
Dr. W. Montevecchi, Department of Psychology
Dr. S. Ziegler, Department of Earth Sciences

32.12.1 General Information
1. The Environmental Science Program is an interdisciplinary graduate program involving the departments of the Faculty of Science, the Faculty of Arts, the Faculty of Medicine and the Faculty of Engineering and Applied Science. There are three Environmental Science Graduate Degree streams: the Master of Science (M.Sc., Environmental Science), Master of Environmental Science (M.Env.Sci.), and the Doctor of Philosophy (Ph.D., Environmental Science). The program is available on a full or part-time basis.

2. The program is administered by a Board of Studies appointed by the Dean of Science. Supervisors of graduate students in the program include faculty from the Faculty of Science, the Faculty of Arts, the Faculty of Engineering and Applied Science, the Faculty of Medicine, and the Environmental Science Program at the Grenfell Campus, as well as adjunct appointees to the program (as a co-supervisor).

32.12.2 Program of Study
1. The Doctor of Philosophy (Ph.D., Environmental Science) is a research degree which includes a doctoral dissertation and coursework. Normally, students entering the Ph.D. program in Environmental Science will have a M.Sc. degree from an institution recognized by the Senate. Students in the Master of Science (Environmental Science) program, after a minimum of 12 months in their program of studies, may request a transfer to the Ph.D. program. Final decision for transfer from the M.Sc. program to the Ph.D. program rests with the Dean of the School of Graduate Studies. There are two courses (6 credit hours) required for the doctoral program. All students take Environmental Science 6010 and those with a disciplinary M.Sc. degree in Science from a recognized university also take Environmental Science 6000. Other courses tailored for individual students are included in the student’s program by the Dean of Graduate Studies on the recommendation of the Chair of the Board of Studies.

2. The comprehensive examination should be taken on completion of all course work. An Examination Committee will be struck in accordance with the General Regulations. At least two members of the Board of Studies must be on the Examination Committee. The candidate’s Supervisor will be on the Examination Committee and will be the only examiner from the candidate’s Thesis Supervisory Committee. The Head of the Department of the Supervisor or his/her delegate is invited to serve on the Comprehensive Examination Committee. The Examination Committee is chaired by the Chair of the Environmental Science Program. The examination will be both written and oral. The topic is assigned by the Examination Committee, which also determines the submission date for the paper, and the date of the examination. Normally, the student will write the paper within four months, and the oral examination will occur within six weeks of the paper’s submission. This paper will form the basis of a public seminar. The Examination Committee will question the candidate about the paper, the topic and its broader relationship with Environmental Science.

3. The doctoral thesis is based on the results of systematic, independent research on an approved scientific topic. To ensure the research is interdisciplinary, the supervisory committee must be made up of members from at least two different departments. The candidate will be required to present a Ph.D. research proposal to the supervisory committee. The completed thesis will be evaluated according to the General Regulations of the School of Graduate Studies. It must contribute significantly to knowledge in the field of Environmental Science.

32.12.3 Courses
6000 Environmental Science and Technology
6001 Earth and Ocean Systems
6002 Environmental Chemistry and Toxicology
6003 Applied Ecology
6004 Environmental Pollution and Mitigation (cross-listed as ENGI 9601)
6007 Environmental Risk Assessment (cross-listed as ENGI 9609)
6008 Air Pollution (cross-listed as ENGI 9624)
6010 Environmental Seminar
6201-6210 Selected Topics in Environmental Science
32.13 Ethnomusicology
www.mun.ca/arts
www.mun.ca/folklore
www.mun.ca/music

Professor and Dean pro tempore
M. Volk

The Doctor of Philosophy program in Ethnomusicology is administered by the School of Music in consultation with the Department of
Folklore, and generally in response to recommendations from an Interdisciplinary Advisory Committee with representation from both
academic units, chaired by the Program Co-ordinator.

The Degree of Ph.D. in Ethnomusicology is offered by part-time and full-time study. This program is a research Degree, generally
involving extended fieldwork. The resources of the Memorial University of Newfoundland Folklore and Language Archive are available to
graduate students in Ethnomusicology.

32.13.1 Qualifications for Admission

Applicants may be admitted to the program if they have at least a B+ average in a M.A. Degree in Ethnomusicology, another field of
Music, or other relevant discipline in the Humanities or Social Sciences with evidence of specialization in music. Applicants from a
discipline other than Music will be expected to demonstrate the following skills:

- Competent performance in any musical tradition, as judged by a musician knowledgeable about that tradition.
- Knowledge of culturally appropriate language for discussion of performance techniques in that tradition.
- Ability to discuss musical details on the basis of aural and/or written sources, as appropriate to that tradition.

Candidates for admission may, at the discretion of the Interdisciplinary Advisory Committee, be required to write diagnostic examinations
measuring skills and knowledge in music literacy, theory, or aural perception. Candidates with deficiencies in any of these areas may be
required to take remedial course work prior or in addition to the required program.

Upon completion of M.A. course work, students who have attained an A average may wish to be considered for transfer to the Ph.D.
program. Students who seek this option must apply to the Interdisciplinary Advisory Committee to be considered for transfer one month
prior to the completion of their M.A. courses or by the end of the 5th semester (see General Regulation Qualifications for Admission, Master's Program).

32.13.2 Program of Study

The Ph.D. program may be completed within twelve to fifteen consecutive semesters of full-time study, depending on fieldwork
requirements. The Degree is normally taken by completing course work, comprehensive examinations, a language proficiency
requirement, and a Ph.D. thesis, defended in accordance with General Regulation Theses and Reports of the School of Graduate Studies.

1. Students must complete a minimum of 21 credit hours of course work. If required courses have been completed at the M.A. level,
electives may be substituted (with approval of the Interdisciplinary Advisory Committee). The required courses are:
   a. Music 8001; Folklore 6030.
   b. ONE of Music 6002 or Folklore 7100.
   c. Twelve credit hours of electives selected from courses listed below or from relevant courses offered in another discipline (with
      the approval of the Interdisciplinary Advisory Committee). Ph.D. students may take up to two courses (6 credit hours) in a
cognate discipline.
   d. Reading proficiency in one language other than English, relevant to the research area, demonstrated to the satisfaction of the
      Interdisciplinary Advisory Committee. The choice of language must be approved by the Interdisciplinary Advisory Committee.
      The language exam should normally be completed before the comprehensive exams.
   e. Further courses beyond the minimum number may be required, depending on the background and needs of the student.

2. Comprehensive examinations will be administered in a major area, minor area, and theoretical/interdisciplinary area; a component of
the comprehensive examination will test audio-visual skills. Bibliographies and discographies for several focussed topics will be
developed by the student in consultation with his/her supervisory committee and will be the basis of examination questions. The
written portion of the examination will be scheduled over a one-week period. The Comprehensive Examination Committee will
normally schedule a consultation with the student to discuss the written essays within one month following the completion of the
written examination. For further information, see General Regulation Comprehensive Examinations, Ph.D. Comprehensive
Examination.

3. Students must complete a thesis, examined and defended in accordance with General Regulation Theses and Reports of the
School of Graduate Studies. A thesis proposal, including a working title, statement of purpose and research scope, outline of
theoretical and methodological approach, working plan, and preliminary bibliography, together with proposed membership of the
supervisory committee, must be submitted to the Interdisciplinary Advisory Committee no later than the fifth semester of study. The
thesis shall demonstrate the candidate’s ability to carry out original and independent research, develop the necessary theoretical
and methodological framework, and present the findings in a scholarly manner.

32.13.3 Courses

Theories and Methods:
Music 6001 Research Methods
Music 6002 Graduate Seminar
Music 6807 Video Documentary Production (credit may be received for only one of Music 6807 and Music 7803)
Music 7001 Research Problems and Methods in Ethnomusicology
Music 7803 Radio Documentary Production (credit may be received for only one of Music 6807 and Music 7803)
Music 8001 Theoretical Issues in the Study of Music
Folklore 6010 Survey of Folklore Genres and Processes
Folklore 6020 Field and Research Methods
Folklore 6030 Folklore Theories
Folklore 6040 Feminist Theories: Perspectives and Issues
Folklore 6080 Vernacular Theories
Folklore 6090 Ethnology
Folklore 7100 Advanced Folkloristics II: Research and Ethnography
Form and Performance:
Music 7005 Performance Option
Folklore 6100 Song and Music
Folklore 6120 Ballad
Folklore 6130 Folk Music Canons and Documentary Sound Recordings
Folklore 6200 Folktales
Folklore 6210 Legend
Folklore 6220 Personal Experience Narrative
Folklore 6250 Language and Play
Folklore 6260 Ethnography of Communications
Folklore 6300 Ethnography of Belief
Folklore 6310 Health Systems
Folklore 6350 Custom
Folklore 6360 Traditional Drama
Folklore 6400 Material Culture
Folklore 6410 Vernacular Architecture
Folklore 6420 Art and the Artifact
Folklore 6430 Food and Culture
Folklore 6720 Folklore and Literature

Area and Genre Studies:
Folklore 6120 Ballad
Folklore 6600 Folklore of Newfoundland
Folklore 6610 Folklore of Canada
Folklore 6620 Folklore of the United States
Folklore 6630 Folklore of the British Isles
Folklore 6770 The Global and the Local

Social Identities:
Music 7006 Urban Ethnomusicology
Music 7007 Music in the Study of Gender, Race and Class
Music 7009 Music and Place
Music 7001 Research Problems and Methods in Ethnomusicology
Music 7802 Music and Intercultural Processes
Folklore 6510 Occupational Folklore
Folklore 6551 Indigenous Expressive Cultures in Cross-cultural Encounter
Folklore 6730 Folklore and Gender
Folklore 6780 Ethnicities

Independent Study:
Music 7026-29 Directed Reading in Ethnomusicology
Folklore 6570-79 Reading Course in Folklore

Special Topics:
Music 6800-09 Special Topics in Music (excluding Music 6807)
Music 7800-09 Special Topics in Music (excluding Music 7802 and 7803)
Folklore 6511-29 Special Topics in Folklore
Folklore 6570-79 Reading Course in Folklore

Public and Applied Ethnomusicology and Folklore:
Music 6750 Music Industries Internship (2 credit hours)
Folklore 6740 Public Sector Folklore
Folklore 6760 Archiving
Folklore 6790 Museums: Perspectives and Practices
Folklore 6800 Applied Folklore

Interdisciplinary Perspectives:
Music 7008 Media Studies
Folklore 6700 Folklore and Culture
Folklore 6710 Oral Tradition and Oral History
Folklore 6750 Popular Culture: Theory and Debate

32.14 Folklore
www.mun.ca/arts
www.mun.ca/folklore

Associate Professor and Head of the Department
C. Thorne

The Degree of Doctor of Philosophy in Folklore is offered by part-time and full-time study and is primarily a research Degree. The program normally requires extensive fieldwork research in Newfoundland and/or the Maritimes. Integral to the teaching of the Department of Folklore is the work of the Memorial University of Newfoundland Folklore and Language Archive; see section under Master of Arts, Folklore.

32.14.1 Program of Study
1. An applicant for admission to the Ph.D. program in Folklore must hold an M.A. Degree in Folklore, or its equivalent as determined by the Head of the Department and the Dean, with an average grade in M.A. courses of not less than 80%.
2. All Ph.D. students in the Folklore program must complete at least 18 credit hours in program graduate courses which shall include Folklore 7000 and 7100. Candidates will normally be free to choose graduate courses of interest to them in Folklore or related disciplines, though it will be a primary responsibility of their committees to ensure that any serious deficiencies are made good. At the end of the second semester the program and further status of the candidate will be reviewed.
3. Second Language Requirements:
   a. All Ph.D. candidates are required to demonstrate an adequate reading knowledge of a second language - normally a common,
modern language.

b. Reading knowledge is defined as a minimum B grade in a second-year language course taken within the previous five years, or performance satisfactory to the Department in an arranged reading proficiency test.

c. The selection of a second language can be based on the student’s research requirements.

d. The selection of a second language must be made in consultation with the student’s faculty advisor or Supervisor. Confirmation that the choice is acceptable must be obtained from the Department.

e. The language requirement must normally be fulfilled before a student takes the Ph.D. Comprehensive Examination.

4. Comprehensive Examination for the Ph.D.:

a. The Ph.D. Comprehensive Examination shall be administered in accordance with General Regulations, Comprehensive Examinations. Candidates will prepare for three examinations by undertaking supervised readings in three fields decided by the Comprehensive Examinations Committee. The basic principle is to integrate knowledge within specific areas of folklore and folklife scholarship. The examination normally will be written with the format to be determined by the Comprehensive Examination Committee in consultation with the student. Assessment will be based on the examination of three papers each of one week duration or three open book examinations each of eight hour duration. The Committee will recommend to the Dean of Graduate Studies a grade of PWD (pass with distinction), PAS (pass), REX (re-examination), or FAL (fail).

b. Examination normally will take place only upon the completion of the second language requirements and no earlier than the end of the first year after admission to candidacy but no later than one year after the completion of the program courses. The examination normally will be scheduled in the second semester following the candidate’s completion of courses.

5. Ph.D. Thesis:

a. The candidate will normally submit a thesis proposal based on his/her own interests no later than the end of the semester following the completion of comprehensive examinations. The thesis proposal will include a working title, names of preferred Supervisor and two other Committee members, statement of topic, plan of research, statement of methodological and theoretical approach, a brief review of the literature and a preliminary bibliography. The proposal will be circulated to the Department for critical evaluation on the basis of which the candidate will be informed, within one month, by the Supervisor, of its acceptance, rejection, or acceptance with recommended changes.

b. The thesis shall give evidence of the candidate’s ability to carry out independent and original research, develop the necessary theoretical and methodological framework and present the findings in a scholarly manner.

32.14.2 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates, normally after consultation with the Head of the Department or the Graduate Studies Administrator, and as far as the resources of the Department will allow. Courses are structured according to the categories of: Theories and Methods, Issues, Form and Performance, Special Topics, Regional, National and International Heritage, Social Identities, Public and Applied Folklore, Interdisciplinary Perspectives and Required (Ph.D.).

Theories and Methods

6010 Survey of Folklore Genres and Processes
6020 Field and Research Methods
6030 Folklore Theories
6040 Feminist Theories: Perspectives and Issues
6080 Vernacular Theories
6090 Ethnology

Issues

6050 Issues in Folkloristics
6060 Issues in Folk Literature
6070 Issues in Folklife

Form and Performance

6100 Song and Music
6120 Ballad
6130 Folk Music Canons and Documentary Sound Recordings
6200 Folktale
6210 Legend
6220 Personal Experience Narrative
6230 Language and Play
6260 Ethnography of Communications
6300 Ethnography of Belief
6310 Health Systems
6350 Custom
6360 Traditional Drama
6370 Ritual, Festival and Public Display
6400 Material Culture
6410 Vernacular Architecture
6420 Art and the Artifact
6430 Food and Culture
6470 Folklore and Literature

Special Topics

6511-29 Special Topics in Folklore
6550 Special Research in Folklore
6551 Indigenous Expressive Cultures in Cross-Cultural Encounter
6552-69 Special Research in Folklore
6570-79 Reading Course in Folklore

Regional, National and International Heritage

6600 Folklore of Newfoundland
6610 Folklore of Canada
6620 Folklore of the United States
6630 Folklore of the British Isles
6640 Traditional Culture of Scotland
32.15 Food Science
See Biochemistry.

32.16 Geography
www.mun.ca/arts
www.mun.ca/science
www.mun.ca/geog

Professor and Head of the Department
N. Catto

32.16.1 Program of Study
1. To be admitted to the program, an applicant must have completed either a Master of Arts or a Master of Science Degree, or its equivalent, in Geography or a related discipline. In exceptional circumstances, a candidate who has completed either a B.A. (Honours) or B.Sc. (Honours) Degree, and who has spent not less than 12 months in a M.A. or M.Sc. Degree program may apply for transfer into a Ph.D. program. A successful application for transfer will require that the candidate demonstrate to the satisfaction of the Department an ability to pursue research at the doctoral level.
2. The deadline for submission of applications for admission is January 15. Candidates will normally commence their programs in the Fall semester.
3. Research areas for graduate study at the Doctoral level are cultural, political and historical geography, economic geography, resource management, community and regional development, physical geography, and geographic information sciences.
4. An applicant will be admitted to a doctoral program only if a faculty member agrees to act as Supervisor, and at least two other individuals are willing to serve on the supervisory committee.
5. All candidates must successfully complete Geography 6000 and 6001 if these courses, or equivalent courses, have not been included in their Master's program. In addition, all candidates are required to successfully complete a minimum of 3 credit hours in graduate program courses.
6. The supervisory committee may decide that a candidate successfully completes an examination for reading or speaking a language other than English.
7. After the successful completion of all required courses, candidates must take a comprehensive examination which will have both a written and an oral component.
8. Following successful completion of the comprehensive examination the candidate will submit a written research proposal to the supervisory committee. The proposal must then be approved by the Committee prior to the commencement of research by the candidate.
9. Each candidate will be required to present a seminar on their research to the Department.
10. The Ph.D. program will conclude with the examination and oral defence of the completed thesis in accordance with the appropriate sections of the General Regulations governing the School of Graduate Studies.

32.16.2 Courses
A selection of the following graduate courses will be offered to meet the requirements of candidates as far as the resources of the Department will allow.
6000 Development of Geographical Thought and Practice I
6001 Development of Geographical Thought and Practice II
6002 Directed Readings in Geography
6100 Research Techniques in A Selected Field of Geography I
6101 Research Techniques in A Selected Field of Geography II
6120 Geospatial Modelling and Analysis
6150 Environmental Remote Sensing and Image Analysis
6200 Economic Geography I
32.17 Geology
See Earth Sciences.

32.18 Geophysics
See Earth Sciences.

32.19 History
www.mun.ca/arts
www.mun.ca/history
Assistant Professor and Head of the Department
T. Bishop Stirling
The degrees of Doctor of Philosophy and Master of Arts are offered in History by full-time or part-time study.

32.19.1 Program of Study
1. The Ph.D. Degree in History is offered in the following areas:
   a. Canadian History
   b. Maritime History
   c. Newfoundland History
2. An applicant must hold either a Master’s Degree in History or a Bachelor’s Degree in History with first-class Honours or their equivalents as determined by the Head of the Department and the Dean.
3. During the first semester, a Ph.D. candidate must successfully complete History 7000 and 7001 if these courses (or their equivalents) have not been included in his/her Master’s program. The Supervisory Committee may require the candidate to complete additional graduate courses.
4. A candidate must demonstrate in accordance with regulations established by the School of Graduate Studies a reading knowledge of French before taking the comprehensive examination. On the recommendation of the Supervisory Committee a modern language other than French may be substituted. In addition, the Supervisory Committee may require a demonstrated reading knowledge of a second language other than French or English (or the substitute language).
5. A candidate will undertake supervised reading in fields prescribed by the Department. The Supervisors of these programs of reading, along with the thesis Supervisor, will comprise the student's Supervisory Committee.
6. In the second year of the program, after the successful completion of all required courses, a student must take a Comprehensive Examination, which will have both written and oral components.
7. Following successful completion of the Comprehensive Examination, a student must submit a thesis proposal, deemed acceptable by the Supervisory Committee, to the Department.
8. An interested applicant is urged to consult with the Head of the Department on these prerequisites and other requirements before filing an application for admission.

32.19.2 Courses
A selection of the following graduate courses will be offered to meet the requirements of candidates as far as the resources of the Department will allow.
6000 Advanced Studies in Newfoundland History
6010 Advanced Studies in Canadian History
6020 Advanced Studies in the History of the United States
6030 Advanced Studies in French History
6040 Advanced Studies in British History
6050 Advanced Studies in German History
6060 Advanced Studies in North Atlantic History
6070 Advanced Studies in Social History
6075 Advanced Studies in Labour and Working Class History
6080 Advanced Studies in Intellectual History
6090 Advanced Studies in Women’s History
6095 Advanced Studies in Ethnohistory
6100 Advanced Studies in Military History
6105 Advanced Studies in Diplomatic History
6110 Advanced Studies in Maritime History

32.2.0.2 Administration
1. The program shall be administered by a Director, together with the School of Graduate Studies Interdisciplinary Ph.D. Committee (ID Ph.D. Committee). Duties of this committee include recommendation of applications for acceptance into the program.
2. The program of study of each student will be guided for the duration of the program by a Supervisory Committee of either three (3) or five (5) faculty members, appointed by the Dean of Graduate Studies on the recommendation of the ID Ph.D. Committee at the time of admission.
   In addition, the Director shall be an ex officio member of each Interdisciplinary Ph.D. Supervisory Committee.
   Duties of this Committee shall involve supervising the overall program of study, including the recommendation of appropriate courses, the setting and scheduling of comprehensive examinations, advising on the development of a research proposal and thesis-writing and recommendation of thesis examiners.
   The Supervisory Committee is also responsible for recommending fellowship support to the ID Ph.D. Committee and to the Dean of Graduate Studies at the time of admission and throughout the student’s program.
3. Normally, the “academic home” for the student is in the Department or faculty/school of the Chair of the Supervisory Committee.

32.2.0.3 Admission
1. Prospective students should normally hold a Master’s Degree and have an excellent academic record. Applications for admission must include:
   a. Two letters of reference
   b. A detailed research proposal
   c. Letters expressing a commitment to the research project and to supervisory duties from three Memorial University of Newfoundland faculty members, one of whom is prepared to assume the role of Chair of the Supervisory Committee and at least one whose unit of primary responsibility is a Ph.D. granting unit.
   d. Letters of endorsement from the administrative heads of each of the units involved in the proposed program.
   e. A statement from the University Librarian indicating the adequacy of Library resources to satisfy the demands of the research program.

32.2.0.4 Program of Study
1. Courses
   a. Students will normally be required to take 12-18 credit hours of courses to be determined by the Supervisory Committee. These must include at least one course from each participating discipline. Directed reading courses may be included to support the development of the thesis work.
   b. Where appropriate, extra language and/or methodology courses may be prescribed. See Evaluation, Evaluation of Graduate Students, 4. concerning language(s) requirement.
2. Comprehensive Examination
   The scope and format of the comprehensive examination shall be determined by the Supervisory Committee in consultation with the student and in accordance with the needs of his/her particular program of study. Students will be required to take a comprehensive examination no later than the end of the seventh semester of study and after the completion of all required course work. Comprehensive examinations shall follow procedures in accordance with General Regulation, Comprehensive Examinations, Ph.D. Comprehensive Examination, with the exception of 2.
3. Thesis
   a. Students must complete a thesis, examined and defended in accordance with General Regulations of the School of Graduate Studies. The thesis shall give evidence of the candidate’s ability to develop independent and original research.
32.21 Linguistics

www.mun.ca/arts
www.mun.ca/linguistics

Associate Professor and Head of the Department
P. Branigan

The degrees of Master of Arts and Doctor of Philosophy are offered in Linguistics.

32.21.1 Program of Study

1. The Degree of Doctor of Philosophy is offered in the following areas:
   a. Theoretical issues in Core Areas of Grammar (phonetics, phonology, morphology, syntax, semantics);
   b. Languages in which the Department has demonstrated expertise, especially languages of the Newfoundland and Labrador Area;
   c. Language Acquisition; and
   d. Language Variation and Language Contact.

2. In order to be admitted to the Ph.D. in Linguistics, a student shall normally hold a Master's Degree in Linguistics. In the case of a student who does not meet the above requirement but who holds a language-oriented Master's Degree, a program of additional linguistics courses, supplementary to those normally considered to be required in the Ph.D. program, may be required.

3. The program of each candidate must be approved by the Dean of Graduate Studies upon the recommendation of the Supervisory Committee in consultation with the Head of the Department.

4. Candidates who fulfill the requirement in Clause 2 and who otherwise possess the qualifications of Ph.D. candidates will embark on a program approved on an individual basis. This will normally include not less than 15 credit hours in graduate courses, at least 6 credit hours of which must be at the 7000-level.

5. Where needed, each program will include appropriate courses to ensure that the student will have completed 9 credit hours from graduate courses in each of two required fields selected from the following:
   a. Phonetics and Phonology
   b. Morphology and Syntax
   c. Language Acquisition
   d. Sociolinguistics

6. The student must research and write two comprehensive papers, each to be defended at an oral examination (see Regulation Comprehensive Examinations, Ph.D. and Psy.D. Comprehensive Examination of the General Regulations).

   a. The written examinations consist of two separate research papers. These papers will be submitted to the Examination Committee. At least one of the papers must be in one of the core areas of phonetics/phonology, morphology, syntax or semantics. The topic selected for each paper must obtain the prior approval of the Graduate Studies Committee of the Department. In each of these papers, candidates must demonstrate knowledge of the literature on the topic selected, general mastery of the discipline of linguistics and ability to undertake independent research.
   b. The Examination Committee will examine the candidate orally, on each paper, within one month of submission. Questioning can be as wide-ranging as the Committee deems necessary to ensure that the student displays a thorough and comprehensive knowledge of the area in question.
   c. The Examination Committee shall consist of the Head of Department (or delegate) who shall Chair the Committee, the Supervisor, the Dean of Graduate Studies (or delegate), and other members necessary to satisfy General Regulation Comprehensive Examinations, Ph.D. and Psy.D. Comprehensive Examination, 2., who may normally include the members of the Supervisory Committee. If the Head of Department is also a member of the Supervisory Committee, an additional representative of the Department shall be appointed to chair the Examination Committee.

7. Initially, candidates must obtain approval for their Ph.D. thesis topics from the Graduate Studies Committee of the Department, in consultation with the Supervisory Committee. The thesis topic is normally selected before the end of the second full year in the program. Once the topic is approved, a more detailed thesis proposal must be presented to the Department in both written and oral format, and must receive formal Departmental approval prior to the writing of the thesis.

8. Proficiency in a language other than the candidate's first language will be required, as demonstrated by a minimum B grade in a second-year language course, or performance satisfactory to the Department in an arranged reading proficiency test. A structural knowledge of a non-Indo-European language is also required, as demonstrated by a minimum B grade in a field methods/language structure course or other performance satisfactory to the Department. Depending on the program, a reading knowledge of one or more additional languages may be required. Students must meet all language requirements before undertaking their comprehensive examinations.

9. All Ph.D. students are advised to consult the Linguistics department’s Graduate Handbook for details on program requirements and for general information relating to the graduate program.

32.21.2 Courses

A selection of the following graduate courses will be offered to meet the requirements of students, as far as the resources of the Department will allow. Full information is to be found in the Department’s Graduate Brochure.

6050-54 Structure of an Uncommonly-Taught Language (credit restriction: except where an exemption is supplied by the Head of the Department, a student may not obtain credit for more than one course in the 6050-54 series. Students may not obtain credit for any of the previously offered 6010, 6011, 6020, 6021, 6030, 6031, 6040, 6041 in addition to a course in the 6050-54 series.)

6055-59 Structure of a North American Aboriginal Language (credit restriction: Except where an exemption is supplied by the Head of the Department, a student may not obtain credit for more than one course in the 6055-59 series.)

6100 Issues in Morphosyntax (credit may not be obtained for both Linguistics 6100 and the former 6001)

6110 Selected Topics in Transformational Grammar

6115 Topics in the Syntax of A Selected Language (prerequisite: 6001 or 6110)

6150 Principles of Language Acquisition

6151 Selected Topics in Language Acquisition (prerequisite: Permission of the instructor)

6200 Phonological Theory

6201 Selected Topics in Phonology (prerequisite: 6200)

6210 Sociolinguistics (credit restriction: A student may not obtain credit for both 6210 or the former 6211)
32.22 M.D.-Ph.D.

www.mun.ca/sgs

1. The M.D.-Ph.D. program is offered by full-time study to highly motivated students with an excellent academic record who wish to obtain an M.D. and a Ph.D., and whose academic excellence, research potential, and the suitability of the proposed research training environment is acceptable to the Program Admissions and Advisory Committee.

2. The purpose of the M.D.-Ph.D. program is to provide medical education, including clinical skills and training in health research.

3. The M.D.-Ph.D. program will be overseen by the Program Admissions and Advisory Committee (P.A.A.C.). The P.A.A.C. will be responsible for the recruitment and oversight of the program of highly qualified trainees.

4. The P.A.A.C. is composed of the M.D.-Ph.D. Program Director(s), a representative from the Faculty of Medicine, one or more faculty members representing the School of Graduate Studies and a senior M.D.-Ph.D student.

5. M.D.-Ph.D students are jointly enrolled in the M.D. program and the Ph.D. program. The student’s Ph.D. program is overseen by the administrative Head of the appropriate academic unit in which the student is enrolled. The M.D. program is overseen by the Assistant Dean, Undergraduate Medical Education, Faculty of Medicine.

32.22.1 Qualifications for Admission

1. To be admitted into the M.D.-Ph.D. program, applicants must first meet the admission requirements of both the M.D. and Ph.D. programs. Admission to the Ph.D. program shall be by the Dean of Graduate Studies on the recommendation of the Head of the appropriate academic unit. Admission to the M.D. program is by the Dean of Medicine on the recommendation of the Assistant Dean, Admissions, Faculty of Medicine.

2. Normally, students will enter the M.D.-Ph.D. program from the M.D. program after successful completion of the pre-clerkship phase or from the Ph.D. program after one or two years of the graduate program and acceptance into the M.D. program.

32.22.2 Program of Study and Research

1. The program of study for the Ph.D. is described in the University Calendar entry for the student’s chosen discipline. For the purposes of timing of the comprehensive examination, only the semesters in the Ph.D. component of the program will be counted.

2. The program of study for the M.D. follows the General Regulations governing the M.D. Degree.

3. During the Ph.D. component, students are expected to maintain clinical skills by arrangement with the Assistant Dean, Undergraduate Medical Education, Faculty of Medicine, and will be required to demonstrate competency in clinical skills before resuming full-time studies in the clerkship phase of the M.D. component.

4. During the M.D. component (including the clerkship phase), students, where required, are expected to participate in seminars and journals clubs in their area of research specialization.

5. The Ph.D. will be awarded to students in the M.D.-Ph.D. program on completion of all academic requirements appropriate to the Ph.D. Degree. The M.D. will be awarded to students in the M.D.-Ph.D. program on completion of all academic requirements appropriate to the M.D. Degree.

32.22.3 Evaluation

Failure to maintain academic standing in either the Ph.D. or M.D. components will lead to termination of the M.D.-Ph.D. program which will be annotated on the student’s transcript. On failure of the M.D. component, the Dean of Graduate Studies may approve transfer to a Ph.D. program on the recommendation of the administrative Head of the appropriate academic unit. On failure of the Ph.D. component, the Dean of Medicine may approve transfer to a M.D. program on the recommendation of the Assistant Dean of Undergraduate Medical Education.

32.22.4 Courses

See course listing under the regulations for the relevant Ph.D. program and also for the M.D. program in the General Regulations.
The Degree of Doctor of Philosophy in Management is offered by full-time study to qualified candidates. The General Regulations of the School of Graduate Studies and the Degree Regulations of the Faculty of Business Administration outlined below, will apply.

32.23.1 Admission to the Ph.D. Program

Admission is limited and competitive. General qualifications for admission to the Ph.D. Programs at Memorial University of Newfoundland are set out under General Regulations, Qualifications for Admission. Applicants from all disciplines will be considered.

In addition:
1. Quantitative and qualitative competency are required as evidenced by an acceptable balanced GMAT (minimum score of 600) (or a minimum GRE score of 302).
2. An applicant who did not complete a Master’s degree at a recognized university where English is the primary language of instruction must normally complete either the: Test of English as a Foreign Language (TOEFL) and achieve a paper-based score of 580 (or higher), computer-based score of 237 (or higher), or Internet-based score of 92-93 (or higher); or International English Language Testing System (IELTS) and achieve a score of 7 (or higher).

Information regarding the TOEFL is available from the Educational Testing Service at www.ets.org. IELTS information is available at www.ielts.org. It is noted that other equivalent tests acceptable to the School of Graduate Studies will also be considered.

32.23.2 Supervisory Committee

Until a supervisory committee has been formed, the Ph.D. Program Director will be the designated advisor of each Ph.D. student. Each candidate will have a supervisory committee consisting of three or more members, at least two of whom shall be members of the Faculty of Business Administration. The thesis Supervisor shall be a doctorally qualified faculty member in the Faculty of Business Administration, Memorial University of Newfoundland, having a recent (past five years) research track record suitable to provide research supervision at the Ph.D. level. The supervisory committee will be appointed no later than the end of the first year of studies.

Students are encouraged to find a Supervisor within the first year of the program and, together with the Supervisor, find the remaining committee members by the time all required courses are completed.

32.23.3 Components of Study

32.23.3.1 Courses

Students are required to complete successfully a program of courses, normally over the first two years of the program. Students without an adequate background in the functional areas of business may be required to take additional breadth courses. Such determination will be made by the Graduate Research Programs Committee when a student is accepted into the program.

Required for all Specializations

**Philosophy 6015 Theory of Knowledge**

**Business 9901 Approaches to Management Research**

One of

**Business 9902 Modelling Methods In Management Research**

**Business 9903 Quantitative Methods In Management Research**

**Business 9904 Qualitative Methods In Management Research**

Business 9901 is to be completed before any of Business 9902, 9903, 9904 is attempted. In exceptional cases Business 9901 may be completed concurrently with 9902, 9903 or 9904, with approval from the Director of the Program and the Supervisor.

*Alternatively, students may elect to take an equivalent quantitative methods graduate course on the approval of the Ph.D. Program Director and the Supervisor.

**Alternatively, students may elect to take an equivalent qualitative methods graduate course on the approval of the Ph.D. Program Director and the Supervisor.

Note: Waivers shall not be granted in the Ph.D. program for previously completed course work at either the undergraduate or master's level.

Operations and Information Management (OIM) Specialization Courses

In addition to the above-noted courses required for all specializations, the following courses are required for the Operations and Information Management specialization.

**Business 9910 Optimization**

**Business 9911 Data and Process Models in Information Systems Development**

**Business 9912 Probabilistic Models**

**Business 9913 Human-Computer Interaction and Decision Support Systems**

**Business 9914 Supply Chains: Models and Management**

**Business 9915 Electronic Commerce**

**Business 9917 Special Topics in Operations Management**

**Business 9918 Special Topics in Information Systems**
### Recommended Sequence for Operations and Information Management (OIM) Specialization Table

**Notes:**
1. * Students who are planning to specialize in Information Systems can substitute appropriate graduate courses for BUSI 9914 and 9917 on the approval of the Director of the Program and the Supervisor.
2. ** Students who are planning to specialize in Operations Management can substitute appropriate graduate courses for BUSI 9915 and 9918 on the approval of the Director of the Program and the Supervisor.

### Organizational Behaviour and Human Resources Management Specialization Courses

In addition to the above-noted courses required for all specializations, the following courses are required for the Organizational Behaviour and Human Resources Management specialization.

1. **Required courses:**
   - Business 9920 Foundations in Organizational Behaviour
   - Business 9921 Foundations in Human Resources Management
   - Business 9924 Current Issues in Organizational Behaviour
   - Business 9925 Current Issues in Human Resources Management

2. **Four of:**
   - Business 9922 Foundations in Industrial Relations
   - Business 9923 Foundations in Organizational Theory
   - Business 9925 Current Issues in Industrial Relations
   - Business 9927 Current Issues in Organizational Theory
   - Business 9928-9939 Special Topics in Organizational Behaviour/Human Resources Management
   - Any other graduate course subject to the approval of the Director of the Program and the Supervisor

### 32.23.3.2 Summer Research Project

During the first summer in the program, students will complete a research project under the supervision of a qualified faculty member in the area of specialization. Projects must be presented at a Faculty of Business Administration research seminar during the second year of the program.

### 32.23.3.3 Research Seminar Participation

Students are expected to attend research seminars offered by the Faculty of Business Administration in their discipline. Presentation of student conference papers where the Faculty of Business Administration funds travel is expected at a Faculty of Business Administration research seminar. In addition, students may be requested to present their work at other Faculty seminars where and when feasible.

### 32.23.3.4 Comprehensive Examination

Students shall undertake a mandatory written comprehensive examination, following General Regulation Comprehensive Examinations, Ph.D. Comprehensive Examination, which sets out the procedures for the comprehensive examination.

In addition:
1. A candidate in the Ph.D. Program in Management shall normally take the written Comprehensive Examination by the end of the seventh semester of the program. The candidate must have successfully completed all required courses prior to writing the Comprehensive Examination. The scope of the Comprehensive Examination will be determined by the Examining Committee (as defined in General Regulation Comprehensive Examinations, Ph.D. Comprehensive Examination) under the guidance of the Supervisory Committee.

2. A list of topics/areas for the Comprehensive Examination will be provided to the student no later than three months prior to the date of the examination.

3. The written examination will take place in three phases over a one-week period.

4. Based on the results of the written examination, the Examining Committee may schedule a supplementary oral examination on any topics covered on the written examination. The oral examination request must be made to the Dean within two weeks of completion of the written examination. The oral examination, if any, must take place within six weeks of completion of the written examination.

5. The scheduling of the Comprehensive Examination will be initiated by the student’s Supervisor who will notify the Dean of the Faculty of Business Administration or designate. The date of the written examination will be determined by the Dean of the School of Graduate Studies. The student will be provided with written notice of the scheduled dates of the written examinations. In the case of oral examinations, requests will be initiated by the Examining Committee or the student (as described above in 4.) through the School of Graduate Studies.

32.23.3.5 Ph.D. Thesis Regulations

1. The candidate must submit a thesis proposal to all members of the Supervisory Committee for evaluation and approval by the end of the eighth semester of the program. Within one month of submitting the proposal, the Candidate will give a public oral presentation of the proposal, attended by the Committee. The presentation will provide the Committee and others in attendance with an opportunity to raise questions about the proposal research. Immediately following the presentation, the Supervisory Committee will meet to assess the proposal. Assessment will result in one of the following three outcomes: (1) accept; (2) accept with changes; or (3) reject. The results of this assessment will be provided to the student following the meeting. Assessments of accept with changes or reject will be accompanied by written comments within one week of the proposal presentation.

2. If the proposal is rejected, the candidate will be permitted a second proposal. This proposal must be submitted and deemed acceptable by the Supervisory Committee within four months of the original proposal presentation. Failure to resubmit within this time period will lead to termination of the candidate’s program.

3. The Ph.D. thesis will constitute an independent and original research contribution.

4. The Ph.D. thesis will be evaluated according to the process established in General Regulation Theses and Reports, Evaluation of Ph.D. Theses governing the School of Graduate Studies.

32.24 Marine Biology

www.mun.ca/science
www.mun.ca/osc

Professor Emeritus and Head of the Department
G.L. Fletcher

The Degree or Doctor of Philosophy (Ph.D.) is offered in Marine Biology by full-time and part-time study through the Department of Ocean Sciences. Areas of concentration include: Ocean Ecology, Functional Biology of Marine Organisms, Fisheries and Aquaculture, and Oceans and Environment.

32.24.1 Admission and Program of Study

1. Admission into the Ph.D. program in Marine Biology is normally restricted to candidates holding a Master’s Degree or its equivalent. In exceptional circumstances, a candidate with a B.Sc. (Honours) Degree who has spent not less than 12 months in an M.Sc. Degree program may be recommended for transfer into a Ph.D. program, provided that the candidate can demonstrate, to the satisfaction of the Department of Ocean Sciences, his/her ability to pursue research at the doctoral level.

2. Each student will be assigned a Supervisory Committee consisting of the Supervisor and at least one other member. Within three months of the first registration in the Ph.D. degree program, a student will meet with his/her Supervisory Committee. Within nine months, the student and the Supervisory Committee will agree on a written thesis proposal outlining the objectives, methods, timetable and funding for the project, and provide the proposal (signed by the student and the supervisory committee) to the Head for inclusion in the student’s file.

3. A student is normally required to complete a minimum of 6 credit hours of graduate program courses as follows:
   - Ocean Sciences 7100 or 7200
   - Ocean Sciences 7000 or relevant course as approved by the Supervisory Committee

4. All course requirements should be completed within five semesters from the date of first registration in the Ph.D. program.

5. Normally, upon completion of required course work the student shall undertake a mandatory comprehensive examination, following the General Regulations, Comprehensive Examinations, Ph.D. and Psy.D, Comprehensive Examination. The comprehensive examination will be both written and oral. A student should consult the Departmental guidelines for further information and a detailed description of the content of the Comprehensive Examination.

6. The Ph.D. program will conclude with the examination and oral defense of the completed thesis in accordance with the School of Graduate Studies General Regulations, Theses and Reports.

32.24.2 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the Department will allow.

OCSC 7000 Graduate Core Seminar (cross-listed as Biology 7000)
OCSC 7100 Biological Oceanography (credit cannot be obtained for both OCSC 7100 and the former Biology/OCSC 7531)
OCSC 7200 Adaptations to the Marine Environment (credit cannot be obtained for both OCSC 7200 and the former Biology/OCSC 7561)
OCSC 7300 Plankton Dynamics (credit cannot be obtained for both OCSC 7300 and the former Biology/OCSC 7540)
OCSC 7400 Fisheries Resource Management (credit cannot be obtained for both OCSC 7400 and the former Biology/OCSC 7551)
32.25 Mathematics and Statistics

The degrees of Master of Applied Statistics (see appropriate calendar entry), Master of Science, and Doctor of Philosophy are offered in the Department of Mathematics and Statistics. The Masters' degrees are offered by full-time and part-time studies. The Department also participates in the interdisciplinary Ph.D. Program in Theoretical Physics.

32.25.1 Program of Study

The following regulations should be read in conjunction with the General Regulations of the School of Graduate Studies.

1. Candidates shall be assigned a supervisory committee consisting of the Supervisor (or Co-Supervisors) and at least two other members of faculty appointed by the Dean on the recommendation of the Head.

2. A candidate shall complete at least 6 credit hours in graduate courses in the area of specialization. Candidates not holding a Masters Degree shall, in addition, complete, or have already completed successfully, the course requirements for a Memorial University of Newfoundland Master's Degree in mathematics or in statistics, as appropriate. Any candidate may be required to take additional courses.

3. The Comprehensive Examination consists of two parts, called the “qualifying review” and the “intermediate review”. Successful completion of both the qualifying and intermediate reviews constitutes successful completion of the Comprehensive Examination in the sense of General Regulation Comprehensive Examinations.
   a. The qualifying review consists of written examinations and takes place as soon as the Supervisory Committee deems appropriate, but not later than the end of the candidate's third semester in the doctoral program. Its main purpose is to ensure that the candidate has a reasonably broad general knowledge of mathematics or of statistics, as appropriate.
   b. The intermediate review consists of an oral presentation on the candidate's thesis topic followed by an oral examination based on the presentation although questions of a general nature relating to the field of specialization are also permitted. It must take place no later than the end of the candidate's seventh semester in the doctoral program. Its purpose is to ensure that the candidate has specialized knowledge in his/her chosen area sufficient to do original research of a high level.

More details concerning the Department's comprehensive examinations can be obtained from the Department.

32.25.2 Specific Regulations for the Ph.D. in Mathematics

A Masters Degree in mathematics or related area from a recognized university is required for entry into the Ph.D. program. Students currently registered in their first year at Memorial University of Newfoundland's M.Sc. Program in mathematics who have obtained A in at least four program courses are eligible to be transferred into a Ph.D. program. Such transfer must be supported by a prospective Ph.D. supervisory committee as well as the Graduate Studies Committee and approved by the Dean of Graduate Studies. Transferred students shall finish their Masters program courses plus the minimum Ph.D. requirements.

32.25.3 Specific Regulations for the Ph.D. in Statistics

A Masters Degree in statistics from a recognized university is normally required for entry into the Ph.D. program. Students currently registered in their first year at Memorial University of Newfoundland's M.A.S. or M.Sc. Program in statistics who have obtained A in at least four program courses are eligible to be transferred into a Ph.D. program. Such transfer must be supported by a prospective Ph.D. supervisory committee as well as the Graduate Studies Committee and approved by the Dean of Graduate Studies. Transferred students shall finish their Masters program courses plus the minimum Ph.D. requirements.

In addition to general Departmental requirements, each candidate for the Ph.D. in statistics will be required to present at least one paper at a graduate seminar on a topic to be approved by his or her Supervisor.

32.25.4 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the Department will allow.

Mathematics
6100 Dynamical Systems
6101 Modern Perturbation Theory
6102 Mathematical Biology
6104 Infinite Dimensional Dynamical Systems
6110 Advanced General Relativity
6111 Calculus in Manifolds
6112-6119 Special Topics in Applied Mathematics
6120 Theoretical Fluid Dynamics
6121 Functional Differential Equations
6130 Introduction to General Relativity
6160 Partial Differential Equations
6201 Numerical Methods for Partial Differential Equations
6210 Numerical Solution of Differential Equations (for Computational Science students only - required core course)
6212 Numerical Methods for Initial Value Problems
6230 Differentiable Manifolds and Riemannian Geometry
6300 Homology Theory
6301 Homotopy Theory
6302 Theory of Fibre Bundles
6304-6309 Special Topics in Topology
6311 Complex Analysis
6312 Measure Theory
6313 Functional Analysis II
6315-6319 Special Topics in Analysis
6320 Group Theory
6321 Ring Theory
6322 Nonassociative Algebra
6323 Homological Algebra
6324-6329 Special Topics in Algebra
6330 Analytic Number Theory
6331 Algebraic Number Theory
6340 Graph Theory
6341 Combinatorial Design Theory
6342 Advanced Enumeration
6343-6349 Special Topics in Combinatorics

Statistics
6500 Probability (credit restricted with former 6586)
6503 Stochastic Processes
6505 Survival Analysis
6520 Linear Models
6530 Generalized Linear Longitudinal Mixed Models
6540 Time Series Analysis
6545 Statistical Computing
6550 Nonparametric Statistics
6561 Categorical Data Analysis
6563 Sampling Theory
6571 Financial and Environmental Time Series
6573 Statistical Genetics
6570-6589 Selected Topics in Statistics and Probability (excluding 6571, 6573, 6586)

Notice that, although the courses 6310, 6332, 6351, 6510 and 6560 cannot be used to fulfill the 6 credit hours graduate courses requirement, any of them can be listed as part of the program of study as additional course work, whenever the supervisory committee deems it appropriate.

32.25.5 Specific Regulations for the Ph.D. in Theoretical Physics

The Ph.D. in Theoretical Physics is an interdisciplinary program offered jointly with the Department of Physics and Physical Oceanography. The regulations for this program are described under the Regulations Governing the Degree of Doctor of Philosophy - Theoretical Physics.

32.26 Medicine

www.med.mun.ca

Professor and Dean

J. Rourke

The Faculty of Medicine offers the degree of Doctor of Philosophy in seven program areas: Cancer and Development, Cardiovascular and Renal Sciences, Clinical Epidemiology, Community Health, Human Genetics, Immunology and Infectious Diseases and Neurosciences. Each program area has a Co-ordinator who is responsible for communicating the interests of the program to the Faculty of Medicine Graduate Studies Committee and participate in the admission of graduate students into the graduate program in Medicine. The Faculty of Medicine also offers the opportunity for students registered in the Doctor of Medicine (M.D.) program to obtain a Ph.D. in a combined and integrated M.D.-Ph.D. program.

32.26.1 Qualifications for Admission

The admission requirements for the Ph.D. are as given under the General Regulations governing Ph.D. degrees.

32.26.2 Program of Study and Research

1. The program of study for a Ph.D. Degree is the responsibility of the supervisory committee composed of a Supervisor and at least two other faculty members.

2. It is the responsibility of the supervisory committee to meet regularly (at least annually) with the student and to provide guidance at all stages of the candidate's program. An annual report prepared by the Supervisor and signed by the student and all members of the committee is required to be submitted to the Assistant Dean of Research and Graduate Studies (Medicine).

3. Graduate Students are expected to participate in Faculty of Medicine seminars and journal clubs, for some of the program areas these are available as required courses.

4. Course requirements are set by each of the program areas and are described under Program Requirements. Some supervisory committees may require some students to successfully complete specified course work.

5. Graduate Students in the Ph.D. degree are required to successfully complete the comprehensive examination before the end of the seventh semester. The comprehensive examination consists of both written and oral components and is in accordance with the
General Regulations governing Ph.D. degrees.

6. Graduate students in the Ph.D. degree must complete an original piece of research, a written dissertation which must be successfully defended in an oral examination in accordance with the General Regulations governing Ph.D. degrees.

32.26.2.1 Program Areas

1. Cancer and Development
   a. The graduate program in Cancer and Development offers study in fundamental cell and molecular biological areas including viral oncogenesis, growth factors and oncogenes in developmental models, programmed cell death and drug resistance.
   b. Program Requirements: Students are required to participate in the Seminar Series (MED 6410-6413).

2. Cardiovascular and Renal Sciences
   a. The graduate program in Cardiovascular and Renal Sciences enables students to pursue research and academic studies in selected topics including hypertension and stroke, neural and endothelial control of vasculature and blood pressure as well as physiological mechanisms promoting heart failure. The faculty participating in the program consists of basic cardiovascular scientists and renal clinicians. Teaching within the program is integrated with the M.D. program.
   b. Program Requirements: Students are required to successfully complete MED 6140 if this course has not been previously taken. Students are required to present their thesis research to the Cardiovascular and Renal Sciences group.

3. Clinical Epidemiology
   a. The program in Clinical Epidemiology is aimed at university graduates intending a career in health services, faculty members seeking advanced training in clinical epidemiology, medical doctors, and health care professionals interested in health care delivery research.
   b. Program Requirements: Students are required to successfully complete all of the following courses if they have not been previously completed: MED 6095, MED 6262 or MED 6200, MED 6250, MED 6255, and MED 6260. Students are required to take the Ph.D. Seminar Series (MED 6410-6413).

4. Community Health
   a. The graduate program in Community Health enables students to pursue research and academic studies in selected topics. Students may specialize in one of the following three streams: epidemiology and biostatistics; health services and policy research; or social justice and equity in health.
   b. Program Requirements: Coursework as defined by the Supervisory Committee and this would normally include the Ph.D. Seminar Series (MED 6410-6413).

5. Human Genetics
   a. The graduate program in Human Genetics will enable students to pursue academic studies and research in a number of areas of genetics including cancer genetics, genetic epidemiology, gene mapping, medical genetics, birth defects, and population genetics. Faculty members from all three divisions of the Faculty of Medicine (Biomedical Sciences, Community Health and Clinical Sciences) participate in the program.
   b. Program Requirements: Students are required to take the Genetics Seminar Series (MED 6410-6413).

6. Immunology and Infectious Diseases
   a. The Immunology and Infectious Diseases group has an interdisciplinary character and consists of faculty from biomedical science. The graduate programs are designed to provide individualized training oriented towards basic research and a solid scientific background in the discipline of immunology and infectious diseases.
   b. Students are required to successfully complete two courses if they have not been previously completed: MED 6127 is required and the students will choose one course from MED 6114, MED 6119, MED 6128, MED 6580, or any other graduate course approved by the student’s supervisory committee. Some students may be required to take additional courses depending upon their thesis topic. Students are required to attend, for credit, and participate in the Immunology and Infectious Diseases Seminar Program (MED 6410-6413).

7. Neurosciences
   a. The Neuroscience Program offers graduate studies in an interdisciplinary setting with the core faculty in the Division of BioMedical Sciences but also including faculty from the Department of Psychology in the Faculty of Science. Graduate students may pursue research in a number of specialty areas including the physiological basis of learning and memory, stroke and neuroplasticity, neuroregeneration, signal transduction mechanisms, neuronal circuitry and membrane physiology. The Neuroscience Program is a Chapter of the Society for Neuroscience.
   b. Program Requirements: Normally students in the Ph.D. program are required to complete two graduate level courses in Neuroscience, one of which is to be Systems Neuroscience (MED 6196). Course selection is made on the recommendation and advice of the supervisory committee. Students are expected to attend and participate in the activities of the neuroscience group including the weekly seminar and journal club.

32.26.2.2 Courses

For a list of courses offered by the Faculty of Medicine refer to Courses offered for the Master of Science in Medicine.
32.27 Nursing

www.mun.ca/nursing

Professor and Dean
A. Gaudine

The degree of Doctor of Philosophy (Ph.D.) is offered in Nursing in areas reflective of the strength and expertise of current faculty members in the School of Nursing. All candidates will be required to attend as full-time students during the first six semesters (two academic years) of the program.

The following regulations must be read in conjunction with the General Regulations of the School of Graduate Studies.

32.27.1 Qualifications for Admission
1. Admission to the program is limited and competitive.
2. To be considered for admission an applicant must normally hold a Master of Nursing degree or equivalent from a recognized university and have a strong academic record.
3. Applicants must have completed either a graduate level course(s) in research that included both qualitative and quantitative approaches with some advanced statistical analysis in the quantitative work, or a graduate level statistics course.
4. Applicants must hold an active practicing license from the Association of Registered Nurses of Newfoundland or must be currently registered as a practicing nurse in another Canadian jurisdiction. Applicants from other countries who do not meet the above criteria will be assessed on an individual basis and must submit proof of registration as a practicing nurse (or an equivalency) from their country or jurisdiction.
5. Applicants must submit a statement about a research focus that is compatible with expertise within the current faculty of the School of Nursing.

32.27.2 Program of Study
1. A Supervisory Committee shall be appointed for each candidate in accordance with General Regulations, Supervision of the School of Graduate Studies.
2. Candidates normally be required to successfully complete a minimum of 18-credit hours of program courses as follows: Nursing 7011, Nursing 7012, Nursing 7100, Nursing 7101, one of Nursing 7200-7210 (or another approved research course at the doctoral level), and one of Nursing 7300-7310 (or another approved course at the doctoral level in the area of the student’s research interest). All courses will normally be completed within the first two semesters of the program.
3. Candidates will normally be required to complete a minimum of two mandatory, non-credit internships/institutes during the first two years of the program. The internships/institutes are designed to provide an opportunity for students to gain substantive knowledge of, and engage in, collaborative research and/or teaching. An internship/institute will be selected based on the student’s area of interest and learning needs and will have a set or negotiated time limit during a semester depending on the nature and scope of the work.
4. Candidates will be required to participate in graduate seminars of 2 hours per week in the Fall and Winter semesters in each of the first two academic years of the program.
5. Candidates must develop and maintain a professional portfolio that includes experience in research, teaching, and academic and professional service.
6. Candidates shall submit to a comprehensive examination in accordance with General Regulations, Comprehensive Examinations of the School of Graduate Studies. The Comprehensive Examination will consist of a written component and an oral component. The examination will normally be scheduled in the first semester of the second year of the program, but no later than the end of the student’s seventh semester in the program.
7. Candidates must submit a written thesis proposal for presentation to the School, normally within six weeks of completion of the comprehensive examinations, but no later than the end of the fifth semester of the program.
8. Candidates must submit a thesis, examined and defended in accordance with General Regulations, Theses and Reports of the School of Graduate Studies.
9. Candidates are required to spend a minimum of six semesters (two academic years) of full-time study in residence.
10. In keeping with the General Regulations, Period of Study for the School of Graduate Studies, the time limit to complete the degree is seven years.

32.27.3 Courses
A selection of the following courses will be offered to meet the requirements of candidates, as far as the resources of the School of Nursing will allow.
7011 Nursing: The Science
7012 Nursing: The Profession
7100 Nursing Research I: Conceptualizing Research
7101 Nursing Research II: Conducting Research
7200-7210 Reading Courses in Research Methodology
7300-7310 Reading Courses in a Substantive Area for Research
32.28 Pharmacy

www.mun.ca/pharmacy

Professor and Dean

C.A. Marra

The Degree of Doctor of Philosophy in Pharmacy is offered to qualified candidates normally by full-time study. The General Regulations of the School of Graduate Studies of Memorial University of Newfoundland outlined in the current Calendar, and the Degree Regulations of the School of Pharmacy outlined below will apply. Every candidate in graduate studies shall comply with the General Regulations, Degree Regulations and all additional requirements of the School of Pharmacy.

32.28.1 Qualifications For Admission

1. Admission to the Ph.D. program is limited and competitive. Applicants must have completed an M.Sc. Degree in Pharmacy, or its equivalent in a related discipline, from a university of recognized standing.

2. Other students may be considered for admission to a Ph.D. provided that they have been registered in a M.Sc. Pharmacy program for a minimum of 12 months, and have demonstrated to the satisfaction of the Graduate Studies Committee of the School of Pharmacy an ability to pursue research at the doctoral level. Students wishing to transfer from the M.Sc. to the Ph.D. will have completed 6 credit hours. Prior to admittance to the Ph.D. program, a written thesis proposal will be submitted for assessment by the Supervisory Committee plus one additional faculty member. The recommendation of this Committee will be forwarded to the Graduate Studies Committee of the School of Pharmacy.

3. On admission to the program, a Supervisory Committee shall be appointed in accordance with General Regulation Supervision governing the School of Graduate Studies.

32.28.2 Program of Study and Research

1. As a minimum, each candidate shall successfully complete 6 credit hours as well as Pharmacy 6999 (Pharmacy Research Seminar). A minimum grade of 65% will be required in each course. Candidates shall complete additional undergraduate courses in Pharmacy or other related areas where the Supervisory Committee considers there to be a deficiency in the academic record. Candidates may select these courses in consultation with the Supervisory Committee. However, it will be the primary responsibility of the Supervisory Committee to ensure that deficiencies in the academic record are rectified.

2. All candidates must submit a thesis proposal to the Supervisory Committee for approval no later than the second semester of study after admission to the program.

3. All candidates must complete a comprehensive examination on or before the end of the sixth semester of study after admission to the program. The comprehensive examination will consist of two components: a written examination and an oral examination. The oral examination will normally be held no later than two weeks after successful completion of the written examination.

4. A Comprehensive Examination Committee shall be appointed in accordance with General Regulation Comprehensive Examination. The Committee will be responsible for preparing the questions for the written and oral examinations and evaluating the candidate's performance in the subject area. The Committee will consist of the Dean of Graduate Studies (or delegate), the Supervisor, and three other members, one of whom may be a member of the Supervisory Committee. All shall be voting members of the Committee except the Dean of Graduate Studies (or delegate).

5. Successful completion of the Ph.D program will require formal examination of the written thesis and an oral defence of the research, as prescribed in the General Regulation Theses and Reports. Final approval of the thesis shall be the responsibility of the School of Graduate Studies.

32.28.3 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates as far as the resources of the School will allow. Permission of the instructor and the Graduate Studies Committee of the School of Pharmacy is required for admission to any graduate Pharmacy course.

6000 Medicinal Chemistry
6001 Advanced Physical Pharmacy
6002 Dosage Form Design and Novel Drug Delivery Systems
6003 Pharmacokinetic Modelling
6004 Principles of General Pharmacology
6005 Toxicology of Therapeutic Agents and Chemicals
6100-6108 Special Topics in Pharmacy
6999 Pharmacy Research Seminar

32.29 Philosophy

www.mun.ca/arts
www.mun.ca/philosophy

Associate Professor and Head of the Department

A. Sullivan

The degree of Doctor of Philosophy (Ph.D.) is offered in Philosophy by full-time study only. Graduate courses are taught as small seminars and directed reading courses. Program candidates must spend a minimum of two years in residence at this institution.

32.29.1 Program of Study

1. The Ph.D. in Philosophy is offered in accordance with the General Regulations of the School of Graduate Studies. Doctoral candidates will specialize in one or more of three departmental research clusters:
   - Metaphysics and its History
   - Kant and Continental Philosophy
   - Ethics, Social and Political Philosophy

2. To be considered for admission to the program an applicant must have completed a Master of Arts Degree in Philosophy or hold an equivalent qualification.

3. All candidates are required to complete 15 credit hours in graduate courses selected from the Courses listed below and including...
the following:
- Philosophy 6000
- Four additional courses (12 credit hours) only one of which (3 credit hours) may be a directed reading course. Courses will be selected by the candidate in consultation with the candidate’s Supervisory Committee.

4. Proficiency in a second language is required since it is necessary for the purpose of the proposed doctoral research. The selection of a second language is based upon the student’s research requirements, and the selection is to be made in consultation with the student’s faculty advisor or supervisor. Confirmation that the choice is acceptable must be obtained from the department. Demonstration of proficiency will be determined in accordance with the governing general regulation of the School of Graduate Studies (General Regulations, Evaluation, Evaluation of Graduate Students). If a student is working in recent Anglo American philosophy, then the student can opt, with the permission of the Graduate Studies Committee, to complete an examination in philosophical logic. The language requirement must normally be fulfilled before a student takes the Ph.D. comprehensive examination.

5. The Ph.D. Comprehensive Examination shall be administered and evaluated in accordance with General Regulations, Comprehensive Examinations. The examination shall consist of three written parts: a four-hour examination in the student’s area of concentration and two three-hour examinations in two of the Department’s research clusters (Metaphysics and its History, Kant and Continental Philosophy, and Ethics and Social and Political Philosophy).

6. No more than seven semesters after having been admitted to the program the candidate must submit a thesis proposal that is considered satisfactory by the supervisory committee.

7. Students must submit and successfully defend a thesis in accordance with the School of Graduate Studies general regulations governing Theses and Reports.

### 32.29.2 Courses
A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the Department will allow.

- 6000 Graduate Seminar
- History of Philosophy Seminars
  - 6011 Ancient and Medieval Philosophy
  - 6012 Modern Philosophy
  - 6013 Contemporary Philosophy
- Area Seminars
  - 6014 Metaphysics
  - 6015 Theory of Knowledge
  - 6016 Ethical and Political Theory
- Tutorials
  - 6040-6099 Special Topics
  - 6101 Selected Texts
  - 6102 Current Issues

### 32.30 Physics and Physical Oceanography
www.mun.ca/science
www.mun.ca/physics

Professor and Head of the Department
B. de Young

The following Departmental Regulations are supplementary to the General Regulations governing the M.Sc. and Ph.D. degrees. A thorough familiarity with the latter Regulations should be regarded as the prerequisite to further reading in this section.

The Department of Physics and Physical Oceanography compiles, and regularly reviews, a brochure which contains reasonably detailed descriptions of currently active research projects, as well as a comprehensive listing of recent research publications, and other material which may be of interest to prospective graduate students.

#### 32.30.1 Program of Study
The Degree of Doctor of Philosophy (Ph.D.) is offered in Atomic and Molecular Physics, in Physical Oceanography, in Condensed Matter Physics, and in Theoretical Physics.

1. A program of study for the Ph.D. Degree in Atomic and Molecular Physics, Condensed Matter Physics or Physical Oceanography shall normally include a minimum of 9 graduate credit hours, beyond those required for the M.Sc. Degree. However, depending on the student's background and area of specialization, more or fewer graduate and/or undergraduate courses may be required.

2. A Comprehensive Examination (as prescribed under General Regulation Comprehensive Examinations) shall be an oral one, and may include the presentation of a written research proposal.

3. The Ph.D. Program in Theoretical Physics is an interdisciplinary program offered jointly with the Department of Mathematics and Statistics. The regulations for this program are described under the Regulations Governing the Degree of Doctor of Philosophy - Theoretical Physics

#### 32.30.2 Courses
A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the Department will allow.

- 6000 Condensed Matter Physics I
- 6001 Condensed Matter Physics II
- 6002 Superconductivity
- 6003 Path Integral Techniques in Condensed Matter Physics
- 6010-19 Special Topics in Condensed Matter Physics
- 6040 Biophysics
- 6060-69 Special Topics in Interdisciplinary Areas
- 6200 Nonlinear Dynamics
6308 Ocean Dynamics I  
6309 Ocean Dynamics II  
6310 Physical Oceanography  
6313 Physical Fluid Dynamics  
6314 Field Oceanography  
6315 Polar Oceanography  
6316 Ocean Measurements and Data Analysis  
6317 Ocean Acoustics  
6318 Numerical Modelling  
6319 Climate Dynamics  
6320 Turbulence  
6321 Coastal Oceanography  
6322 Stratified Fluids  
6323 Stability Theory  
6324 Models in Ocean Ecology  
6360-69 (excluding 6363) Special Topics in Physical Oceanography  
6363 Laboratory Experiments in Geophysical Fluid Dynamics  
6400 Statistical Mechanics  
6402 Theory of Phase Transitions  
6403 Stochastic Processes, Time-Dependent and NonEquilibrium Statistical Mechanics  
6502 Electrodynamics  
6720 Theory of Molecules  
6721 Molecular Spectroscopy  
6722 Light Scattering Spectroscopy  
6730 Molecular Theory of Liquids and Compressed Gases  
6740 Physics of Atomic Collisions  
6760-69 Special Topics in Atomic and Molecular Physics  
6800 Group Theory  
6810-19 Special Topics in Theoretical and Mathematical Physics  
6850 Quantum Mechanics I  
6851 Quantum Mechanics II  
6900 Techniques in Experimental Condensed Matter Physics  
6910-19 Special Topics in Experimental and Applied Physics  

Table of Credit Restrictions - Physics and Physical Oceanography

Members of the Department carry out research in several areas of experimental and theoretical physics, including atomic and molecular physics, condensed matter physics, physical oceanography, theoretical geophysics and applied nuclear physics. In atomic and molecular physics, there are experimental programs in collision-induced infrared absorption spectroscopy, electron emission spectroscopy of simple molecules, molecular ions and free radicals, laser-induced fluorescence spectroscopy, and Raman spectroscopy, and theoretical work on atomic and molecular collisions. The work in condensed matter physics includes experimental programs in solid state nuclear magnetic resonance on systems of biophysical interest, Raman spectroscopy of lipid bilayers and membranes, studies of phase transitions using Brillouin and Raman spectroscopy, studies of instabilities and pattern formation in simple fluid dynamical systems, and spectroscopic studies of molecular crystals. Theoretical condensed matter physics research involves studies of magnetism, superconductivity, and the statistical mechanics of polymers and lipid bilayers. The Physical Oceanography group carries out field and laboratory research on several projects which take advantage of Newfoundland's unique oceanographic environment, using acoustic and other remote sensing techniques. These include studies of circulation on the Newfoundland and Labrador shelves, Labrador current dynamics, fjord dynamics, submarine canyons and sediment transport dynamics in the nearshore zone and on the shelf. Theoretical oceanographic studies involve the modelling of ocean circulation, gravity wave phenomena and other aspects of ocean dynamics. Research in theoretical geophysics is concentrated on whole-Earth dynamics, with special emphasis on the physics of the liquid core (the Earth's "third ocean") as inferred from its wave spectrum and the associated momentum transfer to the deformable solid parts of the Earth. In nuclear physics, research is done on the atmospheric concentrations of radioactive elements and on dosimetry for medical applications.

Note: For Geophysics, see Earth Sciences.
32.31 Psychology

www.mun.ca/science
www.mun.ca/psychology

Head of the Department
I. Neath

The Degree of Master of Science (M.Sc.) is offered in Experimental Psychology. Interested students should also see the Master of Science in Cognitive and Behavioural Ecology. The Degree of Doctor of Philosophy is offered in Experimental Psychology. Interested students may wish to consult the section in the Calendar describing the Doctor of Philosophy in Cognitive and Behavioural Ecology program.

32.31.1 Admission
1. All applicants are required to submit results from the General section of the Graduate Record Examinations.
2. At least one letter of reference should come from someone who is familiar with the applicant's research capability.

32.31.2 Program of Study
1. An applicant must hold either a Master's Degree or an Honours Bachelor's Degree with first class standing to be considered for admission. The program of study will be specified at the time of admission. Decisions on (a) whether to include courses in the program, and if so, (b) which specific courses are to be included will be based on the student's background and the proposed thesis topic.
2. Comprehensive Examination
The Ph.D. comprehensive in Experimental Psychology shall be taken during the first year of the student's program. The examination will consist of two parts: (1) an essay, the topic of which is different from the subject of the thesis, and (2) an oral examination which tests the candidate's ability to integrate the essay into the broad area of Psychology. The essay topic will be assigned by the Examining Committee in consultation with the student and Supervisor. The essay should not be a précis of the literature, but a critical appraisal of a subject. This should identify important unresolved issues, and where possible suggest solutions to them.

32.31.3 Courses
A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the Department will allow.

6000 Advanced Statistics in Psychology
6001 Research Design
6010 Colloquium Series in Psychology (repeatable, non-credit)
6100-6130 Special Topics in Experimental Psychology
6200 Learning I
6201 Learning II
6203 Behavioural Pharmacology
6210 Behavioural Analysis of Toxins
6351 Behavioural Ecology and Sociobiology (cross-listed as CABE 6351)
6400 Theory and Methods in Social Psychology
6401 Social Cognition
6402 Group Processes
6403 Program Evaluation and Applied Research
6404 Project in Applied Social Psychology (This course is open only to students in the Master of Applied Social Psychology. )
6500 Developmental Psychology I
6501 Developmental Psychology II
6502 Developmental Changes During Old Age
6700 Perception
6710 Human Information Processing
6720 Human Memory
6800 Behavioural Neuroscience I
6801 Behavioural Neuroscience II
6810 Psychometrics
6910 Personality
6990 Doctoral Seminar I
6991 Doctoral Seminar II
6992 Doctoral Seminar in Cognitive and Behavioural Ecology (cross-listed as CABE 6992)
699A/B Core Graduate Seminar in Psychology

32.32 Social Work

www.mun.ca/socwrk

Professor and Dean
D. Hardy-Cox

32.32.1 Program of Study
The degrees of Master of Social Work and Doctor of Philosophy are offered in Social Work.
Course work commences in the Spring Semester and is completed over five semesters. The program includes two Spring Semester residencies, at which time students must attend on a full-time basis, and Fall and Winter semester courses which can be taken on or away from campus.
1. An applicant for admission to the Ph.D. program in Social Work must hold a Master's Degree in social work, or equivalent professional social work Degree as determined by the Graduate Studies Committee of the School of Social Work. All applicants should also have a minimum of three years post-B.S.W. practice experience.
2. All Ph.D. students in the social work program must complete at least 24 credit hours in regulation graduate courses. These include:
3. Comprehensive Examination

a. A candidate registered in a Ph.D. program in Social Work shall normally take the Comprehensive Examination no later than the seventh semester in the program. Prior to proceeding to the Comprehensive Examination, candidates must have completed all required course work and the internship.

b. The Examination Committee shall be appointed by the Dean of Graduate Studies on the recommendation of the Dean (School of Social Work). It shall consist of:
   i. the Ph.D. Program Co-ordinator who will serve as representative of the Dean of the School of Social Work and who shall occupy the Chair
   ii. the candidate's Supervisor
   iii. the Dean of Graduate Studies or delegate
   iv. three other members recommended by the Dean of the School of Social Work. One of these normally will be on the candidate's Supervisory Committee.

   Including the Supervisor, no more than two members of the Examination Committee may be nominated from the candidate's Supervisory Committee. All members of the Examination Committee, including the Chair, but excluding the Dean of Graduate Studies or delegate, shall be voting members.

c. The Ph.D. Comprehensive Examination in Social Work will consist of a written paper and an oral defence. In the paper, the student will contextualize her/his substantive area using theories that inform social work and develop a research design relevant to this substantive area. The student will demonstrate a contextualized and in-depth understanding of the philosophical and theoretical frameworks informing the student's substantive area, including major critiques from competing theoretical, philosophical and historical understandings. In addition, the paper will demonstrate a thorough understanding of relevant methodological considerations and a justification for the choices made within the research design. The student will identify an area of empirical research that may be undertaken and will prepare a written paper that includes: an introduction of the substantive area and a formulation of the research question; a literature review that is consistent with the question, and which both presents a critical evaluation of the theoretical and research literature and synthesizes this literature into the student's own theoretical framework; a research design for answering the research question, including a critical analysis of the chosen methodology as well as the methods of data collection, data analysis and ethical considerations. The focus and content of the written work will be defined by the Examination Committee in consultation with the student and will be approved by the Chair of the Ph.D. Program in the School of Social Work. The body of the paper will be no less than 50 pages and not more than 75 pages. It shall be defended orally. The student shall have 13 weeks to submit the paper for examination, following the comprehensive exam process approved by the Ph.D. Studies Committee.

d. The Ph.D. examination procedure shall be initiated by the candidate's Supervisor who will notify, in writing, the Dean (School of Social Work) of the candidate's readiness. The candidate's Examination Committee will then be appointed according to section 3.b. (above).

e. Following the oral defence, the Examination Committee shall meet in camera to arrive at its conclusions. Evaluation of the candidate will be based on the following criteria:
   i. demonstration of knowledge of social work theory, research, and issues relevant to the topic of inquiry in both the written and oral presentation.
   ii. coherency of oral presentation and written paper (i.e. conceptualization, cogent argumentation, sufficient referencing of statements, clear writing style).

f. The Chair shall report the results of the examination to the Dean of Graduate Studies in accordance with General Regulation Comprehensive Examinations, Ph.D. Comprehensive Examination, 4.

4. Ph.D. Thesis

a. A Supervisory Committee will be appointed for each student as indicated under the General Regulation Supervision.

b. The candidate must submit a thesis proposal to the Supervisory Committee based on her/his own interest, and normally the proposal must be approved by the end of the eighth semester of the program. The proposal will be circulated to the Supervisory Committee for critical evaluation. The Chairperson of the Supervisory Committee will inform the candidate within one month of its acceptance, rejection, or acceptance with recommended changes.

c. If the proposal is not acceptable, the candidate will normally be permitted a second attempt. The revised proposal must be submitted within a semester. Failure to resubmit within this time period will lead to termination of the candidate's program.

d. The thesis shall give evidence of the candidate's ability to carry out independent and original research, develop the necessary theoretical and methodological framework and analyses and present the findings in a scholarly manner.

32.32.2 Courses

The following courses that are offered during the spring semester residency will be offered every other year, as far as the resources of the School will allow.

7010 Philosophical and Historical Base of Social Work Practice (S*)
7020 Critical Thinking for Social Work Practice (S)
7310 Tutorial on Field of Practice (F** or W***)
7320 Tutorial in Advanced Social Work Practice (S)
7411 Philosophy of Science and Research Design (S)
7421 Qualitative Data Analysis (S)
7431 Quantitative Data Analysis (S)
7510 Social Work Education (S)
7910 Internship on Advanced Social Work Practice (F)
7920 Internship on Social Work Education (F)
7930 Internship on Applied Social Work Research (F)

*S = Spring Semester, **F = Fall Semester, ***W = Winter Semester
32.33 Sociology

www.mun.ca/arts
www.mun.ca/soc

Associate Professor and Head of the Department
A. Craig

The Doctor of Philosophy (Ph.D.) is offered in Sociology by full-time and part-time study. Graduate courses are taught as tutorials or small seminars.

32.33.1 Program of Study

1. The Ph.D. degree in Sociology is offered in accordance with General Regulations and current department strengths.
2. To be admitted to the program an applicant must have completed either a Master of Arts or Master of Philosophy Degree or hold an equivalent qualification.
3. All Ph.D. candidates normally complete a minimum of 12 credit hours in graduate courses in Sociology, including the Sociology Graduate Seminar (6880), Social Theory (6150), Advanced Quantitative Methods (6040), and Advanced Qualitative Methods (6041), if these or equivalent courses have not been taken previously.

The supervisory committee in consultation with the Head or Graduate Officer will determine which additional courses, if any, may be required to ensure that candidates undertake appropriate course work in their area of research.
4. Proficiency in a second language will be required when the candidate's supervisory committee determines that knowledge of this second language is necessary for the purpose of the proposed doctoral research.
5. A written comprehensive examination, followed by a supplementary oral examination, shall normally be completed by full-time students by the end of the 5th semester of the program. Normally, part-time students shall take the examination within one year of the completion of prescribed courses. In accordance with General Regulations, Comprehensive Examinations, candidates must demonstrate knowledge of their special areas of research within the context of the discipline of Sociology. The examination shall consist of two components: a written and an oral examination. The written component shall be comprised of two essays: one in a broad area (e.g. theory, methods, social inequality, etc.) and a second in the candidate’s area of specialization. The oral component will examine the candidate in areas covered by the written component.
6. No more than two years after having been admitted to the program the candidate must submit a thesis proposal that is considered satisfactory by the Supervisory Committee.

32.33.2 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the Department will allow.
6040 Advanced Quantitative Methods
6041 Advanced Qualitative Methods
6042-49 Special Topics in Advanced Sociology
6090-94 Special Area in Sociology
6120 Social Organization
6130 Social Stratification
6140 The Community
6150 Social Theory
6160 Theory Construction and Explanation in Sociology
6240 Sociology in Medicine
6280 Social and Economic Development
6300 Maritime Sociology
6310 Political Sociology
6320 Gender and Society
6330 Science and Technology
6340 Comparative North Atlantic Societies
6350 Environmental Sociology
6360 Sociology of Work
6370 Feminist Theory and Methods
6380 Women, Nature, Science and Technology
6390 Sociology of Culture
6610 Socialization
6620 Current Topics in Social Behaviour
6880 Sociology Graduate Seminar

32.34 Theoretical Physics

www.mun.ca/science
www.mun.ca/math
www.mun.ca/physics

Board of Studies
Dr. I. Booth, Department of Mathematics and Statistics - Chair
Dr. I. Afanassiev, Department of Physics and Physical Oceanography
Dr. C. Radford, Department of Mathematics and Statistics
Dr. J. Whitehead, Department of Physics and Physical Oceanography

32.34.1 General Information

1. The Theoretical Physics Program is an interdisciplinary Doctor of Philosophy program offered jointly by the Department of Mathematics and Statistics and the Department of Physics and Physical Oceanography. It is broadly based and includes several subdisciplines with the common denominator that each applies advanced mathematical techniques to the study of physical problems. The subdisciplines include, though are not necessarily limited to, theoretical astrophysics, general relativity, partial differential equations of mathematical physics, quantum mechanics, classical and quantum field theory, theoretical condensed matter physics, many-body theory, advanced classical mechanics and non-linear processes, and theoretical and geophysical fluid
mechanics.

2. The program is administered by the Board of Studies which is appointed by the Dean of Science in consultation with those faculty members active in the program. The Board of Studies will consist of two members from the Department of Physics and Physical Oceanography and two members from the Department of Mathematics and Statistics. The Program Chair is elected by the Board of Studies and appointed by the Dean of Science. Responsibilities of the Board include making recommendations to the School of Graduate Studies concerning admissions to the program, determining course requirements, and administering comprehensive exams. It also determines minimum levels of funding, administers the School of Graduate Studies and Graduate Teaching Assistant budgets, and monitors students' annual progress through the submission of annual supervisory committee reports.

32.34.2 Program of Study

The following regulations should be read in conjunction with the General Regulations:

1. A program of study for the Ph.D. Degree in Theoretical Physics shall normally include a minimum of 9 graduate credit hours in courses offered by the Department of Mathematics and Statistics and/or the Department of Physics and Physical Oceanography. The courses will be determined by the student's supervisory committee in consultation with the Program Chair and approved by the Board of Studies. In special circumstances more or fewer graduate courses and/or undergraduate courses may be required.

2. Students are required to pass a single Comprehensive Examination as prescribed under Comprehensive Examinations, Ph.D. Comprehensive Examination. This shall be an oral one, and may include the presentation of a written research proposal.

3. The most important requirement is the writing of a doctoral thesis which demonstrates the student's ability to independently and originally attack and solve a significant problem in theoretical physics. The thesis must definitely advance the subject which it treats.

33 Regulations Governing the Degree of Doctor of Psychology

www.mun.ca/science
www.mun.ca/psychology

Administrative Committee
Dr. C. Arlett, Department of Psychology - Co-Director
Dr. J. Carter-Major, Department of Psychology - Co-Director
Ms. B. Cater, Eastern Health
Dr. S. Edison, Association of Newfoundland Psychologists
Dr. O. Heath, University Counselling Centre
Dr. E. Whalen, University Counselling Centre

The Doctor of Psychology (Psy.D.) degree in clinical psychology is offered by the Department of Psychology in partnership with the University Counselling Centre. This program is designed to prepare clinical psychologists to provide a variety of psychological services to individuals, families and communities.

33.1 Administration

1. The Director, who must be a registered Psychologist and hold a full-time faculty position in the Department of Psychology at Memorial University of Newfoundland, is appointed by the Head of the Department of Psychology following a consultative process that includes the faculty most directly associated with the Psy.D. program.

2. The Psy.D. Administrative Committee consists of the Director and representatives from academic units involved in the program, Eastern Health, the Association of Newfoundland Psychologists and the Psy.D. student body. The Head of the Department of Psychology, on the recommendation of the Director, appoints Committee members. The student representative is elected by the Psy.D. students.

3. The Psy.D. Administrative Committee is chaired by the Director, and is the main body for developing and monitoring policy, procedures, and program content. The administrative committee makes recommendations concerning admission and termination, financial support, thesis and comprehensive committees, and thesis topics and examiners. The Committee oversees individual student programs of study and monitors their annual progress.

33.2 Admission Criteria

1. Students with Master's level degrees who wish to be considered for the program must have completed the undergraduate degree in Psychology and the undergraduate course requirements described below.

2. Applicants are required to have an undergraduate Honours degree in psychology that includes an Honour's thesis as well as courses in each of the following areas:
   a. abnormal psychology
   b. cognition
   c. developmental psychology
   d. history and systems
   e. learning theory
   f. neuroscience
   g. research design
   h. social psychology
   i. statistics

3. Admission to the program is competitive. Applicants will be ranked according to academic aptitude, personal and interpersonal competence, clinical and professional potential, and availability of a supervisor. The application shall include academic transcripts, results of the Graduate Record Examination (verbal, quantitative and analytical subtests), three letters of recommendation and a statement of interests and objectives. One letter of recommendation must specifically address the suitability of the applicant for clinical work. Applicants who are short-listed will be interviewed, either in person or via telephone. Work experience, research experience, extra-curricular activities, and clinically relevant public service will be taken into consideration.
33.3 Program of Study

Students are required to successfully complete at least 66 credit hours in regulation graduate courses. These include:

a. 9 credit hours in statistics and research design courses (6000, 6001, 6602);

b. 30 credit hours in core courses (6611, 6612, 6613, 6620, 6623, 6630, 6631, 6632, 6633, 6650); and

c. 27 credit hours in practicum courses (7010, 7020, 7021, 7030, 7031, 7032, 7033, 7034, 7035).

Students must also complete a year-long internship, pass a comprehensive exam and successfully complete a research thesis.

33.3.1 Comprehensive Examination

The Psy.D. comprehensive exam, consisting of a written and an oral component, shall be taken during the third year of the program. The exam is intended to demonstrate clinical application of the knowledge acquired through course work and practica. The comprehensive exam will be administered according to the guidelines prescribed in the University Calendar for Ph.D. comprehensive examinations.

33.3.2 Thesis

Students will complete a thesis that is applied in nature and relevant to the practice and science of clinical psychology and the communities it serves. The School of Graduate Studies General Regulations, Evaluation of Ph.D. and Psy.D. Theses concerning evaluation of Ph.D. theses will be followed.

33.3.3 Pre doctoral Internship

All students will be required to complete a twelve-month, 1750 clock-hour predoctoral internship.

33.4 Courses

- 6000 Advanced Statistics
- 6001 Research Design
- 6602 Research Design in Clinical Psychology
- 6611 Ethics of Professional Practice
- 6612 Adult Psychopathology
- 6613 Child Psychopathology
- 6614 Selected Topics in Psychopathology
- 6620 Principles of Adult Assessment and Diagnosis
- 6621 Principles of Child Assessment and Diagnosis
- 6622 Selected Topics in Assessment and Diagnosis
- 6623 Child Psychopathology, Assessment and Diagnosis
- 6630 Principles of Intervention with Adults
- 6631 Principles of Intervention with Children
- 6632 Community Interventions
- 6633 Clinical Psychopharmacology
- 6634 Selected Topics in Intervention
- 6640 Consultation Processes
- 6650 Supervision
- 6660-6669 Special Topics in Clinical Psychology
- 7010 Practicum in Ethics and Relationship Skills
- 7020 Practicum in Adult Assessment and Diagnosis
- 7022 Practicum in Child Assessment and Diagnosis
- 7030 Practicum in Assessment and Intervention I
- 7031 Practicum in Assessment and Intervention II
- 7032 Practicum in Community Intervention and Interprofessional Practice
- 7033 Practicum in Advanced Assessment and Intervention I
- 7034 Practicum in Advanced Assessment and Intervention II
- 7035 Practicum in Rural Intervention and Interprofessional Practice
- 7050 Practicum in Supervision I
- 7051 Practicum in Supervision II

The Memorial University of Newfoundland Code

The attention of all members of the University community is drawn to the section of the University Calendar titled The Memorial University of Newfoundland Code, which articulates the University's commitment to maintaining the highest standards of academic integrity.

2 Student Code of Conduct

Memorial University of Newfoundland expects that students will conduct themselves in compliance with University Regulations and Policies, Departmental Policies, and Federal, Provincial and Municipal laws, as well as codes of ethics that govern students who are members of regulated professions. The Student Code of Conduct outlines the behaviors which the University considers to be non-academic misconduct offenses, and the range of remedies and/or penalties which may be imposed. Academic misconduct is outlined in UNIVERSITY REGULATIONS - Academic Misconduct in the University Calendar.

For more information about the Student Code of Conduct, see www.mun.ca/student/conduct/conduct.php.

3 General Information

Various types of awards are available to students of Memorial University of Newfoundland. Included are scholarships, bursaries, fellowships, studentships, prizes, medals and loans.

A scholarship is based on academic performance and is awarded to the student with the highest average meeting the conditions of the scholarship. Scholarship standing is required for all scholarships.

A bursary is based primarily on financial need and may be awarded to full-time students who have a minimum GPA of 2 (out of a possible 4) and meet the other conditions of the bursary.

An award is offered to recognize special achievements or to assist with special projects or travel. Awards may be given to students with a minimum of clear standing (as defined by the University) and meeting the other conditions of the award.

A grant is an award for which need is a prime consideration, normally with the provision that the recipient be, or remain, in good academic standing. Grants are issued at the discretion of the Director of Student Success Programs, Student Affairs and Services.

Loans are granted to students on an "ad hoc" basis with need being the prime consideration. Loans are normally repaid before the commencement of subsequent semester. Interest is charged on outstanding loans. Administration of loans is at the discretion of the Director of Student Success Programs, Student Affairs and Services.

Some scholarships and awards may be held for more than one year, but are usually renewable only if the student maintains scholarship standing and first class standing.

Entrance scholarships are awarded for the Fall semester. Revised High School transcripts will only be considered for entrance scholarships up to the last day of September of the student's entering year.

Unnecessary noted, entrance scholarships are open to Canadian citizens and permanent residents graduating from secondary school who are admitted to Memorial University of Newfoundland on the basis of high school grades and current entrance standards and who meet the current definition of scholarship standing. They are also open to students in the above category who may not be coming directly from high school. This is limited to those who have previously graduated from high school, are admitted to the University on the basis of high school grades and current entrance standards and who meet the current definition of scholarship standing.

Distinct undergraduate entrance scholarships are available for international students. These scholarships are awarded to international undergraduate students who are entering Memorial University of Newfoundland. They are academic based, and the monetary value is between $3000 and $4400. Students do not need to apply for these scholarships; they are automatically considered when they apply to the University. These scholarships have been established by Memorial University of Newfoundland as part of an agreement by the Board of Regents, in May 2003, that a portion of the tuition fees for international undergraduate students would be set aside for international scholarships. To be considered for these scholarships, a student must be eligible to pay the full international undergraduate fee, must register for at least 9 credit hours in each of two semesters in their first academic year at Memorial University of Newfoundland, should normally have fewer than 31 credit hours of transfer credits and meet scholarship standing (comparable to that prescribed for Newfoundland and Labrador and Canadian applicants). These scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of a recommendation from the Director, Office of Student Recruitment.

International Students are eligible for continuing undergraduate scholarships offered through Memorial University of Newfoundland assuming they meet the specific criteria. Most scholarships require students to be in scholarship standing. See definition of scholarship standing below.

Scholarship standing for undergraduate entrance scholarships (who are Canadian citizens or permanent residents graduating from secondary schools within Canada) is defined as a 75% average compiled from the final grades received in secondary school courses required for University admission. Students in level three who, have a 90% or higher average on 3000 level credits from the list of courses covered under UNIVERSITY REGULATIONS - Admission/Readmission to the University (Undergraduate), Applicants Who Have Followed the High School Curriculum of the Newfoundland and Labrador, may be provisionally offered scholarships. Students graduating from High Schools in other provinces in Canada may be eligible based on corresponding criteria from their provincial secondary program. The provisional offer will remain in effect until University admission averages are determined.

Scholarship standing for undergraduate students is defined as a 75% average at the end of two out of the last three semesters in the previous scholarship year and the successful completion of not less than 30 credit hours in those two semesters. In considering students who complete more than 30 credit hours in those two semesters, the average on the actual number of credit hours taken will be reviewed. Students who fail one or more courses during the scholarship year, regardless of the number of courses completed, will not be eligible for scholarships.

For Co-op students who do not meet the above definition because of scheduled work terms, scholarship standing is defined as a 75% average over the most recent two academic semesters in the preceding four semesters in which they must have been enrolled as regular full-time Co-op students. Those who fail an academic course or work term during the four semester period will not be eligible for scholarships.

Not all students who meet the above definitions of scholarship standing will receive a scholarship.
Students transferring to Memorial University of Newfoundland from Universities/Colleges in Canada which are members of the Association of Universities and Colleges of Canada (AUCC) and who meet scholarship standing as defined by Memorial University of Newfoundland will be eligible for undergraduate scholarships in the year in which they transfer. Such students must notify the Scholarships, Bursaries and Awards Office in writing of their intention to transfer and provide a complete transcript for the year in question.

Awards must be taken during the scholarship year for which they are awarded and the student must be registered full-time or in a recognized work term in order to receive their scholarship, unless stated otherwise in the terms of reference. The scholarship year runs from May 1st - April 30th.

A student may receive in any one scholarship year, one general scholarship/bursary/award (i.e. not based on a recommendation from an academic unit) administered by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. Students who have received a general scholarship/bursary/award, may receive additional academic unit scholarship(s)/bursary(s)/award(s) (i.e. those based on a recommendation of the appropriate academic unit) administered by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. In the latter case academic units are encouraged, wherever possible, to maximize the number of students who will benefit from the scholarship program.

Students who have obtained scholarship standing as defined above need not apply for general scholarships. Inquiries from students with special circumstances and/or concerning scholarships with special terms should be referred to the Scholarships, Bursaries and Awards Office, University Centre, Room 4018, or by telephone to (709) 864-3956.

Students attending the Grenfell Campus in Corner Brook are eligible for all General Scholarships. Scholarship inquiries may be made at the Student Affairs Office, Grenfell Campus or the Scholarships, Bursaries and Awards Office.

Students wishing to apply for awards administered by other authorities should consult the appropriate section of the Scholarships, Bursaries and Awards portion of the Calendar and/or the Scholarships, Bursaries and Awards Office.

Information on these and other post-secondary scholarships, awards, and bursaries is available at www.mun.ca/scholarships.

In addition to undergraduate awards listed herein, limited information is included concerning Studentships, Fellowships and Graduate Awards. Further inquiries may be made to the Scholarship Committee, though students are advised to consult the Heads of the Departments, the Dean of the Faculty or the Dean of Graduate Studies concerning these particular awards.

3.1 Government Assistance

The Government of Canada and the Government of Newfoundland and Labrador work together to provide student financial assistance to residents of the Province. Students who have a demonstrated financial need may, upon application, receive financial support from the Canada-Newfoundland and Labrador Student Financial Assistance Program. Students are encouraged to apply online at www.gov.nl.ca/studentaid/ and to apply early. For further information see Loan Funds.

4 Scholarships, Bursaries, and Awards Administered By the Senate Committee on Undergraduate Scholarships, Bursaries and Awards for Which Entrance Students May Qualify

Anthony Insurance Entrance Scholarship

This scholarship is the result of a generous endowment to Memorial University of Newfoundland by Anthony Insurance in memory of Robert C. Anthony, founder of Anthony Insurance Inc. and the Insurance Corporation of Newfoundland. Mr. Anthony, an inductee of the Newfoundland and Labrador Business Hall of Fame, started his career as a teacher in rural Newfoundland and placed great emphasis on the value of education. The scholarship is intended to help a deserving, high-school graduate attend Memorial University of Newfoundland who would otherwise find it difficult due to financial considerations. The value of the scholarship is full-time tuition for one semester. Eligible candidates must have graduated from a Newfoundland and Labrador high school with a minimum of 75% in Level III courses and must intend to enroll at Memorial University of Newfoundland on a full-time basis. Additional scholarships may be awarded annually as endowment fund growth permits. These scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

The Arnold’s Cove, Come By Chance, North Harbour Fishers and Newfoundland Transshipment Scholarship

This scholarship was established by Newfoundland Transshipment Limited (NTL) as part of an agreement between them and the Fisheries Liaison Committee (FLC) of the Arnold’s Cove, Come By Chance and the North Harbour area. This scholarship, valued at the annual interest on the initial endowment to a maximum of $500 per student, will be awarded on the basis of scholarship standing to a Fisher or his/her descendant(s) who is registered as a full-time student at Memorial University of Newfoundland in any year or field of study. In the event that no applicants are received from Fishers or Fishers’ descendants in a given year, the scholarship may be awarded to another student from above noted geographic areas. Eligibility of applicants under the above criteria will be verified by the Fisheries Liaison Committee (FLC), Memorial University of Newfoundland is encouraged to ensure that the scholarship is alternated between communities and their eligible students. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of an application which may be obtained from the Scholarships, Bursaries and Awards Office, Rm. 4018, Smallwood Centre, Memorial University of Newfoundland, A1B 5S7. Completed applications must be returned to the FLC for appropriate verification.

Ken Ash Entrance Scholarship

This entrance scholarship was established by a donation from the family of Ken Ash. Mr. Ash was a graduate of James Moore Central High School in Carbonear (now Carbonear Collegiate). He devoted his shortened life to the radio industry and was especially supportive of local artists and their music. The scholarship is based on his spirit of generosity that was portrayed in every aspect of his life. Value at $1000, it will be awarded annually to a student from Carbonear Collegiate entering first year at Memorial University of Newfoundland. Preference will be given to students with demonstrated financial need. Recipients must meet the minimum academic requirements for a scholarship. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

The Mary L. (Mollie) and Peter T. Bailey Memorial Scholarship

This scholarship, donated by the family of the late Mary L. (Mollie) and Peter T. Bailey, has a value of at least $500.00. It is open to students entering first-year studies who are required to move away from home to attend Memorial University of Newfoundland. In making the award, scholarship standing and need will be considered.

Leah Bailey Powers Memorial Scholarship

This entrance scholarship was created in loving memory of Leah Bailey Powers who passed away in 2009 at the age of nineteen. Leah excelled academically and was an energetic and spirited student leader. As Student Council President of Holy Heart of Mary Regional High, she inspired and motivated her peers to become active in their school community. Leah’s leadership activities continued in her first year at Memorial University of Newfoundland where she became a passionate and dedicated volunteer to promote social justice with
Engineers Without Borders. This scholarship will be valued at a portion of the income on the endowment and will be awarded annually. This scholarship will be given to a student graduating from Holy Heart of Mary Regional High in St. John’s who is entering his/her first year of studies in any discipline at Memorial University of Newfoundland. This scholarship may be held in addition to other scholarships and will be awarded only to applicants who embody the same spirited and enthusiastic leadership qualities that Leah demonstrated in motivating and inspiring inclusiveness in student and community activities and organizations, as nominated by Holy Heart of Mary Regional High. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of Holy Heart of Mary Regional High.

The Baird-Stephenson Scholarship
This Scholarship, valued at $1,000.00 is to be awarded annually to a Memorial University of Newfoundland student in any year or field of study. It is named for Mrs. Edna Baird-Stephenson and her late husband, both of whom were former members of Memorial University of Newfoundland’s faculty. The Scholarship will be awarded on the basis of academic excellence.

Baker Family Foundation Entrance Scholarship
This entrance scholarship was established by a generous donation from Mr. John Allan Baker, Mr. Paul Cyril Roy Baker, Mr. David Stephen Baker and Ms. Heather Alice Baker of Desire2Learn to honor their parents, Mr. Stephen James Baker and Mrs. Patricia Alice Jane Baker (Sheppard), both graduates of Memorial University of Newfoundland, and his grandfather, Mr. Cyril Lester Sheppard, who graduated from Memorial University College. Valued at a portion of the income of the investment, the scholarship will be awarded to a graduate of Pearson Academy, Wesleyville, Newfoundland who is entering their first year studies at Memorial University of Newfoundland. If there is no eligible student from Pearson Academy, preference will be given to a student from (a) Elwood Regional High School, Deer Lake, Newfoundland (b) Exploits Valley High, Grand-Falls Windsor, Newfoundland, respectively. The recipient must meet the minimum academic requirements for a scholarship as defined by Memorial University of Newfoundland. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

The Patricia Baker (Sheppard) Entrance Scholarship
This scholarship was established by a generous donation from Mr. John Allan Baker, Mr. Paul Cyril Roy Baker, Mr. David Stephen Baker and Ms. Heather Alice Baker of Desire2Learn to honor their parents, Mr. Stephen James Baker and Mrs. Patricia Alice Jane Baker (Sheppard), both graduates of Memorial University of Newfoundland, and their grandfather, Mr. Cyril Lester Sheppard, who graduated from Memorial University College and was a strong community builder in Cormack, Newfoundland and Labrador. It is also to honor the extended Sheppard family who have been educators and community builders in the region. Valued at a portion of the income on the endowment, the scholarship will be awarded to a student entering first year studies at Memorial University of Newfoundland. First preference will be given to a graduate of Elwood Regional High School from Cormack, NL. If there is no eligible student from Cormack, the scholarship will be open to any graduating student from Elwood Regional High School. In both cases the selection will be based on demonstrated financial need and candidates will be recommended by the Principal of Elwood Regional High School. In the event there is no eligible student from Elwood Regional High School, preference will be given to a student from (a) Wesleyville, NL, (b) Grand Falls-Windsor, NL respectively, on the basis of scholarship standing. In all cases the recipient must meet the minimum academic requirements for a scholarship as defined by Memorial University of Newfoundland. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

The Warren and Catherine Ball Memorial Entrance Scholarship
This scholarship was established in 2005 by a generous donation from the estate of Dr. and Mrs. Ball. The endowment will provide scholarship at the value of $7,500.00 per annum for up to four years of study to students entering Memorial University of Newfoundland for the first time. The number of the annual scholarships will be based on a portion of the annual income, as per the Awards Program Spending Policy. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing.

The Donald M. Balsom Award
The Newfoundland Brain Injury Association (NBIA) has established this award to honour Donald M. Balsom, former Associate Director of Memorial University of Newfoundland’s School of Continuing Education and brain injury survivor. Valued at $500.00, it will be awarded annually to a brain injured undergraduate student who is registered either part-time or full-time, in any year of field of study at Memorial University of Newfoundland, who has some volunteer experience with the NBIA and who is in clear academic standing at the University. In the event that no applications are received from brain injured students the award may be given to a student who has made a significant contribution as a volunteer to the Brain Injured Association. In special circumstances, the award may be held for more than one year. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards in consultation with NBIA as needed.

Bank of Montreal Scholarship
These scholarships are the result of a generous endowment to Memorial University of Newfoundland by the Bank of Montreal. Interest on the fund will provide several scholarships to full-time students entering Memorial University of Newfoundland in any field of study who have scholarship standing and demonstrated financial need. These scholarships will be valued at two semesters tuition for five courses. They are renewable for up to four years provided the candidate(s) maintains first class and scholarship standing.

The Glenn Roy Blundon Memorial Scholarship
This scholarship, valued at $500.00, has been established by the family, friends and fellow students of the late Glenn Roy Blundon, a former student of Memorial University of Newfoundland who, despite his severe physical disability, succeeded in his studies and made a significant contribution to student life. In the awarding of this scholarship, preference will be given to academically qualified students with disabilities but those enrolled in the Special Education Program may be considered when no candidates are available from the first group. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships.

The Gary Bourne Memorial Scholarship
This scholarship is the result of an endowment to the University funded largely by donations resulting from fundraising efforts of Gary’s colleagues at the Office of Financial and Administrative Services. Valued at a portion of the annual accrued interest on the endowment it will be awarded on the basis of scholarship standing to an undergraduate student (a) graduate of the School of Business, College of Engineering, School of Education, School of Human Kinetics and Recreation, School of Human Resources and Social Work, School of Information Studies, School of Science and Technology, School of Tourism and Hospitality Studies, or School of Veterinary Medicine, who is a dependent of a current, retired or deceased staff member of Memorial University of Newfoundland. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships.

The Edward Patrick Browne Memorial Scholarships
In his will, Edward Browne, a distinguished and beloved member of the University community, and a life-long supporter of the growth and development of the sport of basketball at provincial and national levels, left a bequest to Memorial University of Newfoundland for the awarding of scholarships to students. These scholarships are awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the advice of the Dean of the School of Human Kinetics and Recreation.

The Jo Anne Butler Entrance Scholarship
This scholarship has been made available to the Memorial University Of Newfoundland, through the generosity of Fairfax Financial Holdings Limited in honour of Jo Anne Butler. This scholarship will be awarded annually to an undergraduate student entering the first year of an academic program at Memorial University of Newfoundland. It will be valued at $5,000.00 per year. Eligible students must be
Canadian citizens or permanent residents, graduating from a Canadian secondary school or CEGEP, who demonstrate financial need and have achieved a minimum final admission average of 80%. Outstanding achievements or commitments in community and/or other extra curricular activities may also be considered. The scholarship is renewable for up to four additional years if scholarship standing is maintained. Renewal will also be dependent on continuation of full-time enrollment in the undergraduate program in which the recipient began and he/she must not already have received a degree. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

**Calgary Affinity Dinner Entrance Scholarship**

This scholarship was established by the Calgary Affinity Dinner Committee from proceeds of the annual Calgary Affinity Dinner. One or more scholarships, valued at a portion of the income on the endowment, will be awarded annually to students who meet the minimum academic requirements for an entrance scholarship as defined by the University. The scholarship will be administered by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

**The Greg Campbell Memorial Entrance Scholarship**

These scholarships are the result of a generous donation by Eleanor Swanson to commemorate the memory of her late husband, J. Gregory Campbell. Interest on the fund will provide two scholarships to full time undergraduate students entering first year of any faculty or school at Memorial University of Newfoundland. The scholarships will be awarded on the basis of scholarship standing and financial need.

**The William Campbell Memorial Alumni Scholarship**

This scholarship, valued at a portion of the income on the investment, will be awarded annually to a student entering any first year program offered at Memorial University of Newfoundland. The recipient must be a graduate of Menihek High School. If the selected candidate pursues the College Transfer Program at the Labrador West Campus of the College of the North Atlantic, the scholarship may be deferred for one year on the condition that the student enters Memorial University of Newfoundland the following year. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on scholarship standing as defined by the University.

**The William J. and Florence Carew Labrador Student Scholarship/Bursary**

A Scholarship/Bursary, established in 1975 by Miss Helen F. Carew, was renamed in 1990 in memory of her parents William J. and Florence Carew and is valued at $600.00 annually. The award shall be made to a student from Labrador entering Memorial University of Newfoundland. In making the award, need as well as academic standing, will be considered.

**The Roland (Rex) Carter Memorial Scholarship**

This scholarship was established in 2014 in memory of Roland (Rex) Carter, employee of the Department of Technical Services. Valued at $1,000, it will be awarded annually to students who are children, grandchildren, siblings, legal guardians, nieces, nephews or spouses of current, retired or deceased employees or former employees with a minimum of five years service in the Department of Technical Services at Memorial University of Newfoundland. Preference will be given to students entering their first year at Memorial University of Newfoundland, but all undergraduate students are eligible. The recipient must meet the minimum academic requirements for a scholarship as defined by Memorial University of Newfoundland. In the case of ties between candidates, financial need may be used as a determining factor. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of an application which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships.

**The Daniel Cleary Entrance Scholarship**

Daniel Cleary is a native of Harbour Grace, NL and a NHL hockey player who played with the Detroit Red Wings when they won the Stanley Cup in 2008. Mr. Cleary is the first resident of the province to have played on a Stanley Cup winning team. The Daniel Cleary Entrance Scholarship is established as the result of funds raised from an event, and sale of merchandise, celebrating Mr. Cleary and the Red Wings’ victory. The scholarship will be awarded annually to an entering full-time undergraduate male or female student in any program of study at Memorial University of Newfoundland. To be eligible, candidates must demonstrate scholarship standing and have participated in the highest level of minor hockey in Newfoundland and Labrador in their graduating year. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships. The scholarship is valued at a portion of the income on the endowment or $1000, whichever is greater, and will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

**The Clayton and Alice Cook Scholarship**

This scholarship has been established by Mr. Clayton D. Cook, retired Newfoundland/CN Railway Trainman. The scholarship will be valued at a portion of the income on the endowment and awarded annually. To be eligible, candidates must be enrolled full-time in an undergraduate program at Memorial University of Newfoundland, be residents of Newfoundland and Labrador (as defined by the University) and have scholarship standing. First preference will be given to candidates who are sons, daughters, grandchildren, great-grandchildren or wards of the Newfoundland/CN Railway Trainmen. When an eligible student meeting these criteria cannot be identified, second preference will be given to students enrolled in the Newfoundland Studies program. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships. Based on scholarship standing it will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

**Country Ribbon Scholarship**

This scholarship is available to dependants (sons, daughters or wards) of employees of Country Ribbon. Valued at $1,000.00 annually it will be awarded, with first preference, to an entrance student registered for full-time studies at Memorial University of Newfoundland. If no suitable candidate can be identified from the first group the scholarship may be awarded to an undergraduate student registered for full-time studies at Memorial University of Newfoundland. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships. Based on scholarship standing it will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

**The Courage Entrance Bursary**

This bursary was established in honour of John and Mary Courage. Valued at a portion of the income on the investment, it will be awarded annually to the undergraduate entrance student who has demonstrated financial need. The recipient must be from the Fortune Bay - Hermitage area and can be enrolled in any field of study. However, if there is no student from that area of Newfoundland, then it will go to a student from rural Newfoundland and Labrador, which includes: Avalon East and West, Carbonear, Clarenville (North and South), Deer Lake, Stephenville, Channel/Port-aux-Basques, Northern Peninsula and Labrador (with the exception of Goose Bay, Labrador City, and Churchill Falls - Wabush). The recipient must meet the minimum academic requirements for an entrance bursary as outlined by the University. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

**The Dr. Clarence B. Crummey Memorial Entrance Scholarship**

This scholarship is in memory of the late Dr. Clarence Crummey, Jubilee Scholar of the first graduating class of Memorial University College 1927. It is valued at a minimum of $1,000.00 annually and will be awarded to an entering student to Memorial University of Newfoundland from the Bonavista Bay area. It will be awarded based on scholarship standing.
The Reverend Doctor Levi Curtis Bursary
This bursary has a value of at least $200.00 and is awarded each year to a student who is a candidate for the ministry of the United Church, a child of a minister of the United Church, or the child of a needy United Churchman. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships.

The Charlotte Penwell Dolmount Memorial Scholarship
The scholarship is valued at $5,000, and is provided via a contribution to Memorial University of Newfoundland by Mr. Darryl Fry. It will be awarded on the basis of scholarship standing to graduates of high schools in Grand Bank and Fortune. Where possible preference will be given to students planning to do a Bachelor of Education at Memorial University of Newfoundland.

Duley Award for Labrador Aboriginal Students
This award was established by Dr. Margot I. Duley in memory of her parents. Cyril C. Duley, MBE, was a Captain of the Royal Newfoundland Regiment during World War I, a President of Rotary, and Director of Tourist Development, pre-Confederation. He encouraged geological exploration in Labrador, and Duley Lake, near Labrador City, is named after him. Florence Duley’s charitable involvements included child welfare and education. Margot Duley was born in St. John’s and received a B.A. from Memorial University of Newfoundland, an M.A. from Duke University, and a Ph.D. in history from the School of Oriental and African Studies, University of London. She is the author of “The Cross-Cultural Study of Women” (1986). The terms of the Duley Award reflect her sympathy for indigenous peoples and their struggles to retain their traditions and communities shaped to new circumstances. Valued at $500 annually, the award will be granted to undergraduate students in any year of study who are Innu, Inuit or Southern Inuit and meet the minimum academic requirements for an award as defined by Memorial University of Newfoundland. Eligible students must give evidence of leadership ability, and demonstrate a commitment to furthering Aboriginal communities, evidenced in such ways as previous community involvement, relevant field of study, and/or relevant extracurricular activities. In cases where there are equally deserving candidates, special consideration will be given to academic achievement. This award will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Selection Committee. A special application is required and may be obtained from www.mun.ca/scholarships. Completed application forms shall provide documentation that the applicant is Innu, Inuit or Southern Inuit, and include a two to three page essay outlining how the applicant has met the criteria.

The Fraser Edison Scholarship
This scholarship is the result of a donation to the Opportunity Fund in 1999 by Mr. Fraser Edison. It will be valued at the annual interest on the endowment and will be awarded to an undergraduate student who has a recognized physical disability. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships.

The Facilities Management Undergraduate Scholarship
This scholarship fund is the result of an endowment which began in 1996 as a part of the Opportunity Fund Campaign. The fund will provide one or more scholarships valued at a minimum of $500 each to students who are children, grandchildren, nieces, nephews, brothers, sisters or spouses of current or retired employees of the Department of Facilities Management, Memorial University of Newfoundland. Preference in awarding the scholarship(s) will be given to entrance students but undergraduates may also qualify. The scholarship(s) will be awarded on the basis of scholarship standing but in the case of ties between candidates, need may be used as a determining factor. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships.

The Fairfax Financial Holdings Limited Entrance Scholarship
This scholarship has been made available to Memorial University of Newfoundland through the generosity of Fairfax Financial Holdings Limited. Valued at $5000 annually, this renewable scholarship will be awarded annually to an undergraduate student entering the first year of any academic program at Memorial University of Newfoundland. Eligible students must be Canadian citizens or permanent residents, graduating from a Canadian secondary school or CEGEP, who demonstrate financial need and who have met the minimum academic standing for a scholarship. They must not have previously received a scholarship from Fairfax Financial Holdings. Outstanding achievements or commitments in community and/or other extracurricular activities may also be considered. The scholarship is renewable for up to four additional years if scholarship standing is maintained and the student continues full-time enrolment in the undergraduate program in which they began. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

Flight 491 Legacy Fund Bursary
The Flight 491 Legacy Fund Bursary is established to honour the memory of the victims of the crash of helicopter Flight 491 on March 12, 2009. The bursary, valued at a portion of the income on the endowment, is open to full-time undergraduate students with demonstrated financial need who are entering their first year of study at Memorial University of Newfoundland. It is subsequently renewable for up to three additional years of consecutive full-time study providing the recipient continues to maintain clear academic standing. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

Fortis Inc. – H. Stanley Marshall Scholarship
This scholarship is established in honour of Mr. Stanley Marshall upon the occasion of his retirement of after 35 years of service to Fortis Inc. During his time with Fortis Inc., the Corporation grew from a single utility in the province of Newfoundland and Labrador to a leader in the North American electric and gas utility business, serving customers across Canada and in the United States and the Caribbean. Valued at a portion of the income on the endowment, the scholarship will go to support undergraduate students entering a professional school or faculty at Memorial University of Newfoundland. If there is no suitable student entering Memorial University of Newfoundland, the scholarship may be awarded to a student beyond first year. If there is no eligible student in any year of a professional program, then the scholarship may be awarded to a student in a liberal arts area of study. To be eligible, candidates must have scholarship standing. Financial need may also be a consideration. The recipient must be from (in order of preference) Belize, the Turks and Caicos Islands, the Cayman Islands, or other Caribbean country. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

The Daniel Fraad Jr. Memorial Entrance Scholarship
This scholarship was established by Jack and Susan Rudin in memory of Mr. Fraad who ran Allied Aviation at Gander International Airport for many years before his death. Valued at a minimum of $3,000, it will be awarded annually to an entrance student(s) on the basis of scholarship standing.

The Dr. G.A. Frecker Memorial Alumni Bursaries
The Memorial University of Newfoundland Alumni Association has established, from its Annual Fund, five bursaries named in honour of the late Dr. G.A. Frecker, Chancellor, Memorial University of Newfoundland, 1971-79, and valued at $500.00 each. Four of the bursaries
are tenable at the St. John's campus and one at the Grenfell Campus at Corner Brook. The bursaries will be awarded annually to full-time students in any faculty or year on the basis of academic standing and financial need.

The Clarice Diamond Fry Memorial Scholarship

The scholarship is valued at $5,000, and is provided via a contribution to Memorial University of Newfoundland by Mr. Darryl Fry. It will be awarded on the basis of scholarship standing to graduates of high schools in Glovertown and Eastport. However, preference will be given to students who are residents of Glovertown. Where possible preference will be given to students planning to do a Bachelor of Education degree at Memorial University of Newfoundland.

Fry Family Foundation St. John Bosco Scholarship

One or more scholarships valued up to $5,000.00 annually, will be awarded to Level III students from Shea Heights or Blackhead, NL. In awarding the scholarship academic achievement will be considered. The scholarship will be awarded to students who plan to attend Memorial University of Newfoundland in the fall semester immediately following their completion of high school. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

The Fry Family Foundation St. John’s Community Centres Exceptional Achievement Entrance Scholarship

This scholarship was established by the Fry Family Foundation, a U.S.-based organization, founded and funded by Darryl and Marlene (nee Sellars) Fry, who were born and educated in St. John’s, Newfoundland and Labrador. Valued at $5,000, one or more scholarships will be awarded annually to a student graduating from Grade 12, who is living in the area served by one of the five St. John’s Community Centres (Buckmaster’s Circle, MacMorran, Froude Avenue, Rabbittown and Virginia Park), and will be based on scholarship standing, specifically that applicants have maintained an overall average of 90% or more at mid-term. The applicant must plan to enroll in first year studies at the Fisheries and Marine Institute of Memorial University of Newfoundland, the Marine Institute, the College of the North Atlantic, the Fry Family Foundation and the five executive directors of the St. John’s Community Centres. The number of scholarships awarded annually at Memorial University of Newfoundland will depend on the application. The scholarships will be awarded to students who choose to attend Memorial University of Newfoundland (excluding the Marine Institute) will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on the recommendation of the Selection Committee. Scholarships to students who choose to attend the Marine Institute will be awarded by the Marine Institute Scholarship Committee.

The Fry Family Foundation St. John’s Community Centres Memorial University Entrance Scholarship

This scholarship was established by the Fry Family Foundation, a U.S.-based organization, founded and funded by Darryl and Marlene (nee Sellars) Fry, who were born and educated in St. John’s, Newfoundland and Labrador. Valued at $5,000, one or more scholarships will be awarded annually to a single parent, or a student graduating from Grade 12, who is living in the area served by one of the five St. John’s Community Centres, and will be based on scholarship standing, volunteerism and participation in school and community activities. Applications will be accepted by the executive directors of the respective St. John’s Community Centres and the recipients chosen by a Selection Committee comprised of representatives from Memorial University of Newfoundland, the Marine Institute, the College of the North Atlantic, the Fry Family Foundation and the five executive directors of the St. John’s Community Centres. The number of scholarships awarded annually at Memorial University of Newfoundland will depend on the application. The scholarships will be awarded to students who choose to attend Memorial University of Newfoundland (excluding the Marine Institute) will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on the recommendation of the Selection Committee. Scholarships to students who choose to attend the Marine Institute will be awarded by the Marine Institute Scholarship Committee.

The Fry Family Foundation St. John’s Community Centres Post-Secondary Entrance Scholarship

This scholarship was established by the Fry Family Foundation, a U.S.-based organization, founded and funded by Darryl and Marlene (nee Sellars) Fry, who were born and educated in St. John’s, Newfoundland and Labrador. Valued at $2,500, the scholarships will be awarded annually, one to each of the five St. John’s Community Centres (Froude Avenue, Buckmaster’s Circle, MacMorran, Rabbittown and Virginia Park). Eligible candidates will be students graduating from Grade 12, who are in the area served by the respective Community Centre. Selection will be based on scholarship standing, volunteerism, and participation in school and community activities. The applicant must plan to enroll in first year studies at the Fisheries and Marine Institute of Memorial University of Newfoundland, Memorial University of Newfoundland generally, or the College of the North Atlantic. Applications will be accepted by the executive directors of the five Community Centres and the recipients chosen by a Selection Committee comprised of representatives from Memorial University of Newfoundland, the Marine Institute, the College of the North Atlantic, the Fry Family Foundation and the five executive directors of the St. John’s Community Centres. The number of scholarships awarded annually at Memorial University of Newfoundland will depend on the application pool. The scholarships to students who choose to attend Memorial University of Newfoundland (excluding the Marine Institute) will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on the recommendation of the Selection Committee. Scholarships to students who choose to attend the Marine Institute will be awarded by the Marine Institute Scholarship Committee.

The General Motors Undergraduate Scholarship

This scholarship was established by General Motors of Canada Limited with contributions to the University’s Opportunity Fund Campaign. Interest from the fund will provide one or more scholarships to support individuals who qualify as Native People, members of a Visible Minority, or people with a Physical Disability. It will be awarded to students in any year or faculty or school at Memorial University of Newfoundland. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships. It will be awarded on the basis of academic standing.

Raymond Gushue Memorial Bursary

This bursary was established in memory of Raymond Gushue, born in Whitbourne and the first Newfoundlander appointed to the Order of Canada. Dr. Gushue left a lasting legacy of his achievements as a Past President of Memorial University of Newfoundland from 1952 to 1966. To be eligible for this bursary a student must be graduating from Crescent Collegiate in South Dildo and be entering the first year of any program at Memorial University of Newfoundland. Selection is based on demonstrated financial need as well as academic merit. Valued at 1/3 of the income on the endowment, it will be awarded to students in any year or faculty or school at Memorial University of Newfoundland. The scholarship is valued at $5,000, and is provided via a contribution to Memorial University of Newfoundland by Mr. Darryl Fry. It will be awarded on the basis of scholarship standing.

The Joan Haire Memorial Scholarship

This scholarship was established in 1997 in memory of Joan Haire, employee of the Department of Technical Services, as a part of the Opportunity Fund Campaign. Valued at a portion of the income on the endowment, it will be awarded annually to students who are children, grandchildren, siblings, legal guardians, nieces, nephews or spouses of current, retired or deceased employees or former employees with a minimum of five years’ service in the Department of Technical Services at Memorial University of Newfoundland. Preference will be given to students entering their first year at Memorial University of Newfoundland, but all undergraduate students are eligible. The recipient must meet the minimum academic requirements for a scholarship as defined by Memorial University of Newfoundland. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of an application which is available on the Scholarships and Awards Office website at www.mun.ca/scholarships.
The Frank & Margaret Hamilton Gander Collegiate Entrance Scholarship
This scholarship is funded annually through the Frank and Margaret Hamilton Memorial Fund at the Canadian Medical Foundation in support of high school graduates from Gander Collegiate. It will be awarded at $1,750 annually to a student entering their first year of undergraduate study at Memorial University of Newfoundland and is open to any discipline. The student must be in scholarship standing. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

The Frederick J. Hancock Scholarship
This scholarship is the interest on a sum of money donated to the University by Frederick J. Hancock, former Sergeant of the Newfoundland Constabulary who served as a member of the Force for twenty-five years until his retirement in 1963. Preference in the awarding of this scholarship will be given to sons and daughters of active, retired or deceased members of the Royal Newfoundland Constabulary. Candidates must be enrolled in full-time studies at the University and possess scholarship standing. When no candidates can be found from the above category, the scholarship may be awarded to any full-time student on the basis of academic merit. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships.

The Dr. Leslie Harris Memorial University Alumni Association Scholarships
Memorial University of Newfoundland and its Alumni Association have established these scholarships to honour former University President, Dr. Leslie Harris, and to recognize excellence. Several scholarships, valued at a minimum of $16,000.00 ($4,000.00 annually for 4 years), will be awarded annually and may be renewed if first class and scholarship standing are maintained. These scholarships are tenable in all undergraduate programs at the University and will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

The A. Harvey & Company Limited Scholarship Program
On the occasion of its 125th anniversary, A. Harvey & Company Limited established this scholarship tenable at Memorial University of Newfoundland and valued at $1,500.00. The deadline date for applying is the last Friday in July. In order to qualify candidates must:

a. Be a dependent or spouse of employees of the company;

b. Be enrolled as a full-time student;

c. Posses scholarship standing as defined by the University; and

d. Hold no other concurrent scholarship.

Preference will be given to entrance students; however, if there is no eligible candidate enrolled in first year studies, then the scholarship may be awarded to a senior undergraduate student attending Memorial University of Newfoundland who fulfills the above criteria. In deciding between candidates of equal academic attainment need will be the determining factor. Further information and application forms are available in writing from A. Harvey & Company Limited, 87 Water Street, P.O. Box 5128, St. John's, NL, A1C 5V6

The Judge Higgins Memorial Entrance Scholarship
This scholarship was established in memory of the late Judge William Higgins and is valued at a portion of the annual interest on the endowment. It will be open to all students entering first-year studies at Memorial University of Newfoundland. In making the award, scholarship standing and financial need will be considered. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

The Kathleen Huckabone Bursary
This bursary was established by the family of Kathleen Huckabone in August, 2004 as a special tribute, on the occasion of her 70th birthday. Valued at $3,000.00 and awarded annually by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, it is given to a first year student at Memorial University of Newfoundland who is a graduate of a high school in the Eastport/Salvage area, is in need of financial assistance and has completed one semester of full-time studies with satisfactory standing. If no candidates meet the foregoing criteria, the bursary may be awarded to an undergraduate student from the Eastport/Salvage area in any year of study at Memorial University of Newfoundland.

The Richard Steadman Hynes Memorial Award
This award was established through the generosity of Mr. & Mrs. John and Susan Hynes. Valued at $3,000, it will be awarded to a full-time student who has been in foster care at some point throughout their life, but has not received financial support from Child, Youth and Family Services beyond their secondary education. The recipient must meet the minimum academic requirements for an award as defined by Memorial University of Newfoundland. Preference will be given to students entering their first year at Memorial University of Newfoundland, but all undergraduate students are eligible. The award may be held for more than one year. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships. The award will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of an application.

The Imperial Tobacco Canada Entrance Scholarship
This scholarship was made possible by a donation in 1998 to Memorial University of Newfoundland by Imperial Tobacco Canada in support of the Opportunity Fund Campaign. The scholarship is valued at a minimum of $2,000.00 annually. It will be awarded to an entrance student on the basis of scholarship standing.

The Johnson Horizon Program Award
This award was established by a generous donation from Johnson Insurance. Valued at $1,200 per student, it is awarded annually to a maximum of fifty grade nine students from Newfoundland and Labrador schools. Award recipients will receive $200 immediately (i.e. at the time of the award) and the remaining $1,000 upon entry to Memorial University of Newfoundland. Preference will be given to students entering their first year at Memorial University of Newfoundland, but all undergraduate students are eligible. The award may be held for more than one year. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships. The award will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of an application.

The Joyce Foundation Bursary
This Bursary was established by a generous donation from The Joyce Foundation. The Joyce Foundation is dedicated to supporting the social, economic and emotional well-being of children and youth by empowering them to develop into healthy, confident, independent contributors to Canadian society. Valued at $2,500 annually, it will be awarded to a student who has been a resident of the Port aux Basques area for at least six years, has achieved a minimum of 60% in the final year of high school and has demonstrated a commitment to community service. The scholarship may be renewed for up to three additional years if students maintain clear standing and continue as full-time undergraduate students at any campus of Memorial University of Newfoundland. The Scholarship Committee on Undergraduate Scholarships, Bursaries and Awards will be based on the recommendation of Memorial University’s Joyce Foundation Award Committee.
The P.F. Kearney Memorial Scholarship
A minimum of two scholarships will be provided annually from the interest on a bequest to the University in memory of Mr. P.F. Kearney. The scholarships will be awarded to students attending Memorial University of Newfoundland from schools within geographic boundaries of the Exploits Valley Integrated and Exploits White Bay Roman Catholic School Boards. Preference will be given to entering students but in the event that no entering students are eligible in a given year they may be awarded to undergraduates in any year or field of study on the basis of scholarship standing.

Key Tag Awards
Up to three awards, valued at $500, are donated by the Newfoundland Branch of the War Amputees of Canada, and are to be known as the Key Tag Awards. They will be granted annually to amputee students in any year or field of study at Memorial University of Newfoundland. In the event that no applications are received from amputee students, other physically disabled students may be considered. In special circumstances, the awards may be held for more than one year. Financial need, initiative and scholastic achievement may be taken into consideration. Students must meet the minimum academic requirements for an award as defined by Memorial University of Newfoundland. They will be granted by the Senate Committee on Undergraduate Scholarships, Awards and Bursaries on the basis of an application which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships.

The Killam American Undergraduate Scholarship
This scholarship fund is the result of gifts to Memorial University of Newfoundland in memory of Isaac Walton Killam of Nova Scotia made by the charitable trusts of his sisters in Massachusetts. The fund will provide one or more entrance scholarships to undergraduate students from the United States wishing to study at Memorial University of Newfoundland. Eligible candidates will be citizens of the United States who meet current admission requirements to Memorial University of Newfoundland and demonstrate scholarship standing comparable to that prescribed for Newfoundland and Labrador and Canadian applicants. Recipients will normally be required to have fewer than 31 credit hours of transfer credits and to register at Memorial University of Newfoundland as full-time undergraduate students for at least 3 courses (3 credit hours) in each of two semesters in their first academic year at Memorial University of Newfoundland. The scholarship(s) will be awarded by the Senate Committee on Undergraduate Scholarships, Awards and Bursaries on the basis of a recommendation from the Director of Student Recruitment.

The Iris Kirby Memorial Scholarship
This award, valued at $650.00 annually, has been established by the friends and colleagues of the late Iris Kirby. Iris was an active feminist and advocate of encouraging women to develop their fullest potential. The scholarship is open to women enrolling in full-time undergraduate studies at Memorial University of Newfoundland who are entering or returning after at least five years out of full-time study. Applicants should have been resident in Newfoundland for at least one year before applying. The scholarship will be awarded in the same year based on the basis of the Fall semester results. In deciding on candidates of equal academic attainment, a commitment to the goal of an equal status for women in our society will be considered. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships.

Korea Veterans’ Association Scholarship
Twenty-six thousand, seven hundred and ninety-one (26,791) Canadians served in the Korean Theatre between the beginning of hostilities in 1950 and the signing of the cease-fire in 1953. Another 7,000 served between the cease-fire and the end of 1955. This scholarship was established to honour the men and women of the various Canadian Military Units that served in the United Nations Forces during that period of time. One scholarship of $500 is awarded annually to a student who meets the following criteria: A full-time first year student at Memorial University of Newfoundland who is the child or grandson of a Canadian Korea War Veteran and who has scholarship standing. In a year when there is no eligible child or grandchild in first year, the scholarship may be awarded to a child or grandchild beyond first year studies. If there is still no eligible student, the scholarship may be awarded to any first year student at Memorial University of Newfoundland who has scholarship standing. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

The Labrador Fishermen’s Union Shrimp Company Memorial Scholarship
These scholarships, two valued at $2,500.00 each annually, were created in honour of the six crew members who died in the 1990 air crash of the Shrimp Cape in the Cartwright area. They will be awarded to entrance students from Coastal Labrador on the basis of scholarship standing. The first scholarship will be to a student from the Red Bay to Lance au Clair area and the second one to a student from the Lodge Bay to Cartwright area.

The Locke’s Electrical Limited 50th Anniversary Scholarship
This scholarship is the result of an endowment established by Locke’s Electrical Limited, Corner Brook, on the occasion of their 50th anniversary. Valued at the interest on the endowment, it will be awarded on the basis of scholarship standing to an undergraduate student in any year of study who is a child or grandchild of a current or retired staff member of Locke’s Electrical Limited or one of its affiliates. If the scholarship is not awarded in one year then two may be awarded the following year. An application is required and may be obtained from, and returned to, Locke’s Electrical Limited, Corner Brook.

The William and Naomi Lundrigan Scholarship
The William and Naomi Lundrigan Scholarship shall be awarded to an entrance student attending Grenfell Campus, Corner Brook. Two scholarships will be awarded at a portion of the income on the endowment will be awarded annually. The recipients must meet the minimum academic requirements for a scholarship as defined by Memorial University of Newfoundland and consideration may be given to financial need. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Scholarship Selection Committee at the Grenfell Campus.

The Dr. Edith M. Manuel and Ms. Olga Anderson CFUW St. John’s Entrance Bursary
Two entrance bursaries, valued at a portion of the income on the endowment, have been provided by the Canadian Federation of Women’s University Women (CFUW) St. John’s, to female students in their first year of full-time studies. The recipients must have demonstrated financial need and must meet the minimum academic requirements for a bursary as defined by the University. The selection of recipients is not restricted to any particular Faculty or School. The first of these bursaries is named in memory of Dr. Edith M. Manuel, a well-known Newfoundland educator and charter member of CFUW St. John’s who died in 1984. The second is named in memory of Ms. Olga Anderson, a long-time member of CFUW St. John’s who died in 2012. Further information regarding the CFUW is available at www.cfuw.org. The bursaries will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

The Thelma Marsh Scholarship
This scholarship is a result of an ongoing gift to Memorial University of Newfoundland by Mrs. Thelma Marsh of St. John’s. The scholarship is valued at a portion of the income on the endowment and is to be awarded annually to an entrance student from Newfoundland and Labrador. It will be awarded on the basis of scholarship standing and financial need.

The Memorial University of Newfoundland 50th Anniversary Scholarships
These scholarships are a result of donations made to the Memorial University of Newfoundland Opportunity Fund Campaign. Established in 1999, they are awarded annually to students entering the University in Fall semester who have received a provincial government scholarship. The University will offer a scholarship of matching value to students who receive The Junior Jubilee, The
Scholarships, Bursaries and Awards 2015-2016

The Memorial University of Newfoundland Alumni Entrance Scholarship
This scholarship is made possible by a donation from the Memorial University of Newfoundland Alumni Association. The scholarship is valued at $5,000.00 per year and is renewable to a maximum of an additional four years provided first class and scholarship standing are maintained. The scholarship is tenable in all undergraduate programs at this University.

Memorial University of Newfoundland CAUBO Conference 2010 Bursary
This bursary has been established by the Memorial University of Newfoundland planning committee members for the Canadian Association of University Business Officers (CAUBO) annual conference hosted by Memorial University of Newfoundland in June 2010. The Committee members volunteered a considerable amount of their time and talent over the twelve months leading up to the conference to ensure the success of this event. Memorial University of Newfoundland’s share of the surplus generated by the conference has enabled the Committee to endow this entrance bursary. The bursary will be valued at a portion of the income on the endowment and will be awarded annually. The recipient will be an entrance student enrolled in any program at Memorial University of Newfoundland and who is a dependent of a current, retired or deceased staff member of Memorial University of Newfoundland. The recipient must have demonstrated financial need and must meet the minimum academic requirements for a bursary as defined by the University. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

Memorial University of Newfoundland CAUBO Conference 2010 Scholarship
This scholarship has been established by the Memorial University of Newfoundland planning committee members for the Canadian Association of University Business Officers (CAUBO) annual conference hosted by Memorial University of Newfoundland in June 2010. The Committee members volunteered a considerable amount of their time and talent over the twelve months leading up to the conference to ensure the success of this event. Memorial University of Newfoundland’s share of the surplus generated by the conference has enabled the Committee to endow this entrance scholarship. The scholarship will be valued at a portion of the income on the endowment and will be awarded annually. The recipient will be an entrance student enrolled in any program at Memorial University of Newfoundland and who is a dependent of a current, retired or deceased staff member of Memorial University of Newfoundland. The recipient must meet the minimum academic requirements for a scholarship as defined by the University. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

Memorial University of Newfoundland Endowment Scholarships
These scholarships, established by Memorial University of Newfoundland, are awarded annually to students in any year or faculty with approximately 50% of those awarded in a given year allocated for Entrance Students. The number and value of the annual scholarships vary depending on the interest earned. They are awarded on the basis of scholarship standing.

The Memorial University of Newfoundland Faculty Association Scholarship Fund
The Memorial University of Newfoundland Faculty Association (MUNFA) has established a trust fund to provide scholarships and bursaries to needy students in good academic standing. Assistance from this fund is available to entering students as well as to those further along in their studies and may be re-applied for in subsequent years. The first of the MUNFA Scholarships awarded each year is the Ditte Koster Memorial Scholarship. This award honours the late Ditte Koster who, up to the time of her death, was a professional librarian at the University. As a contribution to the Opportunity Fund in 1999, the Faculty Association pledged to pay the University the interest from their trust for the period January 1, 2000 to March 31, 2004. The matching money from this pledge will be contributed to the University's general Scholarship Endowment Fund allowing the University to award additional general scholarships.

The Memorial University of Newfoundland International Entrance Scholarship
These scholarships have been established by Memorial University of Newfoundland as part of an agreement by the Board of Regents, in May 2003, that a portion of the tuition fees for international undergraduate students would be set aside for International Scholarships. The values will vary but will not exceed $4,400.00 each annually. To be considered for these scholarships, a student must be eligible to pay the full international undergraduate fee, must register for at least 9 credit hours in each of two semesters in their first academic year at Memorial University of Newfoundland, should normally have fewer than 31 credit hours of transfer credits and meet scholarship standing (comparable to that prescribed for Newfoundland and Labrador and Canadian applicants). These scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of a recommendation from the Director, Office of Student Recruitment.

The Memorial University of Newfoundland Pensioners Association (MUNPA) Entrance Scholarship
This scholarship was established through generous donations from members of the Memorial University of Newfoundland Pensioners Association (MUNPA). Valued at a portion of the income on the investment, it will be awarded annually on the basis of scholarship standing to students entering their first year at either the University’s St. John’s, Corner Brook, or Marine Institute campuses. In the case of ties between candidates, financial need may be used as a determining factor. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

The G.H. Morgan and Son Scholarship
This scholarship is the interest on a sum donated by a member of the Morgan Printing Co., Ltd., in memory of the founders of the firm, the late G.H. Morgan, Esq., and his son, the late Albert MacGregor Morgan, Esq. At the request of the donor, it is awarded annually based on the University final admission average. It will be awarded with first preference to a student from Coley’s Point. If no eligible student from Coley’s Point can be identified, preference will be given to students from (a) Bay Roberts, (b) the entire district of Port-de-Grave.

The Jacob and Floral Morgan Scholarship Fund
This fund has been established by relatives and friends of the late Jacob Morgan, a teacher for thirty years in the outports of this province, and of his wife Floral. One or more scholarships, valued at not less than $2,500.00 each will be awarded annually. Preference will be given to students from the smaller outports, primarily to those who are entering Memorial University of Newfoundland for the first time.

The Julia E. Morgan Scholarship Fund
This fund has been established by relatives and friends of the late Julia E. Morgan, school teacher and University Extension Services field worker. One or more scholarships valued at not less than $2,500.00 each will be awarded annually. Preference will be given to students from the smaller outports, primarily to those who are entering Memorial University of Newfoundland for the first time.

The M.O. Morgan Entrance Scholarships
These scholarships, tenable at Memorial University of Newfoundland and valued at a minimum of $2,000.00 each, are open to entrance students. They have been funded in part by a donation received from the Albatross Hotel of Gander and the Mount Peyton Hotel of Grand Falls. They will be awarded on the basis of academic excellence.

The MUNUSU Undergraduate Scholarship
This scholarship fund is the result of an endowment which began in 1996 as a part of the Opportunity Fund Campaign. The fund will
provide a scholarship valued at the annual interest on the endowment, to students who are children, grandchildren, or spouses of current (worked a minimum of 15 of the last 24 months) or retired employees of MUNSU, Memorial University of Newfoundland or of previous employees who had a minimum of ten years of service to MUNSU. In the event that there are no eligible candidates from the above group in a given year the scholarship will be open to nieces or nephews of current, retired or previous employees of MUNSU (as per above). It will be open to entrance students as well as undergraduates. The scholarship is not renewable and individuals will not normally hold the scholarship more than once unless there is no other eligible candidate in a given year. The scholarship will be awarded on the basis of scholarship standing but in the case of ties between candidates, need may be used as a determining factor. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships.

Harvey and Doris Murcell Scholarships
This scholarship has been established from funds donated by Harvey and Doris Murcell. Scholarships of at least $1,000.00 shall be awarded under the following conditions:

a. A scholarship to two entrance students who are residents of Harbour Grace who attended High School in Conception Bay North.

b. Four scholarships to students of any year from high schools in the Conception Bay North area.

c. Other scholarships as the fund will bear.

The scholarships shall be awarded based on scholarship standing.

The Augustine Nash Memorial Scholarship
The Augustine Nash Memorial Scholarship has been established by Edward Nash in memory of his father, Augustine Nash. Augustine was born in Branch, St. Mary's Bay and had thirteen children who attended Fatima Academy. Great emphasis was placed on the value of education in his household. To be eligible for this scholarship, a student must have graduated from Fatima Academy, in St. Bride's, NL and be enrolled in the first year of any program at Memorial University of Newfoundland. The recipient must meet the academic requirements for a scholarship as defined by the University. Where possible, preference will be given to students with demonstrated financial need. In the event that a qualified student from Fatima Academy is not available in a given year, the scholarship may be given under the same terms and conditions to a student who has graduated from a high school in the electoral district that serves Fatima Academy. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

Newfoundland Ranger Force (1935-50) Scholarship
This scholarship is made possible by a generous donation to Memorial University of Newfoundland by the Newfoundland Ranger Force (1935-49) Association. Valued at a portion of the income on the investment the Scholarship will be awarded to students entering first year of studies at Memorial University of Newfoundland. All candidates must be residents of Newfoundland and Labrador (a person who has maintained permanent residence in the province for approximately 12 months prior to enrolment at Memorial University of Newfoundland). The Scholarship shall be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

The Florence O'Neill Scholarships
An endowment donated to the University by Florence O'Neill, Ed.D., C.M., L.L.D., honorary graduate of Memorial University of Newfoundland, distinguished for her contribution to the fields of adult education and community development, will fund annual scholarships valued up to $1,000.00 each. These awards will be made available to full-time undergraduate students, preferably to those from rural Newfoundland and Labrador, on the basis of scholarship standing. One shall be given annually to a student attending the Grenfell Campus in Corner Brook.

The Dr. Hugh O'Neill Entrance Scholarship
These scholarships are the result of a generous donation to Memorial University of Newfoundland by The O'Neill Foundation. Four scholarships valued at $1,000.00 each will be awarded annually to full-time undergraduate students entering first year of any faculty at Memorial University of Newfoundland. The scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and financial need.

The R.A. Parsons Scholarship Fund
The purpose of this fund is to provide scholarships to students in good academic standing and in proven financial need. There are no restrictions as to year or field of study.

The Selby Parsons Memorial Scholarship
This scholarship, awarded annually in memory of the late Mr. Selby Parsons, an early graduate of Memorial University of Newfoundland, in the sponsorship of the family and friends of the late Mr. Parsons. It is open to outport students in their first year. Academic standing as well as financial need will be taken into consideration in making the award. The value of the award will be based on the income accruing from the fund during the period of tenure of the scholarship.

The John Lewis Paton Entrance Scholarship
This scholarship is the result of an endowment left to the University from the estate of the late Dr. John Lewis Paton. Valued at a minimum of $2,500.00 annually, the scholarship will be awarded on the basis of scholarship standing to students entering Memorial University of Newfoundland.

The Howard and Amelia Patten Memorial Bursary
The Howard and Amelia Patten Memorial Bursary has been established by a gift from Dr. Eugene Nurse in memory of Howard Patten, a pharmacist in Grand Bank, and his wife Amelia, whose encouragement and financial support enabled Dr. Nurse to attend Medical School. It will be given annually to an entrance student at Memorial University of Newfoundland who is a graduate of John Burke High School in Grand Bank, who is in financial need and who meets the minimum academic requirement for a bursary as defined by the University. In the event that a qualified student from John Burke High School in Grand Bank is not available in a given year, the bursary may be given, under the same terms, to a student graduating from a high school in the district that serves Grand Bank. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

Rose Patten Single Parent Award
This award has been established by Ms. Rose Patten to encourage and assist single parents to develop their full academic potential. Valued at a portion of the income on the endowment, it is open to single parents who are enrolled in full-time undergraduate studies at Memorial University of Newfoundland. Students must meet the minimum academic requirements for an award as defined by Memorial University of Newfoundland. The award will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of an application which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships.

The Elaine Pitcher Memorial Scholarship
This scholarship is the result of an endowment to the University from a bequest left by Elaine Pitcher, a donation from Xerox Canada and donations from family, friends and colleagues of Elaine. Valued at a portion of the annual accrued interest on the endowment, it will be awarded on the basis of scholarship standing to an undergraduate student who is a child of a current or retired staff member of Memorial University of Newfoundland. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships.
Poole Family Scholarships

The Poole Family Scholarships are funded by a generous annual gift from the Poole Family Charitable Trust, established by Mr. Terry Poole who attended high school in Corner Brook and now resides in Calgary, Alberta. Valued at $5,000 per year, two scholarships will be awarded annually to full-time undergraduate students entering into their first year of study in any program at Memorial University of Newfoundland (at any campus). To be eligible, candidates must demonstrate financial need and scholarship standing. Preference will be given to candidates who graduated from a high school in western Newfoundland. Recipients may attend any of Memorial University of Newfoundland’s campuses. The scholarships are renewable for up to three additional years (four in the case of students enrolled in a program with a required fifth year of study, such as Engineering) as long as candidates maintain scholarship standing, and will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

The Quebec-Labrador Foundation Scholarships

The Quebec-Labrador Foundation offers three scholarships at $500.00 each to students enrolled in studies at Memorial University of Newfoundland. The first award, which is funded from the Larry Shields Fund of the Foundation, is awarded annually on the basis of academic performance and financial need to undergraduate students who are (a) native born to Newfoundland and Labrador; and (b) planning to study, or currently studying, Native American and/or Inuit cultures. In the event that a candidate who meets this specific criteria cannot be found in a particular year, the award may be given to a student in any year from one of the study fields and geographic locations indicated below for the second and third awards.

The second and third awards will be awarded annually on the basis of academic performance and financial need to students in any year providing that they come from one of the following areas: the Northern Peninsula, Fogo, Labrador South, or the Lower North Shore of Quebec (from Natashquan to Blanc Sablon). In awarding these two scholarships, special consideration will be given to those applicants studying in the fields useful to the development of the regions served by the Foundation, e.g. Education, Business, Nursing and Health, Forestry, Fisheries, Engineering and Natural Resources.

Robert Gillespie Reid Memorial Scholarship

These scholarships are the result of the annual interest from a bequest left to Memorial University of Newfoundland by Mr. Reid. Scholarships valued at two semesters tuition for a full course load, will be awarded annually to students of scholarship standing. These scholarships are open to both Entrance and Undergraduate students.

The Tracy Ronayne Scholarship

This scholarship has been established by the Department of Computing and Communications (C&C) at Memorial University of Newfoundland to honor the life and contribution of a former employee, Tracy Ronayne. To be eligible the recipient must have scholarship standing, be a full-time undergraduate student and be a dependant of a current, retired, deceased or former (having worked in the Unit for a minimum of 5 years) employee of C&C or be a student employed by C&C during the Fall semester of the academic year for which the scholarship will be awarded. One or more scholarships may be awarded in any given year. In the absence of a candidate meeting the above criteria, the scholarship will be awarded to a student beyond first year majoring in Computer Science in the Faculty of Science or a student in the Faculty of Business Administration. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

Rotary Club of St. John’s Entrance Scholarships

These scholarships, valued at a minimum of $1,000.00 each, were established by the Rotary Club of St. John's, Newfoundland, to assist qualified students entering first year of studies at the University. Scholarship standing, as well as financial need, are to be considered in making the awards. The number of awards to be made is contingent on the annual interest on the capital investment.

The Royal Canadian Legion Branch No. 1 Memorial Bursaries

Two awards, the first known as the W.R. Dawe Memorial Bursary and the second known as the Walter E. Williams Memorial Bursary, are sponsored by the St. John's Branch No. 1 of the Royal Canadian Legion. These are valued at $750.00 each and are tenable only at Memorial University of Newfoundland. The awards recognize the contributions of Mr. Dawe and Mr. Williams to the province of Newfoundland and to the Royal Canadian Legion, St. John’s Branch No. 1. They are open to Branch No. 1 members’ children and grandchildren upon entrance to first year studies at the University. A special application, available from the Branch office or the University's Awards Office, must be completed and returned by August 31 of each year. The awards will be made on the basis of academic standing and need.

Royal Canadian Legion (St. John’s Branch No. 1) Memorial Wall Scholarships

These scholarships, three at $1,000.00 each, have been donated by St. John's Branch No. 1 of the Royal Canadian Legion. They were made possible through funds raised in the construction of a Memorial Wall located at the Branch's club rooms. The scholarships are tenable only at Memorial University of Newfoundland to undergraduate students in any faculty, school or year and will be awarded on the basis of scholarship standing and financial need.

Andrew Ryan Memorial Scholarship

This scholarship was established by a generous donation from the St. John’s Minor Hockey Association to honour the memory of minor hockey player Andrew Ryan. Valued at $1,500.00 per year, it will be awarded annually to a full-time undergraduate student entering his or her first year of any academic program at Memorial University of Newfoundland. To be eligible, candidates must meet the minimum academic requirements for a scholarship and have participated in minor hockey in Newfoundland and Labrador. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

The Saval Scholarship Fund in Memory of the Honourable Walter Stanley Monroe

This fund is the interest accruing on a bequest from the Estate of Maurice Saval, at least two scholarships, valued at $1,000.00 each, will be awarded annually to students entering Memorial University of Newfoundland in full-time undergraduate studies. These scholarships are in memory of the Honourable Walter Stanley Monroe. The scholarships will be awarded on the basis of academic excellence.

The Dr. Maurice Saval Scholarship/Bursary Fund

This fund has been established through the generosity of Dr. Maurice Saval, one of the co-founders in St. John's of the Newfoundland American Insurance Company. From the interest accruing on the fund, a number of scholarships/bursaries will be awarded annually to financially needy and academically deserving undergraduate students. The awards will be open to full-time students in first and second year.

The September 11, 2001 International Scholarship

As a result of the tragic events in New York, USA on September 11, 2001, nearly 13,000 air travellers were diverted to airports in Newfoundland to ensure their safety. In St. John's, 475 of them were housed on Memorial University of Newfoundland’s St. John's campus for several days. Some of the passengers have shown their gratitude to Memorial University of Newfoundland by making donations to establish a fund which will assist students from other countries to attend Memorial University of Newfoundland. This fund will be a perpetual memorial to those who died in the tragic events of that day, while also providing both international students and our community with the opportunity for enrichment through exposure to new cultures and ways of life. To be considered for these
scholarships, a student must be eligible to pay the full international undergraduate fee, must register for at least four courses in each of two semesters in their first academic year at Memorial University of Newfoundland, should normally have fewer than 31 credit hours of transfer credits and meet scholarship standing (comparable to that prescribed for Newfoundland and Labrador and Canadian applicants). These scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of a recommendation from the Director, Office of Student Recruitment.

**Shad Valley Scholarships**

Three renewable Shad Valley Scholarships are available to high school students who are current or previous participants in the Shad Valley Program. These scholarships are valued at a total of $12,000 ($3000 per year, renewable for an additional 3 years for a total of 4). To be eligible and to be considered for renewal, students must be enrolled in full-time studies and have scholarship standing as defined by Memorial University of Newfoundland. Shad Valley Scholarships cannot be held in conjunction with any other general entrance scholarship awarded by the University. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships. The Scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

**Schulich Leader Scholarships**

Canadian Schulich Leader Scholarships are undergraduate scholarships for students intending to enroll in the STEM (Science, Technology, Engineering, Mathematics) areas of study at a minimum of one of the 20 participating universities. All Canadian high schools and secondary schools (not including Québec) may submit one Schulich Leader Nominee each. Cégeps (in Québec) may select two nominees each. Schulich Leader Nominees are selected by their individual schools and must possess at least two of three criteria:

1. Outstanding community, business or entrepreneurial leadership
2. Academic excellence
3. Financial need

Once Schulich Leader Nominees are verified, they can apply their nomination to the participating universities in Canada where they intend to submit formal applications for undergraduate study for the upcoming Fall semester. Formal applications for undergraduate study must be submitted by each Schulich Leader Nominee to the appropriate university. All participating universities are responsible for selecting the Schulich Leaders for their respective institute. Forty (40) Canadian Schulich Leaders are selected – two Schulich Leaders at each participating university. Half of these undergraduate entrance scholarships (20) are valued at $60,000 CAD and are reserved for Nominees pursuing degrees in science, technology or mathematics (non-engineering programs). The remaining Schulich Leader Scholarships (20) are valued at $80,000 CAD and are reserved for Nominees pursuing a degree in engineering based programs. Each participating university will select two Schulich Leaders from a pool of Schulich Leader Nominees, one at $60,000 CAD and one at $80,000 CAD. The scholarship is distributed during each Schulich Leader’s term of undergraduate study and will start in the academic year in which it is awarded. Schulich Leader Scholarships are part of a $100 million gift in perpetuity on behalf of UJA Federation of Greater Toronto and the Seymour Schulich Foundation.

**The Dr. Evan Simpson Aboriginal Undergraduate Entrance Scholarship**

The University will award up to four entrance scholarships valued at $1,000 each to Aboriginal residents of Newfoundland and Labrador. Eligible students must be in scholarship standing, have not received another University-administered entrance scholarship of equal or greater value, be enrolled as a full-time undergraduate student at Memorial University of Newfoundland and provide confirmation of their Aboriginal status. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

**The Wesley and Daisy Snelgrove Memorial Scholarship**

This scholarship fund is established through a generous gift from members of the family of Wesley and Daisy Snelgrove and will provide two scholarships annually, valued at a portion of the income from the endowment. To be eligible, students must be Level III graduates from Baccalieu Collegiate in Old Perlican and must be entering full-time studies at Memorial University of Newfoundland (including the Fisheries and Marine Institute), pursuing an undergraduate degree and have scholarship standing. One scholarship, valued at 60% of the spendable earnings, will be awarded to the eligible student with the highest academic average. The second scholarship, valued at 40% of the spendable earnings, will be awarded to the eligible student with the second highest academic average. Both of the scholarships should be awarded even if the students have received another entrance scholarship from the University. In the event that there are no entering students from Baccalieu Collegiate in a given year, successful recipients from previous years who are currently enrolled at Memorial University of Newfoundland will be considered based on scholarship standing. In the event that no such students are entering or attending this University, the scholarships will be awarded to students from the Federal Electoral District in which Grates Cove is located. In no case will possible, the scholarship will be awarded to the student who is entering into their first year in the Faculty of Education with the highest academic average. The scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

**Marie Sullivan (1917-2003) Scholarship**

This scholarship, valued at up to $5,000.00, has been established by Mrs. Sullivan’s eleven children. All attended Memorial University of Newfoundland after completing high school in Baie Verte. The scholarship is in recognition of and appreciation for their mother’s unwavering commitment to her family and her encouragement to pursue a higher education. It will be awarded to an entrance student on the basis of scholarship standing and financial need.

**The Swimming Newfoundland and Labrador Entrance Scholarship**

This scholarship, valued at $1,000.00 annually, is available to a first year student who will attend Memorial University of Newfoundland and be a member of the Memorial University of Newfoundland Seahawks Varsity Swim Team. The scholarship recipient will have been a competitive swimmer in the Province of Newfoundland and Labrador for a minimum of three years and be a swimmer in good standing with Swimming Newfoundland and Labrador. This scholarship will be awarded on the basis of scholarship standing, however, in deciding on candidates of equal academic standing, financial need may be used as a determining factor. Applications may be obtained in writing to the Swimming Newfoundland and Labrador office, RPO MacDonald Drive, Box 21248, St. John's, NL, A1A 5B2, or telephone to (709) 576-7946, or by fax to (709) 576-7493.

**The TD Bank Financial Group Bursary**

The TD Bank Financial Group has established this bursary as part of their commitment to helping students succeed in their post-secondary studies. The bursary is available to part-time or full-time students at Memorial University of Newfoundland who demonstrate financial need. Recipients may be residents of any province or territory in Canada. Valued at the interest on the endowment, the bursary will be awarded to entrance students in any field of study.

**Arthur W. Toms Scholarship**

This Scholarship was established by the family of the late Arthur W. Toms who was a farmer, fisherman, Co-op Field Officer, Rural Development Officer, Mayor, and Justice of the Peace, and who played a significant and leading role in the development of La Scie and other communities along the northeast coast of Newfoundland. Valued at a portion of the income on the investment, this scholarship will be awarded based on scholarship standing to a student entering Memorial University of Newfoundland as a full-time student. The scholarship will be open to students from Cape John Collegiate, La Scie, NL. If no suitable candidate is available from Cape John
Collegiate preference will be given to students from the Baie Verte Peninsula. If no suitable candidate is available from the Baie Verte Peninsula preference will be given to students from Newfoundland and Labrador. The Scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

The James Tucker Memorial Scholarship
This scholarship was established in 1997 in memory of James Tucker, employee of the Department of Technical Services, as a part of the Opportunity Fund Campaign. Valued at a portion of the income on the endowment, it will be awarded annually to students who are children, grandchildren, siblings, legal guardians, nieces, nephews or spouses of current, retired or deceased employees or former employees with a minimum of five years' service in the Department of Technical Services at Memorial University of Newfoundland. Preference will be given to students entering their first year at Memorial University of Newfoundland, but all undergraduate students are eligible. The recipient must meet the minimum academic requirements for a scholarship as defined by Memorial University of Newfoundland. In the case of ties between candidates, financial need may be used as a determining factor. The scholarship will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of an application which is available on the Scholarships and Awards Office website at www.mun.ca/scholarships.

The George Weston Entrance Bursary
This bursary, valued at a minimum of $1,000.00, will be awarded annually to a Memorial University of Newfoundland entrance student on the basis of scholarship standing and need. It will be renewable for up to four years (initial + 3) providing first class and scholarship standing is maintained and the recipient continues his/her studies in a Bachelor of Arts or a Bachelor of Science. This bursary will be awarded to a student who was born in one of the Atlantic Provinces.

The Women’s Association of Memorial University of Newfoundland Faculty/Staff Scholarship
This award was established through generous donations for the Women’s Association of Memorial University of Newfoundland. Valued at a portion of the income from the endowment, it will be awarded annually to full-time or part-time single parents enrolled in any faculty, school or year of study. The recipient must meet the minimum academic requirements for an award as defined by Memorial University of Newfoundland. Financial need and scholarship standing may be taken into consideration. The award will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of an application which is available on the Scholarships and Awards Office website at www.mun.ca/scholarships.

The Women’s Association of Memorial University of Newfoundland Single Parent Undergraduate Award
This scholarship, named in memory of Mrs. Marjorie Wyght-Barre (1907-1965) of Montreal, is the result of an endowment created by her husband, Major P.H. Barre. This scholarship, valued at the annual accrued interest on the initial endowment, is to be awarded annually to a Memorial University of Newfoundland undergraduate student from Newfoundland and Labrador. It will be awarded on the basis of scholarship standing and financial need.

The James W. Youden Bursary
This bursary, valued at a portion of the income from the endowment, is a result of a generous donation by James W. Youden from Chamberlains, NL. Though not a graduate of Memorial University of Newfoundland, Mr. Youden's children are all alumni, and Mr. Youden holds a firm belief in the value and power of a university education to transform lives. The bursary recipient will be a full-time undergraduate student in his or her first year of study, with demonstrated financial need and in good academic standing. Preference will be given to students entering their first year at Memorial University of Newfoundland, but all undergraduate students are eligible. The recipient must meet the minimum academic requirements for an award as defined by Memorial University of Newfoundland. Financial need and scholarship standing may be taken into consideration. The award will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of an application which is available on the Scholarships and Awards Office website at www.mun.ca/scholarships.

5 Scholarships, Bursaries, and Awards Administered By the Senate Committee on Undergraduate Scholarships, Bursaries and Awards for Which Undergraduate Students Already in Attendance at the University May Qualify

5.1 General
The following are not specific to an academic discipline.

Affinity NL (Ottawa) Scholarship
This scholarship is made possible by the fund raising efforts of the Ottawa Affinity Newfoundland and Labrador group and is valued at a portion of the income on the investment according to Memorial University of Newfoundland’s Awards Program Spending Policy. Based on scholarship standing (academic excellence), it will be awarded in an alternating fashion to a first year undergraduate student entering their second year, and then a first-year graduate student (entering the first year of either a Master's or Ph.D. program). The student must be from a rural community in Newfoundland and Labrador, express an interest in returning to work in rural Newfoundland, and be registered for full-time studies at Memorial University of Newfoundland. Rural is defined as outside St. John’s and Corner Brook as determined by the Centre for Institutional Analysis and Planning, or an equivalent University or Government body. When awarded to an undergraduate student, the Scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. When awarded to a graduate student, it will be awarded by the Dean of Graduate Studies upon the recommendation of the Awards and Medals Committee.

The Ahmed Award
This award is to honour the memory of a young boy from Darfur, Sudan, who came to Newfoundland alone as a refugee. He was blessed with an indomitable spirit, a warm heart and an incredible desire for higher education. He died tragically by drowning in August of 2008. The award is to help others with similar backgrounds and desires to pursue a dream of higher education. Valued at a portion of the income on the investment, it will be awarded annually to a full-time or part-time student who has refugee status and is attending any campus of Memorial University of Newfoundland. Recipients must meet the minimum academic requirements for an award as defined by the University. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships. Students must show proof of Canadian Refugee Status. The award will be granted by the Senate Committee
on Undergraduate Scholarships, Bursaries and Awards.

The Arnold's Cove, Come By Chance, North Harbour Fishers and Newfoundland Transshipment Scholarship
This scholarship was established by Newfoundland Transshipment Limited (NTL) as part of an agreement between them and the Fishers Liaison Committee (FLC) of the Arnold's Cove, Come By Chance and the North Harbour area. This scholarship, valued at the annual interest on the initial endowment to a maximum of $500 per student, will be awarded on the basis of scholarship standing to a Fisher or his/her descendant(s) who is registered as a full-time student at Memorial University of Newfoundland in any year or field of study. In the event that no applicants are received from Fishers or Fishers' descendants in a given year, the scholarship may be awarded to another student from above noted geographic areas. Eligibility of applicants under the above criteria will be verified by the Fishers Liaison Committee (FLC). Memorial University of Newfoundland is encouraged to ensure that the scholarship is alternated between communities and their eligible students. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of an application which may be obtained from the Scholarships, Bursaries and Awards Office, Room 4018, University Centre or by calling (709) 864-3956. Completed applications must be returned to the FLC for appropriate verification.

The Ashbridge Scholarships/Bursaries
These awards, at least three at $500.00 each, are tenable to students beyond the first-year level of undergraduate programs. They are awarded on the basis of need and scholarship standing.

Baccalieu Trail Scholarship
This scholarship, valued at a portion of the income on the endowment, is made possible by the fund raising efforts of the Baccalieu Trail Chapter of the Alumni Association of Memorial University of Newfoundland. Based on scholarship standing the scholarship will be awarded to a student who is a resident of the Baccalieu Trail Region or has been a permanent resident of the region for the completion of their secondary education. The student must have successfully completed their first year of study and be entering second year of full-time study at Memorial University of Newfoundland. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

The Baird-Stephenson Scholarship
This Scholarship, valued at $1,000.00 is to be awarded annually to a Memorial University of Newfoundland student in any year or field of study. It is named for Mrs. Edna Baird-Stephenson and her late husband, both of whom were former members of Memorial University of Newfoundland's faculty. The Scholarship will be awarded on the basis of academic excellence.

The Donald M. Balsom Award
The Newfoundland Brain Injury Association (NBIA) has established this award to honour Donald M. Balsom, former Associate Director of Memorial University of Newfoundland's School of Continuing Education and brain injury survivor. Valued at $500.00, it will be awarded annually to an injured undergraduate student who is registered either part-time or full-time, in any year or field of study at Memorial University of Newfoundland, who has some volunteer experience with the NBIA and who is in clear academic standing at the University. In the event that no applications are received from brain injured students the award may be given to a student who has made a significant contribution as a volunteer to the Brain Injury Association. In special circumstances, the award may be held for more than one year. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards in consultation with NBIA as needed.

Barnes House Bursaries
Two bursaries of $600.00 each have been donated by Dr. Charles Loader former Proctor of Barnes House and are tenable only by residents of Barnes House, Paton College, who have resided in the House for at least one semester prior to application. The awards will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards acting on the advice of a committee established by the Proctor of Barnes House. In making the awards, financial need and academic performance in the previous year will be taken into consideration. The bursaries will not be given to students who hold other major awards and will be paid in two equal instalments over two semester, payment in the second semester being dependent upon the recipients maintaining at least a "B" average. If there are no suitable candidates, the bursaries will not be awarded.

Applications are available from the Residence Assistants, the Proctor or the Paton College Office. The deadline date for application is March 15.

The Birks Family Foundation Awards
The Birks Family Foundation has established a plan of annual contributions to the student aid funds of recognized Canadian universities for the creation of the Birks Family Foundation Bursaries. The Bursaries are awarded by the Foundation on the recommendation of the Senate Committee on Undergraduate Scholarships, Bursaries and Awards and are not restricted to faculty or year and may be renewed. The number and amount of such awards may vary annually, depending upon the funds available for the purpose from the Foundation.

The Glenn Roy Blundon Memorial Scholarship
This scholarship, valued at $500.00, has been established by the family, friends and fellow students of the late Glenn Roy Blundon, a former student of Memorial University of Newfoundland who, despite his severe physical disability, succeeded in his studies and made a significant contribution to student life. In the awarding of this scholarship, preference will be given to academically qualified students with disabilities but those enrolled in the Special Education Program may be considered when no candidates are available from the first group. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships.

The Gary Bourne Memorial Scholarship
This scholarship is the result of an endowment to the University funded largely by donations resulting from fundraising efforts of Gary's colleagues at the Office of Financial and Administrative Services. Valued at a portion of the annual accrued interest on the endowment it will be awarded on the basis of scholarship standing to an undergraduate student who is a dependent of a current, retired or deceased staff member of Memorial University of Newfoundland. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships.

The Doctor William Boyle Scholarships
Under the will of the late Dr. Robert William Boyle, the University, in 1956, received bequests establishing two scholarships, one in memory of the testator's mother, Sophie (Maddock) Boyle, to be awarded to a female student attending the University; and the other in memory of his father, Albert Desbrisay Boyle, to be awarded to a male student attending the University. The scholarships are to be awarded to the students who, having attended the University for a period of at least two years, are, in the opinion of the governing body of the University, best qualified in virtue of all-round attainment. Each scholarship will be tenable for two years and the emolument will be the income accruing from the bequest during the period of tenure of the scholarship.

Charles Butler Undergraduate Scholarship
These scholarships were established by a generous donation from Mr. Charles Butler of Pembroke, Ontario. Mr. Butler has been a long-time friend of Memorial University of Newfoundland and of Newfoundland and Labrador, supporting the University's activities in the Ottawa region for many years. Two scholarships, valued at $2,500 each, will be awarded annually to full-time students enrolled in any year and any program of undergraduate study at Memorial University of Newfoundland. The recipients must meet the minimum academic requirements for a scholarship as defined by Memorial University of Newfoundland. These scholarships will be awarded by the
Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

The Calgary Alumni Scholarship
This scholarship is being established through the fund raising efforts of the Calgary Alumni Branch of the Memorial University of Newfoundland Alumni Association. The scholarship, valued at a portion of the income on the investment, will be available to an undergraduate student, beyond first year, in any field of study who is a resident of Newfoundland and Labrador (a person who has maintained permanent residence in the province for a minimum of twelve months immediately prior to entering the University) and who demonstrates academic excellence. Based on scholarship standing it will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

The Canadian Federation of University Women Women St. John’s Undergraduate Bursary
The Canadian Federation of University Women (CFUW) is an organization committed to promoting equality for women and girls. CFUW St. John’s provides annual funding for bursaries to women who are enrolled in the third or fourth year of full-time undergraduate studies. The number and value of the bursaries, as well as the faculty, department or school of the recipients, are determined on a year by year basis by the CFUW Scholarship Committee. The recipients must have demonstrated financial need and must meet the minimum academic requirements for a bursary as defined by the University. The bursaries will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on a recommendation from the respective Dean or Department Head of the faculty, department or school receiving the allocation in a given year.

The Canadian Federation of University Women St. John’s Undergraduate Scholarship
The Canadian Federation of University Women (CFUW) is an organization committed to promoting equality for women and girls. CFUW St. John’s provides annual funding for scholarships to women who are enrolled in the third or fourth year of full-time undergraduate studies and meet scholarship standing. The number and value of the scholarships, as well as the faculty, department or school of the recipients, are determined on a year by year basis by the CFUW Scholarship Committee. The scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on a recommendation from the respective Dean or Department Head of the faculty, department or school receiving the allocation in a given year.

The Canadian Institute of Mining, Metallurgy and Petroleum (Newfoundland Branch) Golden Jubilee Scholarship
This scholarship valued at a portion of the income on the investment, will be awarded to a student entering the final year of undergraduate studies at Memorial University of Newfoundland. Based on scholarship standing, the scholarship will be available to a student only in a field of study that is covered by the fields of interest of the Canadian Institute of Mining, Metallurgy and Petroleum specifically; Earth Sciences, Geophysics, Geography, Economics, Environmental Science, Engineering, Business and Commerce. Financial need may be taken into consideration. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

Roland (Rex) Carter Memorial Scholarship
This scholarship was established in 2014 in memory of Roland (Rex) Carter, employee of the Department of Technical Services. Valued at $1,000, it will be awarded annually to students who are children, grandchildren, siblings, legal guardians, nieces, nephews or spouses of current, retired or deceased employees or former employees with a minimum of five years service in the Department of Technical Services at Memorial University of Newfoundland. Preference will be given to students entering their first year at Memorial University of Newfoundland, but all undergraduate students are eligible. The recipient must meet the minimum academic requirements for a scholarship as defined by the University. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

The Harvey and June Chafe Memorial Bursary
The Harvey and June Chafe Memorial Bursary was established by a generous bequest from the Estate of June Maria Chafe. Valued at a portion of the income on the investment, it will be awarded annually to a full-time undergraduate student at Memorial University of Newfoundland in any field of study. The recipient must have demonstrated financial need and must meet the minimum academic requirements for an award as defined by Memorial University of Newfoundland. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

Chow-Fagan Award for Single Mothers
This award, valued at $1,000.00 annually, was established by Deborah Chow-Fagan. To be eligible, candidates must be single mothers who are full-time undergraduate students. If no full-time students are eligible in a given year, second preference will be given to a part-time student who is a single mother. Students must meet the minimum academic requirements for an award as defined by Memorial University of Newfoundland. The award will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

The Marion (Ward Hue) Christian Memorial Scholarship
This scholarship, valued at a portion of the income from the endowment, is the result of a generous donation by Dr. David Ward, and is established in memory of his mother, Marion (Ward Hue) Christian. Originally from Trinity, Trinity Bay, Marion worked with the Department of Public Health helping elderly adults learn to read before going on to Columbia University and Emory College to study special education and geriatrics. She later served as the Deputy Director of the Hoyles Home, St. John’s until her retirement. The scholarship recipient will be a full-time undergraduate student beyond first year who must demonstrate financial need as well as scholarship standing. The student must be from an area of Newfoundland and Labrador outside of metropolitan St. John’s and Corner Brook. Although students in all areas of study are eligible, preference will be given to those studying in the sciences. The Scholarship will be awarded by the Committee on Undergraduate Scholarships, Bursaries and Awards.

The Coca-Cola Scholarship for International Studies
This scholarship, valued at the annual interest on the endowment, has been established from contributions to the University’s Opportunity Fund Campaign by The Coca-Cola Foundation. It will be awarded to a student who has completed at least two years of a degree program at Memorial University of Newfoundland and who has been accepted to attend a recognized university outside Canada for one or two semesters of study for transfer credit to Memorial University of Newfoundland towards completion of his/her undergraduate degree.

Coinamatic Residence Award
The Coinamatic Residence Award is valued at $1,000.00 annually. The award will be given to a student currently residing in University residence (Winter semester) who also lived in residence the previous Fall semester and who has shown exceptional leadership in raising environmental awareness and in participation in environmental projects and activities. The recipient must have a minimum of a 70% cumulative average, be in clear academic standing and must be nominated for the award. Students may nominate themselves or may be nominated by another student or a member of Student Residences. The Award will be conferred by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on the recommendation of the Director of Student Residences, in consultation with the Manager of Residence Life.
Colbourne Family Scholarship
This scholarship was established by a generous gift from the estate of Alexander T. (Sandy) Colbourne. Sandy, a local businessman and community leader and his wife, Blanche, instilled an appreciation of higher education and service in both their children, Peter and Ann. This gift honors these values. Valued at $5,000 and renewable for an additional two years it will be awarded annually to a student in any faculty or school who has completed their first year College Transfer Program at the Labrador West Campus of the College of the North Atlantic. The recipient must be of scholarship standing as defined by the University. The award will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Principal, Labrador West Campus.

The Compass Group Canada Scholarship
From a sum of money donated by Compass Group Canada, a scholarship fund has been established for students who reside in Paton College, who completed their second year of studies while in residence and who will return to residence for their third year. The awards, valued at a minimum of $1,000.00, will be awarded to students who have completed their first year of studies at Memorial University of Newfoundland’s St. John’s Campus, who meets the minimum academic requirements for a scholarship as defined by Memorial University of Newfoundland, and who has demonstrated leadership ability. Activities within various student organizations, participation on faculty committees, and/ or contribution to the larger community will be considered in determining appropriate candidates. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Deputy Provost (Students) and Associate Vice-President (Academic).

The Raymond J. Condon Memorial Alumni Scholarship
This scholarship, valued at $1,000.00, will be awarded to a student who has completed the first year College Transfer Program at the Labrador West Campus of the College of the North Atlantic and is transferring to Memorial University of Newfoundland the following year. The recipient must be of scholarship standing as defined by the University. The Senate Committee on Undergraduate Scholarships, Bursaries and Awards will award the scholarship upon recommendation of the Principal, Labrador West Campus.

The Donald W.K. Dawe Memorial Scholarship
This annual scholarship, valued at $500.00, has been established by the family, friends and associates of the late Donald W.K. Dawe, O.C., who attended the Memorial University College in 1933-34. In making the award, preference may be given in the first instance to a needy and academically qualified student beyond the first year from outport Newfoundland and Labrador. The recipient must be of scholarship standing as defined by Memorial University of Newfoundland. The award will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Nominating Committee of the Leslie Harris Centre of Regional Policy and Development.

The David Curran Award in Regional Development
This award was created in recognition of David Curran, a passionate advocate and tireless champion of rural Newfoundland and Labrador. It was established by the Harris Centre, the Newfoundland and Labrador Regional Economic Development Association, and Municipalities Newfoundland and Labrador to recognize Mr. Curran’s impact on rural Newfoundland and Labrador, and to encourage that same spirit of community development and innovation in undergraduate students at Memorial University of Newfoundland. Valued at a portion of the income of the investment, the award will be granted annually to a student beyond first year enrolled in any program with a study focus in a field relating to regional development. The recipient must meet the minimum academic requirements for an award as defined by Memorial University of Newfoundland. To apply for this award, students are to submit a paper on the topic of regional development along with an application form. The application forms will be available through the Harris Centre’s online application system at www.mun.ca/harriscentre/funding. The application deadline is January 31st. The award will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Nominating Committee of the Leslie Harris Centre of Regional Policy and Development.

The Reverend Doctor Levi Curtis Bursary
This bursary has a value of at least $200.00 and is awarded each year to a student who is a candidate for the ministry of the United Church, a child of a minister of the United Church, or the child of a needy United Churchman. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships. Based on scholarship standing it will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

The Crowley Bursaries
These bursaries, one or more valued at a minimum of $1,000.00 each annually, are the result of the interest on an endowment to the University by Mr. Ronald Crowley. In awarding these bursaries preference will be given to undergraduate sons or daughters of fisherpersons whenever possible. However, when such candidates cannot be identified the bursaries will be awarded to other eligible undergraduate students at Memorial University of Newfoundland. The award will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

Country Ribbon Scholarship
This scholarship is available to dependants (sons, daughters or wards) of employees of Country Ribbon. Valued at $1,000.00 annually it will be awarded to an entrance student registered for full-time studies at Memorial University of Newfoundland. If no suitable candidate can be identified from the first group the scholarship may be awarded to an undergraduate student registered for full-time studies at Memorial University of Newfoundland. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships. Based on scholarship standing it will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

The David Curran Award in Regional Development
This award was created in recognition of David Curran, a passionate advocate and tireless champion of rural Newfoundland and Labrador. It was established by the Harris Centre, the Newfoundland and Labrador Regional Economic Development Association, and Municipalities Newfoundland and Labrador to recognize Mr. Curran’s impact on rural Newfoundland and Labrador, and to encourage that same spirit of community development and innovation in undergraduate students at Memorial University of Newfoundland. Valued at a portion of the income of the investment, the award will be granted annually to a student beyond first year enrolled in any program with a study focus in a field relating to regional development. The recipient must meet the minimum academic requirements for an award as defined by Memorial University of Newfoundland. To apply for this award, students are to submit a paper on the topic of regional development along with an application form. The paper may be one prepared for a course or specifically for this application. Application forms will be available through the Harris Centre’s online application system at www.mun.ca/harriscentre/funding. The application deadline is January 31st. The award will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Nominating Committee of the Leslie Harris Centre of Regional Policy and Development.

The Reverend Doctor Levi Curtis Bursary
This bursary has a value of at least $200.00 and is awarded each year to a student who is a candidate for the ministry of the United Church, a child of a minister of the United Church, or the child of a needy United Churchman. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships. Based on scholarship standing it will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

The Donald W.K. Dawe Memorial Scholarship
This annual scholarship, valued at $500.00, has been established by the family, friends and associates of the late Donald W.K. Dawe, O.C., who attended the Memorial University College in 1933-34. In making the award, preference may be given in the first instance to a needy and academically qualified student beyond the first year from outport Newfoundland and Labrador. The recipient must be of scholarship standing as defined by Memorial University of Newfoundland. The award will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Nominating Committee of the Leslie Harris Centre of Regional Policy and Development.

The Vivian Douglas Memorial Scholarship
This scholarship has been established from a donation to the University by Mrs. Edna Baird-Stephenson in honour of her housekeeper Mrs. Vivian Douglas from Grand Bank. It is valued at the annual accrued interest on the initial donation and will be awarded to a student beyond first year in any field of study. It will be awarded annually on the basis of scholarship standing and financial need.

The Doyle House Awards
These awards are the result of fundraising by the Doyle House Academic Committee. Three, valued at $100.00 each, will be awarded annually to residents of Doyle House. They will be awarded in the Winter semester of each year as follows:

a. Highest senior resident average; to a resident of Doyle House who has resided there two consecutive semesters prior to receiving the award and who has a minimum of 70% average.

b. Highest freshman resident average; to a student who had resided in Doyle House for the current and previous semester and who had a minimum of 70% average in the Fall Semester.

c. Most improved average; to a student who has shown the greatest academic improvement during the most recent two semesters.
who has been a resident of Doyle house for two consecutive semesters prior to receiving the award and who has a minimum of 70% average in the most recent semester he/she must have achieved at least a 50% average.

These awards will be made by the Committee in Undergraduate Scholarships, Bursaries and Awards acting upon a recommendation from a committee representing Student Residences and Doyle House. Additional information can be obtained from the Residence Assistants, Academic Don or Proctor of Doyle House.

The Dr. J. Douglas Eaton Scholarships
Upon the retirement of Dr. J. Douglas Eaton from the position of Vice-President (Student Affairs & Services) in 1983, the student body of Memorial University of Newfoundland donated a sum of money to fund two undergraduate scholarships in his honour, valued at $500.00 each. These awards, tenable to students beyond first year will be made on the basis of academic standing and demonstrated active participation in student life. In cases of competition between students of equal standing, need shall be the determining factor in awarding the scholarships. The scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, acting on the recommendation of a special selection committee, consisting of members of MUNSU and the Office of Student Affairs & Services.

The Fraser Edison Scholarship
This scholarship is the result of a donation to the Opportunity Fund in 1999 by Mr. Fraser Edison. It will be valued at the annual interest on the endowment and will be awarded to an undergraduate student who has a recognized physical disability. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships.

The Facilities Management Undergraduate Scholarship
This scholarship fund is the result of an endowment which began in 1996 as a part of the Opportunity Fund Campaign. The fund will provide one or more scholarships valued at a minimum of $500 each to students who are children, grandchildren, nieces, nephews, brothers, sisters or spouses of current or retired employees of the Department of Facilities Management, Memorial University of Newfoundland. Preference in awarding the scholarship(s) will be given to entrance students but undergraduates may also qualify. The scholarship(s) will be awarded on the basis of scholarship standing but in the case of ties between candidates, need may be used as a determining factor. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships.

The Ralph L. Finley Scholarships
Under the will of the late Mr. Ralph L. Finley, the University in 1987 received a bequest establishing two scholarships. The awards are to be tenable to needy undergraduate students, residing in the University residences during the academic year, who attain a minimum average of 75%. The value of the awards will depend on the income accruing from the bequest during the period of tenure of the scholarships. The amounts to be awarded are to be applied to the recipients’ tuition and/or residence fees.

The Charlie (Moo Sic) Fong Memorial Scholarship
This scholarship, valued at the annual interest (approximately $600.00 - $700.00 annually), is the result of an endowment by the Fong family in memory of their great-grandfather, Mr. Charlie (Moo Sic) Fong. It was established to commemorate the 100th anniversary of the first Chinese settler in Newfoundland and to promote an awareness of the Chinese Cultural and Historical background in the province. It will be awarded on the basis of scholarship standing and financial need to an undergraduate student at Memorial University of Newfoundland with a Chinese heritage. The scholarship will be given early in Winter semester and presented to the student at a local function held to celebrate the Chinese New Year. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships.

Fortis Inc. – H. Stanley Marshall Scholarship
This scholarship is established in honour of Mr. Stanley Marshall upon the occasion of his retirement of after 35 years of service to Fortis Inc. During his time with Fortis Inc., the Corporation grew from a single utility in the province of Newfoundland and Labrador to a leader in the North American electric and gas utility business, serving customers across Canada and in the United States and the Caribbean. Valued at a portion of the income on the endowment, the scholarship will go to support undergraduate students entering a professional school or faculty at Memorial University of Newfoundland. If there is no suitable student entering Memorial University of Newfoundland, the scholarship may be awarded to a student beyond first year. If there is no eligible student in any year of a professional program, then the scholarship may be awarded to a student in any area of study. To be eligible, candidates must have scholarship standing. Financial need may also be a consideration. The recipient must be from (in order of preference) Belize, the Turks and Caicos Islands, the Cayman Islands, or other Caribbean country. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

The Dr. G.A. Frecker Memorial Alumni Bursaries
The Memorial University of Newfoundland Alumni Association has established, from its Annual Fund, five bursaries named in honour of the late Dr. G.A. Frecker, Chancellor, Memorial University of Newfoundland, 1971-79, and valued at $500.00 each. Four of the bursaries are tenable at the St. John's campus and one at the Grenfell Campus at Corner Brook. The bursaries will be awarded annually to full-time students in any faculty or year on the basis of academic standing and financial need.

Friends of India Association Scholarship
This award, valued at $500.00, is awarded annually from funds donated by the Friends of India Association. The scholarship is open to any student registered at Memorial University of Newfoundland who is beyond first year studies. This scholarship will be awarded on the basis of scholarship standing.

The General Motors Undergraduate Scholarship
This scholarship was established by General Motors of Canada Limited with contributions to the University's Opportunity Fund Campaign. Interest from the fund will provide one or more scholarships to support individuals who qualify as Native People, members of a Visible Minority and/or Physically Disabled. It will be awarded to students in any year or faculty or school at Memorial University of Newfoundland. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships. It will be awarded on the basis of scholarship standing.

William J. and Sheila Gushue Scholarship
This scholarship was established by an anonymous donor to honour Dr. William ("Bill") Gushue, a professor in the Faculty of Education, Head of the Department of Educational Foundations from 1971 to 1975, Associate Dean of Education from 1975 to 1977, and Associate Dean of Graduate Studies from 1977 to 1979, and his wife, Sheila, the first Information Officer with the Faculty of Medicine. Valued at $2500 annually, it is open to any undergraduate student at Memorial University of Newfoundland, St. John's campus, who has scholarship standing. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

The Joan Haire Memorial Scholarship
This scholarship is the result of an endowment which began in 1997 as a part of the Opportunity Fund Campaign. The fund will provide a scholarship valued at a minimum of $500 to students who are children, grandchildren, nieces, nephews or spouses of current, retired or deceased employees or former employees with a minimum of five years service in the Department of Technical Services, Memorial University of Newfoundland. Preference in awarding the scholarship will be given to entrance students but undergraduates may also...
Scholarships, Bursaries and Awards 2015-2016

qualify. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships. The scholarship will be awarded on the basis of scholarship standing but in the case of ties between candidates, need may be used as a determining factor.

The Frederick J. Hancock Scholarship
This scholarship is the interest on a sum of money donated to the University by Frederick J. Hancock, former Sergeant of the Newfoundland Constabulary who served as a member of the Force for twenty-five years until his retirement in 1963. Preference in the awarding of this scholarship will be given to sons and daughters of active, retired or deceased members of the Royal Newfoundland Constabulary, candidates must be enrolled in full-time study at the University and possess scholarship standing. When no candidates who meet all the criteria of the above category, the scholarship may be awarded to any full-time student on the basis of academic merit. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships.

The A. Harvey & Company Limited Scholarship Program
On the occasion of its 125th anniversary, A. Harvey & Company Limited established this scholarship tenable at Memorial University of Newfoundland and valued at $1,500.00. In order to qualify candidates must:

a. Be a dependent or spouse of employees of the company;

b. Be enrolled as a full-time student;

c. Posses scholarship standing as defined by the University; and

d. Hold no other concurrent scholarship.

Preference will be given to entrance students; however, if there is no eligible candidate enrolled in first year studies, then the scholarship may be awarded to a senior undergraduate student attending Memorial University of Newfoundland who fulfills the above criteria. In deciding between candidates of equal academic attainment need will be the determining factor. The deadline date for applying is the last Friday in July. Further information and application forms are available in writing to A. Harvey & Company Limited, 87 Water Street, P.O. Box 5128, St. John’s, N.L., A1C 5V6

The C.D. Howe Memorial Foundation Scholarship
These scholarships result from a contribution by the C.D. Howe Memorial Foundation. The Annual income from this endowment will be utilized to fund up to six scholarships valued at the cost of one year’s tuition for full-time students, the amount varying depending on the number of courses taken. The scholarships will be awarded to undergraduate students entering second, third, fourth or fifth years of study in any undergraduate program. The scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing, financial need, and a recommendation from the appropriate Dean or academic Director.

The Kevin Hutchings Memorial Scholarship for the Royal Newfoundland Regiment
This scholarship was established by the family of Kevin Hutchings who, from 2004 until his death in 2009, held the position of Honorary Lieutenant-Colonel of the First Battalion of the Royal Newfoundland Regiment. Valued at $2000 per year, the scholarship will be awarded to a full-time undergraduate student who is an active parading member of the Royal Newfoundland Regiment (1st, 2nd Battalion or Band) who meets scholarship standing as defined by the University. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. An application form is required and may be obtained from the Scholarships, Bursaries and Awards Office.

The Richard Steadman Hynes Memorial Award
This award was established through the generosity of Mr. & Mrs. John and Susan Hynes. Valued at $3,000, it will be awarded to a full-time student who has been in foster care at some point throughout their life, but has not received financial support from Child, Youth and Family Services beyond their secondary education. The recipient must meet the minimum academic requirements for an award as defined by Memorial University of Newfoundland. Preference will be given to students entering their first year at Memorial University of Newfoundland, but all undergraduate students are eligible. The award may be held for more than one year. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships. It will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

Shahana Islam Memorial Award
This award was established to celebrate the life of Shahana Islam, a staff member of the International Student Advising Office. Shahana was a colleague, wife, mother, sister, friend, gifted artist and avid volunteer. She passed away in April 2010 but not before touching the lives of countless students and members of the University community. Helping students was very important to Shahana and through this award she will continue to play a role in improving the lives of international students. Valued at a portion of the income on the endowment the award will be granted annually to a full or part-time undergraduate or graduate international student in any program or area of study who meets the minimum academic requirements for an award as defined by Memorial University of Newfoundland. The recipient will be a student who lives with their family (spouse, partner and/or children under 18) while attending Memorial University of Newfoundland. Students who have permanent residence status are not eligible. In the case of undergraduate students, the award will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. In the case of graduate students, the award will be granted by the Dean, School of Graduate Studies. Both will be based on a recommendation from the International Student Advising Office.

The Bishop Jones Memorial Hostel Group Scholarship
This scholarship was established by the Bishop Jones Memorial Hostel Group. The hostel, originally named Spencer Lodge, opened in 1927 on 55 Hannay’s Mill Road as a residence for girls from the outports who were students at Bishop Spencer College, Memorial College and Normal School. It was purchased by the Church of England in 1939 and renamed the Bishop Jones Hostel in 1940. It served as a residence for Anglican girls from outside St. John’s who attended Memorial University of Newfoundland and summer school. In its 51-year history, this establishment served as a “home away from home” for some 1353 young women who moved to the city to further their education. The building still stands and is once again a private home. In July 2008 the first reunion of former hostel residents was held in St. John’s. From this reunion came the decision to establish a scholarship at Memorial University of Newfoundland. Valued at a portion of the income on the endowment, it will be awarded annually to a female student who is enrolled full-time in her second year of study at Memorial University of Newfoundland and who meets the minimum academic requirement for a scholarship. The student must also be a resident of Newfoundland and Labrador whose permanent home address is outside the metro region of the campus she is attending and who has moved away from home to attend University. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

The Ethel H. Judson Memorial Scholarship
This scholarship, valued at the annual interest on the endowment, has been established by Mrs. Edna Baird-Stephenson in memory of her late sister Ethel. It will be awarded annually to a Memorial University of Newfoundland student in any year or field of study. The scholarship will be awarded on the basis of academic excellence.

Key Tag Awards
Up to three awards, valued at $500, are donated by the Newfoundland Branch of the War Amputees of Canada, and are to be known as...
the Key Tag Awards. They will be granted annually to amputee students in any year or field of study at Memorial University of Newfoundland. In the event that no applications are received from amputee students, other physically disabled students may be considered. In special circumstances, the awards may be held for more than one year. Financial need, initiative and scholastic achievement may be taken into consideration. Students must meet the minimum academic requirements for an award as defined by Memorial University of Newfoundland. They will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of an application which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships.

The Iris Kirby Memorial Scholarship
This award, valued at $650.00 annually, has been established by the friends and colleagues of the late Iris Kirby. Iris was an active feminist and advocate of encouraging women to develop their fullest potential. The scholarship is open to women enrolling in full-time undergraduate studies at Memorial University of Newfoundland who are entering or returning after at least five years out of full-time study. Applicants should have been resident in Newfoundland for at least one year before applying. The scholarship will be awarded in the winter semester on the basis of the fall semester's results. In deciding on candidates of equal academic attainment, a commitment to the goal of an equal status for women in our society will be considered. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships.

Korea Veterans’ Association Scholarship
Twenty-six thousand, seven hundred and ninety-one (26,791) Canadians served in the Korean Theatre between the beginning of hostilities in 1950 and the signing of the cease-fire in 1953. Another 7,000 served between the cease-fire and the end of 1955. This scholarship was established to honour the men and women of the various Canadian Military Units that served in the United Nations Forces during that period of time. One scholarship of $500 is awarded annually to a student who meets the following criteria: A full-time first year student at Memorial University of Newfoundland who is the child or grandchild of a Canada Korea War Veteran and who has scholarship standing. In a year when there is no eligible child or grandchild in first year, the scholarship may be awarded to a child or grandchild of a second year student. If there is still no eligible candidate, the scholarship may be awarded to any first year student at Memorial who has scholarship standing. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships.

The Law Foundation of Newfoundland and Labrador Research Awards for Students of Memorial University
The Law Foundation of Newfoundland and Labrador annually offers up to seven Legal Research Awards valued at $750 each to students at Memorial University of Newfoundland. The Awards are for outstanding research papers on one or more legal issues or topics treated in a legal context in a 2000 level course or beyond in any discipline at the undergraduate level and in any graduate course for students at the graduate level. A first year course is not eligible with the exception of LWSO 1000: Law, Democracy and Social Justice. Preference will be given for one of the seven awards to an undergraduate student in their first year of studies who is currently enrolled in, or has completed, the first year introductory course LWSO 1000 at the time their paper is submitted for consideration. The papers submitted by, and with endorsement of, a course professor or lecturer will be judged initially by the Dean, Director, or Department Head who will make a recommendation to a special selection committee comprised of appointees of Memorial University of Newfoundland and the Law Foundation. Undergraduate students will receive a minimum of two awards and graduate students will receive one or more of the seven awards available annually. In case of undergraduate students the awards will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. In the case of graduate students the awards will be made by the Dean, School of Graduate Studies. In both cases they will act upon the new recommendation of the Foundation's selection committee.

The Locke's Electrical Limited 50th Anniversary Scholarship
This scholarship is the result of an endowment established by Locke's Electrical Limited, Corner Brook, on the occasion of their 50th anniversary. Valued at the interest on the endowment, it will be awarded on the basis of scholarship standing to an undergraduate student in any year of study who is a child or grandchild of a current or retired staff member of Locke's Electrical Limited or one of it's affiliates. If the scholarship is not awarded in one year it may be awarded the following year. An application is required and may be obtained from, and returned to, Locke's Electrical Limited, Corner Brook.

The Dr. Wayne E. Ludlow Scholarship
This scholarship is the result of an endowment made by the undergraduate students of Memorial University of Newfoundland in honour of Dr. Wayne E. Ludlow on his retirement in 1999, from the position of Dean of Student Affairs and Services. Valued at a portion of the income on the endowment, this scholarship is tenable to students beyond second year, based on scholarship standing and demonstrated active participation in student life. Factors to be considered will include but not be limited to involvement in student government, clubs and societies and student media. Financial need may also be considered. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, acting on the recommendation of a selection committee of members of MUNSU and the Office of the Deputy Provost (Students) and Associate Vice-President (Academic) (Undergraduate Studies).

Dr. Arthur May Memorial Undergraduate Scholarship
This scholarship was established in honour of the late Dr. Arthur May, Memorial University of Newfoundland’s President and Vice-Chancellor from 1990-99. It was established by generous donations from friends and family and through entry fees and donations from corporate and individual participants in the annual Memorial University Scholarship Golf Tournament, which he founded. Valued at a portion of the income of the endowment, the Dr. Arthur May Memorial Undergraduate Scholarship will be awarded annually to a second or third year undergraduate student in any program of study. The recipients must meet the minimum academic requirements for a scholarship as defined by the University. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

The Arthur and Sonia May Scholarship
The scholarship, valued at $5,000, has been established by Arthur and Sonia May on the occasion of the University’s 50th Anniversary as a degree granting institution, and in gratitude for the outstanding experience they enjoyed as students. It will be awarded to a student who has completed at least two years of a degree program at Memorial University of Newfoundland and who has been accepted to attend a recognized university outside Canada for one or two semesters of study for transfer credit to Memorial University of Newfoundland towards completion of his/her undergraduate degree. Applications may be made to the Scholarships, Bursaries and Awards Office, Room 4018, University Centre on or before March 31.

The Hector and Fanny McNeil Memorial Trust Fund Scholarships
For the best essay or paper submitted from this fund, at least two scholarships, at $500.00 each, will be awarded annually to academically deserving students at Memorial University of Newfoundland beyond first year.

The Memorial on Parade Bursary Fund
This bursary was created through the generous support of the alumni of Memorial’s Parade Street Campus. Memorial College opened its doors on Parade Street in 1925. It was established as a memorial to the Newfoundlanders who lost their lives on active service during the First World War and was later dedicated to also encompass those lost in the Second World War. In 1950, the College was elevated
to full university status. In 1961, Memorial University of Newfoundland moved from the Parade Street location to the Elizabeth Avenue Campus. The alumni of the Parade Street Campus established this bursary to support students who want to better themselves through higher education, just as they were so fortunate to do decades ago. Valued at a portion of the income on the investment, the bursary will be awarded annually to a student who has graduated from high school in Newfoundland and Labrador and is entering their final year of studies in any Faculty or program at the St. John’s Campus. The recipient must have demonstrated financial need, as well as meet the minimum academic requirements for a bursary as defined by Memorial University of Newfoundland. This bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

**Memorial University Golf Tournament Scholarship**

This scholarship fund was established in 1998 as a result of entry fees and donations from corporate and individual participants in the Annual Memorial University Scholarship Golf Tournament. Proceeds from this tournament have developed an endowment that supports scholarships valued at a portion of the annual income on the investment. The scholarships will be awarded to second or third year undergraduate students based on scholarship standing, with the exact number of awards to be decided by the Golf Tournament Operations Committee each year. In an effort to ensure that, over time, awards are dispersed throughout the University's various academic units, only one scholarship per year will be awarded within an academic unit and none will be awarded in a given year to students from an academic unit that was represented by a recipient the year before. Recipients may not be simultaneously in receipt of a general scholarship of equal or higher value at the time of the awarding of the scholarship. The scholarships are awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

**Memorial University of Newfoundland Endowment Scholarships**

These scholarships, established by Memorial University of Newfoundland are awarded annually to students in any Faculty or program at the St. John’s Campus. The alumni of the Parade Street Campus established this bursary to support students who want to better themselves through higher education, just as they were so fortunate to do decades ago. Valued at a portion of the income on the investment, the bursary will be awarded annually to a student who has graduated from high school in Newfoundland and Labrador and is entering their final year of studies in any Faculty or program at the St. John’s Campus. The recipient must have demonstrated financial need, as well as meet the minimum academic requirements for a bursary as defined by Memorial University of Newfoundland. This bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

**Memorial University of Newfoundland Faculty Association Scholarship Fund**

The Memorial University of Newfoundland Faculty Association has established a trust fund to provide scholarships and bursaries to members and their children who are entering or continuing their education. The fund is available to entering students as well as to those further along in their studies and may be re-applied for in subsequent years. The first of the MUNFA Scholarships awarded each year is the Ditte Koster Memorial Scholarship. This award honours the late Ditte Koster who, up to the time of her death, was a professional librarian at the University. As a contribution to the **Opportunity Fund** in 1999, the Faculty Association pledged to pay the University the interest from their trust for the period January 1, 2000 to March 31, 2004. The matching money from this pledge will be contributed to the University’s general Scholarship Endowment Fund allowing the University to award additional general scholarships.

**The Elsa S. Morgan Memorial Scholarship**

This scholarship, valued at $500.00, was donated by the late Dr. John M. Morgan, B.Sc., M.D., in memory of his wife, Elsa S. Morgan. Dr. Morgan was born at Port-de-Grave, Conception Bay, Newfoundland and spent all of his professional life in the United States. The scholarship is awarded to a deserving student of scholarship standing who has completed the first year of studies and is proceeding to the second year. Preference will be given to students from the district of Port-de-Grave.

**The Jacob and Floral Morgan Scholarship Fund**

This fund has been established by relatives and friends of the late Jacob Morgan, a teacher for thirty years in the outports of this province, and of his wife Floral. One or more scholarships, valued at not less than $2,500.00 each will be awarded annually. Preference will be given to students from the smaller outports, primarily to those who are entering the University for the first time.

**The John Thomas and Amy Susannah Morgan Memorial Scholarship**

This scholarship, valued at $500.00, was donated by the late Dr. John M. Morgan, B.Sc., M.D., in memory of his parents, John Thomas and Amy Susannah Morgan. The scholarship is awarded to a deserving student of scholarship standing who has completed his or her first year of studies and is proceeding to second year. Preference will be given to students from the district of Port-de-Grave/Harbour Grace.

**The M.O. Morgan Alumni Scholarships**

At least three scholarships valued at a minimum of $1000.00 each, gifts of the Memorial University of Newfoundland Alumni Association, are awarded annually to students beyond first year on the basis of academic excellence.

**Moving Forward Together Campaign Scholarship**

This Award was established by two generous donations as a part of the Moving Forward Together Campaign by the Sisters of Mercy of Newfoundland and the Presentation Sisters of Newfoundland and Labrador. Moving Forward Together is a Canada-wide campaign to bring fundamental and lasting change to Aboriginal communities in Canada by supporting healing and educational programs. Valued at $1,800, it will be awarded to an undergraduate Aboriginal student beyond their first year of studies at Memorial University of Newfoundland. There will be one Award annually at each of the St. John’s and Grenfell Campuses. The Award is renewable for an additional two years. The student must meet the minimum academic requirements for an award as defined by Memorial University of Newfoundland. The Award will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships.

**The MUNSU Undergraduate Scholarship**

This scholarship fund is the result of an endowment which began in 1996 as a part of the **Opportunity Fund** Campaign. The fund will provide a scholarship valued at the annual interest on the endowment, to students who are children, grandchildren, or spouses of current (worked a minimum of 15 of the last 24 months) or retired employees of MUNSU, Memorial University of Newfoundland or of previous employees who had a minimum of ten years of service to MUNSU. In the event that there are no eligible candidates from the above group in a given year the scholarship will be open to nieces or nephews of current, retired or previous employees of MUNSU (as per above). It will be open to entrance students as well as undergraduates. The scholarship is not renewable and individuals will not normally hold the scholarship more than once unless there is no other eligible candidate in a given year. The scholarship will be awarded on the basis of need for the students as well as meeting the minimum academic requirements for a bursary. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships.

**The MUNSU 25th Anniversary Scholarship**

This scholarship is the result of an endowment established by MUNSU (1994) and is valued at the annual accrued interest. It will be awarded to a student who has completed at least one year at Memorial University of Newfoundland. Based on scholarship standing and active participation in student life, it will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the President, MUNSU.

**Harvey and Doris Murcell Scholarships**

These scholarships have been established from funds donated by Harvey and Doris Murcell. Scholarships of at least $1,000.00 shall be awarded under the following conditions:

a. A scholarship to two entrance students who are residents of Harbour Grace who attended High School in Conception Bay North.

b. Four scholarships to students of any year from high schools in the Conception Bay North area.
c. Other scholarships as the fund will bear.
The scholarships shall be awarded based on scholarship standing.

The Newfoundland and Labrador Neurotrauma Initiative Award
This award, valued at a portion of the income on the investment, is made possible by a generous endowment from the Newfoundland and Labrador Neurotrauma Initiative Program, a partnership between the Rick Hansen Man in Motion Foundation, the Canadian Paraplegic Association, the Brain Injury Association and the Government of Newfoundland and Labrador. The award will be available on an annually rotating basis between undergraduate and graduate students, with first preference given to a student who has been identified with a brain or spinal cord injury. For undergraduate students an application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships. Graduate Students are required to apply specifically to the School of Graduate Studies, Room IIC 2021, Bruno Centre for Research and Innovation, (709) 864-2600. If no candidate is available with a brain or spinal cord injury, preference will be given to a student who is studying in any field related to neurotrauma. If it is not awarded at the level of study (i.e. graduate/undergraduate) on rotation in a given year, it may be awarded to a student studying at the other level for that year. In the case of undergraduates, the award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. In the case of graduates it will be awarded by the Dean, School of Graduate Studies on the recommendation of the Awards and Medals Committee. This award is open to part-time or full-time students with clear academic standing.

The John Lewis Paton Scholarship
This award has been established by Ms. Rose Patten to encourage and assist single parents to develop their full academic potential. Valued at a portion of the income on the investment, the award is available to single parents who are enrolled in full-time undergraduate studies at Memorial University of Newfoundland. Students must meet the minimum academic requirements for an award as defined by Memorial University of Newfoundland. The award will be granted to a single parent who is an undergraduate student. First preference is to part-time students, but full-time students will be considered. Students must meet the minimum academic requirements for an award as defined by Memorial University of Newfoundland. The award will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. In the case of graduates it will be awarded by the Dean, School of Graduate Studies on the recommendation of the Awards and Medals Committee. This award is open to part-time or full-time students with clear academic standing.

The Elaine Pitcher Memorial Scholarship
Memorial University of Newfoundland. The award will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. This award has been established by Ms. Rose Patten to encourage and assist single parents to develop their full academic potential. Valued at a portion of the income on the investment, the award is available to single parents who are enrolled in full-time undergraduate studies at Memorial University of Newfoundland. Students must meet the minimum academic requirements for an award as defined by Memorial University of Newfoundland. The award will be granted to a single parent who is an undergraduate student. First preference is to part-time students, but full-time students will be considered. judicature entries for their intellectual originality, cogency, facility of expression, and adherence to principles of scientific inquiry and critical thinking. The value of the prize is $500 cash or a $1000 scholarship tenable in a graduate program at Memorial University of Newfoundland. Up to five prizes will be awarded each year. At the discretion of the selection committee, Honourable mention may be accorded to entries beyond the available number of prizes.

Project Hero Tuition Bursary
Project hero is an initiative started by Kevin Reed, honorary lieutenant-colonel of 31 Service Brigade, an army reserve unit in London, Ontario. Mr. Reed was inspired by the work of former Chief of Defense Staff, General Rick Hillier, former Chancellor of Memorial University of Newfoundland, and approached him about starting a program to support children of Canadian Forces staff who were killed while on active duty. The bursary provides tuition costs (maximum of 5 courses per semester) for up to four years of study and is available to full-time students in undergraduate degree programs. The bursary is renewable on the basis of continuing full-time enrollment and a minimum GPA of 2. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

To be eligible students must be:
1. Canadian Citizens or Permanent Residents;
2. 26 years old or younger; and
3. dependents of Canadian Forces personnel who died while serving on an active mission (students are required to provide sufficient proof from the Canadian Forces that they are dependents of the deceased soldier and that the individual died while on an active mission).

An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships.

The Quebec-Labrador Foundation Scholarships
The Quebec-Labrador Foundation offers three scholarships at $500.00 each to students enrolled in studies at Memorial University of Newfoundland. The first award, which is funded from the Larry Shields Fund of the Foundation, is awarded annually on the basis of academic performance and financial need to undergraduate students who are (a) native born to Newfoundland and Labrador, and (b) planning to study, or currently studying, Native American and/or Inuit cultures. In the event that a candidate who meets this specific criteria cannot be found in a particular year, the award may be given to a student in any year from one of the study fields and geographic locations indicated below for the second and third awards. The second and third awards will be awarded annually on the basis of academic performance and financial need to students in any year providing that they come from one of the following areas: the Northern Peninsula, Fogo, Labrador South, or the Lower North Shore of Quebec (from Natashquan to Blanc Sablon). In awarding these two scholarships, special consideration will be given to those applicants studying in the fields useful to the development of the regions served by the Foundation, e.g. Education, Business, Nursing and Health, Forestry, Fisheries, Engineering and Natural Resources.

150 RCAF Wing Memorial Scholarship
This Scholarship, valued at a portion of the annual accrued interest on the endowment, will be tenable only at Memorial University of Newfoundland to a full time undergraduate student in any year or field of study, based on scholarship standing. Consideration may be given to students demonstrating financial need. The Scholarship will be available to: (1) a Wing member (as defined by the Constitution) or *relative of a Wing member; (2) an Air Force Veteran or a *relative of an Air Force Veteran; (3) an Air Cadet/ex Air Cadet of the 515 North Atlantic Squadron (defined as any person who has served for two years and is/was in good standing at present or at the time of departure from his/her Air Cadet Unit). *Note: Relative is defined as son/daughter; grandson/daughter; great-grandson/daughter; brother/sister; nephew/niece. The Scholarship may be awarded to the same applicant more than once. If in any given year, there is no eligible candidate, two scholarships may be awarded in the following year at the discretion of the trustees. The Scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. Applications are available at 150 RCAF Wing or from the Scholarships, Bursaries and Awards Office, Room 4018, University Centre, Memorial University of Newfoundland. Applicants will be required to submit a personal letter of application, stating goals, personal achievements and financial need; Applications are to be submitted in writing to 150 RCAF Wing - Memorial Scholarship Committee, 565 Roosevelt Avenue, Pleasantville, St. John's, NL, A1A 5B2. You may contact us by telephone to (709) 753-8970.

Robert Gillespie Reid Memorial Scholarships
These scholarships are the result of a bequest left to Memorial University of Newfoundland by Mr. Reid. Scholarships valued at two semesters tuition for a full course load, will be awarded annually to students of scholarship standing. These scholarships are open to both Entrance and Undergraduate students.

The Tracy Ronayne Scholarship
This scholarship has been established by the Department of Computing and Communications (C&C) at Memorial University of Newfoundland to honor the life and contribution of a former employee, Tracy Ronayne. To be eligible the recipient must have scholarship standing, be a full-time undergraduate student and be a dependent of a current, retired, deceased or former (having worked in the Unit for a minimum of 5 years) employee of C&C or be a student employed by C&C during the Fall semester of the academic year for which the scholarship will be awarded. One or more scholarships may be awarded in any given year. In the absence of a candidate meeting the above criteria, the scholarship will be awarded to a student beyond first year majoring in Computer Science in the Faculty of Science or a student in the Faculty of Business Administration. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

The Russell and Pearl Rose Bursary Fund
The Russell and Pearl Rose Bursary Fund has been established through a generous bequest to the University set forth in the Last Will and Testament of Anita Pearl Rose. Valued at a portion of the income on the investment, it will be awarded to a full-time undergraduate student at Memorial University of Newfoundland beyond the first year and in any field of study who is a graduate of a high school in Newfoundland and Labrador. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of financial need and scholarship standing.

Royal Canadian Legion (St. John's Branch No. 1) Memorial Wall Scholarships
These scholarships, three at $1,000.00 each, have been donated by St. John's Branch No. 1 of the Royal Canadian Legion. They were made possible through funds raised in the construction of a Memorial Wall located at the Branch's club rooms. The scholarships are tenable only at Memorial University of Newfoundland to undergraduate students in any faculty, school or year and will be awarded on the basis of scholarship standing and financial need.

R.S.V.P. Residence Scholarship
This scholarship is the result of fundraising by the Residence Scholarship and Volunteer Program (RSVP) Committee during the early 1990's. One or more scholarships will be awarded annually from the interest earned on the initial endowment. The scholarship(s) will be awarded to full-time undergraduate students who are beyond first year, resided in residence the previous year and are returning to residence for another year. To be considered candidates must have scholarship standing and must have been actively involved in...
various aspects of residence life. The scholarship(s) will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Director, Student Residences.

The St. John's Port Authority Scholarship
This scholarship, valued at $2,500.00, was established by the St. John's Port Authority. It will be awarded annually to a student who has lived at least twelve months in Newfoundland before commencing his or her post-secondary studies and who is entering third year or beyond in a marine related field. The scholarship shall be awarded on the basis of academic excellence.

The Jeanne F. Sanger Memorial Scholarship
This scholarship, awarded annually in memory of Jeanne F. Sanger, former student and library staff member of Memorial University of Newfoundland, is under the sponsorship of the family and friends of the late Mrs. Sanger. It is awarded on the basis of scholarship standing and need to a second-year student upon completion of first-year studies. The value of the award will be based on income accruing from the fund during the period of tenure of the scholarship.

The Dr. Maurice Saval Scholarship/Bursary Fund
This fund has been established through the generosity of Dr. Maurice Saval, one of the co-founders in St. John's of the Newfoundland American Insurance Company. From the interest accruing on the fund, a number of scholarships/bursaries will be awarded annually to financially needy and academically deserving undergraduate students. The awards will be open to full-time students in first and second year.

Sceptre Investment Counsel Limited Bursary
Sceptre Investment Counsel, one of Canada's leading pension and mutual fund managers and an important partner to Memorial University of Newfoundland for several years, has established this bursary as a demonstration of their commitment to community support. Valued at the accrued interest on their endowment, one or more bursaries will be awarded annually on a rotating basis between undergraduate and graduate students in any field of study. Successful candidate(s) must be Newfoundland residents demonstrating financial need and displaying qualities of leadership. In the case of undergraduates, it will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards using scholarship standing as the primary determinant. Graduate students can make application in writing to the Dean of Graduate Studies. The award will be made by the Dean on the recommendation of the Awards and Medals Committee.

Sodezxo Scholarship
This scholarship, valued at the annual interest, is the result of a donation to the University from Sodezxo. It will be awarded on the basis of scholarship standing to a full-time undergraduate student in any year or field of study.

The Toronto Alumni Scholarship
This scholarship is being established through the fund raising efforts of the Toronto Alumni Branch of the Memorial University of Newfoundland Alumni Association. The scholarship, valued at a portion of the income on the investment, will be available to an undergraduate student, beyond first year, in any field of study who is a resident of Newfoundland and Labrador (a person who has maintained permanent residence in the province for a minimum of twelve months immediately prior to entering the University) and who demonstrates both academic excellence and leadership qualities. Based on scholarship standing it will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Deputy Provost (Students) and Associate Vice-President (Academic) Undergraduate Studies.

Treats International Franchising Bursary
This bursary was established through the generous support of Treats International Franchising. Valued at $2,500.00 each, two bursaries will be awarded annually to two undergraduate students from a rural community in Newfoundland and Labrador who are enrolled full-time in any year of any program at Memorial University of Newfoundland. The recipients must have demonstrated financial need as well as meet the minimum academic requirements for a bursary as defined by Memorial University of Newfoundland. This bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

The James Tucker Memorial Scholarship
This scholarship is the result of an endowment which began in 1997 as a part of the Opportunity Fund Campaign. The fund will provide a scholarship valued at a minimum of $500 to students who are children, grandchildren, nieces, nephews or spouses of current, retired or deceased employees or former employees with a minimum of five years service in the Department of Technical Services, Memorial University of Newfoundland. Preference in awarding the scholarship will be given to entrance students but undergraduates may also qualify. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships. The scholarship will be awarded on the basis of scholarship standing but in the case of ties between candidates, need may be used as a determining factor.

The James J. Walsh Memorial Scholarships
These two scholarships, established by the Walsh family to commemorate the memory of a dear husband and father, James J. Walsh, are tenable at Memorial University of Newfoundland and are valued at $500.00 each. One scholarship will be tenable in the Faculty of Business Administration. (Refer to Faculty of Business Administration). The second scholarship will be open to any student enrolled full-time at Memorial University of Newfoundland who has scholarship standing and demonstrates financial need.

The William and Elizabeth (Burdett) Walsh Memorial Bursary
The William and Elizabeth (Burdett) Walsh Memorial Bursary has been established by a gift of $15,000 from Mr. and Mrs. Walsh's family. Billie and Lizzie (Burdett) Walsh, as they were known, were Labradoreans from 'Mary's Harbour' and 'Sandy Hills' who settled in Carbonear. Both of them were keenly interested in the education of their children. It will be awarded to a Labrador student registered in any faculty or year at Memorial University of Newfoundland who is a graduate of a high school in Labrador and consideration will be accorded the following priority: 1) Cartwright, 2) Mary's Harbour, 3) the remainder of the Labrador coast and straits, and 4) all of Labrador. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards with preference given to financial need.

The War Veterans Family Award
This award has been established to give financial assistance to Canadian and Newfoundland War Veterans who served overseas and their families. It is valued at $2500 annually and is renewable for up to three additional years provided the recipient maintains the minimum academic requirements for an award and continues as a full-time undergraduate student at the University. To be eligible for this award, students must show that they are the child, grandchild, spouse or other dependant of a Canadian or Newfoundland War Veteran, or are themselves a Canadian or Newfoundland War Veteran. The applicant must provide the veteran's name, service branch and service number. The recipients will be enrolled in any year of study at Memorial University of Newfoundland and would have graduated from a high school in Newfoundland and Labrador. Preference will be given to applicants who have demonstrated financial need. Recipients must meet the minimum academic requirements for an award as defined by the University. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships. The award will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.
The Women’s Association of Memorial University of Newfoundland Faculty/Staff Scholarship
The Women’s Association of Memorial University of Newfoundland (WAMUN) has established a $1,200.00 annual scholarship available to students in any faculty or year at Memorial University of Newfoundland, providing they are either:

a. children of full-time faculty or staff; or

b. children of deceased or retired faculty or staff, who at the time of death or retirement, were employed full-time.

An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships. This scholarship is based on scholarship standing.

The Women’s Association of Memorial University of Newfoundland Mature Student Undergraduate Scholarship
This scholarship, valued at $1,200.00, is awarded annually from funds donated by the Women’s Association of Memorial University of Newfoundland. It is restricted to women enrolled in full-time undergraduate studies at Memorial University of Newfoundland who are entering or returning, having been away from full-time study for a period of three years or more. They must have been residents of Newfoundland and Labrador for at least a year prior to enrolling. This scholarship is awarded in Winter semester based on Fall semester results in which a minimum average of 75% will be required. Financial need will be considered. The Scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. A special application is required and may be obtained from the Scholarships and Awards Office, Room 4018, University Centre or by calling (709) 864-3956.

Women’s Association of Memorial University of Newfoundland Single Parent Undergraduate Award
This award was established through generous donations from the Women’s Association of Memorial University of Newfoundland. Valued at a portion of the income on the investment, it will be awarded annually to full-time or part-time single parents enrolled in any faculty, school or year of study. The recipient must meet the minimum academic requirements for an award as defined by Memorial University of Newfoundland. Financial need and scholarship standing may be taken into consideration. The award will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of an application which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships.

The Women’s Association of Memorial University of Newfoundland Undergraduate Scholarship
This scholarship, valued at $1,200.00, is awarded annually from funds donated by the Women’s Association of Memorial University of Newfoundland. It is restricted to undergraduate students who are beyond second year of studies and who will continue at Memorial University of Newfoundland in an academic program. The Scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing.

The Zonta Club Scholarship
This scholarship has been established by members of the Zonta Club to encourage and assist women to develop their full academic potential. Valued at a minimum of $1,000.00, it is open to women enrolled in full-time undergraduate studies at Memorial University of Newfoundland who are entering or returning, having been away from full-time study for a period of five years or more. It will be awarded in Winter semester based on Fall semester’s results whereby a minimum average of 75% will be required. In deciding on candidates of equal academic attainment, financial need may be considered. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships.

5.2 Faculty of Arts

The following are available to Faculty of Arts students based on a recommendation from the Dean, Faculty of Arts or the appropriate Director or Department Head.

The Atreya-Haritha Scholarship in Mathematics
This scholarship is the result of a generous donation by Dr. K.R. and Nandini Kothandaraman. Valued at $1000 annually, it will be awarded on the basis of scholarship standing to a full-time student, either a senior level undergraduate or a graduate student in Mathematics and/or Statistics. In the case of an undergraduate student, the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Head, Department of Mathematics and Statistics. In the case of a graduate student, it will be awarded by the Dean, School of Graduate Studies, also upon recommendation of the Head, Department of Mathematics and Statistics.

The Edna Baird-Stephenson Scholarship in Gender Studies
This scholarship, valued at $500.00, has been established through the Memorial University of Newfoundland Alumni Association, through its Annual Fund. It honours distinguished alumna Edna Baird-Stephenson, B.A., B.H.S., one of the first female graduates of Memorial University College and long-time employee of Memorial University of Newfoundland, now retired. The scholarship is open to full or part-time students enrolled in the Gender Studies Program at Memorial University of Newfoundland who have successfully completed a minimum of 21 credit hours in two of the three semesters in the previous scholarship year and achieved a minimum 75% average at the end of those two semesters. It is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, acting on a recommendation from the Dean, Department of Gender Studies.

The E.A. Bishop (1889-1953) Memorial Scholarship
This scholarship, established to honour the memory of E.A. Bishop, a teacher in Newfoundland and Labrador, is the result of a generous donation to Memorial University of Newfoundland by his son, John. Interest on the fund will provide a scholarship to full-time undergraduate students after completion of their first year at Memorial University of Newfoundland who are dependants of teachers in the public school system of Newfoundland and Labrador. Applicants must be students in the Faculties of Arts or Science and be of scholarship standing. The scholarship is valued at approximately two semesters tuition for five courses. If, in any year, there is no eligible candidate, the scholarship will not be awarded; however, a student may be awarded the scholarship more than once. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships.

Bishop Spencer College Alumni Association Bursary
This bursary was established by the Bishop Spencer College Alumni Association. The bursary will be valued at a portion of the income from the endowment and will be awarded annually to a female student who is enrolled in the fourth year of any undergraduate degree program in the Faculty of Arts. The recipient must meet the minimum academic and financial requirements for a bursary as defined by the University. The Bursary will be administered by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on the basis of a recommendation from the Dean, Faculty of Arts.

The Dr. Jim Black Award in Linguistics
This prize, valued at $250, is made possible through an annual donation from Jim Black, a retired faculty member in the Department of Linguistics. It will be awarded to a first or second year student who receives the highest combined marks in both Linguistics 1103 or 2103 and Linguistics 1104 or 2104 within the same academic year. The recipient must have declared a major in Linguistics by the end of the academic year in which the courses were completed. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head of the Department of Linguistics.
W.J. Blundon Scholarship
The W.J. Blundon Scholarship, in memory of Professor W.J. Blundon, Head of the Department of Mathematics and Statistics from 1948 to 1976, will be awarded on the basis of academic excellence to students majoring in Mathematics and/or Statistics. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head of the Department of Mathematics and Statistics.

The Marion and Rod Browne Family Memorial Scholarship
This scholarship established by Mr. Rod Browne and his wife Marion in memory of deceased members of the Browne family is tenable at Memorial University of Newfoundland and is valued at a portion of the income on the investment. It is based on academics and awarded to a student majoring in French. Selection will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Head, Department of French & Spanish.

The Tom Budai Award in Business and Economics
The Tom Budai Award in Business and Economics, valued at $1000, is funded by Tom Budai, a 2009 graduate of the Faculty of Business Administration and a former member of the Memorial Seahawks men's basketball team. The award is available to a full-time student enrolled in the Bachelor of Commerce (Co-op) program, Bachelor of Business Administration program, Bachelor of Arts in Economics program or Bachelor of Science in Economics program. The candidate must be in at least her/his second year of studies and meet the minimum academic requirements for an award as defined by the University. Preference will be given to candidates who have been active in varsity athletics at Memorial University of Newfoundland and/or who have a demonstrated record of active community, volunteer work and/or involvement with student organizations at this University. The award will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation from the Dean, Faculty of Business Administration or the Head, Department of Economics.

The Maurice J. Burke Memorial Scholarship
This scholarship, valued at a portion of income on the investment, was established by the family of the late Maurice Burke. Mr. Burke served in the Provincial Department of Education in the Teacher Certification Division for thirty-five years. He was also a columnist and author with particular interest in Newfoundland and Miseen programmes. It will be awarded to a full-time graduate or undergraduate student in the Folklore Department on the basis of selection from the Folklore Department. In the case of undergraduates it will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. In the case of graduates it will be awarded by the Dean, School of Graduate Studies. Only full-time students will be eligible. The award will be on the basis of recommendation from the Head, Department of Folklore.

CFUW St. John's Scholarship for Gender Studies
This scholarship has been established by The Canadian Federation of University Women (CFUW) St. John's. One scholarship, valued at $2000, may be awarded annually, to a woman enrolled full-time in the Master's program in the Department of Gender Studies. To be eligible, candidates must have scholarship standing. The scholarship will be awarded by the Dean, School of Graduate Studies on the recommendation from the Head, Department of Gender Studies.

The Canadian Tire Scholarships
These scholarships are the result of an endowment to the University by Canadian Tire Corporation Limited as part of their commitment to community service and to Memorial University of Newfoundland via the Opportunity Fund Campaign. The endowment will fund three scholarships in the Faculty of Arts, valued at the annual interest on the initial endowment. The scholarships will be awarded to undergraduate students entering third or fourth year in the Faculty of Arts - one each to students majoring in Economics, Linguistics, and Sociology. They will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Head of each of the three academic departments.

Chevron Canada Ltd. Endowed Scholarships in Business, Earth Sciences, Economics and Engineering
These scholarships, valued at a portion of the income from the endowment, will be awarded starting in 2011 to full-time students enrolled in at least their second year of Engineering and Applied Science, Earth Sciences, Business or Economics; in a given year, it is anticipated that students from all four faculties will be represented. Selection will be based on scholarship standing as well as expression of interest in potential employment in the oil and gas industry, and signaling of career location mobility. Level of service to community, or leadership will also be considered. Students may receive the scholarship in more than one year. They will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the: Dean, Faculty of Engineering and Applied Science; Head, Department of Earth Sciences; Dean, Faculty of Business Administration; and Head, Department of Economics.

Chevron Canada Ltd. Term Scholarships in Business, Earth Sciences, Economics and Engineering
These scholarships, valued at $4,000, will be awarded to full-time students enrolled at least their second year of Engineering and Applied Science, Earth Sciences, Business or Economics; in a given year, it is anticipated that students from all four faculties will be represented. Selection will be based on scholarship standing as well as expression of interest in potential employment in the oil and gas industry, and signaling of career location mobility. Level of service to community, or leadership will also be considered. Students may receive the scholarship in more than one year. They will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the: Dean, Faculty of Engineering and Applied Science; Head, Department of Earth Sciences; Dean, Faculty of Business Administration; and Head, Department of Economics.

Reverend Professor A.C. Cheyne Scholarship in Religious Studies
This fund has been established by the estate of the late Reverend Professor A.C. Cheyne. It is based on scholarship standing and is awarded to a full-time undergraduate student in any year of study who is majoring in Religious Studies. The scholarship will be valued at a portion of income on the endowment. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Head of the Department of Religious Studies.

The Captain James Cook Memorial Scholarship
A fund was established in 1979 by members of the Department of Geography to honour the memory of Captain James Cook (1728-79), explorer, navigator and cartographer, whose years of painstaking mapping of the coasts of Newfoundland and Labrador laid the basis for a comprehensive and scientific knowledge of the geography of the province. One or more scholarships, valued at not less than $600.00, will be awarded annually by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Department of Geography to a student or students demonstrating particular merit in Geography.

The Clayton and Alice Cook Scholarship
This scholarship has been established by Mr. Clayton D. Cook, retired Newfoundland/CN Railway Trainman. The scholarship will be valued at a portion of the income on the endowment and awarded annually. To be eligible, candidates must be enrolled full-time in an undergraduate program at Memorial University of Newfoundland, be residents of Newfoundland and Labrador (as defined by the University) and have scholarship standing. First preference will be given to candidates who are sons, daughters, grandchildren, great-grandchildren or wards of the Newfoundland/CN Railway Trainmen. When an eligible student meeting these criteria cannot be identified, second preference will be given to students enrolled in the Newfoundland Studies program. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.
Michael Cook Scholarship
The Michael Cook Scholarship will be awarded annually to a student who has completed English 3350 (Theatre) and English 3351 (The Physical Stage) and who shows definite promise and purpose in pursuing the study of theatre and drama at Memorial University of Newfoundland. The value of the scholarship is $1,000.00. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head of the Department of English.

The John and Jane Crosbie Scholarship
This scholarship is the result of an endowment to the University started by the Honourable John C. Crosbie, P.C, O.C., Q.C, in 1996 while he was Chancellor and Campaign Chair and further funded by volunteers of The Opportunity Fund in honour of Mr. Crosbie's commitment to Memorial University of Newfoundland. Valued at a portion of the annual income on the initial endowment, the scholarship(s) (each valued at a minimum of $1,000.00) will be awarded to one or more undergraduate student(s) beyond first year in the Faculty of Arts. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Dean, Faculty of Arts.

The John and Anna Daley Scholarship
This scholarship, valued at a minimum of $1,000.00 annually, has been established by the Daley family in honour of their parents John and Anna. It will be awarded on the basis of scholarship standing to an undergraduate student beyond first year in the Faculty of Arts. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean, Faculty of Arts.

The Dr. Madeleine Darte Scholarships in English
These scholarships, up to four each year and having a value of not less than $250.00 each, have been established by Mrs. J.M. Darte and Mrs. France Darte McCabe in memory of Dr. Madeleine Darte, Lecturer and Assistant Professor of English at this University from 1971-75. In awarding these scholarships, preference will be given to students in the Honours program in English, but students in good standing in the General Degree program in English will also be considered. In addition to the student's academic record, financial need may also be taken into account. Applications for these scholarships should be sent to the Head of the Department of English. Awards will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Department of English.

The Sally Davis Scholarship
The Sally Davis Scholarship has been established to celebrate the memory and life work of Sally Davis. Contributions to the scholarship fund have come from family and friends who were so lovingly and generously influenced by Sally during her long life. The scholarship, valued at $1000.00, will be awarded annually in the Spring Semester. Eligible candidates must be full-time students in the Master of Gender Studies program. Preference will be given to a candidate studying in one of the following areas: peace and international understanding, literacy, children, labour movement, gun control, or environment. If there is no qualified graduate applicant in a particular year, the award may be offered to an undergraduate (who is registered in a minor in Gender Studies) who is in financial need. An individual may receive the award twice but no more. In the case of graduates it is awarded by the Dean of Graduate Studies upon recommendation of the Head, Department of Gender Studies Program. In the case of undergraduates, the scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Head, Department of Gender Studies Program.

The Joseph and Joyce Dawson Memorial Bursary in Philosophy
This bursary was established by an anonymous donor to honour Joseph “Peter” Dawson and his wife, Joyce. Professor Dawson taught in the Department of Philosophy and was Head of the Department from 1964-1975. He oversaw the Department's expansion and assumption of new roles across Campus. Valued at $1500, it will be awarded annually to an undergraduate student majoring in Philosophy at Memorial University of Newfoundland, who meets the minimum academic requirements for a bursary as defined by the University, and has demonstrated financial need. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, based on a recommendation by the Head, Department of Philosophy.

The Gladys Deutsch Travel Bursary for Arts
This travel bursary was established through a bequest by Gladys Deutsch, a retired employee of the QEI Library and a supporter of the arts. It is valued at a portion of the income from the endowment and will be awarded annually to a full-time, undergraduate student who is participating in one of the overseas Field Schools or study abroad programs in the Faculty of Arts. The recipient must meet the minimum academic requirements for a bursary as defined by the University and have demonstrated financial need. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Head, Faculty of Arts.

The Dominion of Canada General Insurance Company Scholarship
This scholarship is the result of a donation to Memorial University of Newfoundland by the Dominion Group Foundation. The scholarship, valued at the annual interest, will be awarded to a student in first year of the Faculty of Arts. It will be awarded on the basis of scholarship standing and financial need.

English Department Faculty Award
This award has been established, and is supported by, faculty and staff of the Department of English. Valued at a portion of the income on the investment, it will be awarded annually to a full-time undergraduate student with a major in English. To qualify, candidates must be in their third year of study or beyond, have successfully completed a minimum of 21 credit hours in English (of which at least 3 credit hours must be at the 3000 level), and meet the minimum academic requirements for an award as defined by the University. The award will be granted by the Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Head, Department of English.

The Ernest Joseph Ennis Scholarship
This scholarship was established by Ernest Joseph Ennis of Merasheen, Placentia Bay, retired School Supervisor, in memory of Dr. Hatcher, Ms. Monnie Mansfield, and Professors Fraser, Gillingham, and Andrews of the Memorial University College. This scholarship, valued at the accrued interest, shall be awarded to an entrance student of scholarship standing with preference to a student planning to study Economics or Political Science.

The David and Ethel Evans Scholarship in History
This scholarship was established in memory of Mr. and Mrs. France Darte McCabe in memory of Dr. Madeleine Darte, Lecturer and Assistant Professor of English at the University from 1971-75. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Head, Department of History.

The Faculty of Arts Annual Fund Awards
These awards are made possible each year by the generous donations of alumni and friends to the Faculty of Arts Annual Fund. Valued at a minimum of $500 they will be granted annually to undergraduate students enrolled in a Faculty of Arts program. First preference is for students enrolled in a study abroad program within the Faculty of Arts. The recipients must meet the minimum academic
requirements for an award as defined by Memorial University of Newfoundland and the number of awards available annually will be at the discretion of the Dean, Faculty of Arts. The awards will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Arts.

The Faculty of Arts Dean's List Scholarship
This scholarship, established by donors to the Opportunity Fund who have directed that their donations be used for scholarships within the Faculty of Arts, is valued at approximately $1,000.00 annually. It is awarded to a student who achieves high ranking on the Dean's List of the Faculty of Arts and who meets the requirements for scholarship standing, who is eligible to receive an undergraduate degree, and who has demonstrated academic excellence. The award will be given annually to a student in the Faculty of Arts, based on a recommendation from the Dean, Faculty of Arts.

The Leida Finlayson Memorial Scholarship
This fund has been established by relatives and friends of Leida Finlayson, former General Manager of the Newfoundland Historic Trust. The scholarship, valued at a portion of the accrued interest, is to be awarded annually to a student with academic excellence who has shown particular interest in the study of the Russian language with plans to pursue graduate studies in Russian. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on a recommendation from the Dean, Faculty of Arts.

The E.B. Foran Memorial Scholarship
This scholarship, awarded in memory of the late Mr. E.B. Foran, longtime associate of municipal government in St. John's, is valued at $500.00 and is sponsored by the Newfoundland and Labrador Federation of Municipalities. It is open to students majoring in French on the basis of scholarship standing and financial need. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on a recommendation from the Dean, Faculty of Arts.

The G. Alain Frecker and Helena M. Frecker Memorial Scholarship
This scholarship has been established by the family of G. Alain Frecker and Helena M. Frecker to honour their parents' life-long commitment to Memorial University of Newfoundland and to the pursuit of excellence in education. Helena M. Frecker was the first graduate of Memorial College and a long-time faculty member in the Department of English at Memorial University of Newfoundland. Dr. G. Alain Frecker was the first faculty member in the department of English at Memorial College. He maintained a close relationship with Memorial University of Newfoundland as a senior public servant, as a member of the Provincial Cabinet, and as University Chancellor from 1971 to 1979. This scholarship, tenable at Memorial University of Newfoundland and valued at $2,000.00, shall be awarded to a student in third year, or beyond, who has shown excellence in Canadian Policy Analysis or Canadian Governmental Studies.

The Daniel Freeman Memorial Scholarship
This scholarship was established from the contributions of many family members, friends, and fellow students in memory of Danny Freeman, a former Engineering student at Memorial University of Newfoundland. The scholarship, valued at a portion of the accrued interest, will be awarded annually, on a rotating basis, to students enrolled in either Engineering or Mathematics. Preference will be given to candidates with disabilities with consideration given to quality of character and overall perseverance. If a successful candidate is not recommended by the discipline on rotation in a given year, the scholarship will be awarded to the other discipline in that year. If no candidates are available from the first group, any student enrolled in either Engineering or Mathematics (discipline to be determined by the rotation schedule in a given year) will be considered. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on a recommendation from the Dean, Faculty of Arts.

The David Freeman Memorial Scholarship in English
This scholarship honours Dr. David Freeman, a widely admired Grenfell English professor whose scholarship and zest inspired a wide circle of students, friends and colleagues. A well-known scholar of the editing of Renaissance literary texts, Dr. Freeman took his scholarship out of the classroom to enliven a broad range of presentations, public readings and dramatic performances. This scholarship is awarded in his honor in the second year of study pursuing a Bachelor of Arts in English at Grenfell Campus, Memorial University of Newfoundland, and valued at $500.00. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Arts, and valued at approximately $1,000.00 annually. It is awarded to a student who achieves high ranking on the Dean's List of the Faculty of Arts.

The Allan and Clara Gillingham Scholarship in Russian Studies
On the occasion of their fiftieth wedding anniversary, this scholarship has been established by Mr. and Mrs. Gillingham, who both hold family memberships of studying the Russian language themselves. Valued at $500.00, this scholarship will be awarded annually to a student who is pursuing a program of Russian Studies at Memorial University of Newfoundland. Candidates will be selected on the basis of academic excellence. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of German and Russian.

James A. Good Scholarship in Philosophy
This scholarship has been established by friends and colleagues in Memory of James A. Good. Mr. Good was a successful investment banker and Partner at Capital Canada Limited in Toronto. He earned his B.A. in Philosophy and Political Science from Memorial University of Newfoundland, an M.A. in Philosophy from Dalhousie University, and undertook doctoral studies in Philosophy at the University of Toronto where he was also a lecturer. He was Chief of Staff to the Honourable John C. Crosbie, a position he maintained across the portfolios of Justice, Transport, Finance, International Trade and Fisheries. Valued at a portion of the income on the investment, the scholarship will be awarded to an undergraduate student majoring in Philosophy. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Department of Philosophy.

The Graham Family Scholarship
This scholarship, established by Mrs. Kathleen Birchall and Dr. David Graham, is valued at a portion of the income on the investment. It will be tenable at Memorial University of Newfoundland and will be awarded to an outstanding student majoring in French with preference given to students enrolled in the Honours program. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on a recommendation from the Dean, Faculty of Arts.

The Allan and Clara Gillingham Scholarship in Russian Studies
Established by the Government of Newfoundland and Labrador, this scholarship honours a native Newfoundlan, Senator Eugene Forsey, as one of Canada's foremost authorities on the Canadian Constitution, and recognizes his great commitment to Canada and this province. The scholarship, tenable at Memorial University of Newfoundland, and valued at $2,000.00, shall be awarded to a student in third year, or beyond, who has shown excellence in Canadian Policy Analysis or Canadian Governmental Studies.

The David Freeman Memorial Scholarship in English

It is awarded to a student who achieves high ranking on the Dean's List of the Faculty of Arts.
Scholarships, Bursaries and Awards 2015-2016

The R. Bertram Green Class Scholarship
This scholarship is the result of a bequest to the University by Rev. Dr. Robert Bertram Green. Valued at the annual interest on the initial endowment, it will be awarded to an undergraduate student in second or third year in the Faculty of Arts, majoring in either Classical or Modern Languages, Economics, English, History, Philosophy, or Political Science. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Dean, Faculty of Arts.

Greystone Managed Investments Scholarship
This scholarship, valued at a portion of the income on the investment, is made possible by a generous contribution from Greystone Managed Investments. This scholarship will be awarded to an undergraduate student beyond first year, on a rotating basis between the Faculty of Science and the Faculty of Arts. Based on scholarship standing it will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of the Faculty on rotation.

The Mary A. Griffiths Memorial Award for Folklore Field Research (Undergraduate)
This fund has been established by the Memorial University of Newfoundland Folklore Society in memory of Mary A. Griffiths, B.A. (Folklore). Valued at a portion of the income on the endowment, one or more awards will be granted annually to undergraduate folklore students who complete a superior paper based on original field research. Selection will be made on the basis of a submitted paper indicating original field research that was completed as part of the requirements of an undergraduate Folklore course during the previous twelve months. Application forms and guidelines are available from and should be submitted to the Department of Folklore. The deadline for submission of applications is January 31. If there are no suitable candidates in a given year the bursaries will not be awarded. The awards will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head of the Department of Folklore.

The Alan D. Hall Award
This award has been established in memory of Alan D. Hall by his friends and family. A longtime faculty member in the Department of English at Memorial University of Newfoundland, he was deeply engaged in Music and Theatre throughout his life. The award, valued at a portion of the income on the investment, will alternate between the School of Music and the Faculty of Arts on a yearly basis. For the School of Music the award will go to a Music student beyond first year who demonstrates a high level of achievement and potential for academic performance in the fields of music and theatre. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Arts.

The Gunther Hartmann Scholarship
This scholarship has been established by family, friends and colleagues in memory of Dr. Gunther Hartmann who was a member of the Department of Political Science from 1968-2000. Dr. Hartmann fostered student interest in international affairs not only through his teaching, but through the United Nations Association and the Model United Nations program. In awarding the scholarship preference will be given to a Political Science student, third year or beyond, who has excelled in courses in International Relations, International Organization, or International Law and has been active in Model United Nations or similar organizations. Based on scholarship standing the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of Political Science.

The Michael Harrington Research Prize in Newfoundland History
This award has been established in memory of Alan D. Hall by his friends and family. A longtime faculty member in the Department of Political Science from 1968-2000, Dr. Hartmann fostered student interest in international affairs not only through his teaching, but through the United Nations Association and the Model United Nations program. In awarding the scholarship preference will be given to a Political Science student, third year or beyond, who has excelled in courses in International Relations, International Organization, or International Law and has been active in Model United Nations or similar organizations. Based on scholarship standing the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of Political Science.

Heselip Scholarship
This scholarship is made possible by a generous donation from The William and Nona Heselip Foundation. Two scholarships, valued at $15,000.00 each, will be available to students in their second year of undergraduate studies at Memorial University of Newfoundland. To be eligible students must be registered for full-time studies, must have scholarship standing, must be in financial need, and must have demonstrated outstanding involvement in university and/or community affairs. Preference will be given to students in the Faculty of Arts. This scholarship is renewable for an additional two years providing full-time registration, scholarship standing, financial need and continued outstanding involvement in university and/or community affairs are demonstrated. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Graduate Studies, also upon recommendation of the Head, Department of History.

The Aiden Hennebury Memorial Scholarship in Classics
This scholarship is the result of an endowment to Memorial University of Newfoundland via the Opportunity Fund Campaign by the law firm of Martin, Whalen, Hennebury & Stamp in memory of former partner Mr. Aiden Hennebury. The donation will fund a scholarship valued at the annual interest on the endowment. The scholarship will be awarded to an undergraduate student beyond second year who is majoring in Classics. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Dean, Department of Classics.

The Elizabeth C. Hesson Memorial Scholarship in German
This scholarship was established in memory of Dr. Elizabeth C. Hesson, Head of the Department of German and Russian from 1986 to 1989 and a member of that Department from 1969 to 1989, through the generosity of her family, colleagues and friends. The scholarship has a value of $1,000.00, and is normally awarded to a German major who has completed at least the second year of study at Memorial University of Newfoundland and who has demonstrated a high level of academic performance in German. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Head, Department of German and Russian, and is designed to assist the student to undertake a program of German studies in German-speaking Europe. In addition to academic excellence, financial need may be taken into account. This scholarship will not necessarily be awarded every academic year.

The Hollinger English Language and Literature Scholarship
This scholarship, donated by Hollinger Inc., will be awarded to a Memorial University of Newfoundland student who is beyond second year and is majoring in English Language and Literature. It will be valued at the annual interest and will be awarded by the Senate...
Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of Scholarship Standing and upon recommendation of the Head, Department of English.

The A.C. Hunter Travel Award in French
This award has a value of not less than $600.00 and is awarded annually. It has been established in memory of Dean A.C. Hunter through the generosity of Mrs. Hunter, the Provincial Government of Newfoundland, the Board of Regents of Memorial University of Newfoundland and Dean Hunter's former students and friends. The award shall take the form of a travel grant to a student, in second year or beyond, majoring or minoring in French who wishes to pursue a program of study of one or more semesters' duration, in French language, literature or culture, at a recognized institution in metropolitan France. Eligibility for this award requires a minimum of clear academic standing (as defined by the University) in the previous scholarship year. The award shall be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on the recommendation of the Department of French and Spanish.

The Muriel H. Hunter Award in Spanish
This award, valued at $600.00, is awarded out of income derived from a bequest to the University by the late Mrs. Muriel H. Hunter, wife of the late Dr. A.C. Hunter and former Lecturer in Spanish at the Memorial University College. The award shall take the form of a travel grant to a student, in second year or beyond, majoring or minoring in Spanish who wishes to pursue a program of study of one or more semesters' duration, in Spanish or Spanish-American language, literature or culture, at a recognized institution in metropolitan Spain or Latin America. Eligibility for this award requires a minimum of clear academic standing (as defined by the University) in the previous scholarship year. The award shall be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on the recommendation of the Department of French and Spanish.

The Imperial Tobacco Canada Scholarship in Archaeology
This scholarship, established by Imperial Tobacco Canada in support of the Opportunity Fund Campaign, has a minimum value of $2,000.00 annually. It will be awarded to a senior in archaeology who is registered in (or is planning to enter) the honours program, specializing in historic archaeology. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Head, Department of Archaeology.

The H.H. Jackson Travel Scholarship in German
This scholarship was established upon the retirement of Dr. Herbert H. Jackson, Professor Emeritus and first Head of the Department of German and Russian from 1967 to 1980, through the generosity of his colleagues and students. The scholarship has a minimum value of $500.00 and is awarded annually by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, upon the recommendation of the Department Head, to a candidate who has completed at least the second year of study at Memorial University of Newfoundland, has demonstrated a high level of academic performance in German, and is planning to undertake a program of studies and/or work assignment in a German-speaking country.

R.S. “Jimmy” James and Marion Jean James Memorial Scholarship in English
This scholarship was established through a bequest from the Estate of Marion Jean James in memory of her late husband, R.S. “Jimmy” James, to promote and advance the studies of poetry. Born in Long River, Prince Edward Island, Jean attended several Canadian universities and graduated from the London School of Economics with a Doctorate in Philosophy. Her late husband, Jimmy, was a writer and poet. He worked for many years with CBC’s Fisheries Broadcast program. Valued at a portion of the income on the investment, the scholarship will be awarded annually to a full-time Memorial University of Newfoundland student, enrolled as an English major, who achieves the highest grade in a course dedicated to the study of poetry. If there is more than one eligible recipient, then it will be awarded to student enrolled in the highest level course number. The recipient must meet the minimum academic requirements for a scholarship as defined by Memorial University of Newfoundland. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on the recommendation of the Head, Department of English.

The Jeroboam Poetry Prize in English
The proceeds from a sum of money donated to the University in 2001 by the editors of Jeroboam Books will be awarded in an annual poetry competition administered by the Department of English, Memorial University of Newfoundland. The competition will be open to full-time or part-time students in any year of study at the University upon submission of original, unpublished work. In keeping with the tradition of Jeroboam, the work should reflect some aspect of traditional or contemporary Newfoundland. Entry forms and further information may be obtained by contacting the Department of English. The selection of winners will be the responsibility of a special committee composed of the Department of English faculty members. The prize will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of English.

The Barend Kiefte Memorial Award
This award was established by friends of Dr. Barend Kiefte, in his memory. It is a book prize to be given annually to a student in Philosophy. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Head, Department of Philosophy.

The Dr. B.K. Kim Scholarship in Statistics
This scholarship will be awarded annually to an undergraduate student whose major subject of study is Statistics. The award honours the memory of the late Dr. B.K. Kim who taught in the Department of Mathematics and Statistics from 1976-84. The scholarship, with a value of at least $500.00, will normally be based on academic achievement in third year and/or fourth year courses and will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of Mathematics and Statistics.

The Cornelia Learning/Annie Butler Moores Scholarship
In memory of her maternal and paternal grandparents, Mrs. Dorothy Young of Pasadena, California, has established the Cornelia Learning and Annie Butler Moores Scholarship in the Faculty of Arts. This perpetual scholarship, valued at approximately $500.00, is open to Arts students of scholarship standing with demonstrated financial need.

The John and Lucy Lee and Family Memorial Bursary
This bursary has been established by family members to honour the memory of John and Lucy Lee of Petty Harbour and their deceased children. It is valued at a portion of the interest on the endowment and will be awarded to a full-time student in Religious Studies. The recipient of this bursary will have demonstrated scholarship standing and financial need. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Head, Department of Religious Studies.

The Mrs. E.D. Matthews Memorial Scholarship in Mathematics and Statistics
This scholarship honours the memory of the late Mrs. Evelyn Matthews who taught in the Department of Mathematics and Statistics, Memorial University of Newfoundland, from 1959-78. It has a value of at least $500.00, and will be awarded on an annual basis to an undergraduate student whose major subject of study is Mathematics or Statistics. The scholarship will be based on academic merit and will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of Mathematics and Statistics.

The Susan McCorquodale Memorial Scholarship
Established by her friends and colleagues, this scholarship honours the memory of Susan McCorquodale, former member of the Political
Science department at Memorial University of Newfoundland. The scholarship will be valued at the annual interest on the endowment and shall be awarded to a senior student majoring in Political Science who is concentrating in one of the areas to which Susan was committed - Newfoundland Politics, Public Policy or Public Administration. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of a recommendation from the Head, Department of Political Science.

The Reverend G. Lloyd Morgan Memorial Scholarship
This scholarship, awarded annually, has been donated by Mr. Baxter Morgan and his wife Lorraine to the Religious Studies Department of the University in memory of Mr. Morgan's brother, The Reverend G. Lloyd Morgan, B.A., B.D., who served with the United Church in Newfoundland for over two decades.

It has a value of $500.00 and is awarded for academic excellence to a student who has completed two years of study in the Religious Studies Department of the University. Preference will be given to a student who has a major interest in the comparative study of religion. The scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Religious Studies Department.

The John M. and Elsa S. Morgan Scholarships
These scholarships have been bequeathed to the University by the late Dr. John M. Morgan, B.Sc., M.D., and have been named to commemorate Dr. Morgan and his wife Elsa. Up to twenty-five scholarships will be made available annually to undergraduate students who have completed at least one year of studies at Memorial University of Newfoundland within the areas specified below and who will be continuing in these programs. The scholarships, valued at a minimum of $1,000.00 each, will be disbursed as follows:
- up to five to the Faculty of Medicine
- up to four to the School of Nursing
- up to four to the Faculty of Education
- up to four to the Department of Philosophy
- up to two to the Department of Anthropology
- up to two to the Department of Archaeology
- up to two to the Department of Religious Studies (with preference to students of comparative religions)

The scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the appropriate Dean/ Director/Department Head. Preference will be given, where possible, to students from the Port-de-Grave District.

Rick Morris Memorial Bursary
This bursary was established in memory of Rick Morris by his family and friends. Rick was a caring individual who was deeply committed to Newfoundland and worked with a variety of individuals, organizations, and government. He was a mentor to many helping professionals, who regularly sought his counsel on personal and professional issues. He was deeply concerned with violence against individuals, particularly women, children, and the survivors of Mount Cashel. He was involved in the establishment of Unified Family Court’s mediation services and frequently collaborated with the aboriginal and senio r’s communities. The bursary, valued at a portion of the income from the endowment, will be awarded annually to a student who is in financial need and meets the minimum academic requirements for a bursary. It will be awarded on a rotating basis to a student enrolled in one of the following academic areas: Year 1- School of Social Work, Year 2- Faculty of Education, Year 3- School of Human Kinetics and Recreation, Year 4- Department of Gender Studies, and Year 5- School of Nursing. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Head of the appropriate academic unit for which the bursary is being awarded.

The MUN Classics Society Prize in Latin
This prize has been established by the MUN Classics Society of 2001-2002 to reward students achieving academic excellence. This prize will be valued at approximately $150.00 annually. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing, financial need and a recommendation from the Head, Department of Classics, to the student who is working toward an undergraduate degree in Classics and receives the top mark in the Classics 1120 and 1121 (Introduction to Latin) courses on the St. John's campus.

The Stephan Muzychka Bursary in Spanish
This bursary, valued at a portion of the annual interest, has been established by an endowment from the family of Professor Muzychka who taught Spanish Language and Literature at Memorial University of Newfoundland from 1960 until his death in 1985. Mr. Muzychka was born in 1926 in Pukiw, Ukraine. He attended the Ukrainian Teacher’s Training College and later the University of Madrid where he received his MA in Philosophy in 1959. He joined Memorial University of Newfoundland’s Department of Modern Languages (at the old Parade Street Campus) and later became Head of the Department of Spanish. First preference, for this bursary, will be to a student majoring or minoring in Spanish who is beyond second year. If no candidate is available from the first preference the bursary will be awarded to a student beyond second year studying modern languages. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing, financial need and a recommendation from the Head, Department of French and Spanish.

The Newfoundland & Labrador Hydro Scholarships
These scholarships are the result of an endowment to the University provided by Newfoundland and Labrador Hydro. Valued at the annual interest on the endowment, up to ten of these scholarships will be awarded, initially in amounts of $1,000.00 each and increasing as income permits, to ten undergraduate students in the Faculty of Arts at the second year and beyond. Half of the available scholarships will be for students of scholarship standing majoring or minoring in one of the interdisciplinary programs in the Faculty, and half will be for students of scholarship standing who are named to the Dean's List and who achieve exceptionally high overall averages, normally 85% or better. Those directed at students enrolled in interdisciplinary programs will be awarded on the recommendation of interdisciplinary Program Co-ordinators; those for Dean's List students will be awarded on the recommendation of the Dean of Arts. In both cases financial need may be taken into consideration. Preference will be given to students meeting these criteria who are not already in receipt of significant scholarship funding from other sources.

Newfoundland St. Andrew's Society Scholarship
This scholarship is the result of a gift from the Newfoundland St. Andrew’s Society to Memorial University of Newfoundland. Valued at a portion of the interest on an endowment, the scholarship will be awarded to a student from the Faculty of Arts whose studies and accomplishments most closely support the aims of the Newfoundland St. Andrew's Society; To foster and encourage the love of Scotland, its history, literature, music and national games in a Newfoundland context. In the case of undergraduate students the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing. In the case of graduate students the scholarship will be awarded by the Dean, School of Graduate Studies. In both cases it will be awarded on the basis of a recommendation from the Dean, Faculty of Arts.

The Honourable Fabian A. O'Dea Q.C., LL.D. Scholarship
This scholarship has been established by the O’Dea family in memory of their father, the Honourable Fabian O'Dea; Memorial University of Newfoundland Alumnus, Rhodes Scholar, Lieutenant Governor of Newfoundland, and recipient of honorary degrees from both
Memorial University of Newfoundland and The Law Society of Newfoundland. It is valued at $1,000 per year. To commemorate Dr. O’Dea’s work in Newfoundland cartography, the scholarship is to be awarded to a student majoring in Geography who achieves scholarship standing. Preference is to be given to a student who is physically or learning disabled but if there is no such candidate in a given year it will be awarded to any eligible undergraduate Geography student. The scholarship is to be awarded by The Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Head, Department of Geography.

Lt. Donald O’Neill Memorial Award in Police Studies
This award was established by generous donations from family and friends in memory of Donald Anthony Michael O’Neill. A retired Superintendent of the Royal Newfoundland Constabulary, he proudly served for 28 years and was one of 66 officers who held the line against 250 loggers at the Badger Riots in 1959. As a young man, he was an accomplished athlete having won many trophies for hockey and having held a provincial record in track and field for discus that stood for many years. While Don grew up on the family farm on Bell Island he spent most of his years in St. John’s where he served his community with honour and distinction. He was known to many for his remarkable sense of duty and it was not uncommon for neighbours to wake up to find him clearing their driveways in a mid-winter blizzard. In honour of Lt. Donald O’Neill this award is valued at $500 and will be given annually to a cadet enrolled in the Diploma in Police Studies program at Memorial University of Newfoundland. The recipient must meet the minimum academic requirements for an award as outlined by Memorial University of Newfoundland. The award will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Coordinator, Diploma in Police Studies.

The Dr. Paul O’Neill Scholarship for Excellence in Newfoundland and Labrador Studies
The Historic Sites Association of Newfoundland and Labrador established this scholarship in honour of Dr. Paul O’Neill, LL.D., C.M., in recognition of his contributions to the study and promotion of Newfoundland and Labrador culture and history. The scholarship is valued at $1000 and will be awarded annually to an undergraduate student at Memorial University of Newfoundland, who is enrolled in a Bachelor of Arts degree program. There is no restriction by major or minor, but applicants must have shown excellence and outstanding enthusiasm and interest in some area of Newfoundland Studies as part of their degree program. Preference will be given to a student who has not received other major scholarships in the same academic year. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean, Faculty of Arts.

The Senator Gerald R. Ottenheimer Language Scholarship
This scholarship, valued at the annual interest on the initial endowment, has been established via The Opportunity Fund in memory of Senator Ottenheimer through the generosity of White Ottenheimer & Baker, Barristers & Solicitors. It will be awarded on a rotating basis to students majoring in one of the language programs or the English programs at Memorial University of Newfoundland (graduate or undergraduate). At the undergraduate level it will be awarded on the basis of scholarship standing to a student in second year or beyond who is one of the acknowledged students. In the case of graduate students it will be awarded to a full-time student doing the Masters of Arts in one of the disciplines noted. If the successful candidate is an undergraduate, the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. If the winner is a graduate student, it will be awarded by the Dean, School of Graduate Studies. In both cases it will be awarded on the basis of a recommendation from the Dean, Faculty of Arts.

The Rt. Hon. J.W. Pickersgill Bursary in History
Jack Pickersgill was a teacher and lover of history. He believed strongly in the importance of education and was always grateful for the scholarships and bursaries that made this possible. He represented the constituency of Bonavista-Twillingate in the Canadian House of Commons from 1953 to 1967 and his affection for Newfoundland and Labrador lasted all his life. This bursary was established in Jack’s memory by family and friends. Valued at a portion of the income on the endowment, the bursary will go to an undergraduate student in Faculty of Arts with demonstrated financial need as well as a declared major in History. The recipient must meet the minimum academic requirements for a bursary as outlined by the University. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of History.

The Stuart O. Pierson Prize
The Stuart Pierson prize, valued at a portion of the annual interest, will be awarded annually on the joint recommendation of the Head of the History department and the Co-ordinator of the Masters of Philosophy program in Humanities. Eligible students will be enrolled full time, in either the Masters of Philosophy or in the M.A. or B.A.(Hons.) programs in History. Preference will be given to students who show particular promise in the history of ideas, historiography, or the history of science. In the case of undergraduate students, the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. In the case of graduate students, it will be awarded by the Dean, School of Graduate Studies.

Mary Pittman-Robbins Scholarship in Archaeology
This scholarship, valued at a portion of the income on the investment, has been established by students and colleagues of Mary Pittman-Robbins. The scholarship is to be awarded to a senior student in Archaeology who has completed the honours program specializing in Prehistoric Archaeology or Physical Anthropology. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Department Head in consultation with the Archaeology faculty.

The Dr. Clarence W. Powell Memorial Scholarship
This scholarship was established in memory of honorary graduate of Memorial University of Newfoundland, Dr. Clarence W. Powell. It is valued at a minimum of $1,000.00 annually and will be awarded to a student entering the third year of the Political Science Program who has scholarship standing, has shown leadership in university and/or community activities and who has not received another scholarship administered by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Head, Department of Political Science.

The Psychology Society Award
The Psychology Society Award has been established by the students of the Psychology Society to encourage and support their fellow students. This award will be given to an undergraduate student majoring in Psychology or Behavioural Neuroscience who is beyond their second year of study and meets the minimum academic requirements for an award. It will be based on academic achievement in Psychology or Behavioral Neuroscience courses as well as involvement in the internal and external Psychology or Behavioral Neuroscience community. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of Psychology.

The Cpl. Michael J. Roberts Memorial Award in Police Studies
This award has been established in memory of Tampa Police Officer, and Memorial University of Newfoundland graduate, Cpl. Michael (Mike) Roberts. Born in Florida and raised in Newfoundland, Cpl. Roberts died tragically in the line of duty on August 19, 2009. He served his community with honour and distinction over his many years on the force and earned numerous commendations and awards. Valued at a portion of the income on the endowment, the award will go to a student with demonstrated financial need who is enrolled in the Diploma in Police Studies program at Memorial University of Newfoundland. The recipient must meet the minimum academic requirements for an award as outlined by Memorial University of Newfoundland. The award will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Coordinator, Police Studies Diploma Program.
The Bobbie Robertson Scholarship in History
This scholarship was established by friends, family and colleagues of the late Bobbie Robertson. It will be valued at the annual accrued interest on the initial endowment and will be awarded on the basis of scholarship standing to a history major with preference given to students in Newfoundland and Labrador history. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Head, Department of History.

The Dr. Grenville R. Robinson Award in French
This award was established in memory of the late Dr. Grenville Robinson, a former professor of the Department of French at Memorial University of Newfoundland. Valued at a portion of the income on the investment, it will be awarded each Spring to a student in the Department of French on the basis of his/her performance in any three or more of the following French courses: 3100, 3101, 3500, 3501, 3502, 3503, 3504 and 3506 and his/her contribution to the general activities of the Department. The successful recipient must be a full-time student and have completed between 60-90 credit hours towards a Bachelor of Arts at Memorial University of Newfoundland with a major or minor in French. The recipient will also receive a book prize and a certificate. This award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Head, Department of French and Spanish.

Rotary Club of St. John's Northwest Scholarship
This scholarship has been established by the Rotary Club of St. John's Northwest. Since 1965, members of the Rotary Club of St. John's Northwest have dedicated themselves to helping our community under the motto of “Service Above Self.” The scholarship is valued at a portion of the income on the investment and will be awarded annually to a full-time student beyond the first year in the Department of Sociology in the Faculty of Arts. Eligible students would have completed high school in Newfoundland and Labrador. The recipient would have been involved with campus-based volunteer activities and/or community service work. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Department of Sociology. This scholarship will be presented at one of the regular meetings of the Rotary Club of St. John's Northwest and the recipient will be asked to speak about their goals and community service work.

Dr. Edward ("Ted") Russell Scholarships in English
In memory of Dr. Edward ("Ted") Russell, author and teacher, who was a Lecturer and Assistant Professor of English at this University from 1965-73, a fund has been established to provide one or more scholarships for students majoring in English. These scholarships will be awarded to promising students who have completed their first year of University studies and are entering the second year of a degree program with English as their major subject. In addition to the student's academic records, financial need may also be taken into account. Applications should be sent to the Head of the Department of English. Awards will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Department of English.

The Russian Ambassador’s Award for Excellence in Russian Language and Literature
This award was established in 1999 to commemorate the 200th Anniversary of the birth of the Russian poet Alexander Pushkin. It is a book prize to be given annually for outstanding achievements in studying the Russian Language and Literature. It will be awarded to an honours student in the Russian Language and Literature program at Memorial University of Newfoundland. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Department of English.

Scotiabank Bursaries for International Study
These bursaries, funded by a generous donation from Scotiabank to The Opportunity Fund, are intended to help students broaden their educational experience and cultivate an international perspective through study abroad while pursuing studies in the Faculty of Arts at Memorial University of Newfoundland. The bursaries will be valued at a portion of the income on the endowment. The undergraduate bursaries will be awarded on the basis of scholarship standing to full-time students who are participating in one of the overseas Field Schools or study abroad opportunities sponsored by the Faculty of Arts. These include the Arts semester in Harlow (every Fall) as well as Summer programs at Harlow, UK and in other countries, with a preference for those in which Scotiabank operates. In addition, students wishing to participate in formal exchange programs through the Faculty of Arts will also qualify. The graduate bursaries will be based on academics as well and will assist full-time Faculty of Arts master’s and doctoral students (including those in interdisciplinary programs) to travel to other countries for the purpose of thesis research and thesis-related study. In both cases financial need may be taken into consideration. In the case of undergraduates the bursaries will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. In the case of graduates they will be awarded by the Dean, School of Graduate Studies. In both cases the bursaries will be awarded on the basis of recommendation from the Dean, Faculty of Arts.

Ron and Gwen Seary Memorial Scholarship
Two scholarships from the interest on a fund established by the family, colleagues and students of Ron and Gwen Seary shall be awarded. One scholarship shall be given to a student beyond second year who is majoring in English and who is recommended by the Head of the Department. One scholarship shall be awarded to a student in Primary/Elementary Education who shows promise in Art Education and who is recommended by the Dean, Faculty of Education.

The Roberta H. Sellsars Scholarship
This scholarship is the result of an endowment by the Rev. Walter C. Sellsars in recognition of his wife Roberta for her loyal and loving support, particularly while he was struggling through university. The scholarship will be awarded annually to a full-time student in any year in either the Faculty of Arts or Science on a rotating basis. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on scholarship standing and financial need and upon the recommendation of the appropriate Dean.

The Geoff Seymour Sr. Memorial Bursary
This bursary was created in memory of Geoff Seymour Sr., a CBC Radio announcer with a true passion for the performing arts who worked with many of the theatre companies across Newfoundland. Valued at $500, it will be awarded on an annually rotating basis to a student at the Grenfell Campus and at a student at the St. John’s Campus. When awarded to a student at the Grenfell Campus, it will be awarded to a full-time student in the Theatre Program. When awarded to a student at the St. John’s Campus, it will be awarded to a full-time student who is completing either the Bachelor of Theatre and Drama Specialization Program or the Bachelor of Arts majoring in Theatre and Drama Specialization Program or the Bachelor of Arts majoring in Performance and Communications Media, both in the Department of English. The recipient will have demonstrated financial need and must meet the minimum academic requirements for a bursary at Memorial University of Newfoundland. In the event that there is no eligible candidate at the Campus on rotation in a given year, the bursary will be open to students at the other Campus. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on the recommendation of the Program Chair, Theatre, or the Head, Department of English, respectively.

Spurrell-Bartlett Bursary
This bursary was endowed by Morris and Janet Bartlett to honour their parents, Willis and Marjorie Spurrell and Francis and Jane Bartlett, who were devoted to the promotion of education in Newfoundland. It is valued at the annual accrued interest and is available to students in the Faculty of Arts, preferably from rural Newfoundland and Labrador. The bursary shall be awarded based on scholarship standing and need.
The St. Aiden's Presbyterian Church Memorial Scholarship
This scholarship, valued at approximately $1,000.00 will be awarded annually to a student who has completed at least two years of study in the Department of Religious Studies at Memorial University of Newfoundland. It will be awarded annually on the basis of scholarship standing and need. This scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of Religious Studies.

Statistical Society of Canada Scholarship
This scholarship has been established by a generous donation from the Statistical Society of Canada. It is based on scholarship standing and is awarded to an undergraduate student in any year of study who is majoring in Statistics and meets the minimum academic requirement for a scholarship. The scholarship will be valued at $750. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Head of the Department of Mathematics and Statistics.

Dr. Siegfried Thomeier Memorial Prize in Pure Mathematics
The prize, the interest from a donation by an anonymous donor, is awarded to a fourth or fifth year student majoring in Mathematics with a concentration in Pure Mathematics. The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Head, Department of Mathematics and Statistics.

Clyde K. Wells Prize in Constitutional Affairs
This prize was established at the initiative of the Court of Appeal of Newfoundland and Labrador by colleagues and friends of former Chief Justice Wells. Mr. Wells was born in Buchans Junction in 1937. He graduated from Memorial University of Newfoundland and Dalhousie Law School and built a thriving legal practice before serving as the fifth premier of Newfoundland and Labrador from 1989-1996. He was appointed a justice of the Supreme Court of Newfoundland Court of Appeal in 1998. In 1999 he was appointed Chief Justice of the Province, a position he held for ten years until he elected to work as a supernumerary justice before his full retirement from the Bench in November 2012. The prize is valued at $500. It will be awarded annually for ten years to the writer of an outstanding essay or research paper on a topic relating to Canadian (and/or pre-1949 Newfoundland) constitutional law or constitutional affairs in any discipline and the undergraduate level. The essay or paper must be submitted and endorsed by a course professor, lecturer or instructor and will be judged initially by the Dean of Arts, or Department Head, Faculty of Arts, who will shortlist the applicants and forward to a selection committee. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries, and Awards.

The Robert Westcott Memorial Scholarship
This scholarship was established by Mrs. Mary Westcott in memory of her late husband, Mr. Robert Westcott. It is valued at a portion of the annual interest on an endowment and will be awarded on a rotating basis to students beyond first year who have a strong commitment to post-secondary education and who are majoring in Business Administration and/or Economics. It will be based on scholarship standing and financial need and will be awarded to a student who was born in Newfoundland and Labrador. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation from the Dean/Department Head of the appropriate discipline.

The Dr. Louise Whiteway Prize in Newfoundland History
A bequest to the University by the late Dr. Louise Whiteway has funded a $100.00 prize in Newfoundland history. The prize will be awarded annually to a Memorial University of Newfoundland student who is considered to be the most promising student in Newfoundland history. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards acting on the recommendation of the Head, Department of History.

The Jacques Whitford Newfoundland Geoscience Scholarship
This scholarship, valued at the annual interest on their endowment, has been established by Jacques Whitford Environment Limited and Newfoundland Geosciences Limited as a contribution to the Opportunity Fund Campaign. It will be awarded on an annually rotating basis to students in the Faculty of Engineering and Applied Science (particularly Civil Engineering), the Faculty of Science (particularly Biological Sciences) and Archaeology. Successful candidates are to be of scholarship standing and preferably show an interest in environmental issues. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation from the Dean/Director/Department Head of the appropriate discipline.

The Dr. John Whitaker Memorial Prize in Greek
This prize is in memory of Dr. John Whitaker, former professor of Classics at the University. The prize will be valued at approximately $150.00 annually. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of a recommendation from the Head, Department of Classics, to the student who is working toward an undergraduate degree in classics and receives the top mark in the Classics 1130 and 1131 (Introduction to Greek) courses on the St. John's campus.

The Honourable Gordon A. Winter, O.C. Scholarship
This scholarship, donated by The Standard Manufacturing Company in recognition of the contribution of the Honourable Gordon A. Winter to the public life of Newfoundland and Labrador, is awarded annually for academic excellence to a student entering fourth-year political science. The award, valued up to $500.00, will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of Political Science. The value of the award will be determined by the interest accruing on the fund.

5.3 Faculty of Business Administration
The following are available to students in the Faculty of Business Administration based on a recommendation from the Dean. For definition of scholarship standing for co-op students, see Scholarships, Bursaries and Awards, General Information.

The Baine Johnston Corporation Scholarship for International Study
This scholarship was established from contributions to the University's Opportunity Fund Campaign by Baine Johnston Corporation. Valued at the annual interest on the endowment, the scholarship will be awarded to an undergraduate business student who is on an academic international exchange or on a Harlow term. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation from the Dean, Faculty of Business Administration.

BDQ Canada Leadership Award
This award, valued at a portion of the income on the investment, will be given to a student enrolled in the Bachelor of Commerce (Co-op) program. This award will be given to a student who has expressed a strong interest in pursuing the Chartered Accountant designation. Selection will be based upon academic standing and demonstrated leadership abilities. The contribution from BDO's Local Office is in memory of Robert Fleming. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, Faculty of Business Administration.

The Lawrence S. Bloomberg Scholarship in Business Administration
This scholarship was established by a donation from First Marathon Securities to Memorial University of Newfoundland's Opportunity Fund Campaign. The scholarship, valued at the annual accrued interest, will be awarded to an undergraduate student in the Faculty of...
Business Administration. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, Faculty of Business Administration.

The Ernest C. Boone Award
The Ernest C. Boone Award was established by a donation from Mrs. Audrey Boone through the Tanglers Group of the St. John's Rotary Club to commemorate the late Ernest Boone, prominent Newfoundland entrepreneur and founder of E.C. Boone Limited. The award valued at $500.00 will be granted to a student with a minimum of clear standing, as defined by the University, who is completing the Advertising Management course and who best demonstrates motivation, enthusiasm and perseverance. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon a recommendation from the Dean, Faculty of Business Administration in consultation with the course instructor.

The Eric Briffett Small Business Scholarship
This scholarship valued at $1,000.00, was established in honour of Eric Briffett by his four children. Mr. Briffett was born in Rosedale, Newfoundland in 1916. He, along with his brothers, formed and operated Louis Briffett and Sons Ltd. a successful logging, sawmilling, lumbering, and building supply business in Central and Eastern Newfoundland, with retail outlets in Glovertown and Pond Cove, Bonavista Bay. He retired in 1988 at the age of 71. The scholarship will be awarded to a second or third year undergraduate Business student who was born in Newfoundland and Labrador or whose parents were born in Newfoundland and Labrador. Preference will be given to students studying Small Business and/or Entrepreneurship. The scholarship shall be awarded on the basis of financial need, personal values and scholarship standing. The qualifying student must demonstrate strong personal values including a strong work ethic and high personal integrity. The student must have maintained a minimum of a B average in the prior semester. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean, Faculty of Business Administration.

The Bristol Group Scholarship for International Study
This scholarship, valued at a portion of the annual interest, is available to undergraduate students, in the Faculty of Business Administration. It was established with contributions from The Bristol Group. It is awarded to recognize students of scholarship standing who are studying Small Business and/or Entrepreneurship. The scholarship shall be given to a student enrolled in an exchange term or Harlow term and who have a demonstrated interest in international studies. Students who are considered for this scholarship are expected to be completing courses which fulfill a concentration in marketing. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, Faculty of Business Administration.

The Browning Harvey Ltd. Scholarship
This scholarship, valued at $1,000.00, has been donated by Pepsi-Cola Ltd. It is open to undergraduate students of scholarship standing, enrolled in Business Administration, who have demonstrated leadership ability. Activities within various student organizations, participation on faculty committees, and/or contribution to the larger community, will be considered in determining appropriate candidates. The scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Business Administration.

The Alice Buckingham Leadership Award
This award was established by a generous donation from Peg Hunter (B. Comm '82) in honour of her mother Alice Buckingham. Mrs. Buckingham championed the leadership role and right of women in business and served as an inspiration to aspiring female leaders during her 50 year business career. Valued at a portion of the income on the investment, it will be awarded annually to a full-time female student enrolled in at least her second year of studies in the Bachelor of Commerce (Co-op) program or the Bachelor of Business Administration program. This award will recognize a student who has played a leadership role in a student-based activity or organization. Preference will be given to students who have demonstrated financial need. The recipient must meet the minimum academic requirements for an award as defined by Memorial University of Newfoundland. This award will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, Faculty of Business Administration.

The Tom Budai Award in Business and Economics
The Tom Budai Award in Business and Economics, valued at $1000, is funded by Tom Budai, a 2009 graduate of the Faculty of Business Administration and a former member of the Memorial Seahawks men’s basketball team. The award is available to a full-time student enrolled in the Bachelor of Commerce (Co-op) program, Bachelor of Business Administration program, Bachelor of Arts in Economics program or Bachelor of Science in Economics program. The candidate must be in at least her/his second year of studies and meet the minimum academic requirements for an award as defined by the University. Preference will be given to candidates who have been active in varsity athletics at Memorial University of Newfoundland and/or who have a demonstrated record of community, volunteer work and/or involvement with student organizations at this University. The award will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation from the Dean, Faculty of Business Administration or the Head, Department of Economics.

CIBC Bursaries
The CIBC Bursary Program was established by a gift from CIBC to Dare To: The Campaign for Memorial University. These bursaries, available to students in the Faculty of Business Administration (St. John's Campus) and the Department of Business (Grenfell Campus), will be awarded to full-time undergraduate students in either their first or second year of studies who meet the academic criteria for a bursary. Where possible, evidence of leadership or community involvement will also be considered. These Bursaries are valued at $2,500, and are renewable for one additional year, provided the recipient meets the minimum academic requirement for a bursary. The Bursaries will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based upon recommendation of the Dean, Faculty of Business Administration or on the recommendation of the Scholarship Committee at Grenfell Campus, as appropriate. Applications are available in the Faculty of Business Administration (St. John's Campus) or the Department of Business (Grenfell Campus), and are due in October of each year.

The Greg Campbell Memorial Business Award
This award is the result of a generous donation by Eleanor Swanson in memory of her late husband, J. Gregory Campbell. Interest on the fund will provide one award to a full-time undergraduate student in the Faculty of Business Administration who is entering the final year of study for a B.Comm. Interest on the fund will provide one award to a full-time undergraduate student in the Faculty of Business Administration who is entering the final year of study. Candidates for this scholarship must have scholarship standing and a demonstrated record of active community involvement, volunteer work, and/or service in the Faculty/University. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, Faculty of Business Administration.

The Judy Caul Memorial Bursary
The Judy Caul Memorial Bursary has been established by Production Services Network in memory of Judy Caul who worked with their
company for over 10 years and was a valued employee and dedicated Human Resources Professional. Valued at $1,000 annually, this Bursary will be awarded to a full-time undergraduate student in the Bachelor of Commerce Program, Faculty of Business Administration, who has chosen Human Resources as their discipline. The bursary will be awarded to a student who meets the minimum academic requirements of a bursary and displays leadership ability and who demonstrates financial need. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Business Administration.

The Chartered Accountants’ Education Foundation of Newfoundland, Inc. Scholarship
The CA Education Foundation, formed by the Institute of Chartered Accountants of Newfoundland, offers five scholarships annually to students enrolled in the B.Comm.(Co-op) programs as follows:
- two scholarships of $2000 each to students entering either term six or seven
- two scholarships of $1250 each to students entering term five
- one scholarship of $1250 to a student entering term four

These scholarships will be awarded to students who have expressed a strong interest in pursuing the Chartered Accounting designation. Selection will be based upon academic standing and demonstrated leadership abilities. The scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Business Administration.

Chevron Canada Ltd. Endowed Scholarships in Business, Earth Sciences, Economics and Engineering
Chevron Canada Ltd. endowed Scholarships in Business, Earth Sciences, Economics and Engineering. These scholarships, valued at a portion of the income from the endowment, will be awarded to full-time students enrolled in at least their second year of Engineering and Applied Science, Earth Sciences, Business or Economics; in a given year, it is anticipated that students from all four faculties will be represented. Selection will be based on scholarship standing as well as expression of interest in potential employment in the oil and gas industry, and signaling of career location mobility. Level of service to community, or leadership will also be considered. Students may receive the scholarship in more than one year. They will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, Faculty of Engineering and Applied Science; Head, Department of Earth Sciences; Dean, Faculty of Business Administration, and Head, Department of Economics.

Chevron Canada Ltd. Term Scholarships in Business, Earth Sciences, Economics and Engineering
These scholarships, valued at $4,000, will be awarded to full-time students enrolled at least their second year of Engineering and Applied Science, Earth Sciences, Business or Economics; in a given year, it is anticipated that students from all four faculties will be represented. Selection will be based on scholarship standing as well as expression of interest in potential employment in the oil and gas industry, and signaling of career location mobility. Level of service to community, or leadership will also be considered. Students may receive the scholarship in more than one year. They will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, Faculty of Engineering and Applied Science, Head, Department of Earth Sciences; Dean, Faculty of Business Administration, and Head, Department of Economics.

Mary Clarke Scholarship
This scholarship was established by a generous donation from the family and friends of Ms. Mary Clarke. Mary Clarke commenced work in the Department of Human Resources in September 1979 and retired in March 2012. During her career, Ms. Clarke led and participated in various significant changes at Memorial University of Newfoundland in the areas of compensation, job evaluation and recruitment. Mary was known for her incredible determination, resilience and work ethic. She freely gave of her knowledge and expertise and, over the years, she was a mentor to many. Valued at a portion of the income on the endowment, it will be awarded annually to an undergraduate student in their final semester in the Faculty of Business Administration with a focus on Human Resource Management. If no suitable candidate with a Human Resource Management focus can be found, the scholarship may be awarded to a student in their second year of a full-time student in the Faculty of Business Administration. The recipient must meet the minimum academic requirements for a scholarship. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Business Administration.

P.F. Collins Scholarship in Business
This scholarship was established by a generous donation from P.F. Collins International Trade Solutions. A local company committed to providing the highest standard of professional service, P.F. Collins has grown from a one-man office in 1921 to an international trade solutions company of the highest caliber with a client base extending to virtually every sector of the economy. Valued at a portion of the income on the investment, it will be awarded annually to an undergraduate or graduate student in the Faculty of Business Administration. Preference will be given to a student pursuing a focus or/and career in Supply Chain Management or Resource Based Industries Management. If there is no eligible student who meets the aforementioned criteria, preference will be given to a student who is currently completing, or has recently completed, a work-term in the natural resources industries with a focus in Supply Chain Management and/or Operations Management. The recipient must meet the minimum academic requirements for a scholarship as defined by Memorial University of Newfoundland. In the case of an undergraduate student, the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. In the case of a graduate student, the scholarship will be awarded by the Dean, School of Graduate Studies. In either case it will be awarded on the basis of a recommendation from the Dean, Faculty of Business Administration.

Commerce Class of 1992 Scholarship
This scholarship was established by the Commerce Class of 1992. It will be awarded to a full-time student of the Faculty of Business Administration who meets the academic requirements for a scholarship, with preference given to a student who has financial need and has been active in student life. It is the hope of the Class of 1992 that each graduating class of the Commerce program will support future students through scholarship support. This Scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Business Administration.

Costco Wholesale Canada Bursary in Business Administration
This bursary was established by a generous donation from Costco Wholesale Canada. Valued at a portion of the income on the investment, it will be awarded to a student from Newfoundland and Labrador entering the first year of the Bachelor of Commerce (Co-operative) program. The recipient must have demonstrated financial need as well as meet the minimum academic requirements for a bursary as defined by Memorial University of Newfoundland. The bursary is renewable while the recipient remains enrolled as a full-time student in the Bachelor of Commerce (Co-operative) program and meets the financial and academic requirements. Only one student will receive this bursary at any given year. This bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of Business Administration.

The Rob Crosbie Scholarship for International Study
This fund was established from contributions to the University’s Opportunity Fund Campaign by Mr. Rob Crosbie. The scholarship, valued at $1,250.00 annually, will support a Business student (graduate or undergraduate) who is on an academic international exchange and who has shown interest in pursuing a career in the oil and gas industry. In the case of undergraduate students, the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation
of the Dean, Faculty of Business Administration. In the case of graduate students, it will be awarded by the Dean, School of Graduate Studies upon recommendation of the Faculty Committee on Graduate Studies.

The DaimlerChrysler Scholarship
This scholarship, valued at $5,000.00 annually, is the result of a generous endowment to Memorial University of Newfoundland by DaimlerChrysler Canada Inc. in support of The Opportunity Fund. The scholarship will be available to an undergraduate student in the Faculty of Business Administration who is in second year or beyond. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Dean, Faculty of Business Administration.

Craig Dobbin Memorial Scholarship for Master of Business Studies at the Waterford Institute and Memorial University of Newfoundland
This scholarship has been established by Mr. Pat O’Callaghan, the Ireland Business Partnership, the Ireland Newfoundland Partnership, the Provincial Department of Education, and Craig Dobbin family members in memory of Mr. Craig Dobbin. It will be awarded on an annually rotating basis to students at The Waterford Institute of Technology (WIT) and Memorial University of Newfoundland. In year one, and every alternating year thereafter, the scholarship will be awarded to a recent honors graduate (in the past 2 to 3 years) of one of the undergraduate business programs in the Faculty of Business Administration program or Grenfell Campus, Memorial University of Newfoundland, who must be accepted into the Master of Business program at the Waterford Institute of Technology, Waterford, Ireland. In the event that there is no such candidate, the scholarship will be awarded to two Memorial University of Newfoundland exchange students (undergraduate or graduate) to study (one academic term) at the Waterford Institute of Technology. In year two, and every alternating year thereafter, the scholarship will be awarded to an undergraduate student from the Waterford Institute of Technology, who will be selected to attend Memorial University of Newfoundland’s Faculty of Business Administration’s M.B.A. program. In order for a WIT student to complete the program in one year, they must have an honors undergraduate business degree, or a business degree with significant work experience. This scholarship, valued at $1,000.00 annually, was established by Steve Fagan, B. Comm. (Co-op) ’81. To be eligible, candidates must be full-time undergraduate students in the Faculty of Business Administration who have scholarship standing. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Business Administration or the Vice-President of Grenfell Campus. In the case of Memorial University of Newfoundland graduate students, the scholarship will be awarded by the Dean, School of Graduate Studies on the recommendation of the Dean, Faculty of Business Administration.

Paddy and Rita Dobbin Scholarship in Business
The Paddy and Rita Dobbin Scholarship is endowed through a gift from the Dobbin family members (children and grandchildren) in memory of Paddy Dobbin and Rita Power who were married on March 17, 1929. From his early life, Paddy demonstrated a strong entrepreneurial spirit, a man not afraid of hard work or taking risks. He instilled these qualities in his eleven children. Paddy guided with much love and a spirit that anything was possible. Through example, he taught that anything was possible. In the case of Memorial University of Newfoundland’s M.B.A. admission requirements, the student may take two years to complete the degree; however, scholarship funding will be available for one year only. In the event that no such student is selected from the Waterford Institute, then WIT will select a business undergraduate or graduate student to complete a student exchange (one academic term) at the Faculty of Business Administration or Grenfell Campus, Memorial University of Newfoundland. Scholarship recipients will be required to complete and present a report on an aspect of the Ireland Newfoundland Partnership. In the case of Memorial University of Newfoundland undergraduate students, the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Business Administration or the Vice-President of Grenfell Campus. In the case of Memorial University of Newfoundland graduate students, the scholarship will be awarded by the Dean, School of Graduate Studies on the recommendation of the Dean, Faculty of Business Administration.

The Ernst and Young Scholarship in International Business
This fund was established from contributions to the University’s Opportunity Fund Campaign by the partners Ernst & Young, St. John’s and its predecessors. This scholarship, valued at the accrued interest on the endowment, will be awarded to an undergraduate student in the Faculty of Business Administration entering academic Term 6 in the cooperative education program. In awarding this scholarship, preference will be given to undergraduate students of scholarship standing, and a demonstrated interest pursuing a career in accounting. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean, Faculty of Business Administration.

The Faculty of Business Administration Aboriginal Scholarship
A scholarship valued at $500 will be awarded to an Aboriginal resident of Newfoundland and Labrador in the Faculty of Business Administration. Eligible students must be in scholarship standing, be enrolled as a full-time undergraduate or graduate student in the Faculty of Business Administration at Memorial University of Newfoundland and provide confirmation of their Aboriginal status. In the case of undergraduate students, the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation from the Dean, Faculty of Business Administration. In the case of graduate students, the scholarship will be awarded by the Dean of Graduate Studies upon the recommendation from the Dean, Faculty of Business Administration.

Faculty of Business Administration Associates’ Scholarship Fund
This fund was established through the contributions of members of the Associates’ Program of the Faculty of Business Administration. The fund will provide scholarships for undergraduate and graduate students in the Faculty. Awards will be made on the basis of academic standing but such factors as financial need and contribution to the Faculty may be taken into account.

The Fagan Scholarship in the Faculty of Business Administration
This scholarship, valued at $1,000.00 annually, was established by Steve Fagan, B. Comm. (Co-op) ’81. To be eligible, candidates must be full-time undergraduate students in the Faculty of Business Administration who have scholarship standing. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Business Administration.

The P.J. Gardiner Award for Small Business and Entrepreneurship
This fund was established from contributions to the University’s Anniversary Fund to commemorate the memory of the late Peter Gardiner, a former Director of Memorial University of Newfoundland’s School of Business and a local entrepreneur. This award is valued at $5,000.00 annually and will recognize student creativity, innovation and entrepreneurship as evidenced by a student’s genuine interest in small business and entrepreneurship through the establishment or the intention to establish a new venture. Students in any program (graduate or undergraduate) are eligible. Students are to provide a written report or plan describing their venture. Award finalists will then be asked to make an oral presentation to the Award Selection Committee. The Award Selection Committee will consist of faculty members from the Faculty of Business Administration and the business community at large. In the case of undergraduate students, the awards will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards acting on the recommendation of this panel. In the case of graduate students the awards will be made by the
Dean, School of Graduate Studies upon the recommendation of the Committee on Graduate Studies of the Faculty of Business Administration.

The Peter Gardiner Award for International Study
This fund was established from contributions to the University’s Anniversary Fund to commemorate the memory of the late Peter Gardiner, a former Director of Memorial’s School of Business. Interest from the fund will provide two annual awards of $2,500.00 each to support Business students (graduate and/or undergraduate) to study at Memorial University of Newfoundland’s Harlow Campus or at another university outside Canada. In the case of undergraduate students, the awards will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, Faculty of Business Administration. In the case of graduate students, the awards will be made by the Dean of Graduate Studies upon recommendation of the Faculty Committee on Graduate Studies.

The Brian J. Grant Scholarship for International Study
This scholarship was endowed through a donation to the University’s Opportunity Fund campaign by Mr. Brian J. Grant in 1999. The scholarship, valued at the annual interest on the endowment, will support an undergraduate student who is on an academic international exchange. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, Faculty of Business Administration.

The Great-West Life Scholarship in Business Administration
This scholarship was established by a donation to Memorial University of Newfoundland from Great-West Life. One scholarship, valued at a minimum of $1500 annually, will be awarded to an undergraduate student in the Faculty of Business Administration. The scholarship will be awarded to a student who has been involved in student life and has made a contribution to the university community through his/her leadership on campus. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Dean, Faculty of Business Administration.

The William A. Gruchy Memorial Scholarship
This scholarship, valued at $1000.00, has been donated by Pepsi-Cola Canada Ltd., in memory of Mr. William Gruchy, a long-time associate of Browning Harvey Ltd., Pepsi-Cola’s franchised bottling business in St. John’s. The award is open to undergraduate students of scholarship standing, enrolled in Business Administration, who have demonstrated leadership ability. Activities within various student organizations, participation on faculty committees, and/or contribution to the larger community will be considered in determining appropriate candidates. The scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of the Faculty of Business Administration.

The James B. Hand Memorial Scholarship in Business Administration
This scholarship was established through a contribution to the Opportunity Fund by friends, family and former business associates in memory of Mr. Jim Hand. Interest on the fund will provide one or more scholarships for undergraduate students in the Faculty of Business Administration. The scholarship(s) will be awarded on the basis of scholarship standing, but such factors as financial need and contribution to Business Administration may be taken into account. The scholarship(s) will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Business Administration.

The Rolf G. Hattenhauer Scholarship Fund
This fund was established by the Labour Management Co-operation Committee to commemorate the late Professor Rolf G. Hattenhauer, a well-known Newfoundland arbitrator who was actively involved in setting up the Committee. Professor Hattenhauer was a member of the Department of Commerce (later the Faculty of Business Administration) at Memorial University of Newfoundland from 1965 until his death in 1983, and during the year 1969-70 served as Head (pro temp) of the Department. The fund will provide scholarships and fellowships on a rotating basis in undergraduate and graduate studies in Business Administration.

In the case of undergraduate scholarships, preference will be given to students in Terms 6 and 7 of the Bachelor of Commerce program who are majoring in Labour Relations. These scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of Business Administration.

In the case of the graduate fellowships, preference will be given to those students in the Master of Business Administration program who are concentrating in or conducting research on the area of personnel and industrial relations. The graduate fellowships will be awarded by the Dean of Graduate Studies on the recommendation of the Dean of Business Administration. If a suitable graduate student is not available in a given year, the scholarship for that year may be awarded to an undergraduate student.

The Kevin Hawco Memorial Scholarship
This fund has been established through a generous bequest of Jim Hood, an alumnus and friend of the Faculty of Business Administration. Valued at a portion of the income on the investment, the scholarship is open to full-time undergraduate and graduate students in the Faculty of Business Administration who meet scholarship standing and who have been active in athletics at Memorial University of Newfoundland and/or in the community. In the case of the undergraduate student, the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of Business Administration. In the case of the graduate student, the scholarship will be awarded by the Dean of Graduate Studies on the recommendation of the Dean of Business Administration.

The Hibernia Project Scholarship
These scholarships, established by the Hibernia Management and Development Company Ltd. are tenable at Memorial University of Newfoundland and are valued at an amount determined by the annual income on the investment. They are awarded annually as follows:
- Four students entering Term 3 of the Faculty of Engineering and Applied Science with two awarded to male students and two awarded to female students.
- Two students entering Term 3 of the Faculty of Business Administration with one awarded to a male student and one awarded to a female student.

Candidates for these awards must be of scholarship standing but consideration may also be given to their financial circumstances. All candidates must be residents of Newfoundland and Labrador. The awards will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Deans, Faculty of Business Administration and Faculty of Engineering and Applied Science.

The Jim Hood Memorial Scholarship
This scholarship was established through the generous bequest of Jim Hood, an alumnaus and friend of the Faculty of Business Administration. Valued at a portion of the income on the investment, the scholarship is open to full-time undergraduate and graduate students in the Faculty of Business Administration who meet scholarship standing and who have been active in athletics at Memorial University of Newfoundland and/or in the community. In the case of the undergraduate student, the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of Business Administration. In the case of the graduate student, the scholarship will be awarded by the Dean of Graduate Studies on the recommendation of the Dean of Business Administration.
Eunice Howell Memorial Scholarship
This scholarship was established by a generous donation from the estate of Eunice Howell in her memory by her husband Duncan, son Russell and daughter Rhonda. Eunice was a long-time and proud employee of Memorial University of Newfoundland. Strong in character and ethics, she demonstrated a lifelong commitment to learning and pursuit of excellence on the job each and every day. Eunice retired in 1992 as the Executive Assistant to the Vice President of Administration. Valued at a portion of the income on the endowment, it will be awarded annually to a Bachelor of Commerce (Co-op) student who graduated from a high school in Newfoundland and Labrador and is strong in character. Preference will be given to an eligible student who can demonstrate financial need. The recipient must meet the minimum academic requirements for a scholarship. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Business Administration.

The J. Carson Hudson Memorial Scholarship
In memory of local businessman and entrepreneur J. Carson Hudson, this scholarship, valued at a portion of the income on the investment, has been established by LeGrow's Travel Limited to encourage students' participation in small business and to assist a student entering the Faculty of Business Administration. This scholarship is renewable for two successive academic years provided that scholarship standing has been maintained. Preference will be given to those students who have enrolled in a full course load at the undergraduate level and have been away from the educational system for a period of two years or longer, working in an area of small business. Financial need may be a consideration. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Business Administration.

Human Resources Professionals of Newfoundland and Labrador (HRPNL) Student Member Award
Valued at $500, this award was established by the Human Resources Professionals of Newfoundland and Labrador (HRPNL), a Provincial Association of HR Practitioners. It will be awarded annually to a graduate or undergraduate student who is focusing his or her studies on Human Resources Management courses on a full-time basis. To become eligible, students must be a member in good standing of HRPNL and meet the minimum academic requirements for an award as defined by Memorial University of Newfoundland. HRPNL will provide a current list of their student members in the Winter semester and the selection will be made based on academic standing. The award will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards or the Dean of the School of Graduate Studies, on the recommendation of the Dean, Faculty of Business Administration.

Husky White Rose Extension Diversity Project Scholarship
This scholarship was established by a generous donation from Husky Energy to recognize the importance of a skilled and diverse workforce. Husky strongly supports economic development in Newfoundland and Labrador and believes that education is important in developing and sustaining a successful community. Husky is seeking to develop the pool of qualified diversity group members interested in pursuing careers in operational aspects of the oil and gas industry. Two scholarships, valued at $2,500 each, will be awarded annually to undergraduate students from the faculties of Earth Sciences, Engineering, and/or Business. The scholarships will be awarded on a rotating basis, and each year the two recipients must be from different faculties. The recipients will identify as one or more of the following: female, aboriginal, person with a disability and/or member of a visible minority. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of the recipient faculty.

The Scott Hussey and Karen Joseph Memorial Scholarship in Business Administration
This scholarship was established from contributions to Memorial University of Newfoundland by fund raising efforts of the Commerce Class of 1985 and other friends and relatives of Scott and Karen. The scholarship, valued at a portion of the annual income, will be awarded to an undergraduate student beyond Term 4 in the Co-op program of the Faculty of Business Administration. It is not necessarily intended for the student with the highest academic average but rather a student who combines scholarship standing and leadership ability. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of a recommendation from the Dean, Faculty of Business Administration. While financial need is not to be considered a major criterion, it can be used as a deciding factor in the case of students who may otherwise be equally qualified in a given year.

The Insurance Brokers Association of Newfoundland (IBAN) Award
Established through a generous donation from the Insurance Brokers Association of Newfoundland (IBAN), this award was established to encourage Faculty of Business students to consider careers in the Insurance Industry. The award is valued at a portion of the income on the investment. The recipient must be a full-time student in the Bachelor of Business Administration (Co-op) program at Memorial University of Newfoundland and Labrador. Students will submit an essay (maximum of 750 words), addressing one of the following topics: “What is an insurance brokerage and how can insurance brokers better promote themselves within the community?” or “How can a business graduate add value to an insurance brokerage?” or “Outline an insurance broker’s role in the world of business?” The submissions will be reviewed by a selection committee in the Faculty of Business Administration. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Business Administration.

The Ron Joyce Foundation Scholarships
These scholarships are the result of a generous endowment to Memorial University of Newfoundland by the Ron Joyce Foundation, interest on the fund will provide scholarships to full-time undergraduate students entering Memorial University of Newfoundland's Faculty of Business Administration who are Canadian citizens with scholarship standing and demonstrated financial need. These scholarships will be valued at two semester's tuition for five courses (30 credit hours) and are renewable for up to four years (3 years plus original) provided the candidates maintain first class and scholarship standing. The scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean, Faculty of Business Administration.

The Dan Kroecker Award
The Dan Kroecker Award, valued at $500, is made possible through an annual donation from Dan Kroecker. The Award is available to a deserving student enrolled full-time in the Bachelor of Commerce (Co-op) program who is in clear academic standing. Candidates will submit a three-page essay outlining any financial initiatives/ideas that they have for the improvement/development of Business Administration. The submissions will be judged by a scholarship selection committee in the Faculty of Business Administration. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Business Administration.

The A. Bruce LeMessurier Scholarship for Entrepreneurship
This scholarship, valued at a portion of the income on the investment, was established by Sally Lou LeMessurier in memory of her husband A. Bruce LeMessurier. It will be awarded to a student beyond first year in an undergraduate Business program who has demonstrated interest in small business and entrepreneurship through completion of course work, and involvement in volunteer activities in the university and the community related to entrepreneurship. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Dean, Faculty of Business Administration.

The Rita Love Memorial Bursary in Business
The Rita Love Memorial Bursary in Business was established in her memory by her estate and initiated by the executor of her estate, Mr. Derrick Hutchens. Mrs. Love was born in Newfoundland and moved away to the United States when she was a teenager but visited
frequently and returned to live here several decades later. Though she spent most of her adult life living in the United States of America she always maintained strong connections to Newfoundland and Labrador. Valued at a portion of the income on the endowment, the bursary will be awarded to an undergraduate student with a focus on finance or investment in the Faculty of Business Administration.

The recipient must be beyond first year and from Newfoundland and Labrador. The student will have demonstrated financial need, and meet the minimum academic requirements for a bursary as outlined by Memorial University of Newfoundland. Preference will be given to a student who is not in receipt of another scholarship, bursary or award at the time of the awarding of this bursary. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, Faculty of Business Administration.

Henry and Royce Meinhardt Memorial Bursary
The Henry and Royce Meinhardt Memorial Bursary is endowed through a gift from the Smallwood family (Cathy, Ray, Melissa, Amanda and Matthew) in memory of Henry and Royce Meinhardt, who had two grandchildren choose to study in the Faculty of Business Administration. Though from a modest background, Henry and Royce Meinhardt were entrepreneurially minded and hard workers who founded several businesses in Saint John, New Brunswick. Henry and Royce believed passionately that personal development through formal education as well as the general acquisition of knowledge was critical to the attainment of many personal goals. This bursary will be awarded to a full-time undergraduate student in the Bachelor of Commerce program, who will be participating in an international exchange (Harlow or other university with an exchange agreement in place). The bursary, valued at a portion of the income on the investment, will be awarded to a student who meets the minimum academic requirements of a bursary as defined by Memorial University of Newfoundland, demonstrates financial need and a good work ethic. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on the recommendation of the Dean, Faculty of Business Administration.

The Rosalie Moss-Morgan Bursary
The Rosalie Moss-Morgan bursary was established by her daughter Elizabeth Morgan. Rosalie, a native of Jamestown, Bonavista Bay, was a caring and supportive mother. She was particularly encouraging to Elizabeth and her friends as they made their way through high school and university. The bursary is intended to continue Rosalie’s legacy of helping young people reach their potential through a university education, specifically those from the Vista Region who need financial support. Valued at a portion of the income on the endowment, this bursary will be awarded to a full time undergraduate student in any year of studies, with a preference for students enrolled in the Bachelor of Commerce (Co-op) program. Eligible students would be graduates from any high school in the Vista Region of the Eastern School District (Clarenville and the Bonavista Peninsula, NL). It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, Faculty of Business Administration.

The John J. Murphy Scholarship in Business Administration
This scholarship, valued at $500.00, is awarded annually to a student who has achieved academic excellence upon completion of the first year (Terms 1 and 2) of the Business Administration program. The award, however, is not necessarily intended for the student who has received the highest average in this category. It is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, Faculty of Business Administration.

Neville-Coluccis Award
This award was created by Gordon and Barbara Cooke in memory of all of their sets of grandparents: the Cookes, Nevilles, Colucis and Contis. As a group, they advocated and illustrated the value of hard work, diligence, determination and the need to develop and retain valued skills. Valued at a portion of the income on the endowment, the award will be granted annually to a full-time or part-time undergraduate student in any year of the Bachelor of Business Administration or Bachelor of Commerce (Co-operative) program who has not received another award. To be eligible, the recipient must meet the minimum academic requirements for an award and be at least 25 years of age. This award will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Business Administration.

Newfoundland and Labrador Hydro Corporation Scholarship in Business Administration
These eight scholarships, offered annually by the Newfoundland and Labrador Hydro Corporation, are valued at $1,000 each. The awards are tenable in the Faculty of Business Administration at Memorial University of Newfoundland and are distributed as follows: three to students entering Term 7, three to students entering Term 6, two to students entering Term 5. The scholarships will be awarded on the recommendation of the Dean, Faculty of Business Administration. Valuable from high school in Newfoundland and Labrador. Where possible, preference will be given to students who have demonstrated character and values of teamwork, open communication, leadership, dignity and respect. Preference can also be given to students who meet these criteria and have also demonstrated financial need. The scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Business Administration.

Oil and Gas Week Scholarship
Valued at $1,000 each, two undergraduate scholarships are provided by the organizers of Oil and Gas Week with the possibility of additional scholarships being funded by the sponsors of the event. Oil and Gas Week is a program of events held province wide every year for the purpose of promoting the oil and gas industry. To be eligible, students must be enrolled full-time beyond the first year of an undergraduate program in the Department of Earth Sciences, the Faculty of Engineering and Applied Science, or the Faculty of Business Administration. Eligible candidates must have scholarship standing and preference will be given to students who graduated from a high school in Newfoundland and Labrador outside of the metropolitan St. John's area. Each year the recipients must be from different faculties, with each identified academic unit to be represented no more than twice in the three year period of the term of the fund. The scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, based on a recommendation from the appropriate academic discipline.

The Rosalie Moss-Morgan Bursary
This scholarship, valued at $500.00, is awarded annually to a student who has achieved academic excellence upon completion of the first year (Terms 1 and 2) of the Business Administration program. The award, however, is not necessarily intended for the student who has received the highest average in this category. It is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, Faculty of Business Administration.

The John J. Murphy Scholarship in Business Administration

The scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, based on a recommendation from the appropriate academic discipline.

The Paint Shop Bursary
This bursary, valued at $1000, was established by a generous donation from the Paint Shop. Headquartered in Mount Pearl, the Paint Shop network of franchised stores are located throughout Newfoundland and Labrador. The co-owners of the Paint Shop are both graduates of Memorial University of Newfoundland’s Faculty of Business Administration. The bursary is available to a full-time student enrolled in the Bachelor of Commerce (Co-op) program or the Bachelor of Business Administration program. The recipient must have demonstrated financial need as well as meet the minimum academic requirements for a bursary as defined by Memorial University of Newfoundland. Preference will be given to students from rural Newfoundland and Labrador. This bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Business Administration.

The James R. Pearcy Award for Entrepreneurism
This Award is the result of a generous donation by the donor, Mr. Wade, K. Dawe, Bachelor of Commerce ’92. It is valued at $10,000.00 per annum and is established in memory of James R. Pearcy, a Civil Engineering graduate and former president of his 1993 class, at Memorial University of Newfoundland. The Award recipient will be a student in the Faculty of Business Administration in any academic year, in good academic standing and who shows clear evidence of a significant propensity toward entrepreneurial activities and study as assessed by an essay competition. The recipient will be selected by a faculty committee, the composition of which will be determined by the Scholarships Office, but will include representation by both the Faculty of Business Administration and the Faculty of Engineering and Applied Science. The Award will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, Faculty of Business Administration.
Scholarships, Bursaries and Awards 2015-2016

based on the recommendation of this committee.

Jude Pearson Memorial Scholarship in the Faculty of Business Administration

This scholarship, valued at $500 annually, was established by the Class of 1999 in memory of classmate, Jude Pearson. Eligible candidates must be full-time undergraduate students in the Commerce program of the Faculty of Business Administration, and have scholarship standing. Preference will be given to students from Bell Island and those demonstrating financial need. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Business Administration.

The PMI NL Chapter Jamie Morry Memorial Scholarship

This scholarship, valued at $500, was established by the Newfoundland and Labrador Chapter of the Project Management Institute in memory of Jamie Morry to acknowledge his commitment to the discipline of project management. The scholarship is open to undergraduate students of scholarship standing enrolled in Business Administration, doing a concentration in Management Information Systems (MIS) or Management Science who have demonstrated an interest in project management. In order to be considered for this scholarship, students must be nominated by a faculty member in the Faculty of Business Administration. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Business Administration.

The PPI Solutions Inc. Scholarship

This scholarship, valued at $1000, was established by PPI Solutions Inc. Eligible candidates must be full-time undergraduate students in the Faculty of Business Administration with either a finance or marketing specialty. This scholarship is non-renewable and will be awarded to a different student every year. The recipient must meet the minimum academic requirements for a scholarship as defined by Memorial University of Newfoundland. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Business Administration.

The Public Accountants Licensing Board Scholarship

This scholarship will be awarded annually to an undergraduate business student entering the final year of an academic program in the Faculty of Business Administration. It will be valued at a portion of the income on the endowment. Selection of the successful candidate will be based on scholarship standing and demonstrated interest in pursuing public accounting as a profession. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of the Faculty of Business Administration.

The Gar Pynn Memorial Harlow Scholarship

This scholarship is endowed through a gift from Marg Pynn, family, and friends in memory of Gar Pynn, past director and faculty member of the Faculty of Business Administration. Eligible candidates must be full-time undergraduate students in the Faculty of Business Administration, and have scholarship standing. Preference will be given to students applying to complete an academic term at Memorial University of Newfoundland's Harlow Campus. The scholarship, valued at a portion of the income on the investment, will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Business Administration.

The S.P. Raheja Memorial Scholarship

The scholarship was established through generous gifts from the friends and family members of S.P. Raheja. Valued at a portion of the income from the endowment, it will be awarded annually, on a rotational basis between the Faculty of Engineering and Applied Sciences and the Faculty of Business Administration. Normally, it will be presented during National Co-operative Education Week, to an engineering student who has completed work term 2 or 3, or a business student who has completed work term 2, in the previous Fall semester. Preference will be given to industrious students who have demonstrated an excellent work ethic. The recipient must meet the minimum academic requirements for a scholarship as defined by Memorial University of Newfoundland. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of the Faculty of Business Administration.

The Tracy Ronayne Scholarship

This scholarship has been established by the Department of Computing and Communications (C&C) at Memorial University of Newfoundland in honor of the life and contribution of a former employee, Tracy Ronayne. To be eligible the recipient must have scholarship standing, be a full-time undergraduate student and be a dependant of a current, retired, deceased or former (having worked in the Unit for a minimum of 5 years) employee of C&C or be a student employed by C&C during the Fall semester of the academic year for which the scholarship will be awarded. One or more scholarships may be awarded in any given year. In the absence of a candidate meeting the above criteria, the scholarship will be awarded to a student beyond first year majoring in Computer Science in the Faculty of Science or a student in the Faculty of Business Administration. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

Scotiabank International Exchange Student Support Program in the Faculty of Business Administration

The Scotiabank International Exchange Student Support Program was established by a gift of $500,000 from Scotiabank through Dare To: The Campaign for Memorial University. The scholarships, bursaries and, where appropriate, awards will be conferred to full-time undergraduate students in any program of study in the Faculty of Business Administration, and are available to students participating in the international exchange program in one of the countries where Scotiabank operates, or students from those countries studying at Memorial University of Newfoundland. For the scholarships, students must have scholarship standing; for the bursaries, students must have demonstrated achievement and financial need. If deemed appropriate, funding may also be provided in the form of an award; in such cases, recipients must meet the academic criteria for an award. The number and value of the scholarships, bursaries and awards available each year will depend on the funds available for spending (as per University policy) as well as the applicant pool, and will be determined at the discretion of the Dean, Faculty of Business Administration. The scholarships, bursaries and awards will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on the recommendation of the Dean, Faculty of Business Administration.

William S. Rowe Scholarship in Business

This scholarship, valued at a portion of the income on the investment, will be awarded to a student in the Bachelor of Commerce (Co-op) program in the Faculty of Business, who has expressed a strong interest in pursuing the Chartered Accountant designation. Selection will be based on scholarship standing. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, Faculty of Business Administration.

The Scotsburn Dairy Group Scholarship

This scholarship was established from contributions to the Memorial University of Newfoundland's Opportunity Fund Campaign by The Scotsburn Dairy Group. This scholarship, which will be valued at a portion of the accrued interest on the endowment, is intended to recognize academic excellence and will be awarded to a Newfoundland and Labrador student entering term 5 of the Business Cooperative Education program. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Dean, Faculty of Business Administration.
The Dr. Robert W. Sexty Scholarship for Social Responsibility

The scholarship, valued at a portion of the income on the investment, will be awarded annually to a full-time or part-time student enrolled in any undergraduate or graduate business program. The scholarship will be awarded to a student who has demonstrated commitment to social responsibility through academic achievement in a social responsibility course or ethics in business related courses, or successful completion of an M.B.A. research project relating to social responsibility, or involvement in social responsibility as exemplified through university or community service. In the case of undergraduate students, the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and the recommendation of the Dean, Faculty of Business Administration. In the case of graduate students the scholarship will be awarded by the Dean, School of Graduate Studies on the recommendation of the Dean, Faculty of Business Administration.

Dr. Lessey Sooklal Scholarship

This fund was established in memory of Dr. Lessey Sooklal, who joined the School of Business in 1978 (later renamed the Faculty of Business Administration), and was an active member of the faculty until his death in 2006. A full Professor in the area of Human Resource Management, Dr. Sooklal shared his passion for the subject with his students and colleagues. The fund will provide an annual scholarship, valued at a portion of the income on the investment, to an undergraduate student in Business Administration who is concentrating in Human Resource Management. The scholarship will be awarded to students in Terms 6 or 7 of the Bachelor of Commerce program, or the final year of the Bachelor of Business Administration program. The main criteria in awarding the scholarship are scholarship standing and excellence in and commitment to the area of Human Resource Management. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of the Faculty of Business Administration.

The St. John’s Maple Leafs Legacy Scholarship

This scholarship was established by the Leafs Foundation Inc. and the St. John’s Maple Leafs Booster Club to recognize the contribution of the St. John’s Maple Leafs hockey team to youth and community in the Province. Valued at a portion of the income on the investment, the scholarship is open to full-time undergraduate or graduate students in the Faculty of Business Administration who meet scholarship standing and who have been active in athletic or extracurricular activities at Memorial University of Newfoundland and/or in the community. In the case of undergraduate students the scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of the Faculty of Business Administration. In the case of graduate students, the scholarship will be awarded by the Dean of Graduate Studies on the recommendation of the Dean of the Faculty of Business Administration.

The James P. Steinhauer Memorial Scholarship in Small Business and Entrepreneurship

This scholarship is awarded out of income from a bequest by Mrs. S. Louise Steinhauer made in memory of her husband James and her son James, both prominent St. John’s entrepreneurs. The scholarship will be awarded to a student in Term 5 of the commerce program who is completing a concentration in Small Business/Entrepreneurship. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation of the Dean, Faculty of Business Administration.

The Sun Life Financial Scholarship in Applications of Technology

The Sun Life Financial Scholarship in Applications of Technology is consistent with the company’s belief that education is key to the future well-being of individuals, business and society. The scholarship, valued at the annual interest on the endowment, will be designated on an annually rotating basis to a student on the Corner Brook campus and the St. John’s campus. It will be awarded to a student within the faculties of Science, Engineering and Applied Science and Business Administration who is focussing his/her studies on the application of technology and has demonstrated scholarship standing. In addition, the student will have actively participated in extra-curricular activities and have been active in student life. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of the Faculty of Business Administration.

The James J. Walsh Memorial Scholarships

Two undergraduate scholarships, established by the Walsh family to commemorate the memory of a dear husband and father, James J. Walsh, are tenable at Memorial University and are valued at $500.00 each. One scholarship will be awarded on the basis of scholarship standing to residents of Newfoundland and Labrador enrolled in first year Business Administration at Memorial University of Newfoundland. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on a recommendation from the Dean, Faculty of Business Administration.

The Ralph Vincent Memorial Business Scholarship

The scholarship is valued at $5,000, and is provided via a contribution to Memorial University of Newfoundland by Mr. Darryl Fry. It will be awarded on the basis of scholarship standing to residents of Newfoundland and Labrador enrolled in first year Business Administration at Memorial University of Newfoundland. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, acting on the recommendation of the Deans of the appropriate academic units.

The Dr. Robert W. Sexty Scholarship for Social Responsibility

The scholarship, valued at a portion of the income on the investment, will be awarded annually to a full-time or part-time student enrolled in any undergraduate or graduate business program. The scholarship will be awarded to a student who has demonstrated commitment to social responsibility through academic achievement in a social responsibility course or ethics in business related courses, or successful completion of an M.B.A. research project relating to social responsibility, or involvement in social responsibility as exemplified through university or community service. In the case of undergraduate students, the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and the recommendation of the Dean, Faculty of Business Administration. In the case of graduate students the scholarship will be awarded by the Dean, School of Graduate Studies on the recommendation of the Dean, Faculty of Business Administration.

Dr. Lessey Sooklal Scholarship

This fund was established in memory of Dr. Lessey Sooklal, who joined the School of Business in 1978 (later renamed the Faculty of Business Administration), and was an active member of the faculty until his death in 2006. A full Professor in the area of Human Resource Management, Dr. Sooklal shared his passion for the subject with his students and colleagues. The fund will provide an annual scholarship, valued at a portion of the income on the investment, to an undergraduate student in Business Administration who is concentrating in Human Resource Management. The scholarship will be awarded to students in Terms 6 or 7 of the Bachelor of Commerce program, or the final year of the Bachelor of Business Administration program. The main criteria in awarding the scholarship are scholarship standing and excellence in and commitment to the area of Human Resource Management. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of the Faculty of Business Administration.

The St. John’s Maple Leafs Legacy Scholarship

This scholarship was established by the Leafs Foundation Inc. and the St. John’s Maple Leafs Booster Club to recognize the contribution of the St. John’s Maple Leafs hockey team to youth and community in the Province. Valued at a portion of the income on the investment, the scholarship is open to full-time undergraduate or graduate students in the Faculty of Business Administration who meet scholarship standing and who have been active in athletic or extracurricular activities at Memorial University of Newfoundland and/or in the community. In the case of undergraduate students the scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of the Faculty of Business Administration. In the case of graduate students, the scholarship will be awarded by the Dean of Graduate Studies on the recommendation of the Dean of the Faculty of Business Administration.

The James P. Steinhauer Memorial Scholarship in Small Business and Entrepreneurship

This scholarship is awarded out of income from a bequest by Mrs. S. Louise Steinhauer made in memory of her husband James and her son James, both prominent St. John’s entrepreneurs. The scholarship will be awarded to a student in Term 5 of the commerce program who is completing a concentration in Small Business/Entrepreneurship. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation of the Dean, Faculty of Business Administration.

The Sun Life Financial Scholarship in Applications of Technology

The Sun Life Financial Scholarship in Applications of Technology is consistent with the company’s belief that education is key to the future well-being of individuals, business and society. The scholarship, valued at the annual interest on the endowment, will be designated on an annually rotating basis to a student on the Corner Brook campus and the St. John’s campus. It will be awarded to a student within the faculties of Science, Engineering and Applied Science and Business Administration who is focussing his/her studies on the application of technology and has demonstrated scholarship standing. In addition, the student will have actively participated in extra-curricular activities and have been active in student life. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the appropriate Dean and/or the Vice-President of Grenfell Campus.

The Toromont Scholarship

This scholarship, valued at the annual interest on the endowment, has been established by Toromont Industries Ltd. as part of the Operation Ice Camp Campaign. It will be awarded on an annually rotating basis between students in Business Administration and Engineering and Applied Science. It will be awarded on the basis of scholarship standing, extracurricular activities, and need. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation from the Dean of the appropriate discipline.

Undergraduate Aboriginal Award in Professional Studies

The Undergraduate Aboriginal Award in Professional Studies was established by Mr. Alan Rowe (B.Comm. ’78) through a generous donation to the Dare To: The Campaign for Memorial University. To be eligible, candidates must be Aboriginal students from Labrador or the Territories of Canada who are enrolled full-time, and have clear academic standing. Preference will be given to students who have demonstrated financial need. Awarded upon entrance to an eligible undergraduate professional program, the Award is valued at $2,500 per year and is renewable for three additional years assuming the recipients maintain clear academic standing and full-time enrollment. Two new recipients will be selected each year on a rotating basis, between the Faculties of Business Administration, Engineering and Applied Science, Medicine, and Education and the Schools of Nursing, Pharmacy, and Social Work. If a successful candidate is not recommended by the discipline on rotation in a given year an eligible student from one of the other disciplines may be awarded the scholarship for that year. The Awards are granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards with input from the Aboriginal Resource Office, and on the recommendation of the Deans of the appropriate academic units.

The Ralph Vincent Memorial Business Scholarship

The scholarship is valued at $5,000, and is provided via a contribution to Memorial University of Newfoundland by Mr. Darryl Fry. It will be awarded on the basis of scholarship standing to residents of Newfoundland and Labrador enrolled in first year Business Administration at Memorial University of Newfoundland. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on a recommendation from the Dean, Faculty of Business Administration.

The James J. Walsh Memorial Scholarships

Two undergraduate scholarships, established by the Walsh family to commemorate the memory of a dear husband and father, James J. Walsh, are tenable at Memorial University of Newfoundland and are valued at $500.00 each. One scholarship will be tenable in the Faculty of Business Administration to a physically handicapped student. If no physically handicapped student is available, the award will be open to any student enrolled in the Faculty provided that the student is in good academic standing and demonstrates financial need. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, acting on the recommendation of the Dean, Faculty of Business Administration.

The Robert Westcott Memorial Scholarship

This scholarship was established by Mrs. Mary Westcott in memory of her late husband, Mr. Robert Westcott. It is valued at a portion of the annual interest on an endowment and will be awarded on a rotating basis to students beyond first year who have a strong commitment to post-secondary education and who are majoring in Business Administration and/or Economics. It will be based on...
scholarship standing and financial need and will be awarded to a student who was born in Newfoundland and Labrador. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean/Department Head of the appropriate discipline.

**Geoffrey H. Wood Foundation Scholarship**

This scholarship, established by the Geoffrey H. Wood Foundation, is currently valued at $2,500.00 and will be awarded annually to an undergraduate student in Term 4 or later in the Faculty of Business Administration who has consistently demonstrated academic excellence. The scholarship is non-renewable and is to be awarded with a maximum of one other concurrent award. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean of Business Administration.

**The Wood Gundy Scholarship for Undergraduate Business Students**

The Wood Gundy Scholarship for Undergraduate Business Students will be awarded annually to a student of scholarship standing in Business Administration, who has demonstrated leadership ability through participation in student, faculty or University activities and/or contribution to the local community. Preference will be given to students with a demonstrated career interest in the area of finance. The value of this scholarship will be determined by the annual income derived from the initial endowment. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean, Faculty of Business Administration.

**The Wright-Green Undergraduate Award in Business Studies**

The Wright-Green Undergraduate Award in Business Studies, valued at $500.00, honours a century of service by two small businesses in Great Britain. The award is intended to enhance the student's educational experience in Britain. Its value will be based on the annual interest on the fund. It will be awarded during the Spring semester by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Deputy Provost (Students) and Associate Vice-President (Academic) (Undergraduate Studies) pro tempore. Academic achievement and financial need will be considered.

**Jeremiah and Theresa Bonia Memorial Award**

The award valued at a portion of the income from the endowment, will be given to a full-time student enrolled in any degree program in the Faculty of Education. Selection will be based upon clear academic standing and financial need. Recipients must also be residents of Newfoundland and Labrador (defined as a person who has maintained permanent residence in the Province for a minimum of twelve consecutive months immediately prior to entering the program). Preference will be given to students who demonstrate leadership abilities, a passion for learning and a commitment to community service. The award will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, Faculty of Education.

**The Chesley and Katherine Brown Bursary**

This bursary, valued at a portion of the income from the endowment, has been established by the children of the late Lieutenant-Colonel and Mrs. William Chesley Brown. Lt.-Colonel Brown (1899-1962) guided the Salvation Army’s educational program for thirty-five years. For the final twelve years he served as the Superintendent of Education for the Salvation Army within the Department of Education. Mrs. Lt.-Colonel Katherine England Brown (nee Cave; 1900-1977) taught at the Salvation Army Training College for Officers and was active in the Home and School Association of the Salvation Army College for a number of years. Candidates must be full-time undergraduate students with demonstrated financial need and clear academic standing. The Bursary will be awarded to students in the Faculty of Education, with preference for those entering their first year. The bursary is renewable as long as the recipient remains in clear academic standing and continues as an undergraduate student in the Faculty of Education. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, Faculty of Education.

**The Bruton Scholarship Fund**

Dr. F.A. Bruton, friend and colleague of J.L. Paton, taught Nature Study to teachers in three successive Memorial University College summer schools, from 1926-28, at Paton’s request. At his death in 1930, Dr. Bruton made a bequest to the College from which two Bruton Scholarships are awarded annually. The Scholarships, valued at $500.00 each, are awarded annually to students who have demonstrated interest in Plant Biology. One award will be available to a student majoring in Biology whose special interest is in the field of Plant Biology. The second award will be available to an Education student whose main area of interest is in the teaching of science, in particular, plant biology. In the absence of a suitable candidate from the one department, two awards may be made by the other department in accordance with the above conditions. Academic ability and financial need will be taken into consideration in making these awards. They will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards acting on the advice of the department concerned.

**Alice Cook Education Award**

This award was established by Mr. Clayton C. Cook. The award, in honour of his wife Alice Cook, celebrates her love of learning and education. The award will be valued at a portion of the income on the endowment and will be awarded annually to a student who meets the minimum academic requirements for an award as defined by the University. The recipient may be enrolled in any year of any undergraduate education degree programs in the Faculty of Education. The Award will be administered by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Education.
The William J. FitzGerald Memorial Bursary
This Bursary was donated by Barbara C. FitzGerald in memory of her father, William J. FitzGerald (1897-1971) who was a St. John's businessman for many years. The award, valued at the annual interest on an endowment, is directed at a full-time student in the Faculty of Education with first preference to students in the high school program who demonstrate scholarship standing and financial need. In the event that an eligible student in the high school program is not available in a given year, the Bursary will be awarded to a Bachelor of Education student in one of the other two faculties. The scholarship will be awarded in perpetuity. The successful student must have done most of his/her studies as a mature student. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Education.

The Edward Harvey (Harv) and Ellie Vokey Scholarship
This scholarship celebrates the inspirational lives of educators Edward Harvey (Harv) (1920-2008) and Ellie Vokey (1925-present). Harv graduated from Memorial College in 1939 and received his bachelor degree in Education from Memorial University of Newfoundland in 1971. Valued at $500, the scholarship will be awarded annually to a full-time student enrolled in any degree program in the Faculty of Education who has graduated from a Newfoundland and Labrador high school. The recipient must meet the minimum academic requirements for a scholarship as defined by Memorial University of Newfoundland. Financial need may be taken into consideration. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarship, Bursaries and Awards on the recommendation of the Dean, Faculty of Education.

The Carrie E. Hodder Memorial Scholarship
This scholarship, valued at the annual accrued interest on an initial endowment, has been established by the husband of the late Carrie E. Hodder as a tribute to her 36 year contribution to education as a teacher in the province of Newfoundland and Labrador. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, Faculty of Education on the basis of scholarship standing to students enrolled in Elementary Education.

The Dr. Ethel M. Janes Memorial Scholarship in Education (Undergraduate)
From a sum of money endowed to Memorial University of Newfoundland by the late Dr. Ethel M. Janes, one scholarship valued at $2,000.00 will be awarded annually on the basis of scholastic achievement. Dr. Janes, a Professor of Education at Memorial University of Newfoundland for twenty-eight years, devoted most of her professional career to study, research and teaching in primary and elementary education. Her contribution to the development of primary and elementary teacher education program within the faculty was significant, as was her influence on primary and elementary education in the schools. Two generations of prospective teachers were her students. This scholarship will be awarded upon completion of the second year of studies at Memorial University of Newfoundland to a student enrolled in the primary/elementary education program as a first degree. Installments of $1,000.00 each will be awarded in two successive academic terms; and the scholarship is renewable for two years provided first-class standing is maintained. This award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, Faculty of Education.

The A. Baxter Morgan Memorial Scholarship
This scholarship has been established by Lorraine, spouse of the late Mr. Morgan. He began his career as a teacher after graduation from Memorial University College. Later, he operated his own business in Newfoundland until his retirement to Clarke's Beach. It will be valued at $500.00 annually and will be awarded to a full-time student in the second year of the Faculty of Education program. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and financial need. The successful student must have done most of his/her studies as a mature student. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Education.

The Carrie E. Hodder Memorial Scholarship
This scholarship, valued at the annual accrued interest on an initial endowment, has been established by the husband of the late Carrie E. Hodder as a tribute to her 36 year contribution to education as a teacher in the province of Newfoundland and Labrador. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, Faculty of Education on the basis of scholarship standing to students enrolled in Elementary Education.

The Grace Layman Scholarship in Education
The Grace Layman Scholarship in Education has been established through a gift to the University by Professor Grace Layman who devoted her life to the development of educational drama in Newfoundland. Valued at a portion of the income on the investment, one or more scholarships will be awarded annually to a student who demonstrates exceptional communication skills. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on a recommendation from the Dean, Faculty of Education.

The Loretta Lynch Education Scholarship
This scholarship, valued at $1,000, was created by Dr. Jackie Lynch, a graduate of the B.Ed and M.Ed programs at Memorial University of Newfoundland, in memory of her grandmother, Mrs. Loretta Lynch. Mrs. Lynch was a strong supporter of education and an inspiration for learning. The recipient will be a full-time undergraduate student who is in their professional year as a primary/elementary student teacher (Internship) and will have demonstrated dedication to their teaching role. They will have graduated from a high school in Newfoundland and Labrador and be in scholarship standing. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Education.

The Effie and Leander Mercer Scholarship
This scholarship, valued at $1,000, was created by Dr. Jackie Lynch, a graduate of the B.Ed and M.Ed programs at Memorial University of Newfoundland, in memory of her grandmother, Mrs. Loretta Lynch. Mrs. Lynch was a strong supporter of education and an inspiration for learning. The recipient will be a full-time undergraduate student who is in their professional year as a primary/elementary student teacher (Internship) and will have demonstrated dedication to their teaching role. They will have graduated from a high school in Newfoundland and Labrador and be in scholarship standing. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Education.

The successful student must have done most of his/her studies as a mature student. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Education.

The John M. and Elsa S. Morgan Scholarships
These scholarships have been bequeathed to the University by the late John M. Morgan, B.Sc., M.D., and have been named to commemorate Dr. Morgan and his wife Elsa. Up to twenty-five scholarships will be made available annually to undergraduate students who have completed at least one year of studies at Memorial University of Newfoundland within the areas specified below and who will be continuing in these programs. The scholarships, valued at a minimum of $1,000.00 each, will be disbursed as follows:
- up to five to the Faculty of Medicine
- up to four to the School of Nursing
- up to four to the Faculty of Education
- up to four to the Department of Philosophy
- up to four to the Department of Anthropology
- up to two to the Department of Religious Studies (with preference to students of comparative religions)
- up to two to students in Newfoundland Studies

The scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the appropriate Dean/ Director/Department Head. Preference will be given, where possible, to students from the Port-de-Grave District.

The Dr. M.O. and Grace Morgan Harlow Bursary
This bursary, valued at a portion of the annual accrued interest on an endowment to Memorial University of Newfoundland from the estate of Dr. and Mrs. Morgan, was established to encourage and assist undergraduate students to attend the University's Harlow Campus. It is open to full-time Memorial University of Newfoundland students attending the Harlow Campus. Up to three bursaries of equal value will be awarded annually to two students in the Faculty of Education (one each in the Spring and Fall semesters) and one to a student in any field of study (in the Winter semester). An application is required to identify those students planning to attend Harlow in the winter semester only and may be obtained from the Scholarships, Bursaries and Awards Office, Room 4018, University Centre. Bursaries awarded in fall and spring will be based on a recommendation from the Faculty, Department of Education. These bursaries will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries, and Awards.

Rick Morris Memorial Bursary
This bursary was established in memory of Rick Morris by his family and friends. Rick was a caring individual who was deeply committed to Newfoundland and worked with a variety of individuals, organizations, and government. He was a mentor to many helping professionals, who regularly sought his counsel on personal and professional issues. He was deeply concerned with violence against individuals, particularly women, children, and the survivors of Mount Cashel. He was involved in the establishment of Unified Family Court's mediation services and frequently collaborated with the aboriginal and senior's communities. The bursary, valued at a portion of the income from the endowment, will be awarded annually to a student who is in financial need and meets the minimum academic requirements for a bursary. It will be awarded on a rotating basis to a student enrolled in one of the following academic areas: Year 1- School of Social Work, Year 2- Faculty of Education, Year 3- School of Human Kinetics and Recreation, Year 4- Department of Gender Studies and Year 5- School of Nursing. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Head of the Unit for which the bursary is being awarded.

The Newfoundland & Labrador Teachers’ Association Scholarship
From a sum of money donated to the Anniversary Fund by the Newfoundland & Labrador Teachers’ Association, a $500.00 scholarship has been established at Memorial University of Newfoundland. This scholarship will be awarded annually on the basis of academic excellence and character to a senior student enrolled in the Faculty of Education. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards acting on the recommendation of the Dean of the Faculty of Education.

The Patti Lynn Noonan Memorial Harlow Travel Bursary
This Bursary, valued at a portion of the income from the endowment, is established in memory of Patti Lynn Noonan by her family. Patti Lynn’s motto was “Live life to the fullest and appreciate it and always tell the people you love that you love them”. Patti Lynn will always be remembered for her smile, her laughter, her love of life, her devotion to family, friends and the students in her care, her courage and her determination. Patti Lynn’s experience at Harlow was a highlight of her time at Memorial University of Newfoundland. The purpose of the Bursary is to enable the recipient to travel outside of Harlow while studying at Memorial University of Newfoundland’s Harlow campus. To be eligible, students must have demonstrated financial need, be in good academic standing, and be accepted to study at the Harlow campus. Preference will be given to students enrolled in the Faculty of Education. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on the recommendation of the Dean of the Faculty of Education.

The Mary O’Keefe Memorial Scholarships
These scholarships were established with a bequest from Mary O’Keefe. Valued at a portion of the annual interest on the endowment, they will be awarded to two full-time students entering the first year of a program in the Faculty of Education. These scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Dean, Faculty of Education.

The Dr. Hugh O’Neill Education Scholarship
This scholarship is the result of a generous donation to Memorial University of Newfoundland by The O’Neill Foundation. One scholarship valued at $2,500.00 will be awarded annually to a full-time undergraduate student in the Faculty of Education at Memorial University of Newfoundland. In awarding the scholarship, first preference will be given to a student from a third world country but in the event of no such eligible student in a given year the scholarship may be awarded to another education student. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing, financial need and a recommendation from the Dean, Faculty of Education.

The Dr. Herbert Lench Pottle Scholarship
This scholarship has been established by the family of Dr. Pottle who served as a member of the Commission of Government (1947-49) and as the Minister of Public Welfare (1949-55) in the Government of Newfoundland. His career also included educational administration, magistrate, author and member of the first Board of Regents at Memorial University of Newfoundland. Valued at the annual interest on the endowment, this scholarship will be awarded to an undergraduate student in the Faculty of Education. Preference will be given to residents of Newfoundland and Labrador. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and financial need and a recommendation from the Dean, Faculty of Education.

The Dr. Herbert Lench Pottle Scholarship in Education
This scholarship has been established by Helen Louise Wesanko in memory of her father, Dr. Herbert Lench Pottle. Valued at a portion of the income on the investment, the scholarship will be awarded to an undergraduate student in the Faculty of Education with preference given to students who are entering the Faculty. The student must be a native-born Newfoundlander or a graduate of a Newfoundland High School. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Dean, Faculty of Education.

Scholarship for Encouraging the Love of Mathematics
This scholarship is established by Denise (nee O'Gay) B.A.(Ed.) (1982) and Fred Mifflin. It is created to encourage and support female Education students who are passionate about teaching Mathematics with a strong preference for teaching at the Primary/Elementary level. The recipient must demonstrate a strong desire to mentor the next generation of students and the interest to develop students' love for learning Mathematics. To be eligible, students must be full-time female undergraduate students enrolled in the Faculty of Education. Preference will be given to students who graduated from a high school in Newfoundland and Labrador. Valued at a portion of the income on the endowment, the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on the recommendation of the Dean, Faculty of Education.

Scott Memorial Scholarship
This scholarship, established by Winslow and Eileen Scott in memory of their late son Bradford, a former student of Memorial University...
of Newfoundland, is valued at not less than $500.00. In awarding this scholarship, preference will be given to students in the Bachelor of Education Intermediate/Secondary Program who have completed the Bachelor of Physical Education or Bachelor of Physical Education (Co-operative) degree at Memorial University of Newfoundland. If a suitable candidate cannot be found in this category it will be awarded to a senior student in the Bachelor of Physical Education or Bachelor of Physical Education (Co-operative) program who is doing the teaching option. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and upon a recommendation approved by the Dean, Faculty of Education and/or the Dean, School of Human Kinetics and Recreation.

Ron and Gwen Seary Memorial Scholarship
Two scholarships from the interest on a fund established by the family, colleagues and students of Ron and Gwen Seary shall be awarded. One scholarship shall be given to a student beyond second year who is majoring in English and who is recommended by the Head of the Department. One scholarship shall be awarded to a student in Primary/Elementary Education who shows promise in Art Education and who is recommended by the Dean, Faculty of Education.

Undergraduate Aboriginal Award in Professional Studies
The Undergraduate Aboriginal Award in Professional Studies was established by Mr. Alan Rowe (B.Comm. ’78) through a generous donation to the Dare To: The Campaign for Memorial University. To be eligible, candidates must be Aboriginal students from Labrador or the Territories of Canada who are enrolled full-time, and have clear academic standing. Preference will be given to students who have demonstrated financial need. Awarded upon entrance to an eligible undergraduate professional program, the Award is valued at $2,500 per year and is renewable for three additional years assuming the recipient maintain clear academic standing and full-time enrollment. Two new recipients will be selected each year on a rotating basis, between the Faculties of Business Administration, Engineering and Applied Science, Medicine, and Education and the Schools of Nursing, Pharmacy, and Social Work. A successful candidate is not recommended by the discipline on rotation in a given year an eligible student from one of the other disciplines may be awarded the scholarship for that year. The Awards are granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards with input from the Aboriginal Resource Office, and on the recommendation of the Deans of the appropriate academic units.

The Tony Walsh Scholarship
This scholarship has been established in memory of Tony Walsh (1898-1994). Tony was a dedicated teacher who demonstrated leadership and determination throughout his life. This scholarship was established by his friends to promote his legacy as an educator, especially in the Okanagan Valley, B.C., and as the founder of the Benedict Labre House of Montreal. Valued at $1,000.00, this scholarship is awarded to a student entering their second year of undergraduate studies in the Faculty of Education. The recipient must meet the minimum academic requirements for a scholarship as defined by the University. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on the recommendation of the Dean, Faculty of Education.

5.5 Faculty of Engineering and Applied Science
The following are available to students in the Faculty of Engineering and Applied Science based on a recommendation from the Dean. For definition of scholarship standing for co-op students, see Scholarships, Bursaries and Awards, General Information.

The Afshin Assemi Memorial Award
This award has been established in memory of Afshin Assemi (Term 8 Electrical, 1991) and is valued at a portion of the income on the investment. It will be awarded during the Winter semester and is intended for students enrolled in Term 8 of the Faculty of Engineering and Applied Science Program. The criteria for selection will be on the basis of outstanding contribution to the betterment of student life within the Faculty of Engineering and Applied Science over the course of his/her academic career. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Engineering Scholarship Committee which will accept recommendations from the Engineering Society Executive. The Engineering Society Executive should consult with Term 8 Class representatives before arriving at their decision. If it is decided that two candidates are equally deserving of the Award, then joint awards may be given at equal values.

Amirix Systems Inc. Scholarship for Computer Engineering
This scholarship, valued at $2500 annually, is established by AMIRIX Systems Inc. of Halifax, NS, and is awarded to a Computer Engineering student in Term 5 of the Faculty of Engineering and Applied Science at Memorial University of Newfoundland. The recipient of this scholarship will have demonstrated scholarship standing as well as extracurricular involvement in any of the following areas: athletics, fine arts, student body activities and/or volunteer work. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Engineering and Applied Science.

American Bureau of Shipping (ABS) Scholarship
The American Bureau of Shipping Scholarship will be awarded to eight full-time undergraduate students who demonstrate scholarship standing and are enrolled in the Faculty of Engineering and Applied Science in any academic terms in the following disciplines: Ocean and Naval Architecture, Mechanical & Electrical. Preference will be given to students who have demonstrated strong academics and/or work experience in the area related to a career in structural; offshore/marine industries. Winners of these scholarships will have preference (upon application) for work term placements with the American Bureau of Shipping in Houston (must be eligible for T-N Visa). Valued at $5000 each, the scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Engineering and Applied Science.

The Ausenco Scholarship
This scholarship was established by a generous donation from Ausenco. Valued at a portion of the income on the investment, it will be awarded annually to a full-time student in at least term six of the Bachelor of Engineering program studying Mechanical Engineering (Offshore Oil and Gas) or Process Engineering at Memorial University of Newfoundland. The recipient must meet the minimum academic requirements for a scholarship as defined by the University. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Engineering and Applied Science.

The C.H. Ballam Scholarship
This scholarship was established by the Honourable Charles H. and Mrs. Ballam as a memorial to their son Ulric, a former Engineering student at the University. The scholarship has a value of $250.00. It is awarded annually during the Winter semester of Engineering One on the recommendation of the Dean of Engineering and Applied Science. In making the award, academic achievement, character and financial need are taken into account. An application is required.

The E.F. Barnes Scholarship
This scholarship was established by Stirling Kelloway in honour of the late Mr. E.F. Barnes, founder of E.F. Barnes Machine and Fabricating Shop Limited which built the first all steel vessel in Newfoundland and developed the only marine engine ever built in the Province. Valued at $5000 each, the scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Engineering and Applied Science.

The E.F. Barnes Scholarship
This scholarship was established by Stirling Kelloway in honour of the late Mr. E.F. Barnes, founder of E.F. Barnes Machine and Fabricating Shop Limited which built the first all steel vessel in Newfoundland and developed the only marine engine ever built in the Province. Valued at $5000 each, the scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Engineering and Applied Science.

The Afshin Assemi Memorial Award
This award has been established in memory of Afshin Assemi (Term 8 Electrical, 1991) and is valued at a portion of the income on the investment. It will be awarded during the Winter semester and is intended for students enrolled in Term 8 of the Faculty of Engineering and Applied Science Program. The criteria for selection will be on the basis of outstanding contribution to the betterment of student life within the Faculty of Engineering and Applied Science over the course of his/her academic career. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Engineering Scholarship Committee which will accept recommendations from the Engineering Society Executive. The Engineering Society Executive should consult with Term 8 Class representatives before arriving at their decision. If it is decided that two candidates are equally deserving of the Award, then joint awards may be given at equal values.

Amirix Systems Inc. Scholarship for Computer Engineering
This scholarship, valued at $2500 annually, is established by AMIRIX Systems Inc. of Halifax, NS, and is awarded to a Computer Engineering student in Term 5 of the Faculty of Engineering and Applied Science at Memorial University of Newfoundland. The recipient of this scholarship will have demonstrated scholarship standing as well as extracurricular involvement in any of the following areas: athletics, fine arts, student body activities and/or volunteer work. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Engineering and Applied Science.

American Bureau of Shipping (ABS) Scholarship
The American Bureau of Shipping Scholarship will be awarded to eight full-time undergraduate students who demonstrate scholarship standing and are enrolled in the Faculty of Engineering and Applied Science in any academic terms in the following disciplines: Ocean and Naval Architecture, Mechanical & Electrical. Preference will be given to students who have demonstrated strong academics and/or work experience in the area related to a career in structural; offshore/marine industries. Winners of these scholarships will have preference (upon application) for work term placements with the American Bureau of Shipping in Houston (must be eligible for T-N Visa). Valued at $5000 each, the scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Engineering and Applied Science.

The Ausenco Scholarship
This scholarship was established by a generous donation from Ausenco. Valued at a portion of the income on the investment, it will be awarded annually to a full-time student in at least term six of the Bachelor of Engineering program studying Mechanical Engineering (Offshore Oil and Gas) or Process Engineering at Memorial University of Newfoundland. The recipient must meet the minimum academic requirements for a scholarship as defined by the University. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Engineering and Applied Science.

The C.H. Ballam Scholarship
This scholarship was established by the Honourable Charles H. and Mrs. Ballam as a memorial to their son Ulric, a former Engineering student at the University. The scholarship has a value of $250.00. It is awarded annually during the Winter semester of Engineering One on the recommendation of the Dean of Engineering and Applied Science. In making the award, academic achievement, character and financial need are taken into account. An application is required.

The E.F. Barnes Scholarship
This scholarship was established by Stirling Kelloway in honour of the late Mr. E.F. Barnes, founder of E.F. Barnes Machine and Fabricating Shop Limited which built the first all steel vessel in Newfoundland and developed the only marine engine ever built in the Province. Valued at $5000 each, the scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Engineering and Applied Science.
Paul S. Batstone Memorial Scholarship
This scholarship was established in memory of Paul S. Batstone who spent 20 years promoting co-operative education at Memorial University of Newfoundland and was a co-ordinator in the Faculty of Engineering and Applied Science until his death in 2003. Valued at a portion of the income on the investment, it will be awarded to a senior student completing work term 3 or 4 during the Spring work term who has demonstrated a high level of commitment and has made a significant contribution to their employer in the past work term. The recipient must meet the minimum academic requirements for a scholarship as defined by Memorial University of Newfoundland. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Engineering and Applied Science with a nomination from the student's employer and input from the Division of Co-operative Education.

Beacon Securities Ltd. Bursary for Women in Engineering
This bursary is the result of a generous donation by Beacon Securities Limited and is valued at a portion of the income from the endowment. The bursary recipient will be a female undergraduate student enrolled full-time in the Faculty of Engineering and Applied Science in the academic year. The recipient must be from outside the metropolitan St. John’s area, and must have demonstrated financial need and a minimum GPA of 2 (out of a possible 4). The bursary will be awarded by the Senate Committee on Undergraduate Scholarships and Awards.

Dr. S.M. Blair Memorial Alumni Awards for Excellence in Engineering
Two scholarships, established by the Memorial University of Newfoundland Alumni Association in memory of Dr. Sidney M. Blair, have a value of $500.00 each and are awarded annually to students entering Term 3 of the Engineering program and Term 5 of the Civil Engineering program who have achieved an appropriate scholarship average in academic courses of the preceding terms. The awards are made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the advice of the Dean of Engineering and Applied Science.

Stephen Brenton Memorial Scholarship
Established by his family and friends, this scholarship celebrates the life of Stephen Brenton, a Mechanical Engineering student at Memorial University of Newfoundland. Valued at $500, it is awarded annually to a full-time student in Mechanical Engineering. Preference will be given to a student who has graduated from a high school in Marystown, Newfoundland and Labrador. The recipient must meet the minimum academic requirements for a scholarship as defined by Memorial University of Newfoundland. Financial need may be taken into consideration. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Engineering and Applied Science.

Ann (Mooney) Bridge - Dillon Consulting/CSCE Newfoundland and Labrador Section Scholarship
This scholarship has been established as a result of the 25th anniversary of the Canadian Society for Civil Engineering’s Newfoundland and Labrador Section. The scholarship is named after the Faculty of Engineering and Applied Science’s first female Civil Engineering graduate, Ann Bridger nee Mooney (B.Eng. 1978). Valued at $500, it will be awarded annually on the basis of scholarship standing to a female undergraduate student in Term 3 of the Civil Engineering discipline. The recipient of this scholarship may be offered a work term at Dillon Consulting. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Engineering and Applied Science.

Myles Butler / Class of ‘77 Bursary in Engineering
To honour the memory of Myles Butler, P.Eng., a cherished classmate and friend, alumni from the Faculty of Engineering Class of 1977, along with family and friends, have established this bursary. Myles was a friendly, outgoing, hard-working mechanical engineer with a great sense of humor and an infectious smile. He is also fondly remembered by his classmates for knowing the lyrics to every engineering song. Myles had a successful 35-year career in the petroleum industry both provincially and internationally which included working on the Hibernia project, Newfoundland and Labrador’s first commercial offshore oilfield. He was often consulted by his engineering colleagues for his valued sound advice and excelled in this role as mentor. This bursary is valued at a portion of the income on the investment and will be awarded annually to a student enrolled in Academic Term 3 in one of the following disciplines: Civil, Mechanical or Electrical. The recipient must have demonstrated financial need and meet the minimum academic requirements for a bursary as defined by Memorial University of Newfoundland. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of a recommendation from the Dean, Faculty of Engineering and Applied Science.

The Wally J. Campbell Memorial Scholarship
This scholarship has been established in memory of Professor W. J. Campbell who helped establish the engineering program at Memorial University of Newfoundland and taught in the program until 1995 when he retired. The scholarship, one or more, is valued at a minimum of $500.00 and will be awarded to a student entering term three who has completed all elements of the program prior to Term 3. Scholarship standing, leadership and contribution to student life will be considered in making the award. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of a recommendation from the Dean, Faculty of Engineering and Applied Science.

The Dr. S.J. Carew Memorial Scholarships
These two scholarships, established in memory of Dr. S.J. Carew, are valued at a portion of the income on the endowment and are awarded annually in the Winter Semester to students in Engineering One of the Bachelor of Engineering program. The scholarships will be awarded on the basis of financial need and scholarship standing with the recipients having achieved at least a strong “B” average in Fall Semester of Engineering One. The scholarships will not be awarded to candidates holding scholarships of equal or greater value. The scholarships are awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, based on a recommendation from the Dean, Faculty of Engineering and Applied Science.

The CBCL Limited Engineering Scholarship
This non-renewable scholarship, valued at $1,000, was established by CBCL Limited. Eligible candidates must be full-time undergraduate students in the Faculty of Engineering and Applied Science, in either the Civil, Mechanical or Electrical program. The scholarship will be awarded on the basis of scholarship standing in Academic Term 4. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Engineering and Applied Science.

Alfred and Annie Chan Electrical Engineering Scholarship
This scholarship was established by a generous donation from Hung Ngok Chan, a member of the class 1974, the first graduate of the Engineering program from Memorial University of Newfoundland. Valued at a portion of the income on the investment, it will be awarded annually to a Faculty of Engineering and Applied Science student enrolled in Electrical Engineering (Term 3). The recipient must meet the minimum academic requirements for a scholarship as defined by Memorial University of Newfoundland. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Engineering and Applied Science.

Chevron Canada Ltd. Endowed Scholarships in Business, Earth Sciences, Economics and Engineering
These scholarships, valued at a portion of the income from the endowment, will be awarded starting in 2011 to full-time students enrolled in at least their second year of Engineering and Applied Science, Earth Sciences, Business or Economics; in a given year, it is anticipated that students from all four faculties will be represented. Selection will be based on scholarship standing as well as expression...
of interest in potential employment in the oil and gas industry, and signaling of career location mobility. Level of service to community, or leadership will also be considered. Students may receive the scholarship in more than one year. They will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the: Dean, Faculty of Engineering and Applied Science; Head, Department of Earth Sciences; Dean, Faculty of Business Administration; and Head, Department of Economics.

Chevron Canada Ltd. Term Scholarships in Business, Earth Sciences, Economics and Engineering

These scholarships, valued at $4,000, will be awarded to full-time students enrolled at least their second year of Engineering and Applied Science, Earth Sciences, Business or Economics; in a given year, it is anticipated that students from all four faculties will be represented. The selection will be based on scholarship standing as well as expression of interest in potential employment in the oil and gas industry, and signaling of career location mobility. Level of service to community, or leadership will also be considered. Students may receive the scholarship in more than one year. They will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the: Dean, Faculty of Engineering and Applied Science; Head, Department of Earth Sciences; Dean, Faculty of Business Administration; and Head, Department of Economics.

The Chevron Canada Resources Engineering Scholarship

This scholarship, valued at the interest earned annually from the endowment to the Opportunity Fund by Chevron Canada Resources, will be awarded annually on the basis of scholarship standing to a student during the Winter semester of Engineering One of the Engineering program at Memorial University of Newfoundland. The scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, based on a recommendation from the Dean, Faculty of Engineering and Applied Science.

Stephen Crooks Memorial Scholarship

This scholarship, valued at $1000.00, has been established in memory of Stephen Crooks (Civil 1982-Memorial University of Newfoundland). It will be awarded to an Engineering student, on the basis of sound scholastic record, who has completed at least five academic terms in Engineering. The student's contribution to the Engineering Faculty and Applied Science and the University, performance during work terms, and overall perseverance within the program will also be taken into consideration. The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation from the Dean, Faculty of Engineering and Applied Science.

The Wilfred and Rose Davis Scholarship in Engineering

This scholarship, a gift from Wilfred J. (Memorial University College 1946) and Rose Davis, is awarded annually to a student entering or engaged in Engineering One. The award is valued at the interest earned annually from the endowment and will not be awarded to holders other than those who meet the requirements for an award as defined by Memorial University of Newfoundland. This award will be administered by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards acting on the recommendation of the Dean of Engineering and Applied Science.

Det Norske Veritas Scholarship

The Det Norske Veritas Scholarship is donated by the Norwegian Ship Classification Society of that name. The $1,000.00 scholarship is awarded to the student in the graduating class in Naval Architectural Engineering who has achieved the highest total marks in terms five to eight inclusive. The award is made solely on academic criteria, and may be held in addition to not more than one other award having monetary value. The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on the recommendation of the Dean of Engineering and Applied Science.

Engineering Class of 2006 Legacy Award

This award has been established by a generous donation from the Engineering Class of 2006. Valued at $400, it will be awarded annually to a full-time Engineering student in Term 3 or higher. Preference will be given to a student who is an active member of Memorial University of Newfoundland's Chapter of Engineers Without Borders. The recipient must meet the minimum academic requirements for an award as defined by Memorial University of Newfoundland. This award will be administered by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, Faculty of Engineering and Applied Science.

Engineering One Entry Scholarships in Engineering

These scholarships are endowed by Mr. Wing Soon Oue of Seven Seas Restaurant, Corner Brook, and have a value of up to $500.00 each. They are awarded annually to two students entering Engineering One, providing they hold no other awards of greater value. The scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards attending the recommendation of the Dean of Engineering and Applied Science.

The J.M.C. Facey Engineering Scholarship

The scholarship is valued at $5,000, and is provided via a contribution to Memorial University of Newfoundland by Mr. Darryl Fry. It will be awarded on the basis of scholarship standing to residents of Newfoundland and Labrador enrolled in Engineering One at Memorial University of Newfoundland. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on a recommendation from the Dean, Faculty of Engineering and Applied Science.

The Dennis Forgeron Award in Mechanical Engineering

The award, valued at $3000, has been established in memory of Dennis Forgeron (Mechanical Engineering Graduate, 1991). It will be awarded to a full-time Mechanical Engineering student during term 7 and is subject to successful completion of term 6. Selection will be based on outstanding contribution to the spirit of the Mechanical Engineering graduating class over the course of their studies at Memorial University of Newfoundland. It will be administered by the Engineering Scholarship Committee which will accept recommendations from the Engineering Society Executive. If it is decided that more than one candidate is equally deserving of the award in a given year, then joint awards of equal value, to a combined maximum of $3000, may be given. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on the recommendation of the Dean, Faculty of Engineering and Applied Science.

Daniel Freeman Memorial Scholarship

This scholarship was established from the contributions of many family members, friends, and fellow students in memory of Danny Freeman, a former Engineering student at Memorial University of Newfoundland. The scholarship, valued at a portion of the accrued monetary value. The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on the recommendation of the Dean, Faculty of Engineering or the Head, Department of Mathematics and Statistics.

The General Motors Scholarship for Women in Engineering

This scholarship is one of several established by General Motors of Canada Limited with contributions to the University's Opportunity Fund Campaign. Interest from the fund will provide a scholarship valued at a minimum of $1,000.00 annually to support and encourage
more women to study and work in Engineering, thereby increasing the contributions of women to engineering and scientific endeavours. This scholarship is tenable at Memorial University of Newfoundland to female students regardless of age, with preference to those who are entering the Faculty of Engineering and Applied Science. However, female students already enrolled in Engineering studies may be eligible if in a given year an eligible entering student is not available. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Dean, Faculty of Engineering and Applied Science.

The General Motors Scholarship in Engineering
This scholarship was established by General Motors of Canada Limited with contributions to the University’s Opportunity Fund Campaign. Interest from the fund will provide a scholarship valued at a minimum of $1,000.00 annually to support individuals who are first generation students in a family (immediate family) to enroll in Engineering. It will be awarded to a student in any term of the Bachelor of Engineering program at Memorial University of Newfoundland. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Dean, Faculty of Engineering and Applied Science.

The Halliburton Energy Services Scholarship in Mechanical Engineering
This fund, a gift to Memorial University of Newfoundland by Halliburton Energy Services via the Opportunity Fund campaign, will provide a scholarship valued at approximately $1,500.00 annually. It will be awarded on the basis of scholarship standing to a student in academic terms 5 or 6 of the Mechanical Engineering Program at Memorial University of Newfoundland. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Dean, Faculty of Engineering and Applied Science.

Heavy Civil Association of Newfoundland and Labrador Scholarship
This scholarship has been established by the Heavy Civil Association of Newfoundland and Labrador and is valued at $1,000.00 annually. It will be awarded to a Civil Engineering student who has achieved scholarship standing and is in Term 6 of their program. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Dean, Faculty of Engineering and Applied Science.

Hebron Diversity Award
This award was created from a generous contribution from the Hebron Project. The Hebron Project co-venturers are ExxonMobil Canada Properties (operator), Chevron Canada, Suncor Energy, Statoil Canada and Nalcor Energy. Awards will be available to full-time or part-time students, enrolled at any campus of Memorial University of Newfoundland, who have aboriginal status, a disability, or who represent a visible minority. Students with a disability should provide supporting documentation (from a medical doctor, psychologist, audiologist, rehabilitation counselor, or other professional who has specific training, expertise, and experience in the diagnosis of this condition). Students will claim aboriginal and visible minority status through self-identification. Of those eligible students, further preference will be given to students who are majoring in engineering, the geosciences, environmental science or chemistry. Normally, at least one award will be granted in each designated area and where possible, at least one award will be granted to a student in her/his first year of study. For students at the St. John’s or Grenfell Campuses the awards will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the appropriate Department Head. For students at Marine Institute, the awards will be granted by the Marine Institute Scholarship Committee on the recommendation of the appropriate Department Head.

The Hebron Women in Science and Engineering Scholarship
This scholarship program was created by a generous contribution from the Hebron Project. The Hebron Project co-venturers are ExxonMobil Canada Properties (operator), Chevron Canada, Suncor Energy, Statoil Canada and Nalcor Energy. Scholarships will be awarded to female students who are enrolled in full-time or part-time studies at any Campus of Memorial University of Newfoundland who are majoring in engineering, the geosciences, environmental science or chemistry. Preference will be given to students with demonstrated financial need. Where possible at least one scholarship will be awarded to a student in her/his first year of study. For students at the St. John’s or Grenfell Campuses the awards will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the appropriate Dean or Department Head. For students at the Marine Institute, the awards will be granted by the Marine Institute Scholarship Committee on recommendation of the appropriate Department Head.

The Hibernia Project Scholarship
These scholarships, established by the Hibernia Management and Development Company Ltd., are tenable at Memorial University of Newfoundland and are valued at an amount determined by the annual income on the investment. They are awarded annually as follows:
- Four students entering Term 3 of the Faculty of Engineering and Applied Science with two awarded to male students and two awarded to female students.
- Two students entering Term 3 of the Faculty of Business Administration with one awarded to a male student and one awarded to a female student.

Candidates for these awards must be of scholarship standing but consideration may also be given to their financial circumstances. All candidates must be residents of Newfoundland and Labrador. The awards will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Deans, Faculty of Business Administration and Faculty of Engineering and Applied Science.

The Honeywell Limited-Honeywell Limitée Scholarship
This scholarship, the gift of Honeywell Limited-Honeywell Limitée, is valued at the annual interest on the initial endowment. It will be awarded on the basis of scholarship standing to a student in Term 5 of the Mechanical Engineering Program at Memorial University of Newfoundland. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Engineering and Applied Science.

Husky White Rose Extension Diversity Project Scholarship
This scholarship was established by a generous donation from Husky Energy to recognize the importance of a skilled and diverse workforce. Husky strongly supports economic development in Newfoundland and Labrador and believes that education is important in developing and sustaining a successful community. Husky is seeking to develop the pool of qualified diversity group members interested in pursuing careers in operational aspects of the oil and gas industry. Two scholarships, valued at $2,500 each, will be awarded annually to undergraduate students from the Faculties of Earth Sciences, Engineering and/or Business. The scholarships will be awarded on a rotating basis, and each year the two recipients must be from different faculties. The recipients will identify as one or more of the following: female, aboriginal, person with a disability and/or member of a visible minority. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of the recipient faculty.

The IEEE Newfoundland and Labrador Section Term 4 Scholarship
This scholarship was established by an endowment from the Newfoundland and Labrador Section of IEEE (The Institute of Electrical and Electronics Engineers). It is valued at a portion of the annual interest accrued on the initial endowment and awarded annually to a full-time undergraduate student in Term 4 of the Electrical and Computer Engineering or Computer Engineering Programs at Memorial University of Newfoundland. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Dean, Faculty of Engineering and Applied Science.
University of Newfoundland. The recipient must be an active student member of IEEE and be of scholarship standing as defined by the University. In addition to the student’s academic achievement, contributions to the IEEE student branch will be considered. In this regard, candidates must submit a one page letter describing their IEEE involvement, their professional goals and their student activities in the areas of electrical and computer and/or computer engineering. A student may not hold the scholarship more than once. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean, Faculty of Engineering and Applied Science, acting on the advice of a special selection committee of the IEEE, Newfoundland and Labrador Section.

The IEEE Scholarship
This scholarship was established by the members of the Newfoundland and Labrador section of IEEE (The Institute of Electrical and Electronics Engineers). This Scholarship has a value of $1000. It is awarded annually to a full-time undergraduate student in Term 6 of the Electrical and Computer Engineering Program at Memorial University of Newfoundland. The recipient must be a student member of IEEE and possess scholarship standing as defined by the University. In addition to the student's academic achievement, contributions to the IEEE student branch will be considered. This Scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean, Faculty of Engineering and Applied Science, acting on the advice of the IEEE, Newfoundland and Labrador Section.

The Integrated Informatics Award of Excellence
This award is established through a generous gift from Jason and Christa Humber, and will provide one award annually, valued at a portion of the income from the endowment. To be eligible, students must be senior engineering students enrolled in their final undergraduate year (Term 8) in the Offshore Oil and Gas option of the Faculty of Engineering & Applied Science at Memorial University of Newfoundland. The award will be given to a student who has achieved the highest total marks in offshore oil and gas courses in terms 6 and 7. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, upon the recommendation of the Dean, Faculty of Engineering and Applied Science.

The Kiewit Offshore Services Award
These awards, valued at $100 each for two students are offered annually by Kiewit Offshore Services (KOS). Each award also includes the possibility for the recipient to complete one or more work terms with this well-renowned general contracting company. The eligible candidates should have completed, as a minimum, their Term 4 in Naval, Civil, Mechanical or Electrical Engineering with good scholarship standing and have demonstrated a strong interest to work in the construction industry during their previous work terms, preferably with the Kiewit Group. Factors to be taken into account include character qualities, team spirit, personal initiative, leadership, reliability and mobility. Financial need may also be a consideration. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, Faculty of Engineering and Applied Sciences with the appropriate input from the Chairpersons and Faculty acting on the advice of a special selection committee of the Kiewit Group.

Peter Kiewit Infrastructure Co. Ltd. Award
These awards, valued at $1000 each for two students are offered annually by Peter Kiewit Infrastructure Co. Each award also includes the possibility for the recipient to complete one or more work terms with this well-renowned general contracting company. The eligible candidates should have completed, as a minimum, their Term 4 in Civil, Mechanical or Electrical Engineering with good scholarship standing and have demonstrated a strong interest to work in the construction industry during their previous work terms, preferably with the Kiewit Group. Factors to be taken into account include character qualities, team spirit, personal initiative, leadership, reliability and mobility. Financial need may also be a consideration. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, Faculty of Engineering and Applied Science, acting on the advice of a special selection committee of the Kiewit Group.

The Gene H. Kruger Memorial Scholarship
These scholarships are the result of a generous donation by Joseph Kruger II in memory of his father, Gene H. Kruger. Valued at a portion of the income on the investment, they will be awarded to two students in the Faculty of Engineering and Applied Science who were born and have lived in Newfoundland all of their life. Particular emphasis should be given to those who are studying Mechanical and/or Electrical Engineering, as well as those studying information technologies. The scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and financial need on the recommendation of the Dean, Faculty of Engineering and Applied Science.

Dr. Leonard Lye Award for Volunteer and Community Service
This scholarship, offered annually in the Faculty of Engineering and Applied Science at Memorial University of Newfoundland is awarded, when merited, to a Term 8 engineering student. Recipient must meet scholarship standing and demonstrate an ongoing volunteer commitment (more than two years) to a community group external to Memorial University of Newfoundland. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on the recommendation of the Dean, Faculty of Engineering and Applied Science.

The Wallace Allison MacCallum Memorial Scholarship
This scholarship valued at the annual interest, was established by the MacCallum family in honour of their father, Wallace. It will be awarded to a third or fourth year Engineering student at Memorial University of Newfoundland. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Dean, Faculty of Engineering and Applied Science. Factors such as, interest in the humanities and international affairs, marine technology, contribution to his/her engineering class, and athletic involvement may also be taken into consideration.

The John Madvig Bursary
This bursary will be awarded annually to a student in the Faculty of Engineering and Applied Science who is studying in the Naval Architectural Engineering program at Memorial University of Newfoundland. The value of the bursary will be based on the annual interest earned on the initial endowment. It will be awarded to a Canadian citizen on the basis of academic standing and financial need.

The Effie and Leander Mercer Scholarship
The scholarship was established by Dr. Jean Mercer in honour of her parents, Effie and Leander Mercer. Valued at the annual interest on the endowment, an award will be made alternately to a third year student in Medicine, Engineering and Post-Secondary Education (formerly Vocational Education). In any given year, if no student is eligible in the designated faculty it may be awarded to a student in one of the other two faculties. The successful student must have done most of his/her studies as a mature student. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation of the respective Dean. Financial need must also be taken into account.

The Professor Bill Milne Memorial Scholarship
The scholarship is established in memory of Professor William (Bill) Milne, the founder of the program now known as Ocean and Naval Architectural Engineering. This scholarship, valued at a portion of the income from the endowment, is the result of contributions by Ruth
Miline and Prof. Milne's former students and colleagues. The scholarship recipients will be full-time undergraduate students enrolled in Term 4 of the Ocean and Naval Architectural Engineering program. Candidates must have maintained scholarship standing in Terms 1 to 3, and have demonstrated involvement in formal professional associations, such as the Society of Naval Architects and Marine Engineers. The Scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on the recommendation of the Dean, Faculty of Engineering & Applied Science.

The Morris Scholarship
This scholarship was established by the late Stephen Rupert (Sandy) Morris, and endowed by his son, Dr. Ian Morris, to honour his father's memory. Rupert was a sergeant in the 23rd Field Company of the Royal Canadian Engineers. This company of combat engineers saw action in Europe during WWII. Rupert served with the 23rd in Europe and survived the war. He returned to Newfoundland where he took over the family business and lived into his eighties. He never forgot that he had been a sapper. Valued at a portion of the income on the endowment, it will be awarded annually to a student in Term 3 at the Faculty of Engineering and Applied Science who meets the minimum academic requirements for a scholarship as defined by Memorial University of Newfoundland, with preference given to financial need. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Engineering and Applied Science.

NACE International (Atlantic Canada Section) Prize
This prize has been established by the National Association of Corrosion Engineers and is valued initially at $500.00 annually. It will be awarded to an Electrical or Mechanical Engineering student in Academic Term 5 in the engineering program at Memorial University of Newfoundland. The successful candidate must have demonstrated excellence in Engineering 3911 - Chemistry and Physics of Engineering Materials I. In addition, preference will be given to students who have completed and excelled in at least one work term related to corrosion engineering or has carried out a laboratory experiment or has performed research in corrosion and/or corrosion mitigation. The prize will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of a recommendation from the Dean, Faculty of Engineering and Applied Science in consultation with the Atlantic Canada Section of NACE International. The successful candidate will be encouraged to join NACE International as a student member to encourage his or her interest in corrosion mitigation.

Nalcor Energy Women in Engineering Scholarship
The Nalcor Energy Women in Engineering Scholarship is endowed through a gift from Nalcor Energy. Valued at a portion of the income on the endowment and based on scholarship standing this scholarship will be awarded to a full-time undergraduate female student who graduated high school in Newfoundland and Labrador and is enrolled in the Engineering and Applied Science Program at the Academic Term 4 level. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, upon recommendation of the Dean, Faculty of Engineering and Applied Science.

Newfoundland and Labrador Hydro Corporation Scholarships in Engineering and Applied Science
These eight scholarships, offered annually by the Newfoundland and Labrador Hydro Corporation, are valued at $1,000 each. The awards are tenable in the Faculty of Engineering and Applied Science at Memorial University of Newfoundland and are distributed as follows: three to students enrolled in the Fall semester of Engineering One; three to students enrolled in the Winter semester of Engineering One; and two to students enrolled in Term 8. The scholarships will be awarded on the basis of scholarship standing to students who have graduated high school in Newfoundland and Labrador. Where possible, preference will be given to students who have demonstrated character and values of teamwork, open communication, leadership, dignity and respect. Preference can also be given to students who meet these criteria and have also demonstrated financial need. The scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on the recommendation of the Dean, Faculty of Engineering and Applied Science.

The Newfoundland and Labrador Federation of Municipalities Civil Engineering Scholarship
This scholarship, the gift of the Newfoundland and Labrador Federation of Municipalities, is valued at $500.00. It will be awarded annually to a Civil Engineering student at Memorial University of Newfoundland. Financial need and other factors may also be taken into account. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Dean, Faculty of Engineering and Applied Science.

The Newfoundland Design Associates Limited Scholarship in Engineering
This fund donated to Memorial University of Newfoundland via the Opportunity Fund by Newfoundland Design Associates Limited, will provide a scholarship for a full time undergraduate student in academic Term 2 of the Engineering Program. The scholarship, valued at the annual interest on the initial endowment, is based on scholarship standing and will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean, Faculty of Engineering and Applied Science.

Professor Calvin Noble Memorial Award
The award, valued at $1,000.00, will be given annually to an undergraduate student in any year of the Faculty of Engineering and Applied Science. The recipient must be in clear academic standing and must have made a significant contribution to the Faculty of Engineering and/or to university life as a whole during his/her studies at Memorial University of Newfoundland. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on the recommendation of the Dean, Faculty of Engineering and Applied Science.

The Noranda Scholarship
This scholarship valued at the annual interest, has been established by the Noranda Foundation as part of the Opportunity Fund campaign. It will be awarded on an annually rotating basis between students in Earth Sciences and Engineering and Applied Science. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Dean/Department Head of the appropriate discipline.

Bill O’Reilly Memorial Scholarship
This scholarship was established in memory of Bill O’Reilly (Engineering Class of 1976). Bill was the first of the class to go to work with the great engineer on the other side. He was universally liked and loved by all who knew him, and had one of the sharpest minds in the class. The class was honoured to establish this scholarship in his memory at the time of their 10 year reunion. It is valued at a portion of the income on the investment and is awarded annually to a student in Term 5 or Term 8 in the Faculty of Engineering and Applied Science. The recipient must meet the minimum academic requirements for a scholarship as defined by Memorial University of Newfoundland. The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on the recommendation of the Dean, Faculty of Engineering and Applied Science.

Oil and Gas Week Scholarship
Valued at $1,000 each, two undergraduate scholarships are provided by the organizers of Oil and Gas Week with the possibility of additional scholarships being funded by the sponsors of the event. Oil and Gas Week is a program of events held province wide every year for the purpose of promoting the oil and gas industry. To be eligible, students must be enrolled full-time beyond the first year of an undergraduate program in the Department of Earth Sciences, the Faculty of Engineering and Applied Science, or the Faculty of Business Administration. Eligible candidates must have scholarship standing and preference will be given to students who graduated from a high school in Newfoundland and Labrador outside of the metropolitan St. John’s area. Each year the recipients must be from
different faculties, with each identified academic unit to be represented no more than twice in the three year period of the term of the fund. The scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, based on a recommendation from the appropriate academic discipline.

**Fritz Potter Memorial Award**
This award has been established in memory of Fritz Potter (Civil Engineering Graduate, 1991) and is valued at $500.00. It will be awarded during the Winter semester and is intended for students enrolled in Term 8 of the Civil Engineering program. The criteria for selection will be on the basis of outstanding contribution to the spirit of the Civil Engineering graduating class over the course of their studies and their contribution to the Engineering Society of Newfoundland and Labrador. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on a recommendation from the Engineering Society Executive. The Engineering Society Executive should consult with Term 8 Civil Engineering class before arriving at their decision. If it is decided that two candidates are equally deserving of the award, then joint awards may be given valued at $250.00 each. This award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based upon a recommendation from the Faculty of Engineering.

**The Professional Engineers and Geoscientists Newfoundland and Labrador Engineering Scholarships**
Two scholarships, the gifts of the Professional Engineers and Geoscientists Newfoundland and Labrador, are awarded annually to students entering the Engineering program. The awards are valued at $1,000.00 each and will not be awarded to candidates holding other awards of greater value. One scholarship is awarded on the basis of scholastic achievement and financial need, the other primarily on the basis of scholastic achievement. These scholarships will be awarded by a committee of the Professional Engineers and Geoscientists Newfoundland and Labrador. Further information regarding application forms, etc., is available from the Dean of Engineering and Applied Science.

**The Professional Engineers and Geoscientists Newfoundland and Labrador Past President's Engineering Scholarship**
This scholarship, valued at a minimum of $1,000.00, was established by the Professional Engineers and Geoscientists Newfoundland and Labrador to mark the centennial year of Engineering as an organized profession in Canada. It is awarded annually on the basis of scholastic achievement to a student entering the Fall semester of the Engineering program at Memorial University of Newfoundland. The scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, in consultation with the Dean of Engineering and PEGNL.

**The S.P. Raheja Memorial Scholarship**
This scholarship, valued at a portion of the income from the endowment, was established through generous gifts from the friends and family members of S. P. Raheja. It is to be presented during National Co-operative Education Week and will rotate annually between the Faculty of Engineering and Applied Sciences and the Faculty of Business Administration. To be eligible, students must be in scholarship standing, and be enrolled in the co-operative program, having successfully completed work term four in Engineering or work term two in Business in the previous scholarship year. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, upon the recommendation of the Director of the Division of Co-operative Education.

**The Charlie Riggs and Cathy MacDonald Riggs Memorial Award**
This award has been established in memory of Charlie Riggs (Bachelor of Engineering-Mechanical, 1983) and Cathy Macdonald Riggs (Bachelor of Science – Psychology, 1984) by AMEC Earth & Environmental (a division of AMEC Americas Limited). The award will be valued at a portion of the income on the endowment and will be awarded annually on a rotating basis between the Faculty of Engineering and Applied Science and the Department of Psychology. Recipients from Engineering can be enrolled in any year of the undergraduate program. Preference will be given to students involved in environmental organizations such as the Newfoundland Environmental Industry Association (NEIA) or environmental initiatives supported by the Professional Engineers and Geoscientists Newfoundland and Labrador (PEGNL). Recipients from Psychology must be undergraduate students majoring in Behavioural Neuroscience and beyond their second year of study. They may demonstrate an interest in the psychology or physiology of communication. The students must meet the minimum academic requirements for an award as defined by the university. The award will be administered by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean, Faculty of Engineering and Applied Science and the Head of Psychology, Faculty of Science, respectively.

**Rutter Inc. Scholarship - In Memory of Byron Dawe**
This scholarship was originally established in 2003 by a donation from Rutter Inc. and renamed in 2012 in memory of Byron Dawe, M. Eng., one of the founders of Rutter’s marine products business. Valued at a portion of the income on the investment, it will be awarded annually to a student in Term 4 of the Electrical Engineering program at Memorial University of Newfoundland. The recipient must meet the minimum academic requirements as defined by the University, however preference may be given to students with demonstrated financial need. All candidates must be residents of Newfoundland and Labrador (a person who has graduated from a high school in Newfoundland and Labrador). The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Engineering and Applied Science.

**Paul Sacuta Scholarship**
This scholarship was established by the Hibernia Management and Development Company Ltd. (HMDC) as operator and on behalf of the Hibernia Project, in memory of Paul Sacuta, former president of HMDC. Paul was a transformative leader who was admired by everyone who worked with him. His personal legacy will be the beautiful family he created with his wife Ros and his professional legacy will be the people he developed throughout his career. The scholarship is available to full-time students enrolled in the Faculty of Engineering and Applied Science who meet the minimum academic requirements for a scholarship as defined by the University. In awarding this scholarship consideration will be given to candidates who have demonstrated leadership characteristics. All candidates must be residents of Newfoundland and Labrador, as defined by Memorial University of Newfoundland. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Engineering and Applied Science.

**The Schlumberger Canada Limited Scholarship for Engineering and Applied Science**
This scholarship, valued at $2,000 each for four student recipients, is generously funded by Schlumberger Canada Limited. In the Atlantic East Canada region, Schlumberger operates from ten sites, employs over 300 people and is an equal opportunity employer. The scholarships are open to full-time students enrolled in academic years two to four of the Bachelor of Engineering program (Civil, Mechanical, Electrical and Computer) at Memorial University of Newfoundland. The recipients must be residents of Newfoundland and Labrador and meet the minimum academic requirements for a scholarship as defined by the University. The scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, Faculty of Engineering and Applied Science.

**The Shell Canada Engineering Scholarship**
This fund a gift to Memorial University of Newfoundland by Shell Canada via The Opportunity Fund campaign, will provide three scholarships valued at approximately $1,500.00 each annually. They will be awarded on the basis of scholarship standing to students in academic terms 5, 6, 7 or 8 of the Mechanical Engineering Program at Memorial University of Newfoundland. The scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Engineering and Applied Science.
The Charlie Sheppard Memorial - Hatch Scholarship

The Charlie Sheppard Memorial - Hatch Scholarship, valued at a portion of the income on the endowment, has been established by Hatch, in memory of Charlie Sheppard. The scholarship will be awarded to two full-time undergraduate students in the Faculty of Engineering and Applied Science who are in the Winter semester of Engineering One and have scholarship standing. All other criteria being equal, preference will be given to a student from a rural community in Newfoundland and Labrador. The Scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Engineering and Applied Science.

Society of Newfoundland Radio Amateurs Electrical Engineering Scholarship

The Society of Newfoundland Radio Amateurs Electrical Engineering Scholarship was established in memory of deceased members, who cherished the Amateur Radio hobby and experienced the joy of fellowship and camaraderie. This scholarship was founded by a gift from the state of Nathan G. Penney, Amateur Radio call sign VO1NP. Valued at a portion of the income from the investment, it will be awarded annually to a senior undergraduate student enrolled in the Electrical Engineering program of the Faculty of Engineering and Applied Science, who meets the academic requirements for a scholarship defined by Memorial University of Newfoundland. Preference will be given to a student who has financial need and is not already in receipt of scholarship funding. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries, and Awards on the recommendation of the Dean, Faculty of Engineering and Applied Science.

Structural Design Inc. Scholarship in Engineering

This scholarship is the result of a commitment to The Opportunity Fund by Structural Design Inc. It will provide one scholarship of $500 to full-time students in Term 7 specializing in Structural Engineering. The scholarship, based on scholarship standing, will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean, Faculty of Engineering and Applied Science. In the case of a tie between two students, need may be a determining factor.

The Sun Life Financial Scholarship in Applications of Technology

This scholarship is the gift of Sun Microsystems of Canada, will provide a scholarship for a full-time undergraduate student in Academic Term 5 of the Computer Engineering program. The scholarship, valued at the annual interest on the endowment, is based on scholarship standing and will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean, Faculty of Engineering and Applied Science.

Suncor Scholarships for Women in Engineering

The Bob Thorburn Memorial Scholarship

This scholarship is the gift of Newfoundland Power Inc. The exact value is reviewed on an annual basis and is currently set at $2,000.00. It is awarded annually to a student entering Term 4 who has completed all components of the program up to Term 4. Academic excellence is a major criterion but should be coupled with exemplary work term results. In addition, the candidate should have strong interpersonal and communications skills as well as good understanding of the needs and aspirations of their fellow citizens and a desire to use engineering as a vehicle to make our world a better place. The scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Engineering and Applied Science in consultation with the President of the Company. No application is required.

The Charles O. Thomas Scholarship

This scholarship is a gift of The Thomas Fuller Construction Company (1958) Limited, in memory of Mr. Charles O. Thomas, who was supervisor of construction of the National Research Council Institute for Marine Dynamics on this campus, 1982-85. The value of the award will be based upon the interest accrued on the principal sum donated, up to the amount of $750.00. The award is made to the student in the Faculty of Engineering and Applied Science who obtains the highest overall average in Terms 3, 4, and 5 and who does not already hold a scholarship administered by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards in that same academic year. The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on the recommendation of the Dean of Engineering and Applied Science.

Tiller Group of Companies/CSCE Newfoundland and Labrador Section Scholarship

This scholarship has been established as a result of the 25th anniversary of the Canadian Society for Civil Engineering's Newfoundland and Labrador Section. Tiller Engineering Inc. was founded in 2001 by Faculty of Engineering and Applied Science alumni Richard W. Tiller, M.Eng, B.Eng, P.H., Class of 1988. The firm is renowned for its commitment to quality and solid record of excellence in the telecommunications, buildings, and energy industries throughout North America. Mr. Tiller is a fellow of the CSCE and his engineering firm is also an Affiliate Corporate Member of the Society. Valued at $500, this scholarship will be awarded annually on the basis of scholarship standing to an undergraduate student in Term 3 of the Civil Engineering discipline. The recipient of this scholarship may be offered a work term at Tiller Engineering Inc. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on the recommendation of the Dean, Faculty of Engineering and Applied Science.
The Torontom Scholarship
This scholarship, valued at the annual interest on the endowment, has been established by Torontom Industries Ltd. as part of the Opportunity Fund Campaign. It will be awarded on an annually rotating basis between students in Business Administration and Engineering and Applied Science. It will be awarded on the basis of scholarship standing, extracurricular activities, and need. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation from the Dean of the appropriate discipline.

Undergraduate Aboriginal Award in Professional Studies
The Undergraduate Aboriginal Award in Professional Studies was established by Mr. Alan Rowe (B.Comm. ’78) through a generous donation to the Dare To: The Campaign for Memorial University. To be eligible, candidates must be Aboriginal students from Labrador or the Territories of Canada who are enrolled full-time, and have clear academic standing. Preference will be given to students who have demonstrated financial need. Awarded upon entrance to an eligible undergraduate professional program, the Award is valued at $2,500 per year and is renewable for three additional years assuming the recipient maintains clear academic standing and full-time enrolment. Two new recipients will be selected each year on a rotating basis, between the Faculties of Business Administration, Engineering and Applied Science, Medicine, and Education and the Schools of Nursing, Pharmacy, and Social Work. If a successful candidate is not recommended by the discipline on rotation in a given year an eligible student from one of the other disciplines may be awarded the scholarship for that year. The Awards are granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards with input from the Aboriginal Resource Office, and on the recommendation of the Deans of the appropriate academic units.

Vale Scholarships in Process Engineering
These eight scholarships, valued at $1,000.00 each, are generously funded by Vale. They will be available to students who are enrolled in academic years 2 to 4 of the Bachelor of Engineering program, majoring in process Engineering at Memorial University of Newfoundland. Successful candidates must have scholarship standing and be residents of Newfoundland and Labrador (a person who has maintained permanent residence in the Province for a minimum of twelve months immediately prior to entering academic term one of the program). They will be awarded as follows: two in term three (one male and one female), two in term four (one male and one female), and one each for terms five through eight. They will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, Faculty of Engineering and Applied Science.

Verafin Entrance Scholarship in Engineering
Three annually funded scholarships valued at $1,500 each are made possible through a generous donation from Verafin. These entrance scholarships aim to encourage high school graduates in Newfoundland and Labrador to pursue careers in Engineering. These scholarships will be awarded annually to students who have scholarship standing and are entering the Fall Semester of Engineering One at the Faculty of Engineering & Applied Science at Memorial University of Newfoundland. Preference will be to award one scholarship per school to a student from Crescent Collegiate, Heritage Collegiate and any high school in the Eastern Region of the Newfoundland and Labrador English School District. If there are no qualified candidates from these high schools, students who have graduated from any high school in Newfoundland and Labrador will be considered. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on the recommendation of the Dean, Faculty of Engineering and Applied Science.

The Jacques Whitford Newfoundland Geoscience Scholarship
This scholarship, valued at the annual interest on their endowment, has been established by Jacques Whitford Environment Limited and Newfoundland Geosciences Limited as a contribution to the Opportunity Fund Campaign. It will be awarded on an annually rotating basis to students in the Faculty of Engineering and Applied Science (particularly Civil Engineering), the Faculty of Science (particularly Biological Sciences) and Archaeology. Successful candidates are to be of scholarship standing and preferably show an interest in environmental issues. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation from the Dean/Director/Department Head of the appropriate discipline.

Women in Engineering Memorial Scholarship
This scholarship has been established to commemorate the sudden and tragic deaths of fourteen women at L’Ecole Polytechnique in Montreal on December 6, 1989. Thirteen of the women who died so violently were pursuing studies in engineering, historically a non-traditional field for women. It is hoped that this annual $2,500.00 scholarship will encourage more women to study and work in this profession, thereby increasing the contributions of women to engineering and scientific endeavours. Funding support is provided by the Faculty of Engineering & Applied Science, C-CORE, Memorial University of Newfoundland Alumni Association and individual contributions. This award is tenable at Memorial University of Newfoundland to female students regardless of age, who are entering the Faculty of Engineering and Applied Science. To be eligible, applicants must demonstrate a commitment to the advancement of women in terms of leadership, service, research, or teaching. Preference will be given to students who have maintained permanent residence in the Province for a minimum of twelve months immediately prior to entering academic term one of the program. It will be awarded on the recommendation of the Dean, Faculty of Engineering and Applied Science.

Work Term Scholarships & Awards in Engineering
1. W.W. Cossilt - This award is intended for the Senior Engineering Student (Work Term 4, 5, & 6) who has made the most important contribution to his/her employer and therefore to the Co-operative Engineering Program. The award is made available by the Professional Engineers and Geoscientists of Newfoundland and Labrador (PEGN) once per semester. It is a monetary value of $500. PEGN issues the final award on the recommendation by the Dean, Faculty of Engineering and Applied Science and the Engineering Division of Co-operative Education. The Division's recommendation is based upon: a) Supervisor nomination; b) Student work performance; c) Student work report or oral presentation and written summary; d) Student academic standing (must be scholarship standing).

2. PEGN Eastern Chapter - This award is intended for the Junior Engineering Student (completing work terms 1, 2, & 3 prior to Academic Term 5) who has made the most important contribution to an employer and therefore to the Co-operative Engineering Program. The award is made available by the Professional Engineers and Geoscientists of Newfoundland and Labrador (PEGN) Eastern Chapter once per semester. It is a monetary value of $500. PEGN Eastern Chapter issues the final award on the recommendation by the Dean, Faculty of Engineering and Applied Science and the Engineering Division of Co-operative Education. The Division's recommendation is based upon: a) Supervisor nomination; b) Student work performance; c) Student work report; d) Student academic standing (must be scholarship standing).

The Howell Zygocki Scholarship for Women in Engineering
This scholarship was established by Rhonda I. Zygocki in the name of her family. Rhonda graduated from Memorial University of Newfoundland in 1980 with a degree in Civil Engineering and was among the University’s early female engineering graduates. This scholarship is valued at a portion of the income from the endowment and will be awarded annually. The recipient will be a second year female student in the Faculty of Engineering and Applied Science. Preference will be given to a student who has demonstrated financial need. The recipient must meet the minimum academic requirements for a scholarship as defined by the University. It will be awarded by
the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean, Faculty of Engineering and Applied Science.

5.6 Faculty of Medicine

The following are available to students in the Faculty of Medicine based on a recommendation from the Dean.

The Dr. Brian Gerard Adams Memorial Bursary Fund
This bursary has been established by the friends and family of Dr. Brian Gerard Adams, in his memory. The bursary, valued at $500.00, is available by application on the completion of second year medical studies. The recipient must be in good academic standing and demonstrate financial need. The bursary is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, acting on the recommendation of the Dean of Medicine's Advisory Committee on Awards, Bursaries and Scholarships.

The Alcohol and Drug Dependency Commission Commemorative Awards
These awards have been established to commemorate the Alcohol and Drug Dependency Commission (1982-1992). In an effort to promote the pursuit of addictions studies in various disciplines, it is hoped that recipients will pursue careers in addiction-related fields. Up to three awards, valued at $750.00 each, are available annually and open to students who have completed a major or published paper at the undergraduate or graduate level or are completing an Honours Dissertation on addictions issues. It will be awarded on a rotating basis to students in Pharmacy, Nursing, Medicine, and Social Work with a Faculty or School receiving only one award in any given scholarship year. These awards will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean/Director/Head of the respective Faculty or School.

The Amgen Canada Memorial University Family Medicine Scholarship
This scholarship is established through funding by Amgen Canada of $1000 each for five recipients per year for a three-year term. Amgen Canada funded this scholarship to provide support for medical students who are planning a career in Family Medicine. To be eligible, candidates must be full-time medical students in their graduating year who have been accepted into Family Medicine Residency program at Memorial University of Newfoundland and meet the criteria of scholarship standing as defined by the Faculty of Medicine. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on the recommendation from the Dean, Faculty of Medicine.

Dr. Andrew Bagby and Son Zachary Andrew Memorial Bursary
This bursary was initiated in memory of Dr. Andrew Bagby and his son Zachary by David and Kathleen Bagby, parents of Andrew. The recipient must have an engaging demeanor and must relate with ease to people at all levels, as this was a unique characteristic of Dr. Bagby. Valued at a portion of the income on the endowment, it will be awarded annually to the graduating M.D. student who best demonstrates the qualities Andrew embodied: a positive caring attitude, a sense of camaraderie, passion for life, supportive of others with whom he has concern for, and demonstrable impact on the lives of his/her classmates. The recipient must have demonstrated financial need as well as meet the minimum academic requirements for a bursary. This bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of Medicine's Advisory Committee on Scholarships, Bursaries and Awards.

The Erika Bartlett Memorial Bursary
This bursary is the result of an endowment to the University funded by donations from family and friends of the Bartlett family, as well as students, staff and faculty members of the Faculty of Medicine. This bursary is valued at a portion of the annual accrued interest on the endowment and is available to a staff member and a medical student in alternate years. The Erika Bartlett Bursary is administered by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards and awarded on the basis of a recommendation from the Dean, Faculty of Medicine. Applications are available at the Office of Student Affairs, Faculty of Medicine.

Selection Criteria Staff Member
To be eligible a candidate must:
1. Complete the appropriate application form,
2. Be employed full-time with the Faculty of Medicine,
3. Use the bursary to fund study at the undergraduate level,
4. Submit a grade to the selection committee upon completion of the course.

Selection Criteria Medical Student
To be eligible a student must:
1. Be registered in the fourth year of medical studies.
2. Be matched to a postgraduate program in Oncology (Medicine/Surgery/Radiology). If a student is not matched to an Oncology program then the recipient will be chosen at the discretion of the selection committee.

The Gina D. Blundon Memorial Award
This award was established in memory of Gina Doreen Blundon, of Carbonear, Newfoundland, who passed away suddenly on May 18, 2001. Gina was a member of the Memorial University of Newfoundland Faculty of Medicine Class of 2004, and her classmates, family and friends wish to honour her spirit through the establishment of this award. Valued at a portion of the income from the endowment, it will be awarded annually, to an undergraduate medical education student in the Faculty of Medicine, following a nomination process. Nomination for the award can be made by any member of the health care team who has had interactions with medical students. The recipient must have a positive, caring attitude and have contributed to the quality of student life in addition to meeting the minimum academic requirements for an award as defined by Memorial University of Newfoundland. This award will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of Medicine's Advisory Committee on Scholarships, Bursaries and Awards.

The Donald Cant Studentship
The annual Donald Cant Studentship, valued at $750.00, is for researching and writing an original essay, suitable for publication, on some aspect of the History of Medicine. The studentship is open to any student enrolled in the M.D. program, Faculty of Medicine, Memorial University of Newfoundland. The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards acting on the decision of the Dean of Medicine's Advisory Committee on Awards, Bursaries and Scholarships on the basis of a proposal to be submitted by January 31 of each year.

Central Regional Integrated Health Authority and Dr. J.F. Brown Bursary
Each year an award is made available to students from the former Central West Board. The annual income shall be awarded as a bursary to a student of any year from the former Central West area who demonstrates the greatest need and who, in the opinion of the Dean, has achieved adequate academic performance. Should for any reason a bursary not be awarded, the entire amount is to be returned to the fund, and the award made the following year in the usual manner. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards acting on the decision of the Dean of Medicine’s Advisory Committee on Awards,
These scholarships have been made possible from the proceeds of a memorial fund established by colleagues of the late Dr. Hunter W. Dobbin, in memory of Dr. Craig L. Dobbin. The bursaries will be awarded to full-time undergraduate students in the Faculty of Medicine. The bursaries will be awarded to a graduating M.D. student who has a strong academic record and who has expressed an interest in specializing in Oncology. In the School of Social Work it will be awarded to a graduating B.S.W. student who is in scholarship standing and who has made the greatest contribution to student and community leadership. The scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries, and Awards, based on the recommendation of the Dean/Director of the appropriate discipline.

The Walter Davis Award
This award was established by the Newfoundland Lung Association to honour the work of Mr. Walter Davis in the field of chest diseases particularly, tuberculosis. The recipient will be the student in the Faculty of Medicine who achieves the best performance in the first year respirology course. It will be valued at $500.00 annually and awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean/Director of the appropriate discipline.

The Dr. Ralph John Day Award
This award is available to a student in the pre-clerkship program who completes the best undergraduate project in bowel or liver cancer, including other metastatic disease. This award is a result of a donation from Mrs. Jean Day in memory of her late husband, Dr. Ralph John Day. The value of the award will be determined by the annual income derived from the initial endowment. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean/Director of the appropriate discipline.

The Class of '78 Legacy Bursary
This bursary was established by a generous donation from the Faculty of Medicine Class of 1978 during their 35th reunion. Valued at a portion of the income on the endowment, it will be awarded annually to any student in the MD program. The recipient must have demonstrated financial need as well as meet the minimum academic requirements for a bursary. This bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of Medicine's Advisory Committee on Scholarships, Bursaries and Awards.

The Dr. Peter and Mrs. Deborah Collingwood Scholarship in Medicine
The Dr. Peter and Mrs. Deborah Collingwood Scholarship in Medicine has been established through a generous gift from Dr. Peter and Mrs. Deborah (Templeton) Collingwood. Valued at a portion of the income on the investment, the scholarship will be awarded annually to a student who is a citizen of Canada and residents of Newfoundland and Labrador, who is entering their first year of the M.D. program in the Faculty of Medicine and meet the criteria of scholarship standing as defined by the Faculty of Medicine. The scholarship is renewable for up to four years provided the candidates maintain scholarship standing. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries, and Awards, on the recommendation of the Dean, Faculty of Medicine.

Cooze Keinath Scholarship
This scholarship, valued at $1,000.00 is established by Dr. Derek Cooze, a graduate of the Faculty of Medicine, Class of '85 and his spouse, Dr. Kim Keinath. It will be awarded annually to a student in the Faculty of Medicine. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries, and Awards on the basis of scholarship standing and the recommendation of the Dean, Faculty of Medicine.

The Christopher & Donna Cox Scholarship
This scholarship, established through a generous contribution by Dr. Donna Hardy Cox and Dr. Christopher Cox, is valued at $500 per annum. Drs. Donna Hardy Cox and Christopher Cox, both alumni of Memorial University of Newfoundland, have established this scholarship in gratitude for their well-rounded student life and academic experiences. To be eligible, candidates must be full-time undergraduate students. The scholarship will be awarded annually on a rotating basis between the School of Social Work and the Faculty of Medicine, beginning with the latter. In Medicine, the Scholarship will be awarded to a graduating M.D. student who has a strong academic record and who has expressed an interest in specializing in Oncology. In the School of Social Work it will be awarded to a graduating B.S.W. student who is in scholarship standing and who has made the greatest contribution to student and community leadership. The scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries, and Awards, based on the recommendation of the Dean/Director of the appropriate discipline.

The John M. Darte Memorial Fund (Medicine)
This fund, in memory of the first Professor and Chairman of Pediatrics at Memorial University of Newfoundland's Faculty of Medicine (1968-75), has been established by Mrs. J.M. Darte and Mrs. France Darte McCabe. With the income from this fund, up to four awards will be made annually with a value of $650.00 each. To be considered for an award from this fund, a student must be in good academic standing but other factors, such as financial need, will be considered. The selection will be made in accordance with prevailing policies of the Faculty of Medicine and the University.

The Walter Davis Award
This award was established by the Newfoundland Lung Association to honour the work of Mr. Walter Davis in the field of chest diseases particularly, tuberculosis. The recipient will be the student in the Faculty of Medicine who achieves the best performance in the first year respirology course. It will be valued at $500.00 annually and awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean/Director of the appropriate discipline.

The Dr. Ralph John Day Award
This award is available to a student in the pre-clerkship program who completes the best undergraduate project in bowel or liver cancer, including other metastatic disease. This award is a result of a donation from Mrs. Jean Day in memory of her late husband, Dr. Ralph John Day. The value of the award will be determined by the annual income derived from the initial endowment. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean, Faculty of Medicine.

Wesley and Jeanne Drodge Award in Simulation
This award was established by a generous donation from Wesley and Jeanne Drodge. Mr. Drodge was the project manager for the construction of the Health Sciences Centre and Faculty of Medicine in the early 1970s, as well as the expanded Medical Education Centre and Craig L. Dobbin Genetics Research Centre which opened in 2014. As a former healthcare CEO, his interest is in supporting students as they learn to become more proficient in the use of simulation technologies. Valued at a portion of the income on the endowment, it will be awarded annually to two students in the Doctor of Medicine program who are demonstrating the use of simulation technology on healthcare delivery by presenting at medical conferences. Applications are accepted at the Office of Student Affairs, Faculty of Medicine. The recipients must meet the minimum academic requirements for an award. This award will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of Medicine's Advisory Committee on Scholarships, Bursaries and Awards.

The Hunter W. Earle Memorial Scholarships in Medicine
These scholarships have been made possible from the proceeds of a memorial fund established by colleagues of the late Dr. Hunter W. Earle and a generous donation from Mrs. Marilyn Pasternak, widow of Dr. Earle. Two scholarships will be made available annually to

763
students enrolled in the Faculty of Medicine at Memorial University of Newfoundland, who best exemplify the characteristics of leadership, sportsmanship and interest in student activities and who have maintained a good academic standard. The scholarships, valued at a portion of the annual income on the endowment, will be awarded to students who have completed the Clinical Clerkship and will be presented at the Annual Convocation Dinner in May. The awards will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of Medicine’s Advisory Committee on Awards, Bursaries and Scholarships.

The Dr. Harry W. Edstrom Scholarship in Medicine

Family, friends and colleagues of the late Dr. Harry W. Edstrom have established this scholarship in his memory. Dr. Edstrom was a professor of Medicine (respirology) at Memorial University of Newfoundland who is recognized for his lifetime contributions to teaching and leadership in the medical profession. He was also Clinical Chief of Medicine at Eastern Health; Past-President of the Newfoundland and Labrador Medical Association; Past Governor of the American College of Physicians; Past Executive of the Canadian Medical Association and Recipient of the 2002 Queen’s Jubilee Medal. The scholarship will be awarded annually to a medical student who has completed the Clinical Clerkship component of the M.D. program, has a strong academic record and who demonstrates leadership during medical studies. The scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, based on the recommendation of the Dean, Faculty of Medicine.

The Isidor Epstein Memorial Scholarship

This scholarship is awarded out of income derived from a bequest to Memorial University of Newfoundland by the late Mrs. Bella Levkovitz. From this income a scholarship of not less than $700.00 is to be awarded as often as possible to an outstanding second, third, or fourth year student in the Faculty of Medicine. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of a recommendation from the Dean, Faculty of Medicine.

The Faculty of Medicine Opportunity Fund Scholarship

This scholarship is the result of an endowment created from several general donations to the Opportunity Fund by various alumni and friends of the University and in particular of the medical school. Valued at the annual interest on the endowment, it will be awarded annually to a medical student in the first year of study at Memorial University of Newfoundland on the basis of scholarship standing. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Medicine.

The Frank & Pat Fagan Family Scholarship for Academic Excellence and Community Leadership

This scholarship has been established through a generous donation by Frank and Pat Fagan. Frank, Pat and their two sons, Andrew and Richard are graduates of Memorial University of Newfoundland. Frank and Pat have spent their lives involved in community activities to enhance the lives of the people of the province of Newfoundland and Labrador. As a family, they believe strongly in the importance of education as well as community involvement and volunteerism. The Fagan family wants to express their gratitude for the quality of education they all attained at Memorial University of Newfoundland and the opportunities this has afforded them.

This prestigious scholarship will be awarded annually to an academically outstanding (top 10 in the class) student who has completed the Preclerkship component of the M.D. program and who demonstrates a significant record of community leadership, prior to entry or during the medical program. Only residents of the province of Newfoundland and Labrador are eligible to apply. The scholarship will be paid out in two installments, one after completion of second year and one during the third year of medical studies. The recipient will be known as the ‘Fagan Family Scholar’. The scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Medicine, and based on an application to be submitted by January 31 of the second year of medical studies. The Office of Student Affairs, Medicine will receive applications and assist the Dean with the selection.

Dr. Richard Fagan Medical Students’ Society Travel Award in Medicine

This award was established by Memorial University of Newfoundland’s Medical Students’ Society in honour of Dr. Richard Fagan. Dr. Fagan was known amongst his peers for his sense of adventure. Whether exploring nature close to home or traveling to ski the Rockies or Andes, his enthusiasm for new experiences was clear and enriched the lives of his peers. Valued at a portion of the income on the investment, this award will help offset the costs required to attend a medical conference. It will be awarded annually to a student who will be attending a medical conference during his / her first, second, or third phase of undergraduate medical studies. Preference is given to students who have not obtained funding from any other source. Application forms and faculty nominations are to be submitted to the Faculty of Medicine’s Office of Student Affairs. This award will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on the recommendation of the Dean of Medicine’s Advisory Committee on Scholarships, Bursaries and Awards.

Dr. Richard Fagan Memorial Scholarship in Orthopedics

The Dr. Richard Fagan Memorial Scholarship in Orthopedics was established by a group of orthopedic and plastic surgeons at Memorial University of Newfoundland. Dr. Richard Fagan, class of 2012, showed dedication to patient care and had a thirst for knowledge in the field of orthopedic surgery. Valued at a portion of the income on the investment, this scholarship will be awarded annually to a graduating student in the Faculty of Medicine who has shown exceptional promise within the field of orthopedic surgery. The recipient must meet the minimum academic requirements for a scholarship as defined by Memorial University of Newfoundland. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on the recommendation of the Dean of Medicine’s Advisory Committee on Scholarships, Bursaries and Awards. The Division of Orthopedics will make a recommendation to this Advisory Committee.

The Dr. Bruce A. Fraser Award for Clerkship Electives

This award is made possible by a bequest from the estate of Dr. Bruce A. Fraser who was a professor of Anatomy in the Faculty of Medicine at Memorial University of Newfoundland from 1979-1992. The award, valued at a portion of the income from the endowment, is available to two or three medical students doing Clerkship electives in the United Kingdom and/or Ireland. If no students are completing electives in the United Kingdom or Ireland in a given year, consideration will be given to providing the award for completion of other international electives. Deadline for submission of applications is June 30th in the given year. Selection will be made on the basis of scholarship standing. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean, Faculty of Medicine.

The Dr. Henry Gault Memorial Scholarship

Friends and colleagues of the late Dr. Henry Gault have established this scholarship in his memory. Dr. Gault had an international reputation in nephrology research, and was instrumental in building a strong program of clinical and research nephrology at the General Hospital and the Faculty of Medicine. Valued at a portion of the income on the investment, one or more, scholarships will be awarded at the end of the fourth year of undergraduate medical studies to a student who has demonstrated both interest in clinical research and academic excellence within Internal Medicine. Applications are available from the Student Affairs Office, Faculty of Medicine. Deadline for submission is January 31st. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of Medicine’s Advisory Committee on Awards, Bursaries and Scholarships.

The Dr. Peter Grant Memorial Scholarship

This scholarship, valued at a portion of the income from the endowment, has been established through generous gifts from the
classmates, friends and family of Dr. Peter Grant, Medicine class of 1994, to honor his enduring spirit. The scholarship will be awarded annually, based on scholarship standing and financial need, to a second year medical student who has contributed greatly to the class spirit. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries, and Awards, on the basis of a recommendation from the Dean, Faculty of Medicine. The Office of Student Affairs, Medicine will assist the Dean in his or her choice of an appropriate candidate.

The Dr. Wulf Grobin Memorial Scholarship in Medicine
This scholarship has been established by Ida Parsons in memory of Dr. Grobin, a compassionate physician and humanitarian. Dr. Grobin was born in Latvia and studied in Switzerland, England and Scotland before moving to Newfoundland. He practised medicine in Brooklyn, Bonavista Bay from 1938-1943 and St. John’s from 1945-1958 when he moved with his family to Toronto. There he continued his medical career in the area of diabetes and the elderly. He had many varied interesting medical and personal experiences as an outdoor doctor, and developed a great warmth and affection for Newfoundland and Newfoundlanders, which lasted until his death in March of 2001. Valued at the accrued interest on the initial endowment and based on academics and financial need, the scholarship will be available to a student at the end of their first year in the Faculty of Medicine. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards acting on the recommendation of the Dean of Medicine’s Advisory Committee on Awards, Bursaries and Scholarships.

The Dr. Abdalla M. Hanna Memorial Bursary in Medicine
Named in memory of Dr. Abdalla M. Hanna, a well known surgeon in St. John’s, this bursary is awarded to a student entering first year studies in the Faculty of Medicine who is a resident of Newfoundland and Labrador and who is in financial need. Valued at a portion of the income on the endowment, the bursary is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on the basis of a recommendation from the Dean, Faculty of Medicine.

Donald and Elizabeth Hillman Prize in Pediatrics
This Prize is to be awarded to the most outstanding student in Pediatrics in the Clinical Clerkship Year (Third-Year Medical Studies). The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, acting on the recommendation of the Dean of Medicine’s Advisory Committee on Awards, Bursaries and Scholarships.

The Dr. Laura Hiscock Memorial Bursary
This bursary, valued at a portion of the income from the endowment, has been established through generous gifts from the classmatess, friends and family of Dr. Laura Hiscock, Medicine class of 1992, in memory of Laura’s life and to honour her enduring spirit. Laura was passionate about life and had an outstanding ability to maintain balance between work and leisure. She was devoted to family and enjoyed helping and encouraging others; she supported other people and enjoyed celebrating their accomplishments, it seemed, as much as her own. She excelled at sports but was also an outstanding “sportsman”, with a belief that doing your best was what really mattered. The bursary will be awarded annually to the Memorial University of Newfoundland medical student who, in addition to demonstrated financial need, best demonstrates the qualities Laura embodied: passion for life, devotion to family, work-life balance, selflessness, support of others, and good sportsmanship. To be eligible students must be in their third year of medical studies or beyond. This bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on the basis of a recommendation from the Dean, Faculty of Medicine. The Office of Student Affairs, Medicine will assist the Dean in his or her choice of an appropriate candidate.

The Mary Honeygold Scholarship/Bursary
Established in memory of Mary Honeygold by her family, this scholarship/bursary is to be awarded to a student enrolled in the Faculty of Medicine, Memorial University of Newfoundland, on the basis of academic merit and need. Preference will be given to a student who has stated and/or demonstrated an interest in practising medicine in rural Newfoundland upon graduation. The award is to be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards acting on the advice of the Dean of Medicine’s Advisory Committee on Awards, Bursaries and Scholarships.

“In The Spirit of Giving” Bursary
Valued at $500 annually, this bursary will be awarded to a student enrolled in any year of the Doctor of Medicine (M.D.) program, Faculty of Medicine. Preference will be given to students who have completed one year of the program. The recipient will have demonstrated financial need and must meet the minimum academic requirements for a bursary as defined by Memorial University of Newfoundland. This bursary is renewable for the completion of the M.D. program provided the student continues to meet the criteria of the bursary. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean of Medicine’s Advisory Committee on Scholarships, Bursaries and Awards.

The Marie T. Kennedy Bursary
In her Will Ms. Marie Theresa Kennedy left a bequest to Memorial University of Newfoundland to allow one or more bursaries of at least $5,000.00 to be awarded annually. To be considered: a candidate must be a full-time undergraduate student, in any year of study, majoring in Science or Medicine - it will be awarded on a rotating basis. Students receiving scholarships or bursaries from other individuals or institutions, for the same scholarship year, will not be eligible. The bursary will be awarded on the basis of need and academic effort by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation from the appropriate Dean.

The Dr. Kevin Keough Medical Entrance Scholarship
This scholarship, valued at a portion of the income on the endowment, has been established through a generous donation by Dr. Ming Jarm Lau, MUNMed Class of 1982. The scholarship is named after Dr. Kevin Keough who was the supervisor of Dr. Ming Jarm Lau for his Master’s Thesis in Biochemistry (1978). Dr. Kevin Keough should be remembered as a Professor who believes in bringing out the best in his students and mentees. He has done this by his own example of forever challenging himself and by taking his mentees’ best interests to heart. This prestigious entrance scholarship will be awarded annually to an academically outstanding (minimum scholarship standing) student upon entry to first year studies in the Faculty of Medicine. The scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, based on the recommendation of the Dean, Faculty of Medicine.

The Dr. J.H. King Memorial Scholarship in Medicine
This scholarship, valued at $500.00, has been donated to the University by Mrs. Gertrude King, widow of Dr. J.H. King, Specialist in Ears, Ears, Nose and Throat, who practised in Corner Brook for more than thirty years (1947-1978). The scholarship is open to students majoring in Science or Medicine - it will be awarded on a rotating basis. Students receiving scholarships or bursaries from other individuals or institutions, for the same scholarship year, will not be eligible. The bursary will be awarded on the basis of need and academic effort by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards acting on the advice of the Dean of Medicine’s Advisory Committee on Awards, Bursaries and Scholarships.

The Nichole Michelle Lane Cancer Research Scholarship
This scholarship is provided through the generosity of the Candlelighters Association of Newfoundland and Labrador in memory of Nichole Michelle Lane. It is awarded annually to a second-year medical student enrolled at Memorial University of Newfoundland who has undertaken the most outstanding summer research project in the area of cancer and particularly in the area of pediatric cancer. The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, acting on the decision of the Dean of Medicine’s Advisory Committee on Awards, Bursaries and Scholarships.
The Dr. Janice E. Lessard Scholarship in Geriatric Medicine

This scholarship is awarded annually from income derived from an endowment donated by Dr. Janice E. Lessard, an alumna of Memorial University of Newfoundland, Faculty of Medicine and a practising Gerontologist, Toronto. It is to be awarded annnually to a student who has completed third year of medical studies. The student will have demonstrated a desire to improve the functional and social well-being of the frail and elderly.

This award, in the amount of $1,000.00, will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards acting on the decision of the Dean of Medicine's Advisory Committee on Scholarships, Awards and Bursaries.

Noah Curtis Godwin Lloyd Student Award

The Noah Curtis Godwin Lloyd Student Award was established by the family of baby Noah Lloyd who was born on April 6, 2008 and died two days later of septicemia from a small bowel volvulus. Valued at a portion of the interest on the endowment, this award in Noah’s memory will be granted to a student in the Faculty of Medicine who is planning a career in a primary healthcare discipline, who has succeeded through hard work and perseverance, and displays humility and gentleness of character in approaching work and life. It will be granted annually on a rotating basis between undergraduate students and graduate students. The recipient must meet the minimum academic requirements for an award as determined by the Faculty of Medicine, Memorial University of Newfoundland. When awarded to an undergraduate student it will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Medicine. When awarded to a graduate student it will be awarded by the Dean, Research & Graduate Studies (Medicine). Application forms and further information are available from the Student Affairs Office, Faculty of Medicine.

The Medical School Essay Undergraduate Award

The Medical School Essay Award is supported by the K.B. Roberts Scholarship Fund, which was established in appreciation of the contribution made to the Faculty of Medicine by Dr. Kenneth Roberts. The award, valued at a portion of the income on the endowment, will be awarded annually to any undergraduate medical student registered full-time in the current academic year following a competition in the form of an essay or short monograph pertaining to any aspect of medicine or the medical sciences. The essay, not exceeding 5,000 words, should include an interpretative element that indicates the importance and relevance to Medicine, Health and Society. Should there be two essays of very high caliber but one is obviously the better proposal, this award may be made for an honourable mention award of lesser value. Submission deadline is April 30, in any given year, to the Office of Student Affairs HSC Room 2713. The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean's Advisory Committee on Awards, Bursaries and Scholarships. Awards are also available to postgraduate and graduate students in the Faculty of Medicine.

The Medical Practice Associates Scholarship for Academic Achievement

Medical Practice Associates, the business association of all full-time clinical faculty members in the Faculty of Medicine, offers three prestigious undergraduate scholarships annually. These scholarships are valued at $1,500.00 in Medicine Year 1 and Year 2, and $2,000.00 in Medicine Year 3 and Year 4. The scholarships will be awarded to students in Newfoundland Studies - up to two to students in Newfoundland Studies - up to four to the Department of Anthropology - up to four to the Department of Philosophy - up to four to the Faculty of Education - up to five to the Faculty of Medicine.

The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of Medicine's Advisory Committee on Awards, Bursaries and Scholarships. Awards are also available to postgraduate and graduate students in the Faculty of Medicine.

The effie and Leander Mercer Scholarship

The scholarship was established by Dr. Jean Mercer in honour of her parents, Effie and Leander Mercer. Valued at the annual interest of a minimum of $1,000.00 each, the bursary is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of Medicine's Advisory Committee on Awards, Bursaries and Scholarships.

The Gordon mercer rural medicine bursary

Named for the Founding Officer for Student Affairs in the Faculty of Medicine (1972), this bursary is awarded to a student entering first year studies in the Faculty of Medicine who is from a rural community (as defined by the university) in Newfoundland and Labrador and who is in financial need. The bursary is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of Medicine's Advisory Committee on Awards, Bursaries and Scholarships.

The John M. and Elsa S. Morgan Scholarships

These scholarships have been bequeathed to the University by the late Dr. John M. Morgan, B.Sc., M.D., and have been named to commemorate Dr. Morgan and his wife Elsa. Up to twenty-five scholarships will be made available annually to undergraduate students who have completed at least one year of studies at Memorial University of Newfoundland within the areas specified below and who will be continuing in medicine. The scholarships, valued at a minimum of $1,000.00 each, will be disbursed as follows: up to five to the Faculty of Medicine, up to four to the School of Nursing, up to four to the Faculty of Education, up to four to the Department of Philosophy, up to four to the Department of Anthropology, up to four to the Department of Religious Studies, up to two to students in Newfoundland Studies.

The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the appropriate Dean/Department Head. Preference will be given, where possible, to students from the Port-de-Grave District.

The Dr. Charles Nardini Memorial Award

This award was initiated by the Class of 1986 in memory of a classmate who was tragically killed in a skidoo accident in the Spring of 1986. Valued at approximately $500.00 annually, it will be given to a fourth year medical student who has scholarship standing. He/she should be selected by his/her classmates and judged as follows: The student who best exemplified the characteristics of leadership, friendliness, good humour, care and concern for fellow students and patients.

Selection will take place after completion of fourth year. The student will be nominated by classmates and recommended on the basis of a majority vote. Preference, when possible, will be given to students from Labrador. The recommendation must be submitted to the Dean's Advisory Committee on Awards, Bursaries and Scholarships, Faculty of Medicine. It will then be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of a recommendation from the Dean, Faculty of Medicine.

The Dr. Francis L. O'Dea Scholarship

This scholarship is established to commemorate the memory and work of Dr. Francis L. O'Dea in the field of Obstetrics and Gynecology, and is valued at a portion of the income on the investment. It is awarded annually to a third-year student in the Faculty of Medicine at Memorial University of Newfoundland, whose special interest lies in the area of Obstetrics and Gynecology. The scholarship is awarded...
by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards acting on the recommendation of the Dean of Medicine and a Faculty Selection Committee.

**Marion Grace Holland Outerbridge Entrance Bursary**

This bursary was established by a generous donation from Ms. Sharon Gray to honour the life of her Aunt Marion (Marni) Grace Holland Outerbridge (July 1, 1930 – May 15, 1985). Marion completed her training as a nurse at the Women’s College Hospital in Toronto in 1952 and moved to St. John’s, Newfoundland, following her marriage November 28, 1953, to Peter Outerbridge of St. John’s. Marion strongly believed in medical education for women and the opportunity for nurses to advance in the medical profession. Valued at a portion of the income on the endowment, it will be awarded annually to a student entering the undergraduate medical education program who has completed a degree in nursing. The recipient must have demonstrated financial need as well as meet the minimum academic requirements for a bursary as defined by Memorial University of Newfoundland. This bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of Medicine’s Advisory Committee on Scholarships, Bursaries and Awards.

**The Pathology Prize**

This prize is awarded by the Pathology Department to the second-year student in the Faculty of Medicine whose performance in the General and Systems Pathology courses is considered by the members of the Discipline of Pathology to be most distinguished. The prize was established in 1984 by the members of the Discipline in recognition of the distinguished contributions by Dr. S.N. Huang, a previous Chairman of the Discipline, to Pathology and to medical education at Memorial University of Newfoundland. The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of Medicine’s Advisory Committee on Scholarships, Bursaries and Awards.

**Mary E. Pedersen, M.D. Scholarship in Medicine**

This scholarship is made possible by a generous donation from Mary E. Pedersen, B.Sc., B.Med.Sc., M.D., CCFP, ABFP, FAAF. Five scholarships, valued at $1,000.00 each, will be awarded annually, based on scholarship standing, to second-year undergraduate medical students at Memorial University of Newfoundland. They will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of Medicine’s Advisory Committee on Scholarships, Bursaries and Awards.

**The Nathan Goff Penney and Grace Roasmunde Penney Scholarship in Medicine**

This scholarship was established by a gift from the estate of Nathan Penney as a measure of his gratitude to the Faculty of Medicine for the care given his wife, Grace. Valued at a portion of the income on investment, it will be awarded annually to a Memorial University of Newfoundland student enrolled in the Faculty of Medicine who meets the academic requirements for a scholarship as defined by the Faculty of Medicine, Memorial University of Newfoundland. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

**The William and Frances Pound Scholarship**

This scholarship is the result of a donation to the Opportunity Fund by Alumnus, Dr. Bernard Kai Fai So of Hong Kong. It is in recognition of the kindness and generosity shown to Dr. So by Mr. and Mrs. Pound during his years as a student at Memorial University of Newfoundland. Valued at the annual interest on the endowment, it will be awarded annually to a medical student at Memorial University of Newfoundland on the basis of scholarship standing. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Medicine.

**The Nathan Goff Penney and Grace Roasmunde Penney Scholarship in Medicine**

This scholarship was established by a gift from the estate of Nathan Penney as a measure of his gratitude to the Faculty of Medicine for the care given his wife, Grace. Valued at a portion of the income on investment, it will be awarded annually to a Memorial University of Newfoundland student enrolled in the Faculty of Medicine who meets the academic requirements for a scholarship as defined by the Faculty of Medicine, Memorial University of Newfoundland. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

**The Ryan Scholarship**

This scholarship, established by Helen Ryan in memory of family members, Mary B.H., Thomas Sr., Thomas Jr. and Mary, is valued at a portion of the accrued interest on an endowment. Based on scholarship standing and financial need it will be awarded annually to a student in the Faculty of Medicine. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Medicine.

**Undergraduate Aboriginal Award in Professional Studies**

The Undergraduate Aboriginal Award in Professional Studies was established by Mr. Alan Rowe (B.Comm. ’78) through a generous donation to the Dare To: The Campaign for Memorial University. To be eligible, candidates must be Aboriginal students from Labrador or the Territories of Canada who are enrolled full-time, and have clear academic standing. Preference will be given to students who have demonstrated financial need. Awarded upon entrance to an eligible undergraduate professional program, the Award is valued at $2,500 per year and is renewable for three additional years assuming the recipients maintain clear academic standing and full-time enrollment. Two new recipients will be selected each year on a rotating basis, between the Faculties of Business Administration, Engineering and Applied Science, Medicine, and Education and the Schools of Nursing, Pharmacy, and Social Work. If a successful candidate is not recommended by the discipline on rotation in a given year an eligible student from one of the other disciplines may be awarded the scholarship for that year. The Awards are granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards with input from the Aboriginal Resource Office, and on the recommendation of the Deans of the appropriate academic units.

**The Darshan (Beeji) Wadhwa Memorial Scholarship in Medicine**

This scholarship was established by generous donations from family to cherish and honour the memory of Darshan (Beeji) Wadhwa. Born in India in 1914, Beeji could only attain primary schooling but that was enough for her to appreciate the value of education. She became the driving force for professional education of all her children and grandchildren. This scholarship is established by the family for...
her unwavering commitment to support academic excellence. Valued at a portion of the income of the investment, it will be awarded annually to a student entering into their first phase of studies (M.D. program) in the Faculty of Medicine. The recipient must demonstrate a strong academic background as well as meet the minimum academic requirements for a scholarship as defined by Memorial University of Newfoundland. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Medicine.

The Morris and Graham Wilansky Memorial Award
This award has been established through a generous donation by family and friends of Morris and Graham Wilansky, in their memory. The scholarship will be awarded annually to the second-year medical student who has achieved highest academic excellence in the Neurosciences course. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of a recommendation from the Dean, Faculty of Medicine.

5.7 Faculty of Science
The following are available to Faculty of Science students based on a recommendation from the Dean, Faculty of Science or the appropriate Director or Department Head.

The Dr. H.J. Anderson Departmental Awards in Chemistry
Four awards have been established through the Department of Chemistry to honour retired Faculty member and Professor Emeritus, Dr. H.J. Anderson. The recipients of these awards will have demonstrated academic excellence in Chemistry courses; Best Marks in Chemistry 2400 and 2401, Best Third Year Performance by a Chemistry Major, Second Best Third Year Performance by a Chemistry Major, and Best Fourth Year Performance by a Chemistry Major (not receiving a convocation award). These awards will be presented in May and June of each year based on the most recent year's academic performance. They will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of a recommendation from the Dean, Faculty of Chemistry.

The Hugh J. Anderson Chemistry Scholarship
The scholarship is valued at $5,000, and is provided via a contribution to Memorial University of Newfoundland by Mr. Darryl Fry. It will be awarded on the basis of scholarship standing to residents of Newfoundland and Labrador who have completed first year chemistry at Memorial University of Newfoundland and are declared majors in Chemistry. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on a recommendation from the Head, Department of Chemistry.

Dr. Hugh J. Anderson Junior and Senior Scholarships in Physics and Physical Oceanography
This scholarship was established through a bequest from the Estate of Dr. Hugh J. Anderson, a long-standing member of the Department of Chemistry of Memorial University of Newfoundland. Valued at a portion of the income on the endowment, this scholarship will be awarded annually to students enrolled as majors, or joint majors in the Department of Physics and Physical Oceanography at Memorial University of Newfoundland. These students must be at least in their first year, have attained scholarship standing and show high academic excellence. The number and value of the scholarships awarded will be determined on a year-by-year basis at the discretion of the Department of Physics and Physical Oceanography. The recipient must meet the minimum academic requirements for a scholarship as defined by Memorial University of Newfoundland. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on the recommendation of the Head, Department of Chemistry.

The Dr. C.W. Andrews Scholarship
This scholarship, valued at a minimum of $1,000.00, the gift of former students and colleagues of the late Dr. C.W. Andrews, is awarded to a Chemistry student graduating with a B.Sc. in Biology who plans to pursue graduate work at Memorial University of Newfoundland in marine and/or freshwater biology. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of Chemistry.

The Atreyaa-Haritha Scholarship in Mathematics
This scholarship is the result of a generous donation by Dr. K.R. and Nandinin Kothandaraman. Valued at $1000 annually, it will be awarded on the basis of scholarship standing to a full-time student, either a senior level undergraduate or a graduate student in Mathematics and/or Statistics. In the case of an undergraduate student, the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Head, Department of Mathematics and Statistics. In the case of a graduate student, it will be awarded by the Dean, School of Graduate Studies, also upon recommendation of the head, Department of Mathematics and Statistics.

The Au Family Scholarship in Biochemistry
This scholarship is valued at the interest accruing annually on an endowment given to Memorial University of Newfoundland by the Au family. It is open to students entering their final year of study in the Biochemistry program who, during their studies, combined a record of high academic achievement and scholarship standing with active involvement in extracurricular activities within the University, including athletic prowess at the varsity level. The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of Biochemistry.

Donald and Evelyn Barton Chemistry Scholarship
This scholarship is the result of an endowment to Memorial University of Newfoundland in memory of Dr. Donald Barton who was a faculty member with the Department of Chemistry, 1952 to 1992. This scholarship, valued at a portion of the annual income, will be awarded to a student majoring in Chemistry who is beyond their first year of study and who has demonstrated scholarship standing. It will be awarded by the Senate committee on Undergraduate Scholarships, Bursaries and Awards, upon the recommendation of the Head, Department of Chemistry in consultation with the Chemistry Department Scholarships Committee.

The Bennett/Khan Bursary in Biology
This bursary is made possible through a fund established by an anonymous donor in honour of Dr's Gordon Bennett and Rasul Khan. Valued at the interest on the initial endowment, it will be awarded annually to a full time student beyond second year who is majoring in Biology with particular reference to parasitology or another branch of invertebrate zoology. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of Biology.
Scholarships, Bursaries and Awards 2015-2016

The Biochemistry Bursary
Valued at $1,000, this bursary will be awarded annually to a full time undergraduate student who is enrolled in the fourth year (that is, normally enrolled in majors’ courses at the 4000 level) of any Biochemistry undergraduate degree program in the Faculty of Science. The recipient must have demonstrated financial need and meet the minimum academic requirements for the Biochemistry program at Memorial University of Newfoundland and Labrador. The bursary will be available to a student in Biochemistry at the discretion of the Department of Biochemistry.

The E.A. Bishop (1889-1953) Memorial Scholarship
This scholarship, established to honour the memory of E.A. Bishop, a teacher in Newfoundland and Labrador, is the result of a generous donation to Memorial University of Newfoundland by his son, John. Interest on the fund will provide a scholarship to full-time undergraduate students after completion of their first year at Memorial University of Newfoundland who are dependants of teachers in the public school system of Newfoundland and Labrador. Applicants must be students in the Faculties of Arts or Science and be of scholarship standing. This scholarship is valued at approximately two semesters tuition for five courses. If, in any year, there is no eligible candidate, the scholarship will not be awarded; however, if a student may be awarded the scholarship more than once. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships.

W.J. Blundon Scholarship
The W.J. Blundon Scholarship, in memory of Professor W.J. Blundon, Head of the Department of Mathematics and Statistics from 1948 to 1976, will be awarded on the basis of academic excellence to students majoring in Mathematics and/or Statistics. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head of the Department of Mathematics and Statistics.

BP Canada Energy Company Scholarships in Earth Sciences
These Scholarships, the gift of BP Canada Energy Company, are valued at $2,500.00 each annually and are awarded to two students in the Earth Sciences program at Memorial University of Newfoundland. One scholarship will be awarded to a student in Geology and one to a student in Geophysics. Normally students must be registered full-time in the semester for which these scholarships are granted, however, in the case of a student who has met all academic requirements for their Honours degree, except the Honours dissertation, part-time registration will be accepted. Candidates must have demonstrated high academic achievement, and expressed an interest in oil and gas exploration and development through their choice of courses and/or dissertation subjects. The scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Head, Department of Earth Sciences.

The Dr. S. W. Breckon Scholarship in Physics
This scholarship, valued at $1,000.00, is the gift of former students and colleagues of Dr. Breckon and is awarded to the full-time honours Physics undergraduate student who has the best overall academic performance upon completion of the third or fourth year honours Physics program and subsequent enrollment in the following year.

The Murray H. Brooker Scholarship for Excellence in Chemistry
The scholarship is valued at the annual interest on an endowment established in memory of Dr. Murray H. Brooker who was a professor in the Department of Chemistry when he passed away in 2000. It will be awarded to a student who is beyond first year at Memorial University of Newfoundland, who is a declared major in Chemistry and who has been accepted to work in a Chemistry Laboratory for the current/upcoming summer. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Head, Department of Chemistry.

The Murray H. Brooker Scholarship for Excellence in Economics
The scholarship is valued at the annual interest on an endowment established in memory of Dr. Murray H. Brooker who was a professor in the Department of Economics at Memorial University of Newfoundland from 1959 to 1968, J. P. Howley Research Professor from 1968 to 1977 and Professor Emeritus, 1978. It is awarded annually to an undergraduate student majoring in Economics. The scholarship will be based upon scholarship standing but, in recognition of other concerns held as particularly important by Dr. Brooker, financial need and qualities of character will also be considered. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of Economics.

The W.J. Blundon Scholarship
The W.J. Blundon Scholarship, in memory of Professor W.J. Blundon, Head of the Department of Mathematics and Statistics from 1948 to 1976, will be awarded on the basis of academic excellence to students majoring in Mathematics and/or Statistics. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head of the Department of Mathematics and Statistics.

The Dr. Werner D. Bruckner Scholarship
This scholarship, valued at $500.00, honours the memory of Werner D. Bruckner, Head of the Department of Geology at this University from 1959 to 1968, J. P. Howley Research Professor from 1968 to 1977 and Professor Emeritus, 1978. It is awarded annually to an undergraduate student majoring in Earth Sciences. The scholarship will be based upon scholarship standing but, in recognition of other concerns held as particularly important by Dr. Bruckner, financial need and qualities of character will also be considered. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of Earth Sciences.

The Bruton Scholarship Fund
Dr. F.A. Bruton, friend and colleague of J.L. Paton, taught Nature Study to teachers in three successive Memorial University College summer schools, from 1926-28, at Paton’s request. At his death in 1930, Dr. Bruton made a bequest to the College from which two Bruton Scholarships are awarded. These scholarships, valued at $500.00 each, are awarded annually to students who have demonstrated interest in Plant Biology. One award will be available to a student majoring in Plant Biology whose special interest is in the field of Plant Biology. The second award will be available to an Education student whose main area of interest is in the teaching of science, in particular, plant biology. In the absence of a suitable candidate from the one department, two awards may be made by the other department in accordance with the above conditions. Academic ability and financial need will be taken into consideration in making these awards. They will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards acting on the advice of the department concerned.

The Buchans Scholarship Fund of ASARCO Incorporated
ASARCO Incorporated has established a scholarship fund, the annual interest on which will provide for students enrolled in the Department of Earth Sciences, Memorial University of Newfoundland, a scholarship for post-graduate study and research, valued at $5,000.00; two scholarships for undergraduate study, valued at $500.00 each. The latter scholarships will be available only when no suitable candidate can be found for the former. In order to qualify for these awards, students must be native-born Newfoundlander or graduates of Newfoundland high schools. In the case of the graduate scholarship, the award will be made by the Dean of Graduate Studies on the recommendation of the head, Department of Earth Sciences; in the case of the undergraduate scholarships, by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the head, Department of Earth Sciences. Should no candidates be available in any year, the awards may be held over.

The Tom Budai Award in Business and Economics
The Tom Budai Award in Business and Economics, valued at $1000, is funded by Tom Budai, a 2009 graduate of the Faculty of Business Administration and a former member of the Memorial Seagulls men’s basketball team. The award is available to a full-time student enrolled in the Bachelor of Commerce (Co-op) program, Bachelor of Business Administration program, Bachelor of Arts in Economics program of Bachelor of Science in Economics program. The candidate must be in at least her/his second year of studies and meet the minimum academic requirements for an award as defined by the University. Preference will be given to candidates who have been active in varsity athletics at Memorial University of Newfoundland and/or who have a demonstrated record of community, volunteer work and/or involvement with student organizations at Memorial. The award will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation from the Dean, Faculty of Business Administration or the Head,
Department of Economics.

The Canadian Institute of Mining, Metallurgy and Petroleum (Newfoundland Branch) Silver Jubilee Scholarship
This $1,500.00 annual award is available to students in the final or penultimate year in Earth Sciences at Memorial University of Newfoundland. Scholastic achievement is the principal requirement governing the award but economic need and character may be taken into account. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards acting on the recommendation of the Head of the Department of Earth Sciences.

The Canadian Society for Chemistry 1996 Conference and Exhibition Scholarship
This scholarship, valued at the annual interest on the initial endowment, was established in recognition of the efforts of the Organizing Committee and the over 100 volunteers for the 1996 Canadian Society of Chemistry Conference which was hosted by Memorial University of Newfoundland. This scholarship will be awarded annually to a student in Chemistry based on the results of the National CIC Chemistry examinations or its successors. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Head, Department of Chemistry.

Cheng Memorial Scholarship in Mathematics
Established by their children, this scholarship was created to honour the life and memory of Mr. Wan Choi Cheng and Mrs. Yen Bo Cheng who were firm believers in the value of education and encouraged their children to pursue a university degree. The scholarship will be awarded annually to a full-time student majoring in mathematics who meets the minimum academic requirements for a scholarship as defined by Memorial University of Newfoundland. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Head, Department of Mathematics and Statistics.

Chevron Canada Ltd. Endowed Scholarships in Business, Earth Sciences, Economics and Engineering
These scholarships, valued at a portion of the income from the endowment, will be awarded starting in 2011 to full-time students enrolled in at least their second year of Engineering and Applied Science, Earth Sciences, Business or Economics, in a given year. It is anticipated that students from all four faculties will be represented. Selection will be based on scholarship standing as well as expression of interest in potential employment in the oil and gas industry, and signaling of career location mobility. Level of service to community, or leadership will also be considered. Students may receive the scholarship in more than one year. They will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the: Dean, Faculty of Engineering and Applied Science; Head, Department of Earth Sciences; Dean, Faculty of Business Administration; and Head, Department of Economics.

Chevron Canada Ltd. Term Scholarships in Business, Earth Sciences, Economics and Engineering
These scholarships, valued at $4,000, will be awarded to full-time students enrolled in at least their second year of Engineering and Applied Science, Earth Sciences, Business or Economics; in a given year, it is anticipated that students from all four faculties will be represented. Selection will be based on the basis of scholastic standing and financial need to a student who graduated from a high school in Newfoundland and Labrador. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of Earth Sciences.

Chevron Canada Resources Scholarships in Geology and Geophysics
This scholarship, valued at a portion of the income on an endowment created at Memorial University of Newfoundland by Chevron Canada Resources, will be awarded annually to an undergraduate 3rd or 4th year student studying Geology or Geophysics in the Department of Earth Sciences. It will be awarded on the basis of scholastic standing and financial need to a student who graduated from a high school in Newfoundland and Labrador. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Dean, Faculty of Science. All else being equal, preference will be given to students from Labrador.

The Collip Prize in Biochemistry
The Collip Prize in Biochemistry was established by an anonymous donor. It is named for James Bertram Collip, the Canadian Biochemist whose experimental expertise was key to obtaining pancreatic extracts pure enough for clinical trials on diabetic humans in 1922. Valued at $500, this prize is to be awarded in May or as soon as possible after the end of the Winter semester to a full-time undergraduate student, who obtains the best combined marks in the required third year biochemistry courses, all completed in that academic year. Only students who are declared majors in the Biochemistry program at the conclusion of classes in the Winter semester are eligible for this award. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on the recommendation of the Head, Department of Biochemistry.

The Captain James Cook Memorial Scholarship
A fund was established in 1979 by members of the Department of Geography to honour the memory of Captain James Cook (1728-79), explorer, navigator and cartographer, whose years of painstaking mapping of the coasts of Newfoundland and Labrador laid the basis for a comprehensive and scientific knowledge of the geography of the province. One or more scholarships, valued at not less than $600.00, will be awarded annually by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Department of Geography to a student or students demonstrating particular merit in Geography.

The Dr. Douglas L. Cooper Memorial Scholarship
This scholarship fund has been established in honour of Dr. Cooper who was the first department head of Chemistry at Memorial University of Newfoundland. The fund will provide several scholarships valued at a minimum of $1,500.00 each annually. They will be awarded to Chemistry students entering their third year of a Bachelor of Chemistry program (General or Honours). If there are not enough eligible third year students in a given year, it will be open to those in their fourth year. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Head, Department of Chemistry.

The Ernst R. Deutsch Memorial Scholarship in Geophysics
This scholarship is named in honour of Dr. Deutsch, a long-time faculty member at Memorial University of Newfoundland who passed away in 2000. Valued at a portion of the income on the investment the scholarship will be awarded annually to a senior undergraduate student in the Earth Sciences (or related field of Physics) whose concentration is Geophysics. If there is no qualified undergraduate student, the scholarship will be awarded to a full-time graduate student in Earth Sciences who has received an undergraduate degree from Memorial University of Newfoundland and whose area of concentration is Geophysics. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Head,
Department of Earth Sciences in the case of an undergraduate student; in the case of a Graduate Student it will be awarded by the Dean of Graduate Studies on the recommendation of the Head, Department of Earth Sciences.

**Eastern Newfoundland Science and Technology Fair Scholarship**

This scholarship was established through combined gifts from alumni and friends of the Faculty of Science. Valued at a portion of the income on the endowment, it will be offered annually to the senior winner of “Best of Fair” in the Eastern Newfoundland Science and Technology Fair and will be awarded upon registration at Memorial University of Newfoundland. This scholarship will provide the recipient with full-time tuition for two semesters in an academic program in the Faculty of Science. The recipient must meet the minimum academic requirements for a scholarship as defined by Memorial University of Newfoundland. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of Science.

**The Faculty of Science Opportunity Fund Scholarship**

This scholarship is the result of an endowment created from several general donations to the Opportunity Fund by various alumni and friends of the University and in particular of the Faculty of Science. Valued at the annual interest on the endowment, it will be awarded annually to a student beyond first year in the Faculty of Science at Memorial University of Newfoundland on the basis of scholarship standing. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Science.

**Dr. Richard Douglas Fagan Memorial Scholarship in Biochemistry**

The Dr. Richard Douglas Fagan Memorial Scholarship in Biochemistry was established by Dr. Andrew Fagan in memory of his brother, Dr. Richard Douglas Fagan, both of whom graduated from Memorial University of Newfoundland with a degree in Biochemistry (Honours) prior to going on to complete their medical studies at Memorial University of Newfoundland. Richard was a compassionate, caring, and courageous young man who had an enormous capacity for learning and a deep passion for adventure and living life to the fullest. Valued at a portion of the income on the endowment, this scholarship will be awarded annually to a Biochemistry major in the final year of undergraduate studies. To be eligible, candidates must have scholarship standing as defined by Memorial University of Newfoundland, with preference given to students at or near the top of their class in academic performance, and who demonstrate innovative and creative thinking in the judgment of the Department of Biochemistry. Preference may also be given to students who graduated from a high school in Newfoundland and Labrador. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of Biochemistry.

**Dr. L.A.W. Feltham Scholarship**

This scholarship began with fundraising within the Biochemistry Department during the 1996 Opportunity Fund Campaign. It is named for Dr. Feltham, the founding head of the department. The interest on the endowment will provide a scholarship for a student in the B.Sc. Program in Biochemistry. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards to a student beyond second year on the basis of scholarship standing and a recommendation from the Head, Department of Biochemistry.

**Daniel Freeman Memorial Scholarship**

This scholarship was established from the contributions of many family members, friends, and fellow students in memory of Danny Freeman, a former Engineering student at Memorial University of Newfoundland. The scholarship, valued at a portion of the accrued interest, will be awarded annually, on a rotating basis, to students enrolled in either Engineering or Mathematics. Preference will be given to candidates with disabilities with consideration given to quality of character and overall perseverance. If a successful candidate is not recommended by the discipline on rotation in a given year an eligible student from the other discipline may be awarded the scholarship for that year. If no candidates are available from the first group any student enrolled in either Engineering or Mathematics (discipline to be determined by the rotation schedule in a given year) will be considered. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Engineering or the Head, Department of Mathematics and Statistics.

**The Dr. Patricia Giovannetti Memorial Bursary**

This scholarship was established from the contributions of many family members, friends, and fellow students in memory of Danny Freeman, a former Engineering student at Memorial University of Newfoundland. The scholarship, valued at a portion of the accrued interest, will be awarded annually, on a rotating basis, to students enrolled in either Engineering or Mathematics. Preference will be given to candidates with disabilities with consideration given to quality of character and overall perseverance. If a successful candidate is not recommended by the discipline on rotation in a given year an eligible student from the other discipline may be awarded the scholarship for that year. If no candidates are available from the first group any student enrolled in either Engineering or Mathematics (discipline to be determined by the rotation schedule in a given year) will be considered. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of Biochemistry.

**The Samuel, Millicent and Thomas Grandy Memorial Scholarship**

This scholarship, established in 1998 by the Grandy Family to honour the memory of their parents, will be valued at a portion of the annual accrued interest on the initial endowment. It will be awarded on the basis of scholarship standing and demonstrated aptitude and potential in the science of computing to an undergraduate student beyond first year in full time study of the Computer Science program (declared major for B.Sc.) at Memorial University of Newfoundland. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Head of the Department of Computer Science.

**Greystone Managed Investments Scholarship**

This scholarship, valued at a portion of the income on the investment, is made possible by a generous contribution from Greystone Managed Investments. This scholarship will be awarded to an undergraduate student beyond first year, on a rotating basis between the Faculty of Science and the Faculty of Arts. Based on scholarship standing it will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of the Faculty of rotation.

**The Douglas and Beatrice Hall Biochemistry Bursary**

This bursary was established by the employees in the Department of Biochemistry in memory of two dedicated past members of the Department. Valued at a portion of the income on the endowment, it will be awarded annually to a student who is enrolled in the third year (that is, normally enrolled in majors' courses at the 3000 level) of any Biochemistry undergraduate degree program in the Faculty of Science. The recipient must meet the minimum academic and financial requirements for a bursary as defined by the university and not be in receipt of any other scholarships or bursaries. The Bursary will be administered by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Head, Department of Biochemistry.

**Hebron Diversity Award**

This award was created from a generous contribution from the Hebron Project. The Hebron Project co-venturers are ExxonMobil Canada Properties (operator), Chevron Canada, Suncor Energy, Statoil Canada and Nalcor Energy. Awards will be available to full-time or part-time students, enrolled at any Campus of Memorial University of Newfoundland, who have aboriginal status, a disability, or who represent a visible minority. Students with a disability should provide supporting documentation (from a medical doctor, psychologist, audiology, rehabilitation counselor, or other professional who has specific training, expertise, and experience in the diagnosis of this condition). Students will claim aboriginal and visible minority status through self-identification. Of those eligible students, further preference will be given to students who are majoring in engineering, the geosciences, environmental science or chemistry. Normally, at least one award will be granted in each designated area and where possible, at least one award will be granted to a student in his/her first year of study. For students at the St. John’s or Grenfell Campus the awards will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the appropriate Department Head. For students at
Marine Institute, the awards will be granted by the Marine Institute Scholarship Committee on the recommendation of the appropriate Department Head.

The Hebron Women in Science and Engineering Scholarship

This scholarship program was created by a generous contribution from the Hebron Project. The Hebron Project co-venturers are ExxonMobil Canada Properties (operator), Chevron Canada, Suncor Energy, Statoil Canada and Nalcor Energy. Scholarships will be awarded to female students who are enrolled in full-time or part-time studies at any Campus of Memorial University of Newfoundland who are majoring in marine-related programmes. Scholarship recipients must be involved in full-time studies for at least two years and be enrolled as a full-time student at the St. John's or Grenfell Campus. Preference will be given to students who are followed by a program of studies related to Marine Science. The successful candidate will be either a fourth year undergraduate student doing an honours program or a graduate student. Wherever possible, preference will be given to a student from a fishing family.

The LGL Limited Scholarship in Marine Science

This scholarship, valued at $3,000.00, was established by LGL Limited. It will be awarded annually to a student in the Faculty of Science who is following a program of studies related to Marine Science. The successful candidate will be either a fourth year undergraduate student doing an honours program or a graduate student. Wherever possible, preference will be given to a student from a fishing family, with a minimum of four (4) senior Mathematics and/or Statistics courses in a given year with preference given to the student who achieves the highest average on the endowment, it will be awarded annually to undergraduate students from the faculties of Earth Sciences, Engineering and/or Business. The scholarships will be awarded on a rotating basis. Students receiving scholarships or bursaries from other individuals or institutions, for the same scholarship year, will not be eligible. The bursary will be awarded on the basis of need and academic merit by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the appropriate Dean.

Husky White Rose Extension Diversity Project Scholarship

This scholarship was established by a generous donation from Husky Energy to recognize the importance of a skilled and diverse workforce. Husky strongly supports economic development in Newfoundland and Labrador and believes that education is important in developing and sustaining a successful community. Husky is seeking to develop the pool of qualified diversity group members interested in pursuing careers in operational aspects of the oil and gas industry. Two scholarships, valued at $2,500 each will be awarded annually to undergraduate students from the faculties of Earth Sciences, Engineering and/or Business. The scholarships will be awarded on a rotating basis. Students receiving scholarships or bursaries from other individuals or institutions, for the same scholarship year, will not be eligible. The bursary will be awarded on the basis of need and academic effort by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the appropriate Dean.

Harry Kiefte Scholarship

This scholarship was established by a generous donation from the employees of the Department of Physics and Physical Oceanography in memory of a past member of the Department. Valued at a portion of the income on the endowment, it will be awarded annually to a student who is majoring in marine or environmental science or chemistry. The recipient must meet the minimum academic requirements for a scholarship as defined by Memorial University of Newfoundland. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Head of the Department of Physical Sciences and Statistics.

The Dr. B.K. Kim Scholarship in Statistics

This scholarship will be awarded annually to an undergraduate student whose major subject of study is Statistics. The award honours the memory of the late Dr. B.K. Kim who taught in the Department of Mathematics and Statistics from 1976-84. The scholarship, with a value of at least $500.00, will normally be based on academic achievement in third year and/or fourth year courses and will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the appropriate Dean.

The John Kingston Memorial Scholarship

This scholarship, valued at $600.00, was established in memory of John F. Kingston, a former member of the faculty of the Department of Chemistry at Memorial University of Newfoundland. It will be awarded annually to a student majoring in Chemistry, who has completed at least 18 credit hours in Chemistry courses, on the basis of academic merit and financial need. The scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Head of the Department of Chemistry.

The Dr. Chu-in Charles Lee Scholarship

This scholarship is established through generous contributions by family, friends, students, professors and the academic community in memory of Dr. Chu-in Charles Lee, who served as Deputy Head of the Department of Mathematics and Statistics for many years. Valued at a portion of the income on the endowment, it will be awarded on the basis of scholarship standing to senior full-time undergraduate students in their 3rd or 4th year majoring in Mathematics and/or Statistics. Two scholarships, valued at $500 each, will be awarded in the fall of the academic year to students in their fourth year majoring in Mathematics and/or Statistics. The scholarship, with a value of at least $500.00, will normally be based on academic achievement in third and/or fourth year courses and will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Head of the Department of Mathematics and Statistics.

The Julius and Bella Levkovitz Memorial Scholarship

This scholarship is awarded out of income derived from a bequest to Memorial University of Newfoundland by the late Mrs. Bella Levkovitz. From this income a scholarship of not less than $700.00 is to be awarded as often as possible to an outstanding student in second, third or fourth year, or graduate studies in Pure or Applied Science at Memorial University of Newfoundland. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of a recommendation from the Dean, Faculty of Science.

The LGL Limited Scholarship in Marine Science

This scholarship, valued at $3,000.00, was established by LGL Limited. It will be awarded annually to a student in the Faculty of Science who is following a program of studies related to Marine Science. The successful candidate will be either a fourth year undergraduate student doing an honours program or a graduate student. Wherever possible, preference will be given to a student from a fishing family, with a minimum of four (4) senior Mathematics and/or Statistics courses in a given year with preference given to the student who achieves the highest average on the endowment, it will be awarded annually to undergraduate students from the faculties of Earth Sciences, Engineering and/or Business. The scholarships will be awarded on a rotating basis. Students receiving scholarships or bursaries from other individuals or institutions, for the same scholarship year, will not be eligible. The bursary will be awarded on the basis of need and academic effort by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the appropriate Dean.

The Marie T. Kennedy Bursary

In her will, Ms. Marie Theresa Kennedy left a bequest to Memorial University of Newfoundland to allow one or more bursaries of at least $5,000.00 to be awarded annually. To be considered, a candidate must be a full-time undergraduate student, in any year of study, majoring in Science or Medicine - it will be awarded on a rotating basis. Students receiving scholarships or bursaries from other individuals or institutions, for the same scholarship year, will not be eligible. The bursary will be awarded on the basis of need and academic merit by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the appropriate Dean.

The Harry Kiefte Scholarship

This scholarship was established by a generous donation from the employees of the Department of Physics and Physical Oceanography in memory of a past member of the Department. Valued at a portion of the income on the endowment, it will be awarded annually to a student who is majoring in marine or environmental science or chemistry. The recipient must meet the minimum academic requirements for a scholarship as defined by Memorial University of Newfoundland. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the appropriate Dean.

The Dr. B.K. Kim Scholarship in Statistics

This scholarship will be awarded annually to an undergraduate student whose major subject of study is Statistics. The award honours the memory of the late Dr. B.K. Kim who taught in the Department of Mathematics and Statistics from 1976-84. The scholarship, with a value of at least $500.00, will normally be based on academic achievement in third year and/or fourth year courses and will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the appropriate Dean.

The John Kingston Memorial Scholarship

This scholarship, valued at $600.00, was established in memory of John F. Kingston, a former member of the faculty of the Department of Chemistry at Memorial University of Newfoundland. It will be awarded annually to a student majoring in Chemistry, who has completed at least 18 credit hours in Chemistry courses, on the basis of academic merit and financial need. The scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Head of the Department of Chemistry.

The Dr. Chu-in Charles Lee Scholarship

This scholarship is established through generous contributions by family, friends, students, professors and the academic community in memory of Dr. Chu-in Charles Lee, who served as Deputy Head of the Department of Mathematics and Statistics for many years. Valued at a portion of the income on the endowment, it will be awarded on the basis of scholarship standing to senior full-time undergraduate students in their 3rd or 4th year majoring in Mathematics and/or Statistics. Two scholarships, valued at $500 each, will be awarded in the fall of the academic year to students in their fourth year majoring in Mathematics and/or Statistics. The scholarship, with a value of at least $500.00, will normally be based on academic achievement in third and/or fourth year courses and will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Head of the Department of Mathematics and Statistics.

The Julius and Bella Levkovitz Memorial Scholarship

This scholarship is awarded out of income derived from a bequest to Memorial University of Newfoundland by the late Mrs. Bella Levkovitz. From this income a scholarship of not less than $700.00 is to be awarded as often as possible to an outstanding student in second, third or fourth year, or graduate studies in Pure or Applied Science at Memorial University of Newfoundland. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of a recommendation from the Dean, Faculty of Science.

The LGL Limited Scholarship in Marine Science

This scholarship, valued at $3,000.00, was established by LGL Limited. It will be awarded annually to a student in the Faculty of Science who is following a program of studies related to Marine Science. The successful candidate will be either a fourth year undergraduate student doing an honours program or a graduate student. Wherever possible, preference will be given to a student from a fishing family,
but other students will be considered. In the case of undergraduate students the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing. In the case of graduate students the scholarship will be awarded by the Dean, School of Graduate Studies. In both cases it will be based upon a recommendation from the Dean, Faculty of Science.

The Hugh Lilly Memorial Scholarship
This scholarship, presently valued at a minimum of $3000.00 per annum, will be awarded to the most promising graduating student in the Geosciences at Memorial University of Newfoundland who is continuing studies at the post-graduate level, here or elsewhere. The award honours the memory of the late Hugh Lilly, an instructor in the Earth Sciences Department. Selection of the winning candidate will rest with the Senate Committee on Undergraduate Scholarships, Bursaries and Awards in consultation with the Earth Sciences Department.

The Hugh Lilly Undergraduate Scholarship
This scholarship, valued at $300.00 per annum, will be awarded to an undergraduate student entering the third year of studies in a Geology major program. The award honours the memory of the late Hugh Lilly, an instructor in the Earth Sciences Department. In making the award, academic achievement, character and financial need may be taken into consideration. The scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Earth Sciences Department.

The Loughney-Brosnan Scholarship in Biochemistry
This scholarship is valued at the interest accruing on an endowment given to Memorial University of Newfoundland by the Loughney family. It is open to an undergraduate student studying the honours program in Biochemistry at Memorial University of Newfoundland and will be awarded on the basis of scholarship standing. Preference will be given to a student entering the final year of the Biochemistry (Honours) Program. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Head, Department of Biochemistry.

The William Kenneth MacLeod Scholarship
This scholarship is the result of a donation to Memorial University of Newfoundland in 2002, in memory of Mr. MacLeod. Mr. MacLeod was a recipient of the Provincial Government Senior Jubilee Scholarship in the early 1930s. The scholarship will be valued at the annual interest on the endowment and will be awarded to a Newfoundland and Labrador undergraduate student who has a recognized disability (physical or learning). The scholarship will be awarded on the basis of scholarship standing to a student in the Faculty of Science. Where possible, preference will be given to financially needy students as determined by the University. In a year when a student meeting the above criteria cannot be identified, the scholarship may be awarded to any undergraduate student who demonstrates need. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of an application.

The Mrs. E.D. Matthews Memorial Scholarship in Mathematics and Statistics
This scholarship honours the memory of the late Mrs. Evelyn Matthews who taught in the Department of Mathematics and Statistics, Memorial University of Newfoundland, from 1959-78. It has a value of at least $500.00, and will be awarded on an annual basis to an undergraduate student whose major subject of study is Mathematics or Statistics. The scholarship will be based on academic merit and will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of Mathematics and Statistics.

The Maud Menten Prize in Biochemistry
The Maud Menton Prize in Biochemistry was established by an anonymous donor. Maud Menten was a Canadian Biochemist, whose work on enzyme-catalyzed reactions led to the formulation of Michaelis-Menten equation, a key concept taught to every beginning biochemistry student. One of the first women in Canada to earn a medical doctorate in 1911, during her career she also made important contributions to clinical biochemistry and enzyme histochemistry. Valued at $500, this prize is to be awarded in May or as soon as possible after the end of the Winter semester to a full-time undergraduate student who obtains the best combined marks in Biochemistry 2100 and 2101 completed in the preceding academic year. Only students who are declared majors in a Biochemistry program at the conclusion of the Winter semester are eligible for this award. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on a recommendation of the Head, Department of Biochemistry.

The Carmen and Olive Mews Chemistry Scholarship
This scholarship is the result of an endowment to Memorial University of Newfoundland from the estates of Carmen and Olive Mews. Carmen Mews enjoyed a long career with the Department of Chemistry. He and his wife Olive, both of whom were keenly interested in the welfare of undergraduate students, wished to endow a scholarship to support a student majoring in Chemistry. This scholarship, valued at a portion of the annual interest, will be awarded to a student beyond their first year of study who has demonstrated scholarship standing. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, upon the recommendation of the Head, Department of Chemistry.

The Grace Morgan Scholarship in Nutrition
This scholarship is valued at the interest accruing on an endowment given to Memorial University of Newfoundland by Mrs. Grace Morgan. It is open to an undergraduate student studying nutrition at Memorial University of Newfoundland and will be awarded on the basis of scholarship standing. Preference will be given to a student entering the final year of the nutrition program. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Head, Department of Biochemistry.

The Dr. George Moskovits Award
This award is made possible through a fund established by former students and colleagues of Dr. George Moskovits to honour his retirement from the Department of Biology in 1984. The award is valued at $200.00 and will be made annually to a full-time senior student who has shown outstanding performance in the field of cell biology/microbiology. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of Biology.

The E.R.W. Neale Undergraduate Scholarship of the G.A.C. (Newfoundland Section)
The E. R. W. Neale Undergraduate Scholarship is offered annually by the Newfoundland Section of the Geological Association of Canada. The scholarship is open to declared majors in Earth Sciences at Memorial University of Newfoundland. One scholarship valued at $1000 will be offered annually, on the basis of academic achievement, financial need and character. The scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of Earth Sciences.

The Newfoundland Gardening Scholarship
This scholarship is the result of proceeds from the sale of a book by Dr. Peter J. Scott entitled Newfoundland Gardening. It will be awarded annually to a Biology student who is graduating and intends to pursue a career in plant biology. In the event that such a candidate is not available, it will be awarded to a second year Biology student from Memorial University of Newfoundland going on to study horticulture. The scholarship will be valued at the interest accruing on the initial endowment and will be awarded on the basis of...
scholarship standing by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Head, Department of Biology.

**The Newfoundland Home Economics Association Scholarship**
This scholarship, valued at $800.00, will be awarded annually to a student enrolled in the Dietetics Program at Memorial University of Newfoundland, preferably to a student in the second year of the program. Where possible it will be given to an Honours candidate. This scholarship is tenable for one year and will be awarded on the basis of scholarship standing and financial need. It is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of Biochemistry.

**The Newfoundland Margarine - Unilever Canada Scholarship**
This scholarship, valued at the annual interest on an initial endowment, will be awarded annually to a student enrolled in the Nutrition major in the Department of Biochemistry at Memorial University of Newfoundland. The award will normally be given to an honours student in his/her final year. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Head, Department of Biochemistry.

**The NLOA Angus Wentzell Memorial Scholarship**
This scholarship, valued at $500.00, will be awarded annually to a student majoring in Biology at Memorial University of Newfoundland who is registered in at least his or her third year of studies. The scholarship recipient must plan to pursue an undergraduate academic program leading to a career in Inland Fisheries, Wildlife Management, Wildlife Biology, or a related field of study. The scholarship will be awarded on the basis of academic excellence by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of Biology.

**The Noranda Scholarship**
This scholarship valued at the annual interest, has been established by the Noranda Foundation as part of the Opportunity Fund campaign. It will be awarded on an annually rotating basis between students in Earth Sciences and Engineering and Applied Science. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Dean/Department Head of the appropriate discipline.

**Oil and Gas Week Scholarship**
Valued at $1,000 each, two undergraduate scholarships are provided by the organizers of Oil and Gas Week with the possibility of additional scholarships being funded by the sponsors of the event. Oil and Gas Week is a program of events held province wide every year for the purpose of promoting the oil and gas industry. To be eligible, students must be enrolled full-time beyond the first year of an undergraduate program in the Department of Earth Sciences, the Faculty of Engineering and Applied Science, or the Faculty of Business Administration. Eligible candidates must have scholarship standing and preference will be given to students who graduated from a high school in Newfoundland and Labrador outside of the metropolitan St. John's area. Each year the recipients must be from different faculties, with each identified academic unit to be represented no more than twice in the three year period of the term of the fund. The scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, based on a recommendation from the appropriate academic discipline.

**The Dr. V. Stephen Papezik Scholarship**
This scholarship, valued at a minimum of $1000.00, honours the memory of Dr. V. Stephen Papezik, Professor of Geology at Memorial University of Newfoundland from 1961 to 1984. It is awarded annually to an undergraduate student majoring in Earth Sciences whose specialization is closest to mineralogy. The award will be based upon scholarship standing but in deciding on candidates of equal scholastic attainment, need may be the deciding factor. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of Earth Sciences.

**The Bruce Pardy Family Scholarship**
This scholarship valued at the annual interest on an endowment, has been established by the Pardy Family. It will be awarded annually to an undergraduate student in the Faculty of Science. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Dean/Department Head of the appropriate discipline.

**The Maureen Penney Memorial Scholarship**
This $400.00 scholarship, donated by the Geological Association of Canada, honours the memory of Maureen Penney, B.Comm.(MUN), who was Associate Secretary-Treasurer of the Geological Association of Canada from 1983 to 1989. It is awarded annually to a second or third-year undergraduate student majoring in Earth Sciences. In making the award, academic achievement will be the primary consideration, but other factors, such as involvement in student activities, will be taken into account. The scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of Earth Sciences.

**The Dennis R. Prince Memorial Scholarship**
The Dennis R. Prince Memorial Scholarship has been made available by the Prospectors and Developers Association of Canada, Falconbridge Ltd., the Porcupine Prospectors and Developers Association, the mining community, colleagues, friends and family of the late Dennis Prince. Dennis graduated from Memorial University of Newfoundland in 1970 with a B.Sc. Honours degree. He led a distinguished career as a geologist with twenty-nine years at Falconbridge Ltd.

The annual scholarship, valued at $2,000.00 and an engraved Brunton compass, will be awarded to a final year student specializing in mineral exploration and development in the honours program of the undergraduate degree in Earth Sciences at Memorial University of Newfoundland. If there is no qualified undergraduate student a graduate student who has been accepted for postgraduate studies in mineral exploration and development at Memorial University of Newfoundland and who intends to pursue a career in the mineral industry, will be considered. The qualifying student must demonstrate scholarship standing, strong personal values including a strong work ethic and high personal integrity. Active participation and leadership in geological associations and activities such as The Alexander Murray Geology Club and the Geological Association of Canada may be taken into consideration as well as financial need. In the case of undergraduates the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. In the case of graduates it will be awarded by the Dean, School of Graduate Studies. In both cases it will be based on a recommendation from the Head, Department of Earth Sciences in consultation with the PDAC and the Prince family.
Professional Engineers and Geoscientists Newfoundland and Labrador Eastern Chapter Award in Earth Sciences
This award was established by a generous donation from the Professional Engineers and Geoscientists Newfoundland and Labrador Eastern Chapter. The Eastern Chapter is responsible for organizing technical and social activities within the Eastern District of the PEGNL membership. Valued at $500.00, the award will be granted annually to a student beyond their first year in the Department of Earth Sciences. The recipient must meet the minimum academic requirements for an award as defined by Memorial University of Newfoundland. This award will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head of the Department of Earth Sciences.

Professional Engineers and Geoscientists Newfoundland and Labrador Past Presidents’ Geoscience Scholarship
This scholarship valued at a minimum of $1,000.00 was established by the Professional Engineers and Geoscientists Newfoundland and Labrador. It is awarded annually on the basis of scholarship standing to a Geoscience student at Memorial University of Newfoundland. It is open to either graduate or undergraduate students in any given year and will be allocated as such at the discretion of the Department Head. In the case of undergraduates, the scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Head, Department of Earth Sciences in consultation with PEGNL. In the case of graduates it is awarded by the Dean of Graduate Studies upon recommendation of the Head, Department of Earth Sciences, in consultation with PEGNL.

Dr. & Mrs. Satti Paddi & Pavarti Reddy Memorial Scholarship in Physics
This scholarship was established by generous donations from Drs. Sethur, Bharati and Suresh Reddy, the children of the late Dr. & Mrs. Satti Paddi & Pavarti Reddy. Dr. S.P. Reddy was a faculty member and former Department Head of the Department of Physics and Physical Oceanography and Professor Emeritus. Valued at a portion of the income on the endowment, it will be awarded annually to a student who is a declared major in the Department of Physics and Physical Oceanography and who is beyond their first year. The recipient must meet the minimum academic requirements for a scholarship as defined by Memorial University of Newfoundland. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Department of Psychology.

Rees Scholarship in Earth Sciences
This scholarship was established by a generous donation from Memorial University of Newfoundland alumnus Michael Rees (B. Sc, ‘99). Valued at a portion of the income on the endowment, it will be awarded annually to a Newfoundland and Labrador high school graduate entering their second year of full-time undergraduate studies majoring in Earth Sciences at Memorial University of Newfoundland. The recipient must meet the minimum academic requirements for a scholarship as defined by Memorial University of Newfoundland. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head of the Department of Earth Sciences.

The Tracy Ronayne Scholarship
This scholarship has been established by the Department of Computing and Communications (C&C) at Memorial University of Newfoundland to honor the life and contribution of a former employee, Tracy Ronayne. To be eligible the recipient must have scholarship standing, be a full-time undergraduate student and be a dependant of a current, retired, deceased or former (having worked in the Unit for a minimum of 5 years) employee of C&C or be a student employed by C&C during the Fall semester of the academic year for which the scholarship will be awarded. One or more scholarships may be awarded in any given year. In the absence of a candidate meeting the above criteria, the scholarship will be awarded to a student beyond first year majoring in Computer Science in the Faculty of Science or a student in the Faculty of Business Administration. The scholarship will be awarded annually by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Faculty of Engineering and Applied Science and the Head of Psychology, Faculty of Science, respectively.

The Roberta H. Sellars Scholarship
This scholarship is the result of an endowment by the Rev. Walter C. Sellars in recognition of his wife Roberta for her loyal and loving support, particularly while he was struggling through university. The scholarship will be awarded annually to a full-time student in any year of either the Faculty of Arts or Science on a rotating basis. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on scholarship standing and financial need and upon the recommendation of the appropriate Dean.

The Rick Sheppard Memorial Scholarship
This scholarship, valued at $500.00 has been established by the friends and colleagues of Rick Sheppard, a graduate of Memorial University of Newfoundland (Geology-Class of ‘81), who died in the Ocean Ranger Disaster. The award is open to undergraduate students majoring in Geology. Academic standing, financial need and active participation in the Alexander Murray Geological Club will be taken into consideration in selecting candidates. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, acting on the recommendation of the Head, Department of Earth Sciences.

The James (Jay) Stackhouse Memorial Scholarship
From a sum of money donated to the University by the friends of the late James (Jay) Stackhouse, a geologist who graduated from this University in 1976, a scholarship has been established for students majoring in the Earth Sciences at Memorial University of Newfoundland. Undergraduate students in their penultimate year of the program may apply. The value of the award will be determined by the annual interest earned on the fund. The scholarship will be awarded at the end of the fall semester by the Senate Committee on
Undergraduate Scholarships, Bursaries and Awards acting on the recommendation of the Head, Department of Earth Sciences.

**Statistical Society of Canada Scholarship**
This scholarship has been established by a generous donation from the Statistical Society of Canada. It is based on scholarship standing and is awarded to an undergraduate student in any year of study who is majoring in Statistics and meets the minimum academic requirement for a scholarship. The scholarship will be valued at $750. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Head of the Department of Mathematics and Statistics.

**The Sun Life Financial Scholarship in Applications of Technology**
The Sun Life Financial Scholarship in Applications of Technology is consistent with the company's belief that education is key to the future well-being of individuals, business and society. The scholarship, valued at $3,000.00, will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Head, Department of Earth Sciences.

**The Sun Life Financial Scholarship in Chemistry**
The Sun Life Financial Scholarship in Chemistry is consistent with the company's belief that education is key to the future well-being of individuals, business and society. The scholarship, valued at the annual interest on the endowment, will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Head, Department of Earth Sciences.

**The Eric A. Swanson Scholarship in Earth Sciences**
This scholarship, valued at $3,000.00, is established by Eleanor Swanson in honour of her father, Eric. It will be awarded annually to a student in the Faculty of Science, who is following a program of studies in Earth Sciences. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on scholarship standing and a recommendation from the Head, Department of Earth Sciences.

**Dr. Siegfried Thomeier Memorial Prize in Pure Mathematics**
The prize, the interest from a donation by an anonymous donor, is awarded to a fourth or fifth year student majoring in Mathematics with a concentration in Pure Mathematics. The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Head, Department of Mathematics and Statistics.

**The Eric A. Swanson Scholarship in Earth Sciences**
This scholarship was established by Mrs. Mary Westcott in memory of her late husband, Mr. Robert Westcott. It is valued at a portion of the annual interest on an endowment which will be restricted to residents of Newfoundland and Labrador who are enrolled beyond the first-year level of the Earth Sciences program at Memorial University of Newfoundland and who are intending to pursue careers in the mining field. Selection of a candidate will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of Earth Sciences.

**The Eugene Vincent Memorial Scholarship**
This scholarship, valued at $3,000.00, will be restricted to residents of Newfoundland and Labrador who are enrolled beyond the first-year level of the Earth Sciences program at Memorial University of Newfoundland and who are intending to pursue careers in the mining field. Selection of a candidate will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of Earth Sciences.

**The Dr. Howard Louis White Memorial Award in Chemistry**
This award is the result of a donation to Memorial University of Newfoundland from family members of the late Dr. White, class of 1941. It is awarded to a student majoring in Chemistry who is in 2nd year or beyond. Valued at the annual accrued interest on an initial endowment of at least $300,000, the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Head/Department Head of the appropriate discipline.

**The Eugene Vincent Memorial Scholarship**
This scholarship was established in memory of Dr. June G. Winter, a former faculty member in the Faculty of Earth Sciences who was instrumental in establishing an Earth Sciences program at Grenfell Campus. It will be awarded on an annually rotating basis to a student on the Corner Brook campus and the St. John's campus. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the appropriate Dean and/or the Vice-President of Grenfell Campus.

**The Eric A. Swanson Scholarship in Earth Sciences**
A fund was established in 1991 to honour the memory of Lee Wulff (1905-1991), a renowned American sportsman, author,
Scholarships, Bursaries and Awards 2015-2016

conservationist and environmentalist, who spent a considerable amount of time exploring the waters, barrens and woodlands of Newfoundland, promoting its abundant wildlife resources and supporting conservation. A single scholarship, valued at no less than $1,500.00 will be awarded annually from this fund, to a third year Biology major wishing to pursue further studies in biological sciences, with emphasis on conservation and environment. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head of Biology and the Dean of Science and will be based on academic excellence in biological sciences and a demonstrated interest in conservation and the environment.

5.8 School of Human Kinetics and Recreation

The following are available to students in the School of Human Kinetics and Recreation based on a recommendation from the Dean. With reference to Athletic awards, these will be available to student-athletes in any academic department upon recommendation from the Director of Varsity Athletics.

Athletics NorthEAST (ANE) Running Club Award

This award was created by Athletics NorthEAST (ANE) Running Club. The Athletics NorthEAST Running Club is a community-minded club made up of runners of all ages who embrace the concept of serious running as a way to enjoy an active and healthy lifestyle and to enhance their quality of life. To be eligible for the award, students must be members of the men’s or women’s cross-country team at Memorial University of Newfoundland and returning athletes must be a current member of the Memorial University of Newfoundland Cross Country. Recipients will be selected in consultation with coaches of the varsity basketball teams. The award will be granted based on the recommendation of the Director of Athletics, School of Human Kinetics and Recreation.

The Edward Patrick Browne Memorial Scholarships

In his will, Edward Browne, a distinguished and beloved member of the University community, and a life-long supporter of the growth and development of the sport of basketball at provincial and national levels, left a bequest to Memorial University of Newfoundland for the awarding of scholarships to students. These scholarships are awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the advice of the Dean of the School of Human Kinetics and Recreation.

The Erin Bursey Memorial Leadership Award

This award was established in memory of Erin Bursey, a Memorial University of Newfoundland student and women's volleyball athlete who exhibited exceptional leadership skills, academic excellence and passion for her sport. Valued at a portion of the income on the investment, this award will be awarded annually to a third year Biology major wishing to pursue further studies in biological sciences, with emphasis on conservation and environment. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Director of Athletics.

The Bruce J. Butler Award

This award has been established in memory of Bruce J. Butler by his family and friends. Bruce was a graduate of Memorial University of Newfoundland’s School of Physical Education and Athletics and a talented varsity athlete who represented Memorial University of Newfoundland in both soccer and hockey from 1964-68. He was known as a great teammate and a genuine team player who possessed a great sense of humor. Valued at a portion of the income on the investment, it will be awarded annually to an undergraduate varsity athlete studying in one of the programs of the School of Human Kinetics and Recreation. In determining this award, preference will be given to student-athletes who have demonstrated leadership, athletic ability and overall commitment to their teammates. The recipient must meet the minimum academic requirements for an award as defined by the University. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Director of Athletics.

Frank T. Butler Memorial Scholarship

This scholarship was established in memory of Frank T. Butler by his family and friends. Frank Butler was a committed and successful athlete, coach and sport administrator at Memorial University of Newfoundland for close to 30 years. A significant contribution to the growth and development of the sport of basketball at provincial and national levels, and in the province of Newfoundland and Labrador, has been felt at many levels. This scholarship will be awarded to support student-athletes in their pursuit of post-secondary study. Currently valued at $1,000, the scholarship will be awarded to student-athletes who meet the requirements for scholarship standing and who best combine the values that Frank admired: most athletic commitment, academic success and contribution as an ambassador in the community. The scholarship will be open to all student-athletes, undergraduate, who are members of a varsity team at Memorial University of Newfoundland and have a minimum of clear academic standing (as defined by the University). The award will be granted based on the recommendation of the Director of Athletics.

The Bruce J. Butler Award

This award has been established in memory of Bruce J. Butler by his family and friends. Bruce was a graduate of Memorial University of Newfoundland’s School of Physical Education and Athletics and a talented varsity athlete who represented Memorial University of Newfoundland in both soccer and hockey from 1964-68. He was known as a great teammate and a genuine team player who possessed a great sense of humor. Valued at a portion of the income on the investment, it will be awarded annually to an undergraduate varsity athlete studying in one of the programs of the School of Human Kinetics and Recreation. In determining this award, preference will be given to student-athletes who have demonstrated leadership, athletic ability and overall commitment to their teammates. The recipient must meet the minimum academic requirements for an award as defined by the University. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Director of Athletics.

The Olivia and Ethan Button Award

The Olivia and Ethan Button Award, established by Dr. Duane Button, is valued at $500. It will be awarded annually to the student who has achieved the highest average in Exercise Physiology 3310 in the Bachelor of Kinesiology or Bachelor of Physical Education program at Memorial University of Newfoundland. If the successful candidate is an undergraduate student, the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. If at the time the award is presented, the recipient has enrolled as a graduate student at Memorial University of Newfoundland, it will be awarded by the Dean, School of Graduate Studies. In both cases it will be awarded on the recommendation of the Dean, School of Human Kinetics and Recreation.

The Nita Chambers (Sutton) Award

Nita Chambers (Sutton), a graduate of Stella Maris High School in Trepassey and Memorial University of Newfoundland in St. John’s, was a spirited and talented participant in basketball at both the scholastic and intercollegiate levels. This award fund has been established in Nita’s memory through the fund-raising efforts of her family, friends, colleagues, team-mates, and former instructors. Valued at a portion of the annual interest, it will provide financial assistance to deserving male and female student-athletes who have graduated from high schools in Newfoundland and Labrador and who compete for the Memorial University of Newfoundland Sea-Hawks in the sport of basketball. To be eligible for this fund students will be required to maintain a minimum cumulative average of 65% within the previous academic year of study at Memorial University of Newfoundland. Funds will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, School of Human Kinetics and Recreation in consultation with the coaches of the varsity basketball teams.
The Damien and Denis Collier Award
This award was established by former Memorial University of Newfoundland Varsity Wrestlers, Damien and Denis Collier. To be eligible, returning athletes must be a current member of a Memorial University of Newfoundland Sea-Hawks wrestling team and have achieved a minimum average of 65% based on the previous academic year of study at Memorial University of Newfoundland. First-year athletes who will receive provided they have an 80% final admission average. First-year athletes who do not meet the minimum 80% entering average may be eligible following the release of Winter grades as long as they maintain a 65% average on all coursework. This is a one-time allowance. Preference for this award will be given to student athletes who have demonstrated outstanding commitment, leadership, athletic ability and dedication to their teammates. The award valued at $500 annually will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the wrestling coach and the Director of Athletics.

Elizabeth Dale NLVA Scholarship
This scholarship has been established by the Newfoundland and Labrador Volleyball Association (NLVA) and will be awarded annually, on the basis of scholarship standing, to a new recruit to the female volleyball program. This scholarship is renewable, for a second year, providing the recipient maintains scholarship standing and is a member of the female varsity volleyball team for both years. If an athlete receives a scholarship in her first year and does not return to the team in the following year, it is at the discretion of the coach to award the scholarship to another returning athlete. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on a recommendation from the Dean, School of Human Kinetics and Recreation acting on the advice of the team coach and the NLVA Executive.

The Margaret (Mag) Davis Memorial Scholarship
This scholarship has been established in memory of Margaret (Mag) Davis, former graduate of Memorial University of Newfoundland, dedicated physical education teacher and well-known athlete who excelled in the sports of softball, field hockey, ice hockey, soccer, ball hockey, curling, squash and golf. Valued at a minimum of $500 annually, it will be awarded to a female undergraduate student studying in the programs of the School of Human Kinetics and Recreation. In awarding this scholarship, preference will be given to students who have demonstrated athletic ability and scholarship standing. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean, School of Human Kinetics and Recreation.

The Marie and Paul Devlin Athletics Scholarship
This scholarship is awarded at a portion of the annual income on the initial endowment, was established by Memorial University of Newfoundland alumnus, Dr. William Devlin. Dr. Devlin is a medical school graduate and a former varsity athlete at Memorial. In awarding this scholarship, preference will be given to undergraduate students who combine academic achievement, leadership and athletic proficiency level. This scholarship is tenable in all undergraduate programs at this University. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on a recommendation from the Dean, School of Human Kinetics and Recreation.

The J. Douglas Eaton Alumni Scholarship
This scholarship was established by the Alumni Association of Memorial University of Newfoundland to commemorate the 30th Anniversary of degree programs in the School of Human Kinetics and Recreation and to honour Dr. Eaton a former department head. The value of the scholarship will be determined by the interest accruing from the initial endowment. The scholarship shall be awarded to the student who attains the highest academic standing in the third year of the Bachelor of Physical Education, Bachelor of Recreation or Bachelor of Kinesiology. Recipients must also demonstrate commitment and skill in activities related to their intended profession. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on recommendations from the Dean of the School.

Everest 2010 Mountain of Learning Experiential Education Award
This Award was established by TA Loeffler, faculty member in the School of Human Kinetics and Recreation, on the occasion of her second attempt on Mount Everest. The award, in honour of her grandmother, Frida Loeffler, celebrates Frida’s lifelong love of learning. The award will be valued at a portion of the income on the endowment and will be awarded annually to a student who meets the minimum academic requirements for an award as defined by the University. The recipient may be enrolled in any one of the three co-operative education degree programs in the School of Human Kinetics and Recreation. To be eligible for this award, the student will have demonstrated an exceptional commitment to experiential education through their participation in activities or work terms related to their intended profession. The award will be administered by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean, School of Human Kinetics, in consultation with the School’s Cooperative Education Coordinators. The award is presented annually at the Fall HKR Awards Celebration.

The Matthew J. Foster Alumni Scholarship
This scholarship, established by the School of Human Kinetics and Recreation, Memorial University of Newfoundland, commemorates the 30th Anniversary of the first Bachelor of Physical Education Degrees at Memorial University of Newfoundland and honours Mr. Foster (department head/director - 1964 until his retirement in 1986). They will be valued at the interest accruing from the initial endowment and awarded to the student in the second year of a program offered by the School of Human Kinetics and Recreation who attains the highest academic standing. Recipients should also have demonstrated leadership in activities related to their intended profession. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on the recommendation from the Dean of the School.

The Maud and Matt Foster Memorial Bursary
This bursary was established by a generous donation from the family and friends of Maud and Matt Foster. Born in Northern Ireland, Maud and Matt immigrated to Newfoundland in 1953. Matt began his teaching career at Bishop Feild School and was later the Director of Memorial University of Newfoundland’s School of Physical Education and Athletics from 1964 until his retirement in 1986. He was instrumental in creating a soccer program in this Province. Maud began her teaching career at Bishop Spencer and subsequently taught Grade Four at Brinton Memorial School for twenty-five years. Both were known for their love of life, family, nature and sport. Valued at a portion of the income on the endowment, it will be awarded annually to an undergraduate varsity athlete with preference to a soccer athlete. The recipient must have demonstrated financial need as well as meet the minimum academic requirements for a bursary. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on the recommendation from the Dean of the School.

The Dr. M.O. and Grace Morgan Scholarship in Physical Education
This fund is the result of an endowment to Memorial University of Newfoundland from the estate of Dr. and Mrs. Morgan. One or more scholarships, valued at a portion of the annual accrued income, will be awarded to a Physical Education student in the first year of the Bachelor of Physical Education degree program. The recipients will have demonstrated scholarship standing as well as leadership in the professional preparation and/or services program of the School of Human Kinetics and Recreation. These Scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, School of Human Kinetics and Recreation.
Rick Morris Memorial Bursary
This bursary was established in memory of Rick Morris by his family and friends. Rick was a caring individual who was deeply committed to Newfoundland and worked with a variety of individuals, organizations, and government. He was a mentor to many helping professionals, who regularly sought his counsel on personal and professional issues. He was deeply concerned with violence against individuals, particularly women, children, and the survivors of Mount Cashel. He was involved in the establishment of Unified Family Court’s mediation services and frequently collaborated with the aboriginal and senior’s communities. The bursary, valued at a portion of the income from the endowment, will be awarded annually to a student who is in financial need and meets the minimum academic requirements for a bursary. It will be awarded on a rotating basis to a student enrolled in one of the following academic areas: Year 1-School of Social Work, Year 2-Faculty of Education, Year 3-School of Human Kinetics and Recreation, Year 4-Department of Gender Studies and Year 5-School of Nursing. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Head of the Unit for which the bursary is being awarded.

The MRM Kinetics Award
This award, generously funded by MRM Kinetics and its founder Michael R. McIsaac, has been created to encourage qualified exercise professionals in Newfoundland and Labrador by recognizing academic excellence in advanced fitness and leadership. Valued at $400, the award will go to the student who has achieved the highest mark in HKR 2340 (Fitness Leadership). It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Human Kinetics and Recreation.

The Newfoundland and Labrador Volleyball Association Awards
These awards, valued at the interest accruing from the principal amount, have been established by the Newfoundland and Labrador Volleyball Association from monies contributed by supporters of volleyball including coaches and players. They shall be awarded to Memorial University of Newfoundland students, male and/or female, who are in good academic standing, displaying commitment and leadership in the game of volleyball and who are members of one of the University’s varsity volleyball teams. The awards shall be administered by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, School of Human Kinetics and Recreation.

The Newfoundland & Labrador Soccer Association Awards
These awards, valued at $500.00 each have been established by the Newfoundland and Labrador Soccer Association and shall be awarded to two or more Memorial University of Newfoundland students, one male and one female, who are in good academic standing, displaying commitment and leadership in the game of soccer and who are members of one of the University’s soccer teams. The awards shall be administered by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, School of Human Kinetics and Recreation.

The Proactive Physiotherapy Award in Human Anatomy
This annually funded award, valued at $250, is the result of a contribution from Proactive Physiotherapy, a company owned and operated by two alumni of Memorial University’s School of Human Kinetics and Recreation, Chris Cluett and Justin Whittle. This award is available to the candidate who receives the highest mark in the on-campus offering of HKR 2310, Human Anatomy each year. To be eligible, students must be enrolled full-time as undergraduates in the School of Human Kinetics and Recreation and be in clear academic standing. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on the recommendation of the Dean, School of Human Kinetics and Recreation. The award is presented annually at the Fall HKR Awards Celebration.

The School of Human Kinetics and Recreation 30th/25th Anniversary Scholarship
In the calendar year 1994 the School commemorated 30 years of professional preparation in physical education/recreation and 25 years of Atlantic University Sport (AUS) competition at Memorial University of Newfoundland by hosting Anniversary Celebrations. The Steering Committee of these Anniversary Celebrations in co-operation with the two major organizing committees of these events established a $500.00 Scholarship to be awarded annually to the undergraduate student who combines academic achievement and athletic prowess at the varsity level. In awarding this scholarship, preference will be given to candidates who have demonstrated ability and desire to coach, and to children of either graduates of the School or of former varsity athletes. The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, School of Human Kinetics and Recreation.

Scott Memorial Scholarship
This scholarship, established by Winslow and Eileen Scott in memory of their late son Bradford, a former student of Memorial University of Newfoundland, is valued at not less than $500.00. In awarding this scholarship, preference will be given to students in the Bachelor of Education Intermediate/Secondary Program who have completed the Bachelor of Physical Education or Bachelor of Physical Education (Co-operative) degree at Memorial University of Newfoundland. If a suitable candidate cannot be found in this category it will be awarded to a senior student in the Bachelor of Physical Education or Bachelor of Physical Education (Co-operative) program who is doing the teaching option. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, School of Human Kinetics and Recreation.

Sea-Hawks Athletics Award
A limited number of athletic awards are available to student-athletes who exhibit leadership, achievement and athletic success. The annual number and value of awards will vary. To be eligible, returning student-athletes, either undergraduate or graduate, must be a current member of a Memorial University of Newfoundland Sea-Hawks Athletic team and have achieved a minimum average of 65% based on the previous academic year of study at Memorial University of Newfoundland. First-year athletes will also be eligible provided they have an 80% final admission average. Other criteria including financial need, service to the University and the community may be considered. In the case of undergraduate students the award will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. In the case of graduate students the award will be granted by the Dean, School of Graduate Studies. In both cases the award is based upon the recommendation of the Director of Athletics, School of Human Kinetics and Recreation, in consultation with the coaches of varsity teams.

The Michael ‘Beecher’ Smith Heart Award
The Michael ‘Beecher’ Smith Heart Award will be awarded to a student-athlete who demonstrates outstanding leadership, dedication and commitment, while bringing a positive attitude to their team. This award is presented in honour of the characteristics that Michael Beecher’ Smith, a former Memorial University of Newfoundland wrestler, exemplified. The recipient must be a current member of a varsity team and have met the minimum academic requirements for an award. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Director of Athletics.

The Harold Squires Scholarship
This scholarship, valued at a portion of the annual interest, was established by Memorial University of Newfoundland Alumnus and long-time employee Harold Squires. In awarding this scholarship preference will be given to a student who competes for the Memorial University of Newfoundland Sea-Hawks in the sport of basketball. Based on scholarship standing it will be awarded by the Senate
Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, School of Human Kinetics and Recreation in consultation with the coaches of the varsity basketball teams.

The St. John's Association of Basketball Officials Award
From a sum of money donated by the St. John's Association of Basketball Officials an award valued at a portion of the annual income on the investment is to be provided annually to a full-time or part-time Memorial University of Newfoundland student, either graduate or undergraduate, who is an active member of the University basketball community. The candidate must meet the University's definition of Clear Standing. In the case of graduate students the award will be made by the Dean, School of Graduate Studies. In the case of undergraduate students the award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. In both cases the award is based on the recommendation of the executive of the St. John's Association of Basketball Officials.

The Swimming Newfoundland and Labrador Bursary
This bursary, valued at $1,000.00 annually, is available to a student continuing beyond their first year of studies at Memorial University of Newfoundland. The bursary recipient will be a swimmer in good standing with Swimming Newfoundland and Labrador and will be a returning member to the Memorial University of Newfoundland Seahawks Varsity Swim Team. Awarding of this bursary will be based on swimming performance at the varsity level. It will be awarded to a student in good academic standing at the University. Applications may be obtained in writing to the Swimming Newfoundland and Labrador Office, RPO MacDonald Drive, Box 21248, St. John’s, NL, A1A 5B2 or by telephone to (709) 576-7946 or fax: (709) 576-7493.

Lorne Woolridge NLVA Scholarship
This scholarship has been established by the Newfoundland and Labrador Volleyball Association (NLVA) and will be awarded annually, on the basis of scholarship standing, to a new recruit to the men's volleyball program. This scholarship is renewable, for a second year, providing the recipient maintains scholarship standing and is a member of the men’s varsity volleyball team for both years. If an athlete receives a scholarship in his first year and does not return to the team in the following year, it is at the discretion of the coach to award the scholarship to another returning athlete. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on a recommendation from the Dean, School of Human Kinetics and Recreation acting on the advice of the team coach and the NLVA Executive.

The Works Varsity Athletics Award
This annually funded award has been established in 2012-13 by the Works, with support from The Office of the President of Memorial University of Newfoundland for a minimum period of five years. Valued up to full-tuition and fees, the fund has been established to assist coaches in recruiting student-athletes for the University's varsity teams. To be eligible for these awards, returning athletes must be a current member of a Memorial University of Newfoundland Sea-Hawks athletic team and have achieved a minimum average of 65% based on the previous academic year of study at Memorial University of Newfoundland. First-year athletes may also be eligible to receive the award provided they have a minimum final admission average of 80%. First-year athletes who do not meet the minimum 80% final admission average may be eligible to receive the award following the release of Winter grades as long as the full-time student athlete earns a 65% average on all coursework. This is a one-time allowance. In granting this award, preference will be given to student athletes who have demonstrated leadership, athletic ability and overall commitment to teammates. For undergraduate students, the award will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on recommendation of the Director of Athletics. For graduate students, the award will be granted by the dean, School of Graduate Studies on recommendation of the Director of Athletics.

5.9 School of Music
The following are available to students in the School of Music based on a recommendation from the Dean.

The James E. Austin Memorial Scholarship
From a sum of money donated by the firm of Dicks & Co. Limited, a scholarship has been established in honour of the late James E. Austin, former Chairman of the Board of the Company. The scholarship, valued at $500.00, is to be awarded annually on the basis of academic excellence to a full-time student enrolled in the School of Music at Memorial University of Newfoundland who is entering the fifth semester of the Conjoint Degree program. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, acting on the recommendation of the Dean, School of Music.

Dr. Andreas Barban Memorial Scholarship
This Scholarship was established in memory of Dr. Andreas Barban, distinguished musician and scholar, and former instructor in the School of Music. The scholarship, valued at not less than $1,000.00 will be awarded to a full-time Bachelor of Music student beyond the first year whose principal applied study is piano, and who has demonstrated musical potential and academic excellence. The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music.

The Jonas (Joe) Barter Scholarship in Music
This scholarship, valued at $500.00, is awarded annually from the income derived from a trust fund given to the University by the family and friends of the late Jonas (Joe) Barter. It is to be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of academic excellence, based on the advice of the Dean, School of Music. Preference will be given to a student who has completed three years of study in the area of Music Composition.

Joey Basha Memorial Bursary
This bursary was created to celebrate the memory and life of Joey Basha, who was a talented and passionate musician and a graduate of Memorial University of Newfoundland's Faculty of Arts. Valued at $600, it will be awarded annually to a third-year student with demonstrated musical potential who is enrolled full-time in the School of Music. The recipient must have demonstrated financial need and meet the minimum academic requirements for a bursary as defined by Memorial University of Newfoundland. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music.

The Yvonne Belanger Memorial Bursary
This bursary was established by her family to cherish the memory of musician, teacher and mother, Yvonne Belanger. The bursary will be awarded annually to full-time Bachelor of Music students beyond first year from the interest accrued on this endowment. The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music with the criteria for eligibility being musically, musical achievement, financial need, and scholarship standing.

The Amanda Bishop Memorial Scholarship
This fund was established by the family of Amanda Bishop to cherish the memory of a loving and caring daughter and sister whose life-long ambition was to study voice in preparation for a career in the performing arts. With a value of at least $500.00, this scholarship will be awarded annually to a student beyond the first year of the music degree program in good academic standing, whose performance medium is voice and who has demonstrated dedicated commitment to the betterment of the music community. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music.
The Charles J. Bown Memorial Entrance Scholarship in Music
This scholarship was established in 2001 in memory of Charles J. Bown (1963-2000) who graduated from Memorial University of Newfoundland in 1985 with a Bachelor of Music and Music Education. He went on to obtain his Master's degree in vocal performance from the University of Ottawa in 1994. He was actively involved in music as an educator, choir director, soloist and organist until his death on October 24, 2000. Valued at the annual interest on the endowment, the scholarship will be awarded to a student entering the Bachelor of Music program at Memorial University of Newfoundland who has demonstrated musical potential, academic ability and financial need. Preference will be given to a student whose major applied study is in voice. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music.

The Dennis G. Browne Memorial Scholarship
This scholarship, valued at the accrued interest on an endowment, established by the firm of Patterson Palmer Hunt Murphy, in memory of the late Dennis G. Browne, who was a member of their law firm; will be awarded to a student enrolled beyond first year in the Bachelor of Music program. The scholarship will be awarded on the basis of scholarship standing and demonstrated musical potential. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music.

The Buell-Olson Scholarship
This scholarship, valued at a portion of the income on the investment, was established by Dr. Gerry B. Olson, who was a Henrietta Harvey Visiting Professor in the School of Music in 1983-84 and a long time contributor to the vitality of instrumental music in Newfoundland and Labrador. It was renamed in 2006 on the occasion of the retirement of Dr. Donald Buell in recognition of his seminal role in instrumental music and music education in Newfoundland and Labrador. It is to be given to a student entering the first year of the Bachelor of Music program. Preference will be given to a student from Newfoundland and Labrador whose principal instrument is woodwind, brass or percussion. The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music.

The Canadian Broadcasting Corporation (Newfoundland & Labrador Region) Entrance Scholarship in Music
This scholarship, valued at not less than $500.00, is to be awarded annually from a sum of money donated by the Canadian Broadcasting Corporation (Newfoundland and Labrador Region). The scholarship will be awarded on the basis of academic standing and demonstrated music potential, to a student from Newfoundland and Labrador entering the first semester of full-time study toward the Bachelor of Music degree. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music.

The Dr. G. Albert Cooper Bursary
This bursary, valued at the accrued interest on an initial endowment, is awarded annually to a full-time Bachelor of Music student second beyond second year who has demonstrated academic excellence, musical potential and need. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards acting on the recommendation of the Dean, School of Music.

Olga Davis Scholarship in Music
This scholarship was established in honor of Mrs. Olga Davis, for whom music constitutes an essential part of life. It is derived from a generous gift by Dr. John Guy and Ms. Jennifer Guy (Davis) to the School of Music. The scholarship, valued at $1000 will be awarded annually to a Music student beyond first year who is a resident of Newfoundland and Labrador. The recipient must demonstrate both musical excellence in his or her applied study as well as financial need. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music.

Karl Diemer Memorial Bursary
This fund has been established by Mme Roberte Diemer in memory of her husband, Corner Brook businessman, Karl Diemer. Trained as a professional singer, Mr. Diemer had a great love for music and encouraged young musicians. The bursary, valued at a portion of the income on the investment, will be awarded annually to a voice student beyond first year who demonstrates musical potential and scholarship standing, as well as financial need. If there are no voice candidates in a given year, the award will be made to a student whose performance medium is strings. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music.

The Frederick and Isabel Emerson Memorial Scholarship
This scholarship has been established in memory of Frederick and Isabel Emerson by their children. Mr. Emerson, lawyer, musician, and a former lecturer and member of the Board of Regents, was involved in setting up and teaching music classes in the early days of the Memorial University College. The scholarship, valued at not less than $500.00, is awarded annually to a full-time music degree student beyond the second semester. Selection of candidates will be made on the basis of academic standing, financial need and character. The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music.

The Ed Goth Memorial Scholarship
This scholarship valued at a minimum of $2,500.00 is to be awarded to a student in any year in the Bachelor of Music degree program who shows musical potential and has scholarship standing. Preference will be given to a student whose principle applied study is saxophone. It may be renewed for the duration of the student's program, up to a maximum of four years, if he or she continues to excel musically and maintain scholarship standing. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music.

The Gower Youth Band Legacy Scholarship in Music
This scholarship, with a value of at least $1,000, was established by the Gower Youth Band and is maintained by the Gower Community Band in honour of former members of the Gower Youth Band who have become professional musicians and music educators. The scholarship is open to all students in brass, woodwind or percussion entering the first year of full-time study in the School of Music, and is awarded on the basis of musical excellence and potential as demonstrated at the entrance audition. This scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music.

The Alan D. Hall Award
This award has been established in memory of Alan D. Hall by his friends and family. A longtime faculty member in the Department of English at Memorial University of Newfoundland, he was deeply engaged in Music and Theatre throughout his life. The award, valued at a portion of the income on the investment, will alternate between the School of Music and the Faculty of Arts on a yearly basis. For the School of Music the award will go to a Music student beyond first year who demonstrates a high level of achievement on their instrument of applied study as well as involvement and commitment to the music community. For the Faculty of Arts the award will go to a student beyond first year who is enrolled in the program leading to a Diploma in Performance and Communications Media or a student enrolled in the program leading to a Bachelor of Arts degree with a major in Drama and Music. The eligible student must demonstrate a high level of achievement in theatre, as well as involvement in and commitment to the theatre community. To qualify for this award, students must meet the academic requirements for an award as outlined by the University. The award will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music or the Dean, Faculty of Arts.
The Norah and Leo Healey Memorial Award in Music
This Award has been established in memory of Norah and Leo Healey by their granddaughter Noreen Greene-Fraize and her spouse Thomas W. Fraize Q.C. The award will go to a School of Music student in any year of study seeking support for a community engagement project. To qualify for this award, students must meet the academic requirements for an award as outlined by the University and submit a proposal – including a timeline and an approximate budget - to the Dean, School of Music by October 15. The award will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music.

The Ben Heppner 25th Anniversary Scholarship in Music
This scholarship was established through the generosity of Canadian tenor, Ben Heppner, who donated his fee for a recital given on the occasion of the 25th anniversary of the founding of the School of Music. Proceeds from the concert were matched by the Opportunity Fund to endow the scholarship. Valued at a portion of the annual interest on the endowment, it will be awarded annually to a student in the Bachelor of Music degree program on the basis of musical and academic excellence. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music.

The Winnifred Holloway Memorial Scholarship
This scholarship is the result of a bequest left to the University by Mrs. Velda Richards of St. John's. The scholarship, valued at approximately $5,000.00, will be awarded annually to a female student who is full-time in the Bachelor of Music program and who is beyond first year. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music, to a full-time student from rural Newfoundland and Labrador who shows promise and purpose of continuing in that field.

The William J. House Memorial Scholarship
This scholarship, valued at a portion of the income on the investment, has been established in memory of William J. House by his widow, Mrs. Daphne L. House. The scholarship is to be awarded annually by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of the School of Music, to a full-time organ student from Newfoundland and Labrador who shows promise and purpose of continuing in that field.

The Imperial Tobacco Canada Entrance Scholarship in Music
This scholarship, established in 1996 by Imperial Tobacco Canada in support of the Opportunity Fund Campaign, has a minimum value of $2,000.00 annually. It will be awarded on the basis of scholarship standing and demonstrated music potential, to a student entering the first semester of full-time study toward the Bachelor of Music degree at Memorial University of Newfoundland. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, School of Music.

The Kiwanis Club of St. John's Music Scholarship/Bursary
This scholarship/bursary, valued at $750.00, is awarded annually by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music, to a promising student who is continuing studies in music at this University. Selection of candidates will be made on the basis of financial need, academic standing and character. The scholarship/bursary is not restricted to any particular year of study.

The Margaret Krause Scholarship in Music
This scholarship has been established in memory of Mrs. Margaret Krause, a pianist and cellist, who lived in St. John's during the years 1955-58 with her husband, Dr. Lucjan Krause, a professor of physics at Memorial University of Newfoundland's Parade Street location. During this time Margaret played much chamber music with local musicians and their children Janet and Catherine were born. Catherine (also a cellist) subsequently became Director of the Health Sciences Library at Memorial University of Newfoundland. One scholarship valued at a portion of the income on the investment, will be awarded annually to a full-time undergraduate student in scholarship standing whose principal instrument of applied study is a bowed string instrument. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, School of Music.

The Rita Love Memorial Bursary in Music
Initiated by the executor of her estate, Mr. Derrick Hutchens, this bursary was established by the estate of Rita Love in her memory. Although Mrs. Love spent most of her adult life living in the United States of America, she maintained strong connections to Newfoundland and Labrador. She moved away from Newfoundland when she was about fifteen years of age but visited frequently until her return several decades later. Valued at a portion of the income on the endowment, this bursary will go to an undergraduate student in the School of Music, beyond first year, from Newfoundland and Labrador with demonstrated financial need. The recipient must meet the minimum academic requirements for a bursary as outlined by the University. At the time of recommendation preference will be given to a student who holds no other concurrent award. It will be awarded as described below by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music.

Dame Vera Lynn Scholarship in Music
This scholarship, valued at a maximum of $250.00 over five years ($50.00 per year), was established to honour Dr. Vera Lynn, the distinguished musician and honorary graduate of Memorial University of Newfoundland. It is open to all students entering the first year of full-time study in the School of Music and is awarded on the basis of academic standing and musical potential as demonstrated at the entrance audition. The recipient must maintain scholarship standing to retain the scholarship. A relinquished scholarship may be awarded at the discretion of the Dean, School of Music. This award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music.

The R.F. (Bob) MacLeod Memorial Entrance Scholarship in Music
This scholarship, with a value of at least $300.00, has been established in memory of Mr. R.F. (Bob) MacLeod, pianist, organist, and entertainer. The scholarship is awarded annually to a student entering the first year of full-time study toward the Bachelor of Music degree. In making the award preference will be given to a student from rural Newfoundland and Labrador. Academic standing, character and financial need will be considered. The award is to be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music.

The Pat and Margaret Maloney Scholarship in Music
This scholarship was established by Dr. Aidan Maloney in honor of the lasting contributions of Margaret Maloney and her late husband Patrick to the musical life of our community. With Margaret's indelible passion for singing and Patrick's innate talent as a "kitchen" musician, music and life were synonymous to them. Individually gifted and together dynamic, they shaped a legacy shared by not only family, but our community at large. The scholarship, valued at a portion of the income on the investment, will be awarded annually to a Music student beyond first year who demonstrates musical excellence in her or his applied study. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music.
The Marquis Limited (Colonel Sanders) Bursary in Music
This fund was established to provide financial assistance to students from Newfoundland and Labrador whose permanent residence is outside the St. John's metropolitan area, and who are entering the first year of full-time study in the School of Music. The number of awards given annually and the value of each shall be determined by the Dean, School of Music. The award(s) is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music.

The David McCurdy Memorial Bursary
This bursary, established by the family and friends of the late David McCurdy, a former student of this University, is valued at $300.00 and is awarded annually to a student enrolled in the School of Music. In making the award, interest and ability in Music, as well as financial need, will be considered. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music.

The Joan McNamara Furlong Award
This scholarship, awarded annually in memory of Mrs. Joan McNamara Furlong, is provided from the interest accumulated on a continuing endowment given for this purpose by her family. At the request of the sponsors it will be awarded to a second- or third-year student in voice who shows definite promise and purpose of continuing in that field, and of making a cultural contribution to the community. The scholarship will be utilized by the successful candidate to further studies in voice at Memorial University of Newfoundland. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music.

The Dorothy Duff Moores Memorial Entrance Scholarship in Music
This scholarship, valued at not less than $1,000.00, is to be awarded annually to a full-time Bachelor of Music student who is normally beyond the first year and who has demonstrated musical potential and academic ability. Preference will be given to a student whose major applied study is in voice or organ. The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music.

Mrs. Grace Morgan Scholarship in Music
This fund was established in 1982 by faculty members of the School of Music in recognition of the interest and support given by Mrs. Grace Morgan to music at Memorial University of Newfoundland. Further funding resulted from a bequest to the University by Dr. M.O. Morgan after his death in 1995. Four scholarships, each valued at not less than $2,500.00, will be awarded annually from the income derived from the fund. The scholarship will be awarded to students entering the first semester of full-time study towards the Bachelor of Music degree. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music.

Carl Morrissey Bursary in Music
This bursary is established in memory of Mr. Carl Morrissey by his family and friends. Through this bursary they hope his love of and involvement in music will continue to encourage young musicians, as he did so often. The bursary, valued at a portion of the income on the investment, will be awarded annually to a full-time undergraduate student in the School of Music in any year of study based on financial need and demonstrated music potential. The recipient must meet the minimum academic requirements for a bursary. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music.

The Arthur and Dorothy Noseworthy Entrance Scholarship in Music
This scholarship, valued at not less than $1,000.00, is to be awarded annually from the interest accruing from an endowment fund established by the Noseworthy family in honour of their parents. The scholarship will be awarded on the basis of academic excellence and demonstrated musical potential to a student entering the first semester of full-time study toward the Bachelor of Music degree. Preference will be given to a student whose principal instrument is organ. The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music.

The Dr. Hugh O'Neill Prize in Piano
This prize is the result of a generous donation to Memorial University of Newfoundland by The O'Neill Foundation. One prize valued at $500.00 will be awarded annually to the top graduating undergraduate student in the School of Music, who majored in piano. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, School of Music.

The Dr. Hugh O'Neill Prize in Violin
This prize is the result of a generous donation to Memorial University of Newfoundland by The O'Neill Foundation. One prize valued at $500.00 will be awarded annually to the top graduating undergraduate student in the School of Music, who majored in violin. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, School of Music.

The Dorothy and David Peters Scholarship in Music
The Dorothy and David Peters Scholarship in Music was established by Dr. David Peters with the intention of providing full, course-based tuition for two semesters (Fall and Winter) to the best student at the School of Music who displays the aptitude, ability, and passion for concert performance. Valued at a portion of the income on the endowment, the Scholarship is available to a School of Music student in his or her second year of studies and is renewable for up to two additional years provided they meet the academic requirements for a scholarship as defined by Memorial University of Newfoundland. The recipient must display a high level of musical ability for concert performance in any of the following areas: a keyboard instrument, strings, voice, woodwinds, or brass. In order to be considered for renewal, the recipient must be a performance major with scholarship standing during years three and four of their program and all of the aforementioned criteria will apply where eligibility is concerned. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music.

The G. Calvin Powell Memorial Scholarship
This scholarship, valued at $500 has been established by Rebecca Eleanor Powell in memory of her grandfather G. Calvin Powell whose love of the arts and encouragement towards Ms. Powell were influential in her desire to study music. It will be awarded annually to a student beyond first year in the School of Music on the basis of scholarship standing and excellence on his or her instrument of music.
applied study. The Scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music.

Procuinier Family Scholarship in Music
This scholarship was established through a generous bequest from the Estate of Edwin Procuinier. Born in 1927 in Lamaline and raised in Harbor Grace, Newfoundland and Labrador, Procuinier left the Province at age 15 when his mother brought Ed and his brother to Ontario so that Ed could attend university. He took Honours English at the University of Western Ontario (UWO) and completed an M.A. at Queen’s University. He was a professor of English and Theatre Arts at Althouse College, UWO and wore many hats throughout his life – professor, playwright, theatre director, art collector and opera aficionado. He was passionate about literature, history, art, theatre and classical music, attending concerts and operas all over the world, and lecturing for the Canadian Opera Company. Valued at a portion of the income of the investment, up to four, full-tuition scholarships for one academic year (two consecutive semesters) are eligible to be awarded annually to students who display and maintain a high standard of musical and academic excellence. Each recipient must be entering a different program year and will be eligible for renewal up to the fourth year of their program of study. The recipient(s) must meet the minimum academic requirements for a scholarship as outlined by Memorial University of Newfoundland. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on a recommendation from the Dean, School of Music.

Rex and Ruth Rood Memorial Scholarship in Music
Rex Rood had a deep love and knowledge of classical music, which he shared with his family and which formed an integral part of his life. Ruth (Hue) Rood had a lovely soprano voice and performed in many operettas and concerts during her school years and as a soloist and in choralas as an adult. This Scholarship is given in memory of her parents by their daughter, Susan Maunder. Valued at $2,000 per year, it is awarded to one student annually in any year of the Bachelor of Music degree program who demonstrates musical potential and academic excellence. Preference will be given to a student whose principal applied study is voice. One scholarship, in total, will be awarded each year with the previous recipient being eligible for renewal (up to a maximum of five years) if the recipient continues to excel musically and maintains scholarship standing. The Scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on the recommendation of the Dean, School of Music.

The Dr. Ignatius A. Rumboldt Scholarship in Music
This scholarship, valued at a portion of the income on the investment, was established in memory of Dr. Ignatius A. Rumboldt, distinguished musician, music educator, builder of the choral tradition in Newfoundland and Labrador, and honorary graduate of Memorial University of Newfoundland. The scholarship is awarded to a student beyond first year in the Bachelor of Music degree program who has demonstrated academic excellence and musical potential. The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music.

School of Music Faculty Scholarship/Bursary Fund
These scholarships/bursaries, of the value of at least $300.00 each are awarded out of income derived from a fund established in 1976 by the faculty members of the School of Music. The awards are made annually by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music, to promising students who are continuing their studies in Music at this University. Selection of candidates will be on the basis of musicianship, academic standing, financial need and participation in School of Music activities.

The Sergeants Mess of Newfoundland Memorial Entrance Scholarship in Music
From the revenue accruing from War Savings Bonds purchased in 1940 by the Sergeants Mess of Newfoundland, a fund was established in 1990 to provide an annual scholarship of not less than $500.00 to a student entering the first semester of full-time study in the School of Music. Academic excellence and musical potential as demonstrated at the entrance audition will be considered. The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music.

The Roger Skinner/Music NL Memorial Award in Music
This award has been established in memory of Roger Skinner by his friends, family and Music NL. Roger contributed significantly to the music industry of this Province and was a founding member and drummer of the legendary country/rock group The Ducats. He served on the Board of Directors for Music Newfoundland & Labrador for a number of years and was serving as President at the time of his passing in 2002. Among his many contributions to the music of Newfoundland and Labrador, it was his vision that resulted in the creation of Music NL’s Annual Awards Gala, which celebrates the best of our Province’s music industry. Valued at a portion of the income of the investment, the Award will go to an undergraduate student in the School of Music with demonstrated financial need who meets the minimum academic requirements for an award as outlined by Memorial University of Newfoundland. The Award will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Director, School of Music.

The Grace M. Sparkes Alumni Entrance Scholarship/Bursary in Music
The Memorial University of Newfoundland Alumni Association has established, from its Alumni Annual Fund, an entrance scholarship/bursary in Music. The award, valued at not less than $500.00, will be given annually to a student entering the first semester of full-time study towards the Bachelor of Music degree. Academic standing, musical potential and financial need will be considered. The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music.

The Grace M. Sparkes Scholarship in Music
This scholarship was established by Mrs. Sparkes, former Alumni of the year and devoted friend of Memorial University of Newfoundland. Valued at approximately $500.00, it will be given annually to an undergraduate student in full-time study towards the Bachelor of Music degree. Scholarship standing and musical potential will be the main considerations in awarding this scholarship. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music.

St. John’s Northwest Rotary Music Festival Entrance Scholarship
This scholarship was established by the Rotary Club of St. John’s Northwest and the St. John’s Northwest Rotary Music Festival Committee to celebrate the Festival’s 25th anniversary and to honour music education in the Province. Valued at a portion of the income of the investment, the scholarship will be awarded annually to a student entering their first year of study in the School of Music on the basis of academic and musical excellence. The recipient must be from Newfoundland and Labrador as well as meet the minimum academic requirements for a scholarship as defined by Memorial University of Newfoundland. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music.

The Harold and Maxine Stanley Award
The award is established in memory of Mr. Harold Stanley by his family and friends. The award valued at a portion of the income on the investment, will be awarded annually to a full-time undergraduate student beyond first year in the School of Music. The recipient must meet the minimum academic requirements for an award. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music.
The Gordon M. Stirling Memorial Scholarship/Bursary
This fund was established by the Stirling Ryan law firm in memory of their late senior partner Gordon M. Stirling. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based upon the recommendation of the Dean, School of Music. The award will be available to an exceptional student(s) enrolled in the School of Music to assist with travel and other expenses to enable such student(s) to perform at events of major musical importance outside the province. Scholarship standing, musical ability, financial need, and the benefits such exposure would confer on the student(s) will be taken into consideration by the Committee. The value of the award will be based on the interest income accruing on the capital sum in the fund.

The Student Music Society Award in Music
This award was established by the Student Music Society of Memorial University's School of Music and made possible through ongoing fundraising initiatives. Valued at a portion of the income on the endowment, the award will go to an undergraduate student in the School of Music, beyond first year, with demonstrated financial need. The recipient must meet the minimum academic requirements for an award as outlined by the University. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music.

Eleanor Swanson Scholarship in Music
This scholarship was established through a generous donation from Ms. Eleanor Swanson. Raised in a household that cherished music in all its forms, Ms. Swanson acknowledges that music has always been an integral part of her life from the earliest age. In recognition of the important role music plays in our lives and how invaluable music is to our rich culture, this scholarship was established to afford talented students the opportunity to pursue their dreams. Valued at $3,500 annually, this scholarship will be awarded to one or more students, in any year of study, enrolled in an undergraduate or graduate program within the School of Music. The recipient must meet the minimum academic requirements for a scholarship as outlined by Memorial University of Newfoundland and have demonstrated financial need. In the case of an undergraduate student, the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. In the case of graduate students, the scholarship will be awarded by the Dean, School of Graduate Studies. In both cases it will be awarded on the basis of a recommendation from the Dean, School of Music.

Wesley Male Choir Bursary
This bursary was established in memory of William Collins and his two sons, John and Calvin ‘Robert’ Collins, who were all members of the Wesley Male Choir. It is derived from a generous gift by the late Mr. Calvin ‘Robert’ Collins to the Choir. The bursary valued at a portion of the income on the investment, will be awarded annually to a voice student beyond first year who demonstrates musical excellence in their applied study as well as financial need and meets the minimum academic requirements for a bursary. If there are no voice candidates in a given year, the award will be made to a student in another performance medium. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music.

The Mary C. Whiteley Entrance Scholarship in Music
This scholarship is awarded annually to a student entering first year in the School of Music at Memorial University of Newfoundland. It is awarded on the basis of scholarship standing and musical potential as demonstrated in the entrance audition. The value of this scholarship is determined by the amount of interest accrued on the principle sum. The scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music.

The Mrs. H.B. Young Memorial Scholarship
This scholarship has been established by Mrs. Helen Marquis in memory of her mother, Mrs. H.B. Young, and is awarded annually to a full-time student at the School of Music. The value of the award will be based on the income accruing from the fund during the period of tenure of the scholarship. In selecting candidates, academic achievement, financial need and character will be taken into consideration. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Music.

5.10 School of Nursing
The following are available to students in the School of Nursing based on a recommendation from the Dean.

The Alcohol and Drug Dependency Commission Commemorative Awards
These awards have been established to commemorate the Alcohol and Drug Dependency Commission (1982-1992). In an effort to provide funding for students with addictions in various disciplines, it is hoped that recipients will pursue careers in addiction-related fields. Up to three awards, valued at $750.00 each, are available annually and open to students who have completed a major or published paper at the undergraduate or graduate level or are completing an Honours Dissertation on addictions issues. It will be awarded on a rotating basis to students in Pharmacy, Nursing, Medicine, and Social Work with a Faculty or School receiving only one award in any given scholarship year. These awards will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean/Director/Head of the respective Faculty or School.

The Kathleen M. Baird Memorial Scholarship
This scholarship is made possible through a fund established by Mrs. Edna Baird-Stephenson in memory of her sister Kathleen M. Baird (1903-1985). The scholarship will be valued at the annual accrued interest on the endowment and awarded annually to a student in the second year of the Bachelor of Nursing (Collaborative) Program on the basis of scholarship standing and financial need. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean/Director/Head of the respective Faculty or School.

The Eleanor and Norval Blair Travel Scholarship in Nursing
This scholarship is made possible through a donation to the Opportunity Fund Campaign in 1998 by Mr. and Mrs. Blair. The scholarship, valued at the annual accrued interest on the endowment, shall take the form of a travel grant to a student in the Bachelor of Nursing (Collaborative) program at the Memorial University of Newfoundland School of Nursing site who has demonstrated excellence in nursing practice. The recipient will be a student in the third or fourth year of the program who will pursue each of the clinical practicum courses in the given semester. First preference will be given to those students going outside the province of Newfoundland and Labrador to complete their clinical. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Dean, School of Nursing.

Sharon J. Churchill Memorial Award in Nursing
This award was established by a generous donation from Fred and Madge Churchill, parents of Sharon Churchill. Sharon was a graduate of the Memorial University of Newfoundland's School of Nursing, class of 1987. She dedicated her life to her family, patients and co-workers as a Clinical Coordinator for thirteen years with Eastern Health and as a result was both loved and respected by all those who knew her. Valued at a portion of the income on the investment, it will be awarded annually to a student in the Bachelor of Nursing at the Centre for Nursing Studies for sustained excellence in an obstetrics and gynecology clinical placement. In the instance where there is more than one suitable candidate for the award, financial need may be used as a determining factor. The recipient must meet the minimum academic requirements for an award as defined by Memorial University of Newfoundland. This award will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of the School of Nursing.
Clayton and Alice Cook Nursing Award
This award was established by Mr. Clayton D. Cook. The award, in honor of his niece Menetha Dyke, RN., will be valued at a portion of the income on the endowment and will be awarded annually to a student who meets the minimum academic requirements for an award, as defined by the University. The recipient must be enrolled in the second year of the undergraduate Bachelor of Nursing program at the School of Nursing. The award will be administered by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, School of Nursing.

Vincent Cooze Memorial Award
This award was established in memory of Vincent Cooze B.N., R.N., and a graduate of the School of Nursing’s Class of 1996. Vince passed away in September 1996 after bravely enduring a prolonged illness. Valued at a portion of the income on the investment, the award will be granted annually to a Bachelor of Nursing student at the Memorial University of Newfoundland School of Nursing, with a preference given to a male student in any year of study. The spirit of the award is to recognize a student with characteristics similar to Vincent who was a well-rounded student who sought to overcome personal challenges and maintained a positive spirit. The recipient must meet the minimum academic requirements for an award as defined by Memorial University of Newfoundland. The award will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, School of Nursing.

The Mary Dunley Nurse Memorial Bursary
This bursary was established by a generous donation from family and friends of Ms. Mary Dunley Nurse, a graduate from the General Hospital School of Nursing Class of 1944. Mary was a devoted and loving wife, mother, and highly respected Registered Nurse. Throughout her life Mary was an inspiration to her family, to her health care colleagues and all those who came to know her. The bursary will serve as a reminder to future generations of nurses of the value of true caring and compassion for others. Valued at a portion of the income on the investment, it will be awarded annually to an undergraduate student entering the third or fourth year of the Bachelor of Nursing program at the School of Nursing, who has demonstrated financial need and who has demonstrated strong clinical skills. The student must also meet the minimum academic requirements for a bursary as defined by Memorial University of Newfoundland. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, School of Nursing.

The Barbara Fowlow Memorial Scholarship
This scholarship is made possible by a fund established by friends and colleagues in memory of Barbara Fowlow, a graduate of Memorial University of Newfoundland’s School of Nursing. Valued at the annual interest on the initial endowment, it is awarded annually to a student who is entering the final year of the Bachelor of Nursing (Collaborative) Program. Preference in awarding the scholarship will be given to a student who has shown a demonstrated interest in cardiovascular health related to stroke care, have actively volunteered with the Heart and Stroke Foundation and other family members. The recipient will be valued at a portion of the income on the investment, will be awarded annually to a student registered full-time in the Bachelor of Nursing (Collaborative) Program at Memorial University of Newfoundland. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Dean, School of Nursing.

Grateful Patient Entrance Bursary
This bursary was established by a gift from an anonymous donor who wanted to support the education of nurses at Memorial University of Newfoundland in recognition and gratitude for the nursing care he received during a difficult time in his life. Valued at a portion of the income on the investment, one or more bursaries will be awarded annually to Memorial University of Newfoundland students entering the Bachelor of Nursing Program who have demonstrated financial need as well as meet the minimum academic requirements for a bursary as defined by the University. It is the donor’s wish that the recipients, at such time when they are financially able, will contribute back to the Grateful Patient Bursary to enable the Fund to grow and assist more students. This bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Nursing.

Heart and Stroke Foundation of Newfoundland and Labrador Nursing Award in Cardiovascular Health
Established by the Heart and Stroke Foundation of Newfoundland and Labrador this award, valued at $1,500 annually, will be presented annually to an undergraduate student in any year of the Bachelor of Nursing program at the School of Nursing. The student will have demonstrated an interest in cardiovascular health, have actively volunteered with the Heart and Stroke Foundation and also have met the minimum academic requirements for an award. The Award will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean of the School of Nursing.

Heart and Stroke Foundation of Newfoundland and Labrador Nursing Award in Stroke
Established by the Heart and Stroke Foundation of Newfoundland and Labrador this award, valued at $1,500 annually, will be presented annually to an undergraduate student in any year of the Bachelor of Nursing program at the School of Nursing. The student will have demonstrated an interest in patient health related to stroke care, have actively volunteered with the Heart and Stroke Foundation and also have met the minimum academic requirements for an award. The Award will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean of the School of Nursing.

The Mirdza Kajaks Scholarship
This scholarship, established by Mirdza Kajaks, is valued at a portion of the accrued interest on the endowment. It will be awarded annually to a full-time student entering the first year of the Bachelor of Nursing (Collaborative) Program at the Western Regional School of Nursing. It is the wish of Mrs. Kajaks that the recipient plans to practice in Newfoundland and Labrador upon completion of studies. Preference in awarding the scholarship will be given to a student with characteristics similar to the recipient who was a well-rounded student who showed a demonstrated strong clinical skills. The student must also meet the minimum academic requirements for an award. The award will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, School of Nursing.

The Daphne King (Bajzak) Memorial Award in Patient Care
The Daphne King (Bajzak) Memorial Award in Patient Care was generously established by the family of Mrs. Daphne Bajzak, a graduate of the General Hospital School of Nursing. Throughout her nursing career she provided calm comfort for those in pain. She will always be remembered for her kindness, compassion, empathy, positivity, tolerance and honesty towards patients and their families. Daphne came to be known for her unwavering dependability, trustworthiness and patient care centered approach to healing. The award will be presented annually to a student entering the 4th year of the Bachelor of Nursing program at the School of Nursing. The student will have demonstrated exemplary patient care by being an advocate for patients and their families’ well-being during their clinical placements. The student must also meet the minimum academic requirements for an award. The award will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, School of Nursing.
Undergraduate on Scholarships, Bursaries and Awards upon the recommendation of the Director of the School of Nursing.

The Marilyn Marsh Scholarship
This scholarship is made possible by a fund established by former students and colleagues of Marilyn Marsh on the occasion of the Twenty-Fifth Anniversary of the School of Nursing. The scholarship is awarded annually to a student who has completed the second year of the Bachelor of Nursing (Collaborative) Program at the Memorial University of Newfoundland site. Criteria (in order of priority) for this award are:
- Demonstrated clinical excellence
- Participation in student/school activities
- Academic standing

The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, acting on the recommendation of the Dean of the School of Nursing.

The John M. and Elsa S. Morgan Scholarships
These scholarships have been bequeathed to the University by the late Dr. John M. Morgan, B.Sc., M.D., and have been named to commemorate Dr. Morgan and his wife Elsa. Up to twenty-five scholarships will be made available annually to undergraduate students who have completed at least one year of studies at Memorial University of Newfoundland within the areas specified below and who will be continuing in these programs. The scholarships, valued at a minimum of $1,000.00 each, will be disbursed as follows:
- up to five to the Faculty of Medicine
- up to four to the School of Nursing
- up to four to the Faculty of Education
- up to four to the Department of Philosophy
- up to four to the Department of Anthropology
- up to two to the Department of Religious Studies (with preference to students of comparative religions)
- up to two to students in Newfoundland Studies

The scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the appropriate Dean/Director/Department Head. Preference will be given, where possible, to students from the Port-de-Grave District.

The Margaret Fitzpatrick Morgan Scholarship
This fund was established by the late Dr. M.O. Morgan in memory of his wife, the late Margaret Fitzpatrick Morgan. One or more scholarships valued at not less than $2,500.00 each will be awarded annually by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards to a student or students registered full-time in the Bachelor of Nursing (Collaborative) Program. Preference will be given to students entering the first year of the program preferably from rural Newfoundland and Labrador.

Rick Morris Memorial Bursary
This bursary was established in memory of Rick Morris by his family and friends. Rick was a caring individual who was deeply committed to Newfoundland and worked with a variety of individuals, organizations, and government. He was a mentor to many helping professionals, who regularly sought his counsel on personal and professional issues. He was deeply concerned with violence against individuals, particularly women, children, and the survivors of Mount Cashel. He was involved in the establishment of Unified Family Court’s mediation services and frequently collaborated with the aboriginal and senior’s communities. The bursary, valued at a portion of the income from the endowment, will be awarded annually to a student who is in financial need and meets the minimum academic requirements for a bursary. It will be awarded on a rotating basis to a student enrolled in one of the following academic areas: Year 1- School of Social Work, Year 2- Faculty of Education, Year 3- School of Human Kinetics and Recreation, Year 4- Department of Gender Studies and Year 5- School of Nursing. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Head of the Unit for which the bursary is being awarded.

The John Pelley Memorial Scholarship
The John Pelley Memorial Scholarship is established in loving memory of Mr. John Pelley, a graduate of the Western Regional School of Nursing. John was an Offshore Health Advisor who was aboard the Cougar 491 flight that was tragically lost on March 12, 2009. The scholarship will be awarded to a student in their final year in the Bachelor of Nursing (Collaborative) program at the Western Regional School of Nursing who has expressed an interest in post-graduate training in emergency nursing, occupational health nursing or critical care nursing. Preference will be given to a student who demonstrates a combination of a strong work ethic, a passion for student life and extra-curricular activities. To be eligible, students must meet the minimum academic requirements for a scholarship. The Scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on the recommendation of the Director of the Western Regional School of Nursing.

The Elizabeth Lindsay Robbins Scholarship in Nursing
This scholarship was created by Elizabeth (Betty) L. Robbins who was born on May 15, 1911 in Strathaven, Lanarkshire County, Scotland. Betty graduated in Nursing from Stobhill General Hospital, Glasgow, Scotland on October 31, 1940 and received a Certificate from the Central Midwives Board for Glasgow on December 13, 1940. She came to Newfoundland on Jan 20, 1947 and married Frederick Robbins in St. John’s on March 1, 1947. Mr. Robbins was a Newfoundland war veteran from Burlington, Notre Dame Bay, who had served with the Royal Navy during the Second World War.
This scholarship, valued at a portion of the income of an endowment (a minimum of $2,500.00 annually), will be awarded to a student in the third year of the Bachelor of Nursing (Collaborative) Program. The scholarship will be awarded on the basis of scholarship standing, financial need, and nursing professional practice. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean of the School of Nursing.

The Katharine Roberts Memorial Scholarship
This Katharine Roberts Memorial Scholarship has been endowed by Edward Roberts in memory of his mother Katharine. The scholarship is valued at a percentage of the income on the endowment and will be awarded annually to a student in any year of the Bachelor of Nursing (Collaborative) Program.

The first prize in awarding the scholarship will be given to Bachelor of Nursing (Collaborative) Program students from the electoral Districts of The Straits and White Bay North, Lake Melville and Cartwright-L’Anse au Clair (or other Districts embracing the communities in those Districts, which were established by the House of Assembly in 1995). If no suitable candidate comes forward from one of these Districts in any given year, the scholarship may be awarded to a Nursing student from a rural community elsewhere in Newfoundland and Labrador.

The scholarship will be awarded on the basis of scholarship standing, but in the case of a tie between two equally deserving students, financial need may be used as a determining factor. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, School of Nursing.

The School of Nursing Class of 1976 Bursary
The Bursary, valued at a portion of the income on the endowment, will be awarded on the basis of financial need to a student who is...
registered full time at Memorial University of Newfoundland’s School of Nursing and who has completed their first year clinical placement of the Bachelor of Nursing Collaborative program. Candidates must have displayed a passion for patient care through their respective clinical placements and have met the minimum academic requirements for a bursary. Students must have a supporting letter of recommendation detailing how they have demonstrated a passion for patient care from their clinical course instructor. In the event there is more than one suitable candidate for the bursary preference will be given to a student who comes from outside of the St. John’s area. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Nursing.

The School of Nursing Faculty Memorial Award
The School of Nursing Faculty Memorial Award pays tribute to our respected faculty members who have passed on. The School of Nursing Faculty Memorial Award honours the following faculty members: Ruby Dewling, Grace Gould, Neil Joiner, Maureen Laryea, Margaret McLean, Joyce Nevitt, Beverly Rockwell, and Elizabeth “Betty” Summers. The award is valued at a portion of the income from the endowment and will be awarded to a student beyond their first year of the Bachelor of Nursing program at the School of Nursing. The recipient must emulate the best qualities of a nursing faculty member; including a passion for nursing education, a spirit of caring and a commitment to nursing and a compassion for patients. The award will be presented by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of the School of Nursing.

The St. John’s Home Care Scholarship for Excellence in Community Health Nursing
This scholarship valued at the annual accrued interest on the initial endowment will be awarded to a full-time or part-time student enrolled in the Bachelor of Nursing (Post RN) or Master of Nursing Program at Memorial University of Newfoundland with preference given to candidates enrolled in the Bachelor of Nursing (Post-RN) Program. Candidates must also have employment experience in community health nursing and demonstrated recent voluntary involvement in a community organization(s). Minimum academic requirements are a 75% overall average in either the completed diploma program in nursing or completed courses in either the B.N. (Post-RN) or Masters Program. In the case of undergraduates the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. In the case of Graduates the scholarship will be awarded by the Dean of Graduate Studies. In both instances the award will be based upon a recommendation from the Dean, School of Nursing.

The Sybil Gertrude Rusted Toy Memorial Bursary
This bursary, established by Dr. Nigel Rusted in memory of his sister Sybil, is valued at a portion of the accrued interest on an endowment. Sybil, the daughter of Rev. Canon Ernest and Faith (Hollands) Rusted, was born in Upper Island Cove April 2, 1911. She was educated at schools in Upper Island Cove, Carbonear, Girl’s College in New York and the Royal Victoria Hospital in Montreal. The bursary will be awarded annually to a student entering the first year of the Bachelor of Nursing (Collaborative) Program with first preference to students from the Conception Bay North area, who have demonstrated ability and financial need. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, School of Nursing.

Undergraduate Aboriginal Award in Professional Studies
The Undergraduate Aboriginal Award in Professional Studies was established by Mr. Alan Rowe (B.Comm. ’78) through a generous donation to the Dare To: The Campaign for Memorial University. To be eligible, candidates must be Aboriginal students from Labrador or the Territories of Canada who are enrolled full-time, and have clear academic standing. Preference will be given to students who have demonstrated financial need. Awarded upon entrance to an eligible undergraduate professional program, the Award is valued at $2,500 per year and is renewable for three additional years assuming the recipients maintain clear academic standing and full-time enrollment. Twelve recipients will be selected by the Faculties of Business Administration, Engineering and Applied Science, Medicine, and Education and the Schools of Nursing, Pharmacy, and Social Work. If a successful candidate is not recommended by the discipline on rotation in a given year an eligible student from one of the other disciplines may be awarded the scholarship for that year. The Awards are granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards with input from the Aboriginal Resource Office, and on the recommendation of the Deans of the appropriate academic units.

The Mary Eileen Wight Award in Nursing
The Mary Eileen Wight Award in Nursing was established by a generous donation from her daughter and sons. Affectionately known as “Lottie”, Mary Eileen Wight (Lawton) was born in Kings Cove, Bonavista Bay. She graduated from the General Hospital School of Nursing as a registered nurse in 1951. Lottie dedicated her life to the love and caring of her family, friends and patients. Being a nurse was always at the core of how she defined herself. This award is dedicated to her spirit of unwavering care to her patients and family. Valued at a portion of the income on the investment, it will be awarded to a student who is entering the second year of the Bachelor of Nursing (Collaborative) Program at the School of Nursing. The student must have demonstrated outstanding patient care during completion of clinical studies. In the instance where more than one suitable candidate exists, financial need may be taken into consideration as a deciding factor. The student will be eligible for a renewal of the award for an additional two years providing they continue to meet or exceed the expectations set forth for patient care in their clinical studies. A student will be able to hold the award for a maximum of three years, after which time a new recipient will be selected. The recipient must meet the minimum academic requirements for an award as defined by Memorial University of Newfoundland. The award will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean, School of Nursing.

The Janet P. Winsor Bursary
This bursary, valued at a portion of the accrued interest on the initial endowment, is awarded annually to third year students enrolled in the B.N.(Collaborative) Program who demonstrate financial need over and above academic excellence. The candidates must have scholarship standing as well as demonstrate financial need. At least one bursary will be awarded in each of the three sites. The criteria for selection includes excellence evidenced by a letter of recommendation from at least two instructors, a minimum academic standing of 788, and a commitment to nursing and a compassion for patients. The award will be presented by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation from the Dean, School of Nursing.

5.11 School of Pharmacy
The following are available to students in the School of Pharmacy based on a recommendation from the Dean.

The AbbVie Prize
AbbVie Laboratories Limited awards an annual prize consisting of $250. This prize is awarded to a student of high academic merit. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the Recommendation of the Dean, School of Pharmacy.

The Alcohol and Drug Dependency Commission Commemorative Awards
These awards have been established to commemorate the Alcohol and Drug Dependency Commission (1982-1992). In an effort to promote the pursuit of addictions studies in various disciplines, it is hoped that recipients will pursue careers in addiction-related fields. Up to three awards, valued at $750.00 each, are available annually and open to students who have completed a major or published paper at the undergraduate or graduate level or are completing an Honours Dissertation on addictions issues. It will be awarded on a
rotating basis to students in Pharmacy, Nursing, Medicine, and Social Work with a Faculty or School receiving only one award in any given scholarship year. These awards will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean/Director/Head of the respective Faculty or School.

The Alpha Group Memorial Award in Community Pharmacy
The Alpha Group is a dedicated group of independent pharmacy owners who provide the communities of Newfoundland and Labrador with essential health care services and represent a vital part of the health care delivery system. The Award is given in memory of the members of the Alpha Group who have made a significant difference in the lives of their patients and who have now passed on. The Award will be presented to a student in the 3rd or 4th year of the Bachelor of Science (Pharmacy) program who has demonstrated excellence in community pharmacy practice during the completion of their structured practice experience placement. Preference will be given to students who have demonstrated excellence within an independent pharmacy practice setting. The student must also meet the minimum academic requirements for an award. The Award will be presented by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean of the School of Pharmacy.

The James and Betty Batt Family Award in Pharmacy
The James and Betty Batt Family Award in Pharmacy was generously established by Mr. Michael Batt, School of Pharmacy, Class of 1991, in loving memory of his grandparents James and Betty Batt. The award is valued at a portion of the income from the endowment and will be presented annually to an undergraduate student in any year of the Bachelor of Science (Pharmacy) program. The award is available to a student who is in financial need and who is actively engaged in community service, either within the School of Pharmacy or the external community and who meets the minimum academic requirements for an award. The award will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean of the School of Pharmacy.

The Kristine Cadigan Memorial Award
This award is valued at a portion of the income from the endowment and will be presented annually to any student in the Bachelor of Science (Pharmacy) program. The award recognizes a well-rounded and deserving student who is never afraid to help out when needed, dedicated to what he/she does, interested in a variety of different activities, involved in activities both inside and outside the School of Pharmacy, committed to the profession and shows significant academic achievement. The student must also meet the minimum academic requirements for an award. The award will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean of the School of Pharmacy.

CAPSI/Pfizer - Guy Genest Passion for Pharmacy Award
This award, valued at a portion of the income from the endowment, is the result of a generous lead donation by the student membership of the CAPSI organization (Canadian Association of Pharmacy Students and Interns). It is established in honour of Mr. Guy Genest, a passionate individual, who has demonstrated unwavering support of Canadian Pharmacy students and interdisciplinary healthcare practices. The award recipient will be a pharmacy student in any academic year, in clear academic standing (as defined by the University), who shows clear evidence of dedication to and passion for the profession of pharmacy. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on a recommendation from the Dean, School of Pharmacy.

The Neil Curtis Memorial Award in Pharmacy
Neil Curtis was a founding member of the Alpha Group of independent pharmacies and was a long-time serving Executive Director of the Alpha Group. He was instrumental in establishing a local presence of the Canadian Society of Hospital Pharmacists, serving as the first local president. He served voluntarily as Secretary-Registrar of the Newfoundland Pharmaceutical Association from 1964 to 1971 and served a term as President of the National Conference of Pharmacy Registrars of Canada. The Award will be granted to a student enrolled in the Bachelor of Science (Pharmacy) program at the School of Pharmacy who has demonstrated excellence during their Structured Practice Experience I (Community Pharmacy Placement). Preference will be given to a student who has demonstrated excellence in an independent pharmacy practice setting. To be eligible, students must meet the minimum academic requirements for an award. The award, valued at a portion of the income from the endowment, will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on the recommendation of the Dean, School of Pharmacy.

The J. Joseph Dicks Memorial Bursary in Pharmacy
This bursary, valued at a portion of the income from the endowment, is the result of a generous donation by the family in memory of Mr. J. Joseph Dicks, a prominent pharmacist who achieved great success in his profession and community. The bursary will be awarded to a full-time Pharmacy student in any year of the program who demonstrates financial need and has a minimum GPA of 2 out of a possible 4. The recipient will also exemplify similar character as Mr. Dicks, who overcame personal challenges to achieve success. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on the recommendation of the Dean, School of Pharmacy.

The Drug Store Pharmacy (Dominion) Bursaries
The Pharmacy division of Dominion Canada has established two bursaries of $500.00 each. These bursaries are provided to two deserving students who have demonstrated significant financial need. These bursaries will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on a recommendation from the Dean, School of Pharmacy.

The G.R. Duncan Prize in Pharmacy
This award of $100.00 is to be given annually to a student in any year of the pharmacy program who displays school spirit, is involved in school-related extra curricular activities, and promotes the profession of pharmacy. The recipient shall be chosen by student ballot. It is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Pharmacy.

The Excellence in Compounding Award
This award is given to a student completing the first year of the Pharmacy program who obtains the highest mark in the compounding laboratory portion of the first year pharmaceutics courses. The award is valued at $250.00. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Pharmacy.

The Edward D. Freeman Bursary
This bursary honours the memory of Edward D. Freeman, a prominent Harbour Grace pharmacist who was a founding member of the Newfoundland Pharmaceutical Association (now the Newfoundland and Labrador Pharmacy Board). Valued at a portion of the income from the endowment it shall be awarded to a deserving student of good academic standing in the School of Pharmacy on successful completion of Pharmacy Year III to enable the student to complete his/her studies with financial assistance. This bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Pharmacy.

Fresenius Kabi Award in Pharmacy
This award was established by a generous donation from Fresenius Kabi Canada. Valued at $500, it will be awarded annually to student enrolled in the Bachelor of Science (Pharmacy) program at the School of Pharmacy. The recipient must meet the minimum academic requirements for an
award as defined by the Memorial University of Newfoundland. This award will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Pharmacy.

The David Goudie Memorial Award in Pharmacy
David Goudie was a prominent pharmacist from the Deer Lake region who exemplified the characteristics of hard work, determination and humility. David was dedicated to his patients’ well-being and demonstrated this through his philanthropy of time, service and financial support. David was known for his love of mentoring new pharmacists and employees, and as a person who was highly regarded as a community leader in Port Aux Basques region. The award will be granted to a student who has graduated from a Newfoundland and Labrador Secondary School, is enrolled in the Bachelor of Science (Pharmacy) program at the School of Pharmacy. The student will have demonstrated an interest in practicing in a rural location. The award, valued at $500 annually, will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Pharmacy.

The Hapgood and Vey Family Award
The Hapgood and Vey Family Award has been generously provided by Ms. Beverly Vey and is valued at $2000. It will be presented annually to a student in any year of the Bachelor of Science (Pharmacy) program who is the descendent or spouse of a member of the Canadian Armed Forces or the Royal Newfoundland Regiment and who meets the minimum academic requirements for an award. A student may be the recipient of the award for a maximum of two years. The award will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean of the School of Pharmacy.

The Robert Heale Memorial Bursary
This bursary, valued at $250.00 annually, honours the memory of Robert Heale, an honorary life member of the Newfoundland Pharmaceutical Association (now the Newfoundland and Labrador Pharmacy Board) who practiced for over 50 years as a community pharmacist; and trained many pharmacists before pharmacy training programs were in place in Newfoundland. It is awarded to a student in any year of the pharmacy program who demonstrates scholarship standing and financial need. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of a recommendation from the Dean, School of Pharmacy.

The Memorial University Pharmacy Spirit Awards
The Memorial University Pharmacy Spirit Awards have been generously provided by the Memorial University Pharmacy Society (MUPS) and are valued at $250 each. The awards will be presented annually to the top first and second year students in the Bachelor of Science (Pharmacy) program who meet the minimum academic requirements for a scholarship. These scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Pharmacy.

The James J. O'Mara Awards
The James J. O’Mara Awards were created to honour the memory of James O’Mara, a prominent Newfoundland pharmacist who tirelessly worked as an advocate for a university based School of Pharmacy. He served as the President of the NPHA from 1970-72 and was Registrar of what is now the Newfoundland and Labrador Pharmacy Board from 1981-1990. An award will be given to one student each year as an Honour Award to a student entering the final year of the Pharmacy program. The recipient shall be chosen by the students and faculty by ballot in recognition of a commitment to the School of Pharmacy as well as a high degree of academic ability and showing of promise in making significant contributions to the profession of Pharmacy. In addition, this shall be accompanied by a miniature award and monetary award valued at the income from the endowment each year. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Pharmacy.

The J. Keith Lawton Memorial Bursary
This bursary has been established by the Board of Directors and employees of Lawton Drug Stores with the support of the Sobey's Foundation, to honour the memory of J. Keith Lawton. The value of the award will represent the interest generated from the endowment fund each year. It will be awarded to a deserving student selected from all students enrolled in the Pharmacy program. This award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of Pharmacy.

The L.J. Lawton Memorial Award
A plaque, donated by the Canadian Pharmacists Association in memory of Louis J. Lawton, a founder of the Newfoundland Pharmaceutical Association (now the Newfoundland and Labrador Pharmacy Board), is presented each year as an Honour Award to a student entering the final year of the Pharmacy program. The recipient shall be chosen by the students and faculty by ballot in recognition of a commitment to the School of Pharmacy as well as a high degree of academic ability and showing of promise in making significant contributions to the profession of Pharmacy. In addition, this shall be accompanied by a miniature award and monetary award valued at the income from the endowment each year. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Pharmacy.

Merck Canada Scholarship
These scholarships are made possible by the support of Merck Canada Inc. Valued at $1,000 each as well as a copy of the Merck Manual, they will be awarded annually to the top first and second year students in the Bachelor of Science (Pharmacy) program. The recipients must meet the minimum academic requirements for a scholarship. These scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of the School of Pharmacy.

The Ottawa Pharmacy Alumni Award
The Ottawa Pharmacy Alumni Award has been generously provided by Ms. Hao Nguyen, Dr. Co Pham, and Dr. Roland Halil. The award will be presented annually to a student in their 3rd or final year of the Bachelor of Science (Pharmacy) program. The award recognizes a student who demonstrates a strong commitment to extra-curricular activities within Memorial University of Newfoundland and the external community and meets the minimum academic requirements for an award. The award, valued at a portion of the income on the endowment, will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean of the School of Pharmacy.
recommendation of the Dean of the School of Pharmacy.

The Panta Pharmaceutical Passion for Compounding Award
The Panta Pharmaceutical Passion for Compounding Award has been generously provided by Panta Pharmaceutical. The award is valued at $250.00 and will be presented annually to a student in the Bachelor of Science (Pharmacy) program. The award recognizes excellence in pharmacy compounding. The successful candidate must have demonstrated a passion for the art of compounding, have been recommended by their clinical skills coordinator and meet the minimum academic requirements for an award. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean of the School of Pharmacy.

The Pfizer Award of Excellence
Pfizer Canada Inc. presents an annual award of a $200 cash prize. The Award is presented for excellence in Clinical Pharmacy by a graduating pharmacy student. The Award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Pharmacy.

The Dr. Co Pham and Family Award
The award was created by Dr. Co Pham, a proud graduate of the School of Pharmacy’s Class of 2000. Dr. Pham passionately believes that the ideals of innovating and maintaining the independence of professional practice and the drive to be entrepreneurial are of paramount importance to pharmacy practice and were therefore a pivotal part in his desire to create this award. The award will be presented annually to a student in any year of the Bachelor of Science (Pharmacy) program who exemplifies an entrepreneurial and innovative spirit in the pursuit of advancing the pharmacy profession, independent pharmacy practice of the School of Pharmacy. The student must also meet the minimum academic requirements for an award. The award, valued at a portion of the income from the endowment, will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on the recommendation of the Dean of the School of Pharmacy.

Pharmasave Community Service Award
Pharmasave provides one award in the amount of $1250. This award is provided to a student entering the 2nd year of the pharmacy program who has made outstanding contributions to his or her community through volunteer service. Students must be in clear academic standing and be actively involved in volunteer work which has an impact on community life. Students will be eligible to win this award only once during his/her tenure at the School. They will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on the recommendation of the Dean, School of Pharmacy.

Pharmasave Pharmacy Innovation in Patient Care Award
Pharmasave provides two awards in the amount of $1250 each. These awards are provided to students in clear academic standing who are entering the 3rd or 4th year of the pharmacy program who show leadership in the development and implementation of a “non-dispensing” patient care program/service offered by a community pharmacy. They will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on the recommendation of the Dean, School of Pharmacy.

John J. and John P. Rahal Memorial Bursary
This bursary was established by a generous donation from the Rahal Family. The Bursary honours the memory of the prominent pharmacists of John J. Rahal and John P. Rahal. John J. Rahal was one of the thirty-one charter members of the Newfoundland Pharmaceutical Society in 1910. His son, John P. Rahal served as Registrar and Auditor of Newfoundland Pharmaceutical Society from 1943 to 1952. Both father and son were included on a listing of the hundred most notable pharmacists in Newfoundland and Labrador from 1910-2010. Valued at a portion of the income from the endowment, it will be endowed annually to a student entering the second year of the Bachelor of Science (Pharmacy) program who has shown outstanding skills in communicating with patients and the potential for becoming an excellent pharmacist. The recipient must have demonstrated financial need as well as meet the minimum academic requirements for a bursary as defined by Memorial University of Newfoundland. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of the School of Pharmacy.

The Jaclyn Rogerson Memorial Bursary in Pharmacy
The Jaclyn Rogerson Memorial Bursary in Pharmacy, valued at a portion of the income from the endowment, is established in loving memory of Jaclyn Rogerson, a well respected graduate from the School of Pharmacy’s Class of 2004. The bursary is a result of gifts to Memorial University of Newfoundland by Jaclyn’s family and friends to honour her commitment to the pharmacy profession and her community. As a gifted communicator and empathetic pharmacist, Jaclyn succeeded in providing caring support to her patients and community. The bursary will be awarded to a student entering their final year in the Bachelor of Science (Pharmacy) program at Memorial University of Newfoundland. Based on financial need and a minimum GPA of 2 (out of a possible 4), preference will be given to a student who also demonstrates a combination of a strong ability to communicate and empathize with patients, school spirit or who actively engages in community service. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on the recommendation of the Dean of the School of Pharmacy.

Donald F. Rowe Leadership Award in Pharmacy
This award was established by a generous donation from the friends and colleagues of Mr. Donald F. Rowe, in honour of his longstanding commitment to the profession of pharmacy. Through his leadership and service Donald Rowe helped to shape much of the landscape of the pharmacy profession in Newfoundland and Labrador and beyond. Mr. Rowe had a distinguished career as a pharmacist and served for over 18 years as Secretary-Registrar to the Newfoundland and Labrador Pharmacy Board and was a steadfast champion of pharmacy education at the Memorial University of Newfoundland School of Pharmacy. Valued at a portion of the income from the endowment, the award will be granted annually to a student in the Bachelor of Science (Pharmacy) program who demonstrated extraordinary leadership qualities through volunteer or academic initiatives that aim to advance the profession of pharmacy. The recipient must meet the minimum academic requirements for an award as defined by the Memorial University. The award will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of the School of Pharmacy.

Sandoz Canada Inc. Scholarship/Bursary
Sandoz Canada Inc. offers annually three awards of $500.00 each which are open to all students enrolled in the School of Pharmacy. They are to be awarded to students of good academic standing with a aptitude for Pharmacy. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Pharmacy.

School of Pharmacy Class of 2006 Entrance Award
This award was established by generous donations from the members of the School of Pharmacy Class of 2006. The Class of 2006 was the first class to be interviewed for admission and was also the initiators of the Atlantic Pharmacy Advancement Conference. Valued at $200, it will be awarded annually to the student entering the Bachelor of Science (Pharmacy) program at Memorial University of Newfoundland's School of Pharmacy who receives the highest non-academic admission ranking. In the event there is more than one suitable candidate the award will be equally divided between the candidates. The recipient must meet the minimum academic requirements for an award as defined by Memorial University of Newfoundland. This award will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Pharmacy.

Sandoz Canada Inc. Scholarship/Bursary
Sandoz Canada Inc. offers annually three awards of $500.00 each which are open to all students enrolled in the School of Pharmacy. They are to be awarded to students of good academic standing with a aptitude for Pharmacy. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Pharmacy.
The School of Pharmacy Class of 2011 Legacy Award
The School of Pharmacy Class of 2011 Legacy Award has been established by contributions from members of the Class of 2011. The Award is established to celebrate the bonds of friendship between members of the class. It also recognizes the class’ belief in the value of providing service to the School of Pharmacy and the profession. The Award will be presented annually to an undergraduate student who has completed the third year of the Bachelor of Science (Pharmacy) program. The Award is given to a student who has demonstrated professionalism throughout their program, has served on at least one School of Pharmacy committee and has been engaged in service activities that advance the community or the profession. The student must also meet the minimum academic requirements for an award. The Award, valued at $200 annually, will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean of the School of Pharmacy.

The School of Pharmacy Silver Anniversary Scholarship
The School of Pharmacy Silver Anniversary Scholarship was created to celebrate the accomplishments of the School of Pharmacy’s alumni, faculty, staff and students on the 25th anniversary of the School’s founding in 1986. The Scholarship will be awarded annually to a maximum of two undergraduate students entering the Bachelor of Science (Pharmacy) program at the School of Pharmacy. It will be awarded to the highest ranked students based on academic achievement and admission requirements. The student must also meet the minimum academic requirements for a scholarship. It is valued at a portion of the income on the endowment and will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean of the School of Pharmacy.

The Lyndsey Anne Antle Award in Social Work
This award is being established by the family of Lyndsey Anne Antle who was a student in the School of Social Work at Memorial University of Newfoundland and would have graduated on May 26, 2006. Unfortunately this did not happen. She was struck by a vehicle on June 19, 2005 and passed away as a result of severe injuries on June 22, 2005. Lyndsey strived for excellence in everything she did and truly believed in giving her all to work, family, friends and anyone who needed a helping hand. Her natural wisdom, warmth and strong conviction to helping others made her a great human being and she would have made a wonderful social worker. This award is established to celebrate the bonds of friendship between members of the class. It is also recognized the class’ belief in the value of providing service to the School of Pharmacy and the profession. The Award will be presented annually to an undergraduate student who has demonstrated professionalism throughout their program, has served on at least one School of Pharmacy committee and has been engaged in service activities that advance the community or the profession. The student must also meet the minimum academic requirements for an award. The Award, valued at $200 annually, will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean of the School of Pharmacy.

5.12 School of Social Work
The following are available to students in the School of Social Work based on the recommendation of the Dean.

The Alcohol and Drug Dependency Commission Commemorative Awards
These awards have been established to commemorate the Alcohol and Drug Dependency Commission (1982-1992). In an effort to promote the pursuit of addictions studies in various disciplines, it is hoped that recipients will pursue careers in addiction-related fields. Up to three awards, valued at $750.00 each, are available annually and open to students who have completed a major or published paper at the undergraduate or graduate level or are completing an Honors Dissertation on addictions issues. It will be awarded on a rotating basis to students in Pharmacy, Nursing, Medicine, and Social Work with a Faculty or School receiving only one award in any given year. These awards will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean/Director/Head of the respective Faculty or School.

The Lyndsey Anne Antle Award in Social Work
This award is being established by the family of Lyndsey Anne Antle who was a student in the School of Social Work at Memorial University of Newfoundland and would have graduated on May 26, 2006. Unfortunately this did not happen. She was struck by a vehicle on June 19, 2005 and passed away as a result of severe injuries on June 22, 2005. Lyndsey strived for excellence in everything she did and truly believed in giving her all to work, family, friends and anyone who needed a helping hand. Her natural wisdom, warmth and strong conviction to helping others made her a great human being and she would have made a wonderful social worker. This award is established to celebrate the bonds of friendship between members of the class. It is also recognized the class’ belief in the value of providing service to the School of Pharmacy and the profession. The Award will be presented annually to an undergraduate student who has demonstrated professionalism throughout their program, has served on at least one School of Pharmacy committee and has been engaged in service activities that advance the community or the profession. The student must also meet the minimum academic requirements for an award. The Award, valued at $200 annually, will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, School of Social Work.

Marcella M. Besaw Memorial Volunteer Award
This award has been established by the family of Marcella M. Besaw (1953-2010). Mrs. Marcella Besaw was known for her generosity to others and her service to her community. This scholarship is valued at $200.00 annually and will be awarded to a student entering the Bachelor of Social Work (B.S.W.) as a Second Degree program. The recipient must have demonstrated outstanding commitment to the service of humanity through involvement in volunteer/work experience relevant to the study of social work. The recipient must meet the...
minimum academic requirements for an award as defined by the University. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, School of Social Work

The Jackie Brown Memorial Social Work Scholarship
This scholarship has been established in the memory of Jackie Brown, a dedicated social worker who was an activist for social justice. Valued at $500.00 annually, it will be awarded to a full-time undergraduate social work student who best epitomizes Jackie's commitment and energy to creating positive change related to a social justice issue in his/her community. The award, however, is not necessarily intended for the student with the highest academic standing. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, School of Social Work.

The Christopher & Donna Cox Scholarship
This scholarship was established through a generous contribution by Dr. Donna Hardy Cox and Dr. Christopher Cox, is valued at $500 per annum. Drs. Donna Hardy Cox and Christopher Cox, both alumni of Memorial University of Newfoundland, have established this scholarship in gratitude for their well-rounded student life and academic experiences. To be eligible, candidates must be full-time undergraduate students. The scholarship will be awarded annually on a rotating basis between the School of Social Work and the Faculty of Medicine, beginning with the latter. In Medicine, the Scholarship will be awarded to a graduating M.D. student who has a strong academic record and who has expressed an interest in specializing in Oncology. In the School of Social Work it will be awarded to a graduating B.S.W. student who is in scholarship standing and who has made the greatest contribution to student and community leadership. The scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, based on the recommendation of the Dean/Director of the appropriate discipline.

Brendan Kelly Memorial Internship Award for Social Work
This award was established by Kim Kelly and Mike Maher, graduates of Memorial University of Newfoundland, and members of the Kelly family, to honour Kim's brother Brendan who died by suicide in 2000. Having achieved his Bachelor of Arts at Memorial University of Newfoundland, Brendan was actively engaged in residence life and the University Catholic Community. Brendan was dedicated to hard work in his studies, volunteer initiatives and part-time employment. Valued at $500. It will be awarded annually to a social work student completing a placement in a rural area in the area of mental health and/or addictions. Preference will be given to those who are completing an internship in the area of mental health or have expressed an interest in the area of mental health. Financial need may be given consideration. Recipients must meet the minimum academic requirements for an award. This award will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Social Work.

Victoria Legge Award for Spiritual Leadership
This award was established by Chi Alpha Christian Fellowship, Mosaic University Chapel and the School of Social Work to honour Victoria Legge (1990-2013), a graduating B.S.W. student of the Class of 2013. Victoria was an executive member of Chi Alpha and an active member of Mosaic University Chapel. She developed her character and became a leader through active involvement with Emmanual Pentecostal Tabernacle in Deer Lake and later at Mosaic University Chapel. Known as a positive, optimistic and socially conscious person, Victoria wished to make a difference in her community. Valued at $300, the award will be granted annually to a full-time student graduating with a Bachelor of Social Work (B.S.W.) in the year in which the application is submitted. The recipient must meet the minimum academic requirements for an award as defined by Memorial University of Newfoundland. Preference will be given to a student who has demonstrated a commitment to social justice and service to humanity and/or the environment through involvement in faith activities and spiritual leadership. An application is required which is available at the School of Social Work. The award will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Social Work.

The Memorial University of Newfoundland Social Work Scholarship
This scholarship, at a value of at least $350.00, is awarded annually to a Social Work major enrolled in full-time study at Memorial University of Newfoundland. In the awarding of this scholarship, scholastic standing and financial need will be taken into account. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of Social Work and may be renewed in a subsequent year.

The Professor John S. Morgan Scholarship
This scholarship has been named in honour of the late Dr. John S. Morgan, an honorary graduate of the University who served as Visiting Professor of Social Work during the 1976-77 academic year. It is valued at $500.00 per annum and will be awarded on the basis of academic merit to an undergraduate student enrolled in the School of Social Work. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of the School.

Rick Morris Memorial Bursary
This bursary was established in memory of Rick Morris by his family and friends. Rick was a caring individual who was deeply committed to Newfoundland and worked with a variety of individuals, organizations, and government. He was a mentor to many helping professionals, who regularly sought his counsel on personal and professional issues. He was deeply concerned with violence against individuals, particularly women, children, and the survivors of Mount Cashel. He was involved in the establishment of Unified Family Court's mediation services and frequently collaborated with the aboriginal and senior's communities. The bursary, valued at a portion of the income from the endowment and will be awarded annually to a student who is in financial need and meets the minimum academic requirements for a bursary. It will be awarded on a rotating basis to a student enrolled in one of the following academic areas: Year 1- School of Social Work, Year 2- Faculty of Education, Year 3- School of Human Kinetics and Recreation, Year 4- Department of Gender Studies and Year 5- School of Nursing. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Head of the Unit for which the bursary is being awarded.

Mary Florence Mugford (Lane) Memorial Award for Social Work
This travel award was established by the family of Mary Florence Mugford (Lane) to honour their mother as a woman who persevered in life. This award is valued at a portion of the income from the endowment and will be awarded annually. The recipient will be a graduate of a high school outside of the St. John's Metropolitan area. The recipient will be a student enrolled in one of the following areas: Year 3- School of Social Work, Year 4- Sociology, Year 5- Social Work. The recipient will be awarded the awards on the recommendation of the Dean of the School of Social Work.

The John J. Murphy Scholarship in Social Work
This scholarship, valued at $500.00, is awarded annually to a student who has achieved academic excellence upon completion of the first year of the Social Work program. The award, however, is not necessarily intended for the student who has received the highest average in this category. It is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, School of Social Work.

The Elizabeth A. Newlands Memorial Scholarship in Social Work
This scholarship has been named to honour the late Mrs. Elizabeth Newlands, one of the first graduates of the B.S.W. Program as Memorial University of Newfoundland. Valued at a minimum of $1,000.00 annually, it will be awarded on the basis of academics to either
a graduate or undergraduate student enrolled in the School of Social Work. If granted to an undergraduate the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. If awarded to a Graduate Student, it will be awarded by the Dean, School of Graduate Studies. In either case the scholarship will be awarded on the basis of an appropriate recommendation from the Dean, School of Social Work.

The Dr. J. Victor Thompson Scholarship in Social Work
This scholarship, valued at not less than $650.00 is awarded annually to a full-time Social Work student upon completion of at least 90 credit hours in Social Work and other courses at Memorial University of Newfoundland. The award will be made on the basis of academic excellence by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, acting on the recommendation of the Dean, School of Social Work.

Undergraduate Aboriginal Award in Professional Studies
The Undergraduate Aboriginal Award in Professional Studies was established by Mr. Alan Rowe (B.Com. ‘78) through a generous donation to the Dare To: The Campaign for Memorial University. To be eligible, candidates must be Aboriginal students from Labrador or the Territories of Canada who are enrolled full-time, and have clear academic standing. Preference will be given to students who have demonstrated financial need. Awarded upon entrance to an eligible undergraduate professional program, the Award is valued at $2,500 per year and is renewable for three additional years assuming the recipients maintain clear academic standing and full-time enrollment. Two recipients will be selected each year on a rotating basis, between the Faculties of Business Administration, Engineering and Applied Science, Medicine, and Education and the Schools of Nursing, Pharmacy, and Social Work. If a successful candidate is not recommended by the discipline on rotation in a given year an eligible student from one of the other disciplines may be awarded the scholarship for that year. The Awards are granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards with input from the Aboriginal Resource Office, and on the recommendation of the Deans of the appropriate academic units.

Lorna Weafer Award in Social Work
This award was established in memory of Lorna Weafer. Lorna’s warmth and compassion knew no bounds; she absolutely adored children and volunteered as a Big Sister. Valued at a portion of the income on the endowment, it will be awarded annually to a full-time student in the Bachelor of Social Work program who best epitomizes Lorna’s passion for work with children and adolescents, and who demonstrates active community leadership or mentorship. Preference will be given to a mature student as defined by Memorial University of Newfoundland. The recipient must meet the minimum academic requirements for an award. This award will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Social Work.

6 Scholarships, Bursaries, and Awards Administered By the Senate Committee on Undergraduate Scholarships, Bursaries and Awards for Which Undergraduate Students Attending the Grenfell Campus at Corner Brook May Qualify

Although students on the Corner Brook campus are eligible for other awards listed in this Calendar, the following awards are tenable specifically at Grenfell Campus:

The Fred Aldrich Science Scholarship
This scholarship, established by the Corner Brook and Area Branch of the Alumni Association of Memorial University of Newfoundland, is awarded annually to a student at Grenfell Campus who is in the fourth semester of full-time study, who has accumulated at least 45 credit hours, and who is registered in a science program at Memorial University of Newfoundland. The scholarship may be held at either Corner Brook or St. John’s. Valued at $1,000.00, the award is made on the basis of outstanding academic performance. The scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Scholarship Committee at Grenfell Campus and the Head of Science at the Campus.

The John Ashton Folklore Award
This award has been established by the Social / Cultural Studies Program at Grenfell Campus of Memorial University of Newfoundland in honour of Dr. John Ashton, folklorist, professor, principal, and mentor. Valued at $150 per year, it will be awarded to a major / minor student in Social / Cultural Studies or one of the Cognate disciplines who has shown excellence in his / her folklore classes over the previous two years. The award will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Chair of the Social / Cultural Program, Grenfell Campus.

The Dr. John Ashton Travel Award
This award was established by his wife Sheila and son Darby through generous contributions made in his memory by his family, friends and colleagues. John Ashton was the Principal of Grenfell from 2005 until his passing in 2008. He was a pivotal figure in the evolution of Grenfell and was also an internationally recognized, prize-winning scholar in his chosen field of Folklore. Valued at a portion of the income on the endowment, the award will be given annually to an undergraduate student at Grenfell Campus who meets the minimum academic requirements for an award as defined by Memorial University of Newfoundland and wishes to travel for academic purposes. Preference will be given to a student with demonstrated financial need and/or who is facing other barriers, such as a disability, for which the funding would help to overcome obstacles to participate in academic travel opportunities. A special application form is required and may be obtained from the Student Services Office, Grenfell Campus, Room AS234 or by calling (709) 637-6249. The award will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the collective recommendation of the Division of Heads, Grenfell Campus.

Belize Travel Award
This award, valued at $1000 for study in Belize, has been established by Dr. Michael Newton. This award is open to students enrolled at the Grenfell Campus of Memorial University who wish to gain international experience by doing university or field courses in Belize. Students should be beyond their 1st year of study, meet the minimum academic requirements of clear standing and be recommended by the faculty in their area of study. This award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the scholarship committee at Grenfell Campus in consultation with faculty.

Marcella M. Besaw Memorial Award for International Students
This award has been established by the family of Marcella M. Besaw. Mrs. Marcella Besaw (1953-2010) often opened her home to International students at Grenfell Campus where her son attended, and treated them as extended family. It is valued at $200.00 annually and will be awarded to a full-time international student beyond their first year of studies at Grenfell Campus. The recipient would have demonstrated an involvement in student life, both within the international student community and within the overall student body. The students must meet the minimum academic requirements for an award as defined by the University. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the scholarship committee at Grenfell Campus.
The Katy Bindon Scholarship
This scholarship, one or more valued at $1,000.00 each annually, was created by friends of Dr. Katy Bindon with the assistance of the local branch of the Memorial University of Newfoundland Alumni Association and colleagues at Grenfell Campus. It was created to mark the contribution that Dr. Bindon made at the college during her tenure as its Principal from 1991-1997. The scholarship is to be awarded to an entering his or her fourth year in any degree program offered at Grenfell Campus. The recipient should have combined academic excellence with an outstanding contribution to student life at Grenfell Campus. The scholarship is to be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Scholarship Committee at Grenfell Campus.

The Breakwater Folklore/Folklife Series Award
The Breakwater Books Folklore Prize is awarded annually for outstanding student performance in undergraduate folklore courses at Grenfell Campus. It is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Head of Social Science at the Campus in consultation with Folklore Faculty.

Edward P. Browne Scholarship
This scholarship was established by individuals of membership of faculty, staff and student body of Grenfell Campus in memory of the late Edward P. Browne. Professor Browne was Co-ordinator of Physical Education and Recreation at Grenfell Campus from its opening until 1982. The scholarship will be open to all full-time students who are in their second year and beyond. The award will be made annually by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Scholarship Committee at Grenfell Campus. The recipient must meet the academic criteria for a scholarship as defined by the Scholarship Committee. Preference will be given to a student with leadership or community involvement.

CIBC Bursaries
The CIBC Bursary Program was established by a gift from CIBC to Dare To: The Campaign for Memorial University. These bursaries, available to students in the Faculty of Business Administration (St. John's Campus) and the Department of Business (Grenfell Campus), will be awarded to full-time undergraduate students in either their first or second year of studies who meet the academic criteria for a bursary. The scholarship will be awarded annually to one student and dependent on available funds, evidence of leadership or community involvement will also be considered. These Bursaries are valued at $2,500, and are renewable for one additional year, provided the recipient meets the minimum academic requirement for a bursary. The Bursaries will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on recommendation of the Dean, Faculty of Business Administration or on recommendation of the Scholarship Committee at Grenfell Campus, as appropriate. Applications are available in the Faculty of Business Administration (St. John's Campus) or the Department of Business (Grenfell Campus), and are due in October of each year.

The Canadian Beverage Association Scholarship
This scholarship was established by a generous donation from the soft drink industry of Newfoundland and Labrador. Valued at a portion of the income on the investment, it will be awarded annually to students in the Division of Fine Arts at Grenfell Campus. The recipient must meet the minimum academic requirements for a scholarship as defined by the Scholarship Committee of Grenfell Campus. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Scholarship Committee at Grenfell Campus. The recipient must meet the minimum academic requirements for a scholarship as defined by the Scholarship Committee. Preference will be given to students in the Division of Fine Arts at Grenfell Campus.

Canadian Coast Guard Newfoundland Region Alumni Association Bursary
This Bursary is made possible by the Canadian Coast Guard Alumni. Valued at $500.00 annually, it will be awarded to a 2nd year Visual Arts student who excels in drawing and painting. Financial need will also be taken into consideration. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on recommendation of the Scholarship Committee at Grenfell Campus in consultation with the Chair of Environmental Science.

Canadian Society for Chemistry Silver Medal
This medal is presented annually to the student at Grenfell Campus with the highest average in third-year Environmental Chemistry courses. The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Head, Division of Fine Arts.

The Nicola Carlson Memorial Award
The Nicola Carlson Memorial Award is presented in honour of Mrs. Nicola Carlson, a Memorial University of Newfoundland alumnus and Grenfell Campus employee. The award will be presented annually to a Western Regional School of Nursing student who has demonstrated skills in or has expressed a desire for future education in the fields of oncology nursing or palliative care nursing. The student must meet the minimum academic requirements for an award. The award is presented by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Director of the Western Regional School of Nursing.

The City of Corner Brook J.R. Smallwood Scholarship
This scholarship was established in 1991 by the City of Corner Brook to honour the Honourable Joseph R. Smallwood, first Premier of Newfoundland, who contributed significantly to the educational and cultural development of Newfoundlanders. This fund, donated by the City is a tangible mark of the support given by the City to Grenfell Campus since the Campus opened in Corner Brook. The scholarship valued at $1,000.00 will be awarded to a student who is a resident of the City of Corner Brook in the final year of high school who is proceeding to Grenfell Campus. The scholarship will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, acting on the recommendation of a special selection committee appointed by the Principal, with a representative from City Council.

Corner Brook Pulp and Paper Limited Scholarships
From funds donated annually by Corner Brook Pulp and Paper Limited, a number of scholarships are available to students attending Grenfell Campus, valued from $250.00-$500.00 each, available to students in any faculty or year of study. The awards will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on recommendation of the Scholarship Committee at Grenfell Campus.

The Cottage Crafts Association Scholarship
This scholarship is supported by the interest on $5000.00 donated by Cottage Crafts Association, Corner Brook. It is awarded to a student in Fine Arts at Grenfell Campus. Preference will be given to a student with an interest in fibre arts, including costume design, textile design or textile manufacturing. The scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation from the Grenfell Campus.

Division of Fine Arts Mercy/Presentation Education Fund Award
These awards, valued at between $1000 and $2000, have been established by the Mercy/Presentation Education Fund to assist students with extra-curricular projects that will enhance their education. These awards are open to students enrolled at the Grenfell Campus of Memorial University of Newfoundland in the Visual Arts or Theatre Arts program. Students must have clear academic standing and complete an application. Applications will be available at the Scholarship's Office, Grenfell Campus. The awards will be
made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head of Division, Chair of Visual Arts and Chair of Theatre Arts and the scholarship committee at Grenfell Campus.

Tina Dolter Award in Visual Arts
This award was established by the friends of Tina Dolter in her memory. Valued at a portion of the income on the endowment, it will be awarded annually to a student enrolled full-time or part-time in the Fine Arts Program, who is in good academic standing at Grenfell Campus. Preference will be given to a student who is focused on painting. The recipient must meet the minimum requirements for an award as defined by Memorial University of Newfoundland. The award will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Scholarship Selection Committee, Grenfell Campus, that will receive a recommendation from the Head of the Division of Fine Arts.

The James Alexander Doull Memorial Scholarship in Humanities
This scholarship was established by Professor Floy Andrews Doull, to honour the memory of James Alexander Doull, teacher, colleague and friend. This scholarship, valued at a portion of the annual accrued interest, will be awarded annually to a student registered full-time in the Humanities Program at Grenfell Campus. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Chair of Humanities, Grenfell Campus.

Craig Dobbin Memorial Scholarship for Master of Business Studies at the Waterford Institute and Memorial University of Newfoundland
This scholarship has been established by Mr. Pat O’Callaghan, the Ireland Business Partnership, the Ireland Newfoundland Partnership, the Provincial Department of Education, and Craig Dobbin family members in memory of Mr. Craig Dobbin. It will be awarded on an annually rotating basis to students at The Waterford Institute of Technology (WIT) and Memorial University of Newfoundland. In year one, and every alternating year thereafter, the scholarship will be awarded to a recent honors graduate (in the past 2 to 3 years) of one of the undergraduate business programs in the Faculty of Business Administration program or Grenfell Campus, Memorial University of Newfoundland, who is accepted into the Master of Business program, at the Waterford Institute of Technology, Waterford, Ireland. In the event that there is no such candidate, the scholarship will be awarded to two Memorial University of Newfoundland exchange students (undergraduate or graduate) to study (one academic term) at the Waterford Institute of Technology. In year two, and every alternating year thereafter, the scholarship will be awarded to an undergraduate student at the Waterford Institute of Technology, who will be selected to attend Memorial University of Newfoundland’s Faculty Business Administration’s M.B.A. program. In order for a WIT student to complete the program in one year, they must have an honors undergraduate business degree, or a business degree with significant academic standing. The student must report on the privatization of the endowment, and present a report and performance and have contributed to the spirit of student life within the Psychology program. This prize, valued at $500, will be awarded annually to a student enrolled full-time or part-time in the Fine Arts Program, who is in good academic standing at Grenfell Campus. Preference will be given to a student who is focused on painting. The recipient must meet the minimum requirements for an award as defined by Memorial University of Newfoundland. The award will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Scholarship Selection Committee, Grenfell Campus, that will receive a recommendation from the Head of the Division of Fine Arts.

Dr. Wynanne Downer Award for Women
This award was established by the Canadian Federation of University Women, Corner Brook Club, in memory of Dr. Wynanne Downer who was a founding member. Valued at a portion of the income on the investment, it will be awarded annually to a female student who attended a high school in Newfoundland and Labrador and who is pursuing a degree at the Grenfell Campus. Preference will be given to a female student who entered university as a mature student (twenty-one years or older) and is beyond her first year of studies. The recipient must meet the minimum requirements for an award as defined by Memorial University of Newfoundland. The award will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Scholarship Selection Committee, Grenfell Campus, that will receive a recommendation from the Chair of Humanities, Grenfell Campus.

The Environmental Science Merit Scholarship
One Merit Scholarship, valued at $2,500.00 annually will be awarded to an outstanding student entering the fourth year of the Environmental Science program at Grenfell Campus. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Chair of Environmental Science, Grenfell Campus.

Duncan A. Ferguson Prize in Psychology
This prize was established by family, friends and colleagues in memory of Dr. Duncan A. Ferguson. It will be awarded annually to a student in his/her final year of a Psychology program at Grenfell Campus. The chosen student will have demonstrated strong academic performance and have contributed to the spirit of student life within the Psychology program. This prize, valued at $500, will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Chair, Psychology program, Grenfell Campus, in consultation with the Psychology faculty and the Ferguson family.

The Madeline Fowler Prize in English
This prize, valued at $200.00, is in memory of Madeline Fowler. The prize is normally awarded to a senior student in the B.A. Specialization in English engaged in full-time studies at Grenfell Campus. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Program Chair of English at the Grenfell Campus.

The Dr. G.A. Frecker Memorial Alumni Bursaries
The Memorial University of Newfoundland Alumni Association has established, from its Annual Fund, five bursaries named in honour of the late Dr. G.A. Frecker, Chancellor, Memorial University of Newfoundland, 1971-79, and valued at $500.00 each. Four of the bursaries are tenable at the St. John’s campus and one at the Grenfell Campus at Corner Brook. The bursaries will be awarded annually to full-time undergraduate or graduate students on the basis of academic standing and financial need.

The David Freeman Memorial Scholarship in English
This scholarship honours Dr. David Freeman, a widely admired Grenfell English professor whose scholarship and zest inspired a wide circle of students, friends and colleagues. A well-known scholar of the editing of Renaissance literary texts, Dr. Freeman took his scholarship out of the classroom to enliven a broad range of presentations, public readings and dramatic performances. This scholarship is made possible through the family of Dr. Freeman and the efforts of the English faculty at Grenfell Campus, Memorial University of Newfoundland, and friends of Dr. David Freeman. Valued at a portion of the income on the investment, it will be given annually to an English Major in his/her second year of study pursuing a Bachelor of Arts in English at Grenfell Campus, who meets scholarship standing as defined by the University and shares Dr. Freeman’s passion for literature. It will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Scholarship Selection Committee of the Grenfell Campus scholarship committee in consultation with the Chair, English.
The Joanne Swan Greenlee Prize in Historical Studies
This prize, valued at $500.00 will be awarded in memory of Joanne (Swan) Greenlee, who, for two decades, delighted in the hearty appetites and lively conversation of Grenfell Campus students who gathered to discuss history at her home. It will normally be awarded to a full-time senior student, at Grenfell Campus, majoring in Historical Studies who displays outstanding cumulative merit in four History courses during the academic year. This prize will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Chair of Historical Studies.

Grenfell Campus, Memorial University of Newfoundland and Labrador Residence Scholarship
This scholarship, valued at $500.00, is available to a student who has spent at least two semesters in residence at the Grenfell Campus. Academic performance and contribution to college life will be the main criteria for choosing the recipient. The scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation from the Scholarship Committee at Grenfell Campus.

Grenfell Campus Scholarship Fund
Funds are available for the purpose of providing scholarships to students at Grenfell Campus. The scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation from the Scholarship Committee at Grenfell Campus. Financial need may be taken into account when making the awards.

The Rufus Guinchard Entrance Scholarship
This scholarship has been established by the Newfoundland government in honour of the late Rufus Guinchard. The award, valued at $2,000.00, is presented annually to a student entering Grenfell Campus, who has demonstrated a commitment to the preservation of Newfoundland heritage and culture. This commitment may be reflected in Newfoundland music, folklore, art or writing. Applicants for the Rufus Guinchard Scholarship should submit, with their application, either a statement of their interests relevant to this scholarship, or a completed piece of work. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, based upon the recommendation of the Scholarship Committee at Grenfell Campus.

The Ida Harvey Scholarship
This scholarship, in memory of Ida Harvey, is supported by a fund established in 1988 on the occasion of the opening of the Fine Arts Building. It is awarded on merit to any student in a Bachelor of Fine Arts Program by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Scholarship Committee at Grenfell Campus.

Historical Studies Merit Award
This book prize is awarded to a student who has made an outstanding contribution to the life of the Historical Studies Program at Grenfell Campus. The faculty of that program will fund the prize. It is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Historical Studies Faculty.

The E.J.F. Hodgett Scholarship in Science
This scholarship was established by friends and colleagues of Professor Ferriss Hodgett on the occasion of his retirement, in celebration of his outstanding contributions and service to Memorial University of Newfoundland, and in particular Grenfell Campus. Professor Hodgett, a native of Belfast, in the north of Ireland, served as Vice-Principal of Grenfell College from 1975-1992. This scholarship, valued up to two semesters’ tuition, will be awarded to the student entering second year at Grenfell Campus who has attained scholarship standing and has received the second highest overall average in his/her first year having completed at least four courses in the Natural Sciences. The award shall be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on recommendation of the Scholarship Committee of Grenfell Campus.

The Gervase C. Hollander Prize in Biology
This prize was established in 1982 by Mrs. Hollander in memory of her husband, a former teacher and school supervisor with the Humber-Bay St. George Roman Catholic School Board. Valued at approximately $100.00, it is awarded annually to a second-year student who has completed three or more courses in Biology beyond the first year and who have demonstrated excellence and initiative in both the theoretical and practical aspects of Biology. The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head of Science at Grenfell Campus.

The Imperial Tobacco Canada Fine Arts Scholarship
This scholarship, established in 1998 by Imperial Tobacco Canada in support of the Opportunity Fund Campaign, has a minimum value of $2,000.00 annually. It will be awarded on the basis of scholarship standing to a full-time student in the Bachelor of Fine Arts who shows the potential to contribute to the arts in the field. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Scholarship Committee at Grenfell Campus in conjunction with the Head, Division of Fine Arts.

The F.L. Jackson Award in Philosophy
F.L. Jackson taught Philosophy at Memorial University of Newfoundland for twenty-nine years, for nine years serving as Head of the Department. Professor Jackson conceived the Department of Philosophy as a window on the grand tradition of philosophy, especially for Newfoundlanders, and it is this spirit which animates philosophy at Grenfell Campus. The F.L. Jackson Award will be given to students whose written work is distinguished by its appreciation of the history of philosophy. Generally there will be one award granted per academic year. It will be valued at a minimum of $100 and will be awarded to a student in any year of study. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Scholarship Committee at Grenfell Campus and in consultation with the Philosophy faculty.

The Olof Lindgren Scholarship
This scholarship, the value of which will be determined by the annual interest accrued, is supported by a fund established by Dr. Orvil Olsen, a former Professor of Biology at Grenfell Campus, in memory of his grandfather Olof Lindgren, a Saskatchewan pioneer farmer, who was a firm believer in the value of education as a means of enhancing the quality of life. It is awarded to a student who has completed at least two years at Grenfell Campus and plans to proceed with the full degree on that campus. In awarding the scholarship, preference will be given to a student who has shown an interest in both the natural and physical sciences, and the arts. This award is based upon academic excellence. This scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Scholarship Committee at Grenfell Campus.
The William and Naomi Lundrigan Scholarship
The William and Naomi Lundrigan Scholarship shall be awarded to an entrance student attending Grenfell Campus, Corner Brook. Two scholarships valued at a portion of the income on the endowment will be awarded annually. The recipients must meet the minimum academic requirements for a scholarship as defined by Memorial University of Newfoundland and consideration may be given to financial need. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Scholarship Selection Committee at the Grenfell Campus.

The Kathleen Wagstaff MacCallum Memorial Scholarship
This scholarship, established by the MacCallum family in honour of their mother, Kathleen. Valued at the annual interest, it will be awarded to a Fine Arts student beyond first year at Grenfell Campus who is specialising in Visual Arts. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Scholarship Committee at Grenfell Campus in consultation with the Head, Division of Fine Arts. Factors such as financial need, family and community involvement, and contribution to the class may also be taken into account.

Colin Macnee Award for Drawing
This Award, in memory of Colin Macnee (1959-1989) was established by his family as a tribute to his life and work. He is remembered by friends and fellow artists for the unique and positive way he reached out to people as both an individual and an artist. Educated in Britain and Newfoundland, he worked in St. John’s up until the time of his death. Examples of his art can be found in private and public collections, including those of Memorial University of Newfoundland (through MUN Art Gallery) and the Government of Newfoundland and Labrador’s Art Bank. It will be awarded to a student who has completed their first year of the B.F.A. (Visual Arts) program at Grenfell Campus and, in the opinion of the awards committee for visual arts (where possible including a visiting artist), has demonstrated achievement in self-expression through the medium of drawing. The Award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Scholarship Committee at Grenfell Campus.

The Maxim Mazumdar Memorial Scholarship in Theatre
This scholarship is supported by a fund established by Theatre Newfoundland and Labrador in memory of Maxim Mazumdar, founding Artistic Director. It is awarded to a Grenfell Campus student who has completed the first year in the Theatre Degree Program and who has shown the most promise in any area of the Program. This scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Scholarship Committee at Grenfell Campus.

Mercy/Presentation Education Fund Environmental Science Award
This scholarship was established by a generous donation from Mercy/Presentation Education Fund to support the Environmental Science program at the Grenfell Campus of Memorial University of Newfoundland. Valued at $1,000, this award will be granted to a fourth year Environmental Science student who is engaged in supervised undergraduate research (environmental experimental lab or field work) and has maintained a minimum of 70% average up to the end of third year in all environmental science program courses, including Ocean, Biology and Earth Systems. The recipient will not be eligible for other environmental science scholarships or awards in the same year (their fourth year). The recipient must have demonstrated financial need as well as meet the minimum academic requirements for an award. This award will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Environmental Science Scholarship Committee.

The Dr. M.O. and Grace Morgan Scholarship in Fine Arts
This scholarship is the result of an endowment to Memorial University of Newfoundland from the estate of Dr. and Mrs. Morgan. Valued at a portion of the annual accrued interest, it will be awarded to a Fine Arts student beyond first year at Grenfell Campus. It will rotate annually between Visual Arts and Theatre Arts. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Scholarship Committee at Grenfell Campus in consultation with the Head, Division of Fine Arts.

Moving Forward Together Campaign Award
This award was established by two generous donations as a part of the Moving Forward Together Campaign by the Sisters of Mercy of Newfoundland and the Presentation Sisters of Newfoundland and Labrador. Moving Forward Together is a Canada-wide campaign to bring fundamental and lasting change to Aboriginal communities in Canada by supporting healing and educational programs. Valued at $1,800, it will be awarded to an undergraduate Aboriginal student beyond their first year of studies at Memorial University of Newfoundland. There will be one Award annually at each of the St. John’s and Grenfell Campuses. The Award is renewable for an additional two years. The student must meet the minimum academic requirements for an award as defined by Memorial University of Newfoundland. This Award will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. An application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships.

The Maxim Mazumdar Memorial Scholarship in Theatre
This scholarship is supported by the interest on monies donated by Maxwell and Emily (Wicks) Mullett. It is awarded to a student in the final year of studies in Visual Arts at Grenfell Campus on the basis of achievement and promise. Preference is given to Newfoundland and Labrador students. The scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Scholarship Committee at Grenfell Campus.

The Orvil Olsen Biology Prize
This prize was established to commemorate the tenth anniversary of the opening of Grenfell Campus. It is valued at approximately $100.00 annually. Dr. Olsen taught Biology at the College from its opening until his retirement in 1980. The prize will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Head of Science at Grenfell Campus to an outstanding student of first year Biology.

The Florence O'Neill Scholarships
An endowment donated to the University by Florence O'Neill, Ed.D., C.M., LL.D., honorary graduate of Memorial University of Newfoundland, distinguished for her contribution to the fields of adult education and community development, will fund annual scholarships valued up to $1,000.00 each. These awards will be made available to full-time undergraduate students, preferably to those from rural Newfoundland and Labrador, on the basis of scholarship standing. One shall be given annually to a student attending the Grenfell Campus in Corner Brook.

The Raymond J.G. Pafford (1937-1997) Memorial Scholarship
This scholarship, established in 2000 by Mrs. Roberta Pafford, in memory of her husband Raymond, is valued at the annual interest on an endowment. It will be awarded on the basis of scholarship standing to a full-time student in any year of study of the Bachelor of Fine Arts program who shows promise and plans to continue in the field. It will rotate annually between the disciplines of Theatre Arts and Visual Arts. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Scholarship Committee at Grenfell Campus in conjunction with the Head, Division of Fine Arts.

The Palliser Prize in History
This prize is in honour of Captain Hugh Palliser, RN, Governor and Commander-In-Chief at Newfoundland from 1764 until 1768; in 1764 he became the first governor to visit western Newfoundland. It is awarded annually to a full-time student beyond first year who has achieved the highest standing in his/her field of study in the field of History.
earned no more than 90 credit hours and has earned the highest cumulative average in at least five History courses. This student would normally be studying towards a degree or minor in Historical Studies. The prize is valued at $250.00 and will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on recommendation of the Scholarship Committee at Grenfell Campus and the members of the Historical Studies program. In the event that no student qualifies in any given year the award will not be given.

**The Pausanias Award in Classics for Study Abroad**

Named for the second century traveller and geographer, this award is available to students at Grenfell Campus who enroll in field study courses in the culture, history and/or civilization of ancient Greece or Rome. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Scholarship Committee at Grenfell Campus in consultation with the Head, Division of Arts at the Campus.

**Al Pittman Harlow Travel Award**

The Al Pittman Harlow Travel Award has been established in his memory by Al Pittman’s friends and family. Mr. Pittman was one of Newfoundland’s most esteemed poets and playwrights and he believed that observing the different helps us to see the familiar in a new light. Therefore, travel, in enabling us to experience a different place, culture and context, has the power to heighten and enhance our perspective of home. The award will go to a student in the fourth year of study in the Theatre Program at Grenfell Campus who best exhibits a passion for and commitment to theatre, as well as an appreciation of place and how physical and cultural landscape can impact perspective, and who meets the minimum academic requirements for an award. The Award will be made at the beginning of the semester in which the student is scheduled to depart for England (for approved study at the Harlow campus) and will be valued at a portion of the income on the endowment. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on recommendation from Grenfell Campus.

**The C.F. Poole Scholarship**

This scholarship was established from funds donated by friends of Dr. Cyril F. Poole on the occasion of his retirement as Principal of Sir Wilfred Grenfell College. Dr. Poole, a native of Piley’s Island, Notre Dame Bay, was committed to excellence throughout his distinguished career as a university teacher and administrator in several Canadian universities including Sir Wilfred Grenfell College, where he served as Principal from 1977 to 1990. The scholarship honouring his contribution to excellence in education will be awarded annually to a Sir Wilfred Grenfell College student of outstanding academic merit and promise. Valued at approximately $1,000.00, it will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on recommendation from Grenfell Campus.

**The James C. Pratt Memorial Scholarship**

This scholarship, valued at a minimum of $1000.00, has been established in memory of James C. Pratt by his daughter, Mrs. Daphne L. House. The scholarship is to be awarded annually by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Program Chair of Visual Arts at Grenfell Campus, to a full-time student in the discipline of Bachelor of Fine Arts (Visual Arts) who shows promise and purpose in continuing in that field.

**Royal Canadian Regiment Milton Fowler Gregg VC Bursary**

This bursary was established in memory of Brigadier, The Honourable M.F. Gregg, VC, by The Royal Canadian Regiment (RCR) Trust Fund. It will be awarded annually to a full-time undergraduate student in Environmental Studies at Grenfell campus. Recipients must be Canadian citizens or landed immigrants and show promise in the field of environmental studies. They must also have demonstrated financial need and meet the minimum academic requirements for a bursary as defined by Memorial University of Newfoundland. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on recommendation from Grenfell Campus.

**The Francis J. Ryan Memorial Scholarship**

This fund was established by the Stewart McKelvey String Scales law firm in memory of their late senior partner Francis J. Ryan. Valued at the annual interest on the endowment, the award will be made to a Fine Arts student specializing in Visual Arts at Grenfell Campus as determined by the Chair and Faculty of the School of Fine Arts at the Campus. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship and a recommendation from the Scholarship Committee at Grenfell Campus in consultation with the Head, Division of Fine Arts. Financial need may be taken into account.

**The Tommy Sexton Triple Threat Award**

This Award has been established by the Tommy Sexton Project Inc., founded by the Sexton family. Tommy Sexton was one of the founding members of the award-winning comedy troupe, CODCO. This Award was established to celebrate and acknowledge his great ability as what is known in business as a Triple Threat. The Award will be valued at a minimum of $500 and presented annually during the final theatre performance. Eligible students will be enrolled in the fourth year of the Bachelor of Fine Arts (Theatre) program at Memorial University of Newfoundland. The recipient must have demonstrated exceptional skills in singing, dancing and acting as determined by the Chair and Faculty of the Theatre Program. Recipients must meet the minimum academic requirements for an award as defined by the University. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Scholarship Selection Committee at the Grenfell Campus.

**The Geoff Seymour Sr. Memorial Bursary**

This bursary was created in memory of Geoff Seymour Sr., a CBC Radio announcer with a true passion for the performing arts who worked with many of the theatre companies across Newfoundland. Valued at $500, it will be awarded on an annually rotating basis to a student at the Grenfell Campus and a student at the St. John’s Campus. When awarded to a student at the Grenfell Campus, it will be awarded to a full-time student in the Theatre Program. When awarded to a student at the St. John’s Campus, it will be awarded to a full-time student who is completing either the Theatre and Drama Specialization Program within the English Major or the Diploma Program in Performance and Communications Media, both in the Department of English. The recipient will have demonstrated financial need and must meet the minimum academic requirements for a bursary at Memorial University of Newfoundland. In the event that no eligible candidate at the Campus on rotation in a given year, the bursary will be open to students at the other Campus. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on the recommendation of the Program Chair, Theatre, or the Head, Departments of English, respectively.

**Reginald Shepherd and Helen Parsons Shepherd Award**

This award was created by a group of donors represented by Rex Anthony, Robert Crane, Janet Gardiner, Christopher March (Committee Chair), John Perlin, Valerie Pike, Phil Warren, and Janet Whittaker (Secretary) to honour the achievements of Helen Parsons Shepherd (1923-2008) and Reginald Shepherd (1924-2002). Helen and Reginald were pioneers of professional art practice in Newfoundland and played an important role in the post-Confederation art scene. From 1949 to 1961, they operated the Newfoundland Academy of Art in St. John’s, the province’s first art school. Helen was a renowned and highly skilled painter of portraits, still life and genre paintings. Reginald was an accomplished landscape painter and printmaker. Both Helen and Reginald were awarded honorary doctorates from Memorial University of Newfoundland in 1988 at a special convocation in Corner Brook to mark the opening of the School of Fine Arts. The Award will provide an opportunity for a student of the Visual Arts program to pursue a personal interest and passion for visual art, internal or external to the prescribed university program. This will allow for a unique personal/professional
development opportunity to be inspired by personal passion, life, and imagination. Valued at a portion of the income on the endowment, it will be awarded annually to an undergraduate student who is enrolled full-time in the Visual Arts program at Grenfell Campus of Memorial University of Newfoundland. To be eligible, candidates must submit a description of a project that may or may not be part of their academic program. Submissions will be reviewed by a committee led by the Head of the Division of Fine Arts and a recommendation will be forwarded to the Scholarship Selection Committee for approval. The recipient must also meet the minimum academic requirements for an award as defined by Memorial University of Newfoundland. Preference will be given to an artist who is beyond the first year of studies. This award will be granted by the Senate Committee on Undergraduate Scholarship, Bursaries and Awards.

The Short Family Harlow Award
This award was created to assist students to travel to and study at Memorial University of Newfoundland’s Harlow Campus in the United Kingdom. Four awards valued at $1250 each for any program of study will be awarded annually. This award is open to students enrolled at either the St. John’s Campus or the Grenfell Campus of Memorial University of Newfoundland. To be eligible, students must be planning to attend the Harlow Campus for at least one full term and must have graduated from a high school in Newfoundland and Labrador. Financial need will be considered. Recipients must meet the minimum academic requirements for an award as defined by Memorial University of Newfoundland. Application for this award can be made at the same time as application is made to the program at the Harlow Campus; however, receipt of the award is contingent on acceptance into the program. A faculty nomination letter must accompany the award application form. Application forms are available in person or by writing the Scholarships, Bursaries and Awards Office, Room 4018, University Centre, Memorial University of Newfoundland, St. John’s, NL, A1C 5S7, or by telephone to (709) 864-3956, or on the Harlow Campus web site at www.mun.ca/harlow. The award will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Harlow Scholarship Committee.

The Sisters of Mercy Anniversary Scholarship
This scholarship was established by the Sisters of Mercy to commemorate the 100th anniversary of the arrival of the sisters on the west coast of Newfoundland in 1893. The Sisters of Mercy, educators in Newfoundland since 1842, have been associated with Memorial University of Newfoundland since the University was established. The scholarship valued at a minimum of $1,000.00 will be awarded annually to a student from Western/Northern Newfoundland or Labrador entering Grenfell Campus with full-time status. Academic standing and promise will be the main criteria. Consideration may be given to candidates’ financial circumstances. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and upon the recommendation of the Scholarship Committee at Grenfell Campus.

John A. Snow Prize in Mathematics
This prize, in memory of John A. Snow, will be awarded to a student attending Grenfell Campus beyond their third year of studies, who has excelled in a number of Mathematics courses. The prize of $200.00 will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards in consultation with the Mathematics professors of Grenfell Campus.

The Honourable P. Lloyd and Elizabeth Soper Scholarship
This scholarship is provided from a fund established by the Honourable P. Lloyd and Elizabeth Soper. It will be awarded to a student at Grenfell Campus who has completed his or her first year of studies and is continuing as a full-time student at the Campus for the second year. The scholarship, valued at a minimum of $1000.00, will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and upon the recommendation of the Scholarship Committee at Grenfell Campus.

The Sun Life Financial Scholarship in Applications of Technology
The Sun Life Financial Scholarship in Applications of Technology is consistent with the company’s belief that education is key to the future well-being of individuals, business and society. The scholarship, valued at the annual interest on the endowment, will be designated on an annually rotating basis to a student on the Corner Brook campus and the St. John’s campus. It will be awarded to a student within the faculties of Science, Engineering and Applied Science and Business Administration who is focussing his/her studies on the application of technology and has demonstrated scholarship standing. In addition, the student will have actively participated in extracurricular activities and have been active in student life. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the appropriate Dean and/or the Vice-President of Grenfell Campus.

The Visual Arts Entrance Scholarship
This scholarship, established by the Corner Brook and Area Branch of the Alumni Association of Memorial University of Newfoundland, is awarded annually to a student commencing first-year studies in the Visual Arts Program of the Bachelor of Fine Arts at Grenfell Campus. Valued at $500.00, the award is made on the basis of previous academic performance and the quality of the portfolio submission. This scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Scholarship Committee at Grenfell Campus.

The Wabush Mines Fine Arts Travel Bursary
These bursaries are the result of an endowment to Memorial University of Newfoundland from Wabush Mines as part of their contribution to The Opportunity Fund. Valued at the annual interest on the endowment, they will support Fine Arts students at Grenfell Campus wishing to travel and gain exposure to Visual and Performing Arts. They will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of academics, financial need and a recommendation from the Scholarship Committee at Grenfell Campus in consultation with the Head, Division of Fine Arts.

The Dr. Harriet Ware Memorial Scholarship in Fine Arts
This scholarship, valued at the annual interest on the initial endowment, is supported by a fund established by Martin Ware in memory of his mother, Dr. Harriet Ware. It will be awarded to a Grenfell Campus student who has completed the third year of a Bachelor of Fine Arts program in Theatre and is continuing in that program. The scholarship will be awarded to a student with scholarship standing who has also maintained at least a 70% average in non-theatre courses in their overall academic performance. Preference may be given to a single parent. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Scholarship Committee at Grenfell Campus.

The Alan and Patricia Wright Psychology Conference Travel Bursary
This award was established by Dr. Sandra Wright in memory of her parents, Alan and Patricia Wright, both former educators who believed strongly in the importance of education. Applications will be available through Psychology Faculty members in January of each year. It will be given annually to a fourth year Psychology major engaged in full-time studies at Grenfell Campus. The purpose of the award is to offset the cost of travel to a Psychology conference (for example APICS, CPA or CSBBS). Funds must be used for travel to and from a conference in the year it is awarded. Valued at $700, one award is available each academic year. Applications will be read and the recipient chosen by Psychology faculty at Grenfell Campus based on academic performance in Psychology courses and the merit of the proposal. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Program Chair, Psychology and the Scholarships Committee at Grenfell Campus.
7 Convocation Awards

Convocation Medals and Awards are given at the Spring Convocation each year however, students who graduated at the previous Fall Convocation will also be considered for these awards. The "scholarship year" shall be defined as "May 1-April 30".

The University Medal for Excellence in an All-Course Master's Program
The medal is awarded by the Dean of Graduate Studies to a student graduating at the Master's level who has demonstrated academic excellence in course work throughout his/her graduate program. One medal may be awarded in each academic year.

The University Medal for Excellence in a Thesis Based Master's Program
The medal is awarded by the Dean of Graduate Studies to a Master's candidate who has demonstrated excellence in the production of a thesis. One medal may be awarded in each academic year.

The Advisory Board Chair's Leadership Award
This award, established by the Advisory Board of the Faculty of Business Administration, is to be presented annually to the graduating business student (undergraduate) who has demonstrated the most chairperson-like characteristics through leadership in student affairs and service to the community during his or her university years. The award will be made by the Dean of the Faculty, on the advice of his colleagues, and in consultation with the Chair of the Advisory Board.

Association of Registered Nurses of Newfoundland and Labrador Award for Excellence in M.N. Program
The Association of Registered Nurses of Newfoundland and Labrador offers an annual award to three graduating students of the Master's of Nursing Program. One award will be given for the practicum route, one for the thesis route and one for the Nurse Practitioner route. For the practicum award, it will be based on a high quality practicum project as evaluated by the supervisor/co-supervisors. For the thesis award, it will be based on a high quality thesis as determined by review of both internal and external examiners. For the NP award, it will be based on recommendation of the program coordinator. In all cases the successful student must have achieved a minimum average of 75% in courses required for the program as well as hold an ARNNL license to practice. These awards are made at the annual Convocation. They will be awarded by the Dean, School of Graduate Studies based on a recommendation from the Dean, School of Nursing.

The Association of Registered Nurses of Newfoundland and Labrador Award of Excellence in the Bachelor of Nursing (Collaborative) and Bachelor of Nursing (Post-RN) Programs
The Association of Registered Nurses of Newfoundland and Labrador offers a $200.00 Award of Excellence to two graduating students who have demonstrated excellence in nursing practice. One award will be given to a graduating student in the Bachelor of Nursing (Collaborative) program, and one to a graduating student in the Bachelor of Nursing (Post-RN) program.

The Austrian Ambassador's Prize
This prize, a book award, is to be awarded annually by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of German and Russian, to a graduating student who has majored in German Language and Literature and has a consistently good academic record at the University.

The Captain Robert A. Bartlett Science Award
As a spontaneous expression of their admiration and affection for a man who has a lasting place in the history of polar exploration, the Explorers' Club of New York and two kindred organizations - the Wilderness Club of Philadelphia and the Harvard Travellers' Club of Massachusetts - donated a sum of money to this University, as a memorial to Captain Bartlett. The University has placed this money in a trust fund, the interest on which is the value of the award. It will be based primarily on academic excellence. Consideration may also be given to the demonstration of the spirit of scientific exploration. The award is made annually to a student graduating in Science, on the recommendation of the President.

The Brepols Book Prize in Medieval Studies
Brepols Publishing, Turnhout, Belgium, an international academic publisher with a very strong interest in medieval studies, has agreed to donate a prize consisting of a book to be selected from their current catalogue, to be awarded each year to an outstanding student graduating in Medieval Studies as a second major. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Co-ordinator of Medieval Studies. If in any year there is no outstanding candidate in the opinion of the Co-ordinator, it will not be awarded.

The Reginald H. Brown Q.C. Memorial Scholarship
The Reginald H. Brown Q.C. Memorial Scholarship is established at Memorial University of Newfoundland in memory of Reginald H. Brown, K. St. J., Q.C., through generous lead donations by Pamela Brown and Reg's colleagues at Cox & Palmer. Described as "a lawyer's lawyer", Reg Brown was a loyal friend and colleague who combined a very challenging and successful litigation practice with the leadership of his law firm as managing partner of Cox & Palmer, an Atlantic Canadian law firm established only two weeks before his death in May 2007. Reg balanced his demanding professional life and leadership in service of his profession and the community with the philosophy that family came first. The Reginald H. Brown Q.C. Memorial Scholarship is to be awarded at convocation to a student graduating from any area of study and accepted at law school. Selection will be made on the basis of academic excellence (with a minimum of scholarship standing) and demonstrated leadership qualities as epitomized by Reg in charitable, athletic, artistic or political endeavours, whether in student life or in the community at large. The scholarship will be awarded by the Senate Committee on...
Dick Buehler Award in Theatre
This award is given to a student, at Spring Convocation, who has successfully completed all the Theatre courses or the requirements for the Diploma in Performance and Communications Media who will continue their training at an institution of higher learning or as an apprentice to an approved professional theatre or film company. Preference will be given to a student whose primary interest is in technical theatre. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Co-ordinator, Diploma In Performance and Communications Media.

The Faculty of Business Administration Advisory Board Bachelor of Business Administration Award for Excellence
This award, established by the Advisory Board of the Faculty of Business Administration, is to be presented annually to an outstanding student in the graduating class of the Bachelor of Commerce (Co-op) program. The recipient will be selected based on a combination of academic performance, demonstrated leadership and general contribution within the program. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, Faculty of Business Administration.

The Faculty of Business Administration Advisory Board B.Comm. (Co-op) Award for Excellence
This award, established by the Advisory Board of the Faculty of Business Administration, is to be presented annually to an outstanding student in the graduating class of the Bachelor of Commerce (Co-op) program. The recipient will be selected based on a combination of academic performance, demonstrated leadership and general contribution within the program. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, Faculty of Business Administration.

The Faculty of Business Administration Advisory Board M.B.A. Award for Excellence
This award, established by the Advisory Board of the Faculty of Business Administration, is to be presented annually to an outstanding student in the graduating class of the M.B.A. program. The recipient will be selected based on academic performance, demonstrated leadership and general contribution within the program. Selection will be made by the Scholarship Advisory Committee of the Faculty of Business Administration, acting on the advice of the Dean of the Faculty.

Faculty of Business Administration Dean's Award
These awards are made by the Dean of the Faculty, on the advice of his colleagues, to graduating students who have demonstrated academic excellence together with leadership qualities within the Faculty of Business Administration and/or the University.

Faculty of Business Administration Dean's MBA Award
This award is made by the Dean of the Faculty, on the advice of colleagues, to a graduating MBA student in recognition of academic excellence together with demonstrated leadership qualities in graduate student activities and service to the Faculty and/or the University.

Faculty of Education Dean's Graduate Award
This award established by the Dean of the Faculty of Education will be presented to a graduating Master's or Ph.D. student in recognition of academic excellence together with leadership qualities in graduate student activities and service to the Faculty of Education and/or the University. The award will be made by the Dean of Graduate Studies upon recommendation of the Dean, Faculty of Education.

Faculty of Education Dean's Undergraduate Award
This award established by the Dean of the Faculty of Education will be presented to a graduating Bachelor of Education student in recognition of a consistently good academic record in the professional courses required for the degree as well as leadership qualities within the Faculty of Education and/or the University. One award will be presented to a student at the St. John's Campus and a second award will be presented to a student at Grenfell Campus. The awards will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, Faculty of Education.

Faculty of Engineering and Applied Science Dean's Award of Excellence (MEng Program)
These awards are made by the Dean of the Faculty, on the advice of Faculty's graduate studies Awards and Medals Sub-Committee, to graduating students who have demonstrated academic excellence in the research-based MEng program.

Faculty of Engineering and Applied Science Dean's Award of Excellence (Course-Based Master's Program)
These awards are given by the Dean of the Faculty, on the advice of Faculty's graduate studies Awards and Medals Sub-Committee, to graduating students who have demonstrated academic excellence in the course-based Master's program.

Faculty of Engineering and Applied Science Dean's Award of Excellence (Graduate Diploma Program)
These awards are given by the Dean of the Faculty, on the advice of Faculty's graduate studies Awards and Medals Sub-Committee, to graduating students who have demonstrated academic excellence in the graduate Diploma in Safety and Risk Engineering program.

The Canadian Association of Geographers (CAG) Award
The Canadian Association of Geographers (CAG) Award is given to the top student graduating with an Honours or General degree majoring in Geography in each university in Canada. The award at Memorial University of Newfoundland is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon a recommendation from the head of the Geography Department. Recipients receive a one-year membership in the association which includes a Subscription of The Canadian Geographer, a professional journal.

Canadian Society for Civil Engineering, CSCE, Newfoundland Section Convocation Award
Each year the local section of the Canadian Society for Civil Engineering awards a prize which consists of a certificate and $200.00 cash to the top student graduating with a Bachelor of Engineering - Civil, from Memorial University of Newfoundland. The successful candidate will have demonstrated commitment, dedication and consistent performance in academic as well as work terms. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, Faculty of Engineering and Applied Science.

The Canadian Society of Mechanical Engineering Medal for Academic Excellence
Each year the Canadian Society of Mechanical Engineering awards a Mechanical Engineering Medal for outstanding achievement to a graduating student in the baccalaureate program in Mechanical Engineering who also demonstrates commitment, dedication and consistent performance in academic as well as work terms. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, Faculty of Engineering and Applied Science.

The Chancellor's Graduate Award
The Chancellor's Graduate Award is given at Convocation to the student of the graduating class who has demonstrated the greatest leadership contribution to graduate student life and other areas of the community during his or her university years. It is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on a recommendation from the President in consultation with the Deputy Provost (Students) and Associate Vice-President (Academic) Undergraduate Studies and the Dean, School of Graduate Studies.
The Chancellor’s Undergraduate Award

The Chancellor’s Undergraduate Award is given at Convocation to the student of the graduating class who has demonstrated the greatest leadership contribution to undergraduate student life and other areas of the community during his or her university years. It is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on a recommendation from the President in consultation with the Deputy Provost (Students) and Associate Vice-President (Academic) Undergraduate Studies.

The Chancellor’s Undergraduate Award Grenfell Campus

This award is given at the Grenfell Campus Convocation to the student of the graduating class who has demonstrated the greatest leadership contribution to undergraduate student life and other areas of the community during his or her university years at the Grenfell Campus. It is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on a recommendation from the Vice-President, Grenfell Campus in consultation with the University President.

The Senator Joan Cook Convocation Award in Canadian Politics

The Senator Joan Cook Convocation Award in Canadian Politics was established through generous donations from Senator Cook’s friends and colleagues upon the occasion of her retirement from the Senate and in celebration of her long career in Canadian politics. This award will be given to an undergraduate student at convocation who has the highest average in their Canadian Politics Course during the last two years of their program. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Department Head, Political Science.

The Cox and Palmer Prize in Law and Society

This prize is for the student graduating from the Law and Society major or minor program with the highest academic average. The recipient must have obtained an overall average of at least 75%, completed the course program in the normal number of years and be recommended to the Senate Committee on Undergraduate Scholarships, Bursaries and Awards by the Co-ordinator of the Law and Society program.

The Dean’s Honour Award in Engineering

This award is in recognition of outstanding contribution made to the Faculty of Engineering and Applied Science through leadership in student affairs and service to the community while maintaining high academic standing.

The David Dunsiger Award for Excellence

This award is for excellence in graduate studies in the Faculty of Engineering and Applied Science, and commemorates the contribution of Dr. A. David Dunsiger, a member of the Faculty of Engineering and Applied Science from 1974-79. It is awarded at the Spring Convocation to a graduate in the preceding year who produces work of outstanding quality. The recipient will be selected by the Faculty of Engineering Scholarship Advisory Committee, on the advice of the Dean of Engineering and Applied Science and the Dean of Graduate Studies.

Fry Family Foundation Graduate Leadership Award

The Fry Family Foundation Leadership Award is presented to a graduate student who has been selected as Memorial University of Newfoundland’s most outstanding graduate student leader. It provides an award of $5,000.00 to the student who has contributed significantly to student life at Memorial University of Newfoundland, has assumed a variety of leadership responsibilities in various positions and has made a significant contribution to the betterment of their community. This award is given at Convocation to the student who has been selected to receive the Chancellor Award which is the most prestigious leadership recognition awarded by Memorial University of Newfoundland. This award will be made by the Dean, School of Graduate Studies.

Fry Family Foundation Undergraduate Leadership Award

The Fry Family Foundation Leadership Award is presented to an undergraduate student who has been selected as Memorial University of Newfoundland’s most outstanding student leader. It provides an award of $2,500.00 to the student who has contributed significantly to student life at Memorial University of Newfoundland, has assumed a variety of leadership responsibilities in various positions and has made a significant contribution to the betterment of their community. This award is given at Convocation to the student who has been selected to receive the Chancellor Award which is the most prestigious leadership recognition awarded by Memorial University of Newfoundland. This Award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

The Holy Heart of Mary Legacy Convocation Award

The Holy Heart of Mary Legacy Convocation Award was established in celebration of the 50th anniversary of the opening of Holy Heart of Mary High School in 1958. The fund was created with the generous support of the Alumni of that school to celebrate the legacy of excellence in teaching established by the school’s founders the Sisters of Mercy and the Presentation Sisters. Valued at a portion of the income from the endowment it will be awarded at the Fall Convocation to a student graduating with a bachelor of Education (Intermediate/Secondary) who exceeded academically as well as in the internship. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Education.

The A.C. Hunter Prize in English

The A.C. Hunter Prize in English, established by the late Mrs. A.C. Hunter in memory of her husband, formerly Head of the Departments of English and French, and Dean of Arts and Science at this University, has a value of $100.00 and is awarded annually at the Spring Convocation to the graduating student majoring in English who stands highest in the General Degree program. The prize is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of English.

The IEEE Newfoundland and Labrador Section Award

This award, which consists of a certificate and cash prize, is presented at the Spring Convocation to a graduating student in the Faculty of Engineering and Applied Science (Electrical and Computer Engineering Program) who has had a consistently good academic record in the professional courses required for the degree and who has made a significant contribution to the Faculty and to the IEEE student branch. It is awarded annually by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Engineering and Applied Science.

The Helen Jones Convocation Award for Excellence in English

This convocation award was established by her loving husband and colleague in memory of Professor Helen Jones, an inspiring and supportive teacher in the Department of English. Valued at a portion of the income from the endowment, it will be awarded annually to a student who is graduating with a B.A., honours or general degree, with a major in English, who has achieved the highest average mark in their English courses. In the event of more than one student sharing the highest mark, the award will be made to the student who has completed the largest number of English courses. The award will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Head, Department of English.

Margaret Waterman Kelly Teaching Prize

This prize, valued at $500, is named in memory of Margaret Waterman Kelly, a teacher in pre-Confederation Newfoundland whose life exemplified the highest ideals of education and volunteerism. This prize was established by her daughter, Ursula Kelly, to commemorate this lifework. The prize will be awarded to a female student from Newfoundland and Labrador, enrolled in the Faculty of Education who, upon graduation with a Bachelor’s degree in Education (Primary, Elementary or Secondary), has demonstrated excellence in teaching...
combined with commitment to community service. The Prize will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on the recommendation of the Dean, Faculty of Education.

The William J. May Prize in Post-Secondary Studies (Undergraduate)
This prize, valued at a portion of the annual income on the endowment, was established by friends and family of the late Mr. William J. May. Mr. May was Director of Technical and Vocational Education for the province for a number of years and received an Honorary Doctorate from Memorial University of Newfoundland for his contributions to that field. The prize will also consist of a small certificate suitable for framing and will be awarded to the undergraduate student of the graduating class who receives the Medal of Excellence for Post-Secondary Studies (formerly Vocational Education) in his/her graduating year. In a year when there is no suitable candidate it will not be awarded. The prize will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Education.

The MBA Award for Academic Excellence
This award is to be presented annually to the student in the graduating class of the MBA program who achieves the highest academic standing.

The Memorial University of Newfoundland English Student Society (MESS) Award
This award was established in 2000 as a result of funds raised by the Memorial University English Students’ Society (MESS) and the Faculty of the Department of English. The MESS Award recognizes the outstanding contribution to student life at Memorial University of Newfoundland made by the Memorial English Students’ Society. It will be awarded annually at the Spring Convocation to one or more graduating English Honours or Major students who have consistently good academic records and who have made outstanding contributions to student life. The award will be valued at the annual interest on the endowment and will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Education.

The MER Award for Academic Excellence
This award is to be presented annually to the student in the graduating class of the MER program who achieves the highest academic standing, with the provision that the student must obtain an A average in their MER.

The Grace Morgan Prize in Biochemistry (Nutrition)
This prize is for the student graduating in honors Biochemistry (Nutrition) with the highest standing. The recipient must have obtained an overall average of at least 75%, completed the course program in the normal number of years and be recommended to the Senate Committee on Undergraduate Scholarships, Bursaries and Awards by the Head, Department of Biochemistry.

The Margaret Fitzpatrick Morgan Medal in Nursing
This award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, School of Nursing, Memorial University of Newfoundland.

The Harvey and Doris Murcell Scholarship in Religious Studies
This scholarship, donated to the University by Doris and the late Harvey Murcell of Harbour Grace, and valued at $500.00, is awarded to a graduating student majoring in Religious Studies. To be eligible for the award, a student must have scholarship standing. Financial need, and the student's contribution to the Department of Religious Studies, may be considered. The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of Religious Studies.

Newfoundland & Labrador Association of Social Workers’ Student Award
Newfoundland and Labrador Branch of the Canadian Association of Social Workers makes this award annually to a graduating B.S.W. student selected by the Association in consultation with the School of Social Work.

The Newfoundland & Labrador Teachers' Association Medal
This medal is awarded to a graduating student in Education who has had a consistently good academic record in the professional courses required for the degree and who has made an outstanding contribution to the Faculty of Education and to the University.

Professional Engineers and Geoscientists Newfoundland and Labrador Anniversary Award
The Professional Engineers and Geoscientists Newfoundland and Labrador offers an Award in the Faculty of Engineering and Applied Science to mark the occasion of fifty years of Engineering education at Memorial University of Newfoundland. The award, to be tenable by a student in each year's graduating class, is to be awarded on the following conditions:

a. high academic standing;
b. outstanding leadership qualities;
c. involvement in extracurricular activities;
d. all-round contribution.

The selection of the winner is to be based on the recommendation of a Selection Committee within the Faculty.

Professional Engineers and Geoscientists Newfoundland and Labrador Award for Excellence
The Professional Engineers and Geoscientists Newfoundland and Labrador has established an "Award for Excellence", which may be made to a student at Memorial University of Newfoundland who obtains an Engineering degree in not more than eight consecutive academic terms and who has completed the prescribed courses with the highest average mark in all the courses. This award takes the form of a framed "Award for Excellence", suitably engraved, and presented by PEGNL at or about the time of Convocation.

Professional Engineers and Geoscientists Newfoundland and Labrador Award for Excellence in Geoscience
The Professional Engineers and Geoscientists Newfoundland and Labrador have established an award for excellence in Geoscience which shall be awarded to the graduating student at Memorial University of Newfoundland who has shown the highest degree of academic excellence during his/her geoscience education. It takes the form of a framed "Award for Excellence" which is engraved and presented by PEGNL on or about the time of convocation. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of Earth Sciences.

The Prize of the Ambassador of the Federal Republic of Germany
This prize, a book award, the gift of the Ambassador of the Federal Republic of Germany in Canada, is to be awarded annually by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of German and Russian, to a graduating student who has majored in German Language and Literature and has a consistently good academic record at the University.

Drs. James and Leslie Rourke Dean's Convocation Award in Medicine
This award has been established by a generous donation from Dr. James Rourke, who started as Dean of Medicine in 2004, and Dr. Leslie Rourke. The award recipient will be the graduating medical student who has made an outstanding personal contribution to bettering the lives of others through volunteer work and humanitarian acts while maintaining high academic standing. Consideration will be given to students who have exhibited the following characteristics: altruism, kindness and compassion. The award, valued at a
portion of the income on the investment, is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on the basis of a recommendation from the Dean, Faculty of Medicine. The Office of Student Affairs of the Faculty of Medicine will assist the Dean in his or her choice of an appropriate candidate.

The Society of Chemical Industry Merit Award
The student graduating in Honours Chemistry and Biochemistry with the highest standing will receive a suitably engraved gold key and a year's Subscription to Chemistry and Industry. The recipient must have obtained an overall average of at least 75%, completed the course program in the normal number of years, and be recommended to the Senate Committee on Undergraduate Scholarships, Bursaries and Awards by the Heads, Department of Chemistry and Biochemistry.

The Spanish Ambassador’s Prize
This Prize, the gift of the Ambassador of Spain to Canada, is a book award made at Convocation to an outstanding graduate whose major or minor was Spanish. The award is made on the recommendation of the Dean of the Department of French and Spanish.

The George M. Story Convocation Medal in Arts
This award was established in memory of Dr. George M. Story, Professor Emeritus of Memorial University of Newfoundland. The medal and a $100.00 prize are awarded to the student graduating with a Bachelor of Arts who has demonstrated, as did Dr. Story, both academic excellence and a strong commitment to serving the University and the community. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean of Arts.

The Swiss Ambassador’s Prize
One prize in French and one in German are awarded annually to graduating students who have majored in these languages. The prize in French is awarded on the recommendation of the Head, Department of French and Spanish, and the prize in German on the recommendation of the Head, Department of German and Russian.

The Leslie Thoms Convocation Award
This award, valued at the interest on an endowment, was provided by friends and family of the late Mr. Thoms. It will be awarded at convocation to the undergraduate student of the graduating class who has shown positive, outstanding leadership in student affairs and activities during his or her university career while carrying a full-time course load for the majority of their undergraduate studies and maintaining good academic standing. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Deputy Provost (Students) and Associate Vice-President (Academic) Undergraduate Studies.

The Moire A. Wadleigh Graduate Award for Excellence in Environmental Science
This award for graduate students in the Environmental Science Program was established in memory of Dr. Moire A. Wadleigh, friend and colleague, caring teacher, dedicated scientist and beacon of excellence in Environmental Science and Geoscience. Two awards will be presented annually: one to the student completing the best Master of Science thesis in Environmental Science within the previous 12 months, the second to the student in the Master of Environmental Science program with the best project and report completed in that year. Successful students must have achieved an average of at least 80% in courses required for the program. Awards will be made by the Dean of Graduate Studies upon recommendation of the Board of Studies of the Graduate Program in Environmental Science.

The Dr. James L. Walker Convocation Award
This award was established in memory of Dr. James L. Walker, a Brandon University department head, psychology professor and research consultant whose innovative teaching, socially relevant research and integration of research into treatment programs for Alzheimer's patients transformed the lives of students, colleagues and patients. Valued at $1,000, it will be awarded at convocation to a graduating undergraduate student in the Psychology honors program who has demonstrated both academic excellence (a minimum of clear standing) and leadership within their community. The award will be conferred by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Head, Department of Psychology.

The Captain George C. Whiteley English Prize
This prize is the gift of Mr. George C. Whiteley, Jr., a student of Memorial University College, 1926-27, in memory of his father, the late Captain George C. Whiteley. The prize, of the value of $100.00, is awarded annually by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of English, to the student who graduates with B.A.(Hons.) in English with the highest standing. In the event that at any convocation there is no Honours graduate in English, the prize may be awarded to a graduating student of outstanding academic merit and promise in the General Degree program who is selected and recommended for the award by the Department of English. Other things being equal, the prize will be awarded to a student who has produced original work of literary merit.

8 Scholarships, Bursaries, and Awards Available for Undergraduate Students for Study Outside Newfoundland and Labrador

The Gordon Billard Award in Education
A donation has been made to Memorial University of Newfoundland by Mr. Gordon Billard for the purpose of establishing a fund to provide financial assistance to Education students who live at the University's Harlow campus while undertaking approved studies in Great Britain. The award is intended to enhance the student’s educational experience in Britain. Its value will be based on the annual interest on the fund. It will be awarded during the Spring Semester by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, Faculty of Education. Academic achievement and financial need will be considered.

The Coca-Cola Scholarship for International Studies
This scholarship, valued at the annual interest on its endowment, has been established from contributions to the University's Opportunity Fund Campaign by The Coca-Cola Foundation. It will be awarded to a student who has completed at least two years of a degree program in the Memorial University of Newfoundland and who has been accepted to attend a recognized university outside Canada for one or two semesters of study for transfer credit to Memorial University of Newfoundland towards completion of his/her undergraduate degree.

The Sylvia Dawson Education Award
This annually funded award has been established by a former student of Sylvia Dawson for a period of five years. Sylvia Dawson was a dedicated educator who loved teaching. Valued at $250 per year, the award is available to an intern in the Faculty of Education who has been selected to travel to Harlow England. Preference will be given to a student who has graduated from high school in Bay Roberts. In the event no student meets this criteria preference will be given to a student who has graduated from high school in Newfoundland and Labrador. This award will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, upon the recommendation of the Dean of the Faculty of Education.

Paddy and Rita Dobbin Scholarship in Business
The Paddy and Rita Dobbin Scholarship is endowed through a gift from the Dobbin family members (children and grandchildren) in memory of Paddy Dobbin and Rita Power who were married on March 17, 1929. From his early life, Paddy demonstrated a strong
Scholarships, Bursaries and Awards 2015-2016

entrepreneurial spirit, a man not afraid of hard work or taking risks. He instilled these qualities in his eleven children. Paddy guided with much love and a spirit that anything was possible. Through example, he taught his children to never fear challenges, feeling there was always something to be learned. The scholarship is open to undergraduate students of scholarship standing, enrolled in the Faculty of Business Administration in the International Bachelor of Business Administration (i.B.A.) program, who have been accepted for, but not yet undertaken, the study abroad component of their program. Preference will be given to students who have been active in extracurricular activities at Memorial University of Newfoundland and/or in the community. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Business Administration.

The Faculty of Arts Annual Award Fund
These awards are made possible each year by the generous donations of alumni and friends to the Faculty of Arts Annual Fund. Valued at a minimum of $500 they will be granted annually to undergraduate students enrolled in a Faculty of Arts program. First preference is for students enrolled in a study abroad program within the Faculty of Arts. The recipients must meet the minimum academic requirements for an award as defined by Memorial University of Newfoundland and the number of awards available annually will be at the discretion of the Dean, Faculty of Arts. The awards will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Arts.

The Harlow Development Corporation Scholarship Trust
The Harlow Development Corporation, Harlow, England, has made a grant to establish a scholarship fund to financially assist students from Memorial University of Newfoundland who wish to live at the University's Harlow campus while undertaking approved studies in Great Britain. The fund will also provide scholarships to students who are residents of Harlow and who wish to study at Memorial University of Newfoundland, or some other institute of learning, in Newfoundland. It is hoped that interest on the fund will finance five or six annual scholarships at £250 each. The online application can be found at www.mun.ca/scholarships/scholarships/harlow_scholarship.php

Harlow Travel Awards
A number of travel awards, each valued at a maximum of £250 will be awarded to full-time undergraduate students registered at the Harlow Campus in a Memorial University of Newfoundland program. One of the Harlow Travel awards will be named for Prudence and David Wright in recognition of the late Prudence Wright and her husband David Wright as a founding trustee of the Harlow Campus and Harlow Scholarship Trusts. Another award will be named for Ken Archer to recognize his many years of service as a trustee of the Harlow Campus and Harlow Scholarship Trusts. Preference will be given to students who are permanent residents of the province of Newfoundland and Labrador and are attending the Harlow Campus for a minimum of six consecutive weeks residing on the Campus for the duration of the award. Eligibility for these awards requires a minimum of clear academic standing in the previous scholarship year. The awards will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Harlow Scholarship Trustees. Application forms are available in person or by writing the Scholarships, Bursaries and Awards Office, Room 4018, University Centre, Memorial University of Newfoundland, St. John's, NL, A1C 5S7, or by telephone to (709) 864-3956, or on the Harlow Campus web site at www.mun.ca/harlow.

The Ann Elizabeth Crosbie (Perlin) Harvey Memorial Scholarship
This scholarship, valued at the interest on an endowment, was established by The Perlin Family Trust to assist undergraduate students from Memorial University of Newfoundland who wish to pursue their studies at the Harlow Campus in Harlow, England. It will be awarded on the basis of scholarship standing with preference being given to students studying Theatre, and/or Drama Studies. The online application can be found at www.mun.ca/scholarships/scholarships/harlow_scholarship.php

The Elizabeth C. Hesson Memorial Scholarship in German
This scholarship was established in memory of Dr. Elizabeth C. Hesson, Head of the Department of German and Russian from 1986 to 1991 and a trustee of the Harlow Campus and Harlow Scholarship Trusts. Preference will be given to students who are permanent residents of the province of Newfoundland and Labrador and who have demonstrated a high level of academic performance in German. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Head, Department of German and Russian, and is designed to assist the student to undertake a program of German studies in German-speaking Europe. In addition to academic excellence, financial need may be taken into account. This scholarship will not necessarily be awarded every academic year.

The A.C. Hunter Travel Award in French
This award has a value of not less than $600.00 and is awarded annually. It has been established in memory of Dean A.C. Hunter through the generosity of Mrs. Hunter, the Provincial Government of Newfoundland, the Board of Regents of Memorial University of Newfoundland and Dean Hunter's former students and friends. The award shall take the form of a travel grant to a student, in second year or beyond, majoring or minoring in French who wishes to pursue a program of study of one or more semesters' duration, in French language, literature or culture, at a recognized institution in metropolitan France. Eligibility for this award requires a minimum of clear academic standing (as defined by the University) in the previous scholarship year. The award shall be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on the recommendation of the Department of French and Spanish.

The Muriel H. Hunter Award in Spanish
This award, valued at $600.00, is awarded out of income derived from a bequest to the University by the late Mrs. Muriel H. Hunter, wife of the late Dr. A.C. Hunter and former Lecturer in Spanish at the Memorial University College. The award shall take the form of a travel grant to a student, in second year or beyond, majoring or minoring in Spanish who wishes to pursue a program of study of one or more semesters’ duration, in Spanish or Spanish-American language, literature or culture, at a recognized institution in metropolitan Spain or Latin America. Eligibility for this award requires a minimum of clear academic standing (as defined by the University) in the previous scholarship year. The award shall be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on the recommendation of the Department of French and Spanish.

The H.H. Jackson Travel Scholarship in German
This scholarship was established upon the retirement of Dr. Herbert H. Jackson, Professor Emeritus and first Head of the Department of German and Russian from 1967 to 1980, through the generosity of his colleagues and students. The scholarship has a minimum value of $500.00 and is awarded annually by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, upon the recommendation of the Department of German, to a candidate who has completed at least the second year of study at Memorial University of Newfoundland, has demonstrated a high level of academic performance in German, and is planning to undertake a program of studies and/or work assignment in a German-speaking country.

The Linfield Award
This award was created to assist students to travel to and study at Memorial University of Newfoundland's Harlow Campus in the United Kingdom. Four awards valued at £1000 each will be awarded annually to students in any program of study. This award is open to students enrolled at either the St. John's Campus or the Grenfell Campus of Memorial University of Newfoundland. To be eligible, students must be planning to attend the Harlow Campus for at least one full term and must have graduated from a high school in Newfoundland and Labrador that is located outside of the St. John's metro area. Financial need will be considered. Recipients must...
meet the minimum academic requirements for an award as defined by the University. Application for this award can be made at the same time as application is made to the program at the Harlow Campus. Students will be notified if they are successful in their application for the award prior to accepting the placement at Harlow Campus; however, receipt of the award is contingent on acceptance into the program. A faculty nomination letter must accompany the award application form. Application forms are available online via the Scholarships Office website at www.mun.ca/scholarships or on the Harlow Campus website at www.mun.ca/harlow. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Harlow Scholarship Committee.

The Arthur and Sonia May Scholarship
The scholarship, valued at $5,000, has been established by Arthur and Sonia May on the occasion of the University's 50th Anniversary as a degree granting institution, and in gratitude for the outstanding experience they enjoyed as students. It will be awarded to a student who has completed at least two years of a degree program at Memorial University of Newfoundland and who has been accepted to attend a recognized university outside Canada for one or two semesters of study for transfer credit to Memorial University of Newfoundland towards completion of his/her undergraduate degree. Applications may be made to the Scholarships, Bursaries and Awards Office, Room 4018, University Centre.

The Dr. M.O. and Grace Morgan Harlow Bursary
This bursary, valued at a portion of the annual accrued interest on an endowment to Memorial University of Newfoundland from the estate of Dr. and Mrs. Morgan, was established to encourage and assist undergraduate students to attend the University's Harlow Campus. It is open to full-time Memorial University of Newfoundland students attending the Harlow Campus. Up to three bursaries of equal value will be awarded annually to two students in the Faculty of Education (one each in the Spring and Fall semesters) and one to a student in any field of study (in the Winter semester). Bursaries awarded in Fall and Spring will be based on a recommendation from the Dean, Faculty of Education. These bursaries will be awarded by the Senate Committee on Undergraduate Scholarships and Financial Aid. An application is required to identify those students planning to attend Harlow in the winter semester only and may be obtained online at www.mun.ca/scholarships/scholarships/harlow_scholarship.php.

The Patti Lynn Noonan Memorial Harlow Travel Bursary
This Bursary, valued at a portion of the income from the endowment, is established in memory of Patti Lynn Noonan by her family. Patti-Lynn's motto was "Live life to the fullest and appreciate it and always tell the people you love that you love them". Patti Lynn will always be remembered for her smile, her laughter, her love of life, her devotion to family, friends, and the students in her care, her courage and her determination. Patti Lynn's experience at Harlow was a highlight of her time at Memorial University of Newfoundland. The purpose of the Bursary is to enable the recipient to travel outside of Harlow while studying at Memorial University of Newfoundland's Harlow campus. Ineligible, or ineligible and have demonstrated financial need, be in good academic standing, and be accepted to study at the Harlow campus. Preference will be given to students enrolled in the Faculty of Education. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on the recommendation of the Dean of the Faculty of Education.

The Pinsent Family Harlow Travel Award
This annually funded award has been established by the Pinsent Family for a period of five years. Valued at $1000 per year this award is available to a Faculty of Education Intern who has been selected to travel to Harlow, England and has achieved scholarship standing. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean of the Faculty of Education.

Al Pittman Harlow Travel Award
The Al Pittman Harlow Travel Award has been established in his memory by Al Pittman's friends and family. Mr. Pittman was one of Newfoundland's most esteemed poets and playwrights and he believed that observing the different helps us to see the familiar in a new light. Therefore, travel, in enabling us to experience a different place, culture and context, has the power to heighten and enhance our perspective of home. The award will go to a student in the fourth year of study in the Theatre Program at Grenfell Campus who best exhibits a passion for and commitment to theatre, as well as an appreciation of place and how physical and cultural landscape can impact perspective, and who meets the minimum academic requirements for an award. The Award will be made at the beginning of the semester in which the student is scheduled to depart for England (for approved study at the Harlow campus) and will be valued at a portion of the income on the endowment. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Program Chair, Theatre and the Scholarship Committee at Grenfell Campus.

The Gar Pynn Memorial Harlow Scholarship
This scholarship is endowed through a gift from Marg Pynn, family, and friends in memory of Gar Pynn, past director and faculty member of the Faculty of Business Administration. Eligible candidates must be full-time undergraduate students in the Faculty of Business Administration, and have scholarship standing. Preference will be given to students applying to complete an academic term at Memorial University of Newfoundland's Harlow Campus. The scholarship, valued at a portion of the income on the investment, will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Business Administration.

The Rhodes Scholarship
A Rhodes Scholarship is tenable at the University of Oxford and may be held for three years. Since, however, the majority of Rhodes Scholars obtain standing which enables them to take a degree in two years, appointments are made for two years in the first instance. Scholars may, however, hold the Scholarship for only 1 year. Those Scholars who elect to read for a D.Phil. at the time of admission may apply for a third year on stipend. The Rhodes Scholar must present a definite plan of study for that period satisfactory to his/her College and to the Rhodes Trustees. A Rhodes Scholar may apply to any one of the courses of study available at the University of Oxford, subject to the consent of the college or, in the case of graduate study, the relevant faculty or department. The stipend of a Rhodes Scholarship consists of a direct payment to the University and to the Scholar's College of approved fees (such as matriculation, tuition, laboratory fees, and certain other set charges), plus a maintenance allowance, which is paid directly to the Scholar at the rate of at least £3,480 per annum to cover board, lodging and other expenses. The sum provided should be sufficient to enable a Scholar to meet the necessary expenses for term-time and vacations, but those who can afford to supplement it to a modest extent from their own resources are advised to do so. Reasonable travel expenses to and from Oxford will be paid by the Trust. Application forms containing full instructions can be obtained from the Secretary of the Selection Committee for the Province of Newfoundland. Inquiries may be directed in writing to the Secretary of the Selection Committee to Mr. Glenn Janes, Argyle Building, 68 Portugal Cove Road, St. John's, NL, A1B 2L9, by telephone to (709) 758-0912, by fax to (709) 758-0927, or email to glennjanes@researchnl.com.

Dr. Edmund de Rothschild Harlow Travel Bursary
This bursary was established to enhance the student's educational experience while studying at Memorial University of Newfoundland's Harlow Campus, by providing funds to defray cost of travel and field work. Travel bursaries valued at a portion of the accrued interest on the endowment to a maximum of £250.00 will be awarded to full-time, undergraduate students registered at the Harlow Campus in a program approved by Memorial University of Newfoundland. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships and Financial Aid and will be based on need. Eligibility for a bursary requires a minimum overall cumulative GPA of 2. Applicants may be asked to provide a letter of recommendation from a faculty member, including confirmation that the travel is in
9 Government of Newfoundland and Labrador Scholarships

9.1 For Students Graduating From High School

The following scholarships are made available by the Government of Newfoundland and Labrador and are awarded by the Minister of Education to high school students in the province. They are based on the Department of Education scholarship score which is derived from the results of public exams. In excess of 200 scholarships are awarded each year.

a. The Junior Jubilee Scholarship
   This scholarship has a value of $2,500.00. It is awarded annually to the high school graduate who achieves the highest Department of Education scholarship score.

b. The Electoral District Scholarships
   These scholarships, valued at $1,000.00 each, are awarded annually to the three high school graduates in each electoral district who achieves the highest Department of Education scholarship score.

c. The Centenary of Responsible Government Scholarships
   Fifty-five scholarships, valued at $1,000.00 each, are awarded to high school graduates based on the Department of Education scholarship score provided they have not already been awarded another government scholarship.

d. Constable W.C. Moss Scholarship
   This scholarship has a value of $1,000.00. It is awarded annually to a son or daughter of a member of the Royal Newfoundland Constabulary, or of the Royal Canadian Mounted Police (active, retired or deceased), who achieves the highest Department of Education scholarship score. The Constable W.C. Moss Scholarship requires an application which is available from high school principals.

9.2 For Undergraduate Students in Attendance at Memorial University of Newfoundland

a. The Centenary of Responsible Government Scholarships
   The Government of Newfoundland and Labrador provides these scholarships, valued at $1,000.00 each, to students pursuing an undergraduate program of study. These scholarships are awarded by the Minister of Education on the recommendation of the Senate Committee on Undergraduate Scholarships, Bursaries and Awards at Memorial University of Newfoundland. They are awarded on the basis of scholarship standing and no application is necessary.

b. The Senior Jubilee Scholarship
   The Senior Jubilee Scholarship, valued at $3,000.00, is provided by the Government of Newfoundland and Labrador. It is awarded annually by the Minister of Education on the recommendation of the Senate Committee on Undergraduate Scholarships, Bursaries and Awards at Memorial University of Newfoundland, to the student at the University who attains the highest average in the courses completed during the first two semesters of their second academic year. No application is necessary.

c. The Doctor Arthur Barnes Scholarship
   The Doctor William W. Blackall Scholarship
   The Doctor Vincent P. Burke Scholarship
   The Reverend Doctor Levi Curtis Scholarship
   The Ronald K. Kennedy Scholarship
   These scholarships, valued at $1,200.00 each, are provided by the Government of Newfoundland and Labrador. They are awarded annually by the Minister of Education on the recommendation of the Senate Committee on Undergraduate Scholarships, Bursaries and Awards at Memorial University of Newfoundland, to students who have completed two years of a degree program at the University. They are awarded on the basis of scholarship standing and no application is necessary. Normally these scholarships are tenable at Memorial University of Newfoundland but in special circumstances may be held elsewhere.
Scholarships, Bursaries, and Awards Administered By Other Authorities

10 Scholarships, Bursaries, and Awards Administered By Other Authorities

Association of Registered Nurses of Newfoundland and Labrador Education and Research Trust
The AARNL Education and Research Trust has established a scholarship and bursary program for students enrolled in a Bachelor of Nursing Program at Newfoundland and Labrador School of Nursing, and for Registered Nurses pursuing continuing education at the baccalaureate, master and doctorate levels. The awards range in value from $500 to $2000. Information and application forms may be obtained from the Education and Research Trust website www.arrnl.ca or by contacting the Trust at trust@arnnl.ca. The deadline for application is October 15.

The Baxter Corporation - Jean Goodwill Scholarship
Two $5,000 scholarships sponsored by Baxter Corporation, are awarded annually, and are administered by the Association of Indian and Inuit Nurses of Canada. The aim of the scholarships is to encourage nurses of Indian and Inuit ancestry who intend to serve in the Northwest Territories or Yukon, by helping them obtain the specialized knowledge they will require. Consideration will be given to applicants of Indian and Inuit ancestry who intend to serve in the North, including:

a. Students who are graduating from a registered nurses’ course and are accepted into one of the following specialized training programs:
   i. community health nursing,
   ii. outpost nursing,
   iii. midwifery;

b. Graduate nurses already serving in isolated communities, who are accepted into one of the specialized training programs listed above;

c. Those who are or will be enrolled in a Bachelor level nursing program.

The successful applicant must provide documentation of his/her efforts to secure employment in isolated northern native communities. Completed applications must be received by the President of the Indian and Inuit Nursing of Canada by July 1 each year. Successful candidates will be notified by August 1. Further information may be obtained by writing to President Aboriginal Nurses Association of Canada, 55 Murray Street, 3rd Floor, Ottawa, Ontario K1N 5M3 or by telephone to (613)230-1864 or by fax to (613)230-1542.

The Patricia Blackburn Memorial Bursary Fund
This fund has been established at Grenfell Campus, Memorial University of Newfoundland, in memory of Patricia Blackburn and her grandson Erik Blackburn. The annual income is to be used at the discretion of the Vice-President (Grenfell Campus) to facilitate or improve the educational opportunities of deserving young people from rural Newfoundland & Labrador. The fund will assist one or more promising students who would otherwise be unable to attend or to continue university.

The Bristol Laboratories of Canada Prize
This prize of $200.00 is to be used for the purchase of Medical books. It is to be awarded to a first-year medical student on the basis of academic performance as well as the interests and the needs of the student. Works on Pharmacology and Therapeutics will ordinarily be included in the books selected. The award is made by the Dean of Medicine’s Advisory Committee on Awards, Bursaries and Scholarships.

Calder Scholarship
The Calder Scholarship, valued at $500.00 has been created by the Town of Burgeo to honour Drs. Mike and Ann Calder for their combined sixty years of service to the town. It will be awarded annually to a student who has graduated from a school in Burgeo, who is enrolled in a post-secondary program of studies which leads to a career in the health care field. Students must apply, prior to November 30, on an application form provided by the Town of Burgeo. Students in any year of their programs may apply.

Cal Callahan Memorial Bursary
Each year this Association offers a bursary, or bursaries, totalling six thousand dollars ($6,000.00) to sons, daughters, or legal wards of persons who derive their principal income from the Pipeline Industry and whose employers are Members of this Association. The purpose of these Bursaries is to give financial assistance to students who are beginning undergraduate studies in a full program leading to a Degree or Certificate in any field, at a recognized University or College in Canada. Selection will be made by the Executive Committee, based upon scholastic record and financial need, provided the applicant otherwise qualifies. Applications may be obtained from the Pipe Line Contractors Association of Canada, Suite 720, 5915 Airport Road, Mississauga, Ontario, L4V 1T1, and must be returned by not later than September 30th accompanied by a receipt or other proof of enrollment.

Canadian Armed Forces University Training Plans
Selected students may qualify for financial assistance through these Canadian Armed Forces University Training Plans: the Regular Officer Training Plan (ROTP); the Regular Officer Training Plan (ROTP-Coop, M.U.N. only); the Dental Officer Training Plan (DOTP); the Medical Officer Training Plan (MOTP), and the Reserve Entry Scheme-Officers (RESOP). Full details may be obtained in writing from The Canadian Forces Recruiting Centre, Government of Canada Building, 354 Water Street, St. John’s, NL, A1C 1C4 or The Canadian Forces Recruiting Detachment, Herald Towers Building, Suite 407, 4 Herald Avenue, Corner Brook, NL, A2H 4B4.

Canadian Federation of University Women (Saint John, NB) Jean Flemming Memorial Scholarship for Mature Students - $1,500
The Canadian Federation of University Women – Saint John offers this scholarship to a mature female student pursuing degree studies at a Canadian university. Eligible candidates must be over 24 years of age, a resident of the greater Saint John area, and have completed a minimum of 30 credit hours – equivalent of one full year of study. The priority considerations in awarding the scholarship are academic merit and financial need. Preference will be given to those pursuing a degree on a full-time basis or who agree to register on a full time basis on receipt of the scholarship.

The Canadian Gerontological Nursing Association
Sancella/CGNA Nursing Scholarship - 2 awards of $1000.00. The purpose is to provide support to outstanding Registered Nurses undergoing further education in either an undergraduate nursing degree program, or a post graduate degree program that is relevant to career development in the field of Gerontological Nursing. The candidate must:

- Be a member of the Canadian Gerontological Nursing Association.
- Be registered to practise nursing in a Canadian Province.
- Have gained acceptance to a suitable full-time program in a recognized educational institution at the time of taking up the award.
- Exhibits interest in and potential for, a career in Gerontological nursing in Canada.

The values of the above awards are subject to change.
Canadian Hydrographic Association Awards
A sum of two thousand dollars ($2,000.00) will be awarded to a full time student in second year of a science or survey program at a bona fide university or a technological college in Canada. The award is intended to assist a deserving student in financing his/her education in a field related to survey sciences. The award will be made annually to the student judged the most deserving based on the information contained in the applications received. The applications are available from the Canadian Hydrographic Association, Institute of Ocean Sciences, 9860 West Saanich Road, Sidney, B.C. B8L 4B2, Attention: Barry M. Lusk. C.L.S.

Canadian Lung Association Fellowship/Research Grant Program
From funds provided by the Christmas Seal Campaign, fellowships and research grants are awarded by the Canadian Lung Association on recommendation of the Education Committee of the Canadian Thoracic Society, Canadian Nurses' Respiratory Society, and Physiotherapy Section.

Through the Canadian Thoracic Society, fellowships are awarded to physicians or to those holding doctorate degrees in the health sciences for periods of research training in the area of respiratory disease.

Through the Canadian Nurses' Respiratory Society, fellowships and research grants are awarded in the area of respiratory nursing at the Master's or post-Master's level.

The Physiotherapy Section of the Canadian Lung Association offers fellowships to physiotherapists pursuing post-graduate training, with respiratory research as the major component. Information and application forms may be obtained in writing to Canadian Lung Association, 75 Albert Street, Suite 908, Ottawa, Ontario, K1P 5E7.

Canadian Nurses Foundation Scholarships & Fellowships Competition
Scholarships and fellowships are awarded to nurses pursuing education at the baccalaureate, master and doctoral levels. In addition to non-specific studies, awards are available for specific area of practice such as northern nursing, occupational health, dialysis nursing, neurological nursing, oncology nursing, community health, gerontology nursing, pediatric nursing and nursing administration. Applicants must be members of CNA and CNF, be Canadian citizens and agree to work in Canada for a period of one year for each year of financial assistance. Application forms are available from their website cclin.ca/ or in writing to Canadian Nurses Foundation, 50 Driveway, Ottawa, Ontario K2P 1E2 or by telephone to (613)237-2133 or by fax to (613)237-3520.

Canadian Soroptimist Grants for Women - $5,000.00
This grant is available to female students pursuing a course of studies leading to a career of service to people who are in their final year of a four year undergraduate program. Further information may be obtained in writing to Soroptimist Foundation of Canada, c/o Doreen Dodd, St. Paul's College, Westmount Rd., N., Waterloo, Ontario N2L 3G5.

The Canadian Union of Public Employees, Local 1516, Scholarships
CUPE Local 1615 offers five scholarships annually valued at $500 each. The scholarships are available to students entering or already in a program of study at Memorial University of Newfoundland or a two-year program at any other recognized institution in St. John's or Corner Brook, who are children of CUPE Local 1615 members. The scholarships are awarded by the CUPE Scholarship Committee on the basis of academic ability only. Application forms are available from the CUPE Local 1615 Scholarship Committee.

The CANQUA '95 Undergraduate Research Awards
The national meeting of the Canadian Quaternary Association (CANQUA) was hosted by Memorial University of Newfoundland in 1995. As part of the legacy of that meeting, CANQUA is pleased to announce the creation of an undergraduate research award in Quaternary studies at Memorial University of Newfoundland. The award, valued at $200, is intended to support honours thesis research in any discipline related to the Quaternary Period. Two additional awards of one-year membership in CANQUA (including journal Subscription) will be granted in the same competition. Candidates will be selected on the basis of a submitted research proposal and academic excellence. Application forms and guidelines are available from and should be submitted to, the Geography Department. Deadline date for submission of applications is March 31.

Children of War Dead (Education Assistance) Act
This Act provides fees and monthly allowances for children of veterans whose death was attributable to military service. Inquiries should be directed to the nearest District Office of the Department of Veterans Affairs.

CIBA Student Award
The CIBA collection of medical illustrations provided by CIBA Pharmaceuticals is presented annually to the first-year student showing the most promise in the field of Anatomy. The award is made by the Dean of Medicine's Advisory Committee on Awards, Bursaries and Scholarships.

The Co-op Atlantic McEwen Scholarship
To honour the memory of Wesley H. McEwen, Co-op Atlantic offers two university entrance scholarships of $1000.00 each per year, available to a student for up to four years. The awards help deserving students reach their educational goals and are designed to improve understanding and knowledge of co-operation and co-operatives. Applicants must be (a) a full-time employee, or the dependent of a full-time employee, of Co-op Atlantic or one of its member co-operatives; or (b) dependents of members or members of member co-operatives of Co-op Atlantic. Further information may be obtained in writing to The Manager, Corporate Administrative Services, Co-op Atlantic, P.O. Box 750, Moncton, New Brunswick E1C 8N5.

The Donald E. Curren Scholarships
These scholarships (four of $1000.00 each and four of $500.00 each) are open to mobility impaired students who have been accepted by a university in the Atlantic Provinces, with preference to paraplegics and quadriplegics. The scholarships will be awarded on merit, and on such other criteria as the Selection Committee may determine. Recipients must be Canadian citizens or permanent residents, and residents of the Atlantic Provinces. Application deadline is July 15. Application forms may be obtained in writing to Donald E. Curren Scholarship Fund, c/o Canadian Paraplegic Association, Nova Scotia Division, 5599 Fenwick Street, Halifax, Nova Scotia B3H 1R2.

Epilepsy Newfoundland and Labrador

a. The Jim Hierlihy Memorial Scholarship
This scholarship, valued at $1000, will be awarded annually to an undergraduate student at any post-secondary institution in Canada or the United States, who have diagnosed epilepsy and are a member in good standing of Epilepsy Newfoundland and Labrador, at the time of scholarship application. Evaluations will be based on a combination of the applicant's grades, extracurricular activities, and financial aid.

b. The Mature Student Scholarship
This scholarship, valued at $1000, will be awarded annually to an undergraduate student at any post-secondary institution in Canada or the United States, who is at least 21 years of age, who has diagnosed epilepsy and is a member in good standing of Epilepsy...
Newfoundland and Labrador, at the time of scholarship application. Current board or staff members are not eligible to apply for these scholarships. Former board or staff members and/or their family members can apply, if they have been out of the service of Epilepsy Newfoundland and Labrador for two years. This two year period will be calculated as two years prior to the scholarship award date.

Award holders must be prepared to enter or be currently entered in a post-secondary training institution in the academic year of application. Scholarship applications must be received by Epilepsy Newfoundland and Labrador no later than November 1st of the academic year. Notification of award will be made no later than November 15th. The award holder must submit to Epilepsy Newfoundland and Labrador confirmation of admission or enrollment as soon as possible after selection, but not later than January 15th of the academic year. The successful applicant should be available, in person, to receive their award at a formal presentation.

Further information, memberships or applications may be obtained in writing to Epilepsy Newfoundland and Labrador, 261 Kenmount Road, St. John's, NL, A1B 3P9 or by telephone to (709) 722-0502, or by fax to (709) 722-0999, or by e-mail: epilepsy@nt.aibn.com, or through the website at www.epilepsynl.com.

Terry Fox Humanitarian Award Program
This program is intended to encourage Canadian youth to seek the high ideals represented by Terry Fox, by the granting of commemorative scholarships for the pursuit of higher education. The value of each award is $3000.00 annually for a maximum of four years or until a first degree is obtained. Selection criteria for recipients will be based on demonstration of the highest ideals and qualities of citizenship and humanitarian service while in pursuit of excellence in their academic, amateur sport, fitness, health, community service and related endeavours. Deadline for the submission of applications is February 1st. Applications are available in writing to Terry Fox Humanitarian Award Program, Simon Fraser University, 8888 University Drive, Burnaby, BC V5A 1S6 or by fax to (604) 291-3311.

Charles E. Frosst Medical Scholarship
This scholarship, valued at $1,000.00, will be awarded at the end of the fourth year to the student who, in the opinion of the Dean of Medicine's Advisory Committee on Awards, Bursaries and Scholarships, has shown the most promise in the field of Therapeutics. A suitably inscribed bronze medal is also presented to each year's winner.

Glory of Mozart Chamber Music Travel Bursary
This award was established by the 1991 St. John's International Mozart Chamber Music Competition Committee.

The Ford Hewlett Memorial Oncology Scholarship
A scholarship, valued at $1000, has been established by the Canadian Cancer Society, in memory of Mr. Ford Hewlett of Springdale, Newfoundland, who was a very dedicated volunteer of the Society. The scholarship is awarded annually to a third year medical student who has demonstrated interest in the field of research or clinical oncology.

S.R. Hussey Memorial Scholarship Fund
This fund was established some years ago by the Canadian Council of the Blind Clubs of the Atlantic region for the purpose of assisting registered blind students in continuing their education. The fund is available to registered blind students in the Atlantic region who are attending a recognized university. The fund is also available to assist the children of registered blind persons. Blind students interested in making application for assistance from this fund should contact the nearest office of the Canadian National Institute for the Blind for further information.

Imperial Tobacco Canada Scholarship Fund for Disabled Students
Purpose: To encourage young Canadian disabled students to pursue university studies with the ultimate objective of obtaining a university degree.

Field of study: Undergraduate program in any field of study.

Value: Each scholarship is valued at $1500.00 annually.

Number: Minimum 5.

Duration: One academic year - may be renewable upon application.

Conditions: Candidates must be disabled according to the following 1975 United Nations Declaration: A disabled person is "any person unable to ensure himself or herself wholly or partly the necessities of a normal individual and/or social life, as a result of a deficiency, either congenital or not, in his or her physical or mental capabilities."

Candidates must be Canadian citizens.

Candidates must have successfully completed the schooling requirements or equivalent for admission to an undergraduate program of study, or be presently registered as a full-time undergraduate student as defined by the University, and have successfully completed the last academic year. Candidates must not be employees or franchisees, or dependents of employees or franchisees of Imasco or any of its subsidiaries. Where tenable: At any Canadian university which is a member of, or affiliated to a member of the AUCC. Further information: Additional information and application forms are available in writing to The Awards Officer, Canadian Awards Section, Association of Universities and Colleges of Canada, 151 Slater Street, Ottawa, Ontario K1P 5N1. Completed applications in duplicate are to be returned to AUCC not later than June 1st.

Imperial Oil Ltd. Higher Education Awards (for Sons and Daughters of Employees and Annuitants)
The Higher Education Awards program provides full tuition and compulsory fees for sons and daughters of Imperial Oil Ltd. employees, annuitants, or deceased employees. Students must be accepted at an approved Canadian University or Community College. The student must begin their education within six years of starting secondary school (grade 9), and must have an average of at least 70% in the subjects required for admission by the institution. Students who do not qualify upon graduation from secondary school may be eligible should they achieve the equivalent of a 70% average while in post secondary education. Once an award is granted, the student must pass all subjects and complete a "full workload" each year. A student may qualify for up to four awards in a five year period, which begins when the student first starts post secondary education. Application forms and brochures explaining the program in more detail are available in writing to Administrative Management Services, Awards Division, P.O. Box 414, Pickering, Ontario L1V 2R6 or by telephone to (416)420-0642 or by fax: to (416)420-2516 or through the website at www.uregina.ca/awards/scholarships/.

The International Grenfell Association Bursary Program
The International Grenfell Association (supplemented by annual grants) will henceforth be awarded annually and are available to students resident in the region served by the International Grenfell Association (that being the Northern Peninsula and Coastal Labrador), and who are already in – or are about to enter – a qualifying post-secondary program. Bursaries are to be awarded primarily dependant on need, to deserving students accepted or continuing in a post-secondary educational institution, as follows:

1. a number of $6000 Bursaries
2. one $4000 Special Bursary, for a student who has been out of full-time schooling for at least five years, and is returning to full-time

Further information, memberships or applications may be obtained in writing to International Grenfell Association, 261 Kenmount Road, St. John's, NL, A1B 3P9 or by telephone to (709) 722-0502, or by fax to (709) 722-0999, or by e-mail: epilepsy@nt.aibn.com, or through the website at www.epilepsynl.com.

Archived Previous Calendar
Current University Calendar available at mun.ca/university-calendar
...post-secondary studies

3. A number of $3000 Bursaries

Post-secondary applicants need to take at least five courses in each academic term to be considered for an IGA Bursary. Application forms and further information are available in writing to Mr. Paul Canning, Administrator, International Grenfell Association, 81 Kenmount Road, 2nd Floor, St. John's, NL A1B 3P8, or by telephone to (709) 745-6162, or by fax to (709) 745-6163, or by email to igaf@nfld.net.

Dr. Jerzy Jarmasz Memorial Scholarship ($500)

This award was endowed in 2003 by the co-donors, Mrs. Mercedes Jarmasz and the Polish Heritage Foundation of Canada. It is available to any student of Polish origin. One scholarship is awarded each year. In order to be eligible, applicants must have completed two years of studies. The application deadline is June 30. Application forms are available at www.polishheritagefoundation.org/

Kin Canada Bursaries

Applicants to the Kin Canada Bursaries must be Canadian citizens or permanent residents and must be full-time students in the process of graduating from high school, or currently studying or registered at a post-secondary institution. Anyone interested in applying for these bursaries may use the standard application form available at www.bursary.ca and submit it to the Kinmen, Kinette or Kin Club nearest your permanent residence by February 1st. Disbursements take place in May.

Leonard Foundation Scholarships

These scholarships, established in 1916 by the late Reuben Wells, are awarded based on financial need following an application and nomination process. The scholarship amount is $1,000 or $1,500. Application forms are available by contacting Beverley Park at (709) 726-3223 ext. 244, or by email bpark@nlta.nl.ca, or online at the Leonard Foundation website www.leonardfnd.org. Please note that you do not return applications directly to the Leonard Foundation.

Gerry Lynch Memorial Scholarship

This scholarship, valued at $3,000.00, is awarded annually at the NLMA annual meeting to a graduating Memorial University of Newfoundland Medical student in good standing. Applicants are required to write a research paper of 1500-2000 words on a topic selected each Fall by the NLMA Board of Directors. The scholarship is administered by the Canadian Medical Foundation and will be available in perpetuity.

The Merck Frosst Award

Merck Sharp & Dohme Canada Limited provides an annual award of $1,000.00 (or, when necessary, two awards of $500.00 each) to a third-year student of each Canadian medical school. This award is intended to recognize the efforts of the medical student who has shown the most promise in the field of Therapeutics. A copy of the current edition of the Merck Manual will be offered together with the monetary prize. The awards are made by the Dean of Medicine's Advisory Committee on Awards, Bursaries and Scholarships.

The Dr. Leonard A. Miller Award

This award, in memory of Dr. Leonard A. Miller, is given annually to the most outstanding student in the study of Community Medicine. The award, in the amount of $500.00, is funded jointly by the Faculty of Medicine and the General Hospital. The selection of the recipient for the award will be made at the completion of first year medical studies. The award is made by the Dean of Medicine's Advisory Committee on Scholarships, Awards and Bursaries.

The National Sea Products Limited Scholarships

Five university entrance scholarships valued at $1500.00 each are made available annually by National Sea Products Limited. The awards are open to children of permanent employees of the company or its wholly-owned subsidiaries, and to children of crew members of the company's offshore trawlers who have been employed with the company for at least twelve months. Further information and application forms are available in writing to The Awards Officer, National Programs Division, Association of Universities and Colleges of Canada, 151 Slater Street, Ottawa, Ontario K1P 5N1.

The Natural Medicines Comprehensive Database Recognition Award

This award is presented to an outstanding graduating pharmacy student who has shown an interest in evidence-based approach to patient care, in particular when considering natural medicines. The winner receives the current edition of the Natural Medicines Comprehensive Database Book, assess the Database online, complimentary enrollment in the Natural Medicines Comprehensive Database continuing education series, and an award certificate.

Newfoundland Light & Power Co. Limited Employees' Association Scholarships

Sons and daughters of Newfoundland Light & Power Co. Limited employees and certain other relatives of single employees, may apply for the above scholarships if they intend to pursue post-secondary study. In applying, applicants should note that employees must be members of the Newfoundland Light & Power Co. Limited Employees' Association and regular contributors to its Scholarship Fund. Applications and information are available in writing to Employees' Association, Newfoundland Light & Power Co. Limited, P.O. Box 8910, Kenmount Road, St. John's, NL A1B 3P6.

Newfoundland Medical Association Awards

The Newfoundland Medical Association will make two awards of $1,000.00 available to students at the end of second year of medical studies. These awards are intended to recognize potential interest in the organizational aspects of the profession of medicine as judged by the contribution made by the student to the governance of the medical school. While academic excellence is not the main criterion, recipients should be in good academic standing. The recipient should be identified to the Executive of the Association for approval upon recommendation by the Dean of Medicine's Advisory Committee on Awards, Bursaries and Scholarships.

Ocean Ranger Memorial Award

On February 15, 1982, the Ocean Ranger Exploratory Drilling Platform sank, resulting in the tragic loss of the 84 crew members on board. As a memorial to this loss, an award program was established by the Ocean Ranger Disaster Fund. These awards, valued at $500.00 per year, are tenable by students who are entering or pursuing a post-secondary programme of studies at Memorial University of Newfoundland, the Fisheries and Marine Institute, and the College of the North Atlantic. In selecting candidates, preference will be given to widows and lineal descendants (children, grandchildren, great-grandchildren etc.) of victims of the disaster. In the absence of eligible candidates from this group, the award may be given to other fulltime students at the discretion of the Ocean Ranger Award Selection Committee. Information and application forms may be obtained from the Scholarships & Awards Offices at the Newfoundland Medical Association, 151 Slater Street, Ottawa, Ontario K1P 5N1. Applications must include documentation to clearly verify applicant's eligibility.

The Gregory J. Power Poetry Awards

The proceeds from a sum of money donated to the University by Mr. Gregory J. Power will (depending on the merit of submissions) be awarded as first, second, and third-place prizes in an annual poetry competition administered by the Department of English, Memorial University of Newfoundland. The competition will be open to full or part-time students at the University upon submission of original, unpublished work. The selection of winners will be the responsibility of the Head, Department of English, acting on the advice of a special committee. Entry forms and further information may be obtained by contacting the Department of English.

Prize in Psychiatry

To be awarded by the Psychiatry Department to the most outstanding student in Psychiatry in the Clinical Clerkship Year (Third-Year...
The Pro Vice-Chancellor's Prize
The Strategic Framework for Memorial University of Newfoundland states that Memorial will enrich undergraduate education by helping students to experience the excitement of intellectual discovery, introducing undergraduates more effectively to the wider academic enterprise. In encouragement of this objective and in recognition of superior writing and scholarship by undergraduate students that deserves a wider audience, the Vice-President (Academic) and Pro Vice-Chancellor has established a series of prizes for the best undergraduate scholarship done each year at the University.

Instructors are invited to nominate examples of their undergraduate students’ course work for the Pro Vice-Chancellor's Prize. The professor will certify that the work is original and the student's own work, and submit it to his/her head/director who will transmit it to the committee. Students may also submit their own course work for consideration. Instructors’ comments should not appear. In accepting nomination or making application, students agree to publication.

Nominations and applications will be assessed by a selection committee consisting of five academic staff members and chaired by the Associate Vice-President (Academic). The committee will adjudicate entries for their intellectual originality, cogency, facility of expression, and adherence to principles of scientific inquiry and critical thinking.

The value of the prize is $500 cash or a $1000 scholarship tenable in a graduate program at Memorial University of Newfoundland. Up to five prizes will be awarded each year. At the discretion of the selection committee, honourable mention may be accorded to entries beyond the available number of prizes.

Rixon Rafter Scholarship Fund
This fund was established in memory of Rixon Rafter, a former student of the Ontario School for the Blind, who became a successful newspaper owner in Ontario. Awards from this fund are intended to supplement, but not replace assistance available to students from existing sources. The amount granted to students from this fund is determined by the Rixon Rafter Scholarship Committee and financial need is taken into consideration. Registered blind students may request assistance from the fund by contacting the nearest Canadian National Institute for the Blind office in their area.

The Rhodes Scholarship
A Rhodes Scholarship is tenable at the University of Oxford and may be held for three years. Since, however, the majority of Rhodes Scholars obtain standing which enables them to take a degree in two years, appointments are made for two years in the first instance. Scholars may, however, hold the Scholarship for only 1 year. Those Scholars who elect to read for a D.Phil. at the time of admission may apply for a third year on stipend. The Rhodes Scholar must present a definite plan of study for that period satisfactory to his/her College. Rhodes Trustees. The Rhodes Scholar may apply to any one of the courses of study available at the University of Oxford, subject to the consent of the college or, in the case of graduate study, the relevant faculty or department. The stipend of a Rhodes Scholarship consists of a direct payment to the University and to the Scholar’s College of approved fees (such as matriculation, tuition, laboratory fees, and certain other set charges), plus a maintenance allowance, which is paid directly to the Scholar at the rate of at least £3,480 per annum to cover board, lodging and other expenses. The sum provided should be sufficient to enable a Scholar to meet the necessary expenses for term-time and vacations, but those who can afford to supplement it to a modest extent from their own resources are advised to do so. Reasonable travel expenses to and from Oxford will be paid by the Trust. Application forms containing full particulars can be obtained from the Secretary of the Selection Committee for the Province of Newfoundland. Inquiries may be directed in writing to the Secretary of the Selection Committee to Mr. Glenn Janes, Argyle Building, 68 Portugal Cove Road, St. John’s, NL, A1B 2L3, by telephone to (709) 758-0912, by fax to (709) 758-0927, or email to glennjanes@researchnl.com.

Robin Hood Multifoods Scholarship
One scholarship, valued at $1000.00 for a two-year period, is made available by Robin Hood Multifoods to a student entering first-year university. For students entering Memorial University of Newfoundland, priority will be given to those enrolled in a Nutrition or Biology program. The award will be made on the basis of a candidate’s participation in youth activities and priority is given to 4-H members, provided that the candidate meets the necessary academic and financial need requirements. Details of applications and student forms are available in writing to The Co-ordinator, Youth Services Division, Confederation Building, St. John's, NL, H3C 1E3.

The G. Allan Roeher Institute Awards
The G. Allan Roeher Institute offers bursaries to graduate students and research grants (up to $8000 each) to post-graduate students and faculty members or associates, who are interested in the field of mental handicap or related fields. These awards are made possible through the support of the Scottish Rite Charitable Foundation of Canada. Further information and application forms may be obtained in writing to The Secretary; Bursaries and Grants Adjudicating Committee, G. Allan Roeher Institute, Kinsmen Building, York University, 4700 Keele Street, Downsview, Ontario M3J 1P3.

Wojciech Rogozinski Memorial Scholarship ($1000)
This award was endowed in 2007 by the donors, Mr. George Tymowski and Mrs. Danuta Tymowski. It is available to any student of Polish origin who demonstrates financial need. One scholarship is awarded each year. In order to be eligible, applicants must have completed two years of studies. The application deadline is December 31. Application forms are available at www.polishheritagefoundation.org/.

Royal Canadian Legion Scholarships
a. Provincial Command Scholarships
Two scholarships, valued at $750.00 each, are awarded annually to students entering University for the first time who are children of ex-service personnel, or of Life, Ordinary or Associate Voting Members of the Legion. Actual financial need is taken into account in addition to scholastic standing when awards are made.

b. Dominion Command Scholarships
Two scholarships, valued at $750.00 each, are awarded annually to students in their second, third, or fourth-year of university, who are the children of ex-service personnel, or of Life, Ordinary or Associate Voting members of the Legion. Actual financial need is taken into account in addition to scholastic standing when awards are made. Application forms available in writing to The Newfoundland & Labrador Command, The Royal Canadian Legion, P.O. Box 5745, St. John's, NL, A1C 5X3.

The Robert B. Salter Scholarship in Medicine
This scholarship is awarded annually from income derived from an endowment by Dr. Robert B. Salter, Professor and Head of Orthopedic Surgery at the University of Toronto, who has had a long association with the Grenfell Mission. This scholarship is to be awarded to the third-year undergraduate medical student who best exemplifies the qualities of compassionate and competent patient care. Preference will be given to students born in Newfoundland and Labrador. The award is made by the Dean of Medicine's Advisory Committee on Awards, Bursaries and Scholarships.

Diana Lemire Savident Memorial Bursary
Diana Lemire Savident (1943-1994) was born and raised in Rouyn, Quebec and moved to Prince Edward Island in 1973. Always an avid student, she also gained respect as an art teacher. Applications for the scholarship will be accepted from female residents of Prince Edward Island.
County 18 years of age and older. The award will be given to the applicant who displays the most potential for development and that sense of exploration in the visual arts epitomized by Diana Lemire Savident's own career. Financial need will be an important factor in determining the recipient but not necessarily the only one. Applicants are expected to be pursuing the arts as a career option or serious avocation. Eligible programs include: study in the visual arts at recognized post-secondary institutions; summer schools or professional level courses and advanced workshops and seminars, minimum duration of five days.

The bursary will be awarded in June of each year commencing in 1996 and the amount of the bursary will be determined each year based on the capital fund invested. The award will be presented in the form of a cheque or bank draft payable jointly to the successful applicant and the educational institution. The Awards Committee may vary this rule if it is not applicable. No award will be made with respect to expenses already incurred. Should the program applied for be cancelled or the recipient withdraw or fail to enroll, the funds must be returned to the East Prince Women's Information Centre.

Applications will be invited in March of each year through public announcements and other means with an application deadline of May 15. All applications must be accompanied by a resume and a full description of the program being pursued. The applicant should include a one page summary of personal background in art achievement and what goals are being pursued by following the study program for which the being reported. All applications must be prepared to display a small portfolio of work, preferably in more than one medium. Where the program is more than one year in duration applicants are eligible to re-apply. Applications will be received until May 15 and may be obtained in writing to East Prince Women's Information Centre, 75 Central Street, Summerside, PE C1N 3L2 or by telephone to (902) 436-9856.

**Shulich Leader Scholarships**

Canadian Schullich Leader Scholarships are undergraduate scholarships for students intending to enroll in the STEM (Science, Technology, Engineering, Mathematics) areas of study at a minimum of one of the 20 participating universities. All Canadian high schools and secondary schools (not including Quebec) may submit one Schullich Leader Nominee each. Cégeps (in Quebec) may select two nominees each. Schullich Leader Nominees are selected by their individual schools and must possess at least two of three criteria:

1. Outstanding community, business or entrepreneurial leadership
2. Academic excellence
3. Financial need

Once Schullich Leader Nominees are verified, they can apply their nomination to the participating universities in Canada where they intend to submit formal applications for undergraduate study for the upcoming Fall semester. Formal applications for undergraduate study must be submitted by each Schullich Leader Nominee to the appropriate university. All participating universities are responsible for selecting the Schullich Leaders for their institutions. Forty (40) Canadian Schullich Leaders are selected—two Schullich Leaders at each participating university. Half of these undergraduate entrance scholarships (20) are valued at $60,000 CAD and are reserved for nominees pursuing degrees in science, technology or mathematics (non-engineering programs). The remaining Schullich Leader Scholarships (20) are valued at $80,000 CAD and are reserved for nominees pursuing a degree in engineering-based programs. Each participating university will select two Schullich Leaders from a pool of Schullich Leader Nominees, one at $60,000 CAD and one at $80,000 CAD. The scholarship is distributed during each Schullich Leader’s term of undergraduate study and will start in the academic year in which it is awarded. Schullich Leader Scholarships are part of a $100 million gift in perpetuity on behalf of UJA Federation of Greater Toronto and the Seymour Schullich Foundation.

**The Society of United Fishermen Memorial Scholarships**

There shall be awarded annually by this Society two scholarships of a combined value of $600.00. These scholarships are awarded to children of members or deceased members of the Society. The scholarships are tenable at Memorial University of Newfoundland or any other institution of learning at which the student might wish to continue his or her studies in the year following graduation from high school. Further information and applications forms may be obtained in writing to The Grand Secretary, Society of United Fishermen, P.O. Box 1434, St. John's, NL. The deadline date for application is July 1st.

**The St. John Ambulance Bursary**

This bursary of $1,000.00 is awarded to a student who is eligible for admission to a Bachelor's Program at a recognized University or Community College. Post-basic nurse applicants are required to be members of their Provincial/Territorial Nurses' Association and hold current registration or a Certificate of Competence. All applicants must have a St. John Ambulance Affiliation and must demonstrate financial need. The application deadline is March 15. Further information and applications forms is available in writing from St. John Ambulance Provincial Council or in writing to St. John Ambulance National Headquarters, 312 Laurier Ave. E., Ottawa, Ontario K1N 6P6 or by contacting Joan Wills, Deputy Director of Training Health Care by telephone to (613) 236-7461 or fax to (613) 236-2425.

**The Surgery Prize in Anatomy**

This prize, valued at $500.00, is awarded annually to a first-year student who has demonstrated a high proficiency in Anatomy, particularly in the practical field. Nomination of a candidate is made by the Professors of Anatomy and the Professor & Chairman of Surgery. The award is made by the Dean of Medicine's Advisory Committee on Scholarships, Awards and Bursaries.

**The Patrick Tasker Masonic Educational Fund**

This fund was established to provide financial assistance for the education of children of deceased, incapacitated and/or needy Masons who were or are members of participating Masonic Lodges in Newfoundland. The fund provides a limited number of scholarships (up to a value of $800.00): payment of tuition fees for first-year students, and interest-free loans. In addition to the above, four entrance scholarships of $500.00 each are available to the dependants of any eligible member of the Masonic Fraternity within the province of Newfoundland and Labrador. These scholarships are awarded on the basis of academic achievement in Grade XII and are tenable at Memorial University of Newfoundland or at any other approved post-secondary institution in the province. Further information and applications forms is available in writing from The Patrick Tasker Masonic, Education Fund, P.O. Box 5481, St. John's, NL, A1C SW4, or by contacting ATTN: The Secretary.

**Waterford Hospital Board of Management Scholarships**

The Waterford Hospital Board of Management annually awards two scholarships, valued at $500.00 each and tenable at Memorial University of Newfoundland, to children of employees of the Hospital. The awards are made on the recommendation of a Selection Committee especially appointed by the Board for that purpose. One of the scholarships is to be awarded to a female and the other to a male. Generally they are to be awarded to students who are entering the University for the first time. In the absence of suitable entrance applicants, the scholarships may be re-awarded or awarded to other children of employees who are beyond first year. In selecting suitable applicants academic standing as well as financial need will be taken into account. Applications for the scholarships may be obtained from the Administrator of the Hospital and must be completed and returned to that office by May 1st of any year.

**The Western Memorial Regional Hospital Scholarship**

This scholarship of $500 is derived from interest on funds invested by the Medical Staff of the Western Memorial Regional Hospital and is awarded annually to a student who is entering the third year of medical studies at Memorial University of Newfoundland. The recipient shall be a bona fide resident of that area served by the Western Memorial Regional Hospital and shall have high academic standing. The scholarship is awarded by the Medical Staff of Western Memorial Regional Hospital in consultation with the Dean of Medicine. Applications should be made in July of each year to The Chief of Staff, Western Memorial Regional Hospital, P.O. Box 2005, Corner
The Jacques Whitford Student Incentive Program
The student incentive program will provide a four month paid position with a $2,000 award at the end of the work period. Both co-op work terms and summer positions will be considered. To be eligible candidates must be: full-time students with at least 50% of their credits achieved, have an 80% average, be fluent in English for all offices and fluent in French for the Montreal office, be legally entitled to work in the country to which they are making application and have excellent communication skills. Application forms for Memorial University of Newfoundland students are available from and should be returned to the office of the Associate Dean, Faculty of Engineering and Applied Science or the Faculty of Science. Applications must include: resume, official university transcript and a one page letter outlining candidate’s aspirations. Deadline for application is January 31.

The Margaret Williams Trust Fund
This fund was established to promote the development of librarianship in Newfoundland and Labrador by providing funds for scholarships, research, special projects and work exchange opportunities. The value of awards will depend upon the annual interest earned on the fund. Further information and applications forms is available in writing from Chairman, Board of Trustees, Margaret Williams Trust Fund, Queen Elizabeth II Library, Memorial University of Newfoundland, St. John’s, NL, A1B 3Y1.

Work Term Scholarships & Awards in Engineering
1. W.W. Cossitt - This award is intended for the Senior Engineering Student (Work Term 4, 5, & 6) who has made the most important contribution to an employer and therefore to the Co-operative Engineering Program. The award is made available by the Professional Engineers and Geoscientists of Newfoundland and Labrador (PEGNL) once per semester and has a monetary value of $500. PEGNL issues the final award on the recommendation of the Dean, Faculty of Engineering and Applied Science and the Engineering Division of Co-operative Education. The Division's recommendation is based on: a) Supervisor nomination; b) Student work performance; c) Student work report or oral presentation and written summary; d) Student academic standing (must be scholarship standing).
2. PEGNL Eastern Chapter - This award is intended for the Junior Engineering Student (completing work terms 1, 2, & 3 prior to Academic Term 5) who has made the most important contribution to an employer and therefore to the Co-operative Engineering Program. The award is made available by the Professional Engineers and Geoscientists of Newfoundland and Labrador (PEGNL) Eastern Chapter once per semester and has a monetary value of $500. PEGNL Eastern Chapter issues the final award on the recommendation of the Dean, Faculty of Engineering and Applied Science and the Engineering Division of Co-operative Education. The Division's recommendation is based on: a) Supervisor nomination; b) Student work performance; c) Student work report; d) Student academic standing (must be scholarship standing).

11 Loan Funds
Maude Abbott Memorial Scholarship Loan Fund
This fund was established by the Federation of Medical Women of Canada. Small loans are available to any woman medical student or first-year intern. In special cases a loan of up to $1000.00 may be granted to a medical woman for recognized post-graduate training. Loans are repayable within five years of date of issue, after which time interest will be charged at the rate of 5% compounded annually. Information regarding these loans may be obtained in writing to Secretariat, Federation of Medical Women of Canada, P.O. Box 8244, Ottawa, Ontario K1G 3H7.

The Association of Professional Engineers of Newfoundland Loan Fund
Established by the Association of Professional Engineers of Newfoundland for Engineering students during their time at this University. Apply to the Dean of Engineering and Applied Science, Memorial University of Newfoundland.

The Breezeway Emergency Trust Fund
In May, 1984, the Board of Directors of the Breezeway Bar gave to the University a sum of money, to be used as an emergency loan/bursary fund for needy students. The fund is administered by the Scholarships and Awards office, and within guidelines already developed by the Office for awards to financially needy students. These awards will not normally exceed $500.00.

Canada Student Loans Program Newfoundland and Labrador Student Loans Program
The Government of Canada and the Government of Newfoundland and Labrador work together to provide student financial assistance to residents of the province. Students who have a demonstrated financial need may, upon application, receive financial support from the Canada Student Loans and Labrador Student Financial Assistance Program. Students are encouraged to apply online at www.ed.gov.nl.ca/studentaid/ and to apply early.

Your eligibility to receive assistance will be determined by assessing your financial need. This is done by adding the costs of your education and living expenses, and then subtracting any money that may be available to you. This determines your assessed financial need - the amount of funding for which you may be eligible. The formula is: Costs - Available Resources = Assessed Need.

The provincial government provides funding for 40% of the amount assessed to a maximum total of $140 per week of study; the federal government provides funding for 60% of the amount assessed to a maximum total of $210 per week of study (in some cases, eligible recipients of Canada Student Loans and Canada Student Grants may receive greater than $210 per week of study in total federal assistance).

Receiving A Student Loan
a. Step 1: Once you are approved to receive assistance, you will be sent a Master Student Financial Assistance Agreement (MSFAA). This agreement must be signed and sent to the National Student Loans Service Centre (NSLSC) and include all supporting documents.

b. Completing and Submitting the Master Student Financial Assistance Agreement (MSFAA):
   Step 1 - Read the MSFAA!
   Step 2 - Complete the required sections.
   Step 3 - Take your MSFAA to a designated Canada Post outlet along with the following (for a list of designated Canada Post outlets, visit: www.CanLearn.ca):
   1. Your Social Insurance Number card or a copy of your Canada Revenue Agency Notice of Tax Assessment;
   2. Official government issued photo identification; and
   3. A void cheque (if you do not have a cheque, your bank or credit union can help you complete the Electronic Funds Transfer section of the MSFAA).
   b. Step 2: Once NSLSC receives your MSFAA your educational institution must confirm your enrolment.
   c. Step 3: Once full-time enrolment has been confirmed, but no earlier than the first day of classes, eligible financial assistance will be deposited to your bank account. If you do not have a bank account, a cheque made payable to you will be mailed to the address you
provide. All or a part of your financial assistance may be sent to your educational institution to pay fees owing. You will receive a letter from the NSLSC advising you of the amount of your disbursement that has been issued to you and/or your Educational Institution. You can also visit the NSLSC website at www.CanLearn.ca for further information.

The disbursement to you and/or your institution may not occur simultaneously due to a difference between the federal and provincial deposit dates.

For more information on the Canada-Newfoundland and Labrador Student Financial Assistance program please visit online at www.ed.gov.nl.ca/studentaid/; in-person at Coughlan College on the St. John’s Campus; by e-mail to studentaid@gov.nl.ca; by telephone to 1-888-657-0800 (toll-free) or (709)729-5849.

**Canadian Forces Personnel Assistance Fund**

**Education Assistance Loan Program**

1. The Canadian Forces Personnel Assistance Fund offers an Education Assistance Loan Program to assist serving and former members and their dependants with costs of full-time postsecondary education. This program consists of low interest loans of $1,200 and $1,500, then in $500 increments up to a maximum of $4,000 per student, per year, up to a maximum of $16,000 lifetime per student. It should be noted that a period of 12 months must elapse before a new application can be considered.

2. Serving or former members are eligible to apply; they must have served in the Canadian Army, after 1st October 1946, or in the Canadian Forces, after 31 January 1968, and have a minimum of one year Regular Force military service. Selection may be based on family income, years of service and individual family circumstances.

3. Loans are repayable by the member over a twelve, twenty-four, thirty-six or forty-eight month period.

4. Application forms are available on our website at www.cfpsa.com/en/SupportOurTroops/OurFunds/CFPAF/Pages/Programs.aspx, or from the Canadian Forces Base Financial Counsellors, district offices of Veterans Affairs Canada, and the Provincial Command offices of the Royal Canadian Legion. They may also be obtained by contacting the CFPAF Office at 234 Laurier Avenue West, Ottawa, Ontario, K1P 6K6, telephone 6137603447 or toll free 8887539828.

5. For those who wish to obtain their loan in time for the semester beginning in September, your submission should arrive at CFPAF by 30 June. Otherwise, applications will be accepted throughout the year until the funds allotted for the EALP are exhausted.

**The Gerald S. Doyle Engineering Scholarship Loan Fund**

By the generosity of the late G.S. Doyle, Esq., O.B.E., there are a number of scholarship loans available each year to Engineering students. The loans are normally in the amount of $500.00 per year, but may, when circumstances warrant, extend up to $1,000.00 per year. The loans are based on the recommendation of the Dean of Engineering and Applied Science. These loans may be granted for three successive years and are repayable at convenient times before graduation. Applications are available from the Office of the Associate Dean of Engineering and Applied Science.

**Helen M. Lodge Loan Fund**

The bequest of the late Professor Helen M. Lodge, formerly Professor of Education at this University.

**F.W. Rowe Student Loan Fund**

Based on royalties from Dr. Rowe’s book, The Development of Education in Newfoundland. At the author’s suggestion, priority is to be given to the children of active, retired or deceased teachers.

### 12 Scholarships, Bursaries and Awards Available to Graduate Students

#### 12.1 Awards Administered By the School of Graduate Studies

Information on all graduate awards listed below can be obtained from the Dean of Graduate Studies.

**Affinity NL (Ottawa) Scholarship**

This scholarship is made possible by the fund raising efforts of the Ottawa Affinity Newfoundland and Labrador group and is valued at a portion of the income on the investment according to Memorial University of Newfoundland’s Awards Program Spending Policy. Based on scholarship standing (academic excellence), it will be awarded in an alternating fashion to a first year undergraduate student (entering their second year) and then a first-year graduate student (entering the first year of either a Master’s or Ph.D. program). The student must be from a rural community in Newfoundland and Labrador, express an interest in returning to work in rural Newfoundland, and be registered for full-time studies at Memorial University of Newfoundland. The loans are based on the recommendation of the Dean of Engineering and Applied Science. These loans may be granted for three successive years and are repayable at convenient times before graduation. Applications are available from the Office of the Associate Dean of Engineering and Applied Science.

**13.1 Awards Administered By the School of Graduate Studies**

**Helen M. Lodge Loan Fund**

The bequest of the late Professor Helen M. Lodge, formerly Professor of Education at this University.

**F.W. Rowe Student Loan Fund**

Based on royalties from Dr. Rowe’s book, The Development of Education in Newfoundland. At the author’s suggestion, priority is to be given to the children of active, retired or deceased teachers.

## F.A. Aldrich Graduate Award

The F.A. Aldrich Graduate Award has been established in memory of the first Dean of Graduate Studies at Memorial University of Newfoundland. Up to three annual awards of $2,000.00 may be made. Awards will be made by the Dean of Graduate Studies to alumni of Memorial University of Newfoundland who are in the first year of a full-time graduate program and will be based on academic merit, and need only if all other things are equal. If the application is based on need, please make a case.

**Dr. Cather W. Andrews Scholarship**

This scholarship, valued at a portion of the income on the investment, was established by the family and former students of the late Dr. C.W. Andrews. It is awarded to a full-time student pursuing graduate work at Memorial University of Newfoundland in marine and/or freshwater biology. The recipient must meet the academic requirements for a graduate scholarship. Selection may be based on family income, years of service and individual family circumstances.

**Athletics Northeast (ANE) Running Club Award**

This award was created by Athletics NorthEAST (ANE) Running Club. The Athletics NorthEAST Running Club is a community-minded...
club made up of runners of all ages who embrace the concept of serious running as a way to enjoy an active and healthy lifestyle and to enhance their quality of life. To be eligible for the award, students must be members of the men’s or women’s cross-country team at Memorial University of Newfoundland and returning athletes must be a current member of the Memorial University of Newfoundland Sea-Hawks athletic team. Recipients must have clear academic standing, with preference for individuals who have demonstrated leadership and dedication to the cross-country program while endeavoring to maximize their running potential. Preference will be given to undergraduate students, though graduate students may be considered if no eligible undergraduate candidate is identified. The awards are valued at a portion of the income on the endowment, if funds allow there will be one award for a male and one award for a female student. The award in the case of an undergraduate student will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards or in the case of a graduate student will be granted by the Dean of Graduate Studies, based on the recommendation of the Athletics Director, School of Human Kinetics and Recreation.

The Atreya-Haritha Scholarship in Mathematics
This scholarship is the result of a generous donation by Dr. K.R. and Nandinin Kothandaraman. Valued at $1000 annually, it will be awarded on the basis of scholarship standing to a full-time student, either a senior level undergraduate or a graduate student in Mathematics and/or Statistics. In the case of an undergraduate student, the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Head, Department of Mathematics and Statistics. In the case of a graduate student, it will be awarded by the Dean, School of Graduate Studies, also upon recommendation of the head, Department of Mathematics and Statistics.

BMO Financial Group Graduate Scholarship in the Faculty of Business Administration
The BMO Financial Group Graduate Scholarship in the Faculty of Business Administration was created through the generous support of the Bank of Montreal through Dare To: The Campaign for Memorial University, and is valued at a portion of the income on the endowment. The scholarship is available to any full-time student enrolled in a Ph.D. program in the Faculty of Business Administration who meets the minimum academic requirements for a scholarship as defined by the University. One or more scholarships may be awarded annually and eligibility will be based on academic standing. It will be awarded by the Dean of Graduate Studies upon the recommendation of the Dean, Faculty of Business Administration.

The William H. and Bertha Baird Memorial Scholarship
This scholarship, valued at the annual interest on the endowment, has been established by Mrs. Edna Baird-Stephenson in memory of her parents. It will be awarded to a full-time graduate student at either the Master's or doctoral level. Eligible candidates should be residents of the province, or should have been resident in the province for at least three years prior to entering the program, excluding time spent at post secondary institutions. The award, based on academic excellence, will be made by the Dean, School of Graduate Studies on the recommendation of the Awards and Medals Committee.

Dr. James Barnes MBA Scholarship
This scholarship was established by the combined giving of faculty members, students, family and friends to acknowledge Dr. Barnes’ retirement in 2009 and to honour his contributions to the Faculty of Business Administration. Dr. Barnes joined Memorial University of Newfoundland’s faculty in 1968. He served as director of the School of Business Administration and Commerce, and was appointed the first Dean of the Faculty of Business Administration in 1981. Valued at a portion of the income on the endowment, it will be awarded annually to a full-time graduate student with scholarship standing who has left full-time employment to enter the M.B.A. program. The recipient must meet the minimum academic requirements for a scholarship. It will be awarded by the Dean of the School of Graduate Studies on the recommendation of the Dean, Faculty of Business Administration.

The Barrowman Biochemistry Graduate Travel Awards
These awards are established by the generous donations of family and friends of the late Dr. Jim Barrowman to honor his contributions to research and graduate students at Memorial University of Newfoundland. Dr. James Barrowman was recruited to Memorial University of Newfoundland in 1975 as associate professor of gastroenterology and gastrointestinal physiology, was promoted to professor in 1979 and, in 1981, took on the role of the first assistant dean for Research and Graduate Studies (Medicine). The income from this endowment will be used to provide a number of awards to graduate students registered in the Department of Biochemistry, so that they may present their research at relevant scientific conferences. Preference will be given to full-time students, but part-time students will also be considered. The awards will be made by the Dean of Graduate Studies upon the recommendation of the Head, Department of Biochemistry.

The Barrowman Community Health Graduate Travel Awards
These awards are established by the generous donations of family and friends of the late Dr. Jim Barrowman to honor his contributions to research and graduate students at Memorial University of Newfoundland. Dr. James Barrowman was recruited to Memorial University of Newfoundland in 1975 as associate professor of gastroenterology and gastrointestinal physiology, was promoted to professor in 1979 and, in 1981, took on the role of the first assistant dean for Research and Graduate Studies (Medicine). The income from this endowment will be used to provide a number of awards to graduate students pursuing a research program in the Division of Community Health and Humanities, so that they may present their research at relevant scientific conferences. Recipients will have demonstrated high academic standing and research potential. The awards will be made by the Dean of Graduate Studies upon the recommendation of the Associate Dean, Research and Graduate Studies, Faculty of Medicine.

Mahmooda Begum Scholarship
The Mahmooda Begum Scholarship, established by Dr. Faisal Khan in honour of his mother, is valued at $1,000. It will be awarded annually to a full-time engineering graduate student at either the masters or doctoral level with consideration given to academic achievement and contribution to the community at large. It will be awarded by the Dean of Graduate Studies on the recommendation of the Dean, Faculty of Engineering and Applied Science.

The George and Mary Behm Award
The George and Mary Behm Award, established by Dr. David Behm, is valued at $500. It will be awarded annually to a full-time graduate student enrolled in the Masters of Kinesiology program who has the highest average in the first four master’s courses of the M.Sc. Kinesiology program. The award will be made by the Dean of the School of Graduate Studies on the recommendation of the Dean, School of Human Kinetics and Recreation. It will be presented at the School of Human Kinetics and Recreation Awards Ceremony in November.

The Dean M. Ian Bowmer Graduate Travel Award in Medicine
This award is made possible through the generous contribution of funds by Dr. M. Ian Bowmer, former Dean of the Faculty of Medicine at Memorial University of Newfoundland, as well as contributions by faculty and staff, to endow a graduate travel award in his name. This endowment will provide an annual award, valued at a portion of the income from the endowment, to a full-time graduate student pursuing a research program at the Masters or Doctoral level in the Faculty of Medicine, assisting the presentation of the student’s research at a conference. The award will be competitive and based on an abstract or paper to be presented at the meeting. The award will be made by the Dean of Graduate Studies on the recommendation of the Associate Dean, Research and Graduate Studies, Faculty of Medicine. Application forms are available from, and should be submitted to, the Faculty of Medicine, Office of Research and Graduate Studies.
Dr. Kate Bride Memorial Conference Travel Award
This award was established by family, friends and students of Dr. Kate Bride (1968-2013) out of a deep and abiding love for her. Kate was an alumna member of Memorial University of Newfoundland’s Graduate Program in Education, an instructor in Women’s Studies and Education, and a full-time graduate student. Her dissertation, Learning to Love Again: Loss, Self Study, Pedagogy, and Women’s Studies, is widely regarded as a teaching and research paradigm. Kate was a wife, mother, and an educator who inspired generation after generation of students to pursue their academic dreams. The award will be granted by the Dean of the School of Graduate Studies upon recommendation of the Dean, Faculty of Education.

The Dr. Joe Brown Graduate Research Award in Aquatic Ecology and Aquaculture
This award was established to commemorate the life and work of Dr. Joe Brown through initial contributions by his family, friends, colleagues and students. As a Professor (Research) at the Ocean Sciences Centre from 1984 to 2005, Joe established a unique reputation both for his scholarly work in the areas of behavioural ecology of fishes and cold-water aquaculture and for his radiant, passionate sense of humour, humanity and empathy, particularly concerning students. The award in support of research activities will be normally available annually to a full-time graduate student in the second or subsequent year of study in the areas of aquatic ecology or aquaculture, and is valued at a portion of the income from the endowment. Given on the basis of scholarly merit and quality of research, the award will be made by the Dean of the School of Graduate Studies upon recommendation from the Director of the Ocean Sciences Centre.

The David Buchanan Graduate Research Award in Folklore
The Research Award is established in memory of Dr. David Buchanan, a leading international ballad scholar, faculty member in the Department of Folklore from 1979 to 1994, and the first Memorial University of Newfoundland Research Professor. Administered by the School of Graduate Studies, two awards of $500 will normally be given each year to fund costs related to national/international travel for the accomplishment of, or the presentation of, folklore research by students in the graduate program in folklore at Memorial University of Newfoundland. The awards, given on the basis of scholarly merit and quality of research proposal or conference paper abstract, will be made by the Dean of the School of Graduate Studies upon recommendation from the Head of the Department of Folklore, who will be advised by the Department of Folklore’s Scholarships, Bursaries and Awards Committee.

Buchans Scholarship Fund of ASARCO Incorporated
ASARCO Incorporated has established a scholarship fund, the annual interest on which will provide for students enrolled in the Department of Earth Sciences, Memorial University of Newfoundland, either a scholarship for postgraduate study and research, valued at $5000.00; or two scholarships for undergraduate study, valued at $500.00 each. The latter scholarships will be available only when no suitable candidate can be found for the former. In order to qualify for these awards, students must be native-born Newfoundlanders or graduates of Newfoundland high schools. In the case of the graduate scholarship, the award will be made by the Dean of Graduate Studies on the recommendation of the Head of the Department of Earth Sciences; the cases of the undergraduate scholarships, by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of Earth Sciences. Should no candidates be available in any year, the awards may be held over.

The Maurice J. Burke Memorial Scholarship
This scholarship, valued at a portion of income on the investment, was established by the family of the late Maurice Burke. Burke served in the Provincial Department of Education in the Teacher Certification Division for thirty-five years. He was also a columnist and author with a personal and professional interest in Newfoundland culture and folklore celebrating the uniqueness of Newfoundland outport life. It will be awarded alternately to a full-time graduate or undergraduate student in the Department of Folklore on the basis of scholarship standing. In the case of undergraduates it will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. In the case of graduates it will be awarded by the Dean, School of Graduate Studies. In both cases the scholarship will be awarded on the basis of a recommendation from the Head, Department of Folklore.

The Dr. Alfred T.H. Burness Graduate Award in Medicine
The award is established by the generous donations of family and friends of the late Dr. Ail Burness to commemorate the thoughtful and patient graduate supervision and kindness provided by Dr. Burness (Division of Basic Sciences, Medicine 1976 – 1991) to graduate students in the Faculty of Medicine. The award is intended to encourage graduate students to produce work of outstanding quality. The award will be given annually to a full-time graduate student pursuing a research program at the Masters level in the Faculty of Medicine who has successfully completed three semesters of the program. Selection will be based on course work, research, and other related accomplishments. Candidates must apply in writing, including a statement of eligibility as well as details of their area of research and progress, i.e. publications, presentations, other awards, etc. Each application must be supported by a reference from the candidate’s supervisor verifying the candidate’s area of research and progress to date. Applications should be submitted to, the Faculty of Medicine, Office of Research and Graduate Studies.

The Erin Bursey Memorial Leadership Award
This award was established by family and friends in memory of Erin Bursey, a Memorial University of Newfoundland student and women’s volleyball athlete who exhibited exceptional leadership skills, academic excellence and passion for her sport. Valued at a portion of the income on the investment, this award will aid student-athletes in their pursuit of post-secondary study. Recipients will be recognized for their outstanding leadership, commitment to their sport and role as ambassador in the community. Eligible candidates must meet the CIS requirements and regulations regarding athletic financial awards. The award will be open to all student-athletes, undergraduate or graduate, who are current members of a varsity team at Memorial University of Newfoundland and have a minimum of clear academic standing (as defined by the University). The award will be granted based on the recommendation of the Director of Athletics. For undergraduate students, the award will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. For graduate students, it will be awarded by the Dean of Graduate Studies.

Charles Butler Graduate Scholarships
These scholarships were established by a generous donation from Mr. Charles Butler of Pembridge, Ontario. Mr. Butler has been a long-time friend of Memorial University of Newfoundland and of Newfoundland and Labrador, supporting the University’s activities in the communities for many years. Two scholarships, valued at $2,500 each, will be awarded annually to full-time students enrolled in any year and any program of graduate study at Memorial University of Newfoundland. The recipients must meet the minimum academic requirements for a scholarship as defined by Memorial University. These scholarships will be awarded by the Dean of the School of Graduate Studies.
The Olivia and Ethan Button Award
The Olivia and Ethan Button Award, established by Dr. Duane Button, is valued at $500. It will be awarded annually to the student who has achieved the highest average in Exercise Physiology 3310 in the Bachelor of Kinesiology or Bachelor of Physical Education program at Memorial University of Newfoundland. If the successful candidate is an undergraduate student, the scholarship will be awarded to a woman enrolled full-time in the Master’s or Doctoral program in the Department of Human Kinetics and Recreation. If the successful candidate is a graduate student, it will be awarded bi-annually to a Master’s or Ph.D. student enrolled in the Faculty of Community Health and Humanities. The recipient has enrolled as a graduate student at Memorial University of Newfoundland, it will be awarded by the Dean, School of Graduate Studies. In both cases it will be awarded on the recommendation of the Dean, School of Human Kinetics and Recreation.

Faculty of Business Administration Associates’ Scholarship Fund
This fund was established through the contributions of members of the Associates’ Program of the Faculty of Business Administration. The fund will provide scholarships for undergraduate and graduate students in the Faculty. Awards will be made on the basis of academic merit and such factors as financial need and contribution to the Faculty. The award will be made annually to a full-time graduate student in the Faculty of Business Administration. The award will be made on the recommendation of the Dean, Faculty of Business Administration. In the case of the undergraduate program, the award will be made on the recommendation of the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. If at the time the award is presented, the recipient has not completed the final year of study, the award will be held for the following year. The award will be awarded annually to a full-time graduate student enrolled in either the M.B.A. program, the Master of Finance program, or the Ph.D. program in Business Administration. The recipient must meet the minimum academic requirements for a scholarship as defined by Memorial University of Newfoundland. The scholarship will be awarded by the Dean of Graduate Studies on the recommendation of the Dean, Faculty of Business Administration.

Canadian Beverage Association Graduate Business Scholarship
This scholarship was established by a generous donation from the non-alcoholic refreshment beverage industry of Newfoundland and Labrador. Value at a portion of the income on the endowment, it will be awarded annually to a full-time graduate student enrolled in either the Master of Business Administration, Master of Science (Environmental Science), or Ph.D. (Environmental Science) programs in the Faculty of Community Health and Humanities. Value at a portion of the income on the endowment, it will be awarded annually to a full-time graduate student enrolled in either the Master of Science (M.Sc.) in Management, or the Ph.D. in Management programs in the Faculty of Business Administration. The recipient must meet the minimum academic requirements for a scholarship as defined by Memorial University of Newfoundland. The scholarship will be awarded by the Dean of Graduate Studies on the recommendation of the Dean, Faculty of Business Administration.

Canadian Beverage Association Graduate Scholarship in Environmental Science
This scholarship was established by a generous donation from the non-alcoholic refreshment beverage industry of Newfoundland and Labrador. Value at a portion of the income on the endowment, it will be awarded annually to a full-time graduate student enrolled in either the Master of Environmental Science, Master of Science (Environmental Science), or Ph.D. (Environmental Science) programs in the Faculty of Science. The recipient must meet the minimum academic requirements for a scholarship as defined by Memorial University of Newfoundland. The scholarship will be awarded by the Dean of Graduate Studies on the recommendation of the Dean, Faculty of Business Administration.

Canadian College of Teachers Scholarship
This scholarship, valued at $1,000.00, is sponsored by the Cabot Chapter of the Canadian College of Teachers and is awarded annually to a full-time graduate student in the Faculty of Education for outstanding research. The award will be made on the basis of academic standing. The scholarship will be awarded by the Committee on Graduate Scholarships, Bursaries and Awards upon recommendation of the Dean, School of Graduate Studies.

Ying Cao International Community Health Graduate Student Award
This graduate student award was established through a generous donation by Ms. Ying Cao. Valued at $6,000, one graduate research award may be awarded annually to a full-time graduate student enrolled in either the Master of Environmental Science, Master of Science (Environmental Science), or Ph.D. (Environmental Science) programs in the Faculty of Community Health and Humanities (CHH), based on the student’s level of support through scholarships, fellowships and other Faculty monies. This award may be used separately or in conjunction with other student awards. During the year of the award, it is expected that the student and supervisor will seek external funding to support the research program. The application or nomination may take the form of a thesis or project proposal, but preferably supported by an explanation of why the work involved is particularly meritorious. Applications should be forwarded to the office of the Associate Dean of Graduate Programs and Research, Faculty of Education. The scholarship will be awarded by the Dean, School of Graduate Studies, upon recommendation of the Dean, Faculty of Education.

Chevron Canada Limited Rising Star Awards
The Chevron Canada Limited Rising Star Awards were established through a generous contribution from Chevron Canada Limited. Six awards, valued at $15,000 a year (renewable for a second year), will be awarded annually to full-time graduate students who are enrolled in a Masters or Doctoral program in the areas of Earth Sciences, Engineering and Applied Science, Economics, and Business. The awards will be based on the student’s level of support through scholarships, fellowships and other Faculty monies. This award may be used separately or in conjunction with other student awards. During the year of the award, it is expected that the student and supervisor will seek external funding to support the research program. The application or nomination may take the form of a thesis or project proposal, but preferably supported by an explanation of why the work involved is particularly meritorious. Applications should be forwarded to the office of the Associate Dean of Graduate Programs and Research, Faculty of Education. The scholarship will be awarded by the Dean, School of Graduate Studies, on the recommendation of the Awards and Medals Committee.

The Dr. Jack Clark Graduate Award
This award was established in memory of Dr. Jack Clark who served as President and Chief Executive Officer of C-CORE from 1984 to 1997. The award will be awarded annually to a full-time graduate student in the Faculty of Engineering and Applied Science who meets the minimum academic requirements for an award as defined by the University. Eligibility will be based on academic standing with preference given to those who have demonstrated financial need by presenting a case with their application. It will be awarded by the Dean of Graduate Studies upon the recommendation of theDean, School of Graduate Studies.
recommendation of the Dean, Faculty of Engineering and Applied Science.

Mary Coffey Memorial Bursary in Nursing
This bursary has been established in memory of Nurse Mary Coffey by her son, Dr. Charles Coffey. Mary’s dedication to patient care as a nurse was the source of inspiration for many members of her family to join the medical profession. The bursary will be valued at a portion of the income on the endowment and will be awarded annually. Eligible students will be enrolled full-time in any graduate program within the School of Nursing. Preference will be given to students with a focus on clinical practice. The recipient must meet the minimum academic requirements for a bursary as defined by the University and must demonstrate financial need by presenting a case with their application. The bursary will be awarded by the Dean of Graduate Studies upon the recommendation of the Dean of the School of Nursing.

Denis and Damien Collier Award
This award was established by former Memorial University of Newfoundland Varsity Wrestlers, Damien and Denis Collier. To be eligible, returning athletes must be a current member of a Memorial University of Newfoundland Sea-Hawks wrestling team and have achieved a minimum average of 65% based on the previous academic year of study at Memorial University of Newfoundland. First-year athletes will also be eligible to receive provided they have an 80% final admission average. First-year athletes who do not meet the minimum 80% entering average may be eligible following the release of winter grades as long as they maintain a 65% average on all coursework. This is a one-time allowance. Preference for this award will be given to student athletes who have demonstrated outstanding commitment, leadership, athletic ability and dedication to their teammates. The award is valued at $500 annually. It will be granted based on the recommendation of the varsity wrestling coach and the Director of Athletics. For undergraduate students, the award will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. For graduate students, it will be awarded by the Dean of Graduate Studies.

P.F. Collins Scholarship in Business
This scholarship was established by a generous donation from P.F. Collins International Trade Solutions. A local company committed to providing the highest standard of professional service, P.F. Collins has grown from a one-man office in 1921 to an international trade solutions company of the highest standard of professional service with a client base extending to virtually every sector of the economy. Valued at a portion of the income on the investment, it will be awarded annually to an undergraduate or graduate student in the Faculty of Business Administration. Preference will be given to a student pursuing a focus in Supply Chain Management or Resource Based Industries Management. If there is no eligible student who meets the aforementioned criteria, preference will be given to a student who is currently completing, or has recently completed, a work-term in the natural resources industries with a focus in Supply Chain Management and/or Operations Management. The recipient must meet the minimum academic requirements for a scholarship as defined by Memorial University of Newfoundland. In the case of an undergraduate student, the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. In the case of a graduate student, the scholarship will be awarded by the Dean, School of Graduate Studies. In either case it will be awarded on the basis of a recommendation from the Dean, Faculty of Business Administration.

Community Health Master’s and Doctoral Student Awards
These graduate student awards are established by the Division of Community Health and Humanities in recognition that many students who wish to be full-time students in Community Health Programs are unable to do so because they do not have sufficient graduate student funding to meet the full-time criteria as required by the Office of Research and Graduate Studies, Faculty of Medicine. One maximum amount of $5,000 annually to incoming graduate students who have demonstrated financial need and who wish to be full-time students who do not have adequate funding (by way of scholarship, fellowship or faculty research money) to qualify for full-time status. These funds may be used alone or in conjunction with other student awards or partial supervisory funding to meet the full-time funding requirement of the Office of Research and Graduate Studies (Medicine). During the year of the award, it is expected that the student and supervisor will seek external funding to support the research program. Normally a student will be eligible to receive the scholarship only once her or his program. If a suitable candidate is not identified in one degree category, two research scholarships may be awarded in the same degree program or to a student in good standing in the second or subsequent year of his or her program. There will be one competition per year, coinciding with the Winter semester selections process. All incoming candidates accepted for M.Sc. and Ph.D. programs in the Division of Community Health and Humanities will be considered for the awards in accordance with the terms and conditions described above. The graduate program committee of CHH will make recommendations to Research and Graduate Studies (Medicine). The awards are made by the Dean of Graduate Studies on the recommendation of the Assistant Dean of Graduate Studies (Medicine).

The Rob Crosbie Scholarship for International Study
This fund was established from contributions to the University’s Opportunity Fund Campaign by Mr. Rob Crosbie. The scholarship, valued at $500 annually, will support a Business student (graduate or undergraduate) who is on an academic international exchange and who has shown interest in pursuing a career in the oil and gas industry. In the case of undergraduate students, the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, Faculty of Business Administration. In the case of graduate students, it will be awarded by the Dean, School of Graduate Studies upon recommendation of the Faculty Committee on Graduate Studies.

Anna M. Curren Doctoral Scholarship in Nursing
This scholarship was established by a generous donation from Ms. Anna M. Curren. Ms. Curren leads an accomplished life as an author, civil rights leader, entrepreneur, nurse educator and philanthropist. She is the author of Math for Meds and Dimensional Analysis and co-authored best-selling textbooks for nursing education. In addition, she is the founder of Wallcur, Inc., the producer of Practi-Products which are used for the education of nurses and other health care practitioners. Valued at $3,000, the scholarships will be awarded annually to two students in the Doctor of Nursing program at the School of Nursing. The recipient must meet the minimum academic requirements for a scholarship as defined by Memorial University of Newfoundland. This scholarship will be awarded by the Dean of the School of Graduate Studies on the recommendation of the Dean of the School of Nursing.

Dr. Mohsen Daneshtalab Graduate Entrance Award
This award was established by generous donations from the family, friends and students of Dr. Mohsen Daneshtalab. Dr. Mohsen Daneshtalab was a world renowned medicinal chemist and professor in the School of Pharmacy at Memorial University of Newfoundland from 2000 until his passing in 2014. He was a champion of research and graduate students in the School of Pharmacy, who personally provided support for students during his tenure. This award has been created to continue his legacy of supporting research and helping graduate students. Valued at $500, it will be awarded annually to a full-time student entering a graduate program at the School of Pharmacy who has a strong record of academic excellence. In the instance where there is more than one eligible candidate, financial need may be taken into consideration. The recipient must meet the minimum academic requirements for an award as defined by Memorial University of Newfoundland. A student may only receive this award once during the course of their graduate studies at the School of Pharmacy. This award will be granted by the Dean of the School of Graduate Studies on the recommendation of the Dean of the School of Pharmacy.

Dr. Mohsen Daneshtalab Graduate Research Poster Award
This award was established by generous donations from the family, friends and students of Dr. Mohsen Daneshtalab. Dr. Mohsen
Daneshdalal was a world renowned medicinal chemist and professor in the School of Pharmacy at Memorial University of Newfoundland from 2000 until his passing in 2014. He was a champion of research and graduate students in the School of Pharmacy, who personally provided support for students during his tenure. This award has been created to continue his legacy of supporting research and helping graduate students. Valued at $200, it will be awarded annually to a student in a graduate program at the School of Pharmacy who has been selected as having the best research poster presentation at the annual Research Poster Competition. The recipient must meet the minimum academic requirements for an award. This award will be granted by the Dean of the School of Graduate Studies on the recommendation of the Dean of the School of Pharmacy.

The Sally Davis Scholarship
The Sally Davis Scholarship has been established to celebrate the memory and life work of Sally Davis. Contributions to the scholarship fund have come from family and friends who were so lovingly and generously influenced by Sally during her long life. The scholarship, valued at $1000.00, will be awarded annually in the Spring Semester. Eligible candidates must be full-time students in the Master of Gender Studies program. Preference will be given to a candidate studying in one of the following areas: peace and international understanding, literacy, children, labour movement, gun control, or environment. If there is no qualified graduate applicant in a particular year, the award may be offered to an undergraduate who is registered in a minor in Gender Studies who is in financial need. An individual may receive the award twice but no more. The second $5000 will be awarded after successful completion of the oral comprehensive examination. The recipient will be as “The gift of innovative thinking, a visionary spirit, and the tenacious patience required to successfully lead meaningful educational reform. It what public education could be. He was passionate about enabling schools to become better places for students to learn and for teachers to work. He was a transformational leader and change agent committed to collaborative partnerships and teamwork. He had a gift of innovative thinking, a visionary spirit, and the tenacious patience required to successfully lead meaningful educational reform. It will be awarded in alternating years to a doctoral student in educational administration who holds Dr. Dibbon's ideals and has been accepted into Ph.D. studies in the Faculty of Education. $5000 will be awarded in year one, when the student begins full-time studies. The second $5000 will be awarded after successful completion of the oral comprehensive examination. The recipient will be as “The David Dibbon Leadership Scholar” and will be expected to share his or her research findings with practitioners. The award will be made by the Dean of Graduate Studies upon the recommendation of the Director of Co-operative Education.

The Ernst R. Deutsch Memorial Scholarship in Geophysics
This scholarship is named in honour of Dr. Deutsch, a long-time faculty member at Memorial University of Newfoundland who passed away at a young age. The award will be valued at a portion of his income on the understanding that the scholarship will be awarded annually to a senior undergraduate student in the Earth Sciences (or related field of Physics) whose concentration is Geophysics. If there is no qualified undergraduate student, the scholarship will be awarded to a full-time graduate student in Earth Sciences who has received an undergraduate degree from Memorial University of Newfoundland and whose area of concentration is Geophysics. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Head, Department of Earth Sciences. The recipient must have completed both the final examination process and a thesis that demonstrates the following: originality of an idea, clear and effective presentation, a high quality of writing, and a significant contribution to the field of study examined in the thesis. If no eligible candidate arises in any given year, the award(s) will not be granted. Recipients will be selected by the Graduate Studies Committee of the Department of Earth Sciences.

The Ruby Dewling Memorial Award in Nursing
This award has been created in memory of Ruby Dewling, a respected faculty member in the Memorial University of Newfoundland School of Nursing. Ms. Dewling taught in all areas of the program as a clinical instructor. She started her career by earning a diploma in Nursing from the General Hospital School of Nursing and then completing the post-RN diploma in clinical supervision from the University of Toronto. A lifelong learner, Ms. Dewling, went on to earn a B.Sc. from Mount St. Vincent and an M.Sc. (Medicine) from Memorial University of Newfoundland. She remained deeply involved with nursing education throughout her life and serves as an exemplary model for the nursing profession. The award, valued at a portion of the income from the endowment, will be presented annually to a graduate student in the School of Nursing who has a passion for community health and who meets the minimum academic requirements for an award. Preference will be given to a full-time student. The award will be made by the Dean of Graduate Studies upon the recommendation of the Director of the School of Nursing.

The Dr. David Dibbon Leadership Scholar Award
The David Dibbon Award, valued at $10,000 ($5000 per year for two years), has been established by his family, friends, colleagues and students to commemorate the life and work of Dr. David Dibbon, Dean of the Faculty of Education, 2008-2010. David was committed to research focused on improving schools and school systems in Newfoundland and Labrador and elsewhere. He had great dreams of what public education could be. He was passionate about enabling schools to become better places for students to learn and for teachers to work. He was a transformational leader and change agent committed to collaborative partnerships and teamwork. He had a gift of innovative thinking, a visionary spirit, and the tenacious patience required to successfully lead meaningful educational reform. It will be awarded in alternating years to a doctoral student in educational administration who holds Dr. Dibbon’s ideals and has been accepted into Ph.D. studies in the Faculty of Education. $5000 will be awarded in year one, when the student begins full-time studies. The second $5000 will be awarded after successful completion of the oral comprehensive examination. The recipient will be as “The David Dibbon Leadership Scholar” and will be expected to share his or her research findings with practitioners. The award will be made by the Dean of Graduate Studies upon the recommendation of the Director of Co-operative Education.

Director’s Award for Exemplary Work Terms
Four awards will be offered annually to students enrolled in full-time co-operative education programs at the undergraduate and graduate level at Memorial University of Newfoundland. One award will be made for each of the Business, Engineering, Human Kinetics and Recreation programs, and one award for each of the Co-operative Education programs in the Arts and Science portfolio which currently include: Applied Social Psychology, Computer Industry Internship Option, Economics, Masters of Computer Science, Masters of Environmental Science, Masters of Political Science, Masters of Folklore, Political Science and Psychology. The recipients will receive a framed certificate and their names will be inscribed on a permanent plaque mounted in the Division of Co-operative Education. Nominations may also be made by employers. The deadline for nominations is January 30. The awards will be presented during National Co-operative Education Week. Only students who have completed a work term in the previous calendar year and have obtained a Pass with Distinction or its equivalent, in both the work performance evaluation and the communication component of the work term are eligible. In the case of undergraduates the award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. In the case of the graduates the award will be made by the School of Graduate Studies. In both cases awards will be made on the recommendation of the Director of Co-operative Education.

Craig Dobbin Memorial Scholarship for Master of Business Studies at the Waterford Institute and Memorial University of Newfoundland
This scholarship has been established by Mr. Pat O’Callaghan, the Ireland Business Partnership, the Ireland Newfoundland Partnership, the Provincial Department of Education, and Craig Dobbin family members in memory of Mr. Craig Dobbin. It will be awarded on an annually rotating basis to students at The Waterford Institute of Technology (WIT) and Memorial University of Newfoundland. In year one, and every alternating year thereafter, the scholarship will be awarded to a recent honors graduate (in the past 2 to 3 years) of one
of the undergraduate business programs in the Faculty of Business Administration program or Grenfell Campus, Memorial University of Newfoundland who is accepted into the Master of Business program, at the Waterford Institute of Technology, Waterford, Ireland. In the event that there is no such candidate, the scholarship will be awarded to two Memorial University of Newfoundland exchange students (undergraduate or graduate) to study (one academic term) at the Waterford Institute of Technology. In year two, and every alternating year thereafter, the scholarship will be awarded to a Waterford Institute of Technology student from the Faculty of Business Administration or Grenfell Campus, Memorial University of Newfoundland. Scholarship recipients will be required to complete and present a report on an aspect of the Ireland Newfoundland Partnership. In the case of Memorial University of Newfoundland undergraduate students, the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Business Administration or the Principal of Grenfell Campus. In the case of Memorial University of Newfoundland graduate students, the scholarship will be awarded by the Dean, School of Graduate Studies on the recommendation of the Dean, Faculty of Business Administration.

Eston Foundation Scholarship
This scholarship, valued at $1,500.00, is to be awarded to a student who has left full-time employment of five years or more to enter full-time studies in the MBA program, for completion or near completion of the degree. Selection of the candidate for the scholarship will be made on the basis of academic merit and financial need. Awards will be made on the recommendation of the Dean, Faculty of Business Administration, and the Dean of Graduate Studies. Preference will be given to Canadian citizens and permanent residents.

The Echos du Monde Classique/Classical Views Internship Fund
This fund jointly sponsored by the journal Echos du Monde Classique/Classical Views and the School of Graduate Studies, was established to support a full-time graduate student in Classics to train as an editorial intern with EMC/CV. It is awarded on the basis of academic standing to a full-time graduate student entering the Department of Classics and is valued at $10,000.00 per annum, paid over a period of three successive academic semesters. It may be renewed for one additional year. The internship will be awarded by the Dean of Graduate Studies on the recommendation of the editors of Echos du Monde Classique/Classical Views.

Ethnomusicology Award for Field Research
This fund has been established by Beverley Diamond and Clifford Crawley to advance research in ethnomusicology in Canada on the occasion of the beginning of graduate studies in the field at Memorial University of Newfoundland. One or more awards, valued at a portion of the income on the investment, will be awarded annually to full-time graduate ethnomusicology students in clear academic standing who wish to pursue field research. Selection will be made on the basis of a submitted research proposal. Application forms and guidelines are available from and should be submitted to the School of Music. The deadline date for submissions of applications to the Chair of the Interdisciplinary Advisory Committee for Ethnomusicology is March 31. If there are no suitable candidates in a given year the awards will not be awarded. The awards will be awarded by the Dean, School of Graduate Studies on the recommendation of the School of Music’s Scholarships and Awards Committee in consultation with the Interdisciplinary Advisory Committee for Ethnomusicology.

The Faculty of Business Administration Aboriginal Scholarship
A scholarship valued at $500 will be awarded to an Aboriginal resident of Newfoundland and Labrador in the Faculty of Business Administration. Eligible students must be in scholarship standing, be enrolled as a full-time undergraduate or graduate student in the Faculty of Business Administration at Memorial University of Newfoundland and provide confirmation of their Aboriginal status. In the case of undergraduate students, the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation from the Dean, Faculty of Business Administration. In the case of graduate students, the scholarship will be awarded by the Dean of Graduate Studies upon the recommendation of the Dean, Faculty of Business Administration.

The Faculty of Business Administration Jacinta Sheppard Fellowship
This fellowship, made possible through a donation by the Faculty of Business Administration, is in honour of Jacinta Sheppard, an M.B.A. student who passed away in 1997 after a lengthy illness. While in the M.B.A. program, Ms. Sheppard demonstrated academic excellence and a dedication to learning. This fellowship has a value of $1,000.00 annually, and will recognize a full-time student who, in the opinion of a Selection Committee, Faculty of Business Administration, has demonstrated these same qualities. The award will be made by the Dean of Graduate Studies on the recommendation of the Dean, Faculty of Business Administration.

Faculty of Medicine Graduate Scholarships
The Faculty of Medicine Graduate Scholarship was established by a generous gift of $500,000 through Dare To: The Campaign for Memorial University. The scholarship will be awarded to a full-time graduate student in the first year of a two-year master’s program in the Faculty of Medicine, and is valued at a portion of the income on the endowment. Preference will be given to students with research interests related to the study of autism. Preference is also given to students interested in remaining in NL after graduation (though this is not required). To be eligible, students must have scholarship standing. The scholarship will be awarded by the Dean of Graduate Studies based on the recommendation of the Dean, Faculty of Medicine.

The Dr. Alex Faseruk MBA Scholarship for Excellence in Service
The Dr. Alex Faseruk MBA Scholarship for Excellence in Service is awarded annually to a full-time MBA student of scholarship standing who has demonstrated outstanding service through participation in student, faculty or university activities and/or contribution to the larger community. This award is in recognition of Dr. Faseruk’s contribution to the Faculty of Business Administration as Professor of Finance and Coach of MBA case competition teams. The value of this scholarship will be determined by the annual income derived from the endowment. It will be awarded by the Dean of Graduate Studies upon the recommendation of the Associate Dean, Academic Programs, Faculty of Business Administration.

The J. Bruce and Helen H. French Graduate Scholarship in Physics
This scholarship valued at the annual accrued interest on an initial endowment, will be awarded to a female student at any level of a graduate program in physics on the basis of excellence in both course work and research. If, in a particular year, a qualified female student is not available, the scholarship may be awarded to a male student who meets the other conditions. The scholarship will be awarded by the Dean of Graduate Studies upon the recommendation of the Hea, Department of Physics.

The P.J. Gardiner Award for Small Business and Entrepreneurship
This fund was established from contributions to the University’s Anniversary Fund to commemorate the memory of the late Peter Gardiner, a former Director of Memorial University of Newfoundland’s School of Business and a local entrepreneur. This award is valued at $5,000.00 annually and will recognize student creativity, innovation and entrepreneurship as evidenced by a student’s genuine interest in small business and entrepreneurship through the establishment or the intention to establish a new venture. Students in any program of study (graduate or undergraduate) are eligible. To apply for the P. J. Gardiner Award, students are to provide a written report...
The Peter Gardiner Award for International Study

This fund was established from contributions to the University's Anniversary Fund to commemorate the memory of the late Peter Gardiner, a former Director of Memorial's School of Business. Interest from the fund will provide or two annual awards of $2,500.00 each to support Business students (graduate and/or undergraduate) to study at Memorial University of Newfoundland's Harlow Campus or at another university outside Canada. In the case of undergraduate students, the awards will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards acting on the recommendation of this panel. In the case of graduate students the award will be made by the Dean, School of Graduate Studies upon recommendation of the Committee on Graduate Studies of the Faculty of Business Administration.

Graduate Students' Union Award for Academic Excellence

The award, valued at a portion of the income from the endowment, has been established by the Graduate Students' Union (GSU) of Memorial University of Newfoundland to provide financial assistance and recognize outstanding contributions by graduate students. The GSU Award for Academic Excellence will be awarded annually to a full-time graduate student in any discipline at either the masters or doctoral level. Applicants must have a strong academic record, and have made significant contributions to their field of study. The Award, based on financial need and academic excellence, will be made by the Dean of the School of Graduate Studies on the recommendation of the Awards and Medals Committee.

Graduate Students' Union Award for Leadership

The award valued at a portion of the income from the endowment, has been established by the Graduate Students' Union (GSU) of Memorial University of Newfoundland to provide financial assistance and recognize outstanding contributions by graduate students. The GSU Award for Leadership will be awarded annually to a full-time graduate student in any discipline at either the masters or doctoral level. Applicants must have demonstrated leadership ability, either through participation in student and university activities, and/or contribution to the larger community. The Award, based on financial need and outstanding leadership, will be made by the Dean of the School of Graduate Studies on the recommendation of the Awards and Medals Committee.

Keith Griffiths Memorial Heart and Stroke Foundation Graduate Scholarship

This scholarship, established through a generous contribution by the Griffiths family, in partnership with the Heart and Stroke Foundation of Newfoundland and Labrador, is valued at $1,500 per year. The Griffiths family has established this scholarship in memory of their father, Keith Griffiths, a stroke survivor and dedicated volunteer. The scholarship is awarded annually to a graduate student who is pursuing a research program in stroke and neurological issues related to stroke. Students in the Faculty of Medicine, School of Nursing or School of Pharmacy are eligible to apply; however, preference is given to full-time Faculty of Medicine graduate students. Candidates must apply in writing, providing a statement of eligibility, as well as details of their area of research, and progress. Applications shall be submitted to the Faculty of Medicine, Office of Research and Graduate Studies, Memorial University of Newfoundland. The award will be made by the Dean of Graduate Studies on the recommendation of a committee including the Assistant Dean, Graduate Studies (Medicine) and the Graduate Program Coordinators (Medicine).

The Mary A. Griffiths Memorial Bursary Fund for Folklore Field Research (Graduate)

This fund has been established by the Memorial University of Newfoundland Folklore Society in memory of Mary A. Griffiths, B.A. (Folklore). One or more bursaries valued at a minimum of $500.00 each will be awarded annually to graduate Folklore students who wish to pursue field research. The awards will be made by the Dean of Graduate Studies on the recommendation of the Head of the Department of Folklore. Selection will be made on the basis of a submitted research proposal as well as demonstrated financial need. Application forms and guidelines are available from and should be submitted to the Folklore Department. Deadline date for submission of applications is January 31. If there are no suitable candidates in a given year the bursaries will not be awarded.

Dr. Diana L. Gustafson Travel Award

This graduate student award was established through the generous support of Dr. Diana L. Gustafson, Associate Professor, Division of Community Health and Humanities, Faculty of Medicine. It was created to help defray travel costs incurred while presenting a paper on research at a national, regional or international conference. Valued at $500, it will be awarded annually to a part-time master’s or doctoral student (Canadian resident or international student) who is currently enrolled in a thesis-based program in Community Health and Humanities. Preference will be given to a student with high academic merit. The graduate program committee of CHH will make recommendations to Research and Graduate Studies (Medicine). The award will be granted by the Dean of Graduate Studies on the recommendation of the Assistant Dean of Graduate Studies (Medicine).

The Michael Harrington Research Prize in Newfoundland History

This award was established by the family of Michael Francis Harrington Sr., journalist, author and Newfoundland historian. The prize is valued at a minimum of $500.00 and will be awarded annually to an undergraduate or graduate student doing research in Newfoundland history. To be considered, undergraduate students must be history majors planning to do research for a course in Newfoundland history or towards an honours thesis. Graduate students must be writing a thesis on some aspect of Newfoundland history. In some instances it may be awarded as a travel grant which will assist students with travel expenses incurred while undertaking their research. In the case of undergraduates it will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Head, Department of History. In the case of graduates it will be awarded by the Dean, School of Graduate Studies, also upon recommendation of the Head, Department of History.

The Professor Peter Hart Memorial Scholarship

This scholarship has been established in memory of Canada Research Chair in Irish Studies and Department of History Professor, Dr. Peter Hart. His work was marked by a commitment to writing well and accessibly, and by his innovative approach to research and analysis -- in particular for opening up new social science methods and concepts to problems of Irish history. The scholarship, valued at a portion of the income on the investment, will be awarded annually to a full-time doctoral student in the Faculty of Arts. Candidates must meet the minimum academic requirements for the scholarship as defined by the University and applications must include academic transcripts, a research statement of no more than 500 words, a writing sample, two letters of reference and an academic CV. In the event of more than one eligible candidate, preference will be given to a student whose research focus falls into one or more of the following areas: Irish history or politics; Newfoundland and Labrador history or politics; political violence; or revolution. The Scholarship will be awarded by the Dean, School of Graduate Studies, on the recommendation of the Awards and Medals Committee.

The Dr. Austin J. Harte Memorial Scholarship

The Dr. Austin J. Harte Memorial Scholarship commemorates the memory of Austin Harte who was a member of the Faculty of Education, Memorial University of Newfoundland from 1991-1995. The scholarship, which is valued at one thousand dollars ($1,000.00),
may be awarded annually to a student in a graduate program, in the Faculty of Education. In order to be eligible for consideration, candidates must be registered full time and satisfy all other conditions as stipulated by the University. The Scholarship will be awarded by the Dean, School of Graduate Studies upon the recommendation from the Dean, Faculty of Education. A special application is required and may be obtained from the Faculty of Education and/or the School of Graduate Studies. Deadline for Application: March 15.

A.G. Hatcher Memorial Scholarship
Normally, up to three A. G. Hatcher Memorial Scholarships are awarded annually commencing in the Fall Semester. The awards are to be made solely on the basis of high academic merit. Typically a minimum of a first class degree is required. One scholarship shall be awarded to a student who graduates with a Bachelor of Commerce degree from Memorial University of Newfoundland, one to an applicant who graduated with an undergraduate degree from a Canadian university, and, one to an applicant who graduated with an undergraduate degree from a foreign university. The value of the scholarship is $15,000, and it may be held for one year only. Recipients holding a major external award of $15,000 or greater will retain $3,000 of the A. G. Hatcher Memorial Scholarship. One nomination from each category listed above, for these awards, should be forwarded to the Dean or Director by June 1st. Deadline for the Dean or Director to submit nominations to the School of Graduate Studies is June 15th.

The Rolf G. Hattenhauer Scholarship Fund
This fund was established by the Labour Management Co-operation Committee to commemorate the late Professor Rolf G. Hattenhauer, a well-known Newfoundland arbitrator who was actively involved in setting up the Committee. Professor Hattenhauer was a member of the Department of Commerce (later the Faculty of Business Administration) at Memorial University of Newfoundland from 1965 until his death in 1983, and during the year 1969-70 served as Head (pro tem) of the Department. The fund will provide scholarships and fellowships on a rotating basis in undergraduate and graduate studies in Business Administration.
In the case of the undergraduate scholarships, preference will be given to students in Terms 6 and 7 of the Bachelor of Commerce program who are majoring in Labour Relations. These scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of Business Administration.
In the case of the graduate fellowships, preference will be given to those students in the Master of Business Administration program who are concentrating in or conducting research on the area of personnel and industrial relations. The graduate fellowships will be awarded by the Dean of Graduate Studies on the recommendation of the Dean of Business Administration. If a suitable graduate student is not available in a given year the scholarship for that year may be awarded to an undergraduate student.

Heart and Stroke Foundation Graduate Scholarship
This scholarship, established by donations from The Heart and Stroke Foundation of Newfoundland and Labrador, is valued at $1,500 per year. The scholarship is awarded annually to a graduate level student who is pursuing a research program related to heart health or heart diseases. Students in the Faculty of Medicine, School of Nursing or School of Pharmacy are eligible to apply; however, preference is given to full-time Faculty of Medicine graduate students. Candidates must apply in writing, providing a statement of their research, supported by a reference letter from the applicant’s supervisor, verifying the area of research and progress to date. Consideration will be given to the student’s course work, research and other related accomplishments. Applications shall be submitted to the Faculty of Medicine, Office of Research and Graduate Studies, Memorial University of Newfoundland. The scholarship will be awarded by the Dean of Graduate Studies on the recommendation of a committee including the Assistant Dean, Graduate Studies (Medicine) and the Graduate Program Coordinators (Medicine).

The Shawn C. Hillier Memorial Scholarship
This scholarship was established by the parents of Shaun C. Hillier who, at the time of his sudden passing, was a graduate student in the Faculty of Science at Memorial University of Newfoundland. Shaun was near completion of his Master of Science degree program in Scientific Computing (Mathematics). Though he enjoyed his course work, it was through his work towards his thesis that he found the most excitement and satisfaction. Valued at a portion of the income on the endowment, it will be awarded annually to a full-time student who has completed an M.Sc. thesis in Scientific Computing or Mathematics and Statistics with a strong scientific computing component. The recipient must meet the minimum academic requirements for a scholarship as defined by Memorial University of Newfoundland and be recommended by the thesis supervisor. This scholarship will be awarded by the Dean of Graduate Studies on the recommendation of the Head of the Department of Mathematics and Statistics and the Chair of the Scientific Computing Program.

The Jim Hood Memorial Scholarship
This scholarship was established through the generous bequest of Jim Hood, an alumnus and friend of the Faculty of Business Administration. Valued at a portion of the income on the investment, the scholarship is open to full-time undergraduate and graduate students in the Faculty of Business Administration who meet scholarship standing and who have been active in athletics at Memorial University of Newfoundland and/or in the community. In the case of the graduate student, the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of Business Administration. In the case of the graduate student, the scholarship will be awarded by the Dean of Graduate Studies on the recommendation of the Dean of Business Administration.

Human Resources Professionals of Newfoundland and Labrador (HRPNL) Student Member Award
Valued at $500, this award was established by the Human Resources Professionals of Newfoundland and Labrador (HRPNL), a Provincial Association of HR Practitioners. It will be awarded annually to a graduate or undergraduate student who is focusing his or her studies on Human Resources Management courses on a full-time basis. To become eligible, students must be a member in good standing of HRPNL and/or have an undergraduate degree from a Canadian university, and meet the minimum academic requirements for an award as defined by Memorial University of Newfoundland. HRPNL will provide a current list of their student members in the Winter semester and the selection will be made based on academic standing. The award will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards or the Dean of the School of Graduate Studies, on the recommendation of the Dean, Faculty of Business Administration.

The Imperial Tobacco Canada Limited Graduate Scholarship in Business Studies
This Scholarship, valued at a portion of the income on the pre-existing endowment, was established from a generous donation made by Imperial Tobacco Canada Limited in 2000-2001. Two awards will be made annually to entering full-time M.B.A. students. This Scholarship may include, at the discretion of the donor, an invitation to their head office to meet their management team. Selection of the candidates will be made on the basis of academic merit. The award will be made by the Dean, School of Graduate Studies upon the recommendation of the Dean, Faculty of Business Administration.

Shahana Islam Memorial Award
This award was established to celebrate the life of Shahana Islam, a staff member of the International Student Advising Office. Shahana was a colleague, wife, mother, sister, friend, gifted artist and avid volunteer. She passed away in April 2010 but not before touching the lives of countless students and members of the University community. Helping students was very important to Shahana and through this award she will continue to play a role in improving the lives of international students. Valued at a portion of the income on the endowment the award will be granted annually to a full or part-time undergraduate or graduate international student in any program or area of study who meets the minimum academic requirements for an award as defined by Memorial University of Newfoundland. The recipient will be a student who lives with their family (spouse, partner and/or children under 18) while attending Memorial University of Newfoundland. Students who have permanent residence status are not eligible. In the case of undergraduate students, the award will be...
granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. In the case of graduate students, the award will be granted by the Dean, School of Graduate Studies. Both will be based on a recommendation from the International Student Advising office.

R. L. Jacobs Graduate Research Award in Biochemistry
This award was established by a generous donation from Drs. L. M. Stead and R. L. Jacobs. Valued at $2,000.00, it will be awarded annually to a full-time graduate student (M.Sc. or Ph.D.) registered in the Department of Biochemistry on the basis of academic excellence and demonstrated research ability. The recipient must meet the minimum academic requirements for an award. This award will be granted by the Dean of Graduate Studies on the recommendation of the Head, Department of Biochemistry.

The Dr. Ethel M. Janes Memorial Scholarship in Education (Graduate)
From a sum of money endowed to Memorial University of Newfoundland by the late Dr. Ethel M. Janes, one scholarship valued at $2,000.00 will be awarded annually on the basis of scholastic achievement. Dr. Janes, a Professor of Education at Memorial University of Newfoundland for twenty-eight years, devoted most of her professional career to study, research and teaching in primary and elementary education. Her contribution to the development of primary and elementary teacher education programs within the faculty was significant, as was her influence on primary and elementary education in the schools. Two generations of prospective teachers were her students. This scholarship will be awarded on the basis of academic standing in a first Memorial University of Newfoundland degree to a graduate student with a specialization in reading or language arts. In the event that in any given year no graduate student qualifies for the award, this scholarship will be awarded to an undergraduate student. Installments of $1,000.00 each will be awarded in two successive academic terms; and the scholarship is renewable for two years, provided first-class standing is maintained. This award will be made by the Dean of Graduate Studies upon the recommendation from the Dean, Faculty of Education.

The JUNO Legacy Graduate Scholarship in Music
This scholarship was established by the 2010 JUNO Awards Host Committee to support excellence in music. This scholarship, valued at $2,000 will be awarded annually to a full-time graduate student at the School of Music enrolled in the Master of Music (M.Mus.) program. The recipient must meet the minimum academic requirements for a scholarship as defined by Memorial University of Newfoundland. It will be awarded by the Dean, School of Graduate Studies on the recommendation of the Director, School of Music.

Irshad Khan Scholarship for Safety and Risk Engineering
The Irshad Khan Scholarship, established by Dr. Faisal Khan in memory of his father, is valued at $1,000. It will be awarded annually to a full-time engineering graduate student at either the masters or doctoral level who has excelled in the area of Safety and Risk Engineering. It will be awarded by the Dean of Graduate Studies on the recommendation of the Dean, Faculty of Engineering and Applied Science.

The Law Foundation of Newfoundland and Labrador Legal Research Awards for Students of Memorial University
The Law Foundation of Newfoundland and Labrador annually offers up to seven Legal Research Awards valued at $750 each to students at Memorial University of Newfoundland. The Awards are for outstanding research papers on one or more legal issues or topics treated in a legal context in a 2000 level course or beyond in any discipline at the undergraduate level and in any graduate course for students at the graduate level. A first year course is not eligible with the sole exception of LWSO 1000: Law, Democracy and Social Justice. Papers submitted by, and with endorsement of, a course professor or lecturer will be judged initially by the Dean, Director, or Department Head who will make a recommendation to a special selection committee comprised of appointees of Memorial University of Newfoundland and the Law Foundation. Undergraduate students will receive a minimum of two awards and graduate students will receive one or more of the seven awards available annually. In the case of undergraduate students the awards will be made by the Senate Committee on Undergraduate Scholarships, Bursaries, and Awards. In the case of graduate students the awards will be made by the Dean, School of Graduate Studies. In both cases they will act upon the new recommendation of the Foundation's selection committee.

The LGL Limited Scholarship in Marine Science
This scholarship, valued at $1,000.00, was established by LGL Limited. It will be awarded annually to a student in the Faculty of Science who is following a program of studies related to Marine Science. The successful candidate will be either a fourth year undergraduate student doing an honors program or a graduate student. Wherever possible, preference will be given to a student from a fishing family, but other students will be considered. In the case of undergraduate students the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of academic standing. In the case of graduate students the scholarship will be awarded by the Dean, School of Graduate Studies. In both cases it will be based upon a recommendation from the Dean, Faculty of Science.

Dr. Jon Lien Memorial Recruitment Scholarship
This recruitment scholarship was established to commemorate the life and work of Dr. Jon Lien, C.M., O.N.L., through contributions by his friends, colleagues, students, and family. As a result of his work at Memorial University of Newfoundland (1968-1996) Dr. Lien became an international leader in marine conservation and animal behavior. His pioneering methods to release entrapped whales from fishing gear – including the development of acoustic alarms to warn whales away from such entrapments – earned him unqualified respect with both fishermen and scientists around the globe. His work brought talented students to Memorial University of Newfoundland, empowering them by demanding excellence and maximum commitment while strongly believing in their potential. A substantial contribution to the scholarship was provided by the family and friends of Dr. Deane Renouf, a student of Jon's, who passed away in 1993. In the spirit of collaboration that Jon held dear, this scholarship will honour the memories of both mentor and student. Dr. Renouf was instrumental in establishing the Cognitive and Behavioral Ecology program at Memorial University of Newfoundland and was a noted marine mammal ecologist in her own right. Valued at a portion of the income on the endowment, this scholarship will be awarded to a full-time undergraduate student undertaking studies in marine animal behavior, marine conservation, coastal community revitalization or a current fishery challenge and may be renewable for a maximum of two years at the discretion of the Dean of Science. If the student does not accept the offer to study at Memorial University of Newfoundland, the scholarship will be awarded to the next ranked candidate. The recipient must meet the minimum academic requirements for a scholarship as defined by Memorial University of Newfoundland. This scholarship will be awarded by the Dean of the School of Graduate Studies on the recommendation of the Dean of Science.

Noah Curtis Godwin Lloyd Student Award
The Noah Curtis Godwin Lloyd Student Award was established by the family of baby Noah Lloyd who was born on April 6, 2008 and died two days later of septicaemia from a small bowel volvulus. Valued at a portion of the interest on the endowment, this award in Noah’s memory will be granted to a student in the Faculty of Medicine who is planning a career in a primary healthcare discipline, who has succeeded through hard work and perseverance, and displays humility and gentleness of character in approaching work and life. It will be granted annually on a rotating basis between undergraduate students and graduate students. The recipient must meet the minimum academic requirements for an award as determined by the Faculty of Medicine, Memorial University of Newfoundland. When awarded to an undergraduate student it will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Medicine. When awarded to a graduate student it will be awarded by the Dean, Research &
Dr. Alan G. Macpherson Graduate Research Award in Historical and Cultural Geography
This award was established by a generous donation from Dr. Alan G. Macpherson. Dr. Macpherson studied historical geography at the University of Edinburgh (M.A. (Hons.) 1950) and McGill University (Ph.D. 1966) and was an active member of the Department of Geography at Memorial University of Newfoundland from 1966-1993. He made major contributions to knowledge of the postglacial climate and vegetation of Newfoundland. She is a Fellow of the Royal Canadian Geographical Society and currently holds the position of Professor Emerita. Valued at a minimum of $2000 it will be granted annually to a full-time graduate student of Historical or Cultural Geography in the Department of Geography, to support fieldwork expenses, conference expenses, or other research expenditures. The recipient must meet the minimum academic requirements for an award as defined by Memorial University of Newfoundland. This award will be granted by the Dean of Graduate Studies based upon the recommendation of the Head, Department of Geography in consultation with the Geography Scholarship Committee. Application forms are available at the Department of Geography.

The Maritime Awards Society of Canada (MASC) Maritime Studies Scholarship
The Maritime Awards Society of Canada has established an annual scholarship tenable at Memorial University of Newfoundland. The successful candidate will be a Canadian citizen studying in a "maritime based" program at either the Masters or Doctoral level. This scholarship will have a value of at least $5,000.00 a year and in some cases may be renewed for a second year. It will be awarded by the Dean of Graduate Studies upon the recommendation of the appropriate Academic Unit.

Maritime History Internship
This fund, jointly sponsored by the Canadian Nautical Research Society and the School of Graduate Studies, is designated to support a graduate student in history to train as an editorial intern with the journal The Northerner Manner/Le Marin du nord. It will be awarded on the basis of academic standing to a graduate student pursuing studies in the area of maritime history. The award will normally be made to an entering student, but may be made to a student already enrolled in the graduate program. Valued at $12,000.00 per year, it will be paid over a period of three successive academic semesters and may be renewed. Masters students may be renewed for one additional year and doctoral students may be renewed for up two additional years. The internship will be awarded by the Dean of Graduate Studies on the recommendation of the editors of The Northerner Manner/Le Marin du nord and the Department of History.

The Edgar Raymond Martin Memorial Scholarship in Music
This scholarship, valued at the annual accrued interest on the endowment, has been established by Mrs. Helen MacLeod in memory of her brother Edgar Raymond Martin. Edgar completed a Bachelor of Science at McGill University, Montreal in 1942 and died later that year while returning to St. John's aboard the S.S. Caribou which was torpedoed, causing the loss of 137 lives. Edgar was 19 years old and had a profound love for classical music. In his memory, this scholarship will be awarded to a full time graduate student in the School of Music. It will be awarded by the Dean, School of Graduate Studies based on a recommendation from the Dean, School of Music.

The Margaret D. McLean Scholarship
The Margaret D. McLean Scholarship, valued at the annual accrued interest on the initial endowment, is awarded to a graduate student in the area of maritime history. The award will normally be made to an entering student, but may be made to a student already enrolled in the graduate program. Valued at $2000 it will be granted annually to a graduate student pursuing studies in the area of maritime history. The award will normally be made to a student whose focus is on the collection, research or preservation of music in Newfoundland and Labrador. It will be granted by the Dean, School of Graduate Studies on the recommendation of the Dean, School of Music.

Master of Gender Studies Graduate Travel Award
Funded through generous contributions to the Department of Gender Studies, this award is available bi-annually (one time in each of the Fall and Spring semesters) to full-time or part-time students enrolled in the two-year Master of Gender Studies program. This award is established to assist with travel to scholarly conferences for the purpose of presenting academic papers and/or posters. Successful applicants must be enrolled in the first two years of the Master of Gender Studies program and must submit the following criteria, with a copy of the Graduate Student Request for Travel Assistance form, to the Department of Gender Studies: acceptance of a paper/poster presentation, proof of support of co-authors/professors, relevance to the students' program of study and the estimated cost of travel. Successful applicants are eligible to receive up to $100 for travel within North America and up to $200 for travel outside of North America. It will be awarded by the Dean of Graduate Studies based on the recommendation of the Graduate Coordinator who will be advised by the Graduate Studies Advisory Committee.

Medical Graduates Students' Society Graduate Travel Award in Medicine
This award was established through continuing support from the Medical Graduate Students' Society. Valued at $250, it will be awarded annually to a full-time graduate student pursuing a research program at the Masters or Doctoral level in the Faculty of Medicine to assist...
in the presentation of the student’s research at a conference. The award will be competitive and based on an abstract or paper to be presented at the meeting. Preference will be given to students attending their first conference. The recipient must meet the minimum academic requirements for an award as defined by Memorial University of Newfoundland. This award will be granted by the Dean of the School of Graduate Studies on the recommendation of the Assistant Dean, Research and Graduate Studies and the Graduate Awards Committee of the Faculty of Medicine.

The Medical Graduate Students’ Society Scholar and Community Involvement Award
The Medical Graduate Students’ Society of the Faculty of Medicine wishes to support graduate students in medicine through two annual awards. The awards will be given in the fall of each year to full-time current graduate level students in the Faculty of Medicine, one to a Master’s student and one to a Ph.D. student. Candidates must apply in writing providing a statement of eligibility as well as details of their area of research and progress, a CV and a written paragraph about the candidate’s community involvement and participation in extracurricular activities must also be included. The Award will be made by the Dean of Graduate Studies on the recommendation of a Committee including the Assistant Dean, Graduate Studies (Medicine) and the Graduate Program Coordinators (Medicine).

The Medical School Essay Graduate Student Award
The Medical School Essay Graduate Student Award The Medical School Essay Award is supported by the K.B. Roberts Scholarship Fund, which was established in appreciation of the contribution made to the Faculty of Medicine by Dr. Kenneth Roberts. The award, valued at a portion of the income on the endowment, will be awarded annually to any graduate medical student registered full-time in the current academic year following a competition in the form of an original essay or short monograph pertaining to any aspect of medicine or the medical sciences. The essay, not exceeding 5,000 words, should include an interpretative element that indicates the importance and relevance to Medicine, Health and Society. Should there be two essays that are of very high caliber but one is obviously the better provision may be made for an honourable mention award of lesser value. Submission deadline is July 31, in any given year, to the Office of Student Affairs HSC Room 2713. The award is made by the Dean of Graduate Studies on recommendation of the Dean’s Advisory Committee on Awards, Bursaries and Scholarships in the Faculty of Medicine.

The Gordon Mertz Memorial Fellowship in Physical Oceanography
This fund was established as a memorial for Dr. Gordon Mertz by his family. Dr. Mertz was a Physical Oceanographer at the Northwest Atlantic Fisheries Centre of the Department of Fisheries and Oceans. Interest from the fund will be used to provide a fellowship which will be awarded annually on the basis of academic excellence to a full-time graduate student working in an area of Physical Oceanography with applications in Fisheries Oceanography or Marine Ecology. The fellowship will be awarded by the Dean of Graduate Studies upon recommendation of the Head, Department of Physics and Physical Oceanography.

The W.F. Morneau Scholarship
This scholarship, valued at the interest on the initial endowment will be awarded by the Dean, School of Graduate Studies upon the recommendation of the Dean, Faculty of Business Administration to a full-time Business Administration student who has been granted direct entry on a full-time basis to Term 3 of the Master of Business Administration Program and who has exhibited a high level of ambition. Financial need may also be taken into consideration when awarding this scholarship.

The Shree Mulay Community Health Graduate Student Award
This graduate student award is established through the generous support of Dr. Shree Mulay, Associate Dean and Professor, Division of Community Health and Humanities, Faculty of Medicine. It is created to help students who wish to be full-time in the Community Health Programs meeting the funding requirements of the Office of Research and Graduate Studies, Faculty of Medicine. One graduate research scholarship will be given annually to incoming thesis graduate students with a declared interest in pursuing full-time studies who do not have adequate funding (by way of scholarship, fellowship, or faculty research monies) to qualify for full-time status. These funds may be used alone or in conjunction with other student awards or partial supervision funding to meet the full-time funding requirement of the Office of Research and Graduate Studies (Medicine). During the year of the award, it is expected that the student and supervisor will seek external funding to support the research program. Normally a student will be eligible to receive the scholarship only once during her or his program. There will be one competition per year, coinciding with the Winter semester selection process. All incoming candidates accepted for the M.Sc. and Ph.D. programs in the Division of Community Health and Humanities (CHH) will be considered for the award in accordance with the terms and conditions described above. The graduate program committees of CHH will make recommendations to Research and Graduate Studies (Medicine). The award will be made by the Dean of Graduate Studies on the recommendation of the Assistant Dean of Graduate Studies (Medicine).

The Neil Murray Graduate Research Award in Folklore
The Research Award, sponsored by the Newfoundland and Labrador Arts Council, is established to commemorate the energy of Neil Murray in his encouragement and promotion of our provincial folk music traditions. Open to students currently registered in the graduate program in folklore at Memorial University of Newfoundland, two awards of $250, or one of $500, will normally be given each year. These awards are designed to fund costs related to the accomplishment of, or the presentation of, research on the traditional performing arts in Newfoundland, including song, dance, drama, or narrative and/or the cultural traditions of the Newfoundland fishery. The awards, given on the basis of demonstrated academic merit and a research proposal or conference paper abstract demonstrating original, creative and innovative thought, will be made by the Dean, School of Graduate Studies upon the recommendation of the Head, Department of Folklore, who will be advised by the Selection Committee. Applications should be directed to the head, Department of Folklore. The deadline for application is March 1st each year.

The National Scholarship in Ocean Studies at Memorial University of Newfoundland
The federal Department of Fisheries and Oceans (DFO) has helped to establish The National Scholarship in Ocean Studies to be awarded to an outstanding Ph.D. candidate in an aspect of ocean studies which may include: chemistry, biochemistry, biology, physics, earth sciences, geography, economics or engineering. The award valued at $18,000 per annum for a maximum of three successive years may be held in conjunction with other major awards. The award is made only on the basis of academic excellence and the successful candidate must exhibit and maintain first-class standing. Guidelines and applications for the scholarship are available from the School of Graduate Studies. Final selection of the candidate will be made by a committee which reports to the Dean of the School of Graduate Studies. A one-time grant of up to $2,000 may be made in support of travel to appropriate conferences where the student is presenting research findings. Deadlines for applications will be July 1 in any one year when the scholarship is available, and application should be made on appropriate forms available from the School of Graduate Studies.

The Newfoundland and Labrador Neurotrauma Initiative Program, a partnership between the Rick Hansen Man in Motion Foundation, the Canadian Paraplegic Association, the Brain Injury Association and the Government of Newfoundland and Labrador. The award will be available on an annually rotating basis between undergraduate and graduate students, with first preference given to a student who has been identified with a brain or spinal cord injury. For undergraduate students an application is required which is available at the Scholarships and Awards Office website at www.mun.ca/scholarships. Graduate Students are required to apply specifically to the School of Graduate Studies, Room IIC 2021, Bruno Centre for Research and Innovation, (709) 864-2600. If no candidate is available with a brain or spinal cord injury, preference will be given to a student who is studying in any field related to neurotrauma. If it is not awarded at the level of
study (i.e. graduate/undergraduate) on rotation in a given year, it may be awarded to a student studying at the other level for that year. In the case of undergraduates, the award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. In the case of graduates it will be awarded by the Dean, School of Graduate Studies on the recommendation of the Awards and Medals Committee. This award is open to part-time or full-time students with clear academic standing.

Newfoundland St. Andrew's Society Scholarship
This scholarship is the result of a gift from the Newfoundland St. Andrew's Society to Memorial University of Newfoundland. Valued at a minimum of $1,000.00 annually, it will be awarded on the basis of academics to either a graduate or undergraduate student enrolled in the School of Social Work. If granted to an undergraduate the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. If awarded to a Graduate Student, it will be awarded by the Dean, School of Graduate Studies. In either case the scholarship will be awarded on the basis of an appropriate recommendation from the Dean, Faculty of Arts.

The Elizabeth A. Newlands Memorial Scholarship in Social Work
This scholarship has been named to honour the late Mrs. Elizabeth Newlands, one of the first graduates of the B.S.W. Program as Memorial University of Newfoundland. Valued at a minimum of $1,000.00 annually, it will be awarded on the basis of academics to either a graduate or undergraduate student enrolled in the School of Social Work. If granted to an undergraduate the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. If awarded to a Graduate Student, it will be awarded by the Dean, School of Graduate Studies. In both cases it will be awarded on the basis of a recommendation from the Dean, Faculty of Arts.

The Elizabeth A. Newlands Memorial Scholarship in Social Work
This scholarship has been named to honour the late Mrs. Elizabeth Newlands, one of the first graduates of the B.S.W. Program as Memorial University of Newfoundland. Valued at a minimum of $1,000.00 annually, it will be awarded on the basis of academics to either a graduate or undergraduate student enrolled in the School of Social Work. If granted to an undergraduate the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. If awarded to a Graduate Student, it will be awarded by the Dean, School of Graduate Studies. In either case the scholarship will be awarded on the basis of an appropriate recommendation from the Dean, Faculty of Arts.

The Dennis R. Prince Memorial Scholarship
This scholarship has been made available by the Prospectors and Developers Association of Canada, its history, literature, music and national games in a Newfoundland context. In the case of undergraduate students the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. If awarded to a Graduate Student, it will be awarded by the Dean, School of Graduate Studies. In either case the scholarship will be awarded on the basis of an appropriate recommendation from the Dean, Faculty of Arts.

The Nopah Consulting Limited Bursaries in Earth Sciences
Three bursaries, valued at $2,500 each, will be awarded annually to full-time graduate students who are enrolled in a masters program in the area of geology and whose topic of research is directly related to Newfoundland and Labrador. These bursaries will be awarded on the basis of demonstrated financial need and academic standing. They are tenable at Memorial University of Newfoundland and may be renewable for a second year. They will be awarded by the Dean of Graduate Studies, on the recommendation of the Head, Department of Earth Sciences.

Dermot O’Reilly Legacy Award
The award, valued at a portion of the income on the investment, is established through funds raised by family, friends and music lovers, in Dermot O’Reilly’s memory after his untimely passing in 2007. Dermot chose to make Newfoundland his home in 1971 where he found here a kinship to the Dublin of his youth in the people, music and songs. Here, his life was music. He delighted in sharing music with others and was a mentor to many aspiring musicians. Dermot’s friends and family carry on his legacy by creating this award to encourage and support the promotion of traditional music, oral tradition and dance in Newfoundland and Labrador. It will be given annually to a part-time or full-time student at Memorial University of Newfoundland enrolled in any program of study that meets the academic requirements for an award as outlined by the University. Eligibility should be based on established support of traditional music, oral tradition or dance amongst Newfoundlanders and Labradorians. The successful candidate will be determined at the discretion of the Dermot O’Reilly Legacy Award Selection Committee and will have made evident, either through actions or creative undertakings, contributions to the province by demonstrating leadership and creativity in the tradition-bearer community. To be considered, candidates must apply no later than February 1. Applications are available at the Undergraduate Scholarships and Awards Office, School of Graduate Studies. A resume of all relevant information including academic standing, publications, research, recordings, projects, performances, etc. It will be awarded by either the Senate Committee on Undergraduate Scholarships, Bursaries and Awards or the Dean, School of Graduate Studies as appropriate based on the recommendation from the Committee.

The Senator Gerald R. Ottenheimer Language Scholarship
This scholarship, valued at the annual interest on the initial endowment, has been established via The Opportunity Fund in memory of Senator Ottenheimer through the generosity of White Ottenheimer & Baker, Barristers & Solicitors. It will be awarded on a rotating basis to students majoring in one of the language programs or the English programs at Memorial University of Newfoundland (graduate or undergraduate level). In the case of undergraduate students it will be awarded once the student is accepted into a student in second year or beyond who plans to pursue one of the above noted areas of specialization. In the case of graduate students it will be awarded to a full-time student doing the Masters of Arts in one of the disciplines noted. If the successful candidate is an undergraduate, the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. If the winner is a graduate student, it will be awarded by the Dean, School of Graduate Studies. In both cases it will be awarded on the basis of a recommendation from the Dean, Faculty of Arts.

The Stuart O. Pierson Prize
The Stuart Pierson prize, valued at a portion of the annual interest, will be awarded annually on the joint recommendation of the Head of the History department and the Co-ordinator of the Masters of Philosophy program in Humanities. Eligible students will be enrolled full time, in either the Master of Arts or Philosophy Humanities program, or in the MA or BA Hons, programs in History. Preference will be given to students who show particular promise in the history of ideas, historiography, or the history of science. In the case of undergraduate students, the scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. In the case of graduate students, it will be awarded by the Dean, School of Graduate Studies.

The Dennis R. Prince Memorial Scholarship
The Dennis R. Prince Memorial Scholarship has been made available by the Prospectors and Developers Association of Canada, Falconbridge Ltd., the Porcupine Prospectors and Developers Association, the mining community, colleagues, friends and family of the late Dennis Prince. Dennis graduated from Memorial University of Newfoundland in 1970 with a B.Sc. Honours degree. He led a distinguished career as a geologist with twenty-nine years at Falconbridge Ltd. The annual scholarship, valued at $2,000.00 and an engraved Brunton compass, will be awarded to a final year student specializing in mineral exploration and development in the honours program of the undergraduate degree in Earth Sciences at Memorial University of Newfoundland. If there is no qualified undergraduate student a graduate student who has been accepted for post-graduate studies in mineral exploration and development at Memorial University of Newfoundland and who intends to pursue a career in the mineral industry, will be considered. The qualifying student must demonstrate scholarship standing, strong personal values including a strong work ethic and high personal integrity. Active participation and leadership in geological associations and activities such as The Alexander Murray Geology Club and the Geological Association of Canada may be taken into consideration as well as financial need. In the case of undergraduates the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. In the case of graduates it will be awarded by the Dean, School of Graduate Studies. In both cases it will be based on a recommendation from the Head, Department of Earth Sciences in consultation with the PDAC and the Prince family.

Professional Engineers and Geoscientists Newfoundland and Labrador Past Presidents’ Geoscience Scholarship
This scholarship valued at a minimum of $1,000.00 was established by the Professional Engineers and Geoscientists Newfoundland and
Labrador. It is awarded annually on the basis of scholarship standing to a Geoscience student at Memorial University of Newfoundland. It is open to either graduate or undergraduate students in any given year and will be allocated as such at the discretion of the Department Head. In the case of undergraduates, the scholarship is awarded by the Senate Committee Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Head, Department of Earth Sciences in consultation with PEGNL. In the case of graduates it is awarded by the Dean of Graduate Studies upon recommendation of the Head, Department of Earth Sciences, in consultation with PEGNL.

The Gar Pynn Scholarship in Business
This endowed scholarship is made possible through a very kind donation to Memorial University of Newfoundland by an anonymous donor in recognition of Professor Pynn’s contribution to the Faculty of Business Administration over his 27 years of service. A scholarship valued at approximately $2,000.00 will be awarded annually to a full-time student at the end of his or her first year of full-time study in the M.B.A. Program. It will be awarded to the student who has best demonstrated a combination of academic excellence, significant contributions to the faculty and leadership in student life within the M.B.A. Program. The scholarship will be awarded by the Dean of Graduate Studies upon recommendation of the Dean, Faculty of Business Administration.

The Rothermere Foundation Fellowships
These Fellowships, the gift of the first Chancellor of the University, have been established to aid and encourage students who have taken their first degree at this University to pursue their studies for a British higher degree at a university of their choice in the United Kingdom. It is not intended that students who have obtained most of their education in Britain be eligible for a Fellowship. Awards are made by the Rothermere Fellowships Trust, on the recommendation of the President of Memorial University of Newfoundland.

The conditions of the award are as follows:
1. Candidates shall have completed a bachelor’s degree at Memorial University of Newfoundland and have completed or be about to complete a master’s degree either at Memorial University of Newfoundland or at another university in North America.
2. Fellowships will be awarded only to candidates who are proceeding to the United Kingdom to work for a British higher degree. Fellowships will not be awarded to candidates who wish to extend their stay in Britain to obtain a further British higher degree. Persons who are full-time members of a faculty of Memorial University of Newfoundland are not eligible for a Rothermere Fellowship.
3. The awards will be restricted to a maximum tenure of three years or the period requested in the candidate’s application, whichever is the lesser. Continuation beyond the first year will depend on certification of competence and satisfactory progress.
4. Candidates must accept and complete the term of years for which the Fellowship has been awarded unless the requirements for the qualifications for which the Fellowship was awarded have been completed before the term expires. No interruption of tenure or postponement of the date of commencement of the Fellowship will be allowed.
5. One Fellowship is usually awarded each year.
6. The value of the stipend is currently £14,514 per annum, plus tuition fees. The fees will be paid direct to the university concerned upon receipt of an invoice. The stipend will be credited to the Fellow’s banking account in quarterly instalments.
7. The Trust will pay for a return airfare, economy class, for Fellows from Newfoundland to England, and back to Newfoundland in each year of their Fellowship (a year being twelve months from the start of the Fellowship and every twelve months of the Fellowship thereafter). Flights must be economy return. The Trust will reimburse the air fare in the final year of award, on the proviso that the student must use the return portion to travel back to Newfoundland within one month of completing the Fellowship.
8. Completed applications must be submitted in duplicate to this office before the 30th of November and must be accompanied by the following documentation, also in duplicate:
   a. an official transcript of marks from Memorial University of Newfoundland and from any other university attended;
   b. a letter of recommendation from the dean of the faculty or school in which the applicant was registered as an undergraduate at Memorial University of Newfoundland;
   c. a letter of recommendation from the head of the department in which applicant majored as an undergraduate at Memorial University of Newfoundland; and
   d. a letter of recommendation from the applicant’s present master’s level supervisor;
   e. as indicated in Section 15 of the application, applicants must submit a personal statement on how their research will contribute or be of value to Newfoundland and Labrador. The statement must also contain a section on the candidate’s commitment to Newfoundland and Labrador. Note that additional letters of recommendation and other information in support of the application may be submitted at the applicant’s discretion.

Applicants are encouraged to begin the process of applying to universities in the United Kingdom before submitting the Rothermere Fellowship application.

Further information may be obtained by writing Margot Brown, Executive Director/Assistant to the President, Room AA2028, Arts and Administration Building, Memorial University of Newfoundland, St. John’s, NL, A1C 5S7, or by telephone to (709) 864-8216, or by fax to (709) 864-2059, or by e-mail to mbrown@mun.ca.

Royal Bank Fellowship in Marine Studies
This fellowship is provided through the generosity of the Royal Bank of Canada. It is valued at $5,000 and is open to full-time graduate students in fields related to marine studies including, but not limited to, marine biology, aquaculture, biopsychology, fisheries resource management, maritime history, cold ocean engineering, folklore and naval architecture. The award, given on the basis of academic merit, will be made by the Dean of the School of Graduate Studies upon recommendation from the Head of the appropriate academic units in the above noted areas. The award is not renewable but re-applications will be considered.

Very Reverend Edward and Marjorie Rusted Harlow Travel Award
This award was established by generous donations in memory of the Very Reverend Edward and Marjorie Rusted. Valued at a portion of the income on the endowment, it will be awarded annually to a graduate student wishing to travel to Harlow either to undertake graduate thesis-related research or who has enrolled in a graduate course that is offered at the Harlow Campus. This award is intended to help defray the expenses for airfare and accommodation. The recipient must meet the minimum academic requirements for an award. Applications are the made to the Dean of Graduate Studies, who will grant the award on the recommendation of the Dean’s Advisory Committee on Medals and Awards.

Sceptre Investment Counsel Limited Bursary
Sceptre Investment Counsel, one of Canada’s leading pension and mutual fund managers and an important partner to Memorial University of Newfoundland for several years, has established this bursary as a demonstration of its commitment to community support. Valued at the accrued interest on their endowment, one or more bursaries will be awarded annually on a rotating basis between undergraduate and graduate students in any field of study. Successful candidate(s) must be Newfoundland residents demonstrating
financial need and displaying qualities of leadership. In the case of undergraduates, it will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards using scholarship standing as the primary determinant. Graduate students can make application in writing to the Dean of Graduate Studies. The award will be made by the Dean on the recommendation of the Awards and Medals Committee.

School of Graduate Studies F.A. Aldrich Fellowships
Six to eight fellowships valued at $20,000 per annum on the doctoral level and $15,000 on the masters level will be awarded to incoming full-time Canadian students. Renewal for one year at the doctoral level will be possible. These fellowships were established to celebrate the 25th Anniversary of the School of Graduate Studies in 1999 from a portion of the proceeds of the Opportunity Fund and in honour of Memorial University of Newfoundland’s first Dean of the School of Graduate Studies, Dr. F.A. Aldrich (1970-1987). Recipients will be selected by the Dean of the School of Graduate Studies, on the recommendation of the Awards and Medals Committee, on the basis of exceptional academic achievement.

School of Pharmacy Graduate Travel Award
This award was established by a generous donation from Dr. John Weber, a faculty member in the School of Pharmacy. It is the wish of Dr. Weber to provide more opportunities for graduate students to present their research findings at academic conferences. Successful applicants must be enrolled in the first two years of a full-time graduate program at the School of Pharmacy and must submit the following criteria, with a copy of the Graduate Student Request for Travel Assistance form, to the School of Pharmacy: acceptance of a paper/poster presentation, written support of co-supervisors, relevance to the students’ program of study and the estimated cost of travel. Students are only eligible to receive this award once during enrolment in their program. Students must meet the minimum academic requirements for an award as defined by Memorial University of Newfoundland. The deadlines for submissions are November 1st, March 1st and July 1st for the Winter, Spring and Fall semesters respectively. Successful applicants are eligible to receive $350. This award will be granted by the Dean of the School of Graduate Studies on the recommendation of the Dean of the School of Pharmacy.

School of Pharmacy Millennium Graduate Fellowship
This fellowship valued at the annual accrued interest on an initial endowment from the School of Pharmacy, is to be awarded to a full-time graduate student in Pharmacy and will be in addition to any other graduate student support held. The award is made on the basis of academic excellence in both course work and research (equally). This fellowship is not renewable for students in the master’s program, but is renewable once for students in the Doctoral program. All full-time graduate students at the School of Pharmacy are eligible to apply for this award. In case of candidates with equal qualifications, preference will be given to Canadian citizens and permanent residents. The award will be made by the Dean of Graduate Studies on the recommendation of the Dean of the School of Pharmacy.

Scotiabank Bursaries for International Study
These bursaries, funded by a generous donation from Scotiabank to The Opportunity Fund, are intended to help students broaden their educational experience and culture an international perspective through study abroad while pursuing studies in the Faculty of Arts at Memorial University of Newfoundland. The bursaries will be valued at a portion of the income on the endowment. The undergraduate bursaries will be awarded on the basis of scholarship standing to full-time students who are participating in one of the overseas Field Schools or study abroad opportunities sponsored by the Faculty of Arts. These include the Arts semester in Harlow (every Fall) as well as Summer programs at Harlow, UK and in other countries, with a preference for those in which Scotiabank operates. In addition, students wishing to participate in formal exchange programs through the Faculty of Arts will also qualify. The graduate bursaries will be based on the academic achievements of full-time (master’s and doctoral) students (including those in award of interdisciplinary programs) to travel to other countries for the purpose of thesis research and thesis-related study. In both cases financial need may be taken into consideration. In the case of undergraduates the bursaries will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. In the case of graduates, they will be awarded by the Dean, School of Graduate Studies. In both cases the bursaries will be awarded on the basis of recommendation from the Dean, Faculty of Arts.

Sea-Hawks Athletics Award
A limited number of athletic awards are available to student-athletes who exhibit leadership, achievement and athletic success. The annual number and value of awards will vary. To be eligible, returning student-athletes, either undergraduate or graduate, must be a current member of a Memorial University of Newfoundland Sea-Hawks Athletic team and have achieved a minimum average of 65% based on the previous academic year of study at Memorial University of Newfoundland. First-year athletes will also be eligible provided they have an 80% final admission average. Other criteria including financial need, service to the university and the community may be considered. In the case of undergraduate students the award will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. In the case of graduate students the award will be granted by the Dean, School of Graduate Studies. In both cases the award is based upon the recommendation of the Director of Athletics, School of Human Kinetics and Recreation, in consultation with the coaches of varsity teams.

The Dr. Jorge Segovia Scholarship in Health Services Research
This scholarship has been established in honour of Dr. Jorge Segovia (former Associate Dean of Community Health and Professor Emeritus of Social Medicine). It is valued at $3500.00 annually and will be awarded to any full-time graduate student doing Health Service Research at Memorial University of Newfoundland. The recipient of this scholarship will be selected on scholarship standing through such accomplishments as best paper, best thesis, or best research project. The scholarship will be awarded by the Dean, School of Graduate Studies, on the recommendation of the Dean, Faculty of Medicine, in consultation with the Associate Dean Community Health.

The Dr. Robert W. Sexty Scholarship for Social Responsibility
The scholarship, valued at a portion of the income on the investment, will be awarded annually to a full-time or part-time student enrolled in any undergraduate or graduate business program. The scholarship will be awarded to a student who has demonstrated commitment to social responsibility through academic achievement in a social responsibility course or ethics in business related courses, or successful completion of an M.B.A. research project relating to social responsibility, or involvement in social responsibility as exemplified through university or community service. In the case of undergraduate students, the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and the recommendation of the Dean, Faculty of Business Administration. In the case of graduate students the scholarship will be awarded by the Dean, School of Graduate Studies on the recommendation of the Dean, Faculty of Business Administration.

Dr. Alfred K. Snegrove Graduate Scholarship in Earth Sciences
A bequest from Dr. Alfred K. Snegrove makes possible up to two scholarships, valued at $5,000.00 per annum, for students applying for or enrolled in a graduate program in the Department of Earth Sciences. These scholarships are intended primarily for Canadian citizens or permanent residents, and are awarded by the Dean of Graduate Studies on the recommendation of the Head of the Department of Earth Sciences. The scholarships are tenable for one year, and may be renewed. They may be held in addition to other scholarships and fellowships, and will be awarded only to applicants whose academic excellence and research potential can be clearly demonstrated.

Special Scholarships for Students to Pursue Graduate Studies Related to Resource Development
The “Special Scholarships for Students in the Sciences Related to Resource Development” will be in the amount of $7500.00 annually for students registered in full-time post-graduate studies at Memorial University of Newfoundland, in programs leading to the Master’s and/
Scholarships, Bursaries and Awards 2015-2016

or Doctorate degrees in the Sciences related to Resource Development. A scholarship may be renewed and awarded for one additional year only.

The scholarships are to be tenable at Memorial University of Newfoundland, but under special circumstances may include approved studies abroad. Eligible candidates normally should be residents of the province, or should have been resident in the province for at least three years prior to entering the program, excluding time spent at post-secondary institutions.

Candidates will normally have a First-Class Undergraduate Degree, or a Second-Class Degree with First-Class standing in courses in their major field of study. Candidates should apply for the scholarships to the Office of the Dean of Graduate Studies, Memorial University of Newfoundland.

The St. John’s Maple Leafs Legacy Scholarship

This scholarship was established by the Leafs Foundation Inc. and the St. John’s Maple Leafs Booster Club to recognize the contribution of the St. John’s Maple Leafs hockey team to youth and community in the Province. Valued at a portion of the income on the investment, the scholarship is open to full-time undergraduate or graduate students in the Faculty of Business Administration who meet scholarship standing and who have been active in athletic or extracurricular activities at Memorial University of Newfoundland and/or in the community. In the case of undergraduate students the scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of the Faculty of Business Administration. In the case of graduate students, the scholarship will be awarded by the Dean of Graduate Studies on the recommendation of the Dean of the Faculty of Business Administration.

L. M. Stead Oral Competition Awards

These awards were established by a generous donation from Drs. L. M. Stead and R. L. Jacobs. Valued at $500.00 each, the awards will be granted annually to graduate students (M.Sc. and Ph.D.) with the best oral presentations during the Department of Biochemistry’s annual Research Day. The recipient must meet the minimum academic requirements for an award. This award will be granted by the Dean of Graduate Studies on the recommendation of the Head, Department of Biochemistry.

Eleanor Swanson Scholarship in Music

This scholarship was established through a generous donation from Ms. Eleanor Swanson. Raised in a household that cherished music in all its forms, Ms. Swanson acknowledges that music has always been an integral part of her life from the earliest age. In recognition of the important role music plays in our lives and how invaluable music is to our rich culture, this scholarship was established to afford talented students the opportunity to pursue their dreams. Valued at $3,500 annually, this scholarship will be awarded to one or more students each year of study, enduring in an ongoing study or graduate program within the School of Music. The recipient must meet the minimum academic requirements for a scholarship as outlined by Memorial University of Newfoundland and have demonstrated financial need. In the case of an undergraduate student, the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. In the case of graduate students, the scholarship will be awarded by the Dean, School of Graduate Studies. In both cases it will be awarded on the basis of a recommendation from the Dean, School of Music.

TD Gradate Bursary for Environmental Study

The TD Graduate Bursary for Environmental Study was established by a gift from TD Bank Group to Dare To: The Campaign for Memorial University. The bursaries will be awarded to full-time graduate students enrolled in any program at Memorial University of Newfoundland who have provided they are pursuing research and/or study in environmental-related subjects. Recipients must meet the academic criteria for a Bursary. The number and value of the bursaries available each year will depend on the funds available for distribution as per University policy, as well as the applicant pool, and will be determined at the discretion of the Dean, School of Graduate Studies. The bursaries will be awarded by the Dean, School of Graduate Studies based upon recommendations of Deans and/or Department Heads of any eligible discipline.

The Dr. Anna C. Templeton Memorial Graduate Scholarship

This fund was established from a bequest to the University by Dr. Anna C. Templeton. Awarded annually and valued at approximately 75% of the earned interest, the scholarship is open to full-time graduate students in any year of their program who are residents of Newfoundland and Labrador. Preference will be given to students who have demonstrated leadership in teaching, promotion or development of craft or home economics in the province of Newfoundland and Labrador. Normally the award will be made to a student in the Faculty of Arts, the Faculty of Science, the School of Nursing, the School of Social Work or at Grenfell Campus, or the Fisheries and Marine Institute. The scholarship will be awarded by the Dean, School of Graduate Studies upon recommendation from the head of appropriate academic units in the above-noted areas. The award is not renewable, but reapplications will be considered.

The Dr. Wilfred Templeman Memorial Scholarship

In commemoration of the 15th Anniversary of the cod moratorium, the Provincial Government has created this award in honour of Dr. Wilfred Templeman, a pioneer of fisheries research in Newfoundland and Labrador. This scholarship will be available to full-time students pursuing a graduate program in which groundfish research is the primary focus. Successful applicants will receive $2,500 per year for a maximum of two years for work towards a graduate degree in a program appropriately related to the stated goals of the scholarship. The application should contain a brief description of the research being undertaken towards the graduate degree and a statement of how the research is consistent with the goals of the scholarship donor. Candidates should apply for the scholarship to the Office of the Dean of Science no later than the last day of December of the first academic year of their graduate program. Awards will be made by the Dean of Graduate Studies on the recommendation of the Dean of Science.

The J. Beryl Truscott Graduate Scholarship

This fund is established in memorial to J. Beryl Truscott, a long-time employee of the Marine Sciences Research Laboratory, and is administered by the School of Graduate Studies. It is valued at $2000.00 and is normally awarded annually to a full-time student pursuing a graduate program in either Chemistry or Biochemistry. Awards will be made by the Dean of Graduate Studies based upon recommendations from the Head, Department of Biochemistry and the Head, Department of Chemistry.

The Leslie Tuck-Avian Ecology Award

This endowed scholarship is named in honour of the late Dr. Leslie Mills Tuck, the first Dominion Wildlife Officer and Canadian Wildlife Service Officer in Newfoundland and Labrador. Author of two definitive and award-winning books on Newfoundland birds, The Murres (1961) and The Snipes (1972), Leslie Tuck was a J.L. Paton Research Chair in the Department of Psychology following his retirement from the Canadian Wildlife Service, and a member of the Natural History Society of Newfoundland and Labrador which he was instrumental in sustaining. The award, valued at $1,000 annually, will be made by the Dean of Graduate Studies on the recommendation of the Dean of Science. A committee appointed by the Dean of Science shall select a nominee whose research and its relevance to the avian ecology and ecosystem preservation in Newfoundland and Labrador. Eligible candidates must be full-time graduate students in biopsychology, biology or psychology. The winning essay will be published in The Osprey, the quarterly publication of the Natural History Society of Newfoundland and Labrador.

University Support

A limited amount of University Support may be awarded to full-time students working toward graduate degrees at this University. Awards will be made by the Dean of Graduate Studies on the recommendations of Departments. These awards may be supplemented by remuneration for extra duties performed in the Departments at the discretion of Department Heads.
Dr. Harrison Hedley Way Scholarship
This scholarship was established by a generous donation from Dr. Elizabeth (Way) Johnson in the name of her late father, Dr. Harrison Hedley Way of Bonavista, NL. In the early 1970’s, he was invited to establish and direct the Department of Educational Psychology within the Faculty of Education at Memorial University of Newfoundland; a post he held for fifteen years. Dr. Harrison Hedley Way was a financial supporter of young Newfoundlanders and Labradorians who pursue higher education, and this scholarship will ensure that this practice will continue on in perpetuity. Valued at a portion of the income on the investment, it will be awarded annually to a student who has graduated from a Newfoundland high school. The student must be enrolled full-time in the Counseling and Psychology program in the Faculty of Education at Memorial University of Newfoundland. Preference will be given where financial need is demonstrated. The recipient must meet the minimum academic requirements for a scholarship as outlined by the University. This scholarship will be awarded by the Dean of the School of Graduate Studies on the recommendation of the Dean, Faculty of Education.

The Josephine Welch Research Initiative Award
The Josephine Welch Research Initiative Award, established by Dr. David Behm, is valued at $500. It will be awarded annually to a full-time graduate student who has demonstrated leadership ability through participation in student, faculty or University activities and/or contribution to the larger community. Preference will be given to students with a demonstrated career interest in the area of finance. The value of this scholarship will be determined by the annual income derived from the initial endowment. It will be awarded by the Dean of Graduate Studies upon the recommendation of the Director of Athletics.

The George Weston Graduate Scholarships
Two scholarships valued at a minimum of $2,000.00 each, will be awarded annually to full-time graduate students, one in the field of Marine Biology and one in the field of Marine Engineering. These students must have been born in one of the Atlantic Provinces. Valued at Memorial University of Newfoundland, these scholarships will be awarded by the Dean of Graduate Studies upon recommendation from the Deans of Science and Engineering.

Women’s Association of Memorial University of Newfoundland Graduate Student Scholarship
Two Master’s level and two Ph.D. level scholarships valued at $1,200.00 each will be awarded annually to full-time students entering a program in the School of Graduate Studies. Of the Master’s level awards, one shall be for a thesis program, and one for a non-thesis program. Preference will be given to students with a demonstrated career interest in the area of finance. The value of this scholarship will be determined by the annual income derived from the initial endowment. It will be awarded by the Dean of Graduate Studies upon the recommendation of the Dean, Faculty of Business Administration.

Edna R. Woolgar Graduate Scholarship in Nursing
Edna Woolgar (nee Garland) was born in Carbonear, Newfoundland. She attended the Grace Hospital School of Nursing and practiced in the case room at the Grace Hospital and then as a private duty nurse. The friendship that she formed in nursing school remained and became stronger throughout the years. The scholarship, valued at a portion of the income from the endowment, will be presented annually to a graduate student in the School of Nursing who is completing research in or who has a passion for oncology or palliative care. The scholarship will be awarded annually to a student who has demonstrated leadership ability through participation in student, faculty or University activities and/or contribution to the larger community. Preference will be given to students with a demonstrated career interest in the area of finance. The value of this scholarship will be determined by the annual income derived from the initial endowment. It will be awarded by the Dean of Graduate Studies upon the recommendation of the Dean, Faculty of Business Administration.

The Wood Gundy Scholarship for Graduate Business Students
The Wood Gundy Scholarship for Graduate Business Students will be awarded annually to an M.B.A. student of scholarship standing who has demonstrated leadership ability through participation in student, faculty or University activities and/or contribution to the larger community. Preference will be given to students with a demonstrated career interest in the area of finance. The value of this scholarship will be determined by the annual income derived from the initial endowment. It will be awarded by the Dean of Graduate Studies upon the recommendation of the Director of Athletics.

Dr. James A. Wright Memorial Scholarship in Earth Sciences
This scholarship was established in memory of Dr. James “Jim” Arthur Wright (1941-2010) by his wife Elsie and family. Dr. Wright was born, raised and educated in Toronto. Following a Bachelor’s degree in Engineering Physics, a Master’s degree in Physics, and a Ph.D. in Geophysics at the University of Toronto in 1968 he spent one year in Braunschweig, Germany, on a NATO Post-Doctoral Fellowship. He accepted a faculty appointment at Memorial University of Newfoundland in 1969 and worked there for 39 enjoyable years until his retirement in 2008. Jim was active in geophysical exploration, was the co-founder of a small oil and gas venture, and an active member of several professional organizations. Valued at Memorial University of Newfoundland, this scholarship will ensure that this practice will continue on in perpetuity. Valued at a portion of the income from the endowment, it will be awarded annually to a student who has graduated from a Newfoundland high school. The student must be enrolled full-time in the Counseling and Psychology program in the Faculty of Education at Memorial University of Newfoundland. Preference will be given where financial need is demonstrated. The recipient must meet the minimum academic requirements for a scholarship as defined by Memorial University of Newfoundland and must be engaged in non-political community and/or church volunteer activities. This scholarship will be awarded by the Dean of the School of Graduate Studies on the recommendation of the Dean, Faculty of Earth Sciences.

Dr. Lynda Younghusband Counselling Award
The Dr. Lynda Younghusband Counselling Award has been established by Dr. Younghusband to promote the counseling profession and to improve access to the national conference for students. This award will be given to either a full-time or part-time graduate student enrolled in the Master of Education (Counselling Psychology) program and who is attending the national conference of the Canadian Counselling Association to present a scholarly paper or poster. The recipient must meet the academic requirements for an award. It will be awarded by the Dean of Graduate Studies upon the recommendation of the Dean, Faculty of Education.
12.2 Graduate Awards Administered By Other Authorities

The Association of Registered Nurses of Newfoundland Education and Research Trust Scholarship
A $1000.00 scholarship is available from the A.R.N.N. for students pursuing graduate studies in Nursing. The application form is available in writing from The Association of Registered Nurses of Newfoundland, P.O. Box 6116, St. John’s, NL, A1C 5X8 or by telephone to (709) 753-6040.

The Board of C.T. Bowring & Co. Ltd., London, England, together with Mr. Edgar Bowring and Mr. Peter Bowring, former Chairmen of that Company, have made available to Memorial University of Newfoundland, through the Harlow Campus Trust, a grant to establish a scholarship fund for students at the post-baccalaureate level who wish to live at the University’s Harlow Campus while undertaking approved studies in Great Britain. It is hoped that interest on the fund will finance up to two annual scholarships of £600 each. In special circumstances the interest may be applied to a single award. In making the award, scholastic achievement and financial need will be considered. The scholarships are awarded by the Trustees of the Harlow Campus Trust on submissions of the Dean of Graduate Studies and the Co-ordinator of Harlow following recommendations from the Faculties/Schools responsible for the applicants’ academic programs.

Canadian Federation of University Women (Saint John, NB) Lillian D. & Charles R. Bone Memorial Scholarship for Post-Graduate Study - $1,500
The Canadian Federation of University Women - Saint John offers this scholarship to a female student who is entering a Post-Graduate Degree Program. Eligible candidates must have graduated from a New Brunswick School District 8 High School or be a resident in the greater Saint John area.

The Canadian Gerontological Nursing Association
Sancella/CGNA Nursing Scholarship - 2 awards of $1000.00. The purpose is to provide support to outstanding Registered Nurses undergoing further education in either an undergraduate nursing degree program, or a post graduate degree program that is relevant to career development in the field of Gerontological Nursing.

The candidate must:
- Be a member of the Canadian Gerontological Nursing Association.
- Be registered to practise nursing in a Canadian Province.
- Have accepted full-time acceptance to a suitable full-time program in a recognized educational institution at the time of taking up the award.
- Exhibit interest in and potential for, a career in Gerontological nursing in Canada.
- Be a Canadian citizen or permanent resident at the time of taking up the award.

The scholarship is administered by the CGNA and further information regarding criteria can be obtained in writing to CGNA, c/o Nancy Bol, Parkwood Hospital, 801 Commissioners Rd. E., London, Ontario N6C 5J1

Canadian Institutes of Health Research (CIHR)
The Council awards each year a number of awards, grants, fellowships, and scholarships in the area of health related fields to those undertaking graduate study and research leading to advanced degrees. Further information and applications are available from their website at www.cihr-irsc.gc.ca.

Canadian Nurses Foundation Scholarships & Fellowships Competition
Scholarships and fellowships are awarded to nurses pursuing education at the baccalaureate, master and doctoral levels. In addition to non-specific studies, awards are available for specific area of practice such as northern nursing, occupational health, dialysis nursing, neurological nursing, oncology nursing, community health, gerontology nursing, pediatric nursing and nursing administration. Applications must be members of CNA and CNF, be Canadian citizens and agree to work in Canada for a period of one year for each year of financial assistance. Application forms are available from their website cnf-flic.ca/ or in writing to Canadian Nurses Foundation, 50 Driveway, Ottawa, Ontario K2P 1E2 or by telephone to (613)237-2133 or by fax to (613)237-3520.

Graduate Students’ Union (GSU) Award for Excellence in Community Service
Two awards of $250 each are awarded annually to graduate students of any program at Memorial University of Newfoundland. A selection committee will determine award recipients based on community service endeavours. Nomination forms and further information are available at the GSU website www.gsumanu.ca/

Graduate Students’ Union (GSU) Award for Excellence in Research
Two awards of $250 each are awarded annually to graduate students of any program at Memorial University of Newfoundland. A selection committee will determine award recipients based on research the student has accomplished at Memorial University of Newfoundland. Nomination forms and further information are available at the GSU website www.gsumanu.ca/

Graduate Students’ Union (GSU) Award for Excellence in Teaching
Two awards of $250 each are awarded annually to graduate students of any program at Memorial University of Newfoundland. A selection committee will determine award recipients based on evidence of exceeding normal teaching requirements. Nomination forms and further information are available at the GSU website www.gsumanu.ca/. Two awards of $250 each are awarded annually to graduate students of any program at Memorial. A selection committee will determine award recipients based on research the student has accomplished at Memorial University of Newfoundland. Nomination forms and further information are available at the GSU website www.gsumanu.ca/

I.O.D.E. Scholarships for Graduate Study in Canada or Overseas Within the Commonwealth
To honour the memory of the men and women who gave their lives for Canada in World Wars I and II, these memorials were established to provide scholarships for graduate study. Candidates must be Canadian citizens and must hold a first degree from a recognized university in Canada. At the time of applying, a candidate must hold a Master's degree or be in the final year of studies leading to a Master's degree. Further Information is available in writing to The Head Office, I.O.D.E., 40 Orchard View Boulevard, Suite 254, Toronto, Ontario M4R 1B9.

The Medical School Essay Postgraduate Student Award
The Medical School Essay Award is supported by the K.B. Roberts Scholarship Fund, which was established in appreciation of the contribution made to the Faculty of Medicine by Dr. Kenneth Roberts. This award, valued at a portion of the income on the endowment, will be awarded annually to any postgraduate medical student registered full-time in the current academic year following a competition in the form of an essay or short monograph pertaining to any aspect of medicine or the medical sciences. The essay, not exceeding 5,000 words, should include an interpretative element that indicates the importance and relevance to Medicine, Health and Society. Should there be two essays of very high caliber but one is obviously the better provision may be made for an honourable mention award of lesser value. Submission deadline is April 30, in any given year, to the Office of Student Affairs HSC Room 2713. The recipient of this award will have their essay printed in the Memorial University Journal of Human Health. The award is made on the recommendation of the Dean’s Advisory Committee on Awards, Bursaries and Scholarships in the Faculty of Medicine.
Natural Sciences and Engineering Research Council of Canada (NSERC)
The Council awards each year, in open competition, a number of post-graduate scholarships in Science and Engineering to assist students in undertaking graduate study and research leading to advanced degrees. These scholarships and fellowships are tenable at both Canadian universities and institutions outside Canada. Further information and applications are available from their website www.nserc-crsng.gc.ca.

The J.W. Pickersgill Fellowship
The J.W. Pickersgill Fellowship Act provides for the award of a fellowship valued at $7,500.00 per annum to a graduate of Memorial University of Newfoundland for the pursuit of doctoral studies in History or Political Science at any university. Application forms and regulations are available from the Office of the Dean of Arts, to whom applications must be submitted by February 15.

Rotary Awards
The Rotary Foundation of Rotary International offers Graduate Fellowships for those who will have received a bachelor's degree or equivalent. Further information and applications are available from their website www.rotary.org/ or in writing to The Rotary Foundation of Rotary International, One Rotary Centre, 1560 Sherman Avenue, Evanston, IL 60201 USA.

The St. John's Association of Basketball Officials Award
From a sum of money donated by the St. John's Association of Basketball Officials an award valued at a portion of the annual income on the investment is to be provided annually to a full-time or part-time Memorial University of Newfoundland student, either graduate or undergraduate, who is an active member of the University basketball community. The candidate must meet the University's definition of Clear Standing. In the case of graduate students the award will be made by the Dean, School of Graduate Studies. In the case of undergraduate students the award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. In both cases the award is based on the recommendation of the executive of the St. John's Association of Basketball Officials.

The Schulich Scholarship for Entrepreneurship
This scholarship, sponsored by Nevada Capital Corporation Ltd. is open to students completing the first year of the M.B.A. program of the Faculty of Business Administration at Memorial University of Newfoundland. The scholarship will be awarded to the student who, in the opinion of a Selection Committee, Faculty of Business Administration, has best demonstrated an entrepreneurial orientation in first-year M.B.A. studies and in other related activities. Students must make special application for the award to the Dean, Faculty of Business Administration.

Social Sciences and Humanities Research Council of Canada (SSHRC)
The Council offers fellowships and grants in the Social Sciences and Humanities. Among Council programs of aid are research grants and short-term grants, and the following awards that are based upon annual competitions: doctoral fellowships and postdoctoral fellowships. Further information and applications are available from their website www.sshrc-crsh.gc.ca.

Dr. Howard Strong Memorial Postgraduate Geriatric Psychiatry Scholarship
This scholarship has been established through generous gifts from colleagues, classmates, friends and family of Dr. Howard Strong, a well-known geriatric psychiatrist and member of the first medical graduating class at Memorial University of Newfoundland. The scholarship will be awarded annually to the resident who is rated by the faculty as having the best performance in the Geriatric Psychiatry rotation during the psychiatry residency training program in the Faculty of Medicine at Memorial University of Newfoundland. It will be awarded by the Faculty of Medicine Postgraduate Medical Education Committee on the basis of a recommendation from the Discipline of Psychiatry and with the approval of the Dean of Medicine. The Office of Postgraduate Medical Education will oversee administration of the scholarship.

12.3 Other Awards
Fellowships and research grants for advanced study are available, in open competition, from many other organizations and foundations. Information about these awards is available from the Office of the Dean of Graduate Studies.
