Applications are invited for a full-time tenure track appointment at the level of Assistant Professor in Pharmacoepidemiology and Pharmacy Practice. Applicants should hold a degree in a field or fields related to the teaching and research responsibilities of the position. Either a Ph.D. in Pharmacoepidemiology (an undergraduate degree in pharmacy is desirable) OR a Pharm.D. with thesis based graduate training (e.g., M.Sc. in clinical epidemiology) and a record of research experience is preferred.

A completed earned doctorate (or Ph.D. equivalent) is required for the appointee to receive the rank of Assistant Professor and to be in a tenure-track position. If a successful candidate has not completed an earned doctorate, they shall be appointed to a regular term, non-renewable three-year appointment at the rank of Assistant Professor. If the candidate completes all the requirements for the doctorate during the first 24 months of the term appointment, they shall begin a tenure-track appointment following completion of the requirements of the degree.

The successful candidate will be responsible for undergraduate and graduate teaching in the areas of pharmacoepidemiology, pharmacy practice, and other related areas. Supervision of graduate students, engaging in research/scholarly activities and rendering academic service will be expected. The successful candidate will be expected to establish an externally funded research program. Opportunities for direct patient care may also be available.

The School of Pharmacy is located in the Health Sciences Centre on the campus of Memorial University. This facility also houses the Faculty of Medicine and School of Nursing, the Health Sciences Library, the General Hospital, and the Children’s Health and Rehabilitation Centre. This integrated complex has allowed close working relationships, in both research and teaching, among the faculties of Medicine, Nursing and Pharmacy.

The School of Pharmacy is accredited by the Canadian Council for Accreditation of Pharmacy Programs. Research strengths include health outcomes / pharmacy practice, drug discovery and delivery, and the scholarship of teaching and learning. Collaborative research with Canadian, American and globally-recognized universities and research institutes is encouraged.

Memorial University is the largest university in Atlantic Canada. As the province’s only university, Memorial plays an integral role in the education and cultural life of Newfoundland and Labrador. Offering diverse undergraduate and graduate programs to more than 18,000 students, Memorial provides a distinctive and stimulating environment for learning in St. John’s, a safe, friendly city with great historic charm, a vibrant cultural life and easy access to a wide range of outdoor activities.

All qualified candidates are encouraged to apply; however, Canadian citizens and permanent residents will be given priority. Memorial University is committed to employment equity and encourages applications from qualified women and men, visible minorities, aboriginal people and persons with disabilities. For more information about Memorial please visit www.mun.ca.

The anticipated start date will be January 2019 or at a time to be negotiated.

The deadline for receipt of applications is: September 30, 2018.
Applicants should submit a letter of interest, curriculum vitae, a statement of their teaching and research philosophy and the names and addresses of three referees, indicating the Job Reference Number VPA-PHAR-2018-001 to:
